BROOKLYN BOROUGH PRESIDENT

■ PUBLIC HEARINGS

UNIFORM LAND USE REVIEW PROCEDURE

Notice is hereby given that, pursuant to sections 82 and 197-C of the New York City Charter, the Brooklyn Borough President will hold a public hearing on the following matters in the Community Room, Brooklyn Borough Hall, 209 Joralemon Street, Brooklyn, New York 11201, commencing at 6:00 P.M. on April 4, 2005:

CALENDAR ITEM 1
MALTA STREET APARTMENTS
UDAAP & DISPOSITION OF CITY OWNED PROPERTY
662-668 ALABAMA AVE., 45-65 MALTA ST.
COMMUNITY DISTRICT 5

In the matter of an application submitted by the Department of Housing Preservation and Development (HPD) pursuant to Article 16 of the General Municipal Law of New York State for the designation of property located at 45, 47, 49, 51, 57, 63, and 65 Malta St. & 662, 664 and 668 Alabama Ave., as an Urban Development Action Area, and pursuant to Section 197-c of the New York City charter, for the disposition of said property to a developer selected by HPD, to facilitate the development of two four-story buildings of low-income housing, known as the Malta Street Apartments, in the East New York section of Community District 5 (050267 HAK).

CALENDAR ITEM 2
BENSONHURST REZONING
ZONING MAP AMENDMENT
COMMUNITY DISTRICT 11

In the matter of an application submitted by the Department of City Planning pursuant to Sections 197-c and 201 of the New York City Charter for an amendment to the zoning map of the Bensonhurst-Gravesend neighborhood generally bounded between Bay Parkway, 61st Street, McDonald Avenue, Avenue U and Stillwell Avenue as described in the "Notice of Certification," to facilitate the contextual rezoning of a section of Community District 11 (050296 ZMK).

Note: To request a sign language interpreter, or to request TTD services, call Mr. Judd Schechtman at (718) 802-3856 at least five business days before the day of the hearing.

m23-a4

Notice is hereby given that Brooklyn Borough President Marty Markowitz will hold a meeting and public hearing of the Brooklyn Borough Board in the Community Room, First Floor, Brooklyn Borough Hall, 209 Joralemon Street, Brooklyn, New York 11201, commencing at 6:00 P.M., on TUESDAY, APRIL 5, 2005.

1-City-Owned property Disposition
In accordance with Section 384 of the New York City Charter, the N.Y.C. Economic Development Corporation requests approval for the disposition of city-owned property to private parties located as follows:

Community District 2
Property: Block 269, Lot 1- is located on 110 Livingston Street, the former headquarters of the Board of Education.
Purchaser: 110 Livingston Street, LLC (an affiliate of Two Trees Management) or an affiliated entity.
45 Main Street, Brooklyn, NY 11201

Note: To request a sign language interpreter, or to request TTD services, call Mr. Jon Benguiat, at (718) 802-3890 at least 5 business days before the day of the hearing.

m25-a5

BRONX BOROUGH PRESIDENT

■ PUBLIC HEARINGS

A PUBLIC HEARING IS BEING called by the President of the Borough of The Bronx, Honorable Adolfo Carrión, Jr. on Thursday, April 7, 2005, commencing at 10:00 a.m. in the office of the Borough President, 198 East 161st Street (one block east of the Grand Concourse) 2nd Floor, The Bronx, New York 10451 on the following item:

CD 9-ULURP APPLICATION NO: C 010703 ZMX-IN THE MATTER OF an application submitted by St. Raymond Community Outreach, Inc. pursuant to Sections 197-c and 201, of the New York City Charter for an amendment of the Zoning Map, Section No. 4b, eliminating a Special Planned Community Preservation District (PC) bounded by a line passing through two points: one at the intersection of the centerline of Parker Street and Purdy Street and the other on the easterly street line of Odell Street distant 390 feet northerly of St. Raymond Avenue, the easterly line of the (turnaround) of Odell Street, the northerly centerline prolongation of Odell Street, a line passing through two points: one on the northerly centerline prolongation of Odell Street distant 565 feet northerly of St. Raymond Avenue and the other at the point of intersection of a line 120 feet southerly of Metropolitan Avenue, and Purday Street, Borough of The Bronx, Community District 9, as shown on a diagram (for illustrative purposes only) dated January 31, 2005.

ANYONE WISHING TO SPEAK MAY REGISTER AT THE HEARING. FOR ANY QUESTIONS CONCERNING THIS MATTER, PLEASE CONTACT THE BOROUGH PRESIDENT'S OFFICE AT (718) 590-6124.

m31-a6

STATEN ISLAND BOROUGH PRESIDENT

■ PUBLIC MEETING

Staten Island Borough Board, Conference Room 122 at 5:30 P.M., Wednesday, April 6, 2005, Borough Hall - Stuyvesant Place, Staten Island, New York 10301.

m29-a6

CHARTER REVISION COMMISSION

■ PUBLIC HEARINGS

The New York City Charter Revision Commission is planning to hold public hearings in each borough of the City of New York. At these public hearings, the Commission will hear testimony from members of the public on the Charter. Certain public hearings will be preceded by an "expert forum," in which the Commission will hear from selected experts on a particular issue. The public will have the opportunity to observe the expert forum, but not to ask questions of those experts testifying before the Commission. The public will be invited to testify after the forum concludes and the public hearing portion of the evening begins. Topics for the expert forums will be announced on the Commission's website (www.nyc.gov/charter).

The Mayor has asked this Commission, in reviewing the entire Charter, to pay special attention to fiscal stability, administrative judicial reform, and operational effiency and accountability. Members of the public wishing to testify before the Commission may direct their comments to these topics or to any other aspect of the Charter.

A summary of issues under consideration by the Commission will be made available on the Commission's website (www.nyc.gov/charter) approximately one week prior to the first public hearing. Paper copies of the summary also will be available upon request by telephone or mail.

The Commission thus far has scheduled public hearings on the following dates:

Monday, April 4 Place: Hunter College of the City University of New York, West Building, 8th Floor. Time: Expert forum on begins at 4:00 p.m. Public hearing begins at 6:00 p.m. Directions: Hunter College is accessible by public **transportation. Take the 6 train to 68th Street or the F train** to 63rd Street. The West Building is located on the southwest **corner of 68th Street and Lexington Avenue. Take the escalator to the 3rd floor, then the elevator to the 8th floor. For further information on accessing this location, contact (212) 772-4000.**

The hearings are open to the public and anyone may register to speak. Individuals who wish to give testimony may do so by registering one half-hour before the hearing. Written **testimony is encouraged and can be submitted at the hearings or sent to the New York City Charter Revision Commission at 2 Lafayette Street, 14th Floor, New York, N.Y. 10007. Testimony may also be e-mailed to the** Commission at charter@dcas.nyc.gov.

NOTE Individuals requesting spoken or sign language interpreters for any of these public hearings should contact Charter Revision Commission staff member Brian Geller at (212) 788-2952 five (5) business days prior to the public hearing. TDD users should call Verizon Relay Services.

To contact the Commission by please write or call:

New York City Charter Revision Commission
2 Lafayette Street, 14th Floor
New York, NY 10007, (212) 676-2060

f24-a4

CITY COUNCIL

■ PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN THAT the Council has **scheduled the following public hearing on the matter indicated below:**

The Subcommittee on Landmarks, Public Siting and Maritime Uses will hold a public hearing on the following matter in the Council Committee Room, City Hall, New York, New York 10007, commencing at 11:00 A.M. on Monday, April 4, 2005:

The Subcommittee on Zoning and Franchises will hold public hearings on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 9:30 A.M. on Monday, April 4, 2005:

CITYWIDE **20055056 LLY**
A proposed Local Law to repeal Local Law 64 of 2003.

MANHATTAN CB - 8 **20055187 TCM**
Application pursuant to §20-225 of the Administrative Code of the City of New York, concerning the petition of C & C First Ave. Corp., d/b/a Bar Coastal, to continue to maintain and operate an enclosed sidewalk café located at 1495 First Avenue.

MANHATTAN CB - 2 **20055208 TCM**
Application pursuant to §20-226 of the Administrative Code of the City of New York, concerning the petition of Caliente Cab. Rest. Co., Inc., d/b/a Caliente Cab Co., to continue to maintain and operate an unenclosed sidewalk café located at 61 Seventh Avenue South.

MANHATTAN CB - 8 **20055417 TCM**
Application pursuant to §20-226 of the Administrative Code of the City of New York, concerning the petition of Café Focaccia, Inc., d/b/a Focaccia Florentino, to continue to maintain and operate an unenclosed sidewalk café located at 1166 First Avenue.

BROOKLYN CB - 1 **C 040415 MMK**
Application submitted by the New York City Department of City Planning and the Department of Parks and Recreation pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et. seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of a portion of North 12th Street between Kent Avenue and the United States Pierhead Line;
- the establishment of Inlet Park; the delineation of sewer corridors;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map Nos. Y-2673 and V-2674 dated September 28, 2004 and signed by the Borough President.

BROOKLYN CB - 1 **C 040416 MMK**
Application submitted by the New York City Department of City Planning and the Department of Parks and Recreation pursuant to Sections 197-c and 199 of the New York City Charter, for an amendment to the City Map involving:

- the elimination of a portion of Quay Street between West Street and the United States Bulkhead Line;
- the establishment of Inlet Park;
- the delineation of a sewer corridor;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. Y-2675 dated September 28, 2004 and signed by the Borough President.

BROOKLYN CB - 1 **C 040417 MMK**
Application submitted by the New York City Department of City Planning and the Department of Parks and Recreation pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et. seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of a portion of North 11th Street between Kent Avenue and the United States Pierhead Line;
- the establishment of Inlet Park;
- the delineation of a sewer corridor;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map Nos. Y-2676 and V-2677 dated September 28, 2004 and signed by the Borough President.

BROOKLYN CB - 1 **C 040418 MMK**
Application submitted by the New York City Department of City Planning and the Department of Parks and Recreation pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et. seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of portions of North 9th Street and North 10th Street between Kent Avenue and the United States Pierhead Line;
- the establishment of Inlet Park;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map Nos. W-2690 and V-2691 dated September 28, 2004 and signed by the Borough President.

BROOKLYN CB - 1 **N 050110(A) ZRK**
Application submitted by the Department of City Planning, pursuant to Section 201 of the New York City Charter, for an amendment of the Zoning Resolution of the City of New York, relating to Article II, Chapter 3 (Bulk Regulations for Residential Buildings in Residence Districts) and Article VI, Chapter 2 (Special Regulations Applying in the Waterfront Area); Article XII, Chapter 3 (Special Mixed Use District) specifying a Special Mixed Use District (MX8) in Greenpoint -Williamsburg, Community District 1, Brooklyn; and the elimination of Article IX, Chapter 7 (Special Northside Mixed Use District) and Article X, Chapter 8 (Special Franklin Street Mixed Use District).

Underlined matter is new, to be added;
Matter in ~~Strikeout~~ is old, to be deleted;
Matter within # # is defined in Section 12-10;
* * * indicates where unchanged text appears in the Zoning Resolution

* * *

23-145
For residential buildings developed or enlarged pursuant to the Quality Housing Program

R6 R7 R8 R9
In the districts indicated, the maximum #lot coverage# and the maximum #floor area ratio# for any #residential building# on a #zoning lot developed# or #enlarged# pursuant to the Quality Housing Program shall be as set forth in the following table and the maximums for #developments#, or #enlargements# where permitted, located within 100 feet of a #wide street# in R6, R7 or R8 Districts without a letter suffix outside the #Manhattan Core#, shall be as designated by the same district with an asterisk. In an R6 District inside the #Manhattan Core# located within 100 feet of a #wide street#, the maximums shall be indicated by the same district with a double asterisk.

MAXIMUM LOT COVERAGE AND FAR
FOR QUALITY HOUSING BUILDINGS (in percent)

(TABLE)

The #floor area ratios# in the table above may be increased in certain R6 and R7 Districts within Community District 1, Borough of Brooklyn, pursuant to Section 23-90 (INCLUSIONARY HOUSING).

* * *

23-90
INCLUSIONARY HOUSING

23-91
General Provisions
~~**R10**~~
~~In the district indicated, a~~An Inclusionary Housing program is established in those areas designated in Section 23-92 (Applicability) to preserve and to promote a mixture of low to upper income housing within neighborhoods experiencing a shift from mixed to upper income housing and thus to promote the general welfare. The requirements of this program are set forth in Sections 23-90 through 23-~~94~~95.

23-92
Applicability

23-921
R10 Districts
The Inclusionary Housing Program shall apply in R10 Districts.

23-922
Community District 1, Borough of Brooklyn
The Inclusionary Housing Program shall apply in the following areas of Community District 1 in the Borough of Brooklyn located north of the Williamsburg Bridge, Washington Plaza, Borinquen Place and Grand Street:

(a) Waterfront Access Plan BK-1, as set forth in Section 62-352;

(b) all #Special Mixed Use Districts#;

(c) all R6A, R6B and R7A Districts; and

(d) the following R6 areas:

(1) the #block# bounded by Havemeyer Street, North Sixth Street, Metropolitan Avenue and North Fifth Street;

(2) the #block# bounded by Roebling Street, North Fifth Street, Havemeyer Street and Metropolitan Avenue;

(3) those #blocks# bounded by Wythe Avenue, Grand Street, Berry Street and South Third Street;

(4) those #blocks# and portions of #blocks# bounded by Bedford Avenue, North 1st Street, Driggs Street, Fillmore Place, Roebling Street, and a line coincident with the centerline of the long dimension of the #blocks# bounded by Bedford Avenue, Grand Street, Roebling Street and South First Street; and

(5) that portion of the #block# bounded by Franklin Street, Huron Street, Manhattan Avenue and India Street that is within 100 feet of Franklin Street and 100 feet of India Street.

~~**23-93**~~ **23-93**
Definitions
For the purposes of the Inclusionary Housing program, matter in italics is defined either in Section 12-10 (DEFINITIONS) or in this Section.
Administering agent

The "administering agent" is the entity or entities identified in the #lower income housing plan# as responsible for ensuring compliance with such plan.

The #administering agent# shall be a not-for-profit organization, unless the Commissioner of Housing Preservation and Development finds that a good faith effort by the developer of the #compensated development# to secure a qualified not-for-profit organization as the #administering agent# was unsuccessful~~.~~, or, in Community District 1, Borough of Brooklyn, if the #floor area# of the #standard units# comprising the #lower income housing# constitutes less than half of the total #residential floor area# or #community facility floor area used# as a not-for-profit institution with sleeping accommodations in the #building#.

* * *

Fair rent

* * *

In order for rent to be #fair rent#, the following must also apply:
There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income household# responsible for the payment of utilities as long as the sum of:

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment do not exceed 30 percent of said #lower income household's# income.

However, in Community District 1, Borough of Brooklyn, the Commissioner of Housing Preservation and Development may determine that rents satisfying the requirements of city, state or federal programs assisting #lower income housing# will be considered 'fair rent', provided that such rents do not exceed 30 percent of #lower income household#'s income, as applicable, and provided further that upon expiration or termination of the requirements of the city, state or federal program, rent increases and re-rentals shall be subject to the higher of the then-currently applicable Section 8 Standard or the Rent Stabilization Standard.

At initial occupancy of any #lower income housing#, no portion of the #fair rents# shall be for the payment of the principal or interest on any debt, and the #lower income housing# shall not secure any debt and shall be free of all liens, except liens for real estate taxes, water charges and sewer rents and other governmental charges for which payment is not yet due. #Fair rents# may be used for the payment of principal or interest of debt only if such debt was incurred after the date of initial occupancy and is for a capital improvement to such #lower income housing# other than those capital improvements set forth in the #lower income housing plan#.

In Community District 1, Borough of Brooklyn, at initial occupancy of any #lower income housing#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95(c) of this Resolution, and provided that the lender agrees to enter into a written agreement which subordinates such debt to the provisions of the #lower income housing plan#.

Lower income household

A "lower income household" is a #family# having an income equal to or less than the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U.S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

In Community District 1, Borough of Brooklyn, #lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City or State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with U. S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.

Lower income housing

"Lower income housing" are #standard units# occupied or to be occupied by #lower income households#. #Lower income housing# shall not include #standard units# assisted under city, state or federal programs, except where such assistance is in the form of:

(a) real estate tax abatements and exemptions which are specifically limited to the #lower income housing#; or

(b) operating assistance that the Commissioner of the Department of Housing Preservation and Development determines will be used to enable h ouseholds with incomes of not more than 62.5 percent of the "80 Percent of SMSA Limits" to afford such #lower income housing#.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall include #standard units# assisted under city, state or federal programs.

Lower income housing plan

The "lower income housing plan", is the plan accepted by the Commissioner of Housing Preservation and Development, which sets forth the developer's plans for creating and maintaining the specified #lower income housing# pursuant to this program, including but not limited to, choice of #administering agent#, tenant selection, rent levels in the #lower income housing# and income verification of tenants pursuant to Section ~~23-94~~ 23-95 paragraphs (b), (c) and (d) of this Resolution.

* * *

~~**23-93**~~ **23-94**
Floor Area Compensation

23-941
In R10 Districts
The #floor area ratio# of a #development# may be increased from 10.0 to a maximum of 12.0 at the rate set forth in this Section, if the developer of such #development# provides #lower income housing# pursuant to Section ~~23-94~~ 23-95 (Lower Income Housing Requirements).

For each square foot of #floor area# provided for #lower income housing# pursuant to the options listed in Column A and which meets the requirements set forth in Section ~~23-94~~

23-95, the #floor area# of the #development# may be increased by the number of square feet set forth in Column B.

* * *

23-942
In Community District 1, Borough of Brooklyn

The provisions of this Section 23-942 shall apply in the designated areas set forth in Section 23-922, except within Waterfront Access Plan Bk-1. The #floor area# of a #development# or #enlargement# may be increased by two square feet for each square foot of #floor area# provided for #lower income housing#, up to the maximum #floor area ratio# specified in the table below. In addition, the following rules shall apply:

(a) The compensated #building# must be #developed# or #enlarged# pursuant to the Quality Housing Program, or, in #Special Mixed Use Districts#, pursuant to paragraph (b) of Section 123-662, and

(b) The #lower income housing# must be provided in accordance with the provisions set forth in Section 23-95 (Lower Income Housing Requirements).

District	Base #floor area ratio#	Maximum #floor area ratio#
R6B	2.0	2.2
R6*	2.2	2.42
R6A	3.0	3.6
R6**	3.0	3.6
R7A	4.0	4.6

* for #zoning lots#, or portions thereof, beyond 100 feet of a #wide street#
** for #zoning lots#, or portions thereof, within 100 feet of a #wide street#

~~93-94~~ 23-95
Lower Income Housing Requirements

~~R10~~

To qualify for the increased #floor area#, #compensated developments# must provide #lower income housing# for the life of the increased #floor area# in the #compensated development# pursuant to one or more of the options listed in Section ~~93-941, 93-942 and 93-943~~, 23-951, 23-952 and 23-953 and such #lower income housing# must meet each of the requirements set forth below.

* * *

(g) Insurance

The #administering agent# of the #lower income housing# shall have said housing insured against any damage or destruction in an amount equal to no less than the replacement value of such housing.

Any insurance proceeds received as a result of damage or destruction of all or part of such housing shall be used first for restoring such damaged or destroyed housing to #lower income housing#, free of violations under the New York City Building Code, the New York State Multiple Dwelling Law, the New York City Housing Maintenance Code and this Resolution. However, in Community District 1, Borough of Brooklyn, the Commissioner of Housing Preservation and Development may modify this requirement to provide priority for lenders participating in the financing of #lower income housing# that is assisted under city, state or federal programs.

~~93-941~~ 23-951
On-site new construction option

To qualify for this option, the designated #lower income housing# shall meet the following requirements:

(a) The #lower income housing# shall be located in newly constructed #floor area# in the #compensated development#. The #lower income housing# shall be maintained and leased to #lower income households# for the life of the increased #floor area#.

(b) #Dwelling units# designated as #lower income housing# shall be distributed throughout the #development#. No #story# shall contain more than two such units unless at least 80 percent of all #stories# contain two such units. The size of the designated #lower income housing# units shall at least be distributed among the various size units in proportion to the total distribution of unit size within the #building# in the following categories of unit sizes:

under 600 net square feet
600 - 749 net square feet
750 - 949 net square feet
950 - 1149 net square feet
1150 or more net square feet

In Community District 1, Borough of Brooklyn, the requirements of this paragraph (b) may be waived by the Commissioner of Housing Preservation and Development to facilitate the #development# of #lower income housing#.

~~93-942~~ 23-952
Substantial rehabilitation and off-site new construction options

To qualify for one or more of these options, the designated #lower income housing# shall meet the following requirements:

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#, except that #lower income housing# located within a one-half mile radius of a #compensated development# in Community District 1, Borough of Brooklyn shall be located in an adjacent Community District in the Borough of Brooklyn.

For the new construction option the #lower income housing# shall be in a new #building#. For the substantial rehabilitation options, the #lower income housing# shall be in an existing #building# in which, prior to the submission of the #lower income housing plan# pursuant to this Section, any #residential# portion not in public ownership had been entirely vacant for not less than three years.

Furthermore, in Community District 1, Borough of Brooklyn, the #administering agent# shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing and Preservation and Development approves the #lower income housing plan#.

* * *

~~93-943~~ 23-953
Preservation option

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#, except that #lower income housing# located within a one-half mile radius of a #compensated development# in Community District 1, Borough of Brooklyn shall be located in an adjacent Community District in the Borough of Brooklyn.

The #lower income housing# shall be in an existing occupied #residential# or #mixed building#. Only #standard units# occupied by #lower income households# shall be #lower income housing#. For each #standard unit# designated as #lower income housing# the #administering agent# shall verify the income of the household in tenancy. Furthermore, in Community District 1, Borough of Brooklyn, the #administering agent# shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

ARTICLE VI
CHAPTER 2: SPECIAL REGULATIONS APPLYING IN THE WATERFRONT AREA

* * *

62-14
Requirements for Recordation

* * *

In addition, the preceding public access elements shall be recorded on the certificate of occupancy by the Department of Buildings or Business services, as applicable, and shall be a condition of issuance of such certificate of occupancy.

For parcels identified in Waterfront Access Plan BK-1 for which an alternate plan for joint maintenance and operation has been approved pursuant to paragraph (e) of Section 62-624, the provisions of such plan and the instruments established pursuant thereto shall supersede those of the maintenance and operation agreement described in this Section 62-14.

* * *

62-20
SPECIAL USE REGULATIONS

* * *

62-29
Special Use Regulations for Waterfront Access Plan BK-1

All Use Group 6 and 9 #uses# delineated in Section 62-212 (Waterfront-Enhancing Uses) not otherwise permitted, shall be a permitted use on any parcel identified in Waterfront Access Plan BK-1, provided that such use is limited to not more than 10,000 square feet of #floor area# per establishment; the total amount of #floor area# used for such #uses# does not exceed two per cent of the total amount of #floor area# permitted on such parcel; and such #uses# are located below the level of the first #story# ceiling of a #building# or are located on a #pier# or #platform#.

Additionally, Docks for water taxis (Use Group 6) and Docks or mooring facilities for non-commercial pleasure boats (Use Group 6) shall be a permitted use on any parcel identified in Waterfront Access Plan BK-1.

* * *

62-30
SPECIAL BULK REGULATIONS

All #zoning lots# within #waterfront blocks# shall comply with the #bulk# regulations of this Section. For the purposes of this Section, non-#waterfront blocks# included in Waterfront Access Plan BK-1 shall be considered to be #waterfront blocks#. Existing non-complying buildings or other structures shall be subject to the provisions of Article V (Non-Conforming Uses and non-complying Buildings).

* * *

62-31
Bulk Computations on Waterfront Zoning Lots

* * *

(a) #Floor area#, #dwelling units# or #rooming units# generated by existing #piers# or #platforms# within the #seaward lot# may be located anywhere on the #zoning lot# provided the amount on the #upland lot# does not exceed the maximum for the district on such portion of the #zoning lot# by more than 20 percent. No #bulk# distribution from the #seaward lot# shall be permitted for new #piers# or #platforms#, except within Waterfront Access Plan BK-1. Such # bulk# distribution shall be permitted for new portions of #piers# located within Waterfront Access Plan BK-1, provided that such new portion of the #pier# is accessed from a portion of an existing #pier# containing not less than 25 percent of the #water coverage# of such existing #pier# and that the #water coverage# of the new and existing portions of the #pier# does not exceed the #water coverage# of the existing #pier#.

* * *

62-35
Special Bulk Regulations within Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1, the special #bulk# regulations of this Chapter are further modified as set forth in this Section 62-35, inclusive.

62-351
Special floor area regulations

(a) Maximum permitted #floor area ratio#

In R6 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# shall be 2.43. In R8 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# shall be 5.5. In R6 and R8 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# may be increased for #developments# and #enlargements# that provide lower income housing pursuant to Section 62-352.

(b) #Buildings# used for #accessory# off-#street# parking spaces

The #floor area# of a #building# shall not include floor space used for #accessory# off-street parking spaces provided in any #story# located not more than 33 feet above the height of the #base plane#.

62-352
Inclusionary Housing

The provisions of Section 23-90 (INCLUSIONARY HOUSING) shall apply in R6 and R8 Districts within Waterfront Access Plan BK-1 as modified in this Section.

(a) Definitions

Fair rent

At initial occupancy of #lower income housing# that is occupied by a #moderate income household# or a #middle income household# as defined in this Section, "fair rent" shall include an annual rent for each such housing unit equal to not more than 30 percent of the annual income of the tenant of such housing (the "30 Percent Standard").

Upon renewal of a lease for such an existing tenant in #lower income housing#, #fair rent# (the "Rent Stabilization Standard") is not more than the then-current #fair rent# for such housing plus a percentage increase equal to the percentage increase for a renewal lease of the same term permitted by the Rent Guidelines Board for units subject to the rent stabilization law.
After initial occupancy, upon rental of #lower income housing# to a new tenant, #fair rent# is not more than the higher of:

(1) the then-currently applicable "30 Percent Standard"; or

(2) the Rent Stabilization Standard.

In order for rent to be #fair rent#, the following must also apply:

There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income, #moderate income# or #middle income household# responsible for the payment of utilities as long as the sum of the following do not exceed 30 percent of said #lower income#, #moderate income# or #middle income household's# income ;

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment.

However, the Commissioner of Housing Preservation and Development may determine that rents satisfying the requirements of city, state or federal programs assisting #lower income housing# will be considered "fair rent," provided that such rents do not exceed 30 percent of a #moderate income# or #middle income household#'s income, as applicable, and provided further that upon expiration or termination of the requirements of the city, state or federal program, rent increases and re-rentals shall be subject to the higher of the then-currently applicable 30 Percent Standard or the Rent Stabilization Standard.

Lower income housing

For the purposes of this Section, "lower income housing" shall include #standard units# occupied or to be occupied by #lower

income#, #moderate income# or #middle income households#.

Moderate income household
For the purposes of this Section 62-352, a "moderate income household" is a #family# having an income equal to or less than the following proportion:

$$\frac{125}{80}$$

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

Middle income household

For the purposes of this Section 62-352, a "middle income household" is a #family# having an income equal to or less than the following proportion:

$$\frac{175}{80}$$

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

(b) Floor area increase

(1) For #zoning lots# located in R8 Districts, or located partially in R8 Districts and partially in R6 Districts, the maximum permitted #floor area ratio# on such #zoning lots# may be increased in R6 Districts from 2.43 to 2.75, and in R8 Districts from 5.5 to 6.5, provided that:

(i) at least 15% of the total #floor area# on the #zoning lot# is occupied by #lower income households#, or

(ii) at least 10% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 10% of the total #floor area# on the #zoning lot# is occupied by #moderate income households#, or

(iii) at least 10% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 15% of the total #floor area# on the #zoning lot# is occupied by #middle income households#.

(2) For #zoning lots# located entirely within R6 Districts, the maximum permitted #floor area ratio# may be increased from 2.43 to 2.75 provided that:

(i) at least 7.5% of the total #floor area# on the #zoning lot# is occupied by #lower income households#, or

(ii) at least 5% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 5% of the total #floor area# on the #zoning lot# is occupied by #moderate income households#, or

(iii) at least 5% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 7.5% of the total #floor area# on the #zoning lot# is occupied by #middle income households#.

Where #lower#, #moderate# or #middle income housing# is provided on a #zoning lot# other than the #zoning lot# occupied by the compensated #development#, the percentage of #residential floor area# required to be occupied by such households pursuant to this Section shall be determined as a percentage of the #residential floor area# on the #zoning lot# of such compensated #development#, inclusive of #floor area# bonused pursuant to this Section.

(c) Lower Income Housing Requirements

#Developments# that increase #floor area# in accordance with the provisions of this Section shall comply with the lower income housing requirements of Section 23-95, except as modified in this paragraph (c).

(1) The provisions of Section 23-95(b) shall apply, except that in addition, incoming households of #standard units# in #lower income housing# may be #moderate# and #middle income households#, and sublessees of a #moderate# or #middle income household# may also be a #moderate# or #middle income household#.

Furthermore, on and after the issuance of a certificate of occupancy for #lower income housing#, the #administering agent# shall have a duty to rent such housing to #lower#, #moderate# or #middle income households#, as provided in this Section and in the approved #lower income housing plan#.

This duty to rent shall be satisfied by the #administering agent#, if such agent has in fact rented all such units to #lower#, #moderate# or #middle income households#, as provided in this Section, or has, in good faith, made a continuing public offer to rent such units at rents no greater than the rents authorized by this program or otherwise at law.

(2) The provisions of Section 23-95(d) shall apply, except that prior to renting #lower income housing#, the #administering agent# shall verify the income of each household to occupy such housing, to assure that the households are #lower#, #moderate# or #middle income households# as provided by this Section. The #administering agent# shall submit an affidavit to the Commissioner of Housing Preservation and Development upon initial occupancy and annually thereafter attesting that all incoming occupants of #lower income housing# are #lower#, #moderate# or #middle income households# as required by the provisions of this Section and in the approved #lower income housing plan#.

(3) The provisions of Sections 23-951, 23-952 and 23-953 shall apply, except that with respect to Section 23-951(a), 23-952(b) and 23-953(a), #lower income housing# shall be maintained and leased to #lower#, #moderate# or #middle income households#, as provided in this Section, for the life of the increased #floor area#, and in accordance with the approved #lower income housing plan#. Furthermore, Section 23-953(a) shall be modified to provide that the #administering agent# shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing preservation and Development approves the #lower income housing plan#.

(d) Permits and certificate of occupancy

The requirements of paragraph (f) of Section 23-94 shall not apply. In lieu thereof, the provisions of this paragraph (d) shall apply.

No building permit for any portion of the #compensated development# that utilizes #floor area# bonused pursuant to paragraph (b) of this Section, or is located on any #story# that utilizes the increased height for #developments# that provide Inclusionary Housing as set forth in paragraph (b)(2) of Section 62-354 (Special Height and Setback Regulations) shall be issued until the Commissioner of Housing Preservation and Development certifies that an acceptable #lower income housing plan# has been filed and approved.

No temporary certificate of occupancy shall be issued for any portion of the #compensated development# that utilizes #floor area# bonused pursuant to paragraph (b) of this Section, or is located on any #story# that utilizes the increased height for #developments# that provide Inclusionary Housing as set forth in paragraph (b)(2) of Section 62-354 (Special Height and Setback Regulations), until a temporary certificate of occupancy for each unit of #lower income housing# that is the subject of the #lower income housing plan# accepted by the Commissioner of Housing Preservation and Developmemt has been issued. No permanent certificate of occupancy shall be issued for any portion of the #compensated development# that utilizes #floor area# bonused pursuant to paragraph (b) of this Section, or is located on any #story# which utilizes the increased height for #developments# that provide Inclusionary Housing as set forth in paragraph (b)(2) of Section 62-354 (Special Height and Setback Regulations), until a permanent certificate of occupancy for each unit of #lower income housing# that is the subject of the #lower income housing plan# accepted by the Commissioner of Housing Preservation and Development has been issued.

Prior to the issuance of any temporary or permanent certificate of occupancy for any portion of the #compensated development# that utilizes #floor area# bonused pursuant to paragraph (b) of this Section, or is located on any #story# that utilizes the increased height for #developments# that provide Inclusionary Housing as set forth in paragraph (b)(2) of Section 62-354 (Special Height and Setback Regulations), the Commissioner of Housing Preservation and Development shall certify that the #lower income housing# is in compliance with the #lower income housing plan#.

62-353
Special floor area, lot coverage and residential density distribution regulations
Within any parcel identified in Section 62-831, and with respect to any such parcels which are adjacent to each other and which are under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined in (e) of the definition of a #zoning lot# in Section 12-10) or with respect to which each party in interest (as defined in (f)(4) of the definition of a #zoning lot# in Section 12-10) has executed a declaration declaring that the properties are to be develop as a single parcel or has waived its right to execute such declaration, the total #lot coverage# permitted pursuant to Section 62-322, the total #floor area# permitted pursuant to Section 62-351 or 62-352 and the residential density permitted pursuant to Section 23-22 may be located anywhere within such parcel or between such parcels without regard to #zoning lot lines# or district boundaries provided that such location of #floor area#, #lot coverage# or residential density complies with Section 62-31 and Section 62-34 as modified by Section 62-354.

62-354
Special Height and Setback Regulations
The provisions of Section 62-341 (Developments on land and platforms) are modified as follows:

(a) Paragraph (c)(1) (Maximum base height) shall be modified in R6 Districts to permit a maximum base height of 65 feet or six #stories#, whichever is less. However, for #buildings or other structure# located on a #zoning lot# with more than 100 feet of frontage on a #street# in R6 Districts, at least 20 percent of such frontage shall not exceed a maximum base height of 55 feet or 5 #stories#, whichever is less.

(b) Paragraph (c)(2) (Maximum #building# height) shall not apply. In lieu thereof, the provisions of this paragraph (b) shall apply:

(1) The maximum #building# height in an R6 District shall be 65 feet or six #stories#, whichever is less, within 100 feet of Commercial Street, West Street, Dupont Street, Franklin Street and Kent Avenue. Beyond 100 feet of such #streets# and any other portions of an R6 District, the maximum #building# height in shall be 110 feet. In R8 Districts, the maximum #building# height shall be 210 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 200 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 210 feet to a maximum #building# height of 310 feet. Such maximum #building# heights of 110 feet, 210 feet and 310 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 110 feet, 210 feet or 310 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

(2) For #developments# that provide #lower income housing# pursuant to Section 62-352, the increased #floor area# permitted for such #developments# may exceed the height limits of an R8 District set forth in this paragraph (b) provided that the maximum building height shall be 260 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 200 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 260 feet to a maximum #building# height of 360 feet. Such maximum #building# heights of 260 feet and 360 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 260 feet or 360 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

(c) Paragraphs (c)(3) (#Floor area# distribution) and (c)(5) (Additional setback provisions for high #buildings#) shall not apply.

(d) Paragraph (c)(4) (Maximum #residential# tower size) shall not apply. In lieu thereof, each #residential story# of a #building# located entirely above a height of 85 feet shall not exceed a gross area of 8,100 square feet in an R6 District and 11,000 square feet in an R8 District. If such #residential story# of a #building# is located

partially in an R6 District and partially in an R8 District, it shall not exceed a gross area of 11,000 square feet and any portion located in an R6 district shall not exceed a gross area of 8,100 square feet.

(e) Paragraph (c)(6) shall not apply. In lieu thereof, the outermost walls of each #story# located entirely above a height of 85 feet shall be inscribed within a rectangle. The maximum length of any side of such rectangle that is parallel or within 45 degrees of being parallel to Kent Avenue, West Street or Commercial Street, whichever is closest, shall not exceed 110 feet. The maximum length of any other side of such rectangle shall not exceed 170 feet.

(f) Paragraph (c)(7) (Ground floor streetscape provisions) shall not apply. In lieu thereof, all off-street parking spaces located within 50 feet of a #street#, a #visual corridor# containing a private road, and a #shore public walkway#, #upland connection# or #supplemental public access area# and which are located on a #story# that is above the #base plane# shall be within facilities that are located behind #commercial#, #community facility# or #residential# floor space so that no portion of such parking facility, other than entrances and exits, is visible from such #streets#, #visual corridors# or publicly accessible open spaces. Such floor space shall have a minimum depth of 25 feet. Up to 5 percent of such floor space may be used for mechanical equipment provided that no floor space used for mechanical equipment is located within 15 feet of the #street wall# of the #building# below a height of 15 feet above the #base plane#, and that no exhaust vents are located on the street wall of the #building# below a height of 15 feet above the #base plane#. The remainder of such floor space shall be used for #commercial#, #community facility# or #residential floor area#. Seventy percent of the surface area of the facade of a facility containing parking spaces which are not otherwise required to be behind such #floor area# shall be composed of the same materials as the facade of the #building# in which it is located.

(g) Any roof of a facility containing off-street parking spaces, not otherwise covered by a #building#, which is larger than 400 square feet shall be landscaped. Up to 5 percent of such roof area may be used for mechanical equipment provided that such mechanical equipment is screened from view by a fence which is at least 75 percent opaque or by at least 3 feet of dense planting. Up to 25 percent of such roof area may be accessible solely from an adjacent #dwelling unit# and the remaining roof area shall be accessible for the recreational use of the occupants of the building in which it is located. Hard surfaced areas shall not cover more than 60 percent of such roof area.

(h) At least 70 percent of the width of the #streetwall# of a #building# or #buildings# fronting on a portion of a #street#, #upland connection# or #visual corridor# which is not adjacent to a #shore public walkway# or #supplemental public access area# shall be located within eight feet of such #street line# and extend to a minimum height of 30 feet.

(i) All #developments#, conversions, and #enlargements# or #extensions# which increase the existing #floor area# by more than 10 percent, shall provide along the entire #street# length of the #zoning lot#, one tree for every 25 feet of # street# frontage. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals except where the Department of Parks and Recreation determines that such tree planting would be unfeasible. Such trees shall be planted in accordance with the standards of the Department of Parks and Recreation.

62-50
SPECIAL PARKING AND LOADING REGULATIONS

* * *

62-57
Special Parking and Loading Regulations for Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1 the Special Parking and Loading Regulations of this section are further modified as follows:
The provisions of Section 62-511 and Section 62-521 shall not be applicable.
#Accessory# off-street parking spaces for #uses# permitted pursuant to Section 62-29 shall be provided in conformity with the regulations of Sections 36-21, 36-22 and 36-232 for C2-4 districts.
Any required #accessory# off-street parking spaces provided for #uses# located on a parcel identified in Waterfront Access Plan BK-1 may be located anywhere within such parcel.

* * *

62-60
DESIGN STANDARDS FOR THE WATERFRONT AREA

* * *

62-624
Maintenance and operation of waterfront public access areas

* * *

(e) Alternate plans for joint maintenance and operation in Waterfront Access Plan BK-1

For parcels identified in Waterfront Access Plan BK-1, the owners of two or more such parcels may, either for purposes of certification pursuant to Section 62-711 or at any time thereafter, submit an alternate plan to the Chair for the joint maintenance and operation of waterfront public access areas on such parcels , through an association or other entity established for this purpose or by other method. Such plan may include, in addition to provisions for maintenance and operation, alternate provisions with respect to security, liability, and any other matters set forth in paragraphs (b) and (c) of this Section, as well as special provisions for reporting and monitoring of compliance with obligations for maintenance and operation of the waterfront public access areas. Such plan and any instruments as are necessary for its implementation may be approved by the Chair and the Commissioner of Parks and Recreation upon a determination that:

(1) implementation of the plan would enhance maintenance and operation of the waterfront public access areas consistent with the purposes of this Article; and

(2) participation in the plan is available to owners of contiguous parcels identified in Waterfront Access Plan BK-1 on a equal basis.

* * *

62-70
SPECIAL REVIEW PROVISIONS

* * *

62-711
Waterfront public access and visual corridors

* * *

(e) for the #development# of a park, a site plan and all other applicable data have been submitted showing compliance with the provisions of Section 62-416 (Special regulations for zoning lots that include parks).

For any parcel identified in Waterfront Access Plan BK-1, the Chairperson shall allow for the phased implementation of all required public access areas upon certification to the Commissioner of Buildings that a plan has been submitted that provides for an amount of public access area proportionate to the amount of #floor area# being #developed# in each phase. Additionally, for any #development# located within 240 feet of a #shoreline#, the initial phase and each subsequent phase shall provide a minimum of 200 linear feet of #shore public walkway# and any adjacent #supplemental public access area# located between such #development# and such #shore public walkway#; one #upland connection# through or adjacent to the entire parcel leading to the #shore public walkway#; and at least one other connection from the #shore public walkway# to an adjacent #shore public walkway#, #street# or other #upland connection#. For any #development# located entirely beyond 240 feet of a #shoreline#, the initial phase and each subsequent phase shall also provide a minimum of 100 linear feet of #shore public walkway# and one #upland connection# through or adjacent to the entire parcel leading to the #shore public walkway#. However, no public access area need be provided for a phase consisting of a #development # in which all #residences# in such phase are affordable #residences# for #lower income households# as defined in Section 23-93, or #moderate income households# or #middle income households# as defined in Section 62-352, provided that such exemption shall only apply where 25 percent or less of the total #residential floor area#, including any applicable #floor area bonuses#, on the parcel have been #developed#.

A certificate pursuant to paragraphs (b) or (c) of this Section shall be granted on condition that an acceptable restrictive declaration is executed and filed pursuant to Section 62-14 (Requirements for Recordation).

* * *

62-80
WATERFRONT ACCESS PLANS

* * *

62-812
Elements of a Waterfront Access Plan

A Waterfront Access Plan may:

(a) on #zoning lots# where public access or #visual corridors# are required pursuant to the provisions of Sections 62-40 and 62-60, modify the size, configuration, location or design of required waterfront public access areas or #visual corridors# within certain designated areas in order to address local conditions, provided such plan does not impose a public access or #visual corridor# requirement on any #zoning lot# greater than would otherwise be required pursuant to the provisions of Sections 62-40 or 62-60. For the purpose of determining the amount of public access, the highest standard applicable to a zoning lot may be applied regardless of any specific #use# permitted or proposed for such #zoning lot#. Within Waterfront Access Plan BK-1, the public access and #visual corridor# requirements for any parcel located within the Waterfront Access Plan may be determined by aggregating the public access and #visual corridor# requirements of each zoning lot within the parcel and such aggregated requirements may be modified within such parcel without regard to #zoning lot lines#;

* * *

62-83
Borough of Brooklyn

The following Waterfront Access Plans are hereby established within the Borough of Brooklyn. All applicable provisions of Article VI, Chapter 2, remain in effect within the areas delineated by such plans, except as expressly set forth otherwise in the plans:

BK-1: Greenpoint/ Williamsburg, as set forth in Section 62-831.

* * *

62-831
Waterfront Access Plan BK-1: Greenpoint-Williamsburg

Maps BK-1a through BK-1c in paragraph (g) of this Section show the boundaries of the area comprising the Greenpoint-Williamsburg Waterfront Access Plan and the location of certain features mandated or permitted by the Plan. The plan area has been divided into parcels consisting of tax blocks and lots and other lands as established on (date of adoption), as follows:

Parcel 1:	Block 2472, Lot 350
Parcel 2:	Block 2472, Lot 400
Parcel 3:	Block 2472, Lot 410
Parcel 4:	Block 2472, Lot 425
Parcel 5a:	Block 2472, Lot 100
Parcel 5b:	Block 2472, Lot 32 and Block 2494, Lot 6
Parcel 5c:	Block 2472 Lot 2, Block 2494 Lot 1, Block 2502 Lot 1, Block 2510 Lot 1 and Block 2520 Lot 57
Parcel 6:	Block 2472, Lot 75
Parcel 7:	Block 2520, Lot 1
Parcel 8:	Block 2530, Lots 55 and 56
Parcel 9:	Block 2530, Lots 1
Parcel 10:	Block 2538, Lot 1
Parcel 11:	Block 2543, Lot 1
Parcel 12:	Block 2556, Lots 41
Parcel 13:	Block 2556 Lot 1, Block 2564 Lot 1, Block 2567 Lot 1 and Block 2570 Lot 36
Parcel 14:	Block 2570, Lot 1
Parcel 15:	Block 2590, Lot 1
Parcel 16:	Block 2590, Lot 210
Parcel 17:	Block 2590, Lot 215
Parcel 18:	Block 2590, Lot 22
Parcel 19:	Block 2590, Lot 25
Parcel 20:	Block 2590, Lot 100 and Block 2277, Lot 1
Parcel 21:	Block 2287, Lot 1,16 and 30 and Block 2294 Lots 1 and 5
Parcel 22:	Block 2301, Lots 1, 50, 60 & 70
Parcel 23:	Block 2316, Lot 46
Parcel 24:	Block 2308, Lot 1 and Block 2316, Lot 1
Parcel 25:	Block 2324, Lot 1 & Block 2332, Lot 1
Parcel 26:	Block 2340, Lot 1
Parcel 27:	Block 2348, Lot 1

(a) Area wide modifications:

The following provisions shall apply to all #developments# required to provide public access, pursuant to Section 62-40 (REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AND VISUAL CORRIDORS):

(1) Paragraph (c) of Section 62-412 (Requirements for public access on piers) is applicable, except that a minimum of 15 feet are required along each water edge.

(2) The provisions of Section 62-61 (Design Options and Methodology) shall be inapplicable. In lieu thereof, the following provisions shall apply:

(i) All required public access areas and #visual corridors# shall comply with the general requirements set forth in Section 62-62 (General Requirements for Public Access Areas) and the specific requirements as set forth in this Section.

(ii) #Upland connections#, #visual corridors#, public access areas on #piers# and public access areas in conjunction with #floating structures# shall comply with the design requirements set forth in Sections 62-64 through 62-66, inclusive.

(iii) Public access areas are subject to the design reference standards set forth in Section 62-67 and paragraph (d) of this Section.

(3) The provisions of Section 62-623 (Supplemental public access areas) shall be inapplicable. In lieu thereof, the following provisions shall apply:

(i) A required #supplemental public access area# shall be directly connected to either a #pier# public access area, an #upland connection# or a #shore public walkway# on either its landward or seaward side and its pedestrian circulation zone shall be contiguous with the adjacent pedestrian circulation zone.

(ii) A buffer zone shall only be required where a #supplemental

public access area# adjoins a non-publicly accessible portion of a #zoning lot#, in which case its minimum width shall be 15 feet.

(4) #Street# Treatment

All #streets# adjacent to a #shore public walkway# or #supplemental public access area# shall be improved as a continuation of such #shore public walkway# or #supplemental public access area#, pursuant to the design requirements of paragraph (b) of this Section, inclusive.

(b) Specific design requirements for Public Access Prototypes

The provisions of Section 62-63 (Specific Design Requirements for Public Access Prototypes) shall be inapplicable. In lieu thereof the following provisions for #shore public walkways# and #supplemental public access areas# shall apply:

(1) Greenpoint-Williamsburg Shore Public Walkway-Prototype I

(i) One circulation path with a minimum clear width of 12 feet is required.
The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path.

(ii) A minimum of one linear foot of seating shall be provided for every 100 square feet of #shore public walkway#. At least 60 percent of the required seating shall be landward of the required circulation path.

(iii) A minimum of 50 percent of the pedestrian circulation zone, excluding the required circulation path, shall be planting area. Rip rap, beach or other shoreline materials may be counted as an equivalent to planting area.

(iv) One shade tree is required for every 1,200 square feet of #shore public walkway# and one small or ornamental tree shall be required for every 750 square feet of #shore public walkway#. Trees may be located either in the pedestrian circulation zone landward of the required circulation path or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(2) Greenpoint-Williamsburg Shore Public Walkway-Prototype II

(i) The provisions of 62-621 (Shore public walkways) shall apply except that a #shore public walkway# shall have a minimum 30 foot pedestrian circulation zone and a minimum 15 foot buffer zone.

(ii) One circulation path with a minimum clear width of 12 feet is required.
The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path, in which case, the path shall be located within 20 feet of the shoreline.
A secondary circulation path may be provided, with a minimum width of 10 feet.
Connecting paths having a minimum width of ten feet shall be provided between the two circulation paths at intervals not to exceed 100 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 70 square feet of #shore public walkway#.

(iv) A minimum of 70 percent of the pedestrian circulation zone, excluding the required circulation path shall be planting area. A minimum of 50 percent of this planting area must be improved as lawn according to the provisions of Section 62-675 (Planting and trees).

(v) One shade tree is required for every 1,900 square feet of #shore public walkway# and shall be located in the pedestrian circulation zone. In addition, one shade, small or ornamental tree shall be required for every 850 square feet of #shore public walkway# and may be located either in the pedestrian circulation zone or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(3) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Plaza

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.
The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.
Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 40 square feet of pedestrian circulation zone.
Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 25 percent of the pedestrian circulation zone shall be planting area.

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required.
Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(4) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Park

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.
The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.
Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 50 square feet of pedestrian circulation zone.
Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 60 percent of the pedestrian circulation zone shall be planting area with no more than 30 percent of the planting area in raised planting beds. At least 35 percent of the #supplemental public access area# shall be lawn in compliance with the standards set forth in paragraph (c)(5) of Section 62-675 (Planting and trees).

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required.
Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(c) Amenities

In parcels where #supplemental public access area# is required, no more than fifteen percent of public access area may be reduced if playgrounds and other amenities are provided in accordance with the following provisions.

(1) Playgrounds
A playground shall have a minimum size of 1,000 square feet and, if applicable, there shall be a minimum of 400 feet between any two playground areas. For every five square feet of playground area provided, the total amount of required public access may be reduced by the rate of one square foot.

(2) Other amenities
A reduction in the total amount of required public access area shall be permitted according to the following table.

Amenity	Square feet reduction
Picnic table	22 sq. ft. per table, to a max. of 200 sq. ft.
Chess table	20 sq. ft. per table, to a max. of 200 sq. ft.
Telescope	10 sq. ft. per telescope, to a max. of 50 sq. ft.
Fountain/water feature	150 sq. ft. per feature, to a max. of 300 sq. ft.
Shade structure	150 sq. ft. per structure, to a max. of 300 sq. ft.

(d) Public access design reference standards
Section 62-67 is hereby modified by the following provisions.

(1) Guardrails
The provisions of paragraph (a) Section 62-671 (Guardrails, gates and other protective barriers) shall be inapplicable. In lieu thereof the following provisions for guardrails shall apply:

(i) Guardrails shall be located within waterfront public access areas continuously along any bulkhead, stabilized shore or the water edges of a #pier# or #platform# that is located within 50 feet of a circulation path; and continuously along any grade level change of 30 inches or greater adjoining or within 10 feet of a circulation path. However, guardrails shall not be required landward of any rip rap, beach or any other shoreline material that is at least 10 feet wide. If any protective barrier is provided adjacent to any rip rap, beach or other shoreline material, they shall not exceed a height of 21 inches or shall consist of a bollard and chain device.
Guardrails shall not be required at access points to WD #uses# and #development# on #floating structures#. The minimal protective barrier at such locations shall be a swing gate, bollard and chain or similar device.

(iii) Guardrails shall comply with illustration A1; alternatively, illustration A2 may be used in #piers#.

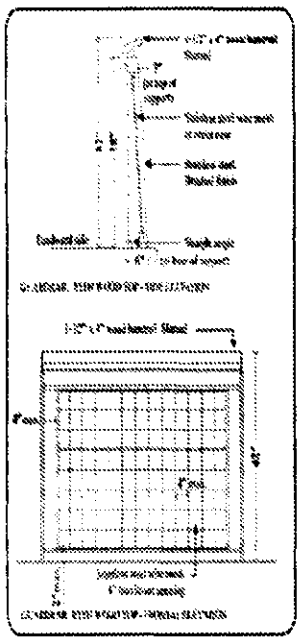

Illustration A1

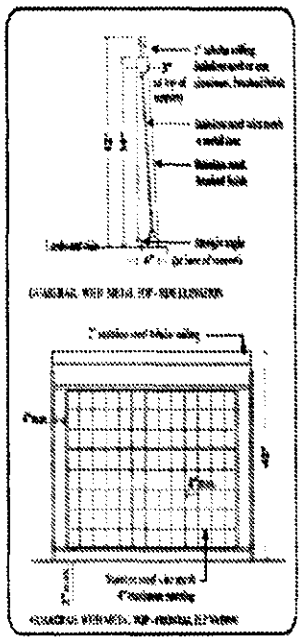

Illustration A2 (Alternate for piers)

All guardrail components and hardware shall be in stainless steel or cast aluminum, as applicable.

(2) Seating
In addition to the provisions of Section 62-672, at least fifty percent of the required seating along any #shore public walkway# or #supplemental public access area# shall comply with illustration B1 or B2 below.

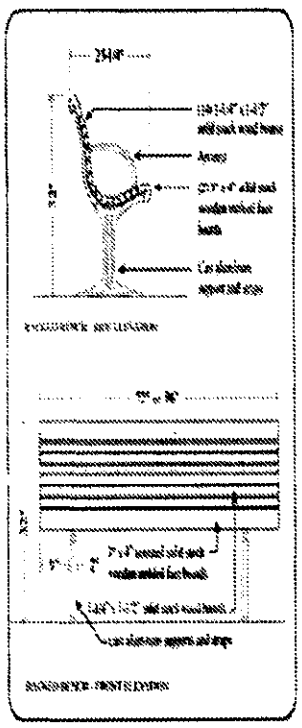

Illustration B1

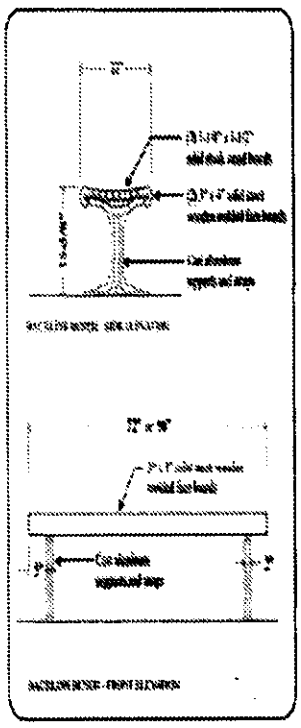

Illustration B2

All wood boards shall be made of Redwood, Jarrah or Ipe, have eased edges and ends and be treated for external use without stain or varnish.
All supports and backstraps shall be 713 tenzalloy cast aluminum, with a rust inhibitor and a top coat finish of thermosetting polyester powdercoat that is ultra-violet, chip and flake resistant. Metal components shall have a light gray or aluminum color.

(3) Lighting
In addition to the provisions of Section 62-673, the required lighting along any public access area shall comply with illustration C1 below.

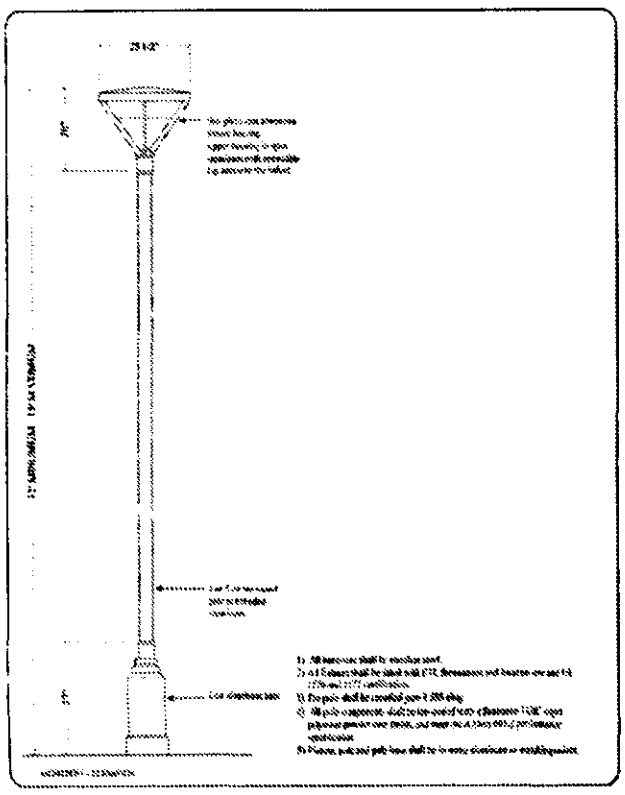

Illustration C1

(4) Planting and trees
The provisions of paragraph (c)(6) (Container planting) of Section 62-675 shall be inapplicable, unless a structural or environmental necessity is demonstrated at the time of certification.

(5) Paving
In addition to the provisions of Section 62-676, the paving for the required clear path within the #shore public walkway# shall be gray. At least fifty percent of all other paved areas within the #shore public walkway# and #supplemental public access areas# shall be paved in the same color range.

(e) Special public access provisions by parcel

The provisions of Sections 62-41 (Requirements for waterfront public access) and 62-60 (DESIGN STANDARDS FOR THE WATERFRONT AREA) are modified at the following designated locations which are shown on Map BK-1b in paragraph (g) of this Section:

(1) Parcels 1 and 2

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.
In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area# The requirements for #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#
An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is developed first shall provide an #upland connection# along the #lot line# between the two parcels. The width of the #upland connection# may be utilized by the developer of the remaining parcel in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels, according to the provisions of paragraph (f)(1) of this Section. If both parcels are developed concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

(3) Parcel 5a

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#
An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (g) of this Section.
The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot lines of Parcels 5b and 6.

(iii) #Supplemental public access area# The #supplemental public access area# shall abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. The #upland connection#, however, may cut across the #supplemental public access area# provided that no area shall be less than 5,000 square feet. All #supplemental public access areas# shall have a minimum width to depth ratio of 1.0 to 1.0 and a maximum width to depth ratio of 2.0 to 1.0. In no event shall the #supplemental public access area# be deeper than 100 feet. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.
Alternatively, a portion of the required #supplemental public access area# that is a minimum of 5,000 square feet may abut the #shore public walkway# continuously along the longest side provided that it also abuts a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-641, but shall not be counted towards satisfying the required amount of public access area on the site. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(4) Parcel 5b

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(5) Parcel 5c

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#
Two #upland connections# shall be provided between West Street and the #shore public walkway#, one each located within the prolongation of the #street lines# of Eagle Street, and Green Street, respectively.

(iii) #Supplemental public access area# Two #supplemental public access areas# shall be provided on Parcel 5c.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.
The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the pedestrian circulation zone of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access
Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(6) Parcel 5

In the event that Parcels 5a, 5b and 5c

are merged into one parcel, they shall be known as Parcel 5 and be subject to the following requirements:

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#
One #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (g) of this Section. The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.

Two #upland connections# shall be provided between West Street and the #shore public walkway#, each located within the prolongation of the #street lines# of Eagle Street and Green Street, respectively.

(iii) #Supplemental public access area# Two #supplemental public access areas# shall be provided. A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5 and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.
The remaining of the required #supplemental public access area# shall be located within the area bounded by the western prolongation of the north #street line# of Dupont Street, the #shore public walkway#, the northern prolongation of the eastern boundary of Parcel 6 and Parcel 6 . The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(iv) #Pier# public access
Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(7) Parcel 7

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply, except that any portion of the required #shore public walkway# where the distance between the shoreline and the boundaries of Parcel 7 is less than 17 feet shall be improved entirely as clear path.

(ii) #Supplemental public access area# The requirement for a #supplemental public access area# on Parcel 7 is waived.

(8) Parcels 9, 10 and 11

(i) #Shore public walkway#
The requirements for Prototype II described in paragraph (b)(2) of this Section shall apply.

(ii) #Supplemental public access area# For each parcel, the #supplemental public access area# requirements shall be provided to widen the pedestrian circulation zone of the #shore public walkway#, evenly distributed along the entire length of such #shore public walkway#.

(9) Parcel 13

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#
An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Milton Street.

(iii) #Supplemental public access area#
A #supplemental public access area# shall be bounded by the southern #street line# of Greenpoint Avenue, the #shore public walkway# and the northern boundary of the required Milton Street #upland connection#. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(10) Parcel 14

(i) #Shore public walkway#
The area between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# shall be improved pursuant to the requirements of Prototype II described in paragraph (b)(2) of this Section. The remaining required #shore public walkway# shall be improved pursuant to the requirements of Prototype I as described in paragraph (b)(1) of this Section.

(ii) #Upland connection#
An #upland connection# shall be provided between West Street and the #shore public walkway#. The southern boundary of such #upland connection# shall be defined by a line between the intersection of the prolongation of the southern #street line# of Calyer Street and the western #street line# of West Street, and a point on the easterly boundary of the #shore public walkway# 30 feet north of the northern #street line# of Quay Street.

(iii) #Supplemental public access area#
Two #supplemental public access areas# shall be provided. A #supplemental public access area# with a minimum of 9,000 square feet shall be provided between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# to widen the pedestrian circulation zone of the #shore public walkway#. The remaining requirements for #supplemental public access area# shall be located in the area bounded by the southern boundary of the required Calyer Street #upland connection#, the #shore public walkway# and the southern boundary line of the parcel. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(11) Parcel 15

An #upland connection# shall be provided within the prolongation of the #street lines# of West Street, connecting Quay Street to Parcel 20.

(12) Parcels 19, 20, 21 and 22

Parcels 19, 20, 21 and 22 shall be designated as public parks as of (date of adoption).

(13) Parcel 24

(i) #Shore public walkway#
Prototype I described in paragraph (b)(1) of this Section shall apply.

(14) Parcel 25

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#
An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of North 6th Street.

(iii) #Supplemental public access area#
Two #supplemental public access areas# shall be provided. One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet from the southern #street line# of North 7th Street. The entire #supplemental public access area#, excluding the required buffer, shall be developed as clear circulation path.

A minimum of one linear foot of seating shall be required for every 40 square feet of pedestrian circulation zone and shall be located in the required buffer zone. Four trees shall be required, at least two of which are shade trees. Small or ornamental trees located within the buffer zone shall not be counted toward the minimum requirements.

The remaining required #supplemental public access area# shall be located either on the #pier# or abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. At least 70 percent of the required #supplemental public access# shall have a width to depth ratio of 2 to 1. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access
Public access shall be provided on a #pier# located at the western terminus of North 6th Street pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(15) Parcel 26

(i) #Shore public walkway#
The requirements of Section 62-411 (Requirements for shore public walkways) shall apply, except that the minimum required width of the #shore public walkway# shall be reduced to 34 feet between North 5th Street and the northern boundary of the required #upland connection# at the prolongation of North 4th Street. The quantity of public access eliminated from the #shore public walkway# as a result of this width reduction shall be located in the triangle formed between the #shore public walkway#, the southern #street line# of the North 4th Street #upland connection# and the bulkhead line. The entirety of the #shore public walkway# shall be improved pursuant to the requirements for Prototype I described in paragraph (b)(1) of this Section.

(ii) #Upland connections#
An #upland connection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street.

(16) Parcel 27

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.
In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other

structure#, but shall not need to be wider than 40 feet. Notwithstanding the requirements of Paragraph (c) of Section 62-62 (General Requirements for Public Access), the #shore public walkway# may be located within the #building or other structure#, and the obstructions permitted by Section 62-626, paragraph (a), shall include any supporting structural elements of the #building or other structure# and its related appurtenances. Additionally, the #shore public walkway# shall have a minimum clear path of 12 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area# The requirements for #supplemental public access# shall be waived.

(f) Special visual corridor provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan are shown on Map BK-1c in paragraph (g) of this Section and shall be as follows:

(1) Parcels 3 and 4

A #visual corridor# shall be provided through Parcels 3 and 4 to the pierhead line within a flexible area along the #lot lines# between them.

Whichever parcel develops second shall complete he required clearance to comply with the #visual corridor# requirements along the #upland connection# already provided in accordance with the requirements of paragraph (e)(2)(ii) of this Section. If both parcels are developed concurrently, then the requirements can be divided equally along the #lot line# between the parcels.

(2) Parcel 5a

A #visual corridor# shall be provided through Parcel 5a to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(3) Parcel 5b

Two #visual corridors# shall be provided through Parcel 5b to the pierhead line as the prolongation of the #street lines# of West Street and Dupont Street, respectively.

(4) Parcel 5c

(i) Three #visual corridors# shall be provided through Parcel 5c to the pierhead line as the prolongation of the #street lines# of West Street, Eagle Street and Green Street.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be permitted obstructions along the #visual corridor# along Green Street.

(5) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5, subject to the following #visual corridors# requirements:

(i) One #visual corridor# shall be provided through Parcel 5 to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6. Four #visual corridors# shall be provided through Parcel 5 to the pierhead line, each located as the prolongation of the #street lines# of West Street, Dupont Street, Eagle Street and Green Street, respectively.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be allowed along the #visual corridor# along Green Street.

(6) Parcel 13

Two #visual corridors# shall be provided through Parcel 13 to the pierhead line as the prolongation of the #street lines# of Milton Street and Oak Street, respectively.

(7) Parcel 14

A #visual corridor# shall be provided through Parcel 14 as the prolongation of the #street lines# of Oak Street.

(8) Parcel 15

A #visual corridor# shall be provided though Parcel 15 as the prolongation of the #stret lines# of West Street.

(9) Parcel 25

A #visual corridor# shall be provided through Parcel 25 as the prolongation of the #street lines# of North 6th Street.

* * *

BROOKLYN CB - 1 **C 050111(A) ZMK**

Application submitted by the Department of City Planning pursuant to Sections 197-c and 201 of the New York City Charter and proposed for modification pursuant to Section 2-06(c) (1) of the Uniform Land Use Review Procedure for an amendment of the Zoning Map, Section Nos. 8d, 9b, 12c, 12d, 13a and 13b:

1. **eliminating a Special Franklin Street Mixed Use District (FR) bounded by** Eagle Street, Franklin Street, Java Street, a line 175 feet westerly of Franklin Street, a line midway between

India Street and Java Street, a line 220 feet westerly of Franklin Street, Huron Street, a line 295 feet westerly of Franklin Street, a line midway between Green Street and Huron Street, a line 245 feet westerly of Franklin Street, Green Street, a line 170 feet westerly of Franklin Street, Freeman Street, a line 130 feet westerly of Franklin Street, a line midway between Eagle Street and Freeman Street, and a line 82 feet westerly of Franklin Street;

2. **eliminating a Special Northside Mixed Use District (N) bounded by:**

   a. Wythe Avenue, North 9th Street, Berry Street, North 10th Street, a line midway between Berry Street and Bedford Avenue, North 12th Street, Union Avenue, Bayard Street, Leonard Street, Manhattan Avenue; Driggs Avenue, McGuinness Boulevard South, Brooklyn Queens Expressway Service Road, Brooklyn Queens Expressway, Metropolitan Avenue, North 4th Street, Berry Street, and North 7th Street, and excluding the area bounded by a line 100 feet southeasterly of Bedford Avenue, North 11th Street, Roebling Street, North 10th Street, Union Avenue, Withers Street, North 9th Street, Roebling Street, North 8th Street, Driggs Avenue, and North 9th Street;

   b. a line 100 feet northerly of Nassau Avenue, Lorimer Street, Nassau Avenue, and Guernsey Street; and

   c. Nassau Avenue, a line midway between Manhattan Avenue and Lorimer Street, Driggs Avenue, and Lorimer Street;

3. **eliminating a C1-3 District within an existing R6 District bounded by** Hope Street, Havemeyer Street, South 1st Street, and a line 150 feet northwesterly of Havemeyer Street;

4. **changing from an R6(M1-2) District to an R6 District property bounded by:**

   a. a line 100 feet southeasterly of Havemeyer Street, North 6th Street, Brooklyn Queens Expressway, and Metropolitan Avenue; and

   b. Havemeyer Street, the southeasterly centerline prolongation of North 5th Street, and Metropolitan Avenue;

5. **changing from a C8-2 District to an R6 District property bounded by:**

   a. North 1st Street, Driggs Avenue, Fillimore Place, Roebling Street, a line midway between Grand Street and South 1st Street, and Bedford Avenue; and

   b. a line midway between Hope Street and Grand Street, Marcy Avenue, Grand Street, and Havemeyer Street;

6. **changing from an M1-1 District to an R6 District property bounded by:**

   a. the U.S. Pierhead Line, the easterly boundary line of a Park and its northerly and southerly prolongations, Commercial Street, Franklin Street, Eagle Street, a line 200 feet westerly of Franklin Street, the northerly street line of Dupoint Street and its westerly prolongation, West Street and its northerly centerline prolongation, and the southwesterly boundary line of a Park and its southerly and northerly prolongations;

   b. a line midway between Huron Street and India Street, a line 100 feet easterly of Franklin Street, India Street, and Franklin Street; and

   c. Grand Street, Berry Street, South 3rd Street, and Wythe Avenue;

7. **changing from an M1-2(R6) District to an R6 District property bounded by** Roebling Street, North 5th Street, Havemeyer Street, Metropolitan Avenue, and North 4th Street;

8. **changing from an M3-1 District to an R6 District property bounded by:**

   a. the U.S. Pierhead Line, a line passing through two points: one on the U.S. Pierhead and Bulkhead Line distance 373 feet westerly (as measured along the Pierhead and Bulkhead Line) from the intersection of the Pierhead and Bulkhead Line and the westerly street line of Manhattan Avenue, and the other on the northerly street line of Commercial Street distant 86 feet westerly (as measured along the Street line) from the intersection of the northerly street line of Commercial Street and the westerly street line of Manhattan Avenue, Commercial Street, and the easterly boundary line of a Park and its southeasterly and northwesterly prolongations, and excluding the area bounded by a line 70 feet southeasterly of the U.S. Bulkhead Line, a line 607 feet southwesterly of the 2nd named course, a line 100 feet northwesterly of Commercial Street, and a line 30 feet northeasterly of a Park;

   b. the U.S. Pierhead Line, the westerly boundary line of a Park and its southerly and northerly prolongations, West Street and its northerly centerline prolongation, the westerly prolongation of the northerly street line of Dupont Street, a line 70 feet easterly of the U.S. Bulkhead Line, the westerly centerline prolongation of Green Street, a line 125 feet westerly of West Street, Eagle Street, West Street, Quay Street, Franklin Street, the northerly boundary line of a Park and its southeasterly prolongation, the U.S. Pierhead Line, a line 100 feet northerly of Quay Street and its westerly prolongation, a line 100 feet westerly of West Street, a line 100 feet southerly of Oak Street and its westerly prolongation, the U.S. Pierhead Line, Kent Street and its westerly centerline prolongation, a line 275 feet westerly of West Street, and Huron Street and its westerly centerline prolongation, and excluding the area bounded by Greenpoint Avenue, a line 100 feet westerly of West Street, Oak Street, a line 500 feet westerly of West Street, Milton Street, and a line 250 feet westerly of West Street; and

   c. the U.S. Pierhead Line, North 7th Street and its northwesterly centerline prolongation, Kent Avenue, North 3rd Street and its northwesterly centerline prolongation, the U.S. Pierhead Line, the northwesterly prolongation of the northeasterly street line of North 4th Street, a line 150 feet northwesterly of Kent Avenue, the northwesterly prolongation of North 5th Street, a line 200 feet northwesterly of Kent Avenue, and a line 100 feet northeasterly of North 6th Street and its northwesterly prolongation;

9. **changing from an R6(M1-1) District to an R6A District property bounded by** a line midway between Eagle Street and Freeman Street, a line 100 feet westerly of Franklin Street, Freeman Street, and a line 130 feet westerly of Franklin Street;

10. **changing from an R6(M1-2) District to an R6A District property bounded by:**

   a. Berry Street, North 10th Street, a line midway between Berry Street and Bedford Avenue, North 12th Street, Bedford Avenue, North 11th Street, a line 100 feet southeasterly of Bedford Avenue, and a line midway between North 10th Street and North 9th Street; and

   b. a line 100 feet northwesterly of Havemeyer Street, North 7th Street, Havemeyer Street, North 6th Street, a line 100 feet southeasterly of Havemeyer Street, and North 5th Street and its southeasterly centerline prolongation;

11. **changing from an M1-1 District to an R6A District property bounded by:**

   a. Eagle Street, a line 82 feet westerly of Franklin Street, a line midway between Eagle Street and Freeman Street, and a line 100 feet westerly of Franklin Street; and

   b. Wythe Avenue, a line 90 feet southwesterly of North 1st Street, Berry Street, and Grand Street;

12. **changing from an R6(M1-1) District to an R6B District property bounded by:**

   a. Freeman Street, Franklin Street, Java Street, a line 175 feet westerly of Franklin Street, a line midway between India Street and Java Street, a line 220 feet westerly of Franklin Street, Huron Street, a line 295 feet westerly of Franklin Street, a line midway between Huron Street and Green Street, a line 245 feet westerly of Franklin Street, Green Street, and a line 170 feet westerly of Franklin Street; and

   b. Driggs Avenue, McGuinness Boulevard South, Brooklyn Queens Expressway Service Road, Graham Avenue-Via Vespucci, Bayard Street, a line 100 feet southwesterly of Graham Avenue-Via Vespucci, Engert Avenue, and Eckford Street;

13. **changing from an R6(M1-2) District to an R6B District property bounded by** Wythe Avenue, North 9th Street, Berry Street, a line midway between North 10th Street and North 9th Street, a line 100 feet southeasterly of Bedford Avenue, North 9th Street, a line 100 northwesterly of Driggs Avenue, North 8th Street, a line 100 feet northwesterly of Roebling Street, North 7th Street, a line 100 feet northwesterly of Havemeyer Street, North 5th Street, Roebling Street, North 4th Street, Driggs Avenue, North 5th Street, Bedford Avenue, North 4th Street, Berry Street, a line midway between 6th Street and North 5th Street, a line 100 feet northwesterly of Bedford Avenue, a line midway between North 7th Street and North 6th Street, Berry Street and North 7th Street;

14. **changing from an M1-1 District to an R6B District property bounded by:**

   a. Freeman Street, a line 170 feet westerly of Franklin Street, Green Street, a line 245 feet westerly of Franklin Street, a line midway between Green Street and Huron Street, a line 100 feet easterly of West Street, Green Street, and a line 125 feet easterly of West Street; and

   b. Huron Street, a line 220 feet westerly of Franklin Street, a line midway between India Street and Java Street, a line 175 feet westerly of Franklin Street, Java Street, and a line 100 feet easterly of West Street;

15. **changing from an M1-2 District to an R6B District property bounded by** a line 250 feet southeasterly of Wythe Avenue, a line midway between North 10th Street and North 9th Street, Berry Street, and North 9th Street;

16. **changing from an M1-1 District to an R8 District property bounded by** the northerly street line of Dupont Street and its westerly prolongation, a line 200 feet westerly of Franklin Street, Eagle Street, West Street, a line midway between Dupont Street and Eagle Street, a line 100 feet easterly of West Street, Dupont Street, and West Street;

17. **changing from an M3-1 District to an R8 District property bounded by:**

   a. a line 70 feet southeasterly of the U.S. Bulkhead Line, a line 607 feet southwesterly of the 2nd named course of 7a above, a line 100 feet northwesterly of Commercial Street, and a line 30 feet northeasterly of a Park;

   b. the westerly prolongation of the northerly street line of Dupont Street, West Street, Dupont Street, a line 100 feet easterly of West Street, a line midway between Dupont Street and Eagle Street, West Street, Eagle Street, a line 125 feet westerly of West Street, the westerly centerline prolongation of Green Street, and a line 70 feet easterly of the U.S. Bulkhead Line;

   c. Huron Street and its westerly centerline prolongation, a line 275 feet westerly of West Street, Kent Street and its westerly centerline prolongation, and the U.S. Pierhead Line;

   d. Greenpoint Avenue, a line 100 feet westerly of West Street, Oak Street, a line 500 feet westerly of West Street, Milton Street, and a line 250 feet westerly of West Street;

   e. a line 100 feet southerly of Oak Street and its westerly prolongation, a line 100 feet westerly of West Street, a line 100 feet northerly of Quay Street and its westerly prolongation, and the U.S. Pierhead Line; and

   f. a line 100 feet northeasterly of North 6th Street and itsnorthwesterly prolongation, a line 200 feet northwesterly of Kent Avenue, North 5th Street, a line 150 feet northwesterly of Kent Avenue, the northwesterly prolongation of the northeasterly street line of North 4th Street, and the U.S. Pierhead Line;

18. **changing from an M3-1 District to an M1-2 District property bounded by:**

   a. the U.S. Pierhead and Bulkhead Line, Pulaski Bridge, Box Street, Commercial Street, and a line passing through two points: one on the U.S. Pierhead and Bulkhead Line distance 373 feet westerly (as measured along the Pierhead and Bulkhead Line) from the intersection of the Pierhead and Bulkhead Line and the westerly street line of Manhattan Avenue, and the other on the northerly street line of Commercial Street distant 86 feet westerly (as measured along the Street line) from the intersection of the northerly street line of Commercial Street and the westerly street line of Manhattan Avenue; and

   b. Meserole Avenue, Gem Street, North 15th Street, Wythe Avenue, Banker Street, a line midway between Wythe Avenue and Berry Street and its northeasterly prolongation, North 12th Street, Wythe Avenue, North 9th Street, Kent Avenue, and Franklin Street;

19. **changing from an R6(M1-1) District to an M1-2/R6 District property bounded by:**

   a. a line 100 feet northerly of Nassau Avenue, Lorimer Street, Nassau Avenue, and Guernsey Street;

   b. Nassau Avenue, a line midway between Manhattan Avenue and Lorimer Street, Driggs Avenue, and Lorimer Street;

   c. Driggs Avenue, Leonard Street, and Manhattan A venue; and

   d. Engert Avenue, Eckford Street, Manhattan Avenue, Bayard Street, and

Leonard Street;

20. **changing from a C8-1 District to an M1-2/R6 District property bounded by** Brooklyn Queens Expressway, Richardson Street, a line 150 feet westerly of Graham Avenue-Via Vespucci, Frost Street, Manhattan Avenue, a line midway between Frost Street and Withers Street, a line 100 feet easterly of Leonard Street, Withers Street, Leonard Street, a line midway between Withers Street and Jackson Street, a line 150 feet easterly of Lorimer Street, Jackson Street, a line 100 feet westerly of Lorimer Street, and Skillman Avenue;

21. **changing from an M1-1 District to an M1-2/R6 District property bounded by:**

a. Commercial Street, Box Street, a line 300 feet westerly of Manhattan Avenue, and Clay Street;

b. Box Street and its easterly centerline prolongation, McGuinness Boulevard (east), Clay Street, and a line 100 feet westerly of McGuinness Boulevard (west);

c. a line 250 feet southerly of Engert Avenue, a line midway between Russell Street and humboldt Street, Brooklyn Queens Expressway, Brooklyn Queens Expressway Service Road, McGuinness Boulev ard South, and Humboldt Street;

d. Metropolitan Avenue, Union Avenue, Borinquen Place, Marcy Avenue, a line midway between Hope Street and Grand Street, Havemeyer Street, Hope Street, Roebling Street, Fillimore Place, Driggs Avenue, North 1st Street, and Bedford Avenue; and

e. South 4th Street, South 5th Place and its southerly centerline prolongation, South 5th Street, and Wythe Avenue;

22. **changing from an M1-1(R6) District to an M1-2/R6 District property bounded by** Bayard Street, Graham Avenue-Via Vespucci, Brooklyn Queens Expressway Service Road, Brooklyn Queens Expressway, Leonard Street, Richardson Street, and a line 100 feet westerly of Manhattan Avenue;

23. **changing from an M1-2 District to an M1-2/R6 District property bounded by:**

a. Berry street, Nassau Avenue, Lorimer Street, Driggs Avenue, Manhattan Avenue, Leonard Street, Bayard Street, Union Avenue, and North 12th Street;

b. Driggs Avenue, North 4th Street, and Metropolitan Avenue; and

c. Kent Avenue, South 4th Street, a line 100 feet westerly of Wythe Avenue, South 3rd Street, Wythe Avenue, and South 5th Street;

24. **changing from an M1-2(R6) District to an M1-2/R6 District property bounded by** a line 100 feet southeasterly of Havemeyer Street, Union Avenue, the westerly centerline prolongation of Jackson Street, a line 100 feet easterly of Union Avenue, Withers Street, Lorimer Street, Frost Street, Leonard Street, Brooklyn Queens Expressway, and North 6th Street and its southeasterly centerline prolongation;

25. **changing from an M3-1 District to an M1-2/R6 District property bounded by** Kent Avenue, a line 140 feet southwesterly of North 1st Street, Wythe Avenue, a line midway between South 1st Street and South 2nd Street, a line 200 feet northwesterly of Wythe Avenue, a line midway between Grand Street and South 1st Street, a line 100 feet southeasterly of Kent Avenue, and Grand Street;

26. **changing from an R6(M1-1) District to an M1-2/R6A District property bounded by:**

a. Driggs Avenue, a line midway between Eckford Street and Leonard Street, a line 100 feet northerly of Engert Avenue, Eckford Street, Engert Avenue, and Leonard Street; and

b. Engert Avenue, a line 100 feet southwesterly of Graham Avenue-Via Vespucci, Bayard Street, Manhattan Avenue, and Eckford Street;

27. **changing from an R6(M1-2) District to an M1-2/R6A District property bounded by:**

a. North 12th Street, Union Avenue, Bayard Street, Leonard Street, Richardson Street, a line 100 feet westerly of Lorimer Street, a line midway between Bayard Street and Richardson Street, a line 100 feet easterly of Union Avenue, Richardson Street, North 11th Street, and Driggs Avenue;

b. North 9th Street, Driggs Avenue, North 8th Street, and a line 100 feet northwesterly of Driggs Avenue;

c. North 8th Street, Roebling Street, North 7th Street, and a line 100 feet northwesterly of Roebling Street; and

d. Berry Street, a line midway between North 7th Street and North 6th Street, a line 100 feet northwesterly of Bedford Avenue, and a line midway between North 6th Street and North 5th Street;

28. **changing from an M1-1 District to an M1-2/R6A District property bounded by:**

a. Box Street, a line 100 feet westerly of Pulaski Bridge, Clay Street and a line 300 feet westerly of Manhattan Avenue;

b. Clay Street, a line 430 feet easterly of Franklin Street, Dupont Street, Franklin Street, and Commercial Street;

c. Eagle Street, a line 100 feet westerly of Franklin Street, a line midway between Eagle Street and Freeman Street, a line 130 feet westerly of Franklin Street, Freeman Street, a line 125 feet easterly of West Street, Green Street, a line 100 feet easterly of West Street, Java Street, Franklin Street, Oak Street, a line 100 feet easterly of West Street, Calyer Street, Franklin Street, Quay Street, and West Street;

d. Green Street, a line 320 feet easterly of Franklin Street, a line midway between Freeman Street and Green Street, a line 100 feet westerly of Manhattan Avenue, a line midway between Green Street and Huron Street, a line 125 feet easterly of Franklin Street, a line 50 feet northerly of Huron Street, and Franklin Street; and

e. North 3rd Street, Berry Street, a line 90 feet southwesterly of North 1st Street, and Wythe Avenue;

29. **changing from an M1-1(R6) District to an M1-2/R6A District property bounded by** Bayard Street, a line 100 feet westerly of Manhattan Avenue, Richardson Street, and Leonard Street;

30. **changing from an M1-2 District to an M1-2/R6A District property bounded by:**

a. a line 250 feet southeasterly of Wythe Avenue, North 12th Street, a line midway between Berry Street and Bedford Street, North 10th Street, Berry Street, and a line midway between North 10th Street and North 9th Street;

b. North 11th Street, Roebling Street, North 10th Street, Union Avenue, Withers Street, North 9th Street, Roebling Street, North 8th Street, Driggs Avenue, North 9th Street, and a line 100 feet southeasterly of Bedford Avenue; and

c. Wythe Avenue, a line midway between North 7th Street and North 6th Street, Berry Street, and North 3rd Street;

31. **changing from an M1-2(R6) District to an M1-2/R6A District property bounded by:**

a. Roebling Street, North 11th Street, Richardson Street, a line 100 feet easterly of Union Avenue, the westerly centerline prolongation of Jackson Street, Union Avenue, a line 100 feet southeasterly of Havemeyer Street and its northeasterly prolongation, North 6th Street, Havemeyer Street, North 7th Street, Roebling Street, North 9th Street, Withers Street, Union Avenue, and North 10th Street; and

b. Richardson Street, Leonard Street, Frost Street, and Lorimer Street;

32. **changing from an M3-1 District to an M1-2/R6A District property bounded by** North 9th Street, Wythe Avenue, North 8th Street, a line 100 feet southeasterly of Kent Avenue, a line midway between North 7th Street and North 6th Street, Wythe Avenue, a line 140 feet southwesterly of North 1st Street, and Kent Avenue;

33. **changing from an R6(M1-1) District to an M1-2/R6B District property bounded by** Driggs Avenue, Eckford Street, a line 100 feet northerly of Engert Avenue, and a line midway between Leonard Street and Eckford Street;

34. **changing from an R6(M1-2) District to an M1-2/R6B District property bounded by:**

a. a line midway between Bayard Street and Richardson Street, a line 100 feet westerly of Lorimer Street, Richardson Street, and a line 100 feet easterly of Union Avenue; and

b. North 5th Street, Driggs Avenue, a line 150 feet southwesterly of North 5th Street, and a line 25 feet northwesterly of Driggs Avenue;

35. **changing from an M1-1 District to an M1-2/R6B District property bounded by** Oak Street, Franklin Street, Calyer Street and a line 100 feet westerly of West Street;

36. **changing from an M1-2 District to an M1-2/R6B District property bounded by:**

a. North 7th Street, Berry Street, a line midway between North 7th Street and North 6th Street, and Wythe Avenue; and

b. North 4th Street, Driggs Avenue, North 3rd Street, and Berry Street;

37. **changing from an M1-2(R6) District to an M1-2/R6B District property bounded by:**

a. Richardson Street, Lorimer Street, Withers Street, and a line 100 feet easterly of Union Avenue; and

b. Bedford Avenue, North 5th Street, a line 25 feet northwesterly of Driggs Avenue, a line 150 feet southwesterly of North 5th Street, Driggs Avenue, and North 4th Street;

38. **changing from an M3-1 District to an M1-2/R6B District property bounded by** North 8th Street, Wythe Avenue, a line midway between North 7th Street and North 6th Street, and a line 100 feet southeasterly of Kent Avenue;

39. **changing from an M1-2(R6) District to an M1-2/R7A District property bounded by** North 12th Street, Driggs Avenue, North 11th Street, and Bedford Avenue;

40. **establishing within a proposed R6 District a C1-4 District bounded by** Roebling Street, a line midway between Hope Street and Grand Street, a line 150 feet northwesterly of Havemeyer Street, Hope Street, Havemeyer Street, South 1st Street, a line 150 feet northwesterly of Havemeyer Street, and a line midway between Grand Street and South 1st Street;

41. **establishing within a proposed R6 District a C2-4 District bounded by:**

a. a line 150 feet northwesterly of Commercial Street, a line passing through two points: one on the U.S. Pierhead and Bulkhead Line distance 373 feet westerly (as measured along the Pierhead and Bulkhead Line) from the intersection of the Pierhead and Bulkhead Line and the westerly street line of Manhattan Avenue, and the other on the northerly street line of Commercial Street distant 86 feet westerly (as measured along the Street line) from the intersection of the northerly street line of Commercial Street and the westerly street line of Manhattan Avenue, Commercial Street, the northeasterly boundary line of a Park and its southeasterly prolongation, a line 100 feet northwesterly of Commercial Street, and a line 607 feet southwesterly of the 2nd named course;

b. Eagle Street, West Street, Quay Street, Franklin Street, the northerly boundary line of a Park and its southeasterly prolongation, a line 225 feet easterly of the easterly boundary line of a Park, Quay Street, a line 100 feet westerly of West Street, Greenpoint Avenue, a line 250 feet westerly of West Street, a line midway between Kent Street and Greenpoint Avenue, a line 150 feet westerly of West Street, a line 100 feet northerly of Huron Street, a line 605 feet westerly of West Street, the westerly centerline prolongation of Green Street, and a line 125 feet westerly of West Street;

c. Greenpoint Avenue, a line 250 feet westerly of West Street, a line 100 feet southerly of Greenpoint Avenue, and a line 460 feet westerly of West Street;

d. a line midway between Kent Street and Greenpoint Avenue, a line 150 feet westerly of Manhattan Avenue, a line midway between Greenpoint Avenue and Milton Street, and Franklin Street;

e. North 7th Street, Kent Avenue, North 3rd Street, a line 150 feet northwesterly of Kent Avenue, North 5th Street, and a line 200 feet northwesterly of Kent Avenue; and

f. North 1st Street, Driggs Avenue, a line 60 feet southwesterly of Fillimore Place, Roebling street, a line midway between Grand Street and South 1st Street, and Bedford Avenue;

42. **establishing within a proposed R6A District a C1-4 District bounded by** North 10th Street, Bedford Avenue, a line midway between North 10th Street and North 9th Street, and a line 100feet northwesterly of Bedford Avenue;

43. **establishing within a proposed R6A District a C2-4 District bounded by** Wythe Street, a line 90 feet southwesterly of North 1st Street, Berry Street, and Grand Street;

44. **establishing within a proposed R6B District a C1-4 District bounded by** a line 100 feet northwesterly of Bedford Avenue, a line midway between North 10th Street and North 9th Street, Bedford Avenue, North 8th Street, a line 100 feet southeasterly of Bedford Avenue, North 5th Street, Bedford Avenue, and North 4th Street;

45. **establishing within a proposed R6B District a C2-4 District bounded by** a line midway between Freeman Street and Green Street, Franklin Street, a line midway between Green Street and Huron Street, a line 100 feet easterly of West Street, Green Street, and a line 125 feet easterly of West Street;

46. establishing within a proposed R8 District a C2-4 District bounded by:

a. the westerly prolongation of the southerly street line of upont Street, West Street, Dupont Street, a line 100 feet easterly of West Street, Eagle Street and a line 125 feet westerly of West Street;

b. a line 100 feet southerly of Freeman Street, a line 125 feet westerly of West Street, the westerly centerline prolongation of Green Street, and a line 605 feet westerly of West Street;

c. Greenpoint Avenue, a line 100 feet westerly of West Street, a line 100 feet southerly of Greenpoint Avenue, and a line 250 feet westerly of West Street; and

d. a line 100 feet northeasterly of North 6th Street, a line 200 feet northwesterly of Kent Avenue, a line 100 feet southwesterly of North 6th Street, and a line 555 feet northwesterly of Kent Avenue; and

47. establishing a Special Mixed Use District (MX-8) bounded by:

a. Box Street and its easterly centerline prolongation, McGuinness Boulevard (east), Clay Street, a line 430 feet easterly of Franklin Street, Dupont Street, Franklin Street, and Commercial Street;

b. Eagle Street, a line 100 feet westerly of Franklin Street, Freeman Street, a line 125 feet easterly of West Street, Green Street, a line 100 feet easterly of West Street, Java Street, Franklin Street, Quay Street, and West Street;

c. Green Street, a line 320 feet easterly of Franklin Street, a line midway between Freeman Street and Green Street, a line 100 feet westerly of Manhattan Avenue, a line midway between Green Street and Huron Street, a line 125 feet easterly of Franklin Street, a line 50 feet northerly of Huron Street, and Franklin Street;

d. a line 250 feet southeasterly of Wythe Avenue, North 12th Street, Berry Street, Nassau Avenue, Guernsey Street, a line 100 feet northerly of Nassau avenue, Lorimer Street, Nassau avenue, a line midway between Manhattan avenue and Lorimer Street, Driggs Avenue, Eckford Street, Engert Avenue, a line 100 feet southwesterly of Graham Avenue-Via Vespucci, Bayard Street, Graham Avenue-Via Vespucci, Brooklyn Queens Expressway Service Road, McGuinness Boulevard South, Humboldt Street, a line 250 feet southerly of Engert Avenue, a line midway between Russell Street and Humboldt Street, Brooklyn Queens Expressway, Richardson Street, a line 150 feet westerly of Graham Avenue-Via Vespucci, Frost Street, Manhattan Avenue, a line midway between Frost street and Withers Street, a line 100 feet easterly of Leonard Street, Withers Street, Leonard Street, a line midway between Withers Street and Jackson Street, a line 150 feet easterly of Lorimer Street, Jackson Street, a line 100 feet westerly of Lorimer Street, Skillman Avenue, Brooklyn Queens Expressway, North 6th Street, Havemeyer Street, North 7th Street, a line 100 feet northwesterly of Roebling Street, North 8th Street, a line 100 feet northwesterly of Driggs Avenue, North 9th Street, a line 100 feet southeasterly of Bedford Avenue, and a line midway between North 10th Street and North 9th Street;

e. Kent Avenue, North 9th Street, Wythe Avenue, North 7th Street, Berry Street, a line midway between North 7th Street and North 6th Street, a line 100 feet northwesterly of Bedford Avenue, a line midway between North 6th Street and North 5th Street, Berry Street, North 4th Street, Bedford Avenue, North 5th Street, Driggs Avenue, North 4th Street, Metropolitan Avenue, Union Avenue, Borinquen Place, Marcy Avenue, a line midway between Hope Street and Grand Street, Havemeyer Street, Hope Street, Roebling Street, Fillimore Place, Driggs Avenue, North 1st Street, Bedford Avenue, Metropolitan Avenue, North 3rd Street, Berry Street, a line 90 feet southerly of North 1st Street, Wythe Avenue, a line midway between South 1st Street and South 2nd Street, a line 200 feet westerly of Wythe Avenue, a line midway between Grand Street and South 1st Street, a line 100 feet easterly of Kent Avenue, and Grand Street; and

f. South 3rd Street, Wythe Avenue, South 4th Street, South 5th Place and its southerly centerline prolongation, South 5th Street, Kent Avenue, South 4th Street, and a line 100 feet westerly of Wythe Avenue;

as shown on a diagram (for illustrative purposes only) dated December 22, 2004, and subject to the conditions of CEQR Declaration E-138.

CITYWIDE **N 050148(A) ZRY**

Application submitted by the Department of City Planning pursuant to Section 201 of the New York City Charter, for an amendment of the Zoning Resolution of the City of New York, relating to Article I, Chapter 1 (Title, Establishment of Controls, and Interpretation of Regulations) and Chapter 2 (Construction of Language and Definitions); Article II, Chapter 3 (Bulk Regulations for Residential Buildings in Residential Districts) and Chapter 5 (Accessory Off-Street Parking and Loading Regulations), establishing an R2A district.

Matter in underline is new, to be added;
matter in ~~strikeout~~ is old, to be deleted;
Matter within # # is defined in Section12-10;
*** * * indicate where unchanged text appears in the Zoning Resolution**

Floor area
"Floor area" is the sum of the gross areas of the several floors of a #building# or #buildings#, measured from the exterior faces of exterior walls or from the center lines of walls separating two #buildings#. In particular, #floor area# includes:

* * *

(d) attic space (whether or not a floor has been laid) providing structural headroom of five feet or more in R2A, R2X, R3, R4 or R5 Districts and eight feet or more in other districts;

* * *

(i) floor space used for #accessory# off-street parking spaces provided in any #story# after June 30, 1989:

(1) within #detached# or #semi-detached single-# or #two-family residences# in R2A, R2X, R3, R4 or R5 Districts, except that

(a) in R2A Districts, #floor area# within such #residences# shall include only floor space in excess of 300 square feet for one such space, and

(b) in R3, R4A and R4-1 Districts in #lower density growth management areas#, #floor area# within such #residences# shall include only floor space in excess of 300 square feet for one such space and in excess of 500 square feet for two such spaces.;

* * *

(6) which is unenclosed and covered by a #residential building or other structure# for at least 50 percent of such #accessory# off-street parking space in R2A, R2X, R3, R4 and R5 Districts.....

* * *

However, the #floor area# of a #building# shall not include:

* * *

(4) attic space (whether or not a floor ~~actually~~ has been laid) providing structural headroom of less than five feet in R2A, R2X, R3, R4 or R5 Districts and less than eight feet in other districts;

* * *

(6) floor space used for #accessory# off-street parking spaces provided in any #story#:

(i) up to 200 square feet per required space existing on June 30, 1989 within #residential buildings# in R3, R4 or R5 Districts, except that:

(a) in R2A Districts, #floor area# shall not include up to 300 square feet for one required space, and

(b) for #detached# or #semi-detached single-# or #two-family residences# in R3, R4A and R4-1 Districts within #lower density growth management areas#, #floor area# shall not include up to 300 square feet for one required space and up to 500 square feet for two required spaces,

* * *

(9) except in R2A, R2X, R3, R4 and R5 Districts, the lowest #story# (whether a #basement# or otherwise) of a #residential building#, provided that:

(i) such #building# contains not more than two #stories# above such #story#;

Chapter 3
Bulk Regulations for Residential Buildings in Residence Districts

* * *

23-00
APPLICABILITY AND GENERAL PURPOSES

* * *

23-10
OPEN SPACE AND FLOOR AREA REGULATIONS

* * *

23-141
In R1, R2, R3, R4 or R5 Districts

R1 R2 R3 R4 R5

Except as otherwise provided in Section 23-144 (For non-profit residences for the elderly in R3, R4, R5, R6 and R7 Districts), in the districts indicated, the minimum required #open space# or #open space ratio#, the maximum #lot coverage# and the maximum #floor area ratio# for any #building# on a #zoning lot# shall be as set forth in the following tables:

(a)

District	Minimum Required #Open Space Ratio#	Maximum #Floor Area Ratio#
R1 R2*	150.0	0.50

* R2A and R2X ~~is~~ are subject to the provisions of paragraph (b).

(b)

District	Maximum #Lot Coverage# (in percent)	Minimum Required #Open Space# (in percent)	Maximum #Floor Area Ratio#
R3A R3X	governed by #yard# requirements		.50
R4A R4-1	governed by #yard# requirements		.75
R2X	governed by #yard# requirements		.85
R2A	35	65	.50
R3-1			
R3-2	35	65	.50
R4	45	55	.75
R4B	55	45	.90
R5	55	45	1.25
R5B	55	45	1.35

* * *

(5) In R2A Districts, the permitted #floor area# may be increased by up to 300 square feet for a detached garage located in a #rear yard#, except where a parking space is provided within a #residential building#.

* * *

23-22
Maximum Number of Dwelling Units or Rooming Units

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts, as indicated, the maximum number of #dwelling units# or #rooming units# shall equal the maximum #residential floor area# permitted on the #zoning lot# divided by the applicable factor in the following table. In R1 through R5 Districts, no #rooming units# shall be permitted and any #dwelling unit# shall be occupied by only one #family#. Fractions equal to or greater than three-quarters resulting from this calculation shall be considered to be one #dwelling unit# or #rooming unit#.

* * *

FACTOR FOR DETERMINING MAXIMUM NUMBER OF DWELLING UNITS OR ROOMING UNITS

District	Factor for #Dwelling Units#	Factor for #Rooming Units#
R1-1	4,750	
R1-2	2,850	
R2, R2A	1,900	
R2X	2,900	

* * *

23-30
LOT AREA AND LOT WIDTH REGULATIONS

* * *

23-32
Minimum Lot Area or Lot Width for Residences

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts, as indicated, except as provided in Section 23-33 (Special Provisions for Existing Small Lots), no #residence# is permitted on a #zoning lot# with a total #lot area# or #lot width# less than as set forth in the following table:

REQUIRED MINIMUM LOT AREA AND LOT WIDTH

Type of #Residence#	Minimum #Lot Area# (in sq. ft.)	Minimum #Lot Width# (in feet)	District
#Single-family detached#	9,500	100	R1-1
	5,700	60	R1-2
	3,800	40	R2 R2A
	2,850	30	R2X

* * *

23-40
YARD REGULATIONS

* * *

23-44
Permitted Obstructions in Required Yards or Rear Yard Equivalents

* * *

(b) In any #rear yard# or #rear yard equivalent#:

Parking spaces, off-street, #accessory#, provided that:

(1) the height of a #building# used for such purposes, if accessory to a #single#- or #two-family residence#, shall not exceed one #story#, and if located in an R1 District such #building# may not be nearer than five feet to a #rear lot line# or #side lot line#. In R2A Districts, detached garages shall be included in #lot coverage#;

* * *

23-441
Location of garages in side yards of corner lots

In all #Residence Districts#, on #corner lots#, enclosed #accessory# off-street parking spaces shall not be considered obstructions in any portion of a #side yard# which is within 30 feet of both #side lot lines#, provided that in an R1 or R2A District, on a #corner lot# whose mean width is 45 feet or more, no structure used for such purposes shall be less than five feet from any #side lot line#. In R2A Districts, detached garages shall be included in #lot coverage#.

* * *

23-461
Side yards for single- or two-family residences

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

(a) In all districts, as indicated, for #single-family detached residences# or, where permitted, for #two-family detached residences#, #side yards# shall be provided as set forth in the following table, except that on #corner lots# in #lower density growth management areas#, and on #corner lots# in R2A Districts, one #side yard# shall be at least 20 feet in width:

MINIMUM REQUIRED SIDE YARD

Number Required	Required Total Width (in feet)	Required Minimum Width of any #Side Yard# (in feet)	District
2	35	15	R1-1
2	20	8	R1-2
2	13	5	R2 R2A R3-1 R3-2 R4-R10
2	10	2*	R2X R3X R4A
1	8	0*	R3A R4-1 R4B R5B

* * *

23-541
Within one hundred feet of corners

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts, as indicated, except within #lower density growth management areas#, and except R2A Districts, no #rear yard# shall be required within 100 feet of the point of intersection of two #street lines# intersecting at an angle of 135 degrees or less.

23-542
Along short dimension of block

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts, as indicated, except within #lower density growth management areas#, and except R2A Districts, whenever a #front lot line# of a #zoning lot# coincides with all or part of a #street line# measuring less than 230 feet in length between two intersecting #streets#, no #rear yard# shall be required within 100 feet of such #front lot line#.

* * *

23-60
HEIGHT AND SETBACK REGULATIONS

* * *

23-621
Permitted obstructions in certain districts

R2A R3 R4 R4A R4-1

(a) In the districts indicated, permitted obstructions are limited to those listed in paragraphs (b), (e) and (g) of Section 23-62 (Permitted Obstructions)

* * *

23-631
Height and setback in R1, R2, R3, R4 and R5 Districts

R1 R2

(a) In the districts indicated, except R2A and R2X Districts, the front wall or any other portion of a #building or other structure# shall not penetrate the #sky exposure plane# set forth in the following table:

* * *

R2A R2X R3 R4 R4A R4-1

(b) In the districts indicated, the height and setback of a #building or other structure# shall be as set forth herein except where modified pursuant to paragraphs (g) and (h) of this Section.

For the purposes of this Section, where #base planes# of different elevations apply to different portions of a #building or other structure#, each such portion of the #building# may be considered to be a separate #building#. Furthermore, for the purposes of this Section, #building segments# may be considered to be separate #buildings# and abutting #semi-detached buildings# may be considered to be one #building#.

The perimeter walls of a #building or other structure# are those portions of the outermost walls enclosing the #floor area# within a #building or other structure# at any level and height is measured from the #base plane#. Perimeter walls are subject to setback regulations at a maximum height above the #base plane# of:

21 feet	R2A R2X R3 R4A
25 feet	R4 R4-1
26 feet*	R3 R4A R4-1 within #lower density growth management areas#

* * *

25-631
Location and width of curb cuts in certain districts
All curb cuts shall comply with the provisions of this Section, except that in #lower density growth management areas#, the provisions of Section 25-632 shall apply.

(a) For #zoning lots# with #residential buildings# where not more than two #accessory# parking spaces are required:

R2A

(1) In R2A Districts, the maximum width of a curb cut shall be 18 feet, and the maximum width of a driveway within a #front yard# shall be 20 feet. All #zoning lots# shall maintain at least 18 feet of uninterrupted curb space along each #street# frontage.

R2X R3 R4 R5

~~(1)~~(2) In the districts indicated, except R4B and R5B Districts, and except as otherwise provided in Section 25-632 (Prohibition of curb cuts in certain districts), curb cuts shall comply with the following provisions:

* * *

R6 R7 R8

~~(2)~~(3) In the districts indicated without a letter suffix, for #zoning lots# comprised of #single-#, #two-#, or three-#family residences# or #building segments#, the width and location of curb cuts shall be in accordance with the provisions of paragraph (a)(1), inclusive, of this Section.

R4B R5B R6B R7B R8B

~~(3)~~(4) In the districts indicated, for #attached residential buildings# and rowhouses, and for multiple dwellings in R5B, R6B, R7B and R8B Districts, new #residential developments# shall provide a minimum distance of 34 feet of uninterrupted curb space between all curb cuts constructed after June 30, 1989.

QUEENS CB - 11 **C 050149 ZMQ**
Application submitted by the Department of City Planning pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section Nos. 10c, 10d, 11a and 11b:

1. eliminating from an existing R2 District a C1-2 District bounded by:

   a) a line 150 feet northerly of Horace Harding Expressway, 211th Street, a line 100 feet northerly of Horace Harding Expressway, and 210th Street; and

   b) a line 150 feet northerly of Horace Harding Expressway, 217th Street, a line 100 feet northerly of Horace Harding Expressway, and 215th Street;

2. eliminating from an existing R3-2 District a C1-2 District bounded by:

   a) a line 150 feet northerly of 35th Avenue, the westerly service road of Clearview Expressway, a line 100 feet northerly of 35th Avenue, and 205th Street; and

   b) a line 150 feet northerly of 48th Avenue, a line 150 feet westerly of Bell Boulevard, 47th Avenue, a line 100 feet westerly of Bell Boulevard, a line 100 feet northerly of 48th Avenue, 212th Street, 48th Avenue, 212th Street, a line 100 feet southerly of 48th Avenue, Bell boulevard, a line 150 feet southerly of 48th Avenue, 211th Street, 48th Avenue, and 211th Street;

3. changing from an R2 District to an R1-2 District property bounded by:

   a) 24th Avenue and its northeasterly centerline prolongation, Cross Island Parkway, 28th Avenue, and Bell Boulevard;

   b) a line 100 feet northerly of 29th Avenue, 216th Street, a line 130 feet northerly of 31st Road, a line 150 feet easterly of 216th Street, 31st Road, a line 250 feet easterly of 216th Street, 32nd Avenue, 215th place, 33rd Road, 214th Place, 33rd Avenue, 214th Street, a line 100 feet northerly of 33rd Avenue, Bell Boulevard, the easterly prolongation of the center line of 32nd Avenue, 214th Street, 29th Avenue, and Bell Boulevard; and

   c) 35th Avenue and its easterly centerline prolongation, Cross Island Parkway, a line 100 feet northerly of 41st Avenue (straight portion) and its easterly prolongation, 223rd Street, 38th Avenue, 222nd Street, 37th Avenue, and 221st Street and its northerly centerline prolongation;

4. changing from an R2 District to an R2A District property bounded by:

   a) 26th Avenue, Bell Boulevard, 28th Avenue, Cross Island Parkway, 35th Avenue and its easterly centerline prolongation, 221st Street and its northerly centerline prolongation, 37th Avenue, 222nd Street, 38th Avenue, 223rd Street, a line 100 feet northerly of 41st Avenue (straight portion) and its easterly prolongation, Cross Island Parkway, the northerly boundary line of Long Island Rail Road (LIRR) right-of-way, 221st Street, 41st Avenue and its easterly centerline prolongation, 217th Street, Corbett Road, 35th Avenue, 214th Place, 34th Road and its westerly centerline prolongation, a line 100 feet westerly of Bell Boulevard and its southerly prolongation, a line midway between Bell Boulevard and 213th Street and its northerly prolongation, 36th Avenue, 213th Street, 38th Avenue, a line midway between 212th and 213th Streets, 39th Avenue, 208th Street, the center line of LIRR right-of-way, Francis Lewis Boulevard, 38th Avenue, 209rd Street, 36th Avenue, and the westerly service road of Clearview Expressway; except within the area as described in 3 b);

   b) a line 100 feet southerly of Northern Boulevard, a line 100 feet easterly of 220th Place, 46th Avenue, the westerly, northerly and easterly boundary of Alley Park, 46th Avenue, Springfield Boulevard, 47th Avenue, a line midway between 217th and 218th Streets, 46th Avenue, and 218th Street; and

   c) 47th Road, Springfield Boulevard, the southerly, westerly and northerly boundary of Alley Park, Springfield Boulevard, the southerly service road of Horace Harding Expressway, Oceania Street, the northerly service road of Horace Harding Expressway, a line midway between 207th and 208th Streets, 58th Avenue, 208th Street, 56th Avenue, 207th Street, 53rd Avenue, a line midway between 207th and 208th Streets, 48th Avenue, Oceania Street, a line 100 feet southerly of 48th Avenue, 211th Street, a line 150 feet southerly of 48th Avenue, Bell Boulevard, 48th Avenue, and 217th Street;

5. changing from an R3-1 District to an R3X District property bounded by:

   a) 35th Avenue, 214th Place, 39th Avenue, Corp. Stone Street, 36th Avenue, and a line 150 feet easterly of Bell Boulevard (straight portion);

   b) the northerly boundary line of LIRR right-of-way, 217th Street and its northerly centerline prolongation, a line 100 feet southerly of 43rd Avenue, 215th Place, 43rd Avenue, a line midway between 215th Street and 215th Place, 42nd Avenue, and 216th Street and its northerly centerline prolongation; and

6. changing from an R3-1 District to an R3A District property bounded by 45th Road, a line 150 feet westerly of Bell Boulevard, 46th Road, and 211th Street;

7. changing from an R3-2 District to an R2A District property bounded by:

   a) 34th Avenue, 205th Street, a line 100 feet southerly of 34th Avenue, the westerly service road of Clearview Expressway, a line 100 feet northwesterly of 35th Avenue, 201st Street, 35th Avenue, a line midway between 200th and 201st Streets, a line 100 feet southerly of 34th Avenue, and 202nd Street;

   b) a line 100 feet southerly of 36th Avenue, 203rd Street, 38th Avenue, Francis Lewis Boulevard, a line 100 feet northerly of 38th Avenue and its westerly prolongation, and a line midway between 202nd and 203rd Streets;

   c) 39th Avenue, Corp. Kennedy Street, a line 100 feet northerly of 41st Avenue,

and 209th Street;

d) the center line of LIRR right-of way, a line midway between 208th and 209th Streets and its northerly prolongation, a line 100 feet northerly of 42nd Avenue, and a line midway between 201st and 202nd Streets and its northerly prolongation;

e) a line 100 feet southerly of 42nd Avenue, Corp. Kennedy Street, a line 100 feet northerly of Northern Boulevard, Clearview Expressway, a line 100 feet southerly of 43rd Avenue, 205th Street, 43rd Avenue, 203rd Street, a line 100 feet northerly of 43rd Avenue, and a line midway between 202nd and 203rd Streets;

f) Corbett Road, 217th Street, 39th Avenue, and 216th Street;

g) 41st Avenue and its center line prolongation, 221st Street, the northerly boundary line of LIRR right-of-way, Cross Island Parkway, the southerly boundary line of LIRR right-of-way, 223rd Street, 43rd Avenue, and 217th Street and its northerly centerline prolongation; and

h) a line 100 feet southerly of 48th Avenue, Bell Boulevard, a line 150 feet southerly of 48th Avenue, and 211th Street;

8. changing from an R3-2 District to an R3A District property bounded by:

a) a line 100 feet southerly of 34th Avenue, a line midway between 200th and 201st Streets, 35th Avenue, and Jordan Street;

b) a line 75 feet southeasterly of 35th Avenue, 203rd Street, a line 75 feet southerly of 35th Avenue, a line midway between 204th and 205th Streets, 36th Avenue, 203rd Street, a line 100 feet southerly of 36th Avenue, a line midway between 202nd and 203rd Streets, a line 100 feet northerly of 38th Avenue, a line midway between 200th and 201st Streets, a line 100 feet northerly of 36th Avenue, and 201st Street; and

b) 45th Drive, 211th Street, 47th Avenue, and Oceania Street;

9. changing from an R3-2 District to an R3X District property bounded by:

a) 35th Avenue, Corbett Drive, 216th Street, 39th Avenue, 217th Street and its southerly centerline prolongation, the northerly boundary line of the LIRR right-of-way, the southerly prolongation of the center line of 215th Street, 41st Avenue, a line 100 feet easterly of the southerly prolongation of the easterly street line of 214th Place, the easterly prolongation of the center line of 41st Avenue, and 214th Place;

b) 43rd Avenue, a line midway between 222nd and 223rd Streets, a line 100 feet northerly of Northern Boulevard, and 217th Street; and

c) 45th Avenue, a line 100 feet easterly of 202nd Street, a line 100 feet southerly of 45th Avenue, a line 100 feet southerly of Northern Boulevard, 204th Street, 47th Avenue, 202nd Street, Rocky Hill Road, 47th Avenue, and Francis Lewis Boulevard;

10. changing from an R3-2 District to an R3-1 District property bounded by:

a) a line 100 feet southerly of Northern Boulevard, Clearview Expressway, 45th Road, 211th Street, 45th Drive, Oceania Street, 48th Avenue, Rocky Hill Road, 202nd Street, 47th Avenue, and 204th Street; and

b) 47th Avenue, a line 100 feet westerly of 213th Street, a line 100 feet northerly of 48th Avenue, and a line 100 feet easterly of 210th Street;

11. changing from an R3-2 District to an R4B District property bounded by 47th Avenue, a line 100 feet easterly of 210th Street, a line 100 feet northerly of 48th Avenue, a line 100 feet westerly of 213th Street, 47th Avenue, Bell Boulevard, a line 100 feet southerly of 48th Avenue, Oceania Street, 48th Avenue, and Oceania Street;

12. changing from an R3-2 District to an R4-1 District property bounded by 34th Avenue, the westerly service road of Clearview Expressway, a line 100 feet southerly of 34th Avenue, and 205th Street;

13. changing from an R4 District to an R3X District property bounded by 34th Road, 214th Place, 35th Avenue, and a line 100 feet westerly of 214th Place;

14. changing from an R4 District to an R4B District property bounded by a line 100 feet southerly of Northern Boulevard, a line midway between 215th Place and 216th Street, 46th Avenue, 215th Place, a line 100 feet southerly of 46th Avenue, a line midway between 215th Street and 215th Place, 48th Avenue, Bell Boulevard, 47th Avenue, a line 150 feet westerly of Bell Boulevard, 45th Road, and a line 100 feet easterly of Bell Boulevard; and

15. changing from an R4A District to an R2A District property bounded by 39th Avenue, 210th Street, a line 100 feet northerly of 41st Avenue, and Corp. Kennedy Street;

as shown in a diagram (for illustrative purposes only) dated November 1, 2004.

QUEENS CB - 12 **C 050194 ZMQ**
Application submitted by the Department of City Planning pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section Nos. 18c, 18d, 19a, and 19b:

1. Changing from an R3-2 District to an R3X District property bounded by Guy R. Brewer Boulevard, 134th Avenue, a line midway between Guy R. Brewer Boulevard and 161st Street, a line 110 feet southeasterly of 134th Avenue, a line 100 feet northeasterly of Rockaway Boulevard, a line 140 feet southwesterly of 154th Street, 132nd Avenue, 153rd Street, and Baisley Boulevard; and

2. Changing from an R3-2 District to an R3-1 District property bounded by Guy R. Brewer Boulevard, North Conduit Avenue, Baisley Boulevard South, 133rd Avenue, Grannatt Place, 132nd Street, Baisley Boulevard South, Baisley Boulevard, 153rd Street, 132nd Street, a line 140 feet southwesterly of 154th Street, a line 100 feet northeasterly of Rockaway Boulevard, a line 110 feet southeasterly of 134th Avenue, a line midway between Guy R. Brewer Boulevard and 161st Street, and 134th Street;

as shown on a diagram (for illustrative purposes only) dated December 6, 2004.

The Subcommittee on Planning, Dispositions and Concessions will hold public hearings on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 1:00 P.M. on Monday, April 4, 2005:

MANHATTAN CB - 11 **C 050072 HAM**
Application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

a) the designation of property located at 435-437 and 439 East 119th Street (Block 1807, Lots 15 and 16), as an Urban Development Action Area; and

b) an Urban Development Action Area Project for such area; and

pursuant to Section 197-c of the New York City Charter for the disposition of such property to a developer selected by HPD;

to facilitate development of a seven-story building, tentatively known as Project GreenHope, an adult residential facility funded by the New York State Homeless Housing Assistance Program.

MANHATTAN CB - 11 **C 050073 ZSM**
Application submitted by the Department of Housing Preservation and Development, pursuant to Sections 197-c and 201 of the New York City Charter for the grant of a special permit, pursuant to Section 74-902 of the Zoning Resolution to permit the allowable community facility floor area ratio of Section 24-11 (Maximum Floor Area and Percentage of Lot Coverage) to apply to a proposed approximately 36,225 square foot, 7-story Non-Profit Institution with Sleeping Accommodations (U.G. 3A), on property located at 435-439 East 119th Street (Block 1807, Lots 15 and 16), in an R7-2 District.

Proposals subject to Council review and action pursuant to the Urban Development Action Area Act, Article 16 of the New York General Municipal Law, at the request of the Department of Housing Preservation and Development ("HPD"), which requests that the Council:

1. Find that the present status of the listed areas tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes of Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3. Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law;

4. Approve the project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law; and

5. Approve an exemption of the project from real property taxes pursuant to Section 696 of the General Municipal Law for Non-ULURP Nos. 20055423 HAK through 20055425 HAK.

NON-ULURP NO.	ADDRESS	BLOCK/LOT	BORO	PROGRAM	COMMUNITY BOARD

All of the following text in Article IX, Chapter 8 is new but not underlined.

Article IX - Special Purpose Districts
Chapter 8
Special West Chelsea District

98-00
GENERAL PURPOSES
The "Special West Chelsea District" established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. These general goals include among others, the following specific purposes:

(a) to encourage and guide the development of West Chelsea as a dynamic mixed use neighborhood;

(b) to encourage the development of residential uses along appropriate avenues and streets;

(c) to encourage and support the growth of arts-related uses in West Chelsea;
(d) to facilitate the restoration and reuse of the #High Line# elevated rail line as an accessible, public open space through special height and setback regulations, #High Line# improvement bonuses and the transfer of development rights from the #High Line# Transfer Corridor;
(e) to ensure that the form and use of new buildings relates to and enhances neighborhood character and the #High Line# open space;
(f) to create and provide a transition to the lower-scale Chelsea Historic District to the east;
(g) to create and provide a transition to the Hudson Yards area to the north; and
(h) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues, consistent with the foregoing purposes.

98-01
Definitions
Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are as set forth in Section 12-10 (DEFINITIONS).

High Line
The "High Line" shall for the purposes of this resolution refer to the elevated rail line structure and associated elevated easement located between Gansevoort Street and West 30th Street.

High Line bed
The "High Line bed" is the highest level of the horizontal surface (platform) of the #High Line# elevated rail line structure as of (the effective date of amendment), as shown in Diagram 7, in Appendix C of this Chapter. For the purposes of this Chapter, the level of the #High Line bed# is the average level of the #High Line bed# on a #zoning lot# over which the #High Line# passes.

High Line frontage
"High Line frontage" is that portion of a #building# that faces and is located within 15 feet of the west side and 25 feet of the east side of the #High Line#.

High Line Transfer Corridor
The "High Line Transfer Corridor" is an area within which the #High Line# is located, as specified in Appendix B of this Chapter, where development rights may be transferred to receiving sites in certain Subareas in the #Special West Chelsea District#, pursuant to the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-02
General Provisions
The provisions of this Chapter shall apply to any #zoning lot#, or portion thereof, within the #Special West Chelsea District#, except that the provisions of Section 98-17 (Air Space over a Railroad or Transit Right-of-way or Yard) and Section 98-26 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall also apply to any #zoning lot# south of the #Special West Chelsea District# over which the #High Line# passes. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

The provisions regarding the transfer of #floor area# set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive, and the #High Line Improvement Bonus# in Subareas D, E, and F, and G and I set forth in Section 98-25 shall be effective upon the issuance of a final and binding Certificate of Interim Trail Use (CITU) by the Federal Surface Transportation Board and the execution of a trail use agreement between the City and CSX Transportation, Inc., or its successor, or upon a determination by the Office of the Corporation Counsel that the restoration and reuse of the #High Line# as an accessible, public open space has been obtained pursuant to an alternative mechanism which protects the interests of the city.
Upon transfer of the #High Line# to the City pursuant to [ULURP Site Selection/Acquisition Application] in accordance with such CITU and trail use agreement, the following shall apply:

(a) the provisions regarding the issuance of building permits set forth in Section 98-26 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall be effective; and
(b) any area within the tax lot located at Section 3, Block 8224, Lot 111, as of (effective date of amendment), which is separated from other portions of such tax lot by bounding streets, shall be considered a separate #zoning lot#; and
(c) Underlying #use# and bulk regulations shall not apply to #uses# and #buildings and other structures# constructed on the #High Line# specifically in connection with its use as a public open space.

98-03
District Plan and Maps
The regulations of this Chapter are designed to implement the #Special West Chelsea District# Plan.

The District Plan includes the following maps and illustrative diagrams in Appendices A, B, and C:

Appendix A Special West Chelsea District and Subareas
Appendix B High Line Transfer Corridor Location and Floor Area Ratio
Appendix C Illustrative Diagrams of the High Line and Building Envelopes for Sites Adjacent to the High Line

Diagram 1 Street wall and High Line frontage regulations in Subareas C and F
Diagram 2 Street wall and High Line frontage regulations in Subarea A
Diagram 3 Subarea G requirements
Diagram 4 High Line Improvement Area for Zoning Lots Divided by District Boundaries in Subareas D, E and F
Diagram 5 Subarea I requirements
Diagram 6 High Line Access Easement Volume Parameters
Diagram 7 High Line bed and frontages
Appendix D Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea G
Appendix E Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E and F, or within Subarea I

The maps and diagrams are hereby incorporated and made part of this Resolution. They are incorporated for the purpose of illustrating requirements or specifying locations where the special regulations and requirements set forth in the text of this Chapter shall apply.

98-04
Subareas and High Line Transfer Corridor
In order to carry out the provisions of this Chapter, nine Subareas (Subareas A through I), and a #High Line Transfer Corridor# are established within the #Special West Chelsea District#.

Within each of the Subareas and the #High Line Transfer Corridor#, certain special regulations apply that do not apply within the remainder of the #Special West Chelsea District#. The locations of the nine Subareas are detailed in Appendix A of this Chapter. The location of the #High Line Transfer Corridor# is detailed in Appendix B of this Chapter,

The Subareas and the #High Line Transfer Corridor# are subject to all other regulations of the #Special West Chelsea District# and the underlying district regulations except as otherwise specified in this Chapter.

98-05
Applicability of District Regulations

98-051
Applicability of Chapter 1 of Article 1

(a) Within the #Special West Chelsea District#, Section 11-15 (Environmental Requirements) shall apply, except that prior to issuing a building permit for any #development#, or for an #enlargement#, #extension# or a change of #use#, on a lot that has an (E) designation for hazardous material contamination, noise or air quality, the Department of Buildings shall be furnished with a report from the Department of Environmental Protection (DEP) of the City of New York stating:

(1) in the case of an (E) designation for hazardous material contamination, that environmental requirements related to the (E) designation have been met for that lot; or
(2) in the case of an (E) designation for noise or air quality, that the plans and drawings for such #development# or #enlargement# will result in compliance with the environmental requirements related to the (E) designation.

(b) Section 11-332 (Extension of period to complete construction) shall apply, except that not withstanding the provisions of paragraph (a) of such Section, in the event that other construction for which a building permit has been lawfully issued and for which construction has been commenced but not completed on (effective date of amendment), such other construction may be continued provided that the construction is completed and a temporary or permanent certificate of occupancy is obtained not later than (one year after effective date of amendment).

98-10
SPECIAL USE AND PARKING REGULATIONS WITHIN THE SPECIAL WEST CHELSEA DISTRICT

98-11
Modification of Use Regulations in C6 Districts
In Subarea G, the provisions of Section 32-25 (Use Group 16), paragraph D. (Heavy Service, Wholesale, or Storage Establishments) are modified to permit, in #C6 Districts#, warehouse #uses# only in #cellars# located wholly below #curb level#.

98-12
Modification of Use Regulations in M1 Districts
In the #Special West Chelsea District#, the provisions of Section 42-10 (USES PERMITTED AS-OF-RIGHT) and 42-30 (USES PERMITTED BY SPECIAL PERMIT) are modified to permit, as-of-right, without limitation, in M1 Districts, museums and non-commercial art galleries as listed in Use Group 3.

98-13
Location Within Buildings
In any #C6 District# in the #Special West Chelsea District#, the provisions of Section 32-422 (Location of floors occupied by non-residential uses) are modified to permit non-#residential uses# on the same #story# as a #residential use# or on a story higher than that occupied by #residential uses#, provided that the non-#residential uses#:
(a) are located in a portion of the #building# that has separate direct access to the #street# with no access to the #residential# portion of the #building# at any #story#; and
(b) are not located directly over any portion of a #building# containing #dwelling units#, except this limitation shall not preclude the location of:

(1) #residential# lobby space below or on the same #story# as non-#residential uses#; or
(2) a #commercial use# that fronts on the #High Line# and is located within five feet of the level of the #High Line bed#.

98-14
Ground Floor Use and Transparency Requirements on Tenth Avenue
The special ground floor #use# and glazing regulations of this Section apply to that portion of a #building or other structure# fronting on Tenth Avenue in the #Special West Chelsea District#.
#Uses# located on the ground floor level or within five feet of #curb level#, and within 25 feet of the #street line# shall be limited to #commercial uses# permitted by the underlying district or museums or non-commercial art galleries as listed in Use Group 3. A building's #street# frontage shall be allocated exclusively to such #uses#, except for lobby space or entryways. In no event shall the length of #street# frontage occupied by lobby space or entryways exceed, in total, 40 feet or 50 percent of the building's total #street# frontage, whichever is less.

For any #development# or #enlargement#, each ground floor #street wall# shall be glazed with materials which may include show windows, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 70 percent of such ground floor #street wall# surface, The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall be not higher than two feet above the level of the adjoining sidewalk or public access area and shall be no less than eight feet in height measured from such lowest point. Not less than 50 percent of such ground floor #street wall# surface shall be glazed with transparent materials, and up to 20 percent of such ground floor #street wall# may be glazed with translucent materials.

98-141
Transparency requirements within Subareas G and I
The transparency requirements of this Section shall apply within Subareas G and I to all portions of #developments# and #enlargements# facing and located within 25 feet of the #High Line#, except for portions of #buildings# within 25 feet of the #High Line# that contain #dwelling units#. At least 70 percent of such frontage, to be measured from the level of the #High Line bed#, shall be glazed and transparent and at least 75 percent of the glazed surface shall be fully transparent. The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall not be higher than four feet above the level of the #High Line bed#, and shall be no less than eight feet in height measured from such lowest point.

98-15
Security Gates
All security gates installed after (effective date of amendment) that are swung, drawn, or lowered to secure #commercial# or #community facility# premises shall, when closed, permit visibility of at least 75 percent of the façade area covered by such gate, when viewed from the #street#, except that this provision shall not apply to entrances or exits to parking facilities.

98-16
Signs
The #sign# regulations of the underlying districts in the #Special West Chelsea District# shall not apply to #signs# located within 50 feet of the #High Line#, except for signs located entirely below the level of the #High Line# bed. In lieu thereof, the #sign# regulations of a C1 district shall apply, except that #accessory signs# located within the #High Line frontage# may have a maximum height of 20 feet above the level of the #High Line bed#.

No signs affixed to or resting upon the #High Line# shall be permitted, except as pursuant to a signage plan for the #High Line#, as authorized by the City Planning Commission, provided the Commission finds that such signage plan will:

(a) enhance the use of the #High Line# by providing signage that is consistent with the use of the #High Line# as a public open space;
(b) provide, at a minimum, directional, informational, and interpretive signage consistent with the use of the #High Line# as a public open space;
(c) be integrated with the design of the #High Line# open space; and
(d) not adversely affect development adjacent to the #High Line# and in the surrounding neighborhood

98-17
Air Space Over a Railroad or Transit Right-of-way or Yard
For the purposes of this Resolution, the #High Line# shall not be considered a railroad or transit right-of-way and the provisions of Sections 32-44 (Air Space over a Railroad or Transit Right-of-way or Yard) and 42-462 (Air Space over a Railroad or Transit Right-of-way or Yard) shall not apply.

98-18
Parking Regulations in Subarea G
#Accessory# off-street parking spaces for existing or new governmental offices may be located on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided such spaces are located within Subarea G and in a facility, or portion thereof, that is entirely below #curb level# and that no more than 377 spaces are provided within such facility. For purposes of this Section, the governmental offices on Block 689, Lot 17 (as of the effective date) may have up to 377 #accessory# off-street parking spaces in such facility.

98-19
Lighting
All exterior light sources located within the #High Line frontage# shall be shielded from direct view from the #High Line#.

98-20
FLOOR AREA AND LOT COVERAGE REGULATIONS
The #floor area# provisions of this Section 98-20, inclusive, shall apply. Furthermore, special #floor area# transfer provisions are set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-21
Maximum Floor Area Ratio outside of Subareas
For all #zoning lots# or portions thereof located outside of Subareas A through I, the maximum #floor area ratios# of

the applicable underlying district shall apply.

98-22
Maximum Floor Area Ratio and Lot Coverage in Subareas
For all #zoning lots# or portions thereof located in Subareas A through I, the maximum #floor area ratios#, #open space ratios# and #lot coverages# of the applicable underlying district shall not apply. In lieu thereof, the maximum #floor area ratio# permitted for #commercial#, #community facility#, and #residential uses#, separately or in combination, shall be as specified in the following table. For #residential use#, the maximum #lot coverage# shall be 70 percent for #interior# or #through lots# and 80 percent for #corner lots#, except that no maximum #lot coverage# shall apply to any #zoning lot# comprising a #corner lot# of 5,000 square feet or less.

Maximum Floor Area Ratio by Subarea

Sub Area	Basic Maximum #floor area ratio#	Increase in FAR Transfer of Development Rights from # Hight Line Transfer Corridor#*	Increase in Far via #Hight Line# Bonuses	Increase in Far via Inclusionary Housing Bonus***	Maximum permitted #floor area ratio#
A	7.5	2.5	See Note 1	2.0	12.0
B	5.0	2.5	See Note 1	–	7.5
C	5.0	2.5	–	–	7.5
D	5.0	2.5 Note 2	2.5** Note 2	–	7.5
E	5.0	1.0 Note 2	1.0** Notes 1 & 2	–	6.0
F	5.0	1.0 Note 2	1.0** See Note 2	–	6.0
G	7.5	–	2.5**	–	10.0
H	5.0	1.0	–	–	6.0
I	5.0	2.5	–	–	7.5
I ▯	5.0	1.0	1.5**	–	7.5

* Pursuant to Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive
** Pursuant to Sections 98-25 (High Line Improvement Bonus)
*** Maximum FAR achievable for #residential developments# or #enlargements# through the provision of Inclusionary Housing, as specified in Section 23-90 (INCLUSIONARY HOUSING)
▯ For zoning lots over which the #High Line# passes

Note 1
In Subareas A, B, and E, the applicable basic maximum #floor area ratio# of that portion of the #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, and the applicable maximum permitted #floor area ratio# increased accordingly, by certification of the Chairperson of the City Planning Commission, pursuant to Section 98-35 (High Line Transfer Corridor Bonus).

Note 2
For certain zoning lots located in Subareas D, E, and F, the provisions of Section 98-25 (#High Line# Improvement Bonus) may apply in lieu of the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), subject to the provisions of Section 98-24 (Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E, and F).

98-23
Special Floor Area and Lot Coverage Rules for Zoning Lots Over Which the High Line Passes
#Lot coverage# requirements shall not apply to the portion of the #zoning lot# that lies directly beneath the #High Line#. The remaining portion of the #zoning lot# shall be considered a separate #zoning lot# for the purposes of calculating maximum #lot coverage#. Easement volumes provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS) and access structures constructed therein, as well as any structure required pursuant to Appendix D or E in relation to an increase in the basic maximum #floor area # ratio of a #zoning lot# pursuant to Section 98-25 (#High Line# Improvement Bonus), shall not be considered #floor area# or #lot coverage#.

98-24
Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E and F
For #zoning lots# fronting on West 18th Street and located partially in Subarea D, partially in Subarea E and partially in Subarea F, #floor area# may be transferred across zoning district and subarea boundaries without restriction. Either the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR) or Section 98-25 (High Line Improvement Bonus) may apply to such #zoning lot#, as applicable, and the maximum permitted #floor area ratio# specified in the table in Section 98-22 shall apply, as applicable, for each subarea.

98-25
High Line Improvement Bonus
For #zoning lots# located between West 16th and West 19th streets over which the #High Line# passes, the applicable basic maximum #floor area ratio# of the #zoning lot# may be increased up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), provided that:

(a) Prior to issuing a building permit for any #development# or #enlargement# on such #zoning lot# that anticipates using #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished with a certification by the Chairperson of the City Planning Commission that : (1) a contribution has been deposited into an escrow account or similar fund established by the City(the #High Line # Improvement Fund), or such contribution is secured by letter of credit or other cash equivalent instrument in a form acceptable to the City, such contribution to be used at the direction of the Chairperson solely for improvements to the #High Line# within the #High Line# improvement area applicable to such #zoning lot#. Such contribution shall be made in accordance with the provisions of Appendix D or E, as applicable; and (2) a declaration of restrictions executed by all #parties in interest# to the #zoning lot# as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS) , including and incorporating such other instruments as are necessary to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, is filed and recorded in the Office of the Register of the City of New York; and (3) all additional requirements of Appendix D or E, as applicable with respect to issuance of a building permit, have been met.

(b) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located between West 17th and West 18th streets over which the #High Line# passes that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix D, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;
(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix D;
(3) At-Grade Plaza Work has been performed on such #zoning lot# in the area shown in Diagram 3 of Appendix C, in accordance with Appendix D;
(4) stairway and elevator access work has been performed on such #zoning lot# in the At-Grade Plaza area shown in Diagram 3 of Appendix C, or that an additional contribution to the #High Line# Improvement Fund to fund performance of such work has been made, in accordance with Appendix D; and
(5) all other applicable requirements of Appendix D have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix D.

(c) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located between West 16th and 17th streets or between West 18th and 19th streets over which the #High Line# passes that incorporates #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix E, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;
(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix E;
(3) stairway and elevator access work has been performed on such #zoning lot # , in accordance with Appendix E;
(4) for #zoning lots# located between West 16th and 17th streets over which the #High Line# passes, #High Line# Service Facility Work has been performed, in accordance with Appendix E; and
(5) all other applicable requirements of Appendix E have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix E.

98-26
Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line

The Commissioner of Buildings shall not issue any building permit for demolition, excavation or foundation work to be performed above or beneath the #High Line# or within 25 feet of support structures of the #High Line# , except upon certification by the Commissioners of Transportation and Parks and Recreation , acting in consultation with a licensed engineer, that such work would not adversely affect the structural integrity of the #High Line#.

98-30
HIGH LINE TRANSFER CORRIDOR

98-31
Purposes
The #High Line Transfer Corridor#, established within the #Special West Chelsea District#, is intended to enable the transfer of development rights from properties over which and immediately to the west of where the #High Line# passes and thereby permit light and air to penetrate to the #High Line# and preserve and create view corridors from the #High Line# bed.

98-32
General Provisions
The location of the #High Line Transfer Corridor# is specified in Appendix B of this Chapter.
In the #High Line Transfer Corridor#, special regulations relating to the transfer of #floor area# are set forth in Sections 98-33 through and 98-35 inclusive.

98-33
Transfer of Development Rights From the High Line Transfer Corridor
In the #Special West Chelsea District#, a "granting site" shall mean a #zoning lot#, or portion thereof, in the #High Line Transfer Corridor#. A "receiving site" shall mean a #zoning lot#, or portion thereof, in Subareas A - F inclusive, H or I. #Floor area# from a granting site may be transferred to a receiving site in accordance with the provisions of this Section.

(a) Notification
Prior to any transfer of #floor area#, the Department of City Planning shall be notified in writing of such intent to transfer #floor area#. Such notification shall be made jointly by the owners of the granting and receiving sites and shall include:

(1) #floor area# zoning calculations for the granting and receiving site, and
(2) a copy of the distribution instrument legally sufficient in both form and content to effect such a distribution, and
(3) if applicable, a certified copy of the instrument creating a secondary #High Line# access easement volume, pursuant to the provisions of Section 98-63.

Notices of restrictions in a form acceptable to the Department of City Planning shall be filed by the owners of the granting and receiving sites in the Office of the Register of the City Of New York, indexed against the granting and receiving sites, certified copies of which shall be submitted to the Department of City Planning. Notice by the Department of City Planning of its receipt of certified copies thereof shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit for any #development# or #enlargement# on the receiving site.

(b) #Floor area#
The maximum amount of #floor area# transferred from a granting site located outside of Subareas A through I shall not exceed the maximum #floor area ratio# permitted for a #commercial use# on such granting site, less any existing #floor area# to remain on such granting site.
The maximum amount of #floor area# transferred from a granting site located in Subareas A through I shall not exceed the basic maximum #floor area ratio# specified for the applicable subarea in the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas), less any existing #floor area# to remain on such granting site.
Each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be transferred from the granting site by the amount of #floor area# transferred.
The amount of #floor area# transferred to a receiving site from a granting site in the #High Line Transfer Corridor# shall not exceed the #floor area ratio# permitted on the receiving site through such transfer, pursuant to the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas).

(c) #Use#
#Floor area# transferred from a granting site within the #High Line Transfer Corridor#, may be used for any #use# allowed on the receiving site in accordance with the underlying zoning designation and the provisions of this Chapter.

(d) Stairway easement requirement
As a condition for the transfer of #floor area#, an easement volume to facilitate pedestrian access to the #High Line# via stairway shall be provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR ZONING LOTS OVER WHICH THE HIGH LINE PASSES OR ADJACENT TO THE HIGH LINE) and Section 98-63 (Recording of the #High Line# Access Easement Volume).

(e) Restrictive Declaration
As a condition for the transfer of #floor area#, and in order to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, a declaration of restrictions, executed by all #parties in interest# of the granting lot as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS), and including and incorporating such other instruments as are necessary to accomplish such purposes, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, shall be filed and recorded in the Office of the Register of the City of New York. Notice by the Department of City Planning of receipt of certified copies of such recorded declaration shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving

site. Such recorded declaration shall be in addition to the Notice of Restrictions required pursuant to subdivision (a) of this Section.

98-34
Screening and Landscaping Requirements for Vacant Sites
Any #zoning lot# within the #High Line Transfer Corridor# that has transferred #floor area# pursuant to Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor), and is 50 percent or more vacant shall be screened from the street and/or landscaped in accordance with the provisions of this Section; except that #zoning lots# occupied by #buildings# that extend along at least 85 percent of the #street# frontage of the #zoning lot# and are located within five feet of the #street line# are not required to provide screening or landscaping.
Such open or vacant areas on #zoning lots# shall be screened from the street by a fence or gate with a surface that is at least 75 percent open, extending not less than six feet and not higher than eight feet above finished grade; or alternatively, by a planting strip at least four feet wide and densely planted with evergreen shrubs at least four feet high at the time of planting or of a variety expected to reach a height of six feet within three years, or by both. Chain link and fences containing barbed wire or razor wire shall be prohibited. For portions of #zoning lots# located beneath the #High Line# planting strips shall be prohibited.

98-35
#High Line Transfer Corridor# Bonus
For #zoning lots#, or portions thereof, within the #High Line Transfer Corridor#, the applicable basic maximum #floor area ratio# of that portion of a #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, for an amount of #floor area# equivalent to the area of that portion of the #zoning lot# located within the #High Line Transfer Corridor#, provided the Chairperson of the City Planning Commission has certified that

(a) all the permitted #floor area# on that portion of the #zoning lot# that is within the #High Line Transfer Corridor# has been transferred to an eligible receiving site, in accordance with the provisions of Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor);
(b) that such granting site is vacant; and
(c) a contribution has been deposited into the #High Line# Improvement Fund established under Section 98-25, to be used at the direction of the Chairperson of the City Planning Commission to assure that the #High Line# is restored and reused as a public accessible open space.

No #building# permit for any #development# or #enlargement# that anticipates using such increased #floor area# may be issued unless and until such certification has been made. Such contribution amount shall be $50.00 per square foot of #floor area# as of (the effective date of amendment) and shall be adjusted July 1 of the following year and each year thereafter, by the City or its designee, based on the percentage change in the Consumer Price Index for all urban consumers as defined by the U.S. Bureau of Labor Statistics. Such bonus #floor area# shall only be used for a permitted #commercial use#, which shall be located in that portion of the #zoning lot# that is within the #High Line Transfer Corridor#; however, #public parking lots# and #public parking garages# at or above #curb level# shall not be permitted; and the height of any #development# or #enlargement# within the #High Line Transfer Corridor# shall not exceed the level of the #High Line bed#.

98-40
HEIGHT AND SETBACK REGULATIONS
The height and setback regulations of the underlying district are modified in accordance with the provisions of this Section 98-40, inclusive. Furthermore, for any #zoning lot# located within or adjacent to the #High Line Transfer Corridor#, the provisions of Section 98-50, inclusive, shall also apply. All heights shall be measured from the #base plane#, unless otherwise specified.
98-41
Obstruction Over the High Line
Within the #Special West Chelsea District#, the #High Line# shall remain open and unobstructed from the #High Line bed# to the sky, except for improvements constructed on the #High Line# in connection with the use of the #High Line# as a public open space.

98-42
Special Rooftop Regulations
The provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings or other structures# within the #Special West Chelsea District# except as modified as follows:

(a) Permitted Obstructions
(a)Elevator or stair bulkheads, roof water tanks, cooling towers or other mechanical equipment (including enclosures), may penetrate a #sky exposure plane# or a maximum height limit provided that either the product, in square feet, of the #aggregate width of street walls# of such obstructions facing each #street# frontage, times their average height, in feet, shall not exceed a figure equal to eight times the width, in feet, of the #street wall# of the #building# facing such frontage, or, the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#, and the height of all such obstructions does not exceed 40 feet. In addition, dormers may penetrate a maximum base height in accordance with the provisions of paragraph (c) of Section 23-621 (Permitted obstructions in certain districts). However, dormers may not exceed the maximum #building# height in Subareas C and F, where the maximum base height and maximum #building# height are the same.

(b) Ventilation and mechanical equipment
All mechanical equipment located within 15 feet of the level of the #High Line# bed that is within 25 feet of the #High Line#, measured horizontally, or within the #High Line frontage#, as applicable, shall be screened and buffered with no intake or exhaust fans or vents facing directly onto the #High Line#.

98-43
Street Wall Location, Minimum and Maximum Base Heights and Maximum Building Heights
The provisions set forth in paragraph (a) of this Section shall apply to all #developments# and #enlargements#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (f) of this Section.

(a) The #street wall# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in Table A of this Section.
Recesses, not to exceed three feet in depth from the #street line#, shall be permitted on the ground floor where required to provide access to the #building#.
Above a height of 12 feet above the #base plane#, up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#, provided any such recesses deeper than 10 feet along a #wide street#, or 15 feet along a #narrow street#, are located within an #outer court#.
Furthermore, no recesses shall be permitted within 30 feet of the intersection of two #street lines# except that, to allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.
For #developments# that occupy the entire #block# frontage of a #street# and provide a continuous sidewalk widening, where permitted, along such #street line#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section. The #street wall# location provisions of this section shall not apply along any #street frontage# of a #zoning lot# over which the #High Line# passes or by existing #buildings# to remain.
All portions of #buildings or other structures# that exceed the applicable maximum base height specified in Table A shall provide a setback at a height not lower than the applicable minimum base height. A setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#, except such dimensions may include the depth of permitted recesses in the #street wall#.
No #building or other structure# shall exceed the maximum #building# height specified in Table A.

(b) Subareas A and D, and portions of Subareas H and I
In Subareas A and D, for #zoning lots# with wide and narrow street frontage, no #street wall# is required beyond 50 feet of a wide street.
In Subarea D, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front. In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within ten feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.
In Subareas A and D, and in that portion of Subarea H beyond 100 feet of Tenth Avenue, and in that portion of Subarea I beyond 300 feet of Tenth Avenue, the setback provisions for portions of #buildings# above the maximum base height set forth in paragraph (a) of this Section shall not apply. In lieu thereof, no portion of a #building or other structure# that exceeds the applicable maximum base height shall penetrate a #sky exposure plane# that begins above the #street line# at the maximum base height and rises over the #zoning lot# at a ratio of 2.7 feet of vertical distance to one foot of horizontal distance on a #narrow street#; and 5.6 feet of vertical distance to one foot of horizontal distance on a #wide street#.
However, any #building#, or portion thereof, which in the aggregate occupies not more than 40 percent nor less than 30 percent of the #lot area# of the #zoning lot# may penetrate the #sky exposure plane# set forth in this paragraph (b), provided such portion of the #building# is set back at least 10 feet from a #wide street line# and at least 15 feet from a #narrow street line#. The highest four #stories# or 40 feet of such #building#, whichever is less, may occupy less than 30 percent of the #lot area# of the #zoning lot#. Furthermore, for #zoning lots# with less than 20,000 square feet of #lot area#, such #building# or portion thereof may occupy more than 40 percent of the #lot area# of the #zoning lot# in accordance with the provisions of Section 33-454 (Towers on small lots).

(c) Subareas C and F
In Subareas C and F, for #zoning lots# with wide and narrow street frontage, no #street wall# is required beyond 50 feet of a wide street.
Furthermore, for any #development# or #enlargement# that occupies at least one corner of the Tenth Avenue #block# front and extends along the Tenth Avenue frontage of the #zoning lot# for at least 170 feet, exclusive of existing #buildings# to remain, a lowered #street wall# shall be provided for any #building# that exceeds 45 feet in height. Such lowered #street wall# shall have a maximum height of 45 feet and a minimum height of 35 feet and extend along the Tenth Avenue frontage for a width not less than 25 percent and not more than 30 percent of the #aggregate width of street walls# facing Tenth Avenue. Such lowered #street wall# portion of the Tenth Avenue frontage shall be located at the intersection of Tenth Avenue and a #narrow street#. Such lowered #street wall# shall extend along such #narrow street line# for a distance of at least 50 feet from Tenth Avenue. Beyond 50 feet of Tenth Avenue, excluding the #High Line frontage# of a #building#, such portion of the #building# shall not exceed a height of 45 feet.
The provisions of this Section, relating to the location and height of the lowered #street wall# portion of the Tenth Avenue frontage of a #development# are illustrated in Diagram 1 (Street Wall and #High Line# Frontage Regulations in Subareas C and F), in Appendix C of this Chapter.

(d) Subarea E
The #street wall# location provisions set forth in paragraph (a) shall not apply to any #development# or #enlargement# on a #zoning lot# fronting on West 18th Street and located partially in Subareas D, E and F, where #floor area# has been transferred pursuant to Section 98-24, a maximum of 60 percent of the West 18th Street frontage within Subarea E may rise without setback to a maximum #building# height of 250 feet and a minimum of 20 percent of the West 18th Street frontage within Subarea E shall rise without setback to a minimum height of 60 feet and a maximum height of 85 feet and be located within 10 feet of the #street line#.

(e) Subarea G
In Subarea G no #building or other structure# shall be located east of the #High Line#.
In Subarea G, no portion of a #building or other structure# shall exceed a height of 85 feet except for two #buildings#, or portions of #buildings#, hereinafter referred to as Tower East and Tower West. At or above the base height, both such towers shall be set back at least 10 feet from any #street wall# facing a #wide street# and at least 15 feet from any #street wall# facing a #narrow street#. Such set backs shall be provided at a height not lower than 60 feet, except that such set backs may be provided at a height not lower than 40 feet, provided at least 65 percent of the #aggregate width of street walls# facing #narrow streets# and at least 60 percent of the #aggregate width of street walls# facing #wide streets# have a minimum base height of 60 feet.
Tower East shall be located in its entirety within 240 feet of the Tenth Avenue #street line#, and Tower West shall be located in its entirety within 200 feet of the Eleventh Avenue #street line#.
Tower East shall not exceed a #building height# of 290 feet and Tower West shall not exceed a #building# height of 390 feet.
A maximum of 50 percent of the #street wall# of Tower West may rise without setback from a #narrow street line#. Such portion of the #street wall# shall be located a minimum of 15 feet and a maximum of 20 feet from the #narrow street line#.

(f) Subarea I
In Subarea I, the #street wall# location provisions set forth in paragraph (a) shall not apply along Tenth Avenue, or any portion of the #zoning lot# over which the #High Line# passes, as illustrated in Diagram 5 (Subarea I Requirements), of Appendix C of this Chapter. However, for portions of #zoning lots# within 300 feet of Tenth Avenue, such #street wall# requirements shall apply along a minimum of 85 percent of the West 16th Street and West 17th Street frontages.
No portion of a #building or other structure# located within 300 feet of Tenth Avenue shall exceed a height of 120 feet, except for one #building# which may have a height not to exceed 250 feet provided such #building# is located in its entirety within 90 feet of West 17th Street and has a length that does not exceed 175 feet when measured parallel to the West 17th Street #street line#.
Any portion of a #building or other structure# located beyond 300 feet of Tenth Avenue that exceeds a maximum base height of 85 feet shall comply with the #sky exposure plane# provisions of paragraph (b) of this Section, except that the maximum building height shall be 250 feet.

TABLE A
Minimum and Maximum Base Height and Maximum Building Height by District or Subarea

District or Subarea	Minimum Base Height (in feet)	Maximum Base Height (in feet)	Maximum Building Height (in feet)
C6-2A	60	85	120
C6-3A	60	102	145
A	60	85	See paragraph (b)
B, M1-5	60	95	135
C for #zoning lots# with only #narrow street# frontage	60	110	110
C for #zoning lots# with #wide street# frontage	125 See paragraph (c)	145 see paragraph (c)	145 See paragraph (c)
D	60	90	See paragraph (b)
E	60	105	120 see paragraph (d)
F for #zoning lots# with only #narrow street# frontage	60	95	95
F for #zoning lots# with #wide street# frontage	105 See paragraph (c)	120 See paragraph (c)	120 See paragraph (c)
G	60 See paragraph (e)	85 See paragraph (e)	See paragraph (e)
H within 100 ft of Tenth Ave	60	85	120
H beyond 100 ft of Tenth Ave	60	85	See paragraph (b)
I within 300 ft of Tenth Ave	60	85	250 See paragraph (f)
I beyond 300 ft of Tenth Ave	60	85	120 See paragraph (f)

98-44
Authorization to Modify Height and Setback Regulations
The City Planning Commission may authorize the modification of height or setback regulations pursuant to Section 98-40 and 98-50 for #developments# or #enlargements# on a #zoning lot# over which the #High Line# passes or adjacent to a #zoning lot# over which the #High Line# passes, provided that the street frontage of the #zoning lot# adjacent to but exclusive of the portion over which the #High Line# passes is no more than 40 feet, and the Commission finds that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely effect access to light and air for surrounding public areas;

The Commission may prescribe appropriate conditions and safeguards to enhance the character of the surrounding area.

98-50
SPECIAL HEIGHT AND SETBACK, OPEN AREA AND TRANSPARENCY REGULATIONS FOR ZONING LOTS WITHIN OR ADJACENT TO THE HIGH LINE TRANSFER CORRIDOR

98-51
Height and Setback Regulations on the East Side of the High Line

(a) In Subarea A
For any #building# or portion thereof located on the east side of the #High Line#, 60 percent of the aggregate length of the #High Line frontage# of such #building# shall set back at the level of the #High Line bed#. No more than 40 percent of the aggregate length of the #High Line frontage# of such #building# may rise above the level of the #High Line bed#. No portion of such #High Line frontage# shall exceed a maximum height of 20 feet above the level of the #High Line bed#, as illustrated in Diagram 2 (Street Wall and #High Line# Frontage Regulations in Subarea A)in Appendix C, of this Chapter.

(b) In C6-3A Districts, and in Subareas C and F
For #zoning lots# that extend for less than 120 feet along the east side of the #High Line#, no #building# or portion thereof located east of and within 25 feet of the #High Line# shall exceed the level of the #High Line bed#.
For #zoning lots# that extend for at least 120 feet along the east side of the #High Line#, no #building# or portion thereof located east of and within 25 feet of the #High Line# shall exceed the level of the #High Line bed#, except that a maximum of 40 percent of the #High Line frontage# of such #building# may rise without setback above the level of the #High Line bed# provided such portion of the #building# is not located directly between the #High Line# and any #street wall# portion of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (a) (Subareas C and F) of Section 98-441 (Street wall location and minimum base heights). However, the provisions of this paragraph (b) shall not apply to any #zoning lot# that, on (the effective date of amendment) was wholly within 35 feet of the eastern edge of the #High Line#, or, had a portion thereof whose greatest distance between the eastern edge of the #High Line# and a #side lot line# east of the #High Line# was 35 feet when measured parallel to the nearest #narrow street line#.

98-52
Height and Setback Regulations on West Side of High Line
For any #development# or #enlargement# on a #zoning lot# on the west side of the #High Line# and adjacent to the #High Line# within C6-2A, C6-3A, and M1-5 Districts or within Subareas A, B, or E, the portion of the #building# within 15 feet of the #High Line structure# shall rise no higher than the level of the #High Line bed# before setback. A setback with a depth of at least 15 feet shall be provided from the #High Line#.

98-53
Required Open Areas on the East Side of the High Line
At least 20 percent of the #lot area# of any #development# or #enlargement# on a #zoning lot#, or portion thereof, within C6-3A Districts or within Subareas A, C or F and over which the #High Line# passes or adjacent to a #zoning lot# over which the #High Line# passes, shall be landscaped open area, pursuant to the requirements of paragraph (a) (Open area requirements), and (b)(Permitted obstructions) of this Section. Such open area shall be located directly adjacent to the #High Line# with its longest side adjacent to the #High Line# and shall be located at an elevation not to exceed a height of 3 feet 6 inches above the level of the #High Line bed# adjacent to the #zoning lot#. At no point shall such open area be located within 50 feet of Tenth Avenue.

(a) Open area requirements

All required open areas shall:

(1) have no portion used as a driveway, vehicular access way or for parking, and shall be screened from off-street loading and service areas;
(2) be landscaped with shrubs, vines, flowers, ground cover, trees, and/or plants in planters over a minimum of 25 percent of the required open area;
(3) be maintained by the building owner who shall be responsible for the maintenance of the open area including, but not limited to, the repair of all amenities, litter control and the care and replacement of vegetation within the zoning lot; and
(4) have all mechanical equipment which is located at the same elevation as the open area, or within 15 feet of the level of the open area, screened and buffered with no intake or exhaust fans facing directly onto the required open area.
(5) Open area screening
Required open area provided at the level of the #High Line bed# may be screened and/or separated from the public areas of the #High Line# by a wall, fence, or plantings extending not higher than 8 feet above the average elevation of the #High Line bed#. Non-vegetated screening materials must be substantially transparent. For the purposes of this Section, a substantially transparent screening is defined as transparent, or non-opaque, in an evenly distributed fashion for at least 75 percent of its area. Chain link fences shall not be a permitted screening material. Vegetated screening, such as shrubs, vines, and other plantings, may be completely covered by vegetation and opaque, provided that any underlying surface is substantially transparent.
In addition, such screening material shall be maintained in good condition at all times, may be interrupted by normal entrances and/or exits, and shall have no signs hung or attached thereto, other than those permitted in Section 98-16 (Signs).

(b) Permitted obstruction

(1) Any #High Line# access structure, providing pedestrian access to the #High Line#, by stairway or elevator, may be located within such required open area;
(2) The provisions of paragraph (g)(1)(Permitted obstructions) of Section 37-04 (Requirements for Urban Plazas) shall apply; and
(3) Open air cafes and kiosks may be located in such required open area. Open air cafes may occupy in the aggregate no more than 75 percent of such required open area.

98-54
Transparency Requirements on the East Side of the High Line
The transparency requirements of this Section shall apply in C6-3A Districts and within Subareas A, C and F to all #developments# and #enlargements# of the #High Line frontage# portion of a #building or other structure#, except for portions of #buildings# within the #High Line frontage# that contain #dwelling units#. At least 50 percent of such #building's# #High Line frontage#, to be measured from the level of the #High Line bed#, shall be glazed and transparent and at least 75 percent of the glazed surface shall be fully transparent. The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall not be higher than four feet above the level of the #High Line bed#, and shall be no less than eight feet in height measured from such lowest point.

98-55
Requirements for Non-Transparent Surfaces on the East Side of the High Line
Any portion of such #High Line frontage# that is 40 feet or more in length and contains no transparent element between the level of the #High Line bed# and an elevation of twelve (12) feet above the level of the #High Line bed#, shall be planted with vines or other plantings or contain artwork. Such elements shall substantially cover the applicable non-transparent portion of the #High Line frontage#.

98-60
SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS

98-61
High Line Access Easement Volume Requirement
For all #developments# or #enlargements# within the Special West Chelsea District, an easement volume to facilitate public pedestrian access to the #High Line# via stairway and elevator (hereinafter referred to as "primary access"), shall be provided on any #zoning lot# over which the #High Line# passes that, on or after (the date of referral of zoning text amendment) has more than 5,000 square feet of #lot area# .
In the #High Line Transfer Corridor#, an easement volume to facilitate public pedestrian access to the #High Line# via stairway (hereinafter referred to as "secondary access"), shall be provided on any #zoning lot# from which #floor area has been transferred pursuant to Section 98-33 unless a primary access easement has been provided pursuant to this Section 98-61.
However, a primary access easement shall not be required if a primary access easement is already provided on the same #block# and a secondary access easement shall not be required if a primary or secondary access easement has already been provided on the same #block#. Furthermore, primary and/or secondary access easements shall not be required where the Chairperson of the City Planning Commission certifies that:

(1) the minimum dimensions required for the access easement volume pursuant to paragraph (a) of Section 98-62 cannot be accommodated within 33 feet six inches of a #street line# for primary access easements and 40 feet of a #street line# for secondary access easements; or
(2) in the case of a primary easement, a secondary easement is already provided on the same #zoning lot# and such easement is sufficient in size or has been enlarged to be sufficient in size to accommodate the provisions for primary access easements as specified in Section 98-62; or
(3) for primary or secondary easements, access has already been constructed on the same block or on the same street frontage and that such access meets the location and access requirements for primary or secondary access easements, as specified in Section 98-62(a) and (b) and meets all standards, as applicable, for persons with disabilities; or
(4) for primary or secondary easements, construction documents for the #High Line# open space have been developed that specify the opposite side of the same street frontage as an access location.

98-62
High Line Access Easement Regulations
The provisions of this Section shall apply to any #zoning lot# providing an access easement volume, as follows:

(a) Location and Minimum Dimensions
(1) Primary access easement volume
A primary access easement volume may be located within a #building# or within open areas on the #zoning lot#, including open areas required pursuant to Section 98-53 (Required Open Areas on the East Side of the High Line), provided such volume is within 15 feet of a #narrow street line#. The minimum length of such volume shall be 18 feet six inches and the minimum width shall be ten feet; however, the minimum area of such volume shall be 350 square feet. The height of such volume shall extend from a point at least ten feet below #curb level# to a point at least 15 feet above the level of the #High Line bed#. A primary access easement volume may also replace a previously provided secondary access easement volume, and such secondary access easement volume may be terminated pursuant to Section 98-64. Such minimum dimensions are illustrated in Diagram 6 (#High Line# Access Easement Volume Parameters) of Appendix C of this Chapter.

(2) Secondary access easement volume
A secondary access easement volume shall be located within 15 feet of a #narrow street line# and directly adjacent to the #High Line# for a minimum length of 25 feet. Such volume shall have a minimum width of ten feet. The height of such volume shall extend from #curb level# to a point at least ten feet above the level of the #high Line bed#.

(b) Access
All access easement volumes shall be accessible either directly from a public sidewalk or through a publicly traversable way through the #zoning lot# directly connecting with a public sidewalk. Such publicly traversable way shall meet the following requirements:

(1) The required width of the publicly traversable way shall be a minimum of eight feet.
(2) No portion of the publicly traversable way shall be interrupted or occupied by an off-street parking or loading area.
(3) The access easement volume shall be visible from the public sidewalk or the publicly traversable way.
(4) The publicly traversable way shall be maintained by the property owner in good repair.
(5) The publicly traversable way shall be fully accessible to persons with disabilities.
(6) The publicly traversable way shall be open and accessible to the public at all times when a stairway and/or elevator located within the associated access easement volume is open and accessible to the public.

(c) Permitted obstructions
Any access structure within the access easement volume, or any weather protection provided by an overhang or roofed area over such access easement volume, accessory to the access structure, shall be considered permitted obstructions within required #yards# or open areas.

(d) Permitted #uses#
An access easement volume required on a #zoning lot# pursuant to the provisions of this Chapter may be temporarily used by the owner of such #zoning lot# for any permitted #use# until such time as required by the City of New York or its designee for access purposes. Such permitted use shall be limited to non-residential #uses# where such access easement volume is within a #building#. Where such access easement volume is within an open area, such area shall be landscaped, or may be improved in accordance with the provisions of sub-paragraphs (g)(1), (g)(2) and (g)(3) (Permitted obstructions), of Section 37-04 (Requirements for Urban Plazas), except that in the case of open air cafes and kiosks the provisions of paragraph (g) (3) shall be modified as follows: a certification shall not be required pursuant to paragraphs (g)(5) and (g)(6).
Improvements or construction of a temporary nature within the easement volume shall be removed by the owner of such #zoning lot# prior to the time at which public use of the easement areas is required. A minimum notice of six months in writing shall be given by the City of New York or its designee to the owner of the #zoning lot#, in order to vacate the tenants of such temporary #uses#.

(e) Legally Required Windows
The minimum distance between any legally required window in a portion of a #building# used for #residential use# and an access easement volume shall be 30 feet, measured in a horizontal plane at the sill level of, and perpendicular to, such window for the full width of the rough window opening.

98-63
Recording of High Line Access Easement Volume
An instrument in a form acceptable to the Department of City Planning creating a #High Line# access easement volume shall be recorded in the Office of the City Register; a certified copy of which shall be submitted to the Department of City Planning.
Notice by the Department of City Planning of its receipt of a certified copy of an instrument establishing any access easements required pursuant to this Chapter shall be a precondition to issuance by the Commissioner of Buildings of any building permits including any foundation or alteration permit for any #development# of #enlargement# on a site pursuant to Section 98-60 for primary access easements. Receipt of a certified copy of an instrument creating a secondary access easement shall be provided in conjunction with notification, pursuant to Section 98-33(a).

98-64
Termination of High Line Access Easement Volume
In the event that the City Planning Commission notifies the Department of Buildings and the owner in writing that a #High Line# access easement volume is not required on a #zoning lot# under the final construction plans for the restoration and reuse of the #High Line# as an accessible,

public open space, the restrictions imposed on such #zoning lot# by the provisions of Section 98-61 (High Line Access Easement Volume Requirement) shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the City Planning Commission to the extinguishment of the easement volume. On termination of the #High Line# access easement volume requirement which has been certified pursuant to this Section, any area reserved for such easement within a #building or other structure# may be used for any #use# permitted pursuant to the provisions of this Chapter and such area shall not be considered #floor area#; and any open area reserved for such easement shall be maintained as an open area and shall be subject to the open area requirements of Section 98-53 (Required Open Areas on the East Side of the High Line).

APPENDIX D

Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea G

This Appendix sets forth additional requirements governing #zoning lots# located within Subarea G between West 17th and 18th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to subparagraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to subparagraph (b) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean "parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10 .

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25

(1) As a condition of issuance of a building permit under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix D, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22;

(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and use of the At-Grade Plaza and the stairway and elevator that will provide access to the #High Line#, as shown in Diagram 3 of Appendix C, such easement area for the At-Grade Plaza to include the entire area of the #zoning lot# east of the #High Line# and such easement area as it relates to such stairway and elevator to be at least 2,500 square feet and in a location and configuration acceptable to the City; access for the potential performance by the City of work under the provisions set forth below; and maintenance and repair of the stairway and elevator . Such declaration shall incorporate by reference the maintenance and operating agreement referred to in paragraph (iii) below; and

(iii) Owner shall execute a maintenance and operating agreement for the At-Grade Plaza,

The easements and agreement described herein shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (b).

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot# and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement by Owner, approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the contribution to the #High Line# Improvement. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) At the time of certification pursuant to Section 98-25, paragraph (a), Owner shall designate, subject to the concurrence of the Chairperson of the City Planning Commission, the location of the #floor area# within the #development# or #enlargement# which would exceed the basic maximum #floor area ratio# of the #zoning lot# and be subject to the provisions of Section 98-25 (HIGH LINE IMPROVEMENT BONUS).

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (b) of Section 98-25

(1) Structural Remediation Work Under Paragraph (b)(2) of Section 98-25

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner shall exercise such option no later than 90 days following receipt of the City's specifications for the Structural Remediation Work or of the City's failure to provide such specifications, as set forth in paragraphs (iv), (v) and (vi) below. In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner , as applicable, for any excess from or against the #High Line# Improvement Fund. In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (b)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of any temporary certificate of occupancy, and of final completion with respect to issuance of any final certificate of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above , at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to public view versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead-based products in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City ;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including , but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below-grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) Subject to the Not-To-Exceed Limit set forth in section (c) of this Appendix, if Owner exercises the option to perform the Structural Remediation Work, it shall reimburse the City for the reasonable cost of hiring or procuring the services of a full -time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone).

(iv) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to delays outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(v) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete the Structural Remediation Work following the (effective date of amendment) or receipt of specifications for the Structural Remediation Work, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control and , in addition, for any time during which Owner is unable to gain access in order to perform the Structural Remediation Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application). .

(vi) In the event that the City does not provide the specifications for the Structural Remediation Work , within the timeframe set forth in paragraph (iv) of this section, Owner may exercise the option to perform such work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays as described in paragraph (v) above, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(2) At-Grade Plaza Work Under Section 98-25 (b)(3)

(i) Owner shall perform At-Grade Plaza Work within the area on the #zoning lot# shown in Diagram 3 of Appendix C. For any temporary certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of substantial completion of the At-Grade Plaza Work (i.e., the At-Grade Plaza shall be open and accessible to the public). For any permanent certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of final completion of the At-Grade Plaza Work. Substantial completion of the At-Grade Plaza Work shall also require execution by all parties-in-interest of the declarations, easements and maintenance and operating agreement described in paragraph (a) of Section (1) of this Appendix, if not previously provided in connection with issuance of a building permit.

(ii) At-Grade Plaza Work shall include, but not be limited to:

(a) remediation work; and

(b) all paving, plantings, surface treatments, lighting, trees, seating, fountains and other site amenities; and

(c) infrastructure work, including conduits, drainage, water line, electrical connections, and other utility work serving the At-Grade Plaza.

(iii) The At-Grade Plaza Work shall be performed by Owner pursuant to construction documents provided by the City by September 30, 2006, subject to delays outside the reasonable control of the City (including, without limitation, litigation, but such delays shall not exceed more than 180 days), and to such extension as the City and Owner may mutually agree. The At-Grade Plaza Work shall be completed within one year following the later of the (effective date of amendment) or the receipt of such documents, subject to reasonable extension for any delays beyond Owner's reasonable control and to such extension as the City and Owner may mutually agree, and, in addition, for any time during which Owner is unable to gain access in order to perform the At-Grade Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application), or for any time needed to perform any necessary remediation work on the #zoning lot#.

(iv) In no event shall Owner be required to complete the At-Grade Plaza Work until the #High Line# improvements within the portion of the #High Line# Improvement Area adjacent to the #zoning lot# (and, as applicable, over such Improvement Area, as shown on Diagram 3 of Appendix C, are substantially complete (i.e., open to the public but for the work needed to complete the At-Grade Plaza Work). Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (b)(3), until the Chairperson determines that the At-Grade Plaza Work is substantially complete.

(v) The cost to Owner of the At-Grade Plaza

Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) shall not exceed $2,300,000 The amount of contribution to the #High Line# Improvement Fund under subdivision a of section 1 of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such amount at the time it is made. In addition to the costs of the At-Grade Plaza Work, subject to the Not-To-Exceed Limit set forth section (c) of this Appendix, Owner shall be required to reimburse the City for:

(a) the reasonable cost of developing the plans and construction documents for the At-Grade Plaza Work; and

(b) the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(vi) In the event that construction documents for the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) are not delivered to Owner within the timeframe set forth in paragraph 3 of this subsection, Owner shall not be required to perform the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) consistent with such documents. Instead, Owner shall perform Alternate At-Grade Plaza Work which shall include all necessary remediation work, all necessary below-grade work (including related infrastructure work necessary to support the #High Line#), and at-grade improvements pursuant to the standards set forth in Section 37-04, paragraphs (g) through (n) of the Zoning Resolution, except that open-air cafes and kiosks shall not be permitted. Permitted obstructions, whether as described in the City's Specifications for the At-Grade Plaza Work or as specified in Section 37-04, paragraph (g), for the Alternate At-Grade Plaza Work, shall not count towards # lot coverage#.

(vii) The cost to the Owner of the Alternate At-Grade Plaza Work shall not exceed $1,400,000. In addition, Owner shall , subject to the Not-To Exceed Limit of Section (c) of this Appendix, be required to reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Alternate At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(viii) Upon substantial completion of the At-Grade Plaza and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4): Owner shall provide the City with the declarations, easements and maintenance and operating agreement described in subsection a of section 1 of this Appendix ,if not already provided in connection with the issuance of a building permit; such At-Grade Plaza shall be open and accessible to the public during at least the same hours during which the #High Line# is open and accessible to the public, subject to the terms of the maintenance and operating agreement; and Owner shall maintain the At-Grade Plaza pursuant to the terms of the maintenance and operating agreement.

(3) Stairway and Elevator Access Work Under Paragraph (b)(4) of Section 98-25

(i) Except as provided in subparagraph (iii) of this paragraph, Owner shall perform Stairway and Elevator Access Work within the At-Grade Plaza area as shown in Diagram 3 of Appendix C in conjunction with performance of the At-Grade Plaza Work. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (b)(4), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification pursuant to such Section shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator, shall be included in the construction drawings for the At-Grade Plaza Work described above, and shall be performed by Owner within the time period for performance of the At-Grade Plaza Work described in subsection c of this section. The location for the stairway and elevator shall take into account the viability of any retail spaces fronting the At-Grade Plaza.

(iii) Owner shall not be responsible for performance of the Stairway and Elevator Access Work where it performs the Alternate At-Grade Plaza Work in accordance with paragraph (b) of this section. In that event, prior to commencing the Alternate At-Grade Plaza Work and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4):

(a) Owner shall deposit into the #High Line# Improvement Fund a contribution of $900,000.00 (the Access Contribution), to be used at the direction of the Chairperson of the City Planning Commission for construction of stairway and elevator facilities on the #zoning lot#; and

(b) Owner shall provide the City with the declarations, easements, and maintenance and operating agreement described in paragraph (1) of Section (a) of this Appendix, if not previously provided in connection with issuance of a building permit.

(4) City Performance of Work In the Event of Failure to Perform

(i) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under Section (a) of this Appendix, Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b) of this Appendix), the At-Grade Plaza Work or Alternate Plaza Work, as applicable, and the Stairway and Elevator Access Work (where required to do so under paragraph (3) of Section (b) of this Appendix), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 3 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(ii) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(a) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total), unless such date is extended by mutual agreement between the City and Owner, for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City; and

(b) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control and , in addition, any time in which Owner is unable to gain access in order to perform the At-Grade Plaza Work or Alternate Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application) or), or for any time during which remediation work is in progress on the #zoning lot#.

(iii) In the event Owner does not comply with the requirements paragraph (4)(ii) of this Section (b):

(a) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(b) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(c) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor any temporary or permanent certificate of occupancy may be issued pursuant to Section 98-25, paragraph (b), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

(c) Reimbursement Not-To- Exceed Limits

Reimbursement of the City by Owner of costs pursuant to this Appendix shall not exceed a total of $450,000.00.

APPENDIX E

Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E and F or within Subarea I

This Appendix sets forth additional requirements governing #zoning lots# located partially within Subareas D, E and F or within Subarea I between West 16th and 17th streets or between West 18th and 19th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum Floor Area Ratio in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to paragraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to paragraph (c) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean " parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10.

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25

(1) As a condition of certification under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix E, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22; and

(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and from a stairway and elevator on the #zoning lot# that will provide access to the #High Line# and for maintenance and repair by the City of such stairway and elevator; and the potential performance by the City of work under the provisions set forth below. In the case of #zoning lots# between West 16th and 17th streets, Owner shall also provide the City with easements providing for City access to and from and for public use of the #High Line# Service Facilities on the #zoning lot# and for maintenance and repair by the City of such #High Line# Service Facilities. All easements described herein shall be in a form acceptable to the City and shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (c); and

(iii) submit plans for Stairway and Elevator Access Facilities and, where applicable, #High Line# Service Facilities that demonstrate compliance with the provisions of this Appendix and are consistent with New York City Department of Parks and Recreation standards and best practices governing materials life cycle and maintenance for review and approval by the Chairperson of the City Planning Commission.

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot # and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement , approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the #High Line# Improvement Fund contribution to reflect the cost of such improvements. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) At the time of certification pursuant to Section 98-25, paragraph (a), Owner shall designate, subject to the concurrence of the Chairperson of the City Planning Commission, the location of the #floor area# within the #development# or #enlargement# which would exceed the basic maximum #floor area ratio# of the #zoning lot# and be subject to the provisions of Section 98-25.

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (c) of Section 98-25

(1) Structural Remediation Work Under Paragraph (c)(2) of Section 98-25

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner shall exercise such option no later than 90 days following receipt of the City's specifications for the Structural Remediation Work or of the City's failure to provide such specifications, as set forth in paragraphs (iv) and (v) below (unless such dates are extended by mutual agreement of the City and Owner). In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 for each square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in

Section 98-22 and the City shall refund or credit the Owner, as applicable, for any excess from or against the #High Line# Improvement Fund , In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (c)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of temporary certificates of occupancy, and of final completion with respect to issuance of final certificates of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above, at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life, and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to the public versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead -basedproducts in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including, but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped, as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below -grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006 , subject to such delays as are outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(iv) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following the (effective date of amendment) or receipt of specifications for the Structural Remediation Work, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control.

(v) In the event that the City does not provide the specifications for the Structural Remediation Work within the timeframe set forth in paragraph (iv) of this subsection, Owner may exercise the option to perform such work and proceed with the Structural Remediation Work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(vi) If Owner exercises the option to perform the Structural Remediation Work, Owner shall reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone), such reimbursement not to exceed $115,000.

(2) Stairway and Elevator Access Work Under Paragraph (c)(3) of Section 98-25

(i) Owner shall perform Stairway and Elevator Access Work subject to the provisions of subparagraph 2 of this paragraph. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(3), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator located directly adjacent to or below the #High Line#. Except as approved by the Chairperson of the City Planning Commission pursuant to paragraph (1)(iii) of Section (a) of this Appendix, #curb# level entrances to such access facilities must be located at the #street line#. Such access facilities may be unenclosed or enclosed. When such access facilities are enclosed and located at the #street line#, any wall or façade separating the access facility from the street shall be substantially glazed and any such glazed surfaces shall be fully transparent. Stairways shall have a clear path of not less than 6 feet. Such access facilities shall consistent with and sympathetic to the design of the #High Line# on the #zoning lot#.

(iii) The Stairway and Elevator Access Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the provisions of paragraph (2)(ii) of this Section, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the Stairway and Elevator Access Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(3), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(3) #High Line# Service Facility Work Under Paragraph (c)(4) of Section 98-25

(i) For #zoning lots# located between West 16th and 17th streets, Owner shall perform #High Line# Service Facility Work subject to the provisions of this section. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(4), shall be of substantial completion of the work. For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) #High Line# Service Facilities shall consist of satellite maintenance and operations space for the #High Line# open space as well as public restrooms, in accordance with the following standards:

(a) Location
Such facilities shall have a component located at the level of the #High Line bed#, or within 5 feet of such level (hereinafter referred to as the "upper service facility"). Such facilities shall also have a component located no higher than #curb level# (hereinafter referred to as the "lower service facility"). The upper facility must be located directly above the lower facility to enable placement of a trash chute connecting the upper and lower facilities. Where the upper facility is not located exactly at the level of the #High Line bed#, a fully accessible ramp must connect such level with the level of the upper facility. Where the lower facility is not located exactly at #curb level#, a means acceptable to the City of connecting the lower service facility to a #street# frontage shall be provided.

(b) Program and dimensions

(1) Lower service facilities
Lower service facilities shall contain a room which is accessible from #street# level and is no less than 50 square feet in area. Such facility shall contain the outlet of a trash chute from the upper service facility and shall also have a minimum of one electrical outlet furnishing a total of at least 1,200 watts of power.

(2) Upper service facilities
Upper service facilities shall be no less than 350 square feet in area and shall contain, at a minimum one public restroom not less than 250 square feet in area with separate restroom spaces for each gender, one storage room not less than 70 square feet in area, and one waste disposal room not less than 30 square feet in area and containing a trash chute to the lower service facility
Each room within such upper service facilities shall have a minimum of one electrical outlet furnishing a total of at least 1,200 watts of power.

(iii) The #High Line# Facility Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the standards of paragraph (ii) of this subsection, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the #High Line# Facility Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(4), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(v) The cost to Owner of the #High Line# Facilities Work shall not exceed $1,150,000. The amount of contribution to the #High Line# Improvement Fund under paragraph (1) of Section (a) of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such at the time it is made. .

(c) City Performance in the Event of Failure to Perform

(1) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under paragraph (1) of Section (a) of this Appendix), Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b)) and the Stairway and Elevator Access Work (under paragraph (3) of Section (b)), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above, as applicable, has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(2) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(i) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total) for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City, unless such date is extended by mutual agreement between the City and Owner; and

(ii) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control

(3) In the event Owner does not comply with the requirements of paragraph (2) above:

(i) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(ii) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(iii) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor may any temporary or permanent certificates of occupancy may be issued pursuant to Section 98-25, paragraph (d), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

All of the following text in Article IX, Chapter 8 is new but not underlined.

Article IX - Special Purpose Districts

Chapter 8
Special West Chelsea District

98-00
GENERAL PURPOSES
The "Special West Chelsea District" established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. These general goals include among others, the following specific purposes:

(a) to encourage and guide the development of West Chelsea as a dynamic mixed use neighborhood;
(b) to encourage the development of residential uses along appropriate avenues and streets;
(c) to encourage and support the growth of arts-related uses in West Chelsea;
(d) to facilitate the restoration and reuse of the #High Line# elevated rail line as an accessible, public open space through special height and setback regulations, #High Line# improvement bonuses and the transfer of development rights from the #High Line# Transfer Corridor;
(e) to ensure that the form and use of new buildings relates to and enhances neighborhood character and the #High Line# open space;
(f) to create and provide a transition to the lower-scale Chelsea Historic District to the east;
(g) to create and provide a transition to the Hudson Yards area to the north; and
(h) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues, consistent with the foregoing purposes.

98-01
Definitions
Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are as set forth in Section 12-10 (DEFINITIONS).

High Line
The "High Line" shall for the purposes of this resolution refer to the elevated rail line structure and associated elevated easement located between Gansevoort Street and West 30th Street.

High Line bed
The "High Line bed" is the highest level of the horizontal surface (platform) of the #High Line# elevated rail line structure as of (the effective date of amendment), as shown in Diagram 7, in Appendix C of this Chapter. For the purposes of this Chapter, the level of the #High Line bed# is the average level of the #High Line bed# on a #zoning lot# over which the #High Line# passes.

High Line frontage
"High Line frontage" is that portion of a #building# that faces and is located within 15 feet of the west side and 25 feet of the east side of the #High Line#.

High Line Transfer Corridor
The "High Line Transfer Corridor" is an area within which the #High Line# is located, as specified in Appendix B of this Chapter, where development rights may be transferred to receiving sites in certain Subareas in the #Special West Chelsea District#, pursuant to the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-02
General Provisions
The provisions of this Chapter shall apply to any #zoning lot#, or portion thereof, within the #Special West Chelsea District#, except that the provisions of Section 98-17 (Air Space over a Railroad or Transit Right-of-way or Yard) and Section 98-11 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall also apply to any #zoning lot# south of the #Special West Chelsea District# over which the #High Line# passes. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

The provisions regarding the transfer of #floor area# set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive, and the #High Line Improvement Bonus# in Subareas D, E, and F, and G and I set forth in Section 98-25 shall be effective upon the issuance of a final and binding Certificate of Interim Trail Use (CITU) by the Federal Surface Transportation Board and the execution of a trail use agreement between the City and CSX Transportation, Inc., or its successor, or upon a determination by the Office of the Corporation Counsel that the restoration and reuse of the #High Line# as an accessible, public open space has been obtained pursuant to an alternative mechanism which protects the interests of the city.

Upon transfer of the #High Line# to the City pursuant to ULURP application C 050163 PCM and in accordance with such CITU and trail use agreement, the following shall apply:

(a) the provisions regarding the issuance of building permits set forth in Section 98-26 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall be effective; and
(b) any area within the tax lot located at Section 3, Block 8224, Lot 111, as of (effective date of amendment), which is separated from other portions of such tax lot by bounding streets, shall be considered a separate #zoning lot#; and
(c) Underlying #use# and bulk regulations shall not apply to #uses# and #buildings and other structures# constructed on the #High Line# specifically in connection with its use as a public open space.

98-03
District Plan and Maps
The regulations of this Chapter are designed to implement the #Special West Chelsea District# Plan.
The District Plan includes the following maps and illustrative diagrams in Appendices A, B, and C:

Appendix A		Special West Chelsea District and Subareas
Appendix B		High Line Transfer Corridor Location and Floor Area Ratio
Appendix C		Illustrative Diagrams of the High Line and Building Envelopes for Sites Adjacent to the High Line
	Diagram 1	Street wall and High Line frontage regulations in Subareas C, F, and G
	Diagram 2	Street wall and High Line frontage regulations in Subarea A
	Diagram 3	Subarea H requirements
	Diagram 4	High Line Improvement Area for Zoning Lots Divided by District Boundaries in Subareas D, E and G
	Diagram 5	Subarea I requirements between West 16th and West 17th streets
	Diagram 6	High Line Access Easement Volume Parameters
	Diagram 7	High Line bed and frontages
Appendix D		Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea H
Appendix E		Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E and G, or within Subarea I

The maps and diagrams are hereby incorporated and made part of this Resolution. They are incorporated for the purpose of illustrating requirements or specifying locations where the special regulations and requirements set forth in the text of this Chapter shall apply.

98-04
Subareas and High Line Transfer Corridor
In order to carry out the provisions of this Chapter, nine Subareas (Subareas A through I), and a #High Line Transfer Corridor# are established within the #Special West Chelsea District#.

Within each of the Subareas and the #High Line Transfer Corridor#, certain special regulations apply that do not apply within the remainder of the #Special West Chelsea District#.

The locations of the nine Subareas are detailed in Appendix A of this Chapter. The location of the #High Line Transfer Corridor# is detailed in Appendix B of this Chapter,
The Subareas and the #High Line Transfer Corridor# are subject to all other regulations of the #Special West Chelsea District# and the underlying district regulations except as otherwise specified in this Chapter.

98-05
Applicability of District Regulations

98-051
Applicability of Chapter 1 of Article 1

(a) Within the #Special West Chelsea District#, Section 11-15 (Environmental Requirements) shall apply, except that prior to issuing a building permit for any #development#, or for an #enlargement#, #extension# or a change of #use#, on a lot that has an (E) designation for hazardous material contamination, noise or air quality, the Department of Buildings shall be furnished with a report from the Department of Environmental Protection (DEP) of the City of New York stating:

(1) in the case of an (E) designation for hazardous material contamination, that environmental requirements related to the (E) designation have been met for that lot; or

(2) in the case of an (E) designation for noise or air quality, that the plans and drawings for such #development# or #enlargement# will result in compliance with the environmental requirements related to the (E) designation.

(b) Section 11-332 (Extension of period to complete construction) shall apply, except that not withstanding the provisions of paragraph (a) of such Section, in the event that other construction for which a building permit has been lawfully issued and for which construction has been commenced but not completed on (effective date of amendment), such other construction may be continued provided that the construction is completed and a temporary or permanent certificate of occupancy is obtained not later than (one year after effective date of amendment).

98-10
SPECIAL USE AND PARKING REGULATIONS WITHIN THE SPECIAL WEST CHELSEA DISTRICT

98-11
Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line

The Commissioner of Buildings shall not issue any building permit for demolition, excavation or foundation work to be performed above or beneath the #High Line# or within 25 feet of support structures of the #High Line#, except by determination by such Commissioner that such work would not adversely affect the structural integrity of the #High Line#.

98-12
Modification of Use Regulations in C6 Districts

98-121
In Subarea H
In Subarea H, the provisions of Section 32-25 (Use Group 16), paragraph D. (Heavy Service, Wholesale, or Storage Establishments) are modified to permit, in #C6 Districts#, warehouse #uses# only in #cellars# located wholly below #curb level#.

98-122
Location Within Buildings
In any #C6 District# in the #Special West Chelsea District#, the provisions of Section 32-422 (Location of floors occupied by non-residential uses) are modified to permit non-#residential uses# on the same #story# as a #residential use# or on a story higher than that occupied by #residential uses#, provided that the non-#residential uses#:

(a) are located in a portion of the #building# that has separate direct access to the #street# with no access to the #residential# portion of the #building# at any #story#; and

(b) are not located directly over any portion of a #building# containing #dwelling units#, except this limitation shall not preclude the location of:

(1) #residential# lobby space below or on the same #story# as non-#residential uses#; or

(2) a #commercial use# that fronts on the #High Line# and is located within five feet of the level of the #High Line bed#.

98-13
Modification of Use Regulations in M1 Districts
In the #Special West Chelsea District#, the provisions of Section 42-10 (USES PERMITTED AS-OF-RIGHT) and 42-30 (USES PERMITTED BY SPECIAL PERMIT) are modified to permit, as-of-right, without limitation, in M1 Districts, museums and non-commercial art galleries as listed in Use Group 3.

98-14
Ground Floor Use and Transparency Requirements on Tenth Avenue
The special ground floor #use# and glazing regulations of this Section apply to that portion of a #building or other structure# fronting on Tenth Avenue in the #Special West Chelsea District#.
#Uses# located on the ground floor level or within five feet of #curb level#, and within 25 feet of the #street line# shall be limited to #commercial uses# permitted by the underlying district or museums or non-commercial art galleries as listed in Use Group 3. A building's #street# frontage shall be allocated exclusively to such #uses#, except for lobby space or entryways. In no event shall the length of #street# frontage occupied by lobby space or entryways exceed, in total, 40 feet or 50 percent of the building's total #street# frontage, whichever is less.
For any #development# or #enlargement#, each ground floor #street wall# shall be glazed with materials which may include show windows, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 70 percent of such ground floor #street wall# surface. The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall be not higher than two feet above the level of the adjoining sidewalk or public access area and shall be no less than eight feet in height measured from such lowest point. Not less than 50 percent of such ground floor #street wall# surface shall be glazed with transparent materials, and up to 20 percent of
such ground floor #street wall# may be glazed with translucent materials.

98-141
Transparency requirements within Subareas H and I-
The transparency requirements of this Section shall apply to all portions of #developments# and #enlargements# within the eastern #High Line frontage# of Subareas H and I, except for such portions that contain #dwelling units#. At least 70 percent of the area of such frontage, to be measured from a point not lower than four feet and not higher than eight feet above the level of the #High Line bed# shall be glazed and transparent and at least 75 percent of such glazed surface shall be fully transparent.

98-15
Security Gates
All security gates installed after (effective date of amendment) that are swung, drawn, or lowered to secure #commercial# or #community facility# premises shall, when closed, permit visibility of at least 75 percent of the façade area covered by such gate, when viewed from the #street#, except that this provision shall not apply to entrances or exits to parking facilities.

98-16
Signs
The #sign# regulations of the underlying districts in the #Special West Chelsea District# shall not apply to #signs# located within 50 feet of the #High Line#, except for signs located entirely below the level of the #High Line# bed. In lieu thereof, the #sign# regulations of a C1 district shall apply, except that #accessory signs# located within the #High Line frontage# may have a maximum height of 20 feet above the level of the #High Line bed#.
No signs affixed to or resting upon the #High Line# shall be permitted, except as pursuant to a signage plan for the #High Line#, as authorized by the City Planning Commission, provided the Commission finds that such signage plan will:

(a) enhance the use of the #High Line# by providing signage that is consistent with the use of the #High Line# as a public open space;
(b) provide, at a minimum, directional, informational, and interpretive signage consistent with the use of the #High Line# as a public open space;
(c) be integrated with the design of the #High Line# open space; and
(d) not adversely affect development adjacent to the #High Line# and in the surrounding neighborhood

98-17
Air Space Over a Railroad or Transit Right-of-way or Yard
For the purposes of this Resolution, the #High Line# shall not be considered a railroad or transit right-of-way and the provisions of Sections 32-44 (Air Space over a Railroad or Transit Right-of-way or Yard) and 42-462 (Air Space over a Railroad or Transit Right-of-way or Yard) shall not apply.

98-18
Parking Regulations in Subarea H
#Accessory# off-street parking spaces for existing or new governmental offices may be located on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided such spaces are located within Subarea H and in a facility, or portion thereof, that is entirely below #curb level# and that no more than 377 spaces are provided within such facility. For purposes of this Section, the governmental offices on Block 688, Lots 1001-1002 (as of the effective date) may have up to 377 #accessory# off-street parking spaces in such facility.

98-19
Lighting
All exterior light sources located within the #High Line frontage# shall be shielded from direct view from the #High Line#.

98-20
FLOOR AREA AND LOT COVERAGE REGULATIONS
The #floor area# provisions of this Section 98-20, inclusive, shall apply. Furthermore, special #floor area# transfer provisions are set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-21
Maximum Floor Area Ratio outside of Subareas
For all #zoning lots# or portions thereof located outside of Subareas A through I, the maximum #floor area ratios# of the applicable underlying district shall apply.

98-22
Maximum Floor Area Ratio and Lot Coverage in Subareas
For all #zoning lots# or portions thereof located in Subareas A through I, the maximum #floor area ratios#, #open space ratios# and #lot coverages# of the applicable underlying district shall not apply. In lieu thereof, the maximum #floor area ratio# permitted for #commercial#, #community facility#, and #residential uses#, separately or in combination, shall be as specified in the following table. For #residential use#, the maximum #lot coverage# shall be 70 percent for #interior# or #through lots# and 80 percent for #corner lots#, except that no maximum #lot coverage# shall apply to any #zoning lot# comprising a #corner lot# of 5,000 square feet or less.

TABLE A
Maximum Floor Area Ratio by Subarea

Subarea	Basic Maximum #floor area ratio#	Increase in FAR pursuant to section 98-30(HIGH LINE TRANSFER CORRIDOR	Increase in FAR pursuant to section 98-25 (High Line Improvement Bonuses)	Inclusionary Housing		Maximum permitted # floor area ratio#
				Minimum FAR required to be transferred (note 1)	Increase in FAR pursuant to Section 98-26 (Modifications to Inclusionary Housing Program)	
A	7.5	2.5	(note 2)	1.65	2.85	12.0
B	5.0	2.5	(note 2)	1.65	0.85	7.5
C	5.0	2.5	NA	1.65	0.85	7.5
D	5.0	2.5 (note 3)	2.5 (note 3)	1.65	0.85	7.5
E	5.0	1.0 (note 3)	1.0 (notes 2 & 3)	0.65	0.35	6.0
F	5.0	NA	NA	NA	NA	5.0
G	5.0	1.0 (note 3)	1.0 (note 3)	0.65	0.35	6.0
H	7.5	NA	2.5	NA	NA	10.0
I	5.0	2.5	NA	1.65	0.85	7.5
I (note 4)	5.0	1.0	1.5	0.65	0.35	7.5

Note 1
Minimum #floor area ratios# required to be transferred pursuant to Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive, before Inclusionary Housing #floor area# bonus can be utilized.

Note 2
In Subareas A, B, and E, the applicable basic maximum #floor area ratio# of that portion of the #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, and the applicable maximum permitted #floor area ratio# increased accordingly, by certification of the Chairperson of the City Planning Commission, pursuant to Section 98-35 (High Line Transfer Corridor Bonus).

Note 3
For certain zoning lots located in Subareas D, E, and G, the provisions of Section 98-25 (#High Line# Improvement Bonus) may apply in lieu of the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), subject to the provisions of Section 98-24 (Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E, and G).

Note 4
For #zoning lots# over which the #High Line# passes.

98-23
Special Floor Area and Lot Coverage Rules for Zoning Lots Over Which the High Line Passes
#Lot coverage# requirements shall not apply to the portion of the #zoning lot# that lies directly beneath the #High Line#. The remaining portion of the #zoning lot# shall be considered a separate #zoning lot# for the purposes of calculating maximum #lot coverage#. Easement volumes provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS) and access structures constructed therein, as well as any structure required pursuant to Appendix D or E in relation to an increase in the basic maximum #floor area # ratio of a #zoning lot# pursuant to Section 98-25 (#High Line# Improvement Bonus), shall not be considered #floor area# or #lot coverage#.
However, #lot coverage# requirements shall apply to the entire #zoning lot# for the purposes of applying tower #lot coverage# regulations as set forth in paragraph (b) of Section 98-423.

98-24
Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E and G
For #zoning lots# fronting on West 18th Street and located partially in Subarea D, partially in Subarea E and partially in Subarea G, #floor area# may be transferred across zoning district and subarea boundaries without restriction. Either the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR) or Section 98-25 (High Line Improvement Bonus) may apply to such #zoning lot#, as applicable, and the maximum permitted #floor area ratio# specified in the table in Section 98-22 shall apply, as applicable, for each subarea.

98-25
High Line Improvement Bonus
For #zoning lots# located between West 16th and West 19th streets over which the #High Line# passes, the applicable basic maximum #floor area ratio# of the #zoning lot# may be increased up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), provided that:

(a) Prior to issuing a building permit for any #development# or #enlargement# on such #zoning lot# that anticipates using #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished with a certification by the Chairperson of the City Planning Commission that: (1) a contribution has been deposited into an escrow account or similar fund established by the City (the #High Line # Improvement Fund), or such contribution is secured by letter of credit or other cash equivalent instrument in a form acceptable to the City. Such contribution shall be used at the direction of the Chairperson solely for improvements to the #High Line# within the #High Line# improvement area applicable to such #zoning lot#, with such contribution being first used for improvements within that portion of the #High Line# improvement area on such #zoning lot#. Such contribution shall be made in accordance with the provisions of Appendix D or E, as applicable; and (2) a declaration of restrictions executed by all #parties in interest# to the #zoning lot# as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS) , including and incorporating such other instruments as are necessary to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, is filed and recorded in the Office of the Register of the City of New York; and (3) all additional requirements of Appendix D or E, as applicable with respect to issuance of a building permit, have been met.

(b) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located between Subarea H over which the #High Line# passes that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix D, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;
(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix D;
(3) At-Grade Plaza Work has been performed on such #zoning lot# in the area shown in Diagram 3 of Appendix C, in accordance with Appendix D;
(4) stairway and elevator access work has been performed on such #zoning lot# in the At-Grade Plaza area shown in Diagram 3 of Appendix C, or that an additional contribution to the #High Line# Improvement Fund to fund performance of such work has been made, in accordance with Appendix D; and
(5) all other applicable requirements of Appendix D have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix D.

(c) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located within Subarea I or located partially within Subareas D, E, and G over which the #High Line# passes that incorporates #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix E, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;
(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix E;
(3) stairway and elevator access work has been performed on such #zoning lot #, in accordance with Appendix E;
(4) for #zoning lots# located between Subarea I over which the #High Line# passes, #High Line# Service Facility Work has been performed, in accordance with Appendix E; and
(5) all other applicable requirements of Appendix E have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City

may perform all such work in accordance with the provisions of Appendix E.

98-26
Modifications of Inclusionary Housing Program
The provisions of Section 23-90 (INCLUSIONARY HOUSING) are modified within the #Special West Chelsea District#, as set forth in this Section.

98-261
Definitions
For the purposes of Section 23-943 (Preservation option), the following definitions in Section 23-92 shall be modified:

Fair Rent
"Fair rent" shall include, in addition to that rent permitted pursuant to Section 23-92, the payment of principal and interest on mortgage debt, and #lower income housing# may secure such debt. provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-94(c) of this Resolution.

Lower Income Household
A "lower income household" is a #family# having an income equal to or less than the following proportion:

$$\frac{125}{80}$$

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.
#Lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City and State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with the U.S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.
Section 23-93 shall be modified so that the applicable ratio for Preservation in Column B shall be 1.5:1.
Section 23-943, paragraph (a) shall be modified to provide that the #administering agent# shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

98-262
Floor area increase
In accordance with the provisions set forth in Section 98-22 (Maximum Floor Area Ratio and Lot Coverage in Subareas), the maximum permitted #residential floor area ratio# for #developments# or #enlargements# that have increased their permitted #floor area# through the transfer of development rights from the #High Line Transfer Corridor# by the minimum amount specified in the table in Section 98-22 may further increase their permitted #floor area# through the provision of Inclusionary Housing, as modified in this Section 98-26, to the maximum amount specified in such table. However, in those subareas or portions thereof where the Inclusionary Housing Program is applicable, and where the Chairperson of the Department of City Planning has certified that at least 90 percent of the total development rights within the #High Line Transfer Corridor# have been transferred pursuant to Section 98-30, no transfer of #floor area# pursuant to Section 98-30 shall be required, and the basic maximum #floor area ratio# of the #development# or #enlargement# may be increased by up to 1.0 in Subareas E and G, and on any #zoning lot# located in Subarea I over which the #High Line# passes; up to 2.5 in Subareas B, C, and D and on any #zoning lot# located in Subarea I over which the #High Line# does not pass, and up to 4.5 in Subarea A.

98-30
HIGH LINE TRANSFER CORRIDOR

98-31
Purposes
The #High Line Transfer Corridor#, established within the #Special West Chelsea District#, is intended to enable the transfer of development rights from properties over which and immediately to the west of where the #High Line# passes and thereby permit light and air to penetrate to the #High Line# and preserve and create view corridors from the #High Line# bed.

98-32
General Provisions
The location of the #High Line Transfer Corridor# is specified in Appendix B of this Chapter.
In the #High Line Transfer Corridor#, special regulations relating to the transfer of #floor area# are set forth in Sections 98-33 through and 98-35 inclusive.

98-33
Transfer of Development Rights From the High Line Transfer Corridor
In the #Special West Chelsea District#, a "granting site" shall mean a #zoning lot#, or portion thereof, in the #High Line Transfer Corridor#. A "receiving site" shall mean a #zoning lot#, or portion thereof, in any subarea other than Subareas F and H. #Floor area# from a granting site may be transferred to a receiving site in accordance with the provisions of this Section.

(a) Notification
Prior to any transfer of #floor area#, the Department of City Planning shall be notified in writing of such intent to transfer #floor area#. Such notification shall be made jointly by the owners of the granting and receiving sites and shall include:

(1) #floor area# zoning calculations for the granting and receiving site, and
(2) a copy of the distribution instrument legally sufficient in both form and content to effect such a distribution, and
(3) if applicable, a certified copy of the instrument creating a secondary #High Line# access easement volume, pursuant to the provisions of Section 98-63.

Notices of restrictions in a form acceptable to the Department of City Planning shall be filed by the owners of the granting and receiving sites in the Office of the Register of the City Of New York, indexed against the granting and receiving sites, certified copies of which shall be submitted to the Department of City Planning. Notice by the Department of City Planning of its receipt of certified copies thereof shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit for any #development# or #enlargement# on the receiving site.

(b) #Floor area#
The maximum amount of #floor area# transferred from a granting site located outside of a subarea shall not exceed the maximum #floor area ratio# permitted for a #commercial use# on such granting site, less any existing #floor area# to remain on such granting site.
The maximum amount of #floor area# transferred from a granting site located in a subarea shall not exceed the basic maximum #floor area ratio# specified for the applicable subarea in the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas), less any existing #floor area# to remain on such granting site.
Each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be transferred from the granting site by the amount of #floor area# transferred.
The amount of #floor area# transferred to a receiving site from a granting site in the #High Line Transfer Corridor# shall not exceed the #floor area ratio# permitted on the receiving site through such transfer, pursuant to the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas).

(c) #Use#
#Floor area# transferred from a granting site within the #High Line Transfer Corridor# may be used for any #use# allowed on the receiving site in accordance with the underlying zoning designation and the provisions of this Chapter.

(d) Stairway easement requirement
As a condition for the transfer of #floor area#, an easement volume to facilitate pedestrian access to the #High Line# via stairway shall be provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR ZONING LOTS OVER WHICH THE HIGH LINE PASSES OR ADJACENT TO THE HIGH LINE) and Section 98-63 (Recording of the #High Line# Access Easement Volume).

(e) Restrictive Declaration
As a condition for the transfer of #floor area#, and in order to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, a declaration of restrictions, executed by all #parties in interest# of the granting lot as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS), and including and incorporating such other instruments as are necessary to accomplish such purposes, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, shall be filed and recorded in the Office of the Register of the City of New York. Notice by the Department of City Planning of receipt of certified copies of such recorded declaration shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site. Such recorded declaration shall be in addition to the Notice of Restrictions required pursuant to subdivision (a) of this Section.

98-34
Screening and Landscaping Requirements for Vacant Sites
Any #zoning lot# within the #High Line Transfer Corridor# that has transferred #floor area# pursuant to Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor), and is 50 percent or more vacant shall be screened from the street and/or landscaped in accordance with the provisions of this Section; except that #zoning lots# occupied by #buildings# that extend along at least 85 percent of the #street# frontage of the #zoning lot# and are located within five feet of the #street line# are not required to provide screening or landscaping.
Such open or vacant areas on #zoning lots# shall be screened from the street by a fence or gate with a surface that is at least 75 percent open, extending not less than six feet and not higher than eight feet above finished grade; or alternatively, by a planting strip at least four feet wide and densely planted with evergreen shrubs at least four feet high at the time of planting or of a variety expected to reach a height of six feet within three years, or by both. Chain link and fences containing barbed wire or razor wire shall be prohibited. For portions of #zoning lots# located beneath the #High Line# planting strips shall be prohibited.

98-35
#High Line Transfer Corridor# Bonus
For #zoning lots#, or portions thereof, within the #High Line Transfer Corridor#, the applicable basic maximum #floor area ratio# of that portion of a #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, for an amount of #floor area# equivalent to the area of that portion of the #zoning lot# located within the #High Line Transfer Corridor#, provided the Chairperson of the City Planning Commission has certified that

(d) all the permitted #floor area# on that portion of the #zoning lot# that is within the #High Line Transfer Corridor# has been transferred to an eligible receiving site, in accordance with the provisions of Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor);
(e) that such granting site is vacant; and
(f) a contribution has been deposited into the #High Line# Improvement Fund established under Section 98-25, to be used at the direction of the Chairperson of the City Planning Commission to assure that the #High Line# is restored and reused as a public accessible open space.

No #building# permit for any #development# or #enlargement# that anticipates using such increased #floor area# may be issued unless and until such certification has been made.

Such contribution amount shall be $50.00 per square foot of #floor area# as of (the effective date of amendment) and shall be adjusted July 1 of the following year and each year thereafter, by the City or its designee, based on the percentage change in the Consumer Price Index for all urban consumers as defined by the U.S. Bureau of Labor Statistics.

Such bonus #floor area# shall only be used for a permitted #commercial use#, which shall be located in that portion of the #zoning lot# that is within the #High Line Transfer Corridor#; however, #public parking lots# and #public parking garages# at or above #curb level# shall not be permitted; and the height of any #development# or #enlargement# within the #High Line Transfer Corridor# shall not exceed a height of 3 feet 6 inches above the level of the #High Line bed#.

98-40
SPECIAL YARD, HEIGHT AND SETBACK, AND MINIMUM DISTANCE BETWEEN BUILDINGS REGULATIONS

98-41
Special Rear Yard Regulations
The #yard# regulations of the underlying district shall apply, except that no #rear yard# regulations shall apply to any #zoning lot# that includes a #through lot# portion that is contiguous on one side to two #corner lot# portions and such #zoning lot# occupies the entire #block# frontage of the #street#.

98-42
Special Height and Setback Regulations
The height and setback regulations of the underlying district shall not apply, except as set forth in this Section 98-42, inclusive. Furthermore, for any #zoning lot# located within or adjacent to the #High Line Transfer Corridor#, the provisions of Section 98-50, inclusive, shall also apply. All heights shall be measured from the #base plane#, unless otherwise specified.

98-421
Obstruction over the High Line

Within the #Special West Chelsea District#, the #High Line# shall remain open and unobstructed from the #High Line bed# to the sky, except for improvements constructed on the #High Line# in connection with the use of the #High Line# as a public open space.

98-422
Special rooftop regulations
The provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings or other structures# within the #Special West Chelsea District# except as modified as follows:

(a) Permitted Obstructions
Elevator or stair bulkheads, roof water tanks, cooling towers or other mechanical equipment (including enclosures), may penetrate a #sky exposure plane# or a maximum height limit provided that either the product, in square feet, of the #aggregate width of street walls# of such obstructions facing each #street# frontage, times their average height, in feet, shall not exceed a figure equal to eight times the width, in feet, of the #street wall# of the #building# facing such frontage, or, the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#, and the height of all such obstructions does not exceed 40 feet. In addition, dormers may penetrate a maximum base height in accordance with the provisions of paragraph (c) of Section 23-621 (Permitted obstructions in certain districts). However, dormers may not exceed the maximum #building# height in Subareas F, C and G where the maximum base height and maximum #building# height are the same.
(b) Ventilation and mechanical equipment
All mechanical equipment located within 15 feet of the level of the #High Line# bed that is within 25 feet of the #High Line#, measured horizontally, or within the #High Line frontage#, as applicable, shall be screened and buffered with no intake or exhaust fans or vents facing directly onto the #High Line#.

98-423
Street wall location, minimum and maximum base heights and maximum building heights

The provisions set forth in paragraph (a) of this Section shall apply to all #developments# and #enlargements#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (f) of this Section.

(a) The #street wall# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in Table A of this Section. Recesses, not to exceed three feet in depth from the #street line#, shall be permitted on the ground floor where required to provide access to the #building#. Above a height of 12 feet above the #base plane#, up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#, provided any such recesses deeper than 10 feet along a #wide street#, or 15 feet along a #narrow street#, are located within an #outer court#. Furthermore, no recesses shall be permitted within 30 feet of the intersection of two #street lines# except that, to

allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.

For #developments# that occupy the entire #block# frontage of a #street# and provide a continuous sidewalk widening along such #street line#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section. The #street wall# location provisions of this section shall not apply along that portion of any #street# frontage:

(1) over which the #High Line# passes;
(2) occupied by existing #buildings# to remain, or
(3) between the #High Line# and a #side lot line#, where such frontage measures less than 20 feet.

All portions of #buildings or other structures# that exceed the applicable maximum base height specified in Table A shall provide a setback at a height not lower than the applicable minimum base height. A setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#, except such dimensions may include the depth of permitted recesses in the #street wall#.

No #building or other structure# shall exceed the maximum #building# height specified in Table A.

(d) Subareas A and D

(1) #Street wall# location

The #street wall# location provisions set forth in paragraph (a) of this Section shall apply, except that for #zoning lots# with #wide# and #narrow street# frontage, no #street wall# is required beyond 50 feet of a #wide street#.

However, in Subarea D, for #buildings# that do not include towers as set forth in paragraph (b)(3) of this Section, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front . In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within ten feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.

(2) Setback provisions

The setback provisions for portions of #buildings# above the maximum base height set forth in paragraph (a) of this Section shall not apply. In lieu thereof, no portion of a #building or other structure# that exceeds the applicable maximum base height shall penetrate a #sky exposure plane# that begins above the #street line# at the maximum base height and rises over the #zoning lot# at a ratio of 2.7 feet of vertical distance to one foot of horizontal distance on a #narrow street#; and 5.6 feet of vertical distance to one foot of horizontal distance on a #wide street#.

(3) Tower provisions

Any #building#, or portion thereof, which in the aggregate occupies not more than 40 percent of the #lot area# of the #zoning lot# and penetrates the #sky exposure planes# set forth in paragraph (b)(2) of this Section is hereinafter referred to as a "tower". Such towers are permitted provided they are set back at least 10 feet from a #wide street line# and at least 15 feet from a #narrow street line#, and provided no other portion of the #building# exceeds the applicable maximum base height. In addition, the following rules shall apply:

(i) For #zoning lots# with less than 20,000 square feet of #lot area#, such tower may occupy more than 40 percent of the #lot area# of the #zoning lot# in accordance with the provisions of Section 33-454 (Towers on small lots).

(ii) Any #story# within the highest 40 feet of such tower (the penthouse portion), shall not exceed 85 percent of the gross area of the highest #story# directly below such penthouse portion

(iii) In Subarea A, such tower shall occupy at least 30 percent of the #lot area# of the #zoning lot#, except that such minimum #lot coverage# requirement shall be reduced to 25 percent above a height of 220 feet. However, no minimum #lot area# requirement shall apply to the highest four #stories# or 40 feet of such #building#, whichever is less.

(iv) In Subarea A, the maximum length of any #story# located above a height of 220 feet shall not exceed 150 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above a height of 220 feet. Any side of such rectangle shall not exceed 150 feet.

(v) In Subarea A, for any #zoning lot# with more than 75 feet of #narrow street# frontage in which a #side lot line# is located within an area bounded by a line 200 feet east of and parallel to Eleventh Avenue and a line 410 feet east of and parallel to Eleventh Avenue, no tower portion of a #building# shall be located closer than 25 feet to such #side lot lines#.

(vi) In Subarea D, the maximum #building# height shall be 220 feet, and the maximum length of any #story# located above the maximum base height shall not exceed 150 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# wholly or partially above the maximum base height. Any side of such rectangle shall not exceed 150 feet. However, for #zoning lots# that occupy the entire Eleventh Avenue #block# front, a portion of the #street wall# may rise above the maximum base height without setback from Eleventh Avenue provided the aggregate width of the Eleventh Avenue #street wall# does not exceed 100 feet.

(e) Subareas C, F and G

In Subareas C, F and G, for #zoning lots# with wide and narrow street frontage, no #street wall# is required beyond 50 feet of a wide street.

Furthermore, for any #development# or #enlargement# that occupies at least one corner of the Tenth Avenue #block# front and extends along the Tenth Avenue frontage of the #zoning lot# for at least 170 feet, exclusive of existing #buildings# to remain, a lowered #street wall# shall be provided for any #building# that exceeds 45 feet in height. Such lowered #street wall# shall have a maximum height of 45 feet and a minimum height of 35 feet and extend along the Tenth Avenue frontage for a width not less than 25 percent and not more than 30 percent of the #aggregate width of street walls# facing Tenth Avenue. Such lowered #street wall# portion of the Tenth Avenue frontage shall be located at the intersection of Tenth Avenue and a #narrow street#. Such lowered #street wall# shall extend along such #narrow street line# for a distance of at least 50 feet from Tenth Avenue. Beyond 50 feet of Tenth Avenue, excluding the #High Line frontage# of a #building#, such portion of the #building# shall not exceed a height of 45 feet.

The provisions of this Section, relating to the location and height of the lowered #street wall# portion of the Tenth Avenue frontage of a #development# are illustrated in Diagram 1 (Street Wall and #High Line# Frontage Regulations in Subareas C, F and G), in Appendix C of this Chapter.

(d) Subarea E

The #street wall# location provisions set forth in paragraph (a) shall not apply to any #development# or #enlargement# on a #zoning lot# fronting on West 18th Street and located partially in Subareas D, E and G, where #floor area# has been transferred pursuant to Section 98-24. A maximum of 60 percent of the West 18th Street frontage within Subarea E may rise without setback to a maximum #building# height of 250 feet and a minimum of 20 percent of the West 18th Street frontage within Subarea E shall rise without setback to a minimum height of 60 feet and a maximum height of 85 feet and be located within 10 feet of the #street line#.

(e) Subarea H

No #building or other structure# shall be located east of the #High Line#.

No portion of a #building or other structure# shall exceed a height of 85 feet except for two #buildings#, or portions of #buildings#, hereinafter referred to as Tower East and Tower West. At or above the base height, both such towers shall be set back at least 10 feet from any #street wall# facing a #wide street# and at least 15 feet from any #street wall# facing a #narrow street#. Such set backs shall be provided at a height not lower than 60 feet, except that such set backs may be provided at a height not lower than 40 feet, provided at least 65 percent of the #aggregate width of street walls# facing #narrow streets# and at least 60 percent of the #aggregate width of street walls# facing #wide streets# have a minimum base height of 60 feet. Tower East shall be located in its entirety within 240 feet of the Tenth Avenue #street line#, and Tower West shall be located in its entirety within 200 feet of the Eleventh Avenue #street line#. Neither tower shall exceed a height of 280 feet.

A maximum of 50 percent of the #street wall# of Tower West may rise without setback from a #narrow street line#. Such portion of the #street wall# shall be located a minimum of 15 feet and a maximum of 20 feet from the #narrow street line#.

(f) Subarea I

In that portion of Subarea I located within 300 feet of Tenth Avenue between West 16th Street and West 17th Street, the #street wall# location provisions set forth in paragraph (a) shall not apply along Tenth Avenue, as illustrated in Diagram 5 (Subarea H Requirements), of Appendix C of this Chapter, but shall apply along a minimum of 85 percent of the West 16th Street and West 17th Street frontages. No portion of a #building or other structure# located within 300 feet of Tenth Avenue shall exceed a height of 120 feet, except for one #building# which may have a height not to exceed 220 feet provided such #building# is located in its entirety within 90 feet of West 17th Street and has a length that does not exceed 175 feet when measured parallel to the West 17th Street #street line#.

In all other portions of Subarea I, the provisions of paragraph (a) shall apply.

TABLE A
Minimum and Maximum Base Height and Maximum Building Height by District or Subarea

District or Subarea	Minimum Base Height (in feet)	Maximum Base Height (in feet)	Maximum Building Height (in feet)
C6-2A	60	85	120
C6-3A	60	102	145
A within 100 feet of a #wide street#	60	85	See paragraph (b)
A beyond 100 feet of #wide street#	40	60	See paragraph (b)
B, M1-5	60	95	135
C for #zoning lots# with only #narrow street# frontage	60	110	110
C for #zoning lots# with Tenth Avenue frontage	105	125	125
C for #zoning lots# with Eleventh Avenue frontage	See paragraph (c)	See paragraph (c)	See paragraph (c)
D	60	90	220 See paragraph (b)
E	60	105	120 See paragraph (d)
F	60	80	80
G for #zoning lots# with only #narrow street# frontage	See paragraph (c)	See paragraph (c)	See paragraph (c)
G for #zoning lots# with #wide street# frontage	60	95	95
H	105 See paragraph (c)	120 See paragraph (c)	120 See paragraph (c)
I within 300 ft of Tenth Ave between W. 16th St. and W. 17th St.	60 See paragraph (e)	120 See paragraph (e)	See paragraph (e)
I all other areas	60	105	135

98-424
Authorization to modify height and setback regulations

The City Planning Commission may authorize the modification of height and setback regulations set forth in Section 98-40 and 98-50, inclusive, and the transparency requirements set forth in Sections 98-141 and 98-54 for that portion of any #development# or #enlargement# located within 40 feet of the #High Line#. The Commission shall find that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public areas.

The Commission may prescribe appropriate conditions and safeguards to enhance the character of the surrounding area.

98-43
Special Distance Between Buildings Regulations

The provisions of Section 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) shall not apply.

98-50
SPECIAL HEIGHT AND SETBACK, OPEN AREA AND TRANSPARENCY REGULATIONS FOR ZONING LOTS WITHIN OR ADJACENT TO THE HIGH LINE TRANSFER CORRIDOR

98-51
Height and Setback Regulations on the East Side of the High Line

(a) Subarea A

At least 60 percent of the aggregate length of the eastern #High Line frontage# of a #building# shall set back at the level of the #High Line bed#. Not more than 40 percent of the aggregate length of such #High Line frontage# may rise above the level of the #High Line bed#. No portion of such #High Line frontage# shall exceed a maximum height of 20 feet above the level of the #High Line bed#, as illustrated in Diagram 2 (Street Wall and #High Line# Frontage Regulations in Subarea A) in Appendix C, of this Chapter.

(b) In C6-3A Districts, and in Subareas C, F and G

For #zoning lots# extending less than 120 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of a #building# shall exceed a height of 3 feet 6 inches above the level of the #High Line bed#.

For #zoning lots# that extend for at least 120 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of the #building# shall exceed a height of 3 feet 6 inches above the level of the #High Line bed#, except that a maximum of 40 percent of such #High Line frontage# may rise without setback above a height of 3 feet 6 inches above the level of the #High Line bed# provided such portion of the #building# is not located directly between the #High Line# and any #street wall# of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (a) (Subareas C, F and I) of Section 98-441 (Street wall location and minimum base heights).

However, the provisions of this paragraph (b) shall not apply to any #zoning lot# existing on (the effective date of amendment) where the greatest distance between the eastern side of the #High Line# and a #side lot line# east of the #High Line# is 35 feet when measured parallel to the nearest #narrow street line#.

98-52
Height and Setback Regulations on West Side of High Line

In C6-2A, C6-3A and M1-5 Districts, and in Subareas A, B and E, no portion of the western #High Line frontage# of a #building# shall exceed a height of 3 feet 6 inches above the level of the #High Line bed#.

98-53
Required Open Areas on the East Side of the High Line

At least 20 percent of the #lot area# of any #development# or #enlargement# on a #zoning lot#, or portion thereof, within

C6-3A Districts or within Subareas A, C, F or G and over which the #High Line# passes or adjacent to a #zoning lot# over which the #High Line# passes, shall be landscaped open area, pursuant to the requirements of paragraph (a) (Open area requirements), and (b)(Permitted obstructions) of this Section. Such open area shall be located directly adjacent to the #High Line# with its longest side adjacent to the #High Line# and shall be located at an elevation not to exceed a height of 3 feet 6 inches above the level of the #High Line bed# adjacent to the #zoning lot#. At no point shall such open area be located within 50 feet of Tenth Avenue.

(a) Open area requirements

All required open areas shall:

(1) have no portion used as a driveway, vehicular access way or for parking, and shall be screened from off-street loading and service areas;
(2) be landscaped with shrubs, vines, flowers, ground cover, trees, and/or plants in planters over a minimum of 25 percent of the required open area;
(3) be maintained by the building owner who shall be responsible for the maintenance of the open area including, but not limited to, the repair of all amenities, litter control and the care and replacement of vegetation within the zoning lot; and
(4) have all mechanical equipment which is located at the same elevation as the open area, or within 15 feet of the level of the open area, screened and buffered with no intake or exhaust fans facing directly onto the required open area.
(5) Open area screening
Required open area provided at the level of the #High Line bed# may be screened and/or separated from the public areas of the #High Line# by a wall, fence, or plantings extending not higher than 8 feet above the average elevation of the #High Line bed#. Non-vegetated screening materials must be substantially transparent. For the purposes of this Section, a substantially transparent screening is defined as transparent, or non-opaque, in an evenly distributed fashion for at least 75 percent of its area. Chain link fences shall not be a permitted screening material. Vegetated screening, such as shrubs, vines, and other plantings, may be completely covered by vegetation and opaque, provided that any underlying surface is substantially transparent.
In addition, such screening material shall be maintained in good condition at all times, may be interrupted by normal entrances and/or exits, and shall have no signs hung or attached thereto, other than those permitted in Section 98-16 (Signs).

(b) Permitted obstruction

(1) Any #High Line# access structure, providing pedestrian access to the #High Line#, by stairway or elevator, may be located within such required open area;
(2) The provisions of paragraph (g)(1) (Permitted obstructions) of Section 37-04 (Requirements for Urban Plazas) shall apply; and
(3) Open air cafes and kiosks may be located in such required open area. Open air cafes may occupy in the aggregate no more than 75 percent of such required open area.

98-54
Transparency Requirements on the East Side of the High Line
The transparency requirements of this Section shall apply to the #High Line frontage# portion of #developments# and #enlargements# located in C6-3A Districts and within Subareas A, C, F and G except for such portions that contain #dwelling units#. At least 50 percent of the area of such frontage, to be measured from a point not lower than four feet and not higher than eight feet above the level of the #High Line bed# shall be glazed and transparent and at least 75 percent of such glazed surface shall be fully transparent.

98-55
Requirements for Non-Transparent Surfaces on the East Side of the High Line
Any portion of such #High Line frontage# that is 40 feet or more in length and contains no transparent element between the level of the #High Line bed# and an elevation of twelve (12) feet above the level of the #High Line bed#, shall be planted with vines or other plantings or contain artwork. Such elements shall substantially cover the applicable non-transparent portion of the #High Line frontage#.

98-60
SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS

98-61
High Line Access Easement Volume Requirement
For all #developments# or #enlargements# within the Special West Chelsea District, an easement volume to facilitate public pedestrian access to the #High Line# via stairway and elevator (hereinafter referred to as "primary access"), shall be provided on any #zoning lot# over which the #High Line# passes that, on or after (the date of referral of zoning text amendment) has more than 5,000 square feet of #lot area#.
In the #High Line Transfer Corridor#, an easement volume to facilitate public pedestrian access to the #High Line# via stairway (hereinafter referred to as "secondary access"), shall be provided on any #zoning lot# from which #floor area has been transferred pursuant to Section 98-33 unless a primary access easement has been provided pursuant to this Section 98-61.
However, a primary access easement shall not be required if a primary access easement is already provided on the same #block# and a secondary access easement shall not be required if a primary or secondary access easement has already been provided on the same #block#. Furthermore, primary and/or secondary access easements shall not be required where the Chairperson of the City Planning Commission certifies that:
(1) the minimum dimensions required for the access easement volume pursuant to paragraph (a) of Section 98-62 cannot be accommodated within 33 feet six inches of a #street line# for primary access easements and 40 feet of a #street line# for secondary access easements; or
(2) in the case of a primary easement, a secondary easement is already provided on the same #zoning lot# and such easement is sufficient in size or has been enlarged to be sufficient in size to accommodate the provisions for primary access easements as specified in Section 98-62; or
(3) for primary or secondary easements, access has already been constructed on the same block or on the same street frontage and that such access meets the location and access requirements for primary or secondary access easements, as specified in Section 98-62(a) and (b) and meets all standards, as applicable, for persons with disabilities; or
(4) for primary or secondary easements, construction documents for the #High Line# open space have been developed that specify the opposite side of the same street frontage as an access location.

98-62
High Line Access Easement Regulations
The provisions of this Section shall apply to any #zoning lot# providing an access easement volume, as follows:
(a) Location and Minimum Dimensions

(1) Primary access easement volume
A primary access easement volume may be located within a #building# or within open areas on the #zoning lot#, including open areas required pursuant to Section 98-53 (Required Open Areas on the East Side of the High Line), provided such volume is within 15 feet of a #narrow street line#. The minimum length of such volume shall be 18 feet six inches and the minimum width shall be ten feet; however, the minimum area of such volume shall be 350 square feet. The height of such volume shall extend from a point at least ten feet below #curb level# to a point at least 15 feet above the level of the #High Line bed#. A primary access easement volume may also replace a previously provided secondary access easement volume, and such secondary access easement volume may be terminated pursuant to Section 98-64. Such minimum dimensions are illustrated in Diagram 6 (#High Line# Access Easement Volume Parameters) of Appendix C of this Chapter.
(2) Secondary access easement volume
A secondary access easement volume shall be located within 15 feet of a #narrow street line# and directly adjacent to the #High Line# for a minimum length of 25 feet. Such volume shall have a minimum width of ten feet. The height of such volume shall extend from #curb level# to a point at least ten feet above the level of the #high Line bed#.

(b) Access

All access easement volumes shall be accessible either directly from a public sidewalk or through a publicly traversable way through the #zoning lot# directly connecting with a public sidewalk. Such publicly traversable way shall meet the following requirements:

(1) The required width of the publicly traversable way shall be a minimum of eight feet.

(2) No portion of the publicly traversable way shall be interrupted or occupied by an off-street parking or loading area.

(3) The access easement volume shall be visible from the public sidewalk or the publicly traversable way.

(4) The publicly traversable way shall be maintained by the property owner in good repair.
(5) The publicly traversable way shall be fully accessible to persons with disabilities.

(6) The publicly traversable way shall be open and accessible to the public at all times when a stairway and/or elevator located within the associated access easement volume is open and accessible to the public.

(c) Permitted obstructions
Any access structure within the access easement volume, or any weather protection provided by an overhang or roofed area over such access easement volume, accessory to the access structure, shall be considered permitted obstructions within required #yards# or open areas.

(d) Permitted #uses#
An access easement volume required on a #zoning lot# pursuant to the provisions of this Chapter may be temporarily used by the owner of such #zoning lot# for any permitted #use# until such time as required by the City of New York or its designee for access purposes. Such permitted use shall be limited to non-residential #uses# where such access easement volume is within a #building#. Where such access easement volume is within an open area, such area shall be landscaped, or may be improved in accordance with the provisions of sub-paragraphs (g)(1), (g)(2) and (g)(3) (Permitted obstructions), of Section 37-04 (Requirements for Urban Plazas), except that in the case of open air cafes and kiosks the provisions of paragraph (g) (3) shall be modified as follows: a certification shall not be required pursuant to paragraphs (g)(5) and (g)(6).
Improvements or construction of a temporary nature within the easement volume shall be removed by the owner of such #zoning lot# prior to the time at which public use of the easement areas is required. A minimum notice of six months in writing shall be given by the City of New York or its designee to the owner of the #zoning lot#, in order to vacate the tenants of such temporary #uses#.
(e) Legally Required Windows
The minimum distance between any legally required window in a portion of a #building# used for #residential use# and an access easement volume shall be 30 feet, measured in a horizontal plane at the sill level of, and perpendicular to, such window for the full width of the rough window opening.

98-63
Recording of High Line Access Easement Volume
An instrument in a form acceptable to the Department of City Planning creating a #High Line# access easement volume shall be recorded in the Office of the City Register; a certified copy of which shall be submitted to the Department of City Planning.
Notice by the Department of City Planning of its receipt of a certified copy of an instrument establishing any access easements required pursuant to this Chapter shall be a precondition to issuance by the Commissioner of Buildings of any building permits including any foundation or alteration permit for any #development# of #enlargement# on a site pursuant to Section 98-60 for primary access easements. Receipt of a certified copy of an instrument creating a secondary access easement shall be provided in conjunction with notification, pursuant to Section 98-33(a).

98-64
Termination of High Line Access Easement Volume
In the event that the City Planning Commission notifies the Department of Buildings and the owner in writing that a #High Line# access easement volume is not required on a #zoning lot# under the final construction plans for the restoration and reuse of the #High Line# as an accessible, public open space, the restrictions imposed on such #zoning lot# by the provisions of Section 98-61 (High Line Access Easement Volume Requirement) shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the City Planning Commission to the extinguishment of the easement volume. On termination of the #High Line# access easement volume requirement which has been certified pursuant to this Section, any area reserved for such easement within a #building or other structure# may be used for any #use# permitted pursuant to the provisions of this Chapter and such area shall not be considered #floor area#; and any open area reserved for such easement shall be maintained as an open area and shall be subject to the open area requirements of Section 98-53 (Required Open Areas on the East Side of the High Line).

APPENDIX D
Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea H
This Appendix sets forth additional requirements governing #zoning lots# located within Subarea H between West 17th and 18th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to subparagraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to subparagraph (b) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean "parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10 .

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25

(1) As a condition of issuance of a building permit under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix D, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22;
(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and use of the At-Grade Plaza and the stairway and elevator that will provide access to the #High Line#, as shown in Diagram 3 of Appendix C, such easement area for the At-Grade Plaza to include the entire area of the #zoning lot# east of the #High Line# and such easement area as it relates to such stairway and elevator to be at least 2,500 square feet and in a location and configuration acceptable to the City; access for the potential performance by the City of work under the provisions set forth below; and maintenance and repair of the stairway and elevator . Such declaration shall incorporate by reference the maintenance and operating agreement referred to in paragraph (iii) below; and
(iii) Owner shall execute a maintenance and operating agreement for the At-Grade Plaza,

The easements and agreement described herein shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (b).

(2) Upon the request of Owner, the City in its

sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot# and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement by Owner, approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the contribution to the #High Line# Improvement. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) The location of #floor area# which would exceed the basic maximum #floor area ratio# and be subject to the provisions of Section 98-25 shall be considered to be the topmost portion of the #development# or #enlargement# unless, at the time of certification pursuant to Section 98-25, paragraph (a), Owner designates, subject to the concurrence of the Chairperson of the City Planning Commission, an alternate location.

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (b) of Section 98-25

(1) Structural Remediation Work Under Paragraph (b)(2) of Section 98-25

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner may exercise such option following receipt of the City's specifications for the Structural Remediation Work or upon the City's failure to provide such specifications, as set forth in paragraphs (iv) and (v) below (unless such dates are extended by mutual agreement of the City and Owner, but in no event may exercise such option later than 90 days following receipt of a notice by the City of its intent to commence improvements to the #High Line# within the #High Line# improvement area applicable to the #zoning lot# within the next twenty-four months. In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner , as applicable, for any excess from or against the #High Line# Improvement Fund. In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (b)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of any temporary certificate of occupancy, and of final completion with respect to issuance of any final certificate of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above , at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to public view versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead-based products in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including , but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below-grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) Subject to the Not-To-Exceed Limit set forth in section (c) of this Appendix, if Owner exercises the option to perform the Structural Remediation Work, it shall reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone).

(iv) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to delays outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(v) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following the (effective date of amendment) or of the date of exercise of such option, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control and, in addition, for any time during which Owner is unable to gain access in order to perform the Structural Remediation Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application). .

(vi) In the event that the City does not provide the specifications for the Structural Remediation Work, within the timeframe set forth in paragraph (iv) of this section, Owner may exercise the option to perform such work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays as described in paragraph (v) above, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(2) AtGrade Plaza Work Under Section 98-25 (b)(3)

(i) Owner shall perform At-Grade Plaza Work within the area on the #zoning lot# shown in Diagram 3 of Appendix C. For any temporary certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of substantial completion of the At-Grade Plaza Work (i.e., the At-Grade Plaza shall be open and accessible to the public). For any permanent certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of final completion of the At-Grade Plaza Work. Substantial completion of the At-Grade Plaza Work shall also require execution by all parties-in-interest of the declarations, easements and maintenance and operating agreement described in paragraph (a) of Section (1) of this Appendix, if not previously provided in connection with issuance of a building permit.

(ii) At-Grade Plaza Work shall include, but not be limited to:

(a) remediation work; and

(b) all paving, plantings, surface treatments, lighting, trees, seating, fountains and other site amenities; and

(c) infrastructure work, including conduits, drainage, water line, electrical connections, and other utility work serving the At-Grade Plaza.

(iii) The At-Grade Plaza Work shall be performed by Owner pursuant to construction documents provided by the City by September 30, 2006, subject to delays outside the reasonable control of the City (including, without limitation, litigation, but such delays shall not exceed more than 180 days), and to such extension as the City and Owner may mutually agree. The At-Grade Plaza Work shall be completed within one year following the later of the (effective date of amendment) or the receipt of such documents, subject to reasonable extension for any delays beyond Owner's reasonable control and to such extension as the City and Owner may mutually agree, and, in addition, for any time during which Owner is unable to gain access in order to perform the At-Grade Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application), or for any time needed to perform any necessary remediation work on the #zoning lot#.

(iv) In no event shall Owner be required to complete the At-Grade Plaza Work until the #High Line# improvements within the portion of the #High Line# Improvement Area adjacent to the #zoning lot# (and, as applicable, over such Improvement Area, as shown on Diagram 3 of Appendix C, are substantially complete (i.e., open to the public but for the work needed to complete the At-Grade Plaza Work). Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (b)(3), until the Chairperson determines that the At-Grade Plaza Work is substantially complete.

(v) The cost to Owner of the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) shall not exceed $2,300,000 The amount of contribution to the #High Line# Improvement Fund under subdivision a of section 1 of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such amount at the time it is made. In addition to the costs of the At-Grade Plaza Work, subject to the Not-To-Exceed Limit set forth section (c) of this Appendix, Owner shall be required to reimburse the City for:

(a) the reasonable cost of developing the plans and construction documents for the At-Grade Plaza Work; and

(b) the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the At- Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(vi) In the event that construction documents for the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) are not delivered to Owner within the timeframe set forth in paragraph 3 of this subsection, Owner shall not be required to perform the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) consistent with such documents. Instead, Owner shall perform Alternate At-Grade Plaza Work which shall include all necessary remediation work, all necessary below-grade work (including related infrastructure work necessary to support the #High Line#), and at-grade improvements pursuant to the standards set forth in Section 37-04, paragraphs (g) through (n) of the Zoning Resolution, except that open-air cafes and kiosks shall not be permitted. Permitted obstructions, whether as described in the City's Specifications for the At-Grade Plaza Work or as specified in Section 37-04, paragraph (g), for the Alternate At-Grade Plaza Work, shall not count towards # lot coverage#.

(vii) The cost to the Owner of the Alternate At-Grade Plaza Work shall not exceed $1,400,000. In addition, Owner shall , subject to the Not-To Exceed Limit of Section (c) of this Appendix, be required to reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Alternate At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(vi) Upon substantial completion of the At-Grade Plaza and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4): Owner shall provide the City with the declarations, easements and maintenance and operating agreement described in subsection a of section 1 of this Appendix ,if not already provided in connection with the issuance of a building permit; such At-Grade Plaza shall be open and accessible to the public during at least the same hours during which the #High Line# is open and accessible to the public, subject to the terms of the maintenance and operating agreement; and Owner shall maintain the At-Grade Plaza pursuant to the terms of the maintenance and operating agreement.

(3) Stairway and Elevator Access Work Under Paragraph (b)(4) of Section 98-25

(i) Except as provided in subparagraph (iii) of this paragraph, Owner shall perform Stairway and Elevator Access Work within the At-Grade Plaza area as shown in Diagram 3 of Appendix C in conjunction with performance of the At-Grade Plaza Work. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (b)(4), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification pursuant to such Section shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator, shall be included in the construction drawings for the At-Grade

Plaza Work described above, and shall be performed by Owner within the time period for performance of the At-Grade Plaza Work described in subsection c of this section. The location for the stairway and elevator shall take into account the viability of any retail spaces fronting the At-Grade Plaza.

(iii) Owner shall not be responsible for performance of the Stairway and Elevator Access Work where it performs the Alternate At-Grade Plaza Work in accordance with paragraph (b) of this section. In that event, prior to commencing the Alternate At-Grade Plaza Work and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4):

(a) Owner shall deposit into the #High Line# Improvement Fund a contribution of $900,000.00 (the Access Contribution), to be used at the direction of the Chairperson of the City Planning Commission for construction of stairway and elevator facilities on the #zoning lot#; and

(b) Owner shall provide the City with the declarations, easements, and maintenance and operating agreement described in paragraph (1) of Section (a) of this Appendix, if not previously provided in connection with issuance of a building permit.

(4) City Performance of Work In the Event of Failure to Perform

(i) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under Section (a) of this Appendix, Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b) of this Appendix), the At-Grade Plaza Work or Alternate Plaza Work, as applicable, and the Stairway and Elevator Access Work (where required to do so under paragraph (3) of Section (b) of this Appendix), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 3 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(ii) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(a) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total), unless such date is extended by mutual agreement between the City and Owner, for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City; and

(b) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control and , in addition, any time in which Owner is unable to gain access in order to perform the At-Grade Plaza Work or Alternate Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application) or), or for any time during which remediation work is in progress on the #zoning lot#.

(iii) In the event Owner does not comply with the requirements paragraph (4)(ii) of this Section (b):

(a) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(b) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(c) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor any temporary or permanent certificate of occupancy may be issued pursuant to Section 98-25, paragraph (b), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

(c) Reimbursement Not-To- Exceed Limits

Reimbursement of the City by Owner of costs pursuant to this Appendix shall not exceed a total of $450,000.00.

APPENDIX E
Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E, G or I

This Appendix sets forth additional requirements governing #zoning lots# located partially within Subareas D, E and G or within Subarea I between West 16th and 17th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum Floor Area Ratio in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to paragraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to paragraph (c) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean " parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10.

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25

(1) As a condition of certification under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix E, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22; and

(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and from a stairway and elevator on the #zoning lot# that will provide access to the #High Line# and for maintenance and repair by the City of such stairway and elevator; and the potential performance by the City of work under the provisions set forth below. In the case of #zoning lots# between West 16th and 17th streets, Owner shall also provide the City with easements providing for City access to and from and for public use of the #High Line# Service Facilities on the #zoning lot# and for maintenance and repair by the City of such #High Line# Service Facilities. All easements described herein shall be in a form acceptable to the City and shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (c); and

(iii) submit plans for Stairway and Elevator Access Facilities and, where applicable, #High Line# Service Facilities that demonstrate compliance with the provisions of this Appendix and are consistent with New York City Department of Parks and Recreation standards and best practices governing materials life cycle and maintenance for review and approval by the Chairperson of the City Planning Commission.

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot # and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement , approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the #High Line# Improvement Fund contribution to reflect the cost of such improvements. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) The location of #floor area# which would exceed the basic maximum #floor area ratio# and be subject to the provisions of Section 98-25 shall be considered to be the topmost portion of the #development# or #enlargement# unless, at the time of certification pursuant to Section 98-25, paragraph (a), Owner designates, subject to the concurrence of the Chairperson of the City Planning Commission, an alternate location.

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (c) of Section 98-25

(1) Structural Remediation Work Under Paragraph (c)(2) of Section 98-25

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner may exercise such option following receipt of the City's specifications for the Structural Remediation Work or upon the City's failure to provide such specifications, as set forth in paragraphs (iv) and (v) below (unless such dates are extended by mutual agreement of the City and Owner, but in no event may exercise such option later than 90 days following receipt of a notice by the City of its intent to commence improvements to the #High Line# within the #High Line# improvement area applicable to the #zoning lot# within the next twenty-four months. In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 for each square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner, as applicable, for any excess from or against the #High Line# Improvement Fund , In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (c)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of temporary certificates of occupancy, and of final completion with respect to issuance of final certificates of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above, at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life, and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to the public versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead-based products in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including, but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below-grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to such delays as are outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(iv) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following the (effective date of amendment) or of the date of exercise of such option, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control.

(v) In the event that the City does not provide the specifications for the Structural Remediation Work within the timeframe set forth in paragraph (iii) of this subsection, Owner may exercise the option to perform such work and proceed with the Structural Remediation Work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(vi) If Owner exercises the option to perform the Structural Remediation Work, Owner shall reimburse the City for the

reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone), such reimbursement not to exceed $115,000.

(2) Stairway and Elevator Access Work Under Paragraph (c)(3) of Section 98-25

(i) Owner shall perform Stairway and Elevator Access Work subject to the provisions of subparagraph 2 of this paragraph. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(3), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator located directly adjacent to or below the #High Line#. Except as approved by the Chairperson of the City Planning Commission pursuant to paragraph (1)(iii) of Section (a) of this Appendix, #curb level# entrances to such access facilities must be located at the #street line#. Such access facilities shall be harmonious with the design of the #High Line# on the #zoning lot# and shall be visible and identifiable as #High Line# access facilities when viewed from Tenth Avenue. Such access facilities may be unenclosed or enclosed. When such access facilities are enclosed and located at the #street line#, any wall or façade separating the access facility from the #street# shall be substantially glazed and fully transparent from ground level to the full height of the access facility. Any wall or façade separating the access facility from the #High Line# shall be substantially glazed and fully transparent from the level of the #High Line bed# to the full height of the access facility. Stairways shall have a clear path of not less than 6 feet in width. Such access facilities shall be identified with signage placed at the #High Line# level and at street level that is consistent with guidelines specified in the signage plan as authorized by the City Planning Commission pursuant to the provisions of Section 98-16.

(iii) The Stairway and Elevator Access Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the provisions of paragraph (2)(ii) of this Section, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the Stairway and Elevator Access Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(3), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(3) #High Line# Service Facility Work Under Paragraph (c)(4) of Section 98-25

(i) For #zoning lots# located between West 16th and 17th streets, Owner shall perform #High Line# Service Facility Work subject to the provisions of this section. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(4), shall be of substantial completion of the work. For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) #High Line# Service Facilities shall consist of satellite maintenance and operations space for the #High Line# open space as well as public restrooms, in accordance with the following standards:

(a) Location

Such facilities shall have a component located at the level of the #High Line bed#, or within 5 feet of such level (hereinafter referred to as the "upper service facility"). Such facilities shall also have a component located no higher than #curb level# (hereinafter referred to as the "lower service facility"). The upper facility must be located directly above the lower facility to enable placement of a trash chute connecting the upper and lower facilities. Where the upper facility is not located exactly at the level of the #High Line bed#, a fully accessible ramp must connect such level with the level of the upper facility. Where the lower facility is not located exactly at #curb level#, a means acceptable to the City of connecting the lower service facility to a #street# frontage shall be provided.

(b) Program and dimensions

(1) Lower service facilities

Lower service facilities shall contain a room which is accessible from #street# level and is no less than 50 square feet in area. Such facility shall contain the outlet of a trash chute from the upper service facility and shall also have a minimum of one electrical outlet furnishing a wattage consistent with its intended use within a maintenance and operations facility.

(2) Upper service facilities

Upper service facilities shall be no less than 350 square feet in area and shall contain, at a minimum one public restroom not less than 250 square feet in area with separate restroom spaces for each gender, one storage room not less than 70 square feet in area, and one waste disposal room not less than 30 square feet in area and containing a trash chute to the lower service facility Each room within such upper service facilities shall have a minimum of one electrical outlet furnishing wattage consistent with its intended use within a maintenance and operations facility.

(iii) The #High Line# Facility Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the standards of paragraph (ii) of this subsection, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the #High Line# Facility Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(4), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(v) The cost to Owner of the #High Line# Facilities Work shall not exceed $1,150,000. The amount of contribution to the #High Line# Improvement Fund under paragraph (1) of Section (a) of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such at the time it is made. .

(c) City Performance in the Event of Failure to Perform

(1) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under paragraph (1) of Section (a) of this Appendix), Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b)) and the Stairway and Elevator Access Work (under paragraph (3) of Section (b)), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above, as applicable, has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(2) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(i) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total) for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City, unless such date is extended by mutual agreement between the City and Owner; and

(ii) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control

(3) In the event Owner does not comply with the requirements of paragraph (2) above:

(i) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(ii) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(iii) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor may any temporary or permanent certificates of occupancy may be issued pursuant to Section 98-25, paragraph (d), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

A rowhouse built in 1881 and redesigned in the a Beaux-Arts style by Welch, Smith and Provot in 1901-1902. Application is to construct a rooftop bulkhead.

m30-a12

MARKETING DEVELOPMENT CORPORATION

■ JOINT PUBLIC HEARING

NOTICE OF A JOINT PUBLIC HEARING between the Franchise and Concession Review Committee ("FCRC") and NYC Marketing Development Corporation on behalf of the Department of Small Business Services to be held on Monday, April 11, 2005 at Spector Hall, 22 Reade Street, Main Floor, Borough of Manhattan, commencing at 10:00 a.m. relative to:

NYC Marketing Development Corporation's application on behalf of the Department of Small Business Services to utilize different procedures (i.e., a sole source concession), pursuant to Section 1-13 of the Concession rules to implement a concession with The History Channel. NYC Marketing Development Corporation will seek the FCRC's approval at their April 13th meeting for both the use of different procedures and approval of the proposed concession.

This partnership is non-exclusive and NYC Marketing Development Corporation entering into such a partnership on behalf of the City does not preclude either NYC Marketing Development Corporation or the City from entering into a similar partnership in the future.

Term: The term of the agreement is for the period commencing August 26, 2004 and shall expire on February 13, 2008.

The agreement includes two (2) proposed concessions involving the use of intellectual property, both of which are related to the New York City's Official History Center (NYCOHC) (a city owned tourism information center):

1. The designation of certain historically themed tours of New York City that will be planned and/or mapped by The History Channel, as "New York City's Official History Tours".

2. The designation of "New York City's Official History Trolley" in connection with NYC Marketing Development Corporation's efforts to promote historical tourism to New York City and the new City-owned and operated NYCOHC. It is intended that New York City's Official History Trolley will be a parade type float for use in local events and parades.

The value of the two (2) concessions in this agreement involving the use of the City's intellectual property is estimated to be $2.25M in advertising time on the History Channel networks (comprised of time for 30-second commercials, not cash), plus the economic impact created by the marketing and promotion of the tours as well as the exposure of the parade type float. The City will be highlighted as a tourism attraction and this will presumably drive tourists to New York.

A copy of the agreement is available for viewing Monday through Friday beginning on March 17, 2005 and ending on April 11, 2005 at the offices of NYC Marketing Development Corporation, 1 Liberty Plaza, 33rd Floor, New York, NY 10006 between the hours of 9:00 a.m. and 5:00 p.m.

m17-a11

PARKS AND RECREATION

■ JOINT PUBLIC HEARING

NOTICE OF A JOINT PUBLIC HEARING between the Franchise and Concession Review Committee and the Department of Parks and Recreation to be held on Monday, April 11, 2005 at Spector Hall, 22 Reade Street, Main Floor, Borough of Manhattan, commencing at 10:00 a.m. relative to:

INTENT TO AWARD as a concession the operation and maintenance of a full-service marina at Mill Basin, Brooklyn, for a license term of twelve (12) years, to Donato DiMeglio, 2239 E. 73rd St., Brooklyn, NY 11234.

Amount - Year 1: $88,343 versus 35% of gross revenue
Year 2: $92,761 versus 35% of gross revenue
Year 3: $97,399 versus 35% of gross revenue
Year 4: $102,269 versus 35% of gross revenue
Year 5: $107,382 versus 35% of gross revenue
Year 6: $112,752 versus 35% of gross revenue
Year 7: $118,390 versus 35% of gross revenue
Year 8: $124,310 versus 35% of gross revenue
Year 9: $130,526 versus 35% of gross revenue
Year 10: $137,052 versus 35% of gross revenue
Year 11: $143,905 versus 35% of gross revenue
Year 12: $151,100 versus 35% of gross revenue

* In addition, the concessionaire will pay 15% of annual gross receipts that exceed $400,000.

LOCATION B166-D-M

Interested parties may review a copy of the proposed license agreement in Room 313 at the Arsenal, Central Park, 830 Fifth Avenue, NY, NY 10021 on Friday, March 18, 2005 through Monday, April 11, 2005, exclusive of Saturdays, Sundays and holidays.

TELECOMMUNICATION DEVICE FOR THE DEAF (TDD) 1 800-281-5722.

TRANSPORTATION

■ PUBLIC HEARINGS

Notice is hereby given, pursuant to law, that the following proposed revocable consents have been scheduled for a public hearing by the New York City Department of Transportation. The hearing will be held at 40 Worth Street, Room 814, Borough of Manhattan, commencing at 2:00 p.m. on Wednesday, April 20, 2005. Interested parties can obtain copies of proposed agreements or request sign-language interpreters (with at least seven days prior notice) at 40 Worth Street, 9 South, New York, NY 10013, or by calling (212) 442-8040.

#1 In the matter of a proposed revocable consent authorizing 1 Times Square Development LLC to construct, maintain and use bollards on the sidewalks in front of the premises bounded by West 41st, Broadway, West 42nd Street and Seventh Avenue, in the Borough of Manhattan. The proposed revocable consent is for a term of three years from the date of approval by the Mayor to June 30, 2008, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

From the Approval Date to June 30, 2008 - $12,500/per annum

the maintenance of a security deposit in the sum of $50,000, and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#2 In the matter of a proposed revocable consent authorizing 372 East 148th Street Realty Corp. to continue to maintain and use bollards on the south sidewalk of East 148th Street, between Courtland and Third Avenues, in the Borough of The Bronx. The proposed revocable consent is for a term of ten years from July 1, 2005 to June 30, 2015, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

From July 1, 2005 to June 30, 2015 - $1,125/per annum

the maintenance of a security deposit in the sum of $1,000, and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#3 In the matter of a proposed revocable consent authorizing Beth Israel Medical Center to continue to maintain and use conduits under the north side of East 17th Street, east of Nathan D. Perlman Place, in the Borough of Manhattan. The proposed revocable consent is for a term of twelve years from July 1, 2003 to June 30, 2015 and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2003 to June 30, 2005 - $8,119
For the period July 1, 2005 to June 30, 2006 - $4,213
For the period July 1, 2006 to June 30, 2007 - $4,318
For the period July 1, 2007 to June 30, 2008 - $4,423
For the period July 1, 2008 to June 30, 2009 - $4,528
For the period July 1, 2009 to June 30, 2010 - $4,633
For the period July 1, 2010 to June 30, 2011 - $4,738
For the period July 1, 2011 to June 30, 2012 - $4,843
For the period July 1, 2012 to June 30, 2013 - $4,948
For the period July 1, 2013 to June 30, 2014 - $5,053
For the period July 1, 2014 to June 30, 2015 - $5,158

the maintenance of a security deposit in the sum of $50,000, and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#4 In the matter of a proposed revocable consent authorizing the Cooper Union for the Advancement of Science and Art to continue to maintain and use a ramp on the north sidewalk of East 7th Street, east of Fourth Avenue, in the Borough of Manhattan. The proposed revocable consent is for a term of ten years from July 1, 2005 to June 30, 2015 and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2005 to June 30, 2014 - $25/per annum

the maintenance of a security deposit in the sum of $3,000, and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#5 In the matter of a proposed revocable consent authorizing The Dalton Schools to continue to maintain and use conduits and duct facilities of the Empire City Subway Company (Ltd.) in East 89th Street, east of Park Avenue; in Park Avenue, between East 89th and 91st Streets; and in East 91st Street, west of Park Avenue; in the Borough of Manhattan. The proposed revocable consent is for a term of ten years from July 1, 2005 to June 30, 2015, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2005 to June 30, 2006 - $17,080
For the period July 1, 2006 to June 30, 2007 - $17,506
For the period July 1, 2007 to June 30, 2008 - $17,932
For the period July 1, 2008 to June 30, 2009 - $18,358
For the period July 1, 2009 to June 30, 2010 - $18,784
For the period July 1, 2010 to June 30, 2011 - $19,210
For the period July 1, 2011 to June 30, 2012 - $19,636
For the period July 1, 2012 to June 30, 2013 - $20,062
For the period July 1, 2013 to June 30, 2014 - $20,488
For the period July 1, 2014 to June 30, 2015 - $20,914

the maintenance of a security deposit in the sum of $21,000, and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#6 In the matter of a proposed revocable consent authorizing IMTT-PIPELINE to construct, maintain and use an electrical enclosure at S.I.R.T. Right of Way, in the Borough of Staten Island. CUSTOMIZED INCLUSION PROGRAM – Negotiated Acquisition – PIN# 57505040 – NYCDOE will enter an agreement with Dr. Andrea Blau and Associates, PLLC is to provide a customized inclusion program for a multiply challenged student enrolled at Queens College from July 1, 2005 through June 30, 2006 for a total of $130,000. This program consists of customizing classes for the student and meeting with the student's instructors for a programmatic overview in order to develop and create appropriate assistive technology to meet the student's communication needs. Additionally, the agreement provides training for support staff working with the student during the day to facilitate a better understanding of her ongoing needs and her educational concerns. Strategies will be developed by Dr. Blau's team which will enable the student to meet her educational/vocational goals as required on her IEP.

GENCOMP APPLICATIONS WINDOWS UPGRADE – Sole Source – Available only from a single source - PIN# 02505XMIS058 – DUE 04-21-05 AT 5:00 P.M. – The New York City Law Department intends to enter into sole source negotiations with StrataCare, Inc. ("StrataCare") for provision of GenCOMP Applications Windows Upgrade for the Workers Compensation Claims Processing System. GenSource Corp. was the original sole owner of GenCOMP Software and developer of the Claims Processing System. StrataCare purchase the assests of GenSource as of April 13, 2004. Currently, the System runs on an IBM R/S 6000 minicomputer platform using legacy character products. GenCOMP for Windows is a full-featured software application for managing and administering workers compensation insurance programs. The GenCOMP for Windows upgrade agreement shall provide all system software, installation, on-site training, travel expenses, and maintenance. GenCOMP for Windows is solely owned, deployed, and supported by StrataCare. StrataCare is therefore the sole source provider for the GenCOMP Applications Windows Upgrade. Any firm which believes it can provide the above-referenced goods and services is invited to do so indicated by letter, which must be received no later than the vendor response date indicated in this notice.

BUSINESS CONTINUITY AND DISASTER RECOVERY PLAN – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 01505INFO01 – DUE 05-06-05 AT 2:00 P.M. – The Comptroller`s Office intends to enter into a negotiated acquisition to develop, test and maintain an agency wide business continuity and disaster recovery plan encompassing multiple business units and various technical environments. This solicitation is being conducted as a negotiated acquisition, based on time sensitivity and a limited number of suppliers with requisite experience. The projected start date is July 1, 2005 and the proposed term of the contract is 5 years. Expressions of Interest from qualified vendors to compete in future procurements should be sent in writing to Dorian Fulvio at 1 Centre St. Room 2230 and or emailed to bisolicitations@comptroller.nyc.gov. The negotiated acquisition Scope of Work will be available for pick up at 1 Centre St. Room 2230 on April 18, 2005 during the hours of 10:00 a.m. and 4:00 p.m., or as a .pdf file via electronic mail if so requested.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

CUSTOMIZED INCLUSION PROGRAM – Negotiated Acquisition – PIN# 57505040 – NYCDOE will enter an agreement with Dr. Andrea Blau and Associates, PLLC is to provide a customized inclusion program for a multiply challenged student enrolled at Queens College from July 1, 2005 through June 30, 2006 for a total of $130,000. This program consists of customizing classes for the student and meeting with the student's instructors for a programmatic overview in order to develop and create appropriate assistive technology to meet the student's communication needs. Additionally, the agreement provides training for support staff working with the student during the day to facilitate a better understanding of her ongoing needs and her educational concerns. Strategies will be developed by Dr. Blau's team which will enable the student to meet her educational/vocational goals as required on her IEP.

SUPPORTIVE HOUSING FOR ADULTS WITH SERIOUS AND PERSISTENT MENTAL ILLNESS (SPMI) – Request for Proposals – PIN# 816RFP060001 – DUE 08-15-06 AT 3:00 P.M. – The New York City Department of Health and Mental Hygiene (DOHMH) is issuing an RFP to establish citywide Supportive Housing of 700 units in newly constructed or rehabilitated single site buildings with studio apartments for homeless adults diagnosed with serious and persistent mental illness (SPMI). The subject RFP will be open ended and proposals will be accepted on an on-going basis. As a minimum qualification requirement, proposers must be incorporated as not-for-profit organization.

Beginning on February 28, 2005 RFPs may be picked up in person at Room 806A, 93 Worth Street, New York City between the hours of 10:00 AM and 4:00 PM on business days. The RFP is also available on line at: http://www.nyc.gov/html/doh/html/acco/acco-rfp-mh-20050211-housing-form.html . A Pre-Proposal Conference will be held at 10:00 AM on March 10, 2005 at 2 Lafayette St., 18th Floor Conference Room, New York City. An additional Pre-Proposal Conference will be held at 10:00 AM on July 12, 2005 at 2 Lafayette St., 18th Floor Conference Room, New York City. Proposals will be accepted on an on-going basis and must be hand delivered to the Department's Office of the Agency Chief Contracting Officer, Room 812, 93 Worth Street, New York City on any business day exclusive of holidays between the hours of 10:00 A.M. and 3:00 P.M.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is

not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

MOVING SERVICES – Competitive Sealed Bids – PIN# 069-05-310-0013 – DUE 04-20-05 AT 3:00 P.M. – The scope of this contract shall consist of furnishing all truck, labor and equipment necessary to meet HRA's various program needs for moving services on-call as needed. HRA leases or owns approximately 70 properties throughout the five (5) boroughs of New York City. This space is typically commercial office space. The Office of Facility Management Services (OFMS) processes an average of 600 move requests of various crew sizes per year. Service requests may include labor only for interior office relocations or truck moves transferring furniture, desks, files, etc. to a different location. Other relocation requests include fixed assignments of labor and vehicles to support regular scheduled pickup and delivery type work. Vendor will be requested to provide various move packing supplies and palletize and shrink wrap case records when requested for warehouse delivery. Vendor Source ID#: 23909.
A mandatory pre-bid conference will be held on Monday, April 4, 2005 at 10:00 A.M. at 2 Washington Street, New York, NY in the Conference Room on the 22nd Floor.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.
Human Resources Administration, 2 Washington Street 22nd Floor, New York, NY 10004-3409. Geraldine King (212) 480-6825 King@hra.nyc.gov

Human / Client Service

NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 08-28-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew.

Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. If a vendor is interested in being considered for award of a contract described above, please hand deliver a written expression of interest addressed to Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 pursuant to the terms of the solicitation document.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.
Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013. Harry T. Bavaro-324 (212) 925-7779 hbavaro@djj.nyc.gov

GENCOMP APPLICATIONS WINDOWS UPGRADE – Sole Source – Available only from a single source - PIN# 02505XMIS058 – DUE 04-21-05 AT 5:00 P.M. – The New York City Law Department intends to enter into sole source negotiations with StrataCare, Inc. ("StrataCare") for provision of GenCOMP Applications Windows Upgrade for the Workers Compensation Claims Processing System. GenSource Corp. was the original sole owner of GenCOMP Software and developer of the Claims Processing System. StrataCare purchase the assests of GenSource as of April 13, 2004. Currently, the System runs on an IBM R/S 6000 minicomputer platform using legacy character products. GenCOMP for Windows is a full-featured software application for managing and administering workers compensation insurance programs. The GenCOMP for Windows upgrade agreement shall provide all system software, installation, on-site training, travel expenses, and maintenance. GenCOMP for Windows is solely owned, deployed, and supported by StrataCare. StrataCare is therefore the sole source provider for the GenCOMP Applications Windows Upgrade. Any firm which believes it can provide the above-referenced goods and services is invited to do so indicated by letter, which must be received no later than the vendor response date indicated in this notice.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

AGENCY RULES

BUILDINGS

NOTICE

NOTICE OF OPPORTUNITY TO COMMENT on a proposed amendment to the New York City Building Code Reference Standard RS 13-6, Safety Standard for Refrigeration Systems.

Pursuant to the authority vested in the Commissioner of Buildings by Chapter 26 of the New York City Charter and Section 27-131.1 of the Administrative Code of the City of New York and in accordance with the requirements of 1 RCNY §37-01(f), the Department of Buildings hereby gives notice that it proposes to amend NYC Building Code Reference Standard RS 13-6 relating to safety standard for refrigeration systems.

NOTICE IS HEREBY GIVEN that a Public Hearing on the proposed reference standard amendment will be held on Thursday, April 21, 2005 at **280 Broadway, 7th Floor Conference Room, Borough of Manhattan, (Identification must be provided to gain entry to the building)** commencing at 10:00 a.m.

The final date for the receipt of written comments on this proposed amendment to the Reference Standard is April 26, 2005. Mail all written comments to: New York City Department of Buildings, Attention: Bashirahmed Shaikh, Division of Technical Affairs, 280 Broadway, 7th Floor NY, NY 10007.

Date: March 30, 2005
New York, New York

Fatma Amer, PE
Acting Deputy Commissioner

Material in [brackets] is to be deleted

REFERENCE STANDARD RS 13
MECHANICAL VENTILATION, AIR CONDITIONING AND REFRIGERATION SYSTEMS

LIST OF REFERENCED NATIONAL STANDARDS - (PARTIAL REVISION)

Remove:
[ANSI B60.1 / ASHRAE 15 Safety Code for Mechanical Refrigeration.....1978]

Substitute as follows:
ANSI/ASHRAE 15 Safety Standard for Refrigeration Systems..... 2001

REFERENCE STANDARD RS 13-6

ANSI/ASHRAE 15-2001 – Safety Standard for Refrigeration Systems

Modifications – The provisions of ANSI/ASHRAE 15-2001 shall be subject to the following modifications. The section and subsection numbers are from the standard.

Section 2. SCOPE

Subsection 2.2(b) is modified to read as follows:

2.2(b) to modifications including replacement of parts or components if they are not identical in function and similar capacity, and

Subsection 2.2(c) is modified to read as follows:

2.2(c) to substitutions of refrigerant having a different designation,[.] except that substitutions made to a system lawfully installed prior to and maintained and operated since..... (the effective date of this law), shall not trigger the requirement that the system's "Air supply and exhaust ducts to the machinery room shall serve no other area". (§ 8.11.4) for the following replacement refrigerants:

(i) Refrigerants having a safety classification of Group A1.

(ii) R123, provided that the architect or engineer demonstrates to the satisfaction of the Commissioner that:

a. Providing such air supply and exhaust ducts represents a hardship (such as but not limited to existing machinery rooms located in a cellar (sub-basement) with their supply and exhaust ducts serving other areas, etc); and

b. The proposed alternative provides an equivalent level of safety.

Section 3. DEFINITIONS

Add the following definitions:

"***Accepted***: Acceptable to the Commissioner of the Department of Buildings of the City of New York."

"***Authority Having Jurisdiction***: The Commissioner of the Department of Buildings of the City of New York."

Delete the definition of "***lobby***" and replace with the following:

"***Lobby***: Refer to §27-370 of the New York City Building Code for the meaning of lobby."

Delete the definition of "***premises***" and replace with the following:

"***Premises***: As defined in Article 2, Subchapter 2 of the New York City Building Code."

Delete the definition of "***tenant***".

Delete the definition of "***listed***" and replace with the following:

"***Listed***: Equipment or material included in a list published by an organization acceptable to the Commissioner of the Department of Buildings of the City of New York. Listed equipment and materials shall comply with all provisions of the reference standard."

The title of Section 4. is modified to read as follows:

Section 4. BUILDING OCCUPANCY CLASSIFICATION

The occupancy group classifications of building occupancies shall be those defined in the NYC Building Code as follows:

Delete the entire subsections 4.1.1 through 4.1.6 and substitute as follows:

4.1.1 *Institutional occupancy* – Shall include Occupancy Groups H-1 and H-2.

4.1.2 *Public assembly occupancy* – Shall include Occupancy Groups F-1, F-2, F-3, F-4, and G.

4.1.3 *Residential occupancy* – Shall include Occupancy Groups J-1, J-2 and J-3.

4.1.4 *Commercial occupancy* – Shall include Occupancy Groups C and E, except retail stores having an occupant load of more than 100 persons on any floor other than the street floor.

4.1.5 *Large mercantile occupancy* – retail stores having an occupant load of more than 100 persons on any floor other than the street floor.

4.1.6 *Industrial occupancy* – Shall include Occupancy Groups A, B-1, B-2, D-1 and D-2.

Section 5. REFRIGERATING SYSTEM CLASSIFICATION

5.3 Delete the entire subsection and substitute:

5.3 "Changing Refrigerant. A change in the type of refrigerant in a system shall not be made without the notification of the authority having jurisdiction, the user and due observation of safety requirements. The refrigerant being considered shall be evaluated for suitability by the architect or engineer. Such evaluation may include, but not be limited to an evaluation of:"

(a) The effects of the substituted refrigerant on materials in the system;

(b) The possibility of overloading the liquid receiver which shall not be more than 80 percent full of liquid;

(c) The liability of exceeding motor horsepower, design working pressure, or any other element that would violate any of the provision of this reference standard;

(d) The proper size of refrigerant controls;

(e) The effect of the operation and setting of safety devices;

(f) The possible hazards created by mixture of the original and the substituted refrigerant;

(g) The effect of the classification of the refrigerant as provided."

Section 7. RESTRICTIONS ON REFRIGERANT USE

7.2 ***Exception:*** (a) and (b) Delete the entire exception and substitute: "Use of a Group A3 or Group B3 refrigerant is prohibited. However, in an Industrial Occupancy, a Group A3 or Group B3 refrigerant may be used in high or low probability systems only when approved by the Commissioner and the Fire Commissioner. Such use will be approved only if the applicant can demonstrate to the satisfaction of the Commissioner and the Fire Commissioner that the use of the refrigerant does not represent a substantial risk to life, limb, health or property."

7.2.2 Condition 3, ***Exception:*** Delete the words "approved building exits" and replace with "building exits meeting the requirements of the New York City Building Code".

Subsection 7.5.2 is modified to read as follows:

7.5.2 Applications for Human Comfort. Group A2, A3, B1, B2, and B3 refrigerants shall not be used in high-probability systems for human comfort.

Exceptions:
(1) [Subsection] 7.5.2 does not apply to sealed absorption and unit systems having refrigerant quantities less than or equal to those indicated in Table 2.
(2) [Subsection] 7.5.2 does not apply to industrial occupancies.

Section 8. INSTALLATION RESTRICTIONS

8.2 Delete the words "approved safety standards[3]" and replace with "UL 1995[3] "

8.6 Delete the words "approved safety standards and the requirements of the authority having jurisdiction" and replace with "this code".

8.7 Delete the words "approved safety standards, the requirements of the authority having jurisdiction" and replace with "this code".

8.8 Delete "700^{0}F (353.3^{0}C)" and replace with "1,000^{0}F (537.8^{0}C)".

8.10.1 Delete the words "7.25 ft (2.2m)" and replace with "7.50 ft (2.3 m)".

8.10.3(c) Delete

8.11.2 After the last sentence add: "All doors of the machinery room shall be provided with the appropriate diamond hazard identification sign in accordance with National Fire Protection Standard No. 704 - 2001.

8.11.2.1 At the end of the first sentence of the first paragraph inserts the words "or 20% of the LFL, whichever is smaller".

Add the new subsection as follows:

"**8.11.2.2 Remote Controls.** A clearly identified switch of the break-glass type shall provide off-only control of the compressors in the machinery room. A second clearly identified switch of the break-glass type shall provide on-only control of the machinery room ventilation fans. Such switches shall be located outside each entrance to the machinery room and as close to the entrance as practicable, except that when an outside location is impracticable, such switches may be located immediately inside the machinery room provided such location is accessible at all times.

8.11.4 To the end of the paragraph add the following: "Also, the discharge of the fans shall not be within ten feet (3 m) of any air intake, building opening, fire escape or exterior stair."

"Exhaust registers or outlets capable of exhausting the amount required by subsection 8.11.5 shall be located near the floor unless a lighter than air refrigerant is used. When a lighter than air refrigerant is used, the exhaust registers or outlets shall be located near the ceiling. Emergency remote controls for the mechanical means of ventilation shall be provided and located outside the machinery room."

8.12(b) Delete the word "approved" and replace with "accepted". Add the following to the end of the sentence "and shall be provided with the appropriate diamond hazard identification sign in accordance with National Fire Protection Association Standard Number 704 of 2001."

8.12(i) Add the following second paragraph to the existing text:

"A clearly identified switch of the break-glass type shall provide off-only control of the compressors in the machinery room. A second clearly identified switch of the break-glass type shall provide on-only control of the machinery room ventilation fans. Such switches shall be located outside each entrance to the machinery room and as close to the entrance as practicable, except that when an outside location is impracticable, such switches may be located immediately inside the machinery room provided such location is accessible at all times."

Add the following new subsection:

"**8.15** All insulation including finishes, coverings, vapor barriers, and adhesives used with refrigeration systems shall meet the requirements of section 27-811 of the New York City Building Code."

Section 9. DESIGN AND CONSTRUCTION OF EQUIPMENT AND SYSTEMS

9.3.1.1 (a) Delete the words "an approved," and replace with "a".

9.4.1 Delete the word "approved" and replace with "recognized".

Subsection 9.7.2.3 is modified to read as follows:

9.7.2.3 Pressure vessels of 10 ft^3 (0.285 m^3) or more internal gross volume shall use [a single] one or more rupture member(s) or dual pressure-relief valves when discharging to the atmosphere. Dual pressure-relief valves shall be installed with a three-way valve to allow testing or repair. When dual relief valves are used, each valve must meet the requirements of subsection 9.7.5.

Exception: A single relief valve is permitted on pressure vessels of 10 ft^3 (0.285 m^3) or more internal gross volume when all of the following conditions are met:
(a) the relief valves are located on the low side of the system, and
(b) the vessel is provided with shutoff valves designed to allow pumpdown of the refrigerant charge of the pressure vessel, and
(c) other pressure vessels in the system are separately protected in accordance with subsection 9.7.2.

Subsection 9.7.2.4 is to be deleted in its entirety.

9.7.8 Delete the entire subsection and substitute:

"Discharge of pressure relief devices and fusible plugs on all systems containing a Group A3 or B3 refrigerant or more than one pound of a Group A2, B1 or B2 refrigerant shall be to the outside of the building. On systems containing more than 100 lb (45 kg) of Group A1 refrigerant, discharge of pressure relief devices and fusible plugs shall be to outside of the building[,]. The discharge pipe shall be at least 15 ft (4.6 m) above the adjoining grade level and not less than 20 ft (6 m) from any window, ventilation opening, or exit in any building. The discharge shall be terminated in such a manner as to prevent direct spray of discharged refrigerant on personnel in the vicinity and foreign material or debris from entering the discharge piping. Discharge of systems employing Group A2 or B2 refrigerant shall be acceptable to the Commissioner. Discharge of Group A3 or B3 refrigerant shall be acceptable to the Commissioner and the Fire Commissioner. The relief valve and fusible plug discharge piping shall not have any isolation valves or other restrictions in the line to obstruct the relief flow.

Subsections 9.7.8.1 through 9.7.8.5 are applicable.

9.9.1 Delete the words "an approved," and replace with "a".

9.10.1 Delete the words "an approved," and replace with "a".

9.11.1 Delete the words "an approved," and replace with "a".

9.11.2 After the words "shall have" insert the words "manual and"

9.12.5 Delete the words "more than 110 lb (50 kg)" and insert the words "100 lb (45 kg) or more".

9.15 After the last sentence add: "Also include the horsepower of the prime mover or compressor, and the equivalent of such horsepower in kilowatts."

Section 11. GENERAL REQUIREMENTS

11.2.1 Add "(e) the horsepower of the prime mover or compressor and the equivalent thereof in kilowatts."

11.3 Delete the words "approved containers only" from the second sentence and replace with "containers meeting the requirements of the Fire Department as specified in Title 27, Chapter 4, Subchapter 17 of the NYC Fire Code".

11.4 Add to the end of the last sentence: "and in no case more than 75 per cent of the container capacity".

Section 11.5 is modified to read as follows:

11.5 **Storing Refrigerant.** The total amount of refrigerant stored in a machinery room shall not be more than twenty percent of the normal charge in the system or more than 330 lb (150 kg) in addition to the charge in the system and the refrigerant in a permanently attached receiver. Refrigerant shall be stored in containers meeting the requirements of the Fire Department. Additional quantities of refrigerant shall be stored in a storage facility meeting the requirements of the New York City Building Code".

Exception: Recovery service containers used for storing refrigerant during periods of system maintenance or replacement may exceed 330 lb (150 kg) provided such containers, (1) are securely fixed in position, and (2) have pressure relief valves piped to the outside in conformance with this standard.

11.7 Add: "(d) Where such systems are installed in machinery rooms, the instructions shall state that, in case of emergency or refrigerant leakage, the machinery room shall be vacated promptly, the system shut down by means of the required remote controls located outside the machinery room, and the room ventilated."

Section 13. LISTED EQUIPMENT

Delete the words "an approved," and replace with "a".

APPENDIX E
NORMATIVE REFERENCES

Delete normative reference Number 4. in its entirety and replace with the following:

4. New York City Electrical Code.

STATEMENT OF BASIS AND PURPOSE:

This Reference Standard is being revised to bring it up-to-date with the current mechanical refrigeration industry standard (ANSI / ASHRAE 15-2001) and current industry practices. The previous version of this Reference Standard was based on ANSI / ASHRAE 15, 1978 Edition. Requirements for clearly identified break-glass type remote switches have been added for shutting down the compressors

and starting machinery room ventilation fans (in case of an emergency). Other minor changes and clarifications have been made.

FINANCE

■ NOTICE

NOTICE OF RULEMAKING

Pursuant to the power vested in me as Commissioner of Finance by sections 389(b) and 1043 of the New York New York City Charter and section 11-1211(1) of the Administrative Code of the City of New York, I hereby promulgate the within amendment to the Rules Relating to the Tax. These rules were published in proposed form on January 19, 2005. A hearing for public comment was held on February 22, 2005.

Martha E. Stark
Commissioner of Finance

Rules Relating to the New York City Horse Race Admissions Tax

Section 1. Title 19 of the Rules of the City of New York is amended by adding a new chapter 47 to read as follows:

Chapter 47

Horse Race Admissions Tax

§ 47-01. Obligation to collect and pay tax. Chapter 12 of Title 11 of the of Administrative Code of the City of New York imposes a tax on all admissions to running horse race meetings conducted at race meeting grounds or enclosures located wholly or partly within the city of New York at the rate of three percent of the admission price. The racing association or corporation conducting a running horse race meeting must collect the tax and pay it to the Department of Finance, by depositing it to the account of the City in such bank or banks as may be designated by the City.

§ 47-02. Returns and payment of tax.

(a) Every racing corporation or association that collects the tax described in section 47-01 of these Rules shall file with the Department of Finance such forms as shall be prescribed by the Department of Finance showing the taxes and the number of persons admitted to meetings conducted by the racing corporation or association during the periods covered by the return, together with any and all other information that the Department of Finance shall require to be included and reported in such return.

(b) The horse race admission tax collected as described in section 47-01 of these Rules must be paid not later than 10 days following the close of the race meeting at which the tax was collected.

(c) The horse race admission tax forms, described in paragraph (a) of this section, must be filed with the Department of Finance not later than 10 days following the close of the race meeting at which the horse race admission tax was collected.

(d) For purposes of this section 47-02, the term "race meeting" means a period of time, typically a number of months, during which the racing corporation or association conducts horse races at a given location on most, typically five, days of each week.

To illustrate: During 2004, Aqueduct Racetrack holds three race meetings and Belmont Park holds two. At Aqueduct, the meetings are the Winter meeting, beginning January 1 and ending March 7; the Spring meeting, beginning March 10 and ending May 2; and the Fall meeting, beginning October 27 and ending December 31. The horse race admission tax collected during the meeting must be paid, and the required forms filed, no later than March 17 for the Winter meeting; May 12 for the Spring meeting; and January 10, 2005, for the Fall meeting. At Belmont, the meetings are the Spring/Summer meeting, beginning May 5 and ending July 25; and the Fall Championship meeting, beginning September 10 and ending October 24. The horse race admission tax collected during the meeting must be paid, and the required forms filed, no later than August 4 for the Spring/Summer meeting, and November 3 for the Fall meeting.

Basis and Purpose of Rules

The purpose of these rules is to provide taxpayers with guidance concerning when they must pay the Horse Race Admission Tax the ("HRAT") and when they must file the associated return. Sections 11-1203(a) and 1204(a) of the New York City Administrative Code provide that taxpayers must pay the HRAT and file the HRAT returns "daily after each day of each race meeting" or "at such regular intervals as the commissioner of finance may require." Paying and filing on a daily basis would impose unnecessary administrative burdens on the City and on taxpayers. The operators of horse races conduct the races organized as meetings that typically last a number of months, during which time horse races occur most days at the race meeting grounds. The Department believes that using the close of the race meeting as a "regular interval" for payment of tax and filing of returns will be fair and less burdensome. The taxpayers are provided ten days after the close of the race meeting to review and assemble the necessary records and to pay the tax and file the returns.

Notice of Opportunity to Comment

Notice is hereby given in accordance with Section 1043(b) of the New York City Charter, that the Taxi and Limousine Commission ("TLC") proposes to amend the Rules Governing Taxicab Specifications to clarify certain rules relating to customer service improvement initiatives.

These rules are proposed pursuant to the authority vested in the TLC under Charter Sections 2303(a) and 2303(b)(6); and under Section 19-503(a) of the Administrative Code of the City of New York.

A public hearing in connection with these proposed rules will be held by the NYC Taxi and Limousine Commission at 40 Rector Street, Fifth Floor, New York, NY 10006 on May 4, 2005, at 9:30 a.m. Persons seeking to testify are requested to notify the TLC, either in writing at the address indicated on this notice, or by calling the TLC at 212-676-1107. Persons who request that a sign language interpreter or other form of reasonable accommodation for a disability be provided at the hearing are asked to notify the Commission by no later than April 27, 2005.

Written comments in connection with these proposed rules may be sent through May 4th, 2005 to:

Charles Tortorici
Deputy General Counsel
New York City Taxi and Limousine Commission
40 Rector Street, 5th Floor
New York, NY 10006

Written comments and a summary of all comments received at the hearing will be available for public inspection at that office.

Section 1. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 3, Taxicab Specifications, Section 3-03, Taxicab Specifications on or after March 1, 1996, subdivision (e)(7) and (8), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material.

(7) Credit Card Acceptance Capability. Each taxicab [placed into service on or after November 1, 2005 and each taxicab placed into service prior to November 1, 2005 and which is scheduled to appear at the Taxi and Limousine Commission Centralized Inspection Facility on or after November 1, 2005] must be capable of accepting major credit cards and debit cards as payment for fares. *This specification shall be implemented as agreed upon between the Taxi and Limousine Commission and the authorized contractor(s) on a date certain to be set by the Commission.*

(8) Text Message Equipment. Each taxicab [placed into service on or after November 1, 2005 and each taxicab placed into service prior to November 1, 2005 and which is scheduled to appear at the Taxi and Limousine Commission Centralized Inspection Facility on or after November 1, 2005,] must be equipped with equipment approved by the Chairperson capable of enabling the driver to receive *and send* text messages in a format approved by the Chairperson. No Text Message Equipment shall be installed unless it has been approved by the Chairperson, based upon a determination that the equipment conforms with the specifications as set forth herein, meets appropriate safety standards, and fulfills the intended purposes for such equipment.

No Text Message Equipment shall be used in contravention of TLC Rules. No Text Message Equipment shall be used for dispatch purposes. This specification shall be implemented as agreed upon between the Taxi and Limousine Commission and the authorized contractor(s) on a date certain to be set by the Commission.

Section 2. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 3, Taxicab Specifications, Section 3-06, Specifications for the Collection and Transmission of Required Trip Data, subdivisions (a) and (b), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material.

§ 3-06. Specifications for the Collection and Transmission of Required Trip Data.

(a) All [new] vehicles [placed in service on or after November 1, 2005 and all vehicles, which are scheduled to appear at the Taxi and Limousine Commission Centralized Inspection Facility on or after November 1, 2005,] shall comply with the data collection and transmission requirements of this Section. *This specification shall be implemented as agreed upon between the Taxi and Limousine Commission and the authorized contractor(s) on a date certain to be set by the Commission.*

(b) Each taxicab shall be capable of transmitting data to the Commission or its designated repository at pre-determined intervals [recommended by the Chairperson and established by the Commission] *established by the Chairperson*. All transmissions shall be in a format and manner approved by the [Commission] *Chairperson*. The data to be transmitted shall include the taxicab license number; the taxicab driver's license number; the location of trip initiation; the time of trip initiation; the number of passengers; the location of trip termination; the time of trip termination; the metered fare for the trip; and the distance of the trip. All data transmitted to TLC will be sent in a secure format as [recommended] *approved* by the Chairperson. [and approved by the Commission.]

Section 3. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 3, Taxicab Specifications, Section 3-07, Passenger Information Monitor, subdivisions (a) through (c), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material.

§ 3-07. Passenger Information Monitor

(a) All [new] vehicles [placed in service on or after November 1, 2005, and all vehicles, which are scheduled to appear at the Taxi and Limousine Commission Centralized Inspection Facility on or after November 1, 2005,] shall be equipped with a Passenger Information Monitor, which meets the requirements of this section. *This specification shall be implemented as agreed upon between the Taxi and Limousine Commission and the authorized contractor(s) on a date certain to be set by the Commission.*

(b) The Passenger Information Monitor shall have the following minimum specifications or capabilities:

(i) Provide the passenger sitting in the rear of the vehicle with an unobstructed view of the monitor;

(ii) Be of a size and construction, and placed in a location *as approved by the Chairperson;*

(iii) [Provide information that shall include,] *Display* a map *agreed upon between the TLC and the authorized vendor(s)* that indicates the current location of the vehicle as well as the route the vehicle has traveled from the point of trip initiation *to the point of trip termination* [and any other information that is required by the Commission];

(iv) Display only TLC Public Service Announcements (PSAs) including but not limited to the Passenger Bill of Rights, the Flat Fare Notice and any other TLC PSAs as designated by the Chairperson and limited commercial advertising and commercial sponsorships as enumerated in the contract(s) between the TLC and approved vendor(s);

(v) Display itemized metered fare information;

(vi) The capability for the passenger to turn off the monitor to a blank screen without illumination, [except for] *after* any *TLC Public Service Announcements or any* such *other* required information as designated by the *Chairperson*, which may remain visible or illuminated for all or a portion of the passenger trip. *The monitor must also have the capability to re-illuminate upon disengagement of the meter to further display any additional TLC PSAs upon the passenger(s) leaving the taxicab. The monitor must also contain the capability for the passenger to control and/or mute the volume of content after any TLC Public Service Announcements or any such other required information as designated by the Chairperson.*

(c) No Passenger Information Monitor or related equipment shall be installed unless it has been *agreed upon between the TLC and the authorized contractor on a date certain to be set by the Commission* based upon a determination *by the Chairperson* that the unit and equipment conforms with the specifications as set forth herein, meets appropriate safety standards, and fulfills the intended purposes for such equipment.

Section 4. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 2, Taxicab Driver's Rules, Section 2-01, Definitions be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material.

Trip record: A "trip record" [is a document] also known as a trip sheet[,] *or trip log,* [carried by a taxicab driver, setting forth the origin and destination of each trip] *is the written, computerized, automated and/or electronic accounting of a taxicab ride. The trip data to be transmitted or recorded shall include the taxicab license number (medallion number); the taxicab driver's license number; the location of trip initiation;*

the time of trip initiation; the number of passengers; the location of trip termination; the time of trip termination; the itemized metered fare for the trip (tolls, surcharge, and tip if paid by credit or debit card); the distance of the trip, the trip number, the method of payment, the total number of passengers, as well as *such* other information *as may be* required by the Commission. *The electronic capture of required trip record data shall commence as agreed upon between the TLC and the authorized contractor on a date certain to be set by the Commission. Trip record information shall be available to the TLC, the taxicab driver, medallion owner, taxicab owner and/or leasing agent upon reasonable demand based upon parameters set between the TLC and approved vendor(s). The trip record shall be kept in an approved archived form for a minimum of three years after the date of the taxicab ride.*

Section 5. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 2, Taxicab Driver's Rules, Section 2-27, Items Which Must be Present in a Taxicab, subdivision (a), paragraph (1) be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material.

(a) A driver shall not operate a taxicab unless the following are present in the taxicab:

(1) Operable data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications, [if] as required pursuant to these rules. If the taxicab is not required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications which has been approved by and meets all of the requirements of the Commission, then the driver must maintain a trip record also known as a "trip sheet", containing [the medallion number, the date and time of dispatch, the driver's name and taxicab driver's license number, the taximeter's reading at the start of the workshift] *such information as required by Section 3-06(b) and Section 2-01 of TLC Rules.*

Section 6. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 2, Taxicab Driver's Rules, Section 2-28, Trip Records, be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material.

(a) *Until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications,* [A] a driver shall keep a *written* trip record in the taxicab as specified in section 2-27(a), and shall enter the following information legibly in ink, as follows:

(1) at the start of each trip, the starting time, specific location and the number of passengers;

(2) on completion of the trip, the destination, the time, the amount of fare, and any tolls paid;

(3) the taximeter's readings at finish of his workshift;

(4) any toll bridges or tunnels used by the driver, whether or not with a passenger; and

(5) all other entries required by these rules.

(b) *Until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications, , a* [A] driver shall, at the beginning of each workshift, sign and certify on the *written* trip record that the taxicab and its equipment are in good working condition and that the items required in the taxicab are present, before operating the taxicab.

(c) [When a taxicab taken out of service for repair has been repaired and if the repairs were made by the driver, he shall immediately make a trip record entry showing the work that was done, and the time it was finished; if the work was done by an independent repair shop, a responsible person at the shop, or the driver, shall immediately make a trip record entry showing the work that was done, the shop name, and the time the work was finished. The driver shall carry the work order or any receipt with him while on his workshift and deliver it to the owner at the end thereof.

(d)]
A driver *shall transmit to an electronic database all necessary corrections that need to be made to the electronic trip record. Until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications, a driver* shall not make erasures or obliterations on *any written* trip record *and* [The driver] shall correct any wrong entry only by drawing a single line through the incorrect entry. *Until such time when a taxicab is required to be equipped with data described in Section 3-06 of the Taxicab Specifications, a* [A] driver shall not leave blank lines between entries *on any written trip record.*

[(e)] *(d) Until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications, a* [A] driver shall not rewrite a *written* trip record either in whole or in part, unless authorized by the Commission.
[(f)] *(e) Until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications, a* driver shall submit his trip sheet to the owner at the conclusion of his shift or lease period. *In the event that a taxicab's data collection and transmission equipment is inoperable, the driver must maintain written trip records until such time as when the data collection and transmission equipment is in good working order.*

Section 7. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 2, Taxicab Driver's Rules, Section 2-32, If Taximeter Becomes Defective During Shift, subdivision (b), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material.

(b) Upon terminating a trip because of a defective taximeter, the driver shall illuminate the "Off Duty" light, lock the rear doors, *transmit to an electronic database for entry on the electronic trip record that the taximeter is defective or until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications* enter on the *written* trip record that the taximeter is defective, and return the taxicab immediately to the garage of record or a licensed taximeter repair shop.

Section 8. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 2, Taxicab Driver's Rules, Section 2-33, Taximeter Operation, subdivision (a), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material.

(a) When a taxicab is occupied by anyone in addition to the driver, the taximeter shall immediately be placed in the recording or "Hired" position and kept in that position until arrival at the destination, provided that if the passenger is not being charged a fare, the driver, in lieu of activating the meter, may illuminate the "Off Duty" light and *transmit to an electronic database for entry on the electronic trip record that he or she is off duty and transporting a non-paying passenger and the details of time and distance of the free fare or until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications* enter on his *or her written* trip record that he *or she* is off duty and transporting a non-paying passenger and the details of time, distance and reason for the transportation without charge. When the taxicab is engaged in a flat fare trip from Kennedy Airport to Manhattan in accordance with Owners Rule 1-69, the driver shall not activate the meter, except in accordance with subdivision (b) of Rule §1-69, and shall *transmit to an electronic database for entry on the electronic trip record or* enter on the *written* trip record that this is a flat fare trip from Kennedy Airport and the details of time and distance. When a taxicab is occupied by a passenger who is a person with a disability, the driver shall place the taximeter in the recording or "Hired" position only after the passenger has safely entered the taxicab. A taxicab driver shall not place the taximeter in the recording or "Hired" position while the driver is assisting a person with a disability to enter the taxicab or while assisting with that passenger's mobility aid.

Section 9. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 2, Taxicab Driver's Rules, Section 2-35, Trips Beyond the City, subdivisions (a) and (b), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material.

(a) For a trip beyond the limits of the City of New York, except for the Counties of Westchester or Nassau, or the facilities of the Port Authority of New York and New Jersey at Newark Airport, the following shall be applicable:

(1) the driver shall not start the trip until agreement has been made on a flat rate, as set forth in Owner Rule §1-73;

(2) the driver shall place the taximeter in a recording position at the beginning of the trip, and the taximeter shall remain in such recording position for the entire trip;

(3) the out-of-City destination shall be *transmitted to an electronic database upon arrival at the destination for entry on the electronic trip record or until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications* entered on the *written* trip record; and

(4) the total charge shall be *captured by an electronic database for entry on the electronic trip record or until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications* entered on the *written* trip record.

(b) For a trip to the Counties of Westchester or Nassau, or Newark Airport, the following shall be applicable:

(1) the driver shall place the taximeter in a recording position at the start of the trip and shall keep the taximeter in the recording position at all times;

(2) the driver must inform the passenger of the rate of fare, set forth in Taxicab Owners Rule 1-73, before the start of the trip, and for a trip to the Counties of Westchester or Nassau he *or she* shall advise the passenger when the taxicab crosses the City limit;

(3) the driver must inform the passenger before the start of the trip that all necessary tolls to and from the destination shall be paid by the passenger; and

(4) the total charge shall be *transmitted to an electronic database for entry on the electronic trip record or until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications* entered on the *written* trip record.

Section 10. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 2, Taxicab Driver's Rules, Section 2-39, Non-Paying Passengers, subdivision (a), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material.

(a) If a passenger refuses to pay the metered fare, the driver must place the meter in the off or "Vacant" position, illuminate the "Off Duty" light, *transmit the relevant information, and the amount of fare on the taximeter to an electronic database for entry on the electronic trip record or until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications* enter *the words "Off Duty" and the amount of fare on the taximeter* on the *written* trip record [the words "Off Duty" and the amount of fare on the taximeter], proceed directly to the nearest police precinct, present the facts to the police and follow their instructions for resolving the dispute.

Section 11. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 2, Taxicab Driver's Rules, Section 2-47, Change, subdivision (b), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material.

(a) A driver must always be capable of making change of a $20 bill, provided that if the driver finds himself unable to change a $20 bill during his workshift he *or she* may, with the passenger's consent, place the meter in an off or "Vacant" position, illuminate the "Off Duty" light, *transmit the relevant information to an electronic database for entry on the electronic trip record or until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications* make an appropriate *written* trip record entry and proceed to the nearest location where he *or she* may reasonably expect to obtain change.

Section 12. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 2, Taxicab Driver's Rules, Section 2-50, Refusals, paragraphs (4) and (5) of subdivision (e), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material.

(e) Justifiable grounds for the conduct otherwise prohibited by §§ 2-50(a), 2-50(b), 2-50(c), and 2-50(d) shall be the following:

(1) another passenger is already seated in the taxicab;

(2) a hail from another person has already been acknowledged by the driver, and that other person is being picked up or is about to be picked up. Provided, however, that a driver shall not acknowledge the hail of a prospective passenger over the hail of another prospective passenger with an intent to avoid transporting the passenger whose hail was not acknowledged;

(3) the passenger is carrying, or is in possession of any article, package, case or container, other than a wheelchair or other mobility aid, which the driver may reasonably believe will cause damage to the interior of the taxicab, impair its efficient operation, or cause it to become stained or foul smelling;

(4) the driver is ending his *or her* workshift and has already illuminated the "Off Duty" sign, locked both rear doors, and has *transmitted the relevant information to an electronic database for entry on the*

electronic trip record or until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications indicated on the *written* trip record that he *or she* is off duty and proceeding to his garage or home;

(5) it is necessary to take the taxicab out of service for one of the reasons given in §2-52(a) hereof, and the driver has already illuminated the "Off Duty" sign, *transmitted the relevant information to an electronic database for entry on the electronic trip record or until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications* made the appropriate *written* trip record entry, and locked both rear doors;

(6) the driver is discharging his last passenger or passenger prior to going off duty, and has already illuminated his "Off Duty" sign and *transmitted the relevant information to an electronic database for entry on the electronic trip record or until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications* made the appropriate *written* trip record entry;

Section 13. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 2, Taxicab Driver's Rules, Section 2-52, Off-Duty Procedure, subdivisions (a) through (c), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material.

(a) Before going off duty a driver shall *transmit the relevant information to an electronic database for entry on the electronic trip record, or until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications shall* enter on his *or her written* trip record the time, place and reason for going off duty; he *or she* shall illuminate the "Off Duty" light or display a "Relief Time" sign inside the windshield and visible from the street; and he *or she* shall lock the rear doors.

(b) Upon completion of the off duty activity a driver shall immediately *transmit the relevant information to an electronic database for entry on the electronic trip record or until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications* enter on his *or her written* trip record the time thereof, turn off the "Off Duty" light or remove the "Relief Time" sign, and return to service.

(c) When the taxicab is operated for personal use, a "Personal Use-OffDuty" entry shall be *transmitted to an electronic database for entry on the electronic trip record or* made on the written trip record, and the "Off Duty" light shall be illuminated.

Section 14. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 2, Taxicab Driver's Rules, Section 2-53, Accepting Passengers While Off-Duty, subdivision (a), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material

(a) A driver who has illuminated the "Off Duty" light may not solicit nor accept a passenger unless that driver is returning the taxicab to his *or her* garage or home and has *transmitted the relevant information to an electronic database for entry on the electronic trip record or* made a *written* trip record entry "Returning to garage (or home)" and the passenger's destination is directly en route thereto; when the last passenger is discharged, the driver shall lock the doors and return to his garage or home.

Section 15. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 2, Taxicab Driver's Rules, Section 2-66, Cooperating with TLC, subdivisions (a) and (b), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material

(a) A driver shall, at all times, cooperate with all law enforcement officers, authorized representatives of the Commission and the NYC Department of Investigation, and dispatchers at public transportation terminals, and at authorized group -ride taxi lines, and shall comply with all their reasonable requests, including but not limited to giving, upon request, his *or her* name and taxicab driver's license number and exhibiting the rate card, *required electronic or written* trip record and other documents required to be in his *or her* possession.

(b) A driver shall promptly answer and comply as directed with all questions, communications, directives and summonses from the Commission or its representatives and the NYC Department of Investigation or its representatives. A driver shall produce his *or her* taxicab driver's license and DMV license, *required electronic or written* trip records or other documents whenever the Commission requires him *or her* to do so.

Section 16. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 2, Taxicab Driver's Rules, Section 2-86, Penalties for Violation of Rules Governing Taxicab Drivers, be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material

Section 2-86. Penalties for Violation of Rules Governing Taxicab Drivers.

RULE NO.	PENALTY	PERSONAL APPEARANCE REQUIRED
2-28(a)(1-5)	$15 per omitted entry on *an electronic or written* trip record; provided that the total penalty for violation of this rule shall not exceed $30 per *electronic or written* trip record	No

Section 17. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 1, Taxicab Owners Rules, section 1-01, Definitions, be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material

Trip record: A "trip record" [is a document] also known as a trip sheet[,] *or trip log,* [carried by a taxicab driver, setting forth the origin and destination of each trip] *is the written, computerized, automated and/or electronic accounting of a taxicab ride. The trip data to be transmitted or recorded shall include the taxicab license number (medallion number); the taxicab driver's license number; the location of trip initiation; the time of trip initiation; the number of passengers; the location of trip termination; the time of trip termination; the itemized metered fare for the trip (tolls, surcharge, and tip if paid by credit or debit card); the distance of the trip, the trip number, the method of payment, the total number of passengers,* as well as *such* other information *as may be* required by the Commission. *The data captured by the trip record may be stored in paper, electronic or such other form as approved by the Commission. Trip record information shall be available to the TLC, the taxicab driver, medallion owner, taxicab owner and/or leasing agent at the end of each shift and/or lease term. The trip record shall be kept in an approved archived form for a minimum of three years after the date of the taxicab ride.*

Section 18. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 1, Taxicab Owners Rules, section 1-46, Authorized Taxi Drivers, subdivision (b)(2), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material

(a) No taxicab shall be operated for hire unless the driver has in his *or her* possession a current valid taxicab driver's license.

(b) An owner may permit a person who does not possess a taxicab driver's license to drive the vehicle only under the following limited circumstances:

(1) The vehicle is being driven to or from the Commission's centralized taxicab inspection facility or a repair facility;

(2) The off-duty light is illuminated; a current *written* trip [sheet] *record* signed by the owner is in the taxicab or *print out of an electronic trip record* indicating "Off -Duty" and the reason; and the rear doors are locked;

Section 19. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 1, Taxicab Owners Rules, section 1-52, Required to be Present in the Taxicab, subdivision (a)(1), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material

(a) The following shall be present in the taxicab while it is in operation for hire:

(1) the driver's trip record, also known as a "trip sheet"[;] *until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications;*

Section 20. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 1, Taxicab Owners Rules, section 1-56, Records, subdivisions (b), (d) and (e) be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material

(b) An owner shall maintain for a period of three (3) years, the following additional records:

(1) [drivee's] *drivers' electronic or written* trip records;

(2) receipts and disbursements from the taxicab operations;

(3) payments to drivers;

(4) mileage record of each vehicle;

(5) Workers' Compensation insurance coverage, if any;

(6) liability insurance coverage; and

(7) such other information as the Commission may require.

(d) (1) An owner shall not *knowingly transmit false information to the electronic trip data record keeper for entry on the electronic trip record nor* make erasures or obliterations on a *written* trip record, or other record which he *or she* is required to maintain. If a wrong entry is made on any such *electronic or written* record, the *driver or* owner shall correct it *on the electronic record or written record and record the date, time, and reason for the change so long as a record of the manually changed entry exists.*
[An owner] *Trip records shall not be changed,* [rewrite a trip record,] either in whole or in part, unless authorized by the Commission.

(e) An owner shall take possession of the trip records from the driver on a weekly basis, *until such time when a taxicab is required to be equipped with data collection and transmission equipment as described in Section 3-06 of the Taxicab Specifications*

Section 21. It is hereby proposed that Title 35 of the Rules of the City of New York, Chapter 1, Taxicab Owners Rules, section 1-67, Cooperating with TLC, subdivision (a), be amended to read as follows:

[Brackets indicate deleted material].
Italics indicate new material

(a) An owner shall cooperate with all law enforcement officers, authorized representatives of the Commission and the NYC Department of Investigation, and shall comply with all reasonable requests, including, but not limited to giving, upon request, his *or her* name and medallion number and exhibiting his *or her* rate card, *required electronic and or written* trip records, log books, and other documents required to be maintained by the owner.

Statement of Basis and Purpose

The rules proposed herein by the New York City Taxi and Limousine Commission ("TLC") are authorized under Section 2303(a) of the Charter of the City of New York, which empowers the TLC to regulate and supervise the business and industry of transportation of persons by licensed vehicles for-hire in the City, under Section 2303(b)(6) of such Charter, to adopt rules relating to taxicab safety, design and comfort; and section 19-503(a) of the Administrative Code, to promulgate rules necessary to exercise the authority conferred upon it under the Charter.

On March 30, 2004, the TLC promulgated rules which amended the Taxicab Specifications to require that each taxicab be provided with equipment 1) enabling the TLC to receive and collect trip data electronically, 2) allowing drivers to accept major credit and debit cards from customers as a means of payment, 3) enabling drivers to receive text messages, and 4) equipping each taxicab with a monitor capable of displaying a map providing route and trip location information to passengers. Since the TLC recognized that a period of time would be necessary to customize the technology necessary to equip each taxicab with the aforementioned enhancements, these rules became applicable to vehicles placed into service or inspected after November 1, 2005. Also, upon promulgation of these rules, the Commission requested that the Chair present suggestions to facilitate development and implementation of these technologies. Accordingly, TLC staff conducted an extensive information gathering process including: the issuance of a Request for Information on June 21, 2004, an Informational Exchange Conference with potential vendors and taxicab industry leaders, passenger and driver focus groups and meetings with industry groups. On March 2, 2005, the TLC issued a Request for Proposal for NYC Medallion Taxicab Technology Enhancements to implement the promulgated rules. The due date for proposal submission is May 10, 2005 with an anticipated contract start date of August 1, 2005.

The proposed rules would allow taxicab drivers to receive as well as send text messages provided that the text messaging not be used in contravention of TLC rules and not be used for dispatch purposes. The proposed rules make conforming changes to TLC rules to reflect electronic trip sheet data collection in lieu of written record keeping. The actual implementation date of these enhancements cannot be determined in advance, and therefore these proposed rules remove references to a deadline of November 1, 2005 and substantiate references to a deadline to be fixed by the Commission.

The TLC recognizes the evolving nature of the technological improvements and the possibility that these improvements will offer previously unrealized revenue opportunities for medallion taxicab owners while improving the quality of service to the riding public. This revenue potential might also offset the costs of installing and maintaining the new equipment contemplated by the service enhancement rules. The TLC therefore desires to allow some flexibility in approving the best systems and devices to implement the changes contemplated by these rules and proposes to revise the implementation date to a date that is agreed upon between the TLC and the authorized contractor(s).

While the March 30, 2004 rules are silent on revenue enhancement as a criterion for selection of the newly mandated technologies, the TLC has determined that the unrealized revenue opportunities for medallion taxicab owners to be derived from the Passenger Information Monitor should be explored. The TLC therefore proposes to revise the promulgated rules to authorize the display of TLC Public Service Announcements and limited commercial advertising and commercial sponsorships on the Passenger Information Monitor to offset costs and/or provide additional sources of revenue.

LANDMARKS PRESERVATION COMMISSION

■ NOTICE

BINDING REPORT

ISSUE DATE: 03/10/05	DOCKET #: 055843	SRB #: SRB 05-6168
ADDRESS: 1000 FIFTH AVENUE, Metropolitan Museum of Art, INDIVIDUAL LANDMARK	BOROUGH: MANHATTAN	BLOCK/LOT: 1111 / 1

To the Mayor, the Council, and the Commissioner of the Department of Cultural Affairs.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for interior alterations at the Objects Conservation Department at the ground floor of the Kravis Wing, which will not affect any designated interior portions of the Metropolitan Museum Interior Landmark. The proposed work is described in Drawings titled "Objects Conservation Renovation: Metropolitan Museum of Art," dated Feburary 21, 2005, prepared by James Owens, PE, and a letter, dated March 8, 205, prepared Gladys Moore, City Liaison Manager, all submitted as components of this application.

The Commission has reviewed these drawings and finds that the work will have no effect on the significant protected features of the building.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Meisha Hunter.

Robert B. Tierney
Chair

OFFICE OF MANAGEMENT AND BUDGET

■ PUBLIC HEARINGS

Draft Ten-Year Capital Strategy

Pursuant to Section 234 of the New York City Charter, the Draft Ten-Year Capital Strategy, Fiscal Years 2006-2015, was issued jointly by the Office of Management and Budget and the Department of City Planning on January 2005. After a public comment period, it will be issued in final form by the Mayor. Issued every two years, the strategy proposes capital commitments to be made during the ensuing ten years, by program category and agency.

The draft strategy is available on the Office of Management and Budget's website at
http://nyc.gov/html/omb/pdf/typ1_05.pdf

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

COMMON ABBREVIATIONS USED IN THE CR

The CR contains many abbreviations. Listed below are simple explanations of some of the most common ones appearing in the CR:

AB ..... Acceptable Brands List
AC .....Accelerated Procurement
AMT .....Amount of Contract
BL .....Bidders List
CSB .....Competitive Sealed Bidding (including multi-step)
CB/PQ .....CB from Pre-qualified Vendor List
CP .....Competitive Sealed Proposal (including multi-step)
CP/PQ .....CP from Pre-qualified Vendor List
CR .....The City Record newspaper
DA .....Date bid/proposal documents available
DUE .....Bid/Proposal due date; bid opening date
EM .....Emergency Procurement
IG .....Intergovernmental Purchasing
LBE .....Locally Based Business Enterprise
M/WBE .....Minority/Women's Business Enterprise
NA .....Negotiated Acquisition
NOTICE....Date Intent to Negotiate Notice was published in CR
OLB .....Award to Other Than Lowest Responsible & Responsive Bidder/Proposer
PIN .....Procurement Identification Number
PPB .....Procurement Policy Board
PQ .....Pre-qualified Vendors List
RS .....Source required by state/federal law or grant
SCE .....Service Contract Short-Term Extension
DP .....Demonstration Project
SS .....Sole Source Procurement
ST/FED .....Subject to State &/or Federal requirements

KEY TO METHODS OF SOURCE SELECTION

The Procurement Policy Board (PPB) of the City of New York has by rule defined the appropriate methods of source selection for City procurement and reasons justifying their use. The CR procurement notices of many agencies include an abbreviated reference to the source selection method utilized. The following is a list of those methods and the abbreviations used:

CSB .....**Competitive Sealed Bidding** (including multi-step)

Special Case Solicitations / Summary of Circumstances:

CP .....***Competitive Sealed Proposal*** (including multi-step)
CP/1 .....Specifications not sufficiently definite
CP/2 .....Judgement required in best interest of City
CP/3 .....Testing required to evaluate
CB/PQ/4 ....
CP/PQ/4 ....**CB or CP from Pre-qualified Vendor List**/Advance qualification screening needed
DP .....Demonstration Project
SS .....**Sole Source Procurement**/only one source
RS .....Procurement from a Required Source/ST/FED
NA .....Negotiated Acquisition

For ongoing construction project only:

NA/8 .....Compelling programmatic needs
NA/9 .....New contractor needed for changed/additional work
NA/10 .....Change in scope, essential to solicit one or limited number of contractors
NA/11 .....Immediate successor contractor required due to termination/default

For Legal services only:

NA/12 .....Specialized legal devices needed; CP not advantageous
WA .....**Solicitation Based on Waiver/Summary of Circumstances** (Client Services/BSB or CP only)
WA1 .....Prevent loss of sudden outside funding
WA2 .....Existing contractor unavailable/immediate need
WA3 .....Unsuccessful efforts to contract/need continues
IG .....**Intergovernmental Purchasing** (award only)
IG/F .....Federal
IG/S .....State
IG/O .....Other
EM .....**Emergency Procurement** (award only) An unforeseen danger to:
EM/A .....Life
EM/B .....Safety
EM/C .....Property
EM/D .....A necessary service
AC .....**Accelerated Procurement**/markets with significant short-term price fluctuations
SCE .....**Service Contract Extension**/insufficient time; necessary service; fair price

Award to Other Than Lowest Responsible & Responsive Bidder or Proposer / Reason (award only)

OLB/a .....anti-apartheid preference
OLB/b .....local vendor preference
OLB/c .....recycled preference
OLB/d .....other: (specify)

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

SAMPLE NOTICE:

POLICE

DEPARTMENT OF YOUTH SERVICES

■ **SOLICITATIONS**

Services (Other Than Human Services)

BUS SERVICES FOR CITY YOUTH PROGRAM – Competitive Sealed Bids – PIN# 056020000293 – DUE 04-21-03 AT 11:00 A.M.

CHARTER REVISION COMMISSION

■ PUBLIC HEARINGS

The New York City Charter Revision Commission is planning to hold public hearings in each borough of the City of New York. At these public hearings, the Commission will hear testimony from members of the public on the Charter. Certain public hearings will be preceded by an "expert forum," in which the Commission will hear from selected experts on a particular issue. The public will have the opportunity to observe the expert forum, but not to ask questions of those experts testifying before the Commission. The public will be invited to testify after the forum concludes and the public hearing portion of the evening begins. Topics for the expert forums will be announced on the Commission's website (www.nyc.gov/charter).

The Mayor has asked this Commission, in reviewing the entire Charter, to pay special attention to fiscal stability, administrative judicial reform, and operational effiency and accountability. Members of the public wishing to testify before the Commission may direct their comments to these topics or to any other aspect of the Charter.

A summary of issues under consideration by the Commission will be made available on the Commission's website (www.nyc.gov/charter) approximately one week prior to the first public hearing. Paper copies of the summary also will be available upon request by telephone or mail.

The Commission thus far has scheduled public hearings on the following dates:

Monday, April 4 Place: Hunter College of the City University of New York, West Building, 8th Floor. Time: Expert forum on begins at 4:00 p.m. Public hearing begins at 6:00 p.m. Directions: Hunter College is accessible by public transportation. Take the 6 train to 68th Street or the F train to 63rd Street. The West Building is located on the southwest corner of 68th Street and Lexington Avenue. Take the escalator to the 3rd floor, then the elevator to the 8th floor. For further information on accessing this location, contact (212) 772-4000.

The hearings are open to the public and anyone may register to speak. Individuals who wish to give testimony may do so by registering one half-hour before the hearing. Written testimony is encouraged and can be submitted at the hearings or sent to the New York City Charter Revision Commission at 2 Lafayette Street, 14th Floor, New York, N.Y. 10007. Testimony may also be e-mailed to the Commission at charter@dcas.nyc.gov.

NOTE Individuals requesting spoken or sign language interpreters for any of these public hearings should contact Charter Revision Commission staff member Brian Geller at (212) 788-2952 five (5) business days prior to the public hearing. TDD users should call Verizon Relay Services.

To contact the Commission by please write or call:

New York City Charter Revision Commission

CITY COUNCIL

■ HEARINGS

HEARING BY THE COMMITTEE ON RULES, PRIVILEGES AND ELECTIONS

THE COMMITTEE ON RULES, PRIVILEGES AND ELECTIONS WILL HOLD A HEARING ON WEDNESDAY, APRIL 12, 2005 AT 9:15 A.M. IN THE COUNCIL CHAMBERS, CITY HALL, NEW YORK, NEW YORK 10007 ON THE FOLLOWING MATTER:

Direct Appointment by Council

● **Pre-considered-M, Alexander Rovt,** Council candidate for appointment to the New York City Board of Correction pursuant to *New York City Charter* § 626. Mr. Rovt will serve for the remainder of a six-year term that began on October 13, 2002, and expires on October 12, 2008. Mr. Rovt will replace Mr. John Henry Banks III who has been serving in a holdover capacity since his term expired on October 12, 2002.

AND SUCH OTHER BUSINESS AS MAY BE NECESSARY

A Calendar of speakers will be established in advance. Persons interested in being heard should write to the Honorable Gifford Miller, Speaker of the City Council, City Hall, New York, New York 10007, setting forth their name, representation and viewpoints.

Victor L. Robles
City Clerk, Clerk of the Council

☛ a4-8

■ PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN THAT the Council has scheduled the following public hearing on the matter indicated below:

The Subcommittee on Landmarks, Public Siting and Maritime Uses will hold a public hearing on the following matter in the Council Committee Room, City Hall, New York, New York 10007, commencing at 11:00 A.M. on Monday, April 4, 2005:

QUEENS CB - 2 **20045391 SCQ**
Application submitted by the New York City School Construction Authority pursuant to Section 1732 of the New York State Public Authorities Law for a renovation of the premises into an 800-seat High school facility located at 30-20 Thomson Avenue, Long Island City, Queens, (Block 274, Tax Lots 1).

The Subcommittee on Zoning and Franchises will hold public hearings on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 9:30 A.M. on Monday, April 4, 2005:

CITYWIDE **20055056 LLY**
A proposed Local Law to repeal Local Law 64 of 2003.

MANHATTAN CB - 8 **20055187 TCM**
Application pursuant to §20-225 of the Administrative Code of the City of New York, concerning the petition of C & C First Ave. Corp., d/b/a Bar Coastal, to continue to maintain and operate an enclosed sidewalk café located at 1495 First Avenue.

MANHATTAN CB - 2 **20055208 TCM**
Application pursuant to §20-226 of the Administrative Code of the City of New York, concerning the petition of Caliente Cab. Rest. Co., Inc., d/b/a Caliente Cab Co., to continue to maintain and operate an unenclosed sidewalk café located at 61 Seventh Avenue South.

MANHATTAN CB - 8 **20055417 TCM**
Application pursuant to §20-226 of the Administrative Code of the City of New York, concerning the petition of Café Focaccia, Inc., d/b/a Focaccia Florentino, to continue to maintain and operate an unenclosed sidewalk café located at 1166 First Avenue.

BROOKLYN CB - 1 **C 040415 MMK**
Application submitted by the New York City Department of City Planning and the Department of Parks and Recreation pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et. seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of a portion of North 12th Street between Kent Avenue and the United States Pierhead Line;
- the establishment of Inlet Park; the delineation of sewer corridors;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map Nos. Y-2673 and V-2674 dated September 28, 2004 and signed by the Borough President.

BROOKLYN CB - 1 **C 040416 MMK**
Application submitted by the New York City Department of City Planning and the Department of Parks and Recreation pursuant to Sections 197-c and 199 of the New York City Charter, for an amendment to the City Map involving:

- the elimination of a portion of Quay Street between West Street and the United States Bulkhead Line;
- the establishment of Inlet Park;
- the delineation of a sewer corridor;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. Y-2675 dated September 28, 2004 and signed by the Borough President.

BROOKLYN CB - 1 **C 040417 MMK**
Application submitted by the New York City Department of City Planning and the Department of Parks and Recreation pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et. seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of a portion of North 11th Street between Kent Avenue and the United States Pierhead Line;
- the establishment of Inlet Park;
- the delineation of a sewer corridor;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map Nos. Y-2676 and V-2677 dated September 28, 2004 and signed by the Borough President.

BROOKLYN CB - 1 **C 040418 MMK**
Application submitted by the New York City Department of City Planning and the Department of Parks and Recreation pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et. seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of portions of North 9th Street and North 10th Street between Kent Avenue and the United States Pierhead Line;
- the establishment of Inlet Park;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map Nos. W-2690 and V-2691 dated September 28, 2004 and signed by the Borough President.

BROOKLYN CB - 1 **N 050110(A) ZRK**
Application submitted by the Department of City Planning, pursuant to Section 201 of the New York City Charter, for an amendment of the Zoning Resolution of the City of New York, relating to Article II, Chapter 3 (Bulk Regulations for Residential Buildings in Residence Districts) and Article VI, Chapter 2 (Special Regulations Applying in the Waterfront Area); Article XII, Chapter 3 (Special Mixed Use District) specifying a Special Mixed Use District (MX8) in Greenpoint -Williamsburg, Community District 1, Brooklyn; and the elimination of Article IX, Chapter 7 (Special Northside Mixed Use District) and Article X, Chapter 8 (Special Franklin Street Mixed Use District).

Underlined matter is new, to be added;
Matter in ~~Strikeout~~ is old, to be deleted;
Matter within # # is defined in Section 12-10;
* * * indicates where unchanged text appears in the Zoning Resolution

* * *

23-145
For residential buildings developed or enlarged pursuant to the Quality Housing Program
R6 R7 R8 R9
In the districts indicated, the maximum #lot coverage# and the maximum #floor area ratio# for any #residential building# on a #zoning lot developed# or #enlarged# pursuant to the Quality Housing Program shall be as set forth in the following table and the maximums for #developments#, or #enlargements# where permitted, located within 100 feet of a #wide street# in R6, R7 or R8 Districts without a letter suffix outside the #Manhattan Core#, shall be as designated by the same district with an asterisk. In an R6 District inside the #Manhattan Core# located within 100 feet of a #wide street#, the maximums shall be indicated by the same district with a double asterisk.

MAXIMUM LOT COVERAGE AND FAR
FOR QUALITY HOUSING BUILDINGS (in percent)

(TABLE)

The #floor area ratios# in the table above may be increased in certain R6 and R7 Districts within Community District 1, Borough of Brooklyn, pursuant to Section 23-90 (INCLUSIONARY HOUSING).

* * *

23-90
INCLUSIONARY HOUSING

23-91
General Provisions
~~R10~~
~~In the district indicated, a~~An Inclusionary Housing program is established in those areas designated in Section 23-92 (Applicability) to preserve and to promote a mixture of low to upper income housing within neighborhoods experiencing a shift from mixed to upper income housing and thus to promote the general welfare. The requirements of this program are set forth in Sections 23-90 through 23-~~04~~95.

23-92
Applicability

23-921
R10 Districts
The Inclusionary Housing Program shall apply in R10 Districts.

23-922
Community District 1, Borough of Brooklyn
The Inclusionary Housing Program shall apply in the following areas of Community District 1 in the Borough of Brooklyn located north of the Williamsburg Bridge, Washington Plaza, Borinquen Place and Grand Street:

(a) Waterfront Access Plan BK-1, as set forth in Section 62-352;

(b) all #Special Mixed Use Districts#;

(c) all R6A, R6B and R7A Districts; and

(d) the following R6 areas:

(1) the #block# bounded by Havemeyer Street, North Sixth Street, Metropolitan Avenue and North Fifth Street;

(2) the #block# bounded by Roebling Street, North Fifth Street, Havemeyer Street and Metropolitan Avenue;

(3) those #blocks# bounded by Wythe Avenue, Grand Street, Berry Street and South Third Street;

(4) those #blocks# and portions of #blocks# bounded by Bedford Avenue, North 1st Street, Driggs Street, Fillmore Place, Roebling Street, and a line coincident with the centerline of the long dimension of the #blocks# bounded by Bedford Avenue, Grand Street, Roebling Street and South First Street; and

(5) that portion of the #block# bounded by Franklin Street, Huron Street, Manhattan Avenue and India Street that is within 100 feet of Franklin Street and 100 feet of India Street.

~~23-90~~ **23-93**
Definitions
For the purposes of the Inclusionary Housing program, matter in italics is defined either in Section 12-10 (DEFINITIONS) or in this Section.
Administering agent

The "administering agent" is the entity or entities identified

in the #lower income housing plan# as responsible for ensuring compliance with such plan.

The #administering agent# shall be a not-for-profit organization, unless the Commissioner of Housing Preservation and Development finds that a good faith effort by the developer of the #compensated development# to secure a qualified not-for-profit organization as the #administering agent# was unsuccessful~~.~~, or, in Community District 1, Borough of Brooklyn, if the #floor area# of the #standard units# comprising the #lower income housing# constitutes less than half of the total #residential floor area# or #community facility floor area used# as a not-for-profit institution with sleeping accommodations in the #building#.

* * *

Fair rent

* * *

In order for rent to be #fair rent#, the following must also apply:
There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income household# responsible for the payment of utilities as long as the sum of:

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment do not exceed 30 percent of said #lower income household's# income.

However, in Community District 1, Borough of Brooklyn, the Commissioner of Housing Preservation and Development may determine that rents satisfying the requirements of city, state or federal programs assisting #lower income housing# will be considered 'fair rent', provided that such rents do not exceed 30 percent of #lower income household#'s income, as applicable, and provided further that upon expiration or termination of the requirements of the city, state or federal program, rent increases and re-rentals shall be subject to the higher of the then-currently applicable Section 8 Standard or the Rent Stabilization Standard.

At initial occupancy of any #lower income housing#, no portion of the #fair rents# shall be for the payment of the principal or interest on any debt, and the #lower income housing# shall not secure any debt and shall be free of all liens, except liens for real estate taxes, water charges and sewer rents and other governmental charges for which payment is not yet due. #Fair rents# may be used for the payment of principal or interest of debt only if such debt was incurred after the date of initial occupancy and is for a capital improvement to such #lower income housing# other than those capital improvements set forth in the #lower income housing plan#.

In Community District 1, Borough of Brooklyn, at initial occupancy of any #lower income housing#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95(c) of this Resolution, and provided that the lender agrees to enter into a written agreement which subordinates such debt to the provisions of the #lower income housing plan#.

Lower income household

A "lower income household" is a #family# having an income equal to or less than the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U.S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

In Community District 1, Borough of Brooklyn, #lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City or State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with U. S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.

Lower income housing

"Lower income housing" are #standard units# occupied or to be occupied by #lower income households#. #Lower income housing# shall not include #standard units# assisted under city, state or federal programs, except where such assistance is in the form of:

(a) real estate tax abatements and exemptions which are specifically limited to the #lower income housing#; or

(b) operating assistance that the Commissioner of the Department of Housing Preservation and Development determines will be used to enable h ouseholds with incomes of not more than 62.5 percent of the "80 Percent of SMSA Limits" to afford such #lower income housing#.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall include #standard units# assisted under city, state or federal programs.

Lower income housing plan

The "lower income housing plan", is the plan accepted by the Commissioner of Housing Preservation and Development, which sets forth the developer's plans for creating and maintaining the specified #lower income housing# pursuant to this program, including but not limited to, choice of #administering agent#, tenant selection, rent levels in the #lower income housing# and income verification of tenants pursuant to Section ~~23-94~~ 23-95 paragraphs (b), (c) and (d) of this Resolution.

* * *

~~23-93~~ 23-94
Floor Area Compensation

~~23-941~~
In R10 Districts
The #floor area ratio# of a #development# may be increased from 10.0 to a maximum of 12.0 at the rate set forth in this Section, if the developer of such #development# provides #lower income housing# pursuant to Section ~~23-94~~ 23-95 (Lower Income Housing Requirements).

For each square foot of #floor area# provided for #lower income housing# pursuant to the options listed in Column A and which meets the requirements set forth in Section ~~23-94~~ 23-95, the #floor area# of the #development# may be increased by the number of square feet set forth in Column B.

* * *

23-942
In Community District 1, Borough of Brooklyn

The provisions of this Section 23-942 shall apply in the designated areas set forth in Section 23-922, except within Waterfront Access Plan Bk-1. The #floor area# of a #development# or #enlargement# may be increased by two square feet for each square foot of #floor area# provided for #lower income housing#, up to the maximum #floor area ratio# specified in the table below. In addition, the following rules shall apply:

(a) The compensated #building# must be #developed# or #enlarged# pursuant to the Quality Housing Program, or, in #Special Mixed Use Districts#, pursuant to paragraph (b) of Section 123-662, and

(b) The #lower income housing# must be provided in accordance with the provisions set forth in Section 23-95 (Lower Income Housing Requirements).

District	Base #floor area ratio#	Maximum #floor area ratio#
R6B	2.0	2.2
R6*	2.2	2.42
R6A	3.0	3.6
R6**	3.0	3.6
R7A	4.0	4.6

* for #zoning lots#, or portions thereof, beyond 100 feet of a #wide street#
** for #zoning lots#, or portions thereof, within 100 feet of a #wide street#

~~23-94~~ 23-95
Lower Income Housing Requirements

~~R10~~

To qualify for the increased #floor area#, #compensated developments# must provide #lower income housing# for the life of the increased #floor area# in the #compensated development# pursuant to one or more of the options listed in Section ~~23-941, 23-942 and 23-943~~, 23-951, 23-952 and 23-953 and such #lower income housing# must meet each of the requirements set forth below.

* * *

(g) Insurance

The #administering agent# of the #lower income housing# shall have said housing insured against any damage or destruction in an amount equal to no less than the replacement value of such housing.

Any insurance proceeds received as a result of damage or destruction of all or part of such housing shall be used first for restoring such damaged or destroyed housing to #lower income housing#, free of violations under the New York City Building Code, the New York State Multiple Dwelling Law, the New York City Housing Maintenance Code and this Resolution. However, in Community District 1, Borough of Brooklyn, the Commissioner of Housing Preservation and Development may modify this requirement to provide priority for lenders participating in the financing of #lower income housing# that is assisted under city, state or federal programs.

~~23-941~~ 23-951
On-site new construction option

To qualify for this option, the designated #lower income housing# shall meet the following requirements:

(a) The #lower income housing# shall be located in newly constructed #floor area# in the #compensated development#. The #lower income housing# shall be maintained and leased to #lower income households# for the life of the increased #floor area#.

(b) #Dwelling units# designated as #lower income housing# shall be distributed throughout the #development#. No #story# shall contain more than two such units unless at least 80 percent of all #stories# contain two such units. The size of the designated #lower income housing# units shall at least be distributed among the various size units in proportion to the total distribution of unit size within the #building# in the following categories of unit sizes:

under 600 net square feet
600 - 749 net square feet
750 - 949 net square feet
950 - 1149 net square feet
1150 or more net square feet

In Community District 1, Borough of Brooklyn, the requirements of this paragraph (b) may be waived by the Commissioner of Housing Preservation and Development to facilitate the #development# of #lower income housing#.

~~23-942~~ 23-952
Substantial rehabilitation and off-site new construction options

To qualify for one or more of these options, the designated #lower income housing# shall meet the following requirements:

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#~~.~~, except that #lower income housing# located within a one-half mile radius of a #compensated development# in Community District 1, Borough of Brooklyn shall be located in an adjacent Community District in the Borough of Brooklyn.

For the new construction option the #lower income housing# shall be in a new #building#. For the substantial rehabilitation options, the #lower income housing# shall be in an existing #building# in which, prior to the submission of the #lower income housing plan# pursuant to this Section, any #residential# portion not in public ownership had been entirely vacant for not less than three years.

Furthermore, in Community District 1, Borough of Brooklyn, the #administering agent# shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing and Preservation and Development approves the #lower income housing plan#.

* * *

~~23-943~~ 23-953
Preservation option

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#~~.~~, except that #lower income housing# located within a one-half mile radius of a #compensated development# in Community District 1, Borough of Brooklyn shall be located in an adjacent Community District in the Borough of Brooklyn.

The #lower income housing# shall be in an existing occupied #residential# or #mixed building#. Only #standard units# occupied by #lower income households# shall be #lower income housing#. For each #standard unit# designated as #lower income housing# the #administering agent# shall verify the income of the household in tenancy.
Furthermore, in Community District 1, Borough of Brooklyn, the #administering agent# shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

* * *

ARTICLE VI
CHAPTER 2: SPECIAL REGULATIONS APPLYING IN THE WATERFRONT AREA

* * *

62-14
Requirements for Recordation

* * *

In addition, the preceding public access elements shall be recorded on the certificate of occupancy by the Department of Buildings or Business services, as applicable, and shall be a condition of issuance of such certificate of occupancy.

For parcels identified in Waterfront Access Plan BK-1 for which an alternate plan for joint maintenance and operation has been approved pursuant to paragraph (e) of Section 62-624, the provisions of such plan and the instruments established pursuant thereto shall supersede those of the maintenance and operation agreement described in this Section 62-14.

* * *

62-20
SPECIAL USE REGULATIONS

* * *

62-29
Special Use Regulations for Waterfront Access Plan BK-1

All Use Group 6 and 9 #uses# delineated in Section 62-212 (Waterfront-Enhancing Uses) not otherwise permitted, shall be a permitted use on any parcel identified in Waterfront Access Plan BK-1, provided that such use is limited to not more than 10,000 square feet of #floor area# per establishment; the total amount of #floor area# used for such #uses# does not exceed two per cent of the total amount of #floor area# permitted on such parcel; and such #uses# are located below the level of the first #story# ceiling of a

#building# or are located on a #pier# or #platform#.

Additionally, Docks for water taxis (Use Group 6) and Docks or mooring facilities for non-commercial pleasure boats (Use Group 6) shall be a permitted use on any parcel identified in Waterfront Access Plan BK-1.

* * *

62-30
SPECIAL BULK REGULATIONS

All #zoning lots# within #waterfront blocks# shall comply with the #bulk# regulations of this Section. For the purposes of this Section, non-#waterfront blocks# included in Waterfront Access Plan BK-1 shall be considered to be #waterfront blocks#. Existing non-complying buildings or other structures shall be subject to the provisions of Article V (Non-Conforming Uses and non-complying Buildings).

* * *

62-31
Bulk Computations on Waterfront Zoning Lots

* * *

(a) #Floor area#, #dwelling units# or #rooming units# generated by existing #piers# or #platforms# within the #seaward lot# may be located anywhere on the #zoning lot# provided the amount on the #upland lot# does not exceed the maximum for the district on such portion of the #zoning lot# by more than 20 percent. No #bulk# distribution from the #seaward lot# shall be permitted for new #piers# or #platforms#, except within Waterfront Access Plan BK-1. Such # bulk# distribution shall be permitted for new portions of #piers# located within Waterfront Access Plan BK-1, provided that such new portion of the #pier# is accessed from a portion of an existing #pier# containing not less than 25 percent of the #water coverage# of such existing #pier# and that the #water coverage# of the new and existing portions of the #pier# does not exceed the #water coverage# of the existing #pier#.

* * *

62-35
Special Bulk Regulations within Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1, the special #bulk# regulations of this Chapter are further modified as set forth in this Section 62-35, inclusive.

62-351
Special floor area regulations

(a) Maximum permitted #floor area ratio#

In R6 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# shall be 2.43. In R8 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# shall be 5.5. In R6 and R8 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# may be increased for #developments# and #enlargements# that provide lower income housing pursuant to Section 62-352.

(b) #Buildings# used for #accessory# off-#street# parking spaces

The #floor area# of a #building# shall not include floor space used for #accessory# off-street parking spaces provided in any #story# located not more than 33 feet above the height of the #base plane#.

62-352
Inclusionary Housing

The provisions of Section 23-90 (INCLUSIONARY HOUSING) shall apply in R6 and R8 Districts within Waterfront Access Plan BK-1 as modified in this Section.

(a) Definitions

Fair rent

At initial occupancy of #lower income housing# that is occupied by a #moderate incomehousehold# or a #middle income household# as defined in this Section, "fair rent" shall include an annual rent for each such housing unit equal to not more than 30 percent of the annual income of the tenant of such housing (the "30 Percent Standard").

Upon renewal of a lease for such an existing tenant in #lower income housing#, #fair rent# (the "Rent Stabilization Standard") is not more than the then-current #fair rent# for such housing plus a percentage increase equal to the percentage increase for a renewal lease of the same term permitted by the Rent Guidelines Board for units subject to the rent stabilization law.
After initial occupancy, upon rental of #lower income housing# to a new tenant, #fair rent# is not more than the higher of:

(1) the then-currently applicable "30 Percent Standard"; or

(2) the Rent Stabilization Standard.

In order for rent to be #fair rent#, the following must also apply:

There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income, #moderate income# or #middle income household# responsible for the payment of utilities as long as the sum of the following do not exceed 30 percent of said #lower income#, #moderate income# or #middle income household's# income :

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment.

However, the Commissioner of Housing Preservation and Development may determine that rents satisfying the requirements of city, state or federal programs assisting #lower income housing# will be considered "fair rent," provided that such rents do not exceed 30 percent of a #moderate income# or #middle income household#'s income, as applicable, and provided further that upon expiration or termination of the requirements of the city, state or federal program, rent increases and re-rentals shall be subject to the higher of the then-currently applicable 30 Percent Standard or the Rent Stabilization Standard.

Lower income housing

For the purposes of this Section, "lower income housing" shall include #standard units# occupied or to be occupied by #lower income#, #moderate income# or #middle income households#.

Moderate income household
For the purposes of this Section 62-352, a "moderate income household" is a #family# having an income equal to or less than the following proportion:

$$\frac{125}{80}$$

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

Middle income household

For the purposes of this Section 62-352, a "middle income household" is a #family# having an income equal to or less than the following proportion:

$$\frac{175}{80}$$

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

(b) Floor area increase

(1) For #zoning lots# located in R8 Districts, or located partially in R8 Districts and partially in R6 Districts, the maximum permitted #floor area ratio# on such #zoning lots# may be increased in R6 Districts from 2.43 to 2.75, and in R8 Districts from 5.5 to 6.5, provided that:

(i) at least 15% of the total #floor area# on the #zoning lot# is occupied by #lower income households#, or

(ii) at least 10% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 10% of the total #floor area# on the #zoning lot# is occupied by #moderate income households#, or

(iii) at least 10% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 15% of the total #floor area# on the #zoning lot# is occupied by #middle income households#.

(2) For #zoning lots# located entirely within R6 Districts, the maximum permitted #floor area ratio# may be increased from 2.43 to 2.75 provided that:

(i) at least 7.5% of the total #floor area# on the #zoning lot# is occupied by #lower income households#, or

(ii) at least 5% of the total #floor area# on the #zoning lot# is occupied by #moderate income households#, or

(iii) at least 5% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 7.5% of the total #floor area# on the #zoning lot# is occupied by #middle income households#.

Where #lower#, #moderate# or #middle income housing# is provided on a #zoning lot# other than the #zoning lot# occupied by the compensated #development#, the percentage of #residential floor area# required to be occupied by such households pursuant to this Section shall be determined as a percentage of the #residential floor area# on the #zoning lot# of such compensated #development#, inclusive of #floor area# bonused pursuant to this Section.

(c) Lower Income Housing Requirements
#Developments# that increase #floor area# in accordance with the provisions of this Section shall comply with the lower income housing requirements of Section 23-95, except as modified in this paragraph (c).

(1) The provisions of Section 23-95(b) shall apply, except that in addition, incoming households of #standard units# in #lower income housing# may be #moderate# and #middle income households#, and sublessees of a #moderate# or #middle income household# may also be a #moderate# or #middle income household#.

Furthermore, on and after the issuance of a certificate of occupancy for #lower income housing#, the #administering agent# shall have a duty to rent such housing to #lower#, #moderate# or #middle income households#, as provided in this Section and in the approved #lower income housing plan#.

This duty to rent shall be satisfied by the #administering agent#, if such agent has in fact rented all such units to #lower#, #moderate# or #middle income households#, as provided in this Section, or has, in good faith, made a continuing public offer to rent such units at rents no greater than the rents authorized by this program or otherwise at law.

(2) The provisions of Section 23-95(d) shall apply, except that prior to renting #lower income housing#, the #administering agent# shall verify the income of each household to occupy such housing, to assure that the households are #lower#, #moderate# or #middle income households# as provided by this Section. The #administering agent# shall submit an affidavit to the Commissioner of Housing Preservation and Development upon initial occupancy and annually thereafter attesting that all incoming occupants of #lower income housing# are #lower#, #moderate# or #middle income households# as required by the provisions of this Section and in the approved #lower income housing plan#.

(3) The provisions of Sections 23-951, 23-952 and 23-953 shall apply, except that with respect to Section 23-951(a), 23-952(b) and 23-953(a), #lower income housing# shall be maintained and leased to #lower#, #moderate# or #middle income households#, as provided in this Section, for the life of the increased #floor area#, and in accordance with the approved #lower income housing plan#. Furthermore, Section 23-953(a) shall be modified to provide that the #administering agent# shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing preservation and Development approves the #lower income housing plan#.

(d) Permits and certificate of occupancy

The requirements of paragraph (f) of Section 23-94 shall not apply. In lieu thereof, the provisions of this paragraph (d) shall apply.

No building permit for any portion of the #compensated development# that utilizes #floor area# bonused pursuant to paragraph (b) of this Section, or is located on any #story# that utilizes the increased height for #developments# that provide Inclusionary Housing as set forth in paragraph (b)(2) of Section 62-354 (Special Height and Setback Regulations) shall be issued until the Commissioner of Housing Preservation and Development certifies that an acceptable #lower income housing plan# has been filed and approved.

No temporary certificate of occupancy shall be issued for any portion of the #compensated development# that utilizes #floor area# bonused pursuant to paragraph (b) of this Section, or is located on any #story# that utilizes the increased height for #developments# that provide Inclusionary

Housing as set forth in paragraph (b)(2) of Section 62-354 (Special Height and Setback Regulations), until a temporary certificate of occupancy for each unit of #lower income housing# that is the subject of the #lower income housing plan# accepted by the Commissioner of Housing Preservation and Developmemt has been issued. No permanent certificate of occupancy shall be issued for any portion of the #compensated development# that utilizes #floor area# bonused pursuant to paragraph (b) of this Section, or is located on any #story# which utilizes the increased height for #developments# that provide Inclusionary Housing as set forth in paragraph (b)(2) of Section 62-354 (Special Height and Setback Regulations), until a permanent certificate of occupancy for each unit of #lower income housing# that is the subject of the #lower income housing plan# accepted by the Commissioner of Housing Preservation and Development has been issued.

Prior to the issuance of any temporary or permanent certificate of occupancy for any portion of the #compensated development# that utilizes #floor area# bonused pursuant to paragraph (b) of this Section, or is located on any #story# that utilizes the increased height for #developments# that provide Inclusionary Housing as set forth in paragraph (b)(2) of Section 62-354 (Special Height and Setback Regulations), the Commissioner of Housing Preservation and Development shall certify that the #lower income housing# is in compliance with the #lower income housing plan#.

62-353
Special floor area, lot coverage and residential density distribution regulations

Within any parcel identified in Section 62-831, and with respect to any such parcels which are adjacent to each other and which are under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined in (e) of the definition of a #zoning lot# in Section 12-10) or with respect to which each party in interest (as defined in (f)(4) of the definition of a #zoning lot# in Section 12-10) has executed a declaration declaring that the properties are to be develop as a single parcel or has waived its right to execute such declaration, the total #lot coverage# permitted pursuant to Section 62-322, the total #floor area# permitted pursuant to Section 62-351 or 62-352 and the residential density permitted pursuant to Section 23-22 may be located anywhere within such parcel or between such parcels without regard to #zoning lot lines# or district boundaries provided that such location of #floor area#, #lot coverage# or residential density complies with Section 62-31 and Section 62-34 as modified by Section 62-354.

62-354
Special Height and Setback Regulations

The provisions of Section 62-341 (Developments on land and platforms) are modified as follows:

(a) Paragraph (c)(1) (Maximum base height) shall be modified in R6 Districts to permit a maximum base height of 65 feet or six #stories#, whichever is less. However, for #buildings or other structure# located on a #zoning lot# with more than 100 feet of frontage on a #street# in R6 Districts, at least 20 percent of such frontage shall not exceed a maximum base height of 55 feet or 5 #stories#, whichever is less.

(b) Paragraph (c)(2) (Maximum #building# height) shall not apply. In lieu thereof, the provisions of this paragraph (b) shall apply:

(1) The maximum #building# height in an R6 District shall be 65 feet or six #stories#, whichever is less, within 100 feet of Commercial Street, West Street, Dupont Street, Franklin Street and Kent Avenue. Beyond 100 feet of such #streets# and any other portions of an R6 District, the maximum #building# height in shall be 110 feet. In R8 Districts, the maximum #building# height shall be 210 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 200 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 210 feet to a maximum #building# height of 310 feet. Such maximum #building# heights of 110 feet, 210 feet and 310 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 110 feet, 210 feet or 310 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

(2) For #developments# that provide #lower income housing# pursuant to Section 62-352, the increased #floor area# permitted for such #developments# may exceed the height limits of an R8 District set forth in this paragraph (b) provided that the maximum building height shall be 260 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 200 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 260 feet to a maximum #building# height of 360 feet. Such maximum #building# heights of 260 feet and 360 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 260 feet or 360 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

(c) Paragraphs (c)(3) (#Floor area# distribution) and (c)(5) (Additional setback provisions for high #buildings#) shall not apply.

(d) Paragraph (c)(4) (Maximum #residential# tower size) shall not apply. In lieu thereof, each #residential story# of a #building# located entirely above a height of 85 feet shall not exceed a gross area of 8,100 square feet in an R6 District and 11,000 square feet in an R8 District. If such #residential story# of a #building# is located partially in an R6 District and partially in an R8 District, it shall not exceed a gross area of 11,000 square feet and any portion located in an R6 district shall not exceed a gross area of 8,100 square feet.

(e) Paragraph (c)(6) shall not apply. In lieu thereof, the outermost walls of each #story# located entirely above a height of 85 feet shall be inscribed within a rectangle. The maximum length of any side of such rectangle that is parallel or within 45 degrees of being parallel to Kent Avenue, West Street or Commercial Street, whichever is closest, shall not exceed 110 feet. The maximum length of any other side of such rectangle shall not exceed 170 feet.

(f) Paragraph (c)(7) (Ground floor streetscape provisions) shall not apply. In lieu thereof, all off-street parking spaces located within 50 feet of a #street#, a #visual corridor# containing a private road, and a #shore public walkway#, #upland connection# or #supplemental public access area# and which are located on a #story# that is above the #base plane# shall be within facilities that are located behind #commercial#, #community facility# or #residential# floor space so that no portion of such parking facility, other than entrances and exits, is visible from such #streets#, #visual corridors# or publicly accessible open spaces. Such floor space shall have a minimum depth of 25 feet. Up to 5 percent of such floor space may be used for mechanical equipment provided that no floor space used for mechanical equipment is located within 15 feet of the #street wall# of the #building# below a height of 15 feet above the #base plane#, and that no exhaust vents are located on the street wall of the #building# below a height of 15 feet above the #base plane#. The remainder of such floor space shall be used for #commercial#, #community facility# or #residential floor area#. Seventy percent of the surface area of the facade of a facility containing parking spaces which are not otherwise required to be behind such #floor area# shall be composed of the same materials as the facade of the #building# in which it is located.

(g) Any roof of a facility containing off-street parking spaces, not otherwise covered by a #building#, which is larger than 400 square feet shall be landscaped. Up to 5 percent of such roof area may be used for mechanical equipment provided that such mechanical equipment is screened from view by a fence which is at least 75 percent opaque or by at least 3 feet of dense planting. Up to 25 percent of such roof area may be accessible solely from an adjacent #dwelling unit# and the remaining roof area shall be accessible for the recreational use of the occupants of the building in which it is located. Hard surfaced areas shall not cover more than 60 percent of such roof area.

(h) At least 70 percent of the width of the #streetwall# of a #building# or #buildings# fronting on a portion of a #street#, #upland connection# or #visual corridor# which is not adjacent to a #shore public walkway# or #supplemental public access area# shall be located within eight feet of such #street line# and extend to a minimum height of 30 feet.

(i) All #developments#, conversions, and #enlargements# or #extensions# which increase the existing #floor area# by more than 10 percent, shall provide along the entire #street# length of the #zoning lot#, one tree for every 25 feet of # street# frontage. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals except where the Department of Parks and Recreation determines that such tree planting would be unfeasible. Such trees shall be planted in accordance with the standards of the Department of Parks and Recreation.

62-57
Special Parking and Loading Regulations for Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1 the Special Parking and Loading Regulations of this section are further modified as follows:

The provisions of Section 62-511 and Section 62-521 shall not be applicable.

#Accessory# off-street parking spaces for #uses# permitted pursuant to Section 62-29 shall be provided in conformity with the regulations of Sections 36-21, 36-22 and 36-232 for C2-4 districts.

Any required #accessory# off-street parking spaces provided for #uses# located on a parcel identified in Waterfront Access Plan BK-1 may be located anywhere within such parcel.

62-60
DESIGN STANDARDS FOR THE WATERFRONT AREA

* * *

62-624
Maintenance and operation of waterfront public access areas

* * *

(e) Alternate plans for joint maintenance and operation in Waterfront Access Plan BK-1

For parcels identified in Waterfront Access Plan BK-1, the owners of two or more such parcels may, either for purposes of certification pursuant to Section 62-711 or at any time thereafter, submit an alternate plan to the Chair for the joint maintenance and operation of waterfront public access areas on such parcels , through an association or other entity established for this purpose or by other method. Such plan may include, in addition to provisions for maintenance and operation, alternate provisions with respect to security, liability, and any other matters set forth in paragraphs (b) and (c) of this Section, as well as special provisions for reporting and monitoring of compliance with obligations for maintenance and operation of the waterfront public access areas. Such plan and any instruments as are necessary for its implementation may be approved by the Chair and the Commissioner of Parks and Recreation upon a determination that:

(1) implementation of the plan would enhance maintenance and operation of the waterfront public access areas consistent with the purposes of this Article; and

(2) participation in the plan is available to owners of contiguous parcels identified in Waterfront Access Plan BK-1 on a equal basis.

62-70
SPECIAL REVIEW PROVISIONS

* * *

62-711
Waterfront public access and visual corridors

* * *

(e) for the #development# of a park, a site plan and all other applicable data have been submitted showing compliance with the provisions of Section 62-416 (Special regulations for zoning lots that include parks).

For any parcel identified in Waterfront Access Plan BK-1, the Chairperson shall allow for the phased implementation of all required public access areas upon certification to the Commissioner of Buildings that a plan has been submitted that provides for an amount of public access area proportionate to the amount of #floor area# being #developed# in each phase. Additionally, for any #development# located within 240 feet of a #shoreline#, the initial phase and each subsequent phase shall provide a minimum of 200 linear feet of #shore public walkway# and any adjacent #supplemental public access area# located between such #development# and such #shore public walkway#; one #upland connection# through or adjacent to the entire parcel leading to the #shore public walkway#; and at least one other connection from the #shore public walkway# to an adjacent #shore public walkway#, #street# or other #upland connection#. For any #development# located entirely beyond 240 feet of a #shoreline#, the initial phase and each subsequent phase shall also provide a minimum of 100 linear feet of #shore public walkway# and one #upland connection# through or adjacent to the entire parcel leading to the #shore public walkway#. However, no public access area need be provided for a phase consisting of a #development # in which all #residences# in such phase are affordable #residences# for #lower income households# as defined in Section 23-93, or #moderate income households# or #middle income households# as defined in Section 62-352, provided that such exemption shall only apply where 25 percent or less of the total #residential floor area#, including any applicable #floor area bonuses#, on the parcel have been #developed#.

A certificate pursuant to paragraphs (b) or (c) of this Section shall be granted on condition that an acceptable restrictive declaration is executed and filed pursuant to Section 62-14 (Requirements for Recordation).

62-80
WATERFRONT ACCESS PLANS

* * *

62-812
Elements of a Waterfront Access Plan

A Waterfront Access Plan may:

(a) on #zoning lots# where public access or #visual corridors# are required pursuant to the provisions of Sections 62-40 and 62-60, modify the size, configuration, location or design of required

waterfront public access areas or #visual corridors# within certain designated areas in order to address local conditions, provided such plan does not impose a public access or #visual corridor# requirement on any #zoning lot# greater than would otherwise be required pursuant to the provisions of Sections 62-40 or 62-60. For the purpose of determining the amount of public access, the highest standard applicable to a zoning lot may be applied regardless of any specific #use# permitted or proposed for such #zoning lot#. Within Waterfront Access Plan BK-1, the public access and #visual corridor# requirements for any parcel located within the Waterfront Access Plan may be determined by aggregating the public access and #visual corridor# requirements of each zoning lot within the parcel and such aggregated requirements may be modified within such parcel without regard to #zoning lot lines#;

* * *

62-83
Borough of Brooklyn
The following Waterfront Access Plans are hereby established within the Borough of Brooklyn. All applicable provisions of Article VI, Chapter 2, remain in effect within the areas delineated by such plans, except as expressly set forth otherwise in the plans:

BK-1: Greenpoint/ Williamsburg, as set forth in Section 62-831.

62-831
Waterfront Access Plan BK-1: Greenpoint-Williamsburg

Maps BK-1a through BK-1c in paragraph (g) of this Section show the boundaries of the area comprising the Greenpoint-Williamsburg Waterfront Access Plan and the location of certain features mandated or permitted by the Plan. The plan area has been divided into parcels consisting of tax blocks and lots and other lands as established on (date of adoption), as follows:

Parcel 1:	Block 2472, Lot 350
Parcel 2:	Block 2472, Lot 400
Parcel 3:	Block 2472, Lot 410
Parcel 4:	Block 2472, Lot 425
Parcel 5a:	Block 2472, Lot 100
Parcel 5b:	Block 2472, Lot 32 and Block 2494, Lot 6
Parcel 5c:	Block 2472 Lot 2, Block 2494 Lot 1, Block 2502 Lot 1, Block 2510 Lot 1 and Block 2520 Lot 57
Parcel 6:	Block 2472, Lot 75
Parcel 7:	Block 2520, Lot 1
Parcel 8:	Block 2530, Lots 55 and 56
Parcel 9:	Block 2530, Lots 1
Parcel 10:	Block 2538, Lot 1
Parcel 11:	Block 2543, Lot 1
Parcel 12:	Block 2556, Lots 41
Parcel 13:	Block 2556 Lot 1, Block 2564 Lot 1, Block 2567 Lot 1 and Block 2570 Lot 36
Parcel 14:	Block 2570, Lot 1
Parcel 15:	Block 2590, Lot 1
Parcel 16:	Block 2590, Lot 210
Parcel 17:	Block 2590, Lot 215
Parcel 18:	Block 2590, Lot 22
Parcel 19:	Block 2590, Lot 25
Parcel 20:	Block 2590, Lot 100 and Block 2277, Lot 1
Parcel 21:	Block 2287, Lot 1,16 and 30 and Block 2294 Lots 1 and 5
Parcel 22:	Block 2301, Lots 1, 50, 60 & 70
Parcel 23:	Block 2316, Lot 46
Parcel 24:	Block 2308, Lot 1 and Block 2316, Lot 1
Parcel 25:	Block 2324, Lot 1 & Block 2332, Lot 1
Parcel 26:	Block 2340, Lot 1
Parcel 27:	Block 2348, Lot 1

(a) Area wide modifications:

The following provisions shall apply to all #developments# required to provide public access, pursuant to Section 62-40 (REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AND VISUAL CORRIDORS):

(1) Paragraph (c) of Section 62-412 (Requirements for public access on piers) is applicable, except that a minimum of 15 feet are required along each water edge.

(2) The provisions of Section 62-61 (Design Options and Methodology) shall be inapplicable. In lieu thereof, the following provisions shall apply:

(i) All required public access areas and #visual corridors# shall comply with the general requirements set forth in Section 62-62 (General Requirements for Public Access Areas) and the specific requirements as set forth in this Section.

(ii) #Upland connections#, #visual corridors#, public access areas on #piers# and public access areas in conjunction with #floating structures# shall comply with the design requirements set forth in Sections 62-64 through 62-66, inclusive.

(iii) Public access areas are subject to the design reference standards set forth in Section 62-67 and paragraph (d) of this Section.

(3) The provisions of Section 62-623 (Supplemental public access areas) shall be inapplicable. In lieu thereof, the following provisions shall apply:

(i) A required #supplemental public access area# shall be directly connected to either a #pier# public access area, an #upland connection# or a #shore public walkway# on either its landward or seaward side and its pedestrian circulation zone shall be contiguous with the adjacent pedestrian circulation zone.

(ii) A buffer zone shall only be required where a #supplemental public access area# adjoins a non-publicly accessible portion of a #zoning lot#, in which case its minimum width shall be 15 feet.

(4) #Street# Treatment

All #streets# adjacent to a #shore public walkway# or #supplemental public access area# shall be improved as a continuation of such #shore public walkway# or #supplemental public access area#, pursuant to the design requirements of paragraph (b) of this Section, inclusive.

(b) Specific design requirements for Public Access Prototypes

The provisions of Section 62-63 (Specific Design Requirements for Public Access Prototypes) shall be inapplicable. In lieu thereof the following provisions for #shore public walkways# and #supplemental public access areas# shall apply:

(1) Greenpoint-Williamsburg Shore Public Walkway-Prototype I

(i) One circulation path with a minimum clear width of 12 feet is required.
The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path.

(ii) A minimum of one linear foot of seating shall be provided for every 100 square feet of #shore public walkway#. At least 60 percent of the required seating shall be landward of the required circulation path.

(iii) A minimum of 50 percent of the pedestrian circulation zone, excluding the required circulation path, shall be planting area. Rip rap, beach or other shoreline materials may be counted as an equivalent to planting area.

(iv) One shade tree is required for every 1,200 square feet of #shore public walkway# and one small or ornamental tree shall be required for every 750 square feet of #shore public walkway#. Trees may be located either in the pedestrian circulation zone landward of the required circulation path or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(2) Greenpoint-Williamsburg Shore Public Walkway-Prototype II

(i) The provisions of 62-621 (Shore public walkways) shall apply except that a #shore public walkway# shall have a minimum 30 foot pedestrian circulation zone and a minimum 15 foot buffer zone.

(ii) One circulation path with a minimum clear width of 12 feet is required.
The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path, in which case, the path shall be located within 20 feet of the shoreline. A secondary circulation path may be provided, with a minimum width of 10 feet. Connecting paths having a minimum width of ten feet shall be provided between the two circulation paths at intervals not to exceed 100 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 70 square feet of #shore public walkway#.

(iv) A minimum of 70 percent of the pedestrian circulation zone, excluding the required circulation path shall be planting area. A minimum of 50 percent of this planting area must be improved as lawn according to the provisions of Section 62-675 (Planting and trees).

(v) One shade tree is required for every 1,900 square feet of #shore public walkway# and shall be located in the pedestrian circulation zone. In addition, one shade, small or ornamental tree shall be required for every 850 square feet of #shore public walkway# and may be located either in the pedestrian circulation zone or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(3) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Plaza

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.
The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet. Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 40 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 25 percent of the pedestrian circulation zone shall be planting area.

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(4) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Park

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access

area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.
The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet. Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 50 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 60 percent of the pedestrian circulation zone shall be planting area with no more than 30 percent of the planting area in raised planting beds. At least 35 percent of the #supplemental public access area# shall be lawn in compliance with the standards set forth in paragraph (c)(5) of Section 62-675 (Planting and trees).

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(c) Amenities

In parcels where #supplemental public access area# is required, no more than fifteen percent of public access area may be reduced if playgrounds and other amenities are provided in accordance with the following provisions.

(1) Playgrounds
A playground shall have a minimum size of 1,000 square feet and, if applicable, there shall be a minimum of 400 feet between any two playground areas. For every five square feet of playground area provided, the total amount of required public access may be reduced by the rate of one square foot.

(2) Other amenities
A reduction in the total amount of required public access area shall be permitted according to the following table.

Amenity	Square feet reduction
Picnic table	22 sq. ft. per table, to a max. of 200 sq. ft.
Chess table	20 sq. ft. per table, to a max. of 200 sq. ft.
Telescope	10 sq. ft. per telescope, to a max. of 50 sq. ft.
Fountain/water feature	150 sq. ft. per feature, to a max. of 300 sq. ft.
Shade structure	150 sq. ft. per structure, to a max. of 300 sq. ft.

(d) Public access design reference standards
Section 62-67 is hereby modified by the following provisions.

(1) Guardrails
The provisions of paragraph (a) Section 62-671 (Guardrails, gates and other protective barriers) shall be inapplicable. In lieu thereof the following provisions for guardrails shall apply:

(i) Guardrails shall be located within waterfront public access areas continuously along any bulkhead, stabilized shore or the water edges of a #pier# or #platform# that is located within 50 feet of a circulation path; and continuously along any grade level change of 30 inches or greater adjoining or within 10 feet of a circulation path. However, guardrails shall not be required landward of any rip rap, beach or any other shoreline material that is at least 10 feet wide. If any protective barrier is provided adjacent to any rip rap, beach or other shoreline material, they shall not exceed a height of 21 inches or shall consist of a bollard and chain device. Guardrails shall not be required at access points to WD #uses# and #development# on #floating structures#. The minimal protective barrier at such locations shall be a swing gate, bollard and chain or similar device.

(iii) Guardrails shall comply with illustration A1; alternatively, illustration A2 may be used in #piers#.

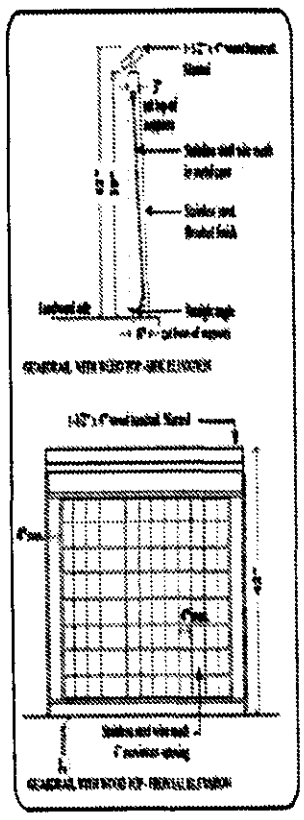

Illustration A1

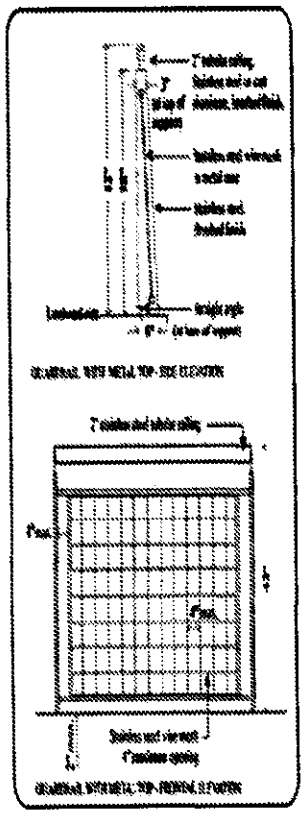

Illustration A2 (Alternate for piers)

All guardrail components and hardware shall be in stainless steel or cast aluminum, as applicable.

(2) Seating
In addition to the provisions of Section 62-672, at least fifty percent of the required seating along any #shore public walkway# or #supplemental public access area# shall comply with illustration B1 or B2 below.

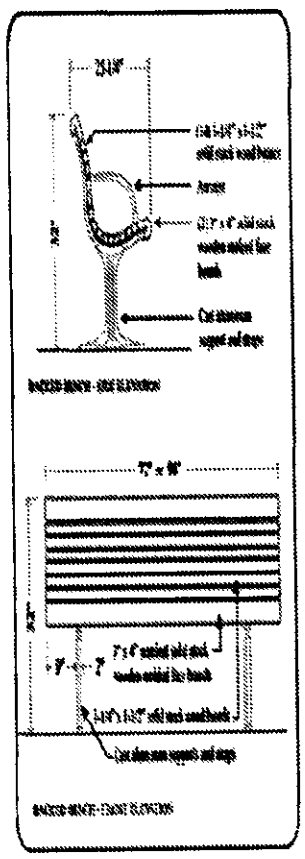

Illustration B1

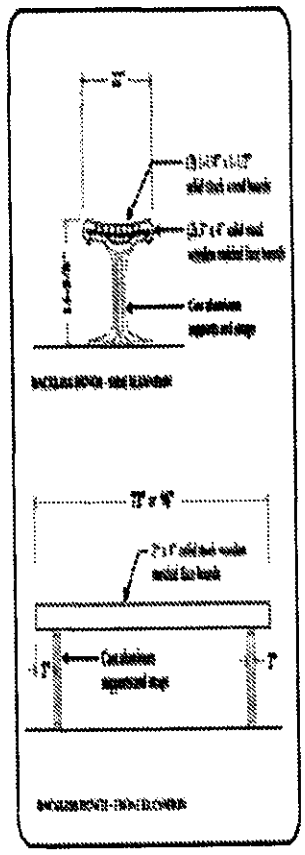

Illustration B2

All wood boards shall be made of Redwood, Jarrah or Ipe, have eased edges and ends and be treated for external use without stain or varnish.
All supports and backstraps shall be 713 tenzalloy cast aluminum, with a rust inhibitor and a top coat finish of thermosetting polyester powdercoat that is ultra-violet, chip and flake resistant. Metal components shall have a light gray or aluminum color.

(3) Lighting
In addition to the provisions of Section 62-673, the required lighting along any public access area shall comply with illustration C1 below.

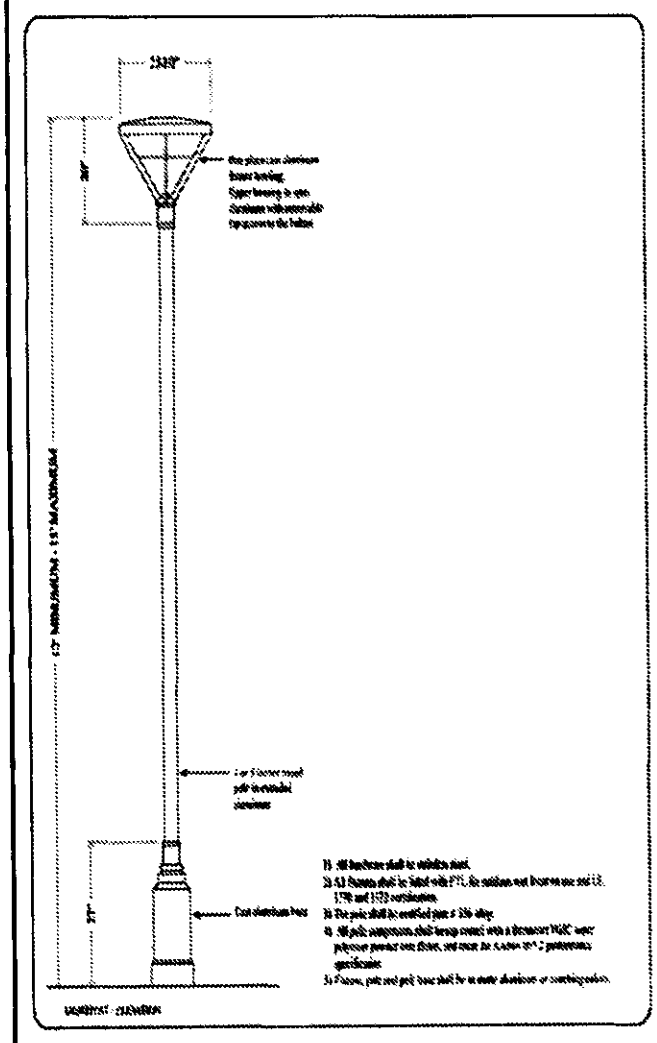

Illustration C1

(4) Planting and trees
The provisions of paragraph (c)(6) (Container planting) of Section 62-675 shall be inapplicable, unless a structural or environmental necessity is demonstrated at the time of certification.

(5) Paving
In addition to the provisions of Section 62-676, the paving for the required clear path within the #shore public walkway# shall be gray. At least fifty percent of all other paved areas within the #shore public walkway# and #supplemental public access areas# shall be paved in the same color range.

(e) Special public access provisions by parcel

The provisions of Sections 62-41 (Requirements for waterfront public access) and 62-60 (DESIGN STANDARDS FOR THE WATERFRONT AREA) are modified at the following designated locations which are shown on Map BK-1b in paragraph (g) of this Section:

(1) Parcels 1 and 2

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.
In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area# The requirements for #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#
An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is developed first shall provide an #upland connection# along the #lot line# between the two parcels. The width of the #upland connection# may be utilized by the developer of the remaining parcel in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels, according to the provisions of paragraph (f)(1) of this Section. If both parcels are developed concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

(3) Parcel 5a

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#
An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (g) of this Section.
The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot lines of Parcels 5b and 6.

(iii) #Supplemental public access area# The #supplemental public access area# shall abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. The #upland connection#, however, may cut across the #supplemental public access area# provided that no area shall be less than 5,000 square feet. All #supplemental public access areas# shall have a minimum width to depth ratio of 1.0 to 1.0 and a maximum width to depth ratio of 2.0 to 1.0. In no event shall the #supplemental public access area# be deeper than 100 feet. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.
Alternatively, a portion of the required #supplemental public access area# that is a minimum of 5,000 square feet may abut the #shore public walkway# continuously along the longest side provided that it also abuts a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-641, but shall not be counted towards satisfying the required amount of public access area on the site. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(4) Parcel 5b

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(5) Parcel 5c

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#
Two #upland connections# shall be provided between West Street and the #shore public walkway#, one each located within the prolongation of the #street lines# of Eagle Street, and Green Street, respectively.

(iii) #Supplemental public access area# Two #supplemental public access areas# shall be provided on Parcel 5c.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.
The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the pedestrian circulation zone of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access
Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(6) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5 and be subject to the following requirements:

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#
One #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (g) of this Section.
The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.

Two #upland connections# shall be provided between West Street and the #shore public walkway#, each located within the prolongation of the #street lines# of Eagle Street and Green Street, respectively.

(iii) #Supplemental public access area# Two #supplemental public access areas# shall be provided.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5 and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.
The remaining of the required #supplemental public access area# shall be located within the area bounded by the western prolongation of the north #street line# of Dupont Street, the #shore public walkway#, the northern prolongation of the eastern boundary of Parcel 6 and Parcel 6 . The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(iv) #Pier# public access
Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(7) Parcel 7

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply, except that any portion of the required #shore public walkway# where the distance between the shoreline and the boundaries of Parcel 7 is less than 17 feet shall be improved entirely as clear path.

(ii) #Supplemental public access area# The requirement for a #supplemental public access area# on Parcel 7 is waived.

(8) Parcels 9, 10 and 11

(i) #Shore public walkway#
The requirements for Prototype II described in paragraph (b)(2) of this Section shall apply.

(ii) #Supplemental public access area# For each parcel, the #supplemental public access area# requirements shall be provided to widen the pedestrian circulation zone of the #shore public walkway#, evenly distributed along the entire length of such #shore public walkway#.

(9) Parcel 13

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#
An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Milton Street.

(iii) #Supplemental public access area#
A #supplemental public access area# shall be bounded by the southern #street line# of Greenpoint Avenue, the #shore public walkway# and the northern boundary of the required Milton Street #upland connection#. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(10) Parcel 14

(i) #Shore public walkway#
The area between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# shall be improved pursuant to the requirements of Prototype II described in paragraph (b)(2) of this Section. The remaining required #shore public walkway# shall be improved pursuant to the requirements of Prototype I as described in paragraph (b)(1) of this Section.

(ii) #Upland connection#
An #upland connection# shall be provided between West Street

and the #shore public walkway#. The southern boundary of such #upland connection# shall be defined by a line between the intersection of the prolongation of the southern #street line# of Calyer Street and the western #street line# of West Street, and a point on the easterly boundary of the #shore public walkway# 30 feet north of the northern #street line# of Quay Street.

(iii) #Supplemental public access area#
Two #supplemental public access areas# shall be provided. A #supplemental public access area# with a minimum of 9,000 square feet shall be provided between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# to widen the pedestrian circulation zone of the #shore public walkway#. The remaining requirements for #supplemental public access area# shall be located in the area bounded by the southern boundary of the required Calyer Street #upland connection#, the #shore public walkway# and the southern boundary line of the parcel. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(11) Parcel 15

An #upland connection# shall be provided within the prolongation of the #street lines# of West Street, connecting Quay Street to Parcel 20.

(12) Parcels 19, 20, 21 and 22

Parcels 19, 20, 21 and 22 shall be designated as public parks as of (date of adoption).

(13) Parcel 24

(i) #Shore public walkway#
Prototype I described in paragraph (b)(1) of this Section shall apply.

(14) Parcel 25

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#
An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of North 6th Street.

(iii) #Supplemental public access area#
Two #supplemental public access areas# shall be provided.

One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet from the southern #street line# of North 7th Street. The entire #supplemental public access area#, excluding the required buffer, shall be developed as clear circulation path.

A minimum of one linear foot of seating shall be required for every 40 square feet of pedestrian circulation zone and shall be located in the required buffer zone. Four trees shall be required, at least two of which are shade trees. Small or ornamental trees located within the buffer zone shall not be counted toward the minimum requirements.

The remaining required #supplemental public access area# shall be located either on the #pier# or abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. At least 70 percent of the required #supplemental public access# shall have a width to depth ratio of 2 to 1. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access
Public access shall be provided on a #pier# located at the western terminus of North 6th Street pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(15) Parcel 26

(i) #Shore public walkway#
The requirements of Section 62-411 (Requirements for shore public walkways) shall apply, except that the minimum required width of the #shore public walkway# shall be reduced to 34 feet between North 5th Street and the northern boundary of the required #upland connection# at the prolongation of North 4th Street. The quantity of public access eliminated from the #shore public walkway# as a result of this width reduction shall be located in the triangle formed between the #shore public walkway#, the southern #street line# of the North 4th Street #upland connection# and the bulkhead line. The entirety of the #shore public walkway# shall be improved pursuant to the requirements for Prototype I described in paragraph (b)(1) of this Section.

(ii) #Upland connections#
An #upland connection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street.

(16) Parcel 27

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.
In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure#, but shall not need to be wider than 40 feet. Notwithstanding the requirements of Paragraph (c) of Section 62-62 (General Requirements for Public Access), the #shore public walkway# may be located within the #building or other structure#, and the obstructions permitted by Section 62-626, paragraph (a), shall include any supporting structural elements of the #building or other structure# and its related appurtenances. Additionally, the #shore public walkway# shall have a minimum clear path of 12 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area# The requirements for #supplemental public access# shall be waived.

(f) Special visual corridor provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan are shown on Map BK-1c in paragraph (g) of this Section and shall be as follows:

(1) Parcels 3 and 4
A #visual corridor# shall be provided through Parcels 3 and 4 to the pierhead line within a flexible area along the #lot lines# between them.

Whichever parcel develops second shall complete he required clearance to comply with the #visual corridor# requirements along the #upland connection# already provided in accordance with the requirements of paragraph (e)(2)(ii) of this Section. If both parcels are developed concurrently, then the requirements can be divided equally along the #lot line# between the parcels.

(2) Parcel 5a

A #visual corridor# shall be provided through Parcel 5a to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(3) Parcel 5b

Two #visual corridors# shall be provided through Parcel 5b to the pierhead line as the prolongation of the #street lines# of West Street and Dupont Street, respectively.

(4) Parcel 5c

(i) Three #visual corridors# shall be provided through Parcel 5c to the pierhead line as the prolongation of the #street lines# of West Street, Eagle Street and Green Street.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be permitted obstructions along the #visual corridor# along Green Street.

(5) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5, subject to the following #visual corridors# requirements:

(i) One #visual corridor# shall be provided through Parcel 5 to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6. Four #visual corridors# shall be provided through Parcel 5 to the pierhead line, each located as the prolongation of the #street lines# of West Street, Dupont Street, Eagle Street and Green Street, respectively.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be allowed along the #visual corridor# along Green Street.

(6) Parcel 13

Two #visual corridors# shall be provided through Parcel 13 to the pierhead line as the prolongation of the #street lines# of Milton Street and Oak Street, respectively.

(7) Parcel 14
A #visual corridor# shall be provided through Parcel 14 as the prolongation of the #street lines# of Oak Street.

(8) Parcel 15

A #visual corridor# shall be provided

though Parcel 15 as the prolongation of the #street lines# of West Street.

(9) Parcel 25

A #visual corridor# shall be provided through Parcel 25 as the prolongation of the #street lines# of North 6th Street.

#Special Mixed Use District# - 8
Greenpoint-Williamsburg, Brooklyn
The #Special Mixed Use District# - 8 is established in Greenpoint-Williamsburg in Brooklyn as indicated on the #zoning maps#.

* * *

BROOKLYN CB - 1 **C 050111(A) ZMK**
Application submitted by the Department of City Planning pursuant to Sections 197-c and 201 of the New York City Charter and proposed for modification pursuant to Section 2-06(c) (1) of the Uniform Land Use Review Procedure for an amendment of the Zoning Map, Section Nos. 8d, 9b, 12c, 12d, 13a and 13b:

1. **eliminating a Special Franklin Street Mixed Use District (FR) bounded by** Eagle Street, Franklin Street, Java Street, a line 175 feet westerly of Franklin Street, a line midway between India Street and Java Street, a line 220 feet westerly of Franklin Street, Huron Street, a line 295 feet westerly of Franklin Street, a line midway between Green Street and Huron Street, a line 245 feet westerly of Franklin Street, Green Street, a line 170 feet westerly of Franklin Street, Freeman Street, a line 130 feet westerly of Franklin Street, a line midway between Eagle Street and Freeman Street, and a line 82 feet westerly of Franklin Street;

2. **eliminating a Special Northside Mixed Use District (N) bounded by:**

   a. Wythe Avenue, North 9th Street, Berry Street, North 10th Street, a line midway between Berry Street and Bedford Avenue, North 12th Street, Union Avenue, Bayard Street, Leonard Street, Manhattan Avenue; Driggs Avenue, McGuinness Boulevard South, Brooklyn Queens Expressway Service Road, Brooklyn Queens Expressway, Metropolitan Avenue, North 4th Street, Berry Street, and North 7th Street, and excluding the area bounded by a line 100 feet southeasterly of Bedford Avenue, North 11th Street, Roebling Street, North 10th Street, Union Avenue, Withers Street, North 9th Street, Roebling Street, North 8th Street, Driggs Avenue, and North 9th Street;

   b. a line 100 feet northerly of Nassau Avenue, Lorimer Street, Nassau Avenue, and Guernsey Street; and

   c. Nassau Avenue, a line midway between Manhattan Avenue and Lorimer Street, Driggs Avenue, and Lorimer Street;

3. **eliminating a C1-3 District within an existing R6 District bounded by** Hope Street, Havemeyer Street, South 1st Street, and a line 150 feet northwesterly of Havemeyer Street;

4. **changing from an R6(M1-2) District to an R6 District property bounded by:**

   a. a line 100 feet southeasterly of Havemeyer Street, North 6th Street, Brooklyn Queens Expressway, and Metropolitan Avenue; and

   b. Havemeyer Street, the southeasterly centerline prolongation of North 5th Street, and Metropolitan Avenue;

5. **changing from a C8-2 District to an R6 District property bounded by:**

   a. North 1st Street, Driggs Avenue, Fillimore Place, Roebling Street, a line midway between Grand Street and South 1st Street, and Bedford Avenue; and

   b. a line midway between Hope Street and Grand Street, Marcy Avenue, Grand Street, and Havemeyer Street;

6. **changing from an M1-1 District to an R6 District property bounded by:**

   a. the U.S. Pierhead Line, the easterly boundary line of a Park and its northerly and southerly prolongations, Commercial Street, Franklin Street, Eagle Street, a line 200 feet westerly of Franklin Street, the northerly street line of Dupoint Street and its westerly prolongation, West Street and its northerly centerline prolongation, and the southwesterly boundary line of a Park and its southerly and northerly prolongations;

   b. a line midway between Huron Street and India Street, a line 100 feet easterly of Franklin Street, India Street, and Franklin Street; and

   c. Grand Street, Berry Street, South 3rd Street, and Wythe Avenue;

7. **changing from an M1-2(R6) District to an R6 District property bounded by** Roebling Street, North 5th Street, Havemeyer Street, Metropolitan Avenue, and North 4th Street;

8. **changing from an M3-1 District to an R6 District property bounded by:**

   a. the U.S. Pierhead Line, a line passing through two points: one on the U.S. Pierhead and Bulkhead Line distance 373 feet westerly (as measured along the Pierhead and Bulkhead Line) from the intersection of the Pierhead and Bulkhead Line and the westerly street line of Manhattan Avenue, and the other on the northerly street line of Commercial Street distant 86 feet westerly (as measured along the Street line) from the intersection of the northerly street line of Commercial Street and the westerly street line of Manhattan Avenue, Commercial Street, and the easterly boundary line of a Park and its southeasterly and northwesterly prolongations, and excluding the area bounded by a line 70 feet southeasterly of the U.S. Bulkhead Line, a line 607 feet southwesterly of the 2nd named course, a line 100 feet northwesterly of Commercial Street, and a line 30 feet northeasterly of a Park;

   b. the U.S. Pierhead Line, the westerly boundary line of a Park and its southerly and northerly prolongations, West Street and its northerly centerline prolongation, the westerly prolongation of the northerly street line of Dupont Street, a line 70 feet easterly of the U.S. Bulkhead Line, the westerly centerline prolongation of Green Street, a line 125 feet westerly of West Street, Eagle Street, West Street, Quay Street, Franklin Street, the northerly boundary line of a Park and its southeasterly prolongation, the U.S. Pierhead Line, a line 100 feet northerly of Quay Street and its westerly prolongation, a line 100 feet westerly of West Street, a line 100 feet southerly of Oak Street and its westerly prolongation, the U.S. Pierhead Line, Kent Street and its westerly centerline prolongation, a line 275 feet westerly of West Street, and Huron Street and its westerly centerline prolongation, and excluding the area bounded by Greenpoint Avenue, a line 100 feet westerly of West Street, Oak Street, a line 500 feet westerly of West Street, Milton Street, and a line 250 feet westerly of West Street; and

   c. the U.S. Pierhead Line, North 7th Street and its northwesterly centerline prolongation, Kent Avenue, North 3rd Street and its northwesterly centerline prolongation, the U.S. Pierhead Line, the northwesterly prolongation of the northeasterly street line of North 4th Street, a line 150 feet northwesterly of Kent Avenue, the northwesterly prolongation of North 5th Street, a line 200 feet northwesterly of Kent Avenue, and a line 100 feet northeasterly of North 6th Street and its northwesterly prolongation;

9. **changing from an R6(M1-1) District to an R6A District property bounded by** a line midway between Eagle Street and Freeman Street, a line 100 feet westerly of Franklin Street, Freeman Street, and a line 130 feet westerly of Franklin Street;

10. **changing from an R6(M1-2) District to an R6A District property bounded by:**

   a. Berry Street, North 10th Street, a line

midway between Berry Street and Bedford Avenue, North 12th Street, Bedford Avenue, North 11th Street, a line 100 feet southeasterly of Bedford Avenue, and a line midway between North 10th Street and North 9th Street; and

b. a line 100 feet northwesterly of Havemeyer Street, North 7th Street, Havemeyer Street, North 6th Street, a line 100 feet southeasterly of Havemeyer Street, and North 5th Street and its southeasterly centerline prolongation;

11. **changing from an M1-1 District to an R6A District property bounded by:**

a. Eagle Street, a line 82 feet westerly of Franklin Street, a line midway between Eagle Street and Freeman Street, and a line 100 feet westerly of Franklin Street; and

b. Wythe Avenue, a line 90 feet southwesterly of North 1st Street, Berry Street, and Grand Street;

12. **changing from an R6(M1-1) District to an R6B District property bounded by:**

a. Freeman Street, Franklin Street, Java Street, a line 175 feet westerly of Franklin Street, a line midway between India Street and Java Street, a line 220 feet westerly of Franklin Street, Huron Street, a line 295 feet westerly of Franklin Street, a line midway between Huron Street and Green Street, a line 245 feet westerly of Franklin Street, Green Street, and a line 170 feet westerly of Franklin Street; and

b. Driggs Avenue, McGuinness Boulevard South, Brooklyn Queens Expressway Service Road, Graham Avenue-Via Vespucci, Bayard Street, a line 100 feet southwesterly of Graham Avenue-Via Vespucci, Engert Avenue, and Eckford Street;

13. **changing from an R6(M1-2) District to an R6B District property bounded by** Wythe Avenue, North 9th Street, Berry Street, a line midway between North 10th Street and North 9th Street, a line 100 feet southeasterly of Bedford Avenue, North 9th Street, a line 100 northwesterly of Driggs Avenue, North 8th Street, a line 100 feet northwesterly of Roebling Street, North 7th Street, a line 100 feet northwesterly of Havemeyer Street, North 5th Street, Roebling Street, North 4th Street, Driggs Avenue, North 5th Street, Bedford Avenue, North 4th Street, Berry Street, a line midway between 6th Street and North 5th Street, a line 100 feet northwesterly of Bedford Avenue, a line midway between North 7th Street and North 6th Street, Berry Street and North 7th Street;

14. **changing from an M1-1 District to an R6B District property bounded by:**

a. Freeman Street, a line 170 feet westerly of Franklin Street, Green Street, a line 245 feet westerly of Franklin Street, a line midway between Green Street and Huron Street, a line 100 feet easterly of West Street, Green Street, and a line 125 feet easterly of West Street; and

b. Huron Street, a line 220 feet westerly of Franklin Street, a line midway between India Street and Java Street, a line 175 feet westerly of Franklin Street, Java Street, and a line 100 feet easterly of West Street;

15. **changing from an M1-2 District to an R6B District property bounded by** a line 250 feet southeasterly of Wythe Avenue, a line midway between North 10th Street and North 9th Street, Berry Street, and North 9th Street;

16. **changing from an M1-1 District to an R8 District property bounded by** the northerly street line of Dupont Street and its westerly prolongation, a line 200 feet westerly of Franklin Street, Eagle Street, West Street, a line midway between Dupont Street and Eagle Street, a line 100 feet easterly of West Street, Dupont Street, and West Street;

17. **changing from an M3-1 District to an R8 District property bounded by:**

a. a line 70 feet southeasterly of the U.S. Bulkhead Line, a line 607 feet southwesterly of the 2nd named course of 7a above, a line 100 feet northwesterly of Commercial Street, and a line 30 feet northeasterly of a Park;

b. the westerly prolongation of the northerly street line of Dupont Street, West Street, Dupont Street, a line 100 feet easterly of West Street, a line midway between Dupont Street and Eagle Street, West Street, Eagle Street, a line 125 feet westerly of West Street, the westerly centerline prolongation of Green Street, and a line 70 feet easterly of the U.S. Bulkhead Line;

c. Huron Street and its westerly centerline prolongation, a line 275 feet westerly of West Street, Kent Street and its westerly centerline prolongation, and the U.S. Pierhead Line;

d. Greenpoint Avenue, a line 100 feet westerly of West Street, Oak Street, a line 500 feet westerly of West Street, Milton Street, and a line 250 feet westerly of West Street;

e. a line 100 feet southerly of Oak Street and its westerly prolongation, a line 100 feet westerly of West Street, a line 100 feet northerly of Quay Street and its westerly prolongation, and the U.S. Pierhead Line; and

f. a line 100 feet northeasterly of North 6th Street and itsnorthwesterly prolongation, a line 200 feet northwesterly of Kent Avenue, North 5th Street, a line 150 feet northwesterly of Kent Avenue, the northwesterly prolongation of the northeasterly street line of North 4th Street, and the U.S. Pierhead Line;

18. **changing from an M3-1 District to an M1-2 District property bounded by:**

a. the U.S. Pierhead and Bulkhead Line, Pulaski Bridge, Box Street, Commercial Street, and a line passing through two points: one on the U.S. Pierhead and Bulkhead Line distance 373 feet westerly (as measured along the Pierhead and Bulkhead Line) from the intersection of the Pierhead and Bulkhead Line and the westerly street line of Manhattan Avenue, and the other on the northerly street line of Commercial Street distant 86 feet westerly (as measured along the Street line) from the intersection of the northerly street line of Commercial Street and the westerly street line of Manhattan Avenue; and

b. Meserole Avenue, Gem Street, North 15th Street, Wythe Avenue, Banker Street, a line midway between Wythe Avenue and Berry Street and its northeasterly prolongation, North 12th Street, Wythe Avenue, North 9th Street, Kent Avenue, and Franklin Street;

19. **changing from an R6(M1-1) District to an M1-2/R6 District property bounded by:**

a. a line 100 feet northerly of Nassau Avenue, Lorimer Street, Nassau Avenue, and Guernsey Street;

b. Nassau Avenue, a line midway between Manhattan Avenue and Lorimer Street, Driggs Avenue, and Lorimer Street;

c. Driggs Avenue, Leonard Street, and Manhattan A venue; and

d. Engert Avenue, Eckford Street, Manhattan Avenue, Bayard Street, and Leonard Street;

20. **changing from a C8-1 District to an M1-2/R6 District property bounded by** Brooklyn Queens Expressway, Richardson Street, a line 150 feet westerly of Graham Avenue-Via Vespucci, Frost Street, Manhattan Avenue, a line midway between Frost Street and Withers Street, a line 100 feet easterly of Leonard Street, Withers Street, Leonard Street, a line midway between Withers Street and Jackson Street, a line 150 feet easterly of Lorimer Street, Jackson Street, a line 100 feet westerly of Lorimer Street, and Skillman Avenue;

21. **changing from an M1-1 District to an M1-2/R6 District property bounded by:**

a. Commercial Street, Box Street, a line 300 feet westerly of Manhattan Avenue, and Clay Street;

b. Box Street and its easterly centerline prolongation, McGuinness Boulevard (east), Clay Street, and a line 100 feet westerly of McGuinness Boulevard (west);

c. a line 250 feet southerly of Engert Avenue, a line midway between Russell Street and humboldt Street, Brooklyn Queens Expressway, Brooklyn Queens Expressway Service Road, McGuinness Boulev ard South, and Humboldt Street;

d. Metropolitan Avenue, Union Avenue, Borinquen Place, Marcy Avenue, a line midway between Hope Street and Grand Street, Havemeyer Street, Hope Street, Roebling Street, Fillimore Place, Driggs Avenue, North 1st Street, and Bedford Avenue; and

e. South 4th Street, South 5th Place and its southerly centerline prolongation, South 5th Street, and Wythe Avenue;

22. **changing from an M1-1(R6) District to an M1-2/R6 District property bounded by** Bayard Street, Graham Avenue-Via Vespucci, Brooklyn Queens Expressway Service Road, Brooklyn Queens Expressway, Leonard Street, Richardson Street, and a line 100 feet westerly of Manhattan Avenue;

23. **changing from an M1-2 District to an M1-2/R6 District property bounded by:**

a. Berry street, Nassau Avenue, Lorimer Street, Driggs Avenue, Manhattan Avenue, Leonard Street, Bayard Street, Union Avenue, and North 12th Street;

b. Driggs Avenue, North 4th Street, and Metropolitan Avenue; and

c. Kent Avenue, South 4th Street, a line 100 feet westerly of Wythe Avenue, South 3rd Street, Wythe Avenue, and South 5th Street;

24. **changing from an M1-2(R6) District to an M1-2/R6 District property bounded by** a line 100 feet southeasterly of Havemeyer Street, Union Avenue, the westerly centerline prolongation of Jackson Street, a line 100 feet easterly of Union Avenue, Withers Street, Lorimer Street, Frost Street, Leonard Street, Brooklyn Queens Expressway, and North 6th Street and its southeasterly centerline prolongation;

25. **changing from an M3-1 District to an M1-2/R6 District property bounded by** Kent Avenue, a line 140 feet southwesterly of North 1st Street, Wythe Avenue, a line midway between South 1st Street and South 2nd Street, a line 200 feet northwesterly of Wythe Avenue, a line midway between Grand Street and South 1st Street, a line 100 feet southeasterly of Kent Avenue, and Grand Street;

26. **changing from an R6(M1-1) District to an M1-2/R6A District property bounded by:**

a. Driggs Avenue, a line midway between Eckford Street and Leonard Street, a line 100 feet northerly of Engert Avenue, Eckford Street, Engert Avenue, and Leonard Street; and

b. Engert Avenue, a line 100 feet southwesterly of Graham Avenue-Via Vespucci, Bayard Street, Manhattan Avenue, and Eckford Street;

27. **changing from an R6(M1-2) District to an M1-2/R6A District property bounded by:**

a. North 12th Street, Union Avenue, Bayard Street, Leonard Street, Richardson Street, a line 100 feet westerly of Lorimer Street, a line midway between Bayard Street and Richardson Street, a line 100 feet easterly of Union Avenue, Richardson Street, North 11th Street, and Driggs Avenue;

b. North 9th Street, Driggs Avenue, North 8th Street, and a line 100 feet northwesterly of Driggs Avenue;

c. North 8th Street, Roebling Street, North 7th Street, and a line 100 feet northwesterly of Roebling Street; and

d. Berry Street, a line midway between North 7th Street and North 6th Street, a line 100 feet northwesterly of Bedford Avenue, and a line midway between North 6th Street and North 5th Street;

28. **changing from an M1-1 District to an M1-2/R6A District property bounded by:**

a. Box Street, a line 100 feet westerly of Pulaski Bridge, Clay Street and a line 300 feet westerly of Manhattan Avenue;

b. Clay Street, a line 430 feet easterly of Franklin Street, Dupont Street, Franklin Street, and Commercial Street;

c. Eagle Street, a line 100 feet westerly of Franklin Street, a line midway between Eagle Street and Freeman Street, a line 130 feet westerly of Franklin Street, Freeman Street, a line 125 feet easterly of West Street, Green Street, a line 100 feet easterly of West Street, Java Street, Franklin Street, Oak Street, a line 100 feet easterly of West Street, Calyer Street, Franklin Street, Quay Street, and West Street;

d. Green Street, a line 320 feet easterly of Franklin Street, a line midway between Freeman Street and Green Street, a line 100 feet westerly of Manhattan Avenue, a line midway between Green Street and Huron Street, a line 125 feet easterly of Franklin Street, a line 50 feet northerly of Huron Street, and Franklin Street; and

e. North 3rd Street, Berry Street, a line 90 feet southwesterly of North 1st Street, and Wythe Avenue;

29. **changing from an M1-1(R6) District to an M1-2/R6A District property bounded by** Bayard Street, a line 100 feet westerly of Manhattan Avenue, Richardson Street, and Leonard Street;

30. **changing from an M1-2 District to an M1-2/6A District property bounded by:**

a. a line 250 feet southeasterly of Wythe Avenue, North 12th Street, a line midway between Berry Street and Bedford Street, North 10th Street, Berry Street, and a line midway between North 10th Street and North 9th Street;

b. North 11th Street, Roebling Street, North 10th Street, Union Avenue, Withers Street, North 9th Street, Roebling Street, North 8th Street, Driggs Avenue, North 9th Street, and a line 100 feet southeasterly of Bedford Avenue; and

c. Wythe Avenue, a line midway between North 7th Street and North 6th Street, Berry Street, and North 3rd Street;

31. **changing from an M1-2(R6) District to an M1-2/R6A District property bounded by:**

a. Roebling Street, North 11th Street, Richardson Street, a line 100 feet easterly of Union Avenue, the westerly centerline prolongation of Jackson Street, Union Avenue, a line 100 feet southeasterly of Havemeyer Street and its northeasterly prolongation, North 6th Street, Havemeyer Street, North 7th Street, Roebling Street, North 9th Street, Withers Street, Union Avenue, and North 10th Street; and

b. Richardson Street, Leonard Street, Frost Street, and Lorimer Street;

32. **changing from an M3-1 District to an M1-2/R6A District property bounded by** North 9th Street, Wythe Avenue, North 8th Street, a line 100 feet southeasterly of Kent Avenue, a line midway between North 7th Street and North 6th Street, Wythe Avenue, a line 140 feet southwesterly of North 1st Street, and Kent Avenue;

33. **changing from an R6(M1-1) District to an M1-2/R6B District property bounded by** Driggs Avenue, Eckford Street, a line 100 feet northerly of Engert Avenue, and a line midway between Leonard Street and Eckford Street;

34. **changing from an R6(M1-2) District to an M1-2/R6B District property bounded by:**

a. a line midway between Bayard Street and Richardson Street, a line 100 feet westerly of Lorimer Street, Richardson Street, and a line 100 feet easterly of Union Avenue; and

b. North 5th Street, Driggs Avenue, a line 150 feet southwesterly of North 5th Street, and a line 25 feet northwesterly of Driggs Avenue;

35. **changing from an M1-1 District to an M1-2/R6B District property bounded by** Oak Street, Franklin Street, Calyer Street and a line 100 feet westerly of West Street;

36. **changing from an M1-2 District to an M1-2/R6B District property bounded by:**

a. North 7th Street, Berry Street, a line midway between North 7th Street and North 6th Street, and Wythe Avenue; and

b. North 4th Street, Driggs Avenue, North 3rd Street, and Berry Street;

37. **changing from an M1-2(R6) District to an M1-2/R6B District property bounded by:**

a. Richardson Street, Lorimer Street, Withers Street, and a line 100 feet easterly of Union Avenue; and

b. Bedford Avenue, North 5th Street, a line 25 feet northwesterly of Driggs Avenue, a line 150 feet southwesterly of North 5th Street, Driggs Avenue, and North 4th Street;

38. **changing from an M3-1 District to an M1-2/R6B District property bounded by** North 8th Street, Wythe Avenue, a line midway between North 7th Street and North 6th Street, and a line 100 feet southeasterly of Kent Avenue;

39. **changing from an M1-2(R6) District to an M1-2/R7A District property bounded by** North 12th Street, Driggs Avenue, North 11th Street, and Bedford Avenue;

40. **establishing within a proposed R6 District a C1-4 District bounded by** Roebling Street, a line midway between Hope Street and Grand Street, a line 150 feet northwesterly of Havemeyer Street, Hope Street, Havemeyer Street, South 1st Street, a line 150 feet northwesterly of Havemeyer Street, and a line midway between Grand Street and South 1st Street;

41. **establishing within a proposed R6 District a C2-4 District bounded by:**

a. a line 150 feet northwesterly of Commercial Street, a line passing through two points: one on the U.S. Pierhead and Bulkhead Line distance 373 feet westerly (as measured along the Pierhead and Bulkhead Line) from the intersection of the Pierhead and Bulkhead Line and the westerly street line of Manhattan Avenue, and the other on the northerly street line of Commercial Street distant 86 feet westerly (as measured along the Street line) from the intersection of the northerly street line of Commercial Street and the westerly street line of Manhattan Avenue, Commercial Street, the northeasterly boundary line of a Park and its southeasterly prolongation, a line 100 feet northwesterly of Commercial Street, and a line 607 feet southwesterly of the 2nd named course;

b. Eagle Street, West Street, Quay Street, Franklin Street, the northerly boundary line of a Park and its southeasterly prolongation, a line 225 feet easterly of the easterly boundary line of a Park, Quay Street, a line 100 feet westerly of West Street, Greenpoint Avenue, a line 250 feet westerly of West Street, a line midway between Kent Street and Greenpoint Avenue, a line 150 feet westerly of West Street, a line 100 feet northerly of Huron Street, a line 605 feet westerly of West Street, the westerly centerline prolongation of Green Street, and a line 125 feet westerly of West Street;

c. Greenpoint Avenue, a line 250 feet westerly of West Street, a line 100 feet southerly of Greenpoint Avenue, and a line 460 feet westerly of West Street;

d. a line midway between Kent Street and Greenpoint Avenue, a line 150 feet westerly of Manhattan Avenue, a line midway between Greenpoint Avenue and Milton Street, and Franklin Street;

e. North 7th Street, Kent Avenue, North 3rd Street, a line 150 feet northwesterly of Kent Avenue, North 5th Street, and a line 200 feet northwesterly of Kent Avenue; and

f. North 1st Street, Driggs Avenue, a line 60 feet southwesterly of Fillimore Place, Roebling street, a line midway between Grand Street and South 1st Street, and Bedford Avenue;

42. **establishing within a proposed R6A District a C1-4 District bounded by** North 10th Street, Bedford Avenue, a line midway between North 10th Street and North 9th Street, and a line 100feet northwesterly of Bedford Avenue;

43. **establishing within a proposed R6A District a C2-4 District bounded by** Wythe Street, a line 90 feet southwesterly of North 1st Street, Berry Street, and Grand Street;

44. **establishing within a proposed R6B District a C1-4 District bounded by** a line 100 feet northwesterly of Bedford Avenue, a line midway between North 10th Street and North 9th Street, Bedford Avenue, North 8th Street, a line 100 feet southeasterly of Bedford Avenue, North 5th Street, Bedford Avenue, and North 4th Street;

45. **establishing within a proposed R6B District a C2-4 District bounded by** a line midway between Freeman Street and Green Street, Franklin Street, a line midway between Green Street and Huron Street, a line 100 feet easterly of West Street, Green Street, and a line 125 feet easterly of West Street;

46. **establishing within a proposed R8 District a C2-4 District bounded by:**

a. the westerly prolongation of the southerly street line of upont Street, West Street, Dupont Street, a line 100 feet easterly of West Street, Eagle Street and a line 125 feet westerly of West Street;

b. a line 100 feet southerly of Freeman Street, a line 125 feet westerly of West Street, the westerly centerline prolongation of Green Street, and a line 605 feet westerly of West Street;

c. Greenpoint Avenue, a line 100 feet westerly of West Street, a line 100 feet southerly of Greenpoint Avenue, and a line 250 feet westerly of West Street; and

d. a line 100 feet northeasterly of North 6th Street, a line 200 feet northwesterly of Kent Avenue, a line 100 feet southwesterly of North 6th Street, and a line 555 feet northwesterly of Kent Avenue; and

47. **establishing a Special Mixed Use District (MX-8) bounded by:**

a. Box Street and its easterly centerline prolongation, McGuinness Boulevard (east), Clay Street, a line 430 feet easterly of Franklin Street, Dupont Street, Franklin Street, and Commercial Street;

b. Eagle Street, a line 100 feet westerly of Franklin Street, Freeman Street, a line 125 feet easterly of West Street, Green Street, a line 100 feet easterly of West Street, Java Street, Franklin Street, Quay Street, and West Street;

c. Green Street, a line 320 feet easterly of Franklin Street, a line midway between Freeman Street and Green Street, a line 100 feet westerly of Manhattan Avenue, a line midway between Green Street and Huron Street, a line 125 feet easterly of Franklin Street, a line 50 feet northerly of Huron Street, and Franklin Street;

d. a line 250 feet southeasterly of Wythe Avenue, North 12th Street, Berry Street, Nassau Avenue, Guernsey Street, a line 100 feet northerly of Nassau avenue, Lorimer Street, Nassau avenue, a line midway between Manhattan avenue and Lorimer Street, Driggs Avenue, Eckford Street, Engert Avenue, a line 100 feet southwesterly of Graham Avenue-Via Vespucci, Bayard Street, Graham Avenue-Via Vespucci, Brooklyn Queens Expressway Service Road, McGuinness Boulevard South, Humboldt Street, a line 250 feet southerly of Engert Avenue, a line midway between Russell Street and Humboldt Street, Brooklyn Queens Expressway, Richardson Street, a line 150 feet westerly of Graham Avenue-Via Vespucci, Frost Street, Manhattan Avenue, a line midway between Frost street and Withers Street, a line 100 feet easterly of Leonard Street, Withers Street, Leonard Street, a line midway between Withers Street and Jackson Street, a line 150 feet easterly of Lorimer Street, Jackson Street, a line 100 feet westerly of Lorimer Street, Skillman Avenue, Brooklyn Queens Expressway, North 6th Street, Havemeyer Street, North 7th Street, a line 100 feet northwesterly of Roebling Street, North 8th Street, a line 100 feet northwesterly of Driggs Avenue, North 9th Street, a line 100 feet southeasterly of Bedford Avenue, and a line midway between North 10th Street and North 9th Street;

e. Kent Avenue, North 9th Street, Wythe Avenue, North 7th Street, Berry Street, a line midway between North 7th Street and North 6th Street, a line 100 feet northwesterly of Bedford Avenue, a line midway between North 6th Street and North 5th Street, Berry Street, North 4th Street, Bedford Avenue, North 5th Street, Driggs Avenue, North 4th Street, Metropolitan Avenue, Union Avenue, Borinquen Place, Marcy Avenue, a line midway between Hope Street and Grand Street, Havemeyer Street, Hope Street, Roebling Street, Fillimore Place, Driggs Avenue, North 1st Street, Bedford Avenue, Metropolitan Avenue, North 3rd Street, Berry Street, a line 90 feet southerly of North 1st Street, Wythe Avenue, a line midway between South 1st Street and South 2nd Street, a line 200 feet westerly of Wythe Avenue, a line midway between Grand Street and South 1st Street, a line 100 feet easterly of Kent Avenue, and Grand Street; and

f. South 3rd Street, Wythe Avenue, South 4th Street, South 5th Place and its southerly centerline prolongation, South 5th Street, Kent Avenue, South 4th Street, and a line 100 feet westerly of Wythe Avenue;

as shown on a diagram (for illustrative purposes only) dated December 22, 2004, and subject to the conditions of CEQR Declaration E-138.

CITYWIDE **N 050148(A) ZRY**

Application submitted by the Department of City Planning pursuant to Section 201 of the New York City Charter, for an amendment of the Zoning Resolution of the City of New York, relating to Article I, Chapter 1 (Title, Establishment of Controls, and Interpretation of Regulations) and Chapter 2 (Construction of Language and Definitions); Article II, Chapter 3 (Bulk Regulations for Residential Buildings in Residential Districts) and Chapter 5 (Accessory Off-Street Parking and Loading Regulations), establishing an R2A district.

Matter in underline is new, to be added;
matter in ~~strikeout~~ is old, to be deleted;
Matter within # # is defined in Section12-10;
* * * indicate where unchanged text appears in the Zoning Resolution

* * *

ARTICLE 1
GENERAL PROVISIONS
Chapter 1
Title, Establishment of Controls, and Interpretation of Regulations

* * *

11-12
Establishment of Districts

In order to carry out the purposes and provisions of this Resolution, the following districts are hereby established:

Residence Districts

R1-1	Single-Family Detached Residence District
R1-2	Single-Family Detached Residence District
R2	Single-Family Detached Residence District
R2A	Single-Family Detached Residence District
R2X	Single-Family Detached Residence District

* * *

12-10
Definitions

* * *

Floor area

"Floor area" is the sum of the gross areas of the several floors of a #building# or #buildings#, measured from the exterior faces of exterior walls or from the center lines of walls separating two #buildings#. In particular, #floor area# includes:

* * *

(d) attic space (whether or not a floor has been laid) providing structural headroom of five feet or more in R2A, R2X, R3, R4 or R5 Districts and eight feet or more in other districts;

* * *

(i) floor space used for #accessory# off-street parking spaces provided in any #story# after June 30, 1989:

(1) within #detached# or #semi-detached single-# or #two-family residences# in R2A, R2X, R3, R4 or R5 Districts, except that

(a) in R2A Districts, #floor area# within such #residences# shall include only floor space in excess of 300 square feet for one such space, and

(b) in R3, R4A and R4-1 Districts in #lower density growth management areas#, #floor area# within such #residences# shall include only floor space in

excess of 300 square feet for one such space and in excess of 500 square feet for two such spaces.;

* * *

(6) which is unenclosed and covered by a #residential building or other structure# for at least 50 percent of such #accessory# off-street parking space in R2A, R2X, R3, R4 and R5 Districts.....

* * *

However, the #floor area# of a #building# shall not include:

* * *

(4) attic space (whether or not a floor ~~actually~~ has been laid) providing structural headroom of less than five feet in R2A, R2X, R3, R4 or R5 Districts and less than eight feet in other districts;

* * *

(6) floor space used for #accessory# off-street parking spaces provided in any #story#:

(i) up to 200 square feet per required space existing on June 30, 1989 within #residential buildings# in R3, R4 or R5 Districts, except that:

(a) in R2A Districts, #floor area# shall not include up to 300 square feet for one required space, and

(b) for #detached# or #semi-detached single-# or #two-family residences# in R3, R4A and R4-1 Districts within #lower density growth management areas#, #floor area# shall not include up to 300 square feet for one required space and up to 500 square feet for two required spaces,

* * *

(9) except in R2A, R2X, R3, R4 and R5 Districts, the lowest #story# (whether a #basement# or otherwise) of a #residential building#, provided that:

(i) such #building# contains not more than two #stories# above such #story#;

* * *

Chapter 3
Bulk Regulations for Residential Buildings in Residence Districts

* * *

23-00
APPLICABILITY AND GENERAL PURPOSES

* * *

23-10
OPEN SPACE AND FLOOR AREA REGULATIONS

* * *

23-141
In Rl, R2, R3, R4 or R5 Districts

R1 R2 R3 R4 R5

Except as otherwise provided in Section 23-144 (For non-profit residences for the elderly in R3, R4, R5, R6 and R7 Districts), in the districts indicated, the minimum required #open space# or #open space ratio#, the maximum #lot coverage# and the maximum #floor area ratio# for any #building# on a #zoning lot# shall be as set forth in the following tables:

(a)

District	Minimum Required #Open Space Ratio#	Maximum #Floor Area Ratio#
R1 R2*	150.0	0.50

* R2A and R2X ~~is~~ are subject to the provisions of paragraph (b).

(b)

District	Maximum #Lot Coverage# (in percent)	Minimum Required #Open Space# (in percent)	Maximum #Floor Area Ratio#
R3A R3X	governed by #yard# requirements		.50
R4A R4-1	governed by #yard# requirements		.75
R2X	governed by #yard# requirements		.85
R2A	35	65	.50
R3-1			
R3-2	35	65	.50
R4	45	55	.75
R4B	55	45	.90
R5	55	45	1.25
R5B	55	45	1.35

* * *

(5) In R2A Districts, the permitted #floor area# may be increased by up to 300 square feet for a detached garage located in a #rear yard#, except where a parking space is provided within a #residential building#.

* * *

23-22
Maximum Number of Dwelling Units or Rooming Units

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts, as indicated, the maximum number of #dwelling units# or #rooming units# shall equal the maximum #residential floor area# permitted on the #zoning lot# divided by the applicable factor in the following table. In R1 through R5 Districts, no #rooming units# shall be permitted and any #dwelling unit# shall be occupied by only one #family#. Fractions equal to or greater than three-quarters resulting from this calculation shall be considered to be one #dwelling unit# or #rooming unit#.

* * *

FACTOR FOR DETERMINING MAXIMUM NUMBER OF DWELLING UNITS OR ROOMING UNITS

District	Factor for #Dwelling Units#	Factor for #Rooming Units#
R1-1	4,750	
R1-2	2,850	
R2, R2A	1,900	
R2X	2,900	

* * *

23-30
LOT AREA AND LOT WIDTH REGULATIONS

* * *

23-32
Minimum Lot Area or Lot Width for Residences

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts, as indicated, except as provided in Section 23-33 (Special Provisions for Existing Small Lots), no #residence# is permitted on a #zoning lot# with a total #lot area# or #lot width# less than as set forth in the following table:

REQUIRED MINIMUM LOT AREA AND LOT WIDTH

Type of #Residence#	Minimum #Lot Area# (in sq. ft.)	Minimum #Lot Width# (in feet)	District
#Single-family detached#	9,500	100	R1-1
	5,700	60	R1-2
	3,800	40	R2 R2A
	2,850	30	R2X

* * *

23-40
YARD REGULATIONS

* * *

23-44
Permitted Obstructions in Required Yards or Rear Yard Equivalents

* * *

(b) In any #rear yard# or #rear yard equivalent#:

Parking spaces, off-street, #accessory#, provided that:

(1) the height of a #building# used for such purposes, if accessory to a #single#- or #two-family residence#, shall not exceed one #story#, and if located in an R1 District such #building# may not be nearer than five feet to a #rear lot line# or #side lot line#. In R2A Districts, detached garages shall be included in #lot coverage#;

* * *

23-441
Location of garages in side yards of corner lots

In all #Residence Districts#, on #corner lots#, enclosed #accessory# off-street parking spaces shall not be considered obstructions in any portion of a #side yard# which is within 30 feet of both #side lot lines#, provided that in an R1 or R2A District, on a #corner lot# whose mean width is 45 feet or more, no structure used for such purposes shall be less than five feet from any #side lot line#. In R2A Districts, detached garages shall be included in #lot coverage#.

* * *

23-461
Side yards for single- or two-family residences

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

(a) In all districts, as indicated, for #single-family detached residences# or, where permitted, for #two-family detached residences#, #side yards# shall be provided as set forth in the following table, except that on #corner lots# in #lower density growth management areas#, and on #corner lots# in R2A Districts, one #side yard# shall be at least 20 feet in width:

MINIMUM REQUIRED SIDE YARD

Number Required	Required Total Width (in feet)	Required Minimum Width of any #Side Yard# (in feet)	District
2	35	15	R1-1
2	20	8	R1-2
2	13	5	R2 R2A R3-1 R3-2 R4-R10
2	10	2*	R2X R3X R4A
1	8	0*	R3A R4-1 R4B R5B

* * *

23-541
Within one hundred feet of corners

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts, as indicated, except within #lower density growth management areas#, and except R2A Districts, no #rear yard# shall be required within 100 feet of the point of intersection of two #street lines# intersecting at an angle of 135 degrees or less.

23-542
Along short dimension of block

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts, as indicated, except within #lower density growth management areas#, and except R2A Districts, whenever a #front lot line# of a #zoning lot# coincides with all or part of a #street line# measuring less than 230 feet in length between two intersecting #streets#, no #rear yard# shall be required within 100 feet of such #front lot line#.

* * *

23-60
HEIGHT AND SETBACK REGULATIONS

* * *

23-621
Permitted obstructions in certain districts

R2A R3 R4 R4A R4-1

(a) In the districts indicated, permitted obstructions are limited to those listed in paragraphs (b), (e) and (g) of Section 23-62 (Permitted Obstructions)

* * *

23-631
Height and setback in R1, R2, R3, R4 and R5 Districts

R1 R2

(a) In the districts indicated, except R2A and R2X Districts, the front wall or any other portion of a #building or other structure# shall not penetrate the #sky exposure plane# set forth in the following table:

* * *

R2A R2X R3 R4 R4A R4-1

(b) In the districts indicated, the height and setback of a #building or other structure# shall be as set forth herein except where modified pursuant to paragraphs (g) and (h) of this Section.

For the purposes of this Section, where #base planes# of different elevations apply to different portions of a #building or other structure#, each such portion of the #building# may be considered to be a separate #building#. Furthermore, for the purposes of this Section, #building segments# may be considered to be separate #buildings# and abutting #semi-detached buildings# may be considered to be one #building#.

The perimeter walls of a #building or other structure# are those portions of the outermost walls enclosing the #floor area# within a #building or other structure# at any level and height is measured from the #base plane#. Perimeter walls are subject to setback regulations at a maximum height above the #base plane# of:

21 feet	R2A R2X R3 R4A
25 feet	R4 R4-1
26 feet*	R3 R4A R4-1

* within #lower density growth management areas#

* * *

25-631
Location and width of curb cuts in certain districts
All curb cuts shall comply with the provisions of this Section, except that in #lower density growth management areas#, the provisions of Section 25-632 shall apply.

(a) For #zoning lots# with #residential buildings# where not more than two #accessory# parking spaces are required:

R2A

(1) In R2A Districts, the maximum width of a curb cut shall be 18 feet, and the maximum width of a driveway within a #front yard# shall be 20 feet. All #zoning lots# shall maintain at least 18 feet of uninterrupted curb space along each #street# frontage.

R2X R3 R4 R5

~~(1)~~(2) In the districts indicated, except R4B and R5B Districts, and except as otherwise provided in Section 25-632 (Prohibition of curb cuts in certain districts), curb cuts shall comply with the following provisions:

* * *

R6 R7 R8

~~(2)~~(3) In the districts indicated without a letter suffix, for #zoning lots# comprised of #single-#, #two-#, or three-#family residences# or #building segments#, the width and location of curb cuts shall be in accordance with the provisions of paragraph (a)(1), inclusive, of this Section.

R4B R5B R6B R7B R8B

~~(3)~~(4) In the districts indicated, for #attached residential buildings# and rowhouses, and for multiple dwellings in R5B, R6B, R7B and R8B Districts, new #residential developments# shall provide a minimum distance of 34 feet of uninterrupted curb space between all curb cuts constructed after June 30, 1989.

QUEENS CB - 11 **C 050149 ZMQ**
Application submitted by the Department of City Planning pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section Nos. 10c, 10d, 11a and 11b:

1. eliminating from an existing R2 District a C1-2 District bounded by:
   a) a line 150 feet northerly of Horace Harding Expressway, 211th Street, a line 100 feet northerly of Horace Harding

Expressway, and 210th Street; and

b) a line 150 feet northerly of Horace Harding Expressway, 217th Street, a line 100 feet northerly of Horace Harding Expressway, and 215th Street;

2. eliminating from an existing R3-2 District a C1-2 District bounded by:

a) a line 150 feet northerly of 35th Avenue, the westerly service road of Clearview Expressway, a line 100 feet northerly of 35th Avenue, and 205th Street; and

b) a line 150 feet northerly of 48th Avenue, a line 150 feet westerly of Bell Boulevard, 47th Avenue, a line 100 feet westerly of Bell Boulevard, a line 100 feet northerly of 48th Avenue, 212th Street, 48th Avenue, 212th Street, a line 100 feet southerly of 48th Avenue, Bell boulevard, a line 150 feet southerly of 48th Avenue, 211th Street, 48th Avenue, and 211th Street;

3. changing from an R2 District to an R1-2 District property bounded by:

a) 24th Avenue and its northeasterly centerline prolongation, Cross Island Parkway, 28th Avenue, and Bell Boulevard;

b) a line 100 feet northerly of 29th Avenue, 216th Street, a line 130 feet northerly of 31st Road, a line 150 feet easterly of 216th Street, 31st Road, a line 250 feet easterly of 216th Street, 32nd Avenue, 215th place, 33rd Road, 214th Place, 33rd Avenue, 214th Street, a line 100 feet northerly of 33rd Avenue, Bell Boulevard, the easterly prolongation of the center line of 32nd Avenue, 214th Street, 29th Avenue, and Bell Boulevard; and

c) 35th Avenue and its easterly centerline prolongation, Cross Island Parkway, a line 100 feet northerly of 41st Avenue (straight portion) and its easterly prolongation, 223rd Street, 38th Avenue, 222nd Street, 37th Avenue, and 221st Street and its northerly centerline prolongation;

4. changing from an R2 District to an R2A District property bounded by:

a) 26th Avenue, Bell Boulevard, 28th Avenue, Cross Island Parkway, 35th Avenue and its easterly centerline prolongation, 221st Street and its northerly centerline prolongation, 37th Avenue, 222nd Street, 38th Avenue, 223rd Street, a line 100 feet northerly of 41st Avenue (straight portion) and its easterly prolongation, Cross Island Parkway, the northerly boundary line of Long Island Rail Road (LIRR) right-of-way, 221st Street, 41st Avenue and its easterly centerline prolongation, 217th Street, Corbett Road, 35th Avenue, 214th Place, 34th Road and its westerly centerline prolongation, a line 100 feet westerly of Bell Boulevard and its southerly prolongation, a line midway between Bell Boulevard and 213th Street and its northerly prolongation, 36th Avenue, 213th Street, 38th Avenue, a line midway between 212th and 213th Streets, 39th Avenue, 208th Street, the center line of LIRR right-of-way, Francis Lewis Boulevard, 38th Avenue, 203rd Street, 36th Avenue, and the westerly service road of Clearview Expressway; except within the area as described in 3 b);

b) a line 100 feet southerly of Northern Boulevard, a line 100 feet easterly of 220th Place, 46th Avenue, the westerly, northerly and easterly boundary of Alley Park, 46th Avenue, Springfield Boulevard, 47th Avenue, a line midway between 217th and 218th Streets, 46th Avenue, and 218th Street; and

c) 47th Road, Springfield Boulevard, the southerly, westerly and northerly boundary of Alley Park, Springfield Boulevard, the southerly service road of Horace Harding Expressway, Oceania Street, the northerly service road of Horace Harding Expressway, a line midway between 207th and 208th Streets, 58th Avenue, 208th Street, 56th Avenue, 207th Street, 53rd Avenue, a line midway between 207th and 208th Streets, 48th Avenue, Oceania Street, a line 100 feet southerly of 48th Avenue, 211th Street, a line 150 feet southerly of 48th Avenue, Bell Boulevard, 48th Avenue, and 217th Street;

5. changing from an R3-1 District to an R3X District property bounded by:

a) 35th Avenue, 214th Place, 39th Avenue, Corp. Stone Street, 36th Avenue, and a line 150 feet easterly of Bell Boulevard (straight portion);

b) the northerly boundary line of LIRR right-of-way, 217th Street and its northerly centerline prolongation, a line 100 feet southerly of 43rd Avenue, 215th Place, 43rd Avenue, a line midway between 215th Street and 215th Place, 42nd Avenue, and 216th Street and its northerly centerline prolongation; and

6. changing from an R3-1 District to an R3A District property bounded by 45th Road, a line 150 feet westerly of Bell Boulevard, 46th Road, and 211th Street;

7. changing from an R3-2 District to an R2A District property bounded by:

a) 34th Avenue, 205th Street, a line 100 feet southerly of 34th Avenue, the westerly service road of Clearview Expressway, a line 100 feet northwesterly of 35th Avenue, 201st Street, 35th Avenue, a line midway between 200th and 201st Streets, a line 100 feet southerly of 34th Avenue, and 202nd Street;

b) a line 100 feet southerly of 36th Avenue, 203rd Street, 38th Avenue, Francis Lewis Boulevard, a line 100 feet northerly of 38th Avenue and its westerly prolongation, and a line midway between 202nd and 203rd Streets;

c) 39th Avenue, Corp. Kennedy Street, a line 100 feet northerly of 41st Avenue, and 209th Street;

d) the center line of LIRR right-of way, a line midway between 208th and 209th Streets and its northerly prolongation, a line 100 feet northerly of 42nd Avenue, and a line midway between 201st and 202nd Streets and its northerly prolongation;

e) a line 100 feet southerly of 42nd Avenue, Corp. Kennedy Street, a line 100 feet northerly of Northern Boulevard, Clearview Expressway, a line 100 feet southerly of 43rd Avenue, 205th Street, 43rd Avenue, 203rd Street, a line 100 feet northerly of 43rd Avenue, and a line midway between 202nd and 203rd Streets;

f) Corbett Road, 217th Street, 39th Avenue, and 216th Street;

g) 41st Avenue and its center line prolongation, 221st Street, the northerly boundary line of LIRR right-of-way, Cross Island Parkway, the southerly boundary line of LIRR right-of-way, 223rd Street, 43rd Avenue, and 217th Street and its northerly centerline prolongation; and

h) a line 100 feet southerly of 48th Avenue, Bell Boulevard, a line 150 feet southerly of 48th Avenue, and 211th Street;

8. changing from an R3-2 District to an R3A District property bounded by:

a) a line 100 feet southerly of 34th Avenue, a line midway between 200th and 201st Streets, 35th Avenue, and Jordan Street;

b) a line 75 feet southeasterly of 35th Avenue, 203rd Street, a line 75 feet southerly of 35th Avenue, a line midway between 204th and 205th Streets, 36th Avenue, 203rd Street, a line 100 feet southerly of 36th Avenue, a line midway between 202nd and 203rd Streets, a line 100 feet northerly of 38th Avenue, a line midway between 200th and 201st Streets, a line 100 feet northerly of 36th Avenue, and 201st Street; and

b) 45th Drive, 211th Street, 47th Avenue, and Oceania Street;

9. changing from an R3-2 District to an R3X District property bounded by:

a) 35th Avenue, Corbett Drive, 216th Street, 39th Avenue, 217th Street and its southerly centerline prolongation, the northerly boundary line of the LIRR right-of-way, the southerly prolongation of the center line of 215th Street, 41st Avenue, a line 100 feet easterly of the southerly prolongation of the easterly street line of 214th Place, the easterly prolongation of the center line of 41st Avenue, and 214th Place;

b) 43rd Avenue, a line midway between 222nd and 223rd Streets, a line 100 feet northerly of Northern Boulevard, and 217th Street; and

c) 45th Avenue, a line 100 feet easterly of 202nd Street, a line 100 feet southerly of 45th Avenue, a line 100 feet southerly of Northern Boulevard, 204th Street, 47th Avenue, 202nd Street, Rocky Hill Road, 47th Avenue, and Francis Lewis Boulevard;

10. changing from an R3-2 District to an R3-1 District property bounded by:

a) a line 100 feet southerly of Northern Boulevard, Clearview Expressway, 45th Road, 211th Street, 45th Drive, Oceania Street, 48th Avenue, Rocky Hill Road, 202nd Street, 47th Avenue, and 204th Street; and

b) 47th Avenue, a line 100 feet westerly of 213th Street, a line 100 feet northerly of 48th Avenue, and a line 100 feet easterly of 210th Street;

11. changing from an R3-2 District to an R4B District property bounded by 47th Avenue, a line 100 feet easterly of 210th Street, a line 100 feet northerly of 48th Avenue, a line 100 feet westerly of 213th Street, 47th Avenue, Bell Boulevard, a line 100 feet southerly of 48th Avenue, Oceania Street, 48th Avenue, and Oceania Street;

12. changing from an R3-2 District to an R4-1 District property bounded by 34th Avenue, the westerly service road of Clearview Expressway, a line 100 feet southerly of 34th Avenue, and 205th Street;

13. changing from an R4 District to an R3X District property bounded by 34th Road, 214th Place, 35th Avenue, and a line 100 feet westerly of 214th Place;

14. changing from an R4 District to an R4B District property bounded by a line 100 feet southerly of Northern Boulevard, a line midway between 215th Place and 216th Street, 46th Avenue, 215th Place, a line 100 feet southerly of 46th Avenue, a line midway between 215th Street and 215th Place, 48th Avenue, Bell Boulevard, 47th Avenue, a line 150 feet westerly of Bell Boulevard, 45th Road, and a line 100 feet easterly of Bell Boulevard; and

15. changing from an R4A District to an R2A District property bounded by 39th Avenue, 210th Street, a line 100 feet northerly of 41st Avenue, and Corp. Kennedy Street;

as shown in a diagram (for illustrative purposes only) dated November 1, 2004.

QUEENS CB - 12 **C 050194 ZMQ**

Application submitted by the Department of City Planning pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section Nos. 18c, 18d, 19a, and 19b:

1. Changing from an R3-2 District to an R3X District property bounded by Guy R. Brewer Boulevard, 134th Avenue, a line midway between Guy R. Brewer Boulevard and 161st Street, a line 110 feet southeasterly of 134th Avenue, a line 100 feet northeasterly of Rockaway Boulevard, a line 140 feet southwesterly of 154th Street, 132nd Avenue, 153rd Street, and Baisley Boulevard; and

2. Changing from an R3-2 District to an R3-1 District property bounded by Guy R. Brewer Boulevard, North Conduit Avenue, Baisley Boulevard South, 133rd Avenue, Grannatt Place, 132nd Street, Baisley Boulevard South, Baisley Boulevard, 153rd Street, 132nd Street, a line 140 feet southwesterly of 154th Street, a line 100 feet northeasterly of Rockaway Boulevard, a line 110 feet southeasterly of 134th Avenue, a line midway between Guy R. Brewer Boulevard and 161st Street, and 134th Street;

as shown on a diagram (for illustrative purposes only) dated December 6, 2004.

The Subcommittee on Planning, Dispositions and Concessions will hold public hearings on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 1:00 P.M. on Monday, April 4, 2005:

MANHATTAN CB - 11 **C 050072 HAM**

Application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

a) the designation of property located at 435-437 and 439 East 119th Street (Block 1807, Lots 15 and 16), as an Urban Development Action Area; and

b) an Urban Development Action Area Project for such area; and

pursuant to Section 197-c of the New York City Charter for the disposition of such property to a developer selected by HPD;

to facilitate development of a seven-story building, tentatively known as Project GreenHope, an adult residential facility funded by the New York State Homeless Housing Assistance Program.

MANHATTAN CB - 11 **C 050073 ZSM**

Application submitted by the Department of Housing Preservation and Development, pursuant to Sections 197-c and 201 of the New York City Charter for the grant of a special permit, pursuant to Section 74-902 of the Zoning Resolution to permit the allowable community facility floor area ratio of Section 24-11 (Maximum Floor Area and Percentage of Lot Coverage) to apply to a proposed approximately 36,225 square foot, 7-story Non-Profit Institution with Sleeping Accommodations (U.G. 3A), on property located at 435-439 East 119th Street (Block 1807, Lots 15 and 16), in an R7-2 District.

Proposals subject to Council review and action pursuant to the Urban Development Action Area Act, Article 16 of the New York General Municipal Law, at the request of the Department of Housing Preservation and Development ("HPD"), which requests that the Council:

1. Find that the present status of the listed areas tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is

consistent with the policy and purposes of Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3. Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law;

4. Approve the project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law; and

5. Approve an exemption of the project from real property taxes pursuant to Section 696 of the General Municipal Law for Non-ULURP Nos. 20055423 HAK through 20055425 HAK.

All of the following text in Article IX, Chapter 8 is new but not underlined.

Article IX - Special Purpose Districts
Chapter 8
Special West Chelsea District

98-00
GENERAL PURPOSES
The "Special West Chelsea District" established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. These general goals include among others, the following specific purposes:

(a) to encourage and guide the development of West Chelsea as a dynamic mixed use neighborhood;
(b) to encourage the development of residential uses along appropriate avenues and streets;
(c) to encourage and support the growth of arts-related uses in West Chelsea;
(d) to facilitate the restoration and reuse of the #High Line# elevated rail line as an accessible, public open space through special height and setback regulations, #High Line# improvement bonuses and the transfer of development rights from the #High Line# Transfer Corridor;
(e) to ensure that the form and use of new buildings relates to and enhances neighborhood character and the #High Line# open space;
(f) to create and provide a transition to the lower-scale Chelsea Historic District to the east;
(g) to create and provide a transition to the Hudson Yards area to the north; and
(h) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues, consistent with the foregoing purposes.

98-01
Definitions
Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are as set forth in Section 12-10 (DEFINITIONS).

High Line
The "High Line" shall for the purposes of this resolution refer to the elevated rail line structure and associated elevated easement located between Gansevoort Street and West 30th Street.

High Line bed
The "High Line bed" is the highest level of the horizontal surface (platform) of the #High Line# elevated rail line structure as of (the effective date of amendment), as shown in Diagram 7, in Appendix C of this Chapter. For the purposes of this Chapter, the level of the #High Line bed# is the average level of the #High Line bed# on a #zoning lot# over which the #High Line# passes.

High Line frontage
"High Line frontage" is that portion of a #building# that faces and is located within 15 feet of the west side and 25 feet of the east side of the #High Line#.

High Line Transfer Corridor
The "High Line Transfer Corridor" is an area within which the #High Line# is located, as specified in Appendix B of this Chapter, where development rights may be transferred to receiving sites in certain Subareas in the #Special West Chelsea District#, pursuant to the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-02
General Provisions
The provisions of this Chapter shall apply to any #zoning lot#, or portion thereof, within the #Special West Chelsea District#, except that the provisions of Section 98-17 (Air Space over a Railroad or Transit Right-of-way or Yard) and Section 98-26 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall also apply to any #zoning lot# south of the #Special West Chelsea District# over which the #High Line# passes. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

The provisions regarding the transfer of #floor area# set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive, and the #High Line Improvement Bonus# in Subareas D, E, and F, and G and I set forth in Section 98-25 shall be effective upon the issuance of a final and binding Certificate of Interim Trail Use (CITU) by the Federal Surface Transportation Board and the execution of a trail use agreement between the City and CSX Transportation, Inc., or its successor, or upon a determination by the Office of the Corporation Counsel that the restoration and reuse of the #High Line# as an accessible, public open space has been obtained pursuant to an alternative mechanism which protects the interests of the city.
Upon transfer of the #High Line# to the City pursuant to [ULURP Site Selection/Acquisition Application] in accordance with such CITU and trail use agreement, the following shall apply:

(a) the provisions regarding the issuance of building permits set forth in Section 98-26 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall be effective; and
(b) any area within the tax lot located at Section 3, Block 8224, Lot 111, as of (effective date of amendment), which is separated from other portions of such tax lot by bounding streets, shall be considered a separate #zoning lot#; and
(c) Underlying #use# and bulk regulations shall not apply to #uses# and #buildings and other structures# constructed on the #High Line# specifically in connection with its use as a public open space.

98-03
District Plan and Maps
The regulations of this Chapter are designed to implement the #Special West Chelsea District# Plan.

The District Plan includes the following maps and illustrative diagrams in Appendices A, B, and C:

Appendix A	Special West Chelsea District and Subareas
Appendix B	High Line Transfer Corridor Location and Floor Area Ratio
Appendix C	Illustrative Diagrams of the High Line and Building Envelopes for Sites Adjacent to the High Line
Diagram 1	Street wall and High Line frontage regulations in Subareas C and F
Diagram 2	Street wall and High Line frontage regulations in Subarea A
Diagram 3	Subarea G requirements
Diagram 4	High Line Improvement Area for Zoning Lots Divided by District Boundaries in Subareas D, E and F
Diagram 5	Subarea I requirements
Diagram 6	High Line Access Easement Volume Parameters
Diagram 7	High Line bed and frontages
Appendix D	Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea G
Appendix E	Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E and F, or within Subarea I

The maps and diagrams are hereby incorporated and made part of this Resolution. They are incorporated for the purpose of illustrating requirements or specifying locations where the special regulations and requirements set forth in the text of this Chapter shall apply.

98-04
Subareas and High Line Transfer Corridor
In order to carry out the provisions of this Chapter, nine Subareas (Subareas A through I), and a #High Line Transfer Corridor# are established within the #Special West Chelsea District#.

Within each of the Subareas and the #High Line Transfer Corridor#, certain special regulations apply that do not apply within the remainder of the #Special West Chelsea District#. The locations of the nine Subareas are detailed in Appendix A of this Chapter. The location of the #High Line Transfer Corridor# is detailed in Appendix B of this Chapter,

The Subareas and the #High Line Transfer Corridor# are subject to all other regulations of the #Special West Chelsea District# and the underlying district regulations except as otherwise specified in this Chapter.

98-05
Applicability of District Regulations

98-051
Applicability of Chapter 1 of Article 1

(a) Within the #Special West Chelsea District#, Section 11-15 (Environmental Requirements) shall apply, except that prior to issuing a building permit for any #development#, or for an #enlargement#, #extension# or a change of #use#, on a lot that has an (E) designation for hazardous material contamination, noise or air quality, the Department of Buildings shall be furnished with a report from the Department of Environmental Protection (DEP) of the City of New York stating:

(1) in the case of an (E) designation for hazardous material contamination, that environmental requirements related to the (E) designation have been met for that lot; or
(2) in the case of an (E) designation for noise or air quality, that the plans and drawings for such #development# or #enlargement# will result in compliance with the environmental requirements related to the (E) designation.

(b) Section 11-332 (Extension of period to complete construction) shall apply, except that not withstanding the provisions of paragraph (a) of such Section, in the event that other construction for which a building permit has been lawfully issued and for which construction has been commenced but not completed on (effective date of amendment), such other construction may be continued provided that the construction is completed and a temporary or permanent certificate of occupancy is obtained not later than (one year after effective date of amendment).

98-10
SPECIAL USE AND PARKING REGULATIONS WITHIN THE SPECIAL WEST CHELSEA DISTRICT

98-11
Modification of Use Regulations in C6 Districts
In Subarea G, the provisions of Section 32-25 (Use Group 16), paragraph D. (Heavy Service, Wholesale, or Storage Establishments) are modified to permit, in #C6 Districts#,

warehouse #uses# only in #cellars# located wholly below #curb level#.

98-12
Modification of Use Regulations in M1 Districts
In the #Special West Chelsea District#, the provisions of Section 42-10 (USES PERMITTED AS-OF-RIGHT) and 42-30 (USES PERMITTED BY SPECIAL PERMIT) are modified to permit, as-of-right, without limitation, in M1 Districts, museums and non-commercial art galleries as listed in Use Group 3.

98-13
Location Within Buildings
In any #C6 District# in the #Special West Chelsea District#, the provisions of Section 32-422 (Location of floors occupied by non-residential uses) are modified to permit non-#residential uses# on the same #story# as a #residential use# or on a story higher than that occupied by #residential uses#, provided that the non-#residential uses#:

(a) are located in a portion of the #building# that has separate direct access to the #street# with no access to the #residential# portion of the #building# at any #story#; and

(b) are not located directly over any portion of a #building# containing #dwelling units#, except this limitation shall not preclude the location of:

(1) #residential# lobby space below or on the same #story# as non-#residential uses#; or

(2) a #commercial use# that fronts on the #High Line# and is located within five feet of the level of the #High Line bed#.

98-14
Ground Floor Use and Transparency Requirements on Tenth Avenue
The special ground floor #use# and glazing regulations of this Section apply to that portion of a #building or other structure# fronting on Tenth Avenue in the #Special West Chelsea District#.
#Uses# located on the ground floor level or within five feet of #curb level#, and within 25 feet of the #street line# shall be limited to #commercial uses# permitted by the underlying district or museums or non-commercial art galleries as listed in Use Group 3. A building's #street# frontage shall be allocated exclusively to such #uses#, except for lobby space or entryways. In no event shall the length of #street# frontage occupied by lobby space or entryways exceed, in total, 40 feet or 50 percent of the building's total #street# frontage, whichever is less.

For any #development# or #enlargement#, each ground floor #street wall# shall be glazed with materials which may include show windows, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 70 percent of such ground floor #street wall# surface, The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall be not higher than two feet above the level of the adjoining sidewalk or public access area and shall be no less than eight feet in height measured from such lowest point. Not less than 50 percent of such ground floor #street wall# surface shall be glazed with transparent materials, and up to 20 percent of such ground floor #street wall# may be glazed with translucent materials.

98-141
Transparency requirements within Subareas G and I
The transparency requirements of this Section shall apply within Subareas G and I to all portions of #developments# and #enlargements# facing and located within 25 feet of the #High Line#, except for portions of #buildings# within 25 feet of the #High Line# that contain #dwelling units#. At least 70 percent of such frontage, to be measured from the level of the #High Line bed#, shall be glazed and transparent and at least 75 percent of the glazed surface shall be fully transparent. The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall not be higher than four feet above the level of the #High Line bed#, and shall be no less than eight feet in height measured from such lowest point.

98-15
Security Gates
All security gates installed after (effective date of amendment) that are swung, drawn, or lowered to secure #commercial# or #community facility# premises shall, when closed, permit visibility of at least 75 percent of the façade area covered by such gate, when viewed from the #street#, except that this provision shall not apply to entrances or exits to parking facilities.

98-16
Signs
The #sign# regulations of the underlying districts in the #Special West Chelsea District# shall not apply to #signs# located within 50 feet of the #High Line#, except for signs located entirely below the level of the #High Line# bed. In lieu thereof, the #sign# regulations of a C1 district shall apply, except that #accessory signs# located within the #High Line frontage# may have a maximum height of 20 feet above the level of the #High Line bed#.

No signs affixed to or resting upon the #High Line# shall be permitted, except as pursuant to a signage plan for the #High Line#, as authorized by the City Planning Commission, provided the Commission finds that such signage plan will:

(a) enhance the use of the #High Line# by providing signage that is consistent with the use of the #High Line# as a public open space;

(b) provide, at a minimum, directional, informational, and interpretive signage consistent with the use of the #High Line# as a public open space;

(c) be integrated with the design of the #High Line# open space; and

(d) not adversely affect development adjacent to the #High Line# and in the surrounding neighborhood

98-17
Air Space Over a Railroad or Transit Right-of-way or Yard
For the purposes of this Resolution, the #High Line# shall not be considered a railroad or transit right-of-way and the provisions of Sections 32-44 (Air Space over a Railroad or Transit Right-of-way or Yard) and 42-462 (Air Space over a Railroad or Transit Right-of-way or Yard) shall not apply.

98-18
Parking Regulations in Subarea G
#Accessory# off-street parking spaces for existing or new governmental offices may be located on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided such spaces are located within Subarea G and in a facility, or portion thereof, that is entirely below #curb level# and that no more than 377 spaces are provided within such facility. For purposes of this Section, the governmental offices on Block 689, Lot 17 (as of the effective date) may have up to 377 #accessory# off-street parking spaces in such facility.

98-19
Lighting
All exterior light sources located within the #High Line frontage# shall be shielded from direct view from the #High Line#.

98-20
FLOOR AREA AND LOT COVERAGE REGULATIONS
The #floor area# provisions of this Section 98-20, inclusive, shall apply. Furthermore, special #floor area# transfer provisions are set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-21
Maximum Floor Area Ratio outside of Subareas
For all #zoning lots# or portions thereof located outside of Subareas A through I, the maximum #floor area ratios# of the applicable underlying district shall apply.

98-22
Maximum Floor Area Ratio and Lot Coverage in Subareas
For all #zoning lots# or portions thereof located in Subareas A through I, the maximum #floor area ratios#, #open space ratios# and #lot coverages# of the applicable underlying district shall not apply. In lieu thereof, the maximum #floor area ratio# permitted for #commercial#, #community facility#, and #residential uses#, separately or in combination, shall be as specified in the following table. For #residential use#, the maximum #lot coverage# shall be 70 percent for #interior# or #through lots# and 80 percent for #corner lots#, except that no maximum #lot coverage# shall apply to any #zoning lot# comprising a #corner lot# of 5,000 square feet or less.

Maximum Floor Area Ratio by Subarea

Sub Area	Basic Maximum #floor area ratio#	Increase in FAR Transfer of Development Rights from # Hight Line Transfer Corridor#*	Increase in Far via #Hight Line# Bonuses	Increase in Far via Inclusionary Housing Bonus***	Maximum permitted #floor area ratio#
A	7.5	2.5	See Note 1	2.0	12.0
B	5.0	2.5	See Note 1	–	7.5
C	5.0	2.5	–	–	7.5
D	5.0	2.5 Note 2	2.5** Note 2	–	7.5
E	5.0	1.0 Note 2	1.0** Notes 1 & 2	–	6.0
F	5.0	1.0 Note 2	1.0** See Note 2	–	6.0
G	7.5	–	2.5**	–	10.0

I	5.0	2.5	–	–	7.5
I □	5.0	1.0	1.5**	–	7.5

* Pursuant to Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive

** Pursuant to Sections 98-25 (High Line Improvement Bonus)

*** Maximum FAR achievable for #residential developments# or #enlargements# through the provision of Inclusionary Housing, as specified in Section 23-90 (INCLUSIONARY HOUSING)

□ For zoning lots over which the #High Line# passes

Note 1
In Subareas A, B, and E, the applicable basic maximum #floor area ratio# of that portion of the #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, and the applicable maximum permitted #floor area ratio# increased accordingly, by certification of the Chairperson of the City Planning Commission, pursuant to Section 98-35 (High Line Transfer Corridor Bonus).

Note 2
For certain zoning lots located in Subareas D, E, and F, the provisions of Section 98-25 (#High Line# Improvement Bonus) may apply in lieu of the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), subject to the provisions of Section 98-24 (Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E, and F).

98-23
Special Floor Area and Lot Coverage Rules for Zoning Lots Over Which the High Line Passes
#Lot coverage# requirements shall not apply to the portion of the #zoning lot# that lies directly beneath the #High Line#. The remaining portion of the #zoning lot# shall be considered a separate #zoning lot# for the purposes of calculating maximum #lot coverage#. Easement volumes provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS) and access structures constructed therein, as well as any structure required pursuant to Appendix D or E in relation to an increase in the basic maximum #floor area # ratio of a #zoning lot# pursuant to Section 98-25 (#High Line# Improvement Bonus), shall not be considered #floor area# or #lot coverage#.

98-24
Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E and F
For #zoning lots# fronting on West 18th Street and located partially in Subarea D, partially in Subarea E and partially in Subarea F, #floor area# may be transferred across zoning district and subarea boundaries without restriction. Either the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR) or Section 98-25 (High Line Improvement Bonus) may apply to such #zoning lot#, as applicable, and the maximum permitted #floor area ratio# specified in the table in Section 98-22 shall apply, as applicable, for each subarea.

98-25
High Line Improvement Bonus
For #zoning lots# located between West 16th and West 19th streets over which the #High Line# passes, the applicable basic maximum #floor area ratio# of the #zoning lot# may be increased up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), provided that:

(a) Prior to issuing a building permit for any #development# or #enlargement# on such #zoning lot# that anticipates using #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished with a certification by the Chairperson of the City Planning Commission that : (1) a contribution has been deposited into an escrow account or similar fund established by the City(the #High Line # Improvement Fund), or such contribution is secured by letter of credit or other cash equivalent instrument in a form acceptable to the City, such contribution to be used at the direction of the Chairperson solely for improvements to the #High Line# within the #High Line# improvement area applicable to such #zoning lot#. Such contribution shall be made in accordance with the provisions of Appendix D or E, as applicable; and (2) a declaration of restrictions executed by all #parties in interest# to the #zoning lot# as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS) , including and incorporating such other instruments as are necessary to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, is filed and recorded in the Office of the Register of the City of New York; and (3) all additional requirements of Appendix D or E, as applicable with respect to issuance of a building permit, have been met.

(b) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located between West 17th and West 18th streets over which the #High Line# passes that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix D, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;

(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix D;

(3) At-Grade Plaza Work has been performed on such #zoning lot# in the area shown in Diagram 3 of Appendix C, in accordance with Appendix D;

(4) stairway and elevator access work has been performed on such #zoning lot# in the At-Grade Plaza area shown in Diagram 3 of Appendix C, or that an additional contribution to the #High Line# Improvement Fund to fund performance of such work has been made, in accordance with Appendix D; and

(5) all other applicable requirements of Appendix D have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix D.

(c) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located between West 16th and 17th streets or between West 18th and 19th streets over which the #High Line# passes that incorporates #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix E, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;

(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix E;

(3) stairway and elevator access work has been performed on such #zoning lot # , in accordance with Appendix E;

(4) for #zoning lots# located between West 16th and 17th streets over which the #High Line# passes, #High Line# Service Facility Work has been performed, in accordance with Appendix E; and

(5) all other applicable requirements of Appendix E have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix E.

98-26
Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line

The Commissioner of Buildings shall not issue any building permit for demolition, excavation or foundation work to be performed above or beneath the #High Line# or within 25 feet of support structures of the #High Line#, except upon certification by the Commissioners of Transportation and Parks and Recreation, acting in consultation with a licensed engineer, that such work would not adversely affect the structural integrity of the #High Line#.

98-30
HIGH LINE TRANSFER CORRIDOR

98-31
Purposes
The #High Line Transfer Corridor#, established within the #Special West Chelsea District#, is intended to enable the transfer of development rights from properties over which and immediately to the west of where the #High Line# passes and thereby permit light and air to penetrate to the #High Line# and preserve and create view corridors from the #High Line# bed.

98-32
General Provisions
The location of the #High Line Transfer Corridor# is specified in Appendix B of this Chapter.
In the #High Line Transfer Corridor#, special regulations relating to the transfer of #floor area# are set forth in Sections 98-33 through and 98-35 inclusive.

98-33
Transfer of Development Rights From the High Line Transfer Corridor
In the #Special West Chelsea District#, a "granting site" shall mean a #zoning lot#, or portion thereof, in the #High Line Transfer Corridor#. A "receiving site" shall mean a #zoning lot#, or portion thereof, in Subareas A - F inclusive, H or I. #Floor area# from a granting site may be transferred to a receiving site in accordance with the provisions of this Section.

(a) Notification
Prior to any transfer of #floor area#, the Department of City Planning shall be notified in writing of such intent to transfer #floor area#. Such notification shall be made jointly by the owners of the granting and receiving sites and shall include:

(1) #floor area# zoning calculations for the granting and receiving site, and
(2) a copy of the distribution instrument legally sufficient in both form and content to effect such a distribution, and
(3) if applicable, a certified copy of the instrument creating a secondary #High Line# access easement volume, pursuant to the provisions of Section 98-63.

Notices of restrictions in a form acceptable to the Department of City Planning shall be filed by the owners of the granting and receiving sites in the Office of the Register of the City Of New York, indexed against the granting and receiving sites, certified copies of which shall be submitted to the Department of City Planning. Notice by the Department of City Planning of its receipt of certified copies thereof shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit for any #development# or #enlargement# on the receiving site.

(b) #Floor area#
The maximum amount of #floor area# transferred from a granting site located outside of Subareas A through I shall not exceed the maximum #floor area ratio# permitted for a #commercial use# on such granting site, less any existing #floor area# to remain on such granting site.
The maximum amount of #floor area# transferred from a granting site located in Subareas A through I shall not exceed the basic maximum #floor area ratio# specified for the applicable subarea in the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas), less any existing #floor area# to remain on such granting site.
Each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be transferred from the granting site by the amount of #floor area# transferred.
The amount of #floor area# transferred to a receiving site from a granting site in the #High Line Transfer Corridor# shall not exceed the #floor area ratio# permitted on the receiving site through such transfer, pursuant to the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas).

(c) #Use#
#Floor area# transferred from a granting site within the #High Line Transfer Corridor#, may be used for any #use# allowed on the receiving site in accordance with the underlying zoning designation and the provisions of this Chapter.

(d) Stairway easement requirement
As a condition for the transfer of #floor area#, an easement volume to facilitate pedestrian access to the #High Line# via stairway shall be provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR ZONING LOTS OVER WHICH THE HIGH LINE PASSES OR ADJACENT TO THE HIGH LINE) and Section 98-63 (Recording of the #High Line# Access Easement Volume).

(e) Restrictive Declaration
As a condition for the transfer of #floor area#, and in order to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, a declaration of restrictions, executed by all #parties in interest# of the granting lot as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS), and including and incorporating such other instruments as are necessary to accomplish such purposes, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, shall be filed and recorded in the Office of the Register of the City of New York. Notice by the Department of City Planning of receipt of certified copies of such recorded declaration shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site. Such recorded declaration shall be in addition to the Notice of Restrictions required pursuant to subdivision (a) of this Section.

98-34
Screening and Landscaping Requirements for Vacant Sites
Any #zoning lot# within the #High Line Transfer Corridor# that has transferred #floor area# pursuant to Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor), and is 50 percent or more vacant shall be screened from the street and/or landscaped in accordance with the provisions of this Section; except that #zoning lots# occupied by #buildings# that extend along at least 85 percent of the #street# frontage of the #zoning lot# and are located within five feet of the #street line# are not required to provide screening or landscaping.
Such open or vacant areas on #zoning lots# shall be screened from the street by a fence or gate with a surface that is at least 75 percent open, extending not less than six feet and not higher than eight feet above finished grade; or alternatively, by a planting strip at least four feet wide and densely planted with evergreen shrubs at least four feet high at the time of planting or of a variety expected to reach a height of six feet within three years, or by both. Chain link and fences containing barbed wire or razor wire shall be prohibited. For portions of #zoning lots# located beneath the #High Line# planting strips shall be prohibited.

98-35
#High Line Transfer Corridor# Bonus
For #zoning lots#, or portions thereof, within the #High Line Transfer Corridor#, the applicable basic maximum #floor area ratio# of that portion of a #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, for an amount of #floor area# equivalent to the area of that portion of the #zoning lot# located within the #High Line Transfer Corridor#, provided the Chairperson of the City Planning Commission has certified that

(a) all the permitted #floor area# on that portion of the #zoning lot# that is within the #High Line Transfer Corridor# has been transferred to an eligible receiving site, in accordance with the provisions of Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor);
(b) that such granting site is vacant; and
(c) a contribution has been deposited into the #High Line# Improvement Fund established under Section 98-25, to be used at the direction of the Chairperson of the City Planning Commission to assure that the #High Line# is restored and reused as a public accessible open space.

No #building# permit for any #development# or #enlargement# that anticipates using such increased #floor area# may be issued unless and until such certification has been made. Such contribution amount shall be $50.00 per square foot of #floor area# as of (the effective date of amendment) and shall be adjusted July 1 of the following year and each year thereafter, by the City or its designee, based on the percentage change in the Consumer Price Index for all urban consumers as defined by the U.S. Bureau of Labor Statistics. Such bonus #floor area# shall only be used for a permitted #commercial use#, which shall be located in that portion of the #zoning lot# that is within the #High Line Transfer Corridor#; however, #public parking lots# and #public parking garages# at or above #curb level# shall not be permitted; and the height of any #development# or #enlargement# within the #High Line Transfer Corridor# shall not exceed the level of the #High Line bed#.

98-40
HEIGHT AND SETBACK REGULATIONS
The height and setback regulations of the underlying district are modified in accordance with the provisions of this Section 98-40, inclusive. Furthermore, for any #zoning lot# located within or adjacent to the #High Line Transfer Corridor#, the provisions of Section 98-50, inclusive, shall also apply. All heights shall be measured from the #base plane#, unless otherwise specified.

98-41
Obstruction Over the High Line
Within the #Special West Chelsea District#, the #High Line# shall remain open and unobstructed from the #High Line bed# to the sky, except for improvements constructed on the #High Line# in connection with the use of the #High Line# as a public open space.

98-42
Special Rooftop Regulations
The provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings or other structures# within the #Special West Chelsea District# except as modified as follows:

(a) Permitted Obstructions
(a)Elevator or stair bulkheads, roof water tanks, cooling towers or other mechanical equipment (including enclosures), may penetrate a #sky exposure plane# or a maximum height limit provided that either the product, in square feet, of the #aggregate width of street walls# of such obstructions facing each #street# frontage, times their average height, in feet, shall not exceed a figure equal to eight times the width, in feet, of the #street wall# of the #building# facing such frontage, or, the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#, and the height of all such obstructions does not exceed 40 feet. In addition, dormers may penetrate a maximum base height in accordance with the provisions of paragraph (c) of Section 23-621 (Permitted obstructions in certain districts). However, dormers may not exceed the maximum #building# height in Subareas C and F, where the maximum base height and maximum #building# height are the same.

(b) Ventilation and mechanical equipment
All mechanical equipment located within 15 feet of the level of the #High Line# bed that is within 25 feet of the #High Line#, measured horizontally, or within the #High Line frontage#, as applicable, shall be screened and buffered with no intake or exhaust fans or vents facing directly onto the #High Line#.

98-43
Street Wall Location, Minimum and Maximum Base Heights and Maximum Building Heights
The provisions set forth in paragraph (a) of this Section shall apply to all #developments# and #enlargements#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (f) of this Section.

(a) The #street wall# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in Table A of this Section.
Recesses, not to exceed three feet in depth from the #street line#, shall be permitted on the ground floor where required to provide access to the #building#.
Above a height of 12 feet above the #base plane#, up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#, provided any such recesses deeper than 10 feet along a #wide street#, or 15 feet along a #narrow street#, are located within an #outer court#.
Furthermore, no recesses shall be permitted within 30 feet of the intersection of two #street lines# except that, to allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.
For #developments# that occupy the entire #block# frontage of a #street# and provide a continuous sidewalk widening, where permitted, along such #street line#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section. The #street wall# location provisions of this section shall not apply along any #street frontage# of a #zoning lot# over which the #High Line# passes or by existing #buildings# to remain.
All portions of #buildings or other structures# that exceed the applicable maximum base height specified in Table A shall provide a setback at a height not lower than the applicable minimum base height. A setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#, except such dimensions may include the depth of permitted recesses in the #street wall#.
No #building or other structure# shall exceed the maximum #building# height specified in Table A.

(b) Subareas A and D, and portions of Subareas H and I
In Subareas A and D, for #zoning lots# with wide and narrow street frontage, no #street wall# is required beyond 50 feet of a wide street.
In Subarea D, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front. In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within ten feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.
In Subareas A and D, and in that portion of Subarea H beyond 100 feet of Tenth Avenue, and in that portion of Subarea I beyond 300 feet of Tenth Avenue, the setback provisions for portions of #buildings# above the maximum base height set forth in paragraph (a) of this Section shall not apply. In lieu thereof, no portion of a #building or other structure# that exceeds the applicable maximum base height shall penetrate a #sky exposure plane# that begins above the #street line# at the maximum base height and rises over the #zoning lot# at a ratio of 2.7 feet of vertical distance to one foot of horizontal distance on a #narrow street#; and 5.6 feet of vertical distance to one foot of horizontal distance on a #wide street#.
However, any #building#, or portion thereof, which in the aggregate occupies not more than 40 percent nor less than 30 percent of the #lot area# of the #zoning lot# may penetrate the #sky exposure plane# set forth in this paragraph (b), provided such portion of the #building# is set back at least 10

feet from a #wide street line# and at least 15 feet from a #narrow street line#. The highest four #stories# or 40 feet of such #building#, whichever is less, may occupy less than 30 percent of the #lot area# of the #zoning lot#. Furthermore, for #zoning lots# with less than 20,000 square feet of #lot area#, such #building# or portion thereof may occupy more than 40 percent of the #lot area# of the #zoning lot# in accordance with the provisions of Section 33-454 (Towers on small lots).

(c) Subareas C and F

In Subareas C and F, for #zoning lots# with wide and narrow street frontage, no #street wall# is required beyond 50 feet of a wide street. Furthermore, for any #development# or #enlargement# that occupies at least one corner of the Tenth Avenue #block# front and extends along the Tenth Avenue frontage of the #zoning lot# for at least 170 feet, exclusive of existing #buildings# to remain, a lowered #street wall# shall be provided for any #building# that exceeds 45 feet in height. Such lowered #street wall# shall have a maximum height of 45 feet and a minimum height of 35 feet and extend along the Tenth Avenue frontage for a width not less than 25 percent and not more than 30 percent of the #aggregate width of street walls# facing Tenth Avenue. Such lowered #street wall# portion of the Tenth Avenue frontage shall be located at the intersection of Tenth Avenue and a #narrow street#. Such lowered #street wall# shall extend along such #narrow street line# for a distance of at least 50 feet from Tenth Avenue. Beyond 50 feet of Tenth Avenue, excluding the #High Line frontage# of a #building#, such portion of the #building# shall not exceed a height of 45 feet.

The provisions of this Section, relating to the location and height of the lowered #street wall# portion of the Tenth Avenue frontage of a #development# are illustrated in Diagram 1 (Street Wall and #High Line# Frontage Regulations in Subareas C and F), in Appendix C of this Chapter.

(d) Subarea E

The #street wall# location provisions set forth in paragraph (a) shall not apply to any #development# or #enlargement# on a #zoning lot# fronting on West 18th Street and located partially in Subareas D, E and F, where #floor area# has been transferred pursuant to Section 98-24, a maximum of 60 percent of the West 18th Street frontage within Subarea E may rise without setback to a maximum #building# height of 250 feet and a minimum of 20 percent of the West 18th Street frontage within Subarea E shall rise without setback to a minimum height of 60 feet and a maximum height of 85 feet and be located within 10 feet of the #street line#.

(e) Subarea G

In Subarea G no #building or other structure# shall be located east of the #High Line#.

In Subarea G, no portion of a #building or other structure# shall exceed a height of 85 feet except for two #buildings#, or portions of #buildings#, hereinafter referred to as Tower East and Tower West. At or above the base height, both such towers shall be set back at least 10 feet from any #street wall# facing a #wide street# and at least 15 feet from any #street wall# facing a #narrow street#. Such set backs shall be provided at a height not lower than 60 feet, except that such set backs may be provided at a height not lower than 40 feet, provided at least 65 percent of the #aggregate width of street walls# facing #narrow streets# and at least 60 percent of the #aggregate width of street walls# facing #wide streets# have a minimum base height of 60 feet.

Tower East shall be located in its entirety within 240 feet of the Tenth Avenue #street line#, and Tower West shall be located in its entirety within 200 feet of the Eleventh Avenue #street line#. Tower East shall not exceed a #building height# of 290 feet and Tower West shall not exceed a #building# height of 390 feet.

A maximum of 50 percent of the #street wall# of Tower West may rise without setback from a #narrow street line#. Such portion of the #street wall# shall be located a minimum of 15 feet and a maximum of 20 feet from the #narrow street line#.

(f) Subarea I

In Subarea I, the #street wall# location provisions set forth in paragraph (a) shall not apply along Tenth Avenue, or any portion of the #zoning lot# over which the #High Line# passes, as illustrated in Diagram 5 (Subarea I Requirements), of Appendix C of this Chapter. However, for portions of #zoning lots# within 300 feet of Tenth Avenue, such #street wall# requirements shall apply along a minimum of 85 percent of the West 16th Street and West 17th Street frontages.

No portion of a #building or other structure# located within 300 feet of Tenth Avenue shall exceed a height of 120 feet, except for one #building# which may have a height not to exceed 250 feet provided such #building# is located in its entirety within 90 feet of West 17th Street and has a length that does not exceed 175 feet when measured parallel to the West 17th Street #street line#.

Any portion of a #building or other structure# located beyond 300 feet of Tenth Avenue that exceeds a maximum base height of 85 feet shall comply with the #sky exposure plane# provisions of paragraph (b) of this Section, except that the maximum building height shall be 250 feet.

TABLE A
Minimum and Maximum Base Height and Maximum Building Height by District or Subarea

District or Subarea	Minimum Base Height (in feet)	Maximum Base Height (in feet)	Maximum Building Height (in feet)
C6-2A	60	85	120
C6-3A	60	102	145
A	60	85	See paragraph (b)
B, M1-5	60	95	135
C for #zoning lots# with only #narrow street# frontage	60	110	110
C for #zoning lots# with #wide street# frontage	125 See paragraph (c)	145 see paragraph (c)	145 See paragraph (c)
D	60	90	See paragraph (b)
E	60	105	120 see paragraph (d)
F for #zoning lots# with only #narrow street# frontage	60	95	95
F for #zoning lots# with #wide street# frontage	105 See paragraph (c)	120 See paragraph (c)	120 See paragraph (c)
G	60 See paragraph (e)	85 See paragraph (e)	See paragraph (e)
H within 100 ft of Tenth Ave	60	85	120
H beyond 100 ft of Tenth Ave	60	85	See paragraph (b)
I within 300 ft of Tenth Ave	60	85	250 See paragraph (f)
I beyond 300 ft of Tenth Ave	60	85	120 See paragraph (f)

98-44
Authorization to Modify Height and Setback Regulations

The City Planning Commission may authorize the modification of height or setback regulations pursuant to Section 98-40 and 98-50 for #developments# or #enlargements# on a #zoning lot# over which the #High Line# passes or adjacent to a #zoning lot# over which the #High Line# passes, provided that the street frontage of the #zoning lot# adjacent to but exclusive of the portion over which the #High Line# passes is no more than 40 feet, and the Commission finds that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely effect access to light and air for surrounding public areas;

The Commission may prescribe appropriate conditions and safeguards to enhance the character of the surrounding area.

98-50
SPECIAL HEIGHT AND SETBACK, OPEN AREA AND TRANSPARENCY REGULATIONS FOR ZONING LOTS WITHIN OR ADJACENT TO THE HIGH LINE TRANSFER CORRIDOR

98-51
Height and Setback Regulations on the East Side of the High Line

(a) In Subarea A

For any #building# or portion thereof located on the east side of the #High Line#, 60 percent of the aggregate length of the #High Line frontage# of such #building# shall set back at the level of the #High Line bed#. No more than 40 percent of the aggregate length of the #High Line frontage# of such #building# may rise above the level of the #High Line bed#. No portion of such #High Line frontage# shall exceed a maximum height of 20 feet above the level of the #High Line bed#, as illustrated in Diagram 2 (Street Wall and #High Line# Frontage Regulations in Subarea A)in Appendix C, of this Chapter.

(b) In C6-3A Districts, and in Subareas C and F

For #zoning lots# that extend for less than 120 feet along the east side of the #High Line#, no #building# or portion thereof located east of and within 25 feet of the #High Line# shall exceed the level of the #High Line bed#.

For #zoning lots# that extend for at least 120 feet along the east side of the #High Line#, no #building# or portion thereof located east of and within 25 feet of the #High Line# shall exceed the level of the #High Line bed#, except that a maximum of 40 percent of the #High Line frontage# of such #building# may rise without setback above the level of the #High Line bed# provided such portion of the #building# is not located directly between the #High Line# and any #street wall# portion of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (a) (Subareas C and F) of Section 98-441 (Street wall location and minimum base heights). However, the provisions of this paragraph (b) shall not apply to any #zoning lot# that, on (the effective date of amendment) was wholly within 35 feet of the eastern edge of the #High Line#, or, had a portion thereof whose greatest distance between the eastern edge of the #High Line# and a #side lot line# east of the #High Line# was 35 feet when measured parallel to the nearest #narrow street line#.

98-52
Height and Setback Regulations on West Side of High Line

For any #development# or #enlargement# on a #zoning lot# on the west side of the #High Line# and adjacent to the #High Line# within C6-2A, C6-3A, and M1-5 Districts or within Subareas A, B, or E, the portion of the #building# within 15 feet of the #High Line structure# shall rise no higher than the level of the #High Line bed# before setback. A setback with a depth of at least 15 feet shall be provided from the #High Line#.

98-53
Required Open Areas on the East Side of the High Line

At least 20 percent of the #lot area# of any #development# or #enlargement# on a #zoning lot#, or portion thereof, within C6-3A Districts or within Subareas A, C or F and over which the #High Line# passes or adjacent to a #zoning lot# over which the #High Line# passes, shall be landscaped open area, pursuant to the requirements of paragraph (a) (Open area requirements), and (b)(Permitted obstructions) of this Section. Such open area shall be located directly adjacent to the #High Line# with its longest side adjacent to the #High Line# and shall be located at an elevation not to exceed a height of 3 feet 6 inches above the level of the #High Line bed# adjacent to the #zoning lot#. At no point shall such open area be located within 50 feet of Tenth Avenue.

(a) Open area requirements

All required open areas shall:

(1) have no portion used as a driveway, vehicular access way or for parking, and shall be screened from off-street loading and service areas;
(2) be landscaped with shrubs, vines, flowers, ground cover, trees, and/or plants in planters over a minimum of 25 percent of the required open area;
(3) be maintained by the building owner who shall be responsible for the maintenance of the open area including, but not limited to, the repair of all amenities, litter control and the care and replacement of vegetation within the zoning lot; and
(4) have all mechanical equipment which is located at the same elevation as the open area, or within 15 feet of the level of the open area, screened and buffered with no intake or exhaust fans facing directly onto the required open area.
(5) Open area screening

Required open area provided at the level of the #High Line bed# may be screened and/or separated from the public areas of the #High Line# by a wall, fence, or plantings extending not higher than 8 feet above the average elevation of the #High Line bed#. Non-vegetated screening materials must be substantially transparent. For the purposes of this Section, a substantially transparent screening is defined as transparent, or non-opaque, in an evenly distributed fashion for at least 75 percent of its area. Chain link fences shall not be a permitted screening material. Vegetated screening, such as shrubs, vines, and other plantings, may be completely covered by vegetation and opaque, provided that any underlying surface is substantially transparent.

In addition, such screening material shall be maintained in good condition at all times, may be interrupted by normal entrances and/or exits, and shall have no signs hung or attached thereto, other than those permitted in Section 98-16 (Signs).

(b) Permitted obstruction

(1) Any #High Line# access structure, providing pedestrian access to the #High Line#, by stairway or elevator, may be located within such required open area;
(2) The provisions of paragraph (g)(1)(Permitted obstructions) of Section 37-04 (Requirements for Urban Plazas) shall apply; and
(3) Open air cafes and kiosks may be located in such required open area. Open air cafes may occupy in the aggregate no more than 75 percent of such required open area.

98-54
Transparency Requirements on the East Side of the High Line

The transparency requirements of this Section shall apply in C6-3A Districts and within Subareas A, C and F to all #developments# and #enlargements# of the #High Line frontage# portion of a #building or other structure#, except for portions of #buildings# within the #High Line frontage# that contain #dwelling units#. At least 50 percent of such #building's# #High Line frontage#, to be measured from the level of the #High Line bed#, shall be glazed and transparent and at least 75 percent of the glazed surface shall be fully transparent. The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall not be higher than four feet above the level of the #High Line bed#, and shall be no less than eight feet in height measured from such lowest point.

98-55
Requirements for Non-Transparent Surfaces on the East Side of the High Line

Any portion of such #High Line frontage# that is 40 feet or more in length and contains no transparent element between the level of the #High Line bed# and an elevation of twelve (12) feet above the level of the #High Line bed#, shall be planted with vines or other plantings or contain artwork. Such elements shall substantially cover the applicable non-transparent portion of the #High Line frontage#.

98-60
SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS

98-61
High Line Access Easement Volume Requirement

For all #developments# or #enlargements# within the Special West Chelsea District, an easement volume to facilitate public pedestrian access to the #High Line# via stairway and elevator (hereinafter referred to as "primary access"), shall be provided on any #zoning lot# over which the #High Line# passes that, on or after (the date of referral of zoning text amendment) has more than 5,000 square feet of #lot area# .

In the #High Line Transfer Corridor#, an easement volume to facilitate public pedestrian access to the #High Line# via stairway (hereinafter referred to as "secondary access"), shall be provided on any #zoning lot# from which #floor area has been transferred pursuant to Section 98-33 unless a primary access easement has been provided pursuant to this Section 98-61.

However, a primary access easement shall not be required if a primary access easement is already provided on the same #block# and a secondary access easement shall not be required if a primary or secondary access easement has already been provided on the same #block#. Furthermore, primary and/or secondary access easements shall not be required where the Chairperson of the City Planning Commission certifies that:

(1) the minimum dimensions required for the access easement volume pursuant to paragraph (a) of Section 98-62 cannot be accommodated within 33 feet six inches of a #street line# for primary access

easements and 40 feet of a #street line# for secondary access easements; or

(2) in the case of a primary easement, a secondary easement is already provided on the same #zoning lot# and such easement is sufficient in size or has been enlarged to be sufficient in size to accommodate the provisions for primary access easements as specified in Section 98-62; or

(3) for primary or secondary easements, access has already been constructed on the same block or on the same street frontage and that such access meets the location and access requirements for primary or secondary access easements, as specified in Section 98-62(a) and (b) and meets all standards, as applicable, for persons with disabilities; or

(4) for primary or secondary easements, construction documents for the #High Line# open space have been developed that specify the opposite side of the same street frontage as an access location.

98-62
High Line Access Easement Regulations
The provisions of this Section shall apply to any #zoning lot# providing an access easement volume, as follows:

(a) Location and Minimum Dimensions

(1) Primary access easement volume
A primary access easement volume may be located within a #building# or within open areas on the #zoning lot#, including open areas required pursuant to Section 98-53 (Required Open Areas on the East Side of the High Line), provided such volume is within 15 feet of a #narrow street line#. The minimum length of such volume shall be 18 feet six inches and the minimum width shall be ten feet; however, the minimum area of such volume shall be 350 square feet. The height of such volume shall extend from a point at least ten feet below #curb level# to a point at least 15 feet above the level of the #High Line bed#. A primary access easement volume may also replace a previously provided secondary access easement volume, and such secondary access easement volume may be terminated pursuant to Section 98-64. Such minimum dimensions are illustrated in Diagram 6 (#High Line# Access Easement Volume Parameters) of Appendix C of this Chapter.

(2) Secondary access easement volume
A secondary access easement volume shall be located within 15 feet of a #narrow street line# and directly adjacent to the #High Line# for a minimum length of 25 feet. Such volume shall have a minimum width of ten feet. The height of such volume shall extend from #curb level# to a point at least ten feet above the level of the #high Line bed#.

(b) Access
All access easement volumes shall be accessible either directly from a public sidewalk or through a publicly traversable way through the #zoning lot# directly connecting with a public sidewalk. Such publicly traversable way shall meet the following requirements:

(1) The required width of the publicly traversable way shall be a minimum of eight feet.
(2) No portion of the publicly traversable way shall be interrupted or occupied by an off-street parking or loading area.
(3) The access easement volume shall be visible from the public sidewalk or the publicly traversable way.
(4) The publicly traversable way shall be maintained by the property owner in good repair.
(5) The publicly traversable way shall be fully accessible to persons with disabilities.
(6) The publicly traversable way shall be open and accessible to the public at all times when a stairway and/or elevator located within the associated access easement volume is open and accessible to the public.

(c) Permitted obstructions
Any access structure within the access easement volume, or any weather protection provided by an overhang or roofed area over such access easement volume, accessory to the access structure, shall be considered permitted obstructions within required #yards# or open areas.

(d) Permitted #uses#
An access easement volume required on a #zoning lot# pursuant to the provisions of this Chapter may be temporarily used by the owner of such #zoning lot# for any permitted #use# until such time as required by the City of New York or its designee for access purposes. Such permitted use shall be limited to non-residential #uses# where such access easement volume is within a #building#. Where such access easement volume is within an open area, such area shall be landscaped, or may be improved in accordance with the provisions of sub-paragraphs (g)(1), (g)(2) and (g)(3) (Permitted obstructions), of Section 37-04 (Requirements for Urban Plazas), except that in the case of open air cafes and kiosks the provisions of paragraph (g) (3) shall be modified as follows: a certification shall not be required pursuant to paragraphs (g)(5) and (g)(6).
Improvements or construction of a temporary nature within the easement volume shall be removed by the owner of such #zoning lot# prior to the time at which public use of the easement areas is required. A minimum notice of six months in writing shall be given by the City of New York or its designee to the owner of the #zoning lot#, in order to vacate the tenants of such temporary #uses#.

(e) Legally Required Windows
The minimum distance between any legally required window in a portion of a #building# used for #residential use# and an access easement volume shall be 30 feet, measured in a horizontal plane at the sill level of, and perpendicular to, such window for the full width of the rough window opening.

98-63
Recording of High Line Access Easement Volume
An instrument in a form acceptable to the Department of City Planning creating a #High Line# access easement volume shall be recorded in the Office of the City Register; a certified copy of which shall be submitted to the Department of City Planning.
Notice by the Department of City Planning of its receipt of a certified copy of an instrument establishing any access easements required pursuant to this Chapter shall be a precondition to issuance by the Commissioner of Buildings of any building permits including any foundation or alteration permit for any #development# of #enlargement# on a site pursuant to Section 98-60 for primary access easements. Receipt of a certified copy of an instrument creating a secondary access easement shall be provided in conjunction with notification, pursuant to Section 98-33(a).

98-64
Termination of High Line Access Easement Volume
In the event that the City Planning Commission notifies the Department of Buildings and the owner in writing that a #High Line# access easement volume is not required on a #zoning lot# under the final construction plans for the restoration and reuse of the #High Line# as an accessible, public open space, the restrictions imposed on such #zoning lot# by the provisions of Section 98-61 (High Line Access Easement Volume Requirement) shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the City Planning Commission to the extinguishment of the easement volume. On termination of the #High Line# access easement volume requirement which has been certified pursuant to this Section, any area reserved for such easement within a #building or other structure# may be used for any #use# permitted pursuant to the provisions of this Chapter and such area shall not be considered #floor area#; and any open area reserved for such easement shall be maintained as an open area and shall be subject to the open area requirements of Section 98-53 (Required Open Areas on the East Side of the High Line).

APPENDIX D
Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea G
This Appendix sets forth additional requirements governing #zoning lots# located within Subarea G between West 17th and 18th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to subparagraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to subparagraph (b) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean "parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10 .

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25

(1) As a condition of issuance of a building permit under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix D, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22;

(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and use of the At-Grade Plaza and the stairway and elevator that will provide access to the #High Line#, as shown in Diagram 3 of Appendix C, such easement area for the At-Grade Plaza to include the entire area of the #zoning lot# east of the #High Line# and such easement area as it relates to such stairway and elevator to be at least 2,500 square feet and in a location and configuration acceptable to the City; access for the potential performance by the City of work under the provisions set forth below; and maintenance and repair of the stairway and elevator . Such declaration shall incorporate by reference the maintenance and operating agreement referred to in paragraph (iii) below; and

(iii) Owner shall execute a maintenance and operating agreement for the At-Grade Plaza,

The easements and agreement described herein shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (b).

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot# and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement by Owner, approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the contribution to the #High Line# Improvement. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) At the time of certification pursuant to Section 98-25, paragraph (a), Owner shall designate, subject to the concurrence of the Chairperson of the City Planning Commission, the location of the #floor area# within the #development# or #enlargement# which would exceed the basic maximum #floor area ratio# of the #zoning lot# and be subject to the provisions of Section 98-25 (HIGH LINE IMPROVEMENT BONUS).

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (b) of Section 98-25

(1) Structural Remediation Work Under Paragraph (b)(2) of Section 98-25

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner shall exercise such option no later than 90 days following receipt of the City's specifications for the Structural Remediation Work or of the City's failure to provide such specifications, as set forth in paragraphs (iv), (v) and (vi) below. In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner , as applicable, for any excess from or against the #High Line# Improvement Fund. In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (b)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of any temporary certificate of occupancy, and of final completion with respect to issuance of any final certificate of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above , at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to public view versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead-based products in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City ;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast

material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including , but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below-grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) Subject to the Not-To-Exceed Limit set forth in section (c) of this Appendix, if Owner exercises the option to perform the Structural Remediation Work, it shall reimburse the City for the reasonable cost of hiring or procuring the services of a full -time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone).

(iv) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to delays outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(v) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete the Structural Remediation Work following the (effective date of amendment) or receipt of specifications for the Structural Remediation Work, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control and , in addition, for any time during which Owner is unable to gain access in order to perform the Structural Remediation Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application). .

(vi) In the event that the City does not provide the specifications for the Structural Remediation Work , within the timeframe set forth in paragraph (iv) of this section, Owner may exercise the option to perform such work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays as described in paragraph (v) above, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(2) At-Grade Plaza Work Under Section 98-25 (b)(3)

(i) Owner shall perform At-Grade Plaza Work within the area on the #zoning lot# shown in Diagram 3 of Appendix C. For any temporary certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of substantial completion of the At-Grade Plaza Work (i.e., the At-Grade Plaza shall be open and accessible to the public). For any permanent certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of final completion of the At-Grade Plaza Work. Substantial completion of the At-Grade Plaza Work shall also require execution by all parties-in-interest of the declarations, easements and maintenance and operating agreement described in paragraph (a) of Section (1) of this Appendix, if not previously provided in connection with issuance of a building permit.

(ii) At-Grade Plaza Work shall include, but not be limited to:

(a) remediation work; and

(b) all paving, plantings, surface treatments, lighting, trees, seating, fountains and other site amenities; and

(c) infrastructure work, including conduits, drainage, water line, electrical connections, and other utility work serving the At-Grade Plaza.

(iii) The At-Grade Plaza Work shall be performed by Owner pursuant to construction documents provided by the City by September 30, 2006, subject to delays outside the reasonable control of the City (including, without limitation, litigation, but such delays shall not exceed more than 180 days), and to such extension as the City and Owner may mutually agree. The At-Grade Plaza Work shall be completed within one year following the later of the (effective date of amendment) or the receipt of such documents, subject to reasonable extension for any delays beyond Owner's reasonable control and to such extension as the City and Owner may mutually agree, and, in addition, for any time during which Owner is unable to gain access in order to perform the At-Grade Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application), or for any time needed to perform any necessary remediation work on the #zoning lot#.

(iv) In no event shall Owner be required to complete the At-Grade Plaza Work until the #High Line# improvements within the portion of the #High Line# Improvement Area adjacent to the #zoning lot# (and, as applicable, over such Improvement Area, as shown on Diagram 3 of Appendix C, are substantially complete (i.e., open to the public but for the work needed to complete the At-Grade Plaza Work). Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (b)(3), until the Chairperson determines that the At-Grade Plaza Work is substantially complete.

(v) The cost to Owner of the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) shall not exceed $2,300,000 The amount of contribution to the #High Line# Improvement Fund under subdivision a of section 1 of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such amount at the time it is made. In addition to the costs of the At-Grade Plaza Work, subject to the Not-To-Exceed Limit set forth section (c) of this Appendix, Owner shall be required to reimburse the City for:

(a) the reasonable cost of developing the plans and construction documents for the At-Grade Plaza Work; and

(b) the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(vi) In the event that construction documents for the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) are not delivered to Owner within the timeframe set forth in paragraph 3 of this subsection, Owner shall not be required to perform the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) consistent with such documents. Instead, Owner shall perform Alternate At-Grade Plaza Work which shall include all necessary remediation work, all necessary below-grade work (including related infrastructure work necessary to support the #High Line#), and at-grade improvements pursuant to the standards set forth in Section 37-04, paragraphs (g) through (n) of the Zoning Resolution, except that open-air cafes and kiosks shall not be permitted. Permitted obstructions, whether as described in the City's Specifications for the At-Grade Plaza Work or as specified in Section 37-04, paragraph (g), for the Alternate At-Grade Plaza Work, shall not count towards # lot coverage#.

(vii) The cost to the Owner of the Alternate At-Grade Plaza Work shall not exceed $1,400,000. In addition, Owner shall , subject to the Not-To Exceed Limit of Section (c) of this Appendix, be required to reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Alternate At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(viii) Upon substantial completion of the At-Grade Plaza and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4): Owner shall provide the City with the declarations, easements and maintenance and operating agreement described in subsection a of section 1 of this Appendix ,if not already provided in connection with the issuance of a building permit; such At-Grade Plaza shall be open and accessible to the public during at least the same hours during which the #High Line# is open and accessible to the public, subject to the terms of the maintenance and operating agreement; and Owner shall maintain the At-Grade Plaza pursuant to the terms of the maintenance and operating agreement.

(3) Stairway and Elevator Access Work Under Paragraph (b)(4) of Section 98-25

(i) Except as provided in subparagraph (iii) of this paragraph, Owner shall perform Stairway and Elevator Access Work within the At-Grade Plaza area as shown in Diagram 3 of Appendix C in conjunction with performance of the At-Grade Plaza Work. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (b)(4), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification pursuant to such Section shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator, shall be included in the construction drawings for the At-Grade Plaza Work described above, and shall be performed by Owner within the time period for performance of the At-Grade Plaza Work described in subsection c of this section. The location for the stairway and elevator shall take into account the viability of any retail spaces fronting the At-Grade Plaza.

(iii) Owner shall not be responsible for performance of the Stairway and Elevator Access Work where it performs the Alternate At-Grade Plaza Work in accordance with paragraph (b) of this section. In that event, prior to commencing the Alternate At-Grade Plaza Work and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4):

(a) Owner shall deposit into the #High Line# Improvement Fund a contribution of $900,000.00 (the Access Contribution), to be used at the direction of the Chairperson of the City Planning Commission for construction of stairway and elevator facilities on the #zoning lot#; and

(b) Owner shall provide the City with the declarations, easements, and maintenance and operating agreement described in paragraph (1) of Section (a) of this Appendix, if not previously provided in connection with issuance of a building permit.

(4) City Performance of Work In the Event of Failure to Perform

(i) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under Section (a) of this Appendix, Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b) of this Appendix), the At-Grade Plaza Work or Alternate Plaza Work, as applicable, and the Stairway and Elevator Access Work (where required to do so under paragraph (3) of Section (b) of this Appendix), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 3 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(ii) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(a) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total), unless such date is extended by mutual agreement between the City and Owner, for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City; and

(b) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control and , in addition, any time in which Owner is unable to gain access in order to perform the At-Grade Plaza Work or Alternate Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application) or), or for any time during which remediation work is in progress on the #zoning lot#.

(iii) In the event Owner does not comply with the requirements paragraph (4)(ii) of this Section (b):

(a) the City may proceed with performance

and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(b) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(c) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor any temporary or permanent certificate of occupancy may be issued pursuant to Section 98-25, paragraph (b), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

(c) Reimbursement Not-To- Exceed Limits

Reimbursement of the City by Owner of costs pursuant to this Appendix shall not exceed a total of $450,000.00.

APPENDIX E
Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E and F or within Subarea I

This Appendix sets forth additional requirements governing #zoning lots# located partially within Subareas D, E and F or within Subarea I between West 16th and 17th streets or between West 18th and 19th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum Floor Area Ratio in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to paragraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to paragraph (c) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean " parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10.

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25

(1) As a condition of certification under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix E, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22; and

(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and from a stairway and elevator on the #zoning lot# that will provide access to the #High Line# and for maintenance and repair by the City of such stairway and elevator; and the potential performance by the City of work under the provisions set forth below. In the case of #zoning lots# between West 16th and 17th streets, Owner shall also provide the City with easements providing for City access to and from and for public use of the #High Line# Service Facilities on the #zoning lot# and for maintenance and repair by the City of such #High Line# Service Facilities. All easements described herein shall be in a form acceptable to the City and shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (c); and

(iii) submit plans for Stairway and Elevator Access Facilities and, where applicable, #High Line# Service Facilities that demonstrate compliance with the provisions of this Appendix and are consistent with New York City Department of Parks and Recreation standards and best practices governing materials life cycle and maintenance for review and approval by the Chairperson of the City Planning Commission.

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot # and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement , approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the #High Line# Improvement Fund contribution to reflect the cost of such improvements. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) At the time of certification pursuant to Section 98-25, paragraph (a), Owner shall designate, subject to the concurrence of the Chairperson of the City Planning Commission, the location of the #floor area# within the #development# or #enlargement# which would exceed the basic maximum #floor area ratio# of the #zoning lot# and be subject to the provisions of Section 98-25.

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (c) of Section 98-25

(1) Structural Remediation Work Under Paragraph (c)(2) of Section 98-25

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner shall exercise such option no later than 90 days following receipt of the City's specifications for the Structural Remediation Work or of the City's failure to provide such specifications, as set forth in paragraphs (iv) and (v) below (unless such dates are extended by mutual agreement of the City and Owner). In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 for each square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner, as applicable, for any excess from or against the #High Line# Improvement Fund , In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (c)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of temporary certificates of occupancy, and of final completion with respect to issuance of final certificates of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above, at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life, and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to the public versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead -basedproducts in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City ;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including , but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below -grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006 , subject to such delays as are outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(iv) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following the (effective date of amendment) or receipt of specifications for the Structural Remediation Work, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control.

(v) In the event that the City does not provide the specifications for the Structural Remediation Work within the timeframe set forth in paragraph (iv) of this subsection, Owner may exercise the option to perform such work and proceed with the Structural Remediation Work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(vi) If Owner exercises the option to perform the Structural Remediation Work, Owner shall reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone), such reimbursement not to exceed $115,000.

(2) Stairway and Elevator Access Work Under Paragraph (c)(3) of Section 98-25

(i) Owner shall perform Stairway and Elevator Access Work subject to the provisions of subparagraph 2 of this paragraph. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(3), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator located directly adjacent to or below the #High Line#. Except as approved by the Chairperson of the City Planning Commission pursuant to paragraph (1)(iii) of Section (a) of this Appendix, #curb# level entrances to such access facilities must be located at the #street line#. Such access facilities may be unenclosed or enclosed. When such access facilities are enclosed and located at the #street line#, any wall or façade separating the access facility from the street shall be substantially glazed and any such glazed surfaces shall be fully transparent. Stairways shall have a clear path of not less than 6 feet. Such access facilities shall consistent with and sympathetic to the design of the #High Line# on the #zoning lot#.

(iii) The Stairway and Elevator Access Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the provisions of paragraph (2)(ii) of this Section, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the Stairway and Elevator Access Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(3), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(3) #High Line# Service Facility Work Under Paragraph (c)(4) of Section 98-25

(i) For #zoning lots# located between West 16th and 17th streets, Owner shall perform #High Line# Service Facility Work subject to the provisions of this section. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(4), shall be of substantial completion of the work. For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) #High Line# Service Facilities shall consist of satellite maintenance and operations space for the #High Line# open space as well as public restrooms, in accordance with the following standards:

(a) Location
Such facilities shall have a component located at the level of the #High Line bed#, or within 5 feet of such level (hereinafter referred to as the "upper service facility"). Such facilities shall also have a component located no higher than #curb level# (hereinafter referred to as the "lower service facility"). The upper facility must be located directly above the lower facility to enable placement

of a trash chute connecting the upper and lower facilities. Where the upper facility is not located exactly at the level of the #High Line bed#, a fully accessible ramp must connect such level with the level of the upper facility. Where the lower facility is not located exactly at #curb level#, a means acceptable to the City of connecting the lower service facility to a #street# frontage shall be provided.

(b) Program and dimensions
(1) Lower service facilities
Lower service facilities shall contain a room which is accessible from #street# level and is no less than 50 square feet in area. Such facility shall contain the outlet of a trash chute from the upper service facility and shall also have a minimum of one electrical outlet furnishing a total of at least 1,200 watts of power.

(2) Upper service facilities
Upper service facilities shall be no less than 350 square feet in area and shall contain, at a minimum one public restroom not less than 250 square feet in area with separate restroom spaces for each gender, one storage room not less than 70 square feet in area, and one waste disposal room not less than 30 square feet in area and containing a trash chute to the lower service facility
Each room within such upper service facilities shall have a minimum of one electrical outlet furnishing a total of at least 1,200 watts of power.

(iii) The #High Line# Facility Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the standards of paragraph (ii) of this subsection, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the #High Line# Facility Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(4), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(v) The cost to Owner of the #High Line# Facilities Work shall not exceed $1,150,000. The amount of contribution to the #High Line# Improvement Fund under paragraph (1) of Section (a) of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such at the time it is made. .

(c) City Performance in the Event of Failure to Perform

(1) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under paragraph (1) of Section (a) of this Appendix), Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b)) and the Stairway and Elevator Access Work (under paragraph (3) of Section (b)), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above, as applicable, has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(2) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(i) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total) for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City, unless such date is extended by mutual agreement between the City and Owner; and

(ii) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control

(3) In the event Owner does not comply with the requirements of paragraph (2) above:

(i) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(ii) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(iii) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor may any temporary or permanent certificates of occupancy may be issued pursuant to Section 98-25, paragraph (d), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

Article IX - Special Purpose Districts

Chapter 8
Special West Chelsea District

98-00
GENERAL PURPOSES
The "Special West Chelsea District" established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. These general goals include among others, the following specific purposes:

(a) to encourage and guide the development of West Chelsea as a dynamic mixed use neighborhood;
(b) to encourage the development of residential uses along appropriate avenues and streets;
(c) to encourage and support the growth of arts-related uses in West Chelsea;
(d) to facilitate the restoration and reuse of the #High Line# elevated rail line as an accessible, public open space through special height and setback regulations, #High Line# improvement bonuses and the transfer of development rights from the #High Line# Transfer Corridor;
(e) to ensure that the form and use of new buildings relates to and enhances neighborhood character and the #High Line# open space;
(f) to create and provide a transition to the lower-scale Chelsea Historic District to the east;
(g) to create and provide a transition to the Hudson Yards area to the north; and
(h) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues, consistent with the foregoing purposes.

98-01
Definitions
Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are as set forth in Section 12-10 (DEFINITIONS).

High Line
The "High Line" shall for the purposes of this resolution refer to the elevated rail line structure and associated elevated easement located between Gansevoort Street and West 30th Street.

High Line bed
The "High Line bed" is the highest level of the horizontal surface (platform) of the #High Line# elevated rail line structure as of (the effective date of amendment), as shown in Diagram 7, in Appendix C of this Chapter. For the purposes of this Chapter, the level of the #High Line bed# is the average level of the #High Line bed# on a #zoning lot# over which the #High Line# passes.

High Line frontage
"High Line frontage" is that portion of a #building# that faces and is located within 15 feet of the west side and 25 feet of the east side of the #High Line#.

High Line Transfer Corridor
The "High Line Transfer Corridor" is an area within which the #High Line# is located, as specified in Appendix B of this Chapter, where development rights may be transferred to receiving sites in certain Subareas in the #Special West Chelsea District#, pursuant to the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-02
General Provisions
The provisions of this Chapter shall apply to any #zoning lot#, or portion thereof, within the #Special West Chelsea District#, except that the provisions of Section 98-17 (Air Space over a Railroad or Transit Right-of-way or Yard) and Section 98-11 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall also apply to any #zoning lot# south of the #Special West Chelsea District# over which the #High Line# passes. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

The provisions regarding the transfer of #floor area# set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive, and the #High Line Improvement Bonus# in Subareas D, E, and F, and G and I set forth in Section 98-25 shall be effective upon the issuance of a final and binding Certificate of Interim Trail Use (CITU) by the Federal Surface Transportation Board and the execution of a trail use agreement between the City and CSX Transportation, Inc., or its successor, or upon a determination by the Office of the Corporation Counsel that the restoration and reuse of the #High Line# as an accessible, public open space has been obtained pursuant to an alternative mechanism which protects the interests of the city.

Upon transfer of the #High Line# to the City pursuant to ULURP application C 050163 PCM and in accordance with such CITU and trail use agreement, the following shall apply:

(a) the provisions regarding the issuance of building permits set forth in Section 98-26 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall be effective; and
(b) any area within the tax lot located at Section 3, Block 8224, Lot 111, as of (effective date of amendment), which is separated from other portions of such tax lot by bounding streets, shall be considered a separate #zoning lot#; and
(c) Underlying #use# and bulk regulations shall not apply to #uses# and #buildings and other structures# constructed on the #High Line# specifically in connection with its use as a public open space.

98-03
District Plan and Maps
The regulations of this Chapter are designed to implement the #Special West Chelsea District# Plan.
The District Plan includes the following maps and illustrative diagrams in Appendices A, B, and C:

Appendix A		Special West Chelsea District and Subareas
Appendix B		High Line Transfer Corridor Location and Floor Area Ratio
Appendix C		Illustrative Diagrams of the High Line and Building Envelopes for Sites Adjacent to the High Line
	Diagram 1	Street wall and High Line frontage regulations in Subareas C, F, and G
	Diagram 2	Street wall and High Line frontage regulations in Subarea A
	Diagram 3	Subarea H requirements
	Diagram 4	High Line Improvement Area for Zoning Lots Divided by District Boundaries in Subareas D, E and G

Diagram 5	Subarea I requirements between West 16th and West 17th streets
Diagram 6	High Line Access Easement Volume Parameters
Diagram 7	High Line bed and frontages

Appendix D Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea H

Appendix E Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E and G, or within Subarea I

The maps and diagrams are hereby incorporated and made part of this Resolution. They are incorporated for the purpose of illustrating requirements or specifying locations where the special regulations and requirements set forth in the text of this Chapter shall apply.

98-04
Subareas and High Line Transfer Corridor
In order to carry out the provisions of this Chapter, nine Subareas (Subareas A through I), and a #High Line Transfer Corridor# are established within the #Special West Chelsea District#.

Within each of the Subareas and the #High Line Transfer Corridor#, certain special regulations apply that do not apply within the remainder of the #Special West Chelsea District#.

The locations of the nine Subareas are detailed in Appendix A of this Chapter. The location of the #High Line Transfer Corridor# is detailed in Appendix B of this Chapter,
The Subareas and the #High Line Transfer Corridor# are subject to all other regulations of the #Special West Chelsea District# and the underlying district regulations except as otherwise specified in this Chapter.

98-05
Applicability of District Regulations

98-051
Applicability of Chapter 1 of Article 1

(a) Within the #Special West Chelsea District#, Section 11-15 (Environmental Requirements) shall apply, except that prior to issuing a building permit for any #development#, or for an #enlargement#, #extension# or a change of #use#, on a lot that has an (E) designation for hazardous material contamination, noise or air quality, the Department of Buildings shall be furnished with a report from the Department of Environmental Protection (DEP) of the City of New York stating:

(1) in the case of an (E) designation for hazardous material contamination, that environmental requirements related to the (E) designation have been met for that lot; or

(2) in the case of an (E) designation for noise or air quality, that the plans and drawings for such #development# or #enlargement# will result in compliance with the environmental requirements related to the (E) designation.

(b) Section 11-332 (Extension of period to complete construction) shall apply, except that not withstanding the provisions of paragraph (a) of such Section, in the event that other construction for which a building permit has been lawfully issued and for which construction has been commenced but not completed on (effective date of amendment), such other construction may be continued provided that the construction is completed and a temporary or permanent certificate of occupancy is obtained not later than (one year after effective date of amendment).

98-10
SPECIAL USE AND PARKING REGULATIONS WITHIN THE SPECIAL WEST CHELSEA DISTRICT

98-11
Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line

The Commissioner of Buildings shall not issue any building permit for demolition, excavation or foundation work to be performed above or beneath the #High Line# or within 25 feet of support structures of the #High Line#, except by determination by such Commissioner that such work would not adversely affect the structural integrity of the #High Line#.

98-12
Modification of Use Regulations in C6 Districts

98-121
In Subarea H
In Subarea H, the provisions of Section 32-25 (Use Group 16), paragraph D. (Heavy Service, Wholesale, or Storage Establishments) are modified to permit, in #C6 Districts#, warehouse #uses# only in #cellars# located wholly below #curb level#.

98-122
Location Within Buildings
In any #C6 District# in the #Special West Chelsea District#, the provisions of Section 32-422 (Location of floors occupied by non-residential uses) are modified to permit non-#residential uses# on the same #story# as a #residential use# or on a story higher than that occupied by #residential uses#, provided that the non-#residential uses#:

(a) are located in a portion of the #building# that has separate direct access to the #street# with no access to the #residential# portion of the #building# at any #story#; and

(b) are not located directly over any portion of a #building# containing #dwelling units#, except this limitation shall not preclude the location of:

(1) #residential# lobby space below or on the same #story# as non-#residential uses#; or

(2) a #commercial use# that fronts on the #High Line# and is located within five feet of the level of the #High Line bed#.

98-13
Modification of Use Regulations in M1 Districts
In the #Special West Chelsea District#, the provisions of Section 42-10 (USES PERMITTED AS-OF-RIGHT) and 42-30 (USES PERMITTED BY SPECIAL PERMIT) are modified to permit, as-of-right, without limitation, in M1 Districts, museums and non-commercial art galleries as listed in Use Group 3.

98-14
Ground Floor Use and Transparency Requirements on Tenth Avenue
The special ground floor #use# and glazing regulations of this Section apply to that portion of a #building or other structure# fronting on Tenth Avenue in the #Special West Chelsea District#.
#Uses# located on the ground floor level or within five feet of #curb level#, and within 25 feet of the #street line# shall be limited to #commercial uses# permitted by the underlying district or museums or non-commercial art galleries as listed in Use Group 3. A building's #street# frontage shall be allocated exclusively to such #uses#, except for lobby space or entryways. In no event shall the length of #street# frontage occupied by lobby space or entryways exceed, in total, 40 feet or 50 percent of the building's total #street# frontage, whichever is less.
For any #development# or #enlargement#, each ground floor #street wall# shall be glazed with materials which may include show windows, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 70 percent of such ground floor #street wall# surface. The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall be not higher than two feet above the level of the adjoining sidewalk or public access area and shall be no less than eight feet in height measured from such lowest point. Not less than 50 percent of such ground floor #street wall# surface shall be glazed with transparent materials, and up to 20 percent of
such ground floor #street wall# may be glazed with translucent materials.

98-141
Transparency requirements within Subareas H and I-
The transparency requirements of this Section shall apply to all portions of #developments# and #enlargements# within the eastern #High Line frontage# of Subareas H and I, except for such portions that contain #dwelling units#. At least 70 percent of the area of such frontage, to be measured from a point not lower than four feet and not higher than eight feet above the level of the #High Line bed# shall be glazed and transparent and at least 75 percent of such glazed surface shall be fully transparent.

98-15
Security Gates
All security gates installed after (effective date of amendment) that are swung, drawn, or lowered to secure #commercial# or #community facility# premises shall, when closed, permit visibility of at least 75 percent of the façade area covered by such gate, when viewed from the #street#, except that this provision shall not apply to entrances or exits to parking facilities.

98-16
Signs
The #sign# regulations of the underlying districts in the #Special West Chelsea District# shall not apply to #signs# located within 50 feet of the #High Line#, except for signs located entirely below the level of the #High Line# bed. In lieu thereof, the #sign# regulations of a C1 district shall apply, except that #accessory signs# located within the #High Line frontage# may have a maximum height of 20 feet above the level of the #High Line bed#.
No signs affixed to or resting upon the #High Line# shall be permitted, except as pursuant to a signage plan for the #High Line#, as authorized by the City Planning Commission, provided the Commission finds that such signage plan will:

(a) enhance the use of the #High Line# by providing signage that is consistent with the use of the #High Line# as a public open space;
(b) provide, at a minimum, directional, informational, and interpretive signage consistent with the use of the #High Line# as a public open space;
(c) be integrated with the design of the #High Line# open space; and
(d) not adversely affect development adjacent to the #High Line# and in the surrounding neighborhood

98-17
Air Space Over a Railroad or Transit Right-of-way or Yard
For the purposes of this Resolution, the #High Line# shall not be considered a railroad or transit right-of-way and the provisions of Sections 32-44 (Air Space over a Railroad or Transit Right-of-way or Yard) and 42-462 (Air Space over a Railroad or Transit Right-of-way or Yard) shall not apply.

98-18
Parking Regulations in Subarea H
#Accessory# off-street parking spaces for existing or new governmental offices may be located on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided such spaces are located within Subarea H and in a facility, or portion thereof, that is entirely below #curb level# and that no more than 377 spaces are provided within such facility. For purposes of this Section, the governmental offices on Block 688, Lots 1001-1002 (as of the effective date) may have up to 377 #accessory# off-street parking spaces in such facility.

98-19
Lighting
All exterior light sources located within the #High Line frontage# shall be shielded from direct view from the #High Line#.

98-20
FLOOR AREA AND LOT COVERAGE REGULATIONS
The #floor area# provisions of this Section 98-20, inclusive, shall apply. Furthermore, special #floor area# transfer provisions are set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-21
Maximum Floor Area Ratio outside of Subareas
For all #zoning lots# or portions thereof located outside of Subareas A through I, the maximum #floor area ratios# of the applicable underlying district shall apply.

98-22
Maximum Floor Area Ratio and Lot Coverage in Subareas
For all #zoning lots# or portions thereof located in Subareas A through I, the maximum #floor area ratios#, #open space ratios# and #lot coverages# of the applicable underlying district shall not apply. In lieu thereof, the maximum #floor area ratio# permitted for #commercial#, #community facility#, and #residential uses#, separately or in combination, shall be as specified in the following table. For #residential use#, the maximum #lot coverage# shall be 70 percent for #interior# or #through lots# and 80 percent for #corner lots#, except that no maximum #lot coverage# shall apply to any #zoning lot# comprising a #corner lot# of 5,000 square feet or less.

TABLE A
Maximum Floor Area Ratio by Subarea

Subarea	Basic Maximum #floor area ratio#	Increase in FAR pursuant to section 98-30(HIGH LINE TRANSFER CORRIDOR	Increase in FAR pursuant to section 98-25 (High Line Improvement Bonuses)	Inclusionary Housing: Minimum FAR required to be transferred (note 1)	Inclusionary Housing: Increase in FAR pursuant to Section 98-26 (Modifications to Inclusionary Housing Program)	Maximum permitted # floor area ratio#
A	7.5	2.5	(note 2)	1.65	2.85	12.0
B	5.0	2.5	(note 2)	1.65	0.85	7.5
C	5.0	2.5	NA	1.65	0.85	7.5
D	5.0	2.5 (note 3)	2.5 (note 3)	1.65	0.85	7.5
E	5.0	1.0 (note 3)	1.0 (notes 2 & 3)	0.65	0.35	6.0
F	5.0	NA	NA	NA	NA	5.0
G	5.0	1.0 (note 3)	1.0 (note 3)	0.65	0.35	6.0
H	7.5	NA	2.5	NA	NA	10.0
I	5.0	2.5	NA	1.65	0.85	7.5
I (note 4)	5.0	1.0	1.5	0.65	0.35	7.5

Note 1
Minimum #floor area ratios# required to be transferred pursuant to Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive, before Inclusionary Housing #floor area# bonus can be utilized.

Note 2
In Subareas A, B, and E, the applicable basic maximum #floor area ratio# of that portion of the #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, and the applicable maximum permitted #floor area ratio# increased accordingly, by certification of the Chairperson of the City Planning Commission, pursuant to Section 98-35 (High Line Transfer Corridor Bonus).

Note 3
For certain zoning lots located in Subareas D, E, and G, the provisions of Section 98-25 (#High Line# Improvement Bonus) may apply in lieu of the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), subject to the provisions of Section 98-24 (Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E, and G).

Note 4
For #zoning lots# over which the #High Line# passes.

98-23
Special Floor Area and Lot Coverage Rules for Zoning Lots Over Which the High Line Passes
#Lot coverage# requirements shall not apply to the portion of the #zoning lot# that lies directly beneath the #High Line#. The remaining portion of the #zoning lot# shall be considered a separate #zoning lot# for the purposes of calculating maximum #lot coverage#. Easement volumes provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS) and access structures constructed therein, as well as any structure required pursuant to Appendix D or E in relation to an increase in the basic maximum #floor area # ratio of a #zoning lot# pursuant to Section 98-25 (#High Line# Improvement Bonus), shall not be considered #floor area# or #lot coverage#.
However, #lot coverage# requirements shall apply to the entire #zoning lot# for the purposes of applying tower #lot coverage# regulations as set forth in paragraph (b) of Section 98-423.

98-24
Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E and G
For #zoning lots# fronting on West 18th Street and located partially in Subarea D, partially in Subarea E and partially in Subarea G, #floor area# may be transferred across zoning district and subarea boundaries without restriction. Either the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR) or Section 98-25 (High Line Improvement Bonus) may apply to such #zoning lot#, as applicable, and the maximum permitted #floor area ratio# specified in the table in Section 98-22 shall apply, as applicable, for each subarea.

98-25
High Line Improvement Bonus
For #zoning lots# located between West 16th and West 19th streets over which the #High Line# passes, the applicable basic maximum #floor area ratio# of the #zoning lot# may be increased up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), provided that:

(a) Prior to issuing a building permit for any #development# or #enlargement# on such #zoning lot# that anticipates using #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished with a certification by the Chairperson of the City Planning Commission that: (1) a contribution has

been deposited into an escrow account or similar fund established by the City (the #High Line # Improvement Fund), or such contribution is secured by letter of credit or other cash equivalent instrument in a form acceptable to the City. Such contribution shall be used at the direction of the Chairperson solely for improvements to the #High Line# within the #High Line# improvement area applicable to such #zoning lot#, with such contribution being first used for improvements within that portion of the #High Line# improvement area on such #zoning lot#. Such contribution shall be made in accordance with the provisions of Appendix D or E, as applicable; and (2) a declaration of restrictions executed by all #parties in interest# to the #zoning lot# as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS) , including and incorporating such other instruments as are necessary to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, is filed and recorded in the Office of the Register of the City of New York; and (3) all additional requirements of Appendix D or E, as applicable with respect to issuance of a building permit, have been met.

(b) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located between Subarea H over which the #High Line# passes that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix D, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;

(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix D;

(3) At-Grade Plaza Work has been performed on such #zoning lot# in the area shown in Diagram 3 of Appendix C, in accordance with Appendix D;

(4) stairway and elevator access work has been performed on such #zoning lot# in the At-Grade Plaza area shown in Diagram 3 of Appendix C, or that an additional contribution to the #High Line# Improvement Fund to fund performance of such work has been made, in accordance with Appendix D; and

(5) all other applicable requirements of Appendix D have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix D.

(c) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located within Subarea I or located partially within Subareas D, E, and G over which the #High Line# passes that incorporates #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix E, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;

(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix E;

(3) stairway and elevator access work has been performed on such #zoning lot #, in accordance with Appendix E;

(4) for #zoning lots# located between Subarea I over which the #High Line# passes, #High Line# Service Facility Work has been performed, in accordance with Appendix E; and

(5) all other applicable requirements of Appendix E have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix E.

98-26
Modifications of Inclusionary Housing Program
The provisions of Section 23-90 (INCLUSIONARY HOUSING) are modified within the #Special West Chelsea District#, as set forth in this Section.

98-261
Definitions
For the purposes of Section 23-943 (Preservation option), the following definitions in Section 23-92 shall be modified:

Fair Rent
"Fair rent" shall include, in addition to that rent permitted pursuant to Section 23-92, the payment of principal and interest on mortgage debt, and #lower income housing# may secure such debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-94(c) of this Resolution.

Lower Income Household
A "lower income household" is a #family# having an income equal to or less than the following proportion:

$$\frac{125}{80}$$

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.
#Lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City and State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with the U.S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.
Section 23-93 shall be modified so that the applicable ratio for Preservation in Column B shall be 1.5:1.
Section 23-943, paragraph (a) shall be modified to provide that the #administering agent# shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

98-262
Floor area increase
In accordance with the provisions set forth in Section 98-22 (Maximum Floor Area Ratio and Lot Coverage in Subareas), the maximum permitted #residential floor area ratio# for #developments# or #enlargements# that have increased their permitted #floor area# through the transfer of development rights from the #High Line Transfer Corridor# by the minimum amount specified in the table in Section 98-22 may further increase their permitted #floor area# through the provision of Inclusionary Housing, as modified in this Section 98-26, to the maximum amount specified in such table. However, in those subareas or portions thereof where the Inclusionary Housing Program is applicable, and where the Chairperson of the Department of City Planning has certified that at least 90 percent of the total development rights within the #High Line Transfer Corridor# have been transferred pursuant to Section 98-30, no transfer of #floor area# pursuant to Section 98-30 shall be required, and the basic maximum #floor area ratio# of the #development# or #enlargement# may be increased by up to 1.0 in Subareas E and G, and on any #zoning lot# located in Subarea I over which the #High Line# passes; up to 2.5 in Subareas B, C, and D and on any #zoning lot# located in Subarea I over which the #High Line# does not pass, and up to 4.5 in Subarea A.

98-30
HIGH LINE TRANSFER CORRIDOR

98-31
Purposes
The #High Line Transfer Corridor#, established within the #Special West Chelsea District#, is intended to enable the transfer of development rights from properties over which and immediately to the west of where the #High Line# passes and thereby permit light and air to penetrate to the #High Line# and preserve and create view corridors from the #High Line# bed.

98-32
General Provisions
The location of the #High Line Transfer Corridor# is specified in Appendix B of this Chapter.
In the #High Line Transfer Corridor#, special regulations relating to the transfer of #floor area# are set forth in Sections 98-33 through and 98-35 inclusive.

98-33
Transfer of Development Rights From the High Line Transfer Corridor
In the #Special West Chelsea District#, a "granting site" shall mean a #zoning lot#, or portion thereof, in the #High Line Transfer Corridor#. A "receiving site" shall mean a #zoning lot#, or portion thereof, in any subarea other than Subareas F and H. #Floor area# from a granting site may be transferred to a receiving site in accordance with the provisions of this Section.

(a) Notification
Prior to any transfer of #floor area#, the Department of City Planning shall be notified in writing of such intent to transfer #floor area#. Such notification shall be made jointly by the owners of the granting and receiving sites and shall include:

(1) #floor area# zoning calculations for the granting and receiving site, and

(2) a copy of the distribution instrument legally sufficient in both form and content to effect such a distribution, and

(3) if applicable, a certified copy of the instrument creating a secondary #High Line# access easement volume, pursuant to the provisions of Section 98-63.

Notices of restrictions in a form acceptable to the Department of City Planning shall be filed by the owners of the granting and receiving sites in the Office of the Register of the City Of New York, indexed against the granting and receiving sites, certified copies of which shall be submitted to the Department of City Planning. Notice by the Department of City Planning of its receipt of certified copies thereof shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit for any #development# or #enlargement# on the receiving site.

(b) #Floor area#
The maximum amount of #floor area# transferred from a granting site located outside of a subarea shall not exceed the maximum #floor area ratio# permitted for a #commercial use# on such granting site, less any existing #floor area# to remain on such granting site.
The maximum amount of #floor area# transferred from a granting site located in a subarea shall not exceed the basic maximum #floor area ratio# specified for the applicable subarea in the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas), less any existing #floor area# to remain on such granting site.
Each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be transferred from the granting site by the amount of #floor area# transferred.
The amount of #floor area# transferred to a receiving site from a granting site in the #High Line Transfer Corridor# shall not exceed the #floor area ratio# permitted on the receiving site through such transfer, pursuant to the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas).

(c) #Use#
#Floor area# transferred from a granting site within the #High Line Transfer Corridor# may be used for any #use# allowed on the receiving site in accordance with the underlying zoning designation and the provisions of this Chapter.

(d) Stairway easement requirement
As a condition for the transfer of #floor area#, an easement volume to facilitate pedestrian access to the #High Line# via stairway shall be provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR ZONING LOTS OVER WHICH THE HIGH LINE PASSES OR ADJACENT TO THE HIGH LINE) and Section 98-63 (Recording of the #High Line# Access Easement Volume).

(e) Restrictive Declaration
As a condition for the transfer of #floor area#, and in order to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, a declaration of restrictions, executed by all #parties in interest# of the granting lot as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS), and including and incorporating such other instruments as are necessary to accomplish such purposes, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, shall be filed and recorded in the Office of the Register of the City of New York. Notice by the Department of City Planning of receipt of certified copies of such recorded declaration shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site. Such recorded declaration shall be in addition to the Notice of Restrictions required pursuant to subdivision (a) of this Section.

98-34
Screening and Landscaping Requirements for Vacant Sites
Any #zoning lot# within the #High Line Transfer Corridor# that has transferred #floor area# pursuant to Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor), and is 50 percent or more vacant shall be screened from the street and/or landscaped in accordance with the provisions of this Section; except that #zoning lots# occupied by #buildings# that extend along at least 85 percent of the #street# frontage of the #zoning lot# and are located within five feet of the #street line# are not required to provide screening or landscaping.
Such open or vacant areas on #zoning lots# shall be screened from the street by a fence or gate with a surface that is at least 75 percent open, extending not less than six feet and not higher than eight feet above finished grade; or alternatively, by a planting strip at least four feet wide and densely planted with evergreen shrubs at least four feet high at the time of planting or of a variety expected to reach a height of six feet within three years, or by both. Chain link and fences containing barbed wire or razor wire shall be prohibited. For portions of #zoning lots# located beneath the #High Line# planting strips shall be prohibited.

98-35
#High Line Transfer Corridor# Bonus
For #zoning lots#, or portions thereof, within the #High Line Transfer Corridor#, the applicable basic maximum #floor area ratio# of that portion of a #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, for an amount of #floor area# equivalent to the area of that portion of the #zoning lot# located within the #High Line Transfer Corridor#, provided the Chairperson of the City Planning Commission has certified that

(d) all the permitted #floor area# on that portion of the #zoning lot# that is within the #High Line Transfer Corridor# has been transferred to an eligible receiving site, in accordance with the provisions of Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor);

(e) that such granting site is vacant; and

(f) a contribution has been deposited into the #High Line# Improvement Fund established under Section 98-25, to be used at the direction of the Chairperson of the City Planning Commission to assure that the #High Line# is restored and reused as a public accessible open space.

No #building# permit for any #development# or #enlargement# that anticipates using such increased #floor area# may be issued unless and until such certification has been made.

Such contribution amount shall be $50.00 per square foot of #floor area# as of (the effective date of amendment) and shall be adjusted July 1 of the following year and each year thereafter, by the City or its designee, based on the percentage change in the Consumer Price Index for all urban consumers as defined by the U.S. Bureau of Labor Statistics.

Such bonus #floor area# shall only be used for a permitted #commercial use#, which shall be located in that portion of the #zoning lot# that is within the #High Line Transfer Corridor#; however, #public parking lots# and #public parking garages# at or above #curb level# shall not be

permitted; and the height of any #development# or #enlargement# within the #High Line Transfer Corridor# shall not exceed a height of 3 feet 6 inches above the level of the #High Line bed#.

98-40
SPECIAL YARD, HEIGHT AND SETBACK, AND MINIMUM DISTANCE BETWEEN BUILDINGS REGULATIONS

98-41
Special Rear Yard Regulations
The #yard# regulations of the underlying district shall apply, except that no #rear yard# regulations shall apply to any #zoning lot# that includes a #through lot# portion that is contiguous on one side to two #corner lot# portions and such #zoning lot# occupies the entire #block# frontage of the #street#.

98-42
Special Height and Setback Regulations
The height and setback regulations of the underlying district shall not apply, except as set forth in this Section 98-42, inclusive. Furthermore, for any #zoning lot# located within or adjacent to the #High Line Transfer Corridor#, the provisions of Section 98-50, inclusive, shall also apply. All heights shall be measured from the #base plane#, unless otherwise specified.

98-421
Obstruction over the High Line

Within the #Special West Chelsea District#, the #High Line# shall remain open and unobstructed from the #High Line bed# to the sky, except for improvements constructed on the #High Line# in connection with the use of the #High Line# as a public open space.

98-422
Special rooftop regulations
The provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings or other structures# within the #Special West Chelsea District# except as modified as follows:

(a) Permitted Obstructions
Elevator or stair bulkheads, roof water tanks, cooling towers or other mechanical equipment (including enclosures), may penetrate a #sky exposure plane# or a maximum height limit provided that either the product, in square feet, of the #aggregate width of street walls# of such obstructions facing each #street# frontage, times their average height, in feet, shall not exceed a figure equal to eight times the width, in feet, of the #street wall# of the #building# facing such frontage, or, the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#, and the height of all such obstructions does not exceed 40 feet. In addition, dormers may penetrate a maximum base height in accordance with the provisions of paragraph (c) of Section 23-621 (Permitted obstructions in certain districts). However, dormers may not exceed the maximum #building# height in Subareas F, C and G where the maximum base height and maximum #building# height are the same.

(b) Ventilation and mechanical equipment
All mechanical equipment located within 15 feet of the level of the #High Line# bed that is within 25 feet of the #High Line#, measured horizontally, or within the #High Line frontage#, as applicable, shall be screened and buffered with no intake or exhaust fans or vents facing directly onto the #High Line#.

98-423
Street wall location, minimum and maximum base heights and maximum building heights

The provisions set forth in paragraph (a) of this Section shall apply to all #developments# and #enlargements#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (f) of this Section.

(a) The #street wall# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in Table A of this Section. Recesses, not to exceed three feet in depth from the #street line#, shall be permitted on the ground floor where required to provide access to the #building#. Above a height of 12 feet above the #base plane#, up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#, provided any such recesses deeper than 10 feet along a #wide street#, or 15 feet along a #narrow street#, are located within an #outer court#. Furthermore, no recesses shall be permitted within 30 feet of the intersection of two #street lines# except that, to allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.
For #developments# that occupy the entire #block# frontage of a #street# and provide a continuous sidewalk widening along such #street line#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section. The #street wall# location provisions of this section shall not apply along that portion of any #street# frontage:
(1) over which the #High Line# passes;
(2) occupied by existing #buildings# to remain, or
(3) between the #High Line# and a #side lot line#, where such frontage measures less than 20 feet.

All portions of #buildings or other structures# that exceed the applicable maximum base height specified in Table A shall provide a setback at a height not lower than the applicable minimum base height. A setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#, except such dimensions may include the depth of permitted recesses in the #street wall#.
No #building or other structure# shall exceed the maximum #building# height specified in Table A.

(d) Subareas A and D
(1) #Street wall# location
The #street wall# location provisions set forth in paragraph (a) of this Section shall apply, except that for #zoning lots# with #wide# and #narrow street# frontage, no #street wall# is required beyond 50 feet of a #wide street#.
However, in Subarea D, for #buildings# that do not include towers as set forth in paragraph (b)(3) of this Section, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front . In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within ten feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.
(2) Setback provisions
The setback provisions for portions of #buildings# above the maximum base height set forth in paragraph (a) of this Section shall not apply. In lieu thereof, no portion of a #building or other structure# that exceeds the applicable maximum base height shall penetrate a #sky exposure plane# that begins above the #street line# at the maximum base height and rises over the #zoning lot# at a ratio of 2.7 feet of vertical distance to one foot of horizontal distance on a #narrow street#; and 5.6 feet of vertical distance to one foot of horizontal distance on a #wide street#.

(3) Tower provisions
Any #building#, or portion thereof, which in the aggregate occupies not more than 40 percent of the #lot area# of the #zoning lot# and penetrates the #sky exposure planes# set forth in paragraph (b)(2) of this Section is hereinafter referred to as a "tower". Such towers are permitted provided they are set back at least 10 feet from a #wide street line# and at least 15 feet from a #narrow street line#, and provided no other portion of the #building# exceeds the applicable maximum base height. In addition, the following rules shall apply:

(i) For #zoning lots# with less than 20,000 square feet of #lot area#, such tower may occupy more than 40 percent of the #lot area# of the #zoning lot# in accordance with the provisions of Section 33-454 (Towers on small lots).
(ii) Any #story# within the highest 40 feet of such tower (the penthouse portion), shall not exceed 85 percent of the gross area of the highest #story# directly below such penthouse portion
(iii) In Subarea A, such tower shall occupy at least 30 percent of the #lot area# of the #zoning lot#, except that such minimum #lot coverage# requirement shall be reduced to 25 percent above a height of 220 feet. However, no minimum #lot area# requirement shall apply to the highest four #stories# or 40 feet of such #building#, whichever is less.
(iv) In Subarea A, the maximum length of any #story# located above a height of 220 feet shall not exceed 150 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above a height of 220 feet. Any side of such rectangle shall not exceed 150 feet.
(v) In Subarea A, for any #zoning lot# with more than 75 feet of #narrow street# frontage in which a #side lot line# is located within an area bounded by a line 200 feet east of and parallel to Eleventh Avenue and a line 410 feet east of and parallel to Eleventh Avenue, no tower portion of a #building# shall be located closer than 25 feet to such #side lot lines#.
(vi) In Subarea D, the maximum #building# height shall be 220 feet, and the maximum length of any #story# located above the maximum base height shall not exceed 150 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# wholly or partially above the maximum base height. Any side of such rectangle shall not exceed 150 feet. However, for #zoning lots# that occupy the entire Eleventh Avenue #block# front, a portion of the #street wall# may rise above the maximum base height without setback from Eleventh Avenue provided the aggregate width of the Eleventh Avenue #street wall# does not exceed 100 feet.

(c) Subareas C, F and G
In Subareas C, F and G, for #zoning lots# with wide and narrow street frontage, no #street wall# is required beyond 50 feet of a wide street.
Furthermore, for any #development# or #enlargement# that occupies at least one corner of the Tenth Avenue #block# front and extends along the Tenth Avenue frontage of the #zoning lot# for at least 170 feet, exclusive of existing #buildings# to remain, a lowered #street wall# shall be provided for any #building# that exceeds 45 feet in height. Such lowered #street wall# shall have a maximum height of 45 feet and a minimum height of 35 feet and extend along the Tenth Avenue frontage for a width not less than 25 percent and not more than 30 percent of the #aggregate width of street walls# facing Tenth Avenue. Such lowered #street wall# portion of the Tenth Avenue frontage shall be located at the intersection of Tenth Avenue and a #narrow street#. Such lowered #street wall# shall extend along such #narrow street line# for a distance of at least 50 feet from Tenth Avenue. Beyond 50 feet of Tenth Avenue, excluding the #High Line frontage# of a #building#, such portion of the #building# shall not exceed a height of 45 feet.
The provisions of this Section, relating to the location and height of the lowered #street wall# portion of the Tenth Avenue frontage of a #development# are illustrated in Diagram 1 (Street Wall and #High Line# Frontage Regulations in Subareas C, F and G), in Appendix C of this Chapter.

(d) Subarea E
The #street wall# location provisions set forth in paragraph (a) shall not apply to any #development# or #enlargement# on a #zoning lot# fronting on West 18th Street and located partially in Subareas D, E and G, where #floor area# has been transferred pursuant to Section 98-24. A maximum of 60 percent of the West 18th Street frontage within Subarea E may rise without setback to a maximum #building# height of 250 feet and a minimum of 20 percent of the West 18th Street frontage within Subarea E shall rise without setback to a minimum height of 60 feet and a maximum height of 85 feet and be located within 10 feet of the #street line#.

(e) Subarea H
No #building or other structure# shall be located east of the #High Line#.
No portion of a #building or other structure# shall exceed a height of 85 feet except for two #buildings#, or portions of #buildings#, hereinafter referred to as Tower East and Tower West. At or above the base height, both such towers shall be set back at least 10 feet from any #street wall# facing a #wide street# and at least 15 feet from any #street wall# facing a #narrow street#. Such set backs shall be provided at a height not lower than 60 feet, except that such set backs may be provided at a height not lower than 40 feet, provided at least 65 percent of the #aggregate width of street walls# facing #narrow streets# and at least 60 percent of the #aggregate width of street walls# facing #wide streets# have a minimum base height of 60 feet. Tower East shall be located in its entirety within 240 feet of the Tenth Avenue #street line#, and Tower West shall be located in its entirety within 200 feet of the Eleventh Avenue #street line#. Neither tower shall exceed a height of 280 feet.
A maximum of 50 percent of the #street wall# of Tower West may rise without setback from a #narrow street line#. Such portion of the #street wall# shall be located a minimum of 15 feet and a maximum of 20 feet from the #narrow street line#.

(f) Subarea I
In that portion of Subarea I located within 300 feet of Tenth Avenue between West 16th Street and West 17th Street, the #street wall# location provisions set forth in paragraph (a) shall not apply along Tenth Avenue, as illustrated in Diagram 5 (Subarea H Requirements), of Appendix C of this Chapter, but shall apply along a minimum of 85 percent of the West 16th Street and West 17th Street frontages. No portion of a #building or other structure# located within 300 feet of Tenth Avenue shall exceed a height of 120 feet, except for one #building# which may have a height not to exceed 220 feet provided such #building# is located in its entirety within 90 feet of West 17th Street and has a length that does not exceed 175 feet when measured parallel to the West 17th Street #street line#.
In all other portions of Subarea I, the provisions of paragraph (a) shall apply.

TABLE A
Minimum and Maximum Base Height and Maximum Building Height by District or Subarea

District or Subarea	Minimum Base Height (in feet)	Maximum Base Height (in feet)	Maximum Building Height (in feet)
C6-3A	60	85	120
C6-3A	60	102	145
A within 100 feet of a #wide street#	60	85	See paragraph (b)
A beyond 100 feet of #wide street#	40	60	See paragraph (b)
B, M1-5	60	95	135
C for #zoning lots# with only #narrow street# frontage	60	110	110
C for #zoning lots# with Tenth Avenue frontage	105 See paragraph (c)	125 See paragraph (c)	125 See paragraph (c)
C for #zoning lots# with Eleventh Avenue frontage	125 See paragraph (c)	145 See paragraph (c)	145 See paragraph (c)
D	60	90	220 See paragraph (b)
E	60	105	120 See paragraph (d)
F	60 See paragraph (c)	80 See paragraph (c)	80 See paragraph (c)
G for #zoning lots# with only #narrow street# frontage	60	95	95
G for #zoning lots# with #wide street# frontage	105 See paragraph (c)	120 See paragraph (c)	120 See paragraph (c)
H	60 See paragraph (e)	120 See paragraph (e)	See paragraph (e)
I within 300 ft of Tenth Ave between W. 16th St. and W. 17th St.	60	85	120 See paragraph (f)
I all other areas	60	105	135

98-424
Authorization to modify height and setback regulations
The City Planning Commission may authorize the modification of height and setback regulations set forth in Section 98-40 and 98-50, inclusive, and the transparency requirements set forth in Sections 98-141 and 98-54 for that portion of any #development# or #enlargement# located within 40 feet of the #High Line#. The Commission shall find that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public areas.

The Commission may prescribe appropriate conditions and safeguards to enhance the character of the surrounding area.

98-43
Special Distance Between Buildings Regulations
The provisions of Section 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) shall not apply.

98-50
SPECIAL HEIGHT AND SETBACK, OPEN AREA AND TRANSPARENCY REGULATIONS FOR ZONING LOTS WITHIN OR ADJACENT TO THE HIGH LINE TRANSFER CORRIDOR

98-51
Height and Setback Regulations on the East Side of the High Line

(a) Subarea A
At least 60 percent of the aggregate length of the eastern #High Line frontage# of a #building# shall set back at the level of the #High Line bed#. Not more than 40 percent of the aggregate length of such #High Line frontage# may rise above the level of the #High Line bed#. No portion of such #High Line frontage# shall exceed a maximum height of 20 feet above the level of the #High Line bed#, as illustrated in Diagram 2 (Street Wall and #High Line# Frontage Regulations in Subarea A) in Appendix C, of this Chapter.

(b) In C6-3A Districts, and in Subareas C, F and G
For #zoning lots# extending less than 120 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of a #building# shall exceed a height of 3 feet 6 inches above the level of the #High Line bed#.

For #zoning lots# that extend for at least 120 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of the #building# shall exceed a height of 3 feet 6 inches above the level of the #High Line bed#, except that a maximum of 40 percent of such #High Line frontage# may rise without setback above a height of 3 feet 6 inches above the level of the #High Line bed# provided such portion of the #building# is not located directly between the #High Line# and any #street wall# of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (a) (Subareas C, F and I) of Section 98-441 (Street wall location and minimum base heights).
However, the provisions of this paragraph (b) shall not apply to any #zoning lot# existing on (the effective date of amendment) where the greatest distance between the eastern side of the #High Line# and a #side lot line# east of the #High Line# is 35 feet when measured parallel to the nearest #narrow street line#.

98-52
Height and Setback Regulations on West Side of High Line
In C6-2A, C6-3A and M1-5 Districts, and in Subareas A, B and E, no portion of the western #High Line frontage# of a #building# shall exceed a height of 3 feet 6 inches above the level of the #High Line bed#.

98-53
Required Open Areas on the East Side of the High Line
At least 20 percent of the #lot area# of any #development# or #enlargement# on a #zoning lot#, or portion thereof, within C6-3A Districts or within Subareas A, C, F or G and over which the #High Line# passes or adjacent to a #zoning lot# over which the #High Line# passes, shall be landscaped open area, pursuant to the requirements of paragraph (a) (Open area requirements), and (b)(Permitted obstructions) of this Section. Such open area shall be located directly adjacent to the #High Line# with its longest side adjacent to the #High Line# and shall be located at an elevation not to exceed a height of 3 feet 6 inches above the level of the #High Line bed# adjacent to the #zoning lot#. At no point shall such open area be located within 50 feet of Tenth Avenue.

(a) Open area requirements

All required open areas shall:

(1) have no portion used as a driveway, vehicular access way or for parking, and shall be screened from off-street loading and service areas;
(2) be landscaped with shrubs, vines, flowers, ground cover, trees, and/or plants in planters over a minimum of 25 percent of the required open area;
(3) be maintained by the building owner who shall be responsible for the maintenance of the open area including, but not limited to, the repair of all amenities, litter control and the care and replacement of vegetation within the zoning lot; and
(4) have all mechanical equipment which is located at the same elevation as the open area, or within 15 feet of the level of the open area, screened and buffered with no intake or exhaust fans facing directly onto the required open area.
(5) Open area screening
Required open area provided at the level of the #High Line bed# may be screened and/or separated from the public areas of the #High Line# by a wall, fence, or plantings extending not higher than 8 feet above the average elevation of the #High Line bed#. Non-vegetated screening materials must be substantially transparent. For the purposes of this Section, a substantially transparent screening is defined as transparent, or non-opaque, in an evenly distributed fashion for at least 75 percent of its area. Chain link fences shall not be a permitted screening material. Vegetated screening, such as shrubs, vines, and other plantings, may be completely covered by vegetation and opaque, provided that any underlying surface is substantially transparent.
In addition, such screening material shall be maintained in good condition at all times, may be interrupted by normal entrances and/or exits, and shall have no signs hung or attached thereto, other than those permitted in Section 98-16 (Signs).

(b) Permitted obstruction

(1) Any #High Line# access structure, providing pedestrian access to the #High Line#, by stairway or elevator, may be located within such required open area;
(2) The provisions of paragraph (g)(1) (Permitted obstructions) of Section 37-04 (Requirements for Urban Plazas) shall apply; and
(3) Open air cafes and kiosks may be located in such required open area. Open air cafes may occupy in the aggregate no more than 75 percent of such required open area.

98-54
Transparency Requirements on the East Side of the High Line
The transparency requirements of this Section shall apply to the #High Line frontage# portion of #developments# and #enlargements# located in C6-3A Districts and within Subareas A, C, F and G except for such portions that contain #dwelling units#. At least 50 percent of the area of such frontage, to be measured from a point not lower than four feet and not higher than eight feet above the level of the #High Line bed# shall be glazed and transparent and at least 75 percent of such glazed surface shall be fully transparent.

98-55
Requirements for Non-Transparent Surfaces on the East Side of the High Line
Any portion of such #High Line frontage# that is 40 feet or more in length and contains no transparent element between the level of the #High Line bed# and an elevation of twelve (12) feet above the level of the #High Line bed#, shall be planted with vines or other plantings or contain artwork. Such elements shall substantially cover the applicable non-transparent portion of the #High Line frontage#.

98-60
SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS

98-61
High Line Access Easement Volume Requirement
For all #developments# or #enlargements# within the Special West Chelsea District, an easement volume to facilitate public pedestrian access to the #High Line# via stairway and elevator (hereinafter referred to as "primary access"), shall be provided on any #zoning lot# over which the #High Line# passes that, on or after (the date of referral of zoning text amendment) has more than 5,000 square feet of #lot area# . In the #High Line Transfer Corridor#, an easement volume to facilitate public pedestrian access to the #High Line# via stairway (hereinafter referred to as "secondary access"), shall be provided on any #zoning lot# from which #floor area has been transferred pursuant to Section 98-33 unless a primary access easement has been provided pursuant to this Section 98-61.
However, a primary access easement shall not be required if a primary access easement is already provided on the same #block# and a secondary access easement shall not be required if a primary or secondary access easement has already been provided on the same #block#. Furthermore, primary and/or secondary access easements shall not be required where the Chairperson of the City Planning Commission certifies that:
(1) the minimum dimensions required for the access easement volume pursuant to paragraph (a) of Section 98-62 cannot be accommodated within 33 feet six inches of a #street line# for primary access easements and 40 feet of a #street line# for secondary access easements; or
(2) in the case of a primary easement, a secondary easement is already provided on the same #zoning lot# and such easement is sufficient in size or has been enlarged to be sufficient in size to accommodate the provisions for primary access easements as specified in Section 98-62; or
(3) for primary or secondary easements, access has already been constructed on the same block or on the same street frontage and that such access meets the location and access requirements for primary or secondary access easements, as specified in Section 98-62(a) and (b) and meets all standards, as applicable, for persons with disabilities; or
(4) for primary or secondary easements, construction documents for the #High Line# open space have been developed that specify the opposite side of the same street frontage as an access location.

98-62
High Line Access Easement Regulations
The provisions of this Section shall apply to any #zoning lot# providing an access easement volume, as follows:
(a) Location and Minimum Dimensions

(1) Primary access easement volume
A primary access easement volume may be located within a #building# or within open areas on the #zoning lot#, including open areas required pursuant to Section 98-53 (Required Open Areas on the East Side of the High Line), provided such volume is within 15 feet of a #narrow street line#. The minimum length of such volume shall be 18 feet six inches and the minimum width shall be ten feet; however, the minimum area of such volume shall be 350 square feet. The height of such volume shall extend from a point at least ten feet below #curb level# to a point at least 15 feet above the level of the #High Line bed#. A primary access easement volume may also replace a previously provided secondary access easement volume, and such secondary access easement volume may be terminated pursuant to Section 98-64. Such minimum dimensions are illustrated in Diagram 6 (#High Line# Access Easement Volume Parameters) of Appendix C of this Chapter.
(2) Secondary access easement volume
A secondary access easement volume shall be located within 15 feet of a #narrow street line# and directly adjacent to the #High Line# for a minimum length of 25 feet. Such volume shall have a minimum width of ten feet. The height of such volume shall extend from #curb level# to a point at least ten feet above the level of the #high Line bed#.

(b) Access

All access easement volumes shall be accessible either directly from a public sidewalk or through a publicly traversable way through the #zoning lot# directly connecting with a public sidewalk. Such publicly traversable way shall meet the following requirements:

(1) The required width of the publicly traversable way shall be a minimum of eight feet.

(2) No portion of the publicly traversable way shall be interrupted or occupied by an off-street parking or loading area.

(3) The access easement volume shall be visible from the public sidewalk or the publicly traversable way.

(4) The publicly traversable way shall be maintained by the property owner in good repair.
(5) The publicly traversable way shall be fully accessible to persons with disabilities.

(6) The publicly traversable way shall be open and accessible to the public at all times when a stairway and/or elevator located within the associated access easement volume is open and accessible to the public.

(c) Permitted obstructions
Any access structure within the access easement volume, or any weather protection provided by an overhang or roofed area over such access easement volume, accessory to the access structure, shall be considered permitted obstructions within required #yards# or open areas.

(d) Permitted #uses#
An access easement volume required on a #zoning lot# pursuant to the provisions of this Chapter may be temporarily used by the owner of such #zoning lot# for any permitted #use# until such time as required by the City of New York or its designee for access purposes. Such permitted use shall be limited to non-residential #uses# where such access easement volume is within a #building#. Where such access easement volume is within an open area, such area shall be landscaped, or may be improved in accordance with the provisions of sub-paragraphs (g)(1), (g)(2) and (g)(3) (Permitted obstructions), of Section 37-04 (Requirements for Urban Plazas), except that in the case of open air cafes and kiosks the provisions of paragraph (g) (3) shall be modified as follows: a certification shall not be required pursuant to paragraphs (g)(5) and (g)(6).
Improvements or construction of a temporary nature within the easement volume shall be removed by the owner of such #zoning lot# prior to the time at which public use of the easement areas is required. A minimum notice of six months in writing shall be given by the City of New York or its designee to the owner of the #zoning lot#, in order to vacate the tenants of such temporary #uses#.

(e) Legally Required Windows
The minimum distance between any legally required window in a portion of a #building# used for #residential use# and an access easement volume shall be 30 feet, measured in a horizontal plane at the sill level of, and perpendicular to, such window for the full width of the rough window opening.

98-63
Recording of High Line Access Easement Volume
An instrument in a form acceptable to the Department of City Planning creating a #High Line# access easement volume shall be recorded in the Office of the City Register; a certified copy of which shall be submitted to the Department of City Planning.
Notice by the Department of City Planning of its receipt of a certified copy of an instrument establishing any access easements required pursuant to this Chapter shall be a precondition to issuance by the Commissioner of Buildings of any building permits including any foundation or alteration permit for any #development# of #enlargement# on a site pursuant to Section 98-60 for primary access easements. Receipt of a certified copy of an instrument creating a secondary access easement shall be provided in conjunction with notification, pursuant to Section 98-33(a).

98-64
Termination of High Line Access Easement Volume
In the event that the City Planning Commission notifies the Department of Buildings and the owner in writing that a #High Line# access easement volume is not required on a #zoning lot# under the final construction plans for the restoration and reuse of the #High Line# as an accessible, public open space, the restrictions imposed on such #zoning lot# by the provisions of Section 98-61 (High Line Access Easement Volume Requirement) shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the City Planning Commission to the extinguishment of the easement volume. On termination of the #High Line# access easement volume requirement which has been certified pursuant to this Section, any area reserved for such easement within a #building or other structure# may be used for any #use# permitted pursuant to the provisions of this Chapter and such area shall not be considered #floor area#; and any open area reserved for such easement shall be maintained as an open area and shall be subject to the open area requirements of Section 98-53 (Required Open Areas on the East Side of the High Line).

APPENDIX D
Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea H
This Appendix sets forth additional requirements governing #zoning lots# located within Subarea H between West 17th and 18th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to subparagraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to subparagraph (b) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean "parties-in-interest", as defined in paragraph f(4) of the

definition of #zoning lot# under Section 12-10 .

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25

(1) As a condition of issuance of a building permit under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix D, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22;

(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and use of the At-Grade Plaza and the stairway and elevator that will provide access to the #High Line#, as shown in Diagram 3 of Appendix C, such easement area for the At-Grade Plaza to include the entire area of the #zoning lot# east of the #High Line# and such easement area as it relates to such stairway and elevator to be at least 2,500 square feet and in a location and configuration acceptable to the City; access for the potential performance by the City of work under the provisions set forth below; and maintenance and repair of the stairway and elevator . Such declaration shall incorporate by reference the maintenance and operating agreement referred to in paragraph (iii) below; and

(iii) Owner shall execute a maintenance and operating agreement for the At-Grade Plaza,

The easements and agreement described herein shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (b).

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot# and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement by Owner, approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the contribution to the #High Line# Improvement. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) The location of #floor area# which would exceed the basic maximum #floor area ratio# and be subject to the provisions of Section 98-25 shall be considered to be the topmost portion of the #development# or #enlargement# unless, at the time of certification pursuant to Section 98-25, paragraph (a), Owner designates, subject to the concurrence of the Chairperson of the City Planning Commission, an alternate location.

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (b) of Section 98-25

(1) Structural Remediation Work Under Paragraph (b)(2) of Section 98-25

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner may exercise such option following receipt of the City's specifications for the Structural Remediation Work or upon the City's failure to provide such specifications, as set forth in paragraphs (iv) and (v) below (unless such dates are extended by mutual agreement of the City and Owner, but in no event may exercise such option later than 90 days following receipt of a notice by the City of its intent to commence improvements to the #High Line# within the #High Line# improvement area applicable to the #zoning lot# within the next twenty-four months. In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner , as applicable, for any excess from or against the #High Line# Improvement Fund. In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (b)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of any temporary certificate of occupancy, and of final completion with respect to issuance of any final certificate of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above , at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life and maintenance requirements) as required for the remainder of the #High Line# (recognising that there may be different standards for portions of the #High Line# that will be exposed to public view versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead-based products in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City ;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including , but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below-grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) Subject to the Not-To-Exceed Limit set forth in section (c) of this Appendix, if Owner exercises the option to perform the Structural Remediation Work, it shall reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone).

(iv) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to delays outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(v) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following the (effective date of amendment) or of the date of exercise of such option, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control and, in addition, for any time during which Owner is unable to gain access in order to perform the Structural Remediation Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application). .

(vi) In the event that the City does not provide the specifications for the Structural Remediation Work, within the timeframe set forth in paragraph (iv) of this section, Owner may exercise the option to perform such work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays as described in paragraph (v) above, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(2) AtGrade Plaza Work Under Section 98-25 (b)(3)

(i) Owner shall perform At-Grade Plaza Work within the area on the #zoning lot# shown in Diagram 3 of Appendix C. For any temporary certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of substantial completion of the At-Grade Plaza Work (i.e., the At-Grade Plaza shall be open and accessible to the public). For any permanent certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of final completion of the At-Grade Plaza Work. Substantial completion of the At-Grade Plaza Work shall also require execution by all parties-in-interest of the declarations, easements and maintenance and operating agreement described in paragraph (a) of Section (1) of this Appendix, if not previously provided in connection with issuance of a building permit.

(ii) At-Grade Plaza Work shall include, but not be limited to:

(a) remediation work; and

(b) all paving, plantings, surface treatments, lighting, trees, seating, fountains and other site amenities; and

(c) infrastructure work, including conduits, drainage, water line, electrical connections, and other utility work serving the At-Grade Plaza.

(iii) The At-Grade Plaza Work shall be performed by Owner pursuant to construction documents provided by the City by September 30, 2006, subject to delays outside the reasonable control of the City (including, without limitation, litigation, but such delays shall not exceed more than 180 days), and to such extension as the City and Owner may mutually agree. The At-Grade Plaza Work shall be completed within one year following the later of the (effective date of amendment) or the receipt of such documents, subject to reasonable extension for any delays beyond Owner's reasonable control and to such extension as the City and Owner may mutually agree, and, in addition, for any time during which Owner is unable to gain access in order to perform the At-Grade Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application), or for any time needed to perform any necessary remediation work on the #zoning lot#.

(iv) In no event shall Owner be required to complete the At-Grade Plaza Work until the #High Line# improvements within the portion of the #High Line# Improvement Area adjacent to the #zoning lot# (and, as applicable, over such Improvement Area, as shown on Diagram 3 of Appendix C, are substantially complete (i.e., open to the public but for the work needed to complete the At-Grade Plaza Work). Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (b)(3), until the Chairperson determines that the At-Grade Plaza Work is substantially complete.

(v) The cost to Owner of the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) shall not exceed $2,300,000 The amount of contribution to the #High Line# Improvement Fund under subdivision a of section 1 of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such amount at the time it is made. In addition to the costs of the At-Grade Plaza Work, subject to the Not-To-Exceed Limit set forth section (c) of this Appendix, Owner shall be required to reimburse the City for:

(a) the reasonable cost of developing the plans and construction documents for the At-Grade Plaza Work; and

(b) the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the At- Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(vi) In the event that construction documents for the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) are not delivered to Owner within the timeframe set forth in paragraph 3 of this subsection, Owner shall not be required to perform the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) consistent with such documents. Instead, Owner shall perform Alternate At-Grade Plaza Work which shall include all necessary remediation work, all necessary below-grade work (including related infrastructure work necessary to support the #High Line#), and at-grade improvements pursuant to the standards set forth in Section 37-04, paragraphs (g) through (n) of the Zoning Resolution, except that open-air cafes and kiosks shall not be permitted. Permitted obstructions, whether as described in the City's Specifications for the At-Grade Plaza Work or as specified in Section 37-04, paragraph (g), for the Alternate At-Grade Plaza Work, shall not count towards # lot coverage#.

(vii) The cost to the Owner of the Alternate At-Grade Plaza Work shall not exceed $1,400,000. In addition, Owner shall , subject to the Not-To Exceed Limit of Section (c) of this Appendix, be required to reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Alternate At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(vi) Upon substantial completion of the At-Grade Plaza and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4): Owner shall provide the City with the declarations, easements and maintenance and operating agreement described in subsection a of section 1 of this Appendix ,if not already provided in connection with the issuance of a building permit; such At-Grade Plaza shall be open and accessible to the public

during at least the same hours during which the #High Line# is open and accessible to the public, subject to the terms of the maintenance and operating agreement; and Owner shall maintain the At-Grade Plaza pursuant to the terms of the maintenance and operating agreement.

(3) Stairway and Elevator Access Work Under Paragraph (b)(4) of Section 98-25

(i) Except as provided in subparagraph (iii) of this paragraph, Owner shall perform Stairway and Elevator Access Work within the At-Grade Plaza area as shown in Diagram 3 of Appendix C in conjunction with performance of the At-Grade Plaza Work. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (b)(4), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification pursuant to such Section shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator, shall be included in the construction drawings for the At-Grade Plaza Work described above, and shall be performed by Owner within the time period for performance of the At-Grade Plaza Work described in subsection c of this section. The location for the stairway and elevator shall take into account the viability of any retail spaces fronting the At-Grade Plaza.

(iii) Owner shall not be responsible for performance of the Stairway and Elevator Access Work where it performs the Alternate At-Grade Plaza Work in accordance with paragraph (b) of this section. In that event, prior to commencing the Alternate At-Grade Plaza Work and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4):

(a) Owner shall deposit into the #High Line# Improvement Fund a contribution of $900,000.00 (the Access Contribution), to be used at the direction of the Chairperson of the City Planning Commission for construction of stairway and elevator facilities on the #zoning lot#; and

(b) Owner shall provide the City with the declarations, easements, and maintenance and operating agreement described in paragraph (1) of Section (a) of this Appendix, if not previously provided in connection with issuance of a building permit.

(4) City Performance of Work In the Event of Failure to Perform

(i) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under Section (a) of this Appendix, Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b) of this Appendix), the At-Grade Plaza Work or Alternate Plaza Work, as applicable, and the Stairway and Elevator Access Work (where required to do so under paragraph (3) of Section (b) of this Appendix), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 3 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(ii) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(a) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total), unless such date is extended by mutual agreement between the City and Owner, for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City; and

(b) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control and , in addition, any time in which Owner is unable to gain access in order to perform the At-Grade Plaza Work or Alternate Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application) or), or for any time during which remediation work is in progress on the #zoning lot#.

(iii) In the event Owner does not comply with the requirements paragraph (4)(ii) of this Section (b):

(a) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(b) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(c) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor any temporary or permanent certificate of occupancy may be issued pursuant to Section 98-25, paragraph (b), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

(c) Reimbursement Not-To- Exceed Limits

Reimbursement of the City by Owner of costs pursuant to this Appendix shall not exceed a total of $450,000.00.

APPENDIX E
Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E, G or I

This Appendix sets forth additional requirements governing #zoning lots# located partially within Subareas D, E and G or within Subarea I between West 16th and 17th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum Floor Area Ratio in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to paragraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to paragraph (c) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean " parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10.

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25

(1) As a condition of certification under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix E, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22; and

(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and from a stairway and elevator on the #zoning lot# that will provide access to the #High Line# and for maintenance and repair by the City of such stairway and elevator; and the potential performance by the City of work under the provisions set forth below. In the case of #zoning lots# between West 16th and 17th streets, Owner shall also provide the City with easements providing for City access to and from and for public use of the #High Line# Service Facilities on the #zoning lot# and for maintenance and repair by the City of such #High Line# Service Facilities. All easements described herein shall be in a form acceptable to the City and shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (c); and

(iii) submit plans for Stairway and Elevator Access Facilities and, where applicable, #High Line# Service Facilities that demonstrate compliance with the provisions of this Appendix and are consistent with New York City Department of Parks and Recreation standards and best practices governing materials life cycle and maintenance for review and approval by the Chairperson of the City Planning Commission.

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot # and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement , approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the #High Line# Improvement Fund contribution to reflect the cost of such improvements. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) The location of #floor area# which would exceed the basic maximum #floor area ratio# and be subject to the provisions of Section 98-25 shall be considered to be the topmost portion of the #development# or #enlargement# unless, at the time of certification pursuant to Section 98-25, paragraph (a), Owner designates, subject to the concurrence of the Chairperson of the City Planning Commission, an alternate location.

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (c) of Section 98-25

(1) Structural Remediation Work Under Paragraph (c)(2) of Section 98-25

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner may exercise such option following receipt of the City's specifications for the Structural Remediation Work or upon the City's failure to provide such specifications, as set forth in paragraphs (iv) and (v) below (unless such dates are extended by mutual agreement of the City and Owner, but in no event may exercise such option later than 90 days following receipt of a notice by the City of its intent to commence improvements to the #High Line# within the #High Line# improvement area applicable to the #zoning lot# within the next twenty-four months. In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 for each square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner, as applicable, for any excess from or against the #High Line# Improvement Fund , In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (c)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of temporary certificates of occupancy, and of final completion with respect to issuance of final certificates of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above, at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life, and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to the public versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead-based products in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including, but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below-grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to such delays as are outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(iv) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following the (effective date of amendment) or of the date of exercise of such option, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control.

(v) In the event that the City does not provide the specifications for the Structural Remediation Work within the timeframe set forth in paragraph (iii) of this subsection, Owner may exercise the option to perform such work and proceed with the Structural Remediation Work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement

between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(vi) If Owner exercises the option to perform the Structural Remediation Work, Owner shall reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone), such reimbursement not to exceed $115,000.

(2) Stairway and Elevator Access Work Under Paragraph (c)(3) of Section 98-25

(i) Owner shall perform Stairway and Elevator Access Work subject to the provisions of subparagraph 2 of this paragraph. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(3), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator located directly adjacent to or below the #High Line#. Except as approved by the Chairperson of the City Planning Commission pursuant to paragraph (1)(iii) of Section (a) of this Appendix, #curb level# entrances to such access facilities must be located at the #street line#. Such access facilities shall be harmonious with the design of the #High Line# on the #zoning lot# and shall be visible and identifiable as #High Line# access facilities when viewed from Tenth Avenue. Such access facilities may be unenclosed or enclosed. When such access facilities are enclosed and located at the #street line#, any wall or façade separating the access facility from the #street# shall be substantially glazed and fully transparent from ground level to the full height of the access facility. Any wall or façade separating the access facility from the #High Line# shall be substantially glazed and fully transparent from the level of the #High Line bed# to the full height of the access facility. Stairways shall have a clear path of not less than 6 feet in width. Such access facilities shall be identified with signage placed at the #High Line# level and at street level that is consistent with guidelines specified in the signage plan as authorized by the City Planning Commission pursuant to the provisions of Section 98-16.

(iii) The Stairway and Elevator Access Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the provisions of paragraph (2)(ii) of this Section, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the Stairway and Elevator Access Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(3), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(3) #High Line# Service Facility Work Under Paragraph (c)(4) of Section 98-25

(i) For #zoning lots# located between West 16th and 17th streets, Owner shall perform #High Line# Service Facility Work subject to the provisions of this section. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(4), shall be of substantial completion of the work. For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) #High Line# Service Facilities shall consist of satellite maintenance and operations space for the #High Line# open space as well as public restrooms, in accordance with the following standards:

(a) Location

Such facilities shall have a component located at the level of the #High Line bed#, or within 5 feet of such level (hereinafter referred to as the "upper service facility"). Such facilities shall also have a component located no higher than #curb level# (hereinafter referred to as the "lower service facility"). The upper facility must be located directly above the lower facility to enable placement of a trash chute connecting the upper and lower facilities. Where the upper facility is not located exactly at the level of the #High Line bed#, a fully accessible ramp must connect such level with the level of the upper facility. Where the lower facility is not located exactly at #curb level#, a means acceptable to the City of connecting the lower service facility to a #street# frontage shall be provided.

(b) Program and dimensions

(1) Lower service facilities

Lower service facilities shall contain a room which is accessible from #street# level and is no less than 50 square feet in area. Such facility shall contain the outlet of a trash chute from the upper service facility and shall also have a minimum of one electrical outlet furnishing a wattage consistent with its intended use within a maintenance and operations facility.

(2) Upper service facilities

Upper service facilities shall be no less than 350 square feet in area and shall contain, at a minimum one public restroom not less than 250 square feet in area with separate restroom spaces for each gender, one storage room not less than 70 square feet in area, and one waste disposal room not less than 30 square feet in area and containing a trash chute to the lower service facility Each room within such upper service facilities shall have a minimum of one electrical outlet furnishing wattage consistent with its intended use within a maintenance and operations facility.

(iii) The #High Line# Facility Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the standards of paragraph (ii) of this subsection, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the #High Line# Facility Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(4), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(v) The cost to Owner of the #High Line# Facilities Work shall not exceed $1,150,000. The amount of contribution to the #High Line# Improvement Fund under paragraph (1) of Section (a) of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such at the time it is made. .

(c) City Performance in the Event of Failure to Perform

(1) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under paragraph (1) of Section (a) of this Appendix), Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b)) and the Stairway and Elevator Access Work (under paragraph (3) of Section (b)), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above, as applicable, has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(2) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(i) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total) for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City, unless such date is extended by mutual agreement between the City and Owner; and

(ii) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control

(3) In the event Owner does not comply with the requirements of paragraph (2) above:

(i) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(ii) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(iii) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor may any temporary or permanent certificates of occupancy may be issued pursuant to Section 98-25, paragraph (d), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

MARKETING DEVELOPMENT CORPORATION

■ JOINT PUBLIC HEARING

NOTICE OF A JOINT PUBLIC HEARING between the Franchise and Concession Review Committee ("FCRC") and NYC Marketing Development Corporation on behalf of the Department of Small Business Services to be held on Monday, April 11, 2005 at Spector Hall, 22 Reade Street, Main Floor, Borough of Manhattan, commencing at 10:00 a.m. relative to:

NYC Marketing Development Corporation's application on behalf of the Department of Small Business Services to utilize different procedures (i.e., a sole source concession), pursuant to Section 1-13 of the Concession rules to implement a concession with The History Channel. NYC Marketing Development Corporation will seek the FCRC's approval at their April 13th meeting for both the use of different procedures and approval of the proposed concession.

This partnership is non-exclusive and NYC Marketing Development Corporation entering into such a partnership on behalf of the City does not preclude either NYC Marketing Development Corporation or the City from entering into a similar partnership in the future.

Term: The term of the agreement is for the period commencing August 26, 2004 and shall expire on February 13, 2008.

The agreement includes two (2) proposed concessions involving the use of intellectual property, both of which are related to the New York City's Official History Center (NYCOHC) (a city owned tourism information center):

1. The designation of certain historically themed tours of New York City that will be planned and/or mapped by The History Channel, as "New York City's Official History Tours".

2. The designation of "New York City's Official History Trolley" in connection with NYC Marketing Development Corporation's efforts to promote historical tourism to New York City and the new City-owned and operated NYCOHC. It is intended that New York City's Official History Trolley will be a parade type float for use in local events and parades.

The value of the two (2) concessions in this agreement involving the use of the City's intellectual property is estimated to be $2.25M in advertising time on the History Channel networks (comprised of time for 30-second commercials, not cash), plus the economic impact created by the marketing and promotion of the tours as well as the exposure of the parade type float. The City will be highlighted as a tourism attraction and this will presumably drive tourists to New York.

A copy of the agreement is available for viewing Monday through Friday beginning on March 17, 2005 and ending on April 11, 2005 at the offices of NYC Marketing Development Corporation, 1 Liberty Plaza, 33rd Floor, New York, NY 10006 between the hours of 9:00 a.m. and 5:00 p.m.

m17-a11

PARKS AND RECREATION

■ JOINT PUBLIC HEARING

NOTICE OF A JOINT PUBLIC HEARING between the Franchise and Concession Review Committee and the Department of Parks and Recreation to be held on Monday,

April 11, 2005 at Spector Hall, 22 Reade Street, Main Floor, Borough of Manhattan, commencing at 10:00 a.m. relative to:

INTENT TO AWARD as a concession the operation and maintenance of a full-service marina at Mill Basin, Brooklyn, for a license term of twelve (12) years, to Donato DiMeglio, 2239 E. 73rd St., Brooklyn, NY 11234.

Amount - Year 1: $88,343 versus 35% of gross revenue
Year 2: $92,761 versus 35% of gross revenue
Year 3: $97,399 versus 35% of gross revenue
Year 4: $102,269 versus 35% of gross revenue
Year 5: $107,382 versus 35% of gross revenue
Year 6: $112,752 versus 35% of gross revenue
Year 7: $118,390 versus 35% of gross revenue
Year 8: $124,310 versus 35% of gross revenue
Year 9: $130,526 versus 35% of gross revenue
Year 10: $137,052 versus 35% of gross revenue
Year 11: $143,905 versus 35% of gross revenue
Year 12: $151,100 versus 35% of gross revenue

* In addition, the concessionaire will pay 15% of annual gross receipts that exceed $400,000.

LOCATION B166-D-M

Interested parties may review a copy of the proposed license agreement in Room 313 at the Arsenal, Central Park, 830 Fifth Avenue, NY, NY 10021 on Friday, March 18, 2005 through Monday, April 11, 2005, exclusive of Saturdays, Sundays and holidays.

TELECOMMUNICATION DEVICE FOR THE DEAF (TDD) 1 800-281-5722.

OASIS DISASTER RECOVERY PROJECT – Sole Source – Available only from a single source - PIN# 01505INFO002 – DUE 04-18-05 AT 10:00 A.M. – The Comptroller's Office intends to enter into negotiations on a sole source basis with Integic Corporation to provide replication of our OASIS and local area network environment as a remote service location. In accordance with Section 3-05(c)(I) of the City's Procurement Policy Board Rules ("the PPB Rules"), the New York City Comptroller's Office is requesting expressions of interest from vendors qualified to complete on this procurement now or in the future. Expressions of interest should be sent in writing to Dorian Fulvio, at 1 Centre St., Room 2230, New York, NY 10007 or electronic mail to bisolicitations@comptroller.nyc.gov All expressions must be received no later than 10:00 a.m. on April 18, 2005. Expressions of interest will be evaluated; if it appears that the requested goods and services are available from more than a single source, a solicitation shall be issued in accordance with Chapter 3 of the PPB Rules.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.
Comptroller's Office, 1 Centre St., Room 2230, New York, NY 10007. Dorian Fulvio (212) 669-2858, bisolicitations@comptroller.nyc.gov

BUSINESS CONTINUITY AND DISASTER RECOVERY PLAN – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 01505INFO01 – DUE 05-06-05 AT 2:00 P.M. – The Comptroller`s Office intends to enter into a negotiated acquisition to develop, test and maintain an agency wide business continuity and disaster recovery plan encompassing multiple business units and various technical environments. This solicitation is being conducted as a negotiated acquisition, based on time sensitivity and a limited number of suppliers with requisite experience. The projected start date is July 1, 2005 and the proposed term of the contract is 5 years. Expressions of Interest from qualified vendors to compete in future procurements should be sent in writing to Dorian Fulvio at 1 Centre St. Room 2230 and or emailed to bisolicitations@comptroller.nyc.gov. The negotiated acquisition Scope of Work will be available for pick up at 1 Centre St. Room 2230 on April 18, 2005 during the hours of 10:00 a.m. and 4:00 p.m., or as a .pdf file via electronic mail if so requested.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.
Comptroller's Office, 1 Centre St., Room 2230, New York, NY. 10007. Dorian Fulvio (212) 669-2858 bisolicitations@comptroller.nyc.gov

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.
Department of Homeless Services, 33 Beaver St., 13th Fl. New York, NY 10004. John Iaffaldano (212) 361-8435 jiaffald@dhs.nyc.gov

JUVENILE JUSTICE

SOLICITATIONS

Human / Client Service

NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 08-28-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew. Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. If a vendor is interested in being considered for award of a contract described above, please hand deliver a written expression of interest addressed to Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 pursuant to the terms of the solicitation document.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

GENCOMP APPLICATIONS WINDOWS UPGRADE – Sole Source – Available only from a single source - PIN# 02505XMIS058 – DUE 04-21-05 AT 5:00 P.M. – The New York City Law Department intends to enter into sole source negotiations with StrataCare, Inc. ("StrataCare") for provision of GenCOMP Applications Windows Upgrade for the Workers Compensation Claims Processing System. GenSource Corp. was the original sole owner of GenCOMP Software and developer of the Claims Processing System. StrataCare purchase the assests of GenSource as of April 13, 2004. Currently, the System runs on an IBM R/S 6000 minicomputer platform using legacy character products. GenCOMP for Windows is a full-featured software application for managing and administering workers compensation insurance programs. The GenCOMP for Windows upgrade agreement shall provide all system software, installation, on-site training, travel expenses, and maintenance. GenCOMP for Windows is solely owned, deployed, and supported by StrataCare. StrataCare is therefore the sole source provider for the GenCOMP Applications Windows Upgrade. Any firm which believes it can provide the above-referenced goods and services is invited to do so indicated by letter, which must be received no later than the vendor response date indicated in this notice.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

OFFICE OF THE CRIMINAL JUSTICE COORDINATOR

■ **PUBLIC HEARING**

CANCELLATION OF PUBLIC HEARING

NOTICE IS HEREBY GIVEN that a Contract Public Hearing will be held on Thursday, April 7, 2005, **at 110 William Street, 4th Floor-Conference Room 4A, Borough of Manhattan. (Identification must be provided to gain entry into the building)** commencing at 10:00 a.m. on the following:

IN THE MATTER OF a proposed contract between the Criminal Justice Coordinator's Office and the HOPE Program, located at One Smith Street, Brooklyn, NY 11201, for the provision of Alternative to Incarceration services for parolees arrested on misdemeanor charges in Kings County. The contract term shall be from July 1, 2005 to June 30, 2007. There shall be two renewal options, each for a two-year term, at the discretion of the City, from July 1, 2007 to June 30, 2009 and from July 1, 2009 to June 30, 2011. The contract shall be in an amount not to exceed $320,940.
PIN #: 00206DMPS403.

The proposed contractor has been selected by means of Competitive Sealed Proposal, pursuant to Section 3-03 of the Procurement Policy Board Rules.

A draft copy the proposed contract shall be available for inspection by members of the public at the Office of Criminal Justice Coordinator, at One Centre Street, Room 1012N, New York, NY 10007, from March 25, 2005 to April 7, 2005, excluding Saturdays, Sundays and Holidays, during the hours of 9:00 a.m. and 12:00 p.m. and 2:00 p.m. and 4:00 p.m.

Anyone who wishes to speak at this Public Hearing should request to do so in writing. The written request must be received by the Criminal Justice Coordinator's Office within five (5) business days after publication of this notice. Written requests to speak should be sent to Monique D. Davis, Criminal Justice Coordinator's Office, One Centre Street, Room 1012 North, New York, New York 10007. If the Criminal Justice Coordinator's Office receives no written request to speak within the prescribed time, the office reserves the right not to conduct a Public Hearing.

IN THE MATTER of two (2) proposed contracts between the Criminal Justice Coordinator's Office and the contractors listed below, for the provision of Earned Income Tax Credit legal services. The contract term shall be from July 1, 2004 to June 30, 2005. There shall be no options to renew.

1. The Legal Aid Society
   199 Water Street, New York, NY 10038
Amount: $357,500 PIN: 00205DMPS381

2. Legal Services for New York City
   350 Broadway, 6th Floor, New York, NY 10013
Amount: $357,500 PIN: 00205MPS382

The proposed contractors are being funded through City Council Discretionary Funds appropriation, pursuant to Section 1-02 (e) of the Procurement Policy Board Rules.

Draft copies of the proposed contracts shall be available for inspection by members of the public at One Centre Street, Room 1012N, New York, NY 10007, from March 25, 2005 and April 7, 2005, excluding Saturdays, Sundays and Holidays, during the hours of 9:00 a.m. and 12:00 p.m. and 2:00 p.m. and 4:00 p.m.

Anyone who wishes to speak at this Public Hearing should request to do so in writing. The written request must be received by the Criminal Justice Coordinator's Office within five (5) business days after publication of this notice. Written requests to speak should be sent to Monique D. Davis, Criminal Justice Coordinator's Office, One Centre Street, Room 1012 North, New York, New York 10007. If the Criminal Justice Coordinator's Office receives no written request to speak within the prescribed time, the office reserves the right not to conduct a Public Hearing.

IN THE MATTER of a proposed contract between the Criminal Justice Coordinator's Office and Palladia, Inc., located at 10 Astor Place, 7th Floor, New York, NY 10003, for the provision of a Men's residential program providing alternative to incarceration services. The contract term shall be from July 1, 2005 to June 30, 2007. There shall be two renewal options, each for a two-year term, at the discretion of the City, from July 1, 2007 to June 30, 2009 and from July 1, 2009 to June 30, 2011. The contract shall be in an amount not to exceed $1,474,886. PIN #: 00206DMPS394.

The proposed contractor has been selected by means of Competitive Sealed Proposal, pursuant to Section 3-03 of the Procurement Policy Board Rules.

A draft copy of the proposed contract shall be available for inspection by members of the public at the Office of Criminal Justice Coordinator, One Centre Street, Room 1012N, New York, NY 10007, from March 25, 2005 to April 7, 2005, excluding Saturdays, Sundays and Holidays, during the hours of 9:00 a.m. and 12:00 p.m. and 2:00 p.m. and 4:00 p.m.

IN THE MATTER of a proposed contract between the Criminal Justice Coordinator's Office and Project Greenhope: Services for Women, Inc., located at 23 West 123rd Street, 5th Floor, New York, NY 10027, for the provision of services through a residential program as an alternative to incarceration for women offenders. The contract term shall be from July 1, 2005 to June 30, 2007. There shall be two renewal options, each for a two-year term, at the discretion of the City from July 1, 2007 to June 30, 2009 and from July 1, 2009 to June 30, 2011. The contract shall be in an amount not to exceed $580,000. PIN #: 00206DMPS396.

The proposed contractor has been selected by means of Competitive Sealed Proposal, pursuant to Section 3-03 of the Procurement Policy Board Rules.

A draft copy of the proposed contract shall be available for inspection by members of the public at the Office of Criminal Justice Coordinator, One Centre Street, Room 1012N, New York, NY 10007, from March 25, 2005 to April 7, 2005, excluding Saturdays, Sundays and Holidays, during the hours of 9:00 a.m. and 12:00 p.m. and 2:00 p.m. and 4:00 p.m.

Anyone who wishes to speak at this Public Hearing should request to do so in writing. The written request must be received by the Criminal Justice Coordinator's Office within five (5) business days after publication of this notice. Written requests to speak should be sent to Monique D. Davis, Criminal Justice Coordinator's Office, One Centre Street, Room 1012 North, New York, New York 10007. If the Criminal Justice Coordinator's Office receives no written request to speak within the prescribed time, the office reserves the right not to conduct a Public Hearing.

IN THE MATTER of a proposed contract between the Criminal Justice Coordinator's Office and the Urban Youth Alliance, Inc., located at 442 East 149th, Bronx, NY 10455, to provide services as an alternative incarceration to juvenile offenders and young adults in The Bronx and Manhattan. The contract term shall be from July 1, 2005 to June 30, 2007. There shall be two renewal options, each for a two-year term, at the discretion of the City, from July 1, 2007 to June 30, 2009 and from July 1, 2009 to June 30, 2011. The contract shall be in an amount not to exceed $454,400.
PIN #: 00206DMPS391.

The proposed contractor has been selected by means of Competitive Sealed Proposal, pursuant to Section 3-03 of the Procurement Policy Board Rules.

A draft copy of the proposed contract shall be available for inspection by members of the public at the Office of Criminal Justice Coordinator, at One Centre Street, Room 1012N, New York, NY 10007, from March 25, 2005 to April 7, 2005, excluding Saturdays, Sundays and Holidays, during the hours of 9:00 a.m. and 12:00 p.m. and 2:00 p.m. and 4:00 p.m.

Anyone who wishes to speak at this Public Hearing should request to do so in writing. The written request must be received by the Criminal Justice Coordinator's Office within five (5) business days after publication of this notice. Written requests to speak should be sent to Monique D. Davis, Criminal Justice Coordinator's Office, One Centre Street, Room 1012 North, New York, New York 10007. If the Criminal Justice Coordinator's Office receives no written request to speak within the prescribed time, the office reserves the right not to conduct a Public Hearing.

OFFICE OF MANAGEMENT AND BUDGET

■ PUBLIC HEARINGS

Draft Ten-Year Capital Strategy

Pursuant to Section 234 of the New York City Charter, the Draft Ten-Year Capital Strategy, Fiscal Years 2006-2015, was issued jointly by the Office of Management and Budget and the Department of City Planning on January 2005. After a public comment period, it will be issued in final form by the Mayor. Issued every two years, the strategy proposes capital commitments to be made during the ensuing ten years, by program category and agency.

The draft strategy is available on the Office of Management and Budget's website at http://nyc.gov/html/omb/pdf/typ1_05.pdf

m31-a13

SANITATION

■ NOTICE

State Environmental Quality Review Act/
City Environmental Quality Review
NOTICE OF COMPLETION OF FINAL ENVIRONMENTAL IMPACT STATEMENT

April 1, 2005

Name of Action: New Comprehensive Solid Waste Management Plan
CEQR #: 03DOS004Y
SEQRA Classification: Type I
Lead Agency: New York City Department of Sanitation, 125 Worth Street, NY, NY 10013
Location: City-wide

This notice is issued pursuant to Article 8 (State Environmental Quality Review Act - SEQRA) of the Environmental Conservation Law; 6 NYCRR Part 617, the regulations implementing SEQRA; and the City Environmental Quality Review procedures set forth in Executive Order 91 of 1977 as amended (43 RCNY Chapter 6) and Chapter 5, Title 62 of the Rules of the City of New York (CEQR). The Department of Sanitation for the City of New York (DSNY), being the agency having principal responsibility for carrying out the Action, is the lead agency for conducting the environmental review of the Action. DSNY has caused a Final Environmental Impact Statement (FEIS) to be completed for the New York City Comprehensive Solid Waste Management Plan for at least the next 20 years (2005-2025) (New SWMP), together with related solid waste management and Recyclables processing facility development and procurement (collectively, the Proposed Action). The FEIS is available for public inspection at the offices of the Department through the Contact Person listed below and on the Department's website http://nyc.gov/sanitation.

For further information or to obtain a compact disc (CD) of the FEIS, please contact:

Harry Szarpanski, Assistant Commissioner
New York City Department of Sanitation
Bureau of Long Term Export
44 Beaver Street, 12th Floor
New York, NY 10004
Phone: (917) 237-5520 Fax: (212) 269-0788

In addition to the New SWMP approval, the Proposed Action in the Draft New SWMP encompasses, among other things the following:

- Siting of four new marine transfer stations (Converted MTSs) to containerize waste for Long Term Export,
- Contracting with several private waste transfer stations for barge and/or rail export of DSNY-managed Waste, which may involve facility modifications at certain of these transfer stations; and
- Contracting for development of a Recyclables processing facility at the South Brooklyn Marine Terminal in Brooklyn, and developing a City-owned a Recyclables acceptance facility in Manhattan.

These actions require various discretionary approvals as further described below.

The draft scope of work for the Environmental Impact Statement (EIS) was presented at public scoping meetings held between June 15 and July 1, 2004. The period to receive public comments on the proposed EIS scope of work remained open until July 11, 2004. A Draft EIS (DEIS) was issued on October 22, 2004, together with the Final Scope, and, thereafter, eight public hearings on the DEIS were held during the period December 1 to December 20, 2004. Copies of the DEIS were circulated and made available on the DSNY website and at 22 public repositories throughout the City. Public comments on the DEIS were accepted by DSNY throughout an extended public comment from October 22, 2004 through January 24, 2005. The questions and concerns received on the DEIS have been addressed in the April 1, 2005 Final Environmental Impact Statement (FEIS). A Findings Statement, to be issued in accordance with CEQR/SEQRA, will appear on the Department's website. Comments on the FEIS are requested and will be received by DSNY for at least 10 days after the filing of this Notice. All comments should be sent to the Contact Person listed above.

Background

DSNY has developed a new comprehensive long-term plan for the City's solid waste that builds on the continuation of the City's successful recycling, composting and waste prevention programs already in place. The proposed New SWMP and the status of the City's programs designed to reduce the quantity of waste exported are described in the Draft New SWMP document, which is separate from the FEIS. The New SWMP would provide for the management of all solid waste generated in New York City for the 20-year planning period, as required under the Environmental Conservation Law for the permitting of new solid waste management facilities. The New SWMP incorporates certain elements of the existing SWMP, which was approved in 1992 and subsequently amended, and proposes changes to the City's Long Term Export Program for DSNY-managed Waste, to the City's Recycling Program, and to management of commercial waste in the City. The Planning Unit is the City of New York.

Approximately 50,000 tons per day (tpd) of waste is generated in New York City. Waste that DSNY collects from residents, not-for-profit institutions and other City, state and federal agencies, as well as waste from special DSNY operations such as street and lot-cleaning operations consists of refuse (mostly collected from curbside) and source-separated recyclables (collectively, DSNY-managed waste). In FY 2002, this DSNY-managed waste averaged approximately 11,123 tpd of refuse and 2,555 tpd of separately collected recyclables: newspaper and mixed paper; metal, glass and certain plastics (MGP) and yard wastes. DSNY-managed refuse is exported from the City under short-term contracts entered into for the phased closure of the City's Fresh Kills landfill, which closed completely in March 2001 pursuant to state law. DSNY delivers about 38% of this refuse in collection vehicles directly to disposal facilities or private transfer stations outside of New York City, about 14% to a private transfer station in the Bronx where it is loaded onto rail for further transport, and approximately 48% of this refuse to other private transfer stations in the City, which load it onto truck trailers for further transport out of the City for disposal. The current export contracts result in approximately 6000 tpd of DSNY-managed waste being transported through the private truck-to-truck transfer stations in the City. Under a 20-year contract DSNY delivers much of the recyclable paper to the West 59th Street MTS for transport by barge to a private paper mill on Staten Island, while DSNY delivers the remaining paper and the MGP to other private recyclables handling and processing facilities in Queens, Brooklyn, the Bronx and New Jersey. DSNY also collects leaves and yard waste seasonally for composting. Other DSNY and City managed wastes that are recycled (derelict vehicles, auto tires, lot cleaning, asphalt and asphalt millings from road resurfacing, interagency road material reuse, etc.) totaled approximately 2,840 tpd in FY2002. Commercial carters collect waste generated by the private sector, such as commercial construction and demolition debris (C&D debris), soil and rock from excavations (clean fill), and refuse and source-separated recyclables from business establishments (collectively, Commercial Waste). In 2003, commercial waste quantities generated in the City averaged approximately 7,248 tpd of putrescible waste (having organic matter that causes odors), 2,641 tpd of designated recyclable waste (mainly paper and metal); 8,626 tpd of non-putrescible C&D debris (excluding clean fill), and 19,069 tpd of clean fill material. Much C&D debris, and virtually all clean fill material, is recycled. Other waste generated in the City but not managed by DSNY includes medical waste, dredge spoils, and biosolids from water pollution control plants.

Description and Location of Proposed Action

The Proposed Action for Long Term Export has the following specific elements.

- For the entire Bronx wasteshed, enter into a long-term contract with one or two private waste companies for truck-to-rail disposal of DSNY-managed Waste from existing transfer stations in the Bronx.
- For the Brooklyn wasteshed formerly served by the Greenpoint MTS (Brooklyn CDs 1, 3, 4 and 5), enter into a long-term contract with one or two private waste companies for truck-to-rail or truck-to-barge disposal of the DSNY-managed Waste from existing transfer stations in Brooklyn.
- For the Brooklyn wasteshed formerly served by the Hamilton Avenue MTS, develop a City-owned Converted MTS on the same site, where DSNY-managed Waste from Brooklyn CDs 2, 6, 7, 8, 9, 10, 14, 16, 17 and 18, as well as limited quantities of Commercial Waste, will be received and containerized.
- For the Brooklyn wasteshed formerly served by the Southwest Brooklyn MTS, develop a City-owned Converted MTS on the adjacent site of the former Southwest Brooklyn Incinerator, where DSNY-managed Waste from Brooklyn CDs 11, 12, 13 and 15, as well as limited quantities of Commercial Waste, will be received and containerized.
- For the Manhattan wasteshed, Manhattan CDs 1, 2, 3, 4, 7, 9, 10 and 12, enter into a long-term service agreement with the Port Authority of New York and New Jersey for the use of the Essex County Resource Recovery Facility in Newark, New Jersey to receive and process DSNY-managed Waste delivered in City collection vehicles.
- For the Manhattan wasteshed formerly served by the East 91st Street MTS, develop a City-owned Converted MTS on the same site, where DSNY-managed Waste from Manhattan CDs 5, 6, 8 and 11, as well as limited quantities of Commercial Waste, will be received and containerized.
- For the Queens wasteshed formerly served by the Greenpoint MTS, enter into a long- term contract with a private transfer station for truck-to-rail or truck-to-barge disposal of the DSNY-managed Waste from Queens CDs 1 through 6.
- For the Queens wasteshed formerly served by the North Shore MTS, develop a City-owned Converted MTS on the same site, where DSNY-managed Waste from Queens CDs 7 through 14, as well as limited quantities of Commercial Waste, will be received and containerized.
- For the four wastesheds served by Converted MTSs, enter into 20-year service agreements with one or more waste management companies, for transport of containerized waste by barge directly from an MTS to disposal facilities or to intermodal facilities for transloading to railcars or a larger barge, and for disposal at an appropriately permitted out-of-City facility.

Section 40.3.1.1 of the FEIS describes the capacity that DSNY proposes to permit at each of the four Converted MTSs. This proposal is subject to approval by NYSDEC as part of its review of Part 360 Solid Waste Facility permit applications for the Converted MTSs. Table 1 provides additional information on the location of proposed Long Term Export facilities.

Rail export from certain of the private transfer stations in the Proposed Action would require use of off-site, in-City, existing intermodal facilities that do not require

discretionary approvals, identified in Table 2.

Table 1
Proposed Draft New SWMP Long Term Export Facilities and Potential Contractors

Facility Type	Owner, Facility Name, and Address	Community District	Wastesheed Served – Community Districts
Converted MTS(1)	DSNY, Hamilton Avenue Converted MTS, Hamilton Avenue at Gowanus Canal, Brooklyn	Brooklyn 7	Brooklyn CDs 2, 6, 7,8, 9, 10, 14, 16, 17 and 18
Converted MTS(1)	DSNY, Southwest Brooklyn Converted MTS, Shore Pkwy at Bay 41st Street, Brooklyn	Brooklyn 11	Brooklyn CDs 11, 12,13 and 15
Converted MTS(1)	DSNY, East 91st Street Converted MTS, East 91st Street and York Avenue, Manhattan	Manhattan 8	Manhattan CDs 5, 6, 8 and 11
Converted MTS(1)	DSNY, North Shore Converted MTS, 31st Avenue and 122nd Street, Queens	Queens 7	Queens CDs 7 through 14
Truck-to-Rail TS	Waste Management, Harlem River Yard, 98 Lincoln Avenue, Bronx	Bronx 1	Bronx CDs 1 through 12
Truck-to-Rail TS(2)	Allied Waste Services, East 132nd Street Transfer Station, Bronx and Oak Point Rail Yard, Oak Point Avenue and Barry Street, Bronx	Bronx 1	Bronx CDs 1 through 12
Truck-to-Barge TS	Waste Management, 485 Scott Avenue, Brooklyn	Brooklyn 1	Brooklyn CDs 1,3, 4 and 5
Truck-to-Rail TS	Allied, 72 Scott Avenue-596 Scholes Street, Brooklyn	Brooklyn 1	Brooklyn CDs 1, 3, 4 and 5
Truck-to-Rail/ Barge TS(3)	Waste Management, 30-58 Review Avenue,Queens and the LIRR Maspeth Rail Yard, Maspeth Avenue and Rust Street Queens	Queens 2	Queens CDs 1 through 6
Waste-to-Energy Facility(4)	Port Authority of New York and New Jersey, Essex County RRF, Newark, New Jersey,	NA	Manhattan CDs 1, 2, 3, 4, 7, 9, 10 and 12

Notes:

(1) From among the selected proposers responding to DSNY's MTS RFP, DSNY will award one or more contracts for the acceptance, transport and disposal of containerized waste from the Converted MTSs.

(2) This facility would include use of an off-site intermodal rail yard, as noted in the Table, where containers would be loaded onto railcars.

(3) Pending the outcome of negotiations between DSNY and Waste Management, the Review Avenue Transfer Station would be modified to operate as either a truck-to-barge or a truck-to-truck-to-rail facility. If operated in a truck-to-rail mode, an off-site intermodal rail yard, as noted in the Table, would be required, where containers would be loaded onto railcars.

(4) The Essex County RRF is a permitted and operating WTE facility in Newark, New Jersey. DSNY-managed Waste would be delivered in collection vehicles to this facility or via hopper barges from the existing MTSs, if an enclosed barge unloading facility (EBUF) were to be developed in the vicinity of the Essex County RRF some time in the future.

LIRR = Long Island Railroad

Table 2

Proposed Draft New SWMP Long Term Export – Potential Support Facilities

Facility Type	Owner, Facility Name, and Address	Community District	Wastesheed Served-Community Districts
	Support Facilities		
Intermodal Truck-to-Truck-to-Rail Yard (1)	Oak Point Rail Yard, Oak Point Avenue and Barry Street, Bronx	Bronx 2	Bronx CDs 1 through 12
Intermodal Yard Truck -to-Truck-to-Rail (1)	LIRR, Maspeth Rail Yard, Maspeth Avenue and Rust Street, Queens	Queens 2	Queens CDs 1 through 6

Note:

(1) Both the East 132nd Street Truck-to-Truck-to-Rail Transfer Station in the Bronx and the Review Avenue Truck-to-Truck-to-Rail Transfer Station in Queens would dray containers between their respective transfer stations and intermodal rail yards that are in the respective project service areas but not at the same sites as the transfer stations. These intermodal yards are existing facilities that would receive non-discretionary permits from DSNY for handling solid waste and, as such, are not subject to environmental review. However, the movement of containers on tractor chassis between the transfer stations and the intermodal yard is subject to an environmental review that is reported in the FEIS section reporting the environmental review of the respective transfer station.

LIRR = Long Island Railroad

The Proposed Converted MTSs would be subject to zoning performance standards, solid waste management facility permit standards under 6 NYCRR part 360, and local Air and Noise Code standards. The facilities would have state-of-the-art odor controls that neutralize odor rather than mask it with a scent, and would be equipped with sufficient ventilation to maintain negative air pressure to prevent the escape of untreated air from building openings. Sufficient on-site queuing areas and tipping bays would be provided at all proposed Converted MTS facilities to prevent the queuing of DSNY trucks on public streets. The barges serving the converted MTSs could carry up to 48 intermodal containers and would be towed by tugboat to intermodal facilities, where the containers would be transloaded to trains or ocean-going vessels for transport to out-of-City disposal facilities. The primary objective of this element of the Proposed Action is the containerization of waste and the long-distance export of that waste in containers by barge or rail.

The Proposed Action for Recycling has the following specific elements.

- Develop a materials processing facility at the 30th Street Pier (in Brooklyn Community District 7) through a public-private partnership involving a 20-year service agreement with a private Recyclables processor; and
- Develop a Recyclables acceptance facility at the former DSNY MTS facility on Pier 52 at Gansevoort Street in the Hudson River Park.

Table 3 provides additional information on the location of these facilities.

Table 3
Proposed Action Recycling Facilities

Facility Type	Operator/Owner, Facility Name, and Address	Community District
Recyclables Processing/Acceptance(1)	Hugo Neu Corporation, 30th Street Pier at the South Brooklyn Marine Terminal, Brooklyn	Brooklyn 7
Recyclables Acceptance(2)	DSNY, Former site of Gansevoort MTS, Pier 52, Manhattan	Manhattan 2

Notes:

(1) This 30th Street Pier at SBMT is a complex of facilities that would be designed to receive and process DSNY Curbside Recyclables. Curbside Recyclables collected in Brooklyn would be delivered by truck to this facility. Curbside Recyclables from other boroughs would be delivered by barge. Recyclables would be transferred from this facility by barge. As a recycling facility, it is expected to qualify for a solid waste management facility registration rather than a permit. However, the waterfront construction requires USACE Section 10/404 permits and the NYSDEC Article 15/25 permits that are subject to environmental review.

(2) The timetable for designing, permitting and constructing this facility, which would receive truck deliveries of DSNY MGP Curbside Recyclables collected in Manhattan for barge transfer to the 30th Street Pier at SBMT for processing, is approximately seven years. Accordingly, the environmental review of this facility is deferred until more detailed design information is available. However, an analysis of the potential for off-site traffic, air quality and noise impacts from directing DSNY's Manhattan Recyclables collection vehicles to this destination was conducted.

A proposed change to DSNY's recycling program would be a 20-year contract for the receipt, processing and marketing of source-separated recyclable MGP and a portion of the City's paper. DSNY would procure services from a new private recyclables recovery and processing facility to be built by Hugo Neu Corporation (HNC) at the 30th Street Pier in the South Brooklyn Marine Terminal (SBMT). Approximately 85% of the recyclables would be delivered by barge to this facility, and 75% will leave post-processing via barge. DSNY trucks collecting curbside recyclables in the Bronx would tip this material at the existing HNC facility in the Bronx from which it would be transported by barge to the SBMT facility. DSNY trucks collecting curbside recyclables in northern Brooklyn and Queens would tip this material at HNC's facility in Long Island City, from which it would be transported by barge to the SBMT facility. Only Brooklyn Community Districts 9, 14, and 15 will deliver recyclables via collection trucks to the SBMT facility.

In addition, DSNY proposes to construct and operate a recyclables acceptance facility (recyclables handling and recovery facility under 6 NYCRR §360-12) at the former DSNY MTS facility on Pier 52 at Gansevoort Street in the Hudson River Park or at another location on the Manhattan waterfront, at which MGP and certain paper would be transferred to barge for transport to the HNC facility at the SBMT in Brooklyn for processing. This recyclables acceptance facility would require amendment of the Hudson River Park Act and would be the subject of a supplemental environmental review, as appropriate, once a facility design is developed. DSNY would no longer deliver recyclable paper to the West 59th Street MTS in Manhattan, but would take it instead to the new recyclables acceptance facility for further transport by barge.

The elements of the Proposed Action for Commercial Waste are intended to achieve a more balanced distribution and reduce effects from Commercial Waste transfer operations in those CDs that currently have the greatest number of transfer stations. These actions are:

- Make the existing Manhattan West 59th Street MTS site available to private waste management companies to use for the transfer of Commercial Waste collected by private carters in Manhattan. The facility could be: (i) refurbished and used in conjunction with an EBUF; or (ii) redeveloped as a containerization facility.
- Design measures to encourage private carters to deliver Commercial Waste during the 8:00 p.m. to 8:00 a.m. time period to the four proposed Converted MTSs that are elements of the Proposed Action for Long Term Export (Hamilton Avenue and Southwest Brooklyn, Brooklyn; East 91st Street; Manhattan; and North Shore, Queens).
- Negotiate arrangements with the owners/operators of the selected private transfer stations in the Bronx, Brooklyn and Queens that submitted proposals in response to the Brooklyn, Queens and Bronx RFPs and Brooklyn request for a Best And Final Offer that are potential elements of the Proposed Action to require Commercial Waste (in addition to DSNY-managed Waste) processed at these facilities to be containerized and exported from the project service area by barge and/or rail.

Other Elements of the Draft New SWMP

In the context of refining and improving Existing Programs, the Draft New SWMP also discusses new initiatives in waste reduction, reuse and recycling. These include, among other things, conducting a comprehensive waste characterization study, undertaking an electronics recycling effort, adding a website for the NYC Stuff Exchange, expanding the NY Wa$teMatch industrial materials exchange program, and enhancing education and outreach efforts. As authorized under the Existing SWMP DSNY will use the Staten Island Transfer Station now under construction at 310 West Service Road for the long term export by rail of DSNY-managed Waste, when the facility and rail connection are complete.

Required Approvals

The New SWMP requires approval by the New York City Council and the New York State Department of Environmental Conservation (NYSDEC). In addition, the New SWMP elements related to the siting of the four proposed Converted MTSs require discretionary approval for a Site Selection Action from the New York City Planning Commission pursuant to Uniform Land Use Review Procedure (ULURP). The Department of Sanitation must approve the proposed long term contracts for transport and disposal of DSNY-managed waste, the proposed long-term contract for receipt and marketing of metal, glass and plastic recyclables and paper, and proposed construction of a pier at the Hugo Neu MGP Recyclables Acceptance facility. Certain other approvals are required: *U.S. Army Corps of Engineers*: Section 10 (River and Harbors Act) for structures and work in navigable waters of the United States; Section 103 of the Marine Protection Research and Sanctuaries Act; Section 404 (Clean Water Act) for discharging of dredged or fill material in waters of the United States; and Section 401 (Clean Water Act) Water Quality Certification. From the *New York State Department of Environmental Conservation*, the following approvals have been identified as required: Article 27, Title 7 of the Environmental Conservation Law (ECL) Permit to construct and operate a solid waste management facility; Article 15, Title 5 (Protection of Waters) Permit for excavation in or fill of navigable waters; Article 15, Title 5 ECL (Protection of Waters) Section 401 Water Quality Certification; Article 25 ECL (Tidal Wetlands); Article 36 ECL (Flood Plain Management) approval for construction in a floodplain; Article 17 ECL (State Pollutant Discharge Elimination System (SPDES) General Permit (Section 402 of Clean Water Act) for stormwater discharges from construction activity; Coastal Zone Consistency Certification (19 NYCRR §600). From the *New York State Department of State*, approval may be needed under Article 42 of the State Executive Law (Waterfront Revitalization of Coastal Areas and Inland Waterways); Consistency with the Federal Coastal Zone Management Act (15 CFR Part 930); review by the New York State Office of Parks, Recreation and Historic Preservation; and review under Section 106 (National Historic Preservation Act) and New York State Historic Preservation Act Section 14.09. The *New York State Office of General Services* must approve the transfer to the City of a small amount of underwater land to accommodate the proposed footprint of the East 91st Street MTS. Certain other approvals may also be required, as summarized in Sections 1.7 and 2.5 of the FEIS.

Environmental Review

The FEIS provides an environmental review of the above noted sites/facilities that are elements of the Proposed Action for the New SWMP. (Final site selection for certain elements of the Proposed Action is dependent upon the outcome of current procurement actions by DSNY.) The FEIS also considers a range of Alternatives to the Proposed Action elements, including the No Action Alternative. Sections 1.3.3 and 1.4.4 of the FEIS provide additional information on the scope of Alternatives considered to the Proposed Actions for Long Term Export and Recycling, respectively. Environmental reviews were also conducted for a number of these Alternative sites/facilities considered during development of the Draft New SWMP.

In compliance with CEQR/SEQRA, the FEIS addressed: Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Cultural Resources; Urban Design, Visual Resources, and Shadows; Neighborhood Character; Natural Resources; Hazardous Materials; Water Quality; Waterfront Revitalization Program; Infrastructure, Solid Waste and Sanitation Services, and Energy; Traffic, Parking, Transit, and Pedestrians; Air Quality; Odor; Noise; Public Health; and Construction Impacts. Several of these facilities are existing permitted facilities that require no modifications or permit approvals for exporting DSNY-managed Waste by barge or rail, while others require only minor modifications not requiring environmental review, and still others would require discretionary permits or major modifications requiring environmental review. As such, the level of environmental review conducted for these facilities varied. The analysis for the proposed Converted MTSs conservatively used current conditions (with no waste activities at these currently permitted facilities) as the baseline against which to compare future conditions, rather than comparing future build conditions with past activity at these MTS sites. Use of the Staten Island Transfer Station was the subject of an Environmental Impact Statement as part of the 2000 SWMP Modification. This facility is fully permitted and is under construction. The Essex County Resource Recovery Facility is a permitted and operating waste-to-energy facility and therefore did not require analysis.

Mitigation

The only potential impacts that were estimated to be significant without mitigation were with respect to traffic and noise, and all such impacts could be mitigated and are proposed to be mitigated. For the Proposed Action, the following measures were identified to mitigate estimated significant adverse impacts related to traffic and noise, respectively:

- Traffic signal timing adjustments would mitigate estimated traffic impacts identified at: (1) three intersections near the Southwest Brooklyn Converted MTS, and at two intersections near the Southwest Brooklyn Converted MTS using the Alternative route analyzed in the FEIS in response to comments received during public meetings on the ULURP application for this facility; (2) two intersections near the Hamilton Avenue Converted MTS; (3) two intersections near the East 91st Street Converted MTS; (4) two intersections near the North Shore Converted MTS; and (5) one intersection near the Scott Avenue/Scholes Street Truck to Rail TS.
- A reduction in the number of DSNY and other City agency vehicles making deliveries to the facility during the facility peak hour would be required to mitigate estimated traffic impacts identified at one intersection near the East 132nd Street TS and Oak Point Rail Yard.
- A restriction on the number of Commercial Waste vehicles delivering waste to the Southwest Brooklyn, Hamilton Avenue, East 91st Street and North Shore Converted MTSs during certain hours will mitigate estimated off-site noise impacts at receptors along the routes to these facilities between 8:00 p.m. and 8:00 a.m.
- DSNY Collection vehicles from Queens CD 9 en route to the North Shore Converted MTS will be routed further on the Van Wyck Expressway to Exit 14, Linden Place to mitigate estimated off-site noise impacts at receptors along College Point Boulevard.
- A restriction on the number of relayed DSNY collection vehicles delivering waste between the hours of 1:00 a.m. and 5:00 a.m., and construction of a louvered fence on both sides of the facility ramp, will mitigate estimated on-site noise impacts at property boundary points of the North Shore Converted MTS; and
- A restriction on the number of relayed DSNY collection vehicles delivering waste to the: (1) Hamilton Avenue and East 91st Street Converted MTSs during certain hours will mitigate estimated off-site noise impacts at receptors along routes to these facilities between 2:00 a.m. and 5:00 a.m.; and (2) Southwest Brooklyn Converted MTS will mitigate estimated on-site noise impacts at two off-site noise sensitive receptors between 2:00 a.m. and 3:00 a.m.

Alternatives

Alternatives to the Long Term Export elements of the Proposed Action that were considered included the No Action

Alternative as well as conversions of four other existing DSNY MTS sites to Converted MTSs to containerize waste: West 135th Street MTS in Manhattan; the West 59th Street MTS in Manhattan; the Greenpoint MTS in Brooklyn; and the South Bronx MTS in the Bronx. In addition, an Alternative was considered that would involve the development of a new truck to rail facility in Brooklyn Community District 1 to serve the Brooklyn portion of the former Greenpoint MTS wasteshed. The FEIS also analyzed the alternative of refurbishing and reactivating the existing MTSs to supply DSNY-managed waste in open hopper barges to an enclosed barge unloading facility (EBUF) in the New York/New Jersey harbor region where it would be containerized for transport to disposal sites, although no location for such an EBUF has been identified. The FEIS incorporates the results of the investigation conducted for the 2004 Comprehensive Commercial Waste Management Study concerning four potential sites for truck-to-rail/barge transfer stations in Manhattan. DSNY in 2000 had previously evaluated the technical feasibility and environmental impacts associated with developing each of 24 export facility options on 15 different sites, pursuant to the 2000 SWMP Modification Final Environmental Impact Statement. DSNY's consideration of alternatives also evaluated the information obtained through a Request for Expressions of Interest to Provide Waste Disposal Capacity on February 17, 2004, that sought expressions of interest to (1) sell or otherwise provide to DSNY, for its exclusive use, permitted waste disposal capacity in New York State; (2) sell or otherwise provide to DSNY, for its exclusive use, land in New York State that is suitable to serve as a site for a waste disposal facility; and/or (3) serve as a host community for a disposal facility located in New York State that would receive waste managed by DSNY.

The repositories for the FEIS are located as follows:

Repository Location	Repository Address	Days and Hours of Operation	Phone Number

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at

253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract at

(212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

COMMON ABBREVIATIONS USED IN THE CR

The CR contains many abbreviations. Listed below are simple explanations of some of the most common ones appearing in the CR:

AB ..... Acceptable Brands List
AC ..... Accelerated Procurement
AMT ..... Amount of Contract
BL ..... Bidders List
CSB ..... Competitive Sealed Bidding (including multi-step)
CB/PQ ..... CB from Pre-qualified Vendor List
CP ..... Competitive Sealed Proposal (including multi-step)
CP/PQ ..... CP from Pre-qualified Vendor List
CR ..... The City Record newspaper
DA ..... Date bid/proposal documents available
DUE ..... Bid/Proposal due date; bid opening date
EM ..... Emergency Procurement
IG ..... Intergovernmental Purchasing
LBE ..... Locally Based Business Enterprise
M/WBE ..... Minority/Women's Business Enterprise
NA ..... Negotiated Acquisition
NOTICE ..... Date Intent to Negotiate Notice was published in CR
OLB ..... Award to Other Than Lowest Responsible & Responsive Bidder/Proposer
PIN ..... Procurement Identification Number
PPB ..... Procurement Policy Board
PQ ..... Pre-qualified Vendors List
RS ..... Source required by state/federal law or grant
SCE ..... Service Contract Short-Term Extension
DP ..... Demonstration Project
SS ..... Sole Source Procurement
ST/FED ..... Subject to State &/or Federal requirements

KEY TO METHODS OF SOURCE SELECTION

The Procurement Policy Board (PPB) of the City of New York has by rule defined the appropriate methods of source selection for City procurement and reasons justifying their use. The CR procurement notices of many agencies include an abbreviated reference to the source selection method utilized. The following is a list of those methods and the abbreviations used:

CSB ..... **Competitive Sealed Bidding** (including multi-step)
Special Case Solicitations / Summary of Circumstances:
CP ..... ***Competitive Sealed Proposal*** (including multi-step)
CP/1 ..... Specifications not sufficiently definite
CP/2 ..... Judgement required in best interest of City
CP/3 ..... Testing required to evaluate
CB/PQ/4 .....
CP/PQ/4 ..... **CB or CP from Pre-qualified Vendor List/**Advance qualification screening needed
DP ..... Demonstration Project
SS ..... **Sole Source Procurement/**only one source
RS ..... Procurement from a Required Source/ST/FED
NA ..... Negotiated Acquisition
For ongoing construction project only:
NA/8 ..... Compelling programmatic needs
NA/9 ..... New contractor needed for changed/additional work
NA/10 ..... Change in scope, essential to solicit one or limited number of contractors
NA/11 ..... Immediate successor contractor required due to termination/default
For Legal services only:
NA/12 ..... Specialized legal devices needed; CP not advantageous
WA ..... **Solicitation Based on Waiver/Summary of Circumstances** (Client Services/BSB or CP only)
WA1 ..... Prevent loss of sudden outside funding
WA2 ..... Existing contractor unavailable/immediate need
WA3 ..... Unsuccessful efforts to contract/need continues
IG ..... **Intergovernmental Purchasing** (award only)
IG/F ..... Federal
IG/S ..... State
IG/O ..... Other
EM ..... **Emergency Procurement** (award only) An unforeseen danger to:
EM/A ..... Life
EM/B ..... Safety
EM/C ..... Property
EM/D ..... A necessary service
AC ..... **Accelerated Procurement/**markets with significant short-term price fluctuations
SCE ..... **Service Contract Extension/**insufficient time; necessary service; fair price
Award to Other Than Lowest Responsible & Responsive Bidder or Proposer / Reason (award only)
OLB/a ..... anti-apartheid preference
OLB/b ..... local vendor preference
OLB/c ..... recycled preference
OLB/d ..... other: (specify)

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.
The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.
Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

All of the following text in Article IX, Chapter 8 is new but not underlined.

Article IX - Special Purpose Districts
Chapter 8
Special West Chelsea District

98-00
GENERAL PURPOSES
The "Special West Chelsea District" established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. These general goals include among others, the following specific purposes:

(a) to encourage and guide the development of West Chelsea as a dynamic mixed use neighborhood;
(b) to encourage the development of residential uses along appropriate avenues and streets;

(c) to encourage and support the growth of arts-related uses in West Chelsea;
(d) to facilitate the restoration and reuse of the #High Line# elevated rail line as an accessible, public open space through special height and setback regulations, #High Line# improvement bonuses and the transfer of development rights from the #High Line# Transfer Corridor;
(e) to ensure that the form and use of new buildings relates to and enhances neighborhood character and the #High Line# open space;
(f) to create and provide a transition to the lower-scale Chelsea Historic District to the east;
(g) to create and provide a transition to the Hudson Yards area to the north; and
(h) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues, consistent with the foregoing purposes.

98-01
Definitions
Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are as set forth in Section 12-10 (DEFINITIONS).

High Line
The "High Line" shall for the purposes of this resolution refer to the elevated rail line structure and associated elevated easement located between Gansevoort Street and West 30th Street.

High Line bed
The "High Line bed" is the highest level of the horizontal surface (platform) of the #High Line# elevated rail line structure as of (the effective date of amendment), as shown in Diagram 7, in Appendix C of this Chapter. For the purposes of this Chapter, the level of the #High Line bed# is the average level of the #High Line bed# on a #zoning lot# over which the #High Line# passes.

High Line frontage
"High Line frontage" is that portion of a #building# that faces and is located within 15 feet of the west side and 25 feet of the east side of the #High Line#.

High Line Transfer Corridor
The "High Line Transfer Corridor" is an area within which the #High Line# is located, as specified in Appendix B of this Chapter, where development rights may be transferred to receiving sites in certain Subareas in the #Special West Chelsea District#, pursuant to the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-02
General Provisions
The provisions of this Chapter shall apply to any #zoning lot#, or portion thereof, within the #Special West Chelsea District#, except that the provisions of Section 98-17 (Air Space over a Railroad or Transit Right-of-way or Yard) and Section 98-26 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall also apply to any #zoning lot# south of the #Special West Chelsea District# over which the #High Line# passes. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

The provisions regarding the transfer of #floor area# set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive, and the #High Line Improvement Bonus# in Subareas D, E, and F, and G and I set forth in Section 98-25 shall be effective upon the issuance of a final and binding Certificate of Interim Trail Use (CITU) by the Federal Surface Transportation Board and the execution of a trail use agreement between the City and CSX Transportation, Inc., or its successor, or upon a determination by the Office of the Corporation Counsel that the restoration and reuse of the #High Line# as an accessible, public open space has been obtained pursuant to an alternative mechanism which protects the interests of the city.
Upon transfer of the #High Line# to the City pursuant to [ULURP Site Selection/Acquisition Application] in accordance with such CITU and trail use agreement, the following shall apply:

(a) the provisions regarding the issuance of building permits set forth in Section 98-26 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall be effective; and
(b) any area within the tax lot located at Section 3, Block 8224, Lot 111, as of (effective date of amendment), which is separated from other portions of such tax lot by bounding streets, shall be considered a separate #zoning lot#; and
(c) Underlying #use# and bulk regulations shall not apply to #uses# and #buildings and other structures# constructed on the #High Line# specifically in connection with its use as a public open space.

98-03
District Plan and Maps
The regulations of this Chapter are designed to implement the #Special West Chelsea District# Plan.

The District Plan includes the following maps and illustrative diagrams in Appendices A, B, and C:

Appendix A Special West Chelsea District and Subareas
Appendix B High Line Transfer Corridor Location and Floor Area Ratio
Appendix C Illustrative Diagrams of the High Line and Building Envelopes for Sites Adjacent to the High Line

Diagram 1 Street wall and High Line frontage regulations in Subareas C and F
Diagram 2 Street wall and High Line frontage regulations in Subarea A
Diagram 3 Subarea G requirements
Diagram 4 High Line Improvement Area for Zoning Lots Divided by District Boundaries in Subareas D, E and F
Diagram 5 Subarea I requirements
Diagram 6 High Line Access Easement Volume Parameters
Diagram 7 High Line bed and frontages
Appendix D Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea G
Appendix E Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E and F, or within Subarea I

The maps and diagrams are hereby incorporated and made part of this Resolution. They are incorporated for the purpose of illustrating requirements or specifying locations where the special regulations and requirements set forth in the text of this Chapter shall apply.

98-04
Subareas and High Line Transfer Corridor
In order to carry out the provisions of this Chapter, nine Subareas (Subareas A through I), and a #High Line Transfer Corridor# are established within the #Special West Chelsea District#.

Within each of the Subareas and the #High Line Transfer Corridor#, certain special regulations apply that do not apply within the remainder of the #Special West Chelsea District#. The locations of the nine Subareas are detailed in Appendix A of this Chapter. The location of the #High Line Transfer Corridor# is detailed in Appendix B of this Chapter,

The Subareas and the #High Line Transfer Corridor# are subject to all other regulations of the #Special West Chelsea District# and the underlying district regulations except as otherwise specified in this Chapter.

98-05
Applicability of District Regulations

98-051
Applicability of Chapter 1 of Article 1

(a) Within the #Special West Chelsea District#, Section 11-15 (Environmental Requirements) shall apply, except that prior to issuing a building permit for any #development#, or for an #enlargement#, #extension# or a change of #use#, on a lot that has an (E) designation for hazardous material contamination, noise or air quality, the Department of Buildings shall be furnished with a report from the Department of Environmental Protection (DEP) of the City of New York stating:

(1) in the case of an (E) designation for hazardous material contamination, that environmental requirements related to the (E) designation have been met for that lot; or
(2) in the case of an (E) designation for noise or air quality, that the plans and drawings for such #development# or #enlargement# will result in compliance with the environmental requirements related to the (E) designation.

(b) Section 11-332 (Extension of period to complete construction) shall apply, except that not withstanding the provisions of paragraph (a) of such Section, in the event that other construction for which a building permit has been lawfully issued and for which construction has been commenced but not completed on (effective date of amendment), such other construction may be continued provided that the construction is completed and a temporary or permanent certificate of occupancy is obtained not later than (one year after effective date of amendment).

98-10
SPECIAL USE AND PARKING REGULATIONS WITHIN THE SPECIAL WEST CHELSEA DISTRICT

98-11
Modification of Use Regulations in C6 Districts
In Subarea G, the provisions of Section 32-25 (Use Group 16), paragraph D. (Heavy Service, Wholesale, or Storage Establishments) are modified to permit, in #C6 Districts#, warehouse #uses# only in #cellars# located wholly below #curb level#.

98-12
Modification of Use Regulations in M1 Districts
In the #Special West Chelsea District#, the provisions of Section 42-10 (USES PERMITTED AS-OF-RIGHT) and 42-30 (USES PERMITTED BY SPECIAL PERMIT) are modified to permit, as-of-right, without limitation, in M1 Districts, museums and non-commercial art galleries as listed in Use Group 3.

98-13
Location Within Buildings
In any #C6 District# in the #Special West Chelsea District#, the provisions of Section 32-422 (Location of floors occupied by non-residential uses) are modified to permit non-#residential uses# on the same #story# as a #residential use# or on a story higher than that occupied by #residential uses#, provided that the non-#residential uses#:
(a) are located in a portion of the #building# that has separate direct access to the #street# with no access to the #residential# portion of the #building# at any #story#; and
(b) are not located directly over any portion of a #building# containing #dwelling units#, except this limitation shall not preclude the location of:

(1) #residential# lobby space below or on the same #story# as non-#residential uses#; or
(2) a #commercial use# that fronts on the #High Line# and is located within five feet of the level of the #High Line bed#.

98-14
Ground Floor Use and Transparency Requirements on Tenth Avenue
The special ground floor #use# and glazing regulations of this Section apply to that portion of a #building or other structure# fronting on Tenth Avenue in the #Special West Chelsea District#.
#Uses# located on the ground floor level or within five feet of #curb level#, and within 25 feet of the #street line# shall be limited to #commercial uses# permitted by the underlying district or museums or non-commercial art galleries as listed in Use Group 3. A building's #street# frontage shall be allocated exclusively to such #uses#, except for lobby space or entryways. In no event shall the length of #street# frontage occupied by lobby space or entryways exceed, in total, 40 feet or 50 percent of the building's total #street# frontage, whichever is less.

For any #development# or #enlargement#, each ground floor #street wall# shall be glazed with materials which may include show windows, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 70 percent of such ground floor #street wall# surface, The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall be not higher than two feet above the level of the adjoining sidewalk or public access area and shall be no less than eight feet in height measured from such lowest point. Not less than 50 percent of such ground floor #street wall# surface shall be glazed with transparent materials, and up to 20 percent of such ground floor #street wall# may be glazed with translucent materials.

98-141
Transparency requirements within Subareas G and I
The transparency requirements of this Section shall apply within Subareas G and I to all portions of #developments# and #enlargements# facing and located within 25 feet of the #High Line#, except for portions of #buildings# within 25 feet of the #High Line# that contain #dwelling units#. At least 70 percent of such frontage, to be measured from the level of the #High Line bed#, shall be glazed and transparent and at least 75 percent of the glazed surface shall be fully transparent. The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall not be higher than four feet above the level of the #High Line bed#, and shall be no less than eight feet in height measured from such lowest point.

98-15
Security Gates
All security gates installed after (effective date of amendment) that are swung, drawn, or lowered to secure #commercial# or #community facility# premises shall, when closed, permit visibility of at least 75 percent of the façade area covered by such gate, when viewed from the #street#, except that this provision shall not apply to entrances or exits to parking facilities.

98-16
Signs
The #sign# regulations of the underlying districts in the #Special West Chelsea District# shall not apply to #signs# located within 50 feet of the #High Line#, except for signs located entirely below the level of the #High Line# bed. In lieu thereof, the #sign# regulations of a C1 district shall apply, except that #accessory signs# located within the #High Line frontage# may have a maximum height of 20 feet above the level of the #High Line bed#.

No signs affixed to or resting upon the #High Line# shall be permitted, except as pursuant to a signage plan for the #High Line#, as authorized by the City Planning Commission, provided the Commission finds that such signage plan will:

(a) enhance the use of the #High Line# by providing signage that is consistent with the use of the #High Line# as a public open space;
(b) provide, at a minimum, directional, informational, and interpretive signage consistent with the use of the #High Line# as a public open space;
(c) be integrated with the design of the #High Line# open space; and
(d) not adversely affect development adjacent to the #High Line# and in the surrounding neighborhood

98-17
Air Space Over a Railroad or Transit Right-of-way or Yard
For the purposes of this Resolution, the #High Line# shall not be considered a railroad or transit right-of-way and the provisions of Sections 32-44 (Air Space over a Railroad or Transit Right-of-way or Yard) and 42-462 (Air Space over a Railroad or Transit Right-of-way or Yard) shall not apply.

98-18
Parking Regulations in Subarea G
#Accessory# off-street parking spaces for existing or new governmental offices may be located on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided such spaces are located within Subarea G and in a facility, or portion thereof, that is entirely below #curb level# and that no more than 377 spaces are provided within such facility. For purposes of this Section, the governmental offices on Block 689, Lot 17 (as of the effective date) may have up to 377 #accessory# off-street parking spaces in such facility.

98-19
Lighting
All exterior light sources located within the #High Line frontage# shall be shielded from direct view from the #High Line#.

98-20
FLOOR AREA AND LOT COVERAGE REGULATIONS
The #floor area# provisions of this Section 98-20, inclusive, shall apply. Furthermore, special #floor area# transfer provisions are set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-21
Maximum Floor Area Ratio outside of Subareas
For all #zoning lots# or portions thereof located outside of Subareas A through I, the maximum #floor area ratios# of the applicable underlying district shall apply.

98-22
Maximum Floor Area Ratio and Lot Coverage in Subareas
For all #zoning lots# or portions thereof located in Subareas A through I, the maximum #floor area ratios#, #open space ratios# and #lot coverages# of the applicable underlying district shall not apply. In lieu thereof, the maximum #floor area ratio# permitted for #commercial#, #community facility#, and #residential uses#, separately or in combination, shall be as specified in the following table. For #residential use#, the maximum #lot coverage# shall be 70 percent for #interior# or #through lots# and 80 percent for #corner lots#, except that no maximum #lot coverage# shall apply to any #zoning lot# comprising a #corner lot# of 5,000 square feet or less.

Maximum Floor Area Ratio by Subarea

Sub Area	Basic Maximum #floor area ratio#	Increase in FAR Transfer of Development Rights from # Hight Line Transfer Corridor#*	Increase in Far via #Hight Line# Bonuses	Increase in Far via Inclusionary Housing Bonus***	Maximum permitted #floor area ratio#
A	7.5	2.5	See Note 1	2.0	12.0
B	5.0	2.5	See Note 1	–	7.5
C	5.0	2.5	–	–	7.5
D	5.0	2.5 Note 2	2.5** Note 2	–	7.5
E	5.0	1.0 Note 2	1.0** Notes 1 & 2	–	6.0
F	5.0	1.0 Note 2	1.0** See Note 2	–	6.0
G	7.5	–	2.5**	–	10.0
H	5.0	1.0	–	–	6.0

I□	5.0	1.0	1.5**	–	7.5

* Pursuant to Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive
** Pursuant to Sections 98-25 (High Line Improvement Bonus)
*** Maximum FAR achievable for #residential developments# or #enlargements# through the provision of Inclusionary Housing, as specified in Section 23-90 (INCLUSIONARY HOUSING)

▯ For zoning lots over which the #High Line# passes

Note 1
In Subareas A, B, and E, the applicable basic maximum #floor area ratio# of that portion of the #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, and the applicable maximum permitted #floor area ratio# increased accordingly, by certification of the Chairperson of the City Planning Commission, pursuant to Section 98-35 (High Line Transfer Corridor Bonus).

Note 2
For certain zoning lots located in Subareas D, E, and F, the provisions of Section 98-25 (#High Line# Improvement Bonus) may apply in lieu of the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), subject to the provisions of Section 98-24 (Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E, and F).

98-23
Special Floor Area and Lot Coverage Rules for Zoning Lots Over Which the High Line Passes
#Lot coverage# requirements shall not apply to the portion of the #zoning lot# that lies directly beneath the #High Line#. The remaining portion of the #zoning lot# shall be considered a separate #zoning lot# for the purposes of calculating maximum #lot coverage#. Easement volumes provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS) and access structures constructed therein, as well as any structure required pursuant to Appendix D or E in relation to an increase in the basic maximum #floor area # ratio of a #zoning lot# pursuant to Section 98-25 (#High Line# Improvement Bonus), shall not be considered #floor area# or #lot coverage#.

98-24
Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E and F
For #zoning lots# fronting on West 18th Street and located partially in Subarea D, partially in Subarea E and partially in Subarea F, #floor area# may be transferred across zoning district and subarea boundaries without restriction. Either the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR) or Section 98-25 (High Line Improvement Bonus) may apply to such #zoning lot#, as applicable, and the maximum permitted #floor area ratio# specified in the table in Section 98-22 shall apply, as applicable, for each subarea.

98-25
High Line Improvement Bonus
For #zoning lots# located between West 16th and West 19th streets over which the #High Line# passes, the applicable basic maximum #floor area ratio# of the #zoning lot# may be increased up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), provided that:

(a) Prior to issuing a building permit for any #development# or #enlargement# on such #zoning lot# that anticipates using #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished with a certification by the Chairperson of the City Planning Commission that : (1) a contribution has been deposited into an escrow account or similar fund established by the City(the #High Line # Improvement Fund), or such contribution is secured by letter of credit or other cash equivalent instrument in a form acceptable to the City, such contribution to be used at the direction of the Chairperson solely for improvements to the #High Line# within the #High Line# improvement area applicable to such #zoning lot#. Such contribution shall be made in accordance with the provisions of Appendix D or E, as applicable; and (2) a declaration of restrictions executed by all #parties in interest# to the #zoning lot# as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS) , including and incorporating such other instruments as are necessary to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, is filed and recorded in the Office of the Register of the City of New York; and (3) all additional requirements of Appendix D or E, as applicable with respect to issuance of a building permit, have been met.

(b) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located between West 17th and West 18th streets over which the #High Line# passes that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix D, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;
(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix D;
(3) At-Grade Plaza Work has been performed on such #zoning lot# in the area shown in Diagram 3 of Appendix C, in accordance with Appendix D;
(4) stairway and elevator access work has been performed on such #zoning lot# in the At-Grade Plaza area shown in Diagram 3 of Appendix C, or that an additional contribution to the #High Line# Improvement Fund to fund performance of such work has been made, in accordance with Appendix D; and
(5) all other applicable requirements of Appendix D have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix D.

(c) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located between West 16th and 17th streets or between West 18th and 19th streets over which the #High Line# passes that incorporates #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix E, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;
(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix E;
(3) stairway and elevator access work has been performed on such #zoning lot # , in accordance with Appendix E;
(4) for #zoning lots# located between West 16th and 17th streets over which the #High Line# passes, #High Line# Service Facility Work has been performed, in accordance with Appendix E; and
(5) all other applicable requirements of Appendix E have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix E.

98-26
Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line

The Commissioner of Buildings shall not issue any building permit for demolition, excavation or foundation work to be performed above or beneath the #High Line# or within 25 feet of support structures of the #High Line# , except upon certification by the Commissioners of Transportation and Parks and Recreation , acting in consultation with a licensed engineer, that such work would not adversely affect the structural integrity of the #High Line#.

98-30
HIGH LINE TRANSFER CORRIDOR

98-31
Purposes
The #High Line Transfer Corridor#, established within the #Special West Chelsea District#, is intended to enable the transfer of development rights from properties over which and immediately to the west of where the #High Line# passes and thereby permit light and air to penetrate to the #High Line# and preserve and create view corridors from the #High Line# bed.

98-32
General Provisions
The location of the #High Line Transfer Corridor# is specified in Appendix B of this Chapter.
In the #High Line Transfer Corridor#, special regulations relating to the transfer of #floor area# are set forth in Sections 98-33 through and 98-35 inclusive.

98-33
Transfer of Development Rights From the High Line Transfer Corridor
In the #Special West Chelsea District#, a "granting site" shall mean a #zoning lot#, or portion thereof, in the #High Line Transfer Corridor#. A "receiving site" shall mean a #zoning lot#, or portion thereof, in Subareas A - F inclusive, H or I. #Floor area# from a granting site may be transferred to a receiving site in accordance with the provisions of this Section.

(a) Notification
Prior to any transfer of #floor area#, the Department of City Planning shall be notified in writing of such intent to transfer #floor area#. Such notification shall be made jointly by the owners of the granting and receiving sites and shall include:

(1) #floor area# zoning calculations for the granting and receiving site, and
(2) a copy of the distribution instrument legally sufficient in both form and content to effect such a distribution, and
(3) if applicable, a certified copy of the instrument creating a secondary #High Line# access easement volume, pursuant to the provisions of Section 98-63.

Notices of restrictions in a form acceptable to the Department of City Planning shall be filed by the owners of the granting and receiving sites in the Office of the Register of the City Of New York, indexed against the granting and receiving sites, certified copies of which shall be submitted to the Department of City Planning. Notice by the Department of City Planning of its receipt of certified copies thereof shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit for any #development# or #enlargement# on the receiving site.

(b) #Floor area#
The maximum amount of #floor area# transferred from a granting site located outside of Subareas A through I shall not exceed the maximum #floor area ratio# permitted for a #commercial use# on such granting site, less any existing #floor area# to remain on such granting site.
The maximum amount of #floor area# transferred from a granting site located in Subareas A through I shall not exceed the basic maximum #floor area ratio# specified for the applicable subarea in the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas), less any existing #floor area# to remain on such granting site.
Each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be transferred from the granting site by the amount of #floor area# transferred.
The amount of #floor area# transferred to a receiving site from a granting site in the #High Line Transfer Corridor# shall not exceed the #floor area ratio# permitted on the receiving site through such transfer, pursuant to the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas).

(c) #Use#
#Floor area# transferred from a granting site within the #High Line Transfer Corridor#, may be used for any #use# allowed on the receiving site in accordance with the underlying zoning designation and the provisions of this Chapter.

(d) Stairway easement requirement
As a condition for the transfer of #floor area#, an easement volume to facilitate pedestrian access to the #High Line# via stairway shall be provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR ZONING LOTS OVER WHICH THE HIGH LINE PASSES OR ADJACENT TO THE HIGH LINE) and Section 98-63 (Recording of the #High Line# Access Easement Volume).

(e) Restrictive Declaration
As a condition for the transfer of #floor area#, and in order to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, a declaration of restrictions, executed by all #parties in interest# of the granting lot as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS), and including and incorporating such other instruments as are necessary to accomplish such purposes, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, shall be filed and recorded in the Office of the Register of the City of New York. Notice by the Department of City Planning of receipt of certified copies of such recorded declaration shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site. Such recorded declaration shall be in addition to the Notice of Restrictions required pursuant to subdivision (a) of this Section.

98-34
Screening and Landscaping Requirements for Vacant Sites
Any #zoning lot# within the #High Line Transfer Corridor# that has transferred #floor area# pursuant to Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor), and is 50 percent or more vacant shall be screened from the street and/or landscaped in accordance with the provisions of this Section; except that #zoning lots# occupied by #buildings# that extend along at least 85 percent of the #street# frontage of the #zoning lot# and are located within five feet of the #street line# are not required to provide screening or landscaping.
Such open or vacant areas on #zoning lots# shall be screened from the street by a fence or gate with a surface that is at least 75 percent open, extending not less than six feet and not higher than eight feet above finished grade; or alternatively, by a planting strip at least four feet wide and densely planted with evergreen shrubs at least four feet high at the time of planting or of a variety expected to reach a height of six feet within three years, or by both. Chain link and fences containing barbed wire or razor wire shall be prohibited. For portions of #zoning lots# located beneath the #High Line# planting strips shall be prohibited.

98-35
#High Line Transfer Corridor# Bonus
For #zoning lots#, or portions thereof, within the #High Line Transfer Corridor#, the applicable basic maximum #floor area ratio# of that portion of a #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, for an amount of #floor area# equivalent to the area of that portion of the #zoning lot# located within the #High Line Transfer Corridor#, provided the Chairperson of the City Planning Commission has certified that

(a) all the permitted #floor area# on that portion of the #zoning lot# that is within the #High Line Transfer Corridor# has been transferred to an eligible receiving site, in accordance with the provisions of Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor);
(b) that such granting site is vacant; and
(c) a contribution has been deposited into the #High Line# Improvement Fund established under Section 98-25, to be used at the direction of the Chairperson of the City Planning Commission to assure that the #High Line# is restored and reused as a public accessible open space.

No #building# permit for any #development# or #enlargement# that anticipates using such increased #floor area# may be issued unless and until such certification has been made. Such contribution amount shall be $50.00 per square foot of #floor area# as of (the effective date of amendment) and shall be adjusted July 1 of the following year and each year thereafter, by the City or its designee, based on the percentage change in the Consumer Price Index for all urban consumers as defined by the U.S. Bureau of Labor Statistics. Such bonus #floor area# shall only be used for a permitted #commercial use#, which shall be located in that portion of the #zoning lot# that is within the #High Line Transfer Corridor#; however, #public parking lots# and #public parking garages# at or above #curb level# shall not be permitted; and the height of any #development# or #enlargement# within the #High Line Transfer Corridor# shall not exceed the level of the #High Line bed#.

98-40
HEIGHT AND SETBACK REGULATIONS
The height and setback regulations of the underlying district are modified in accordance with the provisions of this Section 98-40, inclusive. Furthermore, for any #zoning lot# located within or adjacent to the #High Line Transfer Corridor#, the provisions of Section 98-50, inclusive, shall also apply. All heights shall be measured from the #base plane#, unless otherwise specified.

98-41
Obstruction Over the High Line
Within the #Special West Chelsea District#, the #High Line# shall remain open and unobstructed from the #High Line bed# to the sky, except for improvements constructed on the #High Line# in connection with the use of the #High Line# as a public open space.

98-42
Special Rooftop Regulations
The provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings or other structures# within the #Special West Chelsea District# except as modified as follows:

(a) Permitted Obstructions
(a)Elevator or stair bulkheads, roof water tanks, cooling towers or other mechanical equipment (including enclosures), may penetrate a #sky exposure plane# or a maximum height limit provided that either the product, in square feet, of the #aggregate width of street walls# of such obstructions facing each #street# frontage, times their average height, in feet, shall not exceed a figure equal to eight times the width, in feet, of the #street wall# of the #building# facing such frontage, or, the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#, and the height of all such obstructions does not exceed 40 feet. In addition, dormers may penetrate a maximum base height in accordance with the provisions of paragraph (c) of Section 23-621 (Permitted obstructions in certain districts). However, dormers may not exceed the maximum #building# height in Subareas C and F, where the maximum base height and maximum #building# height are the same.

(b) Ventilation and mechanical equipment
All mechanical equipment located within 15 feet of the level of the #High Line# bed that is within 25 feet of the #High Line#, measured horizontally, or within the #High Line frontage#, as applicable, shall be screened and buffered with no intake or exhaust fans or vents facing directly onto the #High Line#.

98-43
Street Wall Location, Minimum and Maximum Base Heights and Maximum Building Heights
The provisions set forth in paragraph (a) of this Section shall apply to all #developments# and #enlargements#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (f) of this Section.

(a) The #street wall# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in Table A of this Section.
Recesses, not to exceed three feet in depth from the #street line#, shall be permitted on the ground floor where required to provide access to the #building#.
Above a height of 12 feet above the #base plane#, up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#, provided any such recesses deeper than 10 feet along a #wide street#, or 15 feet along a #narrow street#, are located within an #outer court#.
Furthermore, no recesses shall be permitted within 30 feet of the intersection of two #street lines# except that, to allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.
For #developments# that occupy the entire #block# frontage of a #street# and provide a continuous sidewalk widening, where permitted, along such #street line#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section. The #street wall# location provisions of this section shall not apply along any #street frontage# of a #zoning lot# over which the #High Line# passes or by existing #buildings# to remain.
All portions of #buildings or other structures# that exceed the applicable maximum base height specified in Table A shall provide a setback at a height not lower than the applicable minimum base height. A setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#, except such dimensions may include the depth of permitted recesses in the #street wall#.
No #building or other structure# shall exceed the maximum #building# height specified in Table A.

(b) Subareas A and D, and portions of Subareas H and I
In Subareas A and D, for #zoning lots# with wide and narrow street frontage, no #street wall# is required beyond 50 feet of a wide street.
In Subarea D, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front. In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within ten feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.
In Subareas A and D, and in that portion of Subarea H beyond 100 feet of Tenth Avenue, and in that portion of Subarea I beyond 300 feet of Tenth Avenue, the setback provisions for portions of #buildings# above the maximum base height set forth in paragraph (a) of this Section shall not apply. In lieu thereof, no portion of a #building or other structure# that exceeds the applicable maximum base height shall penetrate a #sky exposure plane# that begins above the #street line# at the maximum base height and rises over the #zoning lot# at a ratio of 2.7 feet of vertical distance to one foot of horizontal distance on a #narrow street#; and 5.6 feet of vertical distance to one foot of horizontal distance on a #wide street#. However, any #building#, or portion thereof, which in the aggregate occupies not more than 40 percent nor less than 30 percent of the #lot area# of the #zoning lot# may penetrate the #sky exposure plane# set forth in this paragraph (b), provided such portion of the #building# is set back at least 10 feet from a #wide street line# and at least 15 feet from a #narrow street line#. The highest four #stories# or 40 feet of such #building#, whichever is less, may occupy less than 30 percent of the #lot area# of the #zoning lot#. Furthermore, for #zoning lots# with less than 20,000 square feet of #lot area#, such #building# or portion thereof may occupy more than 40 percent of the #lot area# of the #zoning lot# in accordance with the provisions of Section 33-454 (Towers on small lots).

(c) Subareas C and F
In Subareas C and F, for #zoning lots# with wide and narrow street frontage, no #street wall# is required beyond 50 feet of a wide street.
Furthermore, for any #development# or #enlargement# that occupies at least one corner of the Tenth Avenue #block# front and extends along the Tenth Avenue frontage of the #zoning lot# for at least 170 feet, exclusive of existing #buildings# to remain, a lowered #street wall# shall be provided for any #building# that exceeds 45 feet in height. Such lowered #street wall# shall have a maximum height of 45 feet and a minimum height of 35 feet and extend along the Tenth Avenue frontage for a width not less than 25 percent and not more than 30 percent of the #aggregate width of street walls# facing Tenth Avenue. Such lowered #street wall# portion of the Tenth Avenue frontage shall be located at the intersection of Tenth Avenue and a #narrow street#. Such lowered #street wall# shall extend along such #narrow street line# for a distance of at least 50 feet from Tenth Avenue. Beyond 50 feet of Tenth Avenue, excluding the #High Line frontage# of a #building#, such portion of the #building# shall not exceed a height of 45 feet. The provisions of this Section, relating to the location and height of the lowered #street wall# portion of the Tenth Avenue frontage of a #development# are illustrated in Diagram 1 (Street Wall and #High Line# Frontage Regulations in Subareas C and F), in Appendix C of this Chapter.

(d) Subarea E
The #street wall# location provisions set forth in paragraph (a) shall not apply to any #development# or #enlargement# on a #zoning lot# fronting on West 18th Street and located partially in Subareas D, E and F, where #floor area# has been transferred pursuant to Section 98-24, a maximum of 60 percent of the West 18th Street frontage within Subarea E may rise without setback to a maximum #building# height of 250 feet and a minimum of 20 percent of the West 18th Street frontage within Subarea E shall rise without setback to a minimum height of 60 feet and a maximum height of 85 feet and be located within 10 feet of the #street line#.

(e) Subarea G
In Subarea G no #building or other structure# shall be located east of the #High Line#.
In Subarea G, no portion of a #building or other structure# shall exceed a height of 85 feet except for two #buildings#, or portions of #buildings#, hereinafter referred to as Tower East and Tower West. At or above the base height, both such towers shall be set back at least 10 feet from any #street wall# facing a #wide street# and at least 15 feet from any #street wall# facing a #narrow street#. Such set backs shall be provided at a height not lower than 60 feet, except that such set backs may be provided at a height not lower than 40 feet, provided at least 65 percent of the #aggregate width of street walls# facing #narrow streets# and at least 60 percent of the #aggregate width of street walls# facing #wide streets# have a minimum base height of 60 feet.
Tower East shall be located in its entirety within 240 feet of the Tenth Avenue #street line#, and Tower West shall be located in its entirety within 200 feet of the Eleventh Avenue #street line#.
Tower East shall not exceed a #building height# of 290 feet and Tower West shall not exceed a #building# height of 390 feet.
A maximum of 50 percent of the #street wall# of Tower West may rise without setback from a #narrow street line#. Such portion of the #street wall# shall be located a minimum of 15 feet and a maximum of 20 feet from the #narrow street line#.

(f) Subarea I
In Subarea I, the #street wall# location provisions set forth in paragraph (a) shall not apply along Tenth Avenue, or any portion of the #zoning lot# over which the #High Line# passes, as illustrated in Diagram 5 (Subarea I Requirements), of Appendix C of this Chapter. However, for portions of #zoning lots# within 300 feet of Tenth Avenue, such #street wall# requirements shall apply along a minimum of 85 percent of the West 16th Street and West 17th Street frontages.
No portion of a #building or other structure# located within 300 feet of Tenth Avenue shall exceed a height of 120 feet, except for one #building# which may have a height not to exceed 250 feet provided such #building# is located in its entirety within 90 feet of West 17th Street and has a length that does not exceed 175 feet when measured parallel to the West 17th Street #street line#.
Any portion of a #building or other structure# located beyond 300 feet of Tenth Avenue that exceeds a maximum base height of 85 feet shall comply with the #sky exposure plane# provisions of paragraph (b) of this Section, except that the maximum building height shall be 250 feet.

TABLE A
Minimum and Maximum Base Height and Maximum Building Height by District or Subarea

District or Subarea	Minimum Base Height (in feet)	Maximum Base Height (in feet)	Maximum Building Height (in feet)
C6-2A	60	85	120
C6-3A	60	102	145
A	60	85	See paragraph (b)
B, M1-5	60	95	135
C for #zoning lots# with only #narrow street# frontage	60	110	110
C for #zoning lots# with #wide street# frontage	125 See paragraph (c)	145 see paragraph (c)	145 See paragraph (c)
D	60	90	See paragraph (b)
E	60	105	120 see paragraph (d)
F for #zoning lots# with only #narrow street# frontage	60	95	95
F for #zoning lots# with #wide street# frontage	105 See paragraph (c)	120 See paragraph (c)	120 See paragraph (c)
G	60 See paragraph (e)	85 See paragraph (e)	See paragraph (e)
H within 100 ft of Tenth Ave	60	85	120
H beyond 100 ft of Tenth Ave	60	85	See paragraph (b)
I within 300 ft of Tenth Ave	60	85	250 See paragraph (f)
I beyond 300 ft of Tenth Ave	60	85	120 See paragraph (f)

98-44
Authorization to Modify Height and Setback Regulations
The City Planning Commission may authorize the modification of height or setback regulations pursuant to Section 98-40 and 98-50 for #developments# or #enlargements# on a #zoning lot# over which the #High Line# passes or adjacent to a #zoning lot# over which the #High Line# passes, provided that the street frontage of the #zoning lot# adjacent to but exclusive of the portion over which the #High Line# passes is no more than 40 feet, and the Commission finds that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely effect access to light and air for surrounding public areas;

The Commission may prescribe appropriate conditions and safeguards to enhance the character of the surrounding area.

98-50
SPECIAL HEIGHT AND SETBACK, OPEN AREA AND TRANSPARENCY REGULATIONS FOR ZONING LOTS WITHIN OR ADJACENT TO THE HIGH LINE TRANSFER CORRIDOR

98-51
Height and Setback Regulations on the East Side of the High Line

(a) In Subarea A
For any #building# or portion thereof located on the east side of the #High Line#, 60 percent of the aggregate length of the #High Line frontage# of such #building# shall set back at the level of the #High Line bed#. No more than 40 percent of the aggregate length of the #High Line frontage# of such #building# may rise above the level of the #High Line bed#. No portion of such #High Line frontage# shall exceed a maximum height of 20 feet above the level of the #High Line bed#, as illustrated in Diagram 2 (Street Wall and #High Line# Frontage Regulations in Subarea A)in Appendix C, of this Chapter.

(b) In C6-3A Districts, and in Subareas C and F
For #zoning lots# that extend for less than 120 feet along the east side of the #High Line#, no #building# or portion thereof located east of and within 25 feet of the #High Line# shall exceed the level of the #High Line bed#.
For #zoning lots# that extend for at least 120 feet along the east side of the #High Line#, no #building# or portion thereof located east of and within 25 feet of the #High Line# shall exceed the level of the #High Line bed#, except that a maximum of 40 percent of the #High Line frontage# of such #building# may rise without setback above the level of the #High Line bed# provided such portion of the #building# is not located directly between the #High Line# and any #street wall# portion of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (a) (Subareas C and F) of Section 98-441 (Street wall location and minimum base heights).
However, the provisions of this paragraph (b) shall not apply to any #zoning lot# that, on (the effective date of amendment) was wholly within 35 feet of the eastern edge of the #High Line#, or, had a portion thereof whose greatest distance between the eastern edge of the #High Line# and a #side lot line# east of the #High Line# was 35 feet when measured parallel to the nearest #narrow street line#.

98-52
Height and Setback Regulations on West Side of High Line
For any #development# or #enlargement# on a #zoning lot# on the west side of the #High Line# and adjacent to the #High Line# within C6-2A, C6-3A, and M1-5 Districts or within Subareas A, B, or E, the portion of the #building# within 15 feet of the #High Line structure# shall rise no higher than the level of the #High Line bed# before setback. A setback with a depth of at least 15 feet shall be provided from the #High Line#.

98-53
Required Open Areas on the East Side of the High Line
At least 20 percent of the #lot area# of any #development# or #enlargement# on a #zoning lot#, or portion thereof, within C6-3A Districts or within Subareas A, C or F and over which the #High Line# passes or adjacent to a #zoning lot# over which the #High Line# passes, shall be landscaped open area, pursuant to the requirements of paragraph (a) (Open area requirements), and (b)(Permitted obstructions) of this Section. Such open area shall be located directly adjacent to the #High Line# with its longest side adjacent to the #High Line# and shall be located at an elevation not to exceed a height of 3 feet 6 inches above the level of the #High Line bed# adjacent to the #zoning lot#. At no point shall such open area be located within 50 feet of Tenth Avenue.

(a) Open area requirements

All required open areas shall:

(1) have no portion used as a driveway, vehicular access way or for parking, and shall be screened from off-street loading and service areas;
(2) be landscaped with shrubs, vines, flowers, ground cover, trees, and/or plants in planters over a minimum of 25 percent of the required open area;
(3) be maintained by the building owner who shall be responsible for the maintenance of the open area including, but not limited to, the repair of all amenities, litter control and the care and replacement of vegetation within the zoning lot; and
(4) have all mechanical equipment which is located at the same elevation as the open area, or within 15 feet of the level of the open area, screened and buffered with no intake or exhaust fans facing directly onto the required open area.
(5) Open area screening
Required open area provided at the level of the #High Line bed# may be screened and/or separated from the public areas of the #High Line# by a wall, fence, or plantings extending not higher than 8 feet above the average elevation of the #High Line bed#. Non-vegetated screening materials must be substantially transparent. For the purposes of this Section, a substantially transparent screening is defined as transparent, or non-opaque, in an evenly distributed fashion for at least 75 percent of its area. Chain link fences shall not be a permitted screening material. Vegetated screening, such as shrubs, vines, and other plantings, may be completely covered by vegetation and opaque, provided that any underlying surface is substantially transparent.
In addition, such screening material shall be maintained in good condition at all times, may be interrupted by normal entrances and/or exits, and shall have no signs hung or attached thereto, other than those permitted in Section 98-16 (Signs).

(b) Permitted obstruction

(1) Any #High Line# access structure, providing pedestrian access to the #High Line#, by stairway or elevator, may be located within such required open area;
(2) The provisions of paragraph (g)(1)(Permitted obstructions) of Section 37-04 (Requirements for Urban Plazas) shall apply; and
(3) Open air cafes and kiosks may be located in such required open area. Open air cafes may occupy in the aggregate no more than 75 percent of such required open area.

98-54
Transparency Requirements on the East Side of the High Line
The transparency requirements of this Section shall apply in C6-3A Districts and within Subareas A, C and F to all #developments# and #enlargements# of the #High Line frontage# portion of a #building or other structure#, except for portions of #buildings# within the #High Line frontage# that contain #dwelling units#. At least 50 percent of such #building's# #High Line frontage#, to be measured from the level of the #High Line bed#, shall be glazed and transparent and at least 75 percent of the glazed surface shall be fully transparent. The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall not be higher than four feet above the level of the #High Line bed#, and shall be no less than eight feet in height measured from such lowest point.

98-55
Requirements for Non-Transparent Surfaces on the East Side of the High Line
Any portion of such #High Line frontage# that is 40 feet or more in length and contains no transparent element between the level of the #High Line bed# and an elevation of twelve (12) feet above the level of the #High Line bed#, shall be planted with vines or other plantings or contain artwork. Such elements shall substantially cover the applicable non-transparent portion of the #High Line frontage#.

98-60
SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS

98-61
High Line Access Easement Volume Requirement
For all #developments# or #enlargements# within the Special West Chelsea District, an easement volume to facilitate public pedestrian access to the #High Line# via stairway and elevator (hereinafter referred to as "primary access"), shall be provided on any #zoning lot# over which the #High Line# passes that, on or after (the date of referral of zoning text amendment) has more than 5,000 square feet of #lot area#. In the #High Line Transfer Corridor#, an easement volume to facilitate public pedestrian access to the #High Line# via stairway (hereinafter referred to as "secondary access"), shall be provided on any #zoning lot# from which #floor area has been transferred pursuant to Section 98-33 unless a primary access easement has been provided pursuant to this Section 98-61.
However, a primary access easement shall not be required if a primary access easement is already provided on the same #block# and a secondary access easement shall not be required if a primary or secondary access easement has already been provided on the same #block#. Furthermore, primary and/or secondary access easements shall not be required where the Chairperson of the City Planning Commission certifies that:

(1) the minimum dimensions required for the access easement volume pursuant to paragraph (a) of Section 98-62 cannot be accommodated within 33 feet six inches of a #street line# for primary access easements and 40 feet of a #street line# for secondary access easements; or
(2) in the case of a primary easement, a secondary easement is already provided on the same #zoning lot# and such easement is sufficient in size or has been enlarged to be sufficient in size to accommodate the provisions for primary access easements as specified in Section 98-62; or
(3) for primary or secondary easements, access has already been constructed on the same block or on the same street frontage and that such access meets the location and access requirements for primary or secondary access easements, as specified in Section 98-62(a) and (b) and meets all standards, as applicable, for persons with disabilities; or
(4) for primary or secondary easements, construction documents for the #High Line# open space have been developed that specify the opposite side of the same street frontage as an access location.

98-62
High Line Access Easement Regulations
The provisions of this Section shall apply to any #zoning lot# providing an access easement volume, as follows:

(a) Location and Minimum Dimensions
(1) Primary access easement volume
A primary access easement volume may be located within a #building# or within open areas on the #zoning lot#, including open areas required pursuant to Section 98-53 (Required Open Areas on the East Side of the High Line), provided such volume is within 15 feet of a #narrow street line#. The minimum length of such volume shall be 18 feet six inches and the minimum width shall be ten feet; however, the minimum area of such volume shall be 350 square feet. The height of such volume shall extend from a point at least ten feet below #curb level# to a point at least 15 feet above the level of the #High Line bed#. A primary access easement volume may also replace a previously provided secondary access easement volume, and such secondary access easement volume may be terminated pursuant to Section 98-64. Such minimum dimensions are illustrated in Diagram 6 (#High Line# Access Easement Volume Parameters) of Appendix C of this Chapter.

(2) Secondary access easement volume
A secondary access easement volume shall be located within 15 feet of a #narrow street line# and directly adjacent to the #High Line# for a minimum length of 25 feet. Such volume shall have a minimum width of ten feet. The height of such volume shall extend from #curb level# to a point at least ten feet above the level of the #high Line bed#.

(b) Access
All access easement volumes shall be accessible either directly from a public sidewalk or through a publicly traversable way through the #zoning lot# directly connecting with a public sidewalk. Such publicly traversable way shall meet the following requirements:

(1) The required width of the publicly traversable way shall be a minimum of eight feet.
(2) No portion of the publicly traversable way shall be interrupted or occupied by an off-street parking or loading area.
(3) The access easement volume shall be visible from the public sidewalk or the publicly traversable way.
(4) The publicly traversable way shall be maintained by the property owner in good repair.
(5) The publicly traversable way shall be fully accessible to persons with disabilities.
(6) The publicly traversable way shall be open and accessible to the public at all times when a stairway and/or elevator located within the associated access easement volume is open and accessible to the public.

(c) Permitted obstructions
Any access structure within the access easement volume, or any weather protection provided by an overhang or roofed area over such access easement volume, accessory to the access structure, shall be considered permitted obstructions within required #yards# or open areas.

(d) Permitted #uses#
An access easement volume required on a #zoning lot# pursuant to the provisions of this Chapter may be temporarily used by the owner of such #zoning lot# for any permitted #use# until such time as required by the City of New York or its designee for access purposes. Such permitted use shall be limited to non-residential #uses# where such access easement volume is within a #building#. Where such access easement volume is within an open area, such area shall be landscaped, or may be improved in accordance with the provisions of sub-paragraphs (g)(1), (g)(2) and (g)(3) (Permitted obstructions), of Section 37-04 (Requirements for Urban Plazas), except that in the case of open air cafes and kiosks the provisions of paragraph (g) (3) shall be modified as follows: a certification shall not be required pursuant to paragraphs (g)(5) and (g)(6).
Improvements or construction of a temporary nature within the easement volume shall be removed by the owner of such #zoning lot# prior to the time at which public use of the easement areas is required. A minimum notice of six months in writing shall be given by the City of New York or its designee to the owner of the #zoning lot#, in order to vacate the tenants of such temporary #uses#.

(e) Legally Required Windows
The minimum distance between any legally required window in a portion of a #building# used for #residential use# and an access easement volume shall be 30 feet, measured in a horizontal plane at the sill level of, and perpendicular to, such window for the full width of the rough window opening.

98-63
Recording of High Line Access Easement Volume
An instrument in a form acceptable to the Department of City Planning creating a #High Line# access easement volume shall be recorded in the Office of the City Register; a certified copy of which shall be submitted to the Department of City Planning.
Notice by the Department of City Planning of its receipt of a certified copy of an instrument establishing any access easements required pursuant to this Chapter shall be a precondition to issuance by the Commissioner of Buildings of any building permits including any foundation or alteration permit for any #development# of #enlargement# on a site pursuant to Section 98-60 for primary access easements. Receipt of a certified copy of an instrument creating a secondary access easement shall be provided in conjunction with notification, pursuant to Section 98-33(a).

98-64
Termination of High Line Access Easement Volume
In the event that the City Planning Commission notifies the Department of Buildings and the owner in writing that a #High Line# access easement volume is not required on a #zoning lot# under the final construction plans for the restoration and reuse of the #High Line# as an accessible, public open space, the restrictions imposed on such #zoning lot# by the provisions of Section 98-61 (High Line Access Easement Volume Requirement) shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the City Planning Commission to the extinguishment of the easement volume. On termination of the #High Line# access easement volume requirement which has been certified pursuant to this Section, any area reserved for such easement within a #building or other structure# may be used for any #use# permitted pursuant to the provisions of this Chapter and such area shall not be considered #floor area#; and any open area reserved for such easement shall be maintained as an open area and shall be subject to the open area requirements of Section 98-53 (Required Open Areas on the East Side of the High Line).

APPENDIX D
Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea G
This Appendix sets forth additional requirements governing #zoning lots# located within Subarea G between West 17th and 18th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to subparagraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to subparagraph (b) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean "parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10.

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25

(1) As a condition of issuance of a building permit under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix D, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22;
(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and use of the At-Grade Plaza and the stairway and elevator that will provide access to the #High Line#, as shown in Diagram 3 of Appendix C, such easement area for the At-Grade Plaza to include the entire area of the #zoning lot# east of the #High Line# and such easement area as it relates to such stairway and elevator to be at least 2,500 square feet and in a location and configuration acceptable to the City; access for the potential performance by the City of work under the provisions set forth below; and maintenance and repair of the stairway and elevator. Such declaration shall incorporate by reference the maintenance and operating agreement referred to in paragraph (iii) below; and
(iii) Owner shall execute a maintenance and operating agreement for the At-Grade Plaza,

The easements and agreement described herein shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (b).

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot# and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement by Owner, approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the contribution to the #High Line# Improvement. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) At the time of certification pursuant to Section 98-25, paragraph (a), Owner shall designate, subject to the concurrence of the Chairperson of the City Planning Commission, the location of the #floor area# within the #development# or #enlargement# which would exceed the basic maximum #floor area ratio# of the #zoning lot# and be subject to the provisions of Section 98-25 (HIGH LINE IMPROVEMENT BONUS).

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (b) of Section 98-25

(1) Structural Remediation Work Under Paragraph (b)(2) of Section 98-25

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner shall exercise such option no later than 90 days following receipt of the City's specifications for the Structural Remediation Work or of the City's failure to provide such specifications, as set forth in paragraphs (iv), (v) and (vi) below. In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner , as applicable, for any excess from or against the #High Line# Improvement Fund. In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (b)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of any temporary certificate of occupancy, and of final completion with respect to issuance of any final certificate of occupancy.
(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above , at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to public view versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead-based products in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;
(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;
(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including , but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below-grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) Subject to the Not-To-Exceed Limit set forth in section (c) of this Appendix, if Owner exercises the option to perform the Structural Remediation Work, it shall reimburse the City for the reasonable cost of hiring or procuring the services of a full -time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone).

(iv) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to delays outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(v) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete the Structural Remediation Work following the (effective date of amendment) or receipt of specifications for the Structural Remediation Work, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control and , in addition, for any time during which Owner is unable to gain access in order to perform the Structural Remediation Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application). .

(vi) In the event that the City does not provide the specifications for the Structural Remediation Work , within the timeframe set forth in paragraph (iv) of this section, Owner may exercise the option to perform such work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays as described in paragraph (v) above, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(2) At-Grade Plaza Work Under Section 98-25 (b)(3)

(i) Owner shall perform At-Grade Plaza Work within the area on the #zoning lot# shown in Diagram 3 of Appendix C. For any temporary certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of substantial completion of the At-Grade Plaza Work (i.e., the At-Grade Plaza shall be open and accessible to the public). For any permanent certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of final completion of the At-Grade Plaza Work. Substantial completion of the At-Grade Plaza Work shall also require execution by all parties-in-interest of the declarations, easements and maintenance and operating agreement described in paragraph (a) of Section (1) of this Appendix, if not previously provided in connection with issuance of a building permit.

(ii) At-Grade Plaza Work shall include, but not be limited to:

(a) remediation work; and

(b) all paving, plantings, surface treatments, lighting, trees, seating, fountains and other site amenities; and

(c) infrastructure work, including conduits, drainage, water line, electrical connections, and other utility work serving the At-Grade Plaza.

(iii) The At-Grade Plaza Work shall be performed by Owner pursuant to construction documents provided by the City by September 30, 2006, subject to delays outside the reasonable control of the City (including, without limitation, litigation, but such delays shall not exceed more than 180 days), and to such extension as the City and Owner may mutually agree. The At-Grade Plaza Work shall be completed within one year following the later of the (effective date of amendment) or the receipt of such documents, subject to reasonable extension for any delays beyond Owner's reasonable control and to such extension as the City and Owner may mutually agree, and, in addition, for any time during which Owner is unable to gain access in order to perform the At-Grade Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application), or for any time needed to perform any necessary remediation work on the #zoning lot#.

(iv) In no event shall Owner be required to complete the At-Grade Plaza Work until the #High Line# improvements within the portion of the #High Line# Improvement Area adjacent to the #zoning lot# (and, as applicable, over such Improvement Area, as shown on Diagram 3 of Appendix C, are substantially complete (i.e., open to the public but for the work needed to complete the At-Grade Plaza Work). Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (b)(3), until the Chairperson determines that the At-Grade Plaza Work is substantially complete.

(v) The cost to Owner of the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) shall not exceed $2,300,000 The amount of contribution to the #High Line# Improvement Fund under subdivision a of section 1 of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such amount at the time it is made. In addition to the costs of the At-Grade Plaza Work, subject to the Not-To-Exceed Limit set forth section (c) of this Appendix, Owner shall be required to reimburse the City for:

(a) the reasonable cost of developing the plans and construction documents for the At-Grade Plaza Work; and

(b) the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(vi) In the event that construction documents for the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) are not delivered to Owner within the timeframe set forth in paragraph 3 of this subsection, Owner shall not be required to perform the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) consistent with such documents. Instead, Owner shall perform Alternate At-Grade Plaza Work which shall include all necessary remediation work, all necessary below-grade work (including related infrastructure work necessary to support the #High Line#), and at-grade improvements pursuant to the standards set forth in Section 37-04, paragraphs (g) through (n) of the Zoning Resolution, except that open-air cafes and kiosks shall not be permitted. Permitted obstructions, whether as described in the City's Specifications for the At-Grade Plaza Work or as specified in Section 37-04, paragraph (g), for the Alternate At-Grade Plaza Work, shall not count towards # lot coverage#.

(vii) The cost to the Owner of the Alternate At-Grade Plaza Work shall not exceed $1,400,000. In addition, Owner shall , subject to the Not-To Exceed Limit of Section (c) of this Appendix, be required to reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Alternate At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(viii) Upon substantial completion of the At-Grade Plaza and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4): Owner shall provide the City with the declarations, easements and maintenance and operating agreement described in subsection a of section 1 of this Appendix ,if not already provided in connection with the issuance of a building permit; such At-Grade Plaza shall be open and accessible to the public during at least the same hours during which the #High Line# is open and accessible to the public, subject to the terms of the maintenance and operating agreement; and Owner shall maintain the At-Grade Plaza pursuant to the terms of the maintenance and operating agreement.

(3) Stairway and Elevator Access Work Under Paragraph (b)(4) of Section 98-25

(i) Except as provided in subparagraph (iii) of this paragraph, Owner shall perform Stairway and Elevator Access Work within the At-Grade Plaza area as shown in Diagram 3 of Appendix C in conjunction with performance of the At-Grade Plaza Work. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (b)(4), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification pursuant to such Section shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator, shall be included in the construction drawings for the At-Grade Plaza Work described above, and shall be performed by Owner within the time period for performance of the At-Grade Plaza Work described in subsection c of this section. The location for the stairway and elevator shall take into account the viability of any retail spaces fronting the At-Grade Plaza.

(iii) Owner shall not be responsible for performance of the Stairway and Elevator Access Work where it performs the Alternate At-Grade Plaza Work in accordance with paragraph (b) of this section. In that event, prior to commencing the Alternate At-Grade Plaza Work and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4):

(a) Owner shall deposit into the #High Line# Improvement Fund a contribution of $900,000.00 (the Access Contribution), to be used at the direction of the Chairperson of the City Planning Commission for construction of stairway and elevator facilities on the #zoning lot#; and

(b) Owner shall provide the City with the declarations, easements, and maintenance and operating agreement described in paragraph (1) of Section (a) of this Appendix, if not previously provided in connection with issuance of a building permit.

(4) City Performance of Work In the Event of Failure to Perform

(i) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under Section (a) of this Appendix, Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b) of this Appendix), the At-Grade Plaza Work or Alternate Plaza Work, as applicable, and the Stairway and Elevator Access Work (where required to do so under paragraph (3) of Section (b) of this Appendix), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 3 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(ii) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(a) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total), unless such date is extended by mutual agreement between the City and Owner, for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City; and

(b) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control and , in addition, any time in which Owner is unable to gain access in order to perform the At-Grade Plaza Work or Alternate Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application) or), or for any time during which remediation work is in progress on the #zoning lot#.

(iii) In the event Owner does not comply with the requirements paragraph (4)(ii) of this Section (b):

(a) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(b) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(c) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor any temporary or permanent certificate of occupancy may be issued pursuant to Section 98-25, paragraph (b), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

(c) Reimbursement Not-To- Exceed Limits

Reimbursement of the City by Owner of costs pursuant to this Appendix shall not exceed a total of $450,000.00.

APPENDIX E

Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E and F or within Subarea I

This Appendix sets forth additional requirements governing #zoning lots# located partially within Subareas D, E and F or within Subarea I between West 16th and 17th streets or between West 18th and 19th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum Floor Area Ratio in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to paragraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to paragraph (c) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean " parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10.

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25

(1) As a condition of certification under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix E, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22; and

(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and from a stairway and elevator on the #zoning lot# that will provide access to the #High Line# and for maintenance and repair by the City of such stairway and elevator; and the potential performance by the City of work under the provisions set forth below. In the case of #zoning lots# between West 16th and 17th streets, Owner shall also provide the City with easements providing for City access to and from and for public use of the #High Line# Service Facilities on the #zoning lot# and for maintenance and repair by the City of such #High Line# Service Facilities. All easements described herein shall be in a form acceptable to the City and shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (c); and

(iii) submit plans for Stairway and Elevator Access Facilities and, where applicable, #High Line# Service Facilities that demonstrate compliance with the provisions of this Appendix and are consistent with New York City Department of Parks and Recreation standards and best practices governing materials life cycle and maintenance for review and approval by the Chairperson of the City Planning Commission.

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot # and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement , approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the #High Line# Improvement Fund contribution to reflect the cost of such improvements. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) At the time of certification pursuant to Section 98-25, paragraph (a), Owner shall designate, subject to the concurrence of the Chairperson of the City Planning Commission, the location of the #floor area# within the #development# or #enlargement# which would exceed the basic maximum #floor area ratio# of the #zoning lot# and be subject to the provisions of Section 98-25.

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (c) of Section 98-25

(1) Structural Remediation Work Under Paragraph (c)(2) of Section 98-25

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner shall exercise such option no later than 90 days following receipt of the City's specifications for the Structural Remediation Work or of the City's failure to provide such specifications, as set forth in paragraphs (iv) and (v) below (unless such dates are extended by mutual agreement of the City and Owner). In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 for each square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner, as applicable, for any excess from or against the #High Line# Improvement Fund , In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (c)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of temporary certificates of occupancy, and of final completion with respect to issuance of final certificates of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above, at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life, and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to the public versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead -basedproducts in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City ;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including , but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below -grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006 , subject to such delays as are outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(iv) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following the (effective date of amendment) or receipt of specifications for the Structural Remediation Work, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control.

(v) In the event that the City does not provide the specifications for the Structural Remediation Work within the timeframe set forth in paragraph (iv) of this subsection, Owner may exercise the option to perform such work and proceed with the Structural Remediation Work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(vi) If Owner exercises the option to perform the Structural Remediation Work, Owner shall reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone), such reimbursement not to exceed $115,000.

(2) Stairway and Elevator Access Work Under Paragraph (c)(3) of Section 98-25

(i) Owner shall perform Stairway and Elevator Access Work subject to the provisions of subparagraph 2 of this paragraph. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(3), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator located directly adjacent to or below the #High Line#. Except as approved by the Chairperson of the City Planning Commission pursuant to paragraph (1)(iii) of Section (a) of this Appendix, #curb# level entrances to such access facilities must be located at the #street line#. Such access facilities may be unenclosed or enclosed. When such access facilities are enclosed and located at the #street line#, any wall or façade separating the access facility from the street shall be substantially glazed and any such glazed surfaces shall be fully transparent. Stairways shall have a clear path of not less than 6 feet. Such access facilities shall consistent with and sympathetic to the design of the #High Line# on the #zoning lot#.

(iii) The Stairway and Elevator Access Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the provisions of paragraph (2)(ii) of this Section, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the Stairway and Elevator Access Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(3), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(3) #High Line# Service Facility Work Under Paragraph (c)(4) of Section 98-25

(i) For #zoning lots# located between West 16th and 17th streets, Owner shall perform #High Line# Service Facility Work subject to the provisions of this section. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(4), shall be of substantial completion of the work. For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) #High Line# Service Facilities shall consist of satellite maintenance and operations space for the #High Line# open space as well as public restrooms, in accordance with the following standards:

(a) Location

Such facilities shall have a component located at the level of the #High Line bed#, or within 5 feet of such level (hereinafter referred to as the "upper

service facility"). Such facilities shall also have a component located no higher than #curb level# (hereinafter referred to as the "lower service facility"). The upper facility must be located directly above the lower facility to enable placement of a trash chute connecting the upper and lower facilities. Where the upper facility is not located exactly at the level of the #High Line bed#, a fully accessible ramp must connect such level with the level of the upper facility. Where the lower facility is not located exactly at #curb level#, a means acceptable to the City of connecting the lower service facility to a #street# frontage shall be provided.

(b) Program and dimensions

(1) Lower service facilities

Lower service facilities shall contain a room which is accessible from #street# level and is no less than 50 square feet in area. Such facility shall contain the outlet of a trash chute from the upper service facility and shall also have a minimum of one electrical outlet furnishing a total of at least 1,200 watts of power.

(2) Upper service facilities

Upper service facilities shall be no less than 350 square feet in area and shall contain, at a minimum one public restroom not less than 250 square feet in area with separate restroom spaces for each gender, one storage room not less than 70 square feet in area, and one waste disposal room not less than 30 square feet in area and containing a trash chute to the lower service facility

Each room within such upper service facilities shall have a minimum of one electrical outlet furnishing a total of at least 1,200 watts of power.

(iii) The #High Line# Facility Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the standards of paragraph (ii) of this subsection, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the #High Line# Facility Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(4), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(v) The cost to Owner of the #High Line# Facilities Work shall not exceed $1,150,000. The amount of contribution to the #High Line# Improvement Fund under paragraph (1) of Section (a) of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such at the time it is made. .

(c) City Performance in the Event of Failure to Perform

(1) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under paragraph (1) of Section (a) of this Appendix), Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b)) and the Stairway and Elevator Access Work (under paragraph (3) of Section (b)), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above, as applicable, has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(2) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(i) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total) for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City, unless such date is extended by mutual agreement between the City and Owner; and

(ii) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control

(3) In the event Owner does not comply with the requirements of paragraph (2) above:

(i) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(ii) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(iii) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor may any temporary or permanent certificates of occupancy may be issued pursuant to Section 98-25, paragraph (d), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

Use of railroad or transit air space

M1 M2 M3

* * *

(c) In an M1-1 District, on the #block# bounded by Vanderbilt Avenue, Atlantic Avenue, Carlton Avenue and Pacific Street in the borough of Brooklyn, the City Planning Commission may authorize the #use# of #railroad or transit air space# for an open vehicle storage establishment provided the Commission makes the following findings:

* * *

(d) Notwithstanding the above, the #High Line#, as defined in Section 98-01 of this Resolution shall be governed by the provisions of Section 98-17 (Air Space Over a Railroad or Transit Right of Way or Yard).

* * *

All of the following text in Article IX, Chapter 8 is new but not underlined.

Article IX - Special Purpose Districts

Chapter 8
Special West Chelsea District

98-00
GENERAL PURPOSES
The "Special West Chelsea District" established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. These general goals include among others, the following specific purposes:

(a) to encourage and guide the development of West Chelsea as a dynamic mixed use neighborhood;
(b) to encourage the development of residential uses along appropriate avenues and streets;
(c) to encourage and support the growth of arts-related uses in West Chelsea;
(d) to facilitate the restoration and reuse of the #High Line# elevated rail line as an accessible, public open space through special height and setback regulations, #High Line# improvement bonuses and the transfer of development rights from the #High Line# Transfer Corridor;
(e) to ensure that the form and use of new buildings relates to and enhances neighborhood character and the #High Line# open space;
(f) to create and provide a transition to the lower-scale Chelsea Historic District to the east;
(g) to create and provide a transition to the Hudson Yards area to the north; and
(h) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues, consistent with the foregoing purposes.

98-01
Definitions
Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are as set forth in Section 12-10 (DEFINITIONS).

High Line
The "High Line" shall for the purposes of this resolution refer to the elevated rail line structure and associated elevated easement located between Gansevoort Street and West 30th Street.

High Line bed
The "High Line bed" is the highest level of the horizontal surface (platform) of the #High Line# elevated rail line structure as of (the effective date of amendment), as shown in Diagram 7, in Appendix C of this Chapter. For the purposes of this Chapter, the level of the #High Line bed# is the average level of the #High Line bed# on a #zoning lot# over which the #High Line# passes.

High Line frontage
"High Line frontage" is that portion of a #building# that faces and is located within 15 feet of the west side and 25 feet of the east side of the #High Line#.

High Line Transfer Corridor
The "High Line Transfer Corridor" is an area within which the #High Line# is located, as specified in Appendix B of this Chapter, where development rights may be transferred to receiving sites in certain Subareas in the #Special West Chelsea District#, pursuant to the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-02
General Provisions
The provisions of this Chapter shall apply to any #zoning lot#, or portion thereof, within the #Special West Chelsea District#, except that the provisions of Section 98-17 (Air Space over a Railroad or Transit Right-of-way or Yard) and Section 98-11 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall also apply to any #zoning lot# south of the #Special West Chelsea District# over which the #High Line# passes. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

The provisions regarding the transfer of #floor area# set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive, and the #High Line Improvement Bonus# in Subareas D, E, and F, and G and I set forth in Section 98-25 shall be effective upon the issuance of a final and binding Certificate of Interim Trail Use (CITU) by the Federal Surface Transportation Board and the execution of a trail use agreement between the City and CSX Transportation, Inc., or its successor, or upon a determination by the Office of the Corporation Counsel that the restoration and reuse of the #High Line# as an accessible, public open space has been obtained pursuant to an alternative mechanism which protects the interests of the city.

Upon transfer of the #High Line# to the City pursuant to ULURP application C 050163 PCM and in accordance with such CITU and trail use agreement, the following shall apply:

(a) the provisions regarding the issuance of building permits set forth in Section 98-26 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall be effective; and
(b) any area within the tax lot located at Section 3, Block 8224, Lot 111, as of (effective date of amendment), which is separated from other portions of such tax lot by bounding streets, shall be considered a separate #zoning lot#; and
(c) Underlying #use# and bulk regulations shall not apply to #uses# and #buildings and other structures# constructed on the #High Line# specifically in connection with its use as a public open space.

98-03
District Plan and Maps
The regulations of this Chapter are designed to implement the #Special West Chelsea District# Plan.
The District Plan includes the following maps and illustrative diagrams in Appendices A, B, and C:

Appendix A	Special West Chelsea District and Subareas	
Appendix B	High Line Transfer Corridor Location and Floor Area Ratio	
Appendix C	Illustrative Diagrams of the High Line and Building Envelopes for Sites Adjacent to the High Line	
	Diagram 1	Street wall and High Line frontage regulations in Subareas C, F, and G
	Diagram 2	Street wall and High Line frontage regulations in Subarea A
	Diagram 3	Subarea H requirements
	Diagram 4	High Line Improvement Area for Zoning Lots Divided by District Boundaries in Subareas D, E and G
	Diagram 5	Subarea I requirements between West 16th and West 17th streets
	Diagram 6	High Line Access Easement Volume Parameters
	Diagram 7	High Line bed and frontages
Appendix D	Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea H	
Appendix E	Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E and G, or within Subarea I	

The maps and diagrams are hereby incorporated and made part of this Resolution. They are incorporated for the purpose of illustrating requirements or specifying locations where the special regulations and requirements set forth in the text of this Chapter shall apply.

98-04
Subareas and High Line Transfer Corridor
In order to carry out the provisions of this Chapter, nine Subareas (Subareas A through I), and a #High Line Transfer Corridor# are established within the #Special West Chelsea District#.

Within each of the Subareas and the #High Line Transfer Corridor#, certain special regulations apply that do not apply within the remainder of the #Special West Chelsea District#.

The locations of the nine Subareas are detailed in Appendix A of this Chapter. The location of the #High Line Transfer Corridor# is detailed in Appendix B of this Chapter,
The Subareas and the #High Line Transfer Corridor# are subject to all other regulations of the #Special West Chelsea District# and the underlying district regulations except as otherwise specified in this Chapter.

98-05
Applicability of District Regulations

98-051
Applicability of Chapter 1 of Article 1

(a) Within the #Special West Chelsea District#, Section 11-15 (Environmental Requirements) shall apply, except that prior to issuing a building permit for any #development#, or for an #enlargement#, #extension# or a change of #use#, on a lot that has an (E) designation for hazardous material contamination, noise or air quality, the Department of Buildings shall be furnished with a report from the Department of Environmental Protection (DEP) of the City of New York stating:

(1) in the case of an (E) designation for hazardous material contamination, that environmental requirements related to the (E) designation have been met for that lot; or

(2) in the case of an (E) designation for noise or air quality, that the plans and drawings for such #development# or #enlargement# will result in compliance with the environmental requirements related to the (E) designation.

(b) Section 11-332 (Extension of period to complete construction) shall apply, except that not withstanding the provisions of paragraph (a) of such Section, in the event that other construction for which a building permit has been lawfully issued and for which construction has been commenced but not completed on (effective date of amendment), such other construction may be continued provided that the construction is completed and a temporary or permanent certificate of occupancy is obtained not later than (one year after effective date of amendment).

98-10
SPECIAL USE AND PARKING REGULATIONS WITHIN THE SPECIAL WEST CHELSEA DISTRICT

98-11
Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line

The Commissioner of Buildings shall not issue any building permit for demolition, excavation or foundation work to be performed above or beneath the #High Line# or within 25 feet of support structures of the #High Line#, except by determination by such Commissioner that such work would not adversely affect the structural integrity of the #High Line#.

98-12
Modification of Use Regulations in C6 Districts

98-121
In Subarea H
In Subarea H, the provisions of Section 32-25 (Use Group 16), paragraph D. (Heavy Service, Wholesale, or Storage Establishments) are modified to permit, in #C6 Districts#, warehouse #uses# only in #cellars# located wholly below #curb level#.

98-122
Location Within Buildings
In any #C6 District# in the #Special West Chelsea District#, the provisions of Section 32-422 (Location of floors occupied by non-residential uses) are modified to permit non-#residential uses# on the same #story# as a #residential use# or on a story higher than that occupied by #residential uses#, provided that the non-#residential uses#:

(a) are located in a portion of the #building# that has separate direct access to the #street# with no access to the #residential# portion of the #building# at any #story#; and

(b) are not located directly over any portion of a #building# containing #dwelling units#, except this limitation shall not preclude the location of:
(1) #residential# lobby space below or on the same #story# as non-#residential uses#; or
(2) a #commercial use# that fronts on the #High Line# and is located within five feet of the level of the #High Line bed#.

98-13
Modification of Use Regulations in M1 Districts
In the #Special West Chelsea District#, the provisions of Section 42-10 (USES PERMITTED AS-OF-RIGHT) and 42-30 (USES PERMITTED BY SPECIAL PERMIT) are modified to permit, as-of-right, without limitation, in M1 Districts, museums and non-commercial art galleries as listed in Use Group 3.

98-14
Ground Floor Use and Transparency Requirements on Tenth Avenue
The special ground floor #use# and glazing regulations of this Section apply to that portion of a #building or other structure# fronting on Tenth Avenue in the #Special West Chelsea District#.
#Uses# located on the ground floor level or within five feet of #curb level#, and within 25 feet of the #street line# shall be limited to #commercial uses# permitted by the underlying district or museums or non-commercial art galleries as listed in Use Group 3. A building's #street# frontage shall be allocated exclusively to such #uses#, except for lobby space or entryways. In no event shall the length of #street# frontage occupied by lobby space or entryways exceed, in total, 40 feet or 50 percent of the building's total #street# frontage, whichever is less.
For any #development# or #enlargement#, each ground floor #street wall# shall be glazed with materials which may include show windows, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 70 percent of such ground floor #street wall# surface. The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall be not higher than two feet above the level of the adjoining sidewalk or public access area and shall be no less than eight feet in height measured from such lowest point. Not less than 50 percent of such ground floor #street wall# surface shall be glazed with transparent materials, and up to 20 percent of
such ground floor #street wall# may be glazed with translucent materials.

98-141
Transparency requirements within Subareas H and I-
The transparency requirements of this Section shall apply to all portions of #developments# and #enlargements# within the eastern #High Line frontage# of Subareas H and I, except for such portions that contain #dwelling units#. At least 70 percent of the area of such frontage, to be measured from a point not lower than four feet and not higher than eight feet above the level of the #High Line bed# shall be glazed and transparent and at least 75 percent of such glazed surface shall be fully transparent.

98-15
Security Gates
All security gates installed after (effective date of amendment) that are swung, drawn, or lowered to secure #commercial# or #community facility# premises shall, when closed, permit visibility of at least 75 percent of the façade area covered by such gate, when viewed from the #street#, except that this provision shall not apply to entrances or exits to parking facilities.

98-16
Signs
The #sign# regulations of the underlying districts in the #Special West Chelsea District# shall not apply to #signs# located within 50 feet of the #High Line#, except for signs located entirely below the level of the #High Line# bed. In lieu thereof, the #sign# regulations of a C1 district shall apply, except that #accessory signs# located within the #High Line frontage# may have a maximum height of 20 feet above the level of the #High Line bed#.
No signs affixed to or resting upon the #High Line# shall be permitted, except as pursuant to a signage plan for the #High Line#, as authorized by the City Planning Commission, provided the Commission finds that such signage plan will:

(a) enhance the use of the #High Line# by providing signage that is consistent with the use of the #High Line# as a public open space;
(b) provide, at a minimum, directional, informational, and interpretive signage consistent with the use of the #High Line# as a public open space;
(c) be integrated with the design of the #High Line# open space; and
(d) not adversely affect development adjacent to the #High Line# and in the surrounding neighborhood

98-17
Air Space Over a Railroad or Transit Right-of-way or Yard
For the purposes of this Resolution, the #High Line# shall not be considered a railroad or transit right-of-way and the provisions of Sections 32-44 (Air Space over a Railroad or Transit Right-of-way or Yard) and 42-462 (Air Space over a Railroad or Transit Right-of-way or Yard) shall not apply.

98-18
Parking Regulations in Subarea H
#Accessory# off-street parking spaces for existing or new governmental offices may be located on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided such spaces are located within Subarea H and in a facility, or portion thereof, that is entirely below #curb level# and that no more than 377 spaces are provided within such facility. For purposes of this Section, the governmental offices on Block 688, Lots 1001-1002 (as of the effective date) may have up to 377 #accessory# off-street parking spaces in such facility.

98-19
Lighting
All exterior light sources located within the #High Line frontage# shall be shielded from direct view from the #High Line#.

98-20
FLOOR AREA AND LOT COVERAGE REGULATIONS
The #floor area# provisions of this Section 98-20, inclusive, shall apply. Furthermore, special #floor area# transfer provisions are set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-21
Maximum Floor Area Ratio outside of Subareas
For all #zoning lots# or portions thereof located outside of Subareas A through I, the maximum #floor area ratios# of the applicable underlying district shall apply.

98-22
Maximum Floor Area Ratio and Lot Coverage in Subareas
For all #zoning lots# or portions thereof located in Subareas A through I, the maximum #floor area ratios#, #open space ratios# and #lot coverages# of the applicable underlying district shall not apply. In lieu thereof, the maximum #floor area ratio# permitted for #commercial#, #community facility#, and #residential uses#, separately or in combination, shall be as specified in the following table. For #residential use#, the maximum #lot coverage# shall be 70 percent for #interior# or #through lots# and 80 percent for #corner lots#, except that no maximum #lot coverage# shall apply to any #zoning lot# comprising a #corner lot# of 5,000 square feet or less.

TABLE A
Maximum Floor Area Ratio by Subarea

Subarea	Basic Maximum #floor area ratio#	Increase in FAR pursuant to section 98-30(HIGH LINE TRANSFER CORRIDOR	Increase in FAR pursuant to section 98-35 (High Line Improvement Bonuses)	Inclusionary Housing: Minimum FAR required to be transferred (note 1)	Inclusionary Housing: Increase in FAR pursuant to Section 98-26 (Modifications to Inclusionary Housing Program)	Maximum permitted # floor area ratio#
A	7.5	2.5	(note 2)	1.65	2.85	12.0
B	5.0	2.5	(note 2)	1.65	0.85	7.5
C	5.0	2.5	NA	1.65	0.85	7.5
D	5.0	2.5 (note 3)	2.5 (note 3)	1.65	0.85	7.5
E	5.0	1.0 (note 3)	1.0 (notes 2 & 3)	0.65	0.35	6.0
F	5.0	NA	NA	NA	NA	5.0
G	5.0	1.0 (note 3)	1.0 (note 3)	0.65	0.35	6.0
H	7.5	NA	2.5	NA	NA	10.0
I	5.0	2.5	NA	1.65	0.85	7.5
I (note 4)	5.0	1.0	1.5	0.65	0.35	7.5

Note 1
Minimum #floor area ratios# required to be transferred pursuant to Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive, before Inclusionary Housing #floor area# bonus can be utilized.

Note 2
In Subareas A, B, and E, the applicable basic maximum #floor area ratio# of that portion of the #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, and the applicable maximum permitted #floor area ratio# increased accordingly, by certification of the Chairperson of the City Planning Commission, pursuant to Section 98-35 (High Line Transfer Corridor Bonus).

Note 3
For certain zoning lots located in Subareas D, E, and G, the provisions of Section 98-25 (#High Line# Improvement Bonus) may apply in lieu of the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), subject to the provisions of Section 98-24 (Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E, and G).

Note 4
For #zoning lots# over which the #High Line# passes.

98-23
Special Floor Area and Lot Coverage Rules for Zoning Lots Over Which the High Line Passes
#Lot coverage# requirements shall not apply to the portion of the #zoning lot# that lies directly beneath the #High Line#. The remaining portion of the #zoning lot# shall be considered a separate #zoning lot# for the purposes of calculating maximum #lot coverage#. Easement volumes provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS) and access structures constructed therein, as well as any structure required pursuant to Appendix D or E in relation to an increase in the basic maximum #floor area # ratio of a #zoning lot# pursuant to Section 98-25 (#High Line# Improvement Bonus), shall not be considered #floor area# or #lot coverage#.
However, #lot coverage# requirements shall apply to the entire #zoning lot# for the purposes of applying tower #lot coverage# regulations as set forth in paragraph (b) of Section 98-423.

98-24
Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E and G
For #zoning lots# fronting on West 18th Street and located partially in Subarea D, partially in Subarea E and partially in Subarea G, #floor area# may be transferred across zoning district and subarea boundaries without restriction. Either the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR) or Section 98-25 (High Line Improvement Bonus) may apply to such #zoning lot#, as applicable, and the maximum permitted #floor area ratio# specified in the table in Section 98-22 shall apply, as applicable, for each subarea.

98-25
High Line Improvement Bonus
For #zoning lots# located between West 16th and West 19th streets over which the #High Line# passes, the applicable basic maximum #floor area ratio# of the #zoning lot# may be increased up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), provided that:

(a) Prior to issuing a building permit for any #development# or #enlargement# on such #zoning lot# that anticipates using #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished with a certification by the Chairperson of the City Planning Commission that: (1) a contribution has been deposited into an escrow account or similar fund established by the City (the #High Line # Improvement Fund), or such contribution is secured by letter of credit or other cash equivalent instrument in a form acceptable to the City. Such contribution shall be used at the direction of the Chairperson solely for improvements to the #High Line# within the #High Line# improvement area applicable to such #zoning lot#, with such contribution being first used for improvements within that portion of the #High Line# improvement area on such #zoning lot#. Such contribution shall be made in accordance with the provisions of Appendix D or E, as applicable; and (2) a declaration of restrictions executed by all #parties in interest# to the #zoning lot# as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS) , including and incorporating such other instruments as are necessary to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, is filed and recorded in the Office of the Register of the City of New York; and (3) all additional requirements of Appendix D or E, as applicable with respect to issuance of a building permit, have been met.

(b) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located between Subarea H over which the #High Line# passes that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix D, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;
(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix D;
(3) At-Grade Plaza Work has been performed on such #zoning lot# in the area shown in Diagram 3 of Appendix C, in accordance with Appendix D;
(4) stairway and elevator access work has been performed on such #zoning lot# in the At-Grade Plaza area shown in Diagram 3 of Appendix C, or that an additional contribution to the #High Line# Improvement Fund to fund performance of such work has been made, in accordance with Appendix D; and
(5) all other applicable requirements of Appendix D have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For

permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix D.

(c) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located within Subarea I or located partially within Subareas D, E, and G over which the #High Line# passes that incorporates #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix E, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;

(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix E;

(3) stairway and elevator access work has been performed on such #zoning lot #, in accordance with Appendix E;

(4) for #zoning lots# located between Subarea I over which the #High Line# passes, #High Line# Service Facility Work has been performed, in accordance with Appendix E; and

(5) all other applicable requirements of Appendix E have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix E.

98-26
Modifications of Inclusionary Housing Program
The provisions of Section 23-90 (INCLUSIONARY HOUSING) are modified within the #Special West Chelsea District#, as set forth in this Section.

98-261
Definitions
For the purposes of Section 23-943 (Preservation option), the following definitions in Section 23-92 shall be modified:

Fair Rent
"Fair rent" shall include, in addition to that rent permitted pursuant to Section 23-92, the payment of principal and interest on mortgage debt, and #lower income housing# may secure such debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-94(c) of this Resolution.

Lower Income Household
A "lower income household" is a #family# having an income equal to or less than the following proportion:

$$\frac{125}{80}$$

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.
#Lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City and State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with the U.S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.
Section 23-93 shall be modified so that the applicable ratio for Preservation in Column B shall be 1.5:1.
Section 23-943, paragraph (a) shall be modified to provide that the #administering agent# shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

98-262
Floor area increase
In accordance with the provisions set forth in Section 98-22 (Maximum Floor Area Ratio and Lot Coverage in Subareas), the maximum permitted #residential floor area ratio# for #developments# or #enlargements# that have increased their permitted #floor area# through the transfer of development rights from the #High Line Transfer Corridor# by the minimum amount specified in the table in Section 98-22 may further increase their permitted #floor area# through the provision of Inclusionary Housing, as modified in this Section 98-26, to the maximum amount specified in such table. However, in those subareas or portions thereof where the Inclusionary Housing Program is applicable, and where the Chairperson of the Department of City Planning has certified that at least 90 percent of the total development rights within the #High Line Transfer Corridor# have been transferred pursuant to Section 98-30, no transfer of #floor area# pursuant to Section 98-30 shall be required, and the basic maximum #floor area ratio# of the #development# or #enlargement# may be increased by up to 1.0 in Subareas E and G, and on any #zoning lot# located in Subarea I over which the #High Line# passes; up to 2.5 in Subareas B, C, and D and on any #zoning lot# located in Subarea I over which the #High Line# does not pass, and up to 4.5 in Subarea A.

98-30
HIGH LINE TRANSFER CORRIDOR
98-31
Purposes
The #High Line Transfer Corridor#, established within the #Special West Chelsea District#, is intended to enable the transfer of development rights from properties over which and immediately to the west of where the #High Line# passes and thereby permit light and air to penetrate to the #High Line# and preserve and create view corridors from the #High Line# bed.

98-32
General Provisions
The location of the #High Line Transfer Corridor# is specified in Appendix B of this Chapter.
In the #High Line Transfer Corridor#, special regulations relating to the transfer of #floor area# are set forth in Sections 98-33 through and 98-35 inclusive.

98-33
Transfer of Development Rights From the High Line Transfer Corridor
In the #Special West Chelsea District#, a "granting site" shall mean a #zoning lot#, or portion thereof, in the #High Line Transfer Corridor#. A "receiving site" shall mean a #zoning lot#, or portion thereof, in any subarea other than Subareas F and H. #Floor area# from a granting site may be transferred to a receiving site in accordance with the provisions of this Section.

(a) Notification
Prior to any transfer of #floor area#, the Department of City Planning shall be notified in writing of such intent to transfer #floor area#. Such notification shall be made jointly by the owners of the granting and receiving sites and shall include:

(1) #floor area# zoning calculations for the granting and receiving site, and

(2) a copy of the distribution instrument legally sufficient in both form and content to effect such a distribution, and

(3) if applicable, a certified copy of the instrument creating a secondary #High Line# access easement volume, pursuant to the provisions of Section 98-63.

Notices of restrictions in a form acceptable to the Department of City Planning shall be filed by the owners of the granting and receiving sites in the Office of the Register of the City Of New York, indexed against the granting and receiving sites, certified copies of which shall be submitted to the Department of City Planning. Notice by the Department of City Planning of its receipt of certified copies thereof shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit for any #development# or #enlargement# on the receiving site.

(b) #Floor area#
The maximum amount of #floor area# transferred from a granting site located outside of a subarea shall not exceed the maximum #floor area ratio# permitted for a #commercial use# on such granting site, less any existing #floor area# to remain on such granting site.
The maximum amount of #floor area# transferred from a granting site located in a subarea shall not exceed the basic maximum #floor area ratio# specified for the applicable subarea in the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas), less any existing #floor area# to remain on such granting site.
Each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be transferred from the granting site by the amount of #floor area# transferred.
The amount of #floor area# transferred to a receiving site from a granting site in the #High Line Transfer Corridor# shall not exceed the #floor area ratio# permitted on the receiving site through such transfer, pursuant to the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas).

(c) #Use#
#Floor area# transferred from a granting site within the #High Line Transfer Corridor# may be used for any #use# allowed on the receiving site in accordance with the underlying zoning designation and the provisions of this Chapter.

(d) Stairway easement requirement
As a condition for the transfer of #floor area#, an easement volume to facilitate pedestrian access to the #High Line# via stairway shall be provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR ZONING LOTS OVER WHICH THE HIGH LINE PASSES OR ADJACENT TO THE HIGH LINE) and Section 98-63 (Recording of the #High Line# Access Easement Volume).

(e) Restrictive Declaration
As a condition for the transfer of #floor area#, and in order to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, a declaration of restrictions, executed by all #parties in interest# of the granting lot as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS), and including and incorporating such other instruments as are necessary to accomplish such purposes, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, shall be filed and recorded in the Office of the Register of the City of New York. Notice by the Department of City Planning of receipt of certified copies of such recorded declaration shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site. Such recorded declaration shall be in addition to the Notice of Restrictions required pursuant to subdivision (a) of this Section.

98-34
Screening and Landscaping Requirements for Vacant Sites
Any #zoning lot# within the #High Line Transfer Corridor# that has transferred #floor area# pursuant to Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor), and is 50 percent or more vacant shall be screened from the street and/or landscaped in accordance with the provisions of this Section; except that #zoning lots# occupied by #buildings# that extend along at least 85 percent of the #street# frontage of the #zoning lot# and are located within five feet of the #street line# are not required to provide screening or landscaping.
Such open or vacant areas on #zoning lots# shall be screened from the street by a fence or gate with a surface that is at least 75 percent open, extending not less than six feet and not higher than eight feet above finished grade; or alternatively, by a planting strip at least four feet wide and densely planted with evergreen shrubs at least four feet high at the time of planting or of a variety expected to reach a height of six feet within three years, or by both. Chain link and fences containing barbed wire or razor wire shall be prohibited. For portions of #zoning lots# located beneath the #High Line# planting strips shall be prohibited.

98-35
#High Line Transfer Corridor# Bonus
For #zoning lots#, or portions thereof, within the #High Line Transfer Corridor#, the applicable basic maximum #floor area ratio# of that portion of a #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, for an amount of #floor area# equivalent to the area of that portion of the #zoning lot# located within the #High Line Transfer Corridor#, provided the Chairperson of the City Planning Commission has certified that

(d) all the permitted #floor area# on that portion of the #zoning lot# that is within the #High Line Transfer Corridor# has been transferred to an eligible receiving site, in accordance with the provisions of Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor);

(e) that such granting site is vacant; and

(f) a contribution has been deposited into the #High Line# Improvement Fund established under Section 98-25, to be used at the direction of the Chairperson of the City Planning Commission to assure that the #High Line# is restored and reused as a public accessible open space.

No #building# permit for any #development# or #enlargement# that anticipates using such increased #floor area# may be issued unless and until such certification has been made.

Such contribution amount shall be $50.00 per square foot of #floor area# as of (the effective date of amendment) and shall be adjusted July 1 of the following year and each year thereafter, by the City or its designee, based on the percentage change in the Consumer Price Index for all urban consumers as defined by the U.S. Bureau of Labor Statistics.

Such bonus #floor area# shall only be used for a permitted #commercial use#, which shall be located in that portion of the #zoning lot# that is within the #High Line Transfer Corridor#; however, #public parking lots# and #public parking garages# at or above #curb level# shall not be permitted; and the height of any #development# or #enlargement# within the #High Line Transfer Corridor# shall not exceed a height of 3 feet 6 inches above the level of the #High Line bed#.

98-40
SPECIAL YARD, HEIGHT AND SETBACK, AND MINIMUM DISTANCE BETWEEN BUILDINGS REGULATIONS

98-41
Special Rear Yard Regulations
The #yard# regulations of the underlying district shall apply, except that no #rear yard# regulations shall apply to any #zoning lot# that includes a #through lot# portion that is contiguous on one side to two #corner lot# portions and such #zoning lot# occupies the entire #block# frontage of the #street#.

98-42
Special Height and Setback Regulations
The height and setback regulations of the underlying district shall not apply, except as set forth in this Section 98-42, inclusive. Furthermore, for any #zoning lot# located within or adjacent to the #High Line Transfer Corridor#, the provisions of Section 98-50, inclusive, shall also apply. All heights shall be measured from the #base plane#, unless otherwise specified.

98-421
Obstruction over the High Line

Within the #Special West Chelsea District#, the #High Line# shall remain open and unobstructed from the #High Line bed# to the sky, except for improvements constructed on the #High Line# in connection with the use of the #High Line# as a public open space.

98-422
Special rooftop regulations
The provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings or other structures# within the #Special West Chelsea District# except as modified as follows:

(a) Permitted Obstructions
Elevator or stair bulkheads, roof water tanks, cooling towers or other mechanical equipment (including enclosures), may penetrate a #sky exposure plane# or a maximum height limit provided that either the product, in square feet, of the #aggregate width of street walls# of such obstructions facing each #street# frontage, times their average height, in feet, shall not exceed a figure equal to eight times the width, in feet, of the #street wall# of the #building# facing such frontage, or, the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#, and the height of all such obstructions does not exceed 40 feet. In addition, dormers may penetrate a maximum base height in accordance with the provisions of paragraph (c) of Section 23-621 (Permitted obstructions in certain districts). However, dormers may not exceed the maximum #building# height in Subareas F, C and G where the maximum base height and maximum #building# height are the same.

(b) Ventilation and mechanical equipment
All mechanical equipment located within 15 feet of the level of the #High Line# bed that is within 25 feet of the #High Line#, measured horizontally, or within the #High Line frontage#, as applicable, shall be screened and buffered with no intake or exhaust fans or vents facing directly onto the #High Line#.

98-423
Street wall location, minimum and maximum base heights and maximum building heights

The provisions set forth in paragraph (a) of this Section shall apply to all #developments# and #enlargements#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (f) of this Section.

(a) The #street wall# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in Table A of this Section. Recesses, not to exceed three feet in depth from the #street line#, shall be permitted on the ground floor where

required to provide access to the #building#. Above a height of 12 feet above the #base plane#, up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#, provided any such recesses deeper than 10 feet along a #wide street#, or 15 feet along a #narrow street#, are located within an #outer court#. Furthermore, no recesses shall be permitted within 30 feet of the intersection of two #street lines# except that, to allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.

For #developments# that occupy the entire #block# frontage of a #street# and provide a continuous sidewalk widening along such #street line#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section. The #street wall# location provisions of this section shall not apply along that portion of any #street# frontage:

(1) over which the #High Line# passes;
(2) occupied by existing #buildings# to remain, or
(3) between the #High Line# and a #side lot line#, where such frontage measures less than 20 feet.

All portions of #buildings or other structures# that exceed the applicable maximum base height specified in Table A shall provide a setback at a height not lower than the applicable minimum base height. A setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#, except such dimensions may include the depth of permitted recesses in the #street wall#.

No #building or other structure# shall exceed the maximum #building# height specified in Table A.

(d) Subareas A and D

(1) #Street wall# location

The #street wall# location provisions set forth in paragraph (a) of this Section shall apply, except that for #zoning lots# with #wide# and #narrow street# frontage, no #street wall# is required beyond 50 feet of a #wide street#.

However, in Subarea D, for #buildings# that do not include towers as set forth in paragraph (b)(3) of this Section, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front . In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within ten feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.

(2) Setback provisions

The setback provisions for portions of #buildings# above the maximum base height set forth in paragraph (a) of this Section shall not apply. In lieu thereof, no portion of a #building or other structure# that exceeds the applicable maximum base height shall penetrate a #sky exposure plane# that begins above the #street line# at the maximum base height and rises over the #zoning lot# at a ratio of 2.7 feet of vertical distance to one foot of horizontal distance on a #narrow street#; and 5.6 feet of vertical distance to one foot of horizontal distance on a #wide street#.

(3) Tower provisions

Any #building#, or portion thereof, which in the aggregate occupies not more than 40 percent of the #lot area# of the #zoning lot# and penetrates the #sky exposure planes# set forth in paragraph (b)(2) of this Section is hereinafter referred to as a "tower". Such towers are permitted provided they are set back at least 10 feet from a #wide street line# and at least 15 feet from a #narrow street line#, and provided no other portion of the #building# exceeds the applicable maximum base height. In addition, the following rules shall apply:

(i) For #zoning lots# with less than 20,000 square feet of #lot area#, such tower may occupy more than 40 percent of the #lot area# of the #zoning lot# in accordance with the provisions of Section 33-454 (Towers on small lots).

(ii) Any #story# within the highest 40 feet of such tower (the penthouse portion), shall not exceed 85 percent of the gross area of the highest #story# directly below such penthouse portion

(iii) In Subarea A, such tower shall occupy at least 30 percent of the #lot area# of the #zoning lot#, except that such minimum #lot coverage# requirement shall be reduced to 25 percent above a height of 220 feet. However, no minimum #lot area# requirement shall apply to the highest four #stories# or 40 feet of such #building#, whichever is less.

(iv) In Subarea A, the maximum length of any #story# located above a height of 220 feet shall not exceed 150 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above a height of 220 feet. Any side of such rectangle shall not exceed 150 feet.

(v) In Subarea A, for any #zoning lot# with more than 75 feet of #narrow street# frontage in which a #side lot line# is located within an area bounded by a line 200 feet east of and parallel to Eleventh Avenue and a line 410 feet east of and parallel to Eleventh Avenue, no tower portion of a #building# shall be located closer than 25 feet to such #side lot lines#.

(vi) In Subarea D, the maximum #building# height shall be 220 feet, and the maximum length of any #story# located above the maximum base height shall not exceed 150 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# wholly or partially above the maximum base height. Any side of such rectangle shall not exceed 150 feet. However, for #zoning lots# that occupy the entire Eleventh Avenue #block# front, a portion of the #street wall# may rise above the maximum base height without setback from Eleventh Avenue provided the aggregate width of the Eleventh Avenue #street wall# does not exceed 100 feet.

(c) Subareas C, F and G

In Subareas C, F and G, for #zoning lots# with wide and narrow street frontage, no #street wall# is required beyond 50 feet of a wide street.

Furthermore, for any #development# or #enlargement# that occupies at least one corner of the Tenth Avenue #block# front and extends along the Tenth Avenue frontage of the #zoning lot# for at least 170 feet, exclusive of existing #buildings# to remain, a lowered #street wall# shall be provided for any #building# that exceeds 45 feet in height. Such lowered #street wall# shall have a maximum height of 45 feet and a minimum height of 35 feet and extend along the Tenth Avenue frontage for a width not less than 25 percent and not more than 30 percent of the #aggregate width of street walls# facing Tenth Avenue. Such lowered #street wall# portion of the Tenth Avenue frontage shall be located at the intersection of Tenth Avenue and a #narrow street#. Such lowered #street wall# shall extend along such #narrow street line# for a distance of at least 50 feet from Tenth Avenue. Beyond 50 feet of Tenth Avenue, excluding the #High Line frontage# of a #building#, such portion of the #building# shall not exceed a height of 45 feet.

The provisions of this Section, relating to the location and height of the lowered #street wall# portion of the Tenth Avenue frontage of a #development# are illustrated in Diagram 1 (Street Wall and #High Line# Frontage Regulations in Subareas C, F and G), in Appendix C of this Chapter.

(d) Subarea E

The #street wall# location provisions set forth in paragraph (a) shall not apply to any #development# or #enlargement# on a #zoning lot# fronting on West 18th Street and located partially in Subareas D, E and G, where #floor area# has been transferred pursuant to Section 98-24. A maximum of 60 percent of the West 18th Street frontage within Subarea E may rise without setback to a maximum #building# height of 250 feet and a minimum of 20 percent of the West 18th Street frontage within Subarea E shall rise without setback to a minimum height of 60 feet and a maximum height of 85 feet and be located within 10 feet of the #street line#.

(e) Subarea H

No #building or other structure# shall be located east of the #High Line#.

No portion of a #building or other structure# shall exceed a height of 85 feet except for two #buildings#, or portions of #buildings#, hereinafter referred to as Tower East and Tower West. At or above the base height, both such towers shall be set back at least 10 feet from any #street wall# facing a #wide street# and at least 15 feet from any #street wall# facing a #narrow street#. Such set backs shall be provided at a height not lower than 60 feet, except that such set backs may be provided at a height not lower than 40 feet, provided at least 65 percent of the #aggregate width of street walls# facing #narrow streets# and at least 60 percent of the #aggregate width of street walls# facing #wide streets# have a minimum base height of 60 feet. Tower East shall be located in its entirety within 240 feet of the Tenth Avenue #street line#, and Tower West shall be located in its entirety within 200 feet of the Eleventh Avenue #street line#. Neither tower shall exceed a height of 280 feet.

A maximum of 50 percent of the #street wall# of Tower West may rise without setback from a #narrow street line#. Such portion of the #street wall# shall be located a minimum of 15 feet and a maximum of 20 feet from the #narrow street line#.

(f) Subarea I

In that portion of Subarea I located within 300 feet of Tenth Avenue between West 16th Street and West 17th Street, the #street wall# location provisions set forth in paragraph (a) shall not apply along Tenth Avenue, as illustrated in Diagram 5 (Subarea H Requirements), of Appendix C of this Chapter, but shall apply along a minimum of 85 percent of the West 16th Street and West 17th Street frontages. No portion of a #building or other structure# located within 300 feet of Tenth Avenue shall exceed a height of 120 feet, except for one #building# which may have a height not to exceed 220 feet provided such #building# is located in its entirety within 90 feet of West 17th Street and has a length that does not exceed 175 feet when measured parallel to the West 17th Street #street line#.

In all other portions of Subarea I, the provisions of paragraph (a) shall apply.

TABLE A
Minimum and Maximum Base Height and Maximum Building Height by District or Subarea

District or Subarea	Minimum Base Height (in feet)	Maximum Base Height (in feet)	Maximum Building Height (in feet)
C6-2A	60	85	120
C6-3A	60	102	145
A within 100 feet of a #wide street#	60	85	See paragraph (b)
A beyond 100 feet of #wide street#	40	60	See paragraph (b)
B, M1-5	60	95	135
C for #zoning lots# with only #narrow street# frontage	60	110	110
C for #zoning lots# with Tenth Avenue frontage	105	125	125
	See paragraph (c)	See paragraph (c)	See paragraph (c)
C for #zoning lots# with Eleventh Avenue frontage	125	145	145
	See paragraph (c)	See paragraph (c)	See paragraph (c)

98-424
Authorization to modify height and setback regulations

The City Planning Commission may authorize the modification of height and setback regulations set forth in Section 98-40 and 98-50, inclusive, and the transparency requirements set forth in Sections 98-141 and 98-54 for that portion of any #development# or #enlargement# located within 40 feet of the #High Line#. The Commission shall find that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public areas.

The Commission may prescribe appropriate conditions and safeguards to enhance the character of the surrounding area.

98-43
Special Distance Between Buildings Regulations

The provisions of Section 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) shall not apply.

98-50
SPECIAL HEIGHT AND SETBACK, OPEN AREA AND TRANSPARENCY REGULATIONS FOR ZONING LOTS WITHIN OR ADJACENT TO THE HIGH LINE TRANSFER CORRIDOR

98-51
Height and Setback Regulations on the East Side of the High Line

(a) Subarea A

At least 60 percent of the aggregate length of the eastern #High Line frontage# of a #building# shall set back at the level of the #High Line bed#. Not more than 40 percent of the aggregate length of such #High Line frontage# may rise above the level of the #High Line bed#. No portion of such #High Line frontage# shall exceed a maximum height of 20 feet above the level of the #High Line bed#, as illustrated in Diagram 2 (Street Wall and #High Line# Frontage Regulations in Subarea A) in Appendix C, of this Chapter.

(b) In C6-3A Districts, and in Subareas C, F and G

For #zoning lots# extending less than 120 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of a #building# shall exceed a height of 3 feet 6 inches above the level of the #High Line bed#.

For #zoning lots# that extend for at least 120 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of the #building# shall exceed a height of 3 feet 6 inches above the level of the #High Line bed#, except that a maximum of 40 percent of such #High Line frontage# may rise without setback above a height of 3 feet 6 inches above the level of the #High Line bed# provided such portion of the #building# is not located directly between the #High Line# and any #street wall# of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (a) (Subareas C, F and I) of Section 98-441 (Street wall location and minimum base heights).

However, the provisions of this paragraph (b) shall not apply to any #zoning lot# existing on (the effective date of amendment) where the greatest distance between the eastern side of the #High Line# and a #side lot line# east of the #High Line# is 35 feet when measured parallel to the nearest #narrow street line#.

98-52
Height and Setback Regulations on West Side of High Line

In C6-2A, C6-3A and M1-5 Districts, and in Subareas A, B and E, no portion of the western #High Line frontage# of a #building# shall exceed a height of 3 feet 6 inches above the level of the #High Line bed#.

98-53
Required Open Areas on the East Side of the High Line

At least 20 percent of the #lot area# of any #development# or #enlargement# on a #zoning lot#, or portion thereof, within C6-3A Districts or within Subareas A, C, F or G and over which the #High Line# passes or adjacent to a #zoning lot# over which the #High Line# passes, shall be landscaped open area, pursuant to the requirements of paragraph (a) (Open area requirements), and (b)(Permitted obstructions) of this Section. Such open area shall be located directly adjacent to the #High Line# with its longest side adjacent to the #High Line# and shall be located at an elevation not to exceed a height of 3 feet 6 inches above the level of the #High Line bed# adjacent to the #zoning lot#. At no point shall such open area be located within 50 feet of Tenth Avenue.

(a) Open area requirements

All required open areas shall:

(1) have no portion used as a driveway, vehicular access way or for parking, and shall be screened from off-street loading and service areas;
(2) be landscaped with shrubs, vines, flowers, ground cover, trees, and/or plants in planters over a minimum of 25 percent of the required open area;
(3) be maintained by the building owner who shall be responsible for the maintenance of the open area including, but not limited to, the repair of all amenities, litter control and the care and replacement of vegetation within the zoning lot; and
(4) have all mechanical equipment which is located at the same elevation as the open area, or within 15 feet of the level of the open area, screened and buffered with no intake or exhaust fans facing directly onto the required open area.
(5) Open area screening

Required open area provided at the level of the #High Line bed# may be screened and/or separated from the public areas of the #High Line# by a wall, fence, or plantings extending not higher than 8 feet above the average elevation of the #High Line bed#. Non-vegetated screening materials must be substantially transparent. For the purposes of this Section, a substantially transparent screening is defined as transparent, or non-opaque, in an evenly distributed fashion for at least 75 percent of its

area. Chain link fences shall not be a permitted screening material. Vegetated screening, such as shrubs, vines, and other plantings, may be completely covered by vegetation and opaque, provided that any underlying surface is substantially transparent.
In addition, such screening material shall be maintained in good condition at all times, may be interrupted by normal entrances and/or exits, and shall have no signs hung or attached thereto, other than those permitted in Section 98-16 (Signs).

(b) Permitted obstruction

(1) Any #High Line# access structure, providing pedestrian access to the #High Line#, by stairway or elevator, may be located within such required open area;
(2) The provisions of paragraph (g)(1) (Permitted obstructions) of Section 37-04 (Requirements for Urban Plazas) shall apply; and
(3) Open air cafes and kiosks may be located in such required open area. Open air cafes may occupy in the aggregate no more than 75 percent of such required open area.

98-54
Transparency Requirements on the East Side of the High Line
The transparency requirements of this Section shall apply to the #High Line frontage# portion of #developments# and #enlargements# located in C6-3A Districts and within Subareas A, C, F and G except for such portions that contain #dwelling units#. At least 50 percent of the area of such frontage, to be measured from a point not lower than four feet and not higher than eight feet above the level of the #High Line bed# shall be glazed and transparent and at least 75 percent of such glazed surface shall be fully transparent.

98-55
Requirements for Non-Transparent Surfaces on the East Side of the High Line
Any portion of such #High Line frontage# that is 40 feet or more in length and contains no transparent element between the level of the #High Line bed# and an elevation of twelve (12) feet above the level of the #High Line bed#, shall be planted with vines or other plantings or contain artwork. Such elements shall substantially cover the applicable non-transparent portion of the #High Line frontage#.

98-60
SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS

98-61
High Line Access Easement Volume Requirement
For all #developments# or #enlargements# within the Special West Chelsea District, an easement volume to facilitate public pedestrian access to the #High Line# via stairway and elevator (hereinafter referred to as "primary access"), shall be provided on any #zoning lot# over which the #High Line# passes that, on or after (the date of referral of zoning text amendment) has more than 5,000 square feet of #lot area#.
In the #High Line Transfer Corridor#, an easement volume to facilitate public pedestrian access to the #High Line# via stairway (hereinafter referred to as "secondary access"), shall be provided on any #zoning lot# from which #floor area has been transferred pursuant to Section 98-33 unless a primary access easement has been provided pursuant to this Section 98-61.
However, a primary access easement shall not be required if a primary access easement is already provided on the same #block# and a secondary access easement shall not be required if a primary or secondary access easement has already been provided on the same #block#. Furthermore, primary and/or secondary access easements shall not be required where the Chairperson of the City Planning Commission certifies that:
(1) the minimum dimensions required for the access easement volume pursuant to paragraph (a) of Section 98-62 cannot be accommodated within 33 feet six inches of a #street line# for primary access easements and 40 feet of a #street line# for secondary access easements; or
(2) in the case of a primary easement, a secondary easement is already provided on the same #zoning lot# and such easement is sufficient in size or has been enlarged to be sufficient in size to accommodate the provisions for primary access easements as specified in Section 98-62; or
(3) for primary or secondary easements, access has already been constructed on the same block or on the same street frontage and that such access meets the location and access requirements for primary or secondary access easements, as specified in Section 98-62(a) and (b) and meets all standards, as applicable, for persons with disabilities; or
(4) for primary or secondary easements, construction documents for the #High Line# open space have been developed that specify the opposite side of the same street frontage as an access location.

98-62
High Line Access Easement Regulations
The provisions of this Section shall apply to any #zoning lot# providing an access easement volume, as follows:
(a) Location and Minimum Dimensions

(1) Primary access easement volume
A primary access easement volume may be located within a #building# or within open areas on the #zoning lot#, including open areas required pursuant to Section 98-53 (Required Open Areas on the East Side of the High Line), provided such volume is within 15 feet of a #narrow street line#. The minimum length of such volume shall be 18 feet six inches and the minimum width shall be ten feet; however, the minimum area of such volume shall be 350 square feet. The height of such volume shall extend from a point at least ten feet below #curb level# to a point at least 15 feet above the level of the #High Line bed#. A primary access easement volume may also replace a previously provided secondary access easement volume, and such secondary access easement volume may be terminated pursuant to Section 98-64. Such minimum dimensions are illustrated in Diagram 6 (#High Line# Access Easement Volume Parameters) of Appendix C of this Chapter.
(2) Secondary access easement volume
A secondary access easement volume shall be located within 15 feet of a #narrow street line# and directly adjacent to the #High Line# for a minimum length of 25 feet. Such volume shall have a minimum width of ten feet. The height of such volume shall extend from #curb level# to a point at least ten feet above the level of the #high Line bed#.

(b) Access

All access easement volumes shall be accessible either directly from a public sidewalk or through a publicly traversable way through the #zoning lot# directly connecting with a public sidewalk. Such publicly traversable way shall meet the following requirements:

(1) The required width of the publicly traversable way shall be a minimum of eight feet.

(2) No portion of the publicly traversable way shall be interrupted or occupied by an off-street parking or loading area.

(3) The access easement volume shall be visible from the public sidewalk or the publicly traversable way.

(4) The publicly traversable way shall be maintained by the property owner in good repair.
(5) The publicly traversable way shall be fully accessible to persons with disabilities.

(6) The publicly traversable way shall be open and accessible to the public at all times when a stairway and/or elevator located within the associated access easement volume is open and accessible to the public.

(c) Permitted obstructions
Any access structure within the access easement volume, or any weather protection provided by an overhang or roofed area over such access easement volume, accessory to the access structure, shall be considered permitted obstructions within required #yards# or open areas.

(d) Permitted #uses#
An access easement volume required on a #zoning lot# pursuant to the provisions of this Chapter may be temporarily used by the owner of such #zoning lot# for any permitted #use# until such time as required by the City of New York or its designee for access purposes. Such permitted use shall be limited to non-residential #uses# where such access easement volume is within a #building#. Where such access easement volume is within an open area, such area shall be landscaped, or may be improved in accordance with the provisions of sub-paragraphs (g)(1), (g)(2) and (g)(3) (Permitted obstructions), of Section 37-04 (Requirements for Urban Plazas), except that in the case of open air cafes and kiosks the provisions of paragraph (g) (3) shall be modified as follows: a certification shall not be required pursuant to paragraphs (g)(5) and (g)(6).
Improvements or construction of a temporary nature within the easement volume shall be removed by the owner of such #zoning lot# prior to the time at which public use of the easement areas is required. A minimum notice of six months in writing shall be given by the City of New York or its designee to the owner of the #zoning lot#, in order to vacate the tenants of such temporary #uses#.

(e) Legally Required Windows
The minimum distance between any legally required window in a portion of a #building# used for #residential use# and an access easement volume shall be 30 feet, measured in a horizontal plane at the sill level of, and perpendicular to, such window for the full width of the rough window opening.

98-63
Recording of High Line Access Easement Volume
An instrument in a form acceptable to the Department of City Planning creating a #High Line# access easement volume shall be recorded in the Office of the City Register; a certified copy of which shall be submitted to the Department of City Planning.
Notice by the Department of City Planning of its receipt of a certified copy of an instrument establishing any access easements required pursuant to this Chapter shall be a precondition to issuance by the Commissioner of Buildings of any building permits including any foundation or alteration permit for any #development# of #enlargement# on a site pursuant to Section 98-60 for primary access easements. Receipt of a certified copy of an instrument creating a secondary access easement shall be provided in conjunction with notification, pursuant to Section 98-33(a).

98-64
Termination of High Line Access Easement Volume
In the event that the City Planning Commission notifies the Department of Buildings and the owner in writing that a #High Line# access easement volume is not required on a #zoning lot# under the final construction plans for the restoration and reuse of the #High Line# as an accessible, public open space, the restrictions imposed on such #zoning lot# by the provisions of Section 98-61 (High Line Access Easement Volume Requirement) shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the City Planning Commission to the extinguishment of the easement volume. On termination of the #High Line# access easement volume requirement which has been certified pursuant to this Section, any area reserved for such easement within a #building or other structure# may be used for any #use# permitted pursuant to the provisions of this Chapter and such area shall not be considered #floor area#; and any open area reserved for such easement shall be maintained as an open area and shall be subject to the open area requirements of Section 98-53 (Required Open Areas on the East Side of the High Line).

APPENDIX D
Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea H
This Appendix sets forth additional requirements governing #zoning lots# located within Subarea H between West 17th and 18th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to subparagraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to subparagraph (b) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean "parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10.

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25
(1) As a condition of issuance of a building permit under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix D, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22;
(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and use of the At-Grade Plaza and the stairway and elevator that will provide access to the #High Line#, as shown in Diagram 3 of Appendix C, such easement area for the At-Grade Plaza to include the entire area of the #zoning lot# east of the #High Line# and such easement area as it relates to such stairway and elevator to be at least 2,500 square feet and in a location and configuration acceptable to the City; access for the potential performance by the City of work under the provisions set forth below; and maintenance and repair of the stairway and elevator . Such declaration shall incorporate by reference the maintenance and operating agreement referred to in paragraph (iii) below; and
(iii) Owner shall execute a maintenance and operating agreement for the At-Grade Plaza,

The easements and agreement described herein shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (b).

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot# and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement by Owner, approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the contribution to the #High Line# Improvement. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) The location of #floor area# which would exceed the basic maximum #floor area ratio# and be subject to the provisions of Section 98-25 shall be considered to be the topmost portion of the #development# or #enlargement# unless, at the time of certification pursuant to Section 98-25, paragraph (a), Owner designates, subject to the concurrence of the Chairperson of the City Planning Commission, an alternate location.

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (b) of Section 98-25

(1) Structural Remediation Work Under Paragraph (b)(2) of Section 98-25
(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner may exercise such option following receipt of the City's specifications for the Structural Remediation Work or upon the City's failure to provide such specifications, as set forth in paragraphs (iv) and (v) below (unless such dates are extended by mutual agreement of the City and Owner, but in no event may exercise such option later than 90 days following receipt of a notice by the City of its intent to commence improvements to the #High Line# within the #High Line# improvement area applicable to the #zoning lot# within the next twenty-four months. In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner , as applicable, for any excess from or against the #High Line# Improvement Fund. In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (b)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of any temporary certificate of occupancy, and of final completion with respect to issuance of any final certificate of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above , at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to public view versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead-based products in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the

rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City ;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including , but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below-grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) Subject to the Not-To-Exceed Limit set forth in section (c) of this Appendix, if Owner exercises the option to perform the Structural Remediation Work, it shall reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone).

(iv) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to delays outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(v) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following the (effective date of amendment) or of the date of exercise of such option, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control and, in addition, for any time during which Owner is unable to gain access in order to perform the Structural Remediation Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application). .

(vi) In the event that the City does not provide the specifications for the Structural Remediation Work, within the timeframe set forth in paragraph (iv) of this section, Owner may exercise the option to perform such work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays as described in paragraph (v) above, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(2) AtGrade Plaza Work Under Section 98-25 (b)(3)

(i) Owner shall perform At-Grade Plaza Work within the area on the #zoning lot# shown in Diagram 3 of Appendix C. For any temporary certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of substantial completion of the At-Grade Plaza Work (i.e., the At-Grade Plaza shall be open and accessible to the public). For any permanent certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of final completion of the At-Grade Plaza Work. Substantial completion of the At-Grade Plaza Work shall also require execution by all parties-in-interest of the declarations, easements and maintenance and operating agreement described in paragraph (a) of Section (1) of this Appendix, if not previously provided in connection with issuance of a building permit.

(ii) At-Grade Plaza Work shall include, but not be limited to:

(a) remediation work; and

(b) all paving, plantings, surface treatments, lighting, trees, seating, fountains and other site amenities; and

(c) infrastructure work, including conduits, drainage, water line, electrical connections, and other utility work serving the At-Grade Plaza.

(iii) The At-Grade Plaza Work shall be performed by Owner pursuant to construction documents provided by the City by September 30, 2006, subject to delays outside the reasonable control of the City (including, without limitation, litigation, but such delays shall not exceed more than 180 days), and to such extension as the City and Owner may mutually agree. The At-Grade Plaza Work shall be completed within one year following the later of the (effective date of amendment) or the receipt of such documents, subject to reasonable extension for any delays beyond Owner's reasonable control and to such extension as the City and Owner may mutually agree, and, in addition, for any time during which Owner is unable to gain access in order to perform the At-Grade Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application), or for any time needed to perform any necessary remediation work on the #zoning lot#.

(iv) In no event shall Owner be required to complete the At-Grade Plaza Work until the #High Line# improvements within the portion of the #High Line# Improvement Area adjacent to the #zoning lot# (and, as applicable, over such Improvement Area, as shown on Diagram 3 of Appendix C, are substantially complete (i.e., open to the public but for the work needed to complete the At-Grade Plaza Work). Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (b)(3), until the Chairperson determines that the At-Grade Plaza Work is substantially complete.

(v) The cost to Owner of the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) shall not exceed $2,300,000 The amount of contribution to the #High Line# Improvement Fund under subdivision a of section 1 of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such amount at the time it is made. In addition to the costs of the At-Grade Plaza Work, subject to the Not-To-Exceed Limit set forth section (c) of this Appendix, Owner shall be required to reimburse the City for:

(a) the reasonable cost of developing the plans and construction documents for the At-Grade Plaza Work; and

(b) the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the At- Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(vi) In the event that construction documents for the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) are not delivered to Owner within the timeframe set forth in paragraph 3 of this subsection, Owner shall not be required to perform the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) consistent with such documents. Instead, Owner shall perform Alternate At-Grade Plaza Work which shall include all necessary remediation work, all necessary below-grade work (including related infrastructure work necessary to support the #High Line#), and at-grade improvements pursuant to the standards set forth in Section 37-04, paragraphs (g) through (n) of the Zoning Resolution, except that open-air cafes and kiosks shall not be permitted. Permitted obstructions, whether as described in the City's Specifications for the At-Grade Plaza Work or as specified in Section 37-04, paragraph (g), for the Alternate At-Grade Plaza Work, shall not count towards # lot coverage#.

(vii) The cost to the Owner of the Alternate At-Grade Plaza Work shall not exceed $1,400,000. In addition, Owner shall , subject to the Not-To Exceed Limit of Section (c) of this Appendix, be required to reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Alternate At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(vi) Upon substantial completion of the At-Grade Plaza and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4): Owner shall provide the City with the declarations, easements and maintenance and operating agreement described in subsection a of section 1 of this Appendix ,if not already provided in connection with the issuance of a building permit; such At-Grade Plaza shall be open and accessible to the public during at least the same hours during which the #High Line# is open and accessible to the public, subject to the terms of the maintenance and operating agreement; and Owner shall maintain the At-Grade Plaza pursuant to the terms of the maintenance and operating agreement.

(3) Stairway and Elevator Access Work Under Paragraph (b)(4) of Section 98-25

(i) Except as provided in subparagraph (iii) of this paragraph, Owner shall perform Stairway and Elevator Access Work within the At-Grade Plaza area as shown in Diagram 3 of Appendix C in conjunction with performance of the At-Grade Plaza Work. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (b)(4), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification pursuant to such Section shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator, shall be included in the construction drawings for the At-Grade Plaza Work described above, and shall be performed by Owner within the time period for performance of the At-Grade Plaza Work described in subsection c of this section. The location for the stairway and elevator shall take into account the viability of any retail spaces fronting the At-Grade Plaza.

(iii) Owner shall not be responsible for performance of the Stairway and Elevator Access Work where it performs the Alternate At-Grade Plaza Work in accordance with paragraph (b) of this section. In that event, prior to commencing the Alternate At-Grade Plaza Work and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4):

(a) Owner shall deposit into the #High Line# Improvement Fund a contribution of $900,000.00 (the Access Contribution), to be used at the direction of the Chairperson of the City Planning Commission for construction of stairway and elevator facilities on the #zoning lot#; and

(b) Owner shall provide the City with the declarations, easements, and maintenance and operating agreement described in paragraph (1) of Section (a) of this Appendix, if not previously provided in connection with issuance of a building permit.

(4) City Performance of Work In the Event of Failure to Perform

(i) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under Section (a) of this Appendix, Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b) of this Appendix), the At-Grade Plaza Work or Alternate Plaza Work, as applicable, and the Stairway and Elevator Access Work (where required to do so under paragraph (3) of Section (b) of this Appendix), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 3 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(ii) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(a) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total), unless such date is extended by mutual agreement between the City and Owner, for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City; and

(b) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control and , in addition, any time in which Owner is unable to gain access in order to perform the At-Grade Plaza Work or Alternate Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application) or), or for any time during which remediation work is in progress on the #zoning lot#.

(iii) In the event Owner does not comply with the requirements paragraph (4)(ii) of this Section (b):

(a) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(b) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(c) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor any temporary or permanent certificate of occupancy may be issued pursuant to Section 98-25, paragraph (b), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

(c) Reimbursement Not-To- Exceed Limits

Reimbursement of the City by Owner of costs pursuant to this Appendix shall not exceed a total of $450,000.00.

APPENDIX E
Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E, G or I

This Appendix sets forth additional requirements governing #zoning lots# located partially within Subareas D, E and G or within Subarea I between West 16th and 17th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum Floor Area Ratio in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to paragraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to paragraph (c) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean " parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10.

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25

(1) As a condition of certification under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix E, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22; and

(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and from a stairway and elevator on the #zoning lot# that will provide access to the #High Line# and for maintenance and repair by the City of such stairway and elevator; and the potential performance by the City of work under the provisions set forth below. In the case of #zoning lots# between West 16th and 17th streets, Owner shall also provide the City with easements providing for City access to and from and for public use of the #High Line# Service Facilities on the #zoning lot# and for maintenance and repair by the City of such #High Line# Service Facilities. All easements described herein shall be in a form acceptable to the City and shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (c); and

(iii) submit plans for Stairway and Elevator Access Facilities and, where applicable, #High Line# Service Facilities that demonstrate compliance with the provisions of this Appendix and are consistent with New York City Department of Parks and Recreation standards and best practices governing materials life cycle and maintenance for review and approval by the Chairperson of the City Planning Commission.

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot # and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement , approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the #High Line# Improvement Fund contribution to reflect the cost of such improvements. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) The location of #floor area# which would exceed the basic maximum #floor area ratio# and be subject to the provisions of Section 98-25 shall be considered to be the topmost portion of the #development# or #enlargement# unless, at the time of certification pursuant to Section 98-25, paragraph (a), Owner designates, subject to the concurrence of the Chairperson of the City Planning Commission, an alternate location.

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (c) of Section 98-25

(1) Structural Remediation Work Under Paragraph (c)(2) of Section 98-25

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner may exercise such option following receipt of the City's specifications for the Structural Remediation Work or upon the City's failure to provide such specifications, as set forth in paragraphs (iv) and (v) below (unless such dates are extended by mutual agreement of the City and Owner, but in no event may exercise such option later than 90 days following receipt of a notice by the City of its intent to commence improvements to the #High Line# within the #High Line# improvement area applicable to the #zoning lot# within the next twenty-four months. In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 for each square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner, as applicable, for any excess from or against the #High Line# Improvement Fund , In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (c)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of temporary certificates of occupancy, and of final completion with respect to issuance of final certificates of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above, at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life, and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to the public versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead-based products in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including, but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below-grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to such delays as are outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(iv) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following the (effective date of amendment) or of the date of exercise of such option, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control.

(v) In the event that the City does not provide the specifications for the Structural Remediation Work within the timeframe set forth in paragraph (iii) of this subsection, Owner may exercise the option to perform such work and proceed with the Structural Remediation Work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(vi) If Owner exercises the option to perform the Structural Remediation Work, Owner shall reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone), such reimbursement not to exceed $115,000.

(2) Stairway and Elevator Access Work Under Paragraph (c)(3) of Section 98-25

(i) Owner shall perform Stairway and Elevator Access Work subject to the provisions of subparagraph 2 of this paragraph. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(3), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator located directly adjacent to or below the #High Line#. Except as approved by the Chairperson of the City Planning Commission pursuant to paragraph (1)(iii) of Section (a) of this Appendix, #curb level# entrances to such access facilities must be located at the #street line#. Such access facilities shall be harmonious with the design of the #High Line# on the #zoning lot# and shall be visible and identifiable as #High Line# access facilities when viewed from Tenth Avenue. Such access facilities may be unenclosed or enclosed. When such access facilities are enclosed and located at the #street line#, any wall or façade separating the access facility from the #street# shall be substantially glazed and fully transparent from ground level to the full height of the access facility. Any wall or façade separating the access facility from the #High Line# shall be substantially glazed and fully transparent from the level of the #High Line bed# to the full height of the access facility. Stairways shall have a clear path of not less than 6 feet in width. Such access facilities shall be identified with signage placed at the #High Line# level and at street level that is consistent with guidelines specified in the signage plan as authorized by the City Planning Commission pursuant to the provisions of Section 98-16.

(iii) The Stairway and Elevator Access Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the provisions of paragraph (2)(ii) of this Section, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the Stairway and Elevator Access Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(3), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(3) #High Line# Service Facility Work Under Paragraph (c)(4) of Section 98-25

(i) For #zoning lots# located between West 16th and 17th streets, Owner shall perform #High Line# Service Facility Work subject to the provisions of this section. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(4), shall be of substantial completion of the work. For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) #High Line# Service Facilities shall consist of satellite maintenance and operations space for the #High Line# open space as well as public restrooms, in accordance with the following standards:

(a) Location

Such facilities shall have a component located at the level of the #High Line bed#, or within 5 feet of such level (hereinafter referred to as the "upper service facility"). Such facilities shall also have a component located no higher than #curb level# (hereinafter referred to as the "lower service facility"). The upper facility must be located directly above

the lower facility to enable placement of a trash chute connecting the upper and lower facilities. Where the upper facility is not located exactly at the level of the #High Line bed#, a fully accessible ramp must connect such level with the level of the upper facility. Where the lower facility is not located exactly at #curb level#, a means acceptable to the City of connecting the lower service facility to a #street# frontage shall be provided.

(b) Program and dimensions

(1) Lower service facilities
Lower service facilities shall contain a room which is accessible from #street# level and is no less than 50 square feet in area. Such facility shall contain the outlet of a trash chute from the upper service facility and shall also have a minimum of one electrical outlet furnishing a wattage consistent with its intended use within a maintenance and operations facility.

(2) Upper service facilities
Upper service facilities shall be no less than 350 square feet in area and shall contain, at a minimum one public restroom not less than 250 square feet in area with separate restroom spaces for each gender, one storage room not less than 70 square feet in area, and one waste disposal room not less than 30 square feet in area and containing a trash chute to the lower service facility Each room within such upper service facilities shall have a minimum of one electrical outlet furnishing wattage consistent with its intended use within a maintenance and operations facility.

(iii) The #High Line# Facility Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the standards of paragraph (ii) of this subsection, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the #High Line# Facility Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(4), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(v) The cost to Owner of the #High Line# Facilities Work shall not exceed $1,150,000. The amount of contribution to the #High Line# Improvement Fund under paragraph (1) of Section (a) of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such at the time it is made. .

(c) City Performance in the Event of Failure to Perform

(1) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under paragraph (1) of Section (a) of this Appendix), Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b)) and the Stairway and Elevator Access Work (under paragraph (3) of Section (b)), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above, as applicable, has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(2) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(i) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total) for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City, unless such date is extended by mutual agreement between the City and Owner; and

(ii) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control

(3) In the event Owner does not comply with the requirements of paragraph (2) above:

(i) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(ii) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(iii) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor may any temporary or permanent certificates of occupancy may be issued pursuant to Section 98-25, paragraph (d), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

MARKETING DEVELOPMENT CORPORATION

■ JOINT PUBLIC HEARING

NOTICE OF A JOINT PUBLIC HEARING between the Franchise and Concession Review Committee ("FCRC") and NYC Marketing Development Corporation on behalf of the Department of Small Business Services to be held on Monday, April 11, 2005 at Spector Hall, 22 Reade Street, Main Floor, Borough of Manhattan, commencing at 10:00 a.m. relative to:

NYC Marketing Development Corporation's application on behalf of the Department of Small Business Services to utilize different procedures (i.e., a sole source concession), pursuant to Section 1-13 of the Concession rules to implement a concession with The History Channel. NYC Marketing Development Corporation will seek the FCRC's approval at their April 13th meeting for both the use of different procedures and approval of the proposed concession.

This partnership is non-exclusive and NYC Marketing Development Corporation entering into such a partnership on behalf of the City does not preclude either NYC Marketing Development Corporation or the City from entering into a similar partnership in the future.

Term: The term of the agreement is for the period commencing August 26, 2004 and shall expire on February 13, 2008.

The agreement includes two (2) proposed concessions involving the use of intellectual property, both of which are related to the New York City's Official History Center (NYCOHC) (a city owned tourism information center):

1. The designation of certain historically themed tours of New York City that will be planned and/or mapped by The History Channel, as "New York City's Official History Tours".

2. The designation of "New York City's Official History Trolley" in connection with NYC Marketing Development Corporation's efforts to promote historical tourism to New York City and the new City-owned and operated NYCOHC. It is intended that New York City's Official History Trolley will be a parade type float for use in local events and parades.

The value of the two (2) concessions in this agreement involving the use of the City's intellectual property is estimated to be $2.25M in advertising time on the History Channel networks (comprised of time for 30-second commercials, not cash), plus the economic impact created by the marketing and promotion of the tours as well as the exposure of the parade type float. The City will be highlighted as a tourism attraction and this will presumably drive tourists to New York.

A copy of the agreement is available for viewing Monday through Friday beginning on March 17, 2005 and ending on April 11, 2005 at the offices of NYC Marketing Development Corporation, 1 Liberty Plaza, 33rd Floor, New York, NY 10006 between the hours of 9:00 a.m. and 5:00 p.m.

m17-a11

OFF-TRACK BETTING

■ PUBLIC MEETING

NOTICE IS HEREBY GIVEN that the next New York City Off-Track Betting Board of Directors meeting is scheduled for Tuesday, April 12th, 2005 at 10:00 a.m. in the 11th Floor Conference Room at Corporate Headquarters at 1501 Broadway, New York, NY 10036.

PARKS AND RECREATION

■ JOINT PUBLIC HEARING

NOTICE OF A JOINT PUBLIC HEARING between the Franchise and Concession Review Committee and the Department of Parks and Recreation to be held on Monday, April 11, 2005 at Spector Hall, 22 Reade Street, Main Floor, Borough of Manhattan, commencing at 10:00 a.m. relative to:

INTENT TO AWARD as a concession the operation and maintenance of a full-service marina at Mill Basin, Brooklyn, for a license term of twelve (12) years, to Donato DiMeglio, 2239 E. 73rd St., Brooklyn, NY 11234.

Amount - Year 1: $88,343 versus 35% of gross revenue
Year 2: $92,761 versus 35% of gross revenue
Year 3: $97,399 versus 35% of gross revenue
Year 4: $102,269 versus 35% of gross revenue
Year 5: $107,382 versus 35% of gross revenue
Year 6: $112,752 versus 35% of gross revenue
Year 7: $118,390 versus 35% of gross revenue
Year 8: $124,310 versus 35% of gross revenue
Year 9: $130,526 versus 35% of gross revenue
Year 10: $137,052 versus 35% of gross revenue
Year 11: $143,905 versus 35% of gross revenue
Year 12: $151,100 versus 35% of gross revenue

* In addition, the concessionaire will pay 15% of annual gross receipts that exceed $400,000.

LOCATION B166-D-M

Interested parties may review a copy of the proposed license agreement in Room 313 at the Arsenal, Central Park, 830 Fifth Avenue, NY, NY 10021 on Friday, March 18, 2005 through Monday, April 11, 2005, exclusive of Saturdays, Sundays and holidays.

TELECOMMUNICATION DEVICE FOR THE DEAF (TDD) 1 800-281-5722.

■ **SOLICITATIONS**

Human / Client Service

HRA WORKS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 06905H051200 – DUE 06-01-05 AT 2:00 P.M. – The Human Resources Administration is seeking appropriately qualified vendors to provide services, directly and/or indirectly through one or more subcontractors that prevent the need for public assistance and prepare employable individuals to successfully transition from welfare to work and remain self-sufficient. Programs must focus on preparing participants for work, job placement, job retention and career advancement.

The Pre-Proposal Conference will take place on April 19, 2005 at 10:30 A.M. - 12:30 P.M., 1 Centre Street (Northside), Mezzanine Level, New York, New York 10038.

Attendance at the conference by proposing vendors is optional but strongly recommended by the Agency. Space constraints limit attendance to two (2) persons per proposing organization. Potential proposers should pre-register by calling (212) 331-4831 by close of business on April 18, 2005. Please leave adequate time to go through security at the site at the Pre-Proposal Conference.
The Vendor Source ID number is 24418.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.
Human Resources Administration, 180 Water Street
14th Floor, Room 1424, New York, NY 10038.

SUPPORTIVE HOUSING FOR ADULTS WITH SERIOUS AND PERSISTENT MENTAL ILLNESS (SPMI) – Request for Proposals – PIN# 816RFP060001 – DUE 08-15-06 AT 3:00 P.M. – The New York City Department of Health and Mental Hygiene (DOHMH) is issuing an RFP to establish citywide Supportive Housing of 700 units in newly constructed or rehabilitated single site buildings with studio apartments for homeless adults diagnosed with serious and persistent mental illness (SPMI). The subject RFP will be open ended and proposals will be accepted on an on-going basis. As a minimum qualification requirement, proposers must be incorporated as not-for-profit organization.

Beginning on February 28, 2005 RFPs may be picked up in person at Room 806A, 93 Worth Street, New York City between the hours of 10:00 AM and 4:00 PM on business days. The RFP is also available on line at: http://www.nyc.gov/html/doh/html/acco/acco-rfp-mh-20050211-housing-form.html . A Pre-Proposal Conference will be held at 10:00 AM on March 10, 2005 at 2 Lafayette St., 18th Floor Conference Room, New York City. An additional Pre-Proposal Conference will be held at 10:00 AM on July 12, 2005 at 2 Lafayette St., 18th Floor Conference Room, New York City. Proposals will be accepted on an on-going basis and must be hand delivered to the Department`s Office of the Agency Chief Contracting Officer, Room 812, 93 Worth Street, New York City on any business day exclusive of holidays between the hours of 10:00 A.M. and 3:00 P.M.

OFFICE OF CONTRACTS AND PROCUREMENT

■ SOLICITATIONS

Human / Client Service

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP.

Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.
Department of Homeless Services, 33 Beaver St., 13th Fl., New York, NY 10004. John Iaffaldano (212) 361-8435, jiaffald@dhs.nyc.gov

JUVENILE JUSTICE

■ SOLICITATIONS

Human / Client Service

NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 08-28-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew.

Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. If a vendor is interested in being considered for award of a contract described above, please hand deliver a written expression of interest addressed to Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 pursuant to the terms of the solicitation document.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.
Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013. Harry T. Bavaro-324 (212) 925-7779 hbavaro@djj.nyc.gov

GENCOMP APPLICATIONS WINDOWS UPGRADE – Sole Source – Available only from a single source - PIN# 02505XMIS058 – DUE 04-21-05 AT 5:00 P.M. – The New York City Law Department intends to enter into sole source negotiations with StrataCare, Inc. ("StrataCare") for provision of GenCOMP Applications Windows Upgrade for the Workers Compensation Claims Processing System. GenSource Corp. was the original sole owner of GenCOMP Software and developer of the Claims Processing System. StrataCare purchase the assests of GenSource as of April 13, 2004. Currently, the System runs on an IBM R/S 6000 minicomputer platform using legacy character products. GenCOMP for Windows is a full-featured software application for managing and administering workers compensation insurance programs. The GenCOMP for Windows upgrade agreement shall provide all system software, installation, on-site training, travel expenses, and maintenance. GenCOMP for Windows is solely owned, deployed, and supported by StrataCare. StrataCare is therefore the sole source provider for the GenCOMP Applications Windows Upgrade. Any firm which believes it can provide the above-referenced goods and services is invited to do so indicated by letter, which must be received no later than the vendor response date indicated in this notice.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

OFFICE OF THE CRIMINAL JUSTICE COORDINATOR

PUBLIC HEARINGS

CANCELLATION OF PUBLIC HEARING

NOTICE IS HEREBY GIVEN that a Contract Public Hearing will be held on Thursday, April 7, 2005, **at 110 William Street, 4th Floor-Conference Room 4A, Borough of Manhattan. (Identification must be provided to gain entry into the building)** commencing at 10:00 a.m. on the following:

IN THE MATTER OF a proposed contract between the Criminal Justice Coordinator's Office and the HOPE Program, located at One Smith Street, Brooklyn, NY 11201, for the provision of Alternative to Incarceration services for parolees arrested on misdemeanor charges in Kings County. The contract term shall be from July 1, 2005 to June 30, 2007. There shall be two renewal options, each for a two-year term, at the discretion of the City, from July 1, 2007 to June 30, 2009 and from July 1, 2009 to June 30, 2011. The contract shall be in an amount not to exceed $320,940.
PIN #: 00206DMPS403.

The proposed contractor has been selected by means of Competitive Sealed Proposal, pursuant to Section 3-03 of the Procurement Policy Board Rules.

A draft copy the proposed contract shall be available for inspection by members of the public at the Office of Criminal Justice Coordinator, at One Centre Street, Room 1012N, New York, NY 10007, from March 25, 2005 to April 7, 2005, excluding Saturdays, Sundays and Holidays, during the hours of 9:00 a.m. and 12:00 p.m. and 2:00 p.m. and 4:00 p.m.

Anyone who wishes to speak at this Public Hearing should request to do so in writing. The written request must be received by the Criminal Justice Coordinator's Office within five (5) business days after publication of this notice. Written requests to speak should be sent to Monique D. Davis, Criminal Justice Coordinator's Office, One Centre Street, Room 1012 North, New York, New York 10007. If the Criminal Justice Coordinator's Office receives no written request to speak within the prescribed time, the office reserves the right not to conduct a Public Hearing.

IN THE MATTER of two (2) proposed contracts between the Criminal Justice Coordinator's Office and the contractors listed below, for the provision of Earned Income Tax Credit legal services. The contract term shall be from July 1, 2004 to June 30, 2005. There shall be no options to renew.

1. The Legal Aid Society
   199 Water Street, New York, NY 10038
Amount: $357,500 PIN: 00205DMPS381

2. Legal Services for New York City
   350 Broadway, 6th Floor, New York, NY 10013
Amount: $357,500 PIN: 00205MPS382

The proposed contractors are being funded through City Council Discretionary Funds appropriation, pursuant to Section 1-02 (e) of the Procurement Policy Board Rules.

Draft copies of the proposed contracts shall be available for inspection by members of the public at One Centre Street, Room 1012N, New York, NY 10007, from March 25, 2005 and April 7, 2005, excluding Saturdays, Sundays and Holidays, during the hours of 9:00 a.m. and 12:00 p.m. and 2:00 p.m. and 4:00 p.m.

Anyone who wishes to speak at this Public Hearing should request to do so in writing. The written request must be received by the Criminal Justice Coordinator's Office within five (5) business days after publication of this notice. Written requests to speak should be sent to Monique D. Davis, Criminal Justice Coordinator's Office, One Centre Street, Room 1012 North, New York, New York 10007. If the Criminal Justice Coordinator's Office receives no written request to speak within the prescribed time, the office reserves the right not to conduct a Public Hearing.

IN THE MATTER of a proposed contract between the Criminal Justice Coordinator's Office and Palladia, Inc., located at 10 Astor Place, 7th Floor, New York, NY 10003, for the provision of a Men's residential program providing alternative to incarceration services. The contract term shall be from July 1, 2005 to June 30, 2007. There shall be two renewal options, each for a two-year term, at the discretion of the City, from July 1, 2007 to June 30, 2009 and from July 1, 2009 to June 30, 2011. The contract shall be in an amount not to exceed $1,474,886. PIN #: 00206DMPS394.

The proposed contractor has been selected by means of Competitive Sealed Proposal, pursuant to Section 3-03 of the Procurement Policy Board Rules.

A draft copy of the proposed contract shall be available for inspection by members of the public at the Office of Criminal Justice Coordinator, One Centre Street, Room 1012N, New York, NY 10007, from March 25, 2005 to April 7, 2005, excluding Saturdays, Sundays and Holidays, during the hours of 9:00 a.m. and 12:00 p.m. and 2:00 p.m. and 4:00 p.m.

IN THE MATTER of a proposed contract between the Criminal Justice Coordinator's Office and Project Greenhope: Services for Women, Inc., located at 23 West 123rd Street, 5th Floor, New York, NY 10027, for the provision of services through a residential program as an alternative to incarceration for women offenders. The contract term shall be from July 1, 2005 to June 30, 2007. There shall be two renewal options, each for a two-year term, at the discretion of the City from July 1, 2007 to June 30, 2009 and from July 1, 2009 to June 30, 2011. The contract shall be in an amount not to exceed $580,000. PIN #: 00206DMPS396.

The proposed contractor has been selected by means of Competitive Sealed Proposal, pursuant to Section 3-03 of the Procurement Policy Board Rules.

A draft copy of the proposed contract shall be available for inspection by members of the public at the Office of Criminal Justice Coordinator, One Centre Street, Room 1012N, New York, NY 10007, from March 25, 2005 to April 7, 2005, excluding Saturdays, Sundays and Holidays, during the hours of 9:00 a.m. and 12:00 p.m. and 2:00 p.m. and 4:00 p.m.

Anyone who wishes to speak at this Public Hearing should request to do so in writing. The written request must be received by the Criminal Justice Coordinator's Office within five (5) business days after publication of this notice. Written requests to speak should be sent to Monique D. Davis, Criminal Justice Coordinator's Office, One Centre Street, Room 1012 North, New York, New York 10007. If the Criminal Justice Coordinator's Office receives no written request to speak within the prescribed time, the office reserves the right not to conduct a Public Hearing.

IN THE MATTER of a proposed contract between the Criminal Justice Coordinator's Office and the Urban Youth Alliance, Inc., located at 442 East 149th, Bronx, NY 10455, to provide services as an alternative incarceration to juvenile offenders and young adults in The Bronx and Manhattan. The contract term shall be from July 1, 2005 to June 30, 2007. There shall be two renewal options, each for a two-year term, at the discretion of the City, from July 1, 2007 to June 30, 2009 and from July 1, 2009 to June 30, 2011. The contract shall be in an amount not to exceed $454,400.
PIN #: 00206DMPS391.

The proposed contractor has been selected by means of Competitive Sealed Proposal, pursuant to Section 3-03 of the Procurement Policy Board Rules.

A draft copy of the proposed contract shall be available for inspection by members of the public at the Office of Criminal Justice Coordinator, at One Centre Street, Room 1012N, New York, NY 10007, from March 25, 2005 to April 7, 2005, excluding Saturdays, Sundays and Holidays, during the hours of 9:00 a.m. and 12:00 p.m. and 2:00 p.m. and 4:00 p.m.

Anyone who wishes to speak at this Public Hearing should request to do so in writing. The written request must be received by the Criminal Justice Coordinator's Office within five (5) business days after publication of this notice. Written requests to speak should be sent to Monique D. Davis, Criminal Justice Coordinator's Office, One Centre Street, Room 1012 North, New York, New York 10007. If the Criminal Justice Coordinator's Office receives no written request to speak within the prescribed time, the office reserves the right not to conduct a Public Hearing.

OFFICE OF MANAGEMENT AND BUDGET

■ PUBLIC HEARINGS

Draft Ten-Year Capital Strategy

Pursuant to Section 234 of the New York City Charter, the Draft Ten-Year Capital Strategy, Fiscal Years 2006-2015, was issued jointly by the Office of Management and Budget and the Department of City Planning on January 2005. After a public comment period, it will be issued in final form by the Mayor. Issued every two years, the strategy proposes capital commitments to be made during the ensuing ten years, by program category and agency.

The draft strategy is available on the Office of Management and Budget's website at http://nyc.gov/html/omb/pdf/typ1_05.pdf

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

COMMON ABBREVIATIONS USED IN THE CR

The CR contains many abbreviations. Listed below are simple explanations of some of the most common ones appearing in the CR:

AB ..... Acceptable Brands List
AC .....Accelerated Procurement
AMT .....Amount of Contract
BL .....Bidders List
CSB .....Competitive Sealed Bidding (including multi-step)
CB/PQ .....CB from Pre-qualified Vendor List
CP .....Competitive Sealed Proposal (including multi-step)
CP/PQ .....CP from Pre-qualified Vendor List
CR .....The City Record newspaper
DA .....Date bid/proposal documents available
DUE .....Bid/Proposal due date; bid opening date
EM .....Emergency Procurement
IG .....Intergovernmental Purchasing
LBE .....Locally Based Business Enterprise
M/WBE .....Minority/Women's Business Enterprise
NA .....Negotiated Acquisition
NOTICE....Date Intent to Negotiate Notice was published in CR
OLB .....Award to Other Than Lowest Responsible & Responsive Bidder/Proposer
PIN .....Procurement Identification Number
PPB .....Procurement Policy Board
PQ .....Pre-qualified Vendors List
RS .....Source required by state/federal law or grant
SCE .....Service Contract Short-Term Extension
DP .....Demonstration Project
SS .....Sole Source Procurement
ST/FED .....Subject to State &/or Federal requirements

KEY TO METHODS OF SOURCE SELECTION

The Procurement Policy Board (PPB) of the City of New York has by rule defined the appropriate methods of source selection for City procurement and reasons justifying their use. The CR procurement notices of many agencies include an abbreviated reference to the source selection method utilized. The following is a list of those methods and the abbreviations used:

CSB .....**Competitive Sealed Bidding** (including multi-step)

Special Case Solicitations / Summary of Circumstances:

CP .....***Competitive Sealed Proposal*** (including multi-step)
CP/1 .....Specifications not sufficiently definite
CP/2 .....Judgement required in best interest of City
CP/3 .....Testing required to evaluate
CB/PQ/4 ....
CP/PQ/4 ....**CB or CP from Pre-qualified Vendor List**/Advance qualification screening needed
DP .....Demonstration Project
SS .....**Sole Source Procurement**/only one source
RS .....Procurement from a Required Source/ST/FED
NA .....Negotiated Acquisition

For ongoing construction project only:

NA/8 .....Compelling programmatic needs
NA/9 .....New contractor needed for changed/additional work
NA/10 .....Change in scope, essential to solicit one or limited number of contractors
NA/11 .....Immediate successor contractor required due to termination/default

For Legal services only:

NA/12 .....Specialized legal devices needed; CP not advantageous
WA .....**Solicitation Based on Waiver/Summary of Circumstances** (Client Services/BSB or CP only)
WA1 .....Prevent loss of sudden outside funding
WA2 .....Existing contractor unavailable/immediate need
WA3 .....Unsuccessful efforts to contract/need continues
IG .....**Intergovernmental Purchasing** (award only)
IG/F .....Federal
IG/S .....State
IG/O .....Other
EM .....**Emergency Procurement** (award only) An unforeseen danger to:
EM/A .....Life
EM/B .....Safety
EM/C .....Property
EM/D .....A necessary service
AC .....**Accelerated Procurement**/markets with significant short-term price fluctuations
SCE .....**Service Contract Extension**/insufficient time; necessary service; fair price

Award to Other Than Lowest Responsible & Responsive Bidder or Proposer / Reason (award only)

OLB/a .....anti-apartheid preference
OLB/b .....local vendor preference
OLB/c .....recycled preference
OLB/d .....other: (specify)

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

All of the following text in Article IX, Chapter 8 is new but not underlined.

Article IX - Special Purpose Districts
Chapter 8
Special West Chelsea District

98-00
GENERAL PURPOSES
The "Special West Chelsea District" established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. These general goals include among others, the following specific purposes:

(a) to encourage and guide the development of West Chelsea as a dynamic mixed use neighborhood;
(b) to encourage the development of residential uses along appropriate avenues and streets;
(c) to encourage and support the growth of arts-related uses in West Chelsea;
(d) to facilitate the restoration and reuse of the #High Line# elevated rail line as an accessible, public open space through special height and setback regulations, #High Line# improvement bonuses and the transfer of development rights from the #High Line# Transfer Corridor;
(e) to ensure that the form and use of new buildings relates to and enhances neighborhood character and the #High Line# open space;
(f) to create and provide a transition to the lower-scale Chelsea Historic District to the east;
(g) to create and provide a transition to the Hudson Yards area to the north; and
(h) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues, consistent with the foregoing purposes.

98-01
Definitions
Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are as set forth in Section 12-10 (DEFINITIONS).

High Line
The "High Line" shall for the purposes of this resolution refer to the elevated rail line structure and associated elevated easement located between Gansevoort Street and West 30th Street.

High Line bed
The "High Line bed" is the highest level of the horizontal surface (platform) of the #High Line# elevated rail line structure as of (the effective date of amendment), as shown in Diagram 7, in Appendix C of this Chapter. For the purposes of this Chapter, the level of the #High Line bed# is the average level of the #High Line bed# on a #zoning lot# over which the #High Line# passes.

High Line frontage
"High Line frontage" is that portion of a #building# that faces and is located within 15 feet of the west side and 25 feet of the east side of the #High Line#.

High Line Transfer Corridor
The "High Line Transfer Corridor" is an area within which the #High Line# is located, as specified in Appendix B of this Chapter, where development rights may be transferred to receiving sites in certain Subareas in the #Special West Chelsea District#, pursuant to the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-02
General Provisions
The provisions of this Chapter shall apply to any #zoning lot#, or portion thereof, within the #Special West Chelsea District#, except that the provisions of Section 98-17 (Air Space over a Railroad or Transit Right-of-way or Yard) and Section 98-26 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall also apply to any #zoning lot# south of the #Special West Chelsea District# over which the #High Line# passes. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

The provisions regarding the transfer of #floor area# set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive, and the #High Line Improvement Bonus# in Subareas D, E, and F, and G and I set forth in Section 98-25 shall be effective upon the issuance of a final and binding Certificate of Interim Trail Use (CITU) by the Federal Surface Transportation Board and the execution of a trail use agreement between the City and CSX Transportation, Inc., or its successor, or upon a determination by the Office of the Corporation Counsel that the restoration and reuse of the #High Line# as an accessible, public open space has been obtained pursuant to an alternative mechanism which protects the interests of the city.
Upon transfer of the #High Line# to the City pursuant to [ULURP Site Selection/Acquisition Application] in accordance with such CITU and trail use agreement, the following shall apply:

(a) the provisions regarding the issuance of building permits set forth in Section 98-26 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall be effective; and
(b) any area within the tax lot located at Section 3, Block 8224, Lot 111, as of (effective date of amendment), which is separated from other portions of such tax lot by bounding streets, shall be considered a separate #zoning lot#; and
(c) Underlying #use# and bulk regulations shall not apply to #uses# and #buildings and other structures# constructed on the #High Line# specifically in connection with its use as a public open space.

98-03
District Plan and Maps
The regulations of this Chapter are designed to implement the #Special West Chelsea District# Plan.

The District Plan includes the following maps and illustrative diagrams in Appendices A, B, and C:

Appendix A	Special West Chelsea District and Subareas
Appendix B	High Line Transfer Corridor Location and Floor Area Ratio
Appendix C	Illustrative Diagrams of the High Line and Building Envelopes for Sites Adjacent to the High Line
Diagram 1	Street wall and High Line frontage regulations in Subareas C and F
Diagram 2	Street wall and High Line frontage regulations in Subarea A
Diagram 3	Subarea G requirements
Diagram 4	High Line Improvement Area for Zoning Lots Divided by District Boundaries in Subareas D, E and F
Diagram 5	Subarea I requirements
Diagram 6	High Line Access Easement Volume Parameters
Diagram 7	High Line bed and frontages
Appendix D	Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea G
Appendix E	Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E and F, or within Subarea I

The maps and diagrams are hereby incorporated and made part of this Resolution. They are incorporated for the purpose of illustrating requirements or specifying locations where the special regulations and requirements set forth in the text of this Chapter shall apply.

98-04
Subareas and High Line Transfer Corridor
In order to carry out the provisions of this Chapter, nine Subareas (Subareas A through I), and a #High Line Transfer Corridor# are established within the #Special West Chelsea District#.

Within each of the Subareas and the #High Line Transfer Corridor#, certain special regulations apply that do not apply within the remainder of the #Special West Chelsea District#. The locations of the nine Subareas are detailed in Appendix A of this Chapter. The location of the #High Line Transfer Corridor# is detailed in Appendix B of this Chapter.

The Subareas and the #High Line Transfer Corridor# are subject to all other regulations of the #Special West Chelsea District# and the underlying district regulations except as otherwise specified in this Chapter.

98-05
Applicability of District Regulations

98-051
Applicability of Chapter 1 of Article 1

(a) Within the #Special West Chelsea District#, Section 11-15 (Environmental Requirements) shall apply, except that prior to issuing a building permit for any #development#, or for an #enlargement#, #extension# or a change of #use#, on a lot that has an (E) designation for hazardous material contamination, noise or air quality, the Department of Buildings shall be furnished with a report from the Department of Environmental Protection (DEP) of the City of New York stating:

(1) in the case of an (E) designation for hazardous material contamination, that environmental requirements related to the (E) designation have been met for that lot; or
(2) in the case of an (E) designation for noise or air quality, that the plans and drawings for such #development# or #enlargement# will result in compliance with the environmental requirements related to the (E) designation.

(b) Section 11-332 (Extension of period to complete construction) shall apply, except that not withstanding the provisions of paragraph (a) of such Section, in the event that other construction for which a building permit has been lawfully issued and for which construction has been commenced but not completed on (effective date of amendment), such other construction may be continued provided that the construction is completed and a temporary or permanent certificate of occupancy is obtained not later than (one year after effective date of amendment).

98-10
SPECIAL USE AND PARKING REGULATIONS WITHIN THE SPECIAL WEST CHELSEA DISTRICT

98-11
Modification of Use Regulations in C6 Districts
In Subarea G, the provisions of Section 32-25 (Use Group 16), paragraph D. (Heavy Service, Wholesale, or Storage Establishments) are modified to permit, in #C6 Districts#, warehouse #uses# only in #cellars# located wholly below #curb level#.

98-12
Modification of Use Regulations in M1 Districts
In the #Special West Chelsea District#, the provisions of Section 42-10 (USES PERMITTED AS-OF-RIGHT) and 42-30 (USES PERMITTED BY SPECIAL PERMIT) are modified to permit, as-of-right, without limitation, in M1 Districts, museums and non-commercial art galleries as listed in Use Group 3.

98-13
Location Within Buildings
In any #C6 District# in the #Special West Chelsea District#, the provisions of Section 32-422 (Location of floors occupied by non-residential uses) are modified to permit non-#residential uses# on the same #story# as a #residential use# or on a story higher than that occupied by #residential uses#, provided that the non-#residential uses#:

(a) are located in a portion of the #building# that has separate direct access to the #street# with no access to the #residential# portion of the #building# at any #story#; and
(b) are not located directly over any portion of a #building# containing #dwelling units#, except this limitation shall not preclude the location of:

(1) #residential# lobby space below or on the same #story# as non-#residential uses#; or
(2) a #commercial use# that fronts on the #High Line# and is located within five feet of the level of the #High Line bed#.

98-14
Ground Floor Use and Transparency Requirements on Tenth Avenue
The special ground floor #use# and glazing regulations of this Section apply to that portion of a #building or other structure# fronting on Tenth Avenue in the #Special West Chelsea District#.
#Uses# located on the ground floor level or within five feet of #curb level#, and within 25 feet of the #street line# shall be limited to #commercial uses# permitted by the underlying district or museums or non-commercial art galleries as listed in Use Group 3. A building's #street# frontage shall be allocated exclusively to such #uses#, except for lobby space or entryways. In no event shall the length of #street# frontage occupied by lobby space or entryways exceed, in total, 40 feet or 50 percent of the building's total #street# frontage, whichever is less.

For any #development# or #enlargement#, each ground floor #street wall# shall be glazed with materials which may include show windows, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 70 percent of such ground floor #street wall# surface, The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall be not higher than two feet above the level of the adjoining sidewalk or public access area and shall be no less than eight feet in height measured from such lowest point. Not less than 50 percent of such ground floor #street wall# surface shall be glazed with transparent materials, and up to 20 percent of such ground floor #street wall# may be glazed with translucent materials.

98-141
Transparency requirements within Subareas G and I
The transparency requirements of this Section shall apply within Subareas G and I to all portions of #developments# and #enlargements# facing and located within 25 feet of the #High Line#, except for portions of #buildings# within 25 feet of the #High Line# that contain #dwelling units#. At least 70 percent of such frontage, to be measured from the level of the #High Line bed#, shall be glazed and transparent and at least 75 percent of the glazed surface shall be fully transparent. The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall not be higher than four feet above the level of the #High Line bed#, and shall be no less than eight feet in height measured from such lowest point.

98-15
Security Gates
All security gates installed after (effective date of amendment) that are swung, drawn, or lowered to secure #commercial# or #community facility# premises shall, when closed, permit visibility of at least 75 percent of the façade area covered by such gate, when viewed from the #street#, except that this provision shall not apply to entrances or exits to parking facilities.

98-16
Signs
The #sign# regulations of the underlying districts in the #Special West Chelsea District# shall not apply to #signs# located within 50 feet of the #High Line#, except for signs located entirely below the level of the #High Line# bed. In lieu thereof, the #sign# regulations of a C1 district shall apply, except that #accessory signs# located within the #High Line frontage# may have a maximum height of 20 feet above the level of the #High Line bed#.

No signs affixed to or resting upon the #High Line# shall be permitted, except as pursuant to a signage plan for the #High Line#, as authorized by the City Planning Commission, provided the Commission finds that such signage plan will:

(a) enhance the use of the #High Line# by providing signage that is consistent with the use of the #High Line# as a public open space;
(b) provide, at a minimum, directional, informational, and interpretive signage consistent with the use of the #High Line# as a public open space;

(c) be integrated with the design of the #High Line# open space; and

(d) not adversely affect development adjacent to the #High Line# and in the surrounding neighborhood

98-17
Air Space Over a Railroad or Transit Right-of-way or Yard
For the purposes of this Resolution, the #High Line# shall not be considered a railroad or transit right-of-way and the provisions of Sections 32-44 (Air Space over a Railroad or Transit Right-of-way or Yard) and 42-462 (Air Space over a Railroad or Transit Right-of-way or Yard) shall not apply.

98-18
Parking Regulations in Subarea G
#Accessory# off-street parking spaces for existing or new governmental offices may be located on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided such spaces are located within Subarea G and in a facility, or portion thereof, that is entirely below #curb level# and that no more than 377 spaces are provided within such facility. For purposes of this Section, the governmental offices on Block 689, Lot 17 (as of the effective date) may have up to 377 #accessory# off-street parking spaces in such facility.

98-19
Lighting
All exterior light sources located within the #High Line frontage# shall be shielded from direct view from the #High Line#.

98-20
FLOOR AREA AND LOT COVERAGE REGULATIONS
The #floor area# provisions of this Section 98-20, inclusive, shall apply. Furthermore, special #floor area# transfer provisions are set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-21
Maximum Floor Area Ratio outside of Subareas
For all #zoning lots# or portions thereof located outside of Subareas A through I, the maximum #floor area ratios# of the applicable underlying district shall apply.

98-22
Maximum Floor Area Ratio and Lot Coverage in Subareas
For all #zoning lots# or portions thereof located in Subareas A through I, the maximum #floor area ratios#, #open space ratios# and #lot coverages# of the applicable underlying district shall not apply. In lieu thereof, the maximum #floor area ratio# permitted for #commercial#, #community facility#, and #residential uses#, separately or in combination, shall be as specified in the following table. For #residential use#, the maximum #lot coverage# shall be 70 percent for #interior# or #through lots# and 80 percent for #corner lots#, except that no maximum #lot coverage# shall apply to any #zoning lot# comprising a #corner lot# of 5,000 square feet or less.

Maximum Floor Area Ratio by Subarea

Sub Area	Basic Maximum #floor area ratio#	Increase in FAR Transfer of Development Rights from a High Line Transfer Corridor#*	Increase in Far via #Hight Line# Bonuses	Increase in Far via Inclusionary Housing Bonus***	Maximum permitted #floor area ratio#

* Pursuant to Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive

** Pursuant to Sections 98-25 (High Line Improvement Bonus)

*** Maximum FAR achievable for #residential developments# or #enlargements# through the provision of Inclusionary Housing, as specified in Section 23-90 (INCLUSIONARY HOUSING)

▯ For zoning lots over which the #High Line# passes

Note 1
In Subareas A, B, and E, the applicable basic maximum #floor area ratio# of that portion of the #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, and the applicable maximum permitted #floor area ratio# increased accordingly, by certification of the Chairperson of the City Planning Commission, pursuant to Section 98-35 (High Line Transfer Corridor Bonus).

Note 2
For certain zoning lots located in Subareas D, E, and F, the provisions of Section 98-25 (#High Line# Improvement Bonus) may apply in lieu of the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), subject to the provisions of Section 98-24 (Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E, and F).

98-23
Special Floor Area and Lot Coverage Rules for Zoning Lots Over Which the High Line Passes
#Lot coverage# requirements shall not apply to the portion of the #zoning lot# that lies directly beneath the #High Line#. The remaining portion of the #zoning lot# shall be considered a separate #zoning lot# for the purposes of calculating maximum #lot coverage#. Easement volumes provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS) and access structures constructed therein, as well as any structure required pursuant to Appendix D or E in relation to an increase in the basic maximum #floor area # ratio of a #zoning lot# pursuant to Section 98-25 (#High Line# Improvement Bonus), shall not be considered #floor area# or #lot coverage#.

98-24
Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E and F
For #zoning lots# fronting on West 18th Street and located partially in Subarea D, partially in Subarea E and partially in Subarea F, #floor area# may be transferred across zoning district and subarea boundaries without restriction. Either the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR) or Section 98-25 (High Line Improvement Bonus) may apply to such #zoning lot#, as applicable, and the maximum permitted #floor area ratio# specified in the table in Section 98-22 shall apply, as applicable, for each subarea.

98-25
High Line Improvement Bonus
For #zoning lots# located between West 16th and West 19th streets over which the #High Line# passes, the applicable basic maximum #floor area ratio# of the #zoning lot# may be increased up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), provided that:

(a) Prior to issuing a building permit for any #development# or #enlargement# on such #zoning lot# that anticipates using #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished with a certification by the Chairperson of the City Planning Commission that : (1) a contribution has been deposited into an escrow account or similar fund established by the City(the #High Line # Improvement Fund), or such contribution is secured by letter of credit or other cash equivalent instrument in a form acceptable to the City, such contribution to be used at the direction of the Chairperson solely for improvements to the #High Line# within the #High Line# improvement area applicable to such #zoning lot#. Such contribution shall be made in accordance with the provisions of Appendix D or E, as applicable; and (2) a declaration of restrictions executed by all #parties in interest# to the #zoning lot# as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS) , including and incorporating such other instruments as are necessary to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, is filed and recorded in the Office of the Register of the City of New York; and (3) all additional requirements of Appendix D or E, as applicable with respect to issuance of a building permit, have been met.

(b) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located between West 17th and West 18th streets over which the #High Line# passes that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix D, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;

(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix D;

(3) At-Grade Plaza Work has been performed on such #zoning lot# in the area shown in Diagram 3 of Appendix C, in accordance with Appendix D;

(4) stairway and elevator access work has been performed on such #zoning lot# in the At-Grade Plaza area shown in Diagram 3 of Appendix C, or that an additional contribution to the #High Line# Improvement Fund to fund performance of such work has been made, in accordance with Appendix D; and

(5) all other applicable requirements of Appendix D have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix D.

(c) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located between West 16th and 17th streets or between West 18th and 19th streets over which the #High Line# passes that incorporates #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix E, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;

(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix E;

(3) stairway and elevator access work has been performed on such #zoning lot # , in accordance with Appendix E;

(4) for #zoning lots# located between West 16th and 17th streets over which the #High Line# passes, #High Line# Service Facility Work has been performed, in accordance with Appendix E; and

(5) all other applicable requirements of Appendix E have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix E.

98-26
Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line
The Commissioner of Buildings shall not issue any building permit for demolition, excavation or foundation work to be performed above or beneath the #High Line# or within 25 feet of support structures of the #High Line# , except upon certification by the Commissioners of Transportation and Parks and Recreation , acting in consultation with a licensed engineer, that such work would not adversely affect the structural integrity of the #High Line#.

98-30
HIGH LINE TRANSFER CORRIDOR

98-31
Purposes
The #High Line Transfer Corridor#, established within the #Special West Chelsea District#, is intended to enable the transfer of development rights from properties over which and immediately to the west of where the #High Line# passes and thereby permit light and air to penetrate to the #High Line# and preserve and create view corridors from the #High Line# bed.

98-32
General Provisions
The location of the #High Line Transfer Corridor# is specified in Appendix B of this Chapter.
In the #High Line Transfer Corridor#, special regulations relating to the transfer of #floor area# are set forth in Sections 98-33 through and 98-35 inclusive.

98-33
Transfer of Development Rights From the High Line Transfer Corridor
In the #Special West Chelsea District#, a "granting site" shall mean a #zoning lot#, or portion thereof, in the #High Line Transfer Corridor#. A "receiving site" shall mean a #zoning lot#, or portion thereof, in Subareas A - F inclusive, H or I. #Floor area# from a granting site may be transferred to a receiving site in accordance with the provisions of this Section.

(a) Notification
Prior to any transfer of #floor area#, the Department of City Planning shall be notified in writing of such intent to transfer #floor area#. Such notification shall be made jointly by the owners of the granting and receiving sites and shall include:

(1) #floor area# zoning calculations for the granting and receiving site, and

(2) a copy of the distribution instrument legally sufficient in both form and content to effect such a distribution, and

(3) if applicable, a certified copy of the instrument creating a secondary #High Line# access easement volume, pursuant to the provisions of Section 98-63.

Notices of restrictions in a form acceptable to the Department of City Planning shall be filed by the owners of the granting and receiving sites in the Office of the Register of the City Of New York, indexed against the granting and receiving sites, certified copies of which shall be submitted to the Department of City Planning. Notice by the Department of City Planning of its receipt of certified copies thereof shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit for any #development# or #enlargement# on the receiving site.

(b) #Floor area#
The maximum amount of #floor area# transferred from a granting site located outside of Subareas A through I shall not exceed the maximum #floor area ratio# permitted for a #commercial use# on such granting site, less any existing #floor area# to remain on such granting site.
The maximum amount of #floor area# transferred from a granting site located in Subareas A through I shall not exceed the basic maximum #floor area ratio# specified for the applicable subarea in the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas), less any existing #floor area# to remain on such granting site.
Each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be transferred from the granting site by the amount of #floor area# transferred.
The amount of #floor area# transferred to a receiving site from a granting site in the #High Line Transfer Corridor# shall not exceed the #floor area ratio# permitted on the receiving site through such transfer, pursuant to the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas).

(c) #Use#
#Floor area# transferred from a granting site within the #High Line Transfer Corridor#, may be used for any #use# allowed on the receiving site in accordance with the underlying zoning designation and the provisions of this Chapter.

(d) Stairway easement requirement
As a condition for the transfer of #floor area#, an easement volume to facilitate pedestrian access to the #High Line# via stairway shall be provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR ZONING LOTS OVER WHICH THE HIGH LINE PASSES OR ADJACENT TO THE HIGH LINE) and Section 98-63 (Recording of the #High Line# Access Easement Volume).

(e) Restrictive Declaration
As a condition for the transfer of #floor area#, and in order to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, a declaration of restrictions, executed by all #parties in interest# of the granting lot as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS), and including and incorporating such other instruments as are necessary to accomplish such purposes, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, shall be filed and recorded in the Office of the Register of the City of New York. Notice by the Department of City Planning of receipt of certified copies of such recorded declaration shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit, including any

foundation or alteration permit, for any #development# or #enlargement# on the receiving site. Such recorded declaration shall be in addition to the Notice of Restrictions required pursuant to subdivision (a) of this Section.

98-34
Screening and Landscaping Requirements for Vacant Sites
Any #zoning lot# within the #High Line Transfer Corridor# that has transferred #floor area# pursuant to Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor), and is 50 percent or more vacant shall be screened from the street and/or landscaped in accordance with the provisions of this Section; except that #zoning lots# occupied by #buildings# that extend along at least 85 percent of the #street# frontage of the #zoning lot# and are located within five feet of the #street line# are not required to provide screening or landscaping.
Such open or vacant areas on #zoning lots# shall be screened from the street by a fence or gate with a surface that is at least 75 percent open, extending not less than six feet and not higher than eight feet above finished grade; or alternatively, by a planting strip at least four feet wide and densely planted with evergreen shrubs at least four feet high at the time of planting or of a variety expected to reach a height of six feet within three years, or by both. Chain link and fences containing barbed wire or razor wire shall be prohibited. For portions of #zoning lots# located beneath the #High Line# planting strips shall be prohibited.

98-35
#High Line Transfer Corridor# Bonus
For #zoning lots#, or portions thereof, within the #High Line Transfer Corridor#, the applicable basic maximum #floor area ratio# of that portion of a #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, for an amount of #floor area# equivalent to the area of that portion of the #zoning lot# located within the #High Line Transfer Corridor#, provided the Chairperson of the City Planning Commission has certified that

(a) all the permitted #floor area# on that portion of the #zoning lot# that is within the #High Line Transfer Corridor# has been transferred to an eligible receiving site, in accordance with the provisions of Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor);
(b) that such granting site is vacant; and
(c) a contribution has been deposited into the #High Line# Improvement Fund established under Section 98-25, to be used at the direction of the Chairperson of the City Planning Commission to assure that the #High Line# is restored and reused as a public accessible open space.

No #building# permit for any #development# or #enlargement# that anticipates using such increased #floor area# may be issued unless and until such certification has been made. Such contribution amount shall be $50.00 per square foot of #floor area# as of (the effective date of amendment) and shall be adjusted July 1 of the following year and each year thereafter, by the City or its designee, based on the percentage change in the Consumer Price Index for all urban consumers as defined by the U.S. Bureau of Labor Statistics. Such bonus #floor area# shall only be used for a permitted #commercial use#, which shall be located in that portion of the #zoning lot# that is within the #High Line Transfer Corridor#; however, #public parking lots# and #public parking garages# at or above #curb level# shall not be permitted; and the height of any #development# or #enlargement# within the #High Line Transfer Corridor# shall not exceed the level of the #High Line bed#.

98-40
HEIGHT AND SETBACK REGULATIONS
The height and setback regulations of the underlying district are modified in accordance with the provisions of this Section 98-40, inclusive. Furthermore, for any #zoning lot# located within or adjacent to the #High Line Transfer Corridor#, the provisions of Section 98-50, inclusive, shall also apply. All heights shall be measured from the #base plane#, unless otherwise specified.

98-41
Obstruction Over the High Line
Within the #Special West Chelsea District#, the #High Line# shall remain open and unobstructed from the #High Line bed# to the sky, except for improvements constructed on the #High Line# in connection with the use of the #High Line# as a public open space.

98-42
Special Rooftop Regulations
The provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings or other structures# within the #Special West Chelsea District# except as modified as follows:

(a) Permitted Obstructions
(a)Elevator or stair bulkheads, roof water tanks, cooling towers or other mechanical equipment (including enclosures), may penetrate a #sky exposure plane# or a maximum height limit provided that either the product, in square feet, of the #aggregate width of street walls# of such obstructions facing each #street# frontage, times their average height, in feet, shall not exceed a figure equal to eight times the width, in feet, of the #street wall# of the #building# facing such frontage, or, the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#, and the height of all such obstructions does not exceed 40 feet. In addition, dormers may penetrate a maximum base height in accordance with the provisions of paragraph (c) of Section 23-621 (Permitted obstructions in certain districts). However, dormers may not exceed the maximum #building# height in Subareas C and F, where the maximum base height and maximum #building# height are the same.

(b) Ventilation and mechanical equipment
All mechanical equipment located within 15 feet of the level of the #High Line# bed that is within 25 feet of the #High Line#, measured horizontally, or within the #High Line frontage#, as applicable, shall be screened and buffered with no intake or exhaust fans or vents facing directly onto the #High Line#.

98-43
Street Wall Location, Minimum and Maximum Base Heights and Maximum Building Heights
The provisions set forth in paragraph (a) of this Section shall apply to all #developments# and #enlargements#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (f) of this Section.

(a) The #street wall# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in Table A of this Section.
Recesses, not to exceed three feet in depth from the #street line#, shall be permitted on the ground floor where required to provide access to the #building#.
Above a height of 12 feet above the #base plane#, up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#, provided any such recesses deeper than 10 feet along a #wide street#, or 15 feet along a #narrow street#, are located within an #outer court#.
Furthermore, no recesses shall be permitted within 30 feet of the intersection of two #street lines# except that, to allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.
For #developments# that occupy the entire #block# frontage of a #street# and provide a continuous sidewalk widening, where permitted, along such #street line#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section. The #street wall# location provisions of this section shall not apply along any #street frontage# of a #zoning lot# over which the #High Line# passes or by existing #buildings# to remain.
All portions of #buildings or other structures# that exceed the applicable maximum base height specified in Table A shall provide a setback at a height not lower than the applicable minimum base height. A setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#, except such dimensions may include the depth of permitted recesses in the #street wall#.
No #building or other structure# shall exceed the maximum #building# height specified in Table A.

(b) Subareas A and D, and portions of Subareas H and I
In Subareas A and D, for #zoning lots# with wide and narrow street frontage, no #street wall# is required beyond 50 feet of a wide street.
In Subarea D, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front. In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within ten feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.
In Subareas A and D, and in that portion of Subarea H beyond 100 feet of Tenth Avenue, and in that portion of Subarea I beyond 300 feet of Tenth Avenue, the setback provisions for portions of #buildings# above the maximum base height set forth in paragraph (a) of this Section shall not apply. In lieu thereof, no portion of a #building or other structure# that exceeds the applicable maximum base height shall penetrate a #sky exposure plane# that begins above the #street line# at the maximum base height and rises over the #zoning lot# at a ratio of 2.7 feet of vertical distance to one foot of horizontal distance on a #narrow street#; and 5.6 feet of vertical distance to one foot of horizontal distance on a #wide street#. However, any #building#, or portion thereof, which in the aggregate occupies not more than 40 percent nor less than 30 percent of the #lot area# of the #zoning lot# may penetrate the #sky exposure plane# set forth in this paragraph (b), provided such portion of the #building# is set back at least 10 feet from a #wide street line# and at least 15 feet from a #narrow street line#. The highest four #stories# or 40 feet of such #building#, whichever is less, may occupy less than 30 percent of the #lot area# of the #zoning lot#. Furthermore, for #zoning lots# with less than 20,000 square feet of #lot area#, such #building# or portion thereof may occupy more than 40 percent of the #lot area# of the #zoning lot# in accordance with the provisions of Section 33-454 (Towers on small lots).

(c) Subareas C and F
In Subareas C and F, for #zoning lots# with wide and narrow street frontage, no #street wall# is required beyond 50 feet of a wide street.
Furthermore, for any #development# or #enlargement# that occupies at least one corner of the Tenth Avenue #block# front and extends along the Tenth Avenue frontage of the #zoning lot# for at least 170 feet, exclusive of existing #buildings# to remain, a lowered #street wall# shall be provided for any #building# that exceeds 45 feet in height. Such lowered #street wall# shall have a maximum height of 45 feet and a minimum height of 35 feet and extend along the Tenth Avenue frontage for a width not less than 25 percent and not more than 30 percent of the #aggregate width of street walls# facing Tenth Avenue. Such lowered #street wall# portion of the Tenth Avenue frontage shall be located at the intersection of Tenth Avenue and a #narrow street#. Such lowered #street wall# shall extend along such #narrow street line# for a distance of at least 50 feet from Tenth Avenue. Beyond 50 feet of Tenth Avenue, excluding the #High Line frontage# of a #building#, such portion of the #building# shall not exceed a height of 45 feet. The provisions of this Section, relating to the location and height of the lowered #street wall# portion of the Tenth Avenue frontage of a #development# are illustrated in Diagram 1 (Street Wall and #High Line# Frontage Regulations in Subareas C and F), in Appendix C of this Chapter.

(d) Subarea E
The #street wall# location provisions set forth in paragraph (a) shall not apply to any #development# or #enlargement# on a #zoning lot# fronting on West 18th Street and located partially in Subareas D, E and F, where #floor area# has been transferred pursuant to Section 98-24, a maximum of 60 percent of the West 18th Street frontage within Subarea E may rise without setback to a maximum #building# height of 250 feet and a minimum of 20 percent of the West 18th Street frontage within Subarea E shall rise without setback to a minimum height of 60 feet and a maximum height of 85 feet and be located within 10 feet of the #street line#.

(e) Subarea G
In Subarea G no #building or other structure# shall be located east of the #High Line#.
In Subarea G, no portion of a #building or other structure# shall exceed a height of 85 feet except for two #buildings#, or portions of #buildings#, hereinafter referred to as Tower East and Tower West. At or above the base height, both such towers shall be set back at least 10 feet from any #street wall# facing a #wide street# and at least 15 feet from any #street wall# facing a #narrow street#. Such set backs shall be provided at a height not lower than 60 feet, except that such set backs may be provided at a height not lower than 40 feet, provided at least 65 percent of the #aggregate width of street walls# facing #narrow streets# and at least 60 percent of the #aggregate width of street walls# facing #wide streets# have a minimum base height of 60 feet.
Tower East shall be located in its entirety within 240 feet of the Tenth Avenue #street line#, and Tower West shall be located in its entirety within 200 feet of the Eleventh Avenue #street line#.
Tower East shall not exceed a #building height# of 290 feet and Tower West shall not exceed a #building# height of 390 feet.
A maximum of 50 percent of the #street wall# of Tower West may rise without setback from a #narrow street line#. Such portion of the #street wall# shall be located a minimum of 15 feet and a maximum of 20 feet from the #narrow street line#.

(f) Subarea I
In Subarea I, the #street wall# location provisions set forth in paragraph (a) shall not apply along Tenth Avenue, or any portion of the #zoning lot# over which the #High Line# passes, as illustrated in Diagram 5 (Subarea I Requirements), of Appendix C of this Chapter. However, for portions of #zoning lots# within 300 feet of Tenth Avenue, such #street wall# requirements shall apply along a minimum of 85 percent of the West 16th Street and West 17th Street frontages.
No portion of a #building or other structure# located within 300 feet of Tenth Avenue shall exceed a height of 120 feet, except for one #building# which may have a height not to exceed 250 feet provided such #building# is located in its entirety within 90 feet of West 17th Street and has a length that does not exceed 175 feet when measured parallel to the West 17th Street #street line#.
Any portion of a #building or other structure# located beyond 300 feet of Tenth Avenue that exceeds a maximum base height of 85 feet shall comply with the #sky exposure plane# provisions of paragraph (b) of this Section, except that the maximum building height shall be 250 feet.

TABLE A
Minimum and Maximum Base Height and Maximum Building Height by District or Subarea

District or Subarea	Minimum Base Height (in feet)	Maximum Base Height (in feet)	Maximum Building Height (in feet)
C6-2A	60	85	120
C6-3A	60	102	145
A	60	85	See paragraph (b)
B, M1-5	60	95	135
C for #zoning lots# with only #narrow street# frontage	60	110	110
C for #zoning lots# with #wide street# frontage	125 See paragraph (c)	145 see paragraph (c)	145 See paragraph (c)
D	60	90	See paragraph (b)
E	60	105	120 see paragraph (d)
F for #zoning lots# with only #narrow street# frontage	60	95	95
F for #zoning lots# with #wide street# frontage	105 See paragraph (c)	120 See paragraph (c)	120 See paragraph (c)
G	60 See paragraph (e)	85 See paragraph (e)	See paragraph (e)
H within 100 ft of Tenth Ave	60	85	120
H beyond 100 ft of Tenth Ave	60	85	See paragraph (b)
I within 300 ft of Tenth Ave	60	85	250 See paragraph (f)
I beyond 300 ft of Tenth Ave	60	85	120 See paragraph (f)

98-44
Authorization to Modify Height and Setback Regulations
The City Planning Commission may authorize the modification of height or setback regulations pursuant to Section 98-40 and 98-50 for #developments# or #enlargements# on a #zoning lot# over which the #High Line# passes or adjacent to a #zoning lot# over which the #High Line# passes, provided that the street frontage of the #zoning lot# adjacent to but exclusive of the portion over which the #High Line# passes is no more than 40 feet, and the Commission finds that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely effect access to light and air for surrounding public areas;

The Commission may prescribe appropriate conditions and safeguards to enhance the character of the surrounding area.

98-50
SPECIAL HEIGHT AND SETBACK, OPEN AREA AND TRANSPARENCY REGULATIONS FOR ZONING LOTS WITHIN OR ADJACENT TO THE HIGH LINE TRANSFER CORRIDOR

98-51
Height and Setback Regulations on the East Side of the High Line

(a) In Subarea A
For any #building# or portion thereof located on the east side of the #High Line#, 60 percent of the aggregate length of the #High Line frontage# of such #building# shall set back at the level of the #High Line bed#. No more than 40 percent of the aggregate length of the #High Line frontage# of such #building# may rise above the level of the #High Line bed#. No portion of such #High Line frontage# shall exceed a maximum height of 20 feet above the level of the #High Line bed#, as illustrated in Diagram 2 (Street Wall and #High Line# Frontage Regulations in Subarea A)in Appendix C, of this Chapter.

(b) In C6-3A Districts, and in Subareas C and F
For #zoning lots# that extend for less than 120 feet along the east side of the #High Line#, no #building# or portion thereof located east of and within 25 feet of the #High Line# shall exceed the level of the #High Line bed#.
For #zoning lots# that extend for at least 120 feet along the east side of the #High Line#, no #building# or portion thereof located east of and within 25 feet of the #High Line# shall exceed the level of the #High Line bed#, except that a maximum of 40 percent of the #High Line frontage# of such #building# may rise without setback above the level of the #High Line bed# provided such portion of the #building# is not located directly

between the #High Line# and any #street wall# portion of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (a) (Subareas C and F) of Section 98-441 (Street wall location and minimum base heights). However, the provisions of this paragraph (b) shall not apply to any #zoning lot# that, on (the effective date of amendment) was wholly within 35 feet of the eastern edge of the #High Line#, or, had a portion thereof whose greatest distance between the eastern edge of the #High Line# and a #side lot line# east of the #High Line# was 35 feet when measured parallel to the nearest #narrow street line#.

98-52
Height and Setback Regulations on West Side of High Line
For any #development# or #enlargement# on a #zoning lot# on the west side of the #High Line# and adjacent to the #High Line# within C6-2A, C6-3A, and M1-5 Districts or within Subareas A, B, or E, the portion of the #building# within 15 feet of the #High Line structure# shall rise no higher than the level of the #High Line bed# before setback. A setback with a depth of at least 15 feet shall be provided from the #High Line#.

98-53
Required Open Areas on the East Side of the High Line
At least 20 percent of the #lot area# of any #development# or #enlargement# on a #zoning lot#, or portion thereof, within C6-3A Districts or within Subareas A, C or F and over which the #High Line# passes or adjacent to a #zoning lot# over which the #High Line# passes, shall be landscaped open area, pursuant to the requirements of paragraph (a) (Open area requirements), and (b)(Permitted obstructions) of this Section. Such open area shall be located directly adjacent to the #High Line# with its longest side adjacent to the #High Line# and shall be located at an elevation not to exceed a height of 3 feet 6 inches above the level of the #High Line bed# adjacent to the #zoning lot#. At no point shall such open area be located within 50 feet of Tenth Avenue.

(a) Open area requirements

All required open areas shall:

(1) have no portion used as a driveway, vehicular access way or for parking, and shall be screened from off-street loading and service areas;
(2) be landscaped with shrubs, vines, flowers, ground cover, trees, and/or plants in planters over a minimum of 25 percent of the required open area;
(3) be maintained by the building owner who shall be responsible for the maintenance of the open area including, but not limited to, the repair of all amenities, litter control and the care and replacement of vegetation within the zoning lot; and
(4) have all mechanical equipment which is located at the same elevation as the open area, or within 15 feet of the level of the open area, screened and buffered with no intake or exhaust fans facing directly onto the required open area.
(5) Open area screening
Required open area provided at the level of the #High Line bed# may be screened and/or separated from the public areas of the #High Line# by a wall, fence, or plantings extending not higher than 8 feet above the average elevation of the #High Line bed#. Non-vegetated screening materials must be substantially transparent. For the purposes of this Section, a substantially transparent screening is defined as transparent, or non-opaque, in an evenly distributed fashion for at least 75 percent of its area. Chain link fences shall not be a permitted screening material. Vegetated screening, such as shrubs, vines, and other plantings, may be completely covered by vegetation and opaque, provided that any underlying surface is substantially transparent.
In addition, such screening material shall be maintained in good condition at all times, may be interrupted by normal entrances and/or exits, and shall have no signs hung or attached thereto, other than those permitted in Section 98-16 (Signs).

(b) Permitted obstruction

(1) Any #High Line# access structure, providing pedestrian access to the #High Line#, by stairway or elevator, may be located within such required open area;
(2) The provisions of paragraph (g)(1)(Permitted obstructions) of Section 37-04 (Requirements for Urban Plazas) shall apply; and
(3) Open air cafes and kiosks may be located in such required open area. Open air cafes may occupy in the aggregate no more than 75 percent of such required open area.

98-54
Transparency Requirements on the East Side of the High Line
The transparency requirements of this Section shall apply in C6-3A Districts and within Subareas A, C and F to all #developments# and #enlargements# of the #High Line frontage# portion of a #building or other structure#, except for portions of #buildings# within the #High Line frontage# that contain #dwelling units#. At least 50 percent of such #building's# #High Line frontage#, to be measured from the level of the #High Line bed#, shall be glazed and transparent and at least 75 percent of the glazed surface shall be fully transparent. The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall not be higher than four feet above the level of the #High Line bed#, and shall be no less than eight feet in height measured from such lowest point.

98-55
Requirements for Non-Transparent Surfaces on the East Side of the High Line
Any portion of such #High Line frontage# that is 40 feet or more in length and contains no transparent element between the level of the #High Line bed# and an elevation of twelve (12) feet above the level of the #High Line bed#, shall be planted with vines or other plantings or contain artwork. Such elements shall substantially cover the applicable non-transparent portion of the #High Line frontage#.

98-60
SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS

98-61
High Line Access Easement Volume Requirement
For all #developments# or #enlargements# within the Special West Chelsea District, an easement volume to facilitate public pedestrian access to the #High Line# via stairway and elevator (hereinafter referred to as "primary access"), shall be provided on any #zoning lot# over which the #High Line# passes that, on or after (the date of referral of zoning text amendment) has more than 5,000 square feet of #lot area#.
In the #High Line Transfer Corridor#, an easement volume to facilitate public pedestrian access to the #High Line# via stairway (hereinafter referred to as "secondary access"), shall be provided on any #zoning lot# from which #floor area has been transferred pursuant to Section 98-33 unless a primary access easement has been provided pursuant to this Section 98-61.
However, a primary access easement shall not be required if a primary access easement is already provided on the same #block# and a secondary access easement shall not be required if a primary or secondary access easement has already been provided on the same #block#. Furthermore, primary and/or secondary access easements shall not be required where the Chairperson of the City Planning Commission certifies that:

(1) the minimum dimensions required for the access easement volume pursuant to paragraph (a) of Section 98-62 cannot be accommodated within 33 feet six inches of a #street line# for primary access easements and 40 feet of a #street line# for secondary access easements; or
(2) in the case of a primary easement, a secondary easement is already provided on the same #zoning lot# and such easement is sufficient in size or has been enlarged to be sufficient in size to accommodate the provisions for primary access easements as specified in Section 98-62; or
(3) for primary or secondary easements, access has already been constructed on the same block or on the same street frontage and that such access meets the location and access requirements for primary or secondary access easements, as specified in Section 98-62(a) and (b) and meets all standards, as applicable, for persons with disabilities; or
(4) for primary or secondary easements, construction documents for the #High Line# open space have been developed that specify the opposite side of the same street frontage as an access location.

98-62
High Line Access Easement Regulations
The provisions of this Section shall apply to any #zoning lot# providing an access easement volume, as follows:

(a) Location and Minimum Dimensions
(1) Primary access easement volume
A primary access easement volume may be located within a #building# or within open areas on the #zoning lot#, including open areas required pursuant to Section 98-53 (Required Open Areas on the East Side of the High Line), provided such volume is within 15 feet of a #narrow street line#. The minimum length of such volume shall be 18 feet six inches and the minimum width shall be ten feet; however, the minimum area of such volume shall be 350 square feet. The height of such volume shall extend from a point at least ten feet below #curb level# to a point at least 15 feet above the level of the #High Line bed#. A primary access easement volume may also replace a previously provided secondary access easement volume, and such secondary access easement volume may be terminated pursuant to Section 98-64. Such minimum dimensions are illustrated in Diagram 6 (#High Line# Access Easement Volume Parameters) of Appendix C of this Chapter.

(2) Secondary access easement volume
A secondary access easement volume shall be located within 15 feet of a #narrow street line# and directly adjacent to the #High Line# for a minimum length of 25 feet. Such volume shall have a minimum width of ten feet. The height of such volume shall extend from #curb level# to a point at least ten feet above the level of the #high Line bed#.

(b) Access
All access easement volumes shall be accessible either directly from a public sidewalk or through a publicly traversable way through the #zoning lot# directly connecting with a public sidewalk. Such publicly traversable way shall meet the following requirements:

(1) The required width of the publicly traversable way shall be a minimum of eight feet.
(2) No portion of the publicly traversable way shall be interrupted or occupied by an off-street parking or loading area.
(3) The access easement volume shall be visible from the public sidewalk or the publicly traversable way.
(4) The publicly traversable way shall be maintained by the property owner in good repair.
(5) The publicly traversable way shall be fully accessible to persons with disabilities.
(6) The publicly traversable way shall be open and accessible to the public at all times when a stairway and/or elevator located within the associated access easement volume is open and accessible to the public.

(c) Permitted obstructions
Any access structure within the access easement volume, or any weather protection provided by an overhang or roofed area over such access easement volume, accessory to the access structure, shall be considered permitted obstructions within required #yards# or open areas.

(d) Permitted #uses#
An access easement volume required on a #zoning lot# pursuant to the provisions of this Chapter may be temporarily used by the owner of such #zoning lot# for any permitted #use# until such time as required by the City of New York or its designee for access purposes. Such permitted use shall be limited to non-residential #uses# where such access easement volume is within a #building#. Where such access easement volume is within an open area, such area shall be landscaped, or may be improved in accordance with the provisions of sub-paragraphs (g)(1), (g)(2) and (g)(3) (Permitted obstructions), of Section 37-04 (Requirements for Urban Plazas), except that in the case of open air cafes and kiosks the provisions of paragraph (g) (3) shall be modified as follows: a certification shall not be required pursuant to paragraphs (g)(5) and (g)(6).
Improvements or construction of a temporary nature within the easement volume shall be removed by the owner of such #zoning lot# prior to the time at which public use of the easement areas is required. A minimum notice of six months in writing shall be given by the City of New York or its designee to the owner of the #zoning lot#, in order to vacate the tenants of such temporary #uses#.

(e) Legally Required Windows
The minimum distance between any legally required window in a portion of a #building# used for #residential use# and an access easement volume shall be 30 feet, measured in a horizontal plane at the sill level of, and perpendicular to, such window for the full width of the rough window opening.

98-63
Recording of High Line Access Easement Volume
An instrument in a form acceptable to the Department of City Planning creating a #High Line# access easement volume shall be recorded in the Office of the City Register; a certified copy of which shall be submitted to the Department of City Planning.
Notice by the Department of City Planning of its receipt of a certified copy of an instrument establishing any access easements required pursuant to this Chapter shall be a precondition to issuance by the Commissioner of Buildings of any building permits including any foundation or alteration permit for any #development# of #enlargement# on a site pursuant to Section 98-60 for primary access easements. Receipt of a certified copy of an instrument creating a secondary access easement shall be provided in conjunction with notification, pursuant to Section 98-33(a).

98-64
Termination of High Line Access Easement Volume
In the event that the City Planning Commission notifies the Department of Buildings and the owner in writing that a #High Line# access easement volume is not required on a #zoning lot# under the final construction plans for the restoration and reuse of the #High Line# as an accessible, public open space, the restrictions imposed on such #zoning lot# by the provisions of Section 98-61 (High Line Access Easement Volume Requirement) shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the City Planning Commission to the extinguishment of the easement volume. On termination of the #High Line# access easement volume requirement which has been certified pursuant to this Section, any area reserved for such easement within a #building or other structure# may be used for any #use# permitted pursuant to the provisions of this Chapter and such area shall not be considered #floor area#; and any open area reserved for such easement shall be maintained as an open area and shall be subject to the open area requirements of Section 98-53 (Required Open Areas on the East Side of the High Line).

APPENDIX D
Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea G
This Appendix sets forth additional requirements governing #zoning lots# located within Subarea G between West 17th and 18th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to subparagraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to subparagraph (b) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean "parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10 .

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25

(1) As a condition of issuance of a building permit under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix D, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22;
(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and use of the At-Grade Plaza and the stairway and elevator that will provide access to the #High Line#, as shown in Diagram 3 of Appendix C, such easement area for the At-Grade Plaza to include the entire area of the #zoning lot# east of the #High Line# and such easement area as it relates to such stairway and elevator to be at least 2,500 square feet and in a location and configuration acceptable to the City; access for the potential performance by the City of work under the provisions set forth below; and maintenance and repair of the stairway and elevator . Such declaration shall incorporate by reference the maintenance and operating agreement referred to in paragraph (iii) below; and
(iii) Owner shall execute a maintenance and operating agreement for the At-Grade Plaza,

The easements and agreement described herein shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (b).

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot# and over #streets# contiguous to such #zoning lot#. In that event, certification under

Section 98-25, paragraph (a), shall also be made upon execution of an agreement by Owner, approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the contribution to the #High Line# Improvement. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) At the time of certification pursuant to Section 98-25, paragraph (a), Owner shall designate, subject to the concurrence of the Chairperson of the City Planning Commission, the location of the #floor area# within the #development# or #enlargement# which would exceed the basic maximum #floor area ratio# of the #zoning lot# and be subject to the provisions of Section 98-25 (HIGH LINE IMPROVEMENT BONUS).

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (b) of Section 98-25

(1) Structural Remediation Work Under Paragraph (b)(2) of Section 98-25

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner shall exercise such option no later than 90 days following receipt of the City's specifications for the Structural Remediation Work or of the City's failure to provide such specifications, as set forth in paragraphs (iv), (v) and (vi) below. In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner , as applicable, for any excess from or against the #High Line# Improvement Fund. In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (b)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of any temporary certificate of occupancy, and of final completion with respect to issuance of any final certificate of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above , at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to public view versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead-based products in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City ;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including , but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below-grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) Subject to the Not-To-Exceed Limit set forth in section (c) of this Appendix, if Owner exercises the option to perform the Structural Remediation Work, it shall reimburse the City for the reasonable cost of hiring or procuring the services of a full -time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone).

(iv) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to delays outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(v) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete the Structural Remediation Work following the (effective date of amendment) or receipt of specifications for the Structural Remediation Work, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control and , in addition, for any time during which Owner is unable to gain access in order to perform the Structural Remediation Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application). .

(vi) In the event that the City does not provide the specifications for the Structural Remediation Work , within the timeframe set forth in paragraph (iv) of this section, Owner may exercise the option to perform such work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays as described in paragraph (v) above, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(2) At-Grade Plaza Work Under Section 98-25 (b)(3)

(i) Owner shall perform At-Grade Plaza Work within the area on the #zoning lot# shown in Diagram 3 of Appendix C. For any temporary certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of substantial completion of the At-Grade Plaza Work (i.e., the At-Grade Plaza shall be open and accessible to the public). For any permanent certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of final completion of the At-Grade Plaza Work. Substantial completion of the At-Grade Plaza Work shall also require execution by all parties-in-interest of the declarations, easements and maintenance and operating agreement described in paragraph (a) of Section (1) of this Appendix, if not previously provided in connection with issuance of a building permit.

(ii) At-Grade Plaza Work shall include, but not be limited to:

(a) remediation work; and

(b) all paving, plantings, surface treatments, lighting, trees, seating, fountains and other site amenities; and

(c) infrastructure work, including conduits, drainage, water line, electrical connections, and other utility work serving the At-Grade Plaza.

(iii) The At-Grade Plaza Work shall be performed by Owner pursuant to construction documents provided by the City by September 30, 2006, subject to delays outside the reasonable control of the City (including, without limitation, litigation, but such delays shall not exceed more than 180 days), and to such extension as the City and Owner may mutually agree. The At-Grade Plaza Work shall be completed within one year following the later of the (effective date of amendment) or the receipt of such documents, subject to reasonable extension for any delays beyond Owner's reasonable control and to such extension as the City and Owner may mutually agree, and, in addition, for any time during which Owner is unable to gain access in order to perform the At-Grade Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application), or for any time needed to perform any necessary remediation work on the #zoning lot#.

(iv) In no event shall Owner be required to complete the At-Grade Plaza Work until the #High Line# improvements within the portion of the #High Line# Improvement Area adjacent to the #zoning lot# (and, as applicable, over such Improvement Area, as shown on Diagram 3 of Appendix C, are substantially complete (i.e., open to the public but for the work needed to complete the At-Grade Plaza Work). Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (b)(3), until the Chairperson determines that the At-Grade Plaza Work is substantially complete.

(v) The cost to Owner of the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) shall not exceed $2,300,000 The amount of contribution to the #High Line# Improvement Fund under subdivision a of section 1 of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such amount at the time it is made. In addition to the costs of the At-Grade Plaza Work, subject to the Not-To-Exceed Limit set forth section (c) of this Appendix, Owner shall be required to reimburse the City for:

(a) the reasonable cost of developing the plans and construction documents for the At-Grade Plaza Work; and

(b) the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(vi) In the event that construction documents for the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) are not delivered to Owner within the timeframe set forth in paragraph 3 of this subsection, Owner shall not be required to perform the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) consistent with such documents. Instead, Owner shall perform Alternate At-Grade Plaza Work which shall include all necessary remediation work, all necessary below-grade work (including related infrastructure work necessary to support the #High Line#), and at-grade improvements pursuant to the standards set forth in Section 37-04, paragraphs (g) through (n) of the Zoning Resolution, except that open-air cafes and kiosks shall not be permitted. Permitted obstructions, whether as described in the City's Specifications for the At-Grade Plaza Work or as specified in Section 37-04, paragraph (g), for the Alternate At-Grade Plaza Work, shall not count towards # lot coverage#.

(vii) The cost to the Owner of the Alternate At-Grade Plaza Work shall not exceed $1,400,000. In addition, Owner shall , subject to the Not-To Exceed Limit of Section (c) of this Appendix, be required to reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Alternate At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(viii) Upon substantial completion of the At-Grade Plaza and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4): Owner shall provide the City with the declarations, easements and maintenance and operating agreement described in subsection a of section 1 of this Appendix ,if not already provided in connection with the issuance of a building permit; such At-Grade Plaza shall be open and accessible to the public during at least the same hours during which the #High Line# is open and accessible to the public, subject to the terms of the maintenance and operating agreement; and Owner shall maintain the At-Grade Plaza pursuant to the terms of the maintenance and operating agreement.

(3) Stairway and Elevator Access Work Under Paragraph (b)(4) of Section 98-25

(i) Except as provided in subparagraph (iii) of this paragraph, Owner shall perform Stairway and Elevator Access Work within the At-Grade Plaza area as shown in Diagram 3 of Appendix C in conjunction with performance of the At-Grade Plaza Work. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (b)(4), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification pursuant to such Section shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator, shall be included in the construction drawings for the At-Grade Plaza Work described above, and shall be performed by Owner within the time period for performance of the At-Grade Plaza Work described in subsection c of this section. The location for the stairway and elevator shall take into account the viability of any retail spaces fronting the At-Grade Plaza.

(iii) Owner shall not be responsible for performance of the Stairway and Elevator Access Work where it performs the Alternate At-Grade Plaza Work in accordance with paragraph (b) of this section. In that event, prior to commencing the Alternate At-Grade Plaza Work and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4):

(a) Owner shall deposit into the #High Line# Improvement Fund a contribution of $900,000.00 (the Access Contribution), to be used at the direction of the Chairperson of the City Planning Commission for construction of stairway and elevator facilities on the #zoning lot#; and

(b) Owner shall provide the City with the declarations, easements, and maintenance and operating agreement described in paragraph (1) of Section (a) of this Appendix, if not previously provided in connection with issuance of a building permit.

(4) City Performance of Work In the Event of Failure to Perform

(i) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under Section (a) of this Appendix, Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b) of this Appendix), the At-Grade Plaza Work or Alternate Plaza Work, as applicable, and the Stairway and Elevator Access Work (where required to do so under paragraph (3) of Section (b) of this Appendix), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 3 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above has passed, subject to the

provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(ii) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(a) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total), unless such date is extended by mutual agreement between the City and Owner, for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City; and

(b) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control and , in addition, any time in which Owner is unable to gain access in order to perform the At-Grade Plaza Work or Alternate Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application) or), or for any time during which remediation work is in progress on the #zoning lot#.

(iii) In the event Owner does not comply with the requirements paragraph (4)(ii) of this Section (b):

(a) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(b) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(c) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor any temporary or permanent certificate of occupancy may be issued pursuant to Section 98-25, paragraph (b), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

(c) Reimbursement Not-To- Exceed Limits

Reimbursement of the City by Owner of costs pursuant to this Appendix shall not exceed a total of $450,000.00.

APPENDIX E
Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E and F or within Subarea I

This Appendix sets forth additional requirements governing #zoning lots# located partially within Subareas D, E and F or within Subarea I between West 16th and 17th streets or between West 18th and 19th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum Floor Area Ratio in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to paragraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to paragraph (c) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean " parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10.

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25

(1) As a condition of certification under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix E, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22; and

(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and from a stairway and elevator on the #zoning lot# that will provide access to the #High Line# and for maintenance and repair by the City of such stairway and elevator; and the potential performance by the City of work under the provisions set forth below. In the case of #zoning lots# between West 16th and 17th streets, Owner shall also provide the City with easements providing for City access to and from and for public use of the #High Line# Service Facilities on the #zoning lot# and for maintenance and repair by the City of such #High Line# Service Facilities. All easements described herein shall be in a form acceptable to the City and shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (c); and

(iii) submit plans for Stairway and Elevator Access Facilities and, where applicable, #High Line# Service Facilities that demonstrate compliance with the provisions of this Appendix and are consistent with New York City Department of Parks and Recreation standards and best practices governing materials life cycle and maintenance for review and approval by the Chairperson of the City Planning Commission.

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot # and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement , approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the #High Line# Improvement Fund contribution to reflect the cost of such improvements. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) At the time of certification pursuant to Section 98-25, paragraph (a), Owner shall designate, subject to the concurrence of the Chairperson of the City Planning Commission, the location of the #floor area# within the #development# or #enlargement# which would exceed the basic maximum #floor area ratio# of the #zoning lot# and be subject to the provisions of Section 98-25.

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (c) of Section 98-25

(1) Structural Remediation Work Under Paragraph (c)(2) of Section 98-25

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner shall exercise such option no later than 90 days following receipt of the City's specifications for the Structural Remediation Work or of the City's failure to provide such specifications, as set forth in paragraphs (iv) and (v) below (unless such dates are extended by mutual agreement of the City and Owner). In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 for each square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner, as applicable, for any excess from or against the #High Line# Improvement Fund , In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (c)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of temporary certificates of occupancy, and of final completion with respect to issuance of final certificates of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above, at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life, and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to the public versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead -basedproducts in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City ;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including , but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below -grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006 , subject to such delays as are outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(iv) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following the (effective date of amendment) or receipt of specifications for the Structural Remediation Work, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control.

(v) In the event that the City does not provide the specifications for the Structural Remediation Work within the timeframe set forth in paragraph (iv) of this subsection, Owner may exercise the option to perform such work and proceed with the Structural Remediation Work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(vi) If Owner exercises the option to perform the Structural Remediation Work, Owner shall reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone), such reimbursement not to exceed $115,000.

(2) Stairway and Elevator Access Work Under Paragraph (c)(3) of Section 98-25

(i) Owner shall perform Stairway and Elevator Access Work subject to the provisions of subparagraph 2 of this paragraph. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(3), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator located directly adjacent to or below the #High Line#. Except as approved by the Chairperson of the City Planning Commission pursuant to paragraph (1)(iii) of Section (a) of this Appendix, #curb# level entrances to such access facilities must be located at the #street line#. Such access facilities may be unenclosed or enclosed. When such access facilities are enclosed and located at the #street line#, any wall or façade separating the access facility from the street shall be substantially glazed and any such glazed surfaces shall be fully transparent. Stairways shall have a clear path of not less than 6 feet. Such access facilities shall consistent with and sympathetic to the design of the #High Line# on the #zoning lot#.

(iii) The Stairway and Elevator Access Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the provisions of paragraph (2)(ii) of this Section, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the Stairway and Elevator Access Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(3), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(3) #High Line# Service Facility Work Under Paragraph (c)(4) of Section 98-25

(i) For #zoning lots# located between West 16th and 17th streets, Owner shall perform #High Line# Service Facility Work subject to the provisions of this section. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(4), shall be of substantial completion of the work. For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) #High Line# Service Facilities shall consist of satellite maintenance and operations space for the #High Line# open space as well as public restrooms, in accordance with the following standards:

(a) Location

Such facilities shall have a component located at the level of the #High Line bed#, or within 5 feet of such level (hereinafter referred to as the "upper service facility"). Such facilities shall also have a component located no higher than #curb level# (hereinafter referred to as the "lower service facility"). The upper facility must be located directly above the lower facility to enable placement

of a trash chute connecting the upper and lower facilities. Where the upper facility is not located exactly at the level of the #High Line bed#, a fully accessible ramp must connect such level with the level of the upper facility. Where the lower facility is not located exactly at #curb level#, a means acceptable to the City of connecting the lower service facility to a #street# frontage shall be provided.

(b) Program and dimensions
(1) Lower service facilities
Lower service facilities shall contain a room which is accessible from #street# level and is no less than 50 square feet in area. Such facility shall contain the outlet of a trash chute from the upper service facility and shall also have a minimum of one electrical outlet furnishing a total of at least 1,200 watts of power.

(2) Upper service facilities
Upper service facilities shall be no less than 350 square feet in area and shall contain, at a minimum one public restroom not less than 250 square feet in area with separate restroom spaces for each gender, one storage room not less than 70 square feet in area, and one waste disposal room not less than 30 square feet in area and containing a trash chute to the lower service facility
Each room within such upper service facilities shall have a minimum of one electrical outlet furnishing a total of at least 1,200 watts of power.

(iii) The #High Line# Facility Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the standards of paragraph (ii) of this subsection, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the #High Line# Facility Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(4), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(v) The cost to Owner of the #High Line# Facilities Work shall not exceed $1,150,000. The amount of contribution to the #High Line# Improvement Fund under paragraph (1) of Section (a) of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such at the time it is made. .

(c) City Performance in the Event of Failure to Perform

(1) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under paragraph (1) of Section (a) of this Appendix), Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b)) and the Stairway and Elevator Access Work (under paragraph (3) of Section (b)), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above, as applicable, has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(2) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(i) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total) for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City, unless such date is extended by mutual agreement between the City and Owner; and

(ii) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control

(3) In the event Owner does not comply with the requirements of paragraph (2) above:

(i) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(ii) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(iii) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor may any temporary or permanent certificates of occupancy may be issued pursuant to Section 98-25, paragraph (d), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

Article IX - Special Purpose Districts

Chapter 8
Special West Chelsea District

98-00
GENERAL PURPOSES
The "Special West Chelsea District" established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. These general goals include among others, the following specific purposes:

(a) to encourage and guide the development of West Chelsea as a dynamic mixed use neighborhood;
(b) to encourage the development of residential uses along appropriate avenues and streets;
(c) to encourage and support the growth of arts-related uses in West Chelsea;
(d) to facilitate the restoration and reuse of the #High Line# elevated rail line as an accessible, public open space through special height and setback regulations, #High Line# improvement bonuses and the transfer of development rights from the #High Line# Transfer Corridor;
(e) to ensure that the form and use of new buildings relates to and enhances neighborhood character and the #High Line# open space;
(f) to create and provide a transition to the lower-scale Chelsea Historic District to the east;
(g) to create and provide a transition to the Hudson Yards area to the north; and
(h) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues, consistent with the foregoing purposes.

98-01
Definitions
Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are as set forth in Section 12-10 (DEFINITIONS).

High Line
The "High Line" shall for the purposes of this resolution refer to the elevated rail line structure and associated elevated easement located between Gansevoort Street and West 30th Street.

High Line bed
The "High Line bed" is the highest level of the horizontal surface (platform) of the #High Line# elevated rail line structure as of (the effective date of amendment), as shown in Diagram 7, in Appendix C of this Chapter. For the purposes of this Chapter, the level of the #High Line bed# is the average level of the #High Line bed# on a #zoning lot# over which the #High Line# passes.

High Line frontage
"High Line frontage" is that portion of a #building# that faces and is located within 15 feet of the west side and 25 feet of the east side of the #High Line#.

High Line Transfer Corridor
The "High Line Transfer Corridor" is an area within which the #High Line# is located, as specified in Appendix B of this Chapter, where development rights may be transferred to receiving sites in certain Subareas in the #Special West Chelsea District#, pursuant to the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-02
General Provisions
The provisions of this Chapter shall apply to any #zoning lot#, or portion thereof, within the #Special West Chelsea District#, except that the provisions of Section 98-17 (Air Space over a Railroad or Transit Right-of-way or Yard) and Section 98-11 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall also apply to any #zoning lot# south of the #Special West Chelsea District# over which the #High Line# passes. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

The provisions regarding the transfer of #floor area# set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive, and the #High Line Improvement Bonus# in Subareas D, E, and F, and G and I set forth in Section 98-25 shall be effective upon the issuance of a final and binding Certificate of Interim Trail Use (CITU) by the Federal Surface Transportation Board and the execution of a trail use agreement between the City and CSX Transportation, Inc., or its successor, or upon a determination by the Office of the Corporation Counsel that the restoration and reuse of the #High Line# as an accessible, public open space has been obtained pursuant to an alternative mechanism which protects the interests of the city.

Upon transfer of the #High Line# to the City pursuant to ULURP application C 050163 PCM and in accordance with such CITU and trail use agreement, the following shall apply:

(a) the provisions regarding the issuance of building permits set forth in Section 98-26 (Special Regulations for #Developments# and #Enlargements# Above, Beneath or Adjacent to the #High Line#) shall be effective; and
(b) any area within the tax lot located at Section 3, Block 8224, Lot 111, as of (effective date of amendment), which is separated from other portions of such tax lot by bounding streets, shall be considered a separate #zoning lot#; and
(c) Underlying #use# and bulk regulations shall not apply to #uses# and #buildings and other structures# constructed on the #High Line# specifically in connection with its use as a public open space.

98-03
District Plan and Maps
The regulations of this Chapter are designed to implement the #Special West Chelsea District# Plan.
The District Plan includes the following maps and illustrative diagrams in Appendices A, B, and C:

Appendix A	Special West Chelsea District and Subareas	
Appendix B	High Line Transfer Corridor Location and Floor Area Ratio	
Appendix C	Illustrative Diagrams of the High Line and Building Envelopes for Sites Adjacent to the High Line	
	Diagram 1	Street wall and High Line frontage regulations in Subareas C, F, and G
	Diagram 2	Street wall and High Line frontage regulations in Subarea A
	Diagram 3	Subarea H requirements
	Diagram 4	High Line Improvement Area for Zoning Lots Divided by District Boundaries in Subareas D, E and G
	Diagram 5	Subarea I requirements between West 16th and West 17th streets
	Diagram 6	High Line Access Easement Volume Parameters
	Diagram 7	High Line bed and frontages
Appendix D	Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea H	
Appendix E	Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E and G, or within Subarea I	

The maps and diagrams are hereby incorporated and made part of this Resolution. They are incorporated for the purpose of illustrating requirements or specifying locations where the special regulations and requirements set forth in the text of this Chapter shall apply.

98-04
Subareas and High Line Transfer Corridor
In order to carry out the provisions of this Chapter, nine Subareas (Subareas A through I), and a #High Line Transfer Corridor# are established within the #Special West Chelsea District#.

Within each of the Subareas and the #High Line Transfer Corridor#, certain special regulations apply that do not apply within the remainder of the #Special West Chelsea District#.

The locations of the nine Subareas are detailed in Appendix A of this Chapter. The location of the #High Line Transfer Corridor# is detailed in Appendix B of this Chapter,
The Subareas and the #High Line Transfer Corridor# are subject to all other regulations of the #Special West Chelsea District# and the underlying district regulations except as otherwise specified in this Chapter.

98-05
Applicability of District Regulations

98-051
Applicability of Chapter 1 of Article 1

(a) Within the #Special West Chelsea District#, Section 11-15 (Environmental Requirements) shall apply, except that prior to issuing a building permit for any #development#, or for an #enlargement#, #extension# or a change of #use#, on a lot that has an (E) designation for hazardous material contamination, noise or air quality, the Department of Buildings shall be furnished with a report from the Department of Environmental Protection (DEP) of the City of New York stating:

(1) in the case of an (E) designation for hazardous material contamination, that environmental requirements related to the (E) designation have been met for that lot; or

(2) in the case of an (E) designation for noise or air quality, that the plans and drawings for such #development# or #enlargement# will result in compliance with the environmental requirements related to the (E) designation.

(b) Section 11-332 (Extension of period to complete construction) shall apply, except that not withstanding the provisions of paragraph (a) of such Section, in the event that other construction for which a building permit has been lawfully issued and for which construction has been commenced but not completed on (effective date of amendment), such other construction may be continued provided that the construction is completed and a temporary or permanent certificate of occupancy is obtained not later than (one year after effective date of amendment).

98-10
SPECIAL USE AND PARKING REGULATIONS WITHIN THE SPECIAL WEST CHELSEA DISTRICT

98-11
Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line

The Commissioner of Buildings shall not issue any building permit for demolition, excavation or foundation work to be performed above or beneath the #High Line# or within 25 feet of support structures of the #High Line#, except by determination by such Commissioner that such work would not adversely affect the structural integrity of the #High Line#.

98-12
Modification of Use Regulations in C6 Districts

98-121
In Subarea H
In Subarea H, the provisions of Section 32-25 (Use Group 16), paragraph D. (Heavy Service, Wholesale, or Storage Establishments) are modified to permit, in #C6 Districts#, warehouse #uses# only in #cellars# located wholly below #curb level#.

98-122
Location Within Buildings
In any #C6 District# in the #Special West Chelsea District#, the provisions of Section 32-422 (Location of floors occupied by non-residential uses) are modified to permit non-#residential uses# on the same #story# as a #residential use# or on a story higher than that occupied by #residential uses#, provided that the non-#residential uses#:

(a) are located in a portion of the #building# that has separate direct access to the #street# with no access to the #residential# portion of the #building# at any #story#; and

(b) are not located directly over any portion of a #building# containing #dwelling units#, except this limitation shall not preclude the location of:
(1) #residential# lobby space below or on the same #story# as non-#residential uses#; or
(2) a #commercial use# that fronts on the #High Line# and is located within five feet of the level of the #High Line bed#.

98-13
Modification of Use Regulations in M1 Districts
In the #Special West Chelsea District#, the provisions of Section 42-10 (USES PERMITTED AS-OF-RIGHT) and 42-30 (USES PERMITTED BY SPECIAL PERMIT) are modified to permit, as-of-right, without limitation, in M1 Districts, museums and non-commercial art galleries as listed in Use Group 3.

98-14
Ground Floor Use and Transparency Requirements on Tenth Avenue
The special ground floor #use# and glazing regulations of this Section apply to that portion of a #building or other structure# fronting on Tenth Avenue in the #Special West Chelsea District#.
#Uses# located on the ground floor level or within five feet of #curb level#, and within 25 feet of the #street line# shall be limited to #commercial uses# permitted by the underlying district or museums or non-commercial art galleries as listed in Use Group 3. A building's #street# frontage shall be allocated exclusively to such #uses#, except for lobby space or entryways. In no event shall the length of #street# frontage occupied by lobby space or entryways exceed, in total, 40 feet or 50 percent of the building's total #street# frontage, whichever is less.
For any #development# or #enlargement#, each ground floor #street wall# shall be glazed with materials which may include show windows, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 70 percent of such ground floor #street wall# surface. The lowest point at any point of transparency that is provided to satisfy the requirements of this Section shall be not higher than two feet above the level of the adjoining sidewalk or public access area and shall be no less than eight feet in height measured from such lowest point. Not less than 50 percent of such ground floor #street wall# surface shall be glazed with transparent materials, and up to 20 percent of
such ground floor #street wall# may be glazed with translucent materials.

98-141
Transparency requirements within Subareas H and I-
The transparency requirements of this Section shall apply to all portions of #developments# and #enlargements# within the eastern #High Line frontage# of Subareas H and I, except for such portions that contain #dwelling units#. At least 70 percent of the area of such frontage, to be measured from a point not lower than four feet and not higher than eight feet above the level of the #High Line bed# shall be glazed and transparent and at least 75 percent of such glazed surface shall be fully transparent.

98-15
Security Gates
All security gates installed after (effective date of amendment) that are swung, drawn, or lowered to secure #commercial# or #community facility# premises shall, when closed, permit visibility of at least 75 percent of the façade area covered by such gate, when viewed from the #street#, except that this provision shall not apply to entrances or exits to parking facilities.

98-16
Signs
The #sign# regulations of the underlying districts in the #Special West Chelsea District# shall not apply to #signs# located within 50 feet of the #High Line#, except for signs located entirely below the level of the #High Line# bed. In lieu thereof, the #sign# regulations of a C1 district shall apply, except that #accessory signs# located within the #High Line frontage# may have a maximum height of 20 feet above the level of the #High Line bed#.
No signs affixed to or resting upon the #High Line# shall be permitted, except as pursuant to a signage plan for the #High Line#, as authorized by the City Planning Commission, provided the Commission finds that such signage plan will:

(a) enhance the use of the #High Line# by providing signage that is consistent with the use of the #High Line# as a public open space;
(b) provide, at a minimum, directional, informational, and interpretive signage consistent with the use of the #High Line# as a public open space;
(c) be integrated with the design of the #High Line# open space; and
(d) not adversely affect development adjacent to the #High Line# and in the surrounding neighborhood

98-17
Air Space Over a Railroad or Transit Right-of-way or Yard
For the purposes of this Resolution, the #High Line# shall not be considered a railroad or transit right-of-way and the provisions of Sections 32-44 (Air Space over a Railroad or Transit Right-of-way or Yard) and 42-462 (Air Space over a Railroad or Transit Right-of-way or Yard) shall not apply.

98-18
Parking Regulations in Subarea H
#Accessory# off-street parking spaces for existing or new governmental offices may be located on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided such spaces are located within Subarea H and in a facility, or portion thereof, that is entirely below #curb level# and that no more than 377 spaces are provided within such facility. For purposes of this Section, the governmental offices on Block 688, Lots 1001-1002 (as of the effective date) may have up to 377 #accessory# off-street parking spaces in such facility.

98-19
Lighting
All exterior light sources located within the #High Line frontage# shall be shielded from direct view from the #High Line#.

98-20
FLOOR AREA AND LOT COVERAGE REGULATIONS
The #floor area# provisions of this Section 98-20, inclusive, shall apply. Furthermore, special #floor area# transfer provisions are set forth in Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive.

98-21
Maximum Floor Area Ratio outside of Subareas
For all #zoning lots# or portions thereof located outside of Subareas A through I, the maximum #floor area ratios# of the applicable underlying district shall apply.

98-22
Maximum Floor Area Ratio and Lot Coverage in Subareas
For all #zoning lots# or portions thereof located in Subareas A through I, the maximum #floor area ratios#, #open space ratios# and #lot coverages# of the applicable underlying district shall not apply. In lieu thereof, the maximum #floor area ratio# permitted for #commercial#, #community facility#, and #residential uses#, separately or in combination, shall be as specified in the following table. For #residential use#, the maximum #lot coverage# shall be 70 percent for #interior# or #through lots# and 80 percent for #corner lots#, except that no maximum #lot coverage# shall apply to any #zoning lot# comprising a #corner lot# of 5,000 square feet or less.

TABLE A
Maximum Floor Area Ratio by Subarea

Subarea	Basic Maximum #floor area ratio#	Increase in FAR pursuant to section 98-30(HIGH LINE TRANSFER CORRIDOR	Increase in FAR pursuant to section 98-25 (High Line Improvement Bonus)	Inclusionary Housing: Minimum FAR required to be transferred (note 1)	Inclusionary Housing: Increase in FAR pursuant to Section 98-26 (Modifications to Inclusionary Housing Program)	Maximum permitted # floor area ratio#
A	7.5	2.5	(note 2)	1.65	2.85	12.0
B	5.0	2.5	(note 2)	1.65	0.85	7.5
C	5.0	2.5	NA	1.65	0.85	7.5
D	5.0	2.5 (note 3)	2.5 (note 3)	1.65	0.85	7.5
E	5.0	1.0 (note 3)	1.0 (notes 2 & 3)	0.65	0.35	6.0
F	5.0	NA	NA	NA	NA	5.0
G	5.0	1.0 (note 3)	1.0 (note 3)	0.65	0.35	6.0
H	7.5	NA	2.5	NA	NA	10.0
I	5.0	2.5	NA	1.65	0.85	7.5
I (note 4)	5.0	1.0	1.5	0.65	0.35	7.5

Note 1
Minimum #floor area ratios# required to be transferred pursuant to Section 98-30 (HIGH LINE TRANSFER CORRIDOR), inclusive, before Inclusionary Housing #floor area# bonus can be utilized.

Note 2
In Subareas A, B, and E, the applicable basic maximum #floor area ratio# of that portion of the #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, and the applicable maximum permitted #floor area ratio# increased accordingly, by certification of the Chairperson of the City Planning Commission, pursuant to Section 98-35 (High Line Transfer Corridor Bonus).

Note 3
For certain zoning lots located in Subareas D, E, and G, the provisions of Section 98-25 (#High Line# Improvement Bonus) may apply in lieu of the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR), subject to the provisions of Section 98-24 (Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E, and G).

Note 4
For #zoning lots# over which the #High Line# passes.

98-23
Special Floor Area and Lot Coverage Rules for Zoning Lots Over Which the High Line Passes
#Lot coverage# requirements shall not apply to the portion of the #zoning lot# that lies directly beneath the #High Line#. The remaining portion of the #zoning lot# shall be considered a separate #zoning lot# for the purposes of calculating maximum #lot coverage#. Easement volumes provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS) and access structures constructed therein, as well as any structure required pursuant to Appendix D or E in relation to an increase in the basic maximum #floor area # ratio of a #zoning lot# pursuant to Section 98-25 (#High Line# Improvement Bonus), shall not be considered #floor area# or #lot coverage#.
However, #lot coverage# requirements shall apply to the entire #zoning lot# for the purposes of applying tower #lot coverage# regulations as set forth in paragraph (b) of Section 98-423.

98-24
Special Floor Area Rules for Zoning Lots Divided by District Boundaries in Subareas D, E and G
For #zoning lots# fronting on West 18th Street and located partially in Subarea D, partially in Subarea E and partially in Subarea G, #floor area# may be transferred across zoning district and subarea boundaries without restriction. Either the provisions of Section 98-30 (HIGH LINE TRANSFER CORRIDOR) or Section 98-25 (High Line Improvement Bonus) may apply to such #zoning lot#, as applicable, and the maximum permitted #floor area ratio# specified in the table in Section 98-22 shall apply, as applicable, for each subarea.

98-25
High Line Improvement Bonus
For #zoning lots# located between West 16th and West 19th streets over which the #High Line# passes, the applicable basic maximum #floor area ratio# of the #zoning lot# may be increased up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), provided that:

(a) Prior to issuing a building permit for any #development# or #enlargement# on such #zoning lot# that anticipates using #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished with a certification by the Chairperson of the City Planning Commission that: (1) a contribution has been deposited into an escrow account or similar fund established by the City (the #High Line # Improvement Fund), or such contribution is secured by letter of credit or other cash equivalent instrument in a form acceptable to the City. Such contribution shall be used at the direction of the Chairperson solely for improvements to the #High Line# within the #High Line# improvement area applicable to such #zoning lot#, with such contribution being first used for improvements within that portion of the #High Line# improvement area on such #zoning lot#. Such contribution shall be made in accordance with the provisions of Appendix D or E, as applicable; and (2) a declaration of restrictions executed by all #parties in interest# to the #zoning lot# as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS) , including and incorporating such other instruments as are necessary to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, is filed and recorded in the Office of the Register of the City of New York; and (3) all additional requirements of Appendix D or E, as applicable with respect to issuance of a building permit, have been met.

(b) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located between Subarea H over which the #High Line# passes that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix D, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;
(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix D;
(3) At-Grade Plaza Work has been performed on such #zoning lot# in the area shown in Diagram 3 of Appendix C, in accordance with Appendix D;
(4) stairway and elevator access work has been performed on such #zoning lot# in the At-Grade Plaza area shown in Diagram 3 of Appendix C, or that an additional contribution to the #High Line# Improvement Fund to fund performance of such work has been made, in accordance with Appendix D; and
(5) all other applicable requirements of Appendix D have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For

permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix D.

(c) Prior to issuing a certificate of occupancy for any portion of a #development# or #enlargement# on a #zoning lot # located within Subarea I or located partially within Subareas D, E, and G over which the #High Line# passes that incorporates #floor area# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, the Department of Buildings shall be furnished by a certification by the Chairperson of the City Planning Commission that:

(1) if required pursuant to agreement with the City under Appendix E, #High Line# improvements within the #High Line# improvement area for such #zoning lot# have been performed in accordance such agreement;

(2) if elected by the Owner, structural and remediation work has been performed on the #High Line# within the #High Line# improvement area for such #zoning lot#, in accordance with Appendix E;

(3) stairway and elevator access work has been performed on such #zoning lot #, in accordance with Appendix E;

(4) for #zoning lots# located between Subarea I over which the #High Line# passes, #High Line# Service Facility Work has been performed, in accordance with Appendix E; and

(5) all other applicable requirements of Appendix E have been met.

For temporary certificates of occupancy, certification with respect to performance of work shall be of substantial completion of the work as determined by Chairperson. For permanent certificates of occupancy, certification with respect to performance of work shall be of final completion of the work, as determined by the Chairperson. In the event of a failure to perform work timely or to otherwise satisfy the requirements of this subsection, no temporary or permanent certificate of occupancy shall be issued for #floor area# above the applicable basic maximum #floor area# for the #zoning lot# specified in Section 98-22, and the City may perform all such work in accordance with the provisions of Appendix E.

98-26
Modifications of Inclusionary Housing Program
The provisions of Section 23-90 (INCLUSIONARY HOUSING) are modified within the #Special West Chelsea District#, as set forth in this Section.

98-261
Definitions
For the purposes of Section 23-943 (Preservation option), the following definitions in Section 23-92 shall be modified:

Fair Rent
"Fair rent" shall include, in addition to that rent permitted pursuant to Section 23-92, the payment of principal and interest on mortgage debt, and #lower income housing# may secure such debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-94(c) of this Resolution.

Lower Income Household
A "lower income household" is a #family# having an income equal to or less than the following proportion:

$$\frac{125}{80}$$

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.
#Lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City and State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with the U.S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.
Section 23-93 shall be modified so that the applicable ratio for Preservation in Column B shall be 1.5:1.
Section 23-943, paragraph (a) shall be modified to provide that the #administering agent# shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

98-262
Floor area increase
In accordance with the provisions set forth in Section 98-22 (Maximum Floor Area Ratio and Lot Coverage in Subareas), the maximum permitted #residential floor area ratio# for #developments# or #enlargements# that have increased their permitted #floor area# through the transfer of development rights from the #High Line Transfer Corridor# by the minimum amount specified in the table in Section 98-22 may further increase their permitted #floor area# through the provision of Inclusionary Housing, as modified in this Section 98-26, to the maximum amount specified in such table.
However, in those subareas or portions thereof where the Inclusionary Housing Program is applicable, and where the Chairperson of the Department of City Planning has certified that at least 90 percent of the total development rights within the #High Line Transfer Corridor# have been transferred pursuant to Section 98-30, no transfer of #floor area# pursuant to Section 98-30 shall be required, and the basic maximum #floor area ratio# of the #development# or #enlargement# may be increased by up to 1.0 in Subareas E and G, and on any #zoning lot# located in Subarea I over which the #High Line# passes; up to 2.5 in Subareas B, C, and D and on any #zoning lot# located in Subarea I over which the #High Line# does not pass, and up to 4.5 in Subarea A.

98-30
HIGH LINE TRANSFER CORRIDOR

98-31
Purposes
The #High Line Transfer Corridor#, established within the #Special West Chelsea District#, is intended to enable the transfer of development rights from properties over which and immediately to the west of where the #High Line# passes and thereby permit light and air to penetrate to the #High Line# and preserve and create view corridors from the #High Line# bed.

98-32
General Provisions
The location of the #High Line Transfer Corridor# is specified in Appendix B of this Chapter.
In the #High Line Transfer Corridor#, special regulations relating to the transfer of #floor area# are set forth in Sections 98-33 through and 98-35 inclusive.

98-33
Transfer of Development Rights From the High Line Transfer Corridor
In the #Special West Chelsea District#, a "granting site" shall mean a #zoning lot#, or portion thereof, in the #High Line Transfer Corridor#. A "receiving site" shall mean a #zoning lot#, or portion thereof, in any subarea other than Subareas F and H. #Floor area# from a granting site may be transferred to a receiving site in accordance with the provisions of this Section.

(a) Notification
Prior to any transfer of #floor area#, the Department of City Planning shall be notified in writing of such intent to transfer #floor area#. Such notification shall be made jointly by the owners of the granting and receiving sites and shall include:

(1) #floor area# zoning calculations for the granting and receiving site, and

(2) a copy of the distribution instrument legally sufficient in both form and content to effect such a distribution, and

(3) if applicable, a certified copy of the instrument creating a secondary #High Line# access easement volume, pursuant to the provisions of Section 98-63.

Notices of restrictions in a form acceptable to the Department of City Planning shall be filed by the owners of the granting and receiving sites in the Office of the Register of the City Of New York, indexed against the granting and receiving sites, certified copies of which shall be submitted to the Department of City Planning. Notice by the Department of City Planning of its receipt of certified copies thereof shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit for any #development# or #enlargement# on the receiving site.

(b) #Floor area#
The maximum amount of #floor area# transferred from a granting site located outside of a subarea shall not exceed the maximum #floor area ratio# permitted for a #commercial use# on such granting site, less any existing #floor area# to remain on such granting site.
The maximum amount of #floor area# transferred from a granting site located in a subarea shall not exceed the basic maximum #floor area ratio# specified for the applicable subarea in the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas), less any existing #floor area# to remain on such granting site.
Each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be transferred from the granting site by the amount of #floor area# transferred.
The amount of #floor area# transferred to a receiving site from a granting site in the #High Line Transfer Corridor# shall not exceed the #floor area ratio# permitted on the receiving site through such transfer, pursuant to the Table in Section 98-22 (Maximum Floor Area Ratio in Subareas).

(c) #Use#
#Floor area# transferred from a granting site within the #High Line Transfer Corridor# may be used for any #use# allowed on the receiving site in accordance with the underlying zoning designation and the provisions of this Chapter.

(d) Stairway easement requirement
As a condition for the transfer of #floor area#, an easement volume to facilitate pedestrian access to the #High Line# via stairway shall be provided in accordance with the provisions of Section 98-60 (SPECIAL ACCESS REGULATIONS FOR ZONING LOTS OVER WHICH THE HIGH LINE PASSES OR ADJACENT TO THE HIGH LINE) and Section 98-63 (Recording of the #High Line# Access Easement Volume).

(e) Restrictive Declaration
As a condition for the transfer of #floor area#, and in order to assure that the City's interest in the restoration and reuse of the #High Line# as an accessible public open space is protected, a declaration of restrictions, executed by all #parties in interest# of the granting lot as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10 (DEFINITIONS), and including and incorporating such other instruments as are necessary to accomplish such purposes, as determined by the Department of City Planning in consultation with the Office of the Corporation Counsel, shall be filed and recorded in the Office of the Register of the City of New York. Notice by the Department of City Planning of receipt of certified copies of such recorded declaration shall be a pre-condition to issuance by the Commissioner of Buildings of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site. Such recorded declaration shall be in addition to the Notice of Restrictions required pursuant to subdivision (a) of this Section.

98-34
Screening and Landscaping Requirements for Vacant Sites
Any #zoning lot# within the #High Line Transfer Corridor# that has transferred #floor area# pursuant to Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor), and is 50 percent or more vacant shall be screened from the street and/or landscaped in accordance with the provisions of this Section; except that #zoning lots# occupied by #buildings# that extend along at least 85 percent of the #street# frontage of the #zoning lot# and are located within five feet of the #street line# are not required to provide screening or landscaping.
Such open or vacant areas on #zoning lots# shall be screened from the street by a fence or gate with a surface that is at least 75 percent open, extending not less than six feet and not higher than eight feet above finished grade; or alternatively, by a planting strip at least four feet wide and densely planted with evergreen shrubs at least four feet high at the time of planting or of a variety expected to reach a height of six feet within three years, or by both. Chain link and fences containing barbed wire or razor wire shall be prohibited. For portions of #zoning lots# located beneath the #High Line# planting strips shall be prohibited.

98-35
#High Line Transfer Corridor# Bonus
For #zoning lots#, or portions thereof, within the #High Line Transfer Corridor#, the applicable basic maximum #floor area ratio# of that portion of a #zoning lot# that is within the #High Line Transfer Corridor# may be increased up to a maximum of 1.0, for an amount of #floor area# equivalent to the area of that portion of the #zoning lot# located within the #High Line Transfer Corridor#, provided the Chairperson of the City Planning Commission has certified that

(d) all the permitted #floor area# on that portion of the #zoning lot# that is within the #High Line Transfer Corridor# has been transferred to an eligible receiving site, in accordance with the provisions of Section 98-33 (Transfer of Development Rights From the #High Line# Transfer Corridor);

(e) that such granting site is vacant; and

(f) a contribution has been deposited into the #High Line# Improvement Fund established under Section 98-25, to be used at the direction of the Chairperson of the City Planning Commission to assure that the #High Line# is restored and reused as a public accessible open space.

No #building# permit for any #development# or #enlargement# that anticipates using such increased #floor area# may be issued unless and until such certification has been made.

Such contribution amount shall be $50.00 per square foot of #floor area# as of (the effective date of amendment) and shall be adjusted July 1 of the following year and each year thereafter, by the City or its designee, based on the percentage change in the Consumer Price Index for all urban consumers as defined by the U.S. Bureau of Labor Statistics.

Such bonus #floor area# shall only be used for a permitted #commercial use#, which shall be located in that portion of the #zoning lot# that is within the #High Line Transfer Corridor#; however, #public parking lots# and #public parking garages# at or above #curb level# shall not be permitted; and the height of any #development# or #enlargement# within the #High Line Transfer Corridor# shall not exceed a height of 3 feet 6 inches above the level of the #High Line bed#.

98-40
SPECIAL YARD, HEIGHT AND SETBACK, AND MINIMUM DISTANCE BETWEEN BUILDINGS REGULATIONS

98-41
Special Rear Yard Regulations
The #yard# regulations of the underlying district shall apply, except that no #rear yard# regulations shall apply to any #zoning lot# that includes a #through lot# portion that is contiguous on one side to two #corner lot# portions and such #zoning lot# occupies the entire #block# frontage of the #street#.

98-42
Special Height and Setback Regulations
The height and setback regulations of the underlying district shall not apply, except as set forth in this Section 98-42, inclusive. Furthermore, for any #zoning lot# located within or adjacent to the #High Line Transfer Corridor#, the provisions of Section 98-50, inclusive, shall also apply. All heights shall be measured from the #base plane#, unless otherwise specified.

98-421
Obstruction over the High Line

Within the #Special West Chelsea District#, the #High Line# shall remain open and unobstructed from the #High Line bed# to the sky, except for improvements constructed on the #High Line# in connection with the use of the #High Line# as a public open space.

98-422
Special rooftop regulations
The provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings or other structures# within the #Special West Chelsea District# except as modified as follows:

(a) Permitted Obstructions
Elevator or stair bulkheads, roof water tanks, cooling towers or other mechanical equipment (including enclosures), may penetrate a #sky exposure plane# or a maximum height limit provided that either the product, in square feet, of the #aggregate width of street walls# of such obstructions facing each #street# frontage, times their average height, in feet, shall not exceed a figure equal to eight times the width, in feet, of the #street wall# of the #building# facing such frontage, or, the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#, and the height of all such obstructions does not exceed 40 feet. In addition, dormers may penetrate a maximum base height in accordance with the provisions of paragraph (c) of Section 23-621 (Permitted obstructions in certain districts). However, dormers may not exceed the maximum #building# height in Subareas F, C and G where the maximum base height and maximum #building# height are the same.

(b) Ventilation and mechanical equipment
All mechanical equipment located within 15 feet of the level of the #High Line# bed that is within 25 feet of the #High Line#, measured horizontally, or within the #High Line frontage#, as applicable, shall be screened and buffered with no intake or exhaust fans or vents facing directly onto the #High Line#.

98-423
Street wall location, minimum and maximum base heights and maximum building heights

The provisions set forth in paragraph (a) of this Section shall apply to all #developments# and #enlargements#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (f) of this Section.

(a) The #street wall# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in Table A of this Section. Recesses, not to exceed three feet in depth from the #street line#, shall be permitted on the ground floor where

required to provide access to the #building#. Above a height of 12 feet above the #base plane#, up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#, provided any such recesses deeper than 10 feet along a #wide street#, or 15 feet along a #narrow street#, are located within an #outer court#. Furthermore, no recesses shall be permitted within 30 feet of the intersection of two #street lines# except that, to allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.

For #developments# that occupy the entire #block# frontage of a #street# and provide a continuous sidewalk widening along such #street line#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section. The #street wall# location provisions of this section shall not apply along that portion of any #street# frontage:

(1) over which the #High Line# passes;
(2) occupied by existing #buildings# to remain, or
(3) between the #High Line# and a #side lot line#, where such frontage measures less than 20 feet.

All portions of #buildings or other structures# that exceed the applicable maximum base height specified in Table A shall provide a setback at a height not lower than the applicable minimum base height. A setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#, except such dimensions may include the depth of permitted recesses in the #street wall#.

No #building or other structure# shall exceed the maximum #building# height specified in Table A.

(d) Subareas A and D

(1) #Street wall# location

The #street wall# location provisions set forth in paragraph (a) of this Section shall apply, except that for #zoning lots# with #wide# and #narrow street# frontage, no #street wall# is required beyond 50 feet of a #wide street#.

However, in Subarea D, for #buildings# that do not include towers as set forth in paragraph (b)(3) of this Section, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front . In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within ten feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.

(2) Setback provisions

The setback provisions for portions of #buildings# above the maximum base height set forth in paragraph (a) of this Section shall not apply. In lieu thereof, no portion of a #building or other structure# that exceeds the applicable maximum base height shall penetrate a #sky exposure plane# that begins above the #street line# at the maximum base height and rises over the #zoning lot# at a ratio of 2.7 feet of vertical distance to one foot of horizontal distance on a #narrow street#; and 5.6 feet of vertical distance to one foot of horizontal distance on a #wide street#.

(3) Tower provisions

Any #building#, or portion thereof, which in the aggregate occupies not more than 40 percent of the #lot area# of the #zoning lot# and penetrates the #sky exposure planes# set forth in paragraph (b)(2) of this Section is hereinafter referred to as a "tower". Such towers are permitted provided they are set back at least 10 feet from a #wide street line# and at least 15 feet from a #narrow street line#, and provided no other portion of the #building# exceeds the applicable maximum base height. In addition, the following rules shall apply:

(i) For #zoning lots# with less than 20,000 square feet of #lot area#, such tower may occupy more than 40 percent of the #lot area# of the #zoning lot# in accordance with the provisions of Section 33-454 (Towers on small lots).

(ii) Any #story# within the highest 40 feet of such tower (the penthouse portion), shall not exceed 85 percent of the gross area of the highest #story# directly below such penthouse portion

(iii) In Subarea A, such tower shall occupy at least 30 percent of the #lot area# of the #zoning lot#, except that such minimum #lot coverage# requirement shall be reduced to 25 percent above a height of 220 feet. However, no minimum #lot area# requirement shall apply to the highest four #stories# or 40 feet of such #building#, whichever is less.

(iv) In Subarea A, the maximum length of any #story# located above a height of 220 feet shall not exceed 150 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above a height of 220 feet. Any side of such rectangle shall not exceed 150 feet.

(v) In Subarea A, for any #zoning lot# with more than 75 feet of #narrow street# frontage in which a #side lot line# is located within an area bounded by a line 200 feet east of and parallel to Eleventh Avenue and a line 410 feet east of and parallel to Eleventh Avenue, no tower portion of a #building# shall be located closer than 25 feet to such #side lot lines#.

(vi) In Subarea D, the maximum #building# height shall be 220 feet, and the maximum length of any #story# located above the maximum base height shall not exceed 150 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# wholly or partially above the maximum base height. Any side of such rectangle shall not exceed 150 feet. However, for #zoning lots# that occupy the entire Eleventh Avenue #block# front, a portion of the #street wall# may rise above the maximum base height without setback from Eleventh Avenue provided the aggregate width of the Eleventh Avenue #street wall# does not exceed 100 feet.

(c) Subareas C, F and G

In Subareas C, F and G, for #zoning lots# with wide and narrow street frontage, no #street wall# is required beyond 50 feet of a wide street. Furthermore, for any #development# or #enlargement# that occupies at least one corner of the Tenth Avenue #block# front and extends along the Tenth Avenue frontage of the #zoning lot# for at least 170 feet, exclusive of existing #buildings# to remain, a lowered #street wall# shall be provided for any #building# that exceeds 45 feet in height. Such lowered #street wall# shall have a maximum height of 45 feet and a minimum height of 35 feet and extend along the Tenth Avenue frontage for a width not less than 25 percent and not more than 30 percent of the #aggregate width of street walls# facing Tenth Avenue. Such lowered #street wall# portion of the Tenth Avenue frontage shall be located at the intersection of Tenth Avenue and a #narrow street#. Such lowered #street wall# shall extend along such #narrow street line# for a distance of at least 50 feet from Tenth Avenue. Beyond 50 feet of Tenth Avenue, excluding the #High Line frontage# of a #building#, such portion of the #building# shall not exceed a height of 45 feet.

The provisions of this Section, relating to the location and height of the lowered #street wall# portion of the Tenth Avenue frontage of a #development# are illustrated in Diagram 1 (Street Wall and #High Line# Frontage Regulations in Subareas C, F and G), in Appendix C of this Chapter.

(d) Subarea E

The #street wall# location provisions set forth in paragraph (a) shall not apply to any #development# or #enlargement# on a #zoning lot# fronting on West 18th Street and located partially in Subareas D, E and G, where #floor area# has been transferred pursuant to Section 98-24. A maximum of 60 percent of the West 18th Street frontage within Subarea E may rise without setback to a maximum #building# height of 250 feet and a minimum of 20 percent of the West 18th Street frontage within Subarea E shall rise without setback to a minimum height of 60 feet and a maximum height of 85 feet and be located within 10 feet of the #street line#.

(e) Subarea H

No #building or other structure# shall be located east of the #High Line#.

No portion of a #building or other structure# shall exceed a height of 85 feet except for two #buildings#, or portions of #buildings#, hereinafter referred to as Tower East and Tower West. At or above the base height, both such towers shall be set back at least 10 feet from any #street wall# facing a #wide street# and at least 15 feet from any #street wall# facing a #narrow street#. Such set backs shall be provided at a height not lower than 60 feet, except that such set backs may be provided at a height not lower than 40 feet, provided at least 65 percent of the #aggregate width of street walls# facing #narrow streets# and at least 60 percent of the #aggregate width of street walls# facing #wide streets# have a minimum base height of 60 feet. Tower East shall be located in its entirety within 240 feet of the Tenth Avenue #street line#, and Tower West shall be located in its entirety within 200 feet of the Eleventh Avenue #street line#. Neither tower shall exceed a height of 280 feet.

A maximum of 50 percent of the #street wall# of Tower West may rise without setback from a #narrow street line#. Such portion of the #street wall# shall be located a minimum of 15 feet and a maximum of 20 feet from the #narrow street line#.

(f) Subarea I

In that portion of Subarea I located within 300 feet of Tenth Avenue between West 16th Street and West 17th Street, the #street wall# location provisions set forth in paragraph (a) shall not apply along Tenth Avenue, as illustrated in Diagram 5 (Subarea H Requirements), of Appendix C of this Chapter, but shall apply along a minimum of 85 percent of the West 16th Street and West 17th Street frontages. No portion of a #building or other structure# located within 300 feet of Tenth Avenue shall exceed a height of 120 feet, except for one #building# which may have a height not to exceed 220 feet provided such #building# is located in its entirety within 90 feet of West 17th Street and has a length that does not exceed 175 feet when measured parallel to the West 17th Street #street line#.

In all other portions of Subarea I, the provisions of paragraph (a) shall apply.

TABLE A
Minimum and Maximum Base Height and Maximum Building Height by District or Subarea

District or Subarea	Minimum Base Height (in feet)	Maximum Base Height (in feet)	Maximum Building Height (in feet)
C6-2A	60	85	120
C6-3A	60	102	145
A within 100 feet of a #wide street#	60	85	See paragraph (b)
A beyond 100 feet of #wide street#	40	60	See paragraph (b)
B, M1-5	60	95	135
C for #zoning lots# with only #narrow street# frontage	60	110	110
C for #zoning lots# with Tenth Avenue frontage	105 See paragraph (c)	125 See paragraph (c)	125 See paragraph (c)
C for #zoning lots# with Eleventh Avenue frontage	125 See paragraph (c)	145 See paragraph (c)	145 See paragraph (c)
D	60	90	220 See paragraph (b)
E	60	105	120 See paragraph (d)
F	60 See paragraph (c)	80 See paragraph (c)	80 See paragraph (c)
G for #zoning lots# with only #narrow street# frontage	60	95	95
G for #zoning lots# with #wide street# frontage	105 See paragraph (c)	120 See paragraph (c)	120 See paragraph (c)
H	60 See paragraph (e)	120 See paragraph (e)	See paragraph (e)
I within 300 ft of Tenth Ave between W. 16th St. and W. 17th St.	60	85	120 See paragraph (f)
I all other areas	60	105	135

98-424
Authorization to modify height and setback regulations

The City Planning Commission may authorize the modification of height and setback regulations set forth in Section 98-40 and 98-50, inclusive, and the transparency requirements set forth in Sections 98-141 and 98-54 for that portion of any #development# or #enlargement# located within 40 feet of the #High Line#. The Commission shall find that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public areas.

The Commission may prescribe appropriate conditions and safeguards to enhance the character of the surrounding area.

98-43
Special Distance Between Buildings Regulations

The provisions of Section 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) shall not apply.

98-50
SPECIAL HEIGHT AND SETBACK, OPEN AREA AND TRANSPARENCY REGULATIONS FOR ZONING LOTS WITHIN OR ADJACENT TO THE HIGH LINE TRANSFER CORRIDOR

98-51
Height and Setback Regulations on the East Side of the High Line

(a) Subarea A

At least 60 percent of the aggregate length of the eastern #High Line frontage# of a #building# shall set back at the level of the #High Line bed#. Not more than 40 percent of the aggregate length of such #High Line frontage# may rise above the level of the #High Line bed#. No portion of such #High Line frontage# shall exceed a maximum height of 20 feet above the level of the #High Line bed#, as illustrated in Diagram 2 (Street Wall and #High Line# Frontage Regulations in Subarea A) in Appendix C, of this Chapter.

(b) In C6-3A Districts, and in Subareas C, F and G

For #zoning lots# extending less than 120 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of a #building# shall exceed a height of 3 feet 6 inches above the level of the #High Line bed#.

For #zoning lots# that extend for at least 120 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of the #building# shall exceed a height of 3 feet 6 inches above the level of the #High Line bed#, except that a maximum of 40 percent of such #High Line frontage# may rise without setback above a height of 3 feet 6 inches above the level of the #High Line bed# provided such portion of the #building# is not located directly between the #High Line# and any #street wall# of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (a) (Subareas C, F and I) of Section 98-441 (Street wall location and minimum base heights).

However, the provisions of this paragraph (b) shall not apply to any #zoning lot# existing on (the effective date of amendment) where the greatest distance between the eastern side of the #High Line# and a #side lot line# east of the #High Line# is 35 feet when measured parallel to the nearest #narrow street line#.

98-52
Height and Setback Regulations on West Side of High Line

In C6-2A, C6-3A and M1-5 Districts, and in Subareas A, B and E, no portion of the western #High Line frontage# of a #building# shall exceed a height of 3 feet 6 inches above the level of the #High Line bed#.

98-53
Required Open Areas on the East Side of the High Line

At least 20 percent of the #lot area# of any #development# or #enlargement# on a #zoning lot#, or portion thereof, within C6-3A Districts or within Subareas A, C, F or G and over which the #High Line# passes or adjacent to a #zoning lot# over which the #High Line# passes, shall be landscaped open area, pursuant to the requirements of paragraph (a) (Open area requirements), and (b)(Permitted obstructions) of this Section. Such open area shall be located directly adjacent to the #High Line# with its longest side adjacent to the #High Line# and shall be located at an elevation not to exceed a height of 3 feet 6 inches above the level of the #High Line bed# adjacent to the #zoning lot#. At no point shall such open area be located within 50 feet of Tenth Avenue.

(a) Open area requirements

All required open areas shall:

(1) have no portion used as a driveway, vehicular access way or for parking, and shall be screened from off-street loading and service areas;
(2) be landscaped with shrubs, vines, flowers, ground cover, trees, and/or plants in planters over a minimum of 25 percent of the required open area;
(3) be maintained by the building owner who shall be responsible for the maintenance of the open area including, but not limited to, the repair of all amenities, litter control and the care and replacement of vegetation within the zoning lot; and
(4) have all mechanical equipment which is located at the same elevation as the open area, or within 15 feet of the level of the open area, screened and buffered with no intake or exhaust fans facing directly onto the required open area.
(5) Open area screening

Required open area provided at the level of the #High Line bed# may be screened and/or separated from the public areas of the #High Line# by a wall, fence, or plantings extending not higher than 8 feet above the average elevation of the #High Line bed#. Non-vegetated screening materials must be substantially transparent. For the purposes of this Section, a substantially transparent screening is defined as transparent, or non-opaque, in an evenly distributed fashion for at least 75 percent of its

area. Chain link fences shall not be a permitted screening material. Vegetated screening, such as shrubs, vines, and other plantings, may be completely covered by vegetation and opaque, provided that any underlying surface is substantially transparent.
In addition, such screening material shall be maintained in good condition at all times, may be interrupted by normal entrances and/or exits, and shall have no signs hung or attached thereto, other than those permitted in Section 98-16 (Signs).

(b) Permitted obstruction

(1) Any #High Line# access structure, providing pedestrian access to the #High Line#, by stairway or elevator, may be located within such required open area;
(2) The provisions of paragraph (g)(1) (Permitted obstructions) of Section 37-04 (Requirements for Urban Plazas) shall apply; and
(3) Open air cafes and kiosks may be located in such required open area. Open air cafes may occupy in the aggregate no more than 75 percent of such required open area.

98-54
Transparency Requirements on the East Side of the High Line
The transparency requirements of this Section shall apply to the #High Line frontage# portion of #developments# and #enlargements# located in C6-3A Districts and within Subareas A, C, F and G except for such portions that contain #dwelling units#. At least 50 percent of the area of such frontage, to be measured from a point not lower than four feet and not higher than eight feet above the level of the #High Line bed# shall be glazed and transparent and at least 75 percent of such glazed surface shall be fully transparent.

98-55
Requirements for Non-Transparent Surfaces on the East Side of the High Line
Any portion of such #High Line frontage# that is 40 feet or more in length and contains no transparent element between the level of the #High Line bed# and an elevation of twelve (12) feet above the level of the #High Line bed#, shall be planted with vines or other plantings or contain artwork. Such elements shall substantially cover the applicable non-transparent portion of the #High Line frontage#.

98-60
SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS

98-61
High Line Access Easement Volume Requirement
For all #developments# or #enlargements# within the Special West Chelsea District, an easement volume to facilitate public pedestrian access to the #High Line# via stairway and elevator (hereinafter referred to as "primary access"), shall be provided on any #zoning lot# over which the #High Line# passes that, on or after (the date of referral of zoning text amendment) has more than 5,000 square feet of #lot area#.
In the #High Line Transfer Corridor#, an easement volume to facilitate public pedestrian access to the #High Line# via stairway (hereinafter referred to as "secondary access"), shall be provided on any #zoning lot# from which #floor area has been transferred pursuant to Section 98-33 unless a primary access easement has been provided pursuant to this Section 98-61.
However, a primary access easement shall not be required if a primary access easement is already provided on the same #block# and a secondary access easement shall not be required if a primary or secondary access easement has already been provided on the same #block#. Furthermore, primary and/or secondary access easements shall not be required where the Chairperson of the City Planning Commission certifies that:

(1) the minimum dimensions required for the access easement volume pursuant to paragraph (a) of Section 98-62 cannot be accommodated within 33 feet six inches of a #street line# for primary access easements and 40 feet of a #street line# for secondary access easements; or
(2) in the case of a primary easement, a secondary easement is already provided on the same #zoning lot# and such easement is sufficient in size or has been enlarged to be sufficient in size to accommodate the provisions for primary access easements as specified in Section 98-62; or
(3) for primary or secondary easements, access has already been constructed on the same block or on the same street frontage and that such access meets the location and access requirements for primary or secondary access easements, as specified in Section 98-62(a) and (b) and meets all standards, as applicable, for persons with disabilities; or
(4) for primary or secondary easements, construction documents for the #High Line# open space have been developed that specify the opposite side of the same street frontage as an access location.

98-62
High Line Access Easement Regulations
The provisions of this Section shall apply to any #zoning lot# providing an access easement volume, as follows:
(a) Location and Minimum Dimensions

(1) Primary access easement volume
A primary access easement volume may be located within a #building# or within open areas on the #zoning lot#, including open areas required pursuant to Section 98-53 (Required Open Areas on the East Side of the High Line), provided such volume is within 15 feet of a #narrow street line#. The minimum length of such volume shall be 18 feet six inches and the minimum width shall be ten feet; however, the minimum area of such volume shall be 350 square feet. The height of such volume shall extend from a point at least ten feet below #curb level# to a point at least 15 feet above the level of the #High Line bed#. A primary access easement volume may also replace a previously provided secondary access easement volume, and such secondary access easement volume may be terminated pursuant to Section 98-64. Such minimum dimensions are illustrated in Diagram 6 (#High Line# Access Easement Volume Parameters) of Appendix C of this Chapter.
(2) Secondary access easement volume
A secondary access easement volume shall be located within 15 feet of a #narrow street line# and directly adjacent to the #High Line# for a minimum length of 25 feet. Such volume shall have a minimum width of ten feet. The height of such volume shall extend from #curb level# to a point at least ten feet above the level of the #high Line bed#.

(b) Access

All access easement volumes shall be accessible either directly from a public sidewalk or through a publicly traversable way through the #zoning lot# directly connecting with a public sidewalk. Such publicly traversable way shall meet the following requirements:

(1) The required width of the publicly traversable way shall be a minimum of eight feet.

(2) No portion of the publicly traversable way shall be interrupted or occupied by an off-street parking or loading area.

(3) The access easement volume shall be visible from the public sidewalk or the publicly traversable way.

(4) The publicly traversable way shall be maintained by the property owner in good repair.
(5) The publicly traversable way shall be fully accessible to persons with disabilities.

(6) The publicly traversable way shall be open and accessible to the public at all times when a stairway and/or elevator located within the associated access easement volume is open and accessible to the public.

(c) Permitted obstructions
Any access structure within the access easement volume, or any weather protection provided by an overhang or roofed area over such access easement volume, accessory to the access structure, shall be considered permitted obstructions within required #yards# or open areas.

(d) Permitted #uses#
An access easement volume required on a #zoning lot# pursuant to the provisions of this Chapter may be temporarily used by the owner of such #zoning lot# for any permitted #use# until such time as required by the City of New York or its designee for access purposes. Such permitted use shall be limited to non-residential #uses# where such access easement volume is within a #building#. Where such access easement volume is within an open area, such area shall be landscaped, or may be improved in accordance with the provisions of sub-paragraphs (g)(1), (g)(2) and (g)(3) (Permitted obstructions), of Section 37-04 (Requirements for Urban Plazas), except that in the case of open air cafes and kiosks the provisions of paragraph (g) (3) shall be modified as follows: a certification shall not be required pursuant to paragraphs (g)(5) and (g)(6).
Improvements or construction of a temporary nature within the easement volume shall be removed by the owner of such #zoning lot# prior to the time at which public use of the easement areas is required. A minimum notice of six months in writing shall be given by the City of New York or its designee to the owner of the #zoning lot#, in order to vacate the tenants of such temporary #uses#.

(e) Legally Required Windows
The minimum distance between any legally required window in a portion of a #building# used for #residential use# and an access easement volume shall be 30 feet, measured in a horizontal plane at the sill level of, and perpendicular to, such window for the full width of the rough window opening.

98-63
Recording of High Line Access Easement Volume
An instrument in a form acceptable to the Department of City Planning creating a #High Line# access easement volume shall be recorded in the Office of the City Register; a certified copy of which shall be submitted to the Department of City Planning.
Notice by the Department of City Planning of its receipt of a certified copy of an instrument establishing any access easements required pursuant to this Chapter shall be a precondition to issuance by the Commissioner of Buildings of any building permits including any foundation or alteration permit for any #development# of #enlargement# on a site pursuant to Section 98-60 for primary access easements. Receipt of a certified copy of an instrument creating a secondary access easement shall be provided in conjunction with notification, pursuant to Section 98-33(a).

98-64
Termination of High Line Access Easement Volume
In the event that the City Planning Commission notifies the Department of Buildings and the owner in writing that a #High Line# access easement volume is not required on a #zoning lot# under the final construction plans for the restoration and reuse of the #High Line# as an accessible, public open space, the restrictions imposed on such #zoning lot# by the provisions of Section 98-61 (High Line Access Easement Volume Requirement) shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the City Planning Commission to the extinguishment of the easement volume. On termination of the #High Line# access easement volume requirement which has been certified pursuant to this Section, any area reserved for such easement within a #building or other structure# may be used for any #use# permitted pursuant to the provisions of this Chapter and such area shall not be considered #floor area#; and any open area reserved for such easement shall be maintained as an open area and shall be subject to the open area requirements of Section 98-53 (Required Open Areas on the East Side of the High Line).

APPENDIX D
Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea H
This Appendix sets forth additional requirements governing #zoning lots# located within Subarea H between West 17th and 18th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum #Floor Area Ratio# in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to subparagraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to subparagraph (b) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean "parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10.

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25
(1) As a condition of issuance of a building permit under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix D, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22;
(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and use of the At-Grade Plaza and the stairway and elevator that will provide access to the #High Line#, as shown in Diagram 3 of Appendix C, such easement area for the At-Grade Plaza to include the entire area of the #zoning lot# east of the #High Line# and such easement area as it relates to such stairway and elevator to be at least 2,500 square feet and in a location and configuration acceptable to the City; access for the potential performance by the City of work under the provisions set forth below; and maintenance and repair of the stairway and elevator . Such declaration shall incorporate by reference the maintenance and operating agreement referred to in paragraph (iii) below; and
(iii) Owner shall execute a maintenance and operating agreement for the At-Grade Plaza,

The easements and agreement described herein shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (b).

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot# and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement by Owner, approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the contribution to the #High Line# Improvement. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) The location of #floor area# which would exceed the basic maximum #floor area ratio# and be subject to the provisions of Section 98-25 shall be considered to be the topmost portion of the #development# or #enlargement# unless, at the time of certification pursuant to Section 98-25, paragraph (a), Owner designates, subject to the concurrence of the Chairperson of the City Planning Commission, an alternate location.

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (b) of Section 98-25

(1) Structural Remediation Work Under Paragraph (b)(2) of Section 98-25
(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner may exercise such option following receipt of the City's specifications for the Structural Remediation Work or upon the City's failure to provide such specifications, as set forth in paragraphs (iv) and (v) below (unless such dates are extended by mutual agreement of the City and Owner, but in no event may exercise such option later than 90 days following receipt of a notice by the City of its intent to commence improvements to the #High Line# within the #High Line# improvement area applicable to the #zoning lot# within the next twenty-four months. In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner , as applicable, for any excess from or against the #High Line# Improvement Fund. In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (b)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of any temporary certificate of occupancy, and of final completion with respect to issuance of any final certificate of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above , at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to public view versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead-based products in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the

rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City ;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including , but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below-grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) Subject to the Not-To-Exceed Limit set forth in section (c) of this Appendix, if Owner exercises the option to perform the Structural Remediation Work, it shall reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone).

(iv) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to delays outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(v) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following the (effective date of amendment) or of the date of exercise of such option, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control and, in addition, for any time during which Owner is unable to gain access in order to perform the Structural Remediation Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application). .

(vi) In the event that the City does not provide the specifications for the Structural Remediation Work, within the timeframe set forth in paragraph (iv) of this section, Owner may exercise the option to perform such work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays as described in paragraph (v) above, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(2) AtGrade Plaza Work Under Section 98-25 (b)(3)

(i) Owner shall perform At-Grade Plaza Work within the area on the #zoning lot# shown in Diagram 3 of Appendix C. For any temporary certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of substantial completion of the At-Grade Plaza Work (i.e., the At-Grade Plaza shall be open and accessible to the public). For any permanent certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of final completion of the At-Grade Plaza Work. Substantial completion of the At-Grade Plaza Work shall also require execution by all parties-in-interest of the declarations, easements and maintenance and operating agreement described in paragraph (a) of Section (1) of this Appendix, if not previously provided in connection with issuance of a building permit.

(ii) At-Grade Plaza Work shall include, but not be limited to:

(a) remediation work; and

(b) all paving, plantings, surface treatments, lighting, trees, seating, fountains and other site amenities; and

(c) infrastructure work, including conduits, drainage, water line, electrical connections, and other utility work serving the At-Grade Plaza.

(iii) The At-Grade Plaza Work shall be performed by Owner pursuant to construction documents provided by the City by September 30, 2006, subject to delays outside the reasonable control of the City (including, without limitation, litigation, but such delays shall not exceed more than 180 days), and to such extension as the City and Owner may mutually agree. The At-Grade Plaza Work shall be completed within one year following the later of the (effective date of amendment) or the receipt of such documents, subject to reasonable extension for any delays beyond Owner's reasonable control and to such extension as the City and Owner may mutually agree, and, in addition, for any time during which Owner is unable to gain access in order to perform the At-Grade Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application), or for any time needed to perform any necessary remediation work on the #zoning lot#.

(iv) In no event shall Owner be required to complete the At-Grade Plaza Work until the #High Line# improvements within the portion of the #High Line# Improvement Area adjacent to the #zoning lot# (and, as applicable, over such Improvement Area, as shown on Diagram 3 of Appendix C, are substantially complete (i.e., open to the public but for the work needed to complete the At-Grade Plaza Work). Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (b)(3), until the Chairperson determines that the At-Grade Plaza Work is substantially complete.

(v) The cost to Owner of the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) shall not exceed $2,300,000 The amount of contribution to the #High Line# Improvement Fund under subdivision a of section 1 of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such amount at the time it is made. In addition to the costs of the At-Grade Plaza Work, subject to the Not-To-Exceed Limit set forth section (c) of this Appendix, Owner shall be required to reimburse the City for:

(a) the reasonable cost of developing the plans and construction documents for the At-Grade Plaza Work; and

(b) the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the At- Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(vi) In the event that construction documents for the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) are not delivered to Owner within the timeframe set forth in paragraph 3 of this subsection, Owner shall not be required to perform the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (3) of this Section) consistent with such documents. Instead, Owner shall perform Alternate At-Grade Plaza Work which shall include all necessary remediation work, all necessary below-grade work (including related infrastructure work necessary to support the #High Line#), and at-grade improvements pursuant to the standards set forth in Section 37-04, paragraphs (g) through (n) of the Zoning Resolution, except that open-air cafes and kiosks shall not be permitted. Permitted obstructions, whether as described in the City's Specifications for the At-Grade Plaza Work or as specified in Section 37-04, paragraph (g), for the Alternate At-Grade Plaza Work, shall not count towards # lot coverage#.

(vii) The cost to the Owner of the Alternate At-Grade Plaza Work shall not exceed $1,400,000. In addition, Owner shall , subject to the Not-To Exceed Limit of Section (c) of this Appendix, be required to reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Alternate At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).

(vi) Upon substantial completion of the At-Grade Plaza and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4): Owner shall provide the City with the declarations, easements and maintenance and operating agreement described in subsection a of section 1 of this Appendix ,if not already provided in connection with the issuance of a building permit; such At-Grade Plaza shall be open and accessible to the public during at least the same hours during which the #High Line# is open and accessible to the public, subject to the terms of the maintenance and operating agreement; and Owner shall maintain the At-Grade Plaza pursuant to the terms of the maintenance and operating agreement.

(3) Stairway and Elevator Access Work Under Paragraph (b)(4) of Section 98-25

(i) Except as provided in subparagraph (iii) of this paragraph, Owner shall perform Stairway and Elevator Access Work within the At-Grade Plaza area as shown in Diagram 3 of Appendix C in conjunction with performance of the At-Grade Plaza Work. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (b)(4), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification pursuant to such Section shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator, shall be included in the construction drawings for the At-Grade Plaza Work described above, and shall be performed by Owner within the time period for performance of the At-Grade Plaza Work described in subsection c of this section. The location for the stairway and elevator shall take into account the viability of any retail spaces fronting the At-Grade Plaza.

(iii) Owner shall not be responsible for performance of the Stairway and Elevator Access Work where it performs the Alternate At-Grade Plaza Work in accordance with paragraph (b) of this section. In that event, prior to commencing the Alternate At-Grade Plaza Work and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4):

(a) Owner shall deposit into the #High Line# Improvement Fund a contribution of $900,000.00 (the Access Contribution), to be used at the direction of the Chairperson of the City Planning Commission for construction of stairway and elevator facilities on the #zoning lot#; and

(b) Owner shall provide the City with the declarations, easements, and maintenance and operating agreement described in paragraph (1) of Section (a) of this Appendix, if not previously provided in connection with issuance of a building permit.

(4) City Performance of Work In the Event of Failure to Perform

(i) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under Section (a) of this Appendix, Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b) of this Appendix), the At-Grade Plaza Work or Alternate Plaza Work, as applicable, and the Stairway and Elevator Access Work (where required to do so under paragraph (3) of Section (b) of this Appendix), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 3 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(ii) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(a) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total), unless such date is extended by mutual agreement between the City and Owner, for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City; and

(b) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control and , in addition, any time in which Owner is unable to gain access in order to perform the At-Grade Plaza Work or Alternate Plaza Work due to the actions of a tenant occupying the #zoning lot# (or portion thereof) upon (date of referral of application) or), or for any time during which remediation work is in progress on the #zoning lot#.

(iii) In the event Owner does not comply with the requirements paragraph (4)(ii) of this Section (b):

(a) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(b) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(c) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor any temporary or permanent certificate of occupancy may be issued pursuant to Section 98-25, paragraph (b), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

(c) Reimbursement Not-To- Exceed Limits

Reimbursement of the City by Owner of costs pursuant to this Appendix shall not exceed a total of $450,000.00.

APPENDIX E
Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E, G or I

This Appendix sets forth additional requirements governing #zoning lots# located partially within Subareas D, E and G or within Subarea I between West 16th and 17th streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum Floor Area Ratio in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to paragraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to paragraph (c) of Section 98-25 for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean "parties-in-interest", as defined in paragraph f(4) of the definition of #zoning lot# under Section 12-10.

(a) Requirements for Issuance of Building Permit Under Paragraph (a) of Section 98-25

(1) As a condition of certification under Paragraph (a) of Section 98-25:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix E, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of $50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22; and

(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and from a stairway and elevator on the #zoning lot# that will provide access to the #High Line# and for maintenance and repair by the City of such stairway and elevator; and the potential performance by the City of work under the provisions set forth below. In the case of #zoning lots# between West 16th and 17th streets, Owner shall also provide the City with easements providing for City access to and from and for public use of the #High Line# Service Facilities on the #zoning lot# and for maintenance and repair by the City of such #High Line# Service Facilities. All easements described herein shall be in a form acceptable to the City and shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (c); and

(iii) submit plans for Stairway and Elevator Access Facilities and, where applicable, #High Line# Service Facilities that demonstrate compliance with the provisions of this Appendix and are consistent with New York City Department of Parks and Recreation standards and best practices governing materials life cycle and maintenance for review and approval by the Chairperson of the City Planning Commission.

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area on such #zoning lot # and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement , approved by the Chair of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the #High Line# Improvement Fund contribution to reflect the cost of such improvements. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) The location of #floor area# which would exceed the basic maximum #floor area ratio# and be subject to the provisions of Section 98-25 shall be considered to be the topmost portion of the #development# or #enlargement# unless, at the time of certification pursuant to Section 98-25, paragraph (a), Owner designates, subject to the concurrence of the Chairperson of the City Planning Commission, an alternate location.

(b) Requirements for Issuance of Certificates of Occupancy Under Paragraph (c) of Section 98-25

(1) Structural Remediation Work Under Paragraph (c)(2) of Section 98-25

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area on such #zoning lot and over #streets# contiguous thereto in accordance with the provisions of this subparagraph. Owner may exercise such option following receipt of the City's specifications for the Structural Remediation Work or upon the City's failure to provide such specifications, as set forth in paragraphs (iv) and (v) below (unless such dates are extended by mutual agreement of the City and Owner, but in no event may exercise such option later than 90 days following receipt of a notice by the City of its intent to commence improvements to the #High Line# within the #High Line# improvement area applicable to the #zoning lot# within the next twenty-four months. In that event, the amount of contribution to the #High Line # Improvement Fund shall be reduced by $21.00 for each square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner, as applicable, for any excess from or against the #High Line# Improvement Fund , In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (c)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of temporary certificates of occupancy, and of final completion with respect to issuance of final certificates of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above, at, and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life, and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to the public versus those that will not be so exposed) and shall include, but not be limited to, the following:

(a) Removal and disposal of all lead-based products in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;

(c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City;

(d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

(e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including, but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped , as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and

(f) Any work required to be performed below-grade for the anticipated improvements of the #High Line# for reuse as open space.

(iii) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to such delays as are outside the reasonable control of the City (including , without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.

(iv) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following the (effective date of amendment) or of the date of exercise of such option, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control.

(v) In the event that the City does not provide the specifications for the Structural Remediation Work within the timeframe set forth in paragraph (iii) of this subsection, Owner may exercise the option to perform such work and proceed with the Structural Remediation Work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.

(vi) If Owner exercises the option to perform the Structural Remediation Work, Owner shall reimburse the City for the reasonable cost of hiring or procuring the services of a full-time resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone), such reimbursement not to exceed $115,000.

(2) Stairway and Elevator Access Work Under Paragraph (c)(3) of Section 98-25

(i) Owner shall perform Stairway and Elevator Access Work subject to the provisions of subparagraph 2 of this paragraph. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(3), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator located directly adjacent to or below the #High Line#. Except as approved by the Chairperson of the City Planning Commission pursuant to paragraph (1)(iii) of Section (a) of this Appendix, #curb level# entrances to such access facilities must be located at the #street line#. Such access facilities shall be harmonious with the design of the #High Line# on the #zoning lot# and shall be visible and identifiable as #High Line# access facilities when viewed from Tenth Avenue. Such access facilities may be unenclosed or enclosed. When such access facilities are enclosed and located at the #street line#, any wall or façade separating the access facility from the #street# shall be substantially glazed and fully transparent from ground level to the full height of the access facility. Any wall or façade separating the access facility from the #High Line# shall be substantially glazed and fully transparent from the level of the #High Line bed# to the full height of the access facility. Stairways shall have a clear path of not less than 6 feet in width. Such access facilities shall be identified with signage placed at the #High Line# level and at street level that is consistent with guidelines specified in the signage plan as authorized by the City Planning Commission pursuant to the provisions of Section 98-16.

(iii) The Stairway and Elevator Access Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the provisions of paragraph (2)(ii) of this Section, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the Stairway and Elevator Access Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(3), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(3) #High Line# Service Facility Work Under Paragraph (c)(4) of Section 98-25

(i) For #zoning lots# located between West 16th and 17th streets, Owner shall perform #High Line# Service Facility Work subject to the provisions of this section. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (c)(4), shall be of substantial completion of the work. For permanent certificates of occupancy, certification shall be of final completion of the work.

(ii) #High Line# Service Facilities shall consist of satellite maintenance and operations space for the #High Line# open space as well as public restrooms, in accordance with the following standards:

(a) Location

Such facilities shall have a component located at the level of the #High Line bed#, or within 5 feet of such level (hereinafter referred to as the "upper service facility"). Such facilities shall also have a component located no higher than #curb level# (hereinafter referred to as the "lower service facility"). The upper facility must be located directly above

the lower facility to enable placement of a trash chute connecting the upper and lower facilities. Where the upper facility is not located exactly at the level of the #High Line bed#, a fully accessible ramp must connect such level with the level of the upper facility. Where the lower facility is not located exactly at #curb level#, a means acceptable to the City of connecting the lower service facility to a #street# frontage shall be provided.

(b) Program and dimensions

(1) Lower service facilities
Lower service facilities shall contain a room which is accessible from #street# level and is no less than 50 square feet in area. Such facility shall contain the outlet of a trash chute from the upper service facility and shall also have a minimum of one electrical outlet furnishing a wattage consistent with its intended use within a maintenance and operations facility.

(2) Upper service facilities
Upper service facilities shall be no less than 350 square feet in area and shall contain, at a minimum one public restroom not less than 250 square feet in area with separate restroom spaces for each gender, one storage room not less than 70 square feet in area, and one waste disposal room not less than 30 square feet in area and containing a trash chute to the lower service facility Each room within such upper service facilities shall have a minimum of one electrical outlet furnishing wattage consistent with its intended use within a maintenance and operations facility.

(iii) The #High Line# Facility Work shall be completed within 1 year following the later of the (effective date of amendment) or the Chairperson's review and acceptance of the plans and specifications that demonstrate compliance with the standards of paragraph (ii) of this subsection, subject to reasonable extension for any delays beyond Owner's reasonable control, unless such date is extended by mutual agreement between the City and Owner.

(iv) In no event however shall Owner be required to complete the #High Line# Facility Work until the #High Line# improvements in the portion of the #High Line# improvement area adjacent to the #zoning lot#, as shown on Diagram 5 of Appendix C, are substantially complete. Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 98-25, paragraph (c)(4), until the Chairperson determines that the Stairway and Elevator Access Work is substantially complete.

(v) The cost to Owner of the #High Line# Facilities Work shall not exceed $1,150,000. The amount of contribution to the #High Line# Improvement Fund under paragraph (1) of Section (a) of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such at the time it is made. .

(c) City Performance in the Event of Failure to Perform

(1) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under paragraph (1) of Section (a) of this Appendix), Structural Remediation Work (where Owner has exercised the option under paragraph (1) of Section (b)) and the Stairway and Elevator Access Work (under paragraph (3) of Section (b)), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area for the #zoning lot#, as shown on Diagram 4 or 5 of Appendix C, and a relevant deadline for performance of such work under paragraphs (1), (2) or (3) of Section (b) above, as applicable, has passed, subject to the provisions of such subsections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.

(2) The City may proceed with performance and/or completion of the work following such notice unless Owner:

(i) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total) for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City, unless such date is extended by mutual agreement between the City and Owner; and

(ii) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control

(3) In the event Owner does not comply with the requirements of paragraph (2) above:

(i) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of Section (a) of this Appendix;

(ii) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(iii) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor may any temporary or permanent certificates of occupancy may be issued pursuant to Section 98-25, paragraph (d), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

No.

CD 2 **C 050162 ZMM**

IN THE MATTER OF an application submitted by the Department of City Planning pursuant to Sections 197-c and 201 of the New York City Charter **for an amendment of the Zoning Map, Section No. 8b:**

1. **eliminating a Special Mixed Use District (MX-3) bounded by** West 24th Street, Tenth Avenue, a line midway between West 22nd Street and West 23rd Street, a line 100 feet easterly of Eleventh Avenue, West 22nd Street, and Eleventh Avenue;

2. **changing from an M1-5 District to a C6-2 District property bounded by:**

   a. a line midway between West 22nd Street and West 23rd Street, Tenth Avenue, West 18th Street, a line 150 feet easterly of Eleventh Avenue, West 20th Street, and a line 100 feet westerly of Tenth Avenue; and
   b. West 18th Street, a line 400 feet westerly of Ninth Avenue, West 17th Street, and Tenth Avenue;

3. **changing from an M1-5 District to a C6-3 District property bounded by:**

   a. a line midway between West 29th Street and West 30th Street, a line 100 feet westerly of Tenth Avenue, West 28th Street, Tenth Avenue, West 24th Street, a line 100 feet westerly of Tenth Avenue, West 27th Street, a line 100 feet easterly of Eleventh Avenue, West 24th Street, Eleventh Avenue, West 28th Street, and a line 100 feet easterly of Eleventh Avenue;
   b. West 22nd Street, a line 150 feet easterly of Eleventh Avenue, West 18th Street and Eleventh Avenue; and
   c. West 17th Street, a line 400 feet westerly of Ninth Avenue, West 16th Street, and Tenth Avenue;

4. **changing from an M1-5 District to a C6-4 District property bounded by:**

   a. West 30th Street, Tenth Avenue, West 28th Street, a line 100 feet westerly of Tenth Avenue, a line midway between West 29th Street and West 30th Street, a line 100 feet easterly of Eleventh Avenue, West 28th Street, and Eleventh Avenue; and
   b. West 18th Street, Tenth Avenue, West 17th Street, and Eleventh Avenue;

5. **changing from an M1-5/R8A District to a C6-2A District property bounded by** West 24th Street, a line 100 feet westerly of Tenth Avenue, a line midway between West 23rd Street and West 24th Street, and a line 100 feet easterly of Eleventh Avenue;

CITY PLANNING

PUBLIC HEARINGS

PROPOSED 2006 CONSOLIDATED PLAN

A public hearing on the formulation of the Proposed 2006 Consolidated Plan: One Year Action Plan for HUD Entitlement Funds will be held on **TUESDAY, APRIL 12, 2005** beginning at **3:30 P.M.** at the Department of City Planning located at 22 Reade Street, Spector Hall, Manhattan. The PUBLIC HEARING will be followed by a brief question and answer session with City agency representatives in attendance. In addition, at this forum, agency representatives will receive comments on the City's performance on Consolidated Plan activities in 2005.

The Consolidated Plan defines the use of federal entitlement funds for housing, homeless assistance, supportive housing services and community development programs and is required by the United States Department of Housing and Urban Development (HUD). It consolidates the statutory requirements of the Cranston-Gonzalez Housing Act's Comprehensive Housing Affordability Strategy, and the City's annual application for the four HUD Office of Community Planning and Development entitlement programs: Community Development Block Grant (CDBG), HOME Investment Partnership, Emergency Shelter Grants (ESG), and Housing Opportunities for Persons with AIDS (HOPWA).

For more information contact: Charles V. Sorrentino, New York City Consolidated Plan Coordinator, Department of City Planning, 22 Reade Street 4N, New York, New York 10007, (212) 720-3337.

MARKETING DEVELOPMENT CORPORATION

■ JOINT PUBLIC HEARING

NOTICE OF A JOINT PUBLIC HEARING between the Franchise and Concession Review Committee ("FCRC") and NYC Marketing Development Corporation on behalf of the Department of Small Business Services to be held on Monday, April 11, 2005 at Spector Hall, 22 Reade Street, Main Floor, Borough of Manhattan, commencing at 10:00 a.m. relative to:

NYC Marketing Development Corporation's application on behalf of the Department of Small Business Services to utilize different procedures (i.e., a sole source concession), pursuant to Section 1-13 of the Concession rules to implement a concession with The History Channel. NYC Marketing Development Corporation will seek the FCRC's approval at their April 13th meeting for both the use of different procedures and approval of the proposed concession.

This partnership is non-exclusive and NYC Marketing Development Corporation entering into such a partnership on behalf of the City does not preclude either NYC Marketing Development Corporation or the City from entering into a similar partnership in the future.

Term: The term of the agreement is for the period commencing August 26, 2004 and shall expire on February 13, 2008.

The agreement includes two (2) proposed concessions involving the use of intellectual property, both of which are related to the New York City's Official History Center (NYCOHC) (a city owned tourism information center):

1. The designation of certain historically themed tours of New York City that will be planned and/or mapped by The History Channel, as "New York City's Official History Tours".

2. The designation of "New York City's Official History Trolley" in connection with NYC Marketing Development Corporation's efforts to promote historical tourism to New York City and the new City-owned and operated NYCOHC. It is intended that New York City's Official History Trolley will be a parade type float for use in local events and parades.

The value of the two (2) concessions in this agreement involving the use of the City's intellectual property is estimated to be $2.25M in advertising time on the History Channel networks (comprised of time for 30-second commercials, not cash), plus the economic impact created by the marketing and promotion of the tours as well as the exposure of the parade type float. The City will be highlighted as a tourism attraction and this will presumably drive tourists to New York.

A copy of the agreement is available for viewing Monday through Friday beginning on March 17, 2005 and ending on April 11, 2005 at the offices of NYC Marketing Development Corporation, 1 Liberty Plaza, 33rd Floor, New York, NY 10006 between the hours of 9:00 a.m. and 5:00 p.m.

m17-a11

OFF-TRACK BETTING

■ PUBLIC MEETING

NOTICE IS HEREBY GIVEN that the next New York City Off-Track Betting Board of Directors meeting is scheduled for Tuesday, April 12th, 2005 at 10:00 a.m. in the 11th Floor Conference Room at Corporate Headquarters at 1501 Broadway, New York, NY 10036.

a5-11

PARKS AND RECREATION

■ JOINT PUBLIC HEARING

NOTICE OF A JOINT PUBLIC HEARING between the Franchise and Concession Review Committee and the Department of Parks and Recreation to be held on Monday,

April 11, 2005 at Spector Hall, 22 Reade Street, Main Floor, Borough of Manhattan, commencing at 10:00 a.m. relative to:

INTENT TO AWARD as a concession the operation and maintenance of a full-service marina at Mill Basin, Brooklyn, for a license term of twelve (12) years, to Donato DiMeglio, 2239 E. 73rd St., Brooklyn, NY 11234.

Amount -
Year 1: $88,343 versus 35% of gross revenue
Year 2: $92,761 versus 35% of gross revenue
Year 3: $97,399 versus 35% of gross revenue
Year 4: $102,269 versus 35% of gross revenue
Year 5: $107,382 versus 35% of gross revenue
Year 6: $112,752 versus 35% of gross revenue
Year 7: $118,390 versus 35% of gross revenue
Year 8: $124,310 versus 35% of gross revenue
Year 9: $130,526 versus 35% of gross revenue
Year 10: $137,052 versus 35% of gross revenue
Year 11: $143,905 versus 35% of gross revenue
Year 12: $151,100 versus 35% of gross revenue

* In addition, the concessionaire will pay 15% of annual gross receipts that exceed $400,000.

LOCATION B166-D-M

Interested parties may review a copy of the proposed license agreement in Room 313 at the Arsenal, Central Park, 830 Fifth Avenue, NY, NY 10021 on Friday, March 18, 2005 through Monday, April 11, 2005, exclusive of Saturdays, Sundays and holidays.

TELECOMMUNICATION DEVICE FOR THE DEAF (TDD) 1 800-281-5722.

HOMELESS SERVICES

■ SOLICITATIONS

Human / Client Service

TRAINING SERVICES – Contract with another Government – PIN# 071-05S-003-895 – DUE 04-18-05 AT 5:00 P.M. – The Department of Homeless Services (DHS) intends to enter into negotiations with the US Department of Labor to provide job training and educational opportunities for youth between the ages of 18-24. The facility is located in Glenmont, NY and houses 345 youth of which DHS is allocated 40 slots annually. The vendor offers job/vocational training in the following areas: clerical, maintenance, culinary arts, computer, nursing, carpentry, electrical and other related trades. In addition, a nominal stipend is paid to all participants enrolled during the job training or educational program.

In addition, DHS has determined that the vocational and educational training needs offered by the Government are appropriate for the types of youth, both males and female clients residing in the DHS shelter system, who are referred to the program.
It is anticipated that the term of the contract will be for two years, with an option to renew for one-year. The total estimated cost of this contract is not-to exceed $323,916 annually.

Any vendor who is interested in providing such may contact in writing, Calvin Pitter, Deputy Chief Contracting Officer, Department of Homeless Services at 33 Beaver Street, 13th Floor, NY, NY 10004, at (212) 361-8413. The due date and time for submission of expressions of interest is 5:00 P.M. on Monday, April 18, 2005.

The proposed contractor has been selected by means of a government-to-government purchase pursuant to Section 3-13 of the Procurement Policy Board Rules.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.
Dept. of Homeless Services, 33 Beaver Street, 13th Fl., NY, NY 10004. Calvin Pitter, Deputy ACCO (212) 361-8413.
