The total cost of the benefits set forth in this Article shall not exceed $173,442 per annum, except that unexpended funds from the preceding year may be credited to the following year, but not beyond. If it should appear that the total cost of maintaining the level of benefits set forth herein would exceed the foregoing funding, the Employer and the Union shall meet to determine what mutually acceptable adjustments need to be made to said benefits levels.

Section 5.

Should attorneys employed by the City be exempted from the payment of the biennial New York State license fee for practicing attorneys, the parties shall meet to determine a mutually acceptable alternative use of the 1991-94 Attorneys Agreement Equity Fund.

Section 6.

Any issues which may arise concerning the implementation of this agreement shall be referred to a joint labor/management committee which may also discuss any mutually acceptable alternative use(s) of the equity fund monies

Section 7.

A separate budget code will be established to permit monitoring of the reimbursements paid out pursuant to this Article.

ARTICLE XXI - RECLASSIFICATION

The letter agreement dated August 30, 1995, entitled "Attorney Reclassification" shall be deemed to be an appendix to this Agreement pursuant to the terms set forth in Article XIII and shall be coterminous with this Agreement.

WHEREFORE, we have hereunto set our hands and seals this 17th day of April 1998.

Appendix A

Longevity Increment Eligibility Rules

The following rules shall govern the eligibility of employees for the longevity increments provided for in Article III, Section 10 of the 1995-99 Attorneys Agreement:

¶ 1. Only service in pay status shall be used to calculate the 15 years of service, except that for other than full time per annum employees only a continuous year of service in pay status shall be used to calculate the 15 years of service. A continuous year of service shall be a full year of service without a break of more than 31 days. Where the regular and customary work year for a title is less than a twelve month year, such as a school year, such regular and customary year shall be credited as a continuous year of service counting towards the 15 years of service. If the normal work year for an employee is less than the regular and customary work year for the employee's title, it shall be counted as a continuous year of service if the employee has customarily worked that length work year and the applicable agency verifies that information.

¶ 2. Service in pay status prior to any breaks in service of more than one year shall not be used to calculate the 15 years of service. Where an employee has less than seven years of continuous service in pay status, breaks in service of less than one year shall be aggregated. Where breaks in service aggregate to more than one year they shall be treated as a break in service of more than one year and the service prior to such breaks and the aggregated breaks shall not be used to calculate the 15 years of service. No break used to disqualify service shall be used more than once.

¶ 3. The following time in which an employee is not in pay status shall not constitute a break in service as specified in paragraph 2 above:

a. Time on a leave approved by the proper authority which is consistent with the Rules and Regulations of the New York City Personnel Director or the appropriate personnel authority of a covered organization.

b. Time prior to a reinstatement.

c. Time on a preferred list pursuant to Civil Service Law Sections 80 and 81 or any similar contractual provision.

d. Time not in pay status of 31 days or less.

Notwithstanding the above, such time as specified in subsections a, b and c above shall not be used to calculate the 15 years of service.

¶ 4. Once an employee has completed the 15 years of "City" service in pay status and is eligible to receive the $500 longevity increment, the $500 shall become part of the employee's base rate for all purposes.

ELECTION TO ESTABLISH AN ANNUITY FUND

PURSUANT TO THE 1995 MUNICIPAL COALITION MEMORANDUM OF ECONOMIC AGREEMENT

WHEREAS, the undersigned union (the "Union") is covered by the terms and conditions of the 1995 Municipal Coalition Memorandum of Economic Agreement ("1995 MCMEA") either as a signatory party or by written election, and

WHEREAS, the Union desires to establish an annuity fund pursuant to Section 6(a) of said 1995 MCMEA, and

WHEREAS, the Union, as a condition of payment, has agreed to establish such annuity fund through the execution of a supplemental annuity fund agreement approved by the Corporation Counsel,

NOW, THEREFORE, the Union hereby elects on behalf of the employees in the bargaining unit described below to be covered by the terms and conditions set forth in Section 6 of the 1995 MCMEA and Article III, Section 11 of the 1995-1999 Attorneys Agreement.

Name of Union: Local 237, International Brotherhood of Teamsters, AFL-CIO and its affiliate, the Civil Service Bar Association

Name of Bargaining Unit: Attorneys

Term of Separate Unit Agreement: January 1, 1995 - December 31, 1999

Re: Attorney Reclassification

Dear Mr. Haynes and Ms. Johnson

This is to confirm our mutual understanding and agreement regarding the establishment of the title of Attorney At Law in the competitive class and the titles of Agency Attorney Interne and Agency Attorney in the non-competitive class

¶ 1. The City Personnel Director shall establish the title of Attorney At Law in the competitive class. Permanent competitive class incumbents serving in the titles of Associate Attorney, Associate Attorney (Taxes), Attorney, Attorney (Law Librarian) and Attorney (Taxes) shall be reclassified into the title of Attorney At Law by table of equivalency.

¶ 2. The salaries for the competitive class title of Attorney At Law shall be as follows:

TITLE	Hired After 3.31.95 *	Hired Before 4.1.95	Maximum
Attorney At Law	$39,804	$42,654	$75,195
Level I	$39,804	$42,654	$57,254
Level II	$45,209	$48,445	$63,740
Level III	$50,612	$54,236	$70,195
Level IV	$52,945	$56,736	$75,195

* See Section Article III, 4(b)(iv) of the 1991-94 Attorneys Agreement.

¶ 3. Upon the establishment of the title Attorney At Law, all incumbents currently serving as permanent Associate Attorneys or Associate Attorneys (Taxes) shall be designated as permanent Attorneys At Law, Level III.

¶ 4. Upon the establishment of the title Attorney At Law, all incumbents currently serving as provisional Associate Attorneys or Associate Attorneys (Taxes) and holding underlying permanent status in the title of Attorney, Attorney (Law Librarian) or Attorney (Taxes) shall be designated as Attorneys At Law, Level III

¶ 5. Incumbents holding underlying permanent status in the title of Attorney, Attorney (Law Librarian) or Attorney (Taxes) shall be offered the opportunity to take a qualifying training and experience examination for assignment to Level II and III positions of Attorney At Law. Qualified applicants shall be utilized as a hiring pool for assignment to said Level II and III positions for a period of one year from the date of the establishment of Attorney At Law.

¶ 6. For the purposes of implementing the provisions of Labor Relations Order No. 84-1, Section IX (Assignment Level Procedures), continuous service in the title of Associate Attorney shall count towards meeting the continuous service requirement for Attorney At Law Level III.

¶ 7. Upon approval by the New York State Civil Service Commission the City Personnel Director shall establish the titles of Agency Attorney Interne, Agency Attorney and Executive Agency Counsel in the non-competitive class of the City of New York and shall earmark for present permanent incumbents only the competitive class title of Attorney At Law. Employees serving as provisionals in the titles of Attorney At Law, Attorney Trainee, and Law Clerk shall be appointed to the comparable non-competitive titles at the corresponding assignment level.

¶ 8. The City Personnel Director/Commissioner shall utilize the Attorney Trainee List (Exam No. 2064) as a hiring pool for appointmees to the non-competitive class title of Agency Interne for a period of one year from the date of the establishment of said title.

¶ 9. The salaries for the non-competitive class titles shall be as follows:

TITLE	Hired After 1.31.93 *	Hired Before 4.1.93	Maximum
Agency Attorney Interne	$37,271	$39,939	$42,167
Agency Attorney	$39,403	$42,654	$75,195
Level I	$39,824	$42,654	$55,254
Level II	$45,258	$48,445	$63,742
Level III	$50,612	$54,236	$70,195
Level IV	$52,945	$56,716	$75,195

* See Section Article III, 4(b)(iv) of the 1991-94 Attorneys Agreement

¶ 10. Agency Attorneys shall be covered by the non-competitive class disciplinary procedure set forth in ¶ 11 subject to the following provisions:

a. Employees who are reclassified to Agency Attorney and who have served continuously in the same agency as provisionals in the predecessor competitive class attorney title(s) for two or more years as of the effective date of their reclassification shall have full disciplinary rights after they have served a minimum of six (6) months in their new non-competitive class positions.

b. Employees who are reclassified to Agency Attorney and who have served continuously in the same agency as provisionals in the predecessor competitive class attorney title(s) for more than one year but less than two years as of the effective dates of their reclassification shall have full disciplinary rights upon completion of two years of combined continuous service in their respective provisional and non-competitive class positions provided they have served a minimum of six (6) months in their new non-competitive class position.

c. All other employees who are appointed or reclassified to Agency Attorney must complete one year of service as specified below in ¶ 11 to be eligible for disciplinary rights.

¶ 11. The 1991-94 Attorneys Agreement shall be amended by the addition of the following new sections to Article VI:

¶ 1(g) A claimed wrongful disciplinary action taken against a full-time permanent non-competitive class employee with one year of service in title, except for employees during the period of a mutually-agreed upon extension of probation.

¶ 15 Non-Competitive class Disciplinary Procedure

In any case involving a grievance under § 1(g) of this Article, the following procedures shall apply upon service of charges of incompetency or misconduct:

STEP A Following the service of written charges upon an employee a conference with such employee shall be held with respect to such charges by the person designated by the agency head to review a grievance at STEP I of the Grievance Procedure set forth in this agreement. The employee may be represented at such conference by a representative of the Union. At the conference the person designated by the agency head to review the charges shall: (1) verbally communicate to the employee any information reasonably necessary for the employee to understand the nature of the charges, (2) furnish to the employee copies of documentary evidence necessary to support the charges, and (3) furnish to the employee the names of potential witnesses except under unusual circumstances. The person designated by the agency head to review the charges shall take any steps necessary to a proper disposition of the charges and shall issue a determination in writing by the end of the fifth day following the date of the conference.

STEP B If the employee is dissatisfied with the determination in STEP A above, he or she may appeal such determination. The appeal must be made within five (5) working days of the receipt of such determination. Such appeal shall be treated as a grievance appeal beginning with STEP II of the Grievance Procedure set forth herein.

¶ 12. Agency Attorney Internes and Agency Attorneys shall be deemed covered by the non-competitive labor class layoff procedures set forth in the 1990-92 Citywide Agreement, or any successor agreement thereto.

¶ 13. For the purposes of implementing the provisions of Labor Relations Order No. 84-1, Section IX (Assignment Level Procedures), continuous service in a level of Attorney At Law shall count towards meeting the continuous service requirement for the comparable level of Agency Attorney.

¶ 14. Pursuant to Article XIII, Section 8(b) of the 1990-92 Citywide Agreement (as amended) welfare fund payments shall continue to be made to the CSBA welfare fund pending the final decision of the Board of Certification as to the bargaining status of the titles of Agency Attorney Interne, Agency Attorney and Attorney At Law.

¶ 15. When a Mayoral agency is authorized by the appropriate business and decides to fill a vacancy in a Level II or III position of either Attorney At Law or Agency Attorney, a notice of such vacancy shall be posted in the appropriate areas of the agency having such vacancy. The agency shall give due consideration to all qualified applicants regardless of jurisdictional class.

¶ 16. An employee when assigned to a higher level within the class of positions of Attorney At Law or Agency Attorney shall receive for the period of such higher level assignment either the minimum basic salary of the assigned level or the rate received in the former assignment level plus the level increase of $1,355, whichever is greater. Assignments to a higher level shall not be considered a promotion.

¶ 17. The Union agrees not to oppose the establishment of the titles of Agency Attorney Interne, Agency Attorney and Executive Agency Counsel in the non-competitive class of the City of New York. The City agrees not to oppose before the Board of Certification the accretion of the titles of Agency Attorney Interne, Agency Attorney and Attorney At Law to the Attorney Bargaining Unit. It is the intent of the parties that incumbents shall suffer no loss in compensation or benefits as a direct result of the classification actions set forth in this letter agreement.

¶ 18. If any of the provisions of this letter agreement are found to be in conflict with the civil service law, or any other applicable rules and regulations, it is understood by the parties that civil service law, or the applicable rules and regulations, shall govern. Such conflict shall not impair the validity and enforceability of the remaining provisions of this letter agreement.

¶ 19. Nothing contained herein shall limit or diminish the Employer's or the Union's rights pursuant to §12-307(b) of the New York City Collective Bargaining Law, except as specifically provided herein.

¶ 20. The provisions of this letter agreement may be modified by the mutual written consent of the parties.

¶ 21. This letter agreement shall be deemed to be an appendix to the 1991-94 Attorneys Agreement pursuant to the terms set forth in Article XIII thereof and shall be coterminous with said 1991-94 Attorneys Agreement.

If the above accords with your understanding, please sign in the space provided below.

Sincerely,

RANDY A. LEVINE

BRUCE MEIVER

TO: All Affected Agency

FROM: Bruce Meiver

SUBJECT: Special Terms and Conditions Affecting Competitive Class Attorneys.

1. Effective immediately, attorneys in any of the below listed classes of positions shall be provided with a reasonable number of business cards by their employing agency. Procedures for implementing this provision shall solely be determined by the agency.

2. Leaves of absence without pay pursuant to Section 5.1 of the Leave Regulations for Employees Who Are Under the Career and Salary Plan shall not be unreasonably denied to attorneys seeking educational or sabbatical leave.

3. The subject of flexible work weeks for attorneys is hereby referred to agency labor-management committees for discussion. Implementation of any flexible work week is subject to Article II, Section 2 of the City-wide Agreement and review by alternative work schedule task force.

FROM: HARRY KARETZKY, DEPUTY DIRECTOR

SUBJECT: ATTORNEY SIGN/IN - SIGN/OUT SHEETS

DATE: DECEMBER 14, 1977

As part of the settlement reached during collective bargaining with the Civil Service Bar Association it was agreed that Attorneys would not be required to sign in or sign out on a daily basis, but rather they would use a weekly time sheet.

Accordingly, effective Monday, January 2, 1978, please insure that Attorneys working for your agency use a weekly time sheet.

Your cooperation is appreciated.

Inspectors (Highways & Sewers), et al.
1995-99 Agreement

AGREEMENT entered into this 13th day of April, 1998 by and between the City of New York and related public employers pursuant to and limited to their respective elections or statutory requirement to be covered by the New York City Collective Bargaining Law and their respective authorizations to the City to bargain on their behalf (hereinafter referred to jointly as the "Employer"), and **Laborers International Union of North America, Pavers and Road Builders District Council, AFL-CIO** (hereinafter referred to as the "Union"), for the five year period from January 1, 1995 to December 31, 1999.

WITNESSETH:

WHEREAS, the parties hereto have entered into collective bargaining and desire to reduce the results thereof to writing,

NOW, THEREFORE, it is mutually agreed as follows:

ARTICLE I - UNION RECOGNITION AND UNIT DESIGNATION

Section 1.

The Employer recognizes the Union as the sole and exclusive collective bargaining representative for the bargaining unit set forth below, consisting of employees of the Employer, wherever employed, whether full-time, part-time per annum, hourly or per diem, in the below listed title(s), and in any successor title(s) that may be certified by the Board of Certification of the Office of Collective Bargaining to be part of the unit herein for which the Union is the exclusive collective bargaining representative and in any positions in Restored Rule X titles of the Classified Service the duties of which are or shall be equated by the City Personnel Director and the Director of the Budget for salary purposes to any of the below listed title(s):

31626 Highways and Sewers Inspector
31643 Associate Inspector (Highways & Sewers)
35007 Apprentice Inspector (Highways & Sewers)
33763 Service Inspector (DOT)
33766 Senior Service Inspector

Section 2.

The terms "employee" and "employees" as used in this Agreement shall mean only those persons in the unit described in Section 1 of this Article.

ARTICLE II - DUES CHECKOFF

Section 1.

a. The Union shall have the exclusive right to the checkoff and transmittal of dues on behalf of each employee in accordance with the Mayor's Executive Order No. 98, dated May 15, 1969, entitled "Regulations Relating to the Checkoff of Union Dues" and in accordance with the Mayor's Executive Order No. 107, dated December 29, 1986, entitled "Procedures for Orderly Payroll Check-Off of Union Dues and Agency Shop Fees."

b. Any employee may consent in writing to the authorization of the deduction of dues from the employee's wages and to the designation of the Union as the recipient thereof. Such consent, if given, shall be in a proper form acceptable to the City, which bears the signature of the employee.

Section 2.

The parties agree to an agency shop to the extent permitted by applicable law, as described in a supplemental agreement hereby incorporated by reference into this Agreement.

ARTICLE III - SALARIES

Section 1.

a. This Article III is subject to the provisions, terms and conditions of the Alternative Career and Salary Pay Plan Regulations, dated March 15, 1967 as amended, except that the specific terms and conditions of this Article shall supersede any provisions of such Regulations inconsistent with this Agreement subject to the limitations of applicable provisions of law.

b. Unless otherwise specified, all salary provisions of this Agreement, including minimum and maximum salaries, advancement or level increases, general increases, education differentials and any other salary adjustments, are based upon a normal work week of 35 hours. An employee who works on a part-time per annum basis and who is eligible for any salary adjustments provided in this Agreement shall receive the appropriate pro-rata portion of such salary adjustment computed on the relationship between the number of hours regularly worked each week by such employee and the number of hours in the said normal work week, unless otherwise specified.

c. Employees who work on a per diem or hourly basis and who are eligible for any salary adjustment provided in this Agreement shall receive the appropriate pro-rata portion of such salary adjustment computed as follows, unless otherwise specified:

Per Diem Rate - 1/261 of the appropriate minimum basic salary.
Hourly Rate - 40 hour week basis - 1/2088 of the appropriate minimum basic salary.
35 hour week basis - 1/1827 of the appropriate minimum basic salary.

d. The maximum salary for a title shall not constitute a bar to the payment of any salary adjustment or pay differentials provided for in this Agreement but the said increase above the maximum shall not be deemed a promotion.

Section 2.

Employees in the following title (s) shall be subject to the following specified salary adjustment(s) and/or salary range(s)"

a.) Effective January 1, 1995

Title	i. Minimum* (1) Hiring Rate	ii Maximum (2) Incumbent Rate	Rate

Section 3. General Wage Increase.

a. The general increases, effective as indicated, shall be:

i. Effective January 1, 1997, employees shall receive general increase of 3 percent.

ii. Effective April 1, 1998, employees shall receive an additional general increase of 3 percent.

iii. Effective March 1, 1999, employees shall receive an additional general increase of 4.75 percent.

iv. Part-time per annum, per session, hourly paid and per diem employees (including seasonal appointees) and employees whose normal work year is less than a full calendar year shall receive the increases provided in subsections 3(b)(i), 3(b)(ii) and 3(b) (iii) on the basis of computations heretofore utilized by the parties for all such employees.

b. The general increases provided for in Section 3(a) shall be calculated as follows.

i. The general increase in Section 3(a)(i) shall be based upon the base rates (including salary or incremental salary schedules) of the applicable titles in effect on December 31, 1996

ii. The general increase in Section 3(a)(ii) shall be based upon the base rates (including salary or incremental salary schedules) of the applicable titles in effect on March 31, 1998.

iii. The general increase in Section 3(b)(iii) shall be based upon the base rates (including salary or incremental salary schedules) of the applicable titles in effect on February 28, 1999.

c. i. The general increases provided for in this Section 3 shall be applied to the base rates, incremental salary levels and the minimum "hiring rates," minimum "incumbent rates" and maximum rates (including levels), if any, fixed for the applicable titles.

ii. The general increases provided for in this Section 3 shall be applied to the following "additions to gross": uniform allowances, equipment allowances, transportation allowances, uniform maintenance allowances, assignment differentials, service increments, longevity differentials, longevity increments, advancement increases, assignment (level) increases, and experience, certification, educational, license, evening, or night shift differentials.

Section 4. New Hires

a. For the purposes of Sections 4(c) and 4(d), employees 1)who were in active pay status before January 1, 1995, and 2) who are affected by the following personnel actions after said date shall not be treated as "newly hired" employees and shall be entitled to receive the indicated minimum "incumbent rate" set forth in subsections 2(a)(i)(2), 2(b)(i)(2), 2(c)(i)(2) and 2(d)(i)(2) of this Article III:

i. Employees who return to active status from an approved leave of absence.

ii. Employees in active status (whether full or part-time) appointed to permanent status from a civil service list, or to a new title (regardless of jurisdictional class or civil service status) without a break in service of more than 31 days.

iii. Employees who were laid off or terminated for economic reasons who are appointed from a recall/preferred list or who were subject to involuntary redeployment.

iv. Provisional employees who were terminated due to a civil service list who are appointed from a civil service list within one year of such termination.

v. Permanent employees who resign and are reinstated or who are appointed from a civil service list within one year of such resignation.

vi. Employees (regardless of jurisdictional class or civil service status) who resign and return within 31 days of such resignation.

vii. A provisional employee who is appointed directly from one provisional appointment to another.

viii. For employees whose circumstances were not anticipated by the parties, the First Deputy Commissioner of Labor Relations is empowered to issue, on a case-by-case basis, interpretations concerning application of this Section 4. Such case-by-case interpretations shall not be subject to the dispute resolution procedures set forth in Article VI of this Agreement.

b. Any employee hired prior to January 1, 1995 and appointed at a reduced hiring rate pursuant to Section 4(b)(iv) of the 1992-94 Inspectors (Highways & Sewers), et. al. shall be paid at the applicable minimum "hiring rate" set forth in subsection 2(a)(i)(1). On the one year anniversary of the employee's original date of appointment, such employee shall be paid the indicated minimum "incumbent rate" for the applicable title that is in effect on such one year anniversary as set forth in subsection 2(a)(i)(2) of this Article III.

c. The appointment rate for any employee newly hired between April 1, 1995 and July 14, 1996, shall be the applicable minimum hiring rate set forth in subsections 2(a)(i)(1) and 2(b)(i)(1) of this Article III. Upon completion of one year of service, such employee shall be paid the indicated minimum "incumbent rate" for the applicable title that is in effect on the one year anniversary of the employee's original date of appointment as set forth in subsections 2(a)(i)(2) and 2(b)(i)(2) of the Article III..

d. i. The appointment rate for any employee newly hired after July 14, 1996, shall be the applicable minimum "hiring rate" set forth in subsections 2(a)(i)(1), 2(b)(i)2, 2(c)(i)(1) and 2(d)(i)(1) of this Article III. Upon completion of two (2) years of active or qualified inactive service, such employee shall be paid the indicated minimum "incumbent rate" for such title that is in effect on the two year anniversary of the employee's original date of appointment as set forth in subsections 2(a)(i)(2), 2(b)(i)(2), 2(c)(i)(2) and 2(d)(i)(2) of this Article III, Section 2.

ii For a title subject to an incremental pay plan, the employee shall be paid the appropriate increment based upon the employee's length of service. Section 2 of this Article III reflects the correct amounts and has been adjusted in accordance with the provisions of Section 3(c)(I) of this Article III.

iii. Employees who change titles or levels before attaining two years of service will be treated in the new title or level as if they had been originally appointed to said title or level on their original hiring date.

e. The First Deputy Commissioner of Labor Relations may, after notification to the affected union(s) exempt certain hard to recruit titles from the provisions of subsections 4(c) and 4(d).

f. Upon completion of four (4) years of active or qualified inactive service, an employee appointed pursuant to the provisions set forth in subsection 4(d) shall receive a one-time lump sum payment calculated by taking the difference between the minimum "hiring rate" received by the employee and indicated minimum "incumbent rate" for the applicable title that was in effect on the one year anniversary of the employee's original date of appointment to his/her title (as set forth in subsections 2(a)(i)(2), 2(b)(i)(2), 2(c)(i)(2) and 2(d)(i) (2) of this Article III). This one-time lump sum payment shall be equivalent to the difference between the annual salary rate the employee would have actually earned during the employee's second year of service had the employee been paid at the higher "minimum" salary rate and the annual salary rate the employee actually earned during the employee's second year of service.

i. The intent of this Section 4(f) is to treat the employee as if the employee had moved to the higher minimum "incumbent rate" after one year of service rather than after two years. Only the difference between the applicable minimum "hiring rate" and the minimum "incumbent rate" is guaranteed. Any additions-to-gross or merit increases are not to be included in the calculations of the one-time lump sum payment.

ii. All overtime, night shift differential, or other percentage based premium payments received by an employee during the second year of service will be included in the calculation of the lump sum payment.

iii. For a title subject to an incremental pay plan, the one-time lump sum payment shall be calculated by taking the difference between the "hiring rate" increment(s) that was in effect on the one year anniversary of the employee's original date of appointment to their title. Section 2 of this Article III reflects the correct amounts and has been adjusted in accordance with the provisions of Section 3(c)(i) of this Article III. In the case where there increments payable between the employee s first and second anniversaries, the lump sum will be prorated to reflect such increments.

iv. Employees who change titles or levels before attaining two years of service will be treated in the new title or level as if they had been originally appointed to said title or level on their original hiring date and the lump sum will be prorated to reflect such change(s).

g. For the purposes of Sections 4(d) and 4(f), "qualified inactive service" is defined to including the following employees:

I. those who are on preferred or recall lists; or

ii. those who are on the following unpaid approved leaves:

(1) maternity/child care leave;

(2) unpaid military leave;

(3) unpaid time while on jury duty;

(4) unpaid leave for union business pursuant to Executive Order 75;

(5) unpaid leave pending workers' compensation determination;

(6) unpaid leave while on workers' compensation option 2;

(7) approved unpaid time off due to illness or exhaustion of paid sick leave;

(8) approved unpaid time off due to family illness; and

(9) other pre-approved leaves without pay.

Section 5.

Each general increase provided herein, effective as of each indicated date, shall be applied to the rate in effect on the date as specified in Section 3 of this Article. In the case of a promotion or other advancement to the indicated title on the effective date of the general increase specified in Section 3 of this Article, such general increase shall not be applied, but the general increase, if any, for the title formerly occupied, effective on the date indicated shall be applied..

Section 6.

In the case of an employee on leave of absence without pay the salary rate of such employee shall be changed to reflect the salary adjustments specified in Article III.

Section 7.

A person permanently employed by the Employer who is appointed or promoted on a permanent, provisional, or temporary basis in accordance with the Title 59, Appendix A of the Rules of the City of New York (City Personnel Director Rules) or, where Title 59, Appendix A is inapplicable to a public employer, such other Rules or Regulations as are applicable to the public employer, without a break in service to any of the following title(s) from another title in the direct line of promotion or from another title in the Career and Salary Plan, the minimum rate of which is exceeded by at least 8 percent by the minimum rate of the title to which appointed or promoted, shall receive upon the date of such appointment or promotion either the minimum basic salary for the title to which such appointment or promotion is made, or the salary received or receivable in the lower title plus the specified advancement increase, whichever is greater:

Advancement Increases

Title	Effective 1/1/95	Effective 1/1/97	Effective 4/1/98	Effective 3/1/99
Associate Inspector (Highways & Sewers)	$897	$924	$952	$997

Section 8. - Assignment Level Increase

An employee assigned to Assignment Level II, Associate Inspector (Highways & Sewers), shall receive as of the effective date of such assignment either the appointment rate for the assigned level or the rate received in the former assignment level plus the amount indicated below, whichever is greater.

Effective 1/1/95	Effective 1/1/97	Effective 4/1/98	Effective 3/1/99
$1,005	$1,035	$1,066	$1,117

Section 9. Longevity Increment

a. Employees with 15 years or more of City service in pay status who are not in a title already eligible for a longevity differential or service increment established by the Salary Review or Equity Panel shall receive a longevity increment of $500 per annum.

b. The rules for eligibility for the longevity increment described above in subsection a. shall be set forth in Appendix A of this Agreement and are incorporated by reference herein.

Section 10. Longevity Differential

a. Effective July 1, 1994 employees with 5 years or more of City service in pay status shall receive a longevity differential in the pro-rata annual amount set forth below. Eligible employees shall begin to receive such pro-rata payment on their anniversary date.

Effective 1/1/95	ffective 1/1/97	Effective 4/1/98	Effective 3/1/99
$300	$309	$318	$333

b. Effective March 1, 1999, the longevity differential for employees with five (5) years or more of City service in pay status shall be increased by $365.00 . Eligible employees shall begin to receive such pro-rata payment on their anniversary date.

c. Effective March 1, 1999 eligible employees with ten (10) years or more of City service in pay status shall receive a longevity differential in a pro-rata annual amount of eight hundred and twenty five ($825.00) dollars. Eligible employees shall begin to receive such pro-rata payment on their anniversary date.

ARTICLE IV - WELFARE FUND

Section 1.

a. In accordance with the election by the Union pursuant to the provisions of Article XIII of the Citywide Agreement between the City of New York and related public employers and District Council 37, AFSCME, AFL-CIO, the Welfare Fund provisions of the 1990-92 Citywide Agreement, as amended or any successor agreement(s) thereto, shall apply to Employees covered by this Agreement.

b. When an election is made by the Union pursuant to the provisions of Article XIII, Section Ib, of the Citywide Agreement between the City of New York and related public employers and District Council 37, AFSCME, AFL-CIO, the provisions of Article XIII, Section Ib of the 1990-92 Citywide Agreement, as amended or any successor agreement (s) thereto, shall apply to Employees covered by this Agreement, and when such election is made, the Union hereby waives its right to training, education and/or legal services contributions provided in this Agreement, if any. In no case shall the single contribution provided in Article XIII, Section Ib of the 1990-92 Citywide Agreement, as amended or any successor agreement(s) thereto, exceed the total amount that the Union would have been entitled to receive if the separate contributions had continued.

c. Contributions remitted to the Union pursuant to this Section I and Article XIII of the Citywide Agreement are contingent upon a signed separate trusted fund agreement between the Employer and the Union.

Section 2.

The Unions agree to provide welfare fund benefits to domestic partners of covered employees in the same manner as those benefits are provided to spouses of married covered employees.

ARTICLE V - PRODUCTIVITY AND PERFORMANCE

Introduction

Delivery of municipal services in the most efficient, effective and courteous manner is of paramount importance to the Employer and the Union. Such achievement is recognized to be a mutual obligation of both parties within their respective roles and responsibilities. To achieve and maintain a high level of effectiveness, the parties hereby agree to the following terms:

Section 1. - Performance Levels

(a) The Union recognizes the Employer's right under the New York City Collective Bargaining Law to establish and/or revise performance standards or norms notwithstanding the existence of prior performance levels, norms or standards. Such standards, developed by usual work measurement procedures, may be used to determine acceptable performance levels, to prepare work schedules and to measure the performance of each employee or group of employees. Notwithstanding the above, questions, concerning the practical impact that decisions on the above matters have on employees are within the scope of collective bargaining. The Employer will give the Union prior notice of the establishment and/or revision of performance standards or norms hereunder.

(b) Employees who work at less than acceptable levels of performance may be subject to disciplinary measures in accordance with applicable law.

Section 2. - Supervisory Responsibility

(a) The Union recognizes the Employer's right under the New York City Collective Bargaining Law to establish and/or revise standards for supervisory responsibility in achieving and maintaining performance levels of supervised employees for Employees in supervisory positions listed in Article I, Section 1, of this Agreement. Notwithstanding the above, questions concerning the practical impact that decisions on the above matters have on employees are withing the scope of collective bargaining. The Employer will give the Union prior notice of the establishment and/or revision of standards for supervisory responsibility hereunder.

(b) Employees who fail to meet such standards may be subject to disciplinary measures in accordance with applicable law.

ARTICLE VI - GRIEVANCE PROCEDURE

Section 1. - Definition:

The term "Grievance " shall mean:

a. A dispute concerning the application or interpretation of the terms of this Agreement;

b. A claimed violation, misinterpretation or misapplication of the rules or regulations, written policy or orders of the Employer applicable to the agency which employs the grievant affecting terms and conditions of employment; provided, disputes involving the Rules and Regulations of the New York City Personnel Director shall not be subject to the grievance procedure or arbitration;

c. A claimed assignment of employees to duties substantially different from those stated in their job specifications;

d. A claimed improper holding of an open-competitive rather than a promotional examination;

e. A claimed wrongful disciplinary action taken against a permanent employee covered by Section 75(1) of the Civil Service Law upon whom the agency head has served written charges of incompetency or misconduct while the employee is serving in the employee's permanent title or which affects the employee's permanent status.

f. Failure to serve written charges as required by Section 75 of the Civil Service Law upon a permanent employee covered by Section 75(1) of the Civil Service Law where any of the penalties (including a fine) set forth in Section 75(3) of the Civil Service Law have been imposed

g. A claimed wrongful disciplinary action taken against a provisional employee who has served continuously for two years in the same or similar title or related occupational group in the same agency.

Section 2.

The Grievance Procedure, except for grievances as defined in Sections 1d, 1e and 1g of this Article, shall be as follows:

Employees may at any time informally discuss with their supervisors a matter which may become a grievance. If the results of such a discussion are unsatisfactory, the employees may present the grievance at STEP 1.

All grievances must be presented in writing at all steps in the grievance procedure. For all grievances as defined in Section 1c, no monetary award shall in any event cover any period prior to the date of the filing of the STEP 1 grievance unless such grievance has been filed within thirty (30) days of the assignment to alleged out-of-title work. No monetary award for a grievance alleging a miscalculation of salary rate resulting in a payroll error of a continuing nature shall be issued unless such grievance has been filed within the time limitation set forth in Step I below for such grievances; if the grievance is so filed, any monetary award shall in any event cover only the period up to six years prior to the date of the filing of the grievance.

Step I - The employee and/or the Union shall present the grievance in the form of a memorandum to the person designated for such purpose by the agency head no later than 120 days after the date on which the grievance arose. The employee may also request an appointment to discuss the grievance and such request shall be granted. The person designated by the Employer to hear the grievance shall take any steps necessary to a proper disposition of the grievance and shall issue a determination in writing by the end of the third work day following the date of submission.

STEP II - An appeal from an unsatisfactory determination at STEP I, where applicable, shall be presented in writing to the agency head or the agency head's designated representative who shall not be the same person designated in STEP I. The appeal must be made within five (5) work days of the receipt of the STEP I determination. The agency head or designated representative, if any, shall meet with the employee and/or the Union for review of the grievance and shall issue a determination in writing by the end of the tenth work day following the date on which the appeal was filed.

STEP III - An appeal from an unsatisfactory determination at STEP II shall be presented by the employee and/or the Union to the Commissioner of Labor Relations in writing within ten (10) work days of the receipt of the STEP II determination. The grievant or the Union should submit copies of the STEP I and STEP II grievance filings and any agency responses thereto. Copies of such appeal shall be sent to the agency head. The Commissioner of Labor Relations or the Commissioner's designee shall review all appeals from STEP II determinations and shall issue a determination on such appeals within fifteen (15) work days following the date on which the appeal was filed.

STEP IV - An appeal from an unsatisfactory determination at STEP III may be brought solely by the Union to the Office of Collective Bargaining for impartial arbitration within fifteen (15) work days of receipt of the STEP III determination. In addition, the Employer shall have the right to bring directly to arbitration any dispute between the parties concerning any matter defined herein as a "grievance". The Employer shall commence such arbitration by submitting a written request therefor to the Office of Collective Bargaining. A copy of the notice requesting impartial arbitration shall be forwarded to the opposing party. The arbitration shall be conducted

in accordance with the Consolidated Rules of the Office of Collective Bargaining. The costs and fees of such arbitration shall be borne equally by the Union and the Employer.

The arbitrator's decision, order or award (if any) shall be limited to the application and interpretation of the Agreement, and the arbitrator shall not add to, subtract from or modify the Agreement. The arbitrator's award shall be final and binding and enforceable in any appropriate tribunal in accordance with Article 75 of the Civil Practice Law and Rules. The arbitrator may provide for and direct such relief as the arbitrator deems necessary and proper, subject to the limitations set forth above and any applicable limitations of law.

Section 3.

As a condition to the right of the Union to invoke impartial arbitration set forth in this Article, including the arbitration of a grievance involving a claimed improper holding of an open-competitive rather than a promotional examination, the employee or employees and the Union shall be required to file with the Director of the Office of Collective Bargaining a written waiver of the right, if any, of the employee and the Union to submit the underlying dispute to any other administrative or judicial tribunal except for the purpose of enforcing the arbitrator's award.

Section 4.

a. Any grievance under Section 1(d) relating to a claimed improper holding of an open-competitive rather than a promotional examination shall be presented in writing by the employee or the Union representative to the Commissioner of Labor Relations not later than thirty (30) days after the notice of the intention to conduct such open-competitive examination, or copy of the appointing officer's request for such open-competitive examination, as the case may be, has been posted in accordance with Section 51 of the Civil Service Law. The grievance shall be considered and passed upon within ten (10) days after its presentation. The determination shall be in writing, copies of which shall be transmitted to both parties to the grievance upon issuance.

b. A grievance relating to the use of an open-competitive rather than a promotional examination which is unresolved by the Commissioner of Labor Relations may be brought to impartial arbitration as provided in Sections 2 and 3 above. Such a grievance shall be presented by the Union, in writing, for arbitration within 15 days of the presentation of such grievance to the Commissioner of Labor Relations, and the arbitrator shall decide such grievance within 75 days of its presentation to the arbitrator. The party requesting such arbitration shall send a copy of such request to the other party. The costs and fees of such arbitration shall be borne equally by the Employer and the Union.

Section 5

In any case involving a grievance under Section 1(e) of this Article, the following procedure shall govern upon service of written charges of incompetency or misconduct:

STEP A - Following the service of written charges, a conference with such employee shall be held with respect to such charges by the person designated by the agency head to review a grievance at STEP I of the Grievance Procedure set forth in this Agreement. The employee may be represented at such conference by a representative of the Union. The person designated by the agency head to review the charges shall take any steps necessary to a proper disposition of the charges and shall issue a determination in writing by the end of the fifth day following the date of the conference.

If the employee is satisfied with the determination in STEP A above, the employee may choose to accept such determination as an alternative to and in lieu of a determination made pursuant to the procedures provided for in Section 75 of the Civil Service Law. As a condition of accepting such determination, the employee shall sign a waiver of the employee's right to the procedures available to him or her under Sections 75 and 76 of the Civil Service Law.

STEP B(I) - If the employee is not satisfied with the determination at STEP A above then the Employee may choose to proceed in accordance with the Grievance Procedure set forth in this Agreement through STEP III. The Union, with the consent of the Employee, shall have the right to proceed to binding arbitration pursuant to STEP IV of such Grievance Procedure. The period of an Employee's suspension without pay pending hearing and determination of charges shall not exceed thirty (30) days.

STEP B(ii) - An appeal from the determination of STEP A above, shall be made to the agency head or designated representative. The appeal must be made in writing within five (5) work days of the receipt of the determination. The agency head or designated representative shall meet with the Employee and the Union for review of the grievance and shall issue a determination to the Employee and the Union by the end of the tenth work day following the day on which the appeal was filed. The agency head or designated representative shall have the power to impose the discipline, if any, decided upon, up to and including termination of the accused Employee's employment. In the event of such termination or suspension without pay totaling more than thirty (30) days, the Union with the consent of the grievant may elect to skip STEP C of this Section and proceed directly to STEP D.

STEP C - If the grievant is not satisfied with the determination of the agency head or designated representative the grievant or the Union may appeal to the Commissioner of Labor Relations in writing within ten (10) days of the determination of the agency head or designated representative. The Commissioner of Labor Relations shall issue a written reply to the grievant and the Union within fifteen (15) work days.

STEP D - If the grievant is not satisfied with the determination of the Commissioner of Labor Relations, the Union with the consent of the grievant may proceed to arbitration pursuant to the procedures set forth in STEP IV of the Grievance Procedure set forth in this Agreement.

Section 6.

In any case involving a grievance under Section 1(g) of this Article, the following procedure shall govern upon service of written charges of incompetency or misconduct:

Section 7.

A grievance concerning a large number of Employees and which concerns a claimed misinterpretation, inequitable application, violation or failure to comply with the provisions of this Agreement may be filed directly at Step III of the grievance procedure except that a grievance concerning Employees of the Health and Hospitals Corporation may be filed directly at Step II of the grievance procedure. Such "group" grievance must be filed no later than 120 days after the date on which the grievance arose, and all other procedural limits, including time limits, set forth in this Article shall apply. All other individual grievances in process concerning the same issue shall be consolidated with the "group" grievance.

If a determination satisfactory to the Union at any level of the Grievance Procedure is not implemented within a reasonable time, the Union may re-institute the original grievance at STEP III of the Grievance Procedure; or if a satisfactory STEP III determination has not been so implemented, the Union may institute a grievance concerning such failure to implement at STEP IV of the Grievance Procedure.

Section 8.

If a determination satisfactory to the Union at any level of the Grievance Procedure is not implemented with a reasonable time, the Union may re-institute the original grievance at STEP III of the Grievance Procedure; or if a satisfactory Step III determination

Section 9

If the Employer exceeds any time limit prescribed at any step in the Grievance Procedure, the grievant and/or the Union may invoke the next step of the procedure, except that only the Union may invoke impartial arbitration under STEP IV.

Section 10.

The Employer shall notify the Union in writing of all grievances filed by employees, all grievance hearings, and all determinations. The union shall have the right to have a representative present at any grievance hearing and shall be given forty-eight (48) hours' notice of all grievance hearings.

Section 11.

Each of the steps in the Grievance Procedure, as well as time limits prescribed at each step of this Grievance Procedure, may be waived by mutual agreement of the parties.

Section 12

A non-Mayoral agency not covered by this Agreement but which employs employees in titles identical to those covered by this Agreement may elect to permit the Union to appeal an unsatisfactory determination received at the last step of its Grievance Procedure prior to arbitration on fiscal matters only to the Commissioner of Labor Relations. If such election is made, the Union shall present its appeal to the Commissioner of Labor Relations in writing within ten (10) work days of the receipt of the last step determination. The Union should submit copies of the grievance filings at the prior steps of its Grievance Procedure and any agency responses thereto. Copies of such appeals shall be sent to the agency head. The Commissioner of Labor Relations, or the Commissioner's designee, shall review all such appeals and answer all such appeals within fifteen (15) work days. An appeal from a determination of the Commissioner of Labor Relations may be taken to arbitration under procedures, if any, applicable to the non-Mayoral agency involved.

Section 13.

The grievance and the arbitration procedure contained in this Agreement shall be the exclusive remedy for the resolution of disputes defined as "grievances" herein. This shall not be interpreted to preclude either party from enforcing the arbitrator's award in court. This Section shall not be construed in any manner to limit the statutory rights and obligations of the Employer under Article XIV of the Civil Service Law.

Section 14. Expedited Arbitration Procedure

a. The parties agree that there is a need for an expedited arbitration process which would allow for the prompt adjudication of grievances as set forth below

b. The parties voluntarily agree to submit matters to final and binding arbitration pursuant to the New York City Collective Bargaining Law and under the jurisdiction of the Office of Collective Bargaining. An arbitrator or panel of arbitrators, as agreed to by the parties, will act as the arbitrator of any issue submitted under the expedited procedure herein.

c. The selection of those matters which will be submitted shall include, but not limited to out-of title cases concerning all titles, disciplinary cases wherein the proposed penalty is a monetary fine of one week or less or written reprimand, and other cases pursuant to mutual agreement by the parties. When the parties agree to submit a case to expedited arbitration, the following procedure shall apply:

I. SELECTION AND SCHEDULING OF CASES:

(1) The Deputy Chairperson for Disputes of the Office of Collective Bargaining shall propose which cases shall be subject to the procedures set forth in this Section 14 and notify the parties of proposed hearing dates for such cases.

(2) The parties shall have ten business days from the receipt of the Deputy Chairperson's proposed list of cases and hearing schedule(s) raise any objections thereto.

(3) If a case is not proposed by the Deputy Chairperson for expedited handling, either party may, at any time prior to the scheduling of an arbitration hearing Date for such case, request in writing to the other party and to the Deputy Chairperson of Disputes of the Office of Collective Bargaining that said case be submitted to the expedited procedure. The party receiving such request shall have ten business days from the receipt of the request to raise any objections thereto.

(4) No case shall be submitted to the expedited arbitration process without the mutual agreement of the parties.

ii. CONDUCT OF HEARINGS

(1) The presentation of the case, to the extent possible, shall be made in the narrative form. To the degree that witnesses are necessary, examination will be limited to questions of material fact and cross examination will not be similarly limited and may be submitted as a "packet" exhibit.

(2) In the event either party is unable to proceed with hearing a particular case, the case shall be rescheduled. However, only one adjournment shall be permitted. In the event that either party is unable to proceed on a second occasion, a default judgment may be entered against the adjourning party at the Arbitrator's discretion absent good cause shown.

(3) The Arbitrator shall not be precluded from attempting to assist the parties in settling a particular case.

(4) A decision will be issued by the Arbitrator within two weeks. It will not be necessary in the Award to recount any of the facts presented. However, a brief explanation of the Arbitrator's rationale may be included. Bench decisions may also be issued by the Arbitrator.

(5) Decisions in this expedited procedure shall not be considered as precedent for any other case nor entered into evidence in any other forum or dispute except to enforce the Arbitrator's award.

(6) The parties shall, whenever possible, exchange any documents intended to be offered in evidence at least one week in advance of the first hearing date and shall endeavor to stipulate to the issue in advance of the hearing date.

ARTICLE VII BULLETIN BOARDS; EMPLOYER FACILITIES

The Union may post notices on bulletin boards in places and locations where notices usually are posted by the Employer for the employees to read. All notices shall be on Union stationery, and shall be used only to notify employees of matters pertaining to Union affairs. Upon request to the responsible official in charge of a work location, the Union may use Employer premises for meetings during employees' lunch hours, subject to availability of appropriate space and provided such meetings do not interfere with the Employer's business.

ARTICLE VIII - NO STRIKES

In accordance with the New York City Collective Bargaining Law, as amended, neither the Union nor any employee shall induce or engage in any strikes, slowdowns, work stoppages, mass absenteeism, or induce any mass resignations during the term of this Agreement.

ARTICLE IX - CITYWIDE ISSUES

This Agreement is subject to the provisions, terms and conditions of the Agreement which has been or may be negotiated between the City and the Union recognized as the exclusive collective bargaining representative on Citywide matters which must be uniform for specified employees, including the employees covered by this Agreement.

Employees in Rule X titles shall receive the benefits of the Citywide Agreement unless otherwise specifically excluded herein.

ARTICLE X - UNION ACTIVITY

Time spent by employee representatives in the conduct of labor relations with the City and on Union activities shall be governed by the terms of Executive Order No. 75, as amended, dated March 22, 1973, entitled "Time Spent on the Conduct of Labor Relations between the City and its employees and on Union Activity" or any other applicable Executive Order.

ARTICLE XI - LABOR-MANAGEMENT COMMITTEE

Section 1.

The Employer and the Union, having recognized that cooperation between management and employees is indispensable to the accomplishment of sound and harmonious labor relations, shall jointly maintain and support a labor-management committee in each of the agencies having at least fifty employees covered by this Agreement.

Section 2.

Each labor-management committee shall consider and recommend to the agency head changes in the working conditions of the employees within the agency who are covered by this Agreement. Matters subject to the Grievance Procedure shall not be appropriate items for consideration by the labor-management committee.

Section 3.

Each labor-management committee shall consist of six members who shall serve for the term of this Agreement. The Union shall designate three members and the agency head shall designate three members. Vacancies shall be filled by the appointing party for the balance of the term to be served. Each member may designate one alternate. Each committee shall select a chairperson from among its members at each meeting. The chairperson ship of each committee shall alternate between the members designated by the agency head and the members designated by the Union. A quorum shall consist of a majority of the total membership of a committee. A committee shall make its recommendations to the agency head in writing.

Section 4.

The labor-management committee shall meet at the call of either the Union members or the Employer members at times mutually agreeable to both parties. At least one week in advance of a meeting the party calling the meeting shall provide, to the other party, a written agenda of matters to be discussed. Minutes shall be kept and copies supplied to all members of the committee.

ARTICLE XII - FINANCIAL EMERGENCY ACT

The provisions of this Agreement are subject to applicable provisions of law, including the New York State Financial Emergency Act for the City of New York as amended.

ARTICLE XIII - APPENDICES

The Appendix or Appendices, if any, attached hereto and initialed by the undersigned shall be deemed a part of this Agreement as if fully set forth herein.

ARTICLE XIV - SAVINGS CLAUSE

In the event that any provision of this Agreement is found to be invalid, such invalidity shall not impair the validity and enforceability of the remaining provisions of this Agreement.

ARTICLE XV - CONTRACTING-OUT CLAUSE

The problem of "Contracting Out" or "Farming Out" of work normally performed by personnel covered by this Agreement shall be referred to the Labor-Management Committee as provided for in Article XI of this Agreement.

WHEREFORE, we have hereunto set our hands and seals this day of April 13, 1998

FOR THE CITY OF NEW YORK AND RELATED PUBLIC EMPLOYERS AS DEFINED HEREIN:

BY: JAMES F. HANLEY
Commissioner of Labor Relations

NO: 97016 DATE: APR 20 1998

APPENDIX A

Longevity Increment Eligibility Rules

The following rules shall govern the eligibility of employees for the longevity increment provided for in Article III, Section 9b of the 1995-1999 Inspectors (Highways and Sewers.)

1. Only service in pay status shall be used to calculate the 15 years of service, except that for other than full time per annum employees only a continuous year of service in pay status shall be used to calculate the 15 years of service. A continuous year of service shall be a full year of service without a break of more than 31 days. Where the regular and customary work year for a title is less than a twelve month year, such as a school year, such regular and customary year shall be credited as a continuous year of service counting towards the 15 years of service. If the normal work year for an employee is less than the regular and customary work year for the employee's title, it shall be counted as a continuous year of service if the employee has customarily worked that length work year and the applicable agency verifies that information.

2. Service in pay status prior to any breaks in service of more than one year shall not be used to calculate the 15 years of service. Where an employee has less than seven years of continuous service in pay status, breaks in service of less than one year shall be aggregated. Where breaks in service aggregate to more than one year they shall be treated as a break in service of more than one year and the service prior to such breaks and the aggregated breaks shall not be used to calculate the 15 years of service. No break used to disqualify service shall be used more than once.

3. The following time in which an employee is not in pay status shall not constitute a break in service as specified in paragraph 2 above:

a. Time on a leave approved by the proper authority which is consistent with the Rules and Regulations of the New York City Personnel Director or the appropriate personnel authority of a covered organization.

b. Time prior to a reinstatement.

c. Time on a preferred list pursuant to Civil Service Law Sections 80 and 81 or any similar contractual provision.

d. Time not in pay status of 31 days or less.
Notwithstanding the above, such time as specified in subsections a, b and c above shall not be used to calculate the 15 years of service.

4. Once an employee has completed the 15 years of "City" service in pay status and is eligible to receive the $500 longevity increment, the $500 shall become part of the employee's base rate for all purposes.

LANDMARKS PRESERVATION COMMISSION

ADVISORY REPORT

ISSUE DATE:	DOCKET #:	SRA #:
04/06/98	984566	SRA 98-5142

ADDRESS	BOROUGH:	BLOCK/LOT:
CENTRAL PARK-PLYGNDS CENTRAL PARK SCENIC LANDMARK	MANHATTAN	1111 / 1

To the Mayor, the Council, and the Commissioner, Department of Parks and Recreation.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for installation of four-foot high double gates at the following playgrounds: East 85th Street, East 96th Street, West 91st Street, West 67th Street, West 86th Street, West 110th Street, West 100th Street, East 72nd Street, East 100th Street, and Heckscher. The gates will be installed parallel to existing 6-foot to 8-foot high double gates that conform to the playgrounds' circumferential fences. The proposed work is described on two drawings; photographs of an existing installation at the West 98th Street playground; and in a letter from the Central Park Conservancy dated March 12, 1998, all of which have been submitted as components of the application.

The Commission finds that the fences and gates to be affected are all standard elements with no special design features; that the new gates will not significantly add to the perceived amount of fencing in the vicinity of the playgrounds; and that the work will have no effect on significant landscape features. Based on these findings, the proposed work is determined to be appropriate to the Central Park Scenic Landmark.

The findings in this report apply to similar installations at other playgrounds where the perimeter fences and gates are standard types; additional review by the Landmarks Commission is not required.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Jeremy Woodoff.

ADVISORY REPORT

ISSUE DATE:	DOCKET #:	SRA #:
04/01/98	984665	SRA 98-5083

ADDRESS	BOROUGH:	BLOCK/LOT:
120 EAST 125TH STREET FIRE HOOK & LADDER CO. 14 (NOW FIRE ENGINE CO. 36) INDIVIDUAL LANDMARK	MANHATTAN	1773 / 62

To the Mayor, the Council, and the Commissioner, Department of Design and Construction.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for installation of a fire suppression system at the first floor kitchen of the subject building. The proposed work is described on drawing no. 9613 dated 9/9/97, submitted as a component of the application.

The Commission finds that the work is limited to the interior of the building and will have no effect on protected architectural features.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Jeremy Woodoff.

ADVISORY REPORT

ISSUE DATE:	DOCKET #:	SRA #:
04/06/98	984532	SRA 98-5139

ADDRESS	BOROUGH:	BLOCK/LOT:
CENTRAL PARK-PLYGNDS CENTRAL PARK SCENIC LANDMARK	MANHATTAN	1111 / 1

To the Mayor, the Council, and the Commissioner, Department of Parks and Recreation.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal to replace wood copings around sandboxes in five playgrounds with bluestone copings of similar form. The playgrounds are at 110th Street and Lenox Avenue, East 108th Street, West 96th Street, East 96th Street, and West 67th Street. The proposed work is described on a typical sandbox wall section, photographs, and a letter dated March 10, 1998 from the Central Park Conservancy, all of which have been submitted as components of the application.

The Commission finds that the existing sandboxes are not historic and that the new copings will have no effect on significant landscape features either within or outside of the six playgrounds. The Commission, therefore, finds the proposed work to be appropriate to the Central Park Scenic Landmark.

The findings in this report apply to similar sandbox coping replacements in other playgrounds within Central Park; additional review by the Landmarks Commission is not required.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Jeremy Woodoff.

ADVISORY REPORT

ISSUE DATE:	DOCKET #:	SRA #:
04/06/98	984531	SRA 98-5140

ADDRESS	BOROUGH:	BLOCK/LOT:
CENTRAL PARK-67TH ST CENTRAL PARK SCENIC LANDMARK	MANHATTAN	1111 / 1

To the Mayor, the Council, and the Commissioner, Department of Parks and Recreation.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal to replace deteriorated timber path edging with matching timber and deteriorated wood and concrete path pavement with asphalt pavement at the East 67th Street playground. The proposal is described on two drawings dated February 1998; in photographs; and in a letter from the Central Park Conservancy dated March 10, 1998, all submitted as components of the application.

The Commission finds that the replacement of the random-height timber walls defining the paths with new, matching timber in a new concrete foundation will not alter the appearance of this feature; that replacement of deteriorated timber and concrete pavement on the narrow paths within the playground with asphalt will have a minimal effect on the character of the playground; and that the work will have no effect on significant landscape features of the park. Based on these findings, the proposed work is determined appropriate to the Central Park Scenic Landmark.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. BINDING REPORT

ISSUE DATE:	DOCKET #:	SRB #:
04/06/98	984022	SRB 98-5143

ADDRESS	BOROUGH:	BLOCK/LOT:
930 LEXINGTON AVENUE-DOORS THOMAS HUNTER HALL UPPER EAST SIDE	MANHATTAN	1402 / 13

To the Mayor, the Council, and the Executive Director, Hunter College, CUNY.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal to replace three existing wood entrance doors at the Lexington Avenue entrance to Thomas Hunter Hall with three acrylic-modified polyester- clad urethane foam core doors with a red painted finish matching the dimensions and configuration of the existing doors. The proposed work is described on elevation drawing OPTION B, in photographs, in a brochure from Special-Lite, Inc., and in a cladding material sample, all submitted as components of the application.

The Commission notes that the designation report describes the building as a neo-Gothic style public school built in 1912-14 and designed by C.B.J. Snyder. The Commission also notes that the simple, panelled wood doors are not original to the building, but are harmonious with its design. The Commission finally notes that the molded mullions separating the transom lights and the doors appear to be original.

With regard to this proposal, the Commission finds that the replacement doors match the configuration, dimension, and finish of the wood doors, with a glazed upper panel over two recessed solid vertical panels, thereby retaining the design of this element, which, while not matching the elaborate original doors, will remain harmonious with the design of the building; that the red paint finish will match that of the existing doors as well as that of windows and other doors throughout the building; and that the retention of the original mullions or framing elements will preserve this significant historic material. Based on these findings, the proposed work is determined to be appropriate to the building and the Upper East Side Historic District.

Please note that the dimensions of the glazed and solid panels of the new doors will match those of the existing doors, which are somewhat different from the dimensions given on the elevation drawing.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Jeremy Woodoff.

BINDING REPORT

ISSUE DATE:	DOCKET #:	SRB #:
04/06/98	983615	SRB 98-5158

ADDRESS	BOROUGH:	BLOCK/LOT:
WATER MAINS-BED759 HISTORIC DISTRICT COBBLE HILL	BROOKLYN	777 / 77

To the Mayor, the Council, and the Commissioner, Department of Design and Construction.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal to replace water and sewer mains in Clinton Street from Bush Street to State Street and in Atlantic Avenue from Columbia Street to 4th Avenue, portions of which are within the Cobble Hill and Brooklyn Heights Historic Districts. The proposed work also includes replacement of various private utility services, notably the relocation of gas mains from under the street to under the sidewalk of Clinton Street. The proposed work is described on 45 drawings dated 3/9/98 prepared by the Department of Design and Construction; page A2-34 of the specifications detailing Landmarks Preservation Commission requirements; 35 drawings prepared by Brooklyn Union Gas Co.; and specifications for bluestone sidewalk replacement and concrete tints submitted by Brooklyn Union Gas Co., all of which have been submitted as components of the application.

The Commission notes that the streets to be affected by this project are paved with asphalt; that the curbs are generally bluestone or granite; that sidewalks are concrete and bluestone, with a significant amount of bluestone on Clinton Street; that Atlantic Avenue has new cast-iron lampposts, including both type M and type B; and that a railroad tunnel of great historic and architectural significance exists under Atlantic Avenue.

With regard to this proposal, the Commission finds that most of the work involves replacement of underground utilities, which will have no effect on protected architectural features; and that above ground work is designed to replicate as closely as possible existing conditions and materials, which will be documented with video tape and still photographs before work begins. Specifically, streets will be repaired or resurfaced with asphalt, blending with adjacent paving material; any curbs that are disturbed will be reset or replaced with matching stone, thus preserving this historic material; disturbance of bluestone sidewalk pavers will be avoided if possible, but if pavers must be removed, they will be replaced with salvaged or new pavers matching those removed in dimension, flag pattern, color, and finish, noting in particular the locations of especially large flags and the historic pattern of the flags; that these pavers will be reset or laid in the traditional manner on a bed of stone screenings with hand tight joints as provided in the specifications; that concrete sidewalk that is disturbed will be replaced with concrete matching the color and scoring pattern of that removed, except that full-width replacement of concrete sidewalk at any property will be with concrete tinted dark blue-grey; that this sidewalk work will preserve historic paving material and help maintain a consistent sidewalk treatment that is harmonious with the buildings and with adjacent bluestone and concrete sidewalks and sidewalks elsewhere in these districts; that new hydrants will be of the traditional A.P. Smith type and fenders will have decorative caps and be painted black, thus making these features harmonious with the historic character of these districts; that care will be taken not to damage the cast-iron lampposts on Atlantic Avenue, thus preserving these significant features, which will be replaced in kind if damaged; and that care will be taken during excavation to avoid damage to the Atlantic Avenue railroad tunnel. Based on these findings, the proposed work is determined appropriate to the Cobble Hill and Brooklyn Heights Historic Districts.

Please provide control samples of bluestone sidewalk resetting/replacement and tinted concrete for the Commission's review.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Jeremy Woodoff.

OFFICE OF MANAGEMENT AND BUDGET

CITY OF NEW YORK: OFFICE OF MANAGEMENT AND BUDGET
DEPARTMENT OF CITY PLANNING
COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM
NOTICE OF PROGRAM CHANGE
NOTICE OF AVAILABILITY OF PROPOSED CITY FISCAL YEAR 1999
COMMUNITY DEVELOPMENT PROGRAM

TO ALL AGENCIES, COMMUNITY BOARDS, GROUPS AND PERSONS:

Pursuant to Section 91.105(c) of the Department of Housing and Urban Development's (HUD) Consolidated Plan Regulations, the City proposes the following change in the 1998 Consolidated Plan/Twenty-Fourth Community Development Program Year (CD 24).

FROM: Department of Homeless Services (DHS)
Shelter Renovations ($857,000)
Shelter Security Services for the Homeless ($3,518,000)

TO: Dept. of Youth and Community Development
Beacon School Program $4,375,000

The proposed reduction to CD funding in the DHS programs will be replaced with City tax levy funds. This switch is being made to maximize the use of State matching funds for activities benefitting the homeless. The primary purpose of the Beacon School Program is to establish safe havens for youth that will provide drug and alcohol prevention and referral services, homework and tutorial assistance, reading labs and recreational activities such as basketball leagues, arts and crafts, and dance. Beacons may also offer services to a limited number of adults, particularly those whose children are enrolled in the Beacon School Program as well as senior citizens who will be engaged in intergenerational activities with the youth enrolled in the Beacon Program. Beacons are required to operate a minimum of six days per week, for a minimum of 42 hours. There are currently 41 Beacon School and Mini-Beacon School Programs with at least one program located in each of the 32 Community School Districts throughout the City. An additional 31 Beacon Schools and 8 Mini-schools are being created. Community Development will fund 15 of the Beacon programs serving low and moderate income areas. The Beacon School Program is scheduled to start on June 1, 1998.

The City also proposes other substantial changes to the 1998 Consolidated Plan related to the CD budget, effective July 1, 1998. The proposed changes to CD are identified in the "Proposed City Fiscal Year 1999 Community Development Program". This document also contains the Proposed Revised CD Year 24 Budget (which will be incorporated into the Amended 1998 Consolidated Plan) and the Proposed CD Year 25 Budget (which will be incorporated into the Proposed 1999 Consolidated Plan).

Written comments on the proposed changes should be directed to Irene Fanos, Consolidated Plan Coordinator, Department of City Planning, 22 Reade Street, 4th Floor, New York, New York 10007 by May 27, 1998.

The "Proposed City Fiscal Year 1999 Community Development Program" document is available, one copy per person or organization, at the following locations:

BROOKLYN BOROUGH PRESIDENT

HEARINGS

The Brooklyn Borough President will conduct a public hearing on the following items on Wednesday, May 6, 1998 at 9:30 a.m. The hearing will be held in the Community Room on the First Floor of Brooklyn Borough Hall.

CALENDAR ITEM NO. 1 - Disposition of City-owned properties Community District 3 and 4

Two applications have been submitted by the Division of Real Estate Services for the disposition of city-owned parcels. (980354 PPK and 980363 PPK)

CALENDAR ITEM NO. 2 - 72 Precinct Parking Lot Community District 7

One application has been submitted by the New York City Police Department for the site selection and acquisition of property for use as a parking lot for the precinct at 830 4th Avenue. (980223 PCK)

CALENDAR ITEM NO. 3 - Brighton Beach Project Community District 13

Two applications have been filed by Alexander Muss & Sons, to modify the location and elevation of a visual corridor, and the modification of a restrictive declaration related to the "Brighton by the Sea" development (M910478 (A) ZMK and N980424 ZAK)

CALENDAR ITEM NO. 4 - Kings County Hospital Center Community District 9

Two applications have been submitted by the Deputy Mayor of Operations for the acquisition and disposition, and requisition and disposition to the Health and Hospitals Corporation for continued use as a hospital. (980443 PPK and 980444 PQK).

Persons interested in speaking at the public hearing may register at the hearing. All those present will be called to give testimony and will be limited to three minutes, unless extended by the Borough President.

Any hearing impaired person requiring the assistance of a sign language interpreter must request such assistance at least five business days prior to the day of the hearing. For further information about these hearings, any of the items being heard or to request a sign language interpreter, contact Jon Benguiat at (718) 802-3890 or Jennifer Corazzo at (718) 802-4056.

STATEN ISLAND BOROUGH PRESIDENT

PUBLIC MEETING

Staten Island Borough Board Conference Room 122 at 5:30 P.M., Wednesday, May 6, 1998, Borough Hall-Stuyvesant Place, Staten Island, New York 10301

a28-m6

CITY PLANNING COMMISSION

HEARINGS

NOTICE IS HEREBY GIVEN THAT RESOLUTIONS have been adopted by the City Planning Commission scheduling public hearings on the following matters to be held in City Hall, New York, New York 10007, on Wednesday, May 6, 1998, commencing at 10:00 a.m.

BOROUGH OF BROOKLYN
CD 4 N 980429 HAK

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD) pursuant to Article 16 of the General Municipal Law of New York State for:

1) the designation of property generally located on the north side of Broadway between:

a) Jefferson Avenue and Hancock Street;
b)Covert and Schaeffer streets;
c) Decatur and Cooper streets; and
d)Moffat and Pilling streets;
as an Urban Development Action Area; and
2) an Urban Development Action Area Project for such area;
to facilitate commercial development under the ANCHOR/Partnership Retail Demonstration Program.

A list and description of the properties can be seen in the Brooklyn Office of the Department of City Planning, 16 Court Street, 7th floor, Brooklyn, NY 11241.

BOROUGH OF MANHATTAN
CD 4,5 C 980272 ZMM

(Proposed amendments to the zoning map and sections of the Zoning Resolution related to modifications to the Theater Subdistrict within the Special Midtown District, and the Perimeter Area of the Special Clinton District concerning bulk and use regulations, the preservation of theaters and the extension of the Theater Subdistrict to the west side of Eighth Avenue overlapping a portion of the Perimeter Area of the Special Clinton District.)

IN THE MATTER OF an application submitted by the Department of City Planning pursuant to Sections 197-c and 201 of the New York City Charter for **an amendment of the Zoning Map, Section Nos. 8c and 8d,** establishing a Special Midtown District within a portion of the Special Clinton District bounded by West 56th Street, Eighth Avenue, West 42nd Street, and a line 150 feet west of Eighth Avenue, as shown on a diagram (for illustrative purposes only) dated January 12, 1998.

BOROUGH OF MANHATTAN
CD 4,5 N 980271 ZRM

IN THE MATTER OF an application submitted by the Department of City Planning, pursuant to Section 201 of the New York City Charter, to amend various sections of the Zoning Resolution of the City of New York relating to the Theater Subdistrict within the Special Midtown District (Article VIII, Chapter 1), and the Special Clinton District (Article IX, Chapter 6), concerning use and bulk regulations, and the preservation of theaters, and other related sections concerning the reorganization and relocation of certain provisions relating to pedestrian circulation and subway stair relocation requirements and subway improvements.
Matter in **BOLDTONE** is new, to be added;
Matter in *ITAL* is old, to be deleted;
Matter within # # is defined in Section 12-10;
... indicate unchanged text omitted within a paragraph;
* * * indicate where unchanged text appears in the Zoning Resolution

ARTICLE III
COMMERCIAL DISTRICT REGULATIONS

* * *

Chapter 7
Special Regulations

* * *

The proposed Section 37-03 incorporates existing provisions of Section 81-47 (Off-street Relocation or Renovation of a Subway Stair) so that subway stair relocations or renovations city-wide will reference the same set of standards and procedures. No existing requirements will be removed or additional requirements imposed on Midtown. The proposed Section 81-47 will list the Midtown stations where relocations or renovations apply and reference the modified Section 37-03 for standards and procedures.

37-03
Off-Street Relocation **or Renovation** of a Subway Stair

37-031
Applicability of this Section

Where a #development# or #enlargement# is constructed on a #zoning lot# of *at least* 5,000 square feet **or more of #lot area#** that fronts on a portion of a sidewalk containing a stairway entrance or entrances into a subway station **located within the #Special Midtown District# as listed in Section 81-46 and those stations** listed in *this Section* **the following table**, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. The new entrance or entrances shall be provided in accordance with the provisions of this Section. *These provisions are in accordance with the New York City Transit Authority's "Station Planning Guidelines" (Revised, 1975, and as may be subsequently revised).*

A relocated or renovated subway stair may be counted as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

*37-03*237-031
Standards for location, design and hours of public accessibility

In addition to the standards set forth in the **current station planning guidelines as issued by** New York City Transit *Authority's "Station Planning Guidelines" (Revised, 1975, and as may be subsequently revised)*, the following standards shall also apply:

(a)**Location**

The relocated **or renovated** entrance shall be immediately adjacent to, and accessible without any obstruction from a public sidewalk, *or from within a space accessible to the public, as those spaces are defined in the applicable zoning district regulations* **an #urban open space# or pedestrian circulation space as defined in Section 37-07 (Requirements for pedestrian circulation space). Any such #urban open space# or pedestrian circulation space shall have a minimum horizontal dimension equal to the width of the relocated stairs or the minimum width of the pedestrian circulation space, whichever is greater.**

*(b)*The relocated **or renovated** entrance may be provided within a #building#, but shall not be enclosed by any doors. The area occupied by a relocated **or renovated** entrance within a #building# shall not be counted towards the #floor area# of the #enlargement# or #development#.

Paragraphs (c) through (h) have been modified and rearranged as paragraph (b). Additional information from Section 81-47(b) has been incorporated.

(c)**Design standards**

The relocated or renovated entrance shall have a stair width of at least eight feet for each run.

(c)The relocated entrance shall have a queuing space at the top and bottom of the stairs at least eight feet wide and 15 feet long, and such queuing space may overlap a #sidewalk widening#, an #arcade#, a #plaza#, a #residential plaza# or an #urban plaza#.

*(d)*Where two or more existing stairway entrances are being relocated **or renovated** as part of the same #development# or #enlargement#, the new entrance or entrances shall have *a* total stair *width or* widths equal to or greater than the sum of the stair widths of the**ose existing** stairway entrances *being relocated*, but in any case no less than eight feet in width.

The relocated entrance may be relocated within an #urban plaza#, provided that the minimum width of the stairs is ten feet and the queuing area of the relocated entrance is unobstructed and contiguous to a sidewalk or a sidewalk widening. A relocated entrance within an #urban plaza# is a permitted obstruction, but shall not be subject to the percentage limit on permitted obstructions for an #urban plaza#.

*(c)***For a relocated entrance only, the entrance shall have a queuing space at the top and bottom of the stairs that is at least eight feet wide and 15 feet long. Such queuing space may overlap with an #urban plaza# or an #arcade# in accordance with the provisions of Sections 27-60 (ARCADES) or 37-073 (Design standards for pedestrian circulation spaces).**

No stairway shall have more than 14 risers without a landing, and each landing shall have a minimum width equal to the width of the stairs, and a minimum length of five feet.

Throughout the entire stairway entrance, including passageways, the minimum clear, unobstructed height shall be at least 7 feet, 6 inches from finished floor to finished ceiling, including all lighting fixtures and #signs#.

*(e)*The entire entrance area, including passageways, shall be free of obstructions of any kind, except for projecting information signage.

(f)The relocated entrance may be relocated within a #plaza#, a #residential plaza# or an #urban plaza# provided that the queuing area of the relocated entrance is unobstructed and contiguous to a sidewalk or a #sidewalk widening#. A relocated entrance with a #plaza#, a #residential plaza# or an #urban plaza# is permitted obstruction, but shall not be subject to the percentage limit on permitted obstructions for a #plaza#, a #residential plaza# or an #urban plaza#.

*(g)*The relocated entrance shall connect to an existing or proposed subway passageway, or shall connect, via an underground passageway, to a mezzanine area of the subway station.

*(h)*The below-grade portion of a relocated entrance may be constructed within the #street#.

(c) Hours of public accessibility

*(i)*The relocated **or renovated** entrance shall be accessible to the public during the hours when the connected mezzanine area is open to the public or as otherwise approved by *the* **New York City** Transit *Authority*.

*37-033***37-032**
Administrative procedure for a subway stair relocation **or renovation**

*(a)***For any #development# or #enlargement# that is subject to the requirements for the relocation of a subway stair entrance or counts a renovated or reconstructed subway stair as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space), *Except as otherwise provided in paragraph (b) of this Section,*** no plan shall be approved by the Department of Buildings and no excavation permit or building permit shall be issued *for any #development# or #enlargement# that is subject to the requirements for the relocation of a subway stair entrance*, unless **the following criteria are met**:

(*1*a)**for a relocated entrance, Such** plan includes a stair relocation plan and *the* related documents that bind the developer to:

(*i*1)construct the new stair entrance in accordance with such plan;

(*ii*2)demolish above-ground elements of the existing entrance; *and*

(*iii*3)seal the existing entrance at the sidewalk level.; **and**

(4)maintain the work performed on the relocated or renovated entrance; or

(2b)**for a renovated or reconstructed entrance, such plan includes a renovation or reconstruction plan and related documents that bind the developer to:**

(1)renovate or reconstruct the entrance in accordance with such plan; and

(2)maintain the work performed on the renovated or reconstructed entrance; and

(2c)Such plan and related documents bear *the* **New York City** Transit *Authority*'s approval **;**

(3d)Such plan is accompanied by a certified copy of an agreement, as recorded between *the* **New York City** Transit *Authority* and the owner for an easement on the #zoning lot# for subway-related use of the new stair entrance and for public access via such entrance to the subway station, which agreement has been recorded against the #zoning lot# in the Office of the Register of the City of New York *(County of New York)* and is accompanied by the Register's receipt of recordation.**; and**

(4)Such plan is accompanied by any request for modification of special urban design guidelines pursuant to Section 37-034.

(b)In the event that major construction problems render the stair relocation infeasible or that operating design considerations make it undesirable, the Transit Authority and the City Planning Commission, by joint certification, may release the developer from said requirement. In such event, the stair relocation requirement shall be satisfied by retention of the existing stair and provision on the #zoning lot# of an open area which accommodates pedestrian traffic passing the existing entrance. Such space shall have a width equal to at least one and one-half times the width of the existing stair entrance and shall extend along the full length of the stair entrance. ***Incorporated into Section 37-034.***

(*c*e)**no permanent certificate of occupancy shall be issued for any #development# or #enlargement# subject to the subway stair relocation requirement or counting a renovated or reconstructed subway stair as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space), unless and until all of the work required under paragraphs (a) or (b) of this Section has been completed and New York City Transit has so certified in writing to the Department of Buildings.** *Prior to obtaining a permanent certificate of occupancy, the relocated subway stair must be 100 percent complete in accordance with the approved plans and such completion shall have been certified by the Transit Authority.*

37-034 **37-033**
Modification of *special urban design guidelines and urban open space* **requirements for a relocated or renovated subway stair**

The City Planning Commission may, by certification to the Commissioner of Buildings, allow modifications of the requirements of Section 37-01 (Special Urban Design Guidelines - Streetscape), Section 37-02 (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), and the applicable provisions of #urban open space# in Section 12-10 (DEFINITIONS), if it finds that the relocated subway stair cannot be accommodated without modification to these provisions.

Sections 37-01 (Special Urban Design Guidelines – Streetscape), 37-02 (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), 37-031 (Standards for location, design and hours of public accessibility) and 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas) may be modified if the Chairperson of the City Planning Commission certifies to the Commissioner of Buildings that a relocated subway stair cannot be accommodated in any reasonable way without modification of these provisions.

* * *

*37-035***37-034**
Waiver of requirements

Upon application the City Planning Commission may authorize a waiver of requirements of Section 37-03 if the Commission finds that:

(a)the total #floor area# of all #developments# or #enlargements# after November 8, 1984, is less than 70,000 square feet; or

(b)there are major structural problems in creating space for a relocated stairway entrance in the existing #building#; or

(c)the space in an existing #building# which is required to relocate the stairway entrance is occupied by a tenant on a lease which was in effect prior to March 1, 1984, to which a member of the Bar of the State of New York shall attest, and that there is no opportunity to relocate the tenant within the #enlargement#.

As a condition for granting such waiver the Commission shall determine that:

(1)in the case of paragraph (a), the City Planning Commission and the Transit Authority may require an easement to accommodate the future relocation of the subway stairway in accordance with the New York City Transit Authority's "Station Planning Guidelines" (Revised, 1975, and as may be subsequently revised);

(2)in the case of paragraphs (a) or (b), no construction is undertaken that would preclude the future relocation of a stairway entrance from the sidewalk to the #zoning lot#;

(3)in the case of paragraph (c), that at the expiration of the existing lease the applicant shall undertake the relocation of the stairway entrance according to the provisions of this Section.
The provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair) may be waived by joint certification of New York City Transit and the Chairperson of the City Planning Commission that major construction problems or operating design considerations render the stair relocation infeasible. In such event, the stair relocation requirement may be satisfied by retention of the existing stair and the provision on the #zoning lot# of an open area, qualifying under the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space), that accommodates pedestrian traffic passing the existing stair entrance. ***Adapted from Section 37-032(b).***

* * *

The requirements for pedestrian circulation space will be relocated from Section 81-45 in Midtown to a new Section 37-07. No changes to these requirements are proposed, nor will any requirements be added. All special districts of the city that have requirements for pedestrian circulation space will refer to 37-07 for a common set of standards. Any specific pedestrian circulation space requirements that are unique to a special purpose district will remain in the special purpose district text.

37-07
Requirements for Pedestrian Circulation Space

All pedestrian circulation space required pursuant to the provisions of any special purpose district shall comply with the provisions of this Section.

37-071
Amount of pedestrian circulation space

The minimum amount of pedestrian circulation space to be provided for #developments# or #enlargements# shall be determined by the following table:

MINIMUM
PEDESTRIAN CIRCULATION SPACE REQUIREMENTS

Size of #zoning lot#FRLD Required #floor area#
MDIU
5,000 to 20,000 square feetFRLD 1 square foot per 350 square feet of new #floor area#

Above 20,000 square feetFRLD 1 square foot per 300 square feet of new #floor area#

37-072
Types of pedestrian circulation space

The pedestrian circulation space provided shall be of one or more of the following types: an arcade, building entrance recess area, corner arcade, corner circulation space, relocation or renovation of a subway stair, sidewalk widening, subway station improvement, through #block# connection or #urban plaza#.

Each #zoning lot# shall be categorized as either a #corner lot#, #through lot# or #interior lot#, and pedestrian circulation space shall be provided on each #zoning lot# in at least one of the applicable types, or combinations of types, specified in the following table:

PROVISION OF PEDESTRIAN CIRCULATION SPACE ON CERTAIN TYPES OF LOTS

Type of Pedestrian Circulation Space #Corner lot# #Through lot# #Interior lot#
Arcade X X X
Building entrance recess area X X X X
Corner arcade X
Corner circulation space X
Relocation or renovation of subway stair X X X
Sidewalk widening X X X
Subway station improvement X X X
Through #block# connection X X X
Urban plaza# X X X

Minimum design standards for each type of pedestrian circulation space and, where applicable, the maximum amount of each type of pedestrian circulation space that may be counted towards meeting the requirements of Section 37-071 (Amount of pedestrian circulation space) are set forth in Section 37-073 (Design standards for pedestrian circulation spaces).

37-073
Design standards for pedestrian circulation spaces

(a) Arcade

Arcades shall not be subject to the provisions of Sections 12-10 (DEFINITIONS) and 27-60 (ARCADES). In lieu thereof, the provisions of this Section shall apply.

An arcade is a continuous covered space that adjoins and extends along a #front lot line#, is at the same elevation as the adjoining sidewalk, is open for its entire length to the sidewalk except for columns and is accessible to the public at all times. An arcade shall be provided on the #wide street# frontage of a #zoning lot# of a new #development# or #enlargement# where the #zoning lot# lies directly adjacent to an existing arcade on a #wide street#, except where an existing #building# without an arcade extends along a portion of the #wide street front lot line# of the #zoning lot# containing the new #development# or #enlargement#. Where an arcade abuts another arcade, there shall be a clear, unobstructed passage between both arcades.

An arcade shall meet the following requirements:
(1)Dimensions

An arcade with columns shall have a minimum clear width of 10 feet, exclusive of all columns, and a maximum width of 15 feet, inclusive of columns. No column width shall be greater than five feet. Columns shall be spaced along the #street# with a minimum clear width between columns of 15 feet. An arcade shall have a clear height of not less than 12 feet and not more than 30 feet.

(i)On an #interior lot# or a #through lot# fronting on a #narrow street#, an arcade without columns is permitted only if:
(a)it has a continuous, unobstructed minimum length of 100 feet or, with the exception of the width of driveways for the required loading berths located at the #side lot line# of the #zoning lot#, is unobstructed for the full length of the new #building# frontage, whichever is greater; and

(b)the entire #front lot line# shall be unobstructed for the same depth of the arcade, except for that portion of the #front lot line# occupied by an existing #building#.

(ii)On an #interior lot# or a #through lot# fronting on a #narrow street#, an arcade with columns is permitted only if it connects directly to an existing arcade on an adjacent #zoning lot#, matching it in width and alignment and has a continuous, unobstructed minimum length beyond the existing adjacent arcade of at least 100 feet or, with the exception of the width of driveways for the required loading berths located at the #side lot line# of the #zoning lot#, is unobstructed for the full length of the new #building# frontage, whichever is greater.

(iii)On a #corner lot# fronting on a #narrow street#, an arcade is permitted only if it extends for the full length of the #street# frontage, with the exception of a driveway for a required loading berth located at the #side lot line# of the #zoning lot#, or if the arcade provides unobstructed pedestrian flow along such entire frontage in combination with one or more of the following other spaces with which it connects at one or both ends: a corner arcade, a #plaza#, an off-street rail mass transit access improvement, an intersecting sidewalk widening, an intersecting #street#, a relocated or renovated subway entrance, a through #block# connection, a through #block# galleria or an #urban plaza#.

(iv)On a #wide street#, an arcade shall be permitted, provided that:

(a)the arcade extends along the full length of the #street line# between intersecting #streets#; or

(b)in the case of a #building# that occupies less than the entire #street# frontage between intersecting #streets#, on a full #block#front #zoning lot#, unobstructed pedestrian flow along the entire frontage is provided on the #zoning lot# by the arcade in combination with one or more of the following #open spaces# with which the arcade connects at one or both ends: a corner circulation space, a #plaza#, an intersecting sidewalk widening or an #urban plaza#; or

(c)in the case of a #building# whose #zoning lot# occupies less than the entire #street# frontage between intersecting #streets#, the arcade connects with an existing arcade of matching width and alignment, a #plaza# or an #urban plaza# on an adjacent #zoning lot#, so that unobstructed pedestrian flow along the entire #block#front is provided by the

arcade in combination with such existing spaces.

(2)Full #block#front arcade

When a #zoning lot# occupies a full #block#front, both ends of the arcade on that #street# frontage shall be open and accessible directly from the sidewalk of the intersecting #street# or any other qualifying pedestrian circulation space.

(3)Permitted obstructions

Except for building columns, an arcade shall be free from obstructions of any kind.

(4)Specific prohibitions

No vehicular driveways, except as permitted under paragraph (a)(1) (Dimensions) of this Section, parking spaces, passenger drop-offs, loading berths or trash storage facilities are permitted within an arcade, nor shall such facilities be permitted immediately adjacent to an arcade.

In the Theater Subdistrict of the #Special Midtown District#, where a new #building# or #enlarged# portion of an existing #building# provides an arcade, no obstructions, including columns, shall be permitted within such arcade, and the maximum height of such arcade shall be 20 feet and the maximum width shall be 10 feet.

(5)Illumination

All existing and new arcades shall maintain a minimum level of illumination of not less than five horizontal foot candles between sunset and sunrise.

(b)Building entrance recess area

A building entrance recess area is a space that adjoins and is open to a sidewalk or sidewalk widening for its entire length and provides unobstructed access to the building's lobby entrance or to the entrance to a ground floor #use#.

A building entrance recess area shall meet the following requirements:

(1)Dimensions

A building entrance recess area shall have a minimum length of 15 feet and a maximum length of 50 feet measured parallel to the #street line# at a building's lobby entrance and a maximum length of 30 feet parallel to the #street line# at a ground floor #use# entrance. It shall have a maximum depth of 15 feet measured from the #street line# and shall have a minimum depth of 10 feet measured from the #street line#.

(2)Obstructions

Any portion of a building entrance recess area under an overhanging portion of the #building# shall have a minimum clear height of 15 feet. It shall be free of obstructions except for building columns, between any two of which there shall be a clear space of at least 15 feet measured parallel to the #street line#. Between a building column and a wall of the #building#, there shall be a clear path at least five feet in width.

(3)Permitted overlap

A building entrance recess area may overlap with an arcade, a corner arcade, a corner circulation space or a sidewalk widening, and may adjoin or overlap and connect directly without obstruction to another building entrance recess area except that, on any one #street# frontage, each lobby or ground floor #use# shall connect to only one building entrance recess area.

(c)Corner arcade

A corner arcade shall not be subject to the provisions of Sections 12-10 (DEFINITIONS) and 27-60 (ARCADES). In lieu thereof, a corner arcade shall be a small covered space adjoining the intersection of two #streets# at the same elevation as the adjoining sidewalk or sidewalk widening and directly accessible to the public at all times.

A corner arcade shall meet the following requirements:

(1)Dimensions

(i)a corner arcade shall have a minimum area of 200 square feet, a minimum depth of 15 feet measured along a line bisecting the angle of intersecting #street lines#, and shall extend along both #street lines# for at least 15 feet but not more than 40 feet from the intersection of the two #street lines#; and

(ii)the height of a corner arcade shall be not less than 12 feet and a clear path at least 12 feet wide shall be provided from one #street line# to another #street line#.

(2)Permitted obstructions

Except for building columns, a corner arcade shall be free from obstructions of any kind.

(3)Specific prohibitions

The specific prohibitions pertaining to an arcade as described in paragraph (a)(4) of this Section shall also by applicable to a corner arcade.

(4)Permitted overlap

A corner arcade may overlap with an arcade; however, the area of overlap may only be counted once toward the fulfillment of the required minimum area of pedestrian circulation space.

(d) Corner circulation space

A corner circulation space is a small #open space# on the #zoning lot# of a #development# or #enlargement#, adjoining the intersection of two #streets#, at the same elevation as the adjoining sidewalk or sidewalk widening and directly accessible to the public at all times.

A corner circulation space shall meet the following requirements:

(1)Dimensions

A corner circulation space shall have the same minimum dimensions as a corner arcade, as described in paragraph (c)(1) of this Section.

(2)Obstructions

A corner circulation space shall be completely open to the sky from its lowest level, except for temporary elements of weather protection, such as awnings or canopies, provided that the total area of such elements does not exceed 20 percent of the area of the corner circulation space and that such elements and any attachments thereto are at least eight feet above #curb level#. A corner circulation space shall be clear of all other obstructions including, without limitation, door swings, building columns, #street# trees, planters, vehicle storage, parking or trash storage. No gratings, except for drainage, shall be permitted.

(3)Building entrances

Entrances to ground level #uses# are permitted from a corner circulation space.
An entrance to a building lobby is permitted from a corner circulation space, provided that the entrance is at no point within 20 feet of the intersection of the two #street lines# that bound the corner circulation space.

(4)Permitted overlap

A corner circulation space may overlap with a sidewalk widening.

(e)Relocation or renovation of a subway stair

When a #development# or #enlargement# is constructed on a #zoning lot# containing a relocated stairway entrance or entrances to a subway, or an existing stairway entrance or entrances to a subway, and such entrance or entrances are relocated or renovated in accordance with the provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair), one and a half times the area, measured at #street# level, of such entrance or entrances may count toward meeting the pedestrian circulation space requirement.

(f) Sidewalk widening

Sidewalk widenings provided to meet the requirements for pedestrian circulation space shall not be subject to the provisions of Sections 12-10 (DEFINITIONS), including the definition for #urban plaza#, and 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas). In lieu thereof, the provisions of this Section shall apply.

A sidewalk widening is a continuous paved open area along the #front lot line# of a #zoning lot# at the same elevation as the adjoining sidewalk and directly accessible to the public at all times. A sidewalk widening shall be provided on the #wide street# frontage of a #zoning lot# of a new #development# or #enlargement# where all existing #buildings# on the same #block# frontage, whether on the same or another #zoning lot#, provide sidewalk widenings.

A sidewalk widening shall meet the following requirements:

(1)Dimensions

A sidewalk widening shall have a width of no less than five feet nor more than 10 feet measured perpendicular to the #street line#, and shall be contiguous along its entire length to a sidewalk.

A sidewalk widening shall extend along the full length of the #front lot line# except for the portion of the #front lot line# interrupted by an existing #building# which is located at a #side lot line# or, in the case of a full #block# frontage, located at the intersection of two #streets#.

A required sidewalk widening on a #wide street# shall connect directly to any existing adjoining sidewalk widening and shall extend the entire length of the new #front lot line#.

The width of such a required sidewalk widening shall equal that of the existing adjoining sidewalk widening. If there is more than one such existing sidewalk widening, the width of such a required sidewalk widening shall equal that of the existing sidewalk widening that is longest.

A sidewalk widening is permitted on a #wide street# when not adjacent to an existing sidewalk widening only if either the sidewalk widening extends along the #street line# of the #wide street# for the full length of the #block# front, or the #zoning lot# is a #corner lot# and the sidewalk widening extends along the full length of the #street line# of the #wide street# to its intersection with the #street line# of the other #street# on which the #zoning lot# fronts.

Except for the permitted interruptions, as set forth in paragraph (f)(2) of this Section, a sidewalk widening is permitted on a #narrow street# only if it has a length of at least 100 feet.

(2)Permitted interruptions

Interruptions of the continuity of a qualifying sidewalk widening shall be permitted only under the following conditions:

(i)by an arcade that has a width equal to or greater than the width of the sidewalk widening and which is directly connected to the sidewalk widening;

(ii)if overlapped by a corner circulation space or a building entrance recess area that permits uninterrupted pedestrian flow;

(iii)if overlapped by an #urban plaza#, provided that the overlapping portion of such #urban plaza# conforms to the design standard of a sidewalk widening;

(iv)by an off-street subway entrance provided such an entrance is located at a #side lot line# or is located at the intersection of two #street lines#;

(v)if overlapped by the queuing space of a relocated or renovated subway entrance, provided that the queuing space for the entrance leaves at least a five foot uninterrupted width of sidewalk widening along the entire length of the queuing space; or

(vi)by a driveway that is located at a #side lot line#; however, where the #zoning lot# has a through #block# connection, a through #block# galleria or a through #block urban plaza# at such a #side lot line#, the location of its driveway is not restricted. The area occupied by the driveway, up to the width of the sidewalk widening, may be counted towards meeting the pedestrian circulation space requirement, provided that there shall be no change of grade within the area of the sidewalk widening.

(3) Permitted obstructions

A sidewalk widening shall be unobstructed from its lowest level to the sky except for those obstructions permitted under paragraph (f)(2) of this Section and for temporary elements of weather protection, such as awnings or canopies, provided that the total area of such elements, measured on the plan, does not exceed 20 percent of the sidewalk widening area, and that such elements and any attachments thereto are at least eight feet above #curb level#.

(4) Specific prohibitions

No #street# trees are permitted on a sidewalk widening. No vehicle storage, parking or storage of trash is permitted on a sidewalk widening. Gratings may not occupy more than 50 percent of the sidewalk widening area nor be wider than one half the width of the sidewalk widening.

(5) Special design treatment

When one end of the sidewalk widening abuts an existing #building# on the #zoning lot# or an existing #building# on the #side lot line# of the adjacent #zoning lot#, design treatment of the termination of the sidewalk widening is required to smooth pedestrian flow. The portion of the sidewalk widening subject to design treatment, hereinafter called the transition area, shall not extend more than 10 feet nor less than five feet along the sidewalk widening from its termination.

The transition area shall receive special design treatment which may include, but is not limited to, landscaping, sculpture or building transparency. The transition area shall be designed to effect a gradual change of the sidewalk widening width to match the #street wall# line of the existing #building# at the sidewalk widening's termination. This may be accomplished by a curved or diagonal edge of paving along a landscaped bed, the use of stepped edges of the #building# or other architectural treatment of the #building# or paving which avoids an abrupt visual termination of the sidewalk widening. Such special design treatment may be considered a permitted obstruction.

(g)Subway station improvement

For #developments# or #enlargements# that are granted a special permit pursuant to Section 74-634 (Subway station improvements in commercial zones of 10 FAR and above in Manhattan), no more than 3,000 square feet may count toward meeting the pedestrian circulation space requirement.

Paragraph (h) has been adapted from Section 81-46 (Through Block Connection) which will be deleted. No new requirements have been added.

(h) Through #block# connection

A through #block# connection is a paved open or enclosed space providing unobstructed access to the building's main lobby and connecting, in a straight continuous unobstructed path, two parallel or nearly parallel #streets#.

Up to a maximum of 3,000 square feet of a through #block# connection may count towards the minimum pedestrian circulation space requirement.

A through #block# connection shall meet the following requirements:

(1) Location

(i) A through #block# connection shall be located at least 150 feet from the intersection of two #streets#.

(ii)Where the #zoning lot# or a portion thereof is directly across a #street# from, and opposite to, an existing through #block# connection on an adjacent #block# and the existing connection is at least 150 feet from the intersection of two #streets#, the alignment of the new through #block# connection shall overlap with that of the existing connection. Such existing connection may also be a through #block# galleria, through #block urban plaza# or any through #block# circulation area with a minimum width of 12 feet, which is located within a #building#.

(iii)Where there are already two through #block# connections located on the same #block#, a new through #block# connection shall not count towards meeting the pedestrian circulation space requirement.

(iv)No through #block# connection shall be permitted on any portion of a #zoning lot# occupied by a landmark or interior landmark so designated by the Landmarks Preservation Commission, or occupied by a #building# whose designation as a landmark or interior landmark has been calendared for public hearing and is pending before the Landmarks Preservation Commission.

(2)Design standards for a through #block# connection

(i)A through #block# connection shall provide a straight continuous unobstructed path at least 15 feet wide. If covered, the clear unobstructed height of a through #block# connection shall not be less than 15 feet.

(ii)At no point shall the level of a through #block# connection be more than five feet above or below #curb level#. In all cases, the through #block# connection must provide a clear path, accessible to people with disabilities, through its entire length.

(iii)A through #block# connection may be located inside or outside of a #building#. The area of a through #block# connection located within a #building# shall be counted as #floor area#.

(iv)A through #block# connection located partially or wholly within a #building# shall adjoin and connect directly to the building's main lobby via unobstructed openings with an aggregate width exceeding that of any other entrances to the lobby.

(v)A through #block# connection located wholly or partially outside a #building# shall provide unobstructed access directly to the building's main lobby through the major entrance. For the purposes of this Section, the major entrance shall be that entrance to the main lobby which has the greatest aggregate width of clear openings for access.

(vi)Any portion of a through #block# connection located outside a #building#

shall be illuminated throughout with a minimum level of illumination of not less than five horizontal foot candles (lumens per candle). Such illumination shall be maintained throughout the hours of darkness.

(vii)A through #block# connection shall at a minimum be accessible to the public from 8:00 a.m. to 7:00 p.m. on the days the #building# or #development# is open for business and shall have posted, in prominent, visible locations at its entrances, signs meeting the standards set forth in paragraph (h)(2)(viii)(a) of this Section.

(viii)A through #block# connection shall provide the following information for public access at each public entry to the through #block# connection:

(a)For an unenclosed through #block# connection, the public access information shall be an entry plaque located at the entrance to the through #block# connection at each #street# frontage. The entry plaque shall contain:

(1)a public space symbol which is at least 14 inches square in dimension, has a white background, has a grid of four straight lines no greater than one-eighth inch wide and green in color and has a tree-shaped symbol as shown:

(Tree Symbol)

(2)lettering at least two inches in height stating "OPEN TO PUBLIC." This lettering shall be located within nine inches of the public space symbol; and

(3)an international Symbol of Access for people with disabilities that is at least three inches square.

The entry plaque shall be mounted with its center five feet above the elevation of the nearest walkable pavement on a wall or a permanent freestanding post. It shall be placed so that the entire entry plaque is obvious and directly visible without any obstruction, along every line of sight from all paths of pedestrian access to the through #block# connection, in a position that clearly identifies the entry to the connection.

(b)For an enclosed through #block# connection or a portion thereof:

(1)a public space symbol as described in paragraph (h)(2)(viii) of this Section, not less than six inches square, shall be mounted with its center five feet above the elevation of the nearest walkable pavement;

(2)lettering stating "PUBLIC ACCESS TO STREET," indicating the opposite #street# to which the through #block# connection passes and which lettering shall not be less than three inches in height and located not more than three inches away from the public space symbol; and

(3)lettering not more than two inches or less than one and a half inches in height stating "OPEN TO PUBLIC" with the hours and days of operation of the through #block# connection. This lettering shall be located not more than three inches from the public space symbol.

The above required information shall be permanently affixed on the glass panel of the entry doors of the through #block# connection clearly facing the direction of pedestrian flow. The information shall be located not higher than six feet or lower than three feet above the level of the pedestrian path at the entry, and shall be in a format and color which will ensure legibility.

(i)Urban plaza

A maximum of 30 percent of the area of an #urban plaza# that faces a #street# intersection, or provides access to a major building entrance, may be counted toward meeting the pedestrian circulation space requirement.

A maximum of 3,000 square feet of a through #block urban plaza# may be counted toward meeting the pedestrian circulation space requirement.

For all other #urban plazas#, the first 10 feet of depth from the #street line# may be counted toward meeting the pedestrian circulation space requirement, provided that the #urban plaza# conforms to the design standards of a sidewalk widening as set forth in paragraph (f) of this Section.

All #urban plazas# shall comply with Section 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas).

Any area of permitted overlap between pedestrian circulation spaces or other amenities shall be counted only once toward meeting the required amount of pedestrian circulation space. Unobstructed access shall be provided between overlapping spaces.

The following is a revision of Section 81-454 (Modification of design standards of pedestrian circulation spaces within existing buildings) , which will be deleted. No new requirements will be added.

37-074
Modification of design standards of pedestrian circulation spaces within existing buildings

The City Planning Commission may authorize a modification of any required minimum amount of pedestrian circulation space to be provided on #wide street# frontages and design standards, as indicated, for the following required pedestrian circulation spaces, to be provided within or under an existing #building# to remain on a #zoning lot#:

(a)Arcade: minimum width, minimum height, obstructions, minimum clear width between obstructions, minimum length, column sizes

(b)Building entrance recess area: minimum length, minimum depth from #street line#, minimum height, obstructions, clear space between obstructions and clear space between obstructions and building wall

(c)Corner arcade or corner circulation space: minimum depth, minimum width of clear path, minimum height, obstructions

(d)Through #block# connection: minimum width of unobstructed path, minimum height, through #block# level

The Commission may authorize a modification of design standards for pedestrian circulation spaces when the following conditions are met:

(1)a modification is needed because of the inherent constraints of the existing #building#;

(2)the modification is limited to the minimum needed because of the inherent constraints of the existing #building#; and

(3)the pedestrian circulation space being modified shall be equal in area, and substantially equivalent, to the required space in terms of quality, effectiveness and suitability for public use.

* * *

Existing Sections 81-53 and 74-634 both permit bonus floor area for subway station improvements in accordance with essentially the same requirements. They are proposed to be combined into one action under Section 74-634 which would apply city-wide. No new requirements would be added.

74-634
Subway station improvements in commercial zones of 10 FAR and above in Manhattan

The City Planning Commission may **grant,** by special permit, *after public notice and hearing and subject to a Board of Estimate action, grant* **a** #floor area# bonuses, *modify Section 37-01 (Special Urban Design Guidelines-Streetscape), Section 37-02 (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), the provisions of #urban open space# in Section 12-10 (DEFINITIONS), and in a C5-5 District, height and setback and #rear yard# regulations* **up to but not exceeding 20 percent of the basic maximum #floor area ratio# permitted by the underlying district regulations, and may waive or modify the provisions of Article III, Chapter 7 (Special Regulations) and the #street wall# continuity provisions of Section 81-43 (Street Wall Continuity Along Designated Streets)** for #developments# or #enlargements# **located on #zoning lots# where** *which provide* major improvements *for to* adjacent subway stations **are provided** in accordance with the provisions of this Section. **For the purposes of this Section, "adjacent" shall mean that upon completion of the improvement, the #zoning lot# will** *The subway stations in districts where such improvements may be constructed are listed in paragraph (a) of this Section. The #zoning lot# for the #development# or #enlargement# on which such #floor area# bonus is requested shall be adjacent to the subway station for which the improvement is proposed. In order for the #zoning lot# of the #development# or #enlargement# to qualify as "adjacent," it must* physically adjoin a **subway** station mezzanine, platform, concourse or connecting passageway, *with no tracks intervening to separate the #zoning lot# from these elements.* **Subway stations where such improvements may be constructed are those stations located within the #Special Midtown District# as listed in Section 81-511 (Subway Station Improvements) and those stations listed in the following table:**

(a)Bonus eligible subway stations by line and zone

#Developments# or #enlargements# which provide major improvements to adjacent subway stations are eligible for a #floor area# bonus which shall not exceed 20 percent of the basic maximum #floor area ratio# permitted by the underlying district regulations. The stations eligible for bonus are as follows:

Station	Line	District
Wall Street	Broadway IRT (Lexington Ave)	*C5 5CR*
Fulton Street	Broadway IRT (Lexington Ave)	*C5 5CR*
Brooklyn Bridge	IRT (Lexington Ave)	*C6 4*

The selection of subway station improvements shall be on a case-by-case basis and shall be subject to the approval of the Metropolitan Transportation Authority, New York City Transit and the City Planning Commission. All such improvements shall comply with all applicable design standards of the current station planning guidelines of New York City Transit.

(b)Compliance with Transit Authority design standards

The subway station improvement shall comply with all applicable design standards of the New York City Transit Authority's "Station Planning Guidelines" (Revised, 1975 and as may be subsequently revised).

(c)Procedure

(1)Pre-application

The applicant shall submit schematic or concept plans for the proposed improvement to the Metropolitan Transportation Authority, the Transit Authority and the City Planning Commission.

(2)Application pre-certification

After review and agreement on the concept by the Metropolitan Transportation Authority, Transit Authority and the City Planning Commission, the applicant shall submit necessary documentation in conformance with the New York City Transit Authority's "Guidelines for Submission and Approval of Outside Projects". Prior to certification by the City Planning Commission, the Transit Authority shall provide a letter to the Commission containing conceptual approval of the improvement and a statement of any special considerations regarding the Transit Authority's future operation of the improvement.

(3)The special permit application to the City Planning Commission shall include information and justification sufficient to provide the Commission with a basis for evaluating the benefits to the City from the proposed improvement and determining the appropriate amount of bonus #floor area# and for making the findings for the modifications of Section 37-01, Section 37-02 and height and setback regulations in C5-5 Districts.

(4)The special permit application shall include any request for modification of special urban design guidelines pursuant to Section 74-634 paragraph (e) and of height and setback and #rear yard# regulations pursuant to Section 74-634 paragraph (f).

(5)Uniform Land Use Review Procedure - certification

The City Planning Commission shall not certify any application under the Uniform Land Use Review Procedure until the requisite letter from the Transit Authority has been received and incorporated in the application. Such letter may be subject to subsequent execution of a final agreement with the developer.

(6)Prior to the granting of a special permit:

(i)the Transit Authority shall have submitted a letter to the City Planning Commission:

(a)stating that the drawings and other documents submitted by the applicant have been determined by the Transit Authority to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems; materials; relationship to existing site conditions; and such other elements as may be appropriate; and

(b)confirming that the construction of the subway improvement in accordance with such submission is feasible; and

(ii)the applicant shall sign a legally enforceable instrument, running with the land containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and maintain the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(7)The restrictive declarations and any instrument creating a transit easement on the #zoning lot# shall be recorded against the #zoning lot# in the Office of the Register of the City of New York for the borough in which the improvement or easement is being created, and a certified copy of the instrument shall be submitted to the City Planning Commission and the Transit Authority.

(8)Prior to obtaining a temporary certificate of occupancy for the bonus #floor area#, the bonused subway improvement shall be substantially complete, which shall, for this purpose, mean usable by the public, as determined by the Transit Authority.

(9)Prior to obtaining a permanent certificate of occupancy, the bonused subway improvement must be 100 percent complete in accordance with the approved plans and such completion shall have been certified by the Transit Authority.

(d)Floor area bonus

The amount of the #floor area# bonus shall be at the discretion of the City Planning Commission and may range from no #floor area# bonus to the maximum amount allowable by special permit pursuant to the provisions of this Section. For a #residential# or mixed-#use development#, when a #floor area# bonus is granted pursuant to this Section, alone or in combination with other bonuses, the #lot area# requirements of Section 23-20 (DENSITY REGULATIONS-REQUIRED LOT AREA PER DWELLING UNIT, LOT AREA PER ROOM, OR FLOOR AREA PER ROOM) and 35-40 (APPLICABILITY OF LOT AREA REQUIREMENTS TO MIXED BUILDINGS) shall not apply. Instead for every 750 square feet of gross #residential floor area# provided, there shall be not more than one #dwelling unit#. In determining whether to grant a special permit and the precise amount of #floor area# bonus pursuant to the special permit, the Commission shall make all of the following findings:

(1)the degree to which the station's general accessibility, rider orientation and safety will be improved by the provision of new connections, additions to circulation space or easing of circulation bottlenecks;

(2)provision of escalators or elevators where justified by traffic or depth of mezzanine or platform below #street# level;
(3)convenience and spaciousness of #street# level entrance and compatible relationship to the ground floor #uses# of the #development# or #enlargement#;

(4)improvements in the station's environment by provision for daylight access, or improvements to noise control, air quality, lighting or other architectural treatments.

(e)Modification of special urban design guidelines and urban open space

The City Planning Commission may modify the requirements of Section 37-01 (Special Urban Design Guidelines-Streetscape), Section 37-02 (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), and the requirement for #urban open space# in Section 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas) if it finds the provisions of a subway improvement cannot be accommodated without modification to these requirements.

(f)Modification of height and setback and yard regulations

In a C5-5 District, in the case of on-site subway station improvements that generate #floor area# bonus pursuant to Section 74-634, the City Planning Commission may permit modification of the applicable regulations in Sections 33-26 to 33-30, inclusive, relating to #rear yard# regulations, or in Sections 33-41 to 33-45, inclusive, relating to height and setback regulations.

The City Planning Commission may grant such modification upon consideration that the applicable height and setback or #rear yard# regulations cannot be complied with by some method feasible for the applicant to pursue because of the provision of a subway station improvement, the size or irregular shape of the lot, the size or irregular shape of the #block# or width of #streets#. The Commission shall also consider the characteristics of surrounding development. The Commission shall require, where appropriate, sufficient safeguards to insure the free flow of pedestrian and vehicular traffic in the general area.

The City Planning Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding area.

The following paragraphs incorporate existing requirements in the preceding paragraphs that are proposed to be deleted: (b), (c)(1) through (c)(9), (d)(1) through (d)(4), (e) and (f) - and those in Section 81-534 (Procedure) which would also be deleted.

(a)Pre-application requirements

Prior to submitting an application for a special permit pursuant to this Section, the applicant shall submit a schematic or concept plan for the proposed improvement to the Metropolitan Transportation Authority, New York City Transit and the Chairperson of the City Planning Commission.

(b)Requirements for application

An application for a special permit pursuant to this Section shall include a letter from New York City Transit to the City Planning Commission containing conceptual approval of the improvement and a statement of any special considerations regarding New York City Transit's future operation of the improvement. The applicant shall submit all information and justification sufficient to enable the Commission to:

(1)evaluate the benefits to the City;

(2)determine the appropriate amount of bonus #floor area#; and

(3)where applicable, assess the advantages and disadvantages of waiving or modifying #street wall# continuity requirements.

(c)Findings

(1)In determining the amount of #floor area# bonus, the City Planning Commission shall consider:

(i)the degree to which the general accessibility and/or security of the subway station will be improved by the provision of new connections, additions to or reconfigurations of circulation space, including provision of escalators or elevators; and

(ii)the degree to which significant improvements to the station's environment by provision for direct daylight access, or improvements to noise control, air quality, lighting or rider orientation and appropriate integration of the #street# level entryway into the #development# or #enlargement# will occur.

(2)In determining modifications to the requirements of Article 3, Chapter 7 (Special Regulations), the Commission shall find that the provisions of a subway improvement cannot be accommodated without modification to these requirements.

(3)In determining modifications to the #street wall# continuity provisions of Section 81-43 in the #Special Midtown District#, the Commission shall find that the modification will permit the proposed design to provide for improved access of daylight or air to the subway platform, mezzanine or concourse and that the advantages of such access outweigh the disadvantages incurred by the interruption of #street wall# and retail continuity.

(4)Within the #Special Midtown District#, for a #development# or #enlargement# within the Theater Subdistrict on a #zoning lot# containing a theater designated as listed pursuant to Section 81-742 (Listed theaters), the Commission shall find that the requirements of Section 81-743 (Required assurances for continuance of legitimate theater use) have been met.

(5)Within the #Special Midtown District#, for a #development# or #enlargement# located on a #zoning lot# divided by a Theater Subdistrict Core boundary, as defined in Section 81-71 (General Provisions), the amount of #lot area# eligible for determining permitted bonus #floor area# shall not exceed an amount equal to twice the #lot area# of that portion of the #zoning lot# located outside the Theater Subdistrict Core.

(d)Procedural requirements

Prior to the granting of a special permit, the City Planning Commission shall be provided with the following:

(1)a letter from New York City Transit stating that the drawings and other documents submitted by the applicant have been determined by New York City Transit to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems, materials, relationship to existing site conditions and such other conditions as may be appropriate, and that the construction of the subway improvement in accordance with such submission is feasible.

(2)a legally enforceable instrument running with the land and signed by the applicant and all parties in interest, other than parties in interest who have waived and subordinated their interests, containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and provide capital maintenance for the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(e) Density

For a #residential# or mixed #development#, when a #floor area# bonus is granted pursuant to this Section, alone or in combination with other bonuses, the #lot area# requirements of Sections 23-20 (DENSITY REGULATIONS-REQUIRED LOT AREA PER DWELLING UNIT, LOT AREA PER ROOM OR FLOOR AREA PER ROOM) and 35-40 (APPLICABILITY OF LOT AREA REQUIREMENTS TO MIXED BUILDINGS) shall not apply. Instead, for every 790 square feet of #residential floor area# provided, there shall be not more than one #dwelling unit#.

(g) Recordation & completion procedures

Any instrument creating a transit easement on the #zoning lot# shall be recorded against the #zoning lot# in the Office of the Register of the City of New York and a certified copy of the instrument shall be submitted to the City Planning Commission and New York City Transit. The applicant shall not apply for nor accept a temporary certificate of occupancy for the bonus #floor area#, and the Department of Buildings shall not issue such a temporary certificate of occupancy, until New York City Transit has determined that the bonused subway improvement is substantially complete which shall, for this purpose, mean open to and usable by the public.

The applicant shall not apply for or accept a permanent certificate of occupancy for the #development# or #enlargement#, nor shall the Department of Buildings issue such permanent certificate of occupancy, until the bonused subway improvement has been completed in accordance with the approved plans and such completion has been certified by New York City Transit.

The City Planning Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding area.

Chapter 1
Special Midtown District

81-00
GENERAL PURPOSES

The "Special Midtown District" established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

(a)to strengthen the business core of Midtown Manhattan by improving the working and living environments;

* * *

(h)to preserve, protect and enhance the character of the Theater Subdistrict as the location of the world's foremost concentration of legitimate theaters and an area of diverse uses of a primarily entertainment and entertainment-related nature;

(i)to strengthen and enhance the character of the Eighth Avenue Corridor and its relationship with the rest of the Theater Subdistrict and with the Special Clinton District;

(j)to create and provide a transition between the Theater Subdistrict and the lower-scale Clinton Community to the west;

*(i)***(k)**to preserve, protect and enhance the scale and character of Times Square, the heart of New York City's entertainment district, and the Core of the Theater Subdistrict, which are characterized by a unique combination of building scale, large illuminated signs and entertainment and entertainment-related uses;

*(j)***(l)**to preserve, protect and enhance the character of Fifth Avenue as the showcase of New York and national retail shopping;

*(k)***(m)**to preserve the midblock area around the Museum of Modern Art for its special contribution to the historic continuity, function and ambience of Midtown;
*(l)***(n)**to expand and enhance the pedestrian circulation network connecting Grand Central Terminal to surrounding development, to minimize pedestrian congestion and to protect the area's special character;

*(m)***(o)**to provide freedom of architectural design within limits established to assure adequate access of light and air to the street, and thus to encourage more attractive and economic building forms without the need for special development permissions or "negotiated zoning"; and

*(n)***(p)**to promote the most desirable use of land and building development in accordance with the District Plan for Midtown and thus conserve the value of land and buildings and thereby protect the City's tax revenues.

81-01
Definitions

For purposes of this Chapter, matter in italics is defined in Section 12-10 (DEFINITIONS), in Section 81-261 (Definitions), or in Section 81-271 (Definitions).

Special Midtown District
(repeated from Section 12-10)

The "Special Midtown District" is a Special Purpose District designated by the letters "MiD" in which special regulations set forth in Article VIII, Chapter 1, apply. The #Special Midtown District# appears on the #zoning maps# superimposed on other districts, and its regulations supplement and modify those of the districts on which it is superimposed.

Special Clinton District
(repeated from Section 12-10)

The #Special Clinton District# is a Special Purpose District designated by the letters "CL" in which the regulations set forth in Article IX, Chapter 6 apply.

81-02
General Provisions

81-021
Applicability of underlying district regulations

* * *

81-022
Applicability of Special Transit Land Use District regulations

* * *

81-023
Applicability of Special Clinton District Regulations

Wherever the #Special Midtown District# includes an area which also lies within the #Special Clinton District#, the regulations of the #Special Clinton District# as set forth in Article IX, Chapter 6, shall also apply. However, if there is any conflict or discrepancy between the regulations, the Special Midtown District regulations shall supersede the Special Clinton District regulations.

The portion of the #Special Clinton District# within the #Special Midtown District# includes the area bounded by a line 150 feet west of Eighth Avenue, West 56th Street, Eighth Avenue and West 42nd Street. The area is designated on the #zoning maps# by the letters CL-MiD.
*81-023***81-024**
Integration clauses

* * *

81-04
Subdistricts

In order to carry out the purposes and provisions of this Chapter, four special subdistricts are established within the #Special Midtown District#. In each of these subdistricts certain special regulations apply which do not apply in the remainder of the #Special Midtown District#. The subdistricts are outlined on Map 1 (Special Midtown District and Subdistricts) in Appendix A.

The subdistricts, together with the sections of this Chapter specially applying to each, are as follows:

Sections Having Subdistricts
Special Application
The Grand Central Subdistrict
81-60
The Theater Subdistrict
81-70
The Fifth Avenue Subdistrict
81-80
The Preservation Subdistrict 81-90

The subdistricts are also subject to all other regulations of the #Special Midtown District#, **and, where applicable pursuant to Section 81-023, the #Special Clinton District#,** and the underlying districts, except as otherwise specifically provided in the subdistrict regulations themselves.

81-062
Applicability of Chapter 4 of Article VII

Within the #Special Midtown District#, the following provisions regarding special permits by the City Planning Commission shall not be applicable:

Section 74-72(Bulk Modification)

Section 74-74(General Large-Scale Development)

Section 74-75(Educational Construction Fund Projects)

* * *

81-063
Regulations for Developments or Enlargements on Lots Divided by District Boundaries, Within or Partially Within the Theater Subdistrict

Within the Theater Subdistrict of the #Special Midtown District#, the provisions of Chapter 7 of Article VII (Special Provisions for Zoning Lots Divided by District Boundaries) are modified in part by the provisions of Section 81-746 (*Special modification of* **Additional** provisions for zoning lots divided by district **or subdistrict core** boundaries).

* * *

81-20
BULK REGULATIONS

81-21
Floor Area Ratio Regulations

The #floor area ratio# regulations of the underlying districts are modified in accordance with the provisions of this Section or Section 81-241 (Maximum floor area ratios for a residential building or the residential portion of a mixed building).

81-211
Maximum floor area ratio for non-residential or mixed buildings

(a)For non-#residential buildings# or #mixed buildings#, the basic maximum #floor area ratios# of the underlying districts shall apply as set forth in this Section.

(b)In the #Special Midtown District, the basic maximum #floor area ratio# on any #zoning lot# may be increased by bonuses or other #floor area# allowances only in accordance with the provisions of this Chapter, and the maximum #floor area ratio# with such additional #floor area# allowances shall in no event exceed the amount set forth for each underlying district in the following table:

PG
TABLE NOT INCLUDED - AVAILABLE IN HARD COPY FORMAT IN THE PRINTED CALENDAR, WHICH IS AVAILABLE FROM THE CALENDAR OFFICE AT 22 READE STREET, NEW YORK, NEW YORK 10007PG

81-22
As-of-Right Floor Area Bonuses

As-of-right #floor area# bonuses are not permitted in the #Special Midtown District#, except in accordance with the provisions of the following Sections:

Section 81-23 (Floor Area Bonus for Urban Plazas)

Section 81-748 (Floor area bonus for through block gallerias)

In addition, the provisions of Article II, Chapter 3, Section 23-90 (Inclusionary Housing) shall be applicable in that portion of the #Special Midtown District# which is also within the #Special Clinton District# pursuant to

Section 81-023 (Applicability of the Special Clinton District Regulations).

Any floor area bonus granted by certification for through block gallerias prior to (the effective date of this amendment) shall remain in effect, provided however that such certification shall automatically lapse if substantial construction, in accordance with the plans for which such certification was granted, has not been completed within four years from the effective date of such certification.

81-23
Floor Area Bonus for Urban Plazas

Within the #Special Midtown District#, for each square foot of #urban plaza# provided on a #zoning lot#, the basic maximum #floor area# permitted on that #zoning lot# under the provisions of Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings) may be increased by six square feet, provided that in no case shall such bonus #floor area# exceed a #floor area ratio# of 1.0.

This Section shall be applicable in all underlying districts throughout the #Special Midtown District#, except that:

(a)there shall be no #floor area# bonus for an #urban plaza# on #zoning lots# in the C5P District within the Preservation Subdistrict;

(b)no #development# or #enlargement# on a #zoning lot# shall receive a bonus for an urban plaza that is within 50 feet of a #street line# of a designated #street# on which retail or #street wall# continuity is required, pursuant to Sections 81-42 (Retail Continuity Along Designated Streets) or 81-43 (Street Wall Continuity Along Designated Streets);

(c)no #development# or #enlargement# on a #zoning lot#**, any portion of which is** within the Theater Subdistrict Core as defined in Section 81-71 (General Provisions), shall receive a bonus for an #urban plaza#; and

(d)there shall be no #floor area# bonus for an #urban plaza# on #zoning lots# in the Grand Central Subdistrict.

All #urban plazas# provided within the #Special Midtown District# shall comply with the requirements for #urban plazas# set forth in Section 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas).

A major portion of an #urban plaza# may overlap with a sidewalk widening which may be provided to fulfill the minimum pedestrian circulation space requirements set forth in Section 81-45 (Provision of Pedestrian Circulation Space), provided that the overlapping portion of the #urban plaza# also conforms to the design standards of Section *81-45* **37-07** for a sidewalk widening. Such sidewalk widening may be included in the major portion of an #urban plaza# for purposes of calculating the proportional restrictions set forth in Section 37-04, paragraph (e).

* * *

81-24
Floor Area, Density and Building Spacing Regulations for Residential Uses

81-241
Maximum floor area ratios for a residential building or the residential portion of a mixed building

For #residential buildings# or #residential# portions of #mixed buildings# in the #Special Midtown District#, the maximum #floor area ratio# for each underlying district is as follows:

(a)In the C5-P District the maximum #floor area ratio# is 8.0, and no additional #floor area# shall be allowed above this limit.

(b)In all underlying districts other than the C5-P District, except as provided in paragraph (c) of this Section, the maximum #residential floor area ratio# is 10.0.

(c)A #residential building# or the #residential# portion of a #mixed building# in any underlying district other than a C5-P, C6-4 or C6-5 District **or a #residential building# or the #residential# portion of a #mixed building# in a C6-4 or C6-5 District within the Theater Subdistrict which has been granted bonus #floor area# or other #floor area# allowances in accordance with the provisions of Section 81- 741 (General provisions),** shall qualify for a maximum #residential floor area ratio# of 12.0 if the #building# includes recreational space for the #residential# occupants in an amount not less than 6.5 square feet for each #room#, or a total area of at least 5,000 square feet, whichever is greater. The recreational space may be located at any level including a roof. Such recreational space shall:

(1)be restricted to #residential# occupants of the #building# and their guests for whom no admission or membership fees may be charged;

(2)be directly accessible from a lobby or other public area served by the #residential# elevators;

(3)be landscaped including trees or shrubbery, except where covered or developed with recreational facilities and seating areas;

(4)contain not less than 500 square feet of continuous area on a single level with no dimension of less than 15 feet;

(5)have not less than 50 percent of the area open from its lowest level to the sky. The remaining portion may be roofed and up to 50 percent of its perimeter may be enclosed. In no event may more than 25 percent of the required recreational space be fully enclosed. All enclosures shall be transparent except when located within the #building#. Covered areas shall contain recreational facilities or seating areas.

A copy of requirements (1) through (5) set forth in this paragraph shall be permanently posted in a conspicuous place within each recreational space.

(d)A #residential building# or the #residential# portion of a #mixed building# in a C6-4 or C6-5 underlying district within the Theater Subdistrict may qualify for bonus #floor area# or other #floor area# allowances in accordance with the provisions of Section 81- 741 (General provisions), provided that the #residential floor area ratio# with such #floor area# allowances shall not exceed 12.0 and that such #building# also provides recreational space for the #residential# occupants in accordance with the requirements of paragraph (c) of this Section.
(e)The applicable maximum #floor area ratio# for a #residential building# or the #residential# portion of a #mixed building# shall not be increased by any bonuses or other #floor area# allowances except as provided in paragraph (c) or (d) of this Section.

* * *

81-25
General Provisions Relating to Height and Setback of Buildings

For all #buildings# in the #Special Midtown District#, except as provided in Section 81-90 (SPECIAL REGULATIONS FOR PRESERVATION SUBDISTRICT), the height and setback regulations of the underlying districts, *including tower regulations,* are superseded by the provisions of this Section, and by the two alternate sets of regulations controlling the height and setback of #buildings#, as set forth in Sections 81-26 and 81-27 respectively.

An applicant for plan approval by the Department of Buildings may elect to be governed by the provisions of either Section 81-26 (Height and Setback Regulations - Daylight Compensation) or 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation) in addition to the provisions of this Section. *and of Section 81-622 (Special height and setback requirements) applicable to a #development# or #enlargement# within the Grand Central Subdistrict.*

This Section sets forth the provisions which are common to both sets of regulations.

* * *

81-40
MANDATORY DISTRICT PLAN ELEMENTS

* * *

81-43
Street Wall Continuity Along Designated Streets

* * *

Pedestrian circulation spaces may be provided to meet the requirements of Section 81-45 **(Pedestrian Circulation Space),** *81-46 or 81-47* subject to the setback restrictions of this Section and to the minimum length of the #street wall# subject to such setback restrictions. However, the City Planning Commission may waive such restrictions for a subway entrance area which is part of a subway station improvement for which bonus #floor area# is granted, in accordance with the provisions of Section *81-53* **81-511** (Subway Station Improvements).

* * *

No arcades, sidewalk widenings or #urban plazas# shall be permitted on Fifth Avenue, 42nd Street, 34th Street or 57th Street frontages. **Between 42nd and 56th Street, no arcades or #urban plazas# shall be permitted on Eighth Avenue.** Between 43rd and 50th Streets, no arcades or #urban plazas# shall be permitted on Seventh Avenue or Broadway and, with the exception of marquees and #signs#, any area between the Seventh Avenue or Broadway #street line# and any required #street wall# below the height of the first required setback, including permitted recesses, shall be open from #curb level# to the sky in its entirety. Any such area shall be at the same elevation as the adjoining sidewalk, directly accessible to the public at all times and free of all obstructions at ground level, including #street# trees. On the remaining #streets# designated for #street wall# continuity, arcades, if provided, shall be not less than 10 feet in depth and not more than 30 feet high. Arcades shall not be counted toward the recess allowances.
For #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway the minimum and maximum heights of #street walls# subject to the setback restrictions on all #street# frontages shall be in accordance with Section 81-75 (Special Street Wall and Setback Requirements).

For #zoning lots# located wholly or partially within the Eighth Avenue Corridor the minimum and maximum heights of #street walls# subject to the setback restrictions on all #street# frontages shall be in accordance with Section 81-75 (Special Street Wall and Setback Requirements.

On Fifth Avenue, the minimum required #street wall# height without setback shall be 85 feet and the maximum allowable #street wall# height without setback shall be 125 feet. Above the maximum #street wall# height, a setback of at least 10 feet shall be required. (See Section 81-83)

Existing #buildings# on a #zoning lot# shall be included in measurements of the #street wall#. No existing #building# shall be altered such that a #non-compliance# with the provisions of this Section is created, nor shall an existing degree of #non-compliance# with these provisions be increased.

* * *

81-45
Provision of Pedestrian Circulation Space

Within the boundaries of the #Special Midtown District#, except as provided in Section 81-453 (Exemptions from the pedestrian circulation space requirements), all new #developments# or #enlargements# on #zoning lots# of 5,000 square feet or larger and providing more than 70,000 square feet of new #floor area#, shall provide a minimum amount of pedestrian circulation space at the rate provided in Table A.

TABLE A
MINIMUM PEDESTRIAN CIRCULATION SPACE REQUIREMENTS
Lot Size in Square Feet — Minimum Area of Pedestrian Circulation Space
5,000 to 20,000 — 1 square foot per 350 square feet of new #floor area#

Above 20,000 — 1 square foot per 300 square feet of new #floor area#

The pedestrian circulation space provided shall be of one or more of the following types: sidewalk widening, arcade, corner arcade, corner circulation space, building entrance recess area, through #block# connection, subway stair relocation, renovation or reconstruction of a subway stair pre-existing on the #zoning lot#, or off-street rail mass transit access improvement.

Each #zoning lot# shall be categorized as either a #corner lot#, #through lot# or #interior lot#, and pedestrian circulation space shall be provided on each #zoning lot# in at least one of the applicable types or combinations of types outlined in Table B.

Such pedestrian circulation space shall meet the requirements set forth in Sections 81-451 (Design standards for pedestrian circulation spaces), 81-46 (Through Block Connection), 81-47 (Off-Street Relocation or Renovation of a Subway Stair) or 81-49 (Off-Street Improvement of Access to Rail Mass Transit Facility). Arcades shall not be subject to the provisions of Section 27-60 (ARCADES), and sidewalk widenings shall not be subject to the provisions of Section 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas).

In addition, certain amenities for which bonuses are granted may count toward the minimum area of pedestrian circulation space in accordance with the provisions of Section 81-452 (Bonused amenities qualifying as pedestrian circulation spaces).

Any area of permitted overlap between pedestrian circulation spaces or amenities shall be counted only once toward the minimum area of pedestrian circulation space. Unobstructed access shall be provided between overlapping spaces.

TABLE B
LOT TYPE WHERE CIRCULATION SPACE MAY BE PROVIDED

Type of Circulation Space (Section 81-45)	*#Corner Lot#*	*#Through Lot#*	*#Interior Lot#*
Sidewalk Widening	*X*	*X*	*X*
Corner Circulation Space	*X*		
Building Entrance Recess Area	*X*	*X*	*X*
Through #Block# Connection		*X*	*X*
Subway Stair Relocation of Renovation	*X*	*X*	*X*
Off Street Rail Mass Transit Access Improvement	*X*	*X*	*X*

arcades or sidewalk widenings shall be permitted on Fifth Avenue, 42nd Street, 34th Street or 57th Street frontages or on any #street# frontage within the Preservation Subdistrict. Between 43rd and 50th Streets, no arcades shall be permitted parallel to and along Seventh Avenue or Broadway and where pedestrian circulation space is provided along such #street# frontages, #signs# and marquees shall be permitted as exceptions to the requirements related to obstructions or permitted obstructions of Section 81-451 (Design standards for pedestrian circulation spaces). Special dimensional requirements for arcades and sidewalk widenings along designated #streets# are set forth in Section 81-43 (Street Wall Continuity along Designated Streets).

New #developments# or #enlargements# on a #zoning lot# having a full #block# frontage on a #wide street# other than Fifth Avenue, 42nd Street, 34th Street, or 57th Street shall provide a minimum of 50 percent of their required pedestrian circulation space on that #wide street#.

In the case of a #zoning lot# having two full #block# frontages on #wide streets#, this minimum amount may be allocated on either one or both #wide streets#; where each #street# bounding a #zoning lot# with at least one full #block# frontage is a #wide street#, the minimum amount may be allowed on one or more of those #wide streets#.

Within the #Special Midtown District#, all new #developments# or #enlargements# on #zoning lots# of 5,000 square feet or larger with more than 70,000 square feet of new #floor area# shall provide pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

The requirements for pedestrian circulation space may be met by providing one or more of the following types of spaces: arcade, building entrance recess area, corner arcade, corner circulation space, relocation or renovation of a subway stair, sidewalk widening, subway station improvement, through #block# connection or #urban plaza#. Design requirements and, where applicable, the maximum amount of each space that may be counted towards the minimum pedestrian circulation space requirement are set forth in Section 37-07 (Requirements for Pedestrian Circulation Space).

In addition, the following may be counted towards meeting the minimum pedestrian circulation space requirement:

(a)up to a maximum of 3,000 square feet of an access improvement to rail mass transit provided pursuant to Section 81-49 (Off-street Improvement of Access to Rail Mass Transit Facility);

(b)within the Theater Subdistrict, theater waiting space provided pursuant to Section 81-451 (Theater waiting space).

New #developments# or #enlargements# on a #zoning lot# having a full #block# frontage on a #wide street# other than Fifth Avenue, 42nd Street, 34th Street or 57th Street shall provide a minimum of 50 percent of their required pedestrian circulation space on that #street#. In the case of a #zoning lot# having two full #block# frontages on #wide streets#, this minimum amount may be allocated on either one or both #wide streets#; where each #street# bounding a #zoning lot# with at least one full #block# frontage is a #wide street#, the minimum amount may be allowed on one or more of those #wide streets#.

However, pedestrian circulation space shall not be required if any of the following conditions exist:

(a)the #zoning lot# is entirely occupied by a #building# of no more than one #story# in height;

(b)the #zoning lot# is an #interior lot# fronting on a #wide street# with less than 80 feet of #street# frontage;

(c)the #zoning lot# is an #interior# or #through lot# fronting only on a #street# or #streets# where arcades, sidewalk widenings or #urban plazas# are prohibited;

(d)the #zoning lot# is an #interior lot# fronting on either 34th Street, 42nd Street, 57th Street or Fifth Avenue, with another interior frontage of lesser length on any other #street#; or

(e)the #zoning lot# is a #through lot# with both #street# frontages less than 25 feet in length.

Arcades or sidewalk widenings shall not be permitted on 34th Street, 42nd Street, 57th Street or Fifth Avenue frontages or on any #street# frontage within the Preservation Subdistrict. Between 43rd and 50th Streets, no arcades shall be permitted parallel to and along Seventh Avenue or Broadway. Where pedestrian circulation space is provided along Seventh Avenue or Broadway between 43rd and 50th Streets, #signs# and marquees shall be permitted as exceptions to the requirements relating to obstructions or permitted obstructions in Section 37-07 (Requirements for Pedestrian Circulation Space). Special dimensional requirements for arcades and sidewalk widenings along designated #streets# are set forth in Section 81-43 (Street Wall Continuity Along Designated Streets).

81-451
Design standards for pedestrian circulation spaces
Theater waiting space

(a) Sidewalk widening

A sidewalk widening is a continuous paved open area along the #front lot line# of a #zoning lot# at the same elevation as the adjoining sidewalk and directly accessible to the public at all times. A sidewalk widening shall be provided on the #wide street# frontage of a #zoning lot# of a new #development# or #enlargement# where all existing #buildings# on the same #block# frontage, whether on the same or another #zoning lot#, provide sidewalk widenings. A sidewalk widening shall meet the following requirements:

(1)Dimensions

A sidewalk widening shall have a width of no less than 5 feet nor greater than 10 feet measured perpendicular to the #street line#, and shall be contiguous along its entire length to a sidewalk. Except for the permitted interruptions, as set forth in paragraph (a)(2), a sidewalk widening is permitted on a #narrow street# only if it has a length of at least 100 feet.

It shall extend along the full length of the #front lot line# except for the portion of the #front lot line# interrupted by an existing #building# which is located at a #side lot line# or, in the case of a full #block# frontage, located at the intersection of two #streets#. A required sidewalk widening on a #wide street# shall connect directly to any existing adjoining sidewalk widening and shall extend the entire length of the new #front lot line#.

The width of such a required sidewalk widening shall equal that of the existing adjoining sidewalk widening. If there is more than one such existing sidewalk widening, the width of such a required sidewalk widening shall equal that of the existing sidewalk widening that is longest.

A sidewalk widening is permitted on a #wide street# when not adjacent to an existing sidewalk widening only if either the sidewalk widening extends along the #wide street line# for the full length of the #block# front, or the #zoning lot# is a #corner lot# and the sidewalk widening extends along the full length of the #wide street street line# to its intersection with the other #street street line# on which the #zoning lot# fronts.

(2)Permitted interruptions

Only under the following conditions shall any interruptions of the continuity of a qualifying sidewalk widening be permitted:

(i)A sidewalk widening may be interrupted by an arcade which has a width equal to or greater than the width of the sidewalk widening and which is directly connected to the sidewalk widening.

(ii)A sidewalk widening may be overlapped by a corner circulation space or a #building# entrance recess area which permits uninterrupted pedestrian flow.

(iiiA sidewalk widening may be overlapped by an #urban plaza# as set forth in Section 81-23, provided that the overlapping portion of such #urban plaza# conforms to the design standard of a sidewalk widening.

(iv)An off-street subway entrance may interrupt a sidewalk widening provided such an entrance is located at a #side lot line# or is located at the intersection of two #street lines#.

(v)A sidewalk widening may be overlapped by the queuing space of a relocated or renovated subway entrance provided that the queuing space for the entrance leaves at least a 5 foot uninterrupted width of sidewalk widening along the entire length of the queuing space.

(vi)A sidewalk widening may be interrupted by a driveway that is located at a #side lot line#; however, where the #zoning lot# has a through #block# connection, or a through #block urban plaza#, or a through #block# galleria at such a #side lot line#, the location of its driveway is not restricted. The area occupied by the driveway, up to the width of the sidewalk widening, may be counted towards meeting the pedestrian circulation space requirement, provided that there shall be no change of grade within the area of the sidewalk widening.

(3) Permitted obstructions

A sidewalk widening shall be unobstructed from its lowest level to the sky except for those obstructions permitted under paragraph (5) of this Section and for temporary elements of weather protection, such as awnings or canopies, provided that the total area (measured on the plan) of such elements does not exceed 20 percent of the sidewalk widening area, and that such elements and any attachments thereto are at least 8 feet above #curb level#.

(4) Specific prohibitions

No #street# trees are permitted on a sidewalk widening. No vehicle storage, parking or trash storage is permitted on a sidewalk widening. Gratings may not occupy more than 50 percent of the sidewalk widening area nor be wider than one half the width of the sidewalk widening.

(5) Special design treatment

When one end of the sidewalk widening abuts an existing #building# on the #zoning lot# or an existing #building# on the #side lot line# of the adjacent #zoning lot#, design treatment of the termination of the sidewalk widening is required to smooth pedestrian flow. The portion of the sidewalk widening subject to design treatment, hereinafter called the transition area, shall not extend more than 10 feet nor less than 5 feet along the sidewalk widening from its termination.

The transition area shall receive special design treatment which may include, but is not limited to, landscaping, sculpture, or #building# transparency. The transition area shall be designed to effect a gradual change of the sidewalk widening width to match the #street wall# line of the existing #building# at the sidewalk widening's termination. This may be accomplished by a curved or diagonal edge of paving along a landscaped bed, the use of stepped edges of the #building#, or other architectural treatment of the #building# or paving which avoids an abrupt visual termination of the sidewalk widening. Such special design treatment may be considered a permitted obstruction.

(b) Corner circulation space

A corner circulation space is a small #open space# on the #zoning lot# of a #development# or #enlargement#, adjoining the intersection of two #streets#, at the same elevation as the adjoining sidewalk or sidewalk widening and directly accessible to the public at all times. A corner circulation space shall meet the following requirements:

(1)Dimensions
A corner circulation space shall have a minimum area of 200 square feet, a minimum depth of 15 feet measured along a line bisecting the angle of intersecting #street lines#, and shall extend along both #street lines# for at least 15 feet but not more than 40 feet from the intersection of the two #street lines#.

(2)Obstructions

A corner circulation space shall be completely open to the sky from its lowest level, except for temporary elements of weather protection, such as awnings or canopies; provided that the total area of such elements does not exceed 20 percent of the corner circulation space area; and that such elements and any attachments thereto are at least 8 feet above #curb level#. A corner circulation space shall be clear of all other obstructions including, without limitation, door swings, building columns, #street# trees, planters, vehicle storage, parking or trash storage. No gratings except for drainage are permitted.

(3)Building entrances

Entrances to ground level #uses# are permitted from a corner circulation space. An entrance to a building lobby is permitted from a corner circulation space, provided that the entrance is at no point within 20 feet of the intersection of the two #street lines# that bound the corner circulation space.

(4)Permitted overlap

A corner circulation space may overlap with a sidewalk widening.

(c) Arcade

An arcade is a continuous covered space which adjoins and extends along a #front lot line#, is at the same elevation as the adjoining sidewalk, is open for its entire length to the sidewalk except for columns and is accessible to the public at all times. An arcade shall be provided on the #wide street# frontage of a #zoning lot# of a new #development# or #enlargement# where the #zoning lot# lies directly adjacent to an existing arcade on a #wide street#, except where an existing #building# without an arcade extends along a portion of the #wide street front lot line# of the #zoning lot# containing the new #development# or #enlargement#.

An arcade shall meet the following requirements:

(1)Dimensions

An arcade with columns shall have a minimum clear width of 10 feet exclusive of all columns and a maximum width of 15 feet inclusive of columns. No column width shall be greater than 5 feet. Columns shall be spaced along the #street# with a minimum clear width between columns of 15 feet. An arcade shall have a clear height of not less than 12 feet.

(i)On an #interior lot# or a #through lot# fronting on a #narrow street#, an arcade without columns is permitted only if:

(a)it has a continuous unobstructed minimum length of 100 feet or, with the exception of the width of driveways for the required loading berths located at the #side lot line# of the #zoning lot#, the full length of the new #building# frontage, whichever is greater; and

(b)the entire #front lot line# shall be unobstructed for the same depth of the arcade, except for that portion of the #front lot line# occupied by an existing #building#.

(ii)On an #interior lot# or on a #through lot# fronting on a #narrow street#, an arcade with columns is permitted only if it connects directly to an existing arcade on an adjacent lot matching it in width and alignment and has a continuous, unobstructed minimum length beyond the existing adjacent arcade of at least 100 feet or, with the exception of the width of driveways for the required loading berths located at the #side lot line# of the #zoning lot#, for the full length of the new #building# frontage, whichever is greater.

(iiiOn the #narrow street# frontage of a #corner lot#, an arcade is permitted only if it extends for the full length of the #street# frontage, with the exception of a driveway for a required loading berth located at the #side lot line# of the #zoning lot#, or if the arcade provides unobstructed pedestrian flow along such entire frontage in combination with one or more of the following other spaces with which it connects at one or both ends: an intersecting #street#, an intersecting sidewalk widening, a corner arcade, a #plaza#, an #urban plaza#, a through #block# connection, a through #block# galleria, a relocated or renovated subway entrance, or an off-street rail mass transit access improvement.

(iv)On a #wide street#, an arcade is permitted only if:

(a)the arcade extends along the full length of the #street line# between intersecting #streets#; or

(b)in the case of a #building# that occupies less than the entire #street# frontage between intersecting #streets#, on a full #block# front #zoning lot#, unobstructed pedestrian flow along the entire frontage is provided on the #zoning lot# by the arcade in combination with one or more of the following #open spaces# with which the arcade connects at one or both ends: an intersecting sidewalk widening, a corner circulation space, a #plaza# or an #urban plaza#; or

(c)in the case of a #building# whose #zoning lot# occupies less than the entire #street# frontage between intersecting #streets#, the arcade connects with an existing arcade of matching width and alignment as required in this paragraph (iv)(c), a #plaza# or an #urban plaza# on an adjacent #zoning lot#, so that unobstructed pedestrian flow along the entire #block# front is provided by the arcade in combination with such existing spaces.

(2)Full #block# front arcade

When a #zoning lot# occupies a full #block# front, both ends of the arcade on that #street# frontage shall be open and accessible directly from the sidewalk of the intersecting #street# or any other qualifying pedestrian circulation space.

(3)Permitted obstructions

Except for building columns, an arcade shall be completely free from obstructions of any kind.

(4)Specific prohibitions

No vehicular driveways, except as permitted under paragraph (c)(1), parking spaces, passenger drop-offs, loading berths or trash storage facilities are permitted within an arcade, nor shall such facilities be permitted immediately adjacent to an arcade.

(5)In the Theater Subdistrict, where a new #building# or #enlarged# portion of an existing #building# provides an arcade, no obstructions, including columns, are permitted within such arcade, and the height and width of such arcade shall be limited to a maximum of 20 feet and 10 feet respectively.
(6)All existing and new arcades shall maintain a minimum level of illumination of not less than five horizontal foot candles between sunset and sunrise.

(d)Corner arcade

A corner arcade is a small covered space adjoining the intersection of two #streets# at the same elevation as the adjoining sidewalk or sidewalk widening and directly accessible to the public at all times. A corner arcade shall meet the following requirements:

(1)Dimensions

A corner arcade shall have the same minimum dimensions as a corner circulation space and in addition shall have a height of not less than 12 feet and shall provide a clear path at least 12 feet wide from one #street line# to another #street line#.

(2)Permitted obstructions

Except for building columns a corner arcade shall be free of obstructions of any kind.

(3)Specific prohibitions

Same as for an arcade.

(4)Permitted overlap

A corner arcade may overlap with an arcade; however, the area of overlap may only be counted once toward the fulfillment of the required minimum area of pedestrian circulation space.

(e)Building entrance recess area

A building entrance recess area is a space which adjoins and is open to a sidewalk or sidewalk widening for its entire length and provides unobstructed access to the building's lobby entrance or to a ground floor #use# entrance. A building entrance recess area shall meet the following requirements:

(1)Dimensions

A building entrance recess area shall have a minimum length of 15 feet and a maximum length of 50 feet measured parallel to the #street line# at a building's lobby entrance and a maximum length of 30 feet parallel to the #street line# at a ground floor #use# entrance. It shall have a maximum depth of 15 feet measured from the #street line#, and shall have a minimum depth of 10 feet measured from the #street line#.

(2)Obstructions

Any portion of a building entrance recess area under an overhanging portion of the #building# shall have a minimum clear height of 15 feet. It shall be free of obstructions except for building columns, between any two of which there shall be a clear space of at least 15 feet measured parallel to the #street line#. Between a building column and a wall of the #building#, there shall be a clear path at least 5 feet in width.

(3)Permitted overlap

A building entrance recess area may overlap with a sidewalk widening, an arcade, a corner arcade, or a corner circulation space and may adjoin or overlap and connect directly without obstruction to another building entrance recess area except that, on any one #street# frontage, each lobby or ground floor #use# shall connect to only one building entrance recess area.

(f) Through #block# connection

The design standards for a through #block# connection are set forth in Section 81-46 (Through Block Connection).

(g)Off-street relocation or renovation of a subway stair

The design standards for a relocated or renovated subway stair are set forth in Section 81-47 (Off-Street Relocation or Renovation of a Subway Stair).

(h)Off-street improvement of access to rail mass transit Facility

The design standards for an off-street rail mass transit access improvement are set forth in Section 81-49 (Off-Street Improvement of Access to Rail Mass Transit Facility).

Theater waiting space shall be an unobstructed area providing outdoor waiting space for a theater audience, located immediately adjacent to the sidewalk and to a theater listed in Section 81-742 (Listed Theaters) or a new theater designed and intended to show live theatrical performances. Theater waiting space may be located on the same #zoning lot# occupied by a theater or a #zoning lot# immediately adjacent to a theater, and shall meet the following requirements:

(a)such space shall adjoin and open onto a sidewalk or sidewalk widening for its entire length and shall have a minimum length of 30 feet measured parallel to the #street line# and a minimum clear depth of 10 feet measured perpendicular to the #street line# exclusive of any columns. Its level shall be entirely the same as that of the adjoining sidewalk. When located under an overhanging portion of a #building or other structure#, it shall have a minimum clear height of 15 feet and be free of any obstructions except for #building# columns;

(b)such space shall provide direct access to a #building's# entrance or the theater's lobby. Where the theater and the theater waiting space are on separate #zoning lots#, a plaque shall be provided within the theater waiting space adjacent to the theater stating that the space is available as a waiting area for the theater audience. Such plaque shall be placed between four feet and six feet above #curb level#, and shall be visible from the sidewalk;

(c)such space shall not adjoin a driveway or an off-#street# loading berth;

(d)the entire theater waiting space shall be illuminated with a minimum level of not less than eight horizontal foot-candles (lumens per foot), and

The theater waiting space may overlap with a sidewalk widening, an arcade, a corner arcade, a corner circulation space, or a building entrance recess area. However, the area of overlap may only be counted once toward the fulfillment of the required minimum area of pedestrian circulation space.

81-452
Bonused amenities qualifying as pedestrian circulation spaces

A portion of the following amenities, for which bonuses are granted pursuant to this Chapter, may be counted toward the minimum pedestrian circulation space requirements:

(a)Through #block# galleria (see Section 81-748), up to a maximum of 3,000 square feet.
(b)Through #block urban plaza# (see Section 81-23), up to a maximum of 3,000 square feet.

(c)#Urban plaza# (see Section 81-23)

(1)For an #urban plaza# that faces a #street# intersection or provides access to a major #building# entrance: 30 percent of the #urban plaza's# area.

(2)For other #urban plazas#: the first 10 feet of depth from the #street line#, provided that

it conforms to the design standards of a sidewalk widening.

(d)Subway station improvement (see Section 81-53), up to a maximum of 3,000 square feet.

81-453
Exemptions from the pedestrian circulation space requirements

Under any of the following conditions a #development# or #enlargement# shall not be required to provide pedestrian circulation space:

(a)the #zoning lot# is entirely occupied by a #building# of no more than one #story# in height;

(b)the #zoning lot# is an #interior lot# fronting on a #wide street# with frontage length less than 80 feet;

(c)the #zoning lot# is an #interior# or #through lot# fronting only on a #street# or #streets# where no arcade, sidewalk widening or #urban plaza# is permitted, such as Fifth Avenue, 42nd Street, 34th Street and 57th Street or any #street# within the Preservation Subdistrict;

(d)the #zoning lot# is an #interior lot# fronting on either Fifth Avenue, 42nd Street, 34th Street or 57th Street, with another interior frontage of lesser length on any other #street#; or

(e)the #zoning lot# is a #through lot# with both frontages less than 25 feet in length.

81-454
Modification of design standards of pedestrian circulation spaces within existing buildings

The City Planning Commission may authorize a modification of the minimum amount of pedestrian circulation space to be provided on #wide street# frontages as required in Section 81-45 (Provision of Pedestrian Circulation Space) and design standards, as indicated, for the required pedestrian circulation spaces listed below, to be provided within or under an existing #building# to remain on a #zoning lot#.

(a)Arcade: minimum width, minimum height, obstructions, minimum clear width between obstructions, minimum length, column sizes.

(b)Corner circulation space or corner arcade: minimum depth, minimum width of clear path, minimum height, obstructions.

(c)Entrance recess area: minimum length, minimum depth from #street line#, minimum height, obstructions, clear space between obstructions and clear space between obstructions and building wall.

(d)Through #block# connection: minimum width of unobstructed path minimum height, #curb level# relationship.

The Commission may authorize a modification of the above design standards when the following conditions are met:

(1)a modification is needed because of the inherent constraints of the existing #building#;

(2)the modification is limited to the minimum needed because of the inherent constraints of the existing #building#; and

(3)the pedestrian circulation space being modified shall be equal in area, and substantially equivalent to the required space in quality, effectiveness and suitability for public use.

81-46
Through Block Connection

A through #block# connection between two parallel or nearly parallel east-west #streets# may be provided for a #development# or #enlargement# on any #through lot# or #through lot# portion of a #corner lot# and may count toward the pedestrian circulation space requirements of Section 81-45 (Provision of Pedestrian Circulation Space) provided that it shall be located at least 150 feet from a north-south #street# and shall meet the standards set forth below in Section 81-461 (Locational standards) and in Section 81-462 (Design standards for a through block connection).

81-461
Locational standards

(a)A through #block# connection shall count as pedestrian circulation space meeting the requirements of Section 81-45 (Provision of Pedestrian Circulation Space) only if it is located not less than 150 feet from a north-south #wide street#.

(b)To count as pedestrian circulation space meeting the requirements of Section 81-45 (Provision of Pedestrian Circulation Space), a qualifying through #block# connection shall meet the following additional locational requirements:

(1)Where the #zoning lot# or a portion thereof is directly across a #street# from and opposite to an existing through #block# connection on an adjacent #block# to the north or south and the existing connection is at least 150 feet from a north-south #wide street#, the alignment of the new through #block# connection shall overlap with that of the existing connection. Such existing connection may also be a through #block# galleria, through #block urban plaza# or any through #block# circulation area with a minimum width of 12 feet, which is located within a #building#.

(2)Where there are already two through #block# connections located on the same #block#, a new through #block# connection shall not count as pedestrian circulation space meeting the requirements of Section 81-45 (Provision of Pedestrian Circulation Space).

(3)Notwithstanding the provisions of paragraphs (1) and (2) of this Section, no through #block# connection shall be permitted on any portion of a #zoning lot# occupied by a landmark or interior landmark so designated by the Landmarks Preservation Commission or occupied by a #building# whose designation as a landmark or interior landmark has been calendared for public hearing and is pending before the Landmarks Preservation Commission.

81-462
Design standards for a through block connection

A through #block# connection is a paved open or enclosed space providing unobstructed access to the #building's# main lobby and connecting, in a straight continuous unobstructed path, two parallel or nearly parallel #streets#. A through #block# connection shall meet the following requirements:

(a)A through #block# connection shall provide a straight continuous unobstructed path at least 15 feet wide. If covered, the clear unobstructed height of a through #block# connection shall not be less than 15 feet.

(b)At no point shall the level of a through #block# connection be more than five feet above or below #curb level#. In all cases, the through #block# connection must provide through its entire length a clear path accessible to the handicapped.

(c)A through #block# connection may be located inside or outside of a #building#. The area of a through #block# connection located within a #building# shall be counted as #floor area#.

(d)A through #block# connection located partially or wholly within a #building# shall adjoin and connect directly to the #building's# main lobby via unobstructed openings with an aggregate width exceeding that of any other entrances to the lobby.

(e)A through #block# connection located wholly or partially outside a #building# shall provide unobstructed access directly to the #building's# main lobby through the major entrance. For the purposes of this Section, the major entrance shall be that entrance to the main lobby which has the greatest aggregate width of clear openings for access.

(f)Any portion of a through #block# connection located outside a #building# shall be illuminated throughout with a minimum level of illumination of not less than five horizontal foot candles (lumens per candle). Such illumination shall be maintained throughout the hours of darkness.

(g)A through #block# connection shall at a minimum be accessible to the public from 8:00 a.m. to 7:00 p.m. on the days the #building# or #development# is open for business and shall have posted in prominent, visible locations at its entrances signs meeting the standards set forth in paragraph (h) of this Section.

(h)A through #block# connection shall provide the following information for public access at each public entry to the through #block# connection:

(1)For an unenclosed through #block# connection, the public access information shall be an entry plaque located at the entrance to the through #block# connection at each #street# frontage. The entry plaque shall contain:

(i)a public space symbol which is at least 14 inches square in dimension; has a white background; has a grid of four straight lines no greater than one-eighth inch wide and green in color; and has a tree shaped symbol as shown:

(Tree Symbol)

(ii)lettering at least two inches in height stating "OPEN TO PUBLIC." This lettering shall be located within nine inches of the public space symbol; and

(iiian international Symbol of Access for the physically handicapped at least three inches square.

The entry plaque shall be mounted with its center five feet above the elevation of the nearest walkable pavement on a wall or a permanent free standing post. It shall be placed so that the entire entry plaque is obvious and directly visible without any obstruction, along every line of sight from all paths of pedestrian access to the through #block# connection, in a position that clearly identifies the entry to the connection.

(2)For an enclosed through #block# connection or a portion thereof:

(i)a public space symbol as described in paragraph (h)(1)(i) of this Section, not less than six inches square, shall be mounted with its center five feet above the elevation of the nearest walkable pavement;

(ii)lettering stating "PUBLIC ACCESS TO STREET," indicating the opposite #street# to which the through #block# connection passes. This lettering shall not be less than three inches in height and located not more than three inches away from the public space symbol and

(iiilettering not more than two inches or less than one and a half inches in height stating "OPEN TO PUBLIC" with the hours and days of operation of the through #block# connection. This lettering shall be located not more than three inches from the public space symbol.

The above required information shall be permanently affixed on the glass panel of the entry doors of the through #block# connection clearly facing the direction of pedestrian flow; the information shall be located not higher than six feet or lower than three feet above the level of the pedestrian path at the entry, and shall be in a format and color which will ensure legibility.

*81-47***81-46**
Off-Street Relocation or Renovation of a Subway Stair

Where a #development# or #enlargement# is constructed on a #zoning lot# which fronts on a sidewalk containing a stairway entrance or entrances into a subway and such #zoning lot# contains 5,000 square feet or more of #lot area#, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. The new entrance or entrances shall be provided in accordance with the provisions of Sections 81-471 (Standards for location and design) and 81-473 (Administrative procedure for subway stair relocation or renovation).

Where a #development# or #enlargement# is constructed on a #zoning lot# containing an existing stairway entrance or entrances into a subway and such entrance or entrances are renovated or reconstructed in accordance with the provisions of Sections 81-471 and 81-473, such entrance or entrances may count as pedestrian circulation space as set forth in Section 81-472 (Relocated or renovated subway stair as pedestrian circulation space).

81-471
Standards for location and design

(a) Location

The relocated or renovated entrance shall be immediately adjacent to, and accessible without any obstruction from a public sidewalk or at least one of the following public spaces, which shall have a minimum horizontal dimension equal to the width of the relocated stairs:

sidewalk widening (Section 81-45)
corner circulation space (Section 81-45)
arcade (Section 81-45)
corner arcade(Section 81-45)
building entrance recess area(Section 81-45)
#urban plaza# (Section 81-23)
The relocated or renovated entrance may be provided within a #building# but shall not be enclosed by any doors. The area occupied by a relocated or renovated entrance within a #building# shall not be counted toward the #floor area# of the #development# or #enlargement#.

(b) Design standards

The following standards are taken from the current New York City Transit Authority's station planning guidelines.

The relocated or renovated entrance shall have a stair width of at least eight feet for each run.

No stairway shall have more than 14 risers without a landing, and each landing shall have a minimum width equal to the width of the stairs, and a minimum length of 5 feet.

Throughout the entire stairway entrance, including passageways, the minimum clear, unobstructed height shall be at least 7 feet 6 inches from finished floor to finished ceiling, including all lighting fixtures and #signs#.

The relocated or renovated stairway entrance shall meet Transit Authority standards and requirements for all of the following: riser and tread relationships, handrails, passageways, ramps, lighting, finish material, ventilation, information signage, and (where provided) weather protection.

In addition and for a relocated entrance only, the relocated entrance shall have a queuing space at the top and bottom of the stairs at least 8 feet wide and 15 feet long. Such queuing space may overlap with a sidewalk widening, or an arcade, or an #urban plaza#.

Where two or more existing stairway entrances are being relocated and/or renovated as part of the same #development#, the new entrance or entrances shall have total stair widths whose sum is equal to or greater than the sum of the stair widths of those existing stairway entrances. The entire entrance area, including passageways, shall be free of obstructions of any kind, except for projecting information signage.

The relocated or renovated entrance may be located within an #urban plaza#, provided that the minimum width of the stairs is 10 feet and the queuing area required for a relocated entrance is unobstructed and contiguous to a sidewalk or a sidewalk widening. A relocated or renovated entrance within an #urban plaza# is a permitted obstruction, but shall not be subject to the percentage limit on permitted obstructions for an #urban plaza#.

The relocated or renovated entrance shall connect to an existing or proposed subway passageway or shall connect, via an underground passageway, to a mezzanine area of the subway station.

The below-grade portion of a relocated or renovated entrance may be constructed within the #street#.

These standards may be modified or waived by the City Planning Commission upon a finding that their enforcement would not contribute to good site planning.

(c) Hours of public accessibility

The relocated or renovated entrance shall be accessible to the public during the hours when the connected mezzanine area is open to the public or as otherwise approved by the Transit Authority.

81-472
Relocated or renovated subway stair as a pedestrian circulation space

One and a half times the area, measured at #street# level, of either of the following types of subway stair entrances may count toward meeting the pedestrian circulation space requirements of Section 81-45 (Provision of Pedestrian Circulation Space):

(a)a new relocated subway entrance; or

(b)an existing subway stair entrance which is contained within the #zoning lot# and has been renovated or reconstructed so that it meets all of the requirements and standards set forth in Sections 81-471 (Standards for location and design) and 81-473 (Administrative procedure for subway stair relocation or renovation).

81-473
Administrative procedure for subway stair relocation or renovation

(a)Except as otherwise provided in paragraph (b) of this Section, no plan shall be approved by the Department of Buildings and no excavation permit or building permit shall be issued for any #development# or #enlargement# which is subject to the requirements for the relocation of a subway stair entrance or counts a renovated or reconstructed subway stair as pedestrian circulation space, unless:

(1)for a relocated entrance, such plan includes a stair relocation plan and related documents which bind the developer to:

(i)construct the new stair entrance in accordance with such plan;

(ii)demolish above ground elements of the existing entrance;

(iiiseal the existing entrance at the sidewalk level; and

(iv)maintain the work performed on the stair.

For a renovated or reconstructed entrance, such plan includes a renovation or reconstruction plan and related documents which bind the developer to:

(i)renovate or reconstruct the entrance in accordance with such plan; and

(ii)maintain the work performed on the entrance.

(2)Such plan and related documents bear the Transit Authority's approval.

(3)Such plan is accompanied by a certified copy of an agreement, as recorded, between the Transit Authority and the owner for an easement on the #zoning lot# for subway related use of the new stair entrance and for public access via such entrance to the subway station, which agreement has been recorded against the #zoning lot# in the Office of the Register of the City of New York (County of New York) and is accompanied by the Register's receipt of recordation.

(b)For a relocated entrance only, in the event that major construction problems render the stair relocation infeasible or that operating design considerations make it undesirable, the Transit Authority and the City Planning Commission by joint certification may release the developer from the requirement. In such event, the stair relocation requirement shall be satisfied by retention of the existing stair and provision on the #zoning lot# of a pedestrian circulation space qualifying under the provisions of Section 81-45 (Provisions of Pedestrian Circulation Space) and which accommodates pedestrian traffic passing the existing stair entrance. Such space shall have a width equal to at least one and one half times the width of the existing stair entrance and shall extend along the full length of the stair entrance.

(c)No certificate of occupancy shall be issued for any #development# or #enlargement# subject to the subway stair relocation requirement or counting a renovated or reconstructed subway stair as pedestrian circulation space unless and until all of the work required under paragraph (a)(1) of this Section has been completed and the Transit Authority has so certified in writing to the Department of Buildings.

Where a #development# or #enlargement# is constructed on a #zoning lot# that contains at least 5,000 square feet of #lot area# and fronts on a sidewalk containing a stairway entrance or entrances into a subway station, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. The new entrance or entrances shall be provided in accordance with the provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair). A relocated or renovated subway stair may be counted as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

The subway stations where such improvements are required are listed in the following table and shown on Map 3 (Subway Station Improvement Areas) in Appendix A.

81-50
INCENTIVES BY SPECIAL PERMIT FOR PROVISIONS OF PUBLIC AMENITIES

81-51
General Provisions and Procedures

Except in the Preservation Subdistrict and except for #zoning lots# wholly contained within the Theater Subdistrict Core, as defined in Section 81-71 (General Provisions), the City Planning Commission, by special permit after public notice and hearing and subject to Board of Estimate action, may grant special permits authorizing, for non-#residential# or #mixed buildings#, #floor area# bonuses in accordance with the provisions of Section 81-53 (Subway Station Improvements). However, in the Theater Subdistrict, no special permit shall be issued pursuant to the provisions of Section 81-53 without prior certification by the City Planning Commission that either:

(a)there is not available to the applicant any feasible alternative involving the preservation or rehabilitation of an existing theater for which bonus #floor area# may be authorized by special permit or certification; or

(b)the amenity for which the special permit is requested, because of its importance to the surrounding area, has priority over any feasible alternative involving the preservation or rehabilitation of an existing theater.

The total additional #floor area# permitted on the #zoning lot# by such special permit shall in no event exceed the amount permitted in the underlying district by the provisions of Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings).

Within the #Special Midtown District#, certain special permit provisions of Article VII, Chapters 3,4, 8 and 9 are inapplicable or subject to modification, as set forth in Section 81-60 (APPLICABILITY OF ARTICLE VII PROVISIONS).

Failure to comply with the conditions or restrictions of the bonused amenity shall constitute a violation of this Resolution and shall constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

81-53
Subway Station Improvements

The City Planning Commission by special permit after public notice and hearing and subject to Board of Estimate action, may grant #floor area# bonuses and waive or modify #street wall# continuity provisions for #developments# or #enlargements# which provide major improvements for adjacent subway stations in accordance with the provisions of this Section. The subway stations where such improvements may be constructed are listed in Section 81-531 (Midtown subway stations) and located as shown on Map 3 (Subway Station Improvement Areas) in Appendix A. The #zoning lot# for the #development# or #enlargement# on which such a #floor area# bonus is requested shall be adjacent to the subway station for which the improvement is proposed.

In order for the #zoning lot# of the #development# or #enlargement# to qualify as "adjacent," upon completion of the improvement it must physically adjoin a station mezzanine, platform, concourse or connecting passageway.

81-532
Selection of improvements

The selection of improvements shall be on a case-by-case basis and shall be subject to the approval of the Metropolitan Transportation Authority, the New York City Transit Authority, and the City Planning Commission.

81-533
Compliance with Transit Authority design standards

The subway station improvement shall comply with all applicable design standards of the current station planning guidelines of the Transit Authority.

81-534
Procedure

(a)Pre-application

The applicant shall submit schematic or concept plans for the proposed improvement to the MTA, Transit Authority and the Commission.

(b) Application - Pre-certification

After review and agreement on concept by the Metropolitan Transit Authority (MTA), the New York City Transit Authority and the New York City planning Commission, the applicant shall submit documentation deemed necessary by the reviewing agencies. Prior to certification by the Commission, the Transit Authority and the MTA shall each provide a letter to the Commission containing a conceptual approval of the improvement and a statement of any special considerations regarding the Transit Authority's future operation of the improvement.

(c)The special permit application to the Commission shall include information and justification sufficient to provide the Commission with a basis for evaluating the benefits to the City from the proposed improvement and determining the appropriate amount of bonus #floor area# and, where applicable, assessing the advantages and disadvantages of waiving or modifying the #street wall# continuity provisions of Section 81-43 (Street Wall Continuity along Designated Streets).

(d)Uniform Land Use Review Procedure - Certification

The Commission shall not certify an application under the Uniform Land Use Review Procedure (ULURP) until the requisite letters from the Transit Authority and the MTA have been received and are incorporated in the application. Such letters may be subject to subsequent execution of a final agreement with the developer.

(e)Prior to the granting of a special permit the Transit Authority shall have submitted a letter to the Commission:

(1)stating that the drawings and other documents submitted by the applicant have been determined by the Transit Authority to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems; materials; relationship to existing site conditions; and such other conditions as may be appropriate; and

(2)confirming that the construction of the subway improvement in accordance with such submission is feasible.

The applicant shall sign a legally enforceable instrument running with the land containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and maintain the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(f)Any instrument creating a transit easement on the #zoning lot# shall be recorded against the #zoning lot# in the Office of the Register of the City of New York for New York County and a certified copy of the instrument shall be submitted to the Commission and the Transit Authority. The applicant shall not apply for nor accept a temporary certificate of occupancy for the bonus #floor area#, and the Department of Buildings shall not issue such a temporary certificate of occupancy, until the Transit Authority has determined that the bonused subway improvement is substantially complete which shall, for this purpose, mean usable by the public.

(g)The applicant shall not apply for or accept a permanent certificate of occupancy for the #development# or #enlargement#, nor shall the Department of Buildings issue such permanent certificate of occupancy until the bonused subway improvement has been completed in accordance with the approved plans and such completion has been certified by the Transit Authority.

81-535
Floor area bonus

(a)The amount of the #floor area# bonus shall be at the discretion of the City Planning Commission and may range from no bonus #floor area# to the maximum amount allowable by special permit, as set forth in Section 81-211 (Maximum floor area ratios for non-residential or mixed buildings). In determining the precise amount of #floor area# bonus, the Commission shall make findings on the following:

(1)the degree to which the station's general accessibility and security will be improved by the provision of new connections, additions to or reconfigurations of circulation space, including provision of escalators or elevators; and

(2)significant improvements to the station's environment by provision for direct daylight access, or improvements to noise control, air quality, lighting or rider orientation and satisfactory integration of the #street# level entryway into the #development# or #enlargement#.

(b)No bonus #floor area# shall be granted for any #development# or #enlargement# located on a #zoning lot# wholly contained within the Theater Subdistrict Core, as defined in Section 81-71 (General Provisions).

(c)For a #development# or #enlargement# located on a #zoning lot# divided by a boundary of the Theater Subdistrict Core, as defined in Section 81-71, the amount of bonus #floor area# granted shall be subject to the provisions of paragraph (a) of this Section, but shall not exceed the amount of #floor area# derived from applying the maximum bonus #floor area# allowance as set forth in Section 81-211 (Maximum floor area ratios for non-residential or mixed buildings) over the sum of:

(1)the area of the #zoning lot# which is outside of the Theater Subdistrict Core; and

(2)an area of the #zoning lot# within the Theater Subdistrict Core, not exceeding the area in paragraph (c)(1) of this Section.

If the basic maximum #floor area ratio# as set forth in Section 81-211 (Maximum floor area ratios for non-residential or mixed buildings) is the same for both the portion of the #zoning lot# within the Core and the portion outside of the Core, such bonus #floor area# must be utilized on the #zoning lot# in accordance with the provisions of paragraph (b) of Section 81-746 (Additional provisions for zoning lots divided by district or subdistrict core boundaries).

81-536
Waiver or modification of street wall continuity provisions

As a condition for waiving or modifying the #street wall# continuity provisions of Section 81-43 (Street Wall Continuity along Designated Streets), the Commission shall find that the waiver or modifications will permit the proposed design to provide for access of daylight and air to the subway platform, mezzanine or concourse and that the advantages of such access outweigh the disadvantages incurred by the interruption of #street wall# continuity and retail continuity.

The Commission in granting such waiver or modification shall specify the depth of the setback permitted and the amount by which the required length of #street wall# subject to setback restrictions is reduced.

81-51
General Provisions and Procedures

The City Planning Commission may grant special permits authorizing, for non-#residential# or #mixed buildings#, #floor area# bonuses in accordance with the provisions of this Section.

81-511
Subway Station Improvements

Except in the Preservation Subdistrict and except for #zoning lots# wholly within the Theater Subdistrict Core, as defined in Section 81-71 (General Provisions), the City Planning Commission may grant special permits authorizing, for non-#residential# or #mixed buildings#, #floor area# bonuses in accordance with the provisions of Section 74-634 (Subway station improvements in commercial zones of 10 FAR and above in Manhattan). The subway stations where such improvements are permitted are listed in the following table and shown on Map 3 (Subway Station Improvement Areas) in Appendix A.

81-70
SPECIAL REGULATIONS FOR THEATER SUBDISTRICT

81-71
General Provisions

The regulations of Sections 81-72 to 81-75, inclusive, relating to Special Regulations for the Theater Subdistrict are applicable only in the Theater Subdistrict, *and in* **of which** the Theater Subdistrict Core **and the Eighth Avenue Corridor are parts.** *The Theater Subdistrict extends from 40th Street to 57th Street and from Avenue of the Americas to Eighth Avenue.* **The Theater Subdistrict Core extends from 43rd Street to 50th Street and from a line 200 feet west of Avenue of the Americas to a line 100 feet east of Eighth Avenue.**

The Theater Subdistrict is bounded by West 57th Street, Avenue of the Americas, West 40th Street, Eighth Avenue, West 42nd Street, a line 150 feet west of Eighth Avenue, West 56th Street, and Eighth Avenue.

The Theater Subdistrict Core is bounded by West 50th Street, a line 200 feet west of Avenue of the Americas, West 43rd Street and a line 100 east of Eighth Avenue.

The Eighth Avenue Corridor is bounded by West 56th Street, a line 100 feet east of Eighth Avenue, West 43rd Street, Eighth Avenue, West 42nd Street, and a line 150 feet west of Eighth Avenue.

The west side of Eighth Avenue between 42nd and 56th Street is also subject to the provisions of the Special Clinton District to the extent set forth in Article IX, Chapter 6 subject to Section 81-023 (Applicability of Special Clinton District Regulations).

Their **These** boundaries are shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A.The regulations of Sections 81-72 to 81-75, inclusive, supplement or modify the regulations of this Chapter applying generally to the #Special Midtown District# of which the Subdistrict, *and the Core are* **is a** parts.

In order to preserve and protect the character of the Theater Subdistrict as a cultural, theatrical and entertainment showcase as well as to help insure a secure basis for the useful cluster of shops, restaurants and related amusement activities, special incentives and controls are provided for the preservation and rehabilitation of existing theaters**, and the creation of new legitimate theaters,** and special restrictions are placed on ground floor #uses# within the Subdistrict.In order to preserve and protect the special scale and character of the Theater Subdistrict Core, which includes Times Square, special #building street wall# height and setback controls and requirements for the inclusion of #illuminated signs# and entertainment and entertainment-related #uses# apply within the Subdistrict Core. **In order to ensure the orderly growth and development of the Eighth Avenue Corridor and its transition to the scale and character of adjoining midblocks, special building street wall, height and setback controls apply within the Corridor. In order to preserve and maintain the character of the western edge of the Theater Subdistrict as both an integral part of the Theater Subdistrict and as a transition to the Clinton neighborhood, the west side of**

Eighth Avenue between 42nd and 56th streets is also subject to the provisions of the Special Clinton District.

The Mayor of the City of New York shall appoint a Theater Advisory Council (the Council) and name a chairperson. Other members of the Council shall include representatives of the performing arts, the theatrical industry and related professions.The Council shall advise the City Planning Commission concerning applications for special permits or certifications pursuant to Section 81-74.

The City of New York acting through the Mayor shall designate a Theater Subdistrict Council ("Council") comprised of representatives of the performing arts, the theatrical industry and related professions, and which may include government representatives and representatives of Business Improvement Districts and economic development projects active within the Theater Subdistrict.The Council shall be a not-for-profit organization whose organizational purpose shall be limited solely to promoting theater and theater-related use and preservation within the Theater Subdistrict and promoting the welfare of the Theater Subdistrict generally.The Council shall advise the Chairperson or the City Planning Commission concerning applications for any special permit or certification pursuant to the special regulations for the Theater Subdistrict and shall be the holder and administrator of the funds received in connection with transfers of development rights from listed theaters pursuant to Section 81-744 (Transfer of development rights from listed theaters) in accordance with the provisions for the Theater Subdistrict Fund set forth in paragraph (h) of Section 81-741 (General Provisions).

Applications shall be referred by the Commission to the Council for an advisory report prior to certification for ULURP (Uniform Land Use Review Procedure) review.Such advisory report shall assist the **Commission in evaluating each special permit application and in making each of the required findings therein concerning demolition pursuant to Section 81-742 or the #floor area# bonus pursuant to Sections 81-744 or 81-745.In all special permits or certifications involving the preservation or rehabilitation of existing theaters, the Council shall advise the Commission on the adequacy of the assurances required by Section 81-743 for continuance of legitimate theater #use#.**

81-72
Use Regulations Modified

Within that portion of the Theater Subdistrict bounded by West 40th Street, **a line 100 feet east of** Eighth Avenue, West 51st Street and **a line 200 feet west of** Avenue of the Americas, #uses# which are created by #development#, or which are #enlarged# or #extended#, shall be subject to the provisions of this Section.

* * *

81-723
Special ground floor street frontage restrictions

No single establishment shall have a #wide street front lot line# ground level frontage of less than 10 feet. *or, except in the case of theaters, greater than 40 feet.*

* * *

81-724
Requirements for entertainment-related uses

With the exception of a #development# or #enlargement# in which more than 50 percent of the new #floor area# is allocated to #transient hotel use#, a #development# or #enlargement# on a #zoning lot# with more than 50 percent of its #zoning lot# area located within the Theater Subdistrict Core shall meet the following requirements:
(a)If the new #floor area# of the #development# or #enlargement# **generated by that portion of the #zoning lot# located within the Theater Subdistrict Core** exceeds 60,000 square feet, an amount of floor space on the #zoning lot# equal to five percent of the amount by which the new #floor area# **generated by that portion of the #zoning lot# located within the Theater Subdistrict Core** exceeds 50,000 square feet shall be allocated to #uses# listed in Section 81-725 (Entertainment-related uses) or #front lot line# ground level #uses# designated thus (***) in Section 81-722 (Use Group T) as satisfying the requirements of this Section.

Except as provided below, the amount of floor space specified shall be located on the same #zoning lot# as the #development# or #enlargement# for which that floor space is provided to meet the requirements of this Section.

(b) Alternatively, *by authorization of the City Planning Commission,* a maximum of 75 percent of the amount of floor space specified *above* **in paragraph (a) of this Section** may be located on a separate #zoning lot#, with the remainder located on the same #zoning lot# as the #development# or #enlargement#, **by authorization of the City Planning Commission** provided, upon examination of proposed plans, the Commission finds that:

(1)either **of the following conditions exist**:

(i)more than 50 percent of the area of the separate #zoning lot# is located within the Theater Subdistrict Core; or

(ii)the *portion of* floor space located on the separate #zoning lot# is allocated in its entirety to studios; music, dancing or theatrical, as listed in Section 81-725 (Entertainment-related uses) and the separate #zoning lot# is located within the Theater Subdistrict;

(2)the *portion of* floor space located on the separate #zoning lot# is *provided separately from and* in addition to any floor space provided to meet the requirements of this Section for any other #development# or #enlargement#;

(3)the *portion of* floor space located on the separate #zoning lot# is constructed or renovated specifically for the purpose of meeting the requirements of this Section and has not been utilized for any of the #uses# listed in Section 81-725 (Entertainment-related uses) at any time during the *period of* two years **period** immediately prior to the date on which authorization described in this *paragraph (a)* **Section** is granted; and

(4)the #use# located on the separate #zoning lot# *maintains* **achieves** a reasonable distribution of entertainment-related #uses# and locations of such #uses#.

* * *

81-74
Special Incentives and Controls in the Theater Subdistrict

81-741
General provisions

(a)Special permits by the City Planning Commission

In the Theater Subdistrict, the City Planning Commission, after public notice and hearing and subject to Board of Estimate action, may grant special permits:

(1)authorizing #floor area# bonuses for rehabilitation of existing theaters in accordance with the provisions of Section 81-745;
(2)authorizing transfer of development rights from #zoning lots# occupied by theaters which are designated landmarks in accordance with the provisions of Section 81-747; and

(3)authorizing demolition of theaters where permissible under the provisions of Section 81-742.

(b)Certification by the Chairperson of the City Planning Commission

By certification of the Chairperson of the City Planning Commission:

(1)bonus #floor area# may be authorized for the retention of any eligible existing listed theater in accordance with the provisions of Section 81-744 (Floor area bonus for retention of certain existing listed theaters);

(2)the Special Provisions for Zoning Lots Divided by District Boundaries (Article VII, Chapter 7) may be modified in the case of a #zoning lot# partly occupied by a listed theater in accordance with the provisions of Section 81-746 (Modification of special provisions for zoning lots divided by district boundaries); or

(3)bonus #floor area# may be authorized for a through #block# galleria in accordance with the provisions of Section 81-748 (Floor area bonus for through block gallerias).

(a)Certification by the Chairperson of the City Planning Commission

In the Theater Subdistrict, the following actions are permitted upon certification by the Chairperson of the City Planning Commission:

(1)transfer of development rights from any eligible theater in accordance with the provisions of Section 81-744 (Transfer of development rights from listed theaters);

(2)modification of the provisions of Article VII, Chapter 7 (Special Provisions for Zoning Lots Divided by District Boundaries) in accordance with the provisions of Section 81-746 (Additional provisions for zoning lots divided by district or subdistrict core boundaries).

(b)Special Permit by the City Planning Commission

In the Theater Subdistrict, the City Planning Commission may allow, by special permit:

(1)demolition of a theater where permissible under the provisions of Section 81-742 (Listed theaters);

(2)transfer of development rights from any eligible theater in accordance with the provisions of Section 81-744 (Transfer of development rights from listed theaters);

(3)a #floor area# bonus for rehabilitation of an existing theater in accordance with the provisions of Section 81-745 (Floor area bonus for rehabilitation of existing theaters);

(4)transfer of development rights from a #zoning lots# *occupied by a theater which is a designated landmark in accordance with the provisions of Section 81-747 (Transfer of development rights from landmark theaters), and*

(5)additional #floor area# and modifications to the special #street wall# and setback regulations set forth in Section 81-751 (Special street wall and setback regulations within the Theater Subdistrict Core) in connection with legitimate theater use within a #development# or #enlargement#, in accordance with the provisions of Section 81-748 (Floor area for new legitimate theaters).

(c)Additional floor area bonuses

All #developments# located on the west side of Eighth Avenue between 42nd and 56th Streets within the Theater Subdistrict may receive an increase in #floor area# pursuant to Section 96-21 (Floor Area Increase) for those #developments# complying with the provisions of Section 23-90 (INCLUSIONARY HOUSING).

*(c)***(d)**Required assurances

All *such authorizations by* special permits or certifications *and* involving preservation of existing theaters shall be subject to the provisions of Section 81-743 (Required assurances for continuance of legitimate theater use).

(d)(e) Limits on total additional #floor area#

Except as otherwise provided in Section 81-212 (Special provisions for transfer of development rights from landmark sites), the total additional #floor area# permitted on the #zoning lot# by such special permit or certification, together with all bonus #floor area# or #floor area# derived from transferred development rights under other provisions of this Chapter, shall in no event exceed the maximum amount permitted by **certification or** special permit as set forth in Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings).

*(e)(f)*Limitations on non-theater related bonuses in C6-4, C6-5 or M1-6 Districts

For #zoning lots# or portions thereof in C6-4, C6-5 or M1-6 Districts, the total amount of #floor area# derived from non-theater related bonuses or other special #floor area# allowances pursuant to provisions of this Chapter other than those in Sections 81-744, 81-745, 81-746 or 81-747 *relating to the preservation of existing theaters* shall not exceed a #floor area ratio# of 2.0.

*(f)(g)*Theater-related bonus #floor area# for #residences# in C6-4 and C6-5 Districts

For #zoning lots# or portions thereof in C6-4 or C6-5 Districts, some or all of the bonus #floor area# or other special #floor area# allowances permitted pursuant to the provisions of Sections 81-744, 81-745, 81-746 or 81-747, relating to the preservation or rehabilitation of existing theaters, may be allocated to a #residential building# or the #residential# portion of a #mixed building#, provided that the total #residential floor area ratio# with such #floor area# allowances shall not exceed 12.0.

(h)Theater Subdistrict Fund

In furtherance of the purposes of this Section, the Theater Subdistrict Council shall establish a separate interest-bearing account (the "Theater Subdistrict Fund" or "Fund") for the deposit and administration of the revenues received by the Theater Subdistrict Council generated by the transfer of development rights pursuant to Section 81-744 (Transfer of development rights from listed theaters). Upon receipt of any revenue generated pursuant to such Section, the Theater Subdistrict Council shall notify the Comptroller and the Department of City Planning, and promptly deposit such revenues into the Theater Subdistrict Fund and shall expend such revenues and any interest accumulated thereon in the following manner:

(i) a portion of any such revenues shall be reserved, sufficient in the judgment of the Theater Subdistrict Council but in no event less than 20 percent of such revenues, to undertake the ongoing periodic inspection and maintenance report requirements pursuant of paragraph (c) of Section 81-743.

(ii)the remainder of such revenue shall be used for activities chosen by the Theater Subdistrict Council furthering the objectives and purposes of this Section, which activities may include judicial or administrative proceedings instituted by the Theater Subdistrict Council against any property owner or lessee to enforce the obligations of such owner or lessee pursuant to any restrictive declaration entered into in connection with a transfer of development rights pursuant to Section 81-744 (Transfer of development rights from listed theaters). Notwithstanding the foregoing, funds shall not be used for the physical repair and preservation of theaters.

The Theater Subdistrict Council shall provide an annual report to the Department of City Planning indicating the amounts and dates of any deposits to the Theater Subdistrict Fund in the immediately preceding calendar year, the balance of the Theater Subdistrict Fund at the close of the calendar year, the amounts expended on activities within the Theater Subdistrict and the nature of those activities. The Theater Subdistrict Council shall maintain complete, accurate and detailed records, with supporting documentation, in respect to all deposits to and withdrawals from the Theater Subdistrict Fund, and shall make such records available to the City of New York and the Department of City Planning upon reasonable notice and during business hours for inspection and copying.

(g)Certification for subway station improvements

Within the Theater Subdistrict, any application for a special permit pursuant to the provisions of Section 81-53 (Subway Station Improvements) shall be subject to prior certification by the City Planning Commission in accordance with Section 81-51 (General Provisions).

81-742
Restrictions on demolition of theaters
Listed theaters

No demolition permit shall be issued by the Department of Buildings for any theater listed in this Section as a "listed theater," unless:

(a)it is an unsafe #building# and demolition is required pursuant to the provisions of Chapter 26, Title C, Part I, Article 8 of the New York City Administrative Code;

(b)it has been designated a landmark by the Landmarks Preservation Commission and a notice to proceed has been issued to the owner pursuant to Section 207-8.0 of Chapter 8A of the New York City Administrative Code permitting demolition that contemplates removal of the theater from theater #use#; or

(c)the City Planning Commission, by special permit after public notice and hearing and subject to Board of Estimate action permits its demolition upon making the following findings:

(1)that demolition of the theater structure will not unduly diminish the character of the Theater Subdistrict as a cultural, entertainment and theatrical showcase, taking into consideration any or all of the following list of factors:

(i)current physical characteristics of the theater that affect its suitability as a legitimate theater, including but not limited to seating capacity, configuration and location;

(ii)history of its #use# as a legitimate theater, presenting legitimate attractions to the general public;

(iii)likelihood of its future #use# for legitimate theater production under reasonable terms and conditions prevailing in the theater industry;

(iv)applicant's plans, if any, for replacement of the theater structure with a #development# containing replacement #uses# supportive of the character of the Theater Subdistrict; and

(2)that there exists a legal commitment binding upon all parties in interest of the #zoning lot# containing the theater that any #development# or #enlargement# on a #zoning lot# containing a portion or all of the former site of the listed theater shall reserve floor space at least equivalent in amount to the total #floor area# of the theater devoted exclusively to #uses# described in Section 81-725 (Entertainment-related uses) and meeting the requirements of Section 81-724 (Requirements for entertainment-related uses) for the life of such #development# or #enlargement#. If the area of the #zoning lot# containing the theater is less than 20,000 square feet and the Commission finds that the allocation of floor space at least equivalent in amount to the total #floor area# of the theater to #uses# described in Section 81-725 (Entertainment-related uses) is impractical or unreasonable, the Commission may authorize a reduction in the amount of area allocated to such #uses#.

Any #development# or #enlargement# on a #zoning lot# containing a portion or all of the former site of a listed theater must, however, meet the requirements of Section 81-724 (Requirements for entertainment-related uses), whether or not the #zoning lot# is located within the area described in that Section.

The theaters to which the provisions of this Section apply are predominantly free standing theaters with full stage and wings and are identified as listed theaters in Table A of this Section.

Indicates theater which may be retained for a #floor area# bonus under the provisions of Section 81-744 (Floor area bonus for retention of certain existing listed theaters), provided that it is not already subject to an agreement under Section 81-743 (Required assurances for continuance of legitimate theater use).

In the case of an existing legitimate theater for whose construction bonus #floor area# was granted pursuant to regulations in effect prior to the May 13, 1982, no provisions of this amendment shall be construed as changing any previously existing responsibility of the owner or lessee of such theater for continuance of its #use# as a legitimate theater.

(a)Designation of listed theaters

Listed theaters are theaters to which special provisions of this and other Sections as set forth in 81-741 (General Provisions) apply, and are predominantly free-standing theaters with full stage and wings. The theaters identified in the following table are designated as "listed theaters."

2

***Indicates theaters which do not qualify as a "granting site" pursuant to Section 81-744 (Transfer of development rights from listed theaters).**

In the case of an existing legitimate theater that received a #floor area# bonus pursuant to regulations in effect prior to May 13, 1982, no provisions of this amendment shall be construed as changing any previously existing responsibility of the owner or lessee of such theater for continuance of its #use# as a legitimate theater.

(b)Restrictions on demolition of listed theaters

No demolition permit shall be issued by the Department of Buildings for any theater listed in this Section as a "listed theater," unless:

(1)it is an unsafe #building# and demolition is required pursuant to the provisions of Section 26-127 of Title 26, Chapter 1 of the New York City Administrative Code;

(2)it has been designated a landmark by the Landmarks Preservation Commission and a notice to proceed has been issued to the owner pursuant to Section 25-309 of Title 25, Chapter 3 of the New York City Administrative Code permitting demolition that contemplates removal of the theater from theater #use#; or

(3)the City Planning Commission, by special permit, allows its demolition in accordance with the provisions of paragraph (c) of this Section.

(c)Special permit for demolition of listed theaters

The City Planning Commission may allow, by special permit, the demolition of a theater designated as a listed theater pursuant to this Section provided the Commission finds that the demolition of the theater structure will not unduly diminish the character of the Theater Subdistrict as a cultural, entertainment and theatrical showcase. In making this determination, the Commission may consider any or all of the following:

(1)the current physical characteristics of the theater that affect its suitability as a legitimate theater, including but not limited to seating capacity, configuration and location;

(2)the history of the theater's #use# as a legitimate theater, presenting legitimate attractions to the general public;

(3)the likelihood of its future #use# for legitimate theater production under reasonable terms and conditions prevailing in the theater industry; and/or

(4)that the applicant's plans, if any, for replacement of the theater structure with a #development# contain replacement #uses# supportive of the character of the Theater Subdistrict.

As a condition of the special permit, there shall exist a legal commitment binding upon all parties in interest of the #zoning lot# containing the theater that any #development# or #enlargement# on a #zoning lot# containing a portion or all of the former site of the listed theater, that floor space at least equivalent in amount to the total #floor area# of the theater shall be reserved or devoted exclusively to #uses# described in Section 81-725 (Entertainment-related uses) and meeting the requirements of paragraphs (b) and (c) of Section 81-724 (Requirements for entertainment-related uses) for the life of such #development# or #enlargement#. Notwithstanding the foregoing, if the area of the #zoning lot# containing the theater is less than 20,000 square feet and the Commission finds that the allocation of floor space at least equivalent in amount to the total #floor area# of the theater to #uses# described in Section 81-725 (Entertainment-related uses) is impractical or unreasonable, the Commission may permit a reduction in the amount of area allocated to such #uses#.

Any #development# or #enlargement# on a #zoning lot# containing a portion or all of the former site of a listed theater must, however, meet the requirements of paragraphs (b) and (c) of Section 81-724 (Requirements for entertainment-related uses), whether or not the #zoning lot# is located within the area described in that Section.

81-743
Required assurances for continuance of legitimate theater use

(a)*As a condition for* **Prior to** the issuance of any special permit under the provisions of Section 81-745 (Floor area bonus for rehabilitation of existing listed theaters) or Section 81-747 (Transfer of development rights from landmark theaters), or the issuance of a certification under the provisions of Section 81-744 *(Floor area bonus for retention of certain existing listed theaters)* **(Transfer of development rights from listed theaters)** or Section 81-746 *(Modification of special provisions for zoning lots divided by district boundaries* **Additional provisions for zoning lots divided by district or subdistrict core boundaries)**, *there* **the following conditions** shall exist:

*(a)(1)*a signed lease from a prospective theater operator, or a written commitment from the owner of the theater if such owner is also the operator, *with credentials acceptable to the City Planning Commission,* for occupancy of the theater and its operation as a legitimate theater for a period of not less than five years;

(2)a licensed engineer's and/or architect's report certifying either that the theater is physically and operationally sound so as to permit its use as a legitimate theater or, if it is determined that the theater is not physically or operationally sound, a plan and program for the upgrade of the theater to put it in condition of physical and operational soundness. For the purposes of this subsection, physical and operational soundness shall include the structural integrity of the exterior and interior elements of the building to the extent that they relate to the theater; compliance with applicable electrical and fire safety codes, and compliance with applicable building code standards.The plan and program shall further provide that adequate resourcesbe available to ensure timely completion of the scope of work identified in the plan and program as necessary to ensure the physical and operational integrity of the theater.

In the event that the theater has been designated as a landmark or an interior landmark by the Landmarks Preservation Commission, physical and operational soundness shall include preserving the integrity of existing significant architectural features identified in the Landmarks Preservation Commission designation report. In such case, a licensed engineer and/or architect with knowledge of historic preservation and credentials acceptable to the Landmarks Preservation Commission shall prepare a report documenting the condition of such significant architectural features and, if determined to be necessary, a plan and program to preserve such significant features in a state of good physical repair and sound proper condition. Such plan and program shall provide that adequate resources be available to ensure timely completion of the scope of work identified in the plan and program. Any certification report regarding a landmark or interior landmark theater shall be submitted concurrently to the Landmarks Preservation Commission and the Chairperson of the City Planning Commission;

(c)a plan and program approved by the Commission for periodic inspection and continuing maintenance of the theater to ensure its continuing availability for theater #use#. Inspections shall be conducted by a certified engineer and/or architect, and a report of each such inspection given to Commission at least once every three years. The plan and program shall further provide that adequate financial resources will be available to ensure the timely completion of all maintenance and repairs which the periodic inspection report determines are necessary to protect the integrity and functioning of the theater; and

(3)a legal commitment providing for inspection and ongoing maintenance of the theater to ensure its continued availability for theater use. Such inspection shall be conducted every ten years by a licensed engineer and/or architect or by the Theater Subdistrict Council, and a report issued to the Chairperson of the City Planning Commission. Such report shall also be issued to the Theater Subdistrict Council unless the Theater Subdistrict Council has performed such inspection, and, in the event the theater has been designated a landmark or an interior landmark, such report shall also be issued to the Landmark Preservation Commission. Such reports shall describe the condition of the theater and identify any maintenance or repair work necessary to ensure the physical and operational soundness of the theater and to maintain the condition of any landmark architectural features and establish a plan and program for such work, including providing that adequate resources be made available to ensure timely completion of such maintenance or repair work;

(b)(4)a legal commitment *binding upon the owner and lessee of the theater* for continuance of its #use# as a legitimate theater for the life of the related #development#, **that may be modified only in accordance with paragraphs (b) or (c) of this Section.**

Such legal commitments shall be in the form of a declaration of restrictions, filed and duly recorded in the Borough Office of the Register of the City of New York, binding upon the owner, lessee of the theater and their successors and assigns, a certified copy of which shall be submitted to the City Planning Commission. The filing of such declaration and the posting of any bond or other security required by the declaration and receipt of such certified copy shall be preconditions to issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site.

(b)The City Planning Commission may authorize a temporary change of #use# of such theater, for a period no longer than a year, to other uses that contain a theatrical component and are consistent with the objectives and purpose of the Theater Subdistrict subject to the following findings:

(1)the theater has not been used for legitimate theater purposes for more than 60 percent of the days over a minimum period of five years;

(2)the change of #use# shall not include structural changes or other physical changes that would preclude or negatively impact the continued availability of the theater for legitimate theater, after such temporary #use#; and

(3)the theater has complied with all written agreements and commitments set forth in this Section.

Upon application, the authorization may be renewed or extended for two additional one-year terms, for a maximum total of three years by the Chairperson of the City Planning Commission based on the determination that the facts have not substantially changed.

(c)The City Planning Commission, after a period of no less than 25 years from the latter of either the date of approval of a certification or special permit resulting in the legal commitment for continuing #use# of a theater as legitimate theater pursuant to this Section, or (the effective date of this amendment), by special permit may reduce or discontinue such theater's #use# as a legitimate theater subject to a finding that the proposed reduction or discontinuance would result in a change of #use# that will provide a public benefit consistent with the objectives and purpose of the Theater Subdistrict as set forth in Section 81-71 (General Provisions).

81-744
Floor area bonus for retention of certain existing listed theaters

The Chairperson of the City Planning Commission by certification may authorize bonus #floor area# for any #development# or #enlargement# where an agreement exists to retain and maintain for legitimate theater #use# one or more eligible listed theaters as set forth in Section 81-742 (Restrictions on demolition of theaters). The #development# or #enlargement# and each listed theater to be retained may be located on the same or a separate #zoning lot#.

(a)Amount of retention bonus

(1)If the #zoning lot# on which the #development# or #enlargement# is located is within the Theater Subdistrict but wholly outside of the Theater Subdistrict Core, all as defined in Section 81-71 (General Provisions), the amount of bonus #floor area# granted shall not exceed the amount of #floor area# derived from applying a #floor area ratio# of 1.0 over the total area of the #zoning lot#.

If the #zoning lot# on which the #development# or #enlargement# is located is divided by a boundary of the Theater Subdistrict Core, as defined in Section 81-71 (General Provisions), the amount of bonus #floor area# granted shall not exceed the amount of #floor area# derived from applying a #floor area ratio# of 1.0 over the sum of:

(i)the area of the #zoning lot# which is outside of the Theater Subdistrict Core; and

(ii)an area of the #zoning lot# within the Theater Subdistrict Core, not exceeding the area in paragraph (i).

(2)Such bonus #floor area# may be obtained at a rate of up to 50,000 square feet for each theater which is retained as a condition of the granting of the bonus.

(3)If the #zoning lot# on which the #development# or #enlargement# is located exceeds 50,000 square feet in area, agreements may be entered into to retain and maintain more than one theater for legitimate theater #use# so as to obtain bonus #floor area# not exceeding the amount specified in paragraph (1) of this Section.
(b)Location of development or enlargement

The #development# or #enlargement# for which a theater retention bonus is granted shall be located within the Theater Subdistrict, whose boundaries are shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A, but shall not be located on a #zoning lot# which is contained entirely within the Theater Subdistrict Core. If the #zoning lot# on which the #development# or #enlargement# is located is divided by a boundary of the Theater Subdistrict Core and if the basic maximum #floor area ratio# as set forth in Section 81-211 (Maximum floor area ratios for non-residential or mixed buildings) is the same for both the portion of the #zoning lot# within the Core and the portion outside of the Core, bonus #floor area# must be utilized on the #zoning lot# in accordance with the provisions of paragraph (b) of Section 81-746 (Additional provisions for zoning lots divided by district or Subdistrict Core boundaries). Each listed theater which is retained as a condition of the granting of the bonus may be located on a #zoning lot# which is the same as or separate from the #zoning lot# containing the #development# or #enlargement#.

(c) Conditions for retention bonus

As a condition for the granting of bonus #floor area# under the provisions of this Section, the following requirements shall be satisfied:

(1)A written declaration to be recorded against both the #zoning lot# of each listed theater and the #zoning lot# of the #development# or #enlargement# shall exist meeting all of the requirements of Section 81-743 (Required assurances for continuance of legitimate theater use) that the listed theater will be retained and maintained for legitimate theater #use#. The certificates of occupancy for each listed theater and the #development# or #enlargement# for which bonus #floor area# is granted shall record and incorporate a copy of such agreement, and occupancy of the bonus #floor area# shall be conditioned upon continued compliance therewith.

(2)Bonus #floor area# under the provisions of this Section may only be granted for the retention of listed theaters indicated thus (*) in Table A of Section 81-742 (Restrictions on demolition of theaters); no bonus #floor area# shall be granted for retention of any listed theater already subject to an agreement pursuant to the conditions of Section 81-743 (Required assurances for continuance of legitimate theater use).

81-744
Transfer of development rights from listed theaters

For the purposes of the Theater Subdistrict:

A "listed" theater shall mean a theater designated as listed pursuant to Section 81-742 (Listed Theaters).

A "granting site" shall mean either a #zoning lot# or that portion of a #zoning lot# occupied by a "listed" theater and comprised of those block and lot numbers specified for such theater pursuant to Table A of Section 81-742 (Listed Theaters), as such block and lots existed on (the effective date of this amendment). However, a "granting site" shall not include any #zoning lot# occupied by a "listed" theater located within the geographical area covered by the 42nd Street Development Land Use Improvement Project, adopted by the New York State Urban Development Project in 1984, as such Project has and may be subsequently amended.

A "receiving site" shall mean a #zoning lot# or the portion of a #zoning lot# located within the Theater Subdistrict to which development rights of the #granting site" are transferred. However, no portion of a "receiving site" shall be located within the 42nd Street Development Project Area. In addition, for #zoning lots# containing "listed" theaters, that portion of the #zoning lot# occupied by the "listed" theater and comprised of the block and lot numbers specified for such theater pursuant to Table A of Section 81-742 (Listed Theaters) shall not be included in the "receiving site".
Any "receiving site" divided by a district boundary or Theater Subdistrict Core boundary may locate bulk in accordance with the provisions of Section 81-746 (Additional provisions for zoning lots divided by district or subdistrict core boundaries).

(a)Transfer of development rights by certification

Within the Theater Subdistrict, the Chairperson of the City Planning Commission shall allow, by certification, a transfer of development rights from a "granting site" to a "receiving site" provided that:

(1)the maximum amount of #floor area# transferred from a "granting site" is the basic maximum #floor area ratio# established pursuant to Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings) for such #granting site# as if it were undeveloped, less the total #floor area# of all existing #buildings# or portions of #buildings# on the #granting site# and #floor area# attributed to the "granting site" that has been previously used or transferred;

(2)each transfer, once completed, irrevocably reduces the amount of #floor area# that may be #developed# on the #zoning lot# containing the "granting site" by the amount of #floor area# transferred;

(3)the maximum amount of #floor area# transferred to a "receiving site" shall not exceed the basic maximum #floor area ratio# established pursuant to Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings) for such #receiving site# by more than 20 percent or, for a "receiving site" or any portion of a "receiving site" located within the Eighth Avenue Corridor, by more than 44 percent.

MDIB(4)**the provisions of Section 81-743 (Required assurances for continuance of legitimate theater use) are met; and**

(5)appropriate legal documents are executed ensuring that a contribution in an amount equal to ten dollars per square foot of transferred #floor area# be deposited in the Theater Subdistrict Fund established pursuant to paragraph (h) of Section 81-741 (General Provisions) at the earlier of either the time of closing on the transfer of development rights pursuant to this Section or the filing for any building permit for any #development# or #enlargement# that anticipates using such development rights.

The Chairperson of the City Planning Commission may adjust such amount no more than once every three years. Adjustments shall be based on the change in assessed value of all properties on #zoning lots# wholly within the Theater Subdistrict.

The Chairperson shall not grant such certification prior to thirty days after the date any reports required to be submitted to the Landmarks Preservation Commission pursuant to Section 81-743(b), or the Council pursuant to Section 81-71 (General Provisions) have been so submitted.

(b)Transfer of development rights by special permit

The City Planning Commission may allow by special permit an additional transfer of development rights beyond the amount of #floor area# transfer permitted by certification in accordance with paragraph (a) of this Section from a "granting site" to any portion of a "receiving site" located within C6-7T, C5-3, C6-6 and C6-7 districts subject to the following conditions:

(i)no feasible transfer of development rights is possible from landmark theaters pursuant to Section 81-747 (Transfer of development rights from landmark theaters) or other landmarks pursuant to Section 74-79 (Transfer of development rights from landmark sites) to the "receiving site";

(ii)the maximum amount of such additional #floor area# transferred to that portion of a "receiving site" located within such districts shall not exceed the basic maximum #floor area ratio# established pursuant to Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings) for such portion of a "receiving site" by more than 20 percent; and

(iii)notwithstanding the maximum amount of #floor area# allowed to be transferred pursuant to paragraph (ii) above, such transfer complies with the conditions and limitations set forth for the transfer of development rights by certification in paragraph (a) of this Section.

In order to grant a special permit the City Planning Commission shall find:

(1)that such additional #floor area# will not unduly increase the bulk of any new #development# or #enlargement# on the "receiving site", density of population, or intensity of #use# on any #block# to the detriment of occupants of #buildings# on the #block# or the surrounding area; and

(2)that the distribution and location of such bulk will not adversely affect the surrounding area by restricting light and air or otherwise impair the essential character or future #development# of the surrounding area.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding areas.

(c)Requirements for Application

An application filed with the Chairperson of the City Planning Commission for the transfer of development rights by certification pursuant to paragraph (a) of this Section or with the City Planning Commission for the transfer of development rights by special permit pursuant to paragraph (b) of this Section shall be made jointly by the owners of the "granting site" and "receiving site" and shall include:

(1)a site plan and #floor area# zoning calculations for the #granting site# and the #receiving site#, and, for special permit applications, any such other information as may be required by the City Planning Commission; and

(2)a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer, together with a notice of the restrictions limiting further #development# of the "granting site" and the "receiving site". The notice of restrictions shall be filed by the owners of the respective lots in the Borough Office of the Register of the City of New York, indexed against the "granting site" and the "receiving site", a certified copy of which shall be submitted to the Chairperson of the City Planning Commission. Receipt of the certified copy shall be a pre-condition to issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the "receiving site".

Both the instrument of transfer and the notice of restrictions shall specify the total amount of #floor area# transferred and shall specify by lot and block numbers the lots from which and the lots to which such transfer is made.

(3)demonstrations of compliance with the requirements of Section 81-743 and paragraph (a)(5) of Section 81-744, including all necessary legal documents. Issuance of any building permit, including any foundation or alteration permit, shall be conditioned upon the filing of such legal documents in the Borough Office of the Register of the City of New York and receipt by the City Planning Commission of certified copies of same as required pursuant to Section 81-743.

A separate application shall be filed for each transfer of development rights to an independent "receiving site".

81-745
Floor area bonus for rehabilitation of existing listed theaters

The Commission by special permit may authorize bonus #floor area# for substantial rehabilitation or restoration of any theater listed as a listed theater in Section 81-742 (Restrictions on demolition of theaters), in accordance with the provisions of this Section.

(a) Conditions for rehabilitation bonus

As a condition for the issuance of a special permit under the provisions of this Section, the following requirements shall be satisfied:

(1) Location of development

The #development# for which a theater rehabilitation bonus is granted shall be located on the same #zoning lot# as the listed theater.

(2)Qualification of substantial rehabilitation

Substantial rehabilitation work qualifying for a #floor area# bonus shall consist of major interior structural changes for the purpose of improving a theater's design and its commercial viability for legitimate theater #use#, or historic restoration of the interior of a theater which has been designated as an interior landmark.

Substantial rehabilitation may include, without limitations, such work as expanding stage wings, re-raking the orchestra, increasing rehearsal, dressing room or lobby space, or historic restoration. It may also include reconversion to legitimate theater #use# of an original legitimate theater currently in other #use#. Substantial rehabilitation does not mean normal theater maintenance, painting or improvements to mechanical systems alone.

(3) Timing and commitment

(i)There shall be a contractual commitment or commitments for the construction work involved in the substantial rehabilitation;

(ii)the requirements of Section 81-743 (Required assurances for continuance of legitimate theater use) shall be satisfied;

(iiia rehabilitation bonus shall not be granted for a substantial rehabilitation completed before May 13, 1982.

(b)Amount of rehabilitation bonus

The amount of bonus #floor area# granted for a qualifying theater rehabilitation shall be at the discretion of the City Planning Commission after consideration of the following findings by the Commission:

(1)how and to what extent the proposed rehabilitation will improve the theater's suitability for #use# as a legitimate theater; and

(2)how the proposed rehabilitation will contribute toward satisfying the needs of the Theater Subdistrict.
Such bonus #floor area# shall not exceed 20 percent of the basic maximum #floor area# permitted on the development's #zoning lot# by the regulations of the underlying district, except that in the case of a C6-4, C6-5, or M1-6 underlying District, the bonus #floor area# shall not exceed 44 percent of the basic maximum #floor area# permitted in such underlying District.

The City Planning Commission may allow by special permit bonus #floor area# for substantial rehabilitation or restoration of any theater designated as listed theater pursuant to Section 81-742 (Listed Theaters), provided the following conditions are met:

(a)the #development# for which a theater rehabilitation bonus is granted is located on the same #zoning lot# as the listed theater;

(b)substantial rehabilitation will be performed, consisting of major interior structural changes for the purpose of improving the theater's design and its commercial viability for legitimate theater #use#, or historic restoration of the interior of a theater designated as an interior landmark. Substantial rehabilitation may include, without limitation, such work as an expansion of stage wings, re-raking of the orchestra, an increase in the amount of rehearsal, dressing room or lobby space, historic restoration, or reconversion to legitimate theater #use# of an original legitimate theater currently in other #use#, but shall not mean normal theater maintenance, painting or improvements to mechanical systems alone;

(c)the maximum amount of bonus #floor area# shall not exceed the basic maximum #floor area ratio# established pursuant to Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings) for the #zoning lot# by more than 20 percent, or, for #zoning lots# located in C6-4, C6-5, or M1-6 Districts, by more than 44 percent;

(d)there shall be a contractual commitment or commitments for the construction work involved in the substantial rehabilitation;

(e)the provisions of Section 81-743 (Required Assurances for continuance of legitimate theater use) are met, and

(f)no rehabilitation bonus shall be granted for a substantial rehabilitation completed before May 13, 1982.

In order to grant the special permit, the Commission shall make the following findings:

(1)the proposed rehabilitation will improve the theater's suitability for #use# as a legitimate theater;

(2)the proposed rehabilitation will contribute towards satisfying the needs of the Theater Subdistrict;

(3)the bonus #floor area# will not unduly increase the bulk of any new #development# or #enlargement#, density of population, or intensity of #use# on any #block# to the detriment of occupants of #buildings# on the #block# or the surrounding area; and

(4)the distribution and location of such #floor area# bonus will not adversely affect the surrounding area by restricting light and air or otherwise impair the essential character or future #development# of the surrounding area.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding areas.

For purposes of applying the provisions of Section 11-42 (Lapse of Authorization or Special Permit by the City Planning Commission Pursuant to the 1961 Zoning Resolution) to a special permit granted pursuant to this Section, "substantial construction" shall mean substantial rehabilitation, as described in paragraph (b) of this Section, of the subject theater for which a #floor area# bonus has been granted to a related #development#.

81-746
Additional provisions for zoning lots divided by district or subdistrict core boundaries

(a)For any #zoning lot# which includes a listed theater as set forth in Section 81-742 *(Restrictions on demolition of theaters)* **(Listed Theaters) or is or contains a "receiving site" pursuant to Section 81-744 (Transfer of development rights from listed theaters),** and which is divided

by a boundary between districts with different *#bulk# regulations*, **basic maximum #floor area ratios# as set forth in Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings)**, the Chairperson of the City Planning Commission, by certification, may authorize modifications of the provisions of Section 77-02 (Zoning Lots not Existing Prior to Effective Date or Amendment of Resolution), Section 77-21 (General Provisions), Section 77-22 (Floor Area Ratio) and Section 77-25 (Lot Area or Floor Area Requirements), as follows:

For any #zoning lot#, *whether or not it existed on December 15, 1961, or on the date of any applicable subsequent amendment thereto*, #floor area# or #rooms# permitted by the applicable district regulations on *that* **either** side of the district boundary *occupied by the theater* may be located on the other side of the district boundary *subject to the following conditions* **provided**:

(1)the amount of such #floor area# to be located on *the other* **either** side of the district boundary shall not exceed 20 percent of the basic maximum #floor area ratio# of the district in which it is to be located;

(2)the number of such #rooms#, if any, to be located on *the other* **either** side of the district boundary shall not exceed the number permitted by the #floor area per room# requirements as set forth in Section 81-242 (Density regulations for residential and mixed buildings); and

(3)*compliance with* the provisions of Section 81-743 (Required assurances for continuance of legitimate theater use) **are met**.

The Chairperson's certification approving modification of the provisions for **such** #zoning lots# divided by district boundaries shall state the total amount of #floor area#, including #floor area# of *the* **any** existing theater, to be provided on the #zoning lot# as a whole **and** the portion thereof to be located in each district, and the amount authorized herein to be located across the district boundary from the district in which the theater is located.

Notice of the restrictions upon further #development# of each portion of the #zoning lot# shall be recorded by the owner against the #zoning lot# in the Office of the Register of the City of New York (County of New York) and a certified copy shall be submitted to the Commission.

(b)Notwithstanding any other provisions of this Resolution, for any #zoning lot# which is divided by a boundary of the Theater Subdistrict Core as defined in Section 81-71 (General Provisions) and for which the basic maximum #floor area ratio# as set forth in Section 81-211 (Maximum floor area ratios for non-residential or mixed buildings) is the same for both the portion within and the portion outside of the Theater Subdistrict Core, the applicable underlying #bulk# regulations shall be modified as follows:

(1)#floor area#, including bonus #floor area#, or #rooms# permitted by the applicable district regulations on that portion of the #zoning lot# within the Theater Subdistrict Core may be located on the portion of the #zoning lot# outside the Core, provided that the number of such #rooms#, if any, to be located outside of the Core shall not exceed the number permitted by the #floor area per room# requirements as set forth in Section 81-242 (Density regulations for residential and mixed buildings); and

(2)#floor area#, including bonus #floor area#, or #rooms# permitted by the applicable district regulations on that portion of the #zoning lot# outside of the Theater Subdistrict Core shall not be located on the portion of the #zoning lot# within the Core.

(c)Notwithstanding any other provisions of this Resolution, for any #zoning lot# located wholly within the Theater Subdistrict and outside of the Theater Subdistrict Core that is divided by a boundary of the Eighth Avenue Corridor as defined in Section 81-71 (General Provisions) and for which the basic maximum #floor area ratio# as set forth in Section 81-211 (Maximum floor area ratios for non-residential or mixed buildings) is the same for both the portion within and the portion outside of the Eighth Avenue Corridor, #floor area#, including bonus #floor area#, or #rooms# permitted by the applicable district regulations may be located on either side of the Eighth Avenue Corridor boundary.

* * *

81-748
Floor area bonus for through block gallerias

Upon certification by the City Planning Commission that the requirements of this Section are satisfied, a #development# within the Theater Subdistrict, but outside of the Theater Subdistrict Core, which provides a through #block# galleria shall be eligible for bonus #floor area# in the amount of 6 square feet for each square foot of through #block# galleria area, provided that in no case shall such bonus #floor area# exceed a #floor area ratio# of 1.0.

A through #block# galleria is a continuous covered public space on a #zoning lot#, which connects two parallel or nearly parallel east-west #streets# and provides for through #block# pedestrian circulation as well as other pedestrian amenities appropriate to the Theater Subdistrict. A through #block# galleria shall satisfy the following requirements:

(a) District plan requirements

A through #block# galleria shall be located within the Theater Subdistrict but outside of the Theater Subdistrict Core.
It shall be located not less than 200 feet from a #wide# north-south #street#. It shall satisfy the requirements of Section 81-46 (Through Block Connection). It may be counted toward meeting the minimum pedestrian circulation space requirements as set forth in Section 81-45 (Provision of Pedestrian Circulation Space) up to a maximum of 3,000 square feet. For any #zoning lot# on which a through #block# connection is not permitted by the provisions of Section 81-46 as counting towards meeting the pedestrian circulation space requirements of Section 81-45, no bonus shall be allowed for a through #block# galleria.

(b) Location

At each end it shall adjoin and open onto a #street#, a sidewalk widening, a #plaza# or an #urban plaza# adjacent to the #street#. It shall provide continuous, unobstructed access from one end to the other.

(c) Elevation

It shall have the same grade elevation at each end as the sidewalk, sidewalk widening or #urban plaza# which it adjoins.
This elevation shall be maintained for at least 20 feet from the end, beyond which a grade change, if any, is permitted only to reconcile grade differences between the two ends.
Provisions for changes in grade shall include ramps for wheelchair users with a maximum slope of one to twelve.

(d) Access

It shall be open at each end, with width and height of opening not less than the applicable minimum width and height set forth in paragraph (e) of this Section.
It may connect with, but not serve as, lobby space for a new #building# or a theater.
It shall be open to the public between the hours of 8:00 a.m. and 7:00 except for certain legal holidays (December 25, January 1 and July 4).

(e) Minimum dimensions

Minimum dimensions depend on the length of the through #block# galleria, as follows:

THROUGH BLOCK GALLERIA

LENGTH	*less than 150 feet*	
	150 feet	*or more*
Minimum width	*20 feet*	*25 feet*
Average width	*20 feet*	*30 feet*
Minimum heigh	*20 feet*	*25 feet*
Average heigh	*20 feet*	*20 feet*

(f) Minimum clear path

Except as provided in paragraph (g) (Permitted obstructions), there shall be a straight path, clear of all obstructions, including door swings, extending from one end of the galleria to the other, with a minimum width of 15 feet. Where the through #block# galleria is adjoined at one or both ends by a sidewalk widening, #plaza# or #urban plaza#, such minimum width of clear path shall be continued across the adjoining open space to the #street line#.

(g) Permitted obstructions

(1)Columns or posts are permitted obstructions provided that the minimum width of the through #block# galleria exclusive of column widths shall be 20 feet and that the clear path width is at least 15 feet or two clear paths are provided, the paths being separated by columns and each having a minimum width of 10 feet.

(2)In areas outside the minimum clear path or paths, obstructions such as the following are permitted: planters, seating areas, landscape features, fountains, works of art, food kiosks, litter receptacles, drinking fountains, lights or lighting stanchions, public telephones, temporary exhibitions, retractable awnings and canopies and movable tables and chairs, provided that the total area occupied by such obstructions is less than 50 percent of the total area of the through #block# galleria minus the required clear path area.

(3)For through #block# gallerias with areas larger than 3,000 square feet, public seating is required.
There shall be at least one linear foot of seating for each 20 square feet of through #block# galleria area in excess of 3,000 square feet.
The design standards for seating shall be as set forth in paragraph (j) of Section 37-043 (Urban plaza). Eating or drinking service may be provided adjacent to, but not within, the through #block# galleria. All seating within the through #block# galleria shall be accessible to the public.

(4)For through #block# gallerias with an average height of at least 45 feet, bridges or balconies are permitted as obstructions, provided that such bridges or balconies are at least 15 feet above the floor level of the galleria, the width of the bridge is not more than 8 feet, the width of a balcony is not more than 5 feet and the total area of such obstructions is not more than 10 percent of the total area of the galleria.
Such obstructions may be enclosed provided that such enclosures are not more than 15 feet in height.

(h)Treatment of bounding walls

Along the length of a through #block# galleria, the bounding walls, except for walls along a #side lot line#, shall be lined insofar as possible with areas accessible to the public, display windows, or other exhibits, and such bounding walls shall be of transparent material.
Walls along a #side lot line# may be treated with planting or other landscape features.

(i) Skylights

(1)Design standard

Skylights shall be provided having a minimum surface area equal to at least 75 percent of the through #block# galleria, and skylights shall cover at least 50 percent of the galleria's area as measured in plan and shall be unobstructed from the skylights up to the sky.

(2)Modification of design standard

The City Planning Commission may authorize a modification of the minimum area of a skylight for a through #block# galleria under the following conditions:

(i)the through #block# galleria contains a minimum area of 6000 square feet;

(ii)the minimum height of the through #block# galleria is at least double its average width; and

(iiithe exterior bounding walls of the through #block# galleria are open or glazed above a height of 30 feet so as to permit additional natural light into the space.

The total amount of such open or glazed area, including the skylight shall be equal to at least 75 percent of the area of the through #block# galleria.

(j) Penalties for violations

Failure to comply with the conditions or restrictions of the bonused amenity shall constitute a violation of this Resolution and shall constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

81-748
Floor Area for New Legitimate Theaters

Within the Theater Subdistrict in C6-7T, C5-3, C6-6 and C6-7 Districts, the City Planning Commission may, by special permit, allow additional #floor area# for new legitimate theater use. Such additional #floor area# shall be up to a maximum #floor area ratio# of 2.0 calculated over that portion of the #zoning lot# located within such districts. However, where more than half of the #lot area# of the #zoning lot# is located within such districts, and the remaining portion is located outside of such districts, such additional #floor area ratio# of 2.0 may be calculated over the entire #zoning lot#. The Commission may also permit the modification of the #street wall# and setback regulations of Section 81-751 (Special Street Wall and Setback Regulations within the Theater Subdistrict Core) in connection with such #floor area# for new theater, subject to the following conditions:

(a)the total maximum #floor area# ratio inclusive of all bonuses and #floor area# used for new legitimate theater shall not exceed 21.6 on that portion of the #zoning lot# located within such districts, and
(b)such #floor area# shall be limited to floor space exclusively associated with legitimate theater use, including auditorium, orchestra, balconies, stage and theater equipment space, wings, dressing rooms, lobbies, lounges, ticket offices and rest rooms and circulation space.

No modifications permitted by such special permit shall allow for the modification of signs required pursuant to Section 81-73 (Special Sign and Frontage Regulations).

In granting such special permit, the City Planing Commission shall make the following findings:

(1)such floor area allowance shall not unduly increase the #bulk# of any new #development# or #enlargement#, density of population, or intensity of use on any #block# to the detriment of occupants of #buildings# on the #block# or the surrounding area;

(2)such modifications to #street wall# and setback regulations are necessary to accommodate the theater configuration and volume, are essential to ensure the proper functioning of the theater, and are limited to the minimum necessary to accommodate the theater; and

(3)such modifications to #street wall# and setback regulations do not adversely affect access to light and air at #street# level as compared to that which would result from the application of the regulations set forth in Section 81-75 (Special Street Wall and Height and Setback Regulations);

The Commission may prescribe appropriate conditions and safeguards to minimize other adverse effects on the character of the surrounding area.

An application filed with the City Planning Commission for special permit pursuant to this Section shall be made jointly by the owners of the #development# or #enlargement# and the owner and/or operator of the theater and shall include floor plans and zoning calculations indicating the location and size of the legitimate theater, and shall include a legal commitment made by the theater owner and the developer for continuance of the #use# of such #floor area# as a legitimate theater and prohibition of the #use# of such #floor area# for any #use# other than legitimate theater use for the life of the related #development# or #enlargement#.
The legal commitments shall be in the form of a declaration of restrictions, filed and duly recorded in the Borough Office of the Register of the City of New York, binding upon the owner, any lessee of the theater and their successors and assigns. The certificate of occupancy for the #building# containing the theater shall describe all #floor area# allocated as legitimate theater #use# for which such special permit has been granted.

81-75
Special Street Wall and Setback Requirements
(existing Section 81-75 becomes new Section 81-751)

#Developments# or #enlargements# located on #zoning lots# or portions of #zoning lots# within the Theater Subdistrict Core or the Eighth Avenue Corridor shall comply with the regulations of this Section. The height of all #buildings or other structures# shall be measured from #curb level#.

*81-75***81-751**
Special Street Wall and Setback *Requirements* **Regulations within the Theater Subdistrict Core**

#Developments# or #enlargements# located on #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway**, or located partially within the Theater Subdistrict Core and partially within the Eighth Avenue Corridor** shall comply with the requirements of this Section, and, in all other respects related to height and setback, with the provisions of Sections 81-25 (General Provisions Relating to Height and Setback of Buildings), **and either** 81-26 (Height and Setback Regulations - Daylight Compensation) *and* **or** 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation).

* * *

(b)TS10,13,15,20,25,30,35,40,45,50,55,60,65, 70,75The #street wall# of any #building# on a #zoning lot# between 43rd and 50th Streets and between Seventh Avenue and Broadway shall have a minimum #street wall# height of 50 feet *above #curb level#* on all #street# frontages.

(c)For #zoning lots# located in partially within the Theater Subdistrict Core and partially within the Eighth Avenue Corridor, the #street wall# of any #building# or portion of a #building# within the Theater Subdistrict Core shall have a minimum #street wall# height of 50 feet, or the height of the #building#, whichever is less, and a maximum #street wall# height of 60 feet within 15 feet of the #narrow street line#.

81-752
Special Street Wall and Setback Regulations within the Eighth Avenue Corridor

#Developments# or #enlargements# on #zoning lots# located in whole or in part within the Eighth Avenue Corridor, as defined in Section 81-71, and east of Eighth Avenue shall comply with the requirements of this Section, and except as superseded by this Section, with the provisions of Section 81-25 (General Provisions Relating to Height and Setback of Buildings), and either 81-26 (Height and Setback Regulations - Daylight Compensation) or 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation).

#Developments# or #enlargements# on #zoning lots# located in whole or in part within the Eighth Avenue Corridor, as defined in Section 81-71, and west of Eighth Avenue shall comply with the requirements of this Section. The provisions of Sections 81-25 (General Provisions Relating to Height and Setback of Buildings), 81-26 (Height and Setback Regulations - Daylight Compensation) and 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation) shall not apply except as set forth in paragraph (b)(1) of this Section.

(a)Street Wall Location and Minimum and Maximum Heights before Setbacks

(1) On Eighth Avenue and 42nd Street, #street walls# shall extend along the entire #street# frontage of the #zoning lot# to a minimum height of 50 feet or the height of the #building#, whichever is less.
At least 70 percent of the #aggregate width of street walls# shall be located on the #street line#, and the remaining 30 percent of the #aggregate width of street walls# may be located beyond the #street line# in compliance with #residential outer court# regulations for #residential# portions of #buildings#, and #community facility outer court# regulations for all other portions of #buildings#. However, within 30 feet of the intersection of two #street lines#, #street walls# shall comply with the location requirements of paragraph (a)(3) of this Section. The maximum height of #street walls# within 10 feet of the #wide street line# shall be 150 feet beyond 15 feet of a #narrow street line# and 85 feet within 15 feet of a #narrow street line#.

(2)On a #narrow street# east of Eighth Avenue, and on a #narrow street# west of and within 100 feet of Eighth Avenue, #street walls# shall extend along the entire width of such #narrow street# frontage of the #zoning lot# to a minimum height of 50 feet or the height of the #building#, whichever is less.
At least 70 percent of the #aggregate width of street walls# along such #narrow street# frontage shall be located on the #street line#, and the remaining 30 percent of the #aggregate width of street walls# may be located beyond the #street line# in compliance with #residential outer court# regulations for #residential# portions of #buildings#, and #community facility outer court# regulations for all other portions of #buildings#. However, within 30 feet of the intersection of two #street lines#, #street walls# shall\comply with the location requirements of paragraph (a)(3) of this Section.
The maximum height of #street walls# within 15 feet of the #narrow street line# shall be 85 feet.

No #street walls# are required along a #narrow street# west of and beyond 100 feet of Eighth Avenue provided at least 70 percent of the entire frontage of the #zoning lot# along such #narrow street# is occupied by #street walls# located on the #street line#.
The maximum height of #street walls# within 15 feet of the #narrow street line# shall be 66 feet, except in accordance with paragraph (b)(3) of this Section.

(3)Within 30 feet of the intersection of two #street lines#, the #street wall# shall be located on the #street line# or anywhere within an area bounded by the two #street lines# and lines parallel to and 15 feet from such #street lines#.

(4)For #developments# that occupy the entire #block# frontage of a #wide street# and provide a continuous sidewalk widening along such #street line#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section.

The #street wall# location and minimum height before setback regulations of this Section shall not apply to portions of #zoning lots# occupied by existing #buildings#.

(b)Special street wall regulations for buildings adjacent to listed theaters

For #developments# or #enlargements# that are adjacent to a theater listed pursuant to Section 81-742 (Listed Theaters), the maximum height of the #street wall# of the #development# or #enlargement# facing the same #street# as the listed theater shall be 60 feet within 15 feet of the #street line#.

(c)Additional Regulations Applying West of Eighth Avenue

(1)West of Eighth Avenue, at any level above a height of 85 feet, any #development# or #enlargement# or portion thereof shall have a minimum #lot coverage# requirement of 33 percent of the #lot area# of the #zoning lot#, except that such minimum #lot coverage# requirement shall not apply to the highest four #stories# of the #building#.
#Developments# or #enlargements# or portions thereof that occupy, in the aggregate, more than 40 percent of the #lot area# of a #zoning lot# (or, for #zoning lots# of less than 20,000 square feet, a greater percentage than set forth in the table in Section 23-651), shall comply with the provisions of Section 81-25 (General Provisions Relating to Height and Setback of Buildings), and either 81-26 (Height and Setback Regulations - Daylight Compensation) or 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation).

(2)Beyond 125 feet of the western #street line# of Eighth Avenue, and beyond 100 feet of the northern #street line# of 42nd Street, no #building or other structure# shall exceed a height of 66 feet, except in accordance with paragraph (3) below.

(3)Where the new or #enlarged building# abuts an existing #building# located entirely beyond 125 feet of the western #street line# of Eighth Avenue and the northern #street line# of 42nd Street, and such existing #building# exceeds a height of 66 feet, the new or enlarged #building# may exceed any height limits specified in this Section up to the height of the existing #building#, provided that, within 15 feet of the #narrow street line#, such portion of the new or #enlarged building# does not exceed either the height of the existing #building# or 85 feet, whichever is less.
For the purposes of this paragraph, the height of the existing #building# shall be the height of its #street wall#, before setback, if applicable, of that portion of the existing #building# abutting the new or #enlarged building#, fronting on the same #street line#, and located on the same or adjoining #zoning lot#.

Chapter 6
Special Clinton District

96-00
GENERAL PURPOSES

The "Special Clinton District" (hereinafter also referred to as the "Special District"), established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity.
Because of the unique geographical location of the Clinton community, situated between the waterfront on the west and a growing central business district on the east, it is necessary to provide specific programs and regulations which will assure realization of community and city-wide goals.

These goals include, among others, the following:

(a)to preserve and strengthen the residential character of the community;

(b)to permit rehabilitation and new construction within the area in character with the existing scale of the community and at rental levels which will not substantially alter the mixture of income groups presently residing in the area;

(c)to preserve the small-scale character and variety of existing stores and activities and to control new commercial uses in conformity with the existing character of the area;

(d)to recognize the unique character of the eastern edge of District as an integral part of the Theater Subdistrict within the Special Midtown District as well as the Special Clinton District;

(e)to provide an appropriate transition from the mixed-use character along Eighth Avenue to the lower-scale residential character of the Clinton community on the narrow streets;

*(d)(f)*to provide amenities, such as street trees, to improve the physical environment;

*(e)(g)*to restrict demolition of buildings that are suitable for rehabilitation and continued residential use; and

*(f)(h)*to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues, consistent with the foregoing purposes.

96-01
Definitions

Definitions specially applicable to this Chapter are set forth in this Section.
The definitions of other defined terms are as set forth in Section 12-10 (DEFINITIONS).

Mixed building

For the purposes of this Chapter, a "mixed building" is a #building# in a #Commercial District# used partly for #residential use# and partly for #community facility# or #commercial use#, or a #building# in a #Residential District# used partly for #residential use# and partly for #community facility use#.

Special Clinton District
(repeated from Section 12-10)

The "Special Clinton District" is a Special Purpose District designated by the letters "CL" in which special regulations set forth in Article IX, Chapter 6 apply.

The #Special Clinton District# and its regulations supplement or supersede those of the districts on which it is superimposed.

Special Midtown District
(repeated from Section 12-10)

The #Special Midtown District# is a Special Purpose District designated by the letters "MiD", in which special regulations set forth in Article VIII, Chapter 1 apply.

96-02
General Provisions

Except as modified by the express provisions of this Chapter, the regulations of the underlying districts **or as modified by the Special Midtown District** remain in effect.

The Special Midtown District and its regulations, where applicable in the Special Clinton District, shall also apply and shall supplement or supersede regulations as set forth in this Chapter pursuant to Section 96-202 (Special regulations for perimeter area fronting Eighth Avenue). In the event of any conflict or discrepancy between the regulations the provisions of the Special Midtown District shall control. This portion of the Special Purpose District is designated on the #zoning map# by the letters "CL-MiD".

96-03
District Map

The District Map for the #Special Clinton District# (Appendix A) identifies specific areas comprising the Special District in which special zoning regulations carry out the general purposes of the #Special Clinton District#. These areas and the sections of this Chapter which contain regulations pertaining thereto are as follows:

Area A - PRESERVATION AREA, Section 96-10
Area B - PERIMETER AREA, Section 96-20
Area C - OTHER AREAS, Section 96-30

96-10
PRESERVATION AREA

96-20
PERIMETER AREA

#Developments# within the Perimeter Area shall be eligible for increased #floor area# pursuant to Section 96-21 (Floor Area Bonus).
Because of increased pressures for #development#, the relocation and demolition provisions of Section 96-23 (Relocation and Demolition of Buildings in the Perimeter Area) shall apply therein for all demolition, #development#, #enlargement# or #extensions# on lots containing #residential uses#.
All existing legal #uses# in enclosed #buildings# shall be considered conforming #uses#.
Except as otherwise provided in this Chapter, any existing #commercial# or #manufacturing uses# may be changed to another #non-conforming use# only in accordance with the provisions of Sections 52-31 (General Provisions), 52-33 (Manufacturing or Related Uses in Residence Districts), 52-34 (Commercial Uses in Residence Districts, 52-35 (Manufacturing or Related Uses in Commercial Districts) and 52-36 (Non-Conforming Commercial Uses in Commercial Districts).

96-201
Special urban design regulations relating to retail continuity and street wall requirements
Special Regulations for 42nd Street Perimeter Area

(a) The provisions of this Section shall apply to #developments# or #enlargements# located in all #Commercial Districts# within the area bounded by the following:
Starting 150 feet west of Eighth Avenue, south to the southern boundary of West 41st Street, west to the east side of Twelfth Avenue, north along the eastern border of Twelfth Avenue to 43rd Street, east on West 43rd Street to the eastern side of Tenth Avenue, south along Tenth Avenue to the southern boundary of West 42nd Street, east on West 42nd Street to Ninth Avenue, north along the western boundary of Ninth Avenue to the midblock of 42nd/43rd Street, east to a point 150 feet west of Eighth Avenue, south to the southerly boundary of 41st Street.

(a)Retail Continuity Requirements

(b)(1)For any #development# or #enlargement# fronting on West 42nd Street, between 9th and 12th Avenues, at least 50 percent of the street frontage of the ground floor, or within five feet of #curb level#, shall be limited to Use Groups 4A, 6A, 6C, 10A, 11, 12A and 12B.

(c)(2)At least 50 percent of the length of the facade of such #street wall# fronting on West 42nd Street shall be glazed with transparent material to a height of not less than 16 feet above #curb level#. The lowest point of such glazed area shall not be higher than four feet above #curb level#.

***(d)*(b) Street Wall Continuity Requirements**

(1)At least 80 percent of the #aggregate width of street walls# of a #building# fronting on West 42nd Street, up to a height of 45 feet, shall be located within 10 feet of the #street line# of such #street#.

(e)(2)The minimum height of the #street wall# of a #building# above #curb level# shall be no less than 45 feet and no more than 85 feet. Above this required height, the #street wall# of a #building# shall set back at least five feet. The requirements of this paragraph shall also apply to any #development# or #enlargement# on a #wide street# frontage within a distance of 50 feet from its intersection with West 42nd Street.

96-202
Special regulations for Eighth Avenue Perimeter Area

All #developments# or #enlargements# located in an area bounded by a line 150 feet west of Eighth Avenue, West 56th Street, Eighth Avenue, and West 42nd Street shall comply with special regulations set forth in Article VIII, Chapter 1 (Special Midtown District), including Section 81-70 (Special Regulations for Theater Subdistrict).

96-21
Floor Area Increase

(a)**Except as specified in paragraph (b) of this Section,** *F*for any #development#, the #floor area ratio# permitted by the underlying district may be increased from 10.0 to 12.0 only by complying with the provisions of Section 23-90 (INCLUSIONARY HOUSING). A permanent certificate of occupancy for any #building# incorporating #floor area# increase pursuant to this Section shall not be issued by the Department of Buildings until the issuance of a permanent certificate of occupancy for lower income housing. In addition to the requirements of Section 23-90 (INCLUSIONARY HOUSING), any units for which a #floor area# increase has been earned pursuant to Section 23-90 shall be within the #Special Clinton District#.

(b)For any #development# located within the Eighth Avenue Perimeter Area set forth in Section 96-202 (Special regulations for Eighth Avenue Perimeter Area), the #floor area ratio# permitted by the underlying district may be increased pursuant to the provisions of Section 81-21 (Floor Area Regulations) as set forth in Article VIII Chapter 1 (Special Midtown District).

96-22
Special Permit for Modification of Height and Setback Regulations

Except within the Eighth Avenue Perimeter Area set forth in Section 96-202 (Special Regulations for Eighth Avenue Perimeter Area), *T*the City Planning Commission by special permit after public notice and hearing and subject to Board of Estimate action, may permit modification of height and setback regulations for #developments# which have generated an increase in the #floor area ratio# of not more than 2.0 under the provisions of Section 96-21 provided that such modification is necessary to achieve better site planning.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

* * *

*96-52***96-52**
Bulk *m*Modifications for *p*Public *p*Parking *g*Garages

Except within the Eighth Avenue Perimeter Area set forth in Section 96-202 (Special regulations for Eighth Avenue Perimeter Area), *In* in all other C6 Districts, the City Planning Commission by special permit after public notice and hearing and subject to Board of Estimate action, may permit for #public parking garages#, modification of the applicable #lot coverage#, #yard# and height and setback regulations. As a condition

of permitting such modifications the Commission shall make the following findings:

(a)that because of site limitations such modifications are necessary for the proper design and operation of the #public parking garage#; and

(b)that such modifications will not unduly obstruct access to light and air in the #street# or on adjacent #zoning lots#.

The Commission shall consider the characteristics of surrounding development and may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of adjacent areas.

* * *

96-60
SPECIAL PERMIT PROCEDURE

96-601
Requirements for applications

An application to the City Planning Commission for the grant of a special permit under the provisions of this Chapter, shall include a site plan showing the location and proposed #use# of all #buildings or other structures# on the site, the location of all vehicular entrances and exits and off-street parking spaces, and such other information as may be required by the City Planning Commission.

Notwithstanding the foregoing, in the Eighth Avenue Perimeter Area all applications made pursuant to the Special Midtown District shall be subject to the guidelines and provisions of Article VIII, Chapter 1 (Special Midtown District) instead.

All applications relating to Section 96-52 (Off-Street Parking Regulations) shall be referred by the Commission to the Department of Transportation for its report with respect to the anticipated traffic congestion resulting from such special permit #use# in the proposed location.

If such agency shall report thereon within one month from the date of referral, the Commission shall, in its determination, give due consideration to such report and, further, shall have the power to substantiate the appropriate findings solely on the basis of the report by such agency with respect to the issues referred. If such agency does not report within one month, the Commission may make a final determination without reference thereto.

COMMUNITY BOARDS

■ HEARINGS

Bronx Community Board 10 will hold a public hearing on Wednesday, May 6, 1998 regarding BSA #161-98-BZ to establish a PEP Boys auto sales and minor repair business at 2633 East Tremont Avenue. The hearing will be held at 7:30 p.m., at the Owen Dolan Golden Age Center, 1400 Westchester Avenue, between East Tremont Avenue and Benson Street.

a28-30

Community Board 13, Brooklyn, will hold a public hearing on Wed, April. 29, 1998, 7:00 pm. Sea Gate Community Center, 3701 Sea Gate Avenue.
BSA Application No. 165-98-BZ/CEQR-BSA-065-K: in the matter of an application submitted by Za Zabrom, Inc. AKA (The Seagate Minimall/The Mermaid Spa) pursuant to BSA special permit as per section 32-31 (group 9) and 73-36 of the New York City charter for amendments of the Zoning Resolution of the City of New York, to permit an R3-1/C1-2 zone physical Health and Culture Establishment as defined in Section 12-10 for the term of ten years. Location: 3701 Mermaid Avenue, Block 7029; Lot 60.

a16-29

CITY COUNCIL

■ HEARINGS

NOTICE IS HEREBY GIVEN THAT the Council has scheduled the following public hearing on the matter indicated below:

The Subcommittee on Zoning and Franchises will hold a public hearing on the following matter in the Council Committee Room, City Hall, New York, New York 10007, commencing at 9:30 A.M. on Tuesday, May 5, 1998:

STATEN ISLAND CB - 3 N 970399 ZRR

Application submitted by the Department of City Planning pursuant to Section 201 of the New York City Charter for an amendment of Appendix A Section 107-06 of the Zoning Resolution, Special South Richmond Development District, involving modification of the boundaries of the designated open space as shown on South Richmond Special District Plan, Section No. 33c, by deleting property bounded by:

1.the southerly street line of Barlow Avenue, a line passing through two points: one on the southerly street line of Barlow Avenue distant 160 feet easterly from the intersection of the easterly street line of Pompey Avenue and the southerly street line of Barlow Avenue and the other on the northerly street line of Leverett Avenue distant 159 feet easterly from the intersection of the easterly street line of Pompey Avenue and the northerly street line of Leverett Avenue, the northerly street line of Leverett Avenue, a line 74 feet easterly of Pompey Avenue, a line 205 (205.38) feet northerly of Leverett Avenue, the easterly street line of Pompey Avenue, a line 249 (249.29) feet northerly of Leverett Avenue, a line 74 feet easterly of Pompey Avenue, a line 449 (449.29) feet northerly of Leverett Avenue, the easterly street line of Pompey Avenue, a line 493 (493.20) feet northerly of Leverett Avenue, a line 74 feet easterly of Pompey Avenue, a line 654 (653.20) feet northerly of Leverett Avenue, and a line 80 feet easterly of Pompey Avenue;

2.a line 62 feet southerly of the straight portion of the southerly street line of Barlow Avenue and its westerly prolongation, the westerly street line of Pompey Avenue, the northerly street line of Monterey Avenue, a line 12 feet westerly of Pompey Avenue, a line 74 feet northerly of Monterey Avenue, and a line 20 feet easterly of Drumgoole Road East;

3.A line 362 feet westerly of Pompey Avenue, the northerly street line of Monterey Avenue, a line perpendicular to the northerly street line of Monterey Avenue distant 27 feet easterly from the intersection of the northerly and northeasterly street lines of Monterey Avenue, and a line 20 feet easterly of Drumgoole Road East;

4.the southerly street line of Monterey Avenue, the westerly street line of Pompey Avenue, the northerly street line of Marne Avenue, and a line 12 feet westerly of Pompey Avenue;

5.a line 66 feet southerly of Monterey Avenue, a line perpendicular to the southerly street line of Monterey Avenue distant 54 feet easterly from the intersection of the easterly street line of Drumgoole Road East and the southerly street line of Monterey Avenue, a line 74 feet northerly of Marne Avenue, a line perpendicular to the northerly street line of Marne Avenue distant 57 feet easterly of the intersection of the northerly and northeasterly street lines of Marne Avenue, the northerly street line of Marne Avenue, a line perpendicular to the northerly street line of Marne Avenue distant 27 feet easterly from the intersection of the northerly and northeasterly street lines of Marne Avenue, and a line 20 feet easterly of Drumgoole Road East; and

6.the southerly street line of Marne Avenue, the westerly street line of Pompey Avenue, a line 66 feet northerly of Leverett Avenue, a line 120 feet easterly of Annadale Road, a line 100 feet northerly of Leverett Avenue, a line perpendicular to the northerly street line of Leverett Avenue distant 58 feet easterly from the intersection of the easterly street line of Annadale Road and the easterly street line of Drumgoole Road East, a line 20 feet easterly of Drumgoole Road East, the southerly street line of Marne Avenue, a line perpendicular to the southerly street line of Marne Avenue distant 65 (65.03) feet easterly of the intersection of the southerly street line of Marne Avenue and the easterly street line of Drumgoole Road East, a line 74 feet southerly of Marne Avenue, and a line 12 feet westerly of Pompey Avenue;

and by adding property bounded by:

7.A line 74 feet northerly of Monterey Avenue, a line 20 feet easterly of Drumgoole Road East, and a line 362 feet westerly of Pompey Avenue;

8.the southerly street line of Barlow Avenue, a line passing through two points: one on the southerly street line of Barlow Avenue distant 344 feet easterly from the intersection of the easterly street line of Pompey Avenue and the southerly street line of Barlow Avenue and the other on the northerly street line of Leverett Avenue distant 343 feet easterly from the intersection of the easterly street line of Pompey Avenue and the northerly street line of Leverett Avenue, the northerly street line of Leverett Avenue, and a line passing through two points: one on the northerly street line of Leverett Avenue distant 339 feet easterly from the intersection of the easterly street line of Pompey Avenue and the northerly street line of Leverett Avenue and the other on the southerly street line of Barlow Avenue distant 340 feet easterly from the intersection of the easterly street line of Pompey Avenue and the southerly street line of Barlow Avenue; and

9.a line 196 feet southerly of Marne Avenue, the westerly street line of Pompey Avenue, the northerly street line of Leverett Avenue, and a line 120 feet easterly of Annadale Road;

as shown on a diagram (for illustrative purposes only), dated October 6, 1997.

The Subcommittee on Landmarks, Public Siting and Maritime Uses will hold public hearings on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 11:00 A.M. on Tuesday, May 5, 1998:

MANHATTAN CB - 10 268098 HKM

Designation (DL-289, LP-1973) by the Landmarks Preservation Commission, pursuant to Section 3020 of the New York City Charter, of the YMCA, located at 180 West 135th Street, as a landmark.

MANHATTAN CB - 1 269098 HKM

Designation (DL-289, LP-1967) by the Landmarks Preservation Commission, pursuant to Section 3020 of the New York City Charter, located at 3-9 Beekman Street (a/k/a 119-133 Nassau Street and 10 Theatre Alley), as a landmark.

MANHATTAN CB - 7 270098 HKM

Designation (DL-289, LP-1980) by the Landmarks Preservation Commission, pursuant to Section 3020 of the New York City Charter, of the former East River Savings Bank, as a landmark.

BROOKLYN CB - 1 C 970339 PQK

Application (C 970339 PQK) was filed on January 14, 1997 by the Department of Sanitation (DOS) and the Department of Citywide Administrative Services (DCAS) for acquisition of privately owned property located at 314 Rutledge Street, for continued use as a garage.

BROOKLYN CB - 1 C 970340 PQK

Application (C 970340 PQK) was filed on January 14, 1997 by the Department of Sanitation (DOS) and the Department of Citywide Administrative Services (DCAS) for acquisition of privately owned property located at 306 Rutledge Street, for continued use as a garage.

BROOKLYN CB - 1 C 970341 PQK

Application submitted by the Department of Sanitation and the Department of Citywide Services, pursuant to Section 197-c of the New York City Charter for acquisition of property located at 525 Johnson Avenue, for continued use as a garage.

BROOKLYN CB - 1 C 970342 PQK

Application submitted by the Department of Sanitation and the Department of Citywide Services, pursuant to Section 197-c of the New York City Charter for acquisition of property located at 145 Randolph Street, for continued use as a garage.

The Subcommittee on Permits, Dispositions and Concessions will hold public hearings on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 1:00 P.M. on Tuesday, May 5, 1998:

MANHATTAN CB - 11 C 970803 HAM

Application submitted by the Department of Housing Preservation and Development (HPD):

1)pursuant to Article 16 of the General Municipal Law of New York State for:

a)the designation of 57, 61, 63, 67, 71 and 73 E. 128th Street (Block 1753, Lots 27 - 32), as an Urban Development Action Area;

b) an Urban Development Action Area Project for such area; and

2)pursuant to Section 197-c of the New York City Charter for the disposition of such property, except Block 1753, Lot 28, to a sponsor selected by HPD,

to facilitate the construction of two seven story buildings with 103 units of housing for low income and homeless persons, plus one unit for a superintendent, tentatively known as Vincent Cyrus Plaza.

MANHATTAN CB - 11 C 980246 ZMM

Application submitted by the Department of Housing Preservation and Development, pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section No. 6a, changing from a C8-3 District to an R7-2 District property bounded by East 129th Street, a line 70 feet west of Park Avenue, East 128th Street, and a line 100 feet west of Park Avenue, as shown on a diagram (for illustrative purposes only), dated December 22, 1997.

BROOKLYN CB - 7 352098 HAK

Application submitted by the Department of Housing Preservation and Development pursuant to Article 16 of the General Municipal Law for an amendment to a previously approved Urban Development Action Area Project under the Habitat for Humanity Program, located at 650 51st Street (Block 801/Lot 27).

Proposals subject to Council review and action pursuant to the Urban Development Action Area Act, Article 16 of the New York General Municipal Law, at the request of the Department of Housing Preservation and Development ("HPD"), which requests that the Council:

1.Find that the present status of the listed areas tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes of Section 691 of the General Municipal Law;

2.Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3.Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law;

4.Approve the project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law; and

5.Approve an exemption of the project from real property taxes pursuant to Section 577 of the Private Housing Finance Law for 346098 HAM and 353098 HAX and Section 696 of the General Municipal Law for 341098 HAQ, 342098 HAK, 347098 through 351098 HAK.

NOTICE IS HEREBY GIVEN THAT the Council has scheduled the following public hearing on the matter indicated below:

The Subcommittee on Zoning and Franchises will hold a public hearing on the following matter in the Council Committee Room, City Hall, New York, New York 10007, commencing at 9:30 A.M. on Tuesday, May 5, 1998:
By Council Member McCaffrey:
Resolution amending Resolution 1548 of 1996 (L.U.562-A, 378097GFY), which authorized the Department of Transportation to grant non-exclusive franchises for the installation, operation and maintenance of coordinated franchises, by adding to the ELEVENTH RESOLVED CLAUSE:
36. Any agreement entered into between a franchise and the operator of a newsstand shall include a clause by which said operator acknowledges his or her obligation to comply with the requirements of New York State Penal Law Section 245.11 regarding the public display of offensive sexual material.

☛ **a29-m5**

INFORMATION TECHNOLOGY AND TELECOMMUNICATIONS

■ **HEARINGS**

NOTICE OF JOINT PUBLIC HEARING by the New York City Department of Information Technology and Telecommunications (DoITT) and the Franchise and Concession Review Committee (FCRC) on Monday, May 11, 1998, commencing at 10:00 AM to be held at City Hall, Public Hearing Chamber, 2nd Floor, Borough of Manhattan, in the matter of the petition of Teleport Communications New York (TCNY), a holder of a local high-capacity telecommunications services franchise with the City of New York, to approve a transfer of control of TCNY's ultimate parent, Teleport Communications Group, Inc., to AT&T Corp. A copy of the above petition will be available for public viewing at the offices of DoITT, 11 MetroTech Center, 3rd Floor, Brooklyn, New York 11201, commencing Monday, April 20, 1998, until the date of the Public Hearing, between the hours of 10:00 AM and 5:00 PM. Note: Individuals requesting sign language interpreters should contact the Mayor's Office of Contracts, Public Hearings Unit, 253 Broadway, 9th Floor, New York, New York 10007, (212) 788-7490, no later than five (5) business days prior to the public hearing. TDD users should call Bell Atlantic relay services.

LOFT BOARD

■ HEARINGS

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN THE NEW YORK CITY LOFT BOARD by Article 7-C of the Multiple Dwelling Law and Mayor's Executive Order No. 66, dated September 30, 1982, and pursuant to and in accordance with the requirements of Section 1043 of the New York City Charter, that the New York City Loft Board intends to amend Chapter 1 of Title 29 of the Rules of the City of New York ("RCNY"), relating to reconsideration and appeals from administrative determinations, by amending sections 1-06(p) and 1-07 and adding a new section 1-07.1, and Chapter 2 of 29 RCNY, section 2-04(e)(5), relating to appeals from determinations concerning housing maintenance standard violations.
Written comments regarding these proposed rules may be sent to the New York City Loft Board, 49-51 Chambers Street, Room 1006, New York, New York 10007 to the attention of Beverley Miller on or before April 15, 1998. A public hearing will be held on April 30, 1998 at 22 Reade Street, New York, New York, commencing at 1:30 p.m. Persons seeking to testify are requested to notify Ms. Miller at the foregoing address or by telephone at (212) 788-7610. Written comments and an audiotape of oral comments received at the hearing will be available for public inspection, within a reasonable time after receipt, between the hours of 9:00 a.m. to 5:00 p.m. at the office of the Loft Board. Copies of the proposed rules may be obtained by contacting Ms. Miller at the Loft Board's Offices.
NOTICE IS ALSO GIVEN PURSUANT TO ARTICLE 7 OF THE PUBLIC OFFICERS LAW that the Loft Board will conduct its regular monthly meeting immediately after the public hearing. The Board plans to discuss and vote on the proposed amendments to rules relating to reconsideration and appeals from administrative determinations. The Board also plans to discuss and vote on cases. The public is invited to attend and observe the proceedings.

COURT NOTICE

SUPREME COURT

■ NOTICE

SUPREME COURT, KINGS COUNTY NOTICE OF PETITION. KINGS COUNTY INDEX NUMBER 12009/98

In the Matter of the Application of THE CITY OF NEW YORK, relative to acquiring title in fee simple and other interest in certain real property where not heretofore acquired for the same purpose as a site for **KENSINGTON BRANCH LIBRARY** generally located at 4209-17 18th Avenue situated in Community District 14, Borough of Brooklyn, City and State of New York.

PLEASE TAKE NOTICE that the Corporation Counsel of the City of New York intends to make application to the Supreme Court of the State of New York, Kings County, at IA Part 74 , to be held in and for Kings County at the County Courthouse, 360 Adams St in the Borough of Kings, City of New York on the 14th day of May, 1998 at 9:30 A.M., or as soon thereafter as counsel can be heard for an order:

1) authorizing the City to file an acquisition map in the office of the Clerk of Kings County or the Office of the City Register;

2) directing that upon the filing of said map, title to the property sought to be acquired shall vest in the City; and

3) providing that just compensation therefor be ascertained and determined by the Supreme Court without a jury.

The City of New York, in this proceeding, intends to acquire title in fee simple absolute to certain real property where not heretofore acquired for the same purpose, as a site for KENSINGTON BRANCH LIBRARY in the Borough of Brooklyn, City and State of New York.

The description of the real property to be acquired is as follows:

Beginning at a point on the southerly line of said 18th Avenue and the easterly line of Seton Place (3rd Street - 50 feet wide), which point of beginning is where the dividing line between tax lots 7 and 14 in Brooklyn tax block 5416, as shown on the "Tax Map" of the City of New York for the Borough of Brooklyn, as said "Tax Map" existed on June 25, 1997, is intersected by the southerly line of 18th Avenue (80 feet wide):

Running thence eastwardly and along the southerly line of the said 18th Avenue, for 80.09 feet (80 feet - Deed) to a point on the westerly line of lot 18 in block 5416, as shown on the "Tax Map" of the City of New York, Borough of the Brooklyn, as the said "Tax Map" existed on June 25, 1997;

Thence, southwardly, forming an interior angle of 90°26'06" with the previous course, and along the said westerly line of lot 18 in block 5416, for 112.51 (112.33 feet - Deed) feet to a point on the northerly line of lot 112 in block 5416;

Thence, eastwardly, forming an interior angle of 89°42'13" with the previous course, and along the said northerly line of lot 112 and northerly lines of lots 114, 115 and 116 in block 5416, for 80.09 feet (80 feet - Deed) to a point on the easterly line of lot 7 in block 5416;

Thence, northwardly, forming an interior angle of 90°17'47" with the previous course, and along the said easterly line of lot 7 in block 5416, for 112.71 feet (112.58 feet - Deed) back to the point of beginning.

This parcel consists of lot 14 in block 5416 as shown on the "Tax Map" of the City of New York, Borough of the Brooklyn, as the said "Tax Map" existed on June 25, 1997, and comprises an area of 9,019 square feet or 0.20705 acres.

The above described property shall be acquired subject to encroachments, if any, of the structures, improvements, and appurtenances standing or maintained partly upon the above described parcels and partly upon the lands and premises adjoining the same so long as such encroachments shall stand. Surveys, maps or plans of the property to be acquired are on file in the office of the Corporation Counsel of the City of New York, 100 Church Street, Room 5-236A, New York, New York 10007.

Dated: New York, New York, April 8, 1998
MICHAEL D. HESS, Corporation Counsel of the City of New York Attorney for the Condemnor 100 Church Street, New York, New York 10007 Tel. (212) 788-0711

PROPERTY DISPOSITION

CITYWIDE ADMINISTRATIVE SERVICES

■ AUCTION

DIVISION OF REAL ESTATE SERVICES
PROPOSED SALE OF CERTAIN NEW YORK CITY
REAL PROPERTY PARCELS BY PUBLIC AUCTION

PUBLIC NOTICE IS HEREBY GIVEN THAT the Division of Real Estate Services proposes to offer the properties listed herein for sale at Public Auction.

In accordance with Section 384 of the City Charter, Public Hearings were held for these properties on January 28, 1998, February 11, 1998 and February 25, 1998 in Room 16 on the 2nd floor of City Hall in Manhattan.

These properties will be sold in accordance with the Standard Terms and Conditions of Sale dated December 19, 1997 which terms include the following change: The mortgage interest rate is set at eight percent (8%) pursuant to Paragraph 8(b). An asterisk (*) appears adjacent to those parcels subject to Special Terms and Conditions.

They have been approved for sale by the Mayor of the City of New York, and will be offered at public auction on July 22, 1998.

Brochures for this sale are available and may be obtained at 1 Centre Street, 19th Floor North, New York, New York 10007.

PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitations notices for most procurement above $25,000 for goods or services or above $50,000 for construction and construction related services are published for at least one day.

Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● *Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,* 18th Floor, NY, NY 10007 (212) 669-8562

Construction & Construction Related Services

● Mayor's Office of Construction,

Bidders List Unit, 52 Chambers Street, Room 307, New York, NY 10007 (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway 9th Floor,New York, NY 10007 (212) 788-0010 Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual.(see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explanined in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business.

In order to become certified for the program, your company must substantiate that it:

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,
110 William Street, 2nd Floor,
New York, New York 10038 (212) 618-8782.

PROMPT PAYMENT

It is policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bill within 30 days after the receipt of a proper invoice. The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board51 Chambers Street Room 1126, New York 10007 (212) 788-7820

PROCUREMENT POLICY BOARD RULES

To obtain a copy of the Procurement Policy Board Rules either in hard copy or on disk, call the Procurement Policy Board office, (212) 788-7820. The Rules may also be accessed on the City Website, http://www.ci.nyc.ny.us

COMMON ABBREVIATIONS USED IN THE CR

The CR contains many abbreviations. Listed below are simple explanations of some of the most common ones appearing in the CR:

AB ..... Acceptable Brands List
AC .....Accelerated Procurement
AMT .....Amount of Contract
BL .....Bidders List
CSB .....Competitive Sealed Bidding (including multi-step)
CB/PQ .....CB from Prequalified Vendor List
CP .....Competitive Sealed Proposal (including multi-step)
CP/PQ .....CP from Prequalified Vendor List
CR .....The City Record newspaper
DA .....Date bid/proposal documents available
DUE .....Bid/Proposal due date; bid opening date
EM .....Emergency Procurement
IG .....Intergovernmental Purchasing
LBE.....Locally Based Business Enterprise
M/WBE .....Minority/Women's Business Enterprise
NA.....Negotiated Acquisition
NOTICE....Date Intent to Negotiate Notice was published in CR
OLB.....Award to Other Than Lowest Responsible & Responsive Bidder/Proposer
PIN.....Procurement Identification Number
PPB .....Procurement Policy Board
PQ .....Pre-qualified Vendors List
RS.....Source required by state/federal law or grant
SCE.....Service Contract Short-Term Extension
DP .....Demonstration Project
SS .....Sole Source Procurement
ST/FED .....Subject to State &/or Federal requirements

KEY TO METHODS OF SOURCE SELECTION

The Procurement Policy Board (PPB) of the City of New York has by rule defined the appropriate methods of source selection for City procurement and reasons justifying their use. The CR procurement notices of many agencies include an abbreviated reference to the source selection method utilized. The following is a list of those methods and the abbreviations used:

CSB .....**Competitive Sealed Bidding** (including multi-step)

Special Case Solicitations / Summary of Circumstances:

CP .....***Competitive Sealed Proposal*** (including multi-step)
CP/1 .....Specifications not sufficiently definite
CP/2 .....Judgement required in best interest of City
CP/3 .....Testing required to evaluate
CB/PQ/4 ....
CP/PQ/4 ....**CB or CP from Prequalified Vendor List**/Advance qualification screening needed
DP .....Demonstration Project
SS .....**Sole Source Procurement**/only one source
RS.....Procurement from a Required Source/ST/FED
NA.....Negotiated Acquisition *For ongoing construction project only:*
NA/8.....Compelling programmatic needs
NA/9.....New contractor needed for changed/additional work
NA/10.....Change in scope, essential to solicit one or limited number of contractors
NA/11.....Immediate successor contractor required due to termination/default

For Legal services only:

NA/12.....Specialized legal devices needed; CP not advantageous
WA .....**Solicitation Based on Waiver/Summary of Circumstances** (Client Services/BSB or CP only)
WA1 .....Prevent loss of sudden outside funding
WA2 .....Existing contractor unavailable/immediate need
WA3 .....Unsuccessful efforts to contract/need continues
IG .....**Intergovernmental Purchasing** (award only)
IG/F.....Federal
IG/S.....State
IG/O .....Other
EM .....**Emergency Procurement** (award only) An unforeseen danger to:
EM/A.....Life
EM/B.....Safety
EM/C.....Property
EM/D.....A necessary service
AC .....**Accelerated Procurement**/markets with significant short-term price fluctuations
SCE.....**Service Contract Extension**/insufficient time; necessary service; fair price

Award to Other Than Lowest Responsible & Responsive Bidder or Proposer / Reason (award only)

OLB/a.....anti-apartheid preference
OLB/b.....local vendor preference
OLB/c.....recycled preference
OLB/d.....other: (specify)

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

SAMPLE NOTICE:

BOARD OF STANDARDS AND APPEALS

NOTICE OF TYPE I NEGATIVE DECLARATION

Notice is hereby given that the New York City Board of Standards and Appeals, as lead agency for the City Environmental Quality Review process pursuant to Executive Order No. 91, as amended, and 6 N.Y.C.R.R., Parts 617.12 and 617.7 and 6 N.Y.C.R.R., Part 617.2 (y), has determined that the following proposal will not have significant environmental impacts.

The action involves an application for a BSA use variance pursuant to Z.R. §72-21 to permit, in an M1-5A zoning district, the proposed construction of a mixed-use building with retail uses (Use Groups 6A and 6C) on the ground floor and residential uses (Use Group 2) on the remaining floors. The project site is located within the SoHo Cast Iron Historic District at 19/35 West Houston Street (Block 513, Lots 12 & 21) in the Borough of Manhattan.

Thursday, April 23, 1998 – Grinton I. Will Library, 1500 Central Park Avenue, Yonkers, NY, Auditorium

Wednesday, April 29, 1998 – Yorktown Town Hall, 363 Underhill Avenue, Corner of Underhill and Route 118, Yorktown Heights, NY

Thursday, May 7, 1998 – Lehman College of CUNY, Bedford Park Boulevard West, Bronx, NY, Gillette Hall

NOTICE ERRATUM

In section 2 of the Croton Water Supply System Extended Special Study Program Report dated November, 1997 there are several references to a 25% public ownership of water and as a "target" being desired by the US Environmental Protection Agency. The references are incorrect and should instead have referred to the 25% land ownership as being a New York State Sanitary Code "target".

METROPOLITAN TRANSPORTATION AUTHORITY TRANSIT AUTHORITY

NOTICE

The New York City Transit Authority (NYCTA) invites vendors interested in doing business with NYCT who have not yet listed themselves with NYCT to do so. Vendors on NYCT's bidders lists are informed of solicitations for the types of goods and services they provide. Vendors are required to complete an application to be added to our bidders lists. We will provide you with general information on doing business with NYCT and other MTA agencies. We encourage minority and women owned business enterprises to participate in our solicitations. NYCT purchases bus parts, rail car parts, rail, railroad ties and other maintenance of way items and a wide variety of other materials and equipment.
The bidders list application can be obtained in person at the Bid Reception Desk at the below address, or by contacting Mr. Don Mulhern at the NYCTA Vendor Performance Unit at (718) 694-4015.
MTA - New York City Transit, 130 Livingston Street, Room 160, Brooklyn, NY 11201. Bid Reception Desk, Monday - Friday, except holidays 9:00 am - 4:00 pm.

OFFICE OF MANAGEMENT AND BUDGET

NOTICE

CITY OF NEW YORK: OFFICE OF MANAGEMENT AND BUDGET
DEPARTMENT OF CITY PLANNING
COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM
NOTICE OF PROGRAM CHANGE
NOTICE OF AVAILABILITY OF PROPOSED CITY FISCAL YEAR 1999
COMMUNITY DEVELOPMENT PROGRAM

TO ALL AGENCIES, COMMUNITY BOARDS, GROUPS AND PERSONS:

Pursuant to Section 91.105(c) of the Department of Housing and Urban Developments (HUD) Consolidated Plan Regulations, the City proposes the following change in the 1998 Consolidated Plan/Twenty-Fourth Community Development Program Year (CD 24).

FROM: Department of Homeless Services (DHS)
Shelter Renovations ($857,000)
Shelter Security Services for the Homeless ($3,518,000)

TO: Dept. of Youth and Community Development
Beacon School Program $4,375,000

The proposed reduction to CD funding in the DHS programs will be replaced with City tax levy funds. This switch is being made to maximize the use of State matching funds for activities benefitting the homeless. The primary purpose of the Beacon School Program is to establish safe havens for youth that will provide drug and alcohol prevention and referral services, homework and tutorial assistance, reading labs and recreational activities such as basketball leagues, arts and crafts, and dance. Beacons may also offer services to a limited number of adults, particularly those whose children are enrolled in the Beacon School Program as well as senior citizens who will be engaged in intergenerational activities with the youth enrolled in the Beacon Program. Beacons are required to operate a minimum of six days per week, for a minimum of 42 hours. There are currently 41 Beacon School and Mini-Beacon School Programs with at least one program located in each of the 32 Community School Districts throughout the City. An additional 31 Beacon Schools and 8 Mini-schools are being created. Community Development will fund 15 of the Beacon programs serving low and moderate income areas. The Beacon School Program is scheduled to start on June 1, 1998.

The City also proposes other substantial changes to the 1998 Consolidated Plan related to the CD budget, effective July 1, 1998. The proposed changes to CD are identified in the "Proposed City Fiscal Year 1999 Community Development Program". This document also contains the Proposed Revised CD Year 24 Budget (which will be incorporated into the Amended 1998 Consolidated Plan) and the Proposed CD Year 25 Budget (which will be incorporated into the Proposed 1999 Consolidated Plan).

Written comments on the proposed changes should be directed to Irene Fanos, Consolidated Plan Coordinator, Department of City Planning, 22 Reade Street, 4th Floor, New York, New York 10007 by May 27, 1998.

The "Proposed City Fiscal Year 1999 Community Development Program" document is available, one copy per person or organization, at the following locations:

The Department of City Planning The Book Store 22 Reade Street 1st Floor New York New York 10007 10 a.m - 4 p.m.

The Office of Management and Budget 75 Park Place, 8th Floor Reception Area
New York, New York 10007 10 a.m. - 5 p.m.

City of New York: Joseph J. Lhota, Budget Director, Office of Management and Budget

Joseph B. Rose, Director, Department of City Planning
Date: April 27, 1998

BROOKLYN BOROUGH PRESIDENT

HEARINGS

The Brooklyn Borough President will conduct a public hearing on the following items on Wednesday, May 6, 1998 at 9:30 a.m. The hearing will be held in the Community Room on the First Floor of Brooklyn Borough Hall.

CALENDAR ITEM NO. 1 - Disposition of City-owned properties Community District 3 and 4

Two applications have been submitted by the Division of Real Estate Services for the disposition of city-owned parcels. (980354 PPK and 980363 PPK)

CALENDAR ITEM NO. 2 - 72 Precinct Parking Lot Community District 7

One application has been submitted by the New York City Police Department for the site selection and acquisition of property for use as a parking lot for the precinct at 830 4th Avenue. (980223 PCK)

CALENDAR ITEM NO. 3 - Brighton Beach Project Community District 13

Two applications have been filed by Alexander Muss & Sons, to modify the location and elevation of a visual corridor, and the modification of a restrictive declaration related to the "Brighton by the Sea" development (M910478 (A) ZMK and N980424 ZAK)

CALENDAR ITEM NO. 4 - Kings County Hospital Center Community District 9

Two applications have been submitted by the Deputy Mayor of Operations for the acquisition and disposition, and requisition and disposition to the Health and Hospitals Corporation for continued use as a hospital. (980443 PPK and 980444 PQK).

Persons interested in speaking at the public hearing may register at the hearing. All those present will be called to give testimony and will be limited to three minutes, unless extended by the Borough President.

Any hearing impaired person requiring the assistance of a sign language interpreter must request such assistance at least five business days prior to the day of the hearing. For further information about these hearings, any of the items being heard or to request a sign language interpreter, contact Jon Benguiat at (718) 802-3890 or Jennifer Corazzo at (718) 802-4056.

CITY PLANNING COMMISSION

HEARINGS

NOTICE IS HEREBY GIVEN THAT RESOLUTIONS have been adopted by the City Planning Commission scheduling public hearings on the following matters to be held in City Hall, New York, New York 10007, on Wednesday, May 6, 1998, commencing at 10:00 a.m.

BOROUGH OF BROOKLYN
CD 4 N 980429 HAK

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD) pursuant to Article 16 of the General Municipal Law of New York State for:

1) the designation of property generally located on the north side of Broadway between:

a) Jefferson Avenue and Hancock Street;
b)Covert and Schaeffer streets;
c) Decatur and Cooper streets; and
d)Moffat and Pilling streets;
as an Urban Development Action Area; and
2) an Urban Development Action Area Project for such area;
to facilitate commercial development under the ANCHOR/Partnership Retail Demonstration Program.

A list and description of the properties can be seen in the Brooklyn Office of the Department of City Planning, 16 Court Street, 7th floor, Brooklyn, NY 11241.

BOROUGH OF MANHATTAN
CD 4,5 C 980272 ZMM

(Proposed amendments to the zoning map and sections of the Zoning Resolution related to modifications to the Theater Subdistrict within the Special Midtown District, and the Perimeter Area of the Special Clinton District concerning bulk and use regulations, the preservation of theaters and the extension of the Theater Subdistrict to the west side of Eighth Avenue overlapping a portion of the Perimeter Area of the Special Clinton District.)

IN THE MATTER OF an application submitted by the Department of City Planning pursuant to Sections 197-c and 201 of the New York City Charter for **an amendment of the Zoning Map, Section Nos. 8c and 8d,** establishing a Special Midtown District within a portion of the Special Clinton District bounded by West 56th Street, Eighth Avenue, West 42nd Street, and a line 150 feet west of Eighth Avenue, as shown on a diagram (for illustrative purposes only) dated January 12, 1998.

BOROUGH OF MANHATTAN
CD 4,5 N 980271 ZRM

IN THE MATTER OF an application submitted by the Department of City Planning, pursuant to Section 201 of the New York City Charter, to amend various sections of the Zoning Resolution of the City of New York relating to the Theater Subdistrict within the Special Midtown District (Article VIII, Chapter 1), and the Special Clinton District (Article IX, Chapter 6), concerning use and bulk regulations, and the preservation of theaters, and other related sections concerning the reorganization and relocation of certain provisions relating to pedestrian circulation and subway stair relocation requirements and subway improvements.
Matter in **BOLDTONE** is new, to be added;
Matter in *ITAL* is old, to be deleted;
Matter within # # is defined in Section 12-10;
... indicate unchanged text omitted within a paragraph;
* * * indicate where unchanged text appears in the Zoning Resolution

ARTICLE III
COMMERCIAL DISTRICT REGULATIONS

* * *

Chapter 7
Special Regulations

* * *

The proposed Section 37-03 incorporates existing provisions of Section 81-47 (Off-street Relocation or Renovation of a Subway Stair) so that subway stair relocations or renovations city-wide will reference the same set of standards and procedures. No existing requirements will be removed or additional requirements imposed on Midtown. The proposed Section 81-47 will list the Midtown stations where relocations or renovations apply and reference the modified Section 37-03 for standards and procedures.

37-03
Off-Street Relocation **or Renovation** of a Subway Stair

37-031
Applicability of this Section

Where a #development# or #enlargement# is constructed on a #zoning lot# of *at least* 5,000 square feet **or more of #lot area#** that fronts on a portion of a sidewalk containing a stairway entrance or entrances into a subway station **located within the #Special Midtown District# as listed in Section 81-46 and those stations** listed in *this Section* **the following table**, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. The new entrance or entrances shall be provided in accordance with the provisions of this Section. *These provisions are in accordance with the New York City Transit Authority's "Station Planning Guidelines" (Revised, 1975, and as may be subsequently revised).*

A relocated or renovated subway stair may be counted as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

*37-03***237-031**
Standards for location, design and hours of public accessibility

In addition to the standards set forth in the **current station planning guidelines as issued by** New York City Transit *Authority's "Station Planning Guidelines" (Revised, 1975, and as may be subsequently revised)*, the following standards shall also apply:

(a)**Location**

The relocated **or renovated** entrance shall be immediately adjacent to, and accessible without any obstruction from a public sidewalk, *or from within a space accessible to the public, as those spaces are defined in the applicable zoning district regulations* **an #urban open space# or pedestrian circulation space as defined in Section 37-07 (Requirements for pedestrian circulation space). Any such #urban open space# or pedestrian circulation space shall have a minimum horizontal dimension equal to the width of the relocated stairs or the minimum width of the pedestrian circulation space, whichever is greater**.

*(b)*The relocated **or renovated** entrance may be provided within a #building#, but shall not be enclosed by any doors. The area occupied by a relocated **or renovated** entrance within a #building# shall not be counted towards the #floor area# of the #enlargement# or #development#.

Paragraphs (c) through (h) have been modified and rearranged as paragraph (b). Additional information from Section 81-47(b) has been incorporated.

(*c*b)**Design standards**

The relocated or renovated entrance shall have a stair width of at least eight feet for each run.

(c)The relocated entrance shall have a queuing space at the top and bottom of the stairs at least eight feet wide and 15 feet long, and such queuing space may overlap a #sidewalk widening#, an #arcade#, a #plaza#, a #residential plaza# or an #urban plaza#.

*(d)*Where two or more existing stairway entrances are being relocated **or renovated** as part of the same #development# or #enlargement#, the new entrance or entrances shall have *a* total stair *width or* widths equal to or greater than the sum of the stair widths of those **existing** stairway entrances *being relocated*, but in any case no less than eight feet in width.

The relocated entrance may be relocated within an #urban plaza#, provided that the minimum width of the stairs is ten feet and the queuing area of the relocated entrance is unobstructed and contiguous to a sidewalk or a sidewalk widening. A relocated entrance within an #urban plaza# is a permitted obstruction, but shall not be subject to the percentage limit on permitted obstructions for an #urban plaza#.

*(c)***For a relocated entrance only, the entrance shall have a queuing space at the top and bottom of the stairs that is at least eight feet wide and 15 feet long. Such queuing space may overlap with an #urban plaza# or an #arcade# in accordance with the provisions of Sections 27-60 (ARCADES) or 37-073 (Design standards for pedestrian circulation spaces).**

No stairway shall have more than 14 risers without a landing, and each landing shall have a minimum width equal to the width of the stairs, and a minimum length of five feet.

Throughout the entire stairway entrance, including passageways, the minimum clear, unobstructed height shall be at least 7 feet, 6 inches from finished floor to finished ceiling, including all lighting fixtures and #signs#.

*(e)*The entire entrance area, including passageways, shall be free of obstructions of any kind, except for projecting information signage.

(f)The relocated entrance may be relocated within a #plaza#, a #residential plaza# or an #urban plaza# provided that the queuing area of the relocated entrance is unobstructed and contiguous to a sidewalk or a #sidewalk widening#. A relocated entrance with a #plaza#, a #residential plaza# or an #urban plaza# is permitted obstruction, but shall not be subject to the percentage limit on permitted obstructions for a #plaza#, a #residential plaza# or an #urban plaza#.

*(g)*The relocated entrance shall connect to an existing or proposed subway passageway, or shall connect, via an underground passageway, to a mezzanine area of the subway station.

*(h)*The below-grade portion of a relocated entrance may be constructed within the #street#.

(c) Hours of public accessibility

*(i)*The relocated **or renovated** entrance shall be accessible to the public during the hours when the connected mezzanine area is open to the public or as otherwise approved by *the* **New York City** Transit *Authority*.

*37-033***37-032**
Administrative procedure for a subway stair relocation **or renovation**

*(a)***For any #development# or #enlargement# that is subject to the requirements for the relocation of a subway stair entrance or counts a renovated or reconstructed subway stair as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space), *Except as otherwise provided in paragraph (b) of this Section,*** no plan shall be approved by the Department of Buildings and no excavation permit or building permit shall be issued *for any #development# or #enlargement# that is subject to the requirements for the relocation of a subway stair entrance*, unless **the following criteria are met**:

(*1*a)**for a relocated entrance, Such** plan includes a stair relocation plan and *the* related documents that bind the developer to:

(*i*1)construct the new stair entrance in accordance with such plan;

(*ii*2)demolish above-ground elements of the existing entrance; *and*

(*iii*3)seal the existing entrance at the sidewalk level.; **and**

(4)maintain the work performed on the relocated or renovated entrance; or

(2b)**for a renovated or reconstructed entrance, such plan includes a renovation or reconstruction plan and related documents that bind the developer to:**

(1)renovate or reconstruct the entrance in accordance with such plan; and

(2)maintain the work performed on the renovated or reconstructed entrance; and

(2c)Such plan and related documents bear *the* **New York City** Transit *Authority*'s approval ;

(3d)Such plan is accompanied by a certified copy of an agreement, as recorded between *the* **New York City** Transit *Authority* and the owner for an easement on the #zoning lot# for subway-related use of the new stair entrance and for public access via such entrance to the subway station, which agreement has been recorded against the #zoning lot# in the Office of the Register of the City of New York *(County of New York)* and is accompanied by the Register's receipt of recordation.; **and**

(4)Such plan is accompanied by any request for modification of special urban design guidelines pursuant to Section 37-034.

(b)In the event that major construction problems render the stair relocation infeasible or that operating design considerations make it undesirable, the Transit Authority and the City Planning Commission, by joint certification, may release the developer from said requirement. In such event, the stair relocation requirement shall be satisfied by retention of the existing stair and provision on the #zoning lot# of an open area which accommodates pedestrian traffic passing the existing entrance. Such space shall have a width equal to at least one and one-half times the width of the existing stair entrance and shall extend along the full length of the stair entrance. ***Incorporated into Section 37-034.***

(ce)**no permanent certificate of occupancy shall be issued for any #development# or #enlargement# subject to the subway stair relocation requirement or counting a renovated or reconstructed subway stair as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space), unless and until all of the work required under paragraphs (a) or (b) of this Section has been completed and New York City Transit has so certified in writing to the Department of Buildings.** *Prior to obtaining a permanent certificate of occupancy, the relocated subway stair must be 100 percent complete in accordance with the approved plans and such completion shall have been certified by the Transit Authority.*

37-034 **37-033**
Modification of *special urban design guidelines and urban open space* **requirements for a relocated or renovated subway stair**

The City Planning Commission may, by certification to the Commissioner of Buildings, allow modifications of the requirements of Section 37-01 (Special Urban Design Guidelines - Streetscape), Section 37-02 (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), and the applicable provisions of #urban open space# in Section 12-10 (DEFINITIONS), if it finds that the relocated subway stair cannot be accommodated without modification to these provisions.

Sections 37-01 (Special Urban Design Guidelines – Streetscape), 37-02 (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), 37-031 (Standards for location, design and hours of public accessibility) and 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas) may be modified if the Chairperson of the City Planning Commission certifies to the Commissioner of Buildings that a relocated subway stair cannot be accommodated in any reasonable way without modification of these provisions.

* * *

*37-035***37-034**
Waiver of requirements

Upon application the City Planning Commission may authorize a waiver of requirements of Section 37-03 if the Commission finds that:

(a)the total #floor area# of all #developments# or #enlargements# after November 8, 1984, is less than 70,000 square feet; or

(b)there are major structural problems in creating space for a relocated stairway entrance in the existing #building#; or

(c)the space in an existing #building# which is required to relocate the stairway entrance is occupied by a tenant on a lease which was in effect prior to March 1, 1984, to which a member of the Bar of the State of New York shall attest, and that there is no opportunity to relocate the tenant within the #enlargement#.

As a condition for granting such waiver the Commission shall determine that:

(1)in the case of paragraph (a), the City Planning Commission and the Transit Authority may require an easement to accommodate the future relocation of the subway stairway in accordance with the New York City Transit Authority's "Station Planning Guidelines" (Revised, 1975, and as may be subsequently revised);

(2)in the case of paragraphs (a) or (b), no construction is undertaken that would preclude the future relocation of a stairway entrance from the sidewalk to the #zoning lot#;

(3)in the case of paragraph (c), that at the expiration of the existing lease the applicant shall undertake the relocation of the stairway entrance according to the provisions of this Section.

The provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair) may be waived by joint certification of New York City Transit and the Chairperson of the City Planning Commission that major construction problems or operating design considerations render the stair relocation infeasible. In such event, the stair relocation requirement may be satisfied by retention of the existing stair and the provision on the #zoning lot# of an open area, qualifying under the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space), that accommodates pedestrian traffic passing the existing stair entrance. ***Adapted from Section 37-032(b).***

* * *

The requirements for pedestrian circulation space will be relocated from Section 81-45 in Midtown to a new Section 37-07. No changes to these requirements are proposed, nor will any requirements be added. All special districts of the city that have requirements for pedestrian circulation space will refer to 37-07 for a common set of standards. Any specific pedestrian circulation space requirements that are unique to a special purpose district will remain in the special purpose district text.

37-07
Requirements for Pedestrian Circulation Space

All pedestrian circulation space required pursuant to the provisions of any special purpose district shall comply with the provisions of this Section.

37-071
Amount of pedestrian circulation space

The minimum amount of pedestrian circulation space to be provided for #developments# or #enlargements# shall be determined by the following table:

MINIMUM PEDESTRIAN CIRCULATION SPACE REQUIREMENTS

Size of #zoning lot#FRLD Required #floor area#
MDIU
5,000 to 20,000 square feetFRLD 1 square foot per 350 square feet of new #floor area#

Above 20,000 square feetFRLD 1 square foot per 300 square feet of new #floor area#

37-072
Types of pedestrian circulation space

The pedestrian circulation space provided shall be of one or more of the following types: an arcade, building entrance recess area, corner arcade, corner circulation space, relocation or renovation of a subway stair, sidewalk widening, subway station improvement, through #block# connection or #urban plaza#.

Each #zoning lot# shall be categorized as either a #corner lot#, #through lot# or #interior lot#, and pedestrian circulation space shall be provided on each #zoning lot# in at least one of the applicable types, or combinations of types, specified in the following table:

PROVISION OF PEDESTRIAN CIRCULATION SPACE ON CERTAIN TYPES OF LOTS

Type of Pedestrian Circulation Space
#Corner lot# #Through lot#
#Interior lot# Arcade X X
X Building entrance recess area
X X X Corner
arcade X Corner circulation
space X Relocation or
renovation of subway stair X X
X Sidewalk widening X
X X Subway station
improvement X X X
Through #block# connection X
X Urban plaza# X X
X

Minimum design standards for each type of pedestrian circulation space and, where applicable, the maximum amount of each type of pedestrian circulation space that may be counted towards meeting the requirements of Section 37-071 (Amount of pedestrian circulation space) are set forth in Section 37-073 (Design standards for pedestrian circulation spaces).

37-073
Design standards for pedestrian circulation spaces

(a) Arcade

Arcades shall not be subject to the provisions of Sections 12-10 (DEFINITIONS) and 27-60 (ARCADES). In lieu thereof, the provisions of this Section shall apply.

An arcade is a continuous covered space that adjoins and extends along a #front lot line#, is at the same elevation as the adjoining sidewalk, is open for its entire length to the sidewalk except for columns and is accessible to the public at all times. An arcade shall be provided on the #wide street# frontage of a #zoning lot# of a new #development# or #enlargement# where the #zoning lot# lies directly adjacent to an existing arcade on a #wide street#, except where an existing #building# without an arcade extends along a portion of the #wide street front lot line# of the #zoning lot# containing the new #development# or #enlargement#. Where an arcade abuts another arcade, there shall be a clear, unobstructed passage between both arcades.

An arcade shall meet the following requirements:
(1)Dimensions

An arcade with columns shall have a minimum clear width of 10 feet, exclusive of all columns, and a maximum width of 15 feet, inclusive of columns. No column width shall be greater than five feet. Columns shall be spaced along the #street# with a minimum clear width between columns of 15 feet. An arcade shall have a clear height of not less than 12 feet and not more than 30 feet.

(i)On an #interior lot# or a #through lot# fronting on a #narrow street#, an arcade without columns is permitted only if:
(a)it has a continuous, unobstructed minimum length of 100 feet or, with the exception of the width of driveways for the required loading berths located at the #side lot line# of the #zoning lot#, is unobstructed for the full length of the new #building# frontage, whichever is greater; and

(b)the entire #front lot line# shall be unobstructed for the same depth of the arcade, except for that portion of the #front lot line# occupied by an existing #building#.

(ii)On an #interior lot# or a #through lot# fronting on a #narrow street#, an arcade with columns is permitted only if it connects directly to an existing arcade on an adjacent #zoning lot#, matching it in width and alignment and has a continuous, unobstructed minimum length beyond the existing adjacent arcade of at least 100 feet or, with the exception of the width of driveways for the required loading berths located at the #side lot line# of the #zoning lot#, is unobstructed for the full length of the new #building# frontage, whichever is greater.

(iii)On a #corner lot# fronting on a #narrow street#, an arcade is permitted only if it extends for the full length of the #street# frontage, with the exception of a driveway for a required loading berth located at the #side lot line# of the #zoning lot#, or if the arcade provides unobstructed pedestrian flow along such entire frontage in combination with one or more of the following other spaces with which it connects at one or both ends: a corner arcade, a #plaza#, an off-street rail mass transit access improvement, an intersecting sidewalk widening, an intersecting #street#, a relocated or renovated subway entrance, a through #block# connection, a through #block# galleria or an #urban plaza#.

(iv)On a #wide street#, an arcade shall be permitted, provided that:

(a)the arcade extends along the full length of the #street line# between intersecting #streets#; or

(b)in the case of a #building# that occupies less than the entire #street# frontage between intersecting #streets#, on a full #block#front #zoning lot#, unobstructed pedestrian flow along the entire frontage is provided on the #zoning lot# by the arcade in combination with one or more of the following #open spaces# with which the arcade connects at one or both ends: a corner circulation space, a #plaza#, an intersecting sidewalk widening or an #urban plaza#; or

(c)in the case of a #building# whose #zoning lot# occupies less than the entire #street# frontage between intersecting #streets#, the arcade connects with an existing arcade of matching width and alignment, a #plaza# or an #urban plaza# on an adjacent #zoning lot#, so that unobstructed pedestrian flow along the entire #block#front is provided by the

arcade in combination with such existing spaces.

(2)Full #block#front arcade

When a #zoning lot# occupies a full #block#front, both ends of the arcade on that #street# frontage shall be open and accessible directly from the sidewalk of the intersecting #street# or any other qualifying pedestrian circulation space.

(3)Permitted obstructions

Except for building columns, an arcade shall be free from obstructions of any kind.

(4)Specific prohibitions

No vehicular driveways, except as permitted under paragraph (a)(1) (Dimensions) of this Section, parking spaces, passenger drop-offs, loading berths or trash storage facilities are permitted within an arcade, nor shall such facilities be permitted immediately adjacent to an arcade.

In the Theater Subdistrict of the #Special Midtown District#, where a new #building# or #enlarged# portion of an existing #building# provides an arcade, no obstructions, including columns, shall be permitted within such arcade, and the maximum height of such arcade shall be 20 feet and the maximum width shall be 10 feet.

(5)Illumination

All existing and new arcades shall maintain a minimum level of illumination of not less than five horizontal foot candles between sunset and sunrise.

(b)Building entrance recess area

A building entrance recess area is a space that adjoins and is open to a sidewalk or sidewalk widening for its entire length and provides unobstructed access to the building's lobby entrance or to the entrance to a ground floor #use#.

A building entrance recess area shall meet the following requirements:

(1)Dimensions

A building entrance recess area shall have a minimum length of 15 feet and a maximum length of 50 feet measured parallel to the #street line# at a building's lobby entrance and a maximum length of 30 feet parallel to the #street line# at a ground floor #use# entrance. It shall have a maximum depth of 15 feet measured from the #street line# and shall have a minimum depth of 10 feet measured from the #street line#.

(2)Obstructions

Any portion of a building entrance recess area under an overhanging portion of the #building# shall have a minimum clear height of 15 feet. It shall be free of obstructions except for building columns, between any two of which there shall be a clear space of at least 15 feet measured parallel to the #street line#. Between a building column and a wall of the #building#, there shall be a clear path at least five feet in width.

(3)Permitted overlap

A building entrance recess area may overlap with an arcade, a corner arcade, a corner circulation space or a sidewalk widening, and may adjoin or overlap and connect directly without obstruction to another building entrance recess area except that, on any one #street# frontage, each lobby or ground floor #use# shall connect to only one building entrance recess area.

(c)Corner arcade

A corner arcade shall not be subject to the provisions of Sections 12-10 (DEFINITIONS) and 27-60 (ARCADES). In lieu thereof, a corner arcade shall be a small covered space adjoining the intersection of two #streets# at the same elevation as the adjoining sidewalk or sidewalk widening and directly accessible to the public at all times.

A corner arcade shall meet the following requirements:

(1)Dimensions

(i)a corner arcade shall have a minimum area of 200 square feet, a minimum depth of 15 feet measured along a line bisecting the angle of intersecting #street lines#, and shall extend along both #street lines# for at least 15 feet but not more than 40 feet from the intersection of the two #street lines#; and

(ii)the height of a corner arcade shall be not less than 12 feet and a clear path at least 12 feet wide shall be provided from one #street line# to another #street line#.

(2)Permitted obstructions

Except for building columns, a corner arcade shall be free from obstructions of any kind.

(3)Specific prohibitions

The specific prohibitions pertaining to an arcade as described in paragraph (a)(4) of this Section shall also by applicable to a corner arcade.

(4)Permitted overlap

A corner arcade may overlap with an arcade; however, the area of overlap may only be counted once toward the fulfillment of the required minimum area of pedestrian circulation space.

(d) Corner circulation space

A corner circulation space is a small #open space# on the #zoning lot# of a #development# or #enlargement#, adjoining the intersection of two #streets#, at the same elevation as the adjoining sidewalk or sidewalk widening and directly accessible to the public at all times.

A corner circulation space shall meet the following requirements:

(1)Dimensions

A corner circulation space shall have the same minimum dimensions as a corner arcade, as described in paragraph (c)(1) of this Section.

(2)Obstructions

A corner circulation space shall be completely open to the sky from its lowest level, except for temporary elements of weather protection, such as awnings or canopies, provided that the total area of such elements does not exceed 20 percent of the area of the corner circulation space and that such elements and any attachments thereto are at least eight feet above #curb level#. A corner circulation space shall be clear of all other obstructions including, without limitation, door swings, building columns, #street# trees, planters, vehicle storage, parking or trash storage. No gratings, except for drainage, shall be permitted.

(3)Building entrances

Entrances to ground level #uses# are permitted from a corner circulation space.
An entrance to a building lobby is permitted from a corner circulation space, provided that the entrance is at no point within 20 feet of the intersection of the two #street lines# that bound the corner circulation space.

(4)Permitted overlap

A corner circulation space may overlap with a sidewalk widening.

(e)Relocation or renovation of a subway stair

When a #development# or #enlargement# is constructed on a #zoning lot# containing a relocated stairway entrance or entrances to a subway, or an existing stairway entrance or entrances to a subway, and such entrance or entrances are relocated or renovated in accordance with the provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair), one and a half times the area, measured at #street# level, of such entrance or entrances may count toward meeting the pedestrian circulation space requirement.

(f) Sidewalk widening

Sidewalk widenings provided to meet the requirements for pedestrian circulation space shall not be subject to the provisions of Sections 12-10 (DEFINITIONS), including the definition for #urban plaza#, and 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas). In lieu thereof, the provisions of this Section shall apply.

A sidewalk widening is a continuous paved open area along the #front lot line# of a #zoning lot# at the same elevation as the adjoining sidewalk and directly accessible to the public at all times. A sidewalk widening shall be provided on the #wide street# frontage of a #zoning lot# of a new #development# or #enlargement# where all existing #buildings# on the same #block# frontage, whether on the same or another #zoning lot#, provide sidewalk widenings.

A sidewalk widening shall meet the following requirements:

(1)Dimensions

A sidewalk widening shall have a width of no less than five feet nor more than 10 feet measured perpendicular to the #street line#, and shall be contiguous along its entire length to a sidewalk.

A sidewalk widening shall extend along the full length of the #front lot line# except for the portion of the #front lot line# interrupted by an existing #building# which is located at a #side lot line# or, in the case of a full #block# frontage, located at the intersection of two #streets#.

A required sidewalk widening on a #wide street# shall connect directly to any existing adjoining sidewalk widening and shall extend the entire length of the new #front lot line#.

The width of such a required sidewalk widening shall equal that of the existing adjoining sidewalk widening. If there is more than one such existing sidewalk widening, the width of such a required sidewalk widening shall equal that of the existing sidewalk widening that is longest.

A sidewalk widening is permitted on a #wide street# when not adjacent to an existing sidewalk widening only if either the sidewalk widening extends along the #street line# of the #wide street# for the full length of the #block# front, or the #zoning lot# is a #corner lot# and the sidewalk widening extends along the full length of the #street line# of the #wide street# to its intersection with the #street line# of the other #street# on which the #zoning lot# fronts.

Except for the permitted interruptions, as set forth in paragraph (f)(2) of this Section, a sidewalk widening is permitted on a #narrow street# only if it has a length of at least 100 feet.

(2)Permitted interruptions

Interruptions of the continuity of a qualifying sidewalk widening shall be permitted only under the following conditions:

(i)by an arcade that has a width equal to or greater than the width of the sidewalk widening and which is directly connected to the sidewalk widening;

(ii)if overlapped by a corner circulation space or a building entrance recess area that permits uninterrupted pedestrian flow;

(iii)if overlapped by an #urban plaza#, provided that the overlapping portion of such #urban plaza# conforms to the design standard of a sidewalk widening;

(iv)by an off-street subway entrance provided such an entrance is located at a #side lot line# or is located at the intersection of two #street lines#;

(v)if overlapped by the queuing space of a relocated or renovated subway entrance, provided that the queuing space for the entrance leaves at least a five foot uninterrupted width of sidewalk widening along the entire length of the queuing space; or

(vi)by a driveway that is located at a #side lot line#; however, where the #zoning lot# has a through #block# connection, a through #block# galleria or a through #block urban plaza# at such a #side lot line#, the location of its driveway is not restricted. The area occupied by the driveway, up to the width of the sidewalk widening, may be counted towards meeting the pedestrian circulation space requirement, provided that there shall be no change of grade within the area of the sidewalk widening.

(3) Permitted obstructions

A sidewalk widening shall be unobstructed from its lowest level to the sky except for those obstructions permitted under paragraph (f)(2) of this Section and for temporary elements of weather protection, such as awnings or canopies, provided that the total area of such elements, measured on the plan, does not exceed 20 percent of the sidewalk widening area, and that such elements and any attachments thereto are at least eight feet above #curb level#.

(4) Specific prohibitions

No #street# trees are permitted on a sidewalk widening. No vehicle storage, parking or storage of trash is permitted on a sidewalk widening. Gratings may not occupy more than 50 percent of the sidewalk widening area nor be wider than one half the width of the sidewalk widening.

(5) Special design treatment

When one end of the sidewalk widening abuts an existing #building# on the #zoning lot# or an existing #building# on the #side lot line# of the adjacent #zoning lot#, design treatment of the termination of the sidewalk widening is required to smooth pedestrian flow. The portion of the sidewalk widening subject to design treatment, hereinafter called the transition area, shall not extend more than 10 feet nor less than five feet along the sidewalk widening from its termination.

The transition area shall receive special design treatment which may include, but is not limited to, landscaping, sculpture or building transparency. The transition area shall be designed to effect a gradual change of the sidewalk widening width to match the #street wall# line of the existing #building# at the sidewalk widening's termination. This may be accomplished by a curved or diagonal edge of paving along a landscaped bed, the use of stepped edges of the #building# or other architectural treatment of the #building# or paving which avoids an abrupt visual termination of the sidewalk widening. Such special design treatment may be considered a permitted obstruction.

(g)Subway station improvement

For #developments# or #enlargements# that are granted a special permit pursuant to Section 74-634 (Subway station improvements in commercial zones of 10 FAR and above in Manhattan), no more than 3,000 square feet may count toward meeting the pedestrian circulation space requirement.

Paragraph (h) has been adapted from Section 81-46 (Through Block Connection) which will be deleted. No new requirements have been added.

(h) Through #block# connection

A through #block# connection is a paved open or enclosed space providing unobstructed access to the building's main lobby and connecting, in a straight continuous unobstructed path, two parallel or nearly parallel #streets#.

Up to a maximum of 3,000 square feet of a through #block# connection may count towards the minimum pedestrian circulation space requirement.

A through #block# connection shall meet the following requirements:

(1) Location

(i) A through #block# connection shall be located at least 150 feet from the intersection of two #streets#.

(ii)Where the #zoning lot# or a portion thereof is directly across a #street# from, and opposite to, an existing through #block# connection on an adjacent #block# and the existing connection is at least 150 feet from the intersection of two #streets#, the alignment of the new through #block# connection shall overlap with that of the existing connection. Such existing connection may also be a through #block# galleria, through #block urban plaza# or any through #block# circulation area with a minimum width of 12 feet, which is located within a #building#.

(iii)Where there are already two through #block# connections located on the same #block#, a new through #block# connection shall not count towards meeting the pedestrian circulation space requirement.

(iv)No through #block# connection shall be permitted on any portion of a #zoning lot# occupied by a landmark or interior landmark so designated by the Landmarks Preservation Commission, or occupied by a #building# whose designation as a landmark or interior landmark has been calendared for public hearing and is pending before the Landmarks Preservation Commission.

(2)Design standards for a through #block# connection

(i)A through #block# connection shall provide a straight continuous unobstructed path at least 15 feet wide. If covered, the clear unobstructed height of a through #block# connection shall not be less than 15 feet.

(ii)At no point shall the level of a through #block# connection be more than five feet above or below #curb level#. In all cases, the through #block# connection must provide a clear path, accessible to people with disabilities, through its entire length.

(iii)A through #block# connection may be located inside or outside of a #building#. The area of a through #block# connection located within a #building# shall be counted as #floor area#.

(iv)A through #block# connection located partially or wholly within a #building# shall adjoin and connect directly to the building's main lobby via unobstructed openings with an aggregate width exceeding that of any other entrances to the lobby.

(v)A through #block# connection located wholly or partially outside a #building# shall provide unobstructed access directly to the building's main lobby through the major entrance. For the purposes of this Section, the major entrance shall be that entrance to the main lobby which has the greatest aggregate width of clear openings for access.

(vi)Any portion of a through #block# connection located outside a #building#

shall be illuminated throughout with a minimum level of illumination of not less than five horizontal foot candles (lumens per candle). Such illumination shall be maintained throughout the hours of darkness.

(vii)A through #block# connection shall at a minimum be accessible to the public from 8:00 a.m. to 7:00 p.m. on the days the #building# or #development# is open for business and shall have posted, in prominent, visible locations at its entrances, signs meeting the standards set forth in paragraph (h)(2)(viii)(a) of this Section.

(viii)A through #block# connection shall provide the following information for public access at each public entry to the through #block# connection:

(a)For an unenclosed through #block# connection, the public access information shall be an entry plaque located at the entrance to the through #block# connection at each #street# frontage. The entry plaque shall contain:

(1)a public space symbol which is at least 14 inches square in dimension, has a white background, has a grid of four straight lines no greater than one-eighth inch wide and green in color and has a tree-shaped symbol as shown:

(Tree Symbol)

(2)lettering at least two inches in height stating "OPEN TO PUBLIC." This lettering shall be located within nine inches of the public space symbol; and

(3)an international Symbol of Access for people with disabilities that is at least three inches square.

The entry plaque shall be mounted with its center five feet above the elevation of the nearest walkable pavement on a wall or a permanent freestanding post. It shall be placed so that the entire entry plaque is obvious and directly visible without any obstruction, along every line of sight from all paths of pedestrian access to the through #block# connection, in a position that clearly identifies the entry to the connection.

(b)For an enclosed through #block# connection or a portion thereof:

(1)a public space symbol as described in paragraph (h)(2)(viii) of this Section, not less than six inches square, shall be mounted with its center five feet above the elevation of the nearest walkable pavement;

(2)lettering stating "PUBLIC ACCESS TO STREET," indicating the opposite #street# to which the through #block# connection passes and which lettering shall not be less than three inches in height and located not more than three inches away from the public space symbol; and

(3)lettering not more than two inches or less than one and a half inches in height stating "OPEN TO PUBLIC" with the hours and days of operation of the through #block# connection. This lettering shall be located not more than three inches from the public space symbol.

The above required information shall be permanently affixed on the glass panel of the entry doors of the through #block# connection clearly facing the direction of pedestrian flow. The information shall be located not higher than six feet or lower than three feet above the level of the pedestrian path at the entry, and shall be in a format and color which will ensure legibility.

(i)Urban plaza

A maximum of 30 percent of the area of an #urban plaza# that faces a #street# intersection, or provides access to a major building entrance, may be counted toward meeting the pedestrian circulation space requirement.

A maximum of 3,000 square feet of a through #block urban plaza# may be counted toward meeting the pedestrian circulation space requirement.

For all other #urban plazas#, the first 10 feet of depth from the #street line# may be counted toward meeting the pedestrian circulation space requirement, provided that the #urban plaza# conforms to the design standards of a sidewalk widening as set forth in paragraph (f) of this Section.

All #urban plazas# shall comply with Section 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas).

Any area of permitted overlap between pedestrian circulation spaces or other amenities shall be counted only once toward meeting the required amount of pedestrian circulation space. Unobstructed access shall be provided between overlapping spaces.

The following is a revision of Section 81-454 (Modification of design standards of pedestrian circulation spaces within existing buildings) , which will be deleted. No new requirements will be added.

37-074
Modification of design standards of pedestrian circulation spaces within existing buildings

The City Planning Commission may authorize a modification of any required minimum amount of pedestrian circulation space to be provided on #wide street# frontages and design standards, as indicated, for the following required pedestrian circulation spaces, to be provided within or under an existing #building# to remain on a #zoning lot#:

(a)Arcade: minimum width, minimum height, obstructions, minimum clear width between obstructions, minimum length, column sizes

(b)Building entrance recess area: minimum length, minimum depth from #street line#, minimum height, obstructions, clear space between obstructions and clear space between obstructions and building wall

(c)Corner arcade or corner circulation space: minimum depth, minimum width of clear path, minimum height, obstructions

(d)Through #block# connection: minimum width of unobstructed path, minimum height, through #block# level

The Commission may authorize a modification of design standards for pedestrian circulation spaces when the following conditions are met:

(1)a modification is needed because of the inherent constraints of the existing #building#;

(2)the modification is limited to the minimum needed because of the inherent constraints of the existing #building#; and

(3)the pedestrian circulation space being modified shall be equal in area, and substantially equivalent, to the required space in terms of quality, effectiveness and suitability for public use.

* * *

Existing Sections 81-53 and 74-634 both permit bonus floor area for subway station improvements in accordance with essentially the same requirements. They are proposed to be combined into one action under Section 74-634 which would apply city-wide. No new requirements would be added.

74-634
Subway station improvements in commercial zones of 10 FAR and above in Manhattan

The City Planning Commission may **grant,** by special permit, *after public notice and hearing and subject to a Board of Estimate action, grant* **a** #floor area# bonuses, *modify Section 37-01 (Special Urban Design Guidelines-Streetscape), Section 37-02 (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), the provisions of #urban open space# in Section 12-10 (DEFINITIONS), and in a C5-5 District, height and setback and #rear yard# regulations* **up to but not exceeding 20 percent of the basic maximum #floor area ratio# permitted by the underlying district regulations, and may waive or modify the provisions of Article III, Chapter 7 (Special Regulations) and the #street wall# continuity provisions of Section 81-43 (Street Wall Continuity Along Designated Streets)** for #developments# or #enlargements# **located on #zoning lots# where** *which provide* major improvements *for to* adjacent subway stations **are provided** in accordance with the provisions of this Section. **For the purposes of this Section, "adjacent" shall mean that upon completion of the improvement, the #zoning lot# will** *The subway stations in districts where such improvements may be constructed are listed in paragraph (a) of this Section. The #zoning lot# for the #development# or #enlargement# on which such #floor area# bonus is requested shall be adjacent to the subway station for which the improvement is proposed. In order for the #zoning lot# of the #development# or #enlargement# to qualify as "adjacent," it must* physically adjoin a **subway** station mezzanine, platform, concourse or connecting passageway, *with no tracks intervening to separate the #zoning lot# from these elements.* **Subway stations where such improvements may be constructed are those stations located within the #Special Midtown District# as listed in Section 81-511 (Subway Station Improvements) and those stations listed in the following table:**

(a)Bonus eligible subway stations by line and zone

#Developments# or #enlargements# which provide major improvements to adjacent subway stations are eligible for a #floor area# bonus which shall not exceed 20 percent of the basic maximum #floor area ratio# permitted by the underlying district regulations. The stations eligible for bonus are as follows:

Station Line District
Wall Street-Broadway IRT (Lexington Ave) *C5 5CR*
Fulton Street-Broadway IRT (Lexington Ave) *C5 5CR*
Brooklyn Bridge IRT (Lexington Ave) *C6 4*
8th Street BMT (Broadway) *C6 4*

The selection of subway station improvements shall be on a case-by-case basis and shall be subject to the approval of the Metropolitan Transportation Authority, New York City Transit and the City Planning Commission. All such improvements shall comply with all applicable design standards of the current station planning guidelines of New York City Transit.

(b)Compliance with Transit Authority design standards

The subway station improvement shall comply with all applicable design standards of the New York City Transit Authority's "Station Planning Guidelines" (Revised, 1975 and as may be subsequently revised).

(c)Procedure

(1)Pre-application

The applicant shall submit schematic or concept plans for the proposed improvement to the Metropolitan Transportation Authority, the Transit Authority and the City Planning Commission.

(2)Application pre-certification

After review and agreement on the concept by the Metropolitan Transportation Authority, Transit Authority and the City Planning Commission, the applicant shall submit necessary documentation in conformance with the New York City Transit Authority's "Guidelines for Submission and Approval of Outside Projects". Prior to certification by the City Planning Commission, the Transit Authority shall provide a letter to the Commission containing conceptual approval of the improvement and a statement of any special considerations regarding the Transit Authority's future operation of the improvement.

(3)The special permit application to the City Planning Commission shall include information and justification sufficient to provide the Commission with a basis for evaluating the benefits to the City from the proposed improvement and determining the appropriate amount of bonus #floor area# and for making the findings for the modifications of Section 37-01, Section 37-02 and height and setback regulations in C5-5 Districts.

(4)The special permit application shall include any request for modification of special urban design guidelines pursuant to Section 74-634 paragraph (e) and of height and setback and #rear yard# regulations pursuant to Section 74-634 paragraph (f).

(5)Uniform Land Use Review Procedure - certification

The City Planning Commission shall not certify any application under the Uniform Land Use Review Procedure until the requisite letter from the Transit Authority has been received and incorporated in the application. Such letter may be subject to subsequent execution of a final agreement with the developer.

(6)Prior to the granting of a special permit:

(i)the Transit Authority shall have submitted a letter to the City Planning Commission:

(a)stating that the drawings and other documents submitted by the applicant have been determined by the Transit Authority to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems; materials; relationship to existing site conditions; and such other elements as may be appropriate; and

(b)confirming that the construction of the subway improvement in accordance with such submission is feasible; and

(ii)the applicant shall sign a legally enforceable instrument, running with the land containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and maintain the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(7)The restrictive declarations and any instrument creating a transit easement on the #zoning lot# shall be recorded against the #zoning lot# in the Office of the Register of the City of New York for the borough in which the improvement or easement is being created, and a certified copy of the instrument shall be submitted to the City Planning Commission and the Transit Authority.

(8)Prior to obtaining a temporary certificate of occupancy for the bonus #floor area#, the bonused subway improvement shall be substantially complete, which shall, for this purpose, mean usable by the public, as determined by the Transit Authority.

(9)Prior to obtaining a permanent certificate of occupancy, the bonused subway improvement must be 100 percent complete in accordance with the approved plans and such completion shall have been certified by the Transit Authority.

(d)Floor area bonus

The amount of the #floor area# bonus shall be at the discretion of the City Planning Commission and may range from no #floor area# bonus to the maximum amount allowable by special permit pursuant to the provisions of this Section. For a #residential# or mixed-#use development#, when a #floor area# bonus is granted pursuant to this Section, alone or in combination with other bonuses, the #lot area# requirements of Section 23-20 (DENSITY REGULATIONS-REQUIRED LOT AREA PER DWELLING UNIT, LOT AREA PER ROOM, OR FLOOR AREA PER ROOM) and 35-40 (APPLICABILITY OF LOT AREA REQUIREMENTS TO MIXED BUILDINGS) shall not apply. Instead for every 750 square feet of gross #residential floor area# provided, there shall be not more than one #dwelling unit#. In determining whether to grant a special permit and the precise amount of #floor area# bonus pursuant to the special permit, the Commission shall make all of the following findings:

(1)the degree to which the station's general accessibility, rider orientation and safety will be improved by the provision of new connections, additions to circulation space or easing of circulation bottlenecks;

(2)provision of escalators or elevators where justified by traffic or depth of mezzanine or platform below #street# level;
(3)convenience and spaciousness of #street# level entrance and compatible relationship to the ground floor #uses# of the #development# or #enlargement#;

(4)improvements in the station's environment by provision for daylight access, or improvements to noise control, air quality, lighting or other architectural treatments.

(e)Modification of special urban design guidelines and urban open space

The City Planning Commission may modify the requirements of Section 37-01 (Special Urban Design Guidelines-Streetscape), Section 37-02 (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), and the requirement for #urban open space# in Section 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas) if it finds the provisions of a subway improvement cannot be accommodated without modification to these requirements.

(f)Modification of height and setback and yard regulations

In a C5-5 District, in the case of on-site subway station improvements that generate #floor area# bonus pursuant to Section 74-634, the City Planning Commission may permit modification of the applicable regulations in Sections 33-26 to 33-30, inclusive, relating to #rear yard# regulations, or in Sections 33-41 to 33-45, inclusive, relating to height and setback regulations.

The City Planning Commission may grant such modification upon consideration that the applicable height and setback or #rear yard# regulations cannot be complied with by some method feasible for the applicant to pursue because of the provision of a subway station improvement, the size or irregular shape of the lot, the size or irregular shape of the #block# or width of #streets#. The Commission shall also consider the characteristics of surrounding development. The Commission shall require, where appropriate, sufficient safeguards to insure the free flow of pedestrian and vehicular traffic in the general area.

The City Planning Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding area.

The following paragraphs incorporate existing requirements in the preceding paragraphs that are proposed to be deleted: (b), (c)(1) through (c)(9), (d)(1) through (d)(4), (e) and (f) – and those in Section 81-534 (Procedure) which would also be deleted.

(a)Pre-application requirements

Prior to submitting an application for a special permit pursuant to this Section, the applicant shall submit a schematic or concept plan for the proposed improvement to the Metropolitan Transportation Authority, New York City Transit and the Chairperson of the City Planning Commission.

(b)Requirements for application

An application for a special permit pursuant to this Section shall include a letter from New York City Transit to the City Planning Commission containing conceptual approval of the improvement and a statement of any special considerations regarding New York City Transit's future operation of the improvement. The applicant shall submit all information and justification sufficient to enable the Commission to:

(1)evaluate the benefits to the City;

(2)determine the appropriate amount of bonus #floor area#; and

(3)where applicable, assess the advantages and disadvantages of waiving or modifying #street wall# continuity requirements.

(c)Findings

(1)In determining the amount of #floor area# bonus, the City Planning Commission shall consider:

(i)the degree to which the general accessibility and/or security of the subway station will be improved by the provision of new connections, additions to or reconfiguration of circulation space, including provision of escalators or elevators; and

(ii)the degree to which significant improvements to the station's environment by provision for direct daylight access, or improvements to noise control, air quality, lighting or rider orientation and appropriate integration of the #street# level entryway into the #development# or #enlargement# will occur.

(2)In determining modifications to the requirements of Article 3, Chapter 7 (Special Regulations), the Commission shall find that the provisions of a subway improvement cannot be accommodated without modification to these requirements.

(3)In determining modifications to the #street wall# continuity provisions of Section 81-43 in the #Special Midtown District#, the Commission shall find that the modification will permit the proposed design to provide for improved access of daylight or air to the subway platform, mezzanine or concourse and that the advantages of such access outweigh the disadvantages incurred by the interruption of #street wall# and retail continuity.

(4)Within the #Special Midtown District#, for a #development# or #enlargement# within the Theater Subdistrict on a #zoning lot# containing a theater designated as listed pursuant to Section 81-742 (Listed theaters), the Commission shall find that the requirements of Section 81-743 (Required assurances for continuance of legitimate theater use) have been met.

(5)Within the #Special Midtown District#, for a #development# or #enlargement# located on a #zoning lot# divided by a Theater Subdistrict Core boundary, as defined in Section 81-71 (General Provisions), the amount of #lot area# eligible for determining permitted bonus #floor area# shall not exceed an amount equal to twice the #lot area# of that portion of the #zoning lot# located outside the Theater Subdistrict Core.

(d)Procedural requirements

Prior to the granting of a special permit, the City Planning Commission shall be provided with the following:

(1)a letter from New York City Transit stating that the drawings and other documents submitted by the applicant have been determined by New York City Transit to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems, materials, relationship to existing site conditions and such other conditions as may be appropriate, and that the construction of the subway improvement in accordance with such submission is feasible.

(2)a legally enforceable instrument running with the land and signed by the applicant and all parties in interest, other than parties in interest who have waived and subordinated their interests, containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and provide capital maintenance for the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(e) Density

For a #residential# or mixed #development#, when a #floor area# bonus is granted pursuant to this Section, alone or in combination with other bonuses, the #lot area# requirements of Sections 23-20 (DENSITY REGULATIONS-REQUIRED LOT AREA PER DWELLING UNIT, LOT AREA PER ROOM OR FLOOR AREA PER ROOM) and 35-40 (APPLICABILITY OF LOT AREA REQUIREMENTS TO MIXED BUILDINGS) shall not apply. Instead, for every 790 square feet of #residential floor area# provided, there shall be not more than one #dwelling unit#.

(g) Recordation & completion procedures

Any instrument creating a transit easement on the #zoning lot# shall be recorded against the #zoning lot# in the Office of the Register of the City of New York and a certified copy of the instrument shall be submitted to the City Planning Commission and New York City Transit. The applicant shall not apply for nor accept a temporary certificate of occupancy for the bonus #floor area#, and the Department of Buildings shall not issue such a temporary certificate of occupancy, until New York City Transit has determined that the bonused subway improvement is substantially complete which shall, for this purpose, mean open to and usable by the public.

The applicant shall not apply for or accept a permanent certificate of occupancy for the #development# or #enlargement#, nor shall the Department of Buildings issue such permanent certificate of occupancy, until the bonused subway improvement has been completed in accordance with the approved plans and such completion has been certified by New York City Transit.

The City Planning Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding area.

Chapter 1
Special Midtown District

81-00
GENERAL PURPOSES

The "Special Midtown District" established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

(a)to strengthen the business core of Midtown Manhattan by improving the working and living environments;

* * *

(h)to preserve, protect and enhance the character of the Theater Subdistrict as the location of the world's foremost concentration of legitimate theaters and an area of diverse uses of a primarily entertainment and entertainment-related nature;

(i)to strengthen and enhance the character of the Eighth Avenue Corridor and its relationship with the rest of the Theater Subdistrict and with the Special Clinton District;

(j)to create and provide a transition between the Theater Subdistrict and the lower-scale Clinton Community to the west;

*(i)***(k)**to preserve, protect and enhance the scale and character of Times Square, the heart of New York City's entertainment district, and the Core of the Theater Subdistrict, which are characterized by a unique combination of building scale, large illuminated signs and entertainment and entertainment-related uses;

*(j)***(l)**to preserve, protect and enhance the character of Fifth Avenue as the showcase of New York and national retail shopping;

*(k)***(m)**to preserve the midblock area around the Museum of Modern Art for its special contribution to the historic continuity, function and ambience of Midtown;
*(l)***(n)**to expand and enhance the pedestrian circulation network connecting Grand Central Terminal to surrounding development, to minimize pedestrian congestion and to protect the area's special character;

*(m)***(o)**to provide freedom of architectural design within limits established to assure adequate access of light and air to the street, and thus to encourage more attractive and economic building forms without the need for special development permissions or "negotiated zoning"; and

*(n)***(p)**to promote the most desirable use of land and building development in accordance with the District Plan for Midtown and thus conserve the value of land and buildings and thereby protect the City's tax revenues.

81-01
Definitions

For purposes of this Chapter, matter in italics is defined in Section 12-10 (DEFINITIONS), in Section 81-261 (Definitions), or in Section 81-271 (Definitions).

Special Midtown District
(repeated from Section 12-10)

The "Special Midtown District" is a Special Purpose District designated by the letters "MiD" in which special regulations set forth in Article VIII, Chapter 1, apply. The #Special Midtown District# appears on the #zoning maps# superimposed on other districts, and its regulations supplement and modify those of the districts on which it is superimposed.

Special Clinton District
(repeated from Section 12-10)

The #Special Clinton District# is a Special Purpose District designated by the letters "CL" in which the regulations set forth in Article IX, Chapter 6 apply.

81-02
General Provisions

81-021
Applicability of underlying district regulations

* * *

81-022
Applicability of Special Transit Land Use District regulations

* * *

81-023
Applicability of Special Clinton District Regulations

Wherever the #Special Midtown District# includes an area which also lies within the #Special Clinton District#, the regulations of the #Special Clinton District# as set forth in Article IX, Chapter 6, shall also apply. However, if there is any conflict or discrepancy between the regulations, the Special Midtown District regulations shall supersede the Special Clinton District regulations.

The portion of the #Special Clinton District# within the #Special Midtown District# includes the area bounded by a line 150 feet west of Eighth Avenue, West 56th Street, Eighth Avenue and West 42nd Street. The area is designated on the #zoning maps# by the letters CL-MiD.
*81-023***81-024**
Integration clauses

* * *

81-04
Subdistricts

In order to carry out the purposes and provisions of this Chapter, four special subdistricts are established within the #Special Midtown District#. In each of these subdistricts certain special regulations apply which do not apply in the remainder of the #Special Midtown District#. The subdistricts are outlined on Map 1 (Special Midtown District and Subdistricts) in Appendix A.

The subdistricts, together with the sections of this Chapter specially applying to each, are as follows:

Sections Having Subdistricts
Special Application
The Grand Central Subdistrict
81-60
The Theater Subdistrict
81-70
The Fifth Avenue Subdistrict
81-80
The Preservation Subdistrict 81-90

The subdistricts are also subject to all other regulations of the #Special Midtown District#, **and, where applicable pursuant to Section 81-023, the #Special Clinton District#,** and the underlying districts, except as otherwise specifically provided in the subdistrict regulations themselves.

81-062
Applicability of Chapter 4 of Article VII

Within the #Special Midtown District#, the following provisions regarding special permits by the City Planning Commission shall not be applicable:

Section 74-72(Bulk Modification)

Section 74-74(General Large-Scale Development)

Section 74-75(Educational Construction Fund Projects)

* * *

81-063
Regulations for Developments or Enlargements on Lots Divided by District Boundaries, Within or Partially Within the Theater Subdistrict

Within the Theater Subdistrict of the #Special Midtown District#, the provisions of Chapter 7 of Article VII (Special Provisions for Zoning Lots Divided by District Boundaries) are modified in part by the provisions of Section 81-746 (*Special modification of* **Additional** provisions for zoning lots divided by district **or subdistrict core** boundaries).

* * *

81-20
BULK REGULATIONS

81-21
Floor Area Ratio Regulations

The #floor area ratio# regulations of the underlying districts are modified in accordance with the provisions of this Section or Section 81-241 (Maximum floor area ratios for a residential building or the residential portion of a mixed building).

81-211
Maximum floor area ratio for non-residential or mixed buildings

(a)For non-#residential buildings# or #mixed buildings#, the basic maximum #floor area ratios# of the underlying districts shall apply as set forth in this Section.

(b)In the #Special Midtown District, the basic maximum #floor area ratio# on any #zoning lot# may be increased by bonuses or other #floor area# allowances only in accordance with the provisions of this Chapter, and the maximum #floor area ratio# with such additional #floor area# allowances shall in no event exceed the amount set forth for each underlying district in the following table:

PG
TABLE NOT INCLUDED - AVAILABLE IN HARD COPY FORMAT IN THE PRINTED CALENDAR, WHICH IS AVAILABLE FROM THE CALENDAR OFFICE AT 22 READE STREET, NEW YORK, NEW YORK 10007PG

81-22
As-of-Right Floor Area Bonuses

As-of-right #floor area# bonuses are not permitted in the #Special Midtown District#, except in accordance with the provisions of the following Sections:

Section 81-23 (Floor Area Bonus for Urban Plazas)

Section 81-748 (Floor area bonus for through block gallerias)

In addition, the provisions of Article II, Chapter 3, Section 23-90 (Inclusionary Housing) shall be applicable in that portion of the #Special Midtown District# which is also within the #Special Clinton District# pursuant to

Section 81-023 (Applicability of the Special Clinton District Regulations).

Any floor area bonus granted by certification for through block gallerias prior to (the effective date of this amendment) shall remain in effect, provided however that such certification shall automatically lapse if substantial construction, in accordance with the plans for which such certification was granted, has not been completed within four years from the effective date of such certification.

81-23
Floor Area Bonus for Urban Plazas

Within the #Special Midtown District#, for each square foot of #urban plaza# provided on a #zoning lot#, the basic maximum #floor area# permitted on that #zoning lot# under the provisions of Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings) may be increased by six square feet, provided that in no case shall such bonus #floor area# exceed a #floor area ratio# of 1.0.

This Section shall be applicable in all underlying districts throughout the #Special Midtown District#, except that:

(a)there shall be no #floor area# bonus for an #urban plaza# on #zoning lots# in the C5P District within the Preservation Subdistrict;

(b)no #development# or #enlargement# on a #zoning lot# shall receive a bonus for an urban plaza that is within 50 feet of a #street line# of a designated #street# on which retail or #street wall# continuity is required, pursuant to Sections 81-42 (Retail Continuity Along Designated Streets) or 81-43 (Street Wall Continuity Along Designated Streets);

(c)no #development# or #enlargement# on a #zoning lot#**, any portion of which is** within the Theater Subdistrict Core as defined in Section 81-71 (General Provisions), shall receive a bonus for an #urban plaza#; and

(d)there shall be no #floor area# bonus for an #urban plaza# on #zoning lots# in the Grand Central Subdistrict.

All #urban plazas# provided within the #Special Midtown District# shall comply with the requirements for #urban plazas# set forth in Section 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas).

A major portion of an #urban plaza# may overlap with a sidewalk widening which may be provided to fulfill the minimum pedestrian circulation space requirements set forth in Section 81-45 (Provision of Pedestrian Circulation Space), provided that the overlapping portion of the #urban plaza# also conforms to the design standards of Section *81-45* **37-07** for a sidewalk widening. Such sidewalk widening may be included in the major portion of an #urban plaza# for purposes of calculating the proportional restrictions set forth in Section 37-04, paragraph (e).

* * *

81-24
Floor Area, Density and Building Spacing Regulations for Residential Uses

81-241
Maximum floor area ratios for a residential building or the residential portion of a mixed building

For #residential buildings# or #residential# portions of #mixed buildings# in the #Special Midtown District#, the maximum #floor area ratio# for each underlying district is as follows:

(a)In the C5-P District the maximum #floor area ratio# is 8.0, and no additional #floor area# shall be allowed above this limit.

(b)In all underlying districts other than the C5-P District, except as provided in paragraph (c) of this Section, the maximum #residential floor area ratio# is 10.0.

(c)A #residential building# or the #residential# portion of a #mixed building# in any underlying district other than a C5-P, C6-4 or C6-5 District **or a #residential building# or the #residential# portion of a #mixed building# in a C6-4 or C6-5 District within the Theater Subdistrict which has been granted bonus #floor area# or other #floor area# allowances in accordance with the provisions of Section 81- 741 (General provisions),** shall qualify for a maximum #residential floor area ratio# of 12.0 if the #building# includes recreational space for the #residential# occupants in an amount not less than 6.5 square feet for each #room#, or a total area of at least 5,000 square feet, whichever is greater. The recreational space may be located at any level including a roof. Such recreational space shall:

(1)be restricted to #residential# occupants of the #building# and their guests for whom no admission or membership fees may be charged;

(2)be directly accessible from a lobby or other public area served by the #residential# elevators;

(3)be landscaped including trees or shrubbery, except where covered or developed with recreational facilities and seating areas;

(4)contain not less than 500 square feet of continuous area on a single level with no dimension of less than 15 feet;

(5)have not less than 50 percent of the area open from its lowest level to the sky. The remaining portion may be roofed and up to 50 percent of its perimeter may be enclosed. In no event may more than 25 percent of the required recreational space be fully enclosed. All enclosures shall be transparent except when located within the #building#. Covered areas shall contain recreational facilities or seating areas.

A copy of requirements (1) through (5) set forth in this paragraph shall be permanently posted in a conspicuous place within each recreational space.

(d)A #residential building# or the #residential# portion of a #mixed building# in a C6-4 or C6-5 underlying district within the Theater Subdistrict may qualify for bonus #floor area# or other #floor area# allowances in accordance with the provisions of Section 81- 741 (General provisions), provided that the #residential floor area ratio# with such #floor area# allowances shall not exceed 12.0 and that such #building# also provides recreational space for the #residential# occupants in accordance with the requirements of paragraph (c) of this Section.
(e)The applicable maximum #floor area ratio# for a #residential building# or the #residential# portion of a #mixed building# shall not be increased by any bonuses or other #floor area# allowances except as provided in paragraph (c) or (d) of this Section.

* * *

81-25
General Provisions Relating to Height and Setback of Buildings

For all #buildings# in the #Special Midtown District#, except as provided in Section 81-90 (SPECIAL REGULATIONS FOR PRESERVATION SUBDISTRICT), the height and setback regulations of the underlying districts, *including tower regulations,* are superseded by the provisions of this Section, and by the two alternate sets of regulations controlling the height and setback of #buildings#, as set forth in Sections 81-26 and 81-27 respectively.

An applicant for plan approval by the Department of Buildings may elect to be governed by the provisions of either Section 81-26 (Height and Setback Regulations - Daylight Compensation) or 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation) in addition to the provisions of this Section. *and of Section 81-622 (Special height and setback requirements) applicable to a #development# or #enlargement# within the Grand Central Subdistrict.*

This Section sets forth the provisions which are common to both sets of regulations.

* * *

81-40
MANDATORY DISTRICT PLAN ELEMENTS

* * *

81-43
Street Wall Continuity Along Designated Streets

* * *

Pedestrian circulation spaces may be provided to meet the requirements of Section 81-45 **(Pedestrian Circulation Space),** *81-46 or 81-47* subject to the setback restrictions of this Section and to the minimum length of the #street wall# subject to such setback restrictions. However, the City Planning Commission may waive such restrictions for a subway entrance area which is part of a subway station improvement for which bonus #floor area# is granted, in accordance with the provisions of Section *81-53* **81-511** (Subway Station Improvements).

* * *

No arcades, sidewalk widenings or #urban plazas# shall be permitted on Fifth Avenue, 42nd Street, 34th Street or 57th Street frontages. **Between 42nd and 56th Street, no arcades or #urban plazas# shall be permitted on Eighth Avenue.** Between 43rd and 50th Streets, no arcades or #urban plazas# shall be permitted on Seventh Avenue or Broadway and, with the exception of marquees and #signs#, any area between the Seventh Avenue or Broadway #street line# and any required #street wall# below the height of the first required setback, including permitted recesses, shall be open from #curb level# to the sky in its entirety. Any such area shall be at the same elevation as the adjoining sidewalk, directly accessible to the public at all times and free of all obstructions at ground level, including #street# trees. On the remaining #streets# designated for #street wall# continuity, arcades, if provided, shall be not less than 10 feet in depth and not more than 30 feet high. Arcades shall not be counted toward the recess allowances.
For #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway the minimum and maximum heights of #street walls# subject to the setback restrictions on all #street# frontages shall be in accordance with Section 81-75 (Special Street Wall and Setback Requirements).

For #zoning lots# located wholly or partially within the Eighth Avenue Corridor the minimum and maximum heights of #street walls# subject to the setback restrictions on all #street# frontages shall be in accordance with Section 81-75 (Special Street Wall and Setback Requirements.

On Fifth Avenue, the minimum required #street wall# height without setback shall be 85 feet and the maximum allowable #street wall# height without setback shall be 125 feet. Above the maximum #street wall# height, a setback of at least 10 feet shall be required. (See Section 81-83)

Existing #buildings# on a #zoning lot# shall be included in measurements of the #street wall#. No existing #building# shall be altered such that a #non-compliance# with the provisions of this Section is created, nor shall an existing degree of #non-compliance# with these provisions be increased.

* * *

81-45
Provision of Pedestrian Circulation Space

Within the boundaries of the #Special Midtown District#, except as provided in Section 81-453 (Exemptions from the pedestrian circulation space requirements), all new #developments# or #enlargements# on #zoning lots# of 5,000 square feet or larger and providing more than 70,000 square feet of new #floor area#, shall provide a minimum amount of pedestrian circulation space at the rate provided in Table A.

TABLE A
MINIMUM PEDESTRIAN CIRCULATION SPACE REQUIREMENTS
Lot Size in Minimum Area of Pedestrian Square Feet Circulation Space
5,000 to 20,000 1 square foot per 350 square feet
of new #floor area#

Above 20,000 1 square foot per 300 square feet
of new #floor area#

The pedestrian circulation space provided shall be of one or more of the following types: sidewalk widening, arcade, corner arcade, corner circulation space, building entrance recess area, through #block# connection, subway stair relocation, renovation or reconstruction of a subway stair pre-existing on the #zoning lot#, or off-street rail mass transit access improvement.

Each #zoning lot# shall be categorized as either a #corner lot#, #through lot# or #interior lot#, and pedestrian circulation space shall be provided on each #zoning lot# in at least one of the applicable types or combinations of types outlined in Table B.

Such pedestrian circulation space shall meet the requirements set forth in Sections 81-451 (Design standards for pedestrian circulation spaces), 81-46 (Through Block Connection), 81-47 (Off-Street Relocation or Renovation of a Subway Stair) or 81-49 (Off-Street Improvement of Access to Rail Mass Transit Facility). Arcades shall not be subject to the provisions of Section 27-60 (ARCADES), and sidewalk widenings shall not be subject to the provisions of Section 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas).

In addition, certain amenities for which bonuses are granted may count toward the minimum area of pedestrian circulation space in accordance with the provisions of Section 81-452 (Bonused amenities qualifying as pedestrian circulation spaces).

Any area of permitted overlap between pedestrian circulation spaces or amenities shall be counted only once toward the minimum area of pedestrian circulation space. Unobstructed access shall be provided between overlapping spaces.

TABLE B
LOT TYPE WHERE CIRCULATION SPACE MAY BE PROVIDED

Type of Circulation Space (Section 81-45)	*#Corner Lot#*	*#Through Lot#*	*#Interior Lot#*
Sidewalk Widening	*X*	*X*	*X*
Corner Circulation Space	*X*	*X*	*X*

Through #Block# Connection	*X*	*X*	*X*
Subway Stair Relocation of Renovation	*X*	*X*	*X*
Off Street Rail Mass Transit Access Improvement	*X*	*X*	*X*

arcades or sidewalk widenings shall be permitted on Fifth Avenue, 42nd Street, 34th Street or 57th Street frontages or on any #street# frontage within the Preservation Subdistrict. Between 43rd and 50th Streets, no arcades shall be permitted parallel to and along Seventh Avenue or Broadway and where pedestrian circulation space is provided along such #street# frontages, #signs# and marquees shall be permitted as exceptions to the requirements related to obstructions or permitted obstructions of Section 81-451 (Design standards for pedestrian circulation spaces). Special dimensional requirements for arcades and sidewalk widenings along designated #streets# are set forth in Section 81-43 (Street Wall Continuity along Designated Streets).

New #developments# or #enlargements# on a #zoning lot# having a full #block# frontage on a #wide street# other than Fifth Avenue, 42nd Street, 34th Street, or 57th Street shall provide a minimum of 50 percent of their required pedestrian circulation space on that #wide street#.

In the case of a #zoning lot# having two full #block# frontages on #wide streets#, this minimum amount may be allocated on either one or both #wide streets#; where each #street# bounding a #zoning lot# with at least one full #block# frontage is a #wide street#, the minimum amount may be allowed on one or more of those #wide streets#.

Within the #Special Midtown District#, all new #developments# or #enlargements# on #zoning lots# of 5,000 square feet or larger with more than 70,000 square feet of new #floor area# shall provide pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

The requirements for pedestrian circulation space may be met by providing one or more of the following types of spaces: arcade, building entrance recess area, corner arcade, corner circulation space, relocation or renovation of a subway stair, sidewalk widening, subway station improvement, through #block# connection or #urban plaza#. Design requirements and, where applicable, the maximum amount of each space that may be counted towards the minimum pedestrian circulation space requirement are set forth in Section 37-07 (Requirements for Pedestrian Circulation Space).

In addition, the following may be counted towards meeting the minimum pedestrian circulation space requirement:

(a)up to a maximum of 3,000 square feet of an access improvement to rail mass transit provided pursuant to Section 81-49 (Off-street Improvement of Access to Rail Mass Transit Facility);

(b)within the Theater Subdistrict, theater waiting space provided pursuant to Section 81-451 (Theater waiting space).

New #developments# or #enlargements# on a #zoning lot# having a full #block# frontage on a #wide street# other than Fifth Avenue, 42nd Street, 34th Street or 57th Street shall provide a minimum of 50 percent of their required pedestrian circulation space on that #street#. In the case of a #zoning lot# having two full #block# frontages on #wide streets#, this minimum amount may be allocated on either one or both #wide streets#; where each #street# bounding a #zoning lot# with at least one full #block# frontage is a #wide street#, the minimum amount may be allowed on one or more of those #wide streets#.

However, pedestrian circulation space shall not be required if any of the following conditions exist:

(a)the #zoning lot# is entirely occupied by a #building# of no more than one #story# in height;

(b)the #zoning lot# is an #interior lot# fronting on a #wide street# with less than 80 feet of #street# frontage;

(c)the #zoning lot# is an #interior# or #through lot# fronting only on a #street# or #streets# where arcades, sidewalk widenings or #urban plazas# are prohibited;

(d)the #zoning lot# is an #interior lot# fronting on either 34th Street, 42nd Street, 57th Street or Fifth Avenue, with another interior frontage of lesser length on any other #street#; or

(e)the #zoning lot# is a #through lot# with both #street# frontages less than 25 feet in length.

Arcades or sidewalk widenings shall not be permitted on 34th Street, 42nd Street, 57th Street or Fifth Avenue frontages or on any #street# frontage within the Preservation Subdistrict. Between 43rd and 50th Streets, no arcades shall be permitted parallel to and along Seventh Avenue or Broadway. Where pedestrian circulation space is provided along Seventh Avenue or Broadway between 43rd and 50th Streets, #signs# and marquees shall be permitted as exceptions to the requirements relating to obstructions or permitted obstructions in Section 37-07 (Requirements for Pedestrian Circulation Space). Special dimensional requirements for arcades and sidewalk widenings along designated #streets# are set forth in Section 81-43 (Street Wall Continuity Along Designated Streets).

81-451
Design standards for pedestrian circulation spaces
Theater waiting space

(a) Sidewalk widening

A sidewalk widening is a continuous paved open area along the #front lot line# of a #zoning lot# at the same elevation as the adjoining sidewalk and directly accessible to the public at all times. A sidewalk widening shall be provided on the #wide street# frontage of a #zoning lot# of a new #development# or #enlargement# where all existing #buildings# on the same #block# frontage, whether on the same or another #zoning lot#, provide sidewalk widenings. A sidewalk widening shall meet the following requirements:

(1)Dimensions

A sidewalk widening shall have a width of no less than 5 feet nor greater than 10 feet measured perpendicular to the #street line#, and shall be contiguous along its entire length to a sidewalk. Except for the permitted interruptions, as set forth in paragraph (a)(2), a sidewalk widening is permitted on a #narrow street# only if it has a length of at least 100 feet.

It shall extend along the full length of the #front lot line# except for the portion of the #front lot line# interrupted by an existing #building# which is located at a #side lot line# or, in the case of a full #block# frontage, located at the intersection of two #streets#. A required sidewalk widening on a #wide street# shall connect directly to any existing adjoining sidewalk widening and shall extend the entire length of the new #front lot line#.

The width of such a required sidewalk widening shall equal that of the existing adjoining sidewalk widening. If there is more than one such existing sidewalk widening, the width of such a required sidewalk widening shall equal that of the existing sidewalk widening that is longest.

A sidewalk widening is permitted on a #wide street# when not adjacent to an existing sidewalk widening only if either the sidewalk widening extends along the #wide street line# for the full length of the #block# front, or the #zoning lot# is a #corner lot# and the sidewalk widening extends along the full length of the #wide street street line# to its intersection with the other #street street line# on which the #zoning lot# fronts.

(2)Permitted interruptions

Only under the following conditions shall any interruptions of the continuity of a qualifying sidewalk widening be permitted:

(i)A sidewalk widening may be interrupted by an arcade which has a width equal to or greater than the width of the sidewalk widening and which is directly connected to the sidewalk widening.

(ii)A sidewalk widening may be overlapped by a corner circulation space or a #building# entrance recess area which permits uninterrupted pedestrian flow.

(iiiA sidewalk widening may be overlapped by an #urban plaza# as set forth in Section 81-23, provided that the overlapping portion of such #urban plaza# conforms to the design standard of a sidewalk widening.

(iv)An off-street subway entrance may interrupt a sidewalk widening provided such an entrance is located at a #side lot line# or is located at the intersection of two #street lines#.

(v)A sidewalk widening may be overlapped by the queuing space of a relocated or renovated subway entrance provided that the queuing space for the entrance leaves at least a 5 foot uninterrupted width of sidewalk widening along the entire length of the queuing space.

(vi)A sidewalk widening may be interrupted by a driveway that is located at a #side lot line#; however, where the #zoning lot# has a through #block# connection, or a through #block urban plaza#, or a through #block# galleria at such a #side lot line#, the location of its driveway is not restricted. The area occupied by the driveway, up to the width of the sidewalk widening, may be counted towards meeting the pedestrian circulation space requirement, provided that there shall be no change of grade within the area of the sidewalk widening.

(3) Permitted obstructions

A sidewalk widening shall be unobstructed from its lowest level to the sky except for those obstructions permitted under paragraph (5) of this Section and for temporary elements of weather protection, such as awnings or canopies, provided that the total area (measured on the plan) of such elements does not exceed 20 percent of the sidewalk widening area, and that such elements and any attachments thereto are at least 8 feet above #curb level#.

(4) Specific prohibitions

No #street# trees are permitted on a sidewalk widening. No vehicle storage, parking or trash storage is permitted on a sidewalk widening. Gratings may not occupy more than 50 percent of the sidewalk widening area nor be wider than one half the width of the sidewalk widening.

(5) Special design treatment

When one end of the sidewalk widening abuts an existing #building# on the #zoning lot# or an existing #building# on the #side lot line# of the adjacent #zoning lot#, design treatment of the termination of the sidewalk widening is required to smooth pedestrian flow. The portion of the sidewalk widening subject to design treatment, hereinafter called the transition area, shall not extend more than 10 feet nor less than 5 feet along the sidewalk widening from its termination.

The transition area shall receive special design treatment which may include, but is not limited to, landscaping, sculpture, or #building# transparency. The transition area shall be designed to effect a gradual change of the sidewalk widening width to match the #street wall# line of the existing #building# at the sidewalk widening's termination. This may be accomplished by a curved or diagonal edge of paving along a landscaped bed, the use of stepped edges of the #building#, or other architectural treatment of the #building# or paving which avoids an abrupt visual termination of the sidewalk widening. Such special design treatment may be considered a permitted obstruction.

(b) Corner circulation space

A corner circulation space is a small #open space# on the #zoning lot# of a #development# or #enlargement#, adjoining the intersection of two #streets#, at the same elevation as the adjoining sidewalk or sidewalk widening and directly accessible to the public at all times. A corner circulation space shall meet the following requirements:

(1)Dimensions
A corner circulation space shall have a minimum area of 200 square feet, a minimum depth of 15 feet measured along a line bisecting the angle of intersecting #street lines#, and shall extend along both #street lines# for at least 15 feet but not more than 40 feet from the intersection of the two #street lines#.

(2)Obstructions

A corner circulation space shall be completely open to the sky from its lowest level, except for temporary elements of weather protection, such as awnings or canopies; provided that the total area of such elements does not exceed 20 percent of the corner circulation space area; and that such elements and any attachments thereto are at least 8 feet above #curb level#. A corner circulation space shall be clear of all other obstructions including, without limitation, door swings, building columns, #street# trees, planters, vehicle storage, parking or trash storage. No gratings except for drainage are permitted.

(3)Building entrances

Entrances to ground level #uses# are permitted from a corner circulation space. An entrance to a building lobby is permitted from a corner circulation space, provided that the entrance is at no point within 20 feet of the intersection of the two #street lines# that bound the corner circulation space.

(4)Permitted overlap

A corner circulation space may overlap with a sidewalk widening.

(c) Arcade

An arcade is a continuous covered space which adjoins and extends along a #front lot line#, is at the same elevation as the adjoining sidewalk, is open for its entire length to the sidewalk except for columns and is accessible to the public at all times. An arcade shall be provided on the #wide street# frontage of a #zoning lot# of a new #development# or #enlargement# where the #zoning lot# lies directly adjacent to an existing arcade on a #wide street#, except where an existing #building# without an arcade extends along a portion of the #wide street front lot line# of the #zoning lot# containing the new #development# or #enlargement#.

An arcade shall meet the following requirements:

(1)Dimensions

An arcade with columns shall have a minimum clear width of 10 feet exclusive of all columns and a maximum width of 15 feet inclusive of columns. No column width shall be greater than 5 feet. Columns shall be spaced along the #street# with a minimum clear width between columns of 15 feet. An arcade shall have a clear height of not less than 12 feet.

(i)On an #interior lot# or a #through lot# fronting on a #narrow street#, an arcade without columns is permitted only if:

(a)it has a continuous unobstructed minimum length of 100 feet or, with the exception of the width of driveways for the required loading berths located at the #side lot line# of the #zoning lot#, the full length of the new #building# frontage, whichever is greater; and

(b)the entire #front lot line# shall be unobstructed for the same depth of the arcade, except for that portion of the #front lot line# occupied by an existing #building#.

(ii)On an #interior lot# or on a #through lot# fronting on a #narrow street#, an arcade with columns is permitted only if it connects directly to an existing arcade on an adjacent lot matching it in width and alignment and has a continuous, unobstructed minimum length beyond the existing adjacent arcade of at least 100 feet or, with the exception of the width of driveways for the required loading berths located at the #side lot line# of the #zoning lot#, for the full length of the new #building# frontage, whichever is greater.

(iii On the #narrow street# frontage of a #corner lot#, an arcade is permitted only if it extends for the full length of the #street# frontage, with the exception of a driveway for a required loading berth located at the #side lot line# of the #zoning lot#, or if the arcade provides unobstructed pedestrian flow along such entire frontage in combination with one or more of the following other spaces with which it connects at one or both ends: an intersecting #street#, an intersecting sidewalk widening, a corner arcade, a #plaza#, an #urban plaza#, a through #block# connection, a through #block# galleria, a relocated or renovated subway entrance, or an off-street rail mass transit access improvement.

(iv) On a #wide street#, an arcade is permitted only if:

(a) the arcade extends along the full length of the #street line# between intersecting #streets#; or

(b) in the case of a #building# that occupies less than the entire #street# frontage between intersecting #streets#, on a full #block# front #zoning lot#, unobstructed pedestrian flow along the entire frontage is provided on the #zoning lot# by the arcade in combination with one or more of the following #open spaces# with which the arcade connects at one or both ends: an intersecting sidewalk widening, a corner circulation space, a #plaza# or an #urban plaza#; or

(c) in the case of a #building# whose #zoning lot# occupies less than the entire #street# frontage between intersecting #streets#, the arcade connects with an existing arcade of matching width and alignment as required in this paragraph (iv)(c), a #plaza# or an #urban plaza# on an adjacent #zoning lot#, so that unobstructed pedestrian flow along the entire #block# front is provided by the arcade in combination with such existing spaces.

(2) Full #block# front arcade

When a #zoning lot# occupies a full #block# front, both ends of the arcade on that #street# frontage shall be open and accessible directly from the sidewalk of the intersecting #street# or any other qualifying pedestrian circulation space.

(3) Permitted obstructions

Except for building columns, an arcade shall be completely free from obstructions of any kind.

(4)Specific prohibitions

No vehicular driveways, except as permitted under paragraph (c)(1), parking spaces, passenger drop-offs, loading berths or trash storage facilities are permitted within an arcade, nor shall such facilities be permitted immediately adjacent to an arcade.

(5)In the Theater Subdistrict, where a new #building# or #enlarged# portion of an existing #building# provides an arcade, no obstructions, including columns, are permitted within such arcade, and the height and width of such arcade shall be limited to a maximum of 20 feet and 10 feet respectively.
(6)All existing and new arcades shall maintain a minimum level of illumination of not less than five horizontal foot candles between sunset and sunrise.

(d)Corner arcade

A corner arcade is a small covered space adjoining the intersection of two #streets# at the same elevation as the adjoining sidewalk or sidewalk widening and directly accessible to the public at all times. A corner arcade shall meet the following requirements:

(1)Dimensions

A corner arcade shall have the same minimum dimensions as a corner circulation space and in addition shall have a height of not less than 12 feet and shall provide a clear path at least 12 feet wide from one #street line# to another #street line#.

(2)Permitted obstructions

Except for building columns a corner arcade shall be free of obstructions of any kind.

(3)Specific prohibitions

Same as for an arcade.

(4)Permitted overlap

A corner arcade may overlap with an arcade; however, the area of overlap may only be counted once toward the fulfillment of the required minimum area of pedestrian circulation space.

(e)Building entrance recess area

A building entrance recess area is a space which adjoins and is open to a sidewalk or sidewalk widening for its entire length and provides unobstructed access to the building's lobby entrance or to a ground floor #use# entrance. A building entrance recess area shall meet the following requirements:

(1)Dimensions

A building entrance recess area shall have a minimum length of 15 feet and a maximum length of 50 feet measured parallel to the #street line# at a building's lobby entrance and a maximum length of 30 feet parallel to the #street line# at a ground floor #use# entrance. It shall have a maximum depth of 15 feet measured from the #street line#, and shall have a minimum depth of 10 feet measured from the #street line#.

(2)Obstructions

Any portion of a building entrance recess area under an overhanging portion of the #building# shall have a minimum clear height of 15 feet. It shall be free of obstructions except for building columns, between any two of which there shall be a clear space of at least 15 feet measured parallel to the #street line#. Between a building column and a wall of the #building#, there shall be a clear path at least 5 feet in width.

(3)Permitted overlap

A building entrance recess area may overlap with a sidewalk widening, an arcade, a corner arcade, or a corner circulation space and may adjoin or overlap and connect directly without obstruction to another building entrance recess area except that, on any one #street# frontage, each lobby or ground floor #use# shall connect to only one building entrance recess area.

(f) Through #block# connection

The design standards for a through #block# connection are set forth in Section 81-46 (Through Block Connection).

(g)Off-street relocation or renovation of a subway stair

The design standards for a relocated or renovated subway stair are set forth in Section 81-47 (Off-Street Relocation or Renovation of a Subway Stair).

(h)Off-street improvement of access to rail mass transit Facility

The design standards for an off-street rail mass transit access improvement are set forth in Section 81-49 (Off-Street Improvement of Access to Rail Mass Transit Facility).

Theater waiting space shall be an unobstructed area providing outdoor waiting space for a theater audience, located immediately adjacent to the sidewalk and to a theater listed in Section 81-742 (Listed Theaters) or a new theater designed and intended to show live theatrical performances. Theater waiting space may be located on the same #zoning lot# occupied by a theater or a #zoning lot# immediately adjacent to a theater, and shall meet the following requirements:

(a)such space shall adjoin and open onto a sidewalk or sidewalk widening for its entire length and shall have a minimum length of 30 feet measured parallel to the #street line# and a minimum clear depth of 10 feet measured perpendicular to the #street line# exclusive of any columns. Its level shall be entirely the same as that of the adjoining sidewalk. When located under an overhanging portion of a #building or other structure#, it shall have a minimum clear height of 15 feet and be free of any obstructions except for #building# columns;

(b)such space shall provide direct access to a #building's# entrance or the theater's lobby. Where the theater and the theater waiting space are on separate #zoning lots#, a plaque shall be provided within the theater waiting space adjacent to the theater stating that the space is available as a waiting area for the theater audience. Such plaque shall be placed between four feet and six feet above #curb level#, and shall be visible from the sidewalk;

(c)such space shall not adjoin a driveway or an off-#street# loading berth;

(d)the entire theater waiting space shall be illuminated with a minimum level of not less than eight horizontal foot-candles (lumens per foot), and

The theater waiting space may overlap with a sidewalk widening, an arcade, a corner arcade, a corner circulation space, or a building entrance recess area. However, the area of overlap may only be counted once toward the fulfillment of the required minimum area of pedestrian circulation space.

81-452
Bonused amenities qualifying as pedestrian circulation spaces

A portion of the following amenities, for which bonuses are granted pursuant to this Chapter, may be counted toward the minimum pedestrian circulation space requirements:

(a)Through #block# galleria (see Section 81-748), up to a maximum of 3,000 square feet.
(b)Through #block urban plaza# (see Section 81-23), up to a maximum of 3,000 square feet.

(c)#Urban plaza# (see Section 81-23)

(1)For an #urban plaza# that faces a #street# intersection or provides access to a major #building# entrance: 30 percent of the #urban plaza's# area.

(2)For other #urban plazas#: the first 10 feet of depth from the #street line#, provided that

it conforms to the design standards of a sidewalk widening.

(d)Subway station improvement (see Section 81-53), up to a maximum of 3,000 square feet.

81-453
Exemptions from the pedestrian circulation space requirements

Under any of the following conditions a #development# or #enlargement# shall not be required to provide pedestrian circulation space:

(a)the #zoning lot# is entirely occupied by a #building# of no more than one #story# in height;

(b)the #zoning lot# is an #interior lot# fronting on a #wide street# with frontage length less than 80 feet;

(c)the #zoning lot# is an #interior# or #through lot# fronting only on a #street# or #streets# where no arcade, sidewalk widening or #urban plaza# is permitted, such as Fifth Avenue, 42nd Street, 34th Street and 57th Street or any #street# within the Preservation Subdistrict;

(d)the #zoning lot# is an #interior lot# fronting on either Fifth Avenue, 42nd Street, 34th Street or 57th Street, with another interior frontage of lesser length on any other #street#; or

(e)the #zoning lot# is a #through lot# with both frontages less than 25 feet in length.

81-454
Modification of design standards of pedestrian circulation spaces within existing buildings

The City Planning Commission may authorize a modification of the minimum amount of pedestrian circulation space to be provided on #wide street# frontages as required in Section 81-45 (Provision of Pedestrian Circulation Space) and design standards, as indicated, for the required pedestrian circulation spaces listed below, to be provided within or under an existing #building# to remain on a #zoning lot#.

(a)Arcade: minimum width, minimum height, obstructions, minimum clear width between obstructions, minimum length, column sizes.

(b)Corner circulation space or corner arcade: minimum depth, minimum width of clear path, minimum height, obstructions.

(c)Entrance recess area: minimum length, minimum depth from #street line#, minimum height, obstructions, clear space between obstructions and clear space between obstructions and building wall.

(d)Through #block# connection: minimum width of unobstructed path minimum height, #curb level# relationship.

The Commission may authorize a modification of the above design standards when the following conditions are met:

(1)a modification is needed because of the inherent constraints of the existing #building#;

(2)the modification is limited to the minimum needed because of the inherent constraints of the existing #building#; and

(3)the pedestrian circulation space being modified shall be equal in area, and substantially equivalent to the required space in quality, effectiveness and suitability for public use.

81-46
Through Block Connection

A through #block# connection between two parallel or nearly parallel east-west #streets# may be provided for a #development# or #enlargement# on any #through lot# or #through lot# portion of a #corner lot# and may count toward the pedestrian circulation space requirements of Section 81-45 (Provision of Pedestrian Circulation Space) provided that it shall be located at least 150 feet from a north-south #street# and shall meet the standards set forth below in Section 81-461 (Locational standards) and in Section 81-462 (Design standards for a through block connection).

81-461
Locational standards

(a)A through #block# connection shall count as pedestrian circulation space meeting the requirements of Section 81-45 (Provision of Pedestrian Circulation Space) only if it is located not less than 150 feet from a north-south #wide street#.

(b)To count as pedestrian circulation space meeting the requirements of Section 81-45 (Provision of Pedestrian Circulation Space), a qualifying through #block# connection shall meet the following additional locational requirements:

(1)Where the #zoning lot# or a portion thereof is directly across a #street# from and opposite to an existing through #block# connection on an adjacent #block# to the north or south and the existing connection is at least 150 feet from a north-south #wide street#, the alignment of the new through #block# connection shall overlap with that of the existing connection. Such existing connection may also be a through #block# galleria, through #block urban plaza# or any through #block# circulation area with a minimum width of 12 feet, which is located within a #building#.

(2)Where there are already two through #block# connections located on the same #block#, a new through #block# connection shall not count as pedestrian circulation space meeting the requirements of Section 81-45 (Provision of Pedestrian Circulation Space).

(3)Notwithstanding the provisions of paragraphs (1) and (2) of this Section, no through #block# connection shall be permitted on any portion of a #zoning lot# occupied by a landmark or interior landmark so designated by the Landmarks Preservation Commission or occupied by a #building# whose designation as a landmark or interior landmark has been calendared for public hearing and is pending before the Landmarks Preservation Commission.

81-462
Design standards for a through block connection

A through #block# connection is a paved open or enclosed space providing unobstructed access to the #building's# main lobby and connecting, in a straight continuous unobstructed path, two parallel or nearly parallel #streets#. A through #block# connection shall meet the following requirements:

(a)A through #block# connection shall provide a straight continuous unobstructed path at least 15 feet wide. If covered, the clear unobstructed height of a through #block# connection shall not be less than 15 feet.

(b)At no point shall the level of a through #block# connection be more than five feet above or below #curb level#. In all cases, the through #block# connection must provide through its entire length a clear path accessible to the handicapped.

(c)A through #block# connection may be located inside or outside of a #building#. The area of a through #block# connection located within a #building# shall be counted as #floor area#.

(d)A through #block# connection located partially or wholly within a #building# shall adjoin and connect directly to the #building's# main lobby via unobstructed openings with an aggregate width exceeding that of any other entrances to the lobby.

(e)A through #block# connection located wholly or partially outside a #building# shall provide unobstructed access directly to the #building's# main lobby through the major entrance. For the purposes of this Section, the major entrance shall be that entrance to the main lobby which has the greatest aggregate width of clear openings for access.

(f)Any portion of a through #block# connection located outside a #building# shall be illuminated throughout with a minimum level of illumination of not less than five horizontal foot candles (lumens per candle). Such illumination shall be maintained throughout the hours of darkness.

(g)A through #block# connection shall at a minimum be accessible to the public from 8:00 a.m. to 7:00 p.m. on the days the #building# or #development# is open for business and shall have posted in prominent, visible locations at its entrances signs meeting the standards set forth in paragraph (h) of this Section.

(h)A through #block# connection shall provide the following information for public access at each public entry to the through #block# connection:

(1)For an unenclosed through #block# connection, the public access information shall be an entry plaque located at the entrance to the through #block# connection at each #street# frontage. The entry plaque shall contain:

(i)a public space symbol which is at least 14 inches square in dimension; has a white background; has a grid of four straight lines no greater than one-eighth inch wide and green in color; and has a tree shaped symbol as shown:

(Tree Symbol)

(ii)lettering at least two inches in height stating "OPEN TO PUBLIC." This lettering shall be located within nine inches of the public space symbol; and

(iiian international Symbol of Access for the physically handicapped at least three inches square.

The entry plaque shall be mounted with its center five feet above the elevation of the nearest walkable pavement on a wall or a permanent free standing post. It shall be placed so that the entire entry plaque is obvious and directly visible without any obstruction, along every line of sight from all paths of pedestrian access to the through #block# connection, in a position that clearly identifies the entry to the connection.

(2)For an enclosed through #block# connection or a portion thereof:

(i)a public space symbol as described in paragraph (h)(1)(i) of this Section, not less than six inches square, shall be mounted with its center five feet above the elevation of the nearest walkable pavement;

(ii)lettering stating "PUBLIC ACCESS TO STREET," indicating the opposite #street# to which the through #block# connection passes. This lettering shall not be less than three inches in height and located not more than three inches away from the public space symbol and

(iii lettering not more than two inches or less than one and a half inches in height stating "OPEN TO PUBLIC" with the hours and days of operation of the through #block# connection. This lettering shall be located not more than three inches from the public space symbol.

The above required information shall be permanently affixed on the glass panel of the entry doors of the through #block# connection clearly facing the direction of pedestrian flow; the information shall be located not higher than six feet or lower than three feet above the level of the pedestrian path at the entry, and shall be in a format and color which will ensure legibility.

*81-47***81-46**
Off-Street Relocation or Renovation of a Subway Stair

Where a #development# or #enlargement# is constructed on a #zoning lot# which fronts on a sidewalk containing a stairway entrance or entrances into a subway and such #zoning lot# contains 5,000 square feet or more of #lot area#, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. The new entrance or entrances shall be provided in accordance with the provisions of Sections 81-471 (Standards for location and design) and 81-473 (Administrative procedure for subway stair relocation or renovation).

Where a #development# or #enlargement# is constructed on a #zoning lot# containing an existing stairway entrance or entrances into a subway and such entrance or entrances are renovated or reconstructed in accordance with the provisions of Sections 81-471 and 81-473, such entrance or entrances may count as pedestrian circulation space as set forth in Section 81-472 (Relocated or renovated subway stair as pedestrian circulation space).

81-471
Standards for location and design

(a) Location

The relocated or renovated entrance shall be immediately adjacent to, and accessible without any obstruction from a public sidewalk or at least one of the following public spaces, which shall have a minimum horizontal dimension equal to the width of the relocated stairs:

sidewalk widening (Section 81-45)
corner circulation space (Section 81-45)
arcade (Section 81-45)
corner arcade(Section 81-45)
building entrance recess area(Section 81-45)
#urban plaza# (Section 81-23)
The relocated or renovated entrance may be provided within a #building# but shall not be enclosed by any doors. The area occupied by a relocated or renovated entrance within a #building# shall not be counted toward the #floor area# of the #development# or #enlargement#.

(b) Design standards

The following standards are taken from the current New York City Transit Authority's station planning guidelines.

The relocated or renovated entrance shall have a stair width of at least eight feet for each run.

No stairway shall have more than 14 risers without a landing, and each landing shall have a minimum width equal to the width of the stairs, and a minimum length of 5 feet.

Throughout the entire stairway entrance, including passageways, the minimum clear, unobstructed height shall be at least 7 feet 6 inches from finished floor to finished ceiling, including all lighting fixtures and #signs#.

The relocated or renovated stairway entrance shall meet Transit Authority standards and requirements for all of the following: riser and tread relationships, handrails, passageways, ramps, lighting, finish material, ventilation, information signage, and (where provided) weather protection.

In addition and for a relocated entrance only, the relocated entrance shall have a queuing space at the top and bottom of the stairs at least 8 feet wide and 15 feet long. Such queuing space may overlap with a sidewalk widening, or an arcade, or an #urban plaza#.

Where two or more existing stairway entrances are being relocated and/or renovated as part of the same #development#, the new entrance or entrances shall have total stair widths whose sum is equal to or greater than the sum of the stair widths of those existing stairway entrances. The entire entrance area, including passageways, shall be free of obstructions of any kind, except for projecting information signage.

The relocated or renovated entrance may be located within an #urban plaza#, provided that the minimum width of the stairs is 10 feet and the queuing area required for a relocated entrance is unobstructed and contiguous to a sidewalk or a sidewalk widening. A relocated or renovated entrance within an #urban plaza# is a permitted obstruction, but shall not be subject to the percentage limit on permitted obstructions for an #urban plaza#.

The relocated or renovated entrance shall connect to an existing or proposed subway passageway or shall connect, via an underground passageway, to a mezzanine area of the subway station.

The below-grade portion of a relocated or renovated entrance may be constructed within the #street#.

These standards may be modified or waived by the City Planning Commission upon a finding that their enforcement would not contribute to good site planning.

(c) Hours of public accessibility

The relocated or renovated entrance shall be accessible to the public during the hours when the connected mezzanine area is open to the public or as otherwise approved by the Transit Authority.

81-472
Relocated or renovated subway stair as a pedestrian circulation space

One and a half times the area, measured at #street# level, of either of the following types of subway stair entrances may count toward meeting the pedestrian circulation space requirements of Section 81-45 (Provision of Pedestrian Circulation Space):

(a)a new relocated subway entrance; or

(b)an existing subway stair entrance which is contained within the #zoning lot# and has been renovated or reconstructed so that it meets all of the requirements and standards set forth in Sections 81-471 (Standards for location and design) and 81-473 (Administrative procedure for subway stair relocation or renovation).

81-473
Administrative procedure for subway stair relocation or renovation

(a)Except as otherwise provided in paragraph (b) of this Section, no plan shall be approved by the Department of Buildings and no excavation permit or building permit shall be issued for any #development# or #enlargement# which is subject to the requirements for the relocation of a subway stair entrance or counts a renovated or reconstructed subway stair as pedestrian circulation space, unless:

(1)for a relocated entrance, such plan includes a stair relocation plan and related documents which bind the developer to:

(i)construct the new stair entrance in accordance with such plan;

(ii)demolish above ground elements of the existing entrance;

(iii seal the existing entrance at the sidewalk level; and

(iv)maintain the work performed on the stair.

For a renovated or reconstructed entrance, such plan includes a renovation or reconstruction plan and related documents which bind the developer to:

(i)renovate or reconstruct the entrance in accordance with such plan; and

(ii)maintain the work performed on the entrance.

(2)Such plan and related documents bear the Transit Authority's approval.

(3)Such plan is accompanied by a certified copy of an agreement, as recorded, between the Transit Authority and the owner for an easement on the #zoning lot# for subway related use of the new stair entrance and for public access via such entrance to the subway station, which agreement has been recorded against the #zoning lot# in the Office of the Register of the City of New York (County of New York) and is accompanied by the Register's receipt of recordation.

(b)For a relocated entrance only, in the event that major construction problems render the stair relocation infeasible or that operating design considerations make it undesirable, the Transit Authority and the City Planning Commission by joint certification may release the developer from the requirement. In such event, the stair relocation requirement shall be satisfied by retention of the existing stair and provision on the #zoning lot# of a pedestrian circulation space qualifying under the provisions of Section 81-45 (Provisions of Pedestrian Circulation Space) and which accommodates pedestrian traffic passing the existing stair entrance. Such space shall have a width equal to at least one and one half times the width of the existing stair entrance and shall extend along the full length of the stair entrance.

(c)No certificate of occupancy shall be issued for any #development# or #enlargement# subject to the subway stair relocation requirement or counting a renovated or reconstructed subway stair as pedestrian circulation space unless and until all of the work required under paragraph (a)(1) of this Section has been completed and the Transit Authority has so certified in writing to the Department of Buildings.

Where a #development# or #enlargement# is constructed on a #zoning lot# that contains at least 5,000 square feet of #lot area# and fronts on a sidewalk containing a stairway entrance or entrances into a subway station, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. The new entrance or entrances shall be provided in accordance with the provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair). A relocated or renovated subway stair may be counted as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

The subway stations where such improvements are required are listed in the following table and shown on Map 3 (Subway Station Improvement Areas) in Appendix A.

Station Line

81-50
INCENTIVES BY SPECIAL PERMIT FOR PROVISIONS OF PUBLIC AMENITIES

81-51
General Provisions and Procedures

Except in the Preservation Subdistrict and except for #zoning lots# wholly contained within the Theater Subdistrict Core, as defined in Section 81-71 (General Provisions), the City Planning Commission, by special permit after public notice and hearing and subject to Board of Estimate action, may grant special permits authorizing, for non-#residential# or #mixed buildings#, #floor area# bonuses in accordance with the provisions of Section 81-53 (Subway Station Improvements). However, in the Theater Subdistrict, no special permit shall be issued pursuant to the provisions of Section 81-53 without prior certification by the City Planning Commission that either:

(a)there is not available to the applicant any feasible alternative involving the preservation or rehabilitation of an existing theater for which bonus #floor area# may be authorized by special permit or certification; or

(b)the amenity for which the special permit is requested, because of its importance to the surrounding area, has priority over any feasible alternative involving the preservation or rehabilitation of an existing theater.

The total additional #floor area# permitted on the #zoning lot# by such special permit shall in no event exceed the amount permitted in the underlying district by the provisions of Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings).

Within the #Special Midtown District#, certain special permit provisions of Article VII, Chapters 3,4, 8 and 9 are inapplicable or subject to modification, as set forth in Section 81-60 (APPLICABILITY OF ARTICLE VII PROVISIONS).

Failure to comply with the conditions or restrictions of the bonused amenity shall constitute a violation of this Resolution and shall constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

81-53
Subway Station Improvements

The City Planning Commission by special permit after public notice and hearing and subject to Board of Estimate action, may grant #floor area# bonuses and waive or modify #street wall# continuity provisions for #developments# or #enlargements# which provide major improvements for adjacent subway stations in accordance with the provisions of this Section. The subway stations where such improvements may be constructed are listed in Section 81-531 (Midtown subway stations) and located as shown on Map 3 (Subway Station Improvement Areas) in Appendix A. The #zoning lot# for the #development# or #enlargement# on which such a #floor area# bonus is requested shall be adjacent to the subway station for which the improvement is proposed.

In order for the #zoning lot# of the #development# or #enlargement# to qualify as "adjacent," upon completion of the improvement it must physically adjoin a station mezzanine, platform, concourse or connecting passageway.

81-532
Selection of improvements

The selection of improvements shall be on a case-by-case basis and shall be subject to the approval of the Metropolitan Transportation Authority, the New York City Transit Authority, and the City Planning Commission.

81-533
Compliance with Transit Authority design standards

The subway station improvement shall comply with all applicable design standards of the current station planning guidelines of the Transit Authority.

81-534
Procedure

(a)Pre-application

The applicant shall submit schematic or concept plans for the proposed improvement to the MTA, Transit Authority and the Commission.

(b) Application - Pre-certification

After review and agreement on concept by the Metropolitan Transit Authority (MTA), the New York City Transit Authority and the New York City planning Commission, the applicant shall submit documentation deemed necessary by the reviewing agencies. Prior to certification by the Commission, the Transit Authority and the MTA shall each provide a letter to the Commission containing a conceptual approval of the improvement and a statement of any special considerations regarding the Transit Authority's future operation of the improvement.

(c)The special permit application to the Commission shall include information and justification sufficient to provide the Commission with a basis for evaluating the benefits to the City from the proposed improvement and determining the appropriate amount of bonus #floor area# and, where applicable, assessing the advantages and disadvantages of waiving or modifying the #street wall# continuity provisions of Section 81-43 (Street Wall Continuity along Designated Streets).

(d)Uniform Land Use Review Procedure - Certification

The Commission shall not certify an application under the Uniform Land Use Review Procedure (ULURP) until the requisite letters from the Transit Authority and the MTA have been received and are incorporated in the application. Such letters may be subject to subsequent execution of a final agreement with the developer.

(e)Prior to the granting of a special permit the Transit Authority shall have submitted a letter to the Commission:

(1)stating that the drawings and other documents submitted by the applicant have been determined by the Transit Authority to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems; materials; relationship to existing site conditions; and such other conditions as may be appropriate; and

(2)confirming that the construction of the subway improvement in accordance with such submission is feasible.

The applicant shall sign a legally enforceable instrument running with the land containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and maintain the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(f)Any instrument creating a transit easement on the #zoning lot# shall be recorded against the #zoning lot# in the Office of the Register of the City of New York for New York County and a certified copy of the instrument shall be submitted to the Commission and the Transit Authority. The applicant shall not apply for nor accept a temporary certificate of occupancy for the bonus #floor area#, and the Department of Buildings shall not issue such a temporary certificate of occupancy, until the Transit Authority has determined that the bonused subway improvement is substantially complete which shall, for this purpose, mean usable by the public.

(g)The applicant shall not apply for or accept a permanent certificate of occupancy for the #development# or #enlargement#, nor shall the Department of Buildings issue such permanent certificate of occupancy until the bonused subway improvement has been completed in accordance with the approved plans and such completion has been certified by the Transit Authority.

81-535
Floor area bonus

(a)The amount of the #floor area# bonus shall be at the discretion of the City Planning Commission and may range from no bonus #floor area# to the maximum amount allowable by special permit, as set forth in Section 81-211 (Maximum floor area ratios for non-residential or mixed buildings). In determining the precise amount of #floor area# bonus, the Commission shall make findings on the following:

(1)the degree to which the station's general accessibility and security will be improved by the provision of new connections, additions to or reconfiguration of circulation space, including provision of escalators or elevators; and

(2)significant improvements to the station's environment by provision for direct daylight access, or improvements to noise control, air quality, lighting or rider orientation and satisfactory integration of the #street# level entryway into the #development# or #enlargement#.

(b)No bonus #floor area# shall be granted for any #development# or #enlargement# located on a #zoning lot# wholly contained within the Theater Subdistrict Core, as defined in Section 81-71 (General Provisions).

(c)For a #development# or #enlargement# located on a #zoning lot# divided by a boundary of the Theater Subdistrict Core, as defined in Section 81-71, the amount of bonus #floor area# granted shall be subject to the provisions of paragraph (a) of this Section, but shall not exceed the amount of #floor area# derived from applying the maximum bonus #floor area# allowance as set forth in Section 81-211 (Maximum floor area ratios for non-residential or mixed buildings) over the sum of:

(1)the area of the #zoning lot# which is outside of the Theater Subdistrict Core; and

(2)an area of the #zoning lot# within the Theater Subdistrict Core, not exceeding the area in paragraph (c)(1) of this Section.

If the basic maximum #floor area ratio# as set forth in Section 81-211 (Maximum floor area ratios for non-residential or mixed buildings) is the same for both the portion of the #zoning lot# within the Core and the portion outside of the Core, such bonus #floor area# must be utilized on the #zoning lot# in accordance with the provisions of paragraph (b) of Section 81-746 (Additional provisions for zoning lots divided by district or subdistrict core boundaries).

81-536
Waiver or modification of street wall continuity provisions

As a condition for waiving or modifying the #street wall# continuity provisions of Section 81-43 (Street Wall Continuity along Designated Streets), the Commission shall find that the waiver or modifications will permit the proposed design to provide for access of daylight and air to the subway platform, mezzanine or concourse and that the advantages of such access outweigh the disadvantages incurred by the interruption of #street wall# continuity and retail continuity.

The Commission in granting such waiver or modification shall specify the depth of the setback permitted and the amount by which the required length of #street wall# subject to setback restrictions is reduced.

81-51
General Provisions and Procedures

The City Planning Commission may grant special permits authorizing, for non-#residential# or #mixed buildings#, #floor area# bonuses in accordance with the provisions of this Section.

81-511
Subway Station Improvements

Except in the Preservation Subdistrict and except for #zoning lots# wholly within the Theater Subdistrict Core, as defined in Section 81-71 (General Provisions), the City Planning Commission may grant special permits authorizing, for non-#residential# or #mixed buildings#, #floor area# bonuses in accordance with the provisions of Section 74-634 (Subway station improvements in commercial zones of 10 FAR and above in Manhattan). The subway stations where such improvements are permitted are listed in the following table and shown on Map 3 (Subway Station Improvement Areas) in Appendix A.

81-70
SPECIAL REGULATIONS FOR THEATER SUBDISTRICT

81-71
General Provisions

The regulations of Sections 81-72 to 81-75, inclusive, relating to Special Regulations for the Theater Subdistrict are applicable only in the Theater Subdistrict, *and in* **of which** the Theater Subdistrict Core **and the Eighth Avenue Corridor are parts**. *The Theater Subdistrict extends from 40th Street to 57th Street and from Avenue of the Americas to Eighth Avenue.* **The Theater Subdistrict Core extends from 43rd Street to 50th Street and from a line 200 feet west of Avenue of the Americas to a line 100 feet east of Eighth Avenue.**

The Theater Subdistrict is bounded by West 57th Street, Avenue of the Americas, West 40th Street, Eighth Avenue, West 42nd Street, a line 150 feet west of Eighth Avenue, West 56th Street, and Eighth Avenue.

The Theater Subdistrict Core is bounded by West 50th Street, a line 200 feet west of Avenue of the Americas, West 43rd Street and a line 100 east of Eighth Avenue.

The Eighth Avenue Corridor is bounded by West 56th Street, a line 100 feet east of Eighth Avenue, West 43rd Street, Eighth Avenue, West 42nd Street, and a line 150 feet west of Eighth Avenue.

The west side of Eighth Avenue between 42nd and 56th Street is also subject to the provisions of the Special Clinton District to the extent set forth in Article IX, Chapter 6 subject to Section 81-023 (Applicability of Special Clinton District Regulations).

Their **These** boundaries are shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A.The regulations of Sections 81-72 to 81-75, inclusive, supplement or modify the regulations of this Chapter applying generally to the #Special Midtown District# of which the Subdistrict, *and the Core are* **is a** parts.

In order to preserve and protect the character of the Theater Subdistrict as a cultural, theatrical and entertainment showcase as well as to help insure a secure basis for the useful cluster of shops, restaurants and related amusement activities, special incentives and controls are provided for the preservation and rehabilitation of existing theaters**, and the creation of new legitimate theaters,** and special restrictions are placed on ground floor #uses# within the Subdistrict.In order to preserve and protect the special scale and character of the Theater Subdistrict Core, which includes Times Square, special #building street wall# height and setback controls and requirements for the inclusion of #illuminated signs# and entertainment and entertainment-related #uses# apply within the Subdistrict Core. **In order to ensure the orderly growth and development of the Eighth Avenue Corridor and its transition to the scale and character of adjoining midblocks, special building street wall, height and setback controls apply within the Corridor. In order to preserve and maintain the character of the western edge of the Theater Subdistrict as both an integral part of the Theater Subdistrict and as a transition to the Clinton neighborhood, the west side of**

Eighth Avenue between 42nd and 56th streets is also subject to the provisions of the Special Clinton District.

The Mayor of the City of New York shall appoint a Theater Advisory Council (the Council) and name a chairperson. Other members of the Council shall include representatives of the performing arts, the theatrical industry and related professions.The Council shall advise the City Planning Commission concerning applications for special permits or certifications pursuant to Section 81-74.

The City of New York acting through the Mayor shall designate a Theater Subdistrict Council ("Council") comprised of representatives of the performing arts, the theatrical industry and related professions, and which may include government representatives and representatives of Business Improvement Districts and economic development projects active within the Theater Subdistrict.The Council shall be a not-for-profit organization whose organizational purpose shall be limited solely to promoting theater and theater-related use and preservation within the Theater Subdistrict and promoting the welfare of the Theater Subdistrict generally.The Council shall advise the Chairperson or the City Planning Commission concerning applications for any special permit or certification pursuant to the special regulations for the Theater Subdistrict and shall be the holder and administrator of the funds received in connection with transfers of development rights from listed theaters pursuant to Section 81-744 (Transfer of development rights from listed theaters) in accordance with the provisions for the Theater Subdistrict Fund set forth in paragraph (h) of Section 81-741 (General Provisions).

Applications shall be referred by the Commission to the Council for an advisory report prior to certification for ULURP (Uniform Land Use Review Procedure) review.Such advisory report shall assist the **Commission in evaluating each special permit application and in making each of the required findings therein concerning demolition pursuant to Section 81-742 or the #floor area# bonus pursuant to Sections 81-744 or 81-745.In all special permits or certifications involving the preservation or rehabilitation of existing theaters, the Council shall advise the Commission on the adequacy of the assurances required by Section 81-743 for continuance of legitimate theater #use#.**

81-72
Use Regulations Modified

Within that portion of the Theater Subdistrict bounded by West 40th Street, **a line 100 feet east of** Eighth Avenue, West 51st Street and **a line 200 feet west of** Avenue of the Americas, #uses# which are created by #development#, or which are #enlarged# or #extended#, shall be subject to the provisions of this Section.

* * *

81-723
Special ground floor street frontage restrictions

No single establishment shall have a #wide street front lot line# ground level frontage of less than 10 feet. *or, except in the case of theaters, greater than 40 feet.*

* * *

81-724
Requirements for entertainment-related uses

With the exception of a #development# or #enlargement# in which more than 50 percent of the new #floor area# is allocated to #transient hotel use#, a #development# or #enlargement# on a #zoning lot# with more than 50 percent of its #zoning lot# area located within the Theater Subdistrict Core shall meet the following requirements:
(a)If the new #floor area# of the #development# or #enlargement# **generated by that portion of the #zoning lot# located within the Theater Subdistrict Core** exceeds 60,000 square feet, an amount of floor space on the #zoning lot# equal to five percent of the amount by which the new #floor area# **generated by that portion of the #zoning lot# located within the Theater Subdistrict Core** exceeds 50,000 square feet shall be allocated to #uses# listed in Section 81-725 (Entertainment-related uses) or #front lot line# ground level #uses# designated thus (***) in Section 81-722 (Use Group T) as satisfying the requirements of this Section.

Except as provided below, the amount of floor space specified shall be located on the same #zoning lot# as the #development# or #enlargement# for which that floor space is provided to meet the requirements of this Section.

(b)Alternatively, *by authorization of the City Planning Commission,* a maximum of 75 percent of the amount of floor space specified *above* **in paragraph (a) of this Section** may be located on a separate #zoning lot#, with the remainder located on the same #zoning lot# as the #development# or #enlargement#, **by authorization of the City Planning Commission** provided, upon examination of proposed plans, the Commission finds that:

(1)either **of the following conditions exist**:

(i)more than 50 percent of the area of the separate #zoning lot# is located within the Theater Subdistrict Core; or

(ii)the *portion of* floor space located on the separate #zoning lot# is allocated in its entirety to studios; music, dancing or theatrical, as listed in Section 81-725 (Entertainment-related uses) and the separate #zoning lot# is located within the Theater Subdistrict;

(2)the *portion of* floor space located on the separate #zoning lot# is *provided separately from and* in addition to any floor space provided to meet the requirements of this Section for any other #development# or #enlargement#;

(3)the *portion of* floor space located on the separate #zoning lot# is constructed or renovated specifically for the purpose of meeting the requirements of this Section and has not been utilized for any of the #uses# listed in Section 81-725 (Entertainment-related uses) at any time during the *period of* two years **period** immediately prior to the date on which authorization described in this *paragraph (a)* **Section** is granted; and

(4)the #use# located on the separate #zoning lot# *maintains* **achieves** a reasonable distribution of entertainment-related #uses# and locations of such #uses#.

* * *

81-74
Special Incentives and Controls in the Theater Subdistrict

81-741
General provisions

(a)Special permits by the City Planning Commission

In the Theater Subdistrict, the City Planning Commission, after public notice and hearing and subject to Board of Estimate action, may grant special permits:

(1)authorizing #floor area# bonuses for rehabilitation of existing theaters in accordance with the provisions of Section 81-745;
(2)authorizing transfer of development rights from #zoning lots# occupied by theaters which are designated landmarks in accordance with the provisions of Section 81-747; and

(3)authorizing demolition of theaters where permissible under the provisions of Section 81-742.

(b)Certification by the Chairperson of the City Planning Commission

By certification of the Chairperson of the City Planning Commission:

(1)bonus #floor area# may be authorized for the retention of any eligible existing listed theater in accordance with the provisions of Section 81-744 (Floor area bonus for retention of certain existing listed theaters);

(2)the Special Provisions for Zoning Lots Divided by District Boundaries (Article VII, Chapter 7) may be modified in the case of a #zoning lot# partly occupied by a listed theater in accordance with the provisions of Section 81-746 (Modification of special provisions for zoning lots divided by district boundaries); or

(3)bonus #floor area# may be authorized for a through #block# galleria in accordance with the provisions of Section 81-748 (Floor area bonus for through block gallerias).

(a)Certification by the Chairperson of the City Planning Commission

In the Theater Subdistrict, the following actions are permitted upon certification by the Chairperson of the City Planning Commission:

(1)transfer of development rights from any eligible theater in accordance with the provisions of Section 81-744 (Transfer of development rights from listed theaters);

(2)modification of the provisions of Article VII, Chapter 7 (Special Provisions for Zoning Lots Divided by District Boundaries) in accordance with the provisions of Section 81-746 (Additional provisions for zoning lots divided by district or subdistrict core boundaries).

(b)Special Permit by the City Planning Commission

In the Theater Subdistrict, the City Planning Commission may allow, by special permit:

(1)demolition of a theater where permissible under the provisions of Section 81-742 (Listed theaters);

(2)transfer of development rights from any eligible theater in accordance with the provisions of Section 81-744 (Transfer of development rights from listed theaters);

(3)a #floor area# bonus for rehabilitation of an existing theater in accordance with the provisions of Section 81-745 (Floor area bonus for rehabilitation of existing theaters);

(4)transfer of development rights from a #zoning lots# *occupied by a theater which is a designated landmark in accordance with the provisions of Section 81-747 (Transfer of development rights from landmark theaters), and*

(5)additional #floor area# and modifications to the special #street wall# and setback regulations set forth in Section 81-751 (Special street wall and setback regulations within the Theater Subdistrict Core) in connection with legitimate theater use within a #development# or #enlargement#, in accordance with the provisions of Section 81-748 (Floor area for new legitimate theaters).

(c)Additional floor area bonuses

All #developments# located on the west side of Eighth Avenue between 42nd and 56th Streets within the Theater Subdistrict may receive an increase in #floor area# pursuant to Section 96-21 (Floor Area Increase) for those #developments# complying with the provisions of Section 23-90 (INCLUSIONARY HOUSING).

*(c)***(d)**Required assurances

All *such authorizations by* special permits or certifications *and* involving preservation of existing theaters shall be subject to the provisions of Section 81-743 (Required assurances for continuance of legitimate theater use).

(d)(e) Limits on total additional #floor area#

Except as otherwise provided in Section 81-212 (Special provisions for transfer of development rights from landmark sites), the total additional #floor area# permitted on the #zoning lot# by such special permit or certification, together with all bonus #floor area# or #floor area# derived from transferred development rights under other provisions of this Chapter, shall in no event exceed the maximum amount permitted by **certification or** special permit as set forth in Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings).

*(e)(f)*Limitations on non-theater related bonuses in C6-4, C6-5 or M1-6 Districts

For #zoning lots# or portions thereof in C6-4, C6-5 or M1-6 Districts, the total amount of #floor area# derived from non-theater related bonuses or other special #floor area# allowances pursuant to provisions of this Chapter other than those in Sections 81-744, 81-745, 81-746 or 81-747 *relating to the preservation of existing theaters* shall not exceed a #floor area ratio# of 2.0.

*(f)(g)*Theater-related bonus #floor area# for #residences# in C6-4 and C6-5 Districts

For #zoning lots# or portions thereof in C6-4 or C6-5 Districts, some or all of the bonus #floor area# or other special #floor area# allowances permitted pursuant to the provisions of Sections 81-744, 81-745, 81-746 or 81-747, relating to the preservation or rehabilitation of existing theaters, may be allocated to a #residential building# or the #residential# portion of a #mixed building#, provided that the total #residential floor area ratio# with such #floor area# allowances shall not exceed 12.0.

(h)Theater Subdistrict Fund

In furtherance of the purposes of this Section, the Theater Subdistrict Council shall establish a separate interest-bearing account (the "Theater Subdistrict Fund" or "Fund") for the deposit and administration of the revenues received by the Theater Subdistrict Council generated by the transfer of development rights pursuant to Section 81-744 (Transfer of development rights from listed theaters). Upon receipt of any revenue generated pursuant to such Section, the Theater Subdistrict Council shall notify the Comptroller and the Department of City Planning, and promptly deposit such revenues into the Theater Subdistrict Fund and shall expend such revenues and any interest accumulated thereon in the following manner:

(i) a portion of any such revenues shall be reserved, sufficient in the judgment of the Theater Subdistrict Council but in no event less than 20 percent of such revenues, to undertake the ongoing periodic inspection and maintenance report requirements pursuant of paragraph (c) of Section 81-743.

(ii)the remainder of such revenue shall be used for activities chosen by the Theater Subdistrict Council furthering the objectives and purposes of this Section, which activities may include judicial or administrative proceedings instituted by the Theater Subdistrict Council against any property owner or lessee to enforce the obligations of such owner or lessee pursuant to any restrictive declaration entered into in connection with a transfer of development rights pursuant to Section 81-744 (Transfer of development rights from listed theaters). Notwithstanding the foregoing, funds shall not be used for the physical repair and preservation of theaters.

The Theater Subdistrict Council shall provide an annual report to the Department of City Planning indicating the amounts and dates of any deposits to the Theater Subdistrict Fund in the immediately preceding calendar year, the balance of the Theater Subdistrict Fund at the close of the calendar year, the amounts expended on activities within the Theater Subdistrict and the nature of those activities. The Theater Subdistrict Council shall maintain complete, accurate and detailed records, with supporting documentation, in respect to all deposits to and withdrawals from the Theater Subdistrict Fund, and shall make such records available to the City of New York and the Department of City Planning upon reasonable notice and during business hours for inspection and copying.

(g)Certification for subway station improvements

Within the Theater Subdistrict, any application for a special permit pursuant to the provisions of Section 81-53 (Subway Station Improvements) shall be subject to prior certification by the City Planning Commission in accordance with Section 81-51 (General Provisions).

81-742
Restrictions on demolition of theaters
Listed theaters

No demolition permit shall be issued by the Department of Buildings for any theater listed in this Section as a "listed theater," unless:

(a)it is an unsafe #building# and demolition is required pursuant to the provisions of Chapter 26, Title C, Part I, Article 8 of the New York City Administrative Code;

(b)it has been designated a landmark by the Landmarks Preservation Commission and a notice to proceed has been issued to the owner pursuant to Section 207-8.0 of Chapter 8A of the New York City Administrative Code permitting demolition that contemplates removal of the theater from theater #use#; or

(c)the City Planning Commission, by special permit after public notice and hearing and subject to Board of Estimate action permits its demolition upon making the following findings:

(1)that demolition of the theater structure will not unduly diminish the character of the Theater Subdistrict as a cultural, entertainment and theatrical showcase, taking into consideration any or all of the following list of factors:

(i)current physical characteristics of the theater that affect its suitability as a legitimate theater, including but not limited to seating capacity, configuration and location;

(ii)history of its #use# as a legitimate theater, presenting legitimate attractions to the general public;

(iii)likelihood of its future #use# for legitimate theater production under reasonable terms and conditions prevailing in the theater industry;

(iv)applicant's plans, if any, for replacement of the theater structure with a #development# containing replacement #uses# supportive of the character of the Theater Subdistrict; and

(2)that there exists a legal commitment binding upon all parties in interest of the #zoning lot# containing the theater that any #development# or #enlargement# on a #zoning lot# containing a portion or all of the former site of the listed theater shall reserve floor space at least equivalent in amount to the total #floor area# of the theater devoted exclusively to #uses# described in Section 81-725 (Entertainment-related uses) and meeting the requirements of Section 81-724 (Requirements for entertainment-related uses) for the life of such #development# or #enlargement#. If the area of the #zoning lot# containing the theater is less than 20,000 square feet and the Commission finds that the allocation of floor space at least equivalent in amount to the total #floor area# of the theater to #uses# described in Section 81-725 (Entertainment-related uses) is impractical or unreasonable, the Commission may authorize a reduction in the amount of area allocated to such #uses#.

Any #development# or #enlargement# on a #zoning lot# containing a portion or all of the former site of a listed theater must, however, meet the requirements of Section 81-724 (Requirements for entertainment-related uses), whether or not the #zoning lot# is located within the area described in that Section.

The theaters to which the provisions of this Section apply are predominantly free standing theaters with full stage and wings and are identified as listed theaters in Table A of this Section.

*Indicates theater which may be retained for a #floor area# bonus under the provisions of Section 81-744 (Floor area bonus for retention of certain existing listed theaters), provided that it is not already subject to an agreement under Section 81-743 (Required assurances for continuance of legitimate theater use).

In the case of an existing legitimate theater for whose construction bonus #floor area# was granted pursuant to regulations in effect prior to the May 13, 1982, no provisions of this amendment shall be construed as changing any previously existing responsibility of the owner or lessee of such theater for continuance of its #use# as a legitimate theater.

(a)Designation of listed theaters

Listed theaters are theaters to which special provisions of this and other Sections as set forth in 81-741 (General Provisions) apply, and are predominantly free-standing theaters with full stage and wings. The theaters identified in the following table are designated as "listed theaters."

LISTED THEATERS

***Indicates theaters which do not qualify as a "granting site" pursuant to Section 81-744 (Transfer of development rights from listed theaters).**

In the case of an existing legitimate theater that received a #floor area# bonus pursuant to regulations in effect prior to May 13, 1982, no provisions of this amendment shall be construed as changing any previously existing responsibility of the owner or lessee of such theater for continuance of its #use# as a legitimate theater.

(b)Restrictions on demolition of listed theaters

No demolition permit shall be issued by the Department of Buildings for any theater listed in this Section as a "listed theater," unless:

(1)it is an unsafe #building# and demolition is required pursuant to the provisions of Section 26-127 of Title 26, Chapter 1 of the New York City Administrative Code;

(2)it has been designated a landmark by the Landmarks Preservation Commission and a notice to proceed has been issued to the owner pursuant to Section 25-309 of Title 25, Chapter 3 of the New York City Administrative Code permitting demolition that contemplates removal of the theater from theater #use#; or

(3)the City Planning Commission, by special permit, allows its demolition in accordance with the provisions of paragraph (c) of this Section.

(c)Special permit for demolition of listed theaters

The City Planning Commission may allow, by special permit, the demolition of a theater designated as a listed theater pursuant to this Section provided the Commission finds that the demolition of the theater structure will not unduly diminish the character of the Theater Subdistrict as a cultural, entertainment and theatrical showcase. In making this determination, the Commission may consider any or all of the following:

(1)the current physical characteristics of the theater that affect its suitability as a legitimate theater, including but not limited to seating capacity, configuration and location;

(2)the history of the theater's #use# as a legitimate theater, presenting legitimate attractions to the general public;

(3)the likelihood of its future #use# for legitimate theater production under reasonable terms and conditions prevailing in the theater industry; and/or

(4)that the applicant's plans, if any, for replacement of the theater structure with a #development# contain replacement #uses# supportive of the character of the Theater Subdistrict.

As a condition of the special permit, there shall exist a legal commitment binding upon all parties in interest of the #zoning lot# containing the theater that any #development# or #enlargement# on a #zoning lot# containing a portion or all of the former site of the listed theater, that floor space at least equivalent in amount to the total #floor area# of the theater shall be reserved or devoted exclusively to #uses# described in Section 81-725 (Entertainment-related uses) and meeting the requirements of paragraphs (b) and (c) of Section 81-724 (Requirements for entertainment-related uses) for the life of such #development# or #enlargement#. Notwithstanding the foregoing, if the area of the #zoning lot# containing the theater is less than 20,000 square feet and the Commission finds that the allocation of floor space at least equivalent in amount to the total #floor area# of the theater to #uses# described in Section 81-725 (Entertainment-related uses) is impractical or unreasonable, the Commission may permit a reduction in the amount of area allocated to such #uses#.

Any #development# or #enlargement# on a #zoning lot# containing a portion or all of the former site of a listed theater must, however, meet the requirements of paragraphs (b) and (c) of Section 81-724 (Requirements for entertainment-related uses), whether or not the #zoning lot# is located within the area described in that Section.

81-743
Required assurances for continuance of legitimate theater use

(a)*As a condition for* **Prior to** the issuance of any special permit under the provisions of Section 81-745 (Floor area bonus for rehabilitation of existing listed theaters) or Section 81-747 (Transfer of development rights from landmark theaters), or the issuance of a certification under the provisions of Section 81-744 *(Floor area bonus for retention of certain existing listed theaters)* **(Transfer of development rights from listed theaters)** or Section 81-746 *(Modification of special provisions for zoning lots divided by district boundaries* **Additional provisions for zoning lots divided by district or subdistrict core boundaries),** *there* **the following conditions** shall exist:

*(a)(1)*a signed lease from a prospective theater operator, or a written commitment from the owner of the theater if such owner is also the operator, *with credentials acceptable to the City Planning Commission,* for occupancy of the theater and its operation as a legitimate theater for a period of not less than five years;

(2)a licensed engineer's and/or architect's report certifying either that the theater is physically and operationally sound so as to permit its use as a legitimate theater or, if it is determined that the theater is not physically or operationally sound, a plan and program for the upgrade of the theater to put it in condition of physical and operational soundness. For the purposes of this subsection, physical and operational soundness shall include the structural integrity of the exterior and interior elements of the building to the extent that they relate to the theater; compliance with applicable electrical and fire safety codes, and compliance with applicable building code standards.The plan and program shall further provide that adequate resourcesbe available to ensure timely completion of the scope of work identified in the plan and program as necessary to ensure the physical and operational integrity of the theater.

In the event that the theater has been designated as a landmark or an interior landmark by the Landmarks Preservation Commission, physical and operational soundness shall include preserving the integrity of existing significant architectural features identified in the Landmarks Preservation Commission designation report. In such case, a licensed engineer and/or architect with knowledge of historic preservation and credentials acceptable to the Landmarks Preservation Commission shall prepare a report documenting the condition of such significant architectural features and, if determined to be necessary, a plan and program to preserve such significant features in a state of good physical repair and sound proper condition. Such plan and program shall provide that adequate resources be available to ensure timely completion of the scope of work identified in the plan and program. Any certification report regarding a landmark or interior landmark theater shall be submitted concurrently to the Landmarks Preservation Commission and the Chairperson of the City Planning Commission;

(c)a plan and program approved by the Commission for periodic inspection and continuing maintenance of the theater to ensure its continuing availability for theater #use#. Inspections shall be conducted by a certified engineer and/or architect, and a report of each such inspection given to Commission at least once every three years. The plan and program shall further provide that adequate financial resources will be available to ensure the timely completion of all maintenance and repairs which the periodic inspection report determines are necessary to protect the integrity and functioning of the theater; and

(3)a legal commitment providing for inspection and ongoing maintenance of the theater to ensure its continued availability for theater use. Such inspection shall be conducted every ten years by a licensed engineer and/or architect or by the Theater Subdistrict Council, and a report issued to the Chairperson of the City Planning Commission. Such report shall also be issued to the Theater Subdistrict Council unless the Theater Subdistrict Council has performed such inspection, and, in the event the theater has been designated a landmark or an interior landmark, such report shall also be issued to the Landmark Preservation Commission. Such reports shall describe the condition of the theater and identify any maintenance or repair work necessary to ensure the physical and operational soundness of the theater and to maintain the condition of any landmark architectural features and establish a plan and program for such work, including providing that adequate resources be made available to ensure timely completion of such maintenance or repair work;

*(b)***(4)**a legal commitment *binding upon the owner and lessee of the theater* for continuance of its #use# as a legitimate theater for the life of the related #development#, **that may be modified only in accordance with paragraphs (b) or (c) of this Section.**

Such legal commitments shall be in the form of a declaration of restrictions, filed and duly recorded in the Borough Office of the Register of the City of New York, binding upon the owner, lessee of the theater and their successors and assigns, a certified copy of which shall be submitted to the City Planning Commission. The filing of such declaration and the posting of any bond or other security required by the declaration and receipt of such certified copy shall be preconditions to issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site.

(b)The City Planning Commission may authorize a temporary change of #use# of such theater, for a period no longer than a year, to other uses that contain a theatrical component and are consistent with the objectives and purpose of the Theater Subdistrict subject to the following findings:

(1)the theater has not been used for legitimate theater purposes for more than 60 percent of the days over a minimum period of five years;

(2)the change of #use# shall not include structural changes or other physical changes that would preclude or negatively impact the continued availability of the theater for legitimate theater, after such temporary #use#; and

(3)the theater has complied with all written agreements and commitments set forth in this Section.

Upon application, the authorization may be renewed or extended for two additional one-year terms, for a maximum total of three years by the Chairperson of the City Planning Commission based on the determination that the facts have not substantially changed.

(c)The City Planning Commission, after a period of no less than 25 years from the latter of either the date of approval of a certification or special permit resulting in the legal commitment for continuing #use# of a theater as legitimate theater pursuant to this Section, or (the effective date of this amendment), by special permit may reduce or discontinue such theater's #use# as a legitimate theater subject to a finding that the proposed reduction or discontinuance would result in a change of #use# that will provide a public benefit consistent with the objectives and purpose of the Theater Subdistrict as set forth in Section 81-71 (General Provisions).

81-744
Floor area bonus for retention of certain existing listed theaters

The Chairperson of the City Planning Commission by certification may authorize bonus #floor area# for any #development# or #enlargement# where an agreement exists to retain and maintain for legitimate theater #use# one or more eligible listed theaters as set forth in Section 81-742 (Restrictions on demolition of theaters). The #development# or #enlargement# and each listed theater to be retained may be located on the same or a separate #zoning lot#.

(a)Amount of retention bonus

(1)If the #zoning lot# on which the #development# or #enlargement# is located is within the Theater Subdistrict but wholly outside of the Theater Subdistrict Core, all as defined in Section 81-71 (General Provisions), the amount of bonus #floor area# granted shall not exceed the amount of #floor area# derived from applying a #floor area ratio# of 1.0 over the total area of the #zoning lot#.

If the #zoning lot# on which the #development# or #enlargement# is located is divided by a boundary of the Theater Subdistrict Core, as defined in Section 81-71 (General Provisions), the amount of bonus #floor area# granted shall not exceed the amount of #floor area# derived from applying a #floor area ratio# of 1.0 over the sum of:

(i)the area of the #zoning lot# which is outside of the Theater Subdistrict Core; and

(ii)an area of the #zoning lot# within the Theater Subdistrict Core, not exceeding the area in paragraph (i).

(2)Such bonus #floor area# may be obtained at a rate of up to 50,000 square feet for each theater which is retained as a condition of the granting of the bonus.

(3)If the #zoning lot# on which the #development# or #enlargement# is located exceeds 50,000 square feet in area, agreements may be entered into to retain and maintain more than one theater for legitimate theater #use# so as to obtain bonus #floor area# not exceeding the amount specified in paragraph (1) of this Section.
(b)Location of development or enlargement

The #development# or #enlargement# for which a theater retention bonus is granted shall be located within the Theater Subdistrict, whose boundaries are shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A, but shall not be located on a #zoning lot# which is contained entirely within the Theater Subdistrict Core. If the #zoning lot# on which the #development# or #enlargement# is located is divided by a boundary of the Theater Subdistrict Core and if the basic maximum #floor area ratio# as set forth in Section 81-211 (Maximum floor area ratios for non-residential or mixed buildings) is the same for both the portion of the #zoning lot# within the Core and the portion outside of the Core, bonus #floor area# must be utilized on the #zoning lot# in accordance with the provisions of paragraph (b) of Section 81-746 (Additional provisions for zoning lots divided by district or Subdistrict Core boundaries). Each listed theater which is retained as a condition of the granting of the bonus may be located on a #zoning lot# which is the same as or separate from the #zoning lot# containing the #development# or #enlargement#.

(c) Conditions for retention bonus

As a condition for the granting of bonus #floor area# under the provisions of this Section, the following requirements shall be satisfied:

(1)A written declaration to be recorded against both the #zoning lot# of each listed theater and the #zoning lot# of the #development# or #enlargement# shall exist meeting all of the requirements of Section 81-743 (Required assurances for continuance of legitimate theater use) that the listed theater will be retained and maintained for legitimate theater #use#. The certificates of occupancy for each listed theater and the #development# or #enlargement# for which bonus #floor area# is granted shall record and incorporate a copy of such agreement, and occupancy of the bonus #floor area# shall be conditioned upon continued compliance therewith.

(2)Bonus #floor area# under the provisions of this Section may only be granted for the retention of listed theaters indicated thus (*) in Table A of Section 81-742 (Restrictions on demolition of theaters); no bonus #floor area# shall be granted for retention of any listed theater already subject to an agreement pursuant to the conditions of Section 81-743 (Required assurances for continuance of legitimate theater use).

81-744
Transfer of development rights from listed theaters

For the purposes of the Theater Subdistrict:

A "listed" theater shall mean a theater designated as listed pursuant to Section 81-742 (Listed Theaters).

A "granting site" shall mean either a #zoning lot# or that portion of a #zoning lot# occupied by a "listed" theater and comprised of those block and lot numbers specified for such theater pursuant to Table A of Section 81-742 (Listed Theaters), as such block and lots existed on (the effective date of this amendment). However, a "granting site" shall not include any #zoning lot# occupied by a "listed" theater located within the geographical area covered by the 42nd Street Development Land Use Improvement Project, adopted by the New York State Urban Development Project in 1984, as such Project has and may be subsequently amended.

A "receiving site" shall mean a #zoning lot# or the portion of a #zoning lot# located within the Theater Subdistrict to which development rights of the #granting site" are transferred. However, no portion of a "receiving site" shall be located within the 42nd Street Development Project Area. In addition, for #zoning lots# containing "listed" theaters, that portion of the #zoning lot# occupied by the "listed" theater and comprised of the block and lot numbers specified for such theater pursuant to Table A of Section 81-742 (Listed Theaters) shall not be included in the "receiving site".
Any "receiving site" divided by a district boundary or Theater Subdistrict Core boundary may locate bulk in accordance with the provisions of Section 81-746 (Additional provisions for zoning lots divided by district or subdistrict core boundaries).

(a)Transfer of development rights by certification

Within the Theater Subdistrict, the Chairperson of the City Planning Commission shall allow, by certification, a transfer of development rights from a "granting site" to a "receiving site" provided that:

(1)the maximum amount of #floor area# transferred from a "granting site" is the basic maximum #floor area ratio# established pursuant to Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings) for such #granting site# as if it were undeveloped, less the total #floor area# of all existing #buildings# or portions of #buildings# on the #granting site# and #floor area# attributed to the "granting site" that has been previously used or transferred;

(2)each transfer, once completed, irrevocably reduces the amount of #floor area# that may be #developed# on the #zoning lot# containing the "granting site" by the amount of #floor area# transferred;

(3)the maximum amount of #floor area# transferred to a "receiving site" shall not exceed the basic maximum #floor area ratio# established pursuant to Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings) for such #receiving site# by more than 20 percent or, for a "receiving site" or any portion of a "receiving site" located within the Eighth Avenue Corridor, by more than 44 percent.

MDIB(4)**the provisions of Section 81-743 (Required assurances for continuance of legitimate theater use) are met; and**

(5)appropriate legal documents are executed ensuring that a contribution in an amount equal to ten dollars per square foot of transferred #floor area# be deposited in the Theater Subdistrict Fund established pursuant to paragraph (h) of Section 81-741 (General Provisions) at the earlier of either the time of closing on the transfer of development rights pursuant to this Section or the filing for any building permit for any #development# or #enlargement# that anticipates using such development rights.

The Chairperson of the City Planning Commission may adjust such amount no more than once every three years. Adjustments shall be based on the change in assessed value of all properties on #zoning lots# wholly within the Theater Subdistrict.

The Chairperson shall not grant such certification prior to thirty days after the date any reports required to be submitted to the Landmarks Preservation Commission pursuant to Section 81-743(b), or the Council pursuant to Section 81-71 (General Provisions) have been so submitted.

(b)Transfer of development rights by special permit

The City Planning Commission may allow by special permit an additional transfer of development rights beyond the amount of #floor area# transfer permitted by certification in accordance with paragraph (a) of this Section from a "granting site" to any portion of a "receiving site" located within C6-7T, C5-3, C6-6 and C6-7 districts subject to the following conditions:

(i)no feasible transfer of development rights is possible from landmark theaters pursuant to Section 81-747 (Transfer of development rights from landmark theaters) or other landmarks pursuant to Section 74-79 (Transfer of development rights from landmark sites) to the "receiving site";

(ii)the maximum amount of such additional #floor area# transferred to that portion of a "receiving site" located within such districts shall not exceed the basic maximum #floor area ratio# established pursuant to Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings) for such portion of a "receiving site" by more than 20 percent; and

(iii)notwithstanding the maximum amount of #floor area# allowed to be transferred pursuant to paragraph (ii) above, such transfer complies with the conditions and limitations set forth for the transfer of development rights by certification in paragraph (a) of this Section.

In order to grant a special permit the City Planning Commission shall find:

(1)that such additional #floor area# will not unduly increase the bulk of any new #development# or #enlargement# on the "receiving site", density of population, or intensity of #use# on any #block# to the detriment of occupants of #buildings# on the #block# or the surrounding area; and

(2)that the distribution and location of such bulk will not adversely affect the surrounding area by restricting light and air or otherwise impair the essential character or future #development# of the surrounding area.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding areas.

(c)Requirements for Application

An application filed with the Chairperson of the City Planning Commission for the transfer of development rights by certification pursuant to paragraph (a) of this Section or with the City Planning Commission for the transfer of development rights by special permit pursuant to paragraph (b) of this Section shall be made jointly by the owners of the "granting site" and "receiving site" and shall include:

(1)a site plan and #floor area# zoning calculations for the #granting site# and the #receiving site#, and, for special permit applications, any such other information as may be required by the City Planning Commission; and

(2)a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer, together with a notice of the restrictions limiting further #development# of the "granting site" and the "receiving site". The notice of restrictions shall be filed by the owners of the respective lots in the Borough Office of the Register of the City of New York, indexed against the "granting site" and the "receiving site", a certified copy of which shall be submitted to the Chairperson of the City Planning Commission. Receipt of the certified copy shall be a pre-condition to issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the "receiving site".

Both the instrument of transfer and the notice of restrictions shall specify the total amount of #floor area# transferred and shall specify by lot and block numbers the lots from which and the lots to which such transfer is made.

(3)demonstrations of compliance with the requirements of Section 81-743 and paragraph (a)(5) of Section 81-744, including all necessary legal documents. Issuance of any building permit, including any foundation or alteration permit, shall be conditioned upon the filing of such legal documents in the Borough Office of the Register of the City of New York and receipt by the City Planning Commission of certified copies of same as required pursuant to Section 81-743.

A separate application shall be filed for each transfer of development rights to an independent "receiving site".

81-745
Floor area bonus for rehabilitation of existing listed theaters

The Commission by special permit may authorize bonus #floor area# for substantial rehabilitation or restoration of any theater listed as a listed theater in Section 81-742 (Restrictions on demolition of theaters), in accordance with the provisions of this Section.

(a) Conditions for rehabilitation bonus

As a condition for the issuance of a special permit under the provisions of this Section, the following requirements shall be satisfied:

(1) Location of development

The #development# for which a theater rehabilitation bonus is granted shall be located on the same #zoning lot# as the listed theater.

(2)Qualification of substantial rehabilitation

Substantial rehabilitation work qualifying for a #floor area# bonus shall consist of major interior structural changes for the purpose of improving a theater's design and its commercial viability for legitimate theater #use#, or historic restoration of the interior of a theater which has been designated as an interior landmark.

Substantial rehabilitation may include, without limitations, such work as expanding stage wings, re-raking the orchestra, increasing rehearsal, dressing room or lobby space, or historic restoration. It may also include reconversion to legitimate theater #use# of an original legitimate theater currently in other #use#. Substantial rehabilitation does not mean normal theater maintenance, painting or improvements to mechanical systems alone.

(3) Timing and commitment

(i)There shall be a contractual commitment or commitments for the construction work involved in the substantial rehabilitation;

(ii)the requirements of Section 81-743 (Required assurances for continuance of legitimate theater use) shall be satisfied;

(iiia rehabilitation bonus shall not be granted for a substantial rehabilitation completed before May 13, 1982.

(b)Amount of rehabilitation bonus

The amount of bonus #floor area# granted for a qualifying theater rehabilitation shall be at the discretion of the City Planning Commission after consideration of the following findings by the Commission:

(1)how and to what extent the proposed rehabilitation will improve the theater's suitability for #use# as a legitimate theater; and

(2)how the proposed rehabilitation will contribute toward satisfying the needs of the Theater Subdistrict.
Such bonus #floor area# shall not exceed 20 percent of the basic maximum #floor area# permitted on the development's #zoning lot# by the regulations of the underlying district, except that in the case of a C6-4, C6-5, or M1-6 underlying District, the bonus #floor area# shall not exceed 44 percent of the basic maximum #floor area# permitted in such underlying District.

The City Planning Commission may allow by special permit bonus #floor area# for substantial rehabilitation or restoration of any theater designated as listed theater pursuant to Section 81-742 (Listed Theaters), provided the following conditions are met:

(a)the #development# for which a theater rehabilitation bonus is granted is located on the same #zoning lot# as the listed theater;

(b)substantial rehabilitation will be performed, consisting of major interior structural changes for the purpose of improving the theater's design and its commercial viability for legitimate theater #use#, or historic restoration of the interior of a theater designated as an interior landmark. Substantial rehabilitation may include, without limitation, such work as an expansion of stage wings, re-raking of the orchestra, an increase in the amount of rehearsal, dressing room or lobby space, historic restoration, or reconversion to legitimate theater #use# of an original legitimate theater currently in other #use#, but shall not mean normal theater maintenance, painting or improvements to mechanical systems alone;

(c)the maximum amount of bonus #floor area# shall not exceed the basic maximum #floor area ratio# established pursuant to Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings) for the #zoning lot# by more than 20 percent, or, for #zoning lots# located in C6-4, C6-5, or M1-6 Districts, by more than 44 percent;

(d)there shall be a contractual commitment or commitments for the construction work involved in the substantial rehabilitation;

(e)the provisions of Section 81-743 (Required Assurances for continuance of legitimate theater use) are met, and

(f)no rehabilitation bonus shall be granted for a substantial rehabilitation completed before May 13, 1982.

In order to grant the special permit, the Commission shall make the following findings:

(1)the proposed rehabilitation will improve the theater's suitability for #use# as a legitimate theater;

(2)the proposed rehabilitation will contribute towards satisfying the needs of the Theater Subdistrict;

(3)the bonus #floor area# will not unduly increase the bulk of any new #development# or #enlargement#, density of population, or intensity of #use# on any #block# to the detriment of occupants of #buildings# on the #block# or the surrounding area; and

(4)the distribution and location of such #floor area# bonus will not adversely affect the surrounding area by restricting light and air or otherwise impair the essential character or future #development# of the surrounding area.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding areas.

For purposes of applying the provisions of Section 11-42 (Lapse of Authorization or Special Permit by the City Planning Commission Pursuant to the 1961 Zoning Resolution) to a special permit granted pursuant to this Section, "substantial construction" shall mean substantial rehabilitation, as described in paragraph (b) of this Section, of the subject theater for which a #floor area# bonus has been granted to a related #development#.

81-746
Additional provisions for zoning lots divided by district or subdistrict core boundaries

(a)For any #zoning lot# which includes a listed theater as set forth in Section 81-742 *(Restrictions on demolition of theaters)* **(Listed Theaters) or is or contains a "receiving site" pursuant to Section 81-744 (Transfer of development rights from listed theaters),** and which is divided by a boundary between districts with

different *#bulk# regulations*, **basic maximum #floor area ratios# as set forth in Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings),** the Chairperson of the City Planning Commission, by certification, may authorize modifications of the provisions of Section 77-02 (Zoning Lots not Existing Prior to Effective Date or Amendment of Resolution), Section 77-21 (General Provisions), Section 77-22 (Floor Area Ratio) and Section 77-25 (Lot Area or Floor Area Requirements), as follows:

For any #zoning lot#, *whether or not it existed on December 15, 1961, or on the date of any applicable subsequent amendment thereto,* #floor area# or #rooms# permitted by the applicable district regulations on *that* **either** side of the district boundary *occupied by the theater* may be located on the other side of the district boundary *subject to the following conditions* **provided**:

(1)the amount of such #floor area# to be located on *the other* **either** side of the district boundary shall not exceed 20 percent of the basic maximum #floor area ratio# of the district in which it is to be located;

(2)the number of such #rooms#, if any, to be located on *the other* **either** side of the district boundary shall not exceed the number permitted by the #floor area per room# requirements as set forth in Section 81-242 (Density regulations for residential and mixed buildings); and

(3)*compliance with* the provisions of Section 81-743 (Required assurances for continuance of legitimate theater use) **are met**.

The Chairperson's certification approving modification of the provisions for **such** #zoning lots# divided by district boundaries shall state the total amount of #floor area#, including #floor area# of *the* **any** existing theater, to be provided on the #zoning lot# as a whole **and** the portion thereof to be located in each district, and the amount authorized herein to be located across the district boundary from the district in which the theater is located.

Notice of the restrictions upon further #development# of each portion of the #zoning lot# shall be recorded by the owner against the #zoning lot# in the Office of the Register of the City of New York (County of New York) and a certified copy shall be submitted to the Commission.

(b)Notwithstanding any other provisions of this Resolution, for any #zoning lot# which is divided by a boundary of the Theater Subdistrict Core as defined in Section 81-71 (General Provisions) and for which the basic maximum #floor area ratio# as set forth in Section 81-211 (Maximum floor area ratios for non-residential or mixed buildings) is the same for both the portion within and the portion outside of the Theater Subdistrict Core, the applicable underlying #bulk# regulations shall be modified as follows:

(1)#floor area#, including bonus #floor area#, or #rooms# permitted by the applicable district regulations on that portion of the #zoning lot# within the Theater Subdistrict Core may be located on the portion of the #zoning lot# outside the Core, provided that the number of such #rooms#, if any, to be located outside of the Core shall not exceed the number permitted by the #floor area per room# requirements as set forth in Section 81-242 (Density regulations for residential and mixed buildings); and

(2)#floor area#, including bonus #floor area#, or #rooms# permitted by the applicable district regulations on that portion of the #zoning lot# outside of the Theater Subdistrict Core shall not be located on the portion of the #zoning lot# within the Core.

(c)Notwithstanding any other provisions of this Resolution, for any #zoning lot# located wholly within the Theater Subdistrict and outside of the Theater Subdistrict Core that is divided by a boundary of the Eighth Avenue Corridor as defined in Section 81-71 (General Provisions) and for which the basic maximum #floor area ratio# as set forth in Section 81-211 (Maximum floor area ratios for non-residential or mixed buildings) is the same for both the portion within and the portion outside of the Eighth Avenue Corridor, #floor area#, including bonus #floor area#, or #rooms# permitted by the applicable district regulations may be located on either side of the Eighth Avenue Corridor boundary.

81-748
Floor area bonus for through block galleria

Upon certification by the City Planning Commission that the requirements of this Section are satisfied, a #development# within the Theater Subdistrict, but outside of the Theater Subdistrict Core, which provides a through #block# galleria shall be eligible for bonus #floor area# in the amount of 6 square feet for each square foot of through #block# galleria area, provided that in no case shall such bonus #floor area# exceed a #floor area ratio# of 1.0.

A through #block# galleria is a continuous covered public space on a #zoning lot#, which connects two parallel or nearly parallel east-west #streets# and provides for through #block# pedestrian circulation as well as other pedestrian amenities appropriate to the Theater Subdistrict. A through #block# galleria shall satisfy the following requirements:

(a) District plan requirements

A through #block# galleria shall be located within the Theater Subdistrict but outside of the Theater Subdistrict Core.
It shall be located not less than 200 feet from a #wide# north-south #street#. It shall satisfy the requirements of Section 81-46 (Through Block Connection). It may be counted toward meeting the minimum pedestrian circulation space requirements as set forth in Section 81-45 (Provision of Pedestrian Circulation Space) up to a maximum of 3,000 square feet. For any #zoning lot# on which a through #block# connection is not permitted by the provisions of Section 81-46 as counting towards meeting the pedestrian circulation space requirements of Section 81-45, no bonus shall be allowed for a through #block# galleria.

(b) Location

At each end it shall adjoin and open onto a #street#, a sidewalk widening, a #plaza# or an #urban plaza# adjacent to the #street#. It shall provide continuous, unobstructed access from one end to the other.

(c) Elevation

It shall have the same grade elevation at each end as the sidewalk, sidewalk widening or #urban plaza# which it adjoins.
This elevation shall be maintained for at least 20 feet from the end, beyond which a grade change, if any, is permitted only to reconcile grade differences between the two ends.
Provisions for changes in grade shall include ramps for wheelchair users with a maximum slope of one to twelve.

(d) Access

It shall be open at each end, with width and height of opening not less than the applicable minimum width and height set forth in paragraph (e) of this Section.
It may connect with, but not serve as, lobby space for a new #building# or a theater.
It shall be open to the public between the hours of 8:00 a.m. and 7:00 except for certain legal holidays (December 25, January 1 and July 4).

(e) Minimum dimensions

Minimum dimensions depend on the length of the through #block# galleria, as follows:

THROUGH BLOCK GALLERIA

LENGTH	*less than 150 feet*	
	150 feet	*or more*
Minimum width	*20 feet*	*25 feet*
Average width	*20 feet*	*30 feet*
Minimum heigh	*20 feet*	*25 feet*
Average heigh	*20 feet*	*20 feet*

(f) Minimum clear path

Except as provided in paragraph (g) (Permitted obstructions), there shall be a straight path, clear of all obstructions, including door swings, extending from one end of the galleria to the other, with a minimum width of 15 feet. Where the through #block# galleria is adjoined at one or both ends by a sidewalk widening, #plaza# or #urban plaza#, such minimum width of clear path shall be continued across the adjoining open space to the #street line#.

(g) Permitted obstructions

(1)Columns or posts are permitted obstructions provided that the minimum width of the through #block# galleria exclusive of column widths shall be 20 feet and that the clear path width is at least 15 feet or two clear paths are provided, the paths being separated by columns and each having a minimum width of 10 feet.

(2)In areas outside the minimum clear path or paths, obstructions such as the following are permitted: planters, seating areas, landscape features, fountains, works of art, food kiosks, litter receptacles, drinking fountains, lights or lighting stanchions, public telephones, temporary exhibitions, retractable awnings and canopies and movable tables and chairs, provided that the total area occupied by such obstructions is less than 50 percent of the total area of the through #block# galleria minus the required clear path area.

(3)For through #block# gallerias with areas larger than 3,000 square feet, public seating is required.
There shall be at least one linear foot of seating for each 20 square feet of through #block# galleria area in excess of 3,000 square feet.
The design standards for seating shall be as set forth in paragraph (j) of Section 37-043 (Urban plaza). Eating or drinking service may be provided adjacent to, but not within, the through #block# galleria. All seating within the through #block# galleria shall be accessible to the public.

(4)For through #block# gallerias with an average height of at least 45 feet, bridges or balconies are permitted as obstructions, provided that such bridges or balconies are at least 15 feet above the floor level of the galleria, the width of the bridge is not more than 8 feet, the width of a balcony is not more than 5 feet and the total area of such obstructions is not more than 10 percent of the total area of the galleria.
Such obstructions may be enclosed provided that such enclosures are not more than 15 feet in height.

(h)Treatment of bounding walls

Along the length of a through #block# galleria, the bounding walls, except for walls along a #side lot line#, shall be lined insofar as possible with areas accessible to the public, display windows, or other exhibits, and such bounding walls shall be of transparent material.
Walls along a #side lot line# may be treated with planting or other landscape features.

(i) Skylights

(1)Design standard

Skylights shall be provided having a minimum surface area equal to at least 75 percent of the through #block# galleria, and skylights shall cover at least 50 percent of the galleria's area as measured in plan and shall be unobstructed from the skylights up to the sky.

(2)Modification of design standard

The City Planning Commission may authorize a modification of the minimum area of a skylight for a through #block# galleria under the following conditions:

(i)the through #block# galleria contains a minimum area of 6000 square feet;

(ii)the minimum height of the through #block# galleria is at least double its average width; and

(iiithe exterior bounding walls of the through #block# galleria are open or glazed above a height of 30 feet so as to permit additional natural light into the space.

The total amount of such open or glazed area, including the skylight shall be equal to at least 75 percent of the area of the through #block# galleria.

(j) Penalties for violations

Failure to comply with the conditions or restrictions of the bonused amenity shall constitute a violation of this Resolution and shall constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

81-748
Floor Area for New Legitimate Theaters

Within the Theater Subdistrict in C6-7T, C5-3, C6-6 and C6-7 Districts, the City Planning Commission may, by special permit, allow additional #floor area# for new legitimate theater use. Such additional #floor area# shall be up to a maximum #floor area ratio# of 2.0 calculated over that portion of the #zoning lot# located within such districts. However, where more than half of the #lot area# of the #zoning lot# is located within such districts, and the remaining portion is located outside of such districts, such additional #floor area ratio# of 2.0 may be calculated over the entire #zoning lot#. The Commission may also permit the modification of the #street wall# and setback regulations of Section 81-751 (Special Street Wall and Setback Regulations within the Theater Subdistrict Core) in connection with such #floor area# for new theater, subject to the following conditions:

(a)the total maximum #floor area# ratio inclusive of all bonuses and #floor area# used for new legitimate theater shall not exceed 21.6 on that portion of the #zoning lot# located within such districts, and
(b)such #floor area# shall be limited to floor space exclusively associated with legitimate theater use, including auditorium, orchestra, balconies, stage and theater equipment space, wings, dressing rooms, lobbies, lounges, ticket offices and rest rooms and circulation space.

No modifications permitted by such special permit shall allow for the modification of signs required pursuant to Section 81-73 (Special Sign and Frontage Regulations).

In granting such special permit, the City Planing Commission shall make the following findings:

(1)such floor area allowance shall not unduly increase the #bulk# of any new #development# or #enlargement#, density of population, or intensity of use on any #block# to the detriment of occupants of #buildings# on the #block# or the surrounding area;

(2)such modifications to #street wall# and setback regulations are necessary to accommodate the theater configuration and volume, are essential to ensure the proper functioning of the theater, and are limited to the minimum necessary to accommodate the theater; and

(3)such modifications to #street wall# and setback regulations do not adversely affect access to light and air at #street# level as compared to that which would result from the application of the regulations set forth in Section 81-75 (Special Street Wall and Height and Setback Regulations);

The Commission may prescribe appropriate conditions and safeguards to minimize other adverse effects on the character of the surrounding area.

An application filed with the City Planning Commission for special permit pursuant to this Section shall be made jointly by the owners of the #development# or #enlargement# and the owner and/or operator of the theater and shall include floor plans and zoning calculations indicating the location and size of the legitimate theater, and shall include a legal commitment made by the theater owner and the developer for continuance of the #use# of such #floor area# as a legitimate theater and prohibition of the #use# of such #floor area# for any #use# other than legitimate theater use for the life of the related #development# or #enlargement#.
The legal commitments shall be in the form of a declaration of restrictions, filed and duly recorded in the Borough Office of the Register of the City of New York, binding upon the owner, any lessee of the theater and their successors and assigns. The certificate of occupancy for the #building# containing the theater shall describe all #floor area# allocated as legitimate theater #use# for which such special permit has been granted.

81-75
Special Street Wall and Setback Requirements
(existing Section 81-75 becomes new Section 81-751)

#Developments# or #enlargements# located on #zoning lots# or portions of #zoning lots# within the Theater Subdistrict Core or the Eighth Avenue Corridor shall comply with the regulations of this Section. The height of all #buildings or other structures# shall be measured from #curb level#.

*81-75***81-751**
Special Street Wall and Setback *Requirements* **Regulations within the Theater Subdistrict Core**

#Developments# or #enlargements# located on #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway, **or located partially within the Theater Subdistrict Core and partially within the Eighth Avenue Corridor** shall comply with the requirements of this Section, and, in all other respects related to height and setback, with the provisions of Sections 81-25 (General Provisions Relating to Height and Setback of Buildings), **and either** 81-26 (Height and Setback Regulations - Daylight Compensation) *and* **or** 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation).

* * *

(b)TS10,13,15,20,25,30,35,40,45,50,55,60,65, 70,75The #street wall# of any #building# on a #zoning lot# between 43rd and 50th Streets and between Seventh Avenue and Broadway shall have a minimum #street wall# height of 50 feet *above #curb level#* on all #street# frontages.

(c)For #zoning lots# located in partially within the Theater Subdistrict Core and partially within the Eighth Avenue Corridor, the #street wall# of any #building# or portion of a #building# within the Theater Subdistrict Core shall have a minimum #street wall# height of 50 feet, or the height of the #building#, whichever is less, and a maximum #street wall# height of 60 feet within 15 feet of the #narrow street line#.

81-752
Special Street Wall and Setback Regulations within the Eighth Avenue Corridor

#Developments# or #enlargements# on #zoning lots# located in whole or in part within the Eighth Avenue Corridor, as defined in Section 81-71, and east of Eighth Avenue shall comply with the requirements of this Section, and except as superseded by this Section, with the provisions of Section 81-25 (General Provisions Relating to Height and Setback of Buildings), and either 81-26 (Height and Setback Regulations - Daylight Compensation) or 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation).

#Developments# or #enlargements# on #zoning lots# located in whole or in part within the Eighth Avenue Corridor, as defined in Section 81-71, and west of Eighth Avenue shall comply with the requirements of this Section. The provisions of Sections 81-25 (General Provisions Relating to Height and Setback of Buildings), 81-26 (Height and Setback Regulations - Daylight Compensation) and 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation) shall not apply except as set forth in paragraph (b)(1) of this Section.

(a)Street Wall Location and Minimum and Maximum Heights before Setbacks

(1) On Eighth Avenue and 42nd Street, #street walls# shall extend along the entire #street# frontage of the #zoning lot# to a minimum height of 50 feet or the height of the #building#, whichever is less.
At least 70 percent of the #aggregate width of street walls# shall be located on the #street line#, and the remaining 30 percent of the #aggregate width of street walls# may be located beyond the #street line# in compliance with #residential outer court# regulations for #residential# portions of #buildings#, and #community facility outer court# regulations for all other portions of #buildings#. However, within 30 feet of the intersection of two #street lines#, #street walls# shall comply with the location requirements of paragraph (a)(3) of this Section. The maximum height of #street walls# within 10 feet of the #wide street line# shall be 150 feet beyond 15 feet of a #narrow street line# and 85 feet within 15 feet of a #narrow street line#.

(2)On a #narrow street# east of Eighth Avenue, and on a #narrow street# west of and within 100 feet of Eighth Avenue, #street walls# shall extend along the entire width of such #narrow street# frontage of the #zoning lot# to a minimum height of 50 feet or the height of the #building#, whichever is less.
At least 70 percent of the #aggregate width of street walls# along such #narrow street# frontage shall be located on the #street line#, and the remaining 30 percent of the #aggregate width of street walls# may be located beyond the #street line# in compliance with #residential outer court# regulations for #residential# portions of #buildings#, and #community facility outer court# regulations for all other portions of #buildings#. However, within 30 feet of the intersection of two #street lines#, #street walls# shall\comply with the location requirements of paragraph (a)(3) of this Section.
The maximum height of #street walls# within 15 feet of the #narrow street line# shall be 85 feet.

No #street walls# are required along a #narrow street# west of and beyond 100 feet of Eighth Avenue provided at least 70 percent of the entire frontage of the #zoning lot# along such #narrow street# is occupied by #street walls# located on the #street line#.
The maximum height of #street walls# within 15 feet of the #narrow street line# shall be 66 feet, except in accordance with paragraph (b)(3) of this Section.

(3)Within 30 feet of the intersection of two #street lines#, the #street wall# shall be located on the #street line# or anywhere within an area bounded by the two #street lines# and lines parallel to and 15 feet from such #street lines#.

(4)For #developments# that occupy the entire #block# frontage of a #wide street# and provide a continuous sidewalk widening along such #street line#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section.

The #street wall# location and minimum height before setback regulations of this Section shall not apply to portions of #zoning lots# occupied by existing #buildings#.

(b)Special street wall regulations for buildings adjacent to listed theaters

For #developments# or #enlargements# that are adjacent to a theater listed pursuant to Section 81-742 (Listed Theaters), the maximum height of the #street wall# of the #development# or #enlargement# facing the same #street# as the listed theater shall be 60 feet within 15 feet of the #street line#.

(c)Additional Regulations Applying West of Eighth Avenue

(1)West of Eighth Avenue, at any level above a height of 85 feet, any #development# or #enlargement# or portion thereof shall have a minimum #lot coverage# requirement of 33 percent of the #lot area# of the #zoning lot#, except that such minimum #lot coverage# requirement shall not apply to the highest four #stories# of the #building#.
#Developments# or #enlargements# or portions thereof that occupy, in the aggregate, more than 40 percent of the #lot area# of a #zoning lot# (or, for #zoning lots# of less than 20,000 square feet, a greater percentage than set forth in the table in Section 23-651), shall comply with the provisions of Section 81-25 (General Provisions Relating to Height and Setback of Buildings), and either 81-26 (Height and Setback Regulations - Daylight Compensation) or 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation).

(2)Beyond 125 feet of the western #street line# of Eighth Avenue, and beyond 100 feet of the northern #street line# of 42nd Street, no #building or other structure# shall exceed a height of 66 feet, except in accordance with paragraph (3) below.

(3)Where the new or #enlarged building# abuts an existing #building# located entirely beyond 125 feet of the western #street line# of Eighth Avenue and the northern #street line# of 42nd Street, and such existing #building# exceeds a height of 66 feet, the new or enlarged #building# may exceed any height limits specified in this Section up to the height of the existing #building#, provided that, within 15 feet of the #narrow street line#, such portion of the new or #enlarged building# does not exceed either the height of the existing #building# or 85 feet, whichever is less.
For the purposes of this paragraph, the height of the existing #building# shall be the height of its #street wall#, before setback, if applicable, of that portion of the existing #building# abutting the new or #enlarged building#, fronting on the same #street line#, and located on the same or adjoining #zoning lot#.

Chapter 6
Special Clinton District

96-00
GENERAL PURPOSES

The "Special Clinton District" (hereinafter also referred to as the "Special District"), established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity.
Because of the unique geographical location of the Clinton community, situated between the waterfront on the west and a growing central business district on the east, it is necessary to provide specific programs and regulations which will assure realization of community and city-wide goals.

These goals include, among others, the following:

(a)to preserve and strengthen the residential character of the community;

(b)to permit rehabilitation and new construction within the area in character with the existing scale of the community and at rental levels which will not substantially alter the mixture of income groups presently residing in the area;

(c)to preserve the small-scale character and variety of existing stores and activities and to control new commercial uses in conformity with the existing character of the area;

(d)to recognize the unique character of the eastern edge of District as an integral part of the Theater Subdistrict within the Special Midtown District as well as the Special Clinton District;

(e)to provide an appropriate transition from the mixed-use character along Eighth Avenue to the lower-scale residential character of the Clinton community on the narrow streets;

*(d)(f)*to provide amenities, such as street trees, to improve the physical environment;

*(e)(g)*to restrict demolition of buildings that are suitable for rehabilitation and continued residential use; and

*(f)(h)*to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues, consistent with the foregoing purposes.

96-01
Definitions

Definitions specially applicable to this Chapter are set forth in this Section.
The definitions of other defined terms are as set forth in Section 12-10 (DEFINITIONS).

Mixed building

For the purposes of this Chapter, a "mixed building" is a #building# in a #Commercial District# used partly for #residential use# and partly for #community facility# or #commercial use#, or a #building# in a #Residential District# used partly for #residential use# and partly for #community facility use#.

Special Clinton District
(repeated from Section 12-10)

The "Special Clinton District" is a Special Purpose District designated by the letters "CL" in which special regulations set forth in Article IX, Chapter 6 apply.

The #Special Clinton District# and its regulations supplement or supersede those of the districts on which it is superimposed.

Special Midtown District
(repeated from Section 12-10)

The #Special Midtown District# is a Special Purpose District designated by the letters "MiD", in which special regulations set forth in Article VIII, Chapter 1 apply.

96-02
General Provisions

Except as modified by the express provisions of this Chapter, the regulations of the underlying districts **or as modified by the Special Midtown District** remain in effect.

The Special Midtown District and its regulations, where applicable in the Special Clinton District, shall also apply and shall supplement or supersede regulations as set forth in this Chapter pursuant to Section 96-202 (Special regulations for perimeter area fronting Eighth Avenue). In the event of any conflict or discrepancy between the regulations the provisions of the Special Midtown District shall control. This portion of the Special Purpose District is designated on the #zoning map# by the letters "CL-MiD".

96-03
District Map

The District Map for the #Special Clinton District# (Appendix A) identifies specific areas comprising the Special District in which special zoning regulations carry out the general purposes of the #Special Clinton District#. These areas and the sections of this Chapter which contain regulations pertaining thereto are as follows:

Area A - PRESERVATION AREA, Section 96-10
Area B - PERIMETER AREA, Section 96-20
Area C - OTHER AREAS, Section 96-30

96-10
PRESERVATION AREA

96-20
PERIMETER AREA

#Developments# within the Perimeter Area shall be eligible for increased #floor area# pursuant to Section 96-21 (Floor Area Bonus).
Because of increased pressures for #development#, the relocation and demolition provisions of Section 96-23 (Relocation and Demolition of Buildings in the Perimeter Area) shall apply therein for all demolition, #development#, #enlargement# or #extensions# on lots containing #residential uses#.
All existing legal #uses# in enclosed #buildings# shall be considered conforming #uses#.
Except as otherwise provided in this Chapter, any existing #commercial# or #manufacturing uses# may be changed to another #non-conforming use# only in accordance with the provisions of Sections 52-31 (General Provisions), 52-33 (Manufacturing or Related Uses in Residence Districts), 52-34 (Commercial Uses in Residence Districts, 52-35 (Manufacturing or Related Uses in Commercial Districts) and 52-36 (Non-Conforming Commercial Uses in Commercial Districts).

96-201
Special urban design regulations relating to retail continuity and street wall requirements
Special Regulations for 42nd Street Perimeter Area

(a) The provisions of this Section shall apply to #developments# or #enlargements# located in all #Commercial Districts# within the area bounded by the following:
Starting 150 feet west of Eighth Avenue, south to the southern boundary of West 41st Street, west to the east side of Twelfth Avenue, north along the eastern border of Twelfth Avenue to 43rd Street, east on West 43rd Street to the eastern side of Tenth Avenue, south along Tenth Avenue to the southern boundary of West 42nd Street, east on West 42nd Street to Ninth Avenue, north along the western boundary of Ninth Avenue to the midblock of 42nd/43rd Street, east to a point 150 feet west of Eighth Avenue, south to the southerly boundary of 41st Street.

(a)Retail Continuity Requirements

*(b)***(1)**For any #development# or #enlargement# fronting on West 42nd Street, between 9th and 12th Avenues, at least 50 percent of the street frontage of the ground floor, or within five feet of #curb level#, shall be limited to Use Groups 4A, 6A, 6C, 10A, 11, 12A and 12B.

*(c)***(2)**At least 50 percent of the length of the facade of such #street wall# fronting on West 42nd Street shall be glazed with transparent material to a height of not less than 16 feet above #curb level#. The lowest point of such glazed area shall not be higher than four feet above #curb level#.

*(d)***(b) Street Wall Continuity Requirements**

(1) At least 80 percent of the #aggregate width of street walls# of a #building# fronting on West 42nd Street, up to a height of 45 feet, shall be located within 10 feet of the #street line# of such #street#.

*(e)***(2)**The minimum height of the #street wall# of a #building# above #curb level# shall be no less than 45 feet and no more than 85 feet. Above this required height, the #street wall# of a #building# shall set back at least five feet. The requirements of this paragraph shall also apply to any #development# or #enlargement# on a #wide street# frontage within a distance of 50 feet from its intersection with West 42nd Street.

96-202
Special regulations for Eighth Avenue Perimeter Area

All #developments# or #enlargements# located in an area bounded by a line 150 feet west of Eighth Avenue, West 56th Street, Eighth Avenue, and West 42nd Street shall comply with special regulations set forth in Article VIII, Chapter 1 (Special Midtown District), including Section 81-70 (Special Regulations for Theater Subdistrict).

96-21
Floor Area Increase

(a)**Except as specified in paragraph (b) of this Section,** *For* any #development#, the #floor area ratio# permitted by the underlying district may be increased from 10.0 to 12.0 only by complying with the provisions of Section 23-90 (INCLUSIONARY HOUSING). A permanent certificate of occupancy for any #building# incorporating #floor area# increase pursuant to this Section shall not be issued by the Department of Buildings until the issuance of a permanent certificate of occupancy for lower income housing. In addition to the requirements of Section 23-90 (INCLUSIONARY HOUSING), any units for which a #floor area# increase has been earned pursuant to Section 23-90 shall be within the #Special Clinton District#.

(b)For any #development# located within the Eighth Avenue Perimeter Area set forth in Section 96-202 (Special regulations for Eighth Avenue Perimeter Area), the #floor area ratio# permitted by the underlying district may be increased pursuant to the provisions of Section 81-21 (Floor Area Regulations) as set forth in Article VIII Chapter 1 (Special Midtown District).

96-22
Special Permit for Modification of Height and Setback Regulations

Except within the Eighth Avenue Perimeter Area set forth in Section 96-202 (Special Regulations for Eighth Avenue Perimeter Area), *The* City Planning Commission by special permit after public notice and hearing and subject to Board of Estimate action, may permit modification of height and setback regulations for #developments# which have generated an increase in the #floor area ratio# of not more than 2.0 under the provisions of Section 96-21 provided that such modification is necessary to achieve better site planning.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

* * *

*96-52***96-52**
Bulk *Modifications* for *Public Parking Garages*

Except within the Eighth Avenue Perimeter Area set forth in Section 96-202 (Special regulations for Eighth Avenue Perimeter Area), *In* in all other C6 Districts, the City Planning Commission by special permit after public notice and hearing and subject to Board of Estimate action, may permit for #public parking garages#, modification of the applicable #lot coverage#, #yard# and height and setback regulations. As a condition

of permitting such modifications the Commission shall make the following findings:

(a)that because of site limitations such modifications are necessary for the proper design and operation of the #public parking garage#; and

(b)that such modifications will not unduly obstruct access to light and air in the #street# or on adjacent #zoning lots#.

The Commission shall consider the characteristics of surrounding development and may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of adjacent areas.

* * *

96-60
SPECIAL PERMIT PROCEDURE

96-601
Requirements for applications

An application to the City Planning Commission for the grant of a special permit under the provisions of this Chapter, shall include a site plan showing the location and proposed #use# of all #buildings or other structures# on the site, the location of all vehicular entrances and exits and off-street parking spaces, and such other information as may be required by the City Planning Commission.

Notwithstanding the foregoing, in the Eighth Avenue Perimeter Area all applications made pursuant to the Special Midtown District shall be subject to the guidelines and provisions of Article VIII, Chapter 1 (Special Midtown District) instead.

All applications relating to Section 96-52 (Off-Street Parking Regulations) shall be referred by the Commission to the Department of Transportation for its report with respect to the anticipated traffic congestion resulting from such special permit #use# in the proposed location.

If such agency shall report thereon within one month from the date of referral, the Commission shall, in its determination, give due consideration to such report and, further, shall have the power to substantiate the appropriate findings solely on the basis of the report by such agency with respect to the issues referred. If such agency does not report within one month, the Commission may make a final determination without reference thereto.

Anyone interested in commenting on the above matter(s) can sign up for three (3) minutes of speaking time at the public hearing.

a30-m7

CITY COUNCIL

■ HEARINGS

NOTICE IS HEREBY GIVEN THAT the Council has scheduled the following public hearing on the matter indicated below:

The Subcommittee on Zoning and Franchises will hold a public hearing on the following matter in the Council Committee Room, City Hall, New York, New York 10007, commencing at 9:30 A.M. on Tuesday, May 5, 1998:

STATEN ISLAND CB - 3 N 970399 ZRR

Application submitted by the Department of City Planning pursuant to Section 201 of the New York City Charter for an amendment of Appendix A Section 107-06 of the Zoning Resolution, Special South Richmond Development District, involving modification of the boundaries of the designated open space as shown on South Richmond Special District Plan, Section No. 33c, by deleting property bounded by:

1.the southerly street line of Barlow Avenue, a line passing through two points: one on the southerly street line of Barlow Avenue distant 160 feet easterly from the intersection of the easterly street line of Pompey Avenue and the southerly street line of Barlow Avenue and the other on the northerly street line of Leverett Avenue distant 159 feet easterly from the intersection of the easterly street line of Pompey Avenue and the northerly street line of Leverett Avenue, the northerly street line of Leverett Avenue, a line 74 feet easterly of Pompey Avenue, a line 205 (205.38) feet northerly of Leverett Avenue, the easterly street line of Pompey Avenue, a line 249 (249.29) feet northerly of Leverett Avenue, a line 74 feet easterly of Pompey Avenue, a line 449 (449.29) feet northerly of Leverett Avenue, the easterly street line of Pompey Avenue, a line 493 (493.20) feet northerly of Leverett Avenue, a line 74 feet easterly of Pompey Avenue, a line 654 (653.20) feet northerly of Leverett Avenue, and a line 80 feet easterly of Pompey Avenue;
2.a line 62 feet southerly of the straight portion of the southerly street line of Barlow Avenue and its westerly prolongation, the westerly street line of Pompey Avenue, the northerly street line of Monterey Avenue, a line 12 feet westerly of Pompey Avenue, a line 74 feet northerly of Monterey Avenue, and a line 20 feet easterly of Drumgoole Road East;

3.A line 362 feet westerly of Pompey Avenue, the northerly street line of Monterey Avenue, a line perpendicular to the northerly street line of Monterey Avenue distant 27 feet easterly from the intersection of the northerly and northeasterly street lines of Monterey Avenue, and a line 20 feet easterly of Drumgoole Road East;

4.the southerly street line of Monterey Avenue, the westerly street line of Pompey Avenue, the northerly street line of Marne Avenue, and a line 12 feet westerly of Pompey Avenue;

5.a line 66 feet southerly of Monterey Avenue, a line perpendicular to the southerly street line of Monterey Avenue distant 54 feet easterly from the intersection of the easterly street line of Drumgoole Road East and the southerly street line of Monterey Avenue, a line 74 feet northerly of Marne Avenue, a line perpendicular to the northerly street line of Marne Avenue distant 57 feet easterly of the intersection of the northerly and northeasterly street lines of Marne Avenue, the northerly street line of Marne Avenue, a line perpendicular to the northerly street line of Marne Avenue distant 27 feet easterly from the intersection of the northerly and northeasterly street lines of Marne Avenue, and a line 20 feet easterly of Drumgoole Road East; and

6.the southerly street line of Marne Avenue, the westerly street line of Pompey Avenue, a line 66 feet northerly of Leverett Avenue, a line 120 feet easterly of Annadale Road, a line 100 feet northerly of Leverett Avenue, a line perpendicular to the northerly street line of Leverett Avenue distant 58 feet easterly from the intersection of the easterly street line of Annadale Road and the easterly street line of Drumgoole Road East, a line 20 feet easterly of Drumgoole Road East, the southerly street line of Marne Avenue, a line perpendicular to the southerly street line of Marne Avenue distant 65 (65.03) feet easterly of the intersection of the southerly street line of Marne Avenue and the easterly street line of Drumgoole Road East, a line 74 feet southerly of Marne Avenue, and a line 12 feet westerly of Pompey Avenue;

and by adding property bounded by:

7.A line 74 feet northerly of Monterey Avenue, a line 20 feet easterly of Drumgoole Road East, and a line 362 feet westerly of Pompey Avenue;
8.the southerly street line of Barlow Avenue, a line passing through two points: one on the southerly street line of Barlow Avenue distant 344 feet easterly from the intersection of the easterly street line of Pompey Avenue and the southerly street line of Barlow Avenue and the other on the northerly street line of Leverett Avenue distant 343 feet easterly from the intersection of the easterly street line of Pompey Avenue and the northerly street line of Leverett Avenue, the northerly street line of Leverett Avenue, and a line passing through two points: one on the northerly street line of Leverett Avenue distant 339 feet easterly from the intersection of the easterly street line of Pompey Avenue and the northerly street line of Leverett Avenue and the other on the southerly street line of Barlow Avenue distant 340 feet easterly from the intersection of the easterly street line of Pompey Avenue and the southerly street line of Barlow Avenue; and

9.a line 196 feet southerly of Marne Avenue, the westerly street line of Pompey Avenue, the northerly street line of Leverett Avenue, and a line 120 feet easterly of Annadale Road;

as shown on a diagram (for illustrative purposes only), dated October 6, 1997.

The Subcommittee on Landmarks, Public Siting and Maritime Uses will hold public hearings on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 11:00 A.M. on Tuesday, May 5, 1998:

MANHATTAN CB - 10 268098 HKM

Designation (DL-289, LP-1973) by the Landmarks Preservation Commission, pursuant to Section 3020 of the New York City Charter, of the YMCA, located at 180 West 135th Street, as a landmark.

MANHATTAN CB - 1 269098 HKM

Designation (DL-289, LP-1967) by the Landmarks Preservation Commission, pursuant to Section 3020 of the New York City Charter, located at 3-9 Beekman Street (a/k/a 119-133 Nassau Street and 10 Theatre Alley), as a landmark.

MANHATTAN CB - 7 270098 HKM

Designation (DL-289, LP-1980) by the Landmarks Preservation Commission, pursuant to Section 3020 of the New York City Charter, of the former East River Savings Bank, as a landmark.

BROOKLYN CB - 1 C 970339 PQK

Application (C 970339 PQK) was filed on January 14, 1997 by the Department of Sanitation (DOS) and the Department of Citywide Administrative Services (DCAS) for acquisition of privately owned property located at 314 Rutledge Street, for continued use as a garage.

BROOKLYN CB - 1 C 970340 PQK

Application (C 970340 PQK) was filed on January 14, 1997 by the Department of Sanitation (DOS) and the Department of Citywide Administrative Services (DCAS) for acquisition of privately owned property located at 306 Rutledge Street, for continued use as a garage.

BROOKLYN CB - 1 C 970341 PQK

Application submitted by the Department of Sanitation and the Department of Citywide Services, pursuant to Section 197-c of the New York City Charter for acquisition of property located at 525 Johnson Avenue, for continued use as a garage.

BROOKLYN CB - 1 C 970342 PQK

Application submitted by the Department of Sanitation and the Department of Citywide Services, pursuant to Section 197-c of the New York City Charter for acquisition of property located at 145 Randolph Street, for continued use as a garage.

The Subcommittee on Permits, Dispositions and Concessions will hold public hearings on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 1:00 P.M. on Tuesday, May 5, 1998:

MANHATTAN CB - 11 C 970803 HAM

Application submitted by the Department of Housing Preservation and Development (HPD):

1)pursuant to Article 16 of the General Municipal Law of New York State for:

a)the designation of 57, 61, 63, 67, 71 and 73 E. 128th Street (Block 1753, Lots 27 - 32), as an Urban Development Action Area;

b) an Urban Development Action Area Project for such area; and

2)pursuant to Section 197-c of the New York City Charter for the disposition of such property, except Block 1753, Lot 28, to a sponsor selected by HPD,

to facilitate the construction of two seven story buildings with 103 units of housing for low income and homeless persons, plus one unit for a superintendent, tentatively known as Vincent Cyrus Plaza.

MANHATTAN CB - 11 C 980246 ZMM

Application submitted by the Department of Housing Preservation and Development, pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section No. 6a, changing from a C8-3 District to an R7-2 District property bounded by East 129th Street, a line 70 feet west of Park Avenue, East 128th Street, and a line 100 feet west of Park Avenue, as shown on a diagram (for illustrative purposes only), dated December 22, 1997.

BROOKLYN CB - 7 352098 HAK

Application submitted by the Department of Housing Preservation and Development pursuant to Article 16 of the General Municipal Law for an amendment to a previously approved Urban Development Action Area Project under the Habitat for Humanity Program, located at 650 51st Street (Block 801/Lot 27).

Proposals subject to Council review and action pursuant to the Urban Development Action Area Act, Article 16 of the New York General Municipal Law, at the request of the Department of Housing Preservation and Development ("HPD"), which requests that the Council:

1.Find that the present status of the listed areas tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes of Section 691 of the General Municipal Law;

2.Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3.Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law;

4.Approve the project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law; and

5.Approve an exemption of the project from real property taxes pursuant to Section 577 of the Private Housing Finance Law for 346098 HAM and 353098 HAX and Section 696 of the General Municipal Law for 341098 HAQ, 342098 HAK, 347098 through 351098 HAK.

COURT NOTICE

SUPREME COURT

■ **NOTICE**

SUPREME COURT, KINGS COUNTY NOTICE OF PETITION. KINGS COUNTY INDEX NUMBER 12009/98

In the Matter of the Application of THE CITY OF NEW YORK, relative to acquiring title in fee simple and other interest in certain real property where not heretofore acquired for the same purpose as a site for **KENSINGTON BRANCH LIBRARY** generally located at 4209-17 18th Avenue situated in Community District 14, Borough of Brooklyn, City and State of New York.

PLEASE TAKE NOTICE that the Corporation Counsel of the City of New York intends to make application to the Supreme Court of the State of New York, Kings County, at IA Part 74 , to be held in and for Kings County at the County Courthouse, 360 Adams St in the Borough of Kings, City of New York on the 14th day of May, 1998 at 9:30 A.M., or as soon thereafter as counsel can be heard for an order:

1) authorizing the City to file an acquisition map in the office of the Clerk of Kings County or the Office of the City Register;

2) directing that upon the filing of said map, title to the property sought to be acquired shall vest in the City; and

3) providing that just compensation therefor be ascertained and determined by the Supreme Court without a jury.

The City of New York, in this proceeding, intends to acquire title in fee simple absolute to certain real property where not heretofore acquired for the same purpose, as a site for KENSINGTON BRANCH LIBRARY in the Borough of Brooklyn, City and State of New York.

The description of the real property to be acquired is as follows:

Beginning at a point on the southerly line of said 18th Avenue and the easterly line of Seton Place (3rd Street - 50 feet wide), which point of beginning is where the dividing line between tax lots 7 and 14 in Brooklyn tax block 5416, as shown on the "Tax Map" of the City of New York for the Borough of Brooklyn, as said "Tax Map" existed on June 25, 1997, is intersected by the southerly line of 18th Avenue (80 feet wide):

Running thence eastwardly and along the southerly line of the said 18th Avenue, for 80.09 feet (80 feet - Deed) to a point on the westerly line of lot 18 in block 5416, as shown on the "Tax Map" of the City of New York, Borough of the Brooklyn, as the said "Tax Map" existed on June 25, 1997;

Thence, southwardly, forming an interior angle of 90°26'06" with the previous course, and along the said westerly line of lot 18 in block 5416, for 112.51 (112.33 feet - Deed) feet to a point on the northerly line of lot 112 in block 5416;

Thence, eastwardly, forming an interior angle of 89°42'13" with the previous course, and along the said northerly line of lot 112 and northerly lines of lots 114, 115 and 116 in block 5416, for 80.09 feet (80 feet - Deed) to a point on the easterly line of lot 7 in block 5416;

Thence, northwardly, forming an interior angle of 90°17'47" with the previous course, and along the said easterly line of lot 7 in block 5416, for 112.71 feet (112.58 feet - Deed) back to the point of beginning.

This parcel consists of lot 14 in block 5416 as shown on the "Tax Map" of the City of New York, Borough of the Brooklyn, as the said "Tax Map" existed on June 25, 1997, and comprises an area of 9,019 square feet or 0.20705 acres.

The above described property shall be acquired subject to encroachments, if any, of the structures, improvements, and appurtenances standing or maintained partly upon the above described parcels and partly upon the lands and premises adjoining the same so long as such encroachments shall stand. Surveys, maps or plans of the property to be acquired are on file in the office of the Corporation Counsel of the City of New York, 100 Church Street, Room 5-236A, New York, New York 10007.

Dated: New York, New York, April 8, 1998
MICHAEL D. HESS, Corporation Counsel of the City of New York Attorney for the Condemnor 100 Church Street, New York, New York 10007 Tel. (212) 788-0711

PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitations notices for most procurement above $25,000 for goods or services or above $50,000 for construction and construction related services are published for at least one day.

Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● *Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,*18th Floor, NY, NY 10007 (212) 669-8562

Construction & Construction Related Services

● Mayor's Office of Construction,

Bidders List Unit, 52 Chambers Street, Room 307, New York, NY 10007 (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway 9th Floor,New York, NY 10007 (212) 788-0010 Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual.(see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business.

In order to become certified for the program, your company must substantiate that it:

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,

110 William Street, 2nd Floor,
New York, New York 10038 (212) 618-8782.

PROMPT PAYMENT

It is policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bill within 30 days after the receipt of a proper invoice. The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board51 Chambers Street Room 1126, New York 10007 (212) 788-7820

PROCUREMENT POLICY BOARD RULES

To obtain a copy of the Procurement Policy Board Rules either in hard copy or on disk, call the Procurement Policy Board office, (212) 788-7820. The Rules may also be accessed on the City Website, http://www.ci.nyc.ny.us

COMMON ABBREVIATIONS USED IN THE CR

The CR contains many abbreviations. Listed below are simple explanations of some of the most common ones appearing in the CR:

AB ..... Acceptable Brands List
AC .....Accelerated Procurement
AMT .....Amount of Contract
BL .....Bidders List
CSB .....Competitive Sealed Bidding (including multi-step)
CB/PQ .....CB from Prequalified Vendor List
CP .....Competitive Sealed Proposal (including multi-step)
CP/PQ .....CP from Prequalified Vendor List
CR .....The City Record newspaper
DA .....Date bid/proposal documents available
DUE .....Bid/Proposal due date; bid opening date
EM .....Emergency Procurement
IG .....Intergovernmental Purchasing
LBE.....Locally Based Business Enterprise
M/WBE .....Minority/Women's Business Enterprise
NA.....Negotiated Acquisition
NOTICE....Date Intent to Negotiate Notice was published in CR
OLB.....Award to Other Than Lowest Responsible & Responsive Bidder/Proposer
PIN.....Procurement Identification Number
PPB.....Procurement Policy Board
PQ .....Pre-qualified Vendors List
RS.....Source required by state/federal law or grant
SCE .....Service Contract Short-Term Extension
DP .....Demonstration Project
SS.....Sole Source Procurement
ST/FED.....Subject to State &/or Federal requirements

KEY TO METHODS OF SOURCE SELECTION

The Procurement Policy Board (PPB) of the City of New York has by rule defined the appropriate methods of source selection for City procurement and reasons justifying their use. The CR procurement notices of many agencies include an abbreviated reference to the source selection method utilized. The following is a list of those methods and the abbreviations used:

CSB .....**Competitive Sealed Bidding** (including multi-step)

Special Case Solicitations / Summary of Circumstances:

CP .....***Competitive Sealed Proposal*** (including multi-step)
CP/1 .....Specifications not sufficiently definite
CP/2 .....Judgement required in best interest of City
CP/3 .....Testing required to evaluate
CB/PQ/4 ....
CP/PQ/4 ....**CB or CP from Prequalified Vendor List**/Advance qualification screening needed
DP .....Demonstration Project
SS.....**Sole Source Procurement**/only one source
RS.....Procurement from a Required Source/ST/FED
NA.....Negotiated Acquisition *For ongoing construction project only:*
NA/8.....Compelling programmatic needs
NA/9.....New contractor needed for changed/additional work
NA/10.....Change in scope, essential to solicit one or limited number of contractors
NA/11.....Immediate successor contractor required due to termination/default

For Legal services only:

NA/12.....Specialized legal devices needed; CP not advantageous
WA .....**Solicitation Based on Waiver/Summary of Circumstances** (Client Services/BSB or CP only)
WA1 .....Prevent loss of sudden outside funding
WA2 .....Existing contractor unavailable/immediate need
WA3 .....Unsuccessful efforts to contract/need continues
IG .....**Intergovernmental Purchasing** (award only)
IG/F.....Federal
IG/S.....State
IG/O .....Other
EM .....**Emergency Procurement** (award only) An unforeseen danger to:
EM/A.....Life
EM/B.....Safety
EM/C.....Property
EM/D.....A necessary service
AC .....**Accelerated Procurement**/markets with significant short-term price fluctuations
SCE .....**Service Contract Extension**/insufficient time; necessary service; fair price

Award to Other Than Lowest Responsible & Responsive Bidder or Proposer/Reason (award only)

OLB/a.....anti-apartheid preference
OLB/b.....local vendor preference
OLB/c.....recycled preference
OLB/d.....other: (specify)

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE *notice and an explanation of the notice* format used by the CR.

SAMPLE NOTICE:

CITYWIDE ADMINISTRATIVE SERVICES

HEARINGS

NOTICE IS HEREBY GIVEN that Public Hearing will be held in the Public Hearing Chamber, City Hall, Borough of Manhattan, on Thursday, May 7, 1998 commencing at 10:00 a.m. on the following:

IN THE MATTER of a proposed contract between the Department of Citywide Administrative Services of the City of New York, Division of Real Estate Services with Starrett Corporation, 1 Park Avenue, New York, NY 10016, for Development of 280 Broadway, Borough of Manhattan. The proposed contract is in the amount of $21,471,197.00. The term of the contract will be 22 months from the written notice to proceed. PIN 856980002510.

The proposed contractor has been selected by means of sole source procurement, pursuant to Section 3-05 of the Procurement Policy Board rules.

A copy of the draft contract is available for public inspection in Room 2053S, 1 Centre Street, New York, NY 10007, from April 24, 1998 through May 7, 1998, exclusive of holidays, between 10:00 a.m. and 3:00 p.m., Monday to Friday.

a24-30

DESIGN & CONSTRUCTION

HEARINGS

NOTICE IS HEREBY GIVEN that a Public Hearing will be held in the Public Hearing Chamber, City Hall, Borough of Manhattan on Thursday, May, 7, 1998 commencing 10:00 a.m., on the following:
IN THE MATTER of a proposed contract between the Department of Design & Construction of the City Of New York and Vollmer Associates, LLP; 50 West 23rd Street New York NY 10010 for Design Services for HHI12CLCC, Code Compliance/Renovations, at Camp LaGuarida located at One LaGuardia Road, Chester, NY 10918.
The contract term is 225 consecutive calendar days from the written notice to proceed (excluding agency review time), plus services during construction.
The contract amount shall be $339,200. Pin 85097HR0002P.
The proposed contractor has been selected by means of a competitive sealed proposal process pursuant to Section 3-03 & 3-11 of the PPB Rules. A draft copy of the proposed contract is available for public inspection at the Department of Design & Construction, Professional Contracts Section, Fourth Floor, 30-30 Thomson Avenue, Long Island City, New York 11101, and April 27, 1998 through May 7, 1998, excluding Saturdays, Sundays and holidays between the hours of 9:00 a.m. and 4:00 p.m.

a27-m1

FINANCE

HEARINGS

NOTICE IS HEREBY GIVEN that a Public Hearing will be held in the Public Hearing Chamber, City Hall, Borough of Manhattan, on Thursday, May 7, 1998 commencing at 10:00 a.m. on the following:

IN THE MATTER of a proposed contract between the New York City Department of Finance and American Express, located at World Financial Center, 200 Vesey Street, New York, NY 10285, for the provision of credit card and debit card processing and related services in connection with the New

York City Taxes,Fines and Fees, in an amount not to exceed $285,000.00. The term of the proposed contract shall be for three years from date of notice to proceed and shall contain two additional one year options to renew. The Procurement Identification Number is 836980000482.
The proposed contractor was selected via the sole source procurement method pursuant to Section 3-05 of the Procurement Policy Board Rules.
A draft copy of the proposed contract shall be available for inspection at 1 Centre Street, Rm. 1040A, New York, New York on business days from April 27, 1998 through May 7, 1998 between the hours of 10:00 a.m. and 4:00 p.m.

a27-m1

HOMELESS SERVICES

■ HEARINGS

NOTICE IS HEREBY GIVEN that a Public Hearing will be held in the Public Hearing Chamber, City GHall, Borough of Manhattan, on Thursday, May 7, 1998 commencing at 10:00 a.m. on the following:

IN THE MATTER of a proposed contract between the Department of Homeless Services and the vendor listed below for the provision of Management, Monitoring and oversight of Medical Assistance Services to homeless men. The term of the contract shall be from July 1, 1997 to January 31, 1999 with an option to renew for an additional two (2) three (3) year terms from February 1, 1999 to January 31, 2002 and from February 1, 2002 to January 31, 2005. The renewal options will be subject to the availability of funding.

Black Veterans for Social Justice, 25 Chapel Street, 6th Fl., Brooklyn, New York 11201 – Site: Summer Armory, 357 Summer Avenue, Brooklyn, NY 11221 – PIN#071-98S-003-083 – AMT: $316,011

The proposed contractor was selected by means of Sole Source Selection, pursuant to Chapter three (3) Section 3-05 of the Procurement Policy Board Rules.

A draft copy of the proposed contract is available for public inspection Monday through Friday excluding holidays between 9:00 a.m. and 5:00 p.m. from April 28, 1998 to May 7, 1998 at 161 William Street, Room 1010, New York, New York 10038.

IN THE MATTER of a proposed contract between The Department of Homeless Services nd the vendor listed below to provide Residential Homeless Shelter Tier II, the term of the contract shall be for a period of five (5) years from July 1, 1998 to June 30, 2003 with one option to renew for an additional four (4) years from July 1, 2003 to June 30, 2007. The renewal option will be subject to the availability of funding.

Project Teen Aid Family Services, 178 Halsey Street, Brooklyn, NY 11216 – Site: Rose Kennedy Family Ctr., 178 Halsey Street, Brooklyn, NY 11216 – PIN#071-98S-003-051 – AMT: $2,243,975

The proposed contractor was selected by means of Required/Authorized Service Provider process pursuant to Chapter one (1) Section 1-01(d)2 of the Procurement Policy Board Rules.

A draft copy of the proposed contract is available for public inspection Monday through Friday excluding holidays between 9:00 a.m. and 5:00 p.m. from April 28, 1998 to May 7, 1998 at 161 William Street, Room 1010, New York, New York 10038.

IN THE MATTER of a proposed contract between The Department of Homeless Services and the vendor listed below for the provision of Management Monitoring and oversight of Medical Assistance Services to homeless women. The term of the contracts shall be from July 1, 1997 to February 28, 1999 with an option to renew for an additional two (2) three (3) year terms from March 1, 1999 to February 28, 2002 and from March 1, 2002 to February 28, 2005. The renewal options will be subject to the availability of funding.

Salvation Army, Inc., 120 West 14th Street, New York, NY 10011 – Site: Jamaica Women's Assessment Shelter, 93-05 168th Street, Jamaica, NY 11434 – PIN#071-98S-003-084 – AMT: $257,153

The proposed contractor was selected by means of Sole Source Selection, pursuant to Chapter three (3) Section 3-05 of the Procurement Policy Board Rules.

A draft copy of the proposed contract is available for public inspection Monday through Friday excluding holidays between 9:00 a.m. and 5:00 p.m. from April 28, 1998 to May 7, 1998 at 161 William Street, Room 1010, New York, New York 10038.

a28-m4

MENTAL HEALTH, MENTAL RETARDATION AND ALCOHOLISM SERVICES

■ HEARINGS

NOTICE IS HEREBY GIVEN that a Public Hearing will be held in the Public Hearing Chamber, City Hall, Borough of Manhattan, on Thursday, May 7, 1998 commencing at 10:00 a.m. on the following:

IN THE MATTER of a proposed contract between the Department of Mental Health, Mental Retardation and Alcoholism Services and Jewish Board of Family and Children's Services located at 120 West 57th St., New York, NY 10019, for the provision of a Domestic Violence Coordination and Training Program to address the various problems of domestic violence from a mental health vantage point. The program will be located in the Eastern Section of The Bronx. The contract amount is $675.000. The term of the contract will be from January 15, 1998 to June 30, 2000 with an option to renew for three additional years from July 1, 2000 to June 30, 2003. (PIN 817 9800 145 AO).
The proposed contractor was selected by means of the Competitive Sealed Proposals process, pursuant to Section 3-03 of the Procurement Policy Board Rules.
A summary of the draft contract scope, specifications and terms and conditions may be inspected at the Department in Room 200, 93 Worth Street, New York, New York 10013, on business days, from April 27, 1998 to May 7, 1998, exclusive of holidays between the hours of 9:00 a.m. and 5:00 p.m.

IN THE MATTER of a proposed contract between the Department of Mental Health, Mental Retardation and Alcoholism Services and Deloitte & Touche, LLP, CPA, Two World Financial Center, New York, New York 10281 to provide auditing services of various Delegate Agency/Hospitals contracts. The contract term of the agreement shall be from April 15, 1998 through January 31, 2000, with no option to renew. The City's total payment shall not exceed $198,788. Pin No. 817 9701 001AO.
The proposed contractor has been selected by mans of the competitive sealed proposal method from a pre-qualified list, pursuant to Section 3-11 of the PPB Rules.
A draft copy of the contract will be available for inspection at 93 Worth Street, 1st Floor, New York, New York 10013 on business days, exclusive of holidays, from April 27, 1998 to May 7, 1998 between the hours of 10:00 a.m. to 4:00 p.m.

a27-m1

AGENCY RULES

ENVIRONMENTAL PROTECTION

■ NOTICE

STATEMENT OF BASIS AND PURPOSE

Over 90% percent of the dry cleaning industry uses the cleaning solvent tetrachloroethylene which is also known as perchloroethylene or "PERC." PERC is classified as a hazardous air pollutant by the federal Clean Air Act and is an "A3" animal carcinogen according to the American Conference of Governmental Industrial Hygienists. PERC has also been associated with damage to the central nervous system, liver, and kidneys. The health risks associated with involuntary, non-occupational exposure to PERC are most acute in New York City because of the high concentration of drycleaners that are co-located in residential buildings. There are approximately 1,500 drycleaners in New York City of which as many as 900 are co-located in residential buildings.

The United States Environmental Protection Agency promulgated a rule to control the PERC emissions from drycleaners. New York State promulgated a more stringent rule to control PERC emissions in May, 1997. The impetus for the state rule was based in part on findings by the New York State Department of Health that the ambient air near drycleaners and the indoor air in residences co-located in the same building as a drycleaner contained elevated PERC concentrations. The New York City Department of Environmental Protection ("DEP"), which already regulates dry cleaning machines, now proposes to promulgate a rule virtually identical to the State rule so that DEP will have the authority to write and enforce permit terms and conditions consistent with the State standards.

The requirements of the proposed DEP rule include the use of vapor barriers, room enclosures, and general exhaust ventilation systems in mixed-use residential buildings; the phase-out of old first and second generation machines; control equipment requirements for new installations; leak inspection and self-monitoring, operation and maintenance requirements, and a regular program of compliance inspections. The proposed DEP rule, as well as a companion sewer use rule, also limits the concentration of PERC that a drycleaner may discharge into the public sewer system.

☛ **a30**

Department of Environmental Protection
Notice of Opportunity to Comment on a Proposed New Chapter
to the Rules of the City of New York Relating to the
Control of Perchloroethylene Emissions from Dry Cleaning Facilities

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN THE Commissioner of the Department of Environmental Protection by section 1043 of the New York City Charter, and section 24-105 of the Administrative Code of the City of New York that the Department of Environmental Protection is proposing to promulgate a new rule to control the emission of perchloroethylene from dry cleaning facilities.

PLEASE BE ADVISED THAT ORAL COMMENTS regarding the proposed rule may be delivered at a public hearing to be held on Monday, June 15, 1998 commencing at 10:00 a.m. at the Museum of the City of New York, 1220 Fifth Avenue, New York, New York (enter the auditorium on 104th Street between Madison and Fifth Avenues).

PLEASE BE FURTHER ADVISED THAT WRITTEN COMMENTS regarding the proposed rule may be sent to the New York City Department of Environmental Protection, Bureau of Legal Affairs, 59-17 Junction Boulevard, 19th floor, Corona, New York 11368 Attention: James Sherman, Esq. on or before June 29, 1998.

PLEASE BE FURTHER ADVISED THAT COPIES OF ALL WRITTEN COMMENTS and a summary of the oral comments delivered at the public hearing will be available for inspection within a reasonable time after receipt between the hours of 9:00 a.m. and 5:00 p.m. at the Department of Environmental Protection, Office of Legislative Affairs, 59-17 Junction Boulevard, 19th floor, Corona, New York 11368.

The proposed rule is listed in the Department's FY 98 Regulatory Agenda.

****

New material is underscored; deleted material is in [brackets].

Chapter 12 of Title 15 of the Rules of the City of New York is added to read as follows:

Chapter 12

PERCHLOROETHYLENE DRY CLEANING FACILITIES

Sections

12-01 Applicability
12-02 Definitions
12-03 Variances
12-04 Prohibitions
12-05 Pre-permitting requirements for existing facilities
12-06 Equipment standards and specifications
12-07 Leak inspections and self monitoring requirements
12-08 Operation and maintenance requirements
12-09 Perc-contaminated wastewater management
12-10 Hazardous waste management
12-11 Emergency response
12-12 Reporting and recordkeeping
12-13 Equipment testing and certification
12-14 Owner/manager operator training and certification
12-15 Permits and certificates
12-16 Compliance inspections
12-17 Equivalency
12-18 Posting notice
12-19 Enforcement
12-20 Severability

Section 12-01 Applicability. This Rule applies to all new and existing perchloroethylene (perc) dry cleaning facilities in the City of New York.

Section 12-02 Definitions. (a) For the purpose of this Rule, the definitions of the New York City Air Pollution Control Code apply.

(b) For the purpose of this Rule, the following definitions also apply:

(1) Adsorptive cartridge filter. A replaceable cartridge filter that contains diatomaceous earth or activated clay as the filter medium.

(2) Ancillary equipment. The equipment used with a dry cleaning machine in a dry cleaning system including, but not limited to, emission control devices, pumps, filters, muck cookers, stills, solvent tanks, solvent containers, water separators, exhaust dampers, diverter valves, interconnecting piping, hoses and ducts.

(3) Articles. Clothing, garments, textiles, fabrics, leather goods, and the like, that are dry cleaned.

(4) Azeotropic control device. A dry cleaning control system where the vapor stream from the dry cleaning machine drum is first cooled and condensed to reduce the concentration of perc in the vapor stream, and is then treated with water to further enhance the displacement of perc from the articles when the vapor stream is returned to the machine drum. There is no exhaust to the atmosphere during the drying cycle.

(5) Carbon adsorber. An air cleaning device that consists of an inlet for exhaust gases from a dry cleaning machine; activated carbon in the form of a fixed bed, cartridge, or canister, as an adsorbent; an outlet for exhaust gases; and a system to regenerate, or reclaim saturated adsorbent.

(6) Cartridge filter. A replaceable cartridge filter that contains one of the following as the filter medium: paper, activated carbon, or paper and activated carbon. A cartridge filter contains no diatomaceous earth or activated clay. Cartridge filters include, but are not limited to: standard filters, split filters, "jumbo" filters, and all carbon polishing filters.

(7) Closed-loop machine. Dry cleaning equipment in which washing, extraction, and drying are all performed in the same single unit (also known as a dry-to-dry unit) and which recirculates perc-laden vapor through a primary control system (e.g. refrigerated condenser) with no exhaust to the atmosphere during the drying cycle. A closed-loop machine may allow for venting to the ambient air through a local exhaust ventilation system, such as a door fan, after the drying cycle is complete and only while the machine door is open.

(8) Co-located. Sharing a common wall, floor, or ceiling with a residence or business.

(9) Colorimetric detector tube. A glass tube (sealed prior to use), containing material impregnated with a chemical that is sensitive to perc and is designed to measure the concentration of perc in air.

(10) Commercial building. Any building where only commercial business is conducted, such as an office building or strip mall.

(11) Condenser. An air cleaning device that removes condensable vapors by a reduction in the temperature of the exhaust gases or, in the case of a surface condenser, by contact of the exhaust gases with structures that are cooled by a circulating cooling fluid.

(12) Converted machine. An existing vented machine that has been modified to be a closed-loop machine by eliminating the aeration step, installing a primary control system, and providing for recirculation of the perc-laden vapor with no exhaust to the atmosphere or workroom during the drying cycle. A converted machine may allow for venting to the ambient air through a local exhaust ventilation system, such as a door fan, after the drying cycle is complete and only while the machine door is open.

(13) Cool-down. The portion of the drying cycle that begins when the heating mechanism deactivates and the refrigerated condenser continues to reduce the temperature of the air recirculating through the drum to reduce the concentration of perc in the drum.

(14) Department. The New York City Department of Environmental Protection.

(15) Desorption. Regeneration or stripping of an activated carbon bed, or any other type of vapor adsorber by removal of the adsorbed solvent using hot air, steam, or other means.

(16) Dip tank. A separate tank that contains perc and is used for purposes other than dry cleaning (e.g., waterproofing).

(17) Diverter valve. A flow control device that prevents room air from passing through a refrigerated condenser when the door of a dry cleaning machine is open.

(18) Door fan. A local exhaust ventilation system designed to provide for a minimum 100 fpm inward air velocity into the effective door open area of a dry cleaning machine whenever the door is opened, and where the perc emissions are controlled by a carbon adsorber or equivalent control prior to venting to the outer air.

(19) Drum. The rotating cylinder or wheel of the dry cleaning machine that holds the articles being cleaned.

(20) Dry cleaning. The process used to remove soil, greases, paints and other unwanted substances from articles with the use of perc.

(21) Dry cleaning control system. Equipment (e.g., carbon adsorber, refrigerated condenser, azeotropic unit, etc.) or an air cleaning device used to reduce the amount of air pollutant(s) in an air stream prior to discharge to the atmosphere.

(22) Dry cleaning equipment. Any machine, device, or apparatus used to dry clean articles.

(23) Dry cleaning facility. A facility with one or more dry cleaning systems.

(24) Dry cleaning system. All of the following equipment, devices, or apparatus associated with the perc dry cleaning operations, including, but not limited to: dry cleaning equipment; filter or purification systems; waste holding, treatment, or disposal systems; perc supply systems; dip tanks; pumps; gaskets; piping, ducting, fittings, valves, or flanges that convey perc-contaminated air; and dry cleaning control systems.

(25) Drying cabinet. A housing in which materials that have been previously dry cleaned in perc are dried instead of being dried by tumbling in a dry cleaning machine.

(26) Drying cycle. The operation used to actively remove the perc remaining in the materials after washing and extraction. For closed-loop machines, the heated portion of the cycle is followed by cool-down and may be extended beyond cool-down by the activation of a control system. The drying cycle begins when heating coils are activated and ends when the machine ceases rotation of the drum.

(27) Drying sensor. A device that senses when articles being cleaned are relatively dry and automatically controls the drying cycle. Drying sensors include but are not limited to: infrared analyzers, float switches, and resistance probes. The device detects the concentration of synthetic solvents in the drying air or that the liquid solvent recovery rate is at a minimal rate. The drying sensor extends the drying cycle for a minimum time beyond the activation point to ensure dry articles.

(28) Dry-to-dry machine. A one-machine dry cleaning operation in which drying and washing are performed in the same machine.

(29) Dry-to-dry vented machine. Dry cleaning equipment in which washing, extraction, and drying are all performed in the same single unit and in which fresh air is introduced into the drum in the last step of the drying cycle and exhausted to the outdoor atmosphere, either directly or through a control device (2nd generation equipment).

(30) Environmental training program. An initial course or a refresher course of the environmental training program, described in section 12-14 of this Rule and section 232.14 of Title 6 of the Codes, Rules, and Regulations of the State of New York for owners and operators of perc dry cleaning operations that has been authorized by the New York State Department of Environmental Conservation or the Department.

(31) Equivalent closed-loop vapor recovery system. A device or combination of devices that achieves, in practice, a perc recovery performance equal to or exceeding that of refrigerated condensers.

(32) Existing facility. Any facility at which dry cleaning equipment was installed or operated prior to May 15, 1997.

(33) Facility. All emission sources located at one or more adjacent or contiguous properties owned or operated by the same person or persons under common control.

(34) Filter muck. The residue from a filter using loose diatomaceous earth, which must be replaced periodically.

(35) First generation equipment. Transfer machines where cleaning and drying (reclaiming) take place in separate machines with the manual transfer of articles from one machine to another.

(36) Fourth generation equipment. A primary closed-loop refrigerated dry cleaning machine that has a "secondary control system" (e.g., closed-loop refrigerated condenser with a drying sensor and an integral carbon adsorber).

(37) Fugitive emissions. Emissions of air contaminants which could not reasonably pass through a stack, vent, chimney, or other functionally equivalent opening.

(38) fpm. Feet per minute.

(39) Full-size carbon unit. A carbon unit that is used to adsorb perc from a dry cleaning machine when the vapors are recirculating or venting from the drum during the drying cycle. (Normally used on first and second generation equipment).

(40) General exhaust ventilation system. A mechanical exhaust ventilation system consisting of fresh air makeup inlets and one or more exhaust fans in a dry cleaning facility. This type of system would commonly be used to exhaust a dry cleaning workroom or a room enclosure.

(41) Halogenated-hydrocarbon detector. A portable device capable of detecting vapor concentrations of perc and indicating an increasing concentration by emitting an audible signal or visual indicator that varies as the concentration changes.

(42) Liquid leak. A leak of liquid containing perc of more than one drop every three minutes.

(43) Local exhaust ventilation system. A mechanical exhaust ventilation system connected directly to a dry cleaning machine or other related dry cleaning equipment. For example, the exhaust system on a door fan for a third generation machine constitutes a local exhaust ventilation system.

(44) Major source. A dry cleaning facility that emits or has the potential to emit more than 9.1 megagrams per year (10 tons per year) of perc to the atmosphere. In lieu of measuring a facility's potential to emit perc or determining a facility's potential to emit perc, a dry cleaning facility is a major source if: (1) it includes only dry-to-dry machine(s) and has a total yearly perc consumption greater than 8,000 liters (2,100 gallons) as determined according to section 12-12, subdivision (b); or, (2) it includes only transfer machine system(s) or both dry-to-dry machine(s) and transfer machine system(s) and has a total yearly perc consumption greater than 6,800 liters (1,800 gallons) as determined according to section 12-12, subdivision (b).

(45) Mixed-use facility. A facility that is co-located.

(46) Muck cooker. A device for heating filter muck to drive off perc vapors for reclaiming.

(47) New facility. A facility that was not used for the operation of any dry cleaning equipment prior to May 15, 1997.

(48) Occupancy. Any building or part of a building, excluding the dry cleaning facility.

(49) Openings. Any window, door or air intake.

(50) Perceptible leak. Any perc vapor or liquid leaks that are obvious from the odor of perc, pools or droplets of perc or the detection of gas flow by passing a finger over the surface of the equipment, or as detected by an appropriate portable monitoring instrument.

(51) Perc. A colorless volatile chlorinated hydrocarbon. Perc is also known as perchloroethylene, tetrachloroethylene, tetrachlorethene, and PCE. The chemical formula for perc is $Cl_2C{:}CCl_2$. The CAS registry number for perc is 00127-18-4.

(52) Perc-contaminated wastewater evaporator. A device that vaporizes wastewater through physical action or the addition of thermal energy.

(53) ppb. Parts per billion by volume in air or by weight in water.

(54) ppm. Parts per million by volume in air or by weight in water.

(55) Primary control system. A refrigerated condenser or equivalent closed-loop vapor recovery system approved by the Department.

(56) Process ventilation emission. An emission from any dry cleaning machine normally vented to the outer air that occurs both during the aeration cycle and when the machine door is open, excluding any emissions from door fans on azeotropic control devices and third generation equipment.

(57) Refrigerated condenser. A closed-loop vapor recovery system into which perc vapors are condensed by cooling below the dew point of the perc using a mechanical refrigerated system.

(58) Residential building. Any dwelling or housing that is owned, rented, or occupied by the same person for a period of 180 days or more in a year, excluding short-term housing such as a motel or hotel room rented and occupied by the same person for a period of less than 180 days.

(59) Room enclosure. A room that encloses the dry cleaning machine or equipment. It is constructed of material that is impermeable to perc and designed and operated to maintain negative pressure at all times that the equipment is operating and is used with a general exhaust ventilation system.

(60) Second generation equipment. A dry-to-dry vented dry cleaning machine which is not vented to a refrigerated condenser. Typically these machines are properly vented to a control device which may, for example, consist of a carbon adsorber or azeotropic control device plus a small carbon adsorber.

(61) Secondary control system. A device or apparatus that reduces the concentration of perc in the recirculating air at the end of the drying cycle beyond the level achievable with a refrigerated condenser alone. For example, an integral carbon adsorber used in fourth generation equipment constitutes a secondary control system.

(i) An "integral" secondary control system is designed and offered as an integral part of a production package with a single make and model of dry cleaning machine and primary control system.

(ii) An "add-on" secondary control system is designed or offered as a separate retrofit system for use on multiple machine makes and models.

(62) Self-service dry cleaning machine. A perc dry cleaning machine that is loaded, activated, or unloaded by the customer.

(63) Small carbon adsorbers. A carbon unit that is used to adsorb perc from the machine drum when the machine door is opened to remove clothes at the end of the drying cycle. For example, the adsorbers used to control emissions from supplemental door fans or azeotropic control devices would constitute small carbon adsorbers.

(64) Solvent mileage. The average weight of articles cleaned per volume of perc used.

(65) Solvent tank. Any container that is used to store perc prior to use in the dry cleaning operation and from which the perc is introduced into the drum of the machine at the start of the cleaning cycle.

(66) Stand-alone facility. A facility that is not co-located.

(67) Still. Distillation equipment used to volatilize and recover perc from contaminated solvent removed from the cleaned materials.

(68) Third generation equipment. A closed-loop dry cleaning machine equipped with a refrigerated condenser or other equivalent primary control system.

(69) Trained operator. A person who holds a certificate of completion for the initial course of an environmental training program and maintains her/his status by successfully completing refresher courses as required.

(70) Transfer machine. Perc dry cleaning equipment in which washing and extraction are performed in one unit and drying is performed in a separate unit. (First generation equipment)

(71) Vapor adsorber. A bed of activated carbon or other adsorbent into which vapors are introduced and trapped for subsequent desorption.

(72) Vapor barrier. A material surface or coating that is impermeable to perc.

(73) Vapor leak. A fugitive emission of perc vapor from unintended openings in the dry cleaning system. A vapor leak can be indicated by a rapid audible signal or visual signal from a halogenated-hydrocarbon detector or other approved instrument.

(74) Water separator. A vessel that uses gravity to physically separate liquid perc from liquid water.

Section 12-03 Variances. (a) Unless otherwise precluded by federal or state statute or regulation, or subdivision (d) of this section, the Department may, upon written application from any person who is subject to this Rule, grant a variance from one or more specific provisions of this Rule consistent with section 24-110 of the Administrative Code of the City of New York and under the conditions set forth in this subchapter.

(b) Every application for a variance must:

(1) identify the specific provisions of this Rule from which a variance is sought;

(2) demonstrate that compliance with the identified provisions would, on the basis of conditions unique to the person's particular situation in contrast to the rest of the industry or any segment thereof, impose unreasonable hardship;

(3) demonstrate that the proposed activity will have no significant adverse impact on the public health, safety, or welfare, the environment or natural resources and will be consistent with the provisions of the New York City Air Pollution Control Code and the performance expected from an activity permitted under the provisions of this Rule; and

(4) include a copy of any variance granted by the New York State Department of Environmental Conservation. If no variance has been granted by the New York State Department of Environmental Conservation then the application to the Department shall state that no variance has been granted by the New York State Department of Environmental Conservation.

(c) In granting any variance under this subchapter, the Department may impose specific conditions necessary to assure that the subject activity will have no significant adverse impact on the public health, safety, or welfare, the environment, or natural resources.

(d) Phase-out dates for dry cleaning equipment cannot be extended by a variance.

Section 12-04 Prohibitions. (a) The use of any dry-to-dry vented or non-vented equipment as a transfer machine is prohibited.

(b) The installation of any self-service dry cleaning machine(s) after May 15, 1997 is prohibited.

(c) The use or offering for use of any self-service dry cleaning machine(s) after May 15, 1997 is prohibited.

(d) The use of immersion heaters to evaporate solvent from the untreated water effluent of solvent water separators is prohibited.

(e) Except as provided in section 12-05 of this Rule, the installation, construction, alteration, modification, or operation of a perc dry cleaning facility without first obtaining an installation or alteration permit or an operating certificate issued by the Department in accordance with the requirements of section 12-15 of this Rule is prohibited.

(f) Venting of perc emissions from dry cleaning equipment or emission control devices into the workroom or facility is prohibited.

Section 12-05 Pre-permitting requirements for existing facilities.

Existing facilities with a valid operating certificate(s) issued by the Department must comply with the following requirements in accordance with the timeframes established in this section in advance of applying for and obtaining an operating certificate amendment(s) required under section 12-15. Prior approvals from the Department are not needed for construction of room enclosures, vapor barriers, general exhaust ventilation systems, or changes in vent stack locations. New facilities must comply with all the applicable requirements contained in this section at the time of installation.

(a) Room enclosures, vapor barriers, and general exhaust ventilation.

(1) Stand-alone dry cleaning facilities that are designated as major sources, pursuant to the National Perchloroethylene Air Emission Standards for Dry Cleaning Facilities under Title 40, Part 63 of the Code of Federal Regulations, Subpart M and that have transfer type machines should have contained all such machines inside room enclosures by September 23, 1996. Each room enclosure must be:

(i) Constructed of materials impermeable to perc; and,

(ii) Designed and operated to maintain a negative pressure at each opening at all times that the machine is operating.

(2) Co-located dry cleaning facilities must be equipped with a vapor barrier or room enclosure(s) and general exhaust ventilation that meets the design and performance requirements established in section 12-06, subdivision (a), of this Rule by the following dates:

(i) transfer machines - immediately upon the effective date of this Rule.

(ii) dry-to-dry vented machines - by no later than August 15, 1998.

(iii) 3rd generation dry-to-dry machines - by no later than November 15, 1998.

(iv) 4th generation dry-to-dry machines - by no later than May 15, 1999.

(3) The facility owner shall notify the Department by mail no later than 30 days after the installation of the required vapor barrier and general exhaust ventilation system and certify that it meets all regulatory requirements. Such notification shall be sent by certified mail to the Department.

(b) Relocation of emission points. The relocation of process ventilation emission point(s) to the outdoor atmosphere must comply with the retrofitting requirements and be completed by the deadlines established under section 12-06(b)(3) and (b)(6).

(c) Public information notice. The facility owner must post a copy of the notice required under section 12-18 of this Rule immediately upon the effective date of this Rule.

(d) Leak inspection. The facility owner must initiate the leak inspection requirements established in section 12-07 of this Rule immediately upon the effective date of this Rule.

(e) Operation and maintenance. The facility owner must initiate all operation and maintenance requirements which apply to dry cleaning machines and existing emission control systems established in section 12-08 of this Rule immediately upon the effective date of this Rule. However, all requirements established under section 12-08 that are already in effect pursuant to the National Perchloroethylene Air Emission Standards for Dry Cleaning Facilities in Title 40 Part 63 Subpart M of the Code of Federal Regulations continue to be in effect.

(f) Compliance inspections. The compliance inspection requirements under section 12-16 of this Rule are effective immediately upon the effective date of this Rule. Facility owners must initiate the first compliance inspection at their facility immediately upon the effective date of this Rule.

(g) Recordkeeping. The facility owner must initiate all applicable recordkeeping required under section 12-12 of this Rule immediately upon the effective date of this Rule. Such recordkeeping must cover all requirements established under section 12-12 for dry cleaning systems and facilities in general and must also comply with requirements for specific dry cleaning machine types and emission control systems. However, all requirements established under section 12-12 that are already in effect pursuant to the National Perchloroethylene Air Emission Standards for Dry Cleaning Facilities in Title 40, Part 63, Subpart M of the Code of Federal Regulations, continue to be in effect.

(h) Perc-contaminated wastewater management. Facilities must comply with the perc-contaminated wastewater management requirements under section 12-09 of this Rule and under chapter 19 of Title 15 of the Rules of the City of New York governing the use of the public sewer system by no later than May 15, 1998.

(i) Hazardous waste management and emergency response. The hazardous waste management requirements under section 12-10 of this Rule and the emergency response requirements under section 12-11 of this Rule are effective immediately upon the effective date of this Rule.

Section 12-06 Equipment Standards and Specifications. (a) Specific equipment standards and emission control specifications:

(1) Vapor barriers. Vapor barriers must, at a minimum, enclose the dry cleaning equipment. Vapor barriers can be constructed of polyvinyl chloride, PVC sheet 22 mil thick (0.022 in.), sheet metal, metal foil face composite board, or other equivalent materials that are impermeable to perc vapors. Vapor barriers must be constructed so that all joints and seams are sealed except for inlet make-up air and exhaust openings and entry doors. Entry doors may only be open when a person is entering or exiting the room enclosure.

(2) General exhaust ventilation system. Dry cleaning facilities which are co-located must be equipped with a vapor barrier and with a general exhaust ventilation system that is completely separate from the ventilation system(s) serving other areas of the building. The general exhaust ventilation system must be located near the dry cleaning machinery or connected to a separate room enclosure with a vapor barrier exhausting emissions to the outer air. This dry cleaning general exhaust ventilation system must be operated at all times when the dry cleaning machine(s) is in operation, and during maintenance operations and must be capable of at least one air change per five minutes.

(3) Door fan/local exhaust ventilation systems:

(i) All first, second and third generation dry cleaning equipment must be equipped with a door fan/local exhaust ventilation system. This system must include a mechanical exhaust fan that is activated when the loading door is open, drawing air from the machine drum causing fresh air to be drawn in through the loading door. A minimum inward air velocity of 100 fpm, must be maintained through the effective door opening area of the loading door of the machine.

(ii) Door fan/local exhaust ventilation systems must not recirculate vapors into the workroom and must be properly vented to the outer air.

(iii) Door fan/local exhaust ventilation emissions must be controlled to a design emission standard of five ppm perc with an in-use maximum compliance standard of 20 ppm.

(4) Process Ventilation Emissions- Interim Standards

(i) Process ventilation emission points on first and second generation machines that exhaust during the aeration cycle and when the machine door is open, must be vented to the outer air above the roof and more than 25 feet from all openings in nearby occupancies.

(ii) Process ventilation emissions from existing first and second generation vented machines having emission controls as part of the original equipment or retrofitted to comply with the 100 ppm perc emission standard effective May 10, 1981 under the repealed version of Title 6, Part 232 of Codes, Rules, and Regulations of the State of New York must continue to meet this standard until such time as retrofitting, replacement or shutdown is required under this section.

(iii) Process ventilation emissions from existing second generation machines that are retrofitted with control equipment to comply with interim standards established under (b)(3) or (b)(6) in this section must be designed to achieve a perc concentration of five ppm or less in the exhaust and achieve an in-use compliance standard of less than 20 ppm perc in the exhaust.

(iv) The exhaust damper of a vented first or second generation machine must be completely closed when the machine is not being vented, and must not leak vapors into the workroom or the outer air.

(5) Primary emission control systems. Refrigerated condensers or equivalent closed-loop vapor recovery systems must meet the following requirements:

(i) Refrigerated condensers must be capable of achieving an outlet vapor temperature downstream of any by-pass of the condenser less than or equal to 45° F (7.2° C) during the final cool down cycle, and achieve a concentration of 8600 ppm or less perc in the drum upon completion of the drying cycle.

(ii) Refrigerated condensers must have a graduated thermometer, thermocouple or equivalent instrument with a minimum range from 0° F (-18° C) to 150° F (66° C), that measures the temperature of the outlet vapor stream downstream of any by-pass of the condenser, and is easily visible to the operator.

(iii) New third and fourth generation equipment with refrigerated condenser control systems must be equipped with a drying sensor/controller that extends the drying time at least four minutes beyond the point that the solvent recovery rate is less than 40 ml/min or solvent vapor concentration in the drum is less than 8600 ppm perc.

(iv) The refrigerated condenser must be operated with a diverter valve.

(v) Equivalent closed-loop vapor recovery systems or other control device must use a technology that has been demonstrated, pursuant to the requirements of section 12-17 of this Rule, to achieve at least 90 percent by weight emission reduction based upon the amount of perc entering and leaving the control device.

(6) A secondary control system must:

(i) be designed to function with a primary control system complying with all requirements for third generation equipment.

(ii) be capable of reducing the perc concentration in the drum from 8600 ppm or greater to 300 ppm.

(iii) Any integral carbon adsorber used as a secondary control system must be sized correctly for the machine and be capable of reducing the perc concentration in the drum from 8,600 ppm or greater to 300 ppm or less.

(iv) The integral carbon adsorber must be designed for non-contact steam or hot air stripping operation, and must be stripped or desorbed in accordance with manufacturer's instructions or at least weekly, whichever is more stringent.

(7) Spill containment. All new third and fourth generation, or used, reinstalled dry cleaning equipment must be equipped with a spill containment system capable of containing 125 percent of the capacity of the largest dry cleaning perc tank or vessel associated with the dry cleaning machine.

(b) To determine which standards will apply to a particular dry cleaning facility, first determine whether the facility is new or existing. Then determine whether the facility is a stand-alone or is co-located. If co-located, determine whether it is in a commercial or residential building. Finally, for each piece of equipment there are two primary issues addressed by this Rule --the type of emissions control and the location of any process ventilation emission points. Process ventilation emissions apply only to transfer and dry-to-dry vented equipment, not to door fans, general or other ventilation.

In all, there are six different categories for which equipment standards are provided as follows:

1) New stand-alone facilities--Equipment requirements

2) Existing stand-alone facilities--Replacement or addition of equipment

3) Existing stand-alone facilities--Retrofitting of equipment

4) New mixed-use facilities--New equipment

5) Existing mixed-use facilities--Replacement or addition of equipment

6) Existing mixed-use facilities--Retrofitting of equipment

(1) New stand-alone facilities--equipment requirements. The following types of new and/or used equipment are allowed in new stand-alone facilities.

(i) New equipment - Fourth generation.

(A) Vapor barrier - Not Required.

(B) Spill containment - Required as specified in paragraph (a)(7) of this section.

(C) General exhaust ventilation system - Optional.

(D) Primary and secondary control systems, and drying sensor - Required as specified in paragraphs (a)(5) and (6) of this section.

(E) Fugitive perc emissions from any part of the dry cleaning system must not exceed 50 ppm at any time.

(ii) New equipment - Third generation. The installation of this type of equipment is prohibited after December 31, 1999.

(A) Vapor barrier - Not Required.

(B) Spill containment - Required as specified in paragraph (a)(7) of this section.

(C) General exhaust ventilation system - Optional.

(D) Primary control system, drying sensor, and door fan - Required as specified in paragraph (a)(3) and (5) of this section.

(E) Fugitive perc emissions from any part of the dry cleaning system must not exceed 50 ppm at any time.

(F) An additional option would be to convert to a fourth generation machine with less than or equal to 300 ppm in drum. Under this option a door fan would not be required.

(iii) Used equipment - Third generation

(A) Vapor barrier - Not Required.

(B) Spill containment - Required as specified in paragraph (a)(7) of this section.

(C) General exhaust ventilation system- Optional.

(D) Primary control system and door fan - Required as specified in paragraphs (a)(3) and (5) of this section.

(E) Fugitive perc emissions from any part of the dry cleaning system must not exceed 50 ppm perc at any time.

(F) An additional option would be to convert to a fourth generation machine with less than or equal to 300 ppm perc in the drum. Under this option a door fan would not be required.

(2) Existing stand-alone facilities - replacement or addition of equipment. The equipment standards for new stand-alone facilities must be followed. However, transfer machines may be replaced with upgraded dry-to-dry vented equipment in accordance with the retrofitting requirements.

(3) Existing stand-alone facilities - retrofitting of equipment.

(i) Transfer machines - no retrofitting is allowed. All transfer machines must be removed from service on the following schedule:

(A) If the process ventilation emission point is located above the roof and more than 25 feet from all openings in nearby occupancies, and if previously retrofitted to meet the less than 100 ppm perc vented emission level (see subparagraph (a)(4)(ii) of this section) and is operating in compliance with that emission level, the equipment must be replaced with third or fourth generation equipment by January 1, 2000.

(B) If the process ventilation emission point is located below the roof or less than 25 feet from any opening in a nearby occupancy, or if process ventilation emissions do not meet the 100 ppm perc emission level, the equipment must be replaced with third or fourth generation equipment immediately upon the effective date of this Rule.

(C) Vapor barrier - not required.

(D) General exhaust ventilation system- Optional.

(ii) Dry-to-dry vented (Second generation)

(A) Vapor barrier - Not required.

(B) General exhaust ventilation system- Optional.

(C) Process ventilation emission point location -

((a)) If the process ventilation emission point is above the roof and more than 25 feet from all openings in nearby occupancies, the relocation of the process ventilation emission point is not required.

((b)) If the process ventilation emission point is below the roof or less than 25 feet from any opening in a nearby occupancy, the process ventilation emission point must be changed to be over the roof and more than 25 feet from all openings in nearby occupancies immediately upon the effective date of this Rule. Alternatively, the equipment may be replaced with third or fourth generation equipment within the same time limit.

(D) Emission controls

((a)) Controlled

((1)) If the machine has been controlled with either an azeotropic control device plus small carbon adsorber or converted to a closed-loop third generation machine having an integral or external primary refrigerated condenser (the water cooled condensing system having been eliminated) and has a door fan, meeting the requirements of paragraph (a)(3) of this section, no additional control is required.

((2)) If the machine is equipped with either a full sized carbon adsorber or a refrigerated condenser with a water cooled condensing system, it must be retrofitted with either an azeotropic control device plus small carbon adsorber (provided EPA publishes a determination that an azeotropic control device is equivalent to a refrigerated condenser), or converted to a closed-loop third generation machine by adding an integral or external primary refrigerated condenser (eliminating the water cooled condensing system) and a door fan with a small carbon adsorber by December 31, 1999. Alternatively, the equipment may be replaced with a third generation machine with a door fan by December 31, 1999, or with a fourth generation by January 1, 2001.

((b)) Uncontrolled. Equipment must be retrofitted with either an azeotropic control device plus small carbon adsorber (provided EPA publishes a determination that an azeotropic control device is equivalent to a refrigerated condenser), or converted to closed-loop third generation by adding an integral or external primary refrigerated condenser (eliminating the water cooled condensing system) and a door fan with a small carbon adsorber immediately upon the effective date of this Rule. Alternatively, equipment may be replaced with third or fourth generation equipment within the same time limit.

(E) Fugitive perc emissions from any part of the dry cleaning system, must not exceed 50 ppm at any time.

(iii) Dry-to-dry non-vented. Third generation.

(A) Vapor barrier - Not Required.

(B) General exhaust ventilation system- Optional.

(C) Equipment must be retrofitted with a door fan meeting the requirement of paragraph (a)(3) of this section by no later than May 15, 2001; or.

(D) An additional option would be to convert this type of equipment to a fourth generation machine that achieves a perc concentration of less than or equal to 300 ppm in the drum by no later than May 15, 2001. Under this option a door fan would not be required.

(E) Fugitive perc emissions from any part of the dry cleaning system must not exceed 50 ppm at any time.

(iv) Dry-to-dry non-vented. Fourth generation.

(A) Vapor barrier - Not Required.

(B) General exhaust ventilation system- Optional.

(C) Primary and secondary control system and drying sensors must meet requirements specified in paragraphs (a)(5) and (6) of this section. However, for non-major facilities that purchased machines prior to May 15, 1997 the following provision applies: If the owner/manager or operator can demonstrate that the machine is operating in the best possible working condition, no action is required if the measured perc concentration in the drum is less than 500 ppm. If the level exceeds 500 ppm, a door fan that meets the requirements of paragraph (a)(3) of this section must be installed by January 1, 2000.

(D) Fugitive perc emissions from any part of the dry cleaning system must not exceed 50 ppm at any time.

(4) New mixed-use facilities--new equipment. Only new dry-to-dry fourth generation equipment is allowed in new mixed-use facilities. No used or retrofitted equipment is allowed.

(i) Vapor barrier and general exhaust ventilation system- Required as specified in paragraphs (a)(1) and (2) of this section.

(ii) Spill containment - Required as specified in paragraph (n)(7) of this section.

(iii) Primary and secondary control systems and drying sensor - Required as specified in paragraphs (a)(5) and (6) of this section. Note: Any machine not meeting the 300 ppm requirement, and, where the owner/manager or operator can demonstrate that the machine is operating in the best possible working condition must have a door fan installed that meets the requirements of paragraph (a)(3) of this section within six months of an inspection indicating high ppm levels.

(iv) Fugitive perc emissions from any part of the dry cleaning system must not exceed 50 ppm at any time.

(5) Existing mixed-use facilities -- replacement or addition of equipment. The equipment standards for new mixed-use facilities must be followed.

(6) Existing mixed-use facilities -- retrofitting of equipment.

(i) Transfer machines. No emission control retrofitting is allowed. All transfer machines must be removed from service on the following schedule.

(A) If the process ventilation emission point is located above the roof and more than 25 feet from all openings in nearby occupancies, and if the equipment has been previously retrofitted to comply with the less than 100 ppm perc vented emission level (see subparagraph (a)(4)(ii) of this section) and is operating in compliance with that emission level, the equipment must be removed from service by September 22, 1998.

(B) If the process ventilation emission point is located at or below the roof or is 25 feet or less from all openings in nearby occupancies, or if the equipment has not previously been retrofitted or is not in compliance with the less than 100 ppm perc emission level (see subparagraph (a)(4)(ii) of this section), the equipment must be removed from service immediately upon the effective date of this Rule.

(C) A vapor barrier and general exhaust ventilation system are required immediately upon the effective date of this Rule as specified in paragraphs (a)(1) and (2) of this section.

(ii) Dry-to-dry vented. Second generation.

(A) Vapor barrier and general exhaust ventilation system - Required by no later than August 15, 1998 as specified in paragraphs (a)(1) and (2) of this section.

(B) Process vent emission location

((a)) If the process ventilation emission point is above the roof and more than 25 feet from all openings in nearby occupancies, the relocation of the process ventilation emission point is not required.

((b)) If the process ventilation emission point is at or below the roof or 25 feet or less from any opening in a nearby occupancy, the process ventilation emission point must be changed to be over the roof and more than 25 feet from all openings in nearby occupancies immediately upon the effective date of this Rule. Alternatively, equipment may be replaced with fourth generation equipment within the same time limit.

(C) Emission Controls

((a)) Mixed-use - commercial - uncontrolled. Equipment must be retrofitted with either an azeotropic control device plus a small carbon adsorber (provided EPA publishes a determination that an azeotropic control device is equivalent to a refrigerated condenser), or converted to a closed-loop third generation machine by adding an integral or external primary refrigerated condenser (eliminating the water cooled condensing system) and a door fan as specified in paragraph (a)(3) of this section immediately upon the effective date of this Rule. Alternatively, equipment may be replaced with fourth generation equipment within the same time limit.

The retrofit of this equipment is only an interim measure, and all retrofitted equipment of this type must be removed from service by January 1, 2005.

((b)) Mixed-use - commercial - controlled.

((1)) If the machine has been controlled with either an azeotropic control device plus small carbon adsorber or converted to a third generation machine having an integral or external primary refrigerated condenser (the water cooled condensing system having been eliminated) and has a door fan as specified in paragraph (a)(3) of this section, no interim retrofitting action is required. This equipment must be removed from service and replaced with fourth generation equipment by January 1, 2005.

((2)) If the machine is equipped with either a full-sized carbon adsorber or a refrigerated condenser with a water cooled condensing system, it must be retrofitted with either an azeotropic control device plus small carbon adsorber (provided EPA publishes a determination that an azeotropic control device is equivalent to a refrigerated condenser), or converted to a third generation machine by adding an integral or external primary refrigerated condenser (eliminating the water cooled condensing system) and a door fan as specified in paragraph (a)(3) of this section by January 1, 2001. Alternatively, equipment may be replaced with fourth generation equipment by January 1, 2001. The retrofit of this equipment is an interim measure only and all retrofitted equipment must be replaced with fourth generation equipment by January 1, 2005.

((c)) Mixed-use - residential - uncontrolled. Equipment must be retrofitted with either an azeotropic control device plus small carbon adsorber (provided EPA publishes a determination that an azeotropic control device is equivalent to a refrigerated condenser), or converted to third generation equipment by adding an integral or external primary refrigerated condenser (eliminating the water cooled condensing system) and a door fan as specified in paragraph (b)(3) of this section immediately upon the effective date of this Rule. Alternatively, the equipment must be replaced with fourth generation equipment within the same time limit. The retrofit of this equipment is only an interim measure and all retrofitted equipment of this type must be removed from service by January 1, 2000.

((d)) Mixed-use - residential - controlled.

((1)) If the machine has been controlled with either an azeotropic control device plus a small carbon adsorber or has been converted to a third generation machine having an integral or external primary refrigerated condenser (the water cooled system having been eliminated) and has a door fan as specified in paragraph (b)(3) of this section, no additional retrofitting is required. However, all equipment of this type must be replaced with fourth generation equipment by January 1, 2000.

((2)) If the machine is equipped with a full-sized carbon adsorber with a water cooled condensing system, it must be operated in compliance with the 100 ppm standards of the previous version of Part 232 of Title 6 of the Codes, Rules, and Regulations of the State of New York and must be replaced with fourth generation equipment by January 1, 2000.

(D) Fugitive perc emissions from any part of the dry cleaning system must not exceed 50 ppm at any time.

(iii) Dry-to-dry non-vented. Third generation

(A) Vapor barrier and general exhaust ventilation system - Required by no later than November 15, 1998 as specified in paragraphs (a)(1) and (2) of this section.

(B) Equipment must be retrofitted with a door fan meeting the requirements of paragraph (a)(3) of this section by no later than May 15, 2001; or.

(C) An additional option is to convert this piece of equipment to a fourth generation machine that achieves a perc concentration of less than or equal to 300 ppm in the machine drum by no later than May 15, 2001. Under this option a door fan would not be required.

(D) Fugitive perc emissions from any part of the dry cleaning system must not exceed 50 ppm at any time.

(iv) Dry-to-dry non-vented. Fourth generation.

(A) Vapor barrier and general exhaust ventilation system - Required by no later than May 15, 1999 as specified in paragraphs (a)(1) and (2) of this section.

(B) Primary and secondary controls and drying sensor - Required as specified in paragraphs (a)(5)and (6) of this section. However, for non-major facilities that purchased machines prior to May 15, 1997 the following provision applies: If the owner/manager or operator can demonstrate that the machine is operating in the best possible working condition, no action is required if the measured perc concentration in the drum is less than 500 ppm. If the level exceeds 500 ppm, a door fan as specified in paragraph (a)(3) of this section is required.

(C) Fugitive perc emissions from any part of the dry cleaning system must not exceed 50 ppm at any time.

Section 12-07 Leak inspection and self monitoring requirements.

(a) Leak check requirements. The trained operator, must inspect the dry cleaning system for perceptible liquid and vapor leaks and other fugitive emissions. The trained operator, or a designee, must record the status of each component on a checklist supplied by the New York State Department of Environmental Conservation. Completed checklists must be kept for at least five years from the date of the inspection.

(1) The dry cleaning system must be thoroughly inspected, at least weekly, for vapor leaks using one of the following devices or methods for detecting vapor leaks:

(i) a halogenated-hydrocarbon detector;

(ii) a portable gas analyzer;

(iii) an air sampling pump and colorimetric tube; or

(iv) an alternative method approved by the New York State Department of Environmental Conservation.

(2) all equipment referenced in paragraph (a)(1) of this section must be properly calibrated.

(b) The following components of the dry cleaning system must be inspected weekly for perceptible liquid and vapor leaks and for proper operation as required by subchapter 8 of this Rule (operation and maintenance requirements) while the dry cleaning system is operating:

(1) hose and pipe connections, fittings, couplings and valves;

(2) door gaskets and seatings;

(3) filter gaskets and seatings;

(4) pumps;

(5) solvent (including spent solvent) tanks and containers;

(6) water separators;

(7) muck cookers;

(8) stills;

(9) exhaust dampers;

(10) diverter valves; and

(11) cartridge filter housings.

(c) Carbon adsorber vents must be tested weekly using colorimetric detector tubes or portable halogen detectors and the test results must be noted on the checklist.

(d) The temperature of the vapor stream on the inlet and outlet side of a refrigerated condenser must be measured weekly and recorded on the checklist.

(e) Preparedness and prevention equipment and conditions as required in paragraph (d)(7) of section 12-08 of this Rule must be inspected weekly to ensure proper operation and maintenance. A notation must be made on the checklist at the time of inspection.

(f) The inward air velocity for a loading door fan must be checked weekly with a portable velometer or equivalent measurement instrument. A notation of the instrument reading must be made on the checklist.

(g) Any liquid leak, vapor leak, or malfunction that has been detected by the operator must be noted on the checklist and, if at all possible, repaired immediately. If the leak cannot be repaired at the time of detection, the leaking component must be physically marked or tagged in a manner that is readily observable by an inspector and must be repaired within 24 hours of detection, unless repair parts are unavailable.

(1) If repair parts are not available at the facility, the parts must be ordered within two working days of detecting such a leak. Such repair parts must be installed within five working days after receipt. Equipment with a leak that has not been repaired by the end of the 15th working day after detection must not be operated until the leak is repaired, unless the facility owner or operator receives a leak-repair extension from the Department.

(2) The Department may grant a leak-repair extension to a facility owner for a single period of thirty days or less. Any person applying to the Department for a leak-repair extension shall include a copy of a leak-repair extension granted by the New York State Department of Environmental Conservation. If no leak-repair extension has been granted by the New York State Department of Environmental Conservation, then the application to the Department shall state that no leak-repair extension has been granted by the New York State Department of Environmental Conservation. A leak-repair extension may be granted only if the Department makes the following findings:

(i) the delay in repairing the leak could not have been avoided by action on the part of the facility owner or operator;

(ii) the facility owner and operator used reasonable preventive measures and acted promptly to initiate the repair;

(iii) the leak will not significantly increase perc exposure near the facility; and

(iv) the facility is in compliance with all other requirements of this section and has a history of compliance.

(3) Once a repair is completed, the completion date must be recorded on the checklist.

(4) Where a hazard is imminent or has already occurred, remedial action must be taken immediately.

(5) All uncontainable releases, fires or explosions must be reported to the Department and appropriate emergency response agencies immediately.

(h) A fugitive emission concentration of 50 ppm of perc emanating from any part of the dry cleaning system is a violation; except for short-term maintenance operations involving the opening of dry cleaning system components for inspection or repair.

(i) Any exceedance of the leak inspection requirements of this Rule that has been detected by the operator must be noted on the checklist and repaired/adjusted immediately.

Section 12-08 Operation and maintenance requirements. (a) Dry cleaning facilities must be maintained and operated to minimize the release of perc to the environment.

(b) The operator must operate and maintain all components of the dry cleaning system in accordance with the requirements of this Rule and the conditions specified in a facility's operating permit. For operations not specifically addressed, the components must be operated and maintained in accordance with the manufacturer's recommendations. The facility operator must retain, on-site, a copy of the design specifications and the operating manuals for each dry cleaning system and each emission control device located at the dry cleaning facility.

(c) Each operation and maintenance function and the date performed must be recorded on a checklist supplied by the New York State Department of Environmental Conservation. Completed checklists must be maintained on-site for at least five years from the date of the checklist.

(d) Operators must comply with the following operation and maintenance requirements, as applicable:

(1) Fourth generation machines.

(i) Refrigerated condensers must be operated in accordance with manufacturer's specifications.

(ii) Integral refrigerated condensers must be operated to ensure that exhaust gases are recirculated until the air-vapor stream temperature is 45° F or less at the outlet. The difference between the temperature of the air-perc gas vapor stream entering and exiting the refrigerated condenser must be greater than or equal to 20° F (11.1° C). The temperature differential must be determined at least weekly with a thermometer with a temperature range of from 32° F (0° C) to 120° F (48.9° C) to an accuracy of ±2° F (1.1° C) (see section 12-07 of this Rule).

(iii) Vapor adsorbers used with a primary control system or secondary control system must be operated to ensure that exhaust gases are recirculated at the temperature specified for optimum adsorption.

(iv) Cartridge filters and adsorptive cartridge filters must be handled using one of the following methods:

(A) Drained in the filter housing, before disposal, for no less than 24 hours for cartridge filters and 48 hours for adsorptive cartridge filters. If the filters are then transferred to a separate device to further reduce the volume of perc, this treatment must be done in a system that routes any vapor to a primary closed-loop control system, with no exhaust to the atmosphere. In performing such a transfer the filter housing must be closed as soon as possible to minimize vapor leaks. The general exhaust ventilation system must be operated during this activity.

(B) Dried, stripped, sparged, or otherwise treated, within the sealed filter housing, to reduce the volume of perc contained in the filter.

(v) All steam and condensing coils must be maintained to be free of lint and hard lint build-up on interior surfaces.

(vi) For dry cleaning equipment equipped with a door fan the operator must use a portable velometer or equivalent measurement instrument to verify that the required 100 fpm inward air velocity is maintained through the effective door opening when the loading door is open. The inward air velocity must be checked on a weekly basis.

(2) Third Generation Machines.

(i) Refrigerated condensers must be operated in accordance with manufacturer's specifications.

(ii) Integral and external refrigerated condensers must be operated to ensure that exhaust gases are recirculated until the air-vapor stream temperature is 45° F or less at the outlet. The difference between the temperature of the air-perc gas vapor stream entering and exiting the refrigerated condenser must be greater than or equal to 20° F (11.1° C). The temperature differential must be determined at least weekly with a thermometer with a temperature range of from 32° F (0° C) to 120° F (48.9° C) to an accuracy of ±2° F (1.1° C) (see section 12-07 of this Rule).

(iii) Vapor adsorbers used when the machine has been retrofitted as a fourth generation machine must be operated to ensure that exhaust gases are recirculated at the temperature specified by the manufacturer for optimum adsorption.

(iv) Cartridge filters and adsorptive cartridge filters must be handled using one of the following methods:

(A) Drained in the filter housing, before disposal, for no less than 24 hours for cartridge filters and 48 hours for adsorptive cartridge filters. If the filters are then transferred to a separate device to further reduce the volume of perc, this treatment must be done in a system that routes any vapor to a primary closed-loop control system, with no exhaust to the atmosphere. In performing such a transfer the filter housing must be closed as soon as possible to minimize vapor leaks. The general exhaust ventilation system must be operated during this activity.

(B) Dried, stripped, sparged, or otherwise treated, within the sealed filter housing, to reduce the volume of perc contained in the filter.

(v) All steam and condensing coils must be maintained to be free of lint and hard lint build-up on interior surfaces.

(vi) For dry cleaning equipment equipped with a door fan, the operator must use a portable velometer or equivalent measurement instrument to verify that the required 100 fpm inward air velocity is maintained through the effective door opening when the loading door is open. The inward air velocity must be checked on a weekly basis.

(3) Second Generation Machines.

(i) A vented machine operated with full-sized carbon adsorbers (dry-to-dry vented) that function during the drying cycle must meet the following requirements:

(A) Desorption must be performed at the frequency specified by the manufacturer or as specified by this clause, whichever is more stringent. The minimum frequency for desorption of full-size carbon units is as follows, each time all dry cleaning equipment exhausted to the device has cleaned a total of three pounds of articles for each pound of activated carbon. Desorption must be performed with the minimum steam pressure and air flow capacity specified by the manufacturer.

(B) Once desorption is complete, the carbon bed must be fully dried according to the manufacturer's instructions.

(C) No perc vapors may bypass the carbon adsorber to the outdoor atmosphere at any time, nor be recirculated into the facility.

(D) The filter located in front of the carbon adsorber must be checked and cleaned weekly.

(E) For dry cleaning equipment in mixed-use settings, the carbon adsorber vent must be tested weekly using colorimetric detector tubes. Test results must be recorded on the checklist. Test results of five ppm or greater of perc will require an immediate stripping of the carbon adsorber.

(ii) Small external carbon adsorbers used for azeotropic control systems, must be stripped at least weekly when in use. If not in continuous daily use, adsorbers must be stripped after they have been used for ten days.

(A) Small external carbon adsorbers must be vented to outside the building and must not recirculate vapor into the facility.

(B) Small external carbon adsorbers used in mixed-use settings must be tested weekly using colorimetric detector tubes or equivalent measuring devices. Test results must be recorded on the inspection checklist. A test result of five ppm or greater of perc will require an immediate stripping of the carbon adsorber.

(iii) The exhaust damper of a vented machine must be completely closed when the machine is not being vented and must be repaired or replaced within five working days if malfunctioning.

(iv) Cartridge filters and adsorptive cartridge filters must be handled using one of the following methods:

(A) Drained in the filter housing, before disposal, for no less than 24 hours for cartridge filters and 48 hours for adsorptive cartridge filters. If the filters are then transferred to a separate device to further reduce the volume of perc, this treatment must be done in a system that routes any vapor to a primary closed-loop control system, with no exhaust to the atmosphere. In performing such a transfer the filter housing must be closed as soon as possible to minimize vapor leaks. The general exhaust ventilation system must be operated during this activity.

(B) Dried, stripped, sparged, or otherwise treated, within the sealed filter housing, to reduce the volume of perc contained in the filter.

(v) All water-cooled condensers must include temperature gauges installed in the inlet and outlet water lines of the condensing coil on the dryer. The temperature difference must be maintained according to manufacturer's specifications.

(vi) Azeotropic control devices must be maintained and operated in accordance with manufacturer's instructions and specifications.

(4) First generation machines. An existing facility with a transfer machine operating a full-sized carbon adsorber or azeotropic control device, and cartridge filters must meet the applicable requirements of paragraph (d)(3) of this section.

(5) Ancillary Equipment.

(i) All filter muck must be treated in a still or muck cooker, which routes perc-contaminated vapors to a condenser or other control device and recycles condenser vapors into the machine. Still or muck cooker emissions must not be vented into the facility. Any still or muck cooker must not be operated in a manner that exceeds 75 percent of its capacity or other alternate value recommended by the manufacturer. Any still or muck cooker must be cooled to 100°F (38°C) or less before being emptied or cleaned.

(ii) Button and lint traps must be cleaned each working day and the lint must be placed in a tightly sealed container. Whenever possible such operations must be performed so that the opening of such traps is done quickly with the local or general exhaust ventilation system operating to minimize perc emissions.

(iii) Perc-contaminated wastewater treatment units.

(A) Carbon filtration units - carbon cartridges must be replaced according to a schedule as specified by the manufacturer to assure an effluent quality that does not exceed 20 ppb perc.

(B) Evaporators - perc contaminated wastewater evaporators must be operated to ensure that no liquid perc or visible emulsion is allowed to vaporize.

(iv) Dip tanks and drying cabinets must be exhausted to maintain an inward air flow, and be maintained under negative pressure, to ensure that fugitive emissions will be no greater than 50 ppm. Vented emissions from dip tanks and drying cabinets must not exceed 20 ppm.

(6) The owner or operator of a dry cleaning system must maintain the following equipment as recommended by manufacturer's specifications:

(i) hose and pipe connections, fittings, couplings, and valves;

(ii) door gaskets and seatings;

(iii) filter gaskets and seatings;

(iv) pumps;

(v) water separators;

(vi) muck cookers;

(vii) stills;

(viii) exhaust dampers;

(ix) diverter valves;

(x) cartridge filter housings;

(xi) drying sensors

(7) Preparedness and prevention.

(i) All dry cleaning operations must be equipped with the following:

(A) adequate spill control equipment including sorbent materials, or alternative method for absorbing spills;

(B) vapor-proof containers for storing spill-contaminated material, and

(C) fire control equipment.

(ii) The facility owner must maintain aisle space to allow proper inspection of the dry cleaning equipment.

(iii) A reasonable supply of spare parts for repairing dry cleaning equipment must be available at the dry cleaning facility.

(8) All parts of the dry cleaning system including solvent containers where perc may be emitted to the atmosphere must be kept closed at all times except when access is required for proper operation and maintenance.

Section 12-09 Perc-contaminated wastewater management.

Perc-contaminated wastewater generated by all new and existing facilities subject to this Rule must be managed as follows:

(a) Perc-contaminated wastewater discharges.

(1) Perc-contaminated wastewater that is discharged to to the public sewer system must be treated by physical separation (water separator) and double carbon filtration, or an equivalent control which has been approved by the Department, which has been properly designed to assure an effluent quality that:

(i) is less than or equal to 20 ppb perc without perc evaporation; and

(ii) complies in all other respects to the requirements of chapter 19 of Title 15 of the Rules of the City of New York regulating the use of the public sewer system.

(2) Except as provided for by subparagraph (a)(1)(i) of this section, no person may discharge into the public sewer system any perc-contaminated wastewater or wastes resulting from dry cleaning processes including, but not limited to, still bottom or sludge residues, dirt, lint, soils, or any other deposits or residues extracted as a result of dry cleaning processess. The discharge into the public sewer system of filters or other filter media used in dry cleaning processes is prohibited.

(3) No person may discharge perc-contaminated wastewater to the surface or groundwaters within New York City except in compliance with the terms and conditions of a valid State Pollution Discharge Elimination Permit.

(b) Evaporation of perc-contaminated wastewater.

Perc-contaminated wastewater that is evaporated must be treated by physical separation (water separator) and double carbon filtration prior to evaporation.

Section 12-10 Hazardous waste management. (a) Any perc-contaminated wastes generated must be managed in accordance with Parts 370 through 376 of Title 6 of the Codes, Rules, and Regulations of the State of New York. Perc-contaminated wastewater must be handled as provided in section 12-09 of this Rule.

(b) All perc-contaminated wastes (including spent cartridge filters, spent carbon, still bottoms, and lint) must be stored in tightly sealed containers, which are impermeable to the solvent, so that no perc is emitted to the atmosphere.

(c) Containers must be appropriately labeled and stored in a designated area.

(d) Containers must be in good condition and must be kept closed except when necessary to add or remove waste.

(e) Receipts or records showing the date and volume of any perc-contaminated hazardous waste shipments must be retained for five years.

Section 12-11 Emergency response. (a) Dry cleaning systems must be operated and maintained to ensure that perc releases are contained and do not migrate to sewer systems or groundwater.

(1) For existing dry cleaning equipment -

(i) floor drains and flooring in the vicinity of the equipment must be sealed so as to be impermeable to spills, or

(ii) temporary dikes, berms and containment devices must be placed in areas where spills are most likely to occur and procedures for preventing spill migration must be established and followed.

(2) For new dry cleaning equipment, a spill containment system must be installed under the equipment as specified in paragraph (a)(7) of section 12-06 of this Rule.

(b) In the event of a perc release, the owner, operator or a designee must take all reasonable measures to ensure the release is contained. These measures must include, where applicable, stopping processes and operations, increasing room exhaust ventilation, collecting and containing released perc and removing and maintaining containers.

(c) If the facility owner and/or operator knows or has reason to know of any release of one (1) pound or more of perc, a fire, or an explosion, then the facility owner and/or operator shall report the perc release, fire, or explosion to the Department immediately and shall also comply with all other reporting requirements of chapter 11 of Title 15 of the Rules of the City of New York governing Hazardous Substances Emergency Response.

(d) Any emergency response action must be recorded as specified in section 12-12 of this Rule. This record must include, at a minimum:

(1) The date, duration and nature of any malfunction, spill or incident of the dry cleaning system;

(2) The notification procedures; and,

(3) The corrective actions taken.

Section 12-12 Reporting and recordkeeping. (a) Operators of all dry cleaning facilities or their designees must record the following:

(1) The date, duration and nature of any malfunction, spill, incident, or emergency response at the facility as outlined in paragraph (d) of section 12-11 of this Rule;

(2) The date of maintenance on any air cleaning component or exhaust system (such as the regeneration and/or replacement of the carbon in a carbon adsorber);

(3) The number of loads between regenerations, cleaning and replacement of lint filters and carbon adsorber pre-filters, repair or replacement of exhaust fans;

(4) The amount of activated carbon in carbon adsorbers (dry weight in pounds);

(5) The date of maintenance of drying sensors;

(6) The date and volume of any perc-contaminated hazardous waste shipments; and

(7) The dates of perc-contaminated wastewater treatment unit carbon cartridge replacement.

(b) Each owner or operator of a dry cleaning facility must keep receipts of perc purchases, a log of the following information, maintain such information on-site and provide it upon request for a period of five years:

(1) The volume of perc purchased each month by the dry cleaning facility as recorded from perc purchases; if no perc is purchased during a given month then the owner or operator would enter zero gallons into the log;

(2) The owner or operator must perform the following calculation on the first day of every month:

(i) Sum the volume of all perc purchases made in each of the previous twelve months, as recorded in the log described in paragraph (1) above.

(ii) If no perc purchases were made in a given month, then the perc consumption for that month is zero gallons.

(iii) The total sum calculated is the yearly perc consumption at the facility.

(c) Each owner or operator of a dry cleaning facility must record the following information on an inspection checklist as described in section 12-07 of this Rule.

(1) The dates when the dry cleaning system components are inspected for perceptible leaks as specified under the inspection and testing requirements, and the name or location of dry cleaning system components where perceptible leaks are detected;

(2) The date, time and colorimetric detector tube monitoring results as specified in section 12-07 of this Rule, if a carbon adsorber is used for primary or secondary emission control;

(3) The date, time and temperature sensor monitoring results for refrigerated condensers, as specified in section 12-07 of this Rule; and.

(4) The dates of repair and records of written or verbal orders for repair parts to demonstrate compliance with the inspection and testing requirements in section 12-07 of this Rule.

(d) Each owner or operator of a dry cleaning facility must retain on-site copies of the operation and maintenance checklists required under section 12-08 of this Rule and compliance inspection reporting forms required under section 12-16 of this Rule.

(e) Each owner or operator of a dry cleaning facility must retain on-site a copy of the design specifications and the operating manuals for each dry cleaning system and each emission control device located at the dry cleaning facility.

(f) All records must be maintained on-site for at least five years and must be made available to the Department upon written or verbal request.

(g) In addition to the permitting requirements of section 12-15 of this Rule, new facilities, or facilities installing new equipment, must submit to the Department a copy of the compliance report submitted to the New York State Department of Environmental Conservation within 30 days of commencing operation to certify compliance with the federal National Emission Standard for Hazardous Air Pollutants requirements. This statement must include:

(1) The name and address of the owner or operator;

(2) The address (that is, physical location) of the dry cleaning facility;

(3) An estimation of the annual perc consumption;

(4) A description of the machines' control devices;

(5) A statement verifying compliance with each applicable requirement under Title 40 of the Code of Federal Regulations subchapters 63.322, 63.323, and 63.324; and,

(6) A statement certifying that all information contained in the statement is accurate and true.

(h) In addition to the permitting requirements of section 12-15 of this Rule, facilities exceeding the consumption thresholds identified in Title 40 of the Code of Federal Regulations subchapter 63.620(d),(e), or (g) must submit to the Department a copy of the compliance report submitted to the New York State Department of Environmental Conservation within 30 days of the compliance deadline of 180 days certifying compliance with any additional federal requirements. This statement must include:

(1) The name and address of the owner or operator;

(2) The address (that is, physical location) of the dry cleaning facility;

(3) An estimation of the annual perc consumption;

(4) A description of the machines' control devices;

(5) A statement verifying compliance with each applicable requirement under 40 CFR subchapters 63.322, 63.323, and 63.324; and,

(6) A statement certifying that all information contained in the statement is accurate and true.

Section 12-13 Equipment testing and certification. (a) Prohibitions and requirements. The provisions of this section will be effective 60 days after the date that the first qualifying testing program is approved by the New York State Department of Environmental Conservation or its agent.

(1) Only the following kinds of dry cleaning equipment are permitted to be installed in perc dry cleaning facilities subject to this Rule: new closed-loop dry cleaning machines; converted dry cleaning machines; door fan systems; or, add-on secondary control systems which meet the design and performance standards in section 12-06 of this Rule and testing requirements of this section. Unless otherwise specified in this Rule, the dry cleaning equipment as manufactured and installed must comply in all respects with the unit upon which certification by the New York State Department of Environmental Conservation or its agent was based.

(2) Any manufacturer or vendor of any new closed-loop dry cleaning equipment that is to be installed in and used by a dry cleaning facility in New York City must apply for and receive certification from the New York State Department of Environmental Conservation or its agent that the equipment to be installed and operated complies in all respects with the performance standards and the testing requirements of Part 232 of Title 6 of the Codes, Rules, and Regulations of the State of New York. Such certification must include the operating parameters under which the equipment was tested to receive certification.

(3) It is unlawful for any person to sell, offer for sale, cause to be offered for sale, lease or represent new closed-loop dry cleaning equipment or any other machine or system described in paragraph (a)(1) of this section as one which can be used by a dry cleaning facility in New York City unless it has been certified by the New York State Department of Environmental Conservation or its agent.

(4) The contract of sale, lease, or use between the manufacturer or vendor and dry cleaning equipment user must contain, at a minimum, a provision stating that the manufacturer or vendor must, upon request, provide the user with a copy of the certification of the equipment by the New York State Department of Environmental Conservation or its agent, as required by section 232.13 of Title 6 of the Codes, Rules, and Regulations of the State of New York.

(5) The manufacturer or vendor must provide immediate notification to the Department of any generic design or functional defect discovered in the equipment. Such notice must include a detailed plan of the manufacturer's or vendor's remedy.

(6) After the certified dry cleaning equipment has been installed at the user's facility, the manufacturer or manufacturer's representative must supply at least a two-day training session to the purchaser or lessee. The training must include instruction on how to maintain and operate the dry cleaning machine. This requirement does not apply to add-on door fan systems designed to capture drum vapors when the door is open.

(b) Equipment testing. All persons conducting equipment testing must comply with the equipment testing requirements, protocols, methods, and procedures of section 232.13(b) of Title 6 of the Codes, Rules, and Regulations of the State of New York.

Section 12-14 Dry cleaning owner/manager, operator and inspector training and certification. (a) Except for the conditions established in subdivision (b) and the effective date provisions of subdivision (f) of this subchapter, it is unlawful for any person to operate a dry cleaning facility subject to this Rule unless:

(1) the facility manager and/or owner has a current and valid Dry Cleaning Owner/Manager Certification; and

(2) the person operating the dry cleaning machine has a current and valid Dry Cleaning Operator Certification.

(b) In the event that an unforeseen/unpredictable situation prevents a dry cleaning facility from having a certified operator operating the dry cleaning equipment, the owner/manager will be allowed to continue operation of the dry cleaning machine with a non-certified operator for a period not to exceed three days per occurrence. Under no circumstances may an uncertified operator operate dry cleaning equipment at any facility for a total of more than ten days in any calendar year. If the use of an uncertified operator would cause nonperformance of required maintenance and leak detection, the facility must suspend dry cleaning operations until a certified operator is available. The purpose of this provision is to accommodate emergencies or unforeseen extenuating circumstances and must not be used to cover routine situations such as vacations or other scheduled absences.

(c) A Dry Cleaning Owner/Manager Certification may be issued by any organization that offers a training program (including refresher courses) approved by the New York State Department of Environmental Conservation in accordance with the requirements of section 232.14(c) of Title 6 of the Codes, Rules, and Regulations of the State of New York.

(d) A Dry Cleaning Operator Certification may be issued by any organization that offers a training and testing program (including refresher courses) approved by the New York State Department of Environmental Conservation in accordance with the requirements of section 232.14(d) of Title 6 of the Codes, Rules, and Regulations of the State of New York.

(e) Individuals that inspect drying cleaning facilities, either as a registered inspector or under the supervision of a registered inspector, must obtain a Dry Cleaner Owner/Manager Certification.

(f) Effective date for Dry Cleaning Owner/Manager and Dry Cleaning Operator Certification. After the date of the first qualifying training program approved by the New York State Department of Environmental Conservation, the requirements of this subdivision will take effect and the first training and certification will be mandatory according to the following schedule:

(1) upon start up for all operators of new dry cleaning facilities unless the facility Owner/Manager can demonstrate that compliance with this requirement poses an unreasonable burden because of the unavailability of scheduled training courses or testing facilities;

(2) three months for operators of all existing dry cleaning facilities that are in mixed-use locations and that contain transfer machines;

(3) six months for operators of all existing dry cleaning facilities in mixed-use locations that contain dry-to-dry vented machines but do not contain transfer machines;

(4) nine months for operators of all the rest of the existing dry cleaning facilities in mixed-use locations;

(5) twelve months for operators of all existing dry cleaning facilities in stand-alone locations that contain transfer machines;

(6) fifteen months for operators of existing dry cleaning facilities in stand-alone locations that contain dry-to-dry vented machines but do not contain transfer machines; and,

(7) eighteen months for operators of all the rest of existing dry cleaning facilities in stand-alone locations.

(g) A Dry Cleaning Operator Certification will be valid for a three year period and may be renewed upon completion of a refresher course.

(b) Persons or organizations authorized to offer operator training and certification courses may not require membership in an association or purchase of a product as a prerequisite to enrollment or successful completion of the course.

(i) An authorization to offer operator training and certification courses is valid for a maximum of five years. The authorization may be renewed by filing an application provided by the New York State Department of Environmental Conservation. Such application must be filed at least six months prior to the expiration of the current authorization.

(j) If the New York State Department of Environmental Conservation fails to approve and implement the training programs set forth in section 232.14 of Title 6 of the Codes, Rules, and Regulations of the State of New York in a timely manner then the Department may elect, in its sole discretion, to implement such training programs consistent with this subchapter and section 232.14 of Title 6 of the Codes, Rules, and Regulations of the State of New York.

Section 12-15 Permits and Certificates. (a) Alterations or Modifications to Existing Certificated Dry Cleaning Facilities Required by Section 12-05 of this Rule. Any person who owns or operates an existing perc dry cleaning facility which has a valid operating certificate and who is required to perform alterations or modifications in order to comply with the requirements of section 12-05 of this Rule shall submit to the Department by means of certified mail a copy of the same notice submitted to the New York State Department of Environmental Conservation in accordance with the requirements of section 232.5(a)(3) of Title 6 of the Official Compilation of Codes, Rules, and Regulations of the State of New York.

(b) New Installations that are Not Major Sources of Perc and Alterations or Modifications to Existing Certificated Dry Cleaning Facilities. No person may install or construct a new perc dry cleaning facility or undertake alterations or modifications to an existing certificated perc dry cleaning facility, except for alterations or modifications required by section 12-05 of this Rule, without first submitting an application on a form to be supplied by the Department and obtaining an installation or alteration permit. All installation and alteration permit applications shall reference any process application number(s) previously assigned to the facility by the Department and shall also include a copy of the facility's New York State Department of Environmental Conservation air permit or registration. Except as provided for by subdivision (c) of this section, the Department shall issue an installation or alteration permit or an operating certificate to any new or existing perc dry cleaning facility that the Department determines is in full compliance with all the provisions, requirements, and standards of this Rule.

(c) New Installations that are Major Sources of Perc. The Department may grant an installation permit to a new dry cleaning facility that will be a major source of perc only after the Department has determined that the proposed dry cleaning facility is in full compliance with the provisions, requirements, and standards of this Rule and that the proposed dry cleaning facility will not cause detriment to the health, safety, welfare or comfort of any person. The Department may impose such additional permit and/or certificate terms and conditions as it determines may be necessary to protect the health, safety, welfare, or comfort of any person. In addition to the requirements of this section, any new perc dry cleaning facility which is a major source of perc must comply with all requirements under federal and state law including, but not limited to, the National Emission Standard for Hazardous Air Pollutants for Perchloroethylene Dry Cleaning Facilities and shall also obtain a Title V permit as required by the federal Clean Air Act.

Section 12-16 Compliance inspections. (a) Stand-alone dry cleaning facilities must be inspected at least annually, and mixed-use facilities must be inspected according to the following schedule:

(1) At least twice annually where any transfer or dry-to-dry vented equipment is operated; or

(2) At least annually where only non-vented equipment is operated.

(b) Such inspections must be performed by an inspector registered with the New York State Department of Environmental Conservation or by an individual working under the supervision of a registered inspector.

(c) All registered inspectors must meet the requirements of paragraphs (1), (2) and (3) of this subdivision. All individuals working under the supervision of a registered inspector must meet the requirements of paragraphs (2) and (3) of this subdivision.

(1) The inspector must be one of the following:

(i) a licensed professional engineer;

(ii) a registered architect; or

(iii) a certified industrial hygienist.

(2) Must possess a Dry Cleaner Owner/Manager certification in accordance with section 12-14 of this Rule and complete other appropriate training as specified by the New York State Department of Environmental Conservation on topics related to inspections.

(3) Must not be engaged in the sales or marketing of dry cleaning equipment. Must not be engaged in providing services to the dry cleaning industry. Employees of trade associations may not conduct inspections, but trade associations may solicit bids for performing inspections on behalf of their members.

(d) Inspections must be conducted in accordance with protocols specified by the New York State Department of Environmental Conservation, using an inspection reporting form supplied by the New York State Department of Environmental Conservation.

(e) Analysis of air samples collected by passive sampling devices or the equivalent must be conducted by a laboratory certified by the Environmental Laboratory Approval Program (ELAP) of the New York State Department of Health.

(f) The inspection will verify that the NOTICE required by section 12-18 of this Rule is posted in a conspicuous location in the facility.

(g) After the inspection is completed, the registered inspector must provide a completed inspection reporting form to the Department and to the facility owner within 45 days of the inspection.

(h) The owner/manager or operator must:

(1) Make available upon request the most recent completed inspection reporting form to interested individuals for review on premises during normal business hours.

(2) If the inspection reveals a leak or malfunction, the facility must be repaired within the timeframes established in section 12-07 of this Rule and reinspected within one month.

Section 12-17 Equivalency.

Any person requesting that use of alternative equipment or procedures be considered as equivalent to the requirements under subchapter 6 of this Rule shall make an application to the New York State Department of Environmental Conservation in accordance with the requirements of section 232.17 of Title 6 of the Codes, Rules, and Regulations of the State of New York and shall submit a copy of the New York State Department of Environmental Conservation's equivalency determination to the Department.

Section 12-18 Posting notice. The facility owner must post the notice required by section 232.18 of Title 6 of the Official Compilation of Codes, Rules, and Regulations of the State of New York in a conspicuous location in the dry cleaning facility to inform building tenants and/or customers of the substances used in the dry cleaning system and potential health effects associated with exposure to them.

Section 12-19 Enforcement.

Any person who is in violation of or fails to comply with any provision, standard, or requirement of this Rule or the terms and conditions of any permit issued pursuant to this Rule shall be subject to the issuance of a notice of violation answerable to the Environmental Control Board and the payment of a civil penalty as provided for by section 24-178 of the Administrative Code of the City of New York.

Section 12-20 Severability.

If any provision of this Rule or its application to any person or circumstance is held invalid, the remainder of this Rule, and the application of those provisions to persons other than those to which it is held invalid, will not be affected thereby.

Department of Environmental Protection
Notice of Opportunity to Comment on Proposed Amendments to
Chapter 19 of Title 15 of the Rules of the City of New York Relating to the
Control of Perchloroethylene Discharges into the Public Sewer System
from Dry Cleaning Facilities

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN THE Commissioner of the Department of Environmental Protection by section 1043 of the New York City Charter and section 24-523(e) of the Administrative Code of the City of New York that the Department of Environmental Protection is proposing to promulgate amendments to Chapter 19 of Title 15 of the Rules of the City of New York relating to the control of perchloroethylene discharges into the public sewer system from dry cleaning facilities.

PLEASE BE ADVISED THAT ORAL COMMENTS regarding the proposed amendments may be delivered at a public hearing to be held on Monday, June 15, 1998 commencing at 10:00 a.m. at the Museum of the City of New York, 1220 Fifth Avenue, New York, New York (enter the auditorium on 104th Street between Madison and Fifth Avenues).

PLEASE BE FURTHER ADVISED THAT WRITTEN COMMENTS regarding the proposed amendments may be sent to the New York City Department of Environmental Protection, Bureau of Legal Affairs, 59-17 Junction Boulevard, 19th floor, Corona, New York 11368 Attention: James Sherman, Esq. on or before June 29, 1998.

PLEASE BE FURTHER ADVISED THAT COPIES OF ALL WRITTEN COMMENTS and a summary of the oral comments delivered at the public hearing will be available for inspection within a reasonable time after receipt between the hours of 9:00 a.m. and 5:00 p.m. at the Department of Environmental Protection, Office of Legislative Affairs, 59-17 Junction Boulevard, 19th floor, Corona, New York 11368.

The proposed rule amendments are listed in the Department's FY 98 Regulatory Agenda.

****

New material is underscored; deleted material is in [brackets].

Chapter 19 of Title 15 of the Rules of the City of New York is amended by adding thereto new definitions to read as follows:

19-01 Definitions. For the purpose of this chapter, the meaning of terms shall be as follows (unless the context specifically indicates otherwise):

Articles. "Articles" shall mean clothing, garments, textiles, fabrics, leather goods, and the like, that are dry cleaned.

Dip tank. " Dip tank" shall mean a separate tank that contains perchloroethylene and is used for purposes other than dry cleaning.

Dry cleaning. " Dry cleaning" shall mean the process used to remove soil, greases, paints and other unwanted substances from articles with the use of perchloroethylene.

Dry cleaning facility. "Dry cleaning facility" shall mean an establishment with one or more dry cleaning systems.

Dry cleaning equipment. "Dry cleaning equipment" shall mean any machine, device, or apparatus used to dry clean articles.

Dry cleaning system. "Dry cleaning system" shall mean all of the following equipment, devices, or apparatus associated with the perchloroethylene dry cleaning operations, including, but not limited to: dry cleaning equipment; filter or purification systems; waste holding; treatment or disposal systems; water separators; perchloroethylene supply systems; dip tanks; pumps; gaskets; piping, ducting, fittings, valves, or flanges that convey perchloroethylene-contaminated air; and dry cleaning control systems.

Perchloroethylene (perc). " Perchloroethylene" shall mean a colorless volatile chlorinated hydrocarbon. Perc is also known as tetrachloroethylene and PCE. The chemical formula for perc is Cl2C:CCl2. The CAS (chemical abstract service) registry number for perc is 00127-18-4.

ppb. "ppb" shall mean parts per billion by volume in air or by weight in water.

Water separator. "Water separator" shall mean a vessel that uses gravity to physically separate liquid perc from liquid water.

Section 19-03(a)(15) of Title 15 RCNY is amended to read as follows:

(15) Any still bottom or sludge residues resulting from dry cleaning processes including, but not limited to, dirt, lint, soils, [perchloroethylene tetrachloroethylene, solvents,] and any other deposits or residues extracted as a result of any dry cleaning processes. The discharge of filters or filter media used in dry cleaning processes is also prohibited.

Chapter 19 of Title 15 RCNY is amended by adding thereto a new section 19-12 to read as follows:

19-12 Best Management Practices for Perchloroethylene Discharges to the Public Sewer System from Dry Cleaning Facilities.

(a) Perc-contaminated wastewater management. Perc-contaminated wastewater generated by all new and existing perc dry cleaning facilities shall be managed as follows:

(1) Perc-contaminated wastewater discharges- Perc- contaminated wastewater that is discharged to the public sewer shall be treated by physical separation (water separator) and double carbon filtration, or an equivalent control which has been approved by the New York State Department of Environmental Conservation, which has been properly designed to assure an effluent quality that is less than or equal to 20ppb perc without evaporation; and

(2) Evaporation of perc-contaminated wastewater- Perc-contaminated wastewater that is evaporated must be treated by physical separation (water separator) and double carbon filtration prior to evaporation.

(b) Perc-contaminated wastes. Except as provided for by paragraph (a)(1) of this section, no person may discharge into the public sewer system any perc-contaminated wastewater or wastes resulting from dry cleaning processes including, but not limited to, still bottom or sludge residues, dirt, lint, soils, or any other deposits or residues extracted as a result of dry cleaning processes. The discharge into the public sewer system of filters or other filter media used in dry cleaning processes is prohibited.

(c) Operation and maintenance. (1) Dry cleaning facilities must be maintained and operated to minimize the release of perc to the environment. All components of the dry cleaning system shall be properly operated and maintained in accordance with the provisions of these, as well as applicable Federal, State and other local, regulations.

(2) Perc-contaminated wastewater treatment units.

(i) Carbon filtration units- Carbon cartridges shall be replaced according to a schedule as specified by the manufacturer to assure an effluent quality that does not exceed 20ppb perc.

(ii) Evaporators- Perc-contaminated wastewater evaporators shall be operated to ensure that no liquid perc or visible emulsion is allowed to vaporize.

(iii) Water Separators- Water separators shall be maintained as recommended by manufacturer specifications.

(d) Preparedness and prevention. All dry cleaning operations must be equipped with the following: (1) adequate spill control equipment including sorbent materials, or alternative methods for absorbing spills;

(2) vapor-proof containers for storing spill-contaminated material; and

(3) fire control equipment.

(e) Reporting and record keeping. (1)Each owner or operator of a dry cleaning facility or their designees shall record the following:

(i) The date, duration and nature of any malfunction, spill, incident, or emergency response at the facility, the notification procedures and the corrective action taken;

(ii) The dates of perc-contaminated wastewater treatment unit carbon cartridge replacement;

(iii) The date and volume of any perc-contaminated hazardous waste shipments;

(iv) The dates when the dry cleaning system components are inspected for perceptible leaks , and the name or location of dry cleaning system components where perceptible leaks are detected;

(v) The dates of repair and records of written or verbal orders for repair parts for the dry cleaning system; and

(vi) The dates of maintenance of water separators.

(2) Each owner or operator of a dry cleaning facility shall keep receipts of perc purchases, and a log of the volume of perc purchased each month by the dry cleaning facility as recorded from perc purchases.

(3) Each owner or operator of a dry cleaning facility shall retain on site a copy of the design specifications and the operating manuals for each dry cleaning system and each emission control device located at the dry cleaning facility.

(4) All records must be maintained on site for at least five years and must be made available to the Department upon written or verbal request.

FINANCE

FINANCE
NEW YORK
ALFRED C. CERULLO, III
COMMISSIONER

Regulatory Agenda for Fiscal Year 1999

In compliance with section 1042 of the New York City Charter, the following is the regulatory agenda for rules that the Department of Finance anticipates that it may promulgate during the fiscal year beginning July 1, 1998 and ending June 30, 1999.

An approximate schedule for adopting the proposed rules and the name and telephone number of a Department of Finance official knowledgeable about each subject area involved are listed below each section.

1. AMENDMENTS TO GENERAL CORPORATION TAX RULES

Pursuant to chapter 6, subchapter 2 of title 11 of the Administrative Code, the General Corporation Tax is imposed on every domestic or foreign corporation for the privilege of doing business, employing capital, owning or leasing property, or maintaining an office in the City of New York. Corporations subject to the tax will be subject to these rules.

The Department intends to amend those sections of these rules to reflect legislative changes, court decisions and existing departmental policies not presently addressed by the rules. The Department anticipates that due to the scope of this project, the rules will be amended in stages, several of which were completed in prior fiscal years but the remainder of which may not be completed during the coming fiscal year. During the coming fiscal year, the Department intends to amend those sections of the rules affected by chapter 485 of the Laws of 1994 and chapters 128 and 625 of the Laws of 1996 relating to the enactment of a credit against the General Corporation Tax for Unincorporated Business Tax paid by a partnership in which a taxpayer is a partner, the repeal of the regular place of business requirement, amendments to the alternative income plus compensation tax base and the enactment of a double weighted receipts factor for allocating entire net income of manufacturing corporations.

First half of fiscal year 1999
Andrew Eisner (718) 403-3600

2. AMENDMENTS TO BANKING CORPORATION TAX RULES

Pursuant to chapter 6, subchapter 3 of title 11 of the Administrative Code, the Banking Corporation Tax is imposed on banking corporations for the privilege of doing business in the City of New York in a corporate capacity. Banking corporations subject to the tax will be subject to these rules. The Department proposes to amend the rules relating to the Banking Corporation Tax to reflect amendments to the Administrative Code by chapter 485 of the Laws of 1994 and chapter 128 of the laws of 1996, relating to the replacement of the additional exemption under the Unincorporated Business Tax by a credit that can be taken by banks that are partners in unincorporated businesses.

First half of fiscal year 1999
Andrew Eisner (718) 403-3600

3. AMENDMENTS TO UNINCORPORATED BUSINESS TAX RULES

Pursuant to chapter 5 of title 11 of the Administrative Code, the Unincorporated Business Tax is imposed on unincorporated businesses carried on in the City of New York. Individuals and unincorporated entities are subject to these rules.

The Department intends to amend those sections of the rules affected by chapter 485 of the Laws of 1994, chapters 128 and 625 of the Laws of 1996, and chapter 481 of the Laws of 1997 relating to changes in the general credit, filing requirements and estimated tax payment requirements, the enactment of a credit against the General Corporation Tax, Banking Corporation Tax and Unincorporated Business Tax for Unincorporated Business Tax paid by a partnership in which a taxpayer is a partner, the repeal of the regular place of business requirement, the enactment of special allocation rules for broadcasters and publishers and the enactment of a double weighted receipts factor for allocating entire net income.

First half of fiscal year 1999
Andrew Eisner (718) 403-3600

4. AMENDMENT TO REAL PROPERTY TRANSFER TAX RULES

Pursuant to chapter 21 of title 11 of the Administrative Code, the Real Property Transfer Tax is imposed on transfers of real property or economic interests therein located in New York City. Section 308 of chapter 170 of the Laws of 1994 added a new paragraph 8 to section 11-2106 of the Code that exempted transfers of real property or economic interests therein that represent a mere change of identity or form of ownership or organization to the extent the beneficial ownership of the property remains the same. Sections 302 through 307 of chapter 170 of the Laws of 1994 amended the State enabling law authorizing the imposition of the Real Property Transfer Tax and chapter 21 of the Administrative Code to provide for temporary tax rate relief for qualifying real estate investment trust transfers. Chapter 309 of the Laws of 1996 further amended the State enabling law and the Administrative Code to make tax rate relief for qualifying real estate investment trust transfers permanent and to provide temporary expanded tax rate relief for certain other transfers to real estate investment trusts. Chapter 314 of the Laws of 1997 amended the Administrative Code to exclude certain continuing liens from taxable consideration in the transfer of certain residential properties. The Department intends to amend all those sections of the Rules Relating to the Real Property Transfer Tax that are affected by the enactment of the mere change exemption, the real estate investment trust transfer provisions, and the continuing lien exclusion.

Second half of fiscal year 1999
Andrew Eisner (718) 403-3600

5. AMENDMENT TO PARKING TAX RULES

Pursuant to chapter 20, subchapter 4 of title 11 of the Administrative Code, an additional parking tax of 8 percent is imposed in the borough of Manhattan. Certain individual residents of Manhattan are eligible for an exemption from that tax for their personal vehicles. The Department intends to amend the rules to reflect the amendments made by Local Law 74 of 1996 extending the exemption to vehicles subject to long term leases.

First half of fiscal year 1999
Ellen Hoffman (718) 403-3600

6. AMENDMENT TO CONCILIATION BUREAU RULES

Section 11-124 of the Administrative Code authorizes the Commissioner of Finance to provide for conciliation conferences for the purpose of settling contested determinations of taxes or charges of denials of refunds or credits concerning income and excise taxes administered by the Department of Finance, and disputes relating to cigarette tax licenses. The Department proposes to amend the rules adopted March 29, 1993 creating the Conciliation Bureau to modify certain of the procedures governing its operation.

Second half of fiscal year 1999
Andrew Eisner (718) 403-3600

7. AMENDMENT TO RULES OF PROCEDURE

The taxes imposed by chapters 5, 6, 7, 8, 11, 12, 13, 14, 21, 24, and 25 authorize the Commissioner of Finance to amend and adopt rules appropriate to administering those taxes. The Department proposes to amend chapter 27 of the rules relating to powers of attorney to modify certain of the requirements thereof and to delete obsolete rules for practice before the now defunct Hearings Bureau.

8. AMENDMENT TO RULES RELATING TO THE FILING OF INCOME AND EXPENSE STATEMENTS

In order to improve the accuracy and fairness of the real property assessment process, Administrative Code §11-208.1 requires owners of designated income-producing properties to file with the Department of Fiance annual income and expense statements relating to such properties. The Department promulgated rules which define income-producing properties for these purposes and provide procedures for filing.

Presently, the rules exclude from the filing requirement any property with an annual assessed valuation no greater than $40,000. The Department plans to amend these rules in order to increase this assessed valuation ceiling to $80,000. This change will be consistent with laws which recently increased from $40,000 to $80,000 the ceiling assessed valuation for determining which properties may pay real property taxes quarterly and are provided a grace period for payment.

First half of fiscal year 1999
Robert Dauman (718) 403-3600

9. AMENDMENTS TO RULES RELATING TO PARKING VIOLATIONS

The Department plans to amend the Rules Relating to Parking Violations, pursuant to the authority granted by Vehicle and Traffic Law §237. The proposed amendment concerns the Parking Violations Fleet Program, which enables businesses that enroll in the program to receive computer-generated information that informs them that parking violations have been issued, and which can be used as hearing logs. The amendment will accord more time for Fleet Program participants to comply with regulatory requirements and provide other details concerning the functioning of the program.

First half of fiscal year 1999
Joyce Lippman (718) 403-3600

10. PROMULGATE RULES RELATING TO THE COMMERCIAL REVITALIZATION PROGRAM

The Department plans to promulgate rules to implement real property tax abatement and exemption programs enacted by legislation signed by Governor Pataki on October 29, 1995 which created a

comprehensive package of programs designed to revitalize the economy of lower Manhattan, as well as the area of Manhattan north of 96th Street and the outer boroughs.

These rules will enable owners of aging office buildings suffering from high vacancy rates to apply for tax abatement and exemption benefits granted for substantial renovation or conversion of economically obsolete building stock to residential or mixed-use space. Moreover, the rules will ensure that the benefitted owners pass on the abatement benefits to new and renewal commercial tenants in the form of rent reductions.

Second half of fiscal year 1999
Bruce Brasky (718) 403-3600

11. AMENDMENTS TO RULES RELATING TO THE INDUSTRIAL AND COMMERCIAL INCENTIVE PROGRAM

The Industrial and Commercial Incentive Program ("ICIP"), enacted by Local Law 71 of 1984, provides for partial exemption or deferral of taxation on eligible industrial or commercial buildings that are constructed, modernized, rehabilitated, expanded or otherwise physically improved.

The Department plans to amend its rules to conform with recent legislative changes made pursuant to the commercial revitalization legislation described in item 10 above. New construction of certain types of buildings and renovation of commercial buildings, in lower Manhattan, will be eligible for 12 years of ICIP benefits where qualification requirements are met.

First half of fiscal year 1999
Bruce Brasky (718) 403-3600

12. PROMULGATE RULES RELATING TO BIDDERS IN TAX FORECLOSURE SALES

Section 11-354 authorizes the City to maintain an action in the State Supreme Court to foreclose unpaid tax liens on real property in the City of New York. This law was recently amended to authorize the Commissioner of Finance, in consultation with the Commissioner of Housing Preservation and Development, to promulgate rules to establish guidelines for who may be deemed a responsible bidder for purposes of purchasing a property from the City following foreclosure under this law. The Department may promulgate such rules in fiscal year 1999.

Second half of fiscal year 1999
Robert Dauman (718) 403-3600

13. PROMULGATE RULES RELATING TO MERGER AND APPORTIONMENT OF TAX LOTS

Under the authority granted by the New York City Charter and chapter 2 of title 11 of the New York City Administrative Code, the Department of Finance may merge or apportion tax lots as appropriate for the assessment of real property in the City of New York.

These rules will provide guidelines for property owner applications for merger of specific tax lots and apportionment of a single lot into lots assessed separately for purposes of real estate taxation.

Second half of fiscal year 1999
Robert Dauman (718) 403-3600

LANDMARKS PRESERVATION COMMISSION

■ NOTICE

LANDMARKS PRESERVATION COMMISSION
AGENCY REGULATORY AGENDA

The New York City Landmarks Preservation Commission anticipates that rules may be promulgated in the following areas during the 1999 fiscal year:

1. Landmark and Historic District Alterations and Construction: It is proposed that rules will be promulgated for alterations, additions, and new construction on landmarks and historic districts. These rules will address the following types of alterations, additions and new construction:

a. Installation of Awnings (amendment to 63 RCNY Sec. 2-12)
b. Repair and Replacement of Windows (amendment to 63 RCNY Chapter 3)
c. Masterplan: Alterations to Properties within the Stone Street Historic District
d. Installation of Public Pay Phones
e. Installation and Maintenance of Banners and Flags in Soho
f. Masterplan: Storefronts on Madison Avenue (Upper East Side Historic District)
g. Masterplan: Alterations in the Douglaston Historic District
h. Street Surfaces and Crosswalks
i. Street Signs
j. Traffic Signals
k. Sidewalks
l. Pedestrian Ramps

The rules listed above will affect owners and tenants of landmarks and property in designated historic districts and the Community Boards which include landmarks and historic districts within their jurisdiction.These rules may also affect the Art Commission, the New York City Department of Transportation, and other entities which perform or review work in historic districts.

These rules will be promulgated to provide for more effective administrative procedures; to enhance the special aesthetic, architectural and historic character of landmarks and historic districts; to preserve the special aesthetic, architectural and historic character of the proposed interior landmarks and historic district; and to coordinate the Commission's work with that of other agencies. The rules will be promulgated pursuant to New York Administrative Code Sections 25-301; 25-305-308; 25-318-319. There are no federal, state, or local laws or rules of which the Landmarks Commission is aware which duplicate, overlap or conflict with the proposed rules.

The Commission plans to adopt the proposed rules in areas 1 (a) and (b) during the first quarter of fiscal year 1999, the proposed rules in areas 1 (c) and (d) in the second quarter of fiscal year 1999, the proposed rules in areas 1 (e) and (f) in the third quarter of fiscal year 1999, and the proposed rules in areas 1 (g) (h) (i) (j) (k) and (l) in the fourth quarter of fiscal year 1999.

Questions on the above may be directed to Valerie Campbell, Counsel, NYC Landmarks Preservation Commission, 100 Old Slip, New York, New York 10005, 212-487-6816.
Date: April 23, 1998

METROPOLITAN TRANSPORTATION AUTHORITY TRANSIT AUTHORITY

NOTICE

The New York City Transit Authority (NYCTA) invites vendors interested in doing business with NYCT who have not yet listed themselves with NYCT to do so. Vendors on NYCT's bidders lists are informed of solicitations for the types of goods and services they provide. Vendors are required to complete an application to be added to our bidders lists. We will provide you with general information on doing business with NYCT and other MTA agencies. We encourage minority and women owned business enterprises to participate in our solicitations.
NYCT purchases bus parts, rail car parts, rail, railroad ties and other maintenance of way items and a wide variety of other materials and equipment.
The bidders list application can be obtained in person at the Bid Reception Desk at the below address, or by contacting Mr. Don Mulhern at the NYCTA Vendor Performance Unit at (718) 694-4015.
MTA - New York City Transit, 130 Livingston Street, Room 160, Brooklyn, NY 11201. Bid Reception Desk, Monday - Friday, except holidays 9:00 am - 4:00 pm.

OFFICE OF MANAGEMENT AND BUDGET

CITY OF NEW YORK: OFFICE OF MANAGEMENT AND BUDGET
DEPARTMENT OF CITY PLANNING
COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM
NOTICE OF PROGRAM CHANGE
NOTICE OF AVAILABILITY OF PROPOSED CITY FISCAL YEAR 1999
COMMUNITY DEVELOPMENT PROGRAM

TO ALL AGENCIES, COMMUNITY BOARDS, GROUPS AND PERSONS:

Pursuant to Section 91.105(c) of the Department of Housing and Urban Developments (HUD) Consolidated Plan Regulations, the City proposes the following change in the 1998 Consolidated Plan/Twenty-Fourth Community Development Program Year (CD 24).

FROM: Department of Homeless Services (DHS)
Shelter Renovations ($857,000)
Shelter Security Services for the Homeless ($3,518,000)

TO: Dept. of Youth and Community Development
Beacon School Program $4,375,000

The proposed reduction to CD funding in the DHS programs will be replaced with City tax levy funds. This switch is being made to maximize the use of State matching funds for activities benefitting the homeless. The primary purpose of the Beacon School Program is to establish safe havens for youth that will provide drug and alcohol prevention and referral services, homework and tutorial assistance, reading labs and recreational activities such as basketball leagues, arts and crafts, and dance. Beacons may also offer services to a limited number of adults, particularly those whose children are enrolled in the Beacon School Program as well as senior citizens who will be engaged in intergenerational activities with the youth enrolled in the Beacon Program. Beacons are

required to operate a minimum of six days per week, for a minimum of 42 hours. There are currently 41 Beacon School and Mini-Beacon School Programs with at least one program located in each of the 32 Community School Districts throughout the City. An additional 31 Beacon Schools and 8 Mini-schools are being created. Community Development will fund 15 of the Beacon programs serving low and moderate income areas. The Beacon School Program is scheduled to start on June 1, 1998.

The City also proposes other substantial changes to the 1998 Consolidated Plan related to the CD budget, effective July 1, 1998. The proposed changes to CD are identified in the "Proposed City Fiscal Year 1999 Community Development Program". This document also contains the Proposed Revised CD Year 24 Budget (which will be incorporated into the Amended 1998 Consolidated Plan) and the Proposed CD Year 25 Budget (which will be incorporated into the Proposed 1999 Consolidated Plan).

Written comments on the proposed changes should be directed to Irene Fanos, Consolidated Plan Coordinator, Department of City Planning, 22 Reade Street, 4th Floor, New York, New York 10007 by May 27, 1998.

The "Proposed City Fiscal Year 1999 Community Development Program" document is available, one copy per person or organization, at the following locations:

The Department of City Planning The Book Store 22 Reade Street 1st Floor New York New York 10007 10 a.m - 4 p.m.

The Office of Management and Budget 75 Park Place, 8th Floor Reception Area
New York, New York 10007 10 a.m. - 5 p.m.

City of New York: Joseph J. Lhota, Budget Director, Office of Management and Budget

Joseph B. Rose, Director, Department of City Planning
Date: April 27, 1998

POLICE

POLICE DEPARTMENT
CITY OF NEW YORK

REGULATORY AGENDA

Pursuant to the New York City Charter Section 1042, the following amendments and additions to the rules of the City of New York are expected to be promulgated by the New York City Police Department during the next fiscal year:

1. The New York City Police Department expects to amend those portions of the Rules of the City of New York relating to the issuance of handgun licenses, rifle and shotgun permits, rules and regulations pertaining to gun dealers, and the training requirements of handgun applicants. It is anticipated that specific training requirements will be established to ensure that handgun license applicants are properly trained in the use of their firearms. The Department also expects to amend its rules regarding the transportation of firearms within the City of New York.

2. The New York City Police Department expects to promulgate rules regarding the issuance and regulation of arterial tow program permits.

3. The New York City Police Department expects to amend its rules regarding the revocation of Special Patrolmen designations.

The purpose of these rules is to increase the safety of all persons who reside in, work in or visit the City of New York. At present, these proposed rules are being reviewed by the New York City Police Department. Questions regarding the proposed rules or amendments may be directed to the Legal Bureau, at (212) 374-5400.
