[(f) The Department shall maintain a listing of specific block face locations in each restricted location zone that are available for the assignment of restricted location permits. Such listing shall be updated monthly, and shall be available for public inspection during the Department's normal business hours.]

[(g)] (e) After [November 20, 1995] January 1, 1999, any eligible disabled veteran may apply to exchange his or her [restricted location permit] specialized vending license for a different [restricted location permit for an available block face location in a restricted location zone] specialized vending license either inside of or outside of the midtown core in accordance with the application procedures enumerated in this section.

(f) City specialized vending licenses shall be yellow and midtown specialized vending licenses shall be blue. Each such specialized vending license also shall contain a photograph of the disabled veteran to whom such license is assigned as well as his or her name, home address, specialized vending license number, and such licensee's assigned priority number.

§ 2. Section 2-316 of subchapter AA of chapter 2 of title 6 of the Rules of the City of New York is hereby repealed.

Statement of Basis and Purpose. The Department of Consumer Affairs currently licenses general vendors pursuant to subchapter 27 of chapter 2 of title 20 of the New York City Administrative Code.

Section 35-a of the General Business Law was repealed and reenacted this year and establishes requirements that the City must follow in order to issue specialized vending licenses authorizing disabled veterans to vend on certain streets that would otherwise be restricted to general vendors. This State law also requires that the Department set forth by rule no later than October 1, 1998, procedures for issuing these specialized vending licenses and that these rules establish a priority system, based upon the date of application for specialized vending licenses, provided, however, that any disabled veteran vendor holding a general vending license issued in the City prior to June 30, 1995, shall be accorded a priority based upon the date of issuance of such general vendor license.

The proposed rule establishes specific qualifying documentation that such disabled veterans are to submit in their applications for such licenses. It also sets the dates by which such applications are to be submitted by veterans in order to receive priority consideration. Moreover, since the numbers on the general vendor's licenses have been assigned chronologically, the rule establishes that the licensee with the lowest numbered general vendor's license shall be accorded priority.

I hereby find, pursuant to §1043, subdivision e, paragraph 1(c) of the City Charter, and represent to the Mayor, that there is a substantial need for the implementation of the rule governing general vendors upon its publication in the *City Record*.

Chapter 227 of the Laws of 1998, which becomes effective 90 days after August 3, 1998, contains a provision that became effective on August 3, 1998 and which requires that the City adopt, by no later than October 1, 1998, rules that establish the procedures for issuing specialized vending licenses to qualified disabled veterans as provided in such chapter. Chapter 227 provides that the City may issue no more than sixty such specialized vending licenses to disabled veteran vendors for locations in an area designated as the midtown core of Manhattan. Such chapter also provides that the City may issue specialized vending licenses to disabled veteran vendors for areas outside the midtown core that would otherwise be restricted to general vending. It additionally provides that the City's rules include a priority system for issuing specialized vending licenses.

This rule amendment establishes the procedures necessary to implement the issuing of specialized vending licenses to disabled veterans as provided in Chapter 227. Because the State law mandates that the rules to establish such procedures be effective by October 1, 1998, the implementation of the rule upon publication is necessary to ensure that these requirements will be adopted by the date mandated by State law.

ADVISORY REPORT

ISSUE DATE:	DOCKET #:	CRA #:
09/10/98	990300	CRA 99-0296

ADDRESS	BOROUGH:	BLOCK/LOT:
CENTRAL PARK WEST-ST LIGHTS CENTRAL PARK SCENIC LANDMARK	MANHATTAN	1111 / 1

To the Mayor, the Council, and the Commissioner, Department of Parks and Recreation.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission, at the public hearing of September 1, 1998, has reviewed a proposal to remove all lampposts from the east side of Central Park West from 59th Street to to 81st Street and replace them with Fifth Avenue Twin lampposts on a one-for-one basis, and to retrofit existing standard signal posts with decorative castings and, if combination posts, Fifth Avenue Twin arms. The proposed work is described on the application and on drawings H5282 (Fifth Avenue Twin Post), H5284 (teardrop luminaire), and H5283(signal post modifications).

The Commission notes that the original lampposts on Central Park West were bishop's crooks, while Fifth Avenue Twin lampposts were used on the Fifth Avenue and 59th Street sides of the park.

With regard to this proposal, the Commission finds that the lampposts to be removed are not historic; that the proposed Fifth Avenue Twin lamppost is a modification of the original Fifth Avenue Twin post, which has historic precedent for use at the perimeter of Central Park; that the Fifth Avenue Twin posts was used historically in other similar locations, especially on prominent streets such as 42nd Street in Manhattan and Grand Army Plaza in Brooklyn; that the proposed post design is one of a family of designs that includes the bishop's crook which was the original Central Park West post, and that these posts share identical bases, shafts and luminaires; that the original post design from 1892, as modified through the 1930's, is contemporary and harmonious with the period and architectural style and character of the buildings on Central park West, most of which date from the 1890's through the 1930's, as well as with the Central park perimeter, the current design of which dates from the 1920's to 1930's; that the proposed black finish is based on historic precedent for this post; and that the modifications to traffic posts will allow them to harmonize with the lampposts. With regard to the orientation of the twin arm, the Commission notes that while twin posts were more usually oriented perpendicular to the curbs, there is precedent for their placement parallel to the curbs, including historic installations at Grand Army Plaza in Brooklyn and installations in City Hall Park in Manhattan.

Note that a similar proposal for the west side of Central Park West is reviewed in a separate binding report.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. The Commission notes that the original lampposts on Central Park West were bishop's crooks, while Fifth Avenue Twin lampposts were used on the Fifth Avenue and 59th Street sides of the park.

With regard to this proposal, the Commission finds that the lampposts to be removed are not historic; that the proposed Fifth Avenue Twin lamppost is a modification of the original Fifth Avenue Twin post, which has historic precedent for use at the perimeter of Central Park; that the Fifth Avenue Twin posts was used historically in other similar locations, especially on prominent streets such as 42nd Street in Manhattan and Grand Army Plaza in Brooklyn; that the proposed post design is one of a family of designs that includes the bishop's crook which was the original Central Park West post, and that these posts share identical bases, shafts and luminaires; that the original post design from 1892, as modified through the 1930's, is contemporary and harmonious with the period and architectural style and character of the buildings on Central park West, most of which date from the 1890's through the 1930's, as well as with the Central park perimeter, the current design of which dates from the 1920's to 1930's; that the proposed black finish is based on historic precedent for this post; and that the modifications to traffic posts will allow them to harmonize with the lampposts. With regard to the orientation of the twin arm, the Commission notes that while twin posts were more usually oriented perpendicular to the curbs, there is precedent for their placement parallel to the curbs, including historic installations at Grand Army Plaza in Brooklyn and installations in City Hall Park in Manhattan.

Note that a similar proposal for the park side of Central Park West is reviewed in a separate advisory report.

Please provide one or more 8 by 10 inch black and white photographs of the completed project to the Art Commission of the City of New York, for its records.

By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

BINDING REPORT

ISSUE DATE:	DOCKET #:	SRB #:
08/24/98	983493	SRB 99-1151
ADDRESS PEDESTRIAN RAMPS-FY98 Brooklyn & Manhattan Historic Districts CARNEGIE HILL	BOROUGH: MANHATTAN	BLOCK/LOT: 77777 / 77

To the Mayor, the Council, and the Commissioner, Dept. of Design and Construction.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for installation of pedestrian corner ramps at sidewalks in various historic districts in Brooklyn and Manhattan as part of Fiscal Year 1998 contract HWPLM98. The sites include locations in the Greenwich Village, Ladies' Mile, West End-Collegiate, Riverside-West End, Upper East Side, Carnegie Hill, Metropolitan Museum, Brooklyn Heights, Cobble Hill, Park Slope, Clinton Hill, Fort Greene, Boerum Hill, and Carroll Gardens Historic Districts. The proposed work includes removing concrete and some other distinctive materials at the sidewalk, and removing curbs of various types including granite, and installing sloped concrete sidewalks, tinted with L. M. Schofield "cool black no. 4" or untinted, depending on the district, resetting or installing matching new distinctive materials, such as hexagonal asphalt pavers, and installing new "Georgia Otis Gray" granite curbs. The proposed work is described on a list of locations dated 3/26/98 and in a granite sample, all submitted by the Department of Design and Construction as components of the application.

The Commission notes that original sidewalks in most of these districts were bluestone; that original sidewalks at buildings constructed or substantially reconstructed in the early 20th century in the Upper East Side Historic District were generally of standard concrete; that historic street curbs were generally granite or bluestone; and that some of these historic materials remain in these districts.

The Commission finds that the sidewalk pavements to be affected are generally modern materials; that where historic or distinctive materials, including bluestone and asphalt pavers, are present, they will be reset or replaced in kind, thus preserving the historic material and/or appearance; that at ramp surfaces only, historic material can be replaced with concrete tinted to match, thus meeting technical requirements while not significantly affecting the appearance of the corner; that concrete sidewalks will be replaced with new concrete that is either tinted bluestone color or plain, depending upon the district, to harmonize with historic materials in the district; that new curbs will be grey granite to match typical corner curb materials in these districts; that the work will be harmonious with the districts' buildings and with historic sidewalks and curbs in these districts; and that the work will help the corner ramps blend with existing and/or historic sidewalk and curb conditions. Based on these findings, the proposed work is determined to be appropriate to the historic districts and individual landmark sites and is approved.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. ADDRESS 280 BROADWAY The Sun Building INDIVIDUAL LANDMARK	BOROUGH: MANHATTAN	BLOCK/LOT: 153 / 1

To the Mayor, the Council, and the Commissioner of the Department of Citywide Administrative Services.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Commission recently received an application for interior demolition, including the removal of the interior mezzanine level on the first floor. The proposal is shown in a drawing labeled A1, dated 8/6/98, prepared by Manuel Angel Santiago, R.A., and submitted as a component of the application.

The Commission has reviewed the application and this drawing and finds that the work will have no effect on significant protected features of the building.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

PROJECT OPEN HOUSE – NA – 00299POH0254 – DUE 10-16-98 AT 4:00 P.M. – The New York City Mayor's Office for People with Disabilities (MOPD) seeks to retain the services of a contractor, through a Negotiated Acquisition process, to administer its Project Open House (POH) program for New Yorkers with disabilities. The procurement identification number for this procurement is PIN No. 00299POH0254. The contractor must provide the following services: contract management, licensed occupational therapy (OT) consultation, and architectural, construction, and construction related services in the City residences of a minimum of 75 low-income people with disabilities per year.

The contract requires home visit/site analyses and the completion of all construction services, based upon an OT's recommendations and a licensed architect's plan. The contract calls for the completion of 75 projects per year. The contract term is for one (1) year, with three (3) one-year options to renew.
It has been determined to use negotiated acquisition as the method of procurement for this contract. It is not practicable or advantageous to award the contract by the competitive sealed proposal process because there is a limited number of contractors available and able to perform these services, and there is a need to retain a contractor quickly.

Any organization interested in being considered for this contract award, or wishing to receive more information, should contact Shelly Goldstone-Cohen at MOPD for an application form at (212) 788-2830, or tty: (212) 788-2838. The completed form must be submitted to Shelly Goldstone-Cohen at the Mayor's Office for People with Disabilities, 52 Chambers Street - Room #206, New York, N.Y 10007, by no later than 10-13-98, 4:00 P.M. Proposals submitted from contractors together with sub-contractors and proposals submitted from joint ventures are also welcome.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

(b) General. No contract or agreement executed pursuant to the New York City Charter or other law shall be effective until.

(1) The executed contract or agreement and related materials have been filed with the Comptroller; and

(2) The Comptroller has registered the contract or thirty (30) days have elapsed from the date of filing, during which the Comptroller has neither raised an objection pursuant to subdivision (i) below nor refused to register the contract pursuant to subdivision (h) below

(c) Registration Not Required. The following items need not be registered with the Comptroller:

(g) Exceptions. The requirement for registration prior to the effectiveness of the contract is waived under the following circumstances:

(1) Contracts awarded on an emergency basis,

(2) Contracts awarded on the basis of an accelerated procurement, and

(3) Contracts for the provision of goods, services or construction that are not to be paid for out of the City treasury or out of monies under the control of the City. (i) The corrective action(s) (if any) that have been taken or will be taken in response to the Comptroller's objections, or

(ii) The reasons why the Mayor disagrees with the Comptroller's objections

(4) After the Mayor has responded to the Comptroller's objections, the Mayor may require registration of the contract despite the Comptroller's objections. Such response by the Mayor shall not serve as the basis for further objection by the Comptroller, who shall register the contract within 10 days of the receipt of the Mayor's response.

(j) Registration is Not Approval. Registration of a contract by the Comptroller shall not constitute an approval of the contract nor an approval of the process by which the contract was awarded, nor shall it preclude future audits of or objections to the contract

(k) Registration in Cases of Delayed Submission of VENDEX Information

(1) When, in accordance with Section 4-02(e) of these Rules, permission has been granted to the contractor to submit some or all of the information required on the VENDEX questionnaire on a post-registration basis, the agency shall submit to the Comptroller at the time the contract package is submitted for registration copies of the information on which the agency relied in making the determination that the contractor is responsible.

(2) After receiving the completed VENDEX materials, the agency shall forward the late VENDEX materials, together with the results of the Department of Investigation's supplier name check (including a copy of the Department of Investigation final report or statement of findings as set forth in Section 4-02(f) of these Rules), to the Comptroller within two (2) business days after completion of the Department of Investigation name check.

(l) Registration Where VENDEX Submission Has Been Exempted. When, in accordance with Section 4-02(e)(5) or (6) of these Rules, an exemption of required VENDEX information has been granted, the agency shall submit to the Comptroller at the time the contract package is submitted for registration copies of the information on which the agency relied in making the determination that the contractor is responsible.]

NOTICE

OF ADOPTION OF FINAL RULE

The Procurement Policy Board (PPB) adopted an amendment to §5-12 Debarment and Suspension of its Rules pursuant to Section 311 of the New York City Charter. The proposed amendment was published on June 16, 1998. A public hearing was held on August 11, 1998. The amendment was adopted by the PPB on September 17, 1998. The effective date of this rule is November 1, 1998.

Basis and Purpose of the Amendment

This amendment consists mostly of language and placement changes to make the rule easier to read and use. For example, the section on appeal of suspension is moved to the section on suspension (see 5-12(c)(3)). The various reporting requirements are moved to new 5-12(f)(1) to ensure that all interested parties (which now includes the Department of Investigation) get all relevant documents. The time to appeal a suspension is extended from five business days to ten calendar days, to match the time to appeal denial of a protest and a non-responsibility determination.

Finally, based on the comment received during the CAPA process, the rule retains the requirement that the agency consult with Corporation Counsel before presenting a debarment petition to OATH (see 5-12(b)(1)).

The Amended Rule

In the amended rule, which immediately follows this notice, new material is underlined and deletions are bracketed.

CITY PLANNING COMMISSION

■ NOTICE

NYC CITY PLANNING DEPARTMENT
1999 PROPOSED CONSOLIDATED PLAN.
NYC Department of City Planning announces that the PUBLIC COMMENT PERIOD for the 1999 Proposed Consolidated Plan will begin OCTOBER 9, 1998, and end NOVEMBER 9, 1998. A SYMPOSIUM and PUBLIC HEARING will be held on November 5, 1998 beginning at 3:00 p.m. at 22 Reade Street, Spector Hall, New York, N.Y. 10007.

The 1999 Proposed Consolidated Plan contains the City's application for four U.S. Department of Housing and Urban Development (HUD) Community Planning and Development programs: Community Development Block Grant (CDBG), HOME Investment Partnership (HOME), Emergency Shelter Grant (ESG), and Housing Opportunities for Persons with AIDS (HOPWA).

Proposed Funding allocations for 1999 are as follows: CDBG = $256.909 million; HOME = $96.790 million; ESG = $8.753 million; HOPWA = $46.330 million totaling $408.782 million.

The *1999 Proposed Consolidated Plan* consists of two volumes: Volume 1. Action Plan: One Year Use of Funds; and Volume 2. Supportive Housing Continuum of Care, Other Actions and Appendices.

Volume 1: The Action Plan contains a description of the City's use of entitlement funds to address affordable housing, homelessness, supportive housing services and community development needs. In addition, the Action Plan describes: NYCHA funds, including the Comprehensive Grant, and other public housing competitive programs; the HUD Competitive Funds, including Section 202 Supportive Housing for the Elderly, and Section 811 Supportive Housing for Persons with Disabilities; the State Funds; the City matching and non-matching Funds; and Private funds.

Volume 2: The Supportive Housing Continuum of Care for the Homeless describes the activities and the funding allocations which address the needs of homeless individuals and families, to prevent low-income individuals and families from becoming homeless, to help homeless persons make the transition to permanent housing and permanent living. The Supportive Housing Continuum of Care for Other Special Needs Populations addresses the special needs of nonhomeless persons, such as the Mentally Ill, the Chemically Dependent, and the Mentally Retarded and Developmentally Disabled, Persons with HIV/AIDS, Victims of Domestic Violence, the Elderly and Frail Elderly, and Persons with Physical Disabilities. The Other Actions section fulfills the statutory requirements of the Cranston-Gonzalez Housing Act's Comprehensive Housing Affordability Strategy. The Appendices include: Definitions, Acronyms and Abbreviations, and Maps of Areas for Directed Assistance and Minority Populations.

Solicitations notices for most procurement above $25,000 for goods or services or above $50,000 for construction and construction related services are published for at least one day.

Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

Bidders List Unit, 52 Chambers Street, Room 307, New York, NY 10007 (212) 788-2502.

All Other Services

Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

The procurement identification number for this procurement is PIN No. 00299POH0254. The contractor must provide the following services: contract management, licensed occupational therapy (OT) consultation, and architectural, construction, and construction-related services in the City residences of a minimum of 75 low-income people with disabilities per year.

The contract requires home visit/site analysis and the completion of all construction services, based upon an OT's recommendations and a licensed architect's plan. The contract calls for the completion of a minimun of 75 projects per year. The contract term is for one (1) year, with three (3) one-year options to renew.

It has been determined to use negotiated acquisition as the method of procurement for this contract. It is not practicable or advantageous to award the contract by the competitive sealed proposal process because there is a limited number of contractors available and able to perform these services, and there is a need to retain a contractor quickly.

Any organization interested in being considered for this contract award, or wishing to receive more information, should contact Shelly Goldstone-Cohen at MOPD for an application form at (212) 788-2830, or tty: (212) 788-2838. The completed form must be submitted to Shelly Goldstone-Cohen at the Mayor's Office for People with Disabilities, 52 Chambers Street - Room #206, New York, N.Y 10007, by no later than 10-13-98, 4:00 P.M. Proposals submitted from contractors together with sub-contractors and proposals submitted from joint ventures are also welcome.

(2) If any clause, sentence, paragraph, section or part of this article shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not effect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section or part thereof directly involved in the controversy in which judgment shall have been rendered.

The *1999 Proposed Consolidated Plan* consists of two volumes: Volume 1. Action Plan: One Year Use of Funds; and Volume 2. Supportive Housing Continuum of Care, Other Actions and Appendices.

Volume 1: The Action Plan contains a description of the City's use of entitlement funds to address affordable housing, homelessness, supportive housing services and community development needs. In addition, the Action Plan describes: NYCHA funds, including the Comprehensive Grant, and other public housing competitive programs; the HUD Competitive Funds, including Section 202 Supportive Housing for the Elderly, and Section 811 Supportive Housing for Persons with Disabilities; the State Funds; the City matching and non-matching Funds; and Private funds.

Volume 2: The Supportive Housing Continuum of Care for the Homeless describes the activities and the funding allocations which address the needs of homeless individuals and families, to prevent low-income individuals and families from becoming homeless, to help homeless persons make the transition to permanent housing and permanent living. The Supportive Housing Continuum of Care for Other Special Needs Populations addresses the special needs of nonhomeless persons, such as the Mentally Ill, the Chemically Dependent, and the Mentally Retarded and Developmentally Disabled, Persons with HIV/AIDS, Victims of Domestic Violence, the Elderly and Frail Elderly, and Persons with Physical Disabilities. The Other Actions section fulfills the statutory requirements of the Cranston-Gonzalez Housing Act's Comprehensive Housing Affordability Strategy. The Appendices include: Definitions, Acronyms and Abbreviations, and Maps of Areas for Directed Assistance and Minority Populations.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed *qualification Questioner may be submitted* to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

PROJECT OPEN HOUSE – NA – 00299POH0254 – DUE 10-16-98 AT 4:00 P.M. – The New York City Mayor's Office for People with Disabilities (MOPD) seeks to retain the services of a contractor, through a Negotiated Acquisition process, to administer its Project Open House (POH) program for New Yorkers with disabilities. The procurement identification number for this procurement is PIN No. 00299POH0254. The contractor must provide the following services: contract management, licensed occupational therapy (OT) consultation, and architectural, construction, and construction-related services in the City residences of a minimum of 75 low-income people with disabilities per year. The contract requires home visit/site analysis and the completion of all construction services, based upon an OT's recommendations and a licensed architect's plan. The contract calls for the completion of a minimum of 75 projects per year. The contract term is for one (1) year, with three (3) one-year options to renew.

It has been determined to use negotiated acquisition as the method of procurement for this contract. It is not practicable or advantageous to award the contract by the competitive sealed proposal process because there is a limited number of contractors available and able to perform these services, and there is a need to retain a contractor quickly.

Any organization interested in being considered for this contract award, or wishing to receive more information, should contact Shelly Goldstone-Cohen at MOPD for an application form at (212) 788-2830, or tty: (212) 788-2838. The completed form must be submitted to Shelly Goldstone-Cohen at the Mayor's Office for People with Disabilities, 52 Chambers Street - Room #206, New York, N.Y 10007, by no later than 10-13-98, 4:00 P.M. Proposals submitted from contractors together with sub-contractors and proposals submitted from joint ventures are also welcome.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

NYC CITY PLANNING DEPARTMENT
1999 PROPOSED CONSOLIDATED PLAN.
NYC Department of City Planning announces that the PUBLIC COMMENT PERIOD for the 1999 Proposed Consolidated Plan will begin OCTOBER 9, 1998, and end NOVEMBER 9, 1998. A SYMPOSIUM and PUBLIC HEARING will be held on November 5, 1998 beginning at 3:00 p.m. at 22 Reade Street, Spector Hall, New York, N.Y. 10007.

The 1999 Proposed Consolidated Plan contains the City's application for four U.S. Department of Housing and Urban Development (HUD) Community Planning and Development programs: Community Development Block Grant (CDBG), HOME Investment Partnership (HOME), Emergency Shelter Grant (ESG), and Housing Opportunities for Persons with AIDS (HOPWA).

Proposed Funding allocations for 1999 are as follows: CDBG = $256.909 million; HOME = $96.790 million; ESG = $8.753 million; HOPWA = $46.330 million totaling $408.782 million.

The *1999 Proposed Consolidated Plan* consists of two volumes: Volume 1. Action Plan: One Year Use of Funds; and Volume 2. Supportive Housing Continuum of Care, Other Actions and Appendices.

Volume 1: The Action Plan contains a description of the City's use of entitlement funds to address affordable housing, homelessness, supportive housing services and community development needs. In addition, the Action Plan describes: NYCHA funds, including the Comprehensive Grant, and other public housing competitive programs; the HUD Competitive Funds, including Section 202 Supportive Housing for the Elderly, and Section 811 Supportive Housing for Persons with Disabilities; the State Funds; the City matching and non-matching Funds; and Private funds.

Volume 2: The Supportive Housing Continuum of Care for the Homeless describes the activities and the funding allocations which address the needs of homeless individuals and families, to prevent low-income individuals and families from becoming homeless, to help homeless persons make the transition to permanent housing and permanent living. The Supportive Housing Continuum of Care for Other Special Needs Populations addresses the special needs of nonhomeless persons, such as the Mentally Ill, the Chemically Dependent, and the Mentally Retarded and Developmentally Disabled, Persons with HIV/AIDS, Victims of Domestic Violence, the Elderly and Frail Elderly, and Persons with Physical Disabilities. PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitations notices for most procurement above $25,000 for goods or services or above $50,000 for construction and construction related services are published for at least one day.

Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● *Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,* 18th Floor, NY, NY 10007 (212) 669-8562

Construction & Construction Related Services

● Mayor's Office of Construction,

Bidders List Unit, 52 Chambers Street, Room 307, New York, NY 10007 (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway 9th Floor,New York, NY 10007 (212) 788-0010 Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual.(see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR.*

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business.

In order to become certified for the program, your company must substantiate that it:

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,

110 William Street, 2nd Floor,

PROMPT PAYMENT

It is policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bill within 30 days after the receipt of a proper invoice. The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board51 Chambers Street Room 1126, New York 10007 (212) 788-7820

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

PROJECT OPEN HOUSE – NA – 00299POH0254 – DUE 10-16-98 AT 4:00 P.M. – The New York City Mayor's Office for People with Disabilities (MOPD) seeks to retain the services of a contractor, through a Negotiated Acquisition process, to administer its Project Open House (POH) program for New Yorkers with disabilities. The procurement identification number for this procurement is PIN No. 00299POH0254. The contractor must provide the following services: contract management, licensed occupational therapy (OT) consultation, and architectural, construction, and construction-related services in the City residences of a minimum of 75 low-income people with disabilities per year.

The contract requires home visit/site analysis and the completion of all construction services, based upon an OT's recommendations and a licensed architecs's plan. The contract calls for the completion of a minimum of 75 projects per year. The contract term is for one (1) year, with three (3) one-year options to renew.

It has been determined to use negotiated acquisition as the method of procurement for this contract. It is not practicable or advantageous to award the contract by the competitive sealed proposal process because there is a limited number of contractors available and able to perform these services, and there is a need to retain a contractor quickly.

Any organization interested in being considered for this contract award, or wishing to receive more information, should contact Shelly Goldstone-Cohen at MOPD for an application form at (212) 788-2830, or tty: (212) 788-2838. The completed form must be submitted to Shelly Goldstone-Cohen at the Mayor's Office for People with Disabilities, 52 Chambers Street - Room #206, New York, N.Y 10007, by no later than 10-13-98, 4:00 P.M. Proposals submitted from contractors together with sub-contractors and proposals submitted from joint ventures are also welcome.

NOTICE OF COMPLETION AND PUBLIC HEARING ON THE FINAL TARGETED ENVIRONMENTAL IMPACT STATEMENT FOR THE PROPOSED PARKING AT THE BROOKLYN HOSPITAL CENTER

The purpose of this Notice is to inform all concerned parties that the BSA has certified the Brooklyn Hospital Center Final Targeted Environmental Impact Statement (FTEIS) as complete and that the BSA will hold a public hearing on October 27, 1998 at 2:00 PM, at 40 Rector Street, 6th Floor (Hearing Room `E'). The hearing is being held pursuant to SEQRA regulations found in Article 8, 6 NYCRR, Part 617 of the State Environmental Quality Review Act and the New York City Mayoral Executive Order No. 91, as amended in 1991. The BSA will issue its written findings on the FTEIS and a decision on this case on October 27th. Detailed information on this project, including the potential impacts of the proposed action, can be found in the Draft Targeted EIS which is available at the BSA at the address listed below.

DESCRIPTION OF THE PROPOSED PROJECT AND REQUIRED APPROVALS

The project involves an application for two BSA special permits pursuant to Z.R. §73-481 and §73-49 to allow, in an R6 zoning district, the proposed below grade construction of a three-level parking garage expansion with 212 parking spaces, which will be built below a proposed as-of-right 15-story staff
housing building with 150 dwelling units. The total area of the staff housing building will be 128,192 square feet (sf). The proposal also includes the conversion of existing roof top tennis courts to a roof parking facility with 154 new parking stalls on the adjoining existing, three-story accessory parking garage. The parking garage would be increased in total floor area by 58,812 sf to 183,934 sf.

The project site is located at 240-260 Willoughby Street, Block 2088, Lot 30, Community District 2, Brooklyn (Kings County), New York. Note that this is a Type I action as the subject site is adjacent to the Fort Greene Historic District and historic Fort Greene Park. The build year for the proposed project is 1999.

PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitations notices for most procurement above $25,000 for goods or services or above $50,000 for construction and construction related services are published for at least one day.

Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● *Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,* 18th Floor, NY, NY 10007 (212) 669-8562

Construction & Construction Related Services

● Mayor's Office of Construction,

Bidders List Unit, 52 Chambers Street, Room 307, New York, NY 10007 (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway 9th Floor,New York, NY 10007 (212) 788-0010 Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual.(see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

PROJECT OPEN HOUSE – NA – 00299POH0254 – DUE 10-16-98 AT 4:00 P.M. – The New York City Mayor's Office for People with Disabilities (MOPD) seeks to retain the services of a contractor, through a Negotiated Acquisition process, to administer its Project Open House (POH) program for New Yorkers with disabilities. The procurement identification number for this procurement is PIN No. 00299POH0254. The contractor must provide the following services: contract management, licensed occupational therapy (OT) consultation, and architectural, construction, and construction-related services in the City residences of a minimum of 75 low-income people with disabilities per year.

The contract requires home visit/site analysis and the completion of all construction services, based upon an OT's recommendations and a licensed architect's plan. The contract calls for the completion of a minimum of 75 projects per year. The contract term is for one (1) year, with three (3) one-year options to renew.

It has been determined to use negotiated acquisition as the method of procurement for this contract. It is not practicable or advantageous to award the contract by the competitive sealed proposal process because there is a limited number of contractors available and able to perform these services, and there is a need to retain a contractor quickly.

Any organization interested in being considered for this contract award, or wishing to receive more information, should contact Shelly Goldstone-Cohen at MOPD for an application form at (212) 788-2830, or tty: (212) 788-2838. The completed form must be submitted to Shelly Goldstone-Cohen at the Mayor's Office for People with Disabilities, 52 Chambers Street - Room #206, New York, N.Y 10007, by no later than 10-13-98, 4:00 P.M. Proposals submitted from contractors together with sub-contractors and proposals submitted from joint ventures are also welcome.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

Paragraph 6 of Subdivision (a) of Section 19-03 of Title 15 RCNY is amended as follows:

Petroleum hydrocarbons, as defined in § 19-01, in concentrations greater than 50 mg/L for any given time. [as determined by sampling the surface of the discharged wastewater or the sewage in the public sewer. However, animal fats and vegetable oils may be discharged to public sewers, provided that they do not adhere to sewer structures or appurtenances, or cause interference with sewage treatment processes. If there is evidence of such interference or adherence to sewer structures or appurtenances so as to cause blockage in the sewerage system, then, upon order of the Commissioner, the wastewater containing such materials must be effectively treated to remove such animal fats and vegetable oils by a process or device, such as a grease or oil interceptor, before discharge to public sewer].

Subdivision (e) of Section 19-05 of Title 15 RCNY is amended as follows:

No person shall cause or allow a new connection to a public sewer of premises, in which one or more establishments that will discharge industrial wastes or other wastes, as defined in this chapter, are to be located, without a written permit from the Commissioner, pursuant to §24-509 of the Administrative Code. No such permit shall issue unless the Commissioner shall have determined that the characteristics of such discharges will comply with the provisions of §§19-03 or 19-04 herein and approves such connection. If pretreatment is [facilities are] required in order that the discharge to the public sewer comply with §§19-03 or 19-04 herein, review and/or approval by the Commissioner of plans for such pretreatment [facilities] shall be limited by him or her to the determination of whether such plans conform in principle to the accepted practices in the field of wastewater [waste] treatment. No such permit or approval shall be deemed to waive, nor shall any such permit or approval be held to limit the power of the Commissioner to enforce any requirements of these or any other regulations or of the Administrative Code or of any other law. The Department, by such permit or approval, shall not incur any liabilities or obligations for the failure of the effluent from such pretreatment [facilities] to comply with this chapter or any other regulations, the Administrative Code or any other law.

Section 19-05 of Title 15 RCNY is amended to include a new subdivision to read as follows:

(f) For a non-residential direct or indirect discharger of animal fats and /or vegetable oils that either (a) requires a new sewer-connection permit and/or approval, or (b) requires a filing at the New York City Department of Buildings for an alteration and/or repair or the like, of an operation listed in Section 19-11(a) of these rules, or (c) requires the installation of a grease interceptor pursuant to any section of these rules or any other regulations or law, the Commissioner shall allow a New York State Professional Engineer or a New York State Registered Architect to submit to the Department an application that includes, at a minimum, plans containing grease interceptor sizing calculations and a statement certifying that the sizing and design of any required grease interceptor complies with Section 19-11 of these rules. A sworn Affidavit of Completion shall be submitted to the Department by a New York City Licensed Master Plumber in accordance with all applicable requirements. The sworn affidavit must affirm that the grease interceptor was installed and is operating in accordance with the self-certification application. The owner and/or operator of the establishment where the grease interceptor is installed shall remain liable for the proper installation, operation and maintenance of the interceptor, and shall be subject to the applicable fines, penalties and other sanctions provided in § 24-524 of the Administrative Code of the City of New York if the interceptor is not installed, operated and maintained in conformance with applicable provisions of the Administrative Code and rules of the Department. No such self-certification shall be deemed to waive, nor shall any such self-certification be held to limit the power of the Commissioner to enforce any requirements of these or any other regulations, or of the Administrative Code or of any other law. The Department shall not incur any liabilities or obligations for the failure of the effluent from such self-certified premises to comply with this chapter or any other regulations, the Administrative Code or any other law.

Chapter 19 of Title 15 RCNY is amended to include a new section to read as follows:

§19-11: Best Management Practices (BMPs) for Non-Residential Direct and Indirect Dischargers of Grease to the Public Sewer System

(a) Grease interceptors shall be installed in waste lines which may receive grease from non-residential direct and indirect dischargers, including but not limited to those leading from pot wash sinks, woks, soup or stock kettles, food scrap sinks, scullery sinks, meat and /or poultry and/or fish preparation sinks, floor drains, automatic dishwashers, scraper sinks, or other similar plumbing fixtures, in all restaurants, kitchens, cafeterias, clubs, butcher shops, slaughterhouses, fish markets, supermarket food processing areas, delicatessens, or other non-residential establishments where grease may be introduced into the drainage system. Sizing of grease interceptors shall comply with the criteria specified in this section, including applicable Tables I and/or II.

(b) All prefabricated grease interceptors shall be approved by the New York City Board of Standards & Appeals, prior to July 10, 1991 or thereafter by the New York City Department of Buildings Material & Equipment Acceptance Division.

(c) The method for determining the minimum size/capacity of a grease interceptor is provided in Tables I and II below.

30,801 to 46,200	300 (lb)
46,201 to 61,600	400 (lb)

Note: Aggregate volume is the maximum volume (e.g. length times width times height to the overflow if rectangular) in cubic inches of all fixtures, vessels and receptacles that may flow simultaneously through the interceptor.

* Subject to the sizing requirements specified in sections 19-11 (i) through (p).

If a premises contains fixtures listed in Table I and fixtures, vessels and/or receptacles listed in Table II, all of which are tributary to the same grease interceptor, then the method for determining the minimum grease interceptor retaining capacity, in pounds, shall be to separately calculate the retaining capacities for the fixtures in Table I, and the fixtures, vessels and/or receptacles in Table II. These retaining capacities shall then be added together to obtain the total minimum grease interceptor retaining capacity required for such premises.

If the aggregate volumes listed in Tables I and II are exceeded then a New York State Licensed Professional Engineer or a New York State Registered Architect shall extrapolate the appropriate grease interceptor sizing requirements.

(d) Vented flow control fittings shall be installed to insure that the flow capacity of the grease interceptor, as specified by the manufacturer, is not exceeded. Flow-control valves and/or fittings that are manually adjustable may not be used to limit flow to an interceptor.

(e) Grease interceptors must have a retention capacity, in pounds, of at least twice the numerical flow through rating in gallons per minute.

(f) Grease interceptors shall remove an average of 90 percent or more of the grease or other extractable matter in the wastewater.

(g) The temperature of water entering a grease interceptor shall not exceed 180°F.

(h) All grease interceptors must be readily accessible for inspection by duly authorized employees of the Department.

(i) Grease interceptors for scraper sinks shall be sized in accordance with Table II, except that the minimum retaining capacity shall be at least 30 pounds. When determining the aggregate volume of all fixtures, vessels and receptacles specified in Table II that may flow simultaneously through an interceptor, a minimum of 3,465 cubic inches, per scraper sink, shall be used.

(j) Discharges from automatic dishwashers must be tributary to a grease interceptor. Whether connected separately or in conjunction with other fixtures, the total volume, in gallons, of each automatic dishwasher shall be converted to cubic inches and added to the aggregate volume of Table II.

(k) Discharges from high-temperature sanitizer cycles of automatic dishwashers or from dedicated sanitization compartments of sinks need not be tributary to a grease interceptor.

(l) Floor drains which may receive grease must be tributary to a grease interceptor. The size of such grease interceptor shall be determined as follows:

(1) For floor drains where grease may be discharged during washdowns, Table I shall be used and an additional 1,540 cubic inches, per floor drain, shall be added to the aggregate volume.

(2) Grease interceptors for floor drains, which receive discharges directly from fixtures, receptacles and/or vessels, shall be sized in accordance with the grease interceptor sizing requirements for the fixtures, vessels and/or receptacles tributary to it.

(3) For floor drains having a diameter larger than 3 inches or for trench and/or trough drains, a New York State Licenced Professional Engineer or a New York State Registered Architect shall extrapolate the appropriate sizing requirements of the tributary grease interceptor based on (1) and/or (2) above.

(m) For soup and/or stock kettles, the calculation of aggregate volume to be used in Table II shall be made based upon the total volume of all soup and stock kettles tributary to the grease interceptor, even if discharges from these vessels are made to a floor drain or similar fixture.

(n) Where woks, either alone or in conjunction with other types of fixtures are tributary to a grease interceptor, each wok shall be deemed to contribute 1,617 cubic inches to the aggregate volume of Table II.

(o) Discharges from the cleaning of kitchen hoods, which may extract grease from cooking operations, must be made to receptacles or floor drains that are tributary to a grease interceptor. The sizing of the tributary grease interceptor must account for such discharges using standard engineering practice. For kitchen hoods with automatic rinse cycles, the tributary grease interceptor must be sized to account for the peak flow from the automatic rinse cycle as specified by the manufacturer.

(p) Interceptors smaller than those described in Tables I and II may be used, but only if connected in parallel to another interceptor(s), and the aggregate capacity of such interceptors must either equal or exceed the interceptor capacity required by Tables I and/or II. For parallel connections, vented flow control fixtures must be installed on each interceptor.

(q) Grease interceptors shall be properly installed, maintained and operated, to insure that the requirements of this section and other applicable sections of the regulations are met. This shall include routine cleaning and grease removal from the interceptor, as needed to insure the proper operation of the interceptors.

(r) New York State Licensed Professional Engineers and New York State Registered Architects may petition the Commissioner, in writing, for acceptance of an alternate pretreatment device, technology, equipment, or procedures varying from, but equivalent to, those listed in this section. Such a petition must contain detailed documentation and calculations substantiating their equivalency. In no event shall any alternative pretreatment device, technology, equipment or procedures be less stringent than the requirements of this Section.

(s) Notwithstanding any other provision of this section, (1) existing grease interceptors shall conform to the specific requirements of this section no later than one year after the effective date of this section and (2) grease interceptors installed after the effective date of this section pursuant to an application filed before such effective date shall conform to the specific requirements of this section no latter than 90 days after such effective date.

(t) Notwithstanding anything contained in section 19-11 the Commissioner, in his discretion, may require any grease interceptor to be installed, at any time, and to have a retention capacity equal to those listed in Tables I and/or II.

STATEMENT OF BASIS AND PURPOSE

These amendments were initiated by DEP as part of Mayor Giuliani's plan to relieve the restaurant industry of unnecessary or inefficient regulation. These amendments to DEP's Sewer Use Regulations would allow new restaurants and other new non-residential grease generating establishments to connect with the City sewer system without having to undergo a lengthy departmental review concerning the proper design, sizing and placement of any required grease interceptor, based upon the certification of a Professional Engineer or a Registered Architect, that the sizing, design and placement of grease interceptor conforms to these requirements. These changes do not eliminate the requirement for a new connection permit. They do, however, speed the process for obtaining approvals and permits for these relatively easy to design, size and install pretreatment devices.

Section 1. Subparagraph (iii) of paragraph (1) of subdivision (o) of section 4-08 of chapter 4 of title 34 of the Rules of the City of New York is amended to read as follows:

(iii) Issuance of Permits The Special Parking Identification permit shall be issued by the commissioner or his/her designee to a New York City resident certified by the Department of Health or a provider designated by the Department or the Department of Health, who shall make such certification in accordance with standards and guidelines prescribed by the Department of Health, as having a permanent disability seriously impairing mobility, who requires the use of a private automobile for transportation and to a non-resident similarly certified who requires the use of a private automobile for transportation to a school in which such applicant is enrolled or to a place of

employment. A permit shall also be issued to such person upon application made on such person's behalf by a parent, spouse, domestic partner as defined in New York City Administrative Code § 1-112(21), guardian, or other individual having legal responsibility for the administration of such person's day to day affairs. Any vehicle displaying such a permit shall be used exclusively in connection with parking a vehicle in which the person to whom it has been issued is being transported or will be transported within a reasonable period of time.

Statement of Basis and Purpose

Mayoral Executive Orders spanning the past two administrations have established several rights and procedures relative to domestic partnerships, including a procedure for City residents to register their domestic partnerships in the office of the City Clerk. Such orders have further provided, among other things, that (i) registered domestic partners are eligible for visitation rights in City hospitals and correction facilities; (ii) City employees with registered domestic partnerships are eligible for child care leave and bereavement leave on the same basis as those benefits are afforded to employees with regard to their spouses; and (iii) registered domestic partnership is evidence of the right to succession to tenancy rights in facilities operated by the New York City housing authority and the department of housing preservation and development. By the end of April, 1998, there were approximately 8,700 couples registered as domestic partners in New York City. More than 55% of those registered domestic partners were heterosexual couples, and less than 45% were same sex couples. Almost forty percent of registered domestic partnerships have accessed City health benefits available to partners of City employees and retirees.

On July 7, 1998, the Mayor signed into law Local Law No.27 of 1998 to incorporate the provisions of these orders into the New York City Charter and the Administrative Code of the City of New York. Consistent with the intent of such orders and subject to applicable federal or state law, Local Law No.27 of 1998 also extended to domestic partners the various provisions applicable to spouses in the New York City Charter and the Administrative Code of the City of New York.

In accordance with Local Law No. 27 of 1998, and pursuant to the authority vested in the Commissioner of Transportation by section 2903(a) of the New York City Charter, and in accordance with Section 1043 of the Charter, the Commissioner of Transportation is now acting to provide that a rule applicable to spouse should now be extended to domestic partners.

NOTICE OF OPPORTUNITY TO COMMENT on proposed amendments to the rules relating to State law provisions and temporary uses on the Gowanus Expressway and the Grand Central Parkway.

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN THE Commissioner of the Department of Transportation by Section 2903 of the New York City Charter and in accordance with Section 1043 of the Charter, that the Department of Transportation proposes to amend subdivision (e) of section 4-02 and to delete subdivisions (l) and (m) of section 4-07 of the Traffic Rules. Matter in brackets [ ] is deleted, matter underlined is new. These rules were not included in the agency's regulatory agenda because they were not anticipated at the time the agenda was published.

Written comments regarding the proposed rules may be sent to Michael Primeggia, Brooklyn Borough Commissioner, Department of Transportation, 44 Court Street, Room 207, Brooklyn, NY 11201 on or before November 9, 1998. A public hearing shall be held on November 9, 1998 at 40 Worth Street, Room 1015, New York, N.Y. 10013, at 3:00 p.m. Persons seeking to testify are requested to notify Commissioner Primeggia at the address stated above. Persons who need a sign language interpreter or other accommodation for a disability at the hearing are asked to notify Commissioner Primeggia at the foregoing address by November 4, 1998. Persons interested in receiving comments may request them by writing to: Department of Transportation, Record Access Office, 40 Worth Street, 9th floor, New York, New York 10013. Wilbur L. Chapman, Commissioner.

Section 1. Subdivision (e) of section 4-02 of Chapter 4 of Title 34 of the Rules of the City of New York is amended to read as follows:

(e) State law provisions superseded. Pursuant to authority provided by section 1642 of the Vehicle and Traffic Law, the following provisions of such law shall not be effective in the City of New York: sections 1112, [1130], 1142(b), 1150, 1151, 1152, 1153, 1156(b), 1157, 1171, 1180(a), (b), (c) and (e), 1201, 1202, and 1234.

Section 2. Section 4-07 of such chapter and title of such rules is amended by deleting subdivisions (l) and (m), as follows:

[(l) Temporary Special Use Lane

(1) Only buses, medallion taxis with passengers, trucks, or a vehicle with three or more passengers may operate on the lane designated as a Special Use Lane on the Gowanus Expressway Monday through Friday during times to be established by the Commissioner within the range of hours listed below. This lane extends from the 65th Street exit to the bus crossover immediately beyond the entrance from the Prospect Expressway. Restricted hours will vary based on the status of the project to rehabilitate the Expressway and will be posted on signs along the Expressway. At all other times, regular rules of the road apply.

Buses	Monday-Friday from 6am to 8pm
Medallion taxis with passengers	Monday-Friday from 6am to 8pm
Vehicles with three or more passengers	Monday-Friday from 6am to 8pm
Trucks	Monday-Friday from 10am to 8pm

(2) The Commissioner, in his/her sole discretion, may exclude trucks from the category of allowable vehicles in the Special Use Lane created pursuant to paragraph (1) of this subdivision.

(3) The Special Use Lane created pursuant to paragraph (1) of this subdivision will remain in effect during the rehabilitation of the Gowanus Expressway.

(m) Pilot Program for the Temporary Use of the Grand Central Parkway by Certain Vehicles. (i) Notwithstanding any other provision of these rules to the contrary, during the period commencing on July 22, 1996 and terminating on January 21, 1997, vehicles that are not more than 7 feet in height including cargo, no more than 8,500 pounds in maximum gross weight including cargo, and have no more than two axles and four tires, may operate in both directions on the roadway of the Grand Central Parkway between the Triborough Bridge and the western leg of the Brooklyn-Queens Expressway. The use of the Grand Central Parkway during such period by vehicles described in this subdivision is intended as a pilot program.]

STATEMENT OF BASIS AND PURPOSE OF PROPOSED RULES

The Commissioner of the Department of Transportation is authorized to regulate the parking of vehicles pursuant to section 2903(a) of the New York City Charter.

Currently there are no enforceable provisions requiring pedestrian use of sidewalks or regulating driving on controlled-access highways in the City. The provisions of sections 1130 and 1156(a) of the Vehicle and Traffic Law (VTL) that regulate such activities throughout the rest of the State do not apply in New York City. These sections of the VTL are currently superseded by City rules adopted pursuant to VTL section 1642. The purpose of this proposed rule is to conform City traffic regulations with State law by deleting these VTL provisions from the list of VTL provisions which are superseded by City rules. This rule also deletes subdivisions (l) and (m) of section 4-07 from the City traffic rules. Subdivision (l) relates to the designation of special use lanes on the Gowanus. This provision is no longer necessary because the Gowanus now has a contraflow lane. Subdivision (m) relates to a pilot program that expired in 1997.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

PROJECT OPEN HOUSE – NA – 00299POH0254 – DUE 10-16-98 AT 4:00 P.M. – The New York City Mayor's Office for People with Disabilities (MOPD) seeks to retain the services of a contractor, through a Negotiated Acquisition process, to administer its Project Open House (POH) program for New Yorkers with disabilities. The procurement identification number for this procurement is PIN No. 00299POH0254. The contractor must provide the following services: contract management, licensed occupational therapy (OT) consultation, and architectural, construction, and construction-related services in the City residences of a minimum of 75 low-income people with disabilities per year.

The contract requires home visit/site analysis and the completion of all construction services, based upon an OT's recommendations and a licensed architect's plan. The contract calls for the completion of a minimum of 75 projects per year. The contract term is for one (1) year, with three (3) one-year options to renew.

It has been determined to use negotiated acquisition as the method of procurement for this contract. It is not practicable or advantageous to award the contract by the competitive sealed proposal process because there is a limited number of contractors available and able to perform these services, and there is a need to retain a contractor quickly.

Any organization interested in being considered for this contract award, or wishing to receive more information, should contact Shelly Goldstone-Cohen at MOPD for an application form at (212) 788-2830, or tty: (212) 788-2838. The completed form must be submitted to Shelly Goldstone-Cohen at the Mayor's Office for People with Disabilities, 52 Chambers Street - Room #206, New York, N.Y 10007, by no later than 10-13-98, 4:00 P.M. Proposals submitted from contractors together with sub-contractors and proposals submitted from joint ventures are also welcome.

AGENCY RULES

CAMPAIGN FINANCE BOARD

New York City
Campaign Finance Board

Final Rules Relating to Coverage of Domestic Partners

****

IN COMPLIANCE WITH SECTION 1043 OF THE NEW YORK CITY CHARTER, and exercising the authority vested in the New York City Campaign Finance Board under Section 1052(a)(8) of the New York City Charter and section 3-708(8) of the Administrative Code of the City of New York, *the Board hereby adopts the following Rules Relating to Coverage of Domestic Partners.* Underscoring denotes additions; brackets, "[ ]", denote deletions.

1. Campaign Finance Board Rule 1-02 is amended by adding a new definition, "domestic partner", as follows:

"Domestic partner" means a domestic partner as defined in section 1-112(21) of the Code.

2. Campaign Finance Board Rule 1-08(g)(2)(iv) is amended as follows:

(iv) payments made to the candidate or a spouse, domestic partner, child, grandchild, parent, grandparent, brother, or sister of the candidate or spouse or domestic partner of such child, grandchild, parent, grandparent, brother, or sister, or to a business entity in which the candidate or any such person has a 10 percent or greater ownership interest;

3. Campaign Finance Board Rule 2-02(b)(3) is amended as follows:

(3) that the participant has not used and agrees not to use his or her personal funds or property or the personal funds or property of his or her spouse, domestic partner, or *unemancipated* children in connection with an election, except as contributions to his or her principal committee subject to the contribution limits applicable under the Act (this statement does not restrict the making of contributions by spouses, domestic partners, or children, as permitted by the Act, nor does it prohibit the making of loans, to the extent such loans are not contributions as provided in §3-702(8) of the Code); and

Explanation, Basis, and Purpose

Campaign Finance Board rules are codified in Title 52 of the Official Compilation of the Rules of the City of New York. The new rules implement changes in the New York City Campaign Finance Act adopted in Local Law No. 27 of 1998, which was signed into law by the Mayor on July 7, 1998. The new law treats domestic partners, registered in accordance with its provisions, in the same manner as spouses as follows:

- An exception is added to the definition of "intermediary" for the delivery of a contribution by the contributor's domestic partner. Administrative Code §3-702(12).
- Candidates joining the Campaign Finance Program may not use for a covered election the personal funds or property of a domestic partner in an amount that exceeds the Program's contribution limits. Administrative Code §3-703(1)(h).
- Public funds paid to a candidate joining the Program may not be used for payments to the candidate's domestic partner. Administrative Code §3-704(2)(b)

The new rules codify and implement these changes in the law.

These rules were published for public comment in The City Record, August 7, 1998. A public hearing regarding these rules was held on September 15, 1998. A record of this hearing is available on request. The Board adopted these final rules at a public meeting on October 1, 1998.

These final rules shall be effective in 30 days.

(b) Definitions

Permanently out-of-service storage systems. Storage systems that are no longer to be used for storing gasoline, diesel, fuel oil or other flammable or combustible mixtures. The Department may deem a storage system permanently out of service and require that it be closed accordingly where it has not been closed and maintained as a temporarily out-of-service storage system and the circumstances of an actual or anticipated change in use or occupancy of the premises at which the storage system is located indicate that any further use of such storage system cannot be reasonably anticipated.

Temporarily out-of-service storage systems. Storage systems for gasoline, diesel, fuel oil or other flammable or combustible mixtures that have not been in use for 30 days or more, but that are not permanently out-of-service.

(c) Temporarily out-of-service storage systems

(1) Closure requirements. Temporarily out-of-service storage systems shall be closed and sealed as follows:

(i) All contents from the storage system shall be removed. The storage system shall be rendered free of flammable or combustible vapors.

(ii) Any product, including any waste removed from the storage system, shall be disposed of in accordance with all applicable city, state and federal requirements.

(iii) All manways shall be locked or bolted securely, and fill lines and other openings of the storage system shall be capped or plugged and covered with concrete to prevent unauthorized use or tampering. Vent lines shall remain open.

(iv) Aboveground tanks must be protected from flotation in accordance with good engineering practice.

(2) Affidavit of compliance. The owner or operator of a temporarily out-of-service storage system or the holder of the Department permit for such system shall file with the Department an affidavit certifying that such system was closed and sealed in compliance with the requirements of the Administrative Code of the City of New York and this section. Such affidavit shall be executed by a person with the requisite qualifications, as follows:

(i) For motor fuel or other flammable or combustible liquid storage systems, by a person holding a Certificate of License issued by the Department to install, alter, test or repair motor fuel storage and dispensing equipment.

(ii) For fuel oil storage systems with a total capacity exceeding 275 gallons, by a person holding the aforementioned Certificate of License, or an oil-burning equipment installer license issued by the New York City Department of Buildings.

(iii) For fuel oil storage systems with a total capacity of 275 gallons or less, by a person holding the aforementioned Certificate of License or oil-burning equipment installer license, or a plumber licensed by the New York City Department of Buildings.

(3) Permit and testing requirements

(i) All storage systems which have been rendered temporarily out of service shall continue to be subject to the Department's permit and testing requirements and the registration, reporting, inspection and testing regulations of the New York State Department of Environmental Conservation.

(ii) Before a temporarily out-of-service tank system may be restored to service, an affidavit of compliance shall be filed with the Department in accordance with the provisions of paragraph 2 of this subdivision, certifying the integrity of the tank and piping, and the proper functioning of the leak detection and cathodic protection systems.

(d) Permanently out-of-service storage systems

(1) Closure requirements. Permanently out-of-service storage systems either shall be removed from the ground or premises, or closed and sealed, as follows:

(i) All contents from the storage system shall be removed. The storage system shall be rendered free of flammable or combustible vapors.

(ii) Any product, including any waste removed from the storage system, shall be disposed of in accordance with all applicable city, state and federal requirements.

(iii) After being rendered free of flammable or combustible vapors, underground tanks shall be removed, or if left in place, filled to capacity with a solid inert material such as sand, concrete slurry, or other approved material. After being rendered free of flammable or combustible vapors, aboveground tanks shall be removed entirely, or if left in place, protected against flotation in accordance with good engineering practice and stenciled with the date of permanent closure.

(iv) All connecting lines shall be disconnected and removed, or securely capped or plugged. All fill lines shall be disconnected and removed, or if not removed, the fill connection shall be sealed with concrete so as to prevent use of the fill line. Manways shall be securely fastened in place.

(2) Affidavit of compliance. The owner or operator of a permanently out-of-service storage system or the holder of the Department permit for such system shall file with the Department an affidavit certifying that such system was removed, or closed and sealed, in compliance with the requirements of the Administrative Code of the City of New York and this section. Such affidavit shall be executed by a person with the requisite qualifications, as follows:

(i) For motor fuel or other flammable or combustible liquid storage systems, by a person holding a Certificate of License issued by the Department to install, alter, test or repair motor fuel storage and dispensing equipment.

(ii) For fuel oil storage systems with a total capacity exceeding 275 gallons, by a person holding the aforementioned Certificate of License, or an oil-burning equipment installer license issued by the New York City Department of Buildings.

(iii) For fuel oil storage systems with a total capacity of 275 gallons or less, by a person holding the aforementioned Certificate of License or oil-burning equipment installer license, or a plumber licensed by the New York City Department of Buildings.

(3) Environmental site assessment

If an environmental site assessment is required by federal or state law or regulations, the owner or operator of the storage system, the holder of the Department permit for such system, or the person filing the affidavit of compliance for such system, shall submit to the Department a written statement that such environmental site assessment has been performed in accordance with such law and regulations.

(e) License requirements

(1) Closure of motor fuel or other flammable or combustible liquid storage systems, whether temporary or permanent, shall be performed by a person holding a Certificate of License issued by the Department to install, alter, test or repair motor fuel storage and dispensing equipment or by a person who is employed and supervised by a person holding such certificate.

(2) Closure of fuel oil storage tanks with a total capacity exceeding 275 gallons shall be made by a person holding the aforementioned Certificate of License or who is employed and supervised by a person holding such certificate, or by a person holding an oil-burning equipment installer license issued by the New York City Department of Buildings or who is employed and under the direct supervision of a person holding such a license.

(3) Closure of fuel oil storage tanks with a total capacity of 275 gallons or less shall be made by a person holding the aforementioned Certificate of License or oil-burning equipment installer license or who is employed and under the direct supervision of a person holding such a license, or a plumber licensed by the New York City Department of Buildings.

(f) Modification

Whenever circumstances, conditions, limitations, or surroundings are unusual, or such as to render it impracticable to comply with any or all of the foregoing provisions, the Commissioner may waive or modify such provisions to such extent as he or she may deem necessary, consistent with public safety.

Statement of Basis and Purpose

The proposed amendment clarifies the procedures for closure of temporarily out-of-service and permanently out-of-service storage systems, consistent with the applicable regulations of the New York State Department of Environmental Conservation. The proposed amendment sets forth the manner in which the storage system must be temporarily closed, reopened, or permanently closed, including the requirements for filing an affidavit of compliance. The proposed amendment allows the Department to deem a tank permanently out-of-service where such system has not been closed and maintained as a temporarily out-of-service storage system and a change in use or occupancy of the premises at which the storage system is located indicates that any further use of such system cannot be reasonably anticipated.

If any paragraph, subparagraph or subdivision of this section shall be adjudged by any court or agency of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the paragraph, subparagraph or subdivision directly involved in the controversy in which such judgment shall have been rendered.

Dated: October 9, 1998

Section 1. Chapter 11 of Title 28 of the Rules of the City of New York concerning the use of lead-based paint in multiple dwellings is repealed, and a new Chapter 11 is added to read as follows:

§ 11-01 Definitions.

For the purposes of this chapter:

(a) "Lead-based paint" shall mean any paint or other similar surface-coating material having a reading of 0.7 milligrams of lead per square centimeter (mg/cm^2) or greater or containing more than 0.5 percent of metallic lead based on the non-volatile content of the paint or other similar surface-coating material.

(b) "Peeling paint" shall mean paint or other similar surface-coating material that is peeling, cracking, scaling, flaking, blistering, chipping, or loose in any manner, such that there exists any space or pocket of air behind any portion thereof or such that the paint is not completely adhered to the underlying surface.

§ 11-02 Lead-based paint in dwelling units in multiple dwellings in which a child six (6) years of age or under resides.

(a) The existence of lead-based paint on the interior walls, ceilings, doors, window sills or moldings in any dwelling unit in a multiple dwelling in which a child six (6) years of age or under resides shall constitute a class C immediately hazardous violation and subject the owner of such multiple dwelling to the penalties for such violation provided in article two of subchapter five of chapter two of title 27 of the Administrative Code.

(b) The violation shall read as follows:

Order No.	Class	Description	Section of Law
555	C	Remove or cover in a manner approved by the department all lead-based paint	Administrative Code 27-2013(h)

§ 11-03 Presumption. In any multiple dwelling erected prior to January 1, 1960 in which paint or other similar surface-coating material is found to be peeling on the interior walls, ceilings, doors, window sills or moldings in any dwelling unit in which a child six (6) years of age or under resides, it shall be presumed that the peeling substance is lead-based paint. This presumption may be rebutted by the owner of the multiple dwelling. Such rebuttal shall be made pursuant to subdivision f of §11-05 of this chapter.

§ 11-04 Removal or covering of lead-based paint.

(a) Pursuant to Administrative Code § 27-2013(h), the owner of a multiple dwelling shall remove or cover in a manner approved by the Department any lead-based paint on the interior walls, ceilings, doors, window sills or moldings in any dwelling unit in which a child six (6) years of age or under resides.

(b) When the Department orders the removal or covering of lead-based paint pursuant to Administrative Code § 27-2013(h), such removal or covering shall only be performed by the use of wet scraping and repainting where approved by the Department, removal, enclosure, encapsulation or replacement or such other method that is approved by the Department. Such removal or covering shall be performed in accordance with any applicable provisions of federal, state or local law, including, but not limited to the provisions of §173.14 of the New York City Health Code governing safety procedures for abatement of lead-based paint violations where ordered by the Department.

§ 11-05 Complaints; inspections; testing.

(a) A complaint of lead-based paint in a dwelling unit in a multiple dwelling and the presence of a child six (6) years of age or under residing in such dwelling unit shall be prioritized by the Department as an inspection generating complaint. An inspection shall be conducted no later than 10 days after receipt of such complaint by the Department. If the complained of condition is verified by inspection, a violation pursuant to Order No. 555 as provided in § 11-02 of this chapter shall be issued as provided in this section.

(b) When an inspection is conducted in response to a complaint made pursuant to subdivision a of this section in a multiple dwelling erected prior to January 1, 1960, and:

(1) the inspector observes paint which is peeling in a dwelling unit in which a child six (6) years of age or under resides, the existence of lead-based paint shall be presumed in accordance with the provisions of Administrative Code §27-2013(h)(2) and § 11-03 of this chapter, and a violation pursuant to Order No. 555 shall be issued within 20 days of such inspection; or

(2) the inspector observes paint which is not peeling in a dwelling unit in which a child six (6) years of age or under resides, the inspector shall evaluate and assess the extent of testing required based upon the size and condition of such dwelling unit and shall arrange for testing of such paint using either XRF or laboratory testing as provided in subdivision (e) of this section. Such testing shall be commenced within 10 days of the initial inspection. If the results of such testing indicate the presence of lead-based paint, a violation pursuant to Order No. 555 shall be issued within 10 days of the completion of testing.

(c) When an inspection is conducted in response to a complaint made pursuant to subdivision a of this section in a multiple dwelling erected on or after January 1, 1960, the inspector shall make an initial inspection in order to evaluate and assess the extent of testing required based upon the size and condition of the dwelling unit in which a child six (6) years of age or under resides, and shall arrange for testing of intact or peeling paint using either XRF or laboratory testing as provided in subdivision (e) of this section. Such testing shall be commenced within 10 days of the initial inspection. If the results of such testing indicate the presence of lead-based paint, a violation pursuant to Order No. 555 shall be issued within 10 days of the completion of testing.

(d) The time periods for inspections, testing, and issuance of violations provided in this section shall not apply where the Department has attempted and is unable to gain access to the dwelling unit which is the subject of a complaint pursuant to this chapter.

(e) This subdivision shall apply to testing for lead-based paint performed by the Department pursuant to this section:

(1) An XRF analyzer may be used by the Department to determine the presence of lead-based paint, and readings shall be corrected for substrate bias when necessary as specified by the manufacturer's instructions for the specific XRF instrument used. XRF readings shall be classified as positive, negative or inconclusive in accordance with the manufacturer's instructions for the specific XRF instrument used.

(2)(i) Laboratory analysis of lead-based paint chips may be used by the Department to determine the presence of lead-based paint, and shall be used by the Department to determine the presence of lead-based paint if results of testing with an XRF analyzer fall within the negative or inconclusive zone, as determined in accordance with paragraph (e)(1) of this section. Under such circumstances, results of such laboratory analysis may be reported either in percent by weight or in mg/cm^2.

(ii) Laboratory analysis of lead-based paint chips may also be used by the Department where accurate testing cannot be performed by XRF analyzer due to configuration of the surface to be tested. Where the surface area of a paint chip sample cannot be accurately measured or if all paint within the sampled area cannot be appropriately removed, laboratory analysis shall be reported in percent by weight.

(iii) Where laboratory analysis is reported in percent by weight, lead-based paint shall mean any paint or other similar surface-coating material containing more than 0.5 percent of metallic lead, based on the non-volatile content of the paint or other similar surface-coating material.

(f) This subdivision shall apply to testing for lead-based paint performed by an owner or his or her representative in order to rebut the presumption of lead-based paint pursuant to §11-03 of this chapter:

(1) An owner or his or her representative shall rebut such presumption:

(i) by showing the absence of lead-based paint having a reading of 0.7 mg/cm^2 or greater as determined by either XRF analyzer or by laboratory analysis reported in mg/cm^2, and

(ii) by showing the absence of lead-based paint having a reading of more than 0.5 percent of metallic lead based on the non-volatile content of the paint or other similar surface-coating material as determined by laboratory analysis expressed in percent by weight.

(g) This subdivision shall apply to testing for lead-based paint performed by an owner or his or her representative in order to contest a lead-based paint violation issued by the Department after testing.

(1) Where the Department has used an XRF analyzer to perform the testing that resulted in the issuance of the violation, an owner or his or her representative shall use only an XRF analyzer or laboratory analysis with results reported in mg/cm^2 to contest such violation.

(2) Where the Department has used laboratory analysis with results reported in either mg/cm^2 or in percent by weight to perform testing that resulted in issuance of the violation, an owner or his or her representative shall only use laboratory analysis reported in the equivalent measurement to contest such violation.

(h) An owner who uses an XRF analyzer to contest a violation pursuant to subdivisions (f) or (g) of this section shall perform such testing in accordance with subdivision (e)(1) of this section.

(i) The Department shall have sole discretion to determine the validity of any contestation of a violation submitted by an owner pursuant to this section.

§11-06 (a)The Department shall enforce Administrative Code §27-2013(h) in accordance with the provisions of subchapter 5 of chapter 2 of title 27 of the Administrative Code and these rules.

(b) If an owner fails to certify correction of a lead-based paint violation within the time period provided in Administrative Code § 27-2115(c) or within the time period provided in any extension granted by the Department, the Department shall, within 10 days after such failure:

(1) initiate a proceeding to enforce correction of such violation pursuant to article 4 of subchapter 5 of chapter 2 of title 27 of the Administrative Code, provided, however, that if the Department enforces the violation pursuant to such article 4, and, at the completion of such litigation pursuant to such article, the owner has not certified that the violation has been corrected, then the Department shall, within 10 days of the conclusion of such litigation, refer such violation to the Department's emergency repair services division for correction by the Department; or

(2) refer such violation to the Department's emergency repair services division for correction by the Department.

§11-07 Occupant relocation

(a) Where lead-based paint abatement work is undertaken as a result of issuance of an order for a violation of Administrative Code §27-2013(h), the owner of the dwelling unit in which such work is undertaken shall provide for temporary relocation of any child six (6) years of age or under and any pregnant woman when the owner has been informed that the woman is pregnant, unless all of the following conditions are met:

(1) the lead-based paint abatement work area is sealed during performance of lead-based paint abatement work as provided in §173.14 of the New York City Health Code;

(2) at the end of each day of lead-based paint abatement work:

(i) the area directly adjacent to the lead-based paint abatement work area up to within ten feet of such area is properly cleaned to remove lead contaminated dust or debris that may be present;

(ii) occupants have safe access to areas adequate for sleeping;

(iii) occupants have bathroom and kitchen facilities available to them; and

(iv) occupants have safe access to entry/egress pathways;

(3) lead-based paint abatement work does not create other safety hazards (e. g., exposed electrical wiring or holes in the floor); and

(4) all lead-based paint abatement work is performed in accordance with §173.14 of the New York City Health Code.

(b) The owner of a dwelling unit in which lead-based paint abatement work is taking place shall be solely responsible for relocation of a child six (6) years of age or under and/or a pregnant woman from such dwelling unit where required pursuant to this chapter.

§11-08 Transmittal of list of violations to the Department of Health

The Department shall transmit to the Department of Health a list of violations issued pursuant to this section by premises.

==========

Statement of Basis and Purpose

The Department of Housing Preservation and Development is authorized by the New York City Charter and the Administrative Code of the City of New York to promulgate rules pertaining to lead-based paint. These rules are being promulgated for the purpose of complying both with those laws and with orders issued in the case of New York City Coalition to End Lead Paint Poisoning v. Giuliani (NYCCELP) (Index No. 42780/85), dated July 24, 1990, April 19, 1996, and December 9, 1997. Specifically, HPD was directed to take steps to promulgate rules which would address:

1. how the agency would respond to complaints of lead-based paint, and how HPD would verify the presence or absence of lead-based paint in cases where the statutory presumption would not apply;

2. measures for complete abatement where lead-based paint has been established, including those instances where the paint is not detenorated;

3. safety procedures dunng abatement, including, if necessary, relocation of children six (6) years of age and under and pregnant women.

The proposed rule sets forth how HPD will respond to complaints of lead-based paint, whether peeling or not, and how HPD will verify the presence of lead-based paint. The proposed rule establishes time frames for response to complaints, inspections, testing, and issuance of notices of violation. The proposed rule provides that abatement shall take place in accordance with the procedures and safety requirements contained in §173.14 of the New York City Health Code, and establishes a specific standard for when relocation of children six (6) years of age and under and/or pregnant women is required during lead paint abatement work.

The proposed rule is being promulgated to comply with the orders of the Court in the NYCCELP litigation and its interpretation of Administrative Code § 27-2013(h).The Court has ruled that the section requires the complete removal or covering of all lead-based paint in the dwelling unit in a multiple dwelling where a child six (6) years of age or under resides, regardless of the date of construction of the building, and whether or not such paint is peeling or on a deteriorated surface. To implement the law as directed by the Court is an enormous and costly task. There are approximately 2.9 million housing units in New York City, of which between 1 and 2 million are estimated to contain lead-based paint. It is estimated that the mandates imposed by the Court to implement the law will require expenditure by the City in excess of approximately $100 million annually. Owners of privately owned dwellings can expect to spend an average of $15,000 per unit to comply with the mandate to make a dwelling unit lead-based paint free. The necessity to relocate tenants under certain circumstances during lead-based paint abatement work will add to owner expense.

However, complete abatement of intact lead-based paint is neither necessary nor practical. At present, the national consensus on developing a program to address the problem of lead-based paint in housing is to repair lead hazards, such as peeling and deteriorated lead-based paint and lead-based paint on friction surfaces, on a priority basis to achieve housing that is lead safe. Neither the City nor many owners of private dwellings can afford to use limited resources to completely remove or cover intact lead-based paint, which poses only the possibility of a future hazard to inhabitants of a dwelling unit. At a time when the City is working to address the problem of abandonment of the City's distressed residential properties, the costs, uncertainty and fear surrounding the lead paint issue and implementation of §27-2013(h) as imposed by the Court's order may well encourage more abandonment. The rules proposed today for complete removal or covering of lead-based paint as mandated by the Court, will implement a program that may ultimately severely exacerbate the lack of affordable housing in the City, without achieving the goal of protecting the safety of children in our City.

It should also be noted that the Court is interpreting the lead-based paint law as it believes the City Council intended it to be enforced. In order to implement a reasonable and sound lead-based paint program, a legislative solution is necessary.

Dear Sir/Madam:

The Comptroller of the City Of New York, pursuant to Section 6-109 of the City Charter, has published prevailing rates for various classifications of employees performing their work on publicly let cleaning service, security, food service, and temporary office worker contracts. With respect to the temporary office workers, we have determined rates for the classifications of secretary, typist, data entry clerk, clerk (various), stenographer, cashier and messenger. Enclosed for your information are job descriptions for these classifications of workers.

Recently it has come to our attention that additional categories of temporary office workers may be employed by various City agencies. Accordingly, we are asking that each agency ACCO provide this office with a listing of all temporary office worker titles currently engaged by their agency, as well as titles and job descriptions of temporary office workers that the agency anticipates using in the upcoming calendar year. Wage surveys for these classes of workers are to commence on or about October 19th.

Your prompt reply will assist this office in providing prevailing wage rates for temporary office workers in a timely and accurate fashion assuring that the needs of your agency's offices will be satisfied.

Sincerely,

Thomas C. Nodell

The period of probable usefulness for each Item is set forth in the description of such Item in exhibits to the Resolutions. Each of the capital projects listed in said exhibits (the "Projects") consists of one or more Items. The estimated maximum cost of each Item is its proportionate share of the estimated maximum cost of the Project of which such Item is a part. The estimated maximum costs of each such Project and the plan for financing the total costs of all of the Items comprising each Project are contained in the most recent capital budget in which funds for such Project were appropriated. Such total costs will be financed by the issuance of obligations of the City to the extent such costs are not financed by funds from other sources as indicated in such capital budget.

The Resolutions also authorize the temporary use of certain funds of the City for the purpose or purposes for which the issuance of obligations has been authorized by the Resolutions, and provide that suitable records are to be kept of such temporary diversion of funds, and that the City obtain reimbursement of such funds from the proceeds of the bonds authorized by the Resolutions, or from the sale of bond anticipation notes issued in anticipation of the sale of such obligations.

The validity of the obligations authorized by the Resolutions may be contested only if (1) such obligations are authorized for an object or purpose for which the City is not authorized to spend money, or the provisions of law which should be complied with as of this date of publication have not been substantially complied with, and an action, suit or proceeding contesting such validity is commenced within twenty (20) days after the date of this publication or (2) such obligations are authorized in violation of the provisions of the New York State Constitution.

THE FOLLOWING IS A LISTING OF THE CLASSES OF OBJECTS OR PURPOSES FOR WHICH THE OBLIGATIONS AUTHORIZED BY THE RESOLUTIONS SUMMARIZED HEREIN ARE TO BE ISSUED, TOGETHER WITH THE PERIODS OF PROBABLE USEFULNESS AND THE AMOUNTS OF OBLIGATIONS AUTHORIZED TO BE ISSUED FOR EACH SUCH CLASS OF OBJECTS OR PURPOSES. A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

PROJECT OPEN HOUSE – NA – 00299POH0254 – DUE 10-16-98 AT 4:00 P.M. – The New York City Mayor's Office for People with Disabilities (MOPD) seeks to retain the services of a contractor, through a Negotiated Acquisition process, to administer its Project Open House (POH) program for New Yorkers with disabilities.

The procurement identification number for this procurement is PIN No. 00299POH0254. The contractor must provide the following services: contract management, licensed occupational therapy (OT) consultation, and architectural, construction, and construction-related services in the City residences of a minimum of 75 low-income people with disabilities per year.

The contract requires home visit/site analysis and the completion of all construction services, based upon an OT's recommendations and a licensed architect's plan. The contract calls for the completion of a minimum of 75 projects per year. The contract term is for one (1) year, with three (3) one-year options to renew.

It has been determined to use negotiated acquisition as the method of procurement for this contract. It is not practicable or advantageous to award the contract by the competitive sealed proposal process because there is a limited number of contractors available and able to perform these services, and there is a need to retain a contractor quickly.

Any organization interested in being considered for this contract award, or wishing to receive more information, should contact Shelly Goldstone-Cohen at MOPD for an application form at (212) 788-2830, or tty: (212) 788-2838. The completed form must be submitted to Shelly Goldstone-Cohen at the Mayor's Office for People with Disabilities, 52 Chambers Street - Room #206, New York, N.Y 10007, by no later than 10-13-98, 4:00 P.M. Proposals submitted from contractors together with sub-contractors and proposals submitted from joint ventures are also welcome.

Use the following address unless otherwise specified in notice, to secure. examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

Motor vehicle. "Motor vehicle" means a motor vehicle registered by an individual resident pursuant to the vehicle and traffic law at the address of his or her primary residence in New York County or in the case of a leased vehicle, registered pursuant to the vehicle and traffic law and leased to an individual resident at the address of his or her primary residence in New York County, and, in either case, which is not used in carrying on any trade, business or commercial activity. The term includes passenger and suburban vehicles, trucks, motorcycles and recreational vehicles.

NOTICE OF AVAILABILITY OF NYCDOT'S FINAL ENVIRONMENTAL IMPACT STATEMENT FOR LEAD PAINT REMOVAL OPERATIONS ON NYCDOT BRIDGES

Pursuant to the State Environmental Quality Review Act (SEQRA) and its implementing regulations, New York City has established rules for the City's Environmental Quality Review (CEQR). Under CEQR, the New York City Department of Transportation (NYCDOT), acting as lead agency, has issued a Final Environmental Impact Statement (FEIS) on the proposed action.

A Draft Environmental Impact Statement (DEIS) was prepared by NYCDOT, analyzing the effects of abrasive blasting and alternative methods of lead paint removal on public health and the environment, and the adequacy of the proposed containment system to protect against such effects during paint removal activities on NYCDOT bridges. The DEIS was certified as being complete and was published and distributed for public review. Comments on the DEIS were received at the public hearing or were submitted in writing to the NYCDOT through August 24, 1998, the close of the public comment period.

The FEIS document includes a summary of the comments on the DEIS and responds to relevant issues. NYCDOT has determined that the FEIS is complete and has issued a Notice of Completion. The Department will use the FEIS to make CEQR Statement of Findings, which addresses the impacts and mitigation, before making its decision on implementing the proposed action.

The full FEIS is available for public review at NYCDOT's Office of Project Analysis/CEQR and at the NYC Office of Environmental Coordination, Municipal Building, 25th Floor, New York, NY 10007.

LANDMARKS PRESERVATION COMMISSION

BINDING REPORT

ISSUE DATE:	DOCKET #:	SRB #:
09/14/98	991301	SRB 99-1513

ADDRESS	BOROUGH:	BLOCK/LOT:
PROSPECT PARK-BOATHSE HISTORIC DISTRICT INDIVIDUAL LANDMARK	BROOKLYN -	1117 / 1

To the Mayor, the Council, and the Commissioner, Department of Parks and Recreation.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed drawings for the proposed restoration of the exterior cladding at the Prospect Park Boathouse, an individual landmark within the Prospect Park scenic landmark. The proposed work is described on 10 drawings dated 6-23-98, in photographs, and in two conditions and analysis reports prepared by Building Conservation Associates and dated March 1996 and June 1998, all prepared and submitted by the Prospect Park Alliance as components of the application.

The Commission notes that the designation report describes the building as a Renaissance-style terra-cotta pavilion designed by Helmle and Huberty and built in 1904 to replace an earlier wooden boathouse. The Commission also notes that the terra cotta was completely replaced in 1971 and partially replaced and repaired in 1985, but that this subsequent restoration has failed, and much of the terra cotta is deteriorated. The Commission finally notes that the thorough analysis undertaken by the Alliance found that the deterioration is due to lack of proper flashing and weep holes, incompatible mortar, and possibly to flaws in the terra cotta units.

The Commission finds that the proposed work is restorative and will return the Boathouse to its historic appearance and to sound condition; that the work will incorporate flashing in all critical locations; that new terra-cotta units will match exactly the appearance of the units to be replaced but will incorporate weep holes as needed; that soft, compatible mortar will be used to point all facades; and that spalled units to be retained will be patched with cementitious patching material to match the color, texture, and sheen of the terra cotta. Based on these findings, the proposed work is determined to be appropriate to the individual landmark and to the Prospect Park scenic landmark.

Please provide specifications for replacement terra-cotta units, pointing, and patching when available. Also, please provide the Commission with samples of new units and pointing for review. Finally, please forward one or more 8 by 10 inch black and white photographs of the completed work to the Art Commission of the City of New York for its records.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agree to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Jeremy Woodoff.

Y2K SOFTWARE CODING SERVICES – 02599X001121 – DUE 10-19-98 AT 5 PM – The City of New York Law Department ("Department") intends to enter into negotiations with one or more qualified software consulting firms to award a contract to re-code the Department's current case management and tracking system, known as the New York City Law Information System ("NYCLIS"), so that it is Year 2000 Compliant. The system is a CICS-based application with both COBOL and Assembler language programs. The system contains approximately 400,000 lines of base code and another 500,000 to 600,000 lines of codes produced by an application generator. In addition to converting the application code, the NYCLIS database must be converted and reformatted for the new date filed formats. The contractor must ensure that no record pointers are corrupted during the database conversion effort. Relevant experience is preferred. Contract award will be by the Negotiated Acquisition method of source selection, based upon the determination that it is not practicable or not advantageous to award this contract by competitive sealed bid or proposal process because their is a limited number of suppliers available and able to perform these services and there is a need to retain a supplier quickly, and that award of the contract by negotiated acquisitions in the City's best interest. Any qualified firm which believes it can provide the services described above is invited to express its interest by letter, which must be received no later than the due date and time, and at the location, specified in this notice.
Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

PROMPT PAYMENT

It is policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bill within 30 days after the receipt of a proper invoice. The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board51 Chambers Street Room 1126, New York 10007 (212) 788-7820

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Y2K SOFTWARE CODING SERVICES – 02599X001121 – DUE 10-19-98 AT 5 PM – The City of New York Law Department ("Department") intends to enter into negotiations with one or more qualified software consulting firms to award a contract to re-code the Department's current case management and tracking sytem, known as the New York City Law Information System ("NYCLIS"), so that it is Year 2000 Compliant. The sysem is a CICS-based application with both COBOL and Assembler language programs. The system contains approximately 400,000 lines of base code and another 500,000 to 600,000 lines of

codes produced by an application generator. In addition to converting the application code, the NYCLIS database must be converted and reformatted for the new date filed formats. The contractor must ensure that no record pointers are corrupted during the database conversion effort. Relevant experience is preferred. Contract award will be by the Negotiated Acquisition method of source selection, based upon the determination that it is not practicable or not advantageous to award this contract by competitive sealed bid or proposal process because there is a limited number of suppliers available and able to perform these services and there is a need to retain a supplier quickly, and that award of the contract by negotiated acquisition is in the City's best interest. Any qualified firm which believes it can provide the services described above is invited to exxpress its interest by letter, which must be received no later than the due date and time, and at the location, specified in this notice.
Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

PROJECT OPEN HOUSE – NA – 00299POH0254 – DUE 10-16-98 AT 4:00 P.M. – The New York City Mayor's Office for People with Disabilities (MOPD) seeks to retain the services of a contractor, through a Negotiated Acquisition process, to administer its Project Open House (POH) program for New Yorkers with disibilities. The procurement identification number for this procurement is PIN No. 00299POH0254. The contractor must provide the following services: contract management, licensed occupational therapy (OT) consultation, and architeciural, construction, and construction-related services in the City residences of a minimum of 75 low-income people with disibilities per year.

The contract calls for the complction of a minimum of 75 projects per year. The contract term is for one (1) year, with three (3) one-year options to renew.

NOTICE OF AVAILABILITY OF NYCDOT'S FINAL ENVIRONMENTAL IMPACT
STATEMENT FOR LEAD PAINT REMOVAL OPERATIONS ON NYCDOT BRIDGES

Pursuant to the State Environmental Quality Review Act (SEQRA) and its implementing regulations, New York City has established rules for the City's Environmental Quality Review (CEQR). Under CEQR, the New York City Department of Transportation (NYCDOT), acting as lead agency, has issued a Final Environmental Impact Statement (FEIS) on the proposed action.

A Draft Environmental Impact Statement (DEIS) was prepared by NYCDOT, analyzing the effects of abrasive blasting and alternative methods of lead paint removal on public health and the environment, and the adequacy of the proposed containment system to protect against such effects during paint removal activities on NYCDOT bridges. The DEIS was certified as being complete and was published and distributed for public review. Comments on the DEIS were received at the public hearing or were submitted in writing to the NYCDOT through August 24, 1998, the close of the public comment period.

The FEIS document includes a summary of the comments on the DEIS and responds to relevant issues. NYCDOT has determined that the FEIS is complete and has issued a Notice of Completion. The Department will use the FEIS to make CEQR Statement of Findings, which addresses the impacts and mitigation, before making its decision on implementing the proposed action.

The full FEIS is available for public review at NYCDOT's Office of Project Analysis/CEQR and at the NYC Office of Environmental Coordination, Municipal Building, 25th Floor, New York, NY 10007.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. ■ **SOLICITATIONS**

Y2K SOFTWARE CODING SERVICES – 02599X001121 – DUE 10-19-98 AT 5 PM – The City of New York Law Department ("Department") intends to enter into negotiations with one or more qualified software consulting firms to award a contract to re-code the Department's current case management and tracking system, known as the New York City Law Information System ("NYCLIS"), so that it is Year 2000 Compliant. The system is a CICS-based application with both COBOL and Assembler language programs. The system contains approximately 400,000 lines of base code and another 500,000 to 600,000 lines of codes produced by an application generator. In addition to converting the application code, the NYCLIS database must be converted and reformatted for the new date filed formats. The contractor must ensure that no record pointers are corrupted during the database conversion effort. Relevant experience is preferred. Contract award will be by the Negotiated Acquisition method of source selection, based upon the determination that it is not practicable or not advantageous to award this contract by competitive sealed bid or proposal process because there is a limited number of suppliers available and able to perform these services and there is a need to retain a supplier quickly, and that award of the contract by negotiated acquisition is in the City's best interest. Any qualified firm which believes it can provide the services described above is invited to express its interest by letter, which must be received no later than the due date and time, and at the location, specified in this notice.
Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

PROJECT OPEN HOUSE – NA – 00299POH0254 – DUE 10-16-98 AT 4:00 P.M. – The New York City Mayor's Office for People with Disabilities (MOPD) seeks to retain the services of a contractor, through a Negotiated Acquisition process, to administer its Project Open House (POH) program for New Yorkers with disabilities. The procurement identification number for this procurement is PIN No. 00299POH0254. The contractor must provide the following services: contract management, licensed occupational therapy (OT) consultation, and architectural, construction, and construction-related services in the City residences of a minimum of 75 low-income people with disabilities per year.

The contract requires home visit/site analysis and the completion of all construction services, based upon an OT's recommendations and a licensed architect's plan. The contract calls for the completion of a minimum of 75 projects per year. The contract term is for one (1) year, with three (3) one-year options to renew.

It has been determined to use negotiated acquisition as the method of procurement for this contract. It is not practicable or advantageous to award the contract by the competitive sealed proposal process because there is a limited number of contractors available and able to perform these services, and there is a need to retain a contractor quickly.

Any organization interested in being considered for this contract award, or wishing to receive more information, should contact Shelly Goldstone-Cohen at MOPD for an application form at (212) 788-2830, or tty: (212) 788-2838. The completed form must be submitted to Shelly Goldstone-Cohen at the Mayor's Office for People with Disabilities, 52 Chambers Street - Room #206, New York, N.Y 10007, by no later than 10-13-98, 4:00 P.M. Proposals submitted from contractors together with sub-contractors and proposals submitted from joint ventures are also welcome.

STATUTORY AUTHORITY

These amendments to the New York City Health Code are promulgated pursuant to Sections 558(b) and (c) of the New York City Charter empowering the Board of Health to amend the Health Code, and Charter Section 1043 granting rulemaking powers to the Department of Health.

STATEMENT OF BASIS AND PURPOSE

Dust and chips from deteriorating lead based paint in older housing remains a significant potential source of exposure for children at risk of lead poisoning in New York City. Abatement of lead based paint is currently ordered by the Commissioner, pursuant to New York City Health Code section 173.13 or by the Commissioner of the Department of Housing Preservation and Development (HPD) in accordance with section 27-2013 (h) of the Administrative Code of the City of New York (Housing Maintenance Code) and related regulations.

Subsection 173.13 (d)(2) of the Health Code was amended by the Board on September 24, 1996 to require the Commissioner to order the removal of lead based paint, "when the Department finds that there is a child under 18 years of age with a blood-lead level of 20 micrograms per deciliter or higher residing in any dwelling and further finds that the interior of such dwelling has lead based paint as defined in section 173.14 (b)(16) that is (a)peeling, (b) on a window friction surface or (c) on any surface that, in the Department's determination, is a lead hazard because of its condition, location or accessibility to children."

Section 173.14 of the Health Code, which codifies safety standards for abatement of lead based paint, was amended by Board resolution adopted September 24, 1996 to change the action level and define lead paint hazards from deteriorating peeling paint in accordance with *Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing* (U.S. Department of Housing and Urban Development, Washington, D.C., 1995) issued pursuant to Title X of the Housing and Community Development Act of 1992.

These amendments to subsection 173.13(d)(2) and section 173.14 of the Health Code which became effective in January 1, 1997 were intended solely to reference Federal standards, accepted and recognized public health guidelines and State regulations in modernizing the definition, assessment and control of lead based paint and lead based paint hazards.

The amendment to section 173.13 (d)(2), relative to peeling paint and other specific hazards, was based on sound public health and public policy considerations and reflects a growing national consensus that not all lead based paint poses a hazard to children who may be at risk. The Administrative Code section noted above has never been amended since it was enacted in 1982 and it fails to clearly distinguish lead based paint conditions which may be a hazard, e.g., deteriorated or peeling paint or paint to be found on window friction surfaces in pre-1960 housing, from intact residential lead based paint which exposes residents to no immediate risk.

Prior to the 1996 amendments, lead based paint was defined in section 173.13 (d)(2) as "paint or other similar surface-coating material containing more than 0.5 percent of metallic lead based on the non-volatile content of the paint or other similar surface-coating material on the interior walls, ceilings, doors, baseboards or window sills and frames of any dwelling." The subsection further provided that "an x-ray fluorescent analyzer, may be used in lieu of paint samples to determine the presence of lead paint. A reading of 0.7 milligrams of lead per square centimeter, or greater, shall be considered as satisfactory evidence that the paint or other similar surface-coating material contains more than 0.5 percent of metallic lead based on the total non-volatile content of the paint or the weight of the dried paint film." Under that definition, Department findings were increasingly subject to challenge by owners of housing units where children with blood-lead levels of 20 micrograms per deciliter (mcg/dL) or higher resided, resulting in delays in abatement until the evidence submitted in support of the challenge could be evaluated by the Department. The former definition was also inconsistent with the newly published HUD *Guidelines* and scientific validation studies. By resolution adopted on September 24, 1996, the Board amended section 173.14 (b)(16) and changed the Health Code standard to 1.0 milligram of lead per square centimeter (mg/cm²) or greater whether the lead content was determined by XRF analysis or laboratory analysis of paint chips. The 0.5 percent by weight standard was eliminated altogether from the Health Code as a measure of lead content of paint films because such a measure potentially underestimates the amount of lead based paint present on the interior surfaces of a dwelling unit. When surfaces are repeatedly painted wit+h non-lead based paint, a dilution of lead as a percent by weight may result, even though the actual amount of lead in the paint sample being measured remains the same. As a result, the lead in a particular sample of lead based paint measured by XRF analysis in units of mass per area could exceed the Health Code threshold, and be identified as a Health Code "violation," but the same amount could fall below the violation threshold when measured as a percent by weight.

There are compelling public health reasons for minimizing laboratory analysis of paint chips, e.g., (1) cutting paint chips off painted surfaces is itself destructive of fragile walls and other structures and can further subject a child to exposure from deteriorating lead paint and residual dust unless the sampled area is immediately and safely repaired; (2) the time required for analysis of paint chips delays completion of a risk assessment and abatement; and (3) laboratory analysis of paint chips is much more costly than use of portable XRF equipment. Current models of XRF lead paint analyzers are non-destructive of walls, and provide immediate, reliable and accurate results.

Using modern XRF equipment which reduces the time between inspection and abatement, and eliminating the percent by weight standard (which requires laboratory analysis of paint chips) has resulted in a higher degree of protection for the child with a blood lead level of 20 mcg/dL or higher on whose behalf an environmental risk assessment is performed. After the percent by weight standard was eliminated by the September, 1996 amendment of section 173.14, the number and percent of challenges to Department lead investigation findings were significantly reduced. It is also noteworthy that the Department's procedures and findings have survived two court challenges by owners, with courts holding that the Department's current analytic standards and its procedures for evaluating challenges to Commissioner's orders to abate are valid, rational and protective of children. See, e.g., *601 Realty Corp. v. City of New York Dept. of Health*, Index No. 103476/98 (Sup. Ct., N.Y. County., Aug. 9, 1998) (decision and order).

However, since the Board adopted these Health Code amendments to limit ordered abatement to lead based paint on peeling and window friction surfaces or other lead hazards which represent a risk, and to redefine lead based paint in accordance with scientifically recognized and accepted technical and public health standards, the Department has been enjoined by court order from implementing the changes to both section 173.13, with respect to intact lead based paint, and section 173.14 with respect to the definition of lead based paint. See, *New York City Coalition to End Lead Poisoning, et al. (NYCCELP), v. Giuliani, et al.*, Index No 42780/85 (Sup. Ct., N.Y. Co., Aug. 1, 1997) (order), *aff'd* __ A.D.2d __, 669 N.Y.S.2d 552, 553 (1st Dept., 1998).

The *NYCCELP* litigation sought to require the Department of Housing Preservation and Development (HPD) to adopt regulations to enforce the provisions of the Administrative Code adopted by the New York City Council in 1982 and known as Local Law 1 of 1982. According to the court decisions, Local Law 1 establishes a standard requiring owners of multiple dwellings where a child under age seven resides to cover or remove all paint, intact or not, which contains lead in amounts equal to or greater than 0.7 mg/cm² or more than 0.5 percent by weight. *NYCCELP* court decisions further hold that the safety standards of Health Code section 173.14 must be made applicable to abatements of actual or presumed lead based paint in any multiple dwelling where a child under age seven resides, in addition to abatements ordered by a City agency, and must provide for relocation of pregnant women and children under age seven, if necessary, while abatement is proceeding.

The Department has been advised by the New York City Corporation Counsel that appeals of these orders have been exhausted and that citations for criminal and/or civil contempt against various City officials, including the Commissioners of Health and Housing Preservation and Development are a possibility. The courts have ordered the City defendants in this litigation to amend the Health Code. Until the Code can be amended in accordance with the procedural requirements of applicable law, the Department has been enjoined from enforcing the specific portions of the 1996 amendments to the Health Code related to its findings upon inspection of lead based paint surfaces which form the basis for issuance of Commissioner's orders to abate pursuant to section 173.13 (d)(2) of the Health Code, and the definition of lead based paint found in section 173.14(b)(16)(aa). While the Department strongly believes in the scientific and public health validity of these provisions as currently written, on September 21, 1998, under the threat of a possible contempt citation, the Department changed its inspection procedures and orders accordingly, reflecting effective legal service of the most recent applicable appellate court decision.

Accordingly, it is proposed that the Health Code be amended in compliance with the court orders as follows:

I. Amendment of subsection 173.13(d)(2) to require the Commissioner to order abatement of any lead based paint as defined in the Code, including intact paint, from any interior surface in a dwelling unit which is the residence of a child reported as having a blood lead level of 20 mcg/dL or higher.

II. Amendment of the definition of lead based paint in subsection 173.14 (b)(16)(aa) from 1.0 mg/cm² or greater to 0.7 mg/cm² or greater.

III. Amendment of applicable subsections of the safety standards in section 173.14 to make this section applicable to abatement of lead based paint in multiple dwellings in which any child under seven years of age resides, as required by the court orders, in addition to abatements ordered by the Commissioner and the Commissioner of HPD, but excepting from these requirements emergency repairs immediately necessary for reasons other than abatement of lead based paint, repairs to surfaces less than two feet square, and routine painting and maintenance.

IV. Adding a new subsection (h) to the abatement safety requirements and modifying paragraph (dd) of subdivision (4) of subsection (e) and other applicable subsections of section 173.14 to provide for relocation of children under age seven and pregnant women, if necessary, from dwelling units in multiple dwellings where abatement is in progress.

I. Amendment of Section 173.13(d)(2)

Instead of deferring to the substantial scientific evidence and public health testimony submitted in the course of litigation as to the actual hazards which may be posed by deteriorating or peeling (as opposed to intact) lead based paint, the courts deciding the *NYCCELP* case have ruled that section 27-2013 (h) of the Administrative Code [Local Law 1] strictly construed deems any paint containing lead in a dwelling unit in a multiple dwelling in which a child under seven resides to be an immediate hazard which must be abated, regardless of its condition.

Similarly, on purely legal, non-scientific grounds, the courts have determined that the amendment to section 173.13(d)(2), which was intended to afford the Department broad and rational discretion in identifying and eliminating lead based paint hazards which could pose a risk to a child with a blood-lead level reported as 20 mcg/dL or higher, was "violative of" the outdated Administrative Code. The *NYCCELP* decisions have been issued despite a growing national consensus of public health and housing experts that it is neither necessary nor desirable to require complete removal of all lead based paint regardless of condition wherever it is found. See, e.g., HUD *Guidelines*; Lead Based Paint Hazard Reduction and Financing Task Force, *Putting the Pieces Together: Controlling Lead Hazards in the Nation's Housing* (1995); Alliance to End Childhood Lead Poisoning, *National Action Plan for Preventing Childhood Lead Poisoning*, (Jan. 1993). Solely for the purpose of compliance with the court's order, it is proposed to restore the prior language of this subsection related to findings which require issuance of a Commissioner's order to abate, regardless of the condition of any surface on which lead based paint is found, and regardless of the risk to children Although this change may result in unnecessary, costly, and potentially dangerous disturbance of intact lead based paint, and may even delay abatement, this amendment is required by the above-cited court order

II. Amendment of Subsection 173.14(b)(16)(aa).

The primary method for determining the presence of lead based paint remains the x-ray fluorescence (XRF) analyzer for all the reasons detailed above, namely, because results are relatively accurate (statistically reliable and valid) and immediately available in the field and the sampling methodology is not destructive of paint which could create a further hazard to a child with a blood-lead level reported as 20 mcg/dL or higher.

As noted when this subsection was previously amended, readings obtained in using XRF instruments, as with any analytic technique for measuring lead in paint, may vary depending on such factors as the type of instrument and the type of surface being tested. To control for the imprecision in XRF readings, subsection 173.14(b)(16)(aa) currently outlines procedures for determining whether XRF results are positive, negative or inconclusive and requires inconclusive results to be confirmed by laboratory analysis of paint chips. Because different makes and models of XRF analyzers have different inconclusive ranges, the current Health Code references the Performance Characteristic Sheet (PCS) for the particular XRF instrument to determine the inconclusive zone for that particular instrument, as recommended by the HUD *Guidelines*. [The various Performance Characteristic Sheets, which were commissioned by HUD, represent the results of an independent testing laboratory's analysis of the statistical validity and reliability of different XRF instruments depending upon the composition of the substrate on which lead based paint was applied.] The Health Code also requires that where a PCS is not available for a particular XRF instrument, XRF readings be classified as positive, negative or inconclusive in accordance with the State regulatory action level defined in Title 10 N.Y.C.R.R., Section 67-2.4(a)(1) and (a)(2).

Unfortunately, there is currently no PCS available for any XRF instruments at the proposed 0.7 mg/cm² regulatory action level, and the cited State regulation is not applicable. It is proposed that XRF findings be classified as positive, negative or inconclusive in accordance with the manufacturer's instructions for the particular instrument used. This classification will apply both to the Department's findings and to those of owners challenging the Department's findings who will be instructed to obtain and submit appropriate instructions for the XRF instruments used. It is also proposed that references to the State regulation be deleted as inapplicable.

III. Applying the Safety Standards to Non-Ordered Abatements.

When the abatement safety requirements of section 173.14 were adopted in 1993, they were made applicable to all abatements ordered by the Commissioners of Health or HPD. One obvious reason is that it incorporates a risk-based approach to lead based paint abatement by concentrating on dwellings with documented lead based paint hazards and the presence of a child. The plaintiffs in *NYCCELP* moved in court to compel the City to widen the applicability of these safety provisions. The court order previously cited requires that safety "procedures" be applicable to abatements "in any multiple dwelling where a child under seven years old resides, if the surface coating is or, by operation of law, is presumed to be lead paint as defined by the laws or regulations of New York City, regardless of whether a City agency has issued a violation for the lead paint condition." *NYCCELP v. Giuliani*, Index No. 42780/85 (Sup. Ct., N.Y. Co., Aug. 1, 1997) (order), *aff'd* __ A.D.2d __, 669 N.Y.S.2d 552, 553 (1st Dept., 1998).

It is proposed that the Department comply with the court order by incorporating the court's language in subsection 173.14 (a) (1) as to the scope and applicability of the safety standards, and by amending various provisions in this section to delete inapplicable references to abatements ordered by the Commissioners of Health or HPD. It is proposed that the definition of "abatement" of lead based paint not include or apply to emergency repairs which are immediately necessary for reasons not related to lead based paint abatement, or repairs of limited scope (less than two square feet) scope or regular painting and maintenance activity. Regulations adopted by the United States Environmental Protection Agency (EPA) also provide for a number of exceptions. See, e.g., EPA, *Lead; Requirements for Hazard Education Before Renovation of Target Housing*, 40 CFR Part 745 (rule effective June 1, 1999), found at 63 Fed. Reg. 29908 (1998).

IV. Providing for Relocation of Pregnant Women and Children under Age Seven, If Necessary, During Lead Based Paint Abatement.

Court decisions have held that HPD and the Department must promulgate regulations providing for relocation of pregnant women and children under seven years of age, if necessary, during lead based paint abatement. See, *NYCCELP v. Giuliani*, Index No. 42780/85 (Sup. Ct., N.Y. Co., May 1, 1996) (order), *aff'd* __ AD2d __, 668 N.Y.S.2d 1 (1st Dept., 1997), which holds the City and the Commissioner of HPD in civil contempt because the safety standards in Health Code section 173.14, which already include provisions prohibiting access to areas of a dwelling unit where abatement is in progress and mandate daily clean-up activities, do "not indicate when children and pregnant women should be relocated from a dwelling undergoing abatement ..." Some provision must be included in the Health Code regarding relocation, because the rules proposed by HPD in compliance with the court order would only apply to abatements ordered by HPD. It is therefore proposed that a new subsection 173.14 (h) be adopted which contains provisions consistent with regulations proposed by HPD Both proposals are adapted from rules proposed (but not adopted) by HUD for occupant relocation in Title X lead abatements. See, HUD, *Office of Lead-Based Paint and Poisoning Prevention; Requirements for Notification, Evaluation and Reduction of Lead-Based Paint Hazards in Federally owned Residential Property and Housing Receiving Federal Assistance*, 61 Fed. Reg. 29170 (1996).

STATEMENT PURSUANT TO SECTION 1042 - REGULATORY AGENDA

None of the proposed amendments were included in the Health Department's regulatory agenda which was published before the City was served with the court orders cited above.

RESOLVED, that subdivision (2) of subsection 173.13(d) of the New York City Health Code as amended by resolution adopted on the twenty-fourth day of September, nineteen hundred and ninety-six, be and the same hereby is amended, to be printed together with explanatory notes, to read as follows:

173.13 Lead Paint.

(d) (2) When the Department finds that there is a child under 18 years of age with a blood-lead level of 20 micrograms per deciliter or higher residing in any dwelling and further finds that the interior of such dwelling has lead based paint as defined in Section 173.14(b)(16) [that is (a) peeling, (b) on a window friction surface or (c) on any surface that, in the Department's determination, is a lead hazard because of its condition, location or accessibility to children], it shall order the abatement of any such condition in a manner and under such safety conditions as it may specify, and the refinishing of such interior surfaces of the apartment, room or part of a room with a suitable finish which is not in violation of subsection (c) of this section, or the covering of such surfaces with such materials and by such methods as the Department may direct to protect the life and health of the occupants of such apartment or room. When the above conditions exist and the blood-lead[-]level of any child under 18 years of age residing in such dwelling is between 15 and 19 micrograms per deciliter, the Department[,] may, in such cases as it deems essential, order the same actions to be taken as above. In the event that the owner or other person having the duty or liability to comply with such order fails to comply therewith within five (5) days after service thereof in accordance with the provisions of §17-148 of the Administrative Code, the Department shall request the Department of Housing Preservation and Development to execute such order pursuant to the provision of §17-147 of such Code.

NOTES: Subdivision (2) of subsection (d) was amended on _____ to comply with the order of the court in *New York City Coalition to End Lead Poisoning (NYCCELP) v. Giuliani*, Index No. 42780/85 (Sup. Ct., N.Y. Co., Aug. 1, 1997) (order), *aff'd* __ A.D.2d __, 669 N.Y.S.2d 552, 553 (1st Dept., 1998), which required the Health Code to be amended so that the Commissioner orders abatement of all lead based paint in the residence of a child reported as having a blood-lead level of 20 mcg/dL or greater without regard to the condition of the surface containing such lead based paint.

RESOLVED, that subdivision (1) of subsection (a) of Section 173.14 of the New York City Health Code as amended by resolution adopted on the twenty-fourth day of September, nineteen hundred and ninety-six, be and the same hereby is amended, to be printed together with explanatory notes, to read as follows:

173.14 Safety Standards For Lead Based Paint Abatement

(a) Purpose, Scope and Applicability

(1) This section shall apply to the wet scraping and repainting, removal, encapsulation, enclosure, replacement, as such terms are defined herein, or other approved method of abatement, of paint, plaster, or other similar surface coating materials containing lead based paint as defined in subdivision (16) of subsection (b) of this section, whenever such wet scraping and repainting, removal, encapsulation, enclosure, replacement, or other approved method of abatement, is (aa) directed by order of the Commissioner; [or] (bb) directed or ordered by the Commissioner of Housing Preservation and Development[.]; or (cc) undertaken by an owner in any dwelling unit in a multiple dwelling where a child under seven years old resides, if the surface coating is or, by operation of law, is presumed to be lead paint as defined by the laws or regulations of New York City, regardless of whether a City agency has issued a violation for the lead paint condition. The provisions of [this section] paragraph (cc) shall not apply to any emergency repairs which are immediately necessary for reasons other than the abatement of lead based paint, other repairs of structures or surfaces in an area measuring less than two square feet, routine painting or maintenance activities. These provisions shall not be construed to authorize any method of abatement which is otherwise prohibited by law.

NOTES: Subdivision (1) of subsection (a) was amended on _____ to comply with the order of the court in *New York City Coalition to End Lead Poisoning (NYCCELP) v. Giuliani*, Index No 42780/85 (Sup Ct., N.Y Co., Aug 1, 1997) (order), *aff'd* __ A.D.2d __, 669 N.Y.S.2d 552, 553 (1st Dept., 1998) which requires that all abatements of lead based paint in a dwelling unit in a multiple dwelling where a child under age seven resides be subject to these safety standards, not only those ordered by a City agency. Consistent with safety standards promulgated nationally by the U.S. Environmental Protection Agency, the safety standards are not intended to apply to emergency repairs, other repairs affecting an interior surface area measuring less than two square feet, and routine painting and maintenance activities.

RESOLVED, that subdivision (2) of subsection (a) of Section 173.14 of the New York City Health Code as amended by resolution adopted on the twenty-fourth day of September, nineteen hundred and ninety-six, be and the same hereby is amended, to be printed together with explanatory notes, to read as follows:

This section shall apply to all conditions and surfaces directed or ordered to be abated, including but not limited to common areas, public hallways, and exterior surfaces as directed or ordered. When abatement of lead based paint is otherwise undertaken pursuant to subdivision (1)(cc) of subsection (a) of this Section, only the methods of abatement specified in subdivisions (d)(1) through (6) of this section shall be utilized.

RESOLVED, that paragraph (aa) of subdivision (16) of subsection (b) of Section 173.14 of the New York City Health Code, as amended by resolution adopted on the twenty-fourth day of September, nineteen hundred and ninety-six, be and the same hereby is amended, to be printed together with explanatory notes to read as follows:

(16)(aa) "Lead Based Paint", for the purposes of this Code, shall mean paint or other similar surface coating material containing 0.7 [1.0] milligram of lead per square centimeter (mg/cm²) or greater, as determined by laboratory analysis, or by an x-ray fluorescence (XRF) analyzer. If an XRF analyzer is used, readings shall be corrected for substrate bias when necessary as specified [by the Performance Characteristic Sheets (PCS) published by the United States Environmental Protection Agency (EPA)] in the manufacturer's instructions for the specific XRF instrument used. XRF readings shall be classified as positive, negative or inconclusive in accordance with [the United States Department of Housing and Urban Development (HUD) "Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing", June 1995 and the PCS published by the EPA and HUD] the manufacturer's instructions for the specific XRF instrument used. [If a PCS is not available for the instrument used for testing, readings shall be classified in accordance with Title 10, New York Codes, Rules and Regulations (N.Y.C.R.R.) Section 67-2.4) or its successor regulation]. XRF results which fall within the inconclusive zone, as determined [by the PCS or Title 10 N.Y.C.R.R. Section 67-2.4(a)(1) and (a)(2)] in accordance with the manufacturer's instructions for the specific XRF instrument used, shall be confirmed by laboratory analysis of paint chips, results shall be reported in mg/cm² and the measure of such laboratory analysis shall be definitive. If laboratory analysis is used to determine lead content, results shall be reported in mg/cm². Where the surface area of a paint chip sample cannot be accurately measured or if an accurately measured paint chip sample cannot be removed, laboratory analysis may be reported in percent by weight. In such case, lead-based paint shall mean any paint or other similar surface coating material containing more than 0.5% of metallic lead, based on the non-volatile content of the paint or other similar surface coating material.

NOTICE OF AVAILABILITY OF NYCDOT'S FINAL ENVIRONMENTAL IMPACT STATEMENT FOR LEAD PAINT REMOVAL OPERATIONS ON NYCDOT BRIDGES

Pursuant to the State Environmental Quality Review Act (SEQRA) and its implementing regulations, New York City has established rules for the City's Environmental Quality Review (CEQR). Under CEQR, the New York City Department of Transportation (NYCDOT), acting as lead agency, has issued a Final Environmental Impact Statement (FEIS) on the proposed action.

A Draft Environmental Impact Statement (DEIS) was prepared by NYCDOT, analyzing the effects of abrasive blasting and alternative methods of lead paint removal on public health and the environment, and the adequacy of the proposed containment system to protect against such effects during paint removal activities on NYCDOT bridges. The DEIS was certified as being complete and was published and distributed for public review. Comments on the DEIS were received at the public hearing or were submitted in writing to the NYCDOT through August 24, 1998, the close of the public comment period.

The FEIS document includes a summary of the comments on the DEIS and responds to relevant issues. NYCDOT has determined that the FEIS is complete and has issued a Notice of Completion. The Department will use the FEIS to make CEQR Statement of Findings, which addresses the impacts and mitigation, before making its decision on implementing the proposed action.

The full FEIS is available for public review at NYCDOT's Office of Project Analysis/CEQR and at the NYC Office of Environmental Coordination, Municipal Building, 25th Floor, New York, NY 10007.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Y2K SOFTWARE CODING SERVICES – 02599X001121 – DUE 10-19-98 AT 5 PM – The City of New York Law Department ("Department") intends to enter into negotiations with one or more qualified software consulting firms to award a contract to re-code the Department's current case management and tracking system, known as the New York City Law Information System ("NYCLIS"), so that it is Year 2000 Compliant. The system is a CICS-based application with both COBOL and Assembler language programs. The system contains approximately 400,000 lines of base code and another 500,000 to 600,000 lines of codes produced by an application generator. In addition to converting the application code, the NYCLIS database must be converted and reformatted for the new date filed formats. The contractor must ensure that no record pointers are corrupted during the database conversion effort. Relevant experience is preferred. Contract award will be by the Negotiated Acquisition method of source selection, based upon the determination that it is not practicable or not advantageous to award this contract by competitive sealed bid or proposal process because there is a limited number of suppliers available and able to perform these services and there is a need to retain a supplier quickly, and that award of the contract by negotiated acquisition is in the City's best interest. Any qualified firm which believes it can provide the services described above is invited to express its interest by letter, which must be received no later than the due date and time, and at the location, specified in this notice.
Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.
Samuel A. Moriber, Agency Chief Contracting Officer, City of New York Law Department, 100 Church Street, Room 3-185, New York, NY 10007.

PROJECT OPEN HOUSE – NA – 00299POH0254 – DUE 10-16-98 AT 4:00 P.M. – The New York City Mayor's Office for People with Disabilities (MOPD) seeks to retain the services of a contractor, through a Negotiated Acquisition process, to administer its Project Open House (POH) program for New Yorkers with disabilities. The procurement identification number for this procurement is PIN No. 00299POH0254. The contractor must provide the following services: contract management, licensed occupational therapy (OT) consultation, and architectural, construction, and construction-related services in the City residences of a minimum of 75 low-income people with disabilities per year.

The contract requires home visit/site analysis and the completion of all construction services, based upon an OT's recommendations and a licensed architecs's plan. The contract calls for the completion of a minimum of 75 projects per year. The contract term is for one (1) year, with three (3) one-year options to renew.

It has been determined to use negotiated acquisition as the method of procurement for this contract. It is not practicable or advantageous to award the contract by the competitive sealed proposal process because there is a limited number of contractors available and able to perform these services, and there is a need to retain a contractor quickly.

Any organization interested in being considered for this contract award, or wishing to receive more information, should contact Shelly Goldstone-Cohen at MOPD for an application form at (212) 788-2830, or tty: (212) 788-2838. ■ NOTICE

NOTICE OF AVAILABILITY OF NYCDOT'S FINAL ENVIRONMENTAL IMPACT
STATEMENT FOR LEAD PAINT REMOVAL OPERATIONS ON NYCDOT BRIDGES

Pursuant to the State Environmental Quality Review Act (SEQRA) and its implementing regulations, New York City has established rules for the City's Environmental Quality Review (CEQR). Under CEQR, the New York City Department of Transportation (NYCDOT), acting as lead agency, has issued a Final Environmental Impact Statement (FEIS) on the proposed action.

A Draft Environmental Impact Statement (DEIS) was prepared by NYCDOT, analyzing the effects of abrasive blasting and alternative methods of lead paint removal on public health and the environment, and the adequacy of the proposed containment system to protect against such effects during paint removal activities on NYCDOT bridges. The DEIS was certified as being complete and was published and distributed for public review. Comments on the DEIS were received at the public hearing or were submitted in writing to the NYCDOT through August 24, 1998, the close of the public comment period.

The FEIS document includes a summary of the comments on the DEIS and responds to relevant issues. NYCDOT has determined that the FEIS is complete and has issued a Notice of Completion. The Department will use the FEIS to make CEQR Statement of Findings, which addresses the impacts and mitigation, before making its decision on implementing the proposed action.

The full FEIS is available for public review at NYCDOT's Office of Project Analysis/CEQR and at the NYC Office of Environmental Coordination, Municipal Building, 25th Floor, New York, NY 10007.
