■ NOTICE

RICHMOND COUNTY: IA PART 74
NOTICE OF PETITION
INDEX NUMBER (CY) 4020/04

In the Matter of Application of the CITY OF NEW YORK relative to acquiring title in fee simple absolute to certain real property where not heretofore acquired for **JONES WOODS PARK ADDITION TO THE SKYLINE PLAYGROUND** located in the area and generally bounded by Lafayette Avenue, Butler Terrace, Brighton Avenue and Arnold Street in the Borough of Staten Island, City and State of New York.

PLEASE TAKE NOTICE that the Corporation Counsel of the City of New York intends to make application to the Supreme Court of the State of New York, Richmond County, IA Part 74, for certain relief.

The application will be made at the following time and place: At 360 Adams Street, Courtroom 761, in the Borough of Brooklyn, City and State of New York, on October 15, at 9:30 A.M., or as soon thereafter as counsel can be heard.

The application is for an order:

1. authorizing the City to file an acquisition map in the office of the Clerk of Richmond County or the Office of the City Register;

2. directing that upon the filing of said map, title to the property sought to be acquired shall vest in the City;

3. providing that just compensation therefor be ascertained and determined by the Supreme Court without a jury; and

4. providing that notices of claim must be served and filed within one calendar year from the vesting date.

The City of New York, in this proceeding, intends to acquire title in fee simple absolute to certain real property where not heretofore acquired for the same purpose, for **JONES WOODS ADDITION TO THE SKYLINE PLAYGROUND** in the Borough of Staten Island, City and State of New York.

HUNTS POINT SITE C – RFP – DUE 11-18-04 AT 4:00 P.M. – New York City Economic Development Corporation ("NYCEDC") is seeking proposals for the long-term lease and development of an approximately 10.5-acre vacant parcel located along Food Center Drive in Hunts Point, the Bronx (the "Site"). The Site is located within the Hunts Point Food Distribution Center and is bounded by Food Center Drive to the west, 400 Food Center Drive to the north, the Bronx River to the east and 600 Food Center Drive to the south. Containing wholesale produce and meat markets, as well as a soon-to-be-completed fish market, the Food Distribution Center serves more than 15 million customers in the greater New York City area.

NYCEDC is seeking uses for this Site that are consistent with and complementary to the surrounding market uses, and that would contribute to the overall economy of this area of the Bronx. Proposals must be limited to food-related uses, including warehouse, processing, handling, storage and wholesale distribution of food, flowers or ornamental plants.

A question-and-answer session to discuss the Site will be held on October 13 at 9:30 a.m. and a site visit will be held on October 14; to attend the question-and-answer session and/or the site visit, call (212) 312-3871 on or before October 8, 2004. Interested parties are strongly encouraged to attend both.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.
It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site

control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 08-28-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew.

Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. ■ NOTICE

NOTICE OF ADOPTION OF RULE

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN THE Commissioner of the Department of Transportation by Section 2903 of the New York City Charter and in accordance with Section 1043 of the Charter, that the Department of Transportation hereby adopts the amendment to subdivision (l) of section 4-07 of Chapter 4 of Title 34 of the Official Compilation of the Rules of the City of New York, the Traffic Rules, regarding temporary use of the Grand Central Parkway by certain vehicles. This rule was first published on August 18, 2004 and a public hearing thereon was held on September 20, 2004. This rule shall take effect 30 days from the date hereof.

Subdivision l of section 4-07 of Title 34 of the Rules of the City of New York is amended to read as follows:

(l) [Pilot program for the temporary use] Use of the Grand Central Parkway by certain vehicles.

Notwithstanding any other provision of these rules to the contrary, [for a period not to exceed 12 months beginning on the effective date of this subdivision,] single-unit vehicles with no more than three axles and ten tires may operate in both directions on the roadway of the Grand Central Parkway, between the Triborough Bridge and the western leg of the Brooklyn-Queens Expressway. Buses will continue to be prohibited from operating on the Grand Central Parkway without consent. [The use of the Grand Central Parkway during such period by vehicles described in this subdivision is intended as a pilot program.]

Statement of Basis and Purpose of Proposed Rule

The Commissioner of Transportation is authorized to regulate the movement of vehicular traffic on parkways within New York City pursuant to Section 2903(a) of the New York City Charter.

On October 3, 2003, the Department of Transportation adopted a rule creating a 12-month pilot program to reduce traffic volume exiting from the Triborough Bridge to the local street system in Astoria, Queens by opening approximately three-quarters of a mile of the Grand Central Parkway to trucks. The rule became effective on November 3, 2003.

On July 27, 2004, Governor Pataki signed chapter 223 of the laws of 2004, which specifically authorizes the New York City Department of Transportation to adopt a permanent rule allowing single-unit commercial vehicles with no more than three axles and ten tires on the part of the Grand Central Parkway, between the Triborough Bridge and the western leg of the Brooklyn-Queens Expressway. Consequently, the pilot program is hereby made permanent.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

HUNTS POINT SITE C – RFP – DUE 11-18-04 AT 4:00 P.M. – New York City Economic Development Corporation ("NYCEDC") is seeking proposals for the long-term lease and development of an approximately 10.5-acre vacant parcel located along Food Center Drive in Hunts Point, the Bronx (the "Site"). The Site is located within the Hunts Point Food Distribution Center and is bounded by Food Center Drive to the west, 400 Food Center Drive to the north, the Bronx River to the east and 600 Food Center Drive to the south. Containing wholesale produce and meat markets, as well as a soon-to-be-completed fish market, the Food Distribution Center serves more than 15 million customers in the greater New York City area.

NYCEDC is seeking uses for this Site that are consistent with and complementary to the surrounding market uses, and that would contribute to the overall economy of this area of the Bronx. Proposals must be limited to food-related uses, including warehouse, processing, handling, storage and wholesale distribution of food, flowers or ornamental plants.

A question-and-answer session to discuss the Site will be held on October 13 at 9:30 a.m. and a site visit will be held on October 14; to attend the question-and-answer session and/or the site visit, call (212) 312-3871 on or before October 8, 2004. Interested parties are strongly encouraged to attend both.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

HUNTS POINT SITE C – RFP – DUE 11-18-04 AT 4:00 P.M. – New York City Economic Development Corporation ("NYCEDC") is seeking proposals for the long-term lease and development of an approximately 10.5-acre vacant parcel located along Food Center Drive in Hunts Point, the Bronx (the "Site"). The Site is located within the Hunts Point Food Distribution Center and is bounded by Food Center Drive to the west, 400 Food Center Drive to the north, the Bronx River to the east and 600 Food Center Drive to the south. Containing wholesale produce and meat markets, as well as a

soon-to-be-completed fish market, the Food Distribution Center serves more than 15 million customers in the greater New York City area.

NYCEDC is seeking uses for this Site that are consistent with and complementary to the surrounding market uses, and that would contribute to the overall economy of this area of the Bronx. Proposals must be limited to food-related uses, including warehouse, processing, handling, storage and wholesale distribution of food, flowers or ornamental plants.

A question-and-answer session to discuss the Site will be held on October 13 at 9:30 a.m. and a site visit will be held on October 14; to attend the question-and-answer session and/or the site visit, call (212) 312-3871 on or before October 8, 2004. Interested parties are strongly encouraged to attend both.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

AGENCY RULES

INFORMATION TECHNOLOGY AND TELECOMMUNICATIONS

■ NOTICE

Notice of Adoption of Final Rules

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN THE Commissioner of the New York City Department of Information Technology & Telecommunications (DoITT) by Section 1072 of the New York City Charter and subdivision (b) of Section 23-403 of the Administrative Code of the City of New York, and in accordance with Section 1043 of the Charter, that DoITT hereby promulgates and adopts amendments to Chapter 6 of Title 67 of the Official Compilation of Rules of the City of New York, relating to public pay telephones on, over or under streets or other inalienable property of the City of New York. The proposed amendments were first published in the City Record on January 27th, 2004. A public hearing was held on February 26, 2004. Written comments were accepted until March 5, 2004. Material to be deleted appears in [brackets]. Material underlined is new. These rules shall take effect sixty (60) days from the date hereof.

A Report relative to these amendments is available at: http://www.nyc.gov/html/doitt/html/business

STATEMENT OF BASIS AND PURPOSE

The Commissioner of the Department of Information Technology and Telecommunications is authorized by subdivision b of section 23-403 of the Administrative Code of the City of New York to promulgate rules governing public pay telephones located on, over or under the streets or other inalienable property of the City of New York.

The amendments to Chapter 6 of Title 67 of the Rules of the City of New York are intended to: restrict the display of advertising on public pay telephones in certain areas of Manhattan; increase the fees for the processing of an application for a permit to install, operate and maintain a public pay telephone to cover a larger percentage of the actual costs to the City of processing such application; and establish a fee to process a an application for an Extension to a Notice to Proceed to cover the actual costs to the City of processing such an application. The amounts set for fees in the above amendments reflect a percentage of the actual administrative costs incurred by the Department of Information Technology and Telecommunications in issuing the permits in question.

Comments received by DoITT on the proposed amendments are discussed and responded to in the Report referred to above, which is available on DoITT's website at the web address referred to above.

THE AMENDED RULES

Section 1. Section 6-06 of Title 67 of the Rules of the City of New York is amended by adding a new subdivision (c), to read as follows:

(c) The display of advertising on any enclosure installed pursuant to a notice to proceed issued after the effective date of this rule shall be prohibited in the following Community Districts of Manhattan: 1, 2, 3, 4, 5, 6, 7, and 8.

Section 2. Section 6-32 of Title 67 of the Rules of the City of New York is amended to read as follows:

§6-32 Application and Fee for Permit.

An application for a permit to install, operate and maintain a public pay telephone shall be in a form prescribed by the Commissioner and shall be accompanied by the permit fee of [$59] three hundred ninety five dollars ($395), subject to any applicable reduction pursuant to paragraph (d)(4) of section 6-24 of this chapter. Applications for a permit pending as of March 15, 2000 shall be denied unless the fee required pursuant to this section 6-32 was received by the Department on or before April 30, 2000. Applications received after March 15, 2000 shall be denied if such fee is not included with the application. An application for an Extension to a Notice to Proceed shall be accompanied by a processing fee of thirty five dollars ($35). Applications for an Extension to a Notice to Proceed received after the effective date of this section 6-32 shall be denied unless accompanied by the fee required pursuant to this section 6-32.

Section 3. Paragraph (1) of subdivision (a) of section 6-38.2 of Title 67 of the Rules of the City of New York is amended to read as follows:

(1) The permittee submits a "Request for Move to Curb," in a form to be specified by the Commissioner, accompanied by a fee of [$59] three hundred ninety five dollars ($395);

Section 4. Section 6-48 of Title 67 of the Rules of the City of New York is amended to read as follows:

§ 6-48 **[Fee] Fees Nonrefundable.** The [$59] three hundred ninety five dollar ($395) fee required to accompany any permit application or Request for Move to Curb under this chapter and the thirty-five dollar ($35) fee required to accompany any application for an Extension to a Notice to Proceed shall be nonrefundable.

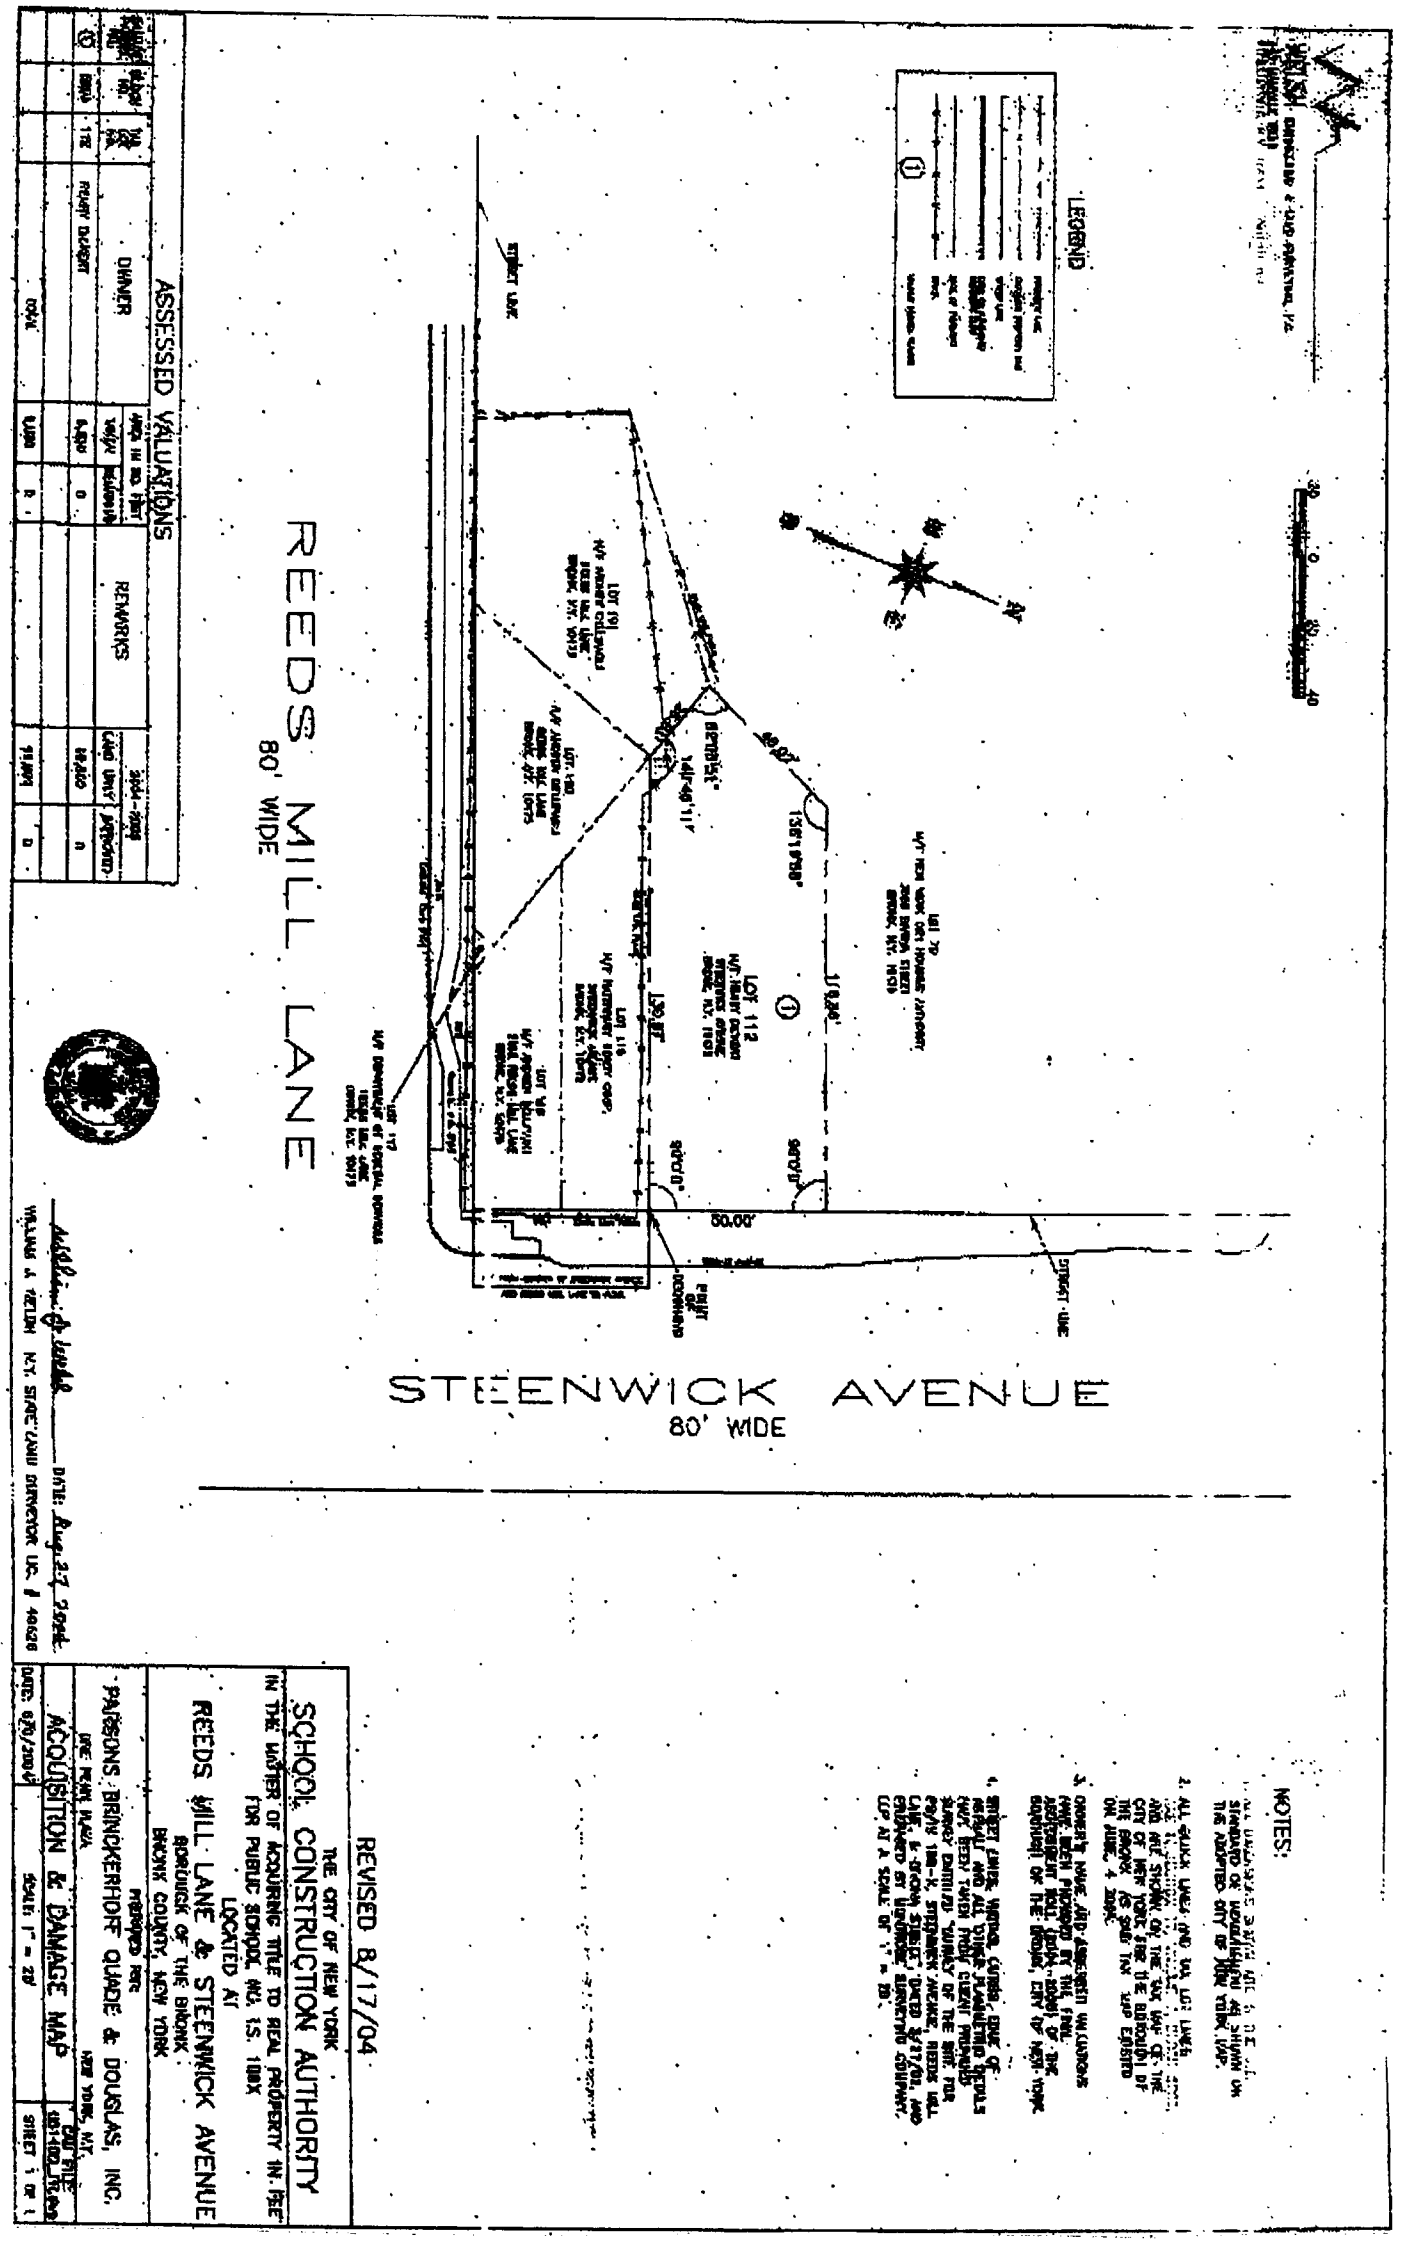
COURT NOTICE MAP FOR SCHOOL CONSTRUCTION AUTHORITY FOR REEDS MILL LANE & STEENWICK AVENUE



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

74-721
Height and setback and yard regulations

(a) In C4-7, C5-2, C5-3, C5-4, C6-1A, C6-4, C6-5, C6-6, C6-7 or M1-6 Districts, the City Planning Commission may permit modification of the height and setback regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block#.

In C5-3, C6-6 and C6-7 Districts, on such #zoning lots#, the Commission also may modify #yard# and court regulations, and regulations governing the minimum required distance between #buildings# and/or the minimum required distance between #legally required windows# and walls or #lot lines#, provided that the Commission finds that such modifications:

(1) provide a better distribution of #bulk# on the #zoning lot#;

(2) result in a better relationship of the #building# to open areas, adjacent #streets# and surrounding #development#; and

(3) provide adequate light and air for #buildings# on the #zoning lot# and neither impair access to light and air to #legally required windows# in adjacent #buildings# nor adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties;

As a condition of this special permit, if any open area extending along a #side lot line# is provided at any level, such open area shall be at least eight feet in width;

(b) In a C6-4 District, the Commission may modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses), ~~f~~For #developments# or #enlargements# on #zoning lots# occupying an entire #block# ~~and located in a C6-4 District~~ with a basic commercial #floor area ratio# of 10.0, ~~the Commission may also modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses),~~ provided the following ~~findings are made~~ conditions are met:

(1) ~~that~~ the non-#residential uses# are located in a portion of a #mixed building# ~~which~~ which has separate access to the #street# with no openings of any kind to the #residential# portion of the #building# at any #story#; and

(2) ~~that~~ the non-#residential uses# are not located above the lowest #story# containing #dwelling units# unless the #residential# and non-#residential# portions are separated in accordance with the provisions of Section 23-82 (Building Walls Regulated by Minimum Spacing Requirements).

(c) In C5-3, C6-6 and C6-7 Districts, the Commission may modify height and setback and #yard# regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, ~~provided the #zoning lot#~~ that occupies an entire #block# front on a #wide street#, subject to the following conditions:~~-~~

~~As a condition for the special permit, the Commission shall make the following findings:~~

~~(1) that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties; and~~

(~~1~~2) ~~that~~ where #buildings# or portions thereof penetrate the established #sky exposure plane#, the aggregate area occupied by such #buildings# or portions thereof at such elevation shall not exceed:

(i) 55 percent of the area of such #zoning lot#; or

(ii) an equivalent of 55 percent of the aggregate area of such #zoning lot# and any adjoining #zoning lots# with a common #lot line# for at least 90 feet with negative easements limiting height of existing and future #developments# on the adjoining #zoning lots# by recorded deed or other written instruments; ~~and~~

(~~2~~3) ~~that~~ the #development# or #enlargement# includes on-site amenities, such as #arcades#, #through block arcades# or #covered pedestrian spaces# where the size and dimensions of such spaces are substantially greater than the required minimum standards, and include~~s~~ sky lights or other provisions for additional access of direct natural light so as to provide for an increased penetration of light and air therein at the #street# level of the #development#, or a transit station improvement that results in a direct major connection to a subway station.

(3) In lieu of ~~this finding,~~ condition (c)(~~2~~3), the ~~Commission finds that the~~ #development# or #enlargement# may provide~~s~~, in the same or an adjoining #block# of such #development# or #enlargement#, compensatory "off-site public open space." For the purposes of this ~~Section~~ paragraph, (c3), the term "adjoining block" shall mean a #block# that is contiguous to the development #block# but for its separation by a #street# or #street# intersection. The area of such off-site public open space shall be at least 4,000 square feet, or 15 percent of the #lot area# of a #zoning lot# containing the #development#, whichever is more, and a width of at least 40 feet at any point.

Such public open areas shall have a southern exposure, and adjoin a public sidewalk and be #developed# pursuant to the provisions of Section 37-04 (Requirements for Urban Plazas). A plan for the development and maintenance of such off-site public space shall be approved by the Commission. The off-site public area shall be kept open to the general public in accordance with a time schedule specified by the Commission. In no event shall such off-site public open space be eligible for #floor area# or bonus computation in connection with this or any other #development# or #enlargement#.

For such #developments#, the Commission may also modify the applicable regulations of Sections 32-51 (Limitations on Business Entrances, Show Windows or Signs) and 36-683 (Restrictions on location of berths near Residence Districts) where adjoining frontage within a distance of 75 feet on the same side of the #street# is occupied by a #community facility# or ground floor #commercial use#, provided that such modification is part of an overall design for #show windows#, signage and entrances or off-street loading berths developed in conjunction with a public amenity such as an #urban plaza#, #through block arcade# or #covered pedestrian space#, and will not alter the essential character of the immediate neighborhood.

In the case of existing #residential buildings# to remain temporarily on such #zoning lot#, the provisions of Sections 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) and 23-80 (COURT REGULATIONS AND MINIMUM DISTANCE BETWEEN WINDOWS AND WALLS OR LOT LINES) may be modified provided that each and every one of the following conditions are met:

(i) that such existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;

(ii) that the portions of the #zoning lot# where such existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan;

(iii) that no temporary or final certificate of occupancy shall be issued for that portion of #floor area# in the new #development# equal to twice the #floor area# in the temporary existing #buildings# until such #buildings# are vacated, demolished and their sites are redeveloped in accordance with the approved project plan, except that where the ~~City Planning~~ Commission shall have determined that the applicant for a special permit has made an offer to purchase the leasehold interests from the lessees at a fair market value of the remainder of the lease term, the Commission may decrease the amount of #floor area# for which no certificate of occupancy may be issued; and

(iv) that the #development# conform with all the applicable laws relating to construction, operation and maintenance.

The owner of the #zoning lot# shall have prominently displayed thereon a sign stating the date by which the #buildings# are to be demolished.

(~~d~~4) As a further condition for the issuance of a permit under this ~~Section~~, paragraph, (c), the owner of the #zoning lot# upon which new #developments# are to take place, must post a bond or other security payable to the City of New York and approved by

the Corporation Counsel as to form, sufficient in amount as determined by the ~~City Planning~~ Commission to cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time set forth in the approved project plan, and insure that all #floor area# which is to be vacant in the new #development# shall remain unfinished and vacant.

The bonds or other securities shall be payable to the City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this paragraph, (~~d~~c) ~~of this Section~~, that the #development#:

(1) shall result in improved circulation; and

(2) would eliminate the undesirable pre-emption of ground level space by private #buildings or other structures#.

In making ~~this~~ these findings, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this ~~Section~~ paragraph, (c), shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.

In addition to the conditions in paragraphs (c)(1), (c)(2), (c)(3) and (c)(4) of this Section, the Commission shall find that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties;

(~~e~~d) Notwithstanding any other provisions of the Zoning Resolution, where a #development# shares an aggregate #lot line# with a landmark building site for a distance of at least 90 feet, or contains a historically significant #street# that has been demapped and an archeologically significant site, both of which have been identified by the Landmark Preservation Commission, the Commission may permit modification of the height and setback and #yard# regulations regardless of the lot size, provided that the following findings are made:

(1) there is a harmonious architectural relationship between the landmark and the new structure, and such relationship is approved by the Landmarks Preservation Commission or, in the case of a #development# which contains a historically significant #street# that has been demapped and an archeologically significant site, there is a visual recognition of the location of the demapped #street# and of the archeologically significant site created by a design treatment that has been approved by both the Landmarks Preservation Commission and the City Planning Commission and, if such #development# is located within 200 feet of a historic district, there is a harmonious relationship between the proposed #development# and the historic district; and

(2) pedestrian amenities are contained in the new structure including, where appropriate, retail stores and substantial pedestrian space at the principal levels of circulation, such as wider sidewalks, #arcades#, #covered pedestrian space#, subsurface concourses and convenient subway connections.

BRONX COUNTY IA PART 6

NOTICE OF PETITION INDEX NUMBER 2510/04

In the Matter of the Application of the

NEW YORK CITY SCHOOL CONSTRUCTION AUTHORITY,

To Acquire By Exercise of its Powers of Eminent Domain Title in Fee Simple Absolute to Certain Real Property Known as Tax Block 5263, Lot 112, Located in the Borough of Bronx, City of New York, in Connection With the Construction of P.S./M.S. 189X.

PLEASE TAKE NOTICE that, upon the annexed petition of the New York City School Construction Authority (the "Authority"), duly verified on the 29th day of September, 2004, by William H. Goldstein, President and Chief Executive Officer of the Authority, Petitioner shall move this Court on the 25th day of October at 9:30 a.m., or as soon thereafter as counsel may be heard, at I.A.Part 6, of this Court, to be held at the Courthouse thereof, located at 851 Grand Concourse, Room 405A, Bronx, New York, for an order:

a) granting the Petition in all respects;

b) authorizing the Authority to file the Acquisition Map in the Office of the Clerk or the Office of the City Register of Bronx County;

c) directing that, upon the filing of the Order of this Court and the Acquisition Map, title and possession to the property shown on said Map, shall vest in the Authority, said property consisting of all that certain plot, piece or parcel of land, comprising Tax Block 5263, Lot 112, with any buildings and improvements thereon, erected, situated, lying and being in the Borough and County of Bronx State of New York, bounded and described as follows:

BEGINNING at a point on the westerly line of Steenwick Avenue distant 50 feet northwardly along the same from the point formed by the intersection of the westerly line of Steenwick Avenue with the northerly line of Reeds Mill Lane, said point of beginning being at the point formed by the intersection of the northerly line of Tax Lot 115 in Tax Block 5263 with the westerly line of Steenwick Avenue;

Thence running westwardly along a line perpendicular to the westerly line of Steenwick Avenue, being along the northerly line of Tax Lot 115 in Tax Block 5263 for 130.97 feet to the northeasterly line of Tax Lot 191 in Tax Block 5263;

Thence northwestwardly along a line which, on its northeasterly side, forms an angle of 140 degrees 46 minutes 11 seconds with the northerly side of the last described course, being along the northeasterly line of Tax Lot 191 in Tax Block 5263 for 26.63 feet to a point where two southeasterly lines of Tax Lot 70 in Tax Block 5263 meet;

Thence northeastwardly along a line which, on its southeasterly side, forms an angle of 82 degrees 53 minutes 51 seconds with the northeasterly side of the last described course, being along one of said southeasterly lines of Tax Lot 70 in Tax Block 5263 for 48.02 feet to a southerly line of Tax Lot 70 in Tax Block 5263;

Thence eastwardly along a line perpendicular to the westerly line of Steenwick Avenue, being along said southerly line of Tax Lot 70 in Tax Block 5263 for 116.86 feet to the westerly line of Steenwick Avenue;

Thence southwardly along the westerly line of Steenwick Avenue for 50 feet to the point or place of beginning.

The above described parcel consists of Tax Lot 112 in Tax Block 5263 as shown on the Tax Map of The City of New York for the Borough of the Bronx as said Tax Map existed on June 4, 2004.

d) providing that this Court shall determine all claims for just compensation arising from the acquisition of said Property and that such claims shall be heard without a jury and without referral to a referee or commissioner;

e) directing that, within thirty (30) days after the entry of the Order of this Court, the Authority shall cause a Notice of Acquisition to be served upon each condemnee or such condemnee's attorney of record;

f) directing that all claimants have a period of one hundred eighty (180) days from the date of service of the Notice of Acquisition within which to file a written claim or notice of appearance; and

g) granting such other and further relief as this Court deems just and proper.

Surveys, maps or plans of the property to be acquired are on file in the office of the Corporation Counsel of the City of New York, 100 Church Street, New York, New York 10007

PLEASE TAKE FURTHER NOTICE THAT, pursuant to EDPL § 402(B)(4), any party seeking to oppose the acquisition must interpose a verified answer, which must contain specific denial of each material allegation of the petition controverted by the opponent, or any statement of new matter deemed by the opponent to be a defense to the proceeding. Pursuant to CPLR 403, said answer must be served upon the office of the Corporation Counsel at least seven (7) days before the date that the petition is noticed to be heard.

CORRECTION: NEW YORK CITY WATER SUPPLY SYSTEM AQUEDUCT TUNNEL AND SHAFT PROJECTS CONSTRUCTION SERVICES AND DESIGN ASSISTANCE - RE-SOLICITATION –

CORRECTION: This is a re-solicitation; the original solicitation was issued in December, 2003. The New York City Department of Environmental Protection ("DEP") is establishing a Pre-Qualified List ("PQL") of General Contractors to compete for contracts to provide construction services for New York City Water System aqueduct tunnel and shaft reconstruction and repair projects, and design assistance in developing the scope and approach for some aspects of those projects. The City Water aqueduct tunnel system consists of both long (up to 75 miles in length) and deep (more than 300 feet in depth) concrete lined high-pressure rock, shallow cut and cover masonry tunnels (up to 20 feet diameter) and access shafts. The DEP intends to advertise for competitive sealed bids or proposals to provide the construction services listed below. Contractors will be required to demonstrate experience with this type of work and financial capability for the contract duration as described below. Construction Work :Construct access improvements to shaft sites; Inspect flooded and unwatered shafts and tunnels; Reconstruct and operate existing shaft and tunnel unwatering pumping systems; Construct and operate new shaft and tunnel unwatering pumping systems; Perform shaft and tunnels repairs and reconstruction; Disinfect tunnels and place into service; Perform unwater inspection and construction Perform shaft and tunnel repairs on an emergency basis.
Design Phase Assistance: Participate in design workshops for shaft and tunnel unwatering system improvements and tunnel repairs; Prepare construction schedules; Perform constructability reviews. The General Contractor qualifications should include mechanical, civil, structural, site, electrical, diving capabilities to perform shaft and tunnel inspection, construction repair and ventilation capabilities. Submittals shall include the following types of information; additional information may be submitted as an attachment to the qualification package:
Project Experience: A minimum of three completed projects and current projects with similar requirements including references. Successful experience in construction projects shall be demonstrated by the General Contractor. The General Contractor shall possess a good track record of projects undertaken in the fields of tunnels and shafts; their construction, dewatering and reconstruction and/or repair as demonstrated by case records of tunnels worked on in the past five to ten years. Information such as adherence to program, cost control, demonstrated quality and good safety performance of the General Contractor will be considered. Organization and Staffing: An organization chart showing the firms and individuals that may be assigned to work on these types of projects, including subconsultants and subcontractors and full resumes for each person. Qualifying resumes should show a minimum of five years experience in a senior position with construction or reconstruction of tunnels. The information about the General Contractor, individual persons, consultant, and subcontracting firms shall be relevant to the work at hand and shall demonstrate particular capability for executing this work. Particular expertise in heavy underground construction, sinking shafts, driving tunnels and aqueducts, performing heavy deep underwater mechanical construction, constructing cut and cover tunnels and aqueducts, disinfection of tunnels and aqueducts, installing shaft hoisting equipment in deep shafts (greater than 300 feet), installing underground facilities, control of water inflows into tunnels with pressures greater than 250 psi, grouting under high water pressures (greater than 250 psi) in deep tunnels and shafts, installing steel liners in tunnels and shaft, dealing with ground support in difficult rock and soil conditions, tunnel ventilation systems and construction of electrical and mechanical systems for tunnel and aqueduct systems shall be demonstrated. The lead member and all key members for design phase assistance shall be New York registered Professional Engineer(s). The information shall be organized to respond to each of the work areas noted above. Quality Assurance and Quality Control: Quality certification documents and company quality assurance manuals. The General Contractor and Subcontractors shall describe the quality assurance and quality control procedures that are typically used for these types of projects for both construction and design assistance.

Safety: A description of the safety management procedures and safety plan for construction sites, shafts and tunnels used for these types of projects and demonstrate past records of good safety performance.

Financial Capability: Demonstrate the financial capacity to undertake and manage large-scale projects. Qualifying firms applying singly or as the lead firm of a consortium or joint venture shall also meet the following minimum requirements: Have successfully completed work of an aggregate project value in excess of $200 million during the last 3 years, with at least one contract over $50 million.

Alternatively, successfully completed or working on at least one large project with a value more than $150 million during the last 3 years.

A Non-mandatory Pre-submittal conference will be held on Tuesday October 26, 2004 at the offices of Malcolm Pirnie, 75-20 Astoria Blvd., Jackson Heights, New York 11370 at 10:00 AM. Attendance is limited to General Contractors; a maximum of two persons from each General Contractor may attend. By October 19th, each General Contractor shall submit the following information for each person that will be attending the Pre-submittal conference: full name, full address, employer name and address, date of birth, social security number, valid driver's license number, and office and cell phone numbers. The DEP intends to perform background checks, upon which each person will be notified if they may attend the conference. Please fax the information to Mr. Steve Elie-Pierre at (718) 595-6137. In addition, each General Contractor shall sign a confidentiality statement concerning the information that will be presented at the pre-submittal

conference. This statement will be transmitted to the principle of each General Contractor and must be signed and returned prior to the pre-submittal conference in order to gain entry. All submissions will be reviewed by an Evaluation Committee ("EC"). Interviews may be required as part of the Pre-Qualification process. Pre-Qualification will be based upon the EC's recommendations.

Qualifications are to be delivered to Debra Butlien, Department of Environmental Protection, 59-17 Junction Boulevard, 17th Floor Bid Room, Flushing, New York 11368 and are due no later than 4:00 P.M. (EST) on Wednesday, November 10, 2004.

All submitters will be notified if they have been deemed qualified, within 90 days after receipt of a complete Pre-Qualification package.

The City is not responsible for costs incurred in the preparation of any documents relative to this advertisement.

Construction / Construction Services

CORRECTION: NEW YORK CITY WATER SUPPLY SYSTEM AQUEDUCT TUNNEL AND SHAFT PROJECTS CONSTRUCTION SERVICES AND DESIGN ASSISTANCE - RE-SOLICITATION –

CORRECTION: This is a re-solicitation; the original solicitation was issued in December, 2003. The New York City Department of Environmental Protection ("DEP") is establishing a Pre-Qualified List ("PQL") of General Contractors to compete for contracts to provide construction services for New York City Water System aqueduct tunnel and shaft reconstruction and repair projects, and design assistance in developing the scope and approach for some aspects of those projects. The City Water aqueduct tunnel system consists of both long (up to 75 miles in length) and deep (more than 300 feet in depth) concrete lined high-pressure rock, shallow cut and cover masonry tunnels (up to 20 feet diameter) and access shafts. The DEP intends to advertise for competitive sealed bids or proposals to provide the construction services listed below. Contractors will be required to demonstrate experience with this type of work and financial capability for the contract duration as described below. Construction Work :Construct access improvements to shaft sites; Inspect flooded and unwatered shafts and tunnels; Reconstruct and operate existing shaft and tunnel unwatering pumping systems; Construct and operate new shaft and tunnel unwatering pumping systems; Perform shaft and tunnels repairs and reconstruction; Disinfect tunnels and place into service; Perform unwater inspection and construction Perform shaft and tunnel repairs on an emergency basis.
Design Phase Assistance: Participate in design workshops for shaft and tunnel unwatering system improvements and tunnel repairs; Prepare construction schedules; Perform constructability reviews. The General Contractor qualifications should include mechanical, civil, structural, site, electrical, diving capabilities to perform shaft and tunnel inspection, construction repair and ventilation capabilities. Submittals shall include the following types of information; additional information may be submitted as an attachment to the qualification package:
Project Experience: A minimum of three completed projects and current projects with similar requirements including references. Successful experience in construction projects shall be demonstrated by the General Contractor. The General Contractor shall possess a good track record of projects undertaken in the fields of tunnels and shafts; their construction, dewatering and reconstruction and/or repair as demonstrated by case records of tunnels worked on in the past five to ten years. Information such as adherence to program, cost control, demonstrated quality and good safety performance of the General Contractor will be considered.
Organization and Staffing: An organization chart showing the firms and individuals that may be assigned to work on these types of projects, including subconsultants and subcontractors and full resumes for each person. Qualifying resumes should show a minimum of five years experience in a senior position with construction or reconstruction of tunnels. The information about the General Contractor, individual persons, consultant, and subcontracting firms shall be relevant to the work at hand and shall demonstrate particular capability for executing this work. Particular expertise in heavy underground construction, sinking shafts, driving tunnels and aqueducts, performing heavy deep underwater mechanical construction, constructing cut and cover tunnels and aqueducts, disinfection of tunnels and aqueducts, installing shaft hoisting equipment in deep shafts (greater than 300 feet), installing underground facilities, control of water inflows into tunnels with pressures greater than 250 psi, grouting under high water pressures (greater than 250 psi) in deep tunnels and shafts, installing steel liners in tunnels and shaft, dealing with ground support in difficult rock and soil conditions, tunnel ventilation systems and construction of electrical and mechanical systems for tunnel and aqueduct systems shall be demonstrated. The lead member and all key members for design phase assistance shall be New York registered Professional Engineer(s). The information shall be organized to respond to each of the work areas noted above.
Quality Assurance and Quality Control: Quality certification documents and company quality assurance manuals. The General Contractor and Subcontractors shall describe the quality assurance and quality control procedures that are typically used for these types of projects for both construction and design assistance.

Safety: A description of the safety management procedures and safety plan for construction sites, shafts and tunnels used for these types of projects and demonstrate past records of good safety performance.

Financial Capability: Demonstrate the financial capacity to undertake and manage large-scale projects. Qualifying firms applying singly or as the lead firm of a consortium or joint venture shall also meet the following minimum requirements: Have successfully completed work of an aggregate project value in excess of $200 million during the last 3 years, with at least one contract over $50 million.

Alternatively, successfully completed or working on at least one large project with a value more than $150 million during the last 3 years.

A Non-mandatory Pre-submittal conference will be held on Tuesday October 26, 2004 at the offices of Malcolm Pirnie, 75-20 Astoria Blvd., Jackson Heights, New York 11370 at 10:00 AM. Attendance is limited to General Contractors; a maximum of two persons from each General Contractor may attend. By October 19th, each General Contractor shall submit the following information for each person that will be attending the Pre-submittal conference: full name, full address, employer name and address, date of birth, social security number, valid driver's license number, and office and cell phone numbers. The DEP intends to perform background checks, upon which each person will be notified if they may

attend the conference. Please fax the information to Mr. Steve Elie-Pierre at (718) 595-6137. In addition, each General Contractor shall sign a confidentiality statement concerning the information that will be presented at the pre-submittal conference. This statement will be transmitted to the principle of each General Contractor and must be signed and returned prior to the pre-submittal conference in order to gain entry. All submissions will be reviewed by an Evaluation Committee ("EC"). Interviews may be required as part of the Pre-Qualification process. Pre-Qualification will be based upon the EC's recommendations.

Qualifications are to be delivered to Debra Butlien, Department of Environmental Protection, 59-17 Junction Boulevard, 17th Floor Bid Room, Flushing, New York 11368 and are due no later than 4:00 P.M. (EST) on Wednesday, November 10, 2004.

All submitters will be notified if they have been deemed qualified, within 90 days after receipt of a complete Pre-Qualification package.

The City is not responsible for costs incurred in the preparation of any documents relative to this advertisement.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.
Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.
Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.
Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

BOARD OF STANDARDS AND APPEALS

■ **NOTICE**

NOTICE OF PROPOSED CONDITIONAL NEGATIVE DECLARATION

Notice is hereby given that the New York City Board of Standards and Appeals, as lead agency for the City Environmental Quality Review process pursuant to Executive Order No. 91, as amended, and 6 N.Y.C.R.R., Part 617.7(d)(1) and 6 N.Y.C.R.R., Part 617.2(h), has determined that the following proposal will not have a significant environmental impact provided that the potential impacts are mitigated as indicated below. A 30-day public comment period commences with this notice.

Application for a BSA variance pursuant to Z.R. '72-21 to permit the proposed construction of a five-story, thirteen unit residential building (Use Group 2) with seven parking spaces located on a vacant site in an M1-1 zoning district. The project site is located at 90 Havemeyer Street, Block 2368, Lot 26, Brooklyn.

Potential impacts of the proposed action will be mitigated as follows:

1. The applicant shall submit an archaeological documentary study for the above-referenced project site to the Landmarks Preservation Commission (LPC) for its evaluation and approval. The applicant shall not commence any site grading, excavation, or building construction on the project site until the LPC approves of this study and determines that there are no archaeological concerns.

2. The applicant shall provide an alternate means of ventilation in the proposed residential building. Alternate means of ventilation includes but is not limited to the following options:
   a. Central air-conditioning;
   b. Provision for air-conditioning sleeves for use with an air-conditioner or HUD-approved fan. Additionally, an air intake duct for the proposed building's HVAC system shall be located on top of the building.

3. The applicant shall provide a minimum of 35 dBA window/wall attenuation so that, with the windows closed, the interior noise levels for the proposed residential project do not exceed the 45 dBA noise level requirement.

BSA Cal. No.: 343-03-BZ
CEQR No.: 04-BSA-075K
Please refer to the project's BSA Calendar and CEQR numbers in all correspondence. The final date of the public comment period will be November 4, 2004. Written comments may be sent to:
Rory Levy, CEQR Examiner

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

74-721
Height and setback and yard regulations

(a) In C4-7, C5-2, C5-3, C5-4, C6-1A, C6-4, C6-5, C6-6, C6-7 or M1-6 Districts, the City Planning Commission may permit modification of the height and setback regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block#.

In C5-3, C6-6 and C6-7 Districts, on such #zoning lots#, the Commission also may modify #yard# and court regulations, and regulations governing the minimum required distance between #buildings# and/or the minimum required distance between #legally required windows# and walls or #lot lines#, provided that the Commission finds that such modifications:

(1) provide a better distribution of #bulk# on the #zoning lot#;

(2) result in a better relationship of the #building# to open areas, adjacent #streets# and surrounding #development#; and

(3) provide adequate light and air for #buildings# on the #zoning lot# and neither impair access to light and air to #legally required windows# in adjacent #buildings# nor adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties;

As a condition of this special permit, if any open area extending along a #side lot line# is provided at any level, such open area shall be at least eight feet in width;

(b) In a C6-4 District, the Commission may modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses), ~~if~~ or #developments# or #enlargements# on #zoning lots# occupying an entire #block# ~~and located in a C6-4 District~~ with a basic commercial #floor area ratio# of 10.0, ~~the Commission may also modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses),~~ provided the following ~~findings are made~~ conditions are met:

(1) ~~that~~ the non-#residential uses# are located in a portion of a #mixed building# ~~which~~ which has separate access to the #street# with no openings of any kind to the #residential# portion of the #building# at any #story#; and

(2) ~~that~~ the non-#residential uses# are not located above the lowest #story# containing #dwelling units# unless the #residential# and non-#residential# portions are separated in accordance with the provisions of Section 23-82 (Building Walls Regulated by Minimum Spacing Requirements).

(c) In C5-3, C6-6 and C6-7 Districts, the Commission may modify height and setback and #yard# regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, ~~provided the #zoning lot#~~ that occupies an entire #block# front on a #wide street#, subject to the following conditions:~~-~~

~~As a condition for the special permit, the Commission shall make the following findings:~~

~~(1) that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties; and~~

(~~2~~1) ~~that~~ where #buildings# or portions thereof penetrate the established #sky exposure plane#, the aggregate area occupied by such #buildings# or portions thereof at such elevation shall not exceed:

(i) 55 percent of the area of such #zoning lot#; or

(ii) an equivalent of 55 percent of the aggregate area of such #zoning lot# and any adjoining #zoning lots# with a common #lot line# for at least 90 feet with negative easements limiting height of existing and future #developments# on the adjoining #zoning lots# by recorded deed or other written instruments; ~~and~~

(~~3~~2) ~~that~~ the #development# or #enlargement# includes on-site amenities, such as #arcades#, #through block arcades# or #covered pedestrian spaces# where the size and dimensions of such spaces are substantially greater than the required minimum standards, and include~~s~~ sky lights or other provisions for additional access of direct natural light so as to provide for an increased penetration of light and air therein at the #street# level of the #development#, or a transit station improvement that results in a direct major connection to a subway station.

(3) In lieu of ~~this finding,~~ condition (c)(~~3~~2), the ~~Commission finds that the~~ #development# or #enlargement# may provide~~s~~, in the same or an adjoining #block# of such #development# or #enlargement#, compensatory "off-site public open space." For the purposes of this ~~Section~~ paragraph, (c3), the term "adjoining block" shall mean a #block# that is contiguous to the development #block# but for its separation by a #street# or #street# intersection. The area of such off-site public open space shall be at least 4,000 square feet, or 15 percent of the #lot area# of a #zoning lot# containing the #development#, whichever is more, and a width of at least 40 feet at any point.

Such public open areas shall have a southern exposure, and adjoin a public sidewalk and be #developed# pursuant to the provisions of Section 37-04 (Requirements for Urban Plazas). A plan for the development and maintenance of such off-site public space shall be approved by the Commission. The off-site public area shall be kept open to the general public in accordance with a time schedule specified by the Commission. In no event shall such off-site public open space be eligible for #floor area# or bonus computation in connection with this or any other #development# or #enlargement#.

For such #developments#, the Commission may also modify the applicable regulations of Sections 32-51 (Limitations on Business Entrances, Show Windows or Signs) and 36-683 (Restrictions on location of berths near Residence Districts) where adjoining frontage within a distance of 75 feet on the same side of the #street# is occupied by a #community facility# or ground floor #commercial use#, provided that such modification is part of an overall design for #show windows#, signage and entrances or off-street loading berths developed in conjunction with a public amenity such as an #urban plaza#, #through block arcade# or #covered pedestrian space#, and will not alter the essential character of the immediate neighborhood.

In the case of existing #residential buildings# to remain temporarily on such #zoning lot#, the provisions of Sections 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) and 23-80 (COURT REGULATIONS AND MINIMUM DISTANCE BETWEEN WINDOWS AND WALLS OR LOT LINES) may be modified provided that each and every one of the following conditions are met:

(i) that such existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;

(ii) that the portions of the #zoning lot# where such existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan;

(iii) that no temporary or final certificate of occupancy shall be issued for that portion of #floor area# in the new #development# equal to twice the #floor area# in the temporary existing #buildings# until such #buildings# are vacated, demolished and their sites are redeveloped in accordance with the approved project plan, except that where the ~~City Planning~~ Commission shall have determined that the applicant for a special permit has made an offer to purchase the leasehold interests from the lessees at a fair market value of the remainder of the lease term, the Commission may decrease the amount of #floor area# for which no certificate of occupancy may be issued; and

(iv) that the #development# conform with all the applicable laws relating to construction, operation and maintenance.

The owner of the #zoning lot# shall have prominently displayed thereon a sign stating the date by which the #buildings# are to be demolished.

(~~d~~4) As a further condition for the issuance of a permit under this ~~Section~~, paragraph, (c), the owner of the #zoning lot# upon which new #developments# are to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel as to form, sufficient in amount as determined by the ~~City Planning~~ Commission to cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time set forth in the approved project plan, and insure that all #floor area# which is to be vacant in the new #development# shall remain unfinished and vacant.

The bonds or other securities shall be payable to the City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this paragraph, (~~d~~c) ~~of this Section~~, that the #development#:

(1) shall result in improved circulation; and

(2) would eliminate the undesirable pre-emption of ground level space by private #buildings or other structures#.

In making ~~this~~ these findings, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this ~~Section~~ paragraph, (c), shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.
In addition to the conditions in paragraphs (c)(1), (c)(2), (c)(3) and (c)(4) of this Section, the Commission shall find that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public

spaces, #streets# and properties;

(ed) Notwithstanding any other provisions of the Zoning Resolution, where a #development# shares an aggregate #lot line# with a landmark building site for a distance of at least 90 feet, or contains a historically significant #street# that has been demapped and an archeologically significant site, both of which have been identified by the Landmark Preservation Commission, the Commission may permit modification of the height and setback and #yard# regulations regardless of the lot size, provided that the following findings are made:

(1) there is a harmonious architectural relationship between the landmark and the new structure, and such relationship is approved by the Landmarks Preservation Commission or, in the case of a #development# which contains a historically significant #street# that has been demapped and an archeologically significant site, there is a visual recognition of the location of the demapped #street# and of the archeologically significant site created by a design treatment that has been approved by both the Landmarks Preservation Commission and the City Planning Commission and, if such #development# is located within 200 feet of a historic district, there is a harmonious relationship between the proposed #development# and the historic district; and

(2) pedestrian amenities are contained in the new structure including, where appropriate, retail stores and substantial pedestrian space at the principal levels of circulation, such as wider sidewalks, #arcades#, #covered pedestrian space#, subsurface concourses and convenient subway connections.

SMALL BUSINESS SERVICES

■ PUBLIC HEARINGS

DEPARTMENT OF SMALL BUSINESS SERVICES
On behalf of
THE CITY COUNCIL

The City Council, by resolution adopted on September 28, 2004 set October 27, 2004 as the date, 10:00 a.m. as the time, and the City Council Committee Room, 2nd Floor, City Hall, New York, New York 10007, as the place for a public hearing (the "Public Hearing") to hear all persons interested in the proposed legislation which would establish the Fordham Road Business Improvement District (the "District") in the Borough of the Bronx. The District shall be established in accordance with the district plan (the "District Plan") on file at the Office of the City Clerk. The City Council has authorized the Department of Small Business Services to publish, on its behalf, this notice of the Public Hearing containing the information required by Section 25-406(c) of the Administrative Code of the City of New York and summarizing the resolution adopted.

The District Plan was submitted to, and reviewed by, the City Planning Commission and Bronx Community Boards Number 5, 6 and 7. The Community Boards and the City Planning Commission have approved the District Plan.

The District Plan provides that the proposed District shall include properties along Fordham Road on both sides of the street from Jerome Avenue to Third Avenue, and both sides of the Grand Concourse, mid-block between Fordham Road and 192nd Street and mid-block between 189th Street and Fordham Road; Jerome Avenue, properties on the west side between 190th Street and 191st Street, and both sides of Jerome Avenue between 190th Street and Fordham Road; East Kingsbridge Road mid-block on the west side from Fordham Road and 192nd Street, and on the east side from Coles Lane to Fordham Road; Webster Avenue mid-block on the west side between East 188th Street and Fordham Road, and on the east side from Fordham Road to 189th Street. It also includes 189th Street between Webster Avenue and Park Avenue. Services provided in the District shall include, but not be limited to street maintenance, holiday lighting, administration, security, marketing and promotion and economic development and new initiatives of the District, and shall be assessed in proportion to the benefit such property receives from the services. Each property shall be assessed at a rate, determined annually by the Fordham Road District Management Association, Inc., to yield an amount sufficient to meet the District's annual budget. The annual budget for the District's first year of operation is $500,000.

Those properties within the District which are devoted in whole or in part to commercial uses shall constitute Class A properties and shall be assessed in accordance with the following formula:

$$\text{Rate 1} = \frac{\text{40\% BUDGET}}{\text{TOTAL CLASS A LINEAR FF}}$$

$$\text{Rate 2} = \frac{\text{45\% BUDGET}}{\text{TOTAL CLASS A ASSESSED VALUATION}}$$

$$\text{Rate 3} = \frac{\text{15\% BUDGET}}{\text{TOTAL CLASS A COMMERCIAL SQUARE FOOTAGE}}$$

INDIVIDUAL ASSESSMENT = Rate 1 x INDIVIDUAL PROPERTY FF + Rate 2 x INDIVIDUAL PROPERTY AV + Rate 3 x INDIVIDUAL PROPERTY CSF

The rate per individual property linear front foot (FF) shall not exceed $23, the rate per dollar of individual property assessed valuation (AV) shall not exceed $0.0023 and the rate per dollar of commercial square footage shall not exceed $0.052 for the first Contract Year. No individual property shall pay more than $25,000 in the first year of the BID's operation.

Those properties within the District which are devoted in whole to residential uses shall constitute Class B properties and shall be assessed one dollar ($1.00) per annum.

Those properties owned by not-for-profit and public agencies shall constitute Class C properties and shall not be assessed. Government or not-for-profit owned properties devoted in whole or in part to commercial or for- profit uses shall constitute Class A property and the portion devoted to commercial /for-profit uses shall be assessed in the same manner as those properties listed as Class A properties.

The amount, exclusive of debt service, assessed and levied in any given year against benefited real property within the District may not exceed twenty percent (20%) of the total general.

Any owner of real property, deemed benefited and therefore within the District, objecting to the District Plan, must file an objection at the Office of the City Clerk, on forms made available by the City Clerk, within thirty (30) days of the close of the hearing on the proposed District. If owners of at least fifty-one percent (51%) of the assessed value of benefited real property situated within the boundaries of the District proposed for establishment, as shown on the latest completed assessment roll of the City, or at least fifty-one percent (51%) of the owners of benefited real property within the area included in the District proposed for establishment file objections with the City Clerk, the District shall not be established.

SUPREME COURT

■ NOTICE

BRONX COUNTY IA PART 6

NOTICE OF PETITION INDEX NUMBER 2510/04

In the Matter of the Application of the

NEW YORK CITY SCHOOL CONSTRUCTION AUTHORITY,

To Acquire By Exercise of its Powers of Eminent Domain Title in Fee Simple Absolute to Certain Real Property Known as Tax Block 5263, Lot 112, Located in the Borough of Bronx, City of New York, in Connection With the Construction of P.S./M.S. 189X.

PLEASE TAKE NOTICE that, upon the annexed petition of the New York City School Construction Authority (the "Authority"), duly verified on the 29th day of September, 2004, by William H. Goldstein, President and Chief Executive Officer of the Authority, Petitioner shall move this Court on the 25th day of October at 9:30 a.m., or as soon thereafter as counsel may be heard, at I.A.Part 6, of this Court, to be held at the Courthouse thereof, located at 851 Grand Concourse, Room 405A, Bronx, New York, for an order:

a) granting the Petition in all respects;

b) authorizing the Authority to file the Acquisition Map in the Office of the Clerk or the Office of the City Register of Bronx County;

c) directing that, upon the filing of the Order of this Court and the Acquisition Map, title and possession to the property shown on said Map, shall vest in the Authority, said property consisting of all that certain plot, piece or parcel of land, comprising Tax Block 5263, Lot 112, with any buildings and improvements thereon, erected, situated, lying and being in the Borough and County of Bronx State of New York, bounded and described as follows:

BEGINNING at a point on the westerly line of Steenwick Avenue distant 50 feet northwardly along the same from the point formed by the intersection of the westerly line of Steenwick Avenue with the northerly line of Reeds Mill Lane, said point of beginning being at the point formed by the intersection of the northerly line of Tax Lot 115 in Tax Block 5263 with the westerly line of Steenwick Avenue;

Thence running westwardly along a line perpendicular to the westerly line of Steenwick Avenue, being along the northerly line of Tax Lot 115 in Tax Block 5263 for 130.97 feet to the northeasterly line of Tax Lot 191 in Tax Block 5263;

Thence northwestwardly along a line which, on its northeasterly side, forms an angle of 140 degrees 46 minutes 11 seconds with the northerly side of the last described course, being along the northeasterly line of Tax Lot 191 in Tax Block 5263 for 26.63 feet to a point where two southeasterly lines of Tax Lot 70 in Tax Block 5263 meet;

Thence northeastwardly along a line which, on its southeasterly side, forms an angle of 82 degrees 53 minutes 51 seconds with the northeasterly side of the last described course, being along one of said southeasterly lines of Tax Lot 70 in Tax Block 5263 for 48.02 feet to a southerly line of Tax Lot 70 in Tax Block 5263;

Thence eastwardly along a line perpendicular to the westerly line of Steenwick Avenue, being along said southerly line of Tax Lot 70 in Tax Block 5263 for 116.86 feet to the westerly line of Steenwick Avenue;

Thence southwardly along the westerly line of Steenwick Avenue for 50 feet to the point or place of beginning.

The above described parcel consists of Tax Lot 112 in Tax Block 5263 as shown on the Tax Map of The City of New York for the Borough of the Bronx as said Tax Map existed on June 4, 2004.

d) providing that this Court shall determine all claims for just compensation arising from the acquisition of said Property and that such claims shall be heard without a jury and without referral to a referee or commissioner;

e) directing that, within thirty (30) days after the entry of the Order of this Court, the Authority shall cause a Notice of Acquisition to be served upon each condemnee or such condemnee's attorney of record;

f) directing that all claimants have a period of one hundred eighty (180) days from the date of service of the Notice of Acquisition within which to file a written claim or notice of appearance; and

g) granting such other and further relief as this Court deems just and proper.

Surveys, maps or plans of the property to be acquired are on file in the office of the Corporation Counsel of the City of New York, 100 Church Street, New York, New York 10007

PLEASE TAKE FURTHER NOTICE THAT, pursuant to EDPL § 402(B)(4), any party seeking to oppose the acquisition must interpose a verified answer, which must contain specific denial of each material allegation of the petition controverted by the opponent, or any statement of new matter deemed by the opponent to be a defense to the proceeding. Pursuant to CPLR 403, said answer must be served upon the office of the Corporation Counsel at least seven (7) days before the date that the petition is noticed to be heard.

The General Contractor qualifications should include mechanical, civil, structural, site, electrical, diving capabilities to perform shaft and tunnel inspection, construction repair and ventilation capabilities. Submittals shall include the following types of information; additional information may be submitted as an attachment to the qualification package:
Project Experience: A minimum of three completed projects and current projects with similar requirements including references. Successful experience in construction projects shall be demonstrated by the General Contractor. The General Contractor shall possess a good track record of projects undertaken in the fields of tunnels and shafts; their construction, dewatering and reconstruction and/or repair as demonstrated by case records of tunnels worked on in the past five to ten years. Information such as adherence to program, cost control, demonstrated quality and good safety performance of the General Contractor will be considered.
Organization and Staffing: An organization chart showing the firms and individuals that may be assigned to work on these types of projects, including subconsultants and subcontractors and full resumes for each person. Qualifying resumes should show a minimum of five years experience in a senior position with construction or reconstruction of tunnels. The information about the General Contractor, individual persons, consultant, and subcontracting firms shall be relevant to the work at hand and shall demonstrate particular capability for executing this work. Particular expertise in heavy underground construction, sinking shafts, driving tunnels and aqueducts, performing heavy deep underwater mechanical construction, constructing cut and cover tunnels and aqueducts, disinfection of tunnels and aqueducts, installing shaft hoisting equipment in deep shafts (greater than 300 feet), installing underground facilities, control of water inflows into tunnels with pressures greater than 250 psi, grouting under high water pressures (greater than 250 psi) in deep tunnels and shafts, installing steel liners in tunnels and shaft, dealing with ground support in difficult rock and soil conditions, tunnel ventilation systems and construction of electrical and mechanical systems for tunnel and aqueduct systems shall be demonstrated. The lead member and all key members for design phase assistance shall be New York registered Professional Engineer(s). The information shall be organized to respond to each of the work areas noted above.

Quality Assurance and Quality Control: Quality certification documents and company quality assurance manuals. The General Contractor and Subcontractors shall describe the quality assurance and quality control procedures that are typically used for these types of projects for both construction and design assistance.

Safety: A description of the safety management procedures and safety plan for construction sites, shafts and tunnels used for these types of projects and demonstrate past records of good safety performance.

Financial Capability: Demonstrate the financial capacity to undertake and manage large-scale projects. Qualifying firms applying singly or as the lead firm of a consortium or joint venture shall also meet the following minimum requirements: Have successfully completed work of an aggregate project value in excess of $200 million during the last 3 years, with at least one contract over $50 million.

Alternatively, successfully completed or working on at least one large project with a value more than $150 million during the last 3 years.

A Non-mandatory Pre-submittal conference will be held on Tuesday October 26, 2004 at the offices of Malcolm Pirnie, 75-20 Astoria Blvd., Jackson Heights, New York 11370 at 10:00 AM. Attendance is limited to General Contractors; a maximum of two persons from each General Contractor may attend. By October 19th, each General Contractor shall submit the following information for each person that will be attending the Pre-submittal conference: full name, full address, employer name and address, date of birth, social security number, valid driver's license number, and office and cell phone numbers. The DEP intends to perform background checks, upon which each person will be notified if they may attend the conference. Please fax the information to Mr. Steve Elie-Pierre at (718) 595-6137. In addition, each General Contractor shall sign a confidentiality statement concerning the information that will be presented at the pre-submittal conference. This statement will be transmitted to the principle of each General Contractor and must be signed and returned prior to the pre-submittal conference in order to gain entry. All submissions will be reviewed by an Evaluation Committee ("EC"). Interviews may be required as part of the Pre-Qualification process. Pre-Qualification will be based upon the EC's recommendations.

Qualifications are to be delivered to Debra Butlien, Department of Environmental Protection, 59-17 Junction Boulevard, 17th Floor Bid Room, Flushing, New York 11368 and are due no later than 4:00 PM (EST) on Wednesday, November 24, 2004.

All submitters will be notified if they have been deemed qualified, within 90 days after receipt of a complete Pre-Qualification package.

The City is not responsible for costs incurred in the preparation of any documents relative to this advertisement.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

Local Law 73 Implementation Plan

Introduction

This implementation plan presents the steps that the New York City Administration for Children's Services (ACS) will take in order to ensure compliance with Local Law 73 of 2003.

This plan also shows ACS's commitment to provide meaningful access to all individuals seeking benefits and services, including individuals with limited English proficiency. Individuals should not face obstacles to receiving social services for which they may be eligible because they do not speak English. The purpose of this plan is to ensure that persons eligible for social services receive them and to avoid the possibility that a person who attempts to access services will face discrimination based on the language he or she speaks.

It is the policy of the City of New York to promote access to its services to all City residents who are in need of and entitled to them. ACS, therefore, provides child welfare and child care services to the children and families of New York City without regard to immigration status or proficiency in English.

The mission of ACS is to ensure the safety of all the children of New York, which includes those with limited proficiency in English. ACS believes that the safety, permanency and well-being of children is best achieved through a Neighborhood Based Services approach that seeks to provide every child and family with culturally, linguistically and need-driven services within their communities. ACS is committed to providing high-quality child welfare and child care services and enhancing family engagement in these services. Promoting access to services through language assistance is critical for workers to interact effectively with families and improve outcomes for the children and families.

ACS is making progress in its efforts to provide limited English-proficient clients with timely access to our services through various methods, including using a contracted interpretation and translation service, and providing forms and important information documents in various languages.

Mayor Michael R. Bloomberg signed Local Law 73 into law on December 22, 2003 to ensure access of City services to all New Yorkers. Local Law 73 of 2003 or, the "Equal Access to Human Services Act of 2003", seeks to increase access to critical City services for New Yorkers whose primary language is not English. Many elements of Local Law 73 pertain exclusively to the Human Resources Administration (HRA), which is listed as "[t]he Agency" for purposes of this law. ACS, the Department of Homeless Services (DHS) and the Department of Health and Mental Hygiene (DOHMH) are listed as "other covered agencies" in Local Law 73; as such, ACS, DHS, and DOHMH have specific obligations pursuant to Local Law 73 that are different from those enumerated for HRA.

1. Identification of Primary Language

Relevant Portion of Law:

Upon initial contact, whether by telephone or in person, with an individual seeking benefits and/or services offered by an other covered agency, the other covered agency shall determine the primary language of such individual. If it is determined that such individual's primary language is not English, the other covered agency shall inform the individual in his/her primary language of available language assistance services.

"Primary language" means the language in which a limited English-proficient individual chooses to communicate with others.

Implementation Plan:

A. ACS created the *ACS Language Identification Card* in 2004. The *ACS Language Identification Card*, which is laminated for extended use, contains translation in twenty-eight languages in order to facilitate language identification. The languages selected for inclusion on the card represent the most commonly encountered languages by ACS child welfare staff.

B. The *ACS Language Identification Card* was distributed in May 2004 to all staff members at ACS who have direct contact with individuals seeking ACS benefits and/or services, along with the recently published *Administration for Children's Services Immigration and Language Guidelines for Child Welfare Staff* ("Guidelines"). Both tools were created to assist child welfare staff in meeting the unique challenges posed by the diverse needs of New York City's immigrant and limited English proficient communities and to increase access to ACS services for all New York City children and families. The last two pages of the Guidelines contain a reproduction of the *ACS Language Identification Card.*

C. The Guidelines include specific instructions for complying with Local Law 73. These instructions state that upon initial contact with a family, ACS child welfare staff are to determine the primary language of the family members through utilization of the *ACS Language Identification Card*, and further they are to notify the individuals of the available language assistance services and to offer them an interpreter. ACS will issue to all affected program areas a directive reiterating these requirements and specifying the data collection requirements related to Local Law 73 by the end of calendar year 2004.

D. ACS is exploring the possibility of and necessary resources for expanding its current interpretation and translation contract to offer language assistance services to help staff identify a client's language when the *ACS Language Identification Card* is ineffective because a client's primary language falls outside of those represented on the ACS Language Identification Card and/or the client is illiterate.

2. Notice Regarding Free Language Assistance

Relevant Portion of Law:

Upon initial contact, whether by telephone or in person, with an individual seeking benefits and/or services offered by an other covered agency, the other covered agency shall determine the primary language of such individual. If it is determined that such individual's primary language is not English, the other covered agency shall inform the individual in his/her primary language of available language assistance services.

Implementation Plan:

A. When an individual is determined to have a primary language other than English, staff will inform the individual of available language assistance services in the individual's primary language by using the Language Identification Card, directly using the individual's primary language, or using the interpreter service.

B. As needed, ACS will post multilingual signage in those offices and other appropriate service sites where clients are served advising clients of the availability of language assistance.

3. Language Assistance Services

Implementation Plan:

A. Once the primary language of a child or family served by ACS is determined, interpretation and translation services can be arranged through ACS's existing contracts which are available to ACS's Division of Child Protection (DCP), and have been used by other ACS divisions based on identified need. An internal memorandum was issued November 3, 2003 outlining the procedures for obtaining interpretation and translation services in over 140 languages. These services are available twenty-four hours a day, seven days a week for Child Protective Services staff within DCP.

B. ACS is in the process of determining the feasibility of and necessary resources for expanding the current language assistance contract to serve the remainder of the agency. In accordance with an expanded contract, ACS will develop and implement a training program for the remainder of the ACS direct service staff regarding language access services and ACS will update and reissue the internal memorandum for agency-wide distribution on availability of language assistance services.

4. Quality Assurance Measures

Relevant Portion of Law:

No later than the first day of the sixtieth month after the effective date of the local law that added this chapter, every other covered agency shall maintain records of the primary language of every individual who seeks or receives ongoing benefits or services. At a minimum, the other covered agency shall maintain specific records of the following:

1. The number of limited English proficient individuals served, disaggregated by type of language assistance required and primary language;

2. The number of bilingual personnel and the number of interpreter personnel employed by the other covered agency, disaggregated by language translated by such personnel;

3. Whether primary language determinations are recorded properly; and

4. Whether documents are translated accurately and disseminated properly.

Implementation Plan:

ACS's Office of Quality Improvement, in conjunction with other relevant program areas, will devise a plan by end of calendar year 2005 to establish a methodology and process for assuring that primary language determinations are recorded properly and that documents are translated accurately and disseminated properly.

5. Training

Implementation Plan:

A. To ensure that the *ACS Language Identification Card* is used and that interpretation/translation services are offered to children and families, ACS has incorporated Local Law 73 directives into the Common Core training, which is provided through the Satterwhite Academy, ACS's training center for its child welfare staff.

The following steps have been taken to introduce the *Immigration and Language Guidelines for Child Welfare Staff* and facilitate its implementation into casework practice within the following curricula of ACS's trainings:

- Common Core, Supervisory Common Core, and the CPS Specialty:
  1. The Culture modules, or appropriate sections of the curriculum, were enhanced with an introduction and review of the *Immigration and Language Guidelines for Child Welfare Staff* booklet
  2. Tools in the booklet, such as the Language Identification Card, are referenced and discussed
  3. Memorandum – the official *Immigration and Language Guidelines for Child Welfare Staff* memorandum on Special Immigrant Juvenile Status is distributed and discussed
  4. The form, Referral for Foster care Immigration Law Services, is provided as a handout and discussed
  5. The ACS Immigration and Language Issues Reference List is provided separately as a handout, referenced and discussed
  6. The *Immigration and Language Guidelines for Child Welfare Staff* booklet is distributed and displayed on the resource table
  7. Immigration and Language Guidelines are referenced in the Legal part of the curricula, presented by training attorney

- Immigrant Issues curriculum:
  1. *Immigration and Language Guidelines for Child Welfare Staff* is the focal point of the training
  2. Official ACS policy on immigration and language presented and practiced.
  3. *Immigration and Language Guidelines for Child Welfare Staff* booklet is distributed and discussed

- Core phase II, Legal Issues training:
  1. Legal aspects of the *Immigration and Language Guidelines for Child Welfare Staff* are presented, including Special Immigrant Juvenile Status
  2. *Immigration and Language Guidelines for Child Welfare Staff* booklet is distributed

- "Resource Table in Classrooms"
  1. *Immigration and Language Guidelines for Child Welfare Staff* booklet is available in sufficient amount in every classroom during Core phase II trainings

A. As a next step, the Satterwhite Academy will conduct a debriefing of all training and curriculum staff on the *Immigration and Language Guidelines* and related child welfare policies. The Academy will review all remaining curricula and determine where revisions related to LL73 are appropriate.

B. ACS will develop a plan to ensure the training of all staff that have direct contact with individuals seeking ACS benefits and/or services. This training plan will be developed by the end of calendar year 2005.

6. Recordkeeping and Monitoring

Relevant Portion of Law:

No later than the first day of the sixtieth month after the effective date of the local law that added this chapter, every other covered agency shall maintain records of the primary language of every individual who seeks or receives ongoing benefits or services. At a minimum, the other covered agency shall maintain specific records of the following:

1. The number of limited English proficient individuals served, disaggregated by type of language assistance required and primary language;

2. The number of bilingual personnel and the number of interpreter personnel employed by the other covered agency, disaggregated by language translated by such personnel;

3. Whether primary language determinations are recorded properly; and

4. Whether documents are translated accurately and disseminated properly.

Implementation Plan:

A. ACS Management Information Systems (MIS) proposes to implement an automated recording and reporting system to support Local Law 73. When appropriate analyst and programming resources become available, MIS would launch a project to implement a long-term solution for Local Law 73 record-keeping and reporting requirements.

B. The project will follow standard systems

development life cycle, which includes six phases: initiation, analysis, design, construction, implementation, and maintenance.

C. In conjunction with analysis and implementation of the long-term system, ACS will advance a phased approach to comply with Local Law 73 requirements. A description of short-term, interim and long-term plans follows:

1. Short-Term Plan

During Local Law 73 implementation meetings, program area representatives identified at which points of contact with individuals seeking ACS services and/or benefits would require Local Law 73 notification and record-keeping.

The short-term plan for record-keeping, scheduled to start on January 1, 2005, includes the following steps, completed and in-progress:

- DCP staff will be required to complete the language field in Connections, the statewide child welfare information system. This would collect data on a significant portion of the population that ACS serves.

The New York State Office of Children and Family Services ("OCFS") has been notified that ACS requires their assistance in complying with Local Law 73. MIS is doing an impact assessment in conjunction with the OCFS regarding this. Specifically, ACS is asking that the additional languages contained in the *ACS Language Identification Card* be captured in Connections. Current languages covered are: Native American language, Chinese, Creole, English, French, German, Hindi, Hebrew, Italian, Japanese, Korean, Polish, Portuguese, Russian, American Sign Language, Spanish, and Vietnamese.

- MIS and other relevant ACS program areas will identify and develop mechanisms to comply with Local Law 73 record-keeping requirements by the required time frames. Staff will be trained in accordance with these processes.
- MIS will require analysts and programmers for this project.

2. Interim Plan

Reporting of data collected from January 1, 2005 through December 31, 2005 will begin on April 1, 2006. MIS will work with the program areas to devise a method for collecting data that will begin to be collected on January 1, 2005. Updates will appear in the Implementation Update, scheduled to be distributed on or about April 1, 2005.

3. Long Term Plan

Resources permitting, MIS can launch a project for development of the Local Law 73 record-keeping and reporting project. The project will have six phases: Initiation, analysis, design, construction, implementation, and maintenance.

MIS has started analysis by compiling the points of contact for ACS program staff. During the next phase MIS analysts would work with program areas to further define how contact occurs, which current data processing systems are used, and which data processing systems are in development mode.

In the second phase, analysis, the user determines what he or she needs or wants the system to do. At this stage, the MIS analyst will work with program areas as they define the optimal method for capturing Local Law 73 required data at points of contact.

The third phase, design, determines how the user will achieve his or her objectives. The program area team members and MIS will participate in defining workflow, refining the need for data elements, system requirements and reports.

There is an on-going agency-wide project to build an Integrated Case Management System at ACS, in conjunction with the releases of Connections and phasing out of legacy ACS systems. The Local Law 73 requirements will be incorporated in this planning.

During MIS's preliminary investigation of system needs to capture Local Law 73 data elements, MIS has referred to extensive work done previously for the Child Protective Services (CPS) Intake and Assignment Processes. A review of this analysis reveals the systems currently in use as Connections, WMS/NYS, WMS/NYC, ACCIS, ACRS +, and CCRS. ACS MIS will work with OCFS to coordinate requirements with new releases of Connections and phasing out of WMS/NYS, WMS/NYC and CCRS. Request for this has been made to OCFS in Albany. These systems do not collect child care data. The local system for child care, ACCIS, is being analyzed to determine what modifications are required.

Building on analysis that preceded this project, the long-term project will consult with and revise the documents that identify how data are collected and processed at several key points in the Intake and Assignment process. These documents include information about forms used and screens used in the CPS Intake Process.

Once the data collection system is in place, training on the system will ensue for ACS employees who have direct contact with individuals seeking ACS services or benefits.

D. For tracking of bilingual personnel, ACS will record and track bilingual personnel hired and develop a registry of bilingual personnel that can potentially be used as translators at their locations. The Office of Personnel will work with the relevant program areas regarding placement of bilingual personnel in critical areas of contacts. ACS will modify the existing telephone directory to include fields needed to track personnel and develop procedures. A field will be added to record language spoken. ACS will develop a procedure to identify bilingual personnel in order to record this data. ACS anticipates that the recording and sorting of this data will be operational by 2006.

7. Coordination

ACS has created an inter-divisional workgroup to coordinate the implementation of Local Law 73. ACS is also exploring resources to enable the creation of a staff position for immigration and language issues which will include responsibility for ensuring compliance with Local Law 73. This staff member will also coordinate data collection and be responsible for drafting and finalizing implementation updates and the reports that are to be published.

8. Implementation Updates and Annual Reports

Relevant Portion of Law:

Implementation updates and annual reports. No later than 90 days after the end of each calendar year after the publication of the implementation plan and before implementation is complete, the agency and each other covered agency shall publish an implementation update. The implementation update shall describe steps taken over the prior year to implement the requirements of this chapter and shall describe any changes in the agency or other covered agency's plan for implementing the remaining requirements of the local law that added this chapter before the date set forth in subdivision a of this section. The implementation update for every year after 2004 shall include a report on the number of limited English proficient people served, disaggregated by language and by agency office or other covered agency office. Not later than 90 days after the end of each calendar year beginning with 2008, the agency and each other covered agency shall publish an annual report on language assistance services. At a minimum, this annual report of the agency, each agency contractor and each other covered agency shall set forth the information required to be maintained by this chapter.

Implementation Plan:

ACS's Local Law 73 Implementation Workgroup will continue to meet regularly to refine and further the subsequent implementation plans and address future issues that would include implementation updates and publishing of annual reports.

Local Law 73 of 2003 Preliminary Implementation Plan

Introduction

This implementation plan presents the steps that the New York City Department of Homeless Services (DHS) will take in order to ensure compliance with Local Law 73 of 2003.

This plan also shows DHS' commitment to provide meaningful access to all individuals seeking benefits and services, including individuals with limited English proficiency. Individuals should not face obstacles to receiving social services for which they may be eligible because they do not speak English. The purpose of this plan is to ensure that persons eligible for social services receive them and to avoid the possibility that a person who attempts to access services will face discrimination based on the language he or she speaks.

DHS serves a diverse population encompassing people with many different primary languages. Some of these individuals are unable to communicate in English. It is the responsibility of DHS staff to communicate to applicants and clients their rights and responsibilities as well as DHS policies.

Mayor Michael R. Bloomberg signed Local Law 73 into law on December 22, 2003 to ensure access of City services to all New Yorkers. Local Law 73 of 2003 or, the "Equal Access to Human Services Act of 2003", seeks to increase access to critical City services for New Yorkers whose primary language is not English. Many elements of Local Law 73 pertain exclusively to the Human Resources Administration ("HRA"), which is listed as "[t]he Agency" for purposes of this law. ACS, the Department of Homeless Services ("DHS") and the Department of Health and Mental Hygiene ("DOHMH') are listed as "other covered agencies" in Local Law 73; as such, ACS, DHS, and DOHMH have specific obligations pursuant to Local Law 73 that are different from those enumerated for HRA.

DHS' language access policy is not limited to the measures set forth in this plan. Work is currently underway on a broader policy that will formalize DHS' commitment to access for the culturally and linguistically diverse communities of New York City. The upcoming policy will also highlight our commitment to protecting the privacy of our clients and the confidentiality of any data we may collect.

1. Identification of Primary Language

Relevant Portion of Law:

Upon initial contact, whether by telephone or in person, with an individual seeking benefits and/or services offered by another covered agency, the other covered agency shall determine the primary language of such individual. If it is determined that such individual's primary language is not English, the other covered agency shall inform the individual in his/her primary language of available language assistance services.

"Primary language" means the language in which a limited English proficient individual chooses to communicate with others.

Implementation Plan:

A. DHS workers shall screen all applicants for shelter to determine the primary language of the applicant.

B. When an individual is determined to have a primary language other than English, personnel shall inform the individual of available language assistance services in the individual's primary language by using the Language Identification Card, directly using the individual's primary language, or using an interpreter service.

C. If a worker has difficulty determining a client's primary language, the worker should use the Language Identification Card.

D. Once the applicant/client indicates he/she needs an interpreter, the DHS worker should immediately document the applicant's native language on the screening sheet.

2. Notice Regarding Free Language Assistance

Relevant Portion of Law:

Upon initial contact, whether by telephone or in person, with an individual seeking benefits and/or services offered by an other covered agency, the other covered agency shall determine the primary language of such individual. If it is determined that such individual's primary language is not English, the other covered agency shall inform the individual in his/her primary language of available language assistance services.

Implementation Plan:

A. DHS facilities shall post and maintain signage regarding the legal right to free language assistance by December 2007.

B. DHS will develop procedures to identify commonly encountered languages at individual sites by December 2007.

C. Signage will be translated into these commonly encountered languages and placed at all central points of contact, within the following intake centers: the Bronx Emergency Assistance Unit (EAU), the Adult Family Intake Center (AFIC), the Bellevue Adult facility for Men, and the adult women intake centers – Brooklyn Women's Assessment, Franklin Assessment Shelter, and Jamaica Armory Assessment.

D. Signage shall also be placed in all DHS shelter placement facilities. Signage should be posted at facility entrances and admitting and waiting areas.

3. Language Assistance Services

Implementation Requirements:

A. DHS will track language assistance requests to assess language assistance needs for particular facilities.

B. DHS will provide access to a private telephone interpretation service at all DHS facilities. A telephone in each facility will be designated for the use of this interpretation service. Designated telephones should have either speaker capability or be equipped for the use of headsets.

C. Once the applicant/client indicates he/she needs an interpreter, DHS staff will immediately document the applicant's native language in the applicant/client's case record. Where possible DHS will assign the applicant to a bilingual caseworker who is fluent in the applicant/client's language.

D. Where a bilingual worker is not available, DHS staff may request assistance from a designated

DHS Language Liaison.

E. If an appropriate interpreter still cannot be located the Language Liaison shall authorize the use of a private telephone interpretation service.

F. Personnel should never require an individual to use family members or friends as interpreters.

4. Quality Assurance Measures

Relevant Portion of Law:

No later than the first day of the sixtieth month after the effective date of the local law that added this chapter, every other covered agency shall maintain records of the primary language of every individual who seeks or receives ongoing benefits or services. At a minimum, the other covered agency shall maintain specific records of the following:

1. The number of limited English proficient individuals served, disaggregated by type of language assistance required and primary language;

2. The number of bilingual personnel and the number of interpreter personnel employed by the other covered agency, disaggregated by language translated by such personnel;

3. Whether primary language determinations are recorded properly; and

4. Whether documents are translated accurately and disseminated properly.

Plan Requirements:

A. DHS will devise quality assurance methods for testing the accuracy of primary language recording by October 2006.

B. DHS will provide quality assurance for translations through the selection of qualified vendors and the development of reference materials, to improve accuracy and consistency of translated documents by October 2006.

C. DHS will develop protocols to ensure proper dissemination of accurately translated materials to individuals in need of language assistance by December 2007.

5. Training

Plan Requirements:

A. DHS will train all appropriate personnel, including management, supervisors, and personnel who have direct contact with limited English proficient individuals, on protocol for delivery of language services by December 2007.

B. DHS will orient new staff and trainees on the availability of interpreter services by December 2007.

C. DHS will provide or contract to provide, training in how to elicit and record applicants'/clients' primary languages to all appropriate personnel, including management, supervisors and personnel who have direct contact with limited English proficient individuals. This training will be provided by October 2006.

D. Protocols will be developed for providing notification of the availability of interpretation services. The protocols will be disseminated throughout DHS and adapted for the needs of each program. This training will be provided by October 2006.

6. Recordkeeping and Monitoring

Relevant Portion of Law:

No later than the first day of the sixtieth month after the effective date of the local law that added this chapter, every other covered agency shall maintain records of the primary language of every individual who seeks or receives ongoing benefits or services. At a minimum, the other covered agency shall maintain specific records of the following:

1. The number of limited English proficient individuals served, disaggregated by type of language assistance required and primary language;

2. The number of bilingual personnel and the number of interpreter personnel employed by the other covered agency, disaggregated by language translated by such personnel;

3. Whether primary language determinations are recorded properly; and

4. Whether documents are translated accurately and disseminated properly.

Plan Requirements:

A. DHS will maintain records of the primary language, race, and ethnicity of every individual served and the type of language assistance provided to clients.

B. DHS will maintain records of bilingual personnel disaggregated by language translated or interpreted by such personnel, as well as by office location.

C. DHS will perform periodic reviews to ensure that language assistance needs and requests are properly documented.

7. Coordination

A. DHS will designate a Language Assistance Coordinator to ensure compliance with Local Law 73 and this implementation plan.

8. Implementation Updates and Annual Reports

Relevant Portion of Law:

Implementation updates and annual reports. No later than 90 days after the end of each calendar year after the publication of the implementation plan and before implementation is complete, the agency and each other covered agency shall publish an implementation update. The implementation update shall describe steps taken over the prior year to implement the requirements of this chapter and shall describe any changes in the agency or other covered agency's plan for implementing the remaining requirements of the local law that added this chapter before the date set forth in subdivision a of this section. The implementation update for every year after 2004 shall include a report on the number of limited English proficient people served, disaggregated by language and by agency office or other covered agency office. Not later than 90 days after the end of each calendar year beginning with 2008, the agency and each other covered agency shall publish an annual report on language assistance services. At a minimum, this annual report of the agency, each agency contractor and each other covered agency shall set forth the information required to be maintained by this chapter.

Plan Requirements:

A. DHS will collect the above information from the covered programs, and produce an annual report, beginning 60 months from the effective date of the law.

B. Prior to the effective date for producing annual reports (60 months), DHS will produce implementation updates every year. These reports will provide updates about our implementation of the plan, and detail any changes in the plan.

C. The implementation update for 2005 (which will be released in 2006), and all reports thereafter, will include information on the number of limited English proficient people served, disaggregated by language and by agency office.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR.*

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

74-721
Height and setback and yard regulations

(a) In C4-7, C5-2, C5-3, C5-4, C6-1A, C6-4, C6-5, C6-6, C6-7 or M1-6 Districts, the City Planning Commission may permit modification of the height and setback regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block#.

In C5-3, C6-6 and C6-7 Districts, on such #zoning lots#, the Commission also may modify #yard# and court regulations, and regulations governing the minimum required distance between #buildings# and/or the minimum required distance between #legally required windows# and walls or #lot lines#, provided that the Commission finds that such modifications:

(1) provide a better distribution of #bulk# on the #zoning lot#;

(2) result in a better relationship of the #building# to open areas, adjacent #streets# and surrounding #development#; and

(3) provide adequate light and air for #buildings# on the #zoning lot# and neither impair access to light and air to #legally required windows# in adjacent #buildings# nor adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties;

As a condition of this special permit, if any open area extending along a #side lot line# is provided at any level, such open area shall be at least eight feet in width;

(b) In a C6-4 District, the Commission may modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses), ~~f~~F or #developments# or #enlargements# on #zoning lots# occupying an entire #block# ~~and located in a C6-4 District~~ with a basic commercial #floor area ratio# of 10.0, ~~the Commission may also modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses),~~ provided the following ~~findings are made~~ conditions are met:

(1) ~~that~~ the non-#residential uses# are located in a portion of a #mixed building# ~~which~~ which has separate access to the #street# with no openings of any kind to the #residential# portion of the #building# at any #story#; and

(2) ~~that~~ the non-#residential uses# are not located above the lowest #story# containing #dwelling units# unless the #residential# and non-#residential# portions are separated in accordance with the provisions of Section 23-82 (Building Walls Regulated by Minimum Spacing Requirements).

(c) In C5-3, C6-6 and C6-7 Districts, the Commission may modify height and setback and #yard# regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, ~~provided the #zoning lot#~~ that occupies an entire #block# front on a #wide street#, subject to the following conditions:~~.~~

~~As a condition for the special permit, the Commission shall make the following findings:~~

~~(1) that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties; and~~

(~~2~~1) ~~that~~ where #buildings# or portions thereof penetrate the established #sky exposure plane#, the aggregate area occupied by such #buildings# or portions thereof at such elevation shall not exceed:

(i) 55 percent of the area of such #zoning lot#; or

(ii) an equivalent of 55 percent of the aggregate area of such #zoning lot# and any adjoining #zoning lots# with a common #lot line# for at least 90 feet with negative easements limiting height of existing and future #developments# on the adjoining #zoning lots# by recorded deed or other written instruments; ~~and~~

(~~3~~2) ~~that~~ the #development# or #enlargement# includes on-site amenities, such as #arcades#, #through block arcades# or #covered pedestrian spaces# where the size and dimensions of such spaces are substantially greater than the required minimum standards, and include~~s~~ sky lights or other provisions for additional access of direct natural light so as to provide for an increased penetration of light and air therein at the #street# level of the #development#, or a transit station improvement that results in a direct major connection to a subway station.

(3) In lieu of ~~this finding,~~ condition (c)(~~3~~2), the ~~Commission finds that the~~ #development# or #enlargement# may provide~~s~~, in the same or an adjoining #block# of such #development# or #enlargement#, compensatory "off-site public open space." For the purposes of this ~~Section~~ paragraph, (c3), the term "adjoining block" shall mean a #block# that is contiguous to the development #block# but for its separation by a #street# or #street# intersection. The area of such off-site public open space shall be at least 4,000 square feet, or 15 percent of the #lot area# of a #zoning lot# containing the #development#, whichever is more, and a width of at least 40 feet at any point.

Such public open areas shall have a southern exposure, and adjoin a public sidewalk and be #developed# pursuant to the provisions of Section 37-04 (Requirements for Urban Plazas). A plan for the development and maintenance of such off-site public space shall be approved by the Commission. The off-site public area shall be kept open to the general public in accordance with a time schedule specified by the Commission. In no event shall such off-site public open space be eligible for #floor area# or bonus computation in connection with this or any other #development# or #enlargement#.

For such #developments#, the Commission may also modify the applicable regulations of Sections 32-51 (Limitations on Business Entrances, Show Windows or Signs) and 36-683 (Restrictions on location of berths near Residence Districts) where adjoining frontage within a distance of 75 feet on the same side of the #street# is occupied by a #community facility# or ground floor #commercial use#, provided that such modification is part of an overall design for #show windows#, signage and entrances or off-street loading berths developed in conjunction with a public amenity such as an #urban plaza#, #through block arcade# or #covered pedestrian space#, and will not alter the essential character of the immediate neighborhood.

In the case of existing #residential buildings# to remain temporarily on such #zoning lot#, the provisions of Sections 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) and 23-80 (COURT REGULATIONS AND MINIMUM DISTANCE BETWEEN WINDOWS AND WALLS OR LOT LINES) may be modified provided that each and every one of the following conditions are met:

(i) that such existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;

(ii) that the portions of the #zoning lot# where such existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan;

(iii) that no temporary or final certificate of occupancy shall be issued for that portion of #floor area# in the new #development# equal to twice the #floor area# in the temporary existing #buildings# until such #buildings# are vacated, demolished and their sites are redeveloped in accordance with the approved project plan, except that where the ~~City Planning~~ Commission shall have determined that the applicant for a special permit has made an offer to purchase the leasehold interests from the lessees at a fair market value of the remainder of the lease term, the Commission may decrease the amount of #floor area# for which no certificate of occupancy may be issued; and

(iv) that the #development# conform with all the applicable laws relating to construction, operation and maintenance.

The owner of the #zoning lot# shall have prominently displayed thereon a sign stating the date by which the #buildings# are to be demolished.

(~~d~~4) As a further condition for the issuance of a permit under this ~~Section~~, paragraph, (c), the owner of the #zoning lot# upon which new #developments# are to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel as to form, sufficient in amount as determined by the ~~City Planning~~ Commission to cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time set forth in the approved project plan, and insure that all #floor area# which is to be vacant in the new #development# shall remain unfinished and vacant.

The bonds or other securities shall be payable to the City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this paragraph, (~~d~~c) ~~of this Section~~, that the #development#:

(1) shall result in improved circulation; and

(2) would eliminate the undesirable pre-emption of ground level space by private #buildings or other structures#.

In making ~~this~~ these findings, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this ~~Section~~ paragraph, (c), shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.
In addition to the conditions in paragraphs (c)(1), (c)(2), (c)(3) and (c)(4) of this Section, the Commission shall find that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties;

(e~~d~~) Notwithstanding any other provisions of the Zoning Resolution, where a #development# shares an aggregate #lot line# with a landmark building site for a distance of at least 90 feet, or contains a historically significant #street# that has been demapped and an archeologically significant site, both of which have been identified by the Landmark Preservation Commission, the Commission may permit modification of the height and setback and #yard# regulations regardless of the lot size, provided that the following findings are made:

(1) there is a harmonious architectural relationship between the landmark and the new structure, and such relationship is approved by the Landmarks Preservation Commission or, in the case of a #development# which contains a historically significant #street# that has been demapped and an archeologically significant site, there is a visual recognition of the location of the demapped #street# and of the archeologically significant site created by a design treatment that has been approved by both the Landmarks Preservation Commission and the City Planning Commission and, if such #development# is located within 200 feet of a historic district, there is a harmonious relationship between the proposed #development# and the historic district; and

(2) pedestrian amenities are contained in the new structure including, where appropriate, retail stores and substantial pedestrian space at the principal levels of circulation, such as wider sidewalks, #arcades#, #covered pedestrian space#, subsurface concourses and convenient subway connections.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 08-28-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew.

Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. If a vendor is interested in being considered for award of a contract described above, please hand deliver a written expression of interest addressed to contact Harry T. ADMINISTRATION FOR CHILDREN'S SERVICES

■ NOTICE

Local Law 73 Implementation Plan

Introduction

This implementation plan presents the steps that the New York City Administration for Children's Services (ACS) will take in order to ensure compliance with Local Law 73 of 2003.

This plan also shows ACS's commitment to provide meaningful access to all individuals seeking benefits and services, including individuals with limited English proficiency. Individuals should not face obstacles to receiving social services for which they may be eligible because they do not speak English. The purpose of this plan is to ensure that persons eligible for social services receive them and to avoid the possibility that a person who attempts to access services will face discrimination based on the language he or she speaks.

It is the policy of the City of New York to promote access to its services to all City residents who are in need of and entitled to them. ACS, therefore, provides child welfare and child care services to the children and families of New York City without regard to immigration status or proficiency in English.

The mission of ACS is to ensure the safety of all the children of New York, which includes those with limited proficiency in English. ACS believes that the safety, permanency and well-being of children is best achieved through a Neighborhood Based Services approach that seeks to provide every child and family with culturally, linguistically and need-driven services within their communities. ACS is committed to providing high-quality child welfare and child care services and enhancing family engagement in these services. Promoting access to services through language assistance is critical for workers to interact effectively with families and improve outcomes for the children and families.

ACS is making progress in its efforts to provide limited English-proficient clients with timely access to our services through various methods, including using a contracted interpretation and translation service, and providing forms and important information documents in various languages.

Mayor Michael R. Bloomberg signed Local Law 73 into law on December 22, 2003 to ensure access of City services to all New Yorkers. Local Law 73 of 2003 or, the "Equal Access to Human Services Act of 2003", seeks to increase access to critical City services for New Yorkers whose primary language is not English. Many elements of Local Law 73 pertain exclusively to the Human Resources Administration (HRA), which is listed as "[t]he Agency" for purposes of this law. ACS, the Department of Homeless Services (DHS) and the Department of Health and Mental Hygiene (DOHMH) are listed as "other covered agencies" in Local Law 73; as such, ACS, DHS, and DOHMH have specific obligations pursuant to Local Law 73 that are different from those enumerated for HRA.

1. Identification of Primary Language

Relevant Portion of Law:

Upon initial contact, whether by telephone or in person, with an individual seeking benefits and/or services offered by an other covered agency, the other covered agency shall determine the primary language of such individual. If it is determined that such individual's primary language is not English, the other covered agency shall inform the individual in his/her primary language of available language assistance services.

"Primary language" means the language in which a limited English-proficient individual chooses to communicate with others.

Implementation Plan:

A. ACS created the *ACS Language Identification Card* in 2004. The *ACS Language Identification Card*, which is laminated for extended use, contains translation in twenty-eight languages in order to facilitate language identification. The languages selected for inclusion on the card represent the most commonly encountered languages by ACS child welfare staff.

B. The *ACS Language Identification Card* was distributed in May 2004 to all staff members at ACS who have direct contact with individuals seeking ACS benefits and/or services, along with the recently published *Administration for Children's Services Immigration and Language Guidelines for Child Welfare Staff* ("Guidelines"). Both tools were created to assist child welfare staff in meeting the unique challenges posed by the diverse needs of New York City's immigrant and limited English proficient communities and to increase access to ACS services for all New York City children and families. The last two pages of the Guidelines contain a reproduction of the *ACS Language Identification Card.*

C. The Guidelines include specific instructions for complying with Local Law 73. These instructions state that upon initial contact with a family, ACS child welfare staff are to determine the primary language of the family members through utilization of the *ACS Language Identification Card*, and further they are to notify the individuals of the available language assistance services and to offer them an interpreter. ACS will issue to all affected program areas a directive reiterating these

requirements and specifying the data collection requirements related to Local Law 73 by the end of calendar year 2004.

D. ACS is exploring the possibility of and necessary resources for expanding its current interpretation and translation contract to offer language assistance services to help staff identify a client's language when the *ACS Language Identification Card* is ineffective because a client's primary language falls outside of those represented on the ACS Language Identification Card and/or the client is illiterate.

2. Notice Regarding Free Language Assistance

Relevant Portion of Law:
Upon initial contact, whether by telephone or in person, with an individual seeking benefits and/or services offered by an other covered agency, the other covered agency shall determine the primary language of such individual. If it is determined that such individual's primary language is not English, the other covered agency shall inform the individual in his/her primary language of available language assistance services.

Implementation Plan:

A. When an individual is determined to have a primary language other than English, staff will inform the individual of available language assistance services in the individual's primary language by using the Language Identification Card, directly using the individual's primary language, or using the interpreter service.

B. As needed, ACS will post multilingual signage in those offices and other appropriate service sites where clients are served advising clients of the availability of language assistance.

3. Language Assistance Services

Implementation Plan:

A. Once the primary language of a child or family served by ACS is determined, interpretation and translation services can be arranged through ACS's existing contracts which are available to ACS's Division of Child Protection (DCP), and have been used by other ACS divisions based on identified need. An internal memorandum was issued November 3, 2003 outlining the procedures for obtaining interpretation and translation services in over 140 languages. These services are available twenty-four hours a day, seven days a week for Child Protective Services staff within DCP.

B. ACS is in the process of determining the feasibility of and necessary resources for expanding the current language assistance contract to serve the remainder of the agency. In accordance with an expanded contract, ACS will develop and implement a training program for the remainder of the ACS direct service staff regarding language access services and ACS will update and reissue the internal memorandum for agency-wide distribution on availability of language assistance services.

4. Quality Assurance Measures

Relevant Portion of Law:

No later than the first day of the sixtieth month after the effective date of the local law that added this chapter, every other covered agency shall maintain records of the primary language of every individual who seeks or receives ongoing benefits or services. At a minimum, the other covered agency shall maintain specific records of the following:

1. The number of limited English proficient individuals served, disaggregated by type of language assistance required and primary language;
2. The number of bilingual personnel and the number of interpreter personnel employed by the other covered agency, disaggregated by language translated by such personnel;
3. Whether primary language determinations are recorded properly; and
4. Whether documents are translated accurately and disseminated properly.

Implementation Plan:

ACS's Office of Quality Improvement, in conjunction with other relevant program areas, will devise a plan by end of calendar year 2005 to establish a methodology and process for assuring that primary language determinations are recorded properly and that documents are translated accurately and disseminated properly.

5. Training

Implementation Plan:

A. To ensure that the *ACS Language Identification Card* is used and that interpretation/translation services are offered to children and families, ACS has incorporated Local Law 73 directives into the Common Core training, which is provided through the Satterwhite Academy, ACS's training center for its child welfare staff.

The following steps have been taken to introduce the *Immigration and Language Guidelines for Child Welfare Staff* and facilitate its implementation into casework practice within the following curricula of ACS's trainings:

- Common Core, Supervisory Common Core, and the CPS Specialty:
  1. The Culture modules, or appropriate sections of the curriculum, were enhanced with an introduction and review of the *Immigration and Language Guidelines for Child Welfare Staff* booklet
  2. Tools in the booklet, such as the Language Identification Card, are referenced and discussed
  3. Memorandum – the official *Immigration and Language Guidelines for Child Welfare Staff* memorandum on Special Immigrant Juvenile Status is distributed and discussed
  4. The form, Referral for Foster care Immigration Law Services, is provided as a handout and discussed
  5. The ACS Immigration and Language Issues Reference List is provided separately as a handout, referenced and discussed
  6. The *Immigration and Language Guidelines for Child Welfare Staff* booklet is distributed and displayed on the resource table
  7. Immigration and Language Guidelines are referenced in the Legal part of the curricula, presented by training attorney

- Immigrant Issues curriculum:
  1. *Immigration and Language Guidelines for Child Welfare Staff* is the focal point of the training
  2. Official ACS policy on immigration and language presented and practiced.
  3. *Immigration and Language Guidelines for Child Welfare Staff* booklet is distributed and discussed

- Core phase II, Legal Issues training:
  1. Legal aspects of the *Immigration and Language Guidelines for Child Welfare Staff* are presented, including Special Immigrant Juvenile Status
  2. *Immigration and Language Guidelines for Child Welfare Staff* booklet is distributed

- "Resource Table in Classrooms"
  1. *Immigration and Language Guidelines for Child Welfare Staff* booklet is available in sufficient amount in every classroom during Core phase II trainings

A. As a next step, the Satterwhite Academy will conduct a debriefing of all training and curriculum staff on the *Immigration and Language Guidelines* and related child welfare policies. The Academy will review all remaining curricula and determine where revisions related to LL73 are appropriate.

B. ACS will develop a plan to ensure the training of all staff that have direct contact with individuals seeking ACS benefits and/or services. This training plan will be developed by the end of calendar year 2005.

6. Recordkeeping and Monitoring

Relevant Portion of Law:

No later than the first day of the sixtieth month after the effective date of the local law that added this chapter, every other covered agency shall maintain records of the primary language of every individual who seeks or receives ongoing benefits or services. At a minimum, the other covered agency shall maintain specific records of the following:

1. The number of limited English proficient individuals served, disaggregated by type of language assistance required and primary language;
2. The number of bilingual personnel and the number of interpreter personnel employed by the other covered agency, disaggregated by language translated by such personnel;
3. Whether primary language determinations are recorded properly; and
4. Whether documents are translated accurately and disseminated properly.

Implementation Plan:

A. ACS Management Information Systems (MIS) proposes to implement an automated recording and reporting system to support Local Law 73. When appropriate analyst and programming resources become available, MIS would launch a project to implement a long-term solution for Local Law 73 record-keeping and reporting requirements.

B. The project will follow standard systems development life cycle, which includes six phases: initiation, analysis, design, construction, implementation, and maintenance.

C. In conjunction with analysis and implementation of the long-term system, ACS will advance a phased approach to comply with Local Law 73 requirements. A description of short-term, interim and long-term plans follows:

1. Short-Term Plan
During Local Law 73 implementation meetings, program area representatives identified at which points of contact with individuals seeking ACS services and/or benefits would require Local Law 73 notification and record-keeping.

The short-term plan for record-keeping, scheduled to start on January 1, 2005, includes the following steps, completed and in-progress:

- DCP staff will be required to complete the language field in Connections, the statewide child welfare information system. This would collect data on a significant portion of the population that ACS serves.

The New York State Office of Children and Family Services ("OCFS") has been notified that ACS requires their assistance in complying with Local Law 73. MIS is doing an impact assessment in conjunction with the OCFS regarding this. Specifically, ACS is asking that the additional languages contained in the *ACS Language Identification Card* be captured in Connections. Current languages covered are: Native American language, Chinese, Creole, English, French, German, Hindi, Hebrew, Italian, Japanese, Korean, Polish, Portuguese, Russian, American Sign Language, Spanish, and Vietnamese.

- MIS and other relevant ACS program areas will identify and develop mechanisms to comply with Local Law 73 record-keeping requirements by the required time frames. Staff will be trained in accordance with these processes.
- MIS will require analysts and programmers for this project.

2. Interim Plan
Reporting of data collected from January 1, 2005 through December 31, 2005 will begin on April 1, 2006. MIS will work with the program areas to devise a method for collecting data that will begin to be collected on January 1, 2005. Updates will appear in the Implementation Update, scheduled to be distributed on or about April 1, 2005.

3. Long Term Plan
Resources permitting, MIS can launch a project for development of the Local Law 73 record-keeping and reporting project. The project will have six phases: Initiation, analysis, design, construction, implementation, and maintenance.

MIS has started analysis by compiling the points of contact for ACS program staff. During the next phase MIS analysts would work with program areas to further define how contact occurs, which current data processing systems are used, and which data processing systems are in development mode.

In the second phase, analysis, the user determines what he or she needs or wants the system to do. At this stage, the MIS analyst will work with program areas as they define the optimal method for capturing Local Law 73 required data at points of contact.

The third phase, design, determines how the user will achieve his or her objectives. The program area team members and MIS will participate in defining workflow, refining the need for data elements, system requirements and reports.

There is an on-going agency-wide project to build an Integrated Case Management System at ACS, in conjunction with the releases of Connections and phasing out of legacy ACS systems. The Local Law 73 requirements will be incorporated in this planning.

During MIS's preliminary investigation of system needs to capture Local Law 73 data elements, MIS has referred to extensive work done previously for the Child Protective Services (CPS) Intake and Assignment Processes. A review of this analysis reveals the systems currently in use as Connections, WMS/NYS, WMS/NYC, ACCIS, ACRS +, and CCRS. ACS MIS will work with OCFS to coordinate requirements with new releases of Connections and phasing out of WMS/NYS, WMS/NYC and CCRS. Request for this has been made to OCFS in Albany. These systems do not collect child care data. The local system for child care, ACCIS, is being analyzed to determine what modifications are required.

Building on analysis that preceded this project, the long-term project will consult with and revise the documents that identify how data are collected and processed at several key points in the Intake and Assignment process. These documents include information about forms used and screens used in the CPS Intake Process.

Once the data collection system is in place, training on the system will ensue for ACS employees who have direct contact with individuals seeking ACS services or benefits.

D. For tracking of bilingual personnel, ACS will record and track bilingual personnel hired and develop a registry of bilingual personnel that can potentially be used as translators at their locations. The Office of Personnel will work with the relevant program areas regarding placement of bilingual personnel in critical areas of contacts. ACS will modify the existing telephone directory to include fields needed to track personnel and develop procedures. A field will be added to record language spoken. ACS will develop a procedure to identify bilingual personnel in order to record this data. ACS anticipates that the recording and sorting of this data will be operational by 2006.

7. Coordination

ACS has created an inter-divisional workgroup to coordinate the implementation of Local Law 73. ACS is also exploring resources to enable the creation of a staff position for immigration and language issues which will include responsibility for ensuring compliance with Local Law 73. This staff member will also coordinate data collection and be responsible for drafting and finalizing implementation updates and the reports that are to be published.

8. Implementation Updates and Annual Reports

Relevant Portion of Law:

Implementation updates and annual reports. No later than 90 days after the end of each calendar year after the publication of the implementation plan and before implementation is complete, the agency and each other covered agency shall publish an implementation update. The implementation update shall describe steps taken over the prior year to implement the requirements of this chapter and shall describe any changes in the agency or other covered agency's plan for implementing the remaining requirements of the local law that added this chapter before the date set forth in subdivision a of this section. The implementation update for every year after 2004 shall include a report on the number of limited English proficient people served, disaggregated by language and by agency office or other covered agency office. Not later than 90 days after the end of each calendar year beginning with 2008, the agency and each other covered agency shall publish an annual report on language assistance services. At a minimum, this annual report of the agency, each agency contractor and each other covered agency shall set forth the information required to be maintained by this chapter.

Implementation Plan:

ACS's Local Law 73 Implementation Workgroup will continue to meet regularly to refine and further the subsequent implementation plans and address future issues that would include implementation updates and publishing of annual reports.

HOMELESS SERVICES

■ NOTICE

Local Law 73 of 2003 Preliminary Implementation Plan

Introduction

This implementation plan presents the steps that the New York City Department of Homeless Services (DHS) will take in order to ensure compliance with Local Law 73 of 2003.

This plan also shows DHS' commitment to provide meaningful access to all individuals seeking benefits and services, including individuals with limited English proficiency. Individuals should not face obstacles to receiving social services for which they may be eligible because they do not speak English. The purpose of this plan is to ensure that persons eligible for social services receive them and to avoid the possibility that a person who attempts to access services will face discrimination based on the language he or she speaks.

DHS serves a diverse population encompassing people with many different primary languages. Some of these individuals are unable to communicate in English. It is the responsibility of DHS staff to communicate to applicants and clients their rights and responsibilities as well as DHS policies.

Mayor Michael R. Bloomberg signed Local Law 73 into law on December 22, 2003 to ensure access of City services to all New Yorkers. Local Law 73 of 2003 or, the "Equal Access to Human Services Act of 2003", seeks to increase access to critical City services for New Yorkers whose primary language is not English. Many elements of Local Law 73 pertain exclusively to the Human Resources Administration ("HRA"), which is listed as "[t]he Agency" for purposes of this law. ACS, the Department of Homeless Services ("DHS") and the Department of Health and Mental Hygiene ("DOHMH') are listed as "other covered agencies" in Local Law 73; as such, ACS, DHS, and DOHMH have specific obligations pursuant to Local Law 73 that are different from those enumerated for HRA.

DHS' language access policy is not limited to the measures set forth in this plan. Work is currently underway on a broader policy that will formalize DHS' commitment to access for the culturally and linguistically diverse communities of New York City. The upcoming policy will also highlight our commitment to protecting the privacy of our clients and the confidentiality of any data we may collect.

1. Identification of Primary Language

Relevant Portion of Law:

Upon initial contact, whether by telephone or in person, with an individual seeking benefits and/or services offered by another covered agency, the other covered agency shall determine the primary language of such individual. If it is determined that such individual's primary language is not English, the other covered agency shall inform the individual in his/her primary language of available language assistance services.

"Primary language" means the language in which a limited English proficient individual chooses to communicate with others.

Implementation Plan:

A. DHS workers shall screen all applicants for shelter to determine the primary language of the applicant.
B. When an individual is determined to have a primary language other than English, personnel shall inform the individual of available language assistance services in the individual's primary language by using the Language Identification Card, directly using the individual's primary language, or using an interpreter service.
C. If a worker has difficulty determining a client's primary language, the worker should use the Language Identification Card.
D. Once the applicant/client indicates he/she needs an interpreter, the DHS worker should immediately document the applicant's native language on the screening sheet.

2. Notice Regarding Free Language Assistance

Relevant Portion of Law:

Upon initial contact, whether by telephone or in person, with an individual seeking benefits and/or services offered by an other covered agency, the other covered agency shall determine the primary language of such individual. If it is determined that such individual's primary language is not English, the other covered agency shall inform the individual in his/her primary language of available language assistance services.

Implementation Plan:

A. DHS facilities shall post and maintain signage regarding the legal right to free language assistance by December 2007.
B. DHS will develop procedures to identify commonly encountered languages at individual sites by December 2007.
C. Signage will be translated into these commonly encountered languages and placed at all central points of contact, within the following intake centers: the Bronx Emergency Assistance Unit (EAU), the Adult Family Intake Center (AFIC), the Bellevue Adult facility for Men, and the adult women intake centers – Brooklyn Women's Assessment, Franklin Assessment Shelter, and Jamaica Armory Assessment.
D. Signage shall also be placed in all DHS shelter placement facilities. Signage should be posted at facility entrances and admitting and waiting areas.

3. Language Assistance Services

Implementation Requirements:

A. DHS will track language assistance requests to assess language assistance needs for particular facilities.
B. DHS will provide access to a private telephone interpretation service at all DHS facilities. A telephone in each facility will be designated for the use of this interpretation service. Designated telephones should have either speaker capability or be equipped for the use of headsets.
C. Once the applicant/client indicates he/she needs an interpreter, DHS staff will immediately document the applicant's native language in the applicant/client's case record. Where possible DHS will assign the applicant to a bilingual caseworker who is fluent in the applicant/client's language.
D. Where a bilingual worker is not available, DHS staff may request assistance from a designated DHS Language Liaison.
E. If an appropriate interpreter still cannot be located the Language Liaison shall authorize the use of a private telephone interpretation service.
F. Personnel should never require an individual to use family members or friends as interpreters.

4. Quality Assurance Measures

Relevant Portion of Law:

No later than the first day of the sixtieth month after the effective date of the local law that added this chapter, every other covered agency shall maintain records of the primary language of every individual who seeks or receives ongoing benefits or services. At a minimum, the other covered agency shall maintain specific records of the following:

1. The number of limited English proficient individuals served, disaggregated by type of language assistance required and primary language;
2. The number of bilingual personnel and the number of interpreter personnel employed by the other covered agency, disaggregated by language translated by such personnel;
3. Whether primary language determinations are recorded properly; and
4. Whether documents are translated accurately and disseminated properly.

Plan Requirements:

A. DHS will devise quality assurance methods for testing the accuracy of primary language recording by October 2006.
B. DHS will provide quality assurance for translations through the selection of qualified vendors and the development of reference materials, to improve accuracy and consistency of translated documents by October 2006.
C. DHS will develop protocols to ensure proper dissemination of accurately translated materials to individuals in need of language assistance by December 2007.

5. Training

Plan Requirements:

A. DHS will train all appropriate personnel, including management, supervisors, and personnel who have direct contact with limited English proficient individuals, on protocol for delivery of language services by December 2007.
B. DHS will orient new staff and trainees on the availability of interpreter services by December 2007.
C. DHS will provide or contract to provide, training in how to elicit and record applicants'/clients' primary languages to all appropriate personnel, including management, supervisors and personnel who have direct contact with limited English proficient individuals. This training will be provided by October 2006.
D. Protocols will be developed for providing notification of the availability of interpretation services. The protocols will be disseminated throughout DHS and adapted for the needs of each program. This training will be provided by October 2006.

6. Recordkeeping and Monitoring

Relevant Portion of Law:

No later than the first day of the sixtieth month after the effective date of the local law that added this chapter, every other covered agency shall maintain records of the primary language of every individual who seeks or receives ongoing benefits or services. At a minimum, the other covered agency shall maintain specific records of the following:

1. The number of limited English proficient individuals served, disaggregated by type of language assistance required and primary language;
2. The number of bilingual personnel and the number of interpreter personnel employed by the other covered agency, disaggregated by language translated by such personnel;
3. Whether primary language determinations are recorded properly; and
4. Whether documents are translated accurately and disseminated properly.

Plan Requirements:

A. DHS will maintain records of the primary language, race, and ethnicity of every individual served and the type of language assistance provided to clients.
B. DHS will maintain records of bilingual personnel disaggregated by language translated or interpreted by such personnel, as well as by office location.
C. DHS will perform periodic reviews to ensure that language assistance needs and requests are properly documented.

7. Coordination

A. DHS will designate a Language Assistance Coordinator to ensure compliance with Local Law 73 and this implementation plan.

8. Implementation Updates and Annual Reports

Relevant Portion of Law:

Implementation updates and annual reports. No later than 90 days after the end of each calendar year after the publication of the implementation plan and before implementation is complete, the agency and each other covered agency shall publish an implementation update. The implementation update shall describe steps taken over the prior year to implement the requirements of this chapter and shall describe any changes in the agency or other covered agency's plan for implementing the remaining requirements of the local law that added this chapter before the date set forth in subdivision a of this section. The implementation update for every year after 2004 shall include a report on the number of limited English proficient people served, disaggregated by language and by agency office or other covered agency office. Not later than 90 days after the end of each calendar year beginning with 2008, the agency and each other covered agency shall publish an annual report on language assistance services. At a minimum, this annual report of the agency, each agency contractor and each other covered agency shall set forth the information required to be maintained by this chapter.

Plan Requirements:

A. DHS will collect the above information from the covered programs, and produce an annual report, beginning 60 months from the effective date of the law.
B. Prior to the effective date for producing annual reports (60 months), DHS will produce implementation updates every year. These reports will provide updates about our implementation of the plan, and detail any changes in the plan.
C. The implementation update for 2005 (which will be released in 2006), and all reports thereafter, will include information on the number of limited English proficient people served, disaggregated by language and by agency office.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR.*

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

The presence of a quorum was announced by the Public Advocate (Ms. Gotbaum).

INVOCATION

The Invocation was delivered by Rev. Craig Gaddy, Friendship Baptist Church, 92 Herkimer Street, Brooklyn, NY 11216.

Let us pray.

Our Father and our God, we come assembled in this day with the spirit of thanksgiving.

We thank you for our rising this morning, and for the dexterity of our limbs;

We thank you for bringing us down to City Hall; and in this, we ask that you would bless all of the members of our Council and their staff members. We ask you that you would bless their Speaker, Mr. Gifford Miller; we ask that you would bless the Public Advocate, Ms. Gotbaum, as they continue to go forward with making the decisions that continues to keep the heartbeat in our community vibrant;

We ask that you would bless them in a special manner, as they continue to make the decisions that brings about a change in our lives;

We ask you that you would bless all of the voters that have gone out and have selected them, that they may be our representatives, that they may lead us and guide us to that which makes us a better people, a better city and a better state;

So, we thank you for this. We thank you for all things, as you will continue to guide them and keep them. This, we give you thanks, in the name that is above every other name and matchless to none, we thank you, amen.

Council Member Reyna moved to spread the Invocation in full upon the Record.

ADOPTION OF MINUTES

Council Member Seabrook moved that the Minutes of the Stated Council Meeting of May 19, 2004 be adopted as printed.

REPORTS OF THE STANDING COMMITTEES

Reports of the Committee on Contracts

Report for Int. No. 137-B

Report of the Committee on Contracts in favor of approving and adopting, as amended, notwithstanding the objection of the Mayor, a Local Law to amend the administrative code of the city of New York, in relation to the provision of equal employment benefits to the employees of city contractors.

The Committee on Contracts to which was referred on February 4, 2004 (Minutes, page 601) and originally passed by the Council on May 5, 2004 (Minutes, page 1808), the annexed amended proposed local law respectfully

REPORTS:

On May 5, 2004, at its fourth hearing on the matter, the Committee on Contracts unanimously passed Int. No. 137-B, also known as the Equal Benefits Bill (EBB), a full copy of which is attached to this report. Also, on May 5, 2004, the full Council passed the EBB by an overwhelming majority.[1] On June 3, 2004, the Council received a Mayor's Message, M-1021/2004, vetoing the EBB. Today, the Committee on Contracts meets to consider re-passing the EBB notwithstanding the Mayor's veto.

The EBB would generally require that the City do business only with those companies that provide the same employment benefits to employees with domestic partners as they provide to their married employees. This bill would apply to all contracts for goods, services, construction and real estate valued at over one hundred thousand dollars.

Simply, the EBB is meant to save the City money by requiring a measure of fairness in the way City contractor employees are paid. The Committee has heard extensive testimony indicating that companies that provide equal benefits attract and retain better-qualified, more productive employees. Such companies, the Committee has found, have a competitive edge and provide superior, less expensive goods and services and give the City better value for its dollar. At the same time, the EBB will result in expanded access to health insurance, which will result in improved public health as well as savings on health care costs for the uninsured that would otherwise be borne by the City.

Indeed, the Committee has heard testimony from experts throughout the country, and particularly from New York State Comptroller, Alan Hevesi, that on purely economic grounds, the EBB will be a great financial benefit to the City. Accordingly, the EBB will help ensure that the City obtains the best value for taxpayer dollars by contracting with employers that provide employees with domestic partners the same benefits they provide to employees with spouses.

The EBB is not intended to, nor will it, regulate business in any way or affect the conditions in any market. Nor is it possible, given the size of the City's economy and its relative buying power, for the City to regulate behavior in the markets in which it participates simply through changing its buying practices.[2] Rather, the City here acts in its proprietary capacity, as a common, purely economic market participant seeking to obtain the best value for its dollar.

THE MAYOR'S VETO

for the Lower Ma———————————

[1] The vote was 43 in favor, 5 opposed and 2 abstentions.

[2] Indeed, the City does not limit itself to City markets when acquiring goods and services, so the relevant market for its purchases is national, if not global, further indicating its limited power to regulate through its participation in the market.

In his June 3, 2004 veto message, the Mayor indicates that he vetoed the EBB "on both legal grounds and policy grounds." The Mayor states in the veto message that the City does not have the legal authority under State law to impose the requirements of the EBB on its contractors. But, as the Committee has noted throughout the hearing process regarding the EBB, State law, both Constitutional and statutory, as well as New York case law, provide ample authority for the Council to impose these requirements. Specifically, the State Constitution and the Municipal Home Rule Law expressly permit localities to adopt local laws that set standards for "the wages or salaries, the hours of work or labor, and the protection, welfare and safety of persons employed by any contractor or sub-contractor performing work, labor or services for it."[3] In addition, the General City Law gives the city express authority to "contract or be contracted with..."[4] Taken together, "these provisions... certainly evince a design on the part of the State to provide a city, when contracting for the purchase of supplies or the hiring of labor, with full power to fix the terms and conditions upon which it chooses to deal—with the power [to regulate its affairs.]"[5] Clearly, the Council's ability to enact the EBB falls within this grant of authority, notwithstanding the Mayor's objection. Indeed, the Mayor's position regarding legal authority is confusing since he raised no such legal objection when he signed the Living Wage bill—a law that, almost identically to the EBB, requires certain City contractors to provide a minimum wage to their employees.

The Mayor also noted that he has a general policy objection to Council bills "that would impose obligations on companies that seek to do business with the City." The Mayor's position is once again puzzling since he raised no such objection when he signed the Living Wage Bill into law or, for that matter, when he signed legislation that required the City to purchase energy efficient products or to use ultra-low sulfur diesel fuel in construction equipment. All of those laws imposed obligations on City contractors. Regardless, it is the Council's, not the Mayor's, Charter mandated, legislative prerogative and duty to establish policy and standards for the conduct of the administration.

The Mayor also states that the EBB would create a competitive advantage for companies based outside the City. However, companies both inside and outside of the City that do business with the City would be obliged to provide equal benefits to their employees under the EBB. While those outside the City may at times be required to provide such benefits for fewer of their employees, so few employees request the benefits that the cost difference and hence the "competitive advantage" for these companies would be insignificant if it existed at all. The EBB would therefore not create an incentive to relocate.

Finally, the Mayor notes that the procurement process is overly cumbersome and cannot support the requirements of the EBB. However, the EBB will add minimal procedural requirements to the procurement process since compliance with the law is based largely on self-certification by contractors. Even so, while no one will argue that the procurement system is inefficient and that this inefficiency makes the City a less desirable business partner, these shortcomings are a result of the City's failure to adequately manage the procurement process and its inability to use available technologies effectively. The answer to these problems is to address them—not use them to stand in the way of sound legislative policy-making. Indeed, the Council recently passed 12 bills and two authorizing resolutions, covering matters such as raising the small purchase limits, authorizing the administration to accept bids in electronic format and providing the mayor with authority to delegate some of his more time-consuming procurement –related duties to agency contracting professionals, all of which will result in a more streamlined procurement process for the City.

Notwithstanding the Mayor's pronouncements, the EBB is, as noted above, designed to save the City money and to ensure that we do business with those companies that fairly compensate their employees. It is well-known that companies that provide domestic partnership benefits and that foster inclusive, tolerant work environments attract and retain better, brighter employees and produce better, less costly goods.

ANALYSIS OF INT. NO. 137-B

Generally, the EBB would prohibit the City from entering into or renewing any covered contract[6] with contractors that discriminate in the provision of benefits between employees with domestic partners and employees with spouses. **Section 6-126-(c)(1).** The term "Equal benefits" is defined as employment benefits, including, but not limited to, health insurance, pension, retirement, disability and life insurance, family, medical, parental, bereavement and other leave policies, tuition reimbursement, legal assistance, adoption assistance, dependent care insurance, moving and other relocation expenses, membership or membership discounts and travel benefits, equal to those provided to employees with spouses. **Section 6-126(b)(8).** Since the aim of the provision is to ensure compensational parity between employees with spouses and those with domestic partners, the non-discrimination provision is neutral, meaning that the benefits provided to either must be the same.

The EBB would further prohibit the City from entering into any covered contract unless the contractor certifies either that it offers equal benefits, as that term is defined in the EBB, to employees with domestic partners, or, if a contractor is a

[3] N.Y. Const. Art. IX, § 2(c)(9); Mun. Home Rule L. § 10(1)(a)(10).

[4] Gen. City L. § 20(1).

[5] McMillen v. City of N.Y., 14 N.Y.2d 326, 330 (1964). Similarly, in City of New York v. Diamond, 379 F.Supp. 503 (S.D.N.Y. 1974), the Court recognized the City's authority to apply equal employment standards to contractors working on a sewer treatment facility. The Court in Diamond noted that nothing in state law conflicted with this exercise of the Home Rule Provisions holding that "where there is no actual conflict with state law, the City has the power to impose requirements on contractors working on its own projects as an incident to its contracting powers." Diamond at 515 (quoting McMillen).

[6] The term "covered contract" is defined in the EBB as a contract for goods, services, construction or real estate between a contracting agency and a contractor which by itself or when aggregated with all contracts awarded to such contractor by any contracting agency during the immediately preceding twelve months has a value of one hundred thousand dollars or more. **Section 6-126(b)(1) and (4).**

religious organization as defined in the bill and certifying that it offers equal benefits to employees with domestic partners would, in the opinion of such contractor, be inconsistent with the religious principles for which such organization was established or maintained, then they could, under the EBB, certify that they offer equal benefits to a member of each employee's household, designated by the employee, and provided the household member is eighteen years of age or older, lives permanently with the employee, is unmarried, is not a dependent of any other person and is not the tenant or landlord of the employee. Sections 6-126(b)(1), (5) and (9) and 6-126(c)(1)(i) and (ii). The EBB would prohibit contractors that certify that they offer household member coverage from requiring employees to disclose to the contractor the nature of their relationship with the designated household member other than, of course, information needed to determine whether a designated household member meets the definition of household member included in the EBB. So, for example, a religious organization that certifies that it offers household member coverage would be permitted to ask an employee the age of the designated household member or whether the designated household member is living permanently with the employee, but the organization may not ask whether the employee's relationship with the designated household member is romantic.

It should be noted that this alternate certification does not absolve a contractor that makes it from complying with the separate requirement that it not discriminate between employees with domestic partners and those with spouses. Instead this provision allows for religious-based contractors to comply with this requirement of the law without compromising religious conviction.

Further, the EBB would not apply to all employers in the City--only to those that enter into a contract with the City as described above. The EBB would not, for example, apply to an organization that is merely affiliated with a covered contractor be covered under the bill—only the organization with which the City has entered into a contract. So, for example, while a provider of social services that is affiliated with a church may be covered under the EBB, the church itself may not be, provided it is a separate entity and that it has no contract with the City itself.

In support of their certifications, pursuant to the EBB, contractors would also be required to provide copies of employee benefits plans. **Section 6-126(c)(2).** The EBB would apply to the employees of contractors with City contracts that work within the City and those outside of the City that work directly on fulfilling the terms of a City contract. **Section 6-126(e).**

The EBB would define domestic partners as those persons who are domestic partners pursuant to section 3-240(a) of the Administrative Code. Section 3-240(a) of the Administrative Code defines domestic partners as those who have registered as domestic partners pursuant to that section as well as "persons who are members of a marriage that is not recognized by the state of New York, domestic partnership, or civil union, lawfully entered into in another jurisdiction." As a result, to the extent that the EBB applies to employees located outside of the City, those employees would be considered domestic partners under the law and entitled to its benefits if they were members of any form of civil union under the laws of their respective jurisdiction. The EBB would also allow companies to set up in-house domestic partnership registries so long as the requirements for registration are no more stringent than those applied under the City's domestic partnership registration law. **Section 6-126(n).**

The EBB would forbid retaliation against employees who request domestic partnership benefits or who inform the City that a contractor that is required to provide such benefits has failed to do so. **Section 6-126(c)(1)(iii).**

The EBB would also require that a provision detailing its requirements be included in every City contract, and that a violation of the provision be considered a material breach of the contract. **Section 6-126(d).**

The aim of the EBB would be to get the best value for taxpayer dollars by doing business with companies that provide compensational equity between employees with domestic partners and employees with spouses—not parity of opportunity. Accordingly, under the EBB a contractor would be required to pay no more for benefits to domestic partners than it does to married couples and may require domestic partners to cover any cost differential. Section 6-126(f). Indeed, the EBB would specifically exempt contractors from paying any tax liability incurred by domestic partners as a result of being given spousal-type benefits. Section 6-126(g). Further, if a contractor is unable, after making reasonable efforts, to provide a certain benefit—say health insurance–because there is simply no carrier in the market willing to provide coverage to domestic partners, then the contractor would, under the EBB, only be required to provide the cash equivalent of the spousal benefit. Section 6-126(h).

Further, following the same example, pursuant to the EBB, if the employer requires its eligible employees to pay for a spousal health insurance benefit, then the employer could similarly require its employees with domestic partners to pay for their benefits. And if, continuing this example, a contractor is unable, after making reasonable attempts, to obtain domestic partnership coverage, then the contractor would not, under the EBB, be required to pay a cash equivalent since it provides no such remuneration for employees with spouses.

The EBB would take several steps to minimize or eliminate interference with competition for City contracts including the following: First, the EBB would allow for extensions of time to comply in the event that a contractor needs to take administrative action to offer benefits. **Section 6-126(h)(2).** Second, pursuant to the EBB, and as noted above, for those companies that choose not to recognize domestic partnerships, the law would allow an alternative compliance mechanism that would allow them to offer spousal-type benefits to one designated adult member of the employee's household. **Section 6-126(c)(1)(ii).** Further, the EBB would allow the administration to exempt certain types of contracts from its requirements altogether including emergency and sole source contracts. **Section 6-126(k)(1).** The EBB would exempt altogether from its requirements, contracts related to the investment of assets held in trust by the City or of City monies. **Section 6-126(l).** Finally, the EBB would not apply in circumstances where there are no bidders who will comply with the law and that are willing to bid on a contract for essential goods or services. **Section 6-126(k)(1)(iv).**

Contracting agencies would be allowed to apply for a waiver at the request of a contractor, and waiver applications would be required to be made in writing by the contracting agency to the agency implementing the EBB. All decisions regarding waivers would be made by the agency implementing the law and would be required to be made within a reasonable period of time. **Section 6-126(k)(2).** Under the EBB, decisions granting waivers would be required to become part of the contracting file. **Id.** Finally, the agency implementing the law would be required to report to the Council annually on the number of waivers requested, granted and denied or withdrawn broken down by type of waiver and agency as well, as the total dollar values of the contracts for which the waivers were requested, granted and denied or withdrawn. **Section 6-126(k)(3).**

To ensure compliance, the EBB would require all contractors it covers to make their records available for inspection and requires the Comptroller to conduct annual investigations regarding contractor compliance with the EBB. **Section 6-126(m).**

Finally, the EBB would authorize the Procurement Policy Board to promulgate rules to implement its requirements. **Section 6-126(q).**

EFFECTIVE DATE

The EBB would take effect 120 days after it is enacted.

IMPACT ON REVENUES AND EXPENDITURES: To comply with the investigation requirement of this local law, the Comptroller might need to hire a small number of additional staff. The fiscal impact on the City's expenditures would therefore be de minimus.

Int. No. 137-B

By The Speaker (Council Member Miller) and Council Members Quinn, Lopez, Reed, Jackson, Yassky, Katz, Baez, Brewer, Avella, Barron, Clarke, Comrie Jr.,

Gerson, Martinez, Sanders Jr., Seabrook, Stewart, Vann, Liu, Serrano, Reyna, McMahon, Rivera, Sears, Boyland, Koppell, Perkins, Gioia, Weprin, Monserrate, Moskowitz, Gonzalez, Recchia Jr., James, Foster, DeBlasio and The Public Advocate (Ms. Gotbaum).

A Local Law to amend the administrative code of the city of New York, in relation to the provision of equal employment benefits to the employees of city contractors.

Be it enacted by the Council as follows:

Section 1. Title 6 of the Administrative Code of the City of New York is hereby amended by adding a new section 6-126 to read as follows:

Section 6-126. a. This section shall be known and may be cited as the "Equal Benefits Law."

b. For purposes of this section only, the following terms shall have the following meanings:

(1) "Contract" means any written agreement, purchase order or instrument whereby the city is committed to expend or does expend funds in return for an interest in real property, work, labor, services, supplies, equipment, materials, construction, construction related service or any combination of the foregoing.

(2) "Contracting agency" means a city, county, borough, or other office, position, administration, department, division, bureau, board or commission, or a corporation, institution or agency of government, the expenses of which are paid in whole or in part from the city treasury.

(3) "Contractor" means any individual, sole proprietorship, partnership, joint venture, corporation or other form of doing business.

(4) "Covered contract" means a contract between a contracting agency and a contractor which by itself or when aggregated with all contracts awarded to such contractor by any contracting agency during the immediately preceding twelve months has a value of one hundred thousand dollars or more.

(5) "Domestic partners" means persons who are domestic partners as defined in section 3-240(a) of the administrative code, or who have registered as domestic partners with a contractor pursuant to subdivision n of this section.

(6) "Employee" means a person employed by a contractor.

(7) "Employment benefits" means benefits including, but not limited to, health insurance, pension, retirement, disability and life insurance, family, medical, parental, bereavement and other leave policies, tuition reimbursement, legal assistance, adoption assistance, dependent care insurance, moving and other relocation expenses, membership or membership discounts, and travel benefits provided by a contractor to its employees.

(8) "Equal benefits" means employment benefits equal to those provided to employees with spouses and to their spouses.

(9) "Household member coverage" means the provision of equal benefits to an employee and to one designated member of such employee's household provided that such household member is eighteen years of age or older, lives permanently with the employee, is unmarried, is not a dependent of any other person and is not the tenant or landlord of the employee.

(10) "Implementing agency" means the city chief procurement officer or any agency or officer that the mayor designates.

c. (1) No contracting agency shall enter into or renew any covered contract with a contractor that discriminates in the provision of employment benefits between employees with spouses and employees with domestic partners and/or between the domestic partners and spouses of such employees; and unless the contractor certifies that:

(a)(i) it offers equal benefits to employees with domestic partners; or

(ii) if the contractor is a religious or denominational institution or organization, or an organization operated for charitable or educational purposes which is operated, supervised or controlled by or in connection with a religious organization, and the certification required in subsection c(1)(a)(i) of this section would, in the opinion of such contractor, be inconsistent with the religious principles for which such organization was established or maintained, it offers household member coverage to its employees, provided that such employees shall not be required to disclose to the contractor information concerning the nature of their relationship with a designated household member beyond that which such contractor deems necessary to determine eligibility for household member coverage; and

(b) it will not retaliate against an employee in the terms and conditions of employment in the event that such employee requests equal benefits or informs the city that such contractor has failed to provide equal benefits in violation of this section.

(2) Such certification shall be in writing and shall be signed by an authorized officer of the contractor and delivered, along with a description of the contractor's employee benefits plan or plans, to the contracting agency and to the implementing agency prior to entering into a covered contract. The implementing agency shall reject a contractor's certification if it determines that such contractor discriminates in the provision of employment benefits in violation of this section, or if the implementing agency determines that the contractor was created, or is being used, for the purpose of evading the requirements of this section.

d. Every covered contract shall contain a provision detailing the contractor's obligations pursuant to this section, which shall be a material provision of such contract.

e. The requirements of subdivision c shall apply to the employees of a contractor who, during the term of such contract, work within the city of New York, and to those employees of a contractor who work outside of the city of New York and who work directly on fulfilling the terms of a covered contract.

f. In the event that a contractor's actual cost of providing an equal benefit or benefits exceeds that of providing the equivalent spousal benefit or benefits, such contractor shall not be deemed to have discriminated in the provision of employment benefits if such contractor conditions the provision of such equal benefit or benefits upon the employee agreeing to pay the excess costs.

g. Nothing in this section shall be construed to require a contractor to pay income tax liabilities incurred through the provision of equal benefits as required under this section.

h. (1) In the event a contractor is unable to provide a particular equal benefit or benefits as required pursuant to this section despite taking all reasonable measures to do so, such contractor shall not be deemed to have discriminated in the provision of employment benefits for failure to provide such employment benefit or benefits if such contractor provides the cash equivalent of such employment benefit or benefits to the affected employee(s). The contractor shall provide the implementing agency with sufficient proof of such inability to provide such benefit or benefits, which shall include the measures taken to provide such benefit or benefits and the cash equivalent proposed, along with certification required pursuant to subdivision c of this section. The implementing agency shall, based on submitted evidence, determine whether the contractor's failure to provide such employment benefit or benefits precludes such contractor from entering into a covered contract pursuant to the requirements of this section.

(2) In the event that a contractor is unable to provide a particular equal benefit or benefits as required pursuant to this section because it would require administrative action that would delay the provision of such equal benefit or benefits, then the contractor may request an extension of time to take such administrative action which shall not exceed three months. Applications for such extensions of time shall be submitted to the implementing agency, which shall have the discretion to grant such applications. A contractor may, if necessary, request an additional extension of time to provide the delayed equal benefit or benefits. Applications for such additional extensions of time shall be submitted to the implementing agency, which shall have the discretion to grant such applications provided that the contractor provides the cash equivalent of any delayed equal benefit or benefits to the affected employee(s) during the additional extension period. The implementing agency shall monitor contracting agencies to which it grants extensions of time to ensure compliance with the requirements of this section within such extension periods.

i. Every contractor shall, to the extent permitted by law, provide the contracting agency and the implementing agency access to its records for the purpose of audits and/or investigations to ascertain compliance with the provisions of this section, and upon request shall provide evidence that the contractor is in compliance with the provisions of this section.

j. If during the term of a covered contract a contractor fails to provide equal benefits as required pursuant to this section, or if a contractor retaliates against an employee in the terms and conditions of employment for requesting equal benefits or for informing the city that such contractor has failed to provide equal benefits, such failure and/or retaliation shall be deemed a material breach of such contract. Upon receiving information that a contractor has failed to provide equal benefits as required pursuant to this section and/or retaliated against an employee in violation of this section, the implementing agency shall review such information, notify the contractor of such information and offer the contractor an opportunity to respond. If it is found that a violation has occurred, the implementing agency shall take such action as may be appropriate and provided by law, rule or contract, including, but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the contractor in default and/or seeking a finding that the contractor is not a responsible contractor pursuant to section 335 of the charter. Nothing in this subdivision shall be construed to limit the remedies a contractor's employee or the domestic partner of such employee may seek in law or equity in the event of such contractor's non-compliance.

k. (1) The requirements of this section may be waived by the implementing agency upon application by a contracting agency under the following circumstances:

(i) for sole source contracts entered into pursuant to section 321 of the charter, where the sole source is unwilling to comply with the requirements of this section; or

(ii) for emergency contracts entered into pursuant to section 315 of the charter and for which no entity which complies with the requirements of this section and which is capable of fulfilling such contract is immediately available; or

(iii) where compliance with the requirements of this section would violate or be inconsistent with the terms or conditions of a grant, subvention or contract with a public agency or the instructions of an authorized representative of any such agency with respect to any such grant, subvention or contract; or

(iv) where there are no prospective bidders for a contract that are willing to comply with the requirements of this section and it is essential for the city to enter into such contract.

(2) All applications for waivers pursuant to this subdivision shall be made in writing. The implementing agency shall, within a reasonable period of time, determine whether to grant such waiver applications. All decisions regarding waivers shall be issued in writing and shall include the reason for the granting or denial of such application. All decisions granting waivers shall become part of the relevant contract file.

(3) Beginning twelve months after the effective date of the local law that added this section and annually thereafter, the implementing agency shall report to the council regarding the twelve month period immediately preceding the report, the number and total dollar value of waivers for which it received applications disaggregated by type of waiver and contracting agency; the number and total dollar value of waivers granted disaggregated by type of waiver and contracting agency; and the number and total dollar value of waivers denied or withdrawn disaggregated by type of waiver and contracting agency.

l. The requirements of this section shall not apply to contracts relating to the investment of assets held in trust by the city or to the investment of city monies.

m. The comptroller shall conduct annual investigations, on a sample basis, to measure contractor compliance with the requirements of this section. Contractors shall make such information available as is necessary to conduct such investigations. Beginning twelve months after the effective date of the local law that added this section and annually thereafter, the comptroller shall report the results of such investigations to the mayor and the council.

n. A contractor may institute an internal registry to allow for the provision of equal benefits to employees with domestic partners who are not domestic partners as defined in section 3-240(a) of the administrative code, or who are located in a jurisdiction where no such governmental domestic partnership registry exists; provided, however, that a contractor that institutes such a registry shall not impose criteria for registration that are more stringent than those required for domestic partnership registration by the city of New York. A contractor may also verify the existence of a domestic partnership or marriage to the extent such verification is undertaken equally for employees with domestic partners and employees with spouses.

o. Nothing in this section shall be construed to limit the city's authority to cancel or terminate a contract, deny or withdraw approval to perform a subcontract or provide supplies, issue a non-responsibility finding, issue a non-responsiveness finding, deny a person or entity pre-qualification, or to otherwise deny a person or entity city business.

p. This section shall only apply to contracts entered into or renewed on or after the effective date of the local law that added this section.

q. The procurement policy board may promulgate rules to implement the requirements of this section.

§2. If any section, subsection, sentence, clause, phrase or other portion of this local law is, for any reason, declared unconstitutional or invalid, in whole or in part, by any court of competent jurisdiction, such portion shall be deemed severable, and such unconstitutionality or invalidity shall not affect the validity of the remaining portions of this law, which remaining portions shall continue in full force and effect.

§3. This local law shall take effect one hundred and twenty days after its enactment.

Reports of the Committee on Immigration

Report for Int. No. 223-A

Report of the Committee on Immigration in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to immigration assistance services.

The Committee on Immigration to which was referred on February 26, 2004 (Minutes, page 963) the annexed amended proposed local law respectfully

REPORTS:

The Committee on Immigration, chaired by Council Member Kendall Stewart, will meet on Monday, June 28, 2004, at 10:30 a.m. regarding Prop. Int. No. 223-A, a local law to amend the administrative code of the city of New York in relation to immigration assistance services.

Background

New York City continues to be the destination of large numbers of immigrants every year. Two thirds of New Yorkers are either immigrants or the children of immigrants and almost 40% of New Yorkers are foreign born.[1] According to the 2000 United States Census, 13.5 million immigrants came to the United States between 1990 and 2000.[2] The growing numbers of immigrants, combined with ever-increasing complexities of immigration law and the large and growing backlog[3] of the U.S. Citizenship and Immigration Services ("USCIS"), have led to tremendous demand for assistance with immigration-related issues in New York City.

While lawyers and accredited non-profit organizations[4] can provide legal assistance to immigrants who need help obtaining forms or a change in status from USCIS, shortages in affordable immigration legal services lead many immigrants to seek assistance elsewhere. While immigration assistance providers cannot provide legal services, they may help complete and file immigration forms; help secure documents -such as birth certificates -- to be supplied to immigration authorities; transcribe or translate information onto forms; give clients free referrals for attorneys; arrange for necessary fingerprints, photographs or medical tests; or notarize documents (if the provider is a licensed notary).

Persons who assist individuals with immigration matters have a significant impact on the ability of their clients to live and work within the United States and to establish

[4] Non-profits with accreditation from USCIS may provide legal assistance in immigration cases.

and maintain stable families and business relationships. Many immigration assistance providers, however, overcharge clients for services, charge for services they do not perform, or commit errors on immigration forms that can adversely affect immigrant status .[5] Some providers purposefully use the term "notario," which often leads Spanish-speaking clients to believe that they are lawyers.[6] In addition, some assistance providers guarantee that they will achieve outcomes that are beyond their control. The opportunistic actions of these providers can have serious ramifications for thousands of immigrants who spend limited resources paying for services that may be ineffective or fraudulent and can lead to detention or deportation.

Increased availability of affordable legal services would decrease immigrants' reliance on non-attorney immigration assistance providers. In fiscal year 2004 the New York City Council restored $1.8 million in funds at the Department of Youth and Community Development for instruction in English as a Second Language and legal assistance for persons with immigrant status. For fiscal year 2005, the Council has expanded the Immigrant Opportunities Initiative, a pilot program that has provided support for English language services and civic classes since 2002, to include funding for legal services.[8]

In addition to increasing the availability of affordable legal services, jurisdictions across the country at the state and local level are trying to combat fraudulent immigration assistance services through legislation. Arizona, California, Illinois, Minnesota, New Jersey, New Mexico, Oregon and Washington have enacted statutes affecting the practices of immigration assistance providers.[9] California law limits providers of immigration assistance services to providing non-legal assistance

in immigration matters.[10] California also requires immigration assistance providers to post a $50,000 bond" [11] and subjects them to civil penalties of up to $100,000 per violation of state law.[12]

[10] California law allows providers to: (1) complete a form provided by a federal or state agency but not advise a person as to their answers on these forms; (2) translate a person's answers to questions posed in these forms; (3) secure for a person supporting documents, such as birth certificates, which may be necessary to complete these forms; (4) submit completed forms on a person's behalf and at their request to USCIS; and (5) make referrals to persons who could undertake legal representation activities for a person on an immigration matter. *See* Cal. A 2001 Texas law prohibits notaries from being paid to prepare immigration forms unless they are licensed attorneys.[13] Other states have attempted to regulate immigration assistance providers through laws governing notaries[14] and through enforcement of existing laws governing the unauthorized practice of law.

Chicago was the first city in the United States to enact an immigration assistance service provider ordinance. The ordinance requires that all clients receive a written contract in both English and the language of the client that explains all fees, states that the provider is not an attorney, and stipulates the client's right to retrieve all forms given to the provider as well as the right to rescind the contract within 72 hours. [15] The Department of Consumer Services conducts spot inspections to identify violators and has authority to prosecute fraudulent assistance providers under the ordinance. In addition, Illinois state legislators are currently considering legislation that would amend the Notary Public Act and the Consumer Fraud and Deceptive Business Practice Act to enhance enforcement and heighten penalties for immigration assistance providers who provide fraudulent services[16]

Various initiatives in New York State aim to eliminate fraudulent immigration assistance providers. Prop. Int. 223-A would complement legislation recently passed by the New York State legislature [17] that amends the general business law to better define the scope of immigration assistance services and limit the activities of assistance providers! [8] The Assembly passed A. 7137-B on January 26, 2004 and the Senate passed S. 3314-B on June 9, 2004. In addition, on April 24, 2004, Governor Pataki introduced a joint initiative with the Governor's Citizenship Unit and the Consumer Protection Board to prevent fraudulent immigration assistance services by raising awareness in immigrant communities. According to the Office of the Governor's press release on April 24, 2004, the initiative will help immigrants identify fraudulent immigration assistance services and direct immigrants to legitimate providers. The Governor has also allocated $2.5 million in grant money for non-profit organizations working on immigration issues, including funding for the Catholic Charities of the Archdiocese of New York to create an "Immigrant Hotline" to answer questions and help immigrants find appropriate legal services. Analysis

Prop. Int. 223-A would prohibit certain types of conduct by immigration assistance providers in New York City.[20] Specifically, the bill would prohibit immigration assistance providers from making any statement guaranteeing any particular government action or suggesting that they can or will obtain favors from or have special influence with immigration authorities .[21] Further, the bill would prohibit immigration assistance providers from retaining compensation for services not performed or from refusing to return documents supplied, prepared or paid for by a customer when the customer requests return of such documents.[22] Moreover, the bill would prohibit providers from representing that they have titles or credentials that could lead a prospective customer to believe that they possess licenses, accreditation or official authorization to provide advice on immigration matters.[23] Finally, the bill would prohibit providers from giving any legal advice concerning immigration matters.[24]

[20] The bill defines "immigration assistance service" as "providing any form of assistance, in the city of New York, for a fee or other compensation, to persons who have come, or plan to come to the United States from a foreign country, or their representatives, in relation to any proceeding, filing or action affecting the non-immigrant, immigrant or citizenship status of a person, which arises under the immigration and nationality law, executive order or presidential proclamation, or which arises under actions or regulations of the United States citizenship and immigration services, the United States department of labor, or the United States department of state." § 20-770 a.

[24] §20-771 e. New York courts have had several opportunities to consider what constitutes unauthorized practice of law. See, L... N.Y. County Lawyer's Ass'n. v. Dacey, 28 A.D.2d 161 (1st Dept., 1967)("The giving of legal advice and counsel, including instructions and advice as to the preparation and use of legal instruments, constitutes the practice of law which is forbidden in this State to all but duly licensed New York attorneys. Where a person, as here, advises that this form or that form is the proper form to be used to carry out a particular legal transaction, then he is doing just what a lawyer does when a client seeks advice. The copying or completion of a form may consist merely of clerical work but the selecting of the proper form and telling a clerk what to copy and how to fill in the blanks is lawyers' work." Id. at 165-166.)

The bill also would require immigration assistance providers to enter into written agreements with all customers and sets forth minimum requirements of the contents of the agreements.[25] Providers also would be required to post signs that clearly state that they are not attorneys or otherwise authorized to represent clients in immigration matters and set forth a fee schedule.[26] The bill also would require that a notice accompany any advertising by an immigration assistance provider, which clearly informs prospective customers that the provider is not an attorney and cannot give legal advice .[27] Providers also would be required to retain client documents for three years after a contract is executed.[28] Further, the bill would require providers to maintain a bond of $50,000 as surety for clients who do not receive proper refunds or are otherwise injured by the provider .[29] The bill sets forth civil[30] and criminal[31] penalties for violations .[32] It also creates a civil cause of action for any person who claims to be injured by the failure of a provider of immigration assistance services to comply with the bill.[33]

Int. No. 223-A

By Council Members Stewart, Martinez, Reed, DeBlasio, Liu, Monserrate, Brewer, Palma, Reyna, Clarke, James, Barron, Jackson, Lopez, Comrie Jr., Gonzalez and the Public Advocate (Ms. Gotbaum).

A LOCAL LAW to amend the administrative code of the city of New York, in relation to immigration assistance services.

Be it enacted by the Council as follows:

Section 1. **Declaration of legislative findings and intent.** Persons who assist individuals with immigration matters have a significant impact on the ability of their clients to live and work within the United States and to establish and maintain stable families and business relationships. Given the size of New York City's immigrant community, providers of immigration assistance services have a significant impact on cultural, social and economic life in this city. Presently, minimal regulation of persons who provide immigration assistance services leaves persons who require assistance with immigration matters vulnerable to abuse and unscrupulous practices. The purpose of this legislation is to give immigrants a clear understanding of the work to be performed by providers of immigration assistance services and to promote honesty and fair dealing among providers of immigration assistance services.

§2. Chapter 5 of title 20 of the administrative code of the city of New York is hereby amended by adding a new subchapter 14 to read as follows:

SUBCHAPTER 14
IMMIGRATION ASSISTANCE SERVICES

§ 20-770 Definitions.
§ 20-771 Prohibited Conduct.
§ 20-772 Written Agreement.
§ 20-773 Posting of Signs.
§ 20-774 Advertisements.
§ 20-775 Document Retention.
§ 20-776 Surety.
§ 20-777 Penalties.
§ 20-778 Civil Cause of Action.
§ 20-779 Rules.
§ 20-780 Severability.

§20-770. Definitions. For the purpose of this subchapter, the following terms have the following meanings:

a. "Immigration assistance service" means providing any form of assistance, in the city of New York, for a fee or other compensation, to persons who have come, or plan to come to the United States from a foreign country, or their representatives, in relation to any proceeding, filing or action affecting the non-immigrant, immigrant or citizenship status of a person, which arises under the immigration and nationality law, executive order or presidential proclamation, or which arises under actions or regulations of the United States citizenship and immigration services, the United States department of labor, or the United States department of state.

b. "Provider" means any person, including but not limited to a corporation, partnership, limited liability company, sole proprietorship or natural person, that provides immigration assistance services, but shall not include:

1. any person who is a member in good standing of the bar of the highest court of any state, possession, territory, commonwealth or the District of Columbia, and is not under any order of any court suspending, enjoining, restraining, disbarring, or otherwise restricting him or her in the practice of law, or any person working directly under the supervision of the person admitted;

2. any tax-exempt, not-for-profit organization that provides immigration assistance services without a fee or other payment from individuals or at nominal fees as defined by the federal board of immigration appeals and any employee of such organization acting within the scope of his or her employment;

3. any organization recognized by the federal board of immigration appeals that provides immigration assistance services via representatives accredited by such board to appear before the bureau of citizenship and immigration services and/or executive office for immigration review, that does not charge a fee or charges nominal fees as defined by the board of immigration appeals;

4. any authorized agency under subdivision ten of section three hundred seventy-one of the New York state social services law and the employees of such organization when acting within the scope of such employment;

5. any elected official who, acting within the scope of his or her official capacity, without a fee or other payment makes inquiries on behalf of an individual to the United States citizenship and immigration services, the United States department of labor, the United States department of state or any other government authority responsible for administering any program, law or regulation affecting the non-immigrant, immigrant or citizenship status of a person; or

6. any employee of the office of the mayor or an executive agency of the city of New York who, acting within the scope of his or her capacity as an employee of the office of the mayor or an executive agency of the city of New York, without a fee or other payment makes inquiries on behalf of an individual to the United States citizenship and immigration services, the United States department of labor, the United States department of state or any other government authority responsible for administering any program, law or regulation affecting the non-immigrant, immigrant or citizenship status of a person.

*§ 20-771. **Prohibited conduct.** In the course of providing immigration assistance services, no provider may:*

a. State or imply that the person can or will obtain special favors from or has special influence with the bureau of citizenship and immigration services or any other governmental entity, or threaten to report the client to immigration or other authorities or undermine in any way the client's immigration status or attempt to secure lawful status;

b. Demand or retain any fees or compensation for services not performed, or costs that are not actually incurred;

c. Fail to provide a customer with copies of documents filed with a governmental entity or refuse to return original documents supplied by, prepared on behalf of, or paid for by the customer, upon the request of the customer, or upon termination of the contract. Original documents must be returned promptly upon request and upon cancellation of the contract, even if there is a fee dispute between the immigration assistance provider and the customer;

d. Assume, use or advertise the title of lawyer or attorney at law, or equivalent terms in the English language or any other language, or represent or advertise other titles or credentials, including but not limited to "Notary Public", "Accredited Representative of the Board of Immigration Appeals" or "Immigration Consultant," that could cause a customer to believe that the person possesses special professional skills or is authorized to provide advice on an immigration matter; provided that a notary public licensed by the secretary of state may use the term "Notary Public";

e. Give any legal advice concerning an immigration matter or otherwise engage in the practice of law;

f. Make any guarantee or promise to a customer, unless there is a basis in fact for such representation, and the guarantee or promise is in writing;

g. Represent that a fee may be charged, or charge a fee for the distribution, provision or submission of any official document or form issued or promulgated by a state or federal governmental entity, or for a referral of the customer to another person or entity that is qualified to provide services or assistance which the immigration assistance service provider will not provide;

h. Disclose any information to, or file any forms or documents with, immigration or other authorities without the knowledge or consent of the customer.

*§ 20-772. **Written Agreement.** No immigration assistance services shall be provided until the customer has executed a written contract with the provider who will provide such services. The contract shall be in a language understood by the customer, either alone or with the assistance of an available interpreter, and, if that language is not English, an English language version of the contract must also be provided. A copy of the contract shall be provided to the customer upon the customer's execution of the contract. The customer has the right to cancel the contract within three business days after his or her execution of the contract, without fee or penalty. The right to cancel the contract within three days without payment of any fee may be waived when services must be provided immediately to avoid a forfeiture of eligibility or other loss of rights or privileges, and the customer furnishes the provider with a separate dated and signed statement, by the customer or his or her representative, describing the need for services to be provided within three days and expressly acknowledging and waiving the right to cancel the contract within three days. The contract may be cancelled at any time after execution. If the contract is cancelled after three days, or within three days if the right to cancel*

without fee has been waived, the provider may retain fees for services rendered, and any additional amounts actually expended on behalf of the customer. All other amounts must be returned to the customer within fifteen days after cancellation. The written contract shall be in plain language, in at least twelve point type and shall include the following:

1. The name, address and telephone number of the provider.

2. Itemization of all services to be provided to the customer, as well as the fees and costs to be charged to the customer.

3. A statement that original documents required to be submitted in connection with an application made to the federal bureau of citizenship and immigration services or for other certifications, benefits or services provided by government may not be retained by the provider for any reason, including payment of fees or costs.

4. A statement that the provider shall give the customer a copy of each document filed with a governmental entity.

5. A statement that the customer is not required to obtain supporting documents through the provider, but may obtain such documents himself or herself.

6. The statement: "You have three (3) business days to cancel this contract. Notice of cancellation must be in writing, signed by you and mailed by registered or certified United States mail to (specify address). If you cancel this contract within three days, you will get back your documents and any fees that you paid."

7. A statement that the provider has financial surety in effect for the benefit of any customer in the event that the customer is owed a refund, or is damaged by the actions of the provider, together with the name, address and telephone number of the surety.

8. The statement: "The individual providing assistance to you under this contract is not an attorney licensed to practice law or accredited by the board of immigration appeals to provide representation to you before the bureau of citizenship and immigration services, the department of labor, the department of state or any immigration authorities and may not give legal advice or accept fees for legal advice."

9. The statement: "The individual providing assistance to you under this contract is prohibited from disclosing any information or filing any forms or documents with immigration or other authorities without your knowledge and consent."

10. The statement: "A copy of all forms completed and documents accompanying the forms shall be kept by the service provider for three years. A copy of the customer's file shall be provided to the client on demand and without fee."

§20-773. Posting of Signs.

a. A provider must post signs at every location where that provider meets with customers that states the following: "THE INDIVIDUAL PROVIDING ASSISTANCE TO YOU UNDER THIS CONTRACT IS NOT AN ATTORNEY LICENSED TO PRACTICE LAW OR ACCREDITED BY THE BOARD OF IMMIGRATION APPEALS TO PROVIDE REPRESENTATION TO YOU BEFORE THE BUREAU OF CITIZENSHIP AND IMMIGRATION SERVICES, THE DEPARTMENT OF LABOR, THE DEPARTMENT OF STATE OR ANY IMMIGRATION AUTHORITIES AND MAY NOT GIVE LEGAL ADVICE OR ACCEPT FEES FOR LEGAL ADVICE." A separate sign shall be posted in a location visible to customers in conspicuous size type and which contains the schedule of fees for services offered and the statement: "YOU MAY CANCEL ANY CONTRACT WITHIN 3 BUSINESS DAYS AND GET BACK YOUR DOCUMENTS AND ANY MONEY YOU PAID."

b. Signs required by this section must be at least 11 inches by 17 inches and must be posted in a conspicuous location in English and in every other language in which immigration assistance services are provided at the location.

§20-774. Advertisements.

a. Every provider who advertises immigration assistance services by signs, pamphlets, newspapers or any other means shall post or otherwise include with the advertisement a notice in English and in the language in which the advertisement appears. The notice must be of a conspicuous size and must state: "The individual providing assistance to you is not an attorney licensed to practice law or accredited by the board of immigration appeals to provide representation to you before the bureau of citizenship and immigration services, the department of labor, the department of state or any immigration authorities and may not give legal advice or accept fees for legal advice."

b. No advertisement for immigration assistance services may expressly or implicitly guarantee any particular government action, including but not limited to the granting of residency or citizenship status.

***§ 20-775. Document Retention.** Every provider shall retain copies of all documents prepared or obtained in connection with a customer's request for assistance for a period of three years after a written contract is executed by the provider and the customer, whether or not such contract is subsequently cancelled.*

***§ 20-776. Surety.** Unless otherwise required by New York State law, every provider must maintain in full force and effect a bond, contract of indemnity, or irrevocable letter of credit, payable to the people of the city of New York, in the principal amount of fifty thousand dollars. Such surety shall be for the benefit of any person who does not receive a refund of fees from the provider to which he or she is entitled, or is otherwise injured by the provider. The Commissioner on behalf of the person or the person in his or her own name may maintain an action against the provider and the surety.*

***§ 20-777. Penalties.** a. (1) Criminal Penalties. Any provider who violates any provision of this subchapter shall be guilty of a class A misdemeanor.*

(2) Civil Penalties. Any provider of immigration assistance services who violates any provision of this subchapter or any rule or regulation promulgated hereunder shall be liable for a civil penalty of not less than two hundred fifty dollars nor more than two thousand five hundred dollars for the first violation and for each succeeding violation a civil penalty of not less than five hundred dollars nor more than five thousand dollars.

b. A proceeding to recover any civil penalty authorized pursuant to the provisions of this section shall be commenced by the service of a notice of violation that shall be returnable to the administrative tribunal of the department of consumer affairs.

***§ 20-778. Civil Cause of Action.** Any person claiming to be injured by the failure of a provider of immigration assistance services to comply with the provisions of this subchapter shall have a cause of action against such provider of immigration assistance services in any court of competent jurisdiction for any or all of the following relief:*

a. compensatory and punitive damages;

b. injunctive and declaratory relief;

c. attorney's fees and costs; and

d. such other relief as a court deems appropriate.

***§ 20-779. Rules.** The commissioner may promulgate such rules and regulations as are necessary for the purposes of implementing and carrying out the provisions of this subchapter. Upon a finding by the commissioner that the requirements of state law applicable to providers of immigration services are substantially the same as the requirements of this subchapter, compliance with state law shall be deemed to be compliance with the requirements of this subchapter.*

***§ 20-780. Severability.** If any section, subsection, sentence, clause, phrase or other portion of this subchapter is, for any reason, declared unconstitutional or invalid, in whole or in part, by any court of competent jurisdiction, such portion shall be deemed severable, and such unconstitutionality or invalidity shall not affect the validity of the remaining portions of this law, which shall continue in full force and effect.*

§3. This local law shall take effect 90 days after enactment.

KENDALL STEWART, Chairperson; CHARLES BARRON, LEWIS A. FIDLER, MIGUEL MARTINEZ, ANNABEL PALMA, Committee on Immigration, June 28, 2004.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

COMMITTEE ACTION

DATE: June 14, 2004

The Committee recommends that the Council approve the attached resolution and thereby approve the decision of the City Planning Commission.

In connection herewith, Council Members Katz and Avella offered the following resolution:

Res. No. 448

Resolution approving the decision of the City Planning Commission on ULURP No. C 040171 ZMK, a Zoning Map change (L.U. No. 147).

By Council Members Katz and Avella.

WHEREAS, the City Planning Commission filed with the Council on May 10, 2004 its decision dated May 10, 2004 (the "Decision"), on the application submitted by the Department of City Planning, pursuant to Sections 197-c and 201 of the New York City Charter, for an amendment to the Zoning Map (ULURP No. C 040171 ZMK) (the "Application");

WHEREAS, the Application is related to Applications Numbers C 040172 ZRK (L.U. No. 148) amendments to the text of the Zoning Resolution; C 030514 MMK (LU. No. 149), C 030515 MMK (L.U. No. 150), C 030516 MMK (L.U. No. 151), C 030517 MMK (L.U. No. 152) amendments to the City Map; C 040173 HUK (L.U. No. 153), C 040174 HUK (L.U. No.154), C 040175 HUK (L.U. No. 155) urban renewal plan amendments; N 040176 HGK (L.U. No. 156), urban renewal area designation; C 040177 HDK (L.U. No. 157), C 040178 HDK (L.U. No. 158), C 040179 HDK (L.U. No. 159) disposition of city-owned properties within the urban renewal area; C 040180 PPK (L.U. No. 160) disposition of city-owned property; C 040181 ZSK (L.U. No. 161), C 040182 ZSK (L.U. No. 162), C 040183 ZSK (L.U. No. 163), C 040184 ZSK (L.U. No. 164) special permits; C 040185 PSK (L.U. No. 165) site selection of property;

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d(b)(1) of the City Charter;

WHEREAS, upon due notice, the Council held a public hearing on the Decision and Application on June 8, 2004 and was recessed until June 10, 2004;

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Decision and Application; and

WHEREAS, the Council has considered the relevant environmental issues and the Final Environmental Impact Statement ("FEIS") for which a Notice of Completion was issued on April 30, 2004 which identified significant adverse impacts and proposed mitigation measures (CEQR No. 03DME016K);

RESOLVED:

Having considered the FEIS, with respect to the Application, the Council finds that:

(1) The FEIS meets the requirements of 6 N.Y.C.R.R. Part 617;

(2) From among the reasonable alternatives thereto, the actions to be approved are ones which minimize or avoid adverse environmental impacts to the maximum extent practicable; and

(3) The adverse environmental impacts revealed in the FEIS will be minimized or avoided to the maximum extent practicable by incorporating as conditions to the approval those mitigative measures that were identified as practicable;

(4) The Decision and the FEIS constitute the written statement of facts, and of social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).

Pursuant to Sections 197-d and 200 of the City Charter and on the basis the Decision and Application, the Council approves the Decision.

The Zoning Resolution of the City of New York, effective as of December 15, 1961, and as subsequently amended, is further amended by changing the Zoning Map, Section Nos. 12d and 16c:

1. eliminating from an existing R6 District a C1-3 District bounded by a line 200 feet northerly of Myrtle Avenue, Prince Street, Myrtle Avenue, a line 100 feet easterly of Prince Street, Fair Street, Fleet Place, a line 85 feet southerly of Fair Street, Prince Street, the westerly centerline prolongation of Fair Street, Flatbush Avenue Extension, and Gold Street;

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Decision and Application; and

WHEREAS, the Council has considered the relevant environmental issues and the Final Environmental Impact Statement ("FEIS") for which a Notice of Completion was issued on April 30, 2004 which identified significant adverse impacts and proposed mitigation measures (CEQR No. 03DME016K);

RESOLVED:

Having considered the FEIS, with respect to the Application, the Council finds that:

(1) The FEIS meets the requirements of 6 N.Y.C.R.R. Part 617;

(2) From among the reasonable alternatives thereto, the actions to be approved are ones which minimize or avoid adverse environmental impacts to the maximum extent practicable; and

(3) The adverse environmental impacts revealed in the FEIS will be minimized or avoided to the maximum extent practicable by incorporating as conditions to the approval those mitigative measures that were identified as practicable;

(4) The Decision and the FEIS constitute the written statement of facts, and of social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).

Pursuant to Sections 197-d and 200 of the City Charter and on the basis of the Decision and Application, the Council approves the Decision with the following modifications; and

The Zoning Resolution of the City of New York, effective as of December 15, 1961, and as subsequently amended, is further amended as follows:

Subdistricts

In order to carry out the provisions of this Chapter, two subdistricts are established within the #Special Downtown Brooklyn District#. In each of these subdistricts, certain special regulations apply which do not apply within the remainder of the #Special Downtown Brooklyn District#. The subdistricts are outlined on Map 1 (Special Downtown Brooklyn District and Subdistricts) in Appendix E of this Chapter. Special regulations set forth in Sections ~~101-20 through 101-252,~~ 101-60 through 101-632 inclusive, shall apply to the Fulton Mall Subdistrict. Special regulations set forth in Sections ~~101-30 through 101-36,~~ 101-70 through 101-75 and Appendices A, B, C and D, inclusive, shall apply to the Atlantic Avenue Subdistrict. The subdistricts are also subject to all other regulations of the #Special Downtown Brooklyn District# and the underlying districts except as otherwise specified in the subdistrict regulations.

101-11

Special Ground Floor Use Regulations

(new text that consolidates existing special use regulations from Fulton Mall and Atlantic Avenue Subdistricts. No changes to allowed uses in Fulton Mall or Atlantic Avenue Subdistricts, except that libraries, museums and non-commercial art galleries are added as allowed uses throughout Downtown Brooklyn.)

Map 2 in Appendix E of this Chapter (Ground Floor Retail Frontage) specifies locations where the special ground floor #use# ~~frontage~~ regulations of this Section apply.

#Uses# located on the ground floor level or within five feet of #curb level#, and within 50 feet of the #streetline# shall be limited to #commercial uses# listed in Use Groups 5, 6A, 6C, 6D, 7A, 7B, 8A, 8B, 8D, 9, 10, 11, 12A, 12B and 12C, where such #uses# are permitted by the underlying district. In addition, libraries, museums and non-commercial art galleries shall be permitted. A building's #street# frontage shall be allocated exclusively to such #uses#, except for lobby space, entryways or entrances to subway stations. However, loading berths serving any permitted #use# in the #building# may occupy up to 40 feet of such #street# frontage provided such #street# frontage is not subject to curb cut restrictions as shown on Map 4 (Curb cut restrictions).

In no event shall the length of #street# frontage occupied by lobby space or entryways exceed, in total, 30 feet or 50 percent of the building's total #street# frontage, whichever is less.

The regulations of this Section 101-11 are modified as follows:

(a) Fulton Mall Subdistrict

For #buildings in the Fulton Mall Subdistrict, use group 6A shall not include post offices, dry cleaning, laundry, or shoe and hat repair establishments. Use group 6C shall not include automobile supply establishments, electrolysis studios, frozen food lockers, loan offices, or locksmiths. Use Group 8A shall not include billiard parlors, pool halls, bowling alleys or model car hobby centers. Use Group 9 shall be prohibited except for typewriter stores. Use Group 10 shall not include depositories for office records, microfilm or computer tapes. Use groups 6D, 7A, 7B, 8B, 8D, 11, 12A and 12C shall be prohibited. Furthermore, no bank or off-track betting establishment shall occupy more than 30 feet of frontage at the ground floor of any #development# along the #street line# of Fulton Street. Any establishment which fronts on the #street line# of Fulton Street for a distance greater than 15 feet shall provide an entrance on Fulton Street.

(b) Atlantic Avenue Subdistrict

Automotive service stations are not permitted. No bank, loan office, business or professional office or individual use in Use Group 9 shall occupy more than 50 feet of linear frontage on Atlantic Avenue. Moving and storage uses in Use Group 7 are permitted on the ground floor of a #building# only if such #use# is located at least 50 feet from the front wall of the #building# in which the #use# is located. Any new #development# or #enlargement# on a #zoning lot# of 3,500 square feet or more shall have a minimum of 50 percent of the ground #floor area# of the #building# devoted to permitted #commercial uses# in Use Group 6, 7 or 9, except that this requirement shall not apply to any new #development# or #enlargement# occupied entirely by #community facility use#.

In any #development# or #enlargement# within the Atlantic Avenue Subdistrict, the provisions of Section 32-421 (Limitation on floors occupied by non-residential uses) restricting the location of non-#residential uses# listed in Use Groups 6, 7, 8, 9 or 14 to below the level of the first #story# ceiling in any #building# occupied on one of its upper stories by #residential# or #community facility uses#, shall not apply. In lieu thereof, such non-#residential uses# shall not be located above the level of the second #story# ceiling.

101-12

Transparency Requirements

Map 3 in Appendix E (Ground Floor Transparency Requirements) specifies locations where the following transparency requirements apply:

For any new #development# or #enlargement#, each ground floor #street wall# shall be glazed with transparent materials which may include #show windows#, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 50 percent of the area of each such ground floor #street wall#, measured to a height of 10 feet above the level of the adjoining sidewalk. Where such glazed area is required to occupy at least 70 percent of the area of the ground floor #street wall#, up to 20 percent of the area of the ground floor #street wall# may be glazed with translucent materials. #Show windows# shall have a sill height not more than 2 feet, six inches above #curb level#.

For all locations specified on Map 3, security gates installed after (the effective date of this amendment) that are swung, drawn or lowered to secure #commercial# or #community facility# premises shall, when closed, permit visibility of at least 75 percent of the area covered by such gate when viewed from the #street#.

101-13

Sign Regulations

(new text. Sign regulations for Fulton Mall and Atlantic Avenue remain unchanged except that banners and 2-faced signs as per 101-131 will be permitted throughout Downtown Brooklyn)

In the #Special Downtown Brooklyn District#, except as modified by the provisions of Section 101-131, the regulations of Section 32-60, et. seq., pertaining to #signs#, shall apply. Further regulations for the Fulton Mall Subdistrict and the Atlantic Avenue Subdistrict are set forth in Section 101-60, inclusive, and Section 101-70, inclusive.

101-131

Permitted projection

The provisions of Section 32-652 (Permitted projection in all other Commercial Districts) shall not apply. In lieu thereof, the provisions of this Section shall apply.

No permitted #sign# shall project across a #street line# more than 12 inches, except as provided below.

Banners for theaters may project across a #street line# for a maximum distance of four feet, provided such banners are separated at least 25 feet apart, and further provided that such banners are located between 12 feet and 40 feet above #curb level#.

For each establishment located on the ground floor, #non-illuminated# double-faced #signs# may project perpendicularly across a #street line# for a maximum distance of 40 inches, provided that: no more than two such #signs#, separated at least 25 feet apart, are permitted along each #street# on which such establishment fronts, and further provided that any such #sign# shall not exceed a surface area of 24 by 36 inches, and shall not be located above the sill level of the second #story# windows.

101-21

Special Floor Area and Lot Coverage Regulations

R7-1 C5-4 C6-1 C6-4.5

(a) In R7-1 Districts

In R7-1 Districts, the #floor area ratio# and #open space ratio# provisions applicable to #residential buildings# and #residential# portions of #mixed buildings# pursuant to Sections 23-142, 23-143 and 23-144 shall not apply. In lieu thereof, the maximum #floor area ratio# for #residential buildings# or #residential# portions of #mixed buildings# shall be 4.0, except that for #non-profit residences for the elderly# the maximum #floor area ratio# shall be 5.01. The maximum #lot coverage# for #residential buildings# or #residential# portions of #mixed buildings# shall be 65 percent for #interior lots#, except that for #non-profit residences for the elderly# the maximum #lot coverage# for #interior lots# shall be 70 percent. For all #residential buildings# or #residential# portions of #mixed buildings#, the maximum #lot coverage# for #corner lots# shall be 80 percent.

(b) In C6-1 Districts

In C6-1 Districts, the #floor area ratio# and #open space ratio# provisions applicable to #residential buildings# and #residential# portions of #mixed

buildings# pursuant to Sections 23-142, 23-143 and 23-144 shall not apply. In lieu thereof, the maximum #floor area ratio# for #residential buildings# or #residential# portions of #mixed buildings# shall be 3.44, except that for #non-profit residences for the elderly# the maximum #floor area ratio# shall be 5.01. The maximum #lot coverage# for #residential buildings# or #residential# portions of #mixed buildings# shall be 65 percent for #interior lots#, except that for #non-profit residences for the elderly# the maximum #lot coverage# for #interior lots# shall be 70 percent. For all #residential buildings# or #residential# portions of #mixed buildings#, the maximum #lot coverage# for #corner lots# shall be 80 percent. For #buildings developed# or #enlarged# pursuant to the Quality Housing Program, the underlying #floor area ratio# and #lot coverage# regulations shall apply.

(c) In C6-4.5 Districts

In C6-4.5 Districts, the maximum permitted #floor area ratio# for #commercial# or #community facility uses# shall be 12. No #floor area# bonuses for #commercial# or #community facility uses# shall be permitted.

101-211
Special Permit for Subway Station Improvements

Within the Special Downtown Brooklyn District, the City Planning Commission may grant, by special permit, a #floor area# bonus for #buildings# that provide subway station improvements, pursuant to the provisions of Section 74-634 (Subway station improvements in Downtown Brooklyn and in commercial zones of 10 FAR and above in Manhattan).

The total additional #floor area# permitted on the #zoning lot# shall not exceed 20 percent of the basic maximum #floor area ratio# permitted by the underlying district regulations.

For the purposes of the Special District, the #zoning lot# for the development# or #enlargement# that will receive the #floor area# bonus shall be adjacent to a subway station where major improvements have been provided. Upon completion of the improvement, the #zoning lot# will physically adjoin a subway station mezzanine, platform, concourse or connecting passageway.

The subway stations where such improvements are permitted are listed in the following table and shown on Map 7 (Subway Station Improvement Areas) in Appendix E.

101-22
Special Height and Setback Regulations

The provisions of Section 101-221 (Permitted Obstructions) shall apply to all #buildings# within the #Special Downtown Brooklyn District.

In R7-1, C5-4, C6-1, and C6-4 Districts, except C6-1A Districts, the underlying height and setback regulations shall not apply. In lieu thereof, all #developments# or #enlargements# shall comply with the provisions of Section 101-222 (Standard height and setback regulations), or, as an option where applicable, Section 101-223 (Tower regulations). #Developments# or #enlargements# within the **Flatbush Avenue Extension and** Schermerhorn Street Height Limitation Areas shall comply with the provisions of Section 101-30 (SPECIAL REGULATIONS WITHIN [THE SCHERMERHORN STREET] HEIGHT LIMITATION AREAS). However, the underlying height and setback regulations shall apply to any #building developed# or #enlarged# pursuant to the Quality Housing Program, except that the Quality Housing Program shall not be applicable within any R7-1 District mapped within a C2-4 District.

101-221
Permitted Obstructions

The provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings# within the #Special Downtown Brooklyn District#, except that elevator or stair bulkheads, roof water tanks, cooling towers or other #accessory# mechanical equipment (including enclosures) may penetrate a maximum height limit provided the product, in square feet, of the #aggregate width of street walls# of such obstructions facing each #street# frontage, times their average height, in feet, shall not exceed a figure equal to eight times the width, in feet, of the #street wall# of the #building# facing such frontage, or, the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building# and the height of all such obstructions does not exceed 40 feet. In addition, dormers may penetrate a maximum base height in accordance with the provisions of paragraph (c) of Section 23-621 (Permitted obstructions in certain districts).

101-222
Standard height and setback regulations

R7-1 C5-4 C6-1 C6-4

In the districts indicated, except C6-1A Districts, a #building or other structure# shall not exceed the applicable maximum building height set forth in the following table. Furthermore, any portion of a #building or other structure# that exceeds the applicable maximum base height shall be set back at least 10 feet from a #wide street line# and at least 15 feet from a #narrow street line#.

101-223
Tower regulations

C5-4 C6-1 C6-4

In the districts indicated, except C6-1A Districts, the provisions of this Section shall apply as an alternative to the provision of 101-222 (Standard height and setback regulations).

(a) Setback requirements for residential towers

For #developments# or #enlargements# that contain #residential floor area# above a height of 85 feet, a setback is required for all portions of such #buildings# that exceed a height of 85 feet. Such portions of #buildings# shall be set back at least 10 feet from a #wide street line# and at least 15 feet from a #narrow street line#.

(b) Setback requirements for commercial or community facility towers

For #developments# or #enlargements# that contain #commercial# or #community facility floor area# above a height of 85 feet, a setback is required for all portions of such #buildings# that exceed a height of 85 feet. For #zoning lots# that do not exceed a #lot area# of 15,000 square feet, such portions of #buildings# shall be set back at least 10 feet from a #wide street line# and at least 15 feet from a #narrow street line#. For #zoning lots# that exceed an area of 15,000 square feet, such portions shall be set back at least 20 feet from any #street line#.

However, setbacks shall not be required for any portion of a #building# fronting upon the south side of Willoughby Street between Gold Street and Flatbush Avenue Extension, or

upon that portion of Flatbush Avenue Extension between Willoughby Street and DeKalb Avenue within 250 feet of Willoughby Street.

(c) Lot coverage requirements for towers

All #developments# or #enlargements#, or portions thereof, shall have a maximum #lot coverage# of 65 percent of the #lot area# of the #zoning lot# above a height of 150 feet, up to a height of 300 feet. Above a height of 300 feet, all #developments# or #enlargements#, or portions thereof, shall have a maximum #lot coverage# of 50 percent of the #lot area# of the #zoning lot#. However, any #development# or #enlargement# containing #residential floor area# shall have, above a height of 150 feet, a maximum #lot coverage# of 40 percent of the #lot area# of the #zoning lot#, or, for #zoning lots# less than 20,000 square feet, the percentage set forth in the following table:

LOT COVERAGE OF TOWERS ON SMALL ZONING LOTS

Area of #Zoning Lot# (in sq ft)	Maximum Percentage of #Lot Coverage#
10,500 or less	50
10,501 to 11,500	49
11,501 to 12,500	48
12,501 to 13,500	47
13,501 to 14,500	46
14,501 to 15,500	45
15,501 to 16,500	44
16,501 to 17,500	43
17,501 to 18,500	42
18,501 to 19,999	41

(d) Maximum building height

In C6-1 Districts, the maximum height of a #building or other structure developed# or #enlarged# pursuant to this Section 101-223 shall be 495 feet. No height limit shall apply within a C5-4 or C6-4 District.

101-30
SPECIAL PROVISIONS [FOR SCHERMERHORN STREET] WITHIN HEIGHT LIMITATION AREAS

The provisions of this Section shall apply within the **Flatbush Avenue Extension and** Schermerhorn Street Height Limitation Areas, as shown on Map 7 in Appendix E of this Chapter.

(a) Flatbush Avenue Extension Height Limitation Area

Within the Flatbush Avenue Extension Height Limitation Area, no #building or other structure# shall exceed a height of 400 feet.

(b) Schermerhorn Street Height Limitation Area

Within the Schermerhorn Street Height Limitation Area, the provisions of this paragraph (b) shall apply:

[(a)](1) Urban plaza prohibition

No #urban plazas# shall be permitted within Area B.

[(b)](2) Height and setback regulations

The tower provisions of Section 101-223 shall not apply. The standard height and setback regulations of Section 101-222 shall apply within Area A, and are modified to limit maximum #building# height to 140 feet within Area B, and to permit a maximum #building# height of 250 feet within Area C. For #buildings developed# or #enlarged# pursuant to the Quality Housing Program, the underlying height and setback regulations shall apply; except that the maximum height of a #building# shall be as specified on Map 7, or as specified pursuant to the Quality Housing Program, whichever is less.

[(c)](3) Rear yard modification

The provisions of Section 23-533 (Required rear yard equivalents) shall not apply to any #through lot#. In lieu thereof, an open area with a minimum depth of 60 feet, midway, or within 10 feet of being midway between the two #street lines# upon which such #through lot# fronts, shall be provided. Such #rear yard# shall be unobstructed from its lowest level to the sky, except as provided in Section 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents).

101-40
MANDATORY DISTRICT PLAN ELEMENTS

101-41
Special Street Wall Location Regulations

Map 4 in Appendix E of this Chapter (Street Wall Continuity and Mandatory Sidewalk Widenings) specifies locations where the special #street wall# location regulations of this Section apply. However, such regulations shall not apply along the #street# frontage of that portion of any #zoning lot# occupied by existing #buildings# to remain.

(a) Fulton Mall Subdistrict

Within the Fulton Mall Subdistrict, the #street wall# of any #building# shall be located on the #street line# and shall extend along the full length of the #street line# for that portion of the #development# within the subdistrict, except that on #corner lots#, no #street wall# shall be required within 100 feet of the intersection of two #street lines# where the interior angle formed by such intersecting #street lines# is 45 degrees or less. Such required #street walls# shall extend to a minimum height of 60 feet above #curb level# or the height of the #building#, whichever is less, and a maximum height of 85 feet. Above a height of 85 feet, the provisions of Section 101-222 (Standard height and setback regulations) or 101-223 (Tower regulations) shall apply.

(b) Atlantic Avenue Subdistrict

Within the Atlantic Avenue Subdistrict, the underlying height and setback regulations shall apply, except that the front wall of any #development# or #enlargement# shall be coincident with the #street line# for a minimum height of 16 feet above #curb level#, and, in a C2-4 District mapped within an R6A District, a maximum height of 50 feet above #curb level#, or, in a C2-4 District mapped within an R7A District, a maximum height of 60 feet above #curb level#.

(c) Willoughby Square

For #developments# or #enlargements# fronting upon Willoughby Square, at least 70 percent of the #streetwall# of that portion of the #building# fronting upon Willoughby Square shall be located on the #streetline# and extend to a minimum height of 80 feet and a maximum height of 85 feet. Above a height of 85 feet, the provisions of Section 101-223 (Tower regulations) shall apply.

(d) All other areas

On all other #streets# shown on Map 4, at least 70 percent of the #aggregate width of #street walls# of any #development# or #enlargement# shall be located within eight feet of the #street line# and extend to at least a height of 40 feet in R7-1 Districts mapped within C2-4 Districts and at least a height of 60 feet in all other districts, or the height of the #building#, whichever is less, except that on #corner lots#, no #street wall# shall be

required within 100 feet of the intersection of two #street lines# where the interior angle formed by such intersecting #street lines# is 45 degrees or less.

101-42
Mandatory Sidewalk Widenings

Map 4 in Appendix E of this Chapter (Street Wall Continuity and Mandatory Sidewalk Widenings) specifies locations where the sidewalk widening regulations of this Section apply. Such regulations shall apply to all #developments#, and to those #enlargements# where the #enlarged# portion of the #building# contains a #floor area ratio# of 3.0 or more.

All #buildings# that front upon the southerly #street line# of Willoughby Street between Adams Street and Flatbush Avenue Extension shall provide a five foot deep sidewalk widening along the full frontage of the #zoning lot# along Willoughby Street. Such sidewalk widening shall be improved as sidewalks to Department of Transportation standards, be at the same level as the adjoining public sidewalk, and be accessible to the public at all times. For the purposes of applying the height and setback regulations of Section 101-22, inclusive, and the #street wall# location requirements of Section 101-41, the sidewalk widening line shall be considered to be the #street line#.

101-43
Street Tree Planting Requirements

Map 6 in Appendix E of this Chapter (Street Tree Planting) specifies #streets# where the tree planting requirements of this Section shall apply:

All #buildings# located on the #streets# specified on such map shall provide and maintain trees of not less than four-inch caliper, at the time of planting, in the sidewalk adjacent to the #zoning lot#. Such trees shall be provided for the entire length of the #street# frontage of the #zoning lot#. Such trees shall be planted at maximum intervals of 25 feet and at a distance from the curb consistent with existing tree plantings, except where the Commissioner of Parks determines that such tree planting would be infeasible. These trees shall be provided with metal guards in accordance with Department of Parks and Recreation guidelines.

101-44
Off-Street Relocation or Renovation of a Subway Stair

Where a #development# or #enlargement# is constructed on a #zoning lot# that contains at least 5,000 square feet of #lot area# and fronts on a sidewalk containing a stairway entrance or entrances into a subway station, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. The new entrance or entrances shall be provided in accordance with the provisions of Section 37-03 (Off-Street Relocation or Renovation of a Subway Stair).

The subway stations where such improvements are required are listed in the following table and shown on Map 7 (Subway Station Improvement Areas) in Appendix E.

Station	Line
Borough Hall	Broadway-7th Ave IRT
Court Street	Broadway BMT
Dekalb Avenue	6th Ave IND/ Broadway BMT
Hoyt Street	Broadway-7th Ave/ Lexington Ave IRT

101-45
Indoor Bicycle Parking

C6-1 C6-5 C6-4

In the districts indicated, a designated area for bicycle parking shall be provided for commercial #developments# or #enlargements# with a minimum #floor area ratio# of 5.0. Such designated area shall be provided at a ratio of one square foot per 1,000 square feet of #floor area#, but in no event shall more than 400 square feet be required. Such facility shall be enclosed, accessible and secure. Up to 25 percent of the designated bicycle parking area may be used for #accessory# facilities.

~~101-16~~ **101-50**
OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS

101-51
Parking Requirements in R7-1 Districts

In R7-1 Districts, the provisions of Article 2 Chapter 5 (ACCESSORY OFF-STREET PARKING AND LOADING FACILITIES) shall apply, except that Section 25-23 (Requirements Where Group Parking Facilities Are Provided) shall be modified to require #accessory# off-#street# parking spaces for at least 50 percent of the total number of new #dwelling units#.

101-52
Curb Cut Restrictions
(Existing Section 101-16)

Along the #streets# specified on Map 5 (Curb Cut Restrictions) in Appendix E of this Chapter, no curb cuts for parking facilities or loading berths shall be permitted. However, the City Planning Commission may, by authorization, permit a curb cut on a #street# specified on Map 5 in Appendix E, for parking facilities and loading berths on a #zoning lot# that does not have access or egress on another #street#, provided that such curb cut will not unduly inhibit surface traffic or result in conflict between pedestrian and vehicular circulation, and will result in a good overall site plan.

Any alteration, #incidental alteration# or minor work (including any change in, addition to or removal from the parts or materials of a #building#, including finishes) done to the front wall of any #building# of the #specified building type# shall comply with the following standards:

(a) Alteration or reconstruction of storefronts shall comply with the provisions of Section ~~101-344~~ 101-734 (Special provisions for storefronts).

* * *

(c) Front walls which are replaced shall have windows at each floor, the area of which shall comply with the provisions of Section ~~101-343~~ 101-733 (Special provisions for new development and enlargement). Such windows shall have stone or precast lintels and sills having a minimum height of six inches and extending at least four inches beyond the window opening on either side. Existing window openings above the ground floor may not be reduced in size but may be completely sealed if the window area provisions of Section ~~101-343~~ 101-733 are met. Such openings shall be completely sealed with masonry recessed at least two inches behind the wall and finished to match the wall. New windows shall be double-hung, fixed or casement sash finished in an approved manner, as indicated in Appendix D of this Chapter.

(d) No existing cornice shall be removed unless required by the Department of Buildings. A cornice which must be removed shall be replaced by a new cornice having the same height, length and projection beyond the surface of the wall and finished in an approved color, as indicated in Appendix D of this Chapter.

~~101-342~~ 101-732
Special provisions for other existing buildings

Any alteration, #incidental alteration# or minor work done to the front wall of any #building# not of the #specified building type#, shall comply with the following standards:

(a) alteration or replacement of storefronts shall comply with the provisions of Section ~~101-344~~ 101-734 (Special provisions for storefronts); and

(b) alteration or replacement of front walls shall comply with the provisions of Sections ~~101-331~~ 101-721 (Height and setback) and ~~101-343~~ 101-733 (Special provisions for new development and enlargement).

~~101-343~~ 101-733
Special provisions for new development and enlargement

The front wall of any new #development# or #enlargement# shall be built to comply with the following standards:

(a) The front wall shall extend along the full length of the Atlantic Avenue #street line#. It may be interrupted at the ground level by entrances or exits for off-street parking or loading spaces permitted ~~under the provisions of Section 101-311 (Restricted and special permit uses).~~ pursuant to Section 101-744 (Special permit for public parking garages or public parking lots).

Front wall recesses are permitted for architectural purposes provided that the aggregate length at the level of any #story# does not exceed 25 percent of the length of the front wall where such recesses are permitted. The depth of such recesses shall not exceed three feet. No recesses are permitted within 20 feet of the intersections of two #street lines# forming an angle of 100 degrees or less.

~~(b) Windows or glazed doors shall occupy at least 45 percent of that area of the ground floor wall not occupied by storefronts. (For the purposes of calculation, the height of the ground floor wall shall be measured between #curb level# and the ground floor ceiling).~~

~~(c)~~(b) Windows shall occupy at least 35 percent of the wall area at the level of any #story# above the ground floor. (For the purposes of calculation, the wall height at any #story# shall be measured between the floor and ceiling of that #story#).

~~(d)~~(c) Window and door framing trim shall be finished in an approved color as indicated in Appendix D.

~~101-344~~ 101-734
Special provisions for storefronts

No storefront of the #specified storefront type# shall be demolished unless its demolition is required by the Department of Buildings. Reconstruction or repair of storefronts of the #specified storefront type# shall be done in such a manner as to retain or restore the original design and materials, except that plate glass may be replaced by transparent plastic. Such storefronts shall be finished in an approved manner, as indicated in Appendix D of this Chapter.

In addition to the transparency requirements of Section 101-12, new storefronts installed in any existing or new #building# shall comply with the following standards:

(a) A store front installed in a #building# of the #specified building type# shall occupy at least the same area of the front wall as the original storefront. A storefront installed in any other #building# shall occupy the entire frontage of the front wall devoted to #commercial uses#.

~~(b) A minimum of 50 percent of the storefront area shall be glazed with transparent materials and may include #show windows#, glazed transoms or glazed portions of doors. The storefront area shall be measured horizontally between the outermost framing elements and vertically between #curb level# and the bottom of any cornice or fascia. #Show windows# shall have a sill height of not more than 2 feet, 6 inches above #curb level# and a total height of not less than 10 feet, 0 inches above #curb level#.~~

~~(c)~~(b) Storefront entrance doors shall be set back a minimum of 2 feet, 0 inches behind the vertical surface of the #show windows#. A minimum of 50 percent of the door area shall be transparent glazed.

~~(d)~~(c) In the case of existing #buildings#, no existing cornice above a storefront shall be demolished unless required by the Department of Buildings. A cornice which is removed shall be replaced by a cornice having the same length, height and projection beyond the surface of the front wall. In any #building# of the #specified building type# where the original cornice above the storefront has been previously removed, any new storefront shall incorporate a cornice or fascia extending the full length of the store front and having a minimum height of 2 feet, 0 inches.

~~(e) If rolling security doors or grilles are installed, they shall be incorporated into the storefront in such a manner that no part of the door or grille or its enclosure or operating mechanism projects more than 10 inches beyond the surface of the #show windows#.~~

~~(f)~~(d) All framing elements, trim elements, doors, etc. of the storefront shall be finished in an approved manner, as indicated in Appendix D.

~~(g)~~(e) Any awning or canopy attached to a #building# with a storefront which incorporates a cornice shall be attached in such manner as not to obscure or cover the cornice.

in accordance with Map Nos. V-2663 and V-2664 dated November 20, 2003 and signed by the Borough President.

INTENT

To eliminate, discontinue and close Pearl Street between Willoughby Street and Fulton Street in addition to the adjustment of grades and any acquisition or disposition of real property related thereto.

COMMITTEE ACTION

DATE: June 14, 2004

The Committee recommends that the Council approve the attached resolution and thereby approve the decision of the City Planning Commission.

In connection herewith, Council Members Katz and Avella offered the following resolution:

Res. No. 450

Resolution approving the decision of the City Planning Commission on ULURP No. C 030514 MMK, an amendment to the City Map (L.U. No. 149).

By Council Members Katz and Avella

WHEREAS, the City Planning Commission filed with the Council on May 10, 2004, its decision dated May 10, 2004 (the "Decision"), on the application submitted by the Department of City Planning, pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et seq.* of the New York City Administrative Code, for a change in the City Map involving:

- the elimination, discontinuance and closing of Pearl Street between Willoughby Street and Fulton Street;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto;

Community District 2, Borough of Brooklyn, in accordance with Map Nos. V-2663 and V-2664 dated November 20, 2003 and signed by the Borough President (ULURP No. C 030514 MMK) (the "Application");

WHEREAS, the Application is related to Applications Numbers C 040171 ZMK (L.U. No. 147) amendments to the Zoning Map; C 040172 ZRK (L.U. No. 148) amendments to the text of the Zoning Resolution; C 030515 MMK (L.U. No. 150), C 030516 MMK (L.U. No. 151), C 030517 MMK (L.U. No. 152) amendments to the City Map; C 040173 HUK (L.U. No. 153), C 040174 HUK (L.U. No.154), C 040175 HUK (L.U. No. 155), urban renewal plan amendments; N 040176 HGK (L.U. No. 156), urban renewal area designation; C 040177 HDK (L.U. WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d(b)(3) of the City Charter;

WHEREAS, upon due notice, the Council held a public hearing on the Decision and Application on June 8, 2004 and was recessed until June 10, 2004;

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Decision and Application; and

WHEREAS, the Council has considered the relevant environmental issues and the Final Environmental Impact Statement ("FEIS") for which a Notice of Completion was issued on April 30, 2004 which identified significant adverse impacts and proposed mitigation measures (CEQR No. 03DME016K);

RESOLVED:

Having considered the FEIS, with respect to the Application, the Council finds that:

(1) The FEIS meets the requirements of 6 N.Y.C.R.R. Part 617;

(2) From among the reasonable alternatives thereto, the actions to be approved are ones which minimize or avoid adverse environmental impacts to the maximum extent practicable; and

(3) The adverse environmental impacts revealed in the FEIS will be minimized or avoided to the maximum extent practicable by incorporating as conditions to the approval those mitigative measures that were identified as practicable;

(4) The Decision and the FEIS constitute the written statement of facts, and of social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).

Pursuant to Sections 197-d and 199 of the New York City Charter, the Council approves the Decision.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

COMMITTEE ACTION

DATE: June 14, 2004

The Committee recommends that the Council approve the attached resolution and thereby approve the decision of the City Planning Commission.

In connection herewith, Council Members Katz and Avella offered the following resolution:

Res. No. 452

Resolution approving the decision of the City Planning Commission on ULURP No. C 030516 MMK, an amendment to the City Map (L.U. No. 151).

By Council Members Katz and Avella

WHEREAS, the City Planning Commission filed with the Council on May 10, 2004, its decision dated May 10, 2004 (the "Decision"), on the application submitted by the Department of City Planning, pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et seq.* of the New York City Administrative Code, for a change in the City Map involving:

- the widening of Willoughby Street between Albee Square and Flatbush Avenue Extension;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto;

Community District 2, Borough of Brooklyn, in accordance with Map No. V-2667 dated November 20, 2003 and signed by the Borough President (ULURP No. C 030516 MMK) (the "Application");

WHEREAS, the Application is related to Applications Numbers C 040171 ZMK (L.U. No. 147) amendments to the Zoning Map; C 040172 ZRK (L.U. No. 148) amendment to the text of the Zoning Resolution; C 030514 MMK (L.U. No. 149), C 030515 MMK (L.U. No. 150), C 030517 MMK (L.U. No. 152) amendments to the City Map; C 040173 HUK (L.U. No. 153), C 040174 HUK (L.U. No.154), C 040175 HUK (L.U. No. 155), urban renewal amendments; N 040176 HGK (L.U. No. 156), urban renewal area designation; C 040177 HDK (L.U. No. 157), C 040178 HDK (L.U. No. 158), C 040179 HDK (L.U. No. 159) urban renewal area dispositions; C 040180 PPK (L.U. No. 160) disposition of city-owned property; C 040181 ZSK (L.U. No. 161), C 040182 ZSK (L.U. No. 162), C 040183 ZSK (L.U. No. 163), C 040184 ZSK (L.U. No. 164) special permits; C 040185 PSK (L.U. No. 165) site selection of property;

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d(b)(3) of the City Charter;

WHEREAS, upon due notice, the Council held a public hearing on the Decision and Application on June 8, 2004 and was recessed until June 10, 2004;

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Decision and Application; and

WHEREAS, the Council has considered the relevant environmental issues and the Final Environmental Impact Statement ("FIES") for which a Notice of Completion was issued on April 30, 2004 which identified significant adverse impacts and proposed mitigation measures (CEQR No. 03DME016K);

RESOLVED:

Having considered the FEIS, with respect to the Application, the Council finds that:

(1) The FEIS meets the requirements of 6 N.Y.C.R.R. Part 617;

(2) From among the reasonable alternatives thereto, the actions to be approved are ones which minimize or avoid adverse environmental impacts to the maximum extent practicable; and

(3) The adverse environmental impacts revealed in the FEIS will be minimized or avoided to the maximum extent practicable by incorporating as conditions to the approval those mitigative measures that were identified as practicable;

(4) The Decision and the FEIS constitute the written statement of facts, and of social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).

Pursuant to Sections 197-d and 199 of the New York City Charter, the Council approves the Decision.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

COMMITTEE ACTION

DATE: June 14, 2004

The Committee recommends that the Council approve the attached resolution and thereby approve the decision of the City Planning Commission.

In connection herewith, Council Members Katz and Avella offered the following resolution:

Res. No. 454

Resolution approving the Fifth Amendment to the Brooklyn Center Urban Renewal Plan, approving the designation of the area and approving the decision of the City Planning Commission on ULURP No. C 040173 HUK (L.U. No. 153).

By Council Members Katz and Avella

WHEREAS, the City Planning Commission filed with the Council on May 10, 2004 its decision and report dated May 10, 2004 (the "Decision"), on the application submitted by the New York City Department of Housing Preservation and Development ("HPD"), pursuant to Section 505 of Article 15 of the General Municipal Law of New York State and Section 197-c of the New York City Charter, regarding the proposed Fifth Amendment to the Brooklyn Center Urban Renewal Plan (the "Plan") for the Brooklyn Center Urban Renewal Area (the "Area"), Community District 2, Borough of Brooklyn (ULURP No. C 040173 HUK) (the "Application");

WHEREAS, the Application is related to Applications Numbers C 040171 ZMK (L.U. No. 147) amendments to the Zoning Map; N 040172 ZRK (L.U. No. 148) amendments to the text of the Zoning Resolution; C 030514 MMK (L.U. No 149), C 030515 MMK (L.U. No. 150), C 030516 MMK (L.U. No. 151), C 030517 MMK (L.U. No. 152) amendments to the City Map; C 040174 HUK (L.U. No. 154), C 040175 HUK (L.U. No. 155), urban renewal plan amendments; N 040176 HGK (L.U. No. 156), urban renewal area designation; C 040177 HDK (L.U. No. 157), C 040178 HDK (L.U. No. 158), C 040179 HDK (L.U. No. 159) disposition of city-owned properties within the urban renewal area; C 040180 PPK (L.U. No. 160) disposition of city-owned property; C 040181 ZSK (L.U. No. 161), C 040182 ZSK (L.U. No. 162), C 040183 ZSK (L.U. No. 163), C 040184 ZSK (L.U. No. 164) special permits; C 040185 PSK (L.U. No. 165) site selection of property;

WHEREAS, the City Planning Commission has certified that the Plan for the Area complies with the provisions of Section 502 of the General Municipal Law, conforms to the comprehensive community plan for the development of the municipality as a whole and is consistent with local objectives, and that the Plan is in conformity with the findings and designation of the Area;

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d(b)(1) of the City Charter;

WHEREAS, the Area Designation is subject to review and action by the Council pursuant to Section 504 of the General Municipal Law;

WHEREAS, the Plan is subject to review and action by the Council pursuant to Section 505 of the General Municipal Law;

WHEREAS, the New York City Department of Housing Preservation and Development submitted to the Council its request dated May 3, 2004 regarding the Application;

WHEREAS, upon due notice, the Council held a public hearing on the Decision and the Plan on June 8, 2004 and was recessed until June 10, 2004;

WHEREAS, the Council has considered the relevant environmental issues and the Final Environmental Impact Statement ("FEIS") for which a Notice of Completion was issued on April 30, 2004 which identified significant adverse impacts and proposed mitigation measures (CEQR No. 03DME016K);

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Decision and the Plan;

RESOLVED:

Having considered the FEIS, with respect to the Application, the Council finds that:

(1) The FEIS meets the requirements of 6 N.Y.C.R.R. Part 617;

(2) From among the reasonable alternatives thereto, the actions to be approved are ones which minimize or avoid adverse environmental impacts to the maximum extent practicable; and

(3) The adverse environmental impacts revealed in the FEIS will be minimized or avoided to the maximum extent possible by incorporating as conditions to the approval those mitigative measures that were identified as practicable;

(4) The Decision and the FEIS constitute the written statement of facts, and of social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).

Pursuant to Section 504 of the General Municipal Law, the Council approves the Designation of the Area.

Pursuant to Section 505(4) of the General Municipal Law, the Council finds that:

1. The Area is a substandard or insanitary area or is in danger of becoming a substandard or insanitary area and tends to impair or arrest the sound growth and development of the municipality;

2. The financial aid to be provided to the municipality is necessary to enable the project to be undertaken in accordance with the Plan;

3. The Plan affords maximum opportunity to private enterprise, consistent with the sound needs of the municipality as a whole, for the undertaking of an urban renewal program;

4. The Plan conforms to a comprehensive community plan for the development of the municipality as a whole;

5. There is a feasible method for the relocation of families and individuals displaced from the Area into decent, safe and sanitary dwellings, which are or will be provided in the Area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities, at rents or prices within the financial means of such families or individuals, and reasonably accessible to their places of employment; and

6. The undertaking and carrying out of the urban renewal activities in stages is in the best public interest and will not cause any additional or increased hardship to the residents of the Area.

Pursuant to Section 505 of the General Municipal Law, the Council approves the Fifth Amended Brooklyn Center Urban Renewal Plan for the Brooklyn Center Urban Renewal Area, dated May 3, 2004.

Pursuant to Section 197-d of the New York City Charter, and on the basis of the Decision and Application, the Council approves the Decision.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

Report for L.U. No. 154 & Res. No. 455

Report of the Committee on Land Use in favor of approving and adopting a Uniform Land Use Review Procedure, application no. No. 162), C 040183 ZSK (L.U. No. 163), C 040184 ZSK (L.U. No. 164) special permits; C 040185 PSK (L.U. No. 165) site selection of property;

WHEREAS, the City Planning Commission has certified that the Plan for the Area complies with the provisions of Section 502 of the General Municipal Law, conforms to the comprehensive community plan for the development of the municipality as a whole and is consistent with local objectives, and that the Plan is in conformity with the findings and designation of the Area;

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d(b)(1) of the City Charter;

WHEREAS, the Area Designation is subject to review and action by the Council pursuant to Section 504 of the General Municipal Law;

WHEREAS, the Plan is subject to review and action by the Council pursuant to Section 505 of the General Municipal Law;

WHEREAS, the New York City Department of Housing Preservation and Development submitted to the Council its request dated May 3, 2004 regarding the Application;

WHEREAS, upon due notice, the Council held a public hearing on the Decision and the Plan on June 8, 2004 and was recessed until June 10, 2004;

WHEREAS, the Council has considered the relevant environmental issues and the Final Environmental Impact Statement ("FEIS") for which a Notice of Completion was issued on April 30, 2004 which identified significant adverse impacts and proposed mitigation measures (CEQR No. 03DME016K);

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Decision and the Plan;

RESOLVED:

Having considered the FEIS, with respect to the Application, the Council finds that:

(1) The FEIS meets the requirements of 6 N.Y.C.R.R. Part 617;

(2) From among the reasonable alternatives thereto, the actions to be approved are ones which minimize or avoid adverse environmental impacts to the maximum extent practicable; and

(3) The adverse environmental impacts revealed in the FEIS will be minimized or avoided to the maximum extent possible by incorporating as conditions to the approval those mitigative measures that were identified as practicable;

(4) The Decision and the FEIS constitute the written statement of facts, and of social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).

Pursuant to Section 504 of the General Municipal Law, the Council approves the Designation of the Area.

Pursuant to Section 505(4) of the General Municipal Law, the Council finds that:

1. The Area is a substandard or insanitary area or is in danger of becoming a substandard or insanitary area and tends to impair or arrest the sound growth and development of the municipality;

2. The financial aid to be provided to the municipality is necessary to enable the project to be undertaken in accordance with the Plan;

3. The Plan affords maximum opportunity to private enterprise, consistent with the sound needs of the municipality as a whole, for the undertaking of an urban renewal program;

4. The Plan conforms to a comprehensive community plan for the development of the municipality as a whole;

5. There is a feasible method for the relocation of families and individuals displaced from the Area into decent, safe and sanitary dwellings, which are or will be provided in the Area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities, at rents or prices within the financial means of such families or individuals, and reasonably accessible to their places of employment; and

6. The undertaking and carrying out of the urban renewal activities in stages is in the best public interest and will not cause any additional or increased hardship to the residents of the Area.

Pursuant to Section 505 of the General Municipal Law, the Council approves the Tenth Amended Atlantic Terminal Urban Renewal Plan for the Atlantic Terminal Urban Renewal Area, dated May 3, 2004.

Pursuant to Section 197-d of the New York City Charter, and on the basis of the Decision and Application, the Council approves the Decision.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

RESOLUTIONS

The following are the respective Committee Reports for each of the Resolutions referred to the Council for a voice-vote pursuant to Rule 8.50 of the Rules of the Council:

Report for voice-vote Res. No. 71-A

Report of the Committee on Health in favor of approving, as amended, a Resolution calling upon the New York State Legislature to adopt A.5796 and S.4805, which would legalize the possession, manufacture, sale, administration, delivery, dispensing and distribution of marijuana in connection with medical use for certified patients.

The Committee on Health to which was referred on February 4, 2004 (Minutes, page 622) the annexed amended resolution respectfully

REPORTS:

BACKGROUND

On Monday, February 23, 2004, the Committee on Health held a hearing on Res. No. 71, which calls upon the New York State Legislature to adopt A.5796 and S.4805, legislation that would legalize the possession, manufacture, sale, administration, delivery, dispensing and distribution of marijuana in connection with medical use for certified patients. On May 4, 2004, A. 5796 was amended and introduced as A.5796-A. Today, June 24, 2004, the Health Committee will vote on Proposed Res. No. 71-A, which has been amended to reflect changes in A.5796-A.

Marijuana is a plant whose chemical properties have been found by scientists to have positive physical results for certain ailments when consumed by ingestion or smoking.[1] Marijuana contains cannabinoids, such as tetrahydrocannabinol (THC), which have proven to be effective in controlling nausea, appetite loss and anxiety.[2] Marijuana, when consumed to prevent or control the above-mentioned symptoms, is commonly referred to as medical marijuana.

Medical associations, including the National Academy of Sciences' Institute of Medicine (IOM), the American Preventive Medical Association (APMA), the American Public Health Association (APHA) and the New York State Nurses Association (NYSNA), support the use of medical marijuana as an effective and valuable treatment option for patients diagnosed with any one of a number of diseases and chronic conditions. For example, medical marijuana has been shown to reduce symptoms of severe pain, nausea, vomiting and appetite loss associated with HIV/AIDS and cancer.[3]

Medical marijuana has also been shown to be beneficial for patients managing glaucoma by lowering pressure within the eye, as well as for those suffering multiple sclerosis and epilepsy by reducing muscle spasms and seizures, respectively.[4]

With respect to HIV/AIDS patients, medical marijuana has been shown to be very effective in managing two major conditions associated with the disease- chronic pain and AIDS wasting syndrome (involuntary loss of more than 10% of body weight, plus more than 30 days of either diarrhea or weakness and fever).[5] Dr. Chinazo Cunningham, a physician who testified in support of A.5796 at a December 13, 2002, New York State Assembly Health Committee hearing on the bill, noted that some HIV/AIDS drug therapies, such as antiretroviral medications, can cause severe pain, and that some patients experience pain from HIV/AIDS itself. Dr. Cunningham testified that medical marijuana has proven to help manage pain in both cases, and that while other drugs are available to assist AIDS patients' painful and deteriorating symptoms, they can be very costly and have not been shown to be as effective as medical marijuana.

Opponents of medical marijuana often raise concerns that marijuana possesses dangerous or addictive qualities that will lead to higher rates of recreational use. However, advocates of medical marijuana argue that other drugs currently prescribed by doctors to manage pain, such as cocaine, morphine and methamphetamines, are in fact more deleterious and addictive than marijuana and point out that there is no lethal dose of marijuana. This has been substantiated by the IOM, which has reported that medical marijuana used to treat illness is less dangerous and less addictive than several other legal and controlled substances.[6]

ANALYSIS

New York State bills A.5796-A and S.4805 would mirror medical marijuana laws that have already been adopted in nine other states across the country, including Alaska, California, Colorado, Hawaii, Maryland, Maine, Nevada, Oregon and Washington. The intent of A.5796-A and S.4805 is to offer certified patients the option of utilizing medical marijuana in conjunction with their regular treatment and does not require its use over other complimentary drug treatments. Furthermore, A.5796-A would make medical marijuana available only under appropriate supervision by a physician and to those with serious health conditions that are life threatening or an associated condition or complication of such condition or its treatment. Finally, A.5796-A and S.4805 would strictly regulate the possession, manufacture, sale, administration, delivery, dispensing and distribution of marijuana in connection with medical use for certified patients.

Proposed Res. No. 71-A would state that New Yorkers suffering from HIV/AIDS, glaucoma, cancer, multiple sclerosis, epilepsy, chronic pain and other illnesses have long sought the right to use marijuana to treat their symptoms. Proposed Res. No. 71-A would note that the IOM has determined that "the accumulated data indicate a potential therapeutic value for cannabinoid drugs, particularly for symptoms such as pain relief, control of nausea and vomiting, and appetite stimulation [and] ... [f]or patients, such as those with AIDS or undergoing chemotherapy, who suffer simultaneously from severe pain, nausea, and appetite loss, cannabinoid drugs might thus offer broad spectrum relief not found in any other single medication." Additionally, Proposed Res. No. 71-A would note that the National Commission of Marijuana and Drug Abuse reports that marijuana "has been used therapeutically from the earliest records, nearly 5,000 years ago ... and its products have been widely noted for their effects, both physiological and psychological, throughout the world."

[6] Joy, J.E., Watson, et al., 1999, *Maryuana and Medicine: Assessing the Science Base,* National Academy of Sciences' Institute of Medicine, National Academy Press: Washington, DC.

Further, Proposed Res. No. 71-A would point out that in the January 30, 1997 issue of The New England Journal of Medicine, then editor-in-chief Dr. Kassirer stated that prohibiting "physicians from alleviating suffering by prescribing marijuana for seriously ill patients is misguided, heavy-handed, and inhumane." Proposed Res. No. 71A would also note, that the NYSNA has endorsed the therapeutic use of medical marijuana, arguing that prohibiting its use "has led many desperate patients and their families to break the law to obtain marijuana when prescribed medications proved ineffective or too toxic, [putting] patients at risk for criminal charges [and making] them vulnerable to contaminated drugs because there is no quality control in the contraband market."

Proposed Res. No. 71-A would cite an April 1999 Zogby public opinion poll, which found that 80% of New Yorkers support a policy that would allow physicians "to prescribe marijuana for medical purposes to seriously and terminally ill patients, and to alleviate symptoms of diseases and side effects associated with treatments." Moreover, Proposed Res. No. 71-A would note that legal advocates for medical marijuana report that federal law does not hinder a state's right to pass laws allowing patients to grow, possess and use medical marijuana.

Further, Res. No. 71-A would note that eight states have adopted medical marijuana laws and fourteen states, including New York, currently allow for research programs that study the therapeutic effects of medical marijuana. Proposed Res. No. 71A would also state that by enacting New York's Antonio G. Olivieri Controlled Substances Therapeutic Research Program in 1980, the New York State Legislature found that "the use of marijuana may alleviate the nausea and ill-effects of cancer chemotherapy, may alleviate the ill-effects of glaucoma and may have other therapeutic uses."

Proposed Res. No. 71-A would state that Assembly Member Richard Gottfried (D-Manhattan), Chair of the New York State Assembly Health Committee, introduced A.5796-A, and State Senator Velmanette Montgomery (D-Brooklyn) introduced its companion bill, S.4805, both of which would allow the possession, manufacture, sale, administration, delivery, dispensing and distribution of medical marijuana in connection with medical use by certified patients. Proposed Res. No. 71-A would specify that A.5796-A would require a recipient of marijuana for medical purposes be certified by a practitioner as having a "serious condition" that is life threatening or an associated condition or complication of such condition or its treatment. Proposed Res. No. 71-A would detail that A.5796-A and S.4805 set forth specific standards for patient certification, including that:

- Such patient certification must be made in writing and dated;
- Such certification must be given to the patient or caregiver and a copy of such certification must be placed in the patient's medical record and given to the New York State Department of Health (SDOH);
- Such certification must include specific directions for use, including the dosage and frequency of dosage; and
- Such certification is limited to a thirty day supply of medical marijuana and that the number of renewals by the patient's doctor is limited to five renewals per certification, such that a certification lasts a maximum of six months.

Proposed Res. No. 71-A would also note that A.5796-A and S.4805 would require that medical marijuana be distributed in a suitable container marked in a similar manner as other controlled substances with the patient's name and address, the dispensing organization's name, address and phone number, directions for use and the prescribing doctor's name.

Proposed Res. No. 71-A would indicate that A.5796-A would limit the organizations registered and permitted to distribute marijuana for medical purposes to the New York State Department of Health (SDOH), a local health department, a pharmacy or an Article 28 facility. Proposed Res. No. 71-A would also indicate that A.5796-A and S.4805 would permit medical marijuana sales only by a registered organization to a registered organization, a certified patient or a caregiver of a certified patient; by a Federal, State or local law enforcement agency to a registered organization; or by a caregiver of a certified patient to the certified patient.

Proposed Res. No. 71-A would state that A.5796-A and S.4805 would require that doctors who have prescribed medical marijuana to a patient submit initial and follow-up reports to SDOH, which would include:

- The patient's effective medical marijuana certification period;
- The specified condition for which medical marijuana was prescribed to such patient;
- The names and addresses of the certified patient and the certifying doctor; and
- The level and pattern of use of medical marijuana and the effectiveness of such use for the certified patient.

Further, Proposed Res. No. 71-A would note that A.5796-A and S.4805 would require that SDOH submit, at the end of the legislation's first year and then biennially, a report to the Legislature and Governor on the medical use of marijuana under such

legislation and make any appropriate recommendations for future implementation. Proposed Res. No. 71-A would also note that A.5796-A and S.4805 would require that SDOH enter into an agreement with a third party to conduct an evaluation of the implementation and effectiveness of the legislation, including an analysis of the operation of the legislation, the clinical value of medical marijuana

use under the legislation and the effect of medical marijuana, if any, on the illegal use of controlled substances. Additionally, Proposed Res. No. 71-A would state that A.5796-A and S.4805 would also permit SDOH to conduct research relating to the medical use of marijuana at its own discretion. Finally, Proposed Res. No. 71-A would note that A.5796-A and S.4805 would contain a sunset provision, which would render the medical marijuana law inapplicable five years after its effective date, unless reauthorized by the Governor and Legislature.

Accordingly, Your Committee recommends its adoption, as amended.

Res. No. 71-A

Resolution calling upon the New York State Legislature to adopt A.5796-A and S.4805, which would legalize the possession, manufacture, sale, administration, delivery, dispensing and distribution of marijuana in connection with medical use for certified patients.

Whereas, New Yorkers suffering from HIV/AIDS, glaucoma, cancer, multiple sclerosis, epilepsy, chronic pain and other illnesses have long sought the right to use marijuana to treat their symptoms; and

Whereas, The National Academy of Sciences' Institute of Medicine has determined that "the accumulated data indicate a potential therapeutic value for cannabinoid drugs, particularly for symptoms such as pain relief, control of nausea and vomiting, and appetite stimulation [and] ... [f]or patients, such as those with AIDS or undergoing chemotherapy, who suffer simultaneously from severe pain, nausea, and appetite loss, cannabinoid drugs might thus offer broad spectrum relief not found in any other single medication;" and

Whereas, The National Commission of Marijuana and Drug Abuse reports that marijuana "has been used therapeutically from the earliest records, nearly 5,000 years ago ... and its products have been widely noted for their effects, both physiological and psychological, throughout the world;" and

Whereas, In the January 30, 1997 issue of The New England Journal of Medicine., the then editor-in-chief, Dr. Kassirer, stated that prohibiting "physicians from alleviating suffering by prescribing marijuana for seriously ill patients is misguided, heavy-handed, and inhumane;" and

Whereas, The New York State Nurses Association has endorsed the therapeutic use of marijuana, arguing that prohibiting its use "has led many desperate patients and their families to break the law to obtain marijuana when prescribed medications proved ineffective or too toxic, [putting] patients at risk for criminal charges [and making] them vulnerable to contaminated drugs because there is no quality control in the contraband market;" and

Whereas, A Zogby public opinion poll conducted in April 1999, found that 80% of New Yorkers support a policy that would allow physicians "to prescribe marijuana for medical purposes to seriously and terminally ill patients, and to alleviate symptoms of diseases and side effects associated with treatments;" and

Whereas, Legal advocates for medicinal marijuana report that federal law does not hinder a state's right to pass laws allowing patients to grow, possess and use medical marijuana; and

Whereas, Eight (8) states currently have effective medical marijuana laws and fourteen (14) states, including New York, currently allow for research programs that study the therapeutic effects of medical marijuana; and

Whereas, In enacting New York's Antonio G. Whereas, On March 3, 2003, Assembly Member Richard Gottfried (D-Manhattan), Chair of the State Assembly's Health Committee, introduced A.5796, a comprehensive medical marijuana bill that would allow the possession, manufacture, sale, administration, delivery, dispensing and distribution of medical marijuana in connection with medical use by certified patients, and which was amended and introduced as A. 5796-A on May 4, 2004; and

Whereas, New York State Senator Velmanette Montgomery (D-Brooklyn) introduced a companion bill, S.4805, into the Senate on April 16, 2003; and

Whereas, A.5796-A would require that a recipient of marijuana for medical purposes be certified by a practitioner as having a "serious condition" that is life threatening or an associated condition or complication of such condition or its treatment; and

Whereas, A.5796-A and S.4805 sets forth specific standards for patient certification, including that such certification must be in writing and dated; that such certification must be given to the patient or caregiver and a copy of such certification must be placed in the patient's medical record and given to the New York State Department of Health (SDOH); that such certification must include specific directions for use, including the dosage and frequency of dosage; and that such certification is limited to a thirty day supply of medical marijuana and the number of renewals by the doctor is limited to five renewals per certification, such that a certification lasts a maximum of six months; and

Whereas, Additionally, A.5796-A and S.4805 would require that medical marijuana be distributed in a suitable container, which would be marked in a similar manner as other controlled substances with the certified patient's name and address, the dispensing organization's name, address and phone number, directions for use and the prescribing doctor's name; and

Whereas, Pursuant to A.5796-A, organizations registered and permitted to distribute marijuana for medical purposes would be limited to the SDOH, a local health department, a pharmacy or an Article 28 facility; and

Whereas, A.5796-A and S.4805 would permit medical marijuana sales only by a registered organization to a registered organization, a certified patient or a caregiver of a certified patient; by a Federal, State or local law enforcement agency to a registered organization; or by a caregiver of a certified patient to the certified patient; and

Whereas, Furthermore, A.5796-A and S.4805 would require practitioners who have prescribed medical marijuana to a patient to submit initial and follow-up reports to SDOH, which would include the effective certification period, the specified condition for which medical marijuana was prescribed, the names and addresses of the certified patient and his or her practitioner and the level and pattern of use and the effectiveness of the medical marijuana for such certified patient; and

Whereas, A.5796-A and S.4805 would also require that SDOH submit at the end of the legislation's first year, and then biennially, a report to the Legislature and Governor on the medical use of marijuana under such legislation and make appropriate recommendations; and

Whereas, Additionally, A.5796-A and S.4805 would require that SDOH enter into an agreement with a third party to conduct an evaluation of the implementation and effectiveness of the legislation, including an analysis of the operation of the legislation, the clinical value of medical marijuana use under the legislation, and the effect of medical marijuana, if any, on the illegal use of controlled substances; and

Whereas, A.5796-A and S.4805 would also permit SDOH to conduct research relating to the medical use of marijuana at its own discretion; and

Whereas, A.5796-A and S.4805 would sunset five years after its effective date, unless reauthorized by the Governor and Legislature; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to adopt A.5796-A and S.4805, which would legalize the possession, manufacture, sale, administration, delivery, dispensing and distribution of marijuana in connection with medical use for certified patients.

Report for voice-vote Res. No. 203-A

Report of the Committee on Housing and Buildings in favor of approving, as amended, a Resolution opposing President Bush's FY 2005 budget proposal to drastically cut funding for the Section 8 Housing Choice Voucher program and replace it with block grants to local housing authorities and calling upon the Congress of the United States to reject this proposal.

The Committee on Housing and Buildings to which was referred on March 10, 2004 (Minutes, page 1152) the annexed amended resolution respectfully

REPORTS:

ANALYSIS AND BACKBROUND

Today the Committee will conduct a hearing on Proposed Resolution No. 203-A opposing the Bush Administration's FY 2005 budget proposal to convert the Section 8 Housing Voucher Choice Program into block grants and calling upon the Congress of the United States to reject this proposal. The Administration's proposal would drastically cut funding for the Section 8 Voucher Program by $1.6 billion in Fiscal Year (FY) 2005 and $6.1 billion by FY 2009.

Section 8 Housing Choice Voucher Program

The Section 8 Housing Choice Voucher Program currently provides federal housing assistance to approximately two million low-income families and elderly and disabled individuals nationwide. All Section 8 housing subsidies are provided by the federal government through programs authorized under Section 8 of the Housing Act of 1937. Section 8 housing assistance includes two categories, "Project-Based" and "Tenant-Based" assistance, both of which are currently administered by the United States Department of Housing and Urban Development (HUD). The Section 8 Voucher Program is tenant-based as it provides housing vouchers to families who then find their own apartments. The vouchers remain with tenants as long as income eligibility is maintained, even if tenants move to another location. Whereas, the project-based program provides subsidies to specific properties so that anyone who rents an apartment in the project automatically receives a subsidy. Families with household income levels below 50% of the area median income (AMI) are eligible for Section 8 subsidies, including a few specific categories of families with incomes of up to 80% of the AMI. HUD determines AMI levels on an annual basis and the current AMI for a family of two in New York City is $50,250.

The Section 8 Housing Choice Voucher Program has been praised by many legislators, affordable housing advocates, and the real estate industry, because of its flexibility and ability to provide low-income families with housing opportunities in neighborhoods of their choice with more jobs, lower crime, or better schools. According to the New York City Housing Authority (NYCHA), our principal administering agency, the voucher program is responsible for providing housing assistance to approximately 112,000 low-income families within the City. In 2003, there was a utilization rate of nearly 99% for the low-income families who received vouchers.

Flexible Voucher Program Block Grant Proposal

In his FY 2005 budget proposal, President Bush seeks to eliminate the existing Section 8 Housing Voucher program and replace it with block grants to be administered by local public housing authorities (PHAs), to be called the "Flexible Voucher Program (FVP)." As stated above, this proposal would drastically cut funding for the Section 8 Voucher Program by $1.6 billion in FY 2005 and $6.1 billion by FY 2009. If the proposal is enacted, it is estimated that as many as 250,000 vouchers could be lost nationwide in FY 2005 and 600,000 by FY 2009, thereby devastating the highly acclaimed Section 8 Housing Choice Voucher Program. If the proposal is enacted, the number of Section 8 vouchers in New York City could be reduced by approximately 13,230 in FY 2005 and 31,750 by FY 2009. A reduction in vouchers of this magnitude could cause a significant increase to New York City's homeless population, which, according to a February 27, 2004 article in New York Newsday, has already grown substantially in the past two years, from an estimated 30,400 to a current estimate of 38,600.

Housing advocates have expressed the belief that the Administration's concerns with the current Section 8 Voucher Program stem from a recent growth in voucher costs. However, according to the Congressional Budget Office (CBO) and other analysts, although the cost of vouchers has increased by an average yearly rate of 4% from 1996 to 2003, absolute voucher costs are now actually on the decline and will continue to decline in the coming years because, among other things, growth in market rents has slowed and the full effect of the slowdown will not be felt until 2005. Furthermore, low-income families will continue to earn more as the economy recovers. The Administration has also expressed the view that local PHAs are in a better position to administer the program because PHAs have a better understanding of their own specific housing markets and can therefore tailor their programs accordingly.

Opponents of the FVP proposal are alarmed by the negative consequences that may result from converting the tenant-based Section 8 program into block grants. Housing advocates insist that the FVP proposal will jeopardize the present funding structure for the Section 8 Voucher Program, increase rental burdens for low-income families and lead to the future demise of the voucher program altogether. Annual appropriations for block grant programs generally receive only inflationary increases, while funding for the Section 8 Housing Choice Voucher programs have been adjusted annually by Congress, with appropriations based on the actual costs of providing affordable housing. As proposed, the FVP proposal would not be able to keep pace with the actual costs of housing, especially in the New York City housing market.

Housing advocates and public housing authorities (PHAs) also maintain that the uncertainty over future funding will deter landlords from participating, thereby creating the potential for hundreds of thousands of families to become homeless. According to the Center on Budget and Policy Priorities (CBPP), approximately three fourths of all eligible low-income households do not receive any form of federal housing assistance due to funding limitations. According to NYCHA, there are currently 125,000 families on their Section 8 voucher waiting list, which has been closed for almost a decade.

The FVP proposal provides impetus for the future demise of the entire Section 8 Voucher Program. There is no assurance in the proposal that the same number of families would continue to be served. This fact is evident from the proposal's elimination of two key requirements that benefit low-income families, such as the requirement that families pay no more than 30% of their income on rent and the requirement that 75% of all new vouchers be awarded to "extremely low-income" families, defined as families who earn less than 30% of median income, or approximately $15,000 for a family of two in New York City. The Administration's proposal would raise the income eligibility standard to 80% of median income for all voucher recipients, or $40,200 for a family of two in New York City, thereby enticing housing agencies to target much higher-income families if they seek to serve the same number of families as are currently served.

Under the FVP proposal, PHAs would be authorized to increase the rental burdens of low-income families. While most families currently pay no more than 30% of their "adjusted income" for rent under the program, the proposal would allow PHAs to calculate "household income" based on "gross income," which includes money from sources that have traditionally not been counted towards that determination, such as reasonable child care expenses and unreimbursed medical expenses for the elderly. In areas where rents are higher than most, such as New York City, this shift will either increase the amount of real income that families will spend on housing or reduce their housing choices to those areas of communities with the lowest quality, but cheapest housing.

The FVP proposal would also limit "enhanced vouchers" to one year, when such vouchers will receive the same value as those normally distributed by housing agencies. Critics of the proposal are concerned that after the enhanced vouchers lose their added value, some recipients, many of whom are elderly and disabled, will no longer be able to afford to live in their current home and will be forced to find new housing with the possibility of becoming homeless if they can not.

Housing advocates assert that if the Bush Administration's proposal to establish block grants and to drastically cut funding for the voucher program is successful, PHAs would be faced with fewer options. As a result, PHAs would have to either drastically reduce the number of families that currently receive vouchers, require families to pay much more of their income on rent than they currently do, shift a substantial amount of vouchers to much higher income families, or a combination of all three. Thus, the FVP proposal would force local governments to devote even more of their increasingly limited resources to address local housing needs.

Accordingly, the Council of the City of New York urges both houses of Congress to act with thought and great care before tampering with one of the most effective programs to assist families without financial resources to reside in homes that are safe and affordable. The Council also calls upon Congress to reject in its entirety the FY 2005 budget proposal to drastically cut funding for the Section 8 Housing Choice Voucher program and to oppose the flexible voucher plan.

Update

On Monday, June 28, 2004, the Committee adopted this legislation by a vote of nine in the affirmative, zero in the negative and no abstentions.

Accordingly, the Committee recommends its adoption, as amended.

Res. No. 203-A

Resolution opposing President Bush's FY 2005 budget proposal to drastically cut funding for the Section 8 Housing Choice Voucher program and replace it with block grants to local housing authorities and calling upon the Congress of the United States to reject this proposal.

Whereas, The Section 8 Housing Choice Voucher program, currently administered by the United States Department of Housing and Urban Development (HUD), is the nation's primary form of low-income housing assistance, with approximately two million low-income families and elderly and disabled individuals currently receiving vouchers authorized by Congress; and

Whereas, In New York City, approximately 112,000 low-income families currently receive Section 8 housing vouchers; and

Whereas, In its May 2002 report, the bipartisan Millennial Housing Commission described the Section 8 Housing Choice Voucher program as "flexible, cost-effective and successful in its mission;" and

Whereas, The General Accounting Office found the Section 8 Housing Voucher program to be the most cost-effective housing program of all federal housing programs it analyzed in a 2002 study; and

Whereas, In his FY 2005 budget proposal, President Bush seeks to eliminate the existing Section 8 Housing Voucher program and replace it with a block grant to local public housing agencies (PHAs), to be called the "Flexible Voucher Program;" and

Whereas, Annual appropriations for block grant programs generally receive only inflationary increases, while funding for the Section 8 Housing Choice Voucher program has been adjusted annually by Congress, with appropriations based on the actual costs of providing affordable housing; and

Whereas, Under this formula, the voucher program would not be able to keep pace with the actual costs of housing, especially in the New York City housing market; and

Whereas, According to a February 25, 2004 report by the United States House of Representatives Committee on Financial Services, President Bush's "FY 2005 budget request for Section 8 is $1.633 billion below the level HUD projects is needed to renew all Section 8 assistance;"

Whereas, By Fiscal Year 2009, the Administration's budget proposal would cut spending for the Section 8 voucher program by $6.1 billion; and

Whereas, According to the Center on Budget and Policy Priorities (CBPP), if President Bush's budget proposal is enacted, as many as 250,000 vouchers could be lost nationwide in FY 2005 and 600,000 by FY 2009, thereby devastating the highly acclaimed Section 8 Housing Choice Voucher Program; and

Whereas, If President Bush's budget cuts are spread out proportionally among States, according to the CBPP, the number of low-income families receiving Section 8 vouchers in New York State could be reduced by as many as 24,300 in FY 2005 and 58,300 by FY 2009;

Whereas, If the President's budget cuts are spread out proportionally among PHAs within New York State, the number of Section 8 vouchers in New York City could be reduced by approximately 13,230 in FY 2005 and 31,750 by FY 2009; and

Whereas, A reduction in vouchers of this magnitude could cause a significant increase to New York City's homeless population which, according to a February 27, 2004 article in New York Newsday, has already grown substantially in the past two years, from an estimated 30,400 to a current estimate of 38,600; and

Whereas, The Section 8 Housing Choice Voucher program has a targeting requirement that obligates housing agencies to ensure that at least seventy-five (75%) percent of all new voucher recipients each year are "extremely low income" families with income levels below thirty (30%) percent of the Area Median Income (AMI), or approximately $15,000 for a family of two; and

Whereas, President Bush's proposal would eliminate this targeting requirement and raise the income eligibility standard to eighty (80%) percent of the AMI for all voucher recipients, or approximately $40,200 for a family of two, thereby decimating the original intent of the Section 8 program which was to serve low-income families; and

Whereas, Under current rules of the voucher program, families may not pay more than 30% of their income on rent, with the voucher covering the difference up to the "fair market value;" and

Whereas, President Bush's proposal would eliminate this important protection on housing affordability and would, combined with extraordinary cuts in funding, further entice PHAs to cut the subsidy level for vouchers, thereby forcing voucher recipients to pay much more than 30% of income on rent; and

Whereas, The calculation of family income under the current program is based on "adjusted income," while President Bush's proposal would require PHAs to calculate household income based on "gross income," which includes more sources of income, thereby requiring families to pay more of their income on rent than they currently do; and

Whereas, President Bush's FY 2005 budget proposal fails to include any provision to assure that all current voucher recipients will continue to receive such assistance; and

Whereas, According to the CBPP, if the Administration's proposal is implemented, PHAs will be faced with few alternatives, such as eliminating 600,000 vouchers by FY 2009, raising the amount of rent voucher holders would have to pay by an average of $850 per family per year, or shifting a substantial number of vouchers to higher income families, or a combination of all three; and

Whereas, The Administration's budget proposal includes a restrictive spending cap on all non-entitlement (discretionary) spending for the next five years, and if implemented will, when considering the current and growing federal budget deficit, contribute further in forcing PHAs to institute even greater cuts to the voucher program after 2005 than are currently estimated; and

Whereas, Many advocates of affordable housing believe the Administration's justification for restructuring the Section 8 voucher program is based on the recent growth in voucher costs, however, according to a February 2, 2004 report by the CBPP, although the cost of vouchers has increased by an average yearly rate of 4% from 1996 to 2003, the Congressional Budget Office and other analysts have found that absolute voucher costs are now actually on the decline and will continue to decline in the coming years because, among other things, growth in market rents has slowed and the full effect of the slowdown will not be felt until 2005, and low-income families will continue to earn more as the economy recovers; and

Whereas, The report issued by the House Committee on Financial Services was highly critical of and ultimately opposed President Bush's Section 8 block grant proposal for most of the aforementioned reasons; and

Whereas, Local organizations, such as the Community Service Society, the Legal Aid Society and the Council of Senior Centers and Services of New York City are opposed to the Bush Administration's block grant proposal; and

Whereas, Major national organizations including the National Association of Housing and Redevelopment Officials, the Council of Large Public Housing Authorities, the Public Housing Authorities Directors Association, the National Low-Income Housing Coalition, the Institute for Real Estate Management, the National Affordable Housing Management Association, the National Association of Realtors, the National Home Builders, the National Leased Housing Association and the National Multi Housing Council are all opposed to President Bush's FY 2005 Section 8 block grant proposal; now, therefore, be it

Resolved, That the Council of the City of New York opposes President Bush's FY 2005 budget proposal to drastically cut funding for the Section 8 Housing Choice Voucher program and replace it with block grants to local housing authorities and calling upon the Congress of the United States to reject this proposal.

Report for voice-vote Res. No. 289

Report of the Committee on Housing and Buildings in favor of approving a Resolution calling upon the United States Department of Housing and Urban Development to create and implement policies that provide greater transparency regarding the status of buildings whose Section 8 status is set to expire or which have been labeled "distressed" by the Department of Housing and Urban Development.

The Committee on Housing and Buildings to which was referred on April 21, 2004 (Minutes, page 1746) the annexed resolution respectfully

REPORTS:

Background and Analysis

Today the Committee will conduct a hearing on Res. No. 289 that calls upon the United States Department of Housing and Urban Development (HUD) to create and implement policies that provide greater transparency regarding the status of buildings whose Section 8 status is set to expire or which have been labeled "distressed" by HUD. Today is the third hearing on Res. No 289. The first and second hearings on Res. No. 289 were held by the Subcommittee on Public Housing, chaired by Diana Reyna, on May 3, 2004 and May 25, 2004, respectively. The intent of those hearings were to explore potential solutions designed to preserve the decreasing stock of affordable housing units in New York City that receive federal project-based Section 8 subsidies.

I. Federal Section 8 Housing Programs

Federal Section 8 housing subsidies are administered by HUD and are authorized under Section 8 of the United States Housing Act of 1937.[1] Two of the more prominent Section 8 programs that HUD administers are referred to as the: (1) Tenant-based rental assistance, also known as the Section 8 Housing Choice Voucher Program (Voucher Program), and (2) Project-based rental assistance. Both Section 8 programs have similar basic rules and requirements; tenants must remain income eligible[2] and may not pay more than 30% of household income on rent, with the difference in rent covered by Section 8 assistance (discussed below).

The major difference between both programs is that with *project-based Section 8 assistance,* the federal subsidy is attached to dwelling units in a residential building where income eligible families reside and such units remain affordable for the life of the Section 8 contract entered into between HUD and the owner of such residential building. In addition, under this program either an entire building or a specific number of units in a building are allocated for lower-income tenants.[3]

[1] 42 USC 1437 et., seq.

[2] Section 8 assistance is targeted to tenants with income levels no greater than 80 percent of area median income; the Section 8 income limit for a family of four in New York City is currently $50,250.

II. Project-Based Section 8

Between 1974 and 1984, HUD entered into project-based Section 8 rental assistance contracts with thousands of property owners who were willing to commit to providing housing for low-income tenants for at least 20 years and in some cases, up to 40 years. In exchange for agreeing to participate in this Program, HUD offered these owners favorable mortgage financing, long-term rental assistance or both.[4] These contracts included rental amounts for each apartment that HUD would guarantee for the life of the contract. Often, these contracts provided landlords with rents that were far above the market-rate rents for adjacent properties, especially in distressed neighborhoods. At other times, these contracts provided landlords with rents that were far below the market-rate for surrounding properties, especially in neighborhoods experiencing gentrification and rising property values.[5]

A. National Trend

The current problem with project-based Section 8 housing in New York City represents one example of a nationwide trend where federally assisted, affordable housing units are being lost forever through conversions to market-rate rentals, cooperatives, and condominiums. As of 2003, there were approximately 1.6 million apartments across the nation receiving project-based HUD subsidies,[6] serving approximately 3 million elderly, disabled and low-income families. However, according to a recent report by the National Housing Trust (NHT), between 1995 and 2003, the number of HUD-subsidized units decreased nationwide by over 300,000, (162,342 of these units were receiving project-based Section 8 rental assistance)[8] and over half of these affordable units were lost between 1998 and 2003.[9] Currently, our nation losses 2,000 units every month to "opt outs and conversions to unsubsidized housing."[10]

This number of 300,000 includes a loss of units from a combination of three federal programs, including project-based rental assistance (162,341), federally insured Section 236 mortgages (82,055) and the Section 8 Moderate Rehabilitation program (59,015). In this report, NHT partnered with the Center on Budget and Policy Priorities (CBPP) by analyzing HUD data and found that, from 1995 to 2003, HUD awarded between 221,000 to 236,000 vouchers to tenants upon conversion of units to market-rate housing, thereby resulting in a net loss of 74,000 housing subsidies. However, the report also emphasizes that, although there is a net loss of 74,000 housing subsidies, the loss of over 300,000 units of the nation's affordable housing stock is devastating because these affordable units remain lost forever.

B. Local Trend - New York City

The problem of losing this type of affordable housing in New York City is only magnified because the City has been facing an affordable housing crisis for decades. As of today, there are approximately 72,000 remaining housing units in properties that receive project-based Section 8 assistance in New York City.[11] More than half, or nearly 34,223 of these units, in 290 properties, are "at risk" of opting out of the Section 8 Program by FY 2009 due to expiring contracts.[12] (Most of these properties also have federally insured or subsidized mortgages.) [13] In 2004 alone, more than 10,500 projectbased units are currently "at risk" of opting out of the Program due to expiring contracts. [14.15] In addition, nearly half, or approximately 17,000 (of the 34,223) assisted units are currently in a distressed condition and are "at risk" of foreclosure by HUD.[16] As of May 2003, more than 9,200 federally subsidized housing units were lost in New York City since 1994, with the majority of losses occurring in "the past few years."[17]

[11] This data was compiled from HUD's website by the Urban Homesteading Assistance Board (UHAB) as of April 29, 2004. UHAB is a local organization whose primary mission is to: assist low-income people in obtaining and sustaining fair, decent, and affordable housing; help develop programs based on the principles of cooperative ownership and resident control; and help influence and create low income housing policy from a local to a national level.

[12] *See* NHT's special report at Note 11 supra. This report does not include data on Section 202 and 811 properties, which are supportive federal housing programs for the elderly and disabled, respectively.

[13] See Id.

[14] This data was compiled from HUD's website by UHAB on May 7, 2004.

[15] In 2003, there were 141 properties, with more than 17,000 assisted units, with Section 8 contracts that expired. *See* DeFilippis at Note 18 infra.

[16] This data was compiled from HUD's website by UHAB, as of April 29, 2004. Note that this number can change daily because it is based on the number of properties that have failed one physical inspection by HUD and a property is not considered "distressed" if it passes the next inspection (see discussion below).

[17] *See* James DeFilippis, *Keeping the Doors Open: HUD-Subsidized Housing in New York City,* Community Service Society (CSS) Policy Brief, Number 13, May 2003. "CSS is an independent, nonprofit organization that has been leading the fight against poverty in New York City ... for over 150 years." This report can be found on CSS's website at www.cssny.org.

Thus, given this local trend and the national trend discussed above, without a plan to preserve the 34,223 project-based Section 8 units "at risk" of exiting the Program; opt-outs, prepayments of subsidized mortgages and HUD foreclosures could lead to a vast exodus of affordable units to market rate, now, and in the next few years.

III. HUD's Policy for Distressed Properties: Prepay and Opt Out or Foreclose

As mentioned above, there are approximately 17,000 Section 8 units in New York City that are currently classified by HUD as "distressed" properties. In January of 2003, the Director of HUD's Office of Asset Management, Beverly Miller, issued a memo to all

HUD field offices encouraging aggressive enforcement action for buildings that are "atrisk" due to financial mismanagement or failing physical conditions. Specifically, this memo spells out HUD's revised policy with regard to properties which receive a failing Real Estate Assessment Center (REAL) score. (REAC is HUD's grading system for measuring the physical condition of a project-based Section 8 property. The grading scale is 1-100 with a score of 60 or above as passing.) This memo states that all multifamily properties that fail two consecutive physical inspections will be referred to HUD's Departmental Enforcement Center (DEC). An owner must then remedy all cited violations. [18]

For distressed properties, if building owners have the financial means, HUD encourages them to pre-pay any outstanding HUD mortgage or opt-out of the Section 8 Program and keep the property: In other cases, where the owner lacks the financial resources or the will to make repairs, HUD seizes the property and uses foreclosure as an enforcement tool. Once HUD has foreclosed on a property, the agency sells the building at a public auction. In some cases, HUD has proceeded with foreclosure actions while ignoring federal statutes, such as 12 USCA §1701-z, that stress tenant

participation, community input, and local control. There are many instances where tenants are left with no say in the disposition of their homes and are not given adequate notice to organize and create a financial package to save their building from going to auction. Moreover,. HUD is legally obligated to offer state and local governments the "right of first refusal" to purchase a property being disposed of by HUD, such as when HUD takes title to one of its subsidized multifamily properties after foreclosure.[19] At this time, nearly every one of the 17,000 units currently at risk of foreclosure by HUD in New York City also have project-based Section 8 contracts.[20]

[18] Memorandum from Beverly Miller, Director, Office of Multifamily Asset Management, HUD, to all Owners, Agents and Contract Administrators, Performance Based Contract Administrators, Rural Housing Service, dated January 16, 2004

[19] *See* 12 USCA 1701z-11(i).

[20] Telephone interview with Dina Levy, organizer for UHAB, April 26, 2004; *See also* GAO report at Note 49 infra.

Furthermore, HUD has no policies or adequate procedures in place to pre-qualify bidders prior to foreclosure auctions to ensure that they are responsible landlords with experience owning and operating multi-family affordable housing. In many cases, the lack of pre-qualification policies and procedures results in many unqualified bidders and irresponsible property owners purchasing buildings for above-market prices that are driven up at auctions.[21] Such owners then find that because rents are required to remain low (because the property may still be subject to affordable use restrictions normally set forth in the underlying federal subsidized or insured mortgage or documents filed with the original deed), they are not profiting from their investment and therefore have little incentive to maintain or make outstanding repairs to the property.

IV. Notice

A. Recent GAO Report[22]

A recent report issued by the United States General Accounting Office (GAO) detailed the loss of Section 8 housing in the United States, and found that fewer than half of state and local agencies identify and track properties that may leave HUD programs because they are not notified of the buildings that are scheduled to leave the Section 8 Program. This report also found that nearly two-thirds of these agencies nationwide do not track the maturity dates of HUD mortgages. Having information about when properties are eligible to leave the Section 8 Program would better enable local housing agencies to use available tools and incentives to preserve the buildings' affordability for low-income tenants. Thus, if the City for example, was informed on a regular basis of the status of buildings leaving the Section 8 program, the Department of Housing Preservation and Development (HPD) as well as non-profit housing organizations would be better equipped to provide legal, technical and/or financial assistance to tenants.

[21] One good example of this is a complex in the Bronx called the Pueblo de Mayaguez. *See* Tom Robbins, *After Neighbor Turnaround, HUD Seeks to Cash Out - The New Bronx Market,* Citystate, September 25-30, 2003. The new owner who acquired the building because he had the highest bid had over 1400 outstanding code violations on his other properties in the City.

[22] *See* United States General Accounting Office (GAO) Report, *"Multifamily Housing: More Accessible HUD Data Could Help Efforts to Preserve Housing for Low-Income Tenants,"* GAO-04-20, issued January 2004 to Congress but released to the public on February 23, 2004.

B. Current Forms of Notice Required

As mentioned below, owners must provide tenants and HUD with at least one year's notice of their intention to opt-out of the Section 8 program. This notice also must state that tenants have the right to remain in their units and will be offered special vouchers if their building leaves the Section 8 Program.[23] Owners also are required to provide HUD, tenants and local government with notice of their intent to prepay a HUD subsidized mortgage concerning "eligible low-income housing" at least 120 days but no more that 270 days prior to prepayment.[24] Furthermore, HUD is required to give local government and tenants that reside in subsidized buildings facing foreclosure at least 60 days notice before their building is scheduled for auction. [25,26] In many cases, materials that are sent to tenants are not translated into languages other than English, and in some cases the tenants are not be English speakers.

As a policy, HUD should provide more timely and regular notice to HPD and/or other local housing agencies regarding the status of buildings leaving the Section 8 program. Communications from HUD should include accurate financial data pertaining to the properties because, if HPD had adequate notice, this agency, as well as non-profit housing organizations, would be better equipped to provide legal, technical or financial assistance to the tenants.

Report for voice-vote Res. No. 394-A

Report of the Committee on Housing and Buildings in favor of approving, as amended, a Resolution calling upon President Bush and the United States Congress to eliminate the shortfall in funding for Section 8 Housing Choice Vouchers and to restore full funding for Fiscal Year 2004.

The Committee on Housing and Buildings to which was referred on June 7, 2004 (Minutes, page 2242) the annexed resolution respectfully

REPORTS:

On June 28, 2004, the Committee on Housing and Buildings will consider Proposed Res. No. 394-A, which calls upon the Federal Government to eliminate the shortfall in funding for Section 8 Housing Choice Vouchers.

The Section 8 Housing Choice Voucher program was established in *1976* and primarily helps families with income levels no greater than 50 percent of area median income. Section 8 vouchers enable these low-income families to pay no more than 30 percent of their household income in rent, with the difference in rent covered by the Department of Housing and Urban Development (HUD), the agency that administers Section 8 vouchers. The Associated Press reported that the Section 8 Housing Choice Vouchers help "nearly 2 million families through some 2,500 local agencies."[1]

In the Fiscal Year 2004 budget, Congress took measures to sustain full funding of Section 8 vouchers. In a way inconsistent with Congressional intent, HUD changed the formula for funding allocations on April 22, 2004 in Notice PIH 2004-7, putting the Section 8 program in jeopardy of inadequate funding. Public housing authorities across the nation, including the New York City Housing Authority, had allocated vouchers during Fiscal Year 2004 prior to the issuance of Notice PIH 2004-7 which changed the formula retroactively, thereby creating a shortfall in section 8 funding. Notice PIH 2004-7 notified public housing authorities that Section 8 vouchers would be funded at the level of August 1, 2003, adjusted for rental inflation according to a formula set by HUD. On May 20, 2004 HUD Secretary Alphonse Jackson announced that there- was an error in the method of calculation and that some additional funds would be available, but many public housing authorities still anticipate a reduction in funds and services.

The Center on Budget and Policy Priorities predicts, "Many housing agencies will be reluctant to use reserve funds to cover the gap between the amount of funding they have received from HUD and actual voucher costs, because HUD has indicated that such reserves will *not* be replenished in the future. [2] In some areas, voucher costs have risen faster than inflation. Existing vouchers have never before been cut in the almost thirty-year history of the Section 8 program, but public housing authorities may be forced to resort to reducing the value of existing vouchers, restricting eligibility, or cutting the number of available vouchers, among other tactics. The Center on Budget and Policy Priorities surveyed public housing authorities nationally, and of the 86 which had responded as of June 18, 2004, 72 percent were considering or implementing lowering payment standards, 57 percent were considering or implementing freezing voucher issuance, and 48 percent were considering or implementing establishing or increasing minimum rents.[3] In an editorial published on May 22, 2004, the New York *Times* called the cuts "ill-advised" and HUD's approach "hostile."[4]

There are approximately 229,000 individuals living in the more than 90,500 families that receive Section 8 vouchers in New York City.[5] The two agencies in New York City that administer Section 8 vouchers, the New York City Housing Authority and the Department of Housing Preservation and Development estimate their funding shortfalls for Fiscal Year 2004 at $40 million and $15.5 million, respectively.

H.R. 4263, introduced by U.S. Representative Barney Frank on May 24, 2004, would rectify the immediate funding shortfall for Fiscal Year 2004. The bill was referred to the House Committee on Financial Services, Subcommittee on Housing and Community Opportunity, and has yet to be heard by the Committee. In the Senate, Senator Charles E. Schumer introduced S. 2467 in order to achieve the same goal. S. 2467 was referred to the Committee on Banking, Housing, and Urban Affairs. Neither bill has passed, and no solution has been accepted that would eliminate the shortfall. Proposed Res. No. 394-A calls upon President Bush and the United States Congress to eliminate the shortfall in funding for Section 8 Housing Choice Vouchers and to restore full funding for Fiscal Year 2004.

INTRODUCTION AND READING OF BILLS

Int. No. 392

By Council Members Addabbo Jr., Avella, Clarke, Dilan, Foster, Gentile, Jackson, Liu, Nelson, Sanders Jr., Sears, Stewart, Vann, Gerson and Gennaro.

A Local Law to amend the administrative code of the city of New York, in relation to requiring notification to community boards and council members of applications for issuance of alteration permits for cellular telephone antennas and equipment.

Be it enacted by the Council as follows:

Section 1. Section 27-191 of the administrative code of the city of New York is amended by lettering the existing section as subdivision a and adding a new subdivision b to read as follows:

b. Notwithstanding any other provision of law, where the department receives an application pursuant to section 27-162 of this code for issuance of an alteration permit for the erection or placement of an antenna used to provide cellular telephone or similar service or any structure related to such service, the department shall, within five business days of receipt of such application, notify in writing the community board and council member in whose district the property in question is located of the receipt of such application. Such community board and council member shall have forty-five days within which to make comments to the department on such application and no permit may be issued by the department during such comment period.

§2. This local law shall take effect ninety days after its enactment.

Referred to the Committee on Housing and Buildings.

Int. No. 393

By Council Members Addabbo Jr., Clarke, Comrie Jr., Foster, Gonzalez, Liu, Reed, Sanders Jr., Vallone Jr., Martinez and Gennaro.

A Local Law to amend the administrative code of the city of New York, in relation to making it a misdemeanor to use a city agency or service to harass another person or entity.

Be it enacted by the council as follows:

Section One: Legislative findings and intent. The Council of the City of New York, in response to the growing occurrence of false complaints to the Department of Buildings that have no other purpose than the harassment of a property owner, intends to make it a misdemeanor for any person to knowingly make a false statement in such a complaint. Additionally, the administrative code shall be amended to make it a misdemeanor to intentionally use city agencies and personnel to harass another person or entity.

§2. Section 26-104 of chapter one of title 26 of the administrative code of the city of New York is hereby amended, to read as follows:

§ 26-104. Complaint book.

The department shall keep a general complaint [book, or several such books] *record,* in which [may] *shall* be entered any complaint made by any person in reference to any building. Such entry shall include the name and residence of the complainant, the name of the person complained of, the date of the entry of the complaint and any suggested remedies. Except for entries of names and residences of the complainants, such [book] *record* shall be open to public examination during the office hours of the department, subject to such regulations as the commissioner may prescribe. The commissioner shall cause all complaints to be investigated.

§3. Subsection a of section 26-124 of chapter one of title 26 of the administrative code of the city of New York is hereby amended, to read as follows:

§26-124. False statements in certificates, forms, written statements, applications, reports, ~~or~~ certificates of correction, *or complaints.*

a. Any person who shall knowingly make a false statement or who shall knowingly falsify or allow to be falsified any certificate, form, signed statement, application, report, *or* certification of the correction of a violation required under the provisions of this code, *complaint regarding a violation of the provisions of this code*, or any rule or regulation of any agency promulgated thereunder, shall be guilty of a misdemeanor and upon conviction thereof, shall be punished by a fine of not less than one thousand dollars nor more than five thousand dollars, or by imprisonment not to exceed six months, or both.

§4. Chapter one of title 12 of the administrative code of the city of New York is hereby amended to add a new section 12-140, to read as follows:

§12-140. Use of City Agencies or Personnel to Harass Another Person or Entity.

Any person who knowingly causes or attempts to cause the harassment of another person or entity through the use of a city agency, personnel or service shall be guilty of a misdemeanor and upon conviction thereof, shall be punished by a fine of up to one thousand dollars, or by imprisonment not to exceed six months, or both such fine and imprisonment.

§5. This local law shall take effect immediately.

Referred to the Committee on Public Safety.

Int. No. 394

By Council Members Avella, Gentile, Stewart and Gerson.

A Local Law to amend the administrative code of the city of New York, in relation to requiring electrical conductors and utility service lines in Queens county to be placed underground.

Be it enacted by the Council as follows:

Section 1. Chapter 4 of title 24 of the administrative code of the city of New York is amended by adding a new section 24-416.1 to read as follows:

§24-416.1 Electrical conductors and utility service lines to be underground in Queens county. a. Notwithstanding the provisions of section 24-416 of this code, all electrical conductors and utility service lines installed in Queens county after September 30, 2004 shall be placed underground.

b. To the maximum extent practicable, electrical conductors shall be placed underground on any street or portion of a street during the course of any capital reconstruction project of that street or portion of that street undertaken by the city of New York.

§2. This local law shall take effect immediately upon its enactment into law.

Referred to the Committee on Transportation.

Int. No. 395

By Council Members Baez, Barron, Foster, Liu, Nelson, Serrano, Stewart, Gerson and Martinez.

A Local Law to amend the administrative code of the city of New York, in relation to idling restrictions pertaining to school buses and reporting requirements.

Be it enacted by the Council as follows:

Section 1. Section 24-163 of the administrative code of the city of New York is amended to read as follows:

§ 24-163 Operation of motor vehicle; idling of engine restricted. (a) No person shall cause or permit the engine of a motor vehicle, other than a legally authorized emergency motor vehicle, to idle for longer than three minutes while parking as defined in section one hundred twenty-nine of the vehicle and traffic law, standing as defined in section one hundred forty-five of the vehicle and traffic law, or stopping as defined in section one hundred forty-seven of the vehicle and traffic law, unless the engine is used to operate a loading, unloading or processing device. When the ambient temperature is in excess of forty degrees Fahrenheit, no person shall cause or permit the engine of a bus as defined in section one hundred four of the vehicle and traffic law to idle while parking, standing, or stopping (as defined above) at any terminal point, whether or not enclosed, along an established route. *The engine of a school bus shall not idle for any period of time while parking, standing or stopping in front of any school building.*

(b) The department of transportation shall post signs relating to prohibited idling that shall comply with the standards set forth in the Manual on Uniform Traffic Control Devices and, where practicable, include the maximum penalty that may be imposed for a violation of subdivision a of this section as follows:

(1) a sign shall be posted at each exit within the city of New York of each bridge and tunnel having only one terminus in the city of New York;

(2) signs shall be posted at a minimum of five locations in each borough where two or more truck routes, whether local or through routes, intersect;

(3) a sign shall be posted at each bus layover area (other than school bus layover areas), designated by the commissioner of transportation pursuant to section 4-10(c)(3) of title 34 of the rules of the city of New York;

(4) a sign shall be posted at each multiple use bus terminal point;

(5) a sign shall be posted in close proximity to each school bus depot; and,

(6) signs shall be posted at other appropriate locations throughout the city as jointly determined by the commissioner and the commissioner of transportation, including but not limited to, locations for which the city receives a substantial number of complaints of idling motor vehicles.

(c) For the purpose of this section only the term *"school bus" shall mean any bus that transports children to or from schools,* "school bus depot" shall mean any garage, lot or other facility where buses that transport children to or from schools are parked over night and the term "multiple use bus terminal point" shall mean a location that is both a terminal point of at least one bus route (other than a school bus route) and a bus stop (other than a school bus stop) on one or more other bus routes.

(d) In any proceeding relating to a violation of the restrictions on idling it shall not be a defense that a sign required by this section was absent at the time of the violation.

(e) Not later than January 30, 2005, and not later than January 30 of each year thereafter, the department shall provide a report to the speaker of the council, which shall include, but not be limited to, the number of notices of violation issued during the immediately preceeding complete fiscal year for violations of this section and the average penalty assessed and collected, respectively, for such violations. Such information shall be disaggregated according to council district and the type of vehicle, such as bus, truck or passenger vehicle, for which the notices of violation were issued and shall be included in the preliminary mayor's management report and mayor's management report for the relevant fiscal year.

§ 2. This local law shall take effect six months after its enactment into law.

Referred to the Committee on Environmental Protection.

Res. No. 437

Resolution calling upon the appropriate committee of the Council to conduct an oversight hearing on New York City's insufficient enforcement of New York State Public Health Law 1310, relating to the removal of canine waste in cities.

By Council Members Baez, Barron, Clarke, Monserrate, Nelson, Sears, Serrano, Vann, Gerson and Martinez.

Whereas, The presence of unremoved dog waste from city sidewalks, streets, and gutters is not only unsightly, but is also extremely unsanitary; and

Whereas, According to the Centers for Disease Control and Prevention, the spread of parasitic diseases to humans and other animals, such as giardiasis, shigellosis, cryptosporidiosis and toxocariasis, may be attributed to bacterial contamination from animal waste; and

Whereas, According to the Stormwater Manager's Resource Center, bacterial contamination of urban streams and watersheds may also be attributed to unremoved pet waste; and

Whereas, New York State Public Health Law 1310, also known as the "Pooper Scooper Law," requires dog owners to remove feces left by their dogs on any sidewalk, gutter, street or other public area, the provisions of which are to be enforced by sanitation officers, dog enumerators, wardens or any other person authorized to issue tickets for parking violations; and

Whereas, The Daily News reported on April 22, 1997, that in fiscal years 1995 and 1996, 1,533 and 1324 summonses, respectively, were issued to enforce Public Health Law 1310; and

Whereas, Similarly, The New York Times reported on June 22, 2003, that the number of dog waste summonses fell from 1,117 in 2000, to 752 in 2001, and to just 445 in 2002, despite the fact that the number of dog owners had not decreased; and

Whereas, The New York Times also reported on June 22, 2003, that the 311 Citizen Service Center received 307 calls regarding dog waste, amounting to more complaints than all dog waste summonses written over the preceding six months; and

Whereas, Recently, the Department of Sanitation reported only 662 summonses issued citywide in violation of New York State Public Health Law 1310 for fiscal year 2004; and

Whereas, Furthermore, an education campaign by an appropriate City agency would make citizens aware of the importance of the "Pooper Scooper Law" and the existence of fines of up to $100 if such law is violated; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the appropriate committee of the Council to conduct an oversight hearing on New York City's insufficient enforcement of New York State Public Health Law 1310, relating to the removal of canine waste in cities.

Referred to the Committee on Sanitation and Solid Waste Management.

Int. No. 396

By Council Member Fidler, and The Speaker (Council Member Miller) and Council Members Reyna, Dilan, Gonzalez, Martinez, Baez, Serrano, Rivera, Monserrate, Lopez, Palma, Quinn, Stewart, Oddo, Recchia Jr., Boyland, Comrie Jr., James, Koppell, Gerson, Addabbo Jr., Vann, McMahon, Weprin, Gennaro, Vallone Jr., Reed, Jennings Jr., Felder, Clarke, Avella, Seabrook, Gioia, Barron, Perkins, Gentile, Brewer, Provenzano, DeBlasio, Lanza, Gallagher, Sanders Jr., Yassky, Jackson, Sears, Foster, Liu, Nelson and Katz.

A Local Law to amend the administrative code of the city of New York, in relation to banning the sale of certain substances containing lead.

Be it enacted by the Council as follows:

Section 1. **Legislative findings and intent.** Lead is a highly toxic substance that has been found to cause permanent neurological damage in children. High levels of lead poisoning are linked to many adverse health effects among children, including learning disabilities, behavioral problems, seizures, coma and sometimes death.

According to the Food and Drug Administration ("FDA"), litargirio is a yellow or peach colored powder, manufactured by certain laboratories outside of the United States, that has no proven health benefits and, because of its high lead content, poses health risks, especially for children, when used in contact with the skin or ingested. This powder has been used, among other things, as a deodorant, a foot fungicide, and a treatment for burns and wounds. Because of the serious health risks associated with this powder, the FDA has issued a warning to the public not to use litargirio for any health-related or personal purposes.

In addition, certain food products have been discovered to contain dangerously high levels of lead. For example, the FDA has warned consumers to avoid purchasing or consuming certain candy lollypops, containing tamarind, made from tamarind fruit and often manufactured outside of the United States. These tamarind candy lollypops and wrappers contain high levels of lead and can increase the chances of lead poisoning in children.

Accordingly, as a result of the proven toxicity of lead and these FDA warnings, the Council finds that litargirio and certain food products containing lead are dangerous substances, the sale of which should be prohibited in order to protect the public health.

§2. Chapter one of title seventeen of the administrative code of the city of New York is amended by adding a new section 17-187 to read as follows:

§17-187 Prohibition on sale of certain substances containing lead. a. For purposes of this section, the following terms shall have the following meanings:

1. "Food products containing lead" shall mean any food or candy having a lead content which has been determined to be excessive pursuant to rules promulgated by the department.

2. "Litargirio" shall mean a yellow or peach colored powder, which uses include, but are not limited to, as a deodorant, a foot fungicide, and a treatment for burns and wounds, and which has a lead content which has been determined to be excessive pursuant to rules promulgated by the department.

3. "Person" shall mean any natural person, individual, corporation, unincorporated association, proprietorship, firm, partnership, joint venture, joint stock association or other entity or business organization.

b. To the extent permitted by any applicable law, rule or regulation, no person shall sell or offer for sale, or cause any person to sell or offer for sale, food products containing lead or litargirio, or any products that contain litargirio.

c. Violations and penalties. Any person who violates any provision of this section shall be guilty of a misdemeanor punishable by a fine of not more than two hundred and fifty dollars for each violation. In addition, any person who violates any provisions of this section shall be liable for a civil penalty of not more than two hundred and fifty dollars for each violation.

d. Enforcement. The department and designated enforcement employees of the department of consumer affairs shall enforce the provisions of this section. A proceeding to recover any civil penalty authorized by this subdivision shall be commenced by the service of a notice of violation which shall be returnable to the administrative tribunal established by the board of health, which shall have the power to impose the civil penalties prescribed by this subdivision.

e. Rules. The commissioner shall promulgate any rules as may be necessary for the purposes of carrying out the provisions of this section.

§3. Severability. If any subsection, sentence, clause, phrase or other portion of this local law is, for any reason, declared unconstitutional or invalid, in whole or in part, by any court of competent jurisdiction, such portion shall be deemed severable and such unconstitutionality or invalidity shall not affect the validity of the remaining portions of this local law, which remaining portions shall remain in full force and effect.

§4. This local law shall take effect ninety days after its enactment into law.

Referred to the Committee on Health.

By Council Members Gennaro, Avella, Comrie Jr., Fidler, Jackson, Provenzano, Recchia Jr. and Weprin (by request of the Mayor).

A Local Law to amend the administrative code of the city of New York, in relation to the noise control code.

Be it enacted by the Council as follows:

Section 1. Section 24-202 of the administrative code of the city of New York, as amended by local law 22 for the year 2002, is amended to read as follows:

§24-202 Declaration of policy. It is hereby declared to be the public policy of the city to reduce the ambient [noise] *sound* level in the city, so as to preserve, protect and promote the public health, safety and welfare, and the peace and quiet of the inhabitants of the city, prevent injury to human, plant and animal life and property, foster the convenience and comfort of its inhabitants, and facilitate the enjoyment of the natural attractions of the city. It is the public policy of the city that every person is entitled to ambient [noise] *sound* levels that are not detrimental to life, health and enjoyment of his or her property. It is hereby declared that the making, creation or maintenance of excessive and unreasonable noises within the city affects and is a menace to public health, comfort, convenience, safety, welfare and the prosperity of the people of the city. For the purpose of controlling and reducing such noises, it is hereby declared to be the policy of the city to set the unreasonable *and prohibited* noise standards and decibel levels contained herein and to consolidate certain of its noise control legislation into this code. The necessity for legislation by enactment of the provisions of this chapter is hereby declared as matter of legislative determination. This code shall be liberally construed so as to effectuate the purposes described in this section. Nothing herein shall be construed to abridge the emergency powers of the board of health or the right of the department of health and mental hygiene to engage in any of its necessary or proper activities. [Nothing herein shall abridge the powers and responsibilities of the] *It is the intent of the Council that the* police department [to] *as well as other agencies of the city designated by the commissioner of the department of environmental protection shall have the authority to* enforce the provisions of this code *and that police officers and designated employees of the department of environmental protection and of such other city agencies shall have the power to issue summonses, appearance tickets and notices of violation for violations of this code.*

§2. Section 24-203 of such code is amended to read as follows:

§24-203 General definitions. When used in the New York city noise control code *the following terms shall have the following meanings*:

[(a)] *(1)* "A" level means the [total] sound level [of all noise] as measured with a sound level meter using the "A" weighting network. The unit of measurement is the db(A). *This frequency weighting network for the measurement of sound levels shall comply with standards established by the American National Standards Institute specifications for sound level meters S1.4-1971, as amended or S1.4-1983, as amended.*

[(b)] *(2)* Activity means any act or combination of acts which actually results in the production of sound.

[(c)] *(3)* Air compressor means a device which draws in air or gas, compresses it, and delivers it at a higher pressure.

[(d) Aircraft means any device that is used or intended to be used for flight in the air but does not include any such device used only in the service of a government or political subdivision thereof unless such device is engaged in carrying persons or property for commercial purposes. Aircraft includes but is not limited to:

1. subsonic transport aircraft;
2. subsonic turbojet-powered aircraft;
3. aircraft capable of flying at supersonic speeds;
4. rotorcraft;
5. vertical take-off and landing aircraft (VTOL aircraft);
6. short take-off and landing aircraft (STOL aircraft); and
7. aircraft capable of landing or taking off on water.]

[(e)] *(4)* Air horn means a device intended to produce a sound signal by means of compressed air or gas or exhaust gas.

[(f)] *(5)* Airport means an area of land or water that is used or intended to be used for the landing and take off of aircraft, and includes its buildings and facilities, if any.

[(g)] *(6)* Ambient [noise] *sound* means [the all-encompassing noise associated with a given environment, being usually a composite of sounds from many sources near and far] *the sound level at a given location that exists as a result of the combined contribution in that location of all sound sources, excluding the contribution of a source or sources under investigation for violation of this code and excluding the contribution of extraneous sound sources. For purposes of the enforcement of this code, the ambient sound level of a given location may be determined based upon measurements taken at a comparable site in the nearby area.*

[(h)] *(7)* Apparatus means any mechanism which prevents, controls, detects, measures or records the production of sound.

(8) Audible status indicator means any sound reproduction device on a motor vehicle that emits or causes to be emitted any continuous or near continuous sound (exceeding 5 seconds if tonal in nature or any duration if verbal in nature) for the purpose of warning that an audible burglar alarm has been installed on such motor vehicle and is operational or for creating the appearance that such an alarm has been installed on such motor vehicle and is operational.

[(i)] *(9)* Authorized emergency vehicle means [every ambulance and every vehicle operated by a police department, fire department, fire patrol, chief or assistant chief of a fire department, county or deputy county fire coordinator, county or assistant county fire marshal, sheriff, or by a chief, assistant chief or deputy chief of a police department, a regular paid deputy sheriff or a motor vehicle of the New York city housing authority when engaged in the performance of duty as a peace officer, or by an authorized public utility company when on emergency calls, every state-owned vehicle operated by a law enforcement officer of the conservation department when engaged in performance of duty in enforcement of the environmental conservation law, and every vehicle operated by a bridge authority or bridge and tunnel authority when on emergency calls] *an authorized emergency vehicle as defined by section 101 of the vehicle and traffic law* .

[(j)] *(10)* Board means the environmental control board of the city of New York.

[(k)] *(11)* Building means a building as defined in [article two of subchapter two of chapter one of title twenty-seven of the code] *section 27-232 of the administrative code.*

[(l)] *(12)* Building aperture means any designed opening in a building to which a person may reasonably have access including but not limited to any door, gate, window, skylight or hatch.

[(m)] *(13)* Burglar alarm means any sound signal device designed and intended to produce a sound signal upon unauthorized entrance by a person into a building or motor vehicle.

[(n)] *(14)* "C" level means the [total] sound level [of all noise] as measured with a sound level meter using the "C" weighting network. The unit of measurement is the db(C). *This frequency weighting network for the measurement of sound levels shall comply with standards established by the American National Standards Institute specifications for sound level meters S1.4-1971, as amended or S1.4-1983, as amended.*

[(o)] *(15)* Certificate means an operating or temporary operating certificate.

[(p)] *(16)* Charter means the charter of the city of New York including all of its amendments.

[(q)] *(17)* Circulation device means any device which circulates a gas or fluid, including but not limited to any air conditioner, pump, cooling tower, fan or blower.

[(r)] *(18)* Claxon means any manually, mechanically, or electrically powered device, other than an emergency signal device, including but not limited to a motor vehicle horn, which is intended to, and when operated actually does, emit a sound signal.

[(s)] *(19)* This code means the New York city noise control code.

[(t)] *(20)* Commissioner means commissioner of environmental protection.

[(u)] *(21)* Construction *or construction work* means any or all activity[, except tunneling,] necessary or incidental to the erection, demolition, assembling, altering, installing or equipping of buildings, public or private highways, roads, premises, parks, utility lines including such lines in already-constructed tunnels, or other property, including land clearing, grading, excavating and filling.

[(v)] *(22)* Construction device means any device designed and intended for use in construction including, but not limited to any air compressor, pile driver, [manual tool] *sledgehammer*, bulldozer, pneumatic hammer, steam shovel, derrick, crane, steam or electric hoist, *construction vehicle, pneumatic or electric tool.*

[(w)] *(23)* Construction material means any material, regardless of composition, designed and customarily used in construction including but not limited to any rails, pillars, columns, beams, bricks, flooring, wall, ceiling or roofing material, gravel, sand, cement or asphalt.

[(x)] *(24)* Container means any receptacle, regardless of contents, manufactured from wood, metal, plastic, paper or any other material including but not limited to any barrel, basket, box, crate, tub, bottle, can or refuse container.

[(y)] *(25)* Decibel[. The decibel is one-tenth of a bel. Thus, the decibel is a unit of level when the base of the logarithm is the tenth root of ten, and the quantities concerned are proportional to power.] *means the practical unit of measurement for sound pressure level; the number of decibels of a measured sound is equal to 20 times the logarithm to the base 10 of the ratio of the sound pressure to the pressure of a reference sound (20 micropascals); abbreviated "dB".*

[(z)] *(26)* Device means any mechanism which is intended to or which actually produces sound when operated or handled.

[(aa)] *(27)* Department means the department of environmental protection.

[(bb)] *(28)* Dwelling means any building occupied in whole or in part as the temporary or permanent residence of one or more natural persons.

[(cc)] *(29)* Dynamic insertion loss means the difference between two sound pressure levels which are measured at the same point in space before and after a muffler is inserted between the measurement point and the sound source under operating conditions.

[(dd)] *(30)* Emergency means a public calamity or an exposure of any person or property to imminent danger.

[(ee)] *(31)* Emergency signal device means any gong, siren whistle, or siren or any air horn or any similar device the use of which on authorized emergency vehicles is permitted by subdivision twenty-six of section three hundred seventy-five of the vehicle and traffic law.

[(ff)] *(32)* Exhaust source means a system which removes and transports air or gas from a device.

(33) Extraneous sound is sound that is intense, intermittent, not representative of the relatively steady sound levels at a given location and not attributable to a source or sources under investigation for violation of this code. Such sound includes but is not limited to sirens of passing emergency vehicles, unusually loud motor vehicle braking (screeching) or exhaust noise, people shouting, animal vocalization, passing aircraft, horn honking, car door slamming, passing trains. Notwithstanding the foregoing provision, sounds that are individually persistent or controlling of the sound level at a given location shall not be considered to be extraneous sounds if they constitute more than 50 percent of the duration of an ambient or total sound measurement such as for example the sound of a passing aircraft at a specific location if airplanes regularly pass over such location and the proximity of such passing aircraft to the location, its sound level, and the duration of such sound level, control the sound level at the given location at the time the sound source under investigation is being measured. For the purposes of the enforcement of this code, extraneous sounds are excluded when measuring the ambient sound level at a given location and when measuring the sound level of a source or sources under investigation for violation of this code except where such sounds are themselves under investigation for violation of this code.

(34) Impulsive sound is sound that is of short duration, where each peak of sound lasts 2 seconds or less. The sound is characterized by abrupt onset and rapid decay. As used in this code, the term impulsive sound shall not include music.

[(gg)] *(35)* Internal combustion engine means a device for the production of energy by means of the combustion under pressure of fossil fuel.

[(hh)] *(36)* Lawn care device means any device powered mechanically, by electricity, by gasoline, by diesel fuel or by any other fuel, which is intended to be used or is actually used for the mowing of grass, the cutting or chipping of trees, tree roots or tree branches, or the clearing of leaves or other vegetation from lawns, sidewalks, public streets or public highways and shall include, but not be limited to, such devices as lawn mowers and lawn mower attachments, lawn edgers, leaf blowers, leaf vacuums, mulchers and chippers.

(37) Lmax means the maximum measured sound level at any instant in time.

[(ii)] *(38)* Motor vehicle means any device which is propelled by an engine in or upon which a person or material may be transported on the ground and which is intended to be operated upon a public highway.

[(jj)] *(39)* Muffler means an apparatus generally consisting of but not limited to a series of chambers or baffles for the purpose of transmitting gases while reducing sound levels.

[(kk)] *(40)* Noise means [an erratic, intermittent, or statistically random oscillation] *sound at levels prohibited by this code.*

[(ll)] *(41)* Owner means and includes the owner of the freehold of the premises or lesser estate therein, or mortgagee thereof, a lessee or agent of any of the above persons, a lessee of a device or his or her agent, a tenant, operator, or any other person who has regular control of a device or an apparatus.

[(mm)] *(42)* Paving breaker means any powered construction device intended to cut or trench pavement, subbase macadam, gravel, concrete or hard ground.

[(nn)] *(43)* Person means any individual, partnership, company, corporation, association, firm, organization, governmental agency, administration or department, or any other group of individuals, or any officer or employee thereof.

(44) Personal audio device means a portable sound reproduction device as normally and customarily used for personal recreational purposes including but not limited to a personal radio, phonograph, television receiver, tape recorder or compact disc player. For the purposes of this definition such term shall include a sound reproduction device installed in or operated from a motor vehicle whether or not portable.

(45) Plainly audible sound means any sound for which any of the content of that sound, such as, but not limited to comprehensible musical rhythms, is communicated to a person using his or her unaided hearing faculties. For the purposes of the enforcement of this code, the detection of any component of music, including but not limited to the rhythmic bass by a person using his or her unaided hearing faculties is sufficient to verify plainly audible sound. It is not necessary for such person to determine the title, specific words or artist of such music. In the case of motor vehicles the detection of the sound of a muffler or of an exhaust by a person using his or her unaided hearing faculties is sufficient to verify plainly audible sound. Plainly audible sound does not require measurement with a sound level meter.

[(oo)] *(46)* Power tool means any device powered mechanically, by electricity, by gasoline, by diesel fuel or by any other fuel, which is intended to be used or is actually used for, but shall not be limited to, the performance of such functions as cutting, nailing, stapling, sawing, vacuuming or drilling.

(47) Public right-of-way means a public highway, road, street, avenue, alley, driveway, path, sidewalk, roadway or any other public place or public way.

[(pp)] *(48)* Railroad means a railroad, other than a rapid transit railroad or street railroad, operated for public use in the conveyance of persons or property for compensation, with all bridges, ferries, tunnels, equipment, switches, spurs, tracks, stations and terminal facilities used, operated or owned by or in connection therewith.

[(qq)] *(49)* Rapid transit railroad means a rapid transit railroad used for local service in the transportation of passengers as a common carrier for hire together with the appurtenances, facilities and equipment thereof.

(50) Receiving property means real property, including but not limited to buildings, grounds, offices and dwelling units, from which sound levels from sound sources outside such property may be measured. For the purposes of this definition, individual offices or dwelling units within a building may constitute a receiving property.

[(rr)] *(51)* Refuse compacting vehicle means a motor vehicle designed to compact and transport refuse.

[(ss)] *(52)* Sound means an oscillation in pressure, stress, particle displacement, particle velocity, etc., in a medium with internal forces (e.g., elastic, viscous), or the superposition of such propagated oscillation which evokes an auditory sensation.

[(tt)] *(53)* Sound level meter means any instrument including a microphone, an amplifier, an output meter, and frequency weighting networks for the measurement of noise and sound levels in a specified manner and which complies with standards established by the American National Standards Institute specifications for sound level meters S1.4-1971, as amended *or S1.4-1983, as amended.*

[(uu)] *(54)* Sound pressure level (decibels) [means a sound that is] *is an expression of the acoustic pressure calculated as* twenty times the logarithm to the base ten of the ratio of the *root mean square of the* pressure of the sound to the reference pressure, [2 x 10-4 microbars] *20 micropascals.*

[(vv)] *(55)* Sound reproduction device means a device intended primarily for the production or reproduction of sound, including but not limited to any musical instrument, radio receiver, television receiver, tape recorder, phonograph or *electronic* sound amplifying system.

[(ww)] *(56)* Sound signal means any sound produced by a sound signal device designed to transmit information.

[(xx)] *(57)* Sound signal device means a device designed to produce a sound signal when operated, including but not limited to any claxon, air horn, whistle, bell, gong, siren, but not an emergency signal device.

[(yy)] *(58)* Sound source means any activity or device [as herein defined] *that emits sound.*

[(zz)] *(59)* This code means the noise control code.

(60) Total sound level means that measured sound level that represents the combined sound level of the source or sources under investigation and the ambient sound level. Total sound level measurements shall exclude extraneous sound sources.

[(aaa)] *(61)* Tunnel means an underground passage which is intended for use as a railway, aqueduct, road, sewer or major utility artery.

[(bbb)] *(62)* Tunneling means any activity necessary or incidental to the construction of any tunnel, including the sinking of shafts to tunnel or to an intermediate level and the surface activities required to sink the shafts and construct the tunnel.

[(ccc)]) *(63)* Unreasonable noise means any excessive or unusually loud sound that disturbs the peace, comfort or repose of a reasonable person of normal sensitivities, injures or endangers the health or safety of a reasonable person of normal sensitivities or which causes injury to plant or animal life, or damage to property or business.

(64) VdB means a form of measurement for vibration decibels. All vibration levels in this code are referenced to 1 x 10^{-6} inches per second. Decibel notation is in common use for vibration level, defined as Lv = 20 x log10(V/Vref), where Lv. is the velocity level in decibels, V is the rms velocity amplitude, and Vref is the reference velocity amplitude. The root mean square of a vibration signal is the average of the squared amplitude of the signal over a given time period (usually 1 second). The rms velocity is described in inches per second.

(65) Vibration means an oscillatory motion of solid bodies of deterministic or random nature described by displacement, velocity or acceleration with respect to a given reference point.

[(ddd) Nursing home means a facility providing therein nursing care to sick, invalid, infirm, disabled, or convalescent persons in addition to lodging and board or health-related service, or any combination of the foregoing, and in addition thereto, providing nursing care and health-related service, or either of them, to persons who are not occupants of the facility.

(ddd) Zone means any zone as defined in the zoning resolution of the city of New York, except that zone shall not mean any ambient noise quality zone under

subchapter five or subchapter six of this chapter of this code or any noise sensitive zone under subchapter four of this chapter of this code.

(eee) Audible status indicator means any sound reproduction device on a motor vehicle that emits or causes to be emitted any continuous or near continuous sound for the purpose of warning that an audible burglar alarm has been installed on such motor vehicle and is operational or for creating the appearance that such an alarm has been installed on such motor vehicle and is operational.]

§3 Sections 24-204, 24-205, 24-206 and 24-207 of the administrative code of the city of New York, sections 24-204, 24-205 and 24-207 as amended by local law 18 for the year 1993, are amended to read as follows:

§24-204 General powers of the commissioner. *(a)* Subject to the provisions of this code, the commissioner may take such action as may be necessary to abate a sound source which causes or may cause, by itself or in combination with any other sound source or sources, an unreasonable *or prohibited* noise. The commissioner may exercise or delegate any of the functions, powers and duties vested in him or her or in the department by this code.

(b) The commissioner may promulgate such rules as he or she may deem necessary to effectuate the purposes of this code, including, without limitation, rules setting forth specifications for the operation, installation, best available technology, or manufacture of sound generating equipment or devices, or sound mitigation equipment or devices.

(c) The commissioner may promulgate such rules as he or she may deem necessary with regard to standards and procedures to be followed in the measurement of sound pressure levels governed by the provisions of this code, provided that such standards and procedures are substantially in compliance with any similar standards and procedures promulgated by the American National Standards Institute, International Standards Organization, Society of Automotive Engineers, Compressed Air and Gas Institute, American Society of Heating, Refrigeration, and Air Conditioning Engineers, American Refrigeration Institute or any generally recognized professional standard-setting organization.

§24-205 Investigations and studies by the commissioner. *(a)* The commissioner may make or cause to be made any investigation or study which in his or her opinion is desirable for the purpose of enforcing this code or controlling or abating an unreasonable *or prohibited* noise. For such purposes, the commissioner may make tests, conduct hearings, compel the attendance of witnesses, and take their testimony under oath and may compel the production of books, papers and other things reasonably necessary to the matter under consideration.

(b) The commissioner shall study and propose strategies to control and/or reduce sound levels associated with airports, rapid transit and railroad operations. Within twenty-four months after the effective date of this subdivision he or she shall report to the mayor his or her findings and recommendations, specifically identifying those that may only be implemented through state or federal legislation or rules.

(c) The commissioner, in conjunction with the police department, shall study noise abatement strategies for audible motor vehicle burglar alarms and shall report his or her findings and recommendations to the mayor.

(d) The commissioner shall study the impact of motor vehicle back-up warning devices installed on motor vehicles on ambient sound levels and shall report his or her findings and recommendations to the mayor, specifically identifying those recommendations that may only be implemented through state or federal legislation.

§24-206 Testing by order of the commissioner. (a) If the commissioner has reasonable cause to believe that any device is in violation of this code, the commissioner may order the owner of the device to conduct such tests as are necessary in the opinion of the commissioner to determine whether the device or its operation is in violation of this code and to submit the test results to the commissioner within ten days after the tests are completed.

(b) Such tests shall be conducted in a manner approved by the commissioner. If any part of the test is conducted at a place other than the site where the device is located, that part of the test shall be certified by a laboratory acceptable to the commissioner. The commissioner may require that the entire test results shall be reviewed and certified by *(i)* a professional engineer *with acoustical experience as specified in the rules of the department or (ii) a noise consultant with qualifications of education and/or acoustical experience as set forth in the rules of the department.*

(c) [The owner shall notify the commissioner of the time and place of a test at least seven days before the commencement of such test. Reasonable facilities shall be made available for the commissioner to witness the test.

(d)] If in the opinion of the commissioner, tests by the department are necessary, the commissioner may order the owner to provide such access to the device as the commissioner may reasonably request, to provide a power source suitable to the points of testing, and to provide allied facilities, exclusive of sound level meter. These provisions shall be made at the expense of the owner of the device. The owner shall be furnished with copies of the analytical results of the data collected.

[(e)] (d) If after the analysis of such testing, it is determined by the commissioner that such device or devices generate sound levels that exceed the limits of this code, the commissioner may make recommendations for modifications and/or mitigation measures to bring such device or devices into compliance.

(e) The commissioner may issue a separate notice of violation for every 24-hour period of noncompliance with the orders of the commissioner issued pursuant to this section.

§24-207 Inspection. (a) The department may inspect at any reasonable time and in a reasonable manner any device which creates or may create unreasonable *or prohibited* noise including but not limited to the premises where the device is used.

(b) The department may inspect at any reasonable time and in a reasonable manner any record relating to a use of a device which creates or may create unreasonable *or prohibited* noise.

(c) No person shall refuse entry or access into the public areas of a multiple dwelling or a place or business to an authorized employee of the department *or other authorized city employee* who presents appropriate credentials, nor shall any person refuse entry or access into any other portion of a premise to an authorized employee of the department *or other authorized city employee* who presents appropriate credentials and a [search] warrant *for such inspection.*

(d) No person shall refuse to allow an authorized employee of the department or other authorized city employee who presents appropriate credentials to perform sound testing on any device or devices, including but not limited to requiring the temporary shutting down of said device or devices for the purposes of such testing.

§4. Subdivision (a) of section 24-208 of such code is amended to read as follows:

(a) The commissioner may require the written registration of air compressors, paving breakers, refuse compacting vehicles and rapid transit railroads, including but not limited to its rolling stock, track and track beds, passenger stations, *circulation devices rated 300,000 BTUs or higher*, tunnels, elevated structures, yards, depots and garages. A period of sixty days shall be allowed for the filing of such registration. However, in cases of emergency, the commissioner may designate a shorter period of time.

§5. Section 24-211 of such code is amended to read as follows:

§24-211 Display of permits[,] *and* certificates [and other notices; removal or mutilation prohibited]. Any tunneling permit or certificate required by this code shall be displayed in the vicinity of the device on the premises designated on the tunneling permit or certificate or in the vicinity of the place where the device will be operated or supervised.

§6. Paragraph (1) of subdivision (b) of section 24-213 of such code is amended to read as follows:

(1) Either by mailing the notice, order or decision directed to the person at his or her principal place of business *or home address*, or

§7. Section 24-217 of such code is amended to read as follows:

§24-217 Exemptions. The provisions of this code shall not apply to the operation or use of any organ, bell, chimes or other similar instrument [by] *from on or within* any church, synagogue, mosque or [school] *other house of worship.*

§8. Such code is amended by adding a new section 24-217.1 to read as follows:

§24-217.1 Measurements. Unless otherwise specifically provided, all sound level measurements under this code shall be taken in Lmax with the sound level meter set to slow response.

§9. Section 24-218 of such code, as amended by local law 18 for the year 1993, is amended to read as follows:

§24-218 General prohibitions. *(a)* No person shall make, continue or cause or permit to be made or continued any unreasonable noise[, except that this section shall not apply to any sound from any source where the decibel level of such sound is within the limits prescribed by another section of this title and where there is compliance with all other applicable requirements of law with respect to such sound].

(b) Unreasonable noise shall include but shall not be limited to sound, attributable to any device, that exceeds the following prohibited noise levels:

(1) Sound, other than impulsive sound, attributable to the source, measured at a level of 7 dB(A) or more above the ambient sound level at or after 10:00 p.m. and before 7:00 a.m., as measured at any point within a receiving property or as measured at a distance of 15 feet or more from the source on a public right-of-way.

(2) Sound, other than impulsive sound, attributable to the source, measured at a level of 10 dB(A) or more above the ambient sound level at or after 7:00 a.m. and before 10:00 p.m., as measured at any point within a receiving property or as measured at a distance of 15 feet or more from the source on a public right-of-way.

(3) Impulsive sound, attributable to the source, measured at a level of 15 dB(A) or more above the ambient sound level, as measured at any point within a receiving property or as measured at a distance of 15 feet or more from the source on a public right-of-way. Impulsive sound levels shall be measured in the A-weighting network with the sound level meter set to fast response. The ambient sound level shall be taken in the A-weighting network with the sound level meter set to slow response.

(c) Notwithstanding the foregoing provisions, where a particular sound source or device is subject to decibel level limits and requirements specifically prescribed for such source or device elsewhere in this code, the decibel level limits set forth in this section shall not apply to such sound source or device.

(d) The decibel level limits set forth in this section shall not apply to sound attributable to construction devices and activities.

§10. Subchapters 4, 5 and 6 of chapter 2 of title 24 of such code are REPEALED and new subchapters 4, 5 and 6 are added to read as follows:

SUBCHAPTER 4

Construction Noise Management

§24-219 Noise mitigation rules. (a) The commissioner shall adopt rules prescribing noise mitigation strategies, methods, procedures and technology that shall be used at construction sites whenever any one or more of the construction devices or activities listed below are employed or performed:

(1) air compressors.

(2) pile drivers.

(3)sledgehammers.

(4) bulldozers.

(5) pneumatic hammers.

(6)steam shovels.

(7)derricks.

(8) cranes.

(9) steam or electric hoists.

(10) off-road construction vehicles other than trucks.

(11) pumps.

(12) pneumatic tools.

(13) blasting.

(14) power tools.

(15) tunneling machines.

(16) construction devices with internal combustion engines.

(17) construction devices that emit impulsive sound.

(18) construction devices that create vibration.

(19) any other construction devices or activities specified in such rules

(b) Such rules shall include but shall not be limited to:

(1) The use of perimeter fences with acoustical insulation, where appropriate.

(2) The use of portable barriers with acoustical insulation, where appropriate.

(3) The use of acoustical blanket insulation, where appropriate.

(4) Testing of exhaust mufflers and certification, in a form and manner to be specified in the rules, that mufflers meet factory specifications for noise emissions at maximum loading at the commencement of construction at the site.

§24-220 Noise mitigation plan. (a) Each person, corporation or other business entity performing construction work in the city shall adopt and implement a noise mitigation plan for each construction site in accordance with the provisions of this subchapter and such rules whenever any one or more of the construction devices or activities listed above or in the departments rules are employed or performed at the site.

(b) Such plan shall be adopted prior to the commencement of construction at the site or, with respect to emergency work, as defined in the department's rules, within three days thereafter, and shall apply to all work at the site throughout the construction process. The plan shall provide in detail the noise mitigation strategies, methods, procedures and technology, as prescribed in the rules of the department or specifically approved by the commissioner in accordance with section 24-221 of this code, for each device or activity employed or performed at the site. Each person performing construction work at the site shall be aware of the plan and shall be responsible for complying with those provisions that affect his or her work.

(c) A copy of the plan shall be kept at the construction site and shall be made available for inspection upon the request of persons authorized to enforce the provisions of this code.

(d) The plan shall be amended whenever additional devices or activities unforeseen at the commencement of construction are employed at the site or at the direction of the commissioner in accordance with section 24-223 of this subchapter.

(e) A plan need not be filed with or approved by the department prior to the commencement of construction if it conforms in all respects to the rules of the department with respect to construction devices and activities employed or performed at the construction site. A plan that deviates in any respect from such rules shall be subject to the prior approval of the commissioner in accordance with section 24-221 of this code.

(f) This section shall not apply to construction work in connection with the alteration or repair of an existing one or two family owner-occupied dwelling classified in occupancy group J-3 or a convent or rectory.

§24-221 Alternative noise mitigation plan. (a) Upon application, the commissioner may approve an alternative noise mitigation plan for a particular construction site that deviates from strict compliance with the noise mitigation rules. Application for approval of such plan shall be submitted to the department at least ten business days prior to the commencement of construction in a form and manner and accompanied by such information and documentation as shall be set forth in the rules of the department. The commissioner may approve such alternative noise mitigation plan if he or she finds that:

(1) strict compliance with the noise mitigation rules would not be possible or would create an undue hardship because of the location or unique characteristics of the site or of the construction devices or activities to be employed or performed at the site; and

(2) the alternative noise mitigation strategies, methods, procedures or equipment proposed are consistent with the purposes and policies of this code.

(b) Notwithstanding the foregoing provisions, with respect to construction sites where construction is performed pursuant to a permit issued prior to the effective date of this section or in the case of construction by or on behalf of a city agency where construction is performed under a contract bid out prior to the effective date of this section, application for approval of an alternative noise mitigation plan may be submitted within 60 days after the effective date of this section. The commissioner may approve such plan if he or she finds that:

(1) strict compliance with the noise mitigation rules would not be possible or would create an undue hardship because of the location or unique characteristics of the site or of the construction devices or activities employed or performed at the site ,or

(2) strict compliance with such rules would be unreasonable or unduly burdensome with respect to construction work that is imminent or ongoing on the effective date of this section, or

(3) with respect to city construction projects, the implementation of contract modifications to achieve strict compliance with such rules would result in unreasonable delay and/or increased expenditure for a necessary public improvement, and

(4) the alternative noise mitigation strategies, methods, procedures or equipment proposed are consistent with the purposes and policies of this code.

(c) Where the commissioner rejects an alternative plan, an applicant may appeal such rejection in accordance with the rules of the department. An alternative plan shall not be in effect unless and until it has been approved by the commissioner except that where a timely alternative plan has been filed with the commissioner for approval, a construction site shall be deemed to be in compliance with this section unless and until such plan is rejected by the commissioner.

§24-222 After hours and weekend limits on construction work. Except as otherwise provided in this subchapter, it shall be unlawful to engage in or to cause or permit any person to engage in construction work other than on weekdays between the hours of 7 a.m. and 6 p.m.. A person may however perform construction work in connection with the alteration or repair of an existing one or two family owner-occupied dwelling classified in occupancy group J-3 or a convent or rectory on Saturdays and Sundays between the hours of 10 a.m. and 4 p.m. provided that such dwelling is located more than 300 feet from a house of worship.

§24-223 After hours work authorization. (a) Notwithstanding section 24-222 of this subchapter, an agency authorized to issue permits for construction work may, along with such permit, issue an after hours work authorization for the work site. Such after hours authorization may permit construction work to be performed at the site before 7 a.m. or after 6 p.m. on weekdays and/or on Saturdays and/or Sundays subject to the conditions and restrictions set forth in this section.

(b) The agency issuing such authorization must obtain a certification from its permittee that the permittee has developed a noise mitigation plan for the site in accordance with this subchapter and that such plan is in compliance with the noise mitigation rules.

(c) If after hours work at the site is not being performed in compliance with such plan or where no plan is in effect, the agency issuing such authorization, at the request of the commissioner or on its own account, may take appropriate action, including but not limited to the refusal to renew such after hours authorization.

(d) Where there is full compliance with the noise mitigation plan yet nevertheless aggregate sound levels from the site where an after hours authorization is in effect exceed 8dB(A) above the ambient sound level as measured in any residential receiving property dwelling unit (with windows and doors that may affect the measurement closed), the commissioner may request the person performing the work to confer with representatives of the department regarding additional noise mitigation measures that may be employed at the site to reduce aggregate sound levels. After such conference the commissioner may direct amendment of the noise mitigation plan for the site. Failure to respond to a request for a conference or to amend the noise mitigation plan within the time prescribed in a notice issued by the department shall be a violation of this code.

(e) Authorization for after hours construction work may only be issued in the following circumstances:

(1) Emergency work. Agencies may authorize such after hours construction work for emergency conditions, inside or outside the property line, involving an imminent threat to public safety or causing or likely to cause the imminent interruption of service required by law contract or franchise. An emergency authorization issued pursuant to this paragraph shall expire on the ninetieth day after its issuance but shall be renewable in accordance with agency procedures while the emergency continues.

(2) Work outside the property line. Agencies may authorize such after hours work outside the property line where the agency determines that the work cannot reasonably or practicably be performed on weekdays between the hours of 7 a.m. and 6 p.m. because of traffic congestion and/or concern for worker safety. An authorization issued pursuant to this paragraph for work outside the property line shall expire on the ninetieth day after its issuance but shall be renewable in accordance with agency procedures.

(3) City construction projects. Agencies may authorize after hours work by or on behalf of city agencies for projects that are judicially mandated or the subject of consent orders and/or where a project is necessary in the public interest including but not limited to facilities, equipment, and infrastructure for the provision of water, sewerage, sanitation, transportation and other services necessary for the health or safety of the public. An authorization issued pursuant to this paragraph for a city construction project shall remain in effect for the duration of the project.

§24-224 It shall be unlawful to perform work at any construction site in the city that is not in compliance with a noise mitigation plan where such plan is required pursuant to this subchapter and with the noise mitigation rules adopted pursuant to this subchapter. Notwithstanding any other provision of this code, construction work performed in accordance with a noise mitigation plan that is in full compliance with this subchapter and such rules shall be deemed to be in compliance with all decibel level limits set forth in other subchapters of this code. The provisions of this subchapter shall supercede all other provisions of this code relating to construction activities or devices that are inconsistent with or in conflict therewith.

SUBCHAPTER 5

PROHIBITED NOISE

SPECIFIC NOISE SOURCES – SOUND LEVEL STANDARD

§24-225 Refuse compacting vehicles. No person shall sell, offer for sale, operate or permit to be operated a refuse compacting vehicle that produces a

maximum sound level when the compacting mechanism is in the compacting cycle but not engaged in compacting a load that exceeds 78 dB(A), when measured by a sound level meter set for slow response at a distance of 23 feet or more from the compacting unit.

§24-226 Air compressors. (a) No person shall operate or cause to be operated an air compressor unless a muffler certified by the manufacturer of such muffler to provide a dynamic insertion loss of 20 dB(C) of the sound release from the exhaust source of such air compressor is installed on such exhaust source.

(b) No person shall sell, offer for sale for use within the city of New York, or operate or permit to be operated an air compressor that, when operated, produces a maximum sound level, when measured at a distance of one meter or more from the nearest major surface of such air compressor, exceeding 80 dB(A) for sizes greater than 350 cfm or exceeding 75 dB(A) for sizes 350 cfm or less.

(c) Except for construction work outside the property line on a public right-of-way, no person shall operate or permit to be operated an air compressor so as to generate sound levels in excess of 75 dB(A) as measured at any receiving property.

§24-227 Circulation devices. (a) No person shall operate or permit to be operated a circulation device in such a manner as to create a spund level in excess of 42 dB(A) when measured inside a receiving property dwelling unit. The measurement shall be taken with the window or terrace door open at a point three feet from the open portion of the window or terrace door.

(b) Where one or more circulation devices is installed on any building lot on or after the effective date of this section, the sound level limit of 42 dB(A) referred to in subdivision a of this section shall apply to the cumulative sound from all of the circulation devices on such building lot, when measured as specified in such subdivision a.

(c) With respect to circulation devices installed on any building lot prior to the effective date of this section, the sound level limit of 42 dB(A) referred to in subdivision a of this section shall apply to each individual device except that if the cumulative sound from all such devices on such lot exceeds 50 dB(A), when measured as specified in such subdivision a, the building owner and/or the owner or owners of the circulation devices must achieve a 5 dB(A) reduction in such cumulative sound level within 12 months after the effective date of this section. Notwithstanding the forgoing provisions, until two years after the effective date of this section, subdivision b of this section shall not apply to the replacement of a circulation device that was installed on any building lot prior to the effective date of this section by a device of comparable capacity.

§24-228 Construction devices and exhausts. (a) No person shall operate or use or cause to be operated or used a construction device or combination of devices in such a way as to create an unreasonable noise.

(b) No person shall cause or permit discharge into the open air of the exhaust of any device, including but not limited to any steam engine, diesel engine, internal combustion engine, power tools, compressors or turbine engine, so as to create an unreasonable noise.

(c) For the purposes of subdivisions a and b of this section unreasonable noise shall include but shall not be limited to sound that exceeds the following prohibited noise levels:

(1) Sound, other than impulsive sound, attributable to the source or sources, that exceeds 85 dB(A) as measured 50 or more feet from the source or sources at a point outside the property line where the source or sources are located or as measured 50 or more feet from the source or sources on a public right-of-way.

(2) Impulsive sound, attributable to the source, that is 15 dB(A) or more above the ambient sound level as measured at any point within a receiving property or as measured at a distance of 15 feet or more from the source on a public right-of-way. Impulsive sound levels shall be measured in the A-weighting network with the sound level meter set to fast response. The ambient sound level shall be taken in the A-weighting network with the sound level meter set to slow response.

(d) Where a particular sound source or device is subject to decibel level limits and requirements specifically prescribed for such source or device elsewhere in this code, such specific decibel limits shall apply to such device or source. However, if aggregate sound levels from a construction site exceed the limits set forth in this section, compliance with such specific decibel limits shall not be a defense in any proceeding relating to a violation of this section.

§24-229 Containers and construction material. (a) No person shall handle or transport or cause to be handled or transported in any public right-of-way any container or any construction material in such a way as to create an unreasonable noise.

(b) For the purposes of this section unreasonable noise shall include but shall not be limited to the following prohibited noise levels:

(1) Sound, other than impulsive sound, attributable to the source measured at a level of 7 dB(A) or more above the ambient sound level at or after 10:00 p.m. and before 7:00 a.m., as measured at any point within a receiving property or as measured at a distance of 15 feet or more from the source on a public right-of-way.

(2) Sound, other than impulsive sound, attributable to the source measured at a level of 10 dB(A) or more above the ambient sound level at or after 7:00 a.m. and before 10:00 p.m., as measured at any point within a receiving property or as measured at a distance of 15 feet or more from the source on a public right-of-way.

(3) Impulsive sound, attributable to the source, measured at a level of 15 dB(A) or more above the ambient sound level, as measured at any point within a receiving property or as measured at a distance of 15 feet or more from the source on a public right-of-way. Impulsive sound levels shall be measured in the A-weighting network with the sound level meter set to fast response. The ambient sound level shall be taken in the A-weighting network with the sound level meter set to slow response.

§24-230 Paving breakers. (a) No person shall operate or cause to be operated a paving breaker, other than one operated electrically or hydraulically, unless a pneumatic discharge muffler certified by the manufacturer of such muffler to provide a dynamic insertion loss of 5 dB(A) of the sound released from the air discharge of such paving breaker is installed on such air discharge.

(b) No person shall sell, offer for sale for use within the city of New York, operate or permit to be operated a paving breaker that when operated produces a maximum sound level that exceeds 95 dB(A), when measured at a distance of one meter or more from a face of such paving breaker.

§24-231 Commercial music. (a) No person shall make or cause or permit to be made or caused any music originating from or in connection with the operation of any commercial establishment or enterprise when the level of sound attributable to such music, as measured inside any receiving property dwelling unit:

(i) is in excess of 42 dB(A) as measured with a sound level meter; or

(ii) is in excess of 45 dB in any one-third octave band having a center frequency between 63 hertz and 500 hertz (ANSI bands numbers 18 through 27, Inclusive), in accordance with American National Standards Institute standard S1.6-1984, or

(iii) causes a 6 dB(C) or more increase in the total sound level above the ambient sound level as measured in decibels in the "C" weighting network.

(b) No person shall make or cause or permit to be made or caused any music originating from or in connection with the operation of any commercial premises or establishment that is plainly audible on any public right-of-way at a distance of 15 feet or more from the building line of the premises in which the source is located except for incidental music emanating from the premises for no more than 20 seconds due to the temporary opening or closing of an entrance or exit door when patrons are entering or leaving the premises. For the purposes of this subdivision the term building line means a boundary line created by the outside surface of any exterior wall of a premises. Nothing in this subdivision shall be construed to permit the use of any sound reproduction device in connection with a commercial establishment or enterprise where such use would otherwise be prohibited pursuant to section 10-108 or 24-244 of the administrative code.

(c) No person shall make or cause or permit to be made or caused any music originating from or in connection with the operation of any commercial establishment or enterprise when the level of vibration attributable to such music exceeds 75 VdB as measured in any receiving property dwelling unit.

(d) (1) The commissioner may recommend to the environmental control board that there shall be no civil penalty imposed for a first violation of this section if, within 30 days after the issuance of such violation or, if applicable, within the time granted by the commissioner pursuant to paragraph two of this subdivision, the respondent admits liability for the violation and files a certification with the department in a form and manner and containing such information and documentation as shall be prescribed in the department's rules that (i) permanent improvements or modifications have been made to the establishment, including but not limited to the installation of appropriate sound insulation, isolators, suspension mounting and/or sound mitigation devices or materials and (ii) appropriate sound and/or vibration measurements taken in accordance with the department's rules substantiate that the establishment is in full compliance with the sound and vibration levels set forth in this section. If the commissioner accepts such certification of compliance, he or she shall recommend to the board that no civil penalty shall be imposed for the violation. Such violation may nevertheless serve as a predicate for purposes of imposing penalties for subsequent violations of this section.

(2) Where the completion of appropriate permanent improvements or modifications and testing within 30 days after the issuance of the violation would cause the respondent undue hardship, the respondent may apply to the commissioner for additional time to submit an appropriate certification of compliance, but not more than 30 days. Application for such additional time must be submitted to the commissioner within 30 days after the issuance of the violation along with an admission of liability and appropriate documents in support of the claim of undue hardship.

(3) Nothing in this subdivision shall be construed to prohibit enforcement personnel from issuing additional notices of violation, summonses or appearance tickets where sound or vibration levels exceed the limits set forth in subdivisions a, b and /or c of this section during the periods of time set forth in paragraphs one and two of this subdivision for submission of a certification of compliance for a first violation.

§24-232 Allowable decibel levels-octave band measurement. (a) No person shall cause or permit a sound source operating in connection with any commercial or business enterprise to exceed the decibel levels in the designated octave bands shown below as measured within a receiving property as specified therein.

Octave Band	Maximum Sound Pressure Levels (dB) as measured within a receiving property as specified below	
Frequency (Hz)	Residential receiving property for mixed use buildings and residential buildings (as measured within any room of the residential portion of the building with windows open, if possible).	Commercial receiving property (as measured within any room containing offices within the building with windows open, if possible).
31.5	70	74
63	61	64
125	53	56
250	46	50
500	40	45
1000	36	41
2000	34	39
4000	33	38
8000	32	37

(b) All sources that are within the A-scale limits prescribed by any other section of this code must also comply with the octave band decibel levels as specified herein. Compliance with this section does not constitute a defense to violation of decibel limits set by any other section of this code.

(c) Measurements performed on residential property shall not be taken in non-living areas such as closets and crawlspaces.

(d) This section shall not apply to impulsive sound or to music.

(e) Where a notice of violation is issued with respect to a sound source regulated by this section, no additional notice of violation either of this section or of any other section of this code shall be issued for the same sound source for 24-hours thereafter and any additional notice of violation issued inadvertently within such 24 hour period shall be void.

SUBCHAPTER 6

SPECIFIC NOISE SOURCES PLAINLY AUDIBLE AND OTHER STANDARDS

§24-233 Personal audio devices. (a) No person shall operate or use or cause to be operated or used any personal audio device in such a manner as to create an unreasonable noise.

(b) For the purposes of this section unreasonable noise shall include but shall not be limited to:

(1) the operation or use of a personcl audio device on or in any public right-of-way so that sound emanating from such device is plainly audible to another individual at a distance of 25 feet or more from the source.

(2) the operation or use of a personal audio device from on or inside a motor vehicle, whether moving, parked, stopped or standing, on or in any public right-of-way so that sound emanating from such device is plainly audible to another individual outside of such motor vehicle at a distance of 25 feet or more from the source.

(c) Nothing in this section shall be construed to permit the operation or use of a personal audio device where such operation or use would otherwise be prohibited pursuant to section 10-108 or 24-244 of the administrative code.

§24-234 Operation or use of sound reproduction device in or on rapid transit railroad, omnibus or ferry. It shall be unlawful to operate or use a sound reproduction device in or on any rapid transit railroad, omnibus or ferry, other than a personal audio device with personal earphones such that sound from such earphones is not plainly audible to another individual at a distance of 5 feet or more from the source.

§24-235 Animals. No person having charge, care, custody, or control of any animal shall cause or permit such animal to emit any sound that is plainly audible at any location within any residential receiving property as set forth below:

(a) At or after 7 a.m. and before 10 p.m., continuously for a period of 10 minutes or more.

(b) At or after 10 p.m. and before 7 a.m., continuously for a period of 5 minutes or more.

§24-236 Motor vehicles. (a) Motor vehicles, other than motorcycles, with a gross weight of 10,000 lbs or less. No person shall cause or permit any motor vehicle, other than a motorcycle, with a gross weight of 10,000 lbs. or less to operate on a public right-of-way where the muffler or exhaust generates a sound that is plainly audible to another individual at a distance of 150 feet or more from the motor vehicle.

(b) Motorcycles. No person shall cause or permit any motorcycle to operate on a public right-of-way where the muffler or exhaust generates a sound that is plainly audible to another individual at a distance of 200 feet or more from the motorcycle.

(c) Motor vehicles with a gross weight greater than 10,000 lbs. No person shall cause or permit any motor vehicle with a gross weight greater than 10,000 lbs. to operate on a public right-of-way where the muffler or exhaust generates a sound that is plainly audible to another individual at a distance of 200 feet or more from the motor vehicle, except when compression brake systems are used in an emergency to stop the vehicle.

(d) (1) No person operating a motor vehicle containing a compression brake system or systems shall apply such compression brake system or systems except when such system or systems are used in an emergency to stop the vehicle.

(2) The department is authorized to post signs at every entry point of the city containing the following information: THE USE OF COMPRESSION BRAKE SYSTEMS IS PROHIBITED ON STREETS WITHIN NEW YORK CITY WHERE THE SPEED LIMIT IS 35 MILES PER HOUR OR LESS EXCEPT IN CASE OF AN EMERGENCY.

(e) No person shall cause or permit the total sound from a motor vehicle operating on any public right-of-way to exceed the sound level set forth in section 386 of the vehicle and traffic law and the rules adopted pursuant to such section.

(f) Subdivisions a, b, c and paragraph one of subdivision d of this section may only be enforced on streets where the speed limit is 35 miles per hour or less.

§24-237 Sound signal devices. (a) No person shall operate or use or cause to be operated or used any claxon installed on a motor vehicle, except as a sound signal of imminent danger or in connection with use as an audible motor vehicle burglar alarm as provided in section 24-238 of this code.

(b) No person shall operate or use or cause to be operated or used an air horn or gong installed on any motor vehicle other than as provided in section 24-241 of this code.

(c) No person shall operate or use or cause to be operated or used any steam whistle attached to any stationary boiler, except to give notice of the time to start and stop work or as a sound signal of imminent danger.

(d) On and after the effective date of this section and prior to January 1, 2006 no person shall operate or use or cause to be operated or used on any public right-of-way any electrically operated or electronic sound signal device (other than a safety device, such as but not limited to a car horn or back up signal, that is actually used for its intended purpose) attached to, on or in a motor vehicle, wagon or manually propelled cart from which food or any other items are sold or offered for sale that is plainly audible at a distance greater than 50 feet from the source. On and after January 1, 2006 no person shall operate or use or cause to be operated or used on any public right-of-way any electrically operated or electronic sound signal device (other than a safety device, such as but not limited to a car horn or back up signal that is actually used for its intended purpose) attached to, on or in a motor vehicle, wagon or manually propelled cart from which food or any other items are sold or offered for sale.

§24-238 Audible burglar alarm and audible status indicator. (a) No owner of a building or of a motor vehicle shall have in operation an audible burglar alarm thereon unless such burglar alarm shall be capable of and shall automatically terminate its operation within fifteen minutes of its being activated in the case of a building, and three minutes of its being activated in the case of a motor vehicle. No audible burglar alarm on a motor vehicle shall be capable of being activated except by

(i) direct physical contact with that motor vehicle or

(ii) through the use of an individual remote activation device, that is activated from no further than 15 feet away from such vehicle and, that is designed to be used with the audible burglar alarm system of a particular vehicle which alarm shall be capable of and shall terminate its audible response within three minutes of its being activated.

(b) No owner of a motor vehicle shall have in operation an audible status indicator on such motor vehicle.

§24-239 Audible burglar alarm or audible status indicator may be disconnected. (a) Notwithstanding the provisions of section 24-238, any member of the police department of the city of New York shall have the right to take such steps as may be reasonable and necessary to disconnect any audible burglar alarm or audible status indicator that is installed on a motor vehicle at any time during the period of its activation.

(b) The operator of any motor vehicle on which an audible burglar alarm or audible status indicator has been installed shall when parked on a public highway or parking lot open to the public, prominently display the number and telephone number of the owner's local police precinct where information shall be on file to permit communication with the owner of such vehicle.

§24-240 Removal of vehicle with audible burglar alarm or audible status indicator. (a) Notwithstanding the provisions of section 24-239, any member of the police department may arrange for the removal of a motor vehicle from a public highway or parking lot open to the public, when

(i) an audible burglar alarm installed on such vehicle is operated in violation of this code or an audible status indicator is operated on such vehicle and

(ii) all reasonable and necessary steps to disconnect such alarm or audible status indicator have been taken without success. Authorized personnel of the department or the department of transportation may request a member of the police department to arrange for removal of such vehicle. When such removal is requested, the notice of violation for operation of an audible burglar alarm in violation of this section or for operation of an audible status indicator shall state that a member of the police department took all reasonable and necessary steps to disconnect such alarm or such audible status indicator without success. Such removal may be accomplished by utilizing any existing city-operated tow-program, rotation tow program established pursuant to section 20-519 of the code or such other procedures as may be established. The cost of towing and storage of such motor

vehicle shall be the responsibility of the owner or other person who claims such vehicle.

(b) An opportunity for a hearing before the environmental control board shall be provided to the owner of a motor vehicle removed pursuant to this section within five business days after a request for a hearing is made to determine whether there was a basis for such removal. The environmental control board shall render a decision within two business days following the conclusion of the hearing. If it is determined that there was no basis for removal of a vehicle pursuant to this section, the owner of such vehicle may recover from the city any amounts paid by such owner for towing and storage.

§24-241 Emergency signal devices. (a) No person shall operate or use or cause to be operated or used any emergency signal device, except on an authorized emergency vehicle when such vehicle is in the act of responding to an emergency; provided that such device shall not be operated for a period of time longer than is necessary to respond to such emergency. Notwithstanding the foregoing such a device on a motor vehicle shall be lawful if designed and used solely as an audible motor vehicle burglar alarm in accordance with section 24-238 and a device attached to a vehicle for the purpose of providing an audible warning when the vehicle is backing up shall be permitted even though the audible warning may consist of a gong or bell sound.

(b) No person shall operate or permit to be operated an emergency signal device installed on an authorized emergency vehicle that when operated at the maximum level creates a sound level in excess of 90 dB(A) when measured at a distance of fifty feet from the center of the forward face of such vehicle. Within one year after the effective date of this subdivision and every two years thereafter, emergency signal devices installed on authorized emergency vehicles shall be tested and certification shall be submitted, in a form approved by the department, that such devices meet the standard set forth in this subdivision for operation at maximum level. Notwithstanding the foregoing provisions, where compliance with the provisions of this subdivision would create an undue hardship, the owner or operator of an authorized emergency vehicle may submit a plan to the commissioner for emergency signal devices to meet the standard set forth in this subdivision within two years after the effective date of this subdivision. Such plan shall be submitted within one year after the effective date of this subdivision in lieu of the required certification. This subdivision shall not apply to authorized emergency vehicles of the New York city police department or to authorized emergency vehicles of the New York city fire department.

§24-242 Lawn care devices. (a) No person shall operate or use or cause to be operated or used any lawn care device:

(i) On weekdays before eight a.m. and after seven p.m. or sunset, whichever occurs later; or

(ii) On weekends and New York state and federal holidays before nine a.m. and after six p.m.; or

(iii) At any time in such a way as to create an unreasonable noise. For the purposes of this section unreasonable noise shall include but shall not be limited to an aggregate sound level of 75 dB(A) or more, attributable to the source or sources, as measured at any point within a receiving property. The provisions of paragraph (i) of subdivision a of this section shall not apply to an employee of the department of parks and recreation or an agent or contractor of the department of parks and recreation who operates or uses or causes to be operated or used any lawn care device between the hours of seven a.m. and eight a.m. in any location more than three hundred feet from any building that is lawfully occupied for residential use. The distance of three hundred feet shall be measured in a straight line from the point on the exterior wall of such building nearest to any point in the location at which such lawn care device is operated or used or caused to be operated or used.

(c) No person shall operate or use or cause to be operated or used any leaf blower not equipped with a functioning muffler.

§24-243 Snow blowers. The provisions of this code shall not apply to the operation of a snow blower for the purpose of complying with subdivision a of section 16-123 of the administrative code.

§24-244 Sound reproduction devices. (a) Except as otherwise provided in section 10-108 of the code, no person shall operate or use or cause to be operated or used any sound reproduction device in such a manner as to create unreasonable noise.

(b) No person shall operate or use or cause to be operated or used any sound reproduction device, for commercial or business advertising purposes or for the purpose of attracting attention to any performance, show, sale or display of merchandise, in connection with any commercial or business enterprise (including those engaged in the sale of radios, television sets, compact discs or tapes), (i) outside or in front of any building, place or premises or in or through any aperture of such building, place or premises, abutting on or adjacent to a public street, park or place; (ii) in or upon any vehicle operated, standing or being in or on any public street, park or place; (iii) from any stand, platform or other structure; (iv) from any airplane or other device used for flying, flying over the city; (v) from any boat on the waters within the jurisdiction of the city; or (vi) anywhere on the public streets, public sidewalks, parks or places where sound from such sound reproduction device may be heard upon any public street, sidewalk, park or place. Nothing in this section is intended to prohibit incidental sounds emanating from a sporting or an entertainment or a public event for which a permit under section 10-108 of the code has been issued.

§11. The first unnumbered paragraph of subdivision (b) of section 24-257 of such code is amended to read as follows:

The board may, upon notice pursuant to section 24-259 of this code, and after a hearing pursuant to[section 24-263 of this code, or in default thereof pursuant to section 24-264 of this code] *the rules of the board*:

§12. Paragraph (5) of subdivision (b) of section 24-257 of such code is amended to read as follows:

(5) Impose a civil penalty in each instance in an amount as set out in table [V] I against any person who violates a provision of this code, or of any order, rule or regulation promulgated by the commissioner or the board. Each day during which such violation continues shall constitute a separate violation. The board may in whole or in part, remit such a civil penalty if, at the conclusion of the hearing or at the time of the board determination [under section 24-266 of this code] the respondent is no longer in violation of a provision of this code, or of any order, rule or regulation promulgated by the commissioner or the board;

§13. Table V following paragraph (5) of section 24-257 of such code is REPEALED and a new table I is added following such paragraph (5) to read as follows:

§14. Paragraph (3) of subdivision (c) of section 24-257 of such code is amended to read as follows:

(3) order any person not in possession of [a variance] *an after hours work authorization* issued pursuant to [subdivision (b) of section 24-224] *section 24-223* of this code to cease and desist from construction activities other than during the permissible hours specified in [subdivision (a) of section 24-224] *section 24-222* of this code and the board may also seal any device used in such construction activities;

§15. Subdivision (f) of section 24-257 of such code is amended to read as follows:

(f) [(1)] The board may order any person to cease and desist from an activity which it reasonably believes causes unreasonable noise which creates imminent peril to the public health and well being, or to cease and desist from an activity which it reasonably believes constitutes a willful or continued violation of any provision of this code or order or regulation, promulgated by the commissioner or board. Such order shall be effective upon service thereof. Any party affected by such an order may request a hearing on written notice, and he or she shall be afforded a hearing, within twenty-four hours after service of such request, pursuant to [section 24-263 of this code] *the rules of the board*. If such an accelerated hearing is not requested, then a hearing shall be afforded within ten days of the issuance of the order. The board shall issue its final decision and order thereon within three days from the conclusion of a hearing held pursuant to this subdivision.

[(2) The board may rescind in whole or in part a variance issued by an agency of the city of New York pursuant to subdivision (b) of section 24-224 of this code. Such order shall be effective upon service thereof upon such agency and upon the person to whom such variance was issued.]

§16. Section 24-258 of such code is amended to read as follows:

§. 24-258 The board. (a) The board shall be convened by the chairperson or in the chairperson's absence the assistant commissioner of [air resources] *environmental compliance*, or at the request of any three members thereof.

(b) [If a member of the board has presided over the initial hearing, he or she shall not be disqualified from reviewing the hearing.

(c)] Five members of the board, at least two of who shall not be city officials, shall constitute a quorum.

§17. Paragraphs (4) and (5) of subdivision (c) of section 24-259 of such code are amended to read as follows:

(4) [Require a written response that conforms to section 24-260 of this code; and

(5)] Require such person or owner of a device, unless a hearing is not required by section 24-257 of this code, to answer the allegations in the notice of violation at a time and place designated either in or with the notice of violation or in a subsequent notice to such person or owner.

§18. Sections 24-260, 24-261, 24-263, 24-264, 24-265 and 24-266 of such code are REPEALED.

§19. Section 24-262 of such code is amended to read as follows:

§24-262 Settlement of proceedings. The board may settle any proceeding by stipulation and may exercise any or all of its powers under section 24-257 of this code thereby, at any time prior to the issuance of a decision pursuant to [section 24-266 of the code] *the rules of the board*.

§20. On or prior to December 31, 2004 the commissioner of environmental protection shall promulgate noise mitigation rules in accordance with section 24-219 of the administrative code, as added by section 10 of this local law.

§21. This local law shall take effect on July 1, 2005 provided that prior to such effective date agencies may promulgate rules or take other administrative actions necessary for the timely implementation of this local law and provided further that section 20 of this local law all take effect immediately upon its enactment into law.

Res. No. 438

Resolution calling on President George Bush, the U.S. Congress and the U.S. Department of Defense to overturn the current "Don't Ask, Don't Tell, Don't Pursue" policy and allow lesbians and gays to serve openly in the military.

By Council Members Gerson, Lopez, Quinn, Reed, Boyland, Brewer, Jackson, Nelson, Palma, Perkins, Sears and Weprin.

Whereas, In 1993, Congress passed and the President signed legislation, 10 U.S.C. § 654 (1993), that contained a policy subsequently known as the Don't Ask, Don't Tell, Don't Pursue ("Don't Ask, Don't Tell") policy; and

Whereas, According to the September 29, 1999 issue of Stanford University's Stanford Report (the "Stanford Report"), the initial intent of the "Don't Ask, Don't Tell" policy was to end anti-gay discrimination in the Armed Forces; and

Whereas, According to the Servicemembers Legal Defense Network (SLDN), under the formal "Don't Ask, Don't Tell" framework, commanders are not supposed to ask and servicemembers are not required to reveal information regarding a servicemember's sexual orientation; and

Whereas, The SLDN states that under the "Don't Ask, Don't Tell" policy, a servicemember may be discharged from service if such member has said that he or she is homosexual or bisexual or made some other statement that indicates a propensity or intent to engage in homosexual acts; and

Whereas, According to the Stanford Report, despite the stated "Don't Ask, Don't Tell" policy, servicemembers are still asked whether or not they are gay and are not provided with legal protection when this question is addressed to them; and

Whereas, The Stanford Report concluded that the actual effect of the "Don't Ask, Don't Tell" policy has been to institutionalize anti-gay discrimination in the military; and

Whereas, During 1999, a year in which the military was governed by the "Don't Ask, Don't Tell" policy, Private First Class Barry Winchell was killed as the direct result of an anti-gay hate crime committed by fellow soldiers at Fort Campbell, Kentucky; and

Whereas, The Center for the Study of Sexual Minorities (the "CCSM") in the Military reports that some 10,000 gay servicemembers have been discharged during the decade since Congress adopted the "Don't Ask, Don't Tell" policy; and

Whereas, Additionally, the CCSM found that the divisiveness introduced by the "Don't Ask, Don't Tell" policy weakens our military's, readiness, unit cohesion and troop morale; and

Whereas, Ex-Judge Advocate General Admiral John Huston (Retired) stated that the "Don't Ask, Don't Tell" policy detracts greatly from the esteem in which our military has been held by other nations, many of which allow gay people to openly serve in the military; and

Whereas, A Gallup Poll conducted during December 5-7, 2003, found that 79 percent of Americans who responded to the poll supported allowing gays to openly serve in the military; now, therefore, be it

Resolved, That the Council of the City of New York calls on the President George Bush, the U.S. Congress and the U.S. Department of Defense to overturn the current "Don't Ask, Don't Tell, Don't Pursue" policy and allow lesbians and gays to serve openly in the military.

Res. No. 439

Resolution calling upon the Department of Health and Human Services to create a comprehensive database that would be available to the public in which all clinical drug trials performed in the United States could be registered, and to require all pharmaceutical companies to register all studies, whether published or not, with the database.

By Council Members James, Avella, Barron, Boyland, Brewer, Comrie Jr., Jackson, Monserrate, Nelson, Palma, Perkins, Vann and Gerson.

Whereas, The American Medical Association (AMA), the largest doctor's group in the United States, has adopted a resolution that urges the federal government to create a database in which all clinical drug trials performed in the United States would be registered at the outset of the trials; and

Whereas, Although some drug companies voluntarily disclose the results of all clinical trials they conduct, critics note that there is no central registry where clinical trials and their results are available, making it difficult for researchers to track all studies that have been done on a single drug; and

Whereas, Many researchers note that scientific studies most often go unpublished because of lack of time or interest among scientists with respect to pursuing projects that have not proved successful in clinical trials; and

Whereas, In a 2002 editorial, the International Committee of Medical Journal Editors, which includes the editors of 12 major medical journals, stated that "the results of the unfinished trial may be buried rather than published if they are unfavorable to the sponsor's product," and that "there have been a number of recent public examples of such problems, and we suspect that many more go unreported;" and

Whereas, A recent scientific review by Tim Kendall, director of the National Collaborating Centre for Mental Health in London, examined both published and unpublished research that had previously been withheld from the public and found that four popular antidepressants used to treat thousands of depressed American children are unsafe, ineffective or both; and

Whereas, In a May 16, 2001 article, entitled "Filed under F (for forgotten)" in USA Today, Sanford Chodosh of Boston's Public Responsibility in Medicine and Research, a research ethics organization, argued that the problem of non-disclosure was created by "a conflict between pharmaceutical businesses, which see medical experiments on people as just part of the product development process, and scientists, who emphasize disclosure of results as the essence of scientific ethics;" and

Whereas, The pharmaceutical industry has done many studies, some published and some unpublished, on the effects of their products on various different populations; and

Whereas, The public has the right to know the results of unpublished studies that may have important information about either neutral or negative effects of drugs; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the Department of Health and Human Services to create a comprehensive database that would be available to the public in which all clinical drug trials performed in the United States could be registered, and to require all pharmaceutical companies to register all studies, whether published or not, with the database.

Res. No. 440

Resolution calling upon the United States Congress to pass legislation protecting computer and Internet users from privacy violations and security violations created and exploited by spyware.

By Council Members James, Avella, Barron, Brewer, Jackson, Liu, Nelson, Perkins, Sanders Jr., Vann, Weprin and Gerson.

Whereas, Spyware is software that exists on a computer and collects personal information about the user such as age, sex, location, buying habits, keystrokes, email, web history and computer files without that user's consent. This includes "System Monitors," which record everything the user does on a computer, "Trojans," which open the computer up to attack by remote hackers, "Adware," which displays pop-up advertisements and tracks user data and "Adware Cookies," which share user personal data among third parties without user consent; and

Whereas, In 2004, Earthlink, a major Internet Service Provider, reported that in an internal audit, it had scanned over a million computers on the Internet and found an average of 27.8 instances of different spyware installed, with a total of 29 million instances of spyware; and

Whereas, Spyware often targets children under the age of 18, tracking their online behavior and using it for marketing purposes; and

Whereas, Spyware uses deception, obfuscation, misdirection, stealth and the exploitation of software failings to get itself installed on user machines; and

Whereas, According to Fortune Magazine, most spyware installs itself onto a user's machine without his or her awareness; and

Whereas, Dell, Inc. reported to the FCC that spyware accounts for 12% of all of its technical support calls and, according to Microsoft, spyware was responsible for over 50% of all reported computer crashes; and

Whereas, Spyware is now a growing threat to the corporate computer environment as it exposes their confidential documents and trade secrets to attackers on the Internet; and

Whereas, The City of New York is interested in promoting the use of the Internet to its citizens and calls for an Internet environment free of malicious software like spyware that diminishes the value of the Internet as a powerful tool for communication; and

Whereas, Spyware is a widespread and growing threat to healthy computing that will only grow as more users go online. It degrades the individual and networked computer users' experience, reduces their security, raises their security costs, and exposes those users to risks from privacy violations, financial loss or identity theft; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the United States Congress to pass legislation protecting computer and Internet users from privacy violations and security violations created and exploited by spyware.

Res. No. 441

Resolution calling upon the New York State Legislature to pass Assembly bill A.07463 and Senate bill S.6670-A, a companion measure, sponsored by Assemblyman Brian McLaughlin and Senator Serphin Maltese, respectively, to assist public sector attorneys with the repayment of their student loans, and calling upon the State Legislature to provide and distribute the requisite funds to comply with the terms of the "Legal Services Assistance Fund."

By Council Members James, Comrie Jr., Gentile, Jackson, Liu, Reed, Sanders Jr., Vallone Jr., Weprin, Gerson and Gennaro.

Whereas, In June, 2003, as part of the Fiscal Year 2004 New York State budget, the Legislature established the "Legal Services Assistance Fund" to provide $6 million in student loan relief for public sector attorneys, including public defenders, assistant district attorneys, legal aid attorneys and others engaged in public service work; the appropriation was to be funded through fees paid to the state court system but, according to a March 3rd joint news release from the Manhattan and Queens District Attorney's Office, so far only $2.5 million has been collected; and

Whereas, According to District Attorneys Morgenthau and Brown, the fund was to be distributed by March 31, 2004, the end of fiscal year 2004; however, to date, none of the money has yet been distributed; both District Attorneys Morgenthau and Brown are concerned that if the money is not distributed now, it may be lost entirely; and

Whereas, Like the "Legal Services Assistance Fund," Assembly Bill A.07463, sponsored by Assemblyman Brian McLaughlin and Senate bill S.6670-A, a companion measure sponsored by Senator Serphin Maltese, recognize the tremendous financial burdens facing public sector attorneys and propose the establishment and administration of a fund to assist such attorneys practicing public interest law with the repayment of their student loans; and

Whereas, Student loan relief is important to attract qualified law school graduates to jobs in the public sector and further, to ensure that the applicant pool of prospective candidates is, and continues to be, comprised of individuals with diverse backgrounds; the prospect of loan repayment relief is often a significant consideration for graduates evaluating career choices, and can be a particularly significant factor for minority law school graduates; further, there is existing precedent in New York State for similar programs that provide loan relief for qualifying teachers, doctors, dentists and optometrists; and

Whereas, In addition, A.07463, S.6670-A and the "Legal Services Assistance Fund" are badly needed to help stem the loss of experienced attorneys who simply cannot afford to remain in public service while carrying huge unpaid loan balances from college and law school; it is not uncommon for an attorney working in the public sector or for non-profit legal agencies to have accumulated more than $100,000 in debt from college and law school loans; in order to meet this financial burden, the attorney would typically have to set aside nearly one-third of his or her monthly take-home pay simply to keep current with loan payments, according to the March 3rd news release; and

Whereas, Because public service attorneys often have grave difficulty in repaying this debt on a public-sector salary, many of these attorneys are forced to leave public service; the loss of so many capable public-sector attorneys has an adverse impact on the criminal justice and civil practice systems' abilities to provide the consistently high-quality legal services the people of New York State and New York City deserve, and to maintain public confidence in the criminal justice and civil practice legal systems; and

Whereas, According to Manhattan District Attorney Robert M. Morgenthau, "[e]ven a modest annual loan relief payment through the New York "Legal Services Assistance Fund" would provide significant additional financial security for many graduates considering employment in the public sector. Faced with such daunting financial burdens, many young but experienced prosecutors move to the private sector or to even more lucrative government jobs, after acquiring basic litigation skills. And it is particularly important to continue to attract and retain the best applicants as the gap between public sector and private sector salaries increases;" and

Whereas, The public sector is losing too many talented young attorneys simply because they are drowning in their student loan debt; as expressed by Queens District Attorney Richard A. Brown, the intent of this law needs to be translated into action to help our young assistants and other public service attorneys with their onerous student-loan obligations; according to District Attorney Brown, "[t]he establishment of the "Legal Services Assistance Fund" was among the most meaningful legislative initiatives adopted in recent years in support of local prosecutors... It would be a shame if the great strides that we have made in the fight against crime were to be compromised by a lack of experienced, professional prosecutors;" and

Whereas, Assembly bill A.07463, Senate bill S.6670-A and the "Legal Services Assistance Fund" would all help to increase the number of capable attorneys in the public sector to provide the public with the quality legal representation it deserves, and also, would likely contribute to the willingness of such attorneys to make a long-term commitment to public service work; now, therefore, be it

§19-701 Short title. *This chapter shall be known and may be cited as the "Accessible Water Borne Commuter Services Facilities Transportation Act ".*

§19-702 Legislative findings and intent. *The Council hereby finds that the city of New York's water borne commuter services facilities are not uniformly accessible to disabled persons. This is a matter of serious concern affecting the public safety and welfare. The Council believes that there is an immediate need for regulation of water borne commuter services in order to enable disabled members of the public to have access to such services on an equal basis with non-disabled persons. The Council believes that under the Americans with Disabilities Act (ADA), disabled persons have the right to access commuter transportation services on an equal and non-discriminatory basis. However, the Council finds that no federal or state laws, rules or regulations are in effect that establish specific standards regarding access by disabled persons to water borne commuter services facilities in the city or the safety of such persons when utilizing such facilities. As a result, disabled persons in the city of New York are not assured that they can safely and consistently access water borne commuter services facilities. This legislation sets specific standards in relation to mandating accessible water borne commuter services facilities for disabled persons, thereby minimizing the tremendous and unfair burden placed on disabled persons who rely on these services.*

The Council further finds that the city's transportation needs and system are unique in that, unlike many other cities, major waterways are interspersed throughout the greater New York city area, resulting in residential concentrations that are in many instances separated by water from major centers of employment. Consequently, the city historically has had an extensive passenger ferry system. Furthermore, because of increasing levels of traffic congestion and air pollution, and concerns regarding the threat of terrorism to other modes of transportation, the city is rapidly developing an increasingly expansive system of passenger ferry transportation. The Council finds that it is imperative that such development results in water borne commuter services facilities that are accessible to all persons.

§19-703 Definitions. *For purposes of this chapter, the following terms shall be defined as follows:*

a. "Accessible route" has the meaning set forth in section 19-705.

b. "ADA" means the Americans with Disabilities Act, title 42 of the United States code annotated section 12101 et. seq.

c. "Coaming" means the vertical plating bounding a hatch or located at the base of a door for the purpose of stiffening the edges of the opening and resisting entry of water.

d. "Disabled persons" means persons with physical disabilities, including but not limited to mobility impairments, sight impairments, hearing impairments and speech impairments, and further includes persons utilizing a service animal or wheelchair or other physical mobility aid.

e. "Gangway" means a pedestrian walkway that changes slope to accommodate changes in water level, linking a fixed structure or land with a barge, float, dock or other floating structure except a water borne commuter vessel.

f. "Operator" means any person or entity that owns or any governmental entity that operates a water borne commuter services facility.

g. "Passenger" means every person other than the captain and crew on board a water borne commuter vessel.

h. "Point of embarkation or disembarkation" means any portal point of entry or exit onto or off of a water borne commuter vessel, or into or out of the main cabin area of such water borne commuter vessel.

i. "Transition plate" means a sloping pedestrian walking surface located at the end of a gangway.

j. "Vessel loading equipment" means any piece of equipment or assembly of equipment, whether or not such equipment requires operation by water borne commuter services facility personnel, that may be located on a water borne commuter vessel or located on a landing, that bridges from a water borne commuter vessel to a barge, float, dock or other floating structure or landing, the purpose of which is to accommodate the differences in elevation between such water borne commuter vessel and such barge, float, dock or other floating structure or landing.

k. "Water borne commuter services facility" means any dock, pier, slip or terminal located within the city of New York or its territorial waters and utilized by a water borne commuter vessel, as well as water borne commuter vessels and any concession, ticket purchasing or other facility or amenity available at or on such dock, pier, slip, terminal or water borne commuter vessel.

l. "Water borne commuter vessel" means every description of water craft operating within the city of New York or its territorial waters, including commuter ferries but excluding seaplanes, that is used as a means of commuter passenger mass transportation by water.

§19-704 Scope. *All water borne commuter services facilities located or operating within the city of New York or its territorial waters shall be accessible to disabled persons as provided in this chapter.*

§19-705 Accessible route. *Except as may otherwise be set forth herein, there shall be at least one accessible route (i) to, (ii) into, (iii) onto and (iv) throughout any water borne commuter services facility consisting of a continuous, firm, stable and slip-resistant path that is maintained free of ice and snow; provided, however, that except as may be required pursuant to federal or state law, rule or regulation, no water borne commuter services facility shall be required to modify or install an elevator in order to satisfy the requirements of this chapter. No accessible route may have any vertical steps or rises greater than ½ inch unless made accessible by ramps, gangways or transition plates complying with this section. No accessible route may require that use thereof or accessibility thereto be conditioned upon prearrangement except to the extent a ticket must be purchased or fare must be paid. An accessible route shall provide or satisfy the following additional criteria, as applicable:*

a. Points of embarkation and disembarkation. *Each point of embarkation and disembarkation shall provide or satisfy each of the following criteria:*

1. A minimum clear width of 36 inches, exclusive of any bulwarks, lifelines, deck rails and toe rails; provided, however, that where the main deck area of a water borne commuter vessel is less than 3,000 square feet, such clear width shall have a minimum width of 32 inches, exclusive of any bulwarks, lifelines, deck rails and toe rails.

2. Doors and doorways with a minimum width of 32 inches; provided, however, that any projections into such clear opening shall be mounted at least 34 inches above the finished deck surface; and provided, further, that any projections situated 34 inches or higher than the finished deck surface and 80 inches or lower from the finished deck surface shall not exceed 4 inches.

3. Transition plates or ramps with a maximum slope of 1:12, or as close thereto as is feasible for access to inner cabins of water borne commuter vessels that have steps or coamings leading into such cabins; provided, however, that such transition plates and ramps may be removable. With respect to water borne commuter vessels designed or constructed after the date of enactment of the local law that added this chapter, removable coamings shall be utilized where feasible and permitted by the United States Coast Guard, pursuant to title 14 of the United States code or any rules or regulations promulgated pursuant thereto.

4. Notwithstanding anything to the contrary contained herein, wherever there are multiple points of embarkation or disembarkation, and two or more such points are simultaneously utilized at any given docking, only one such point need comply with the provisions of this section.

b. Gangways. *Gangways shall provide or satisfy each of the following criteria:*

1. Handrails on each side.

2. A minimum clear width of 36 inches, which width shall be measured between the inside edges of handrails.

3. A maximum running slope of 1:12 and a maximum cross slope of 1:48, subject to reasonable and minor variations under extreme and unusual tidal conditions.

4. Edge protection on each side.

5. A design that ensures that no water will accumulate on walking surfaces.

6. A rise which may exceed 30 inches.

7. A length which may exceed 30 feet between level landings; provided, however, that such slope may not exceed 1:12 subject to reasonable and minor variations under extreme and unusual tidal conditions.

8. Mechanized gangway lifts shall be utilized where compliance with this subdivision would not otherwise be feasible.

c. Transition plates. *Transition plates shall provide or satisfy each of the following criteria:*

1. A maximum slope of 1:12.

2. A minimum clear width of 36 inches.

3. Handrails on each side, where the length of a transition plate exceeds 24 inches.

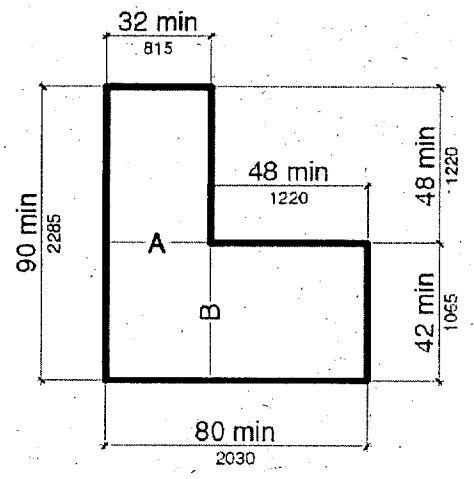
4. The transition from the deck to the transition plate may be vertical without edge treatment up to ¼ inch. Changes in level between ¼ inch and ½ inch shall be beveled with a slope no greater than 1:2.

5. Transition plates that are 36 inches or less in length shall support a minimum load of 300 lbs. Transition plates that are greater than 36 inches in length shall support a minimum load of 100 lbs. per square foot.

d. On board maneuvering space and clear paths. *On board maneuvering space and clear paths shall provide or satisfy each of the following criteria:*

1. An on board maneuvering space shall be provided which is either (i) 60 inches minimum by 60 inches minimum or (ii) 42 inches minimum in depth and starting at one side of the opening and extending 80 inches minimum in width across the opening (see figure 1, L-Shaped Space, as set forth in this subdivision).

2. At least one clear path of at least 32 inches in width shall run from each point of embarkation and disembarkation to all facilities available to the general public on the level of such water borne commuter services vessel where such point of embarkation or disembarkation is located.



L-Shaped Space

*e. **Clear deck spaces.** Clear deck spaces shall provide or satisfy each of the following criteria:*

1. Measure at least 30 inches by at least 48 inches for placement of wheelchairs. Such clear spaces may also be provided in the form of folding or removable seats.

2. A tie down system that complies with subdivision (f) of this section.

3. The number of clear deck spaces shall be provided in accordance with Table 1 of this subdivision and shall be dispersed throughout the water borne commuter vessel's passenger areas; provided, however, that at least one such space shall be provided on any outdoor passenger area on water borne commuter vessels with a passenger capacity of 101 or more.

Table 1. Clear Deck Spaces

Passenger capacity of water borne commuter vessel	Minimum Number
0 to 100	2
101 to 149	4
150 and above	6

4. This subdivision does not apply to spaces reachable only by vertical or inclined ladder.

*f. **Tie-down systems.** Tie-down systems for securing wheelchairs within water borne commuter vessels shall provide or satisfy each of the following criteria:*

1. Each tie-down system shall consist of any tie-down system acceptable for taxi, van or bus transportation as provided under the United States department of transportation regulations or four d-rings securely fastened to the deck.

2. Where d-rings are used, lashings, also known as marine-strength quality rope, shall be provided to secure a wheelchair to the d-rings.

3. Security belts for securing disabled persons in their wheelchairs for use by disabled persons at their discretion.

*g. **Toilet rooms.** Where one or more toilet rooms are provided on a water borne commuter vessel at least one such toilet room shall provide or satisfy each of the following criteria:*

1. An entry door with a clear width of at least 32 inches that is capable of being opened and closed by the occupant.

2. A maneuvering space of at least 48 inches in depth and at least 80 inches in width outside the entry door (see figure 1, subdivision (d)); provided, however, that where the entry door has a clear width of at least 42 inches, the maneuvering space at the door shall be at least 32 inches by 48 inches.

3. A horizontal grab bar at least 24 inches in length and located 33 inches to 36 inches above the finished deck surface; provided, however, that this requirement shall not apply to those water borne commuter vessels the deck length of which is 48 feet or less.

4. A toilet positioned 17 inches to 19 inches above the finished deck surface, measured to the top of the toilet seat.

5. Clear deck space of at least 30 inches by at least 48 inches adjacent to the toilet.

6. Notwithstanding anything to the contrary contained herein, any water borne commuter vessel with a passenger capacity of 1000 or more persons currently scheduled to be decommissioned before November 1, 2005 shall be exempt from the requirements of this subdivision.

*h. **Vessel loading equipment.** Vessel loading equipment shall provide or satisfy each of the following criteria:*

1. A maximum slope of 1:12 where feasible; provided, however, that where achieving such a maximum slope is not feasible, any vessel loading equipment exceeding such slope shall comply with the following additional criteria:

(i) A slope no greater than 1:6 unless such vessel loading equipment has a rise of 3 inches or less.

(ii) Must be designed and operated such that disabled persons are able to embark onto and disembark from a water borne commuter vessel without water borne commuter services facilities personnel pushing, carrying, pulling, lifting or otherwise physically handling disabled persons.

2. Deck surfaces that do not have protrusions from the surface greater than ¼ inch.

3. No opening along the bottom surface shall permit passage of a ½ inch diameter sphere. Elongated openings shall be placed so that the long dimension is perpendicular to the predominant direction of travel.

4. Handrails on each side.

5. A minimum clear width of 36 inches, which width shall be measured between the inside edges of handrails; provided, however, that where vessel loading equipment leads directly to a point of embarkation or disembarkation that is permitted to be 32 inches in width under the terms of this chapter, such vessel loading equipment may narrow to a width of 32 inches at that end that abuts such 32 inch point of embarkation or disembarkation.

6. Edge protection on each side.

7. Any vessel loading equipment that is 30 inches or longer in length shall support a minimum load of 600 lbs. placed at the center of such vessel loading equipment and distributed over an area of 26 inches by 26 inches, with a safety factor of at least 3 based on the ultimate strength of the material. Vessel loading equipment shorter than 30 inches shall support a minimum load of 300 lbs.

§19-706 Posting of schedules, rates, departure and arrival information and complaint number.

a. All schedules, rates, departure and arrival information shall be posted in accordance with the ADA.

b. Wherever there may be multiple points of embarkation onto a water borne commuter vessel, operators of water borne commuter services facilities shall prominently post signage and make regular announcements notifying passengers of which point of embarkation is part of an accessible route for each boarding.

c. Operators of water borne commuter services facilities shall post a sign to be prominently displayed at the ticket counter as well as inside each water borne commuter vessel in accordance with the ADA and stating the following:

"ANY COMPLAINTS REGARDING THE ACCESSIBILITY OF THIS FACILITY TO DISABLED PERSONS MAY BE REPORTED TO THE CITY OF NEW YORK BY DIALING 311."

§19-707 Transportation to and from water borne commuter services facilities.

a. Buses and vans operated, sponsored, chartered, leased or otherwise placed in operation within the city of New York by water borne commuter services facilities operators or their affiliates prior to the date of enactment of the local law that added this chapter shall meet the standards for accessibility for new vehicles as set forth in department of transportation regulations at title 49 of the code of federal regulations, part 38, subpart B by January 1, 2006.

b. Buses and vans purchased or newly chartered or leased by water borne commuter services facilities operators or their affiliates after the date of enactment of the local law that added this chapter shall meet the standards for accessibility for new vehicles, as set forth in department of transportation regulations at title 49 of the code of federal regulations, part 38, subpart B.

***§19-708 Safety and training.** Operators shall ensure that an appropriate number of water borne commuter services facility personnel, and in no event less than one such person, be aboard each water borne commuter vessel during all crossings who are trained in appropriate safety and evacuation procedures for disabled persons.*

***§19-709 Enforcement.** The commission on human rights shall enforce the provisions of this chapter pursuant to the adjudication and mediation provisions as set forth in chapter 1 of title 8 of the administrative code of the city of New York.*

§19-710 Violations

a. Any violation of any provision of this chapter or any rules promulgated hereto shall be liable for a civil penalty of not less than two hundred and fifty dollars per violation per day for every day that such violation occurs until such violation is remedied or removed.

b. Penalties imposed pursuant to this section shall not affect any right or remedy available or civil or criminal penalty applicable under law to any individual or entity, or in any way diminish or reduce the remedy or damages recoverable in any action in equity or law before a court of law with competent jurisdiction.

***§19-711 Reporting requirements.** The department, the commission on human rights and operators of any water borne commuter services facility each shall provide the mayor and the city council with a semiannual report by January thirty-first and July first of each year setting forth information regarding compliance and non-compliance with this chapter at each water borne commuter services facility, regulated pursuant to this chapter. Such information shall include, but not be limited to, any violations or fines issued as a result of the provisions of this chapter or pursuant to the ADA, complaints reported to the city of New York 311 Citizen Service Center, the department, the commission on human rights or operators of any water borne commuter services facility as a result of the provisions of this chapter, litigation instituted as a result of the provisions of this chapter and a detailed description of safety and training procedures implemented pursuant to section 19-708 of this chapter.*

***§19-712 Severability.** If any section, subdivision, sentence, clause, phrase or other portion of the local law that added this chapter is, for any reason, declared*

unconstitutional or invalid, in whole or in part, by any court of competent jurisdiction such portion shall be deemed severable, and such unconstitutionality or invalidity shall not affect the validity of the remaining portions of the local law that added this chapter, which remaining portions shall continue in full force and effect.

§2. Effective date. This local law shall take effect immediately; provided, however, that the requirements set forth in subdivisions c, d, e, and f and §19-706 shall take effect within 90 days following enactment of the local law that added this chapter; and provided further that all water borne commuter services facilities shall satisfy all provisions of the local law that added this chapter no later than January 1, 2006.

Int. No. 399

By Council Members Lopez, Avella, Comrie Jr., Fidler, Jackson, Monserrate, Nelson, Palma, Recchia Jr., Weprin, Vallone Jr., Gerson and Gentile.

A Local Law to amend the New York city charter, in relation to requiring the department of information technology and telecommunications to keep records of all calls received through the 311 Citizen Service Center hotline regarding reports of electrical shocks occurring on City streets or sidewalks, including calls reporting locations believed to pose a risk of electrical shock, and to require that the department submit to the council and make available on the city's official website, bi-annual reports documenting such data.

Be it enacted by the Council as follows:

Section 1. Declaration of Legislative Findings and Intent.

The 311 Citizen Service Center was developed with the goal of making City government more accessible and efficient in serving its constituents. The 311 system is supposed to enable residents to request and receive information regarding various City agencies and services simply by dialing one number, 311. In addition, the 311 system should improve the functioning and responsiveness of city government by supplying the mayor and governmental agencies with real time data on requests, complaints and services, which should allow for better and immediate allocation of resources and personnel.

However, according to recent reports, currently, the City's 311 system has no mechanism or procedure for accepting or addressing, or even documenting, constituent calls regarding the serious public safety hazard of stray voltage leaks, or "hotspots," located throughout the City. Instead, when concerned constituents call to report incidents of electrical shock occurring on city streets or sidewalks, or to report locations suspected of voltage leaks, the City's 311 system directs the caller to contact Con Edison, without providing any alternative City outlet to receive complaints. Furthermore, when the City effectively passes the call on to Con Edison, it does so without ever making any kind of administrative record or documentation of the call, thereby diminishing the City's oversight capacity, and potentially making the health and safety of City residents solely contingent upon the ability of Con Edison to effectively respond to such complaints.

Failing to document and follow-up on caller information relating to voltage leaks from manhole covers and service boxes throughout City streets is an inefficient use of the 311 Citizen Service Center hotline, and one which may pose an increased health and safety risk for anyone who walks on City streets. The City witnessed the consequences and previously unforeseen dangers of stray voltage leaks with the recent electrocution death of a young woman from stepping on a charged Con Edison metal plate while walking her dogs. While this incident tragically illustrated the potential dangers which exist, it also compels the City to take serious and meaningful action to ensure the safety of its residents. The 311 Citizen Service Center is one such medium through which to accomplish this. When a constituent is concerned enough to report an incident of electrical shock via the 311 hotline, the City should demonstrate its commitment and willingness to respond to these concerns, which should include, documenting the incidents and locations, submitting such data to the Council, and making this information publicly available on the city's official website through periodically issued reports.

§ 2. Chapter 48 of the New York city charter, as added by a vote of the electors at the general election on November 9, 1989, is amended by adding thereto a new section 1075 to read as follows:

§ 1075. 311 citizen service center hotline documentation and reporting requirement. a. Within seven days from the end of each bi-annual period, the department shall submit to the speaker of the council and make available on the city's official website, a report containing a record of all calls placed to the 311 citizen service center hotline regarding reports of electrical shocks occurring on City streets or sidewalks, including all calls reporting locations suspected of having voltage leaks and posing a risk of electrical shock, for the six-month period to date disaggregated on a month-by-month basis. This report shall be submitted in an electronic spreadsheet format and shall include the data set forth in subdivision b of this section.

b. The report required by subdivision a of this section shall include, but not be limited to (1) the total number of calls received regarding reports of electrical shocks occurring on City streets or sidewalks, including calls regarding locations suspected of having voltage leaks and posing a risk of electrical shock, with respect to locations within each community district and council district; and (2) information regarding how each call has been or is being addressed.

§2. This local law shall take effect sixty days after its enactment into law, except that the commissioner of information technology and telecommunications shall take such steps as are necessary for its implementation prior to such effective date. The first report required by section 1075 of the new york city charter, as added by section one of this local law, shall be required within seven business days subsequent to the conclusion of the six month time period after its effective date.

Res. No. 442

Resolution calling upon the Council of the City of New York to support the Albany County Supreme Court petition of Elissa Kane and Lynne Lekakis and Robert Barnes and George Jurgsatis seeking to compel the State Department of Health to permit the Albany County City Clerk to issue marriage licenses to the two couples who were recently joined by a Unitarian Universalist Minister.

By Council Members Lopez, Jackson and Gerson.

Whereas, Two same-sex couples married by a clergy member earlier this year have brought an Article 78 proceeding which seeks to compel the State Department of Health to permit the Albany County City Clerk to issue them marriage licenses; and

Whereas, Unitarian Universalist Reverend Samuel Trumbore in March 2004 married two same-sex couples in Albany, and signed notarized affidavits of marriage pursuant to New York State's Domestic Relations Law, but the couples were then refused marriage licenses; and

Whereas, The petition states that the State's Domestic Relations Law recognizes ceremonial marriages regardless of whether the parties have a valid marriage license and thus, either Elissa Kane and Lynne Lekakis and Robert Barnes and George Jurgsatis unions should be recognized as valid marriages or that section of the Law should be stricken as unconstitutional; and

Whereas, The State Department of Health has stated that New York's Domestic Relations Law does not allow marriage licenses for same-sex couples and that anyone issuing a license or anyone solemnizing such a marriage would be violating State law; and

Whereas, New York State Attorney General Eliot Spitzer's Office has recently informally opined that while New York State Law does not currently authorize same-sex marriage, such law is ripe for constitutional challenge, which is best resolved by the courts of this State; and

Whereas, The ban on same-sex marriage is akin to the hateful and shameful ban on interracial marriage, which was declared unconstitutional by the United States Supreme Court in the 1967 landmark case of *Loving v. Virginia*, where the Court held that such ban violated the Due Process Clause of the Fourteenth Amendment, as "[t] he freedom to marry has long been recognized as one of the vital personal rights essential to the orderly pursuit of happiness by free men."; and

Whereas, It is crucially important that this year, which is the 50th anniversary of the landmark case of *Brown v. Board of Education*, where the United States Supreme Court struck down the long adhered-to doctrine of "separate but equal", that the courts declare that discriminatory doctrine has no place in our society whatsoever, and especially not in that "vital personal right" of marriage which is a fundamental right which should be equally available to all human adults; now, therefore, be it

Resolved, That the Council of the City of New York supports the Albany County Supreme Court petition of Elissa Kane and Lynne Lekakis and Robert Barnes and George Jurgsatis, which seeks to compel the State Department of Health to permit the Albany County City Clerk to issue marriage licenses to the two couples who were recently joined by a Unitarian Universalist Minister.

Res. No. 443

Resolution excoriating Governor Pataki and the New York State Office of Mental Health for failing to request an extension of the Project Liberty Program, which provided counseling to individuals, families and groups who were seriously traumatized by the September 11, 2001 terrorist attacks in New York City, and to petition Governor Pataki to request that the Federal Emergency Management Agency reopen the program.

Council Members Lopez, Addabbo Jr., Barron, Comrie Jr., Jackson, Nelson, Palma, Sanders Jr. and Gerson.

Whereas, The terrorist attacks that occurred in New York City and Washington, D.C. on September 11, 2001 shocked the nation, affecting many thousands of New

Yorkers, including friends and relatives of those who lost their lives, people who were injured, those who escaped, rescue and relief workers, people who saw it happen from nearby streets or windows, people who saw it over and over again on television and people who lost their jobs or homes as a result of the tragedy; and

Whereas, Project Liberty, an outreach and crisis counseling program that provided, free of charge, supportive therapy to individuals, families and groups affected by the attacks, was created shortly after the disaster and funded by the Federal Emergency Management Agency (FEMA); and

Whereas, Project Liberty provided services in New York City and ten surrounding counties, including Delaware, Dutchess, Nassau, Orange, Putnam, Rockland, Suffolk, Sullivan, Ulster and Westchester and was administered by the New York State Office of Mental Health (NYSOMH) in collaboration with local governments and provider agencies; and

Whereas, Project Liberty offered face-to-face outreach crisis counseling and education services, helping disaster survivors to understand that in most cases their emotional reactions were normal and helping them to develop coping skills that would allow them to return to their pre-disaster levels of functioning; and

Whereas, Under the program, more than one million New Yorkers received free, anonymous, face-to-face counseling and public education services from more than 100 mental health providers, as well as many other community service organizations; and

Whereas, New York State discontinued Project Liberty service delivery activities after December 31, 2003, except for two specific populations, members of the New York City Fire Department (FDNY) and New York City school children; and

Whereas, New cases of post-traumatic stress related to 9/11 are still being diagnosed and the director of the FDNY Counseling Services Unit and other medical experts have said that extending the program is important because symptoms of post-traumatic stress disorder often do not surface until years after a tragic event; and

Whereas, New York Senator Charles Schumer reported, in a September 7, 2003 press release, that federal officials had indicated that they were amenable to continuing Project Liberty if New York State requested an extension, but neither Governor Pataki nor NYSOMH made that request; now, therefore, be it,

Resolved, That the Council of the City of New York excoriates Governor Pataki and the New York State Office of Mental Health for failing to request an extension of the Project Liberty Program, which provided counseling to individuals, families and groups who were seriously traumatized by the September 11, 2001 terrorist attacks in New York City, and petitions Governor Pataki to request that the Federal Emergency Management Agency reopen the program.

Resolution calling upon the City of New York to advance the percentage of clean natural gas-fueled vehicles in its fleet and to place particular emphasis on replacing medium- and heavy-duty vehicles with clean natural gas-fueled vehicles; to pursue public-private partnerships and grants and other incentives from federal, state and local agencies for the acquisition and deployment of clean alternative fuel vehicles and infrastructure; and, to promote the operation of clean natural gas-fueled taxi cabs in New York City.

By Council Members Oddo, Yassky, Avella, Barron, Brewer, Clarke, Comrie Jr., Fidler, Gentile, Jackson, Liu, Nelson, Recchia Jr., Sanders Jr., Weprin, Vallone Jr. and Gerson.

Whereas, According to the United States Environmental Protection Agency (EPA), mobile source emissions represent the largest source of air toxics – those pollutants known or suspected to cause cancer or other serious health and environmental effects; and

Whereas, Diesel exhaust from motor vehicles contains particulate matter, smog-forming nitrogen oxides and other toxins; and

Whereas, According to the New York City Department of Environmental Protection (DEP), motor vehicles generate 53 percent of the New York City metropolitan area's ozone-depleting smog and 70 percent of the overall toxic chemicals in the region's air; and

Whereas, According to the EPA's National Air Toxics Assessment, based on 1996 data, New York City is among the areas of the country with the highest modeled ambient air concentrations of diesel particulate matter; and

Whereas, The EPA has classified New York County as being in "moderate" nonattainment for the particulate matter (PM-10) standard; and

Whereas, The EPA has classified diesel exhaust as a likely carcinogen and the California Air Resources Board has classified diesel exhaust particulate as a toxic air contaminant; and

Whereas, Exposure to diesel particulate matter may result in such adverse health impacts as inflammation of lung tissue, decreased lung function, chronic bronchitis, aggravated asthma and cardiovascular disease and premature death; and

Whereas, The EPA has classified the New York metropolitan area as being in "moderate" nonattainment for the 8-hour ozone standard and in "severe" nonattainment for the 1-hour ozone standard; and

Whereas, Ozone may result in various respiratory problems, including aggravated asthma, significant temporary decreases in lung capacity and inflammation of lung tissue; and

Whereas, According to the April 2003 edition of "NYC Vital Signs", a publication of the New York City Department of Health and Mental Hygiene (NYCDOHMH), about 700,000 adults and 300,000 children in New York City have been diagnosed with asthma at some time in their lives; and

Whereas, New York City has the highest rate of asthma mortality in the nation; and

Whereas, Children and the elderly are particularly susceptible to the adverse health impacts of diesel exhaust; and

Whereas, According to the NYCDOHMH, asthma is the leading cause of school absenteeism and childhood hospitalization in New York City; and

Whereas, According to the NYCDOHMH, in 2000, children were almost twice as likely to be hospitalized for asthma as children in the United States as a whole; and

Whereas, Children often ride on school buses, and therefore are frequently exposed to harmful air pollution where these buses operate on diesel fuel; and

Whereas, New York City's elected leaders have demonstrated a past and future commitment to find solutions that reduce asthma and, by this action, strengthen this commitment to the continued reduction of asthma cases in New York City; and

Whereas, A majority of refuse haulers, street sweepers, and other heavy-duty maintenance, construction and transport vehicles, as well as school buses in the New York metropolitan area continue to use standard diesel fuel and thus emit high levels of particulate matter, nitrogen oxides and other toxins; and

Whereas, A majority of the taxis in New York City continue to use gasoline as fuel; and

Whereas, The use of gasoline results in the emission of high levels of pollutants; and

Whereas, Conventional fossil fuel technology, such as gasoline and diesel, used by the overwhelming majority of motor vehicles, is highly dependent upon foreign sources; and

Whereas, Clean natural gas-fueled buses, refuse haulers, street sweepers and other heavy-duty maintenance, construction and transport vehicles, as well as taxis, are currently on the commercial market and have demonstrated the ability to satisfy operators' needs in a safe and effective manner; and

Whereas, Infrastructure for the sale and distribution of cleaner burning natural gas as a transportation fuel needs to be in place to ensure the commercialization of clean natural gas technology vehicles; and

Whereas, New York City recognizes that the development of public or shared access infrastructure is necessary to build a network of natural gas stations to fuel interstate and intrastate trucking and would help to significantly reduce toxic emissions and associated health problems (i.e. asthma) from transportation sources; and

Whereas, New York City, through its permitting and procurement authority, has the opportunity to provide leadership in the development and implementation of alternative fuel, clean air technologies; and

Whereas, It is the objective of New York City to use its leadership position to employ public funds in the most cost-effective manner, including consideration of all direct and indirect costs, including costs to public health, safety and welfare; and

Whereas, There exists public funding from federal, state and regional sources to be used for the advancement of clean air transportation technologies; and

Whereas, Those funds can most effectively be used when combined in public-private partnerships for the deployment of clean natural gas vehicles and infrastructure; and

Whereas, Such public-private partnerships are tremendously successful in leveraging public and industry dollars to achieve the synergistic goals of reducing air and noise pollution, asthma and foreign oil dependence; and

Whereas, It is the goal of New York City to promote the use of cleaner burning alternative fuels; reduce the public's exposure to harmful air contaminants; reduce our dependence on energy from foreign sources; and, promote the development and advancement of local businesses in environmentally and economically sound areas; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the City of New York to advance the percentage of clean natural gas-fueled vehicles in its fleet and to place particular emphasis on replacing medium- and heavy-duty vehicles with clean natural gas-fueled vehicles; to pursue public-private partnerships and grants and other

incentives from federal, state and local agencies for the acquisition and deployment of clean alternative fuel vehicles and infrastructure; and, to promote the operation of clean natural gas-fueled taxi cabs in New York City.

Res. No. 445

Resolution declaring September to be "Blood and Bone Marrow Donor Month" in the City of New York.

By Council Members Oddo, Lanza, McMahon, Avella, Barron, Boyland, Clarke, Comrie Jr., Fidler, Jackson, Liu, Nelson, Recchia Jr., Vann, Weprin, Gerson, Gennaro and Gentile.

Whereas, The use of blood and bone marrow in various medical procedures has assisted in the restoration of the health and saved countless lives in New York City and around the country; and

Whereas, There is a dire need to insure that there is a sufficient supply of blood and bone marrow, which must be continually supplemented to meet the demands of those in need; and

Whereas, It is important to make potential donors aware of the safety of the blood and bone marrow collection process; and

Whereas, The American Red Cross states that, although giving blood is easy, safe and takes less than an hour, only about 5 percent of the estimated 60 percent of eligible Americans donate blood; and

Whereas, On June 21, 2004, The New York Blood Center projected that by early July their inventory would drop below 5,000 pints, which is less than half of what they need to meet hospital demand for blood in New York and New Jersey; and

Whereas, According to the Blood and Tissue Center of Central Texas, the only hope for survival for many patients with leukemia and other life-threatening blood diseases, is a marrow transplant, but unfortunately, nearly 70 percent of these patients cannot find a suitable marrow match; and

Whereas, No one should lose their life or not be restored to good health due to an inadequate supply of appropriate blood or bone marrow; and

Whereas, Donating blood during the month of September is a way to honor the victims of September 11, 2001; and

Whereas, Blood and bone marrow donation is a vital means for someone to contribute to the health and safety of others in New York City and the United States; now, therefore, be it

Resolved, That the Council of the City of New York declares September to be "Blood and Bone Marrow Donor Month" in the City of New York.

Referred to the Committee on Health.

State Legislation Res. No. 149

State Legislation Resolution requesting the New York State Legislature to pass bills introduced by Senator Dilan, S.7233-A, and Committee on Rules, A.11069-A, "AN ACT to authorize the city of New York to discontinue the use of certain lands as park lands".

By Council Members Rivera, Reyna and Comrie Jr.

Whereas, bills have been introduced in the New York State Legislature by Senator Dilan, S.7233-A, and Committee on Rules, A.11069-A, "AN ACT to authorize the city of New York to discontinue the use of certain lands as park lands"; and

Whereas, the enactment of the above State Legislation requires the concurrence of the Council of the City of New York as the local legislative body; now, therefore, be it

Resolved, that the Council of the City of New York, in accordance with the provisions of Section 2 of Article 9 of the Constitution of the State of New York, does hereby request the New York State Legislature to enact into law the aforesaid pending bills.

Referred to the Committee on State and Federal Legislation.

Res. No. 446

Resolution urging the United States Senate to adopt S.3103 and the United States Congress to adopt H.R.5632, which would amend the Communications Act of 1934 to clarify and reaffirm state and local authority to regulate the placement, construction and modification of broadcast transmission facilities.

By Council Members Vallone Jr., Avella, Brewer, Jackson, Liu, Nelson, Sanders Jr., Gerson and Gennaro.

Whereas, According to "Talking Points – Wireless in the Community," by T-Mobile, the number of Americans using wireless services has increased more than 1,000 percent in the past decade, to approximately 135 million users; and

Whereas, In order to respond to the growing demands in cellular usage and to provide efficient cellular service, cellular providers have created networks of cell sites using wireless antennas; and

Whereas, These wireless antennas, also called base stations, are communication devices that receive and transmit radio frequency ("RF") energy; and

Whereas, In order to provide quality reception to their cellular customers, cellular carriers must erect cell sites that have little obstruction between the cell site and their customers; and

Whereas, In New York City, where tall buildings frequently block wireless signals, cellular carriers have constructed many cell sites, also known as base stations, throughout the City; and

Whereas, The proliferation of these base stations has caused major concern in New York City about the possible health effects that such stations may cause; and

Whereas, While the Federal Communications Commission, the agency responsible for regulating wireless antenna emissions, stated in its report, entitled Questions and Answers about Biological Effects and Potential Hazards of Radio-Frequency Electromagnetic Fields ("Q&A"), that it is unlikely that persons living or working within buildings with rooftop cellular and Personal Communications Service (PCS) antennas would be exposed to RF levels that could approach or exceed applicable safety limits, that statement is contradictory to other statements contained in Q & A, for example, that further investigation is needed to confirm the finding by some scientific literature which suggests that exposure to relatively low levels of RF radiation may cause human health hazards; and

Whereas, In addition, The World Health Organization states that although it is unlikely that exposure to RF from base stations will lead to cancer, there are also gaps in knowledge that need to be filled, such as the long-term effects of multiple base stations in a small area, before better health risk assessments about the effects of base stations can be made; and

Whereas, Despite the prevalence of base stations in New York City, there seems to be no definite answer regarding the potential adverse health effects posed by living and working near these base stations; and

Whereas, The federal Telecommunications Act of 1996 (TCA) preempts state and local governments from basing decisions regarding where to site personal wireless services facilities (base stations for mobile phones, pagers, wireless internet, etc.) on the environmental effects of the RF radiation emissions this technology requires in order to operate; and

Whereas, Currently, the FCC is the sole regulator of RF radiation emissions from cellular base station antennas; and

Whereas, If passed, S.3103 and H.R. 5632 would allow state and local governments to regulate the placement, construction and modification of broadcast transmission facilities, which would include cellular phone towers; now, therefore, be it

Resolved, That the Council of the City of New York urges the United States Senate to adopt S.3103 and the United States Congress to adopt H.R.5632, which would amend the Communications Act of 1934 to clarify and reaffirm state and local authority to regulate the placement, construction and modification of broadcast transmission facilities.

Res. No. 447

Resolution calling on the United States Senate to approve additional federal funding for cities at the greatest risk of terrorist attack, and calling on the US House of Representatives to reconsider its vote on rejecting such a proposal.

By Council Members Vallone Jr., Addabbo Jr., Avella, Clarke, Comrie Jr., Fidler, Gentile, Jackson, Liu, Nelson, Recchia Jr., Reed, Sanders Jr., Sears, Weprin, Gerson and Gennaro.

Whereas, On June 21, 2004, in an early morning vote, the US House of Representatives rejected an amendment to provide nearly $500 million to pay for security initiatives in cities believed to be at greatest risk of attack; and

Whereas, The amendment, sponsored by Reps Carolyn Maloney and John Sweeney, sought to shift approximately $446 million from a nationwide antiterrorism program to one specifically aimed at New York City and other high risk cities; and

Whereas, The amendment was offered to a bill that provides $33 billion for the budget of the Department of Homeland Security; and

Whereas, This bill, passed by the House without the additional money for high risk areas, now moves on to the Senate, where there is an opportunity to correct this wrong decision; and

Whereas, It is no secret that New York City is a prime target for terrorists; we have been attacked on four occasions over the past ten years, and almost all those captured by law enforcement with links to terrorist organizations report that New York City, with its dense population and as the center of finance, commerce and the arts, is a target for attack; and

Whereas, As has been documented at numerous hearings of the Public Safety Committee, New York City gets shortchanged in federal homeland security dollars; for example, under Department of Homeland Security grants, New York State received $103.2 million in FFY04, or $5.44 per capita, whereas Wyoming received $18.8 million in FFY04, or $38.09 per capita; and

Whereas, As Mayor Bloomberg observed after the House vote, "I've never seen a terrorist with a map of a cornfield in his pocket...when you catch a terrorist with a map in their pocket, the map is of New York City;" and

Whereas, For years, this Council has called for an equitable distribution of federal money based solely on risk assessment and target potential, and urged that federal Urban Area Security Initiative funding be limited to ten or less of the largest US cities, and that it be awarded directly to the limited number of urban areas and not to the States with a pass-through requirement to localities; and

Whereas, The US Senate now has an opportunity to undo the mistake made by the House and to provide New York City with desperately needed homeland security aid; now, therefore, be it

Resolved, That the Council of the city of New York calls on the United States Senate to approve additional federal funding for cities at the greatest risk of terrorist attack, and calling on the US House of Representatives to reconsider its vote on rejecting such a proposal.

Int. No. 400

By Council Members Vann, Barron, Boyland, Clarke, Comrie Jr., Jackson, Liu, Palma and Sanders Jr.

A Local Law in relation to the renaming of Fulton street, Borough of Brooklyn, so that it shall hereafter be known as Harriet Ross Tubman Avenue and to amending the official map of the City of New York accordingly.

Be it enacted by the Council as follows:

Section 1. Fulton street in the Borough of Brooklyn is hereby renamed as indicated:

New name	Present name	Limits
Harriet Ross Tubman Avenue	Fulton Street	between Boerum Place and Rockaway Boulevard

§2. The official map of the city of New York shall be amended in accordance with the provisions of section one of this local law.

§3. This local law shall take effect immediately upon its enactment into law.

Int. No. 401

By Council Members Yassky, Barron, Boyland, Brewer, Comrie Jr., Jackson, Liu, Perkins, Sanders Jr., Weprin and Gerson.

A Local Law to amend the administrative code of the city of New York, in relation to imposing a housing requirement for victims of domestic violence.

Be it enacted by the Council as follows:

Section 1. Subchapter 3 of chapter 2 of title 27 of the administrative code of the city of New York is amended by adding a new article 7 to read as follows:

ARTICLE 7

HOUSING FOR VICTIMS OF DOMESTIC VIOLENCE

§27-2089.1 Definitions. Whenever used in this article the following term shall have the following meaning:

"Victims of domestic violence" means any person over the age of sixteen, any married person or any parent accompanied by his or her minor child or children in situations in which such person or such person's child is a victim of an act which would constitute a violation of the penal law, including, but not limited to acts constituting disorderly conduct, harassment, menacing, reckless endangerment, kidnapping, assault, attempted assault or attempted murder; and

(i) such act or acts have resulted in actual physical or emotional injury or have created a substantial risk of physical or emotional harm to such person or such person's child; and

(ii) such act or acts are or are alleged to have been committee by a family or household member.

§27-2089.2 Housing for victims of domestic violence. Notwithstanding any other provision of law, for all multiple dwellings developed as the result of new construction, conversion or substantial rehabilitation and aided by a grant, loan or subsidy from the department or aided by a real property tax benefit program administered through the department, there shall be a regulatory agreement with the department requiring that a minimum of ten percent of the total number of dwelling units in such multiple dwelling be set aside for victims of domestic violence. The department shall by rule establish that victims of domestic violence that have entered the shelter system be given priority for placement in such set aside dwelling units.

§2. This local law shall take effect immediately.

74-721
Height and setback and yard regulations

(a) In C4-7, C5-2, C5-3, C5-4, C6-1A, C6-4, C6-5, C6-6, C6-7 or M1-6 Districts, the City Planning Commission may permit modification of the height and setback regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block#.

In C5-3, C6-6 and C6-7 Districts, on such #zoning lots#, the Commission also may modify #yard# and court regulations, and regulations governing the minimum required distance between #buildings# and/or the minimum required distance between #legally required windows# and walls or #lot lines#, provided that the Commission finds that such modifications:

(1) provide a better distribution of #bulk# on the #zoning lot#;

(2) result in a better relationship of the #building# to open areas, adjacent #streets# and surrounding #development#; and

(3) provide adequate light and air for #buildings# on the #zoning lot# and neither impair access to light and air to #legally required windows# in adjacent #buildings# nor adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties;

As a condition of this special permit, if any open area extending along a #side lot line# is provided at any level, such open area shall be at least eight feet in width;

(b) In a C6-4 District, the Commission may modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses), ~~if~~ or #developments# or #enlargements# on #zoning lots# occupying an entire #block# ~~and located in a C6-4 District~~ with a basic commercial #floor area ratio# of 10.0, ~~the Commission may also modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses),~~ provided the following ~~findings are made~~ conditions are met:

(1) ~~that~~ the non-#residential uses# are located in a portion of a #mixed building# ~~which~~ which has separate access to the #street# with no openings of any kind to the #residential# portion of the #building# at any #story#; and

(2) ~~that~~ the non-#residential uses# are not located above the lowest #story# containing #dwelling units# unless the #residential# and non-#residential# portions are separated in accordance with the provisions of Section 23-82 (Building Walls Regulated by Minimum Spacing Requirements).

(c) In C5-3, C6-6 and C6-7 Districts, the Commission may modify height and setback and #yard# regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, ~~provided the #zoning lot#~~ that occupies an entire #block# front on a #wide street#, subject to the following conditions:~~-~~

~~As a condition for the special permit, the Commission shall make the following findings:~~

~~(1) that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties; and~~

(~~2~~1) ~~that~~ where #buildings# or portions thereof penetrate the established #sky exposure plane#, the aggregate area occupied by such #buildings# or portions thereof at such elevation shall not exceed:

(i) 55 percent of the area of such #zoning lot#; or

(ii) an equivalent of 55 percent of the aggregate area of such #zoning lot# and any adjoining #zoning lots# with a common #lot line# for at least 90 feet with negative easements limiting height of existing and future #developments# on the adjoining #zoning lots# by recorded deed or other written instruments; ~~and~~

(~~3~~2) ~~that~~ the #development# or #enlargement# includes on-site amenities, such as #arcades#, #through block arcades# or #covered pedestrian spaces# where the size and dimensions of such spaces are substantially greater than the required minimum standards, and include~~s~~ sky lights or other provisions for additional access of direct natural light so as to provide for an increased penetration of light and air therein at the #street# level of the #development#, or a transit station improvement that results in a direct major connection to a subway station.

(3) In lieu of ~~this finding,~~ condition (c)(~~3~~2), the ~~Commission finds that the~~ #development# or #enlargement# may provide~~s~~, in the same or an adjoining #block# of such #development# or #enlargement#, compensatory "off-site public open space." For the purposes of this ~~Section~~ paragraph, (c3), the term "adjoining block" shall mean a #block# that is contiguous to the development #block# but for its separation by a #street# or #street# intersection. The area of such off-site public open space shall be at least 4,000 square feet, or 15 percent of the #lot area# of a #zoning lot# containing the #development#, whichever is more, and a width of at least 40 feet at any point.

Such public open areas shall have a southern exposure, and adjoin a public sidewalk and be #developed# pursuant to the provisions of Section 37-04 (Requirements for Urban Plazas). A plan for the development and maintenance of such off-site public space shall be approved by the Commission. The off-site public area shall be kept open to the general public in accordance with a time schedule specified by the Commission. In no event shall such off-site public open space be eligible for #floor area# or bonus computation in connection with this or any other #development# or #enlargement#.

For such #developments#, the Commission may also modify the applicable regulations of Sections 32-51 (Limitations on Business Entrances, Show Windows or Signs) and 36-683 (Restrictions on location of berths near Residence Districts) where adjoining frontage within a distance of 75 feet on the same side of the #street# is occupied by a #community facility# or ground floor #commercial use#, provided that such modification is part of an overall design for #show windows#, signage and entrances or off-street loading berths developed in conjunction with a public amenity such as an #urban plaza#, #through block arcade# or #covered pedestrian space#, and will not alter the essential character of the immediate neighborhood.

In the case of existing #residential buildings# to remain temporarily on such #zoning lot#, the provisions of Sections 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) and 23-80 (COURT REGULATIONS AND MINIMUM DISTANCE BETWEEN WINDOWS AND WALLS OR LOT LINES) may be modified provided that each and every one of the following conditions are met:

(i) that such existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;

(ii) that the portions of the #zoning lot# where such existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan;

(iii) that no temporary or final certificate of occupancy shall be issued for that portion of #floor area# in the new #development# equal to twice the #floor area# in the temporary existing #buildings# until such #buildings# are vacated, demolished and their sites are redeveloped in accordance with the approved project plan, except that where the ~~City Planning~~ Commission shall have determined that the applicant for a special permit has made an offer to purchase the leasehold interests from the lessees at a fair market value of the remainder of the lease term, the Commission may decrease the amount of #floor area# for which no certificate of occupancy may be issued; and

(iv) that the #development# conform with all the applicable laws relating to construction, operation and maintenance.

The owner of the #zoning lot# shall have prominently displayed thereon a sign stating the date by which the #buildings# are to be demolished.

(~~d~~4) As a further condition for the issuance of a permit under this ~~Section~~, paragraph, (c), the owner of the #zoning lot# upon which new #developments# are to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel as to form, sufficient in amount as determined by the ~~City Planning~~ Commission to cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time set forth in the approved project plan, and insure that all #floor area# which is to be vacant in the new #development# shall remain unfinished and vacant.

The bonds or other securities shall be payable to the City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this paragraph, (~~d~~c) ~~of this Section~~, that the #development#:

(1) shall result in improved circulation; and

(2) would eliminate the undesirable pre-emption of ground level space by private #buildings or other structures#.

In making ~~this~~ these findings, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this ~~Section~~ paragraph, (c), shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.
In addition to the conditions in paragraphs (c)(1), (c)(2), (c)(3) and (c)(4) of this Section, the Commission shall find that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties;

(ed) Notwithstanding any other provisions of the Zoning Resolution, where a #development# shares an aggregate #lot line# with a landmark building site for a distance of at least 90 feet, or contains a historically significant #street# that has been demapped and an archeologically significant site, both of which have been identified by the Landmark Preservation Commission, the Commission may permit modification of the height and setback and #yard# regulations regardless of the lot size, provided that the following findings are made:

(1) there is a harmonious architectural relationship between the landmark and the new structure, and such relationship is approved by the Landmarks Preservation Commission or, in the case of a #development# which contains a historically significant #street# that has been demapped and an archeologically significant site, there is a visual recognition of the location of the demapped #street# and of the archeologically significant site created by a design treatment that has been approved by both the Landmarks Preservation Commission and the City Planning Commission and, if such #development# is located within 200 feet of a historic district, there is a harmonious relationship between the proposed #development# and the historic district; and

(2) pedestrian amenities are contained in the new structure including, where appropriate, retail stores and substantial pedestrian space at the principal levels of circulation, such as wider sidewalks, #arcades#, #covered pedestrian space#, subsurface concourses and convenient subway connections.

PROPOSED 2005 CONSOLIDATED PLAN
30 DAY PUBLIC COMMENT PERIOD AND PUBLIC HEARING

A **PUBLIC HEARING** on the formulation of the Proposed 2005 Consolidated Plan: the Five-Year Strategy 2005 - 2009 for HUD Entitlement Funds will be held on **November 4, 2004** beginning at **3:30 P.M.** at the Department of City Planning located at 22 Reade Street, Spector Hall, Manhattan. The Public Hearing will be followed by a question and answer session with City agency representatives in attendance.

A PUBLIC COMMENT PERIOD begins on **October 12, 2004** and will extend for 30 days ending **November 10, 2004.**

The Proposed Consolidated Plan defines the use of federal entitlement funds for housing, homeless assistance, supportive housing services and community development programs and is required by the United States Department of Housing and Urban Development (HUD). It consolidates the statutory requirements of the Cranston-Gonzalez Housing Act's Comprehensive Housing Affordability Strategy, and the City's application for the four HUD Office of Community Planning and Development entitlement programs: Community Development Block Grant (CDBG), HOME Investment Partnership, Emergency Shelter Grants (ESG), and Housing Opportunities for Persons with AIDS (HOPWA). In addition, the Proposed Plan describes the five-year strategic objectives and the use of these federal funds for Consolidated Plan Program Years 2005 - 2009.

Comments maybe sent to: Charles V. Sorrentino, New York City Consolidated Plan Coordinator, Department of City Planning, 22 Reade Street 4N, New York, New York 10007, (212) 720-3337.

COURT NOTICES

SUPREME COURT

■ **NOTICE**

BRONX COUNTY IA PART 6

NOTICE OF PETITION INDEX NUMBER 2510/04

In the Matter of the Application of the

NEW YORK CITY SCHOOL CONSTRUCTION AUTHORITY,

To Acquire By Exercise of its Powers of Eminent Domain Title in Fee Simple Absolute to Certain Real Property Known as Tax Block 5263, Lot 112, Located in the Borough of Bronx, City of New York, in Connection With the Construction of P.S./M.S. 189X.

PLEASE TAKE NOTICE that, upon the annexed petition of the New York City School Construction Authority (the "Authority"), duly verified on the 29th day of September, 2004, by William H. Goldstein, President and Chief Executive Officer of the Authority, Petitioner shall move this Court on the 25th day of October at 9:30 a.m., or as soon thereafter as counsel may be heard, at I.A.Part 6, of this Court, to be held at the Courthouse thereof, located at 851 Grand Concourse, Room 405A, Bronx, New York, for an order:

a) granting the Petition in all respects;

b) authorizing the Authority to file the Acquisition Map in the Office of the Clerk or the Office of the City Register of Bronx County;

c) directing that, upon the filing of the Order of this Court and the Acquisition Map, title and possession to the property shown on said Map, shall vest in the Authority, said property consisting of all that certain plot, piece or parcel of land, comprising Tax Block 5263, Lot 112, with any buildings and improvements thereon, erected, situated, lying and being in the Borough and County of Bronx State of New York, bounded and described as follows:

BEGINNING at a point on the westerly line of Steenwick Avenue distant 50 feet northwardly along the same from the point formed by the intersection of the westerly line of Steenwick Avenue with the northerly line of Reeds Mill Lane, said point of beginning being at the point formed by the intersection of the northerly line of Tax Lot 115 in Tax Block 5263 with the westerly line of Steenwick Avenue;

Thence running westwardly along a line perpendicular to the westerly line of Steenwick Avenue, being along the northerly line of Tax Lot 115 in Tax Block 5263 for 130.97 feet to the northeasterly line of Tax Lot 191 in Tax Block 5263;

Thence northwestwardly along a line which, on its northeasterly side, forms an angle of 140 degrees 46 minutes 11 seconds with the northerly side of the last described course, being along the northeasterly line of Tax Lot 191 in Tax Block 5263 for 26.63 feet to a point where two southeasterly lines of Tax Lot 70 in Tax Block 5263 meet;

Thence northeastwardly along a line which, on its southeasterly side, forms an angle of 82 degrees 53 minutes 51 seconds with the northeasterly side of the last described course, being along one of said southeasterly lines of Tax Lot 70 in Tax Block 5263 for 48.02 feet to a southerly line of Tax Lot 70 in Tax Block 5263;

Thence eastwardly along a line perpendicular to the westerly line of Steenwick Avenue, being along said southerly line of Tax Lot 70 in Tax Block 5263 for 116.86 feet to the westerly line of Steenwick Avenue;

Thence southwardly along the westerly line of Steenwick Avenue for 50 feet to the point or place of beginning.

The above described parcel consists of Tax Lot 112 in Tax Block 5263 as shown on the Tax Map of The City of New York for the Borough of the Bronx as said Tax Map existed on June 4, 2004.

d) providing that this Court shall determine all claims for just compensation arising from the acquisition of said Property and that such claims shall be heard without a jury and without referral to a referee or commissioner;

e) directing that, within thirty (30) days after the

entry of the Order of this Court, the Authority shall cause a Notice of Acquisition to be served upon each condemnee or such condemnee's attorney of record;

f) directing that all claimants have a period of one hundred eighty (180) days from the date of service of the Notice of Acquisition within which to file a written claim or notice of appearance; and

g) granting such other and further relief as this Court deems just and proper.

Surveys, maps or plans of the property to be acquired are on file in the office of the Corporation Counsel of the City of New York, 100 Church Street, New York, New York 10007

PLEASE TAKE FURTHER NOTICE THAT, pursuant to EDPL § 402(B)(4), any party seeking to oppose the acquisition must interpose a verified answer, which must contain specific denial of each material allegation of the petition controverted by the opponent, or any statement of new matter deemed by the opponent to be a defense to the proceeding. Pursuant to CPLR 403, said answer must be served upon the office of the Corporation Counsel at least seven (7) days before the date that the petition is noticed to be heard.

RANDALL'S ISLAND WATERFRONT PATHWAYS – Public Bid – DUE 11-12-04 AT 11:00 A.M. – Located in the area from the 103rd Street Pedestrian Bridge to the boardwalk over the Little Hell Gate Inlet in Manhattan. The project is for construction of two parallel paths—one for biking and in-line skating and one for walking and jogging. The project will include pedestrian level lighting and minor plumbing work. The scope in general will include clearing and grubbing, rough and final grading; stone screening pavement, concrete pavers, asphalt pavement, lighting and related electrical work, water fountains and related plumbing work, site furniture including, but not limited to, benches and bicycle racks, and landscaping, and all other work incidental thereto, as more specifically described in the Contract Documents.

Each bid must be prepared and submitted in accordance with the 'Invitation for Bids' and with a Bid Security for 10% of the amount of the bid in the form of a Certified Check, Bid Bond or Bank Check in the amount of (10%) ten percent of the bid amount.

The successful bidder will be required to furnish a Performance Bond and Labor and Material Bond each for 100% of the amount of the Contract. The construction duration for this project is expected to be two-hundred ten (210) contract calendar days.

This project is in part funded by grants from the of New York State (NYS) Office of Parks, Recreation and Historic Preservation through Title 3 of the Clean Water/Clean Air Bond Act of 1996, through Title 9 of the Environmental Protection Act of 1993, and from the New York State Department of State, Division of Coastal Resources through Title 11 Local Waterfront Revitalization Program of the Environmental Protection Fund.

It is the policy of NYS to encourage the greatest possible participation of minority and woman-owned business enterprises in State-funded projects. The General Contractor, by bidding on the contract, acknowledges his/her understanding and support for this policy and pledges to fully cooperate with the NYC EDC in meeting NYS requirements as set forth in the Bidding and Contract Documents.

Bid Documents may be obtained upon payment of a fee of $100 for an initial set and $100 for each additional set, no part of which will be refunded. Payment is to be in the form of money order or certified funds payable to "New York City Economic Development Corporation." The Contract Documents, including Bid Forms for Contract Work, will also be on file with NYCEDC and may be inspected by prospective bidders during normal working hours.

RANDALL'S ISLAND WATERFRONT PATHWAYS – Public Bid – DUE 11-12-04 AT 11:00 A.M. – Located in the area from the 103rd Street Pedestrian Bridge to the boardwalk over the Little Hell Gate Inlet in Manhattan. The project is for construction of two parallel paths—one for biking and in-line skating and one for walking and jogging. The project will include pedestrian level lighting and minor plumbing work. The scope in general will include clearing and grubbing, rough and final grading; stone screening pavement, concrete pavers, asphalt pavement, lighting and related electrical work, water fountains and related plumbing work, site furniture including, but not limited to, benches and bicycle racks, and landscaping, and all other work incidental thereto, as more specifically described in the Contract Documents.

Each bid must be prepared and submitted in accordance with the 'Invitation for Bids' and with a Bid Security for 10% of the amount of the bid in the form of a Certified Check, Bid Bond or Bank Check in the amount of (10%) ten percent of the bid amount.

The successful bidder will be required to furnish a Performance Bond and Labor and Material Bond each for 100% of the amount of the Contract. The construction duration for this project is expected to be two-hundred ten (210) contract calendar days.

This project is in part funded by grants from the of New York State (NYS) Office of Parks, Recreation and Historic Preservation through Title 3 of the Clean Water/Clean Air Bond Act of 1996, through Title 9 of the Environmental Protection Act of 1993, and from the New York State Department of State, Division of Coastal Resources through Title 11 Local Waterfront Revitalization Program of the Environmental Protection Fund.

It is the policy of NYS to encourage the greatest possible participation of minority and woman-owned business enterprises in State-funded projects. The General Contractor, by bidding on the contract, acknowledges his/her understanding and support for this policy and pledges to fully cooperate with the NYC EDC in meeting NYS requirements as set forth in the Bidding and Contract Documents.

Bid Documents may be obtained upon payment of a fee of $100 for an initial set and $100 for each additional set, no part of which will be refunded. Payment is to be in the form of money order or certified funds payable to "New York City Economic Development Corporation." The Contract Documents, including Bid Forms for Contract Work, will also be on file with NYCEDC and may be inspected by prospective bidders during normal working hours.

Successful experience in construction projects shall be demonstrated by the General Contractor. The General Contractor shall possess a good track record of projects undertaken in the fields of tunnels and shafts; their construction, dewatering and reconstruction and/or repair as demonstrated by case records of tunnels worked on in the past five to ten years. Information such as adherence to program, cost control, demonstrated quality and good safety performance of the General Contractor will be considered.
Organization and Staffing: An organization chart showing the firms and individuals that may be assigned to work on these types of projects, including subconsultants and subcontractors and full resumes for each person. Qualifying resumes should show a minimum of five years experience in a senior position with construction or reconstruction of tunnels. The information about the General Contractor, individual persons, consultant, and subcontracting firms shall be relevant to the work at hand and shall demonstrate particular capability for executing this work. Particular expertise in heavy underground construction, sinking shafts, driving tunnels and aqueducts, performing heavy deep underwater mechanical construction, constructing cut and cover tunnels and aqueducts, disinfection of tunnels and aqueducts, installing shaft hoisting equipment in deep shafts (greater than 300 feet), installing underground facilities, control of water inflows into tunnels with pressures greater than 250 psi, grouting under high water pressures (greater than 250 psi) in deep tunnels and shafts, installing steel liners in tunnels and shaft, dealing with ground support in difficult rock and soil conditions, tunnel ventilation systems and construction of electrical and mechanical systems for tunnel and aqueduct systems shall be demonstrated. The lead member and all key members for design phase assistance shall be New York registered Professional Engineer(s). The information shall be organized to respond to each of the work areas noted above.

Quality Assurance and Quality Control: Quality certification documents and company quality assurance manuals. The General Contractor and Subcontractors shall describe the quality assurance and quality control procedures that are typically used for these types of projects for both construction and design assistance.

Safety: A description of the safety management procedures and safety plan for construction sites, shafts and tunnels used for these types of projects and demonstrate past records of good safety performance.

Financial Capability: Demonstrate the financial capacity to undertake and manage large-scale projects. Qualifying firms applying singly or as the lead firm of a consortium or joint venture shall also meet the following minimum requirements: Have successfully completed work of an aggregate project value in excess of $200 million during the last 3 years, with at least one contract over $50 million.

Alternatively, successfully completed or working on at least one large project with a value more than $150 million during the last 3 years.

A Non-mandatory Pre-submittal conference will be held on Tuesday October 26, 2004 at the offices of Malcolm Pirnie, 75-20 Astoria Blvd., Jackson Heights, New York 11370 at 10:00 AM. Attendance is limited to General Contractors; a maximum of two persons from each General Contractor may attend. By October 19th, each General Contractor shall submit the following information for each person that will be attending the Pre-submittal conference: full name, full address, employer name and address, date of birth, social security number, valid driver's license number, and office and cell phone numbers. The DEP intends to perform background checks, upon which each person will be notified if they may attend the conference. Please fax the information to Mr. Steve Elie-Pierre at (718) 595-6137. In addition, each General Contractor shall sign a confidentiality statement concerning the information that will be presented at the pre-submittal conference. This statement will be transmitted to the principle of each General Contractor and must be signed and returned prior to the pre-submittal conference in order to gain entry. All submissions will be reviewed by an Evaluation Committee ("EC"). Interviews may be required as part of the Pre-Qualification process. Pre-Qualification will be based upon the EC's recommendations.

Qualifications are to be delivered to Debra Butlien, Department of Environmental Protection, 59-17 Junction Boulevard, 17th Floor Bid Room, Flushing, New York 11368 and are due no later than 4:00 PM (EST) on Wednesday, November 24, 2004.

All submitters will be notified if they have been deemed qualified, within 90 days after receipt of a complete Pre-Qualification package.

The City is not responsible for costs incurred in the preparation of any documents relative to this advertisement.

PRIVATE RETROACTIVE OUTPATIENT CLAIMS PROCESSING – CP1 – PIN# 011050250028 – DUE 10-29-04 AT 4:00 P.M. – This Request for Proposals (RFP) is issued to select retroactive outpatient claims processing for the New York City Health and Hospitals Corporation (NYCHHC).

The NYCHHC is seeking to enter into an agreement for a period of three years with the option to renew for two additional one-year extensions, at the sole discretion of the Corporation, with a firm with demonstrated expertise and experience in providing electronic billing services for institutional providers.

Copies of the RFP may be downloaded from the NYCHHC website (http://nyc.gov/hhc) under "What's New - Contracting Opportunities". Printed copies of the RFP may be obtained for $25 by visiting Revenue Management, 160 Water Street, 7th Floor, New York, NY between 10:00 a.m. and 4:00 p.m. beginning Tuesday, October 12, 2004. Please note that late or unsealed proposals shall not be accepted or considered.

The RFP does not commit the Corporation to award a contract, or to pay cost incurred in the preparation of the response to the RFP. The Corporation reserves the right to accept or reject any or all proposal(s) received as a result of this RFP, to negotiate with any qualified offerer(s) or to cancel in part or in its entirety this RFP, if the Corporation deems that it is in its best interest to do so. Document Control Number 1769.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.
