Standards for location, design and hours of public accessibility

In addition to the standards set forth in the **current station planning guidelines as issued by** New York City Transit ***Authority's "Station Planning Guidelines" (Revised, 1975, and as may be subsequently revised)***, the following standards shall also apply:

(a)**Location**

The relocated **or renovated** entrance shall be immediately adjacent to, and accessible without any obstruction from a public sidewalk, ***or from within a space accessible to the public, as those spaces are defined in the applicable zoning district regulations*** **or pedestrian circulation space as defined in Section 37-07 (Requirements for pedestrian circulation space). Any such pedestrian circulation space shall have a minimum horizontal dimension equal to the width of the relocated stairs or the minimum width of the pedestrian circulation space, whichever is greater.**

(b)The relocated **or renovated** entrance may be provided within a #building#, but shall not be enclosed by any doors. The area occupied by a relocated **or renovated** entrance within a #building# shall not be counted towards the #floor area# of the #enlargement# or #development#.

Paragraphs (c) through (h) have been revised and rearranged as paragraph (b). Additional information from Section 81-47(b) has been incorporateD.

(*c*b) Design standards

The relocated or renovated entrance shall have a stair width of at least eight feet for each run.

(c)The relocated entrance shall have a queuing space at the top and bottom of the stairs at least eight feet wide and 15 feet long, and such queuing space may overlap a #sidewalk widening#, an #arcade#, a #plaza#, a #residential plaza# or an #urban plaza#.

(d)Where two or more existing stairway entrances are being relocated **or renovated** as part of the same #development# or #enlargement#, the new entrance or entrances shall have ***a*** total stair ***width or*** widths equal to or greater than the sum of the stair widths of the**ose existing** stairway entrances ***being relocated***, but in ***any*** **no** case ***no*** **may any stair be** less than eight feet in widtH.

The relocated entrance may be relocated within an #urban plaza#, provided that the minimum width of each stair is ten feet and the queuing area of the relocated entrance is unobstructed and contiguous to a sidewalk or a sidewalk wideninG. A relocated entrance within an #urban plaza# is a permitted obstruction, but shall not be subject to the percentage limit on permitted obstructions for an #urban plaza#.

(c)**For a relocated entrance only, the entrance shall have a queuing space at the top and bottom of the stairs that is at least eight feet wide and 15 feet lonG. Such queuing space may overlap with an #urban plaza# or an #arcade# in accordance with the provisions of Sections 27-60 (ARCADES) or 37-073 (Design standards for pedestrian circulation spaces).**

No stairway shall have more than 14 risers without a landing, and each landing shall have a minimum width equal to the width of the stairs, and a minimum length of five feet.

Throughout the entire stairway entrance, including passageways, the minimum clear, unobstructed height shall be at least 7 feet, 6 inches from finished floor to finished ceiling, including all lighting fixtures and #signs#.

(e)The entire entrance area, including passageways, shall be free of obstructions of any kind, except for projecting information signagE.

(f)The relocated entrance may be relocated within a #plaza#, a #residential plaza# or an #urban plaza# provided that the queuing area of the relocated entrance is unobstructed and contiguous to a sidewalk or a #sidewalk widening#. A relocated entrance with a #plaza#, a #residential plaza# or an #urban plaza# is permitted obstruction, but shall not be subject to the percentage limit on permitted obstructions for a #plaza#, a #residential plaza# or an #urban plaza#.

(g)The relocated entrance shall connect to an existing or proposed subway passageway, or shall connect, via an underground passageway, to a mezzanine area of the subway station.

(h)The below-grade portion of a relocated entrance may be constructed within the #street#.

(c) Hours of public accessibility

(i)The relocated **or renovated** entrance shall be accessible to the public during the hours when the connected mezzanine area is open to the public or as otherwise approved by ***the*** **New York City** Transit ***Authority***.

37-***033*032**
Administrative procedure for a subway stair relocation **or renovation**

(a) **For any #development# or #enlargement# that is subject to the requirements for the relocation of a subway stair entrance or counts a renovated subway stair as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space), Except as otherwise provided in paragraph (b) of this Section,** no plan shall be approved by the Department of Buildings and no excavation permit or building permit shall be issued ***for any #development# or #enlargement# that is subject to the requirements for the relocation of a subway stair entrance***, unless **the following criteria are met:**

(***1*a)for a relocated entrance, s*S***such plan includes a stair relocation plan and ***the*** related documents that bind the developer to:

(***i*1)**construct the new stair entrance in accordance with such plan;

(***ii*2)**demolish above-ground elements of the existing entrance; ***and***

(***iii*3)**seal the existing entrance at the sidewalk level.; **and**

(4)maintain the work performed on the relocated or renovated entrance; or

(***2*b)for a renovated entrance, such plan includes a renovation plan and related documents that bind the developer to:**

(1)renovate or reconstruct the entrance in accordance with such plan; and

(2)maintain the work performed on the renovated or reconstructed entrance; and

(***2*c)*S*such plan and related documents bear ***the*** **New York City** Transit ***Authority***'s approval; **and**

(***3*d)*S*such plan is accompanied by a certified copy of an agreement, as recorded between ***the*** **New York City** Transit ***Authority*** and the owner for an easement on the #zoning lot# for subway-related use of the new stair entrance and for public access via such entrance to the subway station, which agreement has been recorded against the #zoning lot# in the Office of the Register of the City of New York ***(County of New York)*** and is accompanied by the Register's receipt of recordation.; **and**

(4)Such plan is accompanied by any request for modification of special urban design guidelines pursuant to Section 37-034.

(b)In the event that major construction problems render the stair relocation infeasible or that operating design considerations make it undesirable, the Transit Authority and the City Planning Commission, by joint certification, may release the developer from said requirement. In such event, the stair relocation requirement shall be satisfied by retention of the existing stair and provision on the #zoning lot# of an open area which accommodates pedestrian traffic passing the existing entrancE. Such space shall have a width equal to at least one and one-half times the width of the existing stair entrance and shall extend along the full length of the stair entrancE. Incorporated into Section 37-034.

(***c*e)no permanent certificate of occupancy shall be issued for any #development# or #enlargement# subject to the subway stair relocation requirement or counting a renovated or reconstructed subway stair as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space), unless and until all of the work required under paragraphs (a) or (b) of this Section has been completed and New York City Transit has so certified in writing to the Department of Buildings. *Prior to obtaining a permanent certificate of occupancy, the relocated subway stair must be 100 percent complete in accordance with the approved plans and such completion shall have been certified by the Transit Authority.***

37-***034*033**
Modification of ***special urban design guidelines and urban open space*****requirements for a relocated or renovated subway stair**

The **Chairperson of the** City Planning Commission may, by certification to the Commissioner of Buildings, allow modifications of the requirements of Section 37-01 (Special Urban Design Guidelines - Streetscape), Section 37-02 (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), **37-031 (Standards for location, design and hours of public accessibility) or 37-04 (Requirements for Urban Plazas)** ***and the applicable provisions of #urban open space# in Section 12-10 (DEFINITIONS),*** if ***it finds that*** the relocated subway stair cannot be accommodated without modification to these provisions.

37-***035*034**
Waiver of requirements

(Delete existing text.)

The provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair) may be waived by joint certification of New York City Transit and the Chairperson of the City Planning Commission that major construction problems or operating design considerations render the stair relocation infeasiblE. In such event, the stair relocation requirement may be satisfied by retention of the existing stair and the provision on the #zoning lot# of an open area, qualifying under the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space), that accommodates pedestrian traffic passing the existing stair entrancE. Adapted from Section 37-032(b).

* * *

Sections 37-041 and 37-042 have been deleteD. Section 37-043 has been merged with Section 37-04. No current requirements have been deleted; no new requirements have been addeD.

37-04
Requirements for ***Open Air Concourses, Sidewalk Widenings and*** Urban Plazas

#Open air concourses#, #sidewalk widenings# and #urban plazas# are collectively referred to as #urban open spaces#. All #urban ***open spaces*** **plazas#** shall comply with the ***following basic requirements*** **provisions** of this Section. ***and with additional requirements as specified for each type in accordance with the provisions of Sections 37-041 (Open air concourses), 37-042 (Sidewalk widenings), and 37-043 (Urban plazas).*** These provisions may be modified pursuant to Sections 74-91 (***Urban Open Space*** Modifications **of Urban Plazas**) and 81-23 (Floor Area Bonus for Urban Plazas).

No foundation permit shall be issued by the Department of Buildings for any #development# that includes an #urban plaza# without certification by the Chairperson of the City Planning Commission that a site plan has been submitted indicating compliance with the provisions of this Section. An application for such certification shall be filed with the Chairperson showing the plan of the #zoning lot#; a site plan indicating the area and dimensions of the proposed #urban plaza# and the location of the proposed #development# or #enlargement# and all existing #buildings# temporarily or permanently occupying the #zoning lot#; computations of proposed #floor area#, including bonus #floor area#; and a detailed plan or plans demonstrating compliance with the provisions of this Section.

All plans for #urban plazas#, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification of the #urban plaza# pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the filing for or issuance of any building permit for any #development# or #enlargement# on the #zoning lot#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording datE.

Following graytoned text relocated from current Section 37-043(a).

(a)***Restrictions on location of non-qualifying open a*** Areas and dimensions

An #urban plaza# shall contain an area of not less than 1,600 square feet. In no case may spaces between existing #buildings# remaining on the #zoning lot# qualify as #urban plazas#. In addition, in order t*T*o preserve ***the intent of*** the provisions relating to the boundaries, proportions and obstructions of #urban **plaza*****s*open spaces#**, on any one #zoning lot#, an open area which does not qualify for bonus #floor area# may not be located between two #urban plazas#, ***between an #open air concourse# and an #urban plaza#***, or between an #urban plaza# ***or #open air concourse#*** and a building wall or #arcade# of the #development#.

(b)Planting and trees

(1)#Street# trees adjacent to #urban open spaces#

#Street# trees are required to be planted in the public sidewalk area adjacent to a #zoning lot# that contains bonus #floor area# for #urban open space#. At least one tree of four-inch caliper or more shall be planted for each 25 feet of the entire #street# frontage of the #zoning lot#, excluding the frontage occupied by driveways. The length of frontage of the #zoning lot# for the purpose of computing required #street# trees may also be reduced by 50 feet for each #street# intersection fronted by the #zoning lot#. The required trees shall be planted with gratings flush to grade in at least 200 cubic feet of soil per tree, with a depth of soil of at least 3 feet, 6 inches. Species shall be selected, located and maintained in accordance with the specifications established by the Department of Parks and the Department of Highways. If the Commissioner of Buildings determines that the tree planting requirements of this paragraph cannot be met in part or in whole because of subsurface conditions such as the presence of a subway tunnel, the number of required

#street# trees that cannot be planted as required in this paragraph shall be planted in the public sidewalk areas of #streets# on the same #block# as the #zoning lot# to which it has frontageE. Where an #urban plaza# is #developed#, such additional trees may be planted within the #urban plaza# in addition to the trees required in Section 37-043, paragraph (k). No trees shall be planted within a #sidewalk widening#.

(2)Trees within an #urban plaza# or #open air concourse#

Where trees are planted within an #urban plaza# or #open air concourse#, they shall measure at least four inches in caliper at the time of plantinG. Each tree shall be planted in at least 200 cubic feet of soil with a depth of soil of at least 3 feet, 6 inches. Any planting bed containing required plaza trees shall have a continuous area of at least 75 square feet for each tree exclusive of bounding walls and shall have bounding walls not higher than 20 inches above the adjacent walking surfacE. Trees shall be planted at a maximum spacing of 25 feet apart within a single planting beD.

(3)Planting within an #urban plaza# or #open air concourse#

When planting beds are provided, they shall have a soil depth of at least two feet for grass or other ground cover, three feet for shrubs and three feet, six inches for trees.

For #open air concourses#, additional planting requirements are set forth in Section 34-042, paragraph (f).

For #urban plazas#, additional planting and tree requirements are set forth in Section 34-043, paragraph (k).
(c)Paving

The paving of the #urban open space# shall be of non-skid durable materials that are decorative and compatible in color and pattern. The paving of the #street# sidewalk area adjacent to the #development# may be treated with design patterns and materials sympathetic to that of the paving of the #urban open space#. Any change of paving materials within the public right-of-way shall require review by the Department of Highways and the Art Commission.

(d)Standards of accessibility for persons with disabilities to #urban plazas# and #open air concourses#
(1)There shall be at least one path of travel conforming to the standards set forth in paragraph (d)(2) of this Section providing access to each of the following:

(i)the major portion of an #urban plaza# or #open air concourse#;

(ii)any building lobby accessible to the #urban plaza# or #open air concourse#; and

(iii)any #use# that may be present on or adjacent to the #urban plaza# or #open air concourse#.

(2)The following standards shall apply to assure access for persons with disabilities:

(i)Such paths shall have a minimum width of five feet, except where specific provisions require a greater width, free and clear of all obstructions.

(ii)Ramps shall be provided alongside any stairs or steps for such paths. Ramps shall have a minimum width of three feet, a slope of not greater than one in 12, a non-skid surface and, for open-edged ramps, a two-inch high safety curB. At each end of a ramp there shall be a level area, which may be a public sidewalk, at least five feet lonG. In an #open air concourse#, because elevator service shall be provided, no such ramps are required to connect the mezzanine portion with the #street# level portion.

(iii)All stairs or ramps within such paths shall provide handrails. Handrails shall be 34 inches high, have a midrail 22 inches high and shall extend at least 18 inches beyond the stair or ramp ends.

(iv)Where stairs are used to effect changes of grade for such paths, they shall have closed risers, no projecting nosings, a maximum riser height of seven and one-half inches and a minimum tread width of eleven inches.

Following graytoned text relocated from current Section 37-043(b).

(b)Locational restrictions

In other than C5-5 or C6-9 Districts, no #urban plaza#, or portion thereof, is permitted to occupy more than 33 percent of the frontage of the #zoning lot#, or portion thereof, within 175 feet of an existing #plaza#, #urban plaza#, #public park# or urban park that occupies more than 33 percent of its #block# frontage on the same or opposite side of the same #street# and has a depth of at least 12 feet. The distance of 175 feet shall be measured along the #street# on which the existing amenity fronts.

Following graytoned text relocated from current Section 37-043(c).

(c)Restrictions on orientation

In other than C5-5 or C6-9 Districts, the following restrictions shall apply to all #urban plazas#:

For purposes of the orientation requirements, a "north-facing," "south-facing," "east-facing" or "west-facing" #street line# means a #street line# facing within 27 degrees of the direction indicateD. "To front on a #street#" means to be contiguous to the #street line# or to a sidewalk widening along the #street line#.

(1)Where the major portion of an #urban plaza# fronts on only one #street line#, such major portion is not permitted to front on a north-facing #street line# of a #zoning lot#.

(2)No major portion of an #urban plaza# shall only front on a west-facing #street line# or an east-facing #street line# if the #zoning lot# also has frontage that is 40 feet or more in length on a south-facing #street line#.

(3)An #urban plaza# that is located on an intersection of two #streets# must have its major portion, as defined in paragraph (d)(2) of this Section, front on the south-facing #street line#. In the case of a #zoning lot# having frontage on a south-facing #street line# of less than 40 feet, or having its frontage at the intersection of a north-facing #street line# with either an east- or west-facing #street line#, the major portion must front on the east- or west-facing #street line#.

Following graytoned text modified and relocated from current Sections 37-043(d) and (e).

(d)Requirements for major portions of #urban plazas#

(1)All contiguous #urban plaza# areas on a #zoning lot# shall be considered as one #urban plaza#.

(2)The shape and dimensions of an #urban plaza# shall be such that for a major portion of the #urban plaza#, comprising at least the percentage of total area specified herein, all points within such major portion shall be visible from all other points therein. For the purposes of this regulation, points that when viewed in plan may be joined by a straight line shall be considered visible one from the other; visibility between points shall not be affected by permitted obstructions or by changes of gradE.

The major portion of an #urban plaza# shall be at least 70 percent of the #urban plaza's# total area, except that in the case of a through #block urban plaza# as defined in paragraph (e) of this Section, the major portion shall be at least 50 percent of such #urban plaza's# total areA. The major portion of the #urban plaza# shall be subject to the proportional requirements set forth in paragraphs (d)(4) and (d)(5) of this Section.

(3)The major portion of an #urban plaza# shall have a minimum dimension of 40 feet. The remaining portion of such #urban plaza# shall have a minimum dimension of 20 feet. Dimensions shall be measured parallel and perpendicular to the #street line# on which the #urban plaza# fronts.

(4)For major portions of #urban plazas# with frontage on two or more intersecting #streets#, the length of the frontage along any one #street# shall not be greater than three times the average depth of the #urban plaza# measured perpendicular to the #street line# of said #street# from the building wall that faces it.

(5)For major portions of #urban plazas# with frontage on only one #street#, at no point shall the depth from the building wall or rear #lot line# that faces the #street# to the #street line# be less than one-third nor more than three times the length of the frontage of the major portion along such #street line#.

Following graytoned text relocated from current Section 37-043(f).

(e)Regulations for through #block urban plazas#

Where an #urban plaza# or portion of an #urban plaza# extends through the #block# connecting two #streets# that are parallel or within 45 degrees of being parallel to each other, and any building wall or walls adjoin such through #block urban plaza# or through #block# portion of an #urban plaza#, no more than 120 feet aggregate length of such walls within 50 feet of the opposite side of the through #block urban plaza# shall exceed 90 feet in height from the surface of the #urban plaza#. In addition to the 20 feet minimum width requirement described in paragraph (d)(3) of this Section, such a through #block urban plaza# shall maintain a straight path at least 15 feet in width, free of any obstructions from #street line# to #street line#.

Following graytoned text relocated from current Section 37-043(g).

(f) Circulation and access

(1) To facilitate access to an #urban plaza#, within 10 feet of a #street line# or sidewalk widening, along at least 50 percent of each #street# frontage of the major portion and the entire #street# frontage of the remaining portion of an #urban plaza#, the surface of the #urban plaza# shall be at the same elevation as the adjoining public sidewalk. Along at least 50 percent of each #street# frontage of the major portion and at least 50 percent of each #street# frontage of the remaining portion of an #urban plaza#, for a depth of at least 20 feet from the #street line#, there shall be no obstruction to public access to the #urban plaza# from a sidewalk or sidewalk wideninG. For the remaining 50 percent of the frontage and within 20 feet of the #street line#, no walls or other obstructions shall be higher than three feet above the #curb level# of the #street line# in front of the #urban plaza#. However, the City Planning Commission may permit, by authorization, certain obstructions such as light stanchions, flag poles, trash receptacles, public space signage or other features to be located in the #urban plaza# within 20 feet of the #street line#, provided that the Commission finds that:

(i)such obstructions are desirable or necessary features for the public enjoyment of the #urban plaza#; and

(ii)sufficient public access additional to the minimum required under the provisions of this paragraph (Circulation and access) is provided to offset any adverse impact on public circulation or access caused by the obstructions or features permitted by such authorization.

The Commission shall furnish a copy of the application for such authorization to the affected Community Board and the local Council Member at the earliest possible stage and will give due consideration to their opinions as to the appropriateness of such obstructions. If the Community Board or local Council Member elects to comment on such application, it must be done within 45 days of such application.

(2)The level of an #urban plaza# shall not at any point be more than three feet above or below the #curb level# of the nearest adjoining #street# in front of the major portion of the #urban plaza#; however, an #urban plaza# with an area of 10,000 square feet or more may additionally have a maximum of 15 percent of its area at an elevation more than three feet above or below, but not more than five feet above or below #curb level# of the nearest adjoining #street# in front of the major portion of the #urban plaza#.

(3)Where there is a grade change of at least 2. 25 feet in 100 feet along a portion of a #street# fronted upon, for a distance of at least 75 feet, by an #urban plaza# with an area of 10,000 square feet or more, the level of such #urban plaza# may be at any elevation that is not more than five feet above or below the #curb level# of the nearest adjoining #street# in front of the #urban plaza#. Along the length of frontage not required for access, no wall higher than three feet above the level of the adjoining sidewalk may be constructeD.

(4)For areas of #urban plazas# not obstructed by permitted obstructions as set forth in paragraph (f)(1) of this Section, a circulation path shall be provided of at least five feet clear widtH. A major public path at least eight feet in width shall extend to at least 75 percent of the depth of the major portion of the #urban plaza#, measured from the #street line#.

(5)Where an entry to a subway station exists in the sidewalk area of a #street# on which an #urban plaza# fronts and such entry is not replaced within the #urban plaza# itself, the #urban plaza# shall be #developed# at the same elevation as the adjacent sidewalk for a distance of at least 15 feet in all directions from the entry superstructurE. Such #urban plaza# area around a subway entry shall be free of all obstructions.

(6)Where an entry to a subway station is provided within the #urban plaza# itself, stairs shall have a minimum width of 10 feet.

(***eg***) Permitted obstructions

The provisions of paragraph (e) of this Section shall not apply to #sidewalk widenings#.

(1) #Urban ***open spaces*plazas#** shall be unobstructed from their lowest level to the sky except for the following features, equipment and appurtenances normally found in #public parks# and playgrounds: fountains and reflecting pools; waterfalls; sculptures and other works of art; benches; seats; trees planted at grade or in planting beds; bushes and flowers in planters or in planting beds; arbors or trellises over public seating areas; litter receptacles; bicycle racks; outdoor furniture; lights and lighting stanchions; flag poles; public telephones; public toilets; temporary exhibitions; awnings or canopies over the entrances to retail stores fronting on the #urban ***open space*plaza#**; bollards; subway station entrances, which may include escalators; and drinking fountains. If drinking fountains are provided, at least one fountain shall be accessible to wheelchair users by being 30 inches high, hand-and-foot operated, and display the International Symbol of Access. **In addition to the obstructions listed in this paragraph, #urban plazas# having an area of 10,000 square feet or more may include an open air amphitheater or an outdoor ice skating rink. However, an area occupied in aggregate by such permitted obstruction shall not exceed the maximum percentage [illegible] in paragraph (g)(2) of this Sec.** Graytoned text relocated from curr[illegible] Section 37-043(h)(1).

(2) Permitted obstructions may occupy a maximum percentage of the area of an ***#open air concourse# as set forth in paragraph (e) of Section 37-042, and an*** #urban plaza#, as **follows: set forth in paragraph (h) of Section 37-043.**

Following graytoned text relocated from current Section 37-043(h)(2).
For #urban plazas# less than 5,000 square feet in area: 38 percent

For #urban plazas# at least 5,000 square feet in area
and less than 10,000 square feet in area: 40 percent
For #urban plazas# 10,000 square feet or more in area: 50 percent

The area of permitted obstructions shall be measured by outside dimensions. Obstructions that are non-permanent or movable, such as movable chairs, open air cafes, or temporary exhibitions shall be confined within gross areas designated on the site plan, and not measured as individual pieces of furniturE.

(3)Trees do not count as obstructions for the purpose of calculating total area occupied by permitted obstructions. Planting beds and their retaining walls for trees count as obstructions.
(***43***) Kiosks and open air cafes may be placed within an #urban ***open space* plaza#** upon certification, pursuant to paragraph (***eg***)(6) of this Section. Such features shall be treated as permitted obstructions for the purposes of paragraph (***eh***) of this Section.

Where a kiosk is provided, it shall be a one-story structure, predominantly of light-colored materials, such as metal, glass, plastic or fabric as approved by the Department of Buildings in conformance with the Building Code, that, including roofed areas, does not occupy an area in excess of 150 square feet, except that where the #urban ***open space*plaza#** has an area of less than 5,000 square feet, the aggregate area of the kiosks shall not exceed 100 square feet measured by exterior dimensions. The aggregate area occupied by kiosks in an #urban ***open space*plaza#** larger than 5,000 square feet shall not exceed 150 square feet or 1.5 percent of the total area of the #urban ***open space*plaza#**, whichever is greater, provided no one kiosk occupies an area of more than 150 square feet. A kiosk may be freestanding or may be attached on only one side to a wall of the #building# of the #development# or a #building# on the adjacent #zoning lot#. Any area occupied by a kiosk shall be excluded from the definition of #floor area#, and may be occupied by #uses# such as news or magazine stands, candy stands, flower stands or information booths.

Where an open air cafe is provided, it shall occupy an aggregate area not more than 20 percent of the total area of the #urban ***open space*plaza#**. It shall be a permanently unenclosed restaurant or eating or drinking place, permitted by applicable district regulations, which may have waiter or table service, and shall be open to the sky except that it may have a temporary fabric roof in conformance with the Building CodE. An open air cafe must be accessible from all sides where there is a boundary with the remainder of the #urban ***open space*plaza#**. No kitchen equipment shall be installed within an open air cafe,**;** however, kitchen equipment may be contained in a kiosk adjoining an open air cafE. An open air cafe qualifying as a permitted obstruction shall be excluded from the definition of #floor area#.

Notwithstanding the provisions of Section 32-41 (Enclosure Within Buildings), outdoor eating services or #uses# occupying kiosks may serve customers in an #urban ***open space*plaza#** through open windows. In all cases, only #uses# permitted by the applicable district regulations may occupy #urban ***open spaces*plazas#** or front on #urban ***open spaces*plazas#**.

(***54***) Open air amphitheaters and open air ice skating rinks that charge admission may be placed within an #urban ***open space*plaza#** upon certification pursuant to paragraph (***eh***)(***65***) of this Section. Such features shall be treated as permitted obstructions for the purposes of **this** paragraph, ***(e) of this Section*(Permitted obstructions)**.

(***65***) Kiosks and open air cafes that comply with the provisions of paragraph (***eh***)(***43***) of this Section, and open air amphitheaters or open air ice skating rinks ***which* that** charge admission may be placed within the area of an #urban ***open space*plaza#** upon

certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings, that:

(i) such #use# promotes public use and enjoyment of the #urban ***open space*****plaza#**;

(ii)such #use# complements and stabilizes desirable #uses# in the surrounding area;

(iii) such #use# is provided in accordance with the requirements set forth in this Section; and

(iv) the owners of such #use# will maintain such #use# in accordance with the provisions of paragraph (k) (Maintenance) of this Section.

All applications for the placement of kiosks, open air cafes, open air amphitheaters or open air ice skating rinks ***which*** **that** charge admission within an #urban ***open space*****plaza#** filed with the Commission shall include a detailed site plan or plans indicating compliance with the provisions of this Section. All such plans for kiosks, open air cafes, open air amphitheaters or open air ice skating rinks ***which*** **that** charge admission, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification for the kiosk, open air cafe, open air amphitheater, or open air ice skating rink ***which*** **that** charges admission, pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the placement of the kiosk, open air cafe, open air amphitheater or open air ice skating rink ***which*** **that** charges admission within the #urban ***open space*****plaza#**. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording datE.
(6) An application for certification shall be filed with the Chairperson of the City Planning Commission, and the Chairperson shall furnish a copy of the application for such certification to the affected Community Board at the earliest possible stagE. The Chairperson will give due consideration to the Community Board's opinion as to the appropriateness of such a facility in the area and shall respond to such application for certification within 60 days of the application's receipt.

The Chairperson shall file any such certification with the City Council. The Council, within 20 days of such filing, may resolve by majority vote to review such certification. If the Council so resolves, within 50 days of the filing of the Chairperson's certification, the Council shall hold a public hearing and may approve or disapprove such certification. If, within the time periods provided for in this Section, the Council fails to act on the Chairperson's certification, the Council shall be deemed to have approved such certification.

Such certification shall be effective for a period of three years but, upon application, may be renewed for a similar period by the Chairperson of the City Planning Commission.

(***f*****h**)Prohibition of driveways, parking spaces, loading berths, exhaust vents and building trash storage facilities

(1) No **driveways,** parking spaces, passenger dropoffs or loading berths ***are*****shall be** permitted **within an #urban plaza#**. ***Furthermore, driveways are prohibited within #urban plazas# and #open air concourses#, and are permitted within a #sidewalk widening# only in accordance with the provisions of Section 37-042. (2)*** No building trash storage facilities are permitted **within an #urban plaza#, nor shall any building trash storage facility be accessed or serviced through the #urban plaza#. If parking spaces, passenger drop-offs, driveways, loading berths or building trash storage facilities are located near or adjoin an #urban plaza#, they shall be separated from it by a building wall or planted area sufficient to visually conceal these facilities and any vehicles therein from any point in the #urban plaza#.**

(3) No exhaust vents are permitted on any #urban open space# or on the building wall of the #development# fronting upon the #urban open space# except where such vents on the building wall are more than 8 feet 6 inches above the level of the #urban open space#.

For #urban plazas#, additional prohibitions are set forth in Section 37-043, paragraph (i).

Following graytoned text relocated from current Section 37-043(j).

(i) Seating
There shall be a minimum of one linear foot of seating for each 30 square feet of #urban plaza# area, except that for #urban plazas# fronting upon a #street# having a grade change of at least 2. 25 feet in 100 feet or for through #block urban plazas#, there shall be a minimum of one linear foot of seating for each 40 square feet of #urban plaza# areA.

Not more than 50 percent of the linear seating capacity may be in movable seats that may be stored between the hours of sunset and sunrisE.

The following standards shall be met for all required seating:

(1) Seating shall have a minimum depth of 16 inches; however, seating with backs shall have a minimum depth of 14 inches and a maximum depth of 22 inches and backs shall be at least 12 inches higH. Seating 30 inches or more in depth shall count double, provided there is access to both sides.

(2) At least 75 percent of the required seating shall have a height not less than 16 inches nor greater than 20 inches above the level of the adjacent walking surface and at least 50 percent of this seating shall have backs at least 12 inches higH. Seating higher than 36 inches or lower than 12 inches above the level of the adjacent walking surface shall not count towards meeting the seating requirements.

(3) The flat tops of walls including but not limited to those that bound planting beds, fountains and pools may be counted as seating when they conform to the dimensional standards in paragraphs (f)(1) and (f)(2) of this Section, provided that they are made of stone, concrete or similar composite material, wood or plastic with a smooth surface and rounded upper edges with a radius of at least one inch to ensure seating comfort.

(4) Movable seating or chairs, excluding seating for open air cafes, may be credited as 18 inches of linear seating per chair.

(5) Steps, seats in outdoor amphitheaters and seating of open air cafes do not count towards meeting the seating requirement.

(6) Seating for any #use# within an #urban plaza# is subject to applicable articles and amendments of the New York City Building CodE.

(7) For the benefit of persons with disabilities, a minimum of five percent of the required seating shall have backs.

Following graytoned text relocated from current Section 37-043(k).

(j)Planting and trees

For an #urban plaza# not exceeding 2,000 square feet in area, four trees are requireD.

For an #urban plaza# greater than 2,000 square feet in area, ***but not exceeding 6,000 square feet in area, one tree is required for every 600 square feet, or part thereof, of #urban plaza# areA.***

For an #urban plaza# greater than 6,000 square feet in area, one tree is required for every 600 square feet, or part thereof, of #urban plaza# area for the first 6,000 square feet of area and one additional tree is required for every 1,000 square feet, or part thereof, of the remaining #urban plaza# areA.

For all #urban plazas#, at least 50 percent of the required plaza trees shall be planted with gratings flush to gradE.

Following graytoned text relocated from current paragraphs (b)(2), (b)(3) and (b)(1), respectively, within this Section.

Where trees are planted within an #urban plaza#, they shall measure at least four inches in caliper at the time of plantinG. Each tree shall be planted in at least 200 cubic feet of soil with a depth of soil of at least 3 feet, 6 inches. Any planting bed containing required plaza trees shall have a continuous area of at least 75 square feet for each tree exclusive of bounding walls and shall have bounding walls not higher than 20 inches above the adjacent walking surfacE. Trees shall be planted at a maximum spacing of 25 feet within a single planting beD.

When planting beds are provided, they shall have a soil depth of at least two feet for grass or other ground cover, three feet for shrubs and 3 feet, 6 inches for trees.

#Street# trees are required to be planted in the public sidewalk area adjacent to a #zoning lot# that contains bonus #floor area# for #urban plazas#. At least one tree of four-inch caliper or more shall be planted for each 25 feet of the entire #street# frontage of the #zoning lot#, excluding the frontage occupied by driveways. The length of frontage of the #zoning lot# for the purpose of computing required #street# trees may also be reduced by 50 feet for each #street# intersection fronted by the #zoning lot#. The required trees shall be planted with gratings flush to grade in at least 200 cubic feet of soil per tree, with a depth of soil of at least 3 feet, 6 inches. Species shall be selected, located and maintained in accordance with the specifications established by the Department of Parks and the Department of Highways. If the Commissioner of Buildings determines that the tree planting requirements of this paragraph cannot be met in part or in whole because of subsurface conditions such as the presence of a subway tunnel, the number of required #street# trees that cannot be planted as required in this paragraph shall be planted in the public sidewalk areas of #streets# on the same #block# as the #zoning lot# to which it has frontage or within the #urban plaza#.

Following graytoned text relocated from current paragraph (j) of this Section and current Section 37-043(l) and mergeD.

(k)Mandatory allocation of frontages for permitted #uses#

At least 50 percent of the total frontage of building walls of the #development# fronting on an #urban plaza#, or fronting on an #arcade# adjoining an #urban plaza#, exclusive of such frontage occupied by vertical circulation elements, building lobbies and frontage used for subway access, shall be allocated for occupancy by retail or service establishments permitted by the applicable district regulations. In addition, libraries, museums and art galleries shall be permitteD. All such #uses# shall be directly accessible from the major portion of the #urban plaza# or adjoining arcadE.

The remaining frontage may be occupied by other #uses#, lobby entrances or vertical circulation elements, in accordance with the district regulations.

Frontage on the #urban plaza# that is occupied by a building lobby shall not exceed 75 feet or 40 percent of the total frontage of the #development's# building walls on the major portion of the #urban plaza#, whichever is less.

The building frontage on the major portion of the #urban plaza# shall be treated with clear, untinted transparent material for 50 percent of its surface area below 14 feet above the #urban plaza# level, or the ceiling level of the ground floor of the #building#, whichever is lower.

Following graytoned text relocated from paragraph (c) of this Section.

(l) Paving

The paving of the #urban plaza# shall be of non-skid durable materials that are decorative and compatible in color and pattern. The paving of the #street# sidewalk area adjacent to the #development# may be treated with design patterns and materials sympathetic to that of the paving of the #urban plaza#. Any change of paving materials within the public right-of-way shall require review by the Department of Highways and the Art Commission.

Following graytoned text relocated from paragraph (d) of this Section and modifieD.

(m) Standards of accessibility for persons with disabilities to #urban plazas#

(1) There shall be at least one path of travel conforming to the standards set forth in paragraph (m)(2) of this Section, providing access to each of the following:

(i)the major portion of an #urban plaza#;
(ii)any building lobby accessible to the #urban plaza#; and

(iii)any #use# that may be present on or adjacent to the #urban plaza#.

(2)The following standards shall apply to assure access for persons with disabilities:

(i)Such paths shall have a minimum width of five feet, except where specific provisions require a greater width, free and clear of all obstructions.

(ii) Ramps shall be provided alongside any stairs or steps for such paths. Ramps shall have a minimum width of three feet, a slope of not greater than 1:12, a non-skid surface and, for open-edged ramps, a two-inch high safety curB. At each end of a ramp there shall be a level area, which may be a public sidewalk, at least five feet lonG.

(iii) All stairs or ramps within such paths shall provide handrails. Handrails shall be 34 inches high, have a midrail 22 inches high and shall extend at least 18 inches beyond the stair or ramp ends.

(iv) Where stairs are used to effect changes of grade for such paths, they shall have closed risers, no projecting nosings, a maximum riser height of seven and one-half inches and a minimum tread width of eleven inches.

(***gn***) Lighting and electrical power

#Urban ***open spaces*****plazas#** shall be illuminated with a minimum level of illumination of not less than two horizontal foot candles (lumens per foot) throughout all walkable and sitting areas and a minimum level of illumination of not less than 0.5 horizontal foot candles (lumens per foot) throughout all other areas. Such level of illumination shall be maintained from sunset to sunrisE. A lighting schedule, including fixtures, wattage and their locations and designs together with a diagram of light level distribution shall be part of the required detail design plans as set forth in this Section. Electrical power shall be supplied by one or more outlets furnishing a total of at least 1,200 watts of power for every 4,000 square feet, or fraction thereof, of the area of an #urban ***open space*****plaza#., except for a #sidewalk widening#.**

(***ho***) Public space signage systems

The following public space signage systems shall be required for all ***#open air concourses# and*** #urban plazas#:

(1) Entry plaque

The entry plaque shall be located at each #street# frontage or point of pedestrian entry to the #open air concourse# or #urban plaza#. A maximum of two entry plaques may be provideD. The entry plaque shall contain:

(i)a public space symbol which is at least 14 inches square in dimension; has a white background; has a grid of four (4) straight lines no greater than one-eighth inch wide and green in color; and has a tree-shaped symbol as shown;

(Illustration – tree symbol)

(ii) lettering at least two inches in height stating "OPEN TO PUBLIC"." This lettering shall be located within nine inches of the public space symbol; and

(iii) an International Symbol of Access for persons with disabilities that is at least three inches squarE.

The entry plaque shall be mounted on a wall or a permanent free-standing post with its center five feet above the elevation of the nearest walkable pavement. It shall be in a position that clearly identifies the entry into the ***#open air concourse# or*** #urban plaza#, and placed so that the entire entry plaque is obvious and directly visible, without any obstruction, along every line of sight from all paths of pedestrian access to the ***#open air concourse# or*** #urban plaza#.

(2) Information plaque

An information plaque, with a surface area of not less than two feet square, constructed from the same permanent materials as the entry plaque and located within the most frequently used area of the ***#open air concourse# or*** #urban plaza#, with clear lettering consisting of:

(i) the type and quantity of trees, movable seating, **and** permanent artwork;

(ii)the name of the current owner of the building and the name, address and phone number of the person designated to maintain the ***#open air concourse# or*** #urban plaza# between the hours of 9:00 A. m. and 5:00 p.m.;

(iii) the statement, "Complaints regarding this urban ***open space*****plaza** may be addressed to the Department of City Planning or the Department of Buildings of the City of New York"; and

(iv) the statement, "This urban ***open space***plaza is accessible to persons with disabilities."

(***ip***)#Signs#

An #urban ***open space*****plaza#** shall be treated as a #street# for the purposes of the applicable #sign# regulations. #Signs#, except for the plaque required by paragraph (***ho***) of this Section, are permitted only as #accessory# to #uses# permitted within the #urban ***open space*****plaza#** and #uses# adjoining the #urban ***open space*****plaza#**, and are otherwise regulated by the applicable district regulations set forth in Section 32-60 (SIGN REGULATIONS).

(j)Mandatory allocation of frontages for permitted #uses#

At least 50 percent of the total frontage of building walls of the #development# fronting on an #urban open space#, or fronting on an #arcade# adjoining an #urban open space#, exclusive of such frontage occupied by vertical circulation elements, building lobbies and frontage used for subway access, shall be allocated for occupancy by retail or service establishments permitted by the applicable district regulations. In addition, libraries, museums and art galleries shall be permitteD.

All such #uses# shall be directly accessible from the #urban open space# or adjoining #arcade#. The remaining frontage may be occupied by other #uses#, lobby entrances or vertical circulation elements, in accordance with the district regulations.

For #urban plazas#, additional requirements are set forth in Section 37-043, paragraph (l).

For #open air concourses#, the provisions of this Section, paragraph (j), shall apply to both the mezzanine portion and the #street# level portion.

For #sidewalk widenings# , the provisions of this Section, paragraph (j), shall not apply along any #narrow street# frontagE.

(***kq***)Maintenance

(1) The building owner shall be responsible for the maintenance of the #urban ***open space*****plaza#** including, but not limited to, the confinement of permitted obstructions, litter control, and the care and replacement of vegetation within the #zoning lot# and in the #street# sidewalk area adjacent to the #zoning lot#.

(2) Litter receptacles shall be provided with a minimum capacity of one cubic foot for each 2,000 square feet of #urban ***open space*****plaza#** area excluding the area of any #sidewalk widening# . An additional capacity of one cubic foot of litter receptacle shall be provided for each 2,000 square feet of #urban ***open space*** **plaza#** area in connection with outdoor eating services or

other #uses# permitted within #urban ***open spaces*plazas#** that generate litter.

(3) ***#Urban open space uses#, specified in paragraph (e)(2)* Kiosks, open air cafes, open air amphitheaters and open air ice skating rinks permitted in accordance with the provisions** of this Section, shall be confined within areas designated on building plans as available for occupancy by such #uses#. Encroachment by an #urban ***open space*plaza** use# outside an area so designated shall be a valid ground for complaint and removal.

(4) Performance bond

Prior to obtaining any certificate of occupancy from the Department of Buildings, the building owner shall post with the Comptroller of the City of New York, a performance bond, City securities or fixed income securities, at the Comptroller's discretion, to ensure the mandatory tree planting, movable seating exclusive of any seating for open air cafes, and the litter-free maintenance of the #urban ***open space*plaza#** including the replacement of such trees and movable furniture during the life of the #development#.

In the event of a failure in the required performance, the Chairperson of the City Planning Commission shall notify the building owner in writing of such failure and shall stipulate the period of time in which the building owner has to correct the failurE. If the failure is not corrected in the stipulated time, the Chairperson may declare the building owner in default in the required performance and the City may enforce the obligation by whatever means may be appropriate to the situation, including letting contracts for doing any required planting, installation or maintenance and paying all labor, material and other costs connected with such work from the bond or City securities that the building owner is required to providE.

In the event that the City enforces the aforementioned obligation as provided for in **this** paragraph ***(k)(4) of this Section*(Performance bond)**, the building owner shall, within 90 days of such enforcement, provide the City with an additional bond or City securities in an amount not less than that which was expended to cure the default.

The value of the bond or City securities if tendered prior to January 1, 19***89*98**, shall be at a rate of $750 per required tree, $100 per movable chair and $200 per 1,000 square feet of #urban ***open space*plaza#** for litter removal as set forth in this Section.

Effective January 1, 1989, and at five year intervals thereafter, the City Planning Commission shall establish new rates for the mandatory tree planting, movable seating and litter-free maintenance of the #urban open space#.

(***lr***)Penalties for violations

Failure to comply with the conditions or restrictions of the bonused #urban open space# shall constitute a violation of this Resolution and shall constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

Following graytoned text relocated from the second and third paragraphs of this Section.

No foundation permit shall be issued by the Department of Buildings for any #development# that includes an #urban plaza# without certification by the Chairperson of the City Planning Commission that a site plan has been submitted indicating compliance with the provisions of this Section. An application for such certification shall be filed with the Chairperson showing the plan of the #zoning lot#; a site plan indicating the area and dimensions of the proposed #urban plaza# and the location of the proposed #development# or #enlargement# and all existing #buildings# temporarily or permanently occupying the #zoning lot#; computations of proposed #floor area#, including bonus #floor area#; and a detailed plan or plans demonstrating compliance with the provisions of this Section.

All plans for #urban plazas#, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification of the #urban plaza# pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the filing for or issuance of any building permit for any #development# or #enlargement# on the #zoning lot#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording datE.

The following new text consolidates pedestrian circulation space requirements applicable to both Midtown and Lower Manhattan and other areas where they may be requireD. The text is a modified version of current sections in Midtown: 81-45 (Provision of Pedestrian Circulation Space),81-451 (Design standards for pedestrian circulation spaces), 81-452 (Bonused amenities qualifying as pedestrian circulation spaces), 81-46 (Through Block Connection), 81-461 (Locational standards), 81-462 (Design standards for a through block connection), etC.

37-07
Requirements for Pedestrian Circulation Space

All pedestrian circulation space required pursuant to the provisions of any special purpose district shall comply with the provisions of this Section, as such may be modified by the terms of the special district.

Sections 37-071 and 37-072 have been adapted from Section 81-45 (Provision of Pedestrian Circulation Space) which has been deleteD. No new requirements have been addeD.

37-071
Amount of pedestrian circulation space

The minimum amount of pedestrian circulation space to be provided for #developments# or #enlargements# shall be determined by the following table:

MINIMUM PEDESTRIAN CIRCULATION SPACE REQUIREMENTS

Size of #zoning lot# Required #floor area#

5,000 to 20,000 square feet 1 square foot per 350 square feet of new #floor area#

Above 20,000 square feet 1 square foot per 300 square feet of new #floor area#

37-072
Types of pedestrian circulation space

The pedestrian circulation space provided shall be of one or more of the following types: an arcade, building entrance recess area, corner arcade, corner circulation space, relocation or renovation of a subway stair, sidewalk widening, subway station improvement, through #block# connection or #urban plaza#.

Each #zoning lot# shall be categorized as either a #corner lot#, #through lot# or #interior lot#, and pedestrian circulation space shall be provided on each #zoning lot# in at least one of the applicable types, or combinations of types, specified in the following table:

PROVISION OF PEDESTRIAN CIRCULATION SPACE ON CERTAIN TYPES OF LOTS
Type of Pedestrian Circulation Space
#Corner lot# #Through lot##Interior lot #Arcade XX X Building entrance recess area XX X Corner arcade X Corner circulation space X Relocation or renovation of subway stair XX X Sidewalk widening XX X Subway station improvement XX X Through #block# connection XX #Urban plaza# XX X
Minimum design standards for each type of pedestrian circulation space and, where applicable, the maximum amount of each type of pedestrian circulation space that may be counted towards meeting the requirements of Section 37-071 (Amount of pedestrian circulation space) are set forth in Section 37-073 (Design standards for pedestrian circulation spaces).

Section 37-073 has been adapted from Section 81-451 (Design standards for pedestrian circulation space) which has been deleteD. No new requirements have been addeD.
37-073
Design standards for pedestrian circulation spaces

(a) Arcade

Arcades shall not be subject to the provisions of Sections 12-10 (DEFINITIONS) and 27-60 (ARCADES). In lieu thereof, the provisions of this Section shall apply.

An arcade is a continuous covered space that adjoins and extends along a #front lot line#, is at the same elevation as the adjoining sidewalk, is open for its entire length to the sidewalk except for columns and is accessible to the public at all times. An arcade shall be provided on the #wide street# frontage of a #zoning lot# of a new #development# or #enlargement# where the #zoning lot# lies directly adjacent to an existing arcade on a #wide street#, except where an existing #building# without an arcade extends along a portion of the #wide street front lot line# of the #zoning lot# containing the new #development# or #enlargement#.

Where an arcade abuts another arcade, there shall be a clear, unobstructed passage between both arcades.

An arcade shall meet the following requirements:

(1)Dimensions

An arcade with columns shall have a minimum clear width of 10 feet, exclusive of all columns, and a maximum width of 15 feet, inclusive of columns. No column width shall be greater than five feet. Columns shall be spaced along the #street# with a minimum clear width between columns of 15 feet. An arcade shall have a clear height of not less than 12 feet and not more than 30 feet.

(i) On an #interior lot# or a #through lot# fronting on a #narrow street#, an arcade without columns is permitted only if:

(a) it has a continuous, unobstructed minimum length of 100 feet or, with the exception of the width of driveways for the required loading berths located at the #side lot line# of the #zoning lot#, is unobstructed for the full length of the new #building# frontage, whichever is greater; and

(b) the entire #front lot line# shall be unobstructed for the same depth of the arcade, except for that portion of the #front lot line# occupied by an existing #building#.

(ii) On an #interior lot# or a #through lot# fronting on a #narrow street#, an arcade with columns is permitted only if it connects directly to an existing arcade on an adjacent #zoning lot#, matching it in width and alignment and has a continuous, unobstructed minimum length beyond the existing adjacent arcade of at least 100 feet or, with the exception of the width of driveways for the required loading berths located at the #side lot line# of the #zoning lot#, is unobstructed for the full length of the new #building# frontage, whichever is greater.

(iii) On a #corner lot# fronting on a #narrow street#, an arcade is permitted only if it extends for the full length of the #street# frontage, with the exception of a driveway for a required loading berth located at the #side lot line# of the #zoning lot#, or if the arcade provides unobstructed pedestrian flow along such entire frontage in combination with one or more of the following other spaces with which it connects at one or both ends: a corner arcade, a #plaza#, an off-street rail mass transit access improvement, an intersecting sidewalk widening, an intersecting #street#, a relocated or renovated subway entrance, a through #block# connection, a through #block# galleria or an #urban plaza#.

(iv) On a #wide street#, an arcade shall be permitted, provided that:

(a) the arcade extends along the full length of the #street line# between intersecting #streets#; or

(b) in the case of a #building# that occupies less than the entire #street# frontage between intersecting #streets#, on a full blockfront #zoning lot#, unobstructed pedestrian flow along the entire frontage is provided on the #zoning lot# by the arcade in combination with one or more of the following #open spaces# with which the arcade connects at one or both ends: a corner circulation space, a #plaza#, an intersecting sidewalk widening or an #urban plaza#; or

(c)in the case of a #building# whose #zoning lot# occupies less than the entire #street# frontage between intersecting #streets#, the arcade connects with an existing arcade of matching width and alignment, a #plaza# or an #urban plaza# on an adjacent #zoning lot#, so that unobstructed pedestrian flow along the entire blockfront is provided by the arcade in combination with such existing spaces.

(2) Full blockfront arcade

When a #zoning lot# occupies a full blockfront, both ends of the arcade on that #street# frontage shall be open and accessible directly from the sidewalk of the intersecting #street# or any other qualifying pedestrian circulation spacE.

(3)Permitted obstructions

Except for building columns, an arcade shall be free from obstructions of any kinD.

(4)Specific prohibitions

No vehicular driveways, except as permitted under paragraph (a)(1) (Dimensions) of this Section, parking spaces, passenger drop-offs, loading berths or trash storage facilities are permitted within an arcade, nor shall such facilities be permitted immediately adjacent to an arcadE.

(5)Illumination

All existing and new arcades shall maintain a minimum level of illumination of not less than five horizontal foot candles between sunset and sunrisE.

(b)Building entrance recess area

A building entrance recess area is a space that adjoins and is open to a sidewalk or sidewalk widening for its entire length and provides unobstructed access to the building's lobby entrance or to the entrance to a ground floor #use#.

A building entrance recess area shall meet the following requirements:

(1) Dimensions
A building entrance recess area shall have a minimum length of 15 feet and a maximum length of 50 feet measured parallel to the #street line# at a building's lobby entrance and a maximum length of 30 feet parallel to the #street line# at a ground floor #use# entrancE. It shall have a maximum depth of 15 feet measured from the #street line# and shall have a minimum depth of 10 feet measured from the #street line#.

(2) Obstructions

Any portion of a building entrance recess area under an overhanging portion of the #building# shall have a minimum clear height of 15 feet. It shall be free of obstructions except for building columns, between any two of which there shall be a clear space of at least 15 feet measured parallel to the #street line#. Between a building column and a wall of the #building#, there shall be a clear path at least five feet in widtH.

(3)Permitted overlap

A building entrance recess area may overlap with an arcade, a corner arcade, a corner circulation space or a sidewalk widening, and may adjoin or overlap and connect directly without obstruction to another building entrance recess area except that, on any one #street# frontage, each lobby or ground floor #use# shall connect to only one building entrance recess areA.

(c) Corner arcade

A corner arcade shall not be subject to the provisions of Sections 12-10 (DEFINITIONS) and 27-60 (ARCADES). In lieu thereof, a corner arcade shall be a small covered space adjoining the intersection of two #streets# at the same elevation as the adjoining sidewalk or sidewalk widening and directly accessible to the public at all times.

A corner arcade shall meet the following requirements:

(1)Dimensions

(i) a corner arcade shall have a minimum area of 200 square feet, a minimum depth of 15 feet measured along a line bisecting the angle of intersecting #street lines#, and shall extend along both #street lines# for at least 15 feet but not more than 40 feet from the intersection of the two #street lines#; and

(ii) the height of a corner arcade shall be not less than 12 feet and a clear path at least 12 feet wide shall be provided from one #street line# to another #street line#.
(2)Permitted obstructions

Except for building columns, a corner arcade shall be free from obstructions of any kinD.

(3) Specific prohibitions

The specific prohibitions pertaining to an arcade as described in paragraph (a)(4) of this Section shall also be applicable to a corner arcadE.

(4)Permitted overlap

A corner arcade may overlap with an arcade; however, the area of overlap may only be counted once toward the fulfillment of the required minimum area of pedestrian circulation spacE.

(d) Corner circulation space

A corner circulation space is a small #open space# on the #zoning lot# of a #development# or #enlargement#, adjoining the intersection of two #streets#, at the same elevation as the adjoining sidewalk or sidewalk widening and directly accessible to the public at all times.

A corner circulation space shall meet the following requirements:

(1) Dimensions

A corner circulation space shall have the same minimum dimensions as a corner arcade, as described in paragraph (c)(1) of this Section.

(2)Obstructions

A corner circulation space shall be completely open to the sky from its lowest level, except for temporary elements of weather protection, such as awnings or canopies, provided that the total area of such elements does not exceed 20 percent of the area of the corner circulation space and that such elements and any attachments thereto are at least eight feet above #curb level#. A corner circulation space shall be clear of all other obstructions including, without limitation, door swings, building columns, #street# trees, planters, vehicle storage, parking or trash storagE. No gratings, except for drainage, shall be permitteD.

(3) Building entrances

Entrances to ground level #uses# are permitted from a corner circulation spacE.
An entrance to a building lobby is permitted from a corner circulation space, provided that the entrance is at no point within 20 feet of the intersection of the two #street lines# that bound the corner circulation spacE.

(4) Permitted overlap

A corner circulation space may overlap with a sidewalk wideninG.

(e)Relocation or renovation of a subway stair

When a #development# or #enlargement# is constructed on a #zoning lot# containing a relocated stairway entrance or entrances to a subway, or an existing stairway entrance or entrances to a subway, and such entrance or entrances are relocated or renovated in accordance with the provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair), one and a half times the area, measured at #street# level, of such entrance or entrances may count toward meeting the pedestrian circulation space requirement.

(f) Sidewalk widening

A sidewalk widening is a continuous paved open area along the #front lot line# of a #zoning lot# at the same elevation as the adjoining sidewalk and directly accessible to the public at all times. A sidewalk widening shall be provided on the #wide street# frontage of a #zoning lot# of a new #development# or #enlargement# where all existing #buildings# on the same #block# frontage, whether on the same or another #zoning lot#, provide sidewalk widenings.

A sidewalk widening shall meet the following requirements:

(1)Dimensions

A sidewalk widening shall have a width of no less than five feet nor more than 10 feet measured perpendicular to the #street line#, and shall be contiguous along its entire length to a sidewalk.

A sidewalk widening shall extend along the full length of the #front lot line# except for the portion of the #front lot line# interrupted by an existing #building# which is located at a #side lot line# or, in the case of a full #block# frontage, located at the intersection of two #streets#.

A required sidewalk widening on a #wide street# shall connect directly to any existing adjoining sidewalk widening and shall extend the entire length of the new #front lot line#.

The width of such a required sidewalk widening shall equal that of the existing adjoining sidewalk wideninG. If there is more than one such existing sidewalk widening, the width of such a required sidewalk widening shall equal that of the existing sidewalk widening that is longest.

A sidewalk widening is permitted on a #wide street# when not adjacent to an existing sidewalk widening only if either the sidewalk widening extends along the #street line# of the #wide street# for the full length of the #block# front, or the #zoning lot# is a #corner lot# and the sidewalk widening extends along the full length of the #street line# of the #wide street# to its intersection with the #street line# of the other #street# on which the #zoning lot# fronts.

Except for the permitted interruptions, as set forth in paragraph (f)(2) of this Section, a sidewalk widening is permitted on a #narrow street# only if it has a length of at least 100 feet.

(2) Permitted interruptions

Interruptions of the continuity of a qualifying sidewalk widening shall be permitted only under the following conditions:

(i) by an arcade that has a width equal to or greater than the width of the sidewalk widening and which is directly connected to the sidewalk widening;

(ii) if overlapped by a corner circulation space or a building entrance recess area that permits uninterrupted pedestrian flow;

(iii) if overlapped by an #urban plaza#, provided that the overlapping portion of such #urban plaza# conforms to the design standard of a sidewalk widening;

(iv) by an off-street subway entrance provided such an entrance is located at a #side lot line# or is located at the intersection of two #street lines#;

(v) if overlapped by the queuing space of a relocated or renovated subway entrance, provided that the queuing space for the entrance leaves at least a five foot uninterrupted width of sidewalk widening along the entire length of the queuing space; or

(vi) by a driveway that is located at a #side lot line#; however, where the #zoning lot# has a through #block# connection, a through #block# galleria or a through #block urban plaza# at such a #side lot line#, the location of its driveway is not restricteD. The area occupied by the driveway, up to the width of the sidewalk widening, may be counted towards meeting the pedestrian circulation space requirement, provided that there shall be no change of grade within the area of the sidewalk wideninG.

(3) Permitted obstructions

A sidewalk widening shall be unobstructed from its lowest level to the sky except for those obstructions permitted under paragraph (f)(2) of this Section and for temporary elements of weather protection, such as awnings or canopies, provided that the total area of such elements, measured on the plan, does not exceed 20 percent of the sidewalk widening area, and that such elements and any attachments thereto are at least eight feet above #curb level#.

(4) Specific prohibitions

No #street# trees are permitted on a sidewalk wideninG. No vehicle storage, parking or storage of trash is permitted on a sidewalk wideninG. Gratings may not occupy more than 50 percent of the sidewalk widening area nor be wider than one half the width of the sidewalk wideninG.

(5) Special design treatment

When one end of the sidewalk widening abuts an existing #building# on the #zoning lot# or an existing #building# on the #side lot line# of the adjacent #zoning lot#, design treatment of the termination of the sidewalk widening is required to smooth pedestrian flow. The portion of the sidewalk widening subject to design treatment, hereinafter called the transition area, shall not extend more than 10 feet nor less than five feet along the sidewalk widening from its termination.

The transition area shall receive special design treatment which may include, but is not limited to, landscaping, sculpture or building transparency. The transition area shall be designed to effect a gradual change of the sidewalk widening width to match the #street wall# line of the existing #building# at the sidewalk widening's termination. This may be accomplished by a curved or diagonal edge of paving along a landscaped bed, the use of stepped edges of the #building# or other architectural treatment of the #building# or paving which avoids an abrupt visual termination of the sidewalk wideninG. Such special design treatment may be considered a permitted obstruction.

(g) Subway station improvement

For #developments# or #enlargements# that are granted a special permit pursuant to Section 74-634 (Subway station improvements in commercial zones of 10 FAR and above in Manhattan), no more than 3,000 square feet may count towards meeting the pedestrian circulation space requirement.
Paragraph (h) has been adapted from Section 81-46 (Through Block Connection) which has been deleteD. No new requirements have been addeD.

(h) Through #block# connection

A through #block# connection is a paved open or enclosed space providing unobstructed access to the building's main lobby and connecting, in a straight continuous unobstructed path, two parallel or nearly parallel #streets#.

Up to a maximum of 3,000 square feet of a through #block# connection may count towards the minimum pedestrian circulation space requirement.

A through #block# connection shall meet the following requirements:

(1) Location

(i) A through #block# connection shall be located at least 150 feet from the intersection of two #streets#.

(ii)Where the #zoning lot# or a portion thereof is directly across a #street# from, and opposite to, an existing through #block# connection on an adjacent #block# and the existing connection is at least 150 feet from the intersection of two #streets#, the alignment of the new through #block# connection shall overlap with that of the existing connection. Such existing connection may also be a through #block# galleria, through #block urban plaza# or any through #block# circulation area with a minimum width of 12 feet, which is located within a #building#.

(iii)Where there are already two through #block# connections located on the same #block#, a new through #block# connection shall not count towards meeting the pedestrian circulation space requirement.

(iv)No through #block# connection shall be permitted on any portion of a #zoning lot# occupied by a landmark or interior landmark so designated by the Landmarks Preservation Commission, or occupied by a #building# whose designation as a landmark or interior landmark has been calendared for public hearing and is pending before the Landmarks Preservation Commission.

(2)Design standards for a through #block# connection

(i)A through #block# connection shall provide a straight continuous unobstructed path at least 15 feet widE. If covered, the clear unobstructed height of a through #block# connection shall not be less than 15 feet.
(ii)At no point shall the level of a through #block# connection be more than five feet above or below #curb level#. In all cases, the through #block# connection must provide a clear path, accessible to people with disabilities, through its entire lengtH.

(iii)A through #block# connection may be located inside or outside of a #building#. The area of a through #block# connection located within a #building# shall be counted as #floor area#.

(iv)A through #block# connection located partially or wholly within a #building# shall adjoin and connect directly to the building's main lobby via unobstructed openings with an aggregate width exceeding that of any other entrances to the lobby.

(v)A through #block# connection located wholly or partially outside a #building# shall provide unobstructed access directly to the building's main lobby through the major entrancE. For the purposes of this Section, the major entrance shall be that entrance to the main lobby which has the greatest aggregate width of clear openings for access.

(vi)Any portion of a through #block# connection located outside a #building# shall be illuminated throughout with a minimum level of illumination of not less than five horizontal foot candles (lumens per candle). Such illumination shall be maintained throughout the hours of darkness.

(vii)A through #block# connection shall at a minimum be accessible to the public from 8:00 A. m. to 7:00 p.m. on the days the #building# or #development# is open for business and shall have posted, in prominent, visible locations at its entrances, signs meeting the standards set forth in paragraph (h)(2)(viii) of this Section.

(viii) A through #block# connection shall provide the following information for public access at each public entry to the through #block# connection:

(a)For an unenclosed through #block# connection, the public access information shall be an entry plaque located at the entrance to the through #block# connection at each #street# frontagE. The entry plaque shall contain:

(1) a public space symbol which is at least 14 inches square in dimension, has a white background, has a grid of four straight lines no greater than one-eighth inch wide and green in color and has a tree-shaped symbol as shown: (Illustration – Tree Symbol)

(2)lettering at least two inches in height stating "OPEN TO PUBLIC. " This lettering shall be located within nine inches of the public space symbol; and

(3)an international Symbol of Access for people with disabilities that is at least three inches squarE.

The entry plaque shall be mounted with its center five feet above the elevation of the nearest walkable pavement on a wall or a permanent freestanding post. It shall be placed so that the entire entry plaque is obvious and directly visible without any obstruction, along every line of sight from all paths of pedestrian access to the through #block# connection, in a position that clearly identifies the entry to the connection.

(b) For an enclosed through #block# connection or a portion thereof:

(1)a public space symbol as described in paragraph (h)(2)(viii)(a) of this Section, not less than six inches square, shall be mounted with its center five feet above the elevation of the nearest walkable pavement;

(2) lettering stating "PUBLIC ACCESS TO - - - - STREET," indicating the opposite #street# to which the through #block# connection passes and which lettering shall not be less than three inches in height and located not more than three inches away from the public space symbol; and

(3)lettering not more than two inches or less than one and a half inches in height stating "OPEN TO PUBLIC" with the hours and days of operation of the through #block# connection. This lettering shall be located not more than three inches from the public space symbol.

The above required information shall be permanently affixed on the glass panel of the entry doors of the through #block# connection clearly facing the direction of pedestrian flow. The information shall be located not higher than six feet or lower than three feet above the level of the pedestrian path at the entry, and shall be in a format and color which will ensure legibility.

(i)Urban plaza

A maximum of 30 percent of the area of an #urban plaza# that faces a #street# intersection, or provides access to a major building entrance, may be counted toward meeting the pedestrian circulation space requirement.

A maximum of 3,000 square feet of a through #block urban plaza# may be counted toward meeting the pedestrian circulation space requirement.

For all other #urban plazas#, the first 10 feet of depth from the #street line# may be counted toward meeting the pedestrian circulation space requirement, provided that the #urban plaza# conforms to the design standards of a sidewalk widening as set forth in paragraph (f) of this Section.

All #urban plazas# shall comply with Section 37-04 (Requirements for Urban Plazas).

Any area of permitted overlap between pedestrian circulation spaces or other amenities shall be counted only once toward meeting the required amount of pedestrian circulation spacE. Unobstructed access shall be provided between overlapping spaces.

The following is a revision of Section 81-454 (Modification of design standards of pedestrian circulation spaces within existing buildings), which has been deleteD. No new requirements have been addeD.

37-074
Modification of design standards of pedestrian circulation spaces within existing buildings

The City Planning Commission may authorize a modification of any required minimum amount of pedestrian circulation space to be provided on #wide street# frontages and design standards, as indicated, for the following required pedestrian circulation spaces, to be provided within or under an existing #building# to remain on a #zoning lot#:

(a) Arcade: minimum width, minimum height, obstructions, minimum clear width between obstructions, minimum length, column sizes

(b) Building entrance recess area: minimum length, minimum depth from #street line#, minimum height, obstructions, clear space between obstructions and clear space between obstructions and building wall

(c) Corner arcade or corner circulation space: minimum depth, minimum width of clear path, minimum height, obstructions

(d) Through #block# connection: minimum width of unobstructed path, minimum height, through #block# level

The Commission may authorize such a modification of design standards for pedestrian circulation spaces when the following conditions are met:

(1) a modification is needed because of the inherent constraints of the existing #building#;

(2) the modification is limited to the minimum needed because of the inherent constraints of the existing #building#; and

(3) the pedestrian circulation space as modified shall be equal in area, and substantially equivalent, to the required space in quality, effectiveness and suitability for public usE.

The selection of subway station improvements shall be on a case-by-case basis and shall be subject to the approval of the Metropolitan Transportation Authority, New York City Transit and the City Planning Commission. All such improvements shall comply with all applicable design standards of the current station planning guidelines of New York City Transit.

(b)Compliance with Transit Authority design standards

The subway station improvement shall comply with all applicable design standards of the New York City Transit Authority's "Station Planning Guidelines" (Revised, 1975 and as may be subsequently revised).

(c) Procedure

(1)Pre-application

The applicant shall submit schematic or concept plans for the proposed improvement to the Metropolitan Transportation Authority, the Transit Authority and the City Planning Commission.

(2) Application pre-certification

After review and agreement on the concept by the Metropolitan Transportation Authority, Transit Authority and the City Planning Commission, the applicant shall submit necessary documentation in conformance with the New York City Transit Authority's "Guidelines for Submission and Approval of Outside Projects". Prior to certification by the City Planning Commission, the Transit Authority shall provide a letter to the Commission containing conceptual approval of the improvement and a statement of any special considerations regarding the Transit Authority's future operation of the improvement.

(3) The special permit application to the City Planning Commission shall include information and justification sufficient to provide the Commission with a basis for evaluating the benefits to the City from the proposed improvement and determining the appropriate amount of bonus #floor area# and for making the findings for the modifications of Section 37-01, Section 37-02 and height and setback regulations in C5-5 Districts.

(4)The special permit application shall include any request for modification of special urban design guidelines pursuant to Section 74-634 paragraph (e) and of height and setback and #rear yard# regulations pursuant to Section 74-634 paragraph (f).

(5)Uniform Land Use Review Procedure - certification

The City Planning Commission shall not certify any application under the Uniform Land Use Review Procedure until the requisite letter from the Transit Authority has been received and incorporated in the application. Such letter may be subject to subsequent execution of a final agreement with the developer.

(6)Prior to the granting of a special permit:

(i)the Transit Authority shall have submitted a letter to the City Planning Commission:

(a) stating that the drawings and other documents submitted by the applicant have been determined by the Transit Authority to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems; materials; relationship to existing site conditions; and such other elements as may be appropriate; and

(b) confirming that the construction of the subway improvement in accordance with such submission is feasible; and

(ii) the applicant shall sign a legally enforceable instrument, running with the land containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and maintain the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(7) The restrictive declarations and any instrument creating a transit easement on the #zoning lot# shall be recorded against the #zoning lot# in the Office of the Register of the City of New York for the borough in which the improvement or easement is being created, and a certified copy of the instrument shall be submitted to the City Planning Commission and the Transit Authority.

(8) Prior to obtaining a temporary certificate of occupancy for the bonus #floor area#, the bonused subway improvement shall be substantially complete, which shall, for this purpose, mean usable by the public, as determined by the Transit Authority.

(9) Prior to obtaining a permanent certificate of occupancy, the bonused subway improvement must be 100 percent complete in accordance with the approved plans and such completion shall have been certified by the Transit Authority.

(d) Floor area bonus

The amount of the #floor area# bonus shall be at the discretion of the City Planning Commission and may range from no #floor area# bonus to the maximum amount allowable by special permit pursuant to the provisions of this Section. For a #residential# or mixed-#use development#, when a #floor area# bonus is granted pursuant to this Section, alone or in combination with other bonuses, the #lot area# requirements of Section 23-20 (DENSITY REGULATIONS — REQUIRED LOT AREA PER DWELLING UNIT, LOT AREA PER ROOM, OR FLOOR AREA PER ROOM) and 35-40 (APPLICABILITY OF LOT AREA REQUIREMENTS TO MIXED BUILDINGS) shall not apply. Instead for every 750 square feet of gross #residential floor area# provided, there shall be not more than one #dwelling unit#. In determining whether to grant a special permit and the precise amount of #floor area# bonus pursuant to the special permit, the Commission shall make all of the following findings:

(1)the degree to which the station's general accessibility, rider orientation and safety will be improved by the provision of new connections, additions to circulation space or easing of circulation bottlenecks;

(2) provision of escalators or elevators where justified by traffic or depth of mezzanine or platform below #street# level;

(3) convenience and spaciousness of #street# level entrance and compatible relationship to the ground floor #uses# of the #development# or #enlargement#;

(4) improvements in the station's environment by provision for daylight access, or improvements to noise control, air quality, lighting or other architectural treatments.

(e) Modification of special urban design guidelines and urban open space

The City Planning Commission may modify the requirements of Section 37-01 (Special Urban Design Guidelines-Streetscape), Section 37-02 (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), and the requirement for #urban open space# in Section 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas) if it finds the provisions of a subway improvement cannot be accommodated without modification to these requirements.

(f) Modification of height and setback and yard regulations

In a C5-5 District, in the case of on-site subway station improvements that generate #floor area# bonus pursuant to Section 74-634, the City Planning Commission may permit modification of the applicable regulations in Sections 33-26 to 33-30, inclusive, relating to #rear yard# regulations, or in Sections 33-41 to 33-45, inclusive, relating to height and setback regulations.

The City Planning Commission may grant such modification upon consideration that the applicable height and setback or #rear yard# regulations cannot be complied with by some method feasible for the applicant to pursue because of the provision of a subway station improvement, the size or irregular shape of the lot, the size or irregular shape of the #block# or width of #streets#. The Commission shall also consider the characteristics of surrounding development. The Commission shall require, where appropriate, sufficient safeguards to insure the free flow of pedestrian and vehicular traffic in the general areA.

The City Planning Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding areA.

The following paragraphs incorporate existing requirements in the previous deleted paragraphs – (b), (c)(1) through (c)(9), (d)(1) through (d)(4), (e) and (f) – and those in Section 81-534 (Procedure), which has also been deleteD.

(a) Pre-application requirements

Prior to submitting an application for a special permit pursuant to this Section, the applicant shall submit a schematic or concept plan for the proposed improvement to the Metropolitan Transportation Authority, New York City Transit and the Chairperson of the City Planning Commission.

(b) Requirements for application

The application for a special permit shall include a letter from New York City Transit to the City Planning Commission containing conceptual approval of the improvement and a statement of any special considerations regarding New York City Transit's future operation of the improvement. The applicant shall submit all information and justification sufficient to enable the Commission to:

(1)evaluate the benefits to the City;

(2)determine the appropriate amount of bonus #floor area#; and

(3)where applicable, assess the advantages and disadvantages of waiving or modifying #street wall# continuity requirements.

(c) Conditions

(1)Within the #Special Midtown District#, for a #development# or #enlargement# located on a #zoning lot# divided by a Theater Subdistrict Core boundary, as defined in Section 81-71 (General Provisions), the amount of #lot area# eligible for bonus #floor area# shall not exceed an amount equal to twice the #lot area# of that portion of the #zoning lot# located outside the Theater Subdistrict CorE.

(2) For a #residential# or mixed #development#, when a #floor area# bonus is granted pursuant to this Section, alone or in combination with other bonuses, the #lot area# requirements of Sections 23-20 (DENSITY REGULATIONS – REQUIRED LOT AREA PER DWELLING UNIT, LOT AREA PER ROOM OR FLOOR AREA PER ROOM) and 35-40 (APPLICABILITY OF LOT AREA REQUIREMENTS TO MIXED BUILDINGS) shall not apply. Instead, the minimum average size of a #dwelling unit# shall be 790 square feet.

(d)Findings

(1)In determining the amount of #floor area# bonus, the City Planning Commission shall consider:

(i)the degree to which the general accessibility and security of the subway station will be improved by the provision of new connections, additions

to or reconfigurations of circulation space, including provision of escalators or elevators; and

(ii)significant improvements to the station's environment by provision for direct daylight access, or improvements to noise control, air quality, lighting or rider orientation and satisfactory integration of the #street# level entryway into the #development# or #enlargement#.

(2)In determining modifications to the requirements of Article 3, Chapter 7 (Special Regulations), the Commission shall find that the provisions of a subway improvement cannot be accommodated without modification to these requirements.

(3)In determining modifications to the #street wall# continuity provisions of Section 81-43 in the #Special Midtown District# or Section 91-31 (Street Wall Regulations) in the #Special Lower Manhattan District#, the Commission shall find that the modification will permit the proposed design to provide for access of daylight and air to the subway platform, mezzanine or concourse and that the advantages of such access outweigh the disadvantages incurred by the interruption of #street wall# and retail continuity.

(4)Within the #Special Midtown District#, for a #development# or #enlargement# within the Theater Subdistrict on a #zoning lot# containing a theater designated as listed pursuant to Section 81-742 (Listed theaters), the Commission shall find that the requirements of Section 81-743 (Required assurances for continuance of legitimate theater use) have been met.

(e)Procedural requirements

Prior to the granting of a special permit, the City Planning Commission shall be provided with the following:

(1)a letter from New York City Transit stating that the drawings and other documents submitted by the applicant have been determined by New York City Transit to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems, materials, relationship to existing site conditions and such other conditions as may be appropriate, and that the construction of the subway improvement in accordance with such submission is feasiblE.

(2)a legally enforceable instrument running with the land and signed by the applicant, containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and provide for ongoing maintenance of the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(f) Recordation & completion procedures

Any instrument creating a transit easement on the #zoning lot# shall be recorded against the #zoning lot# in the Office of the Register of the City of New York and a certified copy of the instrument shall be submitted to the City Planning Commission and New York City Transit. The applicant shall not apply for nor accept a temporary certificate of occupancy for the bonus #floor area#, and the Department of Buildings shall not issue such a temporary certificate of occupancy, until New York City Transit has determined that the bonused subway improvement is substantially complete which shall, for this purpose, mean open to and usable by the publiC.

The applicant shall not apply for or accept a permanent certificate of occupancy for the #development# or #enlargement#, nor shall the Department of Buildings issue such permanent certificate of occupancy, until the bonused subway improvement has been completed in accordance with the approved plans and such completion has been certified by New York City Transit.

The City Planning Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding areA.

Height and setback and yard regulations

* * *

Paragraph (c) has been moved to Section 91-66 (Modification of Bulk Regulations).

(c)Where a #development# on a #zoning lot# is located within the #Special South Street Seaport District# (Article VIII, Chapter 8), on application the Commission may permit modification of height and setback regulations and an increase in tower coverage beyond that allowed by Section 88-06 where the #development# satisfies either of the following conditions:

(1)that the developer obtains negative easements limiting the height of future #development# to 85 feet or less on any adjoining #zoning lot(s)# which are contiguous or would be contiguous to said #zoning lot# but for the separation by a #street# or #street# intersection, and such easements are recorded against such adjoining #zoning lots# by deed or written instrument. The Commission shall consider the aggregated areas of said #zoning lot# and the adjoining lots subject to such negative easements and the extent to which they achieve future assurance of light and air comparable to the standards of the Seaport and Manhattan Landing Districts in determining the maximum permitted coveragE. In no event shall such coverage exceed 80 percent of the #zoning lot# on which the #development# will be located; or

(2)that coverage on a #receiving lot# may be increased above 55 percent, but in no event to more than 80 percent, where additional #development rights# are purchased and converted to coverage according to the formula set forth in Section 88-06.

Prior to the Commission's public hearing on such #development#, the applicant shall indicate, to the Commission, its final decision as to the option chosen.

(3)As a condition for the special permit, the Commission shall make the following findings:
(i)that such special permit will aid in achieving the general purposes and intent of the Special District(s) in which the #development# is located;

(ii)that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot#; and

(iii)that the distribution of #bulk# and the #development# permits adequate access of light and air to surrounding #streets# and properties.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding areA.

(***dc***)In C5-3, C6-6 and C6-7 Districts ***excluding the "CR" Districts, which are provided for in a separate subsection hereunder***, the Commission may modify height and setback and #yard# regulations including tower coverage controls for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, provided the #zoning lot# occupies an entire blockfront on a #wide street#.

(f)In all #Commercial Districts# indicated with a suffix "CR," the Commission may permit modifications of the height and setback and #yard# regulations, and spacing between #buildings# regulations involving abutting #buildings#, for:

(1)a #mixed building development#, complying with the provisions of Section 35-70 (SPECIAL PROVISIONS FOR CERTAIN MIXED BUILDINGS); or

(2)a #mixed building enlargement# which except for paragraph (d) complies with the provisions of Section 35-70; or

(3)a #building# solely occupied by permitted recreational and related #uses#, provided that the following findings are made:

(i) that such modification will enhance the relationship of the #building# to nearby #buildings#;

(ii) that in the case of a #mixed building development#, such modification will aid in the concentration and enhancement of the area or areas required for recreational space or other provided pedestrian amenities; and

(iii) that in the case of a #building# solely occupied by permitted recreational and related #uses#:

(a) public pedestrian circulation will be improved by the provision of substantial areas within the #zoning lot# accessible to the general public and located at or close to the principal level of pedestrian circulation in adjacent areas with prominent and obvious public entrances; and

(b) such facility will contribute toward the viability and objectives of the #Commercial Residential# (CR) #District# by providing increased street activity during evening hours and on weekends.

Existing Sections 81-45 (Provision of Pedestrian Circulation Space), 81-451 (Design standards for pedestrian circulation spaces), and 81-452 (Bonused amenities qualifying as pedestrian circulation spaces) have been deleted and the modified text has been incorporated into Section 37-07 (Requirements for Pedestrian Circulation Space), et. seq Existing Section 81-454 (Modification of design standards of pedestrian circulation spaces within existing buildings) has been deleted and the modified text has been incorporated into Section 37-074. Existing Section 81-453 (Exemptions from the pedestrian circulation space requirements) has been deleted and the text

has been incorporated into the new Section 81-45, as follows.

81-45
Provision of Pedestrian Circulation Space

(Delete existing text.)

Within the #Special Midtown District#, all new #developments# or #enlargements# on #zoning lots# of 5,000 square feet or larger with more than 70,000 square feet of new #floor area# shall provide pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

The requirements for pedestrian circulation space may be met by providing one or more of the following types of spaces: arcade, building entrance recess area, corner arcade, corner circulation space, relocation or renovation of a subway stair, sidewalk widening, subway station improvement, through #block# connection or #urban plaza#. Design requirements and, where applicable, the maximum amount of each space that may be counted towards the minimum pedestrian circulation space requirement are set forth in Section 37-07 (Requirements for Pedestrian Circulation Space).

In addition, the following may be counted towards meeting the minimum pedestrian space requirement:

(a)up to a maximum of 3,000 square feet of an access improvement to rail mass transit, provided pursuant to Section 81-48 (Off-street Improvement of Access to Rail Mass Transit Facility); and

(b)within the Theater Subdistrict, theater waiting space provided pursuant to Section 81-451.

However, pedestrian circulation space shall not be required if any of the following conditions exist:

(1)the #zoning lot# is entirely occupied by a #building# of no more than one #story# in height;

(2)the #zoning lot# is an #interior lot# fronting on a #wide street# with less than 80 feet of #street frontage#;

(3)the #zoning lot# is an #interior# or #through lot# fronting only on a #street# or #streets# where arcades, sidewalk widenings or #urban plazas# are prohibited;

(4)the #zoning lot# is an #interior lot# fronting on either 34th Street, 42nd Street, 57th Street or Fifth Avenue, with another interior frontage of lesser length on any other #street#; or

(5)the #zoning lot# is a #through lot# with both #street frontages# less than 25 feet in lengtH.

New #developments# or #enlargements# on a #zoning lot# having a full #block# frontage on a #wide street# other than Fifth Avenue, 42nd Street, 34th Street or 57th Street shall provide a minimum of 50 percent of their required pedestrian circulation space on that #street#. In the case of a #zoning lot# having two full #block# frontages on #wide streets#, this minimum amount may be allocated on either one or both #wide streets#; where each #street# bounding a #zoning lot# with at least one full #block# frontage is a #wide street#, the minimum amount may be allowed on one or more of those #wide streets#.

Where pedestrian circulation space is provided along Seventh Avenue or Broadway between 43rd and 50th Streets, #signs# and marquees shall be permitted as exceptions to the requirements relating to obstructions or permitted obstructions in Section 37-07 (Requirements for Pedestrian Circulation Space).

Special dimensional requirements for arcades and sidewalk widenings along designated #streets# are set forth in Section 81-43 (Street Wall Continuity along Designated Streets). Where a new #building# or #enlarged# portion of an existing #building# provides an arcade, no obstructions, including columns, shall be permitted within such arcade, and the maximum height of such arcade shall be 20 feet and the maximum width shall be 10 feet. Arcades or sidewalk widenings shall not be permitted on 34th Street, 42nd Street, 57th Street or Fifth Avenue frontages or on any #street# frontage within the Preservation Subdistrict. Between 43rd and 50th Streets, no arcades shall be permitted parallel to and along Seventh Avenue or Broadway.

Design standards for pedestrian circulation spaces
Theater waiting space

(Delete existing text.) Previous text incorporated into new Section 37-07.

Theater waiting space shall be an unobstructed area providing outdoor waiting space for a theater audience, located immediately adjacent to the sidewalk and to a theater listed in Section 81-742 (Listed Theaters) or a new theater designed and intended to show live theatrical performances. Theater waiting space may be located on the same #zoning lot# occupied by a theater or a #zoning lot# immediately adjacent to a theater, and shall meet the following requirements:

(a)such space shall adjoin and open onto a sidewalk or sidewalk widening for its entire length and shall have a minimum length of 30 feet measured parallel to the #street line# and a minimum clear depth of 10 feet measured perpendicular to the #street line# exclusive of any columns. Its level shall be entirely the same as that of the adjoining sidewalk. When located under an overhanging portion of a #building or other structure#, it shall have a minimum clear height of 15 feet and be free of any obstructions except for #building# columns;

(b)such space shall provide direct access to a #building's# entrance or the theater's lobby. Where the theater and the theater waiting space are on separate #zoning lots#, a plaque shall be provided within the theater waiting space adjacent to the theater stating that the space is available as a waiting area for the theater audiencE. Such plaque shall be placed between four feet and six feet above #curb level#, and shall be visible from the sidewalk;

(c)such space shall not adjoin a driveway or an off-#street# loading berth;

(d)the entire theater waiting space shall be illuminated with a minimum level of not less than eight horizontal foot-candles (lumens per foot).

The theater waiting space may overlap with an arcade, a building entrance recess area, a corner arcade, a corner circulation space or a a sidewalk wideninG. However, the area of overlap may only be counted once toward the fulfillment of the required minimum area of pedestrian circulation spacE.

91-00
GENERAL PURPOSES

The "Special Lower Manhattan District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

(a)Encourage development of a 24-hour community through the conversion of older commercial buildings to residential use;

(b) Facilitate maximum design flexibility of buildings and enhance the distinctive skyline and streetscape of Lower Manhattan;

(c) Improve public use and enjoyment of the East River waterfront by creating a better physical and visual relationship between development along the East River and the waterfront area, public access areas and the adjoining upland community;

(d) Enhance the pedestrian environment by relieving sidewalk congestion and providing pedestrian amenities;

(e) Restore, preserve and assure the use of the South Street Seaport Subdistrict as an area of small historic and restored buildings, open to the waterfront and having a high proportion of public spaces and amenities, including a South Street Seaport Environmental Museum, with associated cultural, recreational and retail activities;

(f) Establish the Historic and Commercial Core to protect the existing character of this landmarked area by promoting development that is harmonious with the existing scale and street configuration; and

(g) Promote the most desirable use of land and thus conserve and enhance the value of land and buildings, and thereby protect the City's tax revenues.

91-01
General Provisions

Except as modified by the express provisions of this District, the regulations of the underlying zoning districts shall remain in effect.

Requirements that apply generally throughout the #Special Lower Manhattan District# are set forth in the provisions for this Chapter. The provisions of Section 91-40 (MANDATORY DESIGN PLAN ELEMENTS) specify planning and urban design features to be provided in connection with new #developments# or #enlargements# that are primarily oriented toward the accommodation and well-being of pedestrians. For requirements that are not generally applicable but are tied to specific locations within the Special District, the locations where these requirements apply are shown on District Map 2 (Street Wall Continuity Types 1, 2 & 3), Map 3 (Street Wall Continuity Types 4 & 5), Map 4 (Designated Retail Streets) and Map 5 (Curb Cut Prohibitions) in Appendix A.

The provisions of Article VI, Chapter 2 (Special Regulations in the Waterfront Area) shall apply to all areas of the #waterfront area# within the #Special Lower Manhattan District#, except as otherwise provided in Section 91-60 (REGULATIONS FOR THE SOUTH STREET SEAPORT SUBDISTRICT) for Piers 9, 11, 13 and 14. Piers 9, 11, 13 and 14 are shown on Maps 1 and 6 in Appendix A.

An existing public amenity, open or enclosed, that was a mandatory requirement or received a #floor area# bonus pursuant to the provisions of the former Special Greenwich Street Development District, eliminated on (effective date of amendment), shall not be removed, reduced in size or in any way altered, other than pursuant to the provisions of Section 91-71 (Authorization for the Modification of Required Public Amenities).

Special regulations governing the development of three specific sites in the Special Lower Manhattan District are set forth in the following Sections:

Section 91-72(Certification for Development on the Block bounded by Liberty, Washington, Cedar and West Streets)

Section 91-73 (Special Permit for Development over the Approaches to the Brooklyn Battery Tunnel)

Section 91-74 (Special provisions for Battery Park Underpass/South Street).

91-02
Definitions

For the purposes of this Chapter, matter in italics is defined in Section 12-10, or 91-62 (Definitions).

91-03
District Maps

District maps are located in Appendix A of this Chapter and are hereby incorporated and made an integral part of this Resolution. They are incorporated for the purpose of specifying locations where special regulations and requirements, as set forth in the text of this Chapter, apply.

91-04
Subdistrict and Core Areas

In order to carry out the purposes and provisions of this Chapter, the South Street Seaport Subdistrict and the Historic and Commercial Core are established within the #Special Lower Manhattan District# and include specific regulations designed to advance the purpose of these areas:

(a) The South Street Seaport Subdistrict

The South Street Seaport Subdistrict contains certain provisions that do not apply to other areas of the Special District. Except as otherwise provided in the Subdistrict regulations, the Subdistrict is subject to all other regulations of the #Special Lower Manhattan District# and the underlying districts. The requirements for the South Street Seaport Subdistrict are set forth in Section 91-60 (SPECIAL REGULATIONS FOR THE SOUTH STREET SEAPORT SUBDISTRICT).

The Subdistrict is shown on Map 1 (Special Lower Manhattan District) and Map 6 (South Street Seaport Subdistrict) in Appendix A.

(b) The Historic and Commercial Core

The Historic and Commercial Core has been established to promote #development# compatible with existing #buildings# that border the area whose street plan has been accorded landmark status by the New York City Landmarks Commission as the Streetplan of New Amsterdam and Colonial New York. Height and setback provisions for the Historic and Commercial Core are set forth in Sections 91-31 through 91-33.
The Core is bounded by Broadway and Wall, Whitehall and Water Streets, as shown on Map 1 (Special Lower Manhattan District) in Appendix A.

91-05
Applicability of the Quality Housing Program

Within the #Special Lower Manhattan District#, #residential buildings# or the #residential# portion of a #mixed building# may be #developed# or #enlarged# in accordance with the provisions of Article II, Chapter 8 (The Quality Housing Program), except that the #bulk# regulations of Section 28-11 shall be superseded by the #bulk# regulations of this Chapter. Recreation space required pursuant to Section 28-30 (RECREATION SPACE AND PLANTING AREAS) shall be in addition to any recreation space required pursuant to this Chapter.

91-06
Applicability of Article VII Provisions

91-061
Applicability of special permits by the Board of Standards and Appeals

Within the #Special Lower Manhattan District#, the following Board of Standards and Appeals special permits shall not be applicable or shall be applicable only as modified:

The following special permit by the Board of Standards and Appeals shall not be applicable:

Section 73-68
(Modifications of Height, Setback and Rear Yard Regulations)

The following special permits by the Board of Standards and Appeals shall be applicable as modified:

Section 73-21(Automotive Service Stations) shall not apply on #zoning lots# with frontage on any #street# listed on Map 2 (Streets Where Street Wall Continuity Is Required) or Map 4 (Designated Retail Streets) in Appendix A

Section 73-244 (In C2, C3, C4*, M1-5A, M1-5B, M1-5M and M1-6M Districts and the Special Tribeca Mixed Use District) shall also apply in C5 Districts to eating or drinking establishments with entertainment, including musical entertainment or dancing, and a capacity of more than 200 persons.

91-062
Applicability of special permits by the City Planning Commission

Within the #Special Lower Manhattan District#, the following City Planning Commission special permits shall not be applicable or shall be applicable within C5 Districts, as follows:

The following special permits by the City Planning Commission shall not be applicable:

Section 74-721(Modification of Height, Setback and Yard Regulations)

Section 74-722 (Special Floor Area Regulations)

The following special permits by the City Planning Commission shall be applicable also within C5 Districts:

Section 74-41 (Arenas, Auditoriums, Stadiums or Trade Expositions)

Section 74-46 (Indoor Interactive Entertainment Facilities).

91-10
SPECIAL USE REGULATIONS

91-11
Modification of Use Regulations in C5 Districts

91-111
Additional uses in C5 Districts

In addition to the special permit #uses# cited in Section 91-05, the #use# regulations for C5 Districts within the #Special Lower Manhattan District# are modified to permit the following #uses#:

From Use Group 7:

Use Groups 7B and 7E

From Use Group 8:

Use Groups 8A*, 8B and 8E

From Use Group 12:

Use Groups 12A, 12B, 12C and 12E**

*** inclusive of the waiting area requirements for theaters as listed in Use Group 8A.**
** except for eating or drinking establishments as listed in Use Group 12A.

91-112
Eating and drinking establishments with dancing in C5 Districts

In all C5 Districts within the Special District, in addition to eating and drinking establishments permitted pursuant to Section 32-15 (Use Group 6), the following types of eating and drinking establishments shall be permitted:

Eating or drinking establishments with entertainment, including musical entertainment or dancing, with a total capacity of 200 persons or fewer, shall be permitted, provided that the dance floor or area, if any, does not exceed 400 square feet. The locational and waiting area requirements for eating or drinking establishments of Section 73-244 (In C2, C3, C4*, M1-5A, M1-5B, M1-5M and M1-6M Districts and the Special Tribeca Mixed Use District) shall apply.

Eating or drinking establishments with entertainment, including musical entertainment or dancing, with a capacity of more than 200 persons shall be permitted, pursuant to the provisions of Section 73-244, as modified in Section 91-051 (Applicability of special permits by the Board of Standards and Appeals).

91-113
Location of certain commercial uses

In C5 Districts within the Special District#, the provisions of Section 32-423 (Limitation on ground floor location) shall not apply.

91-12
Uses on Designated Retail Streets

On designated retail #streets#, as shown on Map 4 in Appendix A, for any #development# or #enlargement# fronting on such #streets#, #uses# located on the ground floor level, or within five feet of #curb level#, shall be limited to only those #uses# permitted by the underlying regulations and Section 91-111 (Additional uses in C5 Districts), other than automobile showrooms or plumbing, heating or ventilating equipment showrooms or any of the #uses# listed in Use Groups 6B, 6E, 7C, 7D, 8C, 8D, 9B, 10B, 11 or 12D.

91-13
Sign Regulations

In the #Special Lower Manhattan District#, except as modified by the provisions of this Section, the regulations of Section 32-60, et. seq. pertaining to #signs#, shall apply.

91-131
Illuminated signs in C5 Districts

In all C5 Districts within the Special District, not more than one #illuminated#, non-#flashing sign#, other than an #advertising sign#, with a total #surface area# not exceeding eight square feet shall be permitted for each #street# frontage of the #zoning lot#. Such #sign# may be located only within a window of a #building#.

91-132
Banner regulations

In all C5 and C6 Districts within the Special District, in lieu of the provisions of Section 32-652 (Permitted projection in all other Commercial Districts), banners may project across a #street line# for a maximum distance of eight feet.

In C5-3 or C5-5 Districts within the Special District, in lieu of the provisions of Section 32-655 (Height of signs in all other Commercial Districts), banners may extend above #curb level# to a maximum height of 40 feet.

FLOOR AREA AND DENSITY REGULATIONS

91-21
Floor Area Regulations For Residential Buildings and the Residential Portion of Mixed Buildings

91-211
Maximum floor area ratio for residential uses

Within the #Special Lower Manhattan District#, the maximum #floor area ratio# for a #residential building# or the #residential# portion of a #mixed building# shall be determined in accordance with the regulations of the underlying district and may not be increased except as provided in Sections 91-212 (Floor area increase in a C6-4 District) or 91-213 (Floor area increase for provision of recreation space).

In a C4-6 District, the maximum #floor area ratio# for a #residential building# or the #residential# portion of a #mixed building# shall be 3.4.

91-212
Floor area increase in a C6-4 District

In a C6-4 District, except within the South Street Seaport Subdistrict, the #residential floor area# of a #building# may exceed 10.0 in accordance with the provisions of Section 23-90 (INCLUSIONARY HOUSING) or Section 91-241 (Floor area bonus for urban plazas), provided that the maximum #residential #floor area# ratio shall not exceed 12. 0.

91-213
Floor area increase for provision of recreation space

In C5-3, C5-5 and C6-9 Districts, the #residential floor area# of a #building# may be increased to 12. 0, provided that the #building# includes recreation space for the #residential# occupants in an amount not less than 13 square feet for each #rooming unit#, 16.25 square feet for each #dwelling unit#, or a total area of at least 5,000 square feet, whichever is greater.

Such recreation space may be located at any level, including a roof, and shall:

(a)be restricted to #residential# occupants of the #building# and their guests for whom no admission or membership fees may be charged;

(b)be directly accessible from a lobby or other public area served by the #residential# elevators;

(c)be landscaped, including trees or shrubbery, except where covered or developed with recreational facilities and seating areas;

(d)contain not less than 500 square feet of continuous area on a single level with no dimension of less than 15 feet; and

(e)have not less than 50 percent of the area open from its lowest level to the sky. The remaining portion may be roofed and up to 50 percent of its perimeter may be encloseD. In no event may more than 25 percent of the required recreation space be fully encloseD. All enclosures shall be transparent except when located within the #building#. Covered areas shall contain recreation facilities or seating areas.

A copy of requirements (a) through (e) shall be permanently posted in a conspicuous place within each recreation spacE.

91-22
Density Regulations for Residential Buildings and the Residential Portion of Mixed Buildings

The #Special Lower Manhattan District#, the #lot area# requirements of Sections 23-20 (DENSITY REGULATIONS – REQUIRED LOT AREA PER DWELLING UNIT, LOT AREA PER ROOM OR FLOOR AREA PER ROOM) and 35-41 (Lot Area Requirements for Non-Residential Portions of Mixed Buildings) and the provisions of Section 35-42 (Density or Lot Area Bonus in Mixed Buildings) shall not apply to any #residential# or #mixed building development#. In lieu thereof, the minimum average size of #dwelling units# or #rooming units# shall be determined by the following tablE.

Each #dwelling unit# shall contain at least 400 square feet of #floor area# except that this requirement shall not apply to #non-profit residences for the elderly#.

MINIMUM AVERAGE SIZE OF DWELLING UNITS OR ROOMING UNITS

District	#Dwelling Units# (in sq. ft.)	#Rooming Units# (in sq. ft.)
R8 (or commercial equivalent)	**740**	**530**
R10 (or commercial equivalent)	**790**	**600**

The maximum number of #dwelling units# or #rooming units# for #non-profit residences for the elderly# may be increased over the amount of #dwelling units# or #rooming units# permitted by this Section by up to 10 percent.

91-23
Floor Area Regulations for Non-Residential and Mixed Buildings

For non-#residential buildings# or #mixed buildings# within the #Special Lower Manhattan District#, the basic maximum #floor area ratio# of the underlying district may be increased by the inclusion of specific additional bonus #floor area# for a maximum #floor area ratio# as specified on the following chart.

The provisions of paragraph (c) of Section 74-792 (Conditions and limitations), pertaining to the transfer of development rights from landmark sites, shall be subject to the restrictions on the transfer of development rights (FAR) of a landmark "granting lot" as set forth in the following tablE. Wherever there may be an inconsistency between any provision in Section 74-79 and the following table, the provisions of the table shall apply.

91-24
As-of-Right Bonuses for Increased Floor Area

Within the #Special Lower Manhattan District#, as-of-right bonuses for increased #floor area# are allowed only in accordance with the provisions of this Section.

91-241
Floor area bonus for urban plazas

The maximum permitted #floor area# on a #zoning lot# may be increased in accordance with the following regulations, provided that an #urban plaza#, which shall meet the requirements of Section 37-04 (Requirements for Urban Plazas), is included in the #development# or #enlargement#.

(a)A #floor area# bonus for an #urban plaza# shall not be permitted for any #development# or #enlargement# located within:

(1)the Historic and Commercial Core;

(2)the South Street Seaport Subdistrict; or

(3) 50 feet of a #street line# of a designated #street# on which:

(i)retail continuity is required pursuant to Section 91-41 (Regulations for Designated Retail Streets), or;

(ii)#street wall# continuity is required pursuant to the regulations for Type 1 or Type 2 #street walls# pursuant to Section 91-31 (Street wall Regulations).

(b)For each square foot of an #urban plaza#, the basic maximum #floor area# permitted by Section 91-23 (Floor Area Regulations for Non-Residential and Mixed Buildings) may be increased, in C6-4 Districts, by six square feet to a maximum #floor area# ratio of 12. 0; and, in C5-3, C5-5 and C6-9 Districts, by ten square feet to a maximum #floor area# ratio of 18.0.

(c)When an #urban plaza# that meets the requirements for a #floor area# bonus is located on a #zoning lot# divided by a district boundary, the bonusable #floor area# may be credited to either portion of the #zoning lot#, notwithstanding the location of the #urban plaza# or the date of the creation of the #zoning lot#. The amount of bonusable #floor area# permitted on either portion of the #zoning lot# shall not exceed the maximum amount of #floor area# permitted on such portion if it were a separate #zoning lot# subject to all other provisions of Article VII, Chapter 7.

91-242
Floor area bonuses for improvements on the block bounded by Liberty, Washington, Cedar and West Streets

For any #development# on the #block# bounded by Liberty, Washington, Cedar and West Streets within the former #Special Greenwich Street Development District#, certain improvements, as certified by the City Planning Commission, shall be eligible for as-of-right bonuses for #floor area#, pursuant to the provisions of Section 91-72.

91-25
Special Permit Bonuses for Increased Floor Area

Within the #Special Lower Manhattan District#, the City Planning Commission may grant the following special permits for increased #floor area# in accordance with the provisions of this Section.

91-251
Special permit for subway station improvements

Within the #Special Lower Manhattan District#, the City Planning Commission may grant, by special permit, a #floor area# bonus for #buildings# that provide subway station improvements, pursuant to the provisions of Section 74-634 (Subway station improvements in commercial zones of 10 FAR and above in Manhattan).

The total additional #floor area# permitted on the #zoning lot# shall not exceed the maximum amount permitted in the underlying district by the provisions of Sections 91-21 (Floor Area Regulations For Residential Buildings and the Residential Portion of Mixed Buildings) or 91-23 (Floor Area Regulations for Non-Residential and Mixed Buildings).

For the purposes of the Special District, the #zoning lot# for the #development# or #enlargement# that will receive the #floor area# bonus shall be located within a #Commercial District# with a #floor area ratio# of 10.0 or above and shall be adjacent to a subway station where major improvements have been provideD. Upon completion of the improvement, the #zoning lot# will physically adjoin a subway station mezzanine, platform, concourse or connecting passageway.

The subway stations where such improvements are permitted are listed in the following table and shown on Map 7 (Subway Station Improvement Areas) in Appendix A.

91-252
Special permit for covered pedestrian space

In C5-3, C5-5, C6-4 and C6-9 Districts within the #Special Lower Manhattan District#, except within the South Street Seaport Subdistrict, the City Planning Commission may grant, by special permit, a #floor area# bonus for a #commercial# or #community facility development# or #mixed building# that provides #covered pedestrian space# on a #zoning lot#, in accordance with the provisions of Section 74-87 (Covered Pedestrian Space).

The total additional #floor area# permitted on the #zoning lot# shall not exceed the maximum amount permitted in the underlying district by the provisions of Sections 91-21 (Floor Area Regulations For Residential Buildings and the Residential Portion of Mixed Buildings) and 91-23 (Floor Area Regulations for Non-Residential and Mixed Buildings).

91-30
HEIGHT AND SETBACK AND LOT COVERAGE REGULATIONS

For all #buildings or other structures# in the #Special Lower Manhattan District#, the height and setback regulations of the underlying districts are superseded by the regulations of this Section.

The height of all #buildings or other structures# shall be measured from #curb level#.

91-31
Street Wall Regulations

Within the #Special Lower Manhattan District#, all portions of #buildings or other structures# located above the maximum base heights specified in paragraph (a) of this Section shall provide a setback in accordance with the regulations of Section 91-32 (Setback Regulations).

(a)Within the Special District, the maximum base height shall be 85 feet or 1.5 times the width of the #street# upon which the #building# fronts, whichever is greater, except as provided for the following types of #street wall# regulations:

(1)#Street wall# regulations: Type 1

For #developments# or #enlargements# that front upon a #street# indicated as "Type 1" on Map 2 (Street Wall Continuity Types 1, 2 & 3) in Appendix A, #street walls# shall extend along the entire #street# frontage of the #zoning lot# to a minimum base height of 150 feet or the height of the #building#, whichever is less. The maximum base height shall be 250 feet.

(2) #Street wall# regulations: Type 2

For #developments or enlargements# that front upon a #street# indicated as "Type 2" on Map 2 (Street Wall Continuity Types 1, 2 & 3) in Appendix A, #street walls# shall extend along the entire #street# frontage of the #zoning lot# to a minimum base height of 85 feet or the height of the #building#, whichever is less. The maximum base height shall be 150 feet.

(3)#Street wall# regulations: Type 3

For #developments or enlargements# that front upon a #street# indicated as "Type 3" on Map 2 (Street Wall Continuity Types 1, 2 & 3) in Appendix A, #street walls# shall extend along the entire #street# frontage of the #zoning lot# to a minimum base height of 60 feet, five stories, or the height of the #building#, whichever is less. The maximum base height shall be 85 feet or 1.5 times the width of the #street# upon which the #building# fronts, whichever is greater.

(4)#Street wall# regulations: Type 4

For #developments# or #enlargements# that front upon a #street# within the Historic and Commercial Core, indicated as "Type 4" on Map 3 (Street Wall Continuity Types 4 & 5) in Appendix A, the maximum base height shall be 100 feet.

(5)#Street wall# regulations: Type 5

For #developments# or #enlargements# that front upon a #street# indicated as "Type 5" on Map 3 (Street Wall Continuity Types 4 & 5) in Appendix A, no setbacks are required for any portion of a #building#.

(b)For #developments# or #enlargements# that front upon a #street# indicated as "Type 1" or "Type 2," at least 70 percent of the #aggregate width of street walls# shall be located on such #street line#. For #developments# or #enlargements# that front upon a #street# indicated as "Type 3," at least 70 percent of the #aggregate width of street walls# shall be located within 10 feet of the #street line#. The remaining 30 percent of the #aggregate width of street walls# may be located beyond such #street lines# in compliance with:

(1)the #outer court# regulations of Article II, Chapter 3, for #residential# portions of #buildings#; or

(2)the #outer court# regulations of Article II, Chapter 4, for all other portions of #buildings#; or

(3)the requirements of Section 37-07 (Requirements for pedestrian circulation space) where such areas are pedestrian circulation spaces.

(c)When a #building# fronts on two intersecting #streets# for which different maximum base heights are specified, the higher maximum base height may wrap around to the #street# with the lower maximum base height for a distance along the #street line# of 100 feet. However, "Type 5" #street walls# shall not be permitted to wrap around to the intersecting #street#.

(d)Arcades and sidewalk widenings shall be permitted along any #street# indicated as "Type 1," "Type 2" or "Type 3," pursuant to paragraphs (a), (b) or (c) of this Section, provided such arcade or sidewalk widening extends along the entire #block# frontage or abuts another arcade, existing on (effective date of amendment), of equal width and height or another sidewalk widening of equal widtH. In such case, the #street wall# requirements for paragraph (b) of this Section shall be measured from the permitted arcade or sidewalk wideninG.

91-311
Modification of streetwall regulations

Within the #Special Lower Manhattan District#, the City Planning Commission, by special permit, may modify the locational requirements and minimum base heights of Section 91-31 (Street Wall Regulations), provided that the Commission finds such change will:

(a)produce an improved site plan consistent with existing scale and #street# configuration patterns;

(b)enhance pedestrian circulation by providing pedestrian amenities that relieve sidewalk congestion; and

(c)ensure a more harmonious relationship between the #development# and the surrounding areA.

91-32
Setback Regulations

Within the #Special Lower Manhattan District#, setbacks are required for any portion of a #building# that exceeds the maximum base heights specified for the applicable #street# in Section 91-31 (Street Wall Regulations).

Required setbacks shall be provided at a height not lower than any minimum base height and not higher than any maximum base height specified for the applicable #street# in Section 91-31. The depth of the setback shall be determined by the #lot area# of the #zoning lot# on which the #building# is located, as shown in the following table:

REQUIRED DEPTH OF SETBACKS

#Lot area# of #zoning lot# Minimum setback depth

Less than 15,000 square feet 10 feet

15,001 to 30,000 square feet 15 feet

Greater than 30,000 square feet 20 feet

For "Type 1" and "Type 2" #street walls#, the required setbacks shall be measured from the #street line# at the maximum base height.

For "Type 3" #street walls#, the required setbacks shall be measured from a line drawn at or parallel to the #street line# so that at least 70 percent of the #aggregate width of street walls# of the #building# at the maximum base height are within such line and the #street line#.

For all other #street walls#, the required setbacks shall be measured from a line drawn at or parallel to the #street line# so that at least 50 percent of the #aggregate width of street walls# of the #building# at the maximum base height are within such drawn line and the #street line#. However, setbacks are not required for #street walls# fronting upon the major portion of a bonused #urban plaza#.

For #buildings within the Historic and Commercial Core as shown on Map 1 in Appendix A, any #building# or portion of a #building# may be located within the required setback area beneath a #sky exposure plane# that rises from a height of 100 feet above the #street line# over the #zoning lot# at a vertical distance of six to a horizontal distance of onE.

91-33
Lot Coverage Regulations
Except within the Historic and Commercial Core, any #development# or #enlargement#, or portion thereof, shall have a maximum #lot coverage# of 65 percent of the #lot area# of the #zoning lot# above the maximum base height specified in Section 91-31 (Street Wall Regulations), up to a height of 300 feet. Above a height of 300 feet, any #development# or #enlargement# or portion thereof shall have a maximum #lot coverage# of 50 percent of the #lot area# of the #zoning lot#.

Within the Historic and Commercial Core, any #development# or #enlargement#, or portion thereof, shall have a maximum #lot coverage# of 75 percent of the #lot area# of the #zoning lot# above the maximum base height specified in Section 91-31, up to a height of 300 feet. Above a height of 300 feet, any #development# or #enlargement# or portion thereof shall have a maximum #lot coverage# of 60 percent of the #lot area# of the #zoning lot#.

For #developments# or #enlargements# fronting on more than one #street# where different maximum base heights are specified, the maximum #lot coverage# regulations specified in this Section, up to a height of 300 feet, shall apply above the lowest maximum base height specified for such #developments# or #enlargements#.

91-34
Maximum Horizontal Dimension for Tall Buildings

For any portion of a #development# or #enlargement# above a height of 300 feet, the maximum horizontal dimension, measured in any direction, shall not exceed 175 feet.

91-40
MANDATORY DISTRICT PLAN ELEMENTS

91-41
Regulations for Designated Retail Streets

91-411
Location of required retail space

For any #development# or #enlargement# fronting on the ground floor level of designated retail #streets#, as shown on Map 4 in Appendix A, the #street# frontage of the #building# shall be allocated exclusively to the #uses# set forth in Section 91-12 (Uses on Designated Retail Streets). However, #uses# located within lobby or entrance spaces, subway station improvements or pedestrian circulation spaces that do not front on the ground floor level of the #street# shall be in accordance with the provisions for permitted #uses# of the underlying district.

Where the #street# frontage occupied by all building entrances is 20 feet or more in width, the amount of #street# frontage occupied by lobby space, entrance space and/or a building entrance recess shall not exceed, in total, 40 linear feet or 25 percent of the building's total #street# frontage, whichever is less, exclusive of any frontage occupied by a relocated subway stair or the entrance area to a bonused subway station improvement.

Storefronts for permitted ground floor #uses# shall be no more than 10 feet from the #street line# or, where an #arcade# is provided with supporting columns at the #street line#, no more than 10 feet from the supporting columns.

91-412
Access and glazing of required retail space

Access to each permitted establishment or #use# shall be provided directly from the designated retail #street#, as shown on Map 4 in Appendix A. Where there is more than one entrance to the establishment or #use# from the designated retail #street#, direct access shall be provided via the entrance with the greatest aggregate clear opening widtH.

At least 50 percent of the #street wall# surface of each permitted establishment or #use# shall be glazed with clear untinted transparent material and not more than 50 percent of such transparent surface shall be painted or obstructed with #signs#.

For the purposes of this glazing requirement, the #street wall# surface of each permitted establishment shall be measured from the floor to the height of the ceiling or 14 feet above grade, whichever is less.

91-42
Pedestrian Circulation Space

Within the boundaries of the #Special Lower Manhattan District#, all new #developments# or #enlargements# on #zoning lots# of at least 5,000 square feet that contain more than 70,000 square feet of new #floor area# shall provide pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

Pedestrian circulation space shall not be required if any of the following conditions exist:

(a) the #zoning lot# is entirely occupied by a #building# of no more than one #story# in height;

(b) the #zoning lot# is an #interior lot# fronting on a #wide street# with less than 80 feet of #street frontage#;

(c) the #zoning lot# is an #interior# or #through lot# fronting on a #street# or #streets# listed in paragraph (a) of Section 91-31 (Street Wall Regulations);

(d) the #zoning lot# is a #through lot# and both #street frontages# are less than 25 feet in lengtH.

91-43
Off-Street Relocation or Renovation of a Subway Stair

Where a #development# or #enlargement# is constructed on a #zoning lot# that contains at least 5,000 square feet of #lot area# and fronts on a sidewalk containing a stairway entrance or entrances into a subway station, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. The new entrance or entrances shall be provided in accordance with the provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair). A relocated or renovated subway stair may be counted as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

The subway stations where such improvements are required are listed in the following table and shown on Map 7 (Subway Station Improvement Areas) in Appendix A.

91-50
OFF-STREET PARKING, LOADING AND CURB CUT REGULATIONS

The off-street parking regulations of Article 1, Chapter 3 (Comprehensive Off-Street Parking Regulations in Community Districts 1, 2, 3, 4, 5, 6, 7 and 8 in the Borough of Manhattan and a Portion of Community Districts 1 and 2 in the Borough of Queens) and the loading regulations of the underlying districts apply to the #Special Lower Manhattan District#, except as supplemented or modified by the provisions of this Section.

91-51
Accessory Off-Street Parking for Residential Uses in Converted Buildings

#Accessory# off-street parking spaces shall be permitted for #dwelling units# in non-#residential buildings# erected prior to January 1, 1977, or portions thereof, that are converted to #residential use#, provided:

(a) no more than 200 spaces or a number of spaces equal to 20 percent of the number of #dwelling units# on the #zoning lot#, whichever is less, shall be permitted;

(b) no curb cut shall be permitted on any #street# where the converted #building# has a #street# frontage of 40 feet or less;

(c) no portion of any such parking facility shall be more than 23 feet above #curb level#;

(d) no exhaust vents shall open onto any #street# or #public park# or publicly accessible #open space#, and no portion of the parking facility, other than entrances and exits, shall be visible from adjoining #zoning lots#, #streets# or parks; and

(e) all such parking facilities shall be provided on the same #zoning lot# as the #residential uses# to which they are #accessory#, except as otherwise provided in Section 91-511 (Authorization for off-site parking facilities for converted buildings).

91-511
Authorization for off-site parking facilities for converted buildings

The City Planning Commission may authorize #accessory# residential off-site parking spaces for non-#residential buildings# erected prior to January 1, 1977, or portions thereof, that are converted to #residential use#, to be provided in a fully-enclosed #building# on a #zoning lot# within the #Special Lower Manhattan District# other than the #zoning lot# that contains the #residential use#, provided the Commission finds that:

(a) such #accessory# off-site parking spaces are conveniently located in relation to the #residential use#, and in no case further than 600 feet from the #zoning lot# containing the #residential use#;

(b) such location of the #accessory# off-site parking facility will permit better site planning for the #building# converted to #residential use#;

(c) the #accessory# off-site parking facility will not create or contribute to traffic congestion or unduly inhibit vehicular and pedestrian movement;

(d)that the #accessory# off-site parking facility is located so as to draw a minimum of additional vehicular traffic to and through local #residential streets#; and
(e)that such #accessory# off-site parking facility shall contain parking spaces #accessory# only to #residential uses#.

The number of #accessory# off-site parking spaces authorized in accordance with the provisions of this Section shall be recorded on the certificates of occupancy, temporary and permanent, for both the #residential use# and the #accessory# off-site parking facility.

91-52
Curb Cut Regulations

All curb cuts shall be prohibited on #streets# indicated on Map 5 (Curb Cut Prohibitions) in Appendix A, except that:

(a) the Commissioner of Buildings may approve a curb cut where there are no alternative means of access to required off-street loading berths from other #streets# bounding the #zoning lot#; and

(b) the City Planning Commission may authorize curb cuts for loading berths provided:

(1) such loading berths are adjacent to a fully enclosed maneuvering area on the #zoning lot#;

(2) such maneuvering area is at least equal in size to the area of the loading berth; and

(3) there is adequate space to permit head-in and head-out truck movements to and from the #zoning lot#.

The City Planning Commission may refer such applications to the Department of Transportation for comment.

No curb cuts may be approved or authorized on Battery Place, Broad Street, Broadway, Liberty Street west of Broadway, Park Row South or Wall Street.

Where a curb cut is approved or authorized pursuant to this Section, the maximum width of a curb cut, including splays, shall be 15 feet for a #street# with one-way traffic and 25 feet for a #street# with two-way traffiC.

The Special South Street Seaport District (88-00) has been deleted and the text has been incorporated into the Lower Manhattan text as a subdistrict. Changes are shown using greytone and strikeout but all of Section 91-60 shall be considered new text as part of the proposed Special Lower Manhattan District.

91-60
REGULATIONS FOR THE SOUTH STREET SEAPORT SUBDISTRICT

88-0091-61
***GENERAL PURPOSES* General Provisions**

***The "Special South Street Seaport District" (hereinafter also referred to as the "District") established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity and to implement the provisions of the Brooklyn Bridge Southeast Urban Renewal Plan, as amended (the "Urban Renewal Plan").* The regulations of Sections 91-60, et. seq., relating to special regulations for the South Street Seaport Subdistrict are applicable only in the South Street Seaport Subdistrict. The boundaries of the South Street Seaport Subdistrict are shown on Map 1 (Special Lower Manhattan District) and Map 6 (South Street Seaport Subdistrict) in Appendix A. The regulations of Section 91-60, et. seq., supplement or modify the regulations of this Chapter applying in general to the South Street Seaport Subdistrict area of the #Special Lower Manhattan District#.**

In order to preserve and protect the character of the South Street Seaport Subdistrict and to implement the provisions of the Brooklyn Bridge Southeast Urban Renewal Plan, as

amended, special controls and incentives are provideD.

The provisions of Article VI, Chapter 2 (Special Regulations in the Waterfront Area), shall apply to #waterfront zoning lots# within the South Street Seaport Subdistrict. The provisions of paragraph (c) of Section 74-792 (Conditions and limitations) concerning the transfer of development rights from landmark sites in C5-3, C5-5, C6-6, C6-7 or C6-9 Districts shall not apply in the South Street Seaport Subdistrict.

These general goals include, among others, the following purposes:

(a)to encourage the preservation, restoration and, in certain cases, redevelopment of real property and buildings thereon within the Brooklyn Bridge Southeast Urban Renewal Area into a South Street Seaport Environmental Museum having associated cultural, recreational and retail activities;

(b)to preserve and encourage the restoration of the Schermerhorn Row Landmark Buildings which have been so designated by the New York City Landmarks Preservation Commission;

(c)to assure the use of the South Street Seaport area as an area of small historic and restored buildings, open to the waterfront, having a high proportion of public spaces and amenities, which would serve as an urban retreat from the neighboring commercial office buildings and activity of lower Manhattan;

(d)as a means of accomplishing the aforesaid purposes, to permit the transfer and disposition of development rights from designated granting lots in the Seaport area to South Street commercial development in a manner consistent with the provisions of this District; and

(e)to promote the most desirable use of land in accordance with the Urban Renewal Plan and thus to conserve and enhance the value of land and buildings, and thereby protect the City's tax revenues.

Transfer ***District* Areas** Map

The **South Street Seaport Subdistrict t**Transfer ***District* areas m*M*ap, *attached* shown** hereto as **Map 6 of** Appendix A ***and made an integral part hereof,*** sets forth each #granting lot# and #receiving lot# within the **Subd*D*istrict.**

88-0491-64
Transfer of Development Rights from Granting Lots

Within the South Street Seaport Subdistrict, #*D*evelopment rights# from each of the #granting lots# may be conveyed, or otherwise disposed of:

(a) directly to a #receiving lot#; or

(b) to a #person# for subsequent disposition to a #receiving lot#, all in accordance with the provisions of this **Subd*D*istrict**, except that with respect to #zoning lots# located on Parcels 6, 7, and 9, as identified on ***the Transfer District*** Map **6 in Appendix A,** only those #development rights# in excess of **the larger of the following conditions may be so conveyed or otherwise disposed of**:

(1) an amount equal to the product of the #lot area# of each of such #zoning lots# multiplied by **5.0**; or

(2) the total #floor area# of all existing #buildings# on any such #zoning lots#, ***whichever excess amount is smaller, may be so conveyed or otherwise disposed of.***

The City Planning Commission shall certify such initial transfer from the #granting lots#. Any #person# may convey its interest in all or a portion of such #development rights# to another #person#, but such #development rights# may only be used for a #development# on a #receiving lot#.

88-0591-65
Addition of Development Rights to Receiving Lots

Within the South Street Seaport Subdistrict, a*A*ll or any portion of the #development rights# transferred from a #granting lot# may be added to the #floor area# of all or any one of the #receiving lots# in an amount not to exceed the ratio of 10 square feet of #development rights# to each square foot of #lot area# of such #receiving lot#, except that with respect to a #receiving lot# having a #lot area# of less than 30,000 square feet, the total #floor area ratio# on such #receiving lot# shall not exceed a #floor area ratio# of 21.6. #Development rights# transferred to a #receiving lot# may be applied to the #development# of a #mixed building# to increase the #floor area# of the #residential#, #commercial#, and/or #community facility# portions of such #building# so that the maximum #floor area# for such #building# may be increased by the aggregate of #development rights# so transferreD. In no event shall the #floor area ratio# of a #residential building#, or portion thereof, exceed 12. 0.

The City Planning Commission shall certify that the proposed #development# which utilizes such transferred #development rights# conforms to the regulations and controls of the Urban Renewal Plan.

The following text was moved and modified from paragraph (c) of Section 74-721 (Height and setback and yard regulations and also incorporates parts of 88-06.

88-0691-66
Conversion of Transferred Development Rights into Tower Coverage
Modification of Bulk Regulations

Within the South Street Seaport Subdistrict, the City Planning Commission may modify the height and setback and #lot coverage# regulations of Section 91-30, provided that:

(a)either of the following conditions have been met:

(1)that the developer has obtained negative easements limiting the height of future #development# to 85 feet or less on any adjoining #zoning lots# which are contiguous or would be contiguous to said #zoning lot# but for their separation by a #street# or #street# intersection, and such easements are recorded against such adjoining #zoning lots# by deed or written instrument. The Commission shall consider the aggregated areas of said #zoning lot# and the adjoining lots subject to such negative easements and the extent to which they achieve future assurance of light and air in determining the maximum permitted coveragE. In no event shall such coverage exceed 80 percent of the #zoning lot# on which the #development# will be located; or

(2)that the #lot coverage# for that portion of a #development# below 300 feet may be increased to a maximum of 80 percent when additional #development rights# have been purchased and #Development rights# transferred to a #receiving lot# may be converted ***in*to** increased ***tower* #lot** coverage#. ***on such #receiving lot# so that t*T*he** maximum percent**age** of #lot ***areacoverage# which may be occupied by a tower*on** such #receiving lot# shall be the sum of ***4065*** percent plus one-half of one percent for every **.10** by which the total #floor area ratio# on such #receiving lot# would exceed a #floor area ratio# of 21.6, provided **that*: (a)*** the #development# on such #receiving lot# has achieved a minimum #floor area ratio# of 18.0; ***and***

(b) tower coverage on such #receiving lot# will not exceed 55 percent.

However, tower coverage may be increased above 55 percent to a maximum of pursuant to Section 74-721 paragraph (a).

(b)In order to grant such special permit, the Commission shall make the following findings:

(1)the location of the #development# and the distribution of #bulk# will permit adequate access of light and air to surrounding #streets# and properties;

(2)any modification of height and setback will provide for better distribution of #bulk# on the #zoning lot#; and

(1)such special permit will aid in achieving the general purposes and intent of the Subdistrict.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding areA.

91-69
Special Permit for Development of Piers 9, 11, 13 and 14

Within the area bounded by South Street, the southerly edge of Pier 9, the U. S. Pierhead Line, and the northerly edge of Pier 14, which, for the requirements of this Section, shall be deemed to be a single #zoning lot#, the City Planning Commission may, by special permit, permit modification of the bulk regulations, other than #floor area ratio# applicable to the #zoning lot#, and may modify or waive the requirements of Section 62-40 (REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AND VISUAL CORRIDORS), in accordance with the provisions of this Section.

The special permit shall be subject to the condition that the property owner, principal lessee or licensee of property owner has entered into an agreement with the Department of Parks and Recreation to operate and maintain the publicly-accessible areas in accordance with Section 62-624 (Maintenaance and operation of waterfront public access areas).For purposes of this Section, the requirementsof such publicly-accessible shall be deemed "waterfront public access areas."

In granting any such modifications, the Commission shall find that:

(a)any modification of height and setback regulations results in an appropriate distribution of permitted bulk on the piers;

(b)no #buildings or other structures# shall unduly obstruct the visual corridor bounded by the prolongation of the northern and southern #street lines# of Wall Street seaward to the U. S. Pierhead Line; and

(c)any modification will not unduly impede surface traffic and will minimize possible vehicular/pedestrian conflicts in the surrounding area;

(d)that the seaward end of all such piers is unobstructed to the greatest extent feasible so as to maximize views northward and southward;

(5)the development plan for such area includes an appropriate amount of publicly accessible open space which shall incorporate appropriate design features that serve the needs of the local area, including but not limited to landscaping, lighting and seating; and

(6)the development plan is integrated with existing and proposed nearby #developments#.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the waterfront and surrounding area

91-70
SPECIAL REGULATIONS FOR CERTAIN AREAS

#Developments# in the #Special Lower Manhattan District# built prior to (effective date of amendment) will continue to be governed by the regulations in effect at the time of issuance of the building permit and can only be modified or altered by the following:

The following Section incorporates the bonus provisions of former Section 86-053 and the mandatory requirements for block 56N in Appendix B of the former Special Greenwich Street Development District (deleted). It also provides for the elimination of the bridge spanning Greenwich Street cited in the mandatory requirements for blocks 52N and 54N.

91-71
Authorization for the Modification of Required Public Amenities

The City Planning Commission may authorize modifications of certain provisions of the former #Special Greenwich Street Development District#, eliminated on (effective date of amendment), that mandated public amenities, as follows:

(a)For any mandatory or elective public amenities or improvements built pursuant to the regulations of the former Special District that resulted in an increase in the basic maximum #floor area ratio# or an increase in the adjusted basic maximum #floor area ratio#, the Commission may authorize:

(1)the alteration of the amenity or improvement, provided that the Commission *finds that such*

modifications improve the intended public purpose of the amenity;

(2)the elimination of the amenity or improvement, provided that the Commission finds that the intended public purpose is no longer useful or desirable and a new public amenity or improvement is supplied, as permitted pursuant to this Chapter, that generates the same or higher amount of bonusable #floor area#; or

(3)in the case of an amenity or improvement built in excess of the requirements necessary to generate the bonus #floor area# at the time of #development#, the elimination of such portion of the amenity not tied to the bonus #floor area#, provided that the Commission finds that such portion is no longer useful or desirablE.

(b)For any mandatory or elective public amenities or improvements built pursuant to the regulations of the former Special District that did not result in an increase in the basic maximum #floor area ratio#, the Commission may authorize the elimination or alteration of the amenity or improvement if it finds that the intended public purpose is no longer useful or desirablE.

(c)No mandatory or elective public amenity or improvement built pursuant to the regulations of the former Special District shall be eliminated or reduced in size, without a corresponding reduction in the #floor area# of the #building# or the substitution of equivalent complying area for such amenity elsewhere on the #zoning lot#, in accordance with the provisions of paragraph (a)(2) of this Section, except by special permit of the City Planning Commission, subject to a finding that the proposed change will provide a greater public benefit in light of the public amenity's purpose and the purposes of the #Special Lower Manhattan District#.

However, the open pedestrian bridge spanning Greenwich Street between Liberty and Cedar Streets may be eliminated, without recourse to the City Planning Commission, where the pedestrian access provided between the required elevated public pedestrian circulation systems is no longer useful or desireD.

The Commission may prescribe appropriate conditions and safeguards in connection with the grant of such authorization.

The following Section incorporates the bonus provisions of former Section 86-053 and the mandatory requirements for block 56N in Appendix B of the deleted Special Greenwich Street Development District.

91-72
Certification for Development on the Block bounded by Liberty, Washington, Cedar and West Streets

For the #block# bounded by Liberty, Washington, Cedar and West Streets, the City Planning Commission shall certify that the following improvements, eligible for as-of-right #floor area# bonuses in the amount specified, are included in any plans for a proposed #development#.

(a)The following mandatory improvements are eligible for as-of-right #floor area# bonuses:

(1)For an open pedestrian bridge with a minimum width of 15 feet spanning Washington Street near its intersection with Liberty Street to provide pedestrian access to the existing elevated public open space at the northern edge of the #block# bounded by Liberty, Washington, Albany and Greenwich Streets, as certified by the Commission, a #floor area# bonus shall be granted in the amount of 90 square feet per linear foot.

(2)For a pedestrian connection at least 15 feet wide with a minimum floor to ceiling height of 12 feet between the existing pedestrian bridge spanning West Street and the bridge required over Washington Street pursuant to paragraph (a)(1) of this Section, as certified by the Commission, a #floor area# bonus shall be granted in the amount of 100 square feet per linear foot.

This connection shall be at the same height as the new bridge, provide an integrated connection to the existing West Street bridge and be open to the public for the same hours as the West Street bridgE. Ramps but not stairs may be incorporated into the pedestrian connection to adjust its height to the Washington and West Street bridges.

(b) An optional pedestrian connection of public access from the pedestrian connection specified in paragraph (a)(2) of this Section to street level may be provided by stair, ramp or escalator and shall be eligible for an as-of-right #floor area# bonus of 120 square feet per linear foot of stair or, if provided by escalators at least 32 inches wide, 20,000 square feet for the provision of a single run, and 30,000 square feet for the provision of a double run.

The development shall have its major pedestrian entrance and lobby on Liberty Street and be integrated with and provide unobstructed pedestrian access between the pedestrian connection specified in paragraph (a)(2) of this Section and the lobby of any new #building# on this #block#

No other #floor area# bonuses are permitted on the #block# unless the Commission has certified that the improvements specified in paragraphs (a) and (b) of this Section are included in any plans for #development# on the #block#.

The following Section incorporates the provisions of former Section 86-14 of the deleted Special Greenwich Street Development District..

91-73
Special Permit for Development over the Approaches to the Brooklyn Battery Tunnel

The City Planning Commission, by special permit, may allow the unmapped air space above the approaches to the Brooklyn Battery Tunnel to be considered a single #zoning lot# and may allow the #development# or #enlargement# of a #building# on such unmapped air spacE.

The #zoning lot# for such #development# or #enlargement# shall include only that portion of the area above the approaches to the Brooklyn Battery Tunnel and contiguous areas of land or property that are covered by a permanent platform and not designated as approaches to the Brooklyn Battery Tunnel.

In order to grant such special permit, the Commission shall find that:

(a)adequate access and #street# frontage to one or more #streets# is provided; and

(b)the streetscape, site design and the location of building entrances of the proposed #development# or #enlargement# will contribute to the overall improvement of pedestrian circulation within the surrounding areA.
The Commission may prescribe appropriate conditions and safeguards to protect and minimize any adverse effects on the character of the surrounding areA.

The following Section incorporates Sections 98-04 and 98-042 of the Special Manhattan Landing District which will be deleteD.

91-74
Special provisions for Battery Park Underpass/South Street

A #zoning lot# containing a #development#, or portion thereof, on a #waterfront zoning lot#, may be located within the volume above the upper limiting plane of the Battery Park Underpass/South Street, when such volume is eliminated, discontinued and closeD. That portion of the #zoning lot# that lies above the Battery Park Underpass/South Street shall not be considered #lot area# for the purpose of computing maximum #floor area#; however, such portion shall be considered #lot area# for all other purposes of this Resolution.

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to Section 502(B) of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired for the above named proceeding and having any claim or demand on account thereof is hereby required, on or before January 18, 1999, to file a claim with the Clerk of the Court of Bronx County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, 100 Church Street, Room 5-236A, Borough of Manhattan, City of New York. The claim shall include the name and post office address of the condemnee, a description of the real property owned by the condemnee or in which the condemnee claims an interest, the nature of the condemnee's interest in the property, a general statement of the nature and type of damages claimed including, if applicable, a schedule of fixture items comprising part or all of the damages claimed, and, if the condemnee is represented, the name, address and telephone number of the condemnee's attorney. In the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.
Pursuant to the Uniform Civil Rules for the Supreme Court and the County Court, §202.61 (a)(1), appraisal reports must be filed or exchanged with the condemnor within nine months after the filing of a post-vesting claim, demand or notice of appearance, unless the time therefor is extended by the court.
The claimant will be required to appear in person to present proof of title and to produce the deed or instrument under which he, she or it claims title, or a certified copy thereof together with copies of leases and rental agreements.
Proof of title will be received by the Corporation Counsel at his office, 100 Church Street, Room 5-236A, Borough of Manhattan, on or before January 18, 1999.

Dated: New York, New York, July 27, 1998

PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitations notices for most procurement above $25,000 for goods or services or above $50,000 for construction and construction related services are published for at least one day.

Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● *Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,*18th Floor, NY, NY 10007 (212) 669-8562

Construction & Construction Related Services

● Mayor's Office of Construction,

Bidders List Unit, 52 Chambers Street, Room 307, New York, NY 10007 (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway 9th Floor,New York, NY 10007 (212) 788-0010 Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual.(see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business.

In order to become certified for the program, your company must substantiate that it:

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,

110 William Street, 2nd Floor,

New York, New York 10038 (212) 618-8782.

PROMPT PAYMENT

It is policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bill within 30 days after the receipt of a proper invioce. The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board51 Chambers Street Room 1126, New York 10007 (212) 788-7820

PROCUREMENT POLICY BOARD RULES

To obtain a copy of the Procurement Policy Board Rules either in hard copy or on disk, call the Procurement Policy Board office, (212) 788-7820. The Rules may also be accessed on the City Website, http://www.ci.nyc.ny.us

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

JOB ORDER CONTRACT GENERAL CONSTRUCTION AND ELECTRICAL WORK FOR LIBRARIES, CULTURALS AND TRANSPORTATION PROGRAM UNITS. PROJECT NO. LCT-JOC1 – CSB – DUE 9-1-98 AT 11 AM – Pin: 85099RQ0001C - General Construction
Pin: 85099RQ0002C - Electrical Work
Bid document deposit $35.00 a set.

Sealed bids will be received by the New York City Department of design and Construction (hereinafter called the "city") from bidders for the Contract hereinafter set forth due at the dates and times specified below. Department of Design and Construction Bid Room, First Floor, 30-30 Thomson Avenue, Long Island City, NY 11101 following which time and place, or as soon thereafter as the City can attend the same, the said bids will be publicly opened and read and tabulated at the Department of Design and Construction by an authorized representative of the Commissioner. The Commissioner will thereafter award the contract based upon the result of the tabulations as covered by applicable laws and regulations.

A bid deposit shall be required in the amount of either a Certified Check for $25,000.00 or a Bond for not less than 10% of the Maximum Contract Amount.

This solicitation for a Job Order Contract which is competitively bid, indefinite quantity contract. The bidders bid an adjustment to pre-set unit prices. The price of individual projects pre calculated by multiplying the unit price by the quantity and the appropriate adjustment factor.

The Job Order Contract awarded under this solicitation will have the following value:

Contract – Minimum Guarantee – Maximum Contract Amount – Bid Due

General – $50,000.00 – $15,000,000.00 – September 1, 1998 at 11:00 am
Electrical – $50,000.00 – $4,000,000.00 – September 1, 1998 at 11:00 am

The basic term of the contract will be for 24 months and will include an option for one (1) additional two year period. It is the current intention of the City to award the (1) Job Order Contract under each solicitation listed above. Withdrawal of bid is permissible after 45 days from date of bid opening, provided such withdrawal is made prior to initial contract award.

Every Contractor is limited to the award of one contract from the contracts solicited by the Department of Design and Construction as part of the JOC program. Bids will not be accepted from contractors currently holding a JOC contract with the Department of Design and Construction. If the contractor is the apparent low bidder on the contracts now advertised, the contract awarded, if at all, will be on the basis which results in the lowest total overall cost to the City for the contracts.

The work envisioned under this Contract will be primarily in support of facilities improvements for the Library, Cultural, and Transportation Units. However, the City, at its sole discretion, may require the contractor to perform other work anywhere within New York City. The City reserves the right to award and use multiple Job Order Contracts.

Interest Parties must attend two mandatory pre-bid conferences. The first prebid conference will be held August 12, 1998 from 10:00 - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing the Job Order contracting theory and the specifics of the JOC program. The second prebid conference will be held August 19, 1998 from 10:00 am - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing Job Order Contracting from a contractor's perspective, how to ananlyze the Unit Price Book, and the risks involved in the program and answering questions.

Each bidder must submit two price adjustment factors for each of the City's five (5) Boroughs. These adjustment factors will be applied to the established unit prices published in the Contract Documents. These same adjustment factors must apply to all the work tasks listed in the Contract Documents. The first adjustment factor will be applied to that work anticipated to be accomplished during normal business hours. The second adjustment factor will be applied to the work anticipated to be accomplished in the other than regular business hours. For the bid evaluation purpose it is estimated that the work distribution within the five (5) boroughs will be equal and that 5% of the total work accomplished under this contract will be during other than regular hours.

Interested parties may obtain one set of the bid and contract documents following the first mandatory pre-bid conference for a deposit of thirty-five dollars ($35.00). The deposit must be in the form of a company check or money order made payable to the City of New York, and drawn upon a state or national bank or trust company, or a check or such bank or trust company signed by a duly authorized officer thereof.

The successful bidder must make a good faith effort to achieve the Locally Based Enterprises (LBE) subcontracting goal.

The City reserves the right to waive minor informalities and to reject any and all bids, in accordance with the rules of the Policy

The basic term of the contract will be for 24 months and will include an option for one (1) additional two year period. It is the current intention of the City to award the (1) Job Order Contract under each solicitation listed above. Withdrawal of bid is permissible after 45 days from date of bid opening, provided such withdrawal is made prior to initial contract award.

Every Contractor is limited to the award of one contract from the contracts solicited by the Department of Design and Construction as part of the JOC program. Bids will not be accepted from contractors currently holding a JOC contract with the Department of Design and Construction. If the contractor is the apparent low bidder on the contracts now advertised, the contract awarded, if at all, will be on the basis which results in the lowest total overall cost to the City for the contracts.

The work envisioned under this Contract will be primarily in support of facilities improvements for the Courts, Correction and Police Units. However, the City, at its sole discretion, may require the contractor to perform other work anywhere within New York City. The City reserves the right to award and use multiple Job Order Contracts.

Interest Parties must attend two mandatory pre-bid conferences. The first prebid conference will be held August 12, 1998 from 10:00 - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing the Job Order contracting theory and the specifics of the JOC program. The second prebid conference will be held August 19, 1998 from 10:00 am - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing Job Order Contracting from a contractor's perspective, how to ananlyze the Unit Price Book, and the risks involved in the program and answering questions.

Each bidder must submit two price adjustment factors for each of the City's five (5) Boroughs. These adjustment factors will be applied to the established unit prices published in the Contract Documents. These same adjustment factors must apply to all the work tasks listed in the Contract Documents. The first adjustment factor will be applied to that work anticipated to be accomplished during normal business hours. The second adjustment factor will be applied to the work anticipated to be accomplished in the other than regular business hours. For the bid evaluation purpose it is estimated that the work distribution within the five (5) boroughs will be equal and that 5% of the total work accomplished under this contract will be during other than regular hours.

Interested parties may obtain one set of the bid and contract documents following the first mandatory pre-bid conference for a deposit of thirty-five dollars ($35.00). The deposit must be in the form of a company check or money order made payable to the City of New York, and drawn upon a state or national bank or trust company, or a check or such bank or trust company signed by a duly authorized officer thereof.

The successful bidder must make a good faith effort to achieve the Locally Based Enterprises (LBE) subcontracting goal.

The City reserves the right to waive minor informalities and to reject any and all bids, in accordance with the rules of the Policy and Procurement Board and the New York City Charter.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

RFEI - GOVERNOR'S ISLAND – CP/2 – DUE 9-11-98 AT 3 PM – The New York City Economic Development Corporation (EDC), on behalf of the City of New York, is issuing a Request for Expressions of Interest (RFEI) for the redevelopment of Governor's Island, which is located off the southern tip of Manhattan in New York's Upper Bay. EDC is preparing a comprehensive redevelopment plan and is inviting expressions of interest regarding all areas of the Island; acceptable uses include: residential, commercial, educational, recreational and entertainment. The Island is 172 acres. The northern half consists of 102 buildings on 90 acres and is designated as an Historic District. The southern 82 acres were built on landfill and offer the greatest potential for supporting new construction. Most recently, the island was occupied by the U.S. Coast Guard and housed a community of 4,000 military personnel and family members. Submission guidelines and requirements are outlined within the RFEI, which is available from EDC. All requests should be directed to Cheryl Elmore at 212-312-3969. PRE-QUALIFIED LIST FOR AUTONOMOUS UNDERWATER INSPECTION OF THE ROUND-WEST BRANCH TUNNEL – CP/PQ/4 – 82699WSQP003 – DUE 9-4-98 AT 4 PM – The New York City Department of Environmental Protection ("DEP") is establishing a Pre-Qualified List ("PQL") of firms to compete for a contract to perform an Autonomous Underwater Vehicle Inspection of the Rondout-West Branch Tunnel (THE "TUNNEL"). The Department intends to award one contract with a period of performance of 37 months. The Tunnel is a 45 miles long water supply pressure tunnel, is 13.5 feet in diameter, and has maximum depth of 1,150 feet. Interested firms are invited to request a Request for Qualification ("RFQ") package. Interested firms are directed to contact Debra Butlien at (718) 595-3423, by FAX at (718) 595-3278, or by mail to Debra Butlien, Professional Service Coordinator, 59-17 Junction Boulevard, 17th floor, Corona, New York 11368. The package consists of a Statement of Qualifications (Federal 254 and 255 forms) and the criteria upon which pre-qualification will be evaluated. All submissions will be reviewed by an evaluation Committee ("EC"). Pre-Qualification will be based upon the EC's recommendations. Pre-qualification neither guarantees selection for the contract, nor selection as a firm to be provided with a Request for Proposal ("RFP"). Responses to the RFQ are to be delivered to Debra Butlien, Department of Environmental Protection Bid Room, 59-17 Junction Boulevard, 17th floor, Corona, New York 11368 and are due no later than 4:00 PM (EST) on Friday, September 4th, 1998. AGENCY RULES

PROCUREMENT POLICY BOARD

NOTICE

OF ADOPTION OF FINAL RULE

The Procurement Policy Board (PPB) adopted an amendment to §7-04/§7-05 Dispute Resolution of its Rules pursuant to Section 311 of the New York City Charter The proposed amendment was published on April 23, 1998 A public hearing was held on April 23, 1998 The amendment was adopted by the PPB on June 11, 1998 The effective date of this rule is September 2, 1998

Basis and Purpose of the Amendment

This amendment repeals §§7-04 and 7-05 and merges them in a re-promulgated 7-04 The new rule requires determinations to be in writing, clearly stated, and to include a reasoned explanation, evaluating the evidence presented by the parties and reasoning to the conclusion reached It expands the time the supplier is allowed to respond to a determination from ten days to thirty days, and removes the current 90-day extended time limit on the Comptroller's determination, allowing the supplier and Comptroller to agree to a mutually-acceptable completion date. Finally, it grants both the supplier and the City agency the right to seek relevant documents from each other, with the attendant right to assert claims of legally-recognized privilege, such as those between attorney and client

The new rule applies only to solicitations issued after its effective date

The Amended Rule

In the amended rule, which immediately follows this notice, new material is underlined and deletions are bracketed.

Dated, June 11, 1998

CHAPTER 7 DISPUTE RESOLUTION
(is amended as follows:)

[SECTION 7-04 RESOLUTION OF DISPUTES ARISING OUT OF CONTRACT ADMINISTRATION: GOODS AND SERVICES NOT RELATED TO CONSTRUCTION

SECTION 7-05 RESOLUTION OF DISPUTES ARISING OUT OF CONTRACT ADMINISTRATION: CONSTRUCTION AND CONSTRUCTION-RELATED SERVICES]

SECTION 7-04 RESOLUTION OF DISPUTES ARISING OUT OF CONTRACT ADMINISTRATION

(a) Applicability This section shall apply to disputes between the City and a contractor that arise under, or by virtue of, a contract between them. All contracts shall include a clause providing that all disputes of the kind delineated herein shall be finally resolved in accordance with the provisions of this section. Parties to contracts that do not contain this clause may by written agree: ent consent to the resolution of any disputes pursuant to this section.

1. This section shall not apply to disputes concerning matters dealt with in other sections of this chapter or to disputes involving patents, copyrights, trademarks, or trade secrets (as interpreted by the courts of New York State) relating to proprietary rights in computer software.

2 For construction and construction-related services this section shall apply only to disputes about the scope of work delineated by the contract, the interpretation of contract documents, the amount to be paid for extra work or disputed work performed in connection with the contract, the conformity of the contractor's work to the contract, and the acceptability and quality of the contractor's work, such disputes arise when the Engineer (defined in the contract) makes a determination with which the contractor disagrees

(b) General Provisions 1 All determinations required by this section shall be made in writing, clearly stated, with a reasoned explanation for the determination based on the information and evidence presented to the party making the determination Failure to make such determination within the time period required by this section shall be deemed a non-determination without prejudice that will allow appeal to the next level

(c) Work to Continue During such time as any dispute is being presented, heard, and considered pursuant to this section, the contract terms shall remain in force and work shall continue as directed by the ACCO or Engineer. Failure of the contractor to continue the work as directed shall constitute a waiver by the contractor of its claim.

(d) Presentation of Dispute to Agency Head

(1) Notice of Dispute and Agency Response The contractor shall present its dispute in writing ("Notice of Dispute") to the Agency Head within the time specified by the contract or, if no time is specified, within thirty days of receiving notice of the determination or action that is the subject of the dispute This notice requirement shall not be read to replace any other notice requirements contained in the contract The Notice of Dispute shall include all the facts, evidence, documents, or other basis upon which the contractor relies in support of its position, as well as a detailed computation demonstrating how any amount of money claimed by the contractor in the dispute was arrived at Within thirty days after receipt of the detailed written submission, the ACCO or, in the case of construction or construction-related services, the Engineer shall submit to the Agency Head all materials he or she deems pertinent to the dispute Following initial submissions to the Agency Head, either party may demand of the other the production of any document or other material the demanding party believes may be relevant to the dispute The requested party shall produce all relevant materials that are not otherwise protected by a legal privilege recognized by the courts of New York State Any question of relevancy shall be determined by the Agency Head whose decision shall be final. Wilful failure of the contractor to produce any requested material whose relevancy the contractor has not disputed, or whose relevancy has been affirmatively determined, shall constitute a waiver by the contractor of its claim.

(2) Agency Head Inquiry. The Agency Head shall examine the material and may, in his or her discretion, convene an informal conference with the contractor and the ACCO and, in the case of construction or construction-related services, the Engineer to resolve the issue by mutual consent prior to reaching a determination. The Agency Head may seek such technical or other expertise as he or she shall deem appropriate, including the use of neutral mediators, and require any such additional material from either or both parties as he or she deems fit The Agency Head's ability to render, and the effect of, a decision hereunder shall not be impaired by any negotiations in connection with the dispute presented, whether or not the Agency Head participated therein The Agency Head may or, at the request of any party to the dispute, shall compel the participation of any other contractor with a contract related to that of the party presenting the dispute, and that contractor shall be bound by the decision of the Agency Head. Any contractor thus brought into the dispute resolution proceeding shall have the same rights to make presentations and to seek review as the contractor initiating the dispute

(3) Agency Head Determination. Within thirty days after the receipt of all materials and information, or such longer time as may be agreed to by the parties, the Agency Head shall make his or her determination and shall deliver or send a copy of such determination to the contractor and ACCO and, in the case of construction or construction-related services, the Engineer, together with a statement concerning how the decision may be appealed

(4) Finality of Agency Head Decision. The Agency Head's decision shall be final and binding on all parties, unless presented to the Contract Dispute Resolution Board pursuant to this section. The City may not take a petition to the Contract Dispute Resolution Board. However, should the contractor take such a petition, the City may seek, and the Board may render, a determination less favorable to the contractor and more favorable to the City than the decision of the Agency Head

(e) Presentation of Dispute to the Comptroller Before any dispute may be brought by the contractor to the Contract Dispute Resolution Board, the contractor must first present its claim to the Comptroller for his or her review, investigation, and possible adjustment

(1) Time, Form, and Content of Notice Within thirty days of its receipt of a decision by the Agency Head, the contractor shall submit to the Comptroller and to the Agency Head a Notice of Claim regarding its dispute with the agency The Notice of Claim shall consist of (i) a brief written statement of the substance of the dispute, the amount of money, if any, claimed and the reason(s) the contractor contends the dispute was wrongly decided by the Agency Head, (ii) a copy of the written decision of the Agency Head, and (iii) a copy of all materials submitted by the contractor to the agency, including the Notice of Dispute The contractor may not present to the Comptroller any material not presented to the Agency Head, except at the request of the Comptroller

(2) Agency Response. Within thirty days of receipt of the Notice of Claim, the agency shall make available to the Comptroller a copy of all material submitted by the agency to the Agency Head in connection with the dispute. The agency may not present to the Comptroller any material not presented to the Agency Head except at the request of the Comptroller

(3) Comptroller Investigation. The Comptroller may investigate the claim in dispute and, in the course of such investigation, may exercise all powers provided in sections 7-201 and 7-203 of the New York City Administrative Code In addition, the Comptroller may demand of either party, and such party shall provide, whatever additional material the Comptroller deems pertinent to the claim, including original business records of the contractor. Wilful failure of the contractor to produce within fifteen days any material requested by the Comptroller shall constitute a waiver by the contractor of its claim The Comptroller may also schedule an informal conference to be attended by the contractor, agency representatives, and any other personnel desired by the Comptroller.

(4) Opportunity of Comptroller to Compromise or Adjust Claim The Comptroller shall have forty-five days from his or her receipt of all materials referred to in (f)(3) to investigate the disputed claim The period for investigation and compromise may be further extended by agreement between the contractor and the Comptroller, to a maximum of ninety days from the Comptroller's receipt of all the materials. The contractor may not present its petition to the Contract Dispute Resolution Board until the period for investigation and compromise delineated in this section has expired In compromising or adjusting any claim hereunder, the Comptroller may not revise or disregard the terms of the contract between the parties

(f) Contract Dispute Resolution Board There shall be a Contract Dispute Resolution Board composed of

(1) the CCPO or a designee,

(2) an employee of another City agency, having the requisite background to consider and resolve the merits of the dispute (who shall be selected by the CCPO from a prequalified list of such employees), or, in the case of construction or construction-related services, the Director of the Office of Construction or a designee, and

(3) a neutral person with appropriate expertise This person shall be selected by the CCPO or, in the case of construction or construction-related services, the Director of the Office of Construction from a prequalified panel of individuals approved by the Procurement Policy Board with appropriate background to act as decision-makers in a dispute Such individuals may not have a contract or dispute with the City or be an officer or employee of any company or organization that does, or regularly represent persons, companies, or organizations having disputes with the City Persons serving in this capacity shall be paid on a per diem basis

The CCPO or, in the case of construction or construction-related services, the Director of the Office of Construction shall act as chairperson, and may adopt operational procedures and issue such orders, consistent with this section, and may grant such extensions of time to present or respond to submissions as may be necessary in the execution of the Board's functions The Board, in its discretion, may combine more than one dispute between the parties for concurrent resolution

(g) Petition to Contract Dispute Resolution Board In the event the claim has not been settled or adjusted by the Comptroller within the period provided in this section, the contractor, within thirty days thereafter, may petition the Contract Dispute Resolution Board to review the Agency Head determination.

(1) Form and Content of Petition by Contractor The contractor shall present its dispute to the Contract Dispute Resolution Board in the form of a Petition, which shall include (i) a brief written statement of the substance of the dispute, the amount of money, if any, claimed and the reason(s) the contractor contends that the dispute was wrongly decided by the Agency Head; (ii) a copy of the written decision of the Agency Head; (iii) copies of all materials submitted by the contractor to the agency; (iv) a copy of the written decision of the Comptroller, if any, and (v) copies of all correspondence with, or written material submitted by the contractor to, the Comptroller's Office The contractor shall concurrently submit three complete sets of the Petition to the Contract Dispute Resolution Board (c/o the Mayor's Office of Contracts or, in the case of construction or construction-related services, the Mayor's Office of Construction), one complete set of the Petition to the Corporation Counsel (Attn Commercial and Real Estate Litigation Division), and one copy of the written statement of the substance of the dispute, cited in (i) above, to both the Agency Head and the Comptroller.

(2) Agency Response Within thirty days of its receipt of the Petition, the agency shall respond to the brief written statement of the contractor and make available to the Board all material it submitted to the Agency Head and Comptroller Three complete copies of the agency response shall be provided to the Contract Dispute Resolution Board and one to the contractor

(3) Further Proceedings The Board shall permit the contractor to present its case by the submission of memoranda, briefs, and oral argument The Board shall also permit the agency to present its case in response to the contractor by the submission of memoranda, briefs, and oral argument If requested by the Corporation Counsel, the Comptroller shall provide reasonable assistance in the preparation of the agency's case Neither the contractor nor the agency may support its case with any documentation or other material that was not considered by the Comptroller, unless requested by the Board. The Board, at its discretion, may seek such technical or other expertise as it shall deem appropriate and any such additional material from any party as it deems fit

(4) Contract Dispute Resolution Board Determination Within forty-five days of the conclusion of all written submissions and oral arguments, the Board shall render a written decision resolving the dispute In an unusually complex case, the Board may render its decision in a longer period of time, not to exceed ninety days, and shall so advise the parties at the commencement of this period. The Board's decision must be consistent with the terms of the contract In reaching its decision, the Board shall accord no precedential significance to prior decisions of the Board involving other non-related contracts

(5) Notification of Contract Dispute Resolution Board Decision The Board shall send a copy of its decision to the contractor, the ACCO, and in the case of construction or construction-related services, the Engineer, and the Comptroller

(6) Finality of Contract Dispute Resolution Board Decision The Board's decision shall be final and binding on all parties. The contractor may seek review of the Board's decision solely in the form of a challenge, made within four months of the date of the Board's decision, in a court of competent jurisdiction of the State of New York, County of New York, under the procedures and rules applicable in that court, and the City may then cross-appeal Such review by the court shall be limited to the question of whether or not the Board's decision was obtained or infected by fraud, bad faith, or palpable error. No evidence or information shall be introduced or relied upon in such proceeding that was not presented to the Board in accordance with this section In any such proceeding the City may seek and the court may render a decision more favorable to the City than that rendered by the Contract Dispute Resolution Board

(h) Any termination, cancellation, or alleged breach of the contract prior to or during the pendency of any proceedings pursuant to this section shall not affect or impair the ability of the Agency Head or Contract Dispute Resolution Board to make a binding and final decision pursuant to this section

Applicability of this Section

Where a #development# or #enlargement# is constructed on a #zoning lot# of ***at least*** 5,000 square feet **or more of #lot area#** that fronts on a portion of a sidewalk containing a stairway entrance or entrances into a subway station **located within the #Special Midtown District# as listed in Section 81-46, the #Special Lower Manhattan District# as listed in Section 91-43, the #Special Union Square District# as listed in Section 118-60 and those stations** listed in ***this Section*****the following table**, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. The new entrance or entrances shall be provided in accordance with the provisions of this Section. ***These provisions are in accordance with the New York City Transit Authority's "Station Planning Guidelines" (Revised, 1975, and as may be subsequently revised).***

A relocated subway stair or a subway stair that has been renovated in accordance with the provisions of this Section and Section 37-07 (Requirements for Pedestrian Circulation Space) may be counted as pedestrian circulation space pursuant to Section 37-07.

Standards for location, design and hours of public accessibility

In addition to the standards set forth in the **current station planning guidelines as issued by** New York City Transit ***Authority's "Station Planning Guidelines" (Revised, 1975, and as may be subsequently revised)***, the following standards shall also apply:

(a)**Location**

The relocated **or renovated** entrance shall be immediately adjacent to, and accessible without any obstruction from a public sidewalk, ***or from within a space accessible to the public, as those spaces are defined in the applicable zoning district regulations*** **or pedestrian circulation space as defined in Section 37-07 (Requirements for pedestrian circulation space). Any such pedestrian circulation space shall have a minimum horizontal dimension equal to the width of the relocated stairs or the minimum width of the pedestrian circulation space, whichever is greater.**

(b)The relocated **or renovated** entrance may be provided within a #building#, but shall not be enclosed by any doors. The area occupied by a relocated **or renovated** entrance within a #building# shall not be counted towards the #floor area# of the #enlargement# or #development#.

Paragraphs (c) through (h) have been revised and rearranged as paragraph (b). Additional information from Section 81-47(b) has been incorporateD.

(***c***b) **Design standards**

The relocated or renovated entrance shall have a stair width of at least eight feet for each run.

(c)The relocated entrance shall have a queuing space at the top and bottom of the stairs at least eight feet wide and 15 feet long, and such queuing space may overlap a #sidewalk widening#, an #arcade#, a #plaza#, a #residential plaza# or an #urban plaza#.

(d)Where two or more existing stairway entrances are being relocated **or renovated** as part of the same #development# or #enlargement#, the new entrance or entrances shall have ***a*** total stair ***width or*** widths equal to or greater than the sum of the stair widths of th***ose existing*** stairway entrances ***being relocated***, but in ***any*** **no** case ***no*** **may any stair be** less than eight feet in widtH.

The relocated entrance may be relocated within an #urban plaza#, provided that the minimum width of each stair is ten feet and the queuing area of the relocated entrance is unobstructed and contiguous to a sidewalk or a sidewalk wideninG. A relocated entrance within an #urban plaza# is a permitted obstruction, but shall not be subject to the percentage limit on permitted obstructions for an #urban plaza#.

(c)**For a relocated entrance only, the entrance shall have a queuing space at the top and bottom of the stairs that is at least eight feet wide and 15 feet lonG. Such queuing space may overlap with an #urban plaza# or an #arcade# in accordance with the provisions of Sections 27-60 (ARCADES) or 37-073 (Design standards for pedestrian circulation spaces).**

No stairway shall have more than 14 risers without a landing, and each landing shall have a minimum width equal to the width of the stairs, and a minimum length of five feet.

Throughout the entire stairway entrance, including passageways, the minimum clear, unobstructed height shall be at least 7 feet, 6 inches from finished floor to finished ceiling, including all lighting fixtures and #signs#.

(e)The entire entrance area, including passageways, shall be free of obstructions of any kind, except for projecting information signagE.

(f)The relocated entrance may be relocated within a #plaza#, a #residential plaza# or an #urban plaza# provided that the queuing area of the relocated entrance is unobstructed and contiguous to a sidewalk or a #sidewalk widening#. A relocated entrance with a #plaza#, a #residential plaza# or an #urban plaza# is permitted obstruction, but shall not be subject to the percentage limit on permitted obstructions for a #plaza#, a #residential plaza# or an #urban plaza#.

(g)The relocated entrance shall connect to an existing or proposed subway passageway, or shall connect, via an underground passageway, to a mezzanine area of the subway station.

(h)The below-grade portion of a relocated entrance may be constructed within the #street#.

(c) **Hours of public accessibility**

(i)The relocated **or renovated** entrance shall be accessible to the public during the hours when the connected mezzanine area is open to the public or as otherwise approved by ***the*** **New York City** Transit ***Authority.***

37-***033*032**
Administrative procedure for a subway stair relocation **or renovation**

(a) **For any #development# or #enlargement# that is subject to the requirements for the relocation of a subway stair entrance or counts a renovated subway stair as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space), Except as otherwise provided in paragraph (b) of this Section,** no plan shall be approved by the Department of Buildings and no excavation permit or building permit shall be issued ***for any #development# or #enlargement# that is subject to the requirements for the relocation of a subway stair entrance***, unless **the following criteria are met:**

(***1a***)**for a relocated entrance, s**Such plan includes a stair relocation plan and ***the*** related documents that bind the developer to:

(***i1***)construct the new stair entrance in accordance with such plan;

(***ii2***)demolish above-ground elements of the existing entrance; ***and***

(***iii3***)seal the existing entrance at the sidewalk level.; **and**

(4)maintain the work performed on the relocated or renovated entrance; or

(2b)for a renovated entrance, such plan includes a renovation plan and related documents that bind the developer to:

(1)renovate or reconstruct the entrance in accordance with such plan; and

(2)maintain the work performed on the renovated or reconstructed entrance; and

(2c)***S***such plan and related documents bear ***the*** **New York City** Transit ***Authority***'s approval**; and**

(3d)***S***such plan is accompanied by a certified copy of an agreement, as recorded between ***the*** **New York City** Transit ***Authority*** and the owner for an easement on the #zoning lot# for subway-related use of the new stair entrance and for public access via such entrance to the subway station, which agreement has been recorded against the #zoning lot# in the Office of the Register of the City of New York ***(County of New York)*** and is accompanied by the Register's receipt of recordation.**; and**

(4)Such plan is accompanied by any request for modification of special urban design guidelines pursuant to Section 37-034.

(b)In the event that major construction problems render the stair relocation infeasible or that operating design considerations make it undesirable, the Transit Authority and the City Planning Commission, by joint certification, may release the developer from said requirement. In such event, the stair relocation requirement shall be satisfied by retention of the existing stair and provision on the #zoning lot# of an open area which accommodates pedestrian traffic passing the existing entrancE. Such space shall have a width equal to at least one and one-half times the width of the existing stair entrance and shall extend along the full length of the stair entrancE. Incorporated into Section 37-034.

(***c***e)**no permanent certificate of occupancy shall be issued for any #development# or #enlargement# subject to the subway stair relocation requirement or counting a renovated or reconstructed subway stair as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space), unless and until all of the work required under paragraphs (a) or (b) of this Section has been completed and New York City Transit has so certified in writing to the Department of Buildings.** ***Prior to obtaining a permanent certificate of occupancy, the relocated subway stair must be 100 percent complete in accordance with the approved plans and such completion shall have been certified by the Transit Authority.***

37-***034*033**
Modification of ***special urban design guidelines and urban open space*****requirements for a relocated or renovated subway stair**

The **Chairperson of the** City Planning Commission may, by certification to the Commissioner of Buildings, allow modifications of the requirements of Section 37-01 (Special Urban Design Guidelines - Streetscape), Section 37-02 (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), **37-031 (Standards for location, design and hours of public accessibility) or 37-04 (Requirements for Urban Plazas)** ***and the applicable provisions of #urban open space# in Section 12-10 (DEFINITIONS),*** if ***it finds that*** the relocated subway stair cannot be accommodated without modification to these provisions.

Waiver of requirements

(Delete existing text.)

The provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair) may be waived by joint certification of New York City Transit and the Chairperson of the City Planning Commission that major construction problems or operating design considerations render the stair relocation infeasiblE. In such event, the stair relocation requirement may be satisfied by retention of the existing stair and the provision on the #zoning lot# of an open area, qualifying under the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space), that accommodates pedestrian traffic passing the existing stair entrancE. Adapted from Section 37-032(b).

Sections 37-041 and 37-042 have been deleteD. Section 37-043 has been merged with Section 37-04. No current requirements have been deleted; no new requirements have been addeD.

37-04
Requirements for ***Open Air Concourses, Sidewalk Widenings and*** Urban Plazas

#Open air concourses#, #sidewalk widenings# and #urban plazas# are collectively referred to as #urban open spaces#. All #urban ***open spaces*** **plazas#** shall comply with the ***following basic requirements*** **provisions** of this Section. ***and with additional requirements as specified for each type in accordance with the provisions of Sections 37-041 (Open air concourses), 37-042 (Sidewalk widenings), and 37-043 (Urban plazas).*** These provisions may be modified pursuant to Sections 74-91 (***Urban Open Space*** Modifications **of Urban Plazas**) and 81-23 (Floor Area Bonus for Urban Plazas).

No foundation permit shall be issued by the Department of Buildings for any #development# that includes an #urban plaza# without certification by the Chairperson of the City Planning Commission that a site plan has been submitted indicating compliance with the provisions of this Section. An application for such certification shall be filed with the Chairperson showing the plan of the #zoning lot#; a site plan indicating the area and dimensions of the proposed #urban plaza# and the location of the proposed #development# or #enlargement# and all existing #buildings# temporarily or permanently occupying the #zoning lot#; computations of proposed #floor area#, including bonus #floor area#; and a detailed plan or plans demonstrating compliance with the provisions of this Section.

All plans for #urban plazas#, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification of the #urban plaza# pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the filing for or issuance of any building permit for any #development# or #enlargement# on the #zoning lot#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording datE.

Following graytoned text relocated from current Section 37-043(a).

(a)***Restrictions on location of non-qualifying open a*** Areas and dimensions

An #urban plaza# shall contain an area of not less than 1,600 square feet. In no case may spaces between existing #buildings# remaining on the #zoning lot# qualify as #urban plazas#. In addition, in order t*T*o preserve ***the intent of*** the provisions relating to the boundaries, proportions and obstructions of #urban **plazas*open spaces#***, on any one #zoning lot#, an open area which does not qualify for bonus #floor area# may not be located between two #urban plazas#, ***between an #open air concourse# and an #urban plaza#,*** or between an #urban plaza# ***or #open air concourse#*** and a building wall or #arcade# of the #development#.

(b)Planting and trees

(1)#Street# trees adjacent to #urban open spaces#

#Street# trees are required to be planted in the public sidewalk area adjacent to a #zoning lot# that contains bonus #floor area# for #urban open space#. At least one tree of four-inch caliper or more shall be planted for each 25 feet of the entire #street# frontage of the #zoning lot#, excluding the frontage occupied by driveways. The length of frontage of the #zoning lot# for the purpose of computing required #street# trees may also be reduced by 50 feet for each #street# intersection fronted by the #zoning lot#. The required trees shall be planted with gratings flush to grade in at least 200 cubic feet of soil per tree, with a depth of soil of at least 3 feet, 6 inches. Species shall be selected, located and maintained in accordance with the specifications established by the Department of Parks and the Department of Highways. If the Commissioner of Buildings determines that the tree planting requirements of this paragraph cannot be met in part or in whole because of subsurface conditions such as the presence of a subway tunnel, the number of required #street# trees that cannot be planted as required in this paragraph shall be planted in the public sidewalk areas of #streets# on the same #block# as the #zoning lot# to which it has frontagE. Where an #urban plaza# is #developed#, such additional trees may be planted within the #urban plaza# in addition to the trees required in Section 37-043, paragraph (k). No trees shall be planted within a #sidewalk widening#.

(2)Trees within an #urban plaza# or #open air concourse#

Where trees are planted within an #urban plaza# or #open air concourse#, they shall measure at least four inches in caliper at the time of plantinG. Each tree shall be planted in at least 200 cubic feet of soil with a depth of soil of at least 3 feet, 6 inches. Any planting bed containing required plaza trees shall have a continuous area of at least 75 square feet for each tree exclusive of bounding walls and shall have bounding walls not higher than 20 inches above the adjacent walking surfacE. Trees shall be planted at a maximum spacing of 25 feet apart within a single planting beD.

(3)Planting within an #urban plaza# or #open air concourse#

When planting beds are provided, they shall have a soil depth of at least two feet for grass or other ground cover, three feet for shrubs and three feet, six inches for trees.

For #open air concourses#, additional planting requirements are set forth in Section 34-042, paragraph (f).

For #urban plazas#, additional planting and tree requirements are set forth in Section 34-043, paragraph (k).
(c)Paving

The paving of the #urban open space# shall be of non-skid durable materials that are decorative and compatible in color and pattern. The paving of the #street# sidewalk area adjacent to the #development# may be treated with design patterns and materials sympathetic to that of the paving of the #urban open space#. Any change of paving materials within the public right-of-way shall require review by the Department of Highways and the Art Commission.

(d)Standards of accessibility for persons with disabilities to #urban plazas# and #open air concourses#
(1)There shall be at least one path of travel conforming to the standards set forth in paragraph (d)(2) of this Section providing access to each of the following:

(i)the major portion of an #urban plaza# or #open air concourse#;

(ii)any building lobby accessible to the #urban plaza# or #open air concourse#; and

(iii)any #use# that may be present on or adjacent to the #urban plaza# or #open air concourse#.

(2)The following standards shall apply to assure access for persons with disabilities:

(i)Such paths shall have a minimum width of five feet, except where specific provisions require a greater width, free and clear of all obstructions.

(ii)Ramps shall be provided alongside any stairs or steps for such paths. Ramps shall have a minimum width of three feet, a slope of not greater than one in 12, a non-skid surface and, for open-edged ramps, a two-inch high safety curB. At each end of a ramp there shall be a level area, which may be a public sidewalk, at least five feet lonG. In an #open air concourse#, because elevator service shall be provided, no such ramps are required to connect the mezzanine portion with the #street# level portion.

(iii)All stairs or ramps within such paths shall provide handrails. Handrails shall be 34 inches high, have a midrail 22 inches high and shall extend at least 18 inches beyond the stair or ramp ends.

(iv)Where stairs are used to effect changes of grade for such paths, they shall have closed risers, no projecting nosings, a maximum riser height of seven and one-half inches and a minimum tread width of eleven inches.

Following graytoned text relocated from current Section 37-043(b).

(b)Locational restrictions

In other than C5-5 or C6-9 Districts, no #urban plaza#, or portion thereof, is permitted to occupy more than 33 percent of the frontage of the #zoning lot#, or portion thereof, within 175 feet of an existing #plaza#, #urban plaza#, #public park# or urban park that occupies more than 33 percent of its #block# frontage on the same or opposite side of the same #street# and has a depth of at least 12 feet. The distance of 175 feet shall be measured along the #street# on which the existing amenity fronts.

Following graytoned text relocated from current Section 37-043(c).

(c)Restrictions on orientation

In other than C5-5 or C6-9 Districts, the following restrictions shall apply to all #urban plazas#:

For purposes of the orientation requirements, a "north-facing," "south-facing," "east-facing" or "west-facing" #street line# means a #street line# facing within 27 degrees of the direction indicateD. "To front on a #street#" means to be contiguous to the #street line# or to a sidewalk widening along the #street line#.

(1)Where the major portion of an #urban plaza# fronts on only one #street line#, such major portion is not permitted to front on a north-facing #street line# of a #zoning lot#.

(2)No major portion of an #urban plaza# shall only front on a west-facing #street line# or an east-facing #street line# if the #zoning lot# also has frontage that is 40 feet or more in length on a south-facing #street line#.

(3)An #urban plaza# that is located on an intersection of two #streets# must have its major portion, as defined in paragraph (d)(2) of this Section, front on the south-facing #street line#. In the case of a #zoning lot# having frontage on a south-facing #street line# of less than 40 feet, or having its frontage at the intersection of a north-facing #street line# with either an east- or west-facing #street line#, the major portion must front on the east- or west-facing #street line#.

Following graytoned text modified and relocated from current Sections 37-043(d) and (e).

(d)Requirements for major portions of #urban plazas#

(1)All contiguous #urban plaza# areas on a #zoning lot# shall be considered as one #urban plaza#.

(2)The shape and dimensions of an #urban plaza# shall be such that for a major portion of the #urban plaza#, comprising at least the percentage of total area specified herein, all points within such major portion shall be visible from all other points therein. For the purposes of this regulation, points that when viewed in plan may be joined by a straight line shall be considered visible one from the other; visibility between points shall not be affected by permitted obstructions or by changes of gradE.

The major portion of an #urban plaza# shall be at least 70 percent of the #urban plaza's# total area, except that in the case of a through #block urban plaza# as defined in paragraph (e) of this Section, the major portion shall be at least 50 percent of such #urban plaza's# total areA. The major portion of the #urban plaza# shall be subject to the proportional requirements set forth in paragraphs (d)(4) and (d)(5) of this Section.

(3)The major portion of an #urban plaza# shall have a minimum dimension of 40 feet. The remaining portion of such #urban plaza# shall have a minimum dimension of 20 feet. Dimensions shall be measured parallel and perpendicular to the #street line# on which the #urban plaza# fronts.

(4)For major portions of #urban plazas# with frontage on two or more intersecting #streets#, the length of the frontage along any one #street# shall not be greater than three times the average depth of the #urban plaza# measured perpendicular to the #street line# of said #street# from the building wall that faces it.

(5)For major portions of #urban plazas# with frontage on only one #street#, at no point shall the depth from the building wall or rear #lot line# that faces the #street# to the #street line# be less than one-third nor more than three times the length of the frontage of the major portion along such #street line#.

Following graytoned text relocated from current Section 37-043(f).

(e)Regulations for through #block urban plazas#.

Where an #urban plaza# or portion of an #urban plaza# extends through the #block# connecting two #streets# that are parallel or within 45 degrees of being parallel to each other, and any building wall or walls adjoin such through #block urban plaza# or through #block# portion of an #urban plaza#, no more than 120 feet aggregate length of such walls within 50 feet of the opposite side of the through #block urban plaza# shall exceed 90 feet in height from the surface of the #urban plaza#. In addition to the 20 feet minimum width requirement described in paragraph (d)(3) of this Section, such a through #block urban plaza# shall maintain a straight path at least 15 feet in width, free of any obstructions from #street line# to #street line#.

Following graytoned text relocated from current Section 37-043(g).

(f) Circulation and access

(1) To facilitate access to an #urban plaza#, within 10 feet of a #street line# or sidewalk widening, along at least 50 percent of each #street# frontage of the major portion and the entire #street# frontage of the remaining portion of an #urban plaza#, the surface of the #urban plaza# shall be at the same elevation as the adjoining public sidewalk. Along at least 50 percent of each #street# frontage of the major portion and at least 50 percent of each #street# frontage of the remaining portion of an #urban plaza#, for a depth of at least 20 feet from the #street line#, there shall be no obstruction to public access to the #urban plaza# from a sidewalk or sidewalk wideninG. For the remaining 50 percent of the frontage and within 20 feet of the #street line#, no walls or other obstructions shall be higher than three feet above the #curb level# of the #street line# in front of the #urban plaza#. However, the City Planning Commission may permit, by authorization, certain obstructions such as light stanchions, flag poles, trash receptacles, public space signage or other features to be located in the #urban plaza# within 20 feet of the #street line#, provided that the Commission finds that:

(i)such obstructions are desirable or necessary features for the public enjoyment of the #urban plaza#; and

(ii)sufficient public access additional to the minimum required under the provisions of this paragraph (Circulation and access) is provided to offset any adverse impact on public circulation or access caused by the obstructions or features permitted by such authorization.

The Commission shall furnish a copy of the application for such authorization to the affected Community Board and the local Council Member at the earliest possible stage and will give due consideration to their opinions as to the appropriateness of such obstructions. If the Community Board or local Council Member elects to comment on such application, it must be done within 45 days of such application.

(2)The level of an #urban plaza# shall not at any point be more than three feet above or below the #curb level# of the nearest adjoining #street# in front of the major portion of the #urban plaza#; however, an #urban plaza# with an area of 10,000 square feet or more may additionally have a maximum of 15 percent of its area at an elevation more than three feet above or below, but not more than five feet above or below #curb level# of the nearest adjoining #street# in front of the major portion of the #urban plaza#.

(3)Where there is a grade change of at least 2. 25 feet in 100 feet along a portion of a #street# fronted upon, for a distance of at least 75 feet, by an #urban plaza# with an area of 10,000 square feet or more, the level of such #urban plaza# may be at any elevation that is not more than five feet above or below the #curb level# of the nearest adjoining #street# in front of the #urban plaza#. Along the length of frontage not required for access, no wall higher than three feet above the level of the adjoining sidewalk may be constructeD.

(4)For areas of #urban plazas# not obstructed by permitted obstructions as set forth in paragraph (f)(1) of this Section, a circulation path shall be provided of at least five feet clear widtH. A major public path at least eight feet in width shall extend to at least 75 percent of the depth of the major portion of the #urban plaza#, measured from the #street line#.

(5)Where an entry to a subway station exists in the sidewalk area of a #street# on which an #urban plaza# fronts and such entry is not replaced within the #urban plaza# itself, the #urban plaza# shall be #developed# at the same elevation as the adjacent sidewalk for a distance of at least 15 feet in all directions from the entry superstructurE. Such #urban plaza# area around a subway entry shall be free of all obstructions.

(6)Where an entry to a subway station is provided within the #urban plaza# itself, stairs shall have a minimum width of 10 feet.

(**eg**) Permitted obstructions

The provisions of paragraph (e) of this Section shall not apply to #sidewalk widenings#.

(1) #Urban ***open spaces*****plazas#** shall be unobstructed from their lowest level to the sky except for the following features, equipment and appurtenances normally found in #public parks# and playgrounds: fountains and reflecting pools; waterfalls; sculptures and other works of art; benches; seats; trees planted at grade or in planting beds; bushes and flowers in planters or in planting beds; arbors or trellises over public seating areas; litter receptacles; bicycle racks; outdoor furniture; lights and lighting stanchions; flag poles; public telephones; public toilets; temporary exhibitions; awnings or canopies over the entrances to retail stores fronting on the #urban ***open space*****plaza#**; bollards; subway station entrances, which may include escalators; and drinking fountains. If drinking fountains are provided, at least one fountain shall be accessible to wheelchair users by being 30 inches high, hand-and-foot operated, and display the International Symbol of Access. **In addition to the obstructions listed in this paragraph, #urban plazas# having an area of 10,000 square feet or more may include an open air amphitheater or an outdoor ice skating rink. However, an area occupied in aggregate by such permitted obstruction shall not exceed the maximum percentage cited in paragraph (g)(2) of this Section.** Graytoned text relocated from current Section 37-043(h)(1).

(2) Permitted obstructions may occupy a maximum percentage of the area of an ***#open air concourse# as set forth in paragraph (e) of Section 37-042, and an*** #urban plaza#, as **follows: set forth in paragraph (h) of Section 37-043.**

Following graytoned text relocated from current Section 37-043(h)(2).
For #urban plazas# less than 5,000 square feet in area: 38 percent

For #urban plazas# at least 5,000 square feet in area
and less than 10,000 square feet in area: 40 percent
For #urban plazas# 10,000 square feet or more in area: 50 percent

The area of permitted obstructions shall be measured by outside dimensions. Obstructions that are non-permanent or movable, such as movable chairs, open air cafes, or temporary exhibitions shall be confined within gross areas designated on the site plan, and not measured as individual pieces of furniturE.

*(3)*Trees do not count as obstructions for the purpose of calculating total area occupied by permitted obstructions. Planting beds and their retaining walls for trees count as obstructions.
(*43*) Kiosks and open air cafes may be placed within an #urban ***open space*** **plaza#** upon certification, pursuant to paragraph (**eg**)(6) of this Section. Such features shall be treated as permitted obstructions for the purposes of paragraph (***eh***) of this Section.

Where a kiosk is provided, it shall be a one-story structure, predominantly of light-colored materials, such as metal, glass, plastic or fabric as approved by the Department of Buildings in conformance with the Building Code, that, including roofed areas, does not occupy an area in excess of 150 square feet, except that where the #urban ***open space*****plaza#** has an area of less than 5,000 square feet, the aggregate area of the kiosks shall not exceed 100 square feet measured by exterior dimensions. The aggregate area occupied by kiosks in an #urban ***open space*****plaza#** larger than 5,000 square feet shall not exceed 150 square feet or 1.5 percent of the total area of the #urban ***open space*****plaza#**, whichever is greater, provided no one kiosk occupies an area of more than 150 square feet. A kiosk may be freestanding or may be attached on only one side to a wall of the #building# of the #development# or a #building# on the adjacent #zoning lot#. Any area occupied by a kiosk shall be excluded from the definition of #floor area#, and may be occupied by #uses# such as news or magazine stands, candy stands, flower stands or information booths.

Where an open air cafe is provided, it shall occupy an aggregate area not more than 20 percent of the total area of the #urban ***open space*****plaza#**. It shall be a permanently unenclosed restaurant or eating or drinking place, permitted by applicable district regulations, which may have waiter or table service, and shall be open to the sky except that it may have a temporary fabric roof in conformance with the Building CodE. An open air cafe must be accessible from all sides where there is a boundary with the remainder of the #urban ***open space*****plaza#**. No kitchen equipment shall be installed within an open air cafe,; however, kitchen equipment may be contained in a kiosk adjoining an open air cafE. An open air cafe qualifying as a permitted obstruction shall

be excluded from the definition of #floor area#.

Notwithstanding the provisions of Section 32-41 (Enclosure Within Buildings), outdoor eating services or #uses# occupying kiosks may serve customers in an #urban ***open space*plaza#** through open windows. In all cases, only #uses# permitted by the applicable district regulations may occupy #urban ***open spaces*plazas#** or front on #urban ***open spaces*plazas#**.

(***54***) Open air amphitheaters and open air ice skating rinks that charge admission may be placed within an #urban ***open space*plaza#** upon certification pursuant to paragraph (***eh***)(***65***) of this Section. Such features shall be treated as permitted obstructions for the purposes of **this** paragraph, ***(e) of this Section*(Permitted obstructions)**.

(***65***) Kiosks and open air cafes that comply with the provisions of paragraph (**eh**)(***43***) of this Section, and open air amphitheaters or open air ice skating rinks ***which* that** charge admission may be placed within the area of an #urban ***open space*plaza#** upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings, that:

(i) such #use# promotes public use and enjoyment of the #urban ***open space*plaza#**;

(ii)such #use# complements and stabilizes desirable #uses# in the surrounding area;

(iii) such #use# is provided in accordance with the requirements set forth in this Section; and

(iv) the owners of such #use# will maintain such #use# in accordance with the provisions of paragraph (k) (Maintenance) of this Section.

All applications for the placement of kiosks, open air cafes, open air amphitheaters or open air ice skating rinks ***which* that** charge admission within an #urban ***open space*plaza#** filed with the Commission shall include a detailed site plan or plans indicating compliance with the provisions of this Section. All such plans for kiosks, open air cafes, open air amphitheaters or open air ice skating rinks ***which* that** charge admission, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification for the kiosk, open air cafe, open air amphitheater, or open air ice skating rink ***which* that** charges admission, pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the placement of the kiosk, open air cafe, open air amphitheater or open air ice skating rink ***which* that** charges admission within the #urban ***open space*plaza#**. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording datE.
(6) An application for certification shall be filed with the Chairperson of the City Planning Commission, and the Chairperson shall furnish a copy of the application for such certification to the affected Community Board at the earliest possible stagE. The Chairperson will give due consideration to the Community Board's opinion as to the appropriateness of such a facility in the area and shall respond to such application for certification within 60 days of the application's receipt.

The Chairperson shall file any such certification with the City Council. The Council, within 20 days of such filing, may resolve by majority vote to review such certification. If the Council so resolves, within 50 days of the filing of the Chairperson's certification, the Council shall hold a public hearing and may approve or disapprove such certification. If, within the time periods provided for in this Section, the Council fails to act on the Chairperson's certification, the Council shall be deemed to have approved such certification.

Such certification shall be effective for a period of three years but, upon application, may be renewed for a similar period by the Chairperson of the City Planning Commission.

(***f*h**)Prohibition of driveways, parking spaces, loading berths, exhaust vents and building trash storage facilities

(1) No **driveways,** parking spaces, passenger dropoffs or loading berths ***are shall* be** permitted **within an #urban plaza#. *Furthermore, driveways are prohibited within #urban plazas# and #open air concourses#, and are permitted within a #sidewalk widening# only in accordance with the provisions of Section 37-042.*** ***(2)*** No building trash storage facilities are permitted **within an #urban plaza#, nor shall any building trash storage facility be accessed or serviced through the #urban plaza#. If parking spaces, passenger drop-offs, driveways, loading berths or building trash storage facilities are located near or adjoin an #urban plaza#, they shall be separated from it by a building wall or planted area sufficient to visually conceal these facilities and any vehicles *therein from any point in the #urban* plaza#.**

(3) No exhaust vents are permitted on any #urban open space# or on the building wall of the #development# fronting upon the #urban open space# except where such vents on the building wall are more than 8 feet 6 inches above the level of the #urban open space#.

For #urban plazas#, additional prohibitions are set forth in Section 37-043, paragraph (i).

Following graytoned text relocated from current Section 37-043(j).

(*j*) Seating
There shall be a minimum of one linear foot of seating for each 30 square feet of #urban plaza# area, except that for #urban plazas# fronting upon a #street# having a grade change of at least 2. 25 feet in 100 feet or for through #block urban plazas#, there shall be a minimum of one linear foot of seating for each 40 square feet of #urban plaza# areA.

Not more than 50 percent of the linear seating capacity may be in movable seats that may be stored between the hours of sunset and sunrisE.

The following standards shall be met for all required seating:

(1) Seating shall have a minimum depth of 16 inches; however, seating with backs shall have a minimum depth of 14 inches and a maximum depth of 22 inches and backs shall be at least 12 inches higH. Seating 30 inches or more in depth shall count double, provided there is access to both sides.

(2) At least 75 percent of the required seating shall have a height not less than 16 inches nor greater than 20 inches above the level of the adjacent walking surface and at least 50 percent of this seating shall have backs at least 12 inches higH. Seating higher than 36 inches or lower than 12 inches above the level of the adjacent walking surface shall not count towards meeting the seating requirements.

(3) The flat tops of walls including but not limited to those that bound planting beds, fountains and pools may be counted as seating when they conform to the dimensional standards in paragraphs (f)(1) and (f)(2) of this Section, provided that they are made of stone, concrete or similar composite material, wood or plastic with a smooth surface and rounded upper edges with a radius of at least one inch to ensure seating comfort.

(4) Movable seating or chairs, excluding seating for open air cafes, may be credited as 18 inches of linear seating per chair.

(5) Steps, seats in outdoor amphitheaters and seating of open air cafes do not count towards meeting the seating requirement.

(6) Seating for any #use# within an #urban plaza# is subject to applicable articles and amendments of the New York City Building CodE.

(7) For the benefit of persons with disabilities, a minimum of five percent of the required seating shall have backs.

Following graytoned text relocated from current Section 37-043(k).

(j)Planting and trees

For an #urban plaza# not exceeding 2,000 square feet in area, four trees are requireD.

For an #urban plaza# greater than 2,000 square feet in area, *but not exceeding 6,000 square feet in area, one tree is required for every 600 square feet, or part thereof, of #urban plaza# areA.*

For an #urban plaza# greater than 6,000 square feet in area, one tree is required for every 600 square feet, or part thereof, of #urban plaza# area for the first 6,000 square feet of area and one additional tree is required for every 1,000 square feet, or part thereof, of the remaining #urban plaza# areA.

For all #urban plazas#, at least 50 percent of the required plaza trees shall be planted with gratings flush to gradE.

Following graytoned text relocated from current paragraphs (b)(2), (b)(3) and (b)(1), respectively, within this Section.

Where trees are planted within an #urban plaza#, they shall measure at least four inches in caliper at the time of plantinG. Each tree shall be planted in at least 200 cubic feet of soil with a depth of soil of at least 3 feet, 6 inches. Any planting bed containing required plaza trees shall have a continuous area of at least 75 square feet for each tree exclusive of bounding walls and shall have bounding walls not higher than 20 inches above the adjacent walking surfacE. Trees shall be planted at a maximum spacing of 25 feet within a single planting beD.

When planting beds are provided, they shall have a soil depth of at least two feet for grass or other ground cover, three feet for shrubs and 3 feet, 6 inches for trees.

#Street# trees are required to be planted in the public sidewalk area adjacent to a #zoning lot# that contains bonus #floor area# for #urban plazas#. At least one tree of four-inch caliper or more shall be planted for each 25 feet of the entire #street# frontage of the #zoning lot#, excluding the frontage occupied by driveways. The length of frontage of the #zoning lot# for the purpose of computing required #street# trees may also be reduced by 50 feet for each #street# intersection fronted by the #zoning lot#. The required trees shall be planted with gratings flush to grade in at least 200 cubic feet of soil per tree, with a depth of soil of at least 3 feet, 6 inches. Species shall be selected, located and maintained in accordance with the specifications established by the Department of Parks and the Department of Highways. If the Commissioner of Buildings determines that the tree planting requirements of this paragraph cannot be met in part or in whole because of subsurface conditions such as the presence of a subway tunnel, the number of required #street# trees that cannot be planted as required in this paragraph shall be planted in the public sidewalk areas of #streets# on the same #block# as the #zoning lot# to which it has frontage or within the #urban plaza#.

Following graytoned text relocated from current paragraph (j) of this Section and current Section 37-043(l) and mergeD.

(k)Mandatory allocation of frontages for permitted #uses#

At least 50 percent of the total frontage of building walls of the #development# fronting on an #urban plaza#, or fronting on an #arcade# adjoining an #urban plaza#, exclusive of such frontage occupied by vertical circulation elements, building lobbies and frontage used for subway access, shall be allocated for occupancy by retail or service establishments permitted by the applicable district regulations. In addition, libraries, museums and art galleries shall be permitteD. All such #uses# shall be directly accessible from the major portion of the #urban plaza# or adjoining arcadE.

The remaining frontage may be occupied by other #uses#, lobby entrances or vertical circulation elements, in accordance with the district regulations.

Frontage on the #urban plaza# that is occupied by a building lobby shall not exceed 75 feet or 40 percent of the total frontage of the #developments# building walls on the major portion of the #urban plaza#, whichever is less.

The building frontage on the major portion of the #urban plaza# shall be treated with clear, untinted transparent material for 50 percent of its surface area below 14 feet above the #urban plaza# level, or the ceiling level of the ground floor of the #building#, whichever is lower.

Following graytoned text relocated from paragraph (c) of this Section.

(l) Paving

The paving of the #urban plaza# shall be of non-skid durable materials that are decorative and compatible in color and pattern. The paving of the #street# sidewalk area adjacent to the #development# may be treated with design patterns and materials sympathetic to that of the paving of the #urban plaza#. Any change of paving materials within the public right-of-way shall require review by the Department of Highways and the Art Commission.

Following graytoned text relocated from paragraph (d) of this Section and modifieD.

(m) Standards of accessibility for persons with disabilities to #urban plazas#

(1) There shall be at least one path of travel conforming to the standards set forth in paragraph (m)(2) of this Section, providing access to each of the following:

(i)the major portion of an #urban plaza#;
(ii)any building lobby accessible to the #urban plaza#; and

(iii)any #use# that may be present on or adjacent to the #urban plaza#.

(2)The following standards shall apply to assure access for persons with disabilities:

(i)Such paths shall have a minimum width of five feet, except where specific provisions require a greater width, free and clear of all obstructions.

(ii) Ramps shall be provided alongside any stairs or steps for such paths. Ramps shall have a minimum width of three feet, a slope of not greater than 1:12, a non-skid surface and, for open-edged ramps, a two-inch high safety curB. At each end of a ramp there shall be a level area, which may be a public sidewalk, at least five feet lonG.

(iii) All stairs or ramps within such paths shall provide handrails. Handrails shall be 34 inches high, have a midrail 22 inches high and shall extend at least 18 inches beyond the stair or ramp ends.

(iv) Where stairs are used to effect changes of grade for such paths, they shall have closed risers, no projecting nosings, a maximum riser height of seven and one-half inches and a minimum tread width of eleven inches.

(***gn***) Lighting and electrical power

#Urban ***open spaces*plazas#** shall be illuminated with a minimum level of illumination of not less than two horizontal foot candles (lumens per foot) throughout all walkable and sitting areas and a minimum level of illumination of not less than 0.5 horizontal foot candles (lumens per foot) throughout all other areas. Such level of illumination shall be maintained from sunset to sunrisE. A lighting schedule, including fixtures, wattage and their locations and designs together with a diagram of light level distribution shall be part of the required detail design plans as set forth in this Section. Electrical power shall be supplied by one or more outlets furnishing a total of at least 1,200 watts of power for every 4,000 square feet, or fraction thereof, of the area of an #urban ***open space*plaza#., except for a #sidewalk widening#.**

(***ho***) Public space signage systems

The following public space signage systems shall be required for all ***#open air concourses# and*** #urban plazas#:

(1) Entry plaque

The entry plaque shall be located at each #street# frontage or point of pedestrian entry to the #open air concourse# or #urban plaza#. A maximum of two entry plaques may be provideD. The entry plaque shall contain:

(i)a public space symbol which is at least 14 inches square in dimension; has a white background; has a grid of four (4) straight lines no greater than one-eighth inch wide and green in color; and has a tree-shaped symbol as shown;

(Illustration – tree symbol)

(ii) lettering at least two inches in height stating "OPEN TO PUBLIC"." This lettering shall be located within nine inches of the public space symbol; and

(iii) an International Symbol of Access for persons with disabilities that is at least three inches squarE.

The entry plaque shall be mounted on a wall or a permanent free-standing post with its center five feet above the elevation of the nearest walkable pavement. It shall be in a position that clearly identifies the entry into the ***#open air concourse# or*** #urban plaza#, and placed so that the entire entry plaque is obvious and directly visible, without any obstruction, along every line of sight from all paths of pedestrian access to the ***#open air concourse# or*** #urban plaza#.

(2) Information plaque

An information plaque, with a surface area of not less than two feet square, constructed from the same permanent materials as the entry plaque and located within the most frequently used area of the ***#open air concourse# or*** #urban plaza#, with clear lettering consisting of:

(i) the type and quantity of trees, movable seating**, and** permanent artwork;

(ii)the name of the current owner of the building and the name, address and phone number of the person designated to maintain the ***#open air concourse# or*** #urban plaza# between the hours of 9:00 A. m. and 5:00 p.m.;

(iii) the statement, "Complaints regarding this urban ***open space*plaza** may be addressed to the Department of City Planning or the Department of Buildings of the City of New York"; and

(iv) the statement, "This urban ***open space***plaza is accessible to persons with disabilities."

(***ip***)#Signs#

An #urban ***open space*plaza#** shall be treated as a #street# for the purposes of the applicable #sign# regulations. #Signs#, except for the plaque required by paragraph (***ho***) of this Section, are permitted only as #accessory# to #uses# permitted within the #urban ***open space*plaza#** and #uses# adjoining the #urban ***open space*plaza#**, and are otherwise regulated by the applicable district regulations set forth in Section 32-60 (SIGN REGULATIONS).

(j)Mandatory allocation of frontages for permitted #uses#

At least 50 percent of the total frontage of building walls of the #development# fronting on an #urban open space#, or fronting on an #arcade# adjoining an #urban open space#, exclusive of such frontage occupied by vertical circulation elements, building lobbies and frontage used for subway access, shall be allocated for occupancy by retail or service establishments permitted by the applicable district regulations. In addition, libraries, museums and art galleries shall be permitteD.

All such #uses# shall be directly accessible from the #urban open space# or adjoining #arcade#. The remaining frontage may be occupied by other #uses#, lobby entrances or vertical circulation elements, in accordance with the district regulations.

For #urban plazas#, additional requirements are set forth in Section 37-043, paragraph (l).

For #open air concourses#, the provisions of this Section, paragraph (j), shall apply to both the mezzanine portion and the #street# level portion.

For #sidewalk widenings# , the provisions of this Section, paragraph (j), shall not apply along any #narrow street# frontagE.

(*kq*)Maintenance

(1) The building owner shall be responsible for the maintenance of the #urban ***open space*plaza#** including, but not limited to, the confinement of permitted obstructions, litter control, and the care and replacement of vegetation within the #zoning lot# and in the #street# sidewalk area adjacent to the #zoning lot#.

(2) Litter receptacles shall be provided with a minimum capacity of one cubic foot for each 2,000 square feet of #urban ***open space*plaza#** area excluding the area of any #sidewalk widening# . An additional capacity of one cubic foot of litter receptacle shall be provided for each 2,000 square feet of #urban ***open space* plaza#** area in connection with outdoor eating services or other #uses# permitted within #urban ***open spaces*plazas#** that generate litter.

(3) ***#Urban open space uses#, specified in paragraph (e)(2)* Kiosks, open air cafes, open air amphitheaters and open air ice skating rinks permitted in accordance with the provisions** of this Section, shall be confined within areas designated on building plans as available for occupancy by such #uses#. Encroachment by an #urban ***open space*plaza** use# outside an area so designated shall be a valid ground for complaint and removal.

(4) Performance bond

Prior to obtaining any certificate of occupancy from the Department of Buildings, the building owner shall post with the Comptroller of the City of New York, a performance bond, City securities or fixed income securities, at the Comptroller's discretion, to ensure the mandatory tree planting, movable seating exclusive of any seating for open air cafes, and the litter-free maintenance of the #urban ***open space*plaza#** including the replacement of such trees and movable furniture during the life of the #development#.

In the event of a failure in the required performance, the Chairperson of the City Planning Commission shall notify the building owner in writing of such failure and shall stipulate the period of time in which the building owner has to correct the failurE. If the failure is not corrected in the stipulated time, the Chairperson may declare the building owner in default in the required performance and the City may enforce the obligation by whatever means may be appropriate to the situation, including letting contracts for doing any required planting, installation or maintenance and paying all labor, material and other costs connected with such work from the bond or City securities that the building owner is required to providE.

In the event that the City enforces the aforementioned obligation as provided for in **this** paragraph ***(k)(4) of this Section*(Performance bond)**, the building owner shall, within 90 days of such enforcement, provide the City with an additional bond or City securities in an amount not less than that which was expended to cure the default.

The value of the bond or City securities if tendered prior to January 1, 1*98998*, shall be at a rate of $750 per required tree, $100 per movable chair and $200 per 1,000 square feet of #urban ***open space*plaza#** for litter removal as set forth in this Section.

Effective January 1, 1989, and at five year intervals thereafter, the City Planning Commission shall establish new rates for the mandatory tree planting, movable seating and litter-free maintenance of the #urban open space#.

(*lr*)Penalties for violations

Failure to comply with the conditions or restrictions of the bonused #urban open space# shall constitute a violation of this Resolution and shall constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

Following graytoned text relocated from the second and third paragraphs of this Section.

No foundation permit shall be issued by the Department of Buildings for any #development# that includes an #urban plaza# without certification by the Chairperson of the City Planning Commission that a site plan has been submitted indicating compliance with the provisions of this Section. An application for such certification shall be filed with the Chairperson showing the plan of the #zoning lot#; a site plan indicating the area and dimensions of the proposed #urban plaza# and the location of the proposed #development# or #enlargement# and all existing #buildings# temporarily or permanently occupying the #zoning lot#; computations of proposed #floor area#, including bonus #floor area#; and a detailed plan or plans demonstrating compliance with the provisions of this Section.

All plans for #urban plazas#, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification of the #urban plaza# pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the filing for or issuance of any building permit for any #development# or #enlargement# on the #zoning lot#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording datE.

The following new text consolidates pedestrian circulation space requirements applicable to both Midtown and Lower Manhattan and other areas where they may be requireD. The text is a modified version of current sections in Midtown: 81-45 (Provision of Pedestrian Circulation Space),81-451 (Design standards for pedestrian circulation spaces), 81-452 (Bonused amenities qualifying as pedestrian circulation spaces), 81-46 (Through Block Connection), 81-461 (Locational standards), 81-462 (Design standards for a through block connection), etC.

37-07
Requirements for Pedestrian Circulation Space

All pedestrian circulation space required pursuant to the provisions of any special purpose district shall comply with the provisions of this Section, as such may be modified by the terms of the special district.

Sections 37-071 and 37-072 have been adapted from Section 81-45 (Provision of Pedestrian Circulation Space) which has been deleteD. No new requirements have been addeD.

37-071
Amount of pedestrian circulation space

The minimum amount of pedestrian circulation space to be provided for #developments# or #enlargements# shall be determined by the following table:

MINIMUM PEDESTRIAN CIRCULATION SPACE REQUIREMENTS

Size of #zoning lot# Required #floor area#

5,000 to 20,000 square feet 1 square foot per 350 square feet of new #floor area#

Above 20,000 square feet 1 square foot per 300 square feet of new #floor area#

37-072
Types of pedestrian circulation space

The pedestrian circulation space provided shall be of one or more of the following types: an arcade, building entrance recess area, corner arcade, corner circulation space, relocation or renovation of a subway stair, sidewalk widening, subway station improvement, through #block# connection or #urban plaza#.

Each #zoning lot# shall be categorized as either a #corner lot#, #through lot# or #interior lot#, and pedestrian circulation space shall be provided on each #zoning lot# in at least one of the applicable types, or combinations of types, specified in the following table:

PROVISION OF PEDESTRIAN CIRCULATION SPACE ON CERTAIN TYPES OF LOTS

Type of Pedestrian Circulation Space
#Corner lot# #Through lot##Interior lot #Arcade XX X Building entrance recess area XX X Corner arcade X Corner circulation space X Relocation or renovation of subway stair XX X Sidewalk widening XX X Subway station improvement XX X Through #block# connection XX #Urban plaza# XX X

Minimum design standards for each type of pedestrian circulation space and, where applicable, the maximum amount of each type of pedestrian circulation space that may be counted towards meeting the requirements of Section 37-071 (Amount of pedestrian circulation space) are set forth in Section 37-073 (Design standards for pedestrian circulation spaces).

Section 37-073 has been adapted from Section 81-451 (Design standards for pedestrian circulation space) which has been deleteD. No new requirements have been addeD.

37-073
Design standards for pedestrian circulation spaces

(a) Arcade

Arcades shall not be subject to the provisions of Sections 12-10 (DEFINITIONS) and 27-60 (ARCADES). In lieu thereof, the provisions of this Section shall apply.

An arcade is a continuous covered space that adjoins and extends along a #front lot line#, is at the same elevation as the adjoining sidewalk, is open for its entire length to the sidewalk except for columns and is accessible to the public at all times. An arcade shall be provided on the #wide street# frontage of a #zoning lot# of a new #development# or #enlargement# where the #zoning lot# lies directly adjacent to an existing arcade on a #wide street#, except where an existing #building# without an arcade extends along a portion of the #wide street front lot line# of the #zoning lot# containing the new #development# or #enlargement#.

Where an arcade abuts another arcade, there shall be a clear, unobstructed passage between both arcades.

An arcade shall meet the following requirements:

(1)Dimensions

An arcade with columns shall have a minimum clear width of 10 feet, exclusive of all columns, and a maximum width of 15 feet, inclusive of columns. No column width shall be greater than five feet. Columns shall be spaced along the #street# with a minimum clear width between columns of 15 feet. An arcade shall have a clear height of not less than 12 feet and not more than 30 feet.

(i) On an #interior lot# or a #through lot# fronting on a #narrow street#, an arcade without columns is permitted only if:

(a) it has a continuous, unobstructed minimum length of 100 feet or, with the exception of the width of driveways for the required loading berths located at the #side lot line# of the #zoning lot#, is unobstructed for the full length of the new #building# frontage, whichever is greater; and

(b) the entire #front lot line# shall be unobstructed for the same depth of the arcade, except for that portion of the #front lot line# occupied by an existing #building#.

(ii) On an #interior lot# or a #through lot# fronting on a #narrow street#, an arcade with columns is permitted only if it connects directly to an existing arcade on an adjacent #zoning lot#, matching it in width and alignment and has a continuous, unobstructed minimum length beyond the existing adjacent arcade of at least 100 feet or, with the exception of the width of driveways for the required loading berths located at the #side lot line# of the #zoning lot#, is unobstructed for the full length of the new #building# frontage, whichever is greater.

(iii) On a #corner lot# fronting on a #narrow street#, an arcade is permitted only if it extends for the full length of the #street# frontage, with the exception of a driveway for a required loading berth located at the #side lot line# of the #zoning lot#, or if the arcade provides unobstructed pedestrian flow along such entire frontage in combination with one or more of the following other spaces with which it connects at one or both ends: a corner arcade, a #plaza#, an off-street rail mass transit access improvement, an intersecting sidewalk widening, an intersecting #street#, a relocated or renovated subway entrance, a through #block# connection, a through #block# galleria or an #urban plaza#.

(iv) On a #wide street#, an arcade shall be permitted, provided that:

(a) the arcade extends along the full length of the #street line# between intersecting #streets#; or

(b) in the case of a #building# that occupies less than the entire #street# frontage between intersecting #streets#, on a full blockfront #zoning lot#, unobstructed pedestrian flow along the entire frontage is provided on the #zoning lot# by the arcade in combination with one or more of the following #open spaces# with which the arcade connects at one or both ends: a corner circulation space, a #plaza#, an intersecting sidewalk widening or an #urban plaza#; or

(c)in the case of a #building# whose #zoning lot# occupies less than the entire #street# frontage between intersecting #streets#, the arcade connects with an existing arcade of matching width and alignment, a #plaza# or an #urban plaza# on an adjacent #zoning lot#, so that unobstructed pedestrian flow along the entire blockfront is provided by the arcade in combination with such existing spaces.

(2) Full blockfront arcade

When a #zoning lot# occupies a full blockfront, both ends of the arcade on that #street# frontage shall be open and accessible directly from the sidewalk of the intersecting #street# or any other qualifying pedestrian circulation spacE.

(3)Permitted obstructions

Except for building columns, an arcade shall be free from obstructions of any kinD.

(4)Specific prohibitions

No vehicular driveways, except as permitted under paragraph (a)(1) (Dimensions) of this Section, parking spaces, passenger drop-offs, loading berths or trash storage facilities are permitted within an arcade, nor shall such facilities be permitted immediately adjacent to an arcadE.

(5)Illumination

All existing and new arcades shall maintain a minimum level of illumination of not less than five horizontal foot candles between sunset and sunrisE.

(b)Building entrance recess area

A building entrance recess area is a space that adjoins and is open to a sidewalk or sidewalk widening for its entire length and provides unobstructed access to the building's lobby entrance or to the entrance to a ground floor #use#.

A building entrance recess area shall meet the following requirements:

(1) Dimensions
A building entrance recess area shall have a minimum length of 15 feet and a maximum length of 50 feet measured parallel to the #street line# at a building's lobby entrance and a maximum length of 30 feet parallel to the #street line# at a ground floor #use# entrancE. It shall have a maximum depth of 15 feet measured from the #street line# and shall have a minimum depth of 10 feet measured from the #street line#.

(2) Obstructions

Any portion of a building entrance recess area under an overhanging portion of the #building# shall have a minimum clear height of 15 feet. It shall be free of obstructions except for building columns, between any two of which there shall be a clear space of at least 15 feet measured parallel to the #street line#. Between a building column and a wall of the #building#, there shall be a clear path at least five feet in widtH.

(3)Permitted overlap

A building entrance recess area may overlap with an arcade, a corner arcade, a corner circulation space or a sidewalk widening, and may adjoin or overlap and connect directly without obstruction to another building entrance recess area except that, on any one #street# frontage, each lobby or ground floor #use# shall connect to only one building entrance recess areA.

(c) Corner arcade

A corner arcade shall not be subject to the provisions of Sections 12-10 (DEFINITIONS) and 27-60 (ARCADES). In lieu thereof, a corner arcade shall be a small covered space adjoining the intersection of two #streets# at the same elevation as the adjoining sidewalk or sidewalk widening and directly accessible to the public at all times.

A corner arcade shall meet the following requirements:

(1)Dimensions

(i) a corner arcade shall have a minimum area of 200 square feet, a minimum depth of 15 feet measured along a line bisecting the angle of intersecting #street lines#, and shall extend along both #street lines# for at least 15 feet but not more than 40 feet from the intersection of the two #street lines#; and

(ii) the height of a corner arcade shall be not less than 12 feet and a clear path at least 12 feet wide shall be provided from one #street line# to another #street line#.
(2)Permitted obstructions

Except for building columns, a corner arcade shall be free from obstructions of any kinD.

(3) Specific prohibitions

The specific prohibitions pertaining to an arcade as described in paragraph (a)(4) of this Section shall also be applicable to a corner arcadE.

(4)Permitted overlap

A corner arcade may overlap with an arcade; however, the area of overlap may only be counted once toward the fulfillment of the required minimum area of pedestrian circulation spacE.

(d) Corner circulation space

A corner circulation space is a small #open space# on the #zoning lot# of a #development# or #enlargement#, adjoining the intersection of two #streets#, at the same elevation as the adjoining sidewalk or sidewalk widening and directly accessible to the public at all times.

A corner circulation space shall meet the following requirements:

(1) Dimensions

A corner circulation space shall have the same minimum dimensions as a corner arcade, as described in paragraph (c)(1) of this Section.

(2)Obstructions

A corner circulation space shall be completely open to the sky from its lowest level, except for temporary elements of weather protection, such as awnings or canopies, provided that the total area of such elements does not exceed 20 percent of the area of the corner circulation space and that such elements and any attachments thereto are at least eight feet above #curb level#. A corner circulation space shall be clear of all other obstructions including, without limitation, door swings, building columns, #street# trees, planters, vehicle storage, parking or trash storagE. No gratings, except for drainage, shall be permitteD.

(3) Building entrances

Entrances to ground level #uses# are permitted from a corner circulation spacE.
An entrance to a building lobby is permitted from a corner circulation space, provided that the entrance is at no point within 20 feet of the intersection of the two #street lines# that bound the corner circulation spacE.

(4) Permitted overlap

A corner circulation space may overlap with a sidewalk widenin G.

(e)Relocation or renovation of a subway stair

When a #development# or #enlargement# is constructed on a #zoning lot# containing a relocated stairway entrance or entrances to a subway, or an existing stairway entrance or entrances to a subway, and such entrance or entrances are relocated or renovated in accordance with the provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair), one and a half times the area, measured at #street# level, of such entrance or entrances may count toward meeting the pedestrian circulation space requirement.

(f) Sidewalk widening

A sidewalk widening is a continuous paved open area along the #front lot line# of a #zoning lot# at the same elevation as the adjoining sidewalk and directly accessible to the public at all times. A sidewalk widening shall be provided on the #wide street# frontage of a #zoning lot# of a new #development# or #enlargement#.where all existing #buildings# on the same #block# frontage, whether on the same or another #zoning lot#, provide sidewalk widenings.

A sidewalk widening shall meet the following requirements:

(1)Dimensions

A sidewalk widening shall have a width of no less than five feet nor more than 10 feet measured perpendicular to the #street line#, and shall be contiguous along its entire length to a sidewalk.

A sidewalk widening shall extend along the full length of the #front lot line# except for the portion of the #front lot line# interrupted by an existing #building# which is located at a #side lot line# or, in the case of a full #block# frontage, located at the intersection of two #streets#.

A required sidewalk widening on a #wide street# shall connect directly to any existing adjoining sidewalk widening and shall extend the entire length of the new #front lot line#.

The width of such a required sidewalk widening shall equal that of the existing adjoining sidewalk widenin G. If there is more than one such existing sidewalk widening, the width of such a required sidewalk widening shall equal that of the existing sidewalk widening that is longest.

A sidewalk widening is permitted on a #wide street# when not adjacent to an existing sidewalk widening only if either the sidewalk widening extends along the #street line# of the #wide street# for the full length of the #block# front, or the #zoning lot# is a #corner lot# and the sidewalk widening extends along the full length of the #street line# of the #wide street# to its intersection with the #street line# of the other #street# on which the #zoning lot# fronts.

Except for the permitted interruptions, as set forth in paragraph (f)(2) of this Section, a sidewalk widening is permitted on a #narrow street# only if it has a length of at least 100 feet.

(2) Permitted interruptions

Interruptions of the continuity of a qualifying sidewalk widening shall be permitted only under the following conditions:

(i) by an arcade that has a width equal to or greater than the width of the sidewalk widening and which is directly connected to the sidewalk widening;

(ii) if overlapped by a corner circulation space or a building entrance recess area that permits uninterrupted pedestrian flow;

(iii) if overlapped by an #urban plaza#, provided that the overlapping portion of such #urban plaza# conforms to the design standard of a sidewalk widening;

(iv) by an off-street subway entrance provided such an entrance is located at a #side lot line# or is located at the intersection of two #street lines#;

(v) if overlapped by the queuing space of a relocated or renovated subway entrance, provided that the queuing space for the entrance leaves at least a five foot uninterrupted width of sidewalk widening along the entire length of the queuing space; or

(vi) by a driveway that is located at a #side lot line#; however, where the #zoning lot# has a through #block# connection, a through #block# galleria or a through #block urban plaza# at such a #side lot line#, the location of its driveway is not restricteD. The area occupied by the driveway, up to the width of the sidewalk widening, may be counted towards meeting the pedestrian circulation space requirement, provided that there shall be no change of grade within the area of the sidewalk widenin G.

(3) Permitted obstructions

A sidewalk widening shall be unobstructed from its lowest level to the sky except for those obstructions permitted under paragraph (f)(2) of this Section and for temporary elements of weather protection, such as awnings or canopies, provided that the total area of such elements, measured on the plan, does not exceed 20 percent of the sidewalk widening area, and that such elements and any attachments thereto are at least eight feet above #curb level#.

(4) Specific prohibitions

No #street# trees are permitted on a sidewalk widenin G. No vehicle storage, parking or storage of trash is permitted on a sidewalk widenin G. Gratings may not occupy more than 50 percent of the sidewalk widening area nor be wider than one half the width of the sidewalk widenin G.

(5) Special design treatment

When one end of the sidewalk widening abuts an existing #building# on the #zoning lot# or an existing #building# on the #side lot line# of the adjacent #zoning lot#, design treatment of the termination of the sidewalk widening is required to smooth pedestrian flow. The portion of the sidewalk widening subject to design treatment, hereinafter called the transition area, shall not extend more than 10 feet nor less than five feet along the sidewalk widening from its termination.

The transition area shall receive special design treatment which may include, but is not limited to, landscaping, sculpture or building transparency. The transition area shall be designed to effect a gradual change of the sidewalk widening width to match the #street wall# line of the existing #building# at the sidewalk widening's termination. This may be accomplished by a curved or diagonal edge of paving along a landscaped bed, the use of stepped edges of the #building# or other architectural treatment of the #building# or paving which avoids an abrupt visual termination of the sidewalk widenin G. Such special design treatment may be considered a permitted obstruction.

(g) Subway station improvement

For #developments# or #enlargements# that are granted a special permit pursuant to Section 74-634 (Subway station improvements in commercial zones of 10 FAR and above in Manhattan), no more than 3,000 square feet may count towards meeting the pedestrian circulation space requirement.
Paragraph (h) has been adapted from Section 81-46 (Through Block Connection) which has been deleteD. No new requirements have been addeD.

(h) Through #block# connection

A through #block# connection is a paved open or enclosed space providing unobstructed access to the building's main lobby and connecting, in a straight continuous unobstructed path, two parallel or nearly parallel #streets#.

Up to a maximum of 3,000 square feet of a through #block# connection may count towards the minimum pedestrian circulation space requirement.

A through #block# connection shall meet the following requirements:

(1) Location

(i) A through #block# connection shall be located at least 150 feet from the intersection of two #streets#.

(ii)Where the #zoning lot# or a portion thereof is directly across a #street# from, and opposite to, an existing through #block# connection on an adjacent #block# and the existing connection is at least 150 feet from the intersection of two #streets#, the alignment of the new through #block# connection shall overlap with that of the existing connection. Such existing connection may also be a through #block# galleria, through #block urban plaza# or any through #block# circulation area with a minimum width of 12 feet, which is located within a #building#.

(iii)Where there are already two through #block# connections located on the same #block#, a new through #block# connection shall not count towards meeting the pedestrian circulation space requirement.

(iv)No through #block# connection shall be permitted on any portion of a #zoning lot# occupied by a landmark or interior landmark so designated by the Landmarks Preservation Commission, or occupied by a #building# whose designation as a landmark or interior landmark has been calendared for public hearing and is pending before the Landmarks Preservation Commission.

(2)Design standards for a through #block# connection

(i)A through #block# connection shall provide a straight continuous unobstructed path at least 15 feet widE. If covered, the clear unobstructed height of a through #block# connection shall not be less than 15 feet.
(ii)At no point shall the level of a through #block# connection be more than five feet above or below #curb level#. In all cases, the through #block# connection must provide a clear path, accessible to people with disabilities, through its entire lengtH.

(iii)A through #block# connection may be located inside or outside of a #building#. The area of a through #block# connection located within a #building# shall be counted as #floor area#.

(iv)A through #block# connection located partially or wholly within a #building# shall adjoin and connect directly to the building's main lobby via unobstructed openings with an aggregate width exceeding that of any other entrances to the lobby.

(v)A through #block# connection located wholly or partially outside a #building# shall provide unobstructed access directly to the building's main lobby through the major entrancE. For the purposes of this Section, the major entrance shall be that entrance to the main lobby which has the greatest aggregate width of clear openings for access.

(vi)Any portion of a through #block# connection located outside a #building# shall be illuminated throughout with a minimum level of illumination of not less than five horizontal foot candles (lumens per candle). Such illumination shall be maintained throughout the hours of darkness.

(vii)A through #block# connection shall at a minimum be accessible to the public from 8:00 A. m. to 7:00 p.m. on the days the #building# or #development# is open for business and shall have posted, in prominent, visible locations at its entrances, signs meeting the standards set forth in paragraph (h)(2)(viii) of this Section.

(viii) A through #block# connection shall provide the following information for public access at each public entry to the through #block# connection:

(a)For an unenclosed through #block# connection, the public access information shall be an entry plaque located at the entrance to the through #block# connection at each #street# frontagE. The entry plaque shall contain:

(1) a public space symbol which is at least 14 inches square in dimension, has a white background, has a grid of four straight lines no greater than one-eighth inch wide and green in color and has a tree-shaped symbol as shown: (Illustration – Tree Symbol)

(2)lettering at least two inches in height stating "OPEN TO PUBLIC. " This lettering shall be located within nine inches of the public space symbol; and

(3)an international Symbol of Access for people with disabilities that is at least three inches squarE.

The entry plaque shall be mounted with its center five feet above the elevation of the nearest walkable pavement on a wall or a permanent freestanding post. It shall be placed so that the entire entry plaque is obvious and directly visible without any obstruction, along every line of sight from all paths of pedestrian access to the through #block# connection, in a position that clearly identifies the entry to the connection.

(b) For an enclosed through #block# connection or a portion thereof:

(1)a public space symbol as described in paragraph (h)(2)(viii)(a) of this Section, not less than six inches square, shall be mounted with its center five feet above the elevation of the nearest walkable pavement;

(2) lettering stating "PUBLIC ACCESS TO – – – – STREET," indicating the opposite #street# to which the through #block# connection passes and which lettering shall not be less than three inches in height and located not more than three inches away from the public space symbol; and

(3)lettering not more than two inches or less than one and a half inches in height stating "OPEN TO PUBLIC" with the hours and days of operation of the through #block# connection. This lettering shall be located not more than three inches from the public space symbol.

The above required information shall be permanently affixed on the glass panel of the entry doors of the through #block# connection clearly facing the direction of pedestrian flow. The information shall be located not higher than six feet or lower than three feet above the level of the pedestrian path at the entry, and shall be in a format and color which will ensure legibility.

(i)Urban plaza

A maximum of 30 percent of the area of an #urban plaza# that faces a #street# intersection, or provides access to a major building entrance, may be counted toward meeting the pedestrian circulation space requirement.

A maximum of 3,000 square feet of a through #block urban plaza# may be counted toward meeting the pedestrian circulation space requirement.

For all other #urban plazas#, the first 10 feet of depth from the #street line# may be counted toward meeting the pedestrian circulation space requirement, provided that the #urban plaza# conforms to the design standards of a sidewalk widening as set forth in paragraph (f) of this Section.

All #urban plazas# shall comply with Section 37-04 (Requirements for Urban Plazas).

Any area of permitted overlap between pedestrian circulation spaces or other amenities shall be counted only once toward meeting the required amount of pedestrian circulation spacE. Unobstructed access shall be provided between overlapping spaces.

The following is a revision of Section 81-454 (Modification of design standards of pedestrian circulation spaces within existing buildings), which has been deleteD. No new requirements have been addeD.

37-074

Modification of design standards of pedestrian circulation spaces within existing buildings

The City Planning Commission may authorize a modification of any required minimum amount of pedestrian circulation space to be provided on #wide street# frontages and design standards, as indicated, for the following required pedestrian circulation spaces, to be provided within or under an existing #building# to remain on a #zoning lot#:

(a) Arcade: minimum width, minimum height, obstructions, minimum clear width between obstructions, minimum length, column sizes

(b) Building entrance recess area: minimum length, minimum depth from #street line#, minimum height, obstructions, clear space between obstructions and clear space between obstructions and building wall

(c) Corner arcade or corner circulation space: minimum depth, minimum width of clear path, minimum height, obstructions

(d) Through #block# connection: minimum width of unobstructed path, minimum height, through #block# level

The Commission may authorize such a modification of design standards for pedestrian circulation spaces when the following conditions are met:

(1) a modification is needed because of the inherent constraints of the existing #building#;

(2) the modification is limited to the minimum needed because of the inherent constraints of the existing #building#; and

(3) the pedestrian circulation space as modified shall be equal in area, and substantially equivalent, to the required space in quality, effectiveness and suitability for public usE.

The selection of subway station improvements shall be on a case-by-case basis and shall be subject to the approval of the Metropolitan Transportation Authority, New York City Transit and the City Planning Commission. All such improvements shall comply with all applicable design standards of the current station planning guidelines of New York City Transit.

(b)Compliance with Transit Authority design standards

The subway station improvement shall comply with all applicable design standards of the New York City Transit Authority's "Station Planning Guidelines" (Revised, 1975 and as may be subsequently revised).

(c) Procedure

(1)Pre-application

The applicant shall submit schematic or concept plans for the proposed improvement to the Metropolitan Transportation Authority, the Transit Authority and the City Planning Commission.

(2) Application pre-certification

After review and agreement on the concept by the Metropolitan Transportation Authority, Transit Authority and the City Planning Commission, the applicant shall submit necessary documentation in conformance with the New York City Transit Authority's "Guidelines for Submission and Approval of Outside Projects". Prior to certification by the City Planning Commission, the Transit Authority shall provide a letter to the Commission containing conceptual approval of the improvement and a statement of any special considerations regarding the Transit Authority's future operation of the improvement.

(3) The special permit application to the City Planning Commission shall include information and justification sufficient to provide the Commission with a basis for evaluating the benefits to the City from the proposed improvement and determining the appropriate amount of bonus #floor area# and for making the findings for the modifications of Section 37-01, Section 37-02 and height and setback regulations in C5-5 Districts.

(4)The special permit application shall include any request for modification of special urban design guidelines pursuant to Section 74-634 paragraph (e) and of height and setback and #rear yard# regulations pursuant to Section 74-634 paragraph (f).

(5)Uniform Land Use Review Procedure - certification

The City Planning Commission shall not certify any application under the Uniform Land Use Review Procedure until the requisite letter from the Transit Authority has been received and incorporated in the application. Such letter may be subject to subsequent execution of a final agreement with the developer.

(6)Prior to the granting of a special permit:

(i)the Transit Authority shall have submitted a letter to the City Planning Commission:

(a) stating that the drawings and other documents submitted by the applicant have been determined by the Transit Authority to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems; materials; relationship to existing site conditions; and such other elements as may be appropriate; and

(b) confirming that the construction of the subway improvement in accordance with such submission is feasible; and

(ii) the applicant shall sign a legally enforceable instrument, running with the land containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and maintain the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(7) The restrictive declarations and any instrument creating a transit easement on the #zoning lot# shall be recorded against the #zoning lot# in the Office of the Register of the City of New York for the borough in which the improvement or easement is being created, and a certified copy of the instrument shall be submitted to the City Planning Commission and the Transit Authority.

(8) Prior to obtaining a temporary certificate of occupancy for the bonus #floor area#, the bonused subway improvement shall be substantially complete, which shall, for this purpose, mean usable by the public, as determined by the Transit Authority.

(9) Prior to obtaining a permanent certificate of occupancy, the bonused subway improvement must be 100 percent complete in accordance with the approved plans and such completion shall have been certified by the Transit Authority.

(d) Floor area bonus

The amount of the #floor area# bonus shall be at the discretion of the City Planning Commission and may range from no #floor area# bonus to the maximum amount allowable by special permit pursuant to the provisions of this Section. For a #residential# or mixed-#use development#, when a #floor area# bonus is granted pursuant to this Section, alone or in combination with other bonuses, the #lot area# requirements of Section 23-20 (DENSITY REGULATIONS — REQUIRED LOT AREA PER DWELLING UNIT, LOT AREA PER ROOM, OR FLOOR AREA PER ROOM) and 35-40 (APPLICABILITY OF LOT AREA REQUIREMENTS TO MIXED BUILDINGS) shall not apply. Instead for every 750 square feet of gross #residential floor area# provided, there shall be not more than one #dwelling unit#. In determining whether to grant a special permit and the precise amount of #floor area# bonus pursuant to the special permit, the Commission shall make all of the following findings:

(1)the degree to which the station's general accessibility, rider orientation and safety will be improved by the provision of new connections, additions to circulation space or easing of circulation bottlenecks;

(2) provision of escalators or elevators where justified by traffic or depth of mezzanine or platform below #street# level;

(3) convenience and spaciousness of #street# level entrance and compatible relationship to the ground floor #uses# of the #development# or #enlargement#;

(4) improvements in the station's environment by provision for daylight access, or improvements to noise control, air quality, lighting or other architectural treatments.

(e) Modification of special urban design guidelines and urban open space

The City Planning Commission may modify the requirements of Section 37-01 (Special Urban Design Guidelines-Streetscape), Section 37-02 (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), and the requirement for #urban open space# in Section 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas) if it finds the provisions of a subway improvement cannot be accommodated without modification to these requirements.

(f) Modification of height and setback and yard regulations

In a C5-5 District, in the case of on-site subway station improvements that generate #floor area# bonus pursuant to Section 74-634, the City Planning Commission may permit modification of the applicable regulations in Sections 33-26 to 33-30, inclusive, relating to #rear yard# regulations, or in Sections 33-41 to 33-45, inclusive, relating to height and setback regulations.

The City Planning Commission may grant such modification upon consideration that the applicable height and setback or #rear yard# regulations cannot be complied with by some method feasible for the applicant to pursue because of the provision of a subway station improvement, the size or irregular shape of the lot, the size or irregular shape of the #block# or width of #streets#. The Commission shall also consider the characteristics of surrounding development. The Commission shall require, where appropriate, sufficient safeguards to insure the free flow of pedestrian and vehicular traffic in the general areA.

The City Planning Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding areA.

The following paragraphs incorporate existing requirements in the previous deleted paragraphs – (b), (c)(1) through (c)(9), (d)(1) through (d)(4), (e) and (f) – and those in Section 81-534 (Procedure), which has also been deleteD.

(a) Pre-application requirements

Prior to submitting an application for a special permit pursuant to this Section, the applicant shall submit a schematic or concept plan for the proposed improvement to the Metropolitan Transportation Authority, New York City Transit and the Chairperson of the City Planning Commission.

(b) Requirements for application

The application for a special permit shall include a letter from New York City Transit to the City Planning Commission containing conceptual approval of the improvement and a statement of any special considerations regarding New York City Transit's future operation of the improvement. The applicant shall submit all information and justification sufficient to enable the Commission to:

(1)evaluate the benefits to the City;

(2)determine the appropriate amount of bonus #floor area#; and

(3)where applicable, assess the advantages and disadvantages of waiving or modifying #street wall# continuity requirements.

(c) Conditions

(1)Within the #Special Midtown District#, for a #development# or #enlargement# located on a #zoning lot# divided by a Theater Subdistrict Core boundary, as defined in Section 81-71 (General Provisions), the amount of #lot area# eligible for bonus #floor area#

shall not exceed an amount equal to twice the #lot area# of that portion of the #zoning lot# located outside the Theater Subdistrict CorE.

(2) For a #residential# or mixed #development#, when a #floor area# bonus is granted pursuant to this Section, alone or in combination with other bonuses, the #lot area# requirements of Sections 23-20 (DENSITY REGULATIONS – REQUIRED LOT AREA PER DWELLING UNIT, LOT AREA PER ROOM OR FLOOR AREA PER ROOM) and 35-40 (APPLICABILITY OF LOT AREA REQUIREMENTS TO MIXED BUILDINGS) shall not apply. Instead, the minimum average size of a #dwelling unit# shall be 790 square feet.

(d)Findings

(1)In determining the amount of #floor area# bonus, the City Planning Commission shall consider:

(i)the degree to which the general accessibility and security of the subway station will be improved by the provision of new connections, additions to or reconfigurations of circulation space, including provision of escalators or elevators; and

(ii)significant improvements to the station's environment by provision for direct daylight access, or improvements to noise control, air quality, lighting or rider orientation and satisfactory integration of the #street# level entryway into the #development# or #enlargement#.

(2)In determining modifications to the requirements of Article 3, Chapter 7 (Special Regulations), the Commission shall find that the provisions of a subway improvement cannot be accommodated without modification to these requirements.

(3)In determining modifications to the #street wall# continuity provisions of Section 81-43 in the #Special Midtown District# or Section 91-31 (Street Wall Regulations) in the #Special Lower Manhattan District#, the Commission shall find that the modification will permit the proposed design to provide for access of daylight and air to the subway platform, mezzanine or concourse and that the advantages of such access outweigh the disadvantages incurred by the interruption of #street wall# and retail continuity.

(4)Within the #Special Midtown District#, for a #development# or #enlargement# within the Theater Subdistrict on a #zoning lot# containing a theater designated as listed pursuant to Section 81-742 (Listed theaters), the Commission shall find that the requirements of Section 81-743 (Required assurances for continuance of legitimate theater use) have been met.

(e)Procedural requirements

Prior to the granting of a special permit, the City Planning Commission shall be provided with the following:

(1)a letter from New York City Transit stating that the drawings and other documents submitted by the applicant have been determined by New York City Transit to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems, materials, relationship to existing site conditions and such other conditions as may be appropriate, and that the construction of the subway improvement in accordance with such submission is feasiblE.

(2)a legally enforceable instrument running with the land and signed by the applicant, containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and provide for ongoing maintenance of the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(f) Recordation & completion procedures

Any instrument creating a transit easement on the #zoning lot# shall be recorded against the #zoning lot# in the Office of the Register of the City of New York and a certified copy of the instrument shall be submitted to the City Planning Commission and New York City Transit. The applicant shall not apply for nor accept a temporary certificate of occupancy for the bonus #floor area#, and the Department of Buildings shall not issue such a temporary certificate of occupancy, until New York City Transit has determined that the bonused subway improvement is substantially complete which shall, for this purpose, mean open to and usable by the publiC.

The applicant shall not apply for or accept a permanent certificate of occupancy for the #development# or #enlargement#, nor shall the Department of Buildings issue such permanent certificate of occupancy, until the bonused subway improvement has been completed in accordance with the approved plans and such completion has been certified by New York City Transit.

The City Planning Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding areA.

Height and setback and yard regulations

* * *

Paragraph (c) has been moved to Section 91-66 (Modification of Bulk Regulations).

(c)Where a #development# on a #zoning lot# is located within the #Special South Street Seaport District# (Article VIII, Chapter 8), on application the Commission may permit modification of height and setback regulations and an increase in tower coverage beyond that allowed by Section 88-06 where the #development# satisfies either of the following conditions:

(1)that the developer obtains negative easements limiting the height of future #development# to 85 feet or less on any adjoining #zoning lot(s)# which are contiguous or would be contiguous to said #zoning lot# but for the separation by a #street# or #street# intersection, and such easements are recorded against such adjoining #zoning lots# by deed or written instrument. The Commission shall consider the aggregated areas of said #zoning lot# and the adjoining lots subject to such negative easements and the extent to which they achieve future assurance of light and air comparable to the standards of the Seaport and Manhattan Landing Districts in determining the maximum permitted coveragE. In no event shall such coverage exceed 80 percent of the #zoning lot# on which the #development# will be located; or

(2)that coverage on a #receiving lot# may be increased above 55 percent, but in no event to more than 80 percent, where additional #development rights# are purchased and converted to coverage according to the formula set forth in Section 88-06.

Prior to the Commission's public hearing on such #development#, the applicant shall indicate, to the Commission, its final decision as to the option chosen.

(3)As a condition for the special permit, the Commission shall make the following findings:
(i)that such special permit will aid in achieving the general purposes and intent of the Special District(s) in which the #development# is located;

(ii)that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot#; and

(iii)that the distribution of #bulk# and the #development# permits adequate access of light and air to surrounding #streets# and properties.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding areA.

(***dc***)In C5-3, C6-6 and C6-7 Districts ***excluding the "CR" Districts, which are provided for in a separate subsection hereunder***, the Commission may modify height and setback and #yard# regulations including tower coverage controls for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, provided the #zoning lot# occupies an entire blockfront on a #wide street#.

Such public open areas shall have a southern exposure, and adjoin a public sidewalk and be #developed# pursuant to the provisions of Section 37-04 (Requirements for ***Open Air Concourses, Sidewalk Widenings and*** Urban Plazas), ***paragraphs (b) through (l), and Section 37-043 (Urban plazas), paragraphs (j) and (k)***. . . .

* * *

(***ed***)As a further condition for the issuance of a permit under this Section . . .

* * *

(f)In all #Commercial Districts# indicated with a suffix "CR," the Commission may permit modifications of the height and setback and #yard# regulations, and spacing between #buildings# regulations involving abutting #buildings#, for:

(1)a #mixed building development#, complying with the provisions of Section 35-70 (SPECIAL PROVISIONS FOR CERTAIN MIXED BUILDINGS); or

(2)a #mixed building enlargement# which except for paragraph (d) complies with the provisions of Section 35-70; or

(3)a #building# solely occupied by permitted recreational and related #uses#, provided that the following findings are made:

(i) that such modification will enhance the relationship of the #building# to nearby #buildings#;

(ii) that in the case of a #mixed building development#, such modification will aid in the concentration and enhancement of the area or areas required for recreational space or other provided pedestrian amenities; and

(iii) that in the case of a #building# solely occupied by permitted recreational and related #uses#:

(a) public pedestrian circulation will be improved by the provision of substantial areas within the #zoning lot# accessible to the general public and located at or close to the principal level of pedestrian circulation in adjacent areas with prominent and obvious public entrances; and

(b) such facility will contribute toward the viability and objectives of the #Commercial Residential# (CR) #District# by providing increased street activity during evening hours and on weekends.

Existing Sections 81-45 (Provision of Pedestrian Circulation Space), 81-451 (Design standards for pedestrian circulation spaces), and 81-452 (Bonused amenities qualifying as pedestrian circulation spaces) have been deleted and the modified text has been incorporated into Section 37-07 (Requirements for Pedestrian Circulation Space), et. seq Existing Section 81-454 (Modification of design standards of pedestrian circulation spaces within existing buildings) has been deleted and the modified text has been incorporated into Section 37-074. Existing Section 81-453 (Exemptions from the pedestrian circulation space requirements) has been deleted and the text has been incorporated into the new Section 81-45, as follows.

81-45
Provision of Pedestrian Circulation Space

(Delete existing text.)

Within the #Special Midtown District#, all new #developments# or #enlargements# on #zoning lots# of 5,000 square feet or larger with more than 70,000 square feet of new #floor area# shall provide pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

The requirements for pedestrian circulation space may be met by providing one or more of the following types of spaces: arcade, building entrance recess area, corner arcade, corner circulation space, relocation or renovation of a subway stair, sidewalk widening, subway station improvement, through #block# connection or #urban plaza#. Design requirements and, where applicable, the maximum amount of each space that may be counted towards the minimum pedestrian circulation space requirement are set forth in Section 37-07 (Requirements for Pedestrian Circulation Space).

In addition, the following may be counted towards meeting the minimum pedestrian space requirement:

(a)up to a maximum of 3,000 square feet of an access improvement to rail mass transit, provided pursuant to Section 81-48 (Off-street Improvement of Access to Rail Mass Transit Facility); and

(b)within the Theater Subdistrict, theater waiting space provided pursuant to Section 81-451.

However, pedestrian circulation space shall not be required if any of the following conditions exist:

(1)the #zoning lot# is entirely occupied by a #building# of no more than one #story# in height;

(2)the #zoning lot# is an #interior lot# fronting on a #wide street# with less than 80 feet of #street frontage#;

(3)the #zoning lot# is an #interior# or #through lot# fronting only on a #street# or #streets# where arcades, sidewalk widenings or #urban plazas# are prohibited;

(4)the #zoning lot# is an #interior lot# fronting on either 34th Street, 42nd Street, 57th Street or Fifth Avenue, with another interior frontage of lesser length on any other #street#; or

(5)the #zoning lot# is a #through lot# with both #street frontages# less than 25 feet in lengtH.

New #developments# or #enlargements# on a #zoning lot# having a full #block# frontage on a #wide street# other than Fifth Avenue, 42nd Street, 34th Street or 57th Street shall provide a minimum of 50 percent of their required pedestrian circulation space on that #street#. In the case of a #zoning lot# having two full #block# frontages on #wide streets#, this minimum amount may be allocated on either one or both #wide streets#; where each #street# bounding a #zoning lot# with at least one full #block# frontage is a #wide street#, the minimum amount may be allowed on one or more of those #wide streets#.

Where pedestrian circulation space is provided along Seventh Avenue or Broadway between 43rd and 50th Streets, #signs# and marquees shall be permitted as exceptions to the requirements relating to obstructions or permitted obstructions in Section 37-07 (Requirements for Pedestrian Circulation Space).

Special dimensional requirements for arcades and sidewalk widenings along designated #streets# are set forth in Section 81-43 (Street Wall Continuity along Designated Streets). Where a new #building# or #enlarged# portion of an existing #building# provides an arcade, no obstructions, including columns, shall be permitted within such arcade, and the maximum height of such arcade shall be 20 feet and the maximum width shall be 10 feet. Arcades or sidewalk widenings shall not be permitted on 34th Street, 42nd Street, 57th Street or Fifth Avenue frontages or on any #street# frontage within the Preservation Subdistrict. Between 43rd and 50th Streets, no arcades shall be permitted parallel to and along Seventh Avenue or Broadway.

Theater waiting space

(Delete existing text.) Previous text incorporated into new Section 37-07.

Theater waiting space shall be an unobstructed area providing outdoor waiting space for a theater audience, located immediately adjacent to the sidewalk and to a theater listed in Section 81-742 (Listed Theaters) or a new theater designed and intended to show live theatrical performances. Theater waiting space may be located on the same #zoning lot# occupied by a theater or a #zoning lot# immediately adjacent to a theater, and shall meet the following requirements:

(a)such space shall adjoin and open onto a sidewalk or sidewalk widening for its entire length and shall have a minimum length of 30 feet measured parallel to the #street line# and a minimum clear depth of 10 feet measured perpendicular to the #street line# exclusive of any columns. Its level shall be entirely the same as that of the adjoining sidewalk. When located under an overhanging portion of a #building or other structure#, it shall have a minimum clear height of 15 feet and be free of any obstructions except for #building# columns;

(b)such space shall provide direct access to a #building's# entrance or the theater's lobby. Where the theater and the theater waiting space are on separate #zoning lots#, a plaque shall be provided within the theater waiting space adjacent to the theater stating that the space is available as a waiting area for the theater audiencE. Such plaque shall be placed between four feet and six feet above #curb level#, and shall be visible from the sidewalk;

(c)such space shall not adjoin a driveway or an off-#street# loading berth;

(d)the entire theater waiting space shall be illuminated with a minimum level of not less than eight horizontal foot-candles (lumens per foot).

The theater waiting space may overlap with an arcade, a building entrance recess area, a corner arcade, a corner circulation space or a a sidewalk wideninG. However, the area of overlap may only be counted once toward the fulfillment of the required minimum area of pedestrian circulation spacE.

GENERAL PURPOSES

The "Special Lower Manhattan District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

(a)Encourage development of a 24-hour community through the conversion of older commercial buildings to residential use;

(b) Facilitate maximum design flexibility of buildings and enhance the distinctive skyline and streetscape of Lower Manhattan;

(c) Improve public use and enjoyment of the East River waterfront by creating a better physical and visual relationship between development along the East River and the waterfront area, public access areas and the adjoining upland community;

(d) Enhance the pedestrian environment by relieving sidewalk congestion and providing pedestrian amenities;

(e) Restore, preserve and assure the use of the South Street Seaport Subdistrict as an area of small historic and restored buildings, open to the waterfront and having a high proportion of public spaces and amenities, including a South Street Seaport Environmental Museum, with associated cultural, recreational and retail activities;

(f) Establish the Historic and Commercial Core to protect the existing character of this landmarked area by promoting development that is harmonious with the existing scale and street configuration; and

(g) Promote the most desirable use of land and thus conserve and enhance the value of land and buildings, and thereby protect the City's tax revenues.

91-01
General Provisions

Except as modified by the express provisions of this District, the regulations of the underlying zoning districts shall remain in effect.

Requirements that apply generally throughout the #Special Lower Manhattan District# are set forth in the provisions for this Chapter. The provisions of Section 91-40 (MANDATORY DESIGN PLAN ELEMENTS) specify planning and urban design features to be provided in connection with new #developments# or #enlargements# that are primarily oriented toward the accommodation and well-being of pedestrians. For requirements that are not generally applicable but are tied to specific locations within the Special District, the locations where these requirements apply are shown on District Map 2 (Street Wall Continuity Types 1, 2 & 3), Map 3 (Street Wall Continuity Types 4 & 5), Map 4 (Designated Retail Streets) and Map 5 (Curb Cut Prohibitions) in Appendix A.

The provisions of Article VI, Chapter 2 (Special Regulations in the Waterfront Area) shall apply to all areas of the #waterfront area# within the #Special Lower Manhattan District#, except as otherwise provided in Section 91-60 (REGULATIONS FOR THE SOUTH STREET SEAPORT SUBDISTRICT) for Piers 9, 11, 13 and 14. Piers 9, 11, 13 and 14 are shown on Maps 1 and 6 in Appendix A.

An existing public amenity, open or enclosed, that was a mandatory requirement or received a #floor area# bonus pursuant to the provisions of the former Special Greenwich Street Development District, eliminated on (effective date of amendment), shall not be removed, reduced in size or in any way altered, other than pursuant to the provisions of Section 91-71 (Authorization for the Modification of Required Public Amenities).

Special regulations governing the development of three specific sites in the Special Lower Manhattan District are set forth in the following Sections:

Section 91-72(Certification for Development on the Block bounded by Liberty, Washington, Cedar and West Streets)

Section 91-73 (Special Permit for Development over the Approaches to the Brooklyn Battery Tunnel)

Section 91-74 (Special provisions for Battery Park Underpass/South Street).

91-04
Subdistrict and Core Areas

In order to carry out the purposes and provisions of this Chapter, the South Street Seaport Subdistrict and the Historic and Commercial Core are established within the #Special Lower Manhattan District# and include specific regulations designed to advance the purpose of these areas:

(a) The South Street Seaport Subdistrict

The South Street Seaport Subdistrict contains certain provisions that do not apply to other areas of the Special District. Except as otherwise provided in the Subdistrict regulations, the Subdistrict is subject to all other regulations of the #Special Lower Manhattan District# and the underlying districts. The requirements for the South Street Seaport Subdistrict are set forth in Section 91-60 (SPECIAL REGULATIONS FOR THE SOUTH STREET SEAPORT SUBDISTRICT).

The Subdistrict is shown on Map 1 (Special Lower Manhattan District) and Map 6 (South Street Seaport Subdistrict) in Appendix A.

(b) The Historic and Commercial Core

The Historic and Commercial Core has been established to promote #development# compatible with existing #buildings# that border the area whose street plan has been accorded landmark status by the New York City Landmarks Commission as the Streetplan of New Amsterdam and Colonial New York. Height and setback provisions for the Historic and Commercial Core are set forth in Sections 91-31 through 91-33.
The Core is bounded by Broadway and Wall, Whitehall and Water Streets, as shown on Map 1 (Special Lower Manhattan District) in Appendix A.

91-05
Applicability of the Quality Housing Program

Within the #Special Lower Manhattan District#, #residential buildings# or the #residential# portion of a #mixed building# may be #developed# or #enlarged# in accordance with the provisions of Article II, Chapter 8 (The Quality Housing Program), except that the #bulk# regulations of Section 28-11 shall be superseded by the #bulk# regulations of this Chapter. Recreation space required pursuant to Section 28-30 (RECREATION SPACE AND PLANTING AREAS) shall be in addition to any recreation space required pursuant to this Chapter.

91-06
Applicability of Article VII Provisions

91-061
Applicability of special permits by the Board of Standards and Appeals

Within the #Special Lower Manhattan District#, the following Board of Standards and Appeals special permits shall not be applicable or shall be applicable only as modified:

The following special permit by the Board of Standards and Appeals shall not be applicable:

Section 73-68
(Modifications of Height, Setback and Rear Yard Regulations)

The following special permits by the Board of Standards and Appeals shall be applicable as modified:

Section 73-21(Automotive Service Stations) shall not apply on #zoning lots# with frontage on any #street# listed on Map 2 (Streets Where Street Wall Continuity Is Required) or Map 4 (Designated Retail Streets) in Appendix A

Section 73-244 (In C2, C3, C4*, M1-5A, M1-5B, M1-5M and M1-6M Districts and the Special Tribeca Mixed Use District) shall also apply in C5 Districts to eating or drinking establishments with entertainment, including musical entertainment or dancing, and a capacity of more than 200 persons.

91-062
Applicability of special permits by the City Planning Commission

Within the #Special Lower Manhattan District#, the following City Planning Commission special permits shall not be

applicable or shall be applicable within C5 Districts, as follows:

The following special permits by the City Planning Commission shall not be applicable:

Section 74-721(Modification of Height, Setback and Yard Regulations)

Section 74-722 (Special Floor Area Regulations)

The following special permits by the City Planning Commission shall be applicable also within C5 Districts:

Section 74-41 (Arenas, Auditoriums, Stadiums or Trade Expositions)

Section 74-46 (Indoor Interactive Entertainment Facilities).

91-10
SPECIAL USE REGULATIONS

91-11
Modification of Use Regulations in C5 Districts

91-111
Additional uses in C5 Districts

In addition to the special permit #uses# cited in Section 91-05, the #use# regulations for C5 Districts within the #Special Lower Manhattan District# are modified to permit the following #uses#:

From Use Group 7:

Use Groups 7B and 7E

From Use Group 8:

Use Groups 8A*, 8B and 8E

From Use Group 12:

Use Groups 12A, 12B, 12C and 12E**

*** inclusive of the waiting area requirements for theaters as listed in Use Group 8A.**
** except for eating or drinking establishments as listed in Use Group 12A.

91-112
Eating and drinking establishments with dancing in C5 Districts

In all C5 Districts within the Special District, in addition to eating and drinking establishments permitted pursuant to Section 32-15 (Use Group 6), the following types of eating and drinking establishments shall be permitted:

Eating or drinking establishments with entertainment, including musical entertainment or dancing, with a total capacity of 200 persons or fewer, shall be permitted, provided that the dance floor or area, if any, does not exceed 400 square feet. The locational and waiting area requirements for eating or drinking establishments of Section 73-244 (In C2, C3, C4*, M1-5A, M1-5B, M1-5M and M1-6M Districts and the Special Tribeca Mixed Use District) shall apply.

Eating or drinking establishments with entertainment, including musical entertainment or dancing, with a capacity of more than 200 persons shall be permitted, pursuant to the provisions of Section 73-244, as modified in Section 91-051 (Applicability of special permits by the Board of Standards and Appeals).

91-113
Location of certain commercial uses

In C5 Districts within the Special District#, the provisions of Section 32-423 (Limitation on ground floor location) shall not apply.

91-12
Uses on Designated Retail Streets

On designated retail #streets#, as shown on Map 4 in Appendix A, for any #development# or #enlargement# fronting on such #streets#, #uses# located on the ground floor level, or within five feet of #curb level#, shall be limited to only those #uses# permitted by the underlying regulations and Section 91-111 (Additional uses in C5 Districts), other than automobile showrooms or plumbing, heating or ventilating equipment showrooms or any of the #uses# listed in Use Groups 6B, 6E, 7C, 7D, 8C, 8D, 9B, 10B, 11 or 12D.

91-13
Sign Regulations

In the #Special Lower Manhattan District#, except as modified by the provisions of this Section, the regulations of Section 32-60, et. seq. pertaining to #signs#, shall apply.

91-131
Illuminated signs in C5 Districts

In all C5 Districts within the Special District, not more than one #illuminated#, non-#flashing sign#, other than an #advertising sign#, with a total #surface area# not exceeding eight square feet shall be permitted for each #street# frontage of the #zoning lot#. Such #sign# may be located only within a window of a #building#.

91-132
Banner regulations

In all C5 and C6 Districts within the Special District, in lieu of the provisions of Section 32-652 (Permitted projection in all other Commercial Districts), banners may project across a #street line# for a maximum distance of eight feet.

In C5-3 or C5-5 Districts within the Special District, in lieu of the provisions of Section 32-655 (Height of signs in all other Commercial Districts), banners may extend above #curb level# to a maximum height of 40 feet.

91-20
FLOOR AREA AND DENSITY REGULATIONS

91-21
Floor Area Regulations For Residential Buildings and the Residential Portion of Mixed Buildings

91-211
Maximum floor area ratio for residential uses

Within the #Special Lower Manhattan District#, the maximum #floor area ratio# for a #residential building# or the #residential# portion of a #mixed building# shall be determined in accordance with the regulations of the underlying district and may not be increased except as provided in Sections 91-212 (Floor area increase in a C6-4 District) or 91-213 (Floor area increase for provision of recreation space).

In a C4-6 District, the maximum #floor area ratio# for a #residential building# or the #residential# portion of a #mixed building# shall be 3.4.

91-212
Floor area increase in a C6-4 District

In a C6-4 District, except within the South Street Seaport Subdistrict, the #residential floor area# of a #building# may exceed 10.0 in accordance with the provisions of Section 23-90 (INCLUSIONARY HOUSING) or Section 91-241 (Floor area bonus for urban plazas), provided that the maximum #residential #floor area# ratio shall not exceed 12. 0.

91-213
Floor area increase for provision of recreation space

In C5-3, C5-5 and C6-9 Districts, the #residential floor area# of a #building# may be increased to 12. 0, provided that the #building# includes recreation space for the #residential# occupants in an amount not less than 13 square feet for each #rooming unit#, 16.25 square feet for each #dwelling unit#, or a total area of at least 5,000 square feet, whichever is greater.

Such recreation space may be located at any level, including a roof, and shall:

(a)be restricted to #residential# occupants of the #building# and their guests for whom no admission or membership fees may be charged;

(b)be directly accessible from a lobby or other public area served by the #residential# elevators;

(c)be landscaped, including trees or shrubbery, except where covered or developed with recreational facilities and seating areas;

(d)contain not less than 500 square feet of continuous area on a single level with no dimension of less than 15 feet; and

(e)have not less than 50 percent of the area open from its lowest level to the sky. The remaining portion may be roofed and up to 50 percent of its perimeter may be encloseD. In no event may more than 25 percent of the required recreation space be fully encloseD. All enclosures shall be transparent except when located within the #building#. Covered areas shall contain recreation facilities or seating areas.

A copy of requirements (a) through (e) shall be permanently posted in a conspicuous place within each recreation spacE.

91-22
Density Regulations for Residential Buildings and the Residential Portion of Mixed Buildings

The #Special Lower Manhattan District#, the #lot area# requirements of Sections 23-20 (DENSITY REGULATIONS – REQUIRED LOT AREA PER DWELLING UNIT, LOT AREA PER ROOM OR FLOOR AREA PER ROOM) and 35-41 (Lot Area Requirements for Non-Residential Portions of Mixed Buildings) and the provisions of Section 35-42 (Density or Lot Area Bonus in Mixed Buildings) shall not apply to any #residential# or #mixed building development#. In lieu thereof, the minimum average size of #dwelling units# or #rooming units# shall be determined by the following tablE.

Each #dwelling unit# shall contain at least 400 square feet of #floor area# except that this requirement shall not apply to #non-profit residences for the elderly#.

MINIMUM AVERAGE SIZE OF DWELLING UNITS OR ROOMING UNITS

#Dwelling Units# District	(in sq. ft.)	#Rooming Units# (in sq. ft.)
R8 (or commercial equivalent)	**740**	**530**
R10 (or commercial equivalent)	**790**	**600**

The maximum number of #dwelling units# or #rooming units# for #non-profit residences for the elderly# may be increased over the amount of #dwelling units# or #rooming units# permitted by this Section by up to 10 percent.

91-23
Floor Area Regulations for Non-Residential and Mixed Buildings

For non-#residential buildings# or #mixed buildings# within the #Special Lower Manhattan District#, the basic maximum #floor area ratio# of the underlying district may be increased by the inclusion of specific additional bonus #floor area# for a maximum #floor area ratio# as specified on the following chart.

The provisions of paragraph (c) of Section 74-792 (Conditions and limitations), pertaining to the transfer of development rights from landmark sites, shall be subject to the restrictions on the transfer of development rights (FAR) of a landmark "granting lot" as set forth in the following tablE. Wherever there may be an inconsistency between any provision in Section 74-79 and the following table, the provisions of the table shall apply.

SEE MAPS ON BACK PAGES

91-24
As-of-Right Bonuses for Increased Floor Area

Within the #Special Lower Manhattan District#, as-of-right bonuses for increased #floor area# are allowed only in accordance with the provisions of this Section.

91-241
Floor area bonus for urban plazas

The maximum permitted #floor area# on a #zoning lot# may be increased in accordance with the following regulations, provided that an #urban plaza#, which shall meet the requirements of Section 37-04 (Requirements for Urban Plazas), is included in the #development# or #enlargement#.

(a)A #floor area# bonus for an #urban plaza# shall not be permitted for any #development# or #enlargement# located within:

(1)the Historic and Commercial Core;

(2)the South Street Seaport Subdistrict; or

(3) 50 feet of a #street line# of a designated #street# on which:

(i)retail continuity is required pursuant to Section 91-41 (Regulations for Designated Retail Streets), or;

(ii)#street wall# continuity is required pursuant to the regulations for Type 1 or Type 2 #street walls# pursuant to Section 91-31 (Street wall Regulations).

(b)For each square foot of an #urban plaza#, the basic maximum #floor area# permitted by Section 91-23 (Floor Area Regulations for Non-Residential and Mixed Buildings) may be increased, in C6-4 Districts, by six square feet to a maximum #floor area# ratio of 12. 0; and, in C5-3, C5-5 and C6-9 Districts, by ten square feet to a maximum #floor area# ratio of 18.0.

(c)When an #urban plaza# that meets the requirements for a #floor area# bonus is located on a #zoning lot# divided by a district boundary, the bonusable #floor area# may be credited to either portion of the #zoning lot#, notwithstanding the location of the #urban plaza# or the date of the creation of the #zoning lot#. The amount of bonusable #floor area# permitted on either portion of the #zoning lot# shall not exceed the maximum amount of #floor area# permitted on such portion if it were a separate #zoning lot# subject to all other provisions of Article VII, Chapter 7.

91-242
Floor area bonuses for improvements on the block bounded by Liberty, Washington, Cedar and West Streets

For any #development# on the #block# bounded by Liberty, Washington, Cedar and West Streets within the former #Special Greenwich Street Development District#, certain improvements, as certified by the City Planning Commission, shall be eligible for as-of-right bonuses for #floor area#, pursuant to the provisions of Section 91-72.

91-25
Special Permit Bonuses for Increased Floor Area

Within the #Special Lower Manhattan District#, the City Planning Commission may grant the following special permits for increased #floor area# in accordance with the provisions of this Section.

91-251
Special permit for subway station improvements

Within the #Special Lower Manhattan District#, the City Planning Commission may grant, by special permit, a #floor area# bonus for #buildings# that provide subway station improvements, pursuant to the provisions of Section 74-634 (Subway station improvements in commercial zones of 10 FAR and above in Manhattan).

The total additional #floor area# permitted on the #zoning lot# shall not exceed the maximum amount permitted in the underlying district by the provisions of Sections 91-21 (Floor Area Regulations For Residential Buildings and the Residential Portion of Mixed Buildings) or 91-23 (Floor Area Regulations for Non-Residential and Mixed Buildings).

For the purposes of the Special District, the #zoning lot# for the #development# or #enlargement# that will receive the #floor area# bonus shall be located within a #Commercial District# with a #floor area ratio# of 10.0 or above and shall be adjacent to a subway station where major improvements have been provideD. Upon completion of the improvement, the #zoning lot# will physically adjoin a subway station mezzanine, platform, concourse or connecting passageway.

The subway stations where such improvements are permitted are listed in the following table and shown on Map 7 (Subway Station Improvement Areas) in Appendix A.

91-252
Special permit for covered pedestrian space

In C5-3, C5-5, C6-4 and C6-9 Districts within the #Special Lower Manhattan District#, except within the South Street Seaport Subdistrict, the City Planning Commission may grant, by special permit, a #floor area# bonus for a #commercial# or #community facility development# or #mixed building# that provides #covered pedestrian space# on a #zoning lot#, in accordance with the provisions of Section 74-87 (Covered Pedestrian Space).

The total additional #floor area# permitted on the #zoning lot# shall not exceed the maximum amount permitted in the underlying district by the provisions of Sections 91-21 (Floor Area Regulations For Residential Buildings and the Residential Portion of Mixed Buildings) and 91-23 (Floor Area Regulations for Non-Residential and Mixed Buildings).

91-30
HEIGHT AND SETBACK AND LOT COVERAGE REGULATIONS

For all #buildings or other structures# in the #Special Lower Manhattan District#, the height and setback regulations of the underlying districts are superseded by the regulations of this Section.

The height of all #buildings or other structures# shall be measured from #curb level#.

91-31
Street Wall Regulations

Within the #Special Lower Manhattan District#, all portions of #buildings or other structures# located above the maximum base heights specified in paragraph (a) of this Section shall provide a setback in accordance with the regulations of Section 91-32 (Setback Regulations).

(a)Within the Special District, the maximum base height shall be 85 feet or 1.5 times the width of the #street# upon which the #building# fronts, whichever is greater, except as provided for the following types of #street wall# regulations:

(1)#Street wall# regulations: Type 1

For #developments# or #enlargements# that front upon a #street# indicated as "Type 1" on Map 2 (Street Wall Continuity Types 1, 2 & 3) in Appendix A, #street walls# shall extend along the entire #street# frontage of the #zoning lot# to a minimum base height of 150 feet or the height of the #building#, whichever is less. The maximum base height shall be 250 feet.

(2) #Street wall# regulations: Type 2

For #developments or enlargements# that front upon a #street# indicated as "Type 2" on Map 2 (Street Wall Continuity Types 1, 2 & 3) in Appendix A, #street walls# shall extend along the entire #street# frontage of the #zoning lot# to a minimum base height of 85 feet or the height of the #building#, whichever is less. The maximum base height shall be 150 feet.

(3)#Street wall# regulations: Type 3

For #developments or enlargements# that front upon a #street# indicated as "Type 3" on Map 2 (Street Wall Continuity Types 1, 2 & 3) in Appendix A, #street walls# shall extend along the entire #street# frontage of the #zoning lot# to a minimum base height of 60 feet, five stories, or the height of the #building#, whichever is less. The maximum base height shall be 85 feet or 1.5 times the width of the #street# upon which the #building# fronts, whichever is greater.

(4)#Street wall# regulations: Type 4

For #developments# or #enlargements# that front upon a #street# within the Historic and Commercial Core, indicated as "Type 4" on Map 3 (Street Wall Continuity Types 4 & 5) in Appendix A, the maximum base height shall be 100 feet.

(5)#Street wall# regulations: Type 5

For #developments# or #enlargements# that front upon a #street# indicated as "Type 5" on Map 3 (Street Wall Continuity Types 4 & 5) in Appendix A, no setbacks are required for any portion of a #building#.

(b)For #developments# or #enlargements# that front upon a #street# indicated as "Type 1" or "Type 2," at least 70 percent of the #aggregate width of street walls# shall be located on such #street line#. For #developments# or #enlargements# that front upon a #street# indicated as "Type 3," at least 70 percent of the #aggregate width of street walls# shall be located within 10 feet of the #street line#. The remaining 30 percent of the #aggregate width of street walls# may be located beyond such #street lines# in compliance with:

(1)the #outer court# regulations of Article II, Chapter 3, for #residential# portions of #buildings#; or

(2)the #outer court# regulations of Article II, Chapter 4, for all other portions of #buildings#; or

(3)the requirements of Section 37-07 (Requirements for pedestrian circulation space) where such areas are pedestrian circulation spaces.

(c)When a #building# fronts on two intersecting #streets# for which different maximum base heights are specified, the higher maximum base height may wrap around to the #street# with the lower maximum base height for a distance along the #street line# of 100 feet. However, "Type 5" #street walls# shall not be permitted to wrap around to the intersecting #street#.

(d)Arcades and sidewalk widenings shall be permitted along any #street# indicated as "Type 1," "Type 2" or "Type 3," pursuant to paragraphs (a), (b) or (c) of this Section, provided such arcade or sidewalk widening extends along the entire #block# frontage or abuts another arcade, existing on (effective date of amendment), of equal width and height or another sidewalk widening of equal widtH. In such case, the #street wall# requirements for paragraph (b) of this Section shall be measured from the permitted arcade or sidewalk wideninG.

91-311
Modification of streetwall regulations

Within the #Special Lower Manhattan District#, the City Planning Commission, by special permit, may modify the locational requirements and minimum base heights of Section 91-31 (Street Wall Regulations), provided that the Commission finds such change will:

(a)produce an improved site plan consistent with existing scale and #street# configuration patterns;

(b)enhance pedestrian circulation by providing pedestrian amenities that relieve sidewalk congestion; and

(c)ensure a more harmonious relationship between the #development# and the surrounding areA.

91-32
Setback Regulations

Within the #Special Lower Manhattan District#, setbacks are required for any portion of a #building# that exceeds the maximum base heights specified for the applicable #street# in Section 91-31 (Street Wall Regulations).

Required setbacks shall be provided at a height not lower than any minimum base height and not higher than any maximum base height specified for the applicable #street# in Section 91-31. The depth of the setback shall be determined by the #lot area# of the #zoning lot# on which the #building# is located, as shown in the following table:

REQUIRED DEPTH OF SETBACKS

#Lot area# of #zoning lot# Minimum setback depth

Less than 15,000 square feet 10 feet

15,001 to 30,000 square feet 15 feet

Greater than 30,000 square feet 20 feet

For "Type 1" and "Type 2" #street walls#, the required setbacks shall be measured from the #street line# at the maximum base height.

For "Type 3" #street walls#, the required setbacks shall be measured from a line drawn at or parallel to the #street line# so that at least 70 percent of the #aggregate width of street walls# of the #building# at the maximum base height are within such line and the #street line#.

For all other #street walls#, the required setbacks shall be measured from a line drawn at or parallel to the #street line# so that at least 50 percent of the #aggregate width of street walls# of the #building# at the maximum base height are within such drawn line and the #street line#. However, setbacks are not required for #street walls# fronting upon the major portion of a bonused #urban plaza#.

For #buildings within the Historic and Commercial Core as shown on Map 1 in Appendix A, any #building# or portion of a #building# may be located within the required setback area beneath a #sky exposure plane# that rises from a height of 100 feet above the #street line# over the #zoning lot# at a vertical distance of six to a horizontal distance of onE.

91-33
Lot Coverage Regulations
Except within the Historic and Commercial Core, any #development# or #enlargement#, or portion thereof, shall have a maximum #lot coverage# of 65 percent of the #lot area# of the #zoning lot# above the maximum base height specified in Section 91-31 (Street Wall Regulations), up to a height of 300 feet. Above a height of 300 feet, any #development# or #enlargement# or portion thereof shall have a maximum #lot coverage# of 50 percent of the #lot area# of the #zoning lot#.

Within the Historic and Commercial Core, any #development# or #enlargement#, or portion thereof, shall have a maximum #lot coverage# of 75 percent of the #lot area# of the #zoning lot# above the maximum base height specified in Section 91-31, up to a height of 300 feet. Above a height of 300 feet, any #development# or #enlargement# or portion thereof shall have a maximum #lot coverage# of 60 percent of the #lot area# of the #zoning lot#.

For #developments# or #enlargements# fronting on more than one #street# where different maximum base heights are specified, the maximum #lot coverage# regulations specified in this Section, up to a height of 300 feet, shall apply above the lowest maximum base height specified for such #developments# or #enlargements#.

91-34
Maximum Horizontal Dimension for Tall Buildings

For any portion of a #development# or #enlargement# above a height of 300 feet, the maximum horizontal dimension, measured in any direction, shall not exceed 175 feet.

91-40
MANDATORY DISTRICT PLAN ELEMENTS

91-41
Regulations for Designated Retail Streets

91-411
Location of required retail space

For any #development# or #enlargement# fronting on the ground floor level of designated retail #streets#, as shown on Map 4 in Appendix A, the #street# frontage of the #building# shall be allocated exclusively to the #uses# set forth in Section 91-12 (Uses on Designated Retail Streets). However, #uses# located within lobby or entrance spaces, subway station improvements or pedestrian circulation spaces that do not front on the ground floor level of the #street# shall be in accordance with the provisions for permitted #uses# of the underlying district.

Where the #street# frontage occupied by all building entrances is 20 feet or more in width, the amount of #street# frontage occupied by lobby space, entrance space and/or a building entrance recess shall not exceed, in total, 40 linear feet or 25 percent of the building's total #street# frontage, whichever is less, exclusive of any frontage occupied by a relocated subway stair or the entrance area to a bonused subway station improvement.

Storefronts for permitted ground floor #uses# shall be no more than 10 feet from the #street line# or, where an #arcade# is provided with supporting columns at the #street line#, no more than 10 feet from the supporting columns.

91-412
Access and glazing of required retail space

Access to each permitted establishment or #use# shall be provided directly from the designated retail #street#, as shown on Map 4 in Appendix A. Where there is more than one entrance to the establishment or #use# from the designated retail #street#, direct access shall be provided via the entrance with the greatest aggregate clear opening widtH.

At least 50 percent of the #street wall# surface of each permitted establishment or #use# shall be glazed with clear untinted transparent material and not more than 50 percent of such transparent surface shall be painted or obstructed with #signs#.

For the purposes of this glazing requirement, the #street wall# surface of each permitted establishment shall be measured from the floor to the height of the ceiling or 14 feet above grade, whichever is less.

91-42
Pedestrian Circulation Space

Within the boundaries of the #Special Lower Manhattan District#, all new #developments# or #enlargements# on #zoning lots# of at least 5,000 square feet that contain more than 70,000 square feet of new #floor area# shall provide pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

Pedestrian circulation space shall not be required if any of the following conditions exist:

(a) the #zoning lot# is entirely occupied by a #building# of no more than one #story# in height;

(b) the #zoning lot# is an #interior lot# fronting on a #wide street# with less than 80 feet of #street frontage#;

(c) the #zoning lot# is an #interior# or #through lot# fronting on a #street# or #streets# listed in paragraph (a) of Section 91-31 (Street Wall Regulations);

(d) the #zoning lot# is a #through lot# and both #street frontages# are less than 25 feet in lengtH.

91-43
Off-Street Relocation or Renovation of a Subway Stair

Where a #development# or #enlargement# is constructed on a #zoning lot# that contains at least 5,000 square feet of #lot area# and fronts on a sidewalk containing a stairway entrance or entrances into a subway station, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. The new entrance or entrances shall be provided in accordance with the provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair). A relocated or renovated subway stair may be counted as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

The subway stations where such improvements are required are listed in the following table and shown on Map 7 (Subway Station Improvement Areas) in Appendix A.

OFF-STREET PARKING, LOADING AND CURB CUT REGULATIONS

The off-street parking regulations of Article 1, Chapter 3 (Comprehensive Off-Street Parking Regulations in Community Districts 1, 2, 3, 4, 5, 6, 7 and 8 in the Borough of Manhattan and a Portion of Community Districts 1 and 2 in the Borough of Queens) and the loading regulations of the underlying districts apply to the #Special Lower Manhattan District#, except as supplemented or modified by the provisions of this Section.

91-51
Accessory Off-Street Parking for Residential Uses in Converted Buildings

#Accessory# off-street parking spaces shall be permitted for #dwelling units# in non-#residential buildings# erected prior to January 1, 1977, or portions thereof, that are converted to #residential use#, provided:

(a) no more than 200 spaces or a number of spaces equal to 20 percent of the number of #dwelling units# on the #zoning lot#, whichever is less, shall be permitted;

(b) no curb cut shall be permitted on any #street# where the converted #building# has a #street# frontage of 40 feet or less;

(c) no portion of any such parking facility shall be more than 23 feet above #curb level#;

(d) no exhaust vents shall open onto any #street# or #public park# or publicly accessible #open space#, and no portion of the parking facility, other than entrances and exits, shall be visible from adjoining #zoning lots#, #streets# or parks; and

(e) all such parking facilities shall be provided on the same #zoning lot# as the #residential uses# to which they are #accessory#, except as otherwise provided in Section 91-511 (Authorization for off-site parking facilities for converted buildings).

91-511
Authorization for off-site parking facilities for converted buildings

The City Planning Commission may authorize #accessory# residential off-site parking spaces for non-#residential buildings# erected prior to January 1, 1977, or portions thereof, that are converted to #residential use#, to be provided in a fully-enclosed #building# on a #zoning lot# within the #Special Lower Manhattan District# other than the #zoning lot# that contains the #residential use#, provided the Commission finds that:

(a) such #accessory# off-site parking spaces are conveniently located in relation to the #residential use#, and in no case further than 600 feet from the #zoning lot# containing the #residential use#;

(b) such location of the #accessory# off-site parking facility will permit better site planning for the #building# converted to #residential use#;

(c) the #accessory# off-site parking facility will not create or contribute to traffic congestion or unduly inhibit vehicular and pedestrian movement;

(d)that the #accessory# off-site parking facility is located so as to draw a minimum of additional vehicular traffic to and through local #residential streets#; and
(e)that such #accessory# off-site parking facility shall contain parking spaces #accessory# only to #residential uses#.

The number of #accessory# off-site parking spaces authorized in accordance with the provisions of this Section shall be recorded on the certificates of occupancy, temporary and permanent, for both the #residential use# and the #accessory# off-site parking facility.

91-52
Curb Cut Regulations

All curb cuts shall be prohibited on #streets# indicated on Map 5 (Curb Cut Prohibitions) in Appendix A, except that:

(a) the Commissioner of Buildings may approve a curb cut where there are no alternative means of access to required off-street loading berths from other #streets# bounding the #zoning lot#; and

(b) the City Planning Commission may authorize curb cuts for loading berths provided:

(1) such loading berths are adjacent to a fully enclosed maneuvering area on the #zoning lot#;

(2) such maneuvering area is at least equal in size to the area of the loading berth; and

(3) there is adequate space to permit head-in and head-out truck movements to and from the #zoning lot#.

The City Planning Commission may refer such applications to the Department of Transportation for comment.

No curb cuts may be approved or authorized on Battery Place, Broad Street, Broadway, Liberty Street west of Broadway, Park Row South or Wall Street.

Where a curb cut is approved or authorized pursuant to this Section, the maximum width of a curb cut, including splays, shall be 15 feet for a #street# with one-way traffic and 25 feet for a #street# with two-way traffiC.

The Special South Street Seaport District (88-00) has been deleted and the text has been incorporated into the Lower Manhattan text as a subdistrict. 91-60
REGULATIONS FOR THE SOUTH STREET SEAPORT SUBDISTRICT

88-0091-61

GENERAL PURPOSES General Provisions

The "Special South Street Seaport District" (hereinafter also referred to as the "District") established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity and to implement the provisions of the Brooklyn Bridge Southeast Urban Renewal Plan, as amended (the "Urban Renewal Plan"). **The regulations of Sections 91-60, et. seq., relating to special regulations for the South Street Seaport Subdistrict are applicable only in the South Street Seaport Subdistrict. The boundaries of the South Street Seaport Subdistrict are shown on Map 1 (Special Lower Manhattan District) and Map 6 (South Street Seaport Subdistrict) in Appendix A. The regulations of Section 91-60, et. seq., supplement or modify the regulations of this Chapter applying in general to the South Street Seaport Subdistrict area of the #Special Lower Manhattan District#.**

In order to preserve and protect the character of the South Street Seaport Subdistrict and to implement the provisions of the Brooklyn Bridge Southeast Urban Renewal Plan, as amended, special controls and incentives are provideD.

The provisions of Article VI, Chapter 2 (Special Regulations in the Waterfront Area), shall apply to #waterfront zoning lots# within the South Street Seaport Subdistrict. The provisions of paragraph (c) of Section 74-792 (Conditions and limitations) concerning the transfer of development rights from landmark sites in C5-3, C5-5, C6-6, C6-7 or C6-9 Districts shall not apply in the South Street Seaport Subdistrict.

These general goals include, among others, the following purposes:

(a)to encourage the preservation, restoration and, in certain cases, redevelopment of real property and buildings thereon within the Brooklyn Bridge Southeast Urban Renewal Area into a South Street Seaport Environmental Museum having associated cultural, recreational and retail activities;

(b)to preserve and encourage the restoration of the Schermerhorn Row Landmark Buildings which have been so designated by the New York City Landmarks Preservation Commission;

(c)to assure the use of the South Street Seaport area as an area of small historic and restored buildings, open to the waterfront, having a high proportion of public spaces and amenities, which would serve as an urban retreat from the neighboring commercial office buildings and activity of lower Manhattan;

(d)as a means of accomplishing the aforesaid purposes, to permit the transfer and disposition of development rights from designated granting lots in the Seaport area to South Street commercial development in a manner consistent with the provisions of this District; and

(e)to promote the most desirable use of land in accordance with the Urban Renewal Plan and thus to conserve and enhance the value of land and buildings, and thereby protect the City's tax revenues.

Transfer of Development Rights from Granting Lots

Within the South Street Seaport Subdistrict, #*D*evelopment rights# from each of the #granting lots# may be conveyed, or otherwise disposed of:

(a) directly to a #receiving lot#; or

(b) to a #person# for subsequent disposition to a #receiving lot#, all in accordance with the provisions of this **Subd*D***istrict, except that with respect to #zoning lots# located on Parcels 6, 7, and 9, as identified on ***the Transfer District*** Map **6 in Appendix A,** only those #development rights# in excess of **the larger of the following conditions may be so conveyed or otherwise disposed of:**

(1) an amount equal to the product of the #lot area# of each of such #zoning lots# multiplied by 5.0; or

(2) the total #floor area# of all existing #buildings# on any such #zoning lots#, ***whichever excess amount is smaller, may be so conveyed or otherwise disposed of.***

The City Planning Commission shall certify such initial transfer from the #granting lots#. Any #person# may convey its interest in all or a portion of such #development rights# to another #person#, but such #development rights# may only be used for a #development# on a #receiving lot#.

*88-0*591-65
Addition of Development Rights to Receiving Lots

Within the South Street Seaport Subdistrict, a*All* or any portion of the #development rights# transferred from a #granting lot# may be added to the #floor area# of all or any one of the #receiving lots# in an amount not to exceed the ratio of 10 square feet of #development rights# to each square foot of #lot area# of such #receiving lot#, except that with respect to a #receiving lot# having a #lot area# of less than 30,000 square feet, the total #floor area ratio# on such #receiving lot# shall not exceed a #floor area ratio# of 21.6. #Development rights# transferred to a #receiving lot# may be applied to the #development# of a #mixed building# to increase the #floor area# of the #residential#, #commercial#, and/or #community facility# portions of such #building# so that the maximum #floor area# for such #building# may be increased by the aggregate of #development rights# so transferreD. In no event shall the #floor area ratio# of a #residential building#, or portion thereof, exceed 12. 0.

The City Planning Commission shall certify that the proposed #development# which utilizes such transferred #development rights# conforms to the regulations and controls of the Urban Renewal Plan.

The following text was moved and modified from paragraph (c) of Section 74-721 (Height and setback and yard regulations and also incorporates parts of 88-06.

Conversion of Transferred Development Rights into Tower Coverage
Modification of Bulk Regulations

Within the South Street Seaport Subdistrict, the City Planning Commission may modify the height and setback and #lot coverage# regulations of Section 91-30, provided that:

(a)either of the following conditions have been met:

(1)that the developer has obtained negative easements limiting the height of future #development# to 85 feet or less on any adjoining #zoning lots# which are contiguous or would be contiguous to said #zoning lot# but for their separation by a #street# or #street# intersection, and such easements are recorded against such adjoining #zoning lots# by deed or written instrument. The Commission shall consider the aggregated areas of said #zoning lot# and the adjoining lots subject to such negative easements and the extent to which they achieve future assurance of light and air in determining the maximum permitted coveragE. In no event shall such coverage exceed 80 percent of the #zoning lot# on which the #development# will be located; or

(2)that the #lot coverage# for that portion of a #development# below 300 feet may be increased to a maximum of 80 percent when additional #development rights# have been purchased and #Development rights# transferred to a #receiving lot# may be converted ***in***to increased ***tower*** **#lot** coverage**#. *on such #receiving lot# so that t***The maximum percent**age** of #lot ***areacoverage# which may be occupied by a tower***on such #receiving lot# shall be the sum of ***4065*** percent plus one-half of one percent for every .**10** by which the total #floor area ratio# on such #receiving lot# would exceed a #floor area ratio# of 21.6, provided **that*: (a)*** the #development# on such #receiving lot# has achieved a minimum #floor area ratio# of 18.0; ***and***

(b) tower coverage on such #receiving lot# will not exceed 55 percent.

However, tower coverage may be increased above 55 percent to a maximum of pursuant to Section 74-721 paragraph (a).

(b)In order to grant such special permit, the Commission shall make the following findings:

(1)the location of the #development# and the distribution of #bulk# will permit adequate access of light and air to surrounding #streets# and properties;

(2)any modification of height and setback will provide for better distribution of #bulk# on the #zoning lot#; and

(1)such special permit will aid in achieving the general purposes and intent of the Subdistrict.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding areA.

Designated Pedestrian Ways

Within the South Street Seaport Subdistrict, the volume situated above the subsurface #streets# shown on the City Map and listed ***herein*** below are designated pedestrian ways and are governed by paragraph (b) of the definition of #street# as set forth in Section ***88-0*291-62** (Definitions):

(a)Fulton Street, between Water ***Street*** and South Streets.

(b) Water Street, between Fulton ***Street*** and Beekman Streets.

(c) Front Street, between Fulton ***Street*** and Beekman Streets, and between John ***Street*** and Fulton Streets.

(d)South Street (the 18-foot-wide strip ***thereof*** located on the northwesterly side), between Beekman ***Street*** and John Streets.

91-69
Special Permit for Development of Piers 9, 11, 13 and 14

Within the area bounded by South Street, the southerly edge of Pier 9, the U. S. Pierhead Line, and the northerly edge of Pier 14, which, for the requirements of this Section, shall be deemed to be a single #zoning lot#, the City Planning Commission may, by special permit, permit modification of the bulk regulations, other than #floor area ratio# applicable to the #zoning lot#, and may modify or waive the requirements of Section 62-40 (REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AND VISUAL CORRIDORS), in accordance with the provisions of this Section.

The special permit shall be subject to the condition that the property owner, principal lessee or licensee of property owner has entered into an agreement with the Department of Parks and Recreation to operate and maintain the publicly-accessible areas in accordance with Section 62-624 (Maintenaance and operation of waterfront public access areas).For purposes of this Section, the requirementsof such publicly-accessible shall be deemed "waterfront public access areas."

In granting any such modifications, the Commission shall find that:

(a)any modification of height and setback regulations results in an appropriate distribution of permitted bulk on the piers;

(b)no #buildings or other structures# shall unduly obstruct the visual corridor bounded by the prolongation of the northern and southern #street lines# of Wall Street seaward to the U. S. Pierhead Line; and

(c)any modification will not unduly impede surface traffic and will . minimize possible vehicular/pedestrian conflicts in the surrounding area;

(d)that the seaward end of all such piers is unobstructed to the greatest extent feasible so as to maximize views northward and southward;

(5)the development plan for such area includes an appropriate amount of publicly accessible open space which shall incorporate appropriate design features that serve the needs of the local area, including but not limited to landscaping, lighting and seating; and

(6)the development plan is integrated with existing and proposed nearby #developments#.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the waterfront and surrounding area

91-70
SPECIAL REGULATIONS FOR CERTAIN AREAS

#Developments# in the #Special Lower Manhattan District# built prior to (effective date of amendment) will continue to be governed by the regulations in effect at the time of issuance of the building permit and can only be modified or altered by the following:

The following Section incorporates the bonus provisions of former Section 86-053 and the mandatory requirements for block 56N in Appendix B of the

former Special Greenwich Street Development District (deleted). It also provides for the elimination of the bridge spanning Greenwich Street cited in the mandatory requirements for blocks 52N and 54N.

91-71
Authorization for the Modification of Required Public Amenities

The City Planning Commission may authorize modifications of certain provisions of the former #Special Greenwich Street Development District#, eliminated on (effective date of amendment), that mandated public amenities, as follows:

(a)For any mandatory or elective public amenities or improvements built pursuant to the regulations of the former Special District that resulted in an increase in the basic maximum #floor area ratio# or an increase in the adjusted basic maximum #floor area ratio#, the Commission may authorize:

(1)the alteration of the amenity or improvement, provided that the Commission finds that such modifications improve the intended public purpose of the amenity;

(2)the elimination of the amenity or improvement, provided that the Commission finds that the intended public purpose is no longer useful or desirable and a new public amenity or improvement is supplied, as permitted pursuant to this Chapter, that generates the same or higher amount of bonusable #floor area#; or

(3)in the case of an amenity or improvement built in excess of the requirements necessary to generate the bonus #floor area# at the time of #development#, the elimination of such portion of the amenity not tied to the bonus #floor area#, provided that the Commission finds that such portion is no longer useful or desirablE.

(b)For any mandatory or elective public amenities or improvements built pursuant to the regulations of the former Special District that did not result in an increase in the basic maximum #floor area ratio#, the Commission may authorize the elimination or alteration of the amenity or improvement if it finds that the intended public purpose is no longer useful or desirablE.

(c)No mandatory or elective public amenity or improvement built pursuant to the regulations of the former Special District shall be eliminated or reduced in size, without a corresponding reduction in the #floor area# of the #building# or the substitution of equivalent complying area for such amenity elsewhere on the #zoning lot#, in accordance with the provisions of paragraph (a)(2) of this Section, except by special permit of the City Planning Commission, subject to a finding that the proposed change will provide a greater public benefit in light of the public amenity's purpose and the purposes of the #Special Lower Manhattan District#.

However, the open pedestrian bridge spanning Greenwich Street between Liberty and Cedar Streets may be eliminated, without recourse to the City Planning Commission, where the pedestrian access provided between the required elevated public pedestrian circulation systems is no longer useful or desireD.

The Commission may prescribe appropriate conditions and safeguards in connection with the grant of such authorization.

The following Section incorporates the bonus provisions of former Section 86-053 and the mandatory requirements for block 56N in Appendix B of the deleted Special Greenwich Street Development District.

91-72
Certification for Development on the Block bounded by Liberty, Washington, Cedar and West Streets

For the #block# bounded by Liberty, Washington, Cedar and West Streets, the City Planning Commission shall certify that the following improvements, eligible for as-of-right #floor area# bonuses in the amount specified, are included in any plans for a proposed #development#.

(a)The following mandatory improvements are eligible for as-of-right #floor area# bonuses:

(1)For an open pedestrian bridge with a minimum width of 15 feet spanning Washington Street near its intersection with Liberty Street to provide pedestrian access to the existing elevated public open space at the northern edge of the #block# bounded by Liberty, Washington, Albany and Greenwich Streets, as certified by the Commission, a #floor area# bonus shall be granted in the amount of 90 square feet per linear foot.

(2)For a pedestrian connection at least 15 feet wide with a minimum floor to ceiling height of 12 feet between the existing pedestrian bridge spanning West Street and the bridge required over Washington Street pursuant to paragraph (a)(1) of this Section, as certified by the Commission, a #floor area# bonus shall be granted in the amount of 100 square feet per linear foot.

This connection shall be at the same height as the new bridge, provide an integrated connection to the existing West Street bridge and be open to the public for the same hours as the West Street bridgE. Ramps but not stairs may be incorporated into the pedestrian connection to adjust its height to the Washington and West Street bridges.

(b) An optional pedestrian connection of public access from the pedestrian connection specified in paragraph (a)(2) of this Section to street level may be provided by stair, ramp or escalator and shall be eligible for an as-of-right #floor area# bonus of 120 square feet per linear foot of stair or, if provided by escalators at least 32 inches wide, 20,000 square feet for the provision of a single run, and 30,000 square feet for the provision of a double run.

The development shall have its major pedestrian entrance and lobby on Liberty Street and be integrated with and provide unobstructed pedestrian access between the pedestrian connection specified in paragraph (a)(2) of this Section and the lobby of any new #building# on this #block#

No other #floor area# bonuses are permitted on the #block# unless the Commission has certified that the improvements specified in paragraphs (a) and (b) of this Section are included in any plans for #development# on the #block#.

The following Section incorporates the provisions of former Section 86-14 of the deleted Special Greenwich Street Development District..

91-73
Special Permit for Development over the Approaches to the Brooklyn Battery Tunnel

The City Planning Commission, by special permit, may allow the unmapped air space above the approaches to the Brooklyn Battery Tunnel to be considered a single #zoning lot# and may allow the #development# or #enlargement# of a #building# on such unmapped air spacE.

The #zoning lot# for such #development# or #enlargement# shall include only that portion of the area above the approaches to the Brooklyn Battery Tunnel and contiguous areas of land or property that are covered by a permanent platform and not designated as approaches to the Brooklyn Battery Tunnel.

In order to grant such special permit, the Commission shall find that:

(a)adequate access and #street# frontage to one or more #streets# is provided; and

(b)the streetscape, site design and the location of building entrances of the proposed #development# or #enlargement# will contribute to the overall improvement of pedestrian circulation within the surrounding areA.
The Commission may prescribe appropriate conditions and safeguards to protect and minimize any adverse effects on the character of the surrounding areA.

The following Section incorporates Sections 98-04 and 98-042 of the Special Manhattan Landing District which will be deleteD.

91-74
Special provisions for Battery Park Underpass/South Street

A #zoning lot# containing a #development#, or portion thereof, on a #waterfront zoning lot#, may be located within the volume above the upper limiting plane of the Battery Park Underpass/South Street, when such volume is eliminated, discontinued and closeD. That portion of the #zoning lot# that lies above the Battery Park Underpass/South Street shall not be considered #lot area# for the purpose of computing maximum #floor area#; however, such portion shall be considered #lot area# for all other purposes of this Resolution.

SUPREME COURT

■ NOTICE

SUPREME COURT, NEW YORK COUNTY
NOTICE OF ACQUISITION
INDEX NO. 98/402325

In the Matter of the Application of the City of New York, relative to acquiring title in fee simple absolute to certain real property where not heretofore acquired for the same purpose, required as a site for the MILBANK FRAWLEY CIRCLE WEST URBAN RENEWAL AREA located in the area bounded generally by Lenox Avenue, West 125th Street Mount Morris Park West, Fifth Avenue, West 110th Street Saint Nicholas Avenue and West 116th Street, in the Borough of Manhattan, City and State of New York.

PLEASE TAKE NOTICE, that by order of the Supreme Court of the State of New York, County of New York, duly entered in the office of the Clerk of the County of New York on the 24th day of July, 1998, the application of the City of New York to acquire certain real property, as designated in the above caption, for the MILBANK FRAWLEY CIRCLE WEST URBAN RENEWAL AREA, was granted and the City was thereby authorized to file an acquisition map with the Clerk of the County of New York or the City Register. Said map, showing the property acquired by the City, located in Block 1599, Lots 27 and 132, was filed with said clerk on the 27th day of July, 1998.

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to Section 502(B) of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired for the above named improvement and having any claim or demand on account thereof is hereby required, on or before February 3, 1998, to file a claim with the Clerk of the Court of New York County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, 100 Church Street, Room 5-232, Borough of Manhattan, City of New York.

The claim shall include the name and post office address of the condemnee, a description of the real property owned by the condemnee or in which the condemnee claims an interest, a general statement of the nature and type of damages claimed including, if applicable, a schedule of fixture items comprising part or all of the damages claimed, and, if the condemnee is represented, the name, address and telephone number of the condemnee's attorney. In the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.

Pursuant to the Uniform Civil Rules for the Supreme Court and the County Court, §202.61 (a)(1), appraisal reports must be filed or exchanged with the condemnor within nine months after the filing of a post-vesting claim, demand or notice of appearance, unless the time therefor is extended by the court.

The claimant will be required to appear in person to present proof of title and to produce the deed or instrument under which he, she or it claims title, or a certified copy thereof together with copies of leases and rental agreements.

Proof of title will be received by the Corporation Counsel at his office, 100 Church Street, Room 5-232, Borough of Manhattan, on or before February 3, 1999.

PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitations notices for most procurement above $25,000 for goods or services or above $50,000 for construction and construction related services are published for at least one day.

Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● *Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,* 18th Floor, NY, NY 10007 (212) 669-8562

Construction & Construction Related Services

● Mayor's Office of Construction,

Bidders List Unit, 52 Chambers Street, Room 307, New York, NY 10007 (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway 9th Floor,New York, NY 10007 (212) 788-0010 Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual.(see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business.

In order to become certified for the program, your company must substantiate that it:

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,

110 William Street, 2nd Floor,

New York, New York 10038 (212) 618-8782.

PROMPT PAYMENT

It is policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bill within 30 days after the receipt of a proper invoice. The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board51 Chambers Street Room 1126, New York 10007 (212) 788-7820

PROCUREMENT POLICY BOARD RULES

To obtain a copy of the Procurement Policy Board Rules either in hard copy or on disk, call the Procurement Policy Board office, (212) 788-7820. The Rules may also be accessed on the City Website, http://www.ci.nyc.ny.us

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

JOB ORDER CONTRACT GENERAL *CONSTRUCTION AND ELECTRICAL* WORK FOR LIBRARIES, CULTURALS AND TRANSPORTATION PROGRAM UNITS. PROJECT NO. LCT-JOC1 – CSB – DUE 9-1-98 AT 11 AM – Pin: 85099RQ0001C - General Construction
Pin: *85099RQ0002C* - Electrical Work
Bid document deposit $35.00 a set.

Sealed bids will be received by the New York City Department of design and Construction (hereinafter called the "city") from bidders for the Contract hereinafter set forth due at the dates and times specified below. Department of Design and Construction Bid Room, First Floor, 30-30 Thomson Avenue, Long Island City, NY 11101 following which time and place, or as soon thereafter as the City can attend the same, the said bids will be publicly opened and read and tabulated at the Department of Design and Construction by an authorized representative of the Commissioner. The Commissioner will thereafter award the contract based upon the result of the tabulations as covered by applicable laws and regulations.

A bid deposit shall be required in the amount of either a Certified Check for $25,000.00 or a Bond for not less than 10% of the Maximum Contract Amount.

This solicitation for a Job Order Contract which is competitively bid, indefinite quantity contract. The bidders bid an adjustment to pre-set unit prices. The price of individual projects pre calculated by multiplying the unit price by the quantity and the appropriate adjustment factor.

The Job Order Contract awarded under this solicitation will have the following value:

Contract – Minimum Guarantee – Maximum Contract Amount – Bid Due

General – $50,000.00 – $15,000,000.00 – September 1, 1998 at 11:00 am
Electrical – $50,000.00 – $4,000,000.00 – September 1, 1998 at 11:00 am

The basic term of the contract will be for 24 months and will include an option for one (1) additional two year period. It is the current intention of the City to award the (1) Job Order Contract under each solicitation listed above. Withdrawal of bid is permissible after 45 days from date of bid opening, provided such withdrawal is made prior to initial contract award.

Every Contractor is limited to the award of one contract from the contracts solicited by the Department of Design and Construction as part of the JOC program. Bids will not be accepted from contractors currently holding a JOC contract with the Department of Design and Construction. If the contractor is the apparent low bidder on the contracts now advertised, the contract awarded, if at all, will be on the basis which results in the lowest total overall cost to the City for the contracts.

The work envisioned under this Contract will be primarily in support of facilities improvements for the Library, Cultural, and Transportation Units. However, the City, at its sole discretion, may require the contractor to perform other work anywhere within New York City. The City reserves the right to award and use multiple Job Order Contracts.

Interest Parties must attend two mandatory pre-bid conferences. The first prebid conference will be held August 12, 1998 from 10:00 - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing the Job Order contracting theory and the specifics of the JOC program. The second prebid conference will be held August 19, 1998 from 10:00 am - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing Job Order Contracting from a contractor's perspective, how to analyze the Unit Price Book, and the risks involved in the program and answering questions.

Each bidder must submit two price adjustment factors for each of the City's five (5) Boroughs. These adjustment factors will be applied to the established unit prices published in the Contract Documents. These same adjustment factors must apply to all the work tasks listed in the Contract Documents. The first adjustment factor will be applied to that work anticipated to be accomplished during normal business hours. The second adjustment factor will be applied to the work anticipated to be accomplished in the other than regular business hours. For the bid evaluation purpose it is estimated that the work distribution within the five (5) boroughs will be equal and that 5% of the total work accomplished under this contract will be during other than regular hours.

Interested parties may obtain one set of the bid and contract documents following the first mandatory pre-bid conference for a deposit of thirty-five dollars ($35.00). The deposit must be in the form of a company check or money order made payable to the City of New York, and drawn upon a state or national bank or trust company, or a check or such bank or trust company signed by a duly authorized officer thereof.

The successful bidder must make a good faith effort to achieve the Locally Based Enterprises (LBE) subcontracting goal.

The City reserves the right to waive minor informalities and to reject any and all bids, in accordance with the rules of the Policy and Procurement Board and the New York City Charter.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

PRE-QUALIFIED LIST FOR AUTONOMOUS UNDERWATER INSPECTION OF THE ROUND-WEST BRANCH TUNNEL – CP/PQ/4 – 82699WSQP003 – DUE 9-4-98 AT 4 PM – The New York City Department of Environmental Protection ("DEP") is establishing a Pre-Qualified List ("PQL") of firms to compete for a contract to perform an Autonomous Underwater Vehicle Inspection of the Rondout-West Branch Tunnel (THE "TUNNEL"). The Department intends to award one contract with a period of performance of 37 months. The Tunnel is a 45 miles long water supply pressure tunnel, is 13.5 feet in diameter, and has maximum depth of 1,150 feet. Interested firms are invited to request a Request for Qualification ("RFQ") package. Interested firms are directed to contact Debra Butlien at (718) 595-3423, by FAX at (718) 595-3278, or by mail to Debra Butlien, Professional Service Coordinator, 59-17 Junction Boulevard, 17th floor, Corona, New York 11368. The package consists of a Statement of Qualifications (Federal 254 and 255 forms) and the criteria upon which pre-qualification will be evaluated. All submissions will be reviewed by an evaluation Committee ("EC"). Pre-Qualification will be based upon the EC's recommendations. Pre-qualification neither guarantees selection for the contract, nor selection as a firm to be provided with a Request for Proposal ("RFP"). Responses to the RFQ are to be delivered to Debra Butlien, Department of Environmental Protection Bid Room, 59-17 Junction Boulevard, 17th floor, Corona, New York 11368 and are due no later than 4:00 PM (EST) on Friday, September 4th, 1998. The city is not responsible for costs incurred in the preparation of any documents relative to this advertisement

Please ensure that the correct address, telephone and fax numbers are submitted by your company or messenger service, when picking up contract documents from the contract section. For additional information, contact Mr. Ken Hui (212) 788-1921, located 2 Rector Street, 7th Fl., New York, NY 10006. Legally mandated information previously submitted on 1-2-91.

Hand delivered sealed bids for the Project described below will be received by representatives of the Division of Fiscal Affairs, Room 824A, 40 Worth Street, New York, NY 10013 until 11:00 AM on the date indicated when bids will be publicly opened and read in Room 814, same address.

ON: August 18, 1998, rehabilitation of Macombs Dam Bridge over the Harlem River, Boroughs of Manhattan and the Bronx. No charge for contract documents (availability limited to one set per firm)

Contract No. BRX287-R
Federal Aid Project No. 119/118-7152-300
N.Y.S.P.I.N. X754.22
N.Y.C.P.I.N. 84198MBBR409

Each bid submitted must be accompanied by a certified check for 5% of the amount of the proposal, or alternatively, a bid bond not less than 10% of the amount of the proposal, payable to the Comptroller of the City of New York.

This project is Federally aided and is subject to the provision of Title 23, U.S. Code, as amended, and applicable New York State Statutes. In compliance with these provisions the minimum wages to be paid laborers and mechanics are included in wage schedules that are set out in the bid proposal.

Disadvantaged Business Enterprises (DBE) will be afforded full opportunity to submit bids and the City of New York hereby notifies all bidders that it will affirmatively insure that any contract entered into pursuant to this advertisement will be awarded to the lowest responsible bidder without discrimination on the basis of race, color, sex, sexual orientation, national origin, age or place of residence. Prospective bidders attention is also directed to the requirements of schedule "H" in the proposal concerning DBE participation in the contract. The schedule of proposed DBE participation is to be submitted by the apparent low bidder within 10 business days after the date of opening bids.

Non-compliance with the 10 day submittal requirement, the stipulations of Schedule "H" or submittal of bids in which any of the prices for lump sum or unit items are significantly unbalanced to the potential detriment of the Department may be cause for a determination of non-responsiveness and the rejection of the bid. The award of this contract is subject to the approval of the New York State Department of Transportation and the Federal Highway Administration.

Contract documents are available from the Division of Fiscal Affairs at the above address, Monday to Friday, between the hours of 9:00 AM and 3:00 PM, starting June 23, 1998 and ending August 4, 1998. A list of all who have received plans for this contract will be available for review.

A pre-bid meeting (optional) has been scheduled for July 22, 1998 at 10:00 AM in the Conference Room (8th floor) 2 Rector Street, NYC. All prospective bidders are requested to attend.

■ NOTICE

NOTICE OF EXTENSION ON THE PUBLIC REVIEW AND COMMENT PERIOD FOR NYCDOT'S DRAFT ENVIRONMENTAL IMPACT STATEMENT FOR LEAD PAINT REMOVAL OPERATIONS ON NYCDOT BRIDGES

The New York City Department of Transportation (NYCDOT) has prepared a Draft Environmental Impact Statement (DEIS) analyzing the potential effects of abrasive blasting and alternative methods of lead paint removal on public health and the environment, and the adequacy of the proposed containment system to protect against such effects during paint removal activities on NYCDOT bridges.
In response for additional opportunites for the public to review and comment on the DEIS for Paint Removal Operations on NYCDOT Bridges, NYCDOT has extended the public review and comment period from July 30, 1998 to August 24, 1998. Written comments will be accepted by the lead agency on or before August 24, 1998 and should be sent to the Office of Project Analysis/CEQR, New York City Department of Transportation, 40 Worth Street, New York, NY 10013, ATN: Naim Rasheed, Director, Tel: (212) 676-1680, Fax: (212) 442-7912.
The full DEIS is available for public review at NYCDOT's Office of Project Analysis/CEQR and at the NYC Office of Environmental Coordination, Municipal Building, 25th Floor, New York, NY 10007.

(cb) Design standards

The relocated or renovated entrance shall have a stair width of at least eight feet for each run.

(c)The relocated entrance shall have a queuing space at the top and bottom of the stairs at least eight feet wide and 15 feet long, and such queuing space may overlap a #sidewalk widening#, an #arcade#, a #plaza#, a #residential plaza# or an #urban plaza#.

*(d)*Where two or more existing stairway entrances are being relocated **or renovated** as part of the same #development# or #enlargement#, the new entrance or entrances shall have ***a*** total stair ***width or*** widths equal to or greater than the sum of the stair widths of the**ose existing** stairway entrances ***being relocated***, but in ***any*** **no** case ***no*** **may any stair be** less than eight feet in widtH.

The relocated entrance may be relocated within an #urban plaza#, provided that the minimum width of each stair is ten feet and the queuing area of the relocated entrance is unobstructed and contiguous to a sidewalk or a sidewalk wideninG. A relocated entrance within an #urban plaza# is a permitted obstruction, but shall not be subject to the percentage limit on permitted obstructions for an #urban plaza#.

***(c)*For a relocated entrance only, the entrance shall have a queuing space at the top and bottom of the stairs that is at least eight feet wide and 15 feet lonG. Such queuing space may overlap with an #urban plaza# or an #arcade# in accordance with the provisions of Sections 27-60 (ARCADES) or 37-073 (Design standards for pedestrian circulation spaces).**

No stairway shall have more than 14 risers without a landing, and each landing shall have a minimum width equal to the width of the stairs, and a minimum length of five feet.

Throughout the entire stairway entrance, including passageways, the minimum clear, unobstructed height shall be at least 7 feet, 6 inches from finished floor to finished ceiling, including all lighting fixtures and #signs#.

(e)The entire entrance area, including passageways, shall be free of obstructions of any kind, except for projecting information signagE.

(f)The relocated entrance may be relocated within a #plaza#, a #residential plaza# or an #urban plaza# provided that the queuing area of the relocated entrance is unobstructed and contiguous to a sidewalk or a #sidewalk widening#. A relocated entrance with a #plaza#, a #residential plaza# or an #urban plaza# is permitted obstruction, but shall not be subject to the percentage limit on permitted obstructions for a #plaza#, a #residential plaza# or an #urban plaza#.

(g)The relocated entrance shall connect to an existing or proposed subway passageway, or shall connect, via an underground passageway, to a mezzanine area of the subway station.

(h)The below-grade portion of a relocated entrance may be constructed within the #street#.

(c) Hours of public accessibility

(i)The relocated **or renovated** entrance shall be accessible to the public during the hours when the connected mezzanine area is open to the public or as otherwise approved by ***the*** **New York City** Transit ***Authority***.

Administrative procedure for a subway stair relocation **or renovation**

(a) **For any #development# or #enlargement# that is subject to the requirements for the relocation of a subway stair entrance or counts a renovated subway stair as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space), Except as otherwise provided in paragraph (b) of this Section,** no plan shall be approved by the Department of Buildings and no excavation permit or building permit shall be issued ***for any #development# or #enlargement# that is subject to the requirements for the relocation of a subway stair entrance***, unless **the following criteria are met**:

(***1a***)**for a relocated entrance,** s*S*uch plan includes a stair relocation plan and ***the*** related documents that bind the developer to:

(***i1***)construct the new stair entrance in accordance with such plan;

(***ii2***)demolish above-ground elements of the existing entrance; ***and***

(***iii3***)seal the existing entrance at the sidewalk level.; **and**

(4)maintain the work performed on the relocated or renovated entrance; or

(2b)for a renovated entrance, such plan includes a renovation plan and related documents that bind the developer to:

(1)renovate or reconstruct the entrance in accordance with such plan; and

(2)maintain the work performed on the renovated or reconstructed entrance; and

(***2c***)*S*such plan and related documents bear ***the*** **New York City** Transit ***Authority***'s approval; **and**

(***3d***)*S*such plan is accompanied by a certified copy of an agreement, as recorded between ***the*** **New York City** Transit ***Authority*** and the owner for an easement on the #zoning lot# for subway-related use of the new stair entrance and for public access via such entrance to the subway station, which agreement has been recorded against the #zoning lot# in the Office of the Register of the City of New York ***(County of New York)*** and is accompanied by the Register's receipt of recordation.; **and**

(4)Such plan is accompanied by any request for modification of special urban design guidelines pursuant to Section 37-034.

(b)In the event that major construction problems render the stair relocation infeasible or that operating design considerations make it undesirable, the Transit Authority and the City Planning Commission, by joint certification, may release the developer from said requirement. In such event, the stair relocation requirement shall be satisfied by retention of the existing stair and provision on the #zoning lot# of an open area which accommodates pedestrian traffic passing the existing entrancE. Such space shall have a width equal to at least one and one-half times the width of the existing stair entrance and shall extend along the full length of the stair entrancE. Incorporated into Section 37-034.

(***ce***)**no permanent certificate of occupancy shall be issued for any #development# or #enlargement# subject to the subway stair relocation requirement or counting a renovated or reconstructed subway stair as pedestrian circulation space in accordance with the provisions of S ction 37-07 (Requirements for Pedestrian Circulation Space), unless and until all of the work required under paragraphs (a) or (b) of this Section has been completed and New York City Transit has so certified in writing to the Department of Buildings. *Prior to obtaining a permanent certificate of occupancy, the relocated subway stair must be 100 percent complete in accordance with the approved plans and such completion shall have been certified by the Transit Authority.***

Modification of ***special urban design guidelines and urban open space*****requirements for a relocated or renovated subway stair**

The **Chairperson of the** City Planning Commission may, by certification to the Commissioner of Buildings, allow modifications of the requirements of Section 37-01 (Special Urban Design Guidelines - Streetscape), Section 37-02 (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), **37-031 (Standards for location, design and hours of public accessibility) or 37-04 (Requirements for Urban Plazas)** ***and the applicable provisions of #urban open space# in Section 12-10 (DEFINITIONS),*** if ***it finds that*** the relocated subway stair cannot be accommodated without modification to these provisions.

Waiver of requirements

(Delete existing text.)

The provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair) may be waived by joint certification of New York City Transit and the Chairperson of the City Planning Commission that major construction problems or operating design considerations render the stair relocation infeasiblE. In such event, the stair relocation requirement may be satisfied by retention of the existing stair and the provision on the #zoning lot# of an open area, qualifying under the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space), that accommodates pedestrian traffic passing the existing stair entrancE. Adapted from Section 37-032(b).

Sections 37-041 and 37-042 have been deleteD. Section 37-043 has been merged with Section 37-04. No current requirements have been deleted; no new requirements have been addeD.

37-04
Requirements for ***Open Air Concourses, Sidewalk Widenings and*** Urban Plazas

#Open air concourses#, #sidewalk widenings# and #urban plazas# are collectively referred to as #urban open spaces#. All #urban ***open spaces*** **plazas#** shall comply with the ***following basic requirements*** **provisions** of this Section. ***and with additional requirements as specified for each type in accordance with the provisions of Sections 37-041 (Open air concourses), 37-042 (Sidewalk widenings), and 37-043 (Urban plazas).*** These provisions may be modified pursuant to Sections 74-91 (***Urban Open Space*** Modifications **of Urban Plazas**) and 81-23 (Floor Area Bonus for Urban Plazas).

No foundation permit shall be issued by the Department of Buildings for any #development# that includes an #urban plaza# without certification by the Chairperson of the City Planning Commission that a site plan has been submitted indicating compliance with the provisions of this Section. An application for such certification shall be filed with the Chairperson showing the plan of the #zoning lot#; a site plan indicating the area and dimensions of the proposed #urban plaza# and the location of the proposed #development# or #enlargement# and all existing #buildings# temporarily or permanently occupying the #zoning lot#; computations of proposed #floor area#, including bonus #floor area#; and a detailed plan or plans demonstrating compliance with the provisions of this Section.

All plans for #urban plazas#, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification of the #urban plaza# pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the filing for or issuance of any building permit for any #development# or #enlargement# on the #zoning lot#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording datE.

Following graytoned text relocated from current Section 37-043(a).

(a)***Restrictions on location of non-qualifying open a*** Areas and dimensions

An #urban plaza# shall contain an area of not less than 1,600 square feet. In no case may spaces between existing #buildings# remaining on the #zoning lot# qualify as #urban plazas#. In addition, in order t*T*o preserve *the intent of* the provisions relating to the boundaries, proportions and obstructions of #urban **plazas*open spaces#***, on any one #zoning lot#, an open area which does not qualify for bonus #floor area# may not be located between two #urban plazas#, ***between an #open air concourse# and an #urban plaza#,*** or between an #urban plaza# ***or #open air concourse#*** and a building wall or #arcade# of the #development#.

(b)Planting and trees

(1)#Street# trees adjacent to #urban open spaces#

#Street# trees are required to be planted in the public sidewalk area adjacent to a #zoning lot# that contains bonus #floor area# for #urban open space#. At least one tree of four-inch caliper or more shall be planted for each 25 feet of the entire #street# frontage of the #zoning lot#, excluding the frontage occupied by driveways. The length of frontage of the #zoning lot# for the purpose of computing required #street# trees may also be reduced by 50 feet for each #street# intersection fronted by the #zoning lot#. The required trees shall be planted with gratings flush to grade in at least 200 cubic feet of soil per tree, with a depth of soil of at least 3 feet, 6 inches. Species shall be selected, located and maintained in accordance with the specifications established by the Department of Parks and the Department of Highways. If the Commissioner of Buildings determines that the tree planting requirements of this paragraph cannot be met in part or in whole because of subsurface conditions such as the presence of a subway tunnel, the number of required #street# trees that cannot be planted as required in this paragraph shall be planted in the public sidewalk areas of #streets# on the same #block# as the #zoning lot# to which it has frontagE. Where an #urban plaza# is #developed#, such additional trees may be planted within the #urban plaza# in addition to the trees required in Section 37-043, paragraph (k). No trees shall be planted within a #sidewalk widening#.

(2)Trees within an #urban plaza# or #open air concourse#

Where trees are planted within an #urban plaza# or #open air concourse#, they shall measure at least four inches in caliper at the time of plantinG. Each tree shall be planted in at least 200 cubic feet of soil with a depth of soil of at least 3 feet, 6 inches. Any planting bed containing required plaza trees shall have a continuous area of at least 75 square feet for each tree exclusive of bounding walls and shall have bounding walls not higher than 20 inches above the adjacent walking surfacE. Trees shall be planted at a maximum spacing of 25 feet apart within a single planting beD.

(3)Planting within an #urban plaza# or #open air concourse#

When planting beds are provided, they shall have a soil depth of at least two feet for grass or other ground cover, three feet for shrubs and three feet, six inches for trees.

For #open air concourses#, additional planting requirements are set forth in Section 34-042, paragraph (f).

For #urban plazas#, additional planting and tree requirements are set forth in Section 34-043, paragraph (k).
(c)Paving

The paving of the #urban open space# shall be of non-skid durable materials that are decorative and compatible in color and pattern. The paving of the #street# sidewalk area adjacent to the #development# may be treated with design patterns and materials sympathetic to that of the paving of the #urban open space#. Any change of paving materials within the public right-of-way shall require review by the Department of Highways and the Art Commission.

(d)Standards of accessibility for persons with disabilities to #urban plazas# and #open air concourses#
(1)There shall be at least one path of travel conforming to the standards set forth in paragraph (d)(2) of this Section providing access to each of the following:

(i)the major portion of an #urban plaza# or #open air concourse#;

(ii)any building lobby accessible to the #urban plaza# or #open air concourse#; and

(iii)any #use# that may be present on or adjacent to the #urban plaza# or #open air concourse#.

(2)The following standards shall apply to assure access for persons with disabilities:

(i)Such paths shall have a minimum width of five feet, except where specific provisions require a greater width, free and clear of all obstructions.

(ii)Ramps shall be provided alongside any stairs or steps for such paths. Ramps shall have a minimum width of three feet, a slope of not greater than one in 12, a non-skid surface and, for open-edged ramps, a two-inch high safety curB. At each end of a ramp there shall be a level area, which may be a public sidewalk, at least five feet lonG. In an #open air concourse#, because elevator service shall be provided, no such ramps are required to connect the mezzanine portion with the #street# level portion.

(iii)All stairs or ramps within such paths shall provide handrails. Handrails shall be 34 inches high, have a midrail 22 inches high and shall extend at least 18 inches beyond the stair or ramp ends.

(iv)Where stairs are used to effect changes of grade for such paths, they shall have closed risers, no projecting nosings, a maximum riser height of seven and one-half inches and a minimum tread width of eleven inches.

Following graytoned text relocated from current Section 37-043(b).

(b)Locational restrictions

In other than C5-5 or C6-9 Districts, no #urban plaza#, or portion thereof, is permitted to occupy more than 33 percent of the frontage of the #zoning lot#, or portion thereof, within 175 feet of an existing #plaza#, #urban plaza#, #public park# or urban park that occupies more than 33 percent of its #block# frontage on the same or opposite side of the same #street# and has a depth of at least 12 feet. The distance of 175 feet shall be measured along the #street# on which the existing amenity fronts.

Following graytoned text relocated from current Section 37-043(c).

(c)Restrictions on orientation

In other than C5-5 or C6-9 Districts, the following restrictions shall apply to all #urban plazas#:

For purposes of the orientation requirements, a "north-facing," "south-facing," "east-facing" or "west-facing" #street line# means a #street line# facing within 27 degrees of the direction indicateD. "To front on a #street#" means to be contiguous to the #street line# or to a sidewalk widening along the #street line#.

(1)Where the major portion of an #urban plaza# fronts on only one #street line#, such major portion is not permitted to front on a north-facing #street line# of a #zoning lot#.

(2)No major portion of an #urban plaza# shall only front on a west-facing #street line# or an east-facing #street line# if the #zoning lot# also has frontage that is 40 feet or more in length on a south-facing #street line#.

(3)An #urban plaza# that is located on an intersection of two #streets# must have its major portion, as defined in paragraph (d)(2) of this Section, front on the south-facing #street line#. In the case of a #zoning lot# having frontage on a south-facing #street line# of less than 40 feet, or having its frontage at the intersection of a north-facing #street line# with either an east- or west-facing #street line#, the major portion must front on the east- or west-facing #street line#.

Following graytoned text modified and relocated from current Sections 37-043(d) and (e).

(d)Requirements for major portions of #urban plazas#

(1)All contiguous #urban plaza# areas on a #zoning lot# shall be considered as one #urban plaza#.

(2)The shape and dimensions of an #urban plaza# shall be such that for a major portion of the #urban plaza#, comprising at least the percentage of total area specified herein, all points within such major portion shall be visible from all other points therein. For the purposes of this regulation, points that when viewed in plan may be joined by a straight line shall be considered visible one from the other; visibility between points shall not be affected by permitted obstructions or by changes of gradE.

The major portion of an #urban plaza# shall be at least 70 percent of the #urban plaza's# total area, except that in the case of a through #block urban plaza# as defined in paragraph (e) of this Section, the major portion shall be at least 50 percent of such #urban plaza's# total areA. The major portion of the #urban plaza# shall be subject to the proportional requirements set forth in paragraphs (d)(4) and (d)(5) of this Section.

(3)The major portion of an #urban plaza# shall have a minimum dimension of 40 feet. The remaining portion of such #urban plaza# shall have a minimum dimension of 20 feet. Dimensions shall be measured parallel and perpendicular to the #street line# on which the #urban plaza# fronts.

(4)For major portions of #urban plazas# with frontage on two or more intersecting #streets#, the length of the frontage along any one #street# shall not be greater than three times the average depth of the #urban plaza# measured perpendicular to the #street line# of said #street# from the building wall that faces it.

(5)For major portions of #urban plazas# with frontage on only one #street#, at no point shall the depth from the building wall or rear #lot line# that faces the #street# to the #street line# be less than one-third nor more than three times the length of the frontage of the major portion along such #street line#.

Following graytoned text relocated from current Section 37-043(f).

(e)Regulations for through #block urban plazas#

Where an #urban plaza# or portion of an #urban plaza# extends through the #block# connecting two #streets# that are parallel or within 45 degrees of being parallel to each other, and any building wall or walls adjoin such through #block urban plaza# or through #block# portion of an #urban plaza#, no more than 120 feet aggregate length of such walls within 50 feet of the opposite side of the through #block urban plaza# shall exceed 90 feet in height from the surface of the #urban plaza#. In addition to the 20 feet minimum width requirement described in paragraph (d)(3) of this Section, such a through #block urban plaza# shall maintain a straight path at least 15 feet in width, free of any obstructions from #street line# to #street line#.

Following graytoned text relocated from current Section 37-043(g).

(f) Circulation and access

(1) To facilitate access to an #urban plaza#, within 10 feet of a #street line# or sidewalk widening, along at least 50 percent of each #street# frontage of the major portion and the entire #street# frontage of the remaining portion of an #urban plaza#, the surface of the #urban plaza# shall be at the same elevation as the adjoining public sidewalk. Along at least 50 percent of each #street# frontage of the major portion and at least 50 percent of each #street# frontage of the remaining portion of an #urban plaza#, for a depth of at least 20 feet from the #street line#, there shall be no obstruction to public access to the #urban plaza# from a sidewalk or sidewalk wideninG. For the remaining 50 percent of the frontage and within 20 feet of the #street line#, no walls or other obstructions shall be higher than three feet above the #curb level# of the #street line# in front of the #urban plaza#. However, the City Planning Commission may permit, by authorization, certain obstructions such as light stanchions, flag poles, trash receptacles, public space signage or other features to be located in the #urban plaza# within 20 feet of the #street line#, provided that the Commission finds that:

(i)such obstructions are desirable or necessary features for the public enjoyment of the #urban plaza#; and

(ii)sufficient public access additional to the minimum required under the provisions of this paragraph (Circulation and access) is provided to offset any adverse impact on public circulation or access caused by the obstructions or features permitted by such authorization.

The Commission shall furnish a copy of the application for such authorization to the affected Community Board and the local Council Member at the earliest possible stage and will give due consideration to their opinions as to the appropriateness of such obstructions. If the Community Board or local Council Member elects to comment on such application, it must be done within 45 days of such application.

(2)The level of an #urban plaza# shall not at any point be more than three feet above or below the #curb level# of the nearest adjoining #street# in front of the major portion of the #urban plaza#; however, an #urban plaza# with an area of 10,000 square feet or more may additionally have a maximum of 15 percent of its area at an elevation more than three feet above or below, but not more than five feet above or below #curb level# of the nearest adjoining #street# in front of the major portion of the #urban plaza#.

(3)Where there is a grade change of at least 2. 25 feet in 100 feet along a portion of a #street# fronted upon, for a distance of at least 75 feet, by an #urban plaza# with an area of 10,000 square feet or more, the level of such #urban plaza# may be at any elevation that is not more than five feet above or below the #curb level# of the nearest adjoining #street# in front of the #urban plaza#. Along the length of frontage not required for access, no wall higher than three feet above the level of the adjoining sidewalk may be constructeD.

(4)For areas of #urban plazas# not obstructed by permitted obstructions as set forth in paragraph (f)(1) of this Section, a circulation path shall be provided of at least five feet clear widtH. A major public path at least eight feet in width shall extend to at least 75 percent of the depth of the major portion of the #urban plaza#, measured from the #street line#.

(5)Where an entry to a subway station exists in the sidewalk area of a #street# on which an #urban plaza# fronts and such entry is not replaced within the #urban plaza# itself, the #urban plaza# shall be #developed# at the same elevation as the adjacent sidewalk for a distance of at least 15 feet in all directions from the entry superstructurE. Such #urban plaza# area around a subway entry shall be free of all obstructions.

(6)Where an entry to a subway station is provided within the #urban plaza# itself, stairs shall have a minimum width of 10 feet.

(*eg*) Permitted obstructions

The provisions of paragraph (e) of this Section shall not apply to #sidewalk widenings#.

(1) #Urban ***open spaces*plazas#** shall be unobstructed from their lowest level to the sky except for the following features, equipment and appurtenances normally found in #public parks# and playgrounds: fountains and reflecting pools; waterfalls; sculptures and other works of art; benches; seats; trees planted at grade or in planting beds; bushes and flowers in planters or in planting beds; arbors or trellises over public seating areas; litter receptacles; bicycle racks; outdoor furniture; lights and lighting stanchions; flag poles; public telephones; public toilets; temporary exhibitions; awnings or canopies over the entrances to retail stores fronting on the #urban ***open space*plaza#**; bollards; subway station entrances, which may include escalators; and drinking fountains. If drinking fountains are provided, at least one fountain shall be accessible to wheelchair users by being 30 inches high, hand-and-foot operated, and display the International Symbol of Access. **In addition to the obstructions listed in this paragraph, #urban plazas# having an area of 10,000 square feet or more may include an open air amphitheater or an outdoor ice skating rink. However, an area occupied in aggregate by such permitted obstruction shall not exceed the maximum percentage cited in paragraph (g)(2) of this Section.** Graytoned text relocated from current Section 37-043(h)(1).

(2) Permitted obstructions may occupy a maximum percentage of the area of an ***#open air concourse# as set forth in paragraph (e) of Section 37-042, and an*** #urban plaza#, as **follows: set forth in paragraph (h) of Section 37-043.**

Following graytoned text relocated from current Section 37-043(h)(2).
For #urban plazas# less than 5,000 square feet in area: 38 percent

For #urban plazas# at least 5,000 square feet in area
and less than 10,000 square feet in area: 40 percent
For #urban plazas# 10,000 square feet or more in area: 50 percent

The area of permitted obstructions shall be measured by outside dimensions. Obstructions that are non-permanent or movable, such as movable chairs, open air cafes, or temporary exhibitions shall be confined within gross areas designated on the site plan, and not measured as individual pieces of furniturE.

*(3)*Trees do not count as obstructions for the purpose of calculating total area occupied by permitted obstructions. Planting beds and their retaining walls for trees count as obstructions.
(*43*) Kiosks and open air cafes may be placed within an #urban ***open space* plaza#** upon certification, pursuant to paragraph (*eg*)(6) of this Section. Such features shall be treated as permitted obstructions for the purposes of paragraph (*eh*) of this Section.

Where a kiosk is provided, it shall be a one-story structure, predominantly of light-colored materials, such as metal, glass, plastic or fabric as approved by the Department of Buildings in conformance with the Building Code, that, including roofed areas, does not occupy an area in excess of 150 square feet, except that where the #urban ***open space*plaza#** has an area of less than 5,000 square feet, the aggregate area of the kiosks shall not exceed 100 square feet measured by exterior dimensions. The aggregate area occupied by kiosks in an #urban ***open space*plaza#** larger than 5,000 square feet shall not exceed 150 square feet or 1.5 percent of the total area of the #urban ***open spac*eplaza#**, whichever is greater, provided no one kiosk occupies an area of more than 150 square feet. A kiosk may be freestanding or may be attached on only one side to a wall of the #building# of the #development# or a #building# on the adjacent #zoning lot#. Any area occupied by a kiosk shall be excluded from the definition of #floor area#, and may be occupied by #uses# such as news or magazine stands, candy stands, flower stands or information booths.

Where an open air cafe is provided, it shall occupy an aggregate area not more than 20 percent of the total area of the #urban ***open space*plaza#**. It shall be a permanently unenclosed restaurant or eating or drinking place, permitted by applicable district regulations, which may have waiter or table service, and shall be open to the sky except that it may have a temporary fabric roof in conformance with the Building CodE. An open air cafe must be accessible from all sides where there is a boundary with the remainder of the #urban ***open space*plaza#**. No kitchen equipment shall be installed within an open air cafe,; however, kitchen equipment may be contained in a kiosk adjoining an open air cafE. An open air cafe qualifying as a permitted obstruction shall be excluded from the definition of #floor area#.

Notwithstanding the provisions of Section 32-41 (Enclosure Within Buildings), outdoor eating services or #uses# occupying kiosks may serve customers in an #urban ***open space*plaza#** through open windows. In all cases, only #uses# permitted by the applicable district regulations may occupy #urban ***open spaces*plazas#** or front on #urban ***open spaces*plazas#**.

(*54*) Open air amphitheaters and open air ice skating rinks that charge admission may be placed within an #urban ***open space*plaza#** upon certification pursuant to paragraph (*eh*)(*65*) of this Section. Such features shall be treated as permitted obstructions for the purposes of **this** paragraph, ***(e) of this Section*(Permitted obstructions)**.

(*65*) Kiosks and open air cafes that comply with the provisions of paragraph (*eh*)(*43*) of this Section, and open air amphitheaters or open air ice skating rinks ***which* that** charge admission may be placed within the area of an #urban ***open space*plaza#** upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings, that:

(i) such #use# promotes public use and enjoyment of the #urban ***open space*plaza#**;

(ii)such #use# complements and stabilizes desirable #uses# in the surrounding area;

(iii) such #use# is provided in accordance with the requirements set forth in this Section; and

(iv) the owners of such #use# will maintain such #use# in accordance with the provisions of paragraph (k) (Maintenance) of this Section.

All applications for the placement of kiosks, open air cafes, open air amphitheaters or open air ice skating rinks ***which* that** charge admission within an #urban ***open space*plaza#** filed with the Commission shall include a detailed site plan or plans indicating compliance with the provisions of this Section. All such plans for kiosks, open air cafes, open air amphitheaters or open air ice skating rinks ***which* that** charge admission, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification for the kiosk, open air cafe, open air amphitheater, or open air ice skating rink ***which* that** charges admission, pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the placement of the kiosk, open air cafe, open air amphitheater or open air ice skating rink ***which* that** charges admission within the #urban ***open space*plaza#**. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording datE.
(6) An application for certification shall be filed with the Chairperson of the City Planning Commission, and the Chairperson shall furnish a copy of the application for such certification to the affected Community Board at the earliest possible stagE. The Chairperson will give due consideration to the Community Board's opinion as to the appropriateness of such a facility in the area and shall respond to such application for certification within 60 days of the application's receipt.

The Chairperson shall file any such certification with the City Council. The Council, within 20 days of such filing, may resolve by majority vote to review such certification. If the Council so resolves, within 50 days of the filing of the Chairperson's certification, the Council shall hold a public hearing and may approve or disapprove such certification. If, within the time periods provided for in this Section, the Council fails to act on the Chairperson's certification, the Council shall be deemed to have approved such certification.

Such certification shall be effective for a period of three years but, upon application, may be renewed for a similar period by the Chairperson of the City Planning Commission.

(*f*h)Prohibition of driveways, parking spaces, loading berths, exhaust vents and building trash storage facilities

(1) No **driveways,** parking spaces, passenger dropoffs or loading berths ***are*shall be** permitted **within an #urban plaza#. *Furthermore, driveways are prohibited within #urban plazas# and #open air concourses#, and are permitted within a #sidewalk widening# only in accordance with the provisions of Section 37-042.*** *(2)* No building trash storage facilities are permitted **within an #urban plaza#, nor shall any building trash storage facility be accessed or serviced through the #urban plaza#. If parking spaces, passenger drop-offs, driveways, loading berths or building trash storage facilities are located near or adjoin an #urban plaza#, they shall be separated from it by a building wall or planted area sufficient to visually conceal these facilities and any vehicles therein from any point in the #urban plaza#.**

(3) No exhaust vents are permitted on any #urban open space# or on the building wall of the #development# fronting upon the #urban open space# except where such vents on the building wall are more than 8 feet 6 inches above the level of the #urban open space#.

For #urban plazas#, additional prohibitions are set forth in Section 37-043, paragraph (i).

Following graytoned text relocated from current Section 37-043(j).

(i) Seating
There shall be a minimum of one linear foot of seating for each 30 square feet of #urban plaza# area, except that for #urban plazas# fronting upon a #street# having a grade change of at least 2. 25 feet in 100 feet or for through #block urban plazas#, there shall be a minimum of one linear foot of seating for each 40 square feet of #urban plaza# areA.

Not more than 50 percent of the linear seating capacity may be in movable seats that may be stored between the hours of sunset and sunrisE.

The following standards shall be met for all required seating:

(1) Seating shall have a minimum depth of 16 inches; however, seating with backs shall have a minimum depth of 14 inches and a maximum depth of 22 inches and backs shall be at least 12 inches highH. Seating 30 inches or more in depth shall count double, provided there is access to both sides.

(2) At least 75 percent of the required seating shall have a height not less than 16 inches nor greater than 20 inches above the level of the adjacent walking surface and at least 50 percent of this seating shall have backs at least 12 inches highH. Seating higher than 36 inches or lower than 12 inches above the level of the adjacent walking surface

shall not count towards meeting the seating requirements.

(3) The flat tops of walls including but not limited to those that bound planting beds, fountains and pools may be counted as seating when they conform to the dimensional standards in paragraphs (f)(1) and (f)(2) of this Section, provided that they are made of stone, concrete or similar composite material, wood or plastic with a smooth surface and rounded upper edges with a radius of at least one inch to ensure seating comfort.

(4) Movable seating or chairs, excluding seating for open air cafes, may be credited as 18 inches of linear seating per chair.

(5) Steps, seats in outdoor amphitheaters and seating of open air cafes do not count towards meeting the seating requirement.

(6) Seating for any #use# within an #urban plaza# is subject to applicable articles and amendments of the New York City Building CodE.

(7) For the benefit of persons with disabilities, a minimum of five percent of the required seating shall have backs.

Following graytoned text relocated from current Section 37-043(k).

(j)Planting and trees

For an #urban plaza# not exceeding 2,000 square feet in area, four trees are requireD.

For an #urban plaza# greater than 2,000 square feet in area, *but not exceeding 6,000 square feet in area, one tree is required for every 600 square feet, or part thereof, of #urban plaza# areA.*

For an #urban plaza# greater than 6,000 square feet in area, one tree is required for every 600 square feet, or part thereof, of #urban plaza# area for the first 6,000 square feet of area and one additional tree is required for every 1,000 square feet, or part thereof, of the remaining #urban plaza# areA.

For all #urban plazas#, at least 50 percent of the required plaza trees shall be planted with gratings flush to gradE.

Following graytoned text relocated from current paragraphs (b)(2), (b)(3) and (b)(1), respectively, within this Section.

Where trees are planted within an #urban plaza#, they shall measure at least four inches in caliper at the time of plantinG. Each tree shall be planted in at least 200 cubic feet of soil with a depth of soil of at least 3 feet, 6 inches. Any planting bed containing required plaza trees shall have a continuous area of at least 75 square feet for each tree exclusive of bounding walls and shall have bounding walls not higher than 20 inches above the adjacent walking surfacE. Trees shall be planted at a maximum spacing of 25 feet within a single planting beD.

When planting beds are provided, they shall have a soil depth of at least two feet for grass or other ground cover, three feet for shrubs and 3 feet, 6 inches for trees.

#Street# trees are required to be planted in the public sidewalk area adjacent to a #zoning lot# that contains bonus #floor area# for #urban plazas#. At least one tree of four-inch caliper or more shall be planted for each 25 feet of the entire #street# frontage of the #zoning lot#, excluding the frontage occupied by driveways. The length of frontage of the #zoning lot# for the purpose of computing required #street# trees may also be reduced by 50 feet for each #street# intersection fronted by the #zoning lot#. The required trees shall be planted with gratings flush to grade in at least 200 cubic feet of soil per tree, with a depth of soil of at least 3 feet, 6 inches. Species shall be selected, located and maintained in accordance with the specifications established by the Department of Parks and the Department of Highways. If the Commissioner of Buildings determines that the tree planting requirements of this paragraph cannot be met in part or in whole because of subsurface conditions such as the presence of a subway tunnel, the number of required #street# trees that cannot be planted as required in this paragraph shall be planted in the public sidewalk areas of #streets# on the same #block# as the #zoning lot# to which it has frontage or within the #urban plaza#.

Following graytoned text relocated from current paragraph (j) of this Section and current Section 37-043(l) and mergeD.

(k)Mandatory allocation of frontages for permitted #uses#

At least 50 percent of the total frontage of building walls of the #development# fronting on an #urban plaza#, or fronting on an #arcade# adjoining an #urban plaza#, exclusive of such frontage occupied by vertical circulation elements, building lobbies and frontage used for subway access, shall be allocated for occupancy by retail or service establishments permitted by the applicable district regulations. In addition, libraries, museums and art galleries shall be permitteD. All such #uses# shall be directly accessible from the major portion of the #urban plaza# or adjoining arcadE.

The remaining frontage may be occupied by other #uses#, lobby entrances or vertical circulation elements, in accordance with the district regulations.

Frontage on the #urban plaza# that is occupied by a building lobby shall not exceed 75 feet or 40 percent of the total frontage of the #development's# building walls on the major portion of the #urban plaza#, whichever is less.

The building frontage on the major portion of the #urban plaza# shall be treated with clear, untinted *transparent material for 50 percent of* its surface area below 14 feet above the #urban plaza# level, or the ceiling level of the ground floor of the #building#, whichever is lower.

Following graytoned text relocated from paragraph (c) of this Section.

(l) Paving

The paving of the #urban plaza# shall be of non-skid durable materials that are decorative and compatible in color and pattern. The paving of the #street# sidewalk area adjacent to the #development# may be treated with design patterns and materials sympathetic to that of the paving of the #urban plaza#. Any change of paving materials within the public right-of-way shall require review by the Department of Highways and the Art Commission.

Following graytoned text relocated from paragraph (d) of this Section and modifieD.

(m) Standards of accessibility for persons with disabilities to #urban plazas#

(1) There shall be at least one path of travel conforming to the standards set forth in paragraph (m)(2) of this Section, providing access to each of the following:

(i)the major portion of an #urban plaza#;
(ii)any building lobby accessible to the #urban plaza#; and

(iii)any #use# that may be present on or adjacent to the #urban plaza#.

(2)The following standards shall apply to assure access for persons with disabilities:

(i)Such paths shall have a minimum width of five feet, except where specific provisions require a greater width, free and clear of all obstructions.

(ii) Ramps shall be provided alongside any stairs or steps for such paths. Ramps shall have a minimum width of three feet, a slope of not greater than 1:12, a non-skid surface and, for open-edged ramps, a two-inch high safety curB. At each end of a ramp there shall be a level area, which may be a public sidewalk, at least five feet lonG.

(iii) All stairs or ramps within such paths shall provide handrails. Handrails shall be 34 inches high, have a midrail 22 inches high and shall extend at least 18 inches beyond the stair or ramp ends.

(iv) Where stairs are used to effect changes of grade for such paths, they shall have closed risers, no projecting nosings, a maximum riser height of seven and one-half inches and a minimum tread width of eleven inches.

(***gn***) Lighting and electrical power

#Urban ***open spaces*****plazas#** shall be illuminated with a minimum level of illumination of not less than two horizontal foot candles (lumens per foot) throughout all walkable and sitting areas and a minimum level of illumination of not less than 0.5 horizontal foot candles (lumens per foot) throughout all other areas. Such level of illumination shall be maintained from sunset to sunrisE. A lighting schedule, including fixtures, wattage and their locations and designs together with a diagram of light level distribution shall be part of the required detail design plans as set forth in this Section. Electrical power shall be supplied by one or more outlets furnishing a total of at least 1,200 watts of power for every 4,000 square feet, or fraction thereof, of the area of an #urban ***open space*****plaza#., except for a #sidewalk widening#.**

(***ho***) Public space signage systems

The following public space signage systems shall be required for all ***#open air concourses# and*** #urban plazas#:

(1) Entry plaque

The entry plaque shall be located at each #street# frontage or point of pedestrian entry to the #open air concourse# or #urban plaza#. A maximum of two entry plaques may be provideD. The entry plaque shall contain:

(i)a public space symbol which is at least 14 inches square in dimension; has a white background; has a grid of four (4) straight lines no greater than one-eighth inch wide and green in color; and has a tree-shaped symbol as shown;

(Illustration – tree symbol)

(ii) lettering at least two inches in height stating "OPEN TO PUBLIC"." This lettering shall be located within nine inches of the public space symbol; and

(iii) an International Symbol of Access for persons with disabilities that is at least three inches squarE.

The entry plaque shall be mounted on a wall or a permanent free-standing post with its center five feet above the elevation of the nearest walkable pavement. It shall be in a position that clearly identifies the entry into the ***#open air concourse# or*** #urban plaza#, and placed so that the entire entry plaque is obvious and directly visible, without any obstruction, along every line of sight from all paths of pedestrian access to the ***#open air concourse# or*** #urban plaza#.

(2) Information plaque

An information plaque, with a surface area of not less than two feet square, constructed from the same permanent materials as the entry plaque and located within the most frequently used area of the ***#open air concourse# or*** #urban plaza#, with clear lettering consisting of:

(i) the type and quantity of trees, movable seating, **and** permanent artwork;

(ii)the name of the current owner of the building and the name, address and phone number of the person designated to maintain the ***#open air concourse# or*** #urban plaza# between the hours of 9:00 A. m. and 5:00 p.m.;

(iii) the statement, "Complaints regarding this urban ***open space*****plaza** may be addressed to the Department of City Planning or the Department of Buildings of the City of New York"; and

(iv) the statement, "This urban ***open space***plaza is accessible to persons with disabilities."

(***ip***)#Signs#

An #urban ***open space*****plaza#** shall be treated as a #street# for the purposes of the applicable #sign# regulations. #Signs#, except for the plaque required by paragraph (***ho***) of this Section, are permitted only as #accessory# to #uses# permitted within the #urban ***open space*****plaza#** and #uses# adjoining the #urban ***open space*****plaza#**, and are otherwise regulated by the applicable district regulations set forth in Section 32-60 (SIGN REGULATIONS).

(j)Mandatory allocation of frontages for permitted #uses#

At least 50 percent of the total frontage of building walls of the #development# fronting on an #urban open space#, or fronting on an #arcade# adjoining an #urban open space#, exclusive of such frontage occupied by vertical circulation elements, building lobbies and frontage used for subway access, shall be allocated for occupancy by retail or service establishments permitted by the applicable district regulations. In addition, libraries, museums and art galleries shall be permitteD.

All such #uses# shall be directly accessible from the #urban open space# or adjoining #arcade#. The remaining frontage may be occupied by other #uses#, lobby entrances or vertical circulation elements, in accordance with the district regulations.

For #urban plazas#, additional requirements are set forth in Section 37-043, paragraph (l).

For #open air concourses#, the provisions of this Section, paragraph (j), shall apply to both the mezzanine portion and the #street# level portion.

For #sidewalk widenings# , the provisions of this Section, paragraph (j), shall not apply along any #narrow street# frontagE.

(***kq***)Maintenance

(1) The building owner shall be responsible for the maintenance of the #urban ***open space*****plaza#** including, but not limited to, the confinement of permitted obstructions, litter control, and the care and replacement of vegetation within the #zoning lot# and in the #street# sidewalk area adjacent to the #zoning lot#.

(2) Litter receptacles shall be provided with a minimum capacity of one cubic foot for each 2,000 square feet of #urban ***open space*****plaza#** area excluding the area of any #sidewalk widening# . An additional capacity of one cubic foot of litter receptacle shall be provided for each 2,000 square feet of #urban ***open space*** **plaza#** area in connection with outdoor eating services or other #uses# permitted within #urban ***open spaces*****plazas#** that generate litter.

(3) ***#Urban open space uses#, specified in paragraph (e)(2)*** **Kiosks, open air cafes, open air amphitheaters and open air ice skating rinks permitted in accordance with the provisions** of this Section, shall be confined within areas designated on building plans as available for occupancy by such #uses#. Encroachment by an #urban ***open space*****plaza** use# outside an area so designated shall be a valid ground for complaint and removal.

(4) Performance bond

Prior to obtaining any certificate of occupancy from the Department of Buildings, the building owner shall post with the Comptroller of the City of New York, a performance bond, City securities or fixed income securities, at the Comptroller's discretion, to ensure the mandatory tree planting, movable seating exclusive of any seating for open air cafes, and the litter-free maintenance of the #urban ***open space*****plaza#** including the replacement of such trees and movable furniture during the life of the #development#.

In the event of a failure in the required performance, the Chairperson of the City Planning Commission shall notify the building owner in writing of such failure and shall stipulate the period of time in which the building owner has to correct the failurE. If the failure is not corrected in the stipulated time, the Chairperson may declare the building owner in default in the required performance and the City may enforce the obligation by whatever means may be appropriate to the situation, including letting contracts for doing any required planting, installation or maintenance and paying all labor, material and other costs connected with such work from the bond or City securities that the building owner is required to providE.

In the event that the City enforces the aforementioned obligation as provided for in **this** paragraph ***(k)(4) of this Section*****(Performance bond)**, the building owner shall, within 90 days of such enforcement, provide the City with an additional bond or City securities in an amount not less than that which was expended to cure the default.

The value of the bond or City securities if tendered prior to January 1, 198998, shall be at a rate of $750 per required tree, $100 per movable chair and $200 per 1,000 square feet of #urban ***open space*****plaza#** for litter removal as set forth in this Section.

Effective January 1, 1989, and at five year intervals thereafter, the City Planning Commission shall establish new rates for the mandatory tree planting, movable seating and litter-free maintenance of the #urban open space#.

(***lr***)Penalties for violations

Failure to comply with the conditions or restrictions of the bonused #urban open space# shall constitute a violation of this Resolution and shall constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

Following graytoned text relocated from the second and third paragraphs of this Section.

No foundation permit shall be issued by the Department of Buildings for any #development# that includes an #urban plaza# without certification by the Chairperson of the City Planning Commission that a site plan has been submitted indicating compliance with the provisions of this Section. An application for such certification shall be filed with the Chairperson showing the plan of the #zoning lot#; a site plan indicating the area and dimensions of the proposed #urban plaza# and the location of the proposed #development# or #enlargement# and all existing #buildings# temporarily or permanently occupying the #zoning lot#; computations of proposed #floor area#, including bonus #floor area#; and a detailed plan or plans demonstrating compliance with the provisions of this Section.

All plans for #urban plazas#, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification of the #urban plaza# pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the filing for or issuance of any building permit for any #development# or #enlargement# on the #zoning lot#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording datE.

The following new text consolidates pedestrian circulation space requirements applicable to both Midtown and Lower Manhattan and other areas where they may be requireD. The text is a modified version of current sections in Midtown: 81-45 (Provision of Pedestrian Circulation Space),81-451 (Design standards for pedestrian circulation spaces), 81-452 (Bonused amenities qualifying as pedestrian circulation spaces), 81-46 (Through Bloc' Connection), 81-461 (Locational standards), 81-462 (Design standards for a through block connection), etC.

37-07
Requirements for Pedestrian Circulation Space

All pedestrian circulation space required pursuant to the provisions of any special purpose district shall comply with the provisions of this Section, as such may be modified by the terms of the special district.

Sections 37-071 and 37-072 have been adapted from Section 81-45 (Provision of Pedestrian Circulation Space) which has been deleteD. No new requirements have been addeD.

37-071
Amount of pedestrian circulation space

The minimum amount of pedestrian circulation space to be provided for #developments# or #enlargements# shall be determined by the following table:

MINIMUM PEDESTRIAN CIRCULATION SPACE REQUIREMENTS

Size of #zoning lot# Required #floor area#

5,000 to 20,000 square feet 1 square foot per 350 square feet of new #floor area#

Above 20,000 square feet 1 square foot per 300 square feet of new #floor area#

37-072
Types of pedestrian circulation space

The pedestrian circulation space provided shall be of one or more of the following types: an arcade, building entrance recess area, corner arcade, corner circulation space, relocation or renovation of a subway stair, sidewalk widening, subway station improvement, through #block# connection or #urban plaza#.

Each #zoning lot# shall be categorized as either a #corner lot#, #through lot# or #interior lot#, and pedestrian circulation space shall be provided on each #zoning lot# in at least one of the applicable types, or combinations of types, specified in the following table:

PROVISION OF PEDESTRIAN CIRCULATION SPACE ON CERTAIN TYPES OF LOTS

Type of Pedestrian Circulation Space
#Corner lot# #Through lot##Interior lot
#Arcade XX X Building entrance recess area XX X Corner arcade X Corner circulation space X Relocation or renovation of subway stair XX X Sidewalk widening XX X Subway station improvement XX X Through #block# connection XX #Urban plaza# XX X

Minimum design standards for each type of pedestrian circulation space and, where applicable, the maximum amount of each type of pedestrian circulation space that may be counted towards meeting the requirements of Section 37-071 (Amount of pedestrian circulation space) are set forth in Section 37-073 (Design standards for pedestrian circulation spaces).

Section 37-073 has been adapted from Section 81-451 (Design standards for pedestrian circulation space) which has been deleteD. No new requirements have been addeD.

37-073
Design standards for pedestrian circulation spaces

(a) Arcade

Arcades shall not be subject to the provisions of Sections 12-10 (DEFINITIONS) and 27-60 (ARCADES). In lieu thereof, the provisions of this Section shall apply.

An arcade is a continuous covered space that adjoins and extends along a #front lot line#, is at the same elevation as the adjoining sidewalk, is open for its entire length to the sidewalk except for columns and is accessible to the public at all times. An arcade shall be provided on the #wide street# frontage of a #zoning lot# of a new #development# or #enlargement# where the #zoning lot# lies directly adjacent to an existing arcade on a #wide street#, except where an existing #building# without an arcade extends along a portion of the #wide street front lot line# of the #zoning lot# containing the new #development# or #enlargement#.

Where an arcade abuts another arcade, there shall be a clear, unobstructed passage between both arcades.

An arcade shall meet the following requirements:

(1)Dimensions

An arcade with columns shall have a minimum clear width of 10 feet, exclusive of all columns, and a maximum width of 15 feet, inclusive of columns. No column width shall be greater than five feet. Columns shall be spaced along the #street# with a minimum clear width between columns of 15 feet. An arcade shall have a clear height of not less than 12 feet and not more than 30 feet.

(i) On an #interior lot# or a #through lot# fronting on a #narrow street#, an arcade without columns is permitted only if:

(a) it has a continuous, unobstructed minimum length of 100 feet or, with the exception of the width of driveways for the required loading berths located at the #side lot line# of the #zoning lot#, is unobstructed for the full length of the new #building# frontage, whichever is greater; and

(b) the entire #front lot line# shall be unobstructed for the same depth of the arcade, except for that portion of the #front lot line# occupied by an existing #building#.

(ii) On an #interior lot# or a #through lot# fronting on a #narrow street#, an arcade with columns is permitted only if it connects directly to an existing arcade on an adjacent #zoning lot#, matching it in width and alignment and has a continuous, unobstructed minimum length beyond the existing adjacent arcade of at least 100 feet or, with the exception of the width of driveways for the required loading berths located at the #side lot line# of the #zoning lot#, is unobstructed for the full length of the new #building# frontage, whichever is greater.

(iii) On a #corner lot# fronting on a #narrow street#, an arcade is permitted only if it extends for the full length of the #street# frontage, with the exception of a driveway for a required loading berth located at the #side lot line# of the #zoning lot#, or if the arcade provides unobstructed pedestrian flow along such entire frontage in combination with one or more of the following other spaces with which it connects at one or both ends: a corner arcade, a #plaza#, an off-street rail mass transit access improvement, an intersecting sidewalk widening, an intersecting #street#, a relocated or renovated subway entrance, a through #block# connection, a through #block# galleria or an #urban plaza#.

(iv) On a #wide street#, an arcade shall be permitted, provided that:

(a) the arcade extends along the full length of the #street line# between intersecting #streets#; or

(b) in the case of a #building# that occupies less than the entire #street# frontage between intersecting #streets#, on a full blockfront #zoning lot#, unobstructed pedestrian flow along the entire frontage is provided on the #zoning lot# by the arcade in combination with one or more of the following #open spaces# with which the arcade connects at one or both ends: a corner circulation space, a #plaza#, an intersecting sidewalk widening or an #urban plaza#; or

(c)in the case of a #building# whose #zoning lot# occupies less than the entire #street# frontage between intersecting #streets#, the arcade connects with an existing arcade of matching width and alignment, a #plaza# or an #urban plaza# on an adjacent #zoning lot#, so that unobstructed pedestrian flow along the entire blockfront is provided by the arcade in combination with such existing spaces.

(2) Full blockfront arcade

When a #zoning lot# occupies a full blockfront, both ends of the arcade on that #street# frontage shall be open and accessible directly from the sidewalk of the intersecting #street# or any other qualifying pedestrian circulation spacE.

(3)Permitted obstructions

Except for building columns, an arcade shall be free from obstructions of any kinD.

(4)Specific prohibitions

No vehicular driveways, except as permitted under paragraph (a)(1) (Dimensions) of this Section, parking spaces, passenger drop-offs, loading berths or trash storage facilities are permitted within an arcade, nor shall such facilities be permitted immediately adjacent to an arcadE.

(5)Illumination

All existing and new arcades shall maintain a minimum level of illumination of not less than five horizontal foot candles between sunset and sunrisE.

(b)Building entrance recess area

A building entrance recess area is a space that adjoins and is open to a sidewalk or sidewalk widening for its entire length and provides unobstructed access to the building's lobby entrance or to the entrance to a ground floor #use#.

A building entrance recess area shall meet the following requirements:

(1) Dimensions
A building entrance recess area shall have a minimum length of 15 feet and a maximum length of 50 feet measured parallel to the #street line# at a building's lobby entrance and a maximum length of 30 feet parallel to the #street line# at a ground floor #use# entrancE. It shall have a maximum depth of 15 feet measured from the #street line# and shall have a minimum depth of 10 feet measured from the #street line#.

(2) Obstructions

Any portion of a building entrance recess area under an overhanging portion of the #building# shall have a minimum clear height of 15 feet. It shall be free of obstructions except for building columns, between any two of which there shall be a clear space of at least 15 feet measured parallel to the #street line#. Between a building column and a wall of the #building#, there shall be a clear path at least five feet in widtH.

(3)Permitted overlap

A building entrance recess area may overlap with an arcade, a corner arcade, a corner circulation space or a sidewalk widening, and may adjoin or overlap and connect directly without obstruction to another building entrance recess area except that, on any one #street# frontage, each lobby or ground floor #use# shall connect to only one building entrance recess areA.

(c) Corner arcade

A corner arcade shall not be subject to the provisions of Sections 12-10 (DEFINITIONS) and 27-60 (ARCADES). In lieu thereof, a corner arcade shall be a small covered space adjoining the intersection of two #streets# at the same elevation as the adjoining sidewalk or sidewalk widening and directly accessible to the public at all times.

A corner arcade shall meet the following requirements:

(1)Dimensions

(i) a corner arcade shall have a minimum area of 200 square feet, a minimum depth of 15 feet measured along a line bisecting the angle of intersecting #street lines#, and shall extend along both #street lines# for at least 15 feet but not more than 40 feet from the intersection of the two #street lines#; and

(ii) the height of a corner arcade shall be not less than 12 feet and a clear path at least 12 feet wide shall be provided from one #street line# to another #street line#.
(2)Permitted obstructions

Except for building columns, a corner arcade shall be free from obstructions of any kinD.

(3) Specific prohibitions

The specific prohibitions pertaining to an arcade as described in paragraph (a)(4) of this Section shall also be applicable to a corner arcadE.

(4)Permitted overlap

A corner arcade may overlap with an arcade; however, the area of overlap may only be counted once toward the fulfillment of the required minimum area of pedestrian circulation spacE.

(d) Corner circulation space

A corner circulation space is a small #open space# on the #zoning lot# of a #development# or #enlargement#, adjoining the intersection of two #streets#, at the same elevation as the adjoining sidewalk or sidewalk widening and directly accessible to the public at all times.

A corner circulation space shall meet the following requirements:

(1) Dimensions

A corner circulation space shall have the same minimum dimensions as a corner arcade, as described in paragraph (c)(1) of this Section.

(2)Obstructions

A corner circulation space shall be completely open to the sky from its lowest level, except for temporary elements of weather protection, such as awnings or canopies, provided that the total area of such elements does not exceed 20 percent of the area of the corner circulation space and that such elements and any attachments thereto are at least eight feet above #curb level#. A corner circulation space shall be clear of all other obstructions including, without limitation, door swings, building columns, #street# trees, planters, vehicle storage, parking or trash storagE. No gratings, except for drainage, shall be permitteD.

(3) Building entrances

Entrances to ground level #uses# are permitted from a corner circulation spacE.
An entrance to a building lobby is permitted from a corner circulation space, provided that the entrance is at no point within 20 feet of the intersection of the two #street lines# that bound the corner circulation spacE.

(4) Permitted overlap

A corner circulation space may overlap with a sidewalk wideninG.

(e)Relocation or renovation of a subway stair

When a #development# or #enlargement# is constructed on a #zoning lot# containing a relocated stairway entrance or entrances to a subway, or an existing stairway entrance or entrances to a subway, and such entrance or entrances are relocated or renovated in accordance with the provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair), one and a half times the area, measured at #street# level, of such entrance or entrances may count toward meeting the pedestrian circulation space requirement.

(f) Sidewalk widening

A sidewalk widening is a continuous paved open area along the #front lot line# of a #zoning lot# at the same elevation as the adjoining sidewalk and directly accessible to the public at all times. A sidewalk widening shall be provided on the #wide street# frontage of a #zoning lot# of a new #development# or #enlargement# where all existing #buildings# on the same #block# frontage, whether on the same or another #zoning lot#, provide sidewalk widenings.

A sidewalk widening shall meet the following requirements:

(1)Dimensions

A sidewalk widening shall have a width of no less than five feet nor more than 10 feet measured perpendicular to the #street line#, and shall be contiguous along its entire length to a sidewalk.

A sidewalk widening shall extend along the full length of the #front lot line# except for the portion of the #front lot line# interrupted by an existing #building# which is located at a #side lot line# or, in the case of a full #block# frontage, located at the intersection of two #streets#.

A required sidewalk widening on a #wide street# shall connect directly to any existing adjoining sidewalk widening and shall extend the entire length of the new #front lot line#.

The width of such a required sidewalk widening shall equal that of the existing adjoining sidewalk wideninG. If there is more than one such existing sidewalk widening, the width of such a required sidewalk widening shall equal that of the existing sidewalk widening that is longest.

A sidewalk widening is permitted on a #wide street# when not adjacent to an existing sidewalk widening only if either the sidewalk widening extends along the #street line# of the #wide street# for the full length of the #block# front, or the #zoning lot# is a #corner lot# and the sidewalk widening extends along the full length of the #street line# of the #wide street# to its intersection with the #street line# of the other #street# on which the #zoning lot# fronts.

Except for the permitted interruptions, as set forth in paragraph (f)(2) of this Section, a sidewalk widening is permitted on a #narrow street# only if it has a length of at least 100 feet.

(2) Permitted interruptions

Interruptions of the continuity of a qualifying sidewalk widening shall be permitted only under the following conditions:

(i) by an arcade that has a width equal to or greater than the width of the sidewalk widening and which is directly connected to the sidewalk widening;

(ii) if overlapped by a corner circulation space or a building entrance recess area that permits uninterrupted pedestrian flow;

(iii) if overlapped by an #urban plaza#, provided that the overlapping portion of such #urban plaza# conforms to the design standard of a sidewalk widening;

(iv) by an off-street subway entrance provided such an entrance is located at a #side lot line# or is located at the intersection of two #street lines#;

(v) if overlapped by the queuing space of a relocated or renovated subway entrance, provided that the queuing space for the entrance leaves at least a five foot uninterrupted width of sidewalk widening along the entire length of the queuing space; or

(vi) by a driveway that is located at a #side lot line#; however, where the #zoning lot# has a through #block# connection, a through #block# galleria or a through #block urban plaza# at such a #side lot line#, the location of its driveway is not restricteD. The area occupied by the driveway, up to the width of the sidewalk widening, may be counted towards meeting the pedestrian circulation space requirement, provided that there shall be no change of grade within the area of the sidewalk widenin(;.

(3) Permitted obstructions

A sidewalk widening shall be unobstructed from its lowest level to the sky except for those obstructions permitted under paragraph (f)(2) of this Section and for temporary elements of weather protection, such as awnings or canopies, provided that the total area of such elements, measured on the plan, does not exceed 20 percent of the sidewalk widening area, and that such elements and any attachments thereto are at least eight feet above #curb level#.

(4) Specific prohibitions

No #street# trees are permitted on a sidewalk wideninG. No vehicle storage, parking or storage of trash is permitted on a sidewalk wideninG. Gratings may not occupy more than 50 percent of the sidewalk widening area nor be wider than one half the width of the sidewalk wideninG.

(5) Special design treatment

When one end of the sidewalk widening abuts an existing #building# on the #zoning lot# or an existing #building# on the #side lot line# of the adjacent #zoning lot#, design treatment of the termination of the sidewalk widening is required to smooth pedestrian flow. The portion of the sidewalk widening subject to design treatment, hereinafter called the transition area, shall not extend more than 10 feet nor less than five feet along the sidewalk widening from its termination.

The transition area shall receive special design treatment which may include, but is not limited to, landscaping, sculpture or building transparency. The transition area shall be designed to effect a gradual change of the sidewalk widening width to match the #street wall# line of the existing #building# at the sidewalk widening's termination. This may be accomplished by a curved or diagonal edge of paving along a landscaped bed, the use of stepped edges of the #building# or other architectural treatment of the #building# or paving which avoids an abrupt visual termination of the sidewalk wideninG. Such special design treatment may be considered a permitted obstruction.

(g) Subway station improvement

For #developments# or #enlargements# that are granted a special permit pursuant to Section 74-634 (Subway station improvements in commercial zones of 10 FAR and above in Manhattan), no more than 3,000 square feet may count towards meeting the pedestrian circulation space requirement.
Paragraph (h) has been adapted from Section 81-46 (Through Block Connection) which has been deleteD. No new requirements have been addeD.

(h) Through #block# connection

A through #block# connection is a paved open or enclosed space providing unobstructed access to the building's main lobby and connecting, in a straight continuous unobstructed path, two parallel or nearly parallel #streets#. Up to a maximum of 3,000 square feet of a through #block# connection may count towards the minimum pedestrian circulation space requirement.

A through #block# connection shall meet the following requirements:

(1) Location

(i) A through #block# connection shall be located at least 150 feet from the intersection of two #streets#.

(ii)Where the #zoning lot# or a portion thereof is directly across a #street# from, and opposite to, an existing through #block# connection on an adjacent #block# and the existing connection is at least 150 feet from the intersection of two #streets#, the alignment of the new through #block# connection shall overlap with that of the existing connection. Such existing connection may also be a through #block# galleria, through #block urban plaza# or any through #block# circulation area with a minimum width of 12 feet, which is located within a #building#.

(iii)Where there are already two through #block# connections located on the same #block#, a new through #block# connection shall not count towards meeting the pedestrian circulation space requirement.

(iv)No through #block# connection shall be permitted on any portion of a #zoning lot# occupied by a landmark or interior landmark so designated by the Landmarks Preservation Commission, or occupied by a #building# whose designation as a landmark or interior landmark has been calendared for public hearing and is pending before the Landmarks Preservation Commission.

(2)Design standards for a through #block# connection

(i)A through #block# connection shall provide a straight continuous unobstructed path at least 15 feet widE. If covered, the clear unobstructed height of a through #block# connection shall not be less than 15 feet.
(ii)At no point shall the level of a through #block# connection be more than five feet above or below #curb level#. In all cases, the through #block# connection must provide a clear path, accessible to people with disabilities, through its entire lengtH.

(iii)A through #block# connection may be located inside or outside of a #building#. The area of a through #block# connection located within a #building# shall be counted as #floor area#.

(iv)A through #block# connection located partially or wholly within a #building# shall adjoin and connect directly to the building's main lobby via unobstructed openings with an aggregate width exceeding that of any other entrances to the lobby.

(v)A through #block# connection located wholly or partially outside a #building# shall provide unobstructed access directly to the building's main lobby through the major entrancE. For the purposes of this Section, the major entrance shall be that entrance to the main lobby which has the greatest aggregate width of clear openings for access.

(vi)Any portion of a through #block# connection located outside a #building# shall be illuminated throughout with a minimum level of illumination of not less than five horizontal foot candles (lumens per candle). Such illumination shall be maintained throughout the hours of darkness.

(vii)A through #block# connection shall at a minimum be accessible to the public from 8:00 A. m. to 7:00 p.m. on the days the #building# or #development# is open for business and shall have posted, in prominent, visible locations at its entrances, signs meeting the standards set forth in paragraph (h)(2)(viii) of this Section.

(viii) A through #block# connection shall provide the following information for public access at each public entry to the through #block# connection:

(a)For an unenclosed through #block# connection, the public access information shall be an entry plaque located at the entrance to the through #block# connection at each #street# frontagE. The entry plaque shall contain:

(1) a public space symbol which is at least 14 inches square in dimension, has a white background, has a grid of four straight lines no greater than one-eighth inch wide and green in color and has a tree-shaped symbol as shown· (Illustration – Tree Symbol)

(2)lettering at least two inches in height stating "OPEN TO PUBLIC. " This lettering shall be located within nine inches of the public space symbol; and

(3)an international Symbol of Access for people with disabilities that is at least three inches squarE.

The entry plaque shall be mounted with its center five feet above the elevation of the nearest walkable pavement on a wall or a permanent freestanding post. It shall be placed so that the entire entry plaque is obvious and directly visible without any obstruction, along every line of sight from all paths of pedestrian access to the through #block# connection, in a position that clearly identifies the entry to the connection.

(b) For an enclosed through #block# connection or a portion thereof:

(1)a public space symbol as described in paragraph (h)(2)(viii)(a) of this Section, not less than six inches square, shall be mounted with its center five feet above the elevation of the nearest walkable pavement;

(2) lettering stating "PUBLIC ACCESS TO - - - - STREET," indicating the opposite #street# to which the through #block# connection passes and which lettering shall not be less than three inches in height and located not more than three inches away from the public space symbol; and

(3)lettering not more than two inches or less than one and a half inches in height stating "OPEN TO PUBLIC" with the hours and days of operation of the through #block# connection. This lettering shall be located not more than three inches from the public space symbol.

The above required information shall be permanently affixed on the glass panel of the entry doors of the through #block# connection clearly facing the direction of pedestrian flow. The information shall be located not higher than six feet or lower than three feet above the level of the pedestrian path at the entry, and shall be in a format and color which will ensure legibility.

(i)Urban plaza

A maximum of 30 percent of the area of an #urban plaza# that faces a #street# intersection, or provides access to a major building entrance, may be counted toward meeting the pedestrian circulation space requirement.

A maximum of 3,000 square feet of a through #block urban plaza# may be counted toward meeting the pedestrian circulation space requirement.

For all other #urban plazas#, the first 10 feet of depth from the #street line# may be counted toward meeting the pedestrian circulation space requirement, provided that the #urban plaza# conforms to the design standards of a sidewalk widening as set forth in paragraph (f) of this Section.

All #urban plazas# shall comply with Section 37-04 (Requirements for Urban Plazas).

Any area of permitted overlap between pedestrian circulation spaces or other amenities shall be counted only once toward meeting the required amount of pedestrian circulation spacE. Unobstructed access shall be provided between overlapping spaces.

The following is a revision of Section 81-454 (Modification of design standards of pedestrian circulation spaces within existing buildings), which has been deleteD. No new requirements have been addeD.

37-074
Modification of design standards of pedestrian circulation spaces within existing buildings

The City Planning Commission may authorize a modification of any required minimum amount of pedestrian circulation space to be provided on #wide street# frontages and design standards, as indicated, for the following required pedestrian circulation spaces, to be provided within or under an existing #building# to remain on a #zoning lot#:

(a) Arcade: minimum width, minimum height, obstructions, minimum clear width between obstructions, minimum length, column sizes

(b) Building entrance recess area: minimum length, minimum depth from #street line#, minimum height, obstructions, clear space between obstructions and clear space between obstructions and building wall

(c) Corner arcade or corner circulation space: minimum depth, minimum width of clear path, minimum height, obstructions

(d) Through #block# connection: minimum width of unobstructed path, minimum height, through #block# level

The Commission may authorize such a modification of design standards for pedestrian circulation spaces when the following conditions are met:

(1) a modification is needed because of the inherent constraints of the existing #building#;

(2) the modification is limited to the minimum needed because of the inherent constraints of the existing #building#; and

(3) the pedestrian circulation space as modified shall be equal in area, and substantially equivalent, to the required space in quality, effectiveness and suitability for public usE.

The selection of subway station improvements shall be on a case-by-case basis and shall be subject to the approval of the Metropolitan Transportation Authority, New York City Transit and the City Planning Commission. All such improvements shall comply with all applicable design standards of the current station planning guidelines of New York City Transit.

(b)Compliance with Transit Authority design standards

The subway station improvement shall comply with all applicable design standards of the New York City Transit Authority's "Station Planning Guidelines" (Revised, 1975 and as may be subsequently revised).

(c) Procedure

(1)Pre-application

The applicant shall submit schematic or concept plans for the proposed improvement to the Metropolitan Transportation Authority, the Transit Authority and the City Planning Commission.

(2) Application pre-certification

After review and agreement on the concept by the Metropolitan Transportation Authority, Transit Authority and the City Planning Commission, the applicant shall submit necessary documentation in conformance with the New York City Transit Authority's "Guidelines for Submission and Approval of Outside Projects". Prior to certification by the City Planning Commission, the Transit Authority shall provide a letter to the Commission containing conceptual approval of the improvement and a statement of any special considerations regarding the Transit Authority's future operation of the improvement.

(3) The special permit application to the City Planning Commission shall include information and justification sufficient to provide the Commission with a basis for evaluating the benefits to the City from the proposed improvement and determining the appropriate amount of bonus #floor area# and for making the findings for the modifications of Section 37-01, Section 37-02 and height and setback regulations in C5-5 Districts.

(4)The special permit application shall include any request for modification of special urban design guidelines pursuant to Section 74-634 paragraph (e) and of height and setback and #rear yard# regulations pursuant to Section 74-634 paragraph (f).

(5)Uniform Land Use Review Procedure - certification

The City Planning Commission shall not certify any application under the Uniform Land Use Review Procedure until the requisite letter from the Transit Authority has been received and incorporated in the application. Such letter may be subject to subsequent execution of a final agreement with the developer.

(6)Prior to the granting of a special permit:

(i)the Transit Authority shall have submitted a letter to the City Planning Commission:

(a) stating that the drawings and other documents submitted by the applicant have been determined by the Transit Authority to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems; materials; relationship to existing site conditions; and such other elements as may be appropriate; and

(b) confirming that the construction of the subway improvement in accordance with such submission is feasible; and

(ii) the applicant shall sign a legally enforceable instrument, running with the land containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and maintain the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(7) The restrictive declarations and any instrument creating a transit easement on the #zoning lot# shall be recorded against the #zoning lot# in the Office of the Register of the City of New York for the borough in which the improvement or easement is being created, and a certified copy of the instrument shall be submitted to the City Planning Commission and the Transit Authority.

(8) Prior to obtaining a temporary certificate of occupancy for the bonus #floor area#, the bonused subway improvement shall be substantially complete, which shall, for this purpose, mean usable by the public, as determined by the Transit Authority.

(9) Prior to obtaining a permanent certificate of occupancy, the bonused subway improvement must be 100 percent complete in accordance with the approved plans and such completion shall have been certified by the Transit Authority.

(d) Floor area bonus

The amount of the #floor area# bonus shall be at the discretion of the City Planning Commission and may range from no #floor area# bonus to the maximum amount allowable by special permit pursuant to the provisions of this Section. For a #residential# or mixed-#use development#, when a #floor area# bonus is granted pursuant to this Section, alone or in combination with other bonuses, the #lot area# requirements of Section 23-20 (DENSITY REGULATIONS — REQUIRED LOT AREA PER DWELLING UNIT, LOT AREA PER ROOM, OR FLOOR AREA PER ROOM) and 35-40 (APPLICABILITY OF LOT AREA REQUIREMENTS TO MIXED BUILDINGS) shall not apply. Instead for every 750 square feet of gross #residential floor area# provided, there shall be not more than one #dwelling unit#. In determining whether to grant a special permit and the precise amount of #floor area# bonus pursuant to the special permit, the Commission shall make all of the following findings:

(1)the degree to which the station's general accessibility, rider orientation and safety will be improved by the provision of new connections, additions to circulation space or easing of circulation bottlenecks;

(2) provision of escalators or elevators where justified by traffic or depth of mezzanine or platform below #street# level;

(3) convenience and spaciousness of #street# level entrance and compatible relationship to the ground floor #uses# of the #development# or #enlargement#;

(4) improvements in the station's environment by provision for daylight access, or improvements to noise control, air quality, lighting or other architectural treatments.

(e) Modification of special urban design guidelines and urban open space

The City Planning Commission may modify the requirements of Section 37-01 (Special Urban Design Guidelines-Streetscape), Section 37-02 (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), and the requirement for #urban open space# in Section 37-04 (Requirements for Open Air Concourses, Sidewalk Widenings and Urban Plazas) if it finds the provisions of a subway improvement cannot be accommodated without modification to these requirements.

(f) Modification of height and setback and yard regulations

In a C5-5 District, in the case of on-site subway station improvements that generate #floor area# bonus pursuant to Section 74-634, the City Planning Commission may permit modification of the applicable regulations in Sections 33-26 to 33-30, inclusive, relating to #rear yard# regulations, or in Sections 33-41 to 33-45, inclusive, relating to height and setback regulations.

The City Planning Commission may grant such modification upon consideration that the applicable height and setback or #rear yard# regulations cannot be complied with by some method feasible for the applicant to pursue because of the provision of a subway station improvement, the size or irregular shape of the lot, the size or irregular shape of the #block# or width of #streets#. The Commission shall also consider the characteristics of surrounding development. The Commission shall require, where appropriate, sufficient safeguards to insure the free flow of pedestrian and vehicular traffic in the general areA.

The City Planning Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding areA.

The following paragraphs incorporate existing requirements in the previous deleted paragraphs – (b), (c)(1) through (c)(9), (d)(1) through (d)(4), (e) and (f) – and those in Section 81-534 (Procedure), which has also been deleteD.

(a) Pre-application requirements

Prior to submitting an application for a special permit pursuant to this Section, the applicant shall submit a schematic or concept plan for the proposed improvement to the Metropolitan Transportation Authority, New York City Transit and the Chairperson of the City Planning Commission.

(b) Requirements for application

The application for a special permit shall include a letter from New York City Transit to the City Planning Commission containing conceptual approval of the improvement and a statement of any special considerations regarding New York City Transit's future operation of the improvement. The applicant shall submit all information and justification sufficient to enable the Commission to:

(1)evaluate the benefits to the City;

(2)determine the appropriate amount of bonus #floor area#; and

(3)where applicable, assess the advantages and disadvantages of waiving or modifying #street wall# continuity requirements.

(c) Conditions

(1)Within the #Special Midtown District#, for a #development# or #enlargement# located on a #zoning lot# divided by a Theater Subdistrict Core boundary, as defined in Section 81-71 (General Provisions), the amount of #lot area# eligible for bonus #floor area# shall not exceed an amount equal to twice the #lot area# of that portion of the #zoning lot# located outside the Theater Subdistrict CorE.

(2) For a #residential# or mixed #development#, when a #floor area# bonus is granted pursuant to this Section, alone or in combination with other bonuses, the #lot area# requirements of Sections 23-20 (DENSITY REGULATIONS – REQUIRED LOT AREA PER DWELLING UNIT, LOT AREA PER ROOM OR FLOOR AREA PER ROOM) and 35-40 (APPLICABILITY OF LOT AREA REQUIREMENTS TO MIXED BUILDINGS) shall not apply. Instead, the minimum average size of a #dwelling unit# shall be 790 square feet.

(d)Findings

(1)In determining the amount of #floor area# bonus, the City Planning Commission shall consider:

(i)the degree to which the general accessibility and security of the subway station will be improved by the provision of new connections, additions to or reconfigurations of circulation space, including provision of escalators or elevators; and

(ii)significant improvements to the station's environment by provision for direct daylight access, or improvements to noise control, air quality, lighting or rider orientation and satisfactory integration of the #street# level entryway into the #development# or #enlargement#.

(2)In determining modifications to the requirements of Article 3, Chapter 7 (Special Regulations), the Commission shall find that the provisions of a subway improvement cannot be accommodated without modification to these requirements.

(3)In determining modifications to the #street wall# continuity provisions of Section 81-43 in the #Special Midtown District# or Section 91-31 (Street Wall Regulations) in the #Special Lower Manhattan District#, the Commission shall find that the modification will permit the proposed design to provide for access of daylight and air to the subway platform, mezzanine or concourse and that the advantages of such access outweigh the disadvantages incurred by the interruption of #street wall# and retail continuity.

(4)Within the #Special Midtown District#, for a #development# or #enlargement# within the Theater Subdistrict on a #zoning lot# containing a theater designated as listed pursuant to Section 81-742 (Listed theaters), the Commission shall find that the requirements of Section 81-743 (Required assurances for continuance of legitimate theater use) have been met.

(e)Procedural requirements

Prior to the granting of a special permit, the City Planning Commission shall be provided with the following:

(1)a letter from New York City Transit stating that the drawings and other documents submitted by the applicant have been determined by New York City Transit to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems, materials, relationship to existing site conditions and such other conditions as may be appropriate, and that the construction of the subway improvement in accordance with such submission is feasiblE.

(2)a legally enforceable instrument running with the land and signed by the applicant, containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and provide for ongoing maintenance of the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(f) Recordation & completion procedures

Any instrument creating a transit easement on the #zoning lot# shall be recorded against the #zoning lot# in the Office of the Register of the City of New York and a certified copy of the instrument shall be submitted to the City Planning Commission and New York City Transit. The applicant shall not apply for nor accept a temporary certificate of occupancy for the bonus #floor area#, and the Department of Buildings shall not issue such a temporary certificate of occupancy, until New York City Transit has determined that the bonused subway improvement is substantially complete which shall, for this purpose, mean open to and usable by the publiC.

The applicant shall not apply for or accept a permanent certificate of occupancy for the #development# or #enlargement#, nor shall the Department of Buildings issue such permanent certificate of occupancy, until the bonused subway improvement has been completed in accordance with the approved plans and such completion has been certified by New York City Transit.

The City Planning Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding areA.

74-721
Height and setback and yard regulations

* * *

Paragraph (c) has been moved to Section 91-66 (Modification of Bulk Regulations).

(c)Where a #development# on a #zoning lot# is located within the #Special South Street Seaport District# (Article VIII, Chapter 8), on application the Commission may permit modification of height and setback regulations and an increase in tower coverage beyond that allowed by Section 88-06 where the #development# satisfies either of the following conditions:

(1)that the developer obtains negative easements limiting the height of future #development# to 85 feet or less on any adjoining #zoning lot(s)# which are contiguous or would be contiguous to said #zoning lot# but for the separation by a #street# or #street# intersection, and such easements are recorded against such adjoining #zoning lots# by deed or written instrument. The

Commission shall consider the aggregated areas of said #zoning lot# and the adjoining lots subject to such negative easements and the extent to which they achieve future assurance of light and air comparable to the standards of the Seaport and Manhattan Landing Districts in determining the maximum permitted coveragE. In no event shall such coverage exceed 80 percent of the #zoning lot# on which the #development# will be located; or

(2)that coverage on a #receiving lot# may be increased above 55 percent, but in no event to more than 80 percent, where additional #development rights# are purchased and converted to coverage according to the formula set forth in Section 88-06.

Prior to the Commission's public hearing on such #development#, the applicant shall indicate, to the Commission, its final decision as to the option chosen.

(3)As a condition for the special permit, the Commission shall make the following findings:
(i)that such special permit will aid in achieving the general purposes and intent of the Special District(s) in which the #development# is located;

(ii)that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot#; and

(iii)that the distribution of #bulk# and the #development# permits adequate access of light and air to surrounding #streets# and properties.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding areA.

Existing Sections 81-45 (Provision of Pedestrian Circulation Space), 81-451 (Design standards for pedestrian circulation spaces), and 81-452 (Bonused amenities qualifying as pedestrian circulation spaces) have been deleted and the modified text has been incorporated into Section 37-07 (Requirements for Pedestrian Circulation Space), et. seq Existing Section 81-454 (Modification of design standards of pedestrian circulation spaces within existing buildings) has been deleted and the modified text has been incorporated into Section 37-074. Existing Section 81-453 (Exemptions from the pedestrian circulation space requirements) has been deleted and the text has been incorporated into the new Section 81-45, as follows.

81-45
Provision of Pedestrian Circulation Space

(Delete existing text.)

Within the #Special Midtown District#, all new #developments# or #enlargements# on #zoning lots# of 5,000 square feet or larger with more than 70,000 square feet of new #floor area# shall provide pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

The requirements for pedestrian circulation space may be met by providing one or more of the following types of spaces: arcade, building entrance recess area, corner arcade, corner circulation space, relocation or renovation of a subway stair, sidewalk widening, subway station improvement, through #block# connection or #urban plaza#. Design requirements and, where applicable, the maximum amount of each space that may be counted towards the minimum pedestrian circulation space requirement are set forth in Section 37-07 (Requirements for Pedestrian Circulation Space).

In addition, the following may be counted towards meeting the minimum pedestrian space requirement:

(a)up to a maximum of 3,000 square feet of an access improvement to rail mass transit, provided pursuant to Section 81-48 (Off-street Improvement of Access to Rail Mass Transit Facility); and

(b)within the Theater Subdistrict, theater waiting space provided pursuant to Section 81-451.

However, pedestrian circulation space shall not be required if any of the following conditions exist:

(1)the #zoning lot# is entirely occupied by a #building# of no more than one #story# in height;

(2)the #zoning lot# is an #interior lot# fronting on a #wide street# with less than 80 feet of #street frontage#;

(3)the #zoning lot# is an #interior# or #through lot# fronting only on a #street# or #streets# where arcades, sidewalk widenings or #urban plazas# are prohibited;

(4)the #zoning lot# is an #interior lot# fronting on either 34th Street, 42nd Street, 57th Street or Fifth Avenue, with another interior frontage of lesser length on any other #street#; or

(5)the #zoning lot# is a #through lot# with both #street frontages# less than 25 feet in lengtH.

New #developments# or #enlargements# on a #zoning lot# having a full #block# frontage on a #wide street# other than Fifth Avenue, 42nd Street, 34th Street or 57th Street shall provide a minimum of 50 percent of their required pedestrian circulation space on that #street#. In the case of a #zoning lot# having two full #block# frontages on #wide streets#, this minimum amount may be allocated on either one or both #wide streets#; where each #street# bounding a #zoning lot# with at least one full #block# frontage is a #wide street#, the minimum amount may be allowed on one or more of those #wide streets#.

Where pedestrian circulation space is provided along Seventh Avenue or Broadway between 43rd and 50th Streets, #signs# and marquees shall be permitted as exceptions to the requirements relating to obstructions or permitted obstructions in Section 37-07 (Requirements for Pedestrian Circulation Space).

Special dimensional requirements for arcades and sidewalk widenings along designated #streets# are set forth in Section 81-43 (Street Wall Continuity along Designated Streets). Where a new #building# or #enlarged# portion of an existing #building# provides an arcade, no obstructions, including columns, shall be permitted within such arcade, and the maximum height of such arcade shall be 20 feet and the maximum width shall be 10 feet. Arcades or sidewalk widenings shall not be permitted on 34th Street, 42nd Street, 57th Street or Fifth Avenue frontages or on any #street# frontage within the Preservation Subdistrict. Between 43rd and 50th Streets, no arcades shall be permitted parallel to and along Seventh Avenue or Broadway.

Theater waiting space

(Delete existing text.) Previous text incorporated into new Section 37-07.

Theater waiting space shall be an unobstructed area providing outdoor waiting space for a theater audience, located immediately adjacent to the sidewalk and to a theater listed in Section 81-742 (Listed Theaters) or a new theater designed and intended to show live theatrical performances. Theater waiting space may be located on the same #zoning lot# occupied by a theater or a #zoning lot# immediately adjacent to a theater, and shall meet the following requirements:

(a)such space shall adjoin and open onto a sidewalk or sidewalk widening for its entire length and shall have a minimum length of 30 feet measured

parallel to the #street line# and a minimum clear depth of 10 feet measured perpendicular to the #street line# exclusive of any columns. Its level shall be entirely the same as that of the adjoining sidewalk. When located under an overhanging portion of a #building or other structure#, it shall have a minimum clear height of 15 feet and be free of any obstructions except for #building# columns;

(b)such space shall provide direct access to a #building's# entrance or the theater's lobby. Where the theater and the theater waiting space are on separate #zoning lots#, a plaque shall be provided within the theater waiting space adjacent to the theater stating that the space is available as a waiting area for the theater audiencE. Such plaque shall be placed between four feet and six feet above #curb level#, and shall be visible from the sidewalk;

(c)such space shall not adjoin a driveway or an off-#street# loading berth;

(d)the entire theater waiting space shall be illuminated with a minimum level of not less than eight horizontal foot-candles (*lumens per foot*).

The theater waiting space may overlap with an arcade, a building entrance recess area, a corner arcade, a corner circulation space or a a sidewalk wideninG. However, the area of overlap may only be counted once toward the fulfillment of the required minimum area of pedestrian circulation spacE.

GENERAL PURPOSES

The "Special Lower Manhattan District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

(a)Encourage development of a 24-hour community through the conversion of older commercial buildings to residential use;

(b) Facilitate maximum design flexibility of buildings and enhance the distinctive skyline and streetscape of Lower Manhattan;

(c) Improve public use and enjoyment of the East River waterfront by creating a better physical and visual relationship between development along the East River and the waterfront area, public access areas and the adjoining upland community;

(d) Enhance the pedestrian environment by relieving sidewalk congestion and providing pedestrian amenities;

(e) Restore, preserve and assure the use of the South Street Seaport Subdistrict as an area of small historic and restored buildings, open to the waterfront and having a high proportion of public spaces and amenities, including a South Street Seaport Environmental Museum, with associated cultural, recreational and retail activities;

(f) Establish the Historic and Commercial Core to protect the existing character of this landmarked area by promoting development that is *harmonious with the existing scale and* street configuration; and

(g) Promote the most desirable use of land and thus conserve and enhance the value of land and buildings, and thereby protect the City's tax revenues.

91-01
General Provisions

Except as modified by the express provisions of this District, the regulations of the underlying zoning districts shall remain in effect.

Requirements that apply generally throughout the #Special Lower Manhattan District# are set forth in the provisions for this Chapter. The provisions of Section 91-40 (MANDATORY DESIGN PLAN ELEMENTS) specify planning and urban design features to be provided in connection with new #developments# or #enlargements# that are primarily oriented toward the accommodation and well-being of pedestrians. For requirements that are not generally applicable but are tied to specific locations within the Special District, the locations where these requirements apply are shown on District Map 2 (Street Wall Continuity Types 1, 2 & 3), Map 3 (Street Wall Continuity Types 4 & 5), Map 4 (Designated Retail Streets) and Map 5 (Curb Cut Prohibitions) in Appendix A.

The provisions of Article VI, Chapter 2 (Special Regulations in the Waterfront Area) shall apply to all areas of the #waterfront area# within the #Special Lower Manhattan District#, except as otherwise provided in Section 91-60 (REGULATIONS FOR THE SOUTH STREET SEAPORT SUBDISTRICT) for Piers 9, 11, 13 and 14. Piers 9, 11, 13 and 14 are shown on Maps 1 and 6 in Appendix A.

An existing public amenity, open or enclosed, that was a mandatory requirement or received a #floor area# bonus pursuant to the provisions of the former Special Greenwich Street Development District, eliminated on (effective date of amendment), shall not be removed, reduced in size or in any way altered, other than pursuant to the provisions of Section 91-71 (Authorization for the Modification of Required Public Amenities).

Special regulations governing the development of three specific sites in the Special Lower Manhattan District are set forth in the following Sections:

Section 91-72(Certification for Development on the Block bounded by Liberty, Washington, Cedar and West Streets)

Section 91-73 (Special Permit for Development over the Approaches to the Brooklyn Battery Tunnel)

Section 91-74 (Special provisions for Battery Park Underpass/South Street).

91-04
Subdistrict and Core Areas

In order to carry out the purposes and provisions of this Chapter, the South Street Seaport Subdistrict and the Historic and Commercial Core are established within the #Special Lower Manhattan District# and include specific regulations designed to advance the purpose of these areas:

(a) The South Street Seaport Subdistrict

The South Street Seaport Subdistrict contains certain provisions that do not apply to other areas of the Special District. Except as otherwise provided in the Subdistrict regulations, the Subdistrict is subject to all other regulations of the #Special Lower Manhattan District# and the underlying districts. The requirements for the South Street Seaport Subdistrict are set forth in Section 91-60 (SPECIAL REGULATIONS FOR THE SOUTH STREET SEAPORT SUBDISTRICT).

The Subdistrict is shown on Map 1 (Special Lower Manhattan District) and Map 6 (South Street Seaport Subdistrict) in Appendix A.

(b) The Historic and Commercial Core

The Historic and Commercial Core has been established to promote #development# compatible with existing #buildings# that border the area whose street plan has been accorded landmark status by the New York City Landmarks Commission as the Streetplan of New Amsterdam and Colonial New York. Height and setback provisions for the Historic and Commercial Core are set forth in Sections 91-31 through 91-33.
The Core is bounded by Broadway and Wall, Whitehall and Water Streets, as shown on Map 1 (Special Lower Manhattan District) in Appendix A.

91-05
Applicability of the Quality Housing Program

Within the #Special Lower Manhattan District#, #residential buildings# or the #residential# portion of a #mixed building# may be #developed# or #enlarged# in accordance with the provisions of Article II, Chapter 8 (The Quality Housing Program), except that the #bulk# regulations of Section 28-11 shall be superseded by the #bulk# regulations of this Chapter. Recreation space required pursuant to Section 28-30 (RECREATION SPACE AND PLANTING AREAS) shall be in addition to any recreation space required pursuant to this Chapter.

91-06
Applicability of Article VII Provisions

91-061
Applicability of special permits by the Board of Standards and Appeals

Within the #Special Lower Manhattan District#, the following Board of Standards and Appeals special permits shall not be applicable or shall be applicable only as modified:

The following special permit by the Board of Standards and Appeals shall not be applicable:

Section 73-68
(Modifications of Height, Setback and Rear Yard Regulations)

The following special permits by the Board of Standards and Appeals shall be applicable as modified:

Section 73-21(Automotive Service Stations) shall not apply on #zoning lots# with frontage on any #street# listed on Map 2 (Streets Where Street Wall Continuity Is Required) or Map 4 (Designated Retail Streets) in Appendix A

Section 73-244 (In C2, C3, C4*, M1-5A, M1-5B, M1-5M and M1-6M Districts and the Special Tribeca Mixed Use District) shall also apply in C5 Districts to eating or drinking establishments with entertainment, including musical entertainment or dancing, and a capacity of more than 200 persons.

91-062
Applicability of special permits by the City Planning Commission

Within the #Special Lower Manhattan District#, the following City Planning Commission special permits shall not be applicable or shall be applicable within C5 Districts, as follows:

The following special permits by the City Planning Commission shall not be applicable:

Section 74-721(Modification of Height, Setback and Yard Regulations)

Section 74-722 (Special Floor Area Regulations)

The following special permits by the City Planning Commission shall be applicable also within C5 Districts:

Section 74-41 (Arenas, Auditoriums, Stadiums or Trade Expositions)

Section 74-46 (Indoor Interactive Entertainment Facilities).

91-10
SPECIAL USE REGULATIONS

91-11
Modification of Use Regulations in C5 Districts

91-111
Additional uses in C5 Districts

In addition to the special permit #uses# cited in Section 91-05, the #use# regulations for C5 Districts within the #Special Lower Manhattan District# are modified to permit the following #uses#:

From Use Group 7:

Use Groups 7B and 7E

From Use Group 8:

Use Groups 8A*, 8B and 8E

From Use Group 12:

Use Groups 12A**, 12B, 12C and 12E

* inclusive of the waiting area requirements for theaters as listed in Use Group 8A.
** except for eating or drinking establishments as listed in Use Group 12A.

91-112
Eating and drinking establishments with dancing in C5 Districts

In all C5 Districts within the Special District, in addition to eating and drinking establishments permitted pursuant to Section 32-15 (Use Group 6), the following types of eating and drinking establishments shall be permitted:

Eating or drinking establishments with entertainment, including musical entertainment or dancing, with a total capacity of 200 persons or fewer, shall be permitted, provided that the dance floor or area, if any, does not exceed 400 square feet. The locational and waiting area requirements for eating or drinking establishments of Section 73-244 (In C2, C3, C4*, M1-5A, M1-5B, M1-5M and M1-6M Districts and the Special Tribeca Mixed Use District) shall apply.

Eating or drinking establishments with entertainment, including musical entertainment or dancing, with a capacity of more than 200 persons shall be permitted, pursuant to the provisions of Section 73-244, as modified in Section 91-051 (Applicability of special permits by the Board of Standards and Appeals).

91-113
Location of certain commercial uses

In C5 Districts within the Special District#, the provisions of Section 32-423 (Limitation on ground floor location) shall not apply.

91-12
Uses on Designated Retail Streets

On designated retail #streets#, as shown on Map 4 in Appendix A, for any #development# or #enlargement# fronting on such #streets#, #uses# located on the ground floor level, or within five feet of #curb level#, shall be limited to only those #uses# permitted by the underlying regulations and Section 91-111 (Additional uses in C5 Districts), other than automobile showrooms or plumbing, heating or ventilating equipment showrooms or any of the #uses# listed in Use Groups 6B, 6E, 7C, 7D, 8C, 8D, 9B, 10B, 11 or 12D.

91-13
Sign Regulations

In the #Special Lower Manhattan District#, except as modified by the provisions of this Section, the regulations of Section 32-60, et. seq. pertaining to #signs#, shall apply.

91-131
Illuminated signs in C5 Districts

In all C5 Districts within the Special District, not more than one #illuminated#, non-#flashing sign#, other than an #advertising sign#, with a total #surface area# not exceeding eight square feet shall be permitted for each #street# frontage of the #zoning lot#. Such #sign# may be located only within a window of a #building#.

91-132
Banner regulations

In all C5 and C6 Districts within the Special District, in lieu of the provisions of Section 32-652 (Permitted projection in all other Commercial Districts), banners may project across a #street line# for a maximum distance of eight feet.

In C5-3 or C5-5 Districts within the Special District, in lieu of the provisions of Section 32-655 (Height of signs in all other Commercial Districts), banners may extend above #curb level# to a maximum height of 40 feet.

91-20
FLOOR AREA AND DENSITY REGULATIONS

91-21
Floor Area Regulations For Residential Buildings and the Residential Portion of Mixed Buildings

91-211
Maximum floor area ratio for residential uses

Within the #Special Lower Manhattan District#, the maximum #floor area ratio# for a #residential building# or the #residential# portion of a #mixed building# shall be determined in accordance with the regulations of the underlying district and may not be increased except as provided in Sections 91-212 (Floor area increase in a C6-4 District) or 91-213 (Floor area increase for provision of recreation space).

In a C4-6 District, the maximum #floor area ratio# for a #residential building# or the #residential# portion of a #mixed building# shall be 3.4.

91-212
Floor area increase in a C6-4 District

In a C6-4 District, except within the South Street Seaport Subdistrict, the #residential floor area# of a #building# may exceed 10.0 in accordance with the provisions of Section

23-90 (INCLUSIONARY HOUSING) or Section 91-241 (Floor area bonus for urban plazas), provided that the maximum #residential #floor area# ratio shall not exceed 12. 0.

91-213
Floor area increase for provision of recreation space

In C5-3, C5-5 and C6-9 Districts, the #residential floor area# of a #building# may be increased to 12. 0, provided that the #building# includes recreation space for the #residential# occupants in an amount not less than 13 square feet for each #rooming unit#, 16.25 square feet for each #dwelling unit#, or a total area of at least 5,000 square feet, whichever is greater.

Such recreation space may be located at any level, including a roof, and shall:

(a)be restricted to #residential# occupants of the #building# and their guests for whom no admission or membership fees may be charged;

(b)be directly accessible from a lobby or other public area served by the #residential# elevators;

(c)be landscaped, including trees or shrubbery, except where covered or developed with recreational facilities and seating areas;

(d)contain not less than 500 square feet of continuous area on a single level with no dimension of less than 15 feet; and

(e)have not less than 50 percent of the area open from its lowest level to the sky. The remaining portion may be roofed and up to 50 percent of its perimeter may be encloseD. In no event may more than 25 percent of the required recreation space be fully encloseD. All enclosures shall be transparent except when located within the #building#. Covered areas shall contain recreation facilities or seating areas.

A copy of requirements (a) through (e) shall be permanently posted in a conspicuous place within each recreation spacE.

91-22
Density Regulations for Residential Buildings and the Residential Portion of Mixed Buildings

The #Special Lower Manhattan District#, the #lot area# requirements of Sections 23-20 (DENSITY REGULATIONS – REQUIRED LOT AREA PER DWELLING UNIT, LOT AREA PER ROOM OR FLOOR AREA PER ROOM) and 35-41 (Lot Area Requirements for Non-Residential Portions of Mixed Buildings) and the provisions of Section 35-42 (Density or Lot Area Bonus in Mixed Buildings) shall not apply to any #residential# or #mixed building development#. In lieu thereof, the minimum average size of #dwelling units# or #rooming units# shall be determined by the following tablE.

Each #dwelling unit# shall contain at least 400 square feet of #floor area# except that this requirement shall not apply to #non-profit residences for the elderly#.

MINIMUM AVERAGE SIZE OF DWELLING UNITS OR ROOMING UNITS

#Dwelling Units# District	#Rooming Units# (in sq. ft.)	(in sq. ft.)
R8 (or commercial equivalent)	**740**	**530**
R10 (or commercial equivalent)	**790**	**600**

The maximum number of #dwelling units# or #rooming units# for #non-profit residences for the elderly# may be increased over the amount of #dwelling units# or #rooming units# permitted by this Section by up to 10 percent.

91-23
Floor Area Regulations for Non-Residential and Mixed Buildings

For non-#residential buildings# or #mixed buildings# within the #Special Lower Manhattan District#, the basic maximum #floor area ratio# of the underlying district may be increased by the inclusion of specific additional bonus #floor area# for a maximum #floor area ratio# as specified on the following chart.

The provisions of paragraph (c) of Section 74-792 (Conditions and limitations), pertaining to the transfer of development rights from landmark sites, shall be subject to the restrictions on the transfer of development rights (FAR) of a landmark "granting lot" as set forth in the following tablE. Wherever there may be an inconsistency between any provision in Section 74-79 and the following table, the provisions of the table shall apply.

SEE MAPS ON BACK PAGES

91-24
As-of-Right Bonuses for Increased Floor Area

Within the #Special Lower Manhattan District#, as-of-right bonuses for increased #floor area# are allowed only in accordance with the provisions of this Section.

91-241
Floor area bonus for urban plazas

The maximum permitted #floor area# on a #zoning lot# may be increased in accordance with the following regulations, provided that an #urban plaza#, which shall meet the requirements of Section 37-04 (Requirements for Urban Plazas), is included in the #development# or #enlargement#.

(a)A #floor area# bonus for an #urban plaza# shall not be permitted for any #development# or #enlargement# located within:

(1)the Historic and Commercial Core;

(2)the South Street Seaport Subdistrict; or

(3) 50 feet of a #street line# of a designated #street# on which:

(i)retail continuity is required pursuant to Section 91-41 (Regulations for Designated Retail Streets), or;

(ii)#street wall# continuity is required pursuant to the regulations for Type 1 or Type 2 #street walls# pursuant to Section 91-31 (Street wall Regulations).

(b)For each square foot of an #urban plaza#, the basic maximum #floor area# permitted by Section 91-23 (Floor Area Regulations for Non-Residential and Mixed Buildings) may be increased, in C6-4 Districts, by six square feet to a maximum #floor area# ratio of 12. 0; and, in C5-3, C5-5 and C6-9 Districts, by ten square feet to a maximum #floor area# ratio of 18.0.

(c)When an #urban plaza# that meets the requirements for a #floor area# bonus is located on a #zoning lot# divided by a district boundary, the bonusable #floor area# may be credited to either portion of the #zoning lot#, notwithstanding the location of the #urban plaza# or the date of the creation of the #zoning lot#. The amount of bonusable #floor area# permitted on either portion of the #zoning lot# shall not exceed the maximum amount of #floor area# permitted on such portion if it were a separate #zoning lot# subject to all other provisions of Article VII, Chapter 7.

91-242
Floor area bonuses for improvements on the block bounded by Liberty, Washington, Cedar and West Streets

For any #development# on the #block# bounded by Liberty, Washington, Cedar and West Streets within the former #Special Greenwich Street Development District#, certain improvements, as certified by the City Planning Commission, shall be eligible for as-of-right bonuses for #floor area#, pursuant to the provisions of Section 91-72.

91-25
Special Permit Bonuses for Increased Floor Area

Within the #Special Lower Manhattan District#, the City Planning Commission may grant the following special permits for increased #floor area# in accordance with the provisions of this Section.

91-251
Special permit for subway station improvements

Within the #Special Lower Manhattan District#, the City Planning Commission may grant, by special permit, a #floor area# bonus for #buildings# that provide subway station improvements, pursuant to the provisions of Section 74-634 (Subway station improvements in commercial zones of 10 FAR and above in Manhattan).

The total additional #floor area# permitted on the #zoning lot# shall not exceed the maximum amount permitted in the underlying district by the provisions of Sections 91-21 (Floor Area Regulations For Residential Buildings and the Residential Portion of Mixed Buildings) or 91-23 (Floor Area Regulations for Non-Residential and Mixed Buildings).

For the purposes of the Special District, the #zoning lot# for the #development# or #enlargement# that will receive the #floor area# bonus shall be located within a #Commercial District# with a #floor area ratio# of 10.0 or above and shall be adjacent to a subway station where major improvements have been provideD. Upon completion of the improvement, the #zoning lot# will physically adjoin a subway station mezzanine, platform, concourse or connecting passageway.

The subway stations where such improvements are permitted are listed in the following table and shown on Map 7 (Subway Station Improvement Areas) in Appendix A.

91-252
Special permit for covered pedestrian space

In C5-3, C5-5, C6-4 and C6-9 Districts within the #Special Lower Manhattan District#, except within the South Street Seaport Subdistrict, the City Planning Commission may grant, by special permit, a #floor area# bonus for a #commercial# or #community facility development# or #mixed building# that provides #covered pedestrian space# on a #zoning lot#, in accordance with the provisions of Section 74-87 (Covered Pedestrian Space).

The total additional #floor area# permitted on the #zoning lot# shall not exceed the maximum amount permitted in the underlying district by the provisions of Sections 91-21 (Floor Area Regulations For Residential Buildings and the Residential Portion of Mixed Buildings) and 91-23 (Floor Area Regulations for Non-Residential and Mixed Buildings).

91-30
HEIGHT AND SETBACK AND LOT COVERAGE REGULATIONS

For all #buildings or other structures# in the #Special Lower Manhattan District#, the height and setback regulations of the underlying districts are superseded by the regulations of this Section.

The height of all #buildings or other structures# shall be measured from #curb level#.

91-31
Street Wall Regulations

Within the #Special Lower Manhattan District#, all portions of #buildings or other structures# located above the maximum base heights specified in paragraph (a) of this Section shall provide a setback in accordance with the regulations of Section 91-32 (Setback Regulations).

(a)Within the Special District, the maximum base height shall be 85 feet or 1.5 times the width of the #street# upon which the #building# fronts, whichever is greater, except as provided for the following types of #street wall# regulations:

(1)#Street wall# regulations: Type 1

For #developments# or #enlargements# that front upon a #street# indicated as "Type 1" on Map 2 (Street Wall Continuity Types 1, 2 & 3) in Appendix A, #street walls# shall extend along the entire #street# frontage of the #zoning lot# to a minimum base height of 150 feet or the height of the #building#, whichever is less. The maximum base height shall be 250 feet.

(2) #Street wall# regulations: Type 2

For #developments or enlargements# that front upon a #street# indicated as "Type 2" on Map 2 (Street Wall Continuity Types 1, 2 & 3) in Appendix A, #street walls# shall extend along the entire #street# frontage of the #zoning lot# to a minimum base height of 85 feet or the height of the #building#, whichever is less. The maximum base height shall be 150 feet.

(3)#Street wall# regulations: Type 3

For #developments or enlargements# that front upon a #street# indicated as "Type 3" on Map 2 (Street Wall Continuity Types 1, 2 & 3) in Appendix A, #street walls# shall extend along the entire #street# frontage of the #zoning lot# to a minimum base height of 60 feet, five stories, or the height of the #building#, whichever is less. The maximum base height shall be 85 feet or 1.5 times the width of the #street# upon which the #building# fronts, whichever is greater.

(4)#Street wall# regulations: Type 4

For #developments# or #enlargements# that front upon a #street# within the Historic and Commercial Core, indicated as "Type 4" on Map 3 (Street Wall Continuity Types 4 & 5) in Appendix A, the maximum base height shall be 100 feet.

(5)#Street wall# regulations: Type 5

For #developments# or #enlargements# that front upon a #street# indicated as "Type 5" on Map 3 (Street Wall Continuity Types 4 & 5) in Appendix A, no setbacks are required for any portion of a #building#.

(b)For #developments# or #enlargements# that front upon a #street# indicated as "Type 1" or "Type 2," at least 70 percent of the #aggregate width of street walls# shall be located on such #street line#. For #developments# or #enlargements# that front upon a #street# indicated as "Type 3," at least 70 percent of the #aggregate width of street walls# shall be located within 10 feet of the #street line#. The remaining 30 percent of the #aggregate width of street walls# may be located beyond such #street lines# in compliance with:

(1)the #outer court# regulations of Article II, Chapter 3, for #residential# portions of #buildings#; or

(2)the #outer court# regulations of Article II, Chapter 4, for all other portions of #buildings#; or

(3)the requirements of Section 37-07 (Requirements for pedestrian circulation space) where such areas are pedestrian circulation spaces.

(c)When a #building# fronts on two intersecting #streets# for which different maximum base heights are specified, the higher maximum base height may wrap around to the #street# with the lower maximum base height for a distance along the #street line# of 100 feet. However, "Type 5" #street walls# shall not be permitted to wrap around to the intersecting #street#.

(d)Arcades and sidewalk widenings shall be permitted along any #street# indicated as "Type 1," "Type 2" or "Type 3," pursuant to paragraphs (a), (b) or (c) of this Section, provided such arcade or sidewalk widening extends along the entire #block# frontage or abuts another arcade, existing on (effective date of amendment), of equal width and height or another sidewalk widening of equal widtH. In such case, the #street wall# requirements for paragraph (b) of this Section shall be measured from the permitted arcade or sidewalk wideninG.

91-311
Modification of streetwall regulations

Within the #Special Lower Manhattan District#, the City Planning Commission, by special permit, may modify the locational requirements and minimum base heights of Section 91-31 (Street Wall Regulations), provided that the Commission finds such change will:

(a)produce an improved site plan consistent with existing scale and #street# configuration patterns;

(b)enhance pedestrian circulation by providing pedestrian amenities that relieve sidewalk congestion; and

(c)ensure a more harmonious relationship between the #development# and the surrounding areA.

91-32
Setback Regulations

Within the #Special Lower Manhattan District#, setbacks are required for any portion of a #building# that exceeds the maximum base heights specified for the applicable #street# in Section 91-31 (Street Wall Regulations).

Required setbacks shall be provided at a height not lower than any minimum base height and not higher than any maximum base height specified for the applicable #street# in Section 91-31. The depth of the setback shall be determined by the #lot area# of the #zoning lot# on which the #building# is located, as shown in the following table:

REQUIRED DEPTH OF SETBACKS

#Lot area# of #zoning lot#	Minimum setback depth
Less than 15,000 square feet	**10 feet**
15,001 to 30,000 square feet	**15 feet**
Greater than 30,000 square feet	**20 feet**

For "Type 1" and "Type 2" #street walls#, the required setbacks shall be measured from the #street line# at the maximum base height.

For "Type 3" #street walls#, the required setbacks shall be measured from a line drawn at or parallel to the #street line# so that at least 70 percent of the #aggregate width of street walls# of the #building# at the maximum base height are within such line and the #street line#.

For all other #street walls#, the required setbacks shall be measured from a line drawn at or parallel to the #street line# so that at least 50 percent of the #aggregate width of street walls# of the #building# at the maximum base height are within such drawn line and the #street line#. However, setbacks are not required for #street walls# fronting upon the major portion of a bonused #urban plaza#.

For #buildings within the Historic and Commercial Core as shown on Map 1 in Appendix A, any #building# or portion of a #building# may be located within the required setback area beneath a #sky exposure plane# that rises from a height of 100 feet above the #street line# over the #zoning lot# at a vertical distance of six to a horizontal distance of onE.

91-33
Lot Coverage Regulations

Except within the Historic and Commercial Core, any #development# or #enlargement#, or portion thereof, shall have a maximum #lot coverage# of 65 percent of the #lot area# of the #zoning lot# above the maximum base height specified in Section 91-31 (Street Wall Regulations), up to a height of 300 feet. Above a height of 300 feet, any #development# or #enlargement# or portion thereof shall have a maximum #lot coverage# of 50 percent of the #lot area# of the #zoning lot#.

Within the Historic and Commercial Core, any #development# or #enlargement#, or portion thereof, shall have a maximum #lot coverage# of 75 percent of the #lot area# of the #zoning lot# above the maximum base height specified in Section 91-31, up to a height of 300 feet. Above a height of 300 feet, any #development# or #enlargement# or portion thereof shall have a maximum #lot coverage# of 60 percent of the #lot area# of the #zoning lot#.

For #developments# or #enlargements# fronting on more than one #street# where different maximum base heights are specified, the maximum #lot coverage# regulations specified in this Section, up to a height of 300 feet, shall apply above the lowest maximum base height specified for such #developments# or #enlargements#.

91-34
Maximum Horizontal Dimension for Tall Buildings

For any portion of a #development# or #enlargement# above a height of 300 feet, the maximum horizontal dimension, measured in any direction, shall not exceed 175 feet.

91-40
MANDATORY DISTRICT PLAN ELEMENTS

91-41
Regulations for Designated Retail Streets

91-411
Location of required retail space

For any #development# or #enlargement# fronting on the ground floor level of designated retail #streets#, as shown on Map 4 in Appendix A, the #street# frontage of the #building# shall be allocated exclusively to the #uses# set forth in Section 91-12 (Uses on Designated Retail Streets). However, #uses# located within lobby or entrance spaces, subway station improvements or pedestrian circulation spaces that do not front on the ground floor level of the #street# shall be in accordance with the provisions for permitted #uses# of the underlying district.

Where the #street# frontage occupied by all building entrances is 20 feet or more in width, the amount of #street# frontage occupied by lobby space, entrance space and/or a building entrance recess shall not exceed, in total, 40 linear feet or 25 percent of the building's total #street# frontage, whichever is less, exclusive of any frontage occupied by a relocated subway stair or the entrance area to a bonused subway station improvement.

Storefronts for permitted ground floor #uses# shall be no more than 10 feet from the #street line# or, where an #arcade# is provided with supporting columns at the #street line#, no more than 10 feet from the supporting columns.

91-412
Access and glazing of required retail space

Access to each permitted establishment or #use# shall be provided directly from the designated retail #street#, as shown on Map 4 in Appendix A. Where there is more than one entrance to the establishment or #use# from the designated retail #street#, direct access shall be provided via the entrance with the greatest aggregate clear opening widtH.

At least 50 percent of the #street wall# surface of each permitted establishment or #use# shall be glazed with clear untinted transparent material and not more than 50 percent of such transparent surface shall be painted or obstructed with #signs#.

For the purposes of this glazing requirement, the #street wall# surface of each permitted establishment shall be measured from the floor to the height of the ceiling or 14 feet above grade, whichever is less.

91-42
Pedestrian Circulation Space

Within the boundaries of the #Special Lower Manhattan District#, all new #developments# or #enlargements# on #zoning lots# of at least 5,000 square feet that contain more than 70,000 square feet of new #floor area# shall provide pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

Pedestrian circulation space shall not be required if any of the following conditions exist:

(a) the #zoning lot# is entirely occupied by a #building# of no more than one #story# in height;

(b) the #zoning lot# is an #interior lot# fronting on a #wide street# with less than 80 feet of #street frontage#;

(c) the #zoning lot# is an #interior# or #through lot# fronting on a #street# or #streets# listed in paragraph (a) of Section 91-31 (Street Wall Regulations);

(d) the #zoning lot# is a #through lot# and both #street frontages# are less than 25 feet in lengtH.

91-43
Off-Street Relocation or Renovation of a Subway Stair

Where a #development# or #enlargement# is constructed on a #zoning lot# that contains at least 5,000 square feet of #lot area# and fronts on a sidewalk containing a stairway entrance or entrances into a subway station, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. The new entrance or entrances shall be provided in accordance with the provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair). A relocated or renovated subway stair may be counted as pedestrian circulation space in accordance with the provisions of Section 37-07 (Requirements for Pedestrian Circulation Space).

The subway stations where such improvements are required are listed in the following table and shown on Map 7 (Subway Station Improvement Areas) in Appendix A.

OFF-STREET PARKING, LOADING AND CURB CUT REGULATIONS

The off-street parking regulations of Article 1, Chapter 3 (Comprehensive Off-Street Parking Regulations in Community Districts 1, 2, 3, 4, 5, 6, 7 and 8 in the Borough of Manhattan and a Portion of Community Districts 1 and 2 in the Borough of Queens) and the loading regulations of the underlying districts apply to the #Special Lower Manhattan District#, except as supplemented or modified by the provisions of this Section.

91-51
Accessory Off-Street Parking for Residential Uses in Converted Buildings

#Accessory# off-street parking spaces shall be permitted for #dwelling units# in non-#residential buildings# erected prior to January 1, 1977, or portions thereof, that are converted to #residential use#, provided:

(a) no more than 200 spaces or a number of spaces equal to 20 percent of the number of #dwelling units# on the #zoning lot#, whichever is less, shall be permitted;

(b) no curb cut shall be permitted on any #street# where the converted #building# has a #street# frontage of 40 feet or less;

(c) no portion of any such parking facility shall be more than 23 feet above #curb level#;

(d) no exhaust vents shall open onto any #street# or #public park# or publicly accessible #open space#, and no portion of the parking facility, other than entrances and exits, shall be visible from adjoining #zoning lots#, #streets# or parks; and

(e) all such parking facilities shall be provided on the same #zoning lot# as the #residential uses# to which they are #accessory#, except as otherwise provided in Section 91-511 (Authorization for off-site parking facilities for converted buildings).

91-511
Authorization for off-site parking facilities for converted buildings

The City Planning Commission may authorize #accessory# residential off-site parking spaces for non-#residential buildings# erected prior to January 1, 1977, or portions thereof, that are converted to #residential use#, to be provided in a fully-enclosed #building# on a #zoning lot# within the #Special Lower Manhattan District# other than the #zoning lot# that contains the #residential use#, provided the Commission finds that:

(a) such #accessory# off-site parking spaces are conveniently located in relation to the #residential use#, and in no case further than 600 feet from the #zoning lot# containing the #residential use#;

(b) such location of the #accessory# off-site parking facility will permit better site planning for the #building# converted to #residential use#;

(c) the #accessory# off-site parking facility will not create or contribute to traffic congestion or unduly inhibit vehicular and pedestrian movement;

(d)that the #accessory# off-site parking facility is located so as to draw a minimum of additional vehicular traffic to and through local #residential streets#; and
(e)that such #accessory# off-site parking facility shall contain parking spaces #accessory# only to #residential uses#.

The number of #accessory# off-site parking spaces authorized in accordance with the provisions of this Section shall be recorded on the certificates of occupancy, temporary and permanent, for both the #residential use# and the #accessory# off-site parking facility.

91-52
Curb Cut Regulations

All curb cuts shall be prohibited on #streets# indicated on Map 5 (Curb Cut Prohibitions) in Appendix A, except that:

(a) the Commissioner of Buildings may approve a curb cut where there are no alternative means of access to required off-street loading berths from other #streets# bounding the #zoning lot#; and

(b) the City Planning Commission may authorize curb cuts for loading berths provided:

(1) such loading berths are adjacent to a fully enclosed maneuvering area on the #zoning lot#;

(2) such maneuvering area is at least equal in size to the area of the loading berth; and

(3) there is adequate space to permit head-in and head-out truck movements to and from the #zoning lot#.

The City Planning Commission may refer such applications to the Department of Transportation for comment.

No curb cuts may be approved or authorized on Battery Place, Broad Street, Broadway, Liberty Street west of Broadway, Park Row South or Wall Street.

Where a curb cut is approved or authorized pursuant to this Section, the maximum width of a curb cut, including splays, shall be 15 feet for a #street# with one-way traffic and 25 feet for a #street# with two-way traffiC.

The Special South Street Seaport District (88-00) has been deleted and the text has been incorporated into the Lower Manhattan text as a subdistrict. Changes are shown using greytone and strikeout but all of Section 91-60 shall be considered new text as part of the proposed Special Lower Manhattan District.

91-60
REGULATIONS FOR THE SOUTH STREET SEAPORT SUBDISTRICT

88-0091-61
***GENERAL PURPOSES* General Provisions**

The "Special South Street Seaport District" (hereinafter also referred to as the "District") established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity and to implement the provisions of the Brooklyn Bridge Southeast Urban Renewal Plan, as amended (the "Urban Renewal Plan"). **The regulations of Sections 91-60, et. seq., relating to special regulations for the South Street Seaport Subdistrict are applicable only in the South Street Seaport Subdistrict. The boundaries of the South Street Seaport Subdistrict are shown on Map 1 (Special Lower Manhattan District) and Map 6 (South Street Seaport Subdistrict) in Appendix A. The regulations of Section 91-60, et. seq., supplement or modify the regulations of this Chapter applying in general to the South Street Seaport Subdistrict area of the #Special Lower Manhattan District#.**

In order to preserve and protect the character of the South Street Seaport Subdistrict and to implement the provisions of the Brooklyn Bridge Southeast Urban Renewal Plan, as amended, special controls and incentives are provideD.

The provisions of Article VI, Chapter 2 (Special Regulations in the Waterfront Area), shall apply to #waterfront zoning lots# within the South Street Seaport Subdistrict. The provisions of paragraph (c) of Section 74-792 (Conditions and limitations) concerning the transfer of development rights from landmark sites in C5-3, C5-5, C6-6, C6-7 or C6-9 Districts shall not apply in the South Street Seaport Subdistrict.

These general goals include, among others, the following purposes:

(a)to encourage the preservation, restoration and, in certain cases, redevelopment of real property and buildings thereon within the Brooklyn Bridge Southeast Urban Renewal Area into a South Street Seaport Environmental Museum having associated cultural, recreational and retail activities;

(b)to preserve and encourage the restoration of the Schermerhorn Row Landmark Buildings which have been so designated by the New York City Landmarks Preservation Commission;

(c)to assure the use of the South Street Seaport area as an area of small historic and restored buildings, open to the waterfront, having a high proportion of public spaces and amenities, which would serve as an urban retreat from the neighboring commercial office buildings and activity of lower Manhattan;

(d)as a means of accomplishing the aforesaid purposes, to permit the transfer and disposition of development rights from designated granting lots in the Seaport area to South Street commercial development in a manner consistent with the provisions of this District; and

(e)to promote the most desirable use of land in accordance with the Urban Renewal Plan and thus to conserve and enhance the value of land and buildings, and thereby protect the City's tax revenues.

Transfer *District* Areas Map

The South Street Seaport Subdistrict ***t*****Transfer *District* areas m*Map*, *attached* shown** hereto as **Map 6 of** Appendix A ***and made an integral part hereof***, sets forth each #granting lot# and #receiving lot# within the **Subd*D*istrict.**

88-0491-64
Transfer of Development Rights from Granting Lots

Within the South Street Seaport Subdistrict, #*D*development rights# from each of the #granting lots# may be conveyed, or otherwise disposed of:

(a) directly to a #receiving lot#; or

(b) to a #person# for subsequent disposition to a #receiving lot#, all in accordance with the provisions of this **Subd*D*istrict**, except that with respect to #zoning lots# located on **Parcels 6, 7, and 9, as identified on *the Transfer District* Map 6 in Appendix A,** only those #development rights# in excess of **the larger of the following conditions may be so conveyed or otherwise disposed of:**

(1) an amount equal to the product of the #lot area# of each of such #zoning lots# multiplied by 5.0; or

(2) the total #floor area# of all existing #buildings# on any such #zoning lots#, ***whichever excess amount is smaller, may be so conveyed or otherwise disposed of***.

The City Planning Commission shall certify such initial transfer from the #granting lots#. Any #person# may convey its interest in all or a portion of such #development rights# to another #person#, but such #development rights# may only be used for a #development# on a #receiving lot#.

88-0591-65
Addition of Development Rights to Receiving Lots

Within the South Street Seaport Subdistrict, a*A*ll or any portion of the #development rights# transferred from a #granting lot# may be added to the #floor area# of all or any one of the #receiving lots# in an amount not to exceed the ratio of 10 square feet of #development rights# to each square foot of #lot area# of such #receiving lot#, except that with respect to a #receiving lot# having a #lot area# of less than 30,000 square feet, the total #floor area ratio# on such #receiving lot# shall not exceed a #floor area ratio# of 21.6. #Development rights# transferred to a #receiving lot# may be applied to the #development# of a #mixed building# to increase the #floor area# of the #residential#, #commercial#, and/or #community facility# portions of such #building# so that the maximum #floor area# for such #building# may be increased by the aggregate of #development rights# so transferreD. In no event shall the #floor area ratio# of a #residential building#, or portion thereof, exceed 12. 0.

The City Planning Commission shall certify that the proposed #development# which utilizes such transferred #development rights# conforms to the regulations and controls of the Urban Renewal Plan.

The following text was moved and modified from paragraph (c) of Section 74-721 (Height and setback and yard regulations and also incorporates parts of 88-06.

88-0691-66
Conversion of Transferred Development Rights into Tower Coverage
Modification of Bulk Regulations

Within the South Street Seaport Subdistrict, the City Planning Commission may modify the height and setback and #lot coverage# regulations of Section 91-30, provided that:

(a)either of the following conditions have been met:

(1)that the developer has obtained negative easements limiting the height of future #development# to 85 feet or less on any adjoining #zoning lots# which are contiguous or would be contiguous to said #zoning lot# but for their separation by a #street# or #street# intersection, and such easements are recorded against such adjoining #zoning lots# by deed or written instrument. The Commission shall consider the aggregated areas of said #zoning lot# and the adjoining lots subject to such negative easements and the extent to which they achieve future assurance of light and air in determining the maximum permitted coveragE. In no event shall such coverage exceed 80 percent of the #zoning lot# on which the #development# will be located; or

(2)that the #lot coverage# for that portion of a #development# below 300 feet may be increased to a maximum of 80 percent when additional #development rights# have been purchased and #Development rights# transferred to a #receiving lot# may be converted ***in***to increased ***tower*** **#lot** coverage#. ***on such #receiving lot# so that t*****T**he maximum percentage of #lot ***areacoverage# which may be occupied by a tower*****on** such #receiving lot# shall be the sum of ***4065*** percent plus one-half of one percent for every .10 by which the total #floor area ratio# on such #receiving lot# would exceed a #floor area ratio# of 21.6, provided **that:** ***(a)*** the #development# on such #receiving lot# has achieved a minimum #floor area ratio# of 18.0; ***and***

(b) tower coverage on such #receiving lot# will not exceed 55 percent.

However, tower coverage may be increased above 55 percent to a maximum of pursuant to Section 74-721 paragraph (a).

(b)In order to grant such special permit, the Commission shall make the following findings:

(1)the location of the #development# and the distribution of #bulk# will permit adequate access of light and air to surrounding #streets# and properties;

(2)any modification of height and setback will provide for better distribution of #bulk# on the #zoning lot#; and

(1)such special permit will aid in achieving the general purposes and intent of the Subdistrict.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding areA.

88-0791-67
Recordation

Within the South Street Seaport Subdistrict, a*A*t the time of transfer of #development rights# from a #granting lot#, there shall be recorded in the ***land records*** **Office of the Register of the City of New York**, and indexed against such #granting lot# from which #floor area# is removed, an instrument removing such #floor area# and prohibiting construction on ***the*** **such** #zoning lot# ***from which the #floor area# is taken*** of any #building or other structure# which would contain ***a*** #floor area# in excess of that still available to the #zoning lot# after deducting the #floor area# removed, such prohibition to be non-cancelable for 99 years; and at the time of the addition of #development rights# to a #receiving lot# as provided in Section ***88-0591-65***, there shall be recorded in the ***land records*** **Office of the Register of the City of New York**, and indexed against such #receiving lot# to which #floor area# is added, an instrument transferring the #floor area# to the #receiving lot# benefited and identifying the #granting lot# (by tax block and lot number and description) from which the #floor area# has been removeD. A certified copy of such instruments shall be submitted to the City Planning Commission upon recordation ***thereof***.

88-0891-68
Designated Pedestrian Ways

Within the South Street Seaport Subdistrict, the volume situated above the subsurface #streets# shown on the City Map and listed ***herein*** below are designated pedestrian ways and are governed by paragraph (b) of the definition of #street# as set forth in Section ***88-0291-62*** (Definitions):

(a)Fulton Street, between Water ***Street*** and South Streets.

(b) Water Street, between Fulton ***Street*** and Beekman Streets.

(c) Front Street, between Fulton ***Street*** and Beekman Streets, and between John ***Street*** and Fulton Streets.

(d)South Street (the 18-foot-wide strip ***thereof*** located on the northwesterly side), between Beekman ***Street*** and John Streets.

91-69
Special Permit for Development of Piers 9, 11, 13 and 14

Within the area bounded by South Street, the southerly edge of Pier 9, the U. S. Pierhead Line, and the northerly edge of Pier 14, which, for the requirements of this Section, shall be deemed to be a single #zoning lot#, the City Planning Commission may, by special permit, permit modification of the bulk regulations, other than #floor area ratio# applicable to the #zoning lot#, and may modify or waive the requirements of Section 62-40 (REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AND VISUAL CORRIDORS), in accordance with the provisions of this Section.

The special permit shall be subject to the condition that the property owner, principal lessee or licensee of property owner has entered into an agreement with the Department of Parks and Recreation to operate and maintain the publicly-accessible areas in accordance with Section 62-624 (Maintenaance and operation of waterfront public access areas).For purposes of this Section, the requirementsof such publicly-accessible shall be deemed "waterfront public access areas."

In granting any such modifications, the Commission shall find that:

(a)any modification of height and setback regulations results in an appropriate distribution of permitted bulk on the piers;

(b)no #buildings or other structures# shall unduly obstruct the visual corridor bounded by the prolongation of the northern and southern #street lines# of Wall Street seaward to the U. S. Pierhead Line; and

(c)any modification will not unduly impede surface traffic and will minimize possible vehicular/pedestrian conflicts in the surrounding area;

(d)that the seaward end of all such piers is unobstructed to the greatest extent feasible so as to maximize views northward and southward;

(5)the development plan for such area includes an appropriate amount of publicly accessible open space which shall incorporate appropriate design features that serve the needs of the local area, including but not limited to landscaping, lighting and seating; and

(6)the development plan is integrated with existing and proposed nearby #developments#.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the waterfront and surrounding area

91-70
SPECIAL REGULATIONS FOR CERTAIN AREAS

#Developments# in the #Special Lower Manhattan District# built prior to (effective date of amendment) will continue to be governed by the regulations in effect at the time of issuance of the building permit and can only be modified or altered by the following:

The following Section incorporates the bonus provisions of former Section 86-053 and the mandatory requirements for block 56N in Appendix B of the former Special Greenwich Street Development District (deleted). It also provides for the elimination of the bridge spanning Greenwich Street cited in the mandatory requirements for blocks 52N and 54N.

91-71
Authorization for the Modification of Required Public Amenities

The City Planning Commission may authorize modifications of certain provisions of the former #Special Greenwich Street Development District#, eliminated on (effective date of amendment), that mandated public amenities, as follows:

(a)For any mandatory or elective public amenities or improvements built pursuant to the regulations of the former Special District that resulted in an increase in the basic maximum #floor area ratio# or an increase in the adjusted basic maximum #floor area ratio#, the Commission may authorize:

(1)the alteration of the amenity or improvement, provided that the Commission finds that such modifications improve the intended public purpose of the amenity;

(2)the elimination of the amenity or improvement, provided that the Commission finds that the intended public purpose is no longer useful or desirable and a new public amenity or improvement is supplied, as permitted pursuant to this Chapter, that generates the same or higher amount of bonusable #floor area#; or

(3)in the case of an amenity or improvement built in excess of the requirements necessary to generate the bonus #floor area# at the time of #development#, the elimination of such portion of the amenity not tied to the bonus #floor area#, provided that the Commission finds that such portion is no longer useful or desirablE.

(b)For any mandatory or elective public amenities or improvements built pursuant to the regulations of the former Special District that did not result in an increase in the basic maximum #floor area ratio#, the Commission may authorize the elimination or alteration of the amenity or improvement if it finds that the intended public purpose is no longer useful or desirablE.

(c)No mandatory or elective public amenity or improvement built pursuant to the regulations of the former Special District shall be eliminated or reduced in size, without a corresponding reduction in the #floor area# of the #building# or the substitution of equivalent complying area for such amenity elsewhere on the #zoning lot#, in accordance with the provisions of paragraph (a)(2) of this Section, except by special permit of the City Planning Commission, subject to a finding that the proposed change will provide a greater public benefit in light of the public amenity's purpose and the purposes of the #Special Lower Manhattan District#.

However, the open pedestrian bridge spanning Greenwich Street between Liberty and Cedar Streets may be eliminated, without recourse to the City Planning Commission, where the pedestrian access provided between the required elevated public pedestrian circulation systems is no longer useful or desireD.

The Commission may prescribe appropriate conditions and safeguards in connection with the grant of such authorization.

The following Section incorporates the bonus provisions of former Section 86-053 and the mandatory requirements for block 56N in Appendix B of the deleted Special Greenwich Street Development District.

91-72
Certification for Development on the Block bounded by Liberty, Washington, Cedar and West Streets

For the #block# bounded by Liberty, Washington, Cedar and West Streets, the City Planning Commission shall certify that the following improvements, eligible for as-of-right #floor area# bonuses in the amount specified, are included in any plans for a proposed #development#.

(a)The following mandatory improvements are eligible for as-of-right #floor area# bonuses:

(1)For an open pedestrian bridge with a minimum width of 15 feet spanning Washington Street near its intersection with Liberty Street to provide pedestrian access to the existing elevated public open space at the northern edge of the #block# bounded by Liberty, Washington, Albany and Greenwich Streets, as certified by the Commission, a #floor area# bonus shall be granted in the amount of 90 square feet per linear foot.

(2)For a pedestrian connection at least 15 feet wide with a minimum floor to ceiling height of 12 feet between the existing pedestrian bridge spanning West Street and the bridge required over Washington Street pursuant to paragraph (a)(1) of this Section, as certified by the Commission, a #floor area# bonus shall be granted in the amount of 100 square feet per linear foot.

This connection shall be at the same height as the new bridge, provide an integrated connection to the existing West Street bridge and be open to the public for the same hours as the West Street bridgE. Ramps but not stairs may be incorporated into the pedestrian connection to adjust its height to the Washington and West Street bridges.

(b) An optional pedestrian connection of public access from the pedestrian connection specified in paragraph (a)(2) of this Section to street level may be provided by stair, ramp or escalator and shall be eligible for an as-of-right #floor area# bonus of 120 square feet per linear foot of stair or, if provided by escalators at least 32 inches wide, 20,000 square feet for the provision of a single run, and 30,000 square feet for the provision of a double run.

The development shall have its major pedestrian entrance and lobby on Liberty Street and be integrated with and provide unobstructed pedestrian access between the pedestrian connection specified in paragraph (a)(2)

of this Section and the lobby of any new #building# on this #block#

No other #floor area# bonuses are permitted on the #block# unless the Commission has certified that the improvements specified in paragraphs (a) and (b) of this Section are included in any plans for #development# on the #block#.

The following Section incorporates the provisions of former Section 86-14 of the deleted Special Greenwich Street Development District..

91-73
Special Permit for Development over the Approaches to the Brooklyn Battery Tunnel

The City Planning Commission, by special permit, may allow the unmapped air space above the approaches to the Brooklyn Battery Tunnel to be considered a single #zoning lot# and may allow the #development# or #enlargement# of a #building# on such unmapped air spacE.

The #zoning lot# for such #development# or #enlargement# shall include only that portion of the area above the approaches to the Brooklyn Battery Tunnel and contiguous areas of land or property that are covered by a permanent platform and not designated as approaches to the Brooklyn Battery Tunnel.

In order to grant such special permit, the Commission shall find that:

(a)adequate access and #street# frontage to one or more #streets# is provided; and

(b)the streetscape, site design and the location of building entrances of the proposed #development# or #enlargement# will contribute to the overall improvement of pedestrian circulation within the surrounding areA.
The Commission may prescribe appropriate conditions and safeguards to protect and minimize any adverse effects on the character of the surrounding areA.

The following Section incorporates Sections 98-04 and 98-042 of the Special Manhattan Landing District which will be deleteD.

91-74
Special provisions for Battery Park Underpass/South Street

A #zoning lot# containing a #development#, or portion thereof, on a #waterfront zoning lot#, may be located within the volume above the upper limiting plane of the Battery Park Underpass/South Street, when such volume is eliminated, discontinued and closeD. That portion of the #zoning lot# that lies above the Battery Park Underpass/South Street shall not be considered #lot area# for the purpose of computing maximum #floor area#; however, such portion shall be considered #lot area# for all other purposes of this Resolution.

SUPREME COURT

■ NOTICE

SUPREME COURT, NEW YORK COUNTY
NOTICE OF ACQUISITION
INDEX NO. 98/402325

In the Matter of the Application of the City of New York, relative to acquiring title in fee simple absolute to certain real property where not heretofore acquired for the same purpose, required as a site for the MILBANK FRAWLEY CIRCLE WEST URBAN RENEWAL AREA located in the area bounded generally by Lenox Avenue, West 125th Street Mount Morris Park West, Fifth Avenue, West 110th Street Saint Nicholas Avenue and West 116th Street, in the Borough of Manhattan, City and State of New York.

PLEASE TAKE NOTICE, that by order of the Supreme Court of the State of New York, County of New York, duly entered in the office of the Clerk of the County of New York on the 24th day of July, 1998, the application of the City of New York to acquire certain real property, as designated in the above caption, for the MILBANK FRAWLEY CIRCLE WEST URBAN RENEWAL AREA, was granted and the City was thereby authorized to file an acquisition map with the Clerk of the County of New York or the City Register. Said map, showing the property acquired by the City, located in Block 1599, Lots 27 and 132, was filed with said clerk on the 27th day of July, 1998.

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to Section 502(B) of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired for the above named improvement and having any claim or demand on account thereof is hereby required, on or before February 3, 1998, to file a claim with the Clerk of the Court of New York County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, 100 Church Street, Room 5-232, Borough of Manhattan, City of New York.

The claim shall include the name and post office address of the condemnee, a description of the real property owned by the condemnee or in which the condemnee claims an interest, a general statement of *the nature and type of damages claimed* including, if applicable, a schedule of fixture items comprising part or all of the damages claimed, and, if the condemnee is represented, the name, address and telephone number of the condemnee's attorney. In the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.

Pursuant to the Uniform Civil Rules for the Supreme Court and the County Court, §202.61 (a)(1), appraisal reports must be filed or exchanged with the condemnor within nine months after the filing of a post-vesting claim, demand or notice of appearance, unless the time therefor is extended by the court.

The claimant will be required to appear in person to present proof of title and to produce the deed or instrument under which he, she or it claims title, or a certified copy thereof together with copies of leases and rental agreements.

Proof of title will be received by the Corporation Counsel at his office, 100 Church Street, Room 5-232, Borough of Manhattan, on or before February 3, 1999.

PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitations notices for most procurement above $25,000 for goods or services or above $50,000 for construction and construction related services are published for at least one day.

Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● *Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.*, 18th Floor, NY, NY 10007 (212) 669-8562

Construction & Construction Related Services

● Mayor's Office of Construction,

Bidders List Unit, 52 Chambers Street, Room 307, New York, NY 10007 (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway 9th Floor, New York, NY 10007 (212) 788-0010 Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual (see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business.

In order to become certified for the program, your company must substantiate that it:

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,

110 William Street, 2nd Floor,

New York, New York 10038 (212) 618-8782.

PROMPT PAYMENT

It is policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bill within 30 days after the receipt of a proper invoice. The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board51 Chambers Street Room 1126, New York 10007 (212) 788-7820

PROCUREMENT POLICY BOARD RULES

To obtain a copy of the Procurement Policy Board Rules either in hard copy or on disk, call the Procurement Policy Board office, (212) 788-7820. The Rules may also be accessed on the City Website, http://www.ci.nyc.ny.us

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

JOB ORDER CONTRACT GENERAL CONSTRUCTION AND ELECTRICAL WORK FOR LIBRARIES, CULTURALS AND TRANSPORTATION PROGRAM UNITS. PROJECT NO. LCT-JOC1 – CSB – DUE 9-1-98 AT 11 AM – Pin: 85099RQ0001C - General Construction
Pin: 85099RQ0002C - Electrical Work
Bid document deposit $35.00 a set.

Sealed bids will be received by the New York City Department of design and Construction (hereinafter called the "city") from bidders for the Contract hereinafter set forth due at the dates and times specified below. Department of Design and Construction Bid Room, First Floor, 30-30 Thomson Avenue, Long Island City, NY 11101 following which time and place, or as soon thereafter as the City can attend the same, the said bids will be publicly opened and read and tabulated at the Department of Design and Construction by an authorized representative of the Commissioner. The Commissioner will thereafter award the contract based upon the result of the tabulations as covered by applicable laws and regulations.

A bid deposit shall be required in the amount of either a Certified Check for $25,000.00 or a Bond for not less than 10% of the Maximum Contract Amount.

This solicitation for a Job Order Contract which is competitively bid, indefinite quantity contract. The bidders bid an adjustment to pre-set unit prices. The price of individual projects pre calculated by multiplying the unit price by the quantity and the appropriate adjustment factor.

The Job Order Contract awarded under this solicitation will have the following value:

Contract – Minimum Guarantee – Maximum Contract Amount – Bid Due

General – $50,000.00 – $15,000,000.00 – September 1, 1998 at 11:00 am
Electrical – $50,000.00 – $4,000,000.00 – September 1, 1998 at 11:00 am

The basic term of the contract will be for 24 months and will include an option for one (1) additional two year period. It is the current intention of the City to award the (1) Job Order Contract under each solicitation listed above. Withdrawal of bid is permissible after 45 days from date of bid opening, provided such withdrawal is made prior to initial contract award.

Every Contractor is limited to the award of one contract from the contracts solicited by the Department of Design and Construction

as part of the JOC program. Bids will not be accepted from contractors currently holding a JOC contract with the Department of Design and Construction. If the contractor is the apparent low bidder on the contracts now advertised, the contract awarded, if at all, will be on the basis which results in the lowest total overall cost to the City for the contracts.

The work envisioned under this Contract will be primarily in support of facilities improvements for the Library, Cultural, and Transportation Units. However, the City, at its sole discretion, may require the contractor to perform other work anywhere within New York City. The City reserves the right to award and use multiple Job Order Contracts.

Interest Parties must attend two mandatory pre-bid conferences. The first prebid conference will be held August 12, 1998 from 10:00 - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing the Job Order contracting theory and the specifics of the JOC program. The second prebid conference will be held August 19, 1998 from 10:00 am - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing Job Order Contracting from a contractor's perspective, how to ananlyze the Unit Price Book, and the risks involved in the program and answering questions.

Each bidder must submit two price adjustment factors for each of the City's five (5) Boroughs. These adjustment factors will be applied to the established unit prices published in the Contract Documents. These same adjustment factors must apply to all the work tasks listed in the Contract Documents. The first adjustment factor will be applied to that work anticipated to be accomplished during normal business hours. The second adjustment factor will be applied to the work anticipated to be accomplished in the other than regular business hours. For the bid evaluation purpose it is estimated that the work distribution within the five (5) boroughs will be equal and that 5% of the total work accomplished under this contract will be during other than regular hours.

Interested parties may obtain one set of the bid and contract documents following the first mandatory pre-bid conference for a deposit of thirty-five dollars ($35.00). The deposit must be in the form of a company check or money order made payable to the City of New York, and drawn upon a state or national bank or trust company, or a check or such bank or trust company signed by a duly authorized officer thereof.

The successful bidder must make a good faith effort to achieve the Locally Based Enterprises (LBE) subcontracting goal.

The City reserves the right to waive minor informalities and to reject any and all bids, in accordance with the rules of the Policy and Procurement Board and the New York City Charter.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

The Job Order Contract awarded under this solicitation will have the following value:

Contract – Minimum Guarantee – Maximum Contract Amount – Bid Due

General – $50,000.00 – $15,000,000.00 – September 1, 1998 at 3:30 pm

The basic term of the contract will be for 24 months and will include an option for one (1) additional two year period. It is the current intention of the City to award the (1) Job Order Contract under each solicitation listed above. Withdrawal of bid is permissible after 45 days from date of bid opening, provided such withdrawal is made prior to initial contract award.

Every Contractor is limited to the award of one contract from the contracts solicited by the Department of Design and Construction as part of the JOC program. Bids will not be accepted from contractors currently holding a JOC contract with the Department of Design and Construction. If the contractor is the apparent low bidder on the contracts now advertised, the contract awarded, if at all, will be on the basis which results in the lowest total overall cost to the City for the contracts.

The work envisioned under this Contract will be primarily in support of facilities improvements for the Courts, Correction and Police Units. However, the City, at its sole discretion, may require the contractor to perform other work anywhere within New York City. The City reserves the right to award and use multiple Job Order Contracts.

Interest Parties must attend two mandatory pre-bid conferences. The first prebid conference will be held August 12, 1998 from 10:00 - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing the Job Order contracting theory and the specifics of the JOC program. The second prebid conference will be held August 19, 1998 from 10:00 am - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing Job Order Contracting from a contractor's perspective, how to ananlyze the Unit Price Book, and the risks involved in the program and answering questions.

Each bidder must submit two price adjustment factors for each of the City's five (5) Boroughs. These adjustment factors will be applied to the established unit prices published in the Contract Documents. These same adjustment factors must apply to all the work tasks listed in the Contract Documents. The first adjustment factor will be applied to that work anticipated to be accomplished during normal business hours. The second adjustment factor will be applied to the work anticipated to be accomplished in the other than regular business hours. For the bid evaluation purpose it is estimated that the work distribution within the five (5) boroughs will be equal and that 5% of the total work accomplished under this contract will be during other than regular hours.

Interested parties may obtain one set of the bid and contract documents following the first mandatory pre-bid conference for a deposit of thirty-five dollars ($35.00). The deposit must be in the form of a company check or money order made payable to the City of New York, and drawn upon a state or national bank or trust company, or a check or such bank or trust company signed by a duly authorized officer thereof.

The successful bidder must make a good faith effort to achieve the Locally Based Enterprises (LBE) subcontracting goal.

The City reserves the right to waive minor informalities and to reject any and all bids, in accordance with the rules of the Policy and Procurement Board and the New York City Charter.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

RFEI - GOVERNOR'S ISLAND – CP/2 – DUE 9-11-98 AT 3 PM – The New York City Economic Development Corporation (EDC), on behalf of the City of New York, is issuing a Request for Expressions of Interest (RFEI) for the redevelopment of Governor's Island, which is located off the southern tip of Manhattan in New York's Upper Bay. EDC ispreparing a comprehensive redevelopment plan and is inviting expressions of interest regarding all areas of the Island; acceptable uses include: residential, commercial, educational, recreational and entertainment. The Island is 172 acres. The northern half consists of 102 buildings on 90 acres and is designated as an Historic District. The southern 82 acres were built on landfill and offer the greatest potential for supporting new construction. Most recently, the island was occupied by the U.S. Coast Guard and housed a community of 4,000 military personnel and family members. Submission guidelines and requirements are outlined within the RFEI, which is available from EDC. All requests should be directed to Cheryl Elmore at 212-312-3969. LANDMARKS PRESERVATION COMMISSION

ISSUE DATE: 07/16/98	DOCKET #: 990081	SRB #: SRB 99-0301
ADDRESS: 99 MARGARET CORBIN DRIVE, The Cloisters, INDIVIDUAL LANDMARK	BOROUGH: MANHATTAN	BLOCK/LOT: 2179 / 701

To the Mayor, the Council, and the Commissioner of the Department of Cultural Affairs.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-3 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The proposal consists of repairs to the roof at the Unicorn/Nine Heroes galleries and the Langon Chapel, and to the walls, parapet and paving of the West Terrace, as shown in photographs, and in drawings prepared by Kevin Roche and John Dinkeloo and Associates labeled The Cloisters, Roof Repairs - Unicorn & Nine Heroes Tapestry Galleries and Langon Chapel, numbered A.101, Roof Details and Sections, numbered A.102, and Stone Repairs - West Terrace, numbered A.103

In reviewing this proposal, the Commission noted that the designation report describes The Cloisters as a museum complex composed of portions of medieval buildings and modern structures designed by Charles Collens and constructed between 1934 and 1938

With regard to this proposal, the Commission finds that the removing the existing roofs at the Unicorn/Nine Heroes galleries, replacing the roofing membrane, and redesigning the drainage system will help to prevent water infiltration which could damage the building; that the tile on the sloped portion of roof will be a combination of the historic tiles and replacement tiles as needed which match the size, color and texture of the historic tiles; that the tiles on the flat portion of the roof, which is not visible from the ground, will match as closely as possible the size, color and texture of the historic tiles; that repairing the Langon Chapel roof will prevent water infiltration which is damaging the building and the collection, and that the rebuilt West Terrace will replicate the appearance of the original terrace

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval The approved work is limited to what is contained in the perforated documents Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit, a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Brian Hogg

ISSUE DATE:	DOCKET #:	SRA #:
07/13/98	986876	SRA 99-0247

ADDRESS	BOROUGH:	BLOCK/LOT:
EASTERN PARKWAY Eastern Parkway SCENIC LANDMARK	BROOKLYN	999 / 99

To the Mayor, the Council, and the President of the New York City Economic Development Corporation:

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Commission recently received an application to install five new signs for the Brooklyn Children's Museum along Eastern Parkway. Two of the signs are to be installed on existing poles and three of the signs will be installed on new poles. The proposal is shown in drawings labeled "Information Aid," "Vehicular Trailblazer," and "Pedestrian Trailblazer," dated June 9, 1998, and in a map labeled "Exterior Signage Program Sign Location Plan," dated April 3, 1998, all prepared by Lebowitz/Gould/Design, Inc. The proposal is also shown in a shop drawing labeled "The Eastern Parkway Steel 'Traffic/Street Name' Sign Post With Finial," dated October 12, 1993, prepared by Spring City Electrical Mfg., photographs of the proposed signage locations and a schedule of the proposed signage locations, dated June 5, 1998, all submitted as components of the application

In reviewing this application, the Commission notes that the designation report for this scenic landmark states that Eastern Parkway was designed by Frederick Law Olmsted and constructed in 1870-74; that it was the first of Olmsted's parkways to be completed, and that it was a new kind of roadway incorporating malls with trees, pleasure drives, walkways and service roads.

With regard to this proposal, the Commission finds that the proposed signs will not disrupt the special character of the parkway, that the new sign poles will match those previously found to be appropriate in Commission Report 86-0012 and which presently exist along the parkway; and that the size and placement of the new signs and poles will be harmonious with the design and scale of the parkway. Based on these findings, the Commission finds the proposed work to be appropriate to the Eastern Parkway Scenic Landmark.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Lisa Schaeffer.

TEMPORARY AND LONG TERM PARALEGAL SERVICES – 02599X000121 – DUE 8-17-98 AT 5 PM – The City of New York Law Department ("Department") intends to enter into negotiations with one or more qualified firms to award one or more contracts for the provision of temporary and long term paralegal services in support of litigation. Contract award will be by the Negotiated Acquisition method of source selection because it has been determined that it is not practicable or not advantageous to use Competitive Sealed Proposals and that it is not in the best interest of the City, and because award of the contract by Negotiated Acquisition is justified. The Department seeks Expressions of Interest from Paralegal personnel to large law firms, legal departments or government agencies having at least 100 attorneys on staff. All Expressions of Interest must be submitted on the Department's Statement of Qualifications ("SOQ") form, which can be picked up at the Fourth Floor East Reception Desk, New York City Law Department, 100 Church Street, New York, N.Y. 10007, between the hours of 9:00 AM and 5:00 PM, Monday through Friday, from August 5, 1998 through August 17, 1998. Completed SOQs must be submitted to Samuel A. Moriber, Agency Chief Contracting Officer, New York City Law Department, 100 Church Street, Room 3-185, New York, N.Y. 10007, no later than the due date specified in this notice.

CITYWIDE ADMINISTRATIVE SERVICES

DIVISION OF REAL ESTATE SERVICES

■ HEARING

PROPOSED EXCHANGE OF INTERESTS IN CERTAIN REAL PROPERTY LOCATED IN THE COUNTY OF WESTCHESTER, TOWN OF MOUNT PLEASANT

PUBLIC NOTICE IS HEREBY GIVEN THAT the City of New York, acting by and through its Department of Citywide Administrative Services, Division of Real Estate Services, (the "City") proposes to exchange easements in the properties described herein with the County of Westchester (the "County"). The parcel numbers listed herein are those by which the parcels are designated on a certain map entitled MAP OF EASEMENTS prepared for the County of Westchester in the Town of Mount Pleasant and dated October 6, 1995. A copy of the map is available 9:30 A.M. to 5:30 P.M. at the Office of Water Supply Lands, 465 Columbus Avenue, Suite 350, Valhalla, New York 10595 (contact Marilyn Shanahan 914-742-2071) or by appointment at the Office of the General Counsel, Department of Citywide Administrative Services, One Centre Street, 16th floor, New York, New York 10007 (contact Edward Holtzmann 212-669-7099). A description of the parcels to be exchanged is set forth below.

In accordance with Section 384 of the City Charter, a voluntary public hearing will be held at 10:00 am on September 9, 1998 in the Public Hearing Chamber on the second floor of City Hall in Manhattan.

The interests in the two parcels will be exchanged pursuant to Section 72(b) of the New York State General Municipal Law. If the exchange is approved by the Mayor of the City of New York, and if the City Council does not disapprove the exchange within thirty (30) days following receipt of notice of the approval of the Mayor, the City and the County will proceed to a title closing.

The exchange of interests is in two parcels of land located in the area of the Grasslands Reservation/Eastview Filter Site, Town of Mount Pleasant, County of Westchester. The proposed transaction involves the exchange of the following interests in real property and assumption of the following obligations between the City and the County. An agreement between the City and County, which has been approved by the Board of Legislators of the County, and which is subject to approval by the City, documents the obligations of the City and County relating to the exchange of easements. Highlights of the Agreement and proposed transaction are set forth below:

1. The City will grant to the County an easement of approximately 4.015 acres designated as parcel No. 1 ("County Easement") constituting a portion of City-owned land located in the Town of Mount Pleasant known as the Eastview Filter Site ("EFS"). The easement is for the purpose of permitting the County to construct, operate and maintain a public County road (the "County Road"), which the County is presently using under a New York City Department of Environmental Protection Revocable Permit, across the EFS. The County Easement will remain in effect for so long as the County shall use the County Easement as a County Road.

2. The construction of the County Road along the western perimeter of the EFS will provide a means of access to the interior of the EFS should construction of a filtration plant by the City to service the Delaware and Catskill Aqueducts become desirable or necessary.

3. In consideration for the City's grant to the County of the County Easement, the County has agreed a) at its sole cost and expense to remove the bed under a private road on the EFS known as Hammond House Road and restore the area to its natural state at an estimated cost of $92,000, b) repair and maintain the County Road as part of the County road system, and c) grant to the City an easement to a parcel of land of approximately 4.015 acres located adjacent to the EFS designated as parcel No.2 ("City Easement"). The City Easement will remain in effect for so long as the City uses the City Easement for water supply purposes. Since the Delaware Aqueduct flows through the EFS in close proximity to the City Easement and the Catskill Aqueduct crosses the Delaware Aqueduct within the vicinity of the EFS, the City Easement will be advantageous to the City should construction of additional water supply facilities be undertaken by the City in the future.

4. The Agreement further provides that in the event the City determines to build a filtration plant at the location of the EFS in the future, then upon the City's compliance with certain conditions and upon review and approval of the City's proposal by the county, the County will support the City's request for a change in use or zoning of the EFS for water supply purposes.

CHARTER REVISION COMMISSION

■ NOTICE

The New York City Charter Revision Commission seeks comments from the public on a proposal to amend the New York City Charter to improve the City's campaign finance system. The proposal is intended to ensure the independence of the Campaign Finance Board, prevent corruption by banning campaign contributions from groups doing business with the City and reduce the influence of "soft money" in New York City elections. The text of the proposal is available from the Charter Revision Commission's office and will also posted on its internet site.

The commission will hold two public hearings to hear public testimony on these proposed reforms.
The commission will then hold a public meeting to debate the proposed Charter amendments and make a recommendation to the voters for placement on the November ballot.

COURT NOTICE

SUPREME COURT

■ NOTICE

SUPREME COURT, NEW YORK COUNTY
NOTICE OF ACQUISITION
INDEX NO. 98/402325

In the Matter of the Application of the City of New York, relative to acquiring title in fee simple absolute to certain real property where not heretofore acquired for the same purpose, required as a site for the MILBANK FRAWLEY CIRCLE WEST URBAN RENEWAL AREA located in the area bounded generally by Lenox Avenue, West 125th Street Mount Morris Park West, Fifth Avenue, West 110th Street Saint Nicholas Avenue and West 116th Street, in the Borough of Manhattan, City and State of New York.

PLEASE TAKE NOTICE, that by order of the Supreme Court of the State of New York, County of New York, duly entered in the office of the Clerk of the County of New York on the 24th day of July, 1998, the application of the City of New York to acquire certain real property, as designated in the above caption, for the MILBANK FRAWLEY CIRCLE WEST URBAN RENEWAL AREA, was granted and the City was thereby authorized to file an acquisition map with the Clerk of the County of New York or the City Register. Said map, showing the property acquired by the City, located in Block 1599, Lots 27 and 132, was filed with said clerk on the 27th day of July, 1998.

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to Section 502(B) of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired for the above named improvement and having any claim or demand on account thereof is hereby required, on or before February 3, 1998, to file a claim with the Clerk of the Court of New York County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, 100 Church Street, Room 5-232, Borough of Manhattan, City of New York.

The claim shall include the name and post office address of the condemnee, a description of the real property owned by the condemnee or in which the condemnee claims an interest, a general statement of the nature and type of damages claimed including, if applicable, a schedule of fixture items comprising part or all of the damages claimed, and, if the condemnee is represented, the name, address and telephone number of the condemnee's attorney. In the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.

Pursuant to the Uniform Civil Rules for the Supreme Court and the County Court, §202.61 (a)(1), appraisal reports must be filed or exchanged with the condemnor within nine months after the filing of a post-vesting claim, demand or notice of appearance, unless the time therefor is extended by the court.

The claimant will be required to appear in person to present proof of title and to produce the deed or instrument under which he, she or it claims title, or a certified copy thereof together with copies of leases and rental agreements.

Proof of title will be received by the Corporation Counsel at his office, 100 Church Street, Room 5-232, Borough of Manhattan, on or before February 3, 1999.

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitations notices for most procurement above $25,000 for goods or services or above $50,000 for construction and construction related services are published for at least one day.

Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● *Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,* 18th Floor, NY, NY 10007 (212) 669-8562

Construction & Construction Related Services

● Mayor's Office of Construction,

Bidders List Unit, 52 Chambers Street, Room 307, New York, NY 10007 (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway 9th Floor,New York, NY 10007 (212) 788-0010 Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual.(see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business.

In order to become certified for the program, your company must substantiate that it:

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,

110 William Street, 2nd Floor,

New York, New York 10038 (212) 618-8782.

PROMPT PAYMENT

It is policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bill within 30 days after the receipt of a proper invoice. The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board51 Chambers Street Room 1126, New York 10007 (212) 788-7820

PROCUREMENT POLICY BOARD RULES

To obtain a copy of the Procurement Policy Board Rules either in hard copy or on disk, call the Procurement Policy Board office, (212) 788-7820. The Rules may also be accessed on the City Website, http://www.ci.nyc.ny.us

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

JOB ORDER CONTRACT GENERAL CONSTRUCTION AND ELECTRICAL WORK FOR LIBRARIES, CULTURALS AND TRANSPORTATION PROGRAM UNITS. PROJECT NO. LCT-JOC1 – CSB – DUE 9-1-98 AT 11 AM – Pin:
85099RQ0001C - General Construction
Pin: 85099RQ0002C - Electrical Work
Bid document deposit $35.00 a set.

Sealed bids will be received by the New York City Department of design and Construction (hereinafter called the "city") from bidders for the Contract hereinafter set forth due at the dates and times specified below.
Department of Design and Construction Bid Room, First Floor, 30-30 Thomson Avenue, Long Island City, NY 11101 following which time and place, or as soon thereafter as the City can attend the same, the said bids will be publicly opened and read and tabulated at the Department of Design and Construction by an authorized representative of the Commissioner. The Commissioner will thereafter award the contract based upon the result of the tabulations as covered by applicable laws and regulations.

A bid deposit shall be required in the amount of either a Certified Check for $25,000.00 or a Bond for not less than 10% of the Maximum Contract Amount.

This solicitation for a Job Order Contract which is competitively bid, indefinite quantity contract. The bidders bid an adjustment to pre-set unit prices. The price of individual projects pre calculated by multiplying the unit price by the quantity and the appropriate adjustment factor.

The Job Order Contract awarded under this solicitation will have the following value:

Contract – Minimum Guarantee – Maximum Contract Amount – Bid Due

General – $50,000.00 – $15,000,000.00 – September 1, 1998 at 11:00 am
Electrical – $50,000.00 – $4,000,000.00 – September 1, 1998 at 11:00 am

The basic term of the contract will be for 24 months and will include an option for one (1) additional two-year period. It is the current intention of the City to award the (1) Job Order Contract under each solicitation listed above. Withdrawal of bid is permissible after 45 days from date of bid opening, provided such withdrawal is made prior to initial contract award.

Every Contractor is limited to the award of one contract from the contracts solicited by the Department of Design and Construction as part of the JOC program. Bids will not be accepted from contractors currently holding a JOC contract with the Department of Design and Construction. If the contractor is the apparent low bidder on the contracts now advertised, the contract awarded, if at all, will be on the basis which results in the lowest total overall cost to the City for the contracts.

The work envisioned under this Contract will be primarily in support of facilities improvements for the Library, Cultural, and Transportation Units. However, the City, at its sole discretion, may require the contractor to perform other work anywhere within New York City. The City reserves the right to award and use multiple Job Order Contracts.

Interest Parties must attend two mandatory pre-bid conferences. The first prebid conference will be held August 12, 1998 from 10:00 - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing the Job Order contracting theory and the specifics of the JOC program. The second prebid conference will be held August 19, 1998 from 10:00 am - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing Job Order Contracting from a contractor's perspective, how to ananlyze the Unit Price Book, and the risks involved in the program and answering questions.

Each bidder must submit two price adjustment factors for each of the City's five (5) Boroughs. These adjustment factors will be applied to the established unit prices published in the Contract Documents. These same adjustment factors must apply to all the work tasks listed in the Contract Documents. The first adjustment factor will be applied to that work anticipated to be accomplished during normal business hours. The second adjustment factor will be applied to the work anticipated to be accomplished in the other than regular business hours. For the bid evaluation purpose it is estimated that the work distribution within the five (5) boroughs will be equal and that 5% of the total work accomplished under this contract will be during other than regular hours.

Interested parties may obtain one set of the bid and contract documents following the first mandatory pre-bid conference for a deposit of thirty-five dollars ($35.00). The deposit must be in the form of a company check or money order made payable to the City of New York, and drawn upon a state or national bank or trust company, or a check or such bank or trust company signed by a duly authorized officer thereof.

The successful bidder must make a good faith effort to achieve the Locally Based Enterprises (LBE) subcontracting goal.

The City reserves the right to waive minor informalities and to reject any and all bids, in accordance with the rules of the Policy and Procurement Board and the New York City Charter.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

JOB ORDER CONTRACT GENERAL CONSTRUCTION AND ELECTRICAL WORK FOR HEALTH, HUMAN SERVICES AND FIRE PROGRAM UNITS. PROJECT NO. HHF-JOC2 – CSB – DUE 9-1-98 AT 2 PM – Pin:
85099RQ0004C - General Construction
Pin: 85099RQ0005C - Electrical Work
Bid document deposit $35.00 a set.

Sealed bids will be received by the New York City Department of design and Construction (hereinafter called the "city") from bidders for the Contract hereinafter set forth due at the dates and times specified below.
Department of Design and Construction Bid Room, First Floor, 30-30 Thomson Avenue, Long Island City, NY 11101 following which time and place, or as soon thereafter as the City can attend the same, the said bids will be publicly opened and read and tabulated at the Department of Design and Construction by an authorized representative of the Commissioner. The Commissioner will thereafter award the contract based upon the result of the tabulations as covered by applicable laws and regulations.

A bid deposit shall be required in the amount of either a Certified Check for $25,000.00 or a Bond for not less than 10% of the Maximum Contract Amount.

This solicitation for a Job Order Contract which is competitively bid, is an indefinite quantity contract. The bidders bid an adjustment to pre-set unit prices. The price of individual projects pre calculated by multiplying the unit price by the quantity and the appropriate adjustment factor.

The Job Order Contract awarded under this solicitation will have the following value:

Contract – Minimum Guarantee – Maximum Contract Amount – Bid Due

General – $50,000.00 – $15,000,000.00 – September 1, 1998 at 2 pm
Electrical – $50,000.00 – $4,000,000.00 – September 1, 1998 at 2 pm

The basic term of the contract will be for 24 months and will include an option for one (1) additional two year period. It is the current intention of the City to award the (1) Job Order Contract under each solicitation listed above. Withdrawal of bid is permissible after 45 days from date of bid opening, provided such withdrawal is made prior to initial contract award.

Every Contractor is limited to the award of one contract from the contracts solicited by the Department of Design and Construction as part of the JOC program. Bids will not be accepted from contractors currently holding a JOC contract with the Department of Design and Construction. If the contractor is the apparent low bidder on the contracts now advertised, the contract awarded, if at all, will be on the basis which results in the lowest total overall cost to the City for the contracts.

The work envisioned under this Contract will be primarily in support of facilities improvements for the Health, Human Services, and Fire Units. However, the City, at its sole discretion, may require the contractor to perform other work anywhere within New York City. The City reserves the right to award and use multiple Job Order Contracts.

Interest Parties must attend two mandatory pre-bid conferences. RFEI - GOVERNOR'S ISLAND – CP/2 – DUE 9-11-98 AT 3 PM – The New York City Economic Development Corporation (EDC), on behalf of the City of New York, is issuing a Request for Expressions of Interest (RFEI) for the redevelopment of Governor's Island, which is located off the southern tip of Manhattan in New York's Upper Bay. EDC is preparing a comprehensive redevelopment plan and is inviting expressions of interest regarding all areas of the Island; acceptable uses include: residential, commercial, educational, recreational and entertainment. The Island is 172 acres. The northern half consists of 102 buildings on 90 acres and is designated as an Historic District. The southern 82 acres were built on landfill and offer the greatest potential for supporting new construction. Most recently, the island was occupied by the U.S. Coast Guard and housed a community of 4,000 military personnel and family members. Submission guidelines and requirements are outlined within the RFEI, which is available from EDC. All requests should be directed to Cheryl Elmore at 212-312-3969. If contacting her by e-mail at info@newyorkbiz.com. please use code 005-GI in the subject line. TEMPORARY AND LONG TERM PARALEGAL SERVICES – 02599X000121 – DUE 8-17-98 AT 5 PM – The City of New York Law Department ("Department") intends to enter into negotiations with one or more qualified firms to award one or more contracts for the provision of temporary and long term paralegal services in support of litigation. Contract award will be by the Negotiated Acquisition method of source selection because it has been determined that it is not practicable or not advantageous to use Competitive Sealed Proposals and that it is not in the best interest of the City, and because award of the contract by Negotiated Acquisition is justified. The Department seeks Expressions of Interest from organization regularly engaged in providing a high volume of temporary and long term Paralegal personnel to large law firms, legal departments or government agencies having at least 100 attorneys on staff. All Expressions of Interest must be submitted on the Department's Statement of Qualifications ("SOQ") form, which can be picked up at the Fourth Floor East Reception Desk, New York City Law Department, 100 Church Street, New York, N.Y. 10007, between the hours of 9:00 AM and 5:00 PM, Monday through Friday, from August 5, 1998 through August 17, 1998. Completed SOQs must be submitted to Samuel A. Moriber, Agency Chief Contracting Officer, New York City Law Department, 100 Church Street, Room 3-185, New York, N.Y. 10007, no later than the due date specified in this notice.

■ NOTICE

NOTICE OF EXTENSION ON THE PUBLIC REVIEW AND COMMENT PERIOD FOR NYCDOT'S DRAFT ENVIRONMENTAL IMPACT STATEMENT FOR LEAD PAINT REMOVAL OPERATIONS ON NYCDOT BRIDGES

The New York City Department of Transportation (NYCDOT) has prepared a Draft Environmental Impact Statement (DEIS) analyzing the potential effects of abrasive blasting and alternative methods of lead paint removal on public health and the environment, and the adequacy of the proposed containment system to protect against such effects during paint removal activities on NYCDOT bridges.
In response for additional opportunities for the public to review and comment on the DEIS for Paint Removal Operations on NYCDOT Bridges, NYCDOT has extended the public review and comment period from July 30, 1998 to August 24, 1998. Written comments will be accepted by the lead agency on or before August 24, 1998 and should be sent to the Office of Project Analysis/CEQR, New York City Department of Transportation, 40 Worth Street, New York, NY 10013, ATN: Naim Rasheed, Director, Tel: (212) 676-1680, Fax: (212) 442-7912.
The full DEIS is available for public review at NYCDOT's Office of Project Analysis/CEQR and at the NYC Office of Environmental Coordination, Municipal Building, 25th Floor, New York, NY 10007.

CHARTER REVISION COMMISSION

■ NOTICE

The New York City Charter Revision Commission seeks comments from the public on a proposal to amend the New York City Charter to improve the City's campaign finance system. The proposal is intended to ensure the independence of the Campaign Finance Board, prevent corruption by banning campaign contributions from groups doing business with the City and reduce the influence of "soft money" in New York City elections. The text of the proposal is available from the Charter Revision Commission's office and will also posted on its internet site.

The commission will hold two public hearings to hear public testimony on these proposed reforms. The commission will then hold a public meeting to debate the proposed Charter amendments and make a recommendation to the voters for placement on the November ballot.

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to Section 502(B) of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired for the above named proceeding and having any claim or demand on account thereof is hereby required, on or before January 18, 1999, to file a claim with the Clerk of the Court of Bronx County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, 100 Church Street, Room 5-236A, Borough of Manhattan, City of New York. The claim shall include the name and post office address of the condemnee, a description of the real property owned by the condemnee or in which the condemnee claims an interest, the nature of the condemnee's interest in the property, a general statement of the nature and type of damages claimed including, if applicable, a schedule of fixture items comprising part or all of the damages claimed, and, if the condemnee is represented, the name, address and telephone number of the condemnee's attorney. In the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.
Pursuant to the Uniform Civil Rules for the Supreme Court and the County Court, §202.61 (a)(1), appraisal reports must be filed or exchanged with the condemnor within nine months after the filing of a post-vesting claim, demand or notice of appearance, unless the time therefor is extended by the court.
The claimant will be required to appear in person to present proof of title and to produce the deed or instrument under which he, she or it claims title, or a certified copy thereof together with copies of leases and rental agreements.
Proof of title will be received by the Corporation Counsel at his office, 100 Church Street, Room 5-236A, Borough of Manhattan, on or before January 18, 1999.

Dated: New York, New York, July 27, 1998

PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitations notices for most procurement above $25,000 for goods or services or above $50,000 for construction and construction related services are published for at least one day.

Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● *Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,*18th Floor, NY, NY 10007 (212) 669-8562

Construction & Construction Related Services

● Mayor's Office of Construction,
Bidders List Unit, 52 Chambers Street, Room 307, New York, NY 10007 (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway 9th Floor,New York, NY 10007 (212) 788-0010 Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual.(see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business.

In order to become certified for the program, your company must substantiate that it:

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,

110 William Street, 2nd Floor,

New York, New York 10038 (212) 618-8782.

PROMPT PAYMENT

It is policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bill within 30 days after the receipt of a proper invoice. The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board51 Chambers Street Room 1126, New York 10007 (212) 788-7820

PROCUREMENT POLICY BOARD RULES

To obtain a copy of the Procurement Policy Board Rules either in hard copy or on disk, call the Procurement Policy Board office, (212) 788-7820. The Rules may also be accessed on the City Website, http://www.ci.nyc.ny.us

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

JOB ORDER CONTRACT GENERAL CONSTRUCTION AND ELECTRICAL WORK FOR LIBRARIES, CULTURALS AND TRANSPORTATION PROGRAM UNITS. PROJECT NO. LCT-JOC1 – CSB – DUE 9-1-98 AT 11 AM – Pin: 85099RQ0001C - General Construction
Pin: 85099RQ0002C - Electrical Work
Bid document deposit $35.00 a set.

Sealed bids will be received by the New York City Department of design and Construction (hereinafter called the "city") from bidders for the Contract hereinafter set forth due at the dates and times specified below.
Department of Design and Construction Bid Room, First Floor, 30-30 Thomson Avenue, Long Island City, NY 11101 following which time and place, or as soon thereafter as the City can attend the same, the said bids will be publicly opened and read and tabulated at the Department of Design and Construction by an authorized representative of the Commissioner. The Commissioner will thereafter award the contract based upon the result of the tabulations as covered by applicable laws and regulations.

A bid deposit shall be required in the amount of either a Certified Check for $25,000.00 or a Bond for not less than 10% of the Maximum Contract Amount.

This solicitation for a Job Order Contract which is competitively bid, indefinite quantity contract. The bidders bid an adjustment to pre-set unit prices. The price of individual projects pre calculated by multiplying the unit price by the quantity and the appropriate adjustment factor.

The Job Order Contract awarded under this solicitation will have the following value:

Contract – Minimum Guarantee – Maximum Contract Amount – Bid Due

General – $50,000.00 – $15,000,000.00 – September 1, 1998 at 11:00 am
Electrical – $50,000.00 – $4,000,000.00 – September 1, 1998 at 11:00 am

The basic term of the contract will be for 24 months and will include an option for one (1) additional two year period. It is the current intention of the City to award the (1) Job Order Contract under each solicitation listed above. Withdrawal of bid is permissible after 45 days from date of bid opening, provided such withdrawal is made prior to initial contract award.

Every Contractor is limited to the award of one contract from the contracts solicited by the Department of Design and Construction as part of the JOC program. Bids will not be accepted from contractors currently holding a JOC contract with the Department of Design and Construction. If the contractor is the apparent low bidder on the contracts now advertised, the contract awarded, if at all, will be on the basis which results in the lowest total overall cost to the City for the contracts.

The work envisioned under this Contract will be primarily in support of facilities improvements for the Library, Cultural, and Transportation Units. However, the City, at its sole discretion, may require the contractor to perform other work anywhere within New York City. The City reserves the right to award and use multiple Job Order Contracts.

Interest Parties must attend two mandatory pre-bid conferences. The first prebid conference will be held August 12, 1998 from 10:00 - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing the Job Order contracting theory and the specifics of the JOC program. The second prebid conference will be held August 19, 1998 from 10:00 am - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing Job Order Contracting from a contractor's perspective, how to analyze the Unit Price Book, and the risks involved in the program and answering questions.

Each bidder must submit two price adjustment factors for each of the City's five (5) Boroughs. These adjustment factors will be applied to the established unit prices published in the Contract Documents. These same adjustment factors must apply to all the work tasks listed in the Contract Documents. The first adjustment factor will be applied to that work anticipated to be accomplished during normal business hours. The second adjustment factor will be applied to the work anticipated to be accomplished in the other than regular business hours. For the bid evaluation purpose it is estimated that the work distribution within the five (5) boroughs will be equal and that 5% of the total work accomplished under this contract will be during other than regular hours.

Interested parties may obtain one set of the bid and contract documents following the first mandatory pre-bid conference for a deposit of thirty-five dollars ($35.00). The deposit must be in the form of a company check or money order made payable to the City of New York, and drawn upon a state or national bank or trust company, or a check or such bank or trust company signed by a duly authorized officer thereof.

The successful bidder must make a good faith effort to achieve the Locally Based Enterprises (LBE) subcontracting goal.

The City reserves the right to waive minor informalities and to reject any and all bids, in accordance with the rules of the Policy and Procurement Board and the New York City Charter.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

However, the City, at its sole discretion, may require the contractor to perform other work anywhere within New York City. The City reserves the right to award and use multiple Job Order Contracts.

Interest Parties must attend two mandatory pre-bid conferences. The first prebid conference will be held August 12, 1998 from 10:00 - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing the Job Order contracting theory and the specifics of the JOC program. The second prebid conference will be held August 19, 1998 from 10:00 am - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing Job Order Contracting from a contractor's perspective, how to analyze the Unit Price Book, and the risks involved in the program and answering questions.

Each bidder must submit two price adjustment factors for each of the City's five (5) Boroughs. These adjustment factors will be applied to the established unit prices published in the Contract Documents. These same adjustment factors must apply to all the work tasks listed in the Contract Documents. The first adjustment factor will be applied to that work anticipated to be accomplished during normal business hours. The second adjustment factor will be applied to the work anticipated to be accomplished in the other than regular business hours. For the bid evaluation purpose it is estimated that the work distribution within the five (5) boroughs will be equal and that 5% of the total work accomplished under this contract will be during other than regular hours.

Interested parties may obtain one set of the bid and contract documents following the first mandatory pre-bid conference for a deposit of thirty-five dollars ($35.00). The deposit must be in the form of a company check or money order made payable to the City of New York, and drawn upon a state or national bank or trust company, or a check or such bank or trust company signed by a duly authorized officer thereof.

The successful bidder must make a good faith effort to achieve the Locally Based Enterprises (LBE) subcontracting goal.

The City reserves the right to waive minor informalities and to reject any and all bids, in accordance with the rules of the Policy and Procurement Board and the New York City Charter.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

RFEI - GOVERNOR'S ISLAND – CP/2 – DUE 9-11-98 AT 3 PM – The New York City Economic Development Corporation (EDC), on behalf of the City of New York, is issuing a Request for Expressions of Interest (RFEI) for the redevelopment of Governor's Island, which is located off the southern tip of Manhattan in New York's Upper Bay. EDC is preparing a comprehensive redevelopment plan and is inviting expressions of interest regarding all areas of the Island; acceptable uses include: residential, commercial, educational, recreational and entertainment. The Island is 172 acres. The northern half consists of 102 buildings on 90 acres and is designated as an Historic District. The southern 82 acres were built on landfill and offer the greatest potential for supporting new construction. Most recently, the island was occupied by the U.S. Coast Guard and housed a community of 4,000 military personnel and family members. Submission guidelines and requirements are outlined within the RFEI, which is available from EDC. All requests should be directed to Cheryl Elmore at 212-312-3969. If contacting her by e-mail at info@newyorkbiz.com. please use code 005-GI in the subject line. TEMPORARY AND LONG TERM PARALEGAL SERVICES – 02599X000121 – DUE 8-17-98 AT 5 PM – The City of New York Law Department ("Department") intends to enter into negotiations with one or more qualified firms to award one or more contracts for the provision of temporary and long term paralegal services in support of litigation. Contract award will be by the Negotiated Acquisition method of source selection because it has been determined that it is not practicable or not advantageous to use Competitive Sealed Proposals and that it is not in the best interest of the City, and because award of the contract by Negotiated Acquisition is justified. The Department seeks Expressions of Interest from organizations regularly engaged in providing a high volume of temporary and long term Paralegal personnel to large law firms, legal departments or government agencies having at least 100 attorneys on staff. All Expressions of Interest must be submitted on the Department's Statement of Qualifications ("SOQ") form, which can be picked up at the Fourth Floor East Reception Desk, New York City Law Department, 100 Church Street, New York, N.Y. 10007, between the hours of 9:00 AM and 5:00 PM, Monday through Friday, from August 5, 1998 through August 17, 1998. Completed SOQs must be submitted to Samuel A. Moriber, Agency Chief Contracting Officer, New York City Law Department, 100 Church Street, Room 3-185, New York, N.Y. 10007, no later than the due date specified in this notice.

AGENCY RULES

CAMPAIGN FINANCE BOARD

New York City
Campaign Finance Board

Notice of Opportunity to Comment on Proposed Rules
Relating to Coverage of Domestic Partners

****

IN COMPLIANCE WITH SECTION 1043 OF THE NEW YORK CITY CHARTER, and exercising the authority vested in the New York City Campaign Finance Board under Section 1052(a)(8) of the New York City Charter and section 3-708(8) of the Administrative Code of the City of New York, the Board hereby proposes the following Rules Relating to Coverage of Domestic Partners. Underscoring denotes proposed additions; brackets, "[ ]", denote proposed deletions.

1. Explanation, Basis, and Purpose

Pursuant to its authority under New York City Charter §1052(a)(8) and section 3-708(8) of the Administrative Code of the City of New York, the New York City Campaign Finance Board is proposing amendments to Campaign Finance Board rules. Campaign Finance Board rules are codified in Title 52 of the Official Compilation of the Rules of the City of New York. The subject matter of this rulemaking was not described in the Board's regulatory agenda for fiscal year 1999 because at the time the agenda was published the pertinent local law amendments had not been anticipated.

The proposed rules implement changes in the New York City Campaign Finance Act adopted in Local Law No. 27 of 1998, which was signed into law by the Mayor on July 7, 1998. The new law treats domestic partners, registered in accordance with its provisions, in the same manner as spouses as follows:

- An exception is added to the definition of "intermediary" for the delivery of a contribution by the contributor's domestic partner. Administrative Code §3-702(12).
- Candidates joining the Campaign Finance Program may not use for a covered election the personal funds or property of a domestic partner in an amount that exceeds the Program's contribution limits. Administrative Code §3-703(1)(h).
- Public funds paid to a candidate joining the Program may not be used for payments to the candidate's domestic partner. Administrative Code §3-704(2)(b)

The proposed rules would codify and implement these changes in the law.

II. Opportunity to Comment

Written comments regarding the proposed rules must be sent to the Executive Director of the Campaign Finance Board, 40 Rector Street, 7th Fl., New York, New York 10006, on or before September 15, 1998. A public hearing will be held on September 15, 1998 at the offices of the Board, beginning at 9:30 a.m. Persons wishing to testify are requested to notify the Executive Director of the Campaign Finance Board at the address stated above. Persons who request that a sign language interpreter or other form of reasonable accommodation for a disability be provided at the hearing are asked to notify Nicole A. Gordon at the foregoing address by September 10, 1998. Written comments and a summary of testimony given at the hearing will be available for public inspection, within a reasonable time after receipt, at the offices of the Board on weekdays between the hours of 9 a.m. and 5 p.m.

III. Proposed Rules

1. Campaign Finance Board Rule 1-02 is amended by adding a new definition, "domestic partner", as follows:

"Domestic partner" means a domestic partner as defined in section 1-112(21) of the Code.

2. Campaign Finance Board Rule 1-08(g)(2)(iv) is amended as follows:

(iv) payments made to the candidate or a spouse, domestic partner, child, grandchild, parent, grandparent, brother, or sister of the candidate or spouse or domestic partner of such child, grandchild, parent, grandparent, brother, or sister, or to a business entity in which the candidate or any such person has a 10 percent or greater ownership interest;

3. Campaign Finance Board Rule 2-02(b)(3) is amended as follows:

(3) that the participant has not used and agrees not to use his or her personal funds or property or the personal funds or property of his or her spouse, domestic partner, or unemancipated children in connection with an election, except as contributions to his or her principal committee subject to the contribution limits applicable under the Act (this statement does not restrict the making of contributions by spouses, domestic partners, or children, as permitted by the Act, nor does it prohibit the making of loans, to the extent such loans are not contributions as provided in §3-702(8) of the Code); and

METROPOLITAN TRANSPORTATION AUTHORITY TRANSIT AUTHORITY

■ NOTICE

The New York City Transit Authority (NYCTA) invites vendors interested in doing business with NYCT who have not yet listed themselves with NYCT to do so. Vendors on NYCT's bidders lists are informed of solicitations for the types of goods and services they provide. Vendors are required to complete an application to be added to our bidders lists. We will provide you with general information on doing business with NYCT and other MTA agencies. We encourage minority and women owned business enterprises to participate in our solicitations.
NYCT purchases bus parts, rail car parts, rail, railroad ties and other maintenance of way items and a wide variety of other material and equipment.
The bidders list application can be obtained in person at the Bid Reception Desk at the below address, or by contacting Mr. Don Mulhern at the NYCTA Vendor Performance Unit at (718) 694-4015.
MTA - New York City Transit, 130 Livingston Street, Room 160, Brooklyn, NY 11201. Bid Reception Desk, Monday - Friday, except holidays, 9:00 am - 4:00 pm.

■ NOTICE

NOTICE OF EXTENSION ON THE PUBLIC REVIEW AND COMMENT PERIOD FOR NYCDOT'S DRAFT ENVIRONMENTAL IMPACT STATEMENT FOR LEAD PAINT REMOVAL OPERATIONS ON NYCDOT BRIDGES

The New York City Department of Transportation (NYCDOT) has prepared a Draft Environmental Impact Statement (DEIS) analyzing the potential effects of abrasive blasting and alternative methods of lead paint removal on public health and the environment, and the adequacy of the proposed containment system to protect against such effects during paint-removal activities on NYCDOT bridges.
In response for additional opportunities for the public to review and comment on the DEIS for Paint Removal Operations on NYCDOT Bridges, NYCDOT has extended the public review and comment period from July 30, 1998 to August 24, 1998. Written comments will be accepted by the lead agency on or before August 24, 1998 and should be sent to the Office of Project Analysis/CEQR, New York City Department of Transportation, 40 Worth Street, New York, NY 10013, ATN: Naim Rasheed, Director, Tel: (212) 676-1680, Fax: (212) 442-7912.
The full DEIS is available for public review at NYCDOT's Office of Project Analysis/CEQR and at the NYC Office of Environmental Coordination, Municipal Building, 25th Floor, New York, NY 10007.

CHARTER REVISION COMMISSION

■ NOTICE

The New York City Charter Revision Commission seeks comments from the public on a proposal to amend the New York City Charter to improve the City's campaign finance system. The proposal is intended to ensure the independence of the Campaign Finance Board, prevent corruption by banning campaign contributions from groups doing business with the City and reduce the influance of "soft money" in New York City elections. The text of the proposal is available from the Charter Revision Commission's office and will also be posted on its Internet site.

The Commission will hold two public hearings to hear public testimony on these proposed reforms. The Commission will then hold a public meeting to debate the proposed Charter amendments and make a recommendation to the voters for placement on the November ballot.

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to Section 502(B) of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired for the above named proceeding and having any claim or demand on account thereof is hereby required, on or before January 28, 1999, to file a claim with the Clerk of the Court of Richmond County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, 100 Church Street, Room 5-236A, Borough of Manhattan, City of New York.

The claim shall include the name and post office address of the condemnee, a description of the real property owned by the condemnee or in which the condemnee claims an interest, the nature of the condemnee's interest in the property, a general statement of the nature and type of damages claimed including, if applicable, a schedule of fixture items comprising part or all of the damages claimed, and, if the condemnee is represented, the name, address and telephone number of the condemnee's attorney. In the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.

Pursuant to the Uniform Civil Rules for the Supreme Court and the County Court, §202.61 (a)(1), appraisal reports must be filed or exchanged with the condemnor within nine months after the filing of a post-vesting claim, demand or notice of appearance, unless the time therefor is extended by the court.

The claimant will be required to appear in person to present proof of title and to produce the deed or instrument under which he, she or it claims title, or a certified copy thereof together with copies of leases and rental agreements.

Proof of title will be received by the Corporation Counsel at his office, 100 Church Street, Room 5-236A, Borough of Manhattan, on or before January 28, 1999.

PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitations notices for most procurement above $25,000 for goods or services or above $50,000 for construction and construction related services are published for at least one day.

Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● *Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,*18th Floor, NY, NY 10007 (212) 669-8562

Construction & Construction Related Services

● Mayor's Office of Construction,
Bidders List Unit, 52 Chambers Street, Room 307, New York, NY 10007 (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway 9th Floor,New York, NY 10007 (212) 788-0010 Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual.(see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR.*

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business.

In order to become certified for the program, your company must substantiate that it:

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,

110 William Street, 2nd Floor,

New York, New York 10038 (212) 618-8782.

PROMPT PAYMENT

It is policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bill within 30 days after the receipt of a proper invoice. The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board51 Chambers Street Room 1126, New York 10007 (212) 788-7820

PROCUREMENT POLICY BOARD RULES

To obtain a copy of the Procurement Policy Board Rules either in hard copy or on disk, call the Procurement Policy Board office, (212) 788-7820. The Rules may also be accessed on the City Website, http://www.ci.nyc.ny.us

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

JOB ORDER CONTRACT GENERAL CONSTRUCTION AND ELECTRICAL WORK FOR LIBRARIES, CULTURALS AND TRANSPORTATION PROGRAM UNITS. PROJECT NO. LCT-JOC1 – CSB – DUE 9-1-98 AT 11 AM – Pin: 85099RQ0001C - General Construction
Pin: 85099RQ0002C - Electrical Work
Bid document deposit $35.00 a set.

Sealed bids will be received by the New York City Department of design and Construction (hereinafter called the "city") from bidders for the Contract hereinafter set forth due at the dates and times specified below.

Department of Design and Construction Bid Room, First Floor, 30-30 Thomson Avenue, Long Island City, NY 11101 following which time and place, or as soon thereafter as the City can attend the same, the said bids will be publicly opened and read and tabulated at the Department of Design and Construction by an authorized representative of the Commissioner. The Commissioner will thereafter award the contract based upon the result of the tabulations as covered by applicable laws and regulations.

A bid deposit shall be required in the amount of either a Certified Check for $25,000.00 or a Bond for not less than 10% of the Maximum Contract Amount.

This solicitation for a Job Order Contract which is competitively bid, indefinite quantity contract. The bidders bid an adjustment to pre-set unit prices. The price of individual projects pre calculated by multiplying the unit price by the quantity and the appropriate adjustment factor.

The Job Order Contract awarded under this solicitation will have the following value:

Contract – Minimum Guarantee – Maximum Contract Amount – Bid Due

General – $50,000.00 – $15,000,000.00 – September 1, 1998 at 11:00 am
Electrical – $50,000.00 – $4,000,000.00 – September 1, 1998 at 11:00 am

The basic term of the contract will be for 24 months and will include an option for one (1) additional two year period. It is the current intention of the City to award the (1) Job Order Contract under each solicitation listed above. Withdrawal of bid is permissible after 45 days from date of bid opening, provided such withdrawal is made prior to initial contract award.

Every Contractor is limited to the award of one contract from the contracts solicited by the Department of Design and Construction as part of the JOC program. Bids will not be accepted from contractors currently holding a JOC contract with the Department of Design and Construction. If the contractor is the apparent low bidder on the contracts now advertised, the contract awarded, if at all, will be on the basis which results in the lowest total overall cost to the City for the contracts.

The work envisioned under this Contract will be primarily in support of facilities improvements for the Library, Cultural, and Transportation Units. However, the City, at its sole discretion, may require the contractor to perform other work anywhere within New York City. The City reserves the right to award and use multiple Job Order Contracts.

Interest Parties must attend two mandatory pre-bid conferences. The first prebid conference will be held August 12, 1998 from 10:00 - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing the Job Order contracting theory and the specifics of the JOC program. The second prebid conference will be held August 19, 1998 from 10:00 am - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing Job Order Contracting from a contractor's perspective, how to ananlyze the Unit Price Book, and the risks involved in the program and answering questions.

Each bidder must submit two price adjustment factors for each of the City's five (5) Boroughs. These adjustment factors will be applied to the established unit prices published in the Contract Documents. These same adjustment factors must apply to all the work tasks listed in the Contract Documents. The first adjustment factor will be applied to that work anticipated to be accomplished during normal business hours. The second adjustment factor will be applied to the work anticipated to be accomplished in the other than regular business hours. For the bid evaluation purpose it is estimated that the work distribution within the five (5) boroughs will be equal and that 5% of the total work accomplished under this contract will be during other than regular hours.

Interested parties may obtain one set of the bid and contract documents following the first mandatory pre-bid conference for a deposit of thirty-five dollars ($35.00). The deposit must be in the form of a company check or money order made payable to the City of New York, and drawn upon a state or national bank or trust company, or a check or such bank or trust company signed by a duly authorized officer thereof.

The successful bidder must make a good faith effort to achieve the Locally Based Enterprises (LBE) subcontracting goal.

The City reserves the right to waive minor informalities and to reject any and all bids, in accordance with the rules of the Policy and Procurement Board and the New York City Charter.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

RFEI - GOVERNOR'S ISLAND – CP/2 – DUE 9-11-98 AT 3 PM – The New York City Economic Development Corporation (EDC), on behalf of the City of New York, is issuing a Request for Expressions of Interest (RFEI) for the redevelopment of Governor's Island, which is located off the southern tip of Manhattan in New York's Upper Bay. EDC is preparing a comprehensive redevelopment plan and is inviting expressions of interest regarding all areas of the Island; acceptable uses include: residential, commercial, educational, recreational and entertainment. The Island is 172 acres. The northern half consists of 102 buildings on 90 acres and is designated as an Historic District. The southern 82 acres were built on landfill and offer the greatest potential for supporting new construction. Most recently, the island was occupied by the U.S. Coast Guard and housed a community of 4,000 military personnel and family members. Submission guidelines and requirements are outlined within the RFEI, which is available from EDC. All requests should be directed to Cheryl Elmore at 212-312-3969. TEMPORARY AND LONG TERM PARALEGAL SERVICES – 02599X000121 – DUE 8-17-98 AT 5 PM – The City of New York Law Department ("Department") intends to enter into negotiations with one or more qualified firms to award one or more contracts for the provision of temporary and long term paralegal services in support of litigation. Contract award will be by the Negotiated Acquisition method of source selection because it has been determined that it is not practicable or not advantageous to use Competitive Sealed Proposals and that it is not in the best interest of the City, and because award of the contract by Negotiated Acquisition is justified. The Department seeks Expressions of Interest from organizations regularly engaged in providing a high volume of temporary and long term Paralegal personnel to large law firms, legal departments or government agencies having at least 100 attorneys on staff. All Expressions of Interest must be submitted on the Department's Statement of Qualifications ("SOQ") form, which can be picked up at the Fourth Floor East Reception Desk, New York City Law Department, 100 Church Street, New York, N.Y. 10007, between the hours of 9:00 AM and 5:00 PM, Monday through Friday, from August 5, 1998 through August 17, 1998. Completed SOQs must be submitted to Samuel A. Moriber, Agency Chief Contracting Officer, New York City Law Department, 100 Church Street, Room 3-185, New York, N.Y. 10007, no later than the due date specified in this notice.

AGENCY RULES

BUILDINGS

PROMULGATION OF RULE 12-01 RELATING TO EMERGENCY POWER SYSTEMS REQUIREMENTS.

In compliance with Section 1043 of the New York City Charter, the Department of Buildings hereby promulgates the following rule relating to emergency power systems requirements.

Dated: July 16, 1998
New York, New York

Gaston Silva
Commissioner

Material to be deleted appears in [brackets]
New material is underlined

§12-01 Emergency Power System Requirements.

***

Add new paragraph (h) as follows:

(h) Automatic Transfer Devices and Power Generation Feeders.

(1) **New Buildings** - (i) All automatic transfer devices, emergency generators and emergency power generation feeders that serve required emergency fire protection systems shall not be located in the same room as the main or primary electrical service equipment.

(ii) Any automatic transfer device that is not located at the load shall be located within an enclosed room or space that has a 2-hour fire resistance rated enclosure, and that complies with the New York City Electrical Code requirements for Electrical Closets and Switchboard Rooms or Areas. The enclosed room or space shall contain no equipment or piping other than sprinkler piping, control panels and electrical conduit associated with Fire/Safety Systems.

(2) **Existing Buildings** - (i) Emergency power generation feeders and automatic transfer devices that are required to be installed in existing buildings pursuant to Section 27-115 or 27-118(a) of the Administrative Code shall not be located in the same room as the main or primary electrical service equipment.

(ii) Any automatic transfer device that is not located at the load shall be remotely located or separated by 2-hour fire resistance rated construction from the emergency generator and any fuel burning equipment.

The existing paragraph designations are changed as follows:

[h](i) Ventilating Air. - Provisions shall be . . .

[i](j) Application. - The emergency power system shall be . . .

[j](k) Certificate of Electrical Inspection. - A licensed electrician shall . . .

[k](l) Registration. - Emergency power generation equipment shall be . . .

[l](m) Inspection and Test. - Generator sets serving emergency power systems shall be . . .

Add new paragraphs (n) and (o) as follows:

(n) Emergency generators installed indoors shall be located within a room or space that has a two (2) hour fire resistance rating enclosure. The room or space shall contain no equipment or piping other than sprinkler piping, control panels, electrical conduits, and fuel tanks associated with the emergency generation systems, and shall be located away from areas that may be prone to flooding or damage from other natural causes.

Emergency generators installed indoors in existing buildings shall be located within a room or space that has a two (2) hour fire resistance rating enclosure.

(o) Water-cooled emergency generators shall not rely solely upon a single city water connection. The additional source of water for cooling may be obtained from:

(i) another water main connection;

(ii) a suction tank;

(iii) a gravity tank; or

(iv) any other system acceptable to the commissioner.

STATEMENT OF BASIS AND PURPOSE

These amendments to the rules governing Emergency Power, §12-01 of RCNY, are a result of the work done by the committee studying the effects of the bombing of the World Trade Center on February 26, 1993.

For new buildings, the amendments require that the emergency generators that serve emergency fire protection equipment and their automatic transfer switches not be located in the same room as primary electrical service equipment. The automatic transfer switches must either be located at the devices they provide emergency power for or be located in a two-hour fire resistance rated enclosure containing no equipment or piping other than that associated with fire/safety systems. Emergency generators must be located in a two-hour fire resistance rated enclosure that is not prone to flooding or damage due to other natural causes.

These requirements will minimize the possibility that the emergency which disables the primary electrical service equipment will not also disable the emergency electrical service equipment, or that flooding due to water main breaks will not reach the emergency generator thereby requiring it to be shut off in order to prevent electrocution of the evacuees and/or emergency service personnel.

For existing buildings, the committee is aware of the difficulty in locating an emergency generator in a separate two-hour fire resistance rated enclosure. Therefore, the amendments permit the generator to be installed in an existing two-hour fire resistance rated mechanical equipment room provided that the automatic transfer switches are not located in the same room as the primary electrical service equipment. These should be either remotely located from or separated by two-hour fire resistance rated construction from the emergency generator and any other fuel burning equipment, if not located at the equipment they serve.

For all buildings, water cooled emergency generators must have another source of cooling water secondary to a single city water main connection. This requirement will minimize the possibility of a water main break related to the emergency cutting off the sole source of cooling water, thereby disabling the generator.

Air cooled generators are not affected by this requirement.

HOUSING PRESERVATION & DEVELOPMENT

PUBLIC NOTICE

CITY OF NEW YORK
DEPARTMENT OF HOUSING PRESERVATION AND DEVELOPMENT

TAX SYNDICATION SHARING PROGRAM

Pursuant to Section 28-06(b)(1) of the Rules of the City of New York, notice is hereby given that the Department of Housing Preservation and Development ("HPD") of the City of New York ("City") has proposed the execution of an Escrow Disbursement Agreement ("EDA") with Abyssinian Development Corporation ("Community Group") under the Tax Syndication Sharing Program ("Program").

Under the Program, which is administered by HPD pursuant to Chapter 28 of Title 2B of the Rules of the City of New York, the developers of certain City-aided housing developments are required to set aside a portion of their revenues for community projects. The developers deposit such revenues ("Syndication Funds") with the City, which holds them in escrow pending the selection of appropriate community groups and projects by HPD. HPD and the Community Group will enter into an escrow disbursement agreement pursuant to which the Community Group will receive Syndication Funds to be used to create a playlot at four contiguous vacant lots at 75 W. 127th Street, New York (Block 1725, Lots 6, 7, 8, 107).

The proposed EDA is available for public examination at the office of HPD, Room 9 I 1, 100 Gold Street, New York, during its regular hours on weekdays from 9 a.m. to 5 p.m.

PLEASE TAKE NOTICE that members of the public may comment on this proposed disbursement and/or the EDA by writing Pauline Feingold, 100 Gold Street, Room 9 I 1, New York, NY 10038. Written comments must be received no later than 14 days from the date of this notice.

Publication Date: August 10, 1998

■ NOTICE

NOTICE OF EXTENSION ON THE PUBLIC REVIEW AND COMMENT PERIOD FOR NYCDOT'S DRAFT ENVIRONMENTAL IMPACT STATEMENT FOR LEAD PAINT REMOVAL OPERATIONS ON NYCDOT BRIDGES

The New York City Department of Transportation (NYCDOT) has prepared a Draft Environmental Impact Statement (DEIS) analyzing the potential effects of abrasive blasting and alternative methods of lead paint removal on public health and the environment, and the adequacy of the proposed containment system to protect against such effects during paint removal activities on NYCDOT bridges.
In response for additional opportunities for the public to review and comment on the DEIS for Paint Removal Operations on NYCDOT Bridges, NYCDOT has extended the public review and comment period from July 30, 1998 to August 24, 1998. Written comments will be accepted by the lead agency on or before August 24, 1998 and should be sent to the Office of Project Analysis/CEQR, New York City Department of Transportation, 40 Worth Street, New York, NY 10013, ATN: Naim Rasheed, Director, Tel: (212) 676-1680, Fax: (212) 442-7912.
The full DEIS is available for public review at NYCDOT's Office of Project Analysis/CEQR and at the NYC Office of Environmental Coordination, Municipal Building, 25th Floor, New York, NY 10007.

TAXI AND LIMOUSINE COMMISSION

■ NOTICE

NEW YORK CITY TAXI AND LIMOUSINE COMMISSION

Notice of Final Publication

Notice is hereby given in accordance with section 1043(b) of the Charter of the City of New York, that the Taxi and Limousine Commission is amending the Taxicab Owners Rules, Taxicab Driver's Rules, and the For-Hire Vehicle Rules, to redefine and clarify the existing prohibition against fraud, larceny, and other conduct against the best interest of the public, and to increase the *penalties for said violations, up to and including mandatory revocation.*

The Taxi and Limousine Commission ("TLC") is promulgating such regulations pursuant to the authority vested in the TLC under Charter section 2303(a) and 2303(b)(2) and (13); and under sections 19-503 and 19-505 of the Administrative Code of the City of New York.

A public hearing in connection with these proposed regulations was held on Thursday, May 28, 1998, by the NYC Taxi and Limousine Commission, at 2 Washington Street, New York, NY.

Section 1. Title 35 of the Rules of the City of New York, Chapter 1, Taxicab Owners Rules, subdivision (b) of Section 1-60 Compliance With Law, is amended to read as follows:

[] Indicate deleted material.
Italics indicate new material.

Section 1-60 Compliance With Law.

(b)*(1)* An owner, while performing his duties and responsibilities as a taxicab owner, shall not commit or attempt to commit, alone or in concert with another, any act of fraud, misrepresentation or larceny [or perform any willful act of omission or commission which is against the best interests of the public, although not specifically prescribed in these rules] *against a passenger, Commission representative, public servant or any other person.*

(2) An owner, while performing his duties and responsibilities as a taxicab owner, shall not commit or attempt to commit, alone or in concert with another, any willful act of omission or commission which is against the best interests of the public, although not specifically prescribed in these rules.

Section 2. Title 35 of the rules of the City of New York, Chapter 1, Taxicab Owners Rules, Section 1-86, Penalties for Violation of Rules Governing Owners of Medallion Taxicabs, is amended to read as follows:

[] Indicate deleted material.

Statement of Basis and Purpose

The regulations promulgated herein by the New York City Taxi and Limousine Commission ("TLC") are authorized under section 2303(a) of the Charter of the City of New York, which empowers the TLC to regulate and supervise the business and industry of transportation of persons by licensed vehicles for-hire in the city; under section 2303(b)(2) of such Charter, authorizing the TLC to regulate standards of service; under section 2303(b)(13) of such Charter, authorizing TLC to promulgate rules and regulations reasonably designed to carry out its purposes, under section 19-503 of the Administrative Code of the City of New York, authorizing the TLC to promulgate rules and regulations necessary to exercise authority conferred upon it by the Charter; and under section 19-505 of said Administrative Code, authorizing the TLC to issue taxicab drivers licenses, for-hire vehicle drivers licenses and paratransit vehicle drivers licenses.

The rule amendments change the existing rules for taxicab and for-hire vehicle owners and drivers which prohibit fraud, misrepresentation, larceny or other actions against the best interest of the public, by dividing each rule into two subdivisions: one, prohibiting fraud, misrepresentation and larceny against either the Commission, a passenger, or another member of the public; and the other, prohibiting acts of commission or omission which are not otherwise prohibited by the rules but which are against the best interests of the public. The first subdivision, which would prohibit the most serious offenses acts of larceny or fraud against the Commission or the public, would carry a penalty which can include the possibility of a substantial fine, suspension or revocation. The second subdivision would carry a lower monetary penalty, but would also include the possibility of susnension or revocation.

The purpose of these rule changes is to protect the riding public from serious acts committed by owners and drivers of taxicabs and for-hire vehicles by enabling the Commission to impose severe penalties, up to and including license revocation, against those who commit serious acts of fraud or larceny against the Commission or the public. The rule, as presently drafted, is very broad. Its provisions apply to both egregious forms of misconduct and less serious offenses. Establishing two separate classifications of offenses, with different penalties, enables the Commission to better protect the public by ensuring that the penalties imposed under these rules are proportionate to the offense and have a significant deterrent effect

CHARTER REVISION COMMISSION

■ NOTICE

The New York City Charter Revision Commission seeks comments from the public on a proposal to amend the New York City Charter to improve the City's campaign finance system. The proposal is intended to ensure the independence of the Campaign Finance Board, prevent corruption by banning campaign contributions from groups doing business with the City and reduce the influance of "soft money" in New York City elections. The text of the proposal is available from the Charter Revision Commission's office and will also be posted on its Internet site.

The Commission will hold two public hearings to hear public testimony on these proposed reforms. The Commission will then hold a public meeting to debate the proposed Charter amendments and make a recommendation to the voters for placement on the November ballot.

PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitations notices for most procurement above $25,000 for goods or services or above $50,000 for construction and construction related services are published for at least one day.

Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● *Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,* 18th Floor, NY, NY 10007 (212) 669-8562

Construction & Construction Related Services

● Mayor's Office of Construction,

Bidders List Unit, 52 Chambers Street, Room 307, New York, NY 10007 (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway 9th Floor,New York, NY 10007 (212) 788-0010 Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual.(see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business.

In order to become certified for the program, your company must substantiate that it:

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,

110 William Street, 2nd Floor,

New York, New York 10038 (212) 618-8782.

PROMPT PAYMENT

It is policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bill within 30 days after the receipt of a proper invoice. The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board51 Chambers Street Room 1126, New York 10007 (212) 788-7820

PROCUREMENT POLICY BOARD RULES

To obtain a copy of the Procurement Policy Board Rules either in hard copy or on disk, call the Procurement Policy Board office, (212) 788-7820. The Rules may also be accessed on the City Website, http://www.ci.nyc.ny.us

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Electrical – $50,000.00 – $4,000,000.00 – September 1, 1998 at 11:00 am

The basic term of the contract will be for 24 months and will include an option for one (1) additional two year period. It is the current intention of the City to award the (1) Job Order Contract under each solicitation listed above. Withdrawal of bid is permissible after 45 days from date of bid opening, provided such withdrawal is made prior to initial contract award.

Every Contractor is limited to the award of one contract from the contracts solicited by the Department of Design and Construction as part of the JOC program. Bids will not be accepted from contractors currently holding a JOC contract with the Department of Design and Construction. If the contractor is the apparent low bidder on the contracts now advertised, the contract awarded, if at all, will be on the basis which results in the lowest total overall cost to the City for the contracts.

The work envisioned under this Contract will be primarily in support of facilities improvements for the Library, Cultural, and Transportation Units. However, the City, at its sole discretion, may require the contractor to perform other work anywhere within New York City. The City reserves the right to award and use multiple Job Order Contracts.

Interest Parties must attend two mandatory pre-bid conferences. The first prebid conference will be held August 12, 1998 from 10:00 - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing the Job Order contracting theory and the specifics of the JOC program. The second prebid conference will be held August 19, 1998 from 10:00 am - 12:00 pm in the 5th floor conference room, of the Department of Design and Construction, 30-30 Thomson Ave., Long Island City, New York 11101, for the purpose of discussing Job Order Contracting from a contractor's perspective, how to ananlyze the Unit Price Book, and the risks involved in the program and answering questions.

Each bidder must submit two price adjustment factors for each of the City's five (5) Boroughs. These adjustment factors will be applied to the established unit prices published in the Contract Documents. These same adjustment factors must apply to all the work tasks listed in the Contract Documents. The first adjustment factor will be applied to that work anticipated to be accomplished during normal business hours. The second adjustment factor will be applied to the work anticipated to be accomplished in the other than regular business hours. For the bid evaluation purpose it is estimated that the work distribution within the five (5) boroughs will be equal and that 5% of the total work accomplished under this contract will be during other than regular hours.

Interested parties may obtain one set of the bid and contract documents following the first mandatory pre-bid conference for a deposit of thirty-five dollars ($35.00). The deposit must be in the form of a company check or money order made payable to the City of New York, and drawn upon a state or national bank or trust company, or a check or such bank or trust company signed by a duly authorized officer thereof.

The successful bidder must make a good faith effort to achieve the Locally Based Enterprises (LBE) subcontracting goal.

The City reserves the right to waive minor informalities and to reject any and all bids, in accordance with the rules of the Policy and Procurement Board and the New York City Charter.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

RFEI - GOVERNOR'S ISLAND – CP/2 – DUE 9-11-98 AT 3 PM – The New York City Economic Development Corporation (EDC), on behalf of the City of New York, is issuing a Request for Expressions of Interest (RFEI) for the redevelopment of Governor's Island, which is located off the southern tip of Manhattan in New York's Upper Bay. EDC is preparing a comprehensive redevelopment plan and is inviting expressions of interest regarding all areas of the Island; acceptable uses include: residential, commercial, educational, recreational and entertainment. The Island is 172 acres. The northern half consists of 102 buildings on 90 acres and is designated as an Historic District. The southern 82 acres were built on landfill and offer the greatest potential for supporting new construction. Most recently, the island was occupied by the U.S. Coast Guard and housed a community of 4,000 military personnel and family members. Submission guidelines and requirements are outlined within the RFEI, which is available from EDC. All requests should be directed to Cheryl Elmore at 212-312-3969. If contacting her by e-mail at info@newyorkbiz.com. please use code 005-GI in the subject line.
