DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – CSP – PIN# 071-00S003262 – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families and drop-in centers for adults. **This is an open-ended solicitation; there is no due date for submission.** Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-fourth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 5 to 30 years and the drop-in centers will be for three years with one three year option to renew.

Pursuant to Section 312(c)(1)(ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgement is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03(c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated and 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed facility location.

Any organization that believes it can provide these services may contact: Calvin Pitter, Deputy Agency Chief Contracting Officer at the Department of Homeless Services at (212) 361-8000, 33 Beaver Street 13th Flr., New York, NY 10004, to request a copy of the application, which is available for pick-up only Monday through Friday on business days between the hours of 9 a.m. to 5 p.m.

LEGAL REPRESENTATION ON BEHALF OF THE CITY IN WORKER'S COMPENSATION MATTERS HELD OUTSIDE OF THE CITY OF NEW YORK – Notice of Intent to Enter into Negotiations and Request for Expressions of Interest – Judgment required in evaluating proposals - PIN# 02501X000198 – DUE 05-23-01 AT 5:00 P.M. – seeks expressions of interest from law firms with expertise providing legal representation on behalf of employers before the New York State Workers' Compensation Board at hearings, appeals, and depositions conducted at hearing points outside the City of New York. The Department intends to enter into negotiations with one or more qualified firms and to award a single contract for the services. Contract award will be by the Negotiated Acquisition method of source selection because it has been determined that it is not practicable or not advantageous to use Competitive Sealed Proposals; that it is not in the best interest of the City to use Competitive Sealed Proposals, and that award of the contract by Negotiated Acquisition is justified. It is projected that the proposed contract will commence as of September 1, 2001 and continue through August 31, 2004. The selected firm will be required to handle such matters on an as-required basis at hearing points within the State of New York outside the City of New York. It is estimated that approximately 4000 hearings were held outside the City's geographical limits last year, the majority of which were held at various Nassau, Suffolk and Westchester County hearing points. Interested firms should send one original and four (4) copies of an Expression of Interest ("EOI") to: Steven Scotti, NYC Law Department, Workers' Compensation Division, 350 Jay Street, 9th Floor, Brooklyn, New York 11201 by no later than May 23, 2001. The EOI should contain the following information, which should be organized under the following headings:

1. a description of the firm as a whole, including the firm's areas of practice and specialization, the number of offices maintained by the firm and it/their location(s), and the number of attorneys, paralegals, and support personnel at each such office;

2. a detailed description of the firm's background and experience as counsel for respondents in workers' compensation matters;

3. a detailed description of the firm's attorneys, paralegals and other personnel resources available to provide the workers' compensation-related legal services.

The Law Department intends to award one contract with a three-year predicated upon a fee-per-hearing and fee-per-service basis. Based upon the Department's review of EOI's received by the above-stated deadline, firms whose EOIs are determined to be within a competitive range of Technical Merit will be provided with a detailed Scope of Work, a Law Firm Questionnaire, Price Proposal Forms, and instructions for submitting these materials. Subsequent decisions with respect to contract award will be made on the basis of the evaluation of these materials.

■ NOTICE

NOTICE OF PUBLIC HEARING AND OPPORTUNITY TO COMMENT ON PROPOSED PROMULGATION OF AMENDMENTS TO CHAPTERS 5 AND 5-A OF TITLE 66 OF THE RULES OF THE CITY OF NEW YORK GOVERNING THE NEW YORK CITY ENERGY COST SAVINGS PROGRAM AND THE NEW YORK CITY LOWER MANHATTAN ENERGY PROGRAM

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN THE Commissioner of the Department of Business Services ("Commissioner") pursuant to section 1043 and section 1301 of the New York City Charter, subdivision (g) of section 25-bb of the General City Law of the State of New York and subdivision (e) of section 22-602 of the Administrative Code of the City of New York, the Department of Business Services hereby proposes promulgation of amendments to Chapters 5 and 5-a of Title 66 of the Rules of the City of New York which govern the Energy Cost Savings Program ("ECSP") and the Lower Manhattan Energy Program ("LMEP").

Written comment regarding the proposed rules may be sent to Richard Friedman, Deputy General Counsel, Department of Business Services at 110 William Street, 3rd Floor, New York, New York 10038, on or before June 14, 2001. A public hearing shall be held on June 14, 2001, at 110 William Street, 4th Floor, at 2 p.m. Persons seeking to testify are requested to notify the Deputy General Counsel at the foregoing address. Written comments and a summary of oral comments received at the hearing will be available for public inspection within a reasonable time after receipt between the hours of 9 a.m. and 5 p.m. at the office of the Deputy General Counsel.

Persons who request that a sign language interpreter or other form of reasonable accommodation for a disability be provided at the hearing are asked to notify the Deputy General Counsel at the foregoing address by May 31, 2001.

The proposed amendments contain in brackets any parts of the existing rules that are to be deleted and contain underlines of any new parts that are to be added.

Statement of the Basis and Purpose. Chapter 472 of the Laws of 2000 revised the Energy Cost Savings Program ("ECSP") and the Lower Manhattan Energy Program (LMEP") so that the special rebate on eligible charges for gas and electricity would be based on "energy services" which include the charges for transmission and distribution of electricity and gas and exclude the costs of the commodities of electricity and gas. Prior to the amendments made by Chapter 472, the special rebate was based on "bundled services" which included the costs of both the commodity and delivery. Chapter 472 increased the percentages by which the special rebate is calculated to 45% of eligible charges for energy services related to the delivery of electricity and 35% of eligible charges for energy services related to the delivery of gas and directed that base to which the percentages would apply be reduced to "energy services", from which the commodity costs are excluded.

Applicants for ECSP and LMEP applying after October 31, 2000, would receive special rebates pursuant to the statutory rates. Applicants that applied before the effective date of Chapter 472 would be divided into two groups, those that qualified before July 1, 2001, and those that qualified after June 30, 2001. The increased percentages for these two groups would be implemented beginning with the first billing cycle after June 1, 2001. For the group that qualified before July 1, 2001, the rules would implement increases that would be equivalent to an increase effective as of November 1, 2000. Thus, the proposed amendments would provide separate schedules of higher rebate percentages that would apply to participants in ECSP and LMEP that were qualified to participate during part or all of the period from the effective date of Chapter 472 to June 30, 2001. Those that applied before the effective date but did not qualify until after June 30, 2001, would be subject to another set of lower percentages that would approximate equivalency with historic levels of program benefits but would not implement a retroactive adjustment to the effective date of Chapter 472.

The proposed rules would also revise the definition of energy services for purposes of the two programs.

The proposed rule was not anticipated and included in the regulatory agenda because it was not anticipated that these percentages would need to be increased at this point.

§5-17 Special Rebates for Those that Applied for ECSP Benefits Prior to November 1, 2000 and are Certified Prior to July 1, 2001

(a) Paragraph (4) of subdivision (a) of §22-602 of the Code states that the commissioner may increase the applicable percentages set forth in §5-16 of these rules "in order to maintain the special rebate at levels comparable to those historically provided under the program, pursuant to rules that are generally applicable to distinct classes of energy users." In accordance with this provision, the percentages set forth in §5-17(b) of these rules shall be applicable to the calculations of special rebates for all eligible energy users, eligible owners, qualified eligible energy users and on-site cogenerators that applied for ECSP benefits prior to November 1, 2000, and are certified prior to July 1, 2001. These percentages shall be in place from the first billing cycle after June 1, 2001 until the last billing cycle that begins prior to May 31, 2002, or until amended, whichever is later.

(b) For all billing cycles prior to the ninety-seventh month of each of the above-noted eligible energy user's, eligible owner's, qualified eligible energy user's and on-site cogenerator's benefit period occurring during the period beginning June 1, 2001, each such user shall receive rebates on eligible charges as specified in this paragraph; provided that the applicable rebate percentages shall not, for any affected electric or natural gas account, exceed 100% of the eligible charges charged in any billing cycle.

If, for any affected user, eligible charges for electrical-related energy services were rendered at more than one service classification and/or at more than one rate for a service classification, the rebate percentages specified in Attachment A to these rules shall apply to the extent that each applicable service classification and/or rate and/or service rider applies to such user. To the extent that any user is served under Con Edison's "PSC No. 9 - Electricity Rate Schedule", its rebate percentages shall be determined as if such user were served under Con Edison's PSC No. 2 – Retail Access Rate Schedule.

(2) The rebate percentage to be applied to eligible charges for electrical-related energy services provided by LIPA pursuant to its XXX rate schedule shall equal the percentages specified in Attachment B to these rules, which shall vary depending on such user's average monthly load factor, applicable service classification and the applicable rate, and whether such user receives discounts on service pursuant to a service rider. If, for any affected user, eligible charges for natural gas-related energy services were rendered at more than one service classification and/or at more than one rate for a service classification or if discounted service was provided to part of the consumption rendered through an account pursuant to a service rider or tariff provision, the rebate percentages specified in Attachment C to these rules shall apply to the extent that each applicable service classification and/or rate and/or service rider applies to such user. To the extent that such user is served under "PSC No. 9 - Gas Rate Schedule," its rebate percentages shall be determined as if such user were served under the corresponding full-service rate and service classification and rate.

(4) The rebate percentage to be applied to eligible charges for natural gas-related energy services provided by Keyspan pursuant to its "PSC No. 12 - Gas Rate Schedule" shall equal the percentages specified in Attachment D to these rules, which shall vary depending on the user's average monthly consumption, the applicable service classification and the applicable rate, and whether the user receives discounts on energy services rates pursuant to a service rider or other tariff provisions. If, for any affected user, eligible charges for natural gas-related energy services were rendered at more than one service classification and/or at more than one rate for a service classification or if discounted service was provided to part of the consumption rendered through an user pursuant to a service rider or tariff provision, the rebate percentages specified in Attachment D to these rules shall apply to the extent that each applicable service classification and/or rate and/or service rider or other tariff discount applies to such user.

(c) For all billing cycles after the ninety-sixth month of each of the above-noted user's benefit period and thereafter during the period beginning with the first billing cycle following June 1, 2001, and ending with the last billing cycle beginning prior to May 31, 2002, the applicable rebate percentages on eligible charges, determined as specified in §5-17(b) of these Rules, shall be multiplied by an adjustment factor, depending on the month of the benefit period in which the energy services were rendered; provided that the applicable rebate percentages shall not, for any affected electric or natural gas account, exceed 100% of the eligible charges charged at each energy services rate in any billing cycle. The adjustment factors are as follows:

Subchapter B, Eligibility and Amount of the Special Rebate, Chapter 5-A, the New York City Lower Manhattan Energy Program, is amended by adding a new §5-66 to read as follows:

§5-66 Special rebates for redistributors and users that applied for LMEP benefits prior to November 1, 2000 and were certified *prior to* July 1, 2001

In accordance*

with this provision, the percentages set forth in this section shall be applicable to the calculations of special rebates for all eligible redistributors of energy or directly metered eligible revitalization energy users that applied for LMEP benefits prior to November 1, 2000, and were certified prior to July 1, 2001, and for qualified eligible redistributors of energy that were certified prior to November 1, 2000. These percentages shall be in place from the first billing cycle after June 1, 2001 until the last billing cycle that begins prior to May 31, 2002, or until amended, whichever is later.

(b) Except as set forth in subdivision (d) of this section, for all billing cycles prior to the ninety-seventh month of each eligible redistributor of energy's or qualified eligible redistributor of energy's or directly metered eligible revitalization energy user's benefit period occurring during the period beginning June 1, 2001, each redistributor or user shall receive rebates on eligible charges as specified in this paragraph; provided that the applicable rebate percentages shall not, for any affected electric account, exceed 100% of the eligible charges charged in any billing cycle.

For **one**-year increase periods commencing on or after October 1, 2001 and on or before September 30, 2002: **2%**

Moreover, where a lease contained an escalator clause that the owner may validly renew under the Code, unless the owner elects or has elected in writing to delete such clause, effective no later than October 1, 2001 from the existing lease and all subsequent leases for such dwelling unit, the increased rental, if any, due under such escalator clause shall be offset against the amount of increase authorized under this Order.

SPECIAL ADJUSTMENTS UNDER PRIOR ORDERS

All rent adjustments lawfully implemented and maintained under previous apartment orders and included in the base rent in effect on September 30, 2001 shall continue to be included in the base rent for the purpose of computing subsequent rents adjusted pursuant to this Order.

PROPOSED SPECIAL GUIDELINE

Under Section 26-513(b)(1) of the New York City Administrative Code, and Section 9(e) of the Emergency Tenant Protection Act of 1974, the Rent Guidelines Board is obligated to promulgate special guidelines to aid the State Division of Housing and Community Renewal in its determination of initial legal regulated rents for housing accommodations previously subject to the City Rent and Rehabilitation Law which are the subject of a tenant application for adjustment. The Rent Guidelines Board hereby **proposes** the following Special Guidelines:

For dwelling units subject to the Rent and Rehabilitation Law on September 30, 2001, which become vacant after September 30, 2001, the special guideline shall be the **greater** of the following:

(1) **150%** above the maximum base rent as it existed or would have existed, plus the allowable fuel cost adjustment, or

(2) The **Fair Market Rent** for existing housing as established by the United States Department of Housing and Urban Development (HUD) for the New York City Primary Metropolitan Statistical Area pursuant to Section 8(c) (1) of the United States Housing Act of 1937 (42 U.S.C. section 1437f [c] [1]) and 24 C.F.R. Part 888, with such Fair Market Rents to be adjusted based upon whether the tenant pays his or her own gas and/or electric charges as part of his or her rent as such gas and/or electric charges are accounted for by the New York City Housing Authority.

Such HUD-determined Fair Market Rents will be published in the Federal Register, to take effect on October 1, 2001.

DECONTROLLED UNITS

The permissible increase for decontrolled units as referenced in Order 3a which become decontrolled after September 30, 2001, shall be the **greater** of the following:

(1) **150%** above the maximum base rent as it existed or would have existed, plus the allowable fuel cost adjustment, or

(2) The **Fair Market Rent** for existing housing as established by the United States Department of Housing and Urban Development (HUD) for the New York City Primary Metropolitan Statistical Area pursuant to Section 8(c) (1) of the United States Housing Act of 1937 (42 U.S.C. section 1437f [c] [1]) and 24 C.F.R. Part 888, with such Fair Market Rents to be adjusted based upon whether the tenant pays his or her own gas and/or electric charges as part of his or her rent as such gas and/or electric charges are accounted for by the New York City Housing Authority.

Such HUD-determined Fair Market Rents will be published in the Federal Register, to take effect on October 1, 2001.

CREDITS

Rentals charged and paid in excess of the levels of rent increase established by this Order shall be fully credited against the next month's rent.

INVOCATION

One might have worded the first commandment "I am the Lord your God creator of the universe" rather than "who took you out of Egypt, out of the house of bondage". Which, after gall, seems more significant?

But the message to those standing at Mount Sinai was that although it was many, many years past creation, the Almighty was as involved in the affairs of humanity then, as He was from the beginning.

So too now, the message of Passover thousands of years after Mount Sinai that the Almighty continues to intimately guide our affairs even when situation seems hopelessly unclear.

Therefore I extend my blessing to this meeting of the City Council so that it will also benefit from this guidance. Amen.

Council Member Rivera moved to spread the Invocation in full upon the Record.

ADOPTION OF MINUTES

Council Member Lopez moved that the Minutes of the Stated Meeting of February 7, 2001 be adopted and printed.

MESSAGES & PAPERS FROM THE MAYOR

M-1087

Communication from the Mayor – Mayor's veto and disapproval message of Introductory Number 640, to amend the administrative code of the city of New York, in relation to collective bargaining involving the uniformed forces in the city of New York.

March 19, 2001

Hon. Carlos Cuevas
City Clerk and Clerk of the City Council
Municipal Building
New York, New York 10007

Dear Mr. Cuevas:

Pursuant to section 37 of the New York City Charter, I hereby disapprove Introductory Number 640, in relation to granting fire alarm dispatchers and supervisors of fire alarm dispatchers uniformed employee status for purposes of collective bargaining. This bill seeks to reclassify the employment designation of fire alarm dispatchers and fire alarm dispatch supervisors from, civilian status to uniformed.

Introductory Number 640 is illegal because it constitutes an attempt by the Council to act unilaterally on matters that are exclusively the subject of collective bargaining. Under the State Taylor Law, and the City Charter, the power to negotiate collective bargaining agreements clearly rests with the Mayor, not the City Council. The Council may only enact legislation needed to implement changes agreed upon through bargaining conducted by the Mayor and City unions. Introductory Number 640 is inconsistent with the Taylor Law, and the City Charter and is therefore invalid. *See PERB Counsel Opinion 18-01(1985)* (where the public employer has discretion to grant or not grant workers compensation coverage, this is a subject for collective bargaining and not unilateral action by the local legislative body).

This legislation illegally curtails the power of the Mayor and mayoral agencies to set the terms and conditions of employment for City employees. The Mayor and mayoral agencies have responsibilities regarding determinations of salary and other terms and conditions of employment pursuant to General Municipal Law §92, City Charter §106, and Administrative Code §12-102. Introductory Number 640 would inappropriately involve the City Council in these matters, usurping the authority of the executive granted by these provisions. In essence, the bill curtails the power of the Mayor and mayoral agencies with respect to collective bargaining and the determination of terms and conditions of employment.

The Collective Bargaining Law has its genesis in a 1966 "Tripartite Agreement" signed by the Mayor's office, the leaders of the major City employee organizations, and certain neutral parties. Subsequent amendments to the Collective Bargaining Law, such as Local Law 1 of 1972, were also enacted only after agreements were reached between these parties. In fact, over the last thirty years, the Council has only amended the Law at the behest of the Tripartite Committee. Introductory Number 640, on the other hand, is a unilateral action by the Council, not an end product of labor negotiations.

Fire alarm dispatchers and their supervisors are covered by the Career and Salary Plan. The City Collective Bargaining Law already provides a process that may be used when a particular group of employees covered by the Career and Salary Plan seek to be treated differently than other employees covered by the Career and Salary Plan. The Administrative Code § 12-307(a)(2) states that "Nothing contained herein shall be construed to deny to a public employer or certified employee organization the right to bargain for a variation or a particular application of any city-wide policy or any term of any agreement executed pursuant to this paragraph where considerations special and unique to a particular department, class of employees, or a collective bargaining unit are involved." The key word here is bargaining, not legislation. Introductory Number 640 reflects no effort on the part of the affected employees to use the lawful procedures already available to them to bargain for the uniformed status that this legislation would give them.

Fire alarm dispatchers and their supervisors are dedicated, hardworking employees of the City of New York. However, this bill, which ignores available avenues of collective bargaining, is clearly illegal. Moreover, its enactment would have long-term consequences that would irreversibly weaken collective bargaining practices between the City and all of its municipal unions. If local legislation can be used to do an end-run around collective bargaining, less than complete and efficient efforts will be expended at the bargaining table, and negotiating will be merely viewed as an option rather than a solution. This scenario is unacceptable for the City of New York.

For all the foregoing reasons, I hereby disapprove Introductory Number 640.

Sincerely,

Rudolph W. Giuliani
Mayor

Referred to the Committee on Fire and Criminal Justice Services.

March 19, 2001

Hon. Carlos Cuevas
City Clerk and Clerk of the City Council
Municipal Building
New York, New York 10007

Dear Mr. Cuevas:

Pursuant to section 37 of the New York City Charter, I hereby disapprove Introductory Number 641, in relation to granting emergency medical technicians ("EMTs"), advanced emergency medical technicians ("paramedics"), and supervisors of EMTs and paramedics ("supervisors") uniformed employee status for purposes of collective bargaining. This bill seeks to reclassify the employment designation of EMTs, paramedics, and their supervisors from civilian status to uniformed.

Introductory Number 641 is illegal because it constitutes an attempt by the Council to act unilaterally on matters that are exclusively the subject of collective bargaining. Under the State Taylor Law, and the City Charter, the power to negotiate collective bargaining agreements clearly rests with the Mayor, not the City Council. The Council may only enact legislation needed to implement changes agreed upon through bargaining conducted by the Mayor and City unions. Introductory Number 641 is inconsistent with the Taylor Law, and the City Charter and is therefore invalid. *See PERB Counsel Opinion 18-01(198.5)* (where the public employer has discretion to grant or not grant workers compensation coverage, this is a subject for collective bargaining and not unilateral action by the local legislative body).

This legislation illegally curtails the power of the Mayor and mayoral agencies to set the terms and conditions of employment for City employees. The Mayor and mayoral agencies have responsibilities regarding determinations of salary and other terms and conditions of employment pursuant to General Municipal Law §92, City Charter § 106, and Administrative Code § 12-102. Introductory Number 641 would inappropriately involve the City Council in these matters, usurping the authority of the executive granted by these provisions. In essence, the bill curtails the power of the Mayor and mayoral agencies with respect to collective bargaining and the determination of terms and conditions of employment.

The Collective Bargaining Law has its genesis in a 1966 "Tripartite Agreement" signed by the Mayor's office, the leaders of the major City employee organizations, and certain neutral parties. Subsequent amendments to the Collective Bargaining Law, such as Local Law 1 of 1972, were also enacted only after agreements were reached between these parties. In fact, over the last thirty years, the Council has only amended the Law at the behest of the Tripartite Committee. Introductory Number 641, on the other hand, is a unilateral action by the Council, not an end product of labor negotiations.

EMTs, paramedics, and their supervisors are covered by the Career and Salary Plan. The City Collective Bargaining Law already provides a process that may be used when a particular group of employees covered by the Career and Salary Plan seek to be treated differently than other employees covered by the Career and Salary Plan. The Administrative Code § 12-307(a)(2) states that "Nothing contained herein shall be construed to deny to a public employer or certified employee organization the right to bargain for a variation or a particular application of any city-wide policy or any term of any agreement executed pursuant to this paragraph where considerations special and unique to a particular department, class of employees, or a collective bargaining unit are involved." The key word here is bargaining, not legislation. Introductory Number 641 reflects no effort on the part of the affected employees to use the lawful procedures already available to them to bargain for the uniformed status that this legislation would give them.

EMTs, paramedics, and their supervisors are dedicated, hardworking employees of the City of New York. However, this bill, which ignores available avenues of collective bargaining, is clearly illegal. Moreover, its enactment would have long-term consequences that would irreversibly weaken collective bargaining practices between the City and all of its municipal unions. If local legislation can be used to do an end-run around collective bargaining, less than complete and efficient efforts will be expended at the bargaining table, and negotiating will be merely viewed as an option rather than a solution. This scenario is unacceptable for the City of New York.

For all the foregoing reasons, I hereby disapprove Introductory Number 641.

Sincerely,

Rudolph W. Giuliani
Mayor

Referred to the Committee on Fire and Criminal Justice Services.

M-1089

Communication from the Mayor – Mayor's veto and disapproval message of Introductory Number 879, to amend the administrative code of the city of New York, in relation to campaign financing.

March 16, 2001

Hon. Carlos Cuevas
City Clerk and Clerk of the Council
Municipal Building
New York, NY 10007.

Dear Mr. Cuevas:

Pursuant to section 37 of the New York City Charter, I hereby disapprove Introductory Number 879, in relation to campaign financing. As set forth below, this legislation ignores the will of the voters by re-imposing and expanding taxpayer-funded matching rates for political campaigns that the voters rendered obsolete. As such, the bill would dole out public funds to political office seekers at a runaway rate without any justification, radically altering the way in which the City's Campaign Finance Program ("Program") operated during its first ten years of existence.

The bill would provide candidates participating in the Program with four City matching dollars for every one dollar raised by the candidates. Participating candidates would be capped at $1,000 in matching funds per contributor. The bill

would also provide a participating candidate five City dollars for every one dollar raised when the candidate faces a significant opponent who chooses not to take part in the Program. At the five-to-one match rate, candidates would be capped at $1,250 in matching funds per contributor.

When the Program was first enacted in 1988, participating candidates were awarded one public matching dollar for every private dollar raised. In the event that a candidate faced a significant opponent who was not in the Program, the participating candidate received two City dollars for every private dollar raised. These match rates were capped at $1,000 and $2,000 per contributor. These rates served the City well for nearly a decade.

In 1998, the City Council amended the law to provide an incentive for participating candidates to forgo corporate contributions. The law rewarded participating candidates who refused corporate money with four public dollars for each dollar raised. Candidates who refused corporate contributions and who faced a significant nonparticipating opponent were granted five City dollars per every private dollar raised. These match rates were capped at $1,000 per contributor for those receiving the four-to-one match, and $1,250 per contributor for those receiving the five-to-one match. Later in 1998, the voters amended the City Charter at a referendum to entirely ban corporate contributions to participating candidates. After the voters made corporate contributions illegal, the rationale for rewarding those candidates with additional public funds beyond the one-to-one and two-to-one match rates was eliminated. Otherwise, the same voters and taxpayers would be forced into the absurd position of rewarding participating candidates for not engaging in illegal conduct.

Despite the fact that the need for the higher match rates was eliminated by the voters, and that no credible evidence exists that additional incentives are needed to attract candidates into the Program, the Council remains determined to allow politicians to finance the bulk of their campaigns with taxpayer dollars. By attempting to re-impose and expand the four-to-one and five-to-one match rates, this bill ignores the will of the voters by seeking to force those voters and taxpayers to dole out funds to all participating candidates using matching rates that the voters rendered unnecessary. With a record number of candidates ready to seek office in 2001, should this bill become law, the Program could cost the taxpayers up to $110 million this year alone. Compared to 1997, when the Program cost taxpayers approximately $7 million, this would be a nearly 16 fold cost increase in just one major election cycle.

I support the Program in its original form. The system enacted in 1988, with the one-to-one and two-to-one match rates, served the City well. Those match rates were reasonable expenditures that supported sound policy. A reasonable taxpayer contribution is an integral part of the Program, and in three major City election years, participating candidates mounted prolific, well-publicized campaigns using the one-to-one and two-to-one matching formulae. Therefore, the notion that the Program cannot survive without the four-to-one and, five-to-one match rates is baseless and contradicts past experience.

The Program was never intended to be a massive taxpayer-funded subsidy for politicians. The original one-to-one and two-to-one matching rates are a proven, prudent use of taxpayer money. This bill ignores that precedent and would squander public funds on an unnecessarily large giveaway.

For all the foregoing reasons, I hereby disapprove Introductory Number 879.

Sincerely,

Rudolph W. Giuliani
Mayor

Int. No. 165-A

Report of the Committee on Contracts in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the City of New York, in relation to requiring City contractors to comply with the city's human rights law.

The Committee on Contracts to which was referred on February 26, 1998 (Minutes, page 703) the annexed amended local law respectfully

REPORTS:

Title VIII of the Administrative Code recognizes that there is no greater danger to the health, safety and welfare of the City and its inhabitants than the existence of groups prejudiced against one another because of their actual or perceived differences, including those based on race, color, creed, age, national origin, alienage or citizenship status, gender, sexual orientation, disability, or marital status.[1] Accordingly, Title VIII attempts to address the alleged incidents of prejudice, intolerance, bigotry, discrimination, bias-related violence or harassment through the Human Rights Commission to ensure the citizens of the City that overall discriminatory practices are not tolerated.

Int. No. 165-A requires that contractors and most subcontractors doing business with the City refrain from any unlawful discriminatory practices as defined and pursuant to the terms of Title VIII of the Administrative Code.[2]

[1] See Administrative Code § 8-101.

[2] The term "unlawful discriminatory practice" includes only those practices specified in § 8-107. CURRENT CITY REQUIREMENTS

Currently, the City's boilerplate contract provisions contain the following language with respect to discriminatory practices:

1. Pursuant to New York State Labor Law § 220-e, contractors and subcontractors are prohibited from discriminating in hiring based on race, creed, color, sex, or national origin. In addition, they are prohibited from discriminating or intimidating any employee based on race, creed, color, sex or national origin.

2. New York City Administrative Code § 6-108 makes it unlawful for contractors engaged in the construction, alteration, or repair of buildings, streets, highways, or contractors engaged in the manufacture, sale or distribution of materials, equipment or supplies, to refuse employment or the continuation of employment to someone on the basis of race, color or creed.

3. Executive Order No. 50, entitled Equal Employment Opportunity, prohibits:

a. discrimination by contractors based on race, creed, color, national origin, sex, age, disability, marital status or sexual orientation with respect to all employment-related decisions including hiring, promotion, demotion, downgrading, transfer, training, compensation, layoff and termination; and

b. discrimination by contractors in the selection of subcontractors based on race, color, national origin, sex, age, disability, marital status or sexual orientation.

In addition, Executive Order 50 requires that contractors place in all employment advertisements, as well as notify each labor organization with which they have collective bargaining agreements, that they will not discriminate based on race, color, national origin, sex, age, disability, marital status or sexual orientation - or, in the alternative, that they are an equal opportunity employer.[3]

4. The MacBride Principles (Administrative Code § 6-115.1) are the principles relating to non-discrimination and freedom of workplace opportunity which require employers doing business in Northern Ireland to undertake certain procedures to increase the representation of underrepresented religious groups in the workforce.

a. For competitive sealed bids, there is a 5% price preference for firms that agree to comply with the MacBride Principles.

b. For other award methods, any contractor not agreeing to abide by the MacBride Principles will not be awarded the contract unless the contracting agency certifies in writing that the contract is necessary and cannot be obtained (for the same quality or price) from another vendor.

5. Pursuant to Title II of the Americans with Disabilities Act of 1990 ("ADA"), City contractors shall not discriminate against an individual with a disability (as defined in the ADA) in providing services, programs, or activities pursuant to the agreement.

INT. NO. 165 –A ANALYSIS

Section one of Int. 165-A amends title 6 of the administrative code by adding a new section 6-123.

Subdivision (a)(1) of proposed section 6-123 defines the term "contract" as any written agreement, purchase order or instrument whereby the City is committed to expend or does expend funds in return for work, labor, services, supplies, equipment, materials, or any combination of the foregoing. In addition, for purposes of this section only, unless otherwise required by law, the term "contract" shall also include any City grant, loan, guarantee or other City assistance for a construction project. The term "contract" shall not include: contracts for financial or other assistance between the City and a government or government agency; or contracts, resolutions, indentures, declarations of trust, or other instruments authorizing or relating to the authorization, issuance, award, and sale of bonds, certificates of indebtedness, notes or other fiscal obligations of the City or consisting thereof.

Subdivision (a)(2) of proposed section 6-123 defines the term "contracting agency" as a city, county, borough, or other office, position, administration, department, division, bureau, board or commission, or a corporation, institution or agency of government, the expenses of which are paid in whole or in part from the city treasury.

Subdivision (a)(3) of proposed section 6-123 defines the term "contractor" as a person who is a party or a proposed party to a contract with a contracting agency as those terms defined herein.

Subdivision (b) of proposed section 6-123 states that all contractors doing business with the city without regard to the dollar amount shall not engage in any unlawful discriminatory practice as defined and pursuant to the terms of title viii of the administrative code. Every contract in excess of $50,000 shall contain a provision or provisions detailing the requirements of this section.

Subdivision (c) of proposed section 6-123 states that the contractor will not engage in any unlawful discriminatory practice as defined in Title VIII of the administrative code. In the case of a contract for supplies or services, the contractor shall include a provision in any agreement with a first-level subcontractor for an amount in excess of $50,000 that such subcontractor shall not engage in such unlawful discriminatory practice. In the case of a contract for construction, the contractor shall include a provision in all subcontracts for an amount in excess of $50,000 that the subcontractor shall not engage in such unlawful discriminatory practice.

Subdivision (d) of proposed section 6-123 states that upon receiving a complaint or at his or her own instance, the commissioner of business services, acting pursuant to section 1305 of the charter, may conduct such investigation as may be necessary to determine whether contractors and subcontractors are in compliance with the equal employment opportunity requirements of federal, state and local laws and executive orders. If the commissioner has reason to believe that a contractor or subcontractor is not in compliance with the provisions of this section, or where there has been a final adjudication by the human rights commission or a court of competent jurisdiction that a contractor has violated one or more of the provisions of Title VIII of the administrative code, as to its work subject to the contract with the contracting agency, the commissioner of business services shall seek the contractor's or subcontractor's agreement to adopt and adhere to an employment program designed to ensure equal employment opportunity, including but not limited to measures designed to remedy underutilization of minorities and women in the contractor's or subcontractor's workforce, and may, in addition, recommend to the contracting agency that payments to the contractors be suspended pending a determination of the contractor's or subcontractor's compliance with such requirements. If the contractor or subcontractor does not agree to adopt or does not adhere to such a program, the commissioner shall make a determination as to whether the contractor or subcontractor is in compliance with the provisions of this section, and shall notify the head of the contracting agency of such determination and any sanctions, including withholding of payment, imposition of an employment program, finding the contractor to be in default, cancellation of the contract, or other sanction or remedy provided by law or by contract, which the commissioner believes should be imposed. The head of contracting agency shall impose such sanction unless he or she notifies the commissioner in writing that the agency head does not agree with the recommendation, in which case the commissioner and the head of the contracting agency shall jointly determine any sanction to be imposed. If the agency head and the commissioner do not agree on the sanction to be imposed, the matter shall be referred to the mayor, who shall determine any sanction to be imposed.

Subdivision (e) of proposed section 6-123 states that nothing in this section shall be construed to limit the city's authority to cancel or terminate a contract, deny or withdraw approval to perform a subcontract or provide supplies, issue a non-responsibility finding, issue a non-responsiveness finding, deny a person or entity pre-qualification, or otherwise deny a person or entity city business.

Section two of proposed Int. No. 165-A shall take effect forty-five days after its enactment into law and shall apply to contracts for which bids or proposals are first solicited after such effective date.

On January 22, 2001, the Committee on Contracts voted 9-0 in favor of adopting Int. 165-A. On February 7, 2001, the full Council voted 40-5 in favor of adopting Int. 165-A. [3] In Under 21 v. City of New York, 65 N.Y.2d 344 (1985), Executive Order 50 was challenged on the grounds that Mayor Koch had exceeded his authority in forbidding those who secure contracts with the City from refusing to hire people on the basis of sexual orientation. The Court of Appeals ruled that the Mayor had no authority to initiate that policy. The ruling did not address the extent to which the City may regulate the employment practices of those with whom it does business, but simply revolved around the issue of whether the executive may forbid discrimination by contractors on a ground not covered by any legislative enactment. In addition, the Court rejected the claim that Executive Order 50 be found entirely invalid, arguing that that the Mayor may enforce existing State and City laws prohibiting employment discrimination through the establishment of an additional enforcement mechanism.

In 1986, Local Law 2 was enacted which amended Title VIII of the Administrative Code to include "sexual orientation" as a protected class pursuant to the City's Human Rights Law. Shortly after, Mayor Koch issued Executive Order 94 of 1986. The order sought to amend Executive Order 50 and restore the language that had been invalidated by the Court of Appeals, thereby prohibiting discrimination by contractors on the basis sexual orientation, pursuant to the City's Human Rights Law.

A LOCAL LAW to amend the administrative code of the city of New York in relation to discrimination by city contractors

Be it enacted by the Council as follows:

Section 1. Chapter 1 of title 6 of the administrative code of the city of New York is hereby amended to add a new section 6-123 to read as follows:

§ 6-123. Contractor human rights compliance. a. For purposes of this section only, the following terms shall have the following meanings:

(1) *"Contract" means any written agreement, purchase order or instrument whereby the city is committed to expend or does expend funds in return for work, labor, services, supplies, equipment, materials, or any combination of the foregoing.*

(a) *For purposes of this section only, unless otherwise required by law, the term "contract" shall include any city grant, loan, guarantee or other city assistance for a construction project.*

(b) *The term "contract" shall not include:*

(i) *contracts for financial or other assistance between the city and a government or government agency; or*

(ii) *contracts, resolutions, indentures, declarations of trust, or other instruments authorizing or relating to the authorization, issuance, award, and sale of bonds, certificates of indebtedness, notes or other fiscal obligations of the city, or consisting thereof.*

(2) *"Contracting agency" means a city, county, borough, or other office, position, administration, department, division, bureau, board or commission, or a corporation, institution or agency of government, the expenses of which are paid in whole or in part from the city treasury.*

(3) *"Contractor" means a person who is a party or a proposed party to a contract with a contracting agency as those terms are defined herein.*

b. *All contractors doing business with the city without regard to the dollar amount shall not engage in any unlawful discriminatory practice as defined and pursuant to the terms of title viii of the administrative code. Every contract in excess of $50,000 shall contain a provision or provisions detailing the requirements of this section.*

c. *The contractor will not engage in any unlawful discriminatory practice as defined in title viii of the administrative code. In the case of a contract for supplies or services, the contractor shall include a provision in any agreement with a first-level subcontractor for an amount in excess of $50,000 that such subcontractor shall not engage in such an unlawful discriminatory practice. In the case of a contract for construction, the contractor shall include a provision in all subcontracts in excess of $50,000 that the subcontractor shall not engage in such an unlawful discriminatory practice.*

d. *Enforcement, remedies, and sanctions. Upon receiving a complaint or at his or her own instance, the commissioner of business services, acting pursuant to section 1305 of the charter, may conduct such investigation as may be necessary to determine whether contractors and subcontractors are in compliance with the equal employment opportunity requirements of federal, state and local laws and executive orders. If the commissioner has reason to believe that a contractor or subcontractor is not in compliance with the provisions of this section, or where there has been a final adjudication by the human rights commission or a court of competent jurisdiction that a contractor has violated one or more of the provisions of title viii of the administrative code, as to its work subject to the contract with the contracting agency, the commissioner of business services shall seek the contractor's or subcontractor's agreement to adopt and adhere to an employment program designed to ensure equal employment opportunity, including but not limited to measures designed to remedy underutilization of minorities and women in the contractor's or subcontractor's workforce, and may, in addition, recommend to the contracting agency that payments to the contractor be suspended pending a determination of the contractor's or subcontractor's compliance with such requirements. If the contractor or subcontractor does not agree to adopt or does not adhere to such a program, the commissioner shall make a determination as to whether the contractor or subcontractor is in compliance with the provisions of this section, and shall notify the head of the contracting agency of such determination and any sanctions, including the withholding of payment, imposition of an employment program, finding the contractor to be in default, cancellation of the contract, or other sanction or remedy provided by law or by contract, which the commissioner believes should be imposed. The head of the contracting agency shall impose such sanction unless he or she notifies the commissioner in writing that the agency head does not agree with the recommendation, in which case the commissioner and the head of the contracting agency shall jointly determine any sanction to be imposed. If the agency head and the commissioner do not agree on the sanction to be imposed, the matter shall be referred to the mayor, who shall determine any sanction to be imposed.*

e. *Nothing in this section shall be construed to limit the city's authority to cancel or terminate a contract, deny or withdraw approval to perform a subcontract or provide supplies, issue a non-responsibility finding, issue a non-responsiveness finding, deny a person or entity pre-qualification, or otherwise deny a person or entity city business.*

§2. This local law shall take effect 45 days after its enactment into law and shall apply to all contracts for which bids or proposals are first solicited after such effective date.

b. The partial tax exemption granted hereunder shall terminate with respect to all or any portion of the Disposition Area if the Department of Housing Preservation and Development determines that such real property has not been, or is not being, developed, used, and/or operated in compliance with the requirements of all applicable agreements made by the Sponsor or the owner of such real property with, or for the benefit of, the City of New York. The Department of Housing Preservation and Development shall deliver written notice of any such determination of noncompliance to the owner of such real property and all mortgagees of record, which notice shall provide for an opportunity to cure of not less than ninety (90) days. Report of the Committee on Governmental Operations

Int. No. 880

Report of the Committee on Governmental Operations in favor of filing a local law to amend the charter of the city of New York, in relation to repealing term limits for council members.

The Committee on Governmental Operations to which was referred on February 7, 2001 (Minutes, page 402) the annexed local law respectfully

REPORTS:

In May 1993, a group known as New Yorkers for Term Limits filed a petition in the Office of the City Clerk that sought to place the issue of term limits on the ballot for public referendum. Specifically, the initiative sought to limit to not more than eight consecutive years the time elected officials can serve as Mayor, Public Advocate, Comptroller, Borough President and Council Member.

On June 17, 1993, the City Clerk certified that the petition did not comply with all requirements of law, on the grounds that there was no statutory authority for the local law proposal in the petition, and that the Charter amendment, if enacted, would unconstitutionally infringe on the voter's right to choose candidates of their choice.

New Yorker's for Term Limits filed a lawsuit against the City Clerk requesting that the Court direct the City Clerk to issue a certificate that the petition properly complied with all the requirements of law. The Court granted the petition, thus requiring the referendum to be placed on the November 1993 ballot. On appeal, both the Appellate Division, First Department and the Court of Appeals affirmed the decision.

The initiative passed. The 1993 referendum added Charter Sections 1137 and 1138 which provides that no person shall be eligible to serve in the office of Mayor, Public Advocate, Comptroller, Borough President, or Council Member if that person previously held such office for two full consecutive terms (in the case of a Council Member, one of those terms must be a four-year term) for those terms commencing on or after January 1, 1994, unless one full term or more has elapsed since that person last held such office.

Serious concerns were raised by civic groups, business groups and community leaders concerning the impact of such a dramatic change at one time on the governance of New York City that would result from this referendum. In the Spring of 1996, the Committee on Governmental Operations held a series of public hearings to examine the implications of term limits. The Committee held a total of six hearings, which took place in all five boroughs and reached out to a wide spectrum of civic, religious, cultural, neighborhood, educational and political groups and institutions.

Int. No. 761-A was drafted as a result of the testimony at those hearings. The bill increased to twelve the maximum number of consecutive years allowed to be served by all elected officials. This would have created a mechanism for staggering the terms for Council Members. Int. No. 761-A was passed by the Council in July 1996 and was placed on the ballot in the November 1 996 election. The proposal was defeated by a vote of the electorate in that election.

Int. No. 880 repeals only the term limits provision for Council Members and maintains the term limits for the Office of Mayor, Public Advocate, Comptroller or Borough President.

Int. No. 880 would take effect immediately without a referendum.

The Sponsors of Int. No. 880 argue that unintended consequences would result from the implementation of term limits with regard to Council Members. They specifically argue that:

a) Under be current Charter, voters in up to 35 Council Districts would be denied the right to vote :or their incumbent Council Members, while voters in 1 6 council Districts would be able to vote for incumbent Members. A significant number of senior members would be arbitrarily removed from office at the same time. The impact of this forced exodus falls heavily on minority voters and the minority communities of the City, whose representatives have gained seniority and committee chairs and other leadership positions in recent years.

b) Term limits would deprive the electorate of the right to democratically elect local representatives of its choosing.

c) The term limits provision would cause the wholesale dumping of the institutional memory and long-term perspective of the City Council.

d) The term limits provision adopted by public referendum constitutes an inappropriate imposition by the majority of voters on the individual liberties and voting rights of all voters and that this undue power of the majority is contrary to well-established standards of democracy.

e) The referendum imposing term limits deprived voters of the means to distinguish between the Council and the elected offices of the Executive Branch since all offices were grouped together .end only one vote could be cast. Generally, term limits are reserved for the executive office because, unlike the legislative body, such office is given unilateral power to effect many decisions.

f) Anomalies in how long certain Council Members would serve depending on the year they are elected materially disenfranchise some voters and result in unequal electoral opportunities among voters.

g) New York City's highly regarded campaign finance laws, which provide significant public funds for candidates, level the playing field, with respect to the cost of running for and therefore eliminate the usual advantages of incumbency.

On March 15, 2001, the Committee on Governmental Operations voted down Int. No. 880 by a vote of 4 in the positive and 5 in the negative, and passed a motion to file the bill by a vote of 5 in the positive and 4 in the negative.

The Committee recommends that Int. No. 880 be filed by the full Council.

Int. No. 864

Report of the Committee on Health in favor of approving and adopting, a local law to amend the administrative code of the city of New York, in relation to the performance of duties of peace officers at public hospitals and health facilities funded in whole or in part from the city treasury.

The Committee on Health to which was referred on January 24, 2001 (Minutes, page 247) the annexed local law respectfully

REPORTS:

On Tuesday, February 6, 2001, the Committee on Health held a hearing on Int. No. 864. Int. No. 864 requires that any government corporation operating health facilities and providing health and medical services whose expenses are paid in whole or in part by the City and who is authorized to employ special officers having peace officer status as defined by New York criminal procedure law §2.10[40] use such peace officers to perform the duties of special officer, senior special officer and hospital security officer. Int. No. 864 was voted out of Committee on February 6,2001, and was adopted by the full Council on February 7, 2001. Mayor Rudolph Giuliani vetoed the bill on March 7, 2001. The Mayor's veto message was received by the full Council on March 14, 2001 and was referred to the Committee on Health. Today, the Committee on Health meets to receive the Mayor's veto message and pass Int. No. 864 notwithstanding the objections of the Mayor.

Hundreds of thousands of patients come to HHC facilities every year to receive emergency treatment, inpatient care, outpatient clinical visits, nursing and rehabilitative services. Open 24 hours-a-day, seven days-a-week, HHC's 11 acute care hospitals are constantly filled with the steady flow of staff, patients and visitors. In addition to being the locus of patient care, HHC facilities house a significant amount of property and other sensitive materials, including medical equipment, computers, wheelchairs and other prosthetic devices, pharmaceuticals, patient property and laboratory specimens. The exceptional amount of activity caused by the constant traffic throughout HHC facilities, coupled with the often emotionally charged environment of HHC's many emergency and trauma units, calls for the deployment of effective security personnel to ensure the safety of HHC staff, patients and visitors, and to safeguard HHC property against theft.

Currently, HHC police hold peace officer status. This status has allowed HHC police to be an effective security body with the authority and ability to react to crimes on the spot and to discharge critical law enforcement functions essential to protecting the health and safety of HHC patients, staff and visitors. Despite overwhelming evidence supporting the need of peace officers in HHC hospitals, including scores of arrests by hospital police for criminal conduct occurring on the premises, HHC is seeking to replace the peace officers currently deployed at its facilities with security guards who would not have such enforcement capabilities, citing an estimated $10 million in savings per year as the impetus for the change.

Since the establishment of HHC in 1970, a professional security presence has always been deployed in the Corporation's facilities. The New York Police Department (NYPD) initially patrolled HHC facilities from 1970 until 1 97 3, at which time special patrolmen deputized by the NYPD Commissioner replaced the NYPD officers. In 1980, Article 2 of the New York State Criminal Procedure Law was adopted, and included "special officers employed by the New York city health and hospitals corporation" (McKinney's Criminal Procedure Law, §2.10[40]), as individuals with peace officer status. After the adoption of Article 2, peace officers gradually became the only officers to patrol HHC facilities. Currently, there are 837 peace officers employed at HHC facilities throughout the five boroughs.

As peace officers, HHC police have a number of law enforcement powers, including the ability to make warrantless searches and arrests, the ability to use physical force and deadly physical force to make an arrest or prevent an escape, the power to disarm individuals carrying unauthorized firearms, and the power to issue summonses. (McKinney's Criminal Procedure Law §2.20) These powers allow peace officers to authoritatively and instantaneously combat illicit activities within HHC facilities.

These powers have not gone unused: In 1998 alone, there were a total of 1391 reported felonies and misdemeanors at HHC's 11 Acute Care Facilities. This number does not include felonies and misdemeanors perpetrated at HHC's other nine facilities. A review of incident reports taken by HHC peace officers reveals criminal activity which is often violent in nature, and includes incidents such as concealment of weaponry, robbery and sexual assault of patients, staff, and visitors. The powers granted to HHC police as peace officers allows them to effectively respond to such incidents.

A security force without peace officer status would not be able to respond to criminal activity as effectively as the peace officers currently employed by HHC. For example, a security corps consisting of security guards would have no statutory authority to make arrests or use physical force. Thus, while a security guard is, by definition, allowed to protect people and property from harm, theft, or other unlawful activity, and to deter, observe, and report unlawful incidents (McKinney's General Business Law §89-f), security guards are given no actual power to provide such protection or deterrence. In the event of a disturbance, a security guard could do little more than call the NYPD to report an incident at an HHC facility, ask for a qualified professional response, and wait. Given the high incidence of criminal activity at HHC facilities, security guards with no law enforcement powers would, in many cases, be unable to provide safety to the patients, staff and visitors of those facilities.

In addition to having law enforcement powers, peace officers are also required to undergo a 35 hour training program. (McKinney's Criminal Procedure Law §2.30) However, while New York State mandates only 3 5 hours of training for peace officers, HHC hospital police currently receive five weeks of training. The training program for peace officers is structured and approved by the Municipal Police Training Council, and focuses on a number of law enforcement areas, including the proper use of force and deadly physical force, the power to possess and take custody of firearms not owned by peace officers, relevant penal law articles, accusatory instruments (i.e., complaints) and the laws of search and seizure and arrest. Peace officers must also be trained in preliminary investigations, crime scene searches (including evidence collection, handling, and preservation), eye witness identification, the issuance of *Miranda* warnings, interview and interrogation techniques, the taking of statements and confessions, and giving court testimony. An additional 10 hours of training on deadly physical force and weapons other than firearms is required for those peace officers who are authorized to carry and use a weapon other than a firearm (i.e., baton) as a part their official duties. These peace officers must also take an annual six hour continuing education course on deadly physical force and weapons other than firearms.

The training requirements for security guards, on the other hand, is less complete. The Security Guard Advisory Council, the body responsible for setting minimum training standards for security guards, only requires completion of an 8 hour pre-assignment training course and a 16 hour on-the-job training course. Topics covered in each training course include, discussion of the role of security guards, the legal powers and limitations of security guards, emergency situations, access control, communications and public relations, and ethics and conduct.

The difference in the length and content of the training regimens of peace officers and security guards underscores the vast disparity in expertise and professionalism between the two groups. Peace officers are trained as law enforcers equipped (both by law and by training) to actively deal with criminal activity, while security officers have neither the tools nor the training to act as proactive security personnel, thereby jeopardizing the health and safety of HHC patients, staff and visitors. The Council believes that requiring any government corporation operating health facilities and providing health and medical services the expenses of which are paid in whole or in part by the City and which is authorized to employ special officers having peace officer status as defined by New York Criminal Procedure Law §2.10[40]to use such peace officers to perform the duties of special officer, senior special officer and hospital security officer is of paramount importance to the City's public health system.

Int. No. 864 would add section 17-182 to title 17 of the New York City Administrative Code, and would be entitled "City-funded public hospitals and health facilities required to utilize peace officers." Subdivision a of section 17-182 would require that any government corporation operating health facilities and providing health and medical services expenses of which are paid in whole or in part by the City and which is authorized to employ special officers having peace officer status as defined by New York Criminal Procedure Law §2.10[40] use such peace officers to perform the duties of special officer, senior special officer and hospital security officer. Subdivision a would require the commissioner of the department of health to enforce the requirements of this section.

Subdivision b of section 17-182 would allow any person claiming to be aggrieved by a violation of subdivision a of section 17-182 to have a cause of action for damages and/or injunctive relief for that violation.

Expenditures (-)	$0	$0	$0
Net	$0	$0	$0

IMPACT ON REVENUES: The proposed legislation would have no revenue impact.

IMPACT ON EXPENDITURES: The proposed legislation would have no expenditure impact.

Notwithstanding the objection of the Mayor, Your Committee recommends its adoption.

A Local Law to amend the administrative code of the city of New York, in relation to the performance of duties of peace officers at public hospitals and health facilities funded in whole or in part from the city treasury.

Be it enacted by the Council as follows:

Section 1. Chapter 1 of title 17 of the administrative code of the city of New York is amended by adding a new section **17-182** to read as follows:

§17-182 City-funded public hospitals and health facilities required to utilize peace officers.

a. Any corporation of government the expenses of which are paid in whole or in part from the city treasury, which provides health and medical services and op grates health facilities and which is authorized to employ special officers having peace officer status as defined in New York Criminal Procedure Law §2.10(40), shall utilize peace officers appointed pursuant to said subdivision to perform the duties of special officer, senior special officer and hospital security officer. The commissioner of the department of health shall enforce this requirement.

b. Any person, including but not limited to any labor organization claiming to be aggrieved by a violation of subdivision a of this section shall have a cause of action in any court of competent jurisdiction for damages including punitive damages and for injunctive relief and such other remedies as may be a appropriate.

Section 2. This local law shall take effect immediately.

INTRODUCTION AND READING OF BILLS

Res. No. 1807

Resolution calling upon the International Red Cross and Red Crescent Movement to heed the call of international opinion—and of justice—and make the appropriate amendments to its statutes to recognize the emblem of the Magen David Adom Society as an official protective symbol, and to admit the Magen David Adom Society as a full member.

By The Speaker (Council Member Vallone), Council Members Nelson, Berman, Dear, Malave-Dilan, Eisland, Freed, Henry, Marshall and Reed; also Council Members Fisher, Foster, Michels, O'Donovan, Rodriguez and Abel

Whereas, It is the mission of the International Red Cross and Red Crescent Movement to alleviate human suffering, wherever in the world it may be found, without discrimination; and

Whereas, It is only by adherence to these principles of global action and non-discrimination that the Movement can persist as a credible, neutral body for relief in the wake of disaster, natural or man-made; and

Whereas, The International Red Cross and Red Crescent Movement is a worldwide institution in which all national member societies have equal status and share equal responsibility; and

Whereas, The State of Israel has ratified the Geneva conventions which govern the International Red Cross and Red Crescent Movement; and

Whereas, The Magen David Adom is the national humanitarian relief society in the State of Israel and follows all the principles of the International Red Cross and Red Crescent Movement; and

Whereas, Inexplicably, then, the Magen David Adom is excluded from full membership in the International Red Cross and Red Crescent Movement, solely because its insignia is not an official protective symbol recognized by either the Geneva Conventions governing the International Red Cross and Red Crescent Movement or the Statutes of the International Red Cross and Red Crescent Movement; and

Whereas, The State of Israel has unsuccessfully attempted in the past to amend the Geneva Conventions to allow for the emblematic recognition of the Magen David Adom Society; and

Whereas, The American Red Cross has supported Magen David Adom and endorsed its full membership in the International Red Cross and Red Crescent Movement since the Magen David Adom Society's inception in 1980; and

Whereas, Furthermore, it has been the stated position of the United States government that Magen David Adom should be admitted as a full member of the International Red Cross and Red Crescent Movement; and

Whereas, The International Red Cross and Red Crescent Movement can *function freely throughout the world only* because of the trust inspired by its commitment to neutrality; and

Whereas, This continued and baseless exclusion of the Magen David Adom Society undermines the ability of the International Red Cross and Red Crescent Movement to act as a neutral relief organization; and

Whereas, Inclusion of the Magen David Adom Society serves also to foster goodwill between nations based upon mutual respect; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the International Red Cross and Red Crescent Movement to heed the call of international opinion—and of justice—and make the appropriate amendments to its statutes recognizing the emblem of the Magen David Adom Society as an official protective symbol, and to admit the Magen Adom David Society as a full member.

Adopted as an Immediate Consideration.

A LOCAL LAW to amend the New York City charter, in relation to the fees to be paid to the impartial members of the board of collective bargaining other than the director.

Be it enacted by the Council as follows:

Section 1. Declaration of legislative findings and intent. In nineteen hundred eighty, the Council enacted local law No. 51, which amended section 1174 of the city charter so as to increase the per diem fees to be paid to the impartial members of the board of collective bargaining, other than the director, to two hundred dollars commencing the first day of July, nineteen hundred eighty, and increasing these fees to two hundred fifty dollars commencing on the first day of January, nineteen hundred eighty-one.

This fee level has not been increased since 1981, although the demands placed upon the board members have steadily increased. At the same time, the rates that arbitrators are paid to adjudicate cases under the direction of the board have steadily increased.

Therefore, in recognition of their dedicated service, it is the purpose of this law to permit the impartial members, other than the director, to receive fees equal to the fees paid to arbitrators.

§2. Subdivision (a) of section 1174 of chapter 54 of the New York City charter is amended to read as follows:

a. Board of collective bargaining; board of certification; director. The city members and the labor members of the board of collective bargaining and their alternates shall serve without compensation. The director shall be salaried for his services as director, chairman of the board of collective bargaining, and chairman of the board of certification. [On and after the first day of July, nineteen hundred eighty, the per diem fee to be paid to impartial members, other than the director, when actually rendering services as a member of either such board shall be two hundred dollars. The amount of such per diem fee shall be increased to two hundred fifty dollars on and after the first day of January, nineteen hundred eight-one.] *The impartial members, excluding the director, shall be paid a per diem fee equal to the fee paid to arbitrators as determined by the board of collective bargaining in accordance with subdivision b of this section.* The director and all members of both such boards and their alternates shall be entitled to receive reimbursement for their actual and necessary expenses incurred in the performance of their duties. Fifty per cent of the salary, fees, and expenses provided for in this subdivision shall be paid by the members of the municipal labor committee, under rules and regulations issued by the board of collective bargaining, which rules may provide how such costs shall be distributed among such members.

§3. This local law shall take effect immediately.

Referred to the Committee on Civil Service and Labor.

Res. No. 1808

Resolution supporting New York State Assembly Bill A.4089, a bill that would coordinate the donation of excess, unused food from meals programs at schools, universities and other educational institutions to hungry New Yorkers, and urging the New York State Senate to introduce and pass a companion bill.

By Council Members DiBrienza, Malave-Dilan, Eisland, Freed, Henry, Nelson, Perkins, Quinn, Reed, Sabini and Golden; also Council Members Carrion, Fisher, Harrison, Michels, Miller, McCaffrey, O'Donovan and Rodriguez

Whereas, According to a City Harvest Childhood Hunger Fact Sheet, the United States Department of Agriculture reports that there are nearly 400,000 people in New York City, approximately 118,000 of them children, who are suffering from "moderate to severe" hunger; and

Whereas, According to a Hunger Fact Sheet released by the New York City Coalition Against Hunger on October 14, 1999, requests for emergency food in New York City grew by 36% from January 1998 to January 1999; and

Whereas, The New York City Coalition Against Hunger Fact Sheet also indicated that 73,832 hungry people in New York City were turned away by 221 emergency food programs in January 1999 alone, the equivalent of 2,382 people per day; and

Whereas, Educational institutions throughout the State operate meal programs that serve millions of meals; and

Whereas, As an example, the New York City Board of Education currently has one of the largest food preparation programs in the nation -- preparing approximately 810,000 meals on a daily basis; and

Whereas, Due to numerous factors such as student absences and school field trips, the New York City Board of Education does not serve all of the meals allotted daily and almost always discards the majority of food which is left over; and

Whereas, According to some food recovery and gleaning advocates, if just 2 1/2 to 5% of the meals served in the New York City public school system could be recovered, between 20,000 and 40,000 additional meals could be served to the poor each day; and

Whereas, On January 18, 2001 the Committee on General Welfare conducted an oversight hearing at which New York City Board of Education officials testified that if it were assured of the proper handling of left over food, it would donate left over lunches; and

Whereas, On January 18, 2001 the Committee on General Welfare passed a resolution which was subsequently adopted by the full New York City Council, urging the New York City Board of Education to implement a school lunch recovery program; and

Whereas, New York State Assembly Bill A.4089 would not only assist in the creation of a school lunch recovery program for New York City public schools, but would also help facilitate the creation of similar programs throughout the State thereby helping to feed thousands of hungry New Yorkers; and

Whereas, New York State Assembly Bill A.4089 would therefore be a strong weapon in the fight against hunger in New York City and throughout the State; now, therefore, be it

Resolved, That the Council of the City of New York supports New York State Assembly Bill A.4089, a bill that would coordinate the donation of excess, unused food from meals programs at schools, universities and other educational institutions to hungry New Yorkers and urges the New York State Senate to introduce and pass a companion bill.

Referred to the Committee on General Welfare.

Be it enacted by the Council as follows:

Section 1. Paragraph 13 of subdivision a of section 814 of the of the New York City charter is hereby amended to read as follows:

§ 814. a. (13) To establish a uniform format to be utilized by all city agencies in the preparation of the quarterly reports required by subdivision i of section eight hundred fifteen. Such format shall provide for the presentation of statistical information regarding total employment, *including provisional, seasonal, per-diem and part-time employees,* new hiring and promotions in a manner which facilitates understanding of an agency's efforts to provide fair and effective equal opportunity employment for minority group members, women and members of other groups who are employed by, or who seek employment, with city agencies;

By Council Members Freed, Fiala, Malave-Dilan, Henry, Linares, Marshall, Nelson, Perkins, Abel and Oddo; also Council Members Carrion, Foster, Harrison, Leffler, Michels, McCaffrey, O'Donovan, Pinkett, Quinn and Robinson

A LOCAL LAW to amend the administrative code of the City of New York, in relation to requiring contractors providing meat food products to city agencies to provide certification that meat food products sold to the city are in full compliance with federal regulations, prohibiting the use of certain animal proteins in cattle feed.

Be it enacted by the Council as follows:

Section 1. Declaration of Legislative Findings and Intent. City agencies buy approximately $65 to $70 million worth of food each year. In relation to the supply and delivery of food service contracts, the Department of Citywide Administrative Services (DCAS) is responsible for providing support to various municipal entities that serve the public, including the City's hospitals, jails, homeless shelters and other facilities.

The Council of the City of New York finds that there are growing nationwide concerns regarding the spread of bovine spongiform encephalopathy (BSE), commonly known as "mad cow disease." According to the Food and Drug Administration (FDA), BSE is a fatal disease that causes progressive neurological degeneration in cattle. Similar to BSE, Creutzfeldt-Jakob disease (CJD) is a rare disease that occurs in humans. Both diseases are invariably fatal and there is no know treatment or cure. The FDA has reported that, while it is not certain how BSE may spread to humans, evidence indicates that humans may acquire CJD after consuming BSE-contaminated cattle products.

Federal agencies have responded with precautionary steps to prevent BSE in cattle. These steps include: (1) prohibiting the importation of live ruminant animals and most ruminant products from Europe; (2) examining U.S. cattle exhibiting abnormal neurological behavior to test for BSE; (3) prohibiting the use of most mammalian protein in the manufacture of animal feeds given to ruminant animals; (4) conducting regular surveillance for any cases of CJD among humans; and (5) conducting research on BSE, CJD and related neurological diseases.

On June 5, 1997, the FDA published a final rule regulation that prohibits the use of most mammalian protein in the manufacture of animal feeds given to ruminant animals, such as cows, sheep and goats. The regulation also requires process and control systems to ensure that feed for ruminants do not contain prohibited mammalian tissue. This important prohibition is a preventative measure designed to protect animals from potential transmissible degenerative neurological diseases such as BSE and to minimize any potential risk to humans. The rule took effect on August 4, 1997.

Despite the regulation, a recent study by the FDA has reported that hundreds of animal feed producers have violated the regulations designed to keep BSE out of the United States. Specifically, the study found that of 347 FDA-licensed feed mills that handle risky feed, 20 percent lacked warning labels and 9 percent lacked mix-up prevention systems. The report also found that of 1,593 unlicensed feed mills that handle risky feed, almost half lacked warning labels and 26 percent lacked mix-up prevention systems.

In response to this growing concern, the McDonald's Corporation, one of the largest beef purchasers in the world will begin demanding proof that the cattle used in its hamburgers are fed pursuant to FDA regulations enacted to prevent the spread of BSE. Beef processors will be audited by the company that they have the required records in order to ensure compliance. According to reports in the media, the cattle and feed industries are welcoming the requirement because it will focus ranchers and farmers on the mad cow disease threat from tainted cattle feed.

It is in the City's best interest to procure items from responsible contractors that provide quality and safe goods. The risk of the spread of BSE is of a national concern and the City should ensure that its food service providers are in full compliance with FDA regulations.

Section 2. Title 6 of the Administrative Code of the City of New York is hereby amended by adding a new section 6-125, to read as follows:

Section 6-124. a. For purposes of this section only, the following terms shall have the following meanings:

(1) "Contract" means any written agreement, purchase order or instrument whereby the city is committed to expend or does expend funds in return for work, labor, services, supplies, equipment, materials, or any combination of the foregoing.

(2) "Contracting agency" means a city, county, borough, administration, department, division, bureau, board or commission, or a corporation, institution or agency of government, that purchases, leases, or contracts for the purchase or lease of goods or services financed in whole or in part from the city treasury, except where partial federal or state funding precludes the city from attaching the procurement conditions provided herein.

(3) "Contractor" means any individual, sole proprietorship, partnership, joint venture or corporation which enters into a contract or contracts with a contracting agency to provide meat food products.

(4) "Subcontractor" means any person or enterprise who contracts with a contractor, either directly or through other intermediary subcontractors, for the manufacture or supply of meat food products.

(5) "Meat Food Products" means all products and by-products of the slaughtering and meat packing industry – if edible.

b. A contracting agency shall not enter into a contract to purchase or obtain meat food products from any contractor unable to provide certified documentation in writing that such meat food products are in full compliance with the requirements of title 21 of the code of the federal regulations, chapter 1, subchapter e, part 589, regarding substances prohibited from use in animal food or feed; animal proteins prohibited in ruminant feed. The contracting agency shall maintain this information in the agency contract file and make it available for public inspection.

c. *Upon information and belief that a contractor or subcontractor may be in violation of this section, it shall be the duty of the contracting agency to take such action as may be appropriate and provided for by law, rule or contract, including, but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the contractor in default and/or seeking debarment or suspension of the contractor or subcontractor. Where such evidence indicates a violation of the subcontractor, the contractor shall be responsible for such violation. In circumstances where a contractor or subcontractor fails to perform in accordance with any of the requirements of this section, and there is a continued need for the service, a contracting agency may obtain the required service as specified in the original contract, or any part thereof, by issuing a new solicitation, and charging the non-performing contractor or subcontractor for any difference in price resulting from the new solicitation, any administrative charge established by the contracting agency, and shall, as appropriate, invoke such other sanctions as are available under the contract and applicable law.*

d. *A contractor shall be liable for a civil penalty of not less than $250,000 upon a determination that a contractor or subcontractor has been found, through litigation or arbitration, to have made a false claim under the provisions of this section with the contracting agency.*

e. Every contract for or on behalf of all contracting agencies for the supply of meat food products shall contain a provision or provisions detailing the requirements of this section.

f. This section shall not apply to any contract with a contracting agency entered into prior to the effective date of this local law, except that renewal, amendment or modification of such contract occurring on or after the effective date shall be subject to the conditions specified in this section.

g. Nothing in this section shall be construed to limit the city's authority to cancel or terminate a contract, deny or withdraw approval to perform a subcontract or provide supplies, issue a non-responsibility finding, issue a non-responsiveness finding, deny a person or entity pre-qualification, or otherwise deny a person or entity city business.

§3. This local law shall take effect immediately.

Referred to the Committee on Contracts.

By Council Members Freed, Eldridge and Oddo; also Council Members Foster, Harrison, Koslowitz, Michels, O'Donovan, Quinn and Rodriguez

Whereas, The activities of Rodolfo Montiel, Teodoro Cabrera and other members of the Organization of Campesino Ecologists of the Sierra de Petatlan and Coyuca de Catalan with regard to logging in the State of Guerrero were peaceful and lawful; and

Whereas, Said activities alerted Mexican authorities to take action against the illegal logging in the State of Guerrero according to Mexican law; and

Whereas, International Non-Governmental Organizations have reported a pattern of harassment of communities and environmental activists in the state of Guerrero; and

Whereas, On May 2, 1999, members of the 40th Infantry Battalion of the Mexican Army arrested Rodolfo Montiel and Teodoro Cabrera, shooting and killing Salome Sanchez Ortiz, an innocent local farmer; and

Whereas, Human rights investigators from groups including Amnesty International have reported that Rodolfo Montiel and Teodoro Cabrera were tortured and forced to sign blank sheets of paper later filled in with false confessions of marijuana planting and weapons possession; and

Whereas, On July 14, 2000, Mexico's National Commission on Human Rights, a governmental agency, had acknowledged in a report that Montiel and Cabrera had been illegally detained and tortured by members of the Mexican Army, and in that report rejected the allegation that the two men were carrying weapons at the time of their arrest, as they were charged; and

Whereas, On October 27, 2000 an appeals judge upheld that conviction; and

Whereas, Forensic doctors working for the Danish section of Physicians for Human Rights confirmed the torture after examining Montiel and Cabrera, and concluded that the physical signs and symptoms coincide conclusively with the timing and methods of torture previously described by the two activists; and

Res. No. 1810

Resolution calling upon the appropriate committee of the Council to hold an oversight hearing on compliance by the New York City Housing Authority with Section Three of the United States Department of Housing and Urban Development (HUD) regulations related to providing economic opportunities generated by HUD resources to residents of public housing and other low-income persons.

By Council Members Lopez, Malave-Dilan, Espada, Freed, Henry, Linares, Marshall, Perkins, Quinn and Reed; also Council Members Eldridge, Foster, Koslowitz, Pinkett, Robinson, Rodriguez and Eisland

Whereas, Regulations promulgated by the United States Department of Housing and Urban Development (HUD) pursuant to Section Three of the Housing and Urban Development Act of 1968, as amended in 1992, provide that, to the greatest extent feasible, employment and other economic opportunities generated by HUD resources be directed to residents of public housing and other low and very low-income persons; and

Whereas, Amended regulations promulgated by HUD in 1994 set goals for the employment of residents: 10% of the aggregate number of new hires by recipients in FY-95 were to be residents, rising to 20% in FY-96 and 30% in FY-97; and

Whereas, The 1994 amended regulations also established goals for public housing authorities in the awarding of contracts in connection with Section Three covered activities: 10% of the total dollar amount of all contracts are to be awarded to section three businesses; and

Whereas, The New York City Housing Authority has established a Section Three Program which monitors agency compliance with Section Three of the HUD regulations as amended; and

Whereas, The New York City Housing Authority provides that entities it contracts with demonstrate compliance with the "greatest extent feasible" requirement of Section Three by showing that 30% of their new hires are Section Three business concerns; and

Whereas, The goal of the New York City Housing Authority Section Three Program, however, is for only three percent of all Section Three covered contracts to be awarded to Section Three businesses instead of the HUD mandated 10% level; and

Whereas, In addition, the New York City Housing Authority has established a Resident Employment Program (REP) which is a pilot program being tested on nine contracts exceeding $500,000; and

Whereas, Under the REP, contractors are required to expend not less than 15% of the total labor cost, including fringe benefits, on public housing residents; and

Whereas, The mandate of the Section Three regulations is of particular importance as it relates to New York City Housing Authority residents who receive public assistance and participate in the Work Employment Program (WEP); and

Whereas, The Section Three regulations provide a vehicle for low-income residents of New York City Housing Authority developments to be upwardly mobile and provide a better future for their families; now, therefore, be it

Resolved, That the Council of the City of New York calls upon its appropriate committee to hold an oversight hearing on compliance by the New York City Housing Authority with Section Three of the United States Department of Housing and Urban Development (HUD) regulations related to providing economic opportunities generated by HUD resources to residents of public housing and other low-income persons.

A LOCAL LAW to amend the administrative code of the City of New York, in relation to a program to reinvest the proceeds of motion picture and television productions conducted in the City of New York.

Be it enacted by the Council as follows:

Section 1. Legislative declaration. The Council finds and declares that the Mayor's Office of Film, Theatre and Broadcasting provides economic development services to the motion picture and television production community which, according to the Mayor's Management Report, Fiscal 1999, employs 78,000 city residents and spends over $2 billion annually in our city.

According to testimony presented by Patricia Reed Scott, the Commissioner of the Mayor's Office of Film, Theatre and Broadcasting, before the Council's Committee on Parks, Recreation, Cultural Affairs and International Intergroup Relations on November 18, 1999, television production in the City of New York has seen a "historic rise" with 13 television series filming around the City. Motion picture starts remain at a high level in the city, though down from the historically high levels experienced in 1998.

Facility construction projects indicate that this boom will likely continue unabated. The Kaufman Astoria Studios in Queens is undergoing a major expansion. The Silvercup Studios, also in Queens, have completed a new complex called Silvercup East. A $130 million production facility is under construction at the Brooklyn Navy Yard.

Motion picture and television production activities produce many jobs and substantial revenue for the City but in the process of doing so, also produce significant disruption to community life. The communities that bear the impact of these disruptions, including street closures, parking restrictions and traffic diversions, should likewise reap the benefits of these multi-million dollar productions.

The Council, therefore, finds and declares that, the City Department of Business Services, working in conjunction with the Mayor's Office of Film, Theatre and Broadcasting, shall prepare and submit to the Council a proposal to ensure that the local communities in which motion picture and television productions are conducted, receive the economic benefits of such endeavors.

§ 2. Chapter 56 of the New York City charter is hereby amended by the addition of a new section 1307 to read as follows:

§ 1307. Motion picture and television productions, community reinvestment. Not later than one hundred twenty days following the effective date of the local law that added this section, the commissioner, in cooperation with the Mayor's office of film, theatre and broadcasting, shall prepare and submit to the council a proposal to create a program providing for reinvestment of the proceeds of motion picture and television productions in the communities in which these productions are conducted.

§ 3. This local law shall take effect 60 days after its enactment.

Res. No. 1811

Resolution calling on the appropriate committee of the Council to hold hearings on the rate of infant mortality in New York City and the City's efforts to reduce this rate.

By Council Members Perkins, Clarke, Malave-Dilan, Eisland, Espada, Freed, Henry, Linares, Marshall, Nelson, Quinn, Reed and Oddo; also Council Members Carrion, Eldridge, Fisher, Foster, Harrison, Leffler, Michels, Pinkett, Robinson, Wooten and Sabini

Whereas, New figures compiled by the New York City Department of Health (DOH) indicate that in 1999, babies in the city less than a year old died at the rate of 6.9 per 1,000 which is a slight increase over the 1998 figure of 6.8; and

Whereas, In some of these communities, such as Fort Greene, Brooklyn the infant mortality rate has gone from 8.8 deaths for every 1000 births in 1998 to 10.9 in 1999 and in Central Harlem the infant mortality rate more than doubles the citywide rate at 15.5 infant deaths per 1000 births; and

Whereas, While the city wide figures may not seem like a dramatic increase, there are communities where the infant mortality rate is extremely high; and

Whereas, An analysis of DOH data contained in an article entitled "Body Politics" that was published in the September 20-26, 2000 edition of the Village Voice, revealed that the infant mortality rate was highest in communities with large numbers of immigrants; and

Whereas, The article also found that risk factors such as poverty, lack of or inadequate health insurance, and low levels of education and literacy also contributed to a higher infant mortality rates in certain communities; and

Whereas, There are homeless women although willing to obtain prenatal care, that have been placed in shelters away from their home boroughs or have had to make finding an apartment for their family a higher priority; and

Whereas, An article in the February 5, 2000 edition of the New York Times also blames the increase in infant mortality rates in certain communities on the funding reduction in the federal program known as "Healthy Start"; and

Whereas, Healthy Start was begun in the early 1990's to benefit high-risk mothers in lower-income communities such as Central Harlem and Fort Greene in Brooklyn by providing prenatal care, baby care, medical referrals, and other services such as housing assistance to pregnant women and infants; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the appropriate committee of the Council to hold hearings on rate of infant mortality in New York City and the City's efforts to reduce this rate.

Res. No. 1812

Resolution calling upon the Postal Customer Council of New York to convene meetings more frequently in order to better handle local community problems relating to postal services.

By Council Members Perkins, Reed, Malave-Dilan, Eisland, Espada, Freed, Henry, Marshall, Nelson, Quinn, Sabini and Warden; also Council Members Carrion, Harrison, Koslowitz, Michels, Robinson and Wooten

Whereas, In 1961, the Post Office Department, the predecessor of the United States Postal Service, began the Postal Customer Council (PCC) Program which resulted in the formation of local mail users councils organized to improve communications between postal customers and local postal managers; and

Whereas, There are currently more than 250 PCC's throughout the United States with diverse activities geared towards keeping PCC members abreast of the latest developments in Postal Service products, rates and procedures and fostering a close working relationship with local post offices to enable mail service to be more efficient, timely and profitable; and

Whereas, The primary emphasis of the PCC program is on service issues, such as addressing, handling and barcoding, delivery and transportation of mail; and

Whereas, Despite the predominance of business-oriented representatives that make up PCC membership, membership in a PCC is open to any member of the public presenting mail in the relevant ZIP Code area covered by the PCC; and

Whereas, PCC's are required to hold at least two general meetings per year in order to meet PCC program objectives; and

Whereas, PCC vibrancy and effectiveness varies by corresponding post office in terms of activity, creativity, initiative and local leadership; and

Whereas, The PCC of New York consists of postal customers in the New York Metropolitan Area and has traditionally been among the most active PCC's in the country with attendance at meetings often reaching into the hundreds; and

Whereas, Aside from any special events, the New York PCC typically meets on the third Wednesday of each month; and

Whereas, The New York PCC's stated purpose is to employ its resources to implement and coordinate the activities of the Post Office in its relations with the business community and the general public; and

Whereas, Due to the unusually high number of non-business individuals using postal services in New York City, the New York PCC's objective of coordinating and improving postal relations with the general public would likely be better achieved if New York PCC meetings were held more frequently and a greater effort were put forth by the New York PCC towards identification and resolution of residential postal issues; now, therefore, be it

Resolved, that the Council of the City of New York calls upon the Postal Customer Council of New York to convene meetings more frequently in order to better handle local community problems relating to postal services.

Res. No. 1813

Resolution calling upon the United States Congress to pass Senate Bill No. 548 to increase Medicare reimbursements for mammograms.

By Council Members Quinn, Robles, Provenzano, Rivera, Clarke, Eisland, Espada, Freed, Henry, Koslowitz, Linares, Marshall, Miller, Nelson, Golden and Oddo; also Council Members Carrion, Dear, Malave-Dilan, Eldridge, Fisher, Harrison, Leffler, Michels, O'Donovan, Pinkett, Robinson, Sabini and Wooten

Whereas, According to the American Cancer Society (ACS), a mammography is a necessary tool for early detection in the fight against breast cancer; and

Whereas, ACS states that early detection examinations help save thousands of lives each year; and

Whereas, Some cancers can be found early by self-examinations, physical examinations by health professionals, laboratory tests or specialized x-rays, such as mammographies; and

Whereas, Diagnosing breast cancer as early as possible greatly improves the likelihood that treatment will be successful; and

Whereas, A physical examination absent a mammography increases the odds of failing to detect breast cancers that are too small for a woman or her doctor to feel; and

Whereas, ACS recommends that for early breast cancer detection, women age 40 and older should have a screening mammogram every year; and

Whereas, The cost to a facility of performing a mammogram is close to one hundred dollars, while the current rate for reimbursement from Medicare is only $67 for a screening mammogram and $81 for a diagnostic exam; and

Whereas, An increase in the Medicare reimbursement rate would compel private insurance companies to also increase their reimbursement rate; and

Whereas, An increase in the reimbursement rate would allow health facilities to provide mammographies to women who would otherwise have been unable to cover the cost of a mammography; and

Whereas, Access to mammographies is primary in the fight against breast cancer; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the United States Congress to pass Senate Bill No. 548 to increase Medicare reimbursements for mammograms

PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitation notices for most procurements above $25,000 for goods and services,

$50,000 for construction and construction-related services, and $100,000 for information technology are published for at least one day. Other types of procurement such as sole source require notice in the City Record for five consecutive days.
Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional.
This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,18th Floor, NY, NY 10007. (212) 669-8562.

Construction & Construction Related Services

● Mayor's Office of Construction, Bidders List Unit, 75 Park Place, 7th Floor, New York, NY 10007. (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway, 9th Floor, New York, NY 10007. (212) 788-0010. Applications may also be obtained directly from each City agency. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action

(approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July. The Procurement Policy Board annually publishes prompt payment results, which may be obtained by calling (212) 788-7820.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board, 51 Chambers Street, Room 1126, New York 10007 by calling (212) 788-7820

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – CSP – PIN# 071-00S003262 – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families and drop-in centers for adults. **This is an open-ended solicitation; there is no due date for submission.** Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-fourth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 5 to 30 years and the drop-in centers will be for three years with one three year option to renew.

Pursuant to Section 312(c)(1)(ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgement is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03(c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated and 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed facility location.

Any organization that believes it can provide these services may contact: Calvin Pitter, Deputy Agency Chief Contracting Officer at the Department of Homeless Services at (212) 361-8000, 33 Beaver Street 13th Flr., New York, NY 10004, to request a copy of the application, which is available for pick-up only Monday through Friday on business days between the hours of 9 a.m. to 5 p.m.

LEGAL REPRESENTATION ON BEHALF OF THE CITY IN WORKER'S COMPENSATION MATTERS HELD OUTSIDE OF THE CITY OF NEW YORK – Notice of Intent to Enter into Negotiations and Request for Expressions of Interest – Judgment required in evaluating proposals - PIN# 02501X000198 – DUE 05-23-01 AT 5:00 P.M. – seeks expressions of interest from law firms with expertise providing legal representation on behalf of employers before the New York State Workers' Compensation Board at hearings, appeals, and depositions conducted at hearing points outside the City of New York. The Department intends to enter into negotiations with one or more qualified firms and to award a single contract for the services. Contract award will be by the Negotiated Acquisition method of source selection because it has been determined that it is not practicable or not advantageous to use Competitive Sealed Proposals; that it is not in the best interest of the City to use Competitive Sealed Proposals, and that award of the contract by Negotiated Acquisition is justified. It is projected that the proposed contract will commence as of September 1, 2001 and continue through August 31, 2004. The selected firm will be required to handle such matters on an as-required basis at hearing points within the State of New York outside the City of New York. It is estimated that approximately 4000 hearings were held outside the City's geographical limits last year, the majority of which were held at various Nassau, Suffolk and Westchester County hearing points. Interested firms should send one original and four (4) copies of an Expression of Interest ("EOI") to: Steven Scotti, NYC Law Department, Workers' Compensation Division, 350 Jay Street, 9th Floor, Brooklyn, New York 11201 by no later than May 23, 2001. The EOI should contain the following information, which should be organized under the following headings:

1. a description of the firm as a whole, including the firm's areas of practice and specialization, the number of offices maintained by the firm and it/their location(s), and the number of attorneys, paralegals, and support personnel at each such office;

2. a detailed description of the firm's background and experience as counsel for respondents in workers' compensation matters;

3. a detailed description of the firm's attorneys, paralegals and other personnel resources available to provide the workers' compensation-related legal services.

The Law Department intends to award one contract with a three-year predicated upon a fee-per-hearing and fee-per-service basis. Based upon the Department's review of EOI's received by the above-stated deadline, firms whose EOIs are determined to be within a competitive range of Technical Merit will be provided with a detailed Scope of Work, a Law Firm Questionnaire, Price Proposal Forms, and instructions for submitting these materials. Subsequent decisions with respect to contract award will be made on the basis of the evaluation of these materials.

WATER BOARD

■ NOTICE

PUBLIC NOTICE IS HEREBY GIVEN that the New York City Water Board will consider an increase in the rate charged for water supply made available to customers outside of New York City by the Water and Wastewater System of the City of New York (the "System"). The basis for this increase is contained in a report prepared by Black & Veatch, rate consultant to the Board, which sets forth the unit cost of water supply for facilities north of the City for the fiscal year beginning July 1, 2001.

Therefore, in accordance with Section 1045-j(3) of the Public Authorities Law, a public hearing will be held as follows:

Tuesday, June 12, 2001, at 2:00 P.M., in Room 102 of the County Office Building, located at 148 Martine Avenue, White Plains, New York.

Specifically, it is proposed that the following rate changes become effective as of July 1, 2001:

- **The regulated rate for water supply provided to users outside the City, from either the Croton or Catskill/Delaware systems, be increased from $414.37 per million gallons ("MG") to $448.83 per MG.**

- **The rate for water supply provided in excess of the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York be continued at a level equal to the in-city metered rate which, as of July 1, 2001, will be increased from $1,751.34 to $1,804.81 per MG.**

Interested parties who wish to obtain copies of the Rate Consultant's report concerning the cost of supplying water to upstate customers or who wish to give comments to the Board should contact Kevin Kunkle, New York City Water Board, One Lefrak City Plaza, 59-17 Junction Boulevard, 8th Floor, Corona, New York 11368-5107, telephone (718) 595-3601. PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information.

Solicitation notices for most procurements above $25,000 for goods and services, $50,000 for construction and construction-related services, and $100,000 for information technology are published for at least one day. Other types of procurement such as sole source require notice in the City Record for five consecutive days.
Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced.
In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional.
This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,18th Floor, NY, NY 10007. (212) 669-8562.

Construction & Construction Related Services

● Mayor's Office of Construction, Bidders List Unit, 75 Park Place, 7th Floor, New York, NY 10007. (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway, 9th Floor, New York, NY 10007. (212) 788-0010. Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual.(see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR.*

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business.

In order to become certified for the program, your company must substantiate that it:

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,

110 William Street, 2nd Floor,

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July. The Procurement Policy Board annually publishes prompt payment results, which may be obtained by calling (212) 788-7820.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board, 51 Chambers Street, Room 1126, New York 10007 by calling (212) 788-7820

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – CSP – PIN# 071-00S003262 – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families and drop-in centers for adults. **This is an open-ended solicitation; there is no due date for submission.** Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-fourth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 5 to 30 years and the drop-in centers will be for three years with one three year option to renew.

Pursuant to Section 312(c)(1)(ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgement is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03(c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated and 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed facility location.

Any organization that believes it can provide these services may contact: Calvin Pitter, Deputy Agency Chief Contracting Officer at the Department of Homeless Services at (212) 361-8000, 33 Beaver Street 13th Flr., New York, NY 10004, to request a copy of the application, which is available for pick-up only Monday through Friday on business days between the hours of 9 a.m. to 5 p.m.

DRAFT 4/9/01

Section 1. Title 1 of the Rules of the City of New York is amended by adding a new chapter 48 to read as follows:

Chapter 48
Administrative Inspection

§48-01 Statement of intent. The Department of Buildings has the statutory authority to enter and inspect buildings and structures in the City for compliance with the Building Code, the Zoning Resolution and other city and state laws relating to the safety, use and occupancy of buildings and structures in the City. Under the Fourth Amendment to the U.S. Constitution, as interpreted by the Supreme Court of the United State in Camara v. Municipal Court, 387 U.S. 523 (1967), and See v. City of Seattle, 387 U.S. 541 (1967), with some exceptions, administrative inspections of private property not open to the public may not be performed without either voluntary consent or a warrant. Such inspections include both routine inspections and inspections occasioned by the reasonable belief that a condition in violation of the building laws, zoning resolution, or other applicable laws exists on the premises. This rule describes the circumstances under which department inspectors may seek ex parte warrants when voluntary consent for an inspection is not obtained.

§48-02 Attempt to obtain voluntary consent for inspection. Except as otherwise directed by the legal officer of the department, at least two attempts, on different days no more than 45 days apart, shall be made to gain entry to the premises by voluntary consent in accordance with the procedures determined by the department.

§48-03 Ex parte inspection warrants. Where there are two or more failed attempts to gain voluntary consent for an inspection or where the department determines that there are circumstances which make it desirable or necessary, the legal officer of the department may request the Corporation Counsel to apply to the Supreme Court for an ex parte inspection warrant. Circumstances which the department may consider in determining to request the Corporation Counsel to apply for an ex parte inspection warrant without first seeking voluntary consent for an inspection include, but are not limited to, a history at the premises which either explicitly or implicitly puts the department on notice that a warrantless inspection will not be allowed.

§48-04 Construction. Nothing in these rules shall be construed to limit, abridge, affect or amend the authority of the department under any provision of law, general, special or local, or case law, to enter premises either with or without a warrant to carry out any of its functions, powers and duties.

STATEMENT OF BASIS AND PURPOSE

The foregoing amendment is proposed pursuant to the authority of the Commissioner of Buildings under Sections 643 and 649 and 1043(a) of the New York City Charter and §§26-216, 27-211, 27-3018, and 27-205 of the Administrative Code. The proposed amendment describes circumstances under which the department may seek ex parte access warrants when voluntary consent for an inspection is not obtained. The rule clarifies the department's existing authority.

ADVISORY REPORT

ISSUE DATE: 05/01/01	DOCKET #: 015738	SRA #: SRA 01-6253
ADDRESS 1680 LEXINGTON AVENUE-3&4TH FLS PUBLIC SCHOOL 72 INDIVIDUAL LANDMARK	BOROUGH: MANHATTAN	BLOCK/LOT: 1633 / 13

To the Mayor, the Council, and the Board of Education.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for interior alterations to the bathrooms at the third and fourth floors only, including the demolition and construction of new partitions, plumbing, electrical systems, and finishes; as shown in drawings 1,2,3,4,5,6, dated February 2, 2001, and submitted by Hirani Engineering and Land Surveying P.C. as components of the application.

In reviewing this application, the Commission notes that 1680 Lexington Avenue, also known as Public School 72, is a Neo-Grec style school designed by David I. Stagg, and built in 1879-82; and that it is a rare and almost completely intact example of late nineteenth-century public school architecture.

With regard to this proposal, the Commission finds that the work is limited to the interior; and that the proposed alterations will not eliminate, or cause damage to, any significant historic or architectural fabric or features. Based on these findings, the proposed work is determined to be appropriate to the Public School,72 individual landmark.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Providencia Velázquez.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional.
This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,18th Floor, NY, NY 10007. (212) 669-8562.

Construction & Construction Related Services

● Mayor's Office of Construction, Bidders List Unit, 75 Park Place, 7th Floor, New York, NY 10007. (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway, 9th Floor, New York, NY 10007. (212) 788-0010. Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual.(see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business.

In order to become certified for the program, your company must substantiate that it:

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,

110 William Street, 2nd Floor,

New York, New York 10038 (212) 618-8782.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July. The Procurement Policy Board annually publishes prompt payment results, which may be obtained by calling (212) 788-7820.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board, 51 Chambers Street, Room 1126, New York 10007 by calling (212) 788-7820

PROCUREMENT POLICY BOARD RULES

To obtain a copy of the Procurement Policy Board Rules either in hard copy or on disk, call the Procurement Policy Board office, (212) 788-7820. The Rules may also be accessed on the City Website, http://NYC.GOV.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – CSP – PIN# 071-00S003262 – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families and drop-in centers for adults. **This is an open-ended solicitation; there is no due date for submission.** Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-fourth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 5 to 30 years and the drop-in centers will be for three years with one three year option to renew.

Pursuant to Section 312(c)(1)(ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgement is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03(c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated and 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed facility location.

Any organization that believes it can provide these services may contact: Calvin Pitter, Deputy Agency Chief Contracting Officer at the Department of Homeless Services at (212) 361-8000, 33 Beaver Street 13th Flr., New York, NY 10004, to request a copy of the application, which is available for pick-up only Monday through Friday on business days between the hours of 9 a.m. to 5 p.m.

WATER BOARD

■ NOTICE

PUBLIC NOTICE IS HEREBY GIVEN that the New York City Water Board will consider an increase in the rate charged for water supply made available to customers outside of New York City by the Water and Wastewater System of the City of New York (the "System"). The basis for this increase is contained in a report prepared by Black & Veatch, rate consultant to the Board, which sets forth the unit cost of water supply for facilities north of the City for the fiscal year beginning July 1, 2001.

Therefore, in accordance with Section 1045-j(3) of the Public Authorities Law, a public hearing will be held as follows:

Tuesday, June 12, 2001, at 2:00 P.M., in Room 102 of the County Office Building, located at 148 Martine Avenue, White Plains, New York.

Specifically, it is proposed that the following rate changes become effective as of July 1, 2001:

- **The regulated rate for water supply provided to users outside the City, from either the Croton or Catskill/Delaware systems, be increased from $414.37 per million gallons ("MG") to $448.83 per MG.**

- **The rate for water supply provided in excess of the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York be continued at a level equal to the in-city metered rate which, as of July 1, 2001, will be increased from $1,751.34 to $1,804.81 per MG.**

Interested parties who wish to obtain copies of the Rate Consultant's report concerning the cost of supplying water to upstate customers or who wish to give comments to the Board should contact Kevin Kunkle, New York City Water Board, One Lefrak City Plaza, 59-17 Junction Boulevard, 8th Floor, Corona, New York 11368-5107, telephone (718) 595-3601. PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitation notices for most procurements above $25,000 for goods and services, $50,000 for construction and construction-*related services, and $100,000 for* information technology are published for at least one day. Other types of procurement such as sole source require notice in the City Record for five consecutive days.
Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional.
This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,18th Floor, NY, NY 10007. (212) 669-8562.

Construction & Construction Related Services

● Mayor's Office of Construction, Bidders List Unit, 75 Park Place, 7th Floor, New York, NY 10007. (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway, 9th Floor, New York, NY 10007. (212) 788-0010. Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual.(see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR.*

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business.

In order to become certified for the program, your company must substantiate that it:

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,

110 William Street, 2nd Floor,

New York, New York 10038 (212) 618-8782.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July. The Procurement Policy Board annually publishes prompt payment results, which may be obtained by calling (212) 788-7820.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board, 51 Chambers Street, Room 1126, New York 10007 by calling (212) 788-7820

PROCUREMENT POLICY BOARD RULES

To obtain a copy of the Procurement Policy Board Rules either in hard copy or on disk, call the Procurement Policy Board office, (212) 788-7820. The Rules may also be accessed on the City Website, http://NYC.GOV.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – CSP – PIN# 071-00S003262 – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families and drop-in centers for adults. **This is an open-ended solicitation; there is no due date for submission.** Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-fourth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 5 to 30 years and the drop-in centers will be for three years with one three year option to renew.

Pursuant to Section 312(c)(1)(ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgement is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03(c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated and 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed facility location.

Any organization that believes it can provide these services may contact: Calvin Pitter, Deputy Agency Chief Contracting Officer at the Department of Homeless Services at (212) 361-8000, 33 Beaver Street 13th Flr., New York, NY 10004, to request a copy of the application, which is available for pick-up only Monday through Friday on business days between the hours of 9 a.m. to 5 p.m.

PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitation notices for most procurements above $25,000 for goods and services, $50,000 for construction and construction-related services, and $100,000 for information technology are published for at least one day. Other types of procurement such as sole source require notice in the City Record for five consecutive days.
Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional.
This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,18th Floor, NY, NY 10007. (212) 669-8562.

Construction & Construction Related Services

● Mayor's Office of Construction, Bidders List Unit, 75 Park Place, 7th Floor, New York, NY 10007. (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway, 9th Floor, New York, NY 10007. (212) 788-0010. Applications may also be obtained directly from each City agency. VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISE

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business.

In order to become certified for the program, your company must substantiate that it:

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,

110 William Street, 2nd Floor,

New York, New York 10038 (212) 618-8782.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July. The Procurement Policy Board annually publishes prompt payment results, which may be obtained by calling (212) 788-7820.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board, 51 Chambers Street, Room 1126, New York 10007 by calling (212) 788-7820

PROCUREMENT POLICY BOARD RULES

To obtain a copy of the Procurement Policy Board Rules either in hard copy or on disk, call the Procurement Policy Board office, (212) 788-7820. The Rules may also be accessed on the City Website, http://NYC.GOV.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – CSP – PIN# 071-00S003262 – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families and drop-in centers for adults. **This is an open-ended solicitation; there is no due date for submission.** Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-fourth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 5 to 30 years and the drop-in centers will be for three years with one three year option to renew.

Pursuant to Section 312(c)(1)(ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgement is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03(c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated and 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed facility location.

Any organization that believes it can provide these services may contact: Calvin Pitter, Deputy Agency Chief Contracting Officer at the Department of Homeless Services at (212) 361-8000, 33 Beaver Street 13th Flr., New York, NY 10004, to request a copy of the application, which is available for pick-up only Monday through Friday on business days between the hours of 9 a.m. to 5 p.m.

EMPIRE STATE DEVELOPMENT CORPORATION

■ NOTICE OF PUBLIC HEARING

QUEENS WEST DEVELOPMENT CORPORATION
NOTICE OF PUBLIC HEARING
PURSUANT TO THE NEW YORK STATE EMINENT DOMAIN PROCEDURE LAW IN CONNECTION WITH THE HUNTERS POINT (QUEENS WEST) WATERFRONT DEVELOPMENT LAND USE IMPROVEMENT PROJECT

PLEASE TAKE NOTICE that a public hearing, open to all persons, will be held in accordance with Sections 201-204 of the New York State Eminent Domain Procedure Law ("EDPL") by the Queens West Development Corporation ("QWDC"), a subsidiary of the New York State Urban Development Corporation d\b\a the Empire State Development Corporation (the "ESDC"), in connection with Stage II and Stage IV of the Hunters Point (Queens West) Waterfront Development Land Use Improvement Project (the "Project"). The hearing will be held on June 7, 2001 from 6:30 p.m. until 8:30 p.m. in the auditorium of the Consolidated Edison Learning Center, located at 43-82 Vernon Boulevard in Long Island City, Queens County, New York 11101.

The purpose of the hearing is to inform the public about, and to provide any interested party the opportunity to appear and comment on: (1) the proposed possible acquisition of certain property, in connection with Stages II and IV of the Project, generally described below; (2) Stages II and IV of the Project, and the Project generally; (3) the location and the public uses to be served by Stages II and IV, and the Project generally; and (4) the impact of Stages II and IV, and the Project generally, on the environment and the residents of the locality where the Project will be constructed. For information about the hearing, please contact Mr. Stewart Hanley at the Queens West Development Corporation/Empire State Development Corporation, 633 Third Avenue, New York, New York 10017 (telephone: (212) 803-3264).

The Project is located in Long Island City, Queens County. The overall Project area is generally bounded by the Anabel Basin (also known as the 11th Street Basin) to the north, by the U.S. pierhead line of the East River on the west, by the entrance to Newtown Creek on the south, and on the east by 5th Street between the Anabel Basin and 49th Avenue, by a line (between Lots 1 and 28 of Block 17) near the western end of the block between 49th and 50th Avenues, and by 2nd Street between Newtown Creek and 50th Avenue. The overall Project site also includes a strip of land between 5th and 21st Streets, which strip contains 48th Avenue, the Hunters Point Community Park and a portion of an existing but unused Long Island Rail Road cut.

The principal goal of the Project, including but not limited to Stages II and IV of the Project, is to replace the substandard and unsanitary conditions that currently impede effective and economic use of the Project site and to replace them with a viable development consisting of residential, commercial, cultural and recreational facilities and providing public access to the waterfront. ESDC, acting as lead agency, made findings pursuant to the New York State Environmental Quality Review Act ("SEQRA") with respect to the Project and adopted a Final Environmental Impact Statement ("FEIS") on January 31, 1991. Pursuant to the New York State Urban Development Corporation Act ("the Act"), ESDC has provided, in the General Project Plan for the Project (the "Plan"), for the override of the New York City Zoning Resolution and, in connection with the disposition of any property owned by the City, the Uniform Land Use Review Procedure of the New York City Charter. ESDC affirmed the plan on January 31, 1991, thereafter, re-affirmed the Plan on October 19, 1995 and made modification to the same on April 19, 2000. In all cases where the Plan has been modified, the appropriate environmental review has been performed to assure the Project's compliance with the SEQRA Findings. Each developer proposal has similarly been assessed for its consistency with the Plan and SEQRA Findings. With respect to Stage II, the Plan provides for residential apartment buildings, public parks, a waterfront esplanade and a school. With respect to Stage IV, the Plan provides for commercial office space, retail stores, public park and a waterfront esplanade.

The Plan, which identifies Stages II and IV as well as other stages of the Project, was affirmed by the Directors of ESDC on January 31, 1991 and subsequently re-affirmed and modified. Copies thereof are available for inspection by the general public on any regular business day between the hours of 9:30 a.m. and 5:00 p.m., at the offices of the Queens West Development Corporation at 633 Third Avenue, New York, New York. Copies of the Plan are available without charge to any person who shall make a request therefor at the office of QWDC above. Copies of the Plan also will be available at the hearing location immediately prior to and during the hearing.

It is anticipated that the Project will be constructed in stages. Acquisition for Stage I was completed on August 13, 1998. The proposed possible acquisition subject to this hearing involves the Stage II area and a portion of the Stage IV area. The Stage II area extends generally (1) from the northwest corner of the intersection of the south boundary line of 47th Road and the west side of 5th Street northward along the west side of 5th Street to the Anabel Basin, (2) thence westward along the Basin until the U. S. pierhead line of the East River, (3) thence southerly along the pierhead line to a point where the U. S. pierhead line intersects with the south boundary of 47th Road, (4) thence in an easterly direction along the south boundary of 47th Road to the beginning point. This area is known on the New York City Tax Maps as Queens Tax Block 20, Lots 1, 5, 7 and 15 and Queens Tax Block 21, Lot 1, and the properties in this area are commonly known as the Pepsi Bottling Facility at 46-02 5th Street, Long Island City, New York and three additional parcels at 4-20, 4-50 and 4-88 47th Avenue, Long Island City, New York. The hearing will address, among other things, the possible acquisition by condemnation of the foregoing-described property.

The Stage IV area extends (1) from a point on the northwest corner formed by the intersection of the west side of 2nd Street and the northerly side of 50th Avenue, running thence westerly along the northerly side of 50th Avenue out to the

U. S. pierhead line, (2) thence southerly along the U. S. pierhead line to a point where a line extending from the south side of 54th Avenue intersects the U. S. pierhead line, (3) thence easterly along the extended south side of 54th Avenue to a point at the intersection of the westerly side of 2nd Street and the south side of 54th Avenue, (4) thence northerly along the westerly side of 2nd Street to the point or place of beginning. This area includes all of Queens Tax Block 6, Lots 1, 2, 3, 14, and 38 as shown on the New York City Tax Maps.

The hearing will address, among other things, the possible acquisition by condemnation of property in Stage IV which extends (1) from the intersection of the north side of 50th Avenue and the west side of 2nd Street, running thence westerly along a line extending the north side of the 50th Avenue to the U. S. pierhead line, (2) thence southerly along the U. EMPIRE STATE DEVELOPMENT CORPORATION

■ **PUBLIC HEARING**

QUEENS WEST DEVELOPMENT CORPORATION
NOTICE OF PUBLIC HEARING PURSUANT TO THE NEW YORK STATE EMINENT DOMAIN PROCEDURE LAW IN CONNECTION WITH THE HUNTERS POINT (QUEENS WEST) WATERFRONT DEVELOPMENT LAND USE IMPROVEMENT PROJECT

PLEASE TAKE NOTICE that a public hearing, open to all persons, will be held in accordance with Sections 201-204 of the New York State Eminent Domain Procedure Law ("EDPL") by the Queens West Development Corporation ("QWDC"), a subsidiary of the New York State Urban Development Corporation d\b\a the Empire State Development Corporation (the "ESDC"), in connection with Stage II and Stage IV of the Hunters Point (Queens West) Waterfront Development Land Use Improvement Project (the "Project"). The hearing will be held on June 7, 2001 from 6:30 p.m. until 8:30 p.m. in the auditorium of the Consolidated Edison Learning Center, located at 43-82 Vernon Boulevard in Long Island City, Queens County, New York 11101.

The purpose of the hearing is to inform the public about, and to provide any interested party the opportunity to appear and comment on: (1) the proposed possible acquisition of certain property, in connection with Stages II and IV of the Project, generally described below; (2) Stages II and IV of the Project, and the Project generally; (3) the location and the public uses to be served by Stages II and IV, and the Project generally; and (4) the impact of Stages II and IV, and the Project generally, on the environment and the residents of the locality where the Project will be constructed. For information about the hearing, please contact Mr. Stewart Hanley at the Queens West Development Corporation/Empire State Development Corporation, 633 Third Avenue, New York, New York 10017 (telephone: (212) 803-3264).

The Project is located in Long Island City, Queens County. The overall Project area is generally bounded by the Anabel Basin (also known as the 11th Street Basin) to the north, by the U.S. pierhead line of the East River on the west, by the entrance to Newtown Creek on the south, and on the east by 5th Street between the Anabel Basin and 49th Avenue, by a line (between Lots 1 and 28 of Block 17) near the western end of the block between 49th and 50th Avenues, and by 2nd Street between Newtown Creek and 50th Avenue. The overall Project site also includes a strip of land between 5th and 21st Streets, which strip contains 48th Avenue, the Hunters Point Community Park and a portion of an existing but unused Long Island Rail Road cut.

The principal goal of the Project, including but not limited to Stages II and IV of the Project, is to replace the substandard and unsanitary conditions that currently impede effective and economic use of the Project site and to replace them with a viable development consisting of residential, commercial, cultural and recreational facilities and providing public access to the waterfront. ESDC, acting as lead agency, made findings pursuant to the New York State Environmental Quality Review Act ("SEQRA") with respect to the Project and adopted a Final Environmental Impact Statement ("FEIS") on January 31, 1991. Pursuant to the New York State Urban Development Corporation Act ("the Act"), ESDC has provided, in the General Project Plan for the Project (the "Plan"), for the override of the New York City Zoning Resolution and, in connection with the disposition of any property owned by the City, the Uniform Land Use Review Procedure of the New York City Charter. ESDC affirmed the plan on January 31, 1991, thereafter, re-affirmed the Plan on October 19, 1995 and made modification to the same on April 19, 2000. In all cases where the Plan has been modified, the appropriate environmental review has been performed to assure the Project's compliance with the SEQRA Findings. Each developer proposal has similarly been assessed for its consistency with the Plan and SEQRA Findings. With respect to Stage II, the Plan provides for residential apartment buildings, public parks, a waterfront esplanade and a school. With respect to Stage IV, the Plan provides for commercial office space, retail stores, public park and a waterfront esplanade.

The Plan, which identifies Stages II and IV as well as other stages of the Project, was affirmed by the Directors of ESDC on January 31, 1991 and subsequently re-affirmed and modified. Copies thereof are available for inspection by the general public on any regular business day between the hours of 9:30 a.m. and 5:00 p.m., at the offices of the Queens West Development Corporation at 633 Third Avenue, New York, New York. Copies of the Plan are available without charge to any person who shall make a request therefor at the office of QWDC above. Copies of the Plan also will be available at the hearing location immediately prior to and during the hearing.

It is anticipated that the Project will be constructed in stages. Acquisition for Stage I was completed on August 13, 1998. The proposed possible acquisition subject to this hearing involves the Stage II area and a portion of the Stage IV area. The Stage II area extends generally (1) from the northwest corner of the intersection of the south boundary line of 47th Road and the west side of 5th Street northward along the west side of 5th Street to the Anabel Basin, (2) thence westward along the Basin until the U. S. pierhead line of the East River, (3) thence southerly along the pierhead line to a point where the U. S. pierhead line intersects with the south boundary of 47th Road, (4) thence in an easterly direction along the south boundary of 47th Road to the beginning point. This area is known on the New York City Tax Maps as Queens Tax Block 20, Lots 1, 5, 7 and 15 and Queens Tax Block 21, Lot 1, and the properties in this area are commonly known as the Pepsi Bottling Facility at 46-02 5th Street, Long Island City, New York and three additional parcels at 4-20, 4-50 and 4-88 47th Avenue, Long Island City, New York. The hearing will address, among other things, the possible acquisition by condemnation of the foregoing-described property.

The Stage IV area extends (1) from a point on the northwest corner formed by the intersection of the west side of 2nd Street and the northerly side of 50th Avenue, running thence westerly along the northerly side of 50th Avenue out to the U. S. pierhead line, (2) thence southerly along the U. S. pierhead line to a point where a line extending from the south side of 54th Avenue intersects the U. S. pierhead line, (3) thence easterly along the extended south side of 54th Avenue to a point at the intersection of the westerly side of 2nd Street and the south side of 54th Avenue, (4) thence northerly along the westerly side of 2nd Street to the point or place of beginning. This area includes all of Queens Tax Block 6, Lots 1, 2, 3, 14, and 38 as shown on the New York City Tax Maps.

The hearing will address, among other things, the possible acquisition by condemnation of property in Stage IV which extends (1) from the intersection of the north side of 50th Avenue and the west side of 2nd Street, running thence westerly along a line extending the north side of the 50th Avenue to the U. S. pierhead line, (2) thence southerly along the U. S. pierhead line approximately 427 feet, (3) thence in an easterly direction approximately 195 feet, (4) thence in a southerly direction approximately 20 feet, (5) thence in an easterly direction approximately 69 feet, (6) thence in a southerly direction approximately 189 feet, (7) thence in an easterly direction approximately 255 feet, (8) thence in a northerly direction approximately 137 feet, (9) thence in an easterly direction approximately 134 feet, (10) thence in a northerly direction approximately 5 feet, (11) thence in an easterly direction approximately 127 feet to the west side of 2nd Street, (12) thence north along the west side of 2nd Street to the beginning point. This property is shown on the New York City Tax Map as Queens Tax Block 6, Lot 1 and is commonly known as the Tennisport Center, 51-24 2nd Street, Long Island City, New York. The remaining portions of Stage IV are owned by either the Port Authority of New York and New Jersey or the National Railroad Passenger Corporation.

All acquisitions will be made in full compliance with the requirements of the Act, the EDPL and all other applicable law. The above-identified street addresses and facility names are included for ease of reference only. In the event of any inconsistency between the street address, facility names and the Tax Block and Lot, the Block and Lot shall control.

Comments on the proposed property acquisitions in furtherance of Stages II and IV of the Project are requested from all interested persons and may be made orally or in writing at the hearing. Comments may also be made after the hearing but must be in writing and received on or before 5:30pm on June 12, 2001. Comments received after 5:30pm on June 12, 2001 will not be considered. Written comments should be addressed to the attention of Mr. Stewart Hanley, Empire State Development Corporation/Queens West Development Corporation, 633 Third Avenue, 36th floor, New York, New York 10017.

PROCUREMENT

READER'S GUIDE

The City Record (CR), published each business day, lists notices of proposed New York City procurement actions, contract awards, and other procurement information. Solicitation notices for most procurements above $25,000 for goods and services, $50,000 for construction and construction-related services, and $100,000 for information technology are published for at least one day. Other types of procurement such as sole source require notice in the City Record for five consecutive days.
Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9 a.m. to 5 p.m. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced.
In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional.
This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

BIDDERS LIST APPLICATIONS

New York City procures approximately $7 billion worth of goods, services, construction and construction related services each year. The NYC's Procurement Policy Board rules require that agencies primarily solicit from bidder/proposer lists developed for each commodity/category. Suppliers interested in being placed on such lists may obtain an application from the following agencies:

Goods

● Department of Citywide Administrative Services, Division of Municipal Supplies, Office of Vendor Relations, 1 Centre St.,18th Floor, NY, NY 10007. (212) 669-8562.

Construction & Construction Related Services

● Mayor's Office of Construction, Bidders List Unit, 75 Park Place, 7th Floor, New York, NY 10007. (212) 788-2502.

All Other Services

● Mayor's Office of Contracts, Bidders List Unit, 253 Broadway, 9th Floor, New York, NY 10007. (212) 788-0010. Applications may also be obtained directly from each City agency. Relevant names, addresses, and telephone numbers are listed in Chapter 4 of the Vendor Information Manual.(see next section)

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Business Services, 110 William Street - 2nd floor, New York 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PREQUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from prequalified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a prequalified list, criteria for prequalification must be clearly explained in the solicitation and notice of the opportunity to prequalify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questioner may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of prequalified status can be appealed to the Office of Administrative Trials and Hearing (OATH) Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of prequalified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Board of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority.Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10 am to 3 pm. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

(1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and

(2) is either located in New York City or has a significant tie to New York City's business community.

To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Business Services,

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July. The Procurement Policy Board annually publishes prompt payment results, which may be obtained by calling (212) 788-7820.

To learn more about the City's prompt payment policy, you can obtain a copy of the City's Vendor Payment Guidelines form the Procurement Policy Board, 51 Chambers Street, Room 1126, New York 10007 by calling (212) 788-7820

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations: Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, to Services, or to Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – CSP – PIN# 071-00S003262 – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families and drop-in centers for adults. **This is an open-ended solicitation; there is no due date for submission.** Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-fourth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 5 to 30 years and the drop-in centers will be for three years with one three year option to renew.

Pursuant to Section 312(c)(1)(ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgement is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03(c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated and 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed facility location.

Any organization that believes it can provide these services may contact: Calvin Pitter, Deputy Agency Chief Contracting Officer at the Department of Homeless Services at (212) 361-8000, 33 Beaver Street 13th Flr., New York, NY 10004, to request a copy of the application, which is available for pick-up only Monday through Friday on business days between the hours of 9 a.m. to 5 p.m.
