(a) The Union shall have the exclusive right to the checkoff and transmittal of dues on behalf of each employee in accordance with the Mayor's Executive Order No. 98, dated May 15, 1969, entitled "Regulations Relating to the Checkoff of Union Dues" and in accordance with the Mayor's Executive Order No. 107, dated December 29, 1986, entitled "Regulations Governing Procedures for Orderly Payroll Check-off of Union Dues and Agency Shop Fees."

(b) An employee may consent in writing to the authorization of the deduction of dues from the employee's wages and to the designation of the Union as the recipient thereof. Such consent, if given, shall be in a proper form acceptable to the City, which bears the signature of the employee.

Section 2.

The parties agree to an agency shop to the extent permitted by applicable law, as described in a supplemental agreement hereby incorporated by reference into this Agreement.

ARTICLE III - OVERTIME

Effective October 10, 2000, the following overtime provisions shall be applicable to employees covered by this Agreement.

Overtime performed by General Superintendents shall be compensated for in compensatory time off at the rate of time and one-half when such overtime is ordered by the Sanitation Commissioner or First Deputy Commissioner or is performed at a Sanitation emergency without prior approval and requests for compensation therefor, after being forwarded through channels together with recommendations, are approved by the First Deputy Commissioner or the First Deputy Commissioner's designee for such purposes.

No compensatory time shall be granted for work performed at the discretion of the employee either before or after a regular (i.e., paid) tour of duty.

Straight-time compensatory time shall be granted for any additional work performed, not at the employee's option, when alternate ranking officers are not available or cannot be utilized for assigned duties and such compensatory time is approved by the First Deputy Commissioner or his designee for such purposes.

Compensatory time is not authorized for routine administrative duties. Compensatory time is not earned for attendance at fraternal, religious and social functions sponsored by the Department. Employees should not be routinely called to conferences or meetings or be required to prepare routine reports, which result in compensatory time.

ARTICLE IV - COMPUTATION OF BENEFITS

Since the basic forty-hour week has not been changed

Since the basic forty-hour week has not been changed by this Agreement, any modification of standard charts and use of other tours shall not affect current standard practice for the computation of compensation for holidays, vacation days, and other relevant benefits, which shall remain on the basis of an eight-hour work day calculation.

ARTICLE V - SALARIES

Section 1.

A. During the term of this Agreement, the following basic annual salary rates shall prevail for employees:

	Effective April 10, 2003	Effective April 10, 2004	Effective October 10, 2005	Effective October 10, 2006
General Superintendent (Sanitation) (Level II) *Promoted before July 1, 2006*	$104,508	$109,733	$113,025	$116,585
General Superintendent (Sanitation) (Level III)	$117,175	$123,034	$126,725	$130,717

B.

		Effective July 1, 2006	Effective October 10, 2006
General Superintendent (Sanitation) (Level II) *Promoted on or after July 1, 2006*	Start	$101,455	$104,651
	After 1 year	$103,000	$106,245
	After 2 years	$104,236	$107,519
	After 3 years	$113,025	$116,585

C. (i) Effective April 10, 2003, Employees shall receive a rate increase of five percent (5%).

(ii) Effective April 10, 2004, Employees shall receive an additional rate increase of five percent (5%).

(iii) Effective October 10, 2005, Employees shall receive an additional rate increase of three percent (3%).

(iv) Effective October 10, 2006, Employees shall receive an additional rate increase of three and fifteen hundredths percent (3.15%).

D. The increases provided for in Section C., above, shall be calculated as follows:

(i) The increase in Section C. (i) shall be based upon the base rates (which shall include salary or incremental schedules) of the applicable titles in effect on April 9, 2003;

(ii) The rate increase in Section C. (ii) shall be based upon the base rate (which shall include salary or incremental schedules) of the applicable titles in effect on April 9, 2004;

(iii) The rate increase in Section C. (iii) shall be based upon the base rate (which shall include salary or incremental schedules) of the applicable titles in effect on October 9, 2005; and

(iv) The rate increase in Section C. (iv) shall be based upon the base rate (which shall include salary or incremental schedules) of the applicable titles in effect on October 9, 2006.

E. The general increases provided in Section C. shall be applied to the base rates and salary grades fixed for the applicable titles, except to the extent that the base rates and salary grades are modified by Section F., below.

F. Employees promoted to General Superintendent (Sanitation) (II) on or after July 1, 2006 shall be subject to the salary schedules set forth in Section 1. B., above.

Section 2.

(a) Paid Holidays – Effective April 10, 2003, each employee shall receive eleven (11) paid holidays annually. Such holidays will be established by Department Order.

(b) Night Shift Differential – Effective April 10, 2003, employees shall receive a differential of ten percent of their daily rate of pay for work performed on a night shift. For the purposes of this Section, a night shift shall be any shift in which four (4) or more hours of the shift fall after 3:00 P.M. or before 7:00 A.M., except that any work performed for which any additional compensation is provided shall be excluded from this provision.

Section 3. Longevity Adjustment

a. The following annual longevity adjustment shall continue to be paid to employees upon the completion of the specified number of years' service in the Sanitation Service of the Classified Service of the City:

Title
General Superintendent (Sanitation) (Level II)
General Superintendent (Sanitation) (Level III)
Effective: April 10, 2003

Years of Service Completed
After 5 years $1,496

b. The adjustment shall not be computed as salary for pension purposes until after completing 20 years of service.

c. In the event this provision is declared invalid under the law, the parties shall reopen negotiations to resolve the issue of the increased cost of changing the effective date of the pensionability of the above adjustments. Such negotiations will be commenced forthwith. If no agreement is reached, an impasse may be declared and subsequent mediation and the impasse proceeding, if any, shall in all respects be conducted on an expedited basis.

ARTICLE VI - HEALTH AND WELFARE BENEFITS

Section 1.

a. Security Benefit Fund The Employer agrees to provide the annual amount of $1,475 for each incumbent employee, or the pro-rata share thereof for each employee employed during the term of this Agreement for a period less than the full term of this Agreement, for the purpose of furnishing certain supplementary benefits for the period of employment of such employee by the Employer during the term of this Agreement, all as provided for in a supplemental Agreement to be approved as to form by the Corporation Counsel.

The payments as above indicated shall be remitted by the Employer to the *Organization of Staff Analysts* Welfare Fund subject to the said supplemental agreement to be entered into between the Employer and the Union for the benefit of each employee and further subject to periodic audit by the Comptroller of the City of New York.

b. Employees who have been separated from service and who were covered by the *Organization of Staff Analysts* Welfare Fund at the time of such separation pursuant to a separate agreement between the Employer and the Union shall continue to be so covered, subject to the provisions of Section 1(a) hereof on the same annual contributory basis as incumbent employees. Contributions shall be made only for such time as said individuals are eligible to be primary beneficiaries of the New York City Health Insurance Program and are entitled to benefits paid for by the Employer through such Program.

c. The Union agrees to provide welfare fund benefits to domestic partners of covered employees in the same manner as those benefits are provided to spouses of married covered employees.

Section 2. Health and Hospitalization Benefits

(a) The Employer shall provide a fully paid choice of health and hospitalization insurance plans for each employee, not to exceed 100% of the full cost of HIP-HMO on a category basis. There will be an annual reopening period during the term of this Agreement for active employees to exercise their choice among medical plans.

(b) Retirees shall have the option of changing their previous choice of Health plans. This option shall be:

(i) a one time choice;

(ii) exercised only after one year of retirement; and

(iii) can be exercised at any time without regard to contract periods.

The effective date of change to a new plan shall be the first day of the month three (3) months after the month in which the application has been received by the New York City Health Insurance Program.

Effective with the reopener period for Health Insurance subsequent to January 1, 2001 and every two years thereafter, retirees shall have the option of changing their previous choice of health plans. The option shall be exercised in accordance with procedures established by the Employer. The Union will assume the responsibility of informing retirees of this option.

(c) (i) Effective October 10, 2000 and thereafter, the Employer's cost for each employee and each retiree under age 65 shall be equalized at the community rated basic HIP/HMO plan payment rate as approved by the State Department of Insurance on a category basis of individual or family, e.g. the Blue Cross/GHI-CBP payment for family coverage shall be equal to the HIP/HMO payment for family coverage.

(ii) If a replacement plan is offered to employees and retirees under age 65 which exceeds the cost of the HIP/HMO equalization provided in Section 3(c)(i), the Employer shall not bear the additional costs.

(iii) The City shall continue to contribute on a City employee benefits program-wide basis the additional annual amount of $35 million to maintain the health insurance stabilization reserve fund which shall be used to continue equalization and protect the integrity of health insurance benefits.

(iv) Pursuant to paragraph 7 of MLC Health Benefits Agreement, notwithstanding the above, in each of the fiscal years 2001 and 2002, the City shall not make the annual $35 million contributions to the health insurance stabilization fund.

The health insurance stabilization reserve fund shall be used: to provide a sufficient reserve; to maintain to the extent possible the current level of health insurance benefits provided under the Blue Cross/GHI-CBP plan; and, if sufficient funds are available, to fund new benefits. The health insurance stabilization reserve fund shall be credited with the dividends or reduced by the losses attributable to the Blue Cross/GHI-CBP plan.

(d) In the event that there is a Citywide or program-wide health insurance package which exceeds the cost of the equalization and stabilization fund described above, the parties may negotiate reconfiguration of this package which in no event will provide for costs in excess of the total costs of this Agreement as set forth herein. However, it is understood that the USCA will not be treated any better or any worse than any other Union participating in the Citywide or Program-wide Health Program with regard to increased health insurance costs.

Section 3. Health Care Flexible Spending Account

a. A flexible health care spending account shall be established after July 1993 pursuant to Section 125 of the IRS Code. Those employees eligible for New York City health plan coverage as defined on page 41, section D of the 2001 New York City Health Summary Program Description shall be eligible to participate in the account. Participating employees shall contribute at least $260 per year up to a maximum of $5,000 per year. Said contribution minimum and maximum levels may be modified by the MLC Health Advisory Committee based on experience of the plan. Any unfunded balance may be deducted from final salary payments due an employee.

b. Expenses of the account shall include but not be limited to deductibles, co-insurance, co-payments, excess expenses beyond plan limits, physical exams and health related transportation costs for vision, dental, medical and prescription drug plans where the employee and dependents are covered. In no case will any of the above expenses include those non-deductible expenses defined as non-deductible in IRS Publication 502.

c. An administrative fee of $1 per week for the first year shall be charged for participation in the program. An employee's participation in the account is irrevocable during a plan year. At the close of the plan year any excess balance in an employee's account will not be refunded.

ARTICLE VII - TIME AND LEAVE, DEATH BENEFITS

Section 1. Sick Leave

Employees shall receive sick leave in accord with Chapter 551 of the Laws of 1962.

Section 2. Annual Leave

Effective April 10, 2003, each employee assigned to "General Superintendent (Sanitation) Level II and III" shall receive annual leave of twenty-seven (27) workdays.

Effective August 15, 2006, each employee assigned to "General Superintendent (Sanitation) Level II and III" shall receive annual leave of twenty-five (25) workdays.

Section 3. Death-in-the Family Leave

Employees shall be entitled to four (4) working days off with pay in the event of a death in the immediate family. The family shall be defined for this purpose as spouse; natural, foster, or stepparent; child, brother or sister; father-in-law or mother-in-law; grandchildren; or any relative residing in the household.

Section 4. Line-of-Duty Death Benefit

In the event an employee dies because of a line-of-duty injury received during the actual and proper performance of sanitation service and directly resulting from a characteristic hazard of such service, through no fault of his own, a payment of $25,000 shall be made from funds other than those of the Retirement System in addition to any other payment which will be made as a result of such death. Such payment shall be made to the beneficiary designated under the Retirement System or, if no beneficiary is so designated, to the estate of the deceased.

Section 5. Death Payment of Accrued Time

If an employee dies while employed by the Employer, his beneficiary designated under the Retirement System or, if no beneficiary is so designated, the deceased's estate shall receive payment in cash for the following as a death benefit:

(i) All unused accrued leave up to a maximum of 54 days' credit.

(ii) All unused accrued compensatory time earned subsequent to January 1, 1971 which is verifiable by official Department records up to a maximum of two hundred (200) hours.

ARTICLE VIII - PERSONNEL AND PAY PRACTICES

Section 1. Vacations

(a) Vacations shall be taken in accordance with the Department's vacation order promulgated each year.

(b) In the event that a General Superintendent Level II or

Level III is hospitalized due to illness or injury while on vacation, the Chief Medical Officer shall terminate that General Superintendent's vacation and place him/her on sick leave.

Section 2. Grievance Arbitration Hearings

Individual employee grievants shall be granted leave with pay for such time as is necessary to testify at arbitration hearings.

Leave with pay shall be granted to three (3) employees who are named grievants in a group arbitration proceeding, for such time as is necessary for them to testify at their group arbitration hearings.
Leave with pay for such time as is necessary to testify at their hearings shall be granted to employees who, after final adjudication of proceedings under Section 210 paragraph 2h of the Civil Service Law are determined not to have been in violation of Section 210.

Section 3. Interest

(a) Interest on wage increases shall accrue at the rate of three (3%) per annum from one hundred-twenty (120) days after execution of the applicable contract or one hundred-twenty (120) days after the effective date of the increase, whichever is later, to the date of actual payment.

(b) Interest on shift differentials shall accrue at the rate of three percent (3%) per annum from one hundred-twenty (120) days following their earning or one hundred-twenty (120) days after the execution of this Contract, whichever is later, to the date of actual payment.

(c) Interest accrued under (a) or (b) above shall be payable only if the amount due to an individual employee exceeds five dollars ($5.00).

Section 4. Return to Service – Laid Off Employees.

A laid off employee who is returned to service in the employee's former title or in a comparable title from a preferred list, shall receive the basic salary rate that would have been received by the employee had the employee never been laid off, up to a maximum of two (2) years of general salary increases.

Section 5. Lump Sum Payments for Leave Entitlement

Where an employee has an entitlement to accrued annual leave and/or compensatory time, and the City's fiscal condition requires employees who are terminated, laid off or who choose to retire in lieu of layoff be removed from the payroll on or before a specific date, or where an employee reaches the mandatory retirement age, the employer shall provide a monetary value of accumulated and unused annual leave and/or compensatory time allowances standing to this credit in a lump sum. Such payment shall be in accordance with the provisions of Executive Order 30, dated June 24, 1975.

Where an employee has an entitlement to terminal leave and the City's fiscal situation requires that employees who are terminated, laid off or retire be removed from the payroll on or before a specific date, or where an employee reaches the mandatory retirement age, the employer shall provide a monetary lump sum payment for terminal leave in accordance with the provisions of Executive Order 31, dated June 24, 1975.

Section 6. Terminal Leave, Commencement of

Effective April 10, 2003, except as otherwise provided in the lump sum/terminal leave provisions appended to this agreement, any employee applying for either ordinary or line -of-duty disability retirement, shall begin to receive all of his accrued time, including accrued vacation, compensatory time, terminal leave and any other accrued leave, as of the date he submits a disability retirement application.

Section 7. Performance Compensation

The City acknowledges that each of the uniformed forces performs an important service that reflects the diverse missions of the City's uniformed agencies. In order to reward service of an outstanding, exceptional nature, each of the uniformed agencies will establish a performance compensation program to recognize and reward such service, tailored to the unique missions of the individual uniformed agency.

The parties agree that additional compensation may be paid to employees performing outstanding, exemplary, difficult and/or unique assignments. The City will notify and discuss with each affected union of its intent to pay such additional compensation and the individuals to be compensated.

The criteria for the granting of performance-based compensation shall be based upon outstanding performance in the work assigned, and/or performance of unique and difficult work.

The performance-based compensation payments provided for in this section shall be one-time, non-recurring cash payments subject to applicable pension law. An employee can receive no more than one payment annually.

This provision shall not affect any existing productivity programs covered in any existing collective bargaining agreements. Nor shall this provision be construed to waive any obligation of the City to negotiate over future productivity programs as required by applicable law.

ARTICLE IX - PRODUCTIVITY AND PERFORMANCE

Introduction

Delivery of municipal services in the most efficient, effective and courteous manner is of paramount importance to the Employer and the Union. Such achievement is recognized to be a mutual obligation of both parties within their respective roles and responsibilities. To achieve and maintain a high level of effectiveness, the parties hereby agree to the following terms:

Section 1. Performance Levels

(a) The Union recognizes the Employer's right under the New York City Collective Bargaining Law to establish and/or revise performance standards or norms notwithstanding the existence of prior performance levels, norms or standards. Such standards, developed by usual work measurement procedures, may be used to determine acceptable performance levels, to prepare work schedules and to measure the performance of each Employee or group of Employees. Notwithstanding the above, questions concerning the practical impact that decisions on the above matters have on Employees are within the scope of collective bargaining. The Employer will give the Union prior notice of the establishment and/or revision of performance standards or norms hereunder.

(b) Employees who work at less than acceptable levels of performance may be subject to disciplinary measures in accordance with applicable law.

Section 2. Supervisory Responsibility

(a) The Union recognizes the Employer's right under the New York City Collective Bargaining Law to establish and/or revise standards for supervisory responsibility in achieving and maintaining performance levels of supervised employees for Employees in supervisory positions listed in Article I, Section 1 of this Agreement. Notwithstanding the above, questions concerning the practical impact that decisions on the above matters have on Employees are within the scope of collective bargaining. The Employer will give the Union prior notice of the establishment and/or revision of standards for supervisory responsibility hereunder.

(b) Employees who fail to meet such standards may be subject to disciplinary measures in accordance with applicable law.

ARTICLE X - LABOR-MANAGEMENT COMMITTEE

Section 1.

The Employer and the Union, having recognized that cooperation between management and employees is indispensable to the accomplishment of sound and harmonious labor relations, shall jointly maintain and support a labor-management committee.

Section 2.

The labor-management committee shall consider and recommend to the agency head changes in working conditions of the employees within the agency who are covered by this Agreement. Matters subject to the Grievance Procedure shall not be appropriate items for consideration by the labor-management committee.

Section 3.

The labor-management committee shall consist of six members who shall serve for the term of this Agreement. The Union shall designate three members and the agency head shall designate three members. Vacancies shall be filled by the appointing party for the balance of the term to be served. Each member may designate one alternate. The Committee shall select a chairman from among its members at each meeting. The chairmanship of the committee shall alternate between the members designated by the agency head and the members designated by the Union. The committee shall make its recommendations to the agency head in writing.

Section 4.

The labor-management committee shall meet at the call of either the Union or the Employer members at times mutually agreeable to both parties. At least one week in advance of a meeting the party calling the meeting shall provide to the other party, a written agenda of matters to be discussed. Minutes shall be kept and copies supplied to all members of a committee.

ARTICLE XI – GRIEVANCE PROCEDURE

Section 1. Definition

The term "grievance" shall mean:

(a) A dispute concerning the application or interpretation of the terms of this collective bargaining agreement;

(b) A claimed violation, misinterpretation or misapplication of the rules or regulations, written policy or orders of the Employer applicable to the agency which employs the grievant affecting terms and conditions of employment; provided disputes involving the Personnel Rules and Regulations of the City of New York shall not be subject to the grievance procedure or arbitration; and

(c) A claimed assignment of employees to duties substantially different from those stated in their job specifications.

Section 2.

The Grievance Procedure shall be as follows:

Employees may at any time informally discuss with their supervisors a matter which may become a grievance. If the results of such a discussion are unsatisfactory, the employee may present the grievance at Step 1.

All grievances must be presented in writing at all steps in the grievance procedure. For all grievances as defined in Section 1. (c), no monetary award shall in any event cover any period prior to the date of the filing of the Step 1 grievance unless such grievance has been filed within thirty (30) days of the assignment to alleged out-of-title work.

No monetary award for a grievance alleging a miscalculation of salary rate resulting in a payroll error of a continuing nature shall be issued unless such grievance has been filed with the time limitation set forth in Step 1 below for such grievances; if the grievance is so filed, any monetary award shall in any event cover only the period up to six years prior to the date of the filing of the grievance.

Step 1. The employee and/or the Union shall present the grievance in the form of a memorandum to the person designated for such purpose by the agency head no later than 90 days after the date on which the grievance arose except that grievances alleging a miscalculation of salary rate resulting in a payroll error of a continuing nature shall be presented no later than 90 days after the first date on which the grievant discovered the payroll error. The employee may also request an appointment to discuss the grievance and such request shall be granted. The person designated by the Employer to hear the grievance shall take any steps necessary to a proper disposition of the grievance and shall issue a determination in writing by the end of the third work day following the date of submission.

Step 2. An appeal from an unsatisfactory determination at Step 1 shall be presented in writing to the person designated by the agency head for such purpose. The appeal must be made within five (5) working days of the receipt of the Step 1 determination. A copy of the grievance appeal shall be sent to the person who initially passed upon the grievance. The person designated to receive the appeal at this Step shall meet with the employee and/or the Union for review of the grievance and shall issue a determination in writing to the employee and/or the Union by the end of the tenth work day following the date on which the appeal was filed.

Step 3. An appeal from an unsatisfactory determination at Step 2 shall be presented in writing to the agency head or his designated representative. The appeal must be made within five (5) working days of the receipt of the Step 2 determination. The agency head or his designated representative, if any, shall meet with the employee and/or the Union for review of the grievance and shall issue a determination in writing by the end of the tenth work day following date on which the appeal is received.

Step 4. An appeal from an unsatisfactory determination at Step 3 shall be presented by the employee and/or the Union to the Commissioner of Labor Relations, in writing, within ten (10) working days of the receipt of the Step 3 determination. Copies of such appeal shall be sent to the agency. The Commissioner of Labor Relations or his designee shall review all appeals from Step 3 determinations and shall answer such appeals within ten (10) working days following the date on which the appeal was filed.

Step 5. An appeal from an unsatisfactory determination at Step 4 may be brought solely by the Union to the Office of Collective Bargaining for impartial arbitration within fifteen (15) working days of receipt of the Step 4 determination. In addition, the Employer shall have the right to bring directly to arbitration any dispute between the parties concerning any matter defined herein as a "grievance." The Employer shall commence such arbitration by submitting a written request therefore to the Office of Collective Bargaining. A copy of the notice requesting impartial arbitration shall be forwarded to the opposing party. The arbitration shall be conducted in accord with Title 61 of the Rules of the City of New York. The costs and fees of such arbitration shall be borne equally by the Union and the Employer. The determination or award of the arbitrator shall be final and binding in accord with applicable law and shall not add to, subtract from or modify any contract, rule, regulation, written policy or order mentioned in Subsection (a) of this Section.

(c) As a condition to the right of the Union to invoke impartial arbitration set forth in this Section, the employee or employees and the Union shall be required to file with the Director of the Office of Collective Bargaining a written waiver of the right, if any, of the employee or employees and the Union to submit the underlying dispute to any other administrative or judicial tribunal except for the purpose of enforcing the arbitrator's award.

(d) Any grievance of a general nature affecting a large group of employees and which concerns the claimed misinterpretation, inequitable application, violation or failure to comply with the provisions of this agreement shall be filed at the option of the Union at Step 3 of the Grievance Procedure, without resort to previous steps.

(e) If grievances covering the same issue are filed by two or more employees without the aid or assistance of the Union, the determination of the first two of such grievances shall be dispositive of the remainder of such grievance.

(f) If a determination satisfactory to the Union at any level of the Grievance Procedure is not implemented within a

reasonable time, the Union may re-institute the original grievance at Step 3 of the Grievance Procedure; or if a satisfactory Step 3 determination has not been so implemented, the Union may institute a grievance concerning such failure to implement at Step 4 of the Grievance Procedure.

(g) If the Employer exceeds any time limit prescribed at any step in the Grievance Procedure, the grievant and/or the Union may invoke the next step of the procedure, except, however, that only the Union may invoke impartial arbitration under Step 4.

(h) The Employer shall notify the Union in writing of all grievances filed by employees, all grievance hearings, and all determinations. The Union shall have the right to have a representative present at any grievance hearing and shall be given forty-eight (48) hours' notice of all grievance hearings.

(i) Each of the steps in the Grievance Procedure, as well as time limits prescribed at each step of this Grievance Procedure, may be waived by mutual agreement of the parties.

(j) All grievances as defined in Section 1 (c) shall be submitted only in writing. In no event shall any monetary award cover any period prior to the date of filing of the Step 1 grievance.

(k) The grievance and the arbitration procedure contained in this Agreement shall be the exclusive remedy for the resolution of disputes defined as "grievances" herein. This shall not be interpreted to preclude either party from enforcing the arbitrator's award in court. This Section shall not be construed in any manner to limit the statutory rights and obligations of the Employer under Article XIV of the Civil Service Law. The sole remedy for alleged violations of this Collective Bargaining Agreement shall be a grievance pursuant to Article XI of this Agreement.

(l) The availability of the grievance or arbitration procedure shall not justify a failure to follow orders.

ARTICLE XII - NO STRIKES

In accord with the New York City Collective Bargaining Law, as amended, neither the Union nor any employee shall induce or engage in any strikes, slowdowns, work stoppages, or mass absenteeism, or induce any mass resignations during the term of this Agreement.

ARTICLE XIII - UNION ACTIVITY

Time spent by employee representatives to conduct labor relations with the City on union activities shall be governed by the terms of Mayor's Executive Order No. 75, as amended March 22, 1973, entitled "Time Spent on the Conduct of Labor Relations between the City and its Employees and on Union Activity." No employee shall otherwise engage in Union activities during the time he is assigned to his regular duties.

ARTICLE XIV - FINANCIAL EMERGENCY ACT

The provisions of this Agreement are subject to any applicable provisions of law, including the New York State Financial Emergency Act for the City of New York, as amended.

ARTICLE XV – APPENDICES

The Appendix or Appendices, if any, attached hereto and initialed by the undersigned shall be deemed a part of this Agreement as if fully set forth herein.

ARTICLE XVI - SAVINGS CLAUSE

Section 1.

In the event that any provisions of this Agreement are found to be invalid, such invalidity shall not impair the validity and enforceability of the remaining provisions thereof.

Section 2.

This Agreement expresses all agreements and understandings between the parties and no other agreement, understanding or practice shall be of any force or effect.

WHEREFORE, we have hereunto set our hands and seals this 6th day of September, 2006.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

CITY COUNCIL

PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN THAT the Council has scheduled the following public hearing s on the matters indicated below:

The Subcommittee on Zoning and Franchises will hold a public hearing on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 9:30 A.M. on Tuesday, September 19, 2006:

Res. No. 141
Resolution to amend the text of the New York City Zoning Resolution to create Industrial Employment Districts.

Whereas, Section 201 of the New York City Charter allows, *inter alia,* the Land Use Committee of the City Council to file an application for changes to the Zoning Resolution if two-thirds of the members of the Committee shall have voted to do so; and

Whereas, we are desirous of creating a new zoning district that is designed to protect existing and encourage new manufacturing uses in certain parts of the city; and

Whereas, an application for a change to the text of the Zoning Resolution made by the City Council Land Use Committee will be considered and reviewed in the manner set forth in Section 200 of the Charter and will undergo such environmental review as is required by law; now, therefore, be it RESOLVED that the Land Use Committee hereby approves the filing of an application to amend the Zoning Resolution of the City of New York in the manner set forth below:

Underlined matter is new, to be added
Matter in ~~Strikeout~~ is old, to be deleted
Matter within # # is defined in Section 12-10

* * * indicates where unchanged text appears in the Zoning Resolution

Article XII
Chapter 4
Special Industrial Employment District
124-00 GENERAL PURPOSES
The Special Industrial Employment District regulations established in this Chapter of the Resolution are designed to promote and protect public health, safety and general welfare, and contribute to a well-considered plan. These general goals include, among others, the following specific purposes:

(a) To provide sufficient space, in locations where nearby redevelopment has the potential to create obstacles to the viability and growth of existing industrial employment clusters, to meet the city's present and future needs with regard to manufacturing and industrial activities;
(b) To provide, to the maximum extent practicable, that space will be available for continued use as manufacturing or industrial space in those areas designated by city and/or state agencies as priority locations for such uses;
(c) To retain adequate wage- and job-producing industries in areas in close proximity to new commercial and residential development;
(d) To provide a reasonable level of certainty to property owners, developers and areas residents in regard to what uses are permitted;
(e) To help attract significant clusters of manufacturing, industrial, warehousing, wholesaling and distribution activities that will complement and enhance presently existing areas; and
(f) To promote the stability of the city's manufacturing and industrial sector and to maintain as diverse its economic base by promoting certain areas as especially appropriate for manufacturing and industrial purposes thus conserving the value of land and protecting the city's tax revenue.

124-01
DEFINITIONS
An Industrial Employment District ("IED") is a Special Purpose District designated by the letters IED in which special regulations as set forth in Article XII, Chapter 4 shall apply to all developments, enlargements, extensions, alterations and changes of use. The IED appears on zoning maps superimposed on other districts and its regulations supplement those of the districts on which they are superimposed.

Industrial Employment Districts are confined to #Manufacturing Districts#.

124-02
General Provisions
In harmony with the general purpose and intent of this Resolution and the general purposes of the Industrial Employment District and in accordance with the provisions of this Chapter, certain specified use, loading and accessory parking regulations of the districts on which the Industrial Employment District has been superimposed are rendered inapplicable and are superseded by the use, loading and accessory parking regulations as set forth in this Chapter.

In addition to meeting the use, bulk, loading and accessory parking regulations as set forth in this Chapter, each development, enlargement, extension, alteration or change of use shall conform to and comply with all of the applicable #Manufacturing District# regulations of this Resolution, including performance standards, except as otherwise specifically provided in this Chapter.

124-03
Special Use Regulations
In Industrial Employment Districts, all uses permitted by the underlying #Manufacturing District# as set forth in any other provision of this Resolution, shall be permitted, except as superseded, modified or supplemented by this Chapter.

All uses shall be permitted in the Industrial Employment Districts in accordance with applicable district use regulations and performance standards, subject to the following modifications:

Modifications to Use Group 4
In Use Group 4, the following uses are permitted only by Special Permit of the City Planning Commission:
Cemeteries
Outdoor tennis courts or ice skating rinks

Golf courses

Public parks, playgrounds or private parks

Modifications to Use Group 5
In Use Group 5, all uses are permitted only by Special Permit of the City Planning Commission.

Modifications to Use Groups 6 through 14

In Use Groups 6 through 14 the following uses are permitted only by Special Permit of the City Planning Commission:

Any retail use in Use Group 6A that occupies floor area

greater than 10,000 square feet

Any office use in Use Group 6B uses that occupies floor area greater than of 6,000 square feet

All Use Group 6C uses except frozen food lockers, jewelry or art metal craft shops, docks for ferries or water taxis, locksmiths, automobile supply stores and eating and drinking establishments that occupy less than 2,000 square feet

Motels, tourist cabins or boatels

All Use Group 8 uses except lumber stores

Wedding chapels, art studios

All Use Group 10A uses except television or radio studios, docks for ferries

All Use Group 12A uses

Commercial art galleries, bookstores and antique stores

All Use Group 13A uses

Banquet halls

Non-commercial clubs

Modification to Use Group 18

Sewage disposal plants

Dumps, marine transfer stations for garbage or slag piles

Electric power or steam generating plants

124-04

Off-street parking regulations

General Purposes

The following regulations on permitted and required accessory off-street parking are adopted in order to provide sufficient parking off-street for the increasing number of people driving to work, to relieve congestion on surrounding streets, to prevent all-day parking in residential areas and to promote better and more efficient access to and from manufacturing and industrial areas.

Except as otherwise provided in this Section, the regulations of this Chapter on permitted or required #accessory# off-street parking spaces apply to manufacturing, commercial or community facility uses, as set forth herein.

In an Industrial Employment District, no accessory group parking facility shall contain more than 150 off-street parking spaces. In an Industrial Employment District, the Board of Standards and Appeals may not permit accessory group parking facilities in excess of 150 spaces.

Section 74-97
Special Permits for uses not allowed as-of-right in Industrial Employment Districts

In Industrial Employment Districts, located within M1, M2, or M3 Districts, the City Planning Commission may permit those uses set forth in Article XII, Chapter 4, Section 124-03 provided the following findings are made:

(a) that such use will not adversely affect the stability of the surrounding area's manufacturing or industrial uses; and

(b) that adequate consideration has been given to the selection of a site in a district where such use is permitted as-of-right and that no such site has been deemed feasible; and

(c) that such use will not draw vehicular traffic into such district in a volume that would disrupt permitted uses within the district.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects of permitting such use.

The Subcommittee on Landmarks, Public Siting and Maritime Uses will hold a public hearing on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 11:00 A.M. on Tuesday, September 19, 2006:

Project Location

Brooklyn Piers 7-12 project is located within Community District 6 of Brooklyn.
The project site is a large swath of publicly controlled, partially utilized land on the waterfront of Brooklyn Community District 6. It encompasses approximately 120 acres of upland property, with approximately 1.1 miles of waterfront, and includes areas to be acquired by the City from the Port Authority as well as some City-owned upland parcels that are part of the Red Hook Peninsula Urban Renewal Area. The site is located across Buttermilk Channel, with the northern boundary of the project site at Atlantic Avenue, and the southern border at Wolcott Street.

Brief Project Description

The Brooklyn Piers 7-12 project proposes a set of actions relating to the acquisition by the City of New York (the City) of portions of Piers 7 through 12 and related waterfront and upland property in the Red Hook section of Brooklyn from the Port Authority of New York and New Jersey (Port Authority). The proposed project requires several actions which require discretionary approvals, including: Amendment to the City Zoning Map; Amendments to the City Map to map public streets as part of the site's program of improvements; Modification of the Red Hook Peninsula Urban Renewal Plan to reflect proposed changes; Disposition of acquired property; and Waterfront zoning certification and or authorization for public access and visual corridors.

A public scoping meeting will be held on October 12, 2006 at 6:00 P.M. at the Long Island College Hospital, 339 Hicks Street at Atlantic Avenue, Brooklyn, NY 11201. The period for submitting written comments will remain open until October 26, 2006. NOTICE OF ACQUISITION
INDEX NUMBER 14832/06

In the Matter of the Application of the CITY OF NEW YORK relative to acquiring title in fee simple absolute to certain real property where not heretofore acquired for the reconstruction of the
Metropolitan Avenue Bridge - Phase 1
located at the Northeast Corner of Metropolitan Avenue and Fresh Pond Road in the Borough of Queens, City and State of New York.

PLEASE TAKE NOTICE, that by order of the Supreme Court of the State of New York, County of Queens, IA Part 8 (Hon. Jaime A. Rios, J.S.C.), duly entered in the office of the Clerk of the County of Queens on August 28, 2006, the application of the City of New York to acquire certain real property, for the reconstruction of the Metropolitan Avenue Bridge-Phase 1, was granted and the City was thereby authorized to file an acquisition map with the Office of the City Register. Said map, showing the property acquired by the City, was filed with the City Register on August 30, 2006. Title to the real property vested in the City of New York on August 30, 2006.

PLEASE TAKE FURTHER NOTICE, that the City has acquired the following parcels of real property:

Damage Parcel	Block	Lot
1	2770	1

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to §§ 503 and 504 of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired in the above-referenced proceeding and having any claim or demand on account thereof is hereby required, on or before August 30, 2007 (which is one (1) calendar year from the title vesting date), to file a written claim with the Clerk of the Court of Queens County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007. Pursuant to EDPL § 504, the claim shall include:

A. the name and post office address of the condemnee;

B. reasonable identification by reference to the acquisition map, or otherwise, of the property affected by the acquisition, and the condemnee's interest therein;

C. a general statement of the nature and type of damages claimed, including a schedule of fixture items which comprise part or all of the damages claimed; and,

D. if represented by an attorney, the name, address and telephone number of the condemnee's attorney.

Pursuant to EDPL § 503(C), in the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.

PLEASE TAKE FURTHER NOTICE, that, pursuant to § 5-310 of the New York City Administrative Code, proof of title shall be submitted to the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007 on or before August 30, 2008 (which is two (2) calendar years from the title vesting date).

NOTICE OF APPLICATION TO CONDEMN
PURSUANT TO SECTION 402(B) (2)
OF THE EMINENT DOMAIN PROCEDURE LAW

PLEASE TAKE NOTICE that an application will be made by the CITY OF NEW YORK ("the City"), to the Supreme Court of the State of New York, County of New York, Room 130, 60 Centre Street, New York, New York, on October 6, 2006, at 9:30 o'clock in the forenoon of that day, for an order pursuant to Section 402(B)(2) of the Eminent Domain Procedure Law: (a) authorizing the City to file an acquisition map, in connection with Phase 1, Stage 2 of the No. 7 Subway Extension - Hudson Yards Rezoning and Development Program, in the Office of the Clerk of the County of New York or the Office of the Register, Borough of Manhattan; (b) directing that, upon the filing of the order and of such map, title to the real property sought to be acquired shall immediately vest in the City; (c) providing that the compensation which should justly be made be ascertained and determined by the aforesaid Supreme Court, without a jury and without referral to a referee or commissioner; and (d) granting the City such other and further relief as the Court may deem just and proper.

PLEASE TAKE FURTHER NOTICE that the real property in the Borough of Manhattan, City, County and State of New York sought to be acquired by the City is located generally between 33rd and 34th Streets, and between Tenth and Eleventh Avenues, and is more particularly described as follows:

ALL that certain plot, piece or parcel of land, with the buildings and improvements thereon erected, situate, lying and being in the Borough of Manhattan, City, County and State of New York, bounded and described as follows:

Beginning at a point on the southerly line of West 34th Street (100 feet wide), the said point being distant 188.33 feet easterly from the intersection of the easterly line of 11th Avenue (100 feet wide) with the southerly line of the said West 34th Street, as measured along the southerly line of the said West 34th Street;

1) Running thence, easterly and along the southerly line of the said West 34th Street, for 211.67 feet to a point on the dividing line between tax lots 54 and 53 in Manhattan tax block 705;

2) Thence, southerly, forming an interior angle of 90° 00' 00" with the previous course and along the said dividing line between tax lots 54 and 53 in Manhattan tax block 705, for 98.75 feet to an angle point;

3) Thence, easterly, forming an interior angle of 270° 00' 00" with the previous course and along the said dividing line between tax lots 54 and 53 in Manhattan tax block 705, for 50.00 feet to a point on the dividing line between tax lots 54 and 46 in Manhattan tax block 705;

4) Thence, southerly, forming an interior angle of 90° 00' 00" with the previous course and along the said dividing line between tax lots 54 and 46 in Manhattan tax block 705, for 98.75 feet to a point on the northerly line of West 33rd Street (60 feet wide);

5) Thence, westerly, forming an interior angle of 90° 00' 00" with the previous course and along the northerly line of the said West 33rd Street, for 311.67 feet to a point on a westerly line of tax lot 54 in Manhattan tax block 705 as said line is described in reel 2711 page 171;

6) Thence, northerly, forming an interior angle of 90° 00' 00" with the previous course and along the said westerly line of tax lot 54 in Manhattan tax block 705, for 98.75 feet to a point on the dividing line between tax lots 1 and 54 in Manhattan tax block 705;

7) Thence, easterly, forming an interior angle of 90° 00' 00" with the previous course and along the said dividing line between tax lots 1 and 54 in Manhattan tax block 705, for 50.00 feet to an angle point;

8) Thence, northerly, forming an interior angle of 270° 00' 00" with the previous course and along the said dividing line between tax lots 1 and 54 in Manhattan tax block 705, for 98.75 feet back to the point of beginning.

This parcel consists of tax lot 54 in Manhattan tax block 705 as shown on the "Tax Map" of the City of New York, Borough of Manhattan, as said "Tax Map" existed on July 18, 2006.

The following interests are excluded from the acquisition:

(a) All right, title and interest of the New York City Transit Authority in and to the following property, if and to the extent located within the property being acquired: (1) routes, tracks, tunnels, switches, sidings, extensions, connections, platforms, structures, or terminals; (2) wires, conduits, pipes, ducts, telephones, signal and other communication or service facilities; (3) columns, footings, bracings, foundations and other structural members; and (4) any other devices, equipment and facilities used in connection with the operation or maintenance of the subway system;

(b) Public and governmental utility facilities having a physical manifestation within the area being acquired; all recorded easements, licenses, and other agreements, if any, for such public and governmental utility facilities; and reasonable rights of access to such public and governmental utility facilities necessary for the maintenance, operation, repair, replacement or use of the same whether or not embodied in recorded instruments;

(c) So long as they stand, walls of buildings built on property not being acquired, which encroach on property within the acquisition lines as such lines are shown on the Acquisition Map, and any cornices, lintels and bollards.

PLEASE TAKE FURTHER NOTICE that a diagram or representation of the acquisition map, which shows the perimeters of the property to be acquired, is set forth below:

INFORMATION TECHNOLOGY AND TELECOMMUNICATIONS

■ NOTICE

Notice of Proceeding Concerning Cablevision Systems of New York City Corporation's Renewal of its Cable Television Franchises

On March 14, 2006, Cablevision Systems of New York City Corporation ("Cablevision") provided the New York City Department of Information Technology and Telecommunications ("DoITT") notice of its intent to seek renewal of its franchises to provide cable television service in the boroughs of Brooklyn and the Bronx. These franchises will expire on October 8, 2008. Pursuant to 16 NYCRR Section 891.2 and 47 U.S.C. Section 546, DoITT hereby provides the public an opportunity to comment on the renewal of these franchises. In their submissions, commenters are invited to:

(1) identify the future cable-related community needs and interests, taking into account the costs of meeting such needs and interests; and
(2) review Cablevision's performance during the current franchise term, which began on October 8, 1998.

DoITT will accept comments until August 1, 2007, subject to a possible future extension of such date if authorized by the New York State Public Service Commission. Comments and any questions should be addressed to:

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

CITY COUNCIL

■ PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN THAT the Council has scheduled the following public hearing s on the matters indicated below:

The Subcommittee on Zoning and Franchises will hold a public hearing on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 9:30 A.M. on Tuesday, September 19, 2006:

Res. No. 141
Resolution to amend the text of the New York City Zoning Resolution to create Industrial Employment Districts.

Whereas, Section 201 of the New York City Charter allows, *inter alia*, the Land Use Committee of the City Council to file an application for changes to the Zoning Resolution if two-thirds of the members of the Committee shall have voted to do so; and

Whereas, we are desirous of creating a new zoning district that is designed to protect existing and encourage new manufacturing uses in certain parts of the city; and

Whereas, an application for a change to the text of the Zoning Resolution made by the City Council Land Use Committee will be considered and reviewed in the manner set forth in Section 200 of the Charter and will undergo such environmental review as is required by law; now, therefore, be it RESOLVED that the Land Use Committee hereby approves the filing of an application to amend the Zoning Resolution of the City of New York in the manner set forth below:

Underlined matter is new, to be added
Matter in ~~Strikeout~~ is old, to be deleted
Matter within # # is defined in Section 12-10

* * * indicates where unchanged text appears in the Zoning Resolution

Article XII
Chapter 4
Special Industrial Employment District
124-00 GENERAL PURPOSES
The Special Industrial Employment District regulations established in this Chapter of the Resolution are designed to promote and protect public health, safety and general welfare, and contribute to a well-considered plan. These general goals include, among others, the following specific purposes:

(a) To provide sufficient space, in locations where nearby redevelopment has the potential to create obstacles to the viability and growth of existing industrial employment clusters, to meet the city's present and future needs with regard to manufacturing and industrial activities;
(b) To provide, to the maximum extent practicable, that space will be available for continued use as manufacturing or industrial space in those areas designated by city and/or state agencies as priority locations for such uses;
(c) To retain adequate wage- and job-producing industries in areas in close proximity to new commercial and residential development;
(d) To provide a reasonable level of certainty to property owners, developers and areas residents in regard to what uses are permitted;
(e) To help attract significant clusters of manufacturing, industrial, warehousing, wholesaling and distribution activities that will complement and enhance presently existing areas; and
(f) To promote the stability of the city's manufacturing and industrial sector and to maintain as diverse its economic base by promoting certain areas as especially appropriate for manufacturing and industrial purposes thus conserving the value of land and protecting the city's tax revenue.

124-01
DEFINITIONS
An Industrial Employment District ("IED") is a Special Purpose District designated by the letters IED in which special regulations as set forth in Article XII, Chapter 4 shall apply to all developments, enlargements, extensions, alterations and changes of use. The IED appears on zoning maps superimposed on other districts and its regulations supplement those of the districts on which they are superimposed.

Industrial Employment Districts are confined to #Manufacturing Districts#.

124-02
General Provisions
In harmony with the general purpose and intent of this Resolution and the general purposes of the Industrial Employment District and in accordance with the provisions of this Chapter, certain specified use, loading and accessory parking regulations of the districts on which the Industrial Employment District has been superimposed are rendered inapplicable and are superseded by the use, loading and accessory parking regulations as set forth in this Chapter.

In addition to meeting the use, bulk, loading and accessory parking regulations as set forth in this Chapter, each development, enlargement, extension, alteration or change of use shall conform to and comply with all of the applicable #Manufacturing District# regulations of this Resolution, including performance standards, except as otherwise specifically provided in this Chapter.

124-03
Special Use Regulations
In Industrial Employment Districts, all uses permitted by the underlying #Manufacturing District# as set forth in any other provision of this Resolution, shall be permitted, except as superseded, modified or supplemented by this Chapter.

All uses shall be permitted in the Industrial Employment Districts in accordance with applicable district use regulations and performance standards, subject to the following modifications:

Modifications to Use Group 4
In Use Group 4, the following uses are permitted only by Special Permit of the City Planning Commission:
Cemeteries
Outdoor tennis courts or ice skating rinks

Golf courses

Public parks, playgrounds or private parks

Modifications to Use Group 5
In Use Group 5, all uses are permitted only by Special Permit of the City Planning Commission.

Modifications to Use Groups 6 through 14

In Use Groups 6 through 14 the following uses are permitted only by Special Permit of the City Planning Commission:

Any retail use in Use Group 6A that occupies floor area greater than 10,000 square feet

Any office use in Use Group 6B uses that occupies floor area greater than of 6,000 square feet

All Use Group 6C uses except frozen food lockers, jewelry or art metal craft shops, docks for ferries or water taxis, locksmiths, automobile supply stores and eating and drinking establishments that occupy less than 2,000 square feet

Motels, tourist cabins or boatels

All Use Group 8 uses except lumber stores

Wedding chapels, art studios

All Use Group 10A uses except television or radio studios, docks for ferries

All Use Group 12A uses

Commercial art galleries, bookstores and antique stores

All Use Group 13A uses

Banquet halls

Non-commercial clubs

Modification to Use Group 18

Sewage disposal plants

Dumps, marine transfer stations for garbage or slag piles
Electric power or steam generating plants

124-04

Off-street parking regulations

General Purposes

The following regulations on permitted and required accessory off-street parking are adopted in order to provide sufficient parking off-street for the increasing number of people driving to work, to relieve congestion on surrounding streets, to prevent all-day parking in residential areas and to promote better and more efficient access to and from manufacturing and industrial areas.

Except as otherwise provided in this Section, the regulations of this Chapter on permitted or required #accessory# off-street parking spaces apply to manufacturing, commercial or community facility uses, as set forth herein.

In an Industrial Employment District, no accessory group parking facility shall contain more than 150 off-street parking spaces. In an Industrial Employment District, the Board of Standards and Appeals may not permit accessory group parking facilities in excess of 150 spaces.

* * *

Section 74-97
Special Permits for uses not allowed as-of-right in Industrial Employment Districts

In Industrial Employment Districts, located within M1, M2, or M3 Districts, the City Planning Commission may permit those uses set forth in Article XII, Chapter 4, Section 124-03 provided the following findings are made:

(a) that such use will not adversely affect the stability of the surrounding area's manufacturing or industrial uses; and
(b) that adequate consideration has been given to the selection of a site in a district where such use is permitted as-of-right and that no such site has been deemed feasible; and
(c) that such use will not draw vehicular traffic into such district in a volume that would disrupt permitted uses within the district.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects of permitting such use.

The Subcommittee on Landmarks, Public Siting and Maritime Uses will hold a public hearing on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 11:00 A.M. on Tuesday, September 19, 2006:

Project Location

Brooklyn Piers 7-12 project is located within Community District 6 of Brooklyn.
The project site is a large swath of publicly controlled, partially utilized land on the waterfront of Brooklyn Community District 6. It encompasses approximately 120 acres of upland property, with approximately 1.1 miles of waterfront, and includes areas to be acquired by the City from the Port Authority as well as some City-owned upland parcels that are part of the Red Hook Peninsula Urban Renewal Area. The site is located across Buttermilk Channel, with the northern boundary of the project site at Atlantic Avenue, and the southern border at Wolcott Street.

Brief Project Description

The Brooklyn Piers 7-12 project proposes a set of actions relating to the acquisition by the City of New York (the City) of portions of Piers 7 through 12 and related waterfront and upland property in the Red Hook section of Brooklyn from the Port Authority of New York and New Jersey (Port Authority). The proposed project requires several actions which require discretionary approvals, including: Amendment to the City Zoning Map; Amendments to the City Map to map public streets as part of the site's program of improvements; Modification of the Red Hook Peninsula Urban Renewal Plan to reflect proposed changes; Disposition of acquired property; and Waterfront zoning certification and or authorization for public access and visual corridors.

A public scoping meeting will be held on October 12, 2006 at 6:00 P.M. at the Long Island College Hospital, 339 Hicks Street at Atlantic Avenue, Brooklyn, NY 11201. The period for submitting written comments will remain open until October 26, 2006. INFORMATION TECHNOLOGY AND TELECOMMUNICATIONS

■ **NOTICE**

Notice of Proceeding Concerning Cablevision Systems of New York City Corporation's Renewal of its Cable Television Franchises

On March 14, 2006, Cablevision Systems of New York City Corporation ("Cablevision") provided the New York City Department of Information Technology and Telecommunications ("DoITT") notice of its intent to seek renewal of its franchises to provide cable television service in the boroughs of Brooklyn and the Bronx. These franchises will expire on October 8, 2008. Pursuant to 16 NYCRR Section 891.2 and 47 U.S.C. Section 546, DoITT hereby provides the public an opportunity to comment on the renewal of these franchises. In their submissions, commenters are invited to:

(1) identify the future cable-related community needs and interests, taking into account the costs of meeting such needs and interests; and
(2) review Cablevision's performance during the current franchise term, which began on October 8, 1998.

DoITT will accept comments until August 1, 2007, subject to a possible future extension of such date if authorized by the New York State Public Service Commission. Comments and any questions should be addressed to:

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

CITY COUNCIL

■ **PUBLIC HEARINGS**

NOTICE IS HEREBY GIVEN THAT the Council has scheduled the following public hearing s on the matters indicated below:

The Subcommittee on Zoning and Franchises will hold a public hearing on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 9:30 A.M. on Tuesday, September 19, 2006:

Res. No. 141
Resolution to amend the text of the New York City Zoning Resolution to create Industrial Employment Districts.

Whereas, Section 201 of the New York City Charter allows, *inter alia,* the Land Use Committee of the City Council to file an application for changes to the Zoning Resolution if two-thirds of the members of the Committee shall have voted to do so; and

Whereas, we are desirous of creating a new zoning district that is designed to protect existing and encourage new manufacturing uses in certain parts of the city; and

Whereas, an application for a change to the text of the Zoning Resolution made by the City Council Land Use Committee will be considered and reviewed in the manner set forth in Section 200 of the Charter and will undergo such

environmental review as is required by law; now, therefore, be it RESOLVED that the Land Use Committee hereby approves the filing of an application to amend the Zoning Resolution of the City of New York in the manner set forth below:

Underlined matter is new, to be added
Matter in ~~Strikeout~~ is old, to be deleted
Matter within # # is defined in Section 12-10

Article XII
Chapter 4
Special Industrial Employment District
124-00 GENERAL PURPOSES

The Special Industrial Employment District regulations established in this Chapter of the Resolution are designed to promote and protect public health, safety and general welfare, and contribute to a well-considered plan. These general goals include, among others, the following specific purposes:

(a) To provide sufficient space, in locations where nearby redevelopment has the potential to create obstacles to the viability and growth of existing industrial employment clusters, to meet the city's present and future needs with regard to manufacturing and industrial activities;
(b) To provide, to the maximum extent practicable, that space will be available for continued use as manufacturing or industrial space in those areas designated by city and/or state agencies as priority locations for such uses;
(c) To retain adequate wage- and job-producing industries in areas in close proximity to new commercial and residential development;
(d) To provide a reasonable level of certainty to property owners, developers and areas residents in regard to what uses are permitted;
(e) To help attract significant clusters of manufacturing, industrial, warehousing, wholesaling and distribution activities that will complement and enhance presently existing areas; and
(f) To promote the stability of the city's manufacturing and industrial sector and to maintain as diverse its economic base by promoting certain areas as especially appropriate for manufacturing and industrial purposes thus conserving the value of land and protecting the city's tax revenue.

124-01
DEFINITIONS

An Industrial Employment District ("IED") is a Special Purpose District designated by the letters IED in which special regulations as set forth in Article XII, Chapter 4 shall apply to all developments, enlargements, extensions, alterations and changes of use. The IED appears on zoning maps superimposed on other districts and its regulations supplement those of the districts on which they are superimposed.

Industrial Employment Districts are confined to #Manufacturing Districts#.

124-02
General Provisions

In harmony with the general purpose and intent of this Resolution and the general purposes of the Industrial Employment District and in accordance with the provisions of this Chapter, certain specified use, loading and accessory parking regulations of the districts on which the Industrial Employment District has been superimposed are rendered inapplicable and are superseded by the use, loading and accessory parking regulations as set forth in this Chapter.

In addition to meeting the use, bulk, loading and accessory parking regulations as set forth in this Chapter, each development, enlargement, extension, alteration or change of use shall conform to and comply with all of the applicable #Manufacturing District# regulations of this Resolution, including performance standards, except as otherwise specifically provided in this Chapter.

124-03
Special Use Regulations

In Industrial Employment Districts, all uses permitted by the underlying #Manufacturing District# as set forth in any other provision of this Resolution, shall be permitted, except as superseded, modified or supplemented by this Chapter.

All uses shall be permitted in the Industrial Employment Districts in accordance with applicable district use regulations and performance standards, subject to the following modifications:

Modifications to Use Group 4

In Use Group 4, the following uses are permitted only by Special Permit of the City Planning Commission:
Cemeteries
Outdoor tennis courts or ice skating rinks

Golf courses

Public parks, playgrounds or private parks

Modifications to Use Group 5

In Use Group 5, all uses are permitted only by Special Permit of the City Planning Commission.

Modifications to Use Groups 6 through 14

In Use Groups 6 through 14 the following uses are permitted only by Special Permit of the City Planning Commission:
Any retail use in Use Group 6A that occupies floor area greater than 10,000 square feet

Any office use in Use Group 6B uses that occupies floor area greater than of 6,000 square feet

All Use Group 6C uses except frozen food lockers, jewelry or art metal craft shops, docks for ferries or water taxis, locksmiths, automobile supply stores and eating and drinking establishments that occupy less than 2,000 square feet

Motels, tourist cabins or boatels

All Use Group 8 uses except lumber stores

Wedding chapels, art studios

All Use Group 10A uses except television or radio studios, docks for ferries

All Use Group 12A uses

Commercial art galleries, bookstores and antique stores

All Use Group 13A uses

Banquet halls

Non-commercial clubs

Modification to Use Group 18

Sewage disposal plants

Dumps, marine transfer stations for garbage or slag piles
Electric power or steam generating plants

124-04

Off-street parking regulations
General Purposes

The following regulations on permitted and required accessory off-street parking are adopted in order to provide sufficient parking off-street for the increasing number of people driving to work, to relieve congestion on surrounding streets, to prevent all-day parking in residential areas and to promote better and more efficient access to and from manufacturing and industrial areas.

Except as otherwise provided in this Section, the regulations of this Chapter on permitted or required #accessory# off-street parking spaces apply to manufacturing, commercial or community facility uses, as set forth herein.

In an Industrial Employment District, no accessory group parking facility shall contain more than 150 off-street parking spaces. In an Industrial Employment District, the Board of Standards and Appeals may not permit accessory group parking facilities in excess of 150 spaces.

* * *

Section 74-97
Special Permits for uses not allowed as-of-right in Industrial Employment Districts

In Industrial Employment Districts, located within M1, M2, or M3 Districts, the City Planning Commission may permit those uses set forth in Article XII, Chapter 4, Section 124-03 provided the following findings are made:

(a) that such use will not adversely affect the stability of the surrounding area's manufacturing or industrial uses; and
(b) that adequate consideration has been given to the selection of a site in a district where such use is permitted as-of-right and that no such site has been deemed feasible; and
(c) that such use will not draw vehicular traffic into such district in a volume that would disrupt permitted uses within the district.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects of permitting such use.

The Subcommittee on Landmarks, Public Siting and Maritime Uses will hold a public hearing on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 11:00 A.M. on Tuesday, September 19, 2006:

Project Location

Brooklyn Piers 7-12 project is located within Community District 6 of Brooklyn.

The project site is a large swath of publicly controlled, partially utilized land on the waterfront of Brooklyn Community District 6. It encompasses approximately 120 acres of upland property, with approximately 1.1 miles of waterfront, and includes areas to be acquired by the City from the Port Authority as well as some City-owned upland parcels that are part of the Red Hook Peninsula Urban Renewal Area. The site is located across Buttermilk Channel, with the northern boundary of the project site at Atlantic Avenue, and the southern border at Wolcott Street.

Brief Project Description

The Brooklyn Piers 7-12 project proposes a set of actions relating to the acquisition by the City of New York (the City) of portions of Piers 7 through 12 and related waterfront and upland property in the Red Hook section of Brooklyn from the Port Authority of New York and New Jersey (Port Authority). The proposed project requires several actions which require discretionary approvals, including: Amendment to the City Zoning Map; Amendments to the City Map to map public streets as part of the site's program of improvements; Modification of the Red Hook Peninsula Urban Renewal Plan to reflect proposed changes; Disposition of acquired property; and Waterfront zoning certification and or authorization for public access and visual corridors.

A public scoping meeting will be held on October 12, 2006 at 6:00 P.M. at the Long Island College Hospital, 339 Hicks Street at Atlantic Avenue, Brooklyn, NY 11201. The period for submitting written comments will remain open until October 26, 2006. NOTICE OF ACQUISITION
INDEX NUMBER 14832/06

In the Matter of the Application of the CITY OF NEW YORK relative to acquiring title in fee simple absolute to certain real property where not heretofore acquired for the reconstruction of the
Metropolitan Avenue Bridge - Phase 1
located at the Northeast Corner of Metropolitan Avenue and Fresh Pond Road in the Borough of Queens, City and State of New York.

PLEASE TAKE NOTICE, that by order of the Supreme Court of the State of New York, County of Queens, IA Part 8 (Hon. Jaime A. Rios, J.S.C.), duly entered in the office of the Clerk of the County of Queens on August 28, 2006, the application of the City of New York to acquire certain real property, for the reconstruction of the Metropolitan Avenue Bridge-Phase 1, was granted and the City was thereby authorized to file an acquisition map with the Office of the City Register. Said map, showing the property acquired by the City, was filed with the City Register on August 30, 2006. Title to the real property vested in the City of New York on August 30, 2006.

PLEASE TAKE FURTHER NOTICE, that the City has acquired the following parcels of real property:

Damage Parcel	Block	Lot
1	2770	1

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to §§503 and 504 of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired in the above-referenced proceeding and having any claim or demand on account thereof is hereby required, on or before August 30, 2007 (which is one (1) calendar year from the title vesting date), to file a written claim with the Clerk of the Court of Queens County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007. Pursuant to EDPL §504, the claim shall include:

A. the name and post office address of the condemnee;

B. reasonable identification by reference to the

acquisition map, or otherwise, of the property affected by the acquisition, and the condemnee's interest therein;

C. a general statement of the nature and type of damages claimed, including a schedule of fixture items which comprise part or all of the damages claimed; and,

D. if represented by an attorney, the name, address and telephone number of the condemnee's attorney.

Pursuant to EDPL § 503(C), in the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.

PLEASE TAKE FURTHER NOTICE, that, pursuant to §5-310 of the New York City Administrative Code, proof of title shall be submitted to the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007 on or before August 30, 2008 (which is two (2) calendar years from the title vesting date).

3) Thence, easterly, forming an interior angle of 270° 00' 00" with the previous course and along the said dividing line between tax lots 54 and 53 in Manhattan tax block 705, for 50.00 feet to a point on the dividing line between tax lots 54 and 46 in Manhattan tax block 705;

4) Thence, southerly, forming an interior angle of 90° 00' 00" with the previous course and along the said dividing line between tax lots 54 and 46 in Manhattan tax block 705, for 98.75 feet to a point on the northerly line of West 33rd Street (60 feet wide);

5) Thence, westerly, forming an interior angle of 90° 00' 00" with the previous course and along the northerly line of the said West 33rd Street, for 311.67 feet to a point on a westerly line of tax lot 54 in Manhattan tax block 705 as said line is described in reel 2711 page 171;

6) Thence, northerly, forming an interior angle of 90° 00' 00" with the previous course and along the said westerly line of tax lot 54 in Manhattan tax block 705, for 98.75 feet to a point on the dividing line between tax lots 1 and 54 in Manhattan tax block 705;

7) Thence, easterly, forming an interior angle of 90° 00' 00" with the previous course and along the said dividing line between tax lots 1 and 54 in Manhattan tax block 705, for 50.00 feet to an angle point;

8) Thence, northerly, forming an interior angle of 270° 00' 00" with the previous course and along the said dividing line between tax lots 1 and 54 in Manhattan tax block 705, for 98.75 feet back to the point of beginning.
This parcel consists of tax lot 54 in Manhattan tax block 705 as shown on the "Tax Map" of the City of New York, Borough of Manhattan, as said "Tax Map" existed on July 18, 2006.

The following interests are excluded from the acquisition:

(a) All right, title and interest of the New York City Transit Authority in and to the following property, if and to the extent located within the property being acquired: (1) routes, tracks, tunnels, switches, sidings, extensions, connections, platforms, structures, or terminals; (2) wires, conduits, pipes, ducts, telephones, signal and other communication or service facilities; (3) columns, footings, bracings, foundations and other structural members; and (4) any other devices, equipment and facilities used in connection with the operation or maintenance of the subway system;

(b) Public and governmental utility facilities having a physical manifestation within the area being acquired; all recorded easements, licenses, and other agreements, if any, for such public and governmental utility facilities; and reasonable rights of access to such public and governmental utility facilities necessary for the maintenance, operation, repair, replacement or use of the same whether or not embodied in recorded instruments;

(c) So long as they stand, walls of buildings built on property not being acquired, which encroach on property within the acquisition lines as such lines are shown on the Acquisition Map, and any cornices, lintels and bollards.

PLEASE TAKE FURTHER NOTICE that a diagram or representation of the acquisition map, which shows the perimeters of the property to be acquired, is set forth below:

INFORMATION TECHNOLOGY AND TELECOMMUNICATIONS

■ NOTICE

Notice of Proceeding Concerning Cablevision Systems of New York City Corporation's Renewal of its Cable Television Franchises

On March 14, 2006, Cablevision Systems of New York City Corporation ("Cablevision") provided the New York City Department of Information Technology and Telecommunications ("DoITT") notice of its intent to seek renewal of its franchises to provide cable television service in the boroughs of Brooklyn and the Bronx. These franchises will expire on October 8, 2008. Pursuant to 16 NYCRR Section 891.2 and 47 U.S.C. Section 546, DoITT hereby provides the public an opportunity to comment on the renewal of these franchises. In their submissions, commenters are invited to:

(1) identify the future cable-related community needs and interests, taking into account the costs of meeting such needs and interests; and
(2) review Cablevision's performance during the current franchise term, which began on October 8, 1998.

DoITT will accept comments until August 1, 2007, subject to a possible future extension of such date if authorized by the New York State Public Service Commission. Comments and any questions should be addressed to:

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

POLICE

■ NOTICE

NOTICE OF PUBLIC HEARING ON THE ONE POLICE PLAZA SECURITY PLAN DRAFT ENVIRONMENTAL IMPACT STATEMENT

The New York City Police Department (NYPD) will hold the second of two public hearings on the Draft Environmental Impact Statement (DEIS). **The public hearing will be held from 6:00 P.M. to 8:00 P.M. on October 4, 2006, in the 2nd floor auditorium at 125 Worth Street, New York, NY. Members of the public will need photo identification to gain entrance to the building.** Oral and written comments will be accepted at the public hearing. In addition, written comments on the DEIS are requested and should be sent to Inspector Anthony Tria, NYPD Capital Construction, 620 Circle Drive, Fort Totten, NY 11359 Phone: (718) 281-1254, Fax: (718) 281-1593 through the 20th calendar day (October 24, 2006) following the close of the public hearing.

The New York City Police Department (NYPD) has prepared a Draft Environmental Impact Statement (DEIS) for the security plan established following the events of September 11, 2001 in order to protect City, State, and Federal facilities in the "civic center" portion of lower Manhattan which were, and continue to be, considered potential targets. These security measures included the installation of attended security checkpoint booths, planters, bollards and hydraulically-operated delta barriers to restrict the access of unauthorized vehicles from the roadways situated adjacent to the civic facilities located near NYPD headquarters at One Police Plaza.

The DEIS contains a description and analysis of the action and its environmental setting; the environmental impacts of the action, including its short and long term effects, and typical associated environmental effects; identification of any significant adverse environmental effects; a discussion of alternatives to the action; the identification of any irreversible and irretrievable commitments of resources that would be involved in the action; and a description of any necessary mitigation measures proposed to minimize significant adverse environmental impacts.

The action results in no significant adverse impacts to land use, zoning, public policy, community facilities and services, socioeconomic conditions, visual resources and parking. The DEIS discloses that the action, however, does result in significant adverse impacts to urban design, neighborhood character, traffic, transit and pedestrian conditions, and air quality and noise related to traffic diversions.

The DEIS describes mitigation measures including installation of a landscaped esplanade along Park Row, the reconfiguration of Chatham Square, and the restoration of bus service along Park Row. Four alternatives to the action are examined, but found not to satisfy the goals and objectives of the action, which are to secure police headquarters and the "civic center" area of lower Manhattan. Traffic impacts at Robert F. Wagner, Sr. Place and Pearl Street, and traffic-related noise impacts to residential buildings and Columbus Park on Worth Street at intersections of Worth and Baxter Streets and Worth and Mulberry Streets cannot be fully mitigated.

This public hearing is being held in conformance with Article 8 of the Environmental Conservation Law, the State Environmental Quality Review Act, City Environmental Quality Review procedures, and Local Law No. 24 of 2005.

Copies of the DEIS may be reviewed at the New York City Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, NY 10038, Robert Kulikowski, Director, (212) 788-9956. The DEIS is also available online through a link from the homepage of the New York City Police Department at http://www.nyc.gov/html/nypd under the "Recent Press Releases/News" section of the website.

Project Location

Brooklyn Piers 7-12 project is located within Community District 6 of Brooklyn.
The project site is a large swath of publicly controlled, partially utilized land on the waterfront of Brooklyn Community District 6. It encompasses approximately 120 acres of upland property, with approximately 1.1 miles of waterfront, and includes areas to be acquired by the City from the Port Authority as well as some City-owned upland parcels that are part of the Red Hook Peninsula Urban Renewal Area. The site is located across Buttermilk Channel, with the northern boundary of the project site at Atlantic Avenue, and the southern border at Wolcott Street.

Brief Project Description

The Brooklyn Piers 7-12 project proposes a set of actions relating to the acquisition by the City of New York (the City) of portions of Piers 7 through 12 and related waterfront and upland property in the Red Hook section of Brooklyn from the Port Authority of New York and New Jersey (Port Authority). The proposed project requires several actions which require discretionary approvals, including: Amendment to the City Zoning Map; Amendments to the City Map to map public streets as part of the site's program of improvements; Modification of the Red Hook Peninsula Urban Renewal Plan to reflect proposed changes; Disposition of acquired property; and Waterfront zoning certification and or authorization for public access and visual corridors.

A public scoping meeting will be held on October 12, 2006 at 6:00 P.M. at the Long Island College Hospital, 339 Hicks Street at Atlantic Avenue, Brooklyn, NY 11201. The period for submitting written comments will remain open until October 26, 2006. ■ NOTICE

QUEENS COUNTY
IA PART 8
NOTICE OF ACQUISITION
INDEX NUMBER 14832/06

In the Matter of the Application of the CITY OF NEW YORK relative to acquiring title in fee simple absolute to certain real property where not heretofore acquired for the reconstruction of the
Metropolitan Avenue Bridge - Phase 1
located at the Northeast Corner of Metropolitan Avenue and Fresh Pond Road in the Borough of Queens, City and State of New York.

PLEASE TAKE NOTICE, that by order of the Supreme Court of the State of New York, County of Queens, IA Part 8 (Hon. Jaime A. Rios, J.S.C.), duly entered in the office of the Clerk of the County of Queens on August 28, 2006, the application of the City of New York to acquire certain real property, for the reconstruction of the Metropolitan Avenue Bridge-Phase 1, was granted and the City was thereby authorized to file an acquisition map with the Office of the City Register. Said map, showing the property acquired by the City, was filed with the City Register on August 30, 2006. Title to the real property vested in the City of New York on August 30, 2006.

PLEASE TAKE FURTHER NOTICE, that the City has acquired the following parcels of real property:

Damage Parcel	Block	Lot
1	2770	1

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to §§503 and 504 of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired in the above-referenced proceeding and having any claim or demand on account thereof is hereby required, on or before August 30, 2007 (which is one (1) calendar year from the title vesting date), to file a written claim with the Clerk of the Court of Queens County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007. Pursuant to EDPL §504, the claim shall include:

A. the name and post office address of the condemnee;

B. reasonable identification by reference to the acquisition map, or otherwise, of the property affected by the acquisition, and the condemnee's interest therein;

C. a general statement of the nature and type of damages claimed, including a schedule of fixture items which comprise part or all of the damages claimed; and,

D. if represented by an attorney, the name, address and telephone number of the condemnee's attorney.

Pursuant to EDPL § 503(C), in the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.

PLEASE TAKE FURTHER NOTICE, that, pursuant to §5-310 of the New York City Administrative Code, proof of title shall be submitted to the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007 on or before August 30, 2008 (which is two (2) calendar years from the title vesting date).

AGENCY RULES

OFFICE OF THE CITY CLERK

■ **NOTICE**

Notice of Adoption

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN the City Clerk of the City of New York by Section 48 of the New York City Charter and in accordance with the requirements of Section 1043 of the New York City Charter, that the City Clerk hereby amends Title 51 of the Rules of the City of New York. New material is indicated by underlining. Deleted material is indicated by [bracketing].

The public hearing was held on July 31, 2006. In accordance with Section 1043(e)(1) of the New York City Charter, this rule shall take effect on October 19, 2006.

This notice, the rule, and the statement of basis and purpose will be available for at least 90 days on the City Clerk's website at:www.nycmarriagebureau.com

Victor L. Robles
City Clerk
Clerk of the Council

Amendment to Rules

New material is indicated by underlining. Deleted material is indicated by [bracketing].

Section One. Section 3-03 of Title 51 of the Rules of the City of New York is amended to read as follows:

§ 3-03 Hearings Pursuant to Domestic Relations Law §15.

(a) *Production of witnesses or notarized affidavits to establish identity.* If in the opinion of the issuing clerk there appears to be some question as to the identity of one or both of the parties, the City Clerk, pursuant to the provisions of § 15 of the New York State Domestic Relations Law, may compel the production of witnesses, certified official records or notarized affidavits to establish the identity of the parties.

(b) *Request for review of City Clerk's preliminary denial of marriage license.*

(1) Applicants who have been preliminarily denied a marriage license by the City Clerk may request a review of such determination by paying a $25 fee and filing a request for a review on such form as may be provided by the City Clerk no later than 30 days after such preliminary denial. The City Clerk may waive this fee upon a showing of financial hardship.

(2) *Duty of the City Clerk.* Within fifteen days of receipt of a request for review the City Clerk shall forward to the Office of Administrative Trials and Hearings (OATH) such request for review, a written statement outlining the reason for the preliminary denial of the marriage license and the documentary evidence supporting the preliminary denial, all of which documentation with the exception of the request for review shall constitute the petition. A copy of the petition shall be mailed contemporaneously to the applicant via certified mail return receipt requested.

(3) *Notice to spouse of record.* Where the marriage license was denied because of the existence in the records of the City Clerk of a prior non-terminated marriage, the City Clerk shall exert its best efforts to notify the spouse of record of the impending action. The spouse of record shall be given twenty-one days from the date of mailing to respond to such notification. In such response, the spouse of record may request an opportunity to be heard on the issue, either in writing or at the hearing, if OATH decides a hearing is warranted. Upon request contained in such response, the City Clerk shall forward to the spouse of record all documentation exchanged among OATH, the City Clerk and the applicant.

(4) *Applicant's duty to respond.* Applicant shall, no later than thirty days after he or she receives the petition, submit in duplicate an answer to the City Clerk including therein any documentary evidence or other proof which may include notarized affidavits in support of his or her claim. Upon written request of the applicant stating the specific reason for such request, submitted no later than five days prior to the due date for such answer, the City Clerk may for good cause grant an extension of time for applicant to submit the same. Upon receipt of the answer the City Clerk shall forward a copy thereof to OATH. Applicant's failure to respond by the deadline set forth herein, including any extension granted by the City Clerk pursuant to this sub-paragraph, shall be deemed a withdrawal of the applicant's challenge to the City Clerk's preliminary decision and such preliminary decision shall thereafter be deemed final.

(5) *Designation of OATH.* Pursuant to Charter §1048, the City Clerk designates OATH to conduct on its behalf all the reviews and hearings referred to herein.

(6) *The reviewing officer.* An administrative law judge ("ALJ") employed by OATH shall review the petition and the answer no later than fifteen days after the date of receipt of both the petition and the answer as well as any documentation presented by the spouse of record, if any. If upon such review the ALJ shall conclude that such evidence is sufficient to form a conclusion then the ALJ shall prepare no later than thirty days after receipt of all of the documents referred to in the first sentence of this sub-section a report summarizing the evidence presented, an analysis of the legal and factual issues, recommended findings of fact and recommended disposition. Such report shall be sent to the City Clerk for a final determination of the facts and a final disposition. Alternatively, if the ALJ shall conclude that the evidence presented is insufficient to form a conclusion, the ALJ shall convene a hearing at a date to

be determined in such ALJ's sole discretion but no later than sixty days from the date of such initial review. Upon notification thereof by such ALJ, which notification may be electronic, the City Clerk, not later than five days after the date of such notification, shall notify the applicant as well as his or her attorney or other representative, if any, and the spouse of record, if any, of the date of the hearing by certified mail, return receipt requested. Such notification shall be post-marked no later than thirty days prior to the date of such hearing.

(7) *Use of expert witness.* It shall be the obligation of any party intending to present the testimony of expert witness or witnesses at the hearing to notify the ALJ and the opposing parties of such intention no later than fifteen days prior to the date of the hearing and to submit to both the ALJ and the opposing parties no later than seven days prior to the date of the hearing copies of any reports, filings or any other documentation produced by such expert witness or witnesses which such party intends to use at the hearing. The ALJ may grant an extension of time to the parties.

(8) *The hearing.* The ALJ shall preside over the hearing, make all procedural rulings, and make a statement on the record describing the nature of the proceedings, the issues, and the manner in which the hearing will be conducted. The ALJ shall have all the requisite powers conferred by law to administer oaths, issue subpoenas, require the attendance of witnesses and production of records, rule upon requests for adjournment, rule upon evidentiary matters and to otherwise regulate the hearing, observe the requirements of due process and effectuate the purposes and provisions of applicable law. All testimony shall be given under oath or affirmation administered by the ALJ. The City Clerk shall have the burden of demonstrating by a preponderance of the evidence that the applicant should not be granted a marriage license.

(9) The applicant and the spouse of record, if any, may be represented by an attorney or other representative of his or her choice.

(10) The applicant as well as the City Clerk and the spouse of record, if any, may have witnesses, may give testimony and may otherwise present relevant and material evidence on his or her behalf, may cross-examine witnesses and may examine any document or other item offered into evidence.

(11) A recorded copy of the record of the hearing shall be prepared by OATH; upon request a compact disc audio recording of the hearing, at no cost, or a transcript of the hearing, at a cost to be determined by OATH, may be provided.

(12) At the discretion of the ALJ, the hearing may be adjourned for good cause upon the request of any of the parties or upon the ALJ's own motion and with notice to the parties.

(13) The hearing shall be conducted in conformity with procedural requirements of applicable law and the rules of procedure adopted by OATH which are not inconsistent with these rules. In the event of any conflict of laws, the rules of this section shall be determinative and controlling.

(14) After the conclusion of the hearing, the ALJ shall prepare a report summarizing the evidence presented, an analysis of the legal and factual issues, recommended findings of fact and a recommended disposition. Such report shall be sent to the City Clerk for a final determination of the facts and a final disposition.

(15) *Final decision.* (a) The City Clerk's final decision shall be in writing and shall state reasons for the determinations and, when appropriate, direct specific action. Notwithstanding the foregoing, such final decision need not be a separate formal document and a report submitted to the City Clerk pursuant to sub-paragraph b(6) or b(14) hereof together with a letter from the City Clerk concurring with the recommended findings of fact and recommended disposition shall constitute a final decision. In reaching such final decision, the City Clerk may review the petition and answer and memoranda of law of the parties, if any, and any record of the hearing. The City Clerk shall not be bound by the ALJ's recommendation.

(b) A copy of such final decision shall be mailed by the City Clerk to the applicant and his or her attorney or representative, if any, and the spouse of record, if any.

(c) Any of the aggrieved parties have the right to judicial review in accordance with the provisions of Article 78 of the Civil Practice Law and Rules.

§ 2. Section 3-04(b) of Title 51 of the Rules of the City of New York is amended to read as follows:

Where the personal presence of "both parents" at the wedding ceremony is required by § 11-[b] a (c) of the Domestic Relations Law, the Office of the City Clerk shall deem the requirement met when the party or parties whose consent was required for the issuance of the license is/are personally present at the wedding ceremony. All such parties must have proper identification with them showing their signature. In addition, custodial parents must present a divorce decree or death certificate; guardians must present guardianship papers.

§ 3. Section 3-05(a)(2) of Title 51 of the Rules of the City of New York is amended to read as follows:

(2) to individuals presenting written authorization from one of the parties to the marriage (the authorization [does not have to be] must be notarized);

§ 4. Section 3-05(c) of Title 51 of the Rules of the City of New York is amended to read as follows:

(c) If a person requires information regarding a current [spouse's] or prospective spouse's [prior] marital history, the Office of the City Clerk will, upon the payment of the appropriate search fee, the furnishing of an approximate marriage date, and sufficient information to search under at least one party's name, confirm only the fact of a prior marriage or a subsequent fraudulent acquisition of a marriage certificate with a party other than the inquiring spouse subsequent to their marriage by a "yes" or "no" answer. Under no circumstances will a copy of the record be provided. Nothing in this rule shall be construed to permit a divorced person to obtain the information described in this sub-paragraph with respect to his or her former spouse.

§ 5. Section 3-06 (a)(2) of Title 51 of the Rules of the City of New York is amended to read as follows:

(2) In cases where the denomination does not have such a directory, the registrant must show several pieces of documentary proof of authority. First, the registrant must present an ordination certificate accompanied, if necessary, by an English translation thereof. [Ordination certificates issued by the Universal Life Church or its affiliates are not acceptable as evidence of clerical authority (based on Ranieri v. Ranieri, New York Law Journal, March 27, 1989, Ravenal v. Ravenal, 72 Misc. 2d 100 (Sup. Ct., NY Co., 1972))]. In lieu of an ordination certificate, the registrant must present a "license to minister" or a letter of appointment from his or her religious body, i.e., from its hierarch or its board of trustees. Second, the registrant must present a letter from his or her local congregation verifying that he or she is the pastor or associate pastor of that congregation, and that the congregation therefore consents to the registering of that individual. Lastly, if the church is incorporated, the registrant must present a copy of the articles or incorporation. If the church is not incorporated, the registrant must submit a statement as to the location of the house of worship, the reason for its founding, the number of trustees, the approximate size of its congregation, and how often it meets.

§ 6. Section 3-06 of Title 51 of the Rules of the City of New York is amended by adding a new subparagraph (d) to read as follows:

(d) In the case of chaplains of the armed forces of the United States, registrants must present active military identification that indicates their occupation.

§ 7. Section 4-03 of Title 51 of the Rules of the City of New York is amended to read as follows:

§ 4-03 Identification to Register.

1. *Acceptable forms of identification.* At the time of submitting an application to register a domestic partnership, each party must present identification. Identification documents acceptable for registration purposes are:

(a) valid drivers license, learner's permit or identification card issued by the department of motor vehicles of a state or territory of the United States;

(b) original birth certificate;

(c) valid passport;

(d) school records;

(e) immigration card; [and]

(f) employee identification card; and

(e) such form of identification deemed acceptable by the City Clerk.

All documents that are not written in English must be translated into English with an affidavit attesting to the accuracy of the translation.

2. *Production of witnesses or notarized affidavits to establish identity for persons who do not possess forms of identification pursuant to paragraph 1 above.* If in the opinion of the issuing clerk there appears to be some question as to the identity of one or both of the parties to the prospective domestic partnership, the City Clerk may compel the production of witnesses, certified official records or notarized affidavits to establish the identity of the parties.

3. *Request for review of City Clerk's preliminary denial of domestic partnership.*

a) Applicants who have been preliminarily denied a domestic partnership by the City Clerk may request a review of such determination by paying a $25 fee and filing a request for a review on such form as may be provided by the City Clerk no later than 30 days after such preliminary denial. The City Clerk may waive this fee upon a showing of financial hardship.

(b) *Duty of the City Clerk.* Within fifteen days of receipt of a request for review the City Clerk shall forward to the Office of Administrative Trials and Hearings (OATH) such request for review, a written statement outlining the reason for the preliminary denial of the domestic partnership and the documentary evidence supporting the preliminary denial all of which documentation with the exception of the request for review shall constitute the petition. A copy of the petition shall be mailed contemporaneously to the applicant via certified mail return receipt requested.

(c) *Notice to domestic partner or spouse of record.* Where the domestic partnership registration was denied because of the existence in the records of the City Clerk of a prior non-terminated domestic partnership registration or marriage, the City Clerk shall exert its best efforts to notify the domestic partner or spouse of record of the impending action. The domestic partner or spouse of record shall be given twenty-one days from the date of mailing to respond to such notification. In such response, the domestic partner or spouse of record may request an opportunity to be heard on the issue, either in writing or at the hearing, if OATH decides a hearing is warranted. Upon request contained in such response, the City Clerk shall forward to the domestic partner or spouse of record all documentation exchanged among OATH, the City Clerk and the applicant.

(d) *Applicant's duty to respond.* Applicant shall, no later than thirty days after he or she receives the petition, submit in duplicate an answer to the City Clerk including therein any documentary evidence or other proof which may include notarized affidavits in support of his or her claim. Upon written request of the applicant stating the specific reason for such request submitted no later than five days prior to the due date for such answer, the City Clerk may for good cause grant an extension of time for applicant to submit the same. Upon receipt of the answer the City Clerk shall forward a copy thereof to OATH. Applicant's failure to respond by the deadline set forth herein, including any extension granted by the City Clerk pursuant to this sub-paragraph, shall be deemed a withdrawal of the applicant's challenge to the City Clerk's preliminary decision and such preliminary decision shall thereafter be deemed final.

(e) *Designation of OATH.* Pursuant to Charter §1048, the City Clerk designates OATH to conduct on its behalf all the reviews and hearings referred to herein.

(f) *The reviewing officer.* An ALJ employed by OATH shall review the petition and the answer no later than fifteen days after the date of receipt of both the petition and the answer as well as any documentation presented by the domestic partner or spouse of record, if any. If upon such review the ALJ shall conclude that such evidence is sufficient to form a conclusion then the ALJ shall prepare no later than thirty days after receipt of all of the documents referred to in the first sentence of this sub-section a report summarizing the evidence presented, an analysis of the legal and factual issues, recommended findings of fact and recommended disposition. Such report shall be sent to the City Clerk for a final determination of the facts and a final disposition. Alternatively, if the ALJ shall conclude that the evidence presented is insufficient to form a conclusion, the ALJ shall convene a hearing at a date to be determined in such ALJ's sole discretion but no later than sixty days from the date of such initial review. Upon notification thereof by such ALJ, which notification may be electronic, the City Clerk, not later than five days after the date of such notification, shall notify the applicant as well as his or her attorney or other representative, if any, and the domestic partner or spouse of record, if any, of the date of the hearing by certified mail return receipt requested. Such notification shall be post-marked no later than thirty days prior to the date of such hearing.

(g) *Use of expert witness.* It shall be the obligation of any party intending to present the testimony of expert witness or witnesses at the hearing to notify the ALJ and the opposing parties of such intention no later than fifteen days prior to the date of the hearing and to submit to both the ALJ and the opposing parties no later than seven days prior to the date of the hearing copies of any reports, filings or any other documentation produced by such expert witness or witnesses which such party intends to use at the hearing. The ALJ may grant an extension of time to the parties.

(h) *The hearing.* The ALJ shall preside over the hearing, make all procedural rulings, and make a statement on the record describing the nature of the proceedings, the issues, and the manner in which the hearing will be conducted. The ALJ shall have all the requisite powers conferred by law to administer oaths, issue subpoenas, require the attendance of witnesses and production of records, rule upon requests for adjournment, rule upon evidentiary matters and to otherwise regulate the hearing, observe the requirements of due process and effectuate the purposes and provisions of applicable law. All testimony shall be given under oath or affirmation administered by the ALJ. The City Clerk shall have the burden of demonstrating by a preponderance of the evidence that the applicant should not be granted a domestic partnership.

i) The applicant and the domestic partner or spouse of record, if any, may be represented by an attorney or other representative of his or her choice.

(j) The applicant as well as the City Clerk and the domestic partner or spouse of record, if any, may have witnesses, may give testimony and may otherwise present relevant and material evidence on his or her behalf, may cross-examine witnesses and may examine any document or other item offered into evidence.

(k) A recorded copy of the record of the hearing shall be prepared by OATH; upon request a compact disc audio recording of the hearing, at no cost, or a transcript of the hearing, at a cost to be determined by OATH, may be provided.

(l) At the discretion of the ALJ, the hearing may be adjourned for good cause upon the request of any of the parties or upon the ALJ's own motion and with notice to the parties.

(m) The hearing shall be conducted in conformity with procedural requirements of applicable law and the rules of procedure adopted by OATH which are not inconsistent with these rules. In the event of any conflict of laws, the rules of this section shall be determinative and controlling

(n) After the conclusion of the hearing, the ALJ shall prepare a report summarizing the evidence presented, an analysis of the legal and factual issues, recommended findings of fact and a recommended disposition. Such report shall be sent to the City Clerk for a final determination of the facts and a final disposition.

(o) *Final decision.* (i) The City Clerk's final decision shall be in writing and shall state reasons for the determinations and, when appropriate, direct specific action. Notwithstanding the foregoing, such final decision need not be a separate formal document and a report submitted to the City Clerk pursuant to sub-paragraph 3(f) or 3(n) hereof together with a letter from the City Clerk concurring with the recommended findings of fact and recommended disposition shall constitute a final decision. In reaching such final decision, the City Clerk may review the petition and answer and memoranda of law of the parties, if any, and any record of the hearing. The City Clerk shall not be bound by the ALJ's recommendation.

(ii) A copy of such final decision shall be mailed by the City Clerk to the applicant and his or her attorney or representative, if any, and the domestic partner or spouse of record, if any.

(iii) Any of the aggrieved parties have the right to judicial review in accordance with the provisions of Article 78 of the Civil Practice Law and Rules.

§ 8. Section 4-05 of Title 51 of the Rules of the City of New York is amended to read as follows:

§ 4-05 Release of Domestic Partners Registration Records. Domestic Partner Registration information and documents shall not be subject to public inspection or disclosure. In the ordinary course of business, domestic partner records only shall be released to either of the parties to the registration in person, after proper identification has been submitted to the City Clerk staff. No requests shall be accepted through the mail or over the telephone. Further, domestic partnership information released pursuant to written authorization from one of the parties to the domestic partnership, shall only be released if such written authorization is notarized.

§ 9. Section 4-07 of Title 51 of the Rules of the City of New York is amended by adding a new subparagraph (d) to read as follows:

(d) The termination statement must be filed in person except that in circumstances where in- person filing is impossible or such filing would create a hardship, the City Clerk may permit such filing by certified mail.

Statement of Basis and Purpose: The Amendment to the Rules would provide applicants who are denied a marriage license or registration as a domestic partnership an administrative redress. Specifically, it allows the aggrieved party to challenge within thirty days and upon payment of a nominal fee any denial of a marriage license or domestic partner registration by the City Clerk. Currently persons who at the time of application have a marriage or domestic partnership listed on the records of the City Clerk and cannot prove the dissolution of such marriage or domestic partnership are denied a marriage license or domestic partnership registration, respectively, by the Office of the City Clerk pursuant to law. (This has no effect on a domestic partner seeking a marriage license since by law marriage automatically terminates the domestic partnership.) The aggrieved party's sole recourse is to bring an Article 78 proceeding. For low-income and indigent persons who cannot afford the costs of retaining an attorney, the unintended consequence of this policy is to effectively deny such applicant the right to marry or register a domestic partnership. The effect can be especially onerous given the alarming increase in identity theft. The Amendment to the Rules would offer an affordable alternative to challenge a City Clerk refusal without interfering with the current legal recourse. It would also require the spouse or domestic partner of record to be notified of the proceeding. The other changes are necessary to update the Rules of the City of New York. The provision in the current Rules of the City of New York with respect to spouses or prospective spouses obtaining information with respect to their spouse or prospective spouse is inadequate. In many instances spouses want to know if their present spouse has fraudulently obtained a marriage certificate with a party other than the inquiring spouse subsequent to their marriage and the current rule does not permit the Office of the City Clerk to disclose such information. The Amendment to the Rules is meant to remove that restriction. Due to case law persons ordained by the Universal Life Church are not permitted to officiate marriage ceremonies under the current Rules of the City of New York. Currently persons who are ordained by many other internet-based religious organizations are allowed to register while persons who are ordained by Universal Life Church are not. The Amendment to the Rules would remove this disparity. In addition, there is no provision in the Rules of the City of New York to permit chaplains to register and the Amendment to the Rules would provide such a mechanism. The Amendment to the Rules also corrects a citation error in Section 3-04(b) of Title 51 of the Rules of the City of New York. Finally notarization of third-party consents would safeguard the process and consequently enhance the integrity of the marriage database which, by law, is confidential. The Office of the City Clerk wishes to ensure that the party writing the consent is indeed an authorized party and consequently avoid fraud. The City Clerk of the City of New York has re-evaluated the proposed fee based on a current cost analysis and has determined that the fee is warranted.

CITY PLANNING

■ NOTICE

NOTICE OF OPPORTUNITY TO COMMENT ON PROPOSED RULES

PLEASE TAKE NOTICE, that in accordance with Sections 192 and 1043 of the New York City Charter, and pursuant to Section 81-744(a)(5) of the New York City Zoning Resolution (the "Zoning Resolution"), the New York City Department of City Planning ("City Planning") proposes to amend and add a new rule to Chapter 3 of Title 62 of the Rules of the City of New York.

This rule was not anticipated and therefore was not included in the regulatory agenda because, until recently, no application had been filed seeking certification or authorization for transfer of development rights under Section 81-744 of the Zoning Resolution. Given the recent and pending applications to transfer development rights in the Theater Subdistrict, the required per square foot contribution should be adjusted as provided in the Zoning Resolution Section 81-744(a)(5).

The time and place of the hearing have been scheduled as follows:

DATE: October 25, 2006
TIME: 10:00 A.M.
LOCATION: Spector Hall, 22 Reade Street
New York, NY 10007

Any person in attendance at this hearing shall be given a reasonable opportunity to present oral or written statements and to submit other documents concerning the proposed changes. Each speaker shall be allotted a maximum of three (3) minutes. Persons who require that a sign language interpreter or other form of reasonable accommodation for a disability be provided at the hearing are asked to notify Ray Hodges at the address set forth below by October 13, 2006. In addition, written statements may be submitted to the Deputy Counsel of the Department of City Planning at the address stated below, provided the comments are received by 5:00 P.M. October 25, 2006:

New York City Department of City Planning
Office of the Counsel
22 Reade Street, 2N, New York, NY 10007

Written comments received and a tape recording of oral comments received at the hearing will be available for public inspection within a reasonable time after receipt between the hours of 9:00 a.m. and 5:00 p.m. at the Freedom of Information Law Desk, 22 Reade Street, 2W, telephone number (212) 720-3208.

The purpose of the hearing is to provide the public with an opportunity to comment on the proposed rule set forth herein. Underlining indicates new material.

Section 1. The chapter heading of Chapter 3 of Title 62 of the Rules of the City of New York is amended to read as follows:

CHAPTER 3. FEES AND CONTRIBUTIONS

§2. Chapter 3 of Title 62 of the Rules of the City of New York is amended by adding a new subchapter C, to read as follows:
SUBCHAPTER C. CONTRIBUTIONS

§3-08. Contributions to Theater Subdistrict Fund Pursuant to Section 81-744 of the New York City Zoning Resolution.

Contributions to the Theater Subdistrict Fund pursuant to Section 81-744 of the New York City Zoning Resolution shall be made in an amount equal to $14.91 per square foot of floor area transferred.

STATEMENT OF BASIS AND PURPOSE

These rules are promulgated pursuant to the authority of the City Planning Commission, under Sections 192 and 1043 of the New York City Charter, and pursuant to Section 81-744 (a)(5) of the New York City Zoning Resolution. Under Section 81-744 of the Zoning Resolution, the City Planning Commission shall allow by certification or authorization the transfer of development rights from listed theaters in the Theater Subdistrict. Certification shall be granted, provided that, among other requirements, the appropriate legal documents are executed ensuring that a contribution in an amount, which is presently established under Section 81-744 (a)(5) to be $10.00 per square foot of transferred floor area, is deposited in the Theater Subdistrict Fund. The City Planning Commission is required to periodically review the contribution amount and to adjust such amount to reflect any change in the assessed value of all properties on zoning lots wholly within the Theater Subdistrict.

In adopting Section 81-744 of the Zoning Resolution, City Planning Commission Report N980271ZRM, dated June 3, 1998 (the "Report"), established the original contribution amount at $10 per square foot, which was described as approximately twenty (20) percent of the value of land per square foot in the Theater Subdistrict. The Report further stated that this amount should be adjusted periodically based on changes in the assessed value of land in the district. Consistent with the Section 81-744 and the 1998 Report, the proposed adjustment reflects the adjusted value of land per square foot for properties on zoning lots wholly within the Theater Subdistrict, taking into account changes in the assessed valuation since 1998.

There are three blocks west of Eighth Avenue which are bisected by the Theater Subdistrict boundary. Using zoning lot merger information for these blocks from 1998 to 2006, it was determined which of the zoning lots in these blocks are situated fully within the Theater Subdistrict. Based upon the assessed property values for the property included within these zoning lots, provided by the New York City Department of Finance ("DOF"), it has been determined that the assessed value for all properties situated wholly within the Theater Subdistrict has increased 49.06% per square foot from 1998 to 2006.

DOF data shows that in 1998, the total built floor area of the Theater Subdistrict was 63,871,931 square feet, and the total assessed value of such properties was $4,525,059,822. DOF data also show that in 2006, the total built floor area of the Theater Subdistrict was 81,642,687 square feet, and the total assessed value of such properties was $8,621,852,552.

Based upon the DOF data, the total assessed value per square foot was $70.85 in 1998 and was $105.60 in 2006. Given that the assessed value of all properties per square foot increased $34.76 or 49.06% from 1998 until 2006, the proposed rule would increase the required Theater Subdistrict Fund contribution from $10.00 per square foot to $14.91 per square foot of development rights transferred from the listed theaters.

All DOF data referenced above and used in the calculation of increase for the Theater Subdistrict Fund contribution is on file at the Department of City Planning and available for public inspection between the hours of 9:00 A.M. and 5:00 P.M. at the Freedom of Information Law Desk, 22 Reade Street, 2W, telephone number (212) 720-3208.

(2) a business enterprise in which the ownership interest of such woman is real, substantial and continuing;

(3) a business enterprise in which such woman ownership has and exercises the authority to control and operate, independently, the day-to-day business decisions of the enterprise; and

(4) a business enterprise authorized to do business in New York State and which is independently owned and operated].

§ 2. Subdivision (a) of § 11-22 of title 66 of the rules of the city of New York is amended to read as follows:

(a). Nexus. In order to be eligible for certification as an MBE or WBE, a business enterprise must have a real and substantial business presence in the geographic market for the city of New York. An MBE or WBE which [means] meets one of the following conditions shall be deemed to have a real and substantial business presence in the [City] geographic market for the city of New York:

(1) the business enterprise's principal office or place of business or headquarters is located within the City; or

(2) the business enterprise maintains full-time employees in one or more of the business enterprise's offices within the City to conduct or solicit business in the City the majority of their working time; or

(3) the business enterprise's principal office or place of business or headquarters is located within the geographic market of the City, and

(i) has transacted business more than once in the City within the last three (3) years, or
(ii) has sought to transact business more than once in the City within the last three (3) years; or

(4) twenty-five percent (25%) of the business enterprise's annual gross receipts for the last three (3) years were derived from transacting business in the City; or[.]
[In determining eligibility under this section the commissioner may consider comparable submitted by the applicant to demonstrate the applicant's real and substantial business presence in the City.;]

(5) the business enterprise's principal office or place of business or headquarters is not located within the geographic market of the City but the business enterprise has demonstrated two or more of the following indicia of a real and substantial presence in the market for the City of New York:
(i) the business enterprise has maintained a bank account or engaged in other banking transactions in the City;
([6]ii) [that the business enterprise has bid on contracts in the City;
(7) that(iii)] the business enterprise, or at least one of its owners, possesses a license issued by an agency of the City to do business in the City;
([iv] iii) the business enterprise has transacted or sought to transact business in or with the City more than once in the past three years.

§ 3. Paragraph (4) of subdivision (d) of § 11-22 of title 66 of the rules of the city of New York is amended to read as follows:

(4) [DBS] DSBS may grant eligible status to any business enterprise eligible under § 11-22 of these rules, and (A) certified as an MBE or WBE by the New York State [Office] Department of Economic Development, Division of Minority and Women's Business Development pursuant to Article 15-A of the New York State Executive Law and any rules or regulations promulgated thereunder, or (B) certified as an MBE or WBE by another governmental or other certifying entity whose minority- and women-owned business enterprise certification criteria are determined by the commissioner to be consistent with the certification criteria set forth in these rules. Unless otherwise determined by the commissioner, the maximum period for which any certification granted by [DBS] DSBS pursuant to this subdivision is valid [only for] shall be the period during which the business enterprise is certified as an MBE and/or WBE with the original certifying [governmental] entity;

§ 3. Subdivision (b) of § 11-23 of title 66 of the rules of the city of New York is amended to read as follows:

(b) An applicant shall submit such information or documentation as may be required by [DBS] DSBS in connection with its certification as an MBE or WBE. Failure to submit such information or documentation may result in the rejection or revocation of such certification.

§ 4. Subdivision (c) of § 11-23 of title 66 of the rules of the city of New York is amended to read as follows:

(c) If a certification application is received by [DBS] DSBS and required documents are missing, questions are unanswered or the certification application is not properly notarized, [DBS] DSBS shall send to the applicant, within [forty-two (42)] 45 days of the initial date stamped on the certification application, a notice of status and deficiency (the "Notice"), stating any deficiency arising from missing documents, unfinished questions or deficiencies in notarization. An applicant may cure the noticed deficiency by providing [DBS] DSBS with documents or information requested in the Notice, within [twenty-eight (28)] 30 days of the date of the Notice.

§ 5. Subdivision (d) of § 11-23 of title 66 of the rules of the city of New York is amended to read as follows:

(d) When the applicant cures a noticed deficiency, pursuant to procedures set forth in § 11-23(c) of these rules, [DBS] DSBS [has] shall have an additional [forty-two (42)] forty-five (45) days to advise the applicant of any further deficiency which may be cured in accordance with § 11-23(c) of these rules.

§ 6. Subdivision (b) of § 11-24 of title 66 of the rules of the city of New York is amended to read as follows:

(b) In the event certification is approved by the director, the applicant will be sent a certification letter and will be certified as an MBE or WBE for [two (2)] five years from the date of the certification letter or until notified [for] of the need to reapply at the director's request, whichever is earlier, so long as the applicant submits to the Division an affidavit of no material change in ownership or control annually.

§ 7. Section 11-25 of title 66 of the rules of the city of New York is amended to read as follows:

A business entity denied certification or re-certification as an MBE or WBE shall be given written notice by [DBS] DSBS of the grounds for such denial and an opportunity to appeal such denial in writing to the commissioner. Such appeal or a request for an extension to file an appeal[,] must be received by the commissioner no later than thirty (30) days after the date of the notice denying the business enterprise's certification or re-certification. The commissioner may extend the period in which to initiate an appeal for good cause shown. Such appeal shall include, at a minimum, a description of the reasons why the decision to deny certification or re-certification is in error and provide evidence to support its appeal. Such person shall provide such other documentation or information as is requested by the commissioner, in his or her sole discretion. The commissioner shall render a written determination no later than sixty days after receipt of the appeal, unless the time to render a determination has been extended upon agreement of the commissioner and the business enterprise. If the commissioner's determination is not made within the prescribed sixty days after receipt of the appeal or within the agreed upon extended time period, then the appeal is deemed denied. The decision of the commissioner granting or denying such appeal shall constitute the final agency determination.

§ 8. Subdivision (a) of § 11-26 of title 66 of the rules of the city of New York is amended to read as follows:

(a) A certified business must notify [DBS] DSBS within [forty-two (42)] forty-five (45) days of any material change in the information contained in the [original] certification application. A material change may include, but is not limited to, a change in any of the following: ownership; address; officers; or services provided by the certified business. If a material change occurs, a review may be conducted by [DBS] DSBS and certification may be revoked. If an MBE's or WBE's certification is revoked, such business enterprise may reapply for certification at any time following revocation. If a certified business fails to notify the director of such material change, the director may in his or her discretion, revoke the certification of an MBE or WBE for a period of up to [two (2)] five years.

§ 9. Subdivision (b) of §11-26 of title 66 of the rules of the city of New York is amended to read as follows:

(b) [DBS] DSBS, upon having reason to believe or upon receiving allegations indicating that a certified business enterprise is not eligible for certification as an MBE or WBE, may meet with minority group members or women claiming ownership and control of the certified business and/or conduct an audit of such business enterprise, and shall take the following actions:

§ 10. Subdivision (e) of § 11-26 of title 66 of the rules of the city of New York is amended to read as follows:

(e) If at any time [DBS] DSBS has reason to believe that an applicant or certified business has willfully and knowingly provided incorrect information or made false statements, it shall refer the matter to the Department of Investigation for investigation. Falsification of any document by an applicant or a certified business may lead to the imposition of civil and criminal penalties as provided by law and contract, de-certification as an MBE or WBE and debarment from City contracts.

§ 11. Title 66 of the rules of the city of New York is amended by adding a new subchapter D to read as follows:

SUBCHAPTER D. PARTICIPATION BY MINORITY-OWNED AND WOMEN-OWNED BUSINESS ENTERPRISES IN CITY PROCUREMENT

§ 11-60 Definitions. As used in this subchapter, the following terms shall have the following meanings:

(1) "Agency" means a city, county, borough, or other office, position, administration, department, division, bureau, board or commission, or a corporation, institution or agency of government, the expenses of which are paid in whole or in part from the city treasury.
(2) "Agency chief contracting officer" means the person to whom an agency head has delegated authority to organize and supervise the agency's procurement activity.
(3) "Availability rate" means the percentage of business enterprises within an industry classification that are owned by minorities or women willing and able to perform agency contracts.
(4) "Bidder" means any person submitting a bid or proposal in response to a solicitation for such bid or proposal from an agency.
(5) "Bidders list" or "proposers list" means a list maintained by an agency that includes persons from whom bids or proposals can be solicited.
(6) "City" means the city of New York.
(7) "City chief procurement officer" means the person to whom the mayor has delegated authority to coordinate and oversee the procurement activity of mayoral agency staff, including the agency chief contracting officers and any offices that have oversight responsibility for procurement.
(8) "Commercially useful function" means a real and actual service that is a distinct and verifiable element of the work called for in a contract. In determining whether an MBE or WBE is performing a commercially useful function, factors including but not limited to the following shall be considered:
(i) whether it has the skill and expertise to perform the work for which it is being utilized, and possesses all necessary licenses;
(ii) whether it is in the business of performing, managing or supervising the work for which it has been certified and is being utilized; and
(iii) whether it purchases goods and/or services from another business and whether its participation in the contract would have the principal effect of allowing it to act as a middle person or broker in which case it may not be considered to be performing a commercially useful function for purposes of this section.
(9) "Commissioner" shall mean the commissioner of small business services or his or her designee or his or her successor in function.
(10) "Construction contract" means any agreement with an agency for or in connection with the construction, reconstruction, demolition, excavation, renovation, alteration, improvement, rehabilitation, or repair of any building, facility, physical structure of any kind. Construction contracts shall not include contracts for professional services.
(11) "Contract" means any agreement, purchase order or other instrument whereby the city is committed to expend or does expend funds in return for goods, professional services, standard services, architectural and engineering services, or construction.
(12) "Contractor" means a person who has been awarded a contract.
(13) "Directory" means a list prepared by the division of firms certified pursuant to section 1304 of the charter.
(14) "Division" shall mean the division of economic and financial opportunity within the department of small business services.
(15) "Geographic market of the city" means the following counties: Bronx, Kings, New York, Queens,

Richmond, Nassau, Putnam, Rockland, Suffolk and Westchester within the state of New York; and Bergen, Hudson, and Passaic within the state of New Jersey.

(16) "Goal" means a numerical+ target.

(17) "Graduate MBE" or "graduate WBE" means an MBE or WBE which shall have been awarded prime contracts by one or more agencies within the past three years where the total city funding from the expense and capital budgets for such contracts was equal to or greater than fifteen million dollars.

(18) "Industry classification" means one of the following classifications:
(i) construction;
(ii) professional services;
(iii) standard services; and
(iv) goods.

(19) "Joint venture" means an association, of limited scope and duration, between two or more persons who have entered into an agreement to perform and/or provide services required by a contract, in which each such person contributes property, capital, effort, skill and/or knowledge, and in which each such person is entitled to share in the profits of the venture in reasonable proportion to the economic value of its contribution.

(20) "MBE" means a minority-owned business enterprise certified in accordance with section 1304 of the charter.

(21) "Minority group" means Black Americans; Asian Americans, and Hispanic Americans, provided that the commissioner shall be authorized to add additional groups to this definition upon a finding that there is statistically significant disparity between the availability of firms owned by persons in such a group and the utilization of such firms in city procurement.

(22) "Person" means any business, individual, partnership, corporation, firm, company, or other form of doing business.

(23) "Professional services" means services that require specialized skills and the exercise of judgment, including but not limited to accountants, lawyers, doctors, computer programmers and consultants, architectural and engineering services, design services and construction management services.

(24) "Qualified joint venture agreement" means a joint venture between one or more MBEs and/or WBEs and another person, in which the percentage of profit to which the certified firm or firms is entitled for participation in the contract, as set forth in the joint venture agreement, is at least 25% of the total profit.

(25) "Scope of work" means specific tasks required in a contract and/or services or goods that must be provided to perform specific tasks required in a contract.

(26) "Standard services" means services other than professional services or services procured under a construction contract.

(27) "Subcontractor" means a person who has entered into an agreement with a contractor to provide something that is required pursuant to a contract.

(28) "Utilization rate" means the percentage of total contract expenditures expended on contracts or subcontracts with firms that are owned by women or minorities, respectively, in one or more industry classifications.

(29) "WBE" means a women-owned business enterprise certified in accordance with section 1304 of the charter.

§ 11-61. Citywide goals. (1) The citywide contracting participation goals for MBEs and WBEs shall be as follows:

For construction contracts under one million dollars:

Race/gender group:	Participation goal:
Black Americans	2.63% of total annual agency expenditures on such contracts
Hispanic Americans	9.06% of total annual agency expenditures on such contracts

For professional services contracts under one million dollars:

Race/gender group:	Participation goal:
Black Americans	9% of total annual agency expenditures on such contracts
Hispanic Americans	5% of total annual agency expenditures on such contracts
Caucasian females	16.5% of total annual agency expenditures on such contracts

For standard services contracts under one million dollars:

Race/gender group:	Participation goal:
Black Americans	9.23% of total annual agency expenditures on such contracts
Hispanic Americans	5.14% of total annual agency expenditures on such contracts
Caucasian females	10.45% of total annual agency expenditures on such contracts

For goods contracts under one million dollars:

Race/gender group:	Participation goal:
Black Americans	7.47% of total annual agency expenditures on such contracts
Asian Americans	5.19% of total annual agency expenditures on such contracts
Hispanic Americans	4.99% of total annual agency expenditures on such contracts
Caucasian females	17.87% of total annual agency expenditures on such contracts

For construction subcontracts under one million dollars:

Race/gender group:	Participation goal:
Black Americans	12.63% of total annual agency expenditures on such subcontracts
Asian Americans	9.47% of total annual agency expenditures on such subcontracts
Hispanic Americans	9.06% of total annual agency expenditures on such subcontracts

For professional services subcontracts under one million dollars:

Race/gender group:	Participation goal:
Black Americans	9% of total annual agency expenditures on such subcontracts
Hispanic Americans	5% of total annual agency expenditures on such contracts
Caucasian females	16.5% of total annual agency expenditures on such subcontracts

(2) Agencies shall develop agency utilization plans pursuant to section 11-64 of this subchapter. Agencies shall seek to ensure substantial progress toward the attainment of these goals in as short a time as practicable.

(3) The citywide goals shall not be summarily adopted as goals for individual procurements; rather, as set forth in section 11-66 of this subchapter, goals for such procurements may be set at levels higher, lower, or the same as the citywide goals.

(4) Beginning January 29, 2007 and every two years thereafter, the commissioner, in consultation with the city chief procurement officer, shall, for each industry classification and each minority group, review and compare the availability rates of firms owned by minorities and women to the utilization rates of such firms in agency contracts and subcontracts, and shall on the basis of such review and any other relevant information, where appropriate, revise by rule the citywide participation goals set forth in this section. In making such revision, the commissioner shall consider the extent to which discrimination continues to have an impact on the ability of minorities and women to compete for city contracts and subcontracts. The commissioner shall submit the results of such review and any proposed revisions to the participation goals to the speaker of the council at least sixty days prior to publishing a proposed rule that would revise participation goals.

§ 11-62. Responsibilities of the division. (1) The division shall create and maintain and periodically update directories by industry classification of MBEs and WBEs which it shall supply to all agencies, post on its website and on other relevant city websites and make available for dissemination and/or public inspection at its offices and other locations within each borough.

(2) The division shall make its resources available to assist agencies and contractors in (i) determining the availability of MBEs and WBEs to participate in their contracts as prime contractors and/or subcontractors; and (ii) identifying opportunities appropriate for participation by MBEs and WBEs in contracts.

(3) The division shall develop and maintain relationships with organizations representing contractors, including MBEs and WBEs, and solicit their support and assistance in efforts to increase participation of MBEs and WBEs in city procurement.

(4) The division shall coordinate with city and state entities that maintain databases of MBEs and WBEs and work to enhance city availability data and directories.

(5) The division shall keep agency M/WBE officers informed of conferences, contractor fairs, and other services that are available to assist them in pursuing the objectives of this section.

(6) The division shall conduct, coordinate and facilitate technical assistance and educational programs for MBEs and WBEs and other contractors designed to enhance participation of MBEs and WBEs in city procurement. The division shall further develop a clearinghouse of information on programs and services available to MBEs and WBEs.

(7) The division shall develop standardized forms and reporting documents for agencies and contractors to facilitate the reporting requirements of this section.

(8) The division shall direct and assist agencies in their efforts to increase participation by MBEs and WBEs in any city-operated financial, technical, and management assistance program.

(9) The division shall study and recommend to the commissioner methods to streamline the M/WBE certification process.

(10) Each fiscal year the division, in consultation with the city chief procurement officer, shall audit at least 5% of all contracts for which utilization plans are established in accordance with section 11-66 of this subchapter and 5% of all contracts awarded to MBEs and WBEs to assess compliance with this subchapter. All solicitations for contracts for which utilization plans are to be established shall include notice of potential audit.

(11) The division shall assist agencies in identifying and seeking ways to reduce or eliminate practices such as bonding requirements or delays in payment by prime contractors that may present barriers to competition by MBEs and WBEs.

§ 11-63. Responsibilities of agency M/WBE officers. Each agency head shall designate a deputy commissioner or other executive officer to act as the agency M/WBE officer who shall be directly accountable to the agency head concerning the activities of the agency in carrying out its responsibilities pursuant to this section. The duties of the M/WBE officer shall include, but not be limited to:

(i) creating the agency's utilization plan in accordance with section 11-64 of this subchapter;
(ii) acting as the agency's liaison with the division;
(iii) acting as a liaison with organizations and/or associations of MBEs and WBEs, informing such organizations and/or associations of the agency's procurement procedures, and advising them of future procurement opportunities;
(iv) ensuring that agency bid solicitations and requests for proposals are sent to MBEs and WBEs in a timely manner, consistent with this section and rules of the procurement policy board;
(v) referring MBEs and WBEs to technical assistance services available from agencies and other organizations;
(vi) reviewing requests for waivers and/or modifications of participation goals and contractor utilization plans in accordance with paragraph 13 of section 11-66 of this subchapter;
(vii) working with the division and city chief procurement officer in creating directories of certified MBEs and WBEs. In fulfilling this duty, the agency M/WBE officer shall track and record each contractor that is an MBE or WBE and each subcontractor hired pursuant to such officer's agency contracts that is an MBE or WBE, and shall share such information with the commissioner and the city chief procurement officer;
(viii) for contracts for which utilization goals have been established pursuant to section 11-66 of this subchapter, monitoring each contractor's compliance with its utilization plan by appropriate means, which shall include, but need not be limited to, job site inspections, contacting MBEs and WBEs identified in the plan to confirm their participation, and auditing the contractor's books and records;
(ix) monitoring the agency's procurement activities to ensure compliance with its agency utilization plan and progress towards the participation goals as established in such plan; and
(x) providing to the city chief procurement officer information for the reports required in section 11-69 of this subchapter and providing any other plans and/or reports required pursuant to this subchapter or requested by the city chief procurement officer.

§ 11-64. Agency utilization plans. (1) Beginning May 15, 2006, and on April 1 of each year thereafter, each agency which has made procurements in excess of five million dollars during the fiscal year which ended on June 30 of the preceding calendar year shall submit an agency utilization plan for the fiscal year commencing in July of the year when such plan is to be submitted to the commissioner. Upon approval by the commissioner such plan shall be submitted to the speaker of the council. Each such plan shall, at a minimum, include the following:

(i) the agency's participation goals for MBEs and WBEs for the year;
(ii) an explanation for any agency goal that is different than the participation goal for the relevant group and industry classification as determined pursuant to section 11-61 of this subchapter;
(iii) a list of the names and titles of agency personnel responsible for implementation of the agency utilization plan;
(iv) methods and relevant activities proposed for achieving the agency's participation goals; and
(v) any other information which the agency or the commissioner deems relevant or necessary.

(2) An agency utilization plan may be amended from time to time, in consultation with the division to reflect changes in the agency's projected expenditures or other relevant circumstances and resulting changes in such agency's participation goals. Such amendments shall be submitted to the commissioner, the city chief procurement officer and the speaker of the council at least thirty days prior to implementation.

(3) In planning its procurement activities over the course of the fiscal year, each agency subject to this section shall consider how it will achieve the goals set forth in its approved agency utilization plan. This determination should be guided by the agency's knowledge of the market involved in the procurement, and the level of progress it has made during the fiscal year toward meeting its goal for the relevant category of procurement.

§ 11-65. Achieving agency participation goals. (1) Each agency head shall be directly accountable for the goals set forth in his or her agency's utilization plan.

(2) Each agency shall make all reasonable efforts to meet the participation goals established in its agency utilization plan. Agencies shall, at a minimum, use the following methods to achieve participation goals:

(i) Agencies shall engage in outreach activities to encourage MBEs and WBEs to compete for all facets of their procurement activities, including contracts awarded by negotiated acquisition, emergency and sole source contracts, and each agency shall seek to utilize MBEs and/or WBEs for all types of goods, services and construction they procure.
(ii) Agencies shall encourage eligible businesses to apply for certification as MBEs and WBEs and inclusion in the directories of MBEs and WBEs. Agencies shall also encourage MBEs and WBEs to have their names included on their bidders lists, seek pre-qualification where applicable, and compete for city business as contractors and subcontractors. Agencies are encouraged to advertise procurement opportunities in general circulation media, trade and professional association publications and small business media, and publications of minority and women's business organizations, and send written notice of specific procurement opportunities to minority and women's

business organizations.
(iii) All agency solicitations for bids or proposals shall include information referring potential bidders or proposers to the directories of MBEs and WBEs prepared by the division.
(iv) In planning procurements, agencies shall consider the effect of the scope, specifications and size of a contract on opportunities for participation by MBEs and WBEs.
(v) For construction contracts, agencies shall consider whether to enter into separate prime contracts for construction support services including, but not limited to, trucking, landscaping, demolition, site clearing, surveying and site security.
(vi) Prior to soliciting bids or proposals for contracts valued at over ten million dollars, an agency shall submit the bid or proposal to the city chief procurement officer for a determination whether it is practicable to divide the proposed contract into smaller contracts and whether doing so will enhance competition for such contracts among MBEs and WBEs and other potential bidders or proposers. The agency shall follow the instructions of the city chief procurement officer in cases where he or she determines that it is both practicable and advantageous in light of cost and other relevant factors to divide such contracts into smaller contracts.
(vii) Agencies shall examine their internal procurement policies, procedures and practices and, where practicable, address those elements, if any, that may negatively affect participation of MBEs and WBEs in city procurement.
(viii) Agency M/WBE officers shall, in accordance with guidelines established by the city chief procurement officer, establish a process for quarterly meetings with MBEs and WBEs to discuss what the agency looks for in evaluating bids and proposals.
(ix) Agencies shall encourage prime contractors to enter joint venture agreements with MBEs and WBEs.

§ 11-66. Participation goals for construction and professional services contracts. (1) Prior to issuing the solicitation of bids or proposals for individual construction and professional services contracts, agencies shall establish a target subcontracting percentage for the contract and participation goals for MBEs and WBEs. The "target subcontracting percentage" for the contract shall represent the percentage of the total contract which the agency anticipates a typical prime contractor in the relevant industry would in the normal course of business award to one or more subcontractors for amounts under one million dollars The participation goals established for a contract shall represent a percentage of the total dollar value of all subcontracts for amounts under one million dollars pursuant to the award. Such goals may be greater than, less than or the same as the relevant citywide goal or goals established pursuant to section 11-61 of this subchapter. In determining the participation goals for a particular contract, an agency shall consider the following factors:
(i) the scope of work;
(ii) the availability of MBEs and WBEs able to perform the particular tasks required in the contract;
(iii) the extent to which the type of work involved in the contract presents subcontracting opportunities for amounts under one million dollars;
(iv) the agency's progress to date toward meeting its annual participation goals through race-neutral, gender-neutral and other means, and the agency's expectations as to the effect such methods will have on participation of MBEs and WBEs in the agency's future contracts; and (v) any other factors the contracting agency deems relevant.

(2) A contracting agency shall not be required to establish participation goals
(i) for procurements described in section 11-74 of this subchapter; or
(ii) when the agency has already attained the relevant goal in its annual utilization plan, or expects that it will attain such goal without the use of such participation goals.

(3) For each contract in which a contracting agency has established participation goals, such agency shall state in the solicitation for such contract that bidders and/or proposers shall be required to agree as a material term of the contract that, with respect to the total amount of the contract to be awarded to one or more subcontractors pursuant to subcontracts for amounts under one million dollars, the contractor shall be subject to participation goals unless such goals are modified by the agency in accordance with this section.

(4) For each contract in which participation goals are established, the agency shall include in its solicitation and/or bidding materials, a referral to the directories prepared by the division pursuant to section 11-62 of this subchapter.

(5) For each contract for which participation goals are established the contractor shall be required to submit with its bid or proposal, a utilization plan indicating the percentage of the work it intends to subcontract, and the percentage of work it intends to award to subcontractors for amounts under one million dollars, and, in cases where the contractor intends to award subcontracts for amounts under one million dollars, a description of the type and dollar value of work designated for participation by MBEs and/or WBEs, and the time frames in which such work is scheduled to begin and end. When the utilization plan indicates that the bidder or proposer does not intend to award the target subcontracting percentage, the bid or proposal shall not be deemed responsive unless the agency has granted a pre-award waiver pursuant to subdivision 12 of this section.

(6) For each contract for which a utilization plan has been submitted, a material term of the contract shall be that, with respect to the total amount of the contract to be awarded to one or more subcontractors pursuant to subcontracts for amounts under one million dollars, the contractor shall be subject to participation goals unless such goals are modified by the agency in accordance with this section.

(7) For each contract for which a utilization plan has been submitted, the contracting agency shall require that within thirty days of the issuance of notice to proceed, the contractor submit a list of persons to which it intends to award subcontracts within the next twelve months, and a written confirmation that the contractor has notified each MBE or WBE included in such list. For multi-year contracts, the contractor shall submit such a list of persons and written confirmation of notification to the agency annually. In the event that a contracting agency disapproves a contractor's selection of a subcontractor or subcontractors, the contracting agency shall allow such contractor a reasonable time to propose alternate subcontractors.

(8) For each contract for which a utilization plan has been submitted, the contractor shall, with each voucher for payment, and/or periodically as the agency may require, submit statements, certified under penalty of perjury, which shall include, but not be limited to, the total amount paid to subcontractors (including subcontractors that are not MBEs or WBEs); the names, addresses and contact numbers of each MBE or WBE hired as a subcontractor pursuant to such plan as well as the dates and amounts paid to each MBE or WBE. The contractor shall also submit, along with its voucher for final payment, the total amount paid to subcontractors (including subcontractors that are not MBEs or WBEs); and a final list, certified under penalty of perjury, which shall include the name, address and contact information of each subcontractor that is an MBE or WBE hired pursuant to such plan, the work performed by, and the dates and amounts paid to each

(9) If payments made to, or work performed by, MBEs or WBEs are less than the amount specified in the contractor's utilization plan, the agency shall take appropriate action in accordance with section 11-72 of this subchapter, unless the contractor has obtained a modification.

(10) When advertising a solicitation for bids or proposals for a contract for which a participation goal has been established, agencies shall include in the advertisement a general statement that the contract will be subject to participation goals for MBEs and/or WBEs.

(11) In the event that a contractor with a contract that includes a utilization plan submits a request for a change order the value of which exceeds ten percent of such contract, the agency shall establish participation goals as if for a new contract for the work to be performed pursuant to such change order.

(12) Pre-award waiver. If the level of subcontracting set forth in a utilization plan is less than the target subcontracting percentage, the bidder or proposer shall submit a request to the contracting agency, prior to the deadline for such requests established by the contracting agency as indicated in the invitation to bid or propose, for a full or partial waiver of the targeted subcontracting percentage. Such request shall include documentation to support the bidder's or proposer's capacity to perform the contract without any subcontracting, or to perform the contract without awarding the amount of subcontracts for under one million dollars represented by the targeted subcontracting percentage.
(i) Subject to paragraph (ii) of this subdivision, the contracting agency may grant a full or partial waiver of the target subcontracting percentage to a bidder or proposer who demonstrates that it has legitimate business reasons for proposing the level of subcontracting in its utilization plan. The contracting agency shall make its determination in light of factors which shall include, but not be limited to, whether the bidder or proposer has the capacity and the bona fide intention to perform the contract without any subcontracting, or to perform the contract without awarding the amount of subcontracts for under one million dollars represented by the target subcontracting percentage. In making such determination, the agency may consider whether the utilization plan is consistent with past subcontracting practices of the bidder or proposer, and whether the bidder or proposer has made good faith efforts to identify portions of the contract that it intends to subcontract
The administrative code provides that within thirty days of the registration of a contract, the city chief contracting officer shall notify the council of any such waiver granted with respect to the contract.
(ii) The administrative code provides that the agency M/WBE officer shall provide written notice of requests for a full or partial waiver of the target subcontracting percentage to the division and the city chief procurement officer and shall not approve any such request without the approval of the city chief procurement officer, provided that the city chief procurement officer, upon adequate assurances of an agency's ability to administer its utilization plan in accordance with the provisions of this section, may determine that further approval from the city chief procurement officer is not required with respect to such requests for an agency's contracts or particular categories of an agency's contracts. The administrative code provides that the city chief procurement officer shall notify the speaker of the council and the division in writing within thirty days of the registration of the contract for a full or partial waiver of a target subcontracting percentage, provided that where an agency has been authorized to grant waivers without approval of the chief procurement officer, such notice shall be provided to the speaker of the council and the division by the agency. Such notification shall include, but not be limited to, the name of contractor, the original target subcontracting percentage, the waiver request, including all documentation, and an explanation for the approval of such request.

(13) Modification of utilization plans. (i) A contractor may request modification of its utilization plan after the award of a contract. Subject to paragraph (ii) of this subdivision, an agency may grant such request if it determines that such contractor has established, with appropriate documentary and other evidence, that it made all reasonable, good faith efforts to meet the goals set by the agency for the contract. Prior to granting such request, an agency shall consult with the division. In making such determination, the agency shall consider evidence of the following efforts, as applicable, along with any other relevant factors:

(A) The contractor advertised opportunities to participate in the contract, where appropriate, in general circulation media, trade and professional association publications and small business media, and publications of minority and women's business organizations;

(B) The contractor provided notice of specific opportunities to participate in the contract, in a timely manner, to minority and women's business organizations;

(C) The contractor sent written notices, by certified mail or facsimile, in a timely manner, to advise MBEs and WBEs that their interest in the contract was solicited;

(D) The contractor made efforts to identify portions of the work that could be substituted for portions originally designated for participation by MBEs and/or WBEs in the contractor utilization plan, and for which the contractor claims an inability to retain MBEs or WBEs;

(E) The contractor held meetings with MBEs and/or WBEs prior to the date their bids or proposals were due, for the purpose of explaining in detail the scope and requirements of the work for which their bids or proposals were solicited. Documentation of such meetings shall include the dates, times, and locations of such meetings, meeting announcements and invitations, meeting agendas, documents distributed at such meetings, and attendance lists;

(F) The contractor made efforts to negotiate with MBEs and/or WBEs as relevant to perform specific subcontracts, or act as suppliers or service providers. Documentation of such negotiation shall include the names, addresses, and telephone numbers of MBEs and/or WBEs that were solicited; the date of each such solicitation; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to the reasons that agreements could not be reached with MBE and/or WBEs to perform the work.

(G) Timely written requests for assistance made by the contractor to the agency M/WBE liaison officer and to the division, as well as documented requests for assistance made by the contractor to organizations that provide assistance in the recruitment and placement of MBEs and/or WBEs, including but not limited to, minority and/or women community organizations, minority and/or women contractors' groups; local, state and federal business assistance offices;

(H) Description of how recommendations made by the division, the contracting agency, and other organizations described in subparagraph (G) of this paragraph were acted upon and an explanation of why action upon such recommendations did not lead to the desired level of participation of MBEs and/or WBEs.

(I) The contractor rejected bids byMBEs and/or WBEs for sound reasons based upon a thorough investigation of their capabilities. The MBE's or WBE'S political or social affiliations or lack thereof shall not be a legitimate reason for rejecting or not soliciting bids to meet the goals.

(J) The contractor designated portions of the work to be performed by MBEs and/or WBEs in order to increase the likelihood that the goals will be met, including but not limited to, breaking out the work under the contract into feasible units to facilitate MBE and/or WBE participation.

(K) The contractor made efforts to assist interested MBEs and/or WBEs in obtaining bonding, lines of credit, or insurance as required by the City or the contractor.

(L) The contractor made efforts to assist interested MBEs and/or WBEs in obtaining necessary equipment, supplies, materials, or related assistance or services.

(ii) The administrative code provides that the agency M/WBE officer shall provide written notice of requests for such modifications to the division and the city chief procurement officer and shall not approve any such request for modification without the approval of the city chief procurement officer, provided that the city chief procurement officer, upon adequate assurances of an agency's ability to administer its utilization plan in accordance with the provisions of this section, may determine that further approval from the city chief procurement officer is not required with respect to such requests for an agency's contracts or particular categories of an agency's contracts. The administrative code provides that the city chief procurement officer,

shall notify the speaker of the council and the division in writing within seven days of the approval of a request for modification of a utilization plan, provided that where an agency has been authorized to grant modifications without approval of the chief procurement officer, such notice shall be provided to the speaker of the council and the division by the agency. Such notification shall include, but not be limited to, the name of the contractor, the original utilization plan, the modification request, including all documentation, and an explanation for the approval of such request.
(iii) The agency M/WBE officer shall provide written notice to the contractor of its determination that shall include the reasons for such determination.

(14) Substitution of the MBE and/or WBE subcontractor whose participation was necessary to achieve a participation goal shall be permitted only with approval of the contracting agency, and only in the following circumstances:

(A) Unavailability after receipt of reasonable notice to proceed;

(B) Poor performance;

(C) Financial incapacity;

(D) Refusal by the subcontractor to honor the bid or proposal price or scope;

(E) Mistake of fact or law about the elements of the scope of work of a solicitation where a reasonable price cannot be agreed;

(F) Failure of the subcontractor to meet insurance, licensing, or bonding requirements;

(G) The subcontractor's withdrawal of its bid or proposal;

(H) Decertification of the subcontractor as an MBE or WBE;

(I) The contractor becomes aware of information negatively reflecting on the subcontractor's business integrity;

(J) Other circumstances allowed by the agency after consultation with the division.

Where the contractor has established the basis for substitution to the satisfaction of the contract compliance officer, it shall make good faith efforts to substitute with a subcontractor which can be counted toward achievement of the relevant goal. If the contractor plans to hire a subcontractor on any scope of work that was not previously disclosed in the compliance plan, the contractor shall obtain approval of the agency M/WBE officer and must make good faith efforts to ensure that MBEs and/or WBEs have a reasonable opportunity to bid on the new scope of work.

(15) For each contract in which a contracting agency has established participation goals, the agency shall evaluate and assess the contractor's performance in meeting such goals. Such evaluation and assessment shall be a part of the contractor's overall contract performance evaluation required pursuant to section 333 of the charter.

§ 11-67. Determining credit for MBE and WBE participation. (1) An agency's achievement of its annual goals shall be calculated as follows:
(i) The total dollar amount that an agency has paid or is obligated to pay to a prime contractor which is an MBE or WBE may be credited toward the relevant goal.
(ii) The total dollar amount that a prime contractor has paid or is obligated to pay to a subcontractor which is an MBE or WBE may be credited toward the relevant goal.
(iii) For requirements contracts, credit may be given for the actual dollar amount paid under the contract
(iv) Where one or more MBEs or WBEs is participating in a qualified joint venture, the dollar amount of the percentage of total profit to which MBEs or WBEs are entitled pursuant to the joint venture agreement shall be credited toward the relevant goal
(v) No credit shall be given for participation in a contract by an MBE or WBE that does not perform a commercially useful function.
(vi) No credit shall be given for the participation in a contract by any company that has not been certified as an MBE or WBE in accordance with section 1304 of the charter.
(vii) In the case of a contract for which the contractor is paid on a commission basis, the dollar amount of the contract may be determined on the basis of the commission earned or reasonably anticipated to be earned under the contract.
(viii) No credit shall be given to a contractor for participation in a contract by a graduate MBE or WBE.

(2) A contractor's achievement of the goals established in its utilization plan shall be calculated in the same manner as described for calculating the achievement of agency utilization goals as described in subdivision (1) of this section; provided that no credit shall be given to the contractor for the participation of a company that is not certified in accordance with section 1304 of the charter before the date that the agency approves the subcontractor.

§ 11-68. Small purchases. (1) Each agency shall, consistent with the participation goals established in section 11-61 of this subchapter and such agency's M/WBE utilization plan, establish goals for purchases valued at or below five thousand dollars which shall be made from MBEs and/or WBEs.

(2) Whenever an agency solicits bids or proposals for small purchases pursuant to section three hundred fourteen of the charter, the agency shall maintain records identifying the MBEs and WBEs it solicited, which shall become part of the contract file.

§ 11-69. Compliance reporting. (1) The administrative code provides that the city chief procurement officer, in consultation with the division shall prepare and submit semiannual reports to the speaker of the council as described in this section. A preliminary report containing information for the fiscal year in progress shall be submitted to the speaker of the council by April 1, 2007, and annually thereafter, and a final report containing information for the preceding fiscal year shall be submitted to the speaker of the council by October 1, 2007 and annually thereafter. The reports, which shall also be posted on the division's website, shall contain the following information, disaggregated by agency:
(i) the number and total dollar value of contracts awarded, disaggregated by industry classification, provided that contracts for amounts under five thousand dollars need not be disaggregated by industry;
(ii) the number and total dollar value of contracts awarded to MBEs and WBEs, disaggregated by minority and gender group and industry classification, provided that contracts for amounts under five thousand dollars need not be disaggregated by industry;
(iii) the total number and total dollar value of contracts awarded valued at less than five thousand dollars and the total number and total dollar value of such contracts awarded to MBEs and WBEs, disaggregated by minority and gender group;
(iv) the total number and total dollar value of contracts awarded valued at between five thousand and one hundred thousand dollars and the total number and total dollar value of such contracts awarded to MBEs and WBEs, disaggregated by minority and gender group and industry classification;
(v) the total number and total dollar value of contracts awarded valued at between one hundred thousand dollars and one million dollars and the total number and total dollar value of such contracts awarded to MBEs and WBEs, disaggregated by minority and gender group and industry classification;
(vi) the total number and total dollar value of contracts awarded valued at over one million dollars and the total number and total dollar value of such contracts awarded to MBEs and WBEs, disaggregated by minority and gender group and industry classification;
(vii) for those contracts for which an agency set participation goals in accordance with section 11-66 of this subchapter:

A. the number and total dollar amount of such contracts disaggregated by industry classification;

B. the number and total dollar value of such contracts that were awarded to qualified joint ventures and the total dollar amount attributed to the MBE or WBE joint venture partners, disaggregated by minority and gender group and industry classification;

C. the number and total dollar value of subcontracts entered into pursuant to such contracts and the number and total dollar amount of such subcontracts awarded to MBEs and WBEs, disaggregated by minority and gender group and industry classification; and

D. a list of the requests for waiver or modification of participation requirements for such contracts made pursuant to subdivisions 11 and 12 of section 11-66 of this subchapter and the determinations made with respect to such requests, and the number and dollar amount of those contracts for which such waivers or modifications were granted, disaggregated by industry classification;

(viii) a detailed list of each complaint received pursuant to subdivision 1 of section 11-72 of this subchapter which shall, at a minimum, include the nature of each complaint and the action taken in investigating and addressing such complaint including whether and in what manner the enforcement provisions of subdivision o of this section were invoked and the remedies applied;
(ix) a detailed list of all non-compliance findings made pursuant to subdivision 4 of section 11-72 of this subchapter and actions taken in response to such findings;
(x) the number of firms certified or recertified in accordance with section 1304 of the charter during the six months immediately preceding such report;
(xi) the number and percentage of contracts audited pursuant to subdivision 10 of section 11- of this subchapter and a summary of the results of each audit.
(xii) a summary of efforts to reduce or eliminate barriers to competition as required pursuant to paragraph 11 of section 11-62 of this subchapter;
(xiii) a list of all solicitations submitted to the city chief procurement officer pursuant to paragraph vi of subdivision 2 of section 11-65 of this subchapter and a summary of the determination made regarding each such submission; and
(xiv) any other information as may be required by the commissioner.

(2) The annual reports submitted in October shall, in addition, contain a determination made by the commissioner, as to whether each agency has made substantial progress toward achieving its utilization goals and whether the city has made substantial progress toward achieving the citywide goals established pursuant to section 11-61 of this subchapter. The first three annual reports shall also include detailed information about steps that agencies have taken to initiate and ramp up their efforts to comply with the requirements this section, including but not limited to, demonstrating specific efforts made to comply with section 11-63 of this subchapter.

(3) The data that provide the basis for the reports required by this section shall be made available electronically to the council at the time the reports are submitted.

§ 11-70. Agency compliance. (1) The agency shall submit to the commissioner and the city chief procurement officer such information as is necessary for the city chief procurement officer to complete his or her report as required in section 11-69 of this subchapter. The administrative code provides that the commissioner and the city procurement officer shall review each agency's submissions and whenever it has been determined that an agency is not making adequate progress toward the goals established in its agency utilization plan, the commissioner and the city chief procurement officer shall act to improve such agency's performance, and may take any of the following actions:
(i) require the agency to submit more frequent reports about its procurement activity;
(ii) require the agency to notify the commissioner and the city chief procurement officer, prior to solicitation of bids or proposals for, and/or prior to award of, contracts in any category where the agency has not made adequate progress toward achieving its utilization goals;
(iii) reduce or rescind contract processing authority delegated by the mayor pursuant to sections 317 and 318 of the charter; and
(iv) any other action the city chief procurement officer or the commissioner deem appropriate.

(2) Noncompliance. The administrative code provides that whenever the city chief procurement officer or the commissioner finds that an agency has failed to comply with its duties under this section, he or she shall attempt to resolve such noncompliance informally with the agency head. It further provides that in the event that the agency fails to remedy its noncompliance after such informal efforts, the city chief procurement officer shall submit such findings in writing to the mayor and the speaker of the council, and the mayor shall take appropriate measures to ensure compliance.

(3) Failure by an agency to submit information required by the division or the city chief procurement officer, in accordance with this section, including but not limited to the utilization plan required pursuant to section 11-64 of this subchapter, shall be deemed noncompliance.

§ 11-71. Pre-qualification. An agency establishing a list of pre-qualified bidders or proposers may deny pre-qualification to prospective contractors who fail to demonstrate in their application for pre-qualification that they have complied with applicable federal, state and local requirements for participation of MBEs and WBEs in procurements. A denial of pre-qualification may be appealed pursuant to applicable procurement policy board rules.

§ 11-72. Enforcement. (1) Any person who believes that a violation of the requirements of section 11-29 of the administrative code of the city of New York or these rules, or any provision of a contract that implements section 11-29 of the administrative code of the city of New York or these rules, including, but not limited to, any contractor utilization plan, has occurred may submit a complaint in writing to the division, the city chief procurement officer and the comptroller. Such complaint shall be signed and dated. The division shall promptly investigate such complaint and determine whether there has been a violation.

(2) Any complaint alleging fraud, corruption or other criminal behavior on, the part of a bidder, proposer, contractor, subcontractor or supplier shall be referred to the commissioner of the department of investigation.

(3) Contract award. (i) When an agency receives a protest from a bidder or proposer regarding a contracting action that is related to section 11-29 of the administrative code of the city of New York or these rules, the agency shall send copies of the protest and any appeal thereof, and any decisions made on the protest or such appeal, to the division and the comptroller.
(ii) Whenever a contracting agency has determined that a bidder or proposer has violated section 11-29 of the administrative code of the city of New York, or these rules, the agency may disqualify such bidder or proposer from competing for such contract and the agency may revoke such bidder's or proposer's prequalification status.

(4) Contract administration. (i) Whenever an agency believes that a contractor or a subcontractor is not in compliance with section 11-29 of the administrative code of the city of New York, these rules, or any provision of a contract that implements section 11-29 of the administrative code of the city of New York or these rules, including, but not limited to any contractor utilization plan, the agency shall send a written notice to the city chief procurement officer, the division and the contractor describing the alleged noncompliance and offering an opportunity to be heard. The agency shall then conduct an investigation to determine whether such contractor or subcontractor is in compliance.
(ii) In the event that a contractor has been found

to have violated section 11-29 of the administrative code of the city of New York, these rules, or any provision of a contract that implements section 11-29 of the administrative code of the city of New York or these rules, including, but not limited any contractor utilization plan, the contracting agency shall, after consulting with the city chief procurement officer and the division, determine whether any of the following actions should be taken:

(A) enter an agreement with the contractor allowing the contractor to cure the violation;

(B) revoke the contractor's pre-qualification to bid or make proposals for future contracts;

(C) make a finding that the contractor is in default of the contract;

(D) terminate the contract;

(E) declare the contractor to be in breach of contract;

(F) withhold payment or reimbursement;

(G) determine not to renew the contract;

(H) assess actual and consequential damages;

(I) assess liquidated damages or reduction of fees, provided that liquidated damages may be based on amounts representing costs of delays in carrying out the purposes of the program established by this section, or in meeting the purposes of the contract, the costs of meeting utilization goals through additional procurements, the administrative costs of investigation and enforcement, or other factors set forth in the contract;

(J) exercise rights under the contract to procure goods, services or construction from another contractor and charge the cost of such contract to the contractor that has been found to be in noncompliance; or

(K) take any other appropriate remedy.

(5) To the extent available pursuant to rules of the procurement policy board, a contractor may seek resolution of a dispute regarding a contract related to section 11-29 of the administrative code of the city of New York or these rules. The contracting agency shall submit a copy of such submission to the division.

(6) Whenever an agency has reason to believe that an MBE or WBE is not qualified for certification, or is participating in a contract in a manner that does not serve a commercially useful function, or has violated any provision of section 11-29 of the administrative code of the city of New York or these rules, the agency shall notify the commissioner who shall determine whether the certification of such business enterprise should be revoked.

(7) Statements made in any instrument submitted to a contracting agency pursuant to these rules shall be submitted under penalty of perjury and any false or misleading statement or omission shall be grounds for the application of any applicable criminal and/or civil penalties for perjury. The making of a false or fraudulent statement by an MBE or WBE in any instrument submitted pursuant to these rules shall, in addition, be grounds for revocation of its certification.

(8) A contractor's record in implementing its contractor utilization plan shall be a factor in the evaluation of its performance. Whenever a contracting agency determines that a contractor's compliance with a contractor utilization plan has been unsatisfactory, the agency shall, after consultation with the city chief procurement officer, file an advice of caution form for inclusion in VENDEX as caution data.

(9) Any complaint alleging fraud, corruption or other criminal behavior on the part of a bidder, proposer, contractor, subcontractor or supplier shall in addition be referred to the department of investigation

§ 11-73. Procurements by elected officials and the council.
(1) In the case of procurements by independently elected city officials other than the mayor, where these rules provide for any action to be taken by the city chief procurement officer, such action shall instead be taken by such elected officials.

(2) In the case of procurements by the council, where these rules provide for any action to be taken by the city chief procurement officer, such action shall instead be taken by the speaker of the council.

q. Applicability. Agencies shall not be required to apply participation requirements to the following types of contracts :

(i) those subject to federal or state funding requirements which preclude the city from imposing the requirements of this subchapter;
(ii) those subject to federal or state law participation requirements for MBEs and/or WBEs;
(iii) contracts between agencies;
(iv) procurements made through the United States general services administration or another federal agency, or through the New York state office of general services or another state agency, or any other governmental agency;
(v) emergency procurements pursuant to section three hundred fifteen of the charter;
(vi) sole source procurements pursuant to section three hundred twenty-one of the charter
(vii) small purchases as defined pursuant to section three hundred fourteen of the charter; and
(viii) contracts awarded to not-for-profit organizations.

§ 11-74. Comptroller. The comptroller shall randomly examine contracts for which contractor utilization plans are established to assess compliance with such plans. All solicitations for contracts for which contractor utilization plans are to be established shall include notice of potential comptroller examinations.

§12. Subchapter C of chapter 11 of title 66 of the rules of the city of New York is repealed.

§13. These rules shall take effect immediately.

TAXI AND LIMOUSINE COMMISSION

■ NOTICE

Notice of Public Hearing and Opportunity to Comment on Proposed Rules

Notice is hereby given in accordance with section 1043(b) of the Charter of the City of New York ("Charter") that the Taxi and Limousine Commission ("TLC") proposes rules to adjust the rates of fare for taxicabs.

These rules are proposed pursuant to sections 1043 and 2303(b)(1) of the Charter and section 19-503 of the Administrative Code of the City of New York. These proposed rules were not included in the TLC's regulatory agenda for Fiscal Year 2007 because the need for these rules was not anticipated at the time that the regulatory agenda was compiled.

A public hearing on these proposed rules will be held by the TLC at its offices at 40 Rector Street, 5th Floor, New York, New York 10006 on October 25, 2006, at 9:30 A.M. Persons wishing to testify at the hearing may notify the TLC in advance, either in writing or by telephone to the TLC's Office of Legal Affairs at the address and telephone given below. Any request for a sign language interpreter or other form of reasonable accommodation for a disability at the hearing must be submitted to the Office of Legal Affairs in writing, by telephone, or by TTY/TDD no later than October 18, 2006.

Written comments in connection with these proposed rules should be submitted to the Office of Legal Affairs and must be received no later than October 20, 2006 to:

Charles R. Fraser
Deputy Commissioner for Legal Affairs/General Counsel
Taxi and Limousine Commission
40 Rector Street, 5th Floor
New York, New York 10006
Telephone: 212-676-1135
Fax: 212-676-1102 TTY/TDD: 212-341-9596

Written comments and a summary of all comments received at the hearing will be available for public inspection at that office.

Section 1. Section 1-69 of chapter 1 of title 35 of the Rules of the City of New York is hereby amended to read as follows:

[Text to be deleted is in brackets.]
Text to be added is underscored.

§ 1-69 Flat Rates [from] between Kennedy Airport [to] and Manhattan.

(a) Notwithstanding the rate of fare set forth in §§ 1-70(a) and (b), the fare for a trip[s] [beginning at] between Kennedy Airport [with a] and Manhattan [destination] shall be a flat rate of Forty-five Dollars ($45), plus any tolls.

(1) The surcharge set forth in § 1-70(b) shall not be added to this flat rate.

(2) The taximeter shall reflect that this trip is a flat fare.

(b) If passengers request multiple stops on a trip from Kennedy Airport to Manhattan, the fare shall be as follows: the first stop in Manhattan is paid in accordance with subdivision (a) of this section; the meter is then turned on for a separate trip at the rate of fare as set forth in § 1-70, and the total on the meter is paid at the last stop by the remaining passenger. (For example, if three passengers request stops at 42nd St., 18th St. and 4th St., then $45 will be collected at 42nd St. and the meter will be turned on. When the second passenger exits at 18th St., the meter remains on, and no money is paid to the driver. The passenger dropped off at 4th St. must pay the fare on the meter.)

(c) All trips [beginning at] between Kennedy Airport and [ending in] a borough other than Manhattan shall continue to be governed by the meter rate of fare as set forth in § 1-70.

(d) The Chairperson is authorized to suspend the enforcement of this provision at any time, if in the judgment of the Chairperson such a suspension is necessary to preserve adequate levels of service to and from Kennedy Airport.

Section 2. Section 1-70 of chapter 1 of title 35 of the Rules of the City of New York is hereby amended to read as follows:

[Text to be deleted is in brackets.]
Text to be added is underscored.

§ 1-70 Metered Rate of Fare.

(a) Metered rate of fare. The rate of fare for taxicabs shall be as follows, regardless of the number of passengers or stops:

(1) The charge for the initial unit is $2.50.

(2) The charge for each additional unit is $.40.

(3) The unit of fare is:

(i) one-fifth of a mile, when the taxicab is travelling at 6 miles an hour or more; or

(ii) [120] 60 seconds (at a rate of [twenty] forty cents per minute), when the taxicab is not in motion or is travelling at less than 6 miles an hour.

(4) The taximeter shall combine fractional measures of distance and time in accruing a unit of fare. Any combination of distance or time specified in paragraph (3) above shall be computed by the taximeter in accordance with Handbook 44 of the National Bureau of Standards.

(5) The fare shall include pre-assessment of the unit currently being accrued; the amount due may therefore include a full unit charge for a final, fractional unit.

(b) Surcharge. In addition to the rate of fare set forth in §1-70(a), all taxicabs shall charge One Dollar ($1.00) for all trips beginning after 4:00 P.M. and before 8:00 P.M., weekdays, excluding legal holidays, and fifty cents ($.50) for all trips beginning after 8:00 P.M. and before 6:00 A.M. on all days, including weekends and holidays.

Statement of Basis and Purpose of Proposed Rules

The proposed rules would alter the existing rates of fare for taxicabs in two respects. First, the proposed rules would create a new flat fare for rides originating from any point in Manhattan to John F. Kennedy International (JFK) Airport. The flat fare would be $45, the same as is provided by existing rules for rides from JFK Airport to any point in Manhattan.

Second, the proposed rules would adjust the metered rate of fare by changing from 20 cents to 40 cents the rate for time during which the taxicab is standing still or moving less than six miles per hour.

The purposes of these proposed changes are to promote taxicab service to tourists, and thereby to promote tourism, and to bring fare calculations into closer alignment with fare calculations in use in other major cities around the country.

In addition, the adjustment to the rate of fare for waiting time increases the effective hourly rate for waiting time to approximate the existing effective hourly rate for time when the taxicab is moving normally. This adjustment thus enhances the equity of the fare structure, treating more equitably taxicab drivers whose fares on a particular day may happen to involve disproportionate amounts of waiting time.

NOTICE OF RATEMAKING

Notice of Adoption of Schedule of Charges for Fire Department Ambulance Service

NOTICE IS HEREBY GIVEN that, pursuant to the authority vested in the Fire Commissioner of the City of New York by Section 487(f) of the New York City Charter, the New York City Fire Department hereby adopts the revised schedule of charges set forth below for Fire Department Emergency Medical Service (EMS) ambulance service. The revised schedule of charges will take effect on October 22, 2006.

The revised schedule of charges and justification therefor are as set forth in the Notice of Ratemaking published in The City Record on June 30 and July 1-7, 2006. A public hearing was held on the ratemaking proposal on August 2, 2006.

The revised schedule of charges will be posted on the Fire Department Internet Home Page (www.nyc.gov/fdny) and published as an appendix to Title 3 of the Rules of the City of New York (following Chapter 43 thereof).

Nicholas Scoppetta
Fire Commissioner

The Fire Department hereby revises its schedule of charges for ambulance service provided by the Fire Department's Emergency Medical Service through the New York City 911 System, as set forth in Appendix A to Title 3 of the Rules of the City of New York (following Chapter 43 thereof), as follows:

* * * *

Schedule of Charges for Fire Department Ambulance Service
(effective [November 24, 2002] October 22, 2006)

Type of Service	Charge
Basic Life Support Ambulance	$[420.00] 475.00
[Advanced Life Support Ambulance	$535.00]
Advanced Life Support Ambulance Service – Level 1 (ALS1)	$600.00
Advanced Life Support Ambulance Service – Level 2 (ALS2)	$700.00

Additional Charges:

– Mileage (distance traveled to hospital) $[6.00] 7.00/mile

– Provision of Oxygen (as applicable) $50.00

JUSTIFICATION FOR FINAL RATEMAKING:

The Fire Department is adopting a revised schedule of charges for Fire Department ambulance service. The schedule of charges sets forth the rates the Fire Department charges patients and insurers for Emergency Medical Service (EMS) ambulance treatment and transport provided in the New York City 911 System. The revised rates reflect increased costs and help defray the City's cost of providing these services.

The charges for ambulance transport service were last increased in November 2002. The rates adopted at that time and currently in effect are $420 for an ambulance response (including treatment and transport) by a Basic Life Support (BLS) ambulance staffed by two Fire Department Emergency Medical Technicians; $535 for an ambulance response (including treatment and transport) by an Advanced Life Support (ALS) ambulance staffed by two Fire Department Paramedics; $6.00/per mile for hospital transports; and $50.00 for provision of oxygen.

The revised schedule of charges continues the existing single rate for BLS service, but establishes separate rates for the two levels of ALS service established by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services for Medicare reimbursement, which have become the nationally-accepted standards for ambulance service levels.

ALS1 service comprises all regular ALS ambulance treatment and transport. The ALS2 level of service is limited to treatment and transport requiring certain advanced care, as set forth in Medicare regulations, including manual defibrillation, endotracheal intubation, the insertion of a central venous line, and the intravenous administration of certain medications, such as morphine, diazepam, lidocaine and lasix.

The revised schedule of charges reflects a 13% increase above the current BLS rate. With respect to the ALS rates, more than 90% of ALS transports involve the provision of ALS1 care, and accordingly the estimated average bill for all ALS transports (ALS1 and ALS2 combined) under the revised ALS rates will be $605, also an increase of 13% above the current ALS rate. The increase in mileage charges is consistent with the mileage rate approved by the Centers for Medicare and Medicaid Services.

The revised rates are the amounts that the Fire Department would bill for EMS ambulance service. The rates do not necessarily reflect the amounts accepted by the Fire Department as payment for such services from government and private health insurance plans.

The schedule of charges does not apply to emergency medical care provided by Fire Department firefighters as certified first responders. The Fire Department does not charge for such services.

INFORMATION TECHNOLOGY AND TELECOMMUNICATIONS

■ NOTICE

Notice of Proceeding Concerning Cablevision Systems of New York City Corporation's Renewal of its Cable Television Franchises

On March 14, 2006, Cablevision Systems of New York City Corporation ("Cablevision") provided the New York City Department of Information Technology and Telecommunications ("DoITT") notice of its intent to seek renewal of its franchises to provide cable television service in the boroughs of Brooklyn and the Bronx. These franchises will expire on October 8, 2008. Pursuant to 16 NYCRR Section 891.2 and 47 U.S.C. Section 546, DoITT hereby provides the public an opportunity to comment on the renewal of these franchises. In their submissions, commenters are invited to:

(1) identify the future cable-related community needs and interests, taking into account the costs of meeting such needs and interests; and
(2) review Cablevision's performance during the current franchise term, which began on October 8, 1998.

DoITT will accept comments until August 1, 2007, subject to a possible future extension of such date if authorized by the New York State Public Service Commission. Comments and any questions should be addressed to:

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

POLICE

■ NOTICE

NOTICE OF PUBLIC HEARING ON THE ONE POLICE PLAZA SECURITY PLAN DRAFT ENVIRONMENTAL IMPACT STATEMENT

The New York City Police Department (NYPD) will hold the second of two public hearings on the Draft Environmental Impact Statement (DEIS). **The public hearing will be held from 6:00 P.M. to 8:00 P.M. on October 4, 2006, in the 2nd floor auditorium at 125 Worth Street, New York, NY. Members of the public will need photo identification to gain entrance to the building.** Oral and written comments will be accepted at the public hearing. In addition, written comments on the DEIS are requested and should be sent to Inspector Anthony Tria, NYPD Capital Construction, 620 Circle Drive, Fort Totten, NY 11359 Phone: (718) 281-1254, Fax: (718) 281-1593 through the 20th calendar day (October 24, 2006) following the close of the public hearing.

The New York City Police Department (NYPD) has prepared a Draft Environmental Impact Statement (DEIS) for the security plan established following the events of September 11, 2001 in order to protect City, State, and Federal facilities in the "civic center" portion of lower Manhattan which were, and continue to be, considered potential targets. These security measures included the installation of attended security checkpoint booths, planters, bollards and hydraulically-operated delta barriers to restrict the access of unauthorized vehicles from the roadways situated adjacent to the civic facilities located near NYPD headquarters at One Police Plaza.

The DEIS contains a description and analysis of the action and its environmental setting; the environmental impacts of the action, including its short and long term effects, and typical associated environmental effects; identification of any significant adverse environmental effects; a discussion of alternatives to the action; the identification of any irreversible and irretrievable commitments of resources that would be involved in the action; and a description of any necessary mitigation measures proposed to minimize significant adverse environmental impacts.

The action results in no significant adverse impacts to land use, zoning, public policy, community facilities and services, socioeconomic conditions, visual resources and parking. The DEIS discloses that the action, however, does result in significant adverse impacts to urban design, neighborhood character, traffic, transit and pedestrian conditions, and air quality and noise related to traffic diversions.

The DEIS describes mitigation measures including installation of a landscaped esplanade along Park Row, the reconfiguration of Chatham Square, and the restoration of bus service along Park Row. Four alternatives to the action are examined, but found not to satisfy the goals and objectives of the action, which are to secure police headquarters and the "civic center" area of lower Manhattan. Traffic impacts at Robert F. Wagner, Sr. Place and Pearl Street, and traffic-related noise impacts to residential buildings and Columbus Park on Worth Street at intersections of Worth and Baxter Streets and Worth and Mulberry Streets cannot be fully mitigated.

This public hearing is being held in conformance with Article 8 of the Environmental Conservation Law, the State Environmental Quality Review Act, City Environmental Quality Review procedures, and Local Law No. 24 of 2005.

Copies of the DEIS may be reviewed at the New York City Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, NY 10038, Robert Kulikowski, Director, (212) 788-9956. The DEIS is also available online through a link from the homepage of the New York City Police Department at http://www.nyc.gov/html/nypd under the "Recent Press Releases/News" section of the website.

Project Location

Brooklyn Piers 7-12 project is located within Community District 6 of Brooklyn.
The project site is a large swath of publicly controlled, partially utilized land on the waterfront of Brooklyn Community District 6. It encompasses approximately 120 acres of upland property, with approximately 1.1 miles of waterfront, and includes areas to be acquired by the City from the Port Authority as well as some City-owned upland parcels that are part of the Red Hook Peninsula Urban Renewal Area. The site is located across Buttermilk Channel, with the northern boundary of the project site at Atlantic Avenue, and the southern border at Wolcott Street.

Brief Project Description

The Brooklyn Piers 7-12 project proposes a set of actions relating to the acquisition by the City of New York (the City) of portions of Piers 7 through 12 and related waterfront and upland property in the Red Hook section of Brooklyn from the Port Authority of New York and New Jersey (Port Authority). The proposed project requires several actions which require discretionary approvals, including: Amendment to the City Zoning Map; Amendments to the City Map to map public streets as part of the site's program of improvements; Modification of the Red Hook Peninsula Urban Renewal Plan to reflect proposed changes; Disposition of acquired property; and Waterfront zoning certification and or authorization for public access and visual corridors.

A public scoping meeting will be held on October 12, 2006 at 6:00 P.M. at the Long Island College Hospital, 339 Hicks Street at Atlantic Avenue, Brooklyn, NY 11201. The period for submitting written comments will remain open until October 26, 2006. A copy of the Scoping Document for the project may be obtained by any member of the public from Meenakshi Varandani, at the above address, or from the website at: http://www.nycedc.com/Library/Studies/BrooklynPiers7to12.html

NOTICE

QUEENS COUNTY
IA PART 8
NOTICE OF ACQUISITION
INDEX NUMBER 14832/06

In the Matter of the Application of the CITY OF NEW YORK relative to acquiring title in fee simple absolute to certain real property where not heretofore acquired for the reconstruction of the
Metropolitan Avenue Bridge - Phase 1
located at the Northeast Corner of Metropolitan Avenue and Fresh Pond Road in the Borough of Queens, City and State of New York.

PLEASE TAKE NOTICE, that by order of the Supreme Court of the State of New York, County of Queens, IA Part 8 (Hon. Jaime A. Rios, J.S.C.), duly entered in the office of the Clerk of the County of Queens on August 28, 2006, the application of the City of New York to acquire certain real property, for the reconstruction of the Metropolitan Avenue Bridge-Phase 1, was granted and the City was thereby authorized to file an acquisition map with the Office of the City Register. Said map, showing the property acquired by the City, was filed with the City Register on August 30, 2006. Title to the real property vested in the City of New York on August 30, 2006.

PLEASE TAKE FURTHER NOTICE, that the City has acquired the following parcels of real property:

Damage Parcel	Block	Lot
1	2770	1

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to §§503 and 504 of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired in the above-referenced proceeding and having any claim or demand on account thereof is hereby required, on or before August 30, 2007 (which is one (1) calendar year from the title vesting date), to file a written claim with the Clerk of the Court of Queens County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007. Pursuant to EDPL §504, the claim shall include:

A. the name and post office address of the condemnee;

B. reasonable identification by reference to the acquisition map, or otherwise, of the property affected by the acquisition, and the condemnee's interest therein;

C. a general statement of the nature and type of damages claimed, including a schedule of fixture items which comprise part or all of the damages claimed; and,

D. if represented by an attorney, the name, address and telephone number of the condemnee's attorney.

Pursuant to EDPL §503(C), in the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.

PLEASE TAKE FURTHER NOTICE, that, pursuant to §5-310 of the New York City Administrative Code, proof of title shall be submitted to the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007 on or before August 30, 2008 (which is two (2) calendar years from the title vesting date).

CANCELLATION OF PUBLIC HEARING

NOTICE IS HEREBY GIVEN that a Contract Public Hearing will be held on Thursday, September 21, 2006, in Spector Hall, 22 Reade Street, Main Floor, Borough of Manhattan, commencing at 10:00 A.M. on the following:

IN THE MATTER of a proposed contract between the Police Department of the City of New York and New York Elevator and Electrical Corp., 519 Eighth Avenue, New York, New York 10018, for the provision of service, maintenance and repairs for the eight elevators and two escalators at Police Headquarters for the Police Department. The contract amount shall be $384,000. The contract term will be retroactive from August 6, 2006 to August 5, 2008. PIN #: 056060000455.

The proposed contractor has been selected by means of Negotiated Acquisition Extension, pursuant to Section 3-04 (b) (2) (iii) of the Procurement Policy Board Rules.

A draft copy of the proposed contract is available for public inspection at the New York City Police Department, Contract Administration Unit, 51 Chambers Street, Room 310, New York, NY 10007, on business days, from September 8, 2006 to September 21, 2006, between the hours of 9:30 A.M. and 4:30 P.M., exclusive of Holidays. Please contact the Contract Administration Unit at (646) 610-5753 to arrange a visitation.

Anyone who wishes to speak at this public hearing should request to do so in writing. The written request must be received by the Agency within 5 business days after publication of this notice. Written requests to speak should be sent to Jordan Glickstein, Deputy ACCO, New York City Police Department (NYPD), Contract Administration Unit, 51 Chambers Street, Room 310, New York, New York 10007, or sent by E-Mail to jglickst@nypd.org. If the NYPD receives no written requests to speak within the prescribed time, NYPD reserves the right not to conduct the public hearing.

§2. Reference Standard RS-19-2 Power Operated Cranes and Derricks of the appendix to chapter 1 of title 27 of the administrative code is hereby amended as follows:

****RS 19-2 POWER OPERATED CRANES AND DERRICKS**

1.0 Scope.-This standard applies to the construction, installation, inspection, maintenance and use of power operated cranes and derricks used for hoisting and/or rigging purposes; or used for the construction, alteration, demolition, excavation and maintenance purposes, including highways or sewers; or used for the installation of piles; or used for the hoisting or lowering of any article on the outside of any building or structure.
1.1 Exemptions.-Exempt from the requirements of this reference standard are the following:
1.1.1 Cranes or derricks used in industrial or commercial plants or yards and floating cranes, floating derricks and cranes and derricks used on floating equipment. Also augers, churn-drills and other drilling equipment. Operators of such equipment shall be exempt from any licensing requirements.
1.1.2 Operators of cranes described in section C26-1909.4(a)(3) and (4) of the administrative code shall be exempt from any licensing requirements where the cranes are used in connection with the installation or maintenance of street lighting or public utility overhead power distribution systems.
1.1.3 Derricks having a maximum rated capacity not exceeding one ton.
2.0 Definitions.-
2.1 ACCESSORY.-A secondary part of assembly of parts which contributes to the overall function and usefulness of a machine.
2.2 APPOINTED.-Assigned specific responsibilities by the employer or by the employers representative.
2.3 ANGLE INDICATOR (boom).-An accessory which measures the angle of the boom to the horizontal.
2.4 AUXILIARY HOIST.-(See Whipline).
2.5 AXIS OF ROTATION.-The vertical axis around which the crane superstructure rotates.
2.6 AXLE.-The shaft or spindle with which or about which a wheel rotates. On truck and wheel mounted cranes it refers to an automotive type of axle assembly including housing, gearing, differential, bearings and mounting appurtenances.
2.7 AXLE (bogie).-Two or more automotive type axles mounted in tandem in a frame so as to divide the load between the axles and permit vertical oscillation of the wheels.
2.8 BASE (mounting).The base or carrier on which the rotating superstructure is mounted such as a truck, crawler or platform.
2.9 BOOM.A timber or metal section or strut. The heel (lower end) is affixed to a base, carriage or support, and the upper end supports a cable and sheaves where the load is lifted by means of wire rope and hook.
2.10 BOOM ANGLE. The angle between the longitudinal centerline of the boom and the horizontal. The boom longitudinal centerline is a straight line between the boom foot pin (heel pin) centerline, and boom point sheave pin centerline.
2.11 BOOM HARNESS. The block and sheave arrangement on the boom point to which the topping lift cable is reeved for lowering and raising the boom.
2.12 BOOM HOIST-A hoist drum and rope reeving system used to raise and lower the boom.
2.13 BOOM POINT.-The outward end of the top section of the boom.
2.14 BOOM STOP.-A device used to limit the angle of the boom at the highest position.
2.15 BRAKE.-A device used for retarding or stopping motion by friction or power means.
2.16 CAB.-A housing which covers the rotating superstructure machinery and/or operators station.
2.16. 1 CABLEWAY.-A power operated system for moving loads in a generally horizontal direction in which the loads are conveyed on an overhead cable, track or carriage.
2.16.2 CLIMBER CRANE.-A crane erected upon and supported by a building or other structure which may be raised or lowered to different floors or levels of the building or structure.
2.17 CLUTCH.-A friction, electromagnetic, hydraulic, pneumatic or positive mechanical device for engagement of power.
2.18 COUNTERWEIGHT.-Weight used to supplement the weight of the machine in providing stability for lifting working loads.
2.19 CRANE.-A power operated machine for lifting or lowering a load and moving it horizontally which utilizes wire rope and in which the hoisting mechanism is an integral part of the machine.
2.20 CRAWLER CRANE.-A crane consisting of a rotating superstructure with power plant, operating machinery and boom, mounted on a base, equipped with crawler treads for travel.
2.21 DERRICK.-An apparatus consisting of a mast or equivalent members held at the top by guys or braces, with or without a boom, for use with a hoisting mechanism and operating rope, for lifting or lowering a load and moving it horizontally.
2.21.1 A-FRAME DERRICK.-A derrick in which the boom is hinged from a cross member between the bottom ends of two upright members spread apart at the lower ends and joined at the top; the boom point secured to this junction of the side members, and the side members are braced or guyed from the junction point.
2.21.2 BASKET DERRICK.-A derrick without a boom, similar to a gin pole with its base supported by ropes attached to corner posts or other parts of the structure. The base is at a lower elevation than its supports. The location of the base of a basket derrick can be changed by varying the length of the rope supports. The top of the pole is secured with multiple reeved guys to position the top of the pole to the desired location by varying the length of the upper guy lines. The load is raised and lowered by ropes through a sheave or block secured to the top of the pole.
2.21.3 BREAST DERRICK-A derrick without a boom. The mast consists of two side members spread farther apart at the base than at the top and tied together at top and bottom by rigid members. The mast is prevented from tipping forward by guys connected to its top. The load is raised and lowered by ropes through a sheave or block secured to the top crosspiece.
2.21.4 CHICAGO BOOM DERRICK.-A boom which is attached to a structure, an outside upright member of the structure serving as the mast, and the boom being stepped in a fixed socket clamped to the upright. The derrick is complete with load, boom and boom point swing line falls.
2.21.5 GIN POLE 2 DERRICK-A derrick without a boom. Its guys are so arranged from its top to permit leaning the mast in any direction. The load is raised and lowered by ropes reeved through sheaves or blocks at the top of the mast.
2.21.6 GUY DERRICK.-A fixed derrick consisting of a mast capable of being rotated, supported in a vertical position by guys, and a boom whose bottom end is hinged or pivoted to move in a vertical plane with a reeved rope between the head of the mast and the boom point for raising and lowering the boom, and a reeved rope from the boom point for raising and lowering the load.
2.21.7 SHEARLEG DERRICK-A derrick without a boom. The mast, wide at the bottom and narrow at the top, is hinged at the bottom and has its top secured by a multiple reeved guy to permit handling loads at various radii by means of load tackle suspended from the mast top.
2.21.8 STIFFLEG DERRICK-A derrick similar to a guy derrick except that the mast is supported or held in place by two or more stiff members, called stifflegs, which are capable of resisting either tensile or compressive forces. Sills are generally provided to connect the lower ends of the stifflegs to the foot of the mast.
2.22 DRUM.-The cylindrical members around which ropes are wound for raising and lowering the load or boom.
2.23 DYNAMIC (loading).-Loads introduced into the machine or its components by forces in motion.
2.23.1 ENGINEER.-The word engineer as used in these regulations shall mean a licensed professional engineer except that the certifications for matters relating to crane design may be made by an engineer licensed by any state or foreign jurisdiction or upon proof, to the satisfaction of the commissioner, of his professional competence.
2.23.2 FOLDING BOOM.-A boom constructed of hinged sections which is articulated in a folding manner and may be folded for storage or transit.
2.24 GANTRY(A-Frame)-A structural frame, extending above the superstructure of a mobile crane, to which the boom supports ropes are reeved.
2.25 GUDGEON PIN.-A pin connecting the mast cap to the mast, allowing rotation of the mast.
2.26 GUY.-A rope used to steady or secure the mast or other members in the desired position.
2.26.1. HOISTING MACHINE-A power operated machine used for lifting or lowering a load, utilizing a drum and wire rope, excluding elevators. This shall include but not be limited to a crane, derrick, and cableway.
2.26.2 HYDRAULIC BOOM.-A boom which is operated by means of a hydraulic system.
2.27 JIB.-An extension attached to the boom point to provide added boom length for lifting specified loads. This jib may be in line with the boom or offset to various angles.
2.27.1 LAY.-That distance measured along a cable in which one strand makes a complete revolution around the cable axis.
2.28 LOAD (working).-The external load, in pounds, applied to the crane or derrick, including the weight of auxiliary load attaching equipment such as load blocks, shackles, and slings.
2.29 LOAD BLOCK (upper).-The assembly of hook or shackle, swivel, sheaves, pins, and frame suspended from the boom point.
2.30 LOAD BLOCK (lower).-The assembly of hook or shackle, swivel, sheaves, pins and frame suspended by the hoisting ropes.
2.31 LOAD HOIST.-A hoist drum and rope reeving system used for hoisting and lowering loads.

Section 2.31.1 shall be added as follows:
2.31.1 LOAD INDICATOR. - A device that measures the weight of the load.

2.32 LOAD RATINGS.-Maximum loads that may be lifted by a crane or derrick at various angles and positions as approved by the department.
2.33 MAST.-The upright member of a derrick.
2.33.1 MOBILE CRANE.-A crawler crane; a truck crane; or a wheel mounted crane.
2.34 OUTRIGGERS.-Extendable or fixed metal arms, attached to the mounting base, which rests on supports at the outer ends.

Section 2.34.1 shall be added as follows:
2.34.1 QUALIFIED PERSON. - A person who by possession of a recognized degree, certificate or professional standing or who by knowledge, training and experience has successfully demonstrated his/her ability to solve or resolve problems related to the subject matter, the work, or the project.

Section 2.34.2 shall be added as follows:
2.34.2 RATED CAPACITY INDICATOR. - A device that automatically monitors radius, load weight, and load rating and warns the crane operator of an overload condition.

Section 2.34.3 shall be added as follows:

2.34.3 RATED CAPACITY (LOAD) LIMITER. - A device that automatically monitors radius, load weight, and load rating and prevents movements of the crane which would result in an overload condition.

2.35 REEVING.-A rope system in which the rope travels around drums and sheaves.

2.36 ROPE.-Refers to wire rope unless otherwise specified.

2.37 SIDE LOADING.-A load applied at an angle to the vertical plane of the boom.

2.38 SILL.-A member connecting the foot block and stiffleg or a member connecting the lower ends of a double member mast.

2.39 STANDING (GUY) ROPE.-A supporting rope which maintains a constant distance between the points of attachment to the two components connected by the rope.

2.40 STRUCTURAL COMPETENCE.-The ability of the machine and its component to withstand the stresses imposed by applied loads.

2.41 SUPERSTRUCTURE. The rotating upper frame structure of the machine and the operating machinery mounted thereon.

2.42 SWING. Rotation of the superstructure for movement of loads in a horizontal direction about the axis of rotation.

2.43 SWING MECHANISM. The machinery involved in providing rotation of the superstructure.

2.44 TACKLE. An assembly of ropes and sheaves arranged for hoisting and pulling.

2.44.1 TELESCOPIC BOOM.A boom constructed of sections of diminishing cross sections in which the sections fit within each other. The boom may be extended in a manner similar to a telescope.

2.44.2 TOWER CRANE.-A crane in which a boom, swinging jib or other structural member is mounted upon a vertical mast or tower.

2.45 TRANSIT.-The moving or transporting of a crane from one job site to another.

2.46 TRAVEL.-The function of the machine moving from one location to another, on a job site.

2.47 TRAVEL MECHANISM.-The machinery involved in providing travel power.

2.48 TRUCK CRANE.-A crane consisting of a rotating superstructure with power plant, operating machinery and boom, mounted on an automotive truck equipped with a power plant for travel.

2.48.1 TRUCK MOUNTED TOWER CRANE.-A tower crane which is mounted on a truck or similar carrier for travel or transit.

Section 2.48.2 shall be added as follows:

2.48.2 TWO-BLOCKING. - A condition in which the lower load block or hook assembly comes into contact with the upper load block or boom point sheave assembly.

2.49 WHEEL BASE.-Distance between centers of front and rear axles. For a multiple axle assembly the axle center wheel base measurement is taken as the midpoint of the assembly.

2.50 WHEEL MOUNTED CRANE (wagon crane).-A crane consisting of a rotating superstructure with power plant, operating machinery and boom, mounted on a base or platform equipped with axles and rubber tired wheels for travel. The base is usually propelled by the engine in the superstructure, but it may be equipped with a separate engine controlled from the superstructure. Its function is to hoist and swing loads at various radii.

2.51 WHIPLINE (auxiliary hoist).-A separate hoist rope system of lighter load capacity and higher speed than provided by the main hoist.

2.52 WINCH HEAD.-A power driven spool for handling of loads by means of friction between fiber or wire rope and spool.

Section 3.0 deleted in its entirety as follows and replaced with the following:

[3.0 Filing Applications-for Approval and Operation of Cranes and Derricks.-

*3.1.1 The following information shall be submitted by an engineer:

1. Design calculations for:
(a) Boom or mast
(b) Jib or extensions
(c) Gantries
(d) Counterweight supports and attachments
(e) Rope
(f) Overturning stability
Only items (a), (b) and (e) of this subparagraph shall apply to derricks.
2. Load test reports where required under this reference standard.
3. A material specification statement certifying the type of steel used in the construction of items (a) through (e) of subparagraph one above.
4. A list of standards used in design and testing.
5. The requirements of subparagraphs one through four above shall be waived for cranes where such information is not available, provided that the equipment satisfies the load test requirements of section 7.0 of this reference standard, which shall apply to the following categories:
(a) Cranes which had a certificate of inspection on or after January 1, 1965.
(b) Cranes manufactured on or April 1, 1962 and prior to April 1, 1970 provided that:
(1) The application is filed with the department of buildings and a certificate of approval is obtained within two years after the enactment of this local law, and
(2) Title to the crane has been in name of the applicant since December 31, 1971.
6. Where cranes manufactured after April 1, 1970 have been tested pursuant to subdivision 6.1 of this reference standard, the requirements of paragraph 3.1.1 above shall be waived, provided that:
(a) The tests are monitored and certified by a competent individual or group, other than the manufacturer, acceptable to the commissioner, or
(b) At the discretion of the commissioner, the tests are monitored and certified by the department, or
(c) In lieu of the monitoring and certification of the tests as provided in items (a) and (b) above, the commissioner shall require design calculations for those items in paragraph 3.1.1 as he shall deem necessary to supplement the tests and reference standard RS 10-5 need not apply.

Local Law 50-1973]

3.0 Filing Applications for Approval and Operation of Cranes and Derricks. -

3.1 Certificate of approval. -The application for a certificate of approval required by Subchapter 19, Article 10 of the New York City Building Code shall be filed by an engineer and shall include the following information:

1. Affidavit of compliance from the manufacturer as detailed in section 3.2 below,
2. Operator's manual showing all configurations for which the engineer is seeking approval, general equipment specifications and manufacturer's recommended maintenance procedures,
3. An advertising brochure or drawing showing the general configuration and specifications for which the engineer is seeking approval,
4. Load rating chart with chart number and page numbers for identification,
5. Certification from the engineer that he/she has reviewed the manufacturer's design calculations and testing or has prepared sufficient calculations, as prescribed in section 3.2 below and found that the design of the derrick or crane conforms to the New York City Building Code, and
6. Any supporting data, drawings, or calculations upon request.

Exception: Third party certification: In lieu of the engineer's certification of the design calculations, the engineer may submit a third-party certification by a competent individual or organization, other than the manufacturer, acceptable to the commissioner stating that the tests specified in section 4.2 below were monitored and certified.

3.2 Affidavit of compliance. - The affidavit of compliance from the manufacturer shall include the following:

1. List of all components; maximum boom length, maximum jib(s) length, maximum length of all other attachments,
2. List of all counterweight combinations,
3. List of standards used in the design of the boom and/or mast,
4. List of standards used in the design of the jib and/or extensions,
5. List of standards used in the design of the boom support system,
6. List of standards used in the design of the counterweight support system and attachments,
7. List of standards used in the design of the rope,
8. List of standards used in design of overturning stability,
9. List of standards used in the prototype testing, and
10. List of material(s) and material specifications used in the components listed in Numbered Items 3-7 above.

Exception to required items: Numbered items 2, 6, 8, and 9 above are not required for derricks.

Section 4.0 shall be deleted in its entirety as follows and replaced with the following:

[* 4.0 Design of Boom and Other Structural Members.-The boom shall be designed as a beam column, subject simultaneously to axial force, torsion and bending. Stresses induced in the boom by its movement and due to wind during normal operation shall be considered. Stresses of the boom or other structural members enumerated in 1 of 3.1.1 shall not exceed those permitted by reference standard RS 10-5 for mobile cranes with hydraulic booms, for derricks and for tower and climber cranes.
Local Law 50-1973]

4.0 Design, construction, and testing of mobile cranes. -

4.1 Design and construction of mobile cranes.-

4.1.1 Design and construction of mobile cranes manufactured and submitted prior to October 1, 2006. Mobile cranes, and their components, manufactured and submitted prior to October 1, 2006 shall, in their entirety, be designed and constructed in accordance with ANSI B30.5 – 1968.

4.1.2 Design and construction of mobile cranes manufactured and submitted on or after October 1, 2006. Mobile cranes, and their components, manufactured and submitted on or after October 1, 2006, shall, in their entirety, be designed and constructed in accordance with one of the following standards:

1. ANSI B30.5 – 2004 Chapter 5-1 except Section 5-1.9.9
2. CEN EN 13000 (2004) except Section 4.2.6

4.1.3 Design and construction of mobile cranes manufactured prior to October 1, 2006 but submitted after October 1, 2006. Mobile cranes, and their components, submitted on or after October 1, 2006, but manufactured before October 1, 2006, shall, in their entirety, be designed and constructed in accordance with one of the following standards:

1. ANSI B30.5 – 2004 Chapter 5-1 except Section 5-1.9.9
2. ANSI B30.5 – 2000 Chapter 5-1 except Section 5-1.9.9
3. ANSI B30.5 – 1994 Chapter 5-1 except Section 5-1.9.9
4. ANSI B30.5 – 1989 Chapter 5-1 except Section 5-1.9.9
5. ANSI B30.5 – 1982 Chapter 5-1 except Section 5-1.9.9
6. CEN EN 13000 (2004) except Section 4.2.6
7. Such other standard as the Commissioner deems appropriate.

4.2 Prototype testing of mobile cranes. -

4.2.1 Prototype testing of mobile cranes submitted prior to October 1, 2006. A prototype of each mobile crane, and their components, submitted before October 1, 2006 shall be tested for strength and stability in accordance with ANSI B30.5-1968. Lattice boom cranes shall also be tested in accordance with SAE J987 and all mobile cranes with lattice or hydraulic booms shall also be tested in accordance with SAE J765.

4.2.2 Prototype testing of mobile cranes submitted on or after October 1, 2006. A prototype of each mobile crane, and their components, submitted on or after October 1, 2006 shall meet the prototype testing requirements in Test Option A or Test Option B as outlined below:

1. 1. Test Option A:
(a) The following applies to equipment with cantilevered booms (such as hydraulic boom cranes): All tests listed in SAE J1063 - 1993, Table 1, shall be performed to load all critical structural elements to their respective limits. All the strength margins listed in SAE J1063 - 1993, Table 2 shall be met.
(b) The following applies to equipment with pendant supported lattice booms: All the tests listed in SAE J987 - 2003, Table 1, shall be performed to load all critical structural elements to their respective limits. All the strength margins listed in SAE J987 – 2003, Table 2 shall be met.
(c) Load rating charts shall be established by tests performed in accordance with SAE J765 - 1990, Crane Load Stability Test.

2. Test Option B:
(a) The following applies to equipment with cantilevered booms (such as hydraulic boom cranes): The analysis methodology, such as computer modeling, must demonstrate that all load cases listed in SAE J1063 - 1993 meet the strength margins listed in SAE J1063-1993 Table 2.
(b) The following applies to equipment with pendant supported lattice booms: The analysis methodology, such as computer modeling, must demonstrate that all load cases listed in SAE J987 - 2003 meet the strength margins listed in SAE J987- 2003 Table 2.
(c) The analysis methodology, such as computer modeling, must demonstrate that the load chart ratings meet the requirements of SAE J765 - 1990.
(d) Analysis verification. The physical testing requirements under SAE J1063 - 1993 and SAE J987 - 2003 must be met unless the reliability of the analysis methodology, such as computer modeling, has been demonstrated by a documented history of verification through strain gauge measuring or strain gauge measuring in combination with other physical testing. The physical testing requirements of SAE J765 – 1990 must be met unless the reliability of the analysis methodology, such as computer modeling, has been demonstrated by physical testing.

Section 5 shall be deleted in its entirety as follows:

[* 5.0 Use of Special Steels. -All steel used in the construction of a crane or derrick not specifically accepted for use by the New York City Building Code or an appropriate reference standard thereof, must be approved by the commissioner.
Local Law 50-1973]

Section 6 shall be deleted in its entirety as follows:

[* 6.0 Load Tests for New Mobile Cranes.-

6.1 A prototype of each mobile crane, except those with hydraulic booms, manufactured after April 1, 1970 shall be tested for strength and stability in accordance with ANSI B30.5-1968 of the American National Standard Safety Code for Crawler Locomotive and Truck Cranes and in compliance with SAE J987 and SAE J765.

6.2 For mobile cranes with hydraulic booms, a prototype shall be tested in accordance with SAE J765.

6.3 Prior approval of the testing program shall be obtained from

the department before performing any load tests after the effective date of this section. The department shall be notified in writing, at least one week in advance, of the date and location of such testing.]

Section 7 shall be deleted in its entirety as follows:
[7.0 Load Tests for Other Mobile Cranes.-
* 7.1 Mobile cranes which comply with the provisions of 5 of 3.1.1 for which the information specified in 1 and 3 of 3.1.1. is not available, shall undergo a load test as follows:
1. Maximum load used shall not exceed 20,000 pounds.
2. The crane shall be tested at no more than two different radii determined by the commissioner to determine its compliance with manufacturer's load rated chart as required pursuant to these regulations. Upon satisfaction of this test requirement, the crane may be operated to the capacities represented on the chart.
Local Law 50-1973
** 3. A crane tested prior to July 1, 1972 shall be deemed to comply with the requirements of subdivision 13.1 of this standard, provided that the load ratings established by such tests are no greater than eighty (80%) percent of the test loads and in no case greater than those indicated on the manufacturer's load rating chart.

8.0 Certificate of On-Site Inspection.-
8.1 Use of cranes and derricks at job sites. -
8.1.1 In order to operate a crane or derrick at a job site, a certificate of on-site inspection is required as stipulated in C26-1909.4(d). The owner of the premises, building or structure, or his designated representative, shall file an application in quadruplicate at the department office in the borough where the premises is located. Such application shall be accompanied by plans showing proposed locations of the crane or derrick, pertinent features of the site such as assumed soil bearing values, ground elevations and slopes, vaults or other subsurface structures, supporting platforms or structures, and the swing of the crane or derrick. Also, a document shall be submitted, signed by a licensed engineer or registered architect which shall include the following information where the crane or derrick is to be supported by soil:
(a) That he has inspected the soil at the proposed location or locations of the crane or derrick;
(b) His estimate of the soil bearing value;
(c) That he has explored the existence of any sheeting or retaining walls supporting soil adjoining any excavation which may be affected and certifies as to its adequacy;
(d) If the crane or derrick is to be on the street, that he has explored the existence of vaults or other subsurface structures which could impair the bearing value of the street or sidewalk;
(e) That the load imposed upon the soil by the crane or derrick including supporting platform, does not exceed such bearing value under any condition of loading.
8.1.2 Where a crane not exceeding 160 feet in height, including jibs and any other extensions to the boom is to be used for a period not exceeding 24 hours, or a crane not exceeding 50 feet in height, including jibs and any other extensions to the boom with a maximum rated capacity of 20 tons, is to be positioned on the roadway or sidewalk, a certificate of on-site inspection shall be required. However, the requirements relating to plans and a document of a licensed professional engineer or registered architect enumerated in 8.1.1 of this reference standard shall not apply nor shall the three regular working day provisions of section C26-1909.4(d) be applicable under the following conditions:
(1) That a prototype approval has been obtained showing the means required to distribute the weight of the crane and the maximum working loads.
(2) A statement from the owner of the structure, building or premises or his authorized agent that he visited the site and that there are no excavations or retaining walls and that no vaults or subsurface construction exists at the site.
8.1.3 A certificate of on-site inspection shall not be required under the following conditions:
* 8.1.3.1 For a crane not exceeding 160 feet in height including jibs and any other extensions to the boom, which is to be used for a period not exceeding 48 hours and operating entirely within the property lines and in such locations which are at least a boom length, including jibs and any extensions thereof, distant from all lot lines.
Local Law 50-1973
8.1.3.2 For service cranes and clamshells operated entirely within the property lines and within such locations which do not involve the moving of any loads over the roadway or sidewalk. This exemption shall apply only to cranes with a boom length, including jibs and any extension thereof, not exceeding 110 feet.
*8.1.3.3 For the use of cranes as provided for in 8.1.3.1 and 8.1.3.2, notice of the operation of the crane at the job site shall be given to the division of cranes and derricks, department of buildings, by telephone and confirmed in writing. It shall be the responsibility of an appointed person to provide firm and uniform footing and, when necessary, provide substantial timbers, cribbing or other structural members sufficient to distribute the load so as not to exceed the safe bearing capacity of the underlying material.
Local Law 50-1973
8.2 Cranes or Derricks Supported by a Building or Structure.-
8.2.1 Where the crane or derrick is supported by a building or a structure, the statement by the licensed engineer or registered architect referred to in 8.1.1 shall include the means of supporting and bracing the equipment.
The swing of the crane or derrick shall be shown on the plans to insure clearance during operation. Computations shall be submitted with the application showing all reactions imposed on the structure by the crane or derrick, including those due to impact and wind. Such computations shall verify that the stability of the building or structure will not be impaired when the crane or derrick is in operation and that no structural members will be overstressed due to forces induced by the crane or derrick.
8.2.2 Concrete Structures.-If the structure is a concrete structure, test reports of the compression strength of the concrete shall be submitted to insure that the concrete supports of the crane or derrick have developed sufficient strength to support the crane or derrick before it is installed.
The means for establishing concrete strength before imposing crane or derrick loads upon the structure shall be indicated on the application.
8.2.3 All anchorages for cranes and derricks shall be approved by an appointed person.
8.3 Use of Pile Drivers and Clamshells.-
8.3.1 A certificate of on-site inspection shall not be required for pile drivers or clamshells operating entirely within the lot lines under the following conditions:
8.3.1.1 Where pile driving equipment is designed or supported on a platform so that the soil bearing pressure does not exceed 500 pounds per square foot, a certificate of on-site inspection shall not be required.
8.3.1.2 Where clamshells are operating on construction sites and are at least the depth of excavation height from the edge of the excavation and where the soil bearing pressure does not exceed 500 lbs. per square foot, a certificate of on-site inspection shall not be required.
8.3.1.3 Where the pressure on the soil is in excess of 500 pounds per square foot but does not exceed 2,500 pounds per square foot, a pile driver or clamshell may be operated without a certificate of on-site inspection under the following conditions:
(1) That borings have been filed with the department in the construction application under which the work is being performed, and
(2) An amendment is filed to such application by an engineer or architect certifying that on the basis of the borings, the soil is adequate to support the load to be imposed thereon by the subject equipment.
8.4 The Requirements of 8.1.1, 8.2 and Sections C26-1909.4(d) Shall also Apply to Cableways.-
**8.5 Notwithstanding the provisions of 8.0 through 8.4 where a crane is operated on the sidewalk or roadway, a permit from the department of highways shall be obtained and the pressure on such surface shall not exceed 3500 pounds per square foot. The pressure shall be distributed on the roadway by means of timber platforms extending not less than twelve (12) inches beyond the base of the outriggers on all sides and sufficiently thick to uniformly distribute the pressure as required above of all the loads including the weight of the crane. The timber mats shall have a minimum thickness of two (2) inches. All cranes equipped with steel tracks shall be supported by timber platforms not less than six inches thick and covering the entire base of the crane.
*** Local Law 73-1969; 479-77 BCR***

9.0 Unsafe Hoisting Machines.-
9.1 When it is found that equipment is dangerous or unsafe a notice or order to stop work may be issued by the commissioner, or his authorized representative. Such notice or order may be given to the owner or lessee of the equipment involved, or to the agent of any of them, or to the person or persons executing the work or operating the equipment in writing. If the operation of the hoisting machine is not discontinued, the inspector shall report same to his superior and an engineer shall be sent to reinspect. Upon confirmation of the unsafe condition by the engineer, the hoisting machine shall be red tagged. All persons shall be prohibited from using the said equipment until the danger is removed or the unsafe condition is rectified. An unsafe notice shall not be removed from the equipment, except by an authorized inspector or representative of the department of buildings.

10.0 Annual Renewal of Certificate of Operation.-
Application for renewal of a certificate of operation, as stipulated in C26-1909.4 (c), shall be accompanied by inspection and maintenance records in accordance with 15.1 and 18.1. Upon approval of the application, a new certificate of operation shall be issued after a satisfactory inspection by a department inspector.

Section 11 shall be deleted in its entirety as follows:
[11.0 Welded Construction.-
11.1 Welding of structural members of cranes and derricks enumerated in 1 and 2 of 3.1.1 shall conform to the recommended practices of the American Welding Society as outlined in specifications for welded highway and railway bridges AWS D2.0-66 or other recognized standards or pursuant to RS 19-2.
11.2 For welding of steels not covered by AWS D2.0-66, for all cranes manufactured after April 1, 1970 and all welding performed after that date shall conform to recognized standards.
11.3 The commissioner may require such welds to be tested as he deems necessary.]

Section 12 shall be deleted in its entirety as follows:
[12.0 Load Ratings and Stability of Cranes and Derricks.-
12.1 Load Ratings-Where Stability Governs Lifting Performance (Mobile Cranes).-
12.1.1 Load ratings for mobile cranes manufactured after April 1, 1970 shall be established by tests performed in accordance with crane load stability test code, SAE J765, April, 1961.
*12.1.2 The margin of stability for determination of load ratings, with booms of stipulated lengths at stipulated working radii for the various types of crane mountings shall be established at 75 percent of the load which will produce a condition of tipping or balance with the boom in the least stable direction relative to the mounting where overturning stability governs the lifting performance. The percentage may be increased to 85 percent for truck cranes which are provided with the safety devices specified in 19.1.1.
Local Law 50-1973]

13.0 Load Ratings Where Structural Competence Governs Lifting Performance.-

Section 13.1 shall be revised as follows:
13.1 [Load rating at some radii for mobile cranes and] Load ratings for climber, tower cranes and derricks are governed by structural competence. Therefore, the limitation on crane loading must be such that no structural member is overstressed, and load rating charts shall be subject to this limitation.

13.2 Load Rating Chart.-

Section 13.2.1 shall be deleted in its entirety as follows:
[13.2.1 Mobile cranes.-A durable angle and load chart with clearly legible letters and figures shall be provided with each mobile crane and securely fixed to the crane cab in a location easily visible to the operator while seated at his control station. The chart shall contain a full and complete range of crane load ratings, as approved by the department, at all stated operating radii and boom angles, and for all permissible boom lengths, job lengths and angles, also alternate ratings for use and non-use of optional equipment on the mobile crane, such as outriggers and counterweights which affect ratings. The chart shall also contain essential precautionary or warning notes relative to limitations on equipment and operating procedures, including indication of the least stable position. In addition, the chart shall include the following statement:
"Load ratings shown on this chart makes no allowance for such factors as the effect of freely suspended loads, wind, ground conditions, inflation of rubber tires and operating speeds. The operator therefore shall reduce load ratings in order to take these conditions into account."]

Section 13.2.2 shall be deleted in its entirety as follows:
[13.2.2 Each mobile crane, excluding those used with pile driving or dragline equipment, with a maximum rated capacity exceeding one ton shall be provided with a boom angle indicator that shall make the boom angle in degrees clearly visible to the operator at all times. Such crane, except when used with a clamshell, shall be equipped with safety devices as stipulated in 19.1(a), (c), (d) and (e).]

Section 13.2.3 shall be renumbered as follows:
13.2.1 [3] Tower and climber cranes.-A substantial, durable and clearly legible rating chart shall be provided with each tower and climber crane and securely affixed in the cab. The chart shall include load ratings approved by the department for specific lengths of components, counterweights, swing, and radii.

Section 14 shall be deleted in its entirety as follows:
[14.0 Backward Stability of Mobile Cranes.-The backward stability of a mobile crane is its ability to resist overturning in the backward direction while in the unloaded condition. The degree of resistance to backward overturning is reflected in the margin of backward stability.
14.1 The general conditions applicable to mobile cranes for determination of backward stability margin are as follows:
14.1.1 Crane to be equipped for normal crane operation with shortest recommended boom.
14.1.2 Boom positioned at minimum recommended radius.
14.1.3 Crane to be unloaded.
14.1.4 Outriggers free of the bearing surface unless specified by manufacturer for stationary use.
14.1.5 Crane to be standing on firm supporting surface level within one percent grade.
14.1.6 All fuel tanks at least half full.
14.2 The following are minimum acceptable backward stability conditions for the various types of mobile cranes:
14.2.1 Crawler cranes.-The horizontal distance between the center of gravity of the crane and the axis of rotation shall not exceed 70% of the radial distance from the axis of rotation to the backward tipping fulcrum in the least stable direction.
14.2.2 Truck and wheel mounted cranes.-
(a) With the longitudinal axis of the rotating superstructure of the crane at 90 degrees to the longitudinal axis of the carrier, the total load on all wheels on the side of the carrier under the boom shall not be less than 15 percent of the total weight of the crane.
(b) With the longitudinal axis of the rotating superstructure of the crane in line with the longitudinal axis of the carrier, in either direction, the total load on all wheels under the lighter loaded end of the carrier shall not be less than 15 percent of the total weight of the crane.]

15.0 Inspection Required by Owner for Cranes and Derricks.-

15.1 Certification and inspections required.-The owner of a crane or derrick when applying for a certificate of approval in accordance with 3.0 shall certify that all applicable regulations regarding inspection and maintenance will be complied with. All inspections required by the owner shall be performed only by appointed personnel. The inspections shall be performed to provide information requested in a department supplied chart and all deficiencies shall be corrected. No record of information not required by such chart shall be required to be maintained in writing.
15.2 Inspection classification.-Inspection procedure for cranes and derricks in regular service is divided into two general classifications based upon the intervals at which inspection should be performed. The intervals in turn are dependent upon the nature of the critical components of the crane or derrick and the degrees of their exposure to wear, deterioration or malfunction. The two general classifications are herein designated as "frequent" and "periodic" with respective intervals between inspections as defined below:
15.2.1 Frequent inspection.-Daily to monthly intervals.
15.2.2 Periodic inspection.-1 to 12 month intervals or as specifically recommended by the manufacturer.
***15.3 Frequent inspection.**-Items such as the following shall be inspected for defects at intervals as defined in 15.2.1 or as specifically indicated, including observation during operation for any defects which might appear between regular inspections. Any defects revealed by inspection shall be corrected. Where such defects constitute a safety hazard, the crane or derrick shall not be operated until such defects are corrected.
Local Law 50-1973
15.3.1 All control mechanisms for maladjustment interfering with proper operation.-Daily.
15.3.2 All control mechanisms for excessive wear of components and contamination by lubricants or other foreign matter.
15.3.3 All safety devices for malfunction.
15.3.4 Deterioration or leakage in air or hydraulic systems.-Daily
*15.3.5 Crane or derrick hooks with deformations or cracks.-Refer to 17.3.3(c).
Local Law 50-1973
15.3.6 Rope reeving for non-compliance with crane or derrick manufacturer's recommendations.
15.3.7 Electrical apparatus for malfunctioning, signs of excessive deterioration, dirt, moisture accumulation, weatherproofing and grounding.
15.3.8 Tension in derrick guys.-Daily.
15.3.9 Plumb of derrick mast.
15.3.10 Hoist brakes, clutches and operating levers.-Check daily for proper functioning before beginning operations.
***15.4 Periodic inspections of cranes and derricks.**-Complete inspections of the crane or derrick shall be performed at intervals as generally defined in 15.2.2, depending upon its activity, severity of service, and environment, or as required by 15.5.1 or 15.5.2. These inspections shall include the requirements of 15.0, and in addition, items specifically indicated below. Any

defects revealed by inspection shall be corrected. Where such defects constitute a safety hazard the crane or derrick shall not be operated until such defects are corrected.
Local Law 50-1973
15.4.1 Deformed, cracked or corroded members in the crane or derrick structure and boom.
15.4.2 Loose bolts or rivets.
15.4.3 Cracked or worn sheaves and drums.
15.4.4 Worn, cracked or distorted parts such as pins, bearings, shafts, gears, rollers and locking devices.
15.4.5 Excessive wear on brake and clutch system parts, linings, pawls and ratchets.
15.4.6 Load, boom angle and other indicators over their full range, for any significant inaccuracies.
15.4.7 Gasoline, diesel, electric or other power plants for improper performance or non-compliance with safety requirements.
15.4.8 Excessive wear of chain drive sprockets and excessive chain stretch.
15.4.9 Crane or derrick hooks.-Magnetic particle or other suitable crack detecting inspection should be performed at least once each year by an inspection agency retained by the owner and approved by the department. Certified inspection reports are to be made available to the department upon request.
15.4.10 Travel steering, braking and locking devices, for malfunction.
15.4.11 Excessively worn or damaged tires.
15.4.12 Derrick gudgeon pin for cracks, wear and distortion each time the derrick is to be erected.
15.4.13 Foundation or supports shall be inspected for continued ability to sustain the imposed loads.
15.5 Cranes or derricks not in regular use.-

Section 15.5.1 shall be revised as follows:
15.5.1 A crane or derrick which has been idle for the period of one month or more, but less than six months, shall be given an inspection by the owner conforming with requirements of 15.3 and [18.1.3] 18.1.1 before an application for a certificate of on-site inspection in accordance with [C26-1909.4(d)] 27-1057(d) is submitted to the department.

Section 15.5.2 shall be revised as follows:
15.5.2 A crane which has been idle for the period of over six months, shall be given a complete inspection by the owner conforming with requirements of 15.3, 15.4 and [18.13] 18.1.2 before an application for a certificate of on-site inspection in accordance with [C26-1909.4(d)] 27-1057(d) is submitted to the department.

16.0 Testing Required for Cranes and Derricks, Manufactured After April 1, 1970, by Manufacturer or Owner.-
16.1 Operational test.-
16.1.1 In addition to prototype tests and quality control measures, each new production crane and derrick shall be tested by the manufacturer to the extent necessary to insure compliance with the operational requirements of this section, including functions such as the following:
(a) Load hoisting and lowering mechanisms.
(b) Boom hoisting and lowering mechanisms.
(c) Swinging mechanism.
(d) Traveling mechanism.
(e) Safety devices.
16.1.2 Where the complete production crane or derrick is not supplied by one manufacturer such tests shall be conducted at final assembly.
6.1.3 Operational test and production test results certified by the manufacturer or a licensed professional engineer shall be made available to the department with each application for a certificate of approval for a crane or derrick, in accordance with 3.0.
16.1.4 For all cranes and derricks, where electrically powered, the trip setting of hoist limit switches shall be determined by tests with an empty hook traveling in increasing speeds to the maximum speed. The activating mechanism of the limit switch shall be located so that it will trip the switch under all conditions in sufficient time to prevent contact of the hook or load block with any part of the derrick or crane.

17.0 Maintenance of Cranes and Derricks.-
17.1 Preventive maintenance.-
17.1.1 A preventive maintenance program based on the crane or derrick manufacturer's recommendations shall be established. Dated and detailed records shall be readily available to the department.
17.1.2 It is recommended that replacement parts be obtained from the original equipment manufacturer.
17.2 Maintenance procedure.-
17.2.1 Before adjustments and repairs are started on a crane or derrick, the following precautions shall be taken as applicable:
(a) Crane or derrick placed or arranged where it will cause the least interference with other equipment or operations in the area.
(b) All controls at the "off" positions.
(c) Starting means rendered inoperative.
(d) Warning or "out of order" signs placed on the crane or derrick and hoist.
(e) Power plant stopped or disconnected at take-off.
(f) Boom lowered to the ground if possible or otherwise secured against dropping.
(g) Lower load block lowered to the ground or otherwise secured against dropping.
17.2.2 After adjustment and repairs have been made, the crane or derrick shall not be operated until all guards have been reinstalled, safety devices reactivated and maintenance equipment removed.
17.3 Adjustments and Repairs.-
*17.3.1 Any unsafe conditions disclosed by the inspection requirements of 15.0 shall be corrected before operation of the crane or derrick is resumed. Adjustments and repairs shall be done only by competent personnel.
Local Law 50-1973
17.3.2 Adjustments shall be maintained to assure correct functioning of components. The following are examples:
(a) All functional operating mechanisms.
(b) Safety devices.
(c) Control systems.
(d) Power plants.
(e) Tie downs or anchorages.
(f) Signal system.
(g) Guys.
17.33 Repairs or replacements shall be provided promptly as needed for safe operation. The following are examples:
(a) All critical parts of functional operating mechanisms which are cracked, broken, corroded, bent or excessively worn.
(b) All critical parts of the crane or derrick structure which are cracked, bent, broken or excessively corroded.
* (c) Crane or derrick hooks showing defects described in 15.3.5 shall be discarded. Repairs by welding or reshaping are not acceptable unless written approval of the department is obtained.
Local Law 50-1973
(d) Pitted or burned electrical contacts should be corrected only by replacement and in sets. Controller parts should be lubricated as recommended by the manufacturer.
17.3.4 All replacement parts or repairs shall have at least the original safety factor and be in accordance with the specifications of the manufacturer. Approval of the department shall be required for the replacement or repair of main structural members as enumerated in 1 and 2 of 3.1.1 for which no fee will be required.
17.4 Lubrication of Cranes and Derricks.-
17.4.1 All moving parts of the crane or derrick and hoist for which lubrication is specified, including rope and chain, shall be regularly lubricated. Lubricating systems shall be checked for proper delivery of lubricant. Particular care should be taken to follow manufacturer's recommendations as to point and frequency of lubrication, maintenance of lubricant levels and types of lubricants to be used. Lubrication shall be performed under the supervision of the crane operator, oiler or maintenance engineer.
*17.4.2 Machinery shall be stationary while lubricants are being applied and protection provided as called for in 17.2.1(b) through 17.2.1(e) inclusive, unless such machinery is equipped for automatic lubrication.
Local Law 50 -1973

18.0 Rope Inspection, Replacement and Maintenance by Owner for Cranes and Derricks.-

Section 18.1 shall be deleted in its entirety and replaced as follows:
[18.1 Inspection.-
*18.1.1 All ropes in continuous service should be visually inspected once every working day. A thorough inspection of all ropes in use shall be made at least once a month. All inspections shall be performed by an appointed person. Any deterioration resulting in measurable loss of original strength, such as described below shall be carefully noted and determination made as to whether further use of the rope would constitute a safety hazard:
(a) Reduction of rope diameter below nominal diameter due to loss of core support, internal or external corrosion or wear of outside wires.
(b) A number of broken outside wires and the degree of distribution of concentration of such broken wires.
(c) Worn outside wires, "birdcaging," or kinks.
(d) Corroded or broken wires at end connections.
(e) Corroded, cracked, bent, worn or improperly applied end connections.
(f) Severe kinking, crushing, cutting or unstranding.
Local Law 50-1973
18.1.2 Heavy wear and/or broken wires may occur in sections in contact with equalizer sheaves, or other sheaves where rope travel is limited, or with saddles. Particular care shall be taken to inspect ropes at these locations.
18.1.3 All rope which has been idle for a period of a month or more due to shutdown or storage of the crane or derrick on which it is installed shall be given a thorough inspection before it is placed in service. This inspection shall be for all types of deterioration and shall be performed by an appointed person whose approval shall be required for further use of the rope.
18.1.4 Particular care shall be taken in the inspection of non-rotating rope.]

18.1 Rope Inspection. -
18.1.1 Frequent Inspection. -
18.1.1.1 All ropes in continuous service shall be visually inspected once every working day. A visual inspection shall consist of observation of all rope that can reasonably be expected to be in use during the day's operation. This visual inspection shall be directed towards discovering gross damage that may be an immediate hazard, including the following:
(a) Distortion of the rope such as kinking, crushing, unstranding, birdcaging, main strand displacement, or core protrusion. Loss of rope diameter in a short rope length or unevenness of outer strands should provide evidence that the rope or ropes must be replaced.
(b) General corrosion
(c) Broken or cut strands
(d) Number, distribution and type of visible broken wires (See Section 18.2.2 for further guidance)
(e) Core failure in rotation-resistant ropes.When such damage is discovered,the rope shall be either removed from service or given an inspection as detailed in Section 18.1.2

18.1.1.2 Care shall be taken when inspecting sections of rapid deterioration such as flange points, crossover points, and repetitive pickup points.
18.1.1.3 Care shall be taken when inspecting the following types of rope:
(a) Rotation-resistant rope.
(b) Boom hoist rope.

18.1.2 Periodic Inspection. -
18.1.2.1 There shall be periodic inspections performed at least annually. The inspection frequency shall be determined by a qualified person and shall be based on such factors as expected rope life as determined by experience on the particular installation or similar installations, severity of the environment, percentage of capacity lifts, frequency rates of operation, and exposure to shock loads. Inspections need not be at equal calendar intervals and should be more frequent as the rope approaches the end of its useful life.
18.1.2.2 In the event a periodic inspection is not feasible within a 12-month period due to existing set-up and configuration of the equipment or due to site conditions, such periodic inspection shall be performed as soon as it becomes feasible but no longer than an additional 6 months for running ropes and, for standing ropes, at the time of disassembly. Written notification and approval of the commissioner must be obtained prior to extending the use of the rope beyond the 12-month inspection period.
18.1.2.3 Periodic inspections shall be performed by a qualified person. This inspection shall cover the entire length of rope. Only the surface wires of the rope shall be inspected. Any deterioration resulting in an appreciable loss of original strength shall be noted and determination made as to whether further use of the rope would constitute a hazard. The periodic inspection shall include examination of the following:
(a) points listed in Section 18.1.1.1
(b) reduction of rope diameter below nominal diameter due to loss of core support, internal or external corrosion, or wear of outside wires.
(c) severely corroded or broken wires at end connections
(d) severely corroded, cracked bent, worn or improperly applied end connections

18.1.2.4 Care shall be taken when inspecting sections of rapid deterioration, such as the following:
(a) sections in contact with saddles, equalizer sheaves, or other sheaves where rope travel is limited
(b) sections of the rope at or near terminal ends where corroded or broken wires may protrude.
18.1.2.5 All rope that has been idle for a period of six months or more shall be given a periodic inspection before it is placed into service.

Section 18.2 shall be deleted in its entirety and replaced as follows:
[18.2 Rope Replacement.-
18.2.1 Safety in regard to rope replacement shall depend upon the use of good judgment by an appointed person in evaluating strength in used rope.
18.2.2 Conditions such as the following should be sufficient reason for replacement:
(a) In running ropes, six randomly distributed broken wires in one lay or three broken wires in one strand in one lay.
(b) Wear of one-third the original diameter of outside individual wires.
(c) Kinking, crushing, bird caging or any other damage resulting in distortion of the rope structure.
(d) Evidence of any heat damage from any cause.
(e) Reductions from nominal diameter of more than 3/64 inch for diameters to and including 3/4 inch, 1/16 inch for diameter 7/8 inch to 1 1/8 inches inclusive, 3/32 inch for diameters 1 1/4 inches to 1 1/2 inches inclusive.
(f) In standing ropes, more than two broken wires in one lay in sections beyond and connections or more than one broken wire at an end connection.
(g) In standing or running ropes noncompliance with section C26-1909.2(b), (c) or (d).
18.2.3 Discarded rope should not be used for slings.]

18.2 Rope Replacement. -
18.2.1 When a rope reaches any one of the specified removal criteria, it may be allowed to operate to the end of the work shift, based on the judgement of a qualified person. The rope shall be replaced after that work shift, at the end of the day, or at the latest time prior to the equipment being used by the next work shift.
18.2.2 Removal criteria for rope replacement shall meet manufacturer's specification or as follows:
(a) Broken Wires
(1) in running ropes, six randomly distributed broken wires in one lay or three broken wires in one strand in one lay.
(2) In rotation-resistant ropes, two randomly distributed broken wires in six diameters or four randomly distributed broken wires in 30 rope diameters.
(3) One outer wire broken at the point of contact with the core rope that has worked its way out of the rope structure and protrudes or loops out from the rope structure. Additional inspection of this section is required.
(4) Kinking, crushing, birdcaging, or any other damage resulting in distortion of the rope structure.
(5) Evidence of heat damage from any cause
(6) Reductions from nominal diameter of more than the following:
(a) 1/64 in. for diameters up to and including 5/16 in.
(b) 1/32 in. for diameters up to and including ½ in.
(c) 3/64 in. for diameters up to and including ¾ in.
(d) 1/16 in. for diameters up to and including 1 1/8 in.
(e) 3/32 in. for diameters

up to and including 1 ½ in.

(7) In standing ropes, more than two broken wires in one lay in sections beyond end connections or more than one broken wire at an end connection.

18.2.3 Replacement rope shall have strength rating at least as great as the original rope furnished or recommended by the crane manufacturer. Any deviation from the original size, grade, or construction shall be specified by the rope manufacturer, the crane manufacturer, or a qualified person.
18.2.4 Discarded rope shall not be used for slings.

18.3 Rope Maintenance.-
18.3.1 Rope shall be stored to prevent damage or deterioration.
18.3.2 Unreeling or uncoiling of rope shall be done as recommended by the rope manufacturer and with extreme care to avoid kinking or inducing a twist.
18.3.3 Before cutting a rope, seizings shall be placed on each side of the place where the rope is to be cut to prevent unlaying of the strands. On preformed rope, one seizing on each side of the cut is required. On non-preformed ropes of 7/8 inch diameter or smaller, two seizings on each side of the cut are required, and for non-preformed rope of one inch diameter or larger, three seizings on each side of the cut are required.
18.3.4 During installation care shall be observed to avoid dragging of the rope in dirt or around objects which will scrape, nick, crush, or induce sharp bends in it.
18.3.5 Rope should be maintained in a well lubricated condition. It is important that lubricant applied as part of a maintenance program shall be compatible with the original lubricant and to this end the rope manufacturer should be consulted. Those sections of rope which are located over sheaves or otherwise hidden during inspection and maintenance procedures require special attention when lubricating rope. The object of rope lubrication is to reduce internal friction and to prevent corrosion. Periodic field lubrication is particularly important for non-rotating rope.

Section 19.0 shall be deleted in its entirety and replaced as follows.
[* 19.0 Safety Devices Required.-
Local Law 50-1973
* **19.1** All cranes or derricks having a maximum rated capacity exceeding one ton shall be equipped with safety devices as provided herein, except equipment used exclusively for pile driving, clamshell and dragline used for excavation. These safety devices shall be acceptable to the commissioner.
*19.1.1 All mobile cranes, including truck mounted tower cranes, shall be equipped with:
(a) A warning light and an acoustical signal located at the operator's position or cab to indicate overload and shall consist of either of the following devices:
Local Law 50-1973
(1) A load measuring device in combination with a load radius or boom angle measuring device with presettable load and angle or radius limits to activate the warning signals and to be used in conjunction with the approved load radius chart.
(2) A load and radius measuring device pre-programmed to continuously relate the measured data to the load radius chart as a direct reading of load or percentage of rated load.
(b) Where electrically powered, a deadman control on control levers in the cab or crane operator's station.
(c) An effective audible warning and operating signal on the outside of the cab.
(d) Boom stops and boom hoist safety shutoffs. However, boom stops shall not be required for telescoping booms.
(e) An indicator for leveling the crane.
19.1.2 All tower cranes and climber cranes excluding truck-mounted tower cranes, shall have the following safety devices:
(a) Warning light shall be activated at 100% allowable overturning moment.
(b) Acoustic signal shall sound at 105% allowable overturning moment.
(c) Automatic stop if 110% allowable overturning moment is reached.
(d) Automatic stop if load exceeds maximum rated load in high gear.
(e) Automatic stop if load exceeds maximum rated load in intermediate gear.
(f) Automatic stop if load exceeds maximum rated load in low gear.
(g) Predeceleration before top position of the hook.
(h) Limit switch for top position of the hook.
(i) Predeceleration before low position of the hook.
(j) Limit switch for the trolley traveling out.
(k) Limit switch for the trolley traveling in.
(l) Acceleration limitation on the hoist movement.
(m) Acceleration limitation on the swing movement.
(n) Acceleration limitation on the trolley movement.
(o) Deadman control on both joy sticks in box.
*19.1.3 Safety devices for derricks shall be acceptable to the commissioner and shall be installed within six months after said devices are accepted. However, where electrically powered, a deadman control on control levers shall be installed prior to applying for a certificate pursuant to section C26-1909.4.
Local Law 50-1973
*19.1.4 Any safety device previously approved by the board of standards and appeals shall be acceptable as meeting the requirements of the applicable subparagraphs of 19.1.1.
Local Law 50-1973]

19.0 Safety Devices Required. - All cranes and derricks shall be equipped with safety devices as provided herein, except equipment used exclusively for pile driving, clamshell and dragline used for excavation. The commissioner shall approve these safety devices.

19.1 Indicators or Limiters. - All mobile cranes with a maximum rated capacity of 3 tons or more shall be equipped with a load indicator, rated capacity indicator, or a rated capacity (load) limiter.

19.1.1 Cranes with a total boom length including jibs and any other extensions not exceeding 150 feet shall be exempt.

19.1.2 Cranes manufactured before December 30, 1993 shall be exempt. The margin of stability for determination of load ratings of these cranes shall be established at 75 percent of the load, which will produce a condition of tipping or balance with the boom in the least stable direction relative to the mounting where overturning stability governs the lifting performance.

19.1.3 Cranes shall have a radius or boom angle indicator provided in conjunction with a load indicator.

19.2 Anti-Two Blocking Features. - All mobile cranes with a maximum rated capacity exceeding one ton manufactured after February 28, 1992, shall be equipped with anti-two-blocking features as follows:

(a) Telescopic Boom Cranes shall have an anti-two-block device for all points of two-blocking that automatically prevents damage from contact between the load block, overhaul ball, or similar component, and the boom and/or jib tip.

(b) Lattice Boom Cranes shall have an anti-two-block device for all points of two-blocking that either automatically prevents damage from contact between the load block, overhaul ball, or similar component, and the boom and/or jib tip or warns the operator in time for the operator to prevent two-blocking.

19.3 Additional Safety Devices Required. - All mobile cranes with a maximum rated capacity exceeding one ton shall be equipped with the following additional safety devices:

(a) A deadman control on the control levers in the cab or crane operator's station, where the crane is electrically powered.
(b) An effective audible warning and operating signal on the outside of the cab.
(c) Boom stops and boom hoist safety shutoffs. However, boom stops shall not be required for telescoping booms.
(d) An indicator for leveling the crane.
(e) Hoist drum rotation indicator if the drum is not visible from the operator's station.

19.4 Malfunctioning Safety Devices. - The load indicator, rated capacity indicator, rated capacity (load) limiter, hoist drum rotation indicator, and the anti-two blocking devices shall also be known as operational aids, which provide information to facilitate the operation of a crane or that take control of particular functions without action of the operator when a limiting condition is sensed. When any of these operational aids are inoperative or malfunctioning, the following alternative measures shall be implemented to allow continued use of the crane:

(a) Load indicator, Rated capacity indicator or Rated Capacity (Load) Limiter: The weight of the load shall be determined from a reliable source (such as the manufacturer's equipment specification), by a reliable calculation method (such as calculating a steel beam from measured dimensions and a known per foot weight) or by other equally reliable means before the load is hoisted. To ensure that the weight of the load does not exceed the crane ratings at the maximum radius at which the load is to be handled, the radius shall be determined through the use of a boom angle indicator, radius indicator or by measurement.
(b) Hoist drum rotation indicator: Mirrors and/or remote video cameras and displays shall be provided so that the operator can see the drum.
(c) Anti-two-block device: The cable shall be clearly marked (so that it can easily be seen by the operator) at a point that will give the operator sufficient time to stop the hoist to prevent two-blocking or an additional signal person shall be utilized to monitor the position of the load block or overhaul ball.

Recalibration or repair of the safety device shall be accomplished as soon as is reasonably possible, as determined by a qualified person.

19.5 Tower Cranes and Climber Cranes. - All tower cranes and climber cranes excluding truck-mounted tower cranes shall have the following:

(a) Warning light activated at 100% allowable overturning moment.
(b) Acoustic signal sounding at 105% allowable overturning moment.
(c) Automatic stop if 110% allowable overturning moment is reached.
(d) Automatic stop if load exceeds maximum rated load in high gear.
(e) Automatic stop if load exceeds maximum rated load in intermediate gear.
(f) Automatic stop if load exceeds maximum rated load in low gear.
(g) Predeceleration before top position of the hook.
(h) Limit switch for top position of the hook.
(i) Predeceleration before low position of the hook.
(j) Limit switch for the trolley traveling out.
(k) Limit switch for the trolley traveling in.
(l) Acceleration limit on the hoisting movement.
(m) Acceleration limit on the swing movement.
(n) Acceleration limit on the trolley movement, and
(o) Deadman control on both control levers in box.

19.6 Derricks.-Safety devices for derricks shall be approved by the commissioner and shall be installed within six months after said devices are accepted. However, where electrically powered, a deadman control on control levers shall be installed prior to applying for a certificate pursuant to section 27-1057 of the Administrative Code.

Section 20 shall be deleted in its entirety as follows:

[20.0 Characteristic and Special Requirements for Mobile Cranes.-
20.1 Hoists, load and swing mechanisms.-
20.1.1 Boom hoist.
(a) The boom hoist shall be capable of lifting the boom when the outer end is at the level of the surface on which the crane rest.
(b) The hoisting mechanism shall be provided with a suitable clutching or power engaging device permitting immediate starting or stopping of the boom drum motion. The hoisting mechanism also shall be provided with a self-setting safety brake, capable of supporting all rated loads, with recommended reeving.
(c) Brakes and clutches shall be arranged to be readily adjusted to compensate for wear and to maintain adequate tension in springs where used.
(d) The hoisting mechanism shall be provided with an auxiliary ratchet and pawl or other positive locking device for use as an added safety feature.
* (e) The hoist drum shall have sufficient rope capacity to operate the boom at all positions between the horizontal and the highest angle recommended by the manufacturer and submitted to the department of buildings for the appropriate reeving and rope size, and
Local Law 50-1973
(1) At least two full wraps of rope shall remain on the drum when the boom point is lowered to the level of the crane supporting surface.
(2) The drum end of the rope shall be anchored by a clamp securely attached to the drum or a wedge socket arrangement approved by the crane or rope manufacturer and submitted to the department of buildings.
(f) The drum diameter shall be sufficient to provide a first layer rope pitch diameter of not less than 15 times the nominal diameter of the rope used.
20.1.2 Load hoist.-
(a) The load hoist assemblies shall have power and operational characteristics adequate to perform all load hoisting and lowering functions required in crane service when operated under conditions recommended by the manufacturer and submitted to the department of buildings.
(b) Where brakes and clutches are used to control the motion of the load hoist drums, they shall be of sufficient size and thermal capacity to control all rated crane loads with minimum accepted reeving.
* (c) Load hoist drums shall have sufficient rope capacity size and reeving to perform crane service within the range of boom lengths, operating radii and vertical lifts stipulated by the manufacturer and submitted to the department of buildings.
Local Law 50-1973
* (d) No less than two full wraps of rope shall remain on the drum when the hook is in its extreme low position.
Local Law 50-1973
* (e) The drum end of the rope shall be anchored by a clamp securely attached to the drum or by a wedge socket arrangement approved by the crane or rope manufacturer and submitted to the department of buildings.
Local Law 50-1973
(f) Drums shall be provided with a means to prevent rope from jumping off the drum.
(g) The diameter of the load hoist drum shall be sufficient to provide a first layer rope pitch diameter of not less than 18 times the nominal diameter of the rope used.
(h) Positive means, controllable from the operator's station, shall be provided to hold the drum from rotating in the lowering direction and be capable of holding the rate load indefinitely without further attention from the operator.
* (i) Drum rotation indicators shall be provided and located to afford easy sensing by the operator except when a crane is used exclusively with a clamshell or dragline for excavation purposes or for pile driving.
Load hoist brakes.-
Local Law 50-1973
(a) When power-operated brakes having no continuous mechanical linkage between the actuating and braking means are used for controlling loads, an automatic means shall be provided to prevent the load from falling in event of loss of brake actuating power.
* (b) Foot-operated brake pedals shall be constructed so that the operator's feet will not easily slip off. Means for latching brake in the applied position shall be provided.
(c) Brakes and clutches shall be provided with adjustments where necessary to compensate for wear and to maintain adequate tension in springs where used.
Local Law 50-1973
* 20.1.4 Optional power-controlled lowering.-A power-controlled lowering device may be provided to obtain precision lowering and to reduce demand on the load brake. Such device shall be capable of handling rated loads and speeds as specified by the manufacturer and submitted to the department of buildings.
Local Law 50-1973
20.1.5 Swing control.-
(a) The swing mechanism shall be capable of smooth starts and stops with the varying degrees of acceleration and deceleration required in normal crane operation.
(b) A brake having adequate holding power in both directions shall be provided to prevent movement of the rotating superstructure, when desired under normal operation. The brake shall be capable of being set in the holding position and remaining so without attention on the part of the operator.
(c) A device for positively locking the rotating superstructure shall be provided. It shall be so constructed as to prevent accidental engagement or disengagement.
20.2 Travel controls.-
20.2.1 General.-
(a) On all mobile crane types except truck cranes the controls for the travel function shall be located at the operator's station in the crane cab.
(b) On truck cranes the main travel controls shall be located in the truck cab. Auxiliary travel controls may be provided in the crane cab.
20.2.2 Travel mechanism.-
(a) On crawler cranes, the travel and steering mechanism shall

be arranged so that it is not possible for both crawlers to become disconnected simultaneously from the power train and to free wheel.
(b) On truck cranes, the carrier transmission shall have a gear-ratio pattern and adequate control to minimize stalling.
20.2.3 Travel brakes and locks.-
(a) On crawler cranes, brakes or other locking means shall be provided to hold the machinery stationary during working cycles on level grade or while the machine is standing on maximum grade recommended for travel. Such brakes or locks shall be arranged to remain in engagement in event of loss of operating power.
(b) On truck and wheel-mounted cranes, means shall be provided to control completely the crane carrier travel when descending maximum grades specified by the manufacturer under maximum loading conditions. Brakes shall be provided to bring the machine to a stop on level ground within a distance of 32 feet from a speed of 15 miles per hour. Where long or steep grades are to be negotiated, a retarder or similar device should be provided. Means shall be provided to hold the machine stationary on the maximum grade for travel recommended by the manufacturer.
20.3 Operating controls.-
20.3.1 General.-
(a) All controls used during the normal crane operating cycle shall be located within easy reach of the operator while seated at his station.
(b) Arrangement of controls shall be in accordance with applicable requirements of SAE recommended practice crane-shovel basic operating control arrangements, J983 as approved April 1967. Controls for load hoist, boom hoist, and swing clutches shall be provided with means for holding in neutral position, without the use of positive latches.
(c) Shielded panel lights shall be installed over controls.
20.3.2 Control forces and movements.-
(a) When the crane is operated within the ratings and reeving accepted by the department of buildings, controls shall meet the following requirements:
1-Forces required to operate shall not be greater than 35 pounds on hand levers nor greater than 50 pounds on foot pedals.
2-Travel distance on hand levers shall not be greater than 14 inches from the neutral position on two-way levers and not greater than 24 inches on one way levers. Travel distance on foot pedals shall not be greater than 10 inches.
20.3.3 Power plant controls.-Controls for operating the superstructure power plant shall be within easy reach of the operator and shall include:
(a) Means to start and stop.
(b) Means to control speed of internal combustion engines.
(c) Means for shifting selective transmission.
*20.3.4 Engine clutch.-All cranes with a direct mechanical drive to any crane function shall be provided with a clutch for disengaging power. The clutch control shall be within reach from the operator's position.
Local Law 50-1973
20.4 Ropes and reeving accessories.-
20.4.1 Ropes.-
(a) The hoisting rope shall be of a construction submitted to the department of buildings for crane service. Non-rotating rope shall not be used for boom hoist reeving nor for multiple part reeving.
(b) Socketing shall be done in a manner specified by the manufacturer of the assembly and submitted to the department of buildings.
(c) If a load is supported by more than one part of rope, the tension in the ropes shall be equalized.
(d) Whenever exposed to temperatures at which fiber cores would be damaged, ropes having an independent wire-rope or wire-strand core, or other temperature-damage-resistant core shall be used.
*(e) Replacement rope shall be the same size, grade and construction as the original rope furnished by the crane manufacturer and submitted to the department of buildings. Alternate replacement ropes may be used only if specifically recommended by a wire rope manufacturer or the crane manufacturer and submitted to the department of buildings.
Local Law 50-1973
20.4.2 Rope safety factors.-
(a) For supporting rated loads (including boom suspensions):
1-The safety factor for live or running ropes that wind on drums or pass over sheaves shall be not less than 3.5.
2-The safety factor for boom pendants or standing ropes shall not be less than 3.0.
* (b) For supporting the boom and working attachments at recommended travel or transit positions and boom lengths, the safety factor shall be:
Local Law 50-1973
1-For live or running ropes, not less than 3.5.
2-For boom pendants or standing ropes, not less than 3.0.
* (c) For supporting the boom under boom erection conditions, the safety factor shall be:
Local Law 50-1973
1-For live or running ropes, not less than 3.0.
2-For boom pendants or standing ropes, not less than 2.5.
20.4.3 Reeving accessories.-
* (a) Eye splices shall be made in an approved manner and rope thimbles shall be used in the eye.
* (b) U-bolt clips shall have the U-bolt section on the dead or short-end, and the saddle on the live or long end of the rope. Spacing and number of all types of clips shall be in accordance with the clip manufacturer's recommendation and submitted to the department of buildings. Clips shall be drop-forged in all sizes manufactured commercially. When a newly installed rope has been in operation for one hour, all nuts on the clip bolts shall be retightened, and they shall be checked for tightness at frequent intervals thereafter.
Local Law 50-1973
* (c) Swaged, compressed or wedge-socket fittings shall be applied as recommended by the rope or crane manufacturer or fitting manufacturer and submitted to the department of buildings.
20.4.4 Sheaves.-
Local Law 50-1973
(a) Sheave grooves shall be smooth and free from surface defects which could cause rope damage. The cross sectional radius at the bottom of the groove shall be such as to form a close-fitting saddle for the size of rope used and the sides of the groove shall be tapered outwardly to facilitate entrance of the rope into the groove. Flange corners shall be rounded and the rims shall run true about the axis of rotation.
(b) Sheaves carrying ropes which may be momentarily unloaded shall be provided with close-fitting guards or other suitable devices to guide the rope back into the groove when the load is reapplied.
(c) The sheaves in the lower load block shall be equipped with close-fitting guards that will prevent ropes from becoming fouled when the block is lying on the ground with ropes loose.
(d) Means shall be provided to prevent chafing of the ropes.
(e) All sheave bearings shall be provided with means for lubrication unless permanently lubricated bearings are provided.
20.4.5 Sheave sizes.-
(a) Boom hoisting sheaves shall have pitch diameters of not less than 15 times the nominal diameter of the rope used.
(b) Load hoisting sheaves shall have pitch diameters not less than 18 times the nominal diameter of the rope used.
(c) Load block sheaves shall have pitch diameters not less than 16 times the nominal diameter of the rope used.
20.5 Crane cabs.-
20.5.1 Crane cab construction.-
(a) Insofar as practical, all cabs shall be constructed to enclose the superstructure machinery, brakes and the operator's station to provide protection from the weather.
* (b) All windows shall be of, safety glass or equivalent. Windows shall be provided in the front and on both sides of the cab or operators compartment for visibility forward and to either side. Visibility forward shall include a vertical range adequate to cover the boom point at all times. The front window may have a section which can be readily removed or held open if desired. If the section is of the type held in the open position, it shall be well secured to prevent accidental closing.
Local Law 50-1973
(c) All cab doors whether of sliding or swinging type shall be adequately restrained from accidental opening or closing while traveling or operating the machine. The door adjacent to the operator, if of the swinging type, shall open outward and, if of the sliding type, shall slide rearward to open.
(d) A clear passageway shall be provided from the operator's station to an exit door on the operator's side.
(e) Principal walking surfaces in cabs shall be of anti-skid type.
(f) Outside platforms, if furnished, shall be provided with guard rails. Where platforms are too narrow to use guard rails, handholds shall be provided at convenient points above the platform.
20.5.2 Access to cab.- On all crawler, truck and wheel mounted cranes, suitable handholds and steps shall be provided to facilitate entrance to and exit from the operator's cab and the truck cab.
20.5.3 Access to cab roof.- Where access to the cab roof is necessary for rigging or service requirements, a ladder or steps shall be provided to give access thereto and the cab roof shall be capable of supporting, without permanent distortion, the weight of a 200 pound man.]

21.0 Characteristics and Special Requirements for Derricks.-
21.1 Load ratings.-
* 21.1.1 Rated load marking.-
Local Law 50-1973
(a) For derricks, a substantial, durable and clearly legible load rating chart shall be provided for each particular installation. The rating chart shall be securely affixed where it is visible to personnel responsible for the operation of, the equipment. The chart shall include but not be limited to the following data:
1-manufacturer's load ratings as approved by the department at corresponding ranges of boom angle or operating radii.
2-specific lengths of components on which the load ratings are based.
3-required parts for hoist reeving.
4-size and construction of all ropes shall be shown either on the rating chart or in the operating manual.
(b) For all other derricks, the manufacturer shall provide sufficient information from which capacity charts can be prepared and approved by the department for the particular installation. The capacity charts shall be located either at the derrick or the job site office.
21.2 Construction.-
21.2.1 General.-Derricks shall be constructed to adequately meet all stresses imposed on all members and components.
21.2.2 Guy derricks.-
(a) The minimum number of guys is six. Preferably, the guys should be equally spaced around the mast.
(b) The manufacturer shall furnish complete information recommending:
1- the number of guys.
2- the spacing around the mast;
3- the maximum vertical slope and initial tension or sag of all guys;
4- the size and construction of rope to be used in each.
(c) The mast base shall permit free rotation of the mast with allowance for slight tilting of the mast caused by guy slack.
(d) The mast cap shall:
1 - permit free rotation of the mast;
2 - adequately withstand tilting and cramping action imposed by the guy loads;
3 - be secured to the mast to prevent disengagement during erection;
4 - be provided with means for attachment of guy ropes.
21.2.3 Stiff leg derrick. -
(a) The mast shall be supported in the vertical position by two stiff legs one end of each being connected to the top of the mast and the other end securely anchored. The stiff legs shall be capable of withstanding the loads imposed by the boom at any point within its range of swing.
(b) The mast base shall:
1 - permit free rotation of mast;
2 - permit slight inclination of the mast without binding;
3 - provide means to prevent the mast from lifting out of its socket when the mast is in tension.
(c) The stiff leg connecting member at the top of the mast shall:
1 - permit free rotation of the mast;
2 - adequately withstand the loads imposed by the action of the stiff legs;
3 - be so secured as to oppose lift off forces at all times.
21.3 Ropes and reeving accessories.-
21.3.1 Guy ropes.-
(a) Guy ropes shall be of suitable size, grade and construction to withstand the maximum load imposed.
(b) The nominal breaking strength of each rope shall be no less than three times the load applied to the rope.
(c) Tie downs or kicker devices which may be easily loosened shall have locknuts or other suitable provision to prevent loosening.
21.3.2 Boom hoist ropes.-
(a) Boom hoist ropes shall be of suitable size, grade and construction to withstand the maximum load imposed.
(b) The live rope reeving system in a boom suspension shall withstand the maximum load imposed and be of sufficient length to permit lowering the boom point to horizontal position with at least three full wraps of rope remaining on the hoist drum.
(c) The nominal breaking strength of the most heavily loaded rope in a system shall be no less than three and a half times the loads applied to that rope.
21.3.3 Main hoist ropes.-(a) Main hoist ropes shall be of a suitable size and construction to withstand the maximum load imposed.
(b) Ropes in the main hoisting system shall be of sufficient length for the entire range of movement specified for the application with at least three full wraps of rope on the hoist drum at all times.
(c) The nominal breaking strength of the most heavily loaded rope in a system shall be no less than three and a half times the load applied to that rope.
21.3.4 Reeving accessories.-
(a) Socketing shall be done in the manner specified by the manufacturer of the assembly.
(b) Rope end shall be anchored securely to the drum.
(c) Eyes shall be made in an approved manner and rope thimbles should be used in the eye.
(d) U-bolt clips shall have the U-bolt on the dead or short end, and the saddle on the live or long end of the rope.
Spacing and number of all types of clips shall be in accordance with the clip manufacturer's recommendation and submitted to the department. Clips shall be drop-forged steel in all sizes manufactured commercially. When a newly installed rope has been in operation for an hour, all nuts on the clip bolts shall be retightened, and they should be checked for tightness at frequent intervals thereafter.
(e) Swaged, compressed, or wedge-socket fittings shall be applied as recommended by the rope, derrick, or fitting manufacturer.
(f) Where a half wedge socket is used it shall be of a positive locking type.
(g) If a load is supported by more than one rope, the tension in the parts shall be equalized.
21.3.5 Sheaves.-
(a) Sheave grooves shall be smooth and free from surface defects which could cause rope damage. The cross sectional radius at the bottom of the groove should be such as to form aclose fitting saddle for the size rope used and the sides of the groove should be tapered outwardly to facilitate entrance of the rope into the groove. Flange corners should be rounded and the rims should run true about the axis of rotation.
(b) Sheaves carrying ropes which can be momentarily unloaded shall be provided with close fitting guards or other suitable devices to guide the rope back into the groove when the load is applied again.
(c) The sheaves in the lower load block shall be equipped with close-fitting guards that will prevent ropes from becoming fouled when the block is lying on the ground with ropes loose.
(d) Means should be provided, if necessary, to prevent chafing of the ropes.
(e) All running sheaves shall be equipped with means for lubrication. Permanently lubricated, sealed and/or shielded bearings shall be acceptable.
(f) Boom and hoisting sheaves shall have pitch diameters not less than eighteen times the nominal diameter of the rope used.
(g) Boom point sheaves should be provided with suitable guides to limit the offlead angle of the rope when entering the grooves from either side.
21.4 Anchoring and guying.-
21.4.1 Guy derricks.-
(a) The mast base shall be securely anchored. Maximum horizontal and downward vertical thrusts encountered whenhandling rated loads with the particular guy slope and spacing stipulated for the application are among the design factors for which provision must be made.
(b) The guys shall be secured to the ground or other firm anchorage. Maximum horizontal and vertical pulls encountered while handling rated loads with the particular guy slope and spacing stipulated for the application are among the factors for which provision must be made.
21.4.2 Stiff leg derricks.-
(a) The mast base shall be securely anchored. Maximum horizontal and upward and downward vertical thrusts encountered while handling rated loads stipulated for the application with the particular stiff-leg spacing and slope are among the factors for which provision must be made.
(b) The stiff legs shall be securely anchored. Maximum horizontal and vertical upward and downward thrusts encountered while handling rated loads with the particular stiff-leg arrangement stipulated for the application are among the factors for which provision must be made.
21.5 Hoist.-
21.5.1 The hoist shall be suitable for the derrick work intended and shall be securely anchored to prevent displacement from the imposed loads.
*21.6 Cranes manufactured prior to April 1, 1970 shall be modified to conform to the provisions of 20.1.1(d) and (f), 20.1.2(h) and (i), 20.2.3, 20.3.1(b) and (c), 20.3.2(a)(2), 20.4.5, 20.5.1(b) and derricks manufactured prior to April 1, 1970 shall be modified to conform to the provisions of 21.3.5(f), unless it can be shown to the satisfaction of the commissioner that the crane can not feasibly or economically be altered to comply.
Local Law 50-1973

22.0 Operation Cranes and Derricks. -
22.1 Operators.-
22.1.1 Cranes and derricks shall be operated only by the following persons:

(a) Persons licensed as operators by the department of buildings in accordance with section B26-5.0(b) Learners in the presence of and under the direct supervision of a licensed operator.
22.1.2 No person other than those listed under paragraph 22.1.1 above and persons such as oilers and supervisors, whose duties require them to do so, shall enter the cab of a crane and then only in the performance of his duties and with knowledge and consent of the operator.
22.2 Operating practices.-
22.2.1 The operator shall not engage in any practice which will divert his attention while actually engaged in operating the crane or derrick hoist.
22.2.2 The operator shall respond to signals only from the appointed signal men.
22.2.3 The operator shall be responsible for the operation of the crane or derrick hoist.
* 22.2.4 For mobile cranes, the warning signal shall be sounded each time before on-site traveling and intermittently during such travel, particularly when approaching workmen.
Local Law 50-1973
22.2.5 Before leaving his crane or derrick unattended, the operator shall:
(a) Land any attached load, bucket, lifting magnet, or other device.
(b) Disengage clutches.
(c) Set travel, swing, boom brakes and other locking devices.
(d) Put controls in the "off" position.
(e) Stop the engine.
(f) Secure mobile cranes against accidental travel.
(g) Lock and secure the equipment against unauthorized operation.
22.2.6 On leaving a mobile crane overnight, ground chocks shall be set and crane booms shall be lowered to ground level or otherwise fastened securely against displacement by wind loads or other external forces.
22.2.7 If there is a warning sign on the switch or engine starting controls, the operator shall not close the switch or start engine until the warning sign has been removed by the person placing it there.
22.2.8 Before closing the switch, or starting the engine, the operator shall see to it that all controls are in the "off " position and all personnel are in the clear.
22.2.9 If power fails during operation, the operator shall:
(a) Set all brakes and locking devices.
(b) Move all clutch or other power controls to the "off " position.
(c) Communicate with the appointed individual in charge of operations.
(d) If practical, the suspended load should be landed under brake control.
22.2.10 The operator shall familiarize himself with the equipment and its proper care. If adjustments or repairs are necessary, or any defects are known he shall report the same promptly to his employer or other person responsible for the equipment and shall also notify the next operator of the defects upon changing shifts.
22.2.11 All controls shall be tested by the operator at the start of a new shift. If any controls do not operate properly, they shall be adjusted or repaired before operations are begun.
22.2.12 Booms of mobile cranes which are being assembled or disassembled on the ground with or without support of the boom harness (equalizing sheaves, bridal and boom pendants) should be securely supported by proper blocking to prevent dropping of the boom sections.

23.0 Handling the Load.-No crane or derrick shall be loaded beyond the rated load.
23.1 Size of load.- On all operations involving cranes or derricks which are not equipped with those safety devices which make use of load measuring systems, there shall be a competent appointed individual assigned on a full-time basis to be responsible for determining the magnitude of loads to be lifted or lowered. The operator shall not make a lift unless he has first determined the weight of the load or is informed of such weight by the appointed person responsible for the operation.
23.2 Attaching the load.-
23.2.1 The hoist rope shall not be wrapped around the load.
23.2.2 The load shall be attached to the hook by means of slings or other approved devices.
23.3 Moving the load.-
23.3.1 The appointed individual directing the lift shall see that:
(a) In the case of a mobile crane, the crane is level and where necessary, chocked properly.
(b) The load is well secured and properly balanced in the sling or lifting device before it is lifted more than a few inches.
23.3.2 Before starting to hoist, he shall take care that:
(a) Hoist ropes are not kinked.
(b) Multiple part lines are not twisted around each other.
(c) The hook is brought over the load in such a manner as to prevent swinging.
(d) If there is a slack rope condition, the rope is properly seated on the drum and in the sheaves.
23.3.3 During hoisting, care should be taken that:
(a) There is no sudden acceleration or deceleration of the moving load.
(b) The load does not contact any obstructions.
23.3.4 Side loading of booms shall be limited to freely suspended loads. Cranes shall not be used for dragging loads sideways. Derricks shall not be used for side loading.

Section 23.3.5 shall be revised as follows:
23.3.5 The operator shall not lift, lower, swing or travel while any person is on the load or hook[·] unless notification is filed with the Department pursuant to Section 23.6 of this title. The operator shall not carry loads over people or over any occupied building [·] unless the top two floors are vacated or overhead protection with a design live load of 300 psf is provided.
23.3.6 On truck cranes, loads shall be lifted over the front area only as recommended by the manufacturer and submitted to the department of buildings.
23.3.7 The operator shall test the brakes each time a load approaching the rated load is handled by raising it a few inches and applying the brakes.
23.3.8 For mobile cranes, outriggers shall be used when the load to be handled at that particular radius exceeds the rated load without outriggers as given by the manufacturer for that crane and approved by the department of buildings.
23.3.9 Neither the load nor the boom shall be lowered below the point where less than three full wraps of rope remain on their respective drums.
23.3.10 When two or more cranes are used to lift one load, one appointed person shall be responsible for the operation. He shall analyze the operation and instruct all personnel involved in the proper positioning, rigging of the load, and the movements to be made.
23.3.11 In transit, the following additional precautions for mobile cranes shall be exercised:
(a) The boom shall be carried in line with the direction of motion.
(b) The superstructure shall be secured against rotation. When negotiating turns or when the boom is supported on a dolly, the superstructure may be rotated by a licensed crane operator only.
(c) The empty hook shall be lashed or otherwise restrained so that it cannot swing freely.
23.3.12 Before traveling a crane with a load, proposed travel should be shown on a plan of operation and approved by the department. Such data shall be filed with an application for on-site inspection.
23.3.13 A crane shall not be traveled with the boom so high that it may bounce back over the cab.
23.3.14 When rotating the crane or derrick, sudden stops shall not be made. Rotational speed shall be such that the load does not swing out beyond the radii at which it can be controlled. A tag or restraint line shall be used when rotation of the load is hazardous.
23.3.15 When a crane is to be operated at a fixed radius, the boom hoist pawl or other positive locking device shall be engaged.
23.3.16 Use of winch heads:
(a) Ropes shall not be handled on a winch head without knowledge of the operator.
(b) While a winch is being used, the operator shall be within convenient reach of the power unit control lever.
23.4 Holding the load.-
23.4.1 The operator shall not leave his position at the controls while the load is suspended.
23.4.2 People shall not be permitted to stand or pass under a load.
23.4.3 If the load must remain suspended for any considerable length of time, the operator shall hold the drum from rotating in the lowering direction by activating the positive controllable means at the operator's station.
23.4.4 In all cases, when booms are raised or lowered from the horizontal, load blocks including hooks and weight balls shall be left on the ground or deposited to the ground before raising or lowering booms.
23.5 Securing derrick booms.-
23.5.1 Dogs, pawls, or other positive braking mechanism on the hoist shall be engaged. When not in use, the derrick boom shall:
(a) Be laid down;
(b) Be secured to a stationary member, as nearly under the head as possible, by attachment of a sling to the load block; or
(c) Hoisted to a vertical position and secured to the mast.

Section 23.6 shall be added as follows:
23.6 Hoisting Personnel. - Written notification shall be submitted to the commissioner at least three (3) business days prior to the date the hoisting equipment may be used to move personnel. In addition to the requirements of this section, the applicant shall also comply with all applicable OSHA requirements.
23.6.1 The applicant shall be an engineer or a licensed master rigger. However, where the boom length, including jibs and any other extensions, is greater than 250 ft, the applicant shall be an engineer.
23.6.2 The notification shall include the following:
(a) A description of work.
(b) The start date and duration of the work.
(c) Manufacturer's information on the personnelplatform used to perform the work.
(d) The number of people who will be on the platform.
(e) The actual pick load and the maximum radius of the pick.
(f) The allowable pick load for maximum radius from load chart approved by the commissioner.
(g) Description of how the person/people on the platform and the hoisting machine operator will communicate.
(h) Designation of Site Safety coordinator.
(i) Equipment user's company name, and address, and
(j) The name and title of principal from the equipment user company.
23.6.2.1 Where the applicant is an engineer, the request shall also include a copy of the Certificate of On-Site Inspection.
23.6.2.2 Where the applicant is a master rigger, the request shall also include:
(a) The make, model number and Certificate of Operation of the Hoisting Machine
(b) A sketch or description of the foundation for the hoisting machine
23.6.3 Exception: If the boom length, including jibs and any other extensions, is less than 100 ft and the lift is supervised by a master rigger, written notification is not required.

24.0 Signals.-
24.1 A signalman shall be provided when the point of operation is not in full and direct view of the operator unless an approved mechanical signaling or control device is provided for safe direction of the operator.
24.2 Only persons who are dependable and fully qualified by experience with the operation shall be used as signalmen.
24.3 A signalman or other appropriate controls shall be provided when operations or equipment on or adjacent to a highway create a traffic hazard.
24.4 Signalmen shall wear high visibility gloves.
24.5 A uniform hand signal system shall be used on all operations of a similar nature. The system in use by the U.S. Corps of Engineers *(EM 385-11) may be used as the model.
As enacted but (EM 385-1-1) probably intended.
24.6 Manual hand signals may be used when the distance between the operator and the signalman is not more than 60 feet, but manual hand signals shall not be used when atmospheric conditions prevent clear visibility to the operator.
24.7 Mechanical signal systems shall be protected against unauthorized use, breakage, weather or obstruction which will interfere with safe operation. In the event of any malfunction, all motion shall be stopped immediately.

25.0 Miscellaneous.-
25.1 Ballast or counterweight. - Cranes shall not be operated without the full amount of any ballast or counterweight in place as specified by the maker, and approved by the department.
25.2 Wind speed limitations. - No crane or derrick operator shall start an operation when the wind speed exceeds 30 m.p.h., or when the wind is predicted to reach 30 m.p.h. before the operation can be completed. The U.S. weather bureau data from the nearest reporting station may be used for the determination of wind speed.
25.3 Operating near electric power lines. -
25.3.1 No crane or derrick shall be operated in such a location that any part of the machine or of its load shall at any time come within 15 feet of an energized power line.
25.3.2 Before the commencement of operations near electrical lines, the appointed person responsible for the operation shall notify the owners of the lines or their authorized representatives providing them with all pertinent information and requesting their cooperation.
25.3.3 Any overhead wire shall be considered to be an energized line unless and until the person owning such line or the electrical utility authorities certify that it is not an energized line.
25.4 Electrical equipment.-
25.4.1 General.-
(a) Wiring and equipment shall comply with the electrical code of the City of New York.
(b) The voltage used on control circuits shall not exceed 750 volts.
25.4.2 Equipment.-
(a) Electric equipment shall be so located or enclosed that live parts will not be exposed to accidental contact.
(b) All motor, controller and switch frames shall be grounded.
(c) Electric equipment shall be thoroughly protected from dirt, grease and oil, and where exposed to the weather, shall be thoroughly protected therefrom.
(d) Guards for live parts shall be substantial and so located that they cannot be deformed so as to make contact with the live parts.
(e) Name plates shall not be removed.
25.4.3 Controllers.-
(a) Each cage operated crane and derrick shall be provided with a device which will disconnect all motors from the line on failure of power and will not permit any motor to be restarted until the controller handle is brought to the "off " position, or a reset switch or button is operated.
(b) Lever operated controllers shall be provided with a notch or latch which in the "off" position prevents the handle from being inadvertently moved to the "on" position.
(c) The controller operating handle shall be located within convenient reach of the operator.
(d) As far as practicable, the movement of each controller handle shall be in the same general directions as the resultant movements of the load.
(e) For floor operated cranes and derricks, the controller or controllers, if rope operated, shall automatically return to the "off" position when released by the operator.
25.4.4 Grounding.-Each crane, which may be operated in the vicinity of a live power line, shall be effectively grounded as hereinafter provided. The crane shall be provided with a permanent clamp or other means for convenient and effective attachment of a grounding conductor. The cable connecting the clamp to the ground shall be equivalent to a No. 2 AWG or larger single conductor, superflexible, rope stranded copper, composed of not less than 1,600 individual wires, with 600 volt covering for mechanical protection and with terminal parts that insure a good connection with hand type screw clamps. An effective ground shall be one having a resistance of 25 ohms or less, which shall be measured, or a connection to a continuous underground metallic water piping system.
25.5 Demolition.-
25.5.1 Crane or derrick operation when used for mechanical demolition shall comply with section C26-1905.4(d) of the building code and, in addition, a crane or derrick operating with a demolition ball shall meet the following requirements:
(a) The weight of the demolition ball shall not exceed fifty percent of the rated capacity of the boom length at its maximum radius.
(b) The swing of the boom shall not exceed thirty degrees from the centerline, front to back of the crane mounting.
(c) The load line and attachment of the demolition ball to the load line shall be checked at least twice daily.
(d) Truck cranes without outriggers extended shall not be used to swing a demolition ball.

26.0 Storage.-
26.1 Necessary clothing and personal belongings shall be stored in or about the crane or derrick in such a manner as to not interfere with access or operation.
26.2 Tools, oil cans, waste, extra fuses, and other necessary articles shall be stored in a tool box and shall not be permitted to lie loose in or about the cab or cage.

27.0 Refueling.-
27.1 Refueling shall comply with section C26-1909.1(c).
27.2 Machines shall not be refueled with the engine running.

28.0 Fire Extinguishers.-
28.1 A carbon dioxide, dry chemical or equivalent fire extinguisher shall be kept in the cab or in the vicinity of the crane or derrick.
28.2 Operating and maintenance personnel shall be familiar with the use and care of the fire extinguishers provided.

29.0 Filing for Prototype Equipment.-Where the equipment is a duplicate of equipment previously filed with design information and approved by the department, the previous approval shall be accepted for the design. Evidence shall be submitted that the welding and other manufacturing processes affecting the structural integrity of the crane were performed in accordance with applicable specifications and that required controls were maintained and tests performed.

30.0 Waiver of Modification of Rules and Regulations.-The commissioner may, at his discretion, modify or waive any of the foregoing requirements where practical difficulties in complying with particular sections exist and the public safety is not endangered thereby.

STATEMENT OF BASIS AND PURPOSE

The proposed amendment to the Reference Standard furthers the safety of persons and property affected by the operation of power operated cranes and derricks. Specifically, the proposed amendment will refine the Certificate of Approval (Prototype) process by simplifying the submissions required and updating the reference standard to reflect Buildings' acceptance of the most current national and international standards for the design and construction of cranes and derricks. The proposed amendment will similarly update the requirements for rope inspection and replacement, safety devices, and minimum standards for operation where a safety device may not be functioning, to meet current national standards. Additionally, the proposed amendment will establish guidelines for the use of personnel hoisting equipment and the notification to Buildings of its use.

TAXI AND LIMOUSINE COMMISSION

■ NOTICE

NOTICE OF PUBLIC HEARING AND OPPORTUNITY TO COMMENT ON PROPOSED RULES RELATING TO SUMMARY SUSPENSION PROCEDURES

Notice is hereby given in accordance with section 1043(b) of the Charter of the City of New York ("Charter") that the Taxi and Limousine Commission ("TLC") intends to amend Title 35 of the Rules of the City of New York (RCNY), relating to the establishment of summary suspension and hearing procedures for licensees who are not in compliance with the rules of the Commission. This rule was not included in the TLC's regulatory agenda for Fiscal Year 2006 because the need for the rule changes was not anticipated at the time the agenda was submitted.

A public hearing on these proposed rules will be held by the TLC at its offices at 40 Rector Street, 5th Floor, New York, New York 10006 on October 25, 2006, at 9:30 A.M. Persons wishing to testify at the hearing may notify the TLC in advance, either in writing or by telephone to the TLC's Office of Legal Affairs at the address and telephone given below. Any request for a sign language interpreter or other form of reasonable accommodation for a disability at the hearing must be submitted to the Office of Legal Affairs in writing, by telephone, or by TTY/TDD no later than October 18, 2006.

Written comments in connection with these proposed rules should be submitted to the Office of Legal Affairs and must be received no later than October 23, 2006 to:

Charles R. Fraser
Deputy Commissioner for Legal Affairs/General Counsel
Taxi and Limousine Commission
40 Rector Street, 5th Floor
New York, New York 10006
Telephone: 212-676-1117
Fax: 212-676-1102
TTY/TDD: 212-341-9596

Written comments and a summary of all comments received at the hearing will be available for public inspection at that office.

New material is underlined. Deleted material in brackets.

§ 1. Section 1-07 of Chapter 1 of Title 35 of the Rules of the City of New York is amended by adding a new Subdivision (c):

(c) A taxicab may be operated only while the registration of the vehicle remains valid. Operation of a vehicle without a valid registration shall constitute operation without a Commission-issued license in violation of section 19-506 of the Administrative Code of the City of New York, regardless of whether a Commission-issued license had previously been obtained while a registration was valid.

§ 2. Section 1-10 of Chapter 1 of Title 35 of the Rules of the City of New York is amended to read as follows:

§ 1-10 Taxicab Inspections

(a) No new or replacement taxicab shall operate for hire unless it has been inspected and approved by the Commission.

(b) An owner shall have his taxicab inspected every four months at a date and time designated by the Commission and at any other time deemed necessary by the Commission.

(c) An owner shall comply with all notices and directives to correct defects in taxicabs.

(d) An owner shall repair or replace a taxicab when the Commission determines that the vehicle is unsafe or unfit for use as a taxicab, and directs the owner to remove it from service. [Upon failure to comply with such order within ten (10) days of service thereof, t]The owner shall surrender the medallion and rate card to the Commission for storage and shall be suspended pursuant to section 8-17(b) of this title. [If the owner fails to comply with the order within one hundred and twenty (120) days of service thereof, or in the event the owner has sold his vehicle and has failed to replace it within one hundred and twenty (120) days from the date of sale, the Commission may deem the taxicab license to have been abandoned and may initiate revocation proceedings.]

§ 3. Section 1-86 of Chapter 1 of Title 35 of the Rules of the City of New York is amended by adding the following language, adding a new penalty labeled § 1-07(c) between the penalties labeled § 1-07(b) and § 1-09(a), amending the penalties labeled §1-10(a) through §1-10(d), by removing the penalty labeled §1-11(e) & (f), and amending the penalties labeled §1-22(a) and §1-23(a) to read as follows:

§ 1-86 Penalties for Violation of Rules Governing Owners of Medallion Taxicabs and Coaches.

RULE NO.	PENALTY	Personal Appearance Required
	All fines listed below also include a separate license suspension, to run concurrent with any underlying suspension, until such fine is paid, unless such fine is paid by the close of business on the day assessed.	
§ 1-07(b)	$50 - $350 and/or suspension up to 30 days	Yes
§ 1-07(c)	$100 - $350 and/or suspension up to 30 days; summary suspension until compliance pursuant to section 8-17(b) of this title.	Yes
§ 1-09(a)	$75	No
110(a)	$100 and seizure of the vehicle	No
§110(b)	$100 and summary suspension until compliance[;] pursuant to section 8-17(b) of this title. If the failure to inspect extends 31 days after the scheduled inspection date or the date of an order to inspect or re-inspecton other than the tri-annual schedule, $100-250 and summary suspension until compliance pursuant to section 8-17(b) of this title. If the failure to inspect extends 61 days after the scheduled inspection date or the date of an order to inspect or re-inspect on other than the tri-annual schedule, $250-500 and summary suspension until compliance pursuant to section 8-17(b) of this title. If the failure to inspect extends 121 or more days after the scheduled inspection date or the date of an order to inspect or re-inspect on other than the tri-annual schedule, $500 and/or revocation. For failure to have the vehicle inspected on a tri-annually scheduled date, (or for failure to re-inspect after failing such inspection) an owner could be found in violation of this rule up to four times in the course of 121 days: for failure to inspect within 30 days, within 61-120 days, and for more than 120 days. In addition, the owner could also and concurrently be found in violation of any order(s) to have the vehicle inspected that may be issued in the course of street enforcement, without limit as to number.	Yes Rate card must be brought.
§1-10(c)	$50 and suspension after the hearing until the defective condition is corrected.	No
§110(d)	$100-350 and/or suspension up to 30 days; summary suspension until compliance pursuant to section 8-17(b) of this title.	Yes

§123(a)	$250-1,500 and/or suspension up to 30 days. Summary suspension until compliance pursuant to section 8-17(b) of this title.	Yes

§ 4. Subdivision (a) of Section 2-04 of Chapter 2 of Title 35 of the Rules of the City of New York is amended to read as follows:

(a) [All] An applicant[s] will be issued a probationary license valid for a period of one year subsequent to the [last day of the month in which the application was made] date the license was issued. The Commission will evaluate the applicant at the conclusion of the one-year probationary period, and will determine if renewal of the license is appropriate. In making such determination, the Commission may consider the driving record, any violation of the Taxicab Drivers Rules, or any other evidence that suggests that the driver no longer meets all requirements for a license.

§ 5. Subdivision 1 of paragraph (a) of section 2-10 of Chapter 2 of Title 35 of the Rules of the City of New York is amended to read as follows:

(1) A license issued to a new applicant shall expire [two years] one year subsequent to the date the license was issued as provided in section 2-04 of this chapter. [The first year of said license period shall be a probationary period as defined in §2-04.]

§ 6. Paragraph (a) of section 2-11 of Chapter 2 of Title 35 of the Rules of the City of New York is amended to read as follows:

(a) All licensees are required to attend and satisfactorily complete an authorized course of training in taxi-related subjects prior to the [completion] expiration of their probationary [period as defined in §] license pursuant to section 2-04 of this chapter. The course shall be a minimum of four hours and shall include an update of rule changes, a review of driver responsibilities and duties, driver-passenger relations, and an awareness of serving passengers with disabilities. A renewal applicant must successfully complete such course, as verified by the designated school, as a prerequisite to the first renewal of a taxicab driver's license. The course must be completed no sooner than sixty (60) days prior to, and in any event no later than the expiration date of the one-year probationary license.

§ 7. Paragraph (b) of section 2-12 of Chapter 2 of Title 35 of the Rules of the City of New York is amended to read as follows:

(b) A driver shall [net] not operate a taxicab without a valid New York State chauffeur's license or a valid license of similar class of the state of which he is a resident.

§ 8. Section 2-86 of Chapter 2 of Title 35 of the Rules of the City of New York is amended by adding the following language and amending the penalty labeled §2-12(b) to read as follows:

RULE NO.	PENALTY	Personal Appearance Required
	All fines listed below also include a separate license suspension, to run concurrent with any underlying suspension, until such fine is paid, unless such fine is paid by the close of business on the day assessed.	
§2-12(b)	$100 – 350 and/or suspension up to 30 days; summary suspension until compliance pursuant to section 8-17(b) of this title. *Presentation of a valid license in effect at the [date] time of the violation shall result in a dismissal of the charge	Yes

§ 9. Section 4-06 of Chapter 4 of Title 35 of the Rules of the City of New York is amended by adding the following language and amending subdivision (d) to read as follows:

		Penalty
		All fines listed below also include a separate license suspension, to run concurrent with any underlying suspension, until such fine is paid, unless such fine is paid by the close of business on the day assessed.
(d)	A driver shall not operate a paratransit vehicle unless:	
	(1) he or she possesses a paratransit driver's identification card;	(1) $100 Personal Appearance Required.
	(2) he or she possesses a valid New York State chauffeur's license or appropriate valid license of similar class of the state of which he is a resident;	(2) $100 - $350 and/or suspension up to 30 days; [for the same period of time imposed by the issuing Department of Motor Vehicles unless exempted by the Commission. Personal Appearance Required] summary suspension until compliance pursuant to section 8-17(b) of this title.
	(3) the vehicle is adequately insured in accordance [to] with New York State Law.	(3) $100 Personal Appearance Required.

§ 10. Section 5-09 of Chapter 5 of Title 35 of the Rules of the City of New York is amended by adding the following language:

RULE Number	PENALTY	Personal Appearance Required
	All fines listed below also include a separate license suspension, to run concurrent with any underlying suspension, until such fine is paid, unless such fine is paid by the close of business on the day assessed.	

§ 11. Paragraph 1 of subdivision (a) of section 6-02 of Chapter 6 of Title 35 of the Rules of the City of New York is amended to read as follows:

(1) A license issued to a new applicant for a for-hire vehicle driver's license shall expire [two years] one year subsequent to the date the license was issued as provided in section 6-14. [The first year of said license period shall be a probationary period as defined in Rule §6-14.]

§ 12. Subdivision (a) of Section 6-14 of Chapter 6 of Title 35 of the Rules of the City of New York is amended to read as follows:

(a) [All] An applicant[s] will be issued a probationary license valid for a period of one-year subsequent to the [last day of the month in which the application was made] date the license was issued. The Commission will evaluate the applicant at the conclusion of the one-year probationary period and will determine if renewal of the license is appropriate. In making such determination, the Commission may consider the driving record, any violation of the For-Hire Vehicle Rules, or any other evidence that suggests that the driver no longer meets all requirements for a license.

§ 13. Section 6-22 of Chapter 6 of Title 35 of the Rules of the City of New York is amended by adding the following language and revising the penalties labeled §6-04(i)(1) through § 6-04(i)(5), §6-04(j), § 6-11(b), and §6-15(a)(2) to read as follows:

RULE NO.	PENALTY	Personal Appearance Required
	All fines listed below also include a separate license suspension, to run concurrent with any underlying suspension, until such fine is paid, unless such fine is paid by the close of business on the day assessed.	
§6-04([i]h)(1)	$25 for each day of non-compliance, to a maximum of $10,000, and either suspension until compliance or base license revocation.	Yes
§6-04([i]h)(2)	$25 for each day of non-compliance, to a maximum of $10,000, and either suspension until compliance or base license revocation.	Yes
§6-04([i]h)(3)	$25 for each day of non-compliance, to a maximum of $10,000, and either	Yes

	suspension until compliance or base license revocation.	
§6-04([i]h)(4)	$500-$5,000 for each twenty days said payment is overdue, and suspension until compliance or revocation, together with restitution **to the Fund for any unpaid amount,** together with interest at the rate of 12 percent per annum.	Yes

§ 14. Section 8-11 of Chapter 8 of Title 35 of the Rules of the City of New York is amended to read as follows:

§ 8-11 Hearing Procedure.

(a) No licensee shall be permitted to appear at a hearing unless he [has surrendered his license] or she shows a valid photo ID to the Commission prior to the hearing. [The Commission may, in its discretion, accept a bond in lieu of a license for licensed vehicle owners, including owners of taxicabs, for-hire vehicles, paratransit vehicles and commuter vans.]

(b) All hearings shall be conducted before an ALJ who shall consider all relevant testimony and review documentary evidence submitted at the hearing. Evidence at a hearing may include affidavits or affirmations submitted under penalties of perjury and may also include the records of the Commission or of another governmental body maintained in the regular course of business. Failure of the respondent to produce at a hearing any document either requested by the Commission or required to be maintained by the respondent pursuant to Commission Rules shall lead to a rebuttable presumption that the document, if produced, would have been adverse to the respondent. Although the formal rules of evidence do not apply, all witnesses shall testify under oath.

(c) All hearings shall be recorded. The record of the hearing and the written decision of the ALJ shall constitute the only official record of the hearing. No individual may record or photograph the hearing without prior written permission from the Commission.

(d) At the conclusion of the hearing, the ALJ shall issue a decision which shall include findings of fact and conclusions of law. If the ALJ finds a violation has been committed, the appropriate penalties shall be imposed, which may include a fine, and/or suspension or revocation of the respondent's license. In the event a suspension for a specified period of time is imposed, such suspension period will not include any period of time during which the respondent's license is not in the possession of the Commission.

[(e) The failure to pay any fines imposed at the conclusion of a hearing shall result in the suspension of the respondent's license until payment is received by the Commission. Such suspension period will not be included in the calculation of any specified suspension period imposed by the ALJ.]

§ 15. Section 8-12 of Chapter 8 of Title 35 of the Rules of the City of New York is amended to read as follows:

§8-12 Procedures in the Event of a Failure to Appear.

(a) In the event that a respondent fails to appear at a scheduled hearing, the Commission shall conduct an inquest on any violation of the Administrative Code or the Commission Rules. At said inquest, to be conducted on or after the hearing date, the ALJ shall impose any penalties deemed appropriate, including additional penalties for the failure to appear at such hearing imposed upon licensees pursuant to Commission Rules.

(b) The Commission shall inform the respondent of the determination of the inquest by regular, first class mail to the address of the respondent on file with the Commission.

(c) [If the respondent is a licensee, his license shall be suspended following the inquest until either:

(i) The respondent pays all fines imposed at the inquest, as well as all other fines due and owing to the Commission, and has complied with all Commission directives; or

(ii) The inquest is vacated by an Administrative Law Judge.]

If the penalty imposed at the inquest includes the suspension of a license as a result of a violation of a Commission Rule or the Administrative Code, said suspension shall not [be deemed to run concurrently with any suspension imposed under this subdivision. If a summons or notice of violation issued to the owner of a taxicab, for-hire vehicle, paratransit service vehicle or commuter van was served by personal service upon the driver of such vehicle pursuant to §8-05(a)(iii), the suspension imposed following the inquest shall not] commence until ten (10) days after the mailing of the ALJ's decision with respect to the inquest conducted herein.

(d) A respondent may move to vacate the inquest determination within one hundred twenty (120) calendar days of the date of the inquest. Said motion must be made in writing unless otherwise authorized by the Executive Director of Adjudications or his designee and shall be filed in accordance with the Commission procedures for the submission of such motions. In support of this motion to vacate, the respondent shall present written evidence as to:

(i) the reasons for his failure to appear at the hearing; and

(ii) a defense to the charge, which, if established and proven at a hearing, would result in the dismissal of the summons.

If the respondent fails to make a timely motion to vacate the default, any penalties imposed pursuant to Rule 2-70 or 6-23 shall be assessed and the respondent shall be notified of this determination by regular, first class mail.

(e) If the ALJ determines that the respondent has established both a valid excuse for his failure to appear at the hearing and a defense to the violation which, if proven, would be legally sufficient, the inquest determination shall be vacated and the respondent shall be entitled to a hearing de novo. Any suspension or revocation imposed at the inquest shall be vacated.

(f) If the ALJ denies the motion to vacate, the penalties imposed at the inquest shall be assessed. In addition, the ALJ shall impose any appropriate penalty required pursuant to §2-70 or §6-23 of the Commission Rules.

§ 16. Section 8-15 of Chapter 8 of Title 35 of the Rules of the City of New York is amended to read as follows:

§8-15 Special Procedures Relating to Fitness Hearings.

(a) If the Commission believes that a licensee or applicant for a license (hereinafter referred to as "respondent") does not meet or does not continue to meet the qualifications for licensure, as set forth in Commission Rules, it may direct that such respondent appear for a fitness hearing. Such hearing shall be conducted by an ALJ.

(b) The Commission shall prepare a notice of hearing which shall be served upon the respondent in accordance with §8-05. Such notice shall set forth, at a minimum, the date, time and location of the hearing and the basis for the Commission's charge that the respondent fails to meet the minimum requirements for licensure.

(c) Notwithstanding paragraphs (a) and (b) of this section, the Commission may order the summary suspension of a driver's license to ensure the public safety in cases where the Commission receives notice that a licensee has failed a required drug test. The Commission shall notify the licensee either by personal service or by first class mail of the summary suspension, within five (5) calendar days of the suspension. An expedited fitness hearing shall be scheduled within ten (10) calendar days of such suspension. The hearing shall be conducted by an ALJ in accordance with paragraphs (d) and (e) of this section, and based upon the ALJ's findings, either the suspension shall be lifted or the license shall be revoked.

[(c)](d) The hearing shall be conducted before an ALJ who shall review the documentary evidence and testimony submitted by the Commission and afford the respondent an opportunity to respond under oath and to proffer evidence on his or her behalf. The hearing shall be recorded.

[(d)](e) The ALJ shall issue a Recommended Decision which shall include a determination as to the respondent's fitness to possess a license. If the respondent is or has ever been a licensee, the Recommendation shall be issued to the Chairperson. If the respondent is an applicant who has never held a license issued by the Commission, the Recommendations shall be issued to the Deputy Commissioner for Licensing, his or her designee, or any other person designated by the Chairperson. The Chairperson, Deputy Commissioner for Licensing, or designee, may accept, reject or modify said Recommendation. The decision of the Chairperson, Deputy Commissioner for Licensing, or designee shall constitute the final determination of the Commission.

§ 17. Section 8-16 of Chapter 8 of Title 35 of the Rules of the City of New York is amended to read as follows:

§8-16 [Emergency] Summary Suspension Pending Revocation to Protect the Public [Welfare] Health or Safety.

(a) If the Chairperson finds that emergency action is required to insure public health[,]or safety [or welfare], he/she may order the summary suspension of a license or licensee, pending revocation proceedings.

(b) Such revocation proceedings shall be initiated within five (5) calendar days of the summary suspension.

(c) Notwithstanding paragraph (b) of this section, the Chairperson may summarily suspend a license subject to the provisions of (a) and (d) through (g) of this section based upon an arrest on criminal charges that the Chairperson determines is relevant to the licensee's qualifications for continued licensure. At the hearing pursuant to subdivision (e) of this section, the issue shall be whether the charges underlying the licensee's arrest, if true, demonstrate that the licensee's continued licensure during the pendency of the criminal charges would pose a threat to the health or safety of the public. Revocation proceedings need not be commenced during the pendency of the criminal charges. In such a case, within five (5) calendar days of the Commission's receipt from the licensee of a certificate of disposition of the criminal charges, the Chairperson shall either lift the suspension or commence revocation proceedings.

(d) The Chairperson shall notify the licensee either by personal service or by [both] first class [and certified] mail of the summary suspension, within five (5) calendar days of the suspension. If the licensee wishes to receive a hearing concerning the suspension, he or she may request a hearing within ten (10) calendar days of receipt of the notice of suspension. Upon receipt of a request for a hearing, the Chairperson shall schedule a hearing, which shall be held within ten (10) calendar days of the receipt of the request, unless the Commission determines that such hearing will be prejudicial to any ongoing civil or criminal investigation. This paragraph shall not apply, and no summary suspension hearing shall be required, where the Commission schedules the revocation hearing within fifteen (15) calendar days of the suspension.

[d](e) A summary suspension hearing conducted pursuant to this section shall be held before an ALJ who shall consider relevant evidence and testimony under oath, according to the hearing procedures set forth in this Chapter. In any such hearing, where applicable, the affirmative defenses may include those set forth in subdivision b of §19-512.1 of the Administrative Code [may be available].

[e](f) Upon the conclusion of the summary suspension hearing, the ALJ shall issue a written Recommended Decision to the Chairperson, who may accept, reject or modify the recommendation. The decision of the Chairperson shall be the final determination of the Commission with respect to the summary suspension.

[f](g) In the event no decision is rendered by the Chairperson within sixty (60) calendar days of the conclusion of the suspension hearing, the suspension shall be thereafter stayed until such decision is rendered.

§ 18. Section 8-17 of Chapter 8 of Title 35 of the Rules of the City of New York is amended to read as follows:

§8-17 Summary Suspension Pending Compliance with Commission Rules.

(a)(i) If the Chairperson or his or her designee determines that [the] a licensee is not in compliance with the requirements in subdivision (b) of §2-19 or subdivision (v) of §6-16 in this title, such licensee's [driver's] TLC-issued license shall be summarily suspended pending an opportunity to be heard.

(ii) Upon a determination made pursuant to paragraph (i) of this [section] subdivision that a [driver's] TLC-issued license shall be summarily suspended, the Commission shall notify the licensee either by personal service or by first class mail to the last mailing address filed with the Commission that the licensee's [driver's] TLC-issued license shall be suspended either immediately upon service of such notice if made by personal service, or five (5) days after the date of the mailing of such notice if mailed. Such notice shall contain, at a minimum the following information:

(1) a notice that the licensee's [driver's] TLC-issued license is being suspended for a violation of the Commission's [R]rules or applicable Administrative Code [S]section;

(2) a description of the nature of the violation;

(3) the [R]rule or Administrative Code [S]section alleged to have been violated; provided, however, that if there is a conflict between the [R]rule or [C]code [S]section cited and the description of the violation, the description shall be dispositive; and

(4) a notice that if the licensee wishes to be heard concerning the suspension, he or she may provide the Commission with written documentation refuting the suspension of his or her license within ten (10) calendar days of the receipt of the notice if notice was given by personal service, or fifteen (15) calendar days of the mailing of the notice of suspension if the notice was mailed.

(iii) All documentation submitted by a licensee refuting the suspension shall be reviewed by an ALJ. Suspension of the [driver's] TLC-issued license shall continue while documentation is under review by the ALJ. After review of the documentary evidence, the ALJ shall issue a decision which shall include findings of fact and conclusions of law. If the ALJ finds that a violation has been committed, the appropriate penalties shall be imposed, which shall include continued suspension of the driver's license until compliance and may also include a fine. If the ALJ finds that no violation has been committed, the suspension shall be vacated. The decision of the ALJ shall be final, and [a licensee may appeal such decision] may be appealed pursuant to §8-13 of this [C]chapter. Where an ALJ decision made pursuant to this subdivision lifting a suspension is reversed on appeal, such matter will be remanded for a new hearing pursuant to this subdivision, and the TLC-issued license shall be suspended until final disposition of the case or until compliance as appropriate.

(iv) In the event no decision is rendered by the ALJ within sixty (60) calendar days of the receipt of written documentation provided by the licensee, the suspension shall be thereafter stayed until such decision is rendered.

[(b)](v) In the event a licensee does not provide the Commission with written documentation refuting the suspension within ten (10) calendar days of the receipt of the notice if notice was given by personal service, or fifteen (15) calendar days of the mailing of the notice of suspension if the notice was mailed, it shall be deemed that the opportunity to be heard has been waived and a violation has been committed, and the appropriate penalties shall be imposed, which shall include continued suspension of the [driver's] TLC-issued license until compliance and may also include a fine.

[(c)](vi) Suspension of [driver's] TLC-issued licenses pursuant to this [section] subdivision shall continue until the fines assessed pursuant to paragraph (iii) of this subdivision [(a) of this section] have been paid and until compliance with the underlying Commission [R]rule or Administrative Code [S]section has been shown to the satisfaction of the Chairperson or his or her designee.

[(d)](vii) At any time after a licensee has been notified of suspension, a licensee may pay any applicable fine, comply with the underlying Commission [R]rule or Administrative Code [S]section and furnish proof of such compliance to the satisfaction of the Chairperson or his or her designee. Upon such payment and submission of proof of compliance, the suspension of the [driver's] TLC-issued license shall be lifted. If the licensee pays any applicable fine and furnishes proof of compliance either in lieu of submitting documentation or after documentation has been submitted but before a decision has been rendered, the suspension shall be lifted and the opportunity to be heard shall be deemed to have been waived.

(b)(i) If the Chairperson or his or her designee determines that a licensee is not in compliance with a rule in this title that provides for summary suspension until compliance, such licensee's TLC-issued license may be summarily suspended until compliance pending an opportunity for a hearing.

(ii) Upon a determination made pursuant to paragraph (b)(i) of this section that a TLC-issued license shall be summarily suspended, the Chairperson shall notify the licensee either by personal service or by first class mail to the last mailing address filed with the Commission that the licensee's TLC-issued license shall be suspended either immediately upon service of such notice if made by personal service, or five (5) days after the date of the mailing of such notice if mailed. Such notice shall contain, at a minimum the following information:

(1) notice that the licensee's TLC-issued license is being suspended for a violation of the Commission's rules or applicable Administrative Code section;

(2) a description of the nature of the violation;

(3) the rule or Administrative Code section alleged to have been violated; provided, however, that if there is a conflict between the rule or code section cited and the description of the violation, the description shall be dispositive; and

(4) a notice that if the licensee wishes to receive a hearing concerning the suspension, he or she may request a hearing within ten (10) calendar days of receipt of the notice of suspension if notice was given by personal service, or fifteen (15) calendar days of the mailing of the notice of suspension if the notice was mailed.

(iii) Upon receipt of request for a hearing, the Commission shall schedule a hearing, which shall be held within ten (10) calendar days of the receipt of the request, unless adjourned upon consent of the licensee or for good cause by the ALJ. Such summary suspension hearing shall be conducted by an ALJ who shall consider relevant evidence and testimony under oath, according to the hearing procedures set forth in this chapter.

(iv) The ALJ shall issue a decision which shall include findings of fact and conclusions of law. If the ALJ finds that a violation has been committed, the appropriate penalties shall be imposed, which shall include continued suspension of the TLC-issued license until compliance and may also include a fine. If the ALJ finds that no violation has been committed, the suspension shall be vacated. The decision of the ALJ shall be final, and such decision may be appealed pursuant to section 8-13 of this chapter. Where an ALJ decision made pursuant to this subdivision lifting a suspension is reversed on appeal, such matter will be remanded for a new hearing pursuant to this subdivision, and the TLC-issued license shall be suspended until final disposition of the case or until compliance as appropriate.

(v) In the event no decision is rendered by the ALJ within sixty (60) calendar days of the receipt of written documentation provided by the licensee, the suspension shall be thereafter stayed until such decision is rendered.

(vi) Suspension of TLC-issued licenses pursuant to paragraph (b)(iv) of this section shall continue until the fines assessed pursuant to that paragraph have been paid and until compliance with the underlying Commission Rule or Administrative Code section has been shown to the satisfaction of the Chairperson or his or her designee.

(vii) In the event a licensee does not provide the Commission with a request for a hearing regarding the suspension within ten (10) calendar days of the receipt of the notice if notice was given by personal service, or fifteen (15) calendar days of the mailing of the notice of suspension if the notice was mailed, it shall be deemed that the opportunity to be heard on an expedited basis pursuant to this subdivision has been waived and the licensee shall be scheduled for a hearing on the underlying violation pursuant to the procedures in this chapter. In such an event, the summary suspension of the TLC-issued license shall be continued until either lifted by the ALJ in such regularly scheduled hearing, or until the licensee furnishes proof of compliance to the satisfaction of the Chairperson or his or her designee.

(viii) At any time after a licensee has been notified of suspension, a licensee may pay any applicable fine, comply with the underlying Commission rule or Administrative Code section and furnish proof of such compliance to the satisfaction of the Chairperson or his or her designee. Upon such payment and submission of proof of compliance, the suspension of the TLC-issued license shall be lifted. If the licensee pays any applicable fine and furnishes proof of compliance either in lieu of submitting documentation or after documentation has been submitted but before a decision has been rendered, the suspension shall be lifted and the opportunity to be heard shall be deemed to have been waived.

§ 19. Section 9-17(a) of Chapter 9 of Title 35 of the Rules of the City of New York is amended by adding the following language:

(a)

RULE NO.	PENALTY	Personal Appearance Required
	All fines listed below also include a separate license suspension, to run concurrent with any underlying suspension, until such fine is paid, unless such fine is paid by the close of business on the day assessed.	
§9-02(a)	$500 – first violation $1,000 – subsequent violation within twenty-four months	Yes
§9-03(c)	$500 – first violation $1,000 – subsequent violation within twenty-four months	Yes

§ 20. Section 12-08(a) of Chapter 12 of Title 35 of the Rules of the City of New York is amended by adding the following language:

(a)

RULE NO.	PENALTY	Personal Appearance Required
	All fines listed below also include a separate license suspension, to run concurrent with any underlying suspension, until such fine is paid, unless such fine is paid by the close of business on the day assessed.	
12-02(a)	$500-1,000	Yes
12-02(e)	$500-10,000 and/or revocation	Yes

§ 21. Section 15-43 of Chapter 15 of Title 35 of the Rules of the City of New York is amended by adding the following language:

RULE NO.	PENALTY	Personal Appearance Required
	All fines listed below also include a separate license suspension, to run concurrent with any underlying suspension, until such fine is paid, unless such fine is paid by the close of business on the day assessed.	
§15-02	$10,000 and revocation if the taximeter business license is suspended	Yes
§15-08(a)	$1,000-5,000 and suspension until consent of commission is obtained or change in business ownership is withdrawn, or revocation	Yes

STATEMENT OF BASIS AND PURPOSE

These proposed rules create procedures for suspending licenses pending compliance with applicable rules, as an alternative to the existing procedure for suspending licenses pending revocation of those licenses. This rulemaking follows the pattern of recently promulgated amendments to the Commission's drug testing rules, which provided for suspension of licensees who fail to submit to required annual drug testing – the new rule provides for suspension pending compliance as an alternative to suspension pending revocation. This rulemaking creates the alternative of suspension pending compliance for several rules violations involving pre-hearing suspensions.

Because the suspensions are pre-hearing, prompt post-suspension review of the suspension is provided for in these rules. Section 8-17(a) provides for post-suspension review based on the submission of papers, and is applicable only to a suspension imposed for failure to submit to required annual drug testing. Section 8-17(b) provides for post-suspension hearings, and is applicable to all other summary suspensions that are imposed pending compliance. Both section 8-17(a) and section 8-17(b) provide deadlines within which the suspended licensee may contest the suspension. Where a suspension is imposed and a summons is issued for the same violation, the hearing on the summons will be consolidated with any hearing on the suspension pursuant to section 8-17(b). Each rule that may result in a summary suspension pending compliance includes a reference to 8-17(a) or (b) in the penalty in these proposed rules.

In addition to or instead of contesting a summary suspension that is imposed pending compliance, a licensee has the alternative of complying with the underlying rule, and demonstrating compliance to the Commission, whereupon the suspension will be lifted without a hearing, and regardless of whether a hearing has been scheduled or has been held.

Other substantive changes proposed in these rules include:

- Elimination of suspensions for failure to comply with Commission rules requiring personal appearances at hearing. This requirement is eliminated in anticipation of future rulemaking to substitute fixed fines for "range fines," which were the reason underlying the personal appearance requirements.
- Amendment of section 8-15 to provide for pre-hearing suspension of a licensee pending a fitness hearing, where the licensee fails a drug test and the licensee's continued operation would pose a threat to the public safety. As with other summary suspensions, the amendment provides for prompt post-suspension process – in this case, a prompt fitness hearing.
- Explicit provision for summary suspension pending revocation where the licensee is arrested on charges that are relevant to the licensee's qualification for licensure and pose a threat to public health or safety. Prompt post-suspension challenges are provided for, and a revocation proceeding must be commenced, or the suspension lifted, promptly upon notice to the Commission of disposition of the criminal proceedings.
- Provision that holders of probationary taxicab driver licensees must complete their continuing education requirements within a prescribed time, and that failure to do so results in expiration of their licenses.
- Elimination of the existing rule requiring surrender of a license as a precondition to appearing at a hearing. The proposed rule would require only that photo identification be shown, in conformance with current practice.
- Rule 8-11(e) is deleted and instead incorporated into each penalty table, to make the requirement of paying fines more clear throughout the rules.

Finally, this rulemaking corrects various typographical errors, eliminates references only to the male pronoun, and provides for more consistent usage of terms.

NOTICE OF RATEMAKING

Notice of Adoption of Schedule of Charges
for Fire Department Ambulance Service

NOTICE IS HEREBY GIVEN that, pursuant to the authority vested in the Fire Commissioner of the City of New York by Section 487(f) of the New York City Charter, the New York City Fire Department hereby adopts the revised schedule of charges set forth below for Fire Department Emergency Medical Service (EMS) ambulance service. The revised schedule of charges will take effect on October 22, 2006.

The revised schedule of charges and justification therefor are as set forth in the Notice of Ratemaking published in The City Record on June 30 and July 1-7, 2006. A public hearing was held on the ratemaking proposal on August 2, 2006.

The revised schedule of charges will be posted on the Fire Department Internet Home Page (www.nyc.gov/fdny) and published as an appendix to Title 3 of the Rules of the City of New York (following Chapter 43 thereof).

Nicholas Scoppetta
Fire Commissioner

The Fire Department hereby revises its schedule of charges for ambulance service provided by the Fire Department's Emergency Medical Service through the New York City 911 System, as set forth in Appendix A to Title 3 of the Rules of the City of New York (following Chapter 43 thereof), as follows:

* * * *

Schedule of Charges for Fire Department Ambulance Service
(effective [November 24, 2002] October 22, 2006)

Type of Service	Charge
Basic Life Support Ambulance	$[420.00] 475.00
[Advanced Life Support Ambulance	$535.00]
Advanced Life Support Ambulance Service – Level 1 (ALS1)	$600.00
Advanced Life Support Ambulance Service – Level 2 (ALS2)	$700.00

Additional Charges:

– Mileage (distance traveled to hospital)	$[6.00] 7.00/mile
– Provision of Oxygen (as applicable)	$50.00

JUSTIFICATION FOR FINAL RATEMAKING:

The Fire Department is adopting a revised schedule of charges for Fire Department ambulance service. The schedule of charges sets forth the rates the Fire Department charges patients and insurers for Emergency Medical Service (EMS) ambulance treatment and transport provided in the New York City 911 System. The revised rates reflect increased costs and help defray the City's cost of providing these services.

The charges for ambulance transport service were last increased in November 2002. The rates adopted at that time and currently in effect are $420 for an ambulance response (including treatment and transport) by a Basic Life Support (BLS) ambulance staffed by two Fire Department Emergency Medical Technicians; $535 for an ambulance response (including treatment and transport) by an Advanced Life Support (ALS) ambulance staffed by two Fire Department Paramedics; $6.00/per mile for hospital transports; and $50.00 for provision of oxygen.

The revised schedule of charges continues the existing single rate for BLS service, but establishes separate rates for the two levels of ALS service established by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services for Medicare reimbursement, which have become the nationally-accepted standards for ambulance service levels.

ALS1 service comprises all regular ALS ambulance treatment and transport. The ALS2 level of service is limited to treatment and transport requiring certain advanced care, as set forth in Medicare regulations, including manual defibrillation, endotracheal intubation, the insertion of a central venous line, and the intravenous administration of certain medications, such as morphine, diazepam, lidocaine and lasix.

The revised schedule of charges reflects a 13% increase above the current BLS rate. With respect to the ALS rates, more than 90% of ALS transports involve the provision of ALS1 care, and accordingly the estimated average bill for all ALS transports (ALS1 and ALS2 combined) under the revised ALS rates will be $605, also an increase of 13% above the current ALS rate. The increase in mileage charges is consistent with the mileage rate approved by the Centers for

Medicare and Medicaid Services.

The revised rates are the amounts that the Fire Department would bill for EMS ambulance service. The rates do not necessarily reflect the amounts accepted by the Fire Department as payment for such services from government and private health insurance plans.

The schedule of charges does not apply to emergency medical care provided by Fire Department firefighters as certified first responders. The Fire Department does not charge for such services.

■ NOTICE

Notice of Proceeding Concerning Cablevision Systems of New York City Corporation's Renewal of its Cable Television Franchises

On March 14, 2006, Cablevision Systems of New York City Corporation ("Cablevision") provided the New York City Department of Information Technology and Telecommunications ("DoITT") notice of its intent to seek renewal of its franchises to provide cable television service in the boroughs of Brooklyn and the Bronx. These franchises will expire on October 8, 2008. Pursuant to 16 NYCRR Section 891.2 and 47 U.S.C. Section 546, DoITT hereby provides the public an opportunity to comment on the renewal of these franchises. In their submissions, commenters are invited to:

(1) identify the future cable-related community needs and interests, taking into account the costs of meeting such needs and interests; and
(2) review Cablevision's performance during the current franchise term, which began on October 8, 1998.

DoITT will accept comments until August 1, 2007, subject to a possible future extension of such date if authorized by the New York State Public Service Commission. Comments and any questions should be addressed to:

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

POLICE

■ NOTICE

THE ONE POLICE PLAZA SECURITY PLAN
DRAFT ENVIRONMENTAL IMPACT STATEMENT

The New York City Police Department (NYPD) will hold the second of two public hearings on the Draft Environmental Impact Statement (DEIS). **The public hearing will be held from 6:00 P.M. to 8:00 P.M. on October 4, 2006, in the 2nd floor auditorium at 125 Worth Street, New York, NY. Members of the public will need photo identification to gain entrance to the building.** Oral and written comments will be accepted at the public hearing. In addition, written comments on the DEIS are requested and should be sent to Inspector Anthony Tria, NYPD Capital Construction, 620 Circle Drive, Fort Totten, NY 11359 Phone: (718) 281-1254, Fax: (718) 281-1593 through the 20th calendar day (October 24, 2006) following the close of the public hearing.

The New York City Police Department (NYPD) has prepared a Draft Environmental Impact Statement (DEIS) for the security plan established following the events of September 11, 2001 in order to protect City, State, and Federal facilities in the "civic center" portion of lower Manhattan which were, and continue to be, considered potential targets. These security measures included the installation of attended security checkpoint booths, planters, bollards and hydraulically-operated delta barriers to restrict the access of unauthorized vehicles from the roadways situated adjacent to the civic facilities located near NYPD headquarters at One Police Plaza.

The DEIS contains a description and analysis of the action and its environmental setting; the environmental impacts of the action, including its short and long term effects, and typical associated environmental effects; identification of any significant adverse environmental effects; a discussion of alternatives to the action; the identification of any irreversible and irretrievable commitments of resources that would be involved in the action; and a description of any necessary mitigation measures proposed to minimize significant adverse environmental impacts.

The action results in no significant adverse impacts to land use, zoning, public policy, community facilities and services, socioeconomic conditions, visual resources and parking. The DEIS discloses that the action, however, does result in significant adverse impacts to urban design, neighborhood character, traffic, transit and pedestrian conditions, and air quality and noise related to traffic diversions.

The DEIS describes mitigation measures including installation of a landscaped esplanade along Park Row, the reconfiguration of Chatham Square, and the restoration of bus service along Park Row. Four alternatives to the action are examined, but found not to satisfy the goals and objectives of the action, which are to secure police headquarters and the "civic center" area of lower Manhattan. Traffic impacts at Robert F. Wagner, Sr. Place and Pearl Street, and traffic-related noise impacts to residential buildings and Columbus Park on Worth Street at intersections of Worth and Baxter Streets and Worth and Mulberry Streets cannot be fully mitigated.

This public hearing is being held in conformance with Article 8 of the Environmental Conservation Law, the State Environmental Quality Review Act, City Environmental Quality Review procedures, and Local Law No. 24 of 2005.

Copies of the DEIS may be reviewed at the New York City Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, NY 10038, Robert Kulikowski, Director, (212) 788-9956. The DEIS is also available online through a

Project Location

Brooklyn Piers 7-12 project is located within Community District 6 of Brooklyn.
The project site is a large swath of publicly controlled, partially utilized land on the waterfront of Brooklyn Community District 6. It encompasses approximately 120 acres of upland property, with approximately 1.1 miles of waterfront, and includes areas to be acquired by the City from the Port Authority as well as some City-owned upland parcels that are part of the Red Hook Peninsula Urban Renewal Area. The site is located across Buttermilk Channel, with the northern boundary of the project site at Atlantic Avenue, and the southern border at Wolcott Street.

Brief Project Description

The Brooklyn Piers 7-12 project proposes a set of actions relating to the acquisition by the City of New York (the City) of portions of Piers 7 through 12 and related waterfront and upland property in the Red Hook section of Brooklyn from the Port Authority of New York and New Jersey (Port Authority). The proposed project requires several actions which require discretionary approvals, including: Amendment to the City Zoning Map; Amendments to the City Map to map public streets as part of the site's program of improvements; Modification of the Red Hook Peninsula Urban Renewal Plan to reflect proposed changes; Disposition of acquired property; and Waterfront zoning certification and or authorization for public access and visual corridors.

A public scoping meeting will be held on October 12, 2006 at 6:00 P.M. at the Long Island College Hospital, 339 Hicks Street at Atlantic Avenue, Brooklyn, NY 11201. The period for submitting written comments will remain open until October 26, 2006. NEW YORK COUNTY
IA PART 25
NOTICE OF ACQUISITION
INDEX NUMBER 402174/06

In the Matter of the Application of the CITY OF NEW YORK, relative to acquiring permanent underground easements to a volume of real property, where not heretofore acquired for the same purpose, for the construction of **CITY TUNNEL NO. 3, STAGE 2, PHASE III-A and appurtenances, in the Borough of Manhattan, City and State of New York from East 52nd Street and Second Avenue to East 59th and First Avenue** located between 325 and 615 feet below Sandy Hook mean sea level, usually 50 feet wide.

PLEASE TAKE NOTICE, that by order of the Supreme Court of the State of New York, County of New York, IA Part 25 (Hon. Leland DeGrasse, J.S.C.), duly entered in the office of the Clerk of the County of New York on August 18, 2006, the application of the City of New York to acquire permanent underground easements to a volume of real property, where not heretofore acquired for the same purpose, for the construction of City Tunnel No. 3, Stage 2, Phase III-A and appurtenances, was granted and the City was thereby authorized to file an acquisition map with the Office of the City Register. Said map, showing the property acquired by the City, was filed with the City Register on August 23, 2006. Title to the permanent underground easements shown on said map vested in the City of New York on August 23, 2006.

The permanent underground easements acquired by the City are located approximately between 325 and 615 feet below Sandy Hook mean sea level, from East 52nd Street and Second Avenue, to East 59th and First Avenue, in the Borough of Manhattan, City and State of New York.

PLEASE TAKE FURTHER NOTICE, that the properties affected by this acquisition shall include the following parcels:

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to §§503 and 504 of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired in the above-referenced proceeding and having any claim or demand on account thereof is hereby required, on or before August 23, 2009 (which is three (3) calendar years from the title vesting date), to file a written claim with the Clerk of the Court of New York County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007. Pursuant to EDPL §504, the claim shall include:

A. the name and post office address of the condemnee;

B. reasonable identification by reference to the acquisition map, or otherwise, of the property affected by the acquisition, and the condemnee's interest therein;

C. a general statement of the nature and type of damages claimed, including a schedule of fixture items which comprise part or all of the damages claimed; and,

D. if represented by an attorney, the name, address and telephone number of the condemnee's attorney.

Pursuant to EDPL §503(C), in the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.

AGENCY RULES

HOUSING PRESERVATION & DEVELOPMENT

■ **NOTICE**

Notice of Adoption of Rules Governing

Tax Exemption under §421-b of the Real Property Tax Law

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN THE Commissioner of Housing Preservation and Development by §1802 (6)(c) and in accordance with the requirements of §1043 of the New York City Charter that the Department of Housing Preservation and Development is adopting amendments to the rules governing tax exemption under §421-b of the Real Property Tax Law of the State of New York. Additions to the rules are underlined. A public hearing was held on September 15, 2006.

The proposed rule amendments were included in HPD's 2006-7 Regulatory Agenda.

Section one. Section 7-01 of Chapter 7 of Title 28 of the Rules of the City of New York is amended by adding a new definition to read as follows:

Department. "Department" means the Department of Housing Preservation and Development of the City of New York.

§2. Section 7-05 of Chapter 7 of Title 28 of the Rules of the City of New York is amended by adding two new subdivisions (g) and (h) to read as follows:

(g) All applicants for a Preliminary or Final Certificate of Eligibility must, in addition to the timely filing of an application, provide all of the required documentation for such application on or before December 31, 2008.

(h) Notwithstanding anything to the contrary contained in this section, the Department may waive the filing deadlines for an application for a Final Certificate of Eligibility set forth in Sections 7-05(d) and 7-05(e) of this chapter if (1) the Department, in its sole discretion, determines that the owner of such private dwelling reasonably relied upon a representation by the seller of such private dwelling that the seller would file or had filed the application for the Final Certificate of Eligibility , and (2) the owner of such private dwelling provides all of the required documentation for such application on or before December 31, 2008.

Statement of Basis and Purpose. HPD's rules require applications for Final Certificates of Eligibility for 421-b tax benefits to be filed within 90 days of issuance of a Certificate of Occupancy for a new private dwelling. The rule amendment allows HPD to waive the filing deadline for such applications in certain instances in order to ensure that homeowners who purchase private dwellings with the reasonable expectation that their new homes will be eligible for 421-b benefits are not penalized due to the seller's misrepresentations regarding the filing of a 421-b application. The rule amendments also provide that all of the required documentation for any application for a Preliminary or Final Certificate of Eligibility must be filed on or before December 31, 2008.

MAYOR'S OFFICE OF FILM, THEATRE AND BROADCASTING

■ **NOTICE**

NOTICE OF PROMULGATION OF AMENDMENTS TO RULES RELATING TO THE NEW YORK CITY MADE IN NEW YORK FILM PRODUCTION TAX CREDIT PROGRAM

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN the Commissioner of the Mayor's Office of Film, Theatre and Broadcasting by sections 389(b) and 1043 of the New York City Charter and in accordance with the requirements of section 1043 of the New York City Charter, that the Mayor's Office of Film, Theatre and Broadcasting has adopted amendments to rules governing the film production tax credit program. These rules are necessary to carry out the powers and duties delegated to the Commissioner of the Mayor's Office of Film, Theatre and Broadcasting by (1) sections 2 and 3 of Part Y of Chapter 62 of the Laws of 2006 and (2) Local Law No. 24 of 2006, signed by the Mayor on July 11, 2006 and effective immediately.

Pursuant to notice published in the City Record on August 1, 2006, a hearing for public comment was held on August 31, 2006 at 1697 Broadway, 6th Floor, New York, New York 10019, at 9:00 A.M. The agency received no comments on the proposed rule prior to or during this hearing.

Matter underlined is new, and deleted material is bracketed. The proposed amendments are set forth below. The proposed rule was not included in the Department's regulatory agenda because the changes to be established by the rule were not anticipated at the time the regulatory agenda was to be published.

Section 1. Subdivision (a) of §7-01 of Chapter 7 of Title 43 of the Rules of the City of New York is amended to read as follows:

(a) The purpose of these regulations is to set forth the application process for the New York City Made In New York Film Production Tax Credit program established by Local Law Number 2 of the Year 2005, as amended by Local Law No. 24 of the Year 2006, pursuant to subdivision (b) of section 1201-a of the Tax Law. The Mayor's Office of Film, Theatre and Broadcasting has authority to promulgate regulations to establish procedures for the allocation of such credits[,] including, but not limited to, the application process, standards for application evaluations, and any other provisions deemed necessary and appropriate. The Mayor's Office of Film, Theatre and Broadcasting shall administer the program, including[,] the issuance of tax credit certificates. These regulations do not govern the New York State film production tax credit program. Eligibility in and receipt of a tax credit in the New York State program does not guarantee eligibility in or receipt of a tax credit in the New York City Made In New York film production tax credit program. In addition, eligibility in and receipt of a tax credit in the New York City Made In New York film production tax credit program does not guarantee eligibility in or receipt of a tax credit in the New York State program.

§ 2. Subdivisions (a), (h), (q) and (s) of §7-02 of Chapter 7 of Title 43 of the Rules of the City of New York are amended to read as follows:

(a) **Authorized applicant.** "Authorized applicant" means a qualified film production company that is scheduled to begin principal and ongoing photography on the qualified film no more than [one hundred eighty (180)] ninety (90) days after submitting an initial application to the Office and intends to shoot a portion of principal and ongoing photography on a stage at a qualified film production facility on a set or sets.

(h) **Effective date.** "Effective date" means the date the certificate of conditional eligibility becomes effective. Such date is determined by the date the initial application is received by the Office. In the event that the applicant's principal and ongoing photography on a qualified film does not actually begin within [one hundred eighty (180)] ninety (90) days of the submission of the initial application, the applicant's effective date will be recalculated to correspond to the date [one hundred eighty] ninety (90) days prior to the date that the approved applicant submits, and the Office receives, a notification of the actual commencement of principal and ongoing photography [to the Office]. If the actual commencement of principal and ongoing photography does not begin within one hundred eighty (180) days of submission of the initial application, the application shall no longer be deemed valid.

(q) **Priority number.** "Priority number" means the number used by the Office to determine allocation of the New

York City Made In New York film production tax credit. Priority number shall be based on the applicant's effective date; provided, however, that in the event that there is more than one initial application with the same effective date, priority shall be given to the authorized applicant with the earliest anticipated date of commencement of principal and ongoing photography. Provided further that if the principal and ongoing photography does not begin on the anticipated date, and the commencement date is within the one hundred eighty (180)-day limitation provided in subdivision (h) of this section, such priority number shall be recalculated based upon the date that the Office receives notification of actual commencement of principal and ongoing photography from the approved applicant.

(s) **Premature application.** "Premature application" means an initial application in which the Office reasonably determines that the applicant cannot commence principal and ongoing photography within [one hundred eighty (180)] ninety (90) days of the date the initial application was submitted. Such determination may, but is not required to, be based on, among other things, vagueness of the applicant's answers on the initial application and during the initial interview and lack of documentation supporting an applicant's initial application.

§ 3. Paragraph 1 of subdivision (c) §7-03 of Chapter 7 of Title 43 of the Rules of the City of New York is amended to read as follows:

(1) Within [sixty (60)] ninety (90) days after the completion of production of a qualified film, or, if a written extension request is submitted, one hundred fifty (150) days after the completion of production, the approved applicant shall submit a final application to the Office.

§ 4. Subdivision (a) of §7-05 of Chapter 7 of Title 43 of the Rules of the City of New York is amended to read as follows:

[(a)] The Office shall allocate the amount of the credits allocated for each calendar year in order of priority based upon an applicant's effective date. In the event that an approved applicant's New York City Made In New York production tax credit would exceed the maximum amount of credits allowed for that given year, the approved applicant will be allocated credits on a priority basis in the immediately succeeding calendar year. A maximum of $12.5 million of credits may be allocated [to each calendar year] in 2004 and 2005, and $30 million in 2006 through 2011.

§5. Paragraph 3 of subdivision (a) of §7-06 of Chapter 7 of Title 43 of the Rules of the City of New York is amended to read as follows:

(3) the application is submitted within one hundred eighty (180) days of the start of the principal and ongoing photography;

§6. Paragraphs 3 through 8 of subdivision (a) of § 7-06 of Chapter 7 of Title 43 of the Rules of the City of New York are renumbered 4 through 9.

§7. Paragraph 5 of subdivision (b) of §7-06 of Chapter 7 of Title 43 of the Rules of the City of New York is amended to read as follows:

(5) the final application was submitted within [60] ninety (90) days after the completion of production of a qualified film, or, if a written extension request has been submitted, one hundred fifty (150) days after the completion of production;

§8. Section 7-06 of Chapter 7 of Title 43 of the Rules of the City of New York is amended by adding a new subdivision (c) to read as follows:

(c) For purposes of this section, the Office may consider whether an authorized applicant executes or has executed an agreement with the Office that obligates the authorized applicant to include the Office's "Made In New York" logo in the screen credits of the qualified film indicating receipt of the tax credit.

§9. Chapter 7 of Title 43 of the Rules of the City of New York is amended by adding a new §7-09 to read as follows:

§7-09 Applicability

The amendments made by the rules that added this section shall not apply to initial or final applications submitted prior to the effective date of such amendments, with the exception of the amendments made to §7-05 of this chapter by section 4 of such rules.

STATEMENT OF BASIS AND PURPOSE

These rules are promulgated in accordance with recent State and local law amendments to the "Made In New York Film Production Tax Credit" program. State legislation enacted in 2004 had provided for State tax credits under the new "Empire State Film Production Tax Credit" program, and authorized New York City to establish such a program by local law with respect to local tax credits, which was accomplished by the passage of Local Law No. 2 of 2005. Both such laws were recently amended by the State Legislature (Chapter 62 of the Laws of 2006) and the City Council (Local Law No. 24 of 2006), resulting in an extension of the program through 2011, pursuant to which funds have been increased to support the State and City tax credits through that year.

Local Law No. 24 of 2006 requires that the Mayor's Office of Film, Theatre & Broadcasting ("MOFTB") amend the rules previously promulgated (effective June 12, 2005) with respect to procedures for the allocation of tax credits allowed under the Administrative Code. In the time since the original rules were promulgated, MOFTB has gained considerable experience administering the program and has determined that changes should be made to certain of these procedures.

Specifically, the rule changes set forth herein decrease the time period applicable to submissions for film production tax credits, shortening the period of time from 180 to 90 days, within which principal and ongoing photography must be commenced. Failure to meet such deadlines will result in the postponement of the application's effective date to a date 90 days prior to such date of actual commencement.

Moreover, under these changes the failure to commence the principal and ongoing photography within 180 days of the date of submission of the application will render the application invalid. An application will now be deemed premature if it is submitted more than 90 days prior to the commencement of the principal and ongoing photography. Final applications for the film production tax credits must be submitted within 90 (formerly 60) days after completion of the production. Applicants will be permitted to file a written request to extend such 90-day period to 150 days after completion of production.

The rules incorporate a new criterion for evaluating applications: whether an applicant agrees to include the MOFTB "Made In New York" logo in the screen credits of the qualified film, indicating receipt of the tax credit.

A new §7-09, "Applicability", provides that these new rules do not apply to initial or final applications submitted prior to the effective date of the amendments, with the exception of the amendments made to §7-05 which refer to the funds allocated to the film production tax credit program as provided by law.

Finally, the rules contain technical amendments that reference the enactment of the 2006 State legislation and the subsequent local law that was signed by the Mayor in July, 2006.

Lead Agency: NYC Department of Environmental Protection

Project Title: Bowery Bay WPCP Stabilization & Nitrogen Removal Program

Project Description: The New York City Department of Environmental Protection is proposing to upgrade the Bowery Bay WPCP located on Block 776, Lot 150 in the Astoria section of Queens, New York. The proposed action would include the construction of a new Sodium Hydroxide Storage and Feed Facility, the reconstruction of three existing Motor Control Centers, and the replacement/reconstruction of existing equipment. The upgrade would also include additional measures to further enhance the removal of nitrogen from the WPCP effluent under NYCDEP's Biological Nitrogen Removal (BNR) program. Construction activities would be within the existing plant boundaries and are expected to last approximately 58 months. These improvements would ensure continued permit compliance and enhance overall plant performance and efficiency.

Project Location: The Bowery Bay WPCP is located at 4301 Berrian Blvd. in Astoria, Queens, New York

■ NOTICE

NOTICE OF RATEMAKING

Notice of Adoption of Schedule of Charges for Fire Department Ambulance Service

NOTICE IS HEREBY GIVEN that, pursuant to the authority vested in the Fire Commissioner of the City of New York by Section 487(f) of the New York City Charter, the New York City Fire Department hereby adopts the revised schedule of charges set forth below for Fire Department Emergency Medical Service (EMS) ambulance service. The revised schedule of charges will take effect on October 22, 2006.

The revised schedule of charges and justification therefor are as set forth in the Notice of Ratemaking published in The City Record on June 30 and July 1-7, 2006. A public hearing was held on the ratemaking proposal on August 2, 2006.

The revised schedule of charges will be posted on the Fire Department Internet Home Page (www.nyc.gov/fdny) and published as an appendix to Title 3 of the Rules of the City of New York (following Chapter 43 thereof).

Nicholas Scoppetta
Fire Commissioner

The Fire Department hereby revises its schedule of charges for ambulance service provided by the Fire Department's Emergency Medical Service through the New York City 911 System, as set forth in Appendix A to Title 3 of the Rules of the City of New York (following Chapter 43 thereof), as follows:

* * * *

Schedule of Charges for Fire Department Ambulance Service
(effective [November 24, 2002] October 22, 2006)

Type of Service	Charge
Basic Life Support Ambulance	$[420.00] 475.00
[Advanced Life Support Ambulance	$535.00]
Advanced Life Support Ambulance Service – Level 1 (ALS1)	$600.00
Advanced Life Support Ambulance Service – Level 2 (ALS2)	$700.00

Additional Charges:

– Mileage (distance traveled to hospital) $[6.00] 7.00/mile

– Provision of Oxygen (as applicable) $50.00

JUSTIFICATION FOR FINAL RATEMAKING:

The Fire Department is adopting a revised schedule of charges for Fire Department ambulance service. The schedule of charges sets forth the rates the Fire Department charges patients and insurers for Emergency Medical Service (EMS) ambulance treatment and transport provided in the New York City 911 System. The revised rates reflect increased costs and help defray the City's cost of providing these services.

The charges for ambulance transport service were last increased in November 2002. The rates adopted at that time and currently in effect are $420 for an ambulance response (including treatment and transport) by a Basic Life Support (BLS) ambulance staffed by two Fire Department Emergency Medical Technicians; $535 for an ambulance response (including treatment and transport) by an Advanced Life Support (ALS) ambulance staffed by two Fire Department Paramedics; $6.00/per mile for hospital transports; and $50.00 for provision of oxygen.

The revised schedule of charges continues the existing single rate for BLS service, but establishes separate rates for the two levels of ALS service established by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services for Medicare reimbursement, which have become the nationally-accepted standards for ambulance service levels.

ALS1 service comprises all regular ALS ambulance treatment and transport. The ALS2 level of service is limited to treatment and transport requiring certain advanced care, as set forth in Medicare regulations, including manual defibrillation, endotracheal intubation, the insertion of a central venous line, and the intravenous administration of certain medications, such as morphine, diazepam, lidocaine and lasix.

The revised schedule of charges reflects a 13% increase above the current BLS rate. With respect to the ALS rates, more than 90% of ALS transports involve the provision of ALS1 care, and accordingly the estimated average bill for all ALS transports (ALS1 and ALS2 combined) under the revised ALS rates will be $605, also an increase of 13% above the current ALS rate. The increase in mileage charges is consistent with the mileage rate approved by the Centers for Medicare and Medicaid Services.

The revised rates are the amounts that the Fire Department would bill for EMS ambulance service. The rates do not necessarily reflect the amounts accepted by the Fire Department as payment for such services from government and private health insurance plans.

The schedule of charges does not apply to emergency medical care provided by Fire Department firefighters as certified first responders. The Fire Department does not charge for such services.

Notice of Proceeding Concerning Cablevision Systems of New York City Corporation's Renewal of its Cable Television Franchises

On March 14, 2006, Cablevision Systems of New York City Corporation ("Cablevision") provided the New York City Department of Information Technology and Telecommunications ("DoITT") notice of its intent to seek renewal of its franchises to provide cable television service in the boroughs of Brooklyn and the Bronx. These franchises will expire on October 8, 2008. Pursuant to 16 NYCRR Section 891.2 and 47 U.S.C. Section 546, DoITT hereby provides the public an opportunity to comment on the renewal of these franchises. In their submissions, commenters are invited to:

(1) identify the future cable-related community needs and interests, taking into account the costs of meeting such needs and interests; and
(2) review Cablevision's performance during the current franchise term, which began on October 8, 1998.
DoITT will accept comments until August 1, 2007, subject to a possible future extension of such date if authorized by the New York State Public Service Commission. Comments and any questions should be addressed to:

BINDING REPORTS

ISSUE DATE:	DOCKET #:	SRB #:
08/15/06	071124	SRB 07-1303

ADDRESS	BOROUGH:	BLOCK/LOT:
ELK STREET HISTORIC DISTRICT AFRICAN BURIAL GROUND	MANHATTAN	7777 / 77

To the Mayor, the Council, and the Commissioner of the Department of Design and Construction.
This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The proposed work is to install a watermain and will require the excavation one trench that is 15' long, 5' wide, and 5' deep at the intersection of Elk and Reade Streets and extending up Elk Street. This work is within The African Burial Ground and The Commons Historic District, as shown in the application submitted to the Commission by the Department of Design and Construction, and docketed as 07-1124, on August 14, 2006.

In reviewing this proposal, the Commission notes that the designation report for the African Burial Ground and the Commons Historic District states that the portion of lower Manhattan within the historic district has undergone intense public use since the mid-seventeenth century, resulting in the overlay of many significant historic improvements and resources--both above ground and below--all of which document the changing nature of the important area long devoted to communal, public, and civic purposes; and that, within the district, the African Burial Ground is historically significant in that it is one of the few preserved eighteenth-century African burial grounds in the Americas, and that it reflects the establishment at an early date of the society of Africans in New York City, which had one of the largest urban populations of Africans in the American colonies. The report also cites the significance of structures related to the civic use of the Commons. The Commission notes that the location of the proposed work is inside the boundaries of the African Burial Ground, the boundaries of which have been established based on historical documents.
The Commission finds that, as the location of the proposed work is within landfill above the 18th century ground surface, the proposed excavation will be limited to the disturbance of only previously excavated soils; that the proposed hand excavation methods will allow for observation of and minimal damage to any artifacts or other cultural material uncovered during the work; and there is low probability of encountering intact archaeological deposits, features, or human burials in the proposed work area. Based on these findings, the Commission determines the proposed work to be appropriate to The African Burial Ground and The Commons Historic District, and has no objection to the proposed work proceeding. The proposed work, therefore, is approved.

In issuing this report, the Commission stipulates that should artifacts, human remains, or other cultural material be encountered during the course of work, work should stop immediately pending Commission notification and review. If artifacts or other cultural material are encountered, contact Amanda Sutphin (212) 669-7823.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. PARK ROW HISTORIC DISTRICT AFRICAN BURIAL GROUND	MANHATTAN	7777 / 77

To the Mayor, the Council, and the Commissioner of the Department of Transportation.
This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.
The proposed work consists of repairing the collapsed roadway on Park Row between Broadway and Beekman Street at the southern tip of City Hall Park. The trench will include excavating and removing the

sub-base to 5" below the top of the roadway, backfilling, placing a 9" concrete base and 3" layer of asphalt which will match the existing pavement. READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

INDUSTRIAL DEVELOPMENT AGENCY

■ PUBLIC HEARINGS

The New York City Industrial Development Agency (the "Agency") is empowered under the New York State Industrial Development Agency Act (constituting Title 1 of Article 18-A of the General Municipal Law), and Chapter 1082 of the 1974 Laws of New York, as amended, to issue nonrecourse revenue bonds to provide financing for qualified projects, and to enter into industrial and small industry incentive program transactions and other straight-lease transactions for the benefit of qualified projects, and thereby advance the job opportunities, general prosperity and economic welfare of the people of the State of New York (the "State") and to improve their prosperity and standard of living. The Agency has been requested (i) to make available the proceeds of its bonds to be issued in the approximate aggregate dollar amounts, to be used by the persons, for the purposes, and at the addresses identified below, and (ii) to participate in industrial and small industry incentive program straight-lease transactions and other straight-lease transactions for the purposes and at the addresses also identified below. As used herein, "bonds" are bonds, the interest on which may be exempt from local and/or State and/or Federal income taxes; and the "City" shall mean The City of New York. As used herein with reference to bond amounts, "approximately" shall be deemed to mean up to such stated bond amount or a greater principal amount not to exceed 10 % of such stated bond amount.

Approximately $9,000,000 civic facility revenue bond transaction for the benefit of The Auditory/Oral School of New York d/b/a The Auditory Oral Learning Center, Inc., an independent, not-for-profit private school serving hearing-impaired and deaf children from infant/toddler age through pre-school, in connection with the acquisition, construction, renovation and equipping of an approximately 31,000 square foot facility, situated on an approximately 8,000 square foot parcel of land, located at 3321 Avenue M, Brooklyn, New York. The financial assistance proposed to be conferred by the Agency will consist of such bond financing and exemption from City and State mortgage recording taxes.

Straight-lease (commercial retention) transaction for the benefit of Bear, Stearns & Co. Inc., an investment banking, securities trading and brokerage company, and its eligible affiliates, for the renovation of office space and the acquisition and/or leasing and installation of machinery, equipment, furniture, fixtures and other tangible personal property to include the following additional locations: approximately 155,018 square feet located at 237 Park Avenue, Floors 11, 12, 14, 15, 16 and 17, New York, New York; and approximately 266,355 square feet located at 320 Park Avenue, a portion of Floor 6 and Floors 7, 8, 10 and 11, New York, New York. The financial assistance proposed to be conferred by the Agency will consist of exemption from City and State sales and use taxes. The initial financial assistance was induced and authorized on December 9, 1997 and April 20, 1999 respectively. No new financial assistance is being provided.

("CNR"), a New York not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code, in connection with the refinancing of existing FHA-insured mortgage nursing home revenue bonds issued in 1997 in the original amount of $27,230,000 by the Dormitory Authority of the State of New York (the "1997 Bonds"). The proceeds of the 1997 Bonds were used for the following purposes: (a) to refinance bonds issued in 1975 and 1979 by the New York State Medical Care Facilities Finance Agency, the proceeds of which were used to construct a 320-bed skilled nursing care facility of approximately 118,230 square feet located at 520 Prospect Place, Brooklyn, New York (the "Nursing Facility"), (b) to renovate the Nursing Facility, and (c) to construct a three-story building of approximately 22,405 square feet located at 596 Prospect Place, Brooklyn, New York, which building contains CNR's Adult Day Health Care Program, Alzheimer's Adult Day Care Program, Long-Term Home Health Care Program, Hospice Program, management information systems and administrative facilities. The financial assistance proposed to be conferred by the Agency will consist of such bond financing and exemption from City and State mortgage recording taxes.

Straight Lease (Industrial Incentive Program) transaction for the benefit of Federal Express Ground Package System, Inc. ("FedEx Ground"), a wholly-owned subsidiary of FedEx Corporation, and Steel Equities ("Steel"), which will develop the build-to-suit facility, in connection with the construction, furnishing and equipping of an approximately 225,265 square foot facility (expandable to approximately 253,337 square feet) to be used by FedEx Ground as a new business-to-business and business-to-residential small package transportation facility, to be located on an approximately 927,392 square foot parcel of land located at 31-01 20th Avenue and at 36-16 19th Avenue in Astoria, Queens, New York and further identified as Block 850, Lot 1, Block 826, Lot 28 and Block 826, part of Lot 41. The financial assistance proposed to be conferred by the Agency to FedEx Ground and to Steel, which will be passed through to FedEx Ground, will consist of exemption from City and State sales and use taxes, exemption from City and State mortgage recording taxes and payments in lieu of City real property taxes.

Straight-lease (Industrial Incentive Program) transaction for Greenpoint Manufacturing and Design Center LDC, a not-for-profit industrial real estate development organization, in connection with the acquisition, renovation, furnishing, equipping, and leasing of an approximately 72,000 square foot building located on an approximately 52,500 square foot parcel of land located at 221-251 McKibbin Street a/k/a 224 Boerum Street, Brooklyn, New York. The financial assistance proposed to be conferred by the Agency will consist of payments in lieu of City real property taxes.

Straight-lease (commercial retention) transaction for the benefit of The Hearst Corporation, a diversified media company, and its eligible affiliates, for the renovation of office space and for the acquisition and/or leasing and installation of machinery, equipment, furniture, fixtures and other tangible personal property located at the following additional locations: approximately 90,010 square feet located at 1700 Broadway, Floors 20, 28-30, 36-38, and 42, New York, New York; and approximately 30,875 square feet located at 1755 Broadway, Floor 2, New York, New York. The financial assistance proposed to be conferred by the Agency will consist of exemption from City and State sales and use taxes. The financial assistance for this project was induced and authorized on December 11, 2001 and November 11, 2002, respectively. No new financial assistance is being provided.

Approximately $10,000,000 civic facility revenue bond transaction for the benefit of Inwood House, a not-for-profit corporation that provides youth development, teen pregnancy prevention, and family support services for pregnant and parenting teens in foster care in New York City, in connection with the financing of renovations and improvements to the organization's headquarters and maternity residence facility, an approximately 22,522 square foot building located on an approximately 5,108 square foot parcel of land at 320 East 82nd Street, New York, New York, and the financing of new furnishings, fixtures and equipment for this facility. The financial assistance proposed to be conferred by the Agency will consist of such bond financing and exemption from City and State mortgage recording taxes.

Straight-lease (Small Industrial Incentive Program) transaction for a real estate holding company to be determined for the benefit of Peralta Metal Works, Inc., a fabricator of structural steel, in connection with the

acquisition, renovation and equipping of an approximately 10,000 square foot building located on an approximately 10,000 square foot parcel of land located at 259 North Henry Street, Brooklyn, New York. The financial assistance proposed to be conferred by the Agency will consist of payments in lieu of City real property taxes, exemption from City and State mortgage recording taxes, and exemption from City and State sales and use taxes.

Approximately $215,000,000 taxable bond transaction for Randall's Island Aquatic Leisure, LLC in connection with the construction, furnishing, and equipping of an approximately 26 acre indoor and outdoor recreational water park facility, including water slides, wave pools, river rides and other active and passive amusement choices, food and other retail concessions, and parking facilities, located upon an approximately 26 acre parcel of land located on Block 1819, part of Lot 203 located on the north-west corner of Randall's Island and generally bounded by the island-wide circulator road to the south, the Triborough Bridge Bronx approach structure to the east, the Bronx Kills to the north and the Harlem River to the west, in New York, New York. The financial assistance proposed to be conferred by the Agency will consist of such taxable bond financing.

Approximately $4,000,000 industrial development revenue bond transaction for the benefit of Tri-State Biodiesel, LLC, a manufacturer of biodiesel fuel, in connection with (a) the construction and equipping of an approximately 12,906 square foot manufacturing facility located on an approximately 15,000 square foot leased parcel of land in the Gowanus Industrial Park, Columbia Street Marine Terminal, located at 699 Columbia Street, Brooklyn, New York, Block 614, Lot 1, for the processing of converting cooking oil into biodiesel fuel and (b) the construction of a tank farm for the warehousing and distribution of the end product. The financial assistance proposed to be conferred by the Agency will consist of such bond financing, payments in lieu of City real property taxes, exemption from City and State mortgage recording taxes, and exemption from City and State sales and use taxes.

Approximately $50,000,000 special exempt facility revenue bond transaction for the benefit of JetBlue Airways Corporation, a commercial airline, in connection with the lease, renovation, furnishing and equipping of Building 81 at John F. Kennedy Airport, Jamaica, Queens, and the demolition of an existing structure and the lease, construction, furnishing, and equipping of an approximately 70,000 square foot hangar and an approximately 32,000 square foot support building to be located on the current site of Building 179 at John F. Kennedy Airport, Jamaica, Queens, for use as airport maintenance and support facilities. The financial assistance proposed to be conferred by the Agency will consist of such triple tax-exempt bond financing, exemption from City and State mortgage recording taxes, and exemption from City and State sales and use taxes.

With the exception of the financing in behalf of JetBlue Airways Corporation, pursuant to Section 859a of the General Municipal Law of the State of New York and Internal Revenue Code Section 147(f), the Agency will hold a hearing on the proposed financings and transactions set forth above at the office of the New York City Economic Development Corporation ("NYCEDC"), 110 William Street, 6th Floor, New York, New York commencing at 10:00 A.M. on Thursday, **October 5, 2006.** In addition, the Agency will hold a hearing at the same time, date and location with respect to the financing on behalf of JetBlue Airways Corporation, pursuant only to Internal revenue Code Section 147(f) (the hearing pursuant to the above-referenced Section 859a having been previously held for such financing). Interested members of the public are invited to attend. The Agency will present information at such hearing on the proposed financings and transactions set forth above. Pursuant to subdivision 3 of the above-referenced Section 859a, the Agency will, in addition, provide an opportunity for the public to review at such hearing the project application and the cost-benefit analysis for each of the proposed financings and transactions, except with respect to the financing on behalf of JetBlue Airways Corporation. For those members of the public desiring to review project applications and cost benefit analyses before the date of the hearing, copies of these materials will be made available, starting on or about noon on the Friday preceding the hearing. (Copies of the application and cost-benefit analysis for the JetBlue Airways Corporation financing were previously made available by the Agency to the public at (and before) the first public hearing for that financing pursuant to the above-referenced Section 859a). Persons desiring to obtain copies should call (212) 312-3543 or request via e-mail at publichearings@nycedc.com. Persons desiring to make a brief statement regarding the proposed financings and transactions should give prior notice to the Agency at the address or phone number shown below. Written comments may be submitted to the Agency to the attention of Mr. David Shelley at the address shown below. Please be advised that certain of the aforementioned proposed financings and transactions may be removed from the hearing agenda prior to the hearing date. Information regarding such removals will be available by contacting publichearings@nycedc.com on or about noon on the Friday preceding the hearing.

■ NOTICE

ONE POLICE PLAZA SECURITY PLAN
DRAFT ENVIRONMENTAL IMPACT STATEMENT

The New York City Police Department (NYPD) will hold the second of two public hearings on the Draft Environmental Impact Statement (DEIS). **The public hearing will be held from 6:00 P.M. to 8:00 P.M. on October 4, 2006, in the 2nd floor auditorium at 125 Worth Street, New York, NY. Members of the public will need photo identification to gain entrance to the building.** Oral and written comments will be accepted at the public hearing. In addition, written comments on the DEIS are requested and should be sent to Inspector Anthony Tria, NYPD Capital Construction, 620 Circle Drive, Fort Totten, NY 11359 Phone: (718) 281-1254, Fax: (718) 281-1593 through the 20th calendar day (October 24, 2006) following the close of the public hearing.

The New York City Police Department (NYPD) has prepared a Draft Environmental Impact Statement (DEIS) for the security plan established following the events of September 11, 2001 in order to protect City, State, and Federal facilities in the "civic center" portion of lower Manhattan which were, and continue to be, considered potential targets. These security measures included the installation of attended security checkpoint booths, planters, bollards and hydraulically-operated delta barriers to restrict the access of unauthorized vehicles from the roadways situated adjacent to the civic facilities located near NYPD headquarters at One Police Plaza.

The DEIS contains a description and analysis of the action and its environmental setting; the environmental impacts of the action, including its short and long term effects, and typical associated environmental effects; identification of any significant adverse environmental effects; a discussion of alternatives to the action; the identification of any irreversible and irretrievable commitments of resources that would be involved in the action; and a description of any necessary mitigation measures proposed to minimize significant adverse environmental impacts.

The action results in no significant adverse impacts to land use, zoning, public policy, community facilities and services, socioeconomic conditions, visual resources and parking. The DEIS discloses that the action, however, does result in significant adverse impacts to urban design, neighborhood character, traffic, transit and pedestrian conditions, and air quality and noise related to traffic diversions.

The DEIS describes mitigation measures including installation of a landscaped esplanade along Park Row, the reconfiguration of Chatham Square, and the restoration of bus service along Park Row. Four alternatives to the action are examined, but found not to satisfy the goals and objectives of the action, which are to secure police headquarters and the "civic center" area of lower Manhattan. Traffic impacts at Robert F. Wagner, Sr. Place and Pearl Street, and traffic-related noise impacts to residential buildings and Columbus Park on Worth Street at intersections of Worth and Baxter Streets and Worth and Mulberry Streets cannot be fully mitigated.

This public hearing is being held in conformance with Article 8 of the Environmental Conservation Law, the State Environmental Quality Review Act, City Environmental Quality Review procedures, and Local Law No. 24 of 2005.

Copies of the DEIS may be reviewed at the New York City Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, NY 10038, Robert Kulikowski, Director, (212) 788-9956. The DEIS is also available online through a link from the homepage of the New York City Police Department at http://www.nyc.gov/html/nypd under the "Recent Press Releases/News" section of the website.

Project Location

Brooklyn Piers 7-12 project is located within Community District 6 of Brooklyn.
The project site is a large swath of publicly controlled, partially utilized land on the waterfront of Brooklyn Community District 6. It encompasses approximately 120 acres of upland property, with approximately 1.1 miles of waterfront, and includes areas to be acquired by the City from the Port Authority as well as some City-owned upland parcels that are part of the Red Hook Peninsula Urban Renewal Area. The site is located across Buttermilk Channel, with the northern boundary of the project site at Atlantic Avenue, and the southern border at Wolcott Street.

Brief Project Description

The Brooklyn Piers 7-12 project proposes a set of actions relating to the acquisition by the City of New York (the City) of portions of Piers 7 through 12 and related waterfront and upland property in the Red Hook section of Brooklyn from the Port Authority of New York and New Jersey (Port Authority). The proposed project requires several actions which require discretionary approvals, including: Amendment to the City Zoning Map; Amendments to the City Map to map public streets as part of the site's program of improvements; Modification of the Red Hook Peninsula Urban Renewal Plan to reflect proposed changes; Disposition of acquired property; and Waterfront zoning certification and or authorization for public access and visual corridors.

A public scoping meeting will be held on October 12, 2006 at 6:00 P.M. at the Long Island College Hospital, 339 Hicks Street at Atlantic Avenue, Brooklyn, NY 11201. The period for submitting written comments will remain open until October 26, 2006. RICHMOND COUNTY
IA PART 74
NOTICE OF PETITION
INDEX NUMBER (CY) 4013/06

In the Matter of THE CITY OF NEW YORK Relative to Acquiring Title in Fee Simple to Real Property for the **NEW CREEK BLUEBELT, PHASE 3**

In the area generally bounded by Zoe Street, Dongan Hills Avenue, Hylan Boulevard and Stobe Avenue in the Borough of Staten Island, City and State of New York.

PLEASE TAKE NOTICE that the Corporation Counsel of the City of New York intends to make application to the Supreme Court of the State of New York, Richmond County, IA Part 74, for certain relief.

The application will be made at the following time and place: At IA Part 74 of the Supreme Court, 320 Jay Street, Room 17.21, in the Borough of Brooklyn, City and State of New York, on October 20, 2006, at 9:30 A.M., or as soon thereafter as counsel can be heard.

The application is for an order:

1. authorizing the City to file an acquisition map in the Office of the Clerk of Richmond County;

2. directing that upon the filing of said map, title to the property sought to be acquired shall vest in the City;

3. providing that just compensation therefor be ascertained and determined by the Supreme Court without a jury; and

4. providing that notices of claim must be served and filed within one calendar year from the vesting date.

The City of New York, in this proceeding, intends to acquire title in fee simple to certain real property where not heretofore acquired for the same purpose, for New Creek Bluebelt, Phase 3 in the Borough of Staten Island, City and State of New York.

BUILDINGS

■ NOTICE

NOTICE OF ADOPTION OF RULE

NOTICE IS HEREBY GIVEN, pursuant to the authority vested in the Commissioner of the Department of Buildings by Section 643 of the New York City Charter and in accordance with Section 1043 of the Charter, that the Department of Buildings hereby adopts the addition of Chapter 52 to Title 1 of the Official Compilation of the Rules of the City of New York, regarding work pursuant to an earthwork permit.

This rule was first published on July 20, 2006 and a public hearing thereon was held on August 22, 2006. This rule shall take effect 30 days from the date hereof.

Dated: September 19, 2006
New York, New York

Patricia J. Lancaster, F.A.I.A.
Commissioner

Title 1 of the Rules of the City of New York is amended by adding a new chapter 52 as follows:

Chapter 52
Notification to the Department of Commencement of Work Pursuant to an Earthwork Permit

§52-01 Notification to the Department of Commencement of Work Pursuant to an Earthwork Permit

(a) Notification to the Department. Pursuant to Section 27-195 of the Administrative Code and subject to the exceptions set forth in subdivision (e) herein, no earthwork within the property line shall commence unless the permit holder notifies the Department as here prescribed at least twenty-four (24) but no more than forty-eight (48) hours prior to the commencement of such work. The notification shall state the date that such earthwork is to commence. Should the notification date fall on a weekend or an official holiday, the permit holder shall notify the Department on the last business day before the commencement date.

(b) Cancellation. In the event that the earthwork does not begin on the date provided in the notification to the Department, the permit holder shall notify the Department of its cancellation not more than twenty-four (24) hours prior to but no later than the date for which the earthwork was scheduled. Should the cancellation date fall on a weekend or an official holiday, the permit holder shall notify the Department on the next business day after the intended commencement date. The permit holder shall notify the Department of the new intended commencement date pursuant to the provisions of subdivision (a), above.

(c) Method of notification and cancellation. Such notification and cancellation shall be made by telephone or electronically.

(d) Stop work order. The Commissioner may issue a stop work order if there is a failure to provide notice as required in this section and if the work is found to violate any of the provisions of the Building Code, the Zoning Resolution or other applicable law, rule or regulation. Upon issuance of such stop work order, the work shall be stopped for a minimum of three (3) business days to enable the Department to take any other appropriate action to ensure that the earthwork is being performed in a safe manner. The earthwork shall not recommence until the stop work order has been lifted.

(e) Exceptions. The provisions of this section shall not apply to:
(1) Hand excavation work that extends five (5) feet or less below the grade existing at the time of earthwork commencement and is two (2) feet or more from an existing foundation. This exception shall not apply to any hand excavation work performed anywhere in existing or demolished basements or cellars that adjoin existing foundations.
(2) Test pits for geotechnical observation that do not exceed ten (10) feet in length, width or diameter and that are excavated under the supervision of a licensed professional.
(3) Work on cemetery grounds for burials.
(4) Emergency work performed by the Department of Housing Preservation and Development (HPD) or other agency as directed by the Commissioner or work on unsafe buildings performed by HPD or other agency pursuant to a precept.

STATEMENT OF BASIS AND PURPOSE

This rule is proposed pursuant to the authority of the Commissioner of Buildings under sections 643 and 1043 of the New York City Charter and Section 27-195 of the New York City Administrative Code.

The Department proposes to require 24- to 48-hour notification prior to the start of earthwork in order to enable the Department to investigate whether the work is being performed according to accepted safety standards. The proposed rule will help in promoting the safety not only of adjacent properties and property owners, but also of the workers at the site.

■ NOTICE

NOTICE OF RATEMAKING

Notice of Adoption of Schedule of Charges for Fire Department Ambulance Service

NOTICE IS HEREBY GIVEN that, pursuant to the authority vested in the Fire Commissioner of the City of New York by Section 487(f) of the New York City Charter, the New York City Fire Department hereby adopts the revised schedule of charges set forth below for Fire Department Emergency Medical Service (EMS) ambulance service. The revised schedule of charges will take effect on October 22, 2006.

The revised schedule of charges and justification therefor are as set forth in the Notice of Ratemaking published in The City Record on June 30 and July 1-7, 2006. A public hearing was held on the ratemaking proposal on August 2, 2006.

The revised schedule of charges will be posted on the Fire Department Internet Home Page (www.nyc.gov/fdny) and published as an appendix to Title 3 of the Rules of the City of New York (following Chapter 43 thereof).

Nicholas Scoppetta
Fire Commissioner

The Fire Department hereby revises its schedule of charges for ambulance service provided by the Fire Department's Emergency Medical Service through the New York City 911 System, as set forth in Appendix A to Title 3 of the Rules of the City of New York (following Chapter 43 thereof), as follows:

* * * *

Schedule of Charges for Fire Department Ambulance Service
(effective [November 24, 2002] October 22, 2006)

Type of Service	Charge
Basic Life Support Ambulance	$[420.00] 475.00
[Advanced Life Support Ambulance	$535.00]
Advanced Life Support Ambulance Service – Level 1 (ALS1)	$600.00
Advanced Life Support Ambulance Service – Level 2 (ALS2)	$700.00

Additional Charges:

– Mileage (distance traveled to hospital)	$[6.00] 7.00/mile
– Provision of Oxygen (as applicable)	$50.00

JUSTIFICATION FOR FINAL RATEMAKING:

The Fire Department is adopting a revised schedule of charges for Fire Department ambulance service. The schedule of charges sets forth the rates the Fire Department charges patients and insurers for Emergency Medical Service (EMS) ambulance treatment and transport provided in the New York City 911 System. The revised rates reflect increased costs and help defray the City's cost of providing these services.

The charges for ambulance transport service were last increased in November 2002. The rates adopted at that time and currently in effect are $420 for an ambulance response (including treatment and transport) by a Basic Life Support (BLS) ambulance staffed by two Fire Department Emergency Medical Technicians; $535 for an ambulance response (including treatment and transport) by an Advanced Life Support (ALS) ambulance staffed by two Fire Department Paramedics; $6.00/per mile for hospital transports; and $50.00 for provision of oxygen.

The revised schedule of charges continues the existing single rate for BLS service, but establishes separate rates for the two levels of ALS service established by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services for Medicare reimbursement, which have become the nationally-accepted standards for ambulance service levels.

ALS1 service comprises all regular ALS ambulance treatment and transport. The ALS2 level of service is limited to treatment and transport requiring certain advanced care, as set forth in Medicare regulations, including manual defibrillation, endotracheal intubation, the insertion of a central venous line, and the intravenous administration of certain medications, such as morphine, diazepam, lidocaine and lasix.

The revised schedule of charges reflects a 13% increase above the current BLS rate. With respect to the ALS rates, more than 90% of ALS transports involve the provision of ALS1 care, and accordingly the estimated average bill for all ALS transports (ALS1 and ALS2 combined) under the revised ALS rates will be $605, also an increase of 13% above the current ALS rate. The increase in mileage charges is consistent with the mileage rate approved by the Centers for Medicare and Medicaid Services.

The revised rates are the amounts that the Fire Department would bill for EMS ambulance service. The rates do not necessarily reflect the amounts accepted by the Fire Department as payment for such services from government and private health insurance plans.

The schedule of charges does not apply to emergency medical care provided by Fire Department firefighters as certified first responders. The Fire Department does not charge for such services.

■ NOTICE

Notice of Proceeding Concerning Cablevision Systems of New York City Corporation's Renewal of its Cable Television Franchises

On March 14, 2006, Cablevision Systems of New York City Corporation ("Cablevision") provided the New York City Department of Information Technology and Telecommunications ("DoITT") notice of its intent to seek renewal of its franchises to provide cable television service in the boroughs of Brooklyn and the Bronx. These franchises will expire on October 8, 2008. Pursuant to 16 NYCRR Section 891.2 and 47 U.S.C. Section 546, DoITT hereby provides the public an opportunity to comment on the renewal of these franchises. In their submissions, commenters are invited to:

(1) identify the future cable-related community needs and interests, taking into account the costs of meeting such needs and interests; and
(2) review Cablevision's performance during the current franchise term, which began on October 8, 1998.

DoITT will accept comments until August 1, 2007, subject to a possible future extension of such date if authorized by the New York State Public Service Commission. Comments and any questions should be addressed to:

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

■ NOTICE

ONE POLICE PLAZA SECURITY PLAN DRAFT ENVIRONMENTAL IMPACT STATEMENT

The New York City Police Department (NYPD) will hold the second of two public hearings on the Draft Environmental Impact Statement (DEIS). **The public hearing will be held from 6:00 P.M. to 8:00 P.M. on October 4, 2006, in the 2nd floor auditorium at 125 Worth Street, New York, NY. Members of the public will need photo identification to gain entrance to the building.** Oral and written comments will be accepted at the public hearing. In addition, written comments on the DEIS are requested and should be sent to Inspector Anthony Tria, NYPD Capital Construction, 620 Circle Drive, Fort Totten, NY 11359 Phone: (718) 281-1254, Fax: (718) 281-1593 through the 20th calendar day (October 24, 2006) following the close of the public hearing.

The New York City Police Department (NYPD) has prepared a Draft Environmental Impact Statement (DEIS) for the security plan established following the events of September 11, 2001 in order to protect City, State, and Federal facilities in the "civic center" portion of lower Manhattan which were, and continue to be, considered potential targets. These security measures included the installation of attended security checkpoint booths, planters, bollards and hydraulically-operated delta barriers to restrict the access of unauthorized vehicles from the roadways situated adjacent to the civic facilities located near NYPD headquarters at One Police Plaza.

The DEIS contains a description and analysis of the action and its environmental setting; the environmental impacts of the action, including its short and long term effects, and typical associated environmental effects; identification of any significant adverse environmental effects; a discussion of alternatives to the action; the identification of any irreversible and irretrievable commitments of resources that would be involved in the action; and a description of any necessary mitigation measures proposed to minimize significant adverse environmental impacts.

The action results in no significant adverse impacts to land use, zoning, public policy, community facilities and services, socioeconomic conditions, visual resources and parking. The DEIS discloses that the action, however, does result in significant adverse impacts to urban design, neighborhood character, traffic, transit and pedestrian conditions, and air quality and noise related to traffic diversions.

The DEIS describes mitigation measures including installation of a landscaped esplanade along Park Row, the reconfiguration of Chatham Square, and the restoration of bus service along Park Row. Four alternatives to the action are examined, but found not to satisfy the goals and objectives of the action, which are to secure police headquarters and the "civic center" area of lower Manhattan. Traffic impacts at Robert F. Wagner, Sr. Place and Pearl Street, and traffic-related noise impacts to residential buildings and Columbus Park on Worth Street at intersections of Worth and Baxter Streets and Worth and Mulberry Streets cannot be fully mitigated.

This public hearing is being held in conformance with Article 8 of the Environmental Conservation Law, the State Environmental Quality Review Act, City Environmental Quality Review procedures, and Local Law No. 24 of 2005.

Copies of the DEIS may be reviewed at the New York City Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, NY 10038, Robert Kulikowski, Director, (212) 788-9956. The DEIS is also available online through a link from the homepage of the New York City Police Department at http://www.nyc.gov/html/nypd under the "Recent Press Releases/News" section of the website.

Project Location

Brooklyn Piers 7-12 project is located within Community District 6 of Brooklyn.
The project site is a large swath of publicly controlled, partially utilized land on the waterfront of Brooklyn Community District 6. It encompasses approximately 120 acres of upland property, with approximately 1.1 miles of waterfront, and includes areas to be acquired by the City from the Port Authority as well as some City-owned upland parcels that are part of the Red Hook Peninsula Urban Renewal Area. The site is located across Buttermilk Channel, with the northern boundary of the project site at Atlantic Avenue, and the southern border at Wolcott Street.

Brief Project Description

The Brooklyn Piers 7-12 project proposes a set of actions relating to the acquisition by the City of New York (the City) of portions of Piers 7 through 12 and related waterfront and upland property in the Red Hook section of Brooklyn from the Port Authority of New York and New Jersey (Port Authority). The proposed project requires several actions which require discretionary approvals, including: Amendment to the City Zoning Map; Amendments to the City Map to map public streets as part of the site's program of improvements; Modification of the Red Hook Peninsula Urban Renewal Plan to reflect proposed changes; Disposition of acquired property; and Waterfront zoning certification and or authorization for public access and visual corridors.

A public scoping meeting will be held on October 12, 2006 at 6:00 P.M. at the Long Island College Hospital, 339 Hicks Street at Atlantic Avenue, Brooklyn, NY 11201. The period for submitting written comments will remain open until October 26, 2006. NOTICE OF RATEMAKING

Notice of Adoption of Schedule of Charges
for Fire Department Ambulance Service

NOTICE IS HEREBY GIVEN that, pursuant to the authority vested in the Fire Commissioner of the City of New York by Section 487(f) of the New York City Charter, the New York City Fire Department hereby adopts the revised schedule of charges set forth below for Fire Department Emergency Medical Service (EMS) ambulance service. The revised schedule of charges will take effect on October 22, 2006.

The revised schedule of charges and justification therefor are as set forth in the Notice of Ratemaking published in The City Record on June 30 and July 1-7, 2006. A public hearing was held on the ratemaking proposal on August 2, 2006.

The revised schedule of charges will be posted on the Fire Department Internet Home Page (www.nyc.gov/fdny) and published as an appendix to Title 3 of the Rules of the City of New York (following Chapter 43 thereof).

Nicholas Scoppetta
Fire Commissioner

The Fire Department hereby revises its schedule of charges for ambulance service provided by the Fire Department's Emergency Medical Service through the New York City 911 System, as set forth in Appendix A to Title 3 of the Rules of the City of New York (following Chapter 43 thereof), as follows:

* * * *

Schedule of Charges for Fire Department Ambulance Service

(effective [November 24, 2002] October 22, 2006)

Type of Service	Charge
Basic Life Support Ambulance	$[420.00] 475.00
[Advanced Life Support Ambulance	$535.00]
Advanced Life Support Ambulance Service – Level 1 (ALS1)	$600.00
Advanced Life Support Ambulance Service – Level 2 (ALS2)	$700.00

Additional Charges:

– Mileage (distance traveled to hospital)	$[6.00] 7.00/mile
– Provision of Oxygen (as applicable)	$50.00

JUSTIFICATION FOR FINAL RATEMAKING:

The Fire Department is adopting a revised schedule of charges for Fire Department ambulance service. The schedule of charges sets forth the rates the Fire Department charges patients and insurers for Emergency Medical Service (EMS) ambulance treatment and transport provided in the New York City 911 System. The revised rates reflect increased costs and help defray the City's cost of providing these services.

The charges for ambulance transport service were last increased in November 2002. The rates adopted at that time and currently in effect are $420 for an ambulance response (including treatment and transport) by a Basic Life Support (BLS) ambulance staffed by two Fire Department Emergency Medical Technicians; $535 for an ambulance response (including treatment and transport) by an Advanced Life Support (ALS) ambulance staffed by two Fire Department Paramedics; $6.00/per mile for hospital transports; and $50.00 for provision of oxygen.

The revised schedule of charges continues the existing single rate for BLS service, but establishes separate rates for the two levels of ALS service established by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services for Medicare reimbursement, which have become the nationally-accepted standards for ambulance service levels.

ALS1 service comprises all regular ALS ambulance treatment and transport. The ALS2 level of service is limited to treatment and transport requiring certain advanced care, as set forth in Medicare regulations, including manual defibrillation, endotracheal intubation, the insertion of a central venous line, and the intravenous administration of certain medications, such as morphine, diazepam, lidocaine and lasix.

The revised schedule of charges reflects a 13% increase above the current BLS rate. With respect to the ALS rates, more than 90% of ALS transports involve the provision of ALS1 care, and accordingly the estimated average bill for all ALS transports (ALS1 and ALS2 combined) under the revised ALS rates will be $605, also an increase of 13% above the current ALS rate. The increase in mileage charges is consistent with the mileage rate approved by the Centers for Medicare and Medicaid Services.

The revised rates are the amounts that the Fire Department would bill for EMS ambulance service. The rates do not necessarily reflect the amounts accepted by the Fire Department as payment for such services from government and private health insurance plans.

The schedule of charges does not apply to emergency medical care provided by Fire Department firefighters as certified first responders. The Fire Department does not charge for such services.

INFORMATION TECHNOLOGY AND TELECOMMUNICATIONS

■ NOTICE

Notice of Proceeding Concerning Cablevision Systems of New York City Corporation's Renewal of its Cable Television Franchises

On March 14, 2006, Cablevision Systems of New York City Corporation ("Cablevision") provided the New York City Department of Information Technology and Telecommunications ("DoITT") notice of its intent to seek renewal of its franchises to provide cable television service in the boroughs of Brooklyn and the Bronx. These franchises will expire on October 8, 2008. Pursuant to 16 NYCRR Section 891.2 and 47 U.S.C. Section 546, DoITT hereby provides the public an opportunity to comment on the renewal of these franchises. In their submissions, commenters are invited to:

(1) identify the future cable-related community needs and interests, taking into account the costs of meeting such needs and interests; and
(2) review Cablevision's performance during the current franchise term, which began on October 8, 1998.

DoITT will accept comments until August 1, 2007, subject to a possible future extension of such date if authorized by the New York State Public Service Commission. Comments and any questions should be addressed to:

ADVISORY REPORTS

ISSUE DATE: 09/13/06	DOCKET #: 071859	SRA #: SRA 07-2016
ADDRESS: CENTRAL PARK HISTORIC DISTRICT SCENIC LANDMARK	BOROUGH: MANHATTAN	BLOCK/LOT: 1111 / 1

To the Mayor, the Council, and the Commissioner, NYC Department of Parks & Recreation.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The staff of the Landmarks Preservation Commission has reviewed a proposal to create a rubber mold-casting of the King Jagiello sculpture: as shown in photographs and described in specifications prepared by the Central Park Conservancy.

With regard to to this proposal the Commisison finds that the work will not cause dameage to the sculpture and will not eliminate any significant features of the scenic landmark.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit: a copy must be prominently displayed at the site while work is in progress. ADDRESS 643 PARK AVENUE Seventh Regiment Armory INDIVIDUAL LANDMARK	BOROUGH: MANHATTAN	BLOCK/LOT: 1401 / 1

To the Mayor, the Council, and the Director, NYS Division of Military & Naval Affairs.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The staff of the Landmarks Preservation Commission has reviewed a proposal for restorative work at the Park Avenue entrance vestibule; including the removal of the canopy at the stairway; the removal of paint from the stairway and metal railing, window grilles, and gate; patching and repointing deteriorated areas of granite; repairing and repainting the stair railing, and restoring the paneled wood doors and the hanging light fixture. The proposal also calls for the removal of a portion of the concrete sidewalk near the corner of Park Avenue and East 67th Street, the installation of a sub-grade electrical vault, disassembly and reconstruction of an area of the retaining wall and granite facade to install an electrical pipe chase, reducing the length of a window opening at the basement level to accommodate the pipe chase, and related interior mechanical alterations at the basement. The proposal is shown and described in photographs and drawings labeled SK-A000 through SK-A007, A-001, A-100, A-201, and A-401, all dated July 7, 2006, prepared by Samuel G. White, R.A., S-100, S-101, dated revised July 26, 2006, prepared by Robert Silman, P.E., H-100, E-001, E-100, P-001, P-100, P-200, P-300, dated July 7, 2006, and E-101, dated revised July 28, 2006, all prepared by Alexander Gutkin, P.E.

In reviewing the proposal, the Commission notes that the designation report describes the Seventh Regiment Armory, 643 Park Avenue, as a brick and stone armory designed by Charles W. Clinton and built in 1877-81.

With regard to this proposal, the Commission finds that the restorative work will protect the building's facade, structure, and significant architectural elements from damage due to water infiltration; that the removal of the canopy will eliminate a feature that detracts from the facade; that the patching and pointing mortars will match the existing materials in terms of color, texture and tooling; that restoring the railing and paneled wood doors will preserve these significant features; that the installation of the below grade electrical vault and associated piping will not cause the removal of significant architectural features of the building; and that the alterations for the electrical work will be below grade and will be partially obscured by the areaway railing and therefore will not detract from the monumental facades above.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. BINDING REPORTS

ISSUE DATE: 09/08/06	DOCKET #: 070995	SRB #: SRB 07-1912
ADDRESS 1000 FIFTH AVENUE Metropolitan Museum of Art INDIVIDUAL LANDMARK	BOROUGH: MANHATTAN	BLOCK/LOT: 1111 / 1

To the Mayor, the Council, and the Commissioner, Department of Cultural Affairs.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for interior alterations, including the installation of a fire suppression system at the first floor and ground floor levels of the Grace Rainey Rogers Auditorium, as described in written specifications and shown on drawings FA-100, FX-100 and FX-200, dated revised June 14, 2006, and prepared by Joseph C. Razza, PE, all submitted as components of this application.

The Commission has reviewed these drawings and finds that the proposed work will not be performed at the exterior of the building or any of the interior designated portions of the building; and that the work will have no effect on the significant protected features of the building.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

CITY COUNCIL

PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN THAT the Council has scheduled the following public hearings on the matters indicated below:

The Subcommittee on Zoning and Franchises will hold a public hearing on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 9:30 A.M. on Tuesday, October 3, 2006:

QUEENS CB - 7 **N 060426 ZRQ**
Application submitted by Powell Cove Associates LLC, pursuant to Section 201of the New York City Charter, for an amendment of the Zoning Resolution of the City of New York relating to Article VII, Chapter 8 (Large Scale Residential Development), concerning Section 78-06, to modify the ownership provisions.

Matter in underline is new, to be added;
Matter in ~~strikeout~~ is to be deleted;
Matter within # # is defined in Section 12-10;
* * * indicates where unchanged text appears in the Zoning Resolution.

* * *

78-06
Ownership

(a) Except as otherwise provided in this Section, any #large-scale residential development# for which application is made for an authorization or special permit or modification thereto in accordance with the provisions of this Chapter shall be on a tract of land that at the time of application is all under the control of the applicant(s) as the owner(s) or holder(s) of a written option to purchase. **Except as otherwise provided in this Section**, no authorization or special permit or modification thereto shall be granted for such #development# unless the applicant(s) acquired actual ownership (single fee ownership or alternate ownership arrangements according to the #zoning lot# definition in Section 12-10 (DEFINITIONS) for all #zoning lots# comprising the #development#) of, or executed a binding sales contract for, all of the property comprising such tract.

(b) Except as otherwise provided in paragraph (c) of this Section with respect to a #large scale residential development# within an urban renewal area or former urban renewal area, for any #large scale residential development# located in the Community District(s) listed in this paragraph, the owner(s) of a vacant parcel(s) may make application for and be granted modifications of authorizations or special permits previously granted under the provisions of this Chapter with respect to such parcel(s), provided that such modification does not:

(1) result in the distribution of #floor area# from any #zoning lot# not coextensive with or included within such parcel(s); or

(2) increase the total allowable #floor area# on any #zoning lot included within such parcel(s) beyond that amount permitted by the applicable district regulations.

Such modifications may include the withdrawal of such parcel(s) from the boundaries of the #large scale residential development#, provided that such modification would not create a non-compliance within the #large scale residential development#.

Community District	Borough
Community District # 7	Queens

(c) When a #development# is part or all of a designated urban renewal project, the City's urban renewal agency, or a person authorized by such agency, may make application for and be granted authorizations or special permits under the provisions of this Chapter, even though such #large scale residential development# does not meet the ownership requirements set forth elsewhere in this Section. All parcels comprising such #large-scale residential development# shall be within the designated urban renewal area and subject to the urban renewal controls set forth in the approved urban renewal plan.

In the event that the urban renewal plan has expired, the owner(s) of a vacant parcel(s) within such #large scale residential development#, if located in a former urban renewal area listed in this ~~Section~~ paragraph, (c), may make application for and be granted modifications of authorizations or special permits previously granted under the provisions of this Chapter with respect to such parcel(s), ~~provided that such modification does not seek:~~ pursuant to and subject to the limitations of paragraph (b) of this Section.

~~(a) the distribution of #floor area# from any #zoning lot# not included within such parcel(s); or~~

~~(b) to increase the total allowable #floor area# on any #zoning lot# included within such parcel(s) beyond the amount permitted by the applicable district regulations.~~

~~Such modifications may include the withdrawal of such parcel(s) from the boundaries of the #large scale residential development#, provided that such modification would not create a non-compliance within the #large scale residential development#.~~

Former Urban Renewal Area	Community District
West Side Urban Renewal Area	CD 7, Manhattan

(d) When a #residential large scale residential development# is to be #developed# or #enlarged# through assemblage by any other governmental agency, other than the City's urban renewal agency, or its agent, having the power of condemnation, authorizations or special permits may be applied for and granted under the provisions of this Chapter, even though such #large scale residential development# does not meet the ownership requirements set forth elsewhere in this Section.

MANHATTAN CB - 10 **C 060474 HAM**
Application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

a) the designation of property located at 120-128 Bradhurst Avenue, 305-307 W.148th Street, 2789 and 2791 Frederick Douglass Boulevard, part of Site 33 (Block 2045; Lots 67-68, 70, 71 and 82), within the Bradhurst Urban Renewal Area; (Block 2045; Lots 64-68, 70-71, 82 and 166) as an Urban Development Action Area; and

b) an Urban Development Action Area Project for such area; and

2) pursuant to Section 197-c of the New York City Charter for the disposition of property located at 120-126 Bradhurst Avenue (Block 2045, Lots 64-66 and 166) to a developer to be selected by HPD;

to facilitate development of one, eight to twelve-story mixed-use building, tentatively known as Ellington on the Park, with approximately 134 cooperative units with retail and community facility space to be developed under the Department of Housing Preservation and Development's Cornerstone Program.

Proposals subject to Council review and action pursuant to the Urban Development Action Area Act, Article 16 of the New York General Municipal Law, at the request of the Department of Housing Preservation and Development ("HPD"), which requests that the Council:

1. Find that the present status of the listed areas tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes of Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3. Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law;

4. Approve the project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law; and

5. Approve an exemption of the projects from real property taxes pursuant to Section 696 of the General Municipal Law.

■ NOTICE

ONE POLICE PLAZA SECURITY PLAN DRAFT ENVIRONMENTAL IMPACT STATEMENT

The New York City Police Department (NYPD) will hold the second of two public hearings on the Draft Environmental Impact Statement (DEIS). **The public hearing will be held from 6:00 P.M. to 8:00 P.M. on October 4, 2006, in the 2nd floor auditorium at 125 Worth Street, New York, NY. Members of the public will need photo identification to gain entrance to the building.** Oral and written comments will be accepted at the public hearing. In addition, written comments on the DEIS are requested and should be sent to Inspector Anthony Tria, NYPD Capital Construction, 620 Circle Drive, Fort Totten, NY 11359 Phone: (718) 281-1254, Fax: (718) 281-1593 through the 20th calendar day (October 24, 2006) following the close of the public hearing.

The New York City Police Department (NYPD) has prepared a Draft Environmental Impact Statement (DEIS) for the security plan established following the events of September 11, 2001 in order to protect City, State, and Federal facilities in the "civic center" portion of lower Manhattan which were, and continue to be, considered potential targets. These security measures included the installation of attended security checkpoint booths, planters, bollards and hydraulically-operated delta barriers to restrict the access of unauthorized vehicles from the roadways situated adjacent to the civic facilities located near NYPD headquarters at One Police Plaza.

The DEIS contains a description and analysis of the action and its environmental setting; the environmental impacts of the action, including its short and long term effects, and typical associated environmental effects; identification of any significant adverse environmental effects; a discussion of alternatives to the action; the identification of any irreversible and irretrievable commitments of resources that would be involved in the action; and a description of any necessary mitigation measures proposed to minimize significant adverse environmental impacts.

The action results in no significant adverse impacts to land use, zoning, public policy, community facilities and services, socioeconomic conditions, visual resources and parking. The DEIS discloses that the action, however, does result in significant adverse impacts to urban design, neighborhood character, traffic, transit and pedestrian conditions, and air quality and noise related to traffic diversions.

The DEIS describes mitigation measures including installation of a landscaped esplanade along Park Row, the reconfiguration of Chatham Square, and the restoration of bus service along Park Row. Four alternatives to the action are examined, but found not to satisfy the goals and objectives of the action, which are to secure police headquarters and the "civic center" area of lower Manhattan. Traffic impacts at Robert F. Wagner, Sr. Place and Pearl Street, and traffic-related noise impacts to residential buildings and Columbus Park on Worth Street at intersections of Worth and Baxter Streets and Worth and Mulberry Streets cannot be fully mitigated.

This public hearing is being held in conformance with Article 8 of the Environmental Conservation Law, the State Environmental Quality Review Act, City Environmental Quality Review procedures, and Local Law No. 24 of 2005.

Copies of the DEIS may be reviewed at the New York City Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, NY 10038, Robert Kulikowski, Director, (212) 788-9956. The DEIS is also available online through a link from the homepage of the New York City Police Department at http://www.nyc.gov/html/nypd under the "Recent Press Releases/News" section of the website.

Project Location

Brooklyn Piers 7-12 project is located within Community District 6 of Brooklyn.
The project site is a large swath of publicly controlled, partially utilized land on the waterfront of Brooklyn Community District 6. It encompasses approximately 120 acres of upland property, with approximately 1.1 miles of waterfront, and includes areas to be acquired by the City from the Port Authority as well as some City-owned upland parcels that are part of the Red Hook Peninsula Urban Renewal Area. The site is located across Buttermilk Channel, with the northern boundary of the project site at Atlantic Avenue, and the southern border at Wolcott Street.

Brief Project Description

The Brooklyn Piers 7-12 project proposes a set of actions relating to the acquisition by the City of New York (the City) of portions of Piers 7 through 12 and related waterfront and upland property in the Red Hook section of Brooklyn from the Port Authority of New York and New Jersey (Port Authority). The proposed project requires several actions which require discretionary approvals, including: Amendment to the City Zoning Map; Amendments to the City Map to map public streets as part of the site's program of improvements; Modification of the Red Hook Peninsula Urban Renewal Plan to reflect proposed changes; Disposition of acquired property;

and Waterfront zoning certification and or authorization for public access and visual corridors.

A public scoping meeting will be held on October 12, 2006 at 6:00 P.M. at the Long Island College Hospital, 339 Hicks Street at Atlantic Avenue, Brooklyn, NY 11201. The period for submitting written comments will remain open until October 26, 2006.
