23-44
Permitted Obstructions in Required Yards or Rear Yard Equivalents
In all #Residence Districts#, the following shall not be considered obstructions when located within a required #yard# or #rear yard equivalent#:

(a) In any #yard# or #rear yard equivalent#:

* * *

Overhangs in R4 and R5 Districts, except R4A, R4-1, R4B, R5A, or R5B or R5D Districts, which are that portion of a #building# above the first #story# including the #basement# which projects not more than three feet into the required 18 foot #front yard#. In no case shall the lowest level of the projected portion be less than seven feet above the level of the #front yard# at the face of the #building#. Supports for the projected portion of any #building# are permitted obstructions within the required #front yard#, provided that the total area occupied by such supports does not exceed 15 percent of the area underneath the projected portion. No support may extend beyond the three-foot projection;

Parking spaces, off-street, open, #accessory#, within a #side# or #rear yard#;

Parking spaces, off-street, open, within a #front yard# that are #accessory# to a #residential building# where:

(1) in R2X, R3, R4 and R5 Districts, no more than two parking spaces are required, provided such spaces are located in a permitted #side lot ribbon#;

(2) in R3, R4 and R5 Districts, more than two parking spaces are required, provided such spaces meet all the requirements of paragraph (b) of Section 25-621 (Location of parking spaces in certain districts) and the screening requirements of Section 25-66.

However, no such parking spaces shall be permitted in any #front yard# within a R4B, ~~or~~ R5B or R5D District, and no such required spaces shall be permitted in any #front yard# within any R1, R2, R3, R4A or R4-1 District within a #lower density growth management area#.

23-45
Minimum Required Front Yards
R1 R2 R3 R4 R5

(a) In the districts indicated, #front yards# shall be provided as set forth in the following table, except that for a #corner lot# in an R1-2 District, one

#front yard# may have a depth of 15 feet and, for a #corner lot# in an R3 District, one #front yard# may have a depth of 10 feet.

Front Yard	District
20 feet	R1
15 feet	R2 R3-1 R3-2
15 feet	R2A
10 feet*	R3A R3X R4A R4-1 R5A
10 feet**	R4 R5
5 feet*	R4B R5B R5D

* Except as provided in paragraphs (b) and (c) of this Section.

** If the depth of a #front yard# exceeds 10 feet or the #zoning lot# is #developed# pursuant to the optional regulations applicable in a #predominantly built-up area#, the depth of a #front yard# shall be at least 18 feet. However, on a #corner lot#, if one #front yard# has a depth of at least 18 feet, the other #front yard# shall have a depth of at least 10 feet.

Furthermore, if an opening to an #accessory# off-street parking space is located within the #street wall# of a #residential building#, there shall be an open area between the opening and the #street line# which is at least 8 and 1/2 feet in width by 18 feet in depth, except this provision shall not apply in R5D Districts.

R2A R3A R3X R4A R4-1 R4B R5A R5B R5D

(b) For the purpose of paragraphs (b) and (c) the area between the #street line# and the front building wall of adjacent #buildings# on the same or adjoining #zoning lots# shall be considered adjacent #front yards#.

Except as provided in paragraph (c) of this Section, in the districts indicated, if adjacent #residential buildings# on the same or on adjoining #zoning lots# fronting on the same #street# have #front yards# greater than the minimum set forth in paragraph (a) of this Section, then a #front yard# shall be provided which:

(1) in R2A, R3A, R3X, R4A, R4-1 or R5A Districts is at least as deep as an adjacent #front yard#; and

(2) in R4B, ~~or~~ R5B and R5D Districts is no deeper than the deepest adjacent #front yard# and no shallower than the shallowest adjacent #front yard.

However, a #front yard# need not exceed 20 feet in depth.

In determining the depth of the adjacent #front yards#, balconies, and projections from the front building wall that do not exceed 33 percent of the aggregate width of the #building#, shall be disregarded.

For new #developments# or #enlargements#, projections into the required #front yard# are permitted provided that the aggregate width of all projections at the level of any #story# does not exceed 33 percent of the aggregate width of the #building#. The depth of such projections shall not exceed three feet into the #front yard#. However, balconies shall be subject to the provisions of Sections 23-13 (Balconies) and 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents).

(c) The provisions of paragraph (b) of this Section determining the depth of a #front yard# by the location of a #front yard# on an adjacent #zoning lot#, are modified as follows:

(1) on #corner lots#, these provisions shall apply on only one #street# frontage; and

(2) these provisions shall not apply to:

(i) any #street# frontage of a #zoning lot# where such frontage has a length of at least 150 feet along such #street

(ii) any #zoning lot# located in historic districts designated by the Landmarks Preservation Commission; or

(iii) a frontage of any #zoning lot# where the depths of 50 percent of the #front yards# within 150 feet of the #side lot lines# of such #zoning lot# are shallower by more than two feet than the shallowest of the adjacent #front yards#.

R1 R2 R3 R4 R5

(d) For any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, the provisions of paragraphs (a) and (b) of this Section are modified as follows:

The depth of the #front# yard may vary between the requirements of paragraph (a) of this Section, or as modified in any applicable Special District, and the depth of the #front yard# of any adjacent #zoning lot#.

Definitions

For the purposes of the Inclusionary Housing program, matter in italics is defined either in Section 12-10 (DEFINITIONS) or in this Section.

Administering agent

The "administering agent" is the entity or entities identified in the #lower income housing plan# as responsible for ensuring compliance with such plan.

The #administering agent# shall be a not-for-profit organization, unless the Commissioner of Housing Preservation and Development finds that a good faith effort by the developer of the #compensated development# to secure a qualified not-for-profit organization as the #administering agent# was unsuccessful. However, in ~~Community Districts 1 and 7, Borough of Brooklyn,~~ #R6, R7 and R8 designated areas#, the Commissioner may approve an entity that is responsible for compliance monitoring pursuant to city, state, or federal funding sources, to serve as the #administering agent# during such compliance period.

Fair rent

At initial occupancy of #lower income housing#, "fair rent" (the "Section 8 Standard") is an annual rent for each such housing equal to not more than either the public assistance shelter allowance if the #family# receives public assistance, or 30 percent of the annual income of the tenant of such housing, provided that such tenant is a #lower income household# at the time of initial occupancy pursuant to the provisions of this program.

Upon renewal of a lease for an existing tenant in #lower income housing#, #fair rent# (the "Rent Stabilization Standard") is not more than the then-current #fair rent# for such housing plus a percentage increase equal to the percentage increase for a renewal lease of the same term permitted by the Rent Guidelines Board for units subject to the rent stabilization law.

After initial occupancy, upon rental of #lower income housing# to a new tenant, #fair rent# is not more than the higher of:

(a) the then-currently applicable "Section 8 Standard"; or

(b) the Rent Stabilization Standard.

In order for rent to be #fair rent#, the following must also apply:

There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income household# responsible for the payment of utilities as long as the sum of:

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment do not exceed 30 percent of said #lower income household's# income.

However, in ~~Community Districts 1 and 7, Borough of Brooklyn,~~ #R6, R7 and R8 designated areas#, the Commissioner of Housing Preservation and Development may determine that rents satisfying the requirements of City, State or Federal programs assisting #lower income housing# will be considered #fair rent#, provided that such rents do not exceed 30 percent of #lower income household's# income, as applicable, and provided further that upon expiration or termination of the requirements of the City, State or Federal program, rent increases and re-rentals shall be subject to the higher of the then-currently applicable Section 8 Standard or the Rent Stabilization Standard. At initial occupancy of any #lower income housing#, no portion of the #fair rents# shall be for the payment of the principal or interest on any debt, and the #lower income housing# shall not secure any debt and shall be free of all liens, except liens for real estate taxes, water charges and sewer rents and other governmental charges for which payment is not yet due. #Fair rents# may be used for the payment of principal or interest of debt only if such debt was incurred after the date of initial occupancy and is for a capital improvement to such #lower income housing# other than those capital improvements set forth in the #lower income housing plan#.

In ~~Community Districts 1, 2 and 7, Borough of Brooklyn,~~ #R6, R7 and R8 designated areas#, at initial occupancy of any #lower income housing#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95, paragraph(c), and provided that the lender agrees to enter into a written agreement which subordinates such debt to the provisions of the #lower income housing plan#.

Lower income household

A "lower income household" is a #family# having an income equal to or less than the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U.S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

In ~~Community Districts 1 and 7, Borough of Brooklyn,~~ #R6, R7 and R8 designated areas#, #lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City or State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with U. S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.

Lower income housing

"Lower income housing" are #standard units# occupied or to be occupied by #lower income households#. #Lower income housing# shall not include #standard units# assisted under city, state or federal programs, except where such assistance is in the form of:

(a) real estate tax abatements and exemptions which are specifically limited to the #lower income housing#; or

(b) operating assistance that the Commissioner of the Department of Housing Preservation and Development determines will be used to enable households with incomes of not more than 62.5 percent of the "80 Percent of SMSA Limits" to afford such #lower income housing#.

However, ~~in Community Districts 1 and 7, Borough of Brooklyn,~~ in #R6, R7 and R8 designated areas#, #lower income housing# shall include #standard units# assisted under City, State or Federal programs.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Definitions

For the purposes of the Inclusionary Housing program, matter in italics is defined either in Section 12-10 (DEFINITIONS) or in this Section.

Administering agent

The "administering agent" is the entity or entities identified in the #lower income housing plan# as responsible for ensuring compliance with such plan.

The #administering agent# shall be a not-for-profit organization, unless the Commissioner of Housing Preservation and Development finds that a good faith effort by the developer of the #compensated development# to secure a qualified not-for-profit organization as the #administering agent# was unsuccessful. However, in ~~Community Districts 1 and 7, Borough of Brooklyn,~~ #R6, R7 and R8 designated areas#, the Commissioner may approve an entity that is responsible for compliance monitoring pursuant to city, state, or federal funding sources, to serve as the #administering agent# during such compliance period.

Fair rent

At initial occupancy of #lower income housing#, "fair rent" (the "Section 8 Standard") is an annual rent for each such housing equal to not more than either the public assistance shelter allowance if the #family# receives public assistance, or 30 percent of the annual income of the tenant of such housing, provided that such tenant is a #lower income household# at the time of initial occupancy pursuant to the provisions of this program.

Upon renewal of a lease for an existing tenant in #lower income housing#, #fair rent# (the "Rent Stabilization Standard") is not more than the then-current #fair rent# for such housing plus a percentage increase equal to the percentage increase for a renewal lease of the same term permitted by the Rent Guidelines Board for units subject to the rent stabilization law.

After initial occupancy, upon rental of #lower income housing# to a new tenant, #fair rent# is not more than the higher of:

(a) the then-currently applicable "Section 8 Standard"; or

(b) the Rent Stabilization Standard.

In order for rent to be #fair rent#, the following must also apply:

There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income household# responsible for the payment of utilities as long as the sum of:

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment do not exceed 30 percent of said #lower income household's# income.

However, in ~~Community Districts 1 and 7, Borough of Brooklyn,~~ #R6, R7 and R8 designated areas#, the Commissioner of Housing Preservation and Development may determine that rents satisfying the requirements of City, State or Federal programs assisting #lower income housing# will be considered #fair rent#, provided that such rents do not exceed 30 percent of #lower income household's# income, as applicable, and provided further that upon expiration or termination of the requirements of the City, State or Federal program, rent increases and re-rentals shall be subject to the higher of the then-currently applicable Section 8 Standard or the Rent Stabilization Standard. At initial occupancy of any #lower income housing#, no portion of the #fair rents# shall be for the payment of the principal or interest on any debt, and the #lower income housing# shall not secure any debt and shall be free of all liens, except liens for real estate taxes, water charges and sewer rents and other governmental charges for which payment is not yet due. #Fair rents# may be used for the payment of principal or interest of debt only if such debt was incurred after the date of initial occupancy and is for a capital improvement to such #lower income housing# other than those capital improvements set forth in the #lower income housing plan#.

In ~~Community Districts 1, 2 and 7, Borough of Brooklyn,~~ #R6, R7 and R8 designated areas#, at initial occupancy of any #lower income housing#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95, paragraph(c), and provided that the lender agrees to enter into a written agreement which subordinates such debt to the provisions of the #lower income housing plan#.

Lower income household

A "lower income household" is a #family# having an income equal to or less than the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U.S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

In ~~Community Districts 1 and 7, Borough of Brooklyn,~~ #R6, R7 and R8 designated areas#, #lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City or State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with U. S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.

Lower income housing

"Lower income housing" are #standard units# occupied or to be occupied by #lower income households#. #Lower income housing# shall not include #standard units# assisted under city, state or federal programs, except where such assistance is in the form of:

(a) real estate tax abatements and exemptions which are specifically limited to the #lower income housing#; or

(b) operating assistance that the Commissioner of the Department of Housing Preservation and Development determines will be used to enable households with incomes of not more than 62.5 percent of the "80 Percent of SMSA Limits" to afford such #lower income housing#.

However, ~~in Community Districts 1 and 7, Borough of Brooklyn,~~ in #R6, R7 and R8 designated areas#, #lower income housing# shall include #standard units# assisted under City, State or Federal programs.

New material is underscored.

(g) **Owner.** "Owner" shall mean an individual, partnership, limited liability company or corporation licensed by the Commission to own and operate a medallion taxicab or taxicabs.

Statement of Basis and Purpose

The rules amend existing rules to allow limited liability companies to own and operate taxicab medallions. In addition, the rules provide that members and managing members of such limited liability companies will be subject to the same requirements as are partners, shareholders, officers and directors of corporate and partnership owners and operators of taxicab medallions, for all purposes of the Taxicab Owners Rules, including with respect to fitness to own taxicab medallions.

The prior rules provide that taxicab medallions may be owned by individuals, partnerships and corporations. The governing statute, section 19-502(i) of the New York City Administrative Code, authorizes a broader scope of entities that may own taxicab medallions: "any person, firm, partnership, corporation or association." The limited liability company structure may offer certain advantages for some owners when compared with the personal, partnership or corporate forms of ownership – in particular, industry representatives have indicated that the limited liability company structure can have tax advantages over other forms of taxicab medallion ownership. At the same time, based on review of the law governing limited liability companies, the Taxi and Limousine Commission believes that taxicab medallion owners' use of the limited liability company structure will not impair the Commission's ability to regulate and monitor the taxicab industry.

Name, Description and Location of Proposal:

Maspeth/Woodside R7X Inclusionary Housing Text Amendment
The Department of City Planning is proposing a text amendment to Zoning Resolution (ZR) Section 23-90 that would make the Inclusionary Housing Program applicable to R7X districts proposed to be mapped on Queens Boulevard in Woodside, Queens Community District 2. The text amendment application is a follow-up action to the Department's pending Maspeth/Woodside Rezoning (ULURP No. C060294 ZMQ /CEQR No. 06DCP065Q). Under the proposed text amendment, the Inclusionary Housing program would apply only to the R7X district which is proposed to be mapped along Queens Boulevard between 50th Street and 57th Street, on the north side of Queens Boulevard between 64th Street and 73rd Street, and on the south side of Queens Boulevard between 61st Street and 73rd Street. The Inclusionary Housing program provisions would not apply to the existing R7X district. Additionally, the proposed text amendment includes administrative changes pertinent to the Inclusionary Housing program.

The proposed text amendment would permit market rate residential development at a maximum of 3.75 FAR. The only way to achieve the maximum FAR of 5.0 under the proposed text amendment would be to provide dwelling units comprising 20 percent of residential floor area for households with incomes below 80 percent of Area Median Income (AMI). The affordable units could be provided within the new building at below-market rates, or provided in new or rehabilitated affordable units off-site. Off-site units could be provided within Community District 2 or in an adjacent community district and within a one half mile radius of the development site. The proposed text amendment would therefore result in a mix of both market rate and below-market rate units on Queens Boulevard. In total, it is projected that the proposed text would result in the creation or preservation of 61 affordable units.

With the approval of the proposed Maspeth/Woodside Rezoning, the higher density, contextual R7X zoning districts on Queens Boulevard would provide much needed opportunities for a mix of new housing. The establishment of the Inclusionary Housing program on Queens Boulevard responds to an area-wide and City-wide demand for affordable housing by promoting a mixture of low-, moderate- and middle-income housing consistent with the neighborhood's fabric.

Pending the approval of the Maspeth/Woodside Rezoning, it is expected that the four identified projected development sites would generate an approximate total of 309,976 square feet of residential development yielding approximately 309 dwelling units. As a result of the proposed text amendment, 61 (20 percent of the residential floor area) of the total 309 units would be developed with affordable dwelling units. These units could be provided on Queens Boulevard as part of the new 309 dwelling units or in new or rehabilitated units off-site.

Statement of No Significant Effect:

The Environmental Assessment and Review Division of the Department of City Planning, on behalf of the City Planning Commission, has completed its technical review of the Environmental Assessment Statement dated May 19, 2006, prepared in connection with the ULURP Application (N060504 ZRQ). The City Planning Commission has determined that the proposed action will have no significant effect on the quality of the environment.

Supporting Statement:

The above determination is based on an environmental assessment which finds that no significant effects on the environment which would require an Environmental Impact Statement are foreseeable.

This Negative Declaration has been prepared in accordance with Article 8 of the Environmental Conservation Law 6NYCRR part 617.

Name, Description and Location of Proposal:

Jamaica Hill/Hillcrest Rezoning and R5D Text Amendment
The Department of City Planning proposes to amend the Zoning Map on all or portions of approximately 70 blocks in the central Queens neighborhoods of Jamaica Hill and Hillcrest including 6 block fronts on the eastern edge of the Briarwood neighborhood, Community District 8, Queens, from existing R2, R3-2, R4 and R5 districts, to low, mid density, and contextual zones where appropriate. The rezoning area is generally bounded by Union Turnpike to the north, 170th Street and 168th Street to the east, 86th Road and Highland Avenue to the south and Parsons Boulevard to the west. The rezoning area adjoins Briarwood to the west, Jamaica to the south and St. John's University to the east. The proposed actions include the creation of a new R5D zoning district in order to fill the need for a district that allows for multifamily housing in appropriate auto dependent locations. Residential uses in the proposed R5D district would be governed by the district bulk regulations (ZR section 23-00).

The proposed rezoning and proposed changes to existing commercial overlays aim to preserve the area's predominant lower-density character and ensure that future residential development is consistent with its surrounding neighborhood. Additionally, the proposed rezoning would establish a medium density residential district (R5D) along Union Turnpike, Parsons Boulevard and 164th Street in order to address the need for new housing opportunities. Establishing the proposed new R5D district is intended to facilitate appropriate development on major corridors in predominantly auto dependent areas.

The amendments to the Zoning Map are as follows:

- a change from an R4 district to an R5 district;
- a change from an R5 district to an R4A district;
- a change from an R4 district to an R4A district;
- a change from an R4 district to an R4-1 district;
- a change from an R4 district to an R4B district;
- a change from an R4 district to an R5D district;
- a change from an R4 district to an R2A district;
- a change from an R4 district to an R3A district;
- a change from an R2 district to an R2A district;
- a change from an R2 district to an R5D district;
- a change from an R3-2 district to an R2 district;
- a change from an R3-2 district to an R4 district;
- a change from an R3-2 district to an R5D district;
- a change from an R2 district to an R3-2 district;
- a change from a C1-2 commercial overlays to a C1-3 commercial overlays, and reducing the depth of the existing commercial overlay along one north-facing block front along Union Turnpike between 169th Street and 168th Place, from 150 feet to 100 feet;
- a change from a C1-2 commercial overlays to a C1-3 commercial overlays, and reducing the depth of the existing commercial overlay along one west-facing block front along 164th Street between 81st Avenue and Union Turnpike, from 150 feet to 100 feet;
- a change from a C1-2 commercial overlays to a C1-3 commercial overlays, and reducing the depth of the existing commercial overlay along one east-facing block front along 164th Street between the centerline prolongation of 81st Avenue and Union Turnpike, from 150 feet to 100 feet;
- a change from a C1-2 commercial overlays to a C1-3 commercial overlays, and reducing the depths of the existing commercial overlays along five north -facing block fronts along Union Turnpike between 164th Street and Parsons Boulevard, from 150 feet to 100 feet; and
- a change from a C1-2 commercial overlays to a C1-3 commercial overlays, and reducing the depth of the existing commercial overlay along one west-facing block front along Parsons Boulevard between 82nd Drive and Grand Central Parkway, from 150 feet to 100 feet.

The proposed R5D district is a medium density, contextual residence district in which development would permit all housing types up to a maximum FAR of 2.0. In addition to establishment of the R5D district in areas of Jamaica Hill and Hillcrest, DCP is also studying the possibility of mapping it in Pelham Parkway/Indian Village, Bronx Community District 11, in Laurelton, Queens Community District 13, and Dutch Kills, in Queens Community District 1. Additionally, there may be other areas in Queens, the Bronx, Brooklyn, and in limited parts of Staten Island where the mapping of an R5D district may be appropriate.

The establishment of the proposed new R5D district is intended to facilitate appropriate development on major corridors in predominantly auto dependent areas. By introducing mid-density / contextual zoning into the Jamaica Hill/Hillcrest area, the rezoning proposal would address the demand for appropriate new housing in the area.

The proposed action is expected to result in additional residential development along Parsons Boulevard, Union Turnpike, and 164th Street. A total of 16 projected and potential development sites have been identified in this area. Of the 16 development sites, nine have been identified as projected development sites and seven have been identified as potential sites.

Absent the proposed rezoning, nine projected development sites would be redeveloped with 29 dwelling units, for a total of 28,860 square feet of residential space; 91,131 square feet of community facilities space; 48,357 square feet of commercial space; and 208 accessory parking spaces. With the proposed rezoning, the projected development sites would be redeveloped with 124 dwelling units, for a total 124,079 square feet of residential space; 28,971 square feet of community facilities space; 43,952 square feet of commercial space; and 133 accessory parking spaces. The proposed action is projected to result in an incremental difference of 96 additional dwelling units on the nine projected development sites, for a total of 95,219 residential space; -62,160 square feet of community facilities space; -4,405 square feet of commercial space; and -61 accessory parking spaces.

As part of the proposed zoning map amendment, (E) designations would be placed on selected development sites (Projected Development Sites 1-10 and Potential Development Sites 11-18, for Hazardous Materials; and Projected Sites 1, 2 and 7, and Potential Development Sites 11-14 and 17 for air quality) in order to preclude future hazardous materials and air quality impacts which could occur as a result of the proposed action.

To avoid the potential for hazardous materials impacts, the proposed rezoning includes (E) designations for hazardous materials on the following properties:

Block 6853	**Lot 23**
Block 6854	**Lot 31**
Block 6855	**Lots 31, 36**
Block 6856	**Lot 38**
Block 6857	**Lots 53, 64, 65, 67, 69**
Block 6859	**Lot 14**
Block 6862	**Lots 340, 341, 344, 323, 327, 331**

Block 7014 Lots 2, 6
Block 7018 Lot 7
Block 9751 Lots 1, 7
Block 9789 Lots 6, 11, 13, 14

The following is the proposed text of the (E) designations:

Task 1- Sampling Protocol

A. Petroleum

A soil, soil gas, and groundwater testing protocol (including a description of methods), and a site map with all sampling location represented clearly and precisely, must be submitted to the NYCDEP by the fee owner(s) of the lot which is restricted by this (E) designation, for review and approval.

A site map with the sampling locations clearly identified and a testing protocol with a description of methods, for soil, soil gas, and groundwater, must be submitted by the fee owner(s), of the lot which is restricted by the (E) designation, to the NYCDEP for review and approval.

B. NonPetroleum

The fee owner(s) of the lot restricted by this (E) designation will be required to prepare a scope of work for any sampling and testing needed to determine if contamination exists and to what extent remediation may be required. The scope of work will include all relevant supporting documentation, including site plans and sampling locations. This scope of work will be submitted to NYCDEP for review and approval prior to implementation. It will be reviewed to ensure that an adequate number of samples will be collected and that appropriate parameters are selected for laboratory analysis. For all non-petroleum (E) designated sites, the three generic NYCDEP soil and ground-water sampling protocols should be followed.

A scope of work for any sampling and testing to be completed, which will determine the extent of on-site contamination and the required remediation, must be prepared by the fee owner(s) of the lot restricted by this (E) designation. The scope of work will include the following: site plans, sampling locations, and all other relevant supporting documentation. The scope of work must be submitted to the NYCDEP for review and confirmation that an adequate testing protocol (i.e., number of samples collected, appropriate parameters for laboratory analysis) has been prepared. The NYCDEP must approve the scope of work before it can be implemented.

For non-petroleum (E) designated sites, one of the three generic soil and groundwater sampling protocols prepared by the NYCDEP should be followed.

The protocols are based on three types of releases to soil and groundwater sampling protocols prepared by the NYCDEP should be followed.

The protocols are based on three types of releases to soil and groundwater, including: the release of a solid hazardous material to ground surface; the release of a liquid hazardous material to the ground surface; and the release of a hazardous material to the subsurface (i.e., storage tank or piping). The type of release defines the areas of soil to be sampled from surface, near-surface, to subsurface. Additionally, it determines the need for groundwater sampling.

A written approval of the sampling protocol must be received from the NYCDEP before commencement of sampling activities. Sample site quantity and location should be determined so as to adequately characterize the site, the source of contamination, and the condition of the remainder of the site. After review of the sampling data, the characterization should b\have been complete enough to adequately determine what remediation strategy (if any) is necessary. Upon request, NYCDEP will provide guidelines and criteria for choosing sampling sites and performing sampling.

Finally, a Health and Safety Plan must be devised and approved by the NYCDEP before the commencement on any on-site activities.

Task 2 - Remediation Determination and Protocol

After sample collection and laboratory analysis have been completed on the soil and/or groundwater samples collected in Task 1, a summary of the data and findings in the form of a written report must be presented to the NYCDEP for review and approval. The NYCDEP will provide a determination as to whether remediation is necessary.

If it is determined that no remediation activities are necessary, a written notice will be released to that effect. However, if it is the NYCDEP's determination that remediation is necessary the fee owner(s) of the lot restricted by the (E) designation must submit a proposed remediation plan to the NYCDEP for review and approval. Once approval has been obtain, and the work completed, the fee owner(s) of the lot restricted by the (E) designation must provide proof to the NYCDEP that the work has been completed satisfactorily.

The placement of (E) designations would ensure that no significant impacts related to hazardous materials would occur as a result of the proposed action.

To preclude the potential for significant adverse air quality impacts related to HVAC emissions, the proposed rezoning includes (E) designations for air quality on the following properties:
Block 6857, Lots 64, 65, 67, 69
Block 6862, Lots 323, 327, 331, 340, 341, 344
Block 9751, Lots 1, 7
Block 9789, Lots 6, 11, 13, 14

The text for the (E) designations is as follows:

Block 9751, Lot 7 (Projected Development Site 1)
Any new residential and/or commercial development on the above-referenced properties must ensure that the heating, ventilating and air conditioning stack(s) are located at least 60 feet from the lot line facing 84th Avenue, or use natural gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant air quality impacts.

Block 9751, Lot 1 (Projected Development Site 2)
Any new residential and/or commercial development on the above-referenced properties must ensure that the heating, ventilating and air conditioning stack(s) are located at least 60 feet from the lot line facing 84th Road, or use natural gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant air quality impacts.

Block 6857, Lots 64, 65 (Projected Development Site 7)
Any new residential and/or commercial development on the above-referenced properties must ensure that the heating, ventilating and air conditioning stack(s) are located at least 45 feet from the lot line facing Goethals Avenue, or use natural gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant air quality impacts.

Block 9789, Lots 6, 11, 13, 14 (Potential Development Site 11)
Any new residential and/or commercial development on the above-referenced properties must ensure that the heating, ventilating and air conditioning stack(s) are located at least 95 feet from the lot line facing Grand Central Parkway Service Road, or use natural gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant air quality impacts.

Block 6862, Lots 340, 341, 344 (Potential Development Site 12)
Any new residential and/or commercial development on the above-referenced properties must ensure that the heating, ventilating and air conditioning stack(s) are located at least 65 feet from the lot line facing 84th Road, or use natural gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant air quality impacts.

Block 6862, Lot 323 (Potential Development Site 13)
Any new residential and/or commercial development on the above-referenced properties must ensure that the heating, ventilating and air conditioning stack(s) are located at least 40 feet from the lot line facing 84th Road, or use natural gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant air quality impacts.

Block 6862, Lots 327, 331 (Potential Development Site 14)
Any new residential and/or commercial development on the above-referenced properties must ensure that the heating, ventilating and air conditioning stack(s) are located at least 75 feet from the lot line facing Grand Central Parkway Service Road, or use natural gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant air quality impacts.

Block 6857, Lots 67, 69 (Potential Development Site 17)
Any new residential and/or commercial development on the above-referenced properties must ensure that the heating, ventilating and air conditioning stack(s) are located at least 60 feet from the lot line facing Union Turnpike, or use natural gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant air quality impacts.

With the placement of the (E) designations on the above blocks and lots, no impacts related to stationary source air quality would be expected.

Statement of No Significant Effect:

The Environmental Assessment and Review Division of the Department of City Planning, on behalf of the City Planning Commission, has completed its technical review of the Environmental Assessment Statement dated February 17, 2006, prepared in connection with ULURP Application 060337 ZMQ and N060338 ZRY and the Technical Memorandum dated June 6, 2006 prepared in connection with ULURP application N060338 (A) ZRY. The City Planning Commission has determined that the proposed actions will have no significant effect on the quality of the environment.

This Revised Negative Declaration supercedes the Negative Declaration issued for the original proposal (ULURP Nos. 060337 ZMQ and N060338 ZRY) on February 21, 2006. The Revised Negative Declaration reflects the revised ULURP application N060338 (A) ZRY as well as modifications to the zoning map amendment made by the City Planning Commission.

Supporting Statement:

The above determination is based on an environmental assessment which finds:

1. As described in detail in the Technical Memorandum dated June 6, 2006, the revised proposal would result in 13 fewer dwelling units, 16,133 sq. ft. more commercial space, and 3,766 sq. ft. more community facilities space.

   In addition, compared to the original proposal, the revised proposal would result in development on two fewer sites, and would not include (E) designations for hazardous materials on those sites.

2. That no significant effects on the environment which would require an Environmental Impact Statement are foreseeable.

This Revised Negative Declaration has been prepared in accordance with Article 8 of the Environmental Conservation Law 6NYCRR part 617.

Should you have any questions pertaining to this Negative Declaration, you may contact Gwen Sheinfeld of the Department of City Planning at (212) 720-3419.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Definitions

For the purposes of the Inclusionary Housing program, matter in italics is defined either in Section 12-10 (DEFINITIONS) or in this Section.

Administering agent

The "administering agent" is the entity or entities identified in the #lower income housing plan# as responsible for ensuring compliance with such plan.

The #administering agent# shall be a not-for-profit organization, unless the Commissioner of Housing Preservation and Development finds that a good faith effort by the developer of the #compensated development# to secure a qualified not-for-profit organization as the #administering agent# was unsuccessful. However, in ~~Community Districts 1 and 7, Borough of Brooklyn,~~ #R6, R7 and R8 designated areas#, the Commissioner may approve an entity that is responsible for compliance monitoring pursuant to city, state, or federal funding sources, to serve as the #administering agent# during such compliance period.

Fair rent

At initial occupancy of #lower income housing#, "fair rent" (the "Section 8 Standard") is an annual rent for each such housing equal to not more than either the public assistance shelter allowance if the #family# receives public assistance, or 30 percent of the annual income of the tenant of such housing, provided that such tenant is a #lower income household# at the time of initial occupancy pursuant to the provisions of this program.

Upon renewal of a lease for an existing tenant in #lower income housing#, #fair rent# (the "Rent Stabilization Standard") is not more than the then-current #fair rent# for such housing plus a percentage increase equal to the percentage increase for a renewal lease of the same term permitted by the Rent Guidelines Board for units subject to the rent stabilization law.

After initial occupancy, upon rental of #lower income housing# to a new tenant, #fair rent# is not more than the higher of:

(a) the then-currently applicable "Section 8 Standard"; or

(b) the Rent Stabilization Standard.

In order for rent to be #fair rent#, the following must also apply:

There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income household# responsible for the payment of utilities as long as the sum of:

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment do not exceed 30 percent of said #lower income household's# income.

However, in ~~Community Districts 1 and 7, Borough of Brooklyn,~~ #R6, R7 and R8 designated areas#, the Commissioner of Housing Preservation and Development may determine that rents satisfying the requirements of City, State or Federal programs assisting #lower income housing# will be considered #fair rent#, provided that such rents do not exceed 30 percent of #lower income household's# income, as applicable, and provided further that upon expiration or termination of the requirements of the City,

State or Federal program, rent increases and re-rentals shall be subject to the higher of the then-currently applicable Section 8 Standard or the Rent Stabilization Standard. At initial occupancy of any #lower income housing#, no portion of the #fair rents# shall be for the payment of the principal or interest on any debt, and the #lower income housing# shall not secure any debt and shall be free of all liens, except liens for real estate taxes, water charges and sewer rents and other governmental charges for which payment is not yet due. #Fair rents# may be used for the payment of principal or interest of debt only if such debt was incurred after the date of initial occupancy and is for a capital improvement to such #lower income housing# other than those capital improvements set forth in the #lower income housing plan#.

In ~~Community Districts 1, 2 and 7, Borough of Brooklyn,~~ #R6, R7 and R8 designated areas#, at initial occupancy of any #lower income housing#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95, paragraph(c), and provided that the lender agrees to enter into a written agreement which subordinates such debt to the provisions of the #lower income housing plan#.

STATUTORY AUTHORITY

These amendments to the New York City Health Code ("Health Code") are proposed pursuant to Sections 556, 558 and 1043 of the New York City Charter ("Charter") and applicable state and federal law. Section 556 of the Charter grants the New York City Department of Health and Mental Hygiene ("Department") jurisdiction to regulate matters affecting health in New York City (NYC). Specifically, Section 556 (c)(11) of the Charter authorizes the Department to regulate all aspects of ionizing radiation within the 5 boroughs of New York City. Sections 558 (b) and (c) of the Charter empower the Board of Health to amend the Health Code and to include in the Health Code all matters to which the Department's authority extends. Section 1043 of the Charter grants rule-making powers to the Department. The New York State (NYS) Sanitary Code (i.e., 10 NYCRR §16.1(b)(3)) delegates radiation licensure regulation to those localities that have a population of more than 2,000,000, provided that said requirements are consistent with NYS Sanitary Code requirements. Section 274 of the Federal Atomic Energy Act of 1954 (the Act) (codified at 42 USC 2021) authorizes "Agreement States" to regulate byproduct material, source material and special nuclear material in quantities not sufficient to form a critical mass. New York State is an "Agreement State" within the meaning of the Act, and the New York City Department of Health and Mental Hygiene is a component of and a party to the relevant Agreement.

STATEMENT OF BASIS AND PURPOSE

In order to maintain compatibility with applicable New York State Sanitary Code and federal regulations, the NYC Health Code needs to be amended concerning both Radioactive Materials and Radiation Equipment. The Health Code should be amended to comply with the NYS Comptroller's Audit Report of 2005 recommending that all new x-ray facilities be inspected and approved by the Department prior to initiating clinical x-ray exams. Finally, the Health Code should be amended to delineate the specific protocols to be followed in calibration of x-ray therapy units, and to specify the content of the x-ray therapy calibration reports to be reviewed by the Department.

Radioactive Materials
The Department's Office of Radiological Health (ORH) licenses and inspects radioactive materials facilities for compliance with Article 175 of the New York City Health Code to protect the health and safety of patients, operators and the general public. There are about 375 licensed sites in New York City possessing radioactive material for medical, academic and research purposes. ORH inspects these facilities at frequencies of once every one, two or three years depending on the type of usage.

As noted above, New York State is an "Agreement State", which means that NYS and the United States Nuclear Regulatory Commission (NRC) have entered into an agreement under the Atomic Energy Act, which delegates authority to NYS to regulate radioactive material at non-reactor sites within its jurisdiction. The New York State Agreement is comprised of four regulatory programs - New York State Department of Health, New York State Department of Labor, New York State Department of Environmental Conservation, and the New York City Department of Health and Mental Hygiene. The Department, through its Office of Radiological Health, regulates radioactive material for medical, academic and research purposes within the 5 boroughs of New York City.

Each Agreement State program is required to maintain compatibility with the NRC regulatory program[1]. The NRC ensures an adequate level of compatibility through the Integrated Materials Performance Evaluation Program (IMPEP) and conducts a quadrennial review of Agreement State programs. The latest IMPEP review of the NYS program took place in July of 2002.

In the July 2002 IMPEP review, the NRC evaluated each of the four components of the New York State Agreement. NRC findings were presented in its Final Report, dated November 12, 2002. The NRC IMPEP report concluded that certain regulations needed to be incorporated into Article 175 of the New York City Health Code in order to ensure compatibility with NRC regulations. Those regulations that remain to be incorporated are:

- "Revision of the Skin Dose Limit", 10 CFR Part 20 amendment (67 FR 16298) that became effective April 5, 2002 (amending 10 CFR §§ 20.1003; 20.1201).
- "Respiratory Protection and Controls to Restrict Internal Exposures", 10 CFR Part 20 amendment (64 FR 54543; 55524) that became effective February 2, 2000 (amending 10 CFR §§ 20.1003; 20.1701 - 20.1704; adding 20.1705 and amending Appendix A to Part 20).

Radiation Equipment
The Office of Radiological Health (ORH) inspects x-ray facilities for compliance with Article 175 of the New York City Health Code for the protection of the health and welfare of the patient, operator and general public. There are approximately 7000 registered sites in New York City possessing x-ray units for patient diagnosis and treatment.

To assure compatibility with the NYS Sanitary Code regulations on x-ray equipment and the federal regulations as to equipment performance standards, the NYC Health Code should to be amended. To achieve this compatibility, the proposed amendments to Article 175 will incorporate the language or intent of the following regulations and reports:

- NYS Sanitary Code regulations for x-ray equipment as contained in 10 NYCRR §16.58 (effective 2/4/2004); and
- Food and Drug Administration (FDA) regulations as to the x-ray equipment performance standards that need to be met, as contained in 21 CFR Part 1020 (and as so stated in the NYS Sanitary Code § 16.58).

In addition, Article 175 of the Health Code will be amended to:

- Comply with the NYS Comptroller's Audit Report of 2005 recommending that all new x-ray facilities be inspected by ORH prior to initiating clinical x-ray exams; and,
- Delineate the specific protocols to be followed in calibration of x-ray therapy units, and specify the content of the x-ray therapy calibration reports to be reviewed by ORH.

[1] There are currently 34 Agreement State programs.

PROPOSED CHANGES TO THE HEALTH CODE

I. Radioactive Materials
The Department proposes that §§ 175.02 and 175.03 of the NYC Health Code be amended to address the NRC rule, "Revision of the Skin Dose Limit," 10 CFR Part 20 amendment (67 FR 16298) that became effective April 5, 2002 (amending 10 CFR §§ 20.1003; 20.1201). The definition of "shallow dose equivalent" will be revised (§175.02) and the method for calculation (§175.03) will be updated.

The definition of "Shallow dose equivalent" in §175.02 would be changed to read as follows: *"Shallow dose equivalent" (H_s), which applies to the external exposure of the skin of the whole body or the skin of an extremity, means the dose equivalent at a tissue depth of 0.007 centimeter (7 mg/cm2).* This proposed amendment is required to achieve compatibility with the 2002 revised NRC definition found in 10 CFR §20.1003. For purposes of external exposure, "whole body" means head, trunk (including male gonads), arms above the elbow, or legs above the knee. "Extremity" means hand, elbow, arm below the elbow, foot, knee, and leg below the knee.

The method for calculating shallow-dose equivalent would be updated in §175.03. New language is proposed to state that the assigned shallow-dose equivalent must be the dose averaged over the contiguous 10 square centimeters of skin receiving the highest exposure. This will achieve compatibility with the revised NRC occupational dose limits for adults found in 10 CFR §20.1201.

The Department also proposes that § 175.03 of the NYC Health Code be amended to address the NRC rule: "Respiratory Protection and Controls to Restrict Internal Exposures" 10 CFR Part 20 amendment (64 FR 54543; 55524) that became effective February 2, 2000 (amending 10 CFR §§ 20.1003; 20.1701 - 20.1704; adding 20.1705 and amending Appendix A to Part 20).

The NYC Health Code currently does not specify conditions under which licensees should use respirators. Revisions to §175.03 would incorporate revised NRC language concerning ANSI standards, and the summing of internal and external radiation doses for ALARA (As Low As Reasonably Achievable) purposes. A statement is proposed to be added to §175.03 that an individual user who participates in a respiratory protection program is to be determined medically fit periodically at a frequency determined by a physician. (See also, "Frequency of Medical Examinations for Use of Respiratory Protection Equipment" (60 FR 7900) that became effective March 13,1995 (amending 10 CFR § 20.1703), which is incorporated within the "Respiratory Protection and Controls to Restrict Internal Exposures" 10 CFR Part 20 amendment). A provision for licensees to consider the impact on workers' industrial health and safety would address OSHA requirements with respect to use of appropriate respiratory protective equipment. Additional requirements are also being proposed to §175.03 regarding breathing air quality and procedures for respirator selection, repair, and quality assurance.

In addition, a large body of definitions relevant to Respiratory Protection and Controls is proposed to be added to §175.03 APPENDIX A - Protection Factors For Respirators.

II. Radiation Equipment
The Department proposes that § 175.51(d)(1), (2) of the NYC Health Code be amended to implement the NYS Comptroller's Audit Report of 2005 recommendation that all new x-ray facilities be inspected by the ORH prior to initiating clinical x-ray exams.

To accomplish this, the Health Code is proposed to be amended with language to authorize ORH to enforce this new registration policy. ORH registers two types of x-ray facilities in New York City:

1) Facilities such as dental offices, podiatrist offices and veterinary offices, all of which are not legally mandated to have a Quality Control (QC) program in effect for their facility; and

2) Facilities such as medical offices, radiologist offices, chiropractic offices, and other large facilities that must have a functioning and on-going QC program at their facility.

At the time of a new registration, facilities not mandated to have a QC program (i.e., dental, podiatrist, and veterinary facilities) shall not be allowed to initiate clinical patient x-rays until they have passed an ORH inspection and corrected all violations (if any) so noted. At the time of a new registration, facilities required to have a QC program (i.e., large facilities, radiologist's offices, medical doctor's offices, and chiropractor's offices) will be mandated to submit all initial acceptance testing to ORH for review and approval prior to conducting clinical studies.

The Department proposes that § 175.62(d) of the NYC Health Code be amended to implement the NYS Sanitary Code regulations (i.e., NYS Sanitary Code § 16.58 (a)(7), (8) and (9)) pertaining to fluoroscopic x-ray equipment as to the utilization of a new patient equivalent phantom composition[2], the maximum radiation output rate, and the measurements to be conducted by each facility to determine patient Entrance Skin Exposure (ESE). The Department proposes that fluoroscopic exposure rates for the most frequently performed procedure be conspicuously posted.

[2] A phantom is an object that behaves in the same manner as human tissue with respect to absorption or scattering of ionizing radiation.

The NYC Health Code requires an amendment to reflect the utilization of a new patient equivalent phantom. Per NYS Sanitary Code § 16.58 (a)(7), the new phantom adds 0.2 mm

copper sheets to the existing 1½ inches Type 1100 aluminum phantom thickness to more realistically match the x-ray attenuation properties of the human abdomen.
Manufacturers of x-ray fluoroscopic units have hardened the x-ray beam quality (i.e., made the x-ray beam penetrate to deeper depths in matter) over the last several years. The existing 1½ thick aluminum phantom due to the hardened x-ray beams does not simulate the attenuation properties of the human abdomen, hence, necessitating the addition of material to the 1½ inches of aluminum.

The Department proposes that §175.62(d) of the NYC Health Code be amended to implement the language adopted in the NYS Sanitary Code §16.58 (a)(8) that conforms to the FDA fluoroscopic performance standards as reflected in 21 CFR §1020.32 (d), (e)(1), (2) (59 FR 26402, effective May 19, 1995). The NYS Department of Health has succinctly codified the FDA changes, and ORH intends to adopt the same language in its proposed amendments. These performance standards mandate the maximum radiation output rate that the fluoroscopic equipment is not to exceed, determined by: 1) date of manufacture of the fluoroscopic equipment, and 2) whether a high-level boost mode is present on the equipment. The NYC Health Code needs to reflect these more restrictive regulations as outlined in §16.58 (a)(8) of the NYS Sanitary Code.

Also, per NYS Sanitary Code §16.58 (a)(9), the State requires that patient ESE values be measured for each fluoroscopic unit and be posted. The requirement to post is to make the fluoroscopic operators aware of the typical exposures for different body sizes. Accordingly, §175.62(d) of the NYC Health Code is being updated to reflect this NYS Sanitary Code change in posting requirements.

The Department proposes that §175.62(h)(1)-(2) of the NYC Health Code be amended to implement the language adopted in the NYS Sanitary Code §16.58(a)(12), (13) as to:

1) The new methodology for conducting compliance measurements for the high and low contrast resolution standards for fluoroscopic equipment; and,

2) The utilization of a new high contrast test tool, measuring high contrast resolution in line pairs per millimeter (lp/mm).

Reflecting the medical physicist's testing methods in determining high and low contrast resolution for fluoroscopic units, the State changed the testing methodology as to the fluoroscopic operating parameters (for example, determining resolution in the magnification mode of operation) and changed the test tool used to determine high contrast resolution. The NYC Health Code needs to be updated to reflect this more professional method in measuring the resolution performance of fluoroscopic units.

Finally, the Department proposes that §175.64(g)(8)(ii), (iv) of the NYC Health Code be amended to specify the use of x-ray therapy protocols developed by the American Association of Physicists in Medicine (AAPM) to be followed by each facility in conducting the annual radiation output measurement for each therapy unit, and to delineate the minimal content that should be contained in each annual calibration report by the facility for review by ORH inspectors. These provisions of the Health Code are also being modified to be more comprehensive as to the content of x-ray therapy output calibration reports and more specific as to the methodology employed in the actual output calibration measurements.

Each facility utilizing the specialized x-ray units for patient cancer treatment (denoted as LINACs) must make annual output calibrations for each unit and save these reports for review by ORH. The AAPM has published professional guidance for therapy calibration protocols that should be utilized when calibrating LINACs. If followed, the AAPM protocols result in the validity of the actual numerical value for radiation output to have an uncertainty of +/- 5%. The AAPM protocols are published in peer-reviewed journals and so represent the best collective reasoning and knowledge of the top medical physicists working in radiation therapy. Presently, Article 175 (specifically section 175.64(g)(8)(ii)) does not delineate specific protocols to be followed during calibration of the LINACs. The amended section will be specific as to the AAPM protocols that may be followed by facilities during calibration of their LINAC units. Also, there has been confusion as to the exact content of each calibration report that is to be generated and reviewed by ORH. By amending § 175.64 (g)(8)(iv), the section will then accurately reflect the content of the calibration report to be retained by the facility for inspection purposes. Both changes are more in the form of clarification of existing ORH inspection standards.

The proposal is as follows:

(h) *Respiratory protection and controls to restrict internal exposure in restricted areas.*
(1) *Use of process or other engineering controls.* The licensee or registrant shall use to the extent practicable, process or other engineering controls, such as containment, decontamination, or ventilation, to control the concentrations of radioactive material in air.

(2) *Use of other controls.* When it is not practicable to apply process or other engineering controls to control the concentrations of radioactive material in air to values below those that define an airborne radioactivity area, the licensee or registrant shall, consistent with maintaining the total effective dose equivalent ALARA, increase monitoring and limit intakes by one or more of the following means:
(i) control of access; or
(ii) limitation of exposure times; or
(iii) use of respiratory protection equipment; or
(iv) other controls.

If the licensee performs an ALARA analysis to determine whether or not respirators should be used, the licensee may consider safety factors other than radiological factors. The licensee should also consider the impact of respirator use on workers' industrial health and safety.

(3) *Use of individual respiratory protection equipment.* (i) If the licensee or registrant uses respiratory protection equipment to limit intakes pursuant to §175.03(h)(2):

(A) Except as provided in §175.03(h)(3)(i)(B), the licensee or registrant shall use only respiratory protection equipment that is tested and certified or had certification extended by the National Institute for Occupational Safety and Health and the Mine Safety and Health Administration.

(B) If the licensee or registrant wishes to use equipment that has not been tested or certified by the National Institute for Occupational Safety and Health and the Mine Safety and Health Administration or has not had certification extended by the National Institute for Occupational Safety and Health and the Mine Safety and Health Administration, or for which there is no schedule for testing or certification, the licensee or registrant shall submit an application to the Department for authorized use of that equipment [,]. The application must include [including] a demonstration by licensee testing [,] or a demonstration on the basis of reliable test information, that the material and performance characteristics of the equipment are capable of providing the proposed degree of protection under anticipated conditions of use.

(C) The licensee or registrant shall implement and maintain a respiratory protection program that includes:
(*a*) air sampling sufficient to identify the potential hazard, permit proper equipment selection, and estimate [exposures] doses; and
(*b*) surveys and bioassays, as [appropriate] necessary, to evaluate actual intakes; and
(*c*) testing of respirators for operability (user seal check for face sealing devices and functional check for others) immediately prior to each use; and
(*d*) written procedures regarding respirator selection [fitting]; fit testing; inventory and control, storage, issuance [,]; maintenance, repair and testing of respirators, including testing for operability immediately prior to each use; supervision and training of [personnel] respirator users; monitoring, including air sampling and bioassays, and breathing air quality; and quality assurance and recordkeeping; and
(*e*) determination by a physician [prior to initial fitting of respirators, and at least every 12 months thereafter,] that the individual user is [physically able] medically fit to use the respiratory protection equipment[.] prior to initial fitting of a face sealing respirator; before the first field use of non-face sealing respirators and either every 12 months thereafter, or periodically at a frequency determined by a physician.
(*f*) Fit testing, with a fit factor 10 times the APF for negative pressure devices, and a fit factor greater than or equal to 500 for any positive pressure, continuous flow, and pressure-demand devices, before the first field use of tight fitting, face-sealing respirators and periodically thereafter at a frequency of at least once per year. Fit testing must be performed with the face-piece operating in the negative pressure mode.

(D) The licensee or registrant shall issue a written policy statement on respirator usage covering:
(*a*) the use of process or other engineering controls, instead of respirators; and
(*b*) the routine, nonroutine, and emergency use of respirators; and
(*c*) [the length of] limitations on periods of respirator use and relief from respirator use.

***

(F) The licensee or registrant shall use respiratory protection equipment within the equipment manufacturer's expressed limitations for type and mode of use [and shall provide proper visual, communication, and other special capabilities, such as adequate skin protection, when needed]. When selecting respiratory devices, the licensee shall provide for low temperature work environments, and the concurrent use of other safety or radiological protection equipment or skin protection, when needed. The licensee shall use equipment in such a way as not to interfere with the proper operation of the respirator.

***

(ii) When estimating exposure of individuals to airborne radioactive materials, the licensee or registrant may make allowance for respiratory protection equipment used to limit intakes pursuant to §175.03(h)(2), provided that the following conditions, in addition to those in §175.03(h)(3)(i), are satisfied:
(A) the licensee or registrant selects respiratory protection equipment that provides a protection factor, specified in Appendix A of this section, greater than the multiple by which peak concentrations of airborne radioactive materials in the working area are expected to exceed the values specified in Table 1, Column 3 of Appendix B of this section. However, if the selection of respiratory protection equipment with a protection factor greater than [the] this multiple of peak concentration is inconsistent with the goal specified in §175.03(h)(2) of keeping the total effective dose equivalent ALARA, the licensee or registrant may select respiratory protection equipment with a lower protection factor provided that such a selection would result in a total effective dose equivalent that is ALARA. [The concentration of radioactive material in the air that is inhaled when respirators are worn may be initially estimated by dividing the average concentration in air, during each period of uninterrupted use, by the protection factor. If the exposure is later found to be greater than initially estimated, the corrected value shall be used; if the exposure is later found to be less than initially estimated, the corrected value may be used.] In estimating the dose to individuals from intake of airborne radioactive materials, the concentration of radioactive material in the air that is inhaled when respirators are worn is initially assumed to be the ambient concentration in air without respiratory protection, divided by the assigned protection factor. If the dose is later found to be greater than the initially estimated dose, the corrected value must be used. If the dose is later found to be less than the initially estimated dose, the corrected value may be used.

(B) The licensee or registrant shall obtain authorization from the Department before [assigning respiratory] using assigned protection factors in excess of those specified in Appendix A of this section. The Department may authorize a licensee or registrant to use higher protection factors on receipt of an application that:
(*a*) describes the situation for which a need exists for higher protection factors, and
(*b*) demonstrates that the respiratory protection equipment provides these higher protection factors under the proposed conditions of use.

***

(4) *Further restrictions on the use of respiratory protection equipment.* The Department may impose restrictions, in addition to those in §175.03(h)(2) [and] , §175.03(h)(3) and in Appendix A to §175.03 to:
(i) ensure that the respiratory protection program of the licensee is adequate to limit [exposures of] doses to individuals [to] from intakes of airborne radioactive materials consistent with maintaining total effective dose equivalent ALARA; and
(ii) limit the extent to which a licensee may use respiratory protection equipment instead of process or other engineering controls.

§ 175.03 APPENDIX A Protection Factors For Respirators Footnotes:

***

2. [Only for shaven faces and where nothing interferes with the seal of tight-fitting facepieces against the skin.] The licensee shall ensure that no objects, materials or substances, such as facial hair, or any conditions that interfere with the face, face-piece seal or valve function, and that are under the control of the respirator wearer, are present between the skin of the wearer's face and the sealing surface of a tight-fitting respirator face-piece. Hoods and suits are excepted.

***

9. Appropriate protection factors shall be determined, taking into account the design of the suit and its permeability to the contaminant under conditions of use. [There shall be a

standby rescue person equipped with a respirator or other apparatus appropriate for the potential hazards and communications equipment whenever supplied-air suits are used.] Standby rescue persons are required whenever one piece atmosphere-supplying suits, or any combination of supplied air respiratory protection device and personnel protective equipment are used from which an unaided individual would have difficulty extricating himself or herself. The standby persons must be equipped with communications devices and respiratory protection devices or other apparatus appropriate for the potential hazards. The standby rescue persons shall observe or otherwise maintain continuous communication with the workers (visual, voice, signal line, telephone, radio, or other suitable means), and be immediately available to assist them in case of a failure of the air supply or for any other reason that requires relief from distress. A sufficient number of standby rescue persons must be immediately available to assist all users of this type of equipment and to provide effective emergency rescue if needed.

Definitions:

"Airpurifying respirator" means a respirator with an air-purifying filter, cartridge, or canister that removes specific air contaminants by passing ambient air through the air purifying element.

"Assigned protection factor" or "APF" means the expected workplace level of respiratory protection that would be provided by a properly functioning respirator or a class of respirators to properly fitted and trained users. Operationally, the inhaled concentration can be estimated by dividing the ambient airborne concentration by the APF.

"Atmospheresupplying respirator" means a respirator that spplies the respirator user with breathing air from a source independent of the ambient atmosphere, and includes supplied-air respirators (SARs) and self-contained breathing apparatus (SCBA) units.

"Demand respirator" means an atmosphere-supplying respirator that admits breathing air to the face-piece only when a negative pressure is created inside the face-piece by inhalation.

"Disposable respirator" means a respirator for which maintenance is not intended and that is designed to be discarded after excessive breathing resistance, sorbent exhaustion, physical damage, or end-of-service-life renders it unsuitable for use. Examples of this type of respirator are a disposable halfmask respirator or a disposable escape-only self-contained breathing apparatus (SCBA).

"Filtering face-piece" or "dust mask" means a negative pressure particulate respirator with a filter as an integral part of the face-piece or with the entire face-piece composed of the filtering medium, not equipped with elastomeric sealing surfaces and adjustable straps.

"Fit factor" means a quantitative estimate of the fit of a particular respirator to a specific individual, and typically estimates the ratio of the concentration of a substance in ambient air to its concentration inside the respirator when worn.
"Fit test" means the use of a protocol to qualitatively or quantitatively evaluate the fit of a respirator on an individual.

"Helmet" means a rigid respiratory inlet covering that also provides head protection against impact and penetration.

"Hood" means a respiratory inlet covering that completely covers the head and neck and may also cover portions of the shoulders and torso.

"Loose-fitting face-piece" means a respiratory inlet covering that is designed to form a partial seal with the face.

"Negative pressure respirator" or "tight fitting respirator" means a respirator in which the air pressure inside the face-piece is negative during inhalation with respect to the ambient air pressure outside the respirator.

"Positive pressure respirator" means a respirator in which the pressure inside the respiratory inlet covering exceeds the ambient air pressure outside the respirator. "Powered air purifying respirator" or "PAPR" means an air-purifying respirator that uses a blower to force the ambient air through air-purifying elements to the inlet covering.

"Pressure demand respirator" means a positive pressure atmosphere-supplying respirator that admits breathing air to the face-piece when the positive pressure is reduced inside the face-piece by inhalation.

"Qualitative fit test" or "QLFT" means a pass/fail fit test to assess the adequacy of respirator fit that relies on the individual's response to the test agent.

"Quantitative fit test" or "QNFT" means an assessment of the adequacy of respirator fit by numerically measuring the amount of leakage into the respirator.

"Self-contained breathing apparatus" or "SCBA" means an atmosphere-supplying respirator for which the breathing air source is designed to be carried by the user.

"Supplied-air respirator" or "SAR" or "airline respirator" means an atmosphere-supplying respirator for which the source of breathing air is not designed to be carried by the user.

"Tight-fitting face-piece" means a respiratory inlet covering that forms a complete seal with the face.

"User seal check" or "fit check" means an action conducted by the respirator user to determine if the respirator is properly sealed to the face. Examples include negative pressure check, positive pressure check, irritant smoke check, or isoamylacetate check.

(1) Facilities without a current certificate of registration shall apply as follows:
No registrant shall apply x-rays to treat or diagnosis any patient's medical condition at a facility that does not possess a current, non-expired Certificate of Registration from the Department. This shall not prohibit the installation of radiographic equipment by a registrant at a facility solely for testing purposes by medical physicists.

In this context, the initial quality control tests shall be the sum of all quality control tests mandated to be conducted for the facility type at daily, weekly, monthly, semiannual, annual and biennial frequencies. In addition, a radiation protection survey shall be conducted for each room housing a radiographic unit. In this context, a medical physicist shall be an individual possessing a current, non-expired CRESO license, or a license to practice the specialty of diagnostic medical physics in New York State.

(iv) The registrant shall maintain a record of each calibration for the duration of the certified registration. The record shall include the date of the calibration, the manufacturer's name, model and serial number or other unambiguous identification of the therapeutic radiation machine [and of the instruments used to calibrate the therapeutic machine] along with the instrument's certificate of calibration, all measured beam output data collected during the calibration, the derivation for all the correction factors (as delineated in AAPM Reports TG 21 or TG 51 or any successor publication) applied to the 'measured beam output data' in the calculation of the therapeutic radiation machine's beam output dose rate (the latter shall be conducted for each photon and electron beam clinically utilized at the facility), and the signature of the radiation therapy physicist named on the certified registration.

***

Notes: Paragraph (8) of subdivision (g) of Section 175.64 is being proposed for amendment in order to specify the use of x-ray therapy protocols developed by the American Association of Physicists in Medicine to be followed by each licensed facility in conducting the annual radiation output measurement for each therapy unit, and to delineate the minimal content that should be contained in each annual calibration report by the facility for review by Department inspectors.

NOTICE OF ADOPTION OF AMENDMENTS TO SECTION 11.03 OF THE NEW YORK CITY HEALTH CODE

In compliance with Section 1043(b) of the New York City Charter and pursuant to the authority granted to the Board of Health by Section 558 of said Charter, the Notice of Intention to amend Section 11.03 was published in the City Record on March 17, 2006. No written comments were received. There was no public hearing on this proposal to amend Section 11.03. These additional diseases/conditions to be added to Section 11.03(a) are already required to be reported to the New York City Department of Health and Mental Hygiene pursuant to the New York State Sanitary Code. Therefore, a hearing on the merits would not have served any additional public purpose in accordance with Section 1043 of the New York City Charter. The Board of Health at its June 15, 2006 meeting adopted the following resolution.

STATUTORY AUTHORITY

This amendment to the New York City Health Code ("Health Code") is proposed pursuant to Sections 556, 558 and 1043 of the New York City Charter ("Charter"). Section 556 of the Charter grants the New York City Department of Health and Mental Hygiene ("Department") jurisdiction to regulate matters affecting health in the City of New York. Specifically, Section 556 (c)(2) of the Charter authorizes the Department to supervise the reporting and control of communicable and chronic diseases and conditions hazardous to life and health. Sections 558 (b) and (c) of the Charter empower the Board of Health to amend the Health Code and to include in the Health Code all matters to which the Department's authority extends. Section 1043 of the Charter grants rule-making powers to the Department.

STATEMENT OF BASIS AND PURPOSE

At its December 14th 2005 meeting, the Board of Health adopted various amendments to Article 11 of the Health Code. For example, various diseases/conditions were made reportable to the Department in Section 11.03(a). Section 11.03(c) amended the time frame for reporting the various diseases and conditions. Subsequently, the Department noticed an inadvertent omission in 11.03(a). That is, there were 4 diseases/conditions that were included in Section 11.03(c) regarding time frame for reporting but were inadvertently omitted from the actual list of reportable diseases/conditions in Section 11.03(a). These four diseases/conditions are the following: Glanders, Melioidosis, Staphylococcal enterotoxin B poisoning and Viral hemorrhagic fever. It is important to note that despite the absence of these specific diseases/conditions in Section 11.03(a), they are already required to be reported to the Department pursuant to the New York State Sanitary Code, which is applicable in New York City by virtue of Public Health Law Section 228. [*See* 10 NYCRR §§ 2.1 and 2.10.]

Therefore, the Department hereby amends Section 11.03 (a) of the Health Code to include the following diseases/conditions:

- Glanders
- Melioidosis
- Staphylococcal enterotoxin B poisoning
- Viral hemorrhagic fever.

STATEMENT PURSUANT TO SECTION 1042-REGULATORY AGENDA

This proposal was not included in the fiscal year 2005 New York City Department of Health and Mental Hygiene Regulatory Agenda because it is the result of recent discovery by the Department of an inadvertent omission.

The proposal is as follows:
Note - matter in brackets [ ] to be deleted
matter underlined is new

RESOLVED, that subsection (a) of Section 11.03 of the New York City Health Code as last amended by resolution, on the fourteenth of December, 2005, be and the same hereby is amended, to be printed together with explanatory notes, to read as follows:

§ 11.03. Diseases and conditions reportable.

Notes: The Department amends subsection (a) of §11.03 to require the reporting of the following diseases/conditions: Glanders, Melioidosis, Staphylococcal enterotoxin B poisoning, and Viral hemorrhagic fever. These diseases/conditions are already required to be reported to the Department pursuant to the New York State Sanitary Code, which is applicable in New York City pursuant to Public Health Law § 228 [*See* 10 NYCRR§§ 2.1 and 2.10].

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Section 2. INTERPRETATIONS

The agency head is empowered to grant a leave of absence with pay for the first week's absence of an Employee covered by Worker's Compensation who is physically disabled in the performance of official duties.

a. Agencies should use election forms (DP-2002), which are obtainable from the Stock Section (Room 433) of the Department of Personnel.

b. The election of an option, as provided for in this section, should be made within the first seven consecutive calendar days following absence, in order that an Employee, who so elects, is assured of receiving full pay during the period of Worker's Compensation coverage. The agency head's authority to grant leave with full pay, without charge to leave balances pursuant to Section 2, does not extend beyond the first seven consecutive calendar days following absence.

c. Where an Employee has been absent for an initial period of less than a week and an extended subsequent absence may possibly result from the same disability or condition, the Employee must elect a rate of charge (on Form DP-2002) within seven calendar days of the first day of absence in order to receive full pay, even though the Employee has already returned to work.

For a permanent Employee who have five (5) years or more of service who does not have sufficient leave credit to cover his/her absence pending a determination by the Worker's Compensation Division of the Law Department, the agency head shall advance the Employee up to forty-five (45) calendar days of paid leave. In the event the Worker's Compensation Division of the Law Department does not accept the injury as compensable under the law or the Worker's Compensation Board determines that such injury is not compensable under such law, the Employee shall reimburse the City for the paid leave advance.

An Employee who is granted a leave of absence with pay pursuant to this Section, shall receive the difference between the Employee's weekly salary and the compensation rate without charge against annual leave or sick leave. The Employee shall, as a condition of receiving benefits under this Section, execute an assignment of the proceeds of any judgment or settlement in any third-party action arising from such injury in the amount of the pay and medical disbursements received pursuant to this Section, but **NOT** to exceed the amount of such proceeds. Such assignment shall be in the form prescribed by the Corporation Counsel.

The injured Employee shall undergo such medical examinations as are requested by the Worker's Compensation Division of the Law Department and the employing agency, and when found fit for duty by the Worker's Compensation Board shall return to employment. No benefits shall be paid while an Employee is suspended pending disciplinary action, or if an Employee is subsequently found culpable of having commenced the assault or unnecessarily continued the assault. Benefits provided under this section shall be in addition to, but not concurrent with, benefits provided under Sections 1 and 2 hereof.

For Employees who do not come under the provisions of Section 3(a) hereof but who are injured in the course of employment, upon the determination of an agency head that an Employee has been physically disabled because of an injury arising out of and in the course of employment, through no fault of the Employee, the agency head will grant the injured Employee an extended sick leave with pay not to exceed three months after all the Employee's sick leave and annual leave balances have been exhausted. This additional leave must be taken immediately following the exhaustion of such balances. No such leave with pay shall be granted unless the Worker's Compensation Division of the Law Department advises the agency head in writing that the Employee's injury has been accepted by the Division as compensable under the Worker's Compensation Law, or if such injury is not accepted by the Division as compensable under such law, unless the Worker's Compensation Board determines that such injury is compensable under such law.
An Employee who is granted extended sick leave with pay pursuant to this section, shall receive the difference between the Employee's weekly salary and the compensation rate for the period of time granted. The Employee shall, as a condition of receiving benefits under this section, execute an assignment of the proceeds of any judgment or settlement in any third-party action arising from such injury, in the amount of the pay and medical disbursements received pursuant to this section, but not to exceed the amount of such proceeds. Such assignment shall be in the form prescribed by the Corporation Counsel.

The injured Employee shall undergo such medical examinations as are requested by Worker's Compensation Division of the Law Department and the employing agency, and when found fit for duty by the Worker's Compensation Board shall return to employment. Benefits provided under this section shall be in addition to but not concurrent with benefits provided under Sections 1 and 2 hereof. The benefits provided by this section shall not be provided or continued beyond the date on which disability retirement benefits become effective.

An "assignment" form (DP-2010 obtainable from the Department of Personnel Stock Section, Room 433) must be executed in duplicate by the injured Employee and submitted to the employing agency. The employing agency shall forward the duplicate copy to the Worker's Compensation Section of the Law Department, and retain the original.

The Union acknowledges the Employer's right to pay additional compensation for outstanding performance.

The Employer agrees to notify the Union of its intent to pay such additional compensation.

ARTICLE VI - GRIEVANCE PROCEDURE

Section 1. - Definition:

The term **"Grievance"** shall mean:

a. A dispute concerning the application or interpretation of the terms of this Agreement;

b. A claimed violation, misinterpretation or misapplication of the rules or regulations, written policy or orders of the Employer applicable to the agency which employs the grievant affecting the terms and conditions of employment; provided, disputes involving the Personnel Rules and Regulations of the City of New York shall not be subject to the Grievance Procedure or arbitration;

c. A claimed assignment of Employees to duties substantially different from those stated in their job specifications;

d. A claimed improper holding of an open competitive rather than a promotional examination; and

e. A claimed wrongful disciplinary action taken against a permanent Employee covered by Section 75 (1) of the Civil Service Law upon whom the agency head has served written charges of incompetence or misconduct while the Employee is serving in the Employee's permanent title or which affects the Employee's permanent status.

Section 2.

The Grievance Procedure, except for paragraphs d. and e. of Section 1, shall be as follows:

Employees may at any time informally discuss with their supervisors a matter, which may become a grievance. If the results of such a discussion are unsatisfactory, the Employees may present the grievance at **STEP I**.

All grievances must be presented in writing at all steps in the grievance procedure. For all grievances as defined in Section 1c, no monetary award shall in any event cover any period prior to the date of the filing of the **STEP I** grievance unless such grievance has been filed within thirty (30) days of the assignment to alleged out-of-title work. No monetary award for a grievance alleging a miscalculation of salary rate resulting in a payroll error of a continuing nature shall be issued unless such grievance has been filed within the time limitation set forth in STEP I below for such grievances; if the grievance is so filed, any monetary award shall in any event cover only the period up to six years prior to the date of the filing of the grievance.

STEP I The Employee and/or the Union shall present the grievance in the form of a memorandum to the person designated for such purpose by the agency head no later than 120 days after the date on which the grievance arose. The Employee may also request an appointment to discuss the grievance. The person designated by the Employer to hear the grievance shall take any steps necessary to a proper disposition of the grievance and shall issue a determination in writing by the end of the third work day following the date of submission.

STEP II An appeal from an unsatisfactory determination at **STEP I**, shall be presented in writing to the agency head or the agency head's designated representative who shall not be the same person designated in **STEP I**. The appeal must be made within five (5) working days of the receipt of the **STEP I** determination. The agency head or designated representative, if any, shall meet with the Employee and/or the Union for review of the grievance and shall issue a determination in writing by the end of the tenth work day following the date on which the appeal was filed.

STEP III An appeal from an unsatisfactory determination at **STEP II** shall be presented by the Employee and/or the Union to the Commissioner of Labor Relations, in writing within ten (10) working days of the receipt of the **STEP II** determination. The grievant or the Union should submit copies of the **STEP I** and **STEP II** grievance filings and any agency responses thereto. Copies of such appeal shall be sent to the agency head. The Commissioner of Labor Relations or the Commissioner's designee, shall review all appeals from **STEP II** determinations and shall answer such appeals within fifteen (15) working days following the date on which the appeal was filed.

STEP IV An appeal from an unsatisfactory determination at **STEP III** may be brought solely by the Union to the Office of Collective Bargaining for impartial arbitration within fifteen (15) working days of receipt of the **STEP III** determination. In addition, the Employer shall have the right to bring directly to arbitration any dispute between the parties concerning any matter defined herein as a "grievance." The Employer shall commence such arbitration by submitting a written request therefor to the Office of Collective Bargaining. A copy of the notice requesting impartial arbitration shall be forwarded to the opposing party. The arbitration shall be conducted in accordance with the Title 61 of the Rules of the City of New York. The costs and fees of such arbitration shall be borne equally by the Union and the Employer.

The arbitrator's decision, order or award (if any), shall be limited to the application and interpretation of the Agreement, and the arbitrator shall not add to, subtract from or modify the Agreement. The arbitrator's award shall be final and binding and enforceable in any appropriate tribunal in accord with Article 75 of the Civil Practice Law and Rules. The arbitrator may provide for and direct such relief as the arbitrator deems shall be necessary and proper, subject to the limitations set forth above and any applicable limitations of law.

Section 3.

As a condition to the right of the Union to invoke impartial arbitration set forth in this Article, including the arbitration of a grievance involving a claimed improper holding of an open-competitive rather than a promotional examination, the Employee or Employees and the Union shall be required to file with the Director of the Office of Collective Bargaining a written waiver of the right, if any, such Employee(s) and the Union to submit the underlying dispute to any other administrative or judicial tribunal except for the purpose of enforcing the arbitrator's award.

Section 4.

In any case involving a grievance under Section 1e of this Article, the following procedure shall govern upon service of written charges of incompetence or misconduct:

STEP A Following the service of written charges, a conference with such Employee shall be held with respect to such charges by the person designated by the agency head to review a grievance at **STEP I** of the Grievance Procedure set forth in this Agreement. The Employee may be represented at such conference by a representative of the Union. The person designated by the agency head to review the charges shall take any steps necessary to a proper disposition of the charges and shall issue a determination in writing by the end of the fifth day following the date of the conference.

If the Employee is satisfied with the determination in **STEP A**. above, the Employee may choose to accept such determination as an alternative to and in lieu of a determination made pursuant to the procedures provided for in Section 75 of the Civil Service Law. As a condition of accepting such determination, the Employee shall sign a waiver of the Employee's right to the procedures available to him or her under Section 75 and 76 of the Civil Service Law.

STEP B(i) If the Employee is not satisfied with the determination at **STEP A**. above, then the Employer shall proceed in accordance with the disciplinary procedures set forth in Section 75 of the Civil Service Law. As an alternative, the Union with the consent of the Employee may choose to proceed in accord with the Grievance Procedure set forth in this Agreement, including the right to proceed to binding arbitration pursuant to **STEP IV** of such Grievance Procedure. As a condition for submitting the matter to the Grievance Procedure, the Employee and the Union shall file a written waiver of the right to utilize the procedures available to the Employee pursuant to Section 75 and 76 of the Civil Service Law or any other administrative or judicial tribunal, except for the purpose of enforcing an arbitrator award, if any. Notwithstanding such waiver, the period of an Employee's suspension without pay pending hearing and determination of charges shall not exceed thirty (30) days.

STEP B(ii) If the election is made to proceed pursuant to the Grievance Procedure, an appeal from the determination of **STEP A**. above, shall be made to the agency head or designated representative. The appeal must be made in writing within five (5) working days of the receipt of the determination. The agency head or representative shall meet with the Employee and the Union for review of the grievance and shall issue a written reply to the Employee and the Union by the end of the tenth working day following the day on which the appeal was filed. The agency head or designated representative shall have the power to impose the discipline, if any, decided upon, up to and including termination of the accused Employee's employment. In the event of such termination or suspension without pay totaling more than thirty (30) days, the Union with the consent of the grievant may elect to skip **STEP C** of this Section and proceed directly to **STEP D**.

STEP C If the grievant is not satisfied with the determination of the agency head or designated representative, the grievant or the Union may appeal to the Commissioner of Labor Relations in writing within ten (10) days of the determination of the Agency head or designated representative. The Commissioner of Labor Relations shall issue a written reply to the grievant and the Union within fifteen (15) working days.

STEP D If the grievant is not satisfied with the determination of the Commissioner of Labor Relations, the Union with the consent of the grievant may proceed to arbitration pursuant to the procedures set forth in **STEP IV** of the Grievance Procedure set forth in this Agreement.

Section 5.

A grievance concerning a large number of Employees which concerns a claimed misinterpretation, inequitable application, violation or failure to comply with the provisions of this Agreement may be filed directly at **STEP III** of the Grievance Procedure. All other individual grievances in process concerning the same issue shall be consolidated with the "group" grievance.

Section 6.

If a determination satisfactory to the Union at any level of the Grievance Procedure is not implemented within a reasonable time, the Union may re-institute the original grievance at **STEP III** of the Grievance Procedure; or if a satisfactory **STEP III** determination has not been so implemented, the Union may institute a grievance concerning such failure to implement at **STEP IV** of the Grievance Procedure.

Section 7.

If the Employer exceeds any time limit prescribed at any step in the Grievance Procedure, the grievant and/or the Union may invoke the next step of the procedure, except, however, that only the Union may invoke impartial arbitration under **STEP IV**.

Section 8.

The Employer shall notify the Union in writing of all grievances filed by Employees, all grievance hearings, and all determinations. The Union shall have the right to have a representative present at any grievance hearing and shall be given fort-yeight (48) hours' notice of all grievance hearings.

Section 9.

Each of the STEPs in the Grievance Procedure, as well as time limits prescribed at each step of this Grievance Procedure, may be waived by mutual agreement of the parties.

Section 10.

a. Any grievance relating to a claimed improper holding of an open-competitive rather than a

promotional examination shall be presented in writing by the Employee or the Union representative to the Commissioner of Labor Relations not later than thirty (30) days after the notice of the intention to conduct such open-competitive examination, or copy of the appointing officer's request for such open-competitive examination, as the case may be, has been posted in accordance with Section 51 of the Civil Service Law. The grievance shall be considered and passed upon within ten (10) days after its presentation. The determination shall be in writing, copies of which shall be transmitted to both parties to the grievance upon issuance.

b. A grievance relating to the use of an open-competitive rather than a promotional examination which is unresolved by the Commissioner of Labor Relations may be brought to impartial arbitration as provided in Sections 2 and 3 above. Such a grievance shall be presented by the Union, in writing, for arbitration within 15 days of the presentation of such grievance to the Commissioner of Labor Relations, and the arbitrator shall decide such grievance within 75 days of its presentation to the arbitrator. The party requesting such arbitration shall send a copy of such request to the other party. The costs and fees of such arbitration shall be borne equally by the Employer and the Union.

Section 11.

A non-Mayoral agency not covered by this Agreement but which employs Employees in titles identical to those covered by this Agreement may elect to permit the Union to appeal an unsatisfactory determination received at the last step of its Grievance Procedure prior to arbitration on fiscal matters only to the Commissioner of Labor Relations. If such election is made, the Union shall present its appeal to the Commissioner of Labor Relations in writing within ten (10) working days of the receipt of the last step determination. The Union should submit copies of the grievance filings at the prior steps of its Grievance Procedure and any agency responses thereto. Copies of such appeals shall be sent to the agency head. The Commissioner of Labor Relations, or his designee, shall review all such appeals and answer all such appeals within fifteen (15) working days. An appeal from a determination of the Commissioner of Labor Relations may be taken to arbitration under procedures, if any, applicable to the non-Mayoral agency involved.

Section 12.

The grievance and the arbitration procedure contained in this Agreement shall be the exclusive remedy for the resolution of disputes defined as "grievances" herein. This shall not be interpreted to preclude either party from enforcing the arbitrator's award in court. This Section shall not be construed in any manner to limit the statutory rights and obligations of the Employer under Article XIV of the Civil Service Law.

Section 13. Expedited Arbitration Procedure.

a. The parties agree that there is a need for an expedited arbitration process, which would allow for the prompt adjudication of grievances as set forth below.

b. The parties voluntarily agree to submit matters to final and binding arbitration pursuant to the New York City Collective Bargaining Law and under the jurisdiction of the Office of Collective Bargaining. An arbitrator or panel of arbitrators, as agreed to by the parties, will act as the arbitrator of any issue submitted under the expedited procedure herein.

c. The selection of those matters which will be submitted shall include, but not limited to, out-of-title cases concerning all titles, disciplinary cases wherein the proposed penalty is a monetary fine of one week or less or written reprimand, and other cases pursuant to mutual agreement by the parties. The following procedures shall apply:

i. **SELECTION AND SCHEDULING OF CASES:**

(1) The Deputy Chairperson for Disputes of the Office of Collective Bargaining shall propose which cases shall be subject to the procedures set forth in this Section 14 and notify the parties of proposed hearing dates for such cases.

(2) The parties shall have ten business days from the receipt of the Deputy Chairperson's proposed list of cases and hearing schedule(s) to raise any objections thereto.

(3) If a case is not proposed by the Deputy Chairperson for expedited handling, either party may, at any time prior to the scheduling of an arbitration hearing date for such case, request in writing to the other party and to the Deputy Chairperson of Disputes of the Office of Collective Bargaining that said case be submitted to the expedited procedure. The party receiving such request shall have ten business days from the receipt of the request to raise any objections thereto.

(4) No case shall be submitted to the expedited arbitration process without the mutual agreement of the parties.

ii. **CONDUCT OF HEARINGS:**

(1) The presentation of the case, to the extent possible, shall be made in the narrative form. To the degree that witnesses are necessary, examination will be limited to questions of material fact and cross-examination will be similarly limited. Submission of relevant documents, etc., will not be unreasonably limited and may be submitted as a "packet" exhibit.

(2) In the event either party is unable to proceed with hearing a particular case, the case shall be rescheduled. However, only one adjournment shall be permitted. In the event that either party is unable to proceed on a second occasion, a default judgment may be entered against the adjourning party at the Arbitrator's discretion absent good cause shown.

(3) The Arbitrator shall not be precluded from attempting to assist the parties in settling a particular case.

(4) A decision will be issued by the Arbitrator within two weeks. It will not be necessary in the Award to recount any of the facts presented. However, a brief explanation of the Arbitrator's rationale may be included. Bench decisions may also be issued by the Arbitrator.

(5) Decisions in this expedited procedure shall not be considered as precedent for any other case nor entered into evidence in any other forum or dispute except to enforce the Arbitrator's award.

(6) The parties shall, whenever possible, exchange any documents intended to be offered in evidence at least one week in advance of the first hearing date and shall endeavor to stipulate to the issue in advance of the hearing date.

ARTICLE VII - BULLETIN BOARDS: EMPLOYER FACILITIES

The Union may post notices on bulletin boards in places and locations where notices are usually posted by the Employer for the Employees to read. All notices shall be on Union stationery, and shall be used only to notify Employees of matters pertaining to Union affairs. Upon request to the responsible official in charge of a work location, the Union may use Employer premises for meetings during Employees' lunch hours, subject to availability of appropriate space and provided such meetings do not interfere with Employer business.

ARTICLE VIII - NO STRIKES

In accord with the New York City Collective Bargaining Law, as amended, neither the Union nor any Employee shall induce or engage in any strikes, slowdowns, work stoppages, mass absenteeism, or induce any mass resignations during the term of this Agreement.

ARTICLE IX- LABOR-MANAGEMENT COMMITTEE

Section 1.

The Employer and the Union, having recognized that cooperation between management and Employees is indispensable to the accomplishment of sound and harmonious labor relations, shall jointly maintain and support a labormanagement committee.

Section 2.

Each labor-management committee shall consider and may recommend to the agency head changes in the working conditions of the Employees within the agency who are covered by this Agreement. Matters subject to the Grievance Procedure shall not be appropriate items for consideration by the labor-management committee.

Section 3.

Each labor-management committee shall consist of six members who shall serve for the term of this Agreement. The Union shall designate three members and the agency head shall designate three members. Vacancies shall be filled by the appointing party for the balance of the term to be served. Each member may designate one alternate. Each committee shall select a chairperson from among its members at each meeting. The chairperson of each committee shall alternate between the members designated by the agency and the members designated by the Union. A quorum shall consist of a majority of the total membership of a committee. A committee shall make its recommendations to the agency head in writing.

Section 4.

The labor-management committee shall meet at the call of either the Union members or the Employer members at times mutually agreeable to both parties. At least one week in advance of a meeting the party calling the meeting shall provide, to the other party, a written agenda of matters to be discussed. Minutes shall be kept and copies supplied to all members of the committee.

ARTICLE X- FINANCIAL EMERGENCY ACT

The provisions of this Agreement are subject to applicable provisions of law, including the New York State Financial Emergency Act for the City of New York as amended.

ARTICLE XI - OCCUPATIONAL SAFETY AND HEALTH

Section 1.

Adequate, clean, structurally safe and sanitary working facilities shall be provided for all Employees.

Section 2.

The sole remedy for alleged violations of this Section 1 shall be a grievance pursuant to Article VI of this Agreement. Any Employee who withholds services as a means of redressing or otherwise protesting alleged violations of this Section shall be docked pay for any unauthorized non-performance of work and may be subject to any appropriate disciplinary action.

Section 3.

In construing this Section, an arbitrator shall initially have the power only to decide whether the subject facilities meet the standards of Section 1 of this Article but may not affirmatively direct how the Employer should comply with this Section. If the arbitrator determines that the Employer is in violation of this Section, the Employer shall take appropriate steps to remedy the violation. If in the opinion of the Union the Employer does not achieve compliance within a reasonable period of time, the Union may reassert its claim to the arbitrator. Upon such second submission, if the arbitrator finds that the Employer has had a reasonable time to comply with the terms of this Section and has failed to do so, then and only then, the arbitrator may order the Employer to follow a particular course of action which will effectuate compliance with the terms of this Section. However, such remedy shall not exceed appropriations available in the current budget allocation for such purposes.

ARTICLE XII - ANNUAL LEAVE FOR NEW HIRES

The annual leave allowance for Employees hired on or after July 1, 1985 shall accrue as follows:

Years In Service	Annual Leave Allowance	Monthly Accrual
At the beginning of the Employee's 1st year	15 work days	1-¼ days per month
At the beginning of the Employee's 5th year		
Employees covered by Article IV-A	17 work days	1.41 days per month
Employees covered by Article IV-C	21 work days	1.75 days per month

ARTICLE XIII - DISTRIBUTION OF OVERTIME

Authorization to work overtime compensable in cash shall be evenly distributed, where practicable, within each agency or agency subdivision, among all those Employees who are eligible to perform the overtime work required.

ARTICLE XIV - APPENDICES

The Appendix or Appendices attached hereto and initialed by the undersigned shall be deemed a part of this Agreement as if fully set forth herein.

ARTICLE XV - SAVINGS CLAUSE

In the event that any provision of this Agreement is found to be invalid, such invalidity shall not impair the validity and enforceability of the remaining provisions of this Agreement.

Re: 2002-2005 L.333 Marine (Consolidated) Agreement

Dear Mr. Healy:

This letter is to confirm certain mutual understandings and agreements regarding the above-captioned agreement.

The parties agree to establish a "Joint Labor Management Committee on Productivity Initiatives" ("Committee")

Composition of the Committee

The Committee shall comprise representatives designated by: the Deputy Mayor for Operations, the Law Department, the Office of Labor Relations, the Office of Management and Budget, the Office of Operations, and Local 333.

Goals and Objectives

The Committee shall work to identify efficiencies in the administration and delivery of governmental services, which shall in turn be utilized to provide additional compensation to employees. This agreement expresses the joint labor and management commitment to associate improved City service and performance with appropriate compensation for the workforce.

The goal of the Committee's work shall be to identify, review, recommend and develop initiatives that generate workplace savings, maximize the potential of the City workforce and ensure the provision of essential services while at the same time improving compensation for the City workforce. To that end, the parties will seek to identify quantifiable savings while at the same time maintaining or improving City services.

The Committee shall make all reasonable efforts to issue a report or reports as soon as practicable, which propose initiatives representing meaningful, quantifiable, recurring savings to the City and which generate funding to be utilized to compensate employees. Upon completion and acceptance of all committee members of the report, an additional one percent (1%) increase shall be paid to employees covered by this agreement.

The parties agree to meet and negotiate the application of any additional savings above 1% generated by the programs developed by the Committee.

Areas for Consideration

The Committee's study may encompass such matters, including, but not limited to, absence control, contracting in, workers compensation and other efficiencies.

Sick leave usage. The Committee will seek to design a program to examine baseline data as to sick leave usage as a benchmark for comparison. The goal will be to reduce employee sick leave usage on an ongoing basis as a productivity enhancement.

Contracting-in. The Committee shall identify areas wherein City services are now being outsourced with the goal of providing those services by City employees with a cost savings to the City.

Workers Compensation Cost Containment Task Force. The Committee shall create a special task force, requesting such assistance of cost containment experts as necessary, with the goal of developing reforms that emphasize effective treatments and speed the return to work; that explore the manner in which treatment services are provided; that set specific standards of evaluation and treatment; and that serve to root out fraudulent claims.

Such other areas as the Committee may mutually agree.

Implementation of Savings

The initiatives and programs developed pursuant to this Committee must be unanimously agreed upon. In the event there is a dispute as to the amount of savings generated by an initiative or the implementation of a program, or the savings generated by a program are not paid pursuant to this agreement, it shall be submitted to arbitration upon written notice therefor by any of the parties to this Agreement to the party with whom such dispute or controversy exists. The matter submitted for arbitration shall be submitted to an arbitration panel consisting of the three impartial members of the Board of Collective Bargaining pursuant to Title 61 of the rules of the City of New York. Any award in such arbitration proceeding shall be final and binding and shall be enforceable pursuant to Article 75 of the CPLR.

If the above accords with your understanding, kindly execute the signature line provided below.

Re: 2002-2005 L.333 Marine (Consolidated) Agreement

Dear Mr. Healy:

This is to confirm the understanding and agreement of the parties concerning the above captioned agreement.

For those employees covered by Articles IV-A, IV-B and IV-C and hired between January 1, 1995 through December 31, 1999, upon completion of four (4) years of active or qualified inactive service, an employee in active pay status appointed pursuant to the provisions set forth in Section 5(b) of the 1995 MCMEA shall receive a one-time lump sum payment calculated by taking the difference between the "hiring rate" received by the employee and the indicated minimum for the applicable title that was in effect on the one year anniversary of the employee's original date of appointment to their title. Such one-time lump sum payment shall be equivalent to the difference between the annual salary rate the employee would have actually earned during the employee's second year of service had the higher salary rate been in effect and the annual salary rate they did earn.

i. The intent of this agreement is to treat the employee as if the employee had moved to the higher minimum "incumbent rate" after one year of service rather than after two years. Only the difference between the applicable minimum "hiring rate" and the minimum "incumbent rate" is guaranteed. Any additions-to-gross or merit increases are not to be included in the calculation of the one-time lump sum payment.

ii. All overtime, night shift differential, or other percentage based premium payments received by an employee during the second year of service will be included in the calculation of the lump sum payment.

iii. Employees who change titles or levels before attaining two years of service will be treated in the new title or level as if they had been originally appointed to said title or level on their original hiring date and the lump sum will be prorated to reflect such change(s).

"Qualified inactive service" is defined for the purposes of this agreement to include the following employees:

i. those who are on preferred or recall lists; or
ii. those who are on the following unpaid approved leaves:

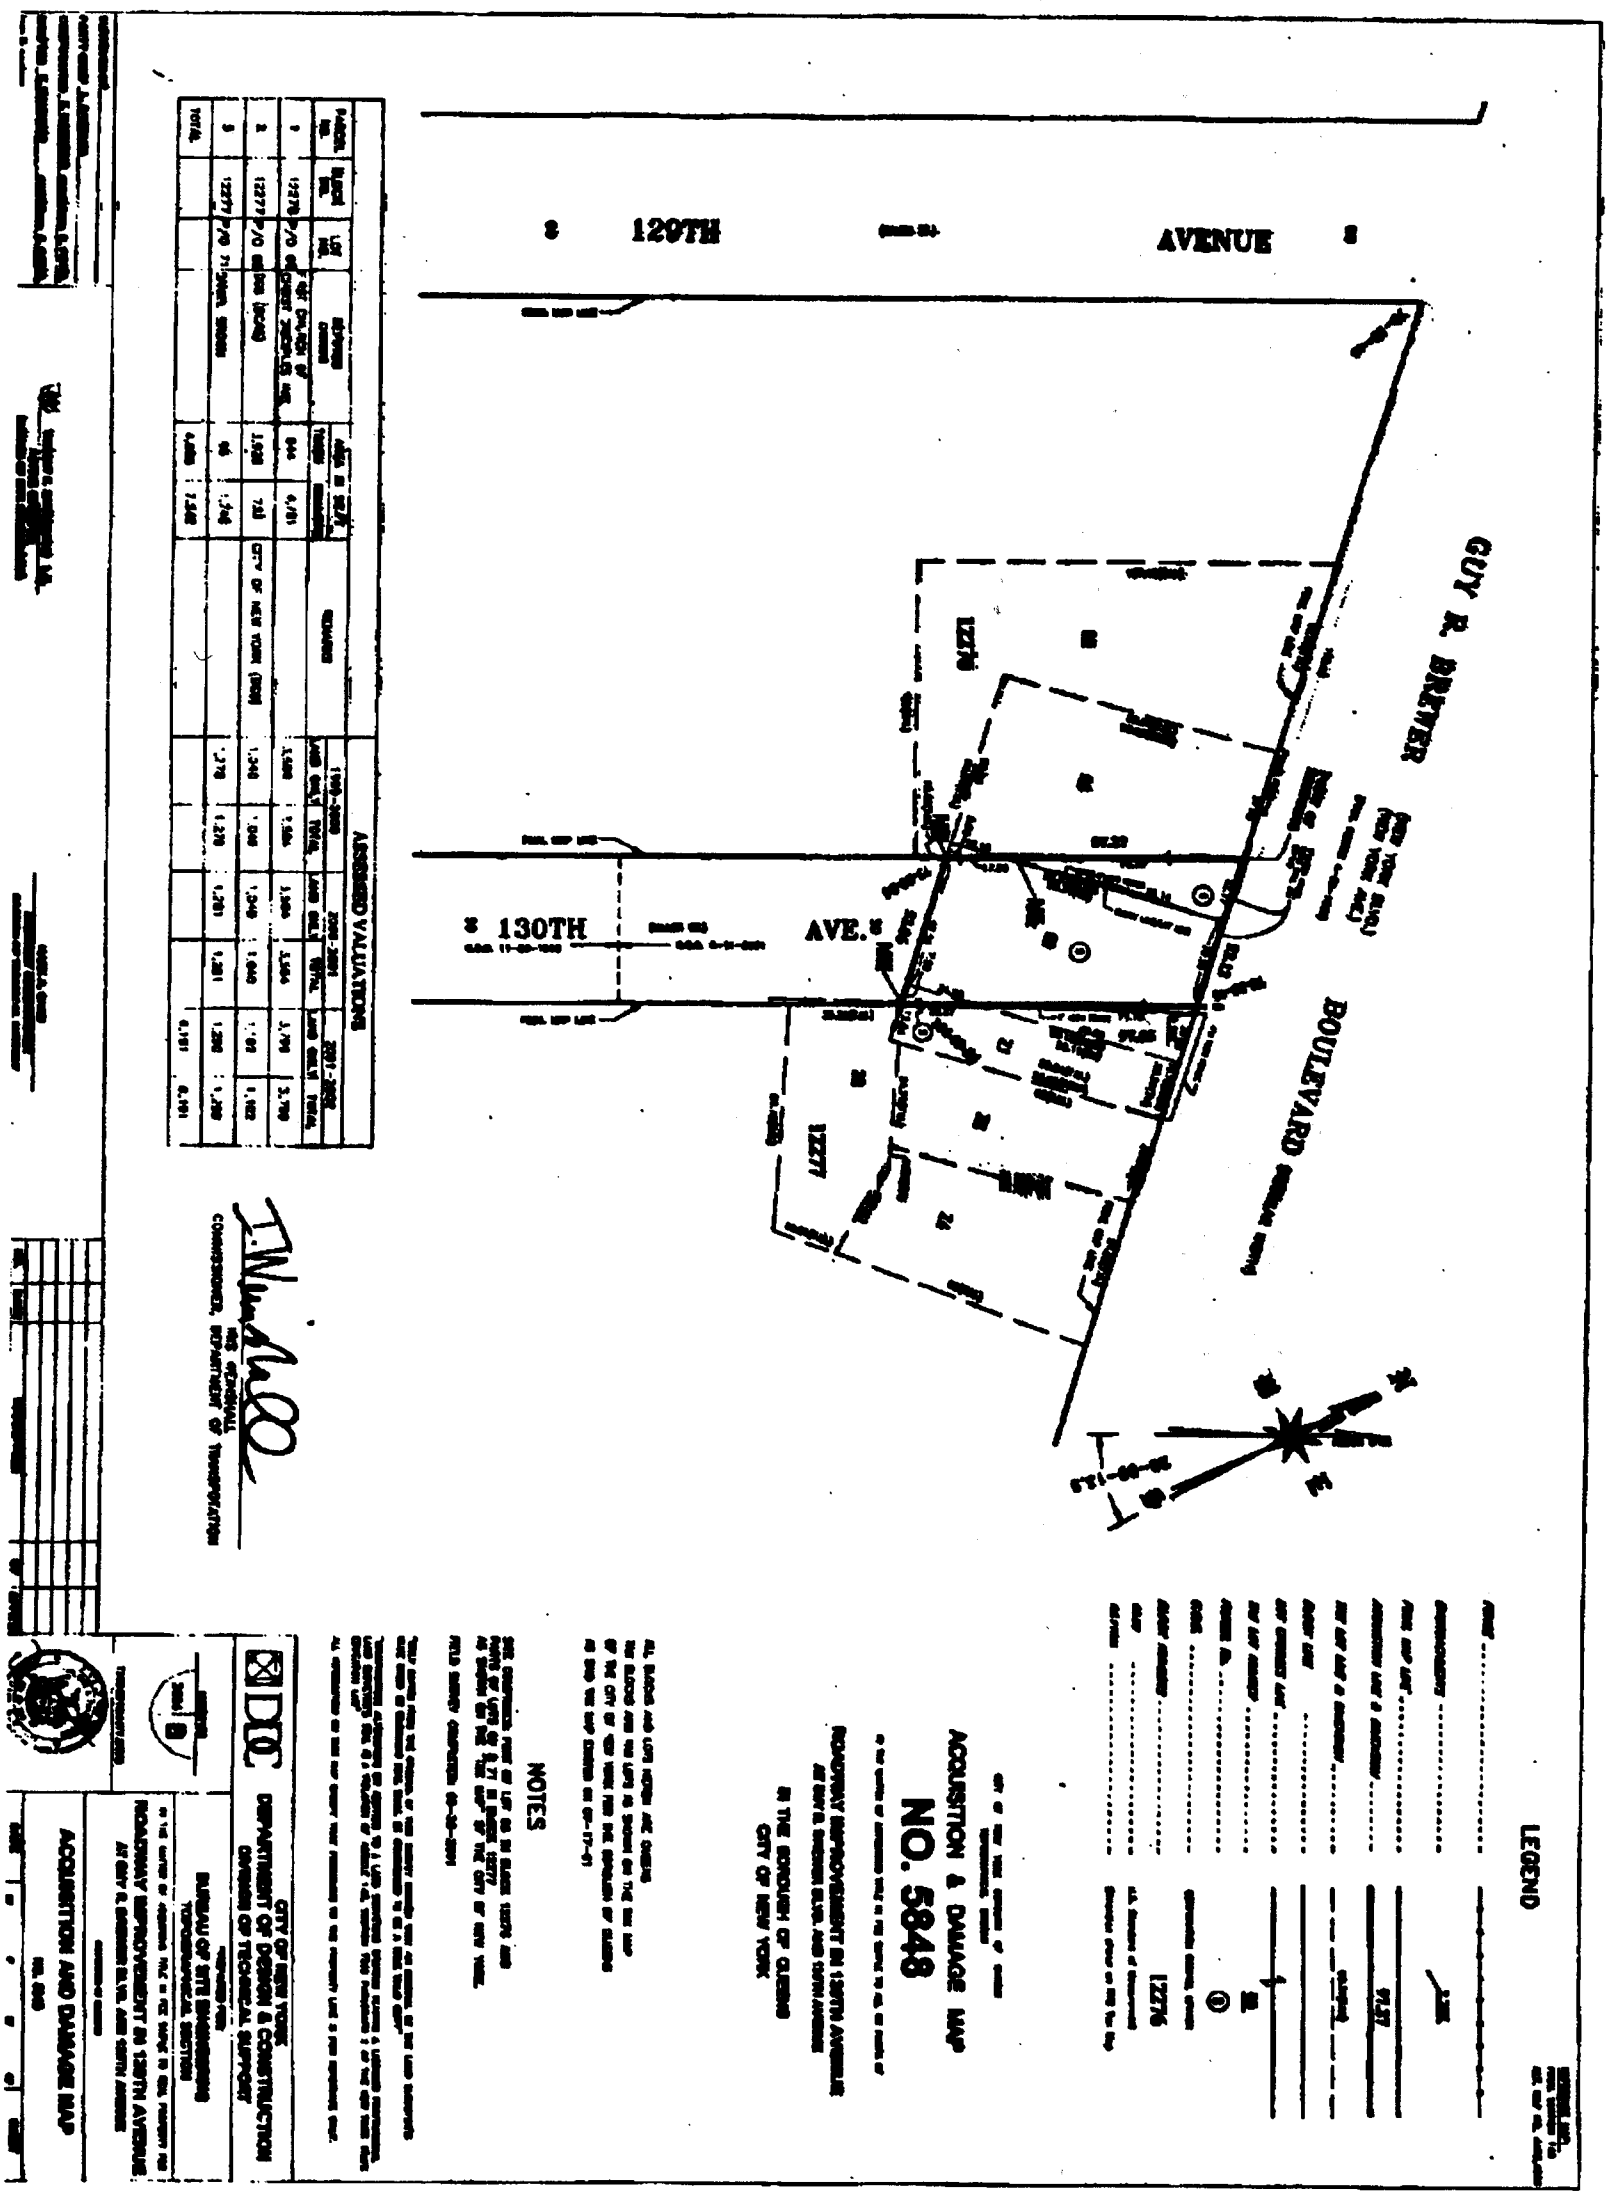
COURT NOTICE MAP FOR ROADWAY IMPROVEMENT IN 130TH AVENUE, QUEENS



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Amendment to Rules Relating to the Filing of Income and Expense Statements

Section 1. A new paragraph (8) is added to subdivision (d) of section 33-02 of such rules to read as follows:

(8) Notwithstanding any other provision of these rules, with respect to power plants, generators, telecommunication lines and other equipment defined as real property in paragraphs (d), (e), (f) and (i) of subdivision 12 of section 102 of the Real Property Tax Law, the filing requirements of section 11-208.1 of the New York City Administrative Code will be met by the owner of such property if, no later than September 1 each year, the owner files with the Department of Finance a statement that includes a description of the use and the cost of:

(i) all such property owned by such owner in the City of New York as of the end of the reporting year;
(ii) any such property that was retired during the reporting year; and
(iii) any such property that was added to inventory during the reporting year, including any such property the construction of which remained in progress as of the end of the reporting year.

BASIS AND PURPOSE OF PROPOSED AMENDMENT

Section 11-208.1 of the Administrative Code of the City of New York requires that owners of income producing real property in New York City file income and expense statements relating to the property each year no later than September 1. The information provided on the statements is used by the Department of Finance in assessing real property in the City.

With respect to equipment such as power plants, boilers, generators and telecommunications lines that are defined and assessed as real property under the Real Property Tax Law, the Department has determined the particular information that it must receive from the owner to assist in assessing such property. The proposed amendment will best enable the Department to accurately assess the property by requiring annual statements to be filed and identifying the information that such property owners must submit in the statements.

A continuous year of service shall be a full year of service without a break of more than 31 days. Where the regular and customary work year for a title is less than a twelve month year, such as a school year, such regular and customary year shall be credited as a continuous year of service counting towards the 15 years of service. Where breaks in service aggregate to more than one year they shall be treated as a break in service of more than one year and the service prior to such breaks and the aggregated breaks shall not be used to calculate the 15 years of service. No break used to disqualify service shall be used more than once.

3. The following time in which an Employee is not in pay status shall not constitute a break in service as specified in paragraph 2 above:

   a. Time on a leave approved by the proper authority which is consistent with the **Rules and Regulations of the New York City Personnel Director** or the appropriate personnel authority of a covered organization.

   b. Time prior to a reinstatement.

   c. Time on a preferred list pursuant to **Civil Service Law Sections 80 and 81** or any similar contractual provision.

   d. Time not in pay status of 31 days or less. Notwithstanding the above, such time as specified in subsections a, b and c above shall not be used to calculate the 15 years of service.

4. Once an Employee has completed the 15 years of "City" service in pay status and is eligible to receive the $500, the $500 shall become part of the Employee's base rate for all purposes except as provided in paragraph 5 below.

5. The $500 longevity increment shall not become pensionable until fifteen months after the Employee becomes eligible to receive such payment. Fifteen months after the Employee begins to receive the $500 longevity increment, such $500 longevity increment shall become pensionable and as part of the Employee's base rate, the $500 longevity increment shall be subject to the general increases provided in Article III, Section 3(a) of this **Agreement**.

Dear Mr. Bosco:

This is to confirm certain mutual understandings and agreements regarding the above captioned Agreement.

Pursuant to the Memorandum of Understanding entered into between the City of New York ("City") and Local 1042 Inspectors (Highway & Sewers) ("Union") dated April 5, 2006 (a copy of which is attached), the **2002-2005 Local 1042 Inspectors (Highway & Sewers) Agreement** (the "Agreement") shall be extended by ten (10) months, thereby making the new expiration date of that Agreement January 31, 2006. b. During the period when an injured Employee is receiving Worker's Compensation and the differential to bring the Employee to full pay, the Employee will be carried on full-pay status and this time shall be counted for retirement benefits.

Section 2. INTERPRETATIONS

The agency head is empowered to grant a leave of absence with pay for the first week's absence of an Employee covered by Worker's Compensation who is physically disabled in the performance of official duties.

a. Agencies should use election forms (DP-2002), which are obtainable from the Stock Section (Room 433) of the Department of Personnel.

b. The election of an option, as provided for in this section, should be made within the first seven consecutive calendar days following absence, in order that an Employee, who so elects, is assured of receiving full pay during the period of Worker's Compensation coverage. The agency head's authority to grant leave with full pay, without charge to leave balances pursuant to Section 2, does not extend beyond the first seven consecutive calendar days following absence.

c. Where an Employee has been absent for an initial period of less than a week and an extended subsequent absence may possibly result from the same disability or condition, the Employee must elect a rate of charge (on Form DP-2002) within seven calendar days of the first day of absence in order to receive full pay, even though the Employee has already returned to work.

d. An Employee who fails to elect a rate of charge within the prescribed period shall be deemed to have selected Option 2 and will receive the benefits of Worker's Compensation only.

For a permanent Employee who have five (5) years or more of service who does not have sufficient leave credit to cover his/her absence pending a determination by the Worker's Compensation Division of the Law Department, the agency head shall advance the Employee up to forty-five (45) calendar days of paid leave. In the event the Worker's Compensation Division of the Law Department does not accept the injury as compensable under the law or the Worker's Compensation Board determines that such injury is not compensable under such law, the Employee shall reimburse the City for the paid leave advance.

An Employee who is granted a leave of absence with pay pursuant to this Section, shall receive the difference between the Employee's weekly salary and the compensation rate without charge against annual leave or sick leave. The Employee shall, as a condition of receiving benefits under this Section, execute an assignment of the proceeds of any judgment or settlement in any third-party action arising from such injury in the amount of the pay and medical disbursements received pursuant to this Section, but NOT to exceed the amount of such proceeds. Such assignment shall be in the form prescribed by the Corporation Counsel.

The injured Employee shall undergo such medical

examinations as are requested by the Worker's Compensation Division of the Law Department and the employing agency, and when found fit for duty by the Worker's Compensation Board shall return to employment. No benefits shall be paid while an Employee is suspended pending disciplinary action, or if an Employee is subsequently found culpable of having commenced the assault or unnecessarily continued the assault. Benefits provided under this section shall be in addition to, but not concurrent with, benefits provided under Sections 1 and 2 hereof.

b. For Employees who do not come under the provisions of Section 3(a) hereof but who are injured in the course of employment, upon the determination of an agency head that an Employee has been physically disabled because of an injury arising out of and in the course of employment, through no fault of the Employee, the agency head will grant the injured Employee an extended sick leave with pay not to exceed three months after all the Employee's sick leave and annual leave balances have been exhausted. This additional leave must be taken immediately following the exhaustion of such balances. No such leave with pay shall be granted unless the Worker's Compensation Division of the Law Department advises the agency head in writing that the Employee's injury has been accepted by the Division as compensable under the Worker's Compensation Law, or if such injury is not accepted by the Division as compensable under such law, unless the Worker's Compensation Board determines that such injury is compensable under such law.

An Employee who is granted extended sick leave with pay pursuant to this section, shall receive the difference between the Employee's weekly salary and the compensation rate for the period of time granted. The Employee shall, as a condition of receiving benefits under this section, execute an assignment of the proceeds of any judgment or settlement in any third-party action arising from such injury, in the amount of the pay and medical disbursements received pursuant to this section, but not to exceed the amount of such proceeds. Such assignment shall be in the form prescribed by the Corporation Counsel.

The injured Employee shall undergo such medical examinations as are requested by Worker's Compensation Division of the Law Department and the employing agency, and when found fit for duty by the Worker's Compensation Board shall return to employment. Benefits provided under this section shall be in addition to but not concurrent with benefits provided under Sections 1 and 2 hereof. The benefits provided by this section shall not be provided or continued beyond the date on which disability retirement benefits become effective.

To achieve and maintain a high level of effectiveness, the parties hereby agree to the following terms:

a. The Union recognizes the Employer's right under the New York City Collective Bargaining Law to establish and/or revise performance standards or norms notwithstanding the existence of prior performance levels, norms or standards. Such standards, developed by usual work measurement procedures may be used to determine acceptable performance levels, prepare work schedules and to measure the performance of each Employee or group of Employees. Employees may at any time informally discuss with their supervisors a matter, which may become a grievance. If the results of such a discussion are unsatisfactory, the Employees may present the grievance at **STEP I**.

All grievances must be presented in writing at all steps in the grievance procedure. For all grievances as defined in Section 1c, no monetary award shall in any event cover any period prior to the date of the filing of the **STEP I** grievance unless such grievance has been filed within thirty (30) days of the assignment to alleged out-of-title work. No monetary award for a grievance alleging a miscalculation of salary rate resulting in a payroll error of a continuing nature shall be issued unless such grievance has been filed within the time limitation set forth in STEP I below for such grievances; if the grievance is so filed, any monetary award shall in any event cover only the period up to six years prior to the date of the filing of the grievance.

STEP I The Employee and/or the Union shall present the grievance in the form of a memorandum to the person designated for such purpose by the agency head no later than 120 days after the date on which the grievance arose. Notwithstanding such waiver, the period of an Employee's suspension without pay pending hearing and determination of charges shall not exceed thirty (30) days.

STEP B(ii) If the election is made to proceed pursuant to the Grievance Procedure, an appeal from the determination of STEP A. above, shall be made to the agency head or designated representative. The appeal must be made in writing within five (5) working days of the receipt of the determination. The agency head or representative shall meet with the Employee and the Union for review of the grievance and shall issue a written reply to the Employee and the Union by the end of the tenth working day following the day on which the appeal was filed. The agency head or designated representative shall have the power to impose the discipline, if any, decided upon, up to and including termination of the accused Employee's employment. In the event of such termination or suspension without pay totaling more than thirty (30) days, the Union with the consent of the grievant may elect to skip **STEP C** of this Section and proceed directly to **STEP D.**

STEP D If the grievant is not satisfied with the determination of the Commissioner of Labor Relations, the Union with the consent of the grievant may proceed to arbitration pursuant to the procedures set forth in **STEP IV** of the Grievance Procedure set forth in this Agreement.

Section 5.

A grievance concerning a large number of Employees which concerns a claimed misinterpretation, inequitable application, violation or failure to comply with the provisions of this Agreement may be filed directly at STEP III of the Grievance Procedure. All other individual grievances in process concerning the same issue shall be consolidated with the "group" grievance.

Section 6.

If a determination satisfactory to the Union at any level of the Grievance Procedure is not implemented within a reasonable time, the Union may re-institute the original grievance at **STEP III** of the Grievance Procedure; or if a satisfactory **STEP III** determination has not been so implemented, the Union may institute a grievance concerning such failure to implement at **STEP IV** of the Grievance Procedure.

Section 7.

If the Employer exceeds any time limit prescribed at any step in the Grievance Procedure, the grievant and/or the Union may invoke the next step of the procedure, except, however, that only the Union may invoke impartial arbitration under **STEP IV**.

Section 8.
The Employer shall notify the Union in writing of all grievances filed by Employees, all grievance hearings, and all determinations. The Union shall have the right to have a representative present at any grievance hearing and shall be given forty-eight (48) hours' notice of all grievance hearings.

Section 9.

Each of the STEPs in the Grievance Procedure, as well as time limits prescribed at each step of this Grievance Procedure, may be waived by mutual agreement of the parties.

Section 10.

a. Any grievance relating to a claimed improper holding of an open-competitive rather than a promotional examination shall be presented in writing by the Employee or the Union representative to the Commissioner of Labor Relations not later than thirty (30) days after the notice of the intention to conduct such open-competitive examination, or copy of the appointing officer's request for such open-competitive examination, as the case may be, has been posted in accordance with Section 51 of the Civil Service Law. The grievance shall be considered and passed upon within ten (10) days after its presentation. The determination shall be in writing, copies of which shall be transmitted to both parties to the grievance upon issuance.

b. A grievance relating to the use of an open competitive rather than a promotional examination which is unresolved by the Commissioner of Labor Relations may be brought to impartial arbitration as provided in Sections 2 and 3 above. Such a grievance shall be presented by the Union, in writing, for arbitration within 15 days of the presentation of such grievance to the Commissioner of Labor Relations, and the arbitrator shall decide such grievance within 75 days of its presentation to the arbitrator. The party requesting such arbitration shall send a copy of such request to the other party. The costs and fees of such arbitration shall be borne equally by the Employer and the Union.

Section 11.

A non-Mayoral agency not covered by this Agreement but which employs Employees in titles identical to those covered by this Agreement may elect to permit the Union to appeal an unsatisfactory determination received at the last step of its Grievance Procedure prior to arbitration on fiscal matters only to the Commissioner of Labor Relations. If such election is made, the Union shall present its appeal to the Commissioner of Labor Relations in writing within ten (10) working days of the receipt of the last step determination. The Union should submit copies of the grievance filings at the prior steps of its Grievance Procedure and any agency responses thereto. Copies of such appeals shall be sent to the agency head. The Commissioner of Labor Relations, or his designee, shall review all such appeals and answer all such appeals within fifteen (15) working days. An appeal from a determination of the Commissioner of Labor Relations may be taken to arbitration under procedures, if any, applicable to the non-Mayoral agency involved.

Section 12.
The grievance and the arbitration procedure contained in this Agreement shall be the exclusive remedy for the resolution of disputes defined as "grievances" herein. This shall not be interpreted to preclude either party from enforcing the arbitrator's award in court. This Section shall not be construed in any manner to limit the statutory rights and obligations of the Employer under Article XIV of the Civil Service Law.

Section 13. Expedited Arbitration Procedure.

a. The parties agree that there is a need for an expedited arbitration process, which would allow for the prompt adjudication of grievances as set forth below.

b. The parties voluntarily agree to submit matters to final and binding arbitration pursuant to the New York City Collective Bargaining Law and under the jurisdiction of the Office of Collective Bargaining. An arbitrator or panel of arbitrators, as agreed to by the parties, will act as the arbitrator of any issue submitted under the expedited procedure herein.

c. The selection of those matters which will be submitted shall include, but not limited to, out-of-title cases concerning all titles, disciplinary cases wherein the proposed penalty is a monetary fine of one week or less or written reprimand, and other cases pursuant to mutual agreement by the parties. The following procedures shall apply:

i. **SELECTION AND SCHEDULING OF CASES:**

(1) The Deputy Chairperson for Disputes of the Office of Collective Bargaining shall propose which cases shall be subject to the procedures set forth in this Section 14 and notify the parties of proposed hearing dates for such cases.

(2) The parties shall have ten business days from the receipt of the Deputy Chairperson's proposed list of cases and hearing schedule(s) to raise any objections thereto.

(3) If a case is not proposed by the Deputy Chairperson for expedited handling, either party may, at any time prior to the scheduling of an arbitration hearing date for such case, request in writing to the other party and to the Deputy Chairperson of Disputes of the Office of Collective Bargaining that said case be submitted to the expedited procedure. The party receiving such request shall have ten business days from the receipt of the request to raise any objections thereto.

(4) No case shall be submitted to the expedited arbitration process without the mutual agreement of the parties.

ii. **CONDUCT OF HEARINGS:**

(1) The presentation of the case, to the extent possible, shall be made in the narrative form. To the degree that witnesses are necessary, examination will be limited to questions of material fact and cross-examination will be similarly limited. Submission of relevant documents, etc., will not be unreasonably limited and may be submitted as a "packet" exhibit.

(2) In the event either party is unable to proceed with hearing a particular case, the case shall be rescheduled. However, only one adjournment shall be permitted. In the event that either party is unable to proceed on a second occasion, a default judgment may be entered against the adjourning party at the Arbitrator's discretion absent good cause shown.

(3) The Arbitrator shall not be precluded from attempting to assist the parties in settling a particular case.

(4) A decision will be issued by the Arbitrator within two weeks. It will not be necessary in the Award to recount any of the facts presented. However, a brief explanation of the Arbitrator's rationale may be included. Bench decisions may also be issued by the Arbitrator.

(5) Decisions in this expedited procedure shall not be considered as precedent for any other case nor entered into evidence in any other forum or dispute except to enforce the Arbitrator's award.

(6) The parties shall, whenever possible, exchange any documents intended to be offered in evidence at least one week in advance of the first hearing date and shall endeavor to stipulate to the issue in advance of the hearing date.

ARTICLE VII - BULLETIN BOARDS: EMPLOYER FACILITIES

The Union may post notices on bulletin boards in places and locations where notices are usually posted by the Employer for the Employees to read. All notices shall be on Union stationery, and shall be used only to notify Employees of matters pertaining to Union affairs. Upon request to the responsible official in charge of a work location, the Union may use Employer premises for meetings during Employees' lunch hours, subject to availability of appropriate space and provided such meetings do not interfere with Employer business.

ARTICLE VIII - NO STRIKES

In accord with the New York City Collective Bargaining Law, as amended, neither the Union nor any Employee shall induce or engage in any strikes, slowdowns, work stoppages, mass absenteeism, or induce any mass resignations during the term of this Agreement.

ARTICLE IX- LABOR-MANAGEMENT COMMITTEE

Section 1.

The Employer and the Union, having recognized that cooperation between management and Employees is indispensable to the accomplishment of sound and harmonious labor relations, shall jointly maintain and support a labor-management committee.

Section 2.

Each labor-management committee shall consider and may recommend to the agency head changes in the working conditions of the Employees within the agency who are covered by this Agreement. Matters subject to the Grievance Procedure shall not be appropriate items for consideration by the labor-management committee.

Section 3.

Each labor-management committee shall consist of six members who shall serve for the term of this Agreement. The Union shall designate three members and the agency head shall designate three members. Vacancies shall be filled by the appointing party for the balance of the term to be served. Each member may designate one alternate. Each committee shall select a chairperson from among its members at each meeting. The chairperson of each committee shall alternate between the members designated by the agency and the members designated by the Union. A quorum shall consist of a majority of the total membership of a committee. A committee shall make its recommendations to the agency head in writing.

Section 4.

The labor-management committee shall meet at the call of either the Union members or the Employer members at times mutually agreeable to both parties. At least one week in advance of a meeting the party calling the meeting shall provide, to the other party, a written agenda of matters to be discussed. Minutes shall be kept and copies supplied to all members of the committee.

ARTICLE X- FINANCIAL EMERGENCY ACT

The provisions of this Agreement are subject to applicable provisions of law, including the New York State Financial Emergency Act for the City of New York as amended.

ARTICLE XI - OCCUPATIONAL SAFETY AND HEALTH

Section 1.

Adequate, clean, structurally safe and sanitary working facilities shall be provided for all Employees.

Section 2.

The sole remedy for alleged violations of this Section 1 shall be a grievance pursuant to Article VI of this Agreement. Any Employee who withholds services as a means of redressing or otherwise protesting alleged violations of this Section shall be docked pay for any unauthorized non-performance of work and may be subject to any appropriate disciplinary action.

Section 3.

In construing this Section, an arbitrator shall initially have the power only to decide whether the subject facilities meet the standards of Section 1 of this Article but may not affirmatively direct how the Employer should comply with this Section. If the arbitrator determines that the Employer is in violation of this Section, the Employer shall take appropriate steps to remedy the violation. If in the opinion of the Union the Employer does not achieve compliance within a reasonable period of time, the Union may reassert its claim to the arbitrator. Upon such second submission, if the arbitrator finds that the Employer has had a reasonable time to comply with the terms of this Section and has failed to do so, then and only then, the arbitrator may order the Employer to follow a particular course of action which will effectuate compliance with the terms of this Section. However, such remedy shall not exceed appropriations available in the current budget allocation for such purposes.

ARTICLE XII - ANNUAL LEAVE FOR NEW HIRES

The annual leave allowance for Employees hired on or after July 1, 1985 shall accrue as follows:

Years In Service	Annual Leave Allowance	Monthly Accrual
At the beginning of the Employee's 1st year	15 work days	1-¼ days per month

ARTICLE XIV - APPENDICES

The Appendix or Appendices attached hereto and initialed by the undersigned shall be deemed a part of this Agreement as if fully set forth herein.

ARTICLE XV - SAVINGS CLAUSE

In the event that any provision of this Agreement is found to be invalid, such invalidity shall not impair the validity and enforceability of the remaining provisions of this Agreement.

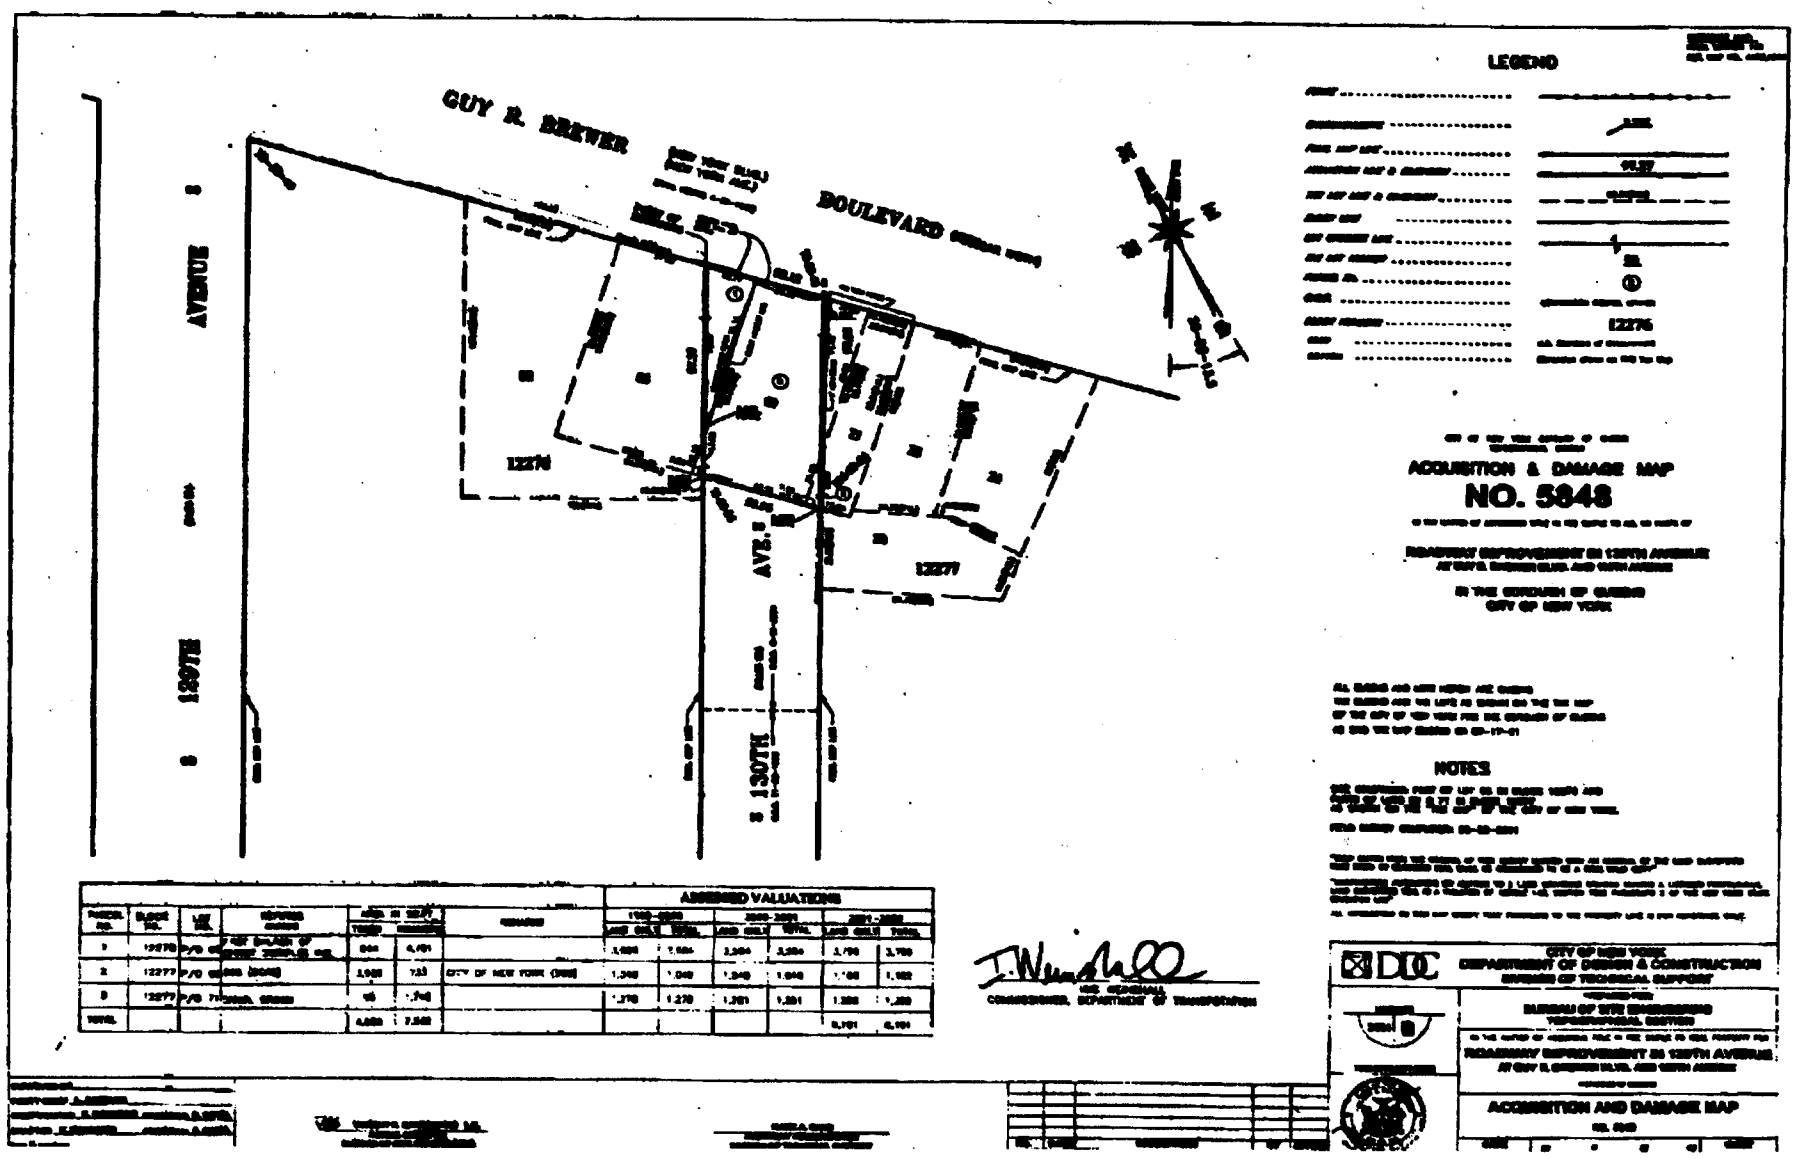
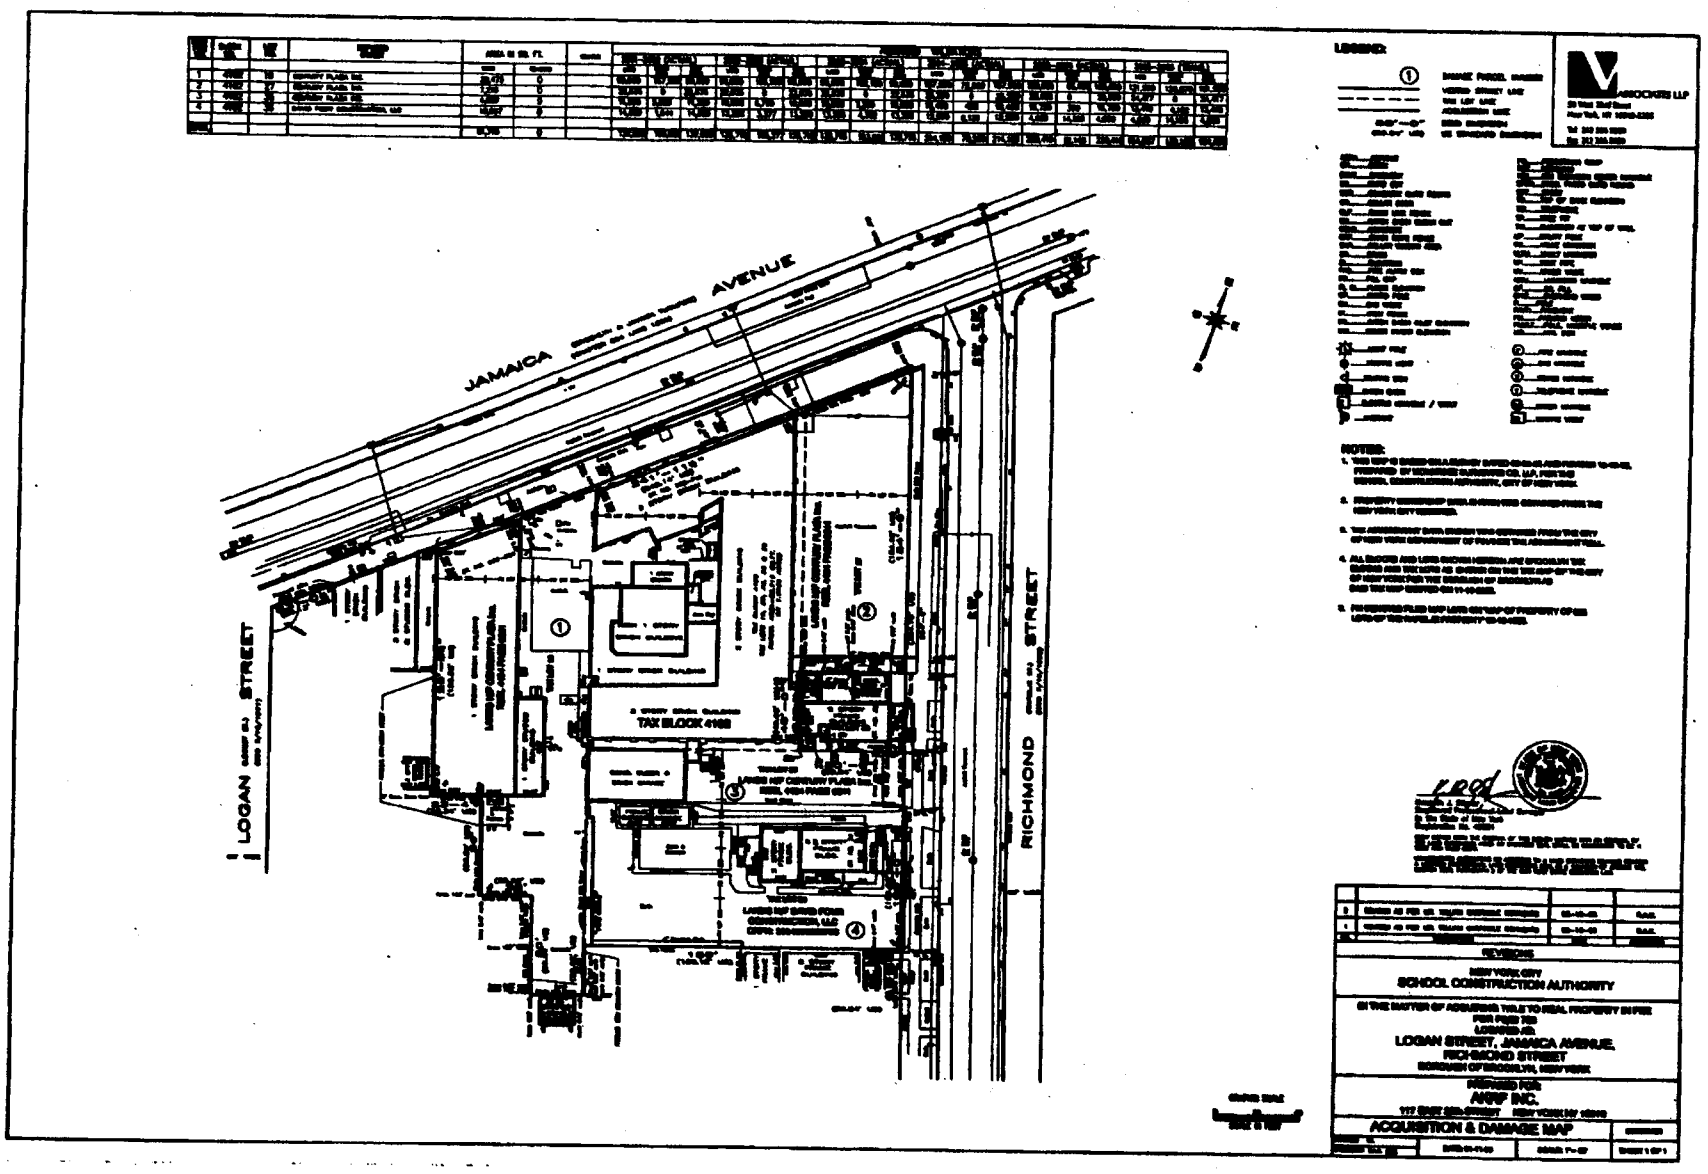
COURT NOTICE MAP FOR ROADWAY IMPROVEMENT IN 130TH AVENUE, QUEENS



COURT NOTICE MAP FOR SCHOOL CONSTRUCTION AUTHORITY



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

■ **NOTICE**

NOTICE OF PROPOSED RATEMAKING

Notice of Opportunity To Comment on Proposed Schedule of Charges for Fire Department Ambulance Service

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED in the Fire Commissioner of the City of New York pursuant to Section 487(f) of the New York City Charter, the New York City Fire Department intends to increase its charges for Fire Department Emergency Medical Service (EMS) ambulance service. New material is underlined and material to be deleted is [bracketed].

A public hearing will be held on Wednesday, August 2, 2006, at 10:30 a.m., in the Auditorium at Fire Department Headquarters at 9 MetroTech Center, Brooklyn, New York 11201-3857. Written comments regarding this ratemaking may be submitted to the Counsel to the Department, at Fire Department Headquarters, by the above date.

Persons who request that a sign language interpreter or other form of reasonable accommodation for a disability be provided at the hearing are requested to notify the Counsel to the Department at the foregoing address by Wednesday, July 19, 2006.

The Notice of Proposed Ratemaking, Proposed Schedule of Charges for Fire Department Ambulance Service, and Justification for Proposed Ratemaking, will be available on the Fire Department Internet Home Page at: www.nyc.gov/fdny

The Fire Department proposes to amend its schedule of charges for ambulance transport service provided by the Fire Department's Emergency Medical Service through the New York City 911 System, as set forth in Appendix A to Title 3 of the Rules of the City of New York (following Chapter 43 thereof), as follows:

Schedule of Charges for Fire Department Ambulance Transport Service
(effective [November 24, 2002] (new effective date))

Type of Service	Charge
Basic Life Support Ambulance	$[420.00] 475.00
[Advanced Life Support Ambulance	$ 535.00]
Advanced Life Support Ambulance Service – Level 1 (ALS1)	$ 600.00
Advanced Life Support Ambulance Service – Level 2 (ALS2)	$ 700.00
Additional Charges:	
– Mileage (distance traveled to hospital)	$[6.00] 7.00/mile
– Provision of Oxygen (as applicable)	$ 50.00

JUSTIFICATION FOR PROPOSED RATEMAKING:

The Fire Department is proposing to increase the amounts it charges patients and insurers for Emergency Medical Service (EMS) ambulance transport service provided through the New York City 911 System, to reflect increased costs and help defray the City's cost of providing these services.

The charges for ambulance transport service were last increased in November 2002. The rates adopted at that time and currently in effect areThe Department currently charges $420 for an ambulance response (including treatment and transport) by a Basic Life Support (BLS) ambulance staffed by two Fire Department Emergency Medical Technicians, and; $535 for an ambulance response (including treatment and transport) by an Advanced Life Support (ALS) ambulance staffed by two Fire Department Paramedics.

The Department currently charges; $6.00/per mile for hospital transports;in mileage charges and $50.00 for provision of oxygen.

The Department proposes to increase the rates to continue to bring them more in line with the cost of providing these services. The proposed schedule of charges continues the existing single rate for BLS service, but proposes separate rates for the two levels of ALS service established by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services for Medicare reimbursementThe charges for ambulance service were last increased in November of 2002. Included in this proposal are the separation of fees for ALS1 and ALS2 level of service. This will bring FDNY in line with the Medicare, wh service level definitions which have become the nationally -accepted standards for ambulance .service levels.

The Department proposes to adjust the ambulance service charges to more closely reflect the cost of providing these services. The fully allocated costs of providing Basic Life Support (BLS) & Advanced Life Support (ALS) ambulance transports are $498 and $705 respectively.

The proposed schedule of charges represents a single rate for BLS service, and separate rates for ALS1 & ALS2 levels of service. The AALS1 service comprises all regular ALS ambulance treatment and transport. The ALS2 level of level of sservice is limited to treatment and transport requiring certain includes transport and more aadvanced dvanced treatment by Paramedics wcare, as set forth in Medicare regulations, including manual defibrillation, endotracheal intubation, the insertion of a central venous line, and the intravenous administration of certain ho perform specific forms of treatment and/or administer certain levels of drugsmedications, such as morphine, diazepam, lidocaine and lasix.

The proposed schedule of charges reflects a 13% increase above the current BLS rate. With respect to the proposed ALS rates, more than 90% of ALS transports involve the provision of ALS1 care, and accordingly the estimated average bill for all ALS transports (ALS1 and ALS2 combined) under the proposed ALS rates would . The definition of ALS1 and ALS2 are determined by the Federal Department of Health and Human Services' Centers for Medicare and Medicaid Services.
be $605, also an increase of 13% above the current ALS rate.

The proposed 13% increase in BLS and ALS rates is necessitated by increased costs. The most significant cost increases during the relevant time period were the collective bargaining increases for the Fire Department EMS personnel who staff the ambulances, and the very substantial capital investment made by the Fire Department in new communications equipment. The balance of the proposed increase is accounted for by a general increase in non-personnel costs, based on the cost of living index.

This substantial capital investment was made for the purchase, installation and operation, in all Fire Department ambulances, of automatic vehicle locator (AVL) equipment, which utilizes global positioning satellite technology. By providing exact locations for each of the Fire Department's ambulances as they move around the city, this technology will enable the Fire Department's Computer Aided Dispatch system and Fire Department dispatchers to identify more precisely the ambulances best situated to respond to a call for medical assistance, thereby reducing ambulance response time.

The current and proposed charges set forth above are the amounts that the Fire Department would bill for EMS ambulance service. The charges do not necessarily reflect the amounts accepted by the Fire Department as payment for such services from government and private health insurance plans.

The increase in mileage charges is consistent with the mileage rate approved by the Centers for Medicare and Medicaid Services.

Neither the current nor proposed rates apply to emergency medical care provided by Fire Department firefighters as certified first responders. The Fire Department does not charge for such services.

Re: June 30, 2005 and June 30, 2004 (Lag) Actuarial Valuations

Dear Members:

This Report presents the results of the June 30, 2005 and June 30, 2004 (Lag) actuarial valuations of the New York City Fire Pension Fund ("FIRE") and Group Life Insurance Plan. These results form the basis for determining the Statutorily-Required Contribution ("Statutory Contribution") for the period beginning July 1, 2005 and ending June 30, 2006 (i.e., Fiscal Year 2006) which is presented in Section IV.

Pursuant to Section 96 of the New York City Charter, studies of the actuarial assumptions used to value liabilities of FIRE are conducted every two years. The independent actuarial auditor, Gabriel, Roeder, Smith & Company ("GRS"), issued an actuarial experience study dated October 2003. After reviewing the results of that study, the Actuary issued an August 31, 2005 Report entitled "Proposed Changes in Actuarial Assumptions and Methods for Determining Employer Contributions for Fiscal Years Beginning on and After July 1, 2005 for the New York City Fire Pension Fund" ("August 2005 Report").

These Proposed Actuarial Assumptions and Methods ("Proposed A&M") have been adopted by the Board of Trustees for determining the Fiscal Year 2006 Statutory Contribution. Certain of the Proposed A&M still require enabling State Legislation to become effective. Consequently, the Fiscal Year 2006 Statutory Contribution is contingent upon the enactment of such legislation. The June 30, 2005 actuarial valuation is based on the Current Assumptions and Methods ("Current A&M") while the June 30, 2004 (Lag) actuarial valuation is based on the Proposed A&M.

The results shown herein are based on existing New York State statutes and the Administrative Code of the City of New York effective for funding purposes as of June 30, 2005.

Also included in this Report are certain items of information used for financial reporting purposes, for filing with the New York State Insurance Department and other historical information that the Actuary believes useful.

The June 30, 2005 and June 30, 2004 (Lag) actuarial valuations are based upon census data as of those dates submitted by the Plan's administrative staff and by the employer's payroll facilities and on the June 30, 2005 and June 30, 2004 financial information provided by the Office of the Comptroller. Census data which reflects the impact of recent labor contract settlements with retroactive effect and financial information are reviewed by the Office of the Actuary for consistency and reasonability.

A summary of the benefits available under the terms of the Plan is shown in Section VIII. The actuarial assumptions and methods employed in the actuarial valuations are summarized in Section IX.

The actuarial information herein that is to be used for financial accounting reporting purposes is being presented in a manner believed to be consistent with the requirements of Governmental Accounting Standards Board Statement No. 25 ("GASB 25").

The Table of Contents, which immediately follows, outlines in more detail the contents of this Report.

Respectfully Submitted,

Robert C. North, Jr.

REPORT ON THE JUNE 30, 2005 AND JUNE 30, 2004 (LAG) ACTUARIAL VALUATIONS OF THE NEW YORK CITY FIRE PENSION FUND AND GROUP LIFE INSURANCE PLAN FOR DETERMINING FISCAL YEAR 2006 EMPLOYER CONTRIBUTIONS

SECTION I - EXECUTIVE SUMMARY

1. This actuarial report was prepared as of June 30, 2005[1] and June 30, 2004 (Lag)[2] and presents the results of the Fiscal Year 2006 actuarial valuations of the New York City Fire Pension Fund and Group Life Insurance Plan.

The purpose of each valuation is to measure the funding progress of the Plan and to determine the Actuarially-Required Contribution ("Actuarial Contribution") and the Statutorily-Required Contribution ("Statutory Contribution") for Fiscal Year 2006 (i.e., July 1, 2005 to June 30, 2006).

[1] Based on Current A&M.

[2] Based on Proposed A&M including One-Year Lag Methodology.

Presented in the following Table are the principal results of the valuation as of June 30, 2004, June 30, 2005 and June 30, 2004 (Lag).

The June 30, 2005 and June 30, 2004 (Lag) actuarial valuation results reflect the following Chapter amendments:

- Chapter 278 of the Laws of 2002 ("Chapter 278/02"): Revised the phase-in schedule of Chapter 125 of the Laws of 2000 ("Chapter 125/00") for Fiscal Years 2003 and later[3].

  Enactment of enabling legislation during Fiscal Year 2006 in conjunction with the Proposed A&M will eliminate the use of the ten-year phase-in for the June 30, 2004 (Lag) valuation.

  Chapter 278/02 requires the Actuary to revise the methodology and timing for determining the Statutory Contributions on account of the liabilities created by the benefits provided under Chapter 125/00 by extending the phase-in period for funding these liabilities from five years to ten years.

[3] The June 30, 2005 actuarial valuation reflects Chapter 278/02.

The impact of the ten-year phase-in of Chapter 278/02 is to postpone funding of the additional liabilities attributable to Chapter 125/00, resulting in greater employer contributions in later years.

- Chapter 158 of the Laws of 2004 ("Chapter 158/04") permits certain members to borrow up to 90% (increased from 75%) at retirement of their own contributions including accumulated interest.

- Chapter 623 of the Laws of 2004 ("Chapter 623/04"): Provides for an Excess Benefit Plan to be established which would provide benefits to those pensioners whose annual retirement benefits are limited by Internal Revenue Code ("IRC") Section 415(b). This law is retroactive to July 1, 2000.
  - Chapter 93 of the Laws of 2005 ("Chapter 93/05"), which amended Chapter 104 of the Laws of 2005 ("Chapter 104/05"), established that certain members of FIRE, who participated in the rescue, recovery or clean-up operations at the World Trade Center ("WTC") site and who become partially or totally disabled due to certain diseases, are presumed to have become disabled in the performance of duty. Collectively these laws are referred to as the "WTC Disability Law."

2. Section II provides details of the demographic data used to prepare the June 30, 2005 and June 30, 2004 (Lag) actuarial valuations and includes the following tables:
   - Table 1: Active Members,
   - Table 2: Pensioners and Beneficiaries,
   - Table 3: Changes in the Number of Members and Pensioners During the Year,
   - Table 4: Schedule of Active Member Data, and
   - Table 5: Schedule of Pensioners and Beneficiaries Added to and Removed from the Rolls.

   The annualized covered payroll reflects the impact of recent labor contract settlements with retroactive effect. These figures exclude all members not on the payroll as of the valuation date. In addition, salaries were increased by a Dual Overtime assumption, including a Baseline Overtime assumption of 10% under the Current A&M and 12% under the Proposed A&M.
   The salaries were reduced by excluding all pending withdrawals (five year outs, et al.). No salaries are included for other members not on the payroll who were valued for accrued benefits only.
3. Section III provides details of the assets used to prepare the June 30, 2005 and June 30, 2004 (Lag) actuarial valuations including the following tables:
   - Table 1: Statement of Plan Net Assets as of June 30, 2004 and June 30, 2005,
   - Table 2: Statement of Changes in Plan Net Assets for the Fiscal Years Ended June 30, 2004 and June 30, 2005, and
   - Table 3: Development of the Actuarial Value of Assets.
4. Section IV presents the Statutory Contributions to the Plan for Fiscal Year 2005 and Fiscal Year 2006. Table 1 shows the components of the Statutory Contributions and Table 2 develops the Employer Normal Contributions.
5. Section V presents the Solvency Test. This Schedule is required for the Comprehensive Annual Financial Report ("CAFR") and is a means of checking the Plan's progress under its funding program.
6. Section VI presents the Funded Status of the Plan, which is expressed in various relationships of assets to liabilities.
7. Section VII presents a Schedule of Funding Progress. This schedule is required under Governmental Accounting Standards Board Statement No. 25 ("GASB 25") and shows for the current year and for each of the last nine fiscal years, certain amounts determined as of the respective valuation dates and their ratios.
8. Section VIII summarizes the benefit provisions of the Plan. For the June 30, 2005 and June 30, 2004 (Lag) actuarial valuations, the provisions include the WTC Disability Law. This law was not included in the provisions of the previous valuation.
9. Section IX summarizes the actuarial assumptions and methods used in the June 30, 2005 and June 30, 2004 (Lag) actuarial valuations. The actuarial assumptions and methods for the June 30, 2005 valuation are unchanged from the previous valuation. The June 30, 2004 (Lag) valuation includes the actuarial assumptions and methods approved by Board of Trustees based on August 2005 Report.
10. Appendix A compares the Statutory Contributions to the Actuarial Contributions for Fiscal Years 1997 through 2006, inclusive.
11. Appendix B contains two tables of Age and Service Distributions showing number of active members, total salary and average salary used in the June 30, 2005 and June 30, 2004 (Lag) actuarial valuations.
12. Appendix C shows number and salary of active members, by Tier, in tabular form and graphically.

SECTION II - SUMMARY OF DEMOGRAPHIC DATA

Census data used as the basis for the valuation are submitted by the Pension Fund's administrative staff, by the employer's payroll facilities, and by the Comptroller of the City of New York. Data are reviewed by the Office of the Actuary for consistency and reasonability.

The following Table 1 sets forth a comparison of the Active Member data used in the June 30, 2004 valuation, the June 30, 2005 valuation and the June 30, 2004 (Lag) valuation.

Table 2 sets forth a comparison of the Pensioners and Beneficiaries as of June 30, 2004 and June 30, 2005.

Table 3 flows the data from June 30, 2004 to June 30, 2005.

Table 4 shows the Active Member data as of June 30 for the years 1997 through 2005, inclusive.

Table 5 shows the Pensioners and Beneficiaries added to and removed from the Rolls during the Fiscal Years 1996 through 2005, inclusive.

SECTION III - MARKET VALUE AND ACTUARIAL VALUE OF ASSETS

The following Table 1 compares the Market Value of Assets as of June 30, 2004 with the Market Value of Assets as of June 30, 2005.

Table 2 sets forth a comparison of the changes in the Market Value of Assets for the Fiscal Years ended June 30, 2004 and June 30, 2005.

Information on the Market Value of Assets ("MVA") is provided by the Office of the Comptroller.

Table 3 sets forth the development of the Actuarial Asset Value ("AAV") as of June 30 for the Fiscal Years 2000 through 2005, inclusive.

Under the Current A&M AAVM actual Unexpected Investment Returns ("UIR") for Fiscal Years 2000, 2001, etc. are phased into the AAV beginning June 30, 2000, 2001, etc., at rates of 10%, 15%, 20%, 25% and 30% per year (i.e., cumulative rates of 10%, 25%, 45%, 70% and 100%) over a period of five years.

The AAVM used for the June 30, 2004 (Lag) actuarial valuation is proposed to change to a method which also resets the Actuarial Asset Value to Market Value (i.e., "Market Value Restart") as of June 30, 1999. As of each June 30 thereafter the Proposed A&M AAVM recognizes investment returns greater or less than expected over a period of six years.

In accordance with the Proposed A&M AAVM, actual Unexpected Investment Returns ("UIR") for Fiscal Years 2000, 2001, etc. are phased into the Actuarial Asset Value ("AAV") beginning June 30, 2000, 2001, etc. at rates of 15%, 15%, 15%, 15%, 20% and 20% per year (i.e., cumulative rates of 15%, 30%, 45%, 60%, 80% and 100% over a period of six years).

UIR is defined as the excess/(deficit) of Net Investment Return over/(under) Expected Investment Return ("EIR") based on the Actuarial Interest Rate ("AIR") and the AAV.

EIR equals the sum of Beginning-of-Fiscal-Year AAV plus one-half of Net Cash Flow, multiplied by the AIR.

The Proposed A&M AAVM averaging factors were applied against the UIR computed under the Current A&M AAVM for Fiscal Years 2000 to 2004.

The Proposed A&M AAV as of the June 30, 2004 was then used to determine the Fiscal Year 2006 employer contribution in conjunction with the One-Year Lag methodology.

SECTION IV - STATUTORY CONTRIBUTIONS

The Statutory Contribution for Fiscal Year 2006 (i.e., July 1, 2005 through June 30, 2006) under Current A&M equals $632,213,754. This Statutory Contribution is less than the Actuarial Contribution because the Fiscal Year 2006 Statutory Contribution incorporates a phase-in schedule (phase-in period increased from 5 to 10 years in accordance with Chapter 278 of the Laws of 2002) for the additional actuarial liabilities attributable to Chapter 125 of the Laws of 2000.

The Statutory Contribution for Fiscal Year 2006 under the Proposed A&M equals $608,771,376. This Statutory Contribution is equal to the Actuarial Contribution due to the elimination of the phase-in of the actuarial liabilities attributable to Chapter 125 of the Laws of 2000.

The following Table 1 shows the components of the Fiscal Year 2005 and the Fiscal Year 2006 Statutory Contributions.

The reestablished UAAL continues to be amortized over a period of 11 years commencing Fiscal Year 2000, using an Increasing Dollar amortization schedule where each annual payment after the first equals 103% of the preceding annual amount. The BSL was eliminated.

Notes to Solvency Test

The ultimate test of financial soundness in a retirement system is its ability to pay all of its promised benefits when due. The retirement system's progress in accumulating assets to pay all promised benefits can be measured by comparing the Actuarial Value of Assets for the retirement system with the Aggregate Accrued Liabilities for:

A. Accumulated Member Contributions,
B. Current Retirees and Beneficiaries, and
C. Active Members' Employer-Financed Portion.

The Aggregate Accrued Liabilities are the Actuarial Present Value of projected benefits produced by the projected benefit attribution approach prorated on service. The Aggregate Accrued Liabilities were calculated in accordance with previously issued Governmental Accounting Standards Board Statement No. 5 ("GASB 5").

This comparative summary allocated assets as if they were priority groups, somewhat similar to (but not identical with) the priority categories of Section 4044 of the Employee Retirement Income Security Act of 1974.

The values in the table are dependent upon census data, benefit levels (which have changed on occasion over the past years), and the actuarial assumptions and methods employed at each valuation date. These underlying bases can be found within the Comprehensive Annual Financial Report ("CAFR") for each respective year.

To fully evaluate trends in financial soundness, changes in actuarial assumptions need to be evaluated. The economic assumptions used in the actuarial calculations include the following:

Valuation Date (June 30)	Assumed Annual Rate of Return On Investments	Assumed General Wage Increase
1996	8.75%	4.0%
1997	8.75%	4.0%
1998	8.75%	4.0%
1999	8.00%	3.0%
2000	8.00%	3.0%
2001	8.00%	3.0%
2002	8.00%	3.0%
2003	8.00%	3.0%
2004	8.00%	3.0%
2004 (Lag)*	8.00%	3.0%

* If based on Current A&M, the assumed annual rate of return on investments would be 8.00% for the June 30, 2005 valuation date.

SECTION VI - FUNDED STATUS

The Funded Status of the Plan is usually expressed in various relationships of Assets to Liabilities. Different measures are developed and utilized for different purposes and reporting entities.

This Section presents the following different measures of Funded Status:

- AAV as a percentage of Total Actuarial Present Value of Benefits ("APVB") based on the actuarial assumptions and methods used in the actuarial valuations.
- AAV as a percentage of Projected Benefit Obligation ("PBO") based on actuarial assumptions and methods. This ratio is presented annually in the CAFR.
- AAV as a percentage of Accumulated Benefit Obligation ("ABO") based on actuarial assumptions and methods. This ratio is also presented annually in the CAFR.
- The Market Value of Assets ("MVA") as a percentage of the Market Value Accumulated Benefit Obligation ("MVABO"). MVABO is calculated under the same actuarial assumptions used in the actuarial valuations except for an investment rate of return assumption which is equal to the yield on U.S. Treasury securities where durations are consistent with those of the expected payments from the funds.

The ratio of MVA to MVABO provides a different measure of funded status that is (1) independent of the asset allocation of the Plan, (2) exclusive of any advance recognition of expected asset risk premia (e.g., equity risk premium) and (3) absent any smoothing of asset values.

This ratio has been presented annually in the CAFR beginning with the June 30, 2003 CAFR.

Notes to Schedule of Funding Progress

As of June 30, 1995 and June 30, 1999, the economic and noneconomic assumptions were revised due to experience review.

AAVM was changed as of June 30, 1995 and June 30, 1999 to reflect a market basis for investments held by the Plan and was made as one component of an overall revision of actuarial assumptions and methods as of June 30, 1995 and June 30, 1999.

Under the AAVM used as of June 30, 1995, the AAV was reset to Market Value (i.e., Market Value Restart) as of June 30, 1995. Prior to June 30, 1995, this AAVM recognized Expected Investment Returns ("EIR") immediately and phased in investment returns greater or less than expected (i.e., UIR) over five years at a rate of 20% per year (i.e., at a cumulative rate of 20%, 40%, 60%, 80% and 100% over five years).

The AAVM used as of June 30, 1996 was a modified version of that used prior to June 30, 1995.

Under this modified AAVM, any UIR for Fiscal Years 1997 or later was being phased into the AAV beginning the following June 30, at a rate of 10%, 15%, 20%, 25% and 30% per year (i.e., at a cumulative rate of 10%, 25%, 45%, 70% and 100% over a period of five years). The UIR for fiscal year 1996 was being phased in beginning June 30, 1996 at a cumulative rate of 20%, 35%, 45%, 70% and 100% over a period of five years.

Under the AAVM used as of June 30, 1999, any UIR for Fiscal Years 2000 or later are phased into AAV beginning the following June 30 at a rate of 10%, 15%, 20%, 25% and 30% per year (i.e., a cumulative rate of 10%, 25%, 45%, 70% and 100% over a period of five years).

For the June 30, 2004 (Lag) actuarial valuation used for the Fiscal Year 2006 Contribution, the AAVM is being changed to a method which also resets the AAV to Market Value (i.e., "Market Value Restart") as of June 30, 1999. As of each June 30 thereafter the AAVM recognizes investment returns greater or less than expected over a period of six years.

In accordance with the AAVM, actual UIR for Fiscal Years 2000 and later are phased into the AAV beginning June 30, 2000 at a rate of 15%, 15%, 15%, 15%, 20% and 20% per year (or cumulative rates of 15%, 30%, 45%, 60%, 80%, 100% over a period of six years).

To effectively assess the funding progress of the Plan, it is necessary to compare the Actuarial Asset Value ("AAV") and the Actuarial Accrued Liability ("AAL") calculated in a manner consistent with the Plan's funding method over a period of time. The AAL is the portion of the APV of pension plan benefits and expenses which is not provided for by future normal costs and future member contributions.

The Unfunded Actuarial Accrued Liability ("UAAL") is the excess of the AAL over the AAV. This is not the same as the Unfunded Frozen Actuarial Accrued Liability, which is not adjusted from one actuarial valuation to the next to reflect actuarial gains and losses.

Less than 5 years	0%
5 or more years	100%

Benefit at Service Retirement Date: 2.5% times [FS (Tier 1) or FAS (Tier 2)] times Credited Service plus annuitized value of the net excess (deficit) of accumulated member contributions and ITHP over required amounts with interest to normal retirement date.

Participant may elect refund of accumulated member contributions.

K. Normal Form of Retirement Income: Life Annuity.

L. Loans:

Eligibility: Upon retirement.

Amount: As per Chapter 158/04 up to 90% (Effective July 20, 2004 increased from 75% to 90%) of Accumulated Member Contributions.

M. Cost-of-Living Adjustments ("COLA"): COLA benefits are payable to members who either are at least age 62 and have been retired for at least 5 years or who are at least age 55 and have been retired at least 10 years. Additionally, COLA benefits are payable to members who retired for disability after being retired for at least 5 years and to beneficiaries receiving accidental death benefits who have been receiving benefits for at least 5 years. If a retiree dies and has chosen an optional form of payment which provides for benefits to be continued to the spouse, one half of the COLA amount is paid to such spouse. Starting with benefits for September 2001, the COLA benefit is 50% of the increase in CPI-U based upon the 12 months ending March 31, rounded to the next highest 0.1%. Such COLA shall not be less than 1% nor greater than 3% of the first $18,000 of the base retirement benefit.

N. WTC Disability Law: Certain active and retired members of the Plan, who participated in the rescue, recovery or clean-up operations at the WTC site and who become partially or totally disabled due to certain diseases, are presumed to have become disabled in the performance of duty.

O. Variable Supplements Funds ("VSF"):

Eligibility: Service Retirement as a Firefighter or Fire Officer with at least 20 years of service. This benefit is not payable to Disability Retirees or Vested Terminated members.

Benefit: For the Calendar Year 2005, the annual payment was $11,000. This benefit will increase by $500 per calendar year until it reaches $12,000 in Calendar Year 2007.

Any increase in Supplementation or automatic COLA benefits payable from the Plan for retirees under legislation enacted after 1989 for Firefighters and 1993 for Fire Officers will reduce VSF benefits.

Form of Payment: Life annuity payable annually on or about December 15 for Firefighters and January 31 of the following year for Fire Officers. Benefit is prorated in year of death. Benefit is also prorated in year of retirement.

VSF DROP: Members who retire for service on or after January 1, 2002 with 20 or more years of service, are entitled to a lump sum in the first year following retirement equal to the VSF benefits that would have been paid with respect to Calendar Year 2002 and later had the member retired upon completion of 20 years of service. This is referred to as the "VSF DROP."

Age	1	2	Ultimate
40-45	12.00%	5.00%	4.00%

6. Salary Scale: The following table presents the Plan-specific, service-based salary increases that are used. A Baseline Overtime assumption of 10% is assumed throughout the working lifetimes of active members. Additionally, a Dual Overtime assumption of 16% is utilized when calculating Final Salary or Final Average Salary for Service Retirements, 4% for Disability Retirements, except that 8% is used for Tier 2 Ordinary Disability Retirements with over 20 years of service, 10% for all other benefits.

SALARY SCALE	
Years of Service	Rate of Next Increase

1	8.00%
2	8.00%
3	8.00%
4	31.00%

20	4.20%
25	4.20%
30	4.50%
35	4.50%
40+	4.50%

Salary Scale includes an assumed General Wage Increase of 3.0% per annum. Longevity increases for first 10 years are applied after 20 years of service. All longevity increases are applied after 25 years of service.

7. Marital Assumption: All active members are assumed to be married and females are assumed to be three years younger than their male spouses.
8. Credited Service: Calculated in whole year increments for valuation purposes (year of decrement minus year of hire).
9. Loans: Except for Death Benefits, it is assumed that members take the maximum allowable loan at retirement.
10. Actuarial Interest Rate: 8.0%, compounded annually.
11. COLA: 1.3% per year based on an assumed long-term Consumer Price Inflation rate of 2.5% per year.
12. Actuarial Asset Valuation Method: The AAVM was changed as of June 30, 1999 to reflect the reset of the AAV to Market Value (i.e., "Market Value Restart") for

investments held by the Plan. As of each June 30 thereafter, the AAVM recognizes investment returns greater or less than expected over a period of five years. Under this AAVM, any UIR for Fiscal Years 2000, 2001, etc., are phased into the AAV beginning June 30, 2000, 2001, etc., at a rate of 10%, 15%, 20%, 25% and 30% per year (i.e., at cumulative rates of 10%, 25%, 45%, 70% and 100% over a period of five years).

UIR is defined as the excess of Net Investment Return over the Expected Investment Return ("EIR") based on the Actuarial Interest Rate and AAV.

EIR equals the sum of Beginning-of-Fiscal-Year AAV plus one-half of Net Cash Flow, multiplied by the Actuarial Interest Rate.

13. Actuarial Cost Method: The Frozen Initial Liability Actuarial Cost Method of funding is utilized by the Plan's Actuary to calculate the contributions required of the employer. Under this method, the excess of the Actuarial Present Value ("APV") of projected benefits of the Plan's membership as of the valuation date, over the sum of the AAV plus the Unfunded Actuarial Accrued Liabilities ("UAAL"), if any, and the APV of future employee contributions, is allocated on a level basis over the future earnings of members who are on the payroll as of the valuation date. Actuarial gains and losses are reflected in the employer normal contribution rate.

The obligations of FIRE to the Firefighters' Variable Supplements Fund ("FFVSF") and the Fire Officers' Variable Supplements Fund ("FOVSF") are recognized through the Liability Valuation Method.

Under this methodology the APV of Future VSF Transfers from FIRE to the FFVSF and FOVSF is included directly as an actuarial liability to FIRE. This amount is computed as the excess, if any, of the APV of benefits of the FFVSF and FOVSF offset by the AAV of the FFVSF and FOVSF, respectively.

14. Lump Sum Death Benefits: Liabilities for group life lump sum death benefits are calculated under the One-Year Term Cost method.

15. Allowance for Investment Expenses: The Employer Contribution for a fiscal year is increased by the interest-adjusted amount of investment expenses paid from the Fund during the prior fiscal year.

16. World Trade Center Disability Law: To properly value the benefit provisions of the WTC Disability Law it is necessary to collect data on affected members. Until such time as data becomes available that both identifies eligible members and tracks their experience, an explicit determination of the liabilities for WTC Disability Law benefits cannot be made. These liabilities were estimated as described in Fiscal Note 2005-06, dated June 3, 2005, and are included in the Actuarial Present Value of Benefits.

B. Proposed Assumptions and Methods

1. Healthy Mortality: The following Plan-specific probabilities of mortality are used for active members and service retirees with separate probabilities for males and females (except for Accidental Death where a single table is used):

6. Salary Scale: The following table presents the Plan-specific, service-based salary increases that are used. A Baseline Overtime assumption of 12% is assumed. Additionally, a separate overtime assumption of 16% is utilized when calculating Salary Base for Service Retirements, 6% for Disability Retirements, except that 10% is used for Tier 2 Ordinary Disability Retirements with over 20 years of service, and 12% for all other benefits.

SALARY SCALE

10	4.00%
15	4.50%
20	5.00%
25	4.50%
30+	4.00%

Salary Scale includes an assumed General Wage Increase of 3.0% per annum. Longevity increases for first 10 years are applied after 20 years of service. All longevity increases are applied after 25 years of service.

7. Marital Assumption: All active members are assumed to be married and females are assumed to be three years younger than their male spouses.

8. Credited Service: Calculated in whole year increments for valuation purposes (year of decrement minus year of hire).

9. Loans: Except for Death Benefits, it is assumed that members take the maximum allowable loan at retirement.

10. Actuarial Interest Rate: 8.0%, compounded annually.

11. COLA: 1.3% per year based on an assumed long-term Consumer Price Inflation rate of 2.5% per year.

12. Actuarial Asset Valuation Method: The AAVM in use for the June 30, 2004 (Lag) actuarial valuations is proposed to change to a method which resets the Actuarial Asset Value to Market Value (i.e., Market Value Restart") as of June 30, 1999. As of each June 30 thereafter the AAVM recognizes investment returns greater or less than expected over a period of six years.

In accordance with the proposed AAVM, any UIR for Fiscal Years 2000, 2001, etc. are phased into the AAV beginning June 30, 2000, 2001, etc. at rates of 15%, 15%, 15%, 15%, 20% and 20% per year (i.e., cumulative rates of 15%, 30%, 45%, 60%, 80% and 100% over a period of six years).

UIR is defined as the excess of Net Investment Return over the Expected Investment Return ("EIR") based on the Actuarial Interest Rate and AAV.

EIR equals the sum of Beginning-of-Fiscal-Year AAV plus one-half of Net Cash Flow, multiplied by the Actuarial Interest Rate.

13. Actuarial Cost Method: The Frozen Initial Liability Actuarial Cost Method of funding is utilized by the Plan's Actuary to calculate the contributions required of the employer. Under this method, the excess of the APV of projected benefits of the Plan's membership as of the valuation date, over the sum of the AAV plus the Unfunded Actuarial Accrued Liabilities ("UAAL"), if any, and the APV of future employee contributions, is allocated on a level basis over the future earnings of members who are on the payroll as of the valuation date. Actuarial gains and losses are reflected in the employer normal contribution rate.

The obligations of FIRE to the Firefighters' Variable Supplements Fund ("FFVSF") and the Fire Officers' Variable Supplements Fund ("FOVSF") are recognized through the Liability Valuation Method.

Under this methodology the APV of Future VSF Transfers from FIRE to the FFVSF and FOVSF is included directly as an actuarial liability to FIRE. This amount is computed as the excess, if any, of the APV of benefits of the FFVSF and FOVSF offset by the AAV of the FFVSF and FOVSF, respectively.

14. Lump Sum Death Benefits: Liabilities for group life lump sum death benefits are calculated under the One-Year Term Cost method.

15. Allowance for Investment Expenses: The Employer Contribution for a fiscal year is increased by the interest-adjusted amount of investment expenses paid from the Fund during the second prior fiscal year.

16. World Trade Center Disability Law: To properly value the benefit provisions of the WTC Disability Law it is necessary to collect data on affected members. Until such time as data becomes available that both identifies eligible members and tracks their experience, an explicit determination of the liabilities for WTC Disability Law benefits cannot be made. These liabilities were estimated as described in Fiscal Note 2005-06, dated June

3, 2005, and are included in the Actuarial Present Value of Benefits of FIRE.

17. One-Year Lag Methodology: One-Year Lag Methodology uses a June 30, XX-2 valuation date to determine Fiscal Year XX employer contributions.

This methodology requires some theoretical adjustments to certain components used to determine Fiscal Year XX employer contributions as follows:

- Present Value of Future Salary ("PVFS")

  The PVFS at June 30, XX-2 is reduced by the value of salary projected to be paid during Fiscal Year XX-1.

- Salary for Determining Employer Contributions

  Salary used to determine the employer Normal Cost is the salary projected to be paid during Fiscal Year XX to members on payroll at June 30, XX-2.

- Present Value of Future Normal Costs ("PVFNC")

  The PVFNC at June 30, XX-2 is reduced by the discounted value of the employer contribution paid in Fiscal Year XX-1.

Re: June 30, 2005 and June 30, 2004 (Lag) Actuarial Valuations

Dear Members:

This Report presents the results of the June 30, 2005 and June 30, 2004 (Lag) actuarial valuations of the New York City Police Pension Fund ("POLICE") and Group Life Insurance Plan. These results form the basis for determining the Statutorily-Required Contribution ("Statutory Contribution") for the period beginning July 1, 2005 and ending June 30, 2006 (i.e., Fiscal Year 2006), which is presented in Section IV.

Pursuant to Section 96 of the New York City Charter, studies of the actuarial assumptions used to value liabilities of POLICE are conducted every two years. The independent actuarial auditor, Gabriel, Roeder, Smith & Company ("GRS"), issued an actuarial experience study dated October 2003. After reviewing the results of that study, the Actuary issued an August 24, 2005 Report entitled "Proposed Changes in Actuarial Assumptions and Methods for Determining Employer Contributions for Fiscal Years Beginning on and After July 1, 2005 for the New York City Police Pension Fund" ("August 2005 Report").

These Proposed Actuarial Assumptions and Methods ("Proposed A&M") have been adopted by the Board of Trustees for determining the Fiscal Year 2006 Statutory Contribution. Certain of the Proposed A&M still require enabling State Legislation to become effective. Consequently, the Fiscal Year 2006 Statutory Contribution is contingent upon the enactment of such legislation. The June 30, 2005 actuarial valuation is based on the Current Assumptions and Methods ("Current A&M") while the June 30, 2004 (Lag) actuarial valuation is based on the Proposed A&M.

The results shown herein are based on existing New York State statutes and the Administrative Code of the City of New York effective for funding purposes as of June 30, 2005.

Also included in this Report are certain items of information used for financial reporting purposes, for filing with the New York State Insurance Department and other historical information that the Actuary believes useful.

The June 30, 2005 and June 30, 2004 (Lag) actuarial valuations are based upon census data as of those dates submitted by the Plan's administrative staff and by the employer's payroll facilities and on the June 30, 2005 and June 30, 2004 financial information provided by the Office of the Comptroller. Census data which reflects the impact of recent labor contract settlements with retroactive effect and financial information are reviewed by the Office of the Actuary for consistency and reasonability.

A summary of the benefits available under the terms of the Plan is shown in Section VIII. The actuarial assumptions and methods employed in the actuarial valuations are summarized in Section IX.

The actuarial information herein that is to be used for financial accounting reporting purposes is being presented in a manner believed to be consistent with the requirements of Governmental Accounting Standards Board Statement No. 25 ("GASB 25").

The Table of Contents, which immediately follows, outlines in more detail the contents of this Report.

Respectfully Submitted,

Robert C. North, Jr.
Chief Actuary

1. This actuarial report was prepared as of June 30, 2005[1] and June 30, 2004 (Lag)[2] and presents the results of the Fiscal Year 2006 actuarial valuations of the New York City Police Pension Fund and Group Life Insurance Plan.

   The purpose of each valuation is to measure the funding progress of the Plan and to determine the Actuarially-Required Contribution ("Actuarial Contribution") and the Statutorily-Required Contribution ("Statutory Contribution") for Fiscal Year 2006 (i.e., July 1, 2005 to June 30, 2006).

   The June 30, 2005 and June 30, 2004 (Lag) actuarial valuation results reflect the following Chapter amendments:

- Chapter 278 of the Laws of 2002 ("Chapter 278/02"): Revised the phase-in schedule of Chapter 125 of the Laws of 2000 ("Chapter 125/00") for Fiscal Years 2003 and later[3].

  Enactment of enabling legislation during Fiscal Year 2006 in conjunction with the Proposed A&M will eliminate the use of the ten-year phase-in for the June 30 2004 (Lag) valuation.

  Chapter 278/02 requires the Actuary to revise the methodology and timing for determining the Statutory Contributions on account of the liabilities created by the benefits provided under Chapter 125/00 by extending the phase-in period for funding these liabilities from five years to ten years.

[3] The June 30, 2005 actuarial valuation reflects Chapter 278/02.

  The impact of the ten-year phase-in of Chapter 278/02 is to postpone funding of the additional liabilities attributable to Chapter 125/00, resulting in greater employer contributions in later years.

- Chapter 623 of the Laws of 2004 ("Chapter 623/04"): Provides for an Excess Benefit Plan to be established which would provide benefits to those pensioners whose annual retirement benefits are limited by Internal Revenue Code ("IRC") Section 415(b). This law is retroactive to July 1, 2000.
- Chapter 93 of the Laws of 2005 ("Chapter 93/05"), which amended Chapter 104 of the Laws of 2005 ("Chapter 104/05"), established that certain members of POLICE, who participated in the rescue, recovery or clean-up operations at the World Trade Center ("WTC") site and who become partially or totally disabled due to certain diseases, are presumed to have become disabled in the performance of duty. Collectively these laws are referred to as the "WTC Disability Law."

2. Section II provides details of the demographic data used to prepare the June 30, 2005 and June 30, 2004 (Lag) actuarial valuations, including the following tables:
   - Table 1: Active Members,
   - Table 2: Pensioners and Beneficiaries,
   - Table 3: Changes in the Number of Members and Pensioners During the Year,
   - Table 4: Schedule of Active Member Data, and
   - Table 5: Schedule of Pensioners and Beneficiaries Added to and Removed from the Rolls.

   The annualized covered payroll reflects the impact of recent labor contract settlements with retroactive effect. These figures exclude all members not on the payroll as of the valuation date. In addition, salaries were increased by a Dual Overtime assumption, including a Baseline Overtime assumption of 6% under the Current A&M and 12% under the Proposed A&M.

   The salaries were reduced by excluding all pending withdrawals (five year outs, et al.). No salaries are included for other members not on the payroll who were valued for accrued benefits only.

3. Section III provides details of the assets used to prepare the June 30, 2005 and June 30, 2004 (Lag) actuarial valuations including the following tables:
   - Table 1: Statement of Plan Net Assets as of June 30,

2004 and June 30, 2005,

- Table 2: Statement of Changes in Plan Net Assets for the Fiscal Years Ended June 30, 2004 and June 30, 2005, and
- Table 3: Development of the Actuarial Value of Assets.

4. Section IV presents the Statutory Contributions to the Plan for Fiscal Year 2005 and Fiscal Year 2006. Table 1 shows the components of the Statutory Contributions and Table 2 develops the Employer Normal Contributions.
5. Section V presents the Solvency Test. This Schedule is required for the Comprehensive Annual Financial Report ("CAFR") and is a means of checking the Plan's progress under its funding program.
6. Section VI presents the Funded Status of the Plan, which is expressed in various relationships of assets to liabilities.
7. Section VII presents a Schedule of Funding Progress. This schedule is required under Governmental Accounting Standards Board Statement No. 25 ("GASB 25") and shows for the current year and for each of the last nine fiscal years, certain amounts determined as of the respective valuation dates and their ratios.
8. Section VIII summarizes the benefit provisions of the Plan. For the June 30, 2005 and June 30, 2004 (Lag) actuarial valuations, the provisions include the WTC Disability Law. This law was not included in the provisions of the previous valuation.
9. Section IX summarizes the actuarial assumptions and methods used in the June 30, 2005 and June 30, 2004 (Lag) actuarial valuations. The actuarial assumptions and methods for the June 30, 2005 valuation are unchanged from the previous valuation. The June 30, 2004 (Lag) valuation includes the actuarial assumptions and methods approved by Board of Trustees based on August 2005 Report.
10. Appendix A compares the Statutory Contributions to the Actuarial Contributions for Fiscal Years 1997 through 2006, inclusive.
11. Appendix B contains two tables of Age and Service Distributions showing number of active members, total salary and average salary used in the June 30, 2005 and June 30, 2004 (Lag) actuarial valuations.
12. Appendix C shows number and salary of active members, by Tier, in tabular form and graphically.

SECTION II - SUMMARY OF DEMOGRAPHIC DATA

Census data used as the basis for the valuation are submitted by the Pension Fund's administrative staff, by the employer's payroll facilities, and by the Comptroller of the City of New York. Data are reviewed by the Office of the Actuary for consistency and reasonability.

The following Table 1 sets forth a comparison of the Active Member data used in the June 30, 2004 valuation, the June 30, 2005 valuation and the June 30, 2004 (Lag) valuation.

Table 2 sets forth a comparison of the Pensioners and Beneficiaries as of June 30, 2004 and June 30, 2005.

Table 3 flows the data from June 30, 2004 to June 30, 2005.

Table 4 shows the Active Member data for Fiscal Years ended June 30, 1998 through June 30, 2006, inclusive.

Table 5 shows the Pensioners and Beneficiaries added to and removed from the Rolls during the Fiscal Years 1996 through 2005, inclusive.

SECTION III - MARKET VALUE AND ACTUARIAL VALUE OF ASSETS

The following Table 1 compares the Market Value of Assets as of June 30, 2004 with the Market Value of Assets as of June 30, 2005.

Table 2 sets forth a comparison of the changes in the Market Value of Assets for the Fiscal Years ended June 30, 2004 and June 30, 2005.

Information on the Market Value of Assets ("MVA") is provided by the Office of the Comptroller.

Table 3 sets forth the development of the Actuarial Asset Value ("AAV") as of June 30 for the Fiscal Years 2000 through 2005, inclusive.

Under the June 30, 2005 actuarial valuation based on the Current A&M, the Actuarial Asset Valuation Method ("AAVM") reflects the reset of the AAV to Market Value as (i.e., "Market Value Restart") as of June 30, 1999. As of each June 30 thereafter, the AAVM recognizes investment returns greater or less than expected over a period of five years.

Under the Current A&M AAVM actual Unexpected Investment Returns ("UIR") for Fiscal Years 2000, 2001, etc. are phased into the AAV beginning June 30, 2000, 2001, etc., at rates of 10%, 15%, 20%, 25% and 30% per year (i.e., cumulative rates of 10%, 25%, 45%, 70% and 100%) over a period of five years.

The AAVM used for the June 30, 2004 (Lag) actuarial valuation is proposed to change to a method which also resets the Actuarial Asset Value to Market Value (i.e., "Market Value Restart") as of June 30, 1999. As of each June 30 thereafter the Proposed A&M AAVM recognizes investment returns greater or less than expected over a period of six years.

In accordance with the Proposed A&M AAVM, actual Unexpected Investment Returns ("UIR") for Fiscal Years 2000, 2001, etc. are

phased into the Actuarial Asset Value ("AAV") beginning June 30, 2000, 2001, etc. at rates of 15%, 15%, 15%, 15%, 20% and 20% per year (i.e., cumulative rates of 15%, 30%, 45%, 60%, 80% and 100% over a period of six years).

UIR is defined as the excess/(deficit) of Net Investment Return over/(under) Expected Investment Return ("EIR") based on the Actuarial Interest Rate ("AIR") and the AAV.

EIR equals the sum of Beginning-of-Fiscal-Year AAV plus one-half of Net Cash Flow, multiplied by the AIR.

The Proposed A&M AAVM averaging factors were applied against the UIR computed under the Current A&M AAVM for Fiscal Years 2000 to 2004.

The Proposed A&M AAV as of the June 30, 2004 was then used to determine the Fiscal Year 2006 employer contribution in conjunction with the One-Year Lag methodology.

SECTION IV - STATUTORY CONTRIBUTIONS

The Statutory Contribution for Fiscal Year 2006 (i.e., July 1, 2005 through June 30, 2006) under the Current A&M equals $1,431,851,690. This Statutory Contribution is less than the Actuarial Contribution because the Fiscal Year 2006 Statutory Contribution incorporates a phase-in schedule (phase-in period increased from 5 to 10 years in accordance with Chapter 278 of the Laws of 2002) for the additional actuarial liabilities attributable to Chapter 125 of the Laws of 2000.

The Statutory Contribution for Fiscal Year 2006 under the Proposed A&M equals $1,337,715,020. This Statutory Contribution is equal to the Actuarial Contribution due to the elimination of the phase-in of actuarial liabilities attributable to Chapter 125 of the Laws of 2000.

The following Table 1 shows the components of the Fiscal Year 2005 and the Fiscal Year 2006 Statutory Contributions.

Notes to Solvency Test

The ultimate test of financial soundness in a retirement system is its ability to pay all of its promised benefits when due. The retirement system's progress in accumulating assets to pay all promised benefits can be measured by comparing the Actuarial Value of Assets for the retirement system with the Aggregate Accrued Liabilities for:

A. Accumulated Member Contributions,
B. Current Retirees and Beneficiaries, and
C. Active Members' Employer-Financed Portion.

The Aggregate Accrued Liabilities are the Actuarial Present Value of projected benefits produced by the projected benefit attribution approach prorated on service. The Aggregate Accrued Liabilities were calculated in accordance with previously issued Governmental Accounting Standards Board Statement No. 5 ("GASB 5").

This comparative summary allocated assets as if they were priority groups, somewhat similar to (but not identical with) the priority categories of Section 4044 of the Employee Retirement Income Security Act of 1974.

The values in the table are dependent upon census data, benefit levels (which have changed on occasion over the past years), and the actuarial assumptions and methods employed at each valuation date. These underlying bases can be found within the Comprehensive Annual Financial Report ("CAFR") for each respective year.

To fully evaluate trends in financial soundness, changes in actuarial assumptions need to be evaluated. The economic assumptions used in the actuarial calculations include the following:

Valuation Date (June 30)	Assumed Annual Rate of Return On Investments	Assumed General Wage Increase
1996	8.75%	4.0%
1997	8.75%	4.0%
1998	8.75%	4.0%
1999	8.00%	3.0%
2000	8.00%	3.0%
2001	8.00%	3.0%
2002	8.00%	3.0%
2003	8.00%	3.0%
2004	8.00%	3.0%
2004 (Lag)*	8.00%	3.0%

* If based on Current A&M, the assumed annual rate of return on investments would be 8.00% for the June 30, 2005 valuation date.

SECTION VI - FUNDED STATUS

The Funded Status of the Plan is usually expressed in various relationships of Assets to Liabilities. Different measures are developed and utilized for different purposes and reporting entities.

This Section presents the following different measures of Funded Status:

- AAV as a percentage of Total Actuarial Present Value of Benefits ("APVB") based on the actuarial assumptions and methods used in the actuarial valuations.
- AAV as a percentage of Projected Benefit Obligation ("PBO") based on actuarial assumptions and methods. This ratio is presented annually in the CAFR.
- AAV as a percentage of Accumulated Benefit Obligation ("ABO") based on actuarial assumptions and methods. This ratio is also presented annually in the CAFR.
- The Market Value of Assets ("MVA") as a percentage of the Market Value Accumulated Benefit Obligation ("MVABO"). MVABO is calculated under the same actuarial assumptions used in the actuarial valuations except for an investment rate of return assumption which is equal to the yield on U.S. Treasury securities where durations are consistent with those of the expected payments from the funds.

  The ratio of MVA to MVABO provides a different measure of funded status that is (1) independent of the asset allocation of the Plan, (2) exclusive of any advance recognition of expected asset risk premia (e.g., equity risk premium) and (3) absent any smoothing of asset values.

  This ratio has been presented annually in the CAFR beginning with the June 30, 2003 CAFR.

Notes to Schedule of Funding Progress

As of June 30, 1995 and June 30, 1999, the economic and noneconomic assumptions were revised due to experience review.

AAVM was changed as of June 30, 1995 and June 30, 1999 to reflect a market basis for investments held by the Plan and was made as one component of an overall revision of actuarial assumptions and methods as of June 30, 1995 and June 30, 1999.

Under the AAVM used as of June 30, 1995, the AAV was reset to Market Value (i.e., Market Value Restart) as of June 30, 1995. Prior to June 30, 1995, this AAVM recognized Expected Investment Returns ("EIR") immediately and phased in investment returns greater or less than expected (i.e., UIR) over five years at a rate of 20% per year (i.e., at a cumulative rate of 20%, 40%, 60%, 80% and 100% over five years).

The AAVM used as of June 30, 1996 was a modified version of that used prior to June 30, 1995.

Under this modified AAVM, any UIR for Fiscal Years 1997 or later was being phased into the AAV beginning the following June 30, at a rate of 10%, 15%, 20%, 25% and 30% per year (i.e., at a cumulative rate of 10%, 25%, 45%, 70% and 100% over a period of five years). The UIR for fiscal year 1996 was being phased in beginning June 30, 1996 at a cumulative rate of 20%, 35%, 45%, 70% and 100% over a period of five years.

Under the AAVM used as of June 30, 1999, any UIR for Fiscal Years 2000 or later are phased into AAV beginning the following June 30 at a rate of 10%, 15%, 20%, 25% and 30% per year (i.e., a cumulative rate of 10%, 25%, 45%, 70% and 100% over a period of five years).

For the June 30, 2004 (Lag) actuarial valuation used for the Fiscal Year 2006 Contribution, the AAVM is being changed to a method which also resets the AAV to Market Value (i.e., "Market Value Restart") as of June 30, 1999. As of each June 30 thereafter the AAVM recognizes investment returns greater or less than expected over a period of six years.

In accordance with the AAVM, actual UIR for Fiscal Years 2000 and later are phased into the AAV beginning June 30, 2000 at a rate of 15%, 15%, 15%, 15%, 20% and 20% per year (or cumulative rates of 15%, 30%, 45%, 60%, 80%, 100% over a period of six years).

To effectively assess the funding progress of the Plan, it is necessary to compare the Actuarial Asset Value ("AAV") and the Actuarial Accrued Liability ("AAL") calculated in a manner consistent with the Plan's funding method over a period of time. The AAL is the portion of the APV of pension plan benefits and expenses which is not provided for by future normal costs and future member contributions.

The Unfunded Actuarial Accrued Liability ("UAAL") is the excess of the AAL over the AAV. This is not the same as the Unfunded Frozen Actuarial Accrued Liability, which is not adjusted from one actuarial valuation to the next to reflect actuarial gains and losses.

6. Salary Scale: The following table presents the Plan-specific, service-based salary increases that are used. A Baseline Overtime assumption of 6% is assumed throughout the working lifetimes of active members. Additionally, a Dual Overtime assumption of 12% is utilized when calculating Final Salary or Final Average Salary for Service Retirements, 2% for Disability Retirements, except that 4% is used for Tier 2 Ordinary Disability Retirements with over 20 years of service, and 6% for all other benefits.

20	4.00%
25	4.00%
30	4.00%
35	4.00%
40+	4.00%

Salary Scale includes an assumed General Wage Increase of 3.0% per annum. Longevity increases for first 10 years are applied after 20 years of service. All longevity increases are applied after 25 years of service.

7. Marital Assumption: All active members are assumed to be married and females are assumed to be three years younger than their male spouses.
8. Credited Service: Calculated in whole year increments for valuation purposes (year of decrement minus year of hire).
9. Loans: Except for Death Benefits, it is assumed that members take the maximum allowable loan at retirement.
10. Actuarial Interest Rate: 8.0%, compounded annually.
11. COLA: 1.3% per year based on an assumed long-term Consumer Price Inflation rate of 2.5% per year.
12. Actuarial Asset Valuation Method: The AAVM was changed as of June 30, 1999 to reflect the reset of the AAV to Market Value (i.e., "Market Value Restart") for investments held by the Plan. As of each June 30 thereafter, the AAVM recognizes investment returns greater or less than expected over a period of five years. Under this AAVM, any UIR for Fiscal Years 2000, 2001, etc., are phased into the AAV beginning June 30, 2000, 2001, etc., at a rate of 10%, 15%, 20%, 25% and 30% per year (i.e., at cumulative rates of 10%, 25%, 45%, 70% and 100% over a period of five years).
UIR is defined as the excess of Net Investment Return over the Expected Investment Return ("EIR") based on the Actuarial Interest Rate and AAV.
EIR equals the sum of Beginning-of-Fiscal-Year AAV plus one-half of Net Cash Flow, multiplied by the Actuarial Interest Rate.
13. Actuarial Cost Method: The Frozen Initial Liability Actuarial Cost Method of funding is utilized by the Plan's Actuary to calculate the contributions required of the employer. Under this method, the excess of the Actuarial Present Value ("APV") of projected benefits of the Plan's membership as of the valuation date, over the sum of the AAV plus the Unfunded Actuarial Accrued Liabilities ("UAAL"), if any, and the APV of future employee contributions, is allocated on a level basis over the future earnings of members who are on the payroll as of the valuation date. Actuarial gains and losses are reflected in the employer normal contribution rate.
The obligations of POLICE to the Police Officers' Variable Supplements Fund ("POVSF") and the Police Superior Officers' Variable Supplements Fund ("PSOVSF") are recognized through the Liability Valuation Method.
Under this methodology the APV of Future VSF Transfers from POLICE to the POVSF and PSOVSF is included directly as an actuarial liability to POLICE. This amount is computed as the excess, if any, of the APV of benefits of the POVSF and PSOVSF offset by the AAV of the POVSF and PSOVSF, respectively.
14. Lump Sum Death Benefits: Liabilities for group life lump sum death benefits are calculated under the One-Year Term Cost method.
15. Allowances for Administrative and Investment Expenses: The Employer Contribution for a fiscal year is increased by the interest-adjusted amount of administrative and investment expenses paid from the Fund during the prior fiscal year.
16. World Trade Center Disability Law: To properly value the benefit provisions of the WTC Disability Law it is necessary to collect data on affected members. Until such time as data becomes available that both identifies eligible members and tracks their experience, an explicit determination of the liabilities for WTC Disability Law benefits cannot be made. These liabilities were estimated as described in Fiscal Note 2005-06, dated June 3, 2005, and are included in the Actuarial Present Value of Benefits of POLICE.

B. Proposed Assumptions and Methods

1. Healthy Mortality: The following Plan-specific probabilities of mortality are used for active members and service retirees with separate probabilities for males and females (except for Accidental Death where a single table is used):

5. Service Retirement: The following Plan-specific age and service based probabilities of retirement are used:

6. Salary Scale: The following table presents the Plan-specific, service-based salary increases that are used. A Baseline Overtime assumption of 12% is assumed throughout the working lifetimes of active members. Additionally, a Dual Overtime assumption of 16% is utilized when calculating Final Salary or Final Average Salary for Service Retirements, 6% for Disability Retirements, except that 10% is used for Tier 2 Ordinary Disability Retirements with over 20 years of service, and 12% for all other benefits.

20	5.00%
25	4.50%
30	4.00%

40+	4.00%

Salary Scale includes an assumed General Wage Increase of 3.0% per annum. Longevity increases for first 10 years are applied after 20 years of service. All longevity increases are applied after 25 years of service.

7. Marital Assumption: All active members are assumed to be married and females are assumed to be three years younger than their male spouses.
8. Credited Service: Calculated in whole year increments for valuation purposes (year of decrement minus year of hire).
9. Loans: Except for Death Benefits, it is assumed that members take the maximum allowable loan at retirement.
10. Actuarial Interest Rate: 8.0%, compounded annually.
11. COLA: 1.3% per year based on an assumed long-term Consumer Price Inflation rate of 2.5% per year.
12. Actuarial Asset Valuation Method: The AAVM in use for the June 30, 2004 (Lag) actuarial valuation is proposed to change to a method which resets the Actuarial Asset Value to Market Value (i.e., "Market Value Restart") as of June 30, 1999. As of each June 30 thereafter the AAVM recognizes investment returns greater or less than expected over a period of six years.
In accordance with the proposed AAVM, any UIR for Fiscal Years 2000, 2001, etc. are phased into the AAV beginning June 30, 2000, 2001, etc. at rates of 15%, 15%, 15%, 15%, 20% and 20% per year (i.e., cumulative rates of 15%, 30%, 45%, 60%, 80% and 100% over a period of six years).

13. Actuarial Cost Method: The Frozen Initial Liability Actuarial Cost Method of funding is utilized by the Plan's Actuary to calculate the contributions required of the employer. Under this method, the excess of the APV of projected benefits of the Plan's membership as of the valuation date, over the sum of the AAV plus the Unfunded Actuarial Accrued Liabilities ("UAAL"), if any, and the APV of future employee contributions, is allocated on a level basis over the future earnings of members who are on the payroll as of the valuation date. Actuarial gains and losses are reflected in the employer normal contribution rate.
The obligations of POLICE to the Police Officers' Variable Supplements Fund ("POVSF") and the Police Superior Officers' Variable Supplements Fund ("PSOVSF") are recognized through the Liability Valuation Method. Under this methodology the APV of Future VSF Transfers from POLICE to the POVSF and PSOVSF is included directly as an actuarial liability to POLICE. This amount is computed as the excess, if any, of the APV of benefits of the POVSF and PSOVSF offset by the AAV of the POVSF and PSOVSF, respectively.

14. Lump Sum Death Benefits: Liabilities for group life lump sum death benefits are calculated under the One-Year Term Cost method.

15. Allowances for Administrative and Investment Expenses: The Employer Contribution for a fiscal year is increased by the interest-adjusted amount of administrative and investment expenses paid from the Fund during the second prior fiscal year.

16. World Trade Center Disability Law: To properly value the benefit provisions of the WTC Disability Law it is necessary to collect data on affected members. Until such time as data becomes available that both identifies eligible members and tracks their experience, an explicit determination of the liabilities for WTC Disability Law benefits cannot be made. These liabilities were estimated as described in Fiscal Note 2005-06, dated June 3, 2005, and are included in the Actuarial Present Value of Benefits.

17. One-Year Lag Methodology: One-Year Lag methodology uses a June 30, XX-2 valuation date to determine Fiscal Year XX employer contributions.
This methodology requires some theoretical adjustments to certain components used to determine Fiscal Year XX employer contributions as follows:
- Present Value of Future Salary ("PVFS")
  The PVFS at June 30, XX-2 is reduced by the value of salary projected to be paid during Fiscal Year XX-1.
- Salary for Determining Employer Contributions
  Salary used to determine the employer Normal Cost is the salary projected to be paid during Fiscal Year XX to members on payroll at June 30, XX-2.
- Present Value of Future Normal Costs ("PVFNC")
  The PVFNC at June 30, XX-2 is reduced by the discounted value of the employer contribution paid in Fiscal Year XX-1.

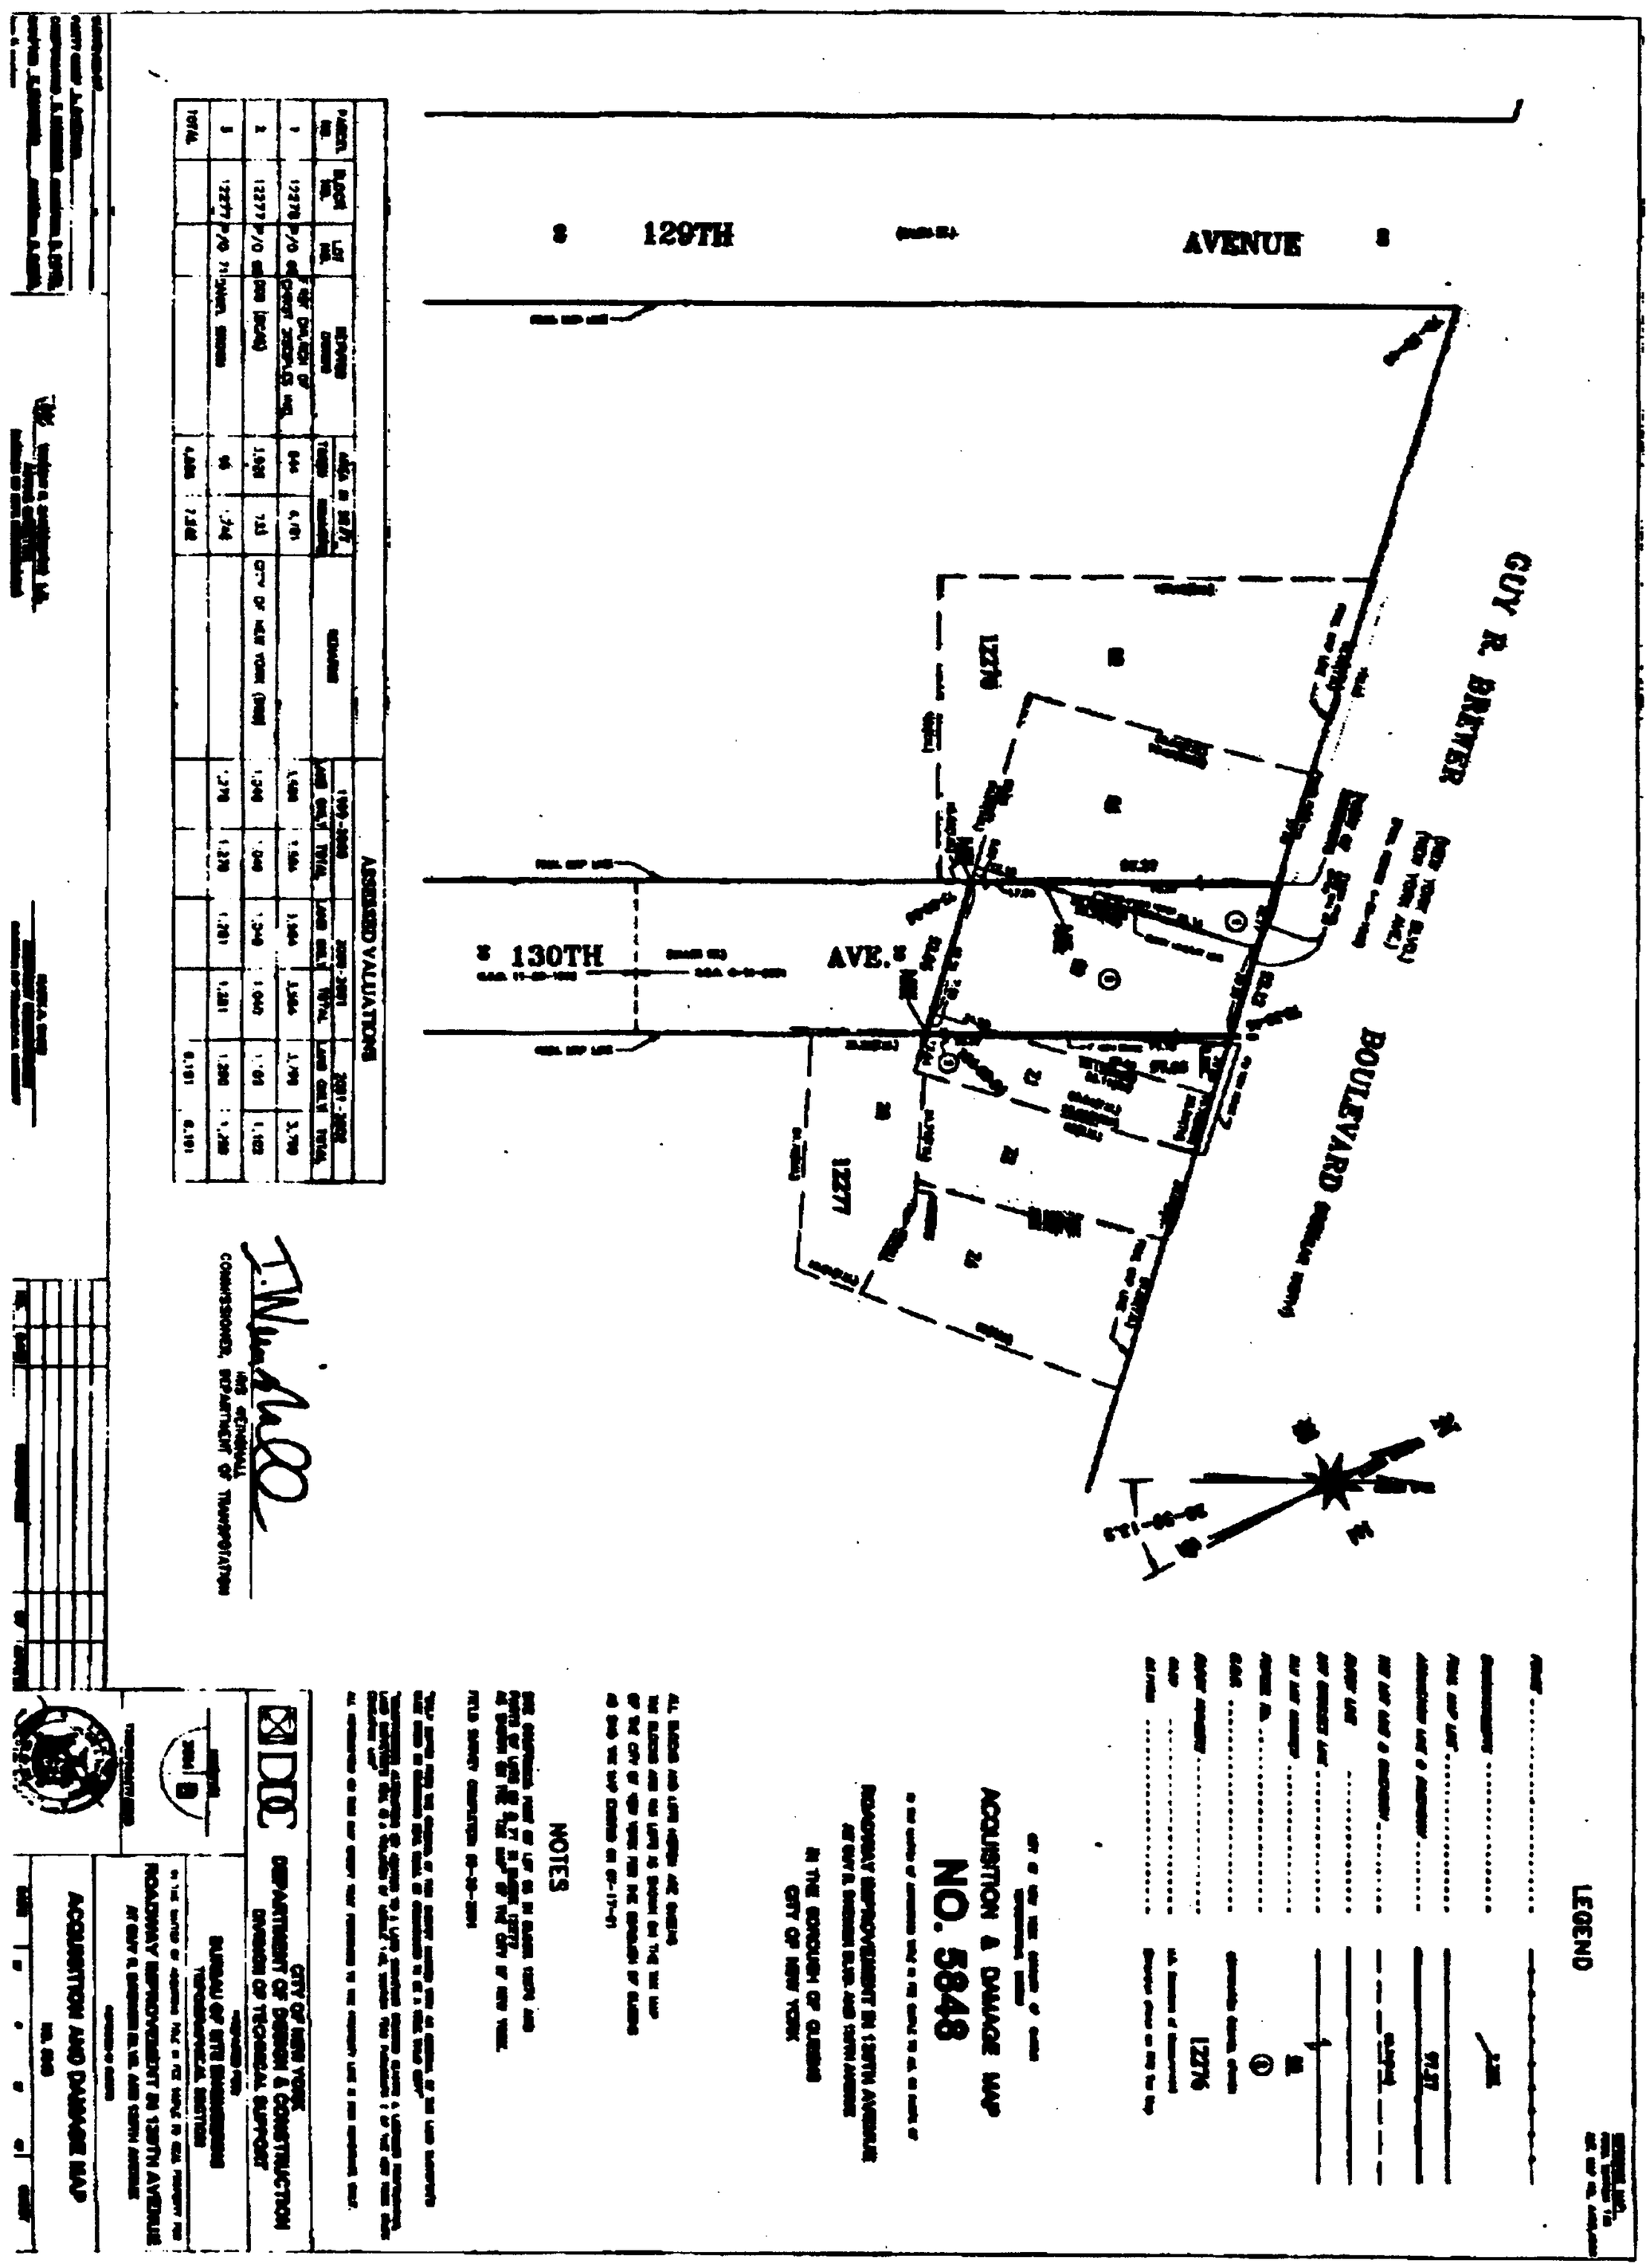
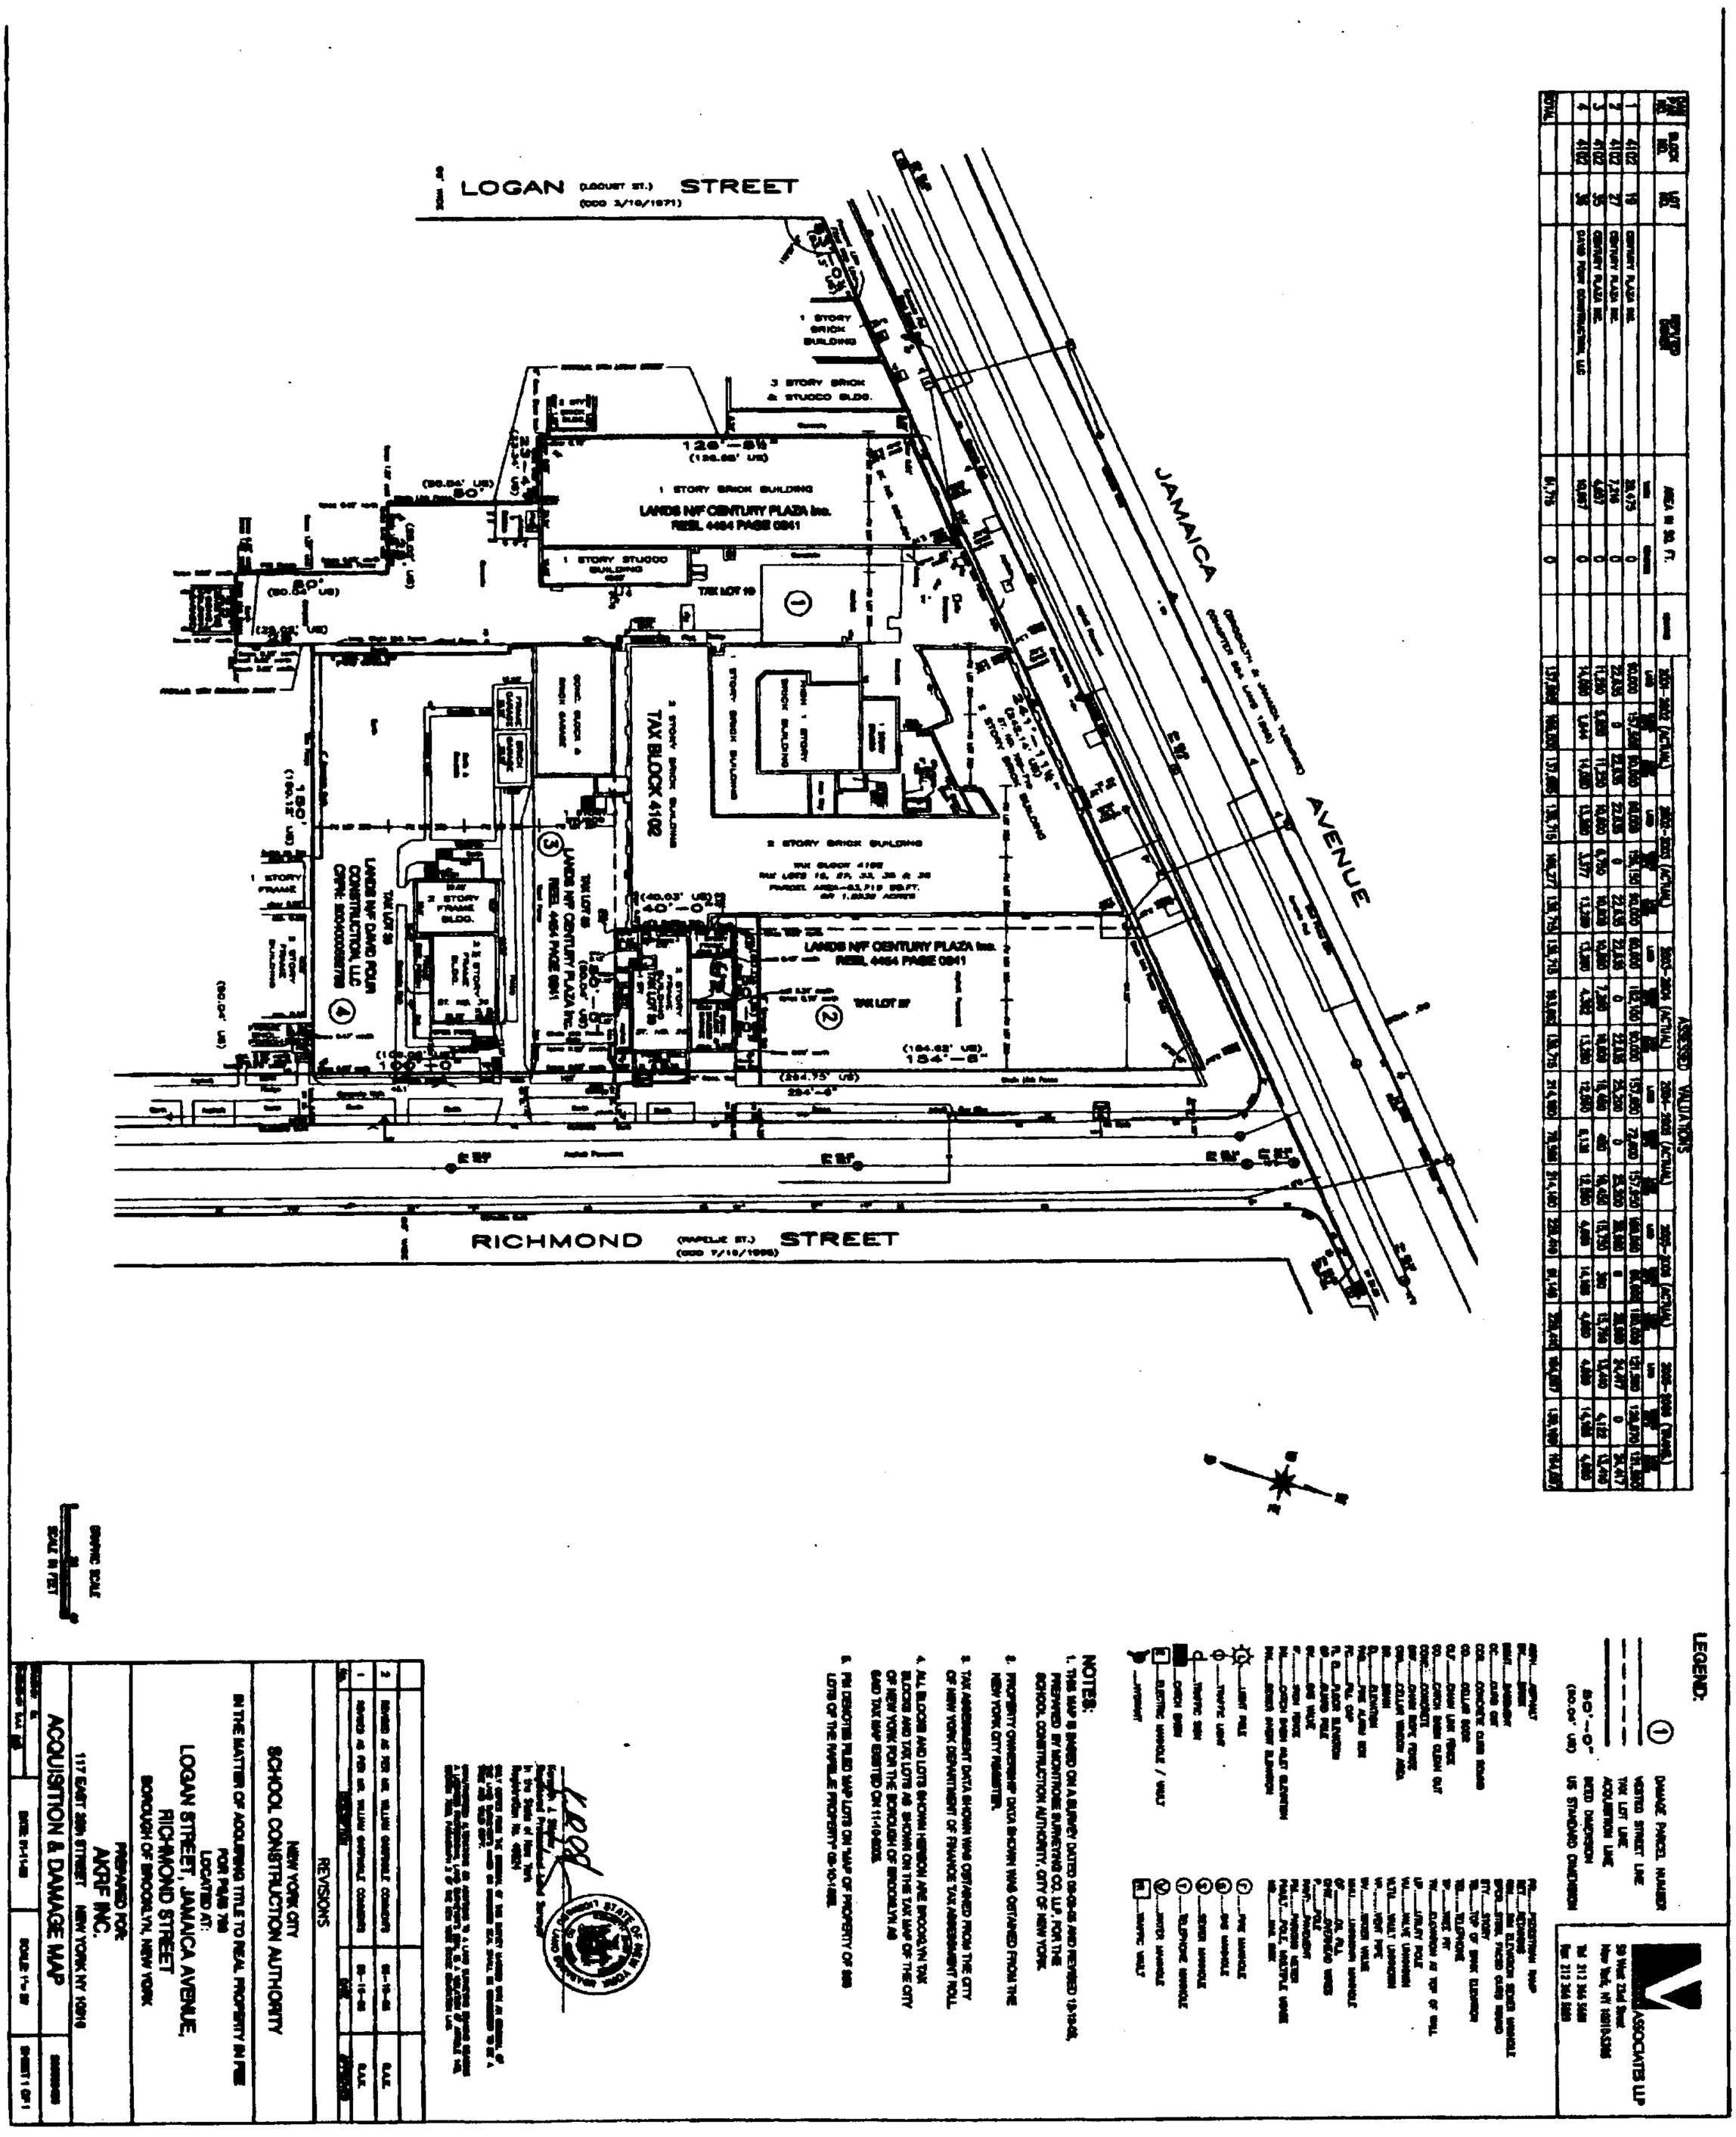
COURT NOTICE MAP FOR ROADWAY IMPROVEMENT IN 130TH AVENUE, QUEENS



COURT NOTICE MAP FOR SCHOOL CONSTRUCTION AUTHORITY



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

FIRE

NOTICE

NOTICE OF PROPOSED RATEMAKING

Notice of Opportunity To Comment on Proposed Schedule of Charges for Fire Department Ambulance Service

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED in the Fire Commissioner of the City of New York pursuant to Section 487(f) of the New York City Charter, the New York City Fire Department intends to increase its charges for Fire Department Emergency Medical Service (EMS) ambulance service. New material is underlined and material to be deleted is [bracketed].

A public hearing will be held on Wednesday, August 2, 2006, at 10:30 a.m., in the Auditorium at Fire Department Headquarters at 9 MetroTech Center, Brooklyn, New York 11201-3857. Written comments regarding this ratemaking may be submitted to the Counsel to the Department, at Fire Department Headquarters, by the above date.

Persons who request that a sign language interpreter or other form of reasonable accommodation for a disability be provided at the hearing are requested to notify the Counsel to the Department at the foregoing address by Wednesday, July 19, 2006.

The Notice of Proposed Ratemaking, Proposed Schedule of Charges for Fire Department Ambulance Service, and Justification for Proposed Ratemaking, will be available on the Fire Department Internet Home Page at:
www.nyc.gov/fdny

The Fire Department proposes to amend its schedule of charges for ambulance transport service provided by the Fire Department's Emergency Medical Service through the New York City 911 System, as set forth in Appendix A to Title 3 of the Rules of the City of New York (following Chapter 43 thereof), as follows:

Schedule of Charges for
Fire Department Ambulance Transport Service
(effective [November 24, 2002] (new effective date))

Type of Service	Charge
Basic Life Support Ambulance	$[420.00] 475.00
[Advanced Life Support Ambulance	$ 535.00]
Advanced Life Support Ambulance Service – Level 1 (ALS1)	$ 600.00
Advanced Life Support Ambulance Service – Level 2 (ALS2)	$ 700.00

Additional Charges:
– Mileage (distance traveled to hospital) $[6.00] 7.00/mile
– Provision of Oxygen (as applicable) $ 50.00

JUSTIFICATION FOR PROPOSED RATEMAKING:

The Fire Department is proposing to increase the amounts it charges patients and insurers for Emergency Medical Service (EMS) ambulance transport service provided through the New York City 911 System, to reflect increased costs and help defray the City's cost of providing these services.

The charges for ambulance transport service were last increased in November 2002. The rates adopted at that time and currently in effect areThe Department currently charges $420 for an ambulance response (including treatment and transport) by a Basic Life Support (BLS) ambulance staffed by two Fire Department Emergency Medical Technicians, and; $535 for an ambulance response (including treatment and transport) by an Advanced Life Support (ALS) ambulance staffed by two Fire Department Paramedics.

The Department currently charges; $6.00/per mile for hospital transports;in mileage charges and $50.00 for provision of oxygen.

The Department proposes to increase the rates to continue to bring them more in line with the cost of providing these services. The proposed schedule of charges continues the existing single rate for BLS service, but proposes separate rates for the two levels of ALS service established by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services for Medicare reimbursementThe charges for ambulance service were last increased in November of 2002. Included in this proposal are the separation of fees for ALS1 and ALS2 level of service. This will bring FDNY in line with the Medicare, wh service level definitions which have become the nationally -accepted standards for ambulance .service levels.

The Department proposes to adjust the ambulance service charges to more closely reflect the cost of providing these services. The fully allocated costs of providing Basic Life Support (BLS) & Advanced Life Support (ALS) ambulance transports are $498 and $705 respectively.

The proposed schedule of charges represents a single rate for BLS service, and separate rates for ALS1 & ALS2 levels of service. The AALS1 service comprises all regular ALS ambulance treatment and transport. The ALS2 level of level of sservice is limited to treatment and transport requiring certain includes transport and more aadvanced dvanced treatment by Paramedics wcare, as set forth in Medicare regulations, including manual defibrillation, endotracheal intubation, the insertion of a central venous line, and the intravenous administration of certain ho perform specific forms of treatment and/or administer certain levels of drugsmedications, such as morphine, diazepam, lidocaine and lasix.
The proposed schedule of charges reflects a 13% increase above the current BLS rate. With respect to the proposed ALS rates, more than 90% of ALS transports involve the provision of ALS1 care, and accordingly the estimated average bill for all ALS transports (ALS1 and ALS2 combined) under the proposed ALS rates would . The definition of ALS1 and ALS2 are determined by the Federal Department of Health and Human Services' Centers for Medicare and Medicaid Services. be $605, also an increase of 13% above the current ALS rate.

The proposed 13% increase in BLS and ALS rates is necessitated by increased costs. The most significant cost increases during the relevant time period were the collective bargaining increases for the Fire Department EMS personnel who staff the ambulances, and the very substantial capital investment made by the Fire Department in new communications equipment. The balance of the proposed increase is accounted for by a general increase in non-personnel costs, based on the cost of living index.

This substantial capital investment was made for the purchase, installation and operation, in all Fire Department ambulances, of automatic vehicle locator (AVL) equipment, which utilizes global positioning satellite technology. By providing exact locations for each of the Fire Department's ambulances as they move around the city, this technology will enable the Fire Department's Computer Aided Dispatch system and Fire Department dispatchers to identify more precisely the ambulances best situated to respond to a call for medical assistance, thereby reducing ambulance response time.

The current and proposed charges set forth above are the amounts that the Fire Department would bill for EMS ambulance service. The charges do not necessarily reflect the amounts accepted by the Fire Department as payment for such services from government and private health insurance plans.

The increase in mileage charges is consistent with the mileage rate approved by the Centers for Medicare and Medicaid Services.

Neither the current nor proposed rates apply to emergency medical care provided by Fire Department firefighters as certified first responders. The Fire Department does not charge for such services.

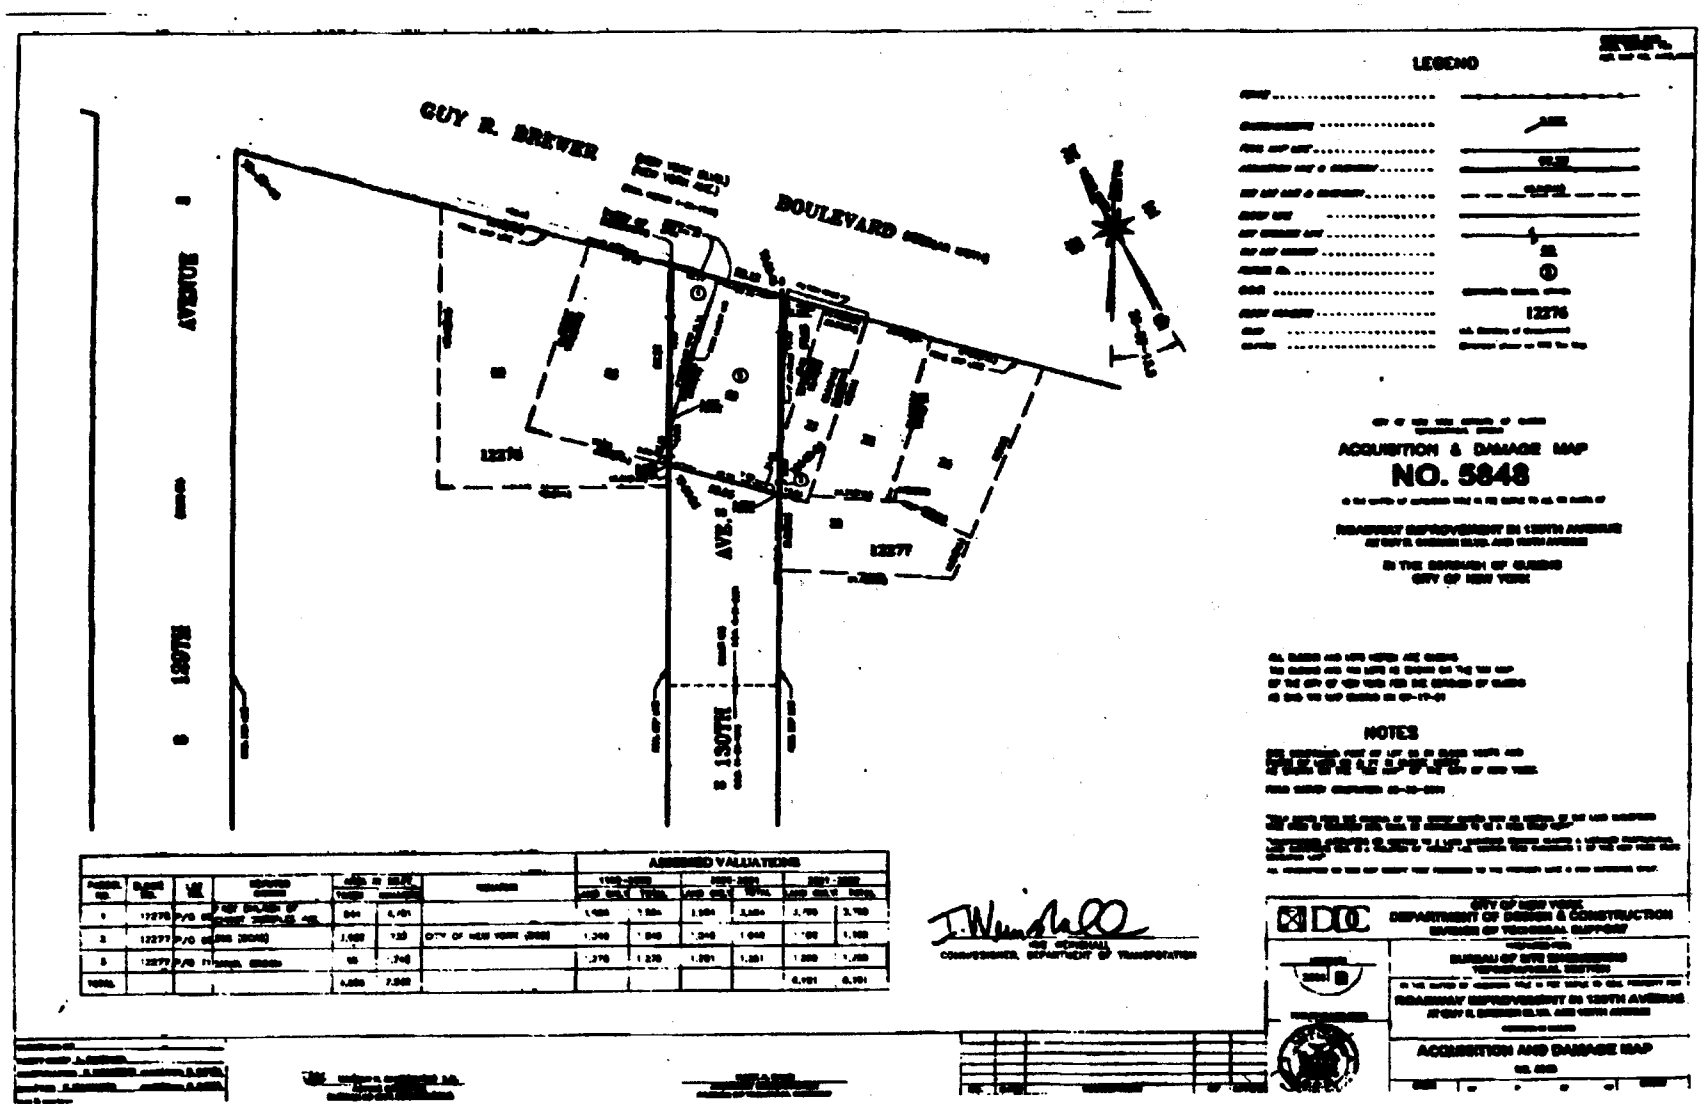
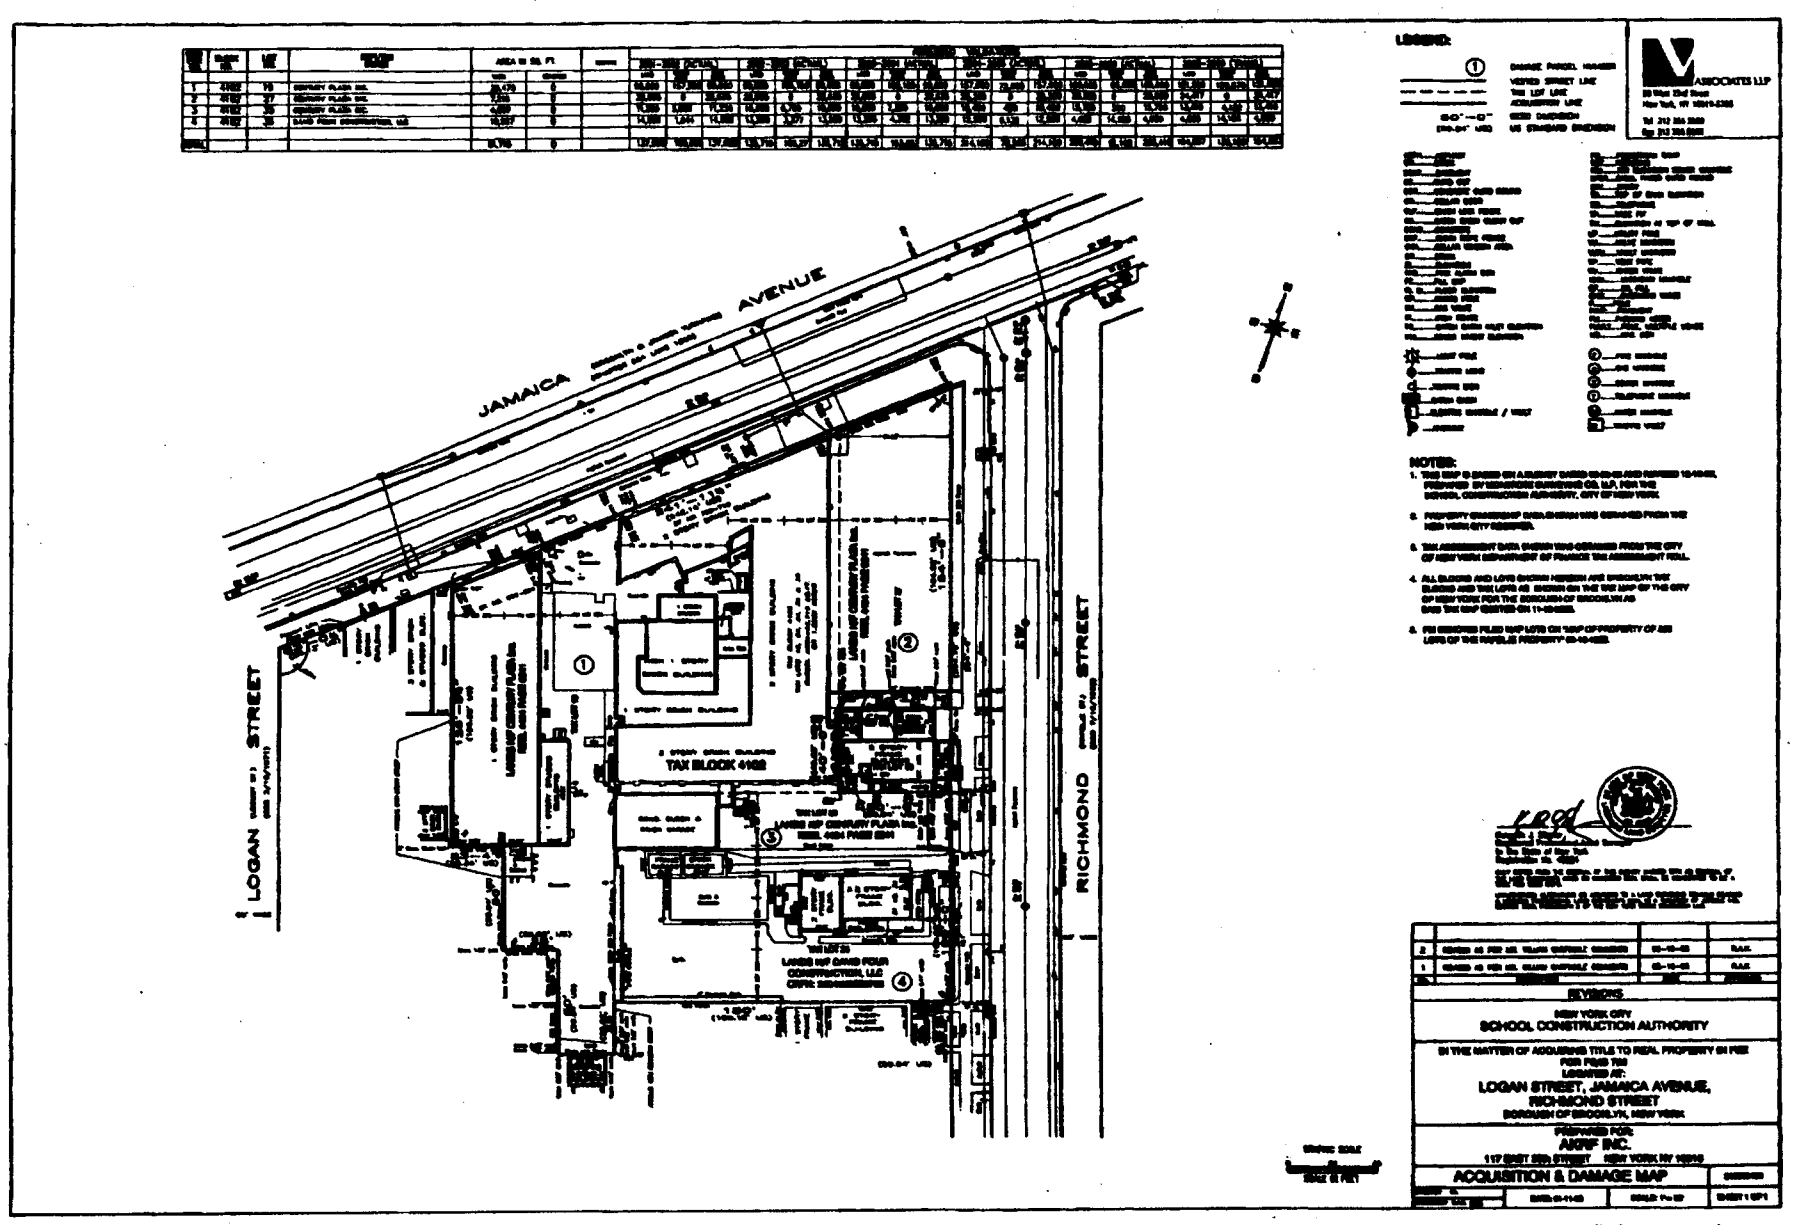
COURT NOTICE MAP FOR ROADWAY IMPROVEMENT IN 130TH AVENUE, QUEENS



COURT NOTICE MAP FOR SCHOOL CONSTRUCTION AUTHORITY



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Proposed Amendment to Rules

New material is indicated by underlining. Deleted material is indicated by [bracketing].

Section 3-03 of Title 51 of the Rules of the City of New York is amended to read as follows:

§ 3-03 Hearings Pursuant to Domestic Relations Law §15.

(a) *Production of witnesses or notarized affidavits to establish identity.* If in the opinion of the issuing clerk there appears to be some question as to the identity of one or both of the parties, the City Clerk, pursuant to the provisions of § 15 of the New York State Domestic Relations Law, may compel the production of witnesses, certified official records or notarized affidavits to establish the identity of the parties.

(b) *Request for review of City Clerk's preliminary denial of marriage license.*

(1) Applicants who have been preliminarily denied a marriage license by the City Clerk may request a review of such determination by paying a $25 fee and filing a request for a review on such form as may be provided by the City Clerk no later than 30 days after such preliminary denial. The City Clerk may waive this fee upon a showing of financial hardship.

(2) *Duty of the City Clerk.* Within fifteen days of receipt of a request for review the City Clerk shall forward to the Office of Administrative Trials and Hearings (OATH) such request for review, a written statement outlining the reason for the preliminary denial of the marriage license and the documentary evidence supporting the preliminary denial, all of which documentation with the exception of the request for review shall constitute the petition. A copy of the petition shall be mailed contemporaneously to the applicant via certified mail return receipt requested.

(3) *Notice to spouse of record.* Where the marriage license was denied because of the existence in the records of the City Clerk of a prior non-terminated marriage, the City Clerk shall exert its best efforts to notify the spouse of record of the impending action. The spouse of record shall be given twenty-one days to respond to such notification. In such response, the spouse of record may request an opportunity to be heard on the issue, either in writing or at the hearing, if OATH decides a hearing is warranted. Upon request contained in such response, the City Clerk shall forward to the spouse of record all documentation exchanged among OATH, the City Clerk and the applicant.

(4) *Applicant's duty to respond.* Applicant shall, no later than thirty days after he or she receives the petition, submit in duplicate an answer to the City Clerk including therein any documentary evidence or other proof which may include notarized affidavits in support of his or her claim. Upon written request of the applicant stating the specific reason for such request, submitted no later than five days prior to the due date for such answer, the City Clerk may for good cause grant an extension of time for applicant to submit the same. Upon receipt of the answer the City Clerk shall forward a copy thereof to OATH. Applicant's failure to respond by the deadline set forth herein, including any extension granted by the City Clerk pursuant to this sub-paragraph, shall be deemed a withdrawal of the applicant's challenge to the City Clerk's preliminary decision and such preliminary decision shall thereafter be deemed final.

(5) *Designation of OATH.* Pursuant to Charter §1048, the City Clerk designates OATH to conduct on its behalf all the reviews and hearings referred to herein.

(6) *The reviewing officer.* An administrative law judge ("ALJ") employed by OATH shall review the petition and the answer no later than fifteen days after the date of receipt of both the petition and the answer as well as any documentation presented by the spouse of record, if any. If upon such review the ALJ shall conclude that such evidence is sufficient to form a conclusion then the ALJ shall prepare no later than thirty days after receipt of all of the documents referred to in the first sentence of this sub-section a report summarizing the evidence presented, an analysis of the legal and factual issues, recommended findings of fact and recommended disposition. Such report shall be sent to the City Clerk for a final determination of the facts and a final disposition. Alternatively, if the ALJ shall conclude that the evidence presented is insufficient to form a conclusion, the ALJ shall convene a hearing at a date to be determined in such ALJ's sole discretion but no later than sixty days from the date of such initial review. Upon notification thereof by such ALJ, which notification may be electronic, the City Clerk, not later than five days after the date of such notification, shall notify the applicant as well as his or her attorney or other representative, if any, and the spouse of record, if any, of the date of the hearing by certified mail return receipt requested. Such notification shall be post-marked no later than thirty days prior to the date of such hearing.

(7) *Use of expert witness.* It shall be the obligation of any party intending to present the testimony of expert witness or witnesses at the hearing to notify the ALJ and the opposing parties of such intention no later than fifteen days prior to the date of the hearing and to submit to both the ALJ and the opposing parties no later than seven days prior to the date of the hearing copies of any reports, filings or any other documentation produced by such expert witness or witnesses which such party intends to use at the hearing. The ALJ may grant an extension of time to the parties.

(8) *The hearing.* The ALJ shall preside over the hearing, make all procedural rulings, and make a statement on the record describing the nature of the proceedings, the issues, and the manner in which the hearing will be conducted. The ALJ shall have all the requisite powers conferred by law to administer oaths, issue subpoenas, require the attendance of witnesses and production of records, rule upon requests for adjournment, rule upon evidentiary matters and to otherwise regulate the hearing, observe the requirements of due process and effectuate the purposes and provisions of applicable law. All testimony shall be given under oath or affirmation administered by the ALJ. The City Clerk shall have the burden of demonstrating by a preponderance of the evidence that the applicant should not be granted a marriage license.

(9) The applicant and the spouse of record, if any, may be represented by an attorney or other representative of his or her choice.

(10) The applicant as well as the City Clerk and the spouse of record, if any, may have witnesses, may give testimony and may otherwise present relevant and material evidence on his or her behalf, may cross-examine witnesses and may examine any document or other item offered into evidence.

(11) A recorded copy of the record of the hearing shall be prepared by OATH; upon request a compact disc audio recording of the hearing, at no cost, or a transcript of the hearing, at a cost to be determined by OATH, may be provided.

(12) At the discretion of the ALJ, the hearing may be adjourned for good cause upon the request of any of the parties or upon the ALJ's own motion and with notice to the parties.

(13) The hearing shall be conducted in conformity with procedural requirements of applicable law and the rules of procedure adopted by OATH which are not inconsistent with these rules. In the event of any conflict of laws, the rules of this section shall be determinative and controlling.

(14) After the conclusion of the hearing, the ALJ shall prepare a report summarizing the evidence presented, an analysis of the legal and factual issues, recommended findings of fact and a recommended disposition. Such report shall be sent to the City Clerk for a final determination of the facts and a final disposition.

(15) *Final decision.* (a) The City Clerk's final decision shall be in writing and shall state reasons for the determinations and, when appropriate, direct specific action. Notwithstanding the foregoing, such final decision need not be a separate formal document and a report submitted to the City Clerk pursuant to sub-paragraph b(6) or b(14) hereof together with a letter from the City Clerk concurring with the recommended findings of fact and recommended disposition shall constitute a final decision. In reaching such final decision, the City Clerk may review the petition and answer and memoranda of law of the parties, if any, and any record of the hearing. The City Clerk shall not be bound by the ALJ's recommendation.

(b) A copy of such final decision shall be mailed by the City Clerk to the applicant and his or her attorney or representative, if any, and the spouse of record, if any.

(c) Any of the aggrieved parties have the right to judicial review in accordance with the provisions of Article 78 of the Civil Practice Law and Rules.

Section 3-04(b) of Title 51 of the Rules of the City of New York is amended to read as follows:

Where the personal presence of "both parents" at the wedding ceremony is required by § 11-[b] a (c) of the Domestic Relations Law, the Office of the City Clerk shall deem the requirement met when the party or parties whose consent was required for the issuance of the license is/are personally present at the wedding ceremony. All such parties must have proper identification with them showing their signature. In addition, custodial parents must present a divorce decree or death certificate; guardians must present guardianship papers.

Section 3-05(a)(2) of Title 51 of the Rules of the City of New York is amended to read as follows:

(2) to individuals presenting written authorization from one of the parties to the marriage (the authorization [does not have to be] must be notarized);

Section 3-05(c) of Title 51 of the Rules of the City of New York is amended to read as follows:

(c) If a person requires information regarding a current [spouse's] or prospective spouse's [prior] marital history, the Office of the City Clerk will, upon the payment of the appropriate search fee, the furnishing of an approximate marriage date, and sufficient information to search under at least one party's name, confirm only the fact of a prior marriage or a subsequent fraudulent acquisition of a marriage certificate with a party other than the inquiring spouse subsequent to their marriage by a "yes" or "no" answer. Under no circumstances will a copy of the record be provided. Nothing in this rule shall be construed to permit a divorced person to obtain the information described in this sub-paragraph with respect to his or her former spouse.

Section 3-06 (a)(2) of Title 51 of the Rules of the City of New York is amended to read as follows:

(2) In cases where the denomination does not have such a directory, the registrant must show several pieces of documentary proof of authority. First, the registrant must present an ordination certificate accompanied, if necessary, by an English translation thereof. [Ordination certificates issued by the Universal Life Church or its affiliates are not acceptable as evidence of clerical authority (based on Ranieri v. Ranieri, New York Law Journal, March 27, 1989, Ravenal v. Ravenal, 72 Misc. 2d 100 (Sup. Ct., NY Co., 1972))]. In lieu of an ordination certificate, the registrant must present a "license to minister" or a letter of appointment from his or her religious body, i.e., from its hierarch or its board of trustees. Second, the registrant must present a letter from his or her local congregation verifying that he or she is the pastor or associate pastor of that congregation, and that the congregation therefore consents to the registering of that individual. Lastly, if the church is incorporated, the registrant must present a copy of the articles or incorporation. If the church is not incorporated, the registrant must submit a statement as to the location of the house of worship, the reason for its founding, the number of trustees, the approximate size of its congregation, and how often it meets.

Section 3-06 of Title 51 of the Rules of the City of New York is amended by adding a new subparagraph (d) to read as follows:

(d) In the case of chaplains of the armed forces of the United States, registrants must present active military identification that indicates their occupation.

Section 4-03 of Title 51 of the Rules of the City of New York is amended to read as follows:

§ 4-03 Identification to Register.

1. *Acceptable forms of identification.* At the time of submitting an application to register a domestic partnership, each party must present identification. Identification documents acceptable for registration purposes are:

(a) valid drivers license, learner's permit or identification card issued by the department of motor vehicles of a state or territory of the United States;

(b) original birth certificate;

2. *Production of witnesses or notarized affidavits to establish identity for persons who do not possess forms of identification pursuant to paragraph 1 above.* If in the opinion of the issuing clerk there appears to be some question as to the identity of one or both of the parties to the prospective domestic partnership, the City Clerk may compel the production of witnesses, certified official records or notarized affidavits to establish the identity of the parties.

3. *Request for review of City Clerk's preliminary denial of domestic partnership*

(a) Applicants who have been preliminarily denied a domestic partnership by the City Clerk may request a review of such determination by paying a $25 fee and filing a request for a review on such form as may be provided by the City Clerk no later than 30 days after such preliminary denial. The City Clerk may waive this fee upon a showing of financial hardship.

A copy of the petition shall be mailed contemporaneously to the applicant via certified mail return receipt requested.

(c) *Notice to domestic partner or spouse of record.* Where the domestic partnership registration was denied because of the existence in the records of the City Clerk of a prior non-terminated domestic partnership registration or marriage, the City Clerk shall exert its best efforts to notify the domestic partner or spouse of record of the impending action. The domestic partner or spouse of record shall be given twenty-one days to respond to such notification. In such response, the domestic partner or spouse of record may request an opportunity to be heard on the issue, either in writing or at the hearing, if OATH decides a hearing is warranted. (f) *The reviewing officer.* An ALJ employed by OATH shall review the petition and the answer no later than fifteen days after the date of receipt of both the petition and the answer as well as any documentation presented by the domestic partner or spouse of record, if any. (iii) Any of the aggrieved parties have the right to judicial review in accordance with the provisions of Article 78 of the Civil Practice Law and Rules.

Section 4-05 of Title 51 of the Rules of the City of New York is amended to read as follows:

§ 4-05 Release of Domestic Partners Registration Records. Domestic Partner Registration information and documents shall not be subject to public inspection or disclosure. In the ordinary course of business, domestic partner records only shall be released to either of the parties to the registration in person, after proper identification has been submitted to the City Clerk staff. No requests shall be accepted through the mail or over the telephone. Further, domestic partnership information released pursuant to written authorization from one of the parties to the domestic partnership, shall only be released if such written authorization is notarized.

Section 4-07 of Title 51 of the Rules of the City of New York is amended by adding a new subparagraph (d) to read as follows:

(d) The termination statement must be filed in person except that in circumstances where in- person filing is

impossible or such filing would create a hardship, the City Clerk may permit such filing by certified mail.

Statement of Basis and Purpose: The Proposed Amendment to the Rules would provide applicants who are denied a marriage license or registration as a domestic partnership an administrative redress. Specifically, it allows the aggrieved party to challenge within thirty days and upon payment of a nominal fee any denial of a marriage license or domestic partner registration by the City Clerk. Currently persons who at the time of application have a marriage or domestic partnership listed on the records of the City Clerk and cannot prove the dissolution of such marriage or domestic partnership are denied a marriage license or domestic partnership registration, respectively, by the Office of the City Clerk pursuant to law. (This has no effect on a domestic partner seeking a marriage license since by law marriage automatically terminates the domestic partnership.) The aggrieved party's sole recourse is to bring an Article 78 proceeding. For low-income and indigent persons who cannot afford the costs of retaining an attorney, the unintended consequence of this policy is to effectively deny such applicant the right to marry or register a domestic partnership. The effect can be especially onerous given the alarming increase in identity theft. The Proposed Amendment to the Rules would offer an affordable alternative to challenge a City Clerk refusal without interfering with the current legal recourse. It would also require the spouse or domestic partner of record to be notified of the proceeding. The other changes are necessary to update the Rules of the City of New York. The provision in the current Rules of the City of New York with respect to spouses or prospective spouses obtaining information with respect to their spouse or prospective spouse is inadequate. In many instances spouses want to know if their present spouse has fraudulently obtained a marriage certificate with a party other than the inquiring spouse subsequent to their marriage and the current law does not permit the Office of the City Clerk to disclose such information. The Proposed Amendment to the Rules is meant to remove that restriction. Due to case law persons ordained by the Universal Life Church are not permitted to officiate marriage ceremonies under the current Rules of the City of New York. Currently persons who are ordained by many other internet-based religious organizations are allowed to register while persons who are ordained by Universal Life Church are not. There is no logical basis for this distinction and the Proposed Amendment to the Rules would fix this disparity. In addition, there is no provision in the Rules of the City of New York to permit chaplains to register and the Proposed Amendment to the Rules would provide such a mechanism. The Proposed Amendment to the Rules also corrects a citation error in Section 3-04(b) of Title 51 of the Rules of the City of New York. Finally notarization of third-party consents would safeguard the process and consequently enhance the integrity of the marriage database which, by law, is confidential. The Office of the City Clerk wishes to ensure that the party writing the consent is indeed an authorized party and consequently avoid fraud. The City Clerk of the City of New York has re-evaluated the proposed fee based on a current cost analysis and has determined that the fee is warranted.

www.nyc.gov/fdny

The Fire Department proposes to amend its schedule of charges for ambulance transport service provided by the Fire Department's Emergency Medical Service through the New York City 911 System, as set forth in Appendix A to Title 3 of the Rules of the City of New York (following Chapter 43 thereof), as follows:

[Advanced Life Support Ambulance	$ 535.00]
Advanced Life Support Ambulance Service – Level 1 (ALS1)	$ 600.00
Advanced Life Support Ambulance Service – Level 2 (ALS2)	$ 700.00
Additional Charges:	
– Mileage (distance traveled to hospital)	$[6.00] 7.00/mile
– Provision of Oxygen (as applicable)	$ 50.00

JUSTIFICATION FOR PROPOSED RATEMAKING:

The Fire Department is proposing to increase the amounts it charges patients and insurers for Emergency Medical Service (EMS) ambulance transport service provided through the New York City 911 System, to reflect increased costs and help defray the City's cost of providing these services.

The charges for ambulance transport service were last increased in November 2002. The rates adopted at that time and currently in effect areThe Department currently charges $420 for an ambulance response (including treatment and transport) by a Basic Life Support (BLS) ambulance staffed by two Fire Department Emergency Medical Technicians, and; $535 for an ambulance response (including treatment and transport) by an Advanced Life Support (ALS) ambulance staffed by two Fire Department Paramedics.

The Department currently charges; $6.00/per mile for hospital transports;in mileage charges and $50.00 for provision of oxygen.
The Department proposes to increase the rates to continue to bring them more in line with the cost of providing these services. The proposed schedule of charges continues the existing single rate for BLS service, but proposes separate rates for the two levels of ALS service established by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services for Medicare reimbursementThe charges for ambulance service were last increased in November of 2002. Included in this proposal are the separation of fees for ALS1 and ALS2 level of service. This will bring FDNY in line with the Medicare, wh service level definitions which have become the nationally -accepted standards for ambulance .service levels.

The Department proposes to adjust the ambulance service charges to more closely reflect the cost of providing these services. The fully allocated costs of providing Basic Life Support (BLS) & Advanced Life Support (ALS) ambulance transports are $498 and $705 respectively.

The proposed schedule of charges represents a single rate for BLS service, and separate rates for ALS1 & ALS2 levels of service. The AALS1 service comprises all regular ALS ambulance treatment and transport. The ALS2 level of level of sservice is limited to treatment and transport requiring certain includes transport and more aadvanced dvanced treatment by Paramedics wcare, as set forth in Medicare regulations, including manual defibrillation, endotracheal intubation, the insertion of a central venous line, and the intravenous administration of certain ho perform specific forms of treatment and/or administer certain levels of drugsmedications, such as morphine, diazepam, lidocaine and lasix.
The proposed schedule of charges reflects a 13% increase above the current BLS rate. With respect to the proposed ALS rates, more than 90% of ALS transports involve the provision of ALS1 care, and accordingly the estimated average bill for all ALS transports (ALS1 and ALS2 combined) under the proposed ALS rates would . The definition of ALS1 and ALS2 are determined by the Federal Department of Health and Human Services' Centers for Medicare and Medicaid Services. be $605, also an increase of 13% above the current ALS rate.

The proposed 13% increase in BLS and ALS rates is necessitated by increased costs. The most significant cost increases during the relevant time period were the collective bargaining increases for the Fire Department EMS personnel who staff the ambulances, and the very substantial capital investment made by the Fire Department in new communications equipment. The balance of the proposed increase is accounted for by a general increase in non-personnel costs, based on the cost of living index.
