DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.
Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

BINDING REPORT

ISSUE DATE:	DOCKET #:	CRB #:
07/20/04	045746	CRB 05-0507

ADDRESS	BOROUGH:	BLOCK/LOT:
35 AVENUE A-GRD. FL. First Houses INDIVIDUAL LANDMARK	MANHATTAN	430 / 10

To the Mayor, the Council, and the Commissioner of the City Housing Authority.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission, at the Public Meeting of July 20, 2004, following the Public Meeting and Public Hearing of July 13, 2004, reviewed a proposal to install a new dark brown painted steel and glass storefront with a splayed recessed entrance and a paneled bulkhead, as shown in drawings and photographs labeled A001, A002, A101, A201, A204, and A205, dated July 16, 2004, prepared by Peter Himmelstein, Architect, and presented at the Public Hearing and Public Meetings. As initially presented to the Commission, the storefront featured a series of hopper windows adjacent to the entrance, as shown in drawing L1, revised April 15, 2004, prepared by Peter Himmelstein, Architect.

In reviewing this application, the Commission noted that 35 Avenue A is part of the First Houses complex, a public housing project consisting of eight buildings arranged around a landscaped courtyard and built in 1935-36, designed by Frederick L. Ackerman; and that the scale, style, details and materials of the buildings are among the features which contribute to the special architectural and historic character of the landmark. The Commission also noted that one original storefront exists at 39 Avenue A.

With regard to this proposal, The Commission found that removal of the existing ground floor infill will eliminate features which detract from the special historic and architectural character of the building; that such features as low paneled bulkheads, a splayed, recessed entrance, large single-pane display windows, and painted metal framing recall the historic storefronts on this building; and that the proposed storefront will enhance the architectural character of the ground floor, thereby strengthening the special architectural character of this individual landmark. Based on these findings, the Commission determined the proposed work to be appropriate to the First Houses Individual Landmark. The drawings are being marked approved by the Commission with a perforated seal, and Commission Report 05-0507 is being issued.

Please send a copy of the drawing, and one or more 8- by 10-inch black and white photographs of the completed work to the archives of the Art Commission of the City of New York, City Hall, 3rd floor, New York, NY 10007, Attn: Deborah Bershad.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. ADVISORY REPORTS

ISSUE DATE:	DOCKET #:	CRA #:
07/21/04	047962	CRA 05-0554

ADDRESS	BOROUGH:	BLOCK/LOT:
2366 FIFTH AVENUE 369th Regiment Armory INDIVIDUAL LANDMARK	MANHATTAN	1740 / 17

To the Mayor, the Council, and the Director, NYS Division of Military and Naval Affairs.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission, at the Public Meeting of June 8, 2004, following the Public Hearing of June 8, 2004, reviewed a proposal to install a new metal entrance marquee, paneled steel doors with a painted finish, a concrete ramp with a pipe railing, two flag poles with banners, and light fixtures on the West 142nd Street façade of the drill shed portion of the building, and two through-the-wall louvers painted to match the surrounding brick, on a brick return on the West 143rd Street façade of the drill shed, and on the westernmost pier of the drill shed on the West 142nd Street façade, as shown in drawing A1 through A13, dated April 23, 2004, prepared by Andrew Goldman, Architect, photographs of the existing condition, dated April 2004, and color samples from Benjamin Moore labeled Kendall Charcoal (center doors, ramp railing), Lafayette Green (other doors, center door frame, canopy) and Maple Leaf Red (through-the-wall louvers), and presented at the Public Hearing and Public Meeting.

In reviewing this application, the Commission noted that the 369th Regiment Armory is a Castellated style armory drill shed built in 1921-24 designed by Tachau and Vought, and an Art Deco style armory administrative building built in 1930-33 designed by Van wart and Wein; and that the scale, style, details and materials of the building are among the features which contribute to the special architectural and historic character of the landmark.

With regard to this proposal, The Commission found that the proposed marquee relates well to the building in terms of its proportions, materials and simple design; that the modest size and simple profile and materials of the proposed marquee, and its integration into an existing recessed entrance, will allow it to be harmonious with the design and style of the building; that the style of the proposed doors is in keeping with the fortress-like quality of the building; that the material of the proposed ramp will match the base of the building; that the ramp will be modest in size, and thus, will not call undue attention to itself; that the presence of flagpoles at the entrance of an institutional building is traditional; that the size of the proposed flagpoles and banners are in keeping with the scale of the entrance; that the utilitarian character of the proposed light fixtures is in keeping with the character of the building; that in the context of this massive structure, the presence of the through-the-wall louvers, finished to blend with the surrounding masonry, will not detract from its special architectural character; and that the proposed work will not detract from the special historic and architectural character of this individual landmark. Based on these findings, the Commission determined the proposed work to be appropriate to the 369th Regiment Armory Individual Landmark.

In voting to grant this approval, the Commission made its determination subject to the condition that two sets of final signed and sealed drawings showing the approved proposal, which shall be filed with the Department of Buildings, be submitted to the Landmarks Preservation Commission for review and approval.

Subsequently, on July 21, 2004, the Commission received two sets of final drawings labeled A0.0, A0.1, D1.0 through D1.5, A1.0 through A1.2, A2.1, A3.1, A3.2, A5.1 through A5.6, A6.1 through A6.4, A7.1, A10.0, A10.1, and A10.2, dated May 5, 2004, M1, M3 through M7, P1, P2, E1 through E7, E8.1, E8.2 and E8.3, dated February 6, 2004, M2, dated June 30, 2004, and A2.2 and A2.3, dated July 16, 2004, prepared by Kevin Hom and Andrew Goldman Architects. The Landmarks Preservation Commission staff reviewed the drawings and found that the proposal approved by the Commission has been maintained. Therefore, these drawings are being marked approved by the Commission with a perforated seal, and Commission Report 05-0554 is being issued.

Please send a copy of the drawing, and one or more 8- by 10-inch black and white photographs of the completed work to the archives of the Art Commission of the City of New York, City Hall, 3rd floor, New York, NY 10007, Attn: Deborah Bershad.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. ADDRESS	BOROUGH:	BLOCK/LOT:
2366 FIFTH AVENUE 369th Regiment Armory INDIVIDUAL LANDMARK	MANHATTAN	1740 / 17

To the Mayor, the Council, and the window louver and int. alts..

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

installing a louver in an existing window opening at the basement level on the West 143rd Street elevation of the drill shed; and interior alterations, as shown in drawings A0.0, A0.1, D1.0 through D1.5, A1.0 through A1.2, A2.1, A3.1, A3.2, A5.1 through A5.6, A6.1 through A6.4, A7.1, A10.0, A10.1, and A10.2, dated May 5, 2004, M1, M3 through M7, P1, P2, E1 through E7, E8.1, E8.2 and E8.3, dated February 6, 2004, M2, dated June 30, 2004, and A2.2 and A2.3, dated July 16, 2004, prepared by Kevin Hom and Andrew Goldman Architects.

In reviewing this application, the Commission notes that the designation report for this landmark states that 2360 Fifth Avenue, the 369th Regiment Armory, consists of two separate, connected buildings: a fortress-like rear building containing the drill shed and, at the front, an Art Deco style administration building, constructed in 1930-33 according to the design of Van Wart and Wien.

With regard to this proposal, the Commission finds in accordance with the provisions of Title 63 of RCNY, Section 2-11, that the window in which the louver will be installed is not a special window; that the proposal involves the window sash and retaining the window frame; that the louver will be mounted flush with the sash; that the louver will be finished to blend into the fenestration pattern; and that no significant architectural features of the building will be affected by the installation. Based on these findings, the Commission determines the proposed work to be appropriate to the landmark.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Lisa Schaeffer.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Small Business Services, 110 William Street - 2nd floor, New York, NY 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Where Appendix 3.1 shows a requirement of a *development* to be built to a *mandatory front building wall line,* any such *development* shall have a mandatory front building wall coincident with and constructed along such *mandatory front building wall line* for a minimum of 80 percent of the length of the frontage required to have the mandatory front building wall, which shall rise without setback for a height above *curb level* not less than 110 feet nor more than 140 feet in subzone C-1, and not less than 60 feet nor more than 140 feet in subzone C-2 except that the mandatory front wall building wall on Murray Street within subzone C-2 may rise without setback to the maximum height established pursuant to section 84-333 and, provided further, that the mandatory front building wall requirement shall not apply to the building frontage along a pedestrian right-of-way in subzone C-2.

However, where Appendix 3.1 shows a mandatory front wall along Murray Street, such front building wall may be located either along the *street line* of Murray Street or at a right angle to North End Avenue within 30 feet from the intersection of Murray Street and North End Avenue.

At 140 feet above *curb level,* the building must setback at least 15 feet from the street line of Vesey Street, North End Avenue and Murray Street, except that there shall be not required setback along Murray Street in subzone C-2. Parapet walls, not more than four feet high;
Wire, chain link or other transparent fences.

(iii) the enclosure wall is compatible with the *building* and the urban design goals of the Special District and complements the design by providing a decorative top.

Within 45 days of receipt of a complete application, including documentation of the residence of congregants in a form acceptable to the Department of City Planning, the Chairperson shall either certify that the proposed #development# or #enlargement# complies with the requirements of this Section or disapprove such application, citing the nature of any failure to comply.

* * *

R2X R3 R4 R4A R4-1

(b) In the districts indicated, the height and setback of a #building or other structure# shall be as set forth herein except where modified pursuant to paragraphs (g) and (h) of this Section.

For the purposes of this Section, where #base planes# of different elevations apply to different portions of a #building or other structure#, each such portion of the #building# may be considered to be a separate #building#. Furthermore, for the purposes of this Section, #building segments# may be considered to be separate #buildings# and abutting #semi-detached buildings# may be considered to be one #building#.

The perimeter walls of a #building or other structure# are those portions of the outermost walls enclosing the #floor area# within a #building or other structure# at any level and height is measured from the #base plane#. Perimeter walls are subject to setback regulations at a maximum height above the #base plane# of:

21 feet	R2X R3 R4A
25 feet	R4 R4-1
26 feet*	R3 R4A R4-1

within #lower density growth management areas#

* In R3, R4A and R4-1 Districts within #lower density growth management areas#, where a #base plane# is established at a #base flood elevation# higher than grade, the maximum perimeter wall height shall be 21 feet above such base flood elevation or 26 feet above grade, whichever is more.

Standard minimum distance between buildings

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

In all districts, as indicated, the required minimum distance between a #residential building# and any other #building# on the same #zoning lot# shall vary according to the height of such #buildings# and the presence of #legally required windows# in facing building walls. Such minimum distance shall be, in feet, as indicated in the following table:

	Maximum Building Height above #Base Plane# or #Curb Level#, as Applicable (in feet)				
Wall Condition*	25	35	40	50	Over 50
Wall to Wall	20	25	30	35	40
Wall to Window	30	35	40	45	50
Window to Window	40	45	50	55	60

* Wall condition shall be defined as:

"wall to wall" is a condition where two walls of #buildings# face each other, and neither wall contains a #legally required window#;

"wall to window" is a condition where two walls of #buildings# face each other, and one wall contains a #legally required window# and the other wall does not contain a #legally required window#;

"window to window" is a condition where two walls of #buildings# face each other, and both walls contain a #legally required window#.

In addition, the following rules shall apply:

(a) the minimum distances set forth in this table shall be provided at the closest point between #buildings#;

(b) any portion of a #building# that qualifies as a #building segment# may be treated as a separate #building# for the purposes of determining the minimum distance required between such #building segment# and another #building# or #building segment#;

(c) where #buildings# of different heights face each other, the average of the heights of such #buildings# shall determine the minimum distance required between them;

(d) projections having a maximum height of 25 feet above adjoining grade, a maximum depth of five feet, and an aggregate width not exceeding 25 percent of the building wall from which they project, may penetrate the minimum spacing requirements; and

(e) portions of #buildings# above 125 feet that exceed, in aggregate, a #lot coverage# of 40 percent, shall be spaced at least 80 feet apart.

(f) in R1, R2, R3, R4A and R4-1 Districts within #lower density growth management areas#, the provisions of this paragraph, (f) shall apply to any #zoning lot# with a #building# located behind another #building# so that lines drawn perpendicular to the #street line# intersect both such #buildings#, and where the #private road# provisions do not apply. For the purposes of this paragraph, a "front building" shall be any #building# with no #building# located between it and the #street line# so that lines drawn perpendicular to the #street line# do not intersect any other #building#, and a "rear building" shall be any other #building# on the #zoning lot#. The minimum distances set forth in the table above shall apply, except that a minimum distance of 45 feet shall be provided between any rear building and any front building.

* * *

23-88
Minimum Distance between Lot Lines and Building Walls in Lower Density Growth Management Areas

(a) On #corner lots# in #lower density growth management areas#, for #zoning lots# with multiple #buildings# or #building segments#, an open area at least 30 feet in depth shall be provided between the #side lot line# and the #rear wall line#

of any #building# or #building segment# that does not front upon two #streets# in its entirety.

(b) In R1, R2, R3, R4A and R4-1 Districts within #lower density growth management areas#, the provisions of this paragraph, (b), shall apply to any #zoning lot# not accessed by #private roads# where a #residential building# is located wholly beyond 50 feet of a #street line# and behind another #residential building# fronting upon the same #street line# so that lines drawn perpendicular to the #street line# intersect both such #buildings#. For the purposes of this paragraph, a "front building" shall be any #building# with no #building# located between it and the #street line# so that lines drawn perpendicular to the #street line# do not intersect any other #building#, and a "rear building" shall be any other #building# on the #zoning lot#. An open area with a minimum width of 15 feet shall be provided between any such rear building and the #side lot line# of an adjoining #zoning lot#, and an open area with a minimum width of 30 feet shall be provided between any such rear building and the #rear lot line# of an adjoining #zoning lot#. The permitted obstruction provisions of Sections 23-44 for #side yards# shall apply where such open areas adjoin a #side lot line#, and the permitted obstruction provisions of Section 23-44 for #rear yards# shall apply where such open areas adjoin a #rear lot line#.

R2X R3 R4 R4A R4-1

(b) In the districts indicated, the height and setback of a #building or other structure# shall be as set forth herein except where modified pursuant to paragraphs (g) and (h) of this Section.

For the purposes of this Section, where #base planes# of different elevations apply to different portions of a #building or other structure#, each such portion of the #building# may be considered to be a separate #building#. Furthermore, for the purposes of this Section, #building segments# may be considered to be separate #buildings# and abutting #semi-detached buildings# may be considered to be one #building#.

The perimeter walls of a #building or other structure# are those portions of the outermost walls enclosing the #floor area# within a #building or other structure# at any level and height is measured from the #base plane#. Perimeter walls are subject to setback regulations at a maximum height above the #base plane# of:

In all districts, as indicated, the required minimum distance between a #residential building# and any other #building# on the same #zoning lot# shall vary according to the height of such #buildings# and the presence of #legally required windows# in facing building walls. Such minimum distance shall be, in feet, as indicated in the following table:

	Maximum Building Height above #Base Plane# or #Curb Level#, as Applicable (in feet)				
Wall Condition*	25	35	40	50	Over 50
Wall to Wall	20	25	30	35	40
Wall to Window	30	35	40	45	50

* Wall condition shall be defined as:
"wall to wall" is a condition where two walls of

#buildings# face each other, and neither wall contains a #legally required window#;
"wall to window" is a condition where two walls of #buildings# face each other, and one wall contains a #legally required window# and the other wall does not contain a #legally required window#;

"window to window" is a condition where two walls of #buildings# face each other, and both walls contain a #legally required window#.

In addition, the following rules shall apply:

(a) the minimum distances set forth in this table shall be provided at the closest point between #buildings#;

(b) any portion of a #building# that qualifies as a #building segment# may be treated as a separate #building# for the purposes of determining the minimum distance required between such #building segment# and another #building# or #building segment#;

(c) where #buildings# of different heights face each other, the average of the heights of such #buildings# shall determine the minimum distance required between them;

(d) projections having a maximum height of 25 feet above adjoining grade, a maximum depth of five feet, and an aggregate width not exceeding 25 percent of the building wall from which they project, may penetrate the minimum spacing requirements; and

(e) portions of #buildings# above 125 feet that exceed, in aggregate, a #lot coverage# of 40 percent, shall be spaced at least 80 feet apart.

(f) in R1, R2, R3, R4A and R4-1 Districts within #lower density growth management areas#, the provisions of this paragraph (f) shall apply to any #zoning lot# with two or more #buildings#, where at least one #building# is located wholly beyond 50 feet of a #street line# and the #private road# provisions do not apply. For the purposes of this paragraph, any #residential building# with no #residential building# located between it and the #street line# so that lines drawn perpendicular to the #street line# do not intersect any other #residential building# shall be considered a "front building", and any #residential building# located wholly beyond the #rear wall line#, or prolongation thereof, of a "front building" shall be considered a "rear building". The minimum distances set forth in the table above shall apply, except that a minimum distance of 45 feet shall be provided between any such front and rear #buildings#.

* * *

23-88
Minimum Distance between Lot Lines and Building Walls in Lower Density Growth Management Areas

(a) On #corner lots# in #lower density growth management areas#, for #zoning lots# with multiple #buildings# or #building segments#, an open area at least 30 feet in depth shall be provided between the #side lot line# and the #rear wall line# of any #building# or #building segment# that does not front upon two #streets# in its entirety.

(b) In R1, R2, R3, R4A and R4-1 Districts within #lower density growth management areas#, the provisions of this paragraph (b) shall apply to any #zoning lot# with two or more #buildings#, where at least one #building# is located wholly beyond 50 feet of a #street line# and the #private road# provisions do not apply. For the purposes of this paragraph, any #residential building# with no #residential building# located between it and the #street line# so that lines drawn perpendicular to the #street line# do not intersect any other #residential building# shall be considered a "front building", and any #residential building# located wholly beyond the #rear wall line#, or prolongation thereof, of a "front building" shall be considered a "rear building". An open area with a minimum width of 15 feet shall be provided between any such rear building and the #side lot line# of an adjoining #zoning lot#, and an open area with a minimum width of 30 feet shall be provided between any such rear building and the #rear lot line# of an adjoining #zoning lot#. The permitted obstruction provisions of Sections 23-44 for #side yards# shall apply where such open areas adjoin a #side lot line#, and the permitted obstruction provisions of Section 23-44 for #rear yards# shall apply where such open areas adjoin a #rear lot line#.

26-30 * * *

SPECIAL REQUIREMENTS FOR DEVELOPMENTS WITH PRIVATE ROADS IN LOWER DENSITY GROWTH MANAGEMENT AREAS

For all #developments# accessed by #private roads# in #lower density growth management areas#, the provisions of Section 26-20 through 26-27, inclusive, shall apply. In addition, such regulations are supplemented or superceded in accordance with the provisions of this Section.

26-31
Yards

For the purposes of this Section, a #private road# shall be considered to be a #street#, and a line seven feet from and parallel to the required curb of the #private road# shall be considered to be a #street line#, and the applicable #yard# regulations of Section 23-40, inclusive, and 23-50, inclusive, shall be applied accordingly. However, no #yard# shall be required along that side of a #private road#, or portion thereof, that does not have a building wall facing it. Furthermore, where a #building# on a #through lot# fronts upon a #street# and a #private road#, one #front yard# shall have a depth of at least 30 feet. Where such 30 foot #front yard# adjoins a #street#, such #yard# shall include a landscaped strip at least eight feet wide to screen the #yard# from such #street#, densely planted with evergreen shrubs at least four feet high at time of planting, and of a type expected to form a year round dense screen at least six feet high within three years.

26-32
Minimum Distance Between Buildings, Walls and Lot Lines

(a) Except in the Borough of Staten Island, the minimum distances set forth in Section 23-711 (Standard minimum distance between buildings) shall not apply between two #buildings# where each such #building# faces a #front yard# required pursuant to Section 26-31. In lieu thereof, such #buildings# shall be at least 13 feet apart.

(b) For the purposes of applying the provisions of Section 23-88 (Minimum Distance Between Lot Lines and Building Walls in Lower Density Growth Management Areas), the required curb of the #private road# shall be considered to be a #street line#.

26-33
Entrances, Parking Location and Curb Cuts

The entrances and exits of all #private roads# shall be located not less than 50 feet from the intersection of any two #street lines#.

No required #accessory# off-street parking spaces shall be located between the required curbs of a #private road#, except where such spaces:

(a) are perpendicular to the road bed, and

(b) are located on only one side of a #private road# or portion of a #private road#, so that no such spaces are located on opposite sides of the road bed, or within 20 feet of being opposite to one another, and

(c) are within rows of not more than 10 adjacent spaces. Such rows shall be separated one from another by a planting strip at least 18 feet deep and 8 feet wide, within which a tree of at least three inch caliper is planted.

All #accessory# off-street parking spaces shall comply with the parking location and curb cut regulations set forth in Section 25-632. For the purposes of applying such regulations, the #private road# shall be considered to be a #street#. In addition, the provisions of Section 25-64 (Restrictions on Use of Open Space) and Section 25-66 (Screening) shall apply.

26-34
Lighting, Signage and Crosswalks

All #private roads# shall be #developed# with street lighting, street signage and crosswalks to minimum Department of Transportation standards for public #streets#.

26-35
Screening

Such landscaped strips shall be densely planted with evergreen shrubs at least four feet high at time of planting, and of a type that may be expected to form a year-round dense screen at least six feet high within three years. Such screening shall be maintained in good condition at all times.

26-36
Modification and Waiver Provisions

Except in the Borough of Staten Island, the City Planning Commission may, by authorization, allow modifications to, or waivers of, the requirements of Sections 26-30 through 26-35, inclusive, provided that the depth of a #rear yard# shall not be less than 15 feet and the depth of a #front yard# shall not be less than five feet. In order to authorize such modifications or waivers, the Commission shall find that:

(a) Such modifications result in a site plan that provides sufficient open areas for the residents of the #development#;

(b) Any reduction in open areas shall be permitted only where the Commission finds that a good site plan has been provided that includes a superior landscaping plan, and

(c) Such modifications will not impair the essential character of the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

Project Location

The Gateway Center at Bronx Terminal Market project is located in the West Haven neighborhood of the Bronx on an approximately 26-acre parcel that is bordered by Metro North Rail Road tracks to the north, River Avenue to the east, 149th Street to the south, and the Harlem River to the west.

Brief Project Description

The Gateway Center at Bronx Terminal Market is a proposed redevelopment of a portion of the current Bronx Terminal Market site, along with the Bronx House of Detention. On the eastern side of Exterior Street, the project would include a series of five 1-story retail buildings with an adjacent surface parking lot; two 3-story retail buildings, one with parking on the ground floor; a 6-level parking garage with retail space on Exterior Street and River Avenue; and a hotel with a banquet facility and parking. On the western side of Exterior Street, the project would include a public park and waterfront esplanade totaling approximately 2 acres, and a 2-story retail building with parking on the ground floor. In total, the project will comprise approximately 2,383,074 gross square feet of new development on the site. The project is expected to be complete and operational in 2009, except for the hotel, which would not be completed until 2014. The project would involve the closing of the Bronx Terminal Market and the Bronx House of Detention.
The project would require a number of discretionary actions, including the disposition of land (a long-term lease); rezoning; modification of the City Map; special permits to modify the site's underlying bulk regulations and parking requirements, to permit a public parking garage in excess of 150 spaces, and to provide relief for signs not otherwise permitted under the Zoning Resolution; and a waterfront authorization. In addition, the project sponsor will seek financing from the New York City Industrial Development Agency (NYCIDA). The project is expected to qualify for inclusion in the Brownfield Cleanup Program of the New York State Department of Environmental Conservation (NYSDEC). The project may require a NYSDEC State Pollution Discharge Elimination System (SPDES) permit for stormwater discharges associated with construction activities. The project may also require a tidal wetlands permit and/or Protection of Waters permit(s) from NYSDEC, as well as a water quality certification, and possibly a permit from the U.S. Army Corps of Engineers (USACOE) for shoreline-related work. The Proposed Project is within the boundaries of the coastal zone and will require a NYSDOS determination of consistency with New York City's Local Waterfront Revitalization Program. The project may also involve a land transfer from the New York State Department of Transportation (NYSDOT) to New York City, and a revocable consent for utility lines underneath Exterior Street.

A public scoping meeting will be held on September 9, 2004 at 6:00 pm at the Bronx Borough President's Office, 198 East 161st Street, 2nd Floor, Bronx, New York. The period for submitting written comments will remain open until September 20, 2004.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.
Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS
OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

VENDOR INFORMATION MANUAL

This manual contains information on how to do business with the City. It can be obtained, at no cost, from the Department of Small Business Services, 110 William Street - 2nd floor, New York, NY 10038. Request should be made to Gordon Richards, Director - Procurement Outreach Program, (212) 513-6356 (Tel) or (212) 618-8899 (Fax).

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

In addition, the following rules shall apply:

(a) the minimum distances set forth in this table shall be provided at the closest point between #buildings#;

* * *

26-30
SPECIAL REQUIREMENTS FOR DEVELOPMENTS WITH PRIVATE ROADS IN LOWER DENSITY GROWTH MANAGEMENT AREAS

For all #developments# accessed by #private roads# in #lower density growth management areas#, the provisions of Section 26-20 through 26-27, inclusive, shall apply. In addition, such regulations are supplemented or superceded in accordance with the provisions of this Section.

26-31
Yards

For the purposes of this Section, a #private road# shall be considered to be a #street#, and a line seven feet from and parallel to the required curb of the #private road# shall be considered to be a #street line#, and the applicable #yard# regulations of Section 23-40, inclusive, and 23-50, inclusive, shall be applied accordingly. However, no #yard# shall be required along that side of a #private road#, or portion thereof, that does not have a building wall facing it. Furthermore, where a #building# on a #through lot# fronts upon a #street# and a #private road#, one #front yard# shall have a depth of at least 30 feet. Where such 30 foot #front yard# adjoins a #street#, such #yard# shall include a landscaped strip at least eight feet wide to screen the #yard# from such #street#, densely planted with evergreen shrubs at least four feet high at time of planting, and of a type expected to form a year round dense screen at least six feet high within three years.

26-32
Minimum Distance Between Buildings, Walls and Lot Lines

(a) Except in the Borough of Staten Island, the minimum distances set forth in Section 23-711 (Standard minimum distance between buildings) shall not apply between two #buildings# where each such #building# faces a #front yard# required pursuant to Section 26-31. In lieu thereof, such #buildings# shall be at least 13 feet apart.

(b) For the purposes of applying the provisions of Section 23-88 (Minimum Distance Between Lot Lines and Building Walls in Lower Density Growth Management Areas), the required curb of the #private road# shall be considered to be a #street line#.

26-33
Entrances, Parking Location and Curb Cuts

The entrances and exits of all #private roads# shall be located not less than 50 feet from the intersection of any two #street lines#.

No required #accessory# off-street parking spaces shall be located between the required curbs of a #private road#, except where such spaces:

(c) are within rows of not more than 10 adjacent spaces. Such rows shall be separated one from another by a planting strip at least 18 feet deep and 8 feet wide, within which a tree of at least three inch caliper is planted.

All #accessory# off-street parking spaces shall comply with the parking location and curb cut regulations set forth in Section 25-632. For the purposes of applying such regulations, the #private road# shall be considered to be a #street#. In addition, the provisions of Section 25-64 (Restrictions on Use of Open Space) and Section 25-66 (Screening) shall apply.

Such landscaped strips shall be densely planted with evergreen shrubs at least four feet high at time of planting, and of a type that may be expected to form a year-round dense screen at least six feet high within three years. Such screening shall be maintained in good condition at all times.

26-36
Modification and Waiver Provisions

Except in the Borough of Staten Island, the City Planning Commission may, by authorization, allow modifications to, or waivers of, the requirements of Sections 26-30 through 26-35, inclusive, provided that the depth of a #rear yard# shall not be less than 15 feet and the depth of a #front yard# shall not be less than five feet. In order to authorize such modifications or waivers, the Commission shall find that:

(a) Such modifications result in a site plan that provides sufficient open areas for the residents of the #development#;

(b) Any reduction in open areas shall be permitted only where the Commission finds that a good site plan has been provided that includes a superior landscaping plan, and

(c) Such modifications will not impair the essential character of the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

26-40
STREET TREE PLANTING REQUIREMENTS FOR LOWER DENSITY GROWTH MANAGEMENT AREAS

In R1, R2, R3, R4A and R4-1 Districts within #lower density growth management areas#, all #developments# shall provide and maintain along the entire #street# length of the #zoning lot#, one street tree for every 25 feet of #street# frontage of the #zoning lot#. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals, except where the Commissioner of Buildings determines that such tree planting would be unfeasible. Project Location

The Gateway Center at Bronx Terminal Market project is located in the West Haven neighborhood of the Bronx on an approximately 26-acre parcel that is bordered by Metro North Rail Road tracks to the north, River Avenue to the east, 149th Street to the south, and the Harlem River to the west.

Brief Project Description

The Gateway Center at Bronx Terminal Market is a proposed redevelopment of a portion of the current Bronx Terminal Market site, along with the Bronx House of Detention. On the eastern side of Exterior Street, the project would include a series of five 1-story retail buildings with an adjacent surface parking lot; two 3-story retail buildings, one with parking on the ground floor; a 6-level parking garage with retail space on Exterior Street and River Avenue; and a hotel with a banquet facility and parking. On the western side of Exterior Street, the project would include a public park and waterfront esplanade totaling approximately 2 acres, and a 2-story retail building with parking on the ground floor. In total, the project will comprise approximately 2,383,074 gross square feet of new development on the site. The project is expected to be complete and operational in 2009, except for the hotel, which would not be completed until 2014. The project would involve the closing of the Bronx Terminal Market and the Bronx House of Detention.
The project would require a number of discretionary actions, including the disposition of land (a long-term lease); rezoning; modification of the City Map; special permits to modify the site's underlying bulk regulations and parking requirements, to permit a public parking garage in excess of 150 spaces, and to provide relief for signs not otherwise permitted under the Zoning Resolution; and a waterfront authorization. In addition, the project sponsor will seek financing from the New York City Industrial Development Agency (NYCIDA). The project is expected to qualify for inclusion in the Brownfield Cleanup Program of the New York State Department of Environmental Conservation (NYSDEC). The project may require a NYSDEC State Pollution Discharge Elimination System (SPDES) permit for stormwater discharges associated with construction activities. The project may also require a tidal wetlands permit and/or Protection of Waters permit(s) from NYSDEC, as well as a water quality certification, and possibly a permit from the U.S. Army Corps of Engineers (USACOE) for shoreline-related work. The Proposed Project is within the boundaries of the coastal zone and will require a NYSDOS determination of consistency with New York City's Local Waterfront Revitalization Program. The project may also involve a land transfer from the New York State Department of Transportation (NYSDOT) to New York City, and a revocable consent for utility lines underneath Exterior Street.

A public scoping meeting will be held on September 9, 2004 at 6:00 pm at the Bronx Borough President's Office, 198 East 161st Street, 2nd Floor, Bronx, New York. The period for submitting written comments will remain open until September 20, 2004.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

RULE

Section 1. Subdivisions (a) and (e) of Section 6-40 of Chapter 6, Title 6 of the Rules of the City of New York are hereby amended, and a new subdivision (f) is added, to read as follows:

(a) The appeal must contain a concise statement of the case, a specification of the issues upon which the appeal is based, including the precise findings of fact, conclusion, or procedure to which exception is taken, and arguments presenting points of law and fact relied upon with respect to each issue. Specific references to the record, legal authorities, and other sources relied upon must be included. If exceptions are taken to the final order, the specific amendments or revisions sought must set be forth. The motion for rehearing must state, with specificity, the new evidence which was not available at the time of the hearing and reason(s) for the unavailability of the evidence. Any appeal or motion for a rehearing shall be denied unless the respondent also:

[In addition,]1. Submits a check or money order for the sum of $25.00 (twenty-five dollars) payable to the Department of Consumer Affairs, representing a non-refundable appeal fee, [must accompany]with each appeal or motion for rehearing made by [a]such respondent[. Failure to submit the fee will result in the automatic denial of the appeal or motion for a rehearing.]; and

2. Submits a check or money order made payable to the Department of Consumer Affairs for the amount of the fine imposed by any decision that is the subject of an appeal or a motion for a rehearing.

(e) The filing of an appeal or a motion for a rehearing shall not stay the effective date of a final decision or order unless and until the party filing the appeal also files a written request for a stay with the Director of Adjudication, which is granted in writing. Further, any restitution awarded by the Hearing Officer shall also be deposited with the Department pending determination of the appeal [Failure to deposit the fee and the restitution money with the Department will result in the automatic denial of the appeal or motion for a rehearing.] The determination of the appeal shall be mailed to each of the parties entering an appearance at the prior hearing.

(f) Failure to deposit with the Department the fee, the amount of any fine imposed as specified in subdivision (a) of this section and the amount of any restitution awarded as specified in subdivision (e) of this section will result in the denial of the appeal or motion for a rehearing.

Statement of Basis and Purpose: Section 20-104 (b) of the Administrative Code of the City of New York authorizes the Commissioner to amend and adopt such rules he or she deems necessary and appropriate to carry out the powers and duties of the Department. Among such powers and duties are the holding of administrative hearings to adjudicate violations, as provided by laws the Department enforces. The Department has adopted rules of procedure governing the conduct of administrative hearings that are included in Chapter 6 of Title 6 of the Rules of the City of New York.

Section 6-40 of Title 6 of such Rules which governs appeals and motions for the rehearing of decisions requires appellants to pay a non-refundable $25 filing fee and to deposit with the Department the total amount of any restitution awarded to a consumer in the decision. It also provides that failure to deposit the specified amounts will result in the automatic denial of an appeal.

Subdivision e of section 6-40 also specifies that a decision is not automatically stayed pending an appeal. (To obtain a stay, the party appealing must request one from the Director of Adjudication, who has the discretion to deny the stay.) Further, section 20-104e of the Administrative Code authorizes the Commissioner to suspend the license of any person pending payment of a fine or civil penalty. An appellant is, therefore, obligated under existing law to make a timely payment of the fine imposed to avoid the suspension of a license for the non-payment of the fine while the appeal is pending.

The Department therefore proposes to amend the rule governing appeals and motions for the rehearing of decisions to incorporate in the conditions for pursuing an appeal the requirement that the appellant pay the Department the full amount of the fine assessed in a decision. This proposed amendment would be consistent with existing procedures and enforcement measures available to the Department under existing law and rules.

The Employee may be represented at such conference by a representative of the Union. The person designated by the agency head to review the charges shall take any steps necessary to a proper disposition of the charges and shall issue a determination in writing by the end of the fifth day following the date of the conference.

If the Employee is satisfied with the determination in **Step A** above, the Employee may choose to accept such determination as an alternative to and in lieu of a determination made pursuant to the procedures provided for in Section 75 of the Civil Service Law or the Rules and Regulations of the Health and Hospitals Corporation. As a condition of accepting such determination, the Employee shall sign a waiver of the Employee's right to the procedures available to him or her under Section 75 and 76 of the Civil Service Law or the Rules and Regulations of the Health and Hospitals Corporation.

Step B (i) If the Employee is not satisfied with the determination at **Step A**, above, then the Employer shall proceed in accordance with the disciplinary procedures set forth in Section 75 of the Civil Service Law or the Rules and Regulations of the Health and Hospitals Corporation. As an alternative, the Union with the consent of the Employee may choose to proceed in accordance with the Grievance Procedure set forth in this Agreement, including the right to proceed to binding arbitration pursuant to **Step IV** of such Grievance Procedure. As a condition for submitting the matter to the Grievance Procedure the Employee and the Union shall file a written waiver of the right to utilize the procedures available to the Employee pursuant to Section 75 and 76 of the Civil Service Law or the Rules and Regulations of the Health and Hospitals Corporation or any other administrative or judicial tribunal, except for the purpose of enforcing an arbitrator's award, if any. Notwithstanding such waiver, the period of an Employee's suspension without pay pending hearing and determination of charges shall not exceed thirty (30) days.

Step B (ii) If the election is made to proceed pursuant to the Grievance Procedure, an appeal from the determination of **Step A**, above, shall be made to the agency head or designated representative. The appeal must be made in writing within five (5) work days of the receipt of the determination. The agency head or designated representative shall meet with the Employee and the Union for review of the grievance and shall issue a determination to the Employee and the Union by the end of the tenth work day following the day on which the appeal was filed. The agency head or designated representative shall have the power to impose the discipline, if any, decided upon, up to and including termination of the accused Employee's employment. In the event of such termination or suspension without pay totaling more than thirty (30) days, the Union with the consent of the grievant may elect to skip **Step C** of this Section and proceed directly to **Step D**.

Step C If the grievant is not satisfied with the determination of the agency head or designated representative the grievant or the Union may appeal to the Commissioner of Labor Relations in writing within ten (10) days of the determination of the agency head or designated representative. The Commissioner of Labor Relations shall issue a written reply to the grievant and the Union within fifteen (15) work days.

Step D If the grievant is not satisfied with the determination of the Commissioner of Labor Relations, the Union with the consent of the grievant may proceed to arbitration pursuant to the procedures set forth in **Step IV** of the Grievance Procedure set forth in this Agreement.

Section 6. Disciplinary Procedure for Non-Competitive Employees

In any case involving a grievance under Section 1(f) of this Article, the following procedure shall govern upon service of written charges of incompetence or misconduct:

The Employee may be represented at such conference by a representative of the Union. The person designated by the agency head to review the charges shall take any steps necessary to a proper disposition of the charges and shall issue a decision in writing by the end of the fifth day following the date of the conference.

Step II If the Employee is dissatisfied with the decision in **Step I**, above, the Employee

may appeal such decision. The appeal must be within five (5) working days of the receipt of such decision. Such appeal shall be treated as a grievance appeal beginning with **Step II** of the Grievance Procedure set forth herein.

Section 7. Disciplinary Procedure for Provisional Employees

In any case involving a grievance under Section 1(g) of this Article, the following procedure shall govern upon service of written charges of incompetence or misconduct:

The Employee may be represented at such conference by a representative of the Union. The person designated by the agency head to review the charges shall take any steps necessary to a proper disposition of the charges and shall issue a determination in writing by the end of the fifth day following the date of the conference.

Step B (i) If the Employee is not satisfied with the determination at **Step A**, above, then the Employee may choose to proceed in accordance with the Grievance Procedure set forth in this Agreement through **Step III**. The Union, with the consent of the employee, shall have the right to proceed to binding arbitration pursuant to **Step IV** of such Grievance Procedure. The period of an Employee's suspension without pay pending hearing and determination of charges shall not exceed thirty (30) days.

Step B (ii) An appeal from the determination of **Step A** above shall be made to the agency head or designated representative. The appeal must be made in writing within five (5) work days of the receipt of the determination. The agency head or designated representative shall meet with the Employee and the Union for review of the grievance and shall issue a determination to the Employee and the Union by the end of the tenth work day following the day on which the appeal was filed. The agency head or designated representative shall have the power to impose the discipline, if any, decided upon, up to and including termination of the accused employee's employment. In the event of such termination or suspension without pay totaling more than thirty (30) days, the Union with the consent of the grievant may elect to skip **Step C** of this Section and proceed directly to **Step D.**

Step C If the grievant is not satisfied with the determination of the agency head or designated representative the grievant or the Union may appeal to the Commissioner of Labor Relations in writing within ten (10) days of the determination of the agency head or designated representative. The Commissioner of Labor Relations shall issue a written reply to the grievant and the Union within fifteen (15) work days.

Step D If the grievant is not satisfied with the determination of the Commissioner of Labor Relations, the Union with the consent of the grievant may proceed to arbitration pursuant to the procedures set forth in **Step IV** of the Grievance Procedure set forth in this Agreement.

Section 8.

A grievance concerning a large number of Employees and which concerns a claimed misinterpretation, inequitable application, violation or failure to comply with the provisions of this Agreement may be filed directly at **Step III** of the grievance procedure, except that a grievance concerning employees of the Health and Hospitals Corporation may be filed directly at **Step II** of the grievance procedure. All other individual grievances in process concerning the same issue shall be consolidated with the "group" grievance. Such "group" grievance must be filed no later than 120 days after the date on which the grievance arose, and all other procedural limits, including time limits, set forth in this Article shall apply.

Section 9.

If a determination satisfactory to the Union at any level of the Grievance Procedure is not implemented within a reasonable time, the Union may re-institute the original grievance **at Step III** of the Grievance Procedure; or if a satisfactory **Step III** determination has not been so implemented, the Union may institute a grievance concerning such failure to implement at **Step IV** of the Grievance Procedure.

Section 10.

If the Employer exceeds any time limit prescribed at any step in the Grievance Procedure, the grievant and/or the Union may invoke the next step of the procedure, except that only the Union may invoke impartial arbitration under Step IV.

Section 11.

The Employer shall notify the Union in writing of all grievances filed by Employees, all grievance hearings, and all determinations. The Union shall have the right to have a representative present at any grievance hearing and shall be given forty-eight (48) hours' notice of all grievance hearings.

Section 12.

Each of the steps in the Grievance Procedure, as well as time limits prescribed at each step of this Grievance Procedure, may be waived by mutual agreement of the parties.

Section 13.

A non-Mayoral agency not covered by this Agreement but which employs Employees in titles identical to those covered by this Agreement may elect to permit the Union to appeal an unsatisfactory determination received at the last step of its Grievance Procedure prior to arbitration on fiscal matters only to the Commissioner of Labor Relations. If such election is made, the Union shall present its appeal to the Commissioner of Labor Relations in writing within ten (10) work days of the receipt of the last step determination. The Union shall submit copies of the grievance filings at the prior steps of its Grievance Procedure and any agency responses thereto. Copies of such appeals shall be sent to the agency head. The Commissioner of Labor Relations, or the Commissioner's designee, shall review all such appeals and answer all such appeals within fifteen (15) working days. An appeal from a determination of the Commissioner of Labor Relations may be taken to arbitration under procedures, if any, applicable to the non-Mayoral agency involved.

Section 14.

The grievance and the arbitration procedure contained in this Agreement shall be the exclusive remedy for the resolution of disputes defined as "grievances" herein. This shall not be interpreted to preclude either party from enforcing the arbitrator's award in court. This Section shall not be construed in any manner to limit the statutory rights and obligations of the Employer under Article XIV of the Civil Service Law.

Section 15. Expedited Arbitration Procedure

a. The parties agree that there is a need for an expedited arbitration process which would allow for the prompt adjudication of grievances as set forth below.

b. An arbitrator or panel of arbitrators, as agreed to by the parties, will act as the arbitrator of any issue submitted under the expedited procedure herein.

c. The selection of those matters which will be submitted shall include, but not be limited to, out-of-title cases concerning all titles, disciplinary cases wherein the proposed penalty is a monetary fine of one week or less or written reprimand, and other cases pursuant to mutual agreement by the parties. (3) If a case is not proposed by the Deputy Chairperson for expedited handling, either party may, at any time prior to the scheduling of an arbitration hearing date for such case, request in writing to the other party and to the Deputy Chairperson of Disputes of the Office of Collective Bargaining that said case be submitted to the expedited procedure. The party receiving such request shall have ten business days from the receipt of the request to raise any objections thereto.

(4) No case shall be submitted to the expedited arbitration process without the mutual agreement of the parties.

ii. CONDUCT OF HEARINGS:

(1) The presentation of the case, to the extent possible, shall be made in the narrative form. To the degree that witnesses are necessary, examination will be limited to questions of material fact and cross examination will be similarly limited. Submission of relevant documents, etc., will not be unreasonably limited and may be submitted as a "packet" exhibit.

(2) In the event either party is unable to proceed with hearing a particular case, the case shall be rescheduled. However, only one adjournment shall be permitted. In the event that either party is unable to proceed on a second occasion, a default judgment may be entered against the adjourning party at the Arbitrator's discretion absent good cause shown.

(3) The Arbitrator shall not be precluded from attempting to assist the parties in settling a particular case.

(4) A decision will be issued by the Arbitrator within two weeks. It will not be necessary in the Award to recount any of the facts presented. However, a brief explanation of the Arbitrator's rationale may be included. Bench decisions may also be issued by the Arbitrator.

(5) Decisions in this expedited procedure shall not be considered as precedent for any other case nor entered into evidence in any other forum or dispute except to enforce the Arbitrator's award.

(6) The parties shall, whenever possible, exchange any documents intended to be offered in evidence at least one week in advance of the first hearing date and shall endeavor to stipulate to the issue in advance of the hearing date.

The following rules shall govern the eligibility of Employees for the longevity increments provided for in Article III, Section 9, of the 2002-2005 Principal Administrative Associates, et al. agreement:

1. Only service in pay status shall be used to calculate the 15 years of service, except that for other than full time per annum Employees only a continuous year of service in pay status shall be used to calculate the 15 years of service. A continuous year of service shall be a full year of service without a break of more than 31 days. Where the regular and customary work year for a title is less than a twelve month year such as a school year, such regular and customary year shall be credited as a continuous year of service counting towards the 15 years of service. If the normal work year for an Employee is less than the regular and customary work year for the employee's title, it shall be counted as a continuous year of service if the Employee has customarily worked that length of work year and the applicable agency verifies that information.

2. Service in pay status prior to any breaks in service of more than one year shall not be used to calculate the 15 years of service. Where an Employee has less than seven years of continuous service in pay status, breaks in service of less than one year shall be aggregated. Where breaks in service aggregate to more than one year they shall be treated as a break in service of more than one year and the service prior to such breaks and the aggregated breaks shall not be used to calculate the 15 years of service. No break used to disqualify service shall be used more than once.

3. The following time in which an Employee is not in pay status shall not constitute a break in service as specified in the paragraph 2 above.

a. Time on a leave approved by the proper authority which is consistent with the **Rules and Regulations of the New York City Personnel Director** or the appropriate personnel authority of a covered organization.

b. Time prior to reinstatement.

c. Time on a preferred list pursuant to **Civil Service Law Sections 80 and 81** or any similar contractual provision.

d. Time not in pay status of 31 days or less.

Notwithstanding the above, such time as specified in subsections a, b, and c above shall not be used to calculate the 15 years of service.

4. Once an Employee has completed the 15 years of "City" service in pay status and is eligible to receive the $925 longevity increment, the $925 shall become part of the Employee's base rate for all purposes except as provided in paragraph 5 below.

5. The $925 longevity increment shall not become pensionable until 15 months after the Employee becomes eligible to receive such $925 increment. Fifteen months after the Employee becomes eligible to receive the $925 longevity increment, such $925 longevity increment shall become pensionable, and as part of the Employee's base rate, shall be subject to the general increase provided in Article III, Section 3, of this **Agreement.**

Appendix B

2. Only one merit adjustment or provisional promotion can be granted to an Employee within any twelve month period.

3. Merit adjustment must be limited to Employees with aboveaverage ratings on their annual performance evaluations. A copy of the performance evaluation must be submitted to the Department of Personnel and the Mayor's Office with the Monthly Planned Action Report.

4. Merit adjustment can be made up to a maximum of 7% of the Employee's base salary. In no case can the merit adjustments increase the Employee's salary beyond the maximum established for the title and/or level.

5. The following shall be criteria for the granting of merit increases:

a. outstanding productivity in the work assigned;

b. outstanding performance in the work assigned;

c. outstanding initiative and resourcefulness;

6. The following shall be the procedure for the granting of merit increases:

The City's right to reorganize the Department by separating income support functions from social service functions in the Department and the Union's right to negotiate with the City on questions concerning the practical impact that such separation has upon employees, such as workload or manning, are hereby recognized. In consideration for the Union's promise of full cooperation in the City's plan for an immediate and accelerated separation of income support functions from social service functions in the Department and for the increased productivity which will result therefrom, the parties agree to the provisions as set forth in paragraph a., below, and Article III, Sections 7.b. and 10. 3) B.

Re: 2002 – 2005 CWA Local 1180 Agreement

Dear Mr. Cheliotes:

This letter is to confirm certain mutual understandings and agreements regarding the above-captioned agreement.

The parties agree to establish a "Joint Labor Management Committee on Productivity Initiatives" ("*Committee*").

Composition of the Committee

The Committee shall comprise representatives designated by: the Deputy Mayor for Operations, the Law Department, the Office of Labor Relations, the Office of Management and Budget, the Office of Operations, and CWA Local 1180.

Goals and Objectives

The Committee shall work to identify efficiencies in the administration and delivery of governmental services which shall in turn be utilized to provide additional compensation to employees. This agreement expresses the joint labor and management commitment to associate improved City service and performance with appropriate compensation for the workforce.

The goal of the Committee's work shall be to identify, review, recommend and develop initiatives that generate workplace savings, maximize the potential of the City workforce and ensure the provision of essential services while at the same time improving compensation for the City workforce. To that end, the parties will seek to identify quantifiable savings while at the same time maintaining or improving City services.

The Committee shall make all reasonable efforts to issue a report or reports on or about October 1, 2004 which propose initiatives representing meaningful, quantifiable, recurring savings to the City and which generate funding to be utilized to compensate employees. Upon completion and acceptance of all committee members of the report, an additional one percent (1%) increase shall be paid to employees covered by this agreement.

The parties agree to meet and negotiate the application of any additional savings above 1% generated by the programs developed by the Committee.

Areas for Consideration

The Committee's study may encompass such matters, including, but not limited to, work rule modifications, absence control, contracting in, workers compensation and other efficiencies.

1. Sick leave usage. The Committee will seek to design a program to examine baseline data as to sick leave usage as a benchmark for comparison. The goal will be to reduce employee sick leave usage on an ongoing basis as a productivity enhancement.

2. Contracting-in. The Committee shall identify areas wherein City services are now being outsourced with the goal of providing those services by City employees with a cost savings to the City.

3. Workers Compensation Cost Containment Task Force. The Committee shall create a special task force, requesting such assistance of cost containment experts as necessary, with the goal of developing reforms that emphasize effective treatments and speed the return to work; that explore the manner in which treatment services are provided; that set specific standards of evaluation and treatment; and that serve to root out fraudulent claims.

4. Such other areas as the Committee may mutually agree.

Resolution of Disputes

The initiatives and programs developed pursuant to this Committee must be unanimously agreed upon. In the event there is a dispute as to the amount of savings generated by an initiative or the implementation of a program, or the savings generated by a program are not paid pursuant to this agreement, it shall be submitted to arbitration upon written notice therefor by any of the parties to this Agreement to the party with whom such dispute or controversy exists. The matter submitted for arbitration shall be submitted to an arbitration panel consisting of the three impartial members of the Board of Collective Bargaining pursuant to Title 61 of the Rules of the City of New York. Any award in such arbitration proceeding shall be final and binding and shall be enforceable pursuant to Article 75 of the CPLR.

If the above accords with your understanding, kindly execute the signature line provided below.

The period of an employee's suspension without pay pending hearing and determination of charges shall not exceed thirty (30) days.

STEP B(ii) An appeal from the determination of **STEP A** above shall be made to the agency head or designated representative. The appeal must be made in writing within five (5) work days of the receipt of the determination. The agency head or designated representative shall meet with the employee and the Union for review of the grievance and shall issue a determination to the employee and the Union by the end of the tenth work day following the day on which the appeal was filed. The agency head or designated representative shall have the power to impose the discipline, if any, decided upon, up to and including termination of the accused employee's employment. In the event of such termination or suspension without pay totaling more than thirty (30) days, the Union with the consent of the grievant may elect to skip **STEP C** of this Section and proceed directly to **STEP D**.

STEP C If the grievant is not satisfied with the determination of the agency head or designated representative the grievant or the Union may appeal to the Commissioner of Labor Relations in writing within ten (10) days of the determination of the agency head or designated representative. The Commissioner of Labor Relations shall issue a written reply to the grievant and the Union within fifteen (15) work days.

STEP D If the grievant is not satisfied with the determination of the Commissioner of Labor Relations, the Union with the consent of the grievant may proceed to arbitration pursuant to the procedures set forth in **STEP IV** of the Grievance Procedure set forth in this Agreement.

Section 7.

A grievance concerning a large number of employees and which concerns a claimed misinterpretation, inequitable application, violation or failure to comply with the provisions of this Agreement may be filed directly at **STEP III** of the grievance procedure except that a grievance concerning employees of the Health and Hospitals Corporation may be filed directly at **STEP II** of the grievance procedure. Such "group" grievance must be filed no later than 120 days after the date on which the grievance arose, and all other procedural limits, including time limits, set forth in this Article shall apply. All other individual grievances in process concerning the same issue shall be consolidated with the "group" grievance.

Section 8.

If a determination satisfactory to the Union at any level of the Grievance Procedure is not implemented within a reasonable time, the Union may reinstitute the original grievance at **STEP III** of the Grievance Procedure; or if a satisfactory **STEP III** determination has not been so implemented, the Union may institute a grievance concerning such failure to implement at **STEP IV** of the Grievance Procedure.

Section 9.

If the Employer exceeds any time limit prescribed at any step in the Grievance Procedure, the grievant and/or the Union may invoke the next step of the procedure, except that only the Union may invoke impartial arbitration under **STEP IV**.

Section 10.

The Employer shall notify the Union in writing of all grievances filed by employees, all grievance hearings, and all determinations. The Union shall have the right to have a representative present at any grievance hearing and shall be given fort-yeight (48) hours' notice of all grievance hearings.

Section 11.

Each of the steps in the Grievance Procedure, as well as time limits prescribed at each step of this Grievance Procedure, may be waived by mutual agreement of the parties.

Section 12.

A non-Mayoral agency not covered by this Agreement but which employs employees in titles identical to those covered by this Agreement may elect to permit the Union to appeal an unsatisfactory determination received at the last step of its Grievance Procedure prior to arbitration on fiscal matters only to the Commissioner of Labor Relations. If such election is made, the Union shall present its appeal to the Commissioner of Labor Relations in writing within ten (10) work days of the receipt of the last step determination. The Union should submit copies of the grievance filings at the prior steps of its Grievance Procedure and any agency responses thereto. Copies of such appeals shall be sent to the agency head. The Commissioner of Labor Relations, or the Commissioner's designee, shall review all such appeals and answer all such appeals within fifteen (15) work days. An appeal from a determination of the Commissioner of Labor Relations may be taken to arbitration under procedures, if any, applicable to the non-Mayoral agency involved.

Section 13.

The grievance and the arbitration procedure contained in this Agreement shall be the exclusive remedy for the resolution of disputes defined as "grievances" herein. This shall not be interpreted to preclude either party from enforcing the arbitrator's award in court. This Section shall not be construed in any manner to limit the statutory rights and obligations of the Employer under Article XIV of the Civil Service Law.

Section 14. Expedited Arbitration Procedure

a. The parties agree that there is a need for an expedited arbitration process, which would

allow for the prompt adjudication of grievances as set forth below.

b. The parties voluntarily agree to submit matters to final and binding arbitration pursuant to the New York City Collective Bargaining Law and under the jurisdiction of the Office of Collective Bargaining. An arbitrator or panel of arbitrators, as agreed to by the parties, will act as the arbitrator of any issue submitted under the expedited procedure herein.

c. The selection of those matters which will be submitted shall include, but not be limited to, out-of-title cases concerning all titles, disciplinary cases wherein the proposed penalty is a monetary fine of one week or less or written reprimand, and other cases pursuant to mutual agreement by the parties. The following procedures shall apply:

i. **SELECTION AND SCHEDULING OF CASES:**

(1) The Deputy Chairperson for Disputes of the Office of Collective Bargaining shall propose which cases shall be subject to the procedures set forth in this Section 14 and notify the parties of proposed hearing dates for such cases.

(2) The parties shall have ten business days from the receipt of the Deputy Chairperson's proposed list of cases and hearing schedule(s) to raise any objections thereto.

(3) If a case is not proposed by the Deputy Chairperson for expedited handling, either party may, at any time prior to the scheduling of an arbitration hearing date for such case, request in writing to the other party and to the Deputy Chairperson of Disputes of the Office of Collective Bargaining that said case be submitted to the expedited procedure. The party receiving such request shall have ten business days from the receipt of the request to raise any objections thereto.

(4) No case shall be submitted to the expedited arbitration process without the mutual agreement of the parties.

ii. **CONDUCT OF HEARINGS**

(1) The presentation of the case, to the extent possible, shall be made in the narrative form. To the degree that witnesses are necessary, examination will be limited to questions of material fact and cross examination will be similarly limited. Submission of relevant documents, etc., will not be unreasonably limited and may be submitted as a "packet" exhibit.

(2) In the event either party is unable to proceed with hearing a particular case, the case shall be rescheduled. However, only one adjournment shall be permitted. In the event that either party is unable to proceed on a second occasion, a default judgment may be entered against the adjourning party at the Arbitrator's discretion absent good cause shown.

(3) The Arbitrator shall not be precluded from attempting to assist the parties in settling a particular case.

(4) A decision will be issued by the Arbitrator within two weeks. It will not be necessary in the Award to recount any of the facts presented. However, a brief explanation of the Arbitrator's rationale may be included. Bench decisions may also be issued by the Arbitrator.

(5) Decisions in this expedited procedure shall not be considered as precedent for any other case nor entered into evidence in any other forum or dispute except to enforce the Arbitrator's award.

(6) The parties shall, whenever possible, exchange any documents intended to be offered in evidence at least one week in advance of the first hearing date and shall endeavor to stipulate to the issue in advance of the hearing date.

ARTICLE VII - BULLETIN BOARDS: EMPLOYER FACILITIES

The Union may post notices on bulletin boards in places and locations where notices usually are posted by the Employer for the employees to read. All notices shall be on Union stationery, and shall be used only to notify employees of matters pertaining to Union affairs. Upon request to the responsible official in charge of a work location, the Union may use Employer premises for meetings during employees' lunch hours, subject to availability of appropriate space and provided such meetings do not interfere with the Employer's business.

ARTICLE VIII - NO STRIKES

In accordance with the New York City Collective Bargaining Law, as amended, neither the Union nor any employee shall induce or engage in any strikes, slowdowns, work stoppages, mass absenteeism, or induce any mass resignations during the term of this Agreement.

ARTICLE IX - CITYWIDE ISSUES

This Agreement is subject to the provisions, terms and conditions of the Agreement which has been or may be negotiated between the City and the Union recognized as the exclusive collective bargaining representative on Citywide matters which must be uniform for specified employees, including the employees covered by this Agreement.

Employees in Rule X titles shall receive the benefits of the Citywide Agreement unless otherwise specifically excluded herein.

ARTICLE X — UNION ACTIVITY

Time spent by employee representatives in the conduct of labor relations with the City and on Union activities shall be governed by the terms of Executive Order No. 75, as amended, dated March 22, 1973, entitled "Time Spent on the Conduct of Labor Relations between the City and Its employees and on Union Activity" or any other applicable Executive Order.

ARTICLE XI - LABOR-MANAGEMENT COMMITTEE

Section 1.

The Employer and the Union, having recognized that cooperation between management and employees is indispensable to the accomplishment of sound and harmonious labor relations, shall jointly maintain and support a labor-management committee in each of the agencies having at least fifty (50) employees covered by this Agreement.

Section 2.

Each labor-management committee shall consider and recommend to the agency head changes in the working conditions of the employees within the agency who are covered by this Agreement. Matters subject to the Grievance Procedure shall not be appropriate items for consideration by the labor-management committee.

Section 3.

Each labor-management committee shall consist of six members who shall serve for the term of this Agreement. The Union shall designate three members and the agency head shall designate three members. Vacancies shall be filled by the appointing party for the balance of the term to be served. Each member may designate one alternate. Each committee shall select a chairperson from among its members at each meeting. The chairpersonship of each committee shall alternate between the members designated by the agency head and the members designated by the Union. A quorum shall consist of a majority of the total membership of a committee. A committee shall make its recommendations to the agency head in writing.

Section 4.

The labor-management committee shall meet at the call of either the Union members or the Employer members at times mutually agreeable to both parties. At least one week in advance of a meeting the party calling the meeting shall provide, to the other party, a written agenda of matters to be discussed. Minutes shall be kept and copies supplied to all members of the committee.

ARTICLE XII - FINANCIAL EMERGENCY ACT

The provisions of this Agreement are subject to applicable provisions of law, including the New York State Financial Emergency Act for the City of New York as amended.

ARTICLE XIII - APPENDICES

The Appendix or Appendices, if any, attached hereto and initialed by the undersigned shall be deemed a part of this Agreement as if fully set forth herein.

ARTICLE XIV - SAVINGS CLAUSE

In the event that any provision of this Agreement is found to be invalid, such invalidity shall not impair the validity and enforceability of the remaining provisions of this Agreement.

ARTICLE XV - CONTRACTING OUT

The problem of "Contracting Out" or "Farming Out" of work normally performed by personnel covered by this Agreement shall be referred to the Labor-Management Committee as provided for in Article XI of this Agreement.

Longevity Increment Eligibility Rules

The following rules shall govern the eligibility of employees for the longevity increments provided for in Article III, Section 8, of the 2002-2005 *Audio-Visual Aide Technicians, et al.* Agreement:

1. Only service in pay status shall be used to calculate the 5/10/15 years of service, except that for other than full time per annum employees only a continuous year of service in pay status shall be used to calculate the 5/10/15 years of service. A continuous year of service shall be a full year of service without a break of more than 31 days. Where the regular and customary work year for a title is less than a twelve month year, such as a school year, such regular and customary year shall be credited as a continuous year of service counting towards the 5/10/15 years of service. If the normal work year for an employee is less than the regular and customary work year for the employee's title, it shall be counted as a continuous year of service if the employee has customarily worked that length work year and the applicable agency verifies that information.

2. Service in pay status prior to any breaks in service of more than one year shall not be used to calculate the 5/10/15 years of service. Where an employee has less than seven years of continuous service in pay status, breaks in service of less than one year shall be aggregated. Where breaks in service aggregate to more than one year they shall be treated as a break in service of more than one year and the service prior to such breaks and the aggregated breaks shall not be used to calculate the 5/10/15 years of service. No break used to disqualify service shall be used more than once.

3. The following time in which an employee is not in pay status shall not constitute a break in service as specified in paragraph 2 above:

   a. Time on a leave approved by the proper authority which is consistent with the **Rules and Regulations of the New York City Personnel Director** or the appropriate personnel authority of a covered organization.

   b. Time prior to a reinstatement.

   c. Time on a preferred list pursuant to **Civil Service Law Sections 80 and 81** or any similar contractual provision.

   d. Time not in pay status of 31 days or less.

Notwithstanding the above, such time as specified in subsections a, b and c above shall not be used to calculate the 5/10/15 years of service.

4. Once an employee has completed the 5/10/15 years of "City" service in pay status and is eligible to receive the respective longevity increment, the respective longevity increment shall become part of the employee's base rate for all purposes except as provided in paragraph 5 below.

5. The respective longevity increment shall not become pensionable until fifteen (15) months after the employee becomes eligible to receive such payment. Fifteen (15) months after the Employee begins to receive the longevity increment, such longevity increment shall become pensionable and as part of the Employee's base rate, the longevity increment shall be subject to the general increases provided in Article III, Section (a) of this **Agreement.**

Re: 2002-2005 Local 306 IATSE Agreement

Dear Mr. Deitch :

This letter is to confirm certain mutual understandings and agreements regarding the above-captioned agreement.

The parties agree to establish a "Joint Labor Management Committee on Productivity Initiatives" ("Committee")

Composition of the Committee

The Committee shall comprise representatives designated by: the Deputy Mayor for Operations, the Law Department, the Office of Labor Relations, the Office of Management and Budget, the Office of Operations, and Local 306 IATSE.

Goals and Objectives

The Committee shall work to identify efficiencies in the administration and delivery of governmental services, which shall in turn be utilized to provide additional compensation to employees. This agreement expresses the joint labor and management commitment to associate improved City service and performance with appropriate compensation for the workforce.

The goal of the Committee's work shall be to identify, review, recommend and develop initiatives that generate workplace savings, maximize the potential of the City workforce and ensure the provision of essential services while at the same time improving compensation for the City workforce. To that end, the parties will seek to identify quantifiable savings while at the same time maintaining or improving City services.

The Committee shall make all reasonable efforts to issue a report or reports on or about October 1, 2004 which propose initiatives representing meaningful, quantifiable, recurring

savings to the City and which generate funding to be utilized to compensate employees. Upon completion and acceptance of all committee members of the report, an additional one percent (1%) increase shall be paid to employees covered by this agreement.

The parties agree to meet and negotiate the application of any additional savings above 1% generated by the programs developed by the Committee.

Areas for Consideration

The Committee's study may encompass such matters, including, but not limited to, absence control, contracting in, workers compensation and other efficiencies.

Sick leave usage. The Committee will seek to design a program to examine baseline data as to sick leave usage as a benchmark for comparison. The goal will be to reduce employee sick leave usage on an ongoing basis as a productivity enhancement.

Contracting-in. The Committee shall identify areas wherein City services are now being outsourced with the goal of providing those services by City employees with a cost savings to the City.

Workers Compensation Cost Containment Task Force. The Committee shall create a special task force, requesting such assistance of cost containment experts as necessary, with the goal of developing reforms that emphasize effective treatments and speed the return to work; that explore the manner in which treatment services are provided; that set specific standards of evaluation and treatment; and that serve to root out fraudulent claims.

Such other areas as the Committee may mutually agree.

Implementation of Savings

The initiatives and programs developed pursuant to this Committee must be unanimously agreed upon. In the event there is a dispute as to the amount of savings generated by an initiative or the implementation of a program, or the savings generated by a program are not paid pursuant to this agreement, it shall be submitted to arbitration upon written notice therefor by any of the parties to this Agreement to the party with whom such dispute or controversy exists. The matter submitted for arbitration shall be submitted to an arbitration panel consisting of the three impartial members of the Board of Collective Bargaining pursuant to Title 61 of the rules of the City of New York. Any award in such arbitration proceeding shall be final and binding and shall be enforceable pursuant to Article 75 of the CPLR.

If the above accords with your understanding, kindly execute the signature line provided below.

Section 5. Disciplinary Procedure for Permanent Competitive Employees

In any case involving a grievance under Section l.e. of this Article, the following procedure shall govern upon service of written charges of incompetence or misconduct:

As a condition of accepting such determination, the employee shall sign a waiver of the employee's right to the procedures available to him or her under Sections 75 and 76 of the Civil Service Law or the Rules and Regulations of the Health and Hospitals Corporation.

Notwithstanding such waiver, the period of an employee's suspension without pay pending hearing and determination of charges shall not exceed thirty (30) days.

STEP B(ii) If the election is made to proceed pursuant to the Grievance Procedure, an appeal from the determination of STEP A above, shall be made to the agency head or designated representative. The appeal must be made in writing within five (5) work days of the receipt of the determination. The agency head or designated representative shall meet with the employee and the Union for review of the grievance and shall issue a determination to the employee and the Union by the end of the tenth work day following the day on which the appeal was filed. The Commissioner of Labor Relations shall issue a written reply to the grievant and the Union within fifteen (15) work days.

The employee may be represented at such conference by a representative of the Union. The person designated by the agency head to review the charges shall take any steps necessary to a proper disposition of the charges and shall issue a determination in writing by the end of the fifth day following the date of the conference.

STEP B(i) If the employee is not satisfied with the determination at STEP A above, then the employee may choose to proceed in accordance with the Grievance Procedure set forth in this Agreement through STEP III. The Union, with the consent of the employee, shall have the right to proceed to binding arbitration pursuant to STEP IV of such Grievance Procedure. The period of an employee's suspension without pay pending hearing and determination of charges shall not exceed thirty (30) days.

STEP B(ii) An appeal from the determination of STEP A above shall be made to the agency head or designated representative. The appeal must be made in writing within five (5) work days of the receipt of the determination. The agency head or designated representative shall meet with the employee and the Union for review of the grievance and shall issue a determination to the employee and the Union by the end of the tenth work day following the day on which the appeal was filed. The Commissioner of Labor Relations shall issue a written reply to the grievant and the Union within fifteen (15) work days.

STEP D If the grievant is not satisfied with the determination of the Commissioner of Labor Relations, the Union with the consent of the grievant may proceed to arbitration pursuant to the procedures set forth in STEP IV of the Grievance Procedure set forth in this Agreement.

Section 7.

A grievance concerning a large number of employees and which concerns a claimed misinterpretation, inequitable application, violation or failure to comply with the provisions of this Agreement may be filed directly at STEP III of the grievance procedure except that a grievance concerning employees of the Health and Hospitals Corporation may be filed directly at STEP II of the grievance procedure. Such "group" grievance must be filed no later than 120 days after the date on which the grievance arose, and all other procedural limits, including time limits, set forth in this Article shall apply. All other individual grievances in process concerning the same issue shall be consolidated with the "group" grievance.

Section 8.

If a determination satisfactory to the Union at any level of the Grievance Procedure is not implemented within a reasonable time, the Union may reinstitute the original grievance at STEP III of the Grievance Procedure; or if a satisfactory STEP III determination has not been so implemented, the Union may institute a grievance concerning such failure to implement at STEP IV of the Grievance Procedure.

Section 9.

If the Employer exceeds any time limit prescribed at any step in the Grievance Procedure, the grievant and/or the Union may invoke the next step of the procedure, except that only the Union may invoke impartial arbitration under STEP IV.

Section 10.

The Employer shall notify the Union in writing of all grievances filed by employees, all grievance hearings, and all determinations. The Union shall have the right to have a representative present at any grievance hearing and shall be given fortyeight (48) hours' notice of all grievance hearings.

Section 11.

Each of the steps in the Grievance Procedure, as well as time limits prescribed at each step of this Grievance Procedure, may be waived by mutual agreement of the parties.

Section 12.

A non-Mayoral agency not covered by this Agreement but which employs employees in titles identical to those covered by this Agreement may elect to permit the Union to appeal an unsatisfactory determination received at the last step of its Grievance Procedure prior to arbitration on fiscal matters only to the Commissioner of Labor Relations. If such election is made, the Union shall present its appeal to the Commissioner of Labor Relations in writing within ten (10) work days of the receipt of the last step determination. The Union should submit copies of the grievance filings at the prior steps of its Grievance Procedure and any agency responses thereto. Copies of such appeals shall be sent to the agency head. The Commissioner of Labor Relations, or the Commissioner's designee, shall review all such appeals and answer all such appeals within fifteen (15) work days. An appeal from a determination of the Commissioner of Labor Relations may be taken to arbitration under procedures, if any, applicable to the non-Mayoral agency involved.

Section 13.

The grievance and the arbitration procedure contained in this Agreement shall be the exclusive remedy for the resolution of disputes defined as "grievances" herein. This shall not be interpreted to preclude either party from enforcing the arbitrator's award in court. This Section shall not be construed in any manner to limit the statutory rights and obligations of the Employer under Article XIV of the Civil Service Law.

Section 14. Expedited Arbitration Procedure

a. The parties agree that there is a need for an expedited arbitration process which would allow for the prompt adjudication of grievances as set forth below.

b. The parties voluntarily agree to submit matters to final and binding arbitration pursuant to the New York City Collective Bargaining Law and under the jurisdiction of the Office of Collective Bargaining. An arbitrator or panel of arbitrators, as agreed to by the parties, will act as the arbitrator of any issue submitted under the expedited procedure herein.

c. The selection of those matters which will be submitted shall include, but not be limited to, out-of-title cases concerning all titles, disciplinary cases wherein the proposed penalty is a monetary fine of one week or less or written reprimand, and other cases pursuant to mutual agreement by the parties. When the parties agree to submit a case to expedited arbitration, the following procedure shall apply:

i. SELECTION AND SCHEDULING OF CASES:

(1) The Deputy Chairperson for Disputes of the Office of Collective Bargaining shall propose which cases shall be subject to the procedures set forth in this Section 14 and notify the parties of proposed hearing dates for such cases.

(2) The parties shall have ten business days from the receipt of the Deputy Chairperson's proposed list of cases and hearing schedule(s) to raise any objections thereto.

ii. CONDUCT OF HEARINGS

(1) The presentation of the case, to the extent possible, shall be made in the narrative form. To the degree that witnesses are necessary, examination will be limited to questions of material fact and cross examination will be similarly limited. Submission of relevant documents, etc., will not be unreasonably limited and may be submitted as a "packet" exhibit.

(2) In the event either party is unable to proceed with hearing a particular case, the case shall be rescheduled. However, only one adjournment shall be permitted. In the event that either party is unable to proceed on a second occasion, a default judgment may be entered against the adjourning party at the Arbitrator's discretion absent good cause shown.

(3) The Arbitrator shall not be precluded from attempting to assist the parties in settling a particular case.

(4) A decision will be issued by the Arbitrator within two weeks. It will not be necessary in the Award to recount any of the facts presented. However, a brief explanation of the Arbitrator's rationale may be included. Bench decisions may also be issued by the Arbitrator.

(5) Decisions in this expedited procedure shall not be considered as precedent for any other case nor entered into evidence in any other forum or dispute except to enforce the Arbitrator's award.

(6) The parties shall, whenever possible, exchange any documents intended to be offered in evidence at least one week in advance of the first hearing date and shall endeavor to stipulate to the issue in advance of the hearing date.

Longevity Increment Eligibility Rules

The following rules shall govern the eligibility of employees in Unit A and Unit B, respectively, for the longevity increments provided for in Article III, Section 11, of the 199599 Local 300, SEIU Agreement:

1. Only service in pay status shall be used calculate the 15 years of service, except that for other than full time per annum employees only a continuous year of service in pay status shall be used to calculate the 15 years of service. A continuous year of service shall be a full year of service without a break of more than 31 days. Where the regular and customary work year for a title is less than a twelve month year such as a school year, such regular and customary year shall be credited as a continuous year of service counting towards the 15 years of service. If the normal work year for an employee is less than the regular and customary work year for the employee's title, it shall be counted as a continuous year of service if the employee has customarily worked that length of work year and the applicable agency verifies that information.

2. Service in pay status prior to any breaks in service of more than one year shall not be used to calculate the 15 years of service. Where an employee has less than seven years of continuous service in pay

status, breaks in service of less than one year shall be aggregated. Where breaks in service aggregate to more than one year they shall be treated as a break in service of more than one year and the service prior to such breaks and the aggregated breaks shall not be used to calculate the 15 years of service. No break used to disqualify service shall be used more than once.

3. The following time in which an employee is not in pay status shall not constitute a break in service as specified in the paragraph 2 above:

   a. time on a leave approved by the proper authority which is consistent with the rules and regulations of the Personnel Director or the appropriate personnel authority of a covered organization;

   b. time prior to a reinstatement;

   c. time on a preferred list pursuant to Civil Service Law Sections 80 and 81 or any similar contractual provision;

   d. time not in pay status of 31 days or less.

   Notwithstanding the above, such time as specified in subsection a, b and c above shall not be used to calculate the 15 years of service.

4. Once an employee has completed the 15 years of "City" service in pay status and is eligible to receive the $500-Unit A/$300-Unit B longevity increment, the $500-Unit A/$300-Unit B shall go into the employee's base rate for all purposes except as provided in paragraph 5 below.

5. The $500-Unit A/$300-Unit B longevity increment shall not become pensionable until 15 months after the Employee becomes eligible to receive such payment.

This is to confirm certain mutual understandings and agreements regarding the above captioned Agreement.

Re: 2002 – 2005 Assistant Buyers, et al. Agreement

Dear Mr. Golden:

This letter is to confirm certain mutual understandings and agreements regarding the above-captioned agreement.

The parties agree to establish a "Joint Labor Management Committee on Productivity Initiatives" ("*Committee*").

Composition of the Committee

The Committee shall comprise representatives designated by: the Deputy Mayor for Operations, the Law Department, the Office of Labor Relations, the Office of Management and Budget, the Office of Operations, and SEIU Local 300.

Goals and Objectives

The Committee shall work to identify efficiencies in the administration and delivery of governmental services which shall in turn be utilized to provide additional compensation to employees. This agreement expresses the joint labor and management commitment to associate improved City service and performance with appropriate compensation for the workforce.

The goal of the Committee's work shall be to identify, review, recommend and develop initiatives that generate workplace savings, maximize the potential of the City workforce and ensure the provision of essential services while at the same time improving compensation for the City workforce. To that end, the parties will seek to identify quantifiable savings while at the same time maintaining or improving City services.

The Committee shall make all reasonable efforts to issue a report or reports on or about October 1, 2004 which propose initiatives representing meaningful, quantifiable, recurring savings to the City and which generate funding to be utilized to compensate employees. Upon completion and acceptance of all committee members of the report, an additional one percent (1%) increase shall be paid to employees covered by this agreement.

The parties agree to meet and negotiate the application of any additional savings above 1% generated by the programs developed by the Committee.

Areas for Consideration

The Committee's study may encompass such matters, including, but not limited to, work rule modifications, absence control, contracting in, workers compensation and other efficiencies.

1. Sick leave usage. The Committee will seek to design a program to examine baseline data as to sick leave usage as a benchmark for comparison. The goal will be to reduce employee sick leave usage on an ongoing basis as a productivity enhancement.

2. Contracting-in. The Committee shall identify areas wherein City services are now being outsourced with the goal of providing those services by City employees with a cost savings to the City.

3. Workers Compensation Cost Containment Task Force. The Committee shall create a special task force, requesting such assistance of cost containment experts as necessary, with the goal of developing reforms that emphasize effective treatments and speed the return to work; that explore the manner in which treatment services are provided; that set specific standards of evaluation and treatment; and that serve to root out fraudulent claims.

4. Such other areas as the Committee may mutually agree.

Resolution of Disputes

The initiatives and programs developed pursuant to this Committee must be unanimously agreed upon. In the event there is a dispute as to the amount of savings generated by an initiative or the implementation of a program, or the savings generated by a program are not paid pursuant to this agreement, it shall be submitted to arbitration upon written notice therefor by any of the parties to this Agreement to the party with whom such dispute or controversy exists. The matter submitted for arbitration shall be submitted to an arbitration panel consisting of the three impartial members of the Board of Collective Bargaining pursuant to Title 61 of the Rules of the City of New York. Any award in such arbitration proceeding shall be final and binding and shall be enforceable pursuant to Article 75 of the CPLR.

If the above accords with your understanding, kindly execute the signature line provided below.

Very truly yours,

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

R2X R3 R4 R4A R4-1

(b) In the districts indicated, the height and setback of a #building or other structure# shall be as set forth herein except where modified pursuant to paragraphs (g) and (h) of this Section.

For the purposes of this Section, where #base planes# of different elevations apply to different portions of a #building or other structure#, each such portion of the #building# may be considered to be a separate #building#. Furthermore, for the purposes of this Section, #building segments# may be considered to be separate #buildings# and abutting #semi-detached buildings# may be considered to be one #building#.

The perimeter walls of a #building or other structure# are those portions of the outermost walls enclosing the #floor area# within a #building or other structure# at any level and height is measured from the #base plane#. Perimeter walls are subject to setback regulations at a maximum height above the #base plane# of:

In all districts, as indicated, the required minimum distance between a #residential building# and any other #building# on the same #zoning lot# shall vary according to the height of such #buildings# and the presence of #legally required windows# in facing building walls. Such minimum distance shall be, in feet, as indicated in the following table:

	Maximum Building Height above #Base Plane# or #Curb Level#, as Applicable (in feet)

* Wall condition shall be defined as:
"wall to wall" is a condition where two walls of #buildings# face each other, and neither wall contains a #legally required window#;
"wall to window" is a condition where two walls of #buildings# face each other, and one wall contains a #legally required window# and the other wall does not contain a #legally required window#;

"window to window" is a condition where two walls of #buildings# face each other, and both walls contain a #legally required window#.

In addition, the following rules shall apply:

(a) the minimum distances set forth in this table shall be provided at the closest point between #buildings#;

(b) any portion of a #building# that qualifies as a #building segment# may be treated as a separate #building# for the purposes of determining the minimum distance required between such #building segment# and another #building# or #building segment#;

(c) where #buildings# of different heights face each other, the average of the heights of such #buildings# shall determine the minimum distance required between them;

(d) projections having a maximum height of 25 feet above adjoining grade, a maximum depth of five feet, and an aggregate width not exceeding 25 percent of the building wall from which they project, may penetrate the minimum spacing requirements; and

(e) portions of #buildings# above 125 feet that exceed, in aggregate, a #lot coverage# of 40 percent, shall be spaced at least 80 feet apart.

(f) in R1, R2, R3, R4A and R4-1 Districts within #lower density growth management areas#, the provisions of this paragraph (f) shall apply to any #zoning lot# with two or more #buildings#, where at least one #building# is located wholly beyond 50 feet of a #street line# and the #private road# provisions do not apply. For the purposes of this paragraph, any #residential building# with no #residential building# located between it and the #street line# so that lines drawn perpendicular to the #street line# do not intersect any other #residential building# shall be considered a "front building", and any #residential building# located wholly beyond the #rear wall line#, or prolongation thereof, of a "front building" shall be considered a "rear building". The minimum distances set forth in the table above shall apply, except that a minimum distance of 45 feet shall be provided between any such front and rear #buildings#.

(b) In R1, R2, R3, R4A and R4-1 Districts within #lower density growth management areas#, the provisions of this paragraph (b) shall apply to any #zoning lot# with two or more #buildings#, where at least one #building# is located wholly beyond 50 feet of a #street line# and the #private road# provisions do not apply. For the purposes of this paragraph, any #residential building# with no #residential building# located between it and the #street line# so that lines drawn perpendicular to the #street line# do not intersect any other #residential building# shall be considered a "front building", and any #residential building# located wholly beyond the #rear wall line#, or prolongation thereof, of a "front building" shall be considered a "rear building". An open area with a minimum width of 15 feet shall be provided between any such rear building and the #side lot line# of an adjoining #zoning lot#, and an open area with a minimum width of 30 feet shall be provided between any such rear building and the #rear lot line# of an adjoining #zoning lot#. The permitted obstruction provisions of Sections 23-44 for #side yards# shall apply where such open areas adjoin a #side lot line#, and the permitted obstruction provisions of Section 23-44 for #rear yards# shall apply where such open areas adjoin a #rear lot line#.

* * *

26-30
SPECIAL REQUIREMENTS FOR DEVELOPMENTS WITH PRIVATE ROADS IN LOWER DENSITY GROWTH MANAGEMENT AREAS

For all #developments# accessed by #private roads# in #lower density growth management areas#, the provisions of Section 26-20 through 26-27, inclusive, shall apply. In addition, such regulations are supplemented or superceded in accordance with the provisions of this Section.

26-31
Yards

For the purposes of this Section, a #private road# shall be considered to be a #street#, and a line seven feet from and parallel to the required curb of the #private road# shall be considered to be a #street line#, and the applicable #yard# regulations of Section 23-40, inclusive, and 23-50, inclusive, shall be applied accordingly. However, no #yard# shall be required along that side of a #private road#, or portion thereof, that does not have a building wall facing it. Furthermore, where a #building# on a #through lot# fronts upon a #street# and a #private road#, one #front yard# shall have a depth of at least 30 feet. Where such 30 foot #front yard# adjoins a #street#, such #yard# shall include a landscaped strip at least eight feet wide to screen the #yard# from such #street#, densely planted with evergreen shrubs at least four feet high at time of planting, and of a type expected to form a year round dense screen at least six feet high within three years.

26-32
Minimum Distance Between Buildings, Walls and Lot Lines

(a) Except in the Borough of Staten Island, the minimum distances set forth in Section 23-711 (Standard minimum distance between buildings) shall not apply between two #buildings# where each such #building# faces a #front yard# required pursuant to Section 26-31. In lieu thereof, such #buildings# shall be at least 13 feet apart.

(b) For the purposes of applying the provisions of Section 23-88 (Minimum Distance Between Lot Lines and Building Walls in Lower Density Growth Management Areas), the required curb of the #private road# shall be considered to be a #street line#.

26-33
Entrances, Parking Location and Curb Cuts

The entrances and exits of all #private roads# shall be located not less than 50 feet from the intersection of any two #street lines#.

No required #accessory# off-street parking spaces shall be located between the required curbs of a #private road#, except where such spaces:

(a) are perpendicular to the road bed, and

(b) are located on only one side of a #private road# or portion of a #private road#, so that no such spaces are located on opposite sides of the road bed, or within 20 feet of being opposite to one another, and

(c) are within rows of not more than 10 adjacent spaces. Such rows shall be separated one from another by a planting strip at least 18 feet deep and 8 feet wide, within which a tree of at least three inch caliper is planted.

All #accessory# off-street parking spaces shall comply with the parking location and curb cut regulations set forth in Section 25-632. For the purposes of applying such regulations, the #private road# shall be considered to be a #street#. In addition, the provisions of Section 25-64 (Restrictions on Use of Open Space) and Section 25-66 (Screening) shall apply.

26-34
Lighting, Signage and Crosswalks

All #private roads# shall be #developed# with street lighting, street signage and crosswalks to minimum Department of Transportation standards for public #streets#.

26-35
Screening

All #private roads# shall be screened from adjoining #zoning lots# by a landscaped strip at least eight feet wide, and all open off-street parking areas with five or more spaces shall be screened from adjoining #zoning lots# by a landscaped strip at least four feet wide. Such landscaped strips shall be densely planted with evergreen shrubs at least four feet high at time of planting, and of a type that may be expected to form a year-round dense screen at least six feet high within three years. Such screening shall be maintained in good condition at all times.

26-36
Modification and Waiver Provisions

Except in the Borough of Staten Island, the City Planning Commission may, by authorization, allow modifications to, or waivers of, the requirements of Sections 26-30 through 26-35, inclusive, provided that the depth of a #rear yard# shall not be less than 15 feet and the depth of a #front yard# shall not be less than five feet. In order to authorize such modifications or waivers, the Commission shall find that:

(a) Such modifications result in a site plan that provides sufficient open areas for the residents of the #development#;

(b) Any reduction in open areas shall be permitted only where the Commission finds that a good site plan has been provided that includes a superior landscaping plan, and

(c) Such modifications will not impair the essential character of the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

26-40
STREET TREE PLANTING REQUIREMENTS FOR LOWER DENSITY GROWTH MANAGEMENT AREAS

In R1, R2, R3, R4A and R4-1 Districts within #lower density growth management areas#, all #developments# shall provide and maintain along the entire #street# length of the #zoning lot#, one street tree for every 25 feet of #street# frontage of the #zoning lot#. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals, except where the Commissioner of Buildings determines that such tree planting would be unfeasible. All such trees shall be planted, maintained and replaced when necessary with the approval of and in accordance with the standards of the Department of Parks.

Project Location

The Gateway Center at Bronx Terminal Market project is located in the West Haven neighborhood of the Bronx on an approximately 26-acre parcel that is bordered by Metro North Rail Road tracks to the north, River Avenue to the east, 149th Street to the south, and the Harlem River to the west.

Brief Project Description

The Gateway Center at Bronx Terminal Market is a proposed redevelopment of a portion of the current Bronx Terminal Market site, along with the Bronx House of Detention. On the eastern side of Exterior Street, the project would include a series of five 1-story retail buildings with an adjacent surface parking lot; two 3-story retail buildings, one with parking on the ground floor; a 6-level parking garage with retail space on Exterior Street and River Avenue; and a hotel with a banquet facility and parking. On the western side of Exterior Street, the project would include a public park and waterfront esplanade totaling approximately 2 acres, and a 2-story retail building with parking on the ground floor. In total, the project will comprise approximately 2,383,074 gross square feet of new development on the site. The project is expected to be complete and operational in 2009, except for the hotel, which would not be completed until 2014. The project would involve the closing of the Bronx Terminal Market and the Bronx House of Detention.
The project would require a number of discretionary actions, including the disposition of land (a long-term lease); rezoning; modification of the City Map; special permits to modify the site's underlying bulk regulations and parking requirements, to permit a public parking garage in excess of 150 spaces, and to provide relief for signs not otherwise permitted under the Zoning Resolution; and a waterfront authorization. In addition, the project sponsor will seek financing from the New York City Industrial Development Agency (NYCIDA). The project is expected to qualify for inclusion in the Brownfield Cleanup Program of the New York State Department of Environmental Conservation (NYSDEC). The project may require a NYSDEC State Pollution Discharge Elimination System (SPDES) permit for stormwater discharges associated with construction activities. The project may also require a tidal wetlands permit and/or Protection of Waters permit(s) from NYSDEC, as well as a water quality certification, and possibly a permit from the U.S. Army Corps of Engineers (USACOE) for shoreline-related work. The Proposed Project is within the boundaries of the coastal zone and will require a NYSDOS determination of consistency with New York City's Local Waterfront Revitalization Program. The project may also involve a land transfer from the New York State Department of Transportation (NYSDOT) to New York City, and a revocable consent for utility lines underneath Exterior Street.

A public scoping meeting will be held on September 9, 2004 at 6:00 pm at the Bronx Borough President's Office, 198 East 161st Street, 2nd Floor, Bronx, New York. The period for submitting written comments will remain open until September 20, 2004.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Project Location

The Gateway Center at Bronx Terminal Market project is located in the West Haven neighborhood of the Bronx on an approximately 26-acre parcel that is bordered by Metro North Rail Road tracks to the north, River Avenue to the east, 149th Street to the south, and the Harlem River to the west.

Brief Project Description

The Gateway Center at Bronx Terminal Market is a proposed redevelopment of a portion of the current Bronx Terminal Market site, along with the Bronx House of Detention. On the eastern side of Exterior Street, the project would include a series of five 1-story retail buildings with an adjacent surface parking lot; two 3-story retail buildings, one with parking on the ground floor; a 6-level parking garage with retail space on Exterior Street and River Avenue; and a hotel with a banquet facility and parking. On the western side of Exterior Street, the project would include a public park and waterfront esplanade totaling approximately 2 acres, and a 2-story retail building with parking on the ground floor. In total, the project will comprise approximately 2,383,074 gross square feet of new development on the site. The project is expected to be complete and operational in 2009, except for the hotel, which would not be completed until 2014. The project would involve the closing of the Bronx Terminal Market and the Bronx House of Detention.
The project would require a number of discretionary actions, including the disposition of land (a long-term lease); rezoning; modification of the City Map; special permits to modify the site's underlying bulk regulations and parking requirements, to permit a public parking garage in excess of 150 spaces, and to provide relief for signs not otherwise permitted under the Zoning Resolution; and a waterfront authorization. In addition, the project sponsor will seek financing from the New York City Industrial Development Agency (NYCIDA). The project is expected to qualify for inclusion in the Brownfield Cleanup Program of the New York State Department of Environmental Conservation (NYSDEC). The project may require a NYSDEC State Pollution Discharge Elimination System (SPDES) permit for stormwater discharges associated with construction activities. The project may also require a tidal wetlands permit and/or Protection of Waters permit(s) from NYSDEC, as well as a water quality certification, and possibly a permit from the U.S. Army Corps of Engineers (USACOE) for shoreline-related work. The Proposed Project is within the boundaries of the coastal zone and will require a NYSDOS determination of consistency with New York City's Local Waterfront Revitalization Program. The project may also involve a land transfer from the New York State Department of Transportation (NYSDOT) to New York City, and a revocable consent for utility lines underneath Exterior Street.

A public scoping meeting will be held on September 9, 2004 at 6:00 pm at the Bronx Borough President's Office, 198 East 161st Street, 2nd Floor, Bronx, New York. The period for submitting written comments will remain open until September 20, 2004.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

However, if such a system exhausts any of the following:

(1) fumes, dusts, vapors or other noxious or injurious substances,

(2) substances that create a fire hazard,

then the person making the inspection shall be an architect or engineer. It shall not be required that the architect or engineer be in the employ of the owner. (1) The piping from a transfer pump to *equipment at*

levels above the lowest floor or to storage tanks at levels above the lowest floor in buildings, the return piping, and vent piping shall comply with the applicable provisions of subdivisions (a) and (d) of this section and shall be enclosed in a shaft constructed of four inch concrete or masonry having a four inch clearance from all pipe or pipe covering, *except that no such enclosures shall be required within the room containing the pump, tank, or equipment where such room is itself enclosed with construction and materials having at least a two hour fire resistance rating.* Provision shall be made for expansion in piping without the use of expansion joints.

(2) Where it is necessary to make horizontal offsets in the supply piping and pipe shafts such piping shall be enclosed in a sleeve of other piping of at least no. 10 *U.S.* [manufacturer's] standard gage steel, two sizes larger and arranged to drain into the shaft. Horizontal piping offsets shall be further enclosed in construction having a two hour fire resistance rating, *except that no such enclosure or pipe sleeve shall be required within the room containing the pump, tank, or equipment where such room is itself enclosed with construction and materials having at lease a two hour fire resistance rating.*

(3) A drain pipe shall be installed at the base of shafts enclosing the supply and overflow piping. The pipe shall lead to an open sight drain or to an open sump.

(4) Oil lines for *equipment or* tanks [above the level of the lowest floor] shall be [seamless] steel pipe [of a weight not less than ASA] *ASTM A-53 or A-106, grade B seamless,* schedule 40 with welded connections *up to the oil tank or equipment, except that fittings at the tank or equipment, shut off valves and other fuel oil flow and control devices may be screwed or flanged.*

(5) Pipe shafts shall not be penetrated by or contain other piping or ducts.

(6) The piping shall be located and secured from movement so as to prevent undue stress on the piping and to isolate the piping from vibrations from any equipment.

(7) Pipe connections to the main header (supply or return) shall be made from the top of the header, except for systems described in paragraph (11) of this subdivision.

(8) Required air vents and vacuum breakers shall be designed for their required use.

(10) In systems with equipment above the lowest floor where such equipment is designed to operate utilizing fuel stored above the lowest floor, piping diameters shall not exceed four inches. However, where an applicant demonstrates by the inclusion of calculations on the plans that a greater diameter is necessary to ensure the proper flow for the functioning of the system, such greater diameter may be permitted. All oil stored above the lowest floor shall be in tanks complying with subdivision (b) of section 27-829 of this code; piping shall not be used for fuel storage purposes.

(11) In systems with equipment above the lowest floor where such equipment is designed to operate utilizing fuel pumped as needed from the lowest floor and without utilizing fuel oil stored above the lowest floor, piping diameters throughout such systems shall not exceed the design flow (three times the maximum firing rate as calculated by the engineer or architect). However, piping diameters within rooms containing such equipment may exceed the calculated design flow pipe size to provide limited reservoir storage to prime equipment, provided such reservoir storage is counted toward the maximum two hundred seventy-five gallons of oil storage per story as provided for in subdivision b of section 27-829 of this code.

§23. Article one of subchapter 17 of chapter one of title 27 of the administrative code of the city of New York is amended by adding a new section 27-929.1 to read as follows:

(2) Exception. Where an owner of a building or portion thereof subject to such retroactive requirement demonstrates to the satisfaction of the commissioner that the installation of sprinklers in a particular, limited portion of such building is not practicable, either due to structural conditions or because of designation as an interior landmark by the New York city landmarks preservation commission, the commissioner may waive such limited portions from the requirements of this section but may require additional fire safety measures to protect the health, safety and welfare of the public.

(3) Application to buildings with a full system of automatic sprinklers. The provisions of this subdivision shall not apply to buildings in existence on the effective date of this subdivision in which a full system of automatic sprinklers was installed or required to be installed pursuant to any other provision of law. Nothing in this subdivision shall be construed to limit the applicability of any other provision of this code requiring sprinklers in the buildings referred to herein.

(b) Converted buildings. Notwithstanding the foregoing provisions, on and after the effective date of this subdivision, no building one hundred feet or more in height shall be converted to an office building or to a building classified in occupancy group E, whether or not application for such conversion is required to be filed with the department, unless a full system of automatic sprinklers is installed in such building in accordance with this subchapter prior to such conversion.

(2) Impact resistance. Elevator enclosures serving occupancy group E spaces (office spaces) in high rise buildings constructed pursuant to applications filed on or after July 1, 2006, shall comply with rules to be promulgated by the commissioner establishing minimum impact resistance standards. Such rules shall permit compliance with assemblies comprising approved reinforced construction boards affixed onto stud framing. The commissioner shall promulgate such rules on or before January 1, 2006.

§25. The paragraph beginning with the word "Modifications:" of building code reference standard RS 10-7 is amended to read as follows:

Modifications: *(1) Open web steel joists are prohibited in high rise buildings in all occupancy groups except J-2 or J-3.*

§27-4267.4 Evacuation of office buildings and buildings classified in occupancy group E. The commissioner shall promulgate rules establishing standards, procedures and requirements for the orderly evacuation of occupants from any office building or building classified in occupancy group E or part thereof in the interests of public safety, including but not limited to the evacuation of persons necessitated by fire, explosion, biological, chemical or hazardous material incident or release, natural disaster or other emergency, or the threat thereof. Such rules may require the owners of such buildings to develop a written emergency action plan, with provisions for identifying qualified personnel, conducting drills, distributing instructions or informative materials to occupants, and/or such other standards, procedures or requirements that the fire commissioner determines will serve to ensure orderly evacuation. Such rules may also establish requirements for the occupants of such buildings with respect to evacuation and the planning therefore. These requirements shall be in addition to the requirements of other provisions of sections 27-4267 or 27-4267.3 of this code and any other law, rule or regulation enforced by the department.

§28. This local law shall take effect on the one hundred twentieth day after it shall have been enacted into law except that prior to such date the commissioner of buildings and the fire commissioner may promulgate rules or take other administrative actions to facilitate the implementation of such provisions.

A LOCAL LAW

To amend the administrative code of the city of New York, in relation to the provision of equal employment benefits to the employees of city contractors.

Be it enacted by the Council as follows:

Section 1. Title 6 of the Administrative Code of the City of New York is amended by adding a new section 6-126 to read as follows:

6-126. a. This section shall be known and may be cited as the "Equal Benefits Law."

b. For purposes of this section only, the following terms shall have the following meanings:

(1) "Contract" means any written agreement, purchase order or instrument whereby the city is committed to expend or does expend funds in return for an interest in real property, work, labor, services, supplies, equipment, materials, construction, construction related service or any combination of the foregoing.

(2) "Contracting agency" means a city, county, borough, or other office, position, administration, department, division, bureau, board or commission, or a corporation, institution or agency of government, the expenses of which are paid in whole or in part from the city treasury.

(3) "Contractor" means any individual, sole proprietorship, partnership, joint venture, corporation or other form of doing business.

(4) "Covered contract" means a contract between a contracting agency and a contractor which by itself or when aggregated with all contracts awarded to such contractor by any contracting agency during the immediately preceding twelve months has a value of one hundred thousand dollars or more.

(5) "Domestic partners" means persons who are domestic partners as defined in section 3-240(a) of the administrative code, or who have registered as domestic partners with a contractor pursuant to subdivision n of this section.

(6) "Employee" means a person employed by a contractor.

(7) "Employment benefits" means benefits including, but not limited to, health insurance, pension, retirement, disability and life insurance, family, medical, parental, bereavement and other leave policies, tuition reimbursement, legal assistance, adoption assistance, dependent care insurance, moving and other relocation expenses, membership or membership discounts, and travel benefits provided by a contractor to its employees.

(8) "Equal benefits" means employment benefits equal to those provided to employees with spouses and to their spouses.

(9) "Household member coverage" means the provision of equal benefits to an employee and to one designated member of such employee's household provided that such household member is eighteen years of age or older, lives permanently with the employee, is unmarried, is not a dependent of any other person and is not the tenant or landlord of the employee.

(10) "Implementing agency" means the city chief procurement officer or any agency or officer that the mayor designates.

c. (1) No contracting agency shall enter into or renew any covered contract with a contractor that discriminates in the provision of employment benefits between employees with spouses and employees with domestic partners and/or between the domestic partners and spouses of such employees; and unless the contractor certifies that:

(a)(i) it offers equal benefits to employees with domestic partners; or

(ii) if the contractor is a religious or denominational institution or organization, or an organization operated for charitable or educational purposes which is operated, supervised or controlled by or in connection with a religious organization, and the certification required in subsection c(1)(a)(i) of this section would, in the opinion of such contractor, be inconsistent with the religious principles for which such organization was established or maintained, it offers household member coverage to its employees, provided that such employees shall not be required to disclose to the contractor information concerning the nature of their relationship with a designated household member beyond that which such contractor deems necessary to determine eligibility for household member coverage; and

(b) it will not retaliate against an employee in the terms and conditions of employment in the event that such employee requests equal benefits or informs the city that such contractor has failed to provide equal benefits in violation of this section.

(2) Such certification shall be in writing and shall be signed by an authorized officer of the contractor and delivered, along with a description of the contractor's employee benefits plan or plans, to the contracting agency and to the implementing agency prior to entering into a covered contract. The implementing agency shall reject a contractor's certification if it determines that such contractor discriminates in the provision of employment benefits in violation of this section, or if the implementing agency determines that the contractor was created, or is being used, for the purpose of evading the requirements of this section.

d. Every covered contract shall contain a provision detailing the contractor's obligations pursuant to this section, which shall be a material provision of such contract.

e. The requirements of subdivision c shall apply to the employees of a contractor who, during the term of such contract, work within the city of New York, and to those employees of a contractor who work outside of the city of New York and who work directly on fulfilling the terms of a covered contract.

f. In the event that a contractor's actual cost of providing an equal benefit or benefits exceeds that of providing the equivalent spousal benefit or benefits, such contractor shall not be deemed to have discriminated in the provision of employment benefits if such contractor conditions the provision of such equal benefit or benefits upon the employee agreeing to pay the excess costs.

g. Nothing in this section shall be construed to require a contractor to pay income tax liabilities incurred through the provision of equal benefits as required under this section.

h. (1) In the event a contractor is unable to provide a particular equal benefit or benefits as required pursuant to this section despite taking all reasonable measures to do so, such contractor shall not be deemed to have discriminated in the provision of employment benefits for failure to provide such employment benefit or benefits if such contractor provides the cash equivalent of such employment benefit or benefits to the affected employee(s). The contractor shall provide the implementing agency with sufficient proof of such inability to provide such benefit or benefits, which shall include the measures taken to provide such benefit or benefits and the cash equivalent proposed, along with the certification required pursuant to subdivision c of this section. The implementing agency shall, based on submitted evidence, determine whether the contractor's failure to provide such employment benefit or benefits precludes such contractor from entering into a covered contract pursuant to the requirements of this section.

(2) In the event that a contractor is unable to provide a particular equal benefit or benefits as required pursuant to this section because it would require administrative action that would delay the provision of such equal benefit or benefits, then the contractor may request an extension of time to take such administrative action which shall not exceed three months. Applications for such extensions of time shall be submitted to the implementing agency, which shall have the discretion to grant such applications. A contractor may, if necessary, request an additional extension of time to provide the delayed equal benefit or benefits. Applications for such additional extensions of time shall be submitted to the implementing agency, which shall have the discretion to grant such applications provided that the contractor provides the cash equivalent of any delayed equal benefit or benefits to the

affected employee(s) during the additional extension period. The implementing agency shall monitor contracting agencies to which it grants extensions of time to ensure compliance with the requirements of this section within such extension periods.

i. Every contractor shall, to the extent permitted by law, provide the contracting agency and the implementing agency access to its records for the purpose of audits and/or investigations to ascertain compliance with the provisions of this section, and upon request shall provide evidence that the contractor is in compliance with the provisions of this section.

j. If during the term of a covered contract a contractor fails to provide equal benefits as required pursuant to this section, or if a contractor retaliates against an employee in the terms and conditions of employment for requesting equal benefits or for informing the city that such contractor has failed to provide equal benefits, such failure and/or retaliation shall be deemed a material breach of such contract. Upon receiving information that a contractor has failed to provide equal benefits as required pursuant to this section and/or retaliated against an employee in violation of this section, the implementing agency shall review such information, notify the contractor of such information and offer the contractor an opportunity to respond. If it is found that a violation has occurred, the implementing agency shall take such action as may be appropriate and provided by law, rule or contract, including, but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the contractor in default and/or seeking a finding that the contractor is not a responsible contractor pursuant to section 335 of the charter. Nothing in this subdivision shall be construed to limit the remedies a contractor's employee or the domestic partner of such employee may seek in law or equity in the event of such contractor's non-compliance.

k. (1) The requirements of this section may be waived by the implementing agency upon application by a contracting agency under the following circumstances:

(i) for sole source contracts entered into pursuant to section 321 of the charter, where the sole source is unwilling to comply with the requirements of this section; or

(ii) for emergency contracts entered into pursuant to section 315 of the charter and for which no entity which complies with the requirements of this section and which is capable of fulfilling such contract is immediately available; or

(iii) where compliance with the requirements of this section would violate or be inconsistent with the terms or conditions of a grant, subvention or contract with a public agency or the instructions of an authorized representative of any such agency with respect to any such grant, subvention or contract; or

(iv) where there are no prospective bidders for a contract that are willing to comply with the requirements of this section and it is essential for the city to enter into such contract.

(2) All applications for waivers pursuant to this subdivision shall be made in writing. The implementing agency shall, within a reasonable period of time, determine whether to grant such waiver applications. All decisions regarding waivers shall be issued in writing and shall include the reason for the granting or denial of such application. All decisions granting waivers shall become part of the relevant contract file.

(3) Beginning twelve months after the effective date of the local law that added this section and annually thereafter, the implementing agency shall report to the council regarding the twelve month period immediately preceding the report, the number and total dollar value of waivers for which it received applications disaggregated by type of waiver and contracting agency; the number and total dollar value of waivers granted disaggregated by type of waiver and contracting agency; and the number and total dollar value of waivers denied or withdrawn disaggregated by type of waiver and contracting agency.

l. The requirements of this section shall not apply to contracts relating to the investment of assets held in trust by the city or to the investment of city monies.

m. The comptroller shall conduct annual investigations, on a sample basis, to measure contractor compliance with the requirements of this section. Contractors shall make such information available as is necessary to conduct such investigations. Beginning twelve months after the effective date of the local law that added this section and annually thereafter, the comptroller shall report the results of such investigations to the mayor and the council.

n. p. This section shall only apply to contracts entered into or renewed on or after the effective date of the local law that added this section.

q. The procurement policy board may promulgate rules to implement the requirements of this section.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Project Location

The Gateway Center at Bronx Terminal Market project is located in the West Haven neighborhood of the Bronx on an approximately 26-acre parcel that is bordered by Metro North Rail Road tracks to the north, River Avenue to the east, 149th Street to the south, and the Harlem River to the west.

Brief Project Description

The Gateway Center at Bronx Terminal Market is a proposed redevelopment of a portion of the current Bronx Terminal Market site, along with the Bronx House of Detention. On the eastern side of Exterior Street, the project would include a series of five 1-story retail buildings with an adjacent surface parking lot; two 3-story retail buildings, one with parking on the ground floor; a 6-level parking garage with retail space on Exterior Street and River Avenue; and a hotel with a banquet facility and parking. On the western side of Exterior Street, the project would include a public park and waterfront esplanade totaling approximately 2 acres, and a 2-story retail building with parking on the ground floor. In total, the project will comprise approximately 2,383,074 gross square feet of new development on the site. The project is expected to be complete and operational in 2009, except for the hotel, which would not be completed until 2014. The project would involve the closing of the Bronx Terminal Market and the Bronx House of Detention.
The project would require a number of discretionary actions, including the disposition of land (a long-term lease); rezoning; modification of the City Map; special permits to modify the site's underlying bulk regulations and parking requirements, to permit a public parking garage in excess of 150 spaces, and to provide relief for signs not otherwise permitted under the Zoning Resolution; and a waterfront authorization. In addition, the project sponsor will seek financing from the New York City Industrial Development Agency (NYCIDA). The project is expected to qualify for inclusion in the Brownfield Cleanup Program of the New York State Department of Environmental Conservation (NYSDEC). The project may require a NYSDEC State Pollution Discharge Elimination System (SPDES) permit for stormwater discharges associated with construction activities. The project may also require a tidal wetlands permit and/or Protection of Waters permit(s) from NYSDEC, as well as a water quality certification, and possibly a permit from the U.S. Army Corps of Engineers (USACOE) for shoreline-related work. The Proposed Project is within the boundaries of the coastal zone and will require a NYSDOS determination of consistency with New York City's Local Waterfront Revitalization Program. The project may also involve a land transfer from the New York State Department of Transportation (NYSDOT) to New York City, and a revocable consent for utility lines underneath Exterior Street.

A public scoping meeting will be held on September 9, 2004 at 6:00 pm at the Bronx Borough President's Office, 198 East 161st Street, 2nd Floor, Bronx, New York. The period for submitting written comments will remain open until September 20, 2004.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.
