SOLICITATIONS

Y2K SOFTWARE CODING SERVICES – 02599X001121 – DUE 10-19-98 AT 5 PM – The City of New York Law Department ("Department") intends to enter into negotiations with one or more qualified software consulting firms to award a contract to re-code the Department's current case management and tracking sytem, known as the New York City Law Information System ("NYCLIS"), so that it is Year 2000 Compliant. The sysem is a CICS-based application with both COBOL and Assembler language programs. The system contains approximately 400,000 lines of base code and another 500,000 to 600,000 lines of codes produced by an application generator. In addition to converting the application code, the NYCLIS database must be converted and reformatted for the new date filed formats. The contractor must ensure that no record pointers are corrupted during the database conversion effort. Relevant experience is preferred. Contract award will be by the Negotiated Acquisition method of source selection, based upon the determination that it is not practicable or not advantageous to award this contract by competitive sealed bid or proposal process because there is a limited number of suppliers available and able to perform these services and there is a need to retain a supplier quickly, and that award of the contract by negotiated acquisition is in the City's best interest. Any qualified firm which believes it can provide the services described above is invited to exxpress its interest by letter, which must be received no later than the due date and time, and at the location, specified in this notice.
Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

NOTICE OF AVAILABILITY OF NYCDOT'S FINAL ENVIRONMENTAL IMPACT STATEMENT FOR LEAD PAINT REMOVAL OPERATIONS ON NYCDOT BRIDGES

Pursuant to the State Environmental Quality Review Act (SEQRA) and its implementing regulations, New York City has established rules for the City's Environmental Quality Review (CEQR). Under CEQR, the New York City Department of Transportation (NYCDOT), acting as lead agency, has issued a Final Environmental Impact Statement (FEIS) on the proposed action.

A Draft Environmental Impact Statement (DEIS) was prepared by NYCDOT, analyzing the effects of abrasive blasting and alternative methods of lead paint removal on public health and the environment, and the adequacy of the proposed containment system to protect against such effects during paint removal activities on NYCDOT bridges. The DEIS was certified as being complete and was published and distributed for public review. Comments on the DEIS were received at the public hearing or were submitted in writing to the NYCDOT through August 24, 1998, the close of the public comment period.

The FEIS document includes a summary of the comments on the DEIS and responds to relevant issues. NYCDOT has determined that the FEIS is complete and has issued a Notice of Completion. The Department will use the FEIS to make CEQR Statement of Findings, which addresses the impacts and mitigation, before making its decision on implementing the proposed action.

The full FEIS is available for public review at NYCDOT's Office of Project Analysis/CEQR and at the NYC Office of

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. NOTICE OF AVAILABILITY OF NYCDOT'S FINAL ENVIRONMENTAL IMPACT STATEMENT FOR LEAD PAINT REMOVAL OPERATIONS ON NYCDOT BRIDGES

Pursuant to the State Environmental Quality Review Act (SEQRA) and its implementing regulations, New York City has established rules for the City's Environmental Quality Review (CEQR). Under CEQR, the New York City Department of Transportation (NYCDOT), acting as lead agency, has issued a Final Environmental Impact Statement (FEIS) on the proposed action.

A Draft Environmental Impact Statement (DEIS) was prepared by NYCDOT, analyzing the effects of abrasive blasting and alternative methods of lead paint removal on public health and the environment, and the adequacy of the proposed containment system to protect against such effects during paint removal activities on NYCDOT bridges. The DEIS was certified as being complete and was published and distributed for public review. Comments on the DEIS were received at the public hearing or were submitted in writing to the NYCDOT through August 24, 1998, the close of the public comment period.

The FEIS document includes a summary of the comments on the DEIS and responds to relevant issues. NYCDOT has determined that the FEIS is complete and has issued a Notice of Completion. The Department will use the FEIS to make CEQR Statement of Findings, which addresses the impacts and mitigation, before making its decision on implementing the proposed action.

The full FEIS is available for public review at NYCDOT's Office of Project Analysis/CEQR and at the NYC Office of Environmental Coordination, Municipal Building, 25th Floor, New York, NY 10007.

Solicitations notices for most procurement above $25,000 for goods or services or above $50,000 for construction and construction related services are published for at least one day.

Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR.*

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for *the general use of prequalified lists.*

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

NOTICE OF AVAILABILITY OF NYCDOT'S FINAL ENVIRONMENTAL IMPACT STATEMENT FOR LEAD PAINT REMOVAL OPERATIONS ON NYCDOT BRIDGES

Pursuant to the State Environmental Quality Review Act (SEQRA) and its implementing regulations, New York City has established rules for the City's Environmental Quality Review (CEQR). Under CEQR, the New York City Department of Transportation (NYCDOT), acting as lead agency, has issued a Final Environmental Impact Statement (FEIS) on the proposed action.

A Draft Environmental Impact Statement (DEIS) was prepared by NYCDOT, analyzing the effects of abrasive blasting and alternative methods of lead paint removal on public health and the environment, and the adequacy of the proposed containment system to protect against such effects during paint removal activities on NYCDOT bridges. The DEIS was certified as being complete and was published and distributed for public review. Comments on the DEIS were received at the public hearing or were submitted in writing to the NYCDOT through August 24, 1998, the close of the public comment period.

The FEIS document includes a summary of the comments on the DEIS and responds to relevant issues. NYCDOT has determined that the FEIS is complete and has issued a Notice of Completion. The Department will use the FEIS to make CEQR Statement of Findings, which addresses the impacts and mitigation, before making its decision on implementing the proposed action.

The full FEIS is available for public review at NYCDOT's Office of Project Analysis/CEQR and at the NYC Office of Environmental Coordination, Municipal Building, 25th Floor, New York, NY 10007.

■ NOTICE

NEW YORK CITY TAXI AND LIMOUSINE COMMISSION

Notice of Final Publication

Notice is hereby given in accordance with section 1043(b) of the Charter of the City of New York, that the Taxi and Limousine Commission is promulgating an amendment to the Taxicab Drivers Rules to restructure the Driver License Applicant Training course, replacing a series of applicant training classes with one standardized eighty (80) hour course required of all applicants.

The Taxi and Limousine Commission ("TLC") is promulgating such regulations pursuant to authority vested in the TLC under Charter sections 2303(a) and 2303(b); and under section 19-503 of the Administrative Code of the City of New York.

A public hearing in connection with these proposed regulations was held on September 23, 1998, at 10:00 a.m., at the NYC Taxi and Limousine Commission, 40 Rector Street, Fifth Floor, New York County.

Title 35 of the Rules of the City of New York, Chapter 2, Taxicab Drivers Rules, Rule 2-03, Driver License Applicant Training, is hereby amended to read as follows:

[ ] Brackets indicate deleted material.
Italics indicate new material.

Section 2-03 Driver License Applicant Training.

(a)[(1)] All applicants for a taxicab driver's license are required to attend and pass an authorized course of training in taxi-related subjects. *This course shall contain eighty (80) hours of instruction. The course shall include, but not be limited to, instruction on Commission rules and procedures, geography, map reading skills, driver/passenger relations and courtesy, as well as any other material deemed appropriate or relevant by the Commission.* An applicant must [submit a certificate that he has] successfully complete[d] such course, *and pass an examination administered by the Commission on mandatory subjects, as well as proficiency in the English language,* as a prerequisite to obtaining a taxicab driver's license.

[(2) Prior to attending an authorized course, all applicants must take a two-part examination testing their knowledge of the English language. Part one of the examination tests whether applicants have English skills sufficient to understand a 40-hour course teaching English in taxi-related matters. Part two of the examination tests whether applicants have sufficient English skills to drive a taxicab and understand a 40-hour taxicab training program. Applicants may not take the English examination more often than once every three months.

(3) Applicants who pass both parts of the English examination will be permitted to take an "Advanced Placement" examination. The Advanced Placement examination tests whether applicants already possess knowledge of certain material taught in the 40-hour taxicab training program. This knowledge includes how to use and read a map atlas and basic geography of the city. Applicants who pass the Advanced Placement examination may enroll to complete a 14-hour course in taxi driver regulations, in fulfillment of the requirements of §2-03(a)(1).

(4) Applicants who pass both parts of the English examination, and have not passed the Advanced Placement examination, will be required to complete a 40-hour taxicab training program in geography, TLC rules, driver-passenger relations and defensive driving.

(5) Applicants who pass part one of the English examination, and have not passed part two, will be required to complete an 80-hour program, which includes 40 hours of training in English in taxi-related matters and 40 hours of taxicab training in geography, TLC rules, driver-passenger relations and defensive driving.]

(b) [The authorized providers of a course of training may charge each applicant enrolled in such course a fee as follows:

(1) for the Advanced Placement course described in §2-03(a)(3), a fee not to exceed Forty-five Dollars ($45).

(2) for the 40-hour taxicab training course described in §2-03(a)(4), a fee not to exceed One Hundred Twenty-five Dollars ($125).

(3) for the 80-hour course described in §2-03(a)(5), a fee not to exceed Two Hundred Fifty Dollars ($250).] *Providers of authorized training services must be approved by the Commission and must administer the curriculum required by the Commission as set forth in subdivision (a). The Commission must also approve any and all charges to applicants by authorized providers of training services.*

Statement of Basis and Purpose

The regulation promulgated herein by the New York City Taxi and Limousine Commission ("TLC") is authorized under section 2303(a) of the Charter of the City of New York, which permits TLC to regulate and supervise the business and industry of transportation of persons by licensed vehicles for hire in the city; under section 2303(b)(5) of such Charter, authorizing TLC to promulgate rules and regulations regarding the licensing of taxicab drivers; under section 2303(b)(13) of such Charter, authorizing the TLC to promulgate rules and regulations reasonably designed to carry out its purposes; and under section 19-503 of the Administrative Code of the City of New York, authorizing TLC to promulgate rules and regulations necessary to exercise the authority conferred upon it by the Charter.

The adopted rule replaces the series of fourteen (14), forty (40) and eighty (80) hour applicant training classes presently being offered with one standardized eighty (80) hour class required of all applicants. Applicants for a taxicab driver's license are currently administered an English proficiency test by the Commission upon submission of their application. The examination is administered in two parts: (1) applicants who pass only the first component of the exam qualify for the 80 hour course; and (2) applicants who pass both the first and second portions of the exam qualify for the 40 hour course. An applicant who fails both portions of the exam does not qualify for either the 40 hour or the 80 hour course, and he or she is eligible to be re-tested after three months.

The 40-hour course emphasizes taxi related subjects, including map reading and geography. The 80-hour course includes instruction in English language skills, as well as the same taxi related subjects that are covered in the 40 hour course. In addition, applicants may also qualify for a 14-hour advanced placement course – a condensed course which emphasizes geography and TLC regulations. Very few applicants have qualified for the 14-hour advanced placement class.

This rule standardizes the applicant testing process by requiring that all applicants enroll in and complete a comprehensive, eighty (80) hour training class. This class will expand and intensify instruction on such topics as geography and map reading, which would assure the driver's familiarity with New York City locations. It will also include extensive instruction on route design, passenger courtesy, and familiarity with TLC rules and the consequences of violating them. Changes in the rules recently enacted by the Commission will be highlighted in this course. Instruction in these subjects is particularly important in light of the recent rule changes mandating more serious penalties, including possible suspension or revocation of licenses, for certain TLC rule violations.

The Commission will no longer provide instruction in English language skills as part of the applicant training process. This change is consistent with existing TLC rules, which make English proficiency a prerequisite for licensure.

In order to assure integrity and proper control over the issuance of licenses, the Commission will incorporate an English proficiency component into the final examination covering taxi-related subjects, upon the completion of the eighty (80) hour course of study.

This rule abolishes both the 40 hour class and the 14 hour Advanced-Placement class, replacing it with a standardized 80 hour course for all applicants. This change is necessary because the material to be taught to all applicants, including essential taxi-related skills such as map reading and geography, driver courtesy, route design, and knowledge of TLC rules and procedures, cannot be adequately covered in less than eighty- (80) hours of instruction.

The rule amendment also deletes references to the fee schedule charged for the course by the TLC approved taxi schools, thereby enabling the Commission to adjust the course fee, as necessary, without a rule amendment. The deletion of the fee schedule allows the Commission to exercise agency discretion and flexibility in its dealings with the taxi schools, so that it may administratively monitor limitations on the fees charged to taxicab driver applicants, as part of its oversight and control of the quality of the education offered by the designated schools.

Statement of Basis and Purpose

The rules promulgated herein by the New York City Taxi and Limousine Commission ("TLC") are authorized under Section 2303(a) of the New York City Charter, authorizing TLC to regulate and supervise the business and industry of transportation of persons by licensed vehicles for hire in New York City; under Section 2303(b)(2) of such Charter, which authorizes the TLC to establish standards for service and safety under Section 2303(b)(13) of such Charter, which authorizes the TLC to promulgate rules and regulations reasonably designed to carry out its purposes; and under Section 19-503 of the Administrative Code of the City of New York, authorizing TLC to promulgate rules and regulations necessary to exercise the authority conferred upon it by the Charter.

On May 28, 1998, the TLC adopted changes to its rules which amended and reconstituted the TLC's Persistent Violator Program, replacing the system where taxicab driver rule violations are assigned a class number with a point system. In addition, a Persistent Violator Program with a similar point system was established for for-hire vehicle drivers.

This amendment makes certain technical changes to the numbering of several rules. As part of the TLC Reforms adopted on May 28, 1998 by the Commission, certain traffic offenses were defined as hazardous moving violations and renumbered. These violations were assigned points pursuant to the Persistent Violator Program. For the purpose of clarity, the rule sections assigning points under the Persistent Violators Program are renumbered to conform to the changes in the hazardous moving violation sections.

The appeal must be made within five (5) working days of the receipt of the Step 1 determination. A copy of the grievance appeal shall be sent to the person who initially passed upon the grievance. The person designated to receive the appeal at this Step shall meet with the employee and/or the Union for review of the grievance and shall issue a determination in writing to the employee and/or the Union by the end of the tenth work day following the date on which the appeal was filed.

Step 3. An appeal from an unsatisfactory determination at Step 2, shall be presented in writing to the agency head or his designated representative. The appeal must be made within five (5) working days of the receipt of the Step 2 determination. The agency head or his designated representative, if any, shall meet with the employee and/or the Union for review of the grievance and shall issue a determination in writing by the end of the tenth work day following date on which the appeal is received.

Step 4. An appeal from an unsatisfactory determination at Step 3 shall be presented by the employee and/or the Union to the Commissioner of Labor Relations, in writing, within ten (10) working days of the receipt of the Step 3 determination. Copies of such appeal shall be sent to the agency. The Commissioner of Labor Relations or his designee shall review all appeals from Step 3 determinations and shall answer such appeals within ten (10) working days following the date on which the appeal was filed.

Step 5. An appeal from an unsatisfactory determination at Step 4 may be brought solely by the Union to the Office of Collective Bargaining for impartial arbitration within fifteen (15) working days of receipt of the Step 4 determination. In addition, the Employer shall have the right to bring directly to arbitration any dispute between the parties concerning any matter defined herein as a "grievance." The Employer shall commence such arbitration by submitting a written request therefore to the Office of Collective Bargaining. A copy of the notice requesting impartial arbitration shall be forwarded to the opposing party. The arbitration shall be conducted in accord with Title 61 of the Rules of the City of New York. The costs and fees of such arbitration shall be borne equally by the Union and the Employer. The determination or award of the arbitrator shall be final and binding in accord with applicable law and shall not add to, subtract from or modify any contract, rule, regulation, written policy or order mentioned in Subsection (a) of this Section.

(c) As a condition to the right of the Union to invoke impartial arbitration set forth in this Section, including the arbitration of a grievance involving a claimed improper holding of an open-competitive rather than a promotional examination, the employee or employees and the Union shall be required to file with the Director of the Office of Collective Bargaining a written waiver of the right, if any, of the employee or employees and the Union to submit the underlying dispute to any other administrative or judicial tribunal except for the purpose of enforcing the arbitrator's award.

(d) Any grievance of a general nature affecting a large group of employees and which concerns the claimed misinterpretation, inequitable application, violation or failure to comply with the provisions of this agreement shall be filed at the option of the Union at Step 3 of the Grievance Procedure, without resort to previous steps.

(e) If grievances covering the same issue are filed by two or more employees without the aid or assistance of the Union, the determination of the first two of such grievances shall be dispositive of the remainder of such grievance.

(f) If a determination satisfactory to the Union at any level of the Grievance Procedure is not implemented within a reasonable time, the Union may re-institute the original grievance at Step 3 of the Grievance Procedure; or if a satisfactory Step 3 determination has not been so implemented, the Union may institute a grievance concerning such failure to implement at Step 4 of the Grievance Procedure.

(g) If the Employer exceeds any time limit prescribed at any step in the Grievance Procedure, the grievant and/or the Union may invoke the next step of the procedure, except, however, that only the Union may invoke impartial arbitration under Step 4.

(h) The Employer shall notify the Union in writing of all grievances filed by employees, all grievance hearings, and all determinations. The Union shall have the right to have a representative present at any grievance hearing and shall be given forty-eight (48) hours' notice of all grievance hearings.

(i) Each of the steps in the Grievance Procedure, as well as time limits prescribed at each step of this Grievance Procedure, may be waived by mutual agreement of the parties.

(j) All grievances as defined in Section 2(a)(C) shall be submitted only in writing. In no event shall any monetary award cover any period prior to the date of filing of the Step 1 grievance.

(k) (i) Any grievance relating to a claimed improper holding of an open-competitive rather than a promotional examination shall be presented in writing by the employee or the Union representative to the Commissioner of Labor Relations not later than thirty (30) days after the notice of the intention to conduct such open-competitive examination, or copy of the appointing officer's request for such open-competitive examination, as the case may be, has been posted in accordance with Section 51 of the Civil Service Law. The grievance shall be considered and passed upon within ten (10) days after its presentation. The determination shall be in writing, copies of which shall be transmitted to both parties to the grievance upon issuance.

(ii) A grievance relating to the use of an open-competitive rather than a promotional examination which is unresolved by the Commissioner of Labor Relations may be brought to impartial arbitration as provided in Subsections (b) and (c) above. Such a grievance shall be presented by the Union, in writing or arbitration within 15 days of the presentation of such grievance to the Commissioner of Labor Relations, and the arbitrator shall decide such grievance within 75 days of its presentation to him. The party requesting such arbitration shall send a copy of such request to the other party. The costs and fees of such arbitration shall be borne equally by the Employer and the Union.

(l) The grievance and the arbitration procedure contained in this agreement shall be the exclusive remedy for the resolution of disputes defined as "grievances" herein. This shall not be interpreted to preclude either party from enforcing the arbitrator's award in court. This Section shall not be construed in any manner to limit the statutory rights and obligations of the Employer under Article XIV of the Civil Service Law. This section shall not be construed in any manner to limit the statutory rights and obligations of the Employer. The sole remedy for alleged violations of this Collective Bargaining Agreement shall be a grievance pursuant to Article X of this Agreement. Any employee who withholds services as a means of redressing or otherwise protesting alleged violations of this Collective Bargaining Agreement shall be docked pay for any unauthorized non-performance of work and may be subject to any appropriate disciplinary action.

ARTICLE XI - NO STRIKES

In accord with the New York City Collective Bargaining Law, as amended, neither the Union nor any employee shall induce or engage in any strikes, slowdowns, work stoppages, or mass absenteeism, or induce any mass resignations during the term of this Agreement.

ARTICLE XII - UNION ACTIVITY

Time spent by employee representatives to conduct labor relations with the City on union activities shall be governed by the terms of Mayor's Executive Order No. 75, as amended March 22, 1973, entitled "Time Spent on the Conduct of Labor Relations between the City and its Employees and on Union Activity." No employee shall otherwise engage in Union activities during the time he is assigned to his regular duties.

ARTICLE XIII - FINANCIAL EMERGENCY ACT

The provisions of this Agreement are modified by and subject to any applicable provisions of law, including the New York State Financial Emergency Act for the City of New York, as amended.

ARTICLE XIV - APPENDICES

The Appendix or Appendices, if any, attached hereto and initialled by the undersigned shall be deemed a part of this Agreement as if fully set forth herein.

ARTICLE XV - SAVINGS CLAUSE

Section 1.

In the event that any provisions of this Agreement are found to be invalid, such invalidity shall not impair the validity and enforceability of the remaining provisions thereof.

Section 2.

This Agreement expresses all agreements and understandings between the parties and no other agreement, understanding or practice shall be of any force or effect.

WHEREFORE, we have hereunto set our hands and seals this 14th day of October, 1998.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

AGENCY RULES

LOCAL LAWS 1998

LOCAL LAWS OF THE CITY OF NEW YORK

FOR THE YEAR 1998

No. 36

Introduced by the Speaker (Council Member Vallone) and Council Members Berman, Spigner, Robles, Eisland, Michels, O'Donovan, Duane, Ognibene, Koslowitz and Leffler; also Council Member Carrion.

A LOCAL LAW

To set the current base proportions for fiscal year 1999 as required by paragraph (h) of subdivision 1 of section 1803-a of the real property tax law.

Be it enacted by the Council as follows:

Section 1. Legislative Intent. In accordance with state law and the City Charter, on June 8, 1998, the City Council adopted a resolution (Resolution No. 330) fixing the property tax rates for each of the four classes of real property (the "Tax Fixing Resolution"). The first step in the process of fixing the tax rates is the calculation of the current base proportions. The purpose of this calculation is to give effect to the latest class equalization rates required by Article 18 of the Real Property Tax law. By using these rates, new estimates of market values for each class are thereby calculated. This year's current base proportion was first determined by the City Council pursuant to a resolution (Resolution No. 214) adopted on April 28, 1998 (the "CBP Resolution"). The second step in the process of fixing the tax rates is the calculation of the adjusted base proportion. This calculation, which takes into account all the changes in real property that are included in the final assessment roll, was determined by the City Council pursuant to a resolution (Resolution No. 291) adopted on June 4, 1998 (the "ABP Resolution").

Since the adoption of the CBP Resolution, the ABP Resolution and the Tax Fixing Resolution, the State has amended the real property tax law pursuant to Chapter 229 of the Laws of 1998. The amendment requires adoption of a local law altering the current base proportions in the event that the current base proportion for any class of property exceeds the previous fiscal year's adjusted base proportion for that class by more than 2.5 percent (the "Cap Bill"). The current base proportions for Class One and Class Three contained in the CBP Resolution exceeded the City's Fiscal Year 1998 adjusted base proportions for Class One and Class Three by more than 2.5 percent. The Cap Bill therefore requires that the current base proportions for the Fiscal Year 1999 be altered by local law to ensure that they do not exceed the adjusted base proportion for Fiscal Year 1998 by more than 2.5 percent. In addition, the state law requires that any excess over the 2.5 percent be redistributed to the other classes of real property. In order to continue the City Council's commitment to reducing the inequitable tax burden on cooperative apartment and condominium owners and to reduce the high tax burden on rental property, this local law distributes the excess in Class One and Class Three to Class Four.

§ 2. The current base proportions for the city's fiscal year 1999 are hereby calculated as follows:

Certificate of Base Percentages, Current Percentages and Current Base Proportions for the City of New York Pursuant to Article 18, RPTL, for the Levy of Taxes on the 1998 Assessment Roll

SECTION I Determination of Estimated Market Values

Class	(A) 1989 Taxable Assessed Value	(B) 1989 Class Equalization Rate	(C) Estimated Market Value A/(B/100)

■ NOTICE

NOTICE OF AVAILABILITY OF NYCDOT'S FINAL ENVIRONMENTAL IMPACT STATEMENT FOR LEAD PAINT REMOVAL OPERATIONS ON NYCDOT BRIDGES

Pursuant to the State Environmental Quality Review Act (SEQRA) and its implementing regulations, New York City has established rules for the City's Environmental Quality Review (CEQR). Under CEQR, the New York City Department of Transportation (NYCDOT), acting as lead agency, has issued a Final Environmental Impact Statement (FEIS) on the proposed action.

A Draft Environmental Impact Statement (DEIS) was prepared by NYCDOT, analyzing the effects of abrasive blasting and alternative methods of lead paint removal on public health and the environment, and the adequacy of the proposed containment system to protect against such effects during paint removal activities on NYCDOT bridges. The DEIS was certified as being complete and was published and distributed for public review. Comments on the DEIS were received at the public hearing or were submitted in writing to the NYCDOT through August 24, 1998, the close of the public comment period.

The FEIS document includes a summary of the comments on the DEIS and responds to relevant issues. NYCDOT has determined that the FEIS is complete and has issued a Notice of Completion. The Department will use the FEIS to make CEQR Statement of Findings, which addresses the impacts and mitigation, before making its decision on implementing the proposed action.

The full FEIS is available for public review at NYCDOT's Office of Project Analysis/CEQR and at the NYC Office of Environmental Coordination, Municipal Building, 25th Floor, New York, NY 10007.

BOROUGH OF BROOKLYN

Community Board No. 9, Brooklyn - FY 2000 Public Hearing on the Preliminary Budget will be held on Tuesday, October 27, 1998 at 7:00 PM at the Gladstone Atwell Middle School - located 400 Empire Blvd. (corner of NY Ave.) Brooklyn, NY.

☛ o22-26

DEPARTMENT OF INFORMATION TECHNOLOGY AND TELECOMMUNICATIONS

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN THE Commissioner of the Department of Information Technology and Telecommunications by subdivision b of section 23-403 of the New York City Administrative Code, and in accordance with Section 1043 of the Charter, that the Department of Information Technology and Telecommunications (the "Department") proposes to correct an error in the publication of a final rule (amendment to subdivision (f) of § 6-41, published on August 17, 1998 as part of a larger rulemaking) relating to required distance between public pay telephones. Written comments regarding the proposed rule, as published below, may be sent to Elaine Reiss, General Counsel, Department of Information Technology and Telecommunications, 11 Metrotech Center, 3rd Fl., Brooklyn, New York 11201, on or before November 16, 1998. The Department has determined that no public purpose would be served by conducting a public hearing to obtain comment on this correction because there have already been public hearings at which comments were received on all of these changes. The 1998 amendments to this subdivision inadvertently omitted certain changes that had been adopted in 1996. Insofar as they are substantive, these changes and the 1998 changes are indicated below by brackets to denote deletions and underscoring to denote additions.

f. Required Distance from Other Public Pay Telephone. A pedestal or other structure that holds a public pay telephone shall be located at least fifty (50) feet from any other such pedestal or structure on any one [blockfront] block and adjacent corner quadrant (See diagram in Appendix A for this Subchapter C). For purposes of this subdivision "block" shall mean that portion of the sidewalk on one side of a street which is between the building line and the curb and which is between two points, each of which is ten (10) feet from the corner of said street and its intersecting street, in conformity with the definition of corner quadrants found in Executive Order No. 22 of 1995. [(This area shall include the blockfront as defined in Authorizing Resolution 439-A)] Nothing in this section shall be construed to prohibit the placement of a public pay telephone at the building line of such corner quadrant, provided however, that the placement of such public pay telephone on such building line leaves an adequate unobstructed passage for pedestrians.

Statement of Basis and Purpose. Section 23-403(b) of the Administrative Code authorizes the Commissioner to promulgate rules governing the placement of public pay telephones in the City of New York. Pursuant to this power, the Department amended the above subdivision in 1996 and 1998. Because the 1998 rulemaking was inadvertently written as an amendment to a pre-1996 version of the subdivision, the Department is republishing the rule as it should appear.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

(13) The suspension or revocation of certificates of approval for private elevator inspection agencies, directors, and inspectors certified pursuant to §11-01 of Title 1 of the Rules of the City of New York.

STATEMENT OF BASIS AND PURPOSE

These rules are adopted pursuant to the authority of the Commissioner of Buildings under Sections 643 and 1043 of the New York City Charter to amend the regulations applicable to private elevator inspection agencies. They are intended to accomplish several objectives: (1) to rationalize and make internally consistent the Department's rules governing certification and qualification of private elevator inspection agencies in general and their directors and inspectors in particular; (2) to specify the bases for and means of evaluating such directors' and inspectors' qualification and fitness to conduct private elevator inspection agencies or inspections; (3) to provide that such bases may constitute grounds for revocation or suspension of a director's or inspector's Certificate of Approval; and (4) to provide a severability clause. The rules also amend provisions governing adjudications at OATH to authorize that body to hear these cases.

LOCAL LAWS 1998

LOCAL LAWS OF THE CITY OF NEW YORK

FOR THE YEAR 1998

No. 39

Introduced by The Speaker (Council Member Vallone), the Public Advocate (Mr. Green) and Council Members Pinkett, Clarke, Eldridge, Freed, Henry, Koslowitz, Leffler, Michels and Miller; also Council Members O'Donovan, Reed, Robinson, Sabini and Duane.

A LOCAL LAW

To amend the charter of the city of New York and the administrative code of the city of New York, in relation to donations accepted and expenditures made on behalf of candidates elected to certain local offices for purposes of such candidates' transition or inauguration into office.

Be it enacted by the Council as follows:

Section 1. **Declaration of Legislative Intent and Findings.** Successful candidates for City office have, in recent years, undertaken activities for purposes of commencing their term of office. These "transition" and "inauguration" activities have included the hiring of government officials, inaugural parties, and public relations. The financing of these activities is not regulated by either State law or the New York City Campaign Finance Act. The lack of regulation of transition and inauguration activities increases the likelihood, or at least the appearance, that wealthy special interests will have undue influence over New York City's elected officials. The Council has determined to address these issues by regulating private financing of transition and inaugural activities.

§ 2. Subdivision a of section 1052 of Chapter 46 of the New York City Charter is hereby amended by adding a new paragraph 11 to read as follows:

11) The board shall have the authority to implement any system established for the regulation of inauguration and transition donations and expenditures including the promulgation of rules and regulations and the imposition of any penalties related thereto, as required by local law.

§ 3. Section 3-708 of the Administrative Code of the city of New York is hereby amended by adding a new section 10 to read as follows and renumbering section 10 as section 11:

10. The board shall have the authority to implement any system established for the regulation of inauguration and transition donations and expenditures including the promulgation of rules and regulations and the imposition of any penalties related thereto, as required by local law. The specific powers enumerated in subdivisions 5, 6, 7, 8, 9 and 11 of this section, for purposes of this chapter, shall also be applicable in full for purposes of such chapter 8.

[10.] *11.* The board may take such other actions as are necessary and proper to carry out the purposes of this chapter.

§ 4. Subdivision 1 of section 3-710 of such code is hereby amended to read as follows:

1. The campaign finance board is hereby empowered to audit and examine all matters relating to the performance of its functions and any other matter relating to the proper administration of this chapter and of chapter 8 of title 3 of this code.

§ 5. Title 3 of the Administrative Code of the city of New York is hereby amended to add a new chapter 8 to read as follows:

Chapter 8

Transition and Inaugural Donations and Expenditures

§ 3-801. Transition and inauguration donations and expenses. *1. Candidates elected to the office of mayor, public advocate, comptroller, borough president, or member of the city council may authorize one or more entities, other than a political committee, for the purpose of accepting donations and loans, and for making expenditures, for transition or inauguration into office. Such donations and loans may not be accepted and such expenditures may not be made on behalf of the candidate prior to the registration with the campaign finance board of each such entity. The campaign finance board shall promulgate rules to establish the time and manner for such registration.*

2. Candidates elected to the office of mayor, public advocate, comptroller, borough president, or member of the city council, and the entities they authorize pursuant to subdivision one of this section, shall:

(a) not use funds accepted by a political committee authorized by the candidate for any election to make expenditures for transition or inauguration into office, and shall not transfer funds from a political committee to an entity the candidate is required to register pursuant to subdivision one of this section;

(b) not accept any donation or donations of money, goods, or services from any one individual, corporation, partnership, political committee, employee organization, or entity which in the aggregate exceeds:

(i) four thousand five hundred dollars, in the case of a candidate elected to the office of mayor, public advocate, or comptroller;

(ii) three thousand five hundred dollars, in the case of a candidate elected to the office of borough president; or

(iii) two thousand five hundred dollars, in the case of a candidate elected to the office of member of the city council.

3. Donations that do not exceed the limitations set forth in paragraph (b) of subdivision 2 of this section may be accepted only from political committees that register with the campaign finance board, as shall be provided for in rules issued by such board. Any donation accepted from a political committee that has not registered with the board prior to making the donation must be returned to the political committee. However, a subsequent donation may be accepted if such political committee registers with the board in accordance with the rules issued by the board.

4. To the extent not repaid by the date of the candidate's inauguration into office, a loan received by such entity shall be deemed a donation subject to the limits and restrictions set forth in paragraph (b) of subdivision 2 and subdivision 3 of this section.

5. Each transition and inauguration entity authorized pursuant to subdivision one of this section shall report to the best of the candidate's, treasurer's, and entity's knowledge, to the campaign finance board every donation of money, goods, or services, and every loan, it receives, the full name, residential address, occupation, employer, and business address of each individual, corporation, partnership, political committee, employee organization or other entity making, or which is the intermediary for, such donation or loan, and every expenditure it makes. Donations aggregating not more than ninety-nine dollars from any one donor need not be separately itemized in disclosure reports submitted to the campaign finance board. The treasurer of such entity need not collect or disclose the occupation, employer, or business address of any donor making donations aggregating not more than ninety-nine dollars. Such reports shall be submitted at such times and in such form as the campaign finance board shall require and shall be clearly legible. The campaign finance board shall make available to the public a copy of these disclosure reports within two business days after they are accepted by the campaign finance board.

6. The final disclosure report submitted by such entity shall set forth the disposition of any funds remaining after all liabilities are paid, after which the entity shall be terminated.

7. Entities required to be registered pursuant to subdivision one of this section shall not incur liabilities for purposes other than transition or inauguration into office.

8. This section shall apply to every candidate elected to the office of mayor, public advocate, comptroller, borough president, or member of the city council, regardless whether such candidate filed a written certification pursuant to section 3-703 of this code.

9. For purposes of this chapter, the terms "intermediary" and "political committee" shall have such meanings as are set forth in section 3-702 of this code.

§ 3-802. Penalties. *1. Any candidate whose transition or inauguration entity fails to file in a timely manner a statement or record required to be filed by this chapter or the rules of the board in implementation thereof or who violates any other provisions of the chapter or rules promulgated thereunder, and any transition or inauguration entity treasurer or any other agent of the candidate who commits such a violation, shall be subject to a civil penalty in an amount not in excess of ten thousand dollars.*

2. In addition to the penalties provided in subdivision one of this section, if the amount of a donation to the candidate's transition or inauguration entity exceeds the limitations contained in this chapter such candidate, such entity shall be subject to a civil penalty in an amount not to exceed three times the sum by which such donation exceeds the applicable donation limitation.

3. The intentional or knowing furnishing of any false or fictitious evidence, books, or information to the board under this chapter, or the inclusion of any evidence, books, or information so furnished of a misrepresentation of a material fact, or the intentional or knowing violation of any other provision of this chapter shall be punishable as a class A misdemeanor in addition to any other penalty as may be provided under law.

§ 6. If any provision of this local law, or any amendments thereto, shall be held invalid or ineffective in whole or in part or inapplicable to any person or situation, each holding shall not affect, impair or invalidate the remainder of this local law, and all other provisions thereof shall nevertheless be separately and fully effective and the application of any such provision to other persons or situations shall not be affected.

§ 7. This local law shall take effect immediately and shall be applicable to donations and expenditures made on behalf of candidates elected to the office of mayor, public advocate, comptroller, borough president, or member of the city council, other than candidates taking office pursuant to an election held not later than ninety days after such effective date.

STATEMENT OF BASIS AND PURPOSE OF PROPOSED RULES

The Commissioner of the Department of Transportation is authorized by section 2903 of the New York City Charter and Section 1642 of the New York State Vehicle and Traffic Law to provide for the towing of vehicles on the arterial highways in the City.

In 1996, the management of the arterial tow program was transferred to the Police Department along with other traffic enforcement functions. Paragraphs (1) and (2) of subdivision (i) of section 4-07 are being amended to reflect that the tow truck permits are now awarded by the Police Commissioner and that the Police Department rather than the Department of Transportation shall maintain its own tow trucks for such purposes. In addition, the rule is being amended to reflect that the name of the Interboro Parkway was changed to the Jackie Robinson Parkway by State law in 1997.

NOTICE

NOTICE OF AVAILABILITY OF NYCDOT'S FINAL ENVIRONMENTAL IMPACT STATEMENT FOR LEAD PAINT REMOVAL OPERATIONS ON NYCDOT BRIDGES

Pursuant to the State Environmental Quality Review Act (SEQRA) and its implementing regulations, New York City has established rules for the City's Environmental Quality Review (CEQR). Under CEQR, the New York City Department of Transportation (NYCDOT), acting as lead agency, has issued a Final Environmental Impact Statement (FEIS) on the proposed action.

A Draft Environmental Impact Statement (DEIS) was prepared by NYCDOT, analyzing the effects of abrasive blasting and alternative methods of lead paint removal on public health and the environment, and the adequacy of the proposed containment system to protect against such effects during paint removal activities on NYCDOT bridges. The DEIS was certified as being complete and was published and distributed for public review. Comments on the DEIS were received at the public hearing or were submitted in writing to the NYCDOT through August 24, 1998, the close of the public comment period.

The FEIS document includes a summary of the comments on the DEIS and responds to relevant issues. NYCDOT has determined that the FEIS is complete and has issued a Notice of Completion. The Department will use the FEIS to make CEQR Statement of Findings, which addresses the impacts and mitigation, before making its decision on implementing the proposed action.

The full FEIS is available for public review at NYCDOT's Office of Project Analysis/CEQR and at the NYC Office of Environmental Coordination, Municipal Building, 25th Floor, New York, NY 10007.

LANDMARKS PRESERVATION COMMISSION

BINDING REPORT

ISSUE DATE:	DOCKET #:	SRB #:
09/30/98	991863	SRB 99-1828

ADDRESS	BOROUGH:	BLOCK/LOT:
BOWLING GREEN Bowling Green IRT Station Control House INDIVIDUAL LANDMARK	MANHATTAN	3 / 1

To the Mayor, the Council, and the President, New York City Transit.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed preliminary designs for rehabilitation of the IRT Bowling Green Station Control House. The proposed work includes cleaning, repointing, and restoration of exterior and interior brick, limestone, granite, and terra cotta; replacing copper standing seam roofs at the vestibules to match existing; replacing copper and glass skylight and louver to match existing; replacing leaders and gutters and restoring molded copper cornices; refurbishing entrance doors and re-activating the north doors; installing new exterior light fixtures and illuminated entrance post; and undertaking interior alterations and rehabilitation. The proposed work is described on drawings TA-2 and A-2 through A-7 dated Sept. 18, 1998, L-1 through L-5 dated Sept. 11, 1998; in a project scope of work; and in photographs, all submitted as components of the application.

The Commission notes that the designation report describes the building as a Flemish Renaissance-inspired above-ground control house for the Bowling Green subway station, designed by Heins and LaFarge and built in 1904-05 as part of the original Interborough Rapid Transit System.

The Commission finds that the work is primarily restorative; that cleaning the masonry with low pressure water and non-ionic detergent will help restore its appearance without causing any abrasive or chemical damage; that carefully raking out deteriorated mortar joints with hand tools and repointing with lime-based mortar matching the content, color, texture, and tooling of historic mortar will help keep the building watertight, protect the masonry units, and restore the building's masonry to its historic appearance; that dismantling and reconstructing the brick and terra-cotta gables using salvaged material is warranted by the deteriorated condition of these features, will retain as much of the historic material as possible, and will return these features to sound condition and historic appearance; that masonry units that cannot be re-used will be replaced with new units matching the existing in appearance; that replacing copper and glass roof elements, including standing seam vestibule roofs, copper and glass skylight, and copper louvers is warranted by their deteriorated condition; that the replacement features will match the exterior material, configuration, dimensions, and appearance of the existing; that retaining the ornate, molded copper cornices will preserve these significant features; that in-kind replacement of gutters and leaders will have no effect on protected features; that making the northern doors operational and refinishing both sets of recently-reproduced wood doors will return these features to sound condition; that the proposed exterior lighting is discrete, and the visible fixtures will use existing masonry penetrations; that the illuminated entrance post and new sidewalk are not on the landmark site and will have no effect on protected features; and that the interior work will also have no effect on protected features. Based on these findings, the proposed work is determined to be appropriate to the individual landmark and is approved.

Please provide final contract drawings and specifications to the Commission for its review, and note in particular that more detailed review, specifications, and/or samples are required for masonry cleaning, pointing, and reconstruction; for any new masonry units; and for the new exterior light fixtures.

Please provide one or more 8 by 10 inch black and white photographs of the completed work to the Art Commission of the City of New York, for its archives.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Jeremy Woodoff.

ADVISORY REPORT

ISSUE DATE:	DOCKET #:	SRA #:
09/17/98	991583	SRA 99-1591

ADDRESS	BOROUGH:	BLOCK/LOT:
25 READE STREET HISTORIC DISTRICT AFRICAN BURIAL GROUND	MANHATTAN	153 / 9

To the Mayor, the Council, and the Commissioner of the Department of Transportation.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The proposed work consists of excavating one rectangular trench ("B", 6'10" w x 14'10"l x 9.5'd) and related connecting conduits for installation and repair of transformer vaults, in the sidewalk on the north side of 25 - 29 Reade Street, as indicated on Con Edison Layout blueprint number S93-4142-IM, revised August 31, 1998 and submitted as a component of the application.

In reviewing this proposal, the Commission notes that the designation report states that the portion of lower Manhattan within the historic district has undergone intense public use since the mid-seventeenth century, resulting in the overlay of many significant historic improvements and resources--both above ground and below--all of which document the changing nature of the important area long devoted to communal, public, and civic purposes; and that, within the district, the African Burial Ground is historically significant in that it is one of the few preserved eighteenth-century African burial grounds in the Americas, and that it reflects the establishment at an early date of the society of Africans in New York City, which had one of the largest urban populations of Africans in the American colonies. The report also cites the significance of structures related to the civic use of the Commons. The Commission further notes that the location of the proposed work is inside the boundaries of the African Burial Ground, the boundaries of which have been established based on historical documents.

With regard to this proposal, the Commission finds that the proposed work will not require the removal of or damage to any significant above-ground features of the historic district; that the removal of street paving will be temporary in nature; that the street paving to be excavated is composed of modern materials and is not a significant feature of the historic district; that the new paving will match the surrounding paving to remain in material, color, and detail, and therefore that the new paving will blend unobtrusively with the surrounding street and sidewalk paving.

The Commission also finds that, as the location of the proposed work appears to be within landfill above the 18th century ground surface, the proposed excavation will be limited to the disturbance of only previously excavated soils; that the proposed hand excavation methods will allow for observation of and minimal damage to any artifacts or other cultural material uncovered during the work; and there is low probability of encountering intact archaeological deposits, features, or human burials in the proposed work area.

Based on these findings, and provided that the stipulation outlined below is followed, the Commission determines the proposed work to be appropriate to The African Burial Ground and The Commons Historic District, and has no objection to the proposed work proceeding. The proposed work, therefore, is approved.

In issuing this report, the Commission stipulates that should artifacts or other cultural material be encountered during the course of work, work should stop immediately pending Commission notification and review. If artifacts or other cultural material are encountered, contact Daniel Pagano, Director of Archaeology at (212) 487-6848.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. ADVISORY REPORT

ISSUE DATE:	DOCKET #:	SRA #:
09/18/98	991652	SRA 99-1621

ADDRESS	BOROUGH:	BLOCK/LOT:
DUANE STREET & CENTRE STREET HISTORIC DISTRICT AFRICAN BURIAL GROUND	MANHATTAN	7777 / 7777

To the Mayor, the Council, and the Commissioner of the Department of Transportation.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The proposed work consists of excavating one trench five feet wide, five feet long and five feet deep for emergency repair and in-kind replacement of an existing electric manhole and casting, at the northwest corner of Duane and Centre Streets at the sidewalk curb, as indicated on DOT Permit form M0198181008 dated September 9, 1998 and submitted as a component of the application.

In reviewing this proposal, the Commission notes that the designation report states that the portion of lower Manhattan within the historic district has undergone intense public use since the mid-seventeenth century, resulting in the overlay of many significant historic improvements and resources--both above ground and below--all of which document the changing nature of the important area long devoted to communal, public, and civic purposes; and that, within the district, the African Burial Ground is historically significant in that it is one of the few preserved eighteenth-century African burial grounds in the Americas, and that it reflects the establishment at an early date of the society of Africans in New York City, which had one of the largest urban populations of Africans in the American colonies. The report also cites the significance of structures related to the civic use of the Commons. The Commission further notes that the location of the proposed work is inside the boundaries of the African Burial Ground, the boundaries of which have been established based on historical documents.

With regard to this proposal, the Commission finds that the proposed work will not require the removal of or damage to any significant above-ground features of the historic district; that the removal of street paving will be temporary in nature; that the street paving to be excavated is composed of modern materials and is not a significant feature of the historic district; that the new paving will match the surrounding paving to remain in material, color, and detail, and therefore that the new paving will blend unobtrusively with the surrounding street and sidewalk paving.

The Commission also finds that, as the location of the proposed work appears to be within landfill above the 18th century ground surface, the proposed excavation will be limited to the disturbance of only previously excavated soils; that the proposed hand excavation methods will allow for observation of and minimal damage to any artifacts or other cultural material uncovered during the work; and there is low probability of encountering intact archaeological deposits, features, or human burials in the proposed work area.

Based on these findings, and provided that the stipulation outlined below is followed, the Commission determines the proposed work to be appropriate to The African Burial Ground and The Commons Historic District, and has no objection to the proposed work proceeding. The proposed work, therefore, is approved.

In issuing this report, the Commission stipulates that should artifacts or other cultural material be encountered during the course of work, work should stop immediately pending Commission notification and review. If artifacts or other cultural material are encountered, contact Daniel Pagano, Director of Archaeology at (212) 487-6848.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Daniel Pagano.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

NOTICE OF AVAILABILITY OF NYCDOT'S FINAL ENVIRONMENTAL IMPACT
STATEMENT FOR LEAD PAINT REMOVAL OPERATIONS ON NYCDOT BRIDGES

Pursuant to the State Environmental Quality Review Act (SEQRA) and its implementing regulations, New York City has established rules for the City's Environmental Quality Review (CEQR). Under CEQR, the New York City Department of Transportation (NYCDOT), acting as lead agency, has issued a Final Environmental Impact Statement (FEIS) on the proposed action.

A Draft Environmental Impact Statement (DEIS) was prepared by NYCDOT, analyzing the effects of abrasive blasting and alternative methods of lead paint removal on public health and the environment, and the adequacy of the proposed containment system to protect against such effects during paint removal activities on NYCDOT bridges. The DEIS was certified as being complete and was published and distributed for public review. Comments on the DEIS were received at the public hearing or were submitted in writing to the NYCDOT through August 24, 1998, the close of the public comment period.

The FEIS document includes a summary of the comments on the DEIS and responds to relevant issues. NYCDOT has determined that the FEIS is complete and has issued a Notice of Completion. The Department will use the FEIS to make CEQR Statement of Findings, which addresses the impacts and mitigation, before making its decision on implementing the proposed action.

The full FEIS is available for public review at NYCDOT's Office of Project Analysis/CEQR and at the NYC Office of Environmental Coordination, Municipal Building, 25th Floor, New York, NY 10007.

A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. AGENCY RULES

BANKING

CITY OF NEW YORK
BANKING COMMISSION

Pursuant to the power vested in the Banking Commission by sections 1524 of the New York City Charter, and in accordance with section 1043 of the New York City Charter, the Banking Commission hereby amends the Rules Relating to the Requirements for Designation of Depository Banks by the Banking Commission, which are necessary to carry out the powers and duties delegated to the Banking Commission by section 1524 of the New York City Charter.

The Banking Commission

Section 1. Paragraph (1) of subdivision (c) of section 1-03 of Chapter 1 of Title 22 of the Rules of the City of New York is amended to read as follows:

§ 1-03 Designation Requirements.

* * *

(c) *Application for designation.*

* * *

(1) *Filings.*

* * *

(vii) a list of all bank and bank holding company executives, employees, shareholders, legal counsel, consultants and advisors and/or their spouses or domestic partners, who

(A) individually, jointly or severally hold in excess of a five percent (5%) beneficial interest in the bank and/or in the bank holding company, and who

(B) are, or whose spouses or domestic partners are, contemporaneously elected or appointed holders of public office or of party office in any political party;

* * *

Each designated bank shall also submit to the Banking Commission any financial statements, CRA examination summary reports, CRA statements or CRA ratings (as described in subparagraphs (vi), (x), (xi) and (xii) above, respectively) issued by or with respect to the bank subsequent to its previous filings with the Banking Commission pursuant to paragraph 1 above.

For purposes of this paragraph, "domestic partner" shall mean a person who has registered a domestic partnership in accordance with applicable law with the City Clerk, or has registered such a partnership with the former City Department of Personnel pursuant to Executive Order 123 (dated August 7, 1989) during the period August 7, 1989 through January 7, 1993. (The records of domestic partnerships registered with the former City Department of Personnel have been transferred to the City Clerk.)

STATEMENT OF BASIS AND PURPOSE

Mayoral Executive Orders spanning the past two administrations have established several rights and procedures relative to domestic partnerships, including a procedure for City residents to register their domestic partnerships in the office of the City Clerk. Such orders have further provided, among other things, that (i) registered domestic partners are eligible for visitation rights in City hospitals and correction facilities; (ii) City employees with registered domestic partnerships are eligible for child care leave and bereavement leave on the same basis as those benefits are afforded to employees with regard to their spouses; and (iii) registered domestic partnership is evidence of the right to succession to tenancy rights in facilities operated by the New York City housing authority and the department of housing preservation and development. By the end of April 1998, there were approximately 8,700 couples registered as domestic partners in New York City. More than 55% of those registered domestic partners were heterosexual couples, and less than 45% were same sex couples. Almost forty percent of registered domestic partnerships have accessed City health benefits available to partners of City employees and retirees.

Consistent with the intent of such orders, and pursuant to the powers of the Commission under sections 1524 and 1043 of the New York City Charter, the Commission is now acting to provide that a rule applicable to spouses should now be extended to domestic partners.

FINANCE

CITY OF NEW YORK
DEPARTMENT OF FINANCE

Pursuant to the power vested in me as Commissioner of Finance by sections 389(b) and 1043 of the New York City Charter, I hereby promulgate the within Rules Relating to the Right of Domestic Partners to Request Letter Rulings From and Appear at Conciliation Conferences at the Department of Finance, which are necessary to carry out the powers and duties delegated to the Commissioner of Finance by section 1503 of the New York City Charter.

Alfred C. Cerullo, III
Commissioner of Finance

§ 1. Subparagraph (iv) of paragraph 3 of subdivision b of section 16-02 of title 19 of the Rules of the City of New York is amended to read as follows:

(iv) the taxpayer's spouse, domestic partner, child or parent. For purposes of this subparagraph, "domestic partner" means a person who has registered a domestic partnership in accordance with applicable law with the City Clerk, or has registered such partnership with the former City Department of Personnel pursuant to Executive Order 123 (dated August 7, 1989) during the period August 7, 1989 through January 7, 1993. (The records of domestic partnerships registered at the former City Department of Personnel have been transferred to the City Clerk.)

§ 2. Section 38-01 of title 19 of the Rules of the City of New York is amended by adding a new definition to read as follows:

Domestic partner. The term "domestic partner" means a person who has registered a domestic partnership in accordance with applicable law with the City Clerk, or has registered such partnership with the former City Department of Personnel pursuant to Executive Order 123 (dated August 7, 1989) during the period August 7, 1989 through January 7, 1993. (The records of domestic partnerships registered at the former City Department of Personnel have been transferred to the City Clerk.)

§ 4. Subdivision (a) of section 38-03 of title 19 of the Rules of the City of New York is amended to read as follows:

(a) Personal appearance. An individual on whose behalf a conciliation conference is requested may appear and represent himself or herself or may be represented by his or her spouse, domestic partner, parent or child. A partnership may act through one of its general partners without filing a power of attorney, provided written evidence of such designation is presented. When a corporation requests a conciliation conference, it may act through one of its duly authorized officers or employees. When the corporation acts through an employee who is not a duly authorized officer, a power of attorney executed by a duly authorized officer of the corporation must be filed.

STATEMENT OF BASIS AND PURPOSE

Mayoral Executive Orders spanning the past two administrations have established several rights and procedures relative to domestic partnerships, including a procedure for City residents to register their domestic partnerships in the office of the City Clerk. Such orders have further provided, among other things, that (i) registered domestic partners are eligible for visitation rights in City hospitals and correction facilities; (ii) City employees with registered domestic partnerships are eligible for child care leave and bereavement leave on the same basis as those benefits are afforded to employees with regard to their spouses; and (iii) registered domestic partnership is evidence of the right to succession to tenancy rights in facilities operated by the New York City housing authority and the department of housing preservation and development. By the end of April, 1998, there were approximately 8700 couples registered as domestic partners in New York City. More than 55 percent of those registered domestic partners who reported demographic information were heterosexual couples, and less than 45 percent were same sex couples. Almost forty percent of the registered domestic partnerships have accessed City health benefits available to partners of City employees and retirees.

Consistent with the intent of such orders, and the Commissioner's authority pursuant to Charter § 1043 and Tax Law § 1212-A, the Department is now acting to provide that rules applicable to spouses, as specified herein, should now be extended to domestic partners.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 6-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

LANDMARKS PRESERVATION COMMISSION

ISSUE DATE: 10/14/98	DOCKET #: 992207	CRB #: CRB 99-2045
ADDRESS: CITY HALL PARK, HISTORIC DISTRICT: AFRICAN BURIAL GROUND	BOROUGH: MANHATTAN	BLOCK/LOT: 122 / 1

To the Mayor, the Council, and the Commissioner of the Department of Parks and Recreation.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

At the Public Meeting of October 13, 1998, the Landmarks Preservation Commission reviewed a proposal for an amendment to the previously approved City Hall renovation plan. The amendment consists of the use of granite pavement for the perimeter sidewalks around City Hall Park. The granite proposed is "Misty Black" granite in a thermal finish as per the material sample shown to the Commission. The previous approval called for bluestone pavement for the sidewalks. The pavement of the paths within City Hall Park shall remain bluestone as per the previous approval.

With regard to this proposal, The Commission finds that the use of granite as a sidewalk pavement has ample historic precedent in lower Manhattan; that the color and texture of the proposed granite will harmonize well with the bluestone to be used as the pavement within the park as well as with the granite base of the perimeter fence; that the pattern of the pavement will conform to the pattern previously approved; and that for these reasons, the granite pavement is found to be appropriate.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Alex Herrera.

ISSUE DATE: 10/07/98	DOCKET #: 991900	SRB #: SRB 99-1967
ADDRESS: 830 FIFTH AVENUE, The Arsenal, INDIVIDUAL LANDMARK	BOROUGH: MANHATTAN	BLOCK/LOT: 1111 / 1

To the Mayor, the Council, and the Commissioner of Parks and Recreation.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for interior alterations; the installation of through-wall flashing at the bottom of the third floor parapet; repointing and replacement of damaged brick above the spring line of 3rd floor windows and the turrets; the application of a clear, low-sheen permeable brick sealer on affected masonry; the removal of vines from exterior surfaces; the repair and replacement of deteriorated stone sills and lintels on the 3rd and 4th floors; and the application of elastometric sealant between window frames and the masonry facade; on all elevations of the Arsenal, an individual landmark within the Central Park Scenic Landmark. The proposal is described in drawings labeled 1, 2 and 3, dated 8/03/98, and in specifications all prepared by John Krawchuk, and submitted as components of the application.

The Commission notes that the designation report for the Arsenal states that the building was constructed in *1847-51 to the design of Martin E. Thompson in a mock-medieval style*, and that the building was subsequently incorporated within Central Park.

The Commission finds that the work is restorative in nature; that the proposed mortar for repointing will match the historic mortar in terms of composition, texture, profile, tooling and color and will not be detrimental to the brick in terms of being too strong or too hard; that the caulking, brick sealer and flashing will protect the building against potentially damaging water penetration; and that the cumulative effect of this work will be to enhance the special architectural and historic character of the building and the scenic landmark. Based on these findings, the proposed work is determined appropriate to the Arsenal Individual Landmark and the Central Park Scenic Landmark.

Please send a copy of the drawings and at least one 8 by 10 inch black and white photograph of the completed work to the Art Commission for its archives.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The tax preparer is required by law to give to each customer, free of charge, a current legible copy of the Consumer Bill of Rights Regarding Tax Preparers. The tax preparer must provide a copy of this Bill of Rights to each consumer prior to any discussions with the consumer.

If You Are Hiring A Tax Preparer, You Are Entitled To Certain Rights and Information With Respect To The Tax Preparer. The Rights and Information Include The Following:

- The individual tax preparer's qualifications. A tax preparer must maintain records to substantiate all of the information contained in such statement.

- Whether or not the tax preparer will represent the taxpayer at a government audit. Failure to make this disclosure shall mean that the tax preparer agrees to represent the tax payer or to provide representation.

You Have The Following Additional Rights:

- To receive all personal papers upon request, when the original tax return is given to the taxpayer for filing, unless the tax preparer is specifically permitted to retain such papers under state law.
- To know that any tax preparer who advertises the availability of a program by which a taxpayer may receive a loan against the taxpayer's anticipated refund may not directly or indirectly represent such a loan as a refund. Any advertisement which mentions such a loan program must state conspicuously that a fee or interest will be charged by the lending institution, and must disclose the name of the lending institution.
- To receive a copy of every tax return prepared, at the time the original is given to the taxpayer for filing.

- Reveal any information appearing on a tax return or any related information to any person or business other than the taxpayer, or his or her authorized designee.
- Induce or attempt to induce a taxpayer to violate any governmental law. rule or regulation.
- Use the word "accountant" in any advertisement unless at least one Certified Public Accountant or Public Accountant is present at each tax preparation location during all business hours and controls all tax returns prepared at the location.
- Use any term describing a speciality or expertise in an advertisement, unless the tax preparer's relevant education or experience is also disclosed in the advertisement.
- Alter a tax return after it has been signed by the taxpayer, without the taxpayer's written consent.
- Charge a fee based upon the amount of tax owed or refund due.
- Guarantee a tax refund, or guarantee that the taxpayer will not be audited by any government tax agency.
- Request a taxpayer to assign to the preparer any portion of the refund due.
- Use the tax preparer's addresses on a tax return as the place to which a refund should be mailed, unless the taxpayer has signed a power of attorney containing such authorization.
- Claim to give taxpayers an "instant tax refund" that is actually an interest-bearing loan unless that fact is disclosed to the taxpayer in accordance with federal and state law.

Consumers may complain to the New York City Department of consumer Affairs, 42 Broadway, New York, NY 10004, (212) 487-4444 or (718) 286-2994.

ADVISORY REPORTS

ISSUE DATE:	DOCKET #:	SRA #:
10/05/98	991716	SRA 99-1903

ADDRESS	BOROUGH:	BLOCK/LOT:
380 EAST 166TH STREET HISTORIC DISTRICT CLAY AVENUE	BRONX	2425 / 16

To the Mayor, the Council, and the Commissioner, Department of Housing Preservation & Development.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed electrical work completed at the subject premises, including interior rewiring, installation of exterior fixtures and conduit, and installation of an intercom panel. The proposed work is described in a scope of work dated 4/28/98 and in photographs of the completed work, all submitted as components of the application.

The Commission notes that the designation report states that the building is a 4-story neo-Renaissance style apartment house built in 1910 and designed by Neville & Bagge.

The Commission finds that the interior work had no effect on protected architectural features; that the intercom panel has been neatly installed in modern infill material adjacent to the front door, and therefore has not damaged historic material and is relatively unobtrusive; that the exterior conduit and security light fixtures have been installed in such a way that they are highly visible and have caused masonry damage where they are anchored to the facade.

Rather than remove and relocate these fixtures and conduit, however, the Commission recommends that they be retained in place, with the conduit and junction boxes painted with flat black paint, following application of an appropriate primer and provision of protection for adjacent masonry. The Commission finds that this solution adequately addresses the high visibility of the installation while recognizing that there are no readily available alternatives to the locations of the conduit and equipment and that successful patching of the holes in the masonry would be problematic. Therefore, provided the painting is completed as specified, the exterior as well as interior portions of the electrical work are determined to be appropriate to the building and the Clay Avenue Historic District.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Jeremy Woodoff.

ADVISORY REPORT

ISSUE DATE: 10/02/98	DOCKET #: 991247	SRA #: SRA 99-1870
ADDRESS CENTRAL PARK-307THMEM Central Park SCENIC LANDMARK	BOROUGH: MANHATTAN	BLOCK/LOT: 111 / 1

To the Mayor, the Council, and the Commissioner, Department of Parks and Recreation.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal to modify the design of the 307th Infantry Memorial Grove, located at approximately 6th Avenue and 69th Street, south of Rumsey Playfield, in Central Park. The proposed work consists of replication of the missing bronze honor roll tablet on a boulder and removal of the individual bronze company markers and their concrete plinths, located at the base of the trees in the grove. The proposed work is described in a project description, letter from the vice president of the 307th Infantry Veterans' Society, and in photographs, all submitted as components of the application.

The Commission notes that the designation report describes Central Park as an English Romantic style . . . public park designed by Olmsted and Vaux in 1856. The Commission further notes that the planting of the grove and placement of the tablets occurred between May 1, 1921 and 1926 to commemorate members of the 307th Infantry Regiment who lost their lives in World War I.

The Commission finds that the restoration of the bronze plaque to the boulder will return this feature to its historic design, which is typical of other descriptive and commemorative plaques set in boulders in the park; and that removal of the smaller bronze tablets and their concrete plinths will eliminate features in conflict with the naturalistic character of the park and which no longer relate well to individual trees, some of which have died. Based on these findings, the proposed work is determined to be appropriate to the Central Park Scenic Landmark.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The approved work is limited to what is contained in the perforated documents.
