PROCUREMENT

READER'S GUIDE

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,18th Floor, NY, NY 10007 (212) 669-8562.

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

DEVELOPMENT TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – CSP – PIN# 071-00S003262 – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families and drop-in centers for adults. **This is an open-ended solicitation; there is no due date for submission.** Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-fourth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 5 to 30 years and the drop-in centers will be for three years with one three year option to renew.

Pursuant to Section 312(c)(1)(ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgement is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03(c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences

in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated and 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed facility location.

Any organization that believes it can provide these services may contact: Calvin Pitter, Deputy Agency Chief Contracting Officer at the Department of Homeless Services at (212) 361-8000, 33 Beaver Street 13th Flr., New York, NY 10004, to request a copy of the application, which is available for pick-up only Monday through Friday on business days between the hours of 9 a.m. to 5 p.m.

TAXI AND LIMOUSINE

■ NOTICE

Notice of Final Publication

NOTICE IS HEREBY GIVEN in accordance with Section 1043(b) of the Charter of the City of New York, that the Taxi and Limousine Commission amends the Taxicab Owners Rules and the For-Hire Vehicle Rules to eliminate the exemption from the vehicle partition requirement for vehicles operated exclusively by independent taxicab owners, shareholders of taxicab corporations, or owners of for-hire vehicles.

The Taxi and Limousine Commission ("TLC") is promulgating such regulations pursuant to the authority vested in the TLC under Charter Section 2303(a) and 2303(b); and under Sections 19-503; 19-503.1; and 19-506 of the Administrative Code of the City of New York.

A public hearing in connection with these proposed regulations was held on **Thursday, May 25, 2000**, at the NYC Taxi and Limousine Commission, 40 Rector Street, New York, NY 10006.

Section 1. Title 35 of the Rules of the City of New York ("RCNY"), Chapter 1, Taxicab Owners' Rules, Section 1-17, Partition, is amended to read as follows:

[ ] Brackets indicate deleted material.
Italics indicate new material.

§1-17 Partition.

(a) An owner shall equip all taxicabs, except as provided in subsection (b), with a transparent partition and a protective plate which would isolate the driver from the rear seat passengers, and with provision for air conditioning for the rear passenger compartment, as set forth in §§3-03(e)(3)(i) and 3-05 of the Taxicab Specifications.

(b) An owner of an independent taxicab or a shareholder of a corporation owning one or more medallions shall be exempt from the provisions of subsection (a) if:

(1) the taxicab is driven by the medallion owner or corporate shareholder(s), and

(2) the rate card lists only the persons named in subdivision (1) as driver(s), and

(3) the taxicab is equipped with a cellular telephone which has an emergency dialing feature, in accordance with Owners Rule 1-13(b), [or] *and* the taxicab is equipped with some other device specifically approved by the commission to satisfy this requirement *in addition to the trouble light required by Rule 1-18(a)*, and

(4) the owner has not previously been found in violation of this rule with respect to the subject medallion, and

(5) the owner has applied for and received a certification of exemption from the commission. Notwithstanding compliance with the above conditions, if a partition is the only approved location for display of the rate card and driver license in a particular model of automobile, then a partition is required.

Section 2. Title 35 of the Rules of the City of New York ("RCNY"), Chapter 6, For-Hire Vehicle Rules, Section 6-13, Partitions and Emergency Lights, subdivision (a), is amended by deleting paragraph (2) and by renumbering paragraphs (3) and (4), as follows:

Italics indicate new material.
[ ] Brackets indicate deleted material.

(a) A for-hire vehicle shall be equipped with a partition and a protective plate which would isolate the driver from the rear seat passengers, unless the owner is exempt pursuant to paragraphs (2), (3) or (4) of this subdivision.

(1) The partition shall be made of lexan, margard or other polycarbonate material not less than 0.375 inches thick extending upward from the back of the front seat to the ceiling of the vehicle. There shall be a provision for communication with passengers and for a money slot while the partition is closed. Such partition may be able to be partially opened by the driver, as long as the driver can fully close the partition at any time. A for-hire vehicle owner shall also equip the vehicle with a 0.085 inch thick plate of ballistic steel or its equivalent, installed inside the back rest of the front seat. The plate shall cover the complete back rest area which is exposed to the rear seat compartment.

(2) [The vehicle shall be exempt from the requirements of paragraph (1) if:

(i) the vehicle is driven only by the vehicle owner, and

(ii) the vehicle is equipped with a FCC-licensed commercial two-way radio with an emergency button that would notify the dispatcher that the driver is in trouble, or the vehicle is equipped with some other device specifically approved by the Chairperson to satisfy this requirement, and

(iii) the owner has not previously been found in violation of this rule with respect to the subject vehicle.

3] A for-hire vehicle shall be exempt from the requirements of paragraph (1) if the vehicle is affiliated only with a black car base or a luxury limousine base.

[4](3) A for-hire vehicle shall be exempt from the requirements of paragraph (1) if the vehicle is equipped with at least the following two safety devices:

(i) a FCC-licensed commercial two-way radio with an emergency button that would notify the dispatcher that the driver is in trouble, and

(ii) some other device specifically approved by the Chairperson to satisfy this requirement, in addition to the trouble light required by Rule 6-13(b).

Statement of Basis and Purpose

This Rule by the New York City Taxi and Limousine Commission ("TLC") is promulgated pursuant to authority conferred under Section 2303(a) of the Charter of the City of New York, which permits the TLC to regulate and supervise the business and industry of transportation of persons by licensed vehicles for hire in the city; under Section 2303(b) of such Charter, authorizing the TLC to promulgate rules and regulations reasonably designed to carry out its purposes; and under Sections 19-503 and 19-503.1 of the Administrative Code of the City of New York, authorizing TLC to promulgate rules and regulations necessary to exercise the authority conferred upon it by the Charter.

In 1996, the Taxi and Limousine Commission mandated that most taxicabs be equipped with partitions. Immediately after the enactment of this Rule, the number of violent crimes committed against taxicab drivers dropped significantly. On June 1, 1997, a Rule mandating partitions in certain for-hire vehicles became effective. That Rule requires that all for-hire vehicles be equipped with a partition, unless the vehicle owner qualifies for one of the enumerated exemptions. Section 6-13(a)(2) of the For-Hire Vehicle Rules provides that a vehicle owner may be exempt from the partition requirement if, inter alia, the vehicle is driven exclusively by the owner. Since most for-hire vehicles qualify for an exemption from the partition requirement since they are driven exclusively by the vehicle owner, relatively few for-hire vehicles have been equipped with partitions or other security devices.

Section 1-17(b) of the Taxicab Owners' Rules also exempts certain taxicabs driven exclusively by the vehicle owner or a shareholder in the corporation owning taxicabs from the mandatory partition requirement. These exemptions to the partition requirements were enacted primarily because many for-hire vehicle owners and individually-owned taxicabs also use their vehicles as private and family vehicles, and the Commission allowed such owner/operators the option to choose to purchase partitions to protect themselves. Many taxicab and for-hire vehicle owners have placed themselves at risk by not installing protective equipment in their vehicles, where such equipment has been proven to be an effective deterrent to crime.

A recent increase in the number of assaults and violent crimes committed against drivers of for-hire vehicles prompted the Commission to issue a declaration of an immediate and imminent threat to the public health and safety on April 18, 2000, which was approved by the Mayor. The Commission also adopted an Emergency Rule pursuant to Section 1043(h) of the New York City Charter, repealing both the taxicab and the for-hire vehicle owner-operator exemptions to the partition requirement. The Rule promulgated herein adopts the text of this Emergency Rule as a final Rule of the Commission.

Independent studies have clearly demonstrated that the installation of partitions has reduced the number of crimes committed against taxicab and for-hire vehicle drivers. Accordingly, eliminating exemptions from the mandatory use of partitions or other security devices will promote driver safety.

Taxicabs that are presently mandated to have partitions shall not be relieved of this requirement through the installation of an in-vehicle camera. Taxicabs presently exempt from the partition requirement may comply with this Rule through the installation of either a partition or the in-vehicle camera, presently approved by the Commission as an alternative safety device, or another security device that may be approved by the Commission in the future.

For-hire vehicles that are not equipped with partitions may install either a partition or an approved in-vehicle camera to comply with the requirements of this Rule.

Notice of Final Publication

NOTICE IS HEREBY GIVEN in accordance with Section 1043(b) of the Charter of the City of New York, that the Taxi and Limousine Commission hereby amends the Taxicab Specifications to authorize the transfer of a vehicle fueled by Compressed Natural Gas ("CNG") to another medallion owner or owner's agent.

The Taxi and Limousine Commission ("TLC") is promulgating such regulations pursuant to the authority vested in the TLC under Charter Sections 2303(a) and 2303(b); and under Sections 19-503 of the Administrative Code of the City of New York.

A public hearing in connection with these proposed regulations was held on **May 25, 2000,** at the NYC Taxi and Limousine Commission, 40 Rector Street, New York, NY 10006.

Section 1. Title 35 of the Rules of the City of New York ("RCNY"), Chapter 3, Taxicab Specifications, Section 3-01(e), Vehicle Hack-Up and Vehicle Transfer provisions, is hereby amended by the addition of a new subdivision (4) to read as follows:

[ ] Brackets indicated deleted material.
Italics indicate new material.

Section 3-01(e) Vehicle Hack-Up and Vehicle Transfer

(e) A vehicle that was hacked-up pursuant to subdivision (b) may be transferred to another medallion, with the approval of the Commission, only if the vehicle passes inspection, has not yet met its retirement date as specified in Rule 3-02, and meets the requirements of either subsection (1), (2) [or],(3),*or (4)*.

(1) Repossessions. The title owner at the time of transfer of the vehicle to another medallion has acquired the vehicle pursuant to a repossession sale by the previous owner's purchase money lender, and the repossession occurs within twenty-four months of hack-up.

(2) Long-term drivers. The title owner at the time of transfer of the vehicle to another medallion was a long-term driver of the vehicle, as defined in Rule 1-01, for at least five months of tits operation under the previous medallion and will be a long-term driver under the new medallion.

(3) Same medallion owner or agent. The owner of the medallion or the owner's agent transfers the vehicle to another medallion operated by the same owner or agent.

(4) *Compressed Natural Gas Vehicle. The owner of a medallion or the owner's agent may transfer a vehicle fueled by Compressed Natural Gas to any other medallion owner or owner's agent.*

Statement of Basis and Purpose

The regulations promulgated herein by the New York City Taxi and Limousine Commission ("TLC") are authorized under Section 2303(a) of the Charter of the City of New York, which empowers the TLC to regulate and supervise the business and industry of transportation of persons by licensed vehicles for hire in the City; under Section 2303 (b)(6) of such Charter, which authorizes TLC to set standards for the safety, design, comfort and convenience of vehicles; under Section 2303(b)(11) of such Charter, which authorizes the TLC to promulgate rules and regulations necessary to exercise the authority conferred upon it by the Charter; and under Section 19-503(a) of the Administrative Code of the City of New York, which authorizes the Commission to promulgate rules to further the objectives of the Charter and the Administrative Code.

This Rule amends the taxicab specifications that permit the transfer of a vehicle that was previously hacked-up pursuant to TLC rules, to another medallion.

On December 16, 1999, the TLC held a public hearing to review the effectiveness of the current CNG vehicle program, which combines incentives, such as special vehicle retirement rules applicable to CNG vehicles, as well as mandates, such as the requirement, since repealed, that fleet maintained Stand-By Vehicles (SBVs) be fueled by CNG. The TLC heard testimony and received written comments from the taxicab industry which indicated that there were problems associated with the CNG program, including the lack of a sufficient number of twenty-four (24) hour fueling sites, the lack of sites in locations near taxicab garages, the extensive amount of time needed to re-fuel CNG vehicles, cost and maintenance issues relating to the vehicles, and the unwillingness of taxicab drivers to lease such vehicles because of the additional time needed to fuel the vehicles. Other persons provided testimony in favor of the CNG program, noting the positive impact such a program has upon the environment.

After review of the testimony, the TLC voted to repeal the mandatory CNG vehicle usage for SBVs, while retaining existing provisions in the Rules encouraging the voluntary use of CNG-powered vehicles. The TLC hereby amends the taxicab specifications to encourage continued voluntary usage of CNG vehicles. The TLC, from a policy standpoint, is committed to encouraging and promoting the voluntary use of CNG vehicles by its licensees.

This Rule permits existing owners of vehicles fueled by CNG, which were originally hacked-up as new vehicles, *to transfer*

these vehicles from one medallion owner to another, so long as the vehicle passes the required TLC inspection and meets vehicle retirement requirements. Generally, a medallion owner is required to "hack-up", or equip for service as a taxicab, only new vehicles. Exceptions presently exist in cases where the vehicle is repossessed by a lender, or is being transferred from one medallion operated by an owner or agent to another medallion owned by the same owner or agent. Under this amendment, a vehicle fueled by CNG could be transferred from one medallion owner to another, notwithstanding the fact that the vehicle does not otherwise qualify for a new vehicle "hack-up". This Rule would encourage the use of vehicles fueled by CNG since they could be sold or otherwise transferred to another taxicab owner or agent whose facilities might be more accessible to CNG fueling stations.

ALTHOUGH IN MOST INSTANCES THE PAYMENT OR PROVISION FOR SUPPLEMENTAL BENEFITS IS FOR EACH HOUR WORKED, SOME CLASSIFICATIONS REQUIRE THE PAYMENT OR PROVISION OF SUPPLEMENTAL BENEFITS FOR EACH HOUR PAID. CONSEQUENTLY, SOME PREVAILING PRACTICES REQUIRE BENEFITS TO BE PURCHASED AT THE OVERTIME, SHIFT DIFFERENTIAL, HOLIDAY, SATURDAY, SUNDAY OR OTHER PREMIUM TIME RATE.

CONTRACTORS ARE ADVISED TO REVIEW THE APPLICABLE COLLECTIVE BARGAINING AGREEMENTS AND THE COMPTROLLER'S PREVAILING WAGE SCHEDULE BEFORE BIDDING ON PUBLIC WORK. LANDMARKS PRESERVATION COMMISSION

■ NOTICE

ADVISORY REPORT

ISSUE DATE: 05/12/00	DOCKET #: 003931	SRA #: SRA 00-6666
ADDRESS 380 EAST 166TH STREET HISTORIC DISTRICT CLAY AVENUE	BOROUGH: BRONX	BLOCK/LOT: 2425 / 16

To the Mayor, the Council, and the Commissioner, Dept. of Housing Preservation & Development.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for work at the subject building, including pointing the Clay Avenue facade and the rear facade, sealing cellar windows, installing a louver in a cellar window opening, and repairing and painting the cornice. The proposed work is described on drawing A-1 dated 12/30/99, in undated correspondence and meeting minutes, and in photographs, all submitted as components of the application.

The Commission notes that the designation report describes the building as a 4-story neo-Renaissance style apartment house built in 1910 and designed by Neville & Bagge.

The Commission finds that raking out masonry joints on the facade with hand tools only, taking care not to damage the masonry, and pointing with lime-based mortar matching the color and tooling of the mortar on the previously repointed East 166th Street facade, will help keep the building water tight without damaging the masonry and will unify the appearance of the two street facades; that repairing, scraping, and painting the cornice a limestone color will help preserve this feature and return it to its historic color and appearance; that resealing cellar windows with grey stucco-covered masonry recessed two inches from the face of the building will eliminate the unsympathetic flush concrete block infill previously installed and will otherwise have no effect on protected features; and that the grey-finished metal louver to be installed in one of the cellar openings will match the color of and be flush with the surrounding masonry, thereby making it as unobtrusive as possible. Based on these findings, the proposed work is determined to be appropriate to the building and the Clay Avenue Historic District.

Please contact the Commission when a sample of brick repointing is available for our review.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Jeremy Woodoff.

INVOCATION

Men and Women of the City Council

Almighty God,

Thou art revealed not only in the beauty of Nature but also in the wisdom and compassion that shines forth from the human heart. Therefore, we beseech thee, O God, as the members of this City Council begin their deliberations, thus Thou shall guide them to wisdom and open their hearts to compassion.

We are humbled by the mountain of needs of our great city and make wiser these men and women—make them Thine instrument for good.

May their deliberations and decisions be such that all shall know that ours is indeed a City built upon knowledge and wisdom, sensitivity that inspires compassion.

For then shall Thy name, O God, be blessed and we shall dwell in peace and safety.

Amen.

Council Member Freed moved to spread the Invocation in full upon the Record.

REPORTS OF STANDING COMMITTEES

Report of the Committee on Civil Service and Labor

At this point the Speaker (Council Member Vallone) announced that the following item had been preconsidered by the Committee on Civil Service and Labor and had been favorably reported for adoption.

Int. No. 624

Report of the Committee on Civil Service and Labor in favor of approving and adopting a local law to amend the administrative code of the city of New York, in relation to awards to survivors of certain civilian members of the police department killed while engaged in the discharge of duty.

The Committee on Civil Service and Labor to which it was referred on September 9, 1999, the annexed local law respectfully

REPORTS:

This legislation would provide a monetary award of one years salary to the survivors of certain civilian members of the New York City Police Department (NYPD) who served in prevailing rate titles and died in the line of duty between October 2, 1998 and August 1, 1999. The award would be equal to the annual compensation earnable by the person "holding such prevailing rate title as provided for in the budget for the fiscal year in which death occurs."

Currently, Chapter 4 of Title 3 of the administrative code of the city of New York authorizes discretionary awards for the survivors of members of the uniformed forces, including police, fire, corrections and sanitation employees who die during the course of employment.

This legislation would amend section 3-403 of the administrative code to ensure that certain prevailing rate employees of the NYPD are afforded similar benefits.

Prevailing rate employees are governed under Section 220 of the State Labor Law. They serve in workmen, laborers and mechanics titles in the uniformed and civilian forces pursuant to of Section 220(5)(a).

Prevailing rate employees are entitled to receive the prevailing rate of wage which is the wage paid in the city, "by virtue of collective bargaining agreements between bona fide labor organizations and employers of the private sector, performing public or private work provided that said employers employ at least thirty percentum of workers, laborers or mechanics in the same trade or occupation in the locality where the work is being performed."

The courts have established that employees of the city under certain civil titles are engaged in "public works" and as such fall within the category of prevailing rate employees.

On motion of the Speaker (Council Member Vallone), and adopted, the foregoing matter was made a General Order for the day. (See ROLL CALL ON GENERAL ORDERS FOR THE DAY.)

Report of the Committee on Finance

At this point the Speaker (Council Member Vallone) announced that the following item had been preconsidered by the Committee on Finance and had been favorably reported for adoption.

Res. No. 961

Report of the Committee on Finance in favor of approving a resolution authorizing the filing of applications for state assistance payments for municipal park and local waterfront revitalization projects, within the City of New York and the signing of associated state contracts under the appropriate laws of New York State.

The Committee on Finance to which it was referred on September 9, 1999, the annexed resolution respectfully

REPORTS:

Article 54 of the New York State Environmental Conservation Law ("ECL") sets up an environmental protection fund for the funding of certain environmental goals. Article 54 (or the "Environmental Protection Act") provides that the Commissioner of the New York State Office of Parks, Recreation and Historic Preservation "may, in the name of the state, . . . contract to make . . . state assistance payments to a municipality toward the cost" of a municipal park project (ECL § 54-0103).

In addition, Title 3 of the Clean Water/Clean Air Bond Act of 1996 contained in Article 56 of the ECL ("Article 56"), provides for money from the proceeds received by the state from the sale of bonds pursuant to that act to be made available for clean water projects which can include municipal park projects. (ECL § 56-0301).

Finally, Title 11 of Article 54 of the ECL provides that the Secretary of State is authorized to provide "on a competitive basis, within amounts appropriated, state assistance payments to municipalities toward the cost of any local waterfront revitalization program." (ECL § 54-1101).

This preconsidered Resolution authorizes the Commissioner of the City's Department of Parks and Recreation to apply for such state assistance payments for three projects, and, if the applications are approved, to enter into project agreements for state assistance contracts.

The following are general descriptions of the three projects for which state assistance payments are being sought, provided by the City Department of Parks and Recreation: (1) a Citywide Rare and Endangered Species Propagation Program involving the propagation of rare waterfront plants in nurseries for reintroduction at the edge of local bodies of water to cut runoff into those bodies and drain out pollutants; (2) a Citywide Sediment and Erosion Control Program involving education and training for City contractors in the prevention of runoff from construction sites located near watersheds; and (3) a Citywide Coastal Forested Watershed Interpretative Signage Project involving an effort to combat mountain hikes and all-terrain vehicles which cause damage in City parklands.

Title 9 of Article 54 of the ECL defines a municipal park project as "a project undertaken by a municipality or a not-for-profit corporation for the acquisition, development

or improvement of recreational facilities including construction of structures, roads and parking facilities" (ECL § 54-0901). Article 56 defines a municipal park project as one undertaken by a municipality, state agency, public benefit corporation, public authority, or not for profit corporation for the acquisition, development or improvement of parks, preserves, beaches, shorefronts, recreational sites and facilities including construction of structures, roads and parking facilities." (ECL § 56-0101).

According to Title 9 of Article 54 and Article 56, all such municipal park projects, must be undertaken in New York State (§§ 54-0903 and 56-0309). Total state assistance payments for municipal park projects under both Title 9 of Article 54 and Article 56 cannot exceed fifty percent of the project cost. Both Articles also provide in the case of park projects, that "for the purpose of determining the amount of the state assistance payments, the cost of the project shall not be more than the amount set forth in the application for state assistance payments approved by the commissioner" (§§ 54-903 and 56-0309).

Articles 54 and 56 provide that the Commissioner of the State Office of Parks, Recreation and Historic Preservation (or "State Commissioner") and a municipality may enter into a contract for the undertaking of a municipal park project. Such projects shall be recommended to the State Commissioner by the governing body of the municipality and, when approved by the State Commissioner, may be undertaken by the municipality. In the case of a city or village, "governing body" is defined as "the local legislative body thereof . . . ."

According to Sections 54-0907 and 56-0309, the State Commissioner shall impose contractual conditions on a municipality receiving state assistance payments "to ensure that a public benefit shall accrue from the use of public funds by such municipality. . . ." Some of the conditions imposed by the State Commissioner may include, the limitation on the right of the municipality to demolish or convey certain property, public access or use of certain property, granting of facade easements to New York State, or a requirement that all plans for restoration or demolition be subject to approval by the State Commissioner.

Title 11 of Article 54 sets forth similar requirements for local waterfront revitalization projects. This title authorizes the Secretary of State to provide state assistance payments for these local projects on a competitive basis. As in the case of park projects, state assistance payments for these local waterfront projects cannot exceed fifty percent of the cost of the project; and for the purpose of determining the amount of the state assistance payments, the costs of the project shall not be more than the amount set forth in the application (ECL § 54-1101). The Secretary of State can also impose contractual requirements and conditions upon any municipality receiving state assistance payments to ensure that "a public benefit shall accrue from the use of such funds . . ." (ECL § 54-1101).

This preconsidered resolution, if adopted by the Council, would authorize the filing of applications with the Secretary of State and/or the Commissioner of the New York State office of Parks, Recreation and Historic Preservation, for state assistance payments for various local waterfront revitalization programs and/or municipal park projects. In addition, the preconsidered resolution would authorize the execution of any contracts required under Articles 54 or 56 of the ECL in connection with such state assistance payments.The preconsidered resolution would direct and authorize Henry J. Stern, Commissioner of the New York City Department of Parks and Recreation, to be the official representative of New York City in any matters dealing with the application for state assistance payments, including providing any additional information to the State Commissioner or Secretary of State and executing the resulting contracts, if any.

Accordingly, Your Committee recommends its adoption.

The address of each base station is found in the text of the bills, which are attached to this report.

The Committee on Transportation to which it was referred on September 9, 1999, the annexed resolution respectfully

REPORTS:

Should the Council not "call up" a determination, or having done so,, not pass a local law with respect to that determination within that ninety day time period, then the determination by the TLC remains in effect. Applications for such licenses are initially submitted to the Taxi and Limousine Commission and forwarded by the TLC to the Council, the Council Member in whose district the car service will have this base of operations and the local Community Board.

Resolved:

The Council finds that the action described herein will have no significant effect on the environment.

Pursuant to Sections 197-d and 200 of the City Charter and on the basis of the Decision and Application, the Council approves the Decision with the following modification:

By Council Member Berman (by request of the Mayor); also Council Members Eisland, Harrison, Marshall and Pinkett

Whereas, The State of New York provides financial assistance for municipal park and local waterfront revitalization projects; and

Whereas, Articles 54 and 56 of the New York State Environmental Conservation Law ("ECL") and any rules and regulations promulgated pursuant thereto require a resolution to be adopted by the governing body of a municipality to authorize applications for such state assistance payments; and

Whereas, The City of New York has examined and duly considered the applicable laws of the City and State of New York and deems it to be in the public interest to file one or than one application for such financial assistance payments; and

Whereas, The New York City Department of Parks and Recreation has prepared applications for financial assistance payments for the projects identified in the list attached to this Resolution and incorporated herein by this reference as Attachment No. 1; and

Whereas, If such applications for financial assistance payments are approved by the New York State Office of Parks, Recreation and Historic Preservation and/or the New York State Department of State, it is necessary that a contract by and between the State of New York and the City of New York be executed in connection with such state assistance payments for each approved project application; and

Whereas, The New York City Department of Parks and Recreation is the agency charged with the management and physical improvement of all designated parkland owned by the City of New York; *now therefore, be it*

Resolved by the Council of the City of New York that:

1. The filing of applications for such state assistance payments for the projects specified in Attachment No. 1 in the form required by the State of New York, in conformity with the applicable laws of the State of New York, including all understandings and assurances required by said applications, is hereby authorized;

2. Henry J. Stern, as Commissioner of the New York City Department of Parks and Recreation, or his successor(s), is hereby authorized and directed as the official representative of the City of New York to submit an application for funds to the New York State Office of Parks, Recreation and Historic Preservation and the New York State Department of State, in accordance with the provisions of Title 3 of the Clean Water/Clean Air Bond Act of 1996 (Title 3 of ECL Article 56) and Titles 9 and 11 of the Environmental Protection Act (Titles 9 and 11 of ECL Article 54), for each of the projects, in an amount not to exceed the amounts specified therein; to act in connection with such applications for grants of state assistance payments, including the provision of such additional information as may be required; and upon approval of said applications by New York State for such project or projects, to enter into and execute a project agreement for state assistance contracts with the State for such financial assistance to the New York City Department of Parks and Recreation for each said approved application;

3. Three certified copies of this Resolution shall be prepared for forwarding to the New York State Department of Parks and Recreation and/or the New York State Department of State.

Res. No. 962

Resolution calling upon both Houses of the Congress of the United States to re-introduce the Children's Gun Violence Prevention Act of 1999, a bill that provides for preventive measures and harsher penalties to deter acts of gun violence committed by and against children.

By Council Members Boyland, Fisher, Freed, Reed, Perkins, McCaffrey, Spigner, Rodriguez, Carrion, Malave-Dilan, Espada, Harrison, Henry, Lasher, Linares, Marshall, Michels, Miller, Nelson, Quinn and Warden; also Council Members Dear, DiBrienza, Eisland, O'Donovan, Pinkett, Robinson and Sabini

Whereas, The scourge of gun violence acts committed by and against children has reached epidemic proportions; and

Whereas, This nation's greatest resource, its children, is being devastated by these violent acts; and

Whereas, According to the 1998 Children's Defense Fund's State of America's Children Yearbook, 47,634 children were killed by firearms from 1986 to 1995 and the Centers for Disease Control and Prevention report that firearms were used in 85 percent of the homicides involving 15- to 19-year-olds in 1996; and

Whereas, According to the FBI, the homicide rate of 14 to 17 year olds has increased over forty percent from 1989 to 1994; and

Whereas, This nationwide problem is evidenced by the recent shootings committed by children with guns in schools in Colorado, Kentucky and Georgia; and

Whereas, Locally, New York City has not been immune to this brand of child violence as demonstrated by the murder of an eleven year old boy, Kelvin McGinnis, who was killed by gunfire on August 19, 1999 in the borough of Brooklyn; and

Whereas, This young boy was shot while in a play area of the Saratoga Village housing project and it is alleged that he was shot by youth gang members who were in the possession of firearms; and

Whereas, To recognize this horrific tragedy, local religious leaders and elected officials have called for Sunday, September 12 to be recognized as "Communities United Against Gun Violence Day"; and

Whereas, A bill (H.R. 1342) that has yet to be voted on or debated by the Congress of the United States provides initiatives to prevent youth access to firearms and stiff penalties for those adults who allow minors to access firearms; and

Whereas, This bill mandates new safety standards regarding the manufacture and importation of handguns; prohibits the sale of an assault weapon to anyone under the age of 18; imposes fines on a gun owner of up to 10,000 dollars if a child gains access to a loaded firearm and criminal penalties of up to one year in prison if the gun is used in an act of violence, along with other provisions to prevent child gun violence; and

Whereas, These recurring acts of gun violence by and against children should instill a greater sense of urgency on the part of elected officials to support legislation which seeks to prevent such acts; *now, therefore, be it*

Resolved, That the Council of the City of New York calls upon the Congress of the United States of America to reintroduce The Children's Gun Violence Prevention Act of 1999, a bill that provides for preventive measures and harsher penalties to deter acts of gun violence committed by and against children.

Res. No. 963

Resolution calling for all New Yorkers to recognize August 14th as Pee Wee Reese Day in the City of New York in honor of the baseball great and American hero.

By Council Members Clarke, Pinkett, Freed, Harrison, Marshall, Nelson, Golden and Stabile; also Council Members Berman, Eisland, Fisher, Lasher, Leffler, Michels, O'Donovan, Povman and Robinson.

Whereas, Hall of Fame shortstop Pee Wee Reese led the Brooklyn Dodgers to seven National League pennants and the team's only World Series title in 1955; and

Whereas, Mr. Reese was not only a gifted athlete but a man of progressive mind that helped to smooth the integration of African-American ball players into Major League Baseball; and

Whereas, In 1947, during a game at Cincinnati's Crosley Field and in an instance of true sportsmanship unequalled in a time of Jim Crow laws and overt racism, Pee Wee Reese walked over to then rookie and first African-American Major League Baseball player Jackie Robinson and placed an arm over his shoulder; and

Whereas, This seemingly simple action was in fact a brave and selfless act that has been said to be a turning point in baseball and in Jackie Robinson's struggle to succeed in Major League Baseball; and

Whereas, In 1984, when being inducted into the Baseball Hall of Fame in Cooperstown, New York, Mr. Reese's off-the-field leadership and his instrumental role in breaking baseball's color line were cited as reasons for his candidacy; and

Whereas, Pee Wee Reese died on August 14, 1999 at the age of 81 in his hometown of Louisville, Kentucky and it is on this date, August 14th that we should pause to recognize the contributions he made to baseball and to America; *now, therefore, be it*

Resolved, That the Council of the City of New York calls for all New Yorkers to recognize August 14th as Pee Wee Reese Day in the City of New York in honor of the baseball great and American hero.

Whereas, The mall has served as a haven for Arabs and Israelis to intermingle and thereby promotes a spirit of co-existence and peace; and

Whereas, The 46 Burger King restaurants in Israel are operated under an agreement with Burger King by Rikamor, the franchisee who under its contract is allowed to open restaurants in Israel and the territories; and

Whereas, Under pressure from various Arab organizations who have threatened a boycott of Burger King restaurants worldwide, Burger King in late August announced that it is canceling Rikamor's license to operate a Burger King restaurant in Ma'aleh Adumim; and

Whereas, This action is reminiscent of the Arab boycott of Israel whereby many American companies refused to do business with Israel for fear of retaliation by Arab countries; and

Whereas, This Council and this City have always loudly stood up against the Arab boycott of Israel; and

Whereas, It is inappropriate to threaten a boycott against a business legitimately serving all residents regardless of religion or ethnic origin; and

Whereas, Burger King is misguided and it is discriminatory for it to respond to such pressure by not allowing its name to be associated with the franchise in Ma'aleh Adumim; *now, therefore be it*

Resolved, That the Council of the City of New York does hereby call upon Burger King International to reverse its decision to cancel its franchise contract for a Burger King restaurant to operate a food court counter stand in a mall in Ma'aleh Adumim.

Res. No. 966

Resolution calling upon the State of New York to enact a statute of mandatory treatment and probation for people convicted of or pleading guilty to nonviolent drug-related crimes as an alternative to costly prison sentencing.

By Council Members Foster, Boyland, Clarke, Espada, Harrison and Marshall; also Council Members Eldridge, Freed, Perkins, Pinkett and Reed

Whereas, Arizona has developed a program of mandatory treatment and probation for people convicted of or pleading guilty to nonviolent drug-related crimes as an alternative to costly prison sentencing; and

Whereas, A report issued by the Arizona Supreme Court estimated that Arizona's new program saved more than $2.5 million in its first fiscal year of operation, which ended in June of 1998, costing $16 per day for treatment, counseling and probation as opposed to $50 a day for prison; and

Whereas, General Barry R. McCaffrey, the director of national drug policy, has said that he wants to reduce the prison population by 250,000 out of a total U.S. prison population of 1.9 million by promoting such options of treatment; and

Whereas, At the end of 1998, New York had 22,386 drug felons in its state prisons at an annual cost of more than $700 million, according to the Correctional Association of New York; *now, therefore be it*

Resolved, That the Council of the City of New York calls upon the State of New York to enact a statute of mandatory treatment and probation for people convicted of or pleading guilty to nonviolent drug-related crimes as an alternative to costly prison sentencing.

Res. No. 967

Resolution calling upon the Congress of the United States to adopt HR 1849 that would require the United States Attorney General to issue regulations that would determine the eligibility of persons seeking asylum for gender-related persecutions including the fear of female genital mutilation.

By Council Members Freed, Boyland, Clarke, Espada, Harrison, Henry, Marshall, Michels, Quinn and Reed; also Council Members Berman, Eisland, Eldridge, Leffler and Pinkett

Whereas, The practice of Female Genital Mutilation (FGM) has been internationally recognized as a violation of women's and female children's rights; and

Whereas, On July 9, 1999 the U.S. Court of Appeals for the Second Circuit found that a native of Ghana, Adelaide Abankwah, may be granted asylum because her objective and subjective fear of FGM constitutes persecution under the law of the United States; and

Whereas, In 1995, FGM was condemned by The United Nations at the Fourth World Conference on Women held in Beijing, China between September 4th and the 15th in the "Report of the Committee on the Elimination of All Forms of Discrimination Against Women" that was adopted as General Recommendation No. 14 [U.N. GAOR 45th Sess. Supp. No. 38, at 80, 438, U.N. Doc. A/14/38, U.N. Doc. DPI/1776/Wom (1996) 112-113], and

Whereas, The U.S. Second Circuit Court of Appeals cited this recommendation in the case of Adelaide Abankwah v. Immigration and Naturalization Service; and

Whereas, The Court also cited the criminalization of FGM in the Illegal Immigration and Reform Act of September 1996 that subjects a person who "knowingly circumcises, excises or infibulates the whole or any part" of the female genitalia of a person under 18 to fines and imprisonment (18 U.S.C. 116 (Supp. II 1996) as reasons for recognizing that Ms. Abankwah had a legitimate claim for asylum in the United States; and

Whereas, The United States Immigration and Naturalization Service (INS) in seeking to deport Ms. Abankwah did not dispute that FGM involves the infliction of grave harm constituting persecution as defined in 8 U.S.C. 1101(a)(42)(A) (1994); and

Whereas, FGM is sometimes defended as a culturally acceptable practice, but many nations where it is customary including Ghana, Ms. Abankwah's homeland, have banned the practice; and

Whereas, The U.S. Department of State found that, notwithstanding the legal ban of FGM in Ghana, prosecutions are rare, and in 1997 it was estimated that between 15 and 30 percent of all women and girls in that nation have been subjected to FGM; and

Whereas, Even cultures where FGM is customary recognize the pain it causes, and Ms. Abankwah's tribe, the Nkumssa, do not routinely practice FGM, but do it only to punish women who have had pre-martial intercourse; and

Whereas, The use of FGM for punishment would constitute torture; and

Whereas, Ms. Abankwah was detained by the INS for two years while she contested the finding of the INS Board of Immigration Appeals that she failed to demonstrate a reasonable fear that her tribe will subject her to FGM; and

Whereas, The lengthy incarceration of Ms. Abankwah demonstrates that the Attorney General should issue regulations that clarify the rights of persons seeking asylum for fear of gender-related persecution so that they may avoid lengthy periods of incarceration while their cases are decided; and

Whereas, Representative Carolyn Maloney of New York and 28 cosponsors have introduced HR 1849 which would require the Attorney General to issue regulations with a two related purposes of governing the decisions by the INS regarding the evaluation of asylum applications for gender-related persecution and the withholding of orders of deportation; *now, therefore, be it*

Resolved, That the Council of the City of New York calls upon the Congress of the United States to adopt HR 1849 that would require the United States Attorney General to issue regulations that would determine the eligibility of persons seeking asylum for gender-related persecutions including the fear of female genital mutilation.

Res. No. 968

Resolution calling upon the New York State Legislature and the Governor to enact legislation to amend the real property tax law, in relation to indexing to inflation the maximum income allowed for persons occupying rental units to be eligible for the senior citizen rent increase exemption (SCRIE) program.

By Council Members Leffler, Harrison, Boyland, Freed, Marshall, Nelson and Reed; also Council Members Eisland, Espada, McCaffrey, Michels, Pinkett and Quinn

Whereas, The Senior Citizen Rent Increase Exemption (SCRIE) program permits income eligible seniors, 62 years of age and over who live in rent-controlled and rent-stabilized apartments, and whose rent is more than one-third of their income, to apply for SCRIE certificates, which will exempt them from certain future rent increases; and

Whereas, Currently, a senior's total annual household income must not exceed $20,000 to qualify for SCRIE; and

Whereas, Pursuant to state enabling legislation, the Council passed legislation in 1996 (Local Law 1) which increased the maximum income eligibility level for SCRIE from $16,500 to $20,000; and

Whereas, Since that time, there has been no change in the maximum income eligibility level for SCRIE and while seniors' incomes have remained static, seniors' expenses have increased and inflation continues to deplete their income; and

Whereas, According to the rent guidelines board, rent for rent-stabilized apartments increased last year by eleven percent and rent control increases are statutorily mandated at seven and one half percent; and

Whereas, Seniors must pay these increases even though each year they have less income to spend; and

Whereas, It is now necessary to adjust the maximum income eligibility level upwards so that more seniors will qualify for SCRIE and be able to remain in their current homes and communities; *now, therefore, be it*

Resolved, That the Council of the City of New York calls upon the New York State Legislature and the Governor to enact legislation to amend the real property tax law, in relation to indexing to inflation the maximum income allowed for persons occupying rental units to be eligible for the senior citizen rent increase exemption (SCRIE) program.

Res. No. 969

Resolution calling upon the United States House of Representatives to pass a patient's bill of rights that includes improved consumer protection measures particularly a patient's right to sue health insurance companies.

By Council Members McCaffrey, Sabini, Carrion, Clarke, Malave-Dilan, Freed, Harrison, Henry, Marshall, Nelson, Quinn, Reed, Warden and Stabile; also Council Members Berman, DiBrienza, Eisland, Eldridge, Espada, Michels, Pinkett, Povman and Robinson

Whereas, Currently, the Employee Retirement Income Security Act of 1974 (ERISA) often prevents a patient enrolled in an employer-sponsored health plan from suing his or her health insurance company for punitive damages under state law should the insurer make a decision that costs the patient his or her health or life; and

Whereas, Commonly, an ERISA claim brought by a patient against a health insurance company is adjudicated in federal court and the patient only recovers the value of the denied benefit; and

Whereas, Health insurance companies have taken advantage of this "loophole" in order to avoid liability under state consumer protection and personal injury laws, which would allow the patient to claim punitive damages; and

Whereas, Consequently, today's cost-conscious managed care plans are able to limit or deny coverage for the 120 million Americans insured through their employers without the threat of punitive liability; and

Whereas, Doctors and other health care providers can be sued for punitive damages, yet many health insurance companies are currently afforded a shield of protection from such liability; and

Whereas, Patients deserve the ability to hold their health insurance companies accountable should the insurer make decisions which cost the patient his or her life; and,

Whereas, In July, the United States Senate passed the Patient's Bill of Rights Act of 1999, which did not expand a patients right to sue health insurance companies; and

Whereas, There are currently several pieces of health care reform legislation proposed in the United States House of Representatives, such as H.R. 358, the Patient's Bill of Rights Act of 1999, and H.R. 2723, the Consensus Managed Care Improvement Act, which both expand a patients right to sue; *now, therefore, be it*

Resolved, That the Council of the City of New York calls upon the United States House of Representatives to pass a patients bill of rights that includes improved consumer protection measures particularly a patients right to sue their health insurance companies.

Res. No. 970

Resolution calling upon Congress to conduct hearings on the proposal by Congressman Vito Fossella that would segregate all pornographic web sites on the internet into one web domain accessible only by passwords available to adult customers.

By Council Members O'Donovan, Espada, Harrison, Marshall, Nelson, Golden, Oddo and Stabile; also Council Members Dear, Eisland and Robinson

Whereas, Internet access is increasingly available to the general public, including minors; and

Whereas, There is a proliferation of pornographic web sites on the internet, some even disguised as children's cartoon characters, which has made this material increasingly available and attractive to minors; and

Whereas, In recent years, New York City has taken steps to restrict pornographic materials in its neighborhoods by passing legislation which restricts adult establishments to selected areas; and

Whereas, For various public policy reasons, which include protecting our children from inappropriate and sensitive material, it is imperative that we restrict youth access to pornography on the internet; and

Whereas, Segregating all pornographic web sites into one web domain would be a good balance since it would protect our children by preventing their access to such a web domain, while still allowing adults access to all web sites; *now, therefore, be it*

Resolved, That the Council of the City of New York calls upon Congress to conduct hearings on the proposal by Congressman Vito Fossella that would segregate all pornographic web sites on the internet into one web domain accessible only by passwords available to adult customers.

Resolution calling upon the New York City Board of Education to refuse to use any materials in its gun violence prevention program that have been developed by the National Rifle Association.

By Council Members Quinn, Boyland, Freed, Harrison, Linares, Marshall, Miller, Nelson, Perkins and Reed; also Council Members Eisland, Eldridge, Fisher, McCaffrey, Michels and Pinkett

Whereas, The New York State Senate and New York State Assembly recently passed the Firearm Accident Prevention Program Act, which will amend the Environmental Conservation Law to direct the Department of Environmental Conservation to implement a firearm safety instruction program for children in pre-kindergarten through sixth grade, and such program may include materials from the National Rifle Association; and

Whereas, The Firearm Accident Prevention Program Act will also amend the Education Law to permit an elementary school to use books and instruction materials based on the National Rifle Association's Eddie the Eagle program; and

Whereas, Gun violence among our nation's youth is a serious problem, as indicated by recent events at some of our country's high schools; and

Whereas, The National Center for Health Statistics of The Centers for Disease Control and Prevention in 1998 indicated that 13 young people aged 19 and under are killed with guns every day in the United States; and

Whereas, The National Rifle Association, which sponsors the Eddie the Eagle program, continues to lobby against reasonable gun control measures that would stem the flow of violence in the United States; and

Whereas, Instructing children about gun safety is a laudable, worthy and necessary goal; and

Whereas, Permitting the National Rifle Association's curriculum to be taught in our schools is not the appropriate method to achieve the worthy goal of educating our youth about gun violence prevention; and

Whereas, The New York City Board of Education currently uses the Straight Talk About Risks ("STAR") program, a gun violence prevention program based on research conducted by the Center to Prevent Handgun Violence, which is designed to help youth develop victim prevention skills and to rehearse behaviors needed to manage problems non-violently without guns; and

Whereas, The STAR program has been effective in educating our youth about gun violence; *now, therefore, be it*

Res No. 973

Resolution in support of the striking Domino Sugar factory workers and calling upon management and labor to resume negotiations in good faith toward a mutually agreeable contract.

By Council Members Sabini, Fisher, Freed, Carrion, Clarke, Harrison, Linares, Marshall, Nelson and Rodriguez; also Council Members DiBrienza, Eldridge, Espada, McCaffrey, Michels, O'Donovan, Pinkett, Quinn and Robinson

Whereas, Domino Sugar is a subsidiary of Tate and Lyle, the world's largest sugar and sweetener corporation.

Whereas, On June 15, 1999, three hundred workers, organized by the International Longshoremen's Association (ILA) Local 1814, went on strike after almost nine months, and eighteen rounds of negotiations with management at the Domino Sugar's Brooklyn refinery; and

Whereas, The last contract between Domino Sugar and ILA Local 1814 expired in October of 1998; and

Whereas, According to the ILA Local 1814, Domino Sugar is planning to restructure the Brooklyn operations and transfer the off-shore raw sugar refinery operations out of state; and

Whereas, The restructuring would eliminate approximately one hundred jobs at the Brooklyn facility; and

Whereas, According to the ILA Local 1814, management is demanding concession from the union which include unlimited contracting out, straight time for weekend work; giving back three holidays, Veterans Day, Columbus Day, and Washington's Birthday and the imposition of a no strike clause; and

Whereas, The ILA Local 1814 has further indicated that management is seeking the power to reopen the contract at will, remove list seniority and go to shift seniority for lay-off purposes, require supervisory and salaried employees to perform bargaining unit work to eliminate overtime, eliminate guaranteed hours and eliminate the past practice clause in the existing contract; and

Whereas, The ILA Local 1814 is extremely concerned that the elimination of guaranteed hours would result in three hundred and fifty employees becoming part-time workers; and

Whereas, It is imperative that management and labor return to the bargaining table and reach a settlement to the existing labor strike; *now, therefore, be it*

Resolved, That the Council of the City of New York supports the striking Domino Sugar factory workers and calls upon management and labor to resume negotiations in good faith toward a mutually agreeable contract.

Res. No. 974

Resolution calling upon the Congress of the United States to pass H. R. 2499, the "Silent Skies Act of 1999" that has been introduced by Representatives Anthony Weiner, Joseph Crowley and other members from both parties in the United States House of Representatives and would require new standards to reduce noise on all aircraft.

By Council Members Stabile, Carrion, Freed, Harrison, Marshall, Nelson, Abel, Fiala and Oddo; also Council Members Fisher, Leffler, Michels, O'Donovan and Povman

Whereas, H. R. 2499, the "Silent Skies Act of 1999," a bill with bipartisan sponsorship, has been introduced in the United States House of Representatives by Mr. Weiner, Mr. Crowley, Mr. Hyde, Mr. Shays, Mrs. McCarthy, Ms. Roukema and Mr. Towns, and 18 other cosponsors; and

Whereas, The "Airport Noise and Capacity Act of 1990" imposed standards that dampen the noise of aircraft gradually, and by December 31, 1999, all aircraft landing and departing from Kennedy and LaGuardia airports are requested to comply with the standards imposed by stage 3 of this legislation; and

Whereas, This "Silent Skies Act of 1999" calls for prohibition on operating aircraft that are not in compliance with stage 4 noise levels; and

Whereas, European nations have begun to modify aircraft regulations so that aircraft will comply with the requirements of stage 4 noise levels; and

Whereas, The sponsors of the bill wish to curb airport noise that undermines the quality of life for 250,000 residents in the New York Metropolitan Area who live near the flight paths of planes landing and departing from New York metropolitan airports; and

Whereas, Excessive noise from aircraft is pervasive in some neighborhoods and has been linked to fear in children, sleep deprivation, hearing loss, asthma attacks, and impairment of efficient learning during school hours; and

Whereas, Community groups, individuals and government officials, in the City of New York are seeking further action to alleviate this nuisance; and

Whereas, The "Silent Skies Act of 1999" provides that the Secretary of Transportation shall define the provisions of stage 4 aircraft by December 31, 2001, and these will subsequently be phased in over a period of ten years in order for aircraft to be in compliance with stage 4 noise levels no later than 2012; and

Whereas, The bill would amend Subchapter II of chapter 475 of Title 49, United States code, by insertion of the following section 47529, "the Secretary of Transportation, in consultation with the International Civil Aviation Organization, shall issue regulations to establish minimum standards for civil turbojets to comply with Stage 4 noise levels" by December 3, 2001; and

Whereas, In addition, by 2002, "Each air carrier must document and submit to the Secretary an annual report on the progress the carrier is making toward complying with the requirements of this section and regulations issued to carry out this section"; *now, therefore, be it*

Resolved, that the Council of the City of New York calls upon the Congress of the United States to pass H. R. 2499, the "Silent Skies Act of 1999" that has been introduced by Representatives Anthony Weiner, Joseph Crowley and other members from both parties in the United States House of Representatives and would require new standards to reduce noise on all aircraft.

Res. No. 975

Resolution in support of the passage of S.1420 which would require the New York State Department of Environmental Conservation to conduct a feasibility study regulating air emissions from all sources at and around John F. Kennedy and LaGuardia Airports using the "bubble" methodology, incorporating the detailed information provided by the California South Coast Air Quality Management Plan.

By Council Members Stabile, Freed, Reed, Abel and Golden; also Council Member Eisland

Whereas, The Federal Clean Air Act requires New York State to reduce air emissions contributing to the ozone and carbon monoxide problem and maintain these reductions, however, areas targeted have been industrial pollution and automobile pollution, while airports have been exempted from these standards; and

Whereas, The bill known as the "Bubble Bill" was introduced in the State Senate by Senator Serphin Maltese on January 21, 1999, however remains in the Senate's Committee on Environmental Conservation, and would call upon various agencies and organizations, that operate both in and around each New York City airport, to determine the amounts of pollution each creates and what effective measures can be implemented to reduce such emissions; and

Whereas, The California South Coast Air Quality Management Plan created a "bubble" concept which treats the airport and the area within a certain radius around it as a single source of air pollution with several types of emitters contributing to that pollution, and seeks, by implementation of specific programs to reduce emissions from each of the types of emissions, and to reduce the air pollution overall in that area; and

Whereas, A study of the nation's major airports "Flying Off Course" by the Natural Resources Defense Council found John F. Kennedy and LaGuardia Airports to be among the top producers of the two major components (VOC's and NOX) of ground level ozone and smog of any entities in New York City, manufacturing, industrial or otherwise and the study further provides evidence linking these conditions to increased illness and respiratory problems; and

Whereas, This legislation seeks to examine the levels of air pollution produced by these airports, make recommendations as to how these levels of pollution can be reduced within these so-called "bubbles" and for the first time target both New York City airports to comply with standards outlined in the New York State Clean Air Act of 1990; *now, therefore, be it*

Resolved, That the Council of the City of New York supports the passage of S1420 which would require the New York State Department of Environmental Conservation to conduct a feasibility study regulating air emissions from all sources at and around John F. Kennedy and LaGuardia Airports using the "bubble" methodology, incorporating the detailed information provided by the California South Coast Air Quality Management Plan.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed

qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. DEVELOPMENT TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – CSP – PIN# 071-00S003262 – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families and drop-in centers for adults. **This is an open-ended solicitation; there is no due date for submission.** Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-fourth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 5 to 30 years and the drop-in centers will be for three years with one three year option to renew.

Pursuant to Section 312(c)(1)(ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgement is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03(c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated and 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed facility location.

Any organization that believes it can provide these services may contact: Calvin Pitter, Deputy Agency Chief Contracting Officer at the Department of Homeless Services at (212) 361-8000, 33 Beaver Street 13th Flr., New York, NY 10004, to request a copy of the application, which is available for pick-up only Monday through Friday on business days between the hours of 9 a.m. to 5 p.m.

1995 - 2001 CITYWIDE AGREEMENT

COLLECTIVE BARGAINING AGREEMENT entered into this 19th day of May by and between the City of New York and related public employers pursuant to and limited to their respective elections or statutory requirement to be covered by the New York City Collective Bargaining Law ("NYCCBL") and their respective authorizations to the City to bargain on their behalf and the New York City Health and Hospitals Corporation (hereinafter referred to jointly as the "Employer"), and District Council 37, AFSCME, AFL-CIO (the "Union"), for the period from January 1, 1995 – June 30, 2001.

WITNESSETH:

WHEREAS, the parties hereto have entered into collective bargaining and desire to reduce the results thereof to writing,

NOW, THEREFORE, it is mutually agreed as follows:

ARTICLE I - UNION RECOGNITION ON CITYWIDE MATTERS

Section 1.

The Employer recognizes the Union as the sole and exclusive collective bargaining representative on citywide matters which must be uniform for the following employees:

i. Mayoral agency employees subject to the Career and Salary Plan.

ii. Employees of the Health and Hospitals Corporation with the exception of Group 11 employees and interns and residents.

iii. Employees of the Off-Track Betting Corporation and the New York City Housing Authority pursuant and limited to the extent of their respective elections to be covered by the NYCCBL.

iv. Employees of the Comptroller, the District Attorneys, the Borough Presidents, and the Public Administrators, who are subject to the Career and Salary Plan, pursuant and limited to the terms of their respective elections to be covered by the NYCCBL, and any museum, library, zoological garden or similar cultural institution for employees whose salary is paid in whole from the City Treasury, pursuant and limited to the election of said cultural institution to be covered by this Agreement.

Section 2. Exclusions

a. Prevailing rate employees are excluded from the coverage of this Agreement.

b. Managerial, confidential, exempt civil service employees, and other employees ineligible for collective bargaining are excluded from the coverage of this Agreement.

Section 3.

The Employer recognizes the Union as the sole and exclusive collective bargaining representative for employees included in the New York City Employees' Retirement System on pension matters which must be uniform for all such employees pursuant to Section 1173-4.3(a)(5) of the NYCCBL. In the event that the current prohibition against bargaining for retirement benefits is discontinued, the parties agree to reopen negotiations on this matter.

Section 4.

For the purposes of this Agreement, the term "employee" shall mean a full-time per annum worker, unless otherwise specifically indicated herein.

Section 5.

Effective January 1, 2000, and each April 1st, July 1st, October 1st, or January 1st thereafter, any per diem employee who has worked the appropriate number of hours in the normal full-time week established for such per annum title as listed in Appendix A of this Citywide Agreement for at least eighteen (18) continuous months immediately preceding the beginning of said quarter, and who continues to meet the above-stated conditions without a break in service of more than 31 days, shall be deemed to be an "employee" under Article I, Section 4 of the Citywide Agreement, subject to the conditions listed below.

a. The following sections of the Citywide Agreement shall not be applicable: Article V, Sections 18 (summer hours) and 19 (per diem accrual leave rates); and Article VI, Section 8 (summer hours).

b. Seniority for eligibility for benefits pursuant to this Section 5 shall be computed from the date 18 months prior to the date such employee becomes covered by this Section 5.

c. These provisions shall not apply to employees hired pursuant to Rule 5.6 of the Personnel Rules and Regulations of the City of New York.

d. Notwithstanding the provisions of this Section 5, an employee, who at the time of appointment to a title is assigned to regularly work the normal full-time work week established for such per annum title as listed in Appendix A must continue to work such on a full-time basis for at least 2 years without a break in service of more than 31 days, to be covered by Article XVI (Disciplinary Procedure For Provisional Employees), subject to the conditions listed below.

i. The employee must have been serving provisionally in such competitive class position on a full-time per annum or full-time per diem basis.

ii. Prior provisional service followed by permanent service may not be aggregated with current provisional service (e.g. prior provisional service as a temporary or seasonal "step-up" followed by permanent service may not be counted towards meeting the service requirement in an employee's current provisional position)

e. For the purposes of this Section 5, Article IX, Section 24 and Article XVI the following unpaid time in excess of 31 days will not be deemed a break in service or be counted as service:

i. for maternity/childcare leave;

ii. for military leave;

iii. jury duty;

iv. for union business pursuant to Executive Order 75;

v. while pending workers' compensation determination;

vi. while on workers' compensation option 2;

vii. due to illness or exhaustion of paid sick leave; and

viii. due to family illness.

ARTICLE II - WORK WEEK

Section 1.

The normal work week for employees in each of the titles covered by this Agreement shall be listed in the attached Appendix A. If a title covered by this Agreement is inadvertently omitted from the attached list, the number of hours in the normal work week for employees in such title shall be determined by the parties in accordance with the number of hours being worked by a majority of employees in the affected title and added to Appendix A. The hours in the normal work week for employees in any newly established title which is created during the term of this Agreement and is covered by this Agreement shall be determined by the Employer and added to Appendix A.

Section 2.

Wherever practicable, the normal work week shall consist of five (5) consecutive working days separated by two (2) consecutive days off. This shall not, however, constitute a bar to the investigation and implementation by the Employer with the Union's participation and consent of flexible work weeks, flexible work days or other alternative work schedule(s).

ARTICLE III - SHIFT DIFFERENTIAL AND HOLIDAY PREMIUM

This Article is applicable to all employees except those in classes of positions certified by the Board of Certification in Decision No. 50-73 [Doctors Council] and subsequent amendments to said certification.

Section 1.

a. There shall be a shift differential of ten percent (10%) for all employees covered by this Agreement for all scheduled hours worked between 6 P.M. and 8 A.M. with more than one hour of work between 6 P.M. and 8 A.M. This provision shall not apply to employees in the titles of Houseparent and Senior Houseparent.

i. For all employees *newly* hired after July 14, 1996, this provision shall apply to scheduled hours of work between 8:00 P.M. and 8:00 A.M.

ii. For employees covered by Unit Agreements that expire March 31, 2000, subsection 1(a)(i) shall be in effect from July 15, 1996 to March 31, 2000.

iii. For employees covered by Unit Agreements that expire December 31, 1999, subsection 1(a)(i) shall be in effect from July 15, 1996 to December 31, 1999.

b. An employee working overtime shall only receive a shift differential if the employee is receiving straight time cash compensation. In such cases the shift differential shall be calculated separately from the overtime compensation. In all other cases, the employee shall receive only the compensatory time or premium overtime pay provided for in Article IV.

Section 2.

a. If an employee is required to work on any of the holidays listed in Section 9 of Article V, the employee shall receive a fifty percent (50%) cash premium for all hours worked on the holiday and shall, in addition, receive compensatory time off at the employee's regular rate of pay. Compensatory time off earned pursuant to this Section may be scheduled by the agency either prior to or after the day on which the holiday falls.

b. If the holiday designated pursuant to this Agreement falls on a Saturday or a Sunday the following provisions shall apply:

i. The fifty percent (50%) cash premium and compensatory time off at the employee's regular rate of pay shall be paid to all employees who work on the actual holiday only.

ii. Employees required to work on the Friday or Monday day of observance designated pursuant to Article V, Section 9 shall receive compensatory time only.

iii. For an employee scheduled to work on both the Saturday or Sunday holiday and the day designated for observance the following shall apply:

(1) If the employee is required to work on only one of such days, the employee shall be deemed to have received compensatory time off and shall receive the fifty percent (50%) cash premium only when required to work on the actual holiday.

(2) If the employee is required to work on both such days, the employee shall receive the fifty percent (50%) cash premium and compensatory time off at the employee's regular rate of pay only for all hours worked on the actual holiday.

c. i. If an employee is required to work on a holiday which falls on the employee's scheduled day off, the employee may choose whether such holiday work is to be compensated by the fifty percent (50%) cash premium and compensatory time off provided for above, or if the employee is otherwise eligible, by the overtime provisions of Article IV.

ii. An employee shall not receive for the same hours of work both (1) overtime pay

and (2) the fifty percent (50%) cash premium and compensatory time off.

iii. Regardless of whether the holiday falls on a regular working day or on a scheduled day off, if the number of hours worked on such holiday exceeds the employee's normal daily tour of duty, all hours of work in excess of such normal daily tour of duty shall be covered by the provisions of Article IV.

d. Shifts which begin at 11 P.M. or later on the day before the holiday shall be deemed to have been worked entirely on the holiday, and shifts which begin at 11 P.M. or later on the holiday shall be deemed not to have been worked on the holiday.

e. As an alternative to the methods of compensation provided in subsections 2(a), 2(b), and 2(c), an employee may elect in writing to receive compensation either entirely in cash or entirely in compensatory time for any such holiday worked. Such election shall be subject to the approval of the agency head, executive director of a hospital, or the Chief of Personnel in the Police Department, or their designee whose decision shall be final. In no case shall the compensation under this provision exceed or be less than the value of the compensation provided under subsections 2(a), 2(b), or 2(c).

Section 3.

a. An employee may receive both a shift differential and holiday premium pay for the same hours of work, but in such cases each shall be computed separately according to subsection 3(b), below.

b. Shift differentials and holiday premium pay shall in all cases be computed on the individual employee's hourly rate of pay as determined in Section 6 of Article IV.

Section 4.

Part-time per annum, hourly, per diem, per session and seasonal employees shall be covered by the terms of this Article.

ARTICLE IV - OVERTIME

In the event of any inconsistency between this Article and standards imposed by Federal or State Law, the Federal or State Law shall take precedence unless such Federal or State Law authorizes such inconsistency.

Section 1.

For purpose of the overtime provisions of this Agreement, all time during which an employee is in full pay status, whether or not such time is actually worked, shall be counted in computing the number of hours worked during the week. However, where the Fair Labor Standards Act ("FLSA") provides for more beneficial compensation than the overtime provisions of this Agreement such benefits shall be calculated on the basis of time actually worked.

Section 2.

a. "Authorized voluntary overtime" and "authorized voluntary standby time" shall be defined as overtime or standby time for work authorized by the agency head or the agency head's designee, which the employee is free to accept or decline.

b. "Ordered involuntary overtime" and "ordered involuntary standby time" shall be defined as overtime or standby time which the employee is directed in writing to work and which the employee is therefore required to work. Such overtime or standby time may only be authorized by the agency head or a representative of the agency head who is delegated such authority in writing.

Section 3.

a. Ordered involuntary overtime which results in an employee working in excess of forty (40) hours in any calendar week shall be compensated in cash at time and one half (1-1/2 times).

b. For those employees whose normal work week is less than forty (40) hours, any such ordered involuntary overtime worked between the maximum of that work week and forty (40) hours in any calendar week, shall be compensated in cash at straight time (1x). For employees granted a shortened work day under Section 18 of Article V, compensatory time for work performed between thirty (30) and thirty-five (35) hours a week when such shortened schedule is in effect shall be granted at the rate of straight time (1 time), but such work shall not be considered overtime.

c. Upon the written approval of an employee's request by the agency head or designee, an employee who works ordered involuntary overtime shall have the option of being compensated in time off at the applicable rates provided in Sections 3(a) and 3(b) provided that the exercise of such option does not violate the provisions of ("FLSA").

d. There shall be no rescheduling of days off and/or tours of duty to avoid the payment of overtime compensation. Any work performed on a scheduled day off shall be covered by this Article.

e. Employees who are paid in cash or who are compensated in time at the rate of time and one-half (1½X) for overtime pursuant to subsection c of this Section or the Fair Labor Standards Act may not credit such time for meal allowance.

Section 4.

a. Authorized voluntary overtime which results in any employee working in excess of the employee's normal work week in any calendar week shall be compensated in time off at the rate of straight time (1x).

b. For employees covered by the provisions of FLSA, voluntary overtime actually worked in excess of forty hours in a calendar week shall be compensated at the rate of time and one-half (1½x) in time provided that the total unliquidated compensatory hours credited to an employee pursuant to this provision may not exceed 240 hours. If an employee has reached the 240 hour maximum accrual for FLSA compensatory time, all subsequent overtime earned under this provision must be compensated in cash at time and one-half (1½x).

Section 5.

a. No credit shall be recorded for unauthorized overtime. Credit for all authorized overtime beyond the normal work week shall accrue in units of one-quarter (¼) hour to the nearest one-quarter (¼) hour and, except for an employee covered by the provisions of FLSA who has actually worked in excess of forty hours in said calendar week, only after one (1) hour. Effective July 15, 1996, credit for all authorized overtime, beyond the normal work week, shall accrue in units of **one-half (½) hour** to the nearest **one-half (½) hour.**

i. For employees covered by Unit Agreements that expire March 31, 2000, subsection 5(a)(i) shall be in effect from July 15, 1996 to March 31, 2000.

ii. For employees covered by Unit Agreements that expire December 31, 1999, subsection 5(a)(i) shall be in effect from July 15, 1996 to December 31, 1999.

Section 6.

The hourly rate of pay shall be determined by taking the below indicated fractional part of the affected employee's annual regular salary:

a. For employees whose basic work week is thirty-five (35) hours:

$$\frac{1}{1827} \quad \text{or} \quad \frac{1}{261 \times 7}$$

b. For employees whose basic work week is thirty-seven and one-half (37½) hours:

$$\frac{1}{1957.5} \quad \text{or} \quad \frac{1}{261 \times 7.5}$$

c. For employees whose basic work week is forty (40) hours:

$$\frac{1}{2088} \quad \text{or} \quad \frac{1}{261 \times 8}$$

d. For employees in the titles of Houseparent or Senior Houseparent, the hourly basic rate shall be calculated by multiplying the "basic annual rate (excluding overtime)" set forth in the Social Services and Related Titles Agreement by:

$$\frac{1}{3132} \quad \text{or} \quad \frac{1}{261 \times 12}$$

For all hours in excess of 40 hours per week, such employees shall be compensated at the rate of time and one-half (1½X) of the hourly basic rate.

e. Payment shall be computed and paid on a basis of quarter hour units actually worked beyond the normal scheduled work week, provided at least one (1) full hour is compensable in a calendar week (unless such employee is covered by the provisions of the FLSA and has actually worked in excess of forty hours in said calendar week). "Annual regular salary" shall in addition to all payments included in an employees basic salary include all educational, assignment, and longevity differentials, and, when mandated to be included by FLSA, such other additions to gross that are regularly part of an employee's salary.

Section 7. Overtime Cap

a. These overtime provisions, including recall and standby provisions, shall apply to all covered employees including those working more than half-time, and with permanent, provisional or temporary status, whose annual gross salary including overtime, all differentials and premium pay is not in excess of the amount set forth in subsections 7(d) and 7(e) for eligibility for cash compensated overtime (the "cap").

b. When an employee's annual gross salary including overtime, all differentials and premium pay is higher than the cap, compensatory time at the rate of straight time shall be credited for authorized overtime except as may be proscribed by FLSA. The gross salary shall be computed on an annual calendar year basis and for the purposes of this Section shall mean basic annual salary plus any monies earned.

c. Employees who are not covered by FLSA whose annual gross salary including overtime, all differentials and premium pay is in excess of the cap shall be required to submit periodic time reports at intervals of not less than one week, but shall not be required to follow daily time clock or sign-in procedures. Employees covered by the overtime provisions of FLSA shall be required to follow daily time clock or sign-in procedures. The periodic time report shall be in such form as is required by the Agency.

d. Effective January 1, 1995, the cap shall be $45,805.

e. Effective November 28, 1999, the cap shall be increased to $54,549. Thereafter, unless otherwise agreed by the parties, the cap amount shall be adjusted by future collective bargaining increases. Each time the cap is adjusted, an interpretive memorandum or similar document shall be issued setting forth the new amount.

Section 8.

a. Effective as indicated below employees who work authorized overtime, except as set forth in Section 3(e) of this Article, shall be entitled to the following meal allowances:

	Effective 1/1/1995	Effective 11/26/99
For two continuous hours of overtime	$ 7.50	$ 8.25
For five continuous hours of overtime	$ 8.00	$ 8.75
For seven continuous hours of overtime	$10.00	$10.75
For ten continuous hours of overtime	$11.00	$11.75
For fifteen continuous hours of overtime	$12.00	$12.75

b. Time off for meals shall not be computed as overtime. However, such time off shall not affect the continuity requirement for the above meal allowances.

Section 9.

Employees recalled from home for authorized ordered involuntary overtime work, shall be guaranteed overtime payment in cash for at least four (4) hours, if eligible for cash payment under Section 7 of this Article. When an employee voluntarily responds to a request to come from home for voluntary authorized overtime work, such overtime shall be compensated in time off on an hour-for-hour basis but with minimum compensatory time of four (4) hours.

a. Effective July 15, 1996, for all employees who are recalled from home for authorized ordered involuntary overtime work, the minimum guaranteed cash overtime payment shall be **two (2) hours**.

b. For employees covered by Unit Agreements that expire March 31, 2000, subsection 9(a) shall be in effect from July 15, 1996 to March 31, 2000.

c. For employees covered by Unit Agreements that expire December 31, 1999, subsection 9(a) shall be in effect from July 15, 1996 to December 31, 1999.

Section 10.

a. Compensatory time off for voluntary overtime work as authorized in this Article shall be scheduled at the discretion of the agency head but the agency head shall not schedule its use without the consent of the employee within the thirty (30) calendar days following its earning. However, all compensatory time off must be taken by the affected employee within the four (4) months following its earning. Except for the time described in subsection 10b(ii) below, any such compensatory time not so used by the employee's choice shall be added to the employee's sick leave balance. If the agency head calls upon an employee not to take the compensatory time off or any part thereof within the four (4) months, that portion shall be carried over until such time as it can be liquidated. This subsection shall not apply to compensatory time accrued pursuant to FLSA.

b. For employees covered by the Fair Labor Standards Act, accrued compensatory time usage shall be charged in the following manner and order:

i. First, Pre-FLSA Compensatory Time Bank

ii. Second, Post-April 14, 1986 FLSA Compensatory Time Bank

iii. Third, Post-April 14, 1986 non-FLSA Compensatory Time Bank

c. If compensatory time off is charged to an employee's Post-April 14, 1986 FLSA Compensatory Time Bank and as a result the employee will not be able to take his/her accrued Post-April 14, 1986 non-FLSA compensatory time within the four (4) month period provided in subsection 10(a) above, the period of time in which the equivalent amount of time in the Post-April 14, 1986 non-FLSA Compensatory Time Bank which must be taken shall be extended in writing by the agency head an additional four months.

Section 11.

a. Employees who volunteer to stand by in their homes, as authorized by competent authority, shall receive compensatory time credit on the basis of one-half (1/2) hour for each hour of standby time.

b. Employees who are required, ordered and/or scheduled on an involuntary basis to stand by in their homes subject to recall, as authorized by the agency head or the agency head's designated representative shall receive overtime payment in cash for such time on the basis of one-half (1/2) hour paid overtime for each hour of standby time. Employees who reside on the work premises or are in post-graduate training status shall not be included in this provision.

Section 12.

Employees who are required to carry communication devices (or "beepers") shall not be restricted in their ability to travel. Notwithstanding the above, they may be required to call in or may make other mutually agreeable accommodations with the agency.

Section 13.

The Employer and the Union may agree to apply a variation of the overtime provisions of this Agreement.

Section 14.

Except in an emergency situation, when authorized and ordered by an agency head, a Hospital Executive Director or a designated representative, no employee shall be required to actually work more than two (2) consecutive normal work shifts in any twenty-four (24) hour period nor shall said employee be required to work more than two (2) consecutive work shifts for more than two (2) consecutive weeks.

ARTICLE V - TIME AND LEAVE

Section 1.

a. All provisions of the Resolution approved by the Board of Estimate on June 5, 1956 on "Leave Regulations for Employees Who Are Under the Career and Salary Plan" (hereinafter "Leave Regulations") and amendments, and official interpretations relating thereto, in effect on the effective date of this Agreement and amendments which may be required to reflect the provisions of this Agreement shall apply to all employees covered by the Agreement.

Interpretations shall be defined as those rulings issued by the Commissioner of Citywide Administrative Services pursuant to Section 6.6 of the Leave Regulations and which are printed in the official Leave Regulations.

This Section shall not circumscribe the authority of the Commissioner of Citywide Administrative Services to issue new interpretations subsequent to the effective date of this Agreement. Such new interpretations shall be subject to the grievance and arbitration provisions of this Agreement.

Decisions on requests for annual leave or for leave with pay shall be made within seven (7) working days of submission except for requests which cannot be approved at the local level or requests for leave during the summer peak vacation period or other such periods for which the Employer has established and promulgated a schedule for submission and decision of leave requests. Once a leave request has been approved, the approval may not be rescinded except in writing by the agency head, Executive Director of a Hospital or Chief of Personnel in the Police Department.

If any agency head, Executive Director of a Hospital, or Chief of Personnel in the Police Department calls upon an employee to forego the employee's requested annual leave or any part thereof in any year, it must be in writing and that portion shall be carried over until such time as it can be liquidated.

b. In order to allow employees to make advanced plans, decisions on requests for annual leave in amounts of at least 5 consecutive work days or tours falling during an agency's designated summer peak vacation period shall be made not less than thirty (30) days prior to the scheduled commencement of said peak vacation period. Such requests must be made no later than forty-five (45) days or tours prior to the commencement of the summer peak vacation period or by the designated submission date for such requests, whichever is earlier. The summer peak vacation period shall be the period designated by an Agency as such, provided such period does not commence prior to Memorial Day Weekend or extend past September 30th. Nothing contained herein shall preclude employees from making annual leave requests in accordance with the other provisions of this Agreement.

c. Where an employee has an entitlement to accrued annual leave and/or compensatory time, and the City's fiscal condition requires employees who are terminated, laid off or who choose to retire in lieu of layoff, be removed from the payroll on or before a specific date because of budgetary considerations, the Employer shall provide the monetary value of accumulated and unused annual leave and/or compensatory time allowances standing to the employee's credit in a lump sum. Such payments shall be in accordance with the provisions of Executive Order 30, dated June 24, 1975, and the FLSA.

Section 3.

a. Approved sick leave and annual leave may be used in units of one (1) hour. Any employee who has completed four (4) months of service may be permitted to take approved annual leave as it accrues.

b. Except as provided below, employees shall be credited with one day of sick leave per month. Approved sick leave may be used as it accrues. This section shall not alter the provisions of any existing unit agreement which contains a more beneficial procedure.

i. For all employees *newly* hired after July 14, 1996, a maximum sick leave accrual of eleven (11) days per annum for the first three (3) years of service shall apply.

ii. For employees covered by Unit Agreements that expire March 31, 2000, subsection 3(a)(i) shall be in effect from July 15, 1996 to March 31, 2000.

iii. For employees covered by Unit Agreements that expire December 31, 1999, subsection 3(a)(i) shall be in effect from July 15, 1996 to December 31, 1999.

c. It shall be the policy of the employer to allow employees to use during their current leave year the amount of annual leave accruable during that year, provided they have sufficient available leave balances. This provision shall be subject to the leave regulations referenced in Section 1 of this Article V and the needs of the agency. Exceptions to this policy shall be on a reasonable and case-by-case basis.

Section 4.

By June 1st of each year all employees shall be given an annual statement of all leave balances as of the preceding April 30th (sick leave, annual leave, compensatory time, holiday leave credits).

Section 5.

a. i. Except as provided in Section 5(a)(ii), sick leave shall be used only for personal illness of the employee. Approval of sick leave in accordance with the Leave Regulations is discretionary with the agency and proof of disability must be provided by the employee, satisfactory to the agency within five (5) working days of the employee's return to work. However, the employer may request proof of disability when an employee has been on sick leave for five or more *consecutive* working days. Such proof satisfactory to the agency must be submitted within five working days of such request.

ii. (1) Notwithstanding the provisions of Section 5(a)(i), Employees may use one day per year from their sick leave balances for the care of ill family members.

(2) Effective July 15, 1996, employees may use two (2) days per year from their sick leave balances for the care of ill family members.

(3) Approval of such leave is discretionary with the agency and proof of disability must be provided by the employee satisfactory to the agency within five (5) working days of the employee's return to work.

(4) The provisions of Article V, Section 5(a)(ii) shall apply to part-time per annum, hourly, per diem, per session and seasonal employees who work at least one half the regular hours of full time employees in the same title and who have worked for at least one month on a regular basis and accrue sick leave pursuant to Article V, Section 19(b).

(5) The use of sick leave for care of ill family members shall be limited to a maximum of one-sixth (1/6) of the amount of sick leave hours accruable by an eligible employee during the current leave year or one-sixth (1/6) of the sick leave hours accruable by a full time employee in the same title during a leave year, whichever is less. Approved usage of sick leave for care of ill family members may be charged in units of one (1) hour.

(6) Family member shall be defined as: spouse; natural, foster or step parent; child, brother or sister; father-in-law; mother-in-law; any relative residing in the household; and domestic partner, provided such domestic partner is registered pursuant to the terms set forth in the New York City Administrative Code Section 3-240 *et seq.*

b. The provisions of Section 5(a) above notwithstanding, the agency may waive the requirement for proof of disability unless:

i. An employee requests sick leave for more than three (3) consecutive work days; or

ii. An employee uses undocumented sick leave more than five (5) times in a "sick leave period." Employees hired during a "sick leave period" shall be subject to the terms of this subsection commencing with the next complete "sick leave period"; or

iii. An employee uses undocumented sick leave more than four (4) times in a "sick leave period" on a day immediately preceding or following a holiday or a scheduled day off. Employees hired during a "sick leave period" shall be subject to the terms of this subsection commencing with the next complete "sick leave period."

c. For the purposes of Sections 5(b)(ii) and 5(b)(iii) above, the calendar year shall be divided into two (2), six (6) month "sick leave periods." They shall be: (1) January 1 to June 30, inclusive; and (2) July 1 to December 31, inclusive. An employee who exceeds the allowable number of undocumented absences in any "sick leave period" pursuant to Sections 5(b)(ii) and 5(b)(iii) above shall thereafter, commencing with the next "sick leave period," be required to submit medical documentation, satisfactory to the agency head, before further sick leave may be approved. The requirement for such documentation shall continue in effect until the employee has worked a complete "sick leave period" without being on sick leave more than two (2) times.

d. For the purposes of this Section 5 "one time" shall mean the consecutive use of one-half (½) or more work days for sick leave. Sick leave taken in units of less than one-half (½) work day shall be counted as "one time" on sick leave when the cumulative total of such sick leave amounts to one-half (½) day.

e. The provisions of Section 5(b) above notwithstanding, the agency shall have the discretion to waive the medical documentation required pursuant to Sections 5(b)(ii), 5(b)(iii) and 5(c), for employees who have completed their third year of employment and thereafter have a current sick leave balance commensurate with the number of years of employment as follows:

3 years	21 days	7 years	49 days
4 years	28 days	8 years	56 days
5 years	35 days	9 years	63 days
6 years	42 days	10 years or more	70 days

f. It is not the intent of Sections 5(b) and 5(e) for an agency to regularly require proof of disability under normal circumstances.

g. Any employee who anticipates a series of three (3) or more medical appointments, which will require a repeated use of sick leave in units of one day or less shall submit medical documentation indicating the nature of the condition and the anticipated schedule of treatment. Sick leave taken pursuant to said schedule of treatment shall be deemed documented.

h. The medical documentation required by this Section shall be from a health practitioner licensed by the state in which she/he practices to diagnose and certify illness or disability. When an employee has been recommended for relief from duty by a medical practitioner acting in behalf of the Employer's Health Service, the time granted shall be considered documented sick leave for the day of the relief from duty only, unless otherwise specified by the Employer's practitioner.

Section 6.

The number of sick leave allowance days permitted to accumulate shall be unlimited.

Section 7.

a. An employee's annual leave shall be changed to sick leave during a period of verified hospitalization. When an employee is seriously disabled but not hospitalized while on annual leave, after the employee submits proof of such disability which is satisfactory to the agency head, such leave time may be charged to sick leave and not to annual leave at the employee's option.

b. Employees on approved sick leave who have exhausted their sick leave balances shall be placed on annual leave unless otherwise requested in writing for the duration of that absence, subject to continued proof of disability satisfactory to the agency.

Section 8.

Employees who are on agency approved work-study paid leave of absence shall not have annual leave credits deducted unless they actually request and take such annual leave, provided that annual leave accruals do not exceed the maximum permitted in this Agreement.

Section 9.

a. The regular holidays with pay shall be as follows:

New Year's Day	January 1st
Martin Luther King, Jr. Day	Third Monday in January
Lincoln's Birthday *	February 12th
Washington's Birthday	Third Monday in February
Memorial Day	Last Monday in May
Independence Day	July 4th
Labor Day	First Monday in September
Columbus Day	Second Monday in October
Veterans' Day	November 11th (or other date established by NYS Legislature)
Election Day	First Tuesday following the First Monday in November
Thanksgiving Day	Fourth Thursday in November
Christmas Day	December 25th

* See Section 9(c)

b. When a holiday falls on a Saturday, it shall be observed on the preceding Friday. When a holiday falls on a Sunday, it shall be observed on the following Monday. However, when an agency head deems it necessary to keep facilities open on both Monday and Friday, employees may be scheduled to take time off on either the Monday or Friday. When either the holiday, or the day designated for observance, occurs on an employee's scheduled day off and the employee does not work on such day, the employee shall be entitled to one compensatory day off in lieu of the holiday.

c. Effective January 1, 1997, an Employee shall be entitled to one floating holiday in each calendar year during which the employee is in active pay status with the Employer prior to Lincoln's Birthday of such calendar year, subject to the following conditions:

i. The floating holiday shall be taken at the employee's discretion, subject to the needs of the employing agency. Employees must request to use their floating holiday in writing at least 30 days in advance on a form supplied by the agency. Approval or disapproval of the request shall be made on the same form by a supervisor authorized to do so by the agency. Decisions shall be made within ten (10) working days of submission.

ii. Employees wishing to use their floating holiday to observe Lincoln's Birthday shall file such requests prior to January 15. Approval shall not be unreasonably denied. For the purposes of this subsection, the day of observance for employees of Mayoral agencies assigned to Board of Education facilities shall be on the day set by the Board.

iii. Once a floating holiday request has been approved, the approval may not be rescinded except in writing by the agency head, Executive Director of a Hospital or Chief of Personnel in the Police Department. If an employee is required to work on a floating holiday once the request for it has been approved, the employee shall receive a fifty percent (50%) cash premium for all regularly

scheduled hours worked on the floating holiday and shall, in addition, receive compensatory time off at the employee's regular rate of pay.

iv. The floating holiday must be used in the calendar year in which it is earned and may not be carried over to a succeeding year or cashed out upon separation of service. If the agency head calls upon an employee not to take the floating holiday by the end of the calendar year, the floating holiday shall be carried over to the following calendar year only.

v. For employees assigned to perform work at facilities which are normally closed on Lincoln's Birthday, such as, but not limited to, State Courts or Department of Sanitation garages, Lincoln's Birthday shall continue to be observed as an official holiday and the floating holiday provisions set forth in this subsection c, shall not apply.

Section 10. Line of Duty Injury Due to Assault

Upon the determination by the head of an agency that an employee has been physically disabled because of an assault arising out of and in the course of the employee's employment, the agency head will grant the injured employee a leave of absence with pay not to exceed eighteen (18) months. No such leave with pay shall be granted unless the Worker's Compensation Division of the Law Department advises the head of the agency in writing that the employee's injury has been accepted by the Division as compensable under the Worker's Compensation Law, or if such injury is not accepted by the Division as compensable under such law, unless the Worker's Compensation Board determines that such injury is compensable under such law.

If a permanent employee who has five (5) years or more of service does not have sufficient leave credit to cover the employee's absence pending a determination by the Worker's Compensation Division of the Law Department, the agency head shall advance the employee up to forty-five (45) calendar days of paid leave. In the event the Worker's Compensation Division of the Law Department does not accept the injury as compensable under the law or the Worker's Compensation Board determines that such injury is not compensable under such law, the employee shall reimburse the City for the paid leave advance.

If an employee is granted a leave of absence with pay pursuant to this Section, the employee shall receive the difference between the employee's weekly salary and the employee's compensation rate without charge against annual leave or sick leave. The employee shall, as a condition of receiving benefits under this Section, execute an assignment of the proceeds of any judgment or settlement in any third party action arising from such injury, in the amount of the pay received pursuant to this Section and medical disbursements, if any, made by the Employer, but not to exceed the amount of such proceeds. Such assignment shall be in the form prescribed by the Corporation Counsel. The injured employee shall undergo such medical examinations as are requested by the Worker's Compensation Division of the Law Department and the employee's agency, and when found fit for duty by the Worker's Compensation Board shall return to the employee's employment.

No benefits shall be paid while an employee is suspended pending disciplinary action, or if an employee is subsequently found culpable of having commenced the assault or unnecessarily continuing the assault.

Benefits provided under this Section shall be in addition to but not concurrent with benefits provided under Section 7.0 and 7.1 of the Career and Salary Plan Leave Regulations.

Section 11. Line of Duty Injury Other than Assault

For employees who do not come under the provisions of Section 10 of this Article but who are injured in the course of employment, upon determination by the head of an agency that an employee has been physically disabled because of an injury arising out of and in the course of the employee's employment, through no fault of the employee, the agency head will grant the injured employee an extended sick leave with pay not to exceed three (3) months after all the employee's sick leave and annual leave balances have been exhausted. This additional leave must be taken immediately following the exhaustion of such balances. No such leave with pay shall be granted unless the Worker's Compensation Division of the Law Department advises the agency head in writing that the employee's injury has been accepted by the Division as compensable under the Worker's Compensation Law, or if such injury is not accepted by the Division as compensable under such law, unless the Worker's Compensation Board determines that such injury is compensable under such law. If an employee is granted extended sick leave with pay pursuant to this Section, the employee shall receive the difference between the employee's weekly salary and the employee's compensation rate for the period of time granted. The employee shall, as a condition of receiving benefits under this Section, execute an assignment of the proceeds of any judgment or settlement in any third party action arising from such injury, in the amount of the pay and medical disbursements received pursuant to this Section, but not to exceed the amount of such proceeds. Such assignment shall be in the form prescribed by the Corporation Counsel. The injured employee shall undergo such medical examinations as are requested by the Worker's Compensation Division of the Law Department and the employee's agency, and when found fit for duty by the Worker's Compensation Board shall return to the employee's employment.

Benefits provided under this Section shall be in addition to but not concurrent with benefits provided under Sections 7.0 and 7.1 of the Career and Salary Plan Leave Regulations.

Section 12.

Within forty-five (45) days of the receipt by the Worker's Compensation Division of the Law Department of a claim for Worker's Compensation, the City shall notify the claimant of the approval or disapproval of the claim.

Failure to notify the employee within the forty-five (45) day time limit may be grieved at Step III of the grievance procedure without resort to previous steps.

Section 13.

Pursuant to Executive Order No. 34, dated March 26, 1971, "Regulations Governing Cash Payments for Accrued Annual Leave and Accrued Compensatory Time on Death of an Employee while in the City's Employ," if an employee dies while in the Employer's employ, the employee's beneficiary or if no beneficiary is designated, then the employee's estate, shall receive payment in cash for the following:

a. All unused accrued annual leave to a maximum of fifty-four (54) days credit.

b. All unused accrued compensatory time earned subsequent to March 15, 1968 and retained pursuant to this Agreement, verifiable by official agency records, to a maximum of two hundred (200) hours.

Section 14.

If an employee dies during the term of this Agreement because of an injury arising out of and in the course of the employee's employment through no fault of the employee, and in the proper performance of the employee's duties, a payment of twenty-five thousand dollars ($25,000) will be made from funds other than those of the Retirement System in addition to any other payment which may be made as a result of such death. Such payment shall be made to the same beneficiary designated for the purposes of Section 13 of this Article, or if no beneficiary is so designated, payment shall be made to the employee's estate.

Section 15.

If while in covered employment under the terms of this Agreement an employee dies, the Employer shall notify the beneficiary designated by the employee in the personnel folder as to what benefits may be available for the employee and as to where claims may be initiated for such benefits. If no beneficiary is designated, the public administrator of the county in which the employee last resided shall be notified.

The employing agency shall promptly notify the appropriate retirement system and request it communicate with the beneficiary designated in the system's records.

Section 16.

a. Every employee is obligated to report for work as scheduled.

b. Except for the employees described in subsection c below, there shall be a grace period of five minutes at the beginning of the work shift. When an employee's lateness extends beyond the five-minute grace period, the full period of time between the scheduled reporting time and the actual reporting time shall be charged against such employee (e.g. an employee whose starting time is 9:00 a.m. who reports to work at 9:05 a.m. would not be "late," but such an employee with such a starting time who reports to work at 9:06 a.m. would be charged with six (6) minutes of lateness).

c. The following employees shall not be entitled to the five-minute grace period described in subsection b above:

i. Emergency personnel, including, but not limited to, Fire Alarm Dispatchers, Police Communication Technicians, Emergency Medical Services Specialists. The City shall furnish the Union with a full list of such positions.

ii. Employees whose positions require, in the event of late reporting for work, that another be held over from a previous shift or be called in to substitute for the late employee, at premium rates of pay.

iii. Employees subject to flexible work schedules.

d. Lateness beyond the five-minute grace period shall be classified as "excused" or "not excused" and excused lateness shall not be charged against the employee. Lateness found by the agency head or the individual designated by the agency head to have been caused by unforeseen public transportation delays or other circumstances which arise after an employee leaves for work which cannot be anticipated (e.g. elevator breakdowns or private transportation breakdowns) which are beyond the ability of the tardy employee to control shall be excused. Such findings shall be reasonably made; and the tardy employee may be required to furnish proof satisfactory to the agency head of the cause of the lateness. A request for excusal shall not be unreasonably denied. A refusal to excuse a lateness may be appealed to the Commissioner of Labor Relations whose decision shall be final.

e. Deduction for unexcused lateness shall be made on a minute for minute basis from any compensatory time standing to an employee's credit and then, if there is no such credited time, from the employee's annual leave balances.

f. The City reserves the right and power appropriately and for just cause to discipline or to discharge an employee for excessive lateness.

g. Contractual provisions or agency policies regarding lateness, grace or excusal periods or lateness penalties inconsistent with the uniform lateness policy set forth in this Section shall be superseded by this Section 16.

h. Latenesses caused by a verified major failure of public transportation, such as a widespread or total power failure of significant duration or other catastrophe of similar severity, shall be excused.

i. Each agency will prepare contingency plans for operation during a major failure of public transportation which would cause disabled employees, as defined in the Americans with Disabilities Act, great difficulty in reaching their regular work location. Such plans will include, where practicable and productive, provisions assigning disabled employees to report to agency locations closer to their homes. Such plans shall also include provisions for excusal by the agency head of absences on an individual basis for disabled employees. Decisions of the agency head with respect to absences under such plans shall not be subject to the grievance procedure.

Section 17.

a. Effective January 1, 1975, the terminal leave provision for all employees except as provided in subsections b. and c., below shall be as follows:

Terminal leave with pay shall be granted prior to final separation to employees who have completed at least ten (10) years of service on the basis of one (1) day of terminal leave for each two (2) days of accumulated sick leave up to a maximum of one hundred-twenty (120) days of terminal leave. Such leave shall be computed on the basis of work days rather than calendar days.

b. Any employee who as of January 1, 1975 had a minimum of fifteen (15) years of service as of said date may elect to receive upon retirement a terminal leave of one (1) calendar month for every ten (10) years of service pro-rated for a fractional part thereof in lieu of any other terminal leave. However, any sick leave taken by such employees subsequent to July 1, 1974 in excess of an average annual usage of six (6) days per year shall be deducted from the number of days of terminal leave to which the employee would otherwise be entitled at the time of retirement, if the employee chooses to receive terminal leave under this subsection.

c. In the case where an employee has exhausted all or most of the employee's accrued sick leave due to a major illness, the agency head, in the agency head's discretion, may apply two and one-fifth (2 1/5) work days for each year of paid service as the basis for computing terminal leave in lieu of any other terminal leave. An employee's request for the application of this subsection shall not be unreasonably denied. The denial of an employee's request may be appealed solely to the Commissioner of Labor Relations.

d. Where an employee has an entitlement to terminal leave and the City's fiscal situation requires that employees who are terminated, laid off or retired be removed from the payroll on or before a specific date, because of budgetary considerations, the Employer shall provide a monetary lump sum payment for terminal leave in accordance with the provisions of Executive Order 31, dated June 24, 1975.

Section 18.

a. Shortened workday schedules or heat days in lieu thereof for employees who have traditionally enjoyed shortened workday schedules or heat days in lieu thereof shall begin on July 1 and terminate on Labor Day. Employees who are entitled to receive heat days in lieu of shortened workdays shall receive three (3) such days.

b. Shortened workday schedules and heat days in lieu thereof shall be abolished for employees who work in air-conditioned facilities and for outdoor and field employees. However, outdoor and field employees who traditionally enjoyed such benefits and who are required to return to an office location before the end of the workday shall be entitled to the same summer schedules enjoyed by office employees at such location on such day.

c. Outdoor and field employees include, but are not limited to, law enforcement personnel, Traffic Enforcement Agents, Traffic Device Maintainers, Motor Vehicle Operators, Inspectors, Engineers, Assessors, Appraisers, Investigators, Quality Control Specialists and Public Health Nurses. Homemakers and employees in equivalent titles, who are assigned to work in clients' homes which are not air-conditioned and who traditionally enjoyed shortened workday schedules or heat days in lieu thereof, shall continue to be so entitled.

d. No shortened workday schedules or heat days in lieu thereof, shall be granted to any employee until the employee has completed one year of service.

e. Employees who work shortened workday schedules as described in this Section are entitled to the meal allowances set forth in Section 8 of Article IV, provided that such employees work a minimum of three (3) hours beyond the shortened workday schedule. An employee who qualifies for a meal allowance pursuant to this subsection shall not count the first hour worked after the shortened workday schedule in computing the amount of the meal allowance to which the employee is entitled.

Section 19.

a. Part-time per annum, hourly, per diem, per session and seasonal employees who work at least one half the regular hours of full time employees in the same title and who have worked for at least one month on a regular basis shall accrue leave credits as set forth below: *

Years of Service	Accrual
At the beginning of the 1st year	1 hour for 15 hours worked (154 hours maximum)
At the beginning of the 5th year	1 hour for 11 hours worked (210 hours maximum)

b. Sick leave: One (1) hour of sick leave for every twenty (20) hours actually worked with no maximum accrual.

i. For all employees *newly* hired after July 14, 1996, shall accrue at the rate of 1 hour of sick leave for each 22 hours actually worked for the first three (3) years of service.

ii. For employees covered by Unit Agreements that expire March 31, 2000, subsection 19(b)(i) shall be in effect from July 15, 1996 to March 31, 2000.

iii. For employees covered by Unit Agreements that expire December 31, 1999, subsection 19(b)(i) shall be in effect from July 15, 1996 to December 31, 1999.

c. If no full-time equivalent title exists then the minimum number of hours required in order to receive leave credits pursuant to this Section shall be based on the nature of employment as follows:

White Collar Employment - 17 1/2 hours per week
Blue Collar Employment - 20 hours per week

Section 20.

a. A child care leave of absence without pay shall be granted to any employee (male or female) who becomes the parent of a child up to four years of age (or whose domestic partner registered pursuant to the New York City Administrative Code Section 3-240 et seq.) becomes the parent of a child up to four years of age), either by birth or by adoption, for a period of up to forty-eight (48) months. The use of this maximum allowance will be limited to one instance only. All other child care leaves of an employee shall be limited to a thirty-six (36) month maximum.

* Refer to prior Citywide Agreement for accrual rate in effect prior to July 1, 1991

b. Prior to the commencement of child care leave, an employee shall be continued in pay status for a period of time equal to all of the employee's unused accrued annual leave and compensatory time (including FLSA compensatory time).

c. Employees, who initially elect to take less than the forty-eight (48) month maximum period of leave or the thirty-six (36) months, may elect to extend such leave by up to two extensions, each extension to be a minimum of six (6) months. However, in no case may the initial leave period plus the one or two extensions total more than forty-eight (48) months or thirty-six (36) months.

d. This provision shall not diminish the right of the Agency Head or the Personnel Director, as set forth in Rule 5.1 of the Leave Regulations, to grant a further leave of absence without pay for child care purposes.

Section 21.

a. Bereavement leave shall be granted for the death of an employee's spouse; "domestic partner," as defined in the New York Administrative Code Section 1-112(21); natural, foster or step parent; child; brother or sister; father-in-law; mother-in-law; or other relative residing in the household.

b. Effective November 26, 1999, bereavement leave shall be granted for the death of a grandchild.

c. When a death in an employee's family occurs while the employee is on annual or sick leave, such time as is excusable for death in the family shall not be charged to annual or sick leave.

Section 22.

Individual employee grievants shall be granted leave with pay for such time as is necessary to testify at arbitration hearings.

Leave with pay shall be granted to three (3) employees who are named grievants in a group arbitration proceeding for such time as is necessary for them to testify at their group arbitration hearings.

Leave with pay for such time as is necessary to testify at their hearings shall be granted to employees who, after final adjudication of proceedings under Section 210 paragraph 2(h) of the Civil Service Law, are determined not to have been in violation of Section 210.

Section 23.

If at any time during the period of this Agreement the parties agree that it is impracticable to recruit for certain titles covered by this Agreement, the employer with the agreement of the Union may apply a variation of the provisions contained in Article V and Article VI of this Agreement for those titles.

ARTICLE VI - TIME AND LEAVE VARIATIONS

This Article shall apply only to employees who work other than a regularly scheduled standard work week consisting of five (5) seven (7) hour, seven and one-half (7½) hour or eight (8) hour days.

Section 1.

A "holiday leave bank" shall be established for each employee covered under this Article. The bank shall be credited with holiday leave time equal to one-fifth (1/5) the number of hours in the respective employee's work week as each holiday occurs.

No employee shall receive credit for more than twelve (12) holidays per annum.

Section 2.

a. When an employee does not work on one of the regular holidays, a number of hours equal to the number of hours in the employee's regularly scheduled work day shall be subtracted from the employee's "holiday leave bank."

b. An employee who works on any of the regular holidays shall be compensated in accordance with Section 3 of this Article or the overtime provisions of this Agreement, whichever is applicable.

c. When either the holiday or the day designated for observance occurs on an employee's scheduled day off and the employee does not work on such day, the employee shall accrue credits pursuant to Section 1 of this Article, but no credits shall be deducted from the employee's "holiday leave bank."

Section 3.

a. If an employee is required to work on any of the holidays listed in Article V, Section 9 of this Agreement, the employee shall receive a fifty percent (50%) cash premium for all hours worked on the holiday, and there shall be no deduction from the employee's "holiday leave bank."

b. If a holiday falls on a Saturday or Sunday, the fifty percent (50%) cash premium shall apply only to those employees who are required to work on the Saturday or Sunday holiday. Employees required to work on the Monday or Friday designated by the Employer for holiday observance shall not have any time charged against their "holiday leave bank" as a result of the Saturday or Sunday holiday, but shall not receive premium pay.

c. With respect to an employee who is scheduled to work on both the Saturday or Sunday holiday and the day designated for observance: (1) if the employee is required to work on only one of such days, the employee's "holiday leave bank" shall be charged the equivalent of one day. Such employee shall receive the fifty percent (50%) cash premium when required to work on Saturday or Sunday; or (2) if the employee is required to work on both such days, the employee shall receive the fifty percent (50%) cash premium for all hours worked on the Saturday or Sunday holiday without any charge to the employee's "holiday leave bank."

d. However, if the employee is required to work on a holiday which falls on the employee's scheduled day off, the employee may choose whether such holiday work is to be compensated by the fifty percent (50%) cash premium without charge to the employee's leave bank, or, if otherwise eligible, by the overtime provisions of Article IV.

e. An employee shall not receive for the same hours of work both (1) overtime pay and (2) the fifty percent (50%) cash premium without charge to the employee's "holiday leave bank." However, regardless of whether the holiday falls on a regular working day or on a scheduled day off, if the number of hours worked on such holiday exceeds the employee's normal daily tour of duty, all hours of work in excess of such normal daily tour of duty shall be covered by the overtime provisions of Article IV.

f. Shifts which begin at 11 P.M. or later on the day before the holiday shall be deemed to have been worked entirely on the holiday, and shifts which begin at 11 P.M. or later on the holiday shall be deemed not to have been worked on the holiday.

Section 4.

An employee may be advanced holiday leave credits consistent with the maximums set forth in Section 1 of this Article. Any resulting negative leave balance shall be charged against subsequent holiday accruals. If as of May 1 of any year an employee's "holiday leave bank" has a negative balance, said balance shall be charged against the employee's annual leave.

Section 5.

The "Annual Leave Allowance" shall accrue on an hourly basis. The rate of accrual shall be based on the number of hours in the work week and the number of years of service of the respective employee as follows: *

Work Week	Years of Service	Allowance	Monthly Accrual
60	Beginning of 15th year	324:00 hours	27:00 hours
	Beginning of 8th year	300:00 hours	25:00 hours
	Beginning of 5th year	240:00 hours	20:00 hours
	First Year	180:00 hours	15:00 hours

	Beginning of 8th year	200:00 hours	16:40 hours
	Beginning of 5th year	160:00 hours	13:20 hours
	First Year	120:00 hours	10.00 hours

	Beginning of 8th year	187:30 hours	15:38 hours
	Beginning of 5th year	150:00 hours	12:30 hours
	First Year	112:30 hours	9:23 hours
35	Beginning of 15th year	189:00 hours	15:45 hours
	Beginning of 8th year	175:00 hours	14.35 hours
	Beginning of 5th year	140:00 hours	11.40 hours
	First Year	105:00 hours	8:45 hours

* Refer to prior Citywide Agreement for accrual rate in effect prior

Section 6.

The "Sick Leave Allowance" shall accrue on an hourly basis. The monthly accrual of sick leave shall be equal to one-fifth the number of hours in the respective employee's work week.

b. The per annum contribution rates paid on behalf of employees separated from service to a welfare fund which covers such employees and the one-time lump sum payment (for such employees who are receiving benefits on July 31, 1999) shall be adjusted in the same manner as the per annum contribution rates for other employees are adjusted pursuant to Sections 2 and 3.

ARTICLE XIV - OCCUPATIONAL SAFETY AND HEALTH

Section 1.

The Employer shall establish a Citywide Occupational Safety and Health Committee, the members of which shall be appointed by the Mayor and shall include union representation. The Director of the Citywide Office on Safety and Health shall serve, *ex officio*, as Chairperson of this Committee.

The Citywide Occupational Safety and Health Committee shall recommend citywide employee safety and health policy to the Mayor and shall assume the duties and responsibilities of the Occupational Safety and Health Planning Task Force created by Mayor's Executive Order No. 58, dated May 6, 1976, and shall also assume the citywide safety responsibilities of the City Director of Personnel contained in Mayor's Executive Order No. 109, dated August 28, 1969. In addition, this Committee shall act as the City's liaison with Federal and State Agencies, in efforts to obtain grants to finance City employee safety and health programs and shall perform any additional tasks assigned by the Mayor.

Section 2.

a. Adequate, clean, structurally safe and sanitary working facilities shall be provided for all employees.

b. Motor vehicles and power equipment which are in compliance with minimum standards of applicable law shall be provided to employees who are required to use such devices.

c. Where necessary, first aid chests, adequately marked and stocked, shall be provided by the Employer in sufficient quantity for the number of employees likely to need them and such chests shall be reasonably accessible to the employees.

d. A Labor Management Health and Safety Committee shall be established in each agency. Each committee shall be composed of not less than three nor more than five labor representatives designated by the Union and not more than an equivalent number of management representatives designated by the agency. The Committee shall meet at least quarterly and shall meet at the written request of the labor or the management representatives for the purpose of discussing health and safety problems in the agency and making recommendations for their resolution to the agency head. The written request for such a meeting shall indicate the specific condition for which the meeting is called.

In addition to the above described committee, sub-committees may be established on an ad hoc basis upon agreement of the parties.

e. The sole remedy for alleged violations of this Section shall be a grievance pursuant to Article XV of this Agreement. Any employee who withholds services as a means of redressing or otherwise protesting alleged violations of this Section shall be docked pay for any unauthorized non-performance of work and may be subject to any appropriate disciplinary action.

f. In construing this Section, an arbitrator shall initially have the power only to decide whether the subject facilities meet the standards of subsection (a) of this Section 2 but may not affirmatively direct how the Employer should comply with this Section. If the arbitrator determines that the Employer is in violation of this Section, the Employer shall take appropriate steps to remedy the violation. If in the opinion of the Union the Employer does not achieve compliance within a reasonable period of time, the Union may reassert its claim to the arbitrator. Upon such second submission, if the arbitrator finds that the Employer has had a reasonable time to comply with the terms of this Section and has failed to do so, then and only then, the arbitrator may order the Employer to follow a particular course of action which will effectuate compliance with the terms of this Section. However, such remedy shall not exceed appropriations available in the current budget allocation for the involved agency for such purposes.

ARTICLE XV - ADJUSTMENT OF DISPUTES

Section 1.

Section 2.

The grievance procedure shall be as follows:

STEP I The employee and/or the Union shall present the grievance in writing to the person designated by the agency head for such purpose, not later than one hundred twenty (120) days after the date on which the grievance arose. The employee may also request an appointment to discuss the grievance. The person designated to hear the grievance shall take any steps necessary to a proper disposition of the grievance and shall reply in writing by the end of the third work day, following the date of submission.

STEP II An appeal from an unsatisfactory determination at STEP I shall be presented in writing to the agency head or the agency head's designated representative, who shall not be the same person designated in STEP I. The appeal must be made within five (5) working days of the receipt of the Step I determination. The agency head or the agency head's designated representative if any, shall meet with the employee and/or the Union for review of the grievance and shall issue a written determination by the end of the tenth work day following the date on which the appeal was filed.

STEP III An appeal from an unsatisfactory determination at STEP II shall be presented by the employee and/or the Union to the Commissioner of Labor Relations in writing, within ten (10) working days of the receipt of the STEP II determination. Copies of such appeals shall be sent to the agency head. The Commissioner of Labor Relations, or the Commissioner's designee shall review all such appeals from STEP II determinations and shall make and issue a written determination within fifteen (15) working days following the date on which the appeal was filed.

STEP IV An appeal from an unsatisfactory determination at STEP III may be brought solely by the Union to the Office of Collective Bargaining for impartial arbitration within fifteen (15) working days of receipt of the STEP III determination. In addition, the Employer shall have the right to bring directly to arbitration any dispute between the parties concerning any matter defined herein as a "grievance." The Employer shall commence such arbitration by submitting a written request therefor to the Office of Collective Bargaining. A copy of the notice requesting impartial arbitration shall be forwarded to the opposing party. The arbitration shall be conducted in accordance with the Title 61 of the Rules of the City Of New York (formerly referred to as the Consolidated Rules of the Office of Collective Bargaining). The costs and fees of such arbitration shall be borne equally by the Union and the Employer.

A transcript of all arbitration hearings shall be taken unless the taking of a transcript is waived by both parties. The cost of one copy of the transcript for each party and for the arbitrator shall be borne equally by the parties.

Both the Employer and the Union will request the arbitrator to make every reasonable effort to issue the decision within thirty (30) days. The arbitrator's decision, order or award shall be limited to the application and interpretation of this Agreement, and the arbitrator shall not add to, subtract from or modify this Agreement. The arbitrator's award shall be final and binding and enforceable in any appropriate tribunal in accordance with Article 75 of the Civil Practice Law and Rules. An arbitrator may provide for and direct such relief as the arbitrator deems necessary and proper, subject to the limitations set forth above and any applicable limitations of law.

Section 3.

As a condition to the right of a Union to invoke impartial arbitration set forth in this Article, the employee or employees and the Union shall be required to file with the Director of the Office of Collective Bargaining a written waiver of the right, if any, of the employee or employees and the Union to submit the underlying dispute to any other administrative or judicial tribunal except for the purpose of enforcing the arbitrator's award.

Section 4.

Any grievance of a general nature affecting a large group of employees and which concerns the claimed misinterpretation, inequitable application, violation or failure to comply with the provisions of this Agreement shall be filed at the option of the Union at STEP III of the grievance procedure, without resort to previous steps.

Section 5.

If a decision satisfactory to the Union at any level of the grievance procedure is not implemented within a reasonable time, the Union may re-institute the original grievance at STEP III of the grievance procedure; or if a satisfactory STEP III determination has not been so implemented, the Union may institute a grievance concerning such failure to implement at Step IV of the grievance procedure.

Section 6.

If the Employer exceeds any time limit prescribed at any step in the grievance procedure, the grievant and/or the Union may invoke the next step of the procedure, except, however, that only the Union may invoke impartial arbitration under STEP IV.

Section 7.

The Employer shall notify the Union in writing of all grievances filed by employees, all grievance hearings, and all determinations. The Union or a public employee organization which has been designated by the Union to represent the grievant or grievants shall have the right to have a representative present at any grievance hearing and shall be given forty-eight (48) hours' notice of all grievance hearings.

Section 8.

Each of the steps in the grievance procedure, as well as time limits prescribed at each step of this grievance procedure, may be waived by mutual agreement of the parties.

Section 9.

The grievance and arbitration procedure contained in this agreement shall be the exclusive remedy for the resolution of disputes defined as "grievances" herein. This shall not be interpreted to preclude either party from enforcing the arbitrator's award in court. This Section shall not be construed in any manner to limit the statutory rights and obligations of the Employer under Article XIV of the Civil Service Law.

Section 10. FLSA Dispute Procedure

a. Any dispute, controversy or claim concerning or arising out of the application or interpretation of the Fair Labor Standards Act ("FLSA Controversy") shall be submitted by a claimant in accordance with this section.

d. The FLSA Panel shall consist of a representative designated by the Municipal Labor Committee and a representative designated by the Commissioner of the Office of Labor Relations of the City of New York. The FLSA Panel shall establish appropriate forms and procedures to promptly review and resolve all FLSA Controversies submitted to it.

e. Any FLSA Controversy arising out of the classification of a position or group of positions as exempt or non-exempt from the FLSA shall be submitted by an employee in writing to the FLSA Panel.

A copy of any FLSA Controversy concerning a HHC title which is submitted to the FLSA Panel pursuant to this Section 10(e) shall be forwarded immediately by the Panel to the HHC's Office of Vice President for Human Resources. If the Panel deems it necessary to the proper resolution of said FLSA Controversy, it shall consult with HHC prior to issuance of its determination.

The Panel shall take any steps necessary for a proper disposition of any FLSA Controversy and shall issue a written determination within sixty days following the date of submission thereof. The FLSA Panel's time may be extended by mutual agreement of the parties. The decision of the Panel shall be final.

f. Notwithstanding the provisions of this Section 10, the submission of a dispute by an employee under this procedure shall not constitute a waiver of the employee's rights under the FLSA.

Section 11. VDT Operators Dispute Procedure

For purposes of this Section 11, the term "grievance" shall mean a dispute concerning the application or misinterpretation of Article XVIII. Employees may at any time informally discuss with their supervisors a matter which may become a dispute. If the results of such a discussion are unsatisfactory, the Union may present the grievance at STEP 1.

STEP 1 The Union shall present the grievance in the form of a memorandum to the person designated for such purpose by the Commissioner of Labor Relations no later than 120 days after the date on which the dispute arose except a dispute concerning employees of the Health and Hospitals Corporation shall be filed directly at STEP 1(a) of this dispute procedure. The Vice President for Human Resources or the Vice President's designee shall investigate the grievance and shall issue a determination within thirty (30) work days of the receipt of the grievance. An appeal from an unsatisfactory determination at STEP 1(a) shall be presented in writing to the Commissioner of Labor Relations or the Commissioner's designee within ten (10) work days of the receipt of the STEP 1(a) determination.

STEP 2 An appeal from an unsatisfactory determination at STEP 1 may be brought by the Union to the Office of Collective Bargaining for impartial arbitration within fifteen (15) work days of receipt of the STEP 1 determination. In addition, the Employer shall have the right to bring directly to arbitration any dispute between the parties concerning any matter defined herein as a "grievance". The Employer shall commence such arbitration by submitting a written request therefor to the Office of Collective Bargaining. A copy of the notice requesting impartial arbitration shall be forwarded to the opposing party. The arbitration shall be conducted in accordance with the Consolidated Rules of the Office of Collective Bargaining. The costs and fees of such arbitration shall be borne equally by the Union and the Employer.

Both the Employer and the Union will request the arbitrator to make every reasonable effort to issue the decision within thirty (30) days. The arbitrator's decision, order or award (if any) shall be limited to the application and interpretation of the Article XVIII and the arbitrator shall not add to, subtract from or modify said Article. The arbitrator's award shall be final and binding and enforceable in any appropriate tribunal in accordance with Article 75 of the Civil Practice Law and Rules. The arbitrator may provide for and direct such relief as the arbitrator deems necessary and proper, subject to the limitations set forth above and any applicable limitations of law.

Each of the steps in the dispute procedure, as well as the time limits prescribed at each step of this dispute procedure, may be waived by mutual agreement of the parties.

The employee may be represented at such conference by a representative of the Union. The person designated by the agency head to review the charges shall take any steps necessary to a proper disposition of the charges and shall issue a determination in writing by the end of the fifth day following the date of the conference.

STEP B(i) If the employee is not satisfied with the determination at STEP A above, then the employee may choose to proceed in accordance with the Grievance Procedure set forth in Article XV of this Agreement through STEP III. The Union, with the consent of the employee, shall have the right to proceed to binding arbitration pursuant to STEP IV of such Grievance Procedure. The period of an employee's suspension without pay pending hearing and determination of charges shall not exceed thirty (30) days.

ARTICLE XVII - JOB SECURITY

Section 1. General Layoff Provisions

Where layoffs are scheduled affecting full-time employees in competitive class, non-competitive class, and labor classes the following procedures shall be used:

* See Article I, Section 5(e).

a. Notice shall be provided by the Office of Labor Relations to the appropriate union(s) not less than thirty (30) days before the effective dates of projected layoffs. Such notification(s) shall apply to all proposed layoffs and shall include a summary by layoff unit of the number of affected positions by title (including title code number and civil service status) and shall also include in addition to the above information the name, social security number, city start date, and title start date of each affected employee.

It is understood by the parties that such notice is considered to be preliminary and is subject to change during the 30 days notice period. However, if new title(s) which were not part of the original notice are added to the proposed layoff notice or the number of employees in title(s) contained in the original notice is increased beyond the number in the original notice, an additional 30 days notice will be given to the affected union(s) covering solely such additional title(s) or numbers, except, such additional 30 days notice shall not apply to employees displaced by the "bumping" provisions mandated by the Civil Service Law or by appointments from special transfer, preferred, or other civil service lists. The parties may waive such additional notice by mutual consent.

b. Within such 30-day period designated representatives of the Employer will meet and confer with the designated representatives of the appropriate union with the objective of considering feasible alternatives to all or part of such scheduled layoffs, including but not limited to:

i. the transfer of employees to other agencies with retraining, if necessary, consistent with Civil Service law but without regard to the Civil Service title,

ii. the use of Federal and State funds whenever possible to retain or re-employ employees scheduled for layoff,

iii. the elimination or reduction of the amount of work contracted out to independent contractors, and

iv. encouragement of early retirement and the expediting of the processing of retirement applications.

c. After meeting and conferring with the designated representatives of the appropriate union, the Employer shall have the right, when necessary, to transfer any employee, in lieu of layoff, from one agency to another provided such transfer is within title (and the employee meets all the legal requirements of the new position) and is being made without loss in pay, benefits, or seniority to the affected employee. The following procedure shall govern:

i. Volunteers in order of title seniority.

ii. Non-volunteers in order of title seniority among those who would otherwise have to be laid off in the agency from which the transfer is being made.

Section 2. Competitive Class Preferred Lists

a. When a layoff occurs, the Employer shall provide to the appropriate bargaining representative a list of permanent competitive class employees who are on a preferred list with the original date of appointment utilized for the purpose of such layoff.

b. A laid off employee who is returned to service in the employee's former title or in a comparable title from a competitive class preferred list, shall receive the basic salary rate that would have been received by the employee never been laid off, up to a maximum of two (2) years of general salary increases.

Section 3. Non-Competitive Class and Labor Class Layoff Procedures

a. If budgetary restrictions, consolidations or abolition of functions or other curtailment of activities result in the abolition of non-competitive class or labor class positions, the suspension among the incumbents in the same class of positions shall be made in inverse order of their original appointment to the agency in the subject class of positions.

b. The date of original appointment shall be the first date of appointment followed by continuous service up to the time of the abolition or reduction of positions.

c. An employee who had been terminated from the subject class of positions and who was reappointed in the affected class of positions within one year thereafter shall for the purposes of this Section be deemed to have continuous service.

d. A period of an authorized leave of absence without pay or any period during which an employee is suspended from the employee's position pursuant to this Section shall not constitute an interruption of continuous service for the purposes of this Section.

e. In the case of non-competitive or labor class employees, the Employer may determine the layoff unit (agency, unit of appropriation, department, bureau, division, or other clearly identifiable subdivision). In such case, layoff shall be made from among incumbents in the same class of positions in each such layoff unit.

f. If the Employer designates a subdivision smaller than a unit of appropriation, department, bureau, or division as a non-competitive layoff unit or smaller than a unit of appropriation as a labor class layoff unit, the affected union may appeal such designation within 3 days of the receipt of the layoff notice to Commissioner of Citywide Administrative Services who will issue a final and binding determination within 3 days of the receipt of such appeal.

g. Employees in affected titles in the layoff unit shall be laid off in the following order:

i. All employees in probationary status in the same title. Among them, layoff shall be in inverse order to date of original appointment.

ii. All employees who have satisfactorily completed their probationary periods in the same title. Among them, layoff shall be in inverse order to date of original appointment.

Section 4. Non-Competitive Class and Labor Class Recall Procedures

a. In the event of layoff the Employer shall place the names of affected non-competitive or labor class employees on a recall list.

b. i. The Employer shall certify such recall list for filling non-competitive vacancies in the same class of positions in the unit of appropriation from which the suspensions were made, and for labor class vacancies in the same class of positions in the agency from which the suspensions were made, and for which the Commissioner of Citywide Administrative Services determines they qualify. The parties may waive the terms contained in this paragraph by mutual consent.

ii. Effective November 26, 1999, the following subsection shall supercede subsection 4(b)(i):

For filling non-competitive vacancies in the same class of positions from which the layoffs were made and for which the Commissioner of Citywide Administrative Services determines such laid off employees are qualified, the Employer shall certify such recall list to the agency from which the layoffs were made. For filling labor class vacancies in the same class of positions from which the layoffs were made, the Employer shall certify such recall list on a citywide basis. The parties may waive the terms contained in this paragraph by mutual consent.

c. Persons on the recall list shall be called for reinstatement in the order of their original date of appointment and upon the occurrence of a vacancy in an appropriate position in the recall unit shall be certified in seniority order. The eligibility for reinstatement of a person on such a recall list shall not continue for a period longer than four years from the date of separation.

d. No person suspended or demoted prior to completing his/her probationary term shall be certified for reinstatement until the exhaustion of all other eligibles on the recall list and shall be required to complete his/her probationary term upon reinstatement.

e. Failure or refusal to accept reinstatement from recall lists to vacancies in the same class of positions shall be deemed relinquishment of eligibility and the employee's name shall be removed from the list.

f. A person reinstated from a recall list to his/her former class of positions shall receive at least the same salary he/she was receiving at the time of suspension.

g. Notwithstanding any other provisions of this Section, the Employer may, to the extent permissible by law, disqualify for reinstatement and remove from a recall list the name of any eligible who is physically or mentally disabled for the performance of the duties of the position for which such list is established, or who has been guilty of such misconduct as would result in dismissal.

Re: 1995 – 2001 Citywide Agreement

Dear Mr. Sullivan:

The following is offered by way of clarification as to the meaning and scope of certain provisions of the Citywide Agreement between the City of New York and District Council 37, AFSCME, AFL-CIO covering the period of January 1, 1995 - June 30, 2001.

1. **Article I, Section 1:** Are Employees in Rule X titles covered by the Agreement?

   ANSWER: No. However they may be covered by the provisions of the Agreement if they are equated to a title that is covered by the Agreement, or to the extent that they are covered by the provisions of the applicable unit contract.

2. **Article III, Section 1(b):** When are employees eligible to receive payment for both night shift differential and straight time (1X) overtime?

   ANSWER: Only employees who were receiving night shift differential during the hour that immediately preceded the straight time (1X) cash overtime are eligible. Employees whose normal tour of duty falls outside the night shift differential hours are not eligible to receive night shift differential when working hours subject to night shift differential.

3. **Article IV, Section 3(b):** Is an employee granted a shortened schedule under Article V, Section 18 who works less than the normal work week entitled to overtime compensated in cash?

   ANSWER: Under certain circumstances. If such an employee is ordered to work hours in excess of the employee's shortened weekly schedule but less than the number of hours in the employee's normal work week, such employee would only be entitled to compensatory time at the rate of straight time (1x) [i.e. straight time compensatory time for work performed between 30 and 35 hours a week for 35 hour employees; between 32½ and 37½ hours a week for 37½ hour employees; and between 35 and 40 hours a week for 40 hour employees]. However, if such employee has been in pay status for all scheduled workdays in the calendar week and is ordered to perform work on a scheduled day off (i.e. a sixth day for a five day a week employee), the hours worked on such scheduled day off may be compensable in cash pursuant to Article IV as if the employee had not been granted a shortened schedule.

4. **Article IV, Section 3(d):** Can the employer reschedule the normal work week of employees to regularly include Saturdays and/or Sundays as normal work days without violating this Section?

   ANSWER: Yes.

5. **Article IV, Section 11(b):** How is the cash payment of standby pay calculated?

   ANSWER: Except as may be otherwise provided by FLSA, the cash payment for standby is always compensated at the rate of one-half (½X) of the hourly rate as determined pursuant to Article IV, Section 6.

6. **Article V, Section 3:** May an agency head issue a blanket prohibition or limitation on the use of approved sick leave and annual leave in units of one hour?

   ANSWER: No. The agency must consider each request on its merits.

7. **Article V, Section 5:** Do these sick leave provisions apply to pregnant employees?

   ANSWER: Yes. These provisions are applicable to pregnancy-connected disability under the same terms and conditions as they are applicable to any conditions requiring or permitting the use of sick leave.

8. **Article V, Section 16(d):** May an Agency apply a fixed time based standard in determining whether to excuse lateness beyond the five minute grace period?

   ANSWER: No. Each determination shall be made on a case by case basis.

9. **Article V, Section 17:** Is the following provision in Section 2.9 of the Leave Regulations superseded by this Section?

   For an agency whose presently existing rules (as of June 30, 1956) permit the use of sick leave credits of an employee in connection with terminal leave with pay upon retirement, the agency is authorized to grant an employee on staff prior to the effective date of these Regulations but who retires subsequent thereto, either terminal leave with pay as specified in Regulation 2.9 or terminal leave with pay calculated under such presently existing agency rules, whichever is the most liberal for the employee; provided that the sick leave balance used in the application of the agency formula does not exceed the sick leave balance to the credit of the employee at the time these Regulations go into effect (July 1, 1956).

   ANSWER: No.

10. **Article V, Section 18(b):** Are all outdoor and field employees who traditionally enjoyed shortened workday schedules and who are required to return to an office location entitled to summer schedules?

    ANSWER: No. Only those employees who are required to return to an office location before the end of the workday to perform duties for at least one hour are entitled to the summer schedule enjoyed by office employees at that location on such day.

11. **Article V, Section 19:** Where certain part-time employees were receiving more beneficial leave credits under the terms of a unit contract in existence prior to the effective date of this Section, may they continue to do so?

    ANSWER: Yes. They may continue to receive credits which may vary from the formula established by the terms of this Section. However, upon the expiration of said pre-existing unit contracts, the employees must either elect to be covered by the terms of this Section or they may continue to receive leave credits pursuant to said pre-existing formula.

12. **Article X, Section 1:** Is the evaluatory statement referred to in this Section limited only to the formal periodic performance evaluation?

    ANSWER: No. It refers to any evaluatory statement.

13. **Article X, Section 1:** Are the requirements on evaluatory statements contained in this Section limited only to those statements to be placed in the permanent personnel folder in the central office?

    ANSWER: No. They apply to evaluatory statements to be placed in any employee personnel folder maintained in the agency.

14. **Article XIII, Section 4:** Would an employee, who at the time of separation from City service was, and thereafter continued to be covered by the State Health Insurance Program, be eligible to continue receiving the Welfare Fund contribution on his behalf?

    ANSWER: Yes. Such an employee shall continue to receive the Welfare Fund contribution in the employee's behalf provided said employee has five years NYCERS membership service at the time of the employee's separation and said employee remains a primary beneficiary of the State Program and is entitled to receive benefits paid for by the State through such program.

15. **Article XXI:** Does this Article intend to preclude the Union from engaging in activity to secure the enactment of the New Career Pension Plan legislation during the term of the Agreement?

    ANSWER: No.

The provisions of this letter shall be deemed part of the 1995-2001 Citywide Agreement as if fully set forth therein. Except as is otherwise provided herein, the contents of this letter shall be effective the date of execution of the 1995-2001 Citywide Agreement and shall be coterminous therewith.

Re: 1995 – 2001 Citywide Agreement

Dear Mr. Sullivan:

This is to confirm our mutual understanding and agreement that during the negotiations for the above captioned agreement the parties agreed to the implementation of the following personnel policies by both covered agencies and the New York City Health and Hospitals Corporation:

1. Personnel Services Bulletin No. 440-8 (Guidelines on the Family and Medical Leave Act of 1993) be modified as follows to provide that effective November 26, 1999, leave will be granted to provide care for a domestic partner who has a serious health condition:

   An eligible employee is entitled to a total of 12 weeks of leave in a 12 month period. Leave may be taken upon the birth of a child to the employee, to care for such child; or upon the placement of a child with the employee for adoption or foster care, to care for such child ("FLMA Childcare Leave"). Leave may be taken to care for a child of the employee when the child has a serious health condition, as defined hereon; to care for the employee's parent or spouse or domestic partner when such person has a serious condition; and for the employee's own serious health condition.

   "Child" means a biological, adopted or foster child of the employee; a legal ward, or stepchild of the employee; or a child for whom the employee stands in loco parentis. A child must either be under 18 or incapable of self-care because of mental or physical disability. "Spouse" means a husband or wife as defined or recognized under state law for purposes of marriage in the state where the employee resides. "Parent" means the biological parent of the employee, or person who stands or stood in loco parentis for the employee when the employee was a child, as defined herein; it does not include "in-laws." "Domestic Partner" means domestic partner as defined in the New York Administrative Code Section 1-112(21).

2. Effective November 26, 1999, employees serving permanently in a competitive, non-competitive, or labor class title in an agency covered by the Citywide Agreement and the Personnel Rules and Regulations of the City of New York ("covered position") who are appointed to another covered position in the competitive, non-competitive, or labor class that requires serving a new probationary period, shall have the right to return to their former agency and title if they do not satisfactorily complete the new probationary period. Employees serving permanently in a competitive, non-competitive, or labor class title in the Health and Hospitals Corporation that is covered by the Citywide Agreement ("HHC covered position") who are appointed to another HHC covered position in the competitive, non-competitive, or labor class that requires serving a new probationary period, shall have the right to return to their former HHC title if they do not satisfactorily complete the new probationary period.
3. Effective November 26, 1999, when competitive class promotional titles are consolidated with lower titles as assignment levels, any permanent competitive class employees who are serving as step-up provisionals in the affected promotional titles shall have up to twenty-four (24) months of prior provisional service credit towards the "salary lock-in" provisions set forth in the Alternative Career and Salary Pay Plan. Notwithstanding such credited service, such employees must serve at least 12 months in the higher assignment level to gain full salary lock-in rights

The provisions of this letter shall be deemed part of the 1995-2001 Citywide Agreement as if fully set forth therein. Except as is otherwise provided herein, the contents of this letter shall be effective the date of execution of the 1995-2001 Citywide Agreement and shall be coterminous therewith.

LANDMARKS PRESERVATION

BINDING REPORT

ISSUE DATE:	DOCKET #:	SRB #:
05/16/00	006631	SRB 00-6735

ADDRESS	BOROUGH:	BLOCK/LOT:
643 PARK AVENUE-GD. FL. Seventh Regiment Armory INDIVIDUAL LANDMARK	MANHATTAN	1401 / 1

To the Mayor, the Council, and the Commissioner, State of New York Office of General Services.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for the installation of a plexiglass sign, measuring 24" square, approximately 5' above grade, at the masonry base of the building, to indicate the location of the Fire Command Post; as shown and described in a photograph and correspondence dated April 21, 2000, prepared by Thor Kaslofsky, Deputy Director, Department of Homeless Services, submitted as components of the application.

In reviewing the proposal, the Commission notes that the designation report describes the Seventh Regiment Armory, 643 Park Avenue, as a brick and stone armory designed by Charles W. Clinton and built in 1877-81.

With regard to the installation of the sign, the Commission finds that two of the four small anchors attaching the sign to the base of the building have been installed in mortar joints; that the installation will be readily reversible and repairable; and that this relatively small sign is in scale with this large institutional building, and will not call undue attention to this installation, or detract from the significant protected features of this individual landmark building.

Please send a copy of the final drawings, and one or more 8- by 10-inch black and white photographs of the completed work, to the archives of the Art Commission of the City of New York, City Hall, 3rd Floor, New York, NY 10007, Attn: Deborah Bershad.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Ann Friedman.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. The City pays interest on any late invoice after the expiration of a 15-day "grace" period. There are certain types of payments that are not eligible for interest; these are listed in Section 5-07 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments every six months, in January and July of each year.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-fourth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 5 to 30 years and the drop-in centers will be for three years with one three year option to renew.

Pursuant to Section 312(c)(1)(ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgement is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03(c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated and 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed facility location.

Any organization that believes it can provide these services may contact: Calvin Pitter, Deputy Agency Chief Contracting Officer at the Department of Homeless Services at (212) 361-8000, 33 Beaver Street 13th Flr., New York, NY 10004, to request a copy of the application, which is available for pick-up only Monday through Friday on business days between the hours of 9 a.m. to 5 p.m.

AGENCY RULES

TAXI AND LIMOUSINE COMMISSION

■ NOTICE

Notice of Final Publication

NOTICE IS HEREBY GIVEN in accordance with Section 1043(b) of the Charter of the City of New York, that the Taxi and Limousine Commission hereby amends the Taxicab Specifications to authorize the transfer of a vehicle fueled by Compressed Natural Gas ("CNG") to another medallion owner or owner's agent.

The Taxi and Limousine Commission ("TLC") is promulgating such regulations pursuant to the authority vested in the TLC under Charter Sections 2303(a) and 2303(b); and under Sections 19-503 of the Administrative Code of the City of New York.

A public hearing in connection with these proposed regulations was held on **May 25, 2000,** at the NYC Taxi and Limousine Commission, 40 Rector Street, New York, NY 10006.

Statement of Basis and Purpose

The regulations promulgated herein by the New York City Taxi and Limousine Commission ("TLC") are authorized under Section 2303(a) of the Charter of the City of New York, which empowers the TLC to regulate and supervise the business and industry of transportation of persons by licensed vehicles for hire in the City; under Section 2303 (b)(6) of such Charter, which authorizes TLC to set standards for the safety, design, comfort and convenience of vehicles; under Section 2303(b)(11) of such Charter, which authorizes the TLC to promulgate rules and regulations necessary to exercise the authority conferred upon it by the Charter; and under Section 19-503(a) of the Administrative Code of the City of New York, which authorizes the Commission to promulgate rules to further the objectives of the Charter and the Administrative Code.

This Rule amends the taxicab specifications that permit the transfer of a vehicle that was previously hacked-up pursuant to TLC rules, to another medallion.

On December 16, 1999, the TLC held a public hearing to review the effectiveness of the current CNG vehicle program, which combines incentives, such as special vehicle retirement rules applicable to CNG vehicles, as well as mandates, such as the requirement, since repealed, that fleet maintained Stand-By Vehicles (SBVs) be fueled by CNG. The TLC heard testimony and received written comments from the taxicab industry which indicated that there were problems associated with the CNG program, including the lack of a sufficient number of twenty-four (24) hour fueling sites, the lack of sites in locations near taxicab garages, the extensive amount of time needed to re-fuel CNG vehicles, cost and maintenance issues relating to the vehicles, and the unwillingness of taxicab drivers to lease such vehicles because of the additional time needed to fuel the vehicles. Other persons provided testimony in favor of the CNG program, noting the positive impact such a program has upon the environment.

After review of the testimony, the TLC voted to repeal the mandatory CNG vehicle usage for SBVs, while retaining existing provisions in the Rules encouraging the voluntary use of CNG-powered vehicles. The TLC hereby amends the taxicab specifications to encourage continued voluntary usage of CNG vehicles. The TLC, from a policy standpoint, is committed to encouraging and promoting the voluntary use of CNG vehicles by its licensees.

This Rule permits existing owners of vehicles fueled by CNG, which were originally hacked-up as new vehicles, to transfer these vehicles from one medallion owner to another, so long as the vehicle passes the required TLC inspection and meets vehicle retirement requirements. Generally, a medallion owner is required to "hack-up", or equip for service as a taxicab, only new vehicles. After a vehicle is "hacked up", it cannot in general be transferred to another medallion. Exceptions presently exist in cases where the vehicle is repossessed by a lender, or is being transferred from one medallion operated by an owner or agent to another medallion owned by the same owner or agent. Under this amendment, a vehicle fueled by CNG could be transferred from one medallion owner to another, notwithstanding the fact that the vehicle does not otherwise qualify for a new vehicle "hack-up". This Rule would encourage the use of vehicles fueled by CNG since they could be sold or otherwise transferred to another taxicab owner or agent whose facilities might be more accessible to CNG fueling stations.

Section 1. Title 35 of the Rules of the City of New York ("RCNY"), Chapter 3, Taxicab Specifications, Section 3-01(e), Vehicle Hack-Up and Vehicle Transfer provisions, is hereby amended by the addition of a new subdivision (4) to read as follows:

[ ] Brackets indicated deleted material.
Italics indicate new material.

Section 3-01(e) Vehicle Hack-Up and Vehicle Transfer

(e) A vehicle that was hacked-up pursuant to subdivision (b) may be transferred to another medallion, with the approval of the Commission, only if the vehicle passes inspection, has not yet met its retirement date as specified in Rule 3-02, and meets the requirements of either subsection (1), (2) [or],(3),*or (4).*

(1) Repossessions. The title owner at the time of transfer of the vehicle to another medallion has acquired the vehicle pursuant to a repossession sale by the previous owner's purchase money lender, and the repossession occurs within twenty-four months of hack-up.

(2) Long-term drivers. The title owner at the time of transfer of the vehicle to another medallion was a long-term driver of the vehicle, as defined in Rule 1-01, for at least five months of its operation under the previous medallion and will be a long-term driver under the new medallion.

(3) Same medallion owner or agent. The owner of the medallion or the owner's agent transfers the vehicle to another medallion operated by the same owner or agent.

(4) *Compressed Natural Gas Vehicle. The owner of a medallion or the owner's agent may transfer a vehicle fueled by Compressed Natural Gas to any other medallion owner or owner's agent.*

REPORTS OF STANDING COMMITTEES

Report of the Committee on Consumer Affairs

Int. No. 480-A

Report of the Committee on Consumer Affairs in favor of approving and adopting, as amended, a local law to amend the administrative code of the city of New York, in relation to toy or imitation firearms.

The Committee on Consumer Affairs to which it was referred on December 9, 1998 (Minutes page 3708) the annexed amended local law respectfully

REPORTS:

Today the Committee on Consumer Affairs will hold a hearing on Proposed Int. No. 480-A, a proposed local law to strengthen the requirements contained section 10-131 of the administrative code regulating the sale and possession of toy guns. At the initial hearing on Int. No. 480, the Committee heard from representatives of law enforcement organizations, toy manufacturers, and the Department of Consumer Affairs.

In 1955, the City enacted its current "toy gun" law (Administrative Code § 10-131(g)), which prohibits the sale, offering, use or possession of "any toy or imitation pistol or revolver which substantially duplicates an actual pistol or revolver" unless the imitation gun is "colored in colors other than black, blue, silver or aluminum" and the barrel of the toy gun is closed. Violation of the law is a misdemeanor punishable by a fine of up to one thousand dollars ($1000) or imprisonment of up to one year or both.

In 1988, legislation was enacted on both the state and federal levels regulating imitation weapons. Section 871 of the state's General Business Law prohibits the importation, manufacture, sale or distribution of imitation weapons which are colored black, blue, silver or aluminum and do not have a closed barrel and an orange stripe "running the entire length of the barrel on each side and the front end of the barrel. . . ." 15 U.S.C. § 5001 requires toy firearms to "have as an integral part, permanently affixed, a blaze orange plug inserted in the barrel of such toy, look-alike, or imitation firearm," although the law gives the Secretary of Commerce the authority to provide for alternate markings for toy guns not capable of being marked with such a plug as well as the authority to change the marking requirements. Regulations promulgated by the Secretary of Commerce allow toy guns to be marked with blaze orange plugs or barrels, constructed entirely of transparent or translucent materials, or predominantly colored in white, bright red, bright yellow, bright green, bright blue, bright pink or bright purple. CFR § 1150.3.

On August 24, 1998, a sixteen year old boy carrying a toy water gun that was mistaken for a real gun was shot by police in Brooklyn. This tragic incident spurred concerns over the adequacy and enforcement of current toy gun regulations. Public officials and representatives of law enforcement groups found toy guns being sold at certain stores in the City in violation of applicable laws. The City's Department of Consumer Affairs ("DCA") reported that they had issued 68 violations since 1994 to stores selling toy guns in violation of the City's law *(New York Post*, August 26, 1998). In addition, at a press conference introducing the proposed legislation, Manhattan Borough President C. Virginia Fields and the Chair of this Committee demonstrated the similarities between some of the toy guns purchased in City stores in the wake of the August 1998 tragedy and real weapons, and showed how easy it was to remove the "blaze orange plug" from some of the toys.

Int. No. 480-A's principal provisions would change the current law which allows possession, sale or use of toy or imitation guns in "colors other than black, blue, silver or aluminum." The proposed local law would prohibit the sale, use or possession of any toy or imitation firearms, which substantially duplicate or can reasonably be perceived to be actual firearms, unless they are: (1) colored "white, bright red, bright orange, bright yellow, bright green, bright blue, bright pink or bright purple, either singly or as the predominant color in combination with other colors . . ."; or (2) "constructed entirely of transparent or translucent materials" to permit unmistakable observation of all of the toy or imitation firearm's contents.

In addition, the proposed local law maintains the current City law's requirements that toy or imitation firearms (substantially duplicating or which could reasonably be perceived as a real firearms) be stamped with a name or symbol identifying the manufacturer and have barrels that are closed "with the same material of which the toy or imitation firearm is made for a distance of not less than one-half inch from the front end of the barrel. However, Proposed Int. No. 480-A provides for an exemption for water guns from this closed-barrel requirement.

Proposed Int. No. 480-A would prohibit the sale, possession or use of toy or imitation firearms with laser pointers, since the sale of laser pointers to, and the possession of laser pointers by, minors has been made illegal pursuant to Administrative Code § 10-134. In addition, to make it clear that the City's toy gun law is intended to apply to all toy or imitation weapons, not just pistols and revolvers, the proposed local law uses the term "firearm", rather than "pistol or revolver".

The proposed local law maintains the exemptions contained in the current City law for toy guns possessed or displayed in the City by a manufacturer or dealer solely for purposes of sales accompanied by delivery outside the City, and for toy guns used solely in

theatrical, cinematic or television productions. However, in this latter case of toy guns used in entertainment productions, the proposed local law makes clear that any laws or rules, such as the federal rules requiring a waiver for such use, must be obeyed.

The proposed local law would not apply to: (1) non-firing collector replica antique firearms modeled on pre-1898 firearms, which are not intended as toys; or (2) decorative, ornamental, and miniature objects (limited to 38 millimeters by 70 millimeters) having the appearance of firearms such as those found on jewelry.

The proposed local law would also add a civil penalty of up to one thousand dollars ($1000) in addition to maintaining the criminal penalties found in the current law. The Department of Consumers Affairs would be given the authority to hold hearings before its own administrative tribunal to enforce the civil penalties pursuant to this subdivision.

The proposal would take effect ninety days after its enactment.

FISCAL IMPACT STATEMENT:

	Effective FY00	FY Succeeding Effective FY01	Full Fiscal Impact FY01
Revenues (+)	minimal	minimal	minimal
Expenditures (–)	$0	$0	$0
Net	minimal	minimal	minimal

Impact on Revenues: The Department of Consumer Affairs would have hearing authority for violations against this legislation. Granting hearing power to DCA's administrative tribunal will increase the likelihood of revenue collection resulting from penalties, which may not exceed $1000. However, any revenue increases are expected to be minimal.

Impact on Expenditures: There would be no impact on expenditures resulting from this legislation. The use of any agencies resources related to this legislation will be provided within existing appropriations.

Accordingly, Your Committee recommends its adoption, as amended.

A LOCAL LAW to amend the administrative code of the City of New York in relation to toy or imitation firearms.

Be it enacted by the Council as follows:

Section 1. Subdivision g of section 10-131 of the administrative code of the city of New York is repealed and a new subdivision g is added to read as follows:

g. 1. It shall be unlawful for any person to sell or offer for sell, possess or use or attempt to use or give away, any toy or imitation firearm which substantially duplicates or can reasonably be perceived to be an actual firearm unless:

(a) the entire exterior surface of such toy or imitation firearm is colored white, bright red, bright orange, bright yellow, bright green, bright blue, bright pink or bright purple, either singly or as the predominant color in combination with other colors in any pattern; or

(b) such toy or imitation firearm is constructed entirely of transparent or translucent materials which permits unmistakable observation of the imitation or toy firearm's complete contents; and

(c) the barrel of such toy or imitation firearm, other than the barrel of any such toy or imitation firearm that is a water gun, is closed with the same material of which the toy or imitation firearm is made for a distance of not less than one-half inch from the front end of said barrel, and;

(d) such toy or imitation firearm has legibly stamped thereon, the name of the manufacturer or some trade name, mark or brand by which the manufacturer can be readily identified; and

(e) such toy or imitation or firearm does not have attached thereto a laser pointer, as defined in paragraph one of subdivision a of section 10-134.2 of this code.

2. Paragraph one of this subdivision shall not apply to:

(a) the possession or display of toy or imitation firearms by a manufacturer or dealer solely for purposes of sales that are accompanied by delivery to a point without the city;

(b) any toy or imitation firearm that will be used only for or in the production of television programs or theatrical or motion picture presentations, provided, however, that such use of any toy or imitation firearm complies with all applicable laws, rules or regulations concerning request and receipt of waivers authorizing such use;

(c) non-firing collector replica antique firearms, which look authentic and may be a scale model but are not intended as toys modeled on real firearms designed, manufactured and produced prior to 1898;

(d) decorative, ornamental, and miniature objects having the appearance, shape and/or configuration of a firearm, including those intended to be displayed on a desk or worn on items such as bracelets, necklaces and key chains, provided that the objects measure no more than thirty-eight (38) millimeters in height by seventy (70) millimeters in length, the length measurement excluding any gun stock length measurement.

3. Authorized agents and employees of the department of consumer affairs, and of any other agency designated by the mayor, shall have the authority to enforce the provisions of this subdivision. A proceeding to recover any civil penalty pursuant to this subdivision shall be commenced by service of a notice of hearing that shall be returnable to the administrative tribunal of the department of consumer affairs. The administrative tribunal of such department shall have the power to impose civil penalties for a violation of this subdivision of not more than one thousand dollars ($1000).

4. Any person who shall violate this subdivision shall be guilty of a misdemeanor, punishable by a fine of not more than one thousand dollars ($1000) or imprisonment not exceeding one (1) year or both.

§ 2. This local law shall take effect 90 days after its enactment, provided, however, that the department of consumer affairs and the police department may take actions necessary prior to such effective date for the implementation of this local law, including, but not limited to, the adoption of any necessary rules.

Report of the Committee on Economic Development

Int. No. 621

Report of the Committee on Economic Development in favor of approving and adopting a local law to amend the administrative code of the city of New York, in relation to the boundaries of the Southwest Brooklyn economic development zone.

The Committee on Economic Development to which it was referred on August 11, 1999 (Minutes page 2109) the annexed local law respectfully

REPORTS:

This bill makes technical correction to the blocks contained within boundary amendment of the Southwest Brooklyn Economic Development Zone ("EDZ") contained in Local Law 28 of 1999 and would be retroactive to June 28, 1999.

The EDZ program was established by the State Legislature in 1986 (General Municipal Law § 955 *et. seq.),* and is designed to spur private investment in economically distressed areas by providing for tax incentives and utility discounts for businesses that locate or expand within the EDZ. Local governments establish the zones within the general authorization established by state law, which can be a maximum of two square miles, subject to review and approval by the State Department of Economic Development. State law allows for the creation of forty zones statewide; Nine zones are in New York City: Port Morris and Hunts Point in The Bronx, South Jamaica and Rockaway in Queens, East New York, Brooklyn Navy Yard and Southwest Brooklyn in Brooklyn, East Harlem in Manhattan and North Shore in Staten Island. The Southwest Brooklyn EDZ was created in 1994 in the areas of Sunset Park, Red Hook and Gowanus.

To qualify as an EDZ, generally the area must meet the following eligibility requirements:

1. It must be located within one or more United States census tracts having a minimum poverty rate of 20 percent, an unemployment rate equal to 1.25 times the statewide rate, and a population of at least 2,000, or nearby or contiguous to an eligible area;
2. It must be limited in size to two square miles;
3. A minimum of 25 percent of the total economic development zone area must be zoned under the local zoning resolution for commercial or industrial use as of right; and
4. At least 25 percent of the total land within the zone area must be vacant.

In addition, certain other areas may be designated if at the time of the application the unemployment rate exceeds the national average or is expected to rise due to the actions of a single employer; or the area is declared a natural disaster area by the President of the United States; or a military base or state-operated facility is designated for contraction or closure.

Under the EDZ program, a business is eligible for wage, utility, sales and investment tax credits, which are provided by the State.

The first hearing by the Committee on the Southwest Brooklyn Economic Development Zone amendment (Int. No. 516) was held on March 24, 1999. The Committee heard testimony from George Glatter, Assistant Deputy Commissioner, Department of Business Services, William Shockney, Executive Director, South West Brooklyn Industrial Develop. Corp., Bette Stoltz, Executive Director, South Brooklyn Local Develop. Corp. and Carmen Calderin from Assemblyman Felix Ortiz in support of the amendment.

The Committee passed Int. No. 516 on June 2, 1999 by a 9-0-0 vote. The full Council approved Int. No. 516 on June 7, 1999. The Mayor signed the bill on June 25, 1999, becoming Local Law 28 of 1999.

FISCAL IMPACT STATEMENT:

	Effective FY 1999	FY Succeeding Effective FY 2000	Full Fiscal Impact FY 2000
Revenues (+)	See Below	See Below	See Below
Expenditures (–)	$0	$0	$0
Net	See Below	See Below	See Below

Impact on Revenues and Expenditures: This local law would result in no fiscal impact on the City's expenditures Under the Code, a business in the EDZ is offered a collection of City and State tax incentives that include wage tax credits utility tax credits, a sales tax credit and an investment tax credit that could generate an indeterminate amount of revenue loss. The local law would result in a new subzone of geographic area included in the EDZ.

Accordingly, Your Committee recommends its adoption.

JEROME X. O'DONOVAN, Chairperson; STEPHEN DIBRIENZA, RONNIE M. ELDRIDGE, KENNETH K. FISHER, UNA CLARKE, ADOLFO CARRION, MARTIN GOLDEN—September 27, 1999

On motion of the Speaker (Council Member Vallone), and adopted, the foregoing matter was coupled as a General Order for the day. (See ROLL CALL ON GENERAL ORDERS FOR THE DAY.)

Reports of the Committee on Finance

At this point the Speaker (Council Member Vallone) announced that the following item had been preconsidered by the Committee on Finance and had been favorably reported for adoption.

Res. No. 996

Report of the Committee on Finance in favor of approving a resolution amending and restating the resolution computing and certifying base percentage, current percentage, and base proportion of each class of real property for Fiscal 2000 to the State Board of Real Property Services pursuant to Section 1803-a, Real Property Tax Law.

The Committee on Finance to which it was referred on September 29, 1999, the annexed resolution respectfully

REPORTS:

Section 1803-a, a Real Property Tax Law, requires the City Council to certify to the State Board of Real Property Services (the "SBRPS") certain calculations used in the process of updating the class shares from the previous year. These calculations are made every year by the Council to reflect the following changes in each class of real property:

a. Changes in the market value of taxable real property (as determined by SBRPS sample studies),

b. Physical changes as a result of new construction or demolitions,

c. Changes in taxable status, and

d. Transfers of real property among the four classes of real property as a result of changes in use or for other reasons.

Under SBRPS regulations, the Council must update the class shares by making two separate certifications. The action to be taken in the above-referenced resolution constitutes the first step of establishing the class shares of the four classes of taxable real property in the City to which the tax levy for the Fiscal 2000 budget will be applied. The purpose of this step is to give effect to the latest class equalization rates required by Article 18, Real Property Tax Law. Using these rates, new estimates of market values for each class are calculated.

The second step, certifying the "adjusted base proportions", is the subject of a separate resolution that takes account of all the changes that are included in the final assessment roll, after Tax Commission review of taxpayer protests. Attached hereto, as Exhibit A, are definitions of terms that are used in the analysis below.

The class equalization rates described above produce a prospective current base proportion which shows increases in Classes 1, 2 and 3 above the Fiscal 1999 adjusted base proportions, or "class shares" (as shown in column R of SBRPS Form RP-6700 attached to the above-captioned resolution), and a 5.91 percent *decrease* for Class 4. However, under the amendment to state law recently enacted, if the increase in any class exceeds 2.50 percent, the Council is directed to shift the excess (and *only* the excess) to any other class or classes as long as the shift does not cause the current base proportion of any other class to increase by more than the 2.50 percent limit. In the above-captioned resolution, the excess above 2.50 percent from Classes 1 and 3 would be shifted to Class 4.

As shown below, despite the shift of the excesses from Classes 1 and 3 to Class 4, the current base proportion for Class 4 is still 2.4 percent below the Fiscal 1999 class share:

Class	Percent Change Before Shifting Excess to Class 4	Percent Change After Shifting Excess to Class 4
1	+4.16	+2.50
2	+1.83	+1.83
3	+22.84	+2.50
4	–5.91	–2.37

However, these "current base proportions" must still be adjusted for the physical changes and transfers among classes which are contained in the final assessment roll. These adjustments will be made in a separately amended and restated resolution constituting the Council's second step. The "adjusted base proportions" thus derived will be the class shares used for allocating the real property tax levy for Fiscal 2000.

EXHIBIT A

"Class equalization rate" represents the percentage that the total assessed value of each class is of the market value of the class, as shown in SBRPS sample studies.

"Base percentage" represents the percentage of total market value that each class constitutes in the 1989 base tax roll. The 1989 base tax roll is the one which was used in setting the tax levy for Fiscal 1990.

"Current percentage" is similar to the base percentage, but applies to the most recent year for which the SBRPS has established class equalization rates (in this case, the 1998 tax roll).

"Local base proportions" are the class tax shares used to fix the tax rates for Fiscal 1991.

"Current base proportions" are the local base proportions modified to take into account the market value changes revealed by the latest class equalization rates.

Accordingly, Your Committee recommends its adoption.

On motion of the Speaker (Council Member Vallone), and adopted, the foregoing matter was coupled as a General Order for the day. (See ROLL CALL ON GENERAL ORDERS FOR THE DAY.)

At this point the Speaker (Council Member Vallone) announced that the following item had been preconsidered by the Committee on Finance and had been favorably reported for adoption.

Res. No. 997

Report of the Committee on Finance in favor of approving a resolution amending and restating the resolution computing and certifying adjusting base proportion of each class of real property for Fiscal 2000 to the State Board of Real Property Services pursuant to Section 1803-a, Real Property Tax Law.

The Committee on Finance to which it was referred on September 29, 1999, the annexed resolution respectfully

REPORTS:

The above-captioned resolution completes the certification procedure required by Section 1803-a, Real Property Tax Law, to establish the class shares used in levying the real property taxes for the adopted Fiscal 2000 budget.

On June 7, 1999, the Council adopted a resolution computing and certifying the current base proportions for Fiscal 2000 (the "CBP Resolution"). After the adoption of the CBP Resolution, Section 1803a, Real Property Tax Law, was amended to lower the percent of increase in the current base proportion as compared with the previous year's adjusted base proportion from 5.0 percent to 2.5 percent, which altered the calculations contained in the CBP Resolution. Pursuant to this amendment to state law, the Council adopted a resolution on September 29, 1999 restating the CBP Resolution. On June 7, 1999, the Council also adopted a resolution computing and certifying the adjusted base proportion of each class of real property for Fiscal 2000 (the "ABP Resolution"). The above-captioned resolution amends and restates the ABP Resolution to reflect the changes in the September 29, 1999 CBP Resolution.

The current base proportion for each class of real property takes into account the market value changes in the class occurring between the assessment roll for the base period, 1989, and the latest roll for which the State Board of Real Property Services ("SBRPS") has established class equalization rates, 1998. The CBP Resolution modified the class shares for the Fiscal 2000 property tax levy accordingly. The remaining step, to be taken in the above-captioned resolution, adjusts these current base proportions to take account of the various physical changes (such as demolitions, new construction, changes in exempt status and transfers among classes) which are reflected in the new final assessment roll. The computations called for in the SBRPS procedure are designed to separate the effects of these physical changes from equalization changes made by local assessors.

The calculations shown on the SBRPS Form RP-6702 attached to the above-captioned resolution modify the share for each class to reflect physical changes. For Fiscal 2000, all classes show modest physical increases, resulting in the following changes. The Fiscal 2000 adjusted base proportion for Classes 1 and 4 show slight decreases from the Fiscal 2000 current base proportion, while the changes in the adjusted class share for Classes 2 and 3 show modest increases from the current base proportion. However, the changes from the adjusted base proportions for Fiscal 1999, as reported in the table below, show a substantial decrease of more than three percent for Class 4, but increases for the other classes of more than two percent for Classes 1 and 2, and five percent for Class 3. (Last year's increase in class shares was also capped at 2.5 percent.)

Comparison of Class Shares for Fiscal 1999 and Fiscal 2000

Class	Fiscal 1999	Fiscal 2000	Percent Change
1	12.9611	13.2574	+2.3
2	33.2198	34.0816	+2.6
3	7.0760	7.4292	+5.0
4	46.7431	45.2318	–3.2
Total	100.0000	100.000	

The tax rates resulting from the use of class shares shown above for Fiscal 2000 are compared to the Fiscal 1999 tax rates in the following table:

Comparison of Tax Rates for Fiscal 1999 and Fiscal 2000
(Per $100 Assessed Value)

Class	Fiscal 1999	Fiscal 2000	Difference
1	10.961	11.167	+.206
2	10.739	10.851	+.112
3	8.800	9.398	+.598
4	10.236	9.989	–.247

Accordingly, Your Committee recommends its adoption.

Res. No. 998

Report of the Committee on Finance in favor of approving a resolution amending and restating the resolution to provide the amounts necessary for the support of the government of the City of New York and the Counties therein and for the payment of indebtedness thereof, for the fiscal year beginning on July 1, 1999 and ending on June 30, 2000 by the levy of taxes on the real property in the city of New York, in accordance with the provisions of the Constitution of the State of New York, the real property tax law and the Charter of New York City.

The Committee on Finance to which it was referred on September 29, 1999, the annexed resolution respectfully

REPORTS:

On April 22, 1999, the Mayor submitted the executive budget for Fiscal 2000 to the Council pursuant to Section 249 of the Charter. On the date hereof, the Council adopted the budget for Fiscal 2000 pursuant to Section 254 of the Charter (the "Fiscal 2000 Budget"). Pursuant to Section 1516 of the Charter, the Council must fix the annual real property tax rates immediately upon such approval of the Fiscal 2000 Budget. In the resolution, captioned above, fixing the real property tax rates for Fiscal 2000 (the "Tax Fixing Resolution"), the Council fixes the annual real property tax rates, as described in greater detail below, and authorizes the levy of real property taxes for Fiscal 2000.

After the final adoption of the Fiscal 2000 Budget, the Governor signed into law Chapter 407, Laws of New York, 1999 ("Chapter 407"). Chapter 407 adds a new paragraph (i) to subdivision 1 of section 1803-a, Real Property Tax Law, which provides that, in any special assessing unit which is a city (a "special assessing city"), for current base proportions to be determined in such special assessing city's fiscal year 2000, the current base proportion of any class shall not exceed the adjusted base proportion of the immediately preceding year by more than 2.5 percent.

In order to effect the provisions of Chapter 407, it is necessary to amend and restate the provisions of this resolution. In the amended and restated resolution, captioned above, fixing the real property tax rates for Fiscal 2000 (the "Tax Fixing Resolution"), the Council amends and restates the annual real property tax rates, as described in greater detail below, and authorizes the levy of real property taxes for Fiscal 2000.

In the Tax Fixing Resolution, the Council determines the amount of the real property tax levy for Fiscal 2000, pursuant to the provisions of Section 1516 of the Charter, in the following manner. (1) First, the Council acknowledges the amount of the Fiscal 2000 Budget to be $35,175,374,280, as set forth in the communication from the Mayor pursuant to Section 1515(a) of the Charter (the "Fiscal 2000 Budget Amount"). (2) The Council then acknowledges the estimate of the probable amount of all non-property tax revenues to be $27,469,077,721, as set forth in the communication from the Mayor pursuant to Section 1515(a) of the Charter (the "Fiscal 2000 Revenue Estimate"). (Attached hereto as Exhibit A is a description of the Fiscal 2000 Revenue Estimate, detailing all sources of revenues exclusive of real property taxes.) (3) Pursuant to Section 1516 of the Charter, the Council finally determines the net amount required to be raised by tax on real property to be $7,706,296,559 by subtracting the amount of the Fiscal 2000 Revenue Estimate from the Fiscal 2000 Budget Amount.

In order to achieve a real property tax yield of $7,706,296,559, however, due to provision for uncollectible taxes and refunds and collection of levies from prior years equal in the aggregate to $668,004,400, the Council determines that a real property tax levy of $8,374,300,959 is required. Such amount, levied at rates on the classes of real property as further described below, will produce a balanced budget within generally accepted accounting principles for municipalities.

The Council also provides for the application of the real property tax levy (net of provision for uncollectible taxes and refunds and collection of levies from prior years) to (1) debt service not subject to the constitutional operating limit, (2) debt service subject to the constitutional operating limit and (3) the Fiscal 2000 Budget in excess of the amount of the Fiscal 2000 Revenue Estimate.

After having determined the amount of the real property tax levy, the Council authorizes and fixes the real property tax rates. On May 25, 1999, the Commissioner of the Department of Finance (the "Commissioner") delivered the certified assessment rolls for all real property assessable for taxation in the City in each borough thereof for Fiscal 2000 to the Council, pursuant to Section 1514 of the Charter (the "Fiscal 2000 Assessment Rolls"). On September 29, 1999, the Council amended and restated a resolution in which the Council computed and certified the current base proportion, the current percentage and the base percentage of each class of real property in the City for Fiscal 2000 pursuant to Section 1803-a(1), Real Property Tax Law (the "Current Base Proportion Resolution"). On September 29, 1999, pursuant to Section 1803-a, Real Property Tax Law, the Council amended and restated a resolution in which the Council adjusted the current base proportions of each class of real property in the City for Fiscal 2000, to reflect the additions to, and full or partial removal from, the Fiscal 2000 Assessment Rolls (the "Adjusted Base Proportion Resolution").

The following sections describe the determinations the Council must make before it fixes the real property tax rates and the process by which the Council fixes the real property tax rates.

Assessed Valuation Calculations. In the Tax Fixing Resolution, the Council sets out the assessed valuation calculations of taxable real property in the City by class within

each borough of the City. Next, the Council sets out the assessed valuation (1) by class of real property for the purpose of taxation (exclusive of the assessed valuation of veterans' real property exempt under state law from tax for general purposes but subject to tax for school purposes) in each borough of the City and (2) by class of veterans' real property subject to tax for school purposes in each borough of the City.

Compliance with Constitutional Operating Limit Provisions. In the Tax Fixing Resolution, the Council also provides evidence of compliance with constitutional operating limit provisions. The Council determines that the amount to be raised by tax on real property for the Fiscal 2000 Budget does not exceed the limit imposed by Section 10, Article VIII of the Constitution of the State of New York, as amended, and Article 12-A, Real Property Tax Law (the "Operating Limit Provisions"). The Operating Limit Provisions require that the City not levy taxes on real property in any fiscal year in excess of an amount equal to a combined total of two and one-half percent (2½%) of the average full valuation of taxable real property, determined by taking the assessed valuations of taxable real property on the last completed assessment roll and the four (4) preceding assessment rolls of the City and applying thereto the special equalization ratio which such assessed valuations of each such roll bear to the full valuations as fixed and determined by the State Board of Real Property Services ("SBRPS"), minus (i) the amount to be raised by tax on real property in such year for the payment of the interest on and the redemption of certificates of other evidence indebtedness described in the Constitution and (ii) the aggregate amount of business improvement district charges exclusive of debt service.

Adjusted Base Proportions. The Tax Fixing Resolution sets forth the adjusted base proportions for Fiscal 2000, pursuant to the amended and restated Adjusted Base Proportion Resolution, to be used in deter-mining the amended and restated Fiscal 2000 tax rates for the four classes of properties.

Tax Rates on Adjusted Base Proportions. Finally, in the Tax Fixing Resolution, the Council authorizes and fixes, pursuant to Section 1516 of the Charter, the rates of tax for Fiscal 2000 by class (1) upon each dollar of assessed valuation of real property subject to taxation for all purposes of, and within, the City, as fixed in cents and thousandths of a cent per dollar of assessed valuation, as follows:

All One-, Two- and Three-Family Residential Real Property	0.11167
All Other Residential Real Property	0.10851
Utility Real Property	0.09398
All Other Real Property	0.09989

and (2) upon each dollar of assessed valuation of veterans' real property exempt under state law from tax for general purposes but subject to tax for school purposes of, and within, the City, as fixed in cents and thousandths of a cent per dollar of assessed valuation, as follows:

All One-, Two- and Three-Family Residential Real Property	0.06720
All Other Residential Real Property	0.06569
Utility Real Property	0.00000
All Other Real Property	0.06054

The Council authorizes and directs the Commissioner, pursuant to Section 1517 of the Charter, to set down in the Fiscal 2000 Assessment Rolls, opposite to the several sums set down as the valuation of real property, the respective sums to be paid as a tax thereon and add and set down the aggregate valuations of real property in the boroughs of the City and send a certificate of such aggregate valuation in each such borough to the State Comptroller. The Tax Fixing Resolution then requires the City Clerk to procure the proper warrants, in the form attached thereto, such warrants to be signed by the Public Advocate and counter-signed by the City Clerk.

The amended and restated Tax Fixing Resolution would take effect as of the date of adoption.

(1) In accordance with Accounting Systems Directive No. 7 of the State Comptroller, Fiscal 2000 expenditures of the Municipal Assistance Corporation of The City of New York (MAC) have been treated only for accounting purposes of the City as if they were City expenditures. Consequently, these estimates of General Fund receipts for Fiscal 2000 do not reflect anticipated reductions in amounts to be received by the City from the four percent sales tax levied in the City by the State, from the stock transfer tax and from per capita State aid. In fact, the expenditures of MAC are to be appropriated by the State from the four percent sales tax levied in the City by the State, from the stock transfer tax and from per capita State aid otherwise payable to the City; any remaining funds from these sources are to be appropriated by the State to the City. Thus, the expenditures of MAC reduce the funds which may be appropriated and paid to the City from these sources. The presentation of MAC expenditures. instead of showing MAC expenditures as reductions in anticipated City rev-

enues. is made solely to comply with Accounting Systems Directive No. 7 and has no bearing on the statutory relationship between the City and MAC: see Section 3016 of the Public Authorities Law.

Accordingly, the Committee on Finance recommends adoption of the amended and restated Tax Fixing Resolution.

At this point the Speaker (Council Member Vallone) announced that the following item had been preconsidered by the Committee on Finance and had been favorably reported for adoption.

L.U. No. 551

Report of the Committee on Finance in favor of approving a Section 202 Supportive Housing Program for the Elderly, Alma Rangel Gardens, 43-57 West 137th Street, Manhattan, Community District No. 10, Council District No. 9.

The Committee on Finance to which it was referred on September 29, 1999, the annexed Land Use resolution respectfully

REPORTS:

Pursuant to Section 422 of the Real Property Tax Law (RPTL), the Department of Housing Preservation and Development (HPD) requests partial property tax exemptions for properties that will provide housing for very low income persons. These properties are developed under programs initiated by HPD. These projects, organized and operated by private not-for-profit Housing Development Fund Corporations (HDFC's) formed under Article XI may be granted exemptions from real property taxes by the local legislative body for a period of up to forty (40) years.

These properties are currently owned by the City, and thus pay no property taxes. Approval of the exemptions will result in partial tax payment on every property.

The City Council Land Use Committee has approved the disposition of these city-owned properties as Urban Development Action Area Projects.

The U.S. Department of Housing and Urban Development (HUD) Section 202 Supportive Housing Program for the Elderly program provides for new construction of rental units to house elderly persons of very low income. Not-for-profit sponsors organized under Article XI of state Private Housing Finance Law are chosen by HUD, and purchase City or privately owned land for the project. Construction and permanent financing of the project will be financed through a HUD capital advance and operations will be supported by a HUD rental assistance contract. The City provides a subsidy through the tax exemption to ensure affordability to the targeted income population.

Pursuant to Section 422 of the Real Property Tax Law, no taxes are paid on the land after conveyance during the term of construction (about 18 months) until the issuance of a temporary or permanent Certificate of Occupancy at which time the exemption and partial payment in lieu of taxes takes effect.

Upon issuance of the temporary or permanent Certificate of Occupancy, an exemption from property taxes will be granted for all of the value of the property in the project (except assessments for local improvements) for the period of the HUD mortgage, but no more than 40 years.

A payment in lieu of taxes of will be made to the City annually. This amount represents 10% of annual shelter rents for the project, arrived at a by a formula established by HPD and HUD. In addition, an amount equal to 25% of any annual increases in actual rents will be added, provided that such partial annual payment never exceeds 17% of contract rents or the amount that would otherwise be paid in the absence of any exemption.

Accordingly, Your Committee recommends its adoption.

In connection herewith, Council Member Berman offered the following resolution:

Res. No. 1007

Resolution approving a partial exemption from real property taxes for a property located at 43-57 West 137th Street (Block 1735, Lots 12 & 16-18), Manhattan pursuant to Section 422 of the Real Property Tax Law (Preconsidered L.U. No. 551).

By Council Member Berman:

Whereas, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council its request dated August 16, 1999 that the Council take the following action regarding a housing project to be located at 43-57 West 137th Street (Block 1735, Lots 12 & 16-18), Borough of Manhattan (the "Disposition Area"):

Approve a partial exemption of the Project from real property taxes pursuant to Section 422 of the Real Property Tax Law (the "Tax Exemption");

Whereas, the project description that HPD provided to the Council states that the purchaser of the Project (the "Sponsor") is a duly organized housing development fund company under Article XI of the Private Housing Finance Law;

Whereas, the Council held a hearing on the Project on September 29, 1999;

Whereas, the Council has considered the financial implications relating to the Project;

Resolved:

The Project shall be developed upon the terms and conditions set forth in the Project Summary that HPD has submitted to the Council, a copy of which is attached hereto.

The Council hereby grants an exemption from real property taxes as follows:

An exemption is granted from real property taxes, other than assessments for local improvements, of all of the value of the property in the housing project, including both the Disposition Area and improvements, from the date of conveyance of the land to the Sponsor until the date of issuance of the temporary or permanent Certificate of Occupancy for the housing project;

An exemption is granted from real property taxes, other than assessments for local improvements, of all of the value of the property in the housing project, (excluding those portions, if any, devoted to business or commercial use), commencing upon the date of issuance of the temporary or permanent Certificate of Occupancy for the housing project (or, if the housing project is constructed in stages, upon the date of issuance of the temporary or permanent Certificate of Occupancy for each such stage) ("Effective Date"), and terminating upon the earlier to occur of (i) the date the HUD mortgage is satisfied, or (ii) a date which is forty (40) years from the Effective Date ("Expiration Date"); provided, however, that the Sponsor shall make an annual real estate tax payment commencing upon the Effective Date and terminating upon the Expiration Date;

Commencing upon the Effective Date and during each year thereafter until the Expiration Date, the Sponsor shall make real estate tax payments in the sum of (i) $42,346, which is ten percent (10%) of the annual shelter rent for the housing project, as determined by HPD in accordance with the formula agreed upon with HUD, plus (ii) an additional amount equal to twenty-five percent (25%) of the amount by which the total contract rents applicable to the housing project for that year (as adjusted and established pursuant to Section 8 of the United States Housing Act of 1937, as amended) exceed the total contract rents which are authorized as of the Effective Date. Notwithstanding the foregoing, the total annual real estate tax payment by the Sponsor shall not at any time exceed the lesser of either (i) seventeen percent (17%) of the contract rents, or (ii) the amount of real estate taxes that would otherwise be due in the absence of any form of tax exemption or abatement provided by any existing or future local, state, or federal law, rule or regulation; and

That, in consideration of such tax exemption, the Sponsor, for so long as the partial tax exemption provided hereunder shall remain in effect, shall waive the benefits, if any, of additional or concurrent real property tax abatement and/or tax exemption which may be authorized under any existing or future local, state, or federal law, rule or regulation.

Report of the Committee on Fire and Criminal Justice Services

Res. No. 914

Report of the Committee on Fire and Criminal Justice Services in favor of filing a resolution calling upon the appropriate committee of the City Council to conduct an oversight hearing on the recruitment and hiring practices of the New York City Fire Department.

The Committee on Fire and Criminal Justice Services to which it was referred on July 21, 1999 (Minutes, page 2047) the annexed resolution respectfully

REPORTS:

In 1992, motivated by a dismal minority turnout for the written firefighter examination, the New York City Fire Department ("FDNY") undertook a greatly anticipated minority recruitment drive in an effort to increase minority participation at the next exam, which was administered in February 1999. According to testimony by First Deputy Commissioner Bill Feehan, at a City Council Civil Service and Labor Committee hearing held on October 21, 1998, a handpicked team of recruiters, living in the targeted communities, were assembled to participate in the development of a recruitment strategy for the next firefighter exam. The recruiters visited community leaders and organizations, local colleges, high schools, neighborhood athletic organizations and local churches. In addition, recruitment flyers were distributed throughout several communities, announcing the upcoming exam.

In an effort to increase minority interest in the FDNY, the Department developed a Cadet Corps program, aimed at hiring local college students as Emergency Medical Service ("EMS") workers. After completing the program, the cadets are hired as EMS workers. If they then wish to become firefighters, they are eligible to take the Firefighter promotional examination, rather than the firefighter civil exam. Those cadets who pass the exam are placed on a promotional hiring list. The promotional hiring list must first be exhausted before the Department can begin hiring from the firefighter civil exam list. In addition, for the first time, the FDNY made firefighter exam applications available on the internet and at local libraries. Furthermore, in 1994, the FDNY instituted a 5-point residency credit requirement. In an effort to strictly enforce the residency credit, eligible candidates must provide proof of city residence for at least one year.

The FDNY's recruitment efforts have had some impact on minority recruitment. For instance, since the residency requirement was implemented, minorities have accounted for 4% to 12% of all Fire Academy graduates, compared to a rate of 1% to 3% in the past.[1] However, data concerning the latest firefighter written exam, administered in February 1999, indicates that of the approximately 17,000 applicants who actually took the exam only 10% were black and 12% Hispanic.[2] These numbers represent only a small increase from the 1992 exam, which was the last time the exam was offered. Meanwhile, 74% of those who took the February 1999 exam were white, a slight increase from 73% for the 1992 exam.[3] Minority participation in the exam process is important because historically the exam is offered approximately once every five years. Accordingly, since exam results are a major factor in forming the FDNY's hiring list, the results of each exam can have an impact on hiring decisions for several years.[4]

Despite the recent improvements, the FDNY, comprised of 93.9% white firefighters, remains the least racially diverse of all New York City agencies and of all major city fire departments in the United States.[5] The FDNY currently consists of 3% black, 2.8% Hispanic and less than 0.2% Asian firefighters.[6] The FDNY falls to approach the diversity of New York City, with a population made up of 25% blacks, 28% Hispanics and 9% Asians. The FDNY's minority recruitment effort lags behind that of the Police Department, with a force comprised of 13.5% blacks, 17.1% Hispanics and 1.5% Asians, and the Department of Corrections, comprised of 59.3% blacks, 17.7% Hispanics and less than 1% Asians.[7] Furthermore, the FDNY employs a total of only 37 women firefighters; the vast majority of whom were hired as a result of a civil rights lawsuit in the early 1980's. In fact, only four women firefighters have been hired since 1982.

3 David Saltonstall, *Bravest's Hiring Under Fire,* Daily News, May 2, 1999, at 6.

Currently, the FDNY employs few minority firefighters in senior or supervisory positions. There are no black assistant, staff or deputy chiefs, only four blacks among 300 battalion chiefs, four blacks among 570 captains, and 35 black lieutenants. There are no Hispanic assistant, staff, or deputy chiefs, five Hispanic battalion chiefs, seven Hispanic captains and 26 Hispanic lieutenants. However, the Chief of the Fire Marshall Division is Hispanic, as well as former Fire Commissioner Carlos Rivera. There are presently no women assistant, staff, or deputy chiefs, no women battalion chiefs, one female captain, who was promoted in June 1999, and only two women lieutenants.[8]

The number of black firefighters in the FDNY is actually decreasing. There are currently 344 black firefighters compared to 615 in the late 1970's, when blacks constituted 4.4% of the FDNY's members.[9] The largest FDNY minority hiring followed a 1973 federal lawsuit, which resulted in a court order that one out of every three firefighters had to be from a minority. At that time, 126 black and 25 Hispanic firefighters were hired. However, the court order only remained in effect until the hiring list expired a few years later.[10] After twenty years of service, the FDNY offers a half-pay pension and many of those hired in the wake of the 1973 court order are now retired or are expected to do so in the near future. Furthermore, since the FDNY hired big classes in 1979, '80 and '81, large numbers of firefighters are expected to leave in the next several years, further depleting the number of minorities within the Department.[11]

Several theories have been raised concerning the reasons behind the FDNY's historically low minority recruitment rate. Many believe that family job tradition sets up a barrier for minorities. It has also been suggested that predominantly white suburban volunteer fire departments provide young people interested in a career in the Department.[12] In addition, some believe that recent regulation changes, which now require that 30 college credits and certified first-responder status ("CFR", includes advanced CPR and emergency case recognition) be achieved before appointment to the Department, have hampered minority participation.[13]

Several outside jurisdictions have demonstrated that a more diverse fire department is an attainable goal. In Los Angeles, where the fire department is 55% white, 11% black and 27% Hispanic, there has been a consent decree in effect since 1974, requiring the city to have a minority recruitment program for firefighters. The decree requires that minorities comprise at least 50% of every firefighter class. The consent decree expires when the fire department's racial diversity reaches parity with the general labor force. The population of Los Angeles is approximately 14% black and 40% Hispanic. It should also be noted that the Los Angeles Fire Department employs 229 women firefighters, even though they are not mentioned in the consent decree.[14]

The Miami-Dade Fire Department has increased diversity through voluntary means. In 1983, the department won a U.S. Supreme Court decision which allowed it to adopt an affirmative action plan. The affirmative action plan for racial groups ended in 1986 when the department met its goals, although it is still in effect for women. Today, the department is 55% white, 16% black, 28% Hispanic, and women make up 12% of the total.[15]

Until recently, the Seattle Fire Department utilized an affirmative action plan, but it was discontinued after voters adopted a state proposition that eliminated all affirmative action programs based on race and gender. However, since Seattle utilizes an interview-based hiring process, the department can continue to consider factors other than exam results.[16]

The Houston Fire Department has attempted to increase diversity through an emphasis on disseminating information to desired applicants. The department has a web site, which highlights their nondiscrimination policy. The site also explains the requirements for the physical test and provides strength training tips to aid in passing the test. In addition, the department has adopted year-round application filing, implemented an annual exam schedule, and hired professional recruiters.[17]

Accordingly, Your Committee recommends that this item be filed as a hearing was held today.

Report of the Committee on Governmental Operations

Res. No. 611

Report of the Committee on Governmental Operations in favor of approving and adopting a local law to amend the administrative code of the city of New York, in relation to residence requirements for certain city employees who have been employed at work sites outside the city.

The Committee on Governmental Operations to which it was referred on July 21, 1999 (Minutes, page 2041) the annexed local law respectfully

REPORTS:

Proposed Int. No. 611 adds a group of employees to section 12-121 of the New York City Administrative Code who do not need City residence as a condition of employment.

City residence shall not be required as a condition of employment for employees who have performed functions at a regular work site outside the City, where the City has reduced or terminated, or is in the process of reducing or terminating, the direct performance by City employees of such functions at such site, and the City seeks to transfer, reassign, or appoint such employees to positions located within the City.

Such provisions shall apply only where the Commissioner of Citywide Administrative Services finds that it is in the public interest to waive the residence requirement for reasons including, but not limited to, facilitating the operations of the effected agency or agencies or furthering the interests of employee relations.

The immediate effect of Proposed Int. No. 611 is to cover employees working at Camp LaGuardia, a City homeless shelter in Orange County. The City is finalizing the process of privatizing the Camp LaGuardia and turning over the operation of the facility to the Volunteers of America ("VOA") this fall.

Proposed Int. No. 611 shall take effect immediately.

FISCAL IMPACT STATEMENT:

	Effective FY00	FY Succeeding Effective FY01	Full Fiscal Impact FY00
Revenues (+)	$0	$0	$0
Expenditures (–)	$0	$0	$0
Net	$0	$0	$0

Impact on Revenues: This action does not effect revenues because non-resident employees hired by the City of New York on or after January 4, 1973 are subject to Section 1127 of the New York City Charter. They must file Tax Form NYC-1127, which mandates that they pay the same City tax regardless of where they live. As a result there would only be a loss of tax revenue if any of the current 54 employees at Camp LaGuardia who will be covered by the law were hired prior to January 4, 1973. This fiscal impact assumes there are none. Even if there were any staff hired prior to that date, the fiscal impact would be minimal.

Impact on Expenditures: None.

Accordingly, Your Committee recommends its adoption.

Int. No. 357

Report of the Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relations in favor of approving and adopting a local law in relation to a street name, Walter Jonas Judah Street, Borough of Manhattan.

The Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relations to which it was referred on July 15, 1998 (Minutes, page 2768) the annexed local law respectfully

REPORTS:

The following biographical information was provided by Dr. Theodore Cohen, Clinical Associate Professor, School of Medicine, New York University.

The Chatham Square Cemetery, located in lower Manhattan, is the burial ground of the oldest existing Jewish congregation in the United States, Congregation Shearith Israel. Amidst the weathered gravestones in this cemetery is that of Walter Jonas Judah, the first identifiable native-born Jewish student to attend an American medical school (Kings College — now Columbia University). Toward the latter part of his studies, he became involved in treating the victims of the Yellow Fever Epidemic which ravaged New York City in the summer and fall of 1798. Instead of leaving New York City as many others did, he remained and provided both his professional expertise and his own money to aid the victims. Unfortunately, while rendering these vitally needed services, Walter Jonas Judah succumbed to Yellow Fever and died at the age of 22.

Community Board No. 3 supports this street designation.

FISCAL IMPACT STATEMENT:

	Effective FY00	FY Succeeding Effective FY01	Full Fiscal Impact FY00
Revenues (+)	0	0	0
Expenditures (–)	($400)	0	($400)
Net	($400)	0	($400)

Impact on Revenues: There would be no anticipated impact on revenues resulting from the enactment of this legislation.

Impact on Expenditures: The total cost of enacting this legislation would be $400. This legislation would require four signs, which cost an average of $37.50 each, and an additional $250 for the installation of these signs.

Accordingly, Your Committee recommends its adoption.

Int. No. 532

Report of the Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relations in favor of approving and adopting a local law in relation to a plaza name, Rudy Macina Peace Memorial Plaza, Borough of The Bronx.

The Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relations to which it was referred on March 16, 1999 (Minutes, page 624) the annexed local law respectfully

REPORTS:

Rudy Macina was born in the Morris Park section of The Bronx, on January 1, 1923, to Vito and Pasqua Macina. He was educated at local schools, Public School 83, Columbus High School and Fordham Prep. Prior to World War II, in July 1941, Rudy enlisted into the United States Marine Corps. During the war he distinguished himself while fighting in, among others, the Battles of the Solomon Islands, Bouganville, and Guadalcanal, all in the South Pacific. He was reported missing in action twice and is listed in the 'Book of Marine Corps Heroes: 1861 to 1955'. For his heroism, Rudy Macina received the 'Distinguished Flying Cross' and the 'Air Medal' with three 'Gold Stars'. After World War II he remained in the military reserves for more than twenty years while rising to the rank of Sergeant Major.

After his wartime military service, Rudy returned to The Bronx and worked for his father's carting business on Williamsbridge Road. He later purchased and operated auto distributorships selling Willy's Jeeps, Nashs, Studebakers, Datsuns and Kaisers. At one point he operated the only Fiat dealership in The Bronx.

As a 'Community Activist' Rudy Macina made his first major impact when he took over The Bronx Columbus Day Parade in 1977. Prior to this, The Bronx parade had been confined to a two-block area on Arthur Avenue. Rudy organized a group of friends and they moved the parade to a one-mile area, on Morris Park Avenue, which increased crowd participation more than ten-fold. When he elevated The Bronx parade from a 'small event' to an 'extravaganza' he was recognized and praised by Columbus Day organizers throughout the City of New York.

During the 1980's Mr. Macina and his friends adopted two subway stations on the Dyre Avenue line at 'Morris Park' and 'Pelham Parkway'. With friends and volunteers he removed graffiti from these stations, painted them and otherwise provided general maintenance to keep them clean and attractive. These stations sparkled above all others on the Dyre Avenue line.

Also during the 1980's, Rudy was the driving force behind a movement to dedicate the traffic triangle at the convergence of Williamsbridge Road, Laconia Avenue and Pelham Parkway North as a Veterans memorial. Working with the Knights of Columbus and elected officials he succeeded in installing a monument at the site which is now called 'Peace Memorial Plaza'. In a related patriotic activity, Rudy had a replica of the 'Statue of Liberty' erected, and a huge representation of the raising of the colors by the Marines on Iwo Jima Island painted, on Williamsbridge Road between Lydig Avenue and Neil Avenue. He was also the President of the Columbus Alliance and a member of the Mary Queen of Peace Knights of Columbus and the Morris Park Community Association.

For his many patriotic and civic activities Rudy Macina was awarded the 'Congressional Medal of Merit', and was the recipient of the very first 'Columbus Award' presented by Columbus High School. He was also featured as the 'Guest of Honor' at events held by the YMCA and the United States Marine Corps.

Rudy Macina died on June 25, 1993 at the age of seventy. He was survived by his wife Marie and a daughter Caroline, both of the state of Hawaii, and a son Stephen, of Suffolk County, New York. For his lifetime of devotion to country, community and family, it is fitting that the intersection of Williamsbridge Road and Esplanade be named "Rudy Macina Peace Memorial Plaza" in his honor.

Int. No. 607

Report of the Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relations in favor of approving and adopting a local law in relation to a street name, St. Augustine Way, Borough of The Bronx.

The Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relations to which it was referred on July 21, 1999 (Minutes, page 2030) the annexed local law respectfully

REPORTS:

The following Information was provided by Roger Repohl, Administrative Assistant, St. Augustine Catholic Church.

St. Augustine Catholic Church, located at 1183 Franklin Avenue, is the oldest Catholic Church in The Bronx. On August 28, 1999, St. Augustine Catholic Church celebrated its 150th anniversary. St. Augustine Catholic Church plays a pivotal role in the education of the community's children; operating a highly successful school with 280 students from pre-kindergarten through eighth grade. In 1972, the parishioners founded the Bronx's first Catholic Gospel Choir which not only performs at Saint Augustine Catholic Church services but attends and performs at gospel festivals around the country.

Begun by mostly German and Irish Immigrants to the United States, Saint Augustine Catholic Church has evolved with the community, now serving a largely African-American congregation with a growing Latin membership. The congregation now includes approximately 200 English speaking families and about 100 Spanish speaking families. Spanish mass is held at 9 A.M. and English mass is held at 10:30 A.M.

Throughout the 1970's and 80's, as the Morrisania community in which Saint Augustine Catholic Church is located faced the fire and abandonment which was common to much of the southern half of the borough, Saint Augustine, under the leadership of Father Robert Jeffers, worked hard to provide spiritual and physical sustenance to its congregation and to the larger community. As a result of two weekend retreats which were held, Saint Augustine Catholic Church started the first Bronx annex of the College of New Rochelle which eventually grew too large for the Church, set up the Grace Institute which continues to provide GED and office job training programs for women and developed a housing task force to fight for the rights of tenants.

The parish also established the Augustine Leadership Program to develop leadership skills among teenagers and established the St. Augustine School of the Arts which was part of the parish school from 1985 to 1994. Saint Augustine Catholic Church also played a leading role in the establishment of South Bronx Churches, the activist Interdenominational coalition which did much to restore quality health care at Lincoln Hospital and reverse the abandonment of rental housing in the area.

The social mission of the Church has been further strengthened by its current pastor, the Reverend Keith Outlaw, who came to Saint Augustine Catholic Church in 1994. The following year he founded the Saint Augustine Social Concerns Committee to minister to the spiritual and physical needs of people in the Morrisania community.

Under the leadership of Joseph Mendy, the ministry's most dramatic success has been its food pantry, which currently provides nutritionally balanced packages of canned and dried foods to 150 people weekly in addition to delivering around the clock emergency food. The program has expanded to include a food pantry at Saint Jerome Church in the Mott Haven section of The Bronx which is now providing 60 meals a week.

Report of the Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relations in favor of approving and adopting a local law in relation to a corner name, Holocaust Memorial Corners, Borough of Queens.

The Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relations to which it was referred on July 21, 1999 (Minutes, page 2041) the annexed local law respectfully

REPORTS:

The following information was provided by The Simon Wiesenthal Center, the United States Holocaust Memorial Museum and Yad Vashem Holocaust Memorial Authority and Museum In Israel.

The Holocaust was the state-sponsored, systematic persecution and annihilation of European Jewry by Nazi Germany and its collaborators between 1933 and 1945. In 1933 approximately nine million Jews lived in the 21 countries of Europe that were to be occupied by Germany during World War II. By 1945 two out of every three European Jews had been killed. Jews were the primary victims — six million were murdered, but Roma (Gypsies), the handicapped and Poles were also targeted for destruction or decimation for racial, ethnic or national reasons. Millions more, including Soviet prisoners of war, political dissidents, homosexuals and Jehovah's Witnesses suffered grievous oppression and death under Nazi tyranny.

"Nazi" is a short term for the National Socialist German Workers Party, a right-wing political party formed in 1919 primarily by unemployed German veterans of World War I. Adolf Hitler became head of the party in 1921 and in 1933 the Nazi Party assumed power in Germany and Adolf Hitler was appointed Chancellor.

The Nazis believed that Germans were "racially superior" and that there was a struggle for survival between them and "inferior races". Jews, Roma and the handicapped were seen as a serious biological threat to the purity of the German "Aryan" Race and therefore had to be exterminated. The Nazis blamed the Jews for Germany's defeat in World War I, for its economic problems and for the spread of Communist parties throughout Europe. Slavic peoples (Poles, Russians and others) were also considered to be "inferior" and destined to serve as slave labor for the German master race. Communists, Socialists, Jehovah's Witnesses, homosexuals and Free Masons were persecuted, imprisoned and often killed on political and behavioral, rather than racial, grounds. Millions of Soviet Prisoners of War perished from starvation, disease and forced labor or were killed for racial and political reasons.

In Europe, rampant anti-Semitism incited citizens of many German occupied countries to collaborate with the Nazis in their genocidal policies. There were, however, individuals and groups in every occupied nation who, at great personal risk, helped hide those targeted by the Nazis. One nation, Denmark, saved most of its Jews in a nighttime rescue operation in 1943 in which Jews were ferried in fishing boats to safety in neutral Sweden.

Int. No. 632

Report of the Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relations in favor of approving and adopting a local law in relation to a street name, George Meany Boulevard, Borough of Queens.

The Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relations to which it was referred on September 9, 1999 (Minutes, page 2205) the annexed local law respectfully

REPORTS:

Portions of the following biographical information were provided by the American Federation of Labor and Congress of Industrial Organizations (AFL-CIO).

George Meany was born in New York City on August 16, 1894. His parents were Michael Meany, a plumber and one-time President of Plumbers Union Local No. 2, and Ann (Cullen) Meany.

At the age of 16 he became an apprentice plumber. From 1922 to 1934 he was business representative of the Plumbers Union Local No. 463 in New York City. In 1933 he was issued a Master Plumbers License.

George Meany served as President of the New York State Federation of Labor from 1934 to 1939 when he became Secretary-Treasurer of the American Federation of Labor (AFL).

During World War II he was a member of the National War Labor Board and represented the AFL on the President's Committee to draw up a wartime labor policy. He also served on a special committee consulted regularly by President Roosevelt on labor-management problems during the war.

In 1952, following the death of William Green, George Meany became President of the AFL.

George Meany helped to bring about the merger of the AFL and the Congress of Industrial Organizations (CIO) in 1955, after 20 years of division and bitter rivalry. The merger was Meany's first announced goal after becoming President of the AFL and is considered to be his major achievement.

Actively anti-Communist, he supported United States involvement in the conflict in Southeast Asia. He urged labor leaders to remain neutral in the 1972 Presidential election although he had usually supported the candidates of the Democratic Party. This position is credited with contributing to President Richard Nixon's landslide victory. In 1973, however, he opposed the administration's wage and economic policies and, following the Watergate revelations, called for the Impeachment of President Nixon. A supporter of Jimmy Carter for President in 1976, Meany later denounced President Carter's economic policies.

George Meany served as a United States delegate to the United Nations in 1957 and 1959.

George Meany married Eugenia McMahon in 1919. They had three daughters. For many years a resident of The Bronx, George Meany later resided in Bethesda, Maryland.

Among the many honorary degrees and awards presented to George Meany was the Presidential Medal of Freedom in April of 1963.

George Meany died in 1980.

Res. No. 992

Resolution recognizing October, 1999 as Breast Cancer Awareness Month in the City of New York.

By The Speaker (Council Member Vallone) and Council Members Robles, Berman, Boyland, Malave-Dilan, Espada, Henry, Lopez, Nelson, Perkins, Reed, Rodriguez, Abel and Golden; also Council Members DiBrienza, Eisland, Fisher, Koslowitz, Lasher, Leffler, Michels, O'Donovan, Pinkett, Povman, Provenzano, Quinn, Watkins, White, Wooten and Ognibene

Whereas, According to the American Cancer Society, breast cancer is the most common form of cancer among women, excluding skin cancers; and

Whereas, Statistics show that 80 percent of women diagnosed with breast cancer have no known risk factors; and

Whereas, Although all women are at risk to develop breast cancer, that risk increases with factors such as age, a family history of breast cancer, and having a first child after the age of 30; and

Whereas, The American Cancer Society estimates that 175,000 women will be diagnosed with breast cancer this year, and that 43,300 will die; and

Whereas, According to the American Cancer Society, an estimated 1,300 new cases of breast cancer will be diagnosed among men, and of those, 400 will die; and

Whereas, Among women 30-69 years of age, African Americans have the highest age-adjusted mortality rates for breast cancer of any racial/ethnic group in the United States; and

Whereas, According to the American Cancer Society, mammography screening is the best known method of early detection; and

Whereas, The early detection of breast cancer will provide patients with a greater chance of survival and more treatment options; and

Whereas, Monthly breast self-examinations and regular clinical examinations by a health care professional are also important components of a breast care program; and

Whereas, If detected and treated early, breast cancer has a five year survival rate of over 95 percent; and

Whereas, Mammography is extremely valuable because it can identify breast abnormalities that may be cancer at an early stage before physical symptoms develop; and

Whereas, The American Cancer Society recommends that asymptomatic women should have a screening mammogram by age 40 and that women over 40 should have a mammogram every year; and

Whereas, During National Breast Cancer Awareness Month, many mammography facilities offer special programs, including extended hours and lower fees; and

Whereas, In the budget for Fiscal Year 2000, the City Council restored one million dollars to continue breast cancer outreach and services in the targeted areas of Harlem Hospital, Kings County Hospital, Queens Hospital Center and Woodhull Hospital; and

Whereas, In addition, the Council earmarked $250,000 for the American Cancer Society to support Breast Health Partnerships throughout New York City; and

Whereas, These partnerships supply low cost/free comprehensive breast and cervical cancer screening services (breast exams, mammograms, breast health education, pelvic exams and pap tests) to women who are underserved, underinsured or uninsured; and

Whereas, By highlighting this very important issue, we hope that more women will be made aware of this disease and take an active role in ensuring their health by following the guidelines set forth by the American Cancer Society; *now, therefore, be it*

Resolved, That the Council of the City of New York recognizes October, 1999 as Breast Cancer Awareness Month in the City of New York.

Adopted.

Res. No. 993

Resolution recognizing the month of October, 1999 as "Italian Heritage and Culture Month" in the City of New York and acknowledging the tremendous contributions that Italian-Americans have made to this City and nation.

By The Speaker (Council Member Vallone), Council Members Berman, Malave-Dilan, Lopez, Nelson, Perkins, Reed, Robles, Abel and Golden; also Council Members DiBrienza, Eisland, Fisher, Koslowitz, Lasher, Leffler, Marshall, Michels, Miller, O'Donovan, Pinkett, Povman, Provenzano and Ognibene.

Whereas, This October, the New York Historical Society and the John D. Calandra Italian-American Institute of Queens College/CUNY will present a landmark exhibit, "The Italians of New York: Five Centuries of Struggle and Achievement" which will chronicle the Italian-American experience in this great City; and

Whereas, The focus of this monumental exhibit also serves as this year's theme for Italian Heritage and Culture Month and will undoubtedly raise awareness of the extent of the Italian contribution to the City of New York, which began in the days when Giovanni da Verrazzano sailed through the Narrows in 1524 and continues through today, when Italian-Americans are visible in every facet of society; and

Whereas, Italian-Americans are intrinsic to the history and contemporary life of New York City, having contributed to the development of the City before there even was such a city, but particularly in the past century, when Italian immigrants passed through Ellis Island in record numbers to enjoy the promise of the new world, the achievements have been vast and constant; and

Whereas, New York's political lineage alone would indicate the breadth of influence that Italian-Americans have had on this City but to end there would only tell a small part of this fascinating story; local commerce, Wall Street, law enforcement, education, medicine, philanthropy, law, social services, music, literature, entertainment and the fine arts are just some of the fields in which Italian-Americans have made tremendous inroads; and

Whereas, According to the Calandra Institute, in 1910 there were approximately 340,000 Italian-born residents in New York City and by 1940, that number climbed to one million, which at the time was almost as large as the population of Rome; and

Whereas, New York City was the choice destination for the majority of Italian immigrants and throughout the century, they carved out enclaves in all five boroughs, whether it was Mulberry Street in Manhattan, Arthur Avenue in The Bronx or the many neighborhoods of Brooklyn, Queens and Staten Island; and

Whereas, Today, we can walk around the boroughs in awe of the buildings, bridges and tunnels that Italian-Americans helped to build and the dizzying number of fine restaurants and shops that Italian families have run for generations; and

Whereas, We feel the presence of Italy in our everyday lives and now, as we near the end of the "American Century," we should be reminded of the many people who have helped to make it a New York Century as well; this month, we pay homage to one of our oldest communities, the Italian-American community, and look back at the history of a people—our people, our city; *now, therefore, be it*

Resolved, That the Council of the City of New York recognizes the month of October, 1999 as "Italian Heritage and Culture Month" in the City of New York and acknowledges the tremendous contributions that Italian-Americans have made to this City and nation.

Res. No. 994

Resolution recognizing October, 1999 as Domestic Violence Awareness Month

By The Speaker (Council Member Vallone) and Council Members Eldridge, Berman, Boyland, Malave-Dilan, Espada, Linares, Lopez, Nelson, Perkins, Reed, Robles, Abel, Golden and the Public Advocate (Mr Green); also Council Members DiBrienza, Eisland, Fisher, Koslowitz, Lasher, Leffler, Marshall, Michels, Miller, O'Donovan, Pinkett, Povman, Provenzano, Quinn, Watkins, White, Wooten and Ognibene

Whereas, Domestic violence is defined as behavior which involves physical, sexual, economic or emotional abuse, either alone or in combination, by an intimate partner for the purpose of establishing and maintaining power; and

Whereas, The origins of domestic violence can be found in social, legal and cultural norms, some historical and some current; and

Whereas, According to the National Victim Center ("NVC"), it is estimated that six million women are assaulted by a male partner each year and of these, 1.8 million are severely assaulted;

Whereas, The NVC concludes that domestic violence is the single greatest cause of injury to women ages 15-44 and the leading cause of death among black women under the age of 40; and

Whereas, According to the NVC, between 15 to 25 percent of pregnant women are battered, and in homes where spousal abuse occurs, children are abused at a rate 1500 percent higher than the national average; and

Whereas, Statistics provided by the NVC indicate that each year domestic violence causes approximately 100,000 days of hospitalization, 28,700 emergency room visits and 39,900 physician visits with this violence costing the nation an estimated 5 to10 billion dollars per year; and

Whereas, Statistics show that violence in lesbian relationships occurs at approximately the same frequency as violence in heterosexual relationships; and

Whereas, It is also estimated that there are approximately 500,000 gay male victims of domestic violence annually; and

Whereas, Although the rate of violent crime in New York City has decreased, the rate of domestic violence homicides has not; and

Whereas, Domestic violence is an insidious crime with its core embedded so deeply in society that fundamental changes in attitudes and values are desperately needed; and

Whereas, New Yorkers can stand up and lead the way in making such fundamental changes by making a committed effort to setting positive examples with their own families; *now, therefore, be it*

Resolved, That the Council of the City of New York recognizes October, 1999 as Domestic Violence Awareness Month.

Adopted.

Res. No. 995

Resolution recognizing October, 1999 as Sudden Infant Death Syndrome Awareness Month in the City of New York.

By the Speaker (Council Member Vallone) and Council Members Robles, Berman, Boyland, Malave-Dilan, Espada, Linares, Lopez, Nelson, Perkins, Reed, Abel and Golden; also Council Members DiBrienza, Eisland, Koslowitz, Lasher, Leffler, Marshall, Michels, Miller, O'Donovan, Povman, Provenzano, Quinn, Watkins, White, Wooten and Ognibene.

Whereas, Sudden Infant Death Syndrome (SIDS) is the sudden death of an infant under the age of twelve months, which remains unexplained after a case investigation, including the performance of a complete autopsy, an examination of the death scene, and a review of the clinical history; and

Whereas, SIDS claims its young victims during their sleep, striking babies who appear to be healthy; it is believed to be responsible for more deaths than any other cause of death during childhood, claiming 150,000 victims in the United States in this generation alone, which is nearly 3,000 babies each year; and

Whereas, Scientists and researchers have been unable to determine the cause or causes of SIDS but are making great progress in identifying factors that increase the risk of SIDS; and

Whereas, In 1992, the American Academy of Pediatrics (AAP) first recommended that infants be placed to sleep on their backs to reduce the risk of SIDS in addition to advising that parents utilize a firm mattress in a safety-approved crib for their babies, eliminate pillows and comforters from the baby's sleep environment, keep their baby's face and head clear of blankets and other coverings during sleep, and provide a smoke-free environment for their babies; and

Whereas, Over the course of the past six years, the SIDS Alliance, in cooperation with the U.S. Public Health Service and the American Academy of Pediatrics, has launched the "Back to Sleep"campaign, a nationwide initiative, the purpose of which is to reduce the number of SIDS deaths through public awareness and education regarding risk reduction strategies; and

Whereas, The "Back to Sleep" initiative is credited for bringing about a 43% reduction in SIDS death rates from 1992 to 1997, the equivalent of saving 2,000 babies' lives each year; additionally, the prevalence of babies sleeping on their backs has increased from 13% in 1992 to 53% in 1997; and

Whereas, According to the SIDS Alliance, it is estimated that African American babies are 21/2 times more likely to die of SIDS than the general population; and

Whereas, This October there will be an intensive local SIDS awareness campaign for the New York metropolitan area, which will target young, low income, minority mothers and caregivers; and

Whereas, There will also be a series of public service announcements on television, in print and on the radio, as well as the creation of billboards, buscards and other public transit advertisements; and

Whereas, The SIDS Alliance also plans to implement a community based education outreach program which will include public speaking engagements arranged in cooperation with churches, community centers, free health clinics, high schools and other key social service agencies; *now, therefore, be it*

Resolved, That the Council of the City of New York recognizes October, 1999 as SIDS (Sudden Infant Death Syndrome) Awareness Month in the City of New York.

Whereas, on June 7, 1999, the Council adopted a resolution in which the Council computed and certified the current base proportion, the current percentage and the base percentage of each class of real property in the City for Fiscal 2000 pursuant to Section 1803-a (1), Real Property Tax Law (the "Current Base Proportion Resolution");

Whereas, after the June 7th adoption of the Current Base Proportion Resolution, Section 1803-a, Real Property Tax Law, was amended to lower the percent of increase in the current base proportion as compared with the previous year's adjusted base proportion to 2.5 percent; and

Whereas, pursuant to the amendment to Section 1803-a, Real Property Tax Law, on September 29, 1999 the Council adopted a resolution computing and certifying the base percentage, current percentage and current base proportion of each class of real property for Fiscal 2000 to the SBRPS pursuant to Section 1803-a, Real Property Tax Law;

Now, Therefore, *be it resolved* by The Council of The City of New York as follows:

Res. No. 999

Resolution condemning the massacre at the Wedgwood Baptist Church in Texas, expressing outrage at the recent spate of attacks by gunmen which appear to target religious institutions or people because of their religious beliefs, and offering solidarity and support to the Fort Worth and Baptist communities.

By Council Members Berman, Leffler, Povman, Eisland, Nelson, Lasher, Koslowitz, Fisher, Michels, Dear, DiBrienza, Henry, Lopez, Marshall, Perkins, Reed, Robles, Rodriguez, Abel and Golden; also Council Members McCaffrey, Provenzano, Quinn, Watkins and White

Whereas, On September 15, 1999 a gunman burst into the Wedgwood Baptist Church in Fort Worth, Texas and opened fire on those attending a youth service at the church; and

Whereas, According to news reports, 150 teens were gathered in the church that evening to pray, celebrate their faith, and express their concerns for the problems facing society; and

Whereas, The gunman, who was carrying a semiautomatic handgun, killed seven members of the congregation, including two fourteen year old girls and two boys, ages fourteen and seventeen, and wounded seven others before killing himself, and

Whereas, A pipe bomb, assumed to have been planted by the gunman, also exploded inside the Church's sanctuary; and

Whereas, News reports indicate that the gunman made disparaging remarks about the beliefs of the worshippers during the rampage; and

Whereas, This shooting appears to be part of a trend of gun violence linked with hatred toward groups for their religious beliefs, and follows the August shooting at a Jewish Community Center's day care facility in Los Angeles by a white supremacist who apparently targeted the center because of the religious beliefs of its members, a July killing spree by another white supremacist in the Midwest who targeted Orthodox Jews and killed a black man and an Asian man, and the April shooting at Columbine High School at which one of the teens killed was reportedly questioned about her religious beliefs prior to being shot; and

Whereas, This tragedy occurs during a time in which such shooting rampages appear to be occuring with greater frequency, as well as during a period in which hate crimes are reportedly increasing throughout our nation; *now, therefore, be it*

Resolved, That the Council of the City of New York condemns the massacre at the Wedgwood Baptist Church in Texas, expresses outrage at the recent spate of attacks by gunmen which appear to target religious institutions or people because of their religious beliefs, and offers solidarity and support to the Fort Worth and Baptist communities.

Whereas, A recent pest alert issued by the United States Department of Agriculture indicates that the Asian Longhorned Beetle (Anoplophora Glabripennis) "has been discovered attacking trees in the United States. Tunneling by beetle larvae girdles tree stems and branches. Repeated attacks lead to dieback of the tree crown and, eventually, death of the tree."; and

Whereas, Identifying the source of the Asian Longhorned Beetle infestations in this country, the United States Department of Agriculture pest alert also indicates that the Asian Longhorned Beetles "probably travelled to the United States inside solid wood packing material from China. The beetle has been intercepted at ports and found in warehouses throughout the United States."; and

Whereas, In the United States, the Asian Longhorned Beetle has been found in maple species including boxelder, Norway, red, silver, sugar and sycamore maples, as well as horsechestnut, black locust, elms, birches, willows, poplars and green ash; and

Whereas, The only effective means to eliminate the Asian Longhorned Beetle is to remove infested trees and destroy them by chipping and burning; and

Whereas, To prevent further spread of the insect, quarantines have been established to avoid the spread of the Asian Longhorned Beetle to heretofore uncontaminated areas; and

Whereas, The reproductive cycle of the Asian Longhorned Beetle is described in the United States Department of Agriculture pest alert as follows:

> "Adult beetles are usually present from May to October but can be found earlier in spring or later in fall if temperatures are warm. Adults usually stay on the tree from which they emerged or they may disperse short distances to a new host to feed and reproduce. Each female is capable of laying 30 to 70 eggs. The eggs hatch in 10-15 days and the larvae tunnel under the bark and into the wood where they eventually pupate. The adults emerge from pupation sites by boring a tunnel in the wood and creating a round exit hole in the tree."; and

Whereas, Asian Longhorned Beetle infestations were first reported in the City of New York in 1996 when 1,600 trees in the Brooklyn communities of Williamsburg and Greenpoint had to be destroyed; and

Whereas, In 1998, Asian Longhorned Beetles were discovered in the Bayside and Woodside sections of Queens resulting in the destruction of more than 200 additional trees; and

Whereas, In 1999, Asian Longhorned Beetle infestations resulted in the destruction of approximately 40 more trees in the Flushing section of Queens; and

Whereas, In August of 1999, Asian Longhorned Beetles were discovered in two dozen trees in Manhattan parks located in close proximity to Central Park; and

Whereas, In an effort to stop the further spread of the Asian Longhorned Beetle, the United States Department of Agriculture is working closely with the State of New York, which has imposed a quarantine on the movement of wood out of the affected communities, and with the New York City Department of Parks and Recreation which operates a special telephone hotline to report suspected beetle infestations (1-800-201-PARK); and

Whereas, It is imperative that all of these agencies undertake a coordinated program to quickly identify, control and eradicate all Asian Longhorned Beetle infestations in the City of New York to halt the continued spread of this deadly menace; *now, therefore, be it*

Resolved, That the Council of the City of New York calls upon its appropriate Committee to hold oversight hearings on efforts being made to identify, control and eradicate infestations of Asian Longhorned Beetles in communities across the City of New York.

Whereas, The enactment of the above State Legislation requires the concurrence of the Council of the City of New York as the local legislative body; *now, therefore, be it*

Resolved, That the Council of the City of New York, in accordance with the provisions of Section 2 of Article 9 of the Constitution of the State of New York, does hereby request the New York State Legislature to enact into law the aforesaid pending bill.

Res. No. 1002

Resolution calling upon the Metropolitan Transportation Authority to change the route at the southern end of the M-20, formerly the M-10, bus line as quickly as practicable in order that children, parents and senior citizens can use the Harrison Street bus stop before the start of cold weather.

By Council Member Freed; also Council Member Sabini

Whereas, The M-20 bus, formerly the M-10, has changed its northbound route and stays on West Street (State Route 9A) past Canal Street and turns east at Spring Street to Hudson Street; and

Whereas, This change to the Spring Street route was not well received by those who depend on the bus for transportation and the Tribeca Community; and

Whereas, Officials at the Metropolitan Transportation Authority (MTA) have agreed that the Spring Street route should be abandoned, and a revised route that more closely resembles the old route should be implemented; and

Whereas, The old route required that the bus travel on West Street for only a short distance and made the turn east on Harrison Street, which is below Canal Street, and then proceed north on Hudson Street to Eighth Avenue; and

Whereas, Construction on West Street as part of the Route 9A improvements has shifted travel lanes to the west and made the present Spring Street configuration even more difficult for riders; and

Whereas, Passengers leave the sidewalk, cross several lanes disrupted by construction and walk through spaces in the Jersey barriers and then wait in a busy, unlit, highway traffic lane; and

Whereas, Buses must pick up the passengers along the Route 9A construction site; and

Whereas, MTA officials have agreed to a proposed route revision will permit buses to turn east on Harrison Street, and then north on Hudson Street; and

Whereas, This route resembles one that was previously used by the M-10 bus, and small changes in bus routes may be made without approval of the Board of the Metropolitan Transportation Authority; and

Whereas, This route change should take place expeditiously before the days grow shorter and temperatures fall as winter approaches because the present West Street route is windy and lonely; and

Whereas, Officials at the MTA want to delay this change until this winter when other route changes take effect; and

Whereas, The bus stop on Harrison Street serves the needs of the seniors who use QUEST: A Community for Life Long Learning at 99 Hudson Street; and

Whereas, The Harrison Street bus stop, also, serves the parents and children of two schools: the Early Childhood Center at Greenwich and Jay Streets, and the Washington Market School at Hudson and Jay Streets; and

Whereas, A delay in revising the route would force these individuals to walk over to the dark, windy and lonely bus stops on West Street during the fall and winter; and

Whereas, Community Board 1 has passed a resolution approving the eastbound route on Harrison Street and calling for its prompt implementation; and

Whereas, This route was in effect for years and its restoration should take place easily and quickly; *now, therefore, be it*

Resolved, That the Council of the City of New York calls upon the Metropolitan Transportation Authority to change the route at the southern end of the M-20, formerly the M-10, bus line as quickly as practicable in order that children, parents and senior citizens can use the Harrison Street bus stop before the start of cold weather.

A Local Law to amend the administrative code of the city of New York, in relation to prescribing distance requirements for off-street parking used by for-hire vehicle base stations

Be it enacted by the Council as follows:

Section 1. Subdivision b of section 19-511 of the administrative code of the city of New York, as added by local law number 51 of 1996, is amended to read as follows:

b. The operator of a base station shall provide and utilize lawful off-street facilities for the parking and storage of the licensed for-hire vehicles that are to be dispatched from that base station equal to not less than one parking space for every two such vehicles or fraction thereof. [The commission shall establish by rule criteria for off-street parking which shall include, but not be limited to, the maximum permissible distance between the base station and such off-street parking facilities and the proximity of such off-street parking facilities to residences and community facilities as defined in the zoning resolution of the city of New York.] *However, in no event shall such off-street parking be located more than three hundred feet from the base station.* A license for a new base station shall only be granted where the applicant has demonstrated to the commission prior to the issuance of such license that off-street parking facilities sufficient to satisfy the requirements of this subdivision shall be provided.

§ 2. This local law shall take effect ninety days after its enactment into law.

Res. No. 1003

Resolution calling upon the appropriate New York City agencies to coordinate a traffic safety plan in New York City that would identify intersections near senior citizen centers that are frequently used by senior citizens and require signs advising motorists to proceed cautiously.

By Council Members Nelson, Boyland, Malave-Dilan, Espada, Henry, Lopez, Perkins, Robles, Rodriguez, Watkins, Abel, Fiala, Golden and Oddo; also Council Members Carrion, Eisland, Fisher, Koslowitz, Lasher, Leffler, Marshall, McCaffrey, Michels, Miller, O'Donovan, Pinkett, Quinn and White

Whereas, The New York State Assembly and New York State Senate have passed S1048A-A3896A which awaits action by the Governor as of September 13, 1999; and

Whereas, The City Council on May 26, 1999 passed State Legislative Resolution 47 providing a home rule message for this legislation; and

Whereas, S1048A-A3896A would permit New York City to establish speed limits of between fifteen and twenty-five miles per hour on the streets of New York City for the explicit purpose of implementing traffic calming measures; and,

Whereas, Senior Citizens benefit from traffic calming measures; and

Whereas, S1048A-A3896A provides that speed limits may only be reduced if conditions require comprehensive traffic calming measures that may include signage, but are not limited only to the installation of traffic signs; and

Whereas, Senior citizens in large numbers attend senior citizens centers and live in housing for the elderly, and in naturally occurring retirement communities; and

Whereas, The 48th Councilmanic Districts as well as many other parts of the City should be studied for inclusion in revised traffic calming plans if the Governor signs S1048A-A3896A; and

Whereas, Motorists should be advised that the pedestrian traffic at specific crossings will have large numbers of senior citizens; and

Whereas, In the 48th Councilmanic District of New York City as well as many other parts of the City, senior citizens would enjoy improved safety if signs advised motorists that the street crossings are near a senior citizen center and the pedestrians at these crossings are likely to be senior citizens; and

Whereas, Even if comprehensive traffic-calming measures are inappropriate at certain intersections the City may add signs advising motorists that the street crossings are heavily used by senior citizens; *now, therefore, be it*

Resolved, that the appropriate New York City agencies coordinate a traffic safety plan in New York City that would identify intersections near senior citizen centers that are frequently used by senior citizens and require signs advising motorists to proceed cautiously.

Res. No. 1004

Resolution calling upon the Governor and the State Legislature to amend the Vehicle and Traffic Law to create enhanced penalties for illegally parking in specially designated school zones.

By Council Members O'Donovan and Oddo; also Council Members Lasher, Leffler, Pinkett and Watkins

Whereas, Many students take school buses or mass transit to their schools, and other students are driven by their parents; and

Whereas, Traffic congestion has worsened as the number of vehicles registered in New York City increase; and

Whereas, Many drivers find themselves pressed for time in the morning as they drive their children to school, and take short cuts and unnecessary risks to "beat the clock"; and

Whereas, On Staten Island, according to the *Staten Island Advance*, in June, 1999 "a crossing guard directing traffic near PS 26 in Travis was injured when she was struck by a hit-and-run driver" and in February, 1999 "a crossing guard at PS 13 in Rosebank was hit when an impatient driver ignored the guard's signal to stop;" and

Whereas, The smooth flow of traffic is impeded by illegal parking, and can lead individuals to lose their temper, grow impatient and cause people to take unnecessary risks near schools; and

Whereas, Illegal parking can limit driver's sight line and allow small children to enter traffic lanes unobserved because they are obscured by parked vehicles; and

Whereas, These safety hazards are particularly unfortunate near schools because school zones should be areas where drivers exercise a high degree of caution; and

Whereas, It is the policy of New York State to provide protection to school children and to enhance their safety near schools; and

Whereas, School zones are designated by yellow caution signs, and school crossing guards derive their power to regulate vehicle traffic from Section 1102 of the New York State Vehicle and Traffic Laws; and

Whereas, It would improve the safety of school children, if the legislature permitted a city with a population of one million or more; to designate special school zones; and

Whereas, Within the confines of these school zones, the penalties for violations of the parking law could be enhance to a maximum of $110 per violation; *now, therefore, be it*

Resolved, that the Governor and the State Legislature amend the Vehicle and Traffic Law to create enhanced penalties for illegally parking in specially designated school zones.

Res. No. 1005

Resolution calling upon the United States Senate to conduct hearings regarding the unresolved issue of the political status of Puerto Rico.

By Council Members Rivera, Malave-Dilan, Perkins, McCaffrey, Robles, Foster, Lopez, Carrion, Linares, Reed, Michels, Cruz and Espada; also Council Members Eldridge, Koslowitz, Marshall and Pinkett

Whereas, Pursuant to the Treaty of Paris, ending the Spanish-American War in 1898, the territory of Puerto Rico was ceded to the United States and became subject to this Nation's sovereignty; and

Whereas, Pursuant to the "Territorial Clause" (Article IV, section 3, clause 2) of the United States Constitution, ". . . [T]he Congress shall have power to dispose of and make all needful rules and regulations respecting the territory belonging to the United States". . . and

Whereas, In *Harris v. Rosario* (1980) and *Rodriguez v. Popular Democratic Party* (1982) the United States Supreme Court reconfirmed Congress's authority over Puerto Rico pursuant to the "Territorial Clause" and sustained Congressional rights to delegate powers of self-administration to this "commonwealth"; and

Whereas, The Governor of Puerto Rico, and the presidents of two other of its principal political parties, formally advised the United States government in January 1989 that "the People of Puerto Rico wish to be consulted as to their preference with regards to their ultimate political status. . ." (HR 856, Section 2); and

Whereas, President George Bush, in his 1989 State of the Union Address, urged Congress to authorize a federally sanctioned process that would allow the people of Puerto Rico to express their wishes regarding their ultimate political status in a Congressionally approved referendum; and

Whereas, In a plebiscite on Puerto Rico's political status, conducted under local law by the Government of Puerto Rico in November 1993, the people voted 48.6 percent for the commonwealth option, 46.3 percent for statehood, and 4.4 percent for independence; and

Whereas, President Clinton in December 1994 informed the United States Congress that he had established an "Executive Board Interagency Working Group on Puerto Rico" to review issues and coordinate policy concerning Puerto Rico, including the plebiscite results of November 1993; and

Whereas, Pursuant to the 'Territorial Clause' of the United States Constitution, Congress retains the responsibility and the authority to establish federal policy regarding the final status of Puerto Rico; and

Whereas, In January 1997, the legislature of Puerto Rico enacted "Concurrent Resolution 2" which petitioned the 105th Congress to address the democratic ambitions of the American citizens of Puerto Rico by mandating a federally sponsored plebiscite to be implemented by the end of 1998; and

Whereas, Approximately 4 million United States citizens reside on the islands of Puerto Rico, which have been subjected to the sovereignty of the United States for more than a century, making it the largest, oldest and most populous United States island territory; and

Whereas, Ultimate self-rule can only be achieved by the establishment of a political status that creates a separate nation or one that incorporates Puerto Rico into the Union as an equal partner; and

Whereas, On March 4, 1998 the United States House of Representatives passed H.R.856 Amended, which would have required a referendum to be held by December 31, 1998 on Puerto Rico's political status, for either: (1) retention of its present Commonwealth status; (2) full self-government through separate sovereignty leading to independence or free association; or (3) full self-government through United States sovereignty leading to statehood; and

Whereas, H.R. 856 was sent to the United States Senate for consideration, and was assigned to the Senate Committee on Energy and Natural Resources on March 5, 1998, where it was never passed, preventing it from becoming law and preventing the execution of a federally sanctioned plebiscite on Puerto Rican self-determination in 1998; and, *now, therefore be it*

Whereas, That the Council of the City of New York calls upon the United States Senate to conduct hearings regarding the unresolved issue of the political status of Puerto Rico.

Referred to the Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relations.

Resolution calling upon the Metropolitan Transportation Authority to promulgate rules governing the use of portable telephones on the New York City mass transit system.

By Council Members Reed, Linares, Lopez, Perkins, Warden, Golden and Oddo; also Council Members Eldridge, O'Donovan, Povman and White

Whereas, Public transportation in New York City provides transportation to individuals from all parts of the world; and

Whereas, The passengers on the New York City buses and subways are confined in close quarters for relatively short periods of time; and

Whereas, Smoking and playing of portable radios are examples of conduct that is otherwise legal, but that is illegal during the short periods of time that a passenger uses the bus or subway; and

Whereas, These rules enhance the ride and the comfort of all passengers in a manner that is comparable to other quality of life rules; and

Whereas, The comfort of all passengers requires that the Metropolitan Transportation Authority enact and enforce rules that insure that passengers will not act in such a way as to cause annoyance, alarm or inconvenience to another reasonable person; and

Whereas, A close attention to the quality of life in our mass transit system removes stress and increases the satisfaction of the users of the system; and

Whereas, A satisfied user returns to the system and in other ways gains a favorable impression of New York City; and

Whereas, Cellular phones are often used without regard for others, and in a manner that can be obnoxious or even rude; and

Whereas, Individuals using these phones, raise their voices and in other ways intrude on the comfort of others; and

Whereas, The Metropolitan Transit Authority has rules against sound production devices and engaging in nontransit activities while in subway stations or riding on buses and subways; and

Whereas, The widespread use of portable phones is a relatively new practice; and

Whereas, These devices are susceptible to abuse and need to be regulated in a manner comparable to that applied by the Metropolitan Transportation Authority to radios; *now, therefore, be it*

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Human / Client Service

PROVIDE SERVICES TO DEAF MEXICAN NATIONALS – NAQ – PIN# 071-00S-003-321 – DUE 06-23-00 AT 5:00 PM – The Department of Homeless Services intends to enter into negotiations with Lexington Vocational Services Center, Inc. to provide support and intermediary service to a special needs population known as the Deaf Mexican Nationals who currently reside in NYCHA Housing. The projected term of this contract is retroactive from January 19, 2000 to January 18, 2001 with no options to renew.

DHS will use the Negotiated Acquisition method pursuant to Sections 3-04(b)(1)(i)(D) and (ii) of the Procurement Policy Board Rules.

Any organization that believes it can provide these services in the future may contact: Suellen Schulman, Agency Chief Contracting Officer in writing at the Department of Homeless Services, 33 Beaver Street, 13th Floor, New York, N.Y. 10004 to request inclusion on the Department's bidder list to provide these services in the future.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

DEVELOPMENT TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – CSP – PIN# 071-00S003262 – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families and drop-in centers for adults. **This is an open-ended solicitation; there is no due date for submission.** Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-fourth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 5 to 30 years and the drop-in centers will be for three years with one three year option to renew.

Pursuant to Section 312(c)(1)(ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgement is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03(c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated and 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed facility location.

Any organization that believes it can provide these services may contact: Calvin Pitter, Deputy Agency Chief Contracting Officer at the Department of Homeless Services at (212) 361-8000, 33 Beaver Street 13th Flr., New York, NY 10004, to request a copy of the application, which is available for pick-up only Monday through Friday on business days between the hours of 9 a.m. to 5 p.m.

INVOCATION

Men and Women of the City Council,

Although the discovery of America may have been for a different goal, it quickly became the promise of freedom. For millions of people oppressed in the Old World it represented the dream of escaping a life of persecution.

This was culminated with the drafting of our great Constitution and the Bill of Rights guaranteeing all who crossed our shores equal opportunity to pursue a better existence.

Columbus Day should refresh within us this noble dream and exhort us to forever guard it in the hallowed halls of government. Amen.

Council Member Robles moved to spread the Invocation in full upon the Minutes.

Adoption of Minutes

Council Member Wooten moved that the Minutes of the Stated Meeting of September 9, 1999 be adopted as printed.

Dear Council Members:

In accordance with Section 107(b) of the New York City Charter, I request your approval to transfer City funds between several units of appropriation within the Board of Education and transfer funds between the Board of Education and the Pension Agency in fiscal year 1999.

This modification MN-13 will implement final fiscal year 1999 expense budget adjustments and shift funding of $10,167,612 million of the Board of Education's total pension liability from City tax-levy to reimbursable funds. The Board of Education will increase the amount of its intra-city arrangements with the Pension Agency to implement the funding.

Your approval of modification MN-13 is respectfully requested.

Very truly yours,

Robert M. Harding

REPORTS OF STANDING COMMITTEES

Reports of the Committee on Finance

At this point the Speaker (Council Member Vallone) announced that the following items had been preconsidered by the Committee on Finance and had been favorably reported for adoption.

M-648

Report of the Committee on Finance in favor of a communication from the Office of Management and Budget — Transfer of city funds between various agencies in fiscal year 2000, pursuant to Section 107(b) of the New York City Charter. (MN-1)

The Committee on Finance to which it was referred on October 13, 1999, the annexed communication respectfully

REPORTS:

At a meeting, of the Committee on Finance of the City Council of the City of New York on October 13, 1999, the Committee on Finance received a communication, dated October 12, 1999, from the Office of Management and Budget of the Mayor of The City

of New York, of a proposed request, (the "Modification"), to modify units of appropriation and transfer city funds between units of appropriation in the Fiscal 2000 Expense Budget (as defined below) pursuant to Section 107(b) of the Charter of the City of New York (the "Charter").

The Council annually adopts the City's budget covering expenditures other than for capital projects (the "expense budget") pursuant to Section 254 of the Charter. On June 8, 1999, the Council adopted the expense budget for fiscal year 2000 (the "Fiscal 2000 Expense Budget"). This modification represents a reallocation of City funds between various agencies in order to adjust the fiscal 2000 budget as passed by the City Council.

If the Mayor wishes to transfer part or all of any unit of appropriation to another unit of appropriation from one agency to another or such that the transfer results in any unit of appropriation being increased or decreased by the greater of five percent or $50,000, Section 107(b) of the Charter requires that the Mayor must first notify the Council of the proposed action. Within 30 days after the first stated meeting of the Council following receipt of such notice, the Council may disapprove such proposed action. If the Council fails to approve or disapprove such proposed action within such 30-day period, the proposed action becomes effective and the Mayor has the authority to make such transfer.

In the above-captioned resolution, the Council would approve the Modification pursuant to Section 107(b) of the Charter. Such resolution would take effect as of the date of adoption.

Accordingly, Your Committee recommends its adoption.

In connection herewith, Council Member Berman offered the following resolution:

Res. No. 1012

Resolution approving the Modification (MN-1) of units of appropriation and the transfer of City funds between agencies proposed by the Mayor pursuant to Section 107(b) of the charter of the city of New York.

By Council Member Berman:

Whereas, at a meeting of the Committee on Finance of the City Council of the City of New York (the "City Council") on October 12, 1999, the Committee on Finance received a communication from the Office of Management and Budget of the Mayor of The City of New York (the "Mayor"), of a proposed request, attached hereto as Exhibit A (the "Modification"), to modify units of appropriation and transfer city funds between various agencies in the fiscal year 2000 expense budget as adopted by the Council on June 8, 1999, pursuant to Section 107(b) of the Charter of the City of New York (the "Charter"); and

Whereas, pursuant to Section 107(b) of the Charter, the City Council has thirty (30) days after the first stated meeting of the City Council following such receipt within which to act upon the Modification;

Now, Therefore, The Council of The City of New York hereby resolves as follows:

1. ***Approval of Modification.*** The City Council hereby approves, pursuant to Section 107(b) of the Charter, the actions proposed by the Mayor as set forth in the Modification.

2. ***Effective Date.*** This resolution shall take effect as of the date hereof.

On motion of the Speaker (Council Member Vallone), and adopted, the foregoing matter was made a General Order for the day. (See ROLL CALL ON GENERAL ORDERS FOR THE DAY.)

At this point, the Speaker (Council Member Vallone) announced that the following items had been preconsidered by the Committee on Finance and had been favorably reported for adoption.

M-649

Report of the Committee on Finance in favor of a communication from the Office of Management and Budget — Appropriate new revenue of $69,549,094 million in fiscal year 1999 to the Board of Education, pursuant to Section 107(e) of the New York City Charter. (MN-12)

The Committee on Finance to which it was referred on October 13, 1999, the annexed communication respectfully

REPORTS:

At the meeting of the Committee on Finance of the City Council on October 13, 1999, the Council received a communication, from the Office of Management and Budget of the Mayor, dated September 27, 1999, of a proposed request to modify, pursuant to Section 107(e) of the Charter of the City of New York, the Fiscal 1999 Expense Budget, and the revenue estimate related thereto prepared by the Mayor on June, 8, 1998, pursuant to Section 1515(a) of the Charter.

The Council annually adopts the City's budget covering expenditures pursuant to Section 254 of the Charter. On June 8, 1998, the Council adopted the expense budget for fiscal year 1999 (the "Fiscal 1999 Expense Budget"). On June 8 1998, the Mayor submitted to the Council a revenue estimate related to the Fiscal 1999 Expense Budget.

Circumstances have changed since the Council adopted the Fiscal 1999 Expense Budget. Section 107(e) provides one mechanism for the Mayor and the Council to amend the expense budget and related revenue estimate to reflect changes in circumstances that occur after adoption of a budget. Section 107(e) permits the modification of the budget in order to create new units of appropriation, to appropriate new revenues from any source other than categorical federal, state and private funding or to use previously unappropriated funds received from any source. This modification seeks the Council's approval to appropriate new revenues of $69,549,094 in Fiscal 1999 to provide for needs in the Board of Education.

The above-captioned resolution would authorize the modifications to the Fiscal 1999 Expense Budget and related revenue estimate requested in the Communication. The resolution would also direct the City Clerk to forward a certified copy thereof to the Mayor and the Comptroller so that Mayor, the Comptroller and the City Clerk may certify the Fiscal 1999 Expense Budget as amended thereby as the budget for the remainder of the fiscal year. The above-captioned resolution would take effect as of the date adopted.

Accordingly, Your Committee recommends its adoption.

In connection herewith, Council M ıber Berman offered the following resolution:

Res. No. 1013

Resolution approving a Modification pursuant to Section 107(e) of the Charter of the city of New York.

By Council Member Berman:

Whereas, on October 13, 1999, the Committee on Finance of the City Council received a communication, dated September 27, 1999, from the Mayor's Office of Management and Budget, of a proposed request to recognize and appropriate new revenue pursuant to Section 107(e) of the Charter of the City of New York, attached hereto as Exhibit A (the "Request to Appropriate"); and

Whereas, Section 107(e) of the Charter requires the City Council and the Mayor to follow the procedures and required approvals pursuant to Sections 254, 255 and 256 of the Charter, without regard to the dates specified therein, in the case of the proposed appropriation of new revenues; and

Whereas, Section 107(e) of the Charter requires that any request by the Mayor respecting an amendment of the budget that involves an increase in the budget shall be accompanied by a statement of the source of current revenues or other identifiable and currently available funds required for the payment of such additional amounts, attached hereto as Exhibit B (together with the Request to Appropriate, the "Revenue Modification");

Now, Therefore, the Council of the City of New York hereby resolves as follows:

1. ***Approval of Modification.*** The City Council hereby approves the Revenue Modification pursuant to Section 107(e) of the Charter.

2. ***Further Actions.*** The City Council directs the City Clerk to forward a certified copy of this resolution to the Mayor and the Comptroller as soon as practicable so that the Mayor, the Comptroller and the City Clerk may certify the Fiscal 1999 Expense Budget as amended by this resolution as the budget for the remainder of the fiscal year.

3. ***Effective Date.*** This resolution shall take effect as of the date hereof.

M-650

Report of the Committee on Finance in favor of a communication from the Office of Management & Budget — Transfer City funds between several units of appropriation within the Board of Education and transfer funds between the Board of Education and the Pension Agency in fiscal year 1999, pursuant to Section 107 (b) of the New York City Charter. (MN-13)

The Committee on Finance to which it was referred on October 13, 1999, the annexed communication respectfully

REPORTS:

At a meeting of the Committee on Finance of the City Council of the City of New York on October 13, 1999, the Committee on Finance received a communication, dated September 27, 1999 from the Office of Management and Budget of the Mayor of The City of New York, of a proposed request, (the "Modification"), to modify units of appropriation and transfer city funds between units of appropriation in the Fiscal 1999 Expense Budget (as defined below) pursuant to Section 107(b) of the Charter of the City of New York (the "Charter").

The Council annually adopts the City's budget covering expenditures other than for capital projects (the "expense budget") pursuant to Section 254 of the Charter. On June 5, 1998, the Council adopted the expense budget for fiscal year 1999 (the "Fiscal 1999 Expense Budget"). This proposed modification (MN-13) would implement final Fiscal 1999 expense budget adjustments for the Board of Education and shift funding of $10,167,612 of the Board of Education's total pension liability from City tax-levy to reimbursable funds.

If the Mayor wishes to transfer part or all of any unit of appropriation to another unit of appropriation from one agency to another or such that the transfer results in any unit of appropriation being increased or decreased by the greater of five percent or $50,000, Section 107(b) of the Charter requires that the Mayor must first notify the Council of the proposed action. Within 30 days after the first stated meeting of the Council following receipt of such notice, the Council may disapprove such proposed action. If the Council fails to approve or disapprove such proposed action within such 30-day period, the proposed action becomes effective and the Mayor has the authority to make such transfer.

In the above-captioned resolution, the Council would approve the Modification pursuant to Section 107(b) of the Charter. Such resolution would take effect as of the date of adoption.

(040) Board of Education

Summary

This modification (MN-13) represents actions by the Board of Education to effectuate the year-end close of Fiscal 1999. Budget adjustments this modification include a funding shift of $10,167,612 of the Boards total pension liability from City tax-levy to reimbursable funds. These actions represent earlier requests for expense budget adjustments that were not processed by the City due to technological difficulties associated with the establishment of the City's new Financial Management System (FMS). The proposed actions shift surplus funds generated primarily in OTPS unit of appropriations to PS units of appropriations to fund additional personnel needs. These actions will re-align the City's Financial Plan with anticipated year-end close expenditures.

1. Find that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

Whereas, upon due notice, the Council held a public hearing on the Project on October 5, 1999;

Whereas, the Council has considered the land use and financial implications and other policy issues relating to the Project;

Resolved:

The Council finds that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the City of New York and that a designation of the Project as an urban development action area project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law.

The Council waives the area designation requirement of the Disposition Area as an urban development action area under Section 693 of the General Municipal Law.

The Council waives the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law.

b. The partial tax exemption granted hereunder shall terminate with respect to all or any portion of the Disposition Area if the Department of Housing Preservation and Development determines that such real property has not been, or is not being developed, used, and/or operated in compliance with the requirements of all applicable agreements made by the Sponsor or the owner of such real property with, or for the benefit of, the City of New York. The Department of Housing Preservation and Development shall deliver written notice of any such determination of noncompliance to the owner of such real property and all mortgagees of record, which notice shall provide for an opportunity to cure of not less than ninety (90) days. The U.S. Department of Housing and Urban Development (HUD) Section 202 Supportive Housing Program for the Elderly program provides for new construction of rental units to house elderly persons of very low income. Not-for-profit sponsors organized under Article XI of state Private Housing Finance Law are chosen by HUD, and purchase City or privately owned land for the project. Construction and permanent financing of the project will be financed through a HUD capital advance and operations will be supported by a HUD rental assistance contract. The City provides a subsidy through the tax exemption to ensure affordability to the targeted income population.

Pursuant to Section 422 of the Real Property Tax Law, no taxes are paid on the land after conveyance during the term of construction (about 18 months) until the issuance of a temporary or permanent Certificate of Occupancy at which time the exemption and partial payment in lieu of taxes takes effect.

Upon issuance of the temporary or permanent Certificate of Occupancy, an exemption from property taxes will be granted for all of the value of the property in the project (except assessments for local improvements) for the period of the HUD mortgage, but no more than 40 years.

A payment in lieu of taxes of will be made to the City annually. This amount represents 10% of annual shelter rents for the project, arrived at a by a formula established by HPD and HUD. In addition, an amount equal to 25% of any annual increases in actual rents will be added, provided that such partial annual payment never exceeds 17% of contract rents or the amount that would otherwise be paid in the absence of any exemption.

Res. No. 1019

Resolution approving a partial exemption from real property taxes for a property located at Gordon Street between Grove Street and Hygeia Place (Block 538, Lots 9, 11 & 12), Staten Island, pursuant to Section 422 of the Real Property Tax Law (Preconsidered L.U. No. 578).

By Council Member Berman:

Whereas, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council its request dated August 16, 1999 that the Council take the following action regarding a housing project to be located at Gordon Street between Grove Street and Hygeia Place (Block 538, Lots 9, 11 & 12), borough of Staten Island (the "Exemption Area"):

Approve a partial exemption of the Project from real property taxes pursuant to Section 422 of the Real Property Tax Law (the "Tax Exemption");

Whereas, the project description that HPD provided to the Council states that the purchaser of the Project (the "Sponsor") is a duly organized housing development fund company under Article XI of the Private Housing Finance Law;

Whereas, the Council held a hearing on the Project on October 13, 1999;

Whereas, the Council has considered the financial implications relating to the Project;

Resolved:

The Project shall be developed upon the terms and conditions set forth in the Project Summary that HPD has submitted to the Council, a copy of which is attached hereto.

The Council hereby grants an exemption from real property taxes as follows:

An exemption is granted from real property taxes, other than assessments for local improvements, of all of the value of the property in the housing project, including both the Exemption Area and improvements, from the date of conveyance of the land to the Sponsor until the date of issuance of the temporary or permanent Certificate of Occupancy for the housing project;

An exemption is granted from real property taxes, other than assessments for local improvements, of all of the value of the property in the Exemption Area, (excluding those portions, if any, devoted to business or commercial use), commencing upon the date of issuance of the temporary or permanent Certificate of Occupancy for the housing project (or, if the housing project is constructed in stages, upon the date of issuance of the temporary or permanent Certificate of Occupancy for each such stage) ("Effective Date"), and terminating upon the earlier to occur of (i) the date the HUD mortgage is satisfied, or (ii) a date which is forty (40) years from the Effective Date ("Expiration Date"); provided, however, that the Sponsor shall make an annual real estate tax payment commencing upon the Effective Date and terminating upon the Expiration Date;

Commencing upon the Effective Date and during each year thereafter until the Expiration Date, the Sponsor shall make real estate tax payments in the sum of (i) $31,410, which is ten percent (10%) of the annual shelter rent for the housing project, as determined by HPD in accordance with the formula agreed upon with HUD, plus (ii) an additional amount equal to twenty-five percent (25%) of the amount by which the total contract rents applicable to the housing project for that year (as adjusted and established pursuant to Section 8 of the United States Housing Act of 1937, as amended) exceed the total contract rents which are authorized as of the Effective Date. Notwithstanding the foregoing, the total annual real estate tax payment by the Sponsor shall not at any time exceed the lesser of either (i) seventeen percent (17%) of the contract rents, or (ii) the amount of real estate taxes that would otherwise be due in the absence of any form of tax exemption or abatement provided by any existing or future local, state, or federal law, rule or regulation; and

That, in consideration of such tax exemption, the Sponsor, for so long as the partial tax exemption provided hereunder shall remain in effect, shall waive the benefits, if any, of additional or concurrent real property tax abatement and/or tax exemption which may be authorized under any existing or future local, state, or federal law, rule or regulation.

The New York City Council Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relations held its first hearing on Resolution 945 held on September 13, 1999. Resolution 945 calls upon the U.S. Navy to vacate its training facility on the Island of Vieques. The U.S. Navy's Vice Admiral Robert Natter was invited to testify but, in lieu of testimony, submitted a statement. After hours of testimony from U.S. Members of Congress, elected and appointed officials from Puerto Rico, residents of Vieques, academic and legal experts as well as clergy representatives, the Council's committee recessed. The Council subsequently dispatched a delegation to Vieques on September 16-19 at the invitation of Vieques' Mayor, Manuela Santiago Collazo. The following report summarizes the Council Members' findings.

The island municipality of Vieques is located between the main island of Puerto Rico and the U.S. Virgin Islands. Vieques is located 6 to 8 miles off mainland Puerto Rico and is 18 miles long and 3.5 miles wide. The island has special archeological importance, as there is strong evidence of Pre-Hispanic and indigenous culture on the island. In 1930, the population of the island was 10,582. At the time, Vieques had a predominantly agrarian society with its main income coming from a sugar cane plantation and a thriving local fishing fleet.

Since 1941, the U.S. Navy has maintained a presence on the island of Vieques, Puerto Rico. Through continued land acquisition the Navy has come to control roughly 26,000 (almost 80 percent) of the island's 33,000 acres. On one end of the island is the naval base and munitions storage; on the other end is a live ammunition "bombing area". There are 9,300 civilians living on the island in a three-mile-long demilitarized zone between the naval base and the firing range. Every one of the residents of Vieques is a citizen of the United States of America.

The U.S. Navy insists that the island of Vieques provides a unique facility for land, sea, and air training exercises. Vice Admiral Robert J. Natter submitted written testimony to the Council:

> The Vieques Weapons Range on the far eastern tip of the Island of Vieques is the only place where aircraft, Navy surface ships, ground forces and personnel assigned to our East Coast Atlantic Fleet can conduct training with live ammunition under realistic conditions. . . Without access to Vieques Weapons Range, Atlantic Fleet ships, aircraft squadrons and Marines will deploy significantly degraded in their ability to meet our nation's security taskings. . . The Navy concluded that the Vieques range is essential and that no viable alternative locations and training methods currently exist that abrogate the need for Vieques.

Reports demonstrate that the U.S. Navy trains at this facility 200 days a year. It rents facilities on Vieques to countries who are members of the North Atlantic Treaty Organization (NATO) for the remainder of the year, thus making Vieques a year-round, live-fire, island training facility for as many as 16 countries.

In 1979, California Congressman, Ronald V. Dellums, chaired a panel investigating the use of Vieques as a training ground for the U.S. Navy. At the time there were judicial and legislative actions pending in regards to military presence on Vieques. In 1981, Congress issued a report that revealed that the U.S. military did indeed need a facility such as the one found on Vieques; however, the Dellums Report called for the relocation of the facility to a site other than the island of Vieques. The Congressional investigation led to a Memorandum of Understanding (MOU) in Relation to the Island of Vieques. This MOU between the U.S. Navy and the Government of Puerto Rico was signed on October 11, 1983.

The MOU focused on four areas:

Community Assistance—The Navy committed itself to making a significant effort to do what it could to achieve full employment on the island.

Land Use—The Navy committed itself to formulating, developing, and financing a reforestation program on the island.

Firing Range—The Navy committed itself to carrying out its munitions drills in the safest manner possible. It imposed restrictions on the flight patterns of aircraft, for the firing of projectiles from aircraft and fixed positions on shore, and set limits to the angle of fire for ships.

Environmental—The Navy committed itself to taking every reasonable precaution to reduce any adverse impact on the lagoons and mangroves near the targets as well as protecting the natural ecosystems and wildlife on and around the island.

Despite the fact that the Navy signed the MOU there is little evidence that the Navy has lived up to the terms of the MOU or that living standards and the quality of life have improved for the residents since the 1983 agreement.

For nearly 60 years, the challenges and problems of Vieques remained a source of contention for relations between the government of Puerto Rico and Washington, D.C. policy makers. The issue became front-page national news on April 19, 1999, when a civilian naval employee, David Sanes Rodriguez, was killed during a military training exercise on the island of Vieques. Artillery deployed by American military forces destroyed an observation post, killing Rodriguez and injuring four others. The outcry from local, national and international advocates assisted the immediate cessation of American and allied military training on the island.

The tragic accident was made worse when one month later, when U.S. military leaders acknowledged that they had several months earlier mistakenly discharged 267 rounds of depleted uranium ammunition on Vieques; a clear violation of U.S. law. After many more denials, the Navy would later further admit to using napalm on the island in 1993.

In May 1999, Hon. Pedro Rossello, Governor of Puerto Rico appointed a special 'Commission on Vieques' (the Commission) chaired by Puerto Rico's Secretary of State Norma Burgos, to study existing conditions on the island as they relate to the activities of the U.S. Navy.

Included in the Commission's recommendations was a demand that the U.S. Navy immediately and permanently cease all military activities on Vieques and the transfer, in an orderly and rapid fashion, of all property controlled by the Navy to the people of the island. A copy of the Commission's report is attached to this document.

The Council sent a delegation, led by Council Member Robles; coordinated by Council Member Lopez; and including Council Members Jose Rivera, Guillermo Linares, Martin-Malave-Dilan, Adolfo Carrion, Pedro Espada, Bill Perkins, and Angel Rodriguez, to Vieques at the invitation of Vieques' Mayor Manuela Santiago Collazo. There is unanimity among the members of the delegation that the naval presence on the island negatively impacted social, educational, health and economic progress on the island.

The quality of life for the 9,300 residents of Vieques is poor by almost any standard.

- The Population and Housing Census of 1990 found 73.3 percent of Viequenese living below the poverty line, 14.4 percent higher than the mainland population.
- The once thriving sugar cane plantation and local fishing fleet have been decimated by the naval exercises, with the base and the range overrunning the plantation and the fishing fleet at the mercy of naval vessels and live bombs in the water.
- There are 1,525 families participating in the Nutrition Assistance Program, representing approximately 45 percent of the island's population.
- There are 1,855 students enrolled in pre-school through 12th grade on the island. Low flying aircraft, and exploding munitions routinely disrupts classes in the island's 12 schools.
- There are no post-secondary educational facilities on the island and only 6.7 percent of the island's population have any education past high school compared with 14.3 percent of the mainland population.
- Vieques has the highest mortality rate of any municipality in Puerto Rico at 10.8 deaths per 1,000 residents, compared to 7.7 deaths per 1,000 inhabitants of the Commonwealth. Vieques showed an infant mortality rate of 24.5 percent in 1990. The infant mortality rate for Puerto Rico in 1990 averaged 13.4 percent.
- There is a lack of quality health care on the island. Women who are in labor need to take a ferry to Fajardo on the mainland to give birth.
- During the 1980's the risk of developing cancer on the island of Vieques reached a high of 26.9 percent—the highest risk of any municipality in Puerto Rico. Many indicators suggest that pollution on the island is the culprit. There are three main sources of pollution; 1) chemical compounds (including the use of

napalm and uranium) in the projectiles fired and stored on the island, as well as the chemical reactions that take place when these munitions decompose; 2) particles and dust that may be propelled in the atmosphere as a result of the impact or explosion of the projectile and; 3) metal debris left by projectiles upon explosion and fragmentation and scrap metal used for target practice in firing zones.

Council Members met with elected officials of Vieques, as well as with many residents of the island. They heard testimony on how the military presence has impacted the lives of the Viequenese, including injury and death caused by the ammunition on the island. One doctor testified that there were five new cancer cases discovered in the month directly prior to the Delegation's visit. The hearing was extensively covered in the local press.

Council Members also met with leaders from the three political parties in Puerto Rico: Partido Nuevo Progresista (the party that favors Statehood status for Puerto Rico); Partido Popular Democratico (the party that favors Commonwealth status for Puerto Rico; and Partido Independentista (the party that favors Independent status for Puerto Rico).

The leaders of all three parties are united in their opposition to the naval base on Vieques. This is the first time the three parties have been in agreement on any issue.

If anything, Council Members returned to New York City, more strongly committed to the passage of Resolution 945. Each member of the delegation stated that the situation in Vieques would not be tolerated if it were happening anywhere else, especially within the New York Metropolitan area. In fact, many New York City residents have family on Vieques and are deeply concerned for the safety and well-being of their relatives.

Many Council Members now approach the situation on the Island of Vieques as a humanitarian and civil rights issue. The bombing exercises have caused death, economic hardship, emotional strain and environmental disaster to American citizens on the Island of Vieques. They cite the Council's track record in standing up for humanitarian and civil rights issues around the world: from disaster relief in Italy, Greece, Turkey, Taiwan, to the boycotts of South Africa and Burma, the fight to free Soviet Jews, and the rights of Holocaust Survivors to retrieve their money from Swiss Banks. They feel the Council of the City of New York has the duty and the obligation to stand up to injustice, especially, injustice to American citizens. For these and many other reasons mentioned above, members of the delegation strongly recommend passage of Resolution 945.

The members who visited Vieques reported that with the proper investment in the island's infrastructure, an environmental clean-up, and the permanent absence of naval exercises, Vieques will be able to develop economically and socially. The Council Members concurred with the recommendations of Puerto Rico's Special Commission of Vieques that Navy should be responsible for cleaning up and decontaminating all lands, superficial or underwater, and all bodies and aquifers. There was also agreement that the Government of Puerto Rico should direct additional resources to foster economic development in Vieques, with particular focus on archaeology, agriculture, ecotourism, aquafarming and fishing activities.

Longtime residents of the island recall the striking beauty of Vieques and look to the future with hope. They point to the success of the British Virgin Islands, which measure 59 square miles compared to Vieques' 51 square mile area.

In 1996, 400,000 people visited the British Virgin Islands and spent around $267 million. Even with its excellent beaches and bioluminescent bay, only 4,000 people visit Vieques every year. The Members believe that with the proper environmental clean-up and investment in infrastructure and social services the island will flourish once again.

Res. No. 945-A

Report of the Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relations in favor of approving, as amended, a Resolution calling upon the United States Navy to vacate its training facility on the Puerto Rican Island of Vieques.

The Committee on Parks, Recreations, Cultural Affairs and International Intergroup Relations to which it was referred on August 11, 1999 (Minutes, page 2103) the annexed amended resolution respectfully

REPORTS:

The United States Navy has occupied a large portion of Vieques island since 1941 and today, through continued acquisition, controls 26,000 of the island's 33,000 acres. Vieques also has a civilian population of approximately 9,300. These civilians live on the middle portion of the island while the Navy maintains an ammunition facility on one end and conducts war maneuvers oil the other. On April 19, 1999 on Vieques a civilian naval employee, David Sanes Rodriguez, was killed during a practice bombing run. A bomb dropped from an F-18 fighter plane hit an observation post where Rodriguez was stationed instead of its intended target. In May 1999, the Navy also acknowledged that it had mistakenly discharged 267 rounds containing depleted uranium on Vieques in February of 1999. This was done in violation of United States law. In a later statement the Navy admitted, after many denials, to using napalm on the island in 1993. These events precipitated resentment against naval maneuvers on Vieques that had been festering for many years.

In May of 1999, Hon. Pedro Rossello, Governor of Puerto Rico appointed a special 'Commission on Vieques' (the Commission) chaired by Puerto Rican Secretary of State Norma Burgos, to study existing conditions on the island as they relate to the activities of the United States Navy. On June 25, 1999 'the Commission' issued its report which linked "Navy operations to the island's overwhelming poverty [50%) unemployment] devastated fishing sites, polluted beaches, and alarming cancer and mortality rates – the highest in Puerto Rico" (*Newsday* August 5, 1999). Included in the Commission's recommendations was a demand that the United States Navy immediately and permanently cease all military activities on Vieques and the transfer, in an orderly and rapid fashion, of all property controlled by the Navy to the people of the island.

Shortly after the issuance of the Commission's report, President Clinton instructed Defense Secretary William Cohen to appoint a special panel to investigate military operations on Vieques. As of the date of this writing the special panel, chaired by Undersecretary of Defense Frank Rush, has not issued a report. The United States Navy, however, has prepared its own study which concludes that realistic live ordinance weapons training at Vieques is essential to the success of genuine Navy combat missions. Opposing this position is a coalition of lawmakers and advocacy groups who feel the storage, disposal and firing of live and inert weapons of all classes, including napalm, bullets reinforced with depleted uranium and 500 pound bombs fired from jets places the residents of the island in imminent peril and exposes them to long-term health risks, including cancer, associated with exposure to radioactive materials. This coalition has, therefore, called upon President Clinton to order the immediate closure of the Navy's facilities on Vieques. At today's hearing, we expect to hear testimony from the coalition in support of Resolution No. 945.

At the Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relation's first hearing on this Resolution, held on September 13, 1999, Vice Admiral

Robert Natter of the United States Navy was invited to testify but, in lieu of testimony, submitted the statement appended to this report. Those who testified at the Committee's September 13th hearing included:

- Hon. Manuel Rodriguez Orellana –Puerto Rico Independence Party
- Congressman Jose Serrano
- Rev. Eunice Santana – Past President, World Council of Churches
- Ismael Guadalupe
- Congressman Ed Towns
- Neftali Garcia Martinez - Advisor, Vieques Committee
- Miguel Rodriguez – Turabo University
- Carlos Zenon – President, Vieques Fishing Association
- Lionel McIntyre – Urban Technical Assistance Project
- Professor Ramon Figueroa – Hunter College
- Fermin L. Arraiza Navas – Puerto Rico Law School and Puerto Rican Bar Association
- Marta Font – individual
- William Narrell – National Vice-President, National Lawyer's Guild
- Carlos Alicea – Vieques Support Campaign
- Ricardo Soto-Lopez – Environmental Justice Network

Following the September 13th hearing referred to above, a delegation of Council Members traveled to Puerto Rico to meet with governmental leaders and residents of Vieques. A report related to that fact-finding trip is appended to this report.

The amendment incorporated into proposed Res. No. 945-A provides that copies of Res. No. 945-A are to be sent to: President William Jefferson Clinton, Defense Secretary William S. Cohen, Navy Secretary John H. Dalton, Senators Daniel Patrick Moynihan and Charles E. Schumer, Congressional Representatives from New York City Gary L. Ackerman, Gregory W. Meeks, Joseph Crowley, Jerrold L. Nadler, Anthony Weiner, Edolphus Towns, Major R. Owens, Nydia M. Velazquez, Vito Fossella, Carolyn B. Maloney, Charles B. Rangel, Jose E. Serrano, Eliot L. Engel and Nita M. Lowey and Puerto Rican Governor Pedro Rossello and Lieutenant Governor Norma Burgos.

Accordingly, Your Committee recommends its adoption as amended.

Resolution calling upon the United States Navy to vacate its training facility on the Puerto Rican island of Vieques.

Whereas, Since World War II, the United States Navy has operated a training facility on the 9,300 resident Puerto Rican island of Vieques; and

Whereas, The United States Navy is in possession and control of approximately three-quarters of the island, occupying approximately 25,360 acres, which the Navy uses for munitions storage (the western 8,000 acres), practice with live weapons (the eastern 15,000 acres) and naval training, amphibious landings and other practice exercises (the contiguous seas and shore acreage); and

Whereas, The storage, disposal and firing of live and inert weapons of all classes, including napalm, bullets reinforced with depleted uranium and 500 pound bombs fired from jets travelling at high altitudes and great speed, places the residents of this island in imminent peril and exposes them to the long-term health risks, including cancer, associated with exposure to radioactive materials; and

Whereas, On April 19, 1999, a Navy pilot launched two 500 pound bombs from an FA-18 Hornet jet, missing the bombing range and, instead, hitting an Observation Post located on Cerro Matias killing one civilian and injuring four others; and

Whereas, On May 11, 1999, the Governor of Puerto Rico issued Executive Order 1999-21 appointing a Special Commission on Vieques to Study the Existing Situation on the Island Municipality with Regard to the Activities of the United States Navy ("the Commission") chaired by Puerto Rico's Secretary of State, Norma Burgos; and

Whereas, On June 25, 1999, the Commission issued its report which included in its recommendations a demand that the United States Navy immediately and permanently cease all military activities on Vieques and transfer, in an orderly and rapid fashion, all property controlled by the Navy on Vieques to its people; and

Whereas, Shortly after the issuance of the Commission's report, President Clinton appointed a Special Panel on Military Operations on Vieques, chaired by Undersecretary of Defense Frank Rush ("the Special Panel"); and

Whereas, Although the Special Panel has not to date completed its report, a study prepared for the Special Panel by the United States Navy concluded that realistic live ordinance weapons training at Vieques is essential to the success of its missions; and

Whereas, A coalition of lawmakers and advocacy groups, both on Puerto Rico and the mainland, has called upon President Clinton to order the immediate closure of the Navy's facilities on Vieques; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the United States Navy to vacate the training facility on the Puerto Rican island of Vieques; and, be it further

Resolved, That copies of this Resolution be sent to: President William Jefferson Clinton, Defense Secretary William S. Cohen, Navy Secretary John H. Dalton, Senators Daniel Patrick Moynihan and Charles E. Schumer, Congressional Representatives from New York City Gary L. Ackerman, Gregory W. Meeks, Joseph Crowley, Jerrold L. Nadler, Anthony Weiner, Edolphus Towns, Major R. Owens, Nydia M. Velazquez, Vito Fossella, Carolyn B. Maloney, Charles B. Rangel, Jose E. Serrano, Eliot L. Engel and Nita M. Lowey and Puerto Rican Governor Pedro Rossello and Lieutenant Governor Norma Burgos.

Reports of the Committee on Public Safety

Int. No. 663

Report of the Committee on Public Safety in favor of approving and adopting a local law to amend the administrative code of the city of New York, in relation to the use of safety locking devices with weapons.

The Committee on Public Safety to which it was referred on September 29, 1999 (Minutes, page 2272) the annexed local law respectfully

REPORTS:

According to a 1997 Centers for Disease Control study, the rate of firearm deaths among children up to 14 years old is nearly twelve times higher in the United States than in 25 other industrialized countries combined. The study also estimates that nearly 1.2 million unsupervised children return from school to a house that has a loaded or unlocked firearm. The rate of people killed by accidental shootings in the United States is 9 times higher than that of the 25 leading industrialized nations combined, and various gun control advocates estimate that approximately 150 children are killed each year when they pick up loaded guns and shoot themselves or playmates.[1]

In response to the problem of access to guns, the City Council in 1998 passed the current Section 10-311 of the Administrative Code, the trigger locks law, which makes it unlawful for any person or business to dispose of any pistol or revolver which does not contain a safety locking device.[2] A "safety locking device" is defined to mean a "design adaptation or attachable accessory that will prevent the use of the weapon by an unauthorized user". Such a device includes, but is not limited to, "a trigger lock, which prevents the pulling of the trigger without the use of a key, or a combination handle, which prevents the use of the weapon without the alignment of the combination tumblers". The law also requires a licensed manufacturer, importer or dealer to include with any weapon they sell, transfer or deliver, a warning regarding responsible firearms storage.

The Police Commissioner is authorized under the statute to promulgate rules establishing the types of safety locking devices that comply with the law's requirements. The Commissioner recently issued these rules and they are codified at § 4-04 of Title 38 of the Rules of the City of New York. A violation of the law's provisions is punishable by imprisonment of not more than thirty days or by a fine of not more than $500, or both.

This Committee held hearings on this legislation on February 4, 1998 and April 14, 1998 and voted to pass the bill on April 14, 1998 by a vote of 9 to 0. On April 28, 1998, the Council passed the measure by a vote of 46 to 0. The bill was signed into law by the Mayor on May 18, 1998 and is known as Christopher's Law, in memory of Staten Island resident Christopher Murphy, who died at the age of eight from an accidental gunshot wound.

Intro. 633 changes the current Section 10-311 by expanding the scope of the law to include all weapons, not just pistols and revolvers. Under the proposed legislation, weapons are defined as firearms, rifles, shotguns or assault weapons (these terms are further defined in Section 10-301 of the Administrative Code) or machine guns (as defined in Penal Law § 265).[3] The bill also mandates that any person "who applies for and obtains authorization to purchase a weapon or otherwise lawfully obtains a weapon pursuant to chapters one or three of title ten of this code shall be required to purchase or obtain a safety locking device at the time he or she purchases or obtains the weapon." Last year's hearings raised the concern that Penal Law § 400, which regulates the licensing of pistols and revolvers in the State, may preempt the City from enacting this particular provision.

2 Section 10-301(8) defines dispose of as "[t]o dispose of, give away, give, lease, loan, keep for sale, offer, offer for sale, sell, transfer and otherwise dispose of."

However, a memorandum from the Corporation Counsel indicates that these proposed amendments do not implicate the licensing provisions of Penal Law § 400 and are a proper exercise of local legislative power.

The bill further creates a new section 10-312, which mandates that a person use a safety locking device when storing a weapon. A first time offender is guilty of a violation, imprisonment of not more than ten days or a fine of not more than $250, and a person who violates the provision a second time is guilty of a misdemeanor, with a possible jail sentence of up to 30 days or a fine of not more than one thousand dollars. An increased penalty is also available for those who violate the law's provisions under circumstances involving a substantial risk of injury to others. The bill immunizes the City of New York from liability due to the use or misuse of a safety locking device, and the provisions of the legislation do not apply to weapons owned or possessed by police officers.

Other jurisdictions, such as Chicago, San Francisco, Sacramento, San Jose, Connecticut and Massachusetts, have some type of trigger locks legislation. A provision mandating that trigger locks be sold with any handgun was part of a gun control bill that passed the U.S. Senate in May of this year and was also part of a gun control package contemplated by the House of Representatives in June. The House bill was defeated because of other provisions, most notably requirements regarding background checks at gun shows, and the Senate and House are currently negotiating the parameters of a gun control bill. It is not clear at this time whether a trigger locks provision will be a part of the federal legislation.

New York State presently has no law requiring trigger lock devices. Legislation that would make it a crime to negligently store a weapon has been pending in the State Legislature since at least 1995. Although the bill, entitled the "Children's Weapon Accident Prevention Act", has been passed several times by the Assembly, it has not been adopted by the Senate.

This legislation would take effect 90 days after its enactment.

[3] Administrative Code Section 10-301's definition of firearms includes pistols and revolvers.

FISCAL IMPACT STATEMENT:

	Effective FY 2000	FY Succeeding Effective FY 2001	Full Fiscal Impact FY 2000
Revenues (+)	undetermined	undetermined	undetermined
Expenditures (–)	0	0	0
Net	undetermined	undetermined	undetermined

Impact on Revenues: Violators of the legislation would be subject to fines of up to $1,000. However, because it is unclear how many individuals annually would be discovered to be in violation of the law and formally charged, it is impossible to determine at this time the amount of revenue which would be collected.

Impact On Expenditures: It is anticipated that the enforcement of this legislation can be accomplished with existing Police Department resources.

Accordingly, Your Committee recommends its adoption.

Report of the Committee on Transportation

Int. No. 625

Report of the Committee on Transportation in favor of approving and adopting a local law in relation to the approval of a determination by the Taxi and Limousine Commission to approve an application by 3 Brothers Car Service, Inc. for license to operate a new base station in the borough of Brooklyn.

The Committee on Transportation to which it was referred on September 9, 1999 (Minutes, page 2190) the annexed local law respectfully

REPORTS:

Pursuant to Local Law 51 of 1996 the Council has the authority to review determinations by the Taxi and Limousine Commission (TLC) to approve applications for base station licenses, including renewals of such licenses. The Council may, within ninety days after the first Stated Meeting following receipt of such a determination, "call up" a determination for review by passing a resolution and either approve or disapprove that determination by passing a local law. The Council called up the base station in Resolution No. 964 which was passed by the Council on September 9, 1999.

Res. No. 964 invoked the Council's authority to review the determination by the Taxi and Limousine Commission to approve an application by 3 Brothers Car Service Inc. for a license to operate a new base station at 316 Ralph Avenue in the borough of Brooklyn.

Int. No. 625 would approve the determination by the Taxi and Limousine Commission to permit 3 Brothers Car Service Inc. to operate a new base station.

FISCAL IMPACT STATEMENT:

	Effective FY 00	FY Succeeding Effective FY 01	Full Fiscal Impact FY 00
Revenues (+)	$500	$500	$500
Expenditures (–)	$0	$0	$0
Net	$500	$500	$500

Impact on Revenues: This legislation would give 3 Brothers Car Service, the authority to operate a base station in the borough of Brooklyn. Revenues are derived from licensing fees. The annual license fee would be $500.00 per base station.

Impact on Expenditures: There would be no impact on expenditures as a result of this law.

Accordingly, Your Committee recommends its adoption.

Int. No. 637

By Council Member Dear

A LOCAL LAW to amend the administrative code of the city of New York, in relation to the time permitted for service of a violation issued for meter-tampering and the time permitted for notification of a suspension, or a determination to seek suspension or revocation, of a taxicab or for-hire vehicle license

Be it enacted by the Council as follows:

Section 1. Subdivision g of section 19-507.1 of the administrative code of the city of New York, as added by local law number 20 for the year 1999, is amended to read as follows:

g. Any violation issued to a taxicab driver or owner for meter-tampering shall be served on the licensee by personal delivery or by certified and regular mail within [five] *fifteen* calendar days of its issuance. The licensee shall have an opportunity to request a hearing before the commission or other administrative tribunal of competent jurisdiction within ten calendar days after receipt of any such notification. Upon request such hearing shall be scheduled within ten calendar days. If the tenth day falls on a Saturday, Sunday or holiday, the hearing may be held on the next business day. A decision shall be made with respect to any such proceeding within sixty calendar days after the close of the hearing. In the event such decision is not made within that time period, the license or medallion which is the subject of the proceeding shall be returned by the commission to the licensee and deemed to be in full force and effect until such determination is made. It shall be an affirmative defense to any violation for meter-tampering issued to a taxicab driver or owner that such person (i) did not know of or participate in the alleged meter-tampering and (ii) exercised due diligence to ensure that meter-tampering does not occur.

§ 2. Section 19-512.1 of the administrative code of the city of New York, as added by local law number 20 for the year 1999, is amended to read as follows:

§ 19-512.1 Revocation of taxicab licenses. a. The commission may, for good cause shown relating to a threat to the public health[,] or safety, and prior to giving notice and an opportunity for a hearing, suspend a taxicab or for-hire vehicle license issued pursuant to this chapter and, after notice and an opportunity for a hearing, suspend or revoke such license. The commission may also, without having suspended a taxicab or for- hire vehicle license, issue a determination to seek suspension or revocation of that taxicab or for-hire vehicle license and after notice and an opportunity for a hearing suspend or revoke such license. Notice of such suspension or of a determination by the commission to seek suspension or revocation of a taxicab or for-hire vehicle license shall be served on the licensee by personal delivery or by certified and regular mail within [five] *fifteen* calendar days of the pre-hearing suspension or of such determination. The licensee shall have an opportunity to request a hearing before the commission or other administrative tribunal of competent jurisdiction within ten calendar days after receipt of any such notification. Upon request such hearing shall be scheduled within ten calendar days, unless the commission or other administrative tribunal of competent jurisdiction determines that such hearing would be prejudicial to an ongoing criminal or civil investigation. If the tenth day falls on a Saturday, Sunday or holiday, the hearing may be held on the next business day. A decision shall be made with respect to any such proceeding within sixty calendar days after the close of the hearing. In the event such decision is not made within that time period, the license or medallion which is the subject of the proceeding shall be returned by the commission to the licensee and deemed to be in full force and effect until such determination is made, unless the commission or other administrative tribunal of competent jurisdiction determines that the issuance of such determination would be prejudicial to an ongoing criminal or civil investigation.

b. It shall be an affirmative defense that the holder of the taxicab or for-hire vehicle license or the owner of the taxicab or for-hire vehicle has (1) exercised due diligence in the inspection, management and/or operation of the taxicab or for-hire vehicle and (2) did not know or have reason to know of the acts of any other person with respect to that taxicab or for-hire vehicle license or taxicab or for-hire vehicle upon which a suspension, proposed suspension or proposed revocation is based. With respect to any violation arising from taximeter tampering, an owner's due diligence shall include, but not be limited to, those actions set forth in subdivision h of section 19-507.1 of this chapter. Any pre-hearing suspension period shall be counted towards [any] *the* suspension period made in any final determination.

§ 3. This local law shall take effect immediately.

Res. No. 1010

Resolution condemning the recent statements made by Mr. Herman Badillo, as Chairman of the City University of New York (CUNY) Board of Trustees.

By Council Members Linares, Marshall, Lopez, Perkins, Reed, Rivera, DiBrienza, Cruz, Espada, Freed, Koslowitz, Miller, Quinn and Rodriguez; also Council Members Boyland, Lasher, O'Donovan and Robinson

Whereas, The Board of Trustees of CUNY is the governing body of public higher education; and

Whereas, Herman Badillo is the Chairman of such board, which is charged with formulating policies; and

Whereas, On September 23, 1999, the New York Post reported that Mr. Badillo made comments at the Center for Education Innovation (CEI) luncheon about Mexican and Dominican immigrants which offended various Latino civic organizations; and

Whereas, Mr. Badillo, then referring to new immigrant students, reportedly commented, "They're Incas and Mayas, little people with straight hair. And when they speak of 'La Raza' they don't speak Spanish, they speak in indigenous languages," adding that they should be in "separate classes"; and

Whereas, In a transcript of Mr. Badillo's comments at the CEI luncheon, provided by the Puerto Rican Legal Defense and Education Fund, the Chairman commented that East Harlem ". . .is supposed to be a Puerto Rican area, it's all Mexicans. And the problem is that in Mexico and Central America, there never has been a tradition of education. . . .there's new immigration going on in New York city, of hundreds of people, who are neither African American, nor European."; and

Whereas, Mr. Badillo also added, "I don't believe there's a falling birth rate. . . particularly those who come who are illegal aliens, who are undocumented people. . . is they get married and they have children right away. And I'll tell you why. And maybe you wondered why Immigration doesn't conduct a raid in the areas where it's known there are many people without documents. The reason for that is Immigration can arrest the father or the mother but they can't arrest the kids because the kids are American citizens, and Immigration doesn't have day-care centers. . ."; and

Whereas, These comments do not appear isolated, as indicated by Mr. Badillo's statement, "I've been trying to get The New York Times to publish a story for over a year now about the extent of migration of Mexicans and Dominicans."; and

Whereas, Mr. Badillo's statements are offensive, divisive and prejudicial against two of the fastest growing communities, Dominican and Mexican, in the City of New York; now, therefore, be it

Resolved, that the Council of the City of New York condemns the recent statements made by Mr. Herman Badillo, as Chairman of the City University of New York (CUNY) Board of Trustees.

Immediate consideration being bojected to by Council Member Ognibene. This item was referred to the Committee on General Welfare.

A LOCAL LAW to amend the administrative code of the city of New York, in relation to collective bargaining involving the uniformed forces in the city of New York.

Be it enacted by the Council as follows:

Section 1. Declaration of Legislative intent and Findings. The Council finds that employees working for the fire department of the city of New York ("FDNY") as fire alarm dispatchers and supervisors of fire alarm dispatchers have certain terms and conditions of employment similar to those of the uniformed services of the city of New York, including police, fire, sanitation and correction services. These terms and conditions of employment raise issues, which are materially different than the issues affecting non-uniformed city employees. Furthermore, the Council recognizes that uniformed forces in the police, fire, sanitation and correction departments have certain unique bargaining rights under the New York City Collective Bargaining Law. The Council intends by this amendment to the administrative code that those individuals employed by the FDNY as fire alarm dispatchers and supervisors of fire alarm dispatchers be accorded the same unique bargaining rights as the uniformed forces of the City.

§ 2. Paragraph (4) of subdivision a of section 12-307 of the Administrative Code of the city of New York is hereby amended to read as follows:

(4) all matters, including but not limited to pensions, overtime and time and leave rules which affect employees in the uniformed police, fire, sanitation and correction services, or any other police officer as defined in subdivision thirty-four of section 1.20 of the criminal procedure law who is also defined as a police officer in this code, shall be negotiated with the certified employee organizations representing the employees involved. *For purposes of this paragraph only, employees of the uniformed fire services shall also include persons employed by the fire department of the city of New York as fire alarm dispatchers and supervisors of fire alarm dispatchers;*

§ 3. This local law shall take effect immediately.

Resolution condemning the "Sensation" art exhibit that is presently on display at the Brooklyn Museum.

By Council Members Ognibene, Fiala, Stabile, Abel, Golden, Oddo and Dear; also Council Members O'Donovan and Provenzano

Whereas, The Archdiocese of New York has over 2.3 million Catholics in it, and there are millions of other Christians living in New York City; and

Whereas, Christians believe that the Blessed Virgin Mary is the mother of God, and, therefore, hold her, and images of her likeness, in the highest reverence; and

Whereas, There is a painting of the Blessed Virgin Mary currently on display in the Brooklyn Museum as part of its "Sensation" exhibit; and

Whereas, That representation of the Blessed Virgin Mary in this painting is desecrated with feces and pornographic images; and

Whereas, The City of New York has traditionally had vibrant and growing Indian communities with many who practice the Hindu religion; and

Whereas, The Hindu religion considers cows sacred and regards them as objects of worship; and

Whereas, One of the art works in the Brooklyn Museum's "Sensation" exhibit displays a dead cow that is cut into many pieces and suspended in formaldehyde; and

Whereas, The beauty of this nation's democratic ideals is the dynamic multiplicity of its cultures and the respectful acceptance of them all; and

Whereas, The "Sensation" exhibit is considered offensive by many in Catholic, non-Catholic Christian, Hindu and other religious communities; *now, therefore, be it*

Resolved, That the Council of the City of New York condemns the "Sensation" art exhibit that is presently on display at the Brooklyn Museum.

Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. A job order contract is an indefinite quantity contract pursuant to which the contractor will perform a series of projects at various wastewater treatment plants and facilities within Regional Group 1 in New York City. The bid documents include a book of construction tasks with preset unit prices and related specifications. The contractors will competitively bid two adjustment factors to be applied to the unit prices. The first adjustment factor is for performing work during Normal Working Hours and a second adjustment factor is for performing work during Other Than Normal Working Hours. The cost for each individual project is determined by multiplying the preset unit prices and the appropriate quantities by one of the competitively bid adjustment factors.

Interested bidders must attend two mandatory pre-bid conferences. The first mandatory pre-bid conference will be held June 20, 2000, at 10:00 am at the Fire Department Training Academy Auditorium on Randall's Island, for the purpose of discussing the specifics of the contract, how the contract will be administered, and the type of projects that will be performed. The second mandatory pre-bid conference will be held June 23, 2000, at 10:00 am at the Fire Department Training Academy Auditorium on Randall's Island, for the purpose of discussing the book of construction tasks, unit prices, and the calculation of the adjustment factor. Attendance at both pre-bid conferences is mandatory. Failure to attend both pre-bid conferences may result in a determination of non-responsiveness.

Bid documents will be available from the Contract Management Unit, 59-17 Junction Blvd., 17th Floor, Corona, NY 11368 after the first mandatory pre-bid conference. For questions concerning this procurement, contact Carol Fenves at (718) 595-3225.

Human / Client Service

PROVIDE SERVICES TO DEAF MEXICAN NATIONALS – NAQ – PIN# 071-00S-003-321 – DUE 06-23-00 AT 5:00 PM – The Department of Homeless Services intends to enter into negotiations with Lexington Vocational Services Center, Inc. to provide support and intermediary service to a special needs population known as the Deaf Mexican Nationals who currently reside in NYCHA Housing. The projected term of this contract is retroactive from January 19, 2000 to January 18, 2001 with no options to renew.

DHS will use the Negotiated Acquisition method pursuant to Sections 3-04(b)(1)(i)(D) and (ii) of the Procurement Policy Board Rules.

Any organization that believes it can provide these services in the future may contact: Suellen Schulman, Agency Chief Contracting Officer in writing at the Department of Homeless Services, 33 Beaver Street, 13th Floor, New York, N.Y. 10004 to request inclusion on the Department's bidder list to provide these services in the future.

DEVELOPMENT TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – CSP – PIN# 071-00S003262 – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families and drop-in centers for adults. **This is an open-ended solicitation; there is no due date for submission.** Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-fourth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 5 to 30 years and the drop-in centers will be for three years with one three year option to renew.

Pursuant to Section 312(c)(1)(ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgement is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03(c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated and 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed facility location.

Any organization that believes it can provide these services may contact: Calvin Pitter, Deputy Agency Chief Contracting Officer at the Department of Homeless Services at (212) 361-8000, 33 Beaver Street 13th Flr., New York, NY 10004, to request a copy of the application, which is available for pick-up only Monday through Friday on business days between the hours of 9 a.m. to 5 p.m.

Reports of the Committee on Finance

L.U. No. 559

Report of the Committee on Finance in favor of approving an application No. 20005046 HAK, an Urban Development Action Area Project known as Bedford-Stuyvesant/Fort Greene—Site A, located in Community Board 3, Council Districts No. 34, 36 and 41, Borough of Brooklyn. This matter is subject to Council review and action pursuant to Article 16 of the New York General Municipal Law, at the request of the New York City Department of Housing Preservation and Development, and pursuant to Section 696 of the General Municipal Law for a real property tax exemption.

The Committee on Finance to which it was referred on September 29, 1999 (Minutes, page 2311) the annexed Land Use resolution respectfully

REPORTS:

Pursuant to Section 696 of the General Municipal Law, the Department of Housing Preservation and Development (HPD) requests partial property tax exemptions for properties that will provide housing for low- and moderate-income persons. These properties are developed under programs initiated by HPD. These projects, organized and operated by private not-for-profit Housing Development Fund Corporations (HDFC's) formed under Article XI may be granted exemptions from real property taxes by the local legislative body for a period of up to forty (40) years.

These properties are currently owned by the City, and thus pay no property taxes. Approval of the exemptions will result in partial tax payment on every property.

The City Council Land Use Committee has approved the disposition of these city-owned properties as Urban Development Action Area Projects.

A summary of all properties can be found on the following page.

HomeWorks was created with the goal of expanding homeownership opportunities for all New Yorkers. Under this program, one to four family vacant City-owned buildings are sold to developers selected through a competitive Request for Proposals. Developers, which may be for-profit developers, not-for-profit organizations or joint ventures between them, are selected based on the extent to which their proposal minimizes the use of a City subsidy and on the overall strength and experience of their team. The developers are responsible for the construction, marketing and sale of the houses which all will contain from one to four units. Because of the programmatic objectives stabilizing communities and providing homeownership opportunities to the widest range of New Yorkers, the incomes of potential homebuyers are not restricted.

Pursuant to Section 696 of the General Municipal Law, a partial exemption from real property taxes is granted for six years. A full exemption is allowed for the first three years, and phased out in equal decrements over the following three years.

Habitat for Humanity ("HFH") has placed 20,000 families in housing through local chapters that solicit volunteers and contributions to construct and rehabilitate low-cost housing. HFH - NYC and SI HFH will acquire vacant City-owned land and vacant City owned buildings to construct and rehabilitate homes for purchase by families earning between 60% and 80% of Area Median Income (between $26,000 and $34,400 for a family of four).

The rehabilitation and construction are performed with volunteer labor and in-kind contributions wherever possible and each purchaser is required to put in 500 hours of "sweat equity" voluntary labor as a down payment on the home. This serves to keep costs down and the housing affordable to the targeted income population. Advertising for applicants to purchase the completed homes is conducted through advertising in local papers and not-for-profit and community board outreach efforts. Resale restrictions are in place for a period of twenty years.

Pursuant to Section 696 of the General Municipal Law, a partial exemption from real property taxes is granted for twenty years. A full exemption is allowed for the first ten years, and phased out in equal decrements over the following ten years. Full taxes will be paid upon completion of the 20 year term.

Accordingly, Your Committee recommends its adoption.

Report of the Committee on Select Committee on Charter Reform

M-667

Report of the Select Committee for Charter Reform: An Evaluation of The Mayor's 1999 Charter Revision Commission.

The Select Committee for Charter Reform respectfully

REPORTS:

INTRODUCTION

This report is issued by the Select Committee for Charter Reform as a result of its oversight of the purpose, process and product of the New York City Charter Revision Commission, appointed by Mayor Giuliani on June 15, 1999 ("the Commission"). The findings in this report lead to the following three conclusions with regard to this Commission and its work:

1. The proposed amendments threaten the City's system of checks and balances by giving increased powers to the executive ("the Mayor") at the expense of the legislature (the "Council");

2. Many of the issues proposed by the Commission can be accomplished by local law, and do not require the attention of a Charter Revision Commission;

3. The Commission's work, which covered approximately two and one-half months during the summer, did not provide for sufficient debate and thwarted public participation.

Moreover, because this is the second such whirlwind Charter Revision Commission convened by the Mayor to serve his goals, rather then to deal with broad structural issues of City governance, leads to the most salient finding of this report:

Repeated use of a Charter Revision Commission for political purposes and resulting in proposals that are predominantly legislative in character both diminishes the importance of charter revision and weakens the legislative process. Indeed, an often stated recommendation by opponents of the Commission was to prevent the Mayor from convening Charter Revision Commissions.

In conducting its oversight of the Commission, Committee staff attended each public hearing, public meeting and forum conducted by the Commission. The findings and conclusions contained in this report are the result of this extensive oversight, as well as a review by Committee staff of the documents made available to it by the Commission.

EXECUTIVE SUMMARY

On June 15, 1999, Mayor Giuliani appointed a 15 member Charter Revision Commission comprised almost entirely of persons with close ties to the Mayor. By all accounts the Commission was initially charged with changing the line of mayoral succession so that the Public Advocate could not automatically succeed the Mayor if he is elected to the United States Senate. Thus, the initial purpose behind the Commission's formation, which had little to do with substantive Charter reform and more to do with politics, is clearly improper. As to the process employed by the Commission in conducting its work, it is a rush to judgment that cannot properly serve the long term interests of the City. The lack of independence and balance present amongst the Commission members coupled with a process that was void of thorough debate from all sides regarding the proposed amendments weakens the Charter. Charter reform should be based on general principles and subject to an extensive dialogue with broad based public participation. It should not be, as the Mayor stated in defending his Commission, about "politics."

Additionally, several proposals directly impact and undermine the system of checks and balances between the executive and other branches of government and elected officials, particularly the Council. One proposal involving budgetary matters, for example, would require that any new tax increase in an existing tax, other than the property tax, be passed by a two-thirds majority of the Council. If the Mayor vetoed the measure, a four-fifths vote would be required to override the veto. However, the proposal exempts the property tax. Thus, this proposal could distort tax policy in a manner that might be economically harmful by potentially creating a bias in favor of raising property taxes for needed revenue during a recession. As a result, the unequal approach towards taxes could have the unintended consequence of making property taxes, which the Council has fought so hard to control, the tax of "first resort."

Finally, the product of the Commission's work, 14 ballot proposals lumped into one ballot question, does a great disservice and creates a scenario that is both confusing and counterproductive to voters and harms the charter revision process.

The major findings of this Committee with regard to the Commission, its purpose, process and product, are as follows:

- The Mayor has developed an agenda to continue the Charter revision process to undo many of the 1989 Charter reforms which have made City government more open and representative. This is the Mayor's second Charter Revision Commission and based on representations made by the current Chair, the Mayor is considering appointing yet another Commission to continue Charter revision work after this November's election. This is an abuse of the Charter revision process whereby the Mayor has his own private legislative entity to adopt the proposals that will secure his administration's legacy. In 1998, a Charter Revision Commission was assembled to bump off a Council referendum which the Mayor did not want put before the voters. In 1999, the Mayor appointed another Commission with the original intent of tinkering with mayoral succession. In putting forward 14 proposals the current Commission not only sought to weaken the Council's role in budgetary matters, but also presented a series of public policy initiatives that could have been better achieved through the legislative process.

- The Mayor has misused the Charter Revision Process as a political weapon and has tainted the process of Charter reform. By the Mayor's own admission in appointing his second Charter Revision Commission, he defended the process by stating "[t]his is politics, that's what I do."

- The current Commission completely lacks independence from the Mayor. This is not an independent commission, but a group dominated by the Mayor's hand-picked campaign supporters and administration officials. Indeed, the Commission's Chair is the former first deputy mayor. According to reports, ten of the Commission members have made campaign contributions to the Mayor. Moreover, virtually all of the staff to the Commission was borrowed from other city agencies.

- The rushed time frame to have a proposal on this November's ballot has resulted in a process incapable of producing a well considered final work product. From its first public meeting until the vote on its proposal, the Commission determined its issues and drafted its recommendations in two months. Frederick A.O. Schwarz, Jr., the Chair of the 1989 Charter Revision Commission, stated that "[i]t does not serve the [City's] interests to have a rushed, truncated process that, based upon my own experience, cannot possibly benefit from thoughtful, broad based citizen participation, and cannot possibly allow the Commission members to sharpen their own ideas by listening to the public and debating among themselves." A letter put forward by many of the "good government" groups voiced similar concerns including the fact that because this off-year election involves only a few scattered city races, voter turnout should be about a third of the turnout in a regular election year.

- The Commission's Public Hearing process thwarted public participation. Whether by design or not, the process used by the Commission for its public hearings actually impeded participation by the public. The Commission held six public hearings, one in each borough, except for Brooklyn, which had two at the same location. All but one public hearing was clustered during a one week period in August. Testimony at all public hearings was limited to three minutes. At one hearing in Brooklyn, members of the public were denied access to the proceedings because the room had exceeded its occupancy limits. The August 10th hearing was located in a remote section in the Bronx, 10 blocks from the nearest subway station.

- Presenting a patchwork of 14 unrelated "legislative" proposals as a single ballot question does an enormous disservice to voters. A voter who is in favor of some proposals but has objections with others is put in a position whereby they must choose which are more important. Such a scenario is both confusing and counterproductive to voters and harms the charter revision process.

- The work of the Commission is circumventing the checks and balances system between the executive and other branches of government. The Charter Commission of 1989 did a very precise job in distributing power among the City's branches of government. The Charter created a strong Mayor, but took great pains to ensure an adequate system of checks and balances. The Commission's proposals relating to budgetary matters, in particular, undermine the balance of power created by the 1989 Charter Commission and should not be hastily drawn up to serve political ends at the long term expense of the City.

Based upon these findings the Select Committee makes the following recommendation:

- That the provisions of the State's Municipal Home Rule Law relating to charter revision should be amended to prevent mayors from using charter revision commissions to upset the system of checks and balances and to circumvent the normal legislative process.

BACKGROUND

Charter Revision in New York State

The New York City Charter is the governing document or "constitution" of the City of New York. It sets out in broad outline the form and structure of our City's government. The City of New York is a creation of the State of New York, which gives the City the right to adopt and amend its Charter, and prescribes the manner in which such actions must occur.

Municipal Home Rule § 36, entitled "Provisions for adoption of new or revised charter proposed by a charter commission," sets forth the manner in which charter commissions may be formed and the manner in which they must operate. Subdivisions two and three of § 36 provide for the establishment of a charter revision commission by a city's legislature by means of local law with or without a referendum, or by the voters by means of a local law with or without a referendum, or by the voters by means of a petition for a referendum. In addition, subdivision four of that section provides that a "charter commission to draft a new or revised city charter may also be created by the mayor of any city."

Section 36 of the Municipal Home Rule Law contains provisions requiring any charter revision commission to conduct a comprehensive review of the city charter, encompassing all of its provisions, whether or not the commission rewrites the entire charter. Thus, subdivision five of the statute provides that any commission must "review the entire charter of such city and prepare a draft of a proposed new or revised charter of such city. If the commission shall decide to leave a part of the existing charter unchanged, it may propose in one or more amendments a revision of the remaining parts. In such case it shall make a report to the public, accompanying its proposals, in which it shall refer specifically to such unchanged part and explain its decision to leave such part unchanged."

State law also requires that any new charter or revision of an existing charter be completed in time to appear on the ballot by the second general election after the creation of the commission. As a result of a 1963 amendment to § 36 of the Municipal Home Rule Law, this time period within which the work of a charter revision commission must be completed applies to all commissions, regardless of how they are created. According to the legislative history of the 1964 amendments, the "second election after creation" end date was applied to Mayoral-created charter revision commissions because prior to its

amendment, the statute afforded those commissions with "too short a time to do a workmanlike job in most situations, being required to file their proposals by early August of the year in which they are created." (Memorandum of Citizens Union of the City of New York on S.I. 1979, April 1, 1964; *see also* Comments of Local Government Advisory Board, April 10, 1964: "the bill in effect, provides more time for a charter commission appointed by the mayor to do its work.") Finally, subdivision five of § 36 provides that any new charter or amendments to an existing charter must be filed with the city clerk's office at least 60 days prior to the referendum at which the charter or revisions are to be voted.

Subdivision six of § 36 requires a charter revision commission to hold public hearings, although it also allows it to conduct private hearings as well. However, it seems clear that the meetings of a charter revision commission are subject to the state's Open Meetings Law, which provides that all meetings of a public body at which public business is transacted be open to the public. *See* Dep't of State Comm. On Open Government Advisory Opinion OML-AO 2737 at 2, June 13, 1997.

In relation to the final ballot proposal, the state Election Law requires that "[i]f more than one such amendment, proposition or question is to be voted upon at such election, each such amendment, proposition or question respectively shall be separately and consecutively numbered."[1] In situations where multiple proposals are contextually interrelated, they can be grouped into one ballot question.[2] It is unclear, however, whether a ballot proposal with multiple amendments on varied and unrelated issues can be grouped and presented as a single proposition or question.

Recent History of Charter Revision in New York City

Since 1964 and prior to the Giuliani administration, when § 36 of the Municipal Home Rule Law took its present form, there had been four Charter Revision Commissions that examined and proposed substantive changes to the New York City Charter. They were as follows: (1) the 1975 Goodman Commission; (2) the 1983 Sovern Commission; (3) the 1988 Ravitch Commission; and (4) the 1989 Schwarz Commission. These Commissions were created in response to "crises" in the City's governance such as the 1970's fiscal crisis and the unconstitutionality of the Board of Estimate. The voluminous records of these four commissions indicate that they sought out and carefully analyzed a wide range of proposals before formulating and refining their recommendations.

[2] *See Schulz v. New York State Board of Elections*, 632 N.Y.S.2d 226 (A.D. 3 Dep't 1995).

In 1998, Mayor Giuliani appointed his former first deputy mayor and campaign manager, Peter Powers, as chair of his first Charter Revision Commission, organized to block a Council referendum that would have prohibited the use of public funds from being used to move Yankee Stadium from the Bronx to Manhattan. The Commission received a hailstorm of criticism as to its purpose, process and final product. Last year's report of this Select Committee found that the Commission lacked independence in that all but one member had close ties to the Mayor;[3] failed to be representative of the people of the City whose Charter it sought to change;[4] and thwarted public participation, rushing to find a popular issue and drafting its recommendation in fifty days during the months of July and August.[5] In its race against time to find a proposal, the Commission adopted one proposal regarding Campaign Finance Reform, which was adopted by the voters in the 1998 November election.

Prior to the election, the Council filed suit for a preliminary injunction in Bronx Supreme Court against the Mayor arguing that the Commission failed to abide by the mandates of Municipal Home Rule Law § 36 and did not "review the entire" Charter, thereby rendering the Commission's proposal null and void. The court ruled that the Commission did not act in accordance with state law governing the duties of charter revision and termed the Commission a "virtual charade." The court concluded that the Commission's proposal was not entitled to be placed on the ballot. The Appellate Division, First Department, reversed the lower court ruling, holding that the Commission had complied with the necessary requirements of complete review of the Charter and that the Council was not entitled to a preliminary injunction.[6]

Despite numerous representations made by the 1998 Charter Revision Commission that it was serious about improving the City's government and therefore would continue to work throughout the year, it stopped as soon as its goal of finding an issue to block the Yankee stadium referendum had been accomplished. Rather than reappointing a new Commission last fall so that a thoughtful and considered process could occur, the new Commission was not appointed until the next political issue arose. This appears to belie any contention that the Commission is serious about Charter reform.

[3] Besides Chair Powers, the Mayor's former Corporation Counsel served as the Commission's Vice-Chair. Of the ten remaining members, all but one had either worked for the Mayor, helped him get elected or served on other Mayoral commissions. 1998 Report of the Select Committee for Charter Reform at p. 14. *See also Newsday*, "Rudy Packs Charter Panel" July 5, 1998.

[4] The demographic makeup of the 12-member Commission was as follows: eight white men; one African American man; one Latino; one Latina and one white woman. Thus, in a city that is approximately 60% minority and 50% female, last year's Commission was 75% white and 83% male. 1998 Report of the Select Committee for Charter Reform at p. 17.

On June 15, 1999, the Mayor appointed his former Deputy Mayor, Randy Mastro, to lead another Charter Revision Commission. This Commission, like its predecessor, found itself under enormous criticism from leading government officials, good government groups, the media and the public. The criticism stemmed from political motivations of the Commission regarding succession by the Public Advocate in the event of a mayoral vacancy and the undermining of other bodies of local government, including the Council and the Office of the Comptroller.

Chair Mastro made numerous representations that the Commission's work was not "about any one issue or any one man" but rather was an effort to study a variety of proposals regarding the budget process, civil rights, elections, land use, government reorganization, government integrity, immigrant affairs and procurement. The Commission's Final Report goes through an extensive discussion to explain how the work of the Commission was no different in purpose and process than other prior commissions. (Final Report 1999 Charter Revision Commission at O-15).

The following chart summarizes some key information with regard to the work and purpose of the prior four commissions as compared to the commissions appointed under the Giuliani administration:

Commission	Duration	Selection of Members	Purpose
Goodman Commission	2 1/2 years (1972-1975)	Appointments by Governor, Mayor, State legislature, Council and Borough Presidents	State Commission appointed to address the City's fiscal crisis of the early and mid 1970's
Sovern Commission	13 months (1982-1983)	Appointed by Mayor	Commission formed in response to a federal court ruling striking down at-large councilmanic elections[7]
Ravitch Commission	20 months (1987-1988)	Appointed by Mayor with recommendations from other city elected officials	To address a federal court ruling that the Board of Estimate violates the one person, one vote principle of the U.S. Constitution[8]

[7] *See Andrews v. Koch*, 528 F.Supp. 246 (E.D.N.Y. 1981) *aff'd*, 688 F.2d 815 (2d Cir. 1982). The Commission was required by the court to report on its progress in addressing the ruling.

[8] *See Morris v. Board of Estimate*, 647 F. Supp. 1463 (E.D.N.Y. 1986).

Commission	Duration	Selection of Members	Purpose
Schwarz Commission	8 months (built on prior 20 month work of Ravitch Comm.) (Jan. 1989-Sept. 1989)	Appointed by Mayor with recommendations from other city elected officials[9]	To address the U.S. Supreme Court's ruling that the voting structure of the Board of Estimate violated the U.S. Constitution[10]
Powers Commission	(June 1998-August 1998)	Appointed by Mayor	To block a City Council referendum regarding public funding of Yankee Stadium with which the Mayor disagreed
Mastro Commission	2 1/2 months (June 1999-August 1999)	Appointed by Mayor[11]	To alter local laws governing mayoral vacancies to prevent ascension of a successor with whom the Mayor disagrees

Prior to the Giuliani administration, charter revision was utilized to address compelling and serious issues that were facing the future of the city. In fact, as the chart demonstrates, in three instances, charter revision was compelled in order to address fed-

eral court rulings in relation to constitutional issues. Charter revision was not performed in a manner that was tainted by political motivations and handled with reckless speed.[12]

[9] The members of the Ravitch Commission were asked to remain. Four members left and supplemental appointments were made by the Mayor.

[10] *See Morris v. Board of Estimate*, 489 U.S. 688 (1989).

[11] The Mayor did offer Council Speaker Peter Vallone the opportunity to recommend five candidates for appointment to the Commission. The Speaker rejected the offer on the basis that the composition of the Commission would still have lacked the necessary balance and independence for serious Charter reform.

PURPOSE FOR CREATING THE CURRENT COMMISSION

Mayor Giuliani announced that he had appointed a new commission to revise the Charter, saying that he wanted to "improve the process of government." Public officials and government watchdog groups were quick to respond and saw the Mayor's latest Commission as having a much more precise goal: to deny the Public Advocate the right to succeed him automatically if he is elected to the United States Senate. "Giuliani Looks Again at Charter, and a Foe," *New York Times*, June 16, 1999. The Mayor acknowledged that while the Commission would look at a wide range of issues, it would likely examine mayoral succession. In response to questions whether he was using charter revision as a political ploy, the Mayor responded "[t]his is politics, that's what I do." "Rewrite the Rules," *Newsday*, June 16, 1999.

The announcement of yet another Giuliani charter revision commission sparked swift criticism, including former mayors Abe Beame, Ed Koch and David Dinkins, who referred to the Commission as "pure politics." "Former Mayors Gang Up On Rudy," *New York Post*, June 29, 1999. A joint letter penned by the good government groups such as Citizens Union, The City Club, Common Cause, New York Public Interest Research Group (NYPIRG) and the Women's City Club called the Commission "strictly a mayoral enterprise" and that "[t]he biggest loser in this errant initiative is the value of our city's constitution. The New York City Charter must not be regarded as an instrument of political whim" (a copy is attached hereto as Exhibit A). In addition, the former 1989 Charter Chair and City's Corporation Counsel wrote a five page letter to the Mayor criticizing the "politicization and trivialization" of Charter revision (a copy is attached hereto as Exhibit B). Excerpts from his letter urge the Mayor that:

> [c]harter change should be approached with caution, handled by an independent and balanced group, and conducted with great care that involves extensive and meaningful dialogue with the public * * * The course upon which the Commission now appears to have been guided will lead to referenda at which the public is uninformed, where turnout will be abysmally low (particularly among minorities), and where money and special interests will have vastly disproportionate influence * * * The City's constitution is meant to be based on general principles, not short-term politics or personal predilections.

Despite repeated calls to reexamine the need for charter revision, the Chair presented the staff of the Commission with twenty-seven questions to be considered (A copy is attached hereto as Exhibit C). Those questions included a proposal regarding a change to the line of mayoral succession. "Charter Unit Plans to Study Broad Array of Questions," *New York Times*, July 3, 1999. In addition, the list included whether the Office of the Public Advocate and the Independent Budget Office should be abolished, along with changes to the budget, land use and procurement process. The Chair also solicited the public to offer written submissions for their consideration.

On July 22, 1999 the staff of the Charter Revision Commission submitted its "Preliminary Recommendations Regarding Charter Revision." The recommendations proposed changes to eight areas, which included (1) the budget process; (2) civil rights; (3) elections; (4) government integrity; (5) government reorganization; (6) immigrant affairs; (7) land use; and (8) procurement.[13] Among the most controversial items in the Commission's Preliminary Recommendations were the land use and budget proposals designed to give additional power to the Mayor thereby diminishing the separation of powers between the executive and legislative branches of City government. In addition, the report called for the Mayor to receive a $50 million education fund, the elimination of the Arts Commission, non-partisan citywide elections and a weakened Public Advocate who would lose his power to preside over the Council. "Sneaky Summer Charter Changes," *New York Times*, July 30, 1999. In relation to mayoral succession, the staff recommended that the Commission not attempt to resolve any change in the immediate interim line of mayoral succession for referendum vote in November 1999. Instead, the staff proposed that in the event of a mayoral vacancy, a 60-day special election be held. The Commission, at a July 29, 1999 public meeting, unanimously resolved to take public comment on the staff's recommendations.[14]

INDEPENDENCE OF THE CURRENT COMMISSION

The Commission consists of 15 members appointed by the Mayor. At least 11 members have either worked in the Giuliani administration or served as mayoral appointees to other boards. It is chaired by Randy Mastro, the Mayor's former Deputy Mayor. Similar to last year, the Mayor appointed a Commission that is dominated with close supporters and allies. The members include Richard J. Schwartz, a former senior adviser to the Mayor; Abraham Biderman, a former commissioner for two city agencies who served on the Mayor's transition team in 1993 and also served as a member of the 1998 Charter Revision Commission; Mary Sansone, founder of the Congress of Italian-American Organizations and a fund raiser for the Mayor and member of the 1998 Charter Revision Commission; Herb Rubin, who served on the Mayor's 1993 transition team and was a member of last year's Charter Revision Commission; El Hajji Izak-El Mu'eed Pasha, who was recently sworn in as the first Muslim chaplain of the New York City Police Department and serves as a member of the Mayor's Commission to Combat Police Corruption; and, Kenneth Caruso, an attorney close to the Mayor. "Rudy's 2nd Move On City Charter," *Newsday*, June 16, 1999; "Giuliani Looks Again at Charter, and a Foe," *New York Times*,

[13] The Commission subsequently adopted a ninth category at the suggestion of the Mayor's Criminal Justice Coordinator. The category covered public safety matters and appears in the Commission's final report.

[14] The staff's recommendations were unanimously adopted. The Commission however, did not give further consideration in this election cycle to the elimination of the Arts Commission or the Hardship Appeals Panel. The Commission also clarified that, as to the proposal to impose a 4% cap on City spending increases, the cap may only be lifted through joint action of the Mayor and the Council. In addition, the Commission opted to consider whether the jurisdiction of the Office of Administrative Trials and Hearings (OATH) should be expanded to include functions currently conducted by other agencies, and whether the Charter should require executive coordination of City services relating to the prevention of domestic violence.

July 16, 1999. Furthermore, according to figures provided by NYPIRG, ten of the members have made political contributions to the Mayor.

There is also a lack of independence in the make-up of the Commission's staff, whose members mostly work for city agencies. According to the Commission's Final Report, the Executive Director to the Commission, Claude M. Millman, also serves as the Director for the Mayor's Office of Contracts. The Commission's General Counsel, Steven Stein Cushman, is a deputy chief with the City's Law Department. The Commission's four Deputy Directors all work in city government. In addition, staff was provided by Gibson, Dunn & Crutcher LLP, the law firm which Chair Mastro is co-partner in charge. While numerous members of the staff have impressive credentials, their work can hardly be called independent as they inevitably answer to the Mayor and his administration.

These facts have led to an enormous amount of criticism concerning the independence of the Commission from current and former government officials, good government groups and the public at large. The general concerns stem from the fact that the Commission members lack the necessary qualities of independence, balance and open-mindedness to undertake serious and substantive Charter reform. As Frederick A.O. Schwarz, Jr. urged in his letter to the Mayor:

> [w]hile of course, you have the power to appoint anyone you want without meaningful input or consultation, the exercise of untempered raw power is often unwise—and certainly so when the job is to find people to consider the City's long-term constitutional future. Having members appointed from a variety of sources and with differing viewpoints made our Commission's debate more extensive, sharper and more productive.

(See Exhibit B).

PROCESS FOR PUBLIC PARTICIPATION

Some of the most severe criticism concerning the Commission's work has been directed at the opportunity provided for public participation throughout the Charter revision process. The process of the Commission was denounced as "overly politicized" and "profoundly undemocratic." "Former Head of Charter Panel Attacks Giuliani's Latest Plan," *New York Times*, July 1, 1999. An overwhelming number of individuals who testified before the Commission echoed similar concerns, accusing the Commission of instituting a grossly inadequate time frame to consider such a large volume of proposals. Gene Russianoff, the Senior Attorney for NYPIRG, perhaps best summed up the process by stating that "[a] charter revision should not be run like it's a one-day photomat or a same day cleaners."

Duration of Commission's Work

The Commission held only six public hearings, five public meetings and two forums during the months of July and August. There was one public hearing held in each borough, except for Brooklyn which hosted two hearings at the Metrotech complex. Five of the six public hearings were clustered within a one week period, while the Commission's

entire body of work was completed during a period of approximately 28 working days. Assemblyman James Brennan, testifying at the August 11, 1999 public hearing in Brooklyn, unfavorably compared the Commission's process to the 1989 Charter Revision Commission, which was convened for two and one-half years and conducted close to 30 public hearings. Several representatives from good government groups testified that although they believed some of the Commission's proposals warranted consideration, the rushed time frame and lack of meaningful public debate ultimately rendered such proposals unsupportable. Others were critical of the rigid three minute time limit which the Commission placed on testimony from members of the general public.

Access to the Commission's public hearings was also called into question. The Commission scheduled its only Bronx hearing at an isolated venue, Calvary Hospital, which is ten blocks from the nearest subway station. Bronx Borough President Fernando Ferrer called the Commission's choice of the site "insulting" and "calculated to suppress participation." "Far Flung Meet Place for Charter 'Insulting,'" *Daily News*, August 10, 1999. On August 11, 1999, a report indicated that representatives from the Mayor's office barred many people from entering one of the Brooklyn public hearings, claiming that the room lacked sufficient seating for all who wished to attend. "Mayoral Officials Bar Many From Charter Revision Hearing," *Canarsie Digest*, August 23, 1999.

Editorial boards also chastised the Commission for conducting the bulk of its work and all of its public hearings during the months of July and August, when many New Yorkers are out of town. "A newly appointed Charter Revision Commission, dominated by the Mayor's admirers and staffed with the Mayor's employees, is trying to slip one under the city's summer radar . . . At the very least, such changes deserve the kind of vigorous debate that New Yorkers do so well. But the schedule does not allow for extended discourse." "Sneaky Summer Charter Changes," *New York Times*, July 30, 1999.

In addition, the Commission drew severe criticism for planning to submit its final proposals to the electorate on an off-year ballot, devoid of any citywide election. "[T]he election in November has no citywide races to attract a cross-section of voters." "Revising Charter Revision," *New York Times*, August 28, 1999. In addition, Michael Cooper, President of the Association of the Bar of the City of New York, stated that "[r]amming through politically motivated change with unconscionable speed in an off-year election would discredit the 1999 Commission and the Charter Revision process." Representatives from NYPIRG, testifying at a Commission hearing, estimated that the turnout for the November 1999 election could be as low as 100,000 voters, with district attorney elections as the only race of significance.

Perhaps the most important deficiency arising from the Commission's truncated timetable is that the large majority of discussion surrounding the entire Charter revision process concerned the proposal for a special 60 day election in the event of a mayoral vacancy. This one proposal dominated the testimony received at all the public hearings. The attention it demanded prevented any meaningful dialogue concerning the remaining proposals.

The Commission's Public Hearings

On July 1, 1999, the Commission convened to address preliminary procedural concerns and to announce a proposed schedule of public hearings, meetings and forums. In a public notice, the Commission finalized the dates for these events and announced several areas in which it would consider amending the Charter, including non-partisan elections, campaign finance, procurement, the budget process and land use. The notice stated that "[t]he Commission intends to put its proposed Charter revisions before the voters this November." (A copy of the Commission's letter and notice is attached hereto as Exhibit D).

The public hearings were scheduled as follows: (1) Thursday, August 5, 1999 at the Queens Borough Hall in Queens; (2) Monday, August 9, 1999 at the Petrides Center in Staten Island; (3) Tuesday, August 10, 1999 at the Calvary Hospital in the Bronx; (4) Wednesday, August 11, 1999 at Metrotech in Brooklyn; (5) Thursday, August 12, 1999 at the Cabrini Hospital Center in Manhattan; and (6) Thursday, August 26, 1999 at Metrotech in Brooklyn. The hearings were scheduled to begin at 7:00 p.m. Sign-up for those who wished to address the Commission would begin at 6:30 p.m. A limit of three minutes was placed on oral testimony received from the general public.

In addition, five public meetings were held. These meetings were open to the public but did not provide an opportunity for public participation. The public meetings were scheduled as follows: (1) Thursday, July 22, 1999 at the Economic Development Corporation in Manhattan; (2) Thursday, July 29, 1999 at Metrotech in Brooklyn; (3) Tuesday, August 17, 1999 at the Ridgewood Seneca Senior Center in Queens; (4) Friday, August 27, 1999 at the Economic Development Corporation in Manhattan; and (5) Wednesday, September 1, 1999 at the Economic Development Corporation in Manhattan.

The public meetings enabled people to watch the Commission question the staff as to their proposed recommendations and to see first hand the commissioners engage in dialogue about the various proposals. Unfortunately, these proceedings thwarted public participation as two of the five meetings were scheduled during normal business hours and commenced at 10:00 a.m., thereby preventing people who might otherwise have to work from attending.

The Commission's Public Forums

The Commission conducted two public forums held at the Economic Development Corporation in Manhattan, one on August 6, 1999 and the other on August 13, 1999. The forums were open to the public, but, public commentary was not received. Both forums were scheduled for 10:00 a.m., which very likely prevented a large segment of people from attending (a copy of the forum schedules are attached hereto as Exhibits E and F). The public forums were touted by the Commission as an opportunity for the commissioners to discuss each proposal with a panel of experts. In reality, the Commission's tight schedule and willingness to cram several proposals into one day forum sessions provided minimal time for each proposal and prevented thorough discussion.

The following chart demonstrates the various subjects that were the focus of both forums and the allocated time given to the experts to discuss the proposals:

Agenda For August 6th Public Forum

Proposals	Specific Topics	Time Allocated
Government Reorganization	– Administration of Children's Services as Charter agency – Merger of Department of Health with Department of Mental Health & Hygiene – Organized Crime Commission	45 Minutes
Civil Rights and Immigrant Affairs	– Human Rights Commission and Mayor's Office of Immigrant Affairs as Charter agencies	45 Minutes
Elections	– Nonpartisan elections – Special elections to fill a mayoral vacancy	Not Available

Agenda for August 13th Public Forum

Proposal	Specific Topics	Time Allocated
Government Integrity	– Full-time City Council – Conflicts of interest and financial disclosure rules	45 Minutes
Procurement	– Pre-qualified lists – Small purchase limits – Elimination of bid deposits – Streamlining registration process – Intergovernmental procurements – Improved vendor integrity review	45 Minutes
Budget	– 4% cap on increases in City-funded spending – Budget message requirements for increases above inflation – Budget Stabilization Fund – Two-thirds vote of Council to impose or increase taxes (other than real property); supermajority requirement to override a veto	45 Minutes

Proposal	Specific Topics	Time Allocated
	– Budget modification reform – Mayor's $50 million educational initiative – Ban on unfunded mandates	45 Minutes
Land Use	– Limits on Council review of site-specific special permits – Mayoral veto on Council modifications – Limit Council power to review City Planning Commission action – Streamline ULURP process and approval of leases for City office space	45 Minutes
Government Reorganization	– Domestic Violence	Not Available

It is incredible to believe that a Commission, whose avowed purpose is to do serious and substantive Charter reform, can spend, for example, 45 minutes discussing seven complex budget issues and believe that an average of six and one-half minutes per issue constitutes sufficient discussion from a panel of experts.

Although generally each expert panel included at least one member of the Mayor's administration whose testimony concerning the proposals was positive, several experts advised the Commission to proceed with caution. In the area of non-partisan elections, the Commission was advised by a leading expert in election law that such a proposal would likely require pre-clearance by the Justice Department and might violate the Unites States Voting Rights Act, whereby minority representation could be adversely affected. In relation to land use, a forum expert recommended that the proposals be deferred to a later date because more time was needed to complete a thorough review. The Commission subsequently dropped the proposals regarding non-partisan elections and land use. Interestingly, this was not the case with the proposals surrounding budgetary issues. Even though an expert at the forum criticized each budget proposal as burdensome and counterproductive, the Commission nevertheless, chose to adopt the majority of the budget recommendations.

THE COMMISSION, IN A RACE AGAINST TIME, NARROWS DOWN THE CHARTER PROPOSALS

On August 17, 1999, the Commission held a public meeting at the Ridgewood Seneca Senior Center in Queens to discuss which staff proposals regarding Charter revision warranted further consideration for placement on the November 1999 ballot and which proposals did not warrant further consideration for this election cycle. In the course of only a two and one-half hour meeting, the Commission members reviewed each of the forty plus recommendations and, based on very limited dialogue, determined which proposals would likely be included on the November ballot. There was virtually no dissent on most of the proposals and at least a half hour time period was devoted solely to the Commission's explanation of why a 60 day special election was necessary in the event of a mayoral vacancy. The Commission was so quick in making its determinations that it abruptly cancelled a public meeting scheduled for August 18th because the Commissioners did not believe further discussion was warranted.

All proposals relating to land use and government integrity were eliminated from consideration for inclusion on the November ballot. These included proposals designed to substantially reduce the Council's power to review actions taken by the City Planning Commission with regard to land use and special permits. The Commission also dropped the highly controversial proposal to institute non-partisan citywide elections and the requirement that Council service be a full time position.

By far the most controversial proposal considered by the Commission related to the issue of succession in the event of a mayoral vacancy. Although the Charter Revision Commission staff recommended that the immediate interim line of mayoral succession remain unchanged, but rather, a 60 day special election be implemented following a mayoral vacancy, this change did not appear to appease the public outcry directed at the political motivation behind the proposal. As criticism mounted, Chair Mastro announced that the Commission would consider amending the special election proposal so that it would not take effect until after the current election cycle.[15]

On September 1, 1999, the Commission voted to adopt all of the fourteen remaining proposals for the November ballot as one referendum question. The proposals would become effective on January 1, 2000, except for the 60 day special election proposal which would become effective as of January 1, 2002.

THE COMMISSION'S FINAL PROPOSALS UPSET THE SEPARATION OF POWERS BETWEEN THE EXECUTIVE AND THE LEGISLATIVE BRANCH AND WEAKEN THE LEGISLATIVE PROCESS

The Charter Commission of 1989 did an outstanding job in distributing power among our City's branches of government. That charter created a strong Mayor, but took great pains to ensure an adequate system of checks and balances between the executive and other branches of government, particularly the City's legislature. Thus, proposals that would give further powers to the Mayor at the expense of the City's legislature can only serve to weaken the carefully created system of checks and balances and destabilize the balance of power. Indeed, the vast majority of people who have addressed these proposals at the Commission's own public hearings have argued against diminishing checks on the executive branch and on a greater legislative role for the Council.

Certain proposals adopted by the Commission may have merit, particularly those which would create Charter agencies whose missions are to protect vulnerable populations, such as the Human Rights Commission, from the vagaries of individual administrations. Including the Human Rights Commission and the Office of Immigrant Affairs and Language Services in the Charter would further these goals. In addition, a proposal which would create a single organized crime commission that would pool and efficiently use resources currently divided between various entities should help in the City's efforts against corruption.

While the issues of human rights, immigrant rights and organized crime prevention have great merit, the Commission's proposals in these areas can be accomplished by local law, and do not require the attention of a Charter Revision Commission. Likewise, the Commission's proposals to merge and eliminate certain agencies are not appropriate subjects for a Charter Revision Commission and are better left to the legislative process, which would provide opportunity for more focused and substantially greater participation by affected communities and parties. It is only through the legislative process, with its extensive public hearings and opportunity for public input, that such determinations should be made.

The following section provides an analysis and commentary on the final proposals adopted on September 1, 1999 by the Charter Revision Commission.

BUDGET

The stated goal of the budgetary recommendations of the Charter Commission is to ensure fiscal responsibility. Regrettably, the specific proposals put forward by the Commission will not improve the budget process or increase fiscal responsibility. In general, the Commission's proposals enhance the power of the Mayor and introduce rigidity into the budget process. Experience over the last decade shows that a structure of checks and balances among the branches of government has proven more effective in promoting fiscal responsibility than the government-by-formula approach advocated by the Commission.
