DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

URBAN DEVELOPMENT CORPORATION

■ NOTICE

NEW YORK STATE URBAN DEVELOPMENT CORPORATION
d/b/a EMPIRE STATE DEVELOPMENT

NOTICE OF PROPOSED LEAD AGENCY DESIGNATION, POSITIVE DECLARATION AND PUBLIC SCOPING FARLEY POST OFFICE/MOYNIHAN STATION PROJECT

The New York State Urban Development Corporation (UDC), d/b/a Empire State Development (ESD), intends to act as lead agency for the environmental review process to be carried out under the New York State Environmental Quality Review Act ("SEQRA") and its implementing regulations (6NYCRR Part 617) in connection with the proposed sale and redevelopment of the James A. Farley Building and the Western Annex (collectively referred to as the Farley Complex). The Proposed Action includes: the conversion of a portion of the Farley Building into a rail passenger terminal (the Moynihan Station Project); the redevelopment of approximately 1.1million square feet of the Farley Complex through a lease to a private developer; sublease to the United Sates Postal Service (USPS) for their continued operational needs; and an option to the selected developer to utilize up to approximately 1 million additional square feet of unused development rights that could be used to construct a commercial, residential, or mixed-use building over the Western Annex. The Proposed Action is described more fully in the attached Environmental Assessment Form and Draft Scoping Document.

The proposed project occupies the entire city block bounded by 8th Avenue, West 31st Street, 9th Avenue and West 33rd Street in Manhattan. The Farley Building was built in 1913 (the "East Building") and expanded (the "West Building") to its current size in 1933. The James A. Farley Building is listed on the State and National Registers of Historic Places and designated a New York City Landmark.

The DEIS will address the potential effects of the Proposed Action in the following impact areas: land use, socioeconomics, community facilities, open space, historic resources, urban design and visual resources, neighborhood character, hazardous materials, traffic and parking, transit and pedestrians, air quality, noise, construction and public health.

The proposed project is sponsored by and to be carried out by ESDC and the Moynihan Station Development Corporation ("MSDC"), a subsidiary of UDC. ESDC has determined the project to be a Type I action as defined by SEQRA and a draft environmental impact statement (DEIS) is to be prepared for the proposed action.

The United States Postal Service ("USPS") is the federal lead agency for the environmental review being conducted pursuant to the National Environmental Policy Act ("NEPA").

A public scoping meeting has been scheduled to take comments on the scope of work for the DEIS. The meeting will be held at **the Farley Building, entrance at 380 West 33rd Street, Room 4500 on Wednesday, February 16th from 4:00 - 6:00 PM.** Comments regarding the scope of work for the DEIS may be made in writing to the lead agency (Attn: Rachel Shatz, Director of Planning & Environmental Review, Empire State Development Corporation, 633 Third Avenue, NY, NY 10017) or in testimony at the public scoping meeting. Written comments regarding the scope of work for the draft environmental impact statement will be accepted until close of business February 28, 2005.

Copies of the draft scoping document may be obtained from the offices the Empire State Development Corporation, 633 Third Avenue, 33rd floor, New York, NY 10017 (212-803-3667).

This Notice has been prepared in accordance with Article 8 of the Environmental Conservation Law.

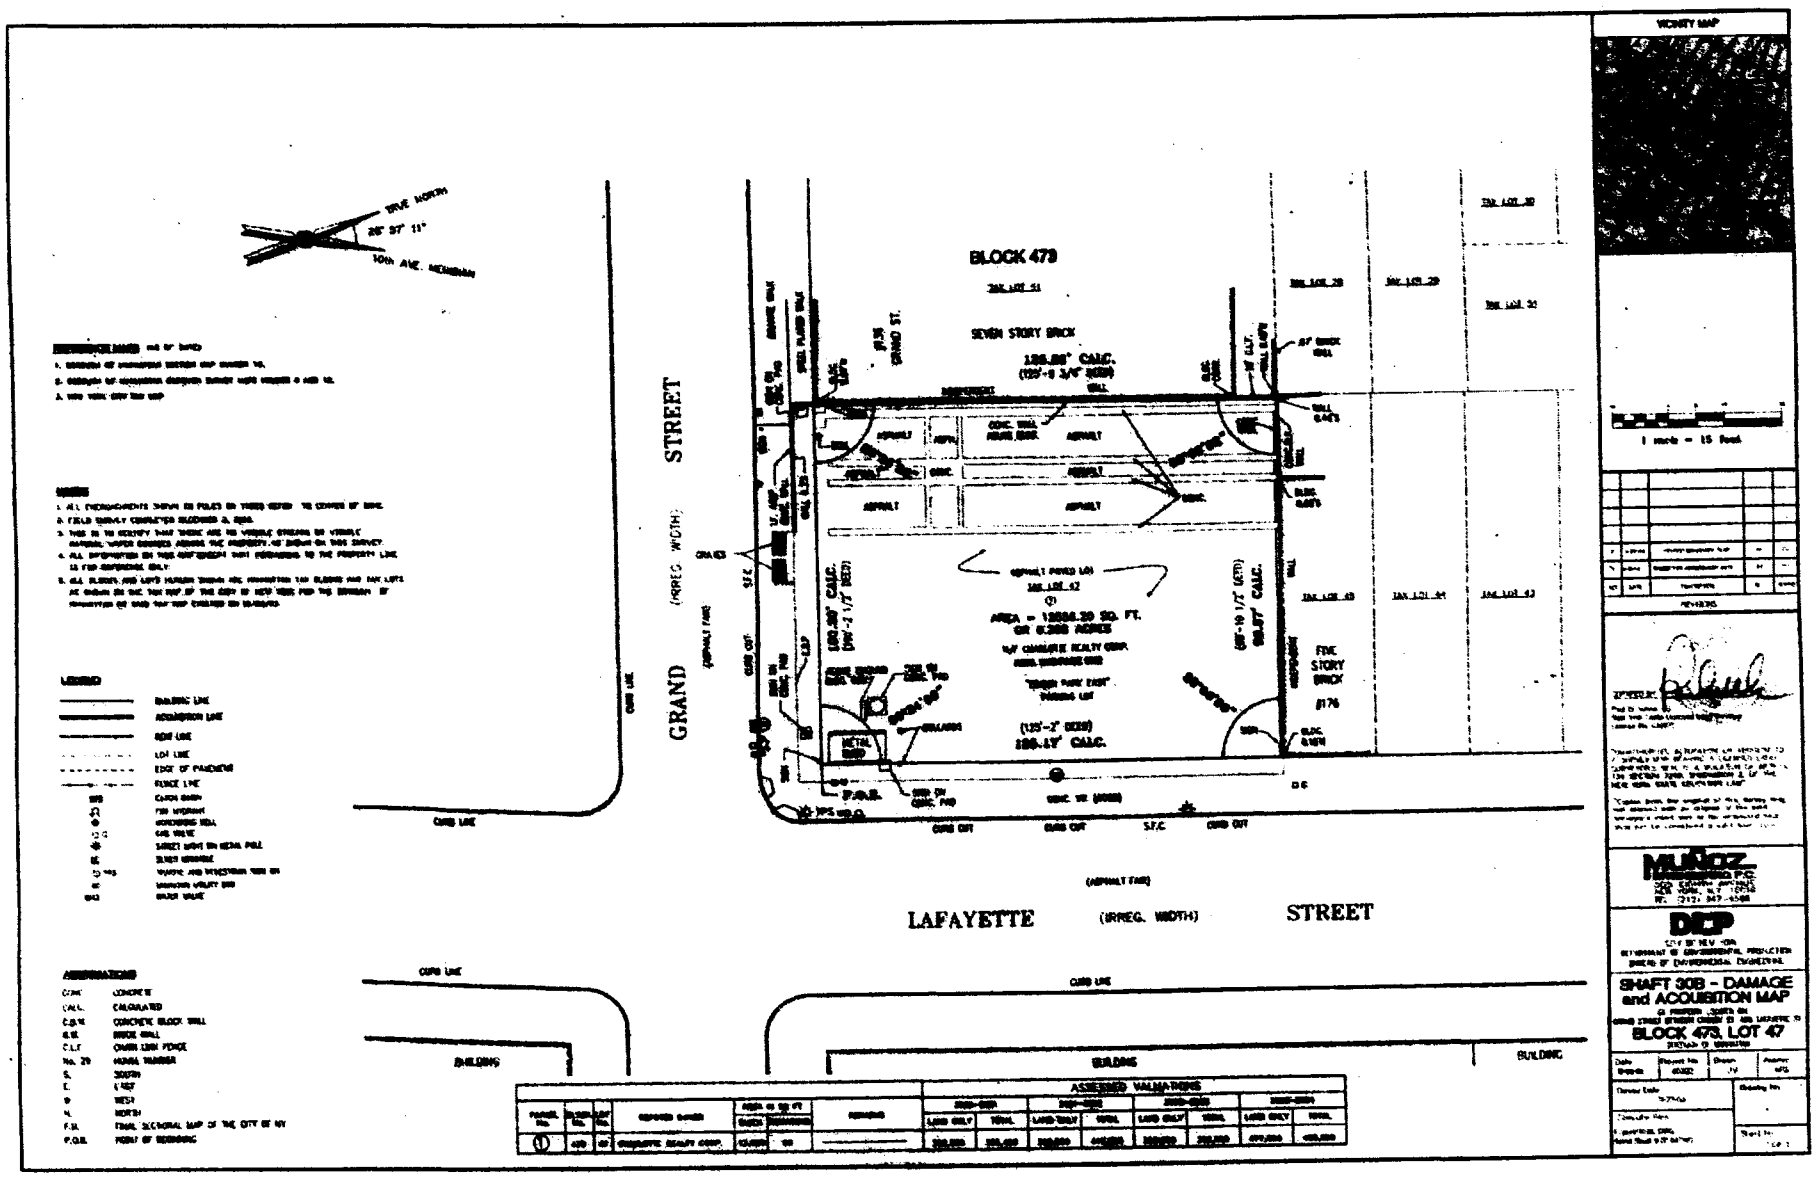
DAMAGE AND ACQUISITION MAP FOR THIRD WATER TUNNEL SHAFT 30B



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

■ NOTICE

NEW YORK STATE URBAN DEVELOPMENT CORPORATION
d/b/a EMPIRE STATE DEVELOPMENT

NOTICE OF PROPOSED LEAD AGENCY DESIGNATION, POSITIVE DECLARATION AND PUBLIC SCOPING FARLEY POST OFFICE/MOYNIHAN STATION PROJECT

The New York State Urban Development Corporation (UDC), d/b/a Empire State Development (ESD), intends to act as lead agency for the environmental review process to be carried out under the New York State Environmental Quality Review Act ("SEQRA") and its implementing regulations (6NYCRR Part 617) in connection with the proposed sale and redevelopment of the James A. Farley Building and the Western Annex (collectively referred to as the Farley Complex). The Proposed Action includes: the conversion of a portion of the Farley Building into a rail passenger terminal (the Moynihan Station Project); the redevelopment of approximately 1.1million square feet of the Farley Complex through a lease to a private developer; sublease to the United Sates Postal Service (USPS) for their continued operational needs; and an option to the selected developer to utilize up to approximately 1 million additional square feet of unused development rights that could be used to construct a commercial, residential, or mixed-use building over the Western Annex. The Proposed Action is described more fully in the attached Environmental Assessment Form and Draft Scoping Document.

The proposed project occupies the entire city block bounded by 8th Avenue, West 31st Street, 9th Avenue and West 33rd Street in Manhattan. The Farley Building was built in 1913 (the "East Building") and expanded (the "West Building") to its current size in 1933. The James A. Farley Building is listed on the State and National Registers of Historic Places and designated a New York City Landmark.

The DEIS will address the potential effects of the Proposed Action in the following impact areas: land use, socioeconomics, community facilities, open space, historic resources, urban design and visual resources, neighborhood character, hazardous materials, traffic and parking, transit and pedestrians, air quality, noise, construction and public health.

The proposed project is sponsored by and to be carried out by ESDC and the Moynihan Station Development Corporation ("MSDC"), a subsidiary of UDC. ESDC has determined the project to be a Type I action as defined by SEQRA and a draft environmental impact statement (DEIS) is to be prepared for the proposed action.

The United States Postal Service ("USPS") is the federal lead agency for the environmental review being conducted pursuant to the National Environmental Policy Act ("NEPA").

A public scoping meeting has been scheduled to take comments on the scope of work for the DEIS. The meeting will be held at **the Farley Building, entrance at 380 West 33rd Street, Room 4500 on Wednesday, February 16th from 4:00 - 6:00 PM.** Comments regarding the scope of work for the DEIS may be made in writing to the lead agency (Attn: Rachel Shatz, Director of Planning & Environmental Review, Empire State Development Corporation, 633 Third Avenue, NY, NY 10017) or in testimony at the public scoping meeting. Written comments regarding the scope of work for the draft environmental impact statement will be accepted until close of business February 28, 2005.

Copies of the draft scoping document may be obtained from the offices the Empire State Development Corporation, 633 Third Avenue, 33rd floor, New York, NY 10017 (212-803-3667).

This Notice has been prepared in accordance with Article 8 of the Environmental Conservation Law.

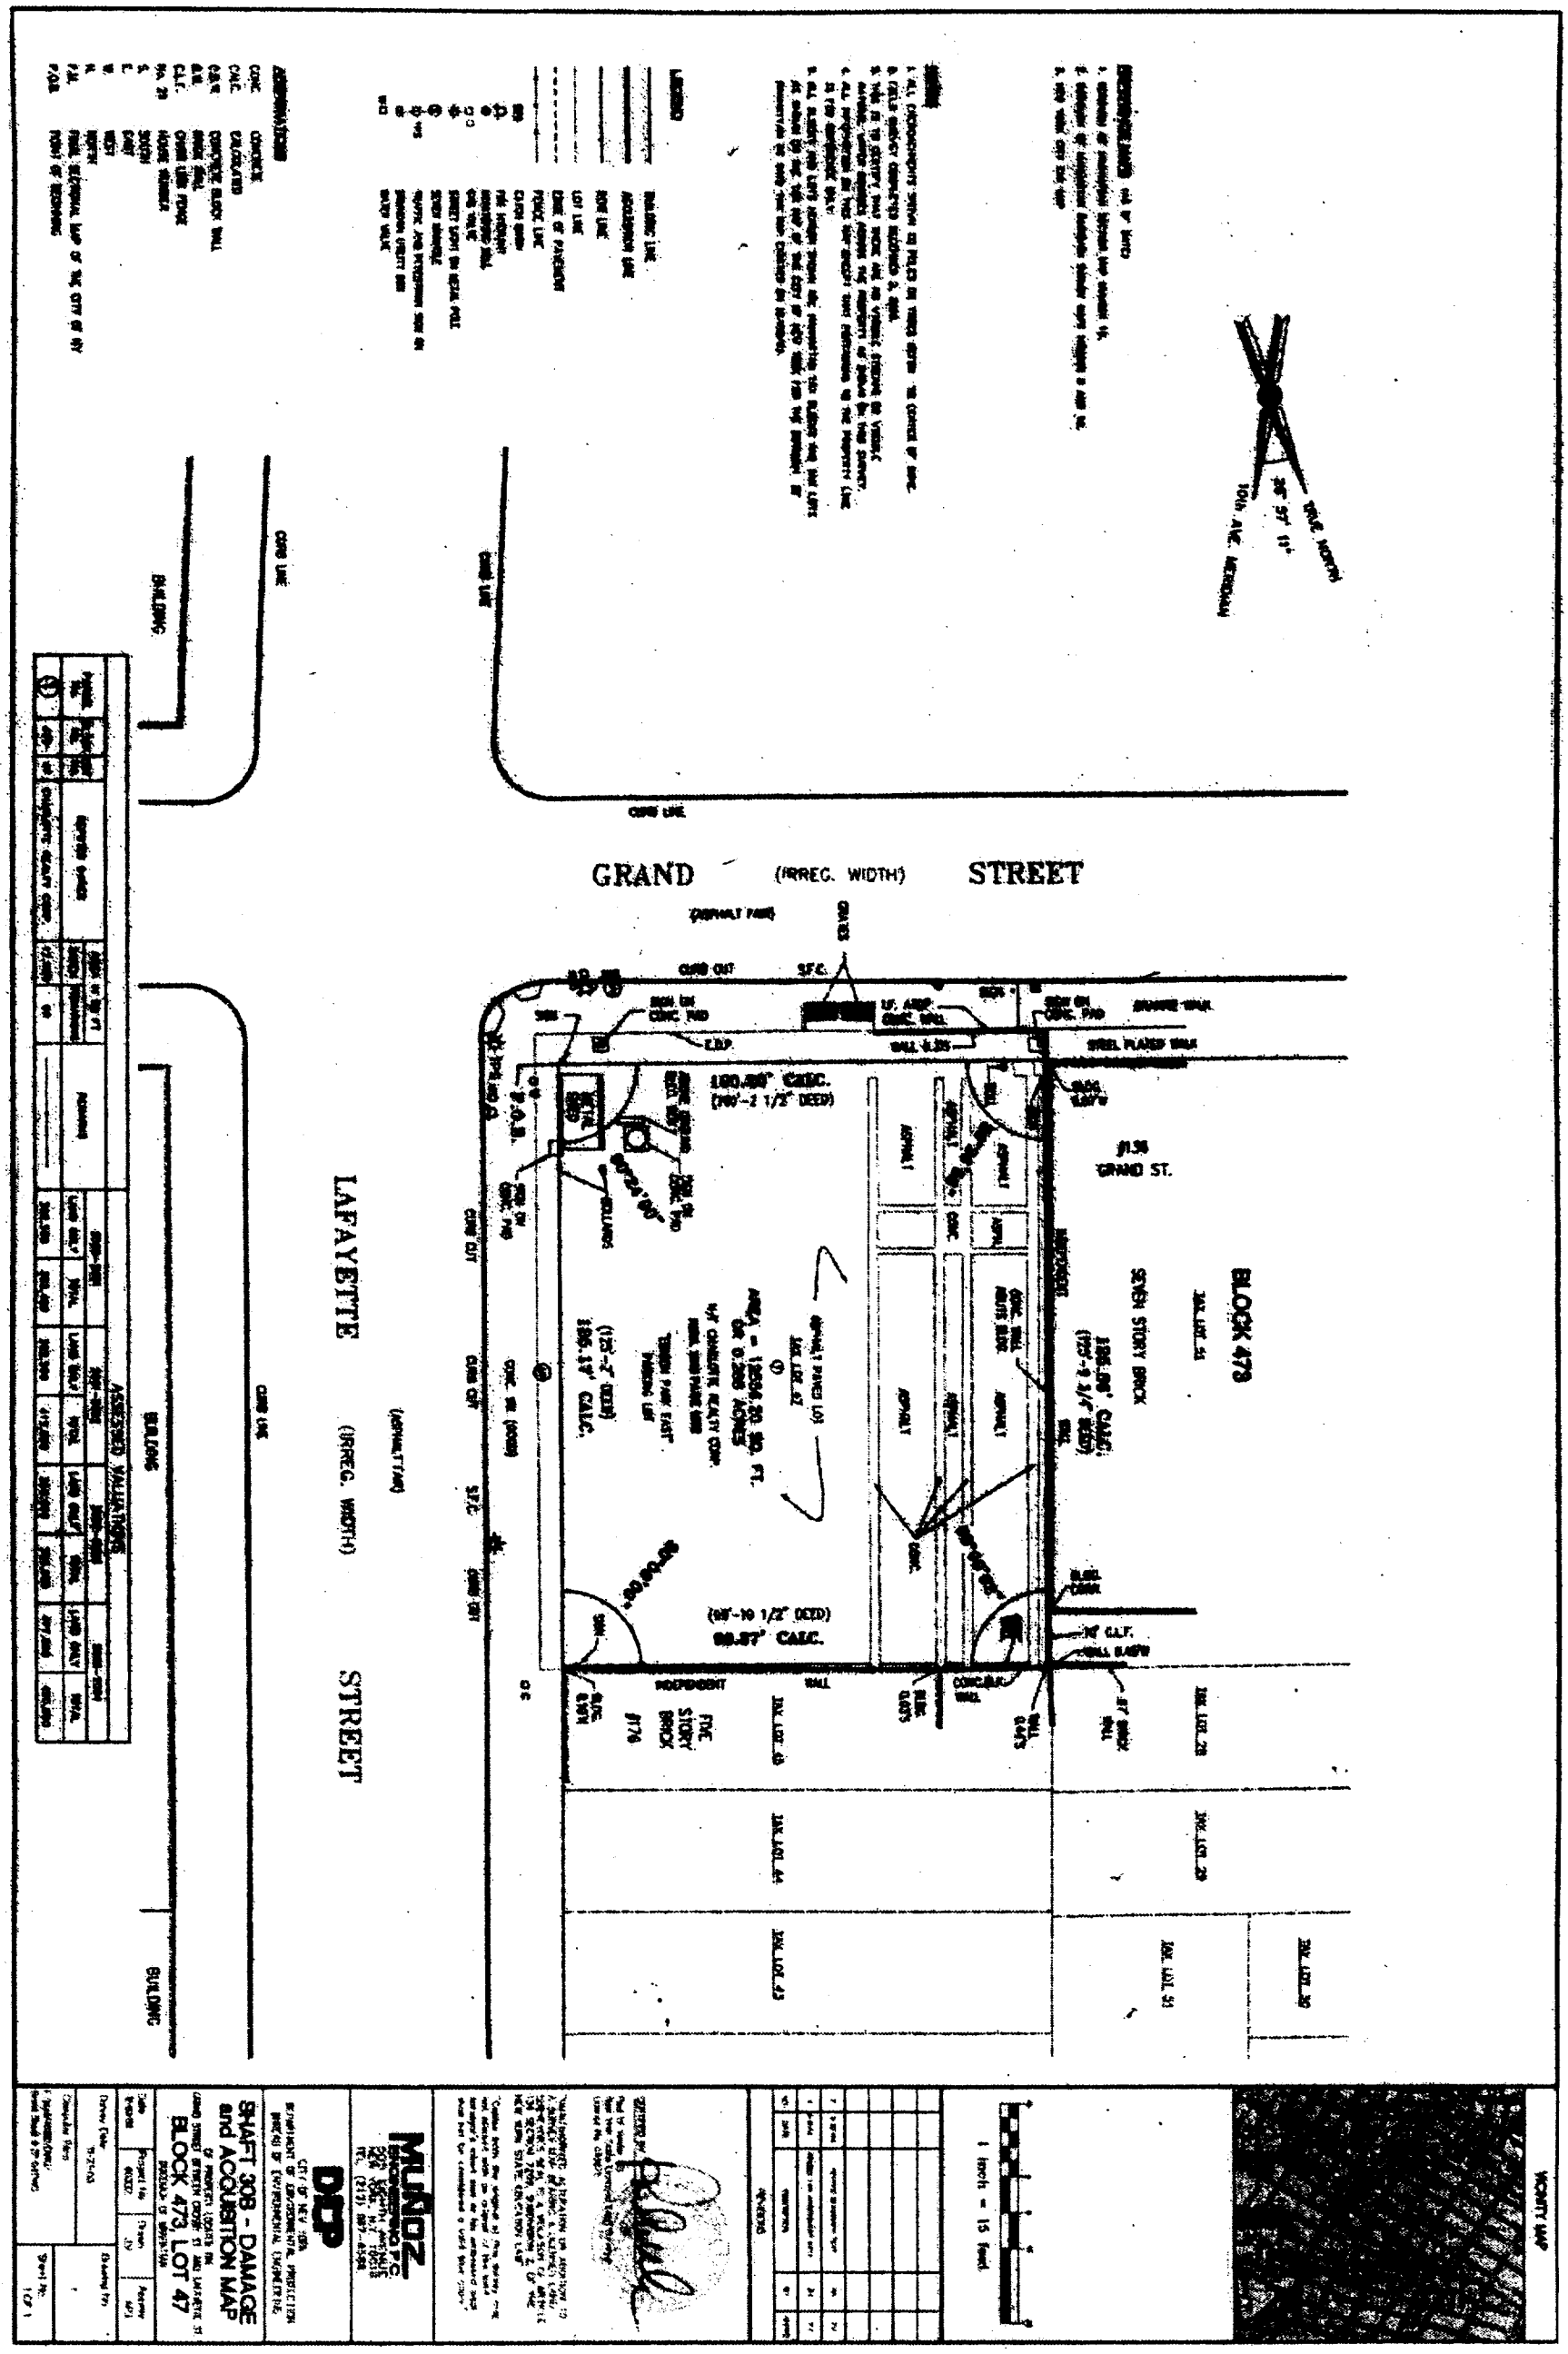
DAMAGE AND ACQUISITION MAP FOR THIRD WATER TUNNEL SHAFT 30B



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

On behalf of THE CITY COUNCIL
NOTICE OF A PUBLIC HEARING

The City Council, by resolution adopted on February 2, 2005 set February 16, 2005 as the date, 10:30 a.m. as the time, and the City Council Committee Room, 2nd Floor, City Hall, New York, New York 10007, as the place for a public hearing (the "Public Hearing") to hear all persons interested in the proposed legislation which would establish the 161st Street Business Improvement District (the "District") in the Borough of the Bronx. The District shall be established in accordance with a district plan (the "District Plan") on file at the Office of the City Clerk. The City Council has authorized the Department of Small Business Services to publish, on its behalf, this notice of the Public Hearing containing the information required by Section 25-406(c) of the Administrative Code of the City of New York and summarizing the resolution adopted.

The District Plan was submitted to, and reviewed by, the City Planning Commission and Bronx Community Board Number 4. The Community Board and the City Planning Commission have approved the District Plan.

The District Plan provides that the proposed District shall include properties along East 161st Street between River Avenue and Morris Avenue, the east side of River Avenue between East 158th Street and mid-block between East 161st Street and 162nd Street, the east side of the Grand Concourse between East 161st Street and East 162nd Street, and Sheridan Avenue mid-block between East 161st Street and East 162nd Street. The District shall be managed by the 161st Street District Management Association, Inc.

To defray the cost of Services provided in the District, all real property in the District shall be assessed in proportion to the benefit such property receives from the services. Each property shall be assessed at a rate, determined annually by the 161st Street District Management Association, Inc., to yield an amount sufficient to meet the District's annual budget. The annual budget for the District's first year of operation is $190,000.

Those properties within the District which are devoted in whole or in part to commercial uses including vacant land shall constitute Class A properties and shall be assessed in accordance with the following formula:

Rate I = $\frac{\text{50\% BUDGET}}{\text{TOTAL CLASS A LINEAR FRONT FEET}}$

Rate II = $\frac{\text{50\% BUDGET}}{\text{TOTAL CLASS A ASSESSED VALUATION}}$

INDIVIDUAL ASSESSMENT = Rate 1 x INDIVIDUAL PROPERTY FRONT FEET+ Rate 2 x INDIVIDUAL PROPERTY AV

Those properties within the District which are devoted in part to commercial use and in part to residential use shall constitute Class A-1 property. The proportion of the property devoted to residential use shall be assessed at a rate of one dollar ($1.00). The proportion of the property, as determined by the Department of Finance, devoted to commercial use shall be assessed at the same rate as Class A properties.

Those properties within the District which are devoted in whole to residential uses shall constitute Class B properties and shall be assessed one dollar ($1.00) per annum.

Government and not-for-profit properties devoted to public or not-for-profit use shall be exempt from assessment. Government or not-for-profit owned property devoted in whole or part to commercial/for-profit uses shall constitute Class C property and the commercial/for-profit portion of the property shall be assessed in the same manner as those properties listed as Class A properties.

The amount, exclusive of debt service, assessed and levied in any given year against benefited real property within the District may not exceed twenty percent (20%) of the total general City taxes levied in such year against such properties.

Copies of the resolution adopted by the City Council, which include a copy of the District Plan, are available for public inspection from 9:00 A.M. to 4:00 P.M. Monday through Friday at the Office of the City Clerk located at 265 Municipal Building (South Side), One Centre Street, New York, New York 10007. In addition, copies of the resolution are available free of charge to the public at the Office of the City Clerk.

Any owner of real property, deemed benefited and therefore within the District, objecting to the District Plan, must file an objection at the Office of the City Clerk, on forms made available by the City Clerk, within thirty (30) days of the close of the hearing on the proposed District. If owners of at least fifty-one percent (51%) of the assessed value of benefited real property situated within the boundaries of the District proposed for establishment, as shown on the latest completed assessment roll of the City, or at least fifty-one percent (51%) of the owners of benefited real property within the area included in the District proposed for establishment file objections with the City Clerk, the District shall not be established.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals -
PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

AUTHORIZATION to enter into a Sole Source Concession Agreement with Theatre Development Fund (TDF), located at 1501 Broadway, New York, NY 10036, for the operation and management of a discount ticket stand to be constructed in Father Duffy Square, located at West 47th Street and Broadway, Borough of Manhattan, for a term of twenty (20) years commencing September 1, 2005. DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Dear Mr. Robles:

Transmitted herewith are the bills disapproved by the Mayor. The bills are as follows:

Introductory Number 226-A

A Local Law to amend the administrative code of the city of New York, in relation to requiring the police department and the department of education to provide the public with information regarding schools violence.

Introductory Number 322-A

A Local Law to amend the administrative code of the city of New York, in relation to requiring the New York City Police Department to provide information to the City Council regarding school safety and agents.

December 9, 2004

Hon. Victor Robles
City Clerk and Clerk of the Council
Municipal Building
New York, NY 10007

Dear Mr. Robles:

Pursuant to Section 37 of the New York City Charter, I hereby disapprove Introductory Number 322-A, which requires the New York City Police Department to provide, on a quarterly basis, information to the City Council regarding School Safety Agents assigned to each individual school operated by the Department of Education.

The NYPD is responsible for deployment decisions regarding school safety agents and frequently consults with the Department of Education. It must be recognized that conditions change constantly in the school system, with particular schools experiencing problems and needs at various times. For this reason, assessments on the deployment of School Safety Agents are done on a daily basis. Decisions are made using management tools similar to those used in the CompStat process, a proven method that allows the Police Department to make deployment decisions based, among other indicators, on current needs and resources. In addition to using quantitative data, such as incidents, the deployment of School Safety Agents also takes into account day-to-day qualitative experience that is not captured by numbers, but rather by the experience and knowledge our School Safety Agents and the uniformed officers assigned to a school possess.

The quarterly report mandated by this legislation would be misleading to anyone referring to it since it will not take into account the numerous resources used daily to promote safety in our schools. Beside the physical number of school safety agents there are the School Safety Division Unifouned Task Force, the Patrol Borough Task Force, the School Safety Division Borough Task Force, as well as the City Wide Special Services Unit. Additionally, each precinct has a School Sergeant and numerous Youth Officers who deal with day-to-day school issues, and each patrol borough has a full time School Captain acting as a liaison between the School Safety Division and other units within the Police Department.

The report required by this bill presents a serious potential danger to the safety of the school community, including the agents themselves. If the number of school safety agents assigned to each individual school were made public routinely, someone wishing to do harm could pick up on a pattern of deployment and particular schools or agents could be targeted for criminal or disruptive behavior. This would leave smaller schools that typically have one or two agents assigned vulnerable.

Deployment in individual schools is a matter to be determined in an atmosphere of constant change, rather than a quarterly measurement that can be used as an artificial benchmark that may not reflect current conditions and resources. Accordingly, I hereby disapprove Introductory Number 322-A.

Sincerely,

Michael R. Bloomberg

Communication from the Office of Management & Budget – Pursuant to Section 107(e) of the New York City Charter, appropriate new revenues of $553.6 in fiscal year 2005. (MN - 2)

December 14, 2004

TO THE CITY COUNCIL

Dear Council Members:

In accordance with Section 107 e) of the New York City Charter, I seek your approval to appropriate new revenues of $553.6 million in fiscal year 2005.

This modification - MN 2 - appropriates $354.1 million to the Budget Stabilization Account in the City's Debt Service budget and $79.8 million to the General Reserve in the Miscellaneous Budget and provides payment of $119.7 million of Municipal Assistance Corporation Debt Service in new unit of appropriation 001.

The $553.6 million of new revenues results from forecasted increases

in tax revenues of $800.3 million and miscellaneous revenues of $153.3 million offset by a reduction in anticipated State aid of $400 million.

Your approval of modification - MN 2 - is respectfully requested.

Yours truly,

Report for Int. No. 454-A

Report of the Committee on Finance in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to providing a film production credit.

The Committee on Finance to which was referred on September 9, 2004 (Minutes, page 4083) the annexed amended proposed local law respectfully

REPORTS:

Today the Finance Committee will hear Proposed Int. No. 454-A, a proposed local law that would provide a refundable credit against the City's General Corporation Tax (GCT) and Unincorporated Business Income Tax (UBT) for certain costs incurred in the production of films in the City of New York, for the purpose of providing financial incentives for the production of films and television shows in the City. A first hearing on this legislation was held on December 1, 2004.

BACKGROUND

According to representatives of the film and television industry (the "industry"), New York City currently has a 12% share of the market in the film, television and commercial production market that accounts for expenditures in the City of approximately $3 billion annually.[a] New York City is second only to Los Angeles which dominates with a 60% share of the market. According to industry representatives, New York City's share has been declining slightly in the last several years with an increase in 2002.[b]

In general it appears that the production of a film or television series is accomplished by a group of investors who form a limited liability company (LLC) or partnership, which holds the rights to the film or show being produced and essentially makes the expenditures for stars and directors salaries, crew, stage-work, post-production costs, etc. needed to produce the film or show (see below). According to the Department of Finance, many of these entities do not produce income during the production period and therefore do not owe taxes.

The expenditures attendant to the production of a film or television show include not just the costs of actors', producers' and directors' salaries and scripts, referred to as "above the line" costs, but also the cost of using studio facilities, sets, wardrobe, makeup, crew-work, catering, hotel stays and extras. There are also costs for editing, adding in music and titles, and processing which are called post-production costs. The costs such as those for studio facilities, crews and post-production costs are often referred to as "below-the-line" costs.

According to the Mayor's Office of Film, Theatre and Broadcasting (the Mayor's Film Office), a typical one hour television series could result in $2 million in spending per episode in the City, while a typical half hour sit-corn series could result in about $1 million in spending, with approximately half of the costs below-the-line. Typically, 22 shows are produced each season. A mid-range budget feature length film costing $10 to $20 million would typically also have about half of its costs below-the-line.[c]

According to industry representatives, decisions about where to shoot a movie or television series are made by the business and creative executives of a studio. The three primary factors in determining where a film or television show will be produced are: (1) Demands made by "stars" or talent; (2) Cost; and (3) Script requirements. According to these representatives, New York City derives its share of film and television production from star demands and script requirements (i.e. where a script calls for New York City settings), but where cost is the motivating factor New York City tends to lose out to other locations. Moreover, according to industry representatives, when a script calls for shooting in New York City, often the location work will be done in the City while the actual studio production will take place elsewhere - at studios in locations where the costs of production are lower. According to representatives of the industry, New York City ranks behind Los Angeles and Toronto in its share of films using the City as the primary location for production. Los Angeles and Toronto are able to ensure that 80% and 55% of the mid-budget films that do some shooting there respectively use those cities as the primary location for production while New York City only has about a 40% "retention" rate. Thus, according to industry representatives, if neither a film nor television series' script or stars require or demand production in New York City, cost factors generally dictate that it will be produced elsewhere.[d]

Both the Mayor's Film Office and industry representatives believe that one of the reasons contributing to this is the rise in the provision of tax incentives by other jurisdictions designed to lure film and television production to those jurisdictions. While New York State (as well as the City)[e], along with numerous other states, provide exemptions from sales tax on equipment and services used in production and post-production, more recently some jurisdictions have begun providing tax credits or rebates for costs associated with film and television production in those states.

According to the Mayor's Film Office, in the mid-1990s Canada began offering substantial tax credits for film production based upon salary costs incurred. The credits are substantial and refundable, and are provided both at the federal level and the provincial level Thus, the federal incentive is a 25% credit on all labor expenditures (up to a certain percent of the total production cost) and this federal credit is coupled with provincial credits ranging from 11% of labor costs to 20% of labor costs[f] .It appears that these credits, coupled with favorable exchange rate have allowed Toronto and Vancouver to become major film product cities with the value of U.S. film production spending in Toronto rising from $84.7 million 1993 to almost $570 million in 2001,[g] and with total production revenues in Vancou exceeding $1 billion in 2003.[h] However, since 2001 it appears that the rising Canadian do and increased competition and incentives offered by other countries are contributing to a substantial decline in Canadian production.[i]

Since the mid-1990s, a number of other foreign jurisdictions and U.S. states h implemented incentive programs for film production. According to the Mayor's Film Office the late 1990s, Puerto Rico and the United Kingdom enacted tax incentives and since 2000, of jurisdictions enacting tax credit or rebate incentives for film production include Australia (12. refundable cost tax offset), Louisiana (15% transferable investor tax credit and 20% labor credit), New Mexico (15% refundable tax credit), New Zealand (12.5% cost rebate - refundable) and Illinois (25% labor credit)[j] Pennsylvania and Mississippi have just received adopted incentive programs that are just beginning.[k] Louisiana's tax credits are credited essentially creating a film production industry in New Orleans.[l] In cases in which these credits are refundable or enacted as rebates, the production companies that do not owe taxes receive payments equal to the refundable portion of the credit. Where the tax credit is transferable (e.g. in Louisiana), the film production company that does not have sufficient income to offset the credit may sell the credit to an entity that does.

According to the Mayor's Film Office, a recent change in the federal tax code has been made in hopes of encouraging domestic film production. This year's Federal tax bill allows an immediate deduction for film and television productions under $15 million ($20 million in certain low income communities).[m]

EMPIRE STATE FILM PRODUCTION CREDIT

On August 20, 2004 New York State enacted a law providing a State "Empire State Film Production Credit," and authorizing the City to provide a film production credit ass well (the "State Law").[n] Generally speaking, the State credit is a credit on the State Corporation Tax and Personal Income Tax available to production companies and partners in production companies. It is a refundable credit equal to 10% of below the line costs incurred in the production of a film or television show (with certain exceptions) as long as at least 75% of the production's studio expenses (excluding post production costs) occur at "qualified production facilities" within New York State." If the amount spent on below the line costs for stage work (excluding post production costs) at qualified production facilities in the state exceeds $3 million, then the production company would be eligible to receive that credit against all its below the line expenses occurred in New York State, whether those expenses were incurred at a studio or on location in the State. If the amount spent on below the line costs for stage work at qualified production facilities in the state is less than $3 million, the credit would only be available against below the line costs incurred on location if the number of days spent on location in the State are at least 75% of the total number of days spent on location anywhere in the production of the film or television show.

Generally speaking, the State Law defines the types of costs to which the credit applies as below the line costs for tangible goods and services used directly and predominantly in the production (including pre and post-production) of a "qualified film." Thus, above the line costs such as actors, directors, and writers salaries and scripts are not considered "production costs" while "technical and crew production costs" such as costs for film studios, props, makeup, sets etc. are included. However,

background actors with no scripted lines are specifically included in the types of costs to which the credit may apply.

The types of films to which the State Legislation applies are "feature-length films, television film, television pilot and/or each episode of a television series..." However, there are a number of exceptions. The credit would not be available to commercials or music videos. In addition, the credit would not be available for the production of documentaries, news programs, talk shows, instructional films, films or programs consisting primarily of "stock footage", sports programs or events, game shows, reality shows, soap operas, award ceremonies or industrial films.

Finally, to qualify for the credit, 75% or more of a production's studio work in the City must take place at a "qualified film production facility" which is a studio facility in which films are produced and which contains at least one sound stage having a minimum of 7000 square feet of contiguous production space.

For purposes of the State Corporation Tax, the credit cannot reduce the corporation tax owed below the minimum tax. If the full amount of the credit would reduce the tax below the minimum tax, then fifty percent of that amount of the credit that would bring the tax below the level of the minimum tax would be treated as an overpayment and refunded to the taxpayer, without interest. The remaining fifty percent could be carried over by the taxpayer to the following tax year and similarly used to reduce the tax with the remainder treated as an overpayment and refunded without interest. For purposes of the State Personal Income Tax, the credit can reduce the amount of the tax owed to zero, at which point fifty percent of the excess (that portion of the credit that would bring the tax below zero) would be treated as an overpayment and refunded to the taxpayer, without interest. The remaining fifty percent could be carried over by the taxpayer to the following tax year and be similarly used to reduce the tax with the remainder treated as an overpayment and refunded without interest.

The State Law provides that the credit applies to taxable years beginning with the 2004 taxable year but only applies to "qualified production costs" paid or incurred on or after August 20, 2004 - the effective date of the State Law. The State credit sunsets on August 20, 2008. The State credits are only allowed for the taxable year in which production is completed. Finally, the aggregate amount of the State credits for each tax year (under both the State Corporation Tax and the Personal Income Tax) is capped at $25 million. If applications are received for any tax year in excess of that amount, the excess will be treated as having been applied for on the first day of the next tax year.

AUTHORIZATION FOR CITY FILM TAX CREDIT

The State Law (as originally enacted) also authorized New York City to adopt and amend local laws providing a "substantially identical" credit against its General Corporation Tax (GCT) and City Personal Income Tax (City PIT). The City credit must be five percent of the "qualified production costs." The aggregate amount of City credits cannot exceed $12.5 million in any calendar year, and like the State Credit, if applications are received for any tax year in excess of that amount, the excess will be treated as having been applied for on the first day of the next tax year.

Upon passage of the initial State Law authorizing for the City film production tax credit, it was apparent that there were issues in the application of the credit to the City's tax laws. Unlike the State, the City imposes an Unincorporated Business Tax (UBT) on business entities other than corporations (including sole proprietorships),[o] while the State imposes no business tax on these entities, taxing only their owners through the State income tax. According to the Department of Finance, the State's credit is intended to flow through the partnership and be available to the individual partners. However, as originally drafted, the State Law applied this same structure to the portions of the State Law authorizing the City credit, without recognizing: (1) that the City has a UBT that partnerships and LLCs pay and (2) that the City does not have a non-resident tax. If enacted as originally authorized, the City film tax credit would not be available to film production companies which are partnerships or LLCs, but would instead only be available to those partners in the companies who are New York City residents who could claim their share of the credit on their City PIT return.

Because of this, the Administration drafted a proposed amendment to the State Law that would authorize the City to enact the film tax credit against the City UBT (in addition to the GCT) and repeal that portion of the State Law that authorizes the imposition of the credit against the City PIT. On December 7, 2004, the State Legislature adopted the proposed amendment to the State Law authorizing the City to impose a film tax credit. The amendment specifically authorizes the City to provide, in its local law, for differences in applying the credit to the City UBT. In addition, the amendment makes clear that the City credit would only be available to taxpayers that are film production companies and not to partners in such companies since at the City level the credit would be available to the partnership through the City UBT. Finally, the amendment makes clear that the City, in its local law, can determine when the credit would become effective.[p]

PROPOSED INT. NO. 454-A

Proposed Int. No. 454-A would provide a City film production tax credit against the City GCT -- as authorized by the State Law -- as well as the City UBT, as contemplated by the Administration's proposed amendment to the State Law (adopted by the Legislature and awaiting action by the Governor). The City tax credit would be a refundable credit equal to 5% of "qualified production costs" incurred in the production of a "qualified film" (defined as a film or television show with the same exceptions contained in the definition for purposes of the State credit) as long as at least 75% of the production's studio expenses (excluding post production costs) occur at "qualified production facilities" within the City. Just as with the State credit, if the amount spent on below the line costs for stage work (excluding post production costs) at qualified production facilities in the City exceeds $3 million, then the production company would be eligible to receive that credit against all its below the line expenses occurred in the City, whether those expenses were incurred at a studio or on location in the City. If the amount spent on below the line costs for stage work at qualified production facilities in the City is less than $3 million, the credit would only be available against below the line costs incurred on location if the number of days spent on location in the City are at least 75% of the total number of days spent on location anywhere in the production of the film or television show.

The film production credit would be taken after all other credits against the GCT or UBT were taken. In accordance with the part of the State Law authorizing the City Credit, the aggregate amount of City credits cannot exceed $12.5 million in any calendar year, and if applications are received for any tax year in excess of that amount, the excess will be treated as having been applied for on the first day of the next tax year.

The local law would take effect immediately except that the portion of the local law providing the credit against the City UBT would take effect on the date that the amendment to the State Law becomes effective. This version of the proposed local law has been amended so that the local law would apply to taxable years beginning on or after January 1, 2005 (and sunset on August 20, 2008 with the sunset of the State Law authorizing the City credit) but would apply to "qualified production costs" incurred or paid on or after August 20, 2004, for "qualified films" completed on or after January 1, 2005.

What follows is an example of the effect the proposed City film tax credit could have on a production company: A production company that is a partnership desires to produce a $20 million feature length film in which 40% of the production costs - or $8 million in costs -- would be below-the-line costs. More than two-thirds (or about $5.3 million) of these costs will be costs relating to studio work rather than "on location" work. If at least 75% of the company's qualified production costs (other than post production costs) attributable to studio work are incurred at a qualified studio (in the City), then the company would be eligible for the proposed City 5% credit in addition to the State 10% credit. Since 75% of these costs would be more than $3 million, the partners in the company could each take their share of the 10% State credit and the company itself would be eligible for the 5% City credit against all of its qualified costs (whether or not they are attributable to studio work or on location work).[q] Thus, the amount of the State credit would be $800,000 and the amount of the City credit would be $400,000. If 75% of the company's qualified production costs attributable to studio work were to total less than $3 million, then the company could only claim the credit against its qualified costs attributable to studio work (not location work), unless it could show that it spent at least 75% of its on location days shooting in the City. If the production company were a partnership that owed no taxes, it could receive a $200,000 City refund for the year that the filming is completed and carry over the remainder and receive it as a refund for the following year.

By Council Members Yassky, Gioia, The Speaker (Council Member Miller), Clarke, Sears, Weprin, Perkins, Quinn, Nelson, Comrie Jr., DeBlasio, Brewer, Addabbo Jr. and Gallagher (in conjunction with the Mayor)

A Local Law to amend the administrative code of the city of New York, in relation to providing a film production credit.

Be it enacted by the Council as follows:

Section 1. Section 11-604 of the administrative code of the city of New York is amended by adding a new subdivision 20 to read as follows:

20. Film production credit. (a)(1) allowance of credit. A taxpayer which is a qualified film production company, and which is subject to tax under this subchapter, shall be allowed a credit against such tax, pursuant to the provisions in subdivision (c) of this section, to be computed as hereinafter provided.

(2) The amount of the credit shall be the product of five percent and the qualified production costs paid or incurred in the production of a qualified film, provided that the qualified production costs (excluding post production costs) paid or incurred which are attributable to the use of tangible property or the performance of services at a qualified film production facility in the production of such qualified film equal or exceed seventy-five percent of the production costs (excluding post production costs) paid or incurred which are attributable to the use of tangible property or the performance of services at any film production facility within and without the city of New York in the production of such qualified film. However, if the qualified production costs (excluding post production costs) which are attributable to the use of tangible property or the performance of services at a qualified film production facility in the production of such qualified film are less than three million dollars, then the portion of the qualified production costs attributable to the use of tangible property or the performance of services in the production of such qualified film outside of a qualified film production facility shall be allowed only if the shooting days spent in the city of New York outside of a film production facility in the production of such qualified film equal or exceed seventy-five percent of the total shooting days spent within and without the city of New York outside of a film production facility in the production of such qualified film. The credit shall be allowed for the taxable year in which the production of such qualified film is completed.

(3) No qualified production costs used by a taxpayer either as the basis for the allowance of the credit provided for under this subdivision or used in the calculation of the credit provided for under this subdivision shall be used by such taxpayer to claim any other credit allowed pursuant to this title.

(b) Definitions. As used in this subdivision, the following terms shall have the following meanings:

(1) "Qualified production costs" means production costs only to the extent such costs are attributable to the use of tangible property or the performance of services within the city of New York directly and predominantly in the production (including pre-production and post production) of a qualified film.

(2) "Production costs" means any costs for tangible property used and services performed directly and predominantly in the production (including pre-production and post production) of a qualified film. "Production costs" shall not include (i) costs for a story, script or scenario to be used for a qualified film and (ii) wages or salaries or other compensation for writers, directors, including music directors, producers and performers (other than background actors with no scripted lines). "Production costs" generally include technical and crew production costs, such as expenditures for film production facilities, or any part thereof, props, makeup, wardrobe, film processing, camera, sound recording, set construction, lighting, shooting, editing and meals.

(3) "Qualified film" means a feature-length film, television film, television pilot and/or each episode of a television series, regardless of the medium by means of which the film, pilot or episode is created or conveyed. "Qualified film" shall not include (i) a documentary film, news or current affairs program, interview or talk program, "how-to" (i.e., instructional) film or program, film or program consisting primarily of stock footage, sporting event or sporting program, game show, award ceremony, film or program intended primarily for industrial, corporate or institutional end-users, fundraising film or program, daytime drama (i.e., daytime "soap opera"), commercials, music videos or "reality" program, or (ii) a production for which records are required under section 2257 of title 18, United States code, to be maintained with respect to any performer in such production (reporting of books, films, etc. with respect to sexually explicit conduct).

(4) "Film production facility" shall mean a building and/or complex of buildings and their improvements and associated back-lot facilities in which films are or are intended to be regularly produced and which contain at least one sound stage.

(5) "Qualified film production facility" shall mean a film production facility in the city of New York, which contains at least one sound stage having a minimum of seven thousand square feet of contiguous production space.

(6) "Qualified film production company" shall mean a corporation which is principally engaged in the production of a qualified film and controls the qualified film during production.

(c) Application of credit. (1) The credit allowed under this subdivision for any taxable year shall not reduce the tax due for such year to less than the amount prescribed in clause (4) of subparagraph (a) of paragraph E of subdivision one of this section. Provided, however, that if the amount of the credit allowable under this subdivision for any taxable year reduces the tax to such amount, fifty percent of the excess shall be treated as an overpayment of tax to be credited or refunded in accordance with the provisions of section 11-677 of this chapter; provided, however, the provisions of section 11-679 of this chapter notwithstanding, no interest shall be paid thereon. The balance of such credit not credited or refunded in such taxable year may be carried over to the immediately succeeding taxable year and may be credited against the taxpayer's tax for such year. The excess, if any, of the amount of the credit over the tax for such succeeding year shall be treated as an overpayment of tax to be credited or refunded in accordance with the provisions of section 11-677 of this chapter. Provided, however, the provisions of section 11-679 of this chapter notwithstanding, no interest shall be paid thereon.

(2) Notwithstanding anything contained in this section to the contrary, the credit provided by this subdivision shall be allowed against the taxes authorized by this chapter for the taxable year after reduction by all other credits permitted by this chapter.

§2. Section 11-503 of the administrative code of the city of New York is amended by adding a new subdivision (m) to read as follows:

(m) Film production credit. (1) allowance of credit. A taxpayer which is a qualified film production company as defined in this subdivision and which is subject to tax under this chapter, shall be allowed a credit against the unincorporated business income tax imposed pursuant to this chapter, in accordance with the provisions in paragraph (5) of this subdivision, to be computed as hereinafter provided.

(2) The amount of the credit shall be the product of five percent and the qualified production costs paid or incurred in the production of a qualified film, provided that the qualified production costs (excluding post production costs) paid or incurred which are attributable to the use of tangible property or the performance of services at a qualified film production facility in the production of such qualified film equal or exceed seventy-five percent of the production costs (excluding post production costs) paid or incurred which are attributable to the use of tangible property or the performance of services at any film production facility within and without the city of New York in the production of such qualified film. However, if the qualified production costs (excluding post production costs) which are attributable to the use of tangible property or the performance of services at a qualified film production facility in the production of such qualified film are less than three million dollars, then the portion of the qualified productions costs attributable to the use of tangible property or the performance of services in the production of such qualified film outside of a qualified film production facility shall be allowed only if the shooting days spent in the city of New York outside of a film production facility in the production of such qualified film equal or exceed seventy-five percent of the total shooting days spent within and without the city of New York outside of a film production facility in the production of such qualified film. The credit shall be allowed for the taxable year in which the production of such qualified film is completed.

(3) No qualified production costs used by a taxpayer either as the basis for the allowance of the credit provided for under this subdivision or used in the calculation of the credit provided for under this subdivision shall be used by such taxpayer to claim any other credit allowed pursuant to this title.

(4) Definitions. As used in this subdivision, the following terms shall have the following meanings:

(A) "Qualified production costs" means production costs only to the extent such costs are attributable to the use of tangible property or the performance of services within the city of New York directly and predominantly in the production (including pre-production and post production) of a qualified film.

(B) "Production costs" means any costs for tangible property used and services performed directly and predominantly in the production (including pre-production and post production) of a qualified film. "Production costs" shall not include (i) costs for a story, script or scenario to be used for a qualified film and (ii) wages or salaries or other compensation for writers, directors, including music directors, producers and performers (other than background actors with no scripted lines). "Production costs" generally include technical and crew production costs, such as expenditures for film production facilities, or any part thereof, props, makeup, wardrobe, film processing, camera, sound recording, set construction, lighting, shooting, editing and meals.

(C) "Qualified film" means a feature-length film, television film, television pilot and/or each episode of a television series, regardless of the medium by means of which the film, pilot or episode is created or conveyed. The excess, if any, of the amount of the credit over the tax for such succeeding year shall be treated as an overpayment of tax to be credited or refunded in accordance with the provisions of section 11-526 of this chapter, provided, however, that notwithstanding the provisions of section 11-528 of this chapter, no interest shall be paid thereon.

§5. The Mayor's Office of Film, Theater and Broadcast shall, in accordance with §7 of Part P of Chapter 60 of the Laws of 2004, promulgate rules to establish procedures for the allocation of tax credits as required by section 4 of this local law. At this point the Speaker (Council Member Miller) announced that the following items had been **preconsidered** by the Committee on Finance and had been favorably reported for adoption.

Report for M-413

Report of the Committee on Finance in favor of approving Communication from the Office of Management & Budget regarding the Transfer City funds between various agencies in fiscal year 2005 to implement changes to the City's expense budget, pursuant to Section 107(b) of the New York City Charter. (MN - 1)

The Committee on Finance to which was referred on December 15, 2004 the annexed communication respectfully

REPORTS:

Introduction. At a meeting of the Committee on Finance of the City Council of the City of New York on December 15, 2004, the Committee on Finance received a communication, dated December 14, 2004 from the Office of Management and Budget of the Mayor of The City of New York, of a proposed request, (the "Modification"), to modify units of appropriation and transfer city funds between units of appropriation in the Fiscal 2005 Expense Budget (as defined below) pursuant to Section 107(b) of the Charter of the City of New York (the "Charter").

Analysis. The Council annually adopts the City's budget covering expenditures other than for capital projects (the "expense budget") pursuant to Section 254 of the Charter. On June 24, 2004, the Council adopted the expense budget for fiscal year 2005 (the "Fiscal 2005 Expense Budget"). This modification (MN-1) represents the transfer of funds within and between various agencies to implement changes to the City's expense budget as reflected in the City's October Financial Plan, and reallocates appropriations within and between various City agencies to reflect spending.

If the Mayor wishes to transfer part or all of any unit of appropriation to another unit of appropriation from one agency to another or such that the transfer results in any unit of appropriation being increased or decreased by the greater of five percent or $50,000, Section 107(b) of the Charter requires that the Mayor must first notify the Council of the proposed action. Within 30 days after the first stated meeting of the Council following receipt of such notice, the Council may disapprove such proposed action. If the Council fails to approve or disapprove such proposed action within such 30-day period, the proposed action becomes effective and the Mayor has the authority to make such transfer.

Description of Above-captioned Resolution. In the above-captioned resolution, the Council would approve the Modification pursuant to Section 107(b) of the Charter. Such resolution would take effect as of the date of adoption.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

At this point the Speaker (Council Member Miller) announced that the following items had been **preconsidered** by the Committee on Finance and had been favorably reported for adoption.

Report for M-414

Report of the Committee on Finance in favor of approving Communication from the Office of Management & Budget – Pursuant to Section 107(e) of the New York City Charter, appropriate new revenues of $553.6 in fiscal year 2005. (MN - 2)

The Committee on Finance to which was referred on December 15, 2004 the annexed communication respectfully

Introduction. At the meeting of the Committee on Finance of the City Council on December 15th, 2004, the Council received a communication, from the Office of Management and Budget of the Mayor, dated December 14th, 2004, of a proposed request to modify, pursuant to Section 107(e) of the Charter of the City of New York, the Fiscal 2005 Expense Budget, and the revenue estimate related thereto prepared by the Mayor as of June 24, 2004, pursuant to Section 1515(a) of the Charter.

Analysis. The Council annually adopts the City's budget covering expenditures pursuant to Section 254 of the Charter. On June 24, 2004, the Council adopted the expense budget for fiscal year 2005 (the "Fiscal 2005 Expense Budget"). On June 24, 2004, the Mayor submitted to the Council a revenue estimate related to the Fiscal 2005 Expense Budget. Circumstances have changed since the Council adopted the Fiscal 2005 Expense Budget.

Section 107(e) provides one mechanism for the Mayor and the Council to amend the expense budget and related revenue estimate to reflect changes in circumstances that occur after adoption of a budget. Section 107(e) permits the modification of the budget in order to create new units of appropriation, to appropriate new revenues from any source other than categorical federal, state and private funding or to use previously unappropriated funds received from any source.

Discussion of Above-captioned Resolution. The above-captioned resolution would authorize the modifications to the Fiscal 2005 Expense Budget and related revenue estimate requested in the Communication.

This modification (MN-2) seeks to increase revenues in the net amount of $553,565,268 for Fiscal 2005.The source of the increases includes an additional $800.3 million in tax revenue, an increase in miscellaneous revenue sources of $153.3 million, and decreases in anticipated State aid of $400 million.

The increase in tax revenue is a result of the combination of strong collections of real estate related tax revenue sources, as well as personal income tax and bank tax collections exceeding expectations. Also included is additional sales tax revenue as the result of the delay in the restoration of the exemption of clothing purchases less than $110 until the end of May 2005.

Miscellaneous revenue increases include $27 million in additional net interest income resulting primarily from increased cash balances, a reimbursement of the $119.7 million the City committed to fund the Municipal Assistance Corporation 1st quarter retention requirement and $6.7 million in additional tobacco settlement revenue.

This revenue modification uses the increases in revenue outlined above to provide for an increase of $354 million to the Budget Stabilization Account ("BSA") in the Fiscal 2005 debt service budget, bringing the balance of the account to $574 million. The Fiscal 2005 BSA balance is used to prepay a portion of Fiscal 2006 long term-debt service and other permissible prepayments in Fiscal 2006. Additionally, $119.7 million is allocated to fund the Fiscal 2005 first quarter Municipal Assistance Corporation debt service retention requirement. The remaining $79.8 million will be allocated to the General Reserve within the miscellaneous expense budget.

The resolution would also direct the City Clerk to forward a certified copy thereof to the Mayor and the Comptroller so that Mayor, the Comptroller and the City Clerk may certify the Fiscal 2005 Expense Budget as amended thereby as the budget for the remainder of the fiscal year. The above-captioned resolution would take effect as of the date adopted.

FROM: Pablo Zangerle
Deputy Director, Finance Division

DATE: December 15, 2004

SUBJECT: A Preconsidered Budget Modification (MN-2) for Fiscal 2005 that will recognize a net increase in revenues of $553,565,268.

INITIATION: By letter dated December 14, 2004, the Director of the Office of Management and Budget submitted to the Council pursuant to section 107(e) of the New York City Charter a request to increase revenues by $553,565,268.

BACKGROUND: This modification (MN-2) seeks to increase revenues in the net amount of $553,565,268 for Fiscal 2005. This amount includes an additional $800.3 million in tax revenue, an increase in miscellaneous revenue sources of $153.3 million, and decreases in anticipated State aid of $400 million.

This revenue modification provides for a increase of $354 million to the Budget Stabilization Account ("BSA") in the Fiscal 2005 debt service budget, bringing the balance of the account to $574 million. The Fiscal 2005 BSA balance is used to prepay a portion of Fiscal 2006 long term-debt service and other permissible prepayments of Fiscal 2006 expenses. Additionally, $119.7 million is allocated to fund the Fiscal 2005 first quarter Municipal Assistance Corporation debt service retention requirement. The remaining $79.8 million will be allocated to the General Reserve within the miscellaneous expense budget.

FISCAL IMPACT: This modification represents a net increase in the Fiscal 2005 budget of $553,565,268.

Accordingly, your Committee recommends its adoption.

In connection herewith, Council Member Weprin offered the following resolution:

Res. No. 734

Whereas, Section 107(e) of the Charter requires the City Council and the Mayor to follow the procedures and required approvals pursuant to Sections 254, 255 and 256 of the Charter, without regard to the dates specified therein, in the case of the proposed appropriation of any new revenues and the creation of new units of appropriation; and

Whereas, Section 107(e) of the Charter requires that any request by the Mayor respecting an amendment of the budget that involves a increase in the budget shall be accompanied by a statement of the source of current revenues or other identifiable and currently available funds required for the payment of such additional amounts, attached hereto as Exhibit B (together with the Request to Appropriate, the "Revenue Modification");

NOW, THEREFORE, the Council of the City of New York hereby resolves as follows:

1. **Approval of Modification.** The City Council hereby approves the Revenue Modification pursuant to Section 107(e) of the Charter.

2. **Further Actions.** The City Council directs the City Clerk to forward a certified copy of this resolution to the Mayor and the Comptroller as soon as practicable so that the Mayor, the Comptroller and the City Clerk may certify the Fiscal 2005 Expense Budget as amended by this resolution as the budget for the remainder of the fiscal year.

Dear Council Members:

In accordance with Section 107(e) of the New York City Charter, I seek your approval to appropriate new revenues of $553.6 million in fiscal year 2005.

Reports of the Committee on Governmental Operations

Report for Int. No. 124-A

Report of the Committee on Governmental Operations in favor of approving and adopting, as amended, notwithstanding the objection of the Mayor, a Local Law to amend the charter and the administrative code of the city of New York, in relation to the requirements of the campaign finance program for city elections, the requirements of transition and inauguration entities for candidates elected to the offices of mayor, public advocate, comptroller, borough president, and member of the city council, participation in the New York City Campaign Finance Program by self-funded candidates, the debate program, and limiting the use of government resources during an election year.

The Committee on Consumer Affairs to which was referred on February 4, 2004 (Minutes, page 526) and originally approved by the Council on October 27, 2004 (Minutes, page 4700) the annexed amended proposed local law respectfully

REPORTS:

INTRODUCTION

On October 26, 2004, the Committee on Governmental Operations voted in favor of Introductory Number ("Int. No.") 124-A, by a vote of 8 in the affirmative and one in the negative; in favor of Int. No. 371-A, by a vote of 8 in the affirmative and one in the negative; and in favor of Int. No. 466-A, by a vote of 8 in the affirmative and one in the negative. On October 27, 2004, the Council voted on and adopted Int. No. 124-A by a vote of 42 to 7; voted on and adopted Int. No. 371-A by a vote of 42 to 7; and voted on and adopted Int. No. 466-A by a vote of 43 to 6. On November 24, 2004, the Mayor sent to the Council three messages, vetoing these bills: Message 382 ("M382"), vetoing Int. No. 124-A; M383, vetoing Int. No. 371-A; and M384, vetoing Int. No. 466-A. M382, M383, and M384 were presented to the Council at the Stated Meeting on December 7, 2004.

Today, the Committee on Governmental Operations, chaired by Deputy Majority Leader Bill Perkins, is conducting a hearing to vote on whether to override the Mayor's vetoes of Introductory Bill Numbers ("Int. Nos.") 124-A, 371-A and 466-A.

The Committee has conducted three hearings to evaluate the provisions of the bills,[1] proposals offered by the Campaign Finance Board, which seek to accomplish the following objectives:[2]

- Apply contribution and disclosure requirements, parallel to the requirements under the New York City Campaign Finance Act (the "Act"), to all candidates for the offices of mayor, public advocate, comptroller, borough president, and member of the city council.
- Halt Consumer Price Index adjustments on contribution and expenditure limits for ten years, at which point they will resume.
- Reduce areas of potential fraud and deception by disallowing public funds matching for vendor contributions and mandating disclosure of employee contributors that have some relationship with candidate.
- Further level the electoral playing field by altering the formula for paying public funds to participants facing high spending non-participants.
- Improve the effectiveness of the debate program.
- Permit limited participation in the Program by self-funded candidates so as not to exclude them from being able to abide by these campaign finance reforms.
- Consolidate and lower the out year expenditure limits, which helps streamline the process and better level the playing field.
- Require candidates transferring funds into the system to have to abide by all the rules of the Program as candidates in the Program must, and to charge related fundraising expenses against such transferred funds.
- Further restrict the use of governmental funds around election time so as not to favor public servants.

BACKGROUND

Established by the Council in 1988, the Program has proven itself a model for the nation and a first-rate example of successful campaign finance reform. Its objectives were to increase participation in the electoral process regardless of access to wealth, and to reduce undue influence by small concentrations of large contributors and special interests.[3]

Since its inception, the Council has built upon the legislation's foundation by enacting various amendments. In 1996, the Council enacted legislation that required all participating candidates for city-wide office to take part in public debates.[4] In 1998, the Council enacted legislation that, among other things, lowered the contribution limits, limited use of a candidate's personal funds, placed restrictions on expenditures for transitional and inaugural activities, limited corporate contributions and increased the matching rate to four public dollars for every one dollar.[5] In 2001, the Council enacted additional legislation to clarify the application of the four to one match in light of the ban on corporate contributions.[6] In January, 2003, the Council enacted another round of legislation to clarify and strengthen the Program's mandate. Such legislation, among other things, clarified the procedure for filing disclosure reports, engaging in political activities, and increased contribution limits for the sole purpose of candidates repaying campaign debt several years after being in such elective office.[7]

ANALYSIS OF INT. NO. 124-A

1. Section 1 of Int. No. 124-A provides a declaration of the legislative intent.

2. Section 2 provides the first substantive changes to the Act. Many changes in Section 2 are technical conforming changes that reference the newly created category of a "limited participant."[8] Subdivision 3 of Section 2 deletes a reference to a participant's threshold as such matter is already addressed in subdivision 2 of section 3-703 of the Act. Paragraph (f) of such subdivision is also amended to disallow contributions from vendors being matched with public funds. The Legislative Intent clarifies that the Council intends to disallow the matching of individual vendor contributions, but not contributions made from individuals working for a campaign or working for vendor companies. Subdivision 12 broadens the types of persons not included in the definition of "intermediary," easing any disclosure requirements around such class of persons. Subdivision 13 defines "limited participating candidates."

3. Section 3 of the bill is devoted mostly to conforming changes. Paragraph (m) is amended to allow the Board flexibility in reviewing receipts issued pursuant to section 12-110 of the administrative code. A new paragraph (n) is added to make clear that any participant who owes money or penalties from a previous election shall not qualify for public funds until all such outstanding amounts are paid, if timely notice has been given or, if no such notice has been given, the candidate must be given an opportunity to present to the board reasons he or she should be eligible to receive public funds.

4. Section 4 amends Section 3-703 of the Administrative Code.

(a) *Threshold Eligibility.* Subparagraphs 2(a)(i)-(iv) clarify that only the first $250 of matchable contributions will be counted toward the threshold for eligibility to receive public matching funds.[9] Additionally, subparagraph 2(a)(iv) would require council candidates to get 75 matchable contributions of ten dollars or more rather than only 50 such contributions, as is currently the case, to be eligible to be in the Program.

(b) Write-in candidates. Subdivision 5 is amended to disallow participants seeking nomination or election solely as write-in candidates, or who are opposed only by write-in candidates, to receive public funds.

(c) Disclosure of contributor's employer. Subparagraph 6(b)(iii) is amended to disallow receiving matchable funds for contributions from employees of a candidate or of an entity that such candidate has influence over, that total less than $99, unless employer information is disclosed.

[8] See subdivision 13 of this section for the definition of this term. Section 16 of the bill creates a new Administrative Code section entitled, "Limited Participation." This conforming change recurs throughout the bill.

[9] See subdivision 2 above.

(d) Inflationary adjustments. Contribution limits and expenditure limits are adjusted pursuant to changes in the Consumer Price Index ("CPI") and have increased precipitously over the years. Subdivision 7 is amended to halt such adjustments for ten years at which point they will resume.[10]

(e) Subdivision 13 clarifies that a candidate cannot be a participant and a limited participant at the same time.

(f) Restrictions on Funds Transferred into the Program from Elections Outside the Program. Newly added Subdivision 14 would subject funds transferred into the Program from state, federal and local political committees not participating in the Program, to the same rules that participants must abide by in the Program. This policy is inspired by the federal rule which prohibits transfers from state and local political committees into federal elections.[11] Such amendment is also in accord with Federal Election Commission opinions that federal funds should not be transferred into state and local political committees.[12]

This recommendation has a long history of support from governmental task forces that have studied the issue. In 1986, the State-City Commission on Integrity in Government (the "Sovern Commission") recommended that limitless transfers of funds between a candidate's own committees be prohibited, as did its successor commission, the New York State Commission on Government Integrity (the "Feerick Commission"). State-City Commission on Integrity in Government: *Report on a Bill on Campaign Financing and Public Funding of Election Campaigns*, April 1986, at pp. 6-7; New York State Commission on Government Integrity, *Government Ethics Reform for the 1990's*, at p. 109 (ed. This section does not apply to transfers between principal committees already under the purview of the Program and nothing in this section should be construed to amend any law or rule currently applied to such transfers.

Public Funds. Section 5 amends Section 3-705 of the Administrative Code.

Withholding a Portion of Public Funds. Subdivision 4 is amended to allow the Board to withhold up to 5% of public funds payable to participants until the final pre-election public funds payment. The amount of public funds for which a candidate is eligible may, in some circumstances, decrease over time. In addition, some campaigns fail to submit timely disclosure statements after they have received the maximum in public funds. The withholding would assist the Board in confirming that no participant receives an excessive amount of public funds for that election and serve as an incentive for timely filing of pre-election disclosure statements.

6. *Expenditure limitations and bonus matching funds.* Section 6 of Int. No. 124-A amends Section 3-706 of the Administrative Code.

(a) Inflationary adjustments. Paragraph 1(e) is amended to parallel subdivision 7 of section 3-703.[13]

(b) Consolidate Separate Calendar Year Spending Limits. Subdivision 2 is amended to simplify the spending limits by consolidating the two existing calendar year limits into one limit.[14] The separate primary election and general election limits would remain unchanged. The new limit would cover the first three years of the election cycle. The limits would be $270,000 for the citywide candidates; $120,000 for borough wide candidates; and $40,000 for City Council candidates.

(c) Multi-tiered Bonuses and Spending Limits for Participants and Limited Participants Faced by High-spending Non-Participants. Subdivision 3 is amended to provide for a multi-tiered bonus and spending limit regime. Under the current law, the bonus is triggered when a non-participant raises or spends half of the expenditure limit. The opposing participant can then receive an increased amount in matching funds at a higher rate and the expenditure limit is lifted. The bonus in place for participants facing a high-spending opponent, however, may not be substantial enough to let the participant compete more effectively against a truly high spending non-participant.

The bill creates another tier that would be triggered if a non-participant raised or spent three times the spending limit. The participant would then receive public matching funds at a rate of $6-to-$1 up to a cap equal to 125% of the spending limit.

Under both tiers, the spending limit would be increased or lifted, but the contribution limits and prohibitions would remain in effect. This local law will alter

[14] These current limits for a four-year election cycle are detailed in the following chart:

	Mayor	Comptroller/ Public Advocate	Borough President	City Council
Current 1st & 2d Year	$90,000	$90,000	$60,000	$24,000*
Current 3rd Year	$180,000	$180,000	$120,000	$40,000

* For the 2003 City Council elections, a two-year cycle, this pre-election spending limit was $3,000.

the formula for paying public funds to participants facing high-spending non-participants to reduce disparities in campaign expenditures that undermine fair competition and discourage participation in the City's landmark reform program. The Council finds that promoting fair competition and a level playing field are overriding goals of the City's campaign finance reform. Since large, unregulated campaign expenditures by non-participating candidates, including self-financed candidates, are contrary to these goals of reform, it is the intent of the Council that the New York City Campaign Finance Act not be interpreted or applied in a manner that exacerbates fundraising and spending disparities between participants and non-participants.

(d) Subdivision 5 has been deleted since the expenditure limitations in non-election years would be consolidated under the current proposal.[15]

7. Section 7 of Int. No. 124-A makes technical changes to the bill and conforms some references to the new provisions dealing with limited participants.

Mandatory Debates. Section 8 of the bill amends Section 3-709.5 of the Act.

(a) Require Debate Participants to Show a Minimum of Public Support. The bill amends paragraph 1(a) and subparagraph 5(B)(i) to limit eligibility for debates to those participants who meet objective, nonpartisan, and nondiscriminatory criteria set forth in a sponsor's application. Eligibility would not be limited to candidates from the two major parties. Under the current law, participation in the debates is limited, with certain exceptions, only to candidates who join the Program and who are opposed on the ballot. This amendment would allow the Board and the debate sponsors to allow, through objective means, only candidates that have attained some kind of minimal public support to debate. Such amendment intends to keep debates more interesting and focused for the public. The bill would also limit the second primary election debate to "leading contenders" and permit sponsors to invite non-participants if they meet the same objective, nonpartisan criteria that participants must meet.

(b) Eliminate One of the Two Run-off Primary Debates. A new paragraph 1(b) is added to eliminate one of the two required run-off primary debates. One run-off debate may encourage more sponsors to apply to implement the debates and thus ensure a larger audience for them. Also, one run-off debate may be sufficient to promote public discourse and would be less burdensome for sponsors and the candidates in the very brief time between the primary election and the date of the run-off election.

(c) Eliminate Alternate Forums. Paragraph 5(c) would be deleted removing the requirement of an alternative nonpartisan voter education program for citywide candidates excluded from the general election "leading contenders" debate, which would eliminate a significant administrative burden for the debate sponsors and the Board.

(d) Penalties for Failure to Debate. Subdivision 9 is amended to allow the Board to impose sanctions on candidates who fail to debate. The debate law currently requires candidates who fail to debate to return public funds they have received, but it has no explicit sanction for candidates who fail to debate and did not receive public funds. In 2001, a participant who had not qualified for public funds refused to attend a mandatory debate. The Board applied the general penalty provision of the Act to assess a penalty. The bill would clarify that participants and limited participating candidates who fail to participate in a mandatory debate may be subject to civil penalties, in addition to the other sanction of the return of public funds already provided for in the Act.

9. Section 9 of the bill amends Subdivision 1 of section 3-710 with a technical conforming change.

10. *Penalties.* Sections 10 and 11 of the bill amend Sections 3-710.5 and 3-711 of the Act. Such amendments apply the penalty sections of the Act to limited participants. Also, it has been the Board's practice to assess penalties of 10% of the amount in public funds received by a participant for failing to provide any response to a draft audit report. When a candidate has received over $100,000 in public funds, however, this formula is limited by the penalty provisions of the Act to $10,000. New paragraph 2(b) of Section 3-711 has been added so that the new maximum penalty for such individuals would be ten percent of the total public funds received by such candidate.

11. Section 13 of the bill makes a conforming change for newly created limited participants. Section 14 creates new reporting requirements for the board regarding limited participants. Section 15 makes more conforming changes regarding limited participants.

12. *Optional Limited Participation.* Section 16 of the bill adds a new Section 3-718 to the Administrative Code.

In recent years a number of candidates in various jurisdictions across the country have spent significant sums pursuing elective office. In the 2001 elections, record amounts were spent on the 2001 mayoral elections. The bill would create a new category of optional Program participation, "limited participation," open to candidates who finance all campaign expenditures with their personal funds. The aggregate expenditures made by these "limited participating candidates" would be limited to the same levels permitted for Program participants seeking the same office,

for the Lower Ma

[15] See section 6(b) above.

but no public funds would be available to them. Limited participating candidates would, however, be eligible to participate in the Board's Debate Program to the same extent as Program participants and, by their limited participation, would prevent the "bonus" provisions from going into effect. Under current law, when a Program participant is opposed by a high-spending non-participant, the Program participant receives increased matching funds from the Board and his or her expenditure limit is lifted. Under the bill, if a self-funded non-participant instead campaigns as a limited participating candidate who abides by applicable expenditure limits, then benefits would not accrue to the Program participant, and the City would avoid increased costs.

The option available under the bill would support the aims of the Program. While self-funding avoids the influence of private contributions by third parties, it can, on the other hand, make the playing field very uneven and can have a detrimental effect on Program participation. The "level playing field" with respect to expenditures can be more fully maintained if self-funded candidates choose to be limited participants. The level of spending undertaken by self-financed candidates may also create pressure on their opponents not to join the Program in order to stay competitive (since the Program places limits on expenditures and, historically, additional limits on contributions). If a high-spending non-participant chose to restrict his or her spending by becoming a limited participating candidate pursuant to this bill, the pressure among other candidates not to join the Program would be diminished. Choosing limited participant status also permits a candidate to contain Program costs by not triggering any bonus provisions.

The bill would provide that candidates choosing to be "limited participating candidates" would be required to abide by requirements that generally parallel provisions applicable to Program participants, including the principal committee requirement, the participation deadline, disclosure and audit requirements,[16] the infraction, violation and penalty provisions, the joint campaign activities provision and the debate provisions.

Limited participating candidates would not be permitted to accept contributions from others, whether monetary or in-kind; all campaign activity would have to be funded entirely through the personal finances of the candidate. No loans would be permitted, whether from the candidate or otherwise. Advances by the candidate would be permitted to the extent provided by Board rule. Limited participating candidates would not be eligible to receive public funds.

13. *Transition and Inauguration Entities*. Section 17 of the bill amends Section 3-801 of the Administrative Code.

The bill would confirm that candidates may fund their own transition and inauguration entities ("TIE's") without regard to the limits on the size of the donation, and would require that if a TIE has funds remaining after it has paid all liabilities, the surplus funds be returned to the TIE's donors (or, if this is impractical, to the Public Fund). In addition, TIE's would be prohibited from incurring any liabilities after January 31st in the year following the election, and from accepting any donations after those liabilities have been paid.

14. *Restrictions on the Use of Government Funds*. Section 18 of the bill amends Section 1136.1 of the Charter.

Local Law No. 40 of 1998 added § 1136.1 of the Charter, prohibiting certain uses of government funds and resources by city employees or officers for political purposes. The bill would strengthen this law by lengthening the prohibition on the use of government resources for mass mailings before an election from 30 to 90 days, but without impinging on an elected official's need to respond to constituents, and permitting one mailing to constituents after the adoption of the City's budget.[17] The use of the term "nearly identical" in defining such mass mailing is meant to allow for the common practice of elected officials tailoring their newsletters to various constituencies. Often such newsletters may appear quite distinct, but they are deemed to be part of the same mass mailing. The bill would further grant express authority to the Campaign Finance Board to investigate and determine violations of paragraph (b) of subdivision 2 and, if such violation is found, whether such use of government resources also violates the Act or constitutes a contribution or expenditure under the Act.

Int. Nos. 371-A and 466-A

Non-participant Obligations. These bills add a new Section 3-719 to the Administrative Code that would provide that non-participating candidates would be required to abide by requirements that parallel many restrictions applicable to Program participants and limited participants:

(a) Disclosure, Audit and Penalties (Int. No. 466-A). Non-participating candidates would be required to disclose all campaign activity in disclosure statements filed electronically with the Board and to retain and provide to the Board upon request documentation of campaign finance activity, which would be subject to audit. Disclosure provided by non-participating candidates would be posted to the Board's Web site in the same manner as disclosure currently provided by Program participants. Non-participating candidates would be subject to the same violation and penalty provisions applicable to Program participants.

(b) Contributions (Int. No. 371-A). Non-participating candidates would be subject to most of the same contribution limitations applicable to Program participants, except that, for constitutional reasons, the Program's limits on candidates' contributions to their own campaigns would not apply to non-participants. Thus, the bill would make clear that non-participating candidates may self-fund their own campaigns with their own funds or property.

(c) Expenditures. For constitutional reasons, non-participating candidates would not be subject to the expenditure limitations applicable to Program participants and limited participating candidates.

(d) Public Funds. Non-participating candidates would not be eligible to receive public funds.

In proposing these changes, the Council notes that the Municipal Home Rule Law, which implements the New York State Constitution's grant of home rule powers, broadly authorizes municipalities to regulate local elections. The Council believes that this application of the local campaign finance law to non-participating candidates would not be preempted by New York State Election Law. *See* Center for Governmental Studies, *A Statute of Liberty: How New York City's Campaign Finance Law is Changing the Face of Local Elections* (2003) at 34-41; Richard Briffault, *New York City's Authority to Regulate Campaign Finances in Municipal Elections* (2003).

The local laws would become effective immediately except amendments made to subdivisions two and five of section six of Int. No. 124-A, which shall become effective on January 1, 2006.

(The following is the Fiscal Impact Statement for Int. No. 124-A:)

FISCAL IMPACT STATEMENT:

	Effective FY 05	FY Succeeding Effective FY 06	Full Fiscal Impact FY 06
Revenues (+)	$0	minimal	minimal
Expenditures (-)	($67,925)	($3.83 million)	($3.83 million)
Net	($67,925)	($3.83 million)	($3.83 million)

IMPACT ON REVENUES: There would be minimal impact on revenues resulting from the enactment of this legislation. Although the legislation would increase the number of candidates who would be required to file campaign finance information and thereby increase the number of candidates who might be subject to penalties for non-compliance, only minimal revenues are likely. This is so because the legislation is crafted to encourage compliance as opposed to generate penalty revenues.

IMPACT ON EXPENDITURES: There would be a net expenditure derived from the enactment of this legislation. Increased Fund payments would result from the section that increases the matching fund rate and the maximum receivable Fund payment for participating candidates who face high-spending opponents. Assuming that, in the course of both the Primary and the General elections, one mayoral and four city council candidates receive these increased Fund payments, the projected costs would amount to approximately $3.7 million (see attachment A). Moreover, this legislation mandates the public disclosure of campaign finance activities by all candidates seeking the above city offices, which would result in PS costs of $78,650 and OTPS costs of $57,200 for the Campaign Finance Board (CFB) to administer (see Attachment B). If these assumptions prove accurate, the net expenditure would be $3.83 million. The half-year cost of this legislation in Fiscal 2005 (consisting of half-year CFB costs) is $67,925.

[16] The burden of disclosure and record-keeping requirements for limited participating candidates will be substantially less than that for Program participants because limited participating candidates would not receive contributions from third parties, would not have to establish eligibility to receive public funds, and would not have to substantiate that the use of public funds received went only to "qualified" expenditures as required by law.

[17] Under federal law, members of the United States House of Representatives are not permitted to send government sponsored mass mailings postmarked fewer than 90 days before an election, and members of the United States Senate are not permitted to send government sponsored mass mailings postmarked fewer than sixty days before an election. Int. No. 124-A

By Council Members Perkins, James, Rivera, Gerson, Barron, Quinn, Gioia, Baez, Monserrate, Palma and Jackson.

A Local Law to amend the charter and the administrative code of the city of New York, in relation to the requirements of the campaign finance program for city elections, the requirements of transition and inauguration entities for candidates elected to the offices of mayor, public advocate, comptroller, borough president, and member of the city council, participation in the New York City Campaign Finance Program by self-funded candidates, the debate program, and limiting the use of government resources during an election year.

Be it enacted by the Council as follows:

Section 1. Declaration of Legislative Intent and Findings.

The New York City Campaign Finance Act, adopted by the New York City Council in 1988, has succeeded in enhancing competition for elective municipal offices, limiting campaign contributions and expenditures to reasonable levels, and vastly increasing public information about the sources and uses of campaign funds.

The Council finds that amendments to the New York City Campaign Finance Act, section 3-801 of the administrative code of the City of New York, and the charter of the City of New York, will further the goals of this landmark legislation.

This local law will alter the formula for paying public funds to participating candidates facing high spending non-participating candidates, thus further reducing disparities between participating and non-participating candidates. Additionally, this local law includes new provisions aimed at reducing expenditures of public funds in non-competitive races.

Further, the Council seeks to permit those candidates for municipal office who fund their campaigns entirely through the use of their personal funds to participate in the Campaign Finance Program to a limited degree, without extending the public financing provisions to these candidates. In doing so, the Council seeks to strengthen the City's campaign finance program by enabling self-funded candidates to participate in the program by limiting their expenditures, in return for which the bonus provisions of the law will not be triggered for participating candidates, thus reducing Program costs.

Further, the Council finds that matching individual vendor contributions with public funds may lead to abuses in the Program or the perception of abuses in the Program. Accordingly, the Council intends to disallow the matching of individual vendor contributions, but not contributions made from individuals working for a campaign or working for vendor companies.

Further, the Council intends to extend the prohibition on public servants sending mass mailings before an election from thirty to ninety days. Within such ninety-day period, public servants may send one such mass mailing following the adoption of the city budget to inform constituents of the details of such budget and other government matters.

Finally, the local law will improve key elements of the Debate Program. Since its inception in 1997, the Debate Program has provided voters with valuable public exposure to candidates for citywide office. The Council now seeks to amend the Debate Program based on its experience with two sets of debates – 1997 and 2001. These Debate Program changes will improve the functioning of debates, ease the process of selecting debate sponsors, and enhance the value of the Debate Program for City voters.

§2. Subdivisions 2, 3 and 12 of section 3-702 of the administrative code of the city of New York are amended and a new subdivision 13 is added to such section, to read as follows:

2. The term "principal committee" shall mean the authorized committee designated by a candidate pursuant to paragraph (e) of subdivision 1 of section 3-703 *or paragraph (a) of subdivision one of section 3-718* of this chapter.

3. Such review shall inform the candidate of relevant questions the board has concerning the candidate's: (i) compliance with requirements of this chapter and of the rules issued by the board; and (ii) qualification for receiving public funds pursuant to this chapter. In the course of this review, the board shall give candidates an opportunity to respond to and correct potential violations, before the deadline for filing a certification pursuant to paragraph (c) of subdivision one of this section, *or subdivision one of section 3-718*, and give candidates an opportunity to address questions the board has concerning their matchable contribution claims or other issues concerning eligibility for receiving public funds pursuant to this chapter; provided, however, this paragraph shall not apply to the last required disclosure report before the deadline for filing a certification pursuant to paragraph (c) of subdivision one of this section *or subdivision one of section 3-718*. Nothing in this paragraph shall preclude the board from subsequently reviewing such disclosure reports and taking any action otherwise authorized under this chapter.

The board shall issue instructions defining the circumstances in which such disclosure reports shall also include additional expenditures made by other political committees authorized by the participating candidate that originally received such contributions and additional expenditures made prior to such election cycle. Such expenditures shall be applied to the expenditure limit applicable under 3-706.

(c) Participating candidates shall have the burden of demonstrating that expenditures reported pursuant to paragraph (b) of this subdivision are not subject to the expenditure limit applicable under section 3-706 and are not a basis for reducing public funds payments pursuant to subdivision eight of section 3-705 of this chapter.

(d) Nothing in this subdivision is intended to modify or supersede any federal law that prohibits or otherwise restricts the use of campaign or donated funds by political committees, candidates or federal officeholders.

Such report shall set forth the amount of, and reasons for, any modifications it recommends.

(e) Not later than the first day of March in the year [nineteen hundred ninety] *two thousand eighteen* and every fourth year thereafter the campaign finance board shall (i) determine the percentage difference between the average over a calendar year of the consumer price index for the metropolitan New York-New Jersey region published by the United States bureau of labor statistics for the twelve months preceding the beginning of such calendar year and the average over the calendar year [nineteen hundred eighty-seven] *two thousand fifteen* of such consumer price index; (ii) adjust each expenditure limitation applicable pursuant to this subdivision by the amount of such percentage difference to the nearest thousand dollars and (iii) publish such adjusted expenditure limitation in the City Record. 2-a. (a) If the expenditures made by a candidate and his or her principal committee subject to the expenditure limitation of subdivision two of this section exceed the amount of the expenditure limitation applicable under such subdivision, such candidate or his or her principal committee shall not be ineligible to receive public funding for qualified campaign expenditures or be in violation of this chapter by reason of exceeding such limitation unless the amount by which such expenditures exceed such limitation is in excess of the expenditure limitation which next applies to such candidate or his or her principal committee pursuant to subdivision one of this section; and further provided that the amount of the expenditure limitation which next applies to such candidate or his or her principal committee, pursuant to subdivision one of this section, shall be reduced by the amount by which the expenditure limitation applicable under subdivision two of this section is exceeded.

(b) Nothing contained in paragraph (a) of this subdivision shall:

(i) operate to increase or decrease the amount of public funds that may be received pursuant to section 3-705 by the principal committee;

[(a)] *(i)* such expenditure limit *applicable to* [shall no longer apply to] participating candidates *and limited participating candidates* in such election for such office *shall be increased to one hundred fifty percent of such limit*; and

[(b)] *(ii)* the principal committees of such participating candidates shall receive payment for qualified campaign expenditures of five dollars for each one dollar of matchable contributions, up to one thousand two hundred fifty dollars in public funds per contributor (or up to six hundred twenty five dollars in public funds per contributor in the case of a special election); provided, however, that [(i)] *(A)* participating candidates in a run-off election shall receive public funds for such election pursuant to subdivision five of section 3-705 and shall not receive any additional public funds pursuant to this section, and [(ii)] *(B)* in no case shall a principal committee receive in public funds an amount exceeding two-thirds of the expenditure limitation provided for such office in subdivision one of this section.

(b) If any candidate in any covered election chooses not to file a certification as a participating or limited participating candidate pursuant to this chapter, and where the campaign finance board has determined that such candidate and his or her authorized committees have spent or contracted or have obligated to spend, or received in loans or contributions, or both, an amount which, in the aggregate, exceeds three times the applicable expenditure limit for such office fixed by subdivision one of this section, then:

(i) such expenditure limit shall no longer apply to participating candidates and limited participating candidates in such election for such office; and

(ii) the principal committees of such participating candidates shall receive payment for qualified campaign expenditures of six dollars for each one dollar of

matchable contributions, up to one thousand five hundred dollars in public funds per contributor (or up to seven hundred fifty dollars in public funds per contributor in the case of a special election); provided, however, that (A) participating candidates in a run-off election shall receive public funds for such election pursuant to subdivision five of section 3-705 and shall not receive any additional public funds pursuant to this section, and (B) in no case shall a principal committee receive in public funds an amount exceeding one hundred twenty-five percent of the expenditure limitation provided for such office in subdivision one of this section.

4. (b) In reviewing claims that expenditures are exempt from expenditure limitations by reason of paragraph (a) of this subdivision, the board shall not require the participating candidate or principal committee to provide detailed documentation substantiating such exempt expenditure claims unless the board has reason to believe that expenditures have been erroneously or falsely claimed to be exempt in disclosure reports.

(c) Notwithstanding paragraph (b) above, a participating candidate shall be required to provide detailed documentation substantiating all exempt expenditure claims made pursuant to this subdivision if the aggregate exempt expenditure claims made by the participating candidate exceed an amount equal to seven and one-half percent of the participating candidate's applicable expenditure limitation.

[5. The campaign finance board may adopt a regulation providing for expenditure limitations for expenditures made in the two calendar years preceding the calendar year specified in subdivision two of this section, in accordance with section eleven hundred five of the charter, provided, however, that notwithstanding any inconsistent provision of section eleven hundred five of the charter, the city council may within forty-five days after the first stated meeting of the city council following the receipt of a copy of such regulation, as provided in subdivision c of section eleven hundred five of the charter, approve or disapprove such regulation by adoption of an appropriate resolution. Upon approval by the city council such regulation shall take effect as provided therein. If the city council disapproves such regulation, the board shall not be precluded from adopting and transmitting to the city council for its approval or disapproval any other such regulation providing for such expenditure limitations in accordance with this subdivision. If the city council does not approve or disapprove such regulation within such forty-five day period, such regulation shall be deemed to be approved on the forty-sixth day after such first stated meeting.]

The board shall promulgate rules regarding reasonable times to respond to such requests. The board shall make public the questions of interpretation for which advisory opinions will be considered by the board and its advisory opinions, including by publication on its internet website.

(b) The board shall develop a program for informing candidates and the public as to the purpose and effect of the provisions of this chapter. The board shall prepare and make available educational materials, including compliance manuals and summaries and explanations of the purposes and provisions of this chapter. These materials shall be prepared in plain language. The board shall prepare and make available materials, including, to the extent feasible, computer software, to facilitate the task of compliance with the disclosure and record-keeping requirements of this chapter. When disclosure reports are generated by use of the board's disclosure software, the board shall provide an opportunity for [participating] candidates to test their electronic filings on any of the three business days prior to the deadline for the filing of such disclosure reports.

8. The board shall have the authority to promulgate such rules and regulations and provide such forms as it deems necessary for the administration of this chapter. The board shall promulgate regulations concerning the form in which contributions and expenditures are to be reported, the periods during which such reports must be filed and the verification required. For [a] *primary*, general [election] *and special elections*, the second debate shall be a debate among the leading contenders for the office, as described in paragraph (b) of subdivision five of this section.

4. Organizations which are not affiliated with any political party or with any holder of or candidate for public office, which have not endorsed any candidate in the pending primary, special, general, or [runoff] *run-off* election for the city-wide office shall be eligible to sponsor one or more of the required debates. The rules for conducting such debates shall be solely the responsibility of the organizations selected but shall not be made final without consultation with the campaign finance board. The organizations selected shall be responsible for choosing the date, time and location of the debates.

5. Written applications by organizations to sponsor [an election] *a* debate shall be submitted to the campaign finance board on a form provided by the board not later than a date chosen by the board in any year in which an election is held for city-wide offices.

(a) The written application shall:

(i) demonstrate that the organization and any proposed co-sponsor meet the criteria of subdivision four of this section;

(ii) specify the election and office for which the organization seeks to sponsor the debate;

(iii) set forth the date, time, duration, and location of the debate and the specific and exclusive circumstances under which the date or time may be changed, together with a provision for when the rescheduled debate would be held;

(iv) provide a detailed description of the format and ground rules for the debate;

(v) verify that the staging, promotion, and coverage of the debate shall be in conformance with all applicable laws;

(vi) include an agreement to indemnify the city for any liability arising from the acts or omissions of the sponsor; and

(vii) set forth plans for publicity and for broadcast and other media coverage for the debate[.]; *and*

(viii) set forth the criteria for determining which candidates are eligible to participate in each debate the organization seeks to sponsor, in accordance with paragraph (b) of this subdivision.

(b) (i) *Except as otherwise provided in subparagraph (ii) below, each debate for a primary, general or special election shall include only those participating candidates or limited participating candidates the sponsor of each such debate has determined meet the non-partisan, objective, and non-discriminatory criteria set forth in any agreement between the sponsor and the board; provided, however, that the criteria for the first debate for a primary, general, or special election shall provide, among other criteria, (A) that a participating candidate shall be eligible to participate in such debate if he or she has, by the last filing date prior to such debate, either (I) spent, contracted, or obligated to spend, or (II) received in contributions, an amount equal to or more than twenty percent of the threshold for eligibility for public funding applicable to participating candidates contained in subdivision two of section 3-703, and (B) that a limited participating candidate shall be eligible to participate in such debate if he or she has, by the last filing date prior to such debate, spent, contracted, or obligated to spend, an amount equal to or more than twenty percent of the threshold for eligibility for public funding applicable to participating candidates seeking the office for which such debate is being held contained in subdivision two of section 3-703; provided, further, that the second debate for a primary, general, or special election shall include only those participating candidates or limited participating candidates who the sponsor has also determined are leading contenders on the basis of additional non-partisan, objective, and non-discriminatory criteria set forth in any agreement between the sponsor and the board. Nothing in this provision is intended to limit the debates to the two major political parties.*

[The second debate for a general election shall include only those candidates who the sponsor has determined are the leading contenders for the office on the basis

of the objective, non-partisan, and non-discriminatory criteria. These criteria must be set forth in the sponsor's written application.]

(ii) If [the] *a debate* sponsor [of the second general election debate] has determined that a *non-participating* candidate [who is not a participating candidate is a leading contender for the office on the basis of such criteria] *has met all the non-partisan, objective, and non-discriminatory criteria applicable to participating candidates or limited participating candidates for access to any of the primary, general, or special election debates*, the sponsor may invite that candidate to participate in [the] *such* debate. In the case of a [runoff] *run-off* primary election *or a run-off special election*, the sponsor may invite a non-participating candidate to participate in [the debate(s)] *such debate*. However, if a *non-participating candidate* [non-participant leading contender] does not accept such invitation to debate or does not appear at such debate, the debate shall go forward as scheduled [with the other previously selected leading contender or contenders in the case of a second general election debate or participating candidate on the ballot in the case of a runoff election debate]*; provided, however, if there is only one participating candidate or limited participating candidate participating in any such debate, upon agreement by the debate sponsor, the board and the potential debater, such debate may be canceled.*

[(c) In the case of the second general election debate, the application shall also provide for an alternative non-partisan voter education program that the sponsor shall provide for any participating candidates not deemed leading contenders.]

6. Prior to choosing a sponsor, the board shall provide for the receipt of comments from interested persons regarding the qualifications of potential sponsors. The [Board] *board* shall consider and give substantial weight to such comments submitted by candidates.

7. Based upon the criteria in subdivision [4] *four* above and any comments received pursuant to subdivision [6] *six* above, the board shall select the organization or organizations to sponsor the [election] debates and shall provide written notification to the organization or organizations so selected. In addition to the sufficiency of the application, the board shall consider the applicant's ability to reach a wide audience and present a fair and impartial debate. The board may accept an application subject to modifications as it deems appropriate and as are acceptable to the sponsor.

8. For [the two primary] *all* debates [and the first general election debate], the board shall provide each debate sponsor it has selected with a list of [candidates] *participating candidates and limited participating candidates* who are [required] *eligible to be considered* to participate in such debates.

9. If a candidate fails to participate in any debate required under this section before an election, the candidate shall be liable for return of [moneys] *any public matching funds* previously received [for use by the candidate to pay election campaign expenses and] *pursuant to the certification filed by the candidate In connection with the election for which such debate is held*, shall be ineligible to receive any further matching funds for that election, *and may be subject to a civil penalty pursuant to section 3-711*. For purposes of this subdivision, each primary, general, special or [run off] *run-off* election shall be considered a separate election.

10. Following the submission of a petition on behalf of the candidate and a hearing before the board, the [penalty] *sanction or sanctions provided in subdivision nine of this section* applicable to a [participating] candidate for failure to participate in any debate as required under this section [shall] *may* be waived upon a determination by the board that the failure to participate in the debate occurred under circumstances beyond the control of the candidate and of such nature that a reasonable person would find the failure justifiable or excusable.

11. Nothing contained in this section shall preclude any candidate from agreeing to participate in any number of additional debates between any and all candidates for a city-wide office, including [those candidates not participating in the campaign finance program] *non-participating candidates or limited participating candidates*. These debates need not be held under guidelines or the purview of the campaign finance board.

Int. No. 371-A

By Council Members Perkins, Barron, Gonzalez and Stewart.

A Local Law to amend the charter and the administrative code of the city of New York, in relation to application of contribution limits of the New York City Campaign Finance Program to all candidates for the offices of mayor, public advocate, comptroller, borough president, and member of the city council, and prohibiting candidates from accepting contributions, loans or security for such loans from corporations.

Be it enacted by the Council as follows:

Section 1. Declaration of Legislative Intent and Findings.

The New York City Campaign Finance Act, adopted by the New York City Council in 1988, has succeeded in enhancing competition for elective municipal offices, limiting campaign contributions and expenditures to reasonable levels, and vastly increasing public information about the sources and uses of campaign funds.

The Council finds that amendments to the New York City Campaign Finance Act and the charter of the City of New York, will further the goals of this landmark legislation. By imposing the same contribution provisions of the Campaign Finance Act to those candidates for municipal office who elect not to participate in the Campaign Finance Program, without extending to such candidates the public financing provisions or the provisions limiting expenditures, the Council seeks to further strengthen the reform program that has been recognized as a national model. By ending the disparity in contribution limits faced by participating candidates opposed by non-participating candidates, these amendments further reduce the opportunity for wealthy special interests to exercise or appear to exercise undue influence over local elected officials in New York City.

This local law will also extend the existing ban on contributions from corporations to non-participating candidates, thus eliminating further disparities between participating and non-participating candidates and promoting a governmental interest in emphasizing contributions from individuals.

§2. Subdivision 8 of section 3-702 of the administrative code of the city of New York is amended and new subdivisions 13 and 14 are added to such section to read as follows:

8. The term "contribution" shall mean: (a) any gift, subscription, advance, or deposit of money or any thing of value, made In connection with the nomination for election, or election, of any candidate; (b) any funds received by a political committee from another political committee to the extent such funds do not constitute a transfer; (c) any payment, by any person other than a candidate or a political committee authorized by the candidate, made In connection with the nomination for election, or election, of any candidate, including but not limited to compensation for the personal services of any individual which are rendered In connection with a candidate's election or nomination without charge; provided however, that none of the foregoing shall be deemed a contribution if it is made, taken or performed by a person or a political committee independent of the candidate or his or her agents or political committees authorized by such candidate pursuant to section 14-112 of the New York state election law. For purposes of this subdivision, the term "independent of the candidate or his or her agents or political committees authorized by such candidate pursuant to section 14-112 of the New York state election law" shall mean that the candidate or his or her agents or political committees so authorized by such candidate did not authorize, request, suggest, foster or cooperate in any such activity; and provided further, that the term "contribution" shall not include:

A loan made to a participating candidate or his or her principal committee, *or a non-participating candidate or his or her authorized committees* in the regular course of the lender's business shall be deemed, to the extent not repaid by the date of the first covered election in which the [participating] candidate is *governed by this chapter* [a participant] following the date of the loan, a contribution by the obligor on the loan and by any other person endorsing, cosigning, guaranteeing, collateralizing or otherwise providing security for the loan.

Int. No. 466-A

By Council Members Perkins and Jackson.

A Local Law to amend the charter and the administrative code of the city of New York, in relation to application of the public disclosure requirements of the New York City Campaign Finance Program to all candidates for the offices of mayor, public advocate, comptroller, borough president, and member of the city council.

Be it enacted by the Council as follows:

Section 1. Declaration of Legislative Intent and Findings.

The New York City Campaign Finance Act, adopted by the New York City Council in 1988, has succeeded in enhancing competition for elective municipal offices, limiting campaign contributions and expenditures to reasonable levels, and vastly increasing public information about the sources and uses of campaign funds.

The Council finds that amendments to the New York City Campaign Finance Act and the charter of the City of New York, will further the goals of this landmark legislation. By imposing many of the same disclosure and audit provisions of the Campaign Finance Act to those candidates for municipal office who elect not to participate in the Campaign Finance Program, without extending to such candidates the public financing provisions or the provisions limiting expenditures, the Council seeks to further strengthen the reform program that has been recognized as a national model.

Further, the Council finds that the Campaign Finance Board publishes on the Web a searchable database of campaign finance information reported by candidates participating in the City's campaign finance reform program. This unique and detailed public resource enables the voting public to review and compare contributions and expenditures for opposing candidates, and to draw their own conclusions about the significance of this information in the exercise of the voting franchise.

As presently constituted, the Web database does not include the campaign finance transactions of candidates who choose not to participate in the City's reform program. This absence of comparable public disclosure deprives the voting public of relevant comparative information and creates increased administrative burdens for the Campaign Finance Board in making the administrative determinations required by the Campaign Finance Act. In addition, the Council finds that the Board of Elections does not monitor the completeness and accuracy of the campaign finance disclosure reports submitted on behalf of non-participating candidates in the same detailed manner that the Campaign Finance Board does with public disclosure reports filed on behalf of participating candidates.

The Council finds and declares that:

Uniform disclosure of comparable information serves the interest of the voting public and promotes fair competition among opposing candidates. This public information function is comparable to the voters guide published pursuant to section 1053 of the New York City Charter, which covers all candidates for City office regardless of their participation in the voluntary system of campaign finance reform.

Detailed public campaign finance disclosure helps safeguard against the risk that large campaign contributions will gain undue influence over government decision-making and sheds light on campaign spending practices. As is true of the personal financial disclosure required of all candidates for City office pursuant to section 12-110 of the Administrative Code, detailed and comparable public disclosure of campaign finance transactions must be a fundamental obligation of all candidates seeking City office.

Disclosure to the Campaign Finance Board will enhance the existing Web database and facilitate determinations the board is required to make pursuant to the New York City Campaign Finance Act.

Equal protection requires an enforcement regime that treats all competing candidates in the same manner. For that reason, this local law extends auditing and penalties under the New York City Campaign Finance Act to ensure that public disclosure on behalf of all candidates seeking public office of the City of New York is complete, timely, and accurate.

By providing detailed financial information about all candidates, these amendments will permit greater public scrutiny of campaign finances for all candidates running for certain offices in New York City.

§2. Section 3-702 of the administrative code of the city of New York is amended by adding new subdivisions 13 and 14, to read as follows:

Reports of the Committee on Housing and Buildings

Report for Int. No. 114-A

Report of the Committee on Housing and Buildings in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to increasing penalties for violating the housing maintenance code by failing to provide adequate heat and hot water.

The Committee on Housing and Buildings to which was referred on February 4, 2004 (Minutes, page 507) the annexed amended proposed local law respectfully

REPORTS:

BACKGROUND AND INTENT:

The Committee on Housing and Buildings, Chaired by Council Member Madeline Provenzano will conduct a hearing on Int. No. 114-A, A Local Law to amend the Administrative Code of the City of New York, in relation to increasing penalties for violating the housing maintenance code by failing to provide adequate heat and hot water. The Committee previously conducted a hearing on November 16, 2004 on Int. No. 114 and heard from representatives of the Department of Housing Preservation and Development (HPD), the Independent Budget Office and from the perspective of landlords regarding this bill.

In accordance with the provisions of the Housing Maintenance Code and the Multiple Dwelling Law, landlords are required to provide heat and hot water to all tenants of multiple dwellings and to every tenant-occupied one or two-family dwelling. Hot water is to be provided 365 days per year between the hours of 6 a.m. and midnight at a constant minimum temperature of 120 degrees Fahrenheit.[1] Owners are also required to provide appropriate amounts of heat between October 1st and May 31st, a period designated as the "Heat Season," under the following circumstances[2]:

- Between the hours of 6:00 AM and 10:00 PM, if the outside temperature falls below 55 degrees, the inside temperature is required to be at least 68 degrees Fahrenheit; and,
- Between the hours of 10:00 PM and 6:00 AM, if the temperature outside falls below 40 degrees, the inside temperature is required to be at least 55 degrees Fahrenheit.

The 311 Citizen Service Center received over 240,000 heat and hot water inquiries, which included 118,484 heat and hot water complaints and issued 14,517 violations[3]. When the City receives a complaint, HPD staff will attempt to contact the building's owner or managing agent to get heat or hot water service restored. Before an HPD code inspector is dispatched to the building, HPD will call the tenant back to determine whether service has been restored. If service has not been restored, an HPD inspector is sent to the building to verify the complaint and issue the appropriate violation.

In situations where a landlord fails to restore heat or hot water, or when HPD is unable to reach an owner, HPD undertakes the necessary repairs to provide the tenants with the appropriate heat and hot water services through its Emergency Repair Program (ERP) which uses in-house staff and private contractors. If a landlord fails to provide heat and hot water during the Heat Season or has a history of disregarding obligations to provide service to tenants, HPD's Housing Litigation Division (HLD) may commence litigation proceedings against a landlord.

Int. No. 114

Bill section one would increase the civil penalties for a violation for failing to provide adequate heat or hot water to a building. The current civil penalty of $250 per day would be doubled to $500 per day under the provisions of this bill. This section also imposes an additional $1,000 per day penalty for each subsequent violation by the same person during the same calendar year or for a subsequent violation by the same person for failing to provide heat during the Heat Season irrespective of whether the subsequent violation occurred in the same building or not.

This local law would take effect ninety days after its enactment. HPD is authorized to promulgate any rules and take any other necessary actions to implement this local law prior to its effective date.

Int. No. 114-A

Bill section one of Int. No. 114 was amended to specify that the per diem civil penalty for failing to provide adequate heat or hot water be within the range of not less than $250 nor more than $500 for the first violation, to be followed by a civil penalty of not less than $500 nor more than $1,000 for each subsequent violation at the same dwelling or multiple dwelling during the same calendar year, or in cases where the violator has previously failed to provide heat during that same heat season. Prior to being amended, Int. No. 114 had called for a flat fee of $1000 per day and referred to subsequent violations by individual instead of by dwelling or multiple dwelling.

Bill section two contains the enactment clause and was amended so that the bill would take effect sooner during this winter season and now takes effect in 40 days as opposed to the previous requirement of 90 days.

Technical corrections

Modest technical revisions were made to the bill so that line one of bill section one refers to "subdivision (k)" as opposed to "subdivision k" and to provide that that same opening clause ends with the words "is amended to read as follows." The bill was also corrected to conform the text with current law so that the second to the last sentence in bill section one refers to "subdivision b of section 27-2029 of article eight of subchapter two of this chapter" as opposed to referring to "subdivision b of section 27-2029 of article eight of subchapter two of this subchapter."

Update

On Tuesday, December 14, 2004, the Committee adopted this legislation by a vote of eleven in the affirmative, zero in the negative and no abstentions.

IMPACT ON REVENUES: It is anticipated that increasing the penalties for heat and hot water violations as stipulated in this legislation will result in HPD collecting approximately twice as much in fine revenue for such violations during a full fiscal year relative to what has been collected in the previous two fiscal years for which information is available. During the 2002 to 2003 heat season HPD collected approximately $1.8 million in fines for 2,800 cases and during the 2003 to 2004 heat season HPD collected approximately $2 million in fines for 3,300 cases.

A Local Law to amend the administrative code of the city of New York, in relation to the recognition of marriages that are not recognized by the state of New York, domestic partnerships, and civil unions, lawfully entered into in other jurisdictions.

Be it enacted by the Council as follows:

Section 1. Declaration of legislative intent and findings. Same sex couples have faced many obstacles to full legal recognition of their relationships. The Defense of Marriage Act, Pub. L. No. 104-199, 110 Stat. 2419 (1996) defines marriage for purposes of federal law as the union of a man and woman and empowers states to deny recognition to same sex marriages entered into in other jurisdictions. Unlike the majority of states nationwide, New York State has not enacted legislation denying recognition to same sex marriages. However, the Domestic Relations Law, which governs marriage, does not explicitly recognize same sex marriage or authorize issuance of marriage licenses to same sex couples. In practice in New York State, same sex couples have not been able to obtain marriage licenses and, as a result, have not been able to legally marry.

In 1998, the Council passed the New York City Domestic Partnership Law, which codified prior Mayoral Executive Orders establishing rights and entitlements for City residents who register their domestic partnerships with the City Clerk. The Council now intends to extend New York City's commitment to recognizing rights of same sex partners by revising the definition of "domestic partners" in the administrative code to include persons who have lawfully registered domestic partnerships or entered civil unions or marriages not explicitly recognized by New York State in other jurisdictions, ensuring that such couples enjoy all rights and benefits currently available to domestic partners registered under New York City law.

§2. Section 3-240(a) of subchapter 3 of chapter 2 of title 3 of the administrative code of the city of New York is amended to read as follows:

a. "Domestic partners" shall mean persons who have a registered domestic partnership, which shall include any partnership registered pursuant to this chapter, any partnership registered in accordance with executive order number 123, dated August 7, 1989, and any partnership registered in accordance with executive order number 48, dated January 7, 1993[.]*, and persons who are members of a marriage that is not recognized by the state of New York, domestic partnership, or civil union, lawfully, entered into in another jurisdiction.* Nothing in this code shall affect a partnership that has been registered pursuant to either such executive order and has not been terminated in accordance with such executive orders or this chapter.

§3. Subchapter 3 of chapter 2 of title 3 of the administrative code of the city of New York is amended by adding a new section 3-245 to read as follows:

*§3-245 **Recognition of marriages not recognized by the state of New York, domestic partnerships, and civil unions, of other jurisdictions.***

a. Members of a marriage that is not recognized by the state of New York, a domestic partnership, or a civil union, lawfully entered into in another jurisdiction, shall be entitled to all the rights and benefits available to domestic partners registered pursuant to this subchapter. A certificate of such domestic partnership, civil union or marriage issued by another jurisdiction shall constitute sufficient proof of entitlement to such rights and benefits.

b. "Members of a marriage that is not recognized by the state of New York" for purposes of this section and of section 3-240(a) of this title does not include a marriage prohibited by section 5 or section 6 of the New York State Domestic Relations Law.

§4. This local law shall take effect immediately.

Report for Int. No. 189-A

Report of the Committee on Housing and Buildings in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to clarifying the rights of pet owners in multiple dwellings.

The Committee on Housing and Buildings to which was referred on February 26, 2004 (Minutes, page 869) the annexed amended proposed local law respectfully

REPORTS:

BACKGROUND AND ANALYSIS:

On December 14, 2004, the Committee on Housing and Buildings, chaired by Council Member Madeline Provenzano, will conduct a hearing on Int. No. 189-A. The Committee on Housing and Buildings previously conducted a hearing, on June 23, 2004, on the provisions of Int. No. 189. That bill would have amended section 27-2009.1 of the Administrative Code of the City of New York (hereinafter "Administrative Code") by clarifying the rights of pet owners in multiple dwellings such that when a "no pet" provision in a tenant's lease is waived, it is waived for the duration of the tenant's occupancy, and not merely for the life of a particular pet. The Committee heard testimony on Int. No. 189 from different perspectives, including those who support the bill and those who oppose the bill. Int. No. 189-A was drafted in response to testimony presented at that earlier hearing.

Local Law 52 and the Three-Month Waiver Provision

Administrative Code §27-2009.1 was enacted by Local Law 52 for the year 1983 (Local Law 52, "the Pet Law,") and provides that where a tenant in a multiple dwelling harbors or has harbored a household pet or pets "openly and notoriously" for a period of three months or more after taking possession of a dwelling unit, and the owner or his or her agent has knowledge of this fact and fails within such three-month period to commence a summary proceeding or action to enforce a lease provision prohibiting the keeping of such pets, then such lease provision shall be deemed waived. There is no explicit provision in the law for the revival or resumption of a no-pet clause once it is waived. However, tenants whose pets cause damage, create a nuisance, or "substantially" interfere with the health, safety or welfare of other occupants are not protected under the current law or Int. No. 189. Incidentally, the current law also expressly states that its provisions do not apply to the New York City Housing Authority.

Local Law 52 also contains a codified legislative declaration which specifically states that because pets "are kept for reasons of safety and companionship … it is necessary to protect pet owners from retaliatory eviction" and that "this section [27-2009.1] is necessary to prevent potential hardship and dislocation of tenants within the city." Supporters of Int. No. 189 believe that the bill is necessary in order to clarify the rights of pet owners due to inconsistent court interpretations of Local Law 52 and as a consequence, residents of Manhattan and the Bronx can be treated differently under the law than the residents of other boroughs. The issue is whether a "no pet" clause can be revived after it is waived when the pet that was harbored dies or otherwise leaves the apartment.

In 1996, the Appellate Term for the First Department ruled in *Park Holding Company v. Emicke*,[1] that a landlord could enforce a "no-pets clause" contained in a lease against a tenant's new pet. In this case, the tenants had kept a dog in their apartment since 1987. After that dog died in 1994, the tenants acquired another dog and the landlord objected to the presence of the new dog within two days of its introduction to the premises. The landlord proceeded to serve a notice to cure, notice of termination and then commenced a holdover proceeding within three months after learning of the alleged breach of the lease. The lower court dismissed the petition on the rationale that once the no-pet provision of the lease was waived under Administrative Code §27-2009.1, it was waived for "the *specific tenancy* in issue."[2]

The appellate court reversed the lower court's decision and held that the "no-pet clause" was only waived with respect to the original dog, and that the landlord had a new three-month period to enforce the no-pet clause against the second dog.[3] Thus, because the First Department only covers Manhattan and the Bronx, the rights of tenants who live there are not the same as the rights of tenants who live in Queens, Brooklyn and Staten Island.

[3] *Park Holding Co. v Emicke*, 168 Misc. 2d 133, 646 NYS2d 434 (App. Term 1st Dept. 1996). It should be noted that according to the court's decision, "the parties' original lease (as renewed) contained a standard provision to the effect that the landlord's failure on a previous occasion to take any action for a violation of the terms of the lease 'shall not prevent a subsequent act of a tenant of a similar nature from being a violation of the lease.'" *Id.*

Prior to this decision, in *Brown v. Johnson*,[4] under similar facts to *Park Holding Company v. Emicke*, another court held that "it appears that the only reasonable reading of the statute is that failure to bring a proceeding constitutes a waiver of the clause in the future. The section[5] refers to a tenant who 'harbors or has harbored a household pet or pets.' Inclusion of the past tense can only be meant to refer to situations such as the one at bar."[6]

Public Policy Concerns

Pets are believed by some to provide a great source of companionship.[7] Many studies show that there are both real and/or perceived beneficial health effects of pets upon people.[8] According to an early statement by Virginia Chipurnoi, president of the Humane Society of New York, the bill "will likely save the lives of many animals, because people threatened with eviction for having a pet frequently turn their pets over to the already overburdened animal shelters."[9] Furthermore, the Humane Society notes that approximately 40,000 cats and dogs are put to sleep every year in New York City animal shelters because they have nowhere to live.[10]

Opponents of this bill, or a bill of this nature, include both tenants and landlords. Some tenants are highly allergic to pets because of their dander and shedding. Some people are not fond of living near animals because they might create noise, dirt and odors. Some people have concerns about safety around certain animals, such as dogs with aggressive tendencies. Some landlords are concerned about related liability issues and claim the bill would impinge on their rights to use and dictate the use of their property as they see fit. Landlords point to property damage as a major reason for opposing the bill, and the difficulty involved with evicting any tenant, such as time and legal costs.

[6] *Brown v. Johnson*, 139 Misc. 2d 195, 527 NYS2d 679 (NY City Civ. Ct. 1988). In *Brown v. Johnson*, the court cited *Megalopis Property Assn. v. Buvron*, an Appellate Division case from the Second Department (which covers Queens, Brooklyn and Staten Island within New York City, along with 7 other counties outside of the City) as a basis for its holding while noting that the case wasn't directly on point. See *Megalopis Property Assn. v. Buvron*, 110 AD2d 232, 494 NYS2d 14 (AD 2nd Dept. 1985), in which the landlord sought to bring suit against a tenant after six years of openly living with a dog on the premises and the court. After acknowledging the validity of Local Law 52, the court held that a "no pet" clause is waived when a landlord fails to commence an eviction proceeding within three months after the landlord gained knowledge of a violation of a no-pet clause in a lease, even though the eviction proceeding was commenced before the law was enacted. *Id.*

Other opponents believe this bill threatens the rights of cooperative boards and condominium boards of managers to set internal policies. In these multiple dwellings, pet policies are generally either set by board members who are shareholders in the cooperative or owners in the condominium. These policies also effect tenants who rent or sublease apartments within cooperatives or condominiums from sponsors, shareholders or apartment owners. Finally, another issue of concern that has been raised in the context of this bill is that some people are not able to adequately care for animals, even though they may want to.

Int. No. 189-A

Bill section one amends subdivision (b) of section 27-2009.1 of the Administrative Code of the City of New York to provide that where a tenant in a multiple dwelling openly and notoriously harbors a pet or pets for a period of three months or more and a landlord fails within this three month period to commence a summary proceeding or action to enforce a no pets clause in a lease, then such lease provisions shall be deemed "*waived for the duration of the tenant's occupancy in such multiple dwelling for each species of household pet or pets that is harbored or was harbored in such multiple dwelling.*" Language was also added to this subdivision to provide that the provisions of this subdivision apply to any tenant in a multiple dwelling who currently is harboring or has harbored a household pet or pets at any time since July nineteenth, nineteen ninety-five during their occupancy in the multiple dwelling in which they currently reside. The date was selected as it reflects the date of the lower court's decision in *Park Holding Co. v Emicke.*[11]

Bill section two reletters subdivisions (c), (d) and (e) of section 27-2009.1 of the Administrative Code as subdivisions (f), (g) and (h), respectively, and adds new subdivisions (c), (d) and (e) to such section to provide that a household pet or pets that is harbored or was harbored by a tenant in a multiple dwelling pursuant to the provisions of subdivision (b) of this section may be replaced by another pet or pets, with the exception that at no time shall the total number of household pets in that multiple dwelling exceed the total number of pets that were harbored at the same time by such tenant in that multiple dwelling at any time since July nineteenth, nineteen ninety-five. The bill also now specifically states that at the option of the owner, the species of a household pet that is harbored or was harbored in a multiple dwelling may be changed with the written permission of the owner. Finally, the bill contains a clause to ensure that certain tenant's rights are protected to the effect that "No language contained in the provisions of this section shall be construed to limit the rights provided herein under subdivisions b and c of this section to a tenant in a multiple dwelling."

Bill section three contains an enactment clause to provide for the immediate effectiveness of this legislation and to clarify that the legislation shall apply to existing and future leases and renewals and shall also apply to existing lawful occupancies.

In C4-7, C5-2, C5-3, C5-4, C6-1A, C6-4, C6-5, C6-6, C6-7 or M1-6 Districts, the City Planning Commission may permit modification of the height and setback regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block#.

In C5-3, C6-6 and C6-7 Districts on such #zoning lots#, the Commission also may modify #yard# and court regulations, and regulations governing the minimum required distance between #buildings# and/or the minimum required distance between #legally required windows# and walls or #lot lines#, provided that the Commission finds that such modifications:

(1) provide a better distribution of #bulk# on the #zoning lot#;

result in a better relationship of the #building# to open areas, adjacent #streets# and surrounding #development#; and

provide adequate light and air for #buildings# on the #zoning lot# and neither impair access to light and air to #legally required windows# in adjacent #buildings# nor adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties;

As a condition of this special permit, if any open area extending along a #side lot line# is provided at any level, such open area shall be at least eight feet in width;

In a C6-4 District, the Commission may modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses), ~~if~~ or #developments# or #enlargements# on #zoning lots# occupying an entire #block# ~~and located in a C6-4 District~~ with a basic commercial #floor area ratio# of 10.0, ~~the Commission may also modify the supplementary #use# regulations of Section 32-422 (Location of floors occupied by non-residential uses),~~ provided the following ~~findings are made~~ conditions are met:

~~that~~ the non-#residential uses# are located in a portion of a #mixed building# ~~which~~ that has separate access to the #street# with no openings of any kind to the #residential# portion of the #building# at any #story#; and

~~that~~ the non-#residential uses# are not located above the lowest #story# containing #dwelling units# unless the #residential# and non-#residential# portions are separated in accordance with the provisions of Section 23-82 (Building Walls Regulated by Minimum Spacing Requirements).

In C5-3, C6-6 and C6-7 Districts, the Commission may modify height and setback and #yard# regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, ~~provided the #zoning lot#~~ that occupies an entire #block# front on a #wide street#, subject to the following conditions:

~~As a condition for the special permit, the Commission shall make the following findings:~~

that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties; and

(~~2~~1) ~~that~~ where #buildings# or portions thereof penetrate the established #sky exposure plane#, the aggregate area occupied by such #buildings# or portions thereof at such elevation shall not exceed:

(i) 55 percent of the area of such #zoning lot#; or

an equivalent of 55 percent of the aggregate area of such #zoning lot# and any adjoining #zoning lots# with a common #lot line# for at least 90 feet with negative easements limiting height of existing and future #developments# on the adjoining #zoning lots# by recorded deed or other written instruments; ~~and~~

~~(3) In lieu of~~ this finding, ~~condition~~ (c)(3~~2~~), ~~the~~ Commission finds that the ~~#development# or #enlargement# may provides, in the same or an adjoining #block# of such #development# or #enlargement#, compensatory "off-site public open space." For the purposes of this Section paragraph, (c3), the term "adjoining block" shall mean a #block# that is contiguous to the development #block# but for its~~

~~separation by a #street# or #street# intersection. The area of such off-site public open space shall be at least 4,000 square feet, or 15 percent of the #lot area# of a #zoning lot# containing the #development#, whichever is more, and a width of at least 40 feet at~~

any point.

Such public open areas shall have a southern exposure, and adjoin a public sidewalk and be #developed# pursuant to the provisions of Section 37-04 (Requirements for Urban Plazas). A plan for the development and maintenance of such off-site public space shall be approved by the Commission. The off-site public area shall be kept open to the general public in accordance with a time schedule specified by the Commission. In no event shall such off-site public open space be eligible for #floor area# or bonus computation In connection with this or any other #development# or #enlargement#.

For such #developments#, the Commission may also modify the applicable regulations of Sections 32-51 (Limitations on Business Entrances, Show Windows or Signs) and 36-683 (Restrictions on location of berths near Residence Districts) where adjoining frontage within a distance of 75 feet on the same side of the #street# is occupied by a #community facility# or ground floor #commercial use#, provided that such modification is part of an overall design for #show windows#, signage and entrances or off-street loading berths developed in conjunction with a public amenity such as an #urban plaza#, #through block arcade# or #covered pedestrian space#, and will not alter the essential character of the immediate neighborhood.

In the case of existing #residential buildings# to remain temporarily on such #zoning lot#, the provisions of Sections 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) and 23-80 (COURT REGULATIONS AND MINIMUM DISTANCE BETWEEN WINDOWS AND WALLS OR LOT LINES) may be modified provided that each and every one of the following conditions are met:

(i) that such existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;

that the portions of the #zoning lot# where such existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan;

that no temporary or final certificate of occupancy shall be issued for that portion of #floor area# in the new #development# equal to twice the #floor area# in the temporary existing #buildings# until such #buildings# are vacated, demolished and their sites are redeveloped in accordance with the approved project plan, except that where the ~~City Planning~~ Commission shall have determined that the applicant for a special permit has made an offer to purchase the leasehold interests from the lessees at a fair market value of the remainder of the lease term, the Commission may decrease the amount of #floor area# for which no certificate of occupancy may be issued; and

that the #development# conform with all the applicable laws relating to construction, operation and maintenance.

The owner of the #zoning lot# shall have prominently displayed thereon a sign stating the date by which the #buildings# are to be demolished.

(~~d~~4) As a further condition for the issuance of a permit under this ~~Section~~, paragraph, (c), the owner of the #zoning lot# upon which new #developments# are to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel as to form, sufficient in amount as determined by the ~~City Planning~~ Commission to cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time set forth in the approved project plan, and insure that all #floor area# which is to be vacant in the new #development# shall remain unfinished and vacant.

The bonds or other securities shall be payable to the City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this paragraph, (~~d~~c) ~~of this Section~~, that the #development#:

(~~1~~)i shall result in improved circulation; and

(~~2~~)ii would eliminate the undesirable pre-emption of ground level space by private #buildings or other structures#.

In making ~~this~~ these findings, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this ~~Section~~ paragraph, (c), shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.

In addition to the conditions in paragraphs (c)(1), (c)(2), (c)(3) and (c)(4) of this Section, the Commission shall find that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties;

(ed) Notwithstanding any other provisions of the Zoning Resolution, where a #development# shares an aggregate #lot line# with a landmark building site for a distance of at least 90 feet, or contains a historically significant #street# that has been demapped and an archeologically significant site, both of which have been identified by the Landmark Preservation Commission, the Commission may permit modification of the height and setback and #yard# regulations regardless of the lot size, provided that the following findings are made:

(1) there is a harmonious architectural relationship between the landmark and the new structure, and such relationship is approved by the Landmarks Preservation Commission or, in the case of a #development# which contains a historically significant #street# that has been demapped and an archeologically significant site, there is a visual recognition of the location of the demapped #street# and of the archeologically significant site created by a design treatment that has been approved by both the Landmarks Preservation Commission and the City Planning Commission

and, if such #development# is located within 200 feet of a historic district, there is a harmonious relationship between the proposed #development# and the historic district; and

pedestrian amenities are contained in the new structure including, where appropriate, retail stores and substantial pedestrian space at the principal levels of circulation, such as wider sidewalks, #arcades#, #covered pedestrian space#, subsurface concourses and convenient subway connections.

The Committee on Rules Privileges & Elections to which was referred on December 7, 2004 (Minutes, page 5232) the annexed communication respectfully

REPORTS:

Topic I: ***New York City Board of Elections - (Bronx County Democratic Commissioner candidate for re-appointment by the Council)***

Nero Graham, Jr. [M-385]

The New York City Board of Elections ("BOE") consists of ten commissioners, two from each of the City's five counties, who are directly appointed by the New York City Council. Not more than two commissioners shall be registered voters of the same county. Each commissioner serves a term of four years or until a successor is appointed. Commissioners shall be registered voters from each of the major parties in the county for which they are appointed. *[New York State Election Law § 3-200(3).]*

Party recommendations for election commissioner shall be made by the County Committee, or in such fashion as the rules of a party may provide. Each of the major political parties shall be eligible to recommend appointment of an equal number of commissioners. *[New York State Election Law § 3-200(2).]* The BOE and its commissioners are responsible for the maintenance and administration of voting records and elections. The BOE also exercises quasi judicial powers by conducting hearings to validate nominating petitions of candidates for nomination to elective office. The BOE is required to make an annual report[1] of its affairs and proceedings to the New York City Council once every twelve months and no later than the last day of January in any year. A copy of said annual report shall be filed with the New York State Board of Elections. *[New York State Election Law § 3-212-(4)(a).]*

At least thirty days before the first day of January of any year in which an elections commissioner is to be appointed, the Chair or Secretary of the appropriate party County Committee shall file a *Certificate of Parry Recommendation* with the Clerk of the appropriate local legislative body. *[New York State Election Law §* 3-204(1).] In New York City, the City Clerk serves as the Clerk of the Council. If the Council fails to appoint an individual recommended by a party for appointment as a Commissioner within thirty days after the filing of a *Certificate of Party Recommendation* with the Council, then the members of the Council who are members of the political party that filed the certificate may appoint such person. If none of the persons named in any of the certificates filed by a party are appointed within sixty days of the filing of the designating certificate, then such party may file another certificate within thirty days after the expiration of any such sixty day period recommending a different person for such appointment. If the party fails to file a Certificate of Party Recommendation within the time prescribed, the members of the Council who are members of such party may appoint any eligible person to such office. *[New York State Election Law §* 3-204(4).]

If at any time a vacancy occurs in the office of any election commissioner other than by expiration of term of office, party recommendations to fill such vacancy shall be made by the county committee in such fashion as the rules of the party may provide.[2] *Certificates of Party Recommendation* to fill such vacancy shall be filed no later than forty-five days after the creation of a vacancy. Anyone who fills a vacancy shall hold such office during the remainder of the term of the commissioner in whose place he/she shall serve. *[New York State Election Law §* 3-204(5).]

[1]The annual report shall include a detailed description of existing programs designed to enhance voter registration. The report shall also include a voter registration action plan to increase registration opportunities. *[New York State Election Law § 3-212(4)(b).]* The last annual report was issued in August *2003* and covers calendar year *2002*.

[2]According to *New York State Public Officers Law § 5*, every officer except a judicial officer, a notary public, a commissioner of deeds and an officer whose term is fixed by the Constitution, having duly entered on the duties of his office, shall, unless the office shall terminate or be abolished, hold over and continue to discharge the duties of his office after the expiration of the term for which he shall have been chosen, until his successor shall be chosen and qualified; but after the expiration of such term, the office shall be deemed vacant for the purpose of choosing his successor.

BOE elects a President and a Secretary who cannot belong to the same political party. *[New York State Election Law §* 3-312(1).] The commissioners receive a $125 per-diem for each day's attendance at meetings of the BOE or any of its committees, with a maximum of $12,500 per year. *[New York State Election Law §* 3-208.]

A Certificate of Party Recommendation referencing Mr. Graham was filed with the Office of the City Clerk on November 24, 2004 at 11:33 a.m. The Chair of the Bronx County Democratic County Executive Committee signed this document, titled *Certification of Recommendation of Commissioner of Elections*. (See attachment.) Mr.

Graham, a registered Democrat from Bronx County, is being recommended for reappointment to a four-year term that begins on January 1, 2005 and ends on December 31, 2008. Copies of Mr. Graham's resume and Committee report/resolution are annexed to this briefing paper.

Except as otherwise provided by law, the Department has jurisdiction to regulate all matters affecting health in the City and to perform all those functions and operations performed by the City that relate to the health of the people of the City, including but not limited to the mental health, mental retardation, alcoholism and substance abuse related needs of the people of the City. *Charter § 556.* The scope of the Department's jurisdiction includes such diverse disciplines as communicable diseases, environmental health services, radiological health, food safety, veterinary affairs, water quality, pest control and vital statistics. New emerging pathogens and biological warfare are the most recent additions to the Department's roster of concerns.

[3] On November 6, 2001, the voters of New York City approved the merger of the New York City Department of Health and the New York City Department of. Mental Health, Mental Retardation and Alcoholism Services to create a new agency called the Department of Public Health. The agency is presently known as the Department of Health and Mental Hygiene. At the conclusion of the second year following the establishment of the Department, and again at the conclusion of the fourth year, the Mayor's Office of Operations is to conduct a review and submit a report to the Mayor comparing such periods with the periods preceding such establishment with regard to the Department's delivery of mental health, mental retardation and alcoholism and substance abuse services, the access of consumers and their families to such services, and the administration and oversight of contracts for the delivery of such services. *Charter §* 555(2). The administration determined that July 1, 2002, was the date the transfer of agency functions was to take place.

In addition to its primary legislative function in relation to the *Code*, the Board is charged with certain administrative responsibilities. The Board may issue, suspend or revoke permits (e.g., food vendor permits) or may delegate this duty to the Commissioner, in which case a party aggrieved by the decision of the Commissioner has a right of appeal to the Board. Charter § *561*. The Board may declare a state of "great and imminent peril" and take appropriate steps subject to mayoral approval. *Charter § 563.* Other administrative functions of the Board are contained in the *Administrative Code of the City of New York.* One important function is to declare conditions as nuisances and to order that such conditions be abated or otherwise corrected. *Administrative Code § 17-145.*

In addition to the Chairperson, the Board consists of ten members, five of whom shall be doctors of medicine who shall each have had not less than ten years experience in any or all of the following: clinical medicine, neurology, psychiatry, public health administration or college or university public health teaching. The other five members need not be physicians. However, non-physician members shall hold at least a Masters degree in environmental, biological, veterinary, physical, or behavioral health or science, or rehabilitative science or in a related field, and shall have at least ten years experience in the field in which they hold such degree. The Chairperson of the Mental Hygiene Advisory Board[5] sits as one of the ten Board members, provided that such individual meets the requirements for Board membership of either a physician or non-physician member.

The nine Board members other than the Chairperson and the member who shall be the Chairperson of the Mental Hygiene Advisory Board shall serve without compensation and shall be appointed by the Mayor, each for a term of six years. [6] In the case of a vacancy, the Mayor shall appoint a member to serve for the unexpired term.

[4]The ballot proposal approved by the City's voters on November 6, 2001, expanded the Board's membership from five to eleven members (including the Commissioner), while maintaining the current ratio of medical to non-medical personnel. Also, member terms were reduced from eight years to six years, and staggered to assure continuity. The Charter Revision Commission (the "Commission") asserted that these changes would ensure that the Board is better able to address todays "more complex public health threats and meet the new and emerging public health challenges of the future." Also, the Commission reasoned that the expansion of the Board would "provide the opportunities to increase the variety of expertise represented, and allow for inclusion of representatives with experience relating to special health needs of different racial and cultural groups in the City." Moreover, the Commission felt "a larger Board would also bring to bear a greater diversity of academic, clinical and community perspectives on the broad spectrum of public health problems and issues that need to be addressed." Report of the New York City Charter Revision Commission, *Making Our City's Progress Permanent, pp.* 69-70 (September 5, 2001).

Charter § 553(b). The Mayor's appointees are subject to the advice and consent of the New York City Council as set forth in *Charter §* 31.

The Commissioner shall designate such Department employees as may be necessary to the service of the Board, including an employee designated by him to serve as the Secretary to the Board. *Charter §* 553(c).

Pursuant to *Charter §* 554, a member of the Board other than the Chairperson may be removed by the Mayor upon proof of official misconduct or of negligence in official duties or of conduct in any manner connected with his/her official duties that tends to discredit his/her office, or of mental or physical inability to perform his/her duties. Prior to removal, however, the Board member shall receive a copy of the charges and shall be entitled to a hearing before the Mayor and to the assistance of counsel at such hearing.

Upon re-appointment by the Mayor with the advice and consent of the Council, Ms. Brier, a resident of Brooklyn, will serve for the remainder of a six-year term that expires on May 31, 2010. Copies of Ms. Brier's resume and Committee report/resolution are annexed to this briefing paper.

Upon re-appointment by the Mayor with the advice and consent of the Council, Dr. Caro, a resident of Manhattan, will serve for the remainder of a six-year term that expires on May 31, 2010. Copies of Dr. Caro's resume and Committee report/resolution are annexed to this briefing paper.

Upon re-appointment by the Mayor with the advice and consent of the Council, Dr. Vlahov, a resident of Manhattan, will serve for the remainder of a six-year term that expires on May 31, 2010. Copies of Dr. Vlahov's resume and Committee report/resolution are annexed to this briefing paper.

RESOLUTIONS

The following are the respective Committee Reports for each of the Resolutions referred to the Council for a voice-vote pursuant to Rule 8.50 of the Council:

Report for voice-vote Res. No. 81-A

Report of the Committee on Public Safety in favor of approving, as amended, a Resolution calling on the New York State Legislature to increase the penalty for the failure to register or verify an address as required by the Sex Offender Registration Act, and to require that convicted sex offenders perform their annual address verification in person.

The Committee on Public Safety to which was referred on February 4, 2004 (Minutes, page 667) the annexed amended resolution respectfully

REPORTS:

(For text of the report, please see the Report of the Committee on Public Safety for Res. No. 247-A printed in the voice-vote Resolutions section of these Minutes.)

Accordingly, Your Committee recommends its adoption, as amended.

(The following is the text of Res. No. 81-A:)

Res. No. 81-A

Resolution calling on the New York State Legislature to increase the penalty for the failure to register or verify an address as required by the Sex Offender Registration Act, and to require that convicted sex offenders perform their annual address verification in person.

By Council Members Vallone Jr., Clarke, Boyland, Comrie Jr., Felder, Gennaro, Gentile, Katz, Lopez, Rivera, Sears, Yassky, Liu, Martinez, Nelson, Sanders Jr., Palma and Gerson.

Whereas, The brutal killings of Polly Klaas and Megan Kanka, and the disappearance of Jacob Wetterling, brought national attention to the threat that convicted sex offenders present to our communities; and

Whereas, In response, the federal government enacted the Jacob Wetterling Violent Sexual Offender Registration Act, requiring all fifty states to establish registration programs for convicted child molesters and other sexually violent offenders; and

Whereas, New York State's Sex Offender Registration Act (SORA) requires convicted sex offenders to register with the state and to annually verify his or her address; and

Whereas, SORA's registration and address verification requirements permit law enforcement agencies and the general public to know the whereabouts of convicted sex offenders located within or near their communities; and

Whereas, Despite these requirements, convicted sex offenders are failing to register or update their registrations; unregistered convicted sex offenders pose a great threat to our communities by thwarting supervision by law enforcement agencies and preventing the general public from protecting themselves and their families; and

Whereas, The penalty for a first offense under SORA's registration and verification requirements is only a class A misdemeanor upon conviction; the more appropriate penalty for this violation of the law, however, is a class D felony; and

Whereas, Increasing the penalty to a class D felony would better protect the general public by compelling convicted sex offenders to comply with SORA's registration and verification requirements; and

Whereas, In addition, convicted sex offenders should be required to perform their annual address verification in person and be required to have their photograph taken; the current state of the law allows certain offenders to verify by mail, providing very little assurance of where they are actually living; and

Whereas, At the very least, the State Legislature should do away with the affirmative defense that allows offenders who fail to annually register to escape prosecution if they have not actually moved; local law enforcement and the community will therefore have a greater assurance that the address reported by the offender is correct; now, therefore, be it

Resolved, That the Council of the city of New York calls upon the New York State Legislature to increase the penalty for the failure to register or verify an address as required by the Sex Offender Registration Act, and to require that convicted sex offenders perform their annual address verification in person.

PETER F. VALLONE, JR., Chairperson; ERIK MARTIN DILAN, HELEN D. FOSTER, ALAN W. JENNINGS, MELINDA R. KATZ, HIRAM MONSERRATE, DAVID YASSKY, SARA M. GONZALEZ, VINCENT J. GENTILE, Committee on Public Safety, December 9, 2004.

Pursuant to Rule 8.50 of the Council, the Public Advocate (Ms. Gotbaum) called for a voice vote. Hearing no objections, the Public Advocate (Ms. Gotbaum) declared **Res. No. 81-A** to be adopted.

Adopted unanimously by the Council by voice-vote.

Report for voice-vote Res. No. 247-A

Report of the Committee on Public Safety in favor of approving, as amended, a Resolution calling on the New York State Legislature to amend Megan's Law to mandate community notification regarding sex offenders and to require local law enforcement to provide education to the public regarding such notification.

The Committee on Public Safety to which was referred on March 24, 2004 (Minutes, page 1432) the annexed amended resolution respectfully

REPORTS:

I. Introduction

On December 9, 2004, the Committee on Public Safety, chaired by Council Member Peter F Vallone Jr, will hold a hearing on two resolutions that call on the New York State Legislature to make certain changes to existing law with regard to notifying the public about sex offenders.

II. Megan's Law

Megan's Law is named after a 7-year-old New Jersey girl named Megan Nicole Kanka who was raped and murdered by her neighbor, a two-time convicted sex offender, on July 29, 1994. The passage of Megan's Law in New Jersey eventually led to the May 1996 passage of a federal law which is also known as Megan's Law. New Jersey's Megan's Law has specific mandates for active community notification which ensures that the community will be made aware of the presence of convicted sex offenders posing a risk to public safety.[1]

[1] The Jacob Wetterling Act, created by Congress in 1989, establishes minimum national standards for state sex offender registration and notification laws. The act requires a person who is convicted of a criminal offense against a minor or who is convicted of a sexually violent offense to register a current residence address upon release, parole, supervised release, or probation. A State prison official and the court shall inform the person of the duty to register and obtain the information required for such registration. If the person changes the residence address to another location, the change should be reported as the requirements of law of each State. The person also must register in a State where the person is employed or attends any educational institution.

This active community notification component, where law enforcement officers go door to door to inform neighbors and schools of an offender's neighboring presence, is not a part of the federal Megan's Law or New York State's Megan's Law (also known as the Sex Offender Registration Act). Federal law requires all states to release information on convicted sex offenders (making it available for the public to access on its own). Under New York's "Megan's Law," the State Division of Criminal Justice Services (DCJS) maintains a Sex Offender Registry that contains information on sex offenders classified according to their risk of re-offending as determined by the sentencing court: low-risk (Level 1), moderate-risk (Level 2) and high-risk (Level 3). [2] The risk level assigned governs the amount and type of community notification authorized for a particular sex offender. New York State's Megan's Law gives law enforcement *discretion* to notify any "entities with vulnerable populations" concerning offenders at moderate and high-risk levels of re-offending.[3]

III. Sex Offender Contact Information Verification/Re-Location: Obligations to Inform DCJS of Whereabouts

Sex offenders on parole or probation or imprisoned for a sex offense on or after January 21, 1996 (the date which Megan's Law took effect) must register and sex offenders sentenced to probation, local jail, or state prison after that date must register upon their return to the community. Level 1 and 2 offenders must register annually for 10 years from their initial registration, and Level 3 offenders must verify their addresses in person every 90 days with their local law enforcement agency. DCJS also sends address verification letters to offenders based on the offender's registration date. Local law enforcement is notified if the verification form is not returned on time or is returned undeliverable.

Offenders must register with the DCJS on a form prepared by DCJS within ten calendar days prior to discharge, parole, release to post-release supervision or release from any state or local correctional facility, hospital or institution where he or she was confined or committed, or, at the time when a probation sentence is imposed or when an offender is discharged upon payment of a fine, conditional discharge or unconditional discharge.

If an offender changes his or her place of residence while on parole or probation, the offender's parole or probation officer must inform the DCJS in writing on a form provided by the DCJS within forty-eight hours. This process also occurs if an offender changes the status of his or her enrollment, attendance, employment or residence at any institution of higher education while on parole/probation.

[2] N.Y. CORRECT. LAW § 168 *et seq.* (McKinney 2003).

[3] N.Y. CORRECT, LAW § 168-1. Under a recent amendment to state law, this section of the statute now reads "(b) If the risk of repeat offense is moderate, a level two designation shall be given to such sex offender. In such case the law enforcement agency or agencies having jurisdiction and the law enforcement agency or agencies having had jurisdiction at the time of his or her conviction shall be notified and may disseminate relevant information which shall include a photograph and description of the offender and which may include the name of the sex offender, approximate address based on sex offender's zip code, background information including the offender's crime of conviction, modus of operation, type of victim targeted, the name and address of any institution of higher education at which the sex offender is enrolled, attends, is employed or resides and the description of special conditions imposed on the offender to any entity with vulnerable populations related to the nature of the offense committed by such sex offender. Any entity receiving information on a sex offender may disclose or further disseminate such information at its discretion.

If an offender fails to register or verify within the required time periods the offender can be found guilty of a class A misdemeanor upon conviction for the first offense, and upon conviction for a second or subsequent offense shall be guilty of a class D felony. Such a failure to register or verify could also result in the revocation of parole. IV. Concerns About Public Access to Registry Information

Public access to information on sex offenders is based upon the level of risk the court assigns to an offender. Due to limited access the following concerns have risen:

• Local law enforcement agencies have ***discretion,*** but are ***NOT mandated*** to notify any "entities with vulnerable populations" concerning offenders at risk Level 2 and 3.

•One cannot determine whether a Level 1 or 2 offender lives in his/her neighborhood, that is, unless, one calls the DCJS 1-900 telephone number asking the registry to check a specific person's name.

•The DCJS may only confirm whether a Level 1 offender is listed in the registry (an exact address or zip code cannot be disclosed and no other identifying information can be provided).

•The DCJS may provide only the zip code, not the exact address of a Level 2 offender.

•The DCJS registry contains information on low-risk (Level 1) and moderate-risk (Level 2) sex offenders, but the registry web-site provides the public with access to information on Level 3 offenders only. By typing in one's zip code, only Level 3 offenders will be listed along with their picture, home address, offense description, and any special conditions imposed by the court or parole, but information on Level 1 and Level 2 offenders does not appear.

V. Summary of Resolutions

A. Resolution 247-A

Resolution 247-A calls on the New York State Legislature to amend Megan's Law to mandate community notification regarding sex offenders and to require local law enforcement to provide education to the public regarding such notification. Specifically, the resolution calls on the state to make the following amendments to Megan's Law:

•Include information on convicted Level 2 sex offenses on the DCJS website; at a minimum, this information should include the offender's photograph and any special conditions imposed by the court or parole authorities, as well as the offender's approximate address by zip code; and

•Mandate rather than give discretion to local law enforcement to notify "any entity with vulnerable populations related to the nature of the offense" committed by Level 2 and 3 sex offenders; and

•Mandate that local law enforcement provide education to those with whom they share such information about offenders.

B. Resolution 81-A

Resolution 81-A calls on the New York State Legislature to increase the penalty for the failure to register or verify an address as required by the Sex Offender Registration Act, and to require that convicted sex offenders perform their annual address verification in person. The resolution notes that despite SORA's registration and verification requirements for sex offenders, offenders are failing to register or update their registrations. The penalty for a first offense under SORA's registration and verification requirements is only a class A misdemeanor upon conviction. Senate Bill 1016 (S.1016) and Assembly Bill 5083 (A.5083) would increase the penalty for the initial failure to register or verify an address to a class D felony.

(c) If the risk of repeat offense is high and there exists a threat to the public safety a level three designation shall be given to such sex.offender. In such case, the law enforcement agency or agencies having jurisdiction and the law enforcement agency or agencies having had jurisdiction at the time of his or her conviction shall be notified and may disseminate relevant information which shall include a photograph and description of the offender and which may include the sex offender's name, exact address, address of the offender's place of employment, background information including the offender's crime of conviction, modus of operation, type of victim targeted, the name and address of any institution of higher education at which the sex offender is enrolled, attends, is employed or resides and the description of special conditions imposed on the offender to any entity with vulnerable populations related to the nature of the offense committed by such sex offender. Any entity receiving information on a sex offender may disclose or further disseminate such information at its discretion. In addition, in such case, the information described herein shall also be provided in the subdirectory established in this article and notwithstanding any other provision of law, such information shall, upon request, be made available to the public."

Accordingly, Your Committee recommends the adoption of Res. No. 247-A and Res. No. 81-A.

(The following is the text of Res. No. 247-A:)

Res. No. 247-A

Resolution calling on the New York State Legislature to amend Megan's Law to mandate community notification regarding sex offenders and to require local law enforcement to provide education to the public regarding such notification.

By Council Members Vallone Jr., Avella, Clarke, Foster, Gennaro, Gentile, Gerson, Liu, Martinez, Recchia Jr., Sanders Jr., Nelson, Jennings Jr., Seabrook, Oddo and The Public Advocate (Ms. Gotbaum).

Whereas, New York's Megan's Law, which took effect in 1996, requires registration as a sex offender upon a conviction of certain listed sex offenses or a conviction for an attempt to commit a listed sex offense; and

Whereas, Megan's Law also establishes a set of guidelines and procedures for use by the New York State Board of Examiners of Sex Offenders and sentencing courts to assess the risk of a repeat offense by a sex offender and the threat posed to the public safety by such offender; a Level One designation is for those offenders whose risk of repeat offense is low, Level Two refers to the designation for those offenders whose risk of repeat offense is moderate, and Level Three refers to those offenders whose risk of repeat offense is high and who pose a risk to public safety; and

Whereas, In addition, under Megan's Law, local law enforcement agencies are notified when an offender moves into its jurisdiction, and it is then in the discretion of the law enforcement agency whether to distribute certain information about the offender "to any entity with vulnerable populations related to the nature of the offense" committed by the sex offender; and

Whereas, Also under Megan's Law, the New York State Department of Criminal Justice Services (DCJS) must keep a subdirectory of information on Level Three offenders and post such information on its website; and

Whereas, Although they provide the public with important facts regarding sex offenders, these Megan's Law requirements limit the amount of information that the public receives regarding sex offenders; to ensure that the residents of this city receive accurate and complete data to make common sense decisions to protect themselves and their families from sex offenders, certain provisions of the statute should be amended; and

Whereas, The current DCJS database of sex offenders should also include those convicted of Level Two sex offenses, and the website information available to the public should have, at a minimum, the offender's photograph and any special conditions imposed by the court or parole authorities, as well as their approximate address by zip code; and

Whereas, Megan's Law should also be amended to mandate that local law enforcement notify "any entity with vulnerable populations related to the nature of the offense" committed by Level Two and Level Three sex offenders; and

Whereas, And equally importantly, Megan's Law should mandate that local law enforcement provide education to those with whom they share such information about the nature of the data, such as the risk involved, how to protect their families, and how the facts provided to them should be used; and

Whereas, Residents of a community have the right to know about the presence of a sex offender in their neighborhood; mandating community notification by law enforcement, and further requiring Level Two and Level Three sex offender information to be published on the web, will ensure the public safety of residents of the city, particularly our children, and therefore must be approved by the State Legislature and Governor as quickly as possible; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to amend Megan's Law to mandate community notification regarding sex offenders and to require local law enforcement to provide education to the public regarding such notification.

PETER F. VALLONE, JR., Chairperson; ERIK MARTIN DILAN, HELEN D. FOSTER, ALAN W. JENNINGS, MELINDA R. KATZ, HIRAM MONSERRATE, DAVID YASSKY, SARA M. GONZALEZ, VINCENT J. GENTILE, Committee on Public Safety, December 9, 2004.

Pursuant to Rule 8.50 of the Council, the Public Advocate (Ms. Gotbaum) called for a voice vote. Hearing no objections, the Public Advocate (Ms. Gotbaum) declared **Res. No. 247-A** to be adopted.

Adopted unanimously by the Council by voice-vote.

Report for voice-vote Res. No. 624

Report of the Committee on Public Safety in favor of approving a Resolution supporting the New York City Police Department's participation in the AMBER Alert broadcast system, which allows police to rapidly notify the public that a child has been abducted, and urging that additional methods of alerting the public with comprehensive information be developed and implemented.

The Committee on Public Safety to which was referred on October 13, 2004 (Minutes, page 4644) the annexed resolution respectfully

REPORTS:

I. INTRODUCTION

On December 9, 2004, the Committee on Public Safety, chaired by Council Member Peter F. Vallone Jr., will hold an oversight hearing on the New York City Police Department's handling of missing persons cases and the Department's participation in the Amber Alert Program. The Committee will also solicit testimony on Int. No. 16 and Res. No. 624.

II. BACKGROUND

In New York State there are roughly 36,000 reports of missing persons each year with approximately one third missing adults. In 2003, the State Register received 22,040 reports of children missing from New York State.[1] Nationally, according to the Federal Bureau of Investigation, National Crime Information Center (NCIC), as of March 31, 2003 there were 97,297 active missing person cases in the United

States. Of those missing, approximately 54,184 are juveniles and nearly 43,113 were reports of individuals eighteen and older.[2] According to law enforcement officials, the first 24 to 72 hours is crucial in locating a person who is missing; after that time, the prospects of recovering a person become dim. [3] This short time frame proves the importance of improving methods and tools both in preventing such cases as well as locating persons after reported missing. Additionally, since the problem and tragedy of missing persons is of national importance, coordination among local and federal authorities is also imperative.

III. RECENT MISSING PERSONS CASES

•Romona Moore, a 21-year-old Hunter College student, from East Flatbush, Brooklyn, was reported missing by her family members after she did not come home on April 24, 2003. Police did not launch a search until three days later, and her body was found on May 10, 2003 in a vacant house near her home.[4] Family members stated that Romona's disappearance was unusual when she did not come home immediately because "if she was five minutes late from college she calls her mom."[5]

•Svetlana Aronov was a 44-year-old mother of two, rare books dealer and Upper East Side Manhattan resident who disappeared along York Avenue near East 68th Street while walking her father's cocker spaniel on March 3, 2003. Approximately six weeks later, the coroner's office confirmed that a body found in the East River near Long Island City was that of Svetlana.[6]

•Kristine Kupka was a 28-year-old, pregnant honors student at Baruch College in Manhattan, who disappeared on October 24, 1998 after leaving her Brooklyn home with one of her former college instructors who was also the father of her unborn baby. The following day, her sister, Kathy, went to the police to report her missing, and two days later the police called Kathy to take an "informational account" of Kristine's disappearance.[7]

IV. NYPD PROTOCOL

The NYPD's handling of missing persons cases is dictated by Patrol Guide Section 207-23; this section sets forth the practice and procedure to be followed when a child or person is reported missing. Patrol Guide Section 207-23 defines a missing person as a person "missing from a NEW YORK CITY RESIDENCE" and who (a) is under 18 years of age, or (b) is mentally or physically impaired to the extent that hospitalization may be required, or (c) is senile, retarded or disabled and not capable of self-care or clear communication, or (d) is 65 years of age or older, or (e) is the possible victim of drowning, or (f) has indicated an intention of committing suicide, or (g) is "absent under circumstances indicating unaccountable or involuntary disappearance." If a person is not missing from a New York City residence (which includes a temporary residence, such as a hotel or rooming house), or is a resident of the City but does not fit into one of the enumerated categories, he/she is not considered to be a "missing person" by the NYPD.

Upon receiving a complaint of a missing person, a police officer is instructed to respond to the scene and gather certain information, such as a description of the subject, the name of the parents, etc. The Patrol Guide notes that there "are no minimum time limits that must be observed before accepting a report of a missing person." An immediate investigation and search is required, however, if the person missing (a) is under 16 years of age, or (b) is mentally/physically impaired to the extent that hospitalization may be required, or (c) is senile, retarded or disabled and not capable of self-care or clear communication, or (d) is 65 years of age or older, or (e) presents a "unique/unusual case", or (f) is "missing under circumstances indicating unaccountable or involuntary disappearance", or (g) is a possible drowning victim. An immediate search is not required if a person does not fit into one of these categories.

The Missing Persons Squad is to be notified regarding the progress of a search "within a reasonable time (usually four [4] hours BUT NOT LATER THAN END OF TOUR)." The Patrol Guide makes clear that a "report of person missing from a residence OUTSIDE New York City WILL NOT BE ACCEPTED. The complainant will be directed to report the case to the local police agency covering the residence of the missing person. The local police may request this Department to assist in the investigation."

If an immediate search must be conducted, Patrol Guide Section 207-23 sets forth the procedure, which includes requesting additional personnel, such as Emergency Services, requesting the Communications Bureau to broadcast a description of the missing person, initiating a search at the location where the missing person was last observed, and keeping the Missing Persons Squad apprised of the situation.

V. FEDERAL AND STATE LAWS

Legislation, both at the federal and state levels, is constantly being improved and expanded with regard to missing persons cases. In 1975, the Federal Bureau of Investigation's National Crime Information Center (NCIC) instituted the Missing Person File, which enables officers from anywhere in the country to verify the report of a missing person who has been entered into the system.[8] In 1983, NCIC established the Unidentified Person File, which allows law enforcement officers to compare information from their missing persons cases against descriptions of unidentified bodies from jurisdictions around the country.[9]

More recently, at the federal level, the Prosecutorial Remedies and Other Tools to End the Exploitation of Children Today Act (PROTECT Act), also known as Suzanne's Law, was signed by President Bush on April 30, 2003 requiring each federal, state, and local lawenforcement agency to enter information about missing children younger than the age of twentyone into the FBI's NCIC database and mandating that no law enforcement agency "establish or maintain any policy that requires the observance of any waiting period before accepting a missing child or unidentified persons report."[10] This Law also expands America's Missing: Broadcast Emergency Response (AMBER) Alert provisions calling for the national coordination of state and local AMBER Alert programs, including the appointment of a national AMBER Alert coordinator and the development of guidelines for the issuance and dissemination of AMBER Alerts.[11] Additionally, a Code ADAM program was developed that requires designated authorities for public buildings to establish procedures for locating a child who is missing in the building. [12]

Current New York State law requires a central register for missing children, compatible with the NCIC database pursuant to the Federal Missing Children's Act of 1982.[13] The State Legislature in 1987 also established the New York State Missing and Exploited Children Clearinghouse, which maintains the statewide missing child registry and assists law enforcement in locating abducted /missing children. [14] The State requires identification of unknown dead and missing persons through fingerprints, personal descriptions and other identifying data.

The NYS Campus Safety Act requires all public, private, community colleges and universities in New York State to have formal plans that provide for the investigation of missing students. The Law also expands the responsibilities of the NYS DCJS Missing and Exploited Children Clearinghouse to provide assistance with the dissemination of information about missing college students.[15]

Additionally, the State Department of Criminal Justice Services developed the "Investigative Guide for Missing College Students." New York State also set up a computerized system to report information about missing persons to all tollbooths and rest stops on the New York State Thruway and missing persons profiles are displayed in the New York State Income Tax forms.

VI. AMBER ALERT

The AMBER Plan is a voluntary partnership between law-enforcement agencies and broadcasters to activate an urgent bulletin in the most serious child-abduction cases. Broadcasters use the Emergency Alert System (EAS), formerly called the Emergency Broadcast System, to air a description of the missing child and suspected abductor. Each program establishes its own AMBER Plan criteria; however, the National Center for Missing & Exploited Children suggests three criteria that should be met before an Alert is activated:

•There is reasonable belief by law enforcement that an abduction has occurred.

•The law enforcement agency believes that the child is in imminent danger of serious bodily injury or death.

•There is enough descriptive information about the victim and the abduction for law enforcement to issue an AMBER Alert to assist in the recovery of the child.

•The abduction is of a child aged 17 years or younger.

•The Child's name and other critical data elements, including the Child Abduction flag, have been entered into the National Crime Information Center (NCIC) system. [16]

In New York State, the Amber Alert Program is a cooperative effort between the New York State Police, NYS Division of Criminal Justice Services, State Emergency Management Office, NYS Public Service Commission, the National Center for Missing and Exploited Children, NYS Broadcasters Association and local broadcasters across the state.

Once an abduction has been confirmed and a review of the protocol indicates that the case qualifies, the investigating police agency submits information directly to the New York State Police Communications Section (COMSEC) in Albany. After verifying the authenticity of the incident and request, COMSEC immediately disseminates the information to radio and television stations in the region where the abduction occurred. The stations immediately broadcast information to the public, who then serve as additional eyes and ears for law enforcement. The alert message directs listeners and viewers to call local police or 911 with any information.

The NYS AMBER Alert Program has been operational since September 2002 and is activated when law enforcement authorities confirm that an abduction has taken place and the child is 17 years of age or younger, and police believe the child is in imminent danger of serious bodily harm or death, either at the hands of another or due to a proven mental or physical disability. In New York City, the Police Department (NYPD) also participates in the AMBER Alert Program, in conjunction with local media and the Department of Transportation, to broadcast missing persons information to the public.

VII. SUMMARY OF INT. NO. 16

Editor's Note – The Committee on Public Safety decided not to vote on Int. No. 16 during their December 9, 2004 Committee Meeting. Int. No. 16 was therefore laid over by committee and was not presented to the full Council for a vote at this Stated Council Meeting of December 15, 2004 despite the inclusion of the item in this Report for related Res. No. 624.

Introduction No. 16 expands the criteria used to determine when to launch an immediate investigation into the whereabouts of a missing person to include a person 25 years-of-age and under, and whether an absence is inconsistent with a person's usual patterns, habits and schedule as known by friends, acquaintances or family.

The legislative findings indicate that criteria used to determine when to commence an immediate investigation into the whereabouts of missing persons must be expanded as a result of the tragic death of 21-year-old Hunter College student Romona Moore. Since Moore did not fit within any of the categories enumerated in the NYPD's Patrol Guide, an investigation did not commence until three days after the filing of a missing person's report by her family.

Additionally, law enforcement officials acknowledge that the first 24 to 72 hours is crucial in locating a person who is missing. To avoid another Romona Moore tragedy, the Council finds that the age requiring an immediate missing persons investigation be increased to 25, that the NYPD consider whether an absence is inconsistent with a person's known patterns, habits and schedule, and that the case be referred to the NYPD's Missing Person's Squad after three days.

The bill further provides that the NYPD immediately investigate city residents reported missing who are: i) under 26 years of age; or ii) mentally/physically impaired to the extent that hospitalization may be required; or iii) senile, retarded or disabled and not capable of self-care or clear communication; or iv) 65 years of age or older; or v) missing under circumstances which constitute a unique/unusual case; or vi) missing under circumstances indicating unaccountable or involuntary disappearance; or vii) a possible drowning victim.

A person considered missing under circumstances indicating unaccountable or involuntary disappearance, or in a unique or unusual case shall also include an absence that is inconsistent with a person's usual patterns, habits and schedule as known by friends, acquaintances or family.

The bill excludes from the missing persons category those persons wanted for crimes or on warrants, or persons eighteen years of age or older, who have left home voluntarily.

The bill also provides that the NYPD shall immediately notify the Department's Missing Persons Squad upon receiving a missing persons report and if the person is still missing after 72 hours, shall refer the case to the Department's Missing Persons Squad.

VIII. SUMMARY OF RES. NO. 624

Resolution No. 624 supports the New York City Police Department's participation in the AMBER Alert broadcast system, which allows police to rapidly notify the public that a child has been abducted, and urging that additional methods of alerting the public with comprehensive information be developed and implemented. The Resolution states that the AMBER Alert system is a coalition of law enforcement, TV and radio broadcasters, and Internet providers that provide the public with key descriptive information regarding children that have been abducted. The Resolution also specifies that an AMBER alert is issued once law enforcement confirms a child has been abducted, believes the circumstances surrounding the abduction indicate the child is in danger of serious bodily harm or death, and has enough descriptive information about the child and abductor. It further indicates that most abductions end with the child murdered within one to three hours of abduction and that in a city as large as New York, the AMBER Alert system may make the difference between the life and death of an abducted child. Thus, the NYPD should be applauded for its participation in the AMBER Alert Program and should work at adopting additional methods of alerting the public.

Accordingly, Your Committee recommends the adoption of Res. No. 624 but decided that the related Int. No. 16 be laid over ("laid over by committee").

Report for voice-vote Res. No. 672

Report of the Committee on Public Safety in favor of approving a Resolution commending the 20th Anniversary of the program, COP SHOT (Citizens Outraged at Police Being Shot).

The Committee on Public Safety to which was referred on November 10, 2004 (Minutes, page 4930) the annexed resolution respectfully

REPORTS:

SUMMARY OF RES. NO. 672

Resolution No. 672 commends the 20th Anniversary of the program, COP SHOT (Citizens Outraged at Police Being Shot). The Resolution states that tragic incidents of police officers being shot continue to headline our newspapers with the most recent tragedy unfolding in Brooklyn, where two detectives were killed by an individual involved in a domestic dispute. The Resolution further states that the NYPD has successfully made use of the COP SHOT Program in solving many police shooting cases, its creation motivated by the rising number of police officers shot in the 1980s. The Resolution also indicates how unique the Program is in that: 1) it issues the reward regardless of whether the officer involved in the shooting was fatally injured or even wounded, as long as the information leads to an arrest and conviction; 2) is a program solely funding itself, and its funds are gathered through annual contributions made by its own members used solely for rewards and printed advertisements; and 3) has its own toll-free hotline, 1-800-COP-SHOT, which is 24 hours a day managed and surveyed by detectives directly from the Crime-Stoppers Unit of the Chief of Detectives Office. In light of the important contributions this program has made in protecting our police officers, the Council recognizes and commends the 20th anniversary of COP SHOT.

Accordingly, Your Committee recommends its adoption.

Report for voice-vote Res. No. 702

Report of the Committee on Education in favor of approving a Resolution commending the Campaign for Fiscal Equity, the law firm of Simpson, Thatcher & Bartlett and all those who have worked with them for their continuing advocacy for the children of the City of New York, and calling upon the Governor and the State Legislature to fully and fairly provide the means to insure that all New York City school children immediately receive a sound basic education.

The Committee on Education to which was referred on December 7, 2004 (Minutes, page 5351) the annexed resolution respectfully

REPORTS:

On Wednesday, December 8, 2004, the Committee on Education, chaired by Council Member Eva Moskowitz, will conduct a hearing to consider whether to pass Res. No. 702, commending the Campaign for Fiscal Equity, the law firm of Simpson, Thatcher & Bartlett and all those who have worked with them for their continuing advocacy for the children of the City of New York, and calling upon the Governor and the State Legislature to fully and fairly provide the means to insure that all New York City school children immediately receive a sound basic education.

The Proposed Resolution

Res. No. 702 concerns the most recent developments in the Campaign for Fiscal Equity lawsuit in which the plaintiff, the Campaign for Fiscal Equity ("CFE"), brought suit against the State of New York, alleging that the State's school funding formulate violated Article XI, § 1 of the Constitution of the State of New York, which states that "The Legislature shall provide for the maintenance and support of a system of free common schools, wherein all the children of this state may be educated." In reciting this provision, known as the Education Article, the resolution would point out that it requires the State of New York to provide a "sound basic education" to all children.

The resolution would also note that City of New York educates approximately 1.1 million school children each year without adequate resources, facilities or funding, and would explain that Council Member Robert Jackson helped found CFE, a non-profit, private organization dedicated to improving the quality of education for the children of the City of New York. The resolution would also indicate that, in May 1993, Council Member Jackson, while president of Community School Board 6, brought suit against the State of New York on behalf of the children of Community School District 6 and all the children of the City of New York, seeking a ruling that the State's financing formula for providing education aid to the City violated the New York State Constitution. CFE eventually became lead plaintiff in the lawsuit brought by Council Member Jackson, which became known as the "Campaign for Fiscal Equity" lawsuit.

The resolution would also note that CFE, represented by the law firm of Simpson, Thatcher & Bartlett, has litigated for more than a decade, and that on January 9, 2001, the New York State Supreme Court found that the education afforded to the children of New York City was so inadequate that it fell far below Constitutional requirements and that the State of New York had consistently and over many years violated the Education Article of the State Constitution. The resolution would also indicate that, on June 26, 2003, the Court of Appeals ruled in favor of CFE, after two appeals by Governor Pataki, holding that, among other things, the State aid formula violated the Education Article of the New York State Constitution and that the State must find a constitutionally acceptable method by the end of July 2004, to finance the education of the children of the City of New York.

The resolution would also state that New York State failed to comply with the order of the Court of Appeals and, therefore, on August 3, 2004, the New York Supreme Court appointed three judicial referees to hear and report to Justice Leland DeGrasse, who was hearing the Campaign for Fiscal Equity lawsuit, recommendations concerning how the Court could best craft a remedy to fulfill the directives of the Court of Appeals. The resolution would indicate that, on November 30, 2004, the judicial referees submitted their Report and Recommendations to the Court after hearing and receiving testimony from many sources, and that these recommendations suggest, among other things, that the City of New York receive an additional $5.63 billion each year (phased in over four years) in operating funds, and an additional $9.179 billion over five years for capital needs.

The resolution would further note that the Report and Recommendations is yet another important and substantial victory in the fight for adequate resources for New York City's school children, and that such victory could not have occurred without the tireless work of CFE, including its directors and staff, and of the countless individuals and organizations, ranging from community activists to attorneys and other professionals, who have donated significant amounts of their time and money to champion the cause of public education in New York City. Finally, the resolution would indicate that CFE, the volunteers who support CFE and the law firm of Simpson, Thatcher & Bartlett would be congratulated and profoundly thanked from the people of the City of New York for their ceaseless advocacy for the children of our City.

A copy of the resolution follows.

Accordingly, Your Committee recommends its adoption.

INTRODUCTION AND READING OF BILLS

Res. No. 728

Resolution to support the Untied Nations Development Corporation's expansion plans to refurbish the Secretariat and expand its overall headquarters, which involve a small city park in Turtle Bay.

By Council Members Barron, Reed and Seabrook.

Whereas, The United Nations is an essential institution in the world for promoting international peace and security and the rule of law. Its charter is the legal cornerstone of international relations; and

Whereas, The original plans for the U.N. headquarters buildings were designed by an international team of architects chaired by New Yorker Wallis Harrison with Le Corbusier and Oscar Niemeyer. The cornerstone was laid in 1949, the Secretariat building was completed in 1951, and the General Assembly and Conference Building in 1952; and

Whereas, In 1968, in response to the United Nations' expanding needs, the State of New York passed legislation creating the United Nations' Development Corporation (UNDC) with a mandate to develop more office, housing, hotel space, and other essential facilities close to the United Nations Headquarters; and

Whereas, Since its inception, UNDC has developed and operated approximately 1.8 million square feet of space in the U.N.'s vicinity; and

Whereas, One and Two U.N. Plaza are both 40-story office towers that contain more than 700,000 square feet of office space for U.N. agencies and missions and a luxury hotel facility. Three U.N. Plaza contains the worldwide headquarters of the United Nations Children's Fund (UNICEF) and apartments housing U.N. and mission staff; and

Whereas, The development of One, Two, and Three U.N. Plaza has also served as a catalyst for the commercial and residential revitalization of the surrounding area, creating housing and employment opportunities for New Yorkers; and

Whereas, In 1998-99, a team of architects and engineers thoroughly examined the condition of the U.N. Headquarters complex and concluded that, despite the high quality of the original construction, many building elements have deteriorated due to age, or do not meet current standards of safety or energy efficiency; and

Whereas, The direct economic benefits to the City of New York generated by the presence of the United Nations are as follows: U.N. Headquarters, agencies, missions and consulates directly employ about 16, 400 people and the extended U.N system employs roughly 31,000 people. This makes it one of the twenty largest employers in our City; and

Whereas, The United Nations is one of our City's main tourist attractions; since 1952, approximately 40 million visitors have taken guided tours of U.N. Headquarters' buildings, and the U.N. is in the process of building a Visitor's Center that will generate even greater tourist traffic; and

Whereas, The United Nations contributes over a billion dollars to the economic life of New York City, and its expansion, as well as the upgrading of the Secretariat, will undoubtedly be of great benefit to our City; now, therefore, be it

Resolved, That the Council of the City of New York support the Untied Nations Development Corporation's expansion plans to refurbish the Secretariat and expand its overall headquarters, which involve a small city park in Turtle Bay.

By Council Members Boyland, Baez, Barron, Comrie Jr., Gerson, Gonzalez, James, Nelson, Palma, Sears, Vann and Weprin.

A Local Law to amend the administrative code of the city of New York, in relation to requiring all children between the ages of four and eight to sit in child booster seats when traveling in any motor vehicle.

Be it enacted by the Council as follows:

Section 1. Legislative findings. The Council finds that a serious safety issue exists for children between the ages of four and eight when riding in any motor vehicle. This unfortunate situation arises through the absence of child booster seat laws in New York City. The fact that drivers of the city are not routinely using these child restraint systems with children in their vehicles necessitates that the Council act to protect the children of this city.

The extensive requirement for child booster seats in motor vehicles prescribed in the Code of Federal Regulations, known as the Federal Motor Vehicle Standards, lend considerable weight to the necessity and propriety of imposing such mandates on a local level. Statistics compiled by relevant federal agencies justify the need for both national and local requirements for employing child restraint systems. The National Highway Traffic Safety Administration (NHTSA), part of the United States Department of Transportation, reports that only six percent of children nationwide between the ages of four and eight are properly secured in child booster seats when traveling in a motor vehicle. Accordingly incidents involving motor vehicles are the leading cause of death for children of every age from four to fourteen years (based on 2002 figures). 2003 Fatality Analysis Reporting System (FARS) data shows that almost half of fatally injured children nationwide in motor vehicles between the ages of four and seven were completely unrestrained in their seats. Finally, the NHTSA has shown that when child booster seats are used properly, they reduce the risk of fatal injury to children between the ages of four and seven by twenty-three percent. Therefore, due to non-restraint and improper restraint in New York City motor vehicles, even a rough analysis of the above national compels the Council to act.

§2. Chapter 1 of title 10 of the administrative code of the city of New York is amended by adding thereto a new section 10-164 to read as follows:

§10-164. Child booster seats. a. The owner or operator of a motor vehicle traveling within the city of New York shall be required to provide a child booster whenever a child between the ages of four and eight is traveling in the motor vehicle and such child shall be required to sit in a child booster seat when a motor vehicle is moving. Such booster seats shall be compliant with all applicable federal laws, regulations and rules and shall be of a type approved by the New York state department of transportation for use by children four to eight years of age and ranging from forty to eighty pounds in weight. A child booster seat shall only be used in accordance with instructions prepared for or by the manufacturer of such booster seats and shall be installed only in the backseat of a motor vehicle. For purpose of this section, a "child booster seat" shall mean a child passenger restraint system which meets the federal motor vehicle safety standards set forth in section 517.213 of title forty-nine of the code of federal regulations that is designed to elevate a child to properly sit in a federally approved lap/shoulder belt system.

b. Any person who violates the provisions of subdivision a of this section shall be liable for a civil penalty of one hundred dollars. It shall be an affirmative defense that a passenger accompanying a child for whom a child booster seat is required pursuant to subdivision a of this section, other than the owner or operator of the motor vehicle, declined to allow such child to be secured in such a seat although such a seat was provided.

§3. This local law shall take effect ninety days after its enactment into law.

Resolution calling upon the New York State Legislature to reject S.7714A and A.11873A, relating to the United Nations' development district and expansion plans, as well as to the operation, improvement and maintenance of the Robert Moses Playground In connection with such plans.

By Council Members Felder, Katz, Nelson, Oddo, Provenzano, Recchia Jr., Vallone, Jr., Gallagher, Sears, Fidler, Gennaro and McMahon.

Whereas, The United Nations officially came into existence on October 24, 1945, when its Charter was ratified by China, France, the Soviet Union, the United Kingdom, the United States and a majority of other signatories; and

Whereas, The purposes of the United Nations, as set forth in its Charter, are to maintain international peace and security, develop friendly relations among nations, and cooperate in solving international economic, social, cultural and humanitarian problems and in promoting respect for human rights and fundamental freedoms, and to be a center for harmonizing the actions of nations in attaining these ends; and

Whereas, Since 1952, the United Nations has had its headquarters at the United Nations Plaza, located on 1st Avenue between 42nd and 48th Streets, in the Borough of Manhattan; and

Whereas, The United Nations recently announced plans to renovate its current building and to construct a new 35-story building on what is now the Robert Moses playground, plans which must be approved for funding by the United States Congress and the New York State Legislature; and

Whereas, A portion of the United Nations expansion project would be funded through $600 million in bonds issued by the United Nations Development Corporation, a State-created public authority that does not fall under the purview of the New York State Public Authorities Control Board; and

Whereas, Several New York State legislators and locally elected public officials have expressed concerns over the project's potential impact on State and City taxpayers, the fact that there will be no State oversight or review of the project's financing, and the lingering questions that remain about who would ultimately be liable for the public debt should there be a default; and

Whereas, The United Nations expansions plans, especially its plans to construct the 35-story building on the Robert Moses Playground, is opposed by many community residents and the area's local Community Board; and

Whereas, S.7714A and A.11873A, introduced in the New York State Legislature, would allow the United Nations to proceed with its planning process of weighing and considering its needs for possible further development in the area of its headquarters, as well as the needs of the nearby host community for park land replacement and mitigation; and

Whereas, Over the years, the United Nations has shown a lack of consideration for the fiscal state of New York City, by allowing diplomats from about 200 United Nations countries to run up approximately 200,000 unpaid City parking tickets which, according to a December 2, 2004 press release issued by the New York State Senate, amounts to more than $195 million; and

Whereas, The United Nations is currently embroiled in a controversy over its management of the now defunct $64 billion Iraqi Oil-for-Food Program, which was initiated in the mid-1990's to alleviate the impact on ordinary Iraqis of sanctions imposed after the country invaded Kuwait in 1990; and

Whereas, The Iraqi Oil-for-Food Program allowed Iraq to sell its oil to buy food, medicine and other goods, but was allegedly used by the country's former dictator, Saddam Hussein, to illegally amass a personal fortune estimated in the billions of dollars; and

Whereas, The United Nations has failed to cooperate with the current investigations of the Oil-for-Food Program being conducted by the United States House of Representatives and the United States Senate, prompting several Congressman to sponsor H.R. 4284, which calls for the withholding of American funds from the United Nations until it cooperates with such investigations; and

Whereas, In light of the questions and objection regarding the United Nations expansion project, as well as other controversies involving the United Nations, the expansion project should not go forward; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to reject S.7714A and A.11873, relating to the United Nations' development district and expansion plans, as well as to the operation, improvement and maintenance of the Robert Moses Playground In connection with such plans.

Res. No. 730

Resolution calling upon the State Legislature to amend the General Business Law in relation to prohibiting businesses from selling gift certificates, or issuing store credits, containing expiration dates or from adding dormancy fees, latency fees, or any other administrative fees or service charges that have the effect of reducing the total amount of the gift certificate or store credit face value.

By Council Members Fidler, The Speaker (Council Member Miller), Weprin, Nelson, Recchia Jr., Oddo, Gonzalez, Dilan, Gennaro, Reyna, Baez, Koppell, James, Stewart, Gerson, Barron, Yassky, Gentile, Addabbo Jr., Brewer, Clarke, Comrie Jr., Jennings Jr., Liu, Martinez, McMahon, Palma, Vann and Quinn.

Whereas, Governor Pataki signed Senate Bill 7708 into law on September 21, 2004, intended to protect consumers in relation to fees associated with the purchase and use of gift cards; and

Whereas, The bill amends section 396-i of the General Business Law and directs that consumers receive clear notice of the terms and conditions of all gift certificates and gift cards issued; and

Whereas, Particularly during the holiday season, this is an important concern as consumers frequently purchase store gift cards to give as presents to friends and loved ones; and

Whereas, New York consumers spent an estimated $1.3 billion on gift cards in 2003; and

Whereas, Many merchants charge hidden fees In connection with the sale and use of store gift cards, including up-front surcharges and latency fees that gradually diminish the card's value over time; and

Whereas, Numerous merchants also fix expiration dates to their gift cards, making them useless beyond a prescribed time period, regardless of the card's actual remaining value; and

Whereas, Due to the application of these fees and expiration dates, it is estimated that, nationally, 12 to 15% of the money spent on gift card purchases is never redeemed by consumers; and

Whereas, Despite the new disclosure requirements pursuant to Senate Bill 7708, the current state legislation still permits retailers to assess unrestricted service fees and set expiration dates after the card has been inactive for thirteen months; and

Whereas, Establishments that sell or issue gift certificates or gift cards, or issue store credits, are essentially paid in advance for subsequent consumer purchases; and

Whereas, The Council finds that it is improper for these establishments to place any expiration dates or service fees upon these items, as this practice turns these certificates, cards and store credits into "found money" for the establishment at the expense of the consumer; and

Whereas, A spokesperson for State Attorney General Eliot Spitzer recently issued the following statement, "It's the position of the Attorney General's Office that the law should prohibit expiration dates and monthly service and dormancy fees, anything less than that is not real consumer protection;" and

Whereas, Although the recent amendments to the state law are certainly well intentioned and take a positive step towards protecting consumers from dubious business practices, they do not go far enough; and

Whereas, The State Legislature should therefore amend the current law to increase consumer protection, or permit localities to adopt additional, or more stringent requirements for the sale of store gift cards; now, therefore, be it

Resolved, That the Council of the city of New York calls on the State Legislature to amend the General Business Law to prohibit businesses from selling gift certificates, or issuing store credits, containing expiration dates or from adding dormancy fees, latency fees, or any other administrative fees or service charges that have the effect of reducing the total amount of the gift certificate or store credit face value. In the alternative, the Council calls upon the State Legislature to amend the General Business Law to permit local jurisdictions to enact their own legislation to achieve the same or similar result.

Res. No. 731

Resolution opposing the removal of the nest of the famous red-tailed hawk, the Pale Male, from the building at 927 Fifth Avenue in the borough of Manhattan.

By Council Members Vallone, Jr., Reyna, Brewer, Gennaro, James, Liu, Martinez, Nelson, Weprin and Quinn.

Whereas, Red-tailed hawks are part of the Accipitridae family, which includes hawks, eagles, kites and Old World vultures; and

Whereas, Red-tailed hawks are of the Buteo jamaicensis genus within the Accipitridae family and are generally large stocky birds with long, broad wings and short, broad tails that are found throughout North America, Central America and the Caribbean, excluding the very northern parts of Canada and Alaska; and

Whereas, Red-tailed hawks are carnivores and are considered to be the ultimate generalists because they can live in diverse habitats and eat equally diverse types of prey, such as rodents, snakes, lizards, rabbits, small birds, fish and large insects; and

Whereas, Recently, the real estate firm Brown Harris Stevens, at the request of the co-op board of 927 Fifth Avenue in the borough of Manhattan, removed the nest of the famous red-tailed hawk, the Pale Male, from the 12th floor of 927 Fifth Avenue, where it had been perched since 1993, claiming that it was a hazard that probably violated City regulations; and

Whereas, The action of the co-op board of 927 Fifth Avenue are selfish and cruel and violate a trust held by them on behalf of all New Yorkers; and

Whereas, Many bird watchers regularly flocked to Central Park for a glimpse of the famous red-tailed hawk who has been chronicled in a television documentary and a book entitled, "Red-Tails in Love;" and

Whereas, Community residents have held candlelight vigils in front of 927 Fifth Avenue to protest the removal of the red-tailed hawk, urge building management to restore the nest, and ask Mayor Bloomberg and New York State Attorney General Elliot Spitzer to intervene with respect to Pale Male's removal; and

Whereas, The existence of red-tailed hawks greatly increases the quality of life for all New Yorkers and therefore every action should be taken to increase the number of red-tailed hawks and no action should be taken to harm these beautiful birds or to drive them away from New York City; now, therefore, be it

Resolved, That the Council of the City of New York opposes the removal of the nest of the famous red-tailed hawk, the Pale Male, from the building at 927 Fifth Avenue in the borough of Manhattan.

Res. No. 732

Resolution calling upon the Congress and President of the United States to provide a specific allocation of funding for video security systems at New York City Housing Authority developments.

By Council Members Vallone Jr., Reyna, Gioia, Brewer, Comrie Jr., Fidler, Gennaro, Gerson, Gonzalez, James, Jennings Jr., Liu, Martinez, Nelson, Palma, Rivera, Vann, Weprin and Quinn.

Whereas, The New York City Housing Authority (NYCHA) is the nation's largest housing authority with approximately 345 developments and 2,700 buildings comprising 181,000 units and 420,000 authorized tenants; and

Whereas, Testimony from representatives of NYCHA before the New York City Council on November 22, 2004, indicated that NYCHA's capital needs totaled $5 billion for Fiscal Year (FY) 2004, of which approximately $350 million was actually received from the federal government; and

Whereas, NYCHA had a $303 million operating deficit for FY 2004; and

Whereas, Fifteen high crime NYCHA developments have been targeted and are currently equipped with a technologically advanced video security system, known as the Video Interactive Patrol Response Enforcement system (VIPER); and

Whereas, All VIPER systems are constantly monitored from a central location by the New York City Police Department; and

Whereas, There has been a demonstrated decrease in crime in these 15 NYCHA VIPER-equipped developments, since 1997, when the City first began installing VIPER systems; and

Whereas, There are currently only eight additional NYCHA developments with security cameras installed, known as closed circuit televisions (CCTVs); and

Whereas, Such CCTVs are not monitored by the Police Department but the videotapes made are kept on file for a certain period of time by employees of NYCHA; and

Whereas, Funding for all eight CCTV systems were allocated through individual Council Member capital allocations; and

Whereas, New York City continues to face significant budget deficits; and

Whereas, Although overall crime has dropped significantly over the past decade in NYCHA developments, in 2003, 16% of shootings and 11% of murders in the City occurred in NYCHA developments while its residents account for approximately 5% of the City's entire population; and

Whereas, These statistics demonstrate a current and increasing need for video security systems at NYCHA developments; and

Whereas, According to a June 2004, Council report, "NYCHA Housing: Access Granted (Council Report)," there is a need for more video security systems at NYCHA developments; and

Whereas, According to the Council Report, investigators surveyed a random sample of twenty-five (25) NYCHA developments that consisted of four hundred and seventy-nine (479) buildings and were able to enter forty-seven percent (47%) of such buildings with ease, without a key or entry card, due mainly to broken front door locks, propped open doors and because people let them in the buildings; and

Whereas, The Council Report also found that eighty-four percent (84%) of the buildings surveyed did not have a single video security camera installed at an entrance; and

Whereas, New York City is constantly under a terrorist alert, and that in addition to the above areas of concern, additional security systems at NYCHA developments could help to prevent terrorist attacks at those developments located in close proximity to City bridges, which have been identified as intended targets of terrorist attacks; and

Whereas, According to a New York Post article published on December 1, 2004, one United States Senator from New York was recently able to secure $400,000 in federal funding for security cameras at three hundred (300) bodegas in New York City; and

Whereas, Considering that federal funding was available for security cameras at bodegas in the City, NYCHA certainly has a demonstrated need for security systems at their developments; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the Congress and President of the United States to provide a specific allocation of funding for video security systems at New York City Housing Authority developments.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

East Flushing Rezoning
The New York City Department of City Planning (DCP) is proposing Zoning Map amendments for all or portions of 103 blocks in the northern Queens neighborhood of East Flushing, Community District 7. The rezoning area is generally bounded by Northern Boulevard to the north, Laburnam Avenue to the south, 166th Street to the east, and 149th Place to the west.

The amendments to the Zoning Map are as follows:
- a change from an R2 to an R1-2 district;
- a change from an R3-2 to an R2 district;
- a change from an R3-2 to an R4-1 district;
- a change from an R3-2 to an R4A district;
- a change from an R4 to an R4A district;
- a change from an R3-2 to an R5 district;
- a change from an M1-1 to an R5 district;
- a change from an R4 to an R5B district;
- a change from an R2 to an R6B district;
- a change from an R3-2 to an R6B district; and
- a change from an R4 to an R6B district.

In addition, the proposed action would modify and establish C1 and C2 districts in portions of the rezoning area along Northern Boulevard and Barclay Avenue.

The purpose of the rezoning is to maintain the current character of the neighborhood, which is primarily comprised of detached- and semi-detached homes. Due to increasing pressures in East Flushing to redevelop underutilized lots in the rezoning area, there is an incentive to demolish existing housing stock to make way for out-of-scale attached or multifamily structures. The proposed action would promote development along underutilized corridors, such as Northern Boulevard and Sanford Avenue, while protecting areas that are unsuitable for continued multi-family residential development.

To avoid the potential for impacts related to hazardous materials, air quality, and noise, the proposed rezoning includes (E) designations.

The (E) designations for hazardous materials would be placed on two of the projected development sites and four of the potential development sites. These sites are comprised of the following parcels:

Block	5264	Lot 1
Block	5395	Lot 22
Block	5264	Lot 29
Block	5265	Lot 1
Block	5266	Lot 1
Block	5326	Lots 70 & 72

On the sites receiving (E) designation for hazardous materials, the contamination can be classified as petroleum based, non-petroleum based, or both. The NYCDEP has developed protocols for both petroleum and non-petroleum based (E) designated sites that are required to be followed in order to address possible contamination. The placement of the (E) designation on the zoning map would eliminate the potential for significant adverse impacts from hazardous materials and would ensure that appropriate testing and remediation, if needed, would be undertaken. The text of the (E) designation is as follows:

(E) Designation for Petroleum Based Contamination
Leakage of underground storage tanks containing petroleum products requires specific protocol and may contain parts of the near surface and subsurface protocols. To determine if contamination exists on the petroleum (E) designated sites, and to determine and perform any appropriate remediation, the following tasks must be undertaken by the fee owners of the lot restricted by this (E) designation prior to any demolition or excavation on the lot prior to development:

Task 1
The fee owner(s) of the lot restricted by this (E) designation must submit to the New York City Department of Environmental Protection (NYCDEP) for review and approval, a soil, soil gas, and ground water testing protocol, including a description of methods, and a site map with all sampling locations clearly and precisely represented.

No sampling program should begin until written approval of a protocol is received from the NYCDEP. The Number and location of sample sites should be selected to adequately characterize the site, the specific source of suspected contamination, and the condition of the remainder of the site. The characterization should be complete enough to determine what remediation strategy (if any) is necessary after review of the sampling data. Guidelines and criteria for choosing sampling sites and performing sampling will be provided by the NYCDEP upon request.

Task 2
A written report with findings and a summary of the data must be presented to the NYCDEP after completion of the testing phase and laboratory analysis for the review and approval. After receiving such test results, a determination will be provided by the NYCDEP if the results indicate that remediation is necessary. Written notice shall be given by the NYCDEP if it determines that no remediation is necessary.

(E) Designation for Non-Petroleum Based Contamination
The non-petroleum based contamination protocol has been developed to address potential contamination from all other hazardous materials sources. The procedures in the non-petroleum based protocol are the same as the petroleum based protocol with the exception of the parameters for which the soil and ground water should be tested. These parameters will vary from site to site depending upon the type of non-petroleum contamination expected to be encountered.

In general, the following steps will be required for the non-petroleum (E) designated sites:

The owner of the property will be required to prepare a scope of work for any sampling and testing needed to determine if contaminations exists and to what extent remediation may be required. The scope of work will include all relevant supporting documentation including site plans and testing locations. This scope of work will be submitted to the NYCDEP for review and approval prior to implementation. It will be reviewed to ensure that an adequate number of samples will be collected and that appropriate parameters are selected for laboratory analysis. For all non-petroleum (E) designated sites, the three generic NYCDEP soil and ground water **sampling protocols should be followed. These protocols are based on the following three types of releases to soil and ground water that may occur: release of a solid hazardous material to the ground surface; release of a liquid hazardous material to the ground surface; and the release of a hazardous material to the sub-surface (i.e. storage tank or piping). The type of release will define the areas of soil to be sampled (surface, near-surface, or subsurface) and will determine the need for the ground water sampling.**

Upon receipt of written approval from the NYCDEP of the scope of work, the sampling program will be implemented. No site investigation work will be initiated without at Site Health and Safety Plan also approved by the NYCDEP.

The (E) designations for air quality will be placed on four projected and three potential development sites. These sites are comprised of the following parcels:

Block 5263, Lot 30
Block 5264, Lot 1
Block 5333, Lot 8
Block 5395, Lot 22
Block 5264, Lot 29
Block 5265, Lot 1
Block 5326, Lots 70 and 72

The text of the (E) designation for air quality for the above properties is as follows:

Any new residential and/or commercial development on the above-referenced properties must use natural gas as the type of fuel for space heating and hot water (HVAC) systems.

The boiler analysis for all other development sites showed no potential for impacts since there are no buildings within the minimum allowable distance from each of their boiler stacks.
