READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. 74-721
Height and setback and yard regulations

(a) In C4-7, C5-2, C5-3, C5-4, C6-1A, C6-4, C6-5, C6-6, C6-7 or M1-6 Districts, the City Planning Commission may permit modification of the height and setback regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block#.

In C5-3, C6-6 and C6-7 Districts, on such #zoning lots#, the Commission also may modify #yard# and court regulations, and regulations governing the minimum required distance between #buildings# and/or the minimum required distance between #legally required windows# and walls or #lot lines#, provided that the Commission finds that such modifications:

(1) provide a better distribution of #bulk# on the #zoning lot#;

(2) result in a better relationship of the #building# to open areas, adjacent #streets# and surrounding #development#; and

(3) provide adequate light and air for #buildings# on the #zoning lot# and neither impair access to light and air to #legally required windows# in adjacent #buildings# nor adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties;

As a condition of this special permit, if any open area extending along a #side lot line# is provided at any level, such open area shall be at least eight feet in width;

(b) In a C6-4 District, the Commission may modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses), if ~~F~~or #developments# or #enlargements# on #zoning lots# occupying an entire #block# ~~and located in a C6-4 District~~ with a basic commercial #floor area ratio# of 10.0, ~~the Commission may also modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses),~~ provided the following ~~findings are made~~ conditions are met:

(1) ~~that~~ the non-#residential uses# are located in a portion of a #mixed building# ~~which~~ which has separate access to the #street# with no openings of any kind to the #residential# portion of the #building# at any #story#; and

(2) ~~that~~ the non-#residential uses# are not located above the lowest #story# containing #dwelling units# unless the #residential# and non-#residential# portions are separated in accordance with the provisions of Section 23-82 (Building Walls Regulated by Minimum Spacing Requirements).

(c) In C5-3, C6-6 and C6-7 Districts, the Commission may modify height and setback and #yard# regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, ~~provided the #zoning lot#~~ that occupies an entire #block# front on a #wide street#, subject to the following conditions:~~.~~

~~As a condition for the special permit, the Commission shall make the following findings:~~

~~(1) that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties; and~~

(~~1~~2) ~~that~~ where #buildings# or portions thereof penetrate the established #sky exposure plane#, the aggregate area occupied by such #buildings# or portions thereof at such elevation shall not exceed:

(i) 55 percent of the area of such #zoning lot#; or

(ii) an equivalent of 55 percent of the aggregate area of such #zoning lot# and any adjoining #zoning lots# with a common #lot line# for at least 90 feet with negative easements limiting height of existing and future #developments# on the adjoining #zoning lots# by recorded deed or other written instruments; ~~and~~

(~~2~~3) ~~that~~ the #development# or #enlargement# includes on-site amenities, such as #arcades#, #through block arcades# or #covered pedestrian spaces# where the size and dimensions of such spaces are substantially greater than the required minimum standards, and include~~s~~ sky lights or other provisions for additional access of direct natural light so as to provide for an increased penetration of light and air therein at the #street# level of the #development#, or a transit station improvement that results in a direct major connection to a subway station.

(3) In lieu of ~~this finding,~~ condition (c)(~~2~~3), the ~~Commission finds that the~~ #development# or #enlargement# may provide~~s~~, in the same or an adjoining #block# of such #development# or #enlargement#, compensatory "off-site public open space." For the purposes of this ~~Section~~ paragraph, (c3), the term "adjoining block" shall mean a #block# that is contiguous to the development #block# but for its separation by a #street# or #street# intersection. The area of such off-site public open space shall be at least 4,000 square feet, or 15 percent of the #lot area# of a #zoning lot# containing the #development#, whichever is more, and a width of at least 40 feet at any point.

Such public open areas shall have a southern exposure, and adjoin a public sidewalk and be #developed# pursuant to the provisions of Section 37-04 (Requirements for Urban Plazas). A plan for the development and maintenance of such off-site public space shall be approved by the Commission. The off-site public area shall be kept open to the general public in accordance with a time schedule specified by the Commission. In no event shall such off-site public open space be eligible for #floor area# or bonus computation in connection with this or any other #development# or #enlargement#.

For such #developments#, the Commission may also modify the applicable regulations of Sections 32-51 (Limitations on Business Entrances, Show Windows or Signs) and 36-683 (Restrictions on location of berths near Residence Districts) where adjoining frontage within a distance of 75 feet on the same side of the #street# is occupied by a #community facility# or ground floor #commercial use#, provided that such modification is part of an overall design for #show windows#, signage and entrances or off-street loading berths developed in conjunction with a public amenity such as an #urban plaza#, #through block arcade# or #covered pedestrian space#, and will not alter the essential character of the immediate neighborhood.

In the case of existing #residential buildings# to remain temporarily on such #zoning lot#, the provisions of Sections 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) and 23-80 (COURT REGULATIONS AND MINIMUM DISTANCE BETWEEN WINDOWS AND WALLS OR LOT LINES) may be modified provided that each and every one of the following conditions are met:

(i) that such existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;

(ii) that the portions of the #zoning lot# where such existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan;

(iii) that no temporary or final certificate of occupancy shall be issued for that portion of #floor area# in the new #development# equal to twice the #floor area# in the temporary existing #buildings# until such #buildings# are vacated, demolished and their sites are redeveloped in accordance with the approved project plan, except that where the ~~City Planning~~ Commission shall have determined that the applicant for a special permit has made an offer to purchase the leasehold interests from the lessees at a fair market value of the remainder of the lease term, the Commission may decrease the amount of #floor area# for which no certificate of occupancy may be issued; and

(iv) that the #development# conform with all the applicable laws relating to construction, operation and maintenance.

The owner of the #zoning lot# shall have prominently displayed thereon a sign stating the date by which the #buildings# are to be demolished.

(~~d~~4) As a further condition for the issuance of a permit under this ~~Section~~, paragraph, (c), the owner of the #zoning lot# upon which new #developments# are to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel as to form, sufficient in amount as determined by the ~~City Planning~~ Commission to cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time set forth in the approved project plan, and insure that all #floor area# which is to be vacant in the new #development# shall remain unfinished and vacant.

The bonds or other securities shall be payable to the City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this paragraph, (~~d~~c) ~~of this Section~~, that the #development#:

(1) shall result in improved circulation; and

(2) would eliminate the undesirable pre-emption of ground level space by private #buildings or other structures#.

In making ~~this~~ these findings, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this ~~Section~~ paragraph, (c), shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.
In addition to the conditions in paragraphs (c)(1), (c)(2), (c)(3) and (c)(4) of this Section, the Commission shall find that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties;

(~~e~~d) Notwithstanding any other provisions of the Zoning Resolution, where a #development# shares an aggregate #lot line# with a landmark building site for a distance of at least 90 feet, or contains a historically significant #street# that has been demapped and an archeologically significant site, both of which have been identified by the Landmark Preservation Commission, the Commission may permit modification of the height and setback and #yard# regulations regardless of the lot size, provided that the following findings are made:

(1) there is a harmonious architectural relationship between the landmark and the new structure, and such relationship is approved by the Landmarks Preservation Commission or, in the case of a #development# which contains a historically significant #street# that has been demapped and an archeologically significant site, there is a visual recognition of the location of the demapped #street# and of the archeologically significant site created by a design treatment that has been approved by both the Landmarks Preservation Commission and the City Planning Commission and, if such #development# is located within 200 feet of a historic district, there is a harmonious relationship between the proposed #development# and the historic district; and

(2) pedestrian amenities are contained in the new structure including, where appropriate, retail stores and substantial pedestrian space at the principal levels of circulation, such as wider

sidewalks, #arcades#, #covered pedestrian space#, subsurface concourses and convenient subway connections.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

Pursuant to City Environmental Quality Review (CEQR), Mayoral Executive Order No. 91 of 1977, and the regulations of Article 8 of the State Environmental Conservation Law, State Environmental Quality Review Act (SEQRA) as found in 6 NYCRR Part 617, a Draft Environmental Impact Statement (DEIS) has been prepared for the action described below. Copies of the DEIS are available for public inspection at the office of the undersigned. The proposal involves actions by the City Planning Commission and Council of the City of New York pursuant to Uniform Land Use Review Procedures (ULURP). A public hearing on the Draft Environmental Impact Statement (DEIS) will be held at a later date to be announced, in conjunction with the City Planning Commission's citywide public hearing pursuant to ULURP. Advance notice will be given of the time and place of the hearing. Written comments on the DEIS are requested and will be received and considered by the Lead Agency until the 10th calendar day following the close of the public hearing.

The New York City (NYC) Department of City Planning is proposing zoning map and text amendments, street demapping and, in association with the NYC Department of Parks and Recreation, park mapping (collectively, "the proposed action") affecting the Greenpoint and Williamsburg areas of northern Brooklyn within Community District 1. The area affected by the proposed action covers approximately 184 blocks in Greenpoint and Williamsburg, and is bounded generally by the East River, the Williamsburg Bridge, the Brooklyn-Queens Expressway, and McGuinness Boulevard.

1. A zoning map amendment to change the zoning in the affected areas from M1-1, M1-2, M3-1, C8-1, C8-2, R6, R6/C1-3, Special Northside Mixed Use District and Special Franklin Street Mixed Use District designations to residential and mixed use districts. The upland areas would be rezoned to: R6, R6A, R6B, M1-2/R6, M1-2/R6A, M1-2/R6B, M1-2/R7A, R6/C1-4, R6A/C1-4, R6B/C1-4, R6/C2-4, R6A/C2-4, and R6B/C2-4, with commercial overlays proposed along Grand Street, Bedford Avenue, North 6th Street, Green Street, and Greenpoint Avenue. R6 and R8 districts are proposed on the waterfront, with commercial overlays on West Street, Kent Avenue, Commercial Street, and a portion of Franklin Street, and with zoning text changes establishing special bulk rules for this waterfront area. In addition, the proposal would rezone an area between McCarren Park and Kent Avenue/Franklin Street, as well as two blocks between Manhattan Avenue and the Pulaski Bridge, from M3-1 to M1-2. The zoning map amendment would affect approximately 184 blocks in the Williamsburg, Greenpoint, and Bushwick Inlet areas.

2. Zoning text amendments in the form of a Waterfront Access Plan (WAP) for the Greenpoint-Williamsburg waterfront between Manhattan Avenue and North 3rd Street, in order to provide for a coordinated network of waterfront open spaces. The WAP would identify specific locations for required shore public walkways, upland

connections, supplemental public access areas, and visual corridors.

3. Zoning text amendments modifying use and bulk regulations applicable within the area governed by the Greenpoint-Williamsburg Waterfront Access Plan, to encourage varied building heights, control tower dimensions, and ensure that new development respects adjacent neighborhood scale on the portions of blocks that adjoin to the upland.

4. Amendments to the City Map to demap portions of several streets and map the resulting parcel as parkland. Two different scenarios are analyzed in the EIS, as detailed below:

Scenario A: demap North 9th, North 10th, North 11th, and North 12th Streets, and a portion of Quay Street west of Kent Avenue, and map the resultant approximately 45.5-acre parcel between North 9th Street to the south and the northern edge of Bushwick Inlet to the north as park. The proposed park in this scenario includes approximately 17.7 acres of land under water, for a net of 27.8 acres, including approximately 5.7 acres within street segments being demapped.

Scenario B: demap North 9th, North 10th, and North 11th Streets west of Kent Avenue, and map the resultant approximately 25.4-acre parcel encompassing the area between North 9th Street and the southern edge of North 12th Street as park. The proposed park in this scenario includes approximately 9.5 acres of land under water, for a net of 15.9 acres, including approximately 3.5 acres within street segments being demapped.

Two reasonable worst case development scenarios are presented in the EIS with an analysis year of 2013. Scenario A identifies some as-of-right and variance development is expected to occur on projected development sites in the future without the proposed action (No-Action) under this scenario. Scenario B identifies some as-of-right and variance development is expected to occur on projected development sites and assumes that a 1,100 Megawatt power plant (with an estimated 187,125 sf) would be developed on the Bayside Fuel site under No-Action conditions and would continue to occupy the site in the future with the proposed action, and a smaller park would be developed.

Scenario A: Under this scenario, the new development in the future with the proposed action would consist of 8,257 DUs, and 337,160 sf of commercial/retail, in addition to a new park with a land area of approximately 27.8 acres extending from North 9th Street to the northern edge of Bushwick Inlet (this includes not just the increment compared to no-action conditions, but all development induced by the proposed action in this scenario). The projected incremental (net) change that would result from the proposed action at the 76 projected development sites under Scenario A is 7,391 DU. There would also be 253,698 sf of local retail, a new park with approximately 27.8 acres of land area, -949,997 sf of vacant land, -642,686 sf of vehicle and open storage uses, -557,906 sf in vacant buildings, 1,136,269 sf of industrial/ manufacturing/warehousing space, and -24,876 sf of automotive uses.

Scenario B: Similar to Scenario A, the new development induced by the proposed action under Scenario B would consist of 8,257 DUs, and 337,160 sf of commercial/retail, but the new park would be smaller, with a land area of approximately 15.9 acres, and extending only from North 9th Street to the southern edge of North 12th Street. Moreover, under Scenario B, the 1,100 MW power plant assumed under No-Action conditions would continue to occupy the Bayside Fuel site in the future with the proposed action, and the area at the northern edge of Bushwick Inlet would continue to be vacant. The projected incremental (net) change that would result from the proposed action at the 76 projected development sites under Scenario B is 7,391 DUs, 253,698 sf of local commercial/retail space, a new park with approximately 15.9 acres of land area, -555,764 sf of vacant land, -642,686 sf of vehicle and open storage uses, -557,906 sf in vacant buildings, -1,076,864 sf of industrial/manufacturing/ warehousing space, and -24,876 sf of automotive uses.

(E) Designations

As described in greater detail in the Hazardous Materials, Air Quality, and Noise chapters of this document, the proposed action includes the mapping of an (E) designation for hazardous materials remediation on all of the projected and potential development sites, with the exception of Site 211 (which would be subject to additional testing and/or remediation as part of either its acquisition by the City during the park mapping process or by TransGas during site development under the New York State Department of Environmental Conservation oversight if the power plant is approved.); as well as the mapping of an (E) designation on 45 projected and potential development sites for noise abatement, on 4 sites for air quality HVAC emissions and on 10 sites for air quality industrial source emissions. The (E) designation is a mechanism which ensures that no significant adverse impacts would result from a proposed action because of steps which would be undertaken prior to the development of a rezoned site. The (E) designation would ensure that these identified sites would not be developed unless necessary remedial measures are implemented.

The proposed zoning map amendment, zoning text amendments, and city map change require approvals by the City Planning Commission and City Council pursuant to Sections 197-c, Section 199, and Section 201 of the New York City Charter. The actions are subject to CEQR. The zoning map amendment is subject to the City's ULURP. The zoning text amendment is a non-ULURP action, but is subject to review by the City Planning Commission and City Council as noted above. The city map change is subject to the City's ULURP.

The DEIS identifies potential unmitigatable impacts related to archaeological resources and traffic as a result of the proposed action. The DEIS also considers seven alternatives to the proposed action were considered in this EIS, to examine reasonable and practicable options that avoid or reduce action-related significant adverse impacts and may still allow for the achievement of the stated goals and objectives of the proposed action. The alternatives include: No Action Alternative, No Impacts Alternative, Lesser Density Alternative, Affordable Housing Bonus and Incentives Alternative, Additional Waterfront Development Alternative, Waterfront Urban Design Alternative, and an Affordable Housing Zoning District Alternative.

Copies of the Draft Environmental Impact Statement may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 22 Reade Street, 4E, New York, New York 10007, Robert Dobruskin, Director (212) 720-3423; or from the Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, New York 10038, Robert Kulikowski, Director, (212) 788-2937.

Name, Description, and Location of Proposal:

Port Morris/ Bruckner Boulevard Rezoning:

The New York City Department of City Planning is proposing a zoning map amendment affecting Bronx Community District 1. The DCP has proposed a zoning map amendment for the area adjacent to the existing Special Mixed Use District, generally bounded by Park Avenue to the west, Willow Avenue to the east, East 134th Street to the north and the Harlem River to the south. The proposed zoning map amendment would expand the adjacent existing Port Morris Special Mixed Use District, MX-1, as follows:

- A change from **M1-2 and R6** to **M1-2/R6A (MX-1):** four blocks zoned M1-2, and three lots zoned R6 (comprising a designated City Park and the access ramp to the Triborough Bridge), together generally bounded by East 134th Street, Brown Place, Bruckner Boulevard, and Willow Avenue.
- A change from **M2-1** to **M1-3/R8 (MX-1):** two blocks generally bounded by East 134th Street to the north, Park Avenue to the west, Third and Lincoln Avenues to the east and the Harlem River to the south.
- A change from **M1-2** and **M3-1 to M1-5/R8A (MX-1):** five blocks zoned M1-2, generally bounded by Bruckner Boulevard to the north, Lincoln Avenue to the west, St. Anns Avenue to the east and East 132nd Street to the south; and one lot zoned M3-1, south of East 132nd Street on Willis Avenue.

The proposed rezoning action requires City Planning Commission (CPC) and City Council approvals through the Uniform Land Use Review Procedure (ULURP).

Sites expected to be developed as a result of the proposed action include 13 projected development sites. There are 28 potential development sites that are considered less likely to be developed. Under the proposed action, it is projected that approximately 412 dwelling units and 341,413 square feet of commercial and industrial floor area could be developed by 2014. In the future absent the proposed action, no new dwelling units would be permitted and approximately 551,739 square feet of commercial and industrial floor area could be developed by 2014.

To avoid the potential for hazardous materials impacts, the proposed rezoning includes (E) designations for hazardous materials on all of the identified projected and potential development sites. Accordingly, (E) designations will be mapped on the following parcels:

Block 2260, Lots 1, 4, 10, 17, 18, 19, 34, 38, 180
Block 2261, Lots 3, 5, 9, 15, 22, 23, 27, 30, 32, 48, 49, 50, 51, 55, 62
Block 2277, Lots 1, 2, 5, 10, 78, 82, 94
Block 2295, Lots 49, 51, 67, 71
Block 2308, Lots 1, 5, 18
Block 2316, Lot 1
Block 2319, Lots 2, 55, 98, 100, 109, 120
Block 2546, Lots 98, 99, 100, 135, 137, 138, 140
Block 2562, Lots 17, 21, 25, 40, 65, 66, 67, 68

The (E) designation for hazardous materials would ensure that sampling and remediation take place where hazardous material contamination may exist and would avoid any significant impacts related to hazardous materials at these locations.

Contamination on (E) designated sites can be classified as "petroleum based" or "non-petroleum based." The NYCDEP has developed protocols for both petroleum and non-petroleum based (E) designated sites that are required to be followed in order to address possible contamination.

The text for (E) designations is as follows:
(E) Designations for Petroleum Based and Non-Petroleum Based Contamination The following tasks must be undertaken by the fee owner(s) of the lot, which is restricted by this (E) designation. They must be completed prior to any demolition or excavation activities on the lot for the proposed development. These tasks must be completed in order to determine if contamination exists on the aforementioned designated sites, as well as to ensure the completion of any appropriate remediation prior to occupancy.

Task 1-Sampling Protocol

A. Petroleum

A soil, soil gas, and groundwater testing protocol (including a description of methods), and a site map with all sampling location represented clearly and precisely, must be submitted to the NYCDEP by the fee owner(s) of the lot which is restricted by this (E) designation, for review and approval.

A site map with the sampling locations clearly identified and a testing protocol with a description of methods, for soil, soil gas, and groundwater, must be submitted by the fee owner(s), of the lot which is restricted by the (E) designation, to the NYCDEP for review and approval.

B. Non-Petroleum

The fee owner(s) of the lot restricted by this (E) designation will be required to prepare a scope of work for any sampling and testing needed to determine if contamination exists and to what extent remediation may be required. The scope of work will include all relevant supporting documentation, including site plans and sampling locations. This scope of work will be submitted to NYCDEP for review and approval prior to implementation. It will be reviewed to ensure that an adequate number of samples will be collected and that appropriate parameters are selected for laboratory analysis. For all non-petroleum (E) designated sites, the three generic NYCDEP soil and ground-water sampling protocols should be followed.

A scope of work for any sampling and testing to be completed, which will determine the extent of on-site contamination and the required remediation, must be prepared by the fee owner(s) of the lot restricted by this (E) designation. The scope of work will include the following: site plans, sampling locations, and all other relevant supporting documentation.
The scope of work must be submitted to the NYCDEP for review and confirmation that an adequate testing protocol (i.e., number of samples collected, appropriate parameters for laboratory analysis) has been prepared. The NYCDEP must approve the scope of work before it can be implemented.

For non-petroleum (E) designated sites, one of the three generic soil and groundwater sampling protocols prepared by the NYCDEP should be followed.

The protocols are based on three types of releases to soil and groundwater sampling protocols prepared by the NYCDEP should be followed.

The protocols are based on three types of releases to soil and groundwater, including: the release of a solid hazardous material to ground surface; the release of a liquid hazardous material to the ground surface; and the release of a hazardous material to the subsurface (i.e., storage tank or piping). The type of release defines the areas of soil to be sampled from surface, near-surface, to subsurface. Additionally, it determines the need for groundwater sampling.

A written approval of the sampling protocol must be received from the NYCDEP before commencement of sampling activities. Sample site quantity and location should be determined so as to adequately characterize the site, the source of contamination, and the condition of the remainder of the site. After review of the sampling data, the characterization should b\have been complete enough to adequately determine what remediation strategy (if any) is necessary. Upon request, NYCDEP will provide guidelines and criteria for choosing sampling sites and performing sampling.

Finally, a Health and Safety Plan must be devised and approved by the NYCDEP before the commencement on any on-site activities.

Task 2-Remediation Determination and Protocol

After sample collection and laboratory analysis have been completed on the soil and/or groundwater samples collected in Task 1, a summary of the data and findings in the form of a written report must be presented to the NYCDEP for review and approval. The NYCDEP will provide a determination as to whether remediation is necessary.

If it is determined that no remediation activities are necessary, a written notice will be released to that effect. However, if it is the NYCDEP's determination that remediation is necessary the fee owner(s) of the lot restricted by the (E) designation must submit a proposed remediation plan to the NYCDEP for review and approval. Once approval has been obtain, and the work completed, the fee owner(s) of the lot restricted by the (E) designation must provide proof to the NYCDEP that the work has been completed satisfactorily.

If remediation is necessary according to the test results, a proposed remediation plan must be submitted to the NYCDEP for review and approval. The fee owner(s) of the lot restricted by the (E) designation must perform such remediation as determined necessary by the NYCDEP. After completing the remediation, the fee owner(s) of the lot restricted by this (E) designation should provide proof that the work has been satisfactorily completed.

To avoid the potential for significant adverse noise impacts, for each of the projected and potential development sites an (E) designation for noise will be incorporated into the rezoning proposal. The text of the (E) designation is as follows:

> **In order to ensure an acceptable interior noise environment, new residential development must provide a closed window condition with the minimum of window/wall attenuation shown in Table 3.18-6 for mixed-use attenuation in order to maintain an interior noise level of 45 dBA. In order to maintain a closed-window condition, an alternate means of ventilation includes, but is not limited to, central air conditioning or air conditioning sleeves containing air conditioners.**

To avoid the potential for significant adverse air quality impacts from the HVAC emissions at the potential development sites on Block 2316, Lot 1; and on Block 2319, Lots 2, 55, and 120; and on Block 2246, Lots 135, 137, and 138; and on Block, 2295, Lots 49, 51, and 67; an (E) designation for air quality will be incorporated into the rezoning proposal. The text of the (E) designation is as follows:

- **Any new residential and/or commercial development on the above-referenced property must use natural gas as the type of fuel for HVAC systems.**

The procedures to be followed for satisfaction and removal of the (E) designation shall be as set forth in Section 11-15 of the Zoning Resolution.

Statement of No Significant Effect:

The Environmental Assessment and Review Division of the Department of City Planning, on behalf of the City Planning Commission, has completed its technical review of the Environmental Assessment Statement Parts I, II and III,

dated October 1, 2004, prepared in connection with the ULURP Application (ULURP No. 050120ZMX). The City Planning Commission has determined that the proposed action will have no significant effect on the quality of the environment.

Supporting Statement:

The above determination is based on an environmental assessment which finds that no significant effects on the environment which would require an Environmental Impact Statement are foreseeable. This Negative Declaration has been prepared in accordance with Article 8 of the Environmental Conservation Law 6NYCRR part 617.

Should you have any questions pertaining to this Negative Declaration, you may contact Glen A. Price III, Director of Studies Implementation at (212) 720-3491.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

74-721
Height and setback and yard regulations

(a) In C4-7, C5-2, C5-3, C5-4, C6-1A, C6-4, C6-5, C6-6, C6-7 or M1-6 Districts, the City Planning Commission may permit modification of the height and setback regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block#.

In C5-3, C6-6 and C6-7 Districts, on such #zoning lots#, the Commission also may modify #yard# and court regulations, and regulations governing the minimum required distance between #buildings# and/or the minimum required distance between #legally required windows# and walls or #lot lines#, provided that the Commission finds that such modifications:

(1) provide a better distribution of #bulk# on the #zoning lot#;

(2) result in a better relationship of the #building# to open areas, adjacent #streets# and surrounding #development#; and

(3) provide adequate light and air for #buildings# on the #zoning lot# and neither impair access to light and air to #legally required windows# in adjacent #buildings# nor adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties;

As a condition of this special permit, if any open area extending along a #side lot line# is provided at any level, such open area shall be at least eight feet in width;

(b) In a C6-4 District, the Commission may modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses), ~~F~~or #developments# or #enlargements# on #zoning lots# occupying an entire #block# ~~and located in a C6-4 District~~ with a basic commercial #floor area ratio# of 10.0, ~~the Commission may also modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses),~~ provided the following ~~findings are made~~ conditions are met:

(1) ~~that~~ the non-#residential uses# are located in a portion of a #mixed building# ~~which~~ which has separate access to the #street# with no openings of any kind to the #residential# portion of the #building# at any #story#; and

(2) ~~that~~ the non-#residential uses# are not located above the lowest #story# containing #dwelling units# unless the #residential# and non-#residential# portions are separated in accordance with the provisions of Section 23-82 (Building Walls Regulated by Minimum Spacing Requirements).

(c) In C5-3, C6-6 and C6-7 Districts, the Commission may modify height and setback and #yard# regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, ~~provided the #zoning lot#~~ that occupies an entire #block# front on a #wide street#, subject to the following conditions:~~-~~

~~As a condition for the special permit, the Commission shall make the following findings:~~

~~(1) that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties; and~~

(~~1~~2) ~~that~~ where #buildings# or portions thereof penetrate the established #sky exposure plane#, the aggregate area occupied by such #buildings# or portions thereof at such elevation shall not exceed:

(i) 55 percent of the area of such #zoning lot#; or

(ii) an equivalent of 55 percent of the aggregate area of such #zoning lot# and any adjoining #zoning lots# with a common #lot line# for at least 90 feet with negative easements limiting height of existing and future #developments# on the adjoining #zoning lots# by recorded deed or other written instruments; ~~and~~

(~~2~~3) ~~that~~ the #development# or #enlargement# includes on-site amenities, such as #arcades#, #through block arcades# or #covered pedestrian spaces# where the size and dimensions of such spaces are substantially greater than the required minimum standards, and include~~s~~ sky lights or other provisions for additional access of direct natural light so as to provide for an increased penetration of light and air therein at the #street# level of the #development#, or a transit station improvement that results in a direct major connection to a subway station.

(3) In lieu of ~~this finding,~~ condition (c)(~~2~~3), the ~~Commission finds that the~~ #development# or #enlargement# may provide~~s~~, in the same or an adjoining #block# of such #development# or #enlargement#, compensatory "off-site public open space." For the purposes of this ~~Section~~ paragraph, (c3), the term "adjoining block" shall mean a #block# that is contiguous to the development #block# but for its separation by a #street# or #street# intersection. The area of such off-site public open space shall be at least 4,000 square feet, or 15 percent of the #lot area# of a #zoning lot# containing the #development#, whichever is more, and a width of at least 40 feet at any point.

Such public open areas shall have a southern exposure, and adjoin a public sidewalk and be #developed# pursuant to the provisions of Section 37-04 (Requirements for Urban Plazas). A plan for the development and maintenance of such off-site public space shall be approved by the Commission. The off-site public area shall be kept open to the general public in accordance with a time schedule specified by the Commission. In no event shall such off-site public open space be eligible for #floor area# or bonus computation in connection with this or any other #development# or #enlargement#.

For such #developments#, the Commission may also modify the applicable regulations of Sections 32-51 (Limitations on Business Entrances, Show Windows or Signs) and 36-683 (Restrictions on location of berths near Residence Districts) where adjoining frontage within a distance of 75 feet on the same side of the #street# is occupied by a #community facility# or ground floor #commercial use#, provided that such modification is part of an overall design for #show windows#, signage and entrances or off-street loading berths developed in conjunction with a public amenity such as an #urban plaza#, #through block arcade# or #covered pedestrian space#, and will not alter the essential character of the immediate neighborhood.

In the case of existing #residential buildings# to remain temporarily on such #zoning lot#, the provisions of Sections 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) and 23-80 (COURT REGULATIONS AND MINIMUM DISTANCE BETWEEN WINDOWS AND WALLS OR LOT LINES) may be modified provided that each and every one of the following conditions are met:

(i) that such existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;

(ii) that the portions of the #zoning lot# where such existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan;

(iii) that no temporary or final certificate of occupancy shall be issued for that portion of #floor area# in the new #development# equal to twice the #floor area# in the temporary existing #buildings# until such #buildings# are vacated, demolished and their sites are redeveloped in accordance with the approved project plan, except that where the ~~City Planning~~ Commission shall have determined that the applicant for a special permit has made an offer to purchase the leasehold interests from the lessees at a fair market value of the remainder of the lease term, the Commission may decrease the amount of #floor area# for which no certificate of occupancy may be issued; and

(iv) that the #development# conform with all the applicable laws relating to construction, operation and maintenance.

The owner of the #zoning lot# shall have prominently displayed thereon a sign stating the date by which the #buildings# are to be demolished.

(~~d~~4) As a further condition for the issuance of a permit under this ~~Section~~, paragraph, (c), the owner of the #zoning lot# upon which new #developments# are to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel as to form, sufficient in amount as determined by the ~~City Planning~~ Commission to cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time set forth in the approved project plan, and insure that all #floor area# which is to be vacant in the new #development# shall remain unfinished and vacant.

The bonds or other securities shall be payable to the City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this paragraph, (~~d~~c) ~~of this Section~~, that the #development#:

(1) shall result in improved circulation; and

(2) would eliminate the undesirable pre-emption of ground level space by private #buildings or other structures#.

In making ~~this~~ these findings, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this ~~Section~~ paragraph, (c), shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.
In addition to the conditions in paragraphs (c)(1), (c)(2), (c)(3) and (c)(4) of this Section, the Commission shall find that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties;

(~~e~~d) Notwithstanding any other provisions of the Zoning Resolution, where a #development# shares an aggregate #lot line# with a landmark building site for a distance of at least 90 feet, or contains a historically significant #street# that has been demapped and an archeologically significant site, both of which have been identified by the Landmark Preservation Commission, the Commission may permit modification of the height and setback and #yard# regulations regardless of the lot size, provided that the following findings are made:

(1) there is a harmonious architectural relationship between the landmark and the new structure, and such relationship is approved by the Landmarks Preservation Commission or, in the case of a #development# which contains a historically significant #street# that has been demapped and an archeologically significant site, there is a visual recognition of the location of the demapped #street# and of the archeologically significant site created by a design treatment that has been approved by both the Landmarks Preservation Commission and the City Planning Commission and, if such #development# is located within 200 feet of a historic district, there is a harmonious relationship between the proposed #development# and the historic district; and

(2) pedestrian amenities are contained in the new structure including, where appropriate, retail stores and substantial pedestrian space at the principal levels of circulation, such as wider sidewalks, #arcades#, #covered pedestrian space#, subsurface concourses and convenient subway connections.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

b. Any **employee** may consent in writing to the authorization of the deduction of dues from the **employee's** wages and to the designation of the Union as the recipient thereof. Such consent, if given, shall be in a proper form acceptable to the City, which bears the signature of the **employee**.

Section 2.

The parties agree to an agency shop to the extent permitted by applicable law, as described in a supplemental agreement hereby incorporated by reference into this **Agreement**.

ARTICLE III– WAGES AND SUPPLEMENTS

The wages and other supplements applicable to **employees** covered by this Agreement shall be in accordance with the respective Determinations of the Comptroller, subject to the terms and conditions thereof.

ARTICLE IV– PRODUCTIVITY AND PERFORMANCE

Introduction

Delivery of municipal services in the most efficient, effective and courteous manner is of paramount importance to the **Employer** and the **Union**. Such achievement is recognized to be a mutual obligation of both parties within their respective roles and responsibilities. To achieve and maintain a high level of effectiveness, the parties hereby agree to the following terms:

Section 1. – Performance Levels

(a) The **Union** recognizes the **Employer's** right under the **New York City Collective Bargaining Law** to establish and/or revise performance standards or norms notwithstanding the existence of prior performance levels, norms or standards. Such standards, developed by usual work measurement procedures, may be used to determine acceptable performance levels, to prepare work schedules and to measure the performance of each **employee** or group of **employees**. Notwithstanding the above, questions concerning the practical impact that decisions on the above matters have on **employees** are within the scope of collective bargaining. The **Employer** will give the **Union** prior notice of the establishment and/or revision of performance standards or norms hereunder.

(b) **Employees** who work at less than acceptable levels of performance may be subject to disciplinary measures in accordance with applicable law.

Section 2. – Supervisory Responsibility

(a) The **Union** recognizes the **Employer's** right under the **New York City Collective Bargaining Law** to establish and/or revise standards for supervisory responsibility in achieving and maintaining performance levels of supervised **employees** for **employees** in supervisory positions listed in Article I, Section 1, of this **Agreement**. Notwithstanding the above, questions concerning the practical impact that decisions on the above matters have on **employees** are within the scope of collective bargaining. The **Employer** will give the **Union** prior notice of the establishment and/or revision of standards for supervisory responsibility hereunder.

(b) **Employees** who fail to meet such standards may be subject to disciplinary measures in accordance with applicable law.

Section 3. – Performance Compensation

The Union acknowledges the Employer's right to pay additional compensation for outstanding performance.

The Employer agrees to notify the Union of its intent to pay such additional compensation.

Employees may at any time informally discuss with their supervisors a matter, which may become a grievance. If the results of such a discussion are unsatisfactory, the **employees** may present the grievance at **Step I**.

All grievances must be presented in writing at all steps in the grievance procedure. For all grievances as defined in Section 1(c), no monetary award shall in any event cover any period prior to the date of the filing of the **Step I** grievance unless such grievance has been filed within thirty (30) days of the assignment to alleged out-of-title work. No monetary award for a grievance alleging a miscalculation of salary rate resulting in a payroll error of a continuing nature shall be issued unless such grievance has been filed within the time limitation set forth in **Step I** below for such grievances; if the grievance is so filed, any monetary award shall in any event cover only the period up to six years prior to the date of the filing of the grievance.

Step I - The **employee** and/or the **Union** shall present the grievance in the form of a memorandum to the person designated for such purpose by the agency head no later than 120 days after the date on which the grievance arose except that grievances alleging a miscalculation of salary rate resulting in a payroll error of a continuing nature shall be presented no later than 120 days after the first date on which the grievant discovered the payroll error. The **employee** may also request an appointment to discuss the grievance and such request shall be granted. The person designated by the **Employer** to hear the grievance shall take any steps necessary to a proper disposition of the grievance and shall issue a determination in writing by the end of the third work day following the date of submission.

NOTE: *The following **STEP I(a)** shall be applicable only in the Health and Hospitals Corporation in the case of grievances arising under Section 1(a) through 1c and 1f of this Article and shall be applied prior to **Step II** of this Section:*

The person designated to receive the appeal at this Step shall meet with the **employee** and/or the **Union** for review of the grievance and shall issue a determination to the **employee** and/or the **Union** by the end of the fifth work day following the day on which the appeal was filed.

The appeal must be made within five (5) work days of the receipt of the **STEP I** or **STEP I(a)** determination. The agency head or designated representative, if any, shall meet with the **employee** and/or the **Union** for review of the grievance and shall issue a determination in writing by the end of the tenth work day following the date on which the appeal was filed.

The grievant or the **Union** should submit copies of the **STEP I** and **STEP II** grievance filings and any agency responses thereto. Copies of such appeal shall be sent to the agency head. The **Commissioner of Labor Relations** or the **Commissioner's** designee shall review all appeals from **STEP II** determinations and shall issue a determination on such appeals within fifteen (15) work days following the date on which the appeal was filed.

STEP IV An appeal from an unsatisfactory determination at **STEP III** may be brought solely by the **Union** to the Office of Collective Bargaining for impartial arbitration within fifteen (15) work days of receipt of the **STEP III** determination. In addition, the **Employer** shall have the right to bring directly to arbitration any dispute between the parties concerning any matter defined herein as a "grievance". The **Employer** shall commence such arbitration by submitting a written request therefor to the Office of Collective Bargaining. A copy of the notice requesting impartial arbitration shall be forwarded to the opposing party. The arbitration shall be conducted in accordance with the Consolidated Rules of the Office of Collective Bargaining. The costs and fees of such arbitration shall be borne equally by the **Union** and the **Employer**.

The arbitrator's decision, order or award (if any) shall be limited to the application and interpretation of the **Agreement** or of the Comptroller's Determination, and the arbitrator shall not add to, subtract from or modify the **Agreement** or the Comptroller's Determination. The arbitrator's award shall be final and binding and enforceable in any appropriate tribunal in accordance with **Article 75 of the Civil Practice Law and Rules**. The arbitrator may provide for and direct such relief as the arbitrator deems necessary and proper, subject to the limitations set forth above and any applicable limitations of law.

Section 3.

As a condition to the right of the **Union** to invoke impartial arbitration set forth in this Article, including the arbitration of a grievance involving a claimed improper holding of an open-competitive rather than a promotional examination, the **employee** or **employees** and the **Union** shall be required to file with the Director of the Office of Collective Bargaining a written waiver of the right, if any, of the **employee** and the **Union** to submit the underlying dispute to any other administrative or judicial tribunal except for the purpose of enforcing the arbitrator's award.

Section 4.

In any case involving a grievance under Section 1(e) of this Article, the following procedure shall govern upon service of written charges of incompetence or misconduct:

STEP A Following the service of written charges, a conference with such **employee** shall be held with respect to such charges by the person designated by the agency head to review a grievance at **STEP I** of the Grievance Procedure set forth in this **Agreement**. The **employee** may be represented at such conference by a representative of the **Union**. The person designated by the agency head to review the charges shall take any steps necessary to a proper disposition of the charges and shall issue a determination in writing by the end of the fifth day following the date of the conference.

If the **employee** is satisfied with the determination in **STEP A** above, the **employee** may choose to accept such determination as an alternative to and in lieu of a determination made pursuant to the procedures provided for in **Section 75 of the Civil Service Law** or the **Rules and Regulations of the Health and Hospitals Corporation**. As a condition of accepting such determination, the **employee** shall sign a waiver of the **employee's** right to the procedures available to him or her under **Sections 75 and 76 of the Civil Service Law** or the **Rules and Regulations of the Health and Hospitals Corporation**.

STEP B(i) If the **employee** is not satisfied with the

determination at STEP A above then the **Employer** shall proceed in accordance with the disciplinary procedures set forth in **Section 75 of the Civil Service Law** or the **Rules and Regulations of the Health and Hospitals Corporation**. As an alternative, the **Union** with the consent of the **employee** may choose to proceed in accordance with the Grievance Procedure set forth in this **Agreement**, including the right to proceed to binding arbitration pursuant to **STEP IV** of such Grievance Procedure. As a condition for submitting the matter to the Grievance Procedure the **employee** and the **Union** shall file a written waiver of the right to utilize the procedures available to the **employee** pursuant to **Sections 75 and 76 of the Civil Service Law** or the **Rules and Regulations of the Health and Hospitals Corporation** or any other administrative or judicial tribunal, except for the purpose of enforcing an arbitrator's award, if any. Notwithstanding such waiver, the period of an **employee's** suspension without pay pending hearing and determination of charges shall not exceed thirty (30) days.

STEP B(ii) If the election is made to proceed pursuant to the Grievance Procedure, an appeal from the determination of **STEP A** above, shall be made to the agency head or designated representative. The appeal must be made in writing within five (5) work days of the receipt of the determination. The agency head or designated representative shall meet with the **employee** and the **Union** for review of the grievance and shall issue a determination to the **employee** and the **Union** by the end of the tenth work day following the day on which the appeal was filed. The agency head or designated representative shall have the power to impose the discipline, if any, decided upon, up to and including termination of the accused **employee's** employment. In the event of such termination or suspension without pay totaling more than thirty (30) days, the **Union** with the consent of the grievant may elect to skip **STEP C** of this Section and proceed directly to **STEP D**.

STEP C If the grievant is not satisfied with the determination of the agency head or designated representative the grievant or the **Union** may appeal to the **Commissioner of Labor Relations** in writing within ten (10) days of the determination of the agency head or designated representative. The **Commissioner of Labor Relations** shall issue a written reply to the grievant and the **Union** within fifteen (15) work days.

STEP D If the grievant is not satisfied with the determination of the **Commissioner of Labor Relations**,the **Union** with the consent of the grievant may proceed to arbitration pursuant to the procedures set forth in **STEP IV** of the Grievance Procedure set forth in this **Agreement**.

Section 5.

A grievance concerning a large number of **employees** and which concerns a claimed misinterpretation, inequitable application, violation or failure to comply with the provisions of this **Agreement** may be filed directly at **STEP III** of the grievance procedure except that a grievance concerning **employees** of the Health and Hospitals Corporation may be filed directly at **STEP II** of the grievance procedure. Such "group" grievance must be filed no later than 120 days after the date on which the grievance arose, and all other procedural limits, including time limits, set forth in this Article shall apply. All other individual grievances in process concerning the same issue shall be consolidated with the "*group* " grievance.

Section 6.

If a determination satisfactory to the **Union** at any level of the Grievance Procedure is not implemented within a reasonable time, the **Union** may re-institute the original grievance at **STEP III** of the Grievance Procedure; or if a satisfactory **STEP III** determination has not been so implemented, the **Union** may institute a grievance concerning such failure to implement at **STEP IV** of the Grievance Procedure.

Section 7.

If the **Employer** exceeds any time limit prescribed at any step in the Grievance Procedure, the grievant and/or the **Union** may invoke the next step of the procedure, except that only the **Union** may invoke impartial arbitration under **STEP IV**.

Section 8.

The **Employer** shall notify the **Union** in writing of all grievances filed by **employees**, all grievance hearings, and all determinations. The **Union** shall have the right to have a representative present at any grievance hearing and shall be given forty-eight (48) hours' notice of all grievance hearings.

Section 9.

Each of the steps in the Grievance Procedure, as well as time limits prescribed at each step of this Grievance Procedure, may be waived by mutual agreement of the parties.

Section 10.

(a) Any grievance relating to a claimed improper holding of an opencompetitive rather than a promotional examination shall be presented in writing by the employee or the Union representative to the **Commissioner of Labor Relations** not later than thirty (30) days after the notice of the intention to conduct such open competitive examination, or copy of the appointing officer's request for such open-competitive examination, as the case may be, has been posted in accordance with Section 51 of the Civil Service Law. The grievance shall be considered and passed upon within ten (10) days after its presentation. The determination shall be in writing, copies of which shall be transmitted to both parties to the grievance upon issuance.

(b) A grievance relating to the use of an open - competitive rather than a promotional examination which is unresolved by the **Commissioner of Labor Relations** may be brought to impartial arbitration as provided in Sections 2 and 3 above. Such a grievance shall be presented by the Union, in writing for arbitration within 15 days of the presentation of such grievance to the **Commissioner of Labor Relations**, and the arbitrator shall decide such grievance within 75 days of its presentation to the arbitrator. The party requesting such arbitration shall send a copy of such request to the other party. The costs and fees of such arbitration shall be borne equally by the Employer and the Union.

Section 11.

A non-Mayoral agency not covered by this **Agreement** but which employs **employees** in titles identical to those covered by this **Agreement** may elect to permit the **Union** to appeal an unsatisfactory determination received at the last step of its Grievance Procedure prior to arbitration on fiscal matters only to the **Commissioner of Labor Relations**. If such election is made, the **Union** shall present its appeal to the **Commissioner of Labor Relations** in writing within ten (10) work days of the receipt of the last step determination. The **Union** should submit copies of the grievance filings at the prior steps of its Grievance Procedure and any agency responses thereto. Copies of such appeals shall be sent to the agency head. The **Commissioner of Labor Relations**, or the **Commissioner's** designee, shall review all such appeals and answer all such appeals within fifteen (15) work days. An appeal from a determination of the **Commissioner of Labor Relations** may be taken to arbitration under procedures, if any, applicable to the non-Mayoral agency involved.

Section 12.

The grievance and the arbitration procedure contained in this **Agreement** shall be the exclusive remedy for the resolution of disputes defined as "grievances" herein. This shall not be interpreted to preclude either party from enforcing the arbitrator's award in court. This Section shall not be construed in any manner to limit the statutory rights and obligations of the **Employer** under **Article XIV** of the **Civil Service Law**.

Section 13.

In any case involving a grievance under Section 1(g) of this Article, the following procedure shall govern upon service of written charges of incompetence or misconduct:

STEP A Following the service of written charges, a conference with such **employee** shall be held with respect to such charges by the person designated by the agency head to review a grievance at **STEP I** of the Grievance Procedure set forth in this **Agreement**. The **employee** may be represented at such conference by a representative of the **Union**. The person designated by the agency head to review the charges shall take any steps necessary to a proper disposition of the charges and shall issue a determination in writing by the end of the fifth day following the date of the conference.

STEP B(i) If the **employee** is not satisfied with the determination at **STEP A** above, then the **employee** may choose to proceed in accordance with the Grievance Procedure set forth in this **Agreement** through **STEP III**. The **Union**, with the consent of the **employee**, shall have the right to proceed to binding arbitration pursuant to **STEP IV** of such Grievance Procedure. The period of an **employee's** suspension without pay pending hearing and determination of charges shall not exceed thirty (30) days.

STEP B(ii) An appeal from the determination of **STEP A** above shall be made to the agency head or designated representative. The appeal must be made in writing within five (5) work days of the receipt of the determination. The agency head or designated representative shall meet with the **employee** and the **Union** for review of the grievance and shall issue a determination to the **employee** and the **Union** by the end of the tenth work day following the day on which the appeal was filed. The agency head or designated representative shall have the power to impose the discipline, if any, decided upon, up to and including termination of the accused **employee's** employment. In the event of such termination or suspension without pay totalling more than thirty (30) days, the **Union** with the consent of the grievant may elect to skip **STEP C** of this Section and proceed directly to **STEP D**.

STEP C If the grievant is not satisfied with the determination of the agency head or designated representative the grievant or the **Union** may appeal to the **Commissioner of Labor Relations** in writing within ten (10) days of the determination of the agency head or designated representative. The **Commissioner of Labor Relations** shall issue a written reply to the grievant and the **Union** within fifteen (15) work days.

STEP D If the grievant is not satisfied with the determination of the **Commissioner of Labor Relations**, the **Union** with the consent of the grievant may proceed to arbitration pursuant to the procedures set forth in **STEP IV** of the Grievance Procedure set forth in this **Agreement**.

b. The parties voluntarily agree to submit matters to final and binding arbitration pursuant to the New York City Collective Bargaining Law and under the jurisdiction of the Office of Collective Bargaining. An arbitrator or panel of arbitrators, as agreed to by the parties, will act as the arbitrator of any issue submitted under the expedited procedure herein.

c. The selection of those matters which will be submitted shall include, but not be limited to, out-of-title cases concerning all titles, disciplinary cases wherein the proposed penalty is a monetary fine of one week or less or written reprimand, and other cases pursuant to mutual agreement by the parties. (3) If a case is not proposed by the Deputy Chairperson for expedited handling, either party may, at any time prior to the scheduling of an arbitration hearing date for such case, request in writing to the other party and to the Deputy Chairperson of Disputes of the Office of Collective Bargaining that said case be submitted to the expedited procedure. The party receiving such request shall have ten business days from the receipt of the request to raise any objections thereto.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

74-721
Height and setback and yard regulations

(a) In C4-7, C5-2, C5-3, C5-4, C6-1A, C6-4, C6-5, C6-6, C6-7 or M1-6 Districts, the City Planning Commission may permit modification of the height and setback regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block#.

In C5-3, C6-6 and C6-7 Districts, on such #zoning lots#, the Commission also may modify #yard# and court regulations, and regulations governing the minimum required distance between #buildings# and/or the minimum required distance between #legally required windows# and walls or #lot lines#, provided that the Commission finds that such modifications:

(1) provide a better distribution of #bulk# on the #zoning lot#;

(2) result in a better relationship of the #building# to open areas, adjacent #streets# and surrounding #development#; and

(3) provide adequate light and air for #buildings# on the #zoning lot# and neither impair access to light and air to #legally required windows# in adjacent #buildings# nor adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties;

As a condition of this special permit, if any open area extending along a #side lot line# is provided at any level, such open area shall be at least eight feet in width;

(b) In a C6-4 District, the Commission may modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses), f~~F~~or #developments# or #enlargements# on #zoning lots# occupying an entire #block# ~~and located in a C6-4 District~~ with a basic commercial #floor area ratio# of 10.0, ~~the Commission may also modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses),~~ provided the following ~~findings are made~~ conditions are met:

(1) ~~that~~ the non-#residential uses# are located in a portion of a #mixed building# ~~which~~ which has separate access to the #street# with no openings of any kind to the #residential# portion of the #building# at any #story#; and

(2) ~~that~~ the non-#residential uses# are not located above the lowest #story# containing #dwelling units# unless the #residential# and non-#residential# portions are separated in accordance with the provisions of Section 23-82 (Building Walls Regulated by Minimum Spacing Requirements).

(c) In C5-3, C6-6 and C6-7 Districts, the Commission may modify height and setback and #yard# regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, ~~provided the #zoning lot#~~ that occupies an entire #block# front on a #wide street#, subject to the following conditions:~~-~~

~~As a condition for the special permit, the Commission shall make the following findings:~~

~~(1) that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties; and~~

(~~2~~1) ~~that~~ where #buildings# or portions thereof penetrate the established #sky exposure plane#, the aggregate area occupied by such #buildings# or portions thereof at such elevation shall not exceed:

(i) 55 percent of the area of such #zoning lot#; or

(ii) an equivalent of 55 percent of the aggregate area of such #zoning lot# and any adjoining #zoning lots# with a common #lot line# for at least 90 feet with negative easements limiting height of existing and future #developments# on the adjoining #zoning lots# by recorded deed or other written instruments; ~~and~~

(~~3~~2) ~~that~~ the #development# or #enlargement# includes on-site amenities, such as #arcades#, #through block arcades# or #covered pedestrian spaces# where the size and dimensions of such spaces are substantially greater than the required minimum standards, and include~~s~~ sky lights or other provisions for additional access of direct natural light so as to provide for an increased penetration of light and air therein at the #street# level of the #development#, or a transit station improvement that results in a direct major connection to a subway station.

(3) In lieu of ~~this finding,~~ condition (c)(~~3~~2), the ~~Commission finds that the~~ #development# or #enlargement# may provide~~s~~, in the same or an adjoining #block# of such #development# or #enlargement#, compensatory "off-site public open space." For the purposes of this ~~Section~~ paragraph, (c3), the term "adjoining block" shall mean a #block# that is contiguous to the development #block# but for its separation by a #street# or #street# intersection. The area of such off-site public open space shall be at least 4,000 square feet, or 15 percent of the #lot area# of a #zoning lot# containing the #development#, whichever is more, and a width of at least 40 feet at any point.

Such public open areas shall have a southern exposure, and adjoin a public sidewalk and be #developed# pursuant to the provisions of Section 37-04 (Requirements for Urban Plazas). A plan for the development and maintenance of such off-site public space shall be approved by the Commission. The off-site public area shall be kept open to the general public in accordance with a time schedule specified by the Commission. In no event shall such off-site public open space be eligible for #floor area# or bonus computation in connection with this or any other #development# or #enlargement#.

For such #developments#, the Commission may also modify the applicable regulations of Sections 32-51 (Limitations on Business Entrances, Show Windows or Signs) and 36-683 (Restrictions on location of berths near Residence Districts) where adjoining frontage within a distance of 75 feet on the same side of the #street# is occupied by a #community facility# or ground floor #commercial use#, provided that such modification is part of an overall design for #show windows#, signage and entrances or off-street loading berths developed in conjunction with a public amenity such as an #urban plaza#, #through block arcade# or #covered pedestrian space#, and will not alter the essential character of the immediate neighborhood.

In the case of existing #residential buildings# to remain temporarily on such #zoning lot#, the provisions of Sections 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) and 23-80 (COURT REGULATIONS AND MINIMUM DISTANCE BETWEEN WINDOWS AND WALLS OR LOT LINES) may be modified provided that each and every one of the following conditions are met:

(i) that such existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;

(ii) that the portions of the #zoning lot# where such existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan;

(iii) that no temporary or final certificate of occupancy

shall be issued for that portion of #floor area# in the new #development# equal to twice the #floor area# in the temporary existing #buildings# until such #buildings# are vacated, demolished and their sites are redeveloped in accordance with the approved project plan, except that where the ~~City Planning~~ Commission shall have determined that the applicant for a special permit has made an offer to purchase the leasehold interests from the lessees at a fair market value of the remainder of the lease term, the Commission may decrease the amount of #floor area# for which no certificate of occupancy may be issued; and

(iv) that the #development# conform with all the applicable laws relating to construction, operation and maintenance.

The owner of the #zoning lot# shall have prominently displayed thereon a sign stating the date by which the #buildings# are to be demolished.

(~~d~~4) As a further condition for the issuance of a permit under this ~~Section~~, paragraph, (c), the owner of the #zoning lot# upon which new #developments# are to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel as to form, sufficient in amount as determined by the ~~City Planning~~ Commission to cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time set forth in the approved project plan, and insure that all #floor area# which is to be vacant in the new #development# shall remain unfinished and vacant.

The bonds or other securities shall be payable to the City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this paragraph, (~~d~~c) ~~of this Section~~, that the #development#:

(1) shall result in improved circulation; and

(2) would eliminate the undesirable pre-emption of ground level space by private #buildings or other structures#.

In making ~~this~~ these findings, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this ~~Section~~ paragraph, (c), shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.
In addition to the conditions in paragraphs (c)(1), (c)(2), (c)(3) and (c)(4) of this Section, the Commission shall find that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties;

(~~e~~d) Notwithstanding any other provisions of the Zoning Resolution, where a #development# shares an aggregate #lot line# with a landmark building site for a distance of at least 90 feet, or contains a historically significant #street# that has been demapped and an archeologically significant site, both of which have been identified by the Landmark Preservation Commission, the Commission may permit modification of the height and setback and #yard# regulations regardless of the lot size, provided that the following findings are made:

(1) there is a harmonious architectural relationship between the landmark and the new structure, and such relationship is approved by the Landmarks Preservation Commission or, in the case of a #development# which contains a historically significant #street# that has been demapped and an archeologically significant site, there is a visual recognition of the location of the demapped #street# and of the archeologically significant site created by a design treatment that has been approved by both the Landmarks Preservation Commission and the City Planning Commission and, if such #development# is located within 200 feet of a historic district, there is a harmonious relationship between the proposed #development# and the historic district; and

(2) pedestrian amenities are contained in the new structure including, where appropriate, retail stores and substantial pedestrian space at the principal levels of circulation, such as wider sidewalks, #arcades#, #covered pedestrian space#, subsurface concourses and convenient subway connections.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

§31-103 Buildings Penalty Schedule

BUILDINGS PENALTY SCHEDULE

Citations preceded by "ZR" refer to the NYC Zoning Resolution. All other citations, except where otherwise indicated, are to the NYC Administrative Code; also, citations preceded by "AC" are to the NYC Administrative Code.

A stipulation (stip.) is available at a hearing (at the first offense penalty) only if so indicated in this Penalty Schedule. A stip. provides a 75 day extension of time to comply with the Buildings Commissioner's Order to Correct, with the 75 days counted from the first scheduled hearing date. If the violation has been marked hazardous by the issuing Officer on the Notice of Violation or the NOV is amended to indicate a hazardous violation, a stipulation will not be offered.

A second or subsequent offense is a violation by the same respondent of the same provision of law, rule or regulation as the previous violation and, if the respondent is the owner, agent, lessee, or other person in control of the premises with respect to which the violation occurred, at the same premises as the previous violation (all violations committed within an 18 month period).

If the violation has been corrected by the first scheduled hearing date, a mitigated (MIT.) penalty will be imposed for violations that are eligible for mitigation as indicated in this Penalty Schedule, unless the violation has been marked hazardous by the issuing Officer on the Notice of Violation or the NOV is amended to indicate a hazardous violation.

Statement of Basis and Purpose of Proposed Rule

The New York City Charter and Administrative Code and other applicable provisions of law provide a range of possible penalties for the offenses adjudicated by the Environmental Control Board. The Board has determined, however, that the penalties it imposes should be uniform for comparably situated respondents. To achieve this purpose, the Board has developed a penalty schedule for its Hearing Officers ("administrative law judges") of its Tribunal. The Board has further concluded that this penalty schedule should be promulgated as a rule in accordance with the provisions of Charter Chapter 45, the City Administrative Procedure Act.

(3) The mayor of the city of New York shall ensure that an annual report is prepared utilizing the records received from each city agency pursuant to paragraph (2) of subdivision c of this section. Such report shall be transmitted to the mayor, the comptroller, the public advocate and the speaker of the council of the city of New York by the first day of May, covering the previous calendar year. Such report shall include, but not be limited to:

(i) an analysis, with respect to each agency included in the report, of expenses paid as a result of workers' compensation claims, including, but not limited to, expenses relating to wage replacement, medical costs, administrative costs and any penalties paid by an agency;

(ii) a list of the occurrence of specific claims for each agency and for the city as a whole;

(iii) a list of the specific sites where injuries occurred for each agency and for the city as a whole;

(iv) year-to-year comparisons of information compiled pursuant to this paragraph.

LANDMARKS PRESERVATION COMMISSION

■ NOTICE

BINDING REPORT

ISSUE DATE: 09/24/04	DOCKET #: 043194	SRB #: SRB 05-2338
ADDRESS: 1000 FIFTH AVENUE Metropolitan Museum of Art INDIVIDUAL LANDMARK	BOROUGH: MANHATTAN	BLOCK/LOT: 1111 / 1

To the Mayor, the Council, and the Commissioner of the Department of Cultural Affairs.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for work at the roof of the Metropolitan Museum of Art, an individual and interior landmark. The work concerns installing ten (10) telecommunications panel antennas, pole-mounted at, finished to match, and not exceeding the height of the existing perimeter railings and planters, at the southwest portion of the roof; and constructing a limestone colored equipment shelter on steel dunnage; installing associated cable trays on the roof floor; as shown in drawings labeled "Metropolitan Museum IB02418A," dated received July 8, 2004, and Drawing A14, dated received August 13, 2004, prepared by Robert Toms, PE, letters, dated July 8, 2004, and August 8, 2004, prepared by Rick Jones, Jr., of MTM, proposed condition photo montages, all submitted as components of the application.

In reviewing this proposal, the Commission notes that the designation report states that the building is a Beaux-Arts style museum built in 1864-1990 and designed by Vaux and Mould, R.M. Hunt, McKim Mead and White, and others. The Commission also noted that the building is within the Central Park Scenic Landmark.

With regard to this proposal, the Commission finds that the proposed installations will have no adverse effect on protected features of the building; that the proposed work will not affect any significant roof features or profiles; that, although the proposed antennas will be visible from Central Park, their painted finish, mounting height and flush-mounted attachment will minimize their visual obtrusiveness; and that, although the equipment shelter will be visible from Central Park, the neutral finish, set back location, and simple massing will help this element to be a discreet presence at the building's roof. Based on these findings, the proposed work is determined to be appropriate to the Metropolitan Museum of Art Individual and Interior Landmark.

The issuance of this permit is contingent upon the condition that the painted finish of the antennas, mounts and coaxial cable be maintained. The Commission reserves the right to revoke this permit, upon written notice to the applicant, if the painted finish of the antennas or cable is allowed to deteriorate to the point where the antennas and cable no longer blend in with the surrounding facade. The permit is also contingent on the review and approval of finish samples for the cladding of the equipment shelter.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Meisha Hunter.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR.*

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

74-721
Height and setback and yard regulations

(a) In C4-7, C5-2, C5-3, C5-4, C6-1A, C6-4, C6-5, C6-6, C6-7 or M1-6 Districts, the City Planning Commission may permit modification of the height and setback regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block#.

In C5-3, C6-6 and C6-7 Districts, on such #zoning lots#, the Commission also may modify #yard# and court regulations, and regulations governing the minimum required distance between #buildings# and/or the minimum required distance between #legally required windows# and walls or #lot lines#, provided that the Commission finds that such modifications:

(1) provide a better distribution of #bulk# on the #zoning lot#;

(2) result in a better relationship of the #building# to open areas, adjacent #streets# and surrounding #development#; and

(3) provide adequate light and air for #buildings# on the #zoning lot# and neither impair access to light and air to #legally required windows# in adjacent #buildings# nor adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties;

As a condition of this special permit, if any open area extending along a #side lot line# is provided at any level, such open area shall be at least eight feet in width;

(b) In a C6-4 District, the Commission may modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses), ~~if~~ or #developments# or #enlargements# on #zoning lots# occupying an entire #block# ~~and located in a C6-4 District~~ with a basic commercial #floor area ratio# of 10.0, ~~the Commission may also modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses),~~ provided the following ~~findings are made~~ conditions are met:

(1) ~~that~~ the non-#residential uses# are located in a portion of a #mixed building# ~~which~~ which has separate access to the #street# with no openings of any kind to the #residential# portion of the #building# at any #story#; and

(2) ~~that~~ the non-#residential uses# are not located above the lowest #story# containing #dwelling units# unless the #residential# and non-#residential# portions are separated in accordance with the provisions of Section 23-82 (Building Walls Regulated by Minimum Spacing Requirements).

(c) In C5-3, C6-6 and C6-7 Districts, the Commission may modify height and setback and #yard# regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, ~~provided the #zoning lot#~~ that occupies an entire #block# front on a #wide street#, subject to the following conditions:~~-~~

~~As a condition for the special permit, the Commission shall make the following findings:~~

~~(1) that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties; and~~

(~~1~~2) ~~that~~ where #buildings# or portions thereof penetrate the established #sky exposure plane#, the aggregate area occupied by such #buildings# or portions thereof at such elevation shall not exceed:

(i) 55 percent of the area of such #zoning lot#; or

(ii) an equivalent of 55 percent of the aggregate area of such #zoning lot# and any adjoining #zoning lots# with a common #lot line# for at least 90 feet with negative easements limiting height of existing and future #developments# on the adjoining #zoning lots# by recorded deed or other written instruments; ~~and~~

(~~2~~3) ~~that~~ the #development# or #enlargement# includes on-site amenities, such as #arcades#, #through block arcades# or #covered pedestrian spaces# where the size and dimensions of such spaces are substantially greater than the required minimum standards, and includes~~-~~ sky lights or other provisions for additional access of direct natural light so as to provide for an increased penetration of light and air therein at the #street# level of the #development#, or a transit station improvement that results in a direct major connection to a subway station.

(3) In lieu of ~~this finding,~~ condition (c)(~~2~~3), the ~~Commission finds that the~~ #development# or #enlargement# may provide~~s~~-, in the same or an adjoining #block# of such #development# or #enlargement#, compensatory "off-site public open space." For the purposes of this ~~Section~~ paragraph, (c3), the term "adjoining block" shall mean a #block# that is contiguous to the development #block# but for its separation by a #street# or #street# intersection. The area of such off-site public open space shall be at least 4,000 square feet, or 15 percent of the #lot area# of a #zoning lot# containing the #development#, whichever is more, and a width of at least 40 feet at any point.

Such public open areas shall have a southern exposure, and adjoin a public sidewalk and be #developed# pursuant to the provisions of Section 37-04 (Requirements for Urban Plazas). A plan for the development and maintenance of such off-site public space shall be approved by the Commission. The off-site public area shall be kept open to the general public in accordance with a time schedule specified by the Commission. In no event shall such off-site public open space be eligible for #floor area# or bonus computation in connection with this or any other #development# or #enlargement#.

For such #developments#, the Commission may also modify the applicable regulations of Sections 32-51 (Limitations on Business Entrances, Show Windows or Signs) and 36-683 (Restrictions on location of berths near Residence Districts) where adjoining frontage within a distance of 75 feet on the same side of the #street# is occupied by a #community facility# or ground floor #commercial use#, provided that such modification is part of an overall design for #show windows#, signage and entrances or off-street loading berths developed in conjunction with a public amenity such as an #urban plaza#, #through block arcade# or #covered pedestrian space#, and will not alter the essential character of the immediate neighborhood.

In the case of existing #residential buildings# to remain temporarily on such #zoning lot#, the provisions of Sections 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) and 23-80 (COURT REGULATIONS AND MINIMUM DISTANCE BETWEEN WINDOWS AND WALLS OR LOT LINES) may be modified provided that each and every one of the following conditions are met:

(i) that such existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;

(ii) that the portions of the #zoning lot# where such existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan;

(iii) that no temporary or final certificate of occupancy shall be issued for that portion of #floor area# in the new #development# equal to twice the #floor area# in the temporary existing #buildings# until such #buildings# are vacated, demolished and their sites are redeveloped in accordance with the approved project plan, except that where the ~~City Planning~~ Commission shall have determined that the applicant for a special permit has made an offer to purchase the leasehold interests from the lessees at a fair market value of the remainder of the lease term, the Commission may decrease the amount of #floor area# for which no certificate of occupancy may be issued; and

(iv) that the #development# conform with all the applicable laws relating to construction, operation and maintenance.

The owner of the #zoning lot# shall have prominently displayed thereon a sign stating the date by which the #buildings# are to be demolished.

(~~d~~4) As a further condition for the issuance of a permit under this ~~Section~~, paragraph, (c), the owner of the #zoning lot# upon which new #developments# are to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel as to form, sufficient in amount as determined by the ~~City Planning~~ Commission to cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time set forth in the approved project plan, and insure that all #floor area# which is to be vacant in the new #development# shall remain unfinished and vacant.

The bonds or other securities shall be payable to the City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this paragraph, (~~d~~c) ~~of this Section~~, that the #development#:

(1) shall result in improved circulation; and

(2) would eliminate the undesirable pre-emption of ground level space by private #buildings or other structures#.

In making ~~this~~ these findings, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this ~~Section~~ paragraph, (c), shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.
In addition to the conditions in paragraphs (c)(1), (c)(2), (c)(3) and (c)(4) of this Section, the Commission shall find that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties;

(~~d~~e) Notwithstanding any other provisions of the Zoning Resolution, where a #development# shares an aggregate #lot line# with a landmark building site for a distance of at least 90 feet, or contains a historically significant #street# that has been demapped and an archeologically significant site, both of which have been identified by the Landmark Preservation Commission, the Commission may permit modification of the height and setback and #yard# regulations regardless of the lot size, provided that the following findings are made:

(1) there is a harmonious architectural relationship between the landmark and the new structure, and such relationship is approved by the Landmarks Preservation Commission or, in the case of a #development# which contains a historically significant #street# that has been demapped and an archeologically significant site, there is a visual recognition of the location of the demapped #street# and of the archeologically significant site created by a design treatment that has been approved by both the Landmarks Preservation Commission and the City Planning Commission and, if such #development# is located within 200 feet of a historic district, there is a harmonious relationship between the proposed #development# and the historic district; and

(2) pedestrian amenities are contained in the new structure including, where appropriate, retail stores and substantial pedestrian space at the principal levels of circulation, such as wider sidewalks, #arcades#, #covered pedestrian space#, subsurface concourses and convenient subway connections.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

74-721
Height and setback and yard regulations

(a) In C4-7, C5-2, C5-3, C5-4, C6-1A, C6-4, C6-5, C6-6, C6-7 or M1-6 Districts, the City Planning Commission may permit modification of the height and setback regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block#.

In C5-3, C6-6 and C6-7 Districts, on such #zoning lots#, the Commission also may modify #yard# and court regulations, and regulations governing the minimum required distance between #buildings# and/or the minimum required distance between #legally required windows# and walls or #lot lines#, provided that the Commission finds that such modifications:

(1) provide a better distribution of #bulk# on the #zoning lot#;

(2) result in a better relationship of the #building# to open areas, adjacent #streets# and surrounding #development#; and

(3) provide adequate light and air for #buildings# on the #zoning lot# and neither impair access to light and air to #legally required windows# in adjacent #buildings# nor adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties;

As a condition of this special permit, if any open area extending along a #side lot line# is provided at any level, such open area shall be at least eight feet in width;

(b) In a C6-4 District, the Commission may modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses), for #developments# or #enlargements# on #zoning lots# occupying an entire #block# ~~and located in a C6-4 District~~ with a basic commercial #floor area ratio# of 10.0, ~~the Commission may also modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses),~~ provided the following ~~findings are made~~ conditions are met:

(1) ~~that~~ the non-#residential uses# are located in a portion of a #mixed building# ~~which~~ which has separate access to the #street# with no openings of any kind to the #residential# portion of the #building# at any #story#; and

(2) ~~that~~ the non-#residential uses# are not located above the lowest #story# containing #dwelling units# unless the #residential# and non-#residential# portions are separated in accordance with the provisions of Section 23-82 (Building Walls Regulated by Minimum Spacing Requirements).

(c) In C5-3, C6-6 and C6-7 Districts, the Commission may modify height and setback and #yard# regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, ~~provided the #zoning lot#~~ that occupies an entire #block# front on a #wide street#, subject to the following conditions:~~-~~

~~As a condition for the special permit, the Commission shall make the following findings:~~

~~(1) that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties; and~~

(~~2~~1) ~~that~~ where #buildings# or portions thereof penetrate the established #sky exposure plane#, the aggregate area occupied by such #buildings# or portions thereof at such elevation shall not exceed:

(i) 55 percent of the area of such #zoning lot#; or

(ii) an equivalent of 55 percent of the aggregate area of such #zoning lot# and any adjoining #zoning lots# with a common #lot line# for at least 90 feet with negative easements limiting height of existing and future #developments# on the adjoining #zoning lots# by recorded deed or other written instruments; ~~and~~

(~~3~~2) ~~that~~ the #development# or #enlargement# includes on-site amenities, such as #arcades#, #through block arcades# or #covered pedestrian spaces# where the size and dimensions of such spaces are substantially greater than the required minimum standards, and includes~~-~~ sky lights or other provisions for additional access of direct natural light so as to provide for an increased penetration of light and air therein at the #street# level of the #development#, or a transit station improvement that results in a direct major connection to a subway station.

(3) In lieu of ~~this finding,~~ condition (c)(~~3~~2), the ~~Commission finds that the~~ #development# or #enlargement# may provides~~-~~, in the same or an adjoining #block# of such #development# or #enlargement#, compensatory "off-site public open space." For the purposes of this ~~Section~~ paragraph, (c3), the term "adjoining block" shall mean a #block# that is contiguous to the development #block# but for its separation by a #street# or #street# intersection. The area of such off-site public open space shall be at least 4,000 square feet, or 15 percent of the #lot area# of a #zoning lot# containing the #development#, whichever is more, and a width of at least 40 feet at any point.

Such public open areas shall have a southern exposure, and adjoin a public sidewalk and be #developed# pursuant to the provisions of Section 37-04 (Requirements for Urban Plazas). A plan for the development and maintenance of such off-site public space shall be approved by the Commission. The off-site public area shall be kept open to the general public in accordance with a time schedule specified by the Commission. In no event shall such off-site public open space be eligible for #floor area# or bonus computation in connection with this or any other #development# or #enlargement#.

For such #developments#, the Commission may also modify the applicable regulations of Sections 32-51 (Limitations on Business Entrances, Show Windows or Signs) and 36-683 (Restrictions on location of berths near Residence Districts) where adjoining frontage within a distance of 75 feet on the same side of the #street# is occupied by a #community facility# or ground floor #commercial use#, provided that such modification is part of an overall design for #show windows#, signage and entrances or off-street loading berths developed in conjunction with a public amenity such as an #urban plaza#, #through block arcade# or #covered pedestrian space#, and will not alter the essential character of the immediate neighborhood.

In the case of existing #residential buildings# to remain temporarily on such #zoning lot#, the provisions of Sections 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) and 23-80 (COURT REGULATIONS AND MINIMUM DISTANCE BETWEEN WINDOWS AND WALLS OR LOT LINES) may be modified provided that each and every one of the following conditions are met:

(i) that such existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;

(ii) that the portions of the #zoning lot# where such existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan;

(iii) that no temporary or final certificate of occupancy shall be issued for that portion of #floor area# in the new #development# equal to twice the #floor area# in the temporary existing #buildings# until such #buildings# are vacated, demolished and their sites are redeveloped in accordance with the approved project plan, except that where the ~~City Planning~~ Commission shall have determined that the applicant for a special permit has made an offer to purchase the leasehold interests from the lessees at a fair market value of the remainder of the lease term, the Commission may decrease the amount of #floor area# for which no certificate of occupancy may be issued; and

(iv) that the #development# conform with all the applicable laws relating to construction, operation and maintenance.

The owner of the #zoning lot# shall have prominently displayed thereon a sign stating the date by which the #buildings# are to be demolished.

(~~d~~4) As a further condition for the issuance of a permit under this ~~Section~~, paragraph, (c), the owner of the #zoning lot# upon which new #developments# are to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel as to form, sufficient in amount as determined by the ~~City Planning~~ Commission to cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time set forth in the approved project plan, and insure that all #floor area# which is to be vacant in the new #development# shall remain unfinished and vacant.

The bonds or other securities shall be payable to the City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this paragraph, (~~d~~c) ~~of this Section~~, that the #development#:

(1) shall result in improved circulation; and

(2) would eliminate the undesirable pre-emption of ground level space by private #buildings or other structures#.

In making ~~this~~ these findings, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this ~~Section~~ paragraph, (c), shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.
In addition to the conditions in paragraphs (c)(1), (c)(2), (c)(3) and (c)(4) of this Section, the Commission shall find that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties;

(~~e~~d) Notwithstanding any other provisions of the Zoning Resolution, where a #development# shares an aggregate #lot line# with a landmark building site for a distance of at least 90 feet, or contains a historically significant #street# that has been demapped and an archeologically significant site, both of which have been identified by the Landmark Preservation Commission, the Commission may permit modification of the height and setback and #yard# regulations regardless of the lot size, provided that the following findings are made:

(1) there is a harmonious architectural relationship between the landmark and the new structure, and such relationship is approved by the Landmarks Preservation Commission or, in the case of a #development# which contains a historically significant #street# that has been demapped and an archeologically significant site, there is a visual recognition of the location of the demapped #street# and of the archeologically significant site created by a design treatment that has been approved by both the Landmarks Preservation Commission and the City Planning Commission and, if such #development# is located within 200 feet of a historic district, there is a harmonious relationship between the proposed #development# and the historic district; and

(2) pedestrian amenities are contained in the new structure including, where appropriate, retail stores and substantial pedestrian space at the principal levels of circulation, such as wider sidewalks, #arcades#, #covered pedestrian space#, subsurface concourses and convenient subway connections.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR.*

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

74-721
Height and setback and yard regulations

(a) In C4-7, C5-2, C5-3, C5-4, C6-1A, C6-4, C6-5, C6-6, C6-7 or M1-6 Districts, the City Planning Commission may permit modification of the height and setback regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block#.

In C5-3, C6-6 and C6-7 Districts, on such #zoning lots#, the Commission also may modify #yard# and court regulations, and regulations governing the minimum required distance between #buildings# and/or the minimum required distance between #legally required windows# and walls or #lot lines#, provided that the Commission finds that such modifications:

(1) provide a better distribution of #bulk# on the #zoning lot#;

(2) result in a better relationship of the #building# to open areas, adjacent #streets# and surrounding #development#; and

(3) provide adequate light and air for #buildings# on the #zoning lot# and neither impair access to light and air to #legally required windows# in adjacent #buildings# nor adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties;

As a condition of this special permit, if any open area extending along a #side lot line# is provided at any level, such open area shall be at least eight feet in width;

(b) In a C6-4 District, the Commission may modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses), ~~for~~ or #developments# or #enlargements# on #zoning lots# occupying an entire #block# ~~and located in a C6-4 District~~ with a basic commercial #floor area ratio# of 10.0, ~~the Commission may also modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses),~~ provided the following ~~findings are made~~ conditions are met:

(1) ~~that~~ the non-#residential uses# are located in a portion of a #mixed building# ~~which~~ which has separate access to the #street# with no openings of any kind to the #residential# portion of the #building# at any #story#; and

(2) ~~that~~ the non-#residential uses# are not located above the lowest #story# containing #dwelling units# unless the #residential# and non-#residential# portions are separated in accordance with the provisions of Section 23-82 (Building Walls Regulated by Minimum Spacing Requirements).

(c) In C5-3, C6-6 and C6-7 Districts, the Commission may modify height and setback and #yard# regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, ~~provided the #zoning lot#~~ that occupies an entire #block# front on a #wide street#, subject to the following conditions:~~-~~

~~As a condition for the special permit, the Commission shall make the following findings:~~

~~(1) that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties; and~~

(~~1~~2) ~~that~~ where #buildings# or portions thereof penetrate the established #sky exposure plane#, the aggregate area occupied by such #buildings# or portions thereof at such elevation shall not exceed:

(i) 55 percent of the area of such #zoning lot#; or

(ii) an equivalent of 55 percent of the aggregate area of such #zoning lot# and any adjoining #zoning lots# with a common #lot line# for at least 90 feet with negative easements limiting height of existing and future #developments# on the adjoining #zoning lots# by recorded deed or other written instruments; ~~and~~

(~~2~~3) ~~that~~ the #development# or #enlargement# includes on-site amenities, such as #arcades#, #through block arcades# or #covered pedestrian spaces# where the size and dimensions of such spaces are substantially greater than the required minimum standards, and include~~s~~ sky lights or other provisions for additional access of direct natural light so as to provide for an increased penetration of light and air therein at the #street# level of the #development#, or a transit station improvement that results in a direct major connection to a subway station.

(3) In lieu of ~~this finding,~~ condition (c)(~~2~~3), the ~~Commission finds that the~~ #development# or #enlargement# may provide~~s~~, in the same or an adjoining #block# of such #development# or #enlargement#, compensatory "off-site public open space." For the purposes of this ~~Section~~ paragraph, (c3), the term "adjoining block" shall mean a #block# that is contiguous to the development #block# but for its separation by a #street# or #street# intersection. The area of such off-site public open space shall be at least 4,000 square feet, or 15 percent of the #lot area# of a #zoning lot# containing the #development#, whichever is more, and a width of at least 40 feet at any point.

Such public open areas shall have a southern exposure, and adjoin a public sidewalk and be #developed# pursuant to the provisions of Section

37-04 (Requirements for Urban Plazas). A plan for the development and maintenance of such off-site public space shall be approved by the Commission. The off-site public area shall be kept open to the general public in accordance with a time schedule specified by the Commission. In no event shall such off-site public open space be eligible for #floor area# or bonus computation in connection with this or any other #development# or #enlargement#.

For such #developments#, the Commission may also modify the applicable regulations of Sections 32-51 (Limitations on Business Entrances, Show Windows or Signs) and 36-683 (Restrictions on location of berths near Residence Districts) where adjoining frontage within a distance of 75 feet on the same side of the #street# is occupied by a #community facility# or ground floor #commercial use#, provided that such modification is part of an overall design for #show windows#, signage and entrances or off-street loading berths developed in conjunction with a public amenity such as an #urban plaza#, #through block arcade# or #covered pedestrian space#, and will not alter the essential character of the immediate neighborhood.

In the case of existing #residential buildings# to remain temporarily on such #zoning lot#, the provisions of Sections 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) and 23-80 (COURT REGULATIONS AND MINIMUM DISTANCE BETWEEN WINDOWS AND WALLS OR LOT LINES) may be modified provided that each and every one of the following conditions are met:

(i) that such existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;

(ii) that the portions of the #zoning lot# where such existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan;

(iii) that no temporary or final certificate of occupancy shall be issued for that portion of #floor area# in the new #development# equal to twice the #floor area# in the temporary existing #buildings# until such #buildings# are vacated, demolished and their sites are redeveloped in accordance with the approved project plan, except that where the ~~City Planning~~ Commission shall have determined that the applicant for a special permit has made an offer to purchase the leasehold interests from the lessees at a fair market value of the remainder of the lease term, the Commission may decrease the amount of #floor area# for which no certificate of occupancy may be issued; and

(iv) that the #development# conform with all the applicable laws relating to construction, operation and maintenance.

The owner of the #zoning lot# shall have prominently displayed thereon a sign stating the date by which the #buildings# are to be demolished.

(~~d~~4) As a further condition for the issuance of a permit under this ~~Section~~, paragraph (c), the owner of the #zoning lot# upon which new #developments# are to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel as to form, sufficient in amount as determined by the ~~City Planning~~ Commission to cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time set forth in the approved project plan, and insure that all #floor area# which is to be vacant in the new #development# shall remain unfinished and vacant.

The bonds or other securities shall be payable to the City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this paragraph, (~~d~~c) ~~of this Section~~, that the #development#:

(1) shall result in improved circulation; and

(2) would eliminate the undesirable pre-emption of ground level space by private #buildings or other structures#.

In making ~~this~~ these findings, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this ~~Section~~ paragraph, (c), shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.
In addition to the conditions in paragraphs (c)(1), (c)(2), (c)(3) and (c)(4) of this Section, the Commission shall find that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties;

(~~e~~d) Notwithstanding any other provisions of the Zoning Resolution, where a #development# shares an aggregate #lot line# with a landmark building site for a distance of at least 90 feet, or contains a historically significant #street# that has been demapped and an archeologically significant site, both of which have been identified by the Landmark Preservation Commission, the Commission may permit modification of the height and setback and #yard# regulations regardless of the lot size, provided that the following findings are made:

(1) there is a harmonious architectural relationship between the landmark and the new structure, and such relationship is approved by the Landmarks Preservation Commission or, in the case of a #development# which contains a historically significant #street# that has been demapped and an archeologically significant site, there is a visual recognition of the location of the demapped #street# and of the archeologically significant site created by a design treatment that has been approved by both the Landmarks Preservation Commission and the City Planning Commission and, if such #development# is located within 200 feet of a historic district, there is a harmonious relationship between the proposed #development# and the historic district; and

(2) pedestrian amenities are contained in the new structure including, where appropriate, retail stores and substantial pedestrian space at the principal levels of circulation, such as wider sidewalks, #arcades#, #covered pedestrian space#, subsurface concourses and convenient subway connections.

DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

Notices of correction shall be served upon the address provided pursuant to the registration provisions in these rules. In the absence of the required registration information, service shall be made on the entity identified on the newsrack or in the publication found in the newsrack.

STATEMENT OF BASIS AND PURPOSE OF PROPOSED RULE

The Commissioner of the Department of Transportation is authorized to regulate work taking place on City streets and sidewalks pursuant to section 2903 of the New York City Charter and Title 19 of the New York City Administrative Code.

On July 12, 2004, Mayor Bloomberg signed Local Law No. 36, which amended section 19-128.1 of the Administrative Code. These rules serve to conform the Department's rules to the new law.
Subdivision (a) of section 2-08 is being amended to include a definition of the term "owner" in order to ensure that only one entity/individual is responsible for all Department requirements regarding newsracks.

Subparagraph (iii) of paragraph (1) and paragraph (3) of subdivision (b), subdivision (c), subdivision (f), subdivision (g) and subdivision (h) of section 2-08 are being amended to conform with the new definition of "owner."

Paragraph (4) of subdivision (b) of section 2-08 is being amended to reduce the number of times that the Department must be notified of the location of newsracks in accordance with Local Law No. 36.

Paragraph (2) of subdivision (d) of section 2-08 is being amended to require conformance with all notification requirements regarding the location of newsracks.

Subdivision (e) of section 2-08 is being amended to eliminate previous cleaning requirements and to require a newsrack owner to certify that best efforts have been taken to maintain the newsrack(s) and to keep logs and records detailing the measures taken to maintain such newsrack(s) in accordance with Local Law No. 36.

Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. DEVELOP TRANSITIONAL RESIDENCES FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 12-30-04 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 30 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

AGENCY RULES

■ **NOTICE**

Notice of Opportunity to Comment on Proposed Amendments to Campaign Finance Board Rules

IN COMPLIANCE WITH SECTION 1043 OF THE NEW YORK CITY CHARTER, and exercising authority vested in the Campaign Finance Board (the "Board") under Chapter 46 of the New York City Charter (including, but not limited to, Section 1052(a)(8) thereof) and under the New York City Campaign Finance Act (the "Act") (including, but not limited to, Section 3-708(8) of the New York City Administrative Code (the "Administrative Code"), the Board hereby proposes amendments to the Campaign Finance Board Rules. Underscoring denotes proposed additions; ~~strikeout~~ denotes proposed deletions.

I. Explanation, Basis, and Purpose

The Campaign Finance Board Rules (the "Rules") are codified in Chapter 52 of the Rules Compilation of the City of New York. The subject matter of this rulemaking was described in the Board's regulatory agenda for fiscal year 2005, published in The City Record on April 23, 2004.

The proposed amendments would effect the following specific changes, and if adopted following the opportunity for public comment, would take effect thirty days after final publication

in The City Record.

Reporting Employment Information of Contributors (Rules 3-03(c)(6) and 5-01(d)(11))

Administrative Code Section 3-703(6) provides that disclosure statements must include employment information for any contributor who contributes more than $99 to a participant. However, the current Rules 3-03(c)(6) and 5-01(d)(11) permit the Board to match contributions of between $99 and $500 without such employment information. The proposed amendment would conform provisions of the Rules (*see* Rules 3-03(c)(6) and 5-01(d)(11)) to the plain language requirements of the law by providing that contributions in excess of $99 will not be matchable if employment information is not reported.

Contributions from a Single Source (Rules 1-04(h) and (i))

Pursuant to Rule 1-04(h), contributions from a single source are totaled for the purposes of compliance with the contribution limits. The policy rationale of the rule is to prevent a contributor from circumventing the purpose of the contribution limits by arranging for contributions by another or multiple other entities whose decisions to contribute to a participant are controlled or substantially influenced by that contributor.

The percentage of contributions from entities, as opposed to individuals, increased in the 2003 City Council Elections. Aside from concerns of undue influence attendant to this increase (*see* the Board's 2003 post-election report, *City Council Elections*, Chapter 2 and p. 47, available at www.nyccfb.info), larger contributions from an increased number of entities made the single-source rule a salient issue, as many contribution limit violations were comprised of contributions from multiple entities constituting a single source. The Board has a long-standing recommendation to prohibit participants from accepting contributions from all entities. As long as participants are permitted to accept these contributions, however, the Board believes the single-source rule requires strengthening and clarification to better establish the types of entities that will be considered single sources and to provide clearer guidance to participants about those single sources.

The proposed amendment would supplement the factors currently contained in the rule and provide a presumption that certain limited liability partnerships, limited liability companies, and labor organizations would be considered single sources for the purposes of compliance with the contribution limits. In addition to curbing the potential undue influence of large organizational contributors on elected participants, establishing clear lines of attribution among certain types of entities through these presumptions should make it easier for participants to comply with the single-source rule. For entities not covered by the presumption, the factors currently in the rule would be applied.

Codifying Advisory Opinion No. 2001-6 (June 14, 2001), the proposed amendment would provide that separate limited liability companies and limited liability partnerships that have a common managing member or a common general partner will be presumed to be a single source for purposes of compliance with the contribution limits. (Where appropriate, such as when a limited liability company's managing member is also the general partner of a limited partnership, the presumption would aggregate contributions from the limited liability company and the limited liability partnership.) Consistent with the Advisory Opinion, registered limited liability partnerships established pursuant to Article 8-B of the New York State Partnership Law, which are not governed in the same manner as other partnerships, would not be covered by the presumption.

The proposed amendments also would clarify that a labor organization is presumed to have established, maintained, or controlled all of its subordinate organizations and that contributions from a labor organization and its subordinate organizations therefore are considered to be from a single source for purposes of compliance with the contribution limits. The proposed amendments would adapt the language of the single-source regulations of the Federal Election Commission ("FEC"). *See* 11 C.F.R. §§ 100.5(g) and 110.3(a). Where the FEC has enacted a per se rule, however, the proposed amendments would only presume that the following are single sources: a union, together with its political committees; a parent union, such as an international/national union, together with all of its regional, state, intrastate, and local unions; and an organization of international/national unions, such as the AFL-CIO, together with all of its regional, state, intrastate, and local bodies. *See id.*

While the Board's experience supports a proposal to attribute contributions from an international or national union and its subordinate unions to a single source, the Board does not believe the record supports codifying a presumption that an organization of international/national unions and its affiliated member unions are a single source. The Board recognizes that whereas international and national unions usually exercise substantial control over their subordinate unions, organizations of international/national unions tend to function as umbrella groups with little authority over the decisions of their loosely affiliated member unions. The proposed amendments would thus parallel the treatment federal campaign finance law affords umbrella groups. *See* Federal Election Campaign Act, 2 U.S.C.A. §441a(a)(5); 11 C.F.R. §§ 100.5(g) and 110.3(a); *FEC v. Sailors' Union of the Pacific Political Fund*, 828 F.2d 502 (9th Cir. 1987). The proposed amendments would not change the Board's authority to continue to aggregate contributions from an umbrella group and its affiliated unions when appropriate, on a case-by-case basis, by applying the factors currently in Rule 1-04(h).

II. Opportunity to Comment

Written comments regarding the proposed rules must be submitted to the General Counsel of the Campaign Finance Board, 40 Rector Street, 7th Floor, New York, on or before November 22, 2004. A public hearing will be held on November 22, 2004 at the offices of the Board, beginning at 10:00 a.m. Persons wishing to testify are requested to notify the General Counsel of the Board at the foregoing address. Written comments and a transcript of the hearing will be available for public inspection, within a reasonable time after receipt, at the offices of the Board on weekdays between the hours of 9:00 a.m. and 5:00 p.m.

III. Proposed Rules

Reporting Employment Information of Contributors (Rules 3-03(c)(6) and 5-01(d)(11))

Campaign Finance Board Rule 3-03(c)(6) would be amended as follows:

> **(6) Employment information.** The participant need not report the occupation, employer, or business address of any contributor making contributions totaling $99 or less. Matchable contribution claims on contributions ~~of $500 or more~~ totaling more than $99 shall be invalid unless the participant has reported the contributor's occupation, employer, and business address.

Campaign Finance Board Rule 5-01(d)(11) would be amended as follows:

> (11) contributions ~~of $500 or more~~ totaling more than $99 for which a participant has not reported the contributor's occupation, employer, and business address;

Contributions from a Single Source (Rules 1-04(h) and (i))

Campaign Finance Board Rule 1-04(h) would be amended as follows:

> **(h) Multiple contributions from a single source.** If a participant accepts more than one contribution from a single source, the contributions shall be totaled to determine the participant's compliance with the applicable contribution limit. A "single source" includes any person, persons in combination, or entity who or which establishes, maintains, or controls another entity and every entity so established, maintained, or controlled, including every political committee established, maintained, or controlled by the same person, persons in combination, or entity.
>
> **(1) General factors.** Factors for determining whether a person, persons in combination, or an entity establishes, maintains, or controls another entity include, but are not limited to:
>
> (i) whether the person or entity makes decisions or establishes policy for the other entity, including determinations of the recipients of its contributions and the purposes of its expenditures;
>
> (ii) whether the person or entity has the authority to hire, appoint, discipline, discharge, demote, remove, or otherwise influence other persons who make decisions or establish policies for the other entity;
>
> (iii) whether contributions made by the person or entity and the other entity reflect a similar pattern; and
>
> (iv) whether the person or entity knows of and has acquiesced in public representations by the other entity that it is acting on its behalf or under its direction.
>
> **(2) Labor organizations.** The following shall be presumed to be single sources for the purpose of compliance with the applicable contribution limit:
>
> > (i) a single national or international union, together with any political committee of such union, and the regional, state, intrastate, local and other subordinate organizations of the national or international union, along with any political committees of such subordinate organizations;
> >
> > (ii) an organization of national or international unions, together with any political committee of such organization, and the regional, state, intrastate, and local central bodies of such organization, along with any political committee of such bodies.
>
> For the purposes of this paragraph, a "labor organization" shall mean any organization of any kind, or any agency or employee representation committee, in which employees participate and which exists for the purpose, in whole or in part, of dealing with employers concerning grievances, labor disputes, wages, rates of pay, hours of employment, or conditions of work. A "labor organization" shall also include any organization of labor unions.
>
> **(3) Limited liability partnership and limited liability company contributions.**
> A general partner or general manager and each limited partnership and limited liability company it controls shall be presumed to be a single source for the purpose of compliance with the applicable contribution limit, except that this paragraph shall not apply to registered limited liability partnerships established pursuant to Article 8-B of the New York State Partnership Law.

Campaign Finance Board Rule 1-04(i) would be amended as follows:

> **(i) Partnership and limited liability company contributions.**
>
> (1) Every contribution made by a partnership is considered to be a contribution by (i) the partnership as a whole; and (ii) by its partners to the extent required by state law. In addition, the provisions of Rule 1-04(h) shall be applied to contributions from partnerships for the purposes of compliance with the contribution limits.
>
> (2) Every contribution made by a limited liability company (i) is considered to be a contribution by the limited liability company as a whole, and (ii) to the extent such contribution, together with all other contributions from such limited liability company to any one participant, exceeds $2,500 in the aggregate, is considered to be a contribution by each member whose share of the contribution exceeds ninety-nine dollars. In addition, the provisions of Rule 1-04(h) shall be applied to contributions from limited liability companies for the purposes of compliance with the contribution limits.

DEPARTMENT OF HEALTH AND MENTAL HYGIENE
BOARD OF HEALTH

NOTICE OF ADOPTION TO AMEND SUBSECTIONS (a) and (c) OF SECTION 11.03 OF ARTICLE 11 OF THE NEW YORK CITY HEALTH CODE

In compliance with Section 1043(b) of the New York City Charter and pursuant to the authority granted to the Board of Health by Section 558 of said Charter, a notice of public hearing and a Notice of Intention to amend subsections (a) and (c) of Section 11.03 of Article 11 of the New York City Health Code were printed in the City Record on July 23, 2004. A public hearing was held on August 23, 2004. No written comments were received and no one testified at the public hearing. The Board of Health at its September 14, 2004 meeting adopted the following:

STATUTORY AUTHORITY

These amendments to the New York City Health Code ("Health Code") are promulgated pursuant to Sections 556, 558 and 1043 of the New York City Charter ("Charter "). Section 556 of the Charter grants the Department of Health and Mental Hygiene (the "Department") jurisdiction to regulate matters affecting health in the City of New York. Section 558 (b) and (c) of the Charter empower the Board of Health to amend the Health Code and to include in the Health Code all matters to which the Department's authority extends. Section 1043 of the Charter grants the Department of Health rule making powers.

STATEMENT OF BASIS AND PURPOSE

Unintentional carbon monoxide poisonings may result from malfunctioning gas or fuel-burning equipment in homes (for example, furnace, oil burner, stove or hot water heater). Recently, carbon monoxide leaked from a building's heating system in the Murray Hill section of Manhattan, leading to two deaths and two critical cases of carbon monoxide poisoning.

The New York City Department of Health and Mental Hygiene currently requires that poisonings by drugs or other toxic agents be reported to the Department within 24 hours. [Health Code Section 11.03(a)]. Although not specifically identified in Section 11.03, carbon monoxide poisoning is currently required to be reported to the Department as a poisoning. The Department believes providers would be more aware of the requirement that carbon monoxide poisoning must be reported if carbon monoxide poisoning is specifically defined and identified in the Health Code as a reportable condition. Of course, the Department also intends to educate providers that carbon monoxide poisoning is reportable to the Department. Improvement in reporting carbon monoxide poisoning to the Department (to the Poison Control Center) by health care providers such as emergency room staff and laboratories, is critical in order to activate Fire Department emergency response and improve community safety. For these reasons, it is proposed that Section 11.03(a) be amended to specifically refer to and define carbon monoxide poisoning.

The Health Code is amended to require reporting of all carboxyhemoglobin greater than 10% for the following reason. There is a difference between the usual COHb levels of smokers and non-smokers. Smokers generally have a COHb level of about 5-10%, whereas non-smokers normally have less than 3% COHb. Setting the level to accommodate both groups at, for example, 15% would not be protective of non-smokers. However, an appropriate level for non-smokers, 3.5%, would result in too many false positives. Having two different levels for the two different populations would also be problematic because it would rely on self-reporting of smoking status and may differ by the magnitude and duration of a person's tobacco use as well as complicating the reporting requirements medical personnel. A level of 10% COHb has been determined by the Department to be the action level because it is protective and should at the same time keep false positives to a minimum.

Section 11.03(c) of the Health Code is amended to require immediate telephone reporting of carbon monoxide poisoning to the Department. Similar to diseases such as acute arboviral infections, anthrax, botulism and plague, where immediate telephone reporting to the Department is required, immediate telephone reporting of carbon monoxide poisoning should benefit the public by enabling the swift investigation and appropriate preventative action, including rapid referral by the Department to the Fire Department. Prompt identification of poisoned individuals and immediate reporting should result in immediate deployment and investigation by the New York City Fire Department to prevent any additional carbon monoxide exposure-related illnesses and/or deaths in the affected building or area.

STATEMENT PURSUANT TO SECTION 1042-REGULATORY AGENDA

This rule was not included in the Regulatory Agenda because it is the result of recent analysis by the Department as to what steps can be taken to attempt to prevent additional deaths and injuries as a results of carbon monoxide poisoning.

The adopted rule is as follows:

Note- matter in brackets [] to be deleted

Longevity Increment Eligibility Rules

The following rules shall govern the eligibility of employees for the longevity increments provided for in Article III, Section 8, of the, et al. agreement:

1. Only service in pay status shall be used to calculate the 10 and 15 years of service, except that for other than full time per annum employees only a continuous year of service in pay status shall be used to calculate the 10 and 15 years of service. A continuous year of service shall be a full year of service without a break of more than 31 days. Where the regular and customary work year for a title is less than a twelve month year such as a school year, such regular and customary year shall be credited as a continuous year of service counting towards the 10 and 15 years of service. If the normal work year for an employee is less than the regular and customary work year for the employee's title, it shall be counted as a continuous year of service if the employee has customarily worked that length of work year and the applicable agency verifies that information.

2. Service in pay status prior to any breaks in service of more than one year shall not be used to calculate the 10 and 15 years of service. Where an employee has less than seven years of continuous service in pay status, breaks in service of less than one year shall be aggregated. Where breaks in service aggregate to more than one year they shall be treated as a break in service of more than one year and the service prior to such breaks and the aggregated breaks shall not be used to calculate the 10 and 15 years of service. No break used to disqualify service shall be used more than once.

3. The following time in which an employee is not in pay status shall not constitute a break in service as specified in the paragraph 2 above.

   a. time on a leave approved by the proper authority which is consistent with the Personnel Rules and Regulations of the City of New York or the appropriate personnel authority of a covered organization.

   b. time prior to reinstatement.

   c. time on a preferred list pursuant to Civil Service Law Sections 80 and 81 or any similar contractual provision.

   d. time not in pay status of 31 days or less.

   Notwithstanding the above, such time as specified in subsections a, b, and c above shall not be used to calculate the 10 and 15 years of service.

4. Once an employee has completed the 10 and/or 15 years of "City" service in pay status and is eligible to receive the respective longevity increment, the increment shall become part of the employee's base rate for all purposes except as provided in paragraph 5 below.

5. The respective longevity increment shall not become pensionable until 15 months after the employee becomes eligible to receive such increment. Fifteen months after the employee becomes eligible to receive the longevity increment, such longevity increment shall become pensionable, and as part of the employee's base rate, shall be subject to the general increase provided in Article III, Section 3, of this agreement.

Guideline on Merit Increases for Sub-Managerial Employees

In awarding merit increases to submanagerial employees, agency heads must adhere to the following guidelines:

1. An increase in duties within a title ordinarily shall not be considered the basis for a merit adjustment. If the increase in duties is significant, the position should be re-evaluated to a higher level.

2. Only one merit adjustment or provisional promotion can be granted to an employee within any twelve-month period.

3. Merit adjustment must be limited to employees with above-average ratings on their annual performance evaluations. A copy of the performance evaluation must be submitted to the Department of Personnel and the Mayor's Office with the Monthly Planned Action Report.

4. Merit adjustment can be made up to a maximum of 7% of the employee's base salary. In no case can the merit adjustments increase the employee's salary beyond the maximum established for the title and/or level.

5. The following shall be criteria for the granting of merit increases:

   a. outstanding productivity in the work assigned;

   b. outstanding performance in the work assigned;

   c. outstanding initiative and resourcefulness;

6. The following shall be the procedure for the granting of merit increases:

   The agency head shall notify the Union in writing of the name of those selected to receive merit increases prior to approval by the Mayor or his authorized representative. It is expressly understood that such notification to the union shall in no way interfere with the processing and implementation of the merit increases already proposed.

Longevity Increment Eligibility Rules

The following rules shall govern the eligibility of employees for the longevity increments provided for in Article III, Section 8, of the 2002-2005 Staff Analysts, et al. agreement:

1. Only service in pay status shall be used to calculate the 10 and 15 years of service, except that for other than full time per annum employees only a continuous year of service in pay status shall be used to calculate the 10 and 15 years of service. A continuous year of service shall be a full year of service without a break of more than 31 days. Where the regular and customary work year for a title is less than a twelve month year such as a school year, such regular and customary year shall be credited as a continuous year of service counting towards the 10 and 15 years of service. If the normal work year for an employee is less than the regular and customary work year for the employee's title, it shall be counted as a continuous year of service if the employee has customarily worked that length of work year and the applicable agency verifies that information.

2. Service in pay status prior to any breaks in service of more than one year shall not be used to calculate the 10 and 15 years of service. Where an employee has less than seven years of continuous service in pay status, breaks in service of less than one year shall be aggregated. Where breaks in service aggregate to more than one year they shall be treated as a break in service of more than one year and the service prior to such breaks and the aggregated breaks shall not be used to calculate the 10 and 15 years of service. No break used to disqualify service shall be used more than once.

3. The following time in which an employee is not in pay status shall not constitute a break in service as specified in the paragraph 2 above.

   a. time on a leave approved by the proper authority which is consistent with the Personnel Rules and Regulations of the City of New York or the appropriate personnel authority of a covered organization.

   b. time prior to reinstatement.

   c. time on a preferred list pursuant to Civil Service Law Sections 80 and 81 or any similar contractual provision.

   d. time not in pay status of 31 days or less.

   Notwithstanding the above, such time as specified in subsections a, b, and c above shall not be used to calculate the 10 and 15 years of service.

4. Once an employee has completed the 10 and/or 15 years of "City" service in pay status and is eligible to receive the respective longevity increment, the increment shall become part of the employee's base rate for all purposes except as provided in paragraph 5 below.

5. The respective longevity increment shall not become pensionable until 15 months after the employee becomes eligible to receive such increment. Fifteen months after the employee becomes eligible to receive the longevity increment, such longevity increment shall become pensionable, and as part of the employee's base rate, shall be subject to the general increase provided in Article III, Section 3, of this agreement.

Appendix B

Guideline on Merit Increases for Sub-Managerial Employees

In awarding merit increases to submanagerial employees, agency heads must adhere to the following guidelines:

1. An increase in duties within a title ordinarily shall not be considered the basis for a merit adjustment. If the increase in duties is significant, the position should be re-evaluated to a higher level.

2. Only one merit adjustment or provisional promotion can be granted to an employee within any twelve-month period.

3. Merit adjustment must be limited to employees with above average ratings on their annual performance evaluations. A copy of the performance evaluation must be submitted to the Department of Personnel and the Mayor's Office with the Monthly Planned Action Report.

4. Merit adjustment can be made up to a maximum of 7% of the employee's base salary. In no case can the merit adjustments increase the employee's salary beyond the maximum established for the title and/or level.

5. The following shall be criteria for the granting of merit increases:

   a. outstanding productivity in the work assigned;

   b. outstanding performance in the work assigned;

   c. outstanding initiative and resourcefulness;

6. The following shall be the procedure for the granting of merit increases:

   The agency head shall notify the Union in writing of the name of those selected to receive merit increases prior to approval by the Mayor or his authorized representative.

It is expressly understood that such notification to the union shall in no way interfere with the processing and implementation of the merit increases already proposed.

Appendix C

Service Increment Eligibility Rules

The following rules shall govern the eligibility of employees for the service increment provided for in Article III, Section 9, of the 2002-2005 Staff Analysts, et al. agreement:

1. Only service in pay status shall be used to calculate the 20 years of service, except that for other than full time per annum employees only a continuous year of service in pay status shall be used to calculate the years of service. A continuous year of service shall be a full year of service without a break of more than 31 days. Where the regular and customary work year for a title is less than a twelve month year such as a school year, such regular and customary year shall be credited as a continuous year of service counting towards the 20 years of service. If the normal work year for an employee is less than the regular and customary work year for the employee's title, it shall be counted as a continuous year of service if the employee has customarily worked that length of work year and the applicable agency verifies that information.

2. Service in pay status prior to any breaks in service of more than one year shall not be used to calculate the 20 years of service. Where an employee has less than seven years of continuous service in pay status, breaks in service of less than one year shall be aggregated. Where breaks in service aggregate to more than one year they shall be treated as a break in service of more than one year and the service prior to such breaks and the aggregated breaks shall not be used to calculate the 20 years of service. No break used to disqualify service shall be used more than once.

3. The following time in which an employee is not in pay status shall not constitute a break in service as specified in the paragraph 2 above.

   a. time on a leave approved by the proper authority which is consistent with the Personnel Rules and Regulations of the City of New York or the appropriate personnel authority of a covered organization.

   b. time prior to reinstatement.

   c. time on a preferred list pursuant to Civil Service Law Sections 80 and 81 or any similar contractual provision.

   d. time not in pay status of 31 days or less.

   Notwithstanding the above, such time as specified in subsections a, b, and c above shall not be used to calculate the 20 years of service.

4. Once an employee has completed the 20 years of "City" service in pay status and is eligible to receive the service increment, the increment shall become part of the employee's base rate for all purposes except as provided in paragraph 5 below.

5. The service increment shall not become pensionable until two years after the employee becomes eligible to receive such increment.

6. If an employee is promoted to a title which is not entitled to a service increment effective on the date of promotion, the employees' annual salary is determined by using one of the two methods, whichever is greater:

   i.) Annual salary on the date promotion is effective (including the service increment) plus the guaranteed advancement increase (if any), OR

   ii.) The minimum salary for the new title.

7. An employee becomes eligible for payment at the beginning of the quarter immediately following the appropriate anniversary date (January 1, April 1, July 1, October 1). There is no pro-ration or retroactive payment for the time between the actual anniversary date and the beginning of the quarter.

Dear Mr. Croghan:
This letter is to confirm certain mutual understandings and agreements regarding the above-captioned agreement.

The parties agree to establish a "Joint Labor Management Committee on Productivity Initiatives" ("*Committee*").

Composition of the Committee
The Committee shall comprise representatives designated by: the Deputy Mayor for Operations, the Law Department, the Office of Labor Relations, the Office of Management and Budget, the Office of Operations, and the Organization of Staff Analysts. The City and the Union shall have equal representation on the Committee.

Goals and Objectives
The Committee shall work to identify efficiencies in the administration and delivery of governmental services which shall in turn be utilized to provide additional compensation to employees. This agreement expresses the joint labor and management commitment to associate improved City service and performance with appropriate compensation for the workforce.

The goal of the Committee's work shall be to identify, review, recommend and develop initiatives that generate workplace savings, maximize the potential of the City workforce and ensure the provision of essential services while at the same time improving compensation for the City workforce. To that end, the parties will seek to identify quantifiable savings while at the same time maintaining or improving City services.

The Committee shall make all reasonable efforts to issue a report or reports on or about December 31, 2004 which propose initiatives representing meaningful, quantifiable, recurring savings to the City and which generate funding to be utilized to compensate employees. Upon completion and acceptance of all committee members of the report, an additional one percent (1%) increase shall be paid to employees covered by this agreement.

The parties agree to meet and negotiate the application of any additional savings above 1% generated by the programs developed by the Committee.

Areas for Consideration
The Committee's study may encompass such matters, including, but not limited to, work rule modifications, absence control, contracting in, and such other areas as the Committee may mutually agree.

Resolution of Disputes
The initiatives and programs developed pursuant to this Committee must be unanimously agreed upon. In the event there is a dispute as to the amount of savings generated by an initiative or the implementation of a program, or the savings generated by a program are not paid pursuant to this agreement, it shall be submitted to arbitration upon written notice therefor by any of the parties to this Agreement to the party with whom such dispute or controversy exists. The matter submitted for arbitration shall be submitted to an arbitration panel consisting of the three impartial members of the Board of Collective Bargaining pursuant to Title 61 of the Rules of the City of New York. Any award in such arbitration proceeding shall be final and binding and shall be enforceable pursuant to Article 75 of the CPLR.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS OFFICIAL NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contracts at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction. Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.
