CHARTER REVISION COMMISSION

■ PUBLIC MEETING

The 2005 Charter Revision Commission will hold a public meeting on January 19, 2005. The topic of this meeting will be administrative law reform. The Commission will hear expert testimony from Carol Robles-Roman, Deputy Mayor for Legal Affairs. Although administrative law reform will be the main subject of this public meeting, Commission business will not necessarily be limited to that topic. The Commission may also consider other topics related to its review of the City Charter. As this is a public meeting and not a public hearing, the public will have the opportunity to observe, but not to testify.
Time: 7:00 P.M.
Location: Spector Hall, 22 Reade Street, 1st Floor. Located between Broadway and Centre Street in Lower Manhattan.

Individuals requesting spoken or sign language interpreters for any of these public meetings should contact Commission staff member Brian Geller at (212) 788-2952 five (5) business days prior to the Public Meeting. TDD users should call Verizon Relay Services.

To contact the Commission by telephone, please call (212) 676-2060.
To contact the Commission by mail, please write to:

New York City Department of City Planning

The New York City Department of City Planning (DCP), on behalf of the City Planning Commission as lead agency, issued a Notice of Completion on October 4, 2004 for a Draft Environmental Impact Statement (DEIS) for the proposed Greenpoint-Williamsburg Rezoning, in accordance with Article 8 of the Environmental Conservation Law. A public hearing on the Draft Environmental Impact Statement (DEIS) will be held at the Klitgord Auditorium of the NYC Technical College located at 285 Jay Street (between Tillary and Johnson streets), Brooklyn, NY 11201 on January 19, 2005 at 10:00 AM. Written comments on the DEIS are requested and will be received and considered by the Lead Agency until the 10th calendar day (January 29, 2005) following the close of the public hearing.

The public hearing is being held concurrently with the CPC public hearing pursuant to the New York City Uniform Land Use Review Procedure (ULURP), New York City Charter Section 197-c (h). In addition, pursuant to Section 2-06 of the Rules Governing the Uniform Land Use Review Procedure, 62 RCNY Chapter 2, the public hearing shall also serve as a public hearing with respect to ULURP Application Nos. N 050110(A) ZRK and C 050111(A) ZMK, revised zoning text and map amendment applications proposed by the Department of City Planning in response to comments received during the public review process. The zoning map and text amendments set forth in ULURP Application Nos. N 050110(A) ZRK and C 050111(A) ZMK will be included as an alternative to the Proposed Action in the Final Environmental Impact Statement.

The New York City (NYC) Department of City Planning is proposing zoning map and text amendments, changes to the city map involving street demapping and, in association with the NYC Department of Parks and Recreation, establishment of a park (collectively, "the proposed action") affecting the Greenpoint and Williamsburg areas of northern Brooklyn within Community District 1. The area affected by the proposed action covers approximately 184 blocks in Greenpoint and Williamsburg, and is bounded generally by the East River, the Williamsburg Bridge, the Brooklyn-Queens Expressway, and McGuinness Boulevard.

The DEIS analyses a Reasonable Worst Case Development Scenario for the proposed action which consists of a projected incremental (net) change of 7,391 dwelling units at 76 projected development sites, and an approximately 27.8 acre new park extending from North 9th Street to the northern edge of Bushwick Inlet. There would also be 253,698 sf of local retail, -949,997 sf of vacant land, -642,686 sf of vehicle and open storage uses, -557,906 sf in vacant buildings, -1,136,269 sf of industrial/manufacturing/warehousing space, and -24,876 sf of automotive uses. The DEIS also considers a scenario in which the new park would be smaller, with a land area of approximately 15.9 acres, extending only from North 9th Street to the southern edge of North 12th Street. Moreover, under this scenario, a 1,100 MW power plant assumed under No-Action conditions would continue to occupy the Bayside Fuel site in the future with the proposed action, and the area at the northern edge of Bushwick Inlet would continue to be vacant.

The DEIS identifies significant adverse impacts related to socioeconomic conditions, community facilities, open space, and traffic and transit conditions, and identifies measures that would mitigate the impacts. The DEIS also identifies significant adverse impacts related to archaeological resources and, at one intersection, traffic for which no practicable or feasible mitigation measures are available, and are therefore disclosed as unavoidable adverse impacts. The DEIS considers seven alternatives to the proposed action: No Action Alternative, No Impacts Alternative, Lesser Density Alternative, Affordable Housing Bonus and Incentives Alternative, Additional Waterfront Development Alternative, Waterfront Urban Design Alternative, and an Affordable Housing Zoning District Alternative.

Copies of the Draft Environmental Impact Statement may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 22 Reade Street, 4E, New York, New York 10007, Robert Dobruskin, Director (212) 720-3423; or from the Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, New York 10038, Robert Kulikowski, Director, (212) 788-2937.

This notice has been prepared in accordance with Article 8 of the New York State Environmental Conservation Law.

LOWER MANHATTAN DEVELOPMENT CORPORATION

■ NOTICE

NOTICE OF PUBLIC HEARING TO BE HELD
ON JANUARY 26, 2005
PURSUANT TO SECTION 16 OF THE NEW YORK STATE URBAN DEVELOPMENT CORPORATION ACT AND SECTIONS 201-204 OF THE EMINENT DOMAIN PROCEDURE LAW IN CONNECTION WITH THE WORLD TRADE CENTER MEMORIAL AND CULTURAL PROGRAM

PLEASE TAKE NOTICE that a public hearing, open to all persons, will be held in Manhattan at St. John's University, 101 Murray Street (between Greenwich and West Streets), New York, New York 10007, commencing at 6:00 p.m. on January 26, 2005, by the Lower Manhattan Development Corporation ("LMDC"), a subsidiary of New York State Urban Development Corporation d/b/a Empire State Development Corporation (a political subdivision and public benefit corporation of the State of New York), pursuant to Sections 201-204 of the New York State Eminent Domain Procedure Law ("EDPL") and Section 16 of the New York State Urban Development Corporation Act (Chapter 174, Section 1, Laws of 1968, as amended; the "Act"), to consider: (a) the proposed acquisition by condemnation of certain property, as hereafter described, in furtherance of the World Trade Center Memorial and Cultural Program (the "Project") in the Borough of Manhattan, City, County and State of New York with a contemplated subsequent transfer and development of the property to be acquired in furtherance of the Project; and (b) amendments to the General Project Plan for the Project ("GPP"), which, among other things, permit the acquisition or disposal of property, and provide that, to the extent any such acquisition or disposal would be inconsistent with the official City Map or subject to the City of New York (the "City") Uniform Land Use Review Procedure ("ULURP"), including Sections 197-c, 197-d, 198 and 199 of the New York City Charter or other local law, compliance will not be feasible or practicable so as to permit the responsible public entities to timely meet the Project construction schedules and, given the substantial opportunities afforded the public to comment on the GPP, no concomitant public purpose would be served by compliance with such laws.

The purposes of the public hearing are to review the public use to be served by the Project and the impact of the Project on the environment and residents of the locality where the Project is proposed to be constructed, pursuant to Article 2 of the EDPL, and to give all interested persons an opportunity to present oral or written statements and to submit other documents concerning the Project and the proposed amendments to the GPP ("GPP Amendments"), and the acquisition of property to be acquired in accordance with Section 16 of the Act.

The public purposes of the Project include (a) the creation of the permanent memorial remembering and honoring the thousands of innocent men, women, and children lost in the terrorist attacks on September 11, 2001 and February 26, 1993 (the "Memorial") and (b) the redevelopment of the World Trade Center Site (the "WTC Site") and the Southern Site, described below, as a mixed-use center of commerce, public spaces, and culture, with the Memorial at its heart.

Project Location and Description

The Project Site consists of the WTC Site and the Southern Site in Lower Manhattan, New York, New York. The WTC Site is an approximately 16-acre parcel bounded by Liberty Street, Church Street, Vesey Street, and West Street. The Southern Site comprises (a) two adjacent City blocks south of the WTC Site – one bounded by Liberty, Washington, Albany, and Greenwich Streets, and the other bounded by Liberty, Cedar, and Washington Streets and West Street, (b) subsurface portions of Liberty Street from the eastern side of West Street to the western side of Greenwich Street, (c) Washington Street from the northern side of Cedar Street to the southern side of Liberty Street, and (d) subsurface portions of Cedar Street from the eastern side of West Street to the eastern side of Washington Street.

The Project includes the planning, selection, coordination and construction of the Memorial, an interpretive museum ("Memorial Center"), cultural facilities, and Memorial-related improvements to complement the redevelopment by The Port Authority of New York and New Jersey ("Port Authority") of up to 10 million square feet of above-grade Class A office space, plus associated storage, mechanical, loading, below-grade parking, and other non-office space, up to 1 million square feet of retail space, a hotel with up to 800 rooms and up to 150,000 square feet of conference space, open space areas, and certain infrastructure improvements. The Project and such redevelopment together constitute the World Trade Center Memorial and Redevelopment Plan ("Plan").

Proposed Property Acquisition and Transfer

The proposed property acquisition involves the exercise by LMDC of its power of eminent domain, either with or without negotiated agreements, to acquire portions of the Southern Site described in (a) through (d) hereof as follows:

(a) All that certain plot, piece, or parcel of land with the buildings or improvements thereon erected, situated, lying and being in the Borough of Manhattan, City, County and State of New York, bounded and described as follows:

BEGINNING at the corner formed by the intersection of the northerly line of Cedar Street with the easterly line of West Street.:

RUNNING THENCE NORTHERLY, along the easterly line of West Street, 114'-10" to the corner formed by the intersection of the easterly line of West Street with the southerly line of Liberty Street.;

THENCE EASTERLY, along the southerly line of Liberty Street, 182'-4 3/4" to the corner formed by the intersection of the southerly line of Liberty Street with the westerly line of Washington Street;

THENCE SOUTHERLY, along the westerly line of Washington Street, 114'-4 1/8" to the corner formed by the intersection of the westerly line of Washington Street with the northerly line of Cedar Street;

THENCE WESTERLY, along the northerly line of Cedar Street, 108'- 4 ½" to the point or place of BEGINNING.

TOGETHER WITH all right, title and interest of, in and to any streets and roads abutting or adjoining the above described premises, to the center line thereof and

TOGETHER WITH all strips, gores and overlays between the premises commonly known as 140 Liberty Street (Block 56, Lots 15 and 21) and the premises commonly known as 155 Cedar Street (Block 56, Lot 20), hereinafter described in more detail and

TOGETHER WITH all that plot, piece or parcel of land, situate, lying and being in Washington Street between Cedar and Liberty Streets with the intention that the premises commonly known as 140 Liberty Street (Block 56, Lots 15 and 21) and 130 Liberty Street (Block 54, Lot 1) shall no longer be separated or divided in any respect by Washington Street between the northern side of Cedar and the southern side of Liberty Streets.

EXCLUDING ONLY the interest of the Hellenic Orthodox Church of Saint Nicholas in that plot, piece or parcel of land commonly known as 155 Cedar Street (Block 56, Lot 20), more particularly described as follows:

ALL that certain lot, piece or parcel of land, situate, lying and being in the Borough of Manhattan, of the City of New York, in the County and State of New York, bounded and described as follows:

BEGINNING at a point on the northerly side of Cedar Street distant 55 feet 7 inches easterly from the corner formed by the intersection of the northerly side of Cedar Street with the easterly side of West Street;

RUNNING THENCE northerly 56 feet;

THENCE running easterly 20 feet 11 inches;

THENCE RUNNING southerly 55 feet 6-1/4 inches to the northerly side of Cedar Street; and

THENCE westerly along the northerly side of Cedar Street 22 feet 3-1/4 inches to the point or place of BEGINNING.

The proposed above-noted acquisition with the proposed acquisition and closing of Washington Street between the southern side of Liberty Street and the northern side of Cedar Street, will result in 130 Liberty Street and 140 Liberty Street becoming one fully contiguous parcel.

(b) subsurface portions of Liberty Street from the eastern side of West Street to the western side of Greenwich Street;

(c) Washington Street from the northern side of Cedar Street to the southern side of Liberty Street; and

(d) subsurface portions of Cedar Street from the eastern side of West Street to the eastern side of Washington Street.

As shown on the illustrative site plan in Attachment 1 to the GPP Amendments, Washington Street between the northern side of Cedar Street and the southern side of Liberty Street will be incorporated into the new Liberty Park and will be closed, together with the closure of the subsurface portions of the above-described streets therewith; nor would it be feasible or practicable to comply therewith. Because of the time constraints imposed by the construction schedule for the Plan, it will be infeasible and impracticable to comply with the official City Map, ULURP, and other local laws that might otherwise apply in connection with these actions and other property acquisitions and dispositions necessary to effectuate the Plan. Instead, all such actions will be subject to the requirements of the Act.

In furtherance of the Project, public service utilities and corporations may be required to remove and relocate their conduits, vaults, lines, equipment, and facilities and utilities (collectively "Utilities") in or on Washington Street between the southern side of Liberty Street and the northern side of Cedar Street and in the subsurface portions of the above described streets, at their own and sole expense and with due diligence and dispatch, notwithstanding any proposed or actual condemnation thereof. The continuance or presence of any Utilities in such portion of Washington Street and such subsurface portions of the above-described streets after any condemnation thereof may not entitle any public service utility or corporation to any condemnation award, relocation payment, rebate, claim or payment after any such condemnation.

Also, in furtherance of the Project, the acquisition will be made in compliance with the requirements of the Act and the EDPL. It is contemplated that, after acquisition, LMDC may subsequently convey any premises so acquired, whether in whole or in part, to the Port Authority or other entity, for redevelopment in accordance with the Plan. Any such transfer will be subject to a separate public hearing under the Act.

Availability of the General Project Plan Amendments

The proposed GPP Amendments are on file at LMDC, One Liberty Plaza, 20th Floor, New York, New York and available for inspection by the general public between the hours of 9:30 a.m. and 5:00 p.m., Monday through Friday, public holidays excluded. Pursuant to Section 16(2) of the Act, LMDC has filed a copy of the GPP Amendments, including the findings required pursuant to Section 10 of the Act, in the Office of the County Clerk and City of New York. LMDC has also provided copies of the same to the Mayor of the City of New York, the Borough President of Manhattan, the Chair of City Planning Commission, and the Chair of Community Board No. 1.

Copies of the GPP Amendments are available, without charge, to any person requesting such copies at the office of LMDC at the address given above and are also available on LMDC's website at www.RenewNYC.com in the "Planning, Design & Development" section, or by contacting Avalon Simon, Paralegal, at Lower Manhattan Development Corporation, One Liberty Plaza, 20th Floor, New York, New York 10006; Telephone: (212) 962-2300. A copy of the GPP Amendments will be available for review at the hearing location during the hearing.

Receipt of Comments

ACCORDING TO EDPL §202(C), THOSE PROPERTY OWNERS WHO MAY SUBSEQUENTLY WISH TO CHALLENGE THE CONDEMNATION OF THEIR PROPERTY VIA JUDICIAL REVIEW, MAY DO SO ONLY ON THE BASIS OF ISSUES, FACTS, AND OBJECTIONS RAISED AT THE HEARING.

Comments on the GPP Amendments and the proposed acquisition may be made orally or in writing at the public hearing on January 26, 2005, or presented in writing to LMDC's address shown below on or before February 25, 2005. Comments received after the close of business on February 25, 2005 will not be considered.

NEW YORK COUNTY
IA PART 28
ORDER TO SHOW CAUSE BY VERIFIED PETITION
INDEX NUMBER 403782/04

In the Matter of the Application of the City of New York, relative to acquiring permanent underground easements to a volume of real property located between 325 feet and 615 feet below main sea level at Sandy Hook, New Jersey, usually 50 feet wide, where not heretofore acquired for the same purpose, for the construction of

CITY TUNNEL NO. 3, STAGE 2, PHASE 3, and appurtenances in the Borough of New York from Hudson Street and Laight Street to East Fourth Street and Bowery, and from 10th Avenue and West 31st Street to 2nd Avenue and East 54th Street

On reading and filing the Order to Show Cause, the annexed Verified Petition dated November 9, 2004 ("Verified Petition"), and the exhibits annexed to said Verified Petition;

IT IS ORDERED that all interested parties show cause before this Court at the courthouse located at 60 Centre Street, Room 408, New York, New York, at Individual Assignment Part 28, on January 25, 2005, at 9:30 A.M. or as soon thereafter as counsel may be heard, why an Order should not be entered:

1. granting the Verified Petition in all respects;

2. authorizing the City of New York (the "City") to file an acquisition map in the office of the Clerk of New York County of the Office of the City Register;

3. directing that upon the filing of said map, permanent underground easements to certain real property sought to be acquired, described below in Schedules No. 1 and 2, shall vest in the City;

4. providing that just compensation therefore be ascertained and determined by the Supreme Court without a jury; and,

5. providing that notices of claim must be served and filed within one calendar year from the vesting date; and,

IT IS ORDERED that sufficient reason appearing, service by certified mail return receipt requested (as provided in Section 402(B)(2) of the Eminent Domain Procedure Law), of a copy of this Order and the Verified Petition, upon the Taxpayers of Record and Last Owners, as set forth in Schedule A, which is part of the Notice of Pendency, annexed to the Verified Petition as Exhibit A, on or before December 8, 2004, shall be sufficient service;

REDEVELOPMENT OF A PORTION OF THE FARM COLONY IN STATEN ISLAND – Request for Expressions of Interest – DUE 02-18-05 AT 4:00 P.M. – Located in the Willowbrook area of central Staten Island, the Site is part of the Farm Colony - Seaview Hospital Historic District. The approximately 59-acre Site is zoned R3-2 with a NA-1 (Special Natural Area District) overlay. Eleven historically significant and deteriorated buildings are located on the Site, which is identified as Block 1955, part of Lot 1 in the Borough of Staten Island tax map.
NYCEDC's goal is to solicit ideas for the redevelopment of the Site that address the unique constraints affecting development including, but not limited to, the rehabilitation and adaptive reuse of the existing buildings. Other development goals include sensitivity to both the Site's location in a Special Natural Area District and its bucolic setting within the Staten Island Greenbelt, as well as the Site's adjacency to low-density residential and institutional development. Therefore, development concepts should focus on cultural, educational, and recreational uses permitted by zoning. All proposals for new construction must be consistent with the recommendations made by the Mayor's Staten Island Growth Management Task Force. Further, general residential uses will not be permitted on the Site. Senior housing, although not a preferred use, will be considered on a case-by-case basis.

A question-and-answer session to discuss the Site and tour will be held on January 20, 2005 at 10:00 a.m. To attend the question-and-answer session and site visit, please call (212) 312-3875 on or before January 14, 2005. Interested parties are strongly encouraged to attend.

For more information, and to request a copy of the RFEI, visit www.nycedc.com/farmcolonyRFEI or call (212) 312-3969. Please submit six (6) copies of your proposal.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

SNUG HARBOR CULTURAL CENTER, STATEN ISLAND – Request for Expressions of Interest – DUE 02-14-05 AT 4:00 P.M. – New York City Economic Development Corporation ("NYCEDC"), in conjunction with the New York City Department of Cultural Affairs ("DCA") and Snug Harbor Cultural Center, Inc. ("Snug Harbor"), is seeking expressions of interest for the rehabilitation, adaptive reuse and ongoing cultural educational operations of Building "E", which is located within the Snug Harbor

Cultural Center Campus ("Campus"). This RFEI solicits ideas for cultural-educational uses consistent with the development of the front five landmark buildings "A" through "E" along Museum Row within the Campus. Snug Harbor, DCA and NYCEDC are open to considering interest from a wide variety of uses for Building "E" including, but not limited to: museums, institutions, performing arts, arts education, rehearsal spaces and community facilities. Any use should allow for at least 70 percent of Building "E's" useable space to be open to the general public forty hours per week.

Detailed submission guidelines and requirements are outlined in the RFEI, available as of December 13, 2004, which can be downloaded at www.nycedc.com/snugharborRFEI. For more information, please contact Matthew Brian at (212) 312-4212 or snugharborRFEI@nycedc.com. Please submit six (6) sets of your proposal.

REDEVELOPMENT OF A PORTION OF THE FARM COLONY IN STATEN ISLAND – Request for Expressions of Interest – DUE 02-18-05 AT 4:00 P.M. – Located in the Willowbrook area of central Staten Island, the Site is part of the Farm Colony - Seaview Hospital Historic District. The approximately 59-acre Site is zoned R3-2 with a NA-1 (Special Natural Area District) overlay. Eleven historically significant and deteriorated buildings are located on the Site, which is identified as Block 1955, part of Lot 1 in the Borough of Staten Island tax map.
NYCEDC's goal is to solicit ideas for the redevelopment of the Site that address the unique constraints affecting development including, but not limited to, the rehabilitation and adaptive reuse of the existing buildings. Other development goals include sensitivity to both the Site's location in a Special Natural Area District and its bucolic setting within the Staten Island Greenbelt, as well as the Site's adjacency to low-density residential and institutional development. Therefore, development concepts should focus on cultural, educational, and recreational uses permitted by zoning. All proposals for new construction must be consistent with the recommendations made by the Mayor's Staten Island Growth Management Task Force. Further, general residential uses will not be permitted on the Site. Senior housing, although not a preferred use, will be considered on a case-by-case basis.

A question-and-answer session to discuss the Site and tour will be held on January 20, 2005 at 10:00 a.m. To attend the question-and-answer session and site visit, please call (212) 312-3875 on or before January 14, 2005. Interested parties are strongly encouraged to attend.

For more information, and to request a copy of the RFEI, visit www.nycedc.com/farmcolonyRFEI or call (212) 312-3969. Please submit six (6) copies of your proposal.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

REHAB. ON THE STATEN ISLAND RAILROAD ARTHUR KILL LIFT BRIDGE – Public Bid – DUE 01-27-05 AT 2:00 P.M. – As part of the City's efforts to reactivate freight service on the Staten Island Railroad, the New York City Economic Development Corp. is letting this bridge rehab. contract (#5320016). Located between the Howland Hook Marine Terminal and the Gothels Bridge on the west shore of Staten Island, the Arthur Kill Lift Bridge is a single-track movable bridge that spans approximately 500' over the Arthur Kill. Built in 1958 this bridge was in use until the early 1990's. The bridge is currently operational and the intent of this rehab is to prepare it for daily reliable use. The proposed bid date is January 27, 2005 and a site visit is schedule for January 6, 2005. Bidders interested in attending the site visit must register at the Port Ivory Security Office on Western Avenue, a pre walk through meeting will be held at Port Ivory Administration Building.

The scope of work entails lead paint abatement, cleaning and painting structural steel and machinery house exteriors, concrete spall and crack repairs, replacement of bridge walkways and railings, electric signal and power upgrades, installation of new meter house and meter house electrical equipment, bridge machinery repairs, bridge balancing and start-up. The engineer's estimate is approximately $6,000,000. The cost of the Bid package is $200 USD payable to either a certified bank check or money order. Cash, personal or company checks are not acceptable. All submitted bids are required to have a Bid bond.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

WEBSITE CONSULTANT – RFP – DUE 01-24-05 AT 4:00 P.M. – New York City Economic Development Corporation (NYCEDC) is seeking a consultant or consultant team to redesign and redevelop its website. NYCEDC seeks to enhance our corporate image through a client-focused Internet presence in order to achieve our objectives of attracting and retaining businesses and jobs in the City.

The new website will be a large, high-volume interactive site. Both domestic and international businesses and institutions, as well as potential vendors and suppliers, must be able to navigate the site quickly and efficiently. The site will also provide information on the City's economic condition, business climate, business incentive programs, other resources, business opportunities and more.

NYCEDC plans to select a consultant on the basis of factors including, but not limited to: the quality of the proposal, experience of key staff identified in the proposal, experience and quality of any subcontractors proposed, demonstrated successful experience in performing services similar to those encompassed in the RFP, and the proposed fee. NYCEDC reserves certain rights, including, but not limited to, the rights to waive irregularities and reject any or all proposals in its sole and absolute discretion.

Respondents may submit questions and/or request clarifications from NYCEDC no later than **4:00 p.m.** on **Thursday, December 30, 2004.** Questions should be directed to webconsultrfp@nycedc.com. Answers to all questions will be posted by Thursday, January 6, 2005, to http://www.nycedc.com/webconsultrfp

For more information and to request or download a copy of the RFP, call (212) 312-3969 or visit http://www.nycedc.com/webconsultrfp.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals -
PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

RECEPTION CENTERS ADULT SERVICES – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-05S-003-896 – DUE 01-28-05 AT 5:00 P.M. – The Department of Homeless Services (DHS) is seeking qualified organizations to operate Reception Centers for homeless adults from DHS-approved referral sources, including DHS-contracted outreach providers, drop-in centers, intake and assessment shelters, as well as outreach programs funded by other City or State agencies.

The goal of the Reception Centers is to stabilize clients medically and psychiatrically and prepare them for reintegration into the community. Proposers shall provide a detailed description of how they will engage and stabilize service-resistant homeless adults who have been living in public spaces and have been referred to the program by DHS-approved street outreach programs or by DHS' Shelter Intake or Assessment programs. Services shall include, but not be limited to, psychiatric services, mental health and substance abuse evaluation and counseling, medical screening and referral, assessment, clinical case management and counseling, crisis intervention services, clinical supportive services, assistance with entitlements, and referral to premanent long-term housing.

It is anticipated that the term of the contracts awarded from this RFP will be for three years from July 1, 2005 to June 30, 2008, with an option to renew for an additional three-year term subject to the availability of funds.

Vendors who believe they can provide these services described are invited to submit a proposal which is available for "pick-up only" at the Department of Homeless Services at 33 Beaver Street, 13th Floor, Bid Desk, New York, NY 10004.

A Pre-Proposal conference is scheduled for Wednesday, January 5, 2005 at 2:00 p.m. at 33 Beaver Street, 17th Floor Conference Room.

A site visit at the City-owned site located at 400-430 East 30th Street at First Avenue is scheduled for Friday, January 7, 2005 at 2:00 p.m.

Attendance is optional but proposers are strongly encouraged to attend both the pre-proposal conference and the site visit. The pre-proposal conference will address questions regarding the Request for Proposals and the site visit will be particularly useful to those who anticipate bidding on the City-owned site.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 08-28-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew.

Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. CENTRALIZED JOB DEVELOPMENT PROJECT – Demonstration Project – Testing or experimentation is required - PIN# 8012005Y1000 – DUE 01-10-05 AT 11:00 A.M. – The Department of Small Business Services intends to enter into negotiations with Structured Employment Economic Development Corporation (SEEDCO)/N-PAC (the Not-for-Profit Assistance Corp.) to conduct a three-year centralized job development demonstration project.

In particular, a centralized job development project will supplement job development at DSBS' Workforce 1 Career Centers, creating additional opportunities to place customers by:

– Leveraging the City's marketing power and relationship established by providing the ability to help business customer of 311, SBS, and NYC Business Solutions Centers.
– Providing a single point of contract and tightening coordination to provide human resources solutions and candidates that better meet an employer's need.
– Increasing resources dedicated to job development and matching, enabling our system to more effectively service a larger segment of the market.
– Creating a platform with a Citywide focus that can assist employers with hiring needs throughout the five boroughs.

If the pilot is successful, SBS and the City will work with neighborhood stakeholders to instutionalize the program through a competitive procurement.

Pursuant to City Environmental Quality Review (CEQR), Mayoral Executive Order No. 91 of 1977, and the regulations of Article 8 of the State Environmental Conservation Law, State Environmental Quality Review Act (SEQRA) as found in 6 NYCRR Part 617, a Draft Environmental Impact Statement (DEIS) has been prepared for the action described below. Copies of the DEIS are available for public inspection at the office of the undersigned. The proposal involves actions by the City Planning Commission and Council of the City of New York pursuant to Uniform Land Use Review Procedures (ULURP). A public hearing on the Draft Environmental Impact Statement (DEIS) will be held at a later date to be announced, in conjunction with the City Planning Commission's citywide public hearing pursuant to ULURP. Advance notice will be given of the time and place of the hearing. Written comments on the DEIS are requested and will be received and considered by the Lead Agency until the 10th calendar day following the close of the public hearing.

The New York City Department of City Planning (NYC DCP) is proposing to rezone portions of the West Chelsea area in Manhattan Community District 4. The rezoning area is generally bounded by W. 30th Street, W. 17th Street, Tenth Avenue, and Eleventh Avenue (the rezoning area also includes the east side of Tenth Avenue between W. 16th and W. 18th Streets to a point 400 feet east of Tenth Avenue). The proposed action would change the existing M1-5 zoning district, mapped over much of the rezoning area, to C6-2, C6-3 and C6-4 zoning districts and the existing MX-3 zoning district (M1-5/R8-A and M1–5/R9A mixed-use districts), mapped between W. 22nd and W. 24th Streets, to C6-2A and C6-3A zoning districts. The existing M1-5 district would be retained in the midblocks between W. 20th and W. 22nd Streets and W. 24th and W. 27th Streets. The proposed action also includes zoning text amendments to Article IX (Special Purpose Districts) of the New York City Zoning Resolution (ZR) pertaining to the establishment of the Special West Chelsea District. The proposed zoning map and text amendments would require approval by the City Planning Commission (CPC) and the City Council.

Also included in the proposed action is the acquisition and site selection action of the High Line to facilitate its conversion to a publicly accessible open space. This includes the High Line elevated structure extending from Eleventh Avenue and W. 30th Street to its southern terminus at Gansevoort Street. It also includes the Post Office spur north of W. 30th Street and east of Tenth Avenue. The entire length of the High Line open space would be publicly accessible. The section of the High Line west of Eleventh Avenue is not part of the proposed action. Accordingly, the proposed action area includes the rezoning area and the portion of the High Line that would be acquired by the City to facilitate its conversion to publicly accessible 6.7-acre open space. Regulations specific to the Special District would include: a mechanism to allow the transfer of floor area from lots occupied by the High Line and immediately to the west, to designated receiving sites for new residential and commercial development; special bulk controls to regulate the height and massing of buildings throughout the Special District; and a floor area bonus in exchange for providing access to and improvement of the High Line open space.

The creation of the proposed High Line publicly accessible open space and the use of zoning bonuses related to improvements of the High Line and the transfer of development rights from the High Line Transfer Corridor, included in the proposed action, are contingent on the City receiving a Certificate of Interim Trail Use (CITU) for the High Line. The CITU is necessary to allow the City to change the High Line to a non-railroad use as the federal government has jurisdiction over railroad corridors used for interstate commerce, including inactive lines such as the High Line [refer to 49 CFR § 1152.29(d)(1)]. In December, 2002, the City filed a request with the Surface Transportation Board (STB) for a CITU for the High Line, which was still pending at the time the EIS was being prepared.

In the event a CITU is not issued, the proposed High Line publicly accessible open space would not be created and the transfer of development rights mechanism and the floor area bonus for High Line Access and Improvement would not be available, as those provisions of the proposed Special District are contingent on the CITU. Therefore, this DEIS considers two scenarios for analysis: one in which the CITU is issued and the High Line is converted to publicly accessible open space; and a second scenario ("Base FAR Scenario") in which the CITU is not issued, the High Line remains in its current state and any zoning bonuses and transfer of development rights associated with the High Line would be unavailable. Both of these scenarios are described in greater detail below.

As the proposed action would rezone a large area encompassing 13 whole and 2 partial blocks, and a ten-year period is typically believed to be the length of time over which a projection can be made on changes due to the rezoning, the analysis considers an Analysis year of 2013. The reasonable worst case development scenario idnetifies 25 projected development sites likely to be developed under the proposed action. In addition to the 25 projected development sites, there are 28 potential development sites. If development does not occur on the projected development

sites, the same overall amount of development could occur instead on some or all of the potential development sites. Although considered possible sites for future development based on the "soft" site criteria, these sites are considered less likely to be developed over the ten year analysis period. Site conditions, location, and market demand are among the factors contributing to the more limited likelihood for redevelopment of potential development sites.

Proposed Action: The proposed action is expected to result in a net increase of approximately 4,708 DUs, 219,507 sf of local retail space, 73,169 sf of destination retail space (together local and destination retail include 292,676 sf of retail space) and 198,726 sf of museum (community facility) space and a net decrease of 816,847 sf of office space, 131,100 sf of hotel space, 40,809 sf of storage/warehouse space, 318,580 sf of parking uses and 25,064 sf of vacant land.

Base FAR Scenario: The Base FAR Scenario is expected to result in a net increase of approximately 3,041 dwelling units. The increment for all other land uses is the same as that of the proposed action: an increase of approximately 219,507 sf of local retail space, 73,169 sf of destination retail space (together local and destination retail include 292,676 sf of retail space) and 198,726 sf of museum (community facility) space and a decrease of approximately 816,847 sf of office space, 131,100 sf of hotel space, 40,809 sf of storage/warehouse space, 318,580 sf of parking uses and 25,064 sf of vacant land.

As described in greater detail in subsequent chapters of the DEIS, the proposed zoning map amendments include the placement of an (E) Designation on several tax lots identified as development sites and expected to be redeveloped as a result of the proposed action. An (E) designation would be placed on the amended zoning map to denote certain parcels where the proposed action has the potential to result in significant adverse hazardous materials, air quality, or noise impacts. The (E) designation would ensure that these properties would not be redeveloped unless necessary remedial measures are implemented. Potential Development Sites 46 through 53, currently located in the MX-3 mixed-use district, mapped as part of the Chelsea Rezoning (CEQR No. 99DCP030M), contain noise attenuation requirements mandated by the MX-3 district, pursuant to ZR Section 123-32. As part of the proposed action, the MX-3 district would be eliminated and mapped with underlying contextual C6-2A and C6-3A zoning districts. In order to ensure that the noise attenuation requirements continue to apply to these sites once the MX-3 district is eliminated, these sites have been included in both the future with and future without the proposed action. No incremental development is expected on these sites as a result of the proposed action.

The proposed zoning map amendment, zoning text amendments, and site selection and acquisition require approvals by the City Planning Commission and City Council pursuant to Sections 197-c, Section 199, and Section 201 of the New York City Charter. The actions are subject to CEQR. The zoning map amendment is subject to the City's ULURP. The zoning text amendment is a non-ULURP action, but is subject to review by the City Planning Commission and City Council as noted above. The site selection and acquisition is subject to the City's ULURP.

The DEIS discloses the potential for significant adverse impacts related to community facilities (schools, publicly funded day care facilities), open space, historic resources (architectural resources), shadows, traffic and transit (bus services). All significant adverse impacts could be mitigated with the exception of impacts related to shadows, historic resources, and open space (Base FAR Scenario only).

The DEIS considers six alternatives to the proposed action. The alternatives consist of a No Action Alternative; a No Impacts Alternative; a Lesser Density Alternative; a Community Board 4 Alternative; an Affordable Housing Alternative; and an Affordable Housing Requirement Alternative.

Copies of the Draft Environmental Impact Statement may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 22 Reade Street, 4E, New York, New York 10007, Robert Dobruskin, Director (212) 720-3423; or from the Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, New York 10038, Robert Kulikowski, Director, (212) 788-2937.

This notice has been prepared in accordance with Article 8 of the New York State Environmental Conservation Law.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.
Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

CHARTER REVISION COMMISSION

■ PUBLIC MEETING

The 2005 Charter Revision Commission will hold a public meeting on January 19, 2005. The topic of this meeting will be administrative law reform. The Commission will hear expert testimony from Carol Robles-Roman, Deputy Mayor for Legal Affairs. Although administrative law reform will be the main subject of this public meeting, Commission business will not necessarily be limited to that topic. The Commission may also consider other topics related to its review of the City Charter. As this is a public meeting and not a public

hearing, the public will have the opportunity to observe, but not to testify.

Time: 7:00 P.M.
Location: Spector Hall, 22 Reade Street, 1st Floor. Located between Broadway and Centre Street in Lower Manhattan.

Individuals requesting spoken or sign language interpreters for any of these public meetings should contact Commission staff member Brian Geller at (212) 788-2952 five (5) business days prior to the Public Meeting. TDD users should call Verizon Relay Services.

To contact the Commission by telephone, please call (212) 676-2060.
To contact the Commission by mail, please write to:

New York City Department of City Planning

The New York City Department of City Planning (DCP), on behalf of the City Planning Commission as lead agency, issued a Notice of Completion on October 4, 2004 for a Draft Environmental Impact Statement (DEIS) for the proposed Greenpoint-Williamsburg Rezoning, in accordance with Article 8 of the Environmental Conservation Law. A public hearing on the Draft Environmental Impact Statement (DEIS) will be held at the Klitgord Auditorium of the NYC Technical College located at 285 Jay Street (between Tillary and Johnson streets), Brooklyn, NY 11201 on January 19, 2005 at 10:00 AM. Written comments on the DEIS are requested and will be received and considered by the Lead Agency until the 10th calendar day (January 29, 2005) following the close of the public hearing.

The public hearing is being held concurrently with the CPC public hearing pursuant to the New York City Uniform Land Use Review Procedure (ULURP), New York City Charter Section 197-c (h). In addition, pursuant to Section 2-06 of the Rules Governing the Uniform Land Use Review Procedure, 62 RCNY Chapter 2, the public hearing shall also serve as a public hearing with respect to ULURP Application Nos. N 050110(A) ZRK and C 050111(A) ZMK, revised zoning text and map amendment applications proposed by the Department of City Planning in response to comments received during the public review process. The zoning map and text amendments set forth in ULURP Application Nos. N 050110(A) ZRK and C 050111(A) ZMK will be included as an alternative to the Proposed Action in the Final Environmental Impact Statement.

The New York City (NYC) Department of City Planning is proposing zoning map and text amendments, changes to the city map involving street demapping and, in association with the NYC Department of Parks and Recreation, establishment of a park (collectively, "the proposed action") affecting the Greenpoint and Williamsburg areas of northern Brooklyn within Community District 1. The area affected by the proposed action covers approximately 184 blocks in Greenpoint and Williamsburg, and is bounded generally by the East River, the Williamsburg Bridge, the Brooklyn-Queens Expressway, and McGuinness Boulevard.

The DEIS analyses a Reasonable Worst Case Development Scenario for the proposed action which consists of a projected incremental (net) change of 7,391 dwelling units at 76 projected development sites, and an approximately 27.8 acre new park extending from North 9th Street to the northern edge of Bushwick Inlet. There would also be 253,698 sf of local retail, -949,997 sf of vacant land, -642,686 sf of vehicle and open storage uses, -557,906 sf in vacant buildings, -1,136,269 sf of industrial/manufacturing/warehousing space, and -24,876 sf of automotive uses. The DEIS also considers a scenario in which the new park would be smaller, with a land area of approximately 15.9 acres, extending only from North 9th Street to the southern edge of North 12th Street. Moreover, under this scenario, a 1,100 MW power plant assumed under No-Action conditions would continue to occupy the Bayside Fuel site in the future with the proposed action, and the area at the northern edge of Bushwick Inlet would continue to be vacant.

The DEIS identifies significant adverse impacts related to socioeconomic conditions, community facilities, open space, and traffic and transit conditions, and identifies measures that would mitigate the impacts. The DEIS also identifies significant adverse impacts related to archaeological resources and, at one intersection, traffic for which no practicable or feasible mitigation measures are available, and are therefore disclosed as unavoidable adverse impacts. The DEIS considers seven alternatives to the proposed action: No Action Alternative, No Impacts Alternative, Lesser Density Alternative, Affordable Housing Bonus and Incentives Alternative, Additional Waterfront Development Alternative, Waterfront Urban Design Alternative, and an Affordable Housing Zoning District Alternative.

Copies of the Draft Environmental Impact Statement may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 22 Reade Street, 4E, New York, New York 10007, Robert Dobruskin, Director (212) 720-3423; or from the Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, New York 10038, Robert Kulikowski, Director, (212) 788-2937.

This notice has been prepared in accordance with Article 8 of the New York State Environmental Conservation Law.

SNUG HARBOR CULTURAL CENTER, STATEN ISLAND – Request for Expressions of Interest – DUE 02-14-05 AT 4:00 P.M. – New York City Economic Development Corporation ("NYCEDC"), in conjunction with the New York City Department of Cultural Affairs ("DCA") and Snug Harbor Cultural Center, Inc. ("Snug Harbor"), is seeking expressions of interest for the rehabilitation, adaptive reuse and ongoing cultural educational operations of Building "E", which is located within the Snug Harbor Cultural Center Campus ("Campus"). This RFEI solicits ideas for cultural-educational uses consistent with the development of the front five landmark buildings "A" through "E" along Museum Row within the Campus. Snug Harbor, DCA and NYCEDC are open to considering interest from a wide variety of uses for Building "E" including, but not limited to: museums, institutions, performing arts, arts education, rehearsal spaces and community facilities. Any use should allow for at least 70 percent of Building "E's" useable space to be open to the general public forty hours per week.

Detailed submission guidelines and requirements are outlined in the RFEI, available as of December 13, 2004, which can be downloaded at www.nycedc.com/snugharborRFEI. For more information, please contact Matthew Brian at (212) 312-4212 or snugharborRFEI@nycedc.com. Please submit six (6) sets of your proposal.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

REDEVELOPMENT OF A PORTION OF THE FARM COLONY IN STATEN ISLAND – Request for Expressions of Interest – DUE 02-18-05 AT 4:00 P.M. – Located in the Willowbrook area of central Staten Island, the Site is part of the Farm Colony - Seaview Hospital Historic District. The approximately 59-acre Site is zoned R3-2 with a NA-1 (Special Natural Area District) overlay. Eleven historically significant and deteriorated buildings are located on the Site, which is identified as Block 1955, part of Lot 1 in the Borough of Staten Island tax map.
NYCEDC's goal is to solicit ideas for the redevelopment of the Site that address the unique constraints affecting development including, but not limited to, the rehabilitation and adaptive reuse of the existing buildings. Other development goals include sensitivity to both the Site's location in a Special Natural Area District and its bucolic setting within the Staten Island Greenbelt, as well as the Site's adjacency to low-density residential and institutional development. Therefore, development concepts should focus on cultural, educational, and recreational uses permitted by zoning. All proposals for new construction must be consistent with the recommendations made by the Mayor's Staten Island Growth Management Task Force. Further, general residential uses will not be permitted on the Site. Senior housing, although not a preferred use, will be considered on a case-by-case basis.

A question-and-answer session to discuss the Site and tour will be held on January 20, 2005 at 10:00 a.m. To attend the question-and-answer session and site visit, please call (212) 312-3875 on or before January 14, 2005. Interested parties are strongly encouraged to attend.

For more information, and to request a copy of the RFEI, visit www.nycedc.com/farmcolonyRFEI or call (212) 312-3969. Please submit six (6) copies of your proposal.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

REHAB. ON THE STATEN ISLAND RAILROAD ARTHUR KILL LIFT BRIDGE – Public Bid – DUE 01-27-05 AT 2:00 P.M. – As part of the City's efforts to reactivate freight service on the Staten Island Railroad, the New York City Economic Development Corp. is letting this bridge rehab. contract (#5320016). Located between the Howland Hook Marine Terminal and the Gothels Bridge on the west shore of Staten Island, the Arthur Kill Lift Bridge is a single-track movable bridge that spans approximately 500' over the Arthur Kill. Built in 1958 this bridge was in use until the early 1990's. The bridge is currently operational and the intent of this rehab is to prepare it for daily reliable use. The proposed bid date is January 27, 2005 and a site visit is schedule for January 6, 2005. Bidders interested in attending the site visit must register at the Port Ivory Security Office on Western Avenue, a pre walk through meeting will be held at Port Ivory Administration Building.

The scope of work entails lead paint abatement, cleaning and painting structural steel and machinery house exteriors, concrete spall and crack repairs, replacement of bridge walkways and railings, electric signal and power upgrades, installation of new meter house and meter house electrical equipment, bridge machinery repairs, bridge balancing and start-up. The engineer's estimate is approximately $6,000,000. The cost of the Bid package is $200 USD payable to either a certified bank check or money order. Cash, personal or company checks are not acceptable. All submitted bids are required to have a Bid bond.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

Consulting Services

WEBSITE CONSULTANT – RFP – DUE 01-24-05 AT 4:00 P.M. – New York City Economic Development Corporation (NYCEDC) is seeking a consultant or consultant team to redesign and redevelop its website. NYCEDC seeks to enhance our corporate image through a client-focused Internet presence in order to achieve our objectives of attracting and retaining businesses and jobs in the City.

The new website will be a large, high-volume interactive site. Both domestic and international businesses and institutions, as well as potential vendors and suppliers, must be able to navigate the site quickly and efficiently. The site will also provide information on the City's economic condition, business climate, business incentive programs, other resources, business opportunities and more.

NYCEDC plans to select a consultant on the basis of factors including, but not limited to: the quality of the proposal, experience of key staff identified in the proposal, experience and quality of any subcontractors proposed, demonstrated successful experience in performing services similar to those encompassed in the RFP, and the proposed fee. NYCEDC reserves certain rights, including, but not limited to, the rights to waive irregularities and reject any or all proposals in its sole and absolute discretion.

Respondents may submit questions and/or request clarifications from NYCEDC no later than **4:00 p.m.** on **Thursday, December 30, 2004.** Questions should be directed to webconsultrfp@nycedc.com. Answers to all questions will be posted by Thursday, January 6, 2005, to http://www.nycedc.com/webconsultrfp

For more information and to request or download a copy of the RFP, call (212) 312-3969 or visit http://www.nycedc.com/webconsultrfp.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals -
PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

CENTRALIZED JOB DEVELOPMENT PROJECT – Demonstration Project – Testing or experimentation is required - PIN# 8012005Y1000 – DUE 01-10-05 AT 11:00 A.M. – The Department of Small Business Services intends to enter into negotiations with Structured Employment Economic Development Corporation (SEEDCO)/N-PAC (the Not-for-Profit Assistance Corp.) to conduct a three-year centralized job development demonstration project.

In particular, a centralized job development project will supplement job development at DSBS' Workforce 1 Career Centers, creating additional opportunities to place customers by:

– Leveraging the City's marketing power and relationship established by providing the ability to help business customer of 311, SBS, and NYC Business Solutions Centers.
– Providing a single point of contract and tightening coordination to provide human resources solutions and candidates that better meet an employer's need.
– Increasing resources dedicated to job development and matching, enabling our system to more effectively service a larger segment of the market.
– Creating a platform with a Citywide focus that can assist employers with hiring needs throughout the five boroughs.

If the pilot is successful, SBS and the City will work with neighborhood stakeholders to instutionalize the program through a competitive procurement.

Pursuant to City Environmental Quality Review (CEQR), Mayoral Executive Order No. 91 of 1977, and the regulations of Article 8 of the State Environmental Conservation Law, State Environmental Quality Review Act (SEQRA) as found in 6 NYCRR Part 617, a Draft Environmental Impact Statement (DEIS) has been prepared for the action described below. Copies of the DEIS are available for public inspection at the office of the undersigned. The proposal involves actions by the City Planning Commission and Council of the City of New York pursuant to Uniform Land Use Review Procedures (ULURP). A public hearing on the Draft Environmental Impact Statement (DEIS) will be held at a later date to be announced, in conjunction with the City Planning Commission's citywide public hearing pursuant to ULURP. Advance notice will be given of the time and place of the hearing. Written comments on the DEIS are requested and will be received and considered by the Lead Agency until the 10th calendar day following the close of the public hearing.

The New York City Department of City Planning (NYC DCP) is proposing to rezone portions of the West Chelsea area in Manhattan Community District 4. The rezoning area is generally bounded by W. 30th Street, W. 17th Street, Tenth Avenue, and Eleventh Avenue (the rezoning area also includes the east side of Tenth Avenue between W. 16th and W. 18th Streets to a point 400 feet east of Tenth Avenue). The proposed action would change the existing M1-5 zoning district, mapped over much of the rezoning area, to C6-2, C6-3 and C6-4 zoning districts and the existing MX-3 zoning district (M1-5/R8-A and M1–5/R9A mixed-use districts), mapped between W. 22nd and W. 24th Streets, to C6-2A and C6-3A zoning districts. The existing M1-5 district would be retained in the midblocks between W. 20th and W. 22nd Streets and W. 24th and W. 27th Streets. The proposed action also includes zoning text amendments to Article IX (Special Purpose Districts) of the New York City Zoning Resolution (ZR) pertaining to the establishment of the Special West Chelsea District. The proposed zoning map and text amendments would require approval by the City Planning Commission (CPC) and the City Council.

Also included in the proposed action is the acquisition and site selection action of the High Line to facilitate its conversion to a publicly accessible open space. This includes the High Line elevated structure extending from Eleventh Avenue and W. 30th Street to its southern terminus at Gansevoort Street. It also includes the Post Office spur north of W. 30th Street and east of Tenth Avenue. The entire length of the High Line open space would be publicly accessible. The section of the High Line west of Eleventh Avenue is not part of the proposed action. Accordingly, the proposed action area includes the rezoning area and the portion of the High Line that would be acquired by the City to facilitate its conversion to publicly accessible 6.7-acre open space. Regulations specific to the Special District would include: a mechanism to allow the transfer of floor area from lots occupied by the High Line and immediately to the west, to designated receiving sites for new residential and commercial development; special bulk controls to regulate the height and massing of buildings throughout the Special District; and a floor area bonus in exchange for providing access to and improvement of the High Line open space.

The creation of the proposed High Line publicly accessible open space and the use of zoning bonuses related to improvements of the High Line and the transfer of development rights from the High Line Transfer Corridor, included in the proposed action, are contingent on the City receiving a Certificate of Interim Trail Use (CITU) for the High Line. The CITU is necessary to allow the City to change the High Line to a non-railroad use as the federal government has jurisdiction over railroad corridors used for interstate commerce, including inactive lines such as the High Line [refer to 49 CFR § 1152.29(d)(1)]. In December, 2002, the City filed a request with the Surface Transportation Board (STB) for a CITU for the High Line, which was still pending at the time the EIS was being prepared.

In the event a CITU is not issued, the proposed High Line publicly accessible open space would not be created and the transfer of development rights mechanism and the floor area bonus for High Line Access and Improvement would not be available, as those provisions of the proposed Special District are contingent on the CITU. Therefore, this DEIS considers two scenarios for analysis: one in which the CITU is issued and the High Line is converted to publicly accessible open space; and a second scenario ("Base FAR Scenario") in which the CITU is not issued, the High Line remains in its current state and any zoning bonuses and transfer of development rights associated with the High Line would be unavailable. Both of these scenarios are described in greater detail below.

As the proposed action would rezone a large area encompassing 13 whole and 2 partial blocks, and a ten-year period is typically believed to be the length of time over which a projection can be made on changes due to the rezoning, the analysis considers an Analysis year of 2013. The reasonable worst case development scenario idnetifies 25 projected development sites likely to be developed under the proposed action. In addition to the 25 projected development sites, there are 28 potential development sites. If development does not occur on the projected development sites, the same overall amount of development could occur instead on some or all of the potential development sites. Although considered possible sites for future development based on the "soft" site criteria, these sites are considered less likely to be developed over the ten year analysis period. Site conditions, location, and market demand are among the factors contributing to the more limited likelihood for redevelopment of potential development sites.

Proposed Action: The proposed action is expected to result in a net increase of approximately 4,708 DUs, 219,507 sf of local retail space, 73,169 sf of destination retail space (together local and destination retail include 292,676 sf of retail space) and 198,726 sf of museum (community facility) space and a net decrease of 816,847 sf of office space, 131,100 sf of hotel space, 40,809 sf of storage/warehouse space, 318,580 sf of parking uses and 25,064 sf of vacant land.

Base FAR Scenario: The Base FAR Scenario is expected to result in a net increase of approximately 3,041 dwelling units. The increment for all other land uses is the same as that of the proposed action: an increase of approximately 219,507 sf of local retail space, 73,169 sf of destination retail space (together local and destination retail include 292,676 sf of retail space) and 198,726 sf of museum (community facility) space and a decrease of approximately 816,847 sf of office space, 131,100 sf of hotel space, 40,809 sf of storage/warehouse space, 318,580 sf of parking uses and 25,064 sf of vacant land.

As described in greater detail in subsequent chapters of the DEIS, the proposed zoning map amendments include the placement of an (E) Designation on several tax lots identified as development sites and expected to be redeveloped as a result of the proposed action. An (E) designation would be placed on the amended zoning map to denote certain parcels where the proposed action has the potential to result in significant adverse hazardous materials, air quality, or noise impacts. The (E) designation would ensure that these properties would not be redeveloped unless necessary remedial measures are implemented. Potential Development Sites 46 through 53, currently located in the MX-3 mixed-use district, mapped as part of the Chelsea Rezoning (CEQR No. 99DCP030M), contain noise attenuation requirements mandated by the MX-3 district, pursuant to ZR Section 123-32. As part of the proposed action, the MX-3 district would be eliminated and mapped with underlying contextual C6-2A and C6-3A zoning districts. In order to ensure that the noise attenuation requirements continue to apply to these sites once the MX-3 district is eliminated, these sites have been included in both the future with and future without the proposed action. No incremental development is expected on these sites as a result of the proposed action.

The proposed zoning map amendment, zoning text amendments, and site selection and acquisition require approvals by the City Planning Commission and City Council pursuant to Sections 197-c, Section 199, and Section 201 of the New York City Charter. The actions are subject to CEQR. The zoning map amendment is subject to the City's ULURP. The zoning text amendment is a non-ULURP action, but is subject to review by the City Planning Commission and City Council as noted above. The site selection and acquisition is subject to the City's ULURP.

The DEIS discloses the potential for significant adverse impacts related to community facilities (schools, publicly funded day care facilities), open space, historic resources (architectural resources), shadows, traffic and transit (bus services). All significant adverse impacts could be mitigated with the exception of impacts related to shadows, historic resources, and open space (Base FAR Scenario only).

The DEIS considers six alternatives to the proposed action. The alternatives consist of a No Action Alternative; a No Impacts Alternative; a Lesser Density Alternative; a Community Board 4 Alternative; an Affordable Housing Alternative; and an Affordable Housing Requirement Alternative.

Copies of the Draft Environmental Impact Statement may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 22 Reade Street, 4E, New York, New York 10007, Robert Dobruskin, Director (212) 720-3423; or from the Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, New York 10038, Robert Kulikowski, Director, (212) 788-2937.

This notice has been prepared in accordance with Article 8 of the New York State Environmental Conservation Law.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists–free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

CHARTER REVISION COMMISSION

■ PUBLIC MEETING

The 2005 Charter Revision Commission will hold a public meeting on January 19, 2005. The topic of this meeting will be administrative law reform. The Commission will hear expert testimony from Carol Robles-Roman, Deputy Mayor for Legal Affairs. Although administrative law reform will be the main subject of this public meeting, Commission business will not necessarily be limited to that topic. The Commission may also consider other topics related to its review of the City Charter. As this is a public meeting and not a public hearing, the public will have the opportunity to observe, but not to testify.
Time: 7:00 P.M.
Location: Spector Hall, 22 Reade Street, 1st Floor. Located between Broadway and Centre Street in Lower Manhattan.

Individuals requesting spoken or sign language interpreters for any of these public meetings should contact Commission staff member Brian Geller at (212) 788-2952 five (5) business days prior to the Public Meeting. TDD users should call Verizon Relay Services.

To contact the Commission by telephone, please call (212) 676-2060.
To contact the Commission by mail, please write to:
New York City Charter Revision Commission
2 Lafayette Street, 14th Floor
New York, NY 10007
To contact the Commission by email, please email charter@dcas.nyc.gov

62-29
Special Use Regulations for Waterfront Access Plan BK-1

All Use Group 6 and 9 #uses# delineated in Section 62-212 (Waterfront-Enhancing Uses) not otherwise permitted, shall be a permitted use on any parcel identified in Waterfront Access Plan BK-1, provided that such use is limited to not more than 10,000 square feet of #floor area# per establishment; the total amount of #floor area# used for such #uses# does not exceed two per cent of the total amount of #floor area# permitted on such parcel; and such #uses# are located below the level of the first #story# ceiling of a #building# or are located on a #pier# or #platform#.

Additionally, Docks for water taxis (Use Group 6) and Docks or mooring facilities for non-commercial pleasure boats (Use Group 6) shall be a permitted use on any parcel identified in Waterfront Access Plan BK-1.

* * *

62-30
SPECIAL BULK REGULATIONS

All #zoning lots# within #waterfront blocks# shall comply with the #bulk# regulations of this Section. For the purposes of this Section, non-#waterfront blocks# included in Waterfront Access Plan BK-1 shall be considered to be #waterfront blocks#. Existing non-complying buildings or other structures shall be subject to the provisions of Article V

(Non-Conforming Uses and non-complying Buildings).

62-35
Special Bulk Regulations within Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1 the Special Bulk Regulations of this section are further modified as delineated herein.

62-351
Special floor area, lot coverage and residential density distribution regulations

Within any parcel, and between any adjacent parcels which are under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined in (e) of the definition of a #zoning lot# in Section 12-10), identified in Waterfront Access Plan BK-1; the total #floor area# and #lot coverage# permitted pursuant to Section 62-32 and the residential density permitted pursuant to Section 23-22 may be located anywhere within such parcel or between such parcels without regard to #zoning lot lines# or district boundaries provided that such location of #floor area#, #lot coverage# or residential density complies with Section 62-31 and Section 62-34 as modified by Section 62-352.

62-352
Special Height and Setback Regulations

The provisions of Section 62-341 are modified as follows:

(a) Paragraph (c)(1) (Maximum base height) shall be modified in R6 Districts to permit a maximum base height of 65 feet or six #stories#, whichever is less.

(b) Paragraph (c)(2) (Maximum #building# height) shall not apply. In lieu thereof, the maximum #building# height in an R6 District shall be 65 feet or six #stories#, whichever is less, within 100 feet of Commercial Street, West Street, Dupont Street, Franklin Street and Kent Avenue. Beyond 100 feet of such streets and any other portions of an R6 District, the maximum #building# height in shall be 110 feet. In R8 Districts, the maximum #building# height shall be 210 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 200 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 210 feet to a maximum #building# height of 310 feet. Such maximum #building# heights of 110 feet, 210 feet and 310 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 110 feet, 210 feet or 310 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

(c) Paragraphs (c)(3) (#Floor area# distribution) and (c)(5) (Additional setback provisions for high #buildings#) shall not apply.

(d) Paragraph (c)(4) (Maximum #residential# tower size) shall not apply. In lieu thereof, each #residential story# of a #building# located entirely above a height of 85 feet shall not exceed a gross area of 8,100 square feet in an R6 District and 11,000 square feet in an R8 District.

(e) Paragraph (c)(6) shall not apply. In lieu thereof, the maximum length of any #story# of a #building# that exceeds a height of 65 feet in an R6 District or 85 feet in an R8 District shall not exceed 170 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above such heights. Any side of such rectangle shall not exceed 170 feet.

(f) Paragraph (c)(7) (Ground floor streetscape provisions) shall not apply. In lieu thereof, all off-street parking spaces located within 50 feet of a #street#, a #visual corridor# containing a private road, and a #shore public walkway#, #upland connection# or #supplemental public access area# and which are located on a #story# that is above the #base plane# shall be within facilities that are located behind #commercial#, #community facility# or #residential floor area# so that no portion of such parking facility, other than entrances and exits, is visible from such #streets#, #visual corridors# or publicly accessible open spaces. Such #floor area# shall have a minimum depth of 25 feet. Seventy percent of the surface area of the facade of a facility containing parking spaces which are not otherwise required to be behind such #floor area# shall be composed of the same materials as the facade of the #building# in which it is located.

(g) Any roof of a facility containing off-street parking spaces, not otherwise covered by a #building#, which is larger than 400 square feet shall be landscaped and accessible for the recreational use of the occupants of the building in which it is located. Hard surfaced areas shall not cover more than 60 percent of such roof area.

(h) The #streetwall# of a #building# on any #zoning lot# fronting on Commercial Street, West Street and Kent Avenue shall be located within eight feet of, and extend along 70 percent of such #street line# to a minimum height of 40 feet.

(i) All #developments#, conversions, and #enlargements# or #extensions# which increase the existing #floor area# by more than 10 percent, shall provide along the entire #street# length of the #zoning lot#, one tree for every 25 feet of # street# frontage. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals except where the Commissioner of Buildings determines that such tree planting would be unfeasible. Such trees shall be planted in accordance with the standards of the Department of Parks and Recreation.

62-812
Elements of a Waterfront Access Plan

A Waterfront Access Plan may:

1) on #zoning lots# where public access or #visual corridors# are required pursuant to the provisions of Sections 62-40 and 62-60, modify the size, configuration, location or design of required waterfront public access areas or #visual corridors# within certain designated areas in order to address local conditions, provided such plan does not impose a public access or #visual corridor# requirement on any #zoning lot# greater than would otherwise be required pursuant to the provisions of Sections 62-40 or 62-60. For the purpose of determining the amount of public access, the highest standard applicable to a zoning lot may be applied regardless of any specific #use# permitted or proposed for such #zoning lot#. Within Waterfront Access Plan BK-1, the public access and #visual corridor# requirements for any parcel located within the Waterfront Access Plan may be determined by aggregating the public access and #visual corridor# requirements of each zoning lot within the parcel and such aggregated requirements may be modified within such parcel without regard to #zoning lot lines#:

62-831

Waterfront Access Plan BK-1:
Greenpoint-Williamsburg
Maps BK-1a through BK-1c in paragraph (g) of this Section show the boundaries of the area comprising the Greenpoint-Williamsburg Waterfront Access Plan and the location of certain features mandated or permitted by the Plan. The plan area has been divided into parcels consisting of tax blocks and lots and other lands as established on (date of adoption), as follows:

(3) The provisions of Section 62-623 (Supplemental public access areas) shall be inapplicable. In lieu thereof, the following provisions shall apply:

A required #supplemental public access area# shall be directly connected to either a #pier# public access area, an #upland connection# or a #shore public walkway# on either its landward or seaward side and its pedestrian circulation zone shall be contiguous with the adjacent pedestrian circulation zone.

2) A buffer zone shall only be required where a #supplemental public access area# adjoins a non-publicly accessible portion of a #zoning lot#, in which case its minimum width shall be 15 feet.

(4) #Street# Treatment

All #streets# adjacent to a #shore public walkway# or #supplemental public access area# shall be improved as a continuation of such #shore public walkway# or #supplemental public access area#, pursuant to the design requirements of paragraph (b) of this Section, inclusive.

(b) Specific design requirements for shore public walkway prototypes

The provisions of Section 62-63 (Specific Design Requirements for Public Access Prototypes) shall be inapplicable. In lieu thereof the following provisions for #shore public walkways# shall apply:

(1) Greenpoint-Williamsburg Shore Public Walkway-Prototype I

1. One circulation path with a minimum clear width of 12 feet is required.

The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path.

(ii) A minimum of one linear foot of seating shall be provided for every 100 square feet of #shore public walkway#. At least 60 percent of the required seating shall be landward of the required circulation path.

(iii) A minimum of 50 percent of the pedestrian circulation zone, excluding the required circulation path, shall be planting area. Rip rap, beach or other shoreline materials may be counted as an equivalent to planting area.

(iv) One shade tree is required for every 1,200 square feet of #shore public walkway# and one small or ornamental tree shall be required for every 750 square feet of #shore public walkway#. Trees may be located either in the pedestrian circulation zone landward of the required circulation path or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(2) Greenpoint-Williamsburg Shore Public Walkway-Prototype II

1) The provisions of 62-621 (Shore public walkways) shall apply except that a #shore public walkway# shall have a minimum 30 foot pedestrian circulation zone and a minimum 15 foot buffer zone.

2) One circulation path with a minimum clear width of 12 feet is required.
The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path, in which case, the path shall be located within 20 feet of the shoreline.
A secondary circulation path may be provided, with a minimum width of 10 feet. Connecting paths having a minimum width of ten feet shall be provided between the two circulation paths at intervals not to exceed 100 feet.

3) A minimum of one linear foot of seating shall be provided for every 70 square feet of #shore public walkway#.

4) A minimum of 70 percent of the pedestrian circulation zone, excluding the required circulation path and transition zones, shall be planting area. A minimum of 50 percent of this planting area must

be improved as lawn according to the provisions of Section 62-675 (Planting and trees).

(v) One shade tree is required for every 1,900 square feet of #shore public walkway# and shall be located in the pedestrian circulation zone. In addition, one shade, small or ornamental tree shall be required for every 850 square feet of #shore public walkway# and may be located either in the pedestrian circulation zone or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(3) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Plaza

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 40 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 25 percent of the pedestrian circulation zone shall be planting area.

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(4) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Park

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 50 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 60 percent of the pedestrian circulation zone shall be planting area with no more than 30 percent of the planting area in raised planting beds. At least 35 percent of the #supplemental public access area# shall be lawn in compliance with the standards set forth in paragraph (c)(5) of Section 62-675 (Planting and trees).

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(c) Amenities

In parcels where #supplemental public access area# is required, no more than fifteen percent of public access area may be reduced if playgrounds and other amenities are provided in accordance with paragraphs (c)(1) and (c)(2) of this Section.

(1) Playgrounds

A playground shall have a minimum size of 1,000 square feet and, if applicable, there shall be a minimum of 400 feet between any two playground areas. For every five square feet of playground area provided, the total amount of required public access may be reduced by the rate of one square foot.

(2) Other amenities

A reduction in the total amount of required public access area shall be permitted according to the following table. The number and variety of such amenities shall be determined upon certification.

Amenity	Square feet reduction
Picnic table	22 sq. ft.
Chess table	20 sq. ft.
Telescope	10 sq. ft.
Art	50 - 200 sq. ft.
Fountain/water feature	50 - 200 sq. ft.
Shade structure	50 - 200 sq. ft.

(d) Public access design reference standards

Section 62-67 is hereby modified by the following provisions.

(1) Guardrails

The provisions of paragraph (a) Section 62-671 (Guardrails, gates and other protective barriers) shall be inapplicable. In lieu thereof the following provisions for guardrails shall apply:

(i) Guardrails shall be located within waterfront public access areas continuously along any bulkhead, stabilized shore or the water edges of a #pier# or #platform# that is located within 50 feet of a circulation path; and continuously along any grade level change of 30 inches or grader adjoining or within 10 feet of a circulation path. However, guardrails shall not be required landward of any rip rap, beach or any other shoreline material that is at least 10 feet wide. If any protective barrier is provided adjacent to any rip rap, beach or other shoreline material, they shall not exceed a height of 21 inches or shall consist of a bollard and chain device.

Guardrails shall not be required at access points to WD #uses# and #development# on #floating structures#. The minimal protective barrier at such locations shall be a swing gate, bollard and chain or similar device.

(ii) Guardrails shall comply with illustration A1, alternatively illustration A2 may be used in #piers#.

Illustration A1

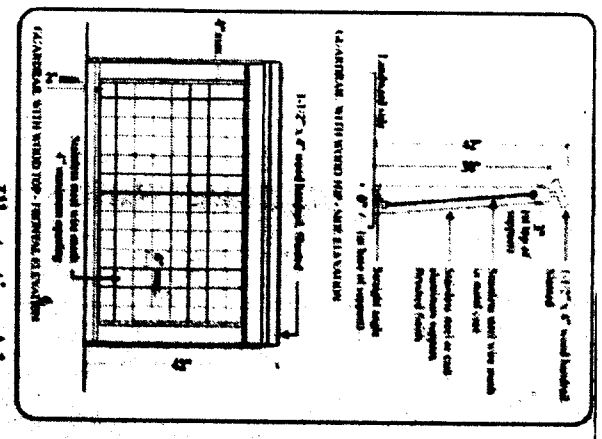

Illustration A2

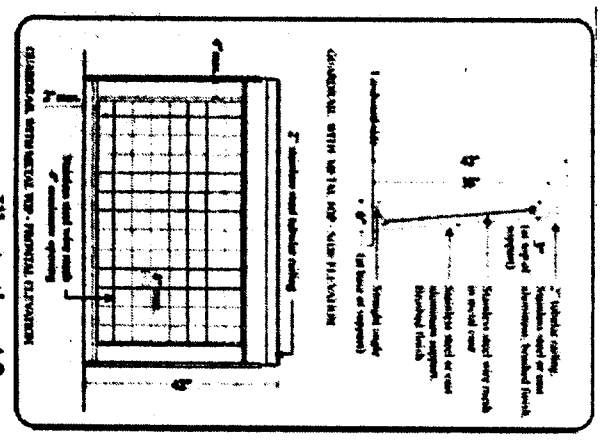

(Alternate for Piers)

All guardrail components and hardware shall be in stainless steel or cast aluminum, as applicable.

(2) Seating

In addition to the provisions of Section 62-672, at least fifty percent of the required seating along any #shore public walkway# or #supplemental public access area# shall comply with illustration B1 or B2 below.

Illustration B1

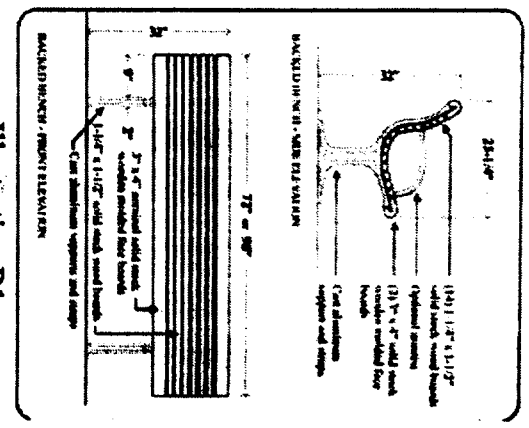

Illustration B2

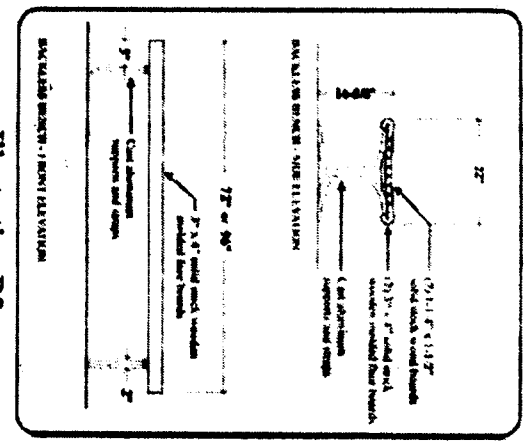

All wood boards shall be made of Redwood, Jarrah or Ipe, have eased edges and ends and be treated for external use without stain or varnish.

All supports and backstraps shall be 713 tenzalloy cast aluminum, with a rust inhibitor and a top coat finish of thermosetting polyester powdercoat that is ultra-violet, chip and flake resistant. Metal components shall have a light gray or aluminum color.

(3) Lighting

In addition to the provisions of Section 62-673, the required lighting along any public access area shall comply with illustration C1 below.

(4) Planting and trees

The provisions of paragraph (c)(6) (Container planting) of Section 62-675 shall be inapplicable, unless a structural or environmental necessity is demonstrated at the time of certification.

(5) Paving

In addition to the provisions of Section 62-676, the paving for the required clear path within the #shore public walkway# shall be gray. At least fifty percent of all other paved areas within the #shore public walkway# and #supplemental public access areas# shall be paved in the same color range.

(e) Special public access provisions by parcel

The provisions of Sections 62-41 (Requirements for waterfront public access) and 62-60 (DESIGN STANDARDS FOR THE WATERFRONT AREA) are modified at the following designated locations which are shown on Map BK-1b in paragraph (g) of this Section:

1. Parcels 1 and 2

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#
The requirements for #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is developed first shall provide an #upland connection# along the #lot line# between the two parcels. The width of the #upland connection# may be utilized by the developer of the remaining parcel in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels, according to the provisions of paragraph (f)(1) of this Section. If both parcels are developed concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

(3) Parcel 5a

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location indicated on Map BK-1b in paragraph (g) of this Section.

The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(iii) #Supplemental public access area#

The #supplemental public access area# shall abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. The #upland connection#, however, may cut across the #supplemental public access area# provided that no area shall be less than 5,000 square feet. All #supplemental public access areas# shall have a minimum width to depth ratio of 1.0 to 1.0 and a maximum width to depth ratio of 2.0 to 1.0. In no event shall the #supplemental public access area# be deeper than 100 feet. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

Alternatively, a portion of the required #supplemental public access area# that is a minimum of 5,000 square feet may abut the #shore public walkway# continuously along the longest side provided that it also abuts a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-641, but shall not be counted towards satisfying the required amount of public access area on the site. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(4) Parcel 5b

#Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(5) Parcel 5c

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

Two #upland connections# shall be provided between West Street and the #shore public walkway#, one located within the prolongation of the #street lines# of Eagle Street, the other located within the prolongation of the #street lines# of Green Street.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided on Parcel 5c.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the pedestrian circulation zone of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(6) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5 and be subject to the following requirements:

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

One #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location indicated on Map BK-1b in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.

Two #upland connections# shall be provided between West Street and the #shore public walkway#, each located within the prolongation of the #street lines# of Eagle Street and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5 and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining of the required #supplemental public access area# shall be located within the area bounded by the western prolongation of the north #street line# of Dupont Street, the #shore public walkway#, the northern prolongation of the eastern boundary of Parcel 6 and Parcel 6. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section

(7) Parcel 7

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply, except that any portion of the required #shore public walkway# where the distance between the shoreline and the boundaries of Parcel 7 is less than 17 feet shall be improved entirely as clear path.

(ii) #Supplemental public access area#

The requirement for a #supplemental public access area# on Parcel 7 is waived.

(8) Parcels 9, 10 and 11

(i) #Shore public walkway#

The requirements for Prototype II described in paragraph (b)(2) of this Section shall apply.

(ii) #Supplemental public access area#

For each parcel, the #supplemental public access area# requirements shall be provided to widen the pedestrian circulation zone of the #shore public walkway#, evenly distributed along the entire length of such #shore public walkway#.

(9) Parcel 13

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Milton Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be bounded by the southern #street line# of Greenpoint Avenue, the #shore public walkway# and the northern boundary of the required Milton Street #upland connection#. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(10) Parcel 14

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Calyer Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be distributed evenly along the #shore public walkway# between the southern boundary of the required Calyer Street #upland connection# and the prolongation of the northern #street line# of Quay Street. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(11) Parcel 15

An #upland connection# shall be provided within the prolongation of the #street lines# of West Street, connecting QuayStreet to Parcel 20.

(12) Parcels 19, 20, 21 and 22

Parcels 19, 20, 21 and 22 shall be designated as public parks as of (date of adoption).

(13) Parcel 24

Prototype I described in paragraph (b)(1) of this Section shall apply.

(14) Parcel 25

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of North 6th Street.

(iii) #Supplemental public access area#
Two #supplemental public access areas# shall be provided.

One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet from the southern #street line# of North 7th Street. The entire #supplemental public access area#, excluding the required buffer, shall be developed as clear circulation path.

A minimum of one linear foot of seating shall be required for every 40 square feet of pedestrian circulation zone and shall be located in the required buffer zone. Four trees shall be required, at least two of which are shade trees. Small or ornamental trees located within the buffer zone shall not be counted toward the minimum requirements.

The remaining required #supplemental public access area# shall be located either on the #pier# or parallel to the #shore public walkway#. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the North 6th Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(15) Parcel 26

(i) #Shore public walkway#

The requirements of Section 62-411 (Requirements for shore public walkways) shall apply, except that the minimum required width of the #shore public walkway# shall be reduced to 34 feet between North 5th Street and the northern edge of the required #upland connection# at the prolongation of North 4th Street. The quantity of public access eliminated from the #shore public walkway# as a result of this width reduction shall be located in the triangle formed between the #shore public walkway#, the southern #street line# of the North 4th Street #upland connection# and the bulkhead line. The entirety of the #shore public walkway# shall be improved pursuant to the requirements for Prototype I described in paragraph (b)(1) of this Section.

(ii) #Upland connections#

An #upland connection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street.

(16) Parcel 27

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure#, but shall not need to be wider than 40 feet.

Notwithstanding the requirements of Paragraph (c) of Section 62-62 (General Requirements for Public Access), the #shore public walkway# may be located within the #building or other structure#, and the obstructions permitted by Section 62-626, paragraph (a), shall include any supporting structural elements of the #building or other structure# and its related appurtenances. Additionally, the #shore public walkway# shall have a minimum clear path of 12 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#

The requirements for #supplemental public access# shall be waived.

(f) Special visual corridor provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan are shown on Map BK-1c in paragraph (g) of this Section and shall be as follows:

(1) Parcels 3 and 4

A #visual corridor# shall be provided through Parcels 3 and 4 to the pierhead line within a flexible area along the #lot lines# between them.

Whichever parcel develops second shall complete the required clearance to comply with the #visual corridor# requirements along the #upland connection# already provided in accordance with the requirements of paragraph (e)(2)(ii) of this Section. If both parcels are developed concurrently, then the requirements can be divided equally along the #lot line# between the parcels.

(2) Parcel 5a

A #visual corridor# shall be provided through Parcel 5a to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(3) Parcel 5b

Two #visual corridors# shall be provided through Parcel 5b to the pierhead line as the prolongation of the #street lines# of West Street and Dupont Street, respectively.

(4) Parcel 5c

(i) Two #visual corridors# shall be provided through Parcel 5c to the pierhead line as the prolongation of the #street lines# of Eagle Street and Green Street.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be permitted obstructions along the #visual corridor# along Green Street.

(5) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5, subject to the following #visual corridors# requirements:

(i) One #visual corridor# shall be provided through Parcel 5 to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.
Four #visual corridors# shall be provided through Parcel 5 to the pierhead line, each located as the prolongation of the #street lines# of West Street, Dupont Street, Eagle Street and Green Street, respectively.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be allowed along the #visual corridor# along Green Street.

(6) Parcel 13

Two #visual corridors# shall be provided through Parcel 13 to the pierhead line as the prolongation of the #street lines# of Milton Street and Oak Street, respectively.

(7) Parcel 14

A #visual corridor# shall be provided through Parcel 14 as the prolongation of the #street lines# of Oak Street.

(8) Parcel 15

A #visual corridor# shall be provided though Parcel 15 as the prolongation of the #stret lines# of West Street.

(9) Parcel 25

A #visual corridor# shall be provided through Parcel 25 as the prolongation of the #street lines# of North 6th Street.

INCLUSIONARY HOUSING

23-91
General Provisions

~~**R10**~~

~~In the district indicated, a~~An Inclusionary Housing program is established in those areas designated in Section 23-92 (Applicability) to preserve and to promote a mixture of low to upper income housing within neighborhoods experiencing a shift from mixed to upper income housing and thus to promote the general welfare. The requirements of this program are set forth in Sections 23-90 through 23-~~04~~95.

~~23-92~~
Applicability

23-921
R10 Districts

The Inclusionary Housing Program shall apply in R10 Districts.

~~23-922~~
Community District 1, Borough of Brooklyn

The Inclusionary Housing Program shall apply in the following areas of Community District 1 in the Borough of Brooklyn located north of the Williamsburg Bridge, Washington Plaza, Borinquen Place and Grand Street:

(a) Waterfront Access Plan BK-1, as set forth in Section 62-352;

(b) all #Special Mixed Use Districts#;

(c) all R6A, R6B and R7A Districts; and

(d) the following R6 areas:

(1) the #block# bounded by Havemeyer Street, North Sixth Street, Metropolitan Avenue and North Fifth Street;

(2) the #block# bounded by Roebling Street, North Fifth Street, Havemeyer Street and Metropolitan Avenue;

(3) those #blocks# bounded by Wythe Avenue, Grand Street, Berry Street and South Third Street;

(4) those #blocks# and portions of #blocks# bounded by Bedford Avenue, North 1st Street, Driggs Street, Fillmore Place, Roebling Street, and a line coincident with the centerline of the long dimension of the #blocks# bounded by Bedford Avenue, Grand Street, Roebling Street and South First Street; and

(5) that portion of the #block# bounded by Franklin Street, Huron Street, Manhattan Avenue and India Street that is within 100 feet of Franklin Street and 100 feet of India Street.

~~23-92~~ 23-93
Definitions

For the purposes of the Inclusionary Housing program, matter in italics is defined either in Section 12-10 (DEFINITIONS) or in this Section.

Fair rent

* * *

At initial occupancy of any #lower income housing#, no portion of the #fair rents# shall be for the payment of the principal or interest on any debt, and the #lower income housing# shall not secure any debt and shall be free of all liens, except liens for real estate taxes, water charges and sewer rents and other governmental charges for which payment is not yet due. #Fair rents# may be used for the payment of principal or interest of debt only if such debt was incurred after the date of initial occupancy and is for a capital improvement to such #lower income housing# other than those capital improvements set forth in the #lower income housing plan#.

In Community District 1, Borough of Brooklyn, at initial occupancy of any #lower income housing#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95(c) o this Resolution, and provided that the lender agrees to enter into a written agreement which subordinates such debt.

Lower income household

A "lower income household" is a #family# having an income equal to or less than the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U.S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

In Community District 1, Borough of Brooklyn, for the purposes of Section 23-953 (Preservation option), #lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City and State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with U. S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.

Lower income housing

"Lower income housing" are #standard units# occupied or to be occupied by #lower income households#. #Lower income housing# shall not include #standard units# assisted under city, state or federal programs, except where such assistance is in the form of:

(e) real estate tax abatements and exemptions which are specifically limited to the #lower income housing#; or

(f) operating assistance that the Commissioner of the Department of Housing Preservation and Development determines will be used to enable households with incomes of not more than 62.5 percent of the "80 Percent of SMSA Limits" to afford such #lower income housing#.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall include #standard units# assisted under city, state or federal programs.

Lower income housing plan

The "lower income housing plan", is the plan accepted by the Commissioner of Housing Preservation and Development, which sets forth the developer's plans for creating and maintaining the specified #lower income housing# pursuant to this program, including but not limited to, choice of #administering agent#, tenant selection, rent levels in the #lower income housing# and income verification of tenants pursuant to Section ~~23-04~~ 23-95 paragraphs (b), (c) and (d) of this Resolution.

* * *

~~23-03~~ ~~23-04~~
Floor Area Compensation

23-941
In R10 Districts

The #floor area ratio# of a #development# may be increased from 10.0 to a maximum of 12.0 at the rate set forth in this Section, if the developer of such #development# provides #lower income housing# pursuant to Section ~~23-04~~ 23-95 (Lower Income Housing Requirements).

For each square foot of #floor area# provided for #lower income housing# pursuant to the options listed in Column A and which meets the requirements set forth in Section ~~23-04~~ 23- 95, the #floor area# of the #development# may be increased by the number of square feet set forth in Column B.

Lower Income Housing Requirements

~~**R10**~~

To qualify for the increased #floor area#, #compensated developments# must provide #lower income housing# for the life of the increased #floor area# in the #compensated development# pursuant to one or more of the options listed in Section ~~23-041, 23-042 and 23-043~~, 23-951, 23-952 and 23-953 and such #lower income housing# must meet each of the

requirements set forth below.

* * *

~~23-941~~ 23-951
On-site new construction option

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(a) The #lower income housing# shall be located in newly constructed #floor area# in the #compensated development#. The #lower income housing# shall be maintained and leased to #lower income households# for the life of the increased #floor area#.

(b) #Dwelling units# designated as #lower income housing# shall be distributed throughout the #development#. No #story# shall contain more than two such units unless at least 80 percent of all #stories# contain two such units. The size of the designated #lower income housing# units shall at least be distributed among the various size units in proportion to the total distribution of unit size within the #building# in the following categories of unit sizes:

under 600 net square feet
600 - 749 net square feet
750 - 949 net square feet
950 - 1149 net square feet
1150 or more net square feet

In Community District 1, Borough of Brooklyn, the requirements of this paragraph (b) may be waived by the Commissioner of Housing Preservation and Development to facilitate the #development# of #lower income housing#.

~~23-942~~ 23-952
Substantial rehabilitation and off-site new construction options

To qualify for one or more of these options, the designated #lower income housing# shall meet the following requirements:

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#.

For the new construction option the #lower income housing# shall be in a new #building#. For the substantial rehabilitation options, the #lower income housing# shall be in an existing #building# in which, prior to the submission of the #lower income housing plan# pursuant to this Section, any #residential# portion not in public ownership had been entirely vacant for not less than three years.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall be located only within such Community District, and the administering agent shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

~~23-943~~ 23-953
Preservation option

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#.

The #lower income housing# shall be in an existing occupied #residential# or #mixed building#. Only #standard units# occupied by #lower income households# shall be #lower income housing#. For each #standard unit# designated as #lower income housing# the #administering agent# shall verify the income of the household in tenancy.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall be located only within such Community District, and the administering agent shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

62-35
Special Bulk Regulations within Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1, the special #bulk# regulations of this Chapter are further modified as set forth in this Section 62-35, inclusive.

62-351
Special floor area regulations

(a) Maximum permited #floor area ratio#

In R6 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# shall be 2.43. In R8 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# shall be 5.5. In R6 and R8 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# may be increased for #developments# and #enlargements# that provide lower income housing pursuant to Section 62-352.

(b) #Buildings# used for #accessory# off-#street# parking spaces

The #floor area# of a #building# shall not include floor space used for #accessory# off-street parking spaces provided in any #story# located not more than 33 feet above the height of the #base plane#.

62-352
Inclusionary Housing

The provisions of Section 23-90 (INCLUSIONARY HOUSING) shall apply in R6 and R8 Districts within Waterfront Access Plan BK-1 as modified in this Section.

(a) Definitions

Fair rent

At initial occupancy of #lower income housing# that is occupied by a #moderate income household# or a #middle income household# as defined in this Section, "fair rent" is an annual rent for each such housing equal to not more than either the public assistance shelter allowance if the #family# receives public assistance, or 30 percent of the annual income of the tenant of such housing (the "30 Percent Standard").

Upon renewal of a lease for such an existing tenant in #lower income housing#, #fair rent# (the "Rent Stabilization Standard") is not more than the then-current #fair rent# for such housing plus a percentage increase equal to the percentage increase for a renewal lease of the same term permitted by the Rent Guidelines Board for units subject to the rent stabilization law.

After initial occupancy, upon rental of #lower income housing# to a new tenant, #fair rent# is not more than the higher of:

(1) the then-currently applicable "30 Percent Standard"; or

(2) the Rent Stabilization Standard.

In order for rent to be #fair rent#, the following must also apply:

There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income, #moderate income# or #middle income household# responsible for the payment of utilities as long as the sum of:

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment do not exceed 30 percent of said #lower income#, #moderate income# or #middle income household's# income.

At initial occupancy of any #lower income housing# occupied by a #moderate income# or #middle income household#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95(c) o this Resolution, and provided that the lender agrees to enter into a written agreement which subordinates such debt.

Lower income housing
For the purposes of this Section, "lower income housing" shall include #standard units# occupied or to be occupied by #lower income#, #moderate income# or #middle income households#.

Moderate income household

For the purposes of this Section 62-352, a "moderate income household" is a #family# having an income equal to or less than the following proportion:

125
80

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

Middle income household

For the purposes of this Section 62-352, a "middle income household" is a #family# having an income equal to or less than the following proportion:

175
80

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

(b) Floor area increase

The maximum permitted #floor area ratio# on a #zoning lot# containing #residences# may be increased in R6 Districts from 2.43 to 2.75, and in R8 Districts from 5.5 to 6.5, provided that:

(1) at least 15% of the total #floor area# on the #zoning lot# is occupied by #lower income households#, or

(2) at least 10% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 10% of the total #floor area# on the #zoning lot# is occupied by #moderate income households#, or

(3) at least 10% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 15% of the total #floor area# on the #zoning lot# is occupied by #middle income households#.

(c) Lower Income Housing Requirements

#Developments# that increase #floor area# in accordance with the provisions of this Section shall comply with the lower income housing requirements of Section 23-95, except as modified in this paragraph (c).

(1) The provisions of Section 23-95(b) shall apply, except that in addition, incoming households of #standard units# in #lower income housing# may be #moderate# and #middle income households#, and sublessees of a #moderate# or #middle income household# may also be a #moderate# or #middle income household#.

Furthermore, on and after the issuance of a certificate of occupancy for #lower income housing#, the #administering agent# shall have a duty to rent such housing to #lower#, #moderate# or #middle income households#, as provided in this Section.

This duty to rent shall be satisfied by the #administering agent#, if such agent has in fact rented all such units to #lower#, #moderate# or #middle income households#, as provided in this Section, or has, in good faith, made a continuing public offer to rent such units at rents no greater than the rents authorized by this program or otherwise at law.

(2) The provisions of Section 23-95(d) shall apply, except that prior to renting #lower income housing#, the #administering agent# shall verify the income of each household to occupy such housing, to assure that the households are #lower#, #moderate# or #middle income households# as provided by this Section. The #administering agent# shall submit an affidavit to the Commissioner of Housing Preservation and Development upon initial occupancy and annually thereafter attesting that all incoming occupants of #lower income housing# are #lower#, #moderate# or #middle income households# as required by the provisions of this Section.

(3) Section 23-951(a) shall apply, except that the #lower income housing# shall be maintained and leased to #lower#, #moderate# or #middle income households#, as provided in this Section, for the life of the increased #floor area#.

62-353
Special floor area, lot coverage and residential density distribution regulations

Within any parcel identified in Section 62-381, and with respect to any such parcels which are adjacent to each other and which are under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined in (e) of the definition of a #zoning lot# in Section 12-10) or with respect to which each party in interest (as defined in (f)(4) of the definition of a #zoning lot# in Section 12-10) has executed a declaration declaring that the properties are to be develop as a single parcel or has waived its right to execute such declaration, the total #floor area# and #lot coverage# permitted pursuant to Section 62-351 or 62-352 and the residential density permitted pursuant to Section 23-22 may be located anywhere within such parcel or between such parcels without regard to #zoning lot lines# or district boundaries provided that such location of #floor area#, #lot coverage# or residential density complies with Section 62-31 and Section 62-34 as modified by Section 62-354.

62-354
Special Height and Setback Regulations

The provisions of Section 62-341 are modified as follows:

(a) Paragraph (c)(1) (Maximum base height) shall be modified in R6 Districts to permit a maximum base height of 65 feet or six #stories#, whichever is less. However, for #buildings or other structure# located on a #zoning lot# with more than 100 feet of frontage on a #street# in R6 Districts, not less than 20 percent of such frontage shall exceed a maximum base height of 55 feet or 5 #stories#, whichever is less.

(b) Paragraph (c)(2) (Maximum #building# height) shall not apply. In lieu thereof, the maximum #building# height in an R6 District shall be 65 feet

or six #stories#, whichever is less, within 100 feet of Commercial Street, West Street, Dupont Street, Franklin Street and Kent Avenue. Beyond 100 feet of such #streets# and any other portions of an R6 District, the maximum #building# height in shall be 110 feet. In R8 Districts, the maximum #building# height shall be 210 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 200 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 210 feet to a maximum #building# height of 310 feet. Such maximum #building# heights of 110 feet, 210 feet and 310 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 110 feet, 210 feet or 310 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

For #developments# that provide #lower income housing# pursuant to Section 62- 352, the increased #floor area# permitted for such #developments# may exceed the height limits of an R8 District set forth in this paragraph (b) provided that the maximum building height shall be 260 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 250 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 260 feet to a maximum #building# height of 360 feet. Such maximum #building# heights of 260 feet and 360 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 260 feet or 360 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

(c) Paragraphs (c)(3) (#Floor area# distribution) and (c)(5) (Additional setback provisions for high #buildings#) shall not apply.

(d) Paragraph (c)(4) (Maximum #residential# tower size) shall not apply. In lieu thereof, each #residential story# of a #building# located entirely above a height of 85 feet shall not exceed a gross area of 8,100 square feet in an R6 District and 11,000 square feet in an R8 District. If such #residential story# of a #building# is located partially in an R6 District and partially in an R8 District, it shall not exceed a gross area of 11,000 square feet and any portion located in an R6 district shall not exceed a gross area of 8,100 square feet.

(e) Paragraph (c)(6) shall not apply. In lieu thereof, the maximum length of any #story# of a #building# that exceeds a height of 85 feet shall not exceed 170 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above such heights. Any side of such rectangle shall not exceed 170 feet.

(f) Paragraph (c)(7) (Ground floor streetscape provisions) shall not apply. In lieu thereof, all off-street parking spaces located within 50 feet of a #street#, a #visual corridor# containing a private road, and a #shore public walkway#, #upland connection# or #supplemental public access area# and which are located on a #story# that is above the #base plane# shall be within facilities that are located behind #commercial#, #community facility# or #residential# floor space so that no portion of such parking facility, other than entrances and exits, is visible from such #streets#, #visual corridors# or publicly accessible open spaces. Such floor space shall have a minimum depth of 25 feet. Up to 5 percent of such floor space may be used for mechanical equipment provided that no floor space used for mechanical equipment is located within 15 feet of the #street wall# of the #building# below a height of 15 feet above the #base plane#, and that no exhaust vents are located on the street wall of the #building# below a height of 15 feet above the #base plane#. The remainder of such floor space shall be used for #commercial#, #community facility# or #residential floor area#. Seventy percent of the surface area of the facade of a facility containing parking spaces which are not otherwise required to be behind such #floor area# shall be composed of the same materials as the facade of the #building# in which it is located.

(g) Any roof of a facility containing off-street parking spaces, not otherwise covered by a #building#, which is larger than 400 square feet shall be landscaped. Up to 5 percent of such roof area may be used for mechanical equipment provided that such mechanical equipment is screened from view by a fence which is at least 75 percent opaque or by at least 3 feet of dense planting. Up to 25 percent of such roof area may be accessible solely from an adjacent #dwelling unit# and the remaining roof area shall be accessible for the recreational use of the occupants of the building in which it is located. Hard surfaced areas shall not cover more than 60 percent of such roof area.

(h) At least 70 percent of the width of the #streetwall# of a #building# or #buildings# fronting on a portion of a #street#, #upland connection# or #visual corridor# which is not adjacent to a #shore public walkway# or #supplemental public access area# shall be located within eight feet of such #street line# and extend to a minimum height of 30 feet.

(i) All #developments#, conversions, and #enlargements# or #extensions# which increase the existing #floor area# by more than 10 percent, shall provide along the entire #street# length of the #zoning lot#, one tree for every 25 feet of # street# frontage. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals except where the Department of Parks and Recreation determines that such tree planting would be unfeasible. Such trees shall be planted in accordance with the standards of the Department of Parks and Recreation.

5. for the #development# of a park, a site plan and all other applicable data have been submitted showing compliance with the provisions of Section 62-416 (Special regulations for zoning lots that include parks).

A certification pursuant to paragraph (c) of this section, for any parcel identified in Waterfront Access Plan BK-1, may provide for the phased implementation of all required public access areas provided that an amount of public access area proportionate to the amount of #floor area# being developed on the parcel is provided in each phase. Additionally, for any #development# located within 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 200 linear feet of #shore public walkway# and any adjacent #supplemental public access area# located between such #development# and the required #shore public walkway#, one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway# and, shall have at least one other connection from such required portion of the #shore public walkway# to an adjacent #shore public walkway#, a #street# or another #upland connection#. For any #development# located entirely beyond 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 100 linear feet of #shore public walkway#, and one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway#. However, no public access area needs to be provided for a phase consisting of a #development # in which all included #residential# units are affordable units for a #lower income household# as defined in section 23-93 or a #moderate income household# or a #middle income household# as defined in section 62-352.

A certificate pursuant to paragraphs (b) or (c) of this Section shall be granted on condition that an acceptable restrictive declaration is executed and filed pursuant to Section 62-14 (Requirements for Recordation).

62-812
Elements of a Waterfront Access Plan

A Waterfront Access Plan may:

1) on #zoning lots# where public access or #visual corridors# are required pursuant to the provisions of Sections 62-40 and 62-60, modify the size, configuration, location or design of required waterfront public access areas or #visual corridors# within certain designated areas in order to address local conditions, provided such plan does not impose a public access or #visual corridor# requirement on any #zoning lot# greater than would otherwise be required pursuant to the provisions of Sections 62-40 or 62-60. For the purpose of determining the amount of public access, the highest standard applicable to a zoning lot may be applied regardless of any specific #use# permitted or proposed for such #zoning lot#. Within Waterfront Access Plan BK-1, the public access and #visual corridor# requirements for any parcel located within the Waterfront Access Plan may be determined by aggregating the public access and #visual corridor# requirements of each zoning lot within the parcel and such aggregated requirements may be modified within such parcel without regard to #zoning lot lines#;

(a) Area wide modifications:

The following provisions shall apply to all #developments# required to provide public access, pursuant to Section 62-40 (REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AND VISUAL CORRIDORS):

(1) Paragraph (c) of Section 62-412 (Requirements for public access on piers) is applicable, except that a minimum of 15 feet are required along each water edge.

(2) The provisions of Section 62-61 (Design Options and Methodology) shall be inapplicable. In lieu thereof, the following provisions shall apply:

2 All required public access areas and #visual corridors# shall comply with the general requirements set forth in Section 62-62 (General Requirements for Public Access Areas) and the specific requirements as set forth in this Section.

(ii) #Upland connections#, #visual corridors#, public access areas on #piers# and public access areas in conjunction with #floating structures# shall comply with the design requirements set forth in Sections 62-64 through 62-66, inclusive.

(iii) Public access areas are subject to the design reference standards set forth in Section 62-67 and paragraph (d) of this Section.

(3) The provisions of Section 62-623 (Supplemental public access areas) shall be inapplicable. In lieu thereof, the following provisions shall apply:

c) A required #supplemental public access area# shall be directly connected to either a #pier# public access area, an #upland connection# or a #shore public walkway# on either its landward or seaward side and its pedestrian circulation zone shall be contiguous with the adjacent pedestrian circulation zone.

d) A buffer zone shall only be required where a #supplemental public access area# adjoins a non-publicly accessible portion of a #zoning lot#, in which case its minimum width shall be 15 feet.

(4) #Street# Treatment

All #streets# adjacent to a #shore public walkway# or #supplemental public access area# shall be improved as a continuation of such #shore public walkway# or #supplemental public access area#, pursuant to the design requirements of paragraph (b) of this Section, inclusive.

(b) Specific design requirements for Public Access Prototypes

The provisions of Section 62-63 (Specific Design Requirements for Public Access Prototypes) shall be inapplicable. In lieu thereof the following provisions for #shore public walkways# and #supplemental public access areas# shall apply:

(1) Greenpoint-Williamsburg Shore Public Walkway-Prototype I

1. One circulation path with a minimum clear width of 12 feet is required. The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path.

(ii) A minimum of one linear foot of seating shall be provided for every 100 square feet of #shore public walkway#. At least 60 percent of the required seating shall be landward of the required circulation path.

(iii) A minimum of 50 percent of the pedestrian circulation zone, excluding the required circulation path, shall be planting area. Rip rap, beach or other shoreline materials may be counted as an equivalent to planting area.

(iv) One shade tree is required for every 1,200 square feet of #shore public walkway# and one small or ornamental tree shall be required for every 750 square feet of #shore public walkway#. Trees may be located either in the pedestrian circulation zone landward of the required circulation path or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(2) Greenpoint-Williamsburg Shore Public Walkway-Prototype II

1) The provisions of 62-621 (Shore public

walkways) shall apply except that a #shore public walkway# shall have a minimum 30 foot pedestrian circulation zone and a minimum 15 foot buffer zone.

2) One circulation path with a minimum clear width of 12 feet is required. The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path, in which case, the path shall be located within 20 feet of the shoreline. A secondary circulation path may be provided, with a minimum width of 10 feet. Connecting paths having a minimum width of ten feet shall be provided between the two circulation paths at intervals not to exceed 100 feet.

3) A minimum of one linear foot of seating shall be provided for every 70 square feet of #shore public walkway#.

4) A minimum of 70 percent of the pedestrian circulation zone, excluding the required circulation path shall be planting area. A minimum of 50 percent of this planting area must be improved as lawn according to the provisions of Section 62-675 (Planting and trees).

(v) One shade tree is required for every 1,900 square feet of #shore public walkway# and shall be located in the pedestrian circulation zone. In addition, one shade, small or ornamental tree shall be required for every 850 square feet of #shore public walkway# and may be located either in the pedestrian circulation zone or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(3) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Plaza

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 40 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 25 percent of the pedestrian circulation zone shall be planting area.

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(4) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Park

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 50 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 60 percent of the pedestrian circulation zone shall be planting area with no more than 30 percent of the planting area in raised planting beds. At least 35 percent of the #supplemental public access area# shall be lawn in compliance with the standards set forth in paragraph (c)(5) of Section 62-675 (Planting and trees).

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(c) Amenities

In parcels where #supplemental public access area# is required, no more than fifteen percent of public access area may be reduced if playgrounds and other amenities are provided in accordance with the following provisions.

(1) Playgrounds

A playground shall have a minimum size of 1,000 square feet and, if applicable, there shall be a minimum of 400 feet between any two playground areas. For every five square feet of playground area provided, the total amount of required public access may be reduced by the rate of one square foot.

(2) Other amenities

A reduction in the total amount of required public access area shall be permitted according to the following table.

Amenity	Square feet reduction
Picnic table	22 sq. ft. per table, to a max. of 200 sq. ft.
Chess table	20 sq. ft. per table,to a max. of 200 sq. ft.
Telescope	10 sq. ft. per telescope, to a max. of 50 sq. ft.
Fountain/water feature	150 sq. ft. per feature, to a max. of 300 sq. ft.
Shade structure	150 sq. ft. perstructure, to a max. of 300 sq. ft.

(d) Public access design reference standards

Section 62-67 is hereby modified by the following provisions.

(1) Guardrails

The provisions of paragraph (a) Section 62-671 (Guardrails, gates and other protective barriers) shall be inapplicable. In lieu thereof the following provisions for guardrails shall apply:

(i) Guardrails shall be located within waterfront public access areas continuously along any bulkhead, stabilized shore or the water edges of a #pier# or #platform# that is located within 50 feet of a circulation path; and continuously along any grade level change of 30 inches or greater adjoining or within 10 feet of a circulation path. However, guardrails shall not be required landward of any rip rap, beach or any other shoreline material that is at least 10 feet wide. If any protective barrier is provided adjacent to any rip rap, beach or other shoreline material, they shall not exceed a height of 21 inches or shall consist of a bollard and chain device.

Guardrails shall not be required at access points to WD #uses# and #development# on #floating structures#. The minimal protective barrier at such locations shall be a swing gate, bollard and chain or similar device.

(ii) Guardrails shall comply with illustration A1; alternatively, illustration A2 may be used in #piers#.

All guardrail components and hardware shall be in stainless steel or cast aluminum, as applicable.

Illustration A1

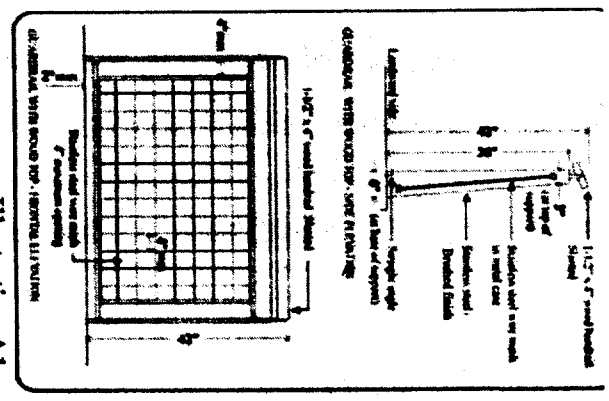

Illustration A2

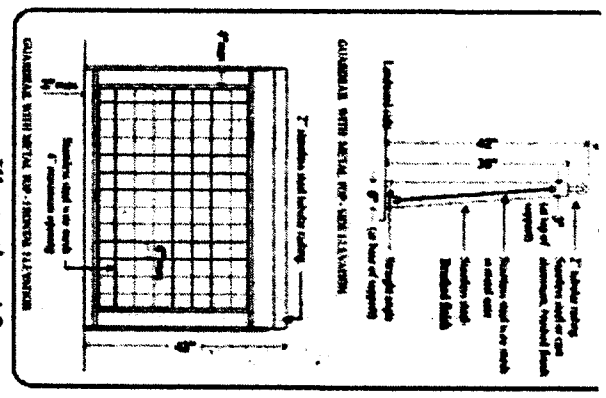

(Alternate for Piers)

(2) Seating

In addition to the provisions of Section 62-672, at least fifty percent of the required seating along any #shore public walkway# or #supplemental public access area# shall comply with illustration B1 or B2 below.

Illustration B1

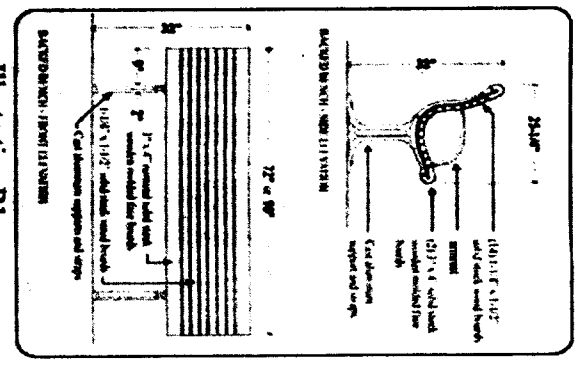

Illustration B2

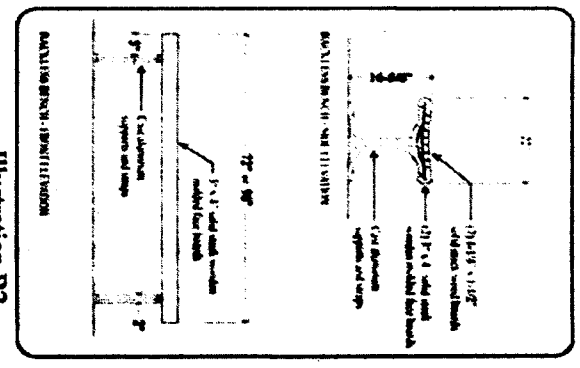

All wood boards shall be made of Redwood, Jarrah or Ipe, have eased edges and ends and be treated for external use without stain or varnish.

All supports and backstraps shall be 713 tenzalloy cast aluminum, with a rust inhibitor and a top coat finish of thermosetting polyester powdercoat that is ultra-violet, chip and flake resistant. Metal components shall have a light gray or aluminum color.

(3) Lighting

In addition to the provisions of Section 62-673, the required lighting along any public access area shall comply with illustration C1 below.

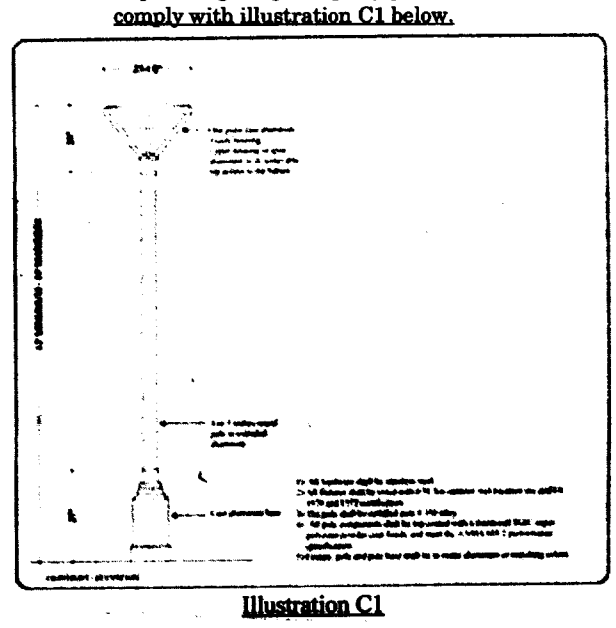

Illustration C1

(4) Planting and trees

The provisions of paragraph (c)(6) (Container planting) of Section 62-675 shall be inapplicable, unless a structural or environmental necessity is demonstrated at the time of certification.

(5) Paving

In addition to the provisions of Section 62-676, the paving for the required clear path within the #shore public walkway# shall be gray. At least fifty percent of all other paved areas within the #shore public walkway# and #supplemental public access areas# shall be paved in the same color range.

(e) Special public access provisions by parcel

The provisions of Sections 62-41 (Requirements for waterfront public access) and 62-60 (DESIGN STANDARDS FOR THE WATERFRONT AREA) are modified at the following designated locations which are shown on Map BK-1b in paragraph (g) of this Section:

1. Parcels 1 and 2

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this

Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#
The requirements for #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is developed first shall provide an #upland connection# along the #lot line# between the two parcels. The width of the #upland connection# may be utilized by the developer of the remaining parcel in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels, according to the provisions of paragraph (f)(1) of this Section. If both parcels are developed concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

(3) Parcel 5a

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (g) of this Section.

The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot lines of Parcels 5b and 6.

(iii) #Supplemental public access area#

The #supplemental public access area# shall abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. The #upland connection#, however, may cut across the #supplemental public access area# provided that no area shall be less than 5,000 square feet. All #supplemental public access areas# shall have a minimum width to depth ratio of 1.0 to 1.0 and a maximum width to depth ratio of 2.0 to 1.0. In no event shall the #supplemental public access area# be deeper than 100 feet. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

Alternatively, a portion of the required #supplemental public access area# that is a minimum of 5,000 square feet may abut the #shore public walkway# continuously along the longest side provided that it also abuts a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-641, but shall not be counted towards satisfying the required amount of public access area on the site. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(4) Parcel 5b

#Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(5) Parcel 5c

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

Two #upland connections# shall be provided between West Street and the #shore public walkway#, one each located within the prolongation of the #street lines# of Eagle Street, and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided on Parcel 5c.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the pedestrian circulation zone of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(6) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5 and be subject to the following requirements:

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

One #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (g) of this Section. The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.

Two #upland connections# shall be provided between West Street and the #shore public walkway#, each located within the prolongation of the #street lines# of Eagle Street and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5 and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining of the required #supplemental public access area# shall be located within the area bounded by the western prolongation of the north #street line# of Dupont Street, the #shore public walkway#, the northern prolongation of the eastern boundary of Parcel 6 and Parcel 6 . The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(7) Parcel 7

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply, except that any portion of the required #shore public walkway# where the distance between the shoreline and the boundaries of Parcel 7 is less than 17 feet shall be improved entirely as clear path.

(ii) #Supplemental public access area#

The requirement for a #supplemental public access area# on Parcel 7 is waived.

(8) Parcels 9, 10 and 11

(i) #Shore public walkway#

The requirements for Prototype II described in paragraph (b)(2) of this Section shall apply.

(ii) #Supplemental public access area#

For each parcel, the #supplemental public access area# requirements shall be provided to widen the pedestrian circulation zone of the #shore public walkway#, evenly distributed along the entire length of such #shore public walkway#.

(9) Parcel 13

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Milton Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be bounded by the southern #street line# of Greenpoint Avenue, the #shore public walkway# and the northern boundary of the required Milton Street #upland connection#. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(10) Parcel 14

(i) #Shore public walkway#

The area between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# shall be improved pursuant to the requirements of Prototype II described in paragraph (b)(2) of this Section. The remaining required #shore public walkway# shall be improved pursuant to the requirements of Prototype I as described in paragraph (b)(1) of this Section.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway#. The southern boundary of such #upland connection# shall be defined by a line between the intersection of the prolongation of the southern #street line# of Calyer Street and the western #street line# of West Street, and a point on the easterly boundary of the #shore public walkway# 30 feet north of the northern #street line# of Quay Street

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided. A #supplemental public access area# with a minimum of 9,000 square feet shall be provided between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# to widen the pedestrian circulation zone of the #shore public walkway#.

The remaining requirements for #supplemental public access area# shall be located in the area bounded by the southern boundary of the required Calyer Street #upland connection#, the #shore public walkway# and the southern boundary line of the parcel. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(11) Parcel 15

An #upland connection# shall be provided within the prolongation of the #street lines# of WestStreet, connecting Quay Street to Parcel 20.

(12) Parcels 19, 20, 21 and 22

Parcels 19, 20, 21 and 22 shall be designated as public parks as of (date of adoption).

(13) Parcel 24

#Shore public walkway#

Prototype I described in paragraph (b)(1) of this Section shall apply.

(14) Parcel 25

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of North 6th Street.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.

One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet from the southern #street line# of North 7th Street. The entire #supplemental public access area#, excluding the required buffer, shall be developed as clear circulation path.

A minimum of one linear foot of seating shall be required for every 40 square feet of pedestrian circulation zone and shall be located in the required buffer zone. Four trees shall be required, at least two of which are shade trees. Small or ornamental trees located within the buffer zone shall not be counted toward the minimum requirements.

The remaining required #supplemental public access area# shall be located either on the #pier# or abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. At least 70 percent of the required #supplemental public access# shall have a width to depth ratio of 2 to 1. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on a #pier# located at the western terminus of North 6th Street pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(15) Parcel 26

(i) #Shore public walkway#

The requirements of Section 62-411 (Requirements for shore public walkways) shall apply, except that the minimum required width of the #shore public walkway# shall be reduced to 34 feet between North 5th Street and the northern boundary of the required #upland connection# at the prolongation of North 4th Street. The quantity of public access eliminated from the #shore public walkway# as a result of this width reduction shall be located in the triangle formed between the #shore public walkway#, the southern #street line# of the North 4th Street #upland connection# and the bulkhead line. The entirety of the #shore public walkway# shall be improved pursuant to the requirements for Prototype I described in paragraph (b)(1) of this Section.

(ii) #Upland connections#

An #upland connection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street.

(16) Parcel 27

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure#, but shall not need to be wider than 40 feet.

Notwithstanding the requirements of Paragraph (c) of Section 62-62 (General Requirements for Public Access), the #shore public walkway# may be located within the #building or other structure#, and the obstructions permitted by Section 62-626, paragraph (a), shall include any supporting structural elements of the #building or other structure# and its related appurtenances. Additionally, the #shore public walkway# shall have a minimum clear path of 12 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#

The requirements for #supplemental public access# shall be waived.

(f) Special visual corridor provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan are shown on Map BK-1c in paragraph (g) of this Section and shall be as follows:

(1) Parcels 3 and 4

A #visual corridor# shall be provided through Parcels 3 and 4 to the pierhead line within a flexible area along the #lot lines# between them.

Whichever parcel develops second shall complete the required clearance to comply with the #visual corridor# requirements along the #upland connection# already provided in accordance with the requirements of paragraph (e)(2)(ii) of this Section. If both parcels are developed concurrently, then the requirements can be divided equally along the #lot line# between the parcels.

(2) Parcel 5a

A #visual corridor# shall be provided through Parcel 5a to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(3) Parcel 5b

Two #visual corridors# shall be provided through Parcel 5b to the pierhead line as the prolongation of the #street lines# of West Street and Dupont Street, respectively.

(4) Parcel 5c

(i) Three #visual corridors# shall be provided through Parcel 5c to the pierhead line as the prolongation of the #street lines# of West Street, Eagle Street and Green Street.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be permitted obstructions along the #visual corridor# along Green Street.

(5) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5, subject to the following #visual corridors# requirements:

(i) One #visual corridor# shall be provided through Parcel 5 to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.
Four #visual corridors# shall be provided through Parcel 5 to the pierhead line, each located as the prolongation of the #street lines# of West Street, Dupont Street, Eagle Street and Green Street, respectively.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be allowed along the #visual corridor# along Green Street.

(6) Parcel 13

Two #visual corridors# shall be provided through Parcel 13 to the pierhead line as the prolongation of the #street lines# of Milton Street and Oak Street, respectively.

(7) Parcel 14

A #visual corridor# shall be provided through Parcel 14 as the prolongation of the #street lines# of Oak Street.

(8) Parcel 15

A #visual corridor# shall be provided though Parcel 15 as the prolongation of the #stret lines# of West Street.

(9) Parcel 25

A #visual corridor# shall be provided through Parcel 25 as the prolongation of the #street lines# of North 6th Street.

COURT NOTICE

SUPREME COURT

■ **NOTICE**

NEW YORK COUNTY
IA PART 28
ORDER TO SHOW CAUSE BY VERIFIED PETITION
INDEX NUMBER 403782/04

In the Matter of the Application of the City of New York, relative to acquiring permanent underground easements to a volume of real property located between 325 feet and 615 feet below main sea level at Sandy Hook, New Jersey, usually 50 feet wide, where not heretofore acquired for the same purpose, for the construction of

CITY TUNNEL NO. 3, STAGE 2, PHASE 3, and appurtenances in the Borough of New York from Hudson Street and Laight Street to East Fourth Street and Bowery, and from 10th Avenue and West 31st Street to 2nd Avenue and East 54th Street

On reading and filing the Order to Show Cause, the annexed Verified Petition dated November 9, 2004 ("Verified Petition"), and the exhibits annexed to said Verified Petition;

IT IS ORDERED that all interested parties show cause before this Court at the courthouse located at 60 Centre Street, Room 408, New York, New York, at Individual Assignment Part 28, on January 25, 2005, at 9:30 A.M. or as soon thereafter as counsel may be heard, why an Order should not be entered:

1. granting the Verified Petition in all respects;

2. authorizing the City of New York (the "City") to file an acquisition map in the office of the Clerk of New York County of the Office of the City Register;

3. directing that upon the filing of said map, permanent underground easements to certain real property sought to be acquired, described below in Schedules No. 1 and 2, shall vest in the City;

4. providing that just compensation therefore be ascertained and determined by the Supreme Court without a jury; and,

5. providing that notices of claim must be served and filed within one calendar year from the vesting date; and,

IT IS ORDERED that sufficient reason appearing, service by certified mail return receipt requested (as provided in Section 402(B)(2) of the Eminent Domain Procedure Law), of a copy of this Order and the Verified Petition, upon the Taxpayers of Record and Last Owners, as set forth in Schedule A, which is part of the Notice of Pendency, annexed to the Verified Petition as Exhibit A, on or before December 8, 2004, shall be sufficient service;

REDEVELOPMENT OF A PORTION OF THE FARM COLONY IN STATEN ISLAND – Request for Expressions of Interest – DUE 02-18-05 AT 4:00 P.M. – Located in the Willowbrook area of central Staten Island, the Site is part of the Farm Colony - Seaview Hospital Historic District. The approximately 59-acre Site is zoned R3-2 with a NA-1 (Special Natural Area District) overlay. Eleven historically significant and deteriorated buildings are located on the Site, which is identified as Block 1955, part of Lot 1 in the Borough of Staten Island tax map.

NYCEDC's goal is to solicit ideas for the redevelopment of the Site that address the unique constraints affecting development including, but not limited to, the rehabilitation and adaptive reuse of the existing buildings. Other development goals include sensitivity to both the Site's location in a Special Natural Area District and its bucolic setting within the Staten Island Greenbelt, as well as the Site's adjacency to low-density residential and institutional development. Therefore, development concepts should focus on cultural, educational, and recreational uses permitted by zoning. All proposals for new construction must be consistent with the recommendations made by the Mayor's Staten Island Growth Management Task Force. Further, general residential uses will not be permitted on the Site. Senior housing, although not a preferred use, will be considered on a case-by-case basis.

A question-and-answer session to discuss the Site and tour will be held on January 20, 2005 at 10:00 a.m. To attend the question-and-answer session and site visit, please call (212) 312-3875 on or before January 14, 2005. Interested parties are strongly encouraged to attend.

For more information, and to request a copy of the RFEI, visit www.nycedc.com/farmcolonyRFEI or call (212) 312-3969. Please submit six (6) copies of your proposal.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

REHAB. ON THE STATEN ISLAND RAILROAD ARTHUR KILL LIFT BRIDGE – Public Bid – DUE 01-27-05 AT 2:00 P.M. – As part of the City's efforts to reactivate freight service on the Staten Island Railroad, the New York City Economic Development Corp. is letting this bridge rehab. contract (#5320016). Located between the Howland Hook Marine Terminal and the Gothels Bridge on the west shore of Staten Island, the Arthur Kill Lift Bridge is a single-track movable bridge that spans approximately 500' over the Arthur Kill. Built in 1958 this bridge was in use until the early 1990's. The bridge is currently operational and the intent of this rehab is to prepare it for daily reliable use. The proposed bid date is January 27, 2005 and a site visit is schedule for January 6, 2005. Bidders interested in attending the site visit must register at the Port Ivory Security Office on Western Avenue, a pre walk through meeting will be held at Port Ivory Administration Building.

The scope of work entails lead paint abatement, cleaning and painting structural steel and machinery house exteriors, concrete spall and crack repairs, replacement of bridge walkways and railings, electric signal and power upgrades, installation of new meter house and meter house electrical equipment, bridge machinery repairs, bridge balancing and start-up. The engineer's estimate is approximately $6,000,000. The cost of the Bid package is $200 USD payable to either a certified bank check or money order. Cash, personal or company checks are not acceptable. All submitted bids are required to have a Bid bond.

WEBSITE CONSULTANT – RFP – DUE 01-24-05 AT 4:00 P.M. – New York City Economic Development Corporation (NYCEDC) is seeking a consultant or consultant team to redesign and redevelop its website. NYCEDC seeks to enhance our corporate image through a client-focused Internet presence in order to achieve our objectives of attracting and retaining businesses and jobs in the City.

The new website will be a large, high-volume interactive site. Both domestic and international businesses and institutions, as well as potential vendors and suppliers, must be able to navigate the site quickly and efficiently. The site will also provide information on the City's economic condition, business climate, business incentive programs, other resources, business opportunities and more.

NYCEDC plans to select a consultant on the basis of factors including, but not limited to: the quality of the proposal, experience of key staff identified in the proposal, experience and quality of any subcontractors proposed, demonstrated successful experience in performing services similar to those encompassed in the RFP, and the proposed fee. NYCEDC reserves certain rights, including, but not limited to, the rights to waive irregularities and reject any or all proposals in its sole and absolute discretion.

Respondents may submit questions and/or request clarifications from NYCEDC no later than **4:00 p.m.** on **Thursday, December 30, 2004.** Questions should be directed to webconsultrfp@nycedc.com. Answers to all questions will be posted by Thursday, January 6, 2005, to http://www.nycedc.com/webconsultrfp

For more information and to request or download a copy of the RFP, call (212) 312-3969 or visit http://www.nycedc.com/webconsultrfp.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals -
PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the

most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 08-28-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew.

Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. CENTRALIZED JOB DEVELOPMENT PROJECT – Demonstration Project – Testing or experimentation is required - PIN# 8012005Y1000 – DUE 01-10-05 AT 11:00 A.M. – The Department of Small Business Services intends to enter into negotiations with Structured Employment Economic Development Corporation (SEEDCO)/N-PAC (the Not-for-Profit Assistance Corp.) to conduct a three-year centralized job development demonstration project.

In particular, a centralized job development project will supplement job development at DSBS' Workforce 1 Career Centers, creating additional opportunities to place customers by:

– Leveraging the City's marketing power and relationship established by providing the ability to help business customer of 311, SBS, and NYC Business Solutions Centers.
– Providing a single point of contract and tightening coordination to provide human resources solutions and candidates that better meet an employer's need.
– Increasing resources dedicated to job development and matching, enabling our system to more effectively service a larger segment of the market.
– Creating a platform with a Citywide focus that can assist employers with hiring needs throughout the five boroughs.

If the pilot is successful, SBS and the City will work with neighborhood stakeholders to institutionalize the program through a competitive procurement.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

CHARTER REVISION COMMISSION

■ PUBLIC MEETING

The 2005 Charter Revision Commission will hold a public meeting on January 19, 2005. The topic of this meeting will be administrative law reform. The Commission will hear expert testimony from Carol Robles-Roman, Deputy Mayor for Legal Affairs. Although administrative law reform will be the main subject of this public meeting, Commission business will not necessarily be limited to that topic. The Commission may also consider other topics related to its review of the City Charter. As this is a public meeting and not a public hearing, the public will have the opportunity to observe, but not to testify.
Time: 7:00 P.M.
Location: Spector Hall, 22 Reade Street, 1st Floor. Located between Broadway and Centre Street in Lower Manhattan.

Individuals requesting spoken or sign language interpreters for any of these public meetings should contact Commission staff member Brian Geller at (212) 788-2952 five (5) business days prior to the Public Meeting. TDD users should call Verizon Relay Services.

To contact the Commission by telephone, please call (212) 676-2060.
To contact the Commission by mail, please write to:

62-29
Special Use Regulations for Waterfront Access Plan BK-1

All Use Group 6 and 9 #uses# delineated in Section 62-212 (Waterfront-Enhancing Uses) not otherwise permitted, shall be a permitted use on any parcel identified in Waterfront Access Plan BK-1, provided that such use is limited to not more than 10,000 square feet of #floor area# per establishment; the total amount of #floor area# used for such #uses# does not exceed two per cent of the total amount of #floor area# permitted on such parcel; and such #uses# are located below the level of the first #story# ceiling of a #building# or are located on a #pier# or #platform#.

Additionally, Docks for water taxis (Use Group 6) and Docks or mooring facilities for non-commercial pleasure boats (Use Group 6) shall be a permitted use on any parcel identified in Waterfront Access Plan BK-1.

* * *

62-30
SPECIAL BULK REGULATIONS

All #zoning lots# within #waterfront blocks# shall comply with the #bulk# regulations of this Section. For the purposes of this Section, non-#waterfront blocks# included in Waterfront Access Plan BK-1 shall be considered to be #waterfront blocks#. Existing non-complying buildings or other structures shall be subject to the provisions of Article V (Non-Conforming Uses and non-complying Buildings).

62-35
Special Bulk Regulations within Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1 the Special Bulk Regulations of this section are further modified as delineated herein.

62-351
Special floor area, lot coverage and residential density distribution regulations

Within any parcel, and between any adjacent parcels which are under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined in (e) of the definition of a #zoning lot# in Section 12-10), identified in Waterfront Access Plan BK-1; the total #floor area# and #lot coverage# permitted pursuant to Section 62-32 and the residential density permitted pursuant to Section 23-22 may be located anywhere within such parcel or between such parcels without regard to #zoning lot lines# or district boundaries provided that such location of #floor area#, #lot coverage# or residential density complies with Section 62-31 and Section 62-34 as modified by Section 62-352.

62-352
Special Height and Setback Regulations

The provisions of Section 62-341 are modified as follows:

(a) Paragraph (c)(1) (Maximum base height) shall be modified in R6 Districts to permit a maximum base height of 65 feet or six #stories#, whichever is less.

(b) Paragraph (c)(2) (Maximum #building# height) shall not apply. In lieu thereof, the maximum #building# height in an R6 District shall be 65 feet or six #stories#, whichever is less, within 100 feet of Commercial Street, West Street, Dupont Street, Franklin Street and Kent Avenue. Beyond 100 feet of such streets and any other portions of an R6 District, the maximum #building# height in shall be 110 feet. In R8 Districts, the maximum #building# height shall be 210 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 200 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 210 feet to a maximum #building# height of 310 feet. Such maximum #building# heights of 110 feet, 210 feet and 310 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 110 feet, 210 feet or 310 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

(c) Paragraphs (c)(3) (#Floor area# distribution) and (c)(5) (Additional setback provisions for high #buildings#) shall not apply.

(d) Paragraph (c)(4) (Maximum #residential# tower size) shall not apply. In lieu thereof, each #residential story# of a #building# located entirely above a height of 85 feet shall not exceed a gross area of 8,100 square feet in an R6 District and 11,000 square feet in an R8 District.

(e) Paragraph (c)(6) shall not apply. In lieu thereof, the maximum length of any #story# of a #building# that exceeds a height of 65 feet in an R6 District or 85 feet in an R8 District shall not exceed 170 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above such heights. Any side of such rectangle shall not exceed 170 feet.

(f) Paragraph (c)(7) (Ground floor streetscape provisions) shall not apply. In lieu thereof, all off-street parking spaces located within 50 feet of a #street#, a #visual corridor# containing a private road, and a #shore public walkway#, #upland connection# or #supplemental public access area# and which are located on a #story# that is above the #base plane# shall be within facilities that are located behind #commercial#, #community facility# or #residential floor area# so that no portion of such parking facility, other than entrances and exits, is visible from such #streets#, #visual corridors# or publicly accessible open spaces. Such #floor area# shall have a minimum depth of 25 feet. Seventy percent of the surface area of the facade of a facility containing parking spaces which are not otherwise required to be behind such #floor area# shall be composed of the same materials as the facade of the #building# in which it is located.

(g) Any roof of a facility containing off-street parking spaces, not otherwise covered by a #building#, which is larger than 400 square feet shall be landscaped and accessible for the recreational use of the occupants of the building in which it is located. Hard surfaced areas shall not cover more than 60 percent of such roof area.

(h) The #streetwall# of a #building# on any #zoning lot# fronting on Commercial Street, West Street and Kent Avenue shall be located within eight feet of, and extend along 70 percent of such #street line# to a minimum height of 40 feet.

(i) All #developments#, conversions, and #enlargements# or #extensions# which increase the existing #floor area# by more than 10 percent, shall provide along the entire #street# length of the #zoning lot#, one tree for every 25 feet of # street# frontage. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals except where the Commissioner of Buildings determines that such tree planting would be unfeasible. Such trees shall be planted in accordance with the standards of the Department of Parks and Recreation.

Waterfront public access and visual corridors

* * *

5. for the #development# of a park, a site plan and all other applicable data have been submitted showing compliance with the provisions of Section 62-416 (Special regulations for zoning lots that include parks).

A certification pursuant to paragraph (c) of this section, for any parcel identified in Waterfront Access Plan BK-1, may provide for the phased implementation of all required public access areas provided that an amount of public access area proportionate to the amount of #floor area# being developed on the parcel is provided in each phase. Additionally, for any #development# located within 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 200 linear feet of #shore public walkway# and any adjacent supplemental area, one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway# and, shall have at least one other connection from such required portion of the #shore public walkway# to an adjacent #shore public walkway#, a #street# or another #upland connection#. For any #development# located entirely beyond 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 100 linear feet of #shore public walkway#, and one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway#.

A certificate pursuant to paragraphs (b) or (c) of this Section shall be granted on condition that an acceptable restrictive declaration is executed and filed pursuant to Section 62-14 (Requirements for Recordation).

62-812
Elements of a Waterfront Access Plan

A Waterfront Access Plan may:

1) on #zoning lots# where public access or #visual corridors# are required pursuant to the provisions of Sections 62-40 and 62-60, modify the size, configuration, location or design of required waterfront public access areas or #visual corridors# within certain designated areas in order to address local conditions, provided such plan does not impose a public access or #visual corridor# requirement on any #zoning lot# greater than would otherwise be required pursuant to the provisions of Sections 62-40 or 62-60. For the purpose of determining the amount of public access, the highest standard applicable to a zoning lot may be applied regardless of any specific #use# permitted or proposed for such #zoning lot#. Within Waterfront Access Plan BK-1, the public access and #visual corridor# requirements for any parcel located within the Waterfront Access Plan may be determined by aggregating the public access and #visual corridor# requirements of each zoning lot within the parcel and such aggregated requirements may be modified within such parcel without regard to #zoning lot lines#;

62-83
Borough of Brooklyn

The following Waterfront Access Plans are hereby established within the Borough of Brooklyn. All applicable provisions of Article VI, Chapter 2, remain in effect within the areas delineated by such plans, except as expressly set forth otherwise in the plans:

BK-1: Greenpoint/ Williamsburg, as set forth in Section 62-831.

* * *

62-831

Waterfront Access Plan BK-1:
Greenpoint-Williamsburg
Maps BK-1a through BK-1c in paragraph (g) of this Section show the boundaries of the area comprising the Greenpoint-Williamsburg Waterfront Access Plan and the location of certain features mandated or permitted by the Plan. The plan area has been divided into parcels consisting of tax blocks and lots and other lands as established on (date of adoption), as follows:

(3) The provisions of Section 62-623 (Supplemental public access areas) shall be inapplicable. In lieu thereof, the following provisions shall apply:

A required #supplemental public access area# shall be directly connected to either a #pier# public access area, an #upland connection# or a #shore public walkway# on either its landward or seaward side and its pedestrian circulation zone shall be contiguous with the adjacent pedestrian circulation zone.

2) A buffer zone shall only be required where a #supplemental public access area# adjoins a non-publicly accessible portion of a #zoning lot#, in which case its minimum width shall be 15 feet.

(4) #Street# Treatment

All #streets# adjacent to a #shore public walkway# or #supplemental public access area# shall be improved as a continuation of such #shore public walkway# or #supplemental public access area#, pursuant to the design requirements of paragraph (b) of this Section, inclusive.

(b) Specific design requirements for shore public walkway prototypes

The provisions of Section 62-63 (Specific Design Requirements for Public Access Prototypes) shall be inapplicable. In lieu thereof the following provisions for #shore public walkways# shall apply:

(1) Greenpoint-Williamsburg Shore Public Walkway-Prototype I

1. One circulation path with a minimum clear width of 12 feet is required.

The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path.

(ii) A minimum of one linear foot of seating shall be provided for every 100 square feet of #shore public walkway#. At least 60 percent of the required seating shall be landward of the required circulation path.

(iii) A minimum of 50 percent of the pedestrian circulation zone, excluding the required circulation path, shall be planting area. Rip rap, beach or other shoreline materials may be counted as an equivalent to planting area.

(iv) One shade tree is required for every 1,200 square feet of #shore public walkway# and one small or ornamental tree shall be required for every 750 square feet of #shore public walkway#. Trees may be located either in the pedestrian circulation zone landward of the required circulation path or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(2) Greenpoint-Williamsburg Shore Public Walkway-Prototype II

1) The provisions of 62-621 (Shore public walkways) shall apply except that a #shore public walkway# shall have a minimum 30 foot pedestrian circulation zone and a minimum 15 foot buffer zone.

2) One circulation path with a minimum clear width of 12 feet is required. The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path, in which case, the path shall be located within 20 feet of the shoreline. A secondary circulation path may be provided, with a minimum width of 10 feet. Connecting paths having a minimum width of ten feet shall be provided between the two circulation paths at intervals not to exceed 100 feet.

3) A minimum of one linear foot of seating shall be provided for every 70 square feet of #shore public walkway#.

4) A minimum of 70 percent of the pedestrian circulation zone, excluding the required circulation path and transition zones, shall be planting area. A minimum of 50 percent of this planting area must be improved as lawn according to the provisions of Section 62-675 (Planting and trees).

(v) One shade tree is required for every 1,900 square feet of #shore public walkway# and shall be located in the pedestrian circulation zone. In addition, one shade, small or ornamental tree shall be required for every 850 square feet of #shore public walkway# and may be located either in the pedestrian circulation zone or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(3) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Plaza

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 40 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 25 percent of the pedestrian circulation zone shall be planting area.

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(4) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Park

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 50 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 60 percent of the pedestrian circulation zone shall be planting area with no more than 30 percent of the planting area in raised planting beds. At least 35 percent of the #supplemental public access area# shall be lawn in compliance with the standards set forth in paragraph (c)(5) of Section 62-675 (Planting and trees).

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(c) Amenities

In parcels where #supplemental public access area# is required, no more than fifteen percent of public access area may be reduced if playgrounds and other amenities are provided in accordance with paragraphs (c)(1) and (c)(2) of this Section.

(1) Playgrounds

A playground shall have a minimum size of 1,000 square feet and, if applicable, there shall be a minimum of 400 feet between any two playground areas. For every five square feet of playground area provided, the total amount of required public access may be reduced by the rate of one square foot.

(2) Other amenities

A reduction in the total amount of required public access area shall be permitted according to the following table. The number and variety of such amenities shall be determined upon certification.

Amenity	Square feet reduction
Picnic table	22 sq. ft.
Chess table	20 sq. ft.
Telescope	10 sq. ft.
Art	50 - 200 sq. ft.
Fountain/water feature	50 - 200 sq. ft.
Shade structure	50 - 200 sq. ft.

(d) Public access design reference standards

Section 62-67 is hereby modified by the following provisions.

(1) Guardrails

The provisions of paragraph (a) Section 62-671 (Guardrails, gates and other protective barriers) shall be inapplicable. In lieu thereof the following provisions for guardrails shall apply:

(i) Guardrails shall be located within waterfront public access areas continuously along any bulkhead, stabilized shore or the water edges of a #pier# or #platform# that is located within 50 feet of a circulation path; and continuously along any grade level change of 30 inches or grader adjoining or within 10 feet of a circulation path. However, guardrails shall not be required landward of any rip rap, beach or any other shoreline material that is at least 10 feet wide. If any protective barrier is provided adjacent to any rip rap, beach or other shoreline material, they shall not exceed a height of 21 inches or shall consist of a bollard and chain device.

Guardrails shall not be required at access points to WD #uses# and #development# on #floating structures#. The minimal protective barrier at such locations shall be a swing gate, bollard and chain or similar device.

(ii) Guardrails shall comply with illustration A1, alternatively illustration A2 may be used in #piers#.

Illustration A1

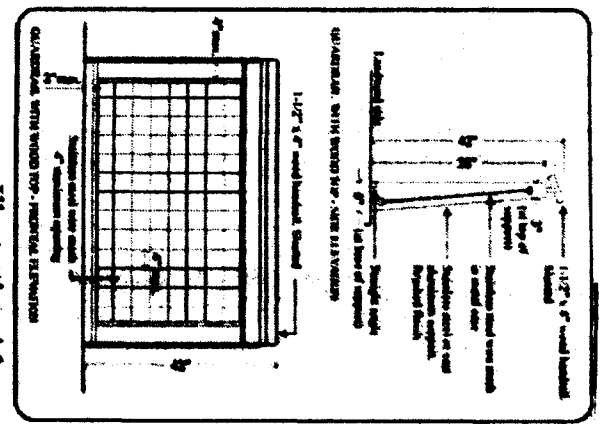

Illustration A2

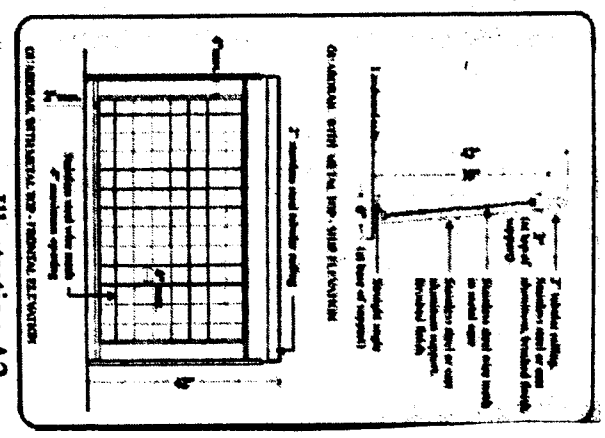

(Alternate for Piers)

All guardrail components and hardware shall be in stainless steel or cast aluminum, as applicable.

(2) Seating

In addition to the provisions of Section 62-672, at least fifty percent of the required seating along any #shore public walkway# or #supplemental public access area# shall comply with illustration B1 or B2 below.

Illustration B1

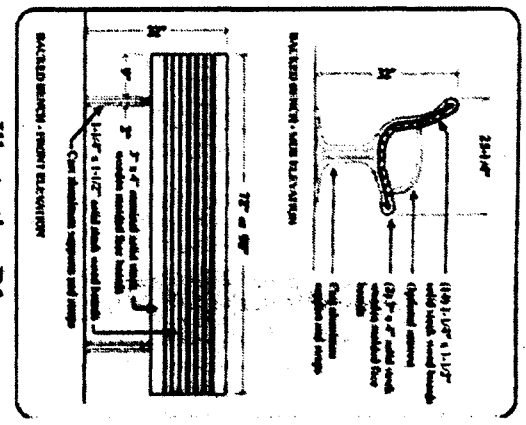

Illustration B2

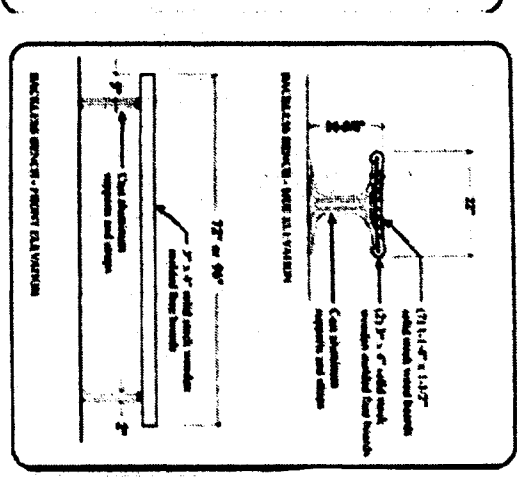

All wood boards shall be made of Redwood, Jarrah or Ipe, have eased edges and ends and be treated for external use without stain or varnish.

All supports and backstraps shall be 713 tenzalloy cast aluminum, with a rust inhibitor and a top coat finish of thermosetting polyester powdercoat that is ultra-violet, chip and flake resistant. Metal components shall have a light gray or aluminum color.

(3) Lighting

In addition to the provisions of Section 62-673, the required lighting along any public access area shall comply with illustration C1 below.

(4) Planting and trees

The provisions of paragraph (c)(6) (Container planting) of Section 62-675 shall be inapplicable, unless a structural or environmental necessity is demonstrated at the time of certification.

(5) Paving

In addition to the provisions of Section 62-676, the paving for the required clear path within the #shore public walkway# shall be gray. At least fifty percent of all other paved areas within the #shore public walkway# and #supplemental public access areas# shall be paved in the same color range.

(e) Special public access provisions by parcel

The provisions of Sections 62-41 (Requirements for waterfront public access) and 62-60 (DESIGN STANDARDS FOR THE WATERFRONT AREA) are modified at the following designated locations which are shown on Map BK-1b in paragraph (g) of this Section:

1. Parcels 1 and 2

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#
The requirements for #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is developed first shall provide an #upland connection# along the #lot line# between the two parcels. The width of the #upland connection# may be utilized by the developer of the remaining parcel in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels, according to the provisions of paragraph (f)(1) of this Section. If both parcels are developed concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

(3) Parcel 5a

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location indicated on Map BK-1b in paragraph (g) of this Section.

The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(iii) #Supplemental public access area#

The #supplemental public access area# shall abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. The #upland connection#, however, may cut across the #supplemental public access area# provided that no area shall be less than 5,000 square feet. All #supplemental public access areas# shall have a minimum width to depth ratio of 1.0 to 1.0 and a maximum width to depth ratio of 2.0 to 1.0. In no event shall the #supplemental public access area# be deeper than 100 feet. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

Alternatively, a portion of the required #supplemental public access area# that is a minimum of 5,000 square feet may abut the #shore public walkway# continuously along the longest side provided that it also abuts a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-641, but shall not be counted towards satisfying the required amount of public access area on the site. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(4) Parcel 5b

#Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(5) Parcel 5c

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

Two #upland connections# shall be provided between West Street and the #shore public walkway#, one located within the prolongation of the #street lines# of Eagle Street, the other located within the prolongation of the #street lines# of Green Street.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided on Parcel 5c.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the pedestrian circulation zone of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(6) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5 and be subject to the following requirements:

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

One #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location indicated on Map BK-1b in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.

Two #upland connections# shall be provided between West Street and the #shore public walkway#, each located within the prolongation of the #street lines# of Eagle Street and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5 and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

Alternatively, a portion of the required #supplemental public access area# shall be located within the area bounded by the western prolongation of the north #street line# of Dupont Street, the #shore public walkway#, the northern prolongation of the eastern boundary of Parcel 6 and Parcel 6. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section

(7) Parcel 7

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply, except that any portion of the required #shore public walkway# where the distance between the shoreline and the boundaries of Parcel 7 is less than 17 feet shall be improved entirely as clear path.

(ii) #Supplemental public access area#

The requirement for a #supplemental public access area# on Parcel 7 is waived.

(8) Parcels 9, 10 and 11

(i) #Shore public walkway#

The requirements for Prototype II described in paragraph (b)(2) of this Section shall apply.

(ii) #Supplemental public access area#

For each parcel, the #supplemental public access area# requirements shall be provided to widen the pedestrian circulation zone of the #shore public walkway#, evenly distributed along the entire length of such #shore public walkway#.

(9) Parcel 13

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Milton Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be bounded by the southern #street line# of Greenpoint Avenue, the #shore public walkway# and the northern boundary of the required Milton Street #upland connection#. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(10) Parcel 14

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this

Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Calyer Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be distributed evenly along the #shore public walkway# between the southern boundary of the required Calyer Street #upland connection# and the prolongation of the northern #street line# of Quay Street. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(11) Parcel 15

An #upland connection# shall be provided within the prolongation of the #street lines# of West Street, connecting QuayStreet to Parcel 20.

(12) Parcels 19, 20, 21 and 22

Parcels 19, 20, 21 and 22 shall be designated as public parks as of (date of adoption).

(13) Parcel 24

Prototype I described in paragraph (b)(1) of this Section shall apply.

(14) Parcel 25

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of North 6th Street.

(iii) #Supplemental public access area#
Two #supplemental public access areas# shall be provided.

One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet from the southern #street line# of North 7th Street. The entire #supplemental public access area#, excluding the required buffer, shall be developed as clear circulation path.

A minimum of one linear foot of seating shall be required for every 40 square feet of pedestrian circulation zone and shall be located in the required buffer zone. Four trees shall be required, at least two of which are shade trees. Small or ornamental trees located within the buffer zone shall not be counted toward the minimum requirements.

The remaining required #supplemental public access area# shall be located either on the #pier# or parallel to the #shore public walkway#. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the North 6th Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(15) Parcel 26

(i) #Shore public walkway#

The requirements of Section 62-411 (Requirements for shore public walkways) shall apply, except that the minimum required width of the #shore public walkway# shall be reduced to 34 feet between North 5th Street and the northern edge of the required #upland connection# at the prolongation of North 4th Street. The quantity of public access eliminated from the #shore public walkway# as a result of this width reduction shall be located in the triangle formed between the #shore public walkway#, the southern #street line# of the North 4th Street #upland connection# and the bulkhead line. The entirety of the #shore public walkway# shall be improved pursuant to the requirements for Prototype I described in paragraph (b)(1) of this Section.

(ii) #Upland connections#

An #upland connection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street.

(16) Parcel 27

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure#, but shall not need to be wider than 40 feet.

Notwithstanding the requirements of Paragraph (c) of Section 62-62 (General Requirements for Public Access), the #shore public walkway# may be located within the #building or other structure#, and the obstructions permitted by Section 62-626, paragraph (a), shall include any supporting structural elements of the #building or other structure# and its related appurtenances. Additionally, the #shore public walkway# shall have a minimum clear path of 12 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#

The requirements for #supplemental public access# shall be waived.

(f) Special visual corridor provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan are shown on Map BK-1c in paragraph (g) of this Section and shall be as follows:

(1) Parcels 3 and 4

A #visual corridor# shall be provided through Parcels 3 and 4 to the pierhead line within a flexible area along the #lot lines# between them.

Whichever parcel develops second shall complete the required clearance to comply with the #visual corridor# requirements along the #upland connection# already provided in accordance with the requirements of paragraph (e)(2)(ii) of this Section. If both parcels are developed concurrently, then the requirements can be divided equally along the #lot line# between the parcels.

(2) Parcel 5a

A #visual corridor# shall be provided through Parcel 5a to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(3) Parcel 5b

Two #visual corridors# shall be provided through Parcel 5b to the pierhead line as the prolongation of the #street lines# of West Street and Dupont Street, respectively.

(4) Parcel 5c

(i) Two #visual corridors# shall be provided through Parcel 5c to the pierhead line as the prolongation of the #street lines# of Eagle Street and Green Street.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be permitted obstructions along the #visual corridor# along Green Street.

(5) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5, subject to the following #visual corridors# requirements:

(i) One #visual corridor# shall be provided through Parcel 5 to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.
Four #visual corridors# shall be provided through Parcel 5 to the pierhead line, each located as the prolongation of the #street lines# of West Street, Dupont Street, Eagle Street and Green Street, respectively.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be allowed along the #visual corridor# along Green Street.

(6) Parcel 13

Two #visual corridors# shall be provided through Parcel 13 to the pierhead line as the prolongation of the #street lines# of Milton Street and Oak Street, respectively.

(7) Parcel 14

A #visual corridor# shall be provided through Parcel 14 as the prolongation of the #street lines# of Oak Street.

(8) Parcel 15

A #visual corridor# shall be provided though Parcel 15 as the prolongation of the #stret lines# of West Street.

(9) Parcel 25

A #visual corridor# shall be provided through Parcel 25 as the prolongation of the #street lines# of North 6th Street.

INCLUSIONARY HOUSING

23-91
General Provisions

~~**R10**~~

~~In the district indicated, a~~An Inclusionary Housing program is established in those areas designated in Section 23-92 (Applicability) to preserve and to promote a mixture of low to upper income housing within neighborhoods experiencing a shift from mixed to upper income housing and thus to promote the general welfare. The requirements of this program are set forth in Sections 23-90 through 23-~~04~~95.

~~23-92~~
Applicability

~~23-921~~
R10 Districts

The Inclusionary Housing Program shall apply in R10 Districts.

~~23-922~~
Community District 1, Borough of Brooklyn

The Inclusionary Housing Program shall apply in the following areas of Community District 1 in the Borough of Brooklyn located north of the Williamsburg Bridge, Washington Plaza, Borinquen Place and Grand Street:

(a) Waterfront Access Plan BK-1, as set forth in Section 62-352;

(b) all #Special Mixed Use Districts#;

(c) all R6A, R6B and R7A Districts; and

(d) the following R6 areas:

(1) the #block# bounded by Havemeyer Street, North Sixth Street, Metropolitan Avenue and North Fifth Street;

(2) the #block# bounded by Roebling Street, North Fifth Street, Havemeyer Street and Metropolitan Avenue;

(3) those #blocks# bounded by Wythe Avenue, Grand Street, Berry Street and South Third Street;

(4) those #blocks# and portions of #blocks# bounded by Bedford Avenue, North 1st Street, Driggs Street, Fillmore Place, Roebling Street, and a line coincident with the centerline of the long dimension of the #blocks# bounded by Bedford Avenue, Grand Street, Roebling Street and South First Street; and

(5) that portion of the #block# bounded by Franklin Street, Huron Street, Manhattan Avenue and India Street that is within 100 feet of Franklin Street and 100 feet of India Street.

~~23-92~~ ~~23-93~~
Definitions

For the purposes of the Inclusionary Housing program, matter in italics is defined either in Section 12-10 (DEFINITIONS) or in this Section.

* * *

Fair rent

* * *

At initial occupancy of any #lower income housing#, no portion of the #fair rents# shall be for the payment of the principal or interest on any debt, and the #lower income housing# shall not secure any debt and shall be free of all liens, except liens for real estate taxes, water charges and sewer rents and other governmental charges for which payment is not yet due. #Fair rents# may be used for the payment of principal or interest of debt only if such debt was incurred after the date of initial occupancy and is for a capital improvement to such #lower income housing# other than those capital improvements set forth in the #lower income housing plan#.

In Community District 1, Borough of Brooklyn, at initial occupancy of any #lower income housing#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95(c) o this Resolution, and provided that the lender agrees to enter into a written agreement which subordinates such debt.

Lower income household

A "lower income household" is a #family# having an income equal to or less than the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U.S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.
In Community District 1, Borough of Brooklyn, for the purposes of Section 23-953 (Preservation option), #lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City and State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with U. S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.

Lower income housing

"Lower income housing" are #standard units# occupied or to be occupied by #lower income households#. #Lower income housing# shall not include #standard units# assisted under city, state or federal programs, except where such assistance is in the form of:

(e) real estate tax abatements and exemptions which are specifically limited to the #lower income housing#; or

(f) operating assistance that the Commissioner of the Department of Housing Preservation and Development determines will be used to enable households with incomes of not more than 62.5 percent of the "80 Percent of SMSA Limits" to afford such #lower income housing#.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall include #standard units# assisted under city, state or federal programs.

Lower income housing plan

The "lower income housing plan", is the plan accepted by the Commissioner of Housing Preservation and Development, which sets forth the developer's plans for creating and maintaining the specified #lower income housing# pursuant to this program, including but not limited to, choice of #administering agent#, tenant selection, rent levels in the #lower income housing# and income verification of tenants pursuant to Section ~~23-04~~ 23-95 paragraphs (b), (c) and (d) of this Resolution.

Lower Income Housing Requirements

~~R10~~

To qualify for the increased #floor area#, #compensated developments# must provide #lower income housing# for the life of the increased #floor area# in the #compensated development# pursuant to one or more of the options listed in Section ~~23-941, 23-942 and 23-943~~, 23-951, 23-952 and 23-953 and such #lower income housing# must meet each of the requirements set forth below.

* * *

~~23-941~~ 23-951
On-site new construction option

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(a) The #lower income housing# shall be located in newly constructed #floor area# in the #compensated development#. The #lower income housing# shall be maintained and leased to #lower income households# for the life of the increased #floor area#.

(b) #Dwelling units# designated as #lower income housing# shall be distributed throughout the #development#. No #story# shall contain more than two such units unless at least 80 percent of all #stories# contain two such units. The size of the designated #lower income housing# units shall at least be distributed among the various size units in proportion to the total distribution of unit size within the #building# in the following categories of unit sizes:

under 600 net square feet
600 - 749 net square feet
750 - 949 net square feet
950 - 1149 net square feet
1150 or more net square feet

In Community District 1, Borough of Brooklyn, the requirements of this paragraph (b) may be waived by the Commissioner of Housing Preservation and Development to facilitate the #development# of #lower income housing#.

~~23-942~~ 23-952
Substantial rehabilitation and off-site new construction options

To qualify for one or more of these options, the designated #lower income housing# shall meet the following requirements:

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#.

For the new construction option the #lower income housing# shall be in a new #building#. For the substantial rehabilitation options, the #lower income housing# shall be in an existing #building# in which, prior to the submission of the #lower income housing plan# pursuant to this Section, any #residential# portion not in public ownership had been entirely vacant for not less than three years.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall be located only within such Community District, and the administering agent shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

~~23-943~~ 23-953
Preservation option

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#.

The #lower income housing# shall be in an existing occupied #residential# or #mixed building#. Only #standard units# occupied by #lower income households# shall be #lower income housing#. For each #standard unit# designated as #lower income housing# the #administering agent# shall verify the income of the household in tenancy.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall be located only within such Community District, and the administering agent shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

62-35
Special Bulk Regulations within Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1, the special #bulk# regulations of this Chapter are further modified as set forth in this Section 62-35, inclusive.

62-351
Special floor area regulations

(a) Maximum permited #floor area ratio#

In R6 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# shall be 2.43. In R8 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# shall be 5.5. In R6 and R8 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# may be increased for #developments# and #enlargements# that provide lower income housing pursuant to Section 62-352.

(b) #Buildings# used for #accessory# off-#street# parking spaces

The #floor area# of a #building# shall not include floor space used for #accessory# off-street parking spaces provided in any #story# located not more than 33 feet above the height of the #base plane#.

62-352
Inclusionary Housing

The provisions of Section 23-90 (INCLUSIONARY HOUSING) shall apply in R6 and R8 Districts within Waterfront Access Plan BK-1 as modified in this Section.

(a) Definitions

Fair rent

At initial occupancy of #lower income housing# that is occupied by a #moderate income household# or a #middle income household# as defined in this Section, "fair rent" is an annual rent for each such housing equal to not more than either the public assistance shelter allowance if the #family# receives public assistance, or 30 percent of the annual income of the tenant of such housing (the "30 Percent Standard").

Upon renewal of a lease for such an existing tenant in #lower income housing#, #fair rent# (the "Rent Stabilization Standard") is not more than the then-current #fair rent# for such housing plus a percentage increase equal to the percentage increase for a renewal lease of the same term permitted by the Rent Guidelines Board for units subject to the rent stabilization law.

After initial occupancy, upon rental of #lower income housing# to a new tenant, #fair rent# is not more than the higher of:

(1) the then-currently applicable "30 Percent Standard"; or

(2) the Rent Stabilization Standard.

In order for rent to be #fair rent#, the following must also apply:

There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income, #moderate income# or #middle income household# responsible for the payment of utilities as long as the sum of:

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment do not exceed 30 percent of said #lower income#, #moderate income# or #middle income household's# income.

At initial occupancy of any #lower income housing# occupied by a #moderate income# or #middle income household#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95(c) o this Resolution, and provided that the lender agrees to enter into a written agreement which subordinates such debt.

Lower income housing
For the purposes of this Section, "lower income housing" shall include #standard units# occupied or to be occupied by #lower income#, #moderate income# or #middle income households#.

Moderate income household

For the purposes of this Section 62-352, a "moderate income household" is a #family# having an income equal to or less than the following proportion:

125
80

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

Middle income household

For the purposes of this Section 62-352, a "middle income household" is a #family# having an income equal to or less than the following proportion:

175
80

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

(b) Floor area increase

The maximum permitted #floor area ratio# on a #zoning lot# containing #residences# may be increased in R6 Districts from 2.43 to 2.75, and in R8 Districts from 5.5 to 6.5, provided that:

(1) at least 15% of the total #floor area# on the #zoning lot# is occupied by #lower income households#, or

(2) at least 10% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 10% of the total #floor area# on the #zoning lot# is occupied by #moderate income households#, or

(3) at least 10% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 15% of the total #floor area# on the #zoning lot# is occupied by #middle income households#.

(c) Lower Income Housing Requirements

#Developments# that increase #floor area# in accordance with the provisions of this Section shall comply with the lower income housing requirements of Section 23-95, except as modified in this paragraph (c).

(1) The provisions of Section 23-95(b) shall apply, except that in addition, incoming households of #standard units# in #lower income housing# may be #moderate# and #middle income households#, and sublessees of a #moderate# or #middle income household# may also be a #moderate# or #middle income household#.

Furthermore, on and after the issuance of a certificate of occupancy for #lower income housing#, the #administering agent# shall have a duty to rent such housing to #lower#, #moderate# or #middle income households#, as provided in this Section.

This duty to rent shall be satisfied by the #administering agent#, if such agent has in fact rented all such units to #lower#, #moderate# or #middle income households#, as provided in this Section, or has, in good faith, made a continuing public offer to rent such units at rents no greater than the rents authorized by this program or otherwise at law.

(2) The provisions of Section 23-95(d) shall apply, except that prior to renting #lower income housing#, the #administering agent# shall verify the income of each household to occupy such housing, to assure that the households are #lower#, #moderate# or #middle income households# as provided by this Section. The #administering agent# shall submit an affidavit to the Commissioner of Housing Preservation and Development upon initial occupancy and annually thereafter attesting that all incoming occupants of #lower income housing# are #lower#, #moderate# or #middle income households# as required by the provisions of this Section.

(3) Section 23-951(a) shall apply, except that the #lower income housing# shall be maintained and leased to #lower#, #moderate# or #middle income households#, as provided in this Section, for the life of the increased #floor area#.

62-353
Special floor area, lot coverage and residential density distribution regulations

Within any parcel identified in Section 62-381, and with respect to any such parcels which are adjacent to each other and which are under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined in (e) of the definition of a #zoning lot# in Section 12-10) or with respect to which each party in interest (as defined in (f)(4) of the definition of a #zoning lot# in Section 12-10) has executed a declaration declaring that the properties are to be develop as a single parcel or has waived its right to execute such declaration, the total #floor area# and #lot coverage# permitted pursuant to Section 62-351 or 62-352 and the residential density permitted pursuant to Section 23-22 may be located anywhere within such parcel or between such parcels without regard to #zoning lot lines# or district boundaries provided that such location of #floor area#, #lot coverage# or residential density complies with Section 62-31 and Section 62-34 as modified by Section 62-354.

62-354
Special Height and Setback Regulations

The provisions of Section 62-341 are modified as follows:

(a) Paragraph (c)(1) (Maximum base height) shall be modified in R6 Districts to permit a maximum base height of 65 feet or six #stories#, whichever is less. However, for #buildings or other structure# located on a #zoning lot# with more than 100 feet of frontage on a #street# in R6 Districts, not less than 20 percent of such frontage shall exceed a maximum base height of 55 feet or 5 #stories#, whichever is less.

(b) Paragraph (c)(2) (Maximum #building# height) shall not apply. In lieu thereof, the maximum #building# height in an R6 District shall be 65 feet or six #stories#, whichever is less, within 100 feet of Commercial Street, West Street, Dupont Street, Franklin Street and Kent Avenue. Beyond 100 feet of such #streets# and any other portions of an R6 District, the maximum #building# height in shall be 110 feet. In R8 Districts, the maximum #building# height shall be 210 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 200 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 210 feet to a maximum #building# height of 310 feet. Such maximum #building# heights of 110 feet, 210 feet and 310 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 110 feet, 210 feet or 310 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

For #developments# that provide #lower income housing# pursuant to Section 62- 352, the increased #floor area# permitted for such #developments# may exceed the height limits of an R8 District set forth in this paragraph (b) provided that the maximum building height shall be 260 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 250 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 260 feet to a maximum #building# height of 360 feet. Such maximum #building# heights of 260 feet and 360 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 260 feet or 360 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

(c) Paragraphs (c)(3) (#Floor area# distribution) and (c)(5) (Additional setback provisions for high #buildings#) shall not apply.

(d) Paragraph (c)(4) (Maximum #residential# tower size) shall not apply. In lieu thereof, each #residential story# of a #building# located entirely above a height of 85 feet shall not exceed a gross area of 8,100 square feet in an R6 District and 11,000 square feet in an R8 District. If such #residential story# of a #building# is located partially in an R6 District and partially in an R8 District, it shall not exceed a gross area of 11,000 square feet and any portion located in an R6 district shall not exceed a gross area of 8,100 square feet.

(e) Paragraph (c)(6) shall not apply. In lieu thereof, the maximum length of any #story# of a #building# that exceeds a height of 85 feet shall not exceed 170 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above such heights. Any side of such rectangle shall not exceed 170 feet.

(f) Paragraph (c)(7) (Ground floor streetscape provisions) shall not apply. In lieu thereof, all off-street parking spaces located within 50 feet of a #street#, a #visual corridor# containing a private road, and a #shore public walkway#, #upland connection# or #supplemental public access area# and which are located on a #story# that is above the #base plane# shall be within facilities that are located behind #commercial#, #community facility# or #residential# floor space so that no portion of such parking facility, other than entrances and exits, is visible from such #streets#, #visual corridors# or publicly accessible open spaces. Such floor space shall have a minimum depth of 25 feet. Up to 5 percent of such floor space may be used for mechanical equipment provided that no floor space used for mechanical equipment is located within 15 feet of the #street wall# of the #building# below a height of 15 feet above the #base plane#, and that no exhaust vents are located on the street wall of the #building# below a height of 15 feet above the #base plane#. The remainder of such floor space shall be used for #commercial#, #community facility# or #residential floor area#. Seventy percent of the surface area of the facade of a facility containing parking spaces which are not otherwise required to be behind such #floor area# shall be composed of the same materials as the facade of the #building# in which it is located.

(g) Any roof of a facility containing off-street parking spaces, not otherwise covered by a #building#, which is larger than 400 square feet shall be landscaped. Up to 5 percent of such roof area may be used for mechanical equipment provided that such mechanical equipment is screened from view by a fence which is at least 75 percent opaque or by at least 3 feet of dense planting. Up to 25 percent of such roof area may be accessible solely from an adjacent #dwelling unit# and the remaining roof area shall be accessible for the recreational use of the occupants of the building in which it is located. Hard surfaced areas shall not cover more than 60 percent of such roof area.

(h) At least 70 percent of the width of the #streetwall# of a #building# or #buildings# fronting on a portion of a #street#, #upland connection# or #visual corridor# which is not adjacent to a #shore public walkway# or #supplemental public access area# shall be located within eight feet of such #street line# and extend to a minimum height of 30 feet.

(i) All #developments#, conversions, and #enlargements# or #extensions# which increase the existing #floor area# by more than 10 percent, shall provide along the entire #street# length of the #zoning lot#, one tree for every 25 feet of # street# frontage. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals except where the Department of Parks and Recreation determines that such tree planting would be unfeasible. Such trees shall be planted in accordance with the standards of the Department of Parks and Recreation.

5. for the #development# of a park, a site plan and all other applicable data have been submitted showing compliance with the provisions of Section 62-416 (Special regulations for zoning lots that include parks).

A certification pursuant to paragraph (c) of this section, for any parcel identified in Waterfront Access Plan BK-1, may provide for the phased implementation of all required public access areas provided that an amount of public access area proportionate to the amount of #floor area# being developed on the parcel is provided in each phase. Additionally, for any #development# located within 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 200 linear feet of #shore public walkway# and any adjacent #supplemental public access area# located between such #development# and the required #shore public walkway#, one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway# and, shall have at least one other connection from such required portion of the #shore public walkway# to an adjacent #shore public walkway#, a #street# or another #upland connection#. For any #development# located entirely beyond 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 100 linear feet of #shore public walkway#, and one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway#. However, no public access area needs to be provided for a phase consisting of a #development # in which all included #residential# units are affordable units for a #lower income household# as defined in section 23-93 or a #moderate income household# or a #middle income household# as defined in section 62-352.

A certificate pursuant to paragraphs (b) or (c) of this Section shall be granted on condition that an acceptable restrictive declaration is executed and filed pursuant to Section 62-14 (Requirements for Recordation).

62-812
Elements of a Waterfront Access Plan

A Waterfront Access Plan may:

1) on #zoning lots# where public access or #visual corridors# are required pursuant to the provisions of Sections 62-40 and 62-60, modify the size, configuration, location or design of required waterfront public access areas or #visual corridors# within certain designated areas in order to address local conditions, provided such plan does not impose a public access or #visual corridor# requirement on any #zoning lot# greater than would otherwise be required pursuant to the provisions of Sections 62-40 or 62-60. For the purpose of determining the amount of public access, the highest standard applicable to a zoning lot may be applied regardless of any specific #use# permitted or proposed for such #zoning lot#. Within Waterfront Access Plan BK-1, the public access and #visual corridor# requirements for any parcel located within the Waterfront Access Plan may be determined by aggregating the public access and #visual corridor# requirements of each zoning lot within the parcel and such aggregated requirements may be modified within such parcel without regard to #zoning lot lines#;

(a) Area wide modifications:

The following provisions shall apply to all #developments# required to provide public access, pursuant to Section 62-40 (REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AND VISUAL CORRIDORS):

(1) Paragraph (c) of Section 62-412 (Requirements for public access on piers) is applicable, except that a minimum of 15 feet are required along each water edge.

(2) The provisions of Section 62-61 (Design Options and Methodology) shall be inapplicable. In lieu thereof, the following provisions shall apply:

2 All required public access areas and #visual corridors# shall comply with the general requirements set forth in Section 62-62 (General Requirements for Public Access Areas) and the specific requirements as set forth in this Section.

(ii) #Upland connections#, #visual corridors#, public access areas on #piers# and public access areas in conjunction with #floating structures# shall comply with the design requirements set forth in Sections 62-64 through 62-66, inclusive.

(iii) Public access areas are subject to the design reference standards set forth in Section 62-67 and paragraph (d) of this Section.

(3) The provisions of Section 62-623 (Supplemental public access areas) shall be inapplicable. In lieu thereof, the following provisions shall apply:

c) A required #supplemental public access area# shall be directly connected to either a #pier# public access area, an #upland connection# or a #shore public walkway# on either its landward or seaward side and its pedestrian circulation zone shall be contiguous with the adjacent pedestrian circulation zone.

d) A buffer zone shall only be required where a #supplemental public access area# adjoins a non-publicly accessible portion of a #zoning lot#, in which case its minimum width shall be 15 feet.

(4) #Street# Treatment

All #streets# adjacent to a #shore public walkway# or #supplemental public access area# shall be improved as a continuation of such #shore public walkway# or #supplemental public access area#, pursuant to the design requirements of paragraph (b) of this Section, inclusive.

(b) Specific design requirements for Public Access Prototypes

The provisions of Section 62-63 (Specific Design Requirements for Public Access Prototypes) shall be inapplicable. In lieu thereof the following provisions for #shore public walkways# and #supplemental public access areas# shall apply:

(1) Greenpoint-Williamsburg Shore Public Walkway-Prototype I

1. One circulation path with a minimum clear width of 12 feet is required. The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path.

(ii) A minimum of one linear foot of seating shall be provided for every 100 square feet of #shore public walkway#. At least 60 percent of the required seating shall be landward of the required circulation path.

(iii) A minimum of 50 percent of the pedestrian circulation zone, excluding the required circulation path, shall be planting area. Rip rap, beach or other shoreline materials may be counted as an equivalent to planting area.

(iv) One shade tree is required for every 1,200 square feet of #shore public walkway# and one small or ornamental tree shall be required for every 750 square feet of #shore public walkway#. Trees may be located either in the pedestrian circulation zone landward of the required circulation path or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(2) Greenpoint-Williamsburg Shore Public Walkway-Prototype II

1) The provisions of 62-621 (Shore public walkways) shall apply except that a #shore public walkway# shall have a minimum 30 foot pedestrian circulation zone and a minimum 15 foot buffer zone.

2) One circulation path with a minimum clear width of 12 feet is required. The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path, in which case, the path shall be located within 20 feet of the shoreline. A secondary circulation path may be provided, with a minimum width of 10 feet. Connecting paths having a minimum width of ten feet shall be provided between the two circulation paths at intervals not to exceed 100 feet.

3) A minimum of one linear foot of seating shall be provided for every 70 square feet of #shore public walkway#.

4) A minimum of 70 percent of the pedestrian circulation zone, excluding the required circulation path shall be planting area. A minimum of 50 percent of this planting area must be improved as lawn according to the provisions of Section 62-675 (Planting and trees).

(v) One shade tree is required for every 1,900 square feet of #shore public walkway# and shall be located in the pedestrian circulation zone. In addition, one shade, small or ornamental tree shall be required for every 850 square feet of #shore public walkway# and may be located either in the pedestrian circulation zone or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(3) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Plaza

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 40 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 25 percent of the pedestrian circulation zone shall be planting area.

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(4) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Park

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 50 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 60 percent of the pedestrian circulation zone shall be planting area with no more than 30 percent of the planting area in raised planting beds. At least 35 percent of the #supplemental public access area# shall be lawn in compliance with the standards set forth in paragraph (c)(5) of Section 62-675 (Planting and trees).

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(c) Amenities

In parcels where #supplemental public access area# is required, no more than fifteen percent of public access area may be reduced if playgrounds and other amenities are provided in accordance with the following provisions.

(1) Playgrounds

A playground shall have a minimum size of 1,000 square feet and, if applicable, there shall be a minimum of 400 feet between any two playground areas. For every five square feet of playground area provided, the total amount of required public access may be reduced by the rate of one square foot.

(2) Other amenities

A reduction in the total amount of required public access area shall be permitted according to the following table.

Amenity	Square feet reduction
Picnic table	22 sq. ft. per table, to a max. of 200 sq. ft.
Chess table	20 sq. ft. per table,to a max. of 200 sq. ft.
Telescope	10 sq. ft. per telescope, to a max. of 50 sq. ft.
Fountain/water feature	150 sq. ft. per feature, to a max. of 300 sq. ft.
Shade structure	150 sq. ft. perstructure, to a max. of 300 sq. ft.

(d) Public access design reference standards

Section 62-67 is hereby modified by the following provisions.

(1) Guardrails

The provisions of paragraph (a) Section 62-671 (Guardrails, gates and other protective barriers) shall be inapplicable. In lieu thereof the following provisions for guardrails shall apply:

(i) Guardrails shall be located within waterfront public access areas continuously along any bulkhead, stabilized shore or the water edges of a #pier# or #platform# that is located within 50 feet of a circulation path; and continuously along any grade level change of 30 inches or greater adjoining or within 10 feet of a circulation path. However, guardrails shall not be required landward of any rip rap, beach or any other shoreline material that is at least 10 feet wide. If any protective barrier is provided adjacent to any rip rap, beach or other shoreline material, they shall not exceed a height of 21 inches or shall consist of a bollard and chain device.

Guardrails shall not be required at access points to WD #uses# and #development# on #floating structures#. The minimal protective barrier at such locations shall be a swing gate, bollard and chain or similar device.

(ii) Guardrails shall comply with illustration A1; alternatively, illustration A2 may be used in #piers#.

All guardrail components and hardware shall be in stainless steel or cast aluminum, as applicable.

Illustration A1

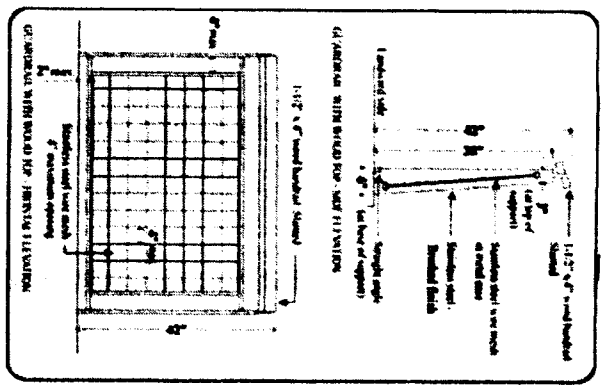

Illustration A2

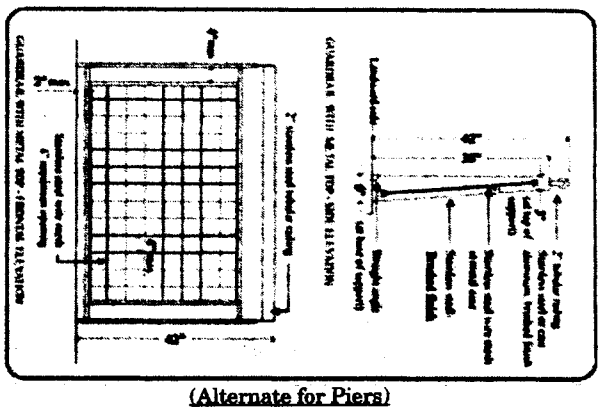

(Alternate for Piers)

(2) Seating

In addition to the provisions of Section 62-672, at least fifty percent of the required seating along any #shore public walkway# or #supplemental public access area# shall comply with illustration B1 or B2 below.

Illustration B1

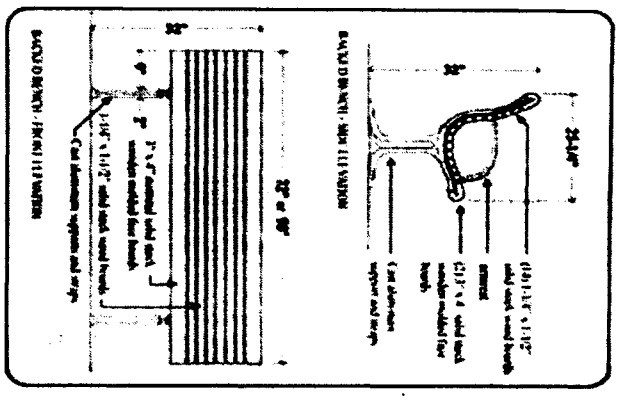

Illustration B2

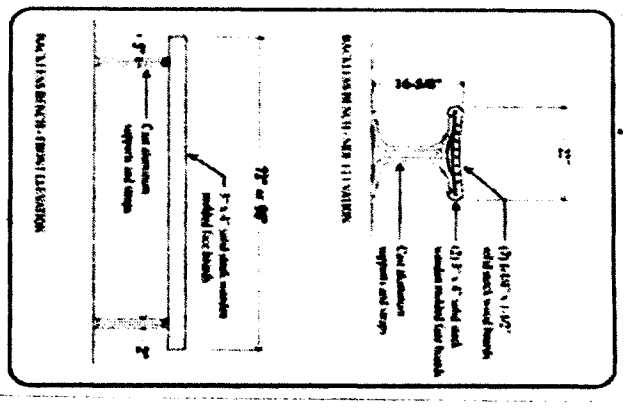

All wood boards shall be made of Redwood, Jarrah or Ipe, have eased edges and ends and be treated for external use without stain or varnish.

All supports and backstraps shall be 713 tenzalloy cast aluminum, with a rust inhibitor and a top coat finish of thermosetting polyester powdercoat that is ultra-violet, chip and flake resistant. Metal components shall have a light gray or aluminum color.

(3) Lighting

In addition to the provisions of Section 62-673, the required lighting along any public access area shall comply with illustration C1 below.

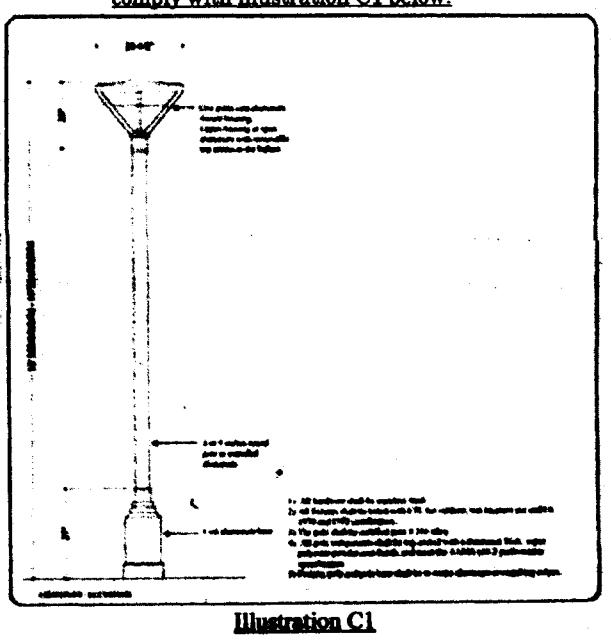

Illustration C1

(4) Planting and trees

The provisions of paragraph (c)(6) (Container planting) of Section 62-675 shall be inapplicable, unless a structural or environmental necessity is demonstrated at the time of certification.

(5) Paving

In addition to the provisions of Section 62-676, the paving for the required clear path within the #shore public walkway# shall be gray. At least fifty percent of all other paved areas within the #shore public walkway# and #supplemental public access areas# shall be paved in the same color range.

(e) Special public access provisions by parcel

The provisions of Sections 62-41 (Requirements for waterfront public access) and 62-60 (DESIGN STANDARDS FOR THE WATERFRONT AREA) are modified at the following designated locations which are shown on Map BK-1b in paragraph (g) of this Section:

1. Parcels 1 and 2

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#
The requirements for #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is developed first shall provide an #upland connection# along the #lot line# between the two parcels. The width of the #upland connection# may be utilized by the developer of the remaining parcel in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels, according to the provisions of paragraph (f)(1) of this Section. If both parcels are developed concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

(3) Parcel 5a

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (g) of this Section.

The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot lines of Parcels 5b and 6.

(iii) #Supplemental public access area#

The #supplemental public access area# shall abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. The #upland connection#, however, may cut across the #supplemental public access area# provided that no area shall be less than 5,000 square feet. All #supplemental public access areas# shall have a minimum width to depth ratio of 1.0 to 1.0 and a maximum width to depth ratio of 2.0 to 1.0. In no event shall the #supplemental public access area# be deeper than 100 feet. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

Alternatively, a portion of the required #supplemental public access area# that is a minimum of 5,000 square feet may abut the #shore public walkway# continuously along the longest side provided that it also abuts a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-641, but shall not be counted towards satisfying the required amount of public access area on the site. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(4) Parcel 5b

#Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(5) Parcel 5c

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

Two #upland connections# shall be provided between West Street and the #shore public walkway#, one each located within the prolongation of the #street lines# of Eagle Street, and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided on Parcel 5c.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the pedestrian circulation zone of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(6) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5 and be subject to the following requirements:

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

One #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (g) of this Section. The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.

Two #upland connections# shall be provided between West Street and the #shore public walkway#, each located within the prolongation of the #street lines# of Eagle Street and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5 and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining of the required #supplemental public access area# shall be located within the area bounded by the western prolongation of the north #street line# of Dupont Street, the #shore public walkway#, the northern prolongation of the eastern boundary of Parcel 6 and Parcel 6 . The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(7) Parcel 7

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply, except that any portion of the required #shore public walkway# where the distance between the shoreline and the boundaries of Parcel 7 is less than 17 feet shall be improved entirely as clear path.

(ii) #Supplemental public access area#

The requirement for a #supplemental public access area# on Parcel 7 is waived.

(8) Parcels 9, 10 and 11

(i) #Shore public walkway#

The requirements for Prototype II described in paragraph (b)(2) of this Section shall apply.

(ii) #Supplemental public access area#

For each parcel, the #supplemental public access area# requirements shall be provided to widen the pedestrian circulation zone of the #shore public walkway#, evenly distributed along the entire length of such #shore public walkway#.

(9) Parcel 13

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Milton Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be bounded by the southern #street line# of Greenpoint Avenue, the #shore public walkway# and the northern boundary of the required Milton Street #upland connection#. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(10) Parcel 14

(i) #Shore public walkway#

The area between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# shall be improved pursuant to the requirements of Prototype II described in paragraph (b)(2) of this Section. The remaining required #shore public walkway# shall be improved pursuant to the requirements of Prototype I as described in paragraph (b)(1) of this Section.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway#. The southern boundary of such #upland connection# shall be defined by a line between the intersection of the prolongation of the southern #street line# of Calyer Street and the western #street line# of West Street, and a point on the easterly boundary of the #shore public walkway# 30 feet north of the northern #street line# of Quay Street

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided. A #supplemental public access area# with a minimum of 9,000 square feet shall be provided between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# to widen the pedestrian circulation zone of the #shore public walkway#.

The remaining requirements for #supplemental public access area# shall be located in the area bounded by the southern boundary of the required Calyer Street #upland connection#, the #shore public walkway# and the southern boundary line of the parcel. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(11) Parcel 15

An #upland connection# shall be provided within the prolongation of the #street lines# of WestStreet, connecting Quay Street to Parcel 20.

(12) Parcels 19, 20, 21 and 22

Parcels 19, 20, 21 and 22 shall be designated as public parks as of (date of adoption).

(13) Parcel 24

#Shore public walkway#

Prototype I described in paragraph (b)(1) of this Section shall apply.

(14) Parcel 25

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of North 6th Street.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.

One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet from the southern #street line# of North 7th Street. The entire #supplemental public access area#, excluding the required buffer, shall be developed as clear circulation path.

A minimum of one linear foot of seating shall be required for every 40 square feet of pedestrian circulation zone and shall be located in the required buffer zone. Four trees shall be required, at least two of which are shade trees. Small or ornamental trees located within the buffer zone shall not be counted toward the minimum requirements.

The remaining required #supplemental public access area# shall be located either on the #pier# or abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. At least 70 percent of the required #supplemental public access# shall have a width to depth ratio of 2 to 1. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on a #pier# located at the western terminus of North 6th Street pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(15) Parcel 26

(i) #Shore public walkway#

The requirements of Section 62-411 (Requirements for shore public walkways) shall apply, except that the minimum required width of the #shore public walkway# shall be reduced to 34 feet between North 5th Street and the northern boundary of the required #upland connection# at the prolongation of North 4th Street. The quantity of public access eliminated from the #shore public walkway# as a result of this width reduction shall be located in the triangle formed between the #shore public walkway#, the southern #street line# of the North 4th Street #upland connection# and the bulkhead line. The entirety of the #shore public walkway# shall be improved pursuant to the requirements for Prototype I described in paragraph (b)(1) of this Section.

(ii) #Upland connections#

An #upland connection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street.

(16) Parcel 27

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure#, but shall not need to be wider than 40 feet.

Notwithstanding the requirements of Paragraph (c) of Section 62-62 (General Requirements for Public Access), the #shore public walkway# may be located within the #building or other structure#, and the obstructions permitted by Section 62-626, paragraph (a), shall include any supporting structural elements of the #building or other structure# and its related appurtenances. Additionally, the #shore public walkway# shall have a minimum clear path of 12 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#

The requirements for #supplemental public access# shall be waived.

(f) Special visual corridor provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan are shown on Map BK-1c in paragraph (g) of this Section and shall be as follows:

(1) Parcels 3 and 4

A #visual corridor# shall be provided through Parcels 3 and 4 to the pierhead line within a flexible area along the #lot lines# between them.

Whichever parcel develops second shall complete the required clearance to comply with the #visual corridor# requirements along the #upland connection# already provided in accordance with the requirements of paragraph (e)(2)(ii) of this Section. If both parcels are developed concurrently, then the requirements can be divided equally along the #lot line# between the parcels.

(2) Parcel 5a

A #visual corridor# shall be provided through Parcel 5a to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(3) Parcel 5b

Two #visual corridors# shall be provided through Parcel 5b to the pierhead line as the prolongation of the #street lines# of West Street and Dupont Street, respectively.

(4) Parcel 5c

(i) Three #visual corridors# shall be provided through Parcel 5c to the pierhead line as the prolongation of the #street lines# of West Street, Eagle Street and Green Street.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be permitted obstructions along the #visual corridor# along Green Street.

(5) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5, subject to the following #visual corridors# requirements:

(i) One #visual corridor# shall be provided through Parcel 5 to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.
Four #visual corridors# shall be provided through Parcel 5 to the pierhead line, each located as the prolongation of the #street lines# of West Street, Dupont Street, Eagle Street and Green Street, respectively.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be allowed along the #visual corridor# along Green Street.

(6) Parcel 13

Two #visual corridors# shall be provided through Parcel 13 to the pierhead line as the prolongation of the #street lines# of Milton Street and Oak Street, respectively.

(7) Parcel 14

A #visual corridor# shall be provided through Parcel 14 as the prolongation of the #street lines# of Oak Street.

(8) Parcel 15

A #visual corridor# shall be provided though Parcel 15 as the prolongation of the #stret lines# of West Street.

(9) Parcel 25

A #visual corridor# shall be provided through Parcel 25 as the prolongation of the #street lines# of North 6th Street.

REDEVELOPMENT OF A PORTION OF THE FARM COLONY IN STATEN ISLAND – Request for Expressions of Interest – DUE 02-18-05 AT 4:00 P.M. – Located in the Willowbrook area of central Staten Island, the Site is part of the Farm Colony - Seaview Hospital Historic District. The approximately 59-acre Site is zoned R3-2 with a NA-1 (Special Natural Area District) overlay. Eleven historically significant and deteriorated buildings are located on the Site, which is identified as Block 1955, part of Lot 1 in the Borough of Staten Island tax map.
NYCEDC's goal is to solicit ideas for the redevelopment of the Site that address the unique constraints affecting development including, but not limited to, the rehabilitation and adaptive reuse of the existing buildings. Other development goals include sensitivity to both the Site's location in a Special Natural Area District and its bucolic setting within the Staten Island Greenbelt, as well as the Site's adjacency to low-density residential and institutional development. Therefore, development concepts should focus on cultural, educational, and recreational uses permitted by zoning. All proposals for new construction must be consistent with the recommendations made by the Mayor's Staten Island Growth Management Task Force. Further, general residential uses will not be permitted on the Site. Senior housing, although not a preferred use, will be considered on a case-by-case basis.

A question-and-answer session to discuss the Site and tour will be held on January 20, 2005 at 10:00 a.m. To attend the question-and-answer session and site visit, please call (212) 312-3875 on or before January 14, 2005. Interested parties are strongly encouraged to attend.

For more information, and to request a copy of the RFEI, visit www.nycedc.com/farmcolonyRFEI or call (212) 312-3969. Please submit six (6) copies of your proposal.

REHAB. ON THE STATEN ISLAND RAILROAD ARTHUR KILL LIFT BRIDGE – Public Bid – DUE 01-27-05 AT 2:00 P.M. – As part of the City's efforts to reactivate freight service on the Staten Island Railroad, the New York City Economic Development Corp. is letting this bridge rehab. contract (#5320016). Located between the Howland Hook Marine Terminal and the Gothels Bridge on the west shore of Staten Island, the Arthur Kill Lift Bridge is a single-track movable bridge that spans approximately 500' over the Arthur Kill. Built in 1958 this bridge was in use until the early 1990's. The bridge is currently operational and the intent of this rehab is to prepare it for daily reliable use. The proposed bid date is January 27, 2005 and a site visit is schedule for January 6, 2005. Bidders interested in attending the site visit must register at the Port Ivory Security Office on Western Avenue, a pre walk through meeting will be held at Port Ivory Administration Building.

The scope of work entails lead paint abatement, cleaning and painting structural steel and machinery house exteriors, concrete spall and crack repairs, replacement of bridge walkways and railings, electric signal and power upgrades, installation of new meter house and meter house electrical equipment, bridge machinery repairs, bridge balancing and start-up. The engineer's estimate is approximately $6,000,000. The cost of the Bid package is $200 USD payable to either a certified bank check or money order. Cash, personal or company checks are not acceptable. All submitted bids are required to have a Bid bond.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals -
PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

CENTRALIZED JOB DEVELOPMENT PROJECT – Demonstration Project – Testing or experimentation is required - PIN# 8012005Y1000 – DUE 01-10-05 AT 11:00 A.M. – The Department of Small Business Services intends to enter into negotiations with Structured Employment Economic Development Corporation (SEEDCO)/N-PAC (the Not-for-Profit Assistance Corp.) to conduct a three-year centralized job development demonstration project.

In particular, a centralized job development project will supplement job development at DSBS' Workforce 1 Career Centers, creating additional opportunities to place customers by:

– Leveraging the City's marketing power and relationship established by providing the ability to help business customer of 311, SBS, and NYC Business Solutions Centers.
– Providing a single point of contract and tightening coordination to provide human resources solutions and candidates that better meet an employer's need.
– Increasing resources dedicated to job development and matching, enabling our system to more effectively service a larger segment of the market.
– Creating a platform with a Citywide focus that can assist employers with hiring needs throughout the five boroughs.

If the pilot is successful, SBS and the City will work with neighborhood stakeholders to institutionalize the program through a competitive procurement.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

CHARTER REVISION COMMISSION

■ PUBLIC MEETING

The 2005 Charter Revision Commission will hold a public meeting on January 19, 2005. The topic of this meeting will be administrative law reform. The Commission will hear expert testimony from Carol Robles-Roman, Deputy Mayor for Legal Affairs. Although administrative law reform will be the main subject of this public meeting, Commission business will not necessarily be limited to that topic. The Commission may also consider other topics related to its review of the City Charter. As this is a public meeting and not a public hearing, the public will have the opportunity to observe, but not to testify.
Time: 7:00 P.M.
Location: Spector Hall, 22 Reade Street, 1st Floor. Located between Broadway and Centre Street in Lower Manhattan.

Individuals requesting spoken or sign language interpreters for any of these public meetings should contact Commission staff member Brian Geller at (212) 788-2952 five (5) business days prior to the Public Meeting. TDD users should call Verizon Relay Services.

To contact the Commission by telephone, please call (212) 676-2060.
To contact the Commission by mail, please write to:

62-35
Special Bulk Regulations within Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1 the Special Bulk Regulations of this section are further modified as delineated herein.

62-351
Special floor area, lot coverage and residential density distribution regulations

Within any parcel, and between any adjacent parcels which are under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined in (e) of the definition of a #zoning lot# in Section 12-10), identified in Waterfront Access Plan BK-1; the total #floor area# and #lot coverage# permitted pursuant to Section 62-32 and the residential density permitted pursuant to Section 23-22 may be located anywhere within such parcel or between such parcels without regard to #zoning lot lines# or district boundaries provided that such location of #floor area#, #lot coverage# or residential density complies with Section 62-31 and Section 62-34 as modified by Section 62-352.

62-352
Special Height and Setback Regulations

The provisions of Section 62-341 are modified as follows:

(a) Paragraph (c)(1) (Maximum base height) shall be modified in R6 Districts to permit a maximum base height of 65 feet or six #stories#, whichever is less.

(b) Paragraph (c)(2) (Maximum #building# height) shall not apply. In lieu thereof, the maximum #building# height in an R6 District shall be 65 feet or six #stories#, whichever is less, within 100 feet of Commercial Street, West Street, Dupont Street, Franklin Street and Kent Avenue. Beyond 100 feet of such streets and any other portions of an R6 District, the maximum #building# height in shall be 110 feet. In R8 Districts, the maximum #building# height shall be 210 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 200 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 210 feet to a maximum #building# height of 310 feet. Such maximum #building# heights of 110 feet, 210 feet and 310 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 110 feet, 210 feet or 310 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

(c) Paragraphs (c)(3) (#Floor area# distribution) and (c)(5) (Additional setback provisions for high #buildings#) shall not apply.

(d) Paragraph (c)(4) (Maximum #residential# tower size) shall not apply. In lieu thereof, each #residential story# of a #building# located entirely above a height of 85 feet shall not exceed a gross area of 8,100 square feet in an R6 District and 11,000 square feet in an R8 District.

(e) Paragraph (c)(6) shall not apply. In lieu thereof, the maximum length of any #story# of a #building# that exceeds a height of 65 feet in an R6 District or 85 feet in an R8 District shall not exceed 170 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above such heights. Any side of such rectangle shall not exceed 170 feet.

(f) Paragraph (c)(7) (Ground floor streetscape provisions) shall not apply. In lieu thereof, all off-street parking spaces located within 50 feet of a #street#, a #visual corridor# containing a private road, and a #shore public walkway#, #upland connection# or #supplemental public access area# and which are located on a #story# that is above the #base plane# shall be within facilities that are located behind #commercial#, #community facility# or #residential floor area# so that no portion of such parking facility, other than entrances and exits, is visible from such #streets#, #visual corridors# or publicly accessible open spaces. Such #floor area# shall have a minimum depth of 25 feet. Seventy percent of the surface area of the facade of a facility containing parking spaces which are not otherwise required to be behind such #floor area# shall be composed of the same materials as the facade of the #building# in which it is located.

(g) Any roof of a facility containing off-street parking spaces, not otherwise covered by a #building#, which is larger than 400 square feet shall be landscaped and accessible for the recreational use of the occupants of the building in which it is located. Hard surfaced areas shall not cover more than 60 percent of such roof area.

(h) The #streetwall# of a #building# on any #zoning lot# fronting on Commercial Street, West Street and Kent Avenue shall be located within eight feet of, and extend along 70 percent of such #street line# to a minimum height of 40 feet.

(i) All #developments#, conversions, and #enlargements# or #extensions# which increase the existing #floor area# by more than 10 percent, shall provide along the entire #street# length of the #zoning lot#, one tree for every 25 feet of # street# frontage. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals except where the Commissioner of Buildings determines that such tree planting would be unfeasible. Such trees shall be planted in accordance with the standards of the Department of Parks and Recreation.

Waterfront public access and visual corridors

* * *

5. for the #development# of a park, a site plan and all other applicable data have been submitted showing compliance with the provisions of Section 62-416 (Special regulations for zoning lots that include parks).

A certification pursuant to paragraph (c) of this section, for any parcel identified in Waterfront Access Plan BK-1, may provide for the phased implementation of all required public access areas provided that an amount of public access area proportionate to the amount of #floor area# being developed on the parcel is provided in each phase. Additionally, for any #development# located within 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 200 linear feet of #shore public walkway# and any adjacent supplemental area, one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway# and, shall have at least one other connection from such required portion of the #shore public walkway# to an adjacent #shore public walkway#, a #street# or another #upland connection#. For any #development# located entirely beyond 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 100 linear feet of #shore public walkway#, and one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway#.

A certificate pursuant to paragraphs (b) or (c) of this Section shall be granted on condition that an acceptable restrictive declaration is executed and filed pursuant to Section 62-14 (Requirements for Recordation).

WATERFRONT ACCESS PLANS

* * *

62-812
Elements of a Waterfront Access Plan

A Waterfront Access Plan may:

1) on #zoning lots# where public access or #visual corridors# are required pursuant to the provisions of Sections 62-40 and 62-60, modify the size, configuration, location or design of required waterfront public access areas or #visual corridors# within certain designated areas in order to address local conditions, provided such plan does not impose a public access or #visual corridor# requirement on any #zoning lot# greater than would otherwise be required pursuant to the provisions of Sections 62-40 or 62-60. For the purpose of determining the amount of public access, the highest standard applicable to a zoning lot may be applied regardless of any specific #use# permitted or proposed for such #zoning lot#. Within Waterfront Access Plan BK-1, the public access and #visual corridor# requirements for any parcel located within the Waterfront Access Plan may be determined by aggregating the public access and #visual corridor# requirements of each zoning lot within the parcel and such aggregated requirements may be modified within such parcel without regard to #zoning lot lines#;

62-831

Waterfront Access Plan BK-1:
Greenpoint-Williamsburg
Maps BK-1a through BK-1c in paragraph (g) of this Section show the boundaries of the area comprising the Greenpoint-Williamsburg Waterfront Access Plan and the location of certain features mandated or permitted by the Plan. The plan area has been divided into parcels consisting of tax blocks and lots and other lands as established on (date of adoption), as follows:

(3) The provisions of Section 62-623 (Supplemental public access areas) shall be inapplicable. In lieu thereof, the following provisions shall apply:

A required #supplemental public access area# shall be directly connected to either a #pier# public access area, an #upland connection# or a #shore public walkway# on either its landward or seaward side and its pedestrian circulation zone shall be contiguous with the adjacent pedestrian circulation zone.

2) A buffer zone shall only be required where a #supplemental public access area# adjoins a non-publicly accessible portion of a #zoning lot#, in which case its minimum width shall be 15 feet.

(4) #Street# Treatment

All #streets# adjacent to a #shore public walkway# or #supplemental public access area# shall be improved as a continuation of such #shore public walkway# or #supplemental public access area#, pursuant to the design requirements of paragraph (b) of this Section, inclusive.

(b) Specific design requirements for shore public walkway prototypes

The provisions of Section 62-63 (Specific Design Requirements for Public Access Prototypes) shall be inapplicable. In lieu thereof the following provisions for #shore public walkways# shall apply:

(1) Greenpoint-Williamsburg Shore Public Walkway-Prototype I

1. One circulation path with a minimum clear width of 12 feet is required.

The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path.

(ii) A minimum of one linear foot of seating shall be provided for every 100 square feet of #shore public walkway#. At least 60 percent of the required seating shall be landward of the required circulation path.

(iii) A minimum of 50 percent of the pedestrian circulation zone, excluding the required circulation path, shall be planting area. Rip rap, beach or other shoreline materials may be counted as an equivalent to planting area.

(iv) One shade tree is required for every 1,200 square feet of #shore public walkway# and one small or ornamental tree shall be required for every 750 square feet of #shore public walkway#. Trees may be located either in the pedestrian circulation zone landward of the required circulation path or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(2) Greenpoint-Williamsburg Shore Public Walkway-Prototype II

1) The provisions of 62-621 (Shore public walkways) shall apply except that a #shore public walkway# shall have a minimum 30 foot pedestrian circulation zone and a minimum 15 foot buffer zone.

2) One circulation path with a minimum clear width of 12 feet is required. The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path, in which case, the path shall be located within 20 feet of the shoreline. A secondary circulation path may be provided, with a minimum width of 10 feet. Connecting paths having a minimum width of ten feet shall be provided between the two circulation paths at intervals not to exceed 100 feet.

3) A minimum of one linear foot of seating shall be provided for every 70 square feet of #shore public walkway#.

4) A minimum of 70 percent of the pedestrian circulation zone, excluding the required circulation path and transition zones, shall be planting area. A minimum of 50 percent of this planting area must be improved as lawn according to the provisions of Section 62-675 (Planting and trees).

(v) One shade tree is required for every 1,900 square feet of #shore public walkway# and shall be located in the pedestrian circulation zone. In addition, one shade, small or ornamental tree shall be required for every 850 square feet of #shore public walkway# and may be located either in the pedestrian circulation zone or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required

clear path.

(3) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Plaza

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 40 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 25 percent of the pedestrian circulation zone shall be planting area.

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(4) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Park

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 50 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 60 percent of the pedestrian circulation zone shall be planting area with no more than 30 percent of the planting area in raised planting beds. At least 35 percent of the #supplemental public access area# shall be lawn in compliance with the standards set forth in paragraph (c)(5) of Section 62-675 (Planting and trees).

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(c) Amenities

In parcels where #supplemental public access area# is required, no more than fifteen percent of public access area may be reduced if playgrounds and other amenities are provided in accordance with paragraphs (c)(1) and (c)(2) of this Section.

(1) Playgrounds

A playground shall have a minimum size of 1,000 square feet and, if applicable, there shall be a minimum of 400 feet between any two playground areas. For every five square feet of playground area provided, the total amount of required public access may be reduced by the rate of one square foot.

(2) Other amenities

A reduction in the total amount of required public access area shall be permitted according to the following table. The number and variety of such amenities shall be determined upon certification.

Amenity	Square feet reduction
Picnic table	22 sq. ft.
Chess table	20 sq. ft.
Telescope	10 sq. ft.
Art	50 - 200 sq. ft.
Fountain/water feature	50 - 200 sq. ft.
Shade structure	50 - 200 sq. ft.

(d) Public access design reference standards

Section 62-67 is hereby modified by the following provisions.

(1) Guardrails

The provisions of paragraph (a) Section 62-671 (Guardrails, gates and other protective barriers) shall be inapplicable. In lieu thereof the following provisions for guardrails shall apply:

(i) Guardrails shall be located within waterfront public access areas continuously along any bulkhead, stabilized shore or the water edges of a #pier# or #platform# that is located within 50 feet of a circulation path; and continuously along any grade level change of 30 inches or grader adjoining or within 10 feet of a circulation path. However, guardrails shall not be required landward of any rip rap, beach or any other shoreline material that is at least 10 feet wide. If any protective barrier is provided adjacent to any rip rap, beach or other shoreline material, they shall not exceed a height of 21 inches or shall consist of a bollard and chain device.

Guardrails shall not be required at access points to WD #uses# and #development# on #floating structures#. The minimal protective barrier at such locations shall be a swing gate, bollard and chain or similar device.

(ii) Guardrails shall comply with illustration A1, alternatively illustration A2 may be used in #piers#.

Illustration A1

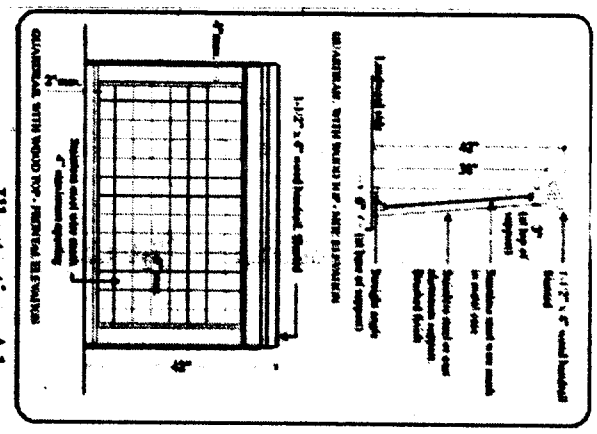

Illustration A2

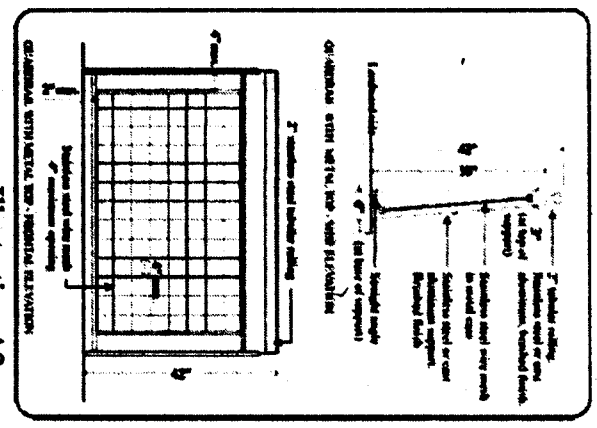

(Alternate for Piers)

All guardrail components and hardware shall be in stainless steel or cast aluminum, as applicable.

(2) Seating

In addition to the provisions of Section 62-672, at least fifty percent of the required seating along any #shore public walkway# or #supplemental public access area# shall comply with illustration B1 or B2 below.

Illustration B1

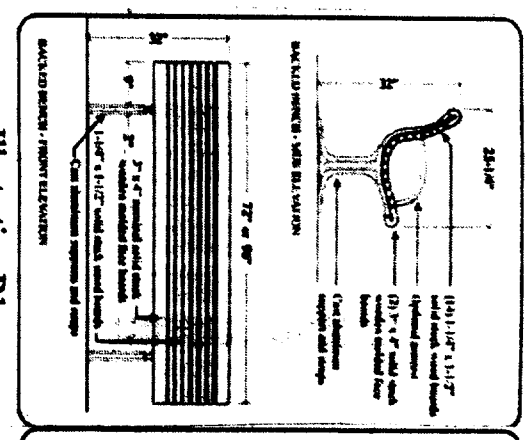

Illustration B2

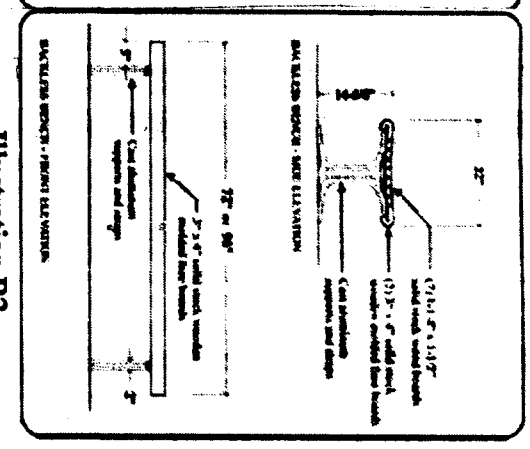

All wood boards shall be made of Redwood, Jarrah or Ipe, have eased edges and ends and be treated for external use without stain or varnish.

All supports and backstraps shall be 713 tenzalloy cast aluminum, with a rust inhibitor and a top coat finish of thermosetting polyester powdercoat that is ultra-violet, chip and flake resistant. Metal components shall have a light gray or aluminum color.

(3) Lighting

In addition to the provisions of Section 62-673, the required lighting along any public access area shall comply with illustration C1 below.

(4) Planting and trees

The provisions of paragraph (c)(6) (Container planting) of Section 62-675 shall be inapplicable, unless a structural or environmental necessity is demonstrated at the time of certification.

(5) Paving

In addition to the provisions of Section 62-676, the paving for the required clear path within the #shore public walkway# shall be gray. At least fifty percent of all other paved areas within the #shore public walkway# and #supplemental public access areas# shall be paved in the same color range.

(e) Special public access provisions by parcel

The provisions of Sections 62-41 (Requirements for waterfront public access) and 62-60 (DESIGN STANDARDS FOR THE WATERFRONT AREA) are modified at the following designated locations which are shown on Map BK-1b in paragraph (g) of this Section:

1. Parcels 1 and 2

(i) #Shore public walkway#

The requirements for Prototype I

described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#
The requirements for #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is developed first shall provide an #upland connection# along the #lot line# between the two parcels. The width of the #upland connection# may be utilized by the developer of the remaining parcel in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels, according to the provisions of paragraph (f)(1) of this Section. If both parcels are developed concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

(3) Parcel 5a

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location indicated on Map BK-1b in paragraph (g) of this Section.

The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(iii) #Supplemental public access area#

The #supplemental public access area# shall abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. The #upland connection#, however, may cut across the #supplemental public access area# provided that no area shall be less than 5,000 square feet. All #supplemental public access areas# shall have a minimum width to depth ratio of 1.0 to 1.0 and a maximum width to depth ratio of 2.0 to 1.0. In no event shall the #supplemental public access area# be deeper than 100 feet. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

Alternatively, a portion of the required #supplemental public access area# that is a minimum of 5,000 square feet may abut the #shore public walkway# continuously along the longest side provided that it also abuts a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-641, but shall not be counted towards satisfying the required amount of public access area on the site. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(4) Parcel 5b

#Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(5) Parcel 5c

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

Two #upland connections# shall be provided between West Street and the #shore public walkway#, one located within the prolongation of the #street lines# of Eagle Street, the other located within the prolongation of the #street lines# of Green Street.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided on Parcel 5c.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the pedestrian circulation zone of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(6) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5 and be subject to the following requirements:

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

One #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location indicated on Map BK-1b in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.

Two #upland connections# shall be provided between West Street and the #shore public walkway#, each located within the prolongation of the #street lines# of Eagle Street and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5 and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining of the required #supplemental public access area# shall be located within the area bounded by the western prolongation of the north #street line# of Dupont Street, the #shore public walkway#, the northern prolongation of the eastern boundary of Parcel 6 and Parcel 6. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section

(7) Parcel 7

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply, except that any portion of the required #shore public walkway# where the distance between the shoreline and the boundaries of Parcel 7 is less than 17 feet shall be improved entirely as clear path.

(ii) #Supplemental public access area#

The requirement for a #supplemental public access area# on Parcel 7 is waived.

(8) Parcels 9, 10 and 11

(i) #Shore public walkway#

The requirements for Prototype II described in paragraph (b)(2) of this Section shall apply.

(ii) #Supplemental public access area#

For each parcel, the #supplemental public access area# requirements shall be provided to widen the pedestrian circulation zone of the #shore public walkway#, evenly distributed along the entire length of such #shore public walkway#.

(9) Parcel 13

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Milton Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be bounded by the southern #street line# of Greenpoint Avenue, the #shore public walkway# and the northern boundary of the required Milton Street #upland connection#. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(10) Parcel 14

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Calyer Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be distributed evenly along the #shore public walkway# between the southern boundary of the required Calyer Street #upland connection# and the prolongation of the northern #street line# of Quay Street. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(11) Parcel 15

An #upland connection# shall be provided within the prolongation of the #street lines# of West Street, connecting QuayStreet to Parcel 20.

(12) Parcels 19, 20, 21 and 22

Parcels 19, 20, 21 and 22 shall be designated as public parks as of (date of adoption).

(13) Parcel 24

Prototype I described in paragraph (b)(1) of this Section shall apply.

(14) Parcel 25

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the

prolongation of the #street lines# of North 6th Street.

(iii) #Supplemental public access area# Two #supplemental public access areas# shall be provided.

One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet from the southern #street line# of North 7th Street. The entire #supplemental public access area#, excluding the required buffer, shall be developed as clear circulation path.

A minimum of one linear foot of seating shall be required for every 40 square feet of pedestrian circulation zone and shall be located in the required buffer zone. Four trees shall be required, at least two of which are shade trees. Small or ornamental trees located within the buffer zone shall not be counted toward the minimum requirements.

The remaining required #supplemental public access area# shall be located either on the #pier# or parallel to the #shore public walkway#. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the North 6th Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(15) Parcel 26

(i) #Shore public walkway#

The requirements of Section 62-411 (Requirements for shore public walkways) shall apply, except that the minimum required width of the #shore public walkway# shall be reduced to 34 feet between North 5th Street and the northern edge of the required #upland connection# at the prolongation of North 4th Street. The quantity of public access eliminated from the #shore public walkway# as a result of this width reduction shall be located in the triangle formed between the #shore public walkway#, the southern #street line# of the North 4th Street #upland connection# and the bulkhead line. The entirety of the #shore public walkway# shall be improved pursuant to the requirements for Prototype I described in paragraph (b)(1) of this Section.

(ii) #Upland connections#

An #upland connection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street.

(16) Parcel 27

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure#, but shall not need to be wider than 40 feet.

Notwithstanding the requirements of Paragraph (c) of Section 62-62 (General Requirements for Public Access), the #shore public walkway# may be located within the #building or other structure#, and the obstructions permitted by Section 62-626, paragraph (a), shall include any supporting structural elements of the #building or other structure# and its related appurtenances. Additionally, the #shore public walkway# shall have a minimum clear path of 12 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area# The requirements for #supplemental public access# shall be waived.

(f) Special visual corridor provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan are shown on Map BK-1c in paragraph (g) of this Section and shall be as follows:

(1) Parcels 3 and 4

A #visual corridor# shall be provided through Parcels 3 and 4 to the pierhead line within a flexible area along the #lot lines# between them.

Whichever parcel develops second shall complete the required clearance to comply with the #visual corridor# requirements along the #upland connection# already provided in accordance with the requirements of paragraph (e)(2)(ii) of this Section. If both parcels are developed concurrently, then the requirements can be divided equally along the #lot line# between the parcels.

(2) Parcel 5a

A #visual corridor# shall be provided through Parcel 5a to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(3) Parcel 5b

Two #visual corridors# shall be provided through Parcel 5b to the pierhead line as the prolongation of the #street lines# of West Street and Dupont Street, respectively.

(4) Parcel 5c

(i) Two #visual corridors# shall be provided through Parcel 5c to the pierhead line as the prolongation of the #street lines# of Eagle Street and Green Street.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be permitted obstructions along the #visual corridor# along Green Street.

(5) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5, subject to the following #visual corridors# requirements:

(i) One #visual corridor# shall be provided through Parcel 5 to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.
Four #visual corridors# shall be provided through Parcel 5 to the pierhead line, each located as the prolongation of the #street lines# of West Street, Dupont Street, Eagle Street and Green Street, respectively.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be allowed along the #visual corridor# along Green Street.

(6) Parcel 13

Two #visual corridors# shall be provided through Parcel 13 to the pierhead line as the prolongation of the #street lines# of Milton Street and Oak Street, respectively.

(7) Parcel 14

A #visual corridor# shall be provided through Parcel 14 as the prolongation of the #street lines# of Oak Street.

(8) Parcel 15

A #visual corridor# shall be provided though Parcel 15 as the prolongation of the #stret lines# of West Street.

(9) Parcel 25

A #visual corridor# shall be provided through Parcel 25 as the prolongation of the #street lines# of North 6th Street.

INCLUSIONARY HOUSING

23-91
General Provisions

~~R10~~

~~In the district indicated, a~~An Inclusionary Housing program is established in those areas designated in Section 23-92 (Applicability) to preserve and to promote a mixture of low to upper income housing within neighborhoods experiencing a shift from mixed to upper income housing and thus to promote the general welfare. The requirements of this program are set forth in Sections 23-90 through 23-~~94~~95.

23-92
Applicability

23-921
R10 Districts

The Inclusionary Housing Program shall apply in R10 Districts.

23-922
Community District 1, Borough of Brooklyn

The Inclusionary Housing Program shall apply in the following areas of Community District 1 in the Borough of Brooklyn located north of the Williamsburg Bridge, Washington Plaza, Borinquen Place and Grand Street:

(a) Waterfront Access Plan BK-1, as set forth in Section 62-352;

(b) all #Special Mixed Use Districts#;

(c) all R6A, R6B and R7A Districts; and

(d) the following R6 areas:

(1) the #block# bounded by Havemeyer Street, North Sixth Street, Metropolitan Avenue and North Fifth Street;

(2) the #block# bounded by Roebling Street, North Fifth Street, Havemeyer Street and Metropolitan Avenue;

(3) those #blocks# bounded by Wythe Avenue, Grand Street, Berry Street and South Third Street;

(4) those #blocks# and portions of #blocks# bounded by Bedford Avenue, North 1st Street, Driggs Street, Fillmore Place, Roebling Street, and a line coincident with the centerline of the long dimension of the #blocks# bounded by Bedford Avenue, Grand Street, Roebling Street and South First Street; and

(5) that portion of the #block# bounded by Franklin Street, Huron Street, Manhattan Avenue and India Street that is within 100 feet of Franklin Street and 100 feet of India Street.

Fair rent

* * *

At initial occupancy of any #lower income housing#, no portion of the #fair rents# shall be for the payment of the principal or interest on any debt, and the #lower income housing# shall not secure any debt and shall be free of all liens, except liens for real estate taxes, water charges and sewer rents and other governmental charges for which payment is not yet due. #Fair rents# may be used for the payment of principal or interest of debt only if such debt was incurred after the date of initial occupancy and is for a capital improvement to such #lower income housing# other than those capital improvements set forth in the #lower income housing plan#.

In Community District 1, Borough of Brooklyn, at initial occupancy of any #lower income housing#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95(c) o this Resolution, and provided that the lender agrees to enter into a written agreement which subordinates such debt.

Lower income household

A "lower income household" is a #family# having an income equal to or less than the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U.S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.
In Community District 1, Borough of Brooklyn, for the purposes of Section 23-953 (Preservation option), #lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City and State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with U. S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.

Lower income housing

"Lower income housing" are #standard units# occupied or to be occupied by #lower income households#. #Lower income housing# shall not include #standard units# assisted under city, state or federal programs, except where such assistance is in the form of:

(e) real estate tax abatements and exemptions which are specifically limited to the #lower income housing#; or

(f) operating assistance that the Commissioner of the Department of Housing Preservation and Development determines will be used to enable households with incomes of not more than 62.5 percent of the "80 Percent of SMSA Limits" to afford such #lower income housing#.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall include #standard units# assisted under city, state or federal programs.

Lower income housing plan

The "lower income housing plan", is the plan accepted by the Commissioner of Housing Preservation and Development, which sets forth the developer's plans for creating and maintaining the specified #lower income housing# pursuant to this program, including but not limited to, choice of #administering agent#, tenant selection, rent levels in the #lower income housing# and income verification of tenants pursuant to Section ~~23-94~~ 23-95 paragraphs (b), (c) and (d) of this Resolution.

Lower Income Housing Requirements

~~R10~~

To qualify for the increased #floor area#, #compensated developments# must provide #lower income housing# for the life of the increased #floor area# in the #compensated development# pursuant to one or more of the options listed in Section ~~23-941, 23-942 and 23-943~~, 23-951, 23-952 and 23-953 and such #lower income housing# must meet each of the requirements set forth below.

* * *

~~23-941~~ 23-951
On-site new construction option

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(a) The #lower income housing# shall be located in newly constructed #floor area# in the #compensated development#. The #lower income housing# shall be maintained and leased to #lower income households# for the life of the increased #floor area#.

(b) #Dwelling units# designated as #lower income housing# shall be distributed throughout the #development#. No #story# shall contain more than two such units unless at least 80 percent of all #stories# contain two such units. The size of the designated #lower income housing# units shall at least be distributed among the various size units in proportion to the total distribution of unit size within the #building# in the following categories of unit sizes:

under 600 net square feet
600 - 749 net square feet
750 - 949 net square feet
950 - 1149 net square feet
1150 or more net square feet

In Community District 1, Borough of Brooklyn, the requirements of this paragraph (b) may be waived by the Commissioner of Housing Preservation and Development to facilitate the #development# of #lower income housing#.

~~23-942~~ 23-952
Substantial rehabilitation and off-site new construction options

To qualify for one or more of these options, the designated #lower income housing# shall meet the following requirements:

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#.

For the new construction option the #lower income housing# shall be in a new #building#. For the substantial rehabilitation options, the #lower income housing# shall be in an existing #building# in which, prior to the submission of the #lower income housing plan# pursuant to this Section, any #residential# portion not in public ownership had been entirely vacant for not less than three years.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall be located only within such Community District, and the administering agent shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

~~23-943~~ 23-953
Preservation option

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#.

The #lower income housing# shall be in an existing occupied #residential# or #mixed building#. Only #standard units# occupied by #lower income households# shall be #lower income housing#. For each #standard unit# designated as #lower income housing# the #administering agent# shall verify the income of the household in tenancy.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall be located only within such Community District, and the administering agent shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

62-35
Special Bulk Regulations within Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1, the special #bulk# regulations of this Chapter are further modified as set forth in this Section 62-35, inclusive.

62-351
Special floor area regulations

(a) Maximum permited #floor area ratio#

In R6 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# shall be 2.43. In R8 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# shall be 5.5. In R6 and R8 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# may be increased for #developments# and #enlargements# that provide lower income housing pursuant to Section 62-352.

(b) #Buildings# used for #accessory# off-#street# parking spaces

The #floor area# of a #building# shall not include floor space used for #accessory# off-street parking spaces provided in any #story# located not more than 33 feet above the height of the #base plane#.

62-352
Inclusionary Housing

The provisions of Section 23-90 (INCLUSIONARY HOUSING) shall apply in R6 and R8 Districts within Waterfront Access Plan BK-1 as modified in this Section.

(a) Definitions

Fair rent

At initial occupancy of #lower income housing# that is occupied by a #moderate income household# or a #middle income household# as defined in this Section, "fair rent" is an annual rent for each such housing equal to not more than either the public assistance shelter allowance if the #family# receives public assistance, or 30 percent of the annual income of the tenant of such housing (the "30 Percent Standard").

Upon renewal of a lease for such an existing tenant in #lower income housing#, #fair rent# (the "Rent Stabilization Standard") is not more than the then-current #fair rent# for such housing plus a percentage increase equal to the percentage increase for a renewal lease of the same term permitted by the Rent Guidelines Board for units subject to the rent stabilization law.

After initial occupancy, upon rental of #lower income housing# to a new tenant, #fair rent# is not more than the higher of:

(1) the then-currently applicable "30 Percent Standard"; or

(2) the Rent Stabilization Standard.

In order for rent to be #fair rent#, the following must also apply:

There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income, #moderate income# or #middle income household# responsible for the payment of utilities as long as the sum of:

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment do not exceed 30 percent of said #lower income#, #moderate income# or #middle income household's# income.

At initial occupancy of any #lower income housing# occupied by a #moderate income# or #middle income household#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95(c) o this Resolution, and provided that the lender agrees to enter into a written agreement which subordinates such debt.

Lower income housing
For the purposes of this Section, "lower income housing" shall include #standard units# occupied or to be occupied by #lower income#, #moderate income# or #middle income households#.

Moderate income household

For the purposes of this Section 62-352, a "moderate income household" is a #family# having an income equal to or less than the following proportion:

125
80

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

Middle income household

For the purposes of this Section 62-352, a "middle income household" is a #family# having an income equal to or less than the following proportion:

175
80

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

(b) Floor area increase

The maximum permitted #floor area ratio# on a #zoning lot# containing #residences# may be increased in R6 Districts from 2.43 to 2.75, and in R8 Districts from 5.5 to 6.5, provided that:

(1) at least 15% of the total #floor area# on the #zoning lot# is occupied by #lower income households#, or

(2) at least 10% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 10% of the total #floor area# on the #zoning lot# is occupied by #moderate income households#, or

(3) at least 10% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 15% of the total #floor area# on the #zoning lot# is occupied by #middle income households#.

(c) Lower Income Housing Requirements

#Developments# that increase #floor area# in accordance with the provisions of this Section shall comply with the lower income housing requirements of Section 23-95, except as modified in this paragraph (c).

(1) The provisions of Section 23-95(b) shall apply, except that in addition, incoming households of #standard units# in #lower income housing# may be #moderate# and #middle income households#, and sublessees of a #moderate# or #middle income household# may also be a #moderate# or #middle income household#.

Furthermore, on and after the issuance of a certificate of occupancy for #lower income housing#, the #administering agent# shall have a duty to rent such housing to #lower#, #moderate# or #middle income households#, as provided in this Section.

This duty to rent shall be satisfied by the #administering agent#, if such agent has in fact rented all such units to #lower#, #moderate# or #middle income households#, as provided in this Section, or has, in good faith, made a continuing public offer to rent such units at rents no greater than the rents authorized by this program or otherwise at law.

(2) The provisions of Section 23-95(d) shall apply, except that prior to renting #lower income housing#, the #administering agent# shall verify the income of each household to occupy such housing, to assure that the households are #lower#, #moderate# or #middle income households# as provided by this Section. The #administering agent# shall submit an affidavit to the Commissioner of Housing Preservation and Development upon initial occupancy and annually thereafter attesting that all incoming occupants of #lower income housing# are #lower#, #moderate# or #middle income households# as required by the provisions of this Section.

(3) Section 23-951(a) shall apply, except that the #lower income housing# shall be maintained and leased to #lower#, #moderate# or #middle income households#, as provided in this Section, for the life of the increased #floor area#.

62-353
Special floor area, lot coverage and residential density distribution regulations

Within any parcel identified in Section 62-381, and with respect to any such parcels which are adjacent to each other and which are under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined in (e) of the definition of a #zoning lot# in Section 12-10) or with respect to which each party in interest (as defined in (f)(4) of the definition of a #zoning lot# in Section 12-10) has executed a declaration declaring that the properties are to be develop as a single parcel or has waived its right to execute such declaration, the total #floor area# and #lot coverage# permitted pursuant to Section 62-351 or 62-352 and the residential density permitted pursuant to Section 23-22 may be located anywhere within such parcel or between such parcels without regard to #zoning lot lines# or district boundaries provided that such location of #floor area#, #lot coverage# or residential density complies with Section 62-31 and Section 62-34 as modified by Section 62-354.

62-354
Special Height and Setback Regulations

The provisions of Section 62-341 are modified as follows:

(a) Paragraph (c)(1) (Maximum base height) shall be modified in R6 Districts to permit a maximum base height of 65 feet or six #stories#, whichever is less. However, for #buildings or other structure# located on a #zoning lot# with more than 100 feet of frontage on a #street# in R6 Districts, not less than 20 percent of such frontage shall exceed a maximum base height of 55 feet or 5 #stories#, whichever is less.

(b) Paragraph (c)(2) (Maximum #building# height) shall not apply. In lieu thereof, the maximum #building# height in an R6 District shall be 65 feet or six #stories#, whichever is less, within 100 feet of Commercial Street, West Street, Dupont Street, Franklin Street and Kent Avenue. Beyond 100 feet of such #streets# and any other portions of an R6 District, the maximum #building# height in shall be 110 feet. In R8 Districts, the maximum #building# height shall be 210 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 200 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 210 feet to a maximum #building# height of 310 feet. Such maximum #building# heights of 110 feet, 210 feet and 310 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 110 feet, 210 feet or 310 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

For #developments# that provide #lower income housing# pursuant to Section 62- 352, the increased #floor area# permitted for such #developments# may exceed the height limits of an R8 District set forth in this paragraph (b) provided that the maximum building height shall be 260 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 250 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 260 feet to a maximum #building# height of 360 feet. Such maximum #building# heights of 260 feet and 360 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 260 feet or 360 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

(c) Paragraphs (c)(3) (#Floor area# distribution) and (c)(5) (Additional setback provisions for high #buildings#) shall not apply.

(d) Paragraph (c)(4) (Maximum #residential# tower size) shall not apply. In lieu thereof, each #residential story# of a #building# located entirely above a height of 85 feet shall not exceed a gross area of 8,100 square feet in an R6 District and 11,000 square feet in an R8 District. If such #residential story# of a #building# is located partially in an R6 District and partially in an R8 District, it shall not exceed a gross area of 11,000 square feet and any portion located in an R6 district shall not exceed a gross area of 8,100 square feet.

(e) Paragraph (c)(6) shall not apply. In lieu thereof, the maximum length of any #story# of a #building# that exceeds a height of 85 feet shall not exceed 170 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above such heights. Any side of such rectangle shall not exceed 170 feet.

(f) Paragraph (c)(7) (Ground floor streetscape provisions) shall not apply. In lieu thereof, all off-street parking spaces located within 50 feet of a #street#, a #visual corridor# containing a private road, and a #shore public walkway#, #upland connection# or #supplemental public access area# and which are located on a #story# that is above the #base plane# shall be within facilities that are located behind #commercial#, #community facility# or #residential# floor space so that no portion of such parking facility, other than entrances and exits, is visible from such #streets#, #visual corridors# or publicly accessible open spaces. Such floor space shall have a minimum depth of 25 feet. Up to 5 percent of such floor space may be used for mechanical equipment provided that no floor space used for mechanical equipment is located within 15 feet of the #street wall# of the #building# below a height of 15 feet above the #base plane#, and that no exhaust vents are located on the street wall of the #building# below a height of 15 feet above the #base plane#. The remainder of such floor space shall be used for #commercial#, #community facility# or #residential floor area#. Seventy percent of the surface area of the facade of a facility containing parking spaces which are not otherwise required to be behind such #floor area# shall be composed of the same materials as the facade of the #building# in which it is located.

(g) Any roof of a facility containing off-street parking spaces, not otherwise covered by a #building#, which is larger than 400 square feet shall be landscaped. Up to 5 percent of such roof area may be used for mechanical equipment provided that such mechanical equipment is screened from view by a fence which is at least 75 percent opaque or by at least 3 feet of dense planting. Up to 25 percent of such roof area may be accessible solely from an adjacent #dwelling unit# and the remaining roof area shall be accessible for the recreational use of the occupants of the building in which it is located. Hard surfaced areas shall not cover more than 60 percent of such roof area.

(h) At least 70 percent of the width of the #streetwall# of a #building# or #buildings# fronting on a portion of a #street#, #upland connection# or #visual corridor# which is not adjacent to a #shore public walkway# or #supplemental public access area# shall be located within eight feet of such #street line# and extend to a minimum height of 30 feet.

(i) All #developments#, conversions, and #enlargements# or #extensions# which increase the existing #floor area# by more than 10 percent, shall provide along the entire #street# length of the #zoning lot#, one tree for every 25 feet of # street# frontage. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals except where the Department of Parks and Recreation determines that such tree planting would be unfeasible. Such trees shall be planted in accordance with the standards of the Department of Parks and Recreation.

5. for the #development# of a park, a site plan and all other applicable data have been submitted showing compliance with the provisions of Section 62-416 (Special regulations for zoning lots that include parks).

A certification pursuant to paragraph (c) of this section, for any parcel identified in Waterfront Access Plan BK-1, may provide for the phased implementation of all required public access areas provided that an amount of public access area proportionate to the amount of #floor area# being developed on the parcel is provided in each phase. Additionally, for any #development# located within 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 200 linear feet of #shore public walkway# and any adjacent #supplemental public access area# located between such #development# and the required #shore public walkway#, one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway# and, shall have at least one other connection from such required portion of the #shore public walkway# to an adjacent #shore public walkway#, a #street# or another #upland connection#. For any #development# located entirely beyond 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 100 linear feet of #shore public walkway#, and one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway#. However, no public access area needs to be provided for a phase consisting of a #development # in which all included #residential# units are affordable units for a #lower income household# as defined in section 23-93 or a #moderate income household# or a #middle income household# as defined in section 62-352.

62-812
Elements of a Waterfront Access Plan

A Waterfront Access Plan may:

1) on #zoning lots# where public access or #visual corridors# are required pursuant to the provisions of Sections 62-40 and 62-60, modify the size, configuration, location or design of required waterfront public access areas or #visual corridors# within certain designated areas in order to address local conditions, provided such plan does not impose a public access or #visual corridor# requirement on any #zoning lot# greater than would otherwise be required pursuant to the provisions of Sections 62-40 or 62-60. For the purpose of determining the amount of public access, the highest standard applicable to a zoning lot may be applied regardless of any specific #use# permitted or proposed for such #zoning lot#. Within Waterfront Access Plan BK-1, the public access and #visual corridor# requirements for any parcel located within the Waterfront Access Plan may be determined by aggregating the public access and #visual corridor# requirements of each zoning lot within the parcel and such aggregated requirements may be modified within such parcel without regard to #zoning lot lines#;

(a) Area wide modifications:

The following provisions shall apply to all #developments# required to provide public access, pursuant to Section 62-40 (REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AND VISUAL CORRIDORS):

(1) Paragraph (c) of Section 62-412 (Requirements for public access on piers) is applicable, except that a minimum of 15 feet are required along each water edge.

(2) The provisions of Section 62-61 (Design Options and Methodology) shall be inapplicable. In lieu thereof, the following provisions shall apply:

2 All required public access areas and #visual corridors# shall comply with the general requirements set forth in Section 62-62 (General Requirements for Public Access Areas) and the specific requirements as set forth in this Section.

(ii) #Upland connections#, #visual corridors#, public access areas on #piers# and public access areas in conjunction with #floating structures# shall comply with the design requirements set forth in Sections 62-64 through 62-66, inclusive.

(iii) Public access areas are subject to the design reference standards set forth in Section 62-67 and paragraph (d) of this Section.

(3) The provisions of Section 62-623 (Supplemental public access areas) shall be inapplicable. In lieu thereof, the following provisions shall apply:

c) A required #supplemental public access area# shall be directly connected to either a #pier# public access area, an #upland connection# or a #shore public walkway# on either its landward or seaward side and its pedestrian circulation zone shall be contiguous with the adjacent pedestrian circulation zone.

d) A buffer zone shall only be required where a #supplemental public access area# adjoins a non-publicly accessible portion of a #zoning lot#, in which case its minimum width shall be 15 feet.

(4) #Street# Treatment

All #streets# adjacent to a #shore public walkway# or #supplemental public access area# shall be improved as a continuation of such #shore public walkway# or #supplemental public access area#, pursuant to the design requirements of paragraph (b) of this Section, inclusive.

(b) Specific design requirements for Public Access Prototypes

The provisions of Section 62-63 (Specific Design Requirements for Public Access Prototypes) shall be inapplicable. In lieu thereof the following provisions for #shore public walkways# and #supplemental public access areas# shall apply:

(1) Greenpoint-Williamsburg Shore Public Walkway-Prototype I

1. One circulation path with a minimum clear width of 12 feet is required. The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path.

(ii) A minimum of one linear foot of seating shall be provided for every 100 square feet of #shore public walkway#. At least 60 percent of the required seating shall be landward of the required circulation path.

(iii) A minimum of 50 percent of the pedestrian circulation zone, excluding the required circulation path, shall be planting area. Rip rap, beach or other shoreline materials may be counted as an equivalent to planting area.

(iv) One shade tree is required for every 1,200 square feet of #shore public walkway# and one small or ornamental tree shall be required for every 750 square feet of #shore public walkway#. Trees may be located either in the pedestrian circulation zone landward of the required circulation path or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(2) Greenpoint-Williamsburg Shore Public Walkway-Prototype II

1) The provisions of 62-621 (Shore public walkways) shall apply except that a #shore public walkway# shall have a minimum 30 foot pedestrian circulation zone and a minimum 15 foot buffer zone.

2) One circulation path with a minimum clear width of 12 feet is required. The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path, in which case, the path shall be located within 20 feet of the shoreline. A secondary circulation path may be provided, with a minimum width of 10 feet. Connecting paths having a minimum width of ten feet shall be provided between the two circulation paths at intervals not to exceed 100 feet.

3) A minimum of one linear foot of seating shall be provided for every 70 square feet of #shore public walkway#.

4) A minimum of 70 percent of the pedestrian

circulation zone, excluding the required circulation path shall be planting area. A minimum of 50 percent of this planting area must be improved as lawn according to the provisions of Section 62-675 (Planting and trees).

(v) One shade tree is required for every 1,900 square feet of #shore public walkway# and shall be located in the pedestrian circulation zone. In addition, one shade, small or ornamental tree shall be required for every 850 square feet of #shore public walkway# and may be located either in the pedestrian circulation zone or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(3) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Plaza

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 40 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 25 percent of the pedestrian circulation zone shall be planting area.

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(4) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Park

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 50 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 60 percent of the pedestrian circulation zone shall be planting area with no more than 30 percent of the planting area in raised planting beds. At least 35 percent of the #supplemental public access area# shall be lawn in compliance with the standards set forth in paragraph (c)(5) of Section 62-675 (Planting and trees).

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(c) Amenities

In parcels where #supplemental public access area# is required, no more than fifteen percent of public access area may be reduced if playgrounds and other amenities are provided in accordance with the following provisions.

(1) Playgrounds

A playground shall have a minimum size of 1,000 square feet and, if applicable, there shall be a minimum of 400 feet between any two playground areas. For every five square feet of playground area provided, the total amount of required public access may be reduced by the rate of one square foot.

(2) Other amenities

A reduction in the total amount of required public access area shall be permitted according to the following table.

Amenity	Square feet reduction
Picnic table	22 sq. ft. per table, to a max. of 200 sq. ft.
Chess table	20 sq. ft. per table,to a max. of 200 sq. ft.
Telescope	10 sq. ft. per telescope, to a max. of 50 sq. ft.
Fountain/water feature	150 sq. ft. per feature, to a max. of 300 sq. ft.
Shade structure	150 sq. ft. perstructure, to a max. of 300 sq. ft.

(d) Public access design reference standards

Section 62-67 is hereby modified by the following provisions.

(1) Guardrails

The provisions of paragraph (a) Section 62-671 (Guardrails, gates and other protective barriers) shall be inapplicable. In lieu thereof the following provisions for guardrails shall apply:

(i) Guardrails shall be located within waterfront public access areas continuously along any bulkhead, stabilized shore or the water edges of a #pier# or #platform# that is located within 50 feet of a circulation path; and continuously along any grade level change of 30 inches or greater adjoining or within 10 feet of a circulation path. However, guardrails shall not be required landward of any rip rap, beach or any other shoreline material that is at least 10 feet wide. If any protective barrier is provided adjacent to any rip rap, beach or other shoreline material, they shall not exceed a height of 21 inches or shall consist of a bollard and chain device.

Guardrails shall not be required at access points to WD #uses# and #development# on #floating structures#. The minimal protective barrier at such locations shall be a swing gate, bollard and chain or similar device.

(ii) Guardrails shall comply with illustration A1; alternatively, illustration A2 may be used in #piers#.

All guardrail components and hardware shall be in stainless steel or cast aluminum, as applicable.

Illustration A1

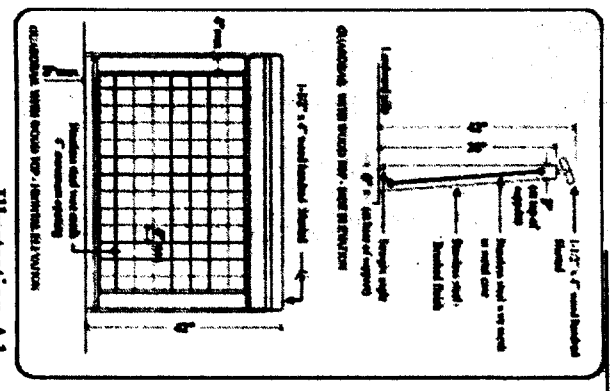

Illustration A2

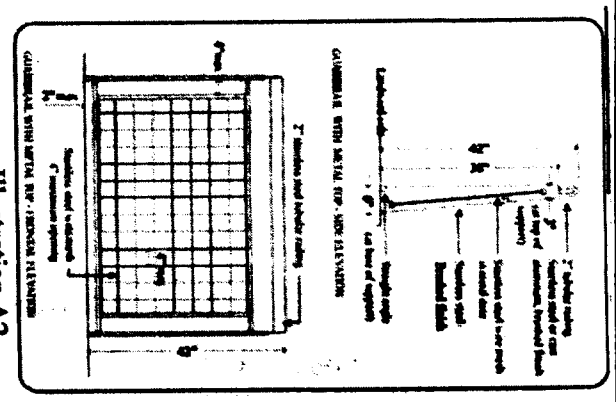

(Alternate for Piers)

(2) Seating

In addition to the provisions of Section 62-672, at least fifty percent of the required seating along any #shore public walkway# or #supplemental public access area# shall comply with illustration B1 or B2 below.

Illustration B1

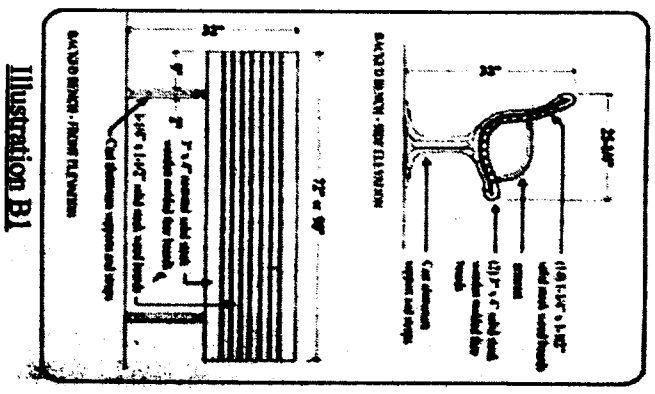

Illustration B2

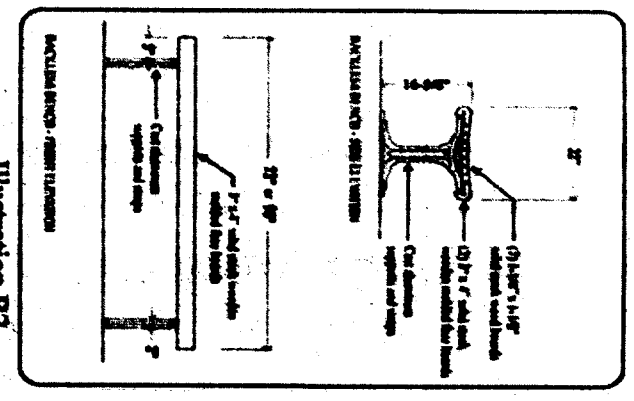

All wood boards shall be made of Redwood, Jarrah or Ipe, have eased edges and ends and be treated for external use without stain or varnish.

All supports and backstraps shall be 713 tenzalloy cast aluminum, with a rust inhibitor and a top coat finish of thermosetting polyester powdercoat that is ultra-violet, chip and flake resistant. Metal components shall have a light gray or aluminum color.

(3) Lighting

In addition to the provisions of Section 62-673, the required lighting along any public access area shall comply with illustration C1 below.

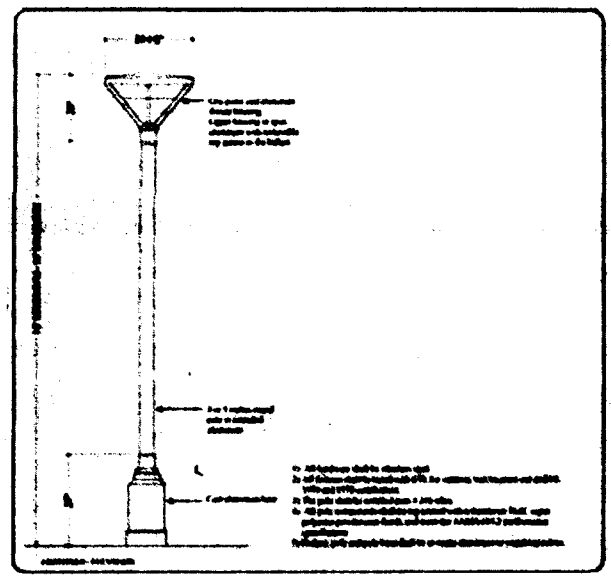

Illustration C1

(4) Planting and trees

The provisions of paragraph (c)(6) (Container planting) of Section 62-675 shall be inapplicable, unless a structural or environmental necessity is demonstrated at the time of certification.

(5) Paving

In addition to the provisions of Section 62-676, the paving for the required clear path within the #shore public walkway# shall be gray. At least fifty percent of all other paved areas within the #shore public walkway# and #supplemental public access areas# shall be paved in the same color range.

(e) Special public access provisions by parcel

The provisions of Sections 62-41 (Requirements for waterfront public access) and 62-60 (DESIGN STANDARDS FOR THE WATERFRONT AREA) are modified at the following designated locations which are shown on Map BK-1b in paragraph (g) of this Section:

1. Parcels 1 and 2

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new

#development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#
The requirements for #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is developed first shall provide an #upland connection# along the #lot line# between the two parcels. The width of the #upland connection# may be utilized by the developer of the remaining parcel in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels, according to the provisions of paragraph (f)(1) of this Section. If both parcels are developed concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

(3) Parcel 5a

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (g) of this Section.

The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot lines of Parcels 5b and 6.

(iii) #Supplemental public access area#

The #supplemental public access area# shall abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. The #upland connection#, however, may cut across the #supplemental public access area# provided that no area shall be less than 5,000 square feet. All #supplemental public access areas# shall have a minimum width to depth ratio of 1.0 to 1.0 and a maximum width to depth ratio of 2.0 to 1.0. In no event shall the #supplemental public access area# be deeper than 100 feet. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

Alternatively, a portion of the required #supplemental public access area# that is a minimum of 5,000 square feet may abut the #shore public walkway# continuously along the longest side provided that it also abuts a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-641, but shall not be counted towards satisfying the required amount of public access area on the site. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(4) Parcel 5b

#Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(5) Parcel 5c

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

Two #upland connections# shall be provided between West Street and the #shore public walkway#, one each located within the prolongation of the #street lines# of Eagle Street, and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided on Parcel 5c.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the pedestrian circulation zone of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(6) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5 and be subject to the following requirements:

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

One #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (g) of this Section. The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.

Two #upland connections# shall be provided between West Street and the #shore public walkway#, each located within the prolongation of the #street lines# of Eagle Street and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5 and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining of the required #supplemental public access area# shall be located within the area bounded by the western prolongation of the north #street line# of Dupont Street, the #shore public walkway#, the northern prolongation of the eastern boundary of Parcel 6 and Parcel 6 . The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(7) Parcel 7

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply, except that any portion of the required #shore public walkway# where the distance between the shoreline and the boundaries of Parcel 7 is less than 17 feet shall be improved entirely as clear path.

(ii) #Supplemental public access area#

The requirement for a #supplemental public access area# on Parcel 7 is waived.

(8) Parcels 9, 10 and 11

(i) #Shore public walkway#

The requirements for Prototype II described in paragraph (b)(2) of this Section shall apply.

(ii) #Supplemental public access area#

For each parcel, the #supplemental public access area# requirements shall be provided to widen the pedestrian circulation zone of the #shore public walkway#, evenly distributed along the entire length of such #shore public walkway#.

(9) Parcel 13

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Milton Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be bounded by the southern #street line# of Greenpoint Avenue, the #shore public walkway# and the northern boundary of the required Milton Street #upland connection#. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(10) Parcel 14

(i) #Shore public walkway#

The area between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# shall be improved pursuant to the requirements of Prototype II described in paragraph (b)(2) of this Section. The remaining required #shore public walkway# shall be improved pursuant to the requirements of Prototype I as described in paragraph (b)(1) of this Section.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway#. The southern boundary of such #upland connection# shall be defined by a line between the intersection of the prolongation of the southern #street line# of Calyer Street and the western #street line# of West Street, and a point on the easterly boundary of the #shore public walkway# 30 feet north of the northern #street line# of Quay Street

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided. A #supplemental public access area# with a minimum of 9,000 square feet shall be provided between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# to widen the pedestrian circulation zone of the #shore public walkway#.

The remaining requirements for #supplemental public access area# shall be located in the area bounded by the southern boundary of the required Calyer Street #upland connection#, the #shore public walkway# and the southern boundary line of the parcel. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(11) Parcel 15

An #upland connection# shall be provided within the prolongation of the #street lines# of WestStreet, connecting Quay Street to Parcel 20.

(12) Parcels 19, 20, 21 and 22

Parcels 19, 20, 21 and 22 shall be designated as public parks as of (date of adoption).

(13) Parcel 24

#Shore public walkway#

Prototype I described in paragraph (b)(1) of this Section shall apply.

(14) Parcel 25

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of North 6th Street.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.

One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet from the southern #street line# of North 7th Street. The entire #supplemental public access area#, excluding the required buffer, shall be developed as clear circulation path.

A minimum of one linear foot of seating shall be required for every 40 square feet of pedestrian circulation zone and shall be located in the required buffer zone. Four trees shall be required, at least two of which are shade trees. Small or ornamental trees located within the buffer zone shall not be counted toward the minimum requirements.

The remaining required #supplemental public access area# shall be located either on the #pier# or abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. At least 70 percent of the required #supplemental public access# shall have a width to depth ratio of 2 to 1. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on a #pier# located at the western terminus of North 6th Street pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(15) Parcel 26

(i) #Shore public walkway#

The requirements of Section 62-411 (Requirements for shore public walkways) shall apply, except that the minimum required width of the #shore public walkway# shall be reduced to 34 feet between North 5th Street and the northern boundary of the required #upland connection# at the prolongation of North 4th Street. The quantity of public access eliminated from the #shore public walkway# as a result of this width reduction shall be located in the triangle formed between the #shore public walkway#, the southern #street line# of the North 4th Street #upland connection# and the bulkhead line. The entirety of the #shore public walkway# shall be improved pursuant to the requirements for Prototype I described in paragraph (b)(1) of this Section.

(ii) #Upland connections#

An #upland connection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street.

(16) Parcel 27

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure#, but shall not need to be wider than 40 feet.

Notwithstanding the requirements of Paragraph (c) of Section 62-62 (General Requirements for Public Access), the #shore public walkway# may be located within the #building or other structure#, and the obstructions permitted by Section 62-626, paragraph (a), shall include any supporting structural elements of the #building or other structure# and its related appurtenances. Additionally, the #shore public walkway# shall have a minimum clear path of 12 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#

The requirements for #supplemental public access# shall be waived.

(f) Special visual corridor provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan are shown on Map BK-1c in paragraph (g) of this Section and shall be as follows:

(1) Parcels 3 and 4

A #visual corridor# shall be provided through Parcels 3 and 4 to the pierhead line within a flexible area along the #lot lines# between them.

Whichever parcel develops second shall complete the required clearance to comply with the #visual corridor# requirements along the #upland connection# already provided in accordance with the requirements of paragraph (e)(2)(ii) of this Section. If both parcels are developed concurrently, then the requirements can be divided equally along the #lot line# between the parcels.

(2) Parcel 5a

A #visual corridor# shall be provided through Parcel 5a to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(3) Parcel 5b

Two #visual corridors# shall be provided through Parcel 5b to the pierhead line as the prolongation of the #street lines# of West Street and Dupont Street, respectively.

(4) Parcel 5c

(i) Three #visual corridors# shall be provided through Parcel 5c to the pierhead line as the prolongation of the #street lines# of West Street, Eagle Street and Green Street.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be permitted obstructions along the #visual corridor# along Green Street.

(5) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5, subject to the following #visual corridors# requirements:

(i) One #visual corridor# shall be provided through Parcel 5 to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.
Four #visual corridors# shall be provided through Parcel 5 to the pierhead line, each located as the prolongation of the #street lines# of West Street, Dupont Street, Eagle Street and Green Street, respectively.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be allowed along the #visual corridor# along Green Street.

(6) Parcel 13

Two #visual corridors# shall be provided through Parcel 13 to the pierhead line as the prolongation of the #street lines# of Milton Street and Oak Street, respectively.

(7) Parcel 14

A #visual corridor# shall be provided through Parcel 14 as the prolongation of the #street lines# of Oak Street.

(8) Parcel 15

A #visual corridor# shall be provided though Parcel 15 as the prolongation of the #stret lines# of West Street.

(9) Parcel 25

A #visual corridor# shall be provided through Parcel 25 as the prolongation of the #street lines# of North 6th Street.

REDEVELOPMENT OF A PORTION OF THE FARM COLONY IN STATEN ISLAND – Request for Expressions of Interest – DUE 02-18-05 AT 4:00 P.M. – Located in the Willowbrook area of central Staten Island, the Site is part of the Farm Colony - Seaview Hospital Historic District. The approximately 59-acre Site is zoned R3-2 with a NA-1 (Special Natural Area District) overlay. Eleven historically significant and deteriorated buildings are located on the Site, which is identified as Block 1955, part of Lot 1 in the Borough of Staten Island tax map.
NYCEDC's goal is to solicit ideas for the redevelopment of the Site that address the unique constraints affecting development including, but not limited to, the rehabilitation and adaptive reuse of the existing buildings. Other development goals include sensitivity to both the Site's location in a Special Natural Area District and its bucolic setting within the Staten Island Greenbelt, as well as the Site's adjacency to low-density residential and institutional development. Therefore, development concepts should focus on cultural, educational, and recreational uses permitted by zoning. All proposals for new construction must be consistent with the recommendations made by the Mayor's Staten Island Growth Management Task Force. Further, general residential uses will not be permitted on the Site. Senior housing, although not a preferred use, will be considered on a case-by-case basis.

A question-and-answer session to discuss the Site and tour will be held on January 20, 2005 at 10:00 a.m. To attend the question-and-answer session and site visit, please call (212) 312-3875 on or before January 14, 2005. Interested parties are strongly encouraged to attend.

For more information, and to request a copy of the RFEI, visit www.nycedc.com/farmcolonyRFEI or call (212) 312-3969. Please submit six (6) copies of your proposal.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

REHAB. ON THE STATEN ISLAND RAILROAD ARTHUR KILL LIFT BRIDGE – Public Bid – DUE 01-27-05 AT 2:00 P.M. – As part of the City's efforts to reactivate freight service on the Staten Island Railroad, the New York City Economic Development Corp. is letting this bridge rehab. contract (#5320016). Located between the Howland Hook Marine Terminal and the Gothels Bridge on the west shore of Staten Island, the Arthur Kill Lift Bridge is a single-track movable bridge that spans approximately 500' over the Arthur Kill. Built in 1958 this bridge was in use until the early 1990's. The bridge is currently operational and the intent of this rehab is to prepare it for daily reliable use. The proposed bid date is January 27, 2005 and a site visit is schedule for January 6, 2005. Bidders interested in attending the site visit must register at the Port Ivory Security Office on Western Avenue, a pre walk through meeting will be held at Port Ivory Administration Building.

The scope of work entails lead paint abatement, cleaning and painting structural steel and machinery house exteriors, concrete spall and crack repairs, replacement of bridge walkways and railings, electric signal and power upgrades, installation of new meter house and meter house electrical equipment, bridge machinery repairs, bridge balancing and start-up. The engineer's estimate is approximately $6,000,000. The cost of the Bid package is $200 USD payable to either a certified bank check or money order. Cash, personal or company checks are not acceptable. All submitted bids are required to have a Bid bond.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 08-28-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew.

Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. REQUEST FOR COMMENT ON APPLICATION FOR CERTIFICATE OF NO HARASSMENT PURSUANT TO THE SPECIAL CLINTON DISTRICT PROVISIONS OF THE ZONING RESOLUTION

DATE OF NOTICE: January 6, 2005

TO: OCCUPANTS, FORMER OCCUPANTS AND OTHER INTERESTED PARTIES OF

Address	Application #	Inquiry Period
785 9th Avenue, Manhattan	C25/04	September 5, 1973 to Present

Prior to the issuance of a permit by the Department of Buildings for the alteration or demolition of residential buildings in certain areas of the Special Clinton District, the Department of Housing Preservation and Development is required to certify that: 1) prior to evicting or otherwise terminating the occupancy of any tenant preparatory to alteration or demolition, the owner shall have notified HPD of the owner's intention to alter or demolish the building and 2) the eviction and relocation practices followed by the owner of the building satisfy all applicable legal requirements and that no harassment has occurred.

The owner of the building located at the above-referenced address seeks the issuance of an HPD Certification. The owner has represented and certified to HPD of the owner's intention to alter or demolish the building and that the eviction and relocation practices followed by the owner satisfy all applicable legal requirements and that no harassment has occurred. For your information HPD considers harassment to include, but not be limited to, the threatened or actual use of physical force, deprivation of essential services such as heat, water, gas or electric, or any other conduct intended to cause persons to vacate the premises or waive rights related to their occupancy.

HPD requests that if you have any comments or evidence of unlawful eviction and relocation practices or harassment occurring at the above referenced premises that you notify the Housing Litigation Division, SRO Anti-Harassment Unit, 3rd Floor, 100 Gold Street, New York, NY 10038, by letter postmarked not later than 30 days from the date of this notice or by an in-person statement made within the same period. READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

CHARTER REVISION COMMISSION

■ PUBLIC MEETING

The 2005 Charter Revision Commission will hold a public meeting on January 19, 2005. The topic of this meeting will be administrative law reform. The Commission will hear expert testimony from Carol Robles-Roman, Deputy Mayor for Legal Affairs. Although administrative law reform will be the main subject of this public meeting, Commission business will not necessarily be limited to that topic. The Commission may also consider other topics related to its review of the City Charter. As this is a public meeting and not a public hearing, the public will have the opportunity to observe, but not to testify.
Time: 7:00 P.M.
Location: Spector Hall, 22 Reade Street, 1st Floor. Located between Broadway and Centre Street in Lower Manhattan.

Individuals requesting spoken or sign language interpreters for any of these public meetings should contact Commission staff member Brian Geller at (212) 788-2952 five (5) business days prior to the Public Meeting. TDD users should call Verizon Relay Services.

To contact the Commission by telephone, please call (212) 676-2060.
To contact the Commission by mail, please write to:
New York City Charter Revision Commission
2 Lafayette Street, 14th Floor
New York, NY 10007

62-35
Special Bulk Regulations within Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1 the Special Bulk Regulations of this section are further modified as delineated herein.

62-351
Special floor area, lot coverage and residential density distribution regulations

Within any parcel, and between any adjacent parcels which are under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined in (e) of the definition of a #zoning lot# in Section 12-10), identified in Waterfront Access Plan BK-1; the total #floor area# and #lot coverage# permitted pursuant to Section 62-32 and the residential density permitted pursuant to Section 23-22 may be located anywhere within such parcel or between such parcels without regard to #zoning lot lines# or district boundaries provided that such location of #floor area#, #lot coverage# or residential density complies with Section 62-31 and Section 62-34 as modified by Section 62-352.

62-352
Special Height and Setback Regulations

The provisions of Section 62-341 are modified as follows:

(a) Paragraph (c)(1) (Maximum base height) shall be modified in R6 Districts to permit a maximum base height of 65 feet or six #stories#, whichever is less.

(b) Paragraph (c)(2) (Maximum #building# height) shall not apply. In lieu thereof, the maximum #building# height in an R6 District shall be 65 feet or six #stories#, whichever is less, within 100 feet of Commercial Street, West Street, Dupont Street, Franklin Street and Kent Avenue. Beyond 100 feet of such streets and any other portions of an R6 District, the maximum #building# height in shall be 110 feet. In R8 Districts, the maximum #building# height shall be 210 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 200 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 210 feet to a maximum #building# height of 310 feet. Such maximum #building# heights of 110 feet, 210 feet and 310 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 110 feet, 210 feet or 310 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

(c) Paragraphs (c)(3) (#Floor area# distribution) and (c)(5) (Additional setback provisions for high #buildings#) shall not apply.

(d) Paragraph (c)(4) (Maximum #residential# tower size) shall not apply. In lieu thereof, each #residential story# of a #building# located entirely above a height of 85 feet shall not exceed a gross area of 8,100 square feet in an R6 District and 11,000 square feet in an R8 District.

(e) Paragraph (c)(6) shall not apply. In lieu thereof, the maximum length of any #story# of a #building# that exceeds a height of 65 feet in an R6 District or 85 feet in an R8 District shall not exceed 170 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above such heights. Any side of such rectangle shall not exceed 170 feet.

(f) Paragraph (c)(7) (Ground floor streetscape provisions) shall not apply. In lieu thereof, all off-street parking spaces located within 50 feet of a #street#, a #visual corridor# containing a private road, and a #shore public walkway#, #upland connection# or #supplemental public access area# and which are located on a #story# that is above the #base plane# shall be within facilities that are located behind #commercial#, #community facility# or #residential floor area# so that no portion of such parking facility, other than entrances and exits, is visible from such #streets#, #visual corridors# or publicly accessible open spaces. Such #floor area# shall have a minimum depth of 25 feet. Seventy percent of the surface area of the facade of a facility containing parking spaces which are not otherwise required to be behind such #floor area# shall be composed of the same materials as the facade of the #building# in which it is located.

(g) Any roof of a facility containing off-street parking spaces, not otherwise covered by a #building#, which is larger than 400 square feet shall be landscaped and accessible for the recreational use of the occupants of the building in which it is located. Hard surfaced areas shall not cover more than 60 percent of such roof area.

(h) The #streetwall# of a #building# on any #zoning lot# fronting on Commercial Street, West Street and Kent Avenue shall be located within eight feet of, and extend along 70 percent of such #street line# to a minimum height of 40 feet.

(i) All #developments#, conversions, and #enlargements# or #extensions# which increase the existing #floor area# by more than 10 percent, shall provide along the entire #street# length of the #zoning lot#, one tree for every 25 feet of # street# frontage. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals except where the Commissioner of Buildings determines that such tree planting would be unfeasible. Such trees shall be planted in accordance with the standards of the Department of Parks and Recreation.

Special Parking and Loading Regulations for Waterfront Access Plan BK-1
Within Waterfront Access Plan BK-1 the Special Parking and Loading Regulations of this section are further modified as follows:

(y) The provisions of Section 62-511 and Section 62-521 shall not be applicable.

(z) #Accessory# off-street parking spaces for #uses# permitted pursuant to Section 62- 29 shall be provided in conformity with the regulations of Sections 36-21, 36-22 and 36-232 for C2-4 districts.

(aa) Any required #accessory# off-street parking spaces provided for #uses# located on a parcel identified in Waterfront Access Plan BK-1 may be located anywhere within such parcel.

Waterfront public access and visual corridors

* * *

5. for the #development# of a park, a site plan and all other applicable data have been submitted showing compliance with the provisions of Section 62-416 (Special regulations for zoning lots that include parks).

A certification pursuant to paragraph (c) of this section, for any parcel identified in Waterfront Access Plan BK-1, may provide for the phased implementation of all required public access areas provided that an amount of public access area proportionate to the amount of #floor area# being developed on the parcel is provided in each phase. Additionally, for any #development# located within 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 200 linear feet of #shore public walkway# and any adjacent supplemental area, one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway# and, shall have at least one other connection from such required portion of the #shore public walkway# to an adjacent #shore public walkway#, a #street# or another #upland connection#. For any #development# located entirely beyond 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 100 linear feet of #shore public walkway#, and one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway#.

A certificate pursuant to paragraphs (b) or (c) of this Section shall be granted on condition that an acceptable restrictive declaration is executed and filed pursuant to Section 62-14 (Requirements for Recordation).

62-812
Elements of a Waterfront Access Plan

A Waterfront Access Plan may:

1) on #zoning lots# where public access or #visual corridors# are required pursuant to the provisions of Sections 62-40 and 62-60, modify the size, configuration, location or design of required waterfront public access areas or #visual corridors# within certain designated areas in order to address local conditions, provided such plan does not impose a public access or #visual corridor# requirement on any #zoning lot# greater than would otherwise be required pursuant to the provisions of Sections 62-40 or 62-60. For the purpose of determining the amount of public access, the highest standard applicable to a zoning lot may be applied regardless of any specific #use# permitted or proposed for such #zoning lot#. Within Waterfront Access Plan BK-1, the public access and #visual corridor# requirements for any parcel located within the Waterfront Access Plan may be determined by aggregating the public access and #visual corridor# requirements of each zoning lot within the parcel and such aggregated requirements may be modified within such parcel without regard to #zoning lot lines#;

62-831

Waterfront Access Plan BK-1:
Greenpoint-Williamsburg
Maps BK-1a through BK-1c in paragraph (g) of this Section show the boundaries of the area comprising the Greenpoint-Williamsburg Waterfront Access Plan and the location of certain features mandated or permitted by the Plan. The plan area has been divided into parcels consisting of tax blocks and lots and other lands as established on (date of adoption), as follows:

(3) The provisions of Section 62-623 (Supplemental public access areas) shall be inapplicable. In lieu thereof, the following provisions shall apply:

A required #supplemental public access area# shall be directly connected to either a #pier# public access area, an #upland connection# or a #shore public walkway# on either its landward or seaward side and its pedestrian circulation zone shall be contiguous with the adjacent pedestrian circulation zone.

2) A buffer zone shall only be required where a #supplemental public access area# adjoins a non-publicly accessible portion of a #zoning lot#, in which case its minimum width shall be 15 feet.

(4) #Street# Treatment

All #streets# adjacent to a #shore public walkway# or #supplemental public access area# shall be improved as a continuation of such #shore public walkway# or #supplemental public access area#, pursuant to the design requirements of paragraph (b) of this Section, inclusive.

(b) Specific design requirements for shore public walkway prototypes

The provisions of Section 62-63 (Specific Design Requirements for Public Access Prototypes) shall be inapplicable. In lieu thereof the following provisions for #shore public walkways# shall apply:

(1) Greenpoint-Williamsburg Shore Public Walkway-Prototype I

1. One circulation path with a minimum clear width of 12 feet is required.

The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path.

(ii) A minimum of one linear foot of seating shall be provided for every 100 square feet of #shore public walkway#. At least 60 percent of the required seating shall be landward of the required circulation path.

(iii) A minimum of 50 percent of the pedestrian circulation zone, excluding the required circulation path, shall be planting area. Rip rap, beach or other shoreline materials may be counted as an equivalent to planting area.

(iv) One shade tree is required for every 1,200 square feet of #shore public walkway# and one small or ornamental tree shall be required for every 750 square feet of #shore public walkway#. Trees may be located either in the pedestrian circulation zone landward of the required circulation path or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(2) Greenpoint-Williamsburg Shore Public Walkway-Prototype II

1) The provisions of 62-621 (Shore public walkways) shall apply except that a #shore public walkway# shall have a minimum 30 foot pedestrian circulation zone and a minimum 15 foot buffer zone.

2) One circulation path with a minimum

clear width of 12 feet is required. The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path, in which case, the path shall be located within 20 feet of the shoreline. A secondary circulation path may be provided, with a minimum width of 10 feet. Connecting paths having a minimum width of ten feet shall be provided between the two circulation paths at intervals not to exceed 100 feet.

3) A minimum of one linear foot of seating shall be provided for every 70 square feet of #shore public walkway#.

4) A minimum of 70 percent of the pedestrian circulation zone, excluding the required circulation path and transition zones, shall be planting area. A minimum of 50 percent of this planting area must be improved as lawn according to the provisions of Section 62-675 (Planting and trees).

(v) One shade tree is required for every 1,900 square feet of #shore public walkway# and shall be located in the pedestrian circulation zone. In addition, one shade, small or ornamental tree shall be required for every 850 square feet of #shore public walkway# and may be located either in the pedestrian circulation zone or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(3) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Plaza

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 40 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 25 percent of the pedestrian circulation zone shall be planting area.

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(4) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Park

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 50 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 60 percent of the pedestrian circulation zone shall be planting area with no more than 30 percent of the planting area in raised planting beds. At least 35 percent of the #supplemental public access area# shall be lawn in compliance with the standards set forth in paragraph (c)(5) of Section 62-675 (Planting and trees).

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(c) Amenities

In parcels where #supplemental public access area# is required, no more than fifteen percent of public access area may be reduced if playgrounds and other amenities are provided in accordance with paragraphs (c)(1) and (c)(2) of this Section.

(1) Playgrounds

A playground shall have a minimum size of 1,000 square feet and, if applicable, there shall be a minimum of 400 feet between any two playground areas. For every five square feet of playground area provided, the total amount of required public access may be reduced by the rate of one square foot.

(2) Other amenities

A reduction in the total amount of required public access area shall be permitted according to the following table. The number and variety of such amenities shall be determined upon certification.

Amenity	Square feet reduction
Picnic table	22 sq. ft.
Chess table	20 sq. ft.
Telescope	10 sq. ft.
Art	50 - 200 sq. ft.
Fountain/water feature	50 - 200 sq. ft.
Shade structure	50 - 200 sq. ft.

(d) Public access design reference standards

Section 62-67 is hereby modified by the following provisions.

(1) Guardrails

The provisions of paragraph (a) Section 62-671 (Guardrails, gates and other protective barriers) shall be inapplicable. In lieu thereof the following provisions for guardrails shall apply:

(i) Guardrails shall be located within waterfront public access areas continuously along any bulkhead, stabilized shore or the water edges of a #pier# or #platform# that is located within 50 feet of a circulation path; and continuously along any grade level change of 30 inches or grader adjoining or within 10 feet of a circulation path. However, guardrails shall not be required landward of any rip rap, beach or any other shoreline material that is at least 10 feet wide. If any protective barrier is provided adjacent to any rip rap, beach or other shoreline material, they shall not exceed a height of 21 inches or shall consist of a bollard and chain device.

Guardrails shall not be required at access points to WD #uses# and #development# on #floating structures#. The minimal protective barrier at such locations shall be a swing gate, bollard and chain or similar device.

(ii) Guardrails shall comply with illustration A1, alternatively illustration A2 may be used in #piers#.

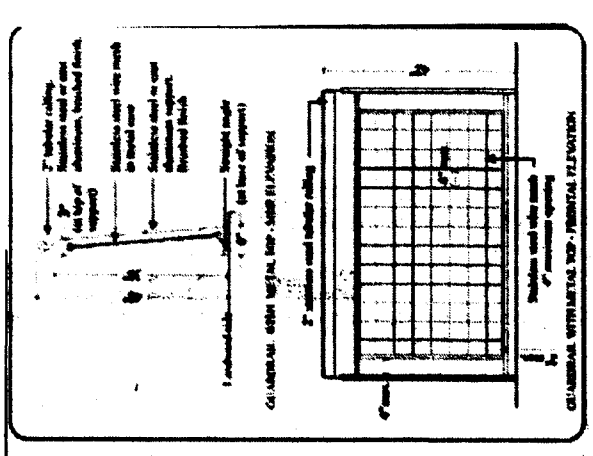

Illustration A2

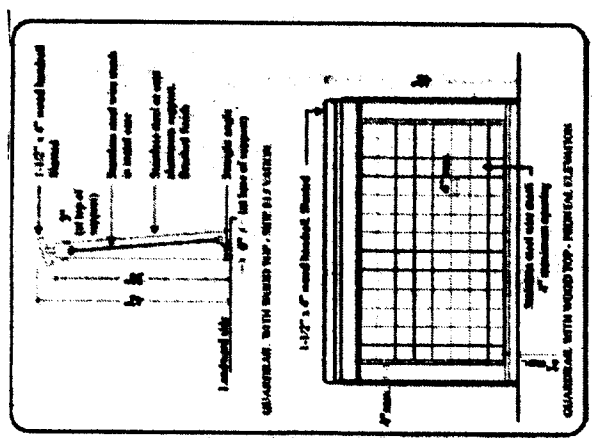

Illustration A1

(Alternate for Piers)

All guardrail components and hardware shall be in stainless steel or cast aluminum, as applicable.

(2) Seating

In addition to the provisions of Section 62-672, at least fifty percent of the required seating along any #shore public walkway# or #supplemental public access area# shall comply with illustration B1 or B2 below.

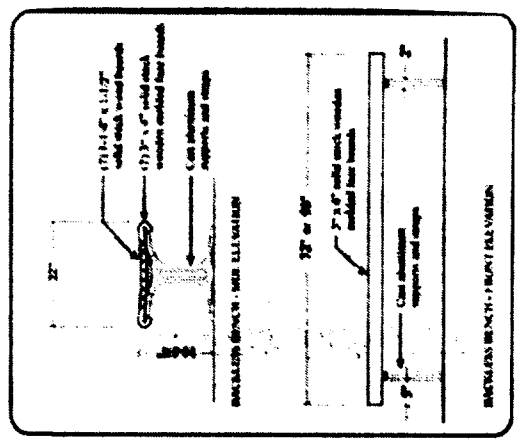

Illustration B2

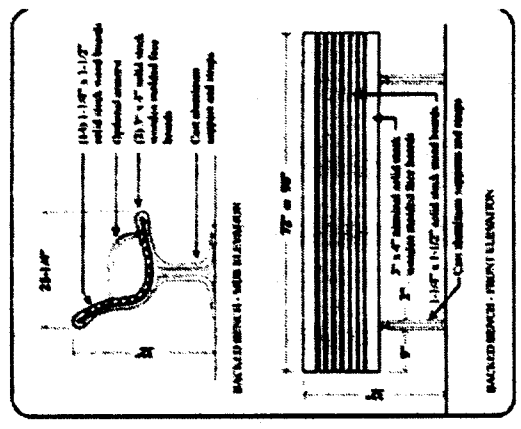

Illustration B1

All wood boards shall be made of Redwood, Jarrah or Ipe, have eased edges and ends and be treated for external use without stain or varnish.

All supports and backstraps shall be 713 tenzalloy cast aluminum, with a rust inhibitor and a top coat finish of thermosetting polyester powdercoat that is ultra-violet, chip and flake resistant. Metal components shall have a light gray or aluminum color.

(3) Lighting

In addition to the provisions of Section 62-673, the required lighting along any public access area shall comply with illustration C1 below.

(4) Planting and trees

The provisions of paragraph (c)(6) (Container planting) of Section 62-675 shall be inapplicable, unless a structural or environmental necessity is demonstrated at the time of certification.

(5) Paving

In addition to the provisions of Section 62-676, the paving for the required clear path within the #shore public walkway# shall be gray. At least fifty percent of all other paved areas within the #shore public walkway# and #supplemental public access areas# shall be paved in the same color range.

(e) Special public access provisions by parcel

The provisions of Sections 62-41 (Requirements for

waterfront public access) and 62-60 (DESIGN STANDARDS FOR THE WATERFRONT AREA) are modified at the following designated locations which are shown on Map BK-1b in paragraph (g) of this Section:

1. Parcels 1 and 2

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#
The requirements for #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is developed first shall provide an #upland connection# along the #lot line# between the two parcels. The width of the #upland connection# may be utilized by the developer of the remaining parcel in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels, according to the provisions of paragraph (f)(1) of this Section. If both parcels are developed concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

(3) Parcel 5a

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location indicated on Map BK-1b in paragraph (g) of this Section.

The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(iii) #Supplemental public access area#

The #supplemental public access area# shall abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. The #upland connection#, however, may cut across the #supplemental public access area# provided that no area shall be less than 5,000 square feet. All #supplemental public access areas# shall have a minimum width to depth ratio of 1.0 to 1.0 and a maximum width to depth ratio of 2.0 to 1.0. In no event shall the #supplemental public access area# be deeper than 100 feet. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

Alternatively, a portion of the required #supplemental public access area# that is a minimum of 5,000 square feet may abut the #shore public walkway# continuously along the longest side provided that it also abuts a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-641, but shall not be counted towards satisfying the required amount of public access area on the site. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(4) Parcel 5b

#Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(5) Parcel 5c

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

Two #upland connections# shall be provided between West Street and the #shore public walkway#, one located within the prolongation of the #street lines# of Eagle Street, the other located within the prolongation of the #street lines# of Green Street.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided on Parcel 5c.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the pedestrian circulation zone of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(6) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5 and be subject to the following requirements:

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

One #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location indicated on Map BK-1b in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.

Two #upland connections# shall be provided between West Street and the #shore public walkway#, each located within the prolongation of the #street lines# of Eagle Street and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5 and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining of the required #supplemental public access area# shall be located within the area bounded by the western prolongation of the north #street line# of Dupont Street, the #shore public walkway#, the northern prolongation of the eastern boundary of Parcel 6 and Parcel 6. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section

(7) Parcel 7

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply, except that any portion of the required #shore public walkway# where the distance between the shoreline and the boundaries of Parcel 7 is less than 17 feet shall be improved entirely as clear path.

(ii) #Supplemental public access area#

The requirement for a #supplemental public access area# on Parcel 7 is waived.

(8) Parcels 9, 10 and 11

(i) #Shore public walkway#

The requirements for Prototype II described in paragraph (b)(2) of this Section shall apply.

(ii) #Supplemental public access area#

For each parcel, the #supplemental public access area# requirements shall be provided to widen the pedestrian circulation zone of the #shore public walkway#, evenly distributed along the entire length of such #shore public walkway#.

(9) Parcel 13

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Milton Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be bounded by the southern #street line# of Greenpoint Avenue, the #shore public walkway# and the northern boundary of the required Milton Street #upland connection#. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(10) Parcel 14

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Calyer Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be distributed evenly along the #shore public walkway# between the southern boundary of the required Calyer Street #upland connection# and the prolongation of the northern #street line# of Quay Street. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(11) Parcel 15

An #upland connection# shall be provided within the prolongation of the #street lines# of West Street, connecting QuayStreet to Parcel 20.

(12) Parcels 19, 20, 21 and 22

Parcels 19, 20, 21 and 22 shall be designated as public parks as of (date of adoption).

(13) Parcel 24

Prototype I described in paragraph (b)(1) of this Section shall apply.

(14) Parcel 25

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of North 6th Street.

(iii) #Supplemental public access area#
Two #supplemental public access areas# shall be provided.

One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet from the southern #street line# of North 7th Street. The entire #supplemental public access area#, excluding the required buffer, shall be developed as clear circulation path.

A minimum of one linear foot of seating shall be required for every 40 square feet of pedestrian circulation zone and shall be located in the required buffer zone. Four trees shall be required, at least two of which are shade trees. Small or ornamental trees located within the buffer zone shall not be counted toward the minimum requirements.

The remaining required #supplemental public access area# shall be located either on the #pier# or parallel to the #shore public walkway#. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the North 6th Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(15) Parcel 26

(i) #Shore public walkway#

The requirements of Section 62-411 (Requirements for shore public walkways) shall apply, except that the minimum required width of the #shore public walkway# shall be reduced to 34 feet between North 5th Street and the northern edge of the required #upland connection# at the prolongation of North 4th Street. The quantity of public access eliminated from the #shore public walkway# as a result of this width reduction shall be located in the triangle formed between the #shore public walkway#, the southern #street line# of the North 4th Street #upland connection# and the bulkhead line. The entirety of the #shore public walkway# shall be improved pursuant to the requirements for Prototype I described in paragraph (b)(1) of this Section.

(ii) #Upland connections#

An #upland connection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street.

(16) Parcel 27

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure#, but shall not need to be wider than 40 feet.

Notwithstanding the requirements of Paragraph (c) of Section 62-62 (General Requirements for Public Access), the #shore public walkway# may be located within the #building or other structure#, and the obstructions permitted by Section 62-626, paragraph (a), shall include any supporting structural elements of the #building or other structure# and its related appurtenances. Additionally, the #shore public walkway# shall have a minimum clear path of 12 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#
The requirements for #supplemental public access# shall be waived.

(f) Special visual corridor provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan are shown on Map BK-1c in paragraph (g) of this Section and shall be as follows:

(1) Parcels 3 and 4

A #visual corridor# shall be provided through Parcels 3 and 4 to the pierhead line within a flexible area along the #lot lines# between them.

Whichever parcel develops second shall complete the required clearance to comply with the #visual corridor# requirements along the #upland connection# already provided in accordance with the requirements of paragraph (e)(2)(ii) of this Section. If both parcels are developed concurrently, then the requirements can be divided equally along the #lot line# between the parcels.

(2) Parcel 5a

A #visual corridor# shall be provided through Parcel 5a to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(3) Parcel 5b

Two #visual corridors# shall be provided through Parcel 5b to the pierhead line as the prolongation of the #street lines# of West Street and Dupont Street, respectively.

(4) Parcel 5c

(i) Two #visual corridors# shall be provided through Parcel 5c to the pierhead line as the prolongation of the #street lines# of Eagle Street and Green Street.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be permitted obstructions along the #visual corridor# along Green Street.

(5) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5, subject to the following #visual corridors# requirements:

(i) One #visual corridor# shall be provided through Parcel 5 to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.
Four #visual corridors# shall be provided through Parcel 5 to the pierhead line, each located as the prolongation of the #street lines# of West Street, Dupont Street, Eagle Street and Green Street, respectively.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be allowed along the #visual corridor# along Green Street.

(6) Parcel 13

Two #visual corridors# shall be provided through Parcel 13 to the pierhead line as the prolongation of the #street lines# of Milton Street and Oak Street, respectively.

(7) Parcel 14

A #visual corridor# shall be provided through Parcel 14 as the prolongation of the #street lines# of Oak Street.

(8) Parcel 15

A #visual corridor# shall be provided though Parcel 15 as the prolongation of the #stret lines# of West Street.

(9) Parcel 25

A #visual corridor# shall be provided through Parcel 25 as the prolongation of the #street lines# of North 6th Street.

INCLUSIONARY HOUSING

23-91
General Provisions

~~R10~~

~~In the district indicated, a~~An Inclusionary Housing program is established in those areas designated in Section 23-92 (Applicability) to preserve and to promote a mixture of low to upper income housing within neighborhoods experiencing a shift from mixed to upper income housing and thus to promote the general welfare. The requirements of this program are set forth in Sections 23-90 through 23-~~94~~95.

23-92
Applicability

23-921
R10 Districts

The Inclusionary Housing Program shall apply in R10 Districts.

23-922
Community District 1, Borough of Brooklyn

The Inclusionary Housing Program shall apply in the following areas of Community District 1 in the Borough of Brooklyn located north of the Williamsburg Bridge, Washington Plaza, Borinquen Place and Grand Street:

(a) Waterfront Access Plan BK-1, as set forth in Section 62-352;

(b) all #Special Mixed Use Districts#;

(c) all R6A, R6B and R7A Districts; and

(d) the following R6 areas:

(1) the #block# bounded by Havemeyer Street, North Sixth Street, Metropolitan Avenue and North Fifth Street;

(2) the #block# bounded by Roebling Street, North Fifth Street, Havemeyer Street and Metropolitan Avenue;

(3) those #blocks# bounded by Wythe Avenue, Grand Street, Berry Street and South Third Street;

(4) those #blocks# and portions of #blocks# bounded by Bedford Avenue, North 1st Street, Driggs Street, Fillmore Place, Roebling Street, and a line coincident with the centerline of the long dimension of the #blocks# bounded by Bedford Avenue, Grand Street, Roebling Street and South First Street; and

(5) that portion of the #block# bounded by Franklin Street, Huron Street, Manhattan Avenue and India Street that is within 100 feet of Franklin Street and 100 feet of India Street.

~~23-92~~ 23-93
Definitions

For the purposes of the Inclusionary Housing program, matter in italics is defined either in Section 12-10 (DEFINITIONS) or in this Section.

Fair rent

* * *

* * *

At initial occupancy of any #lower income housing#, no portion of the #fair rents# shall be for the payment of the principal or interest on any debt, and the #lower income housing# shall not secure any debt and shall be free of all liens, except liens for real estate taxes, water charges and sewer rents and other governmental charges for which payment is not yet due. #Fair rents# may be used for the payment of principal or interest of debt only if such debt was incurred after the date of initial occupancy and is for a capital improvement to such #lower income housing# other than those capital improvements set forth in the #lower income housing plan#.

In Community District 1, Borough of Brooklyn, at initial occupancy of any #lower income housing#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95(c) o this Resolution, and provided that the lender agrees to enter into a written agreement which subordinates such debt.

Lower income household

A "lower income household" is a #family# having an income equal to or less than the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U.S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.
In Community District 1, Borough of Brooklyn, for the purposes of Section 23-953 (Preservation option), #lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City and State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with U. S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.
Lower income housing

"Lower income housing" are #standard units# occupied or to be occupied by #lower income households#. #Lower income housing# shall not include #standard units# assisted under city, state or federal programs, except where such assistance is in the form of:

(e) real estate tax abatements and exemptions which are specifically limited to the #lower income housing#; or

(f) operating assistance that the Commissioner of the Department of Housing Preservation and Development determines will be used to enable households with incomes of not more than 62.5 percent of the "80 Percent of SMSA Limits" to afford such #lower income housing#.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall include #standard units# assisted under city, state or federal programs.

Lower income housing plan

The "lower income housing plan", is the plan accepted by the Commissioner of Housing Preservation and Development, which sets forth the developer's plans for creating and maintaining the specified #lower income housing# pursuant to this program, including but not limited to, choice of #administering agent#, tenant selection, rent levels in the #lower income housing# and income verification of tenants pursuant to Section ~~23-94~~ 23-95 paragraphs (b), (c) and (d) of this Resolution.

~~23-93~~ 23-94
Floor Area Compensation

23-941
In R10 Districts

The #floor area ratio# of a #development# may be increased from 10.0 to a maximum of 12.0 at the rate set forth in this Section, if the developer of such #development# provides #lower income housing# pursuant to Section ~~23-94~~ 23-95 (Lower Income Housing Requirements).

For each square foot of #floor area# provided for #lower income housing# pursuant to the options listed in Column A and which meets the requirements set forth in Section ~~23-94~~ 23- 95, the #floor area# of the #development# may be increased by the number of square feet set forth in Column B.

* * *

23-942
In Community District 1, Borough of Brooklyn

The provisions of this Section 23-942 shall apply in the designated areas set forth in Section 23-922, except within Waterfront Access Plan Bk-1. The base #floor area ratio# of any #building developed# or #enlarged# pursuant to the Quality Housing Program, or, in #Special Mixed Use Districts#, pursuant to paragraph (b) of Section 123-662, may be increased to the maximum #floor area ratio# set forth in the table below if the developer of such #development# provides #lower income housing# pursuant to Section 23-95 (Lower Income Housing Requirements).

District	Base #floor area ratio#	Maximum #floor area ratio#
R6B	2.0	2.2
R6*	2.2	2.42
R6A	3.0	3.6
R6**	3.0	3.6
R7A	4.0	4.6

* for #zoning lots#, or portions thereof, beyond 100 feet of a #wide street#
** for #zoning lots#, or portions thereof, within 100 feet of a #wide street#

For each square foot of #floor area# provided for #lower income housing# pursuant to the options listed in Column A and which meets the requirements set forth in Section 23-95, the #floor area# of the #development# or #enlargement# may be increased by the number of square feet set forth in Column B.

Lower Income Housing Requirements

~~R10~~

To qualify for the increased #floor area#, #compensated developments# must provide #lower income housing# for the life of the increased #floor area# in the #compensated development# pursuant to one or more of the options listed in Section ~~23-941, 23-942 and 23-943~~, 23-951, 23-952 and 23-953 and such #lower income housing# must meet each of the requirements set forth below.

* * *

~~23-941~~ 23-951

On-site new construction option

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(a) The #lower income housing# shall be located in newly constructed #floor area# in the #compensated development#. The #lower income housing# shall be maintained and leased to #lower income households# for the life of the increased #floor area#.

(b) #Dwelling units# designated as #lower income housing# shall be distributed throughout the #development#. No #story# shall contain more than two such units unless at least 80 percent of all #stories# contain two such units. The size of the designated #lower income housing# units shall at least be distributed among the various size units in proportion to the total distribution of unit size within the #building# in the following categories of unit sizes:

under 600 net square feet
600 - 749 net square feet
750 - 949 net square feet
950 - 1149 net square feet
1150 or more net square feet

In Community District 1, Borough of Brooklyn, the requirements of this paragraph (b) may be waived by the Commissioner of Housing Preservation and Development to facilitate the #development# of #lower income housing#.

~~93-942~~ 23-952
Substantial rehabilitation and off-site new construction options

To qualify for one or more of these options, the designated #lower income housing# shall meet the following requirements:

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#.

For the new construction option the #lower income housing# shall be in a new #building#. For the substantial rehabilitation options, the #lower income housing# shall be in an existing #building# in which, prior to the submission of the #lower income housing plan# pursuant to this Section, any #residential# portion not in public ownership had been entirely vacant for not less than three years.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall be located only within such Community District, and the administering agent shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

* * *

~~93-943~~ 23-953
Preservation option

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#.

The #lower income housing# shall be in an existing occupied #residential# or #mixed building#. Only #standard units# occupied by #lower income households# shall be #lower income housing#. For each #standard unit# designated as #lower income housing# the #administering agent# shall verify the income of the household in tenancy.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall be located only within such Community District, and the administering agent shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

SPECIAL USE REGULATIONS

* * *

62-29
Special Use Regulations for Waterfront Access Plan BK-1

All Use Group 6 and 9 #uses# delineated in Section 62-212 (Waterfront-Enhancing Uses) not otherwise permitted, shall be a permitted use on any parcel identified in Waterfront Access Plan BK-1, provided that such use is limited to not more than 10,000 square feet of #floor area# per establishment; the total amount of #floor area# used for such #uses# does not exceed two per cent of the total amount of #floor area# permitted on such parcel; and such #uses# are located below the level of the first #story# ceiling of a #building# or are located on a #pier# or #platform#.

Additionally, Docks for water taxis (Use Group 6) and Docks or mooring facilities for non-commercial pleasure boats (Use Group 6) shall be a permitted use on any parcel identified in Waterfront Access Plan BK-1.

* * *

62-30
SPECIAL BULK REGULATIONS

All #zoning lots# within #waterfront blocks# shall comply with the #bulk# regulations of this Section. For the purposes of this Section, non-#waterfront blocks# included in Waterfront Access Plan BK-1 shall be considered to be #waterfront blocks#. Existing non-complying buildings or other structures shall be subject to the provisions of Article V (Non-Conforming Uses and non-complying Buildings).

* * *

62-31
Bulk Computations on Waterfront Zoning Lots

* * *

(b) #Floor area#, #dwelling units# or #rooming units# generated by existing #piers# or #platforms# within the #seaward lot# may be located anywhere on the #zoning lot# provided the amount on the #upland lot# does not exceed the maximum for the district on such portion of the #zoning lot# by more than 20 percent. No #bulk# distribution from the #seaward lot# shall be permitted for new #piers# or #platforms#, except within Waterfront Access Plan BK-1. Such # bulk# distribution shall be permitted for new portions of #piers# located within Waterfront Access Plan BK-1, provided that such new portion of the #pier# is accessed from a portion of an existing #pier# containing not less than 25 percent of the #water coverage# of such existing #pier# and that the #water coverage# of the new and existing portions of the #pier# does not exceed the #water coverage# of the existing #pier#.

* * *

62-35
Special Bulk Regulations within Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1, the special #bulk# regulations of this Chapter are further modified as set forth in this Section 62-35, inclusive.

62-351
Special floor area regulations

(a) Maximum permited #floor area ratio#

In R6 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# shall be 2.43. In R8 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# shall be 5.5. In R6 and R8 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# may be increased for #developments# and #enlargements# that provide lower income housing pursuant to Section 62-352.

(b) #Buildings# used for #accessory# off-#street# parking spaces

The #floor area# of a #building# shall not include floor space used for #accessory# off-street parking spaces provided in any #story# located not more than 33 feet above the height of the #base plane#.

62-352
Inclusionary Housing

The provisions of Section 23-90 (INCLUSIONARY HOUSING) shall apply in R6 and R8 Districts within Waterfront Access Plan BK-1 as modified in this Section.

(a) Definitions

Fair rent

At initial occupancy of #lower income housing# that is occupied by a #moderate income household# or a #middle income household# as defined in this Section, "fair rent" is an annual rent for each such housing equal to not more than either the public assistance shelter allowance if the #family# receives public assistance, or 30 percent of the annual income of the tenant of such housing (the "30 Percent Standard").

Upon renewal of a lease for such an existing tenant in #lower income housing#, #fair rent# (the "Rent Stabilization Standard") is not more than the then-current #fair rent# for such housing plus a percentage increase equal to the percentage increase for a renewal lease of the same term permitted by the Rent Guidelines Board for units subject to the rent stabilization law.

After initial occupancy, upon rental of #lower income housing# to a new tenant, #fair rent# is not more than the higher of:

(1) the then-currently applicable "30 Percent Standard"; or

(2) the Rent Stabilization Standard.

In order for rent to be #fair rent#, the following must also apply:

There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income, #moderate income# or #middle income household# responsible for the payment of utilities as long as the sum of:

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment do not exceed 30 percent of said #lower income#, #moderate income# or #middle income household's# income.

At initial occupancy of any #lower income housing# occupied by a #moderate income# or #middle income household#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95(c) o this Resolution, and provided that the lender agrees to enter into a written agreement which subordinates such debt.

Lower income housing
For the purposes of this Section, "lower income housing" shall include #standard units# occupied or to be occupied by #lower income#, #moderate income# or #middle income households#.

Moderate income household

For the purposes of this Section 62-352, a "moderate income household" is a #family# having an income equal to or less than the following proportion:

125/80

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

Middle income household

For the purposes of this Section 62-352, a "middle income household" is a #family# having an income equal to or less than the following proportion:

175/80

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

(b) Floor area increase

The maximum permitted #floor area ratio# on a #zoning lot# containing #residences# may be increased in R6 Districts from 2.43 to 2.75, and in R8 Districts from 5.5 to 6.5, provided that:

(1) at least 15% of the total #floor area# on the #zoning lot# is occupied by #lower income households#, or

(2) at least 10% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 10% of the total #floor area# on the #zoning lot# is occupied by #moderate income households#, or

(3) at least 10% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 15% of the total #floor area# on the #zoning lot# is occupied by #middle income households#.

(c) Lower Income Housing Requirements

#Developments# that increase #floor area# in accordance with the provisions of this Section shall comply with the lower income housing requirements of Section 23-95, except as modified in this paragraph (c).

(1) The provisions of Section 23-95(b) shall apply, except that in addition, incoming households of #standard units# in #lower income housing# may be #moderate# and #middle income households#, and sublessees of a #moderate# or #middle income household# may also be a #moderate# or #middle income household#.

Furthermore, on and after the issuance of a certificate of occupancy for #lower income housing#, the #administering agent# shall have a duty to rent such housing to #lower#, #moderate# or #middle income households#, as provided in this Section.

This duty to rent shall be satisfied by the #administering agent#, if such agent has in fact rented all such units to #lower#, #moderate# or #middle income households#, as provided in this Section, or has, in good faith, made a continuing public offer to rent such units at rents no greater than the rents authorized by this program or otherwise at law.

(2) The provisions of Section 23-95(d) shall apply, except that prior to renting #lower income housing#, the #administering agent# shall verify the income of each household to occupy such housing, to assure that the households are #lower#, #moderate# or #middle income households# as provided by this Section. The #administering agent# shall submit an affidavit to the Commissioner of Housing Preservation and Development upon initial occupancy and annually thereafter attesting that all incoming occupants of #lower income housing# are #lower#, #moderate# or #middle income households# as required by the provisions of this Section.

(3) Section 23-951(a) shall apply, except that the #lower income housing# shall be maintained and leased to #lower#, #moderate# or #middle income households#, as provided in this Section, for the life of the increased #floor area#.

62-353
Special floor area, lot coverage and residential density distribution regulations

Within any parcel identified in Section 62-381, and with respect to any such parcels which are adjacent to each other and which are under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined in (e) of the definition of a #zoning lot# in Section 12-10) or with respect to which each party in interest (as defined in (f)(4) of the definition of a #zoning lot# in Section 12-10) has executed a declaration declaring that the properties are to be develop as a single parcel or has waived its right to execute such declaration, the total #floor area# and #lot coverage# permitted pursuant to Section 62-351 or 62-352 and the residential density permitted pursuant to Section 23-22 may be located anywhere within such parcel or between such parcels without regard to #zoning lot lines# or district boundaries provided that such location of #floor area#, #lot coverage# or residential density complies with Section 62-31 and Section 62-34 as modified by Section 62-354.

62-354
Special Height and Setback Regulations

The provisions of Section 62-341 are modified as follows:

(a) Paragraph (c)(1) (Maximum base height) shall be modified in R6 Districts to permit a maximum base height of 65 feet or six #stories#, whichever is less. However, for #buildings or other structure# located on a #zoning lot# with more than 100 feet of frontage on a #street# in R6 Districts, not less than 20 percent of such frontage shall exceed a maximum base height of 55 feet or 5 #stories#, whichever is less.

(b) Paragraph (c)(2) (Maximum #building# height) shall not apply. In lieu thereof, the maximum #building# height in an R6 District shall be 65 feet or six #stories#, whichever is less, within 100 feet of Commercial Street, West Street, Dupont Street, Franklin Street and Kent Avenue. Beyond 100 feet of such #streets# and any other portions of an R6 District, the maximum #building# height in shall be 110 feet. In R8 Districts, the maximum #building# height shall be 210 feet, except that for #zoning lots

developed# with multiple #buildings# or portions of #buildings# that exceed a height of 200 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 210 feet to a maximum #building# height of 310 feet. Such maximum #building# heights of 110 feet, 210 feet and 310 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 110 feet, 210 feet or 310 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

For #developments# that provide #lower income housing# pursuant to Section 62- 352, the increased #floor area# permitted for such #developments# may exceed the height limits of an R8 District set forth in this paragraph (b) provided that the maximum building height shall be 260 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 250 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 260 feet to a maximum #building# height of 360 feet. Such maximum #building# heights of 260 feet and 360 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 260 feet or 360 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

(c) Paragraphs (c)(3) (#Floor area# distribution) and (c)(5) (Additional setback provisions for high #buildings#) shall not apply.

(d) Paragraph (c)(4) (Maximum #residential# tower size) shall not apply. In lieu thereof, each #residential story# of a #building# located entirely above a height of 85 feet shall not exceed a gross area of 8,100 square feet in an R6 District and 11,000 square feet in an R8 District. If such #residential story# of a #building# is located partially in an R6 District and partially in an R8 District, it shall not exceed a gross area of 11,000 square feet and any portion located in an R6 district shall not exceed a gross area of 8,100 square feet.

(e) Paragraph (c)(6) shall not apply. In lieu thereof, the maximum length of any #story# of a #building# that exceeds a height of 85 feet shall not exceed 170 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above such heights. Any side of such rectangle shall not exceed 170 feet.

(f) Paragraph (c)(7) (Ground floor streetscape provisions) shall not apply. In lieu thereof, all off-street parking spaces located within 50 feet of a #street#, a #visual corridor# containing a private road, and a #shore public walkway#, #upland connection# or #supplemental public access area# and which are located on a #story# that is above the #base plane# shall be within facilities that are located behind #commercial#, #community facility# or #residential# floor space so that no portion of such parking facility, other than entrances and exits, is visible from such #streets#, #visual corridors# or publicly accessible open spaces. Such floor space shall have a minimum depth of 25 feet. Up to 5 percent of such floor space may be used for mechanical equipment provided that no floor space used for mechanical equipment is located within 15 feet of the #street wall# of the #building# below a height of 15 feet above the #base plane#, and that no exhaust vents are located on the street wall of the #building# below a height of 15 feet above the #base plane#. The remainder of such floor space shall be used for #commercial#, #community facility# or #residential floor area#. Seventy percent of the surface area of the facade of a facility containing parking spaces which are not otherwise required to be behind such #floor area# shall be composed of the same materials as the facade of the #building# in which it is located.

(g) Any roof of a facility containing off-street parking spaces, not otherwise covered by a #building#, which is larger than 400 square feet shall be landscaped. Up to 5 percent of such roof area may be used for mechanical equipment provided that such mechanical equipment is screened from view by a fence which is at least 75 percent opaque or by at least 3 feet of dense planting. Up to 25 percent of such roof area may be accessible solely from an adjacent #dwelling unit# and the remaining roof area shall be accessible for the recreational use of the occupants of the building in which it is located. Hard surfaced areas shall not cover more than 60 percent of such roof area.

(h) At least 70 percent of the width of the #streetwall# of a #building# or #buildings# fronting on a portion of a #street#, #upland connection# or #visual corridor# which is not adjacent to a #shore public walkway# or #supplemental public access area# shall be located within eight feet of such #street line# and extend to a minimum height of 30 feet.

(i) All #developments#, conversions, and #enlargements# or #extensions# which increase the existing #floor area# by more than 10 percent, shall provide along the entire #street# length of the #zoning lot#, one tree for every 25 feet of # street# frontage. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals except where the Department of Parks and Recreation determines that such tree planting would be unfeasible. Such trees shall be planted in accordance with the standards of the Department of Parks and Recreation.

Special Parking and Loading Regulations for Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1 the Special Parking and Loading Regulations of this section are further modified as follows:

(a) The provisions of Section 62-511 and Section 62-521 shall not be applicable.

(b) #Accessory# off-street parking spaces for #uses# permitted pursuant to Section 62- 29 shall be provided in conformity with the regulations of Sections 36-21, 36-22 and 36-232 for C2-4 districts.

(c) Any required #accessory# off-street parking spaces provided for #uses# located on a parcel identified in Waterfront Access Plan BK-1 may be located anywhere within such parcel.

Waterfront public access and visual corridors

* * *

5. for the #development# of a park, a site plan and all other applicable data have been submitted showing compliance with the provisions of Section 62-416 (Special regulations for zoning lots that include parks).

A certification pursuant to paragraph (c) of this section, for any parcel identified in Waterfront Access Plan BK-1, may provide for the phased implementation of all required public access areas provided that an amount of public access area proportionate to the amount of #floor area# being developed on the parcel is provided in each phase. Additionally, for any #development# located within 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 200 linear feet of #shore public walkway# and any adjacent #supplemental public access area# located between such #development# and the required #shore public walkway#, one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway# and, shall have at least one other connection from such required portion of the #shore public walkway# to an adjacent #shore public walkway#, a #street# or another #upland connection#. For any #development# located entirely beyond 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 100 linear feet of #shore public walkway#, and one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway#. However, no public access area needs to be provided for a phase consisting of a #development # in which all included #residential# units are affordable units for a #lower income household# as defined in section 23-93 or a #moderate income household# or a #middle income household# as defined in section 62-352.

A certificate pursuant to paragraphs (b) or (c) of this Section shall be granted on condition that an acceptable restrictive declaration is executed and filed pursuant to Section 62-14 (Requirements for Recordation).

62-812
Elements of a Waterfront Access Plan

A Waterfront Access Plan may:

1) on #zoning lots# where public access or #visual corridors# are required pursuant to the provisions of Sections 62-40 and 62-60, modify the size, configuration, location or design of required waterfront public access areas or #visual corridors# within certain designated areas in order to address local conditions, provided such plan does not impose a public access or #visual corridor# requirement on any #zoning lot# greater than would otherwise be required pursuant to the provisions of Sections 62-40 or 62-60. For the purpose of determining the amount of public access, the highest standard applicable to a zoning lot may be applied regardless of any specific #use# permitted or proposed for such #zoning lot#. Within Waterfront Access Plan BK-1, the public access and #visual corridor# requirements for any parcel located within the Waterfront Access Plan may be determined by aggregating the public access and #visual corridor# requirements of each zoning lot within the parcel and such aggregated requirements may be modified within such parcel without regard to #zoning lot lines#;

Waterfront Access Plan BK-1: Greenpoint-Williamsburg

Maps BK-1a through BK-1c in paragraph (g) of this Section show the boundaries of the area comprising the Greenpoint-Williamsburg Waterfront Access Plan and the location of certain features mandated or permitted by the Plan. The plan area has been divided into parcels consisting of tax blocks and lots and other lands as established on (date of adoption), as follows:

Parcel 1:	Block 2472, Lot 350
Parcel 2:	Block 2472, Lot 400
Parcel 3:	Block 2472, Lot 410
Parcel 4:	Block 2472, Lot 425
Parcel 5a:	Block 2472, Lot 100
Parcel 5b:	Block 2472, Lot 32 and Block 2494, Lot 6
Parcel 5c:	Block 2472 Lot 2, Block 2494 Lot 1, Block 2502 Lot 1, Block 2510 Lot 1 and Block 2520 Lot 57
Parcel 6:	Block 2472, Lot 75
Parcel 7:	Block 2520, Lot 1
Parcel 8:	Block 2530, Lots 55 and 56
Parcel 9:	Block 2530, Lots 1
Parcel 10:	Block 2538, Lot 1
Parcel 11:	Block 2543, Lot 1
Parcel 12:	Block 2556, Lots 41
Parcel 13:	Block 2556 Lot 1, Block 2564 Lot 1, Block 2567 Lot 1 and Block 2570 Lot 36
Parcel 14:	Block 2570, Lot 1
Parcel 15:	Block 2590, Lot 1
Parcel 16:	Block 2590, Lot 210
Parcel 17:	Block 2590, Lot 215
Parcel 18:	Block 2590, Lot 22
Parcel 19:	Block 2590, Lot 25
Parcel 20:	Block 2590, Lot 100 and Block 2277, Lot 1
Parcel 21:	Block 2287, Lot 1,16 and 30 and Block 2294 Lots 1 and 5
Parcel 22:	Block 2301, Lots 1, 50, 60 & 70
Parcel 23:	Block 2316, Lot 46
Parcel 24:	Block 2308, Lot 1 and Block 2316, Lot 1
Parcel 25:	Block 2324, Lot 1 & Block 2332, Lot 1
Parcel 26:	Block 2340, Lot 1
Parcel 27:	Block 2348, Lot 1

(a) Area wide modifications:

The following provisions shall apply to all #developments# required to provide public access, pursuant to Section 62-40 (REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AND VISUAL CORRIDORS):

(1) Paragraph (c) of Section 62-412 (Requirements for public access on piers) is applicable, except that a minimum of 15 feet are required along each water edge.

(2) The provisions of Section 62-61 (Design Options and Methodology) shall be inapplicable. In lieu thereof, the following provisions shall apply:

2 All required public access areas and #visual corridors# shall comply with the general requirements set forth in Section 62-62 (General Requirements for Public Access Areas) and the specific requirements as set forth in this Section.

(ii) #Upland connections#, #visual corridors#, public access areas on #piers# and public access areas in conjunction with #floating structures# shall comply with the design requirements set forth in Sections 62-64 through 62-66, inclusive.

(iii) Public access areas are subject to the design reference standards set forth in Section 62-67 and paragraph (d) of this Section.

(3) The provisions of Section 62-623 (Supplemental public access areas) shall be inapplicable. In lieu thereof, the following provisions shall apply:

c) A required #supplemental public access area# shall be directly connected to either a #pier# public access area, an #upland connection# or a #shore public walkway# on either its landward or seaward side and its pedestrian circulation zone shall be contiguous with the adjacent pedestrian circulation zone.

d) A buffer zone shall only be required where a #supplemental public access area# adjoins a non-publicly accessible portion of a #zoning lot#, in which case its minimum width shall be 15 feet.

(4) #Street# Treatment

All #streets# adjacent to a #shore public walkway# or #supplemental public access area# shall be improved as a continuation of such #shore public walkway# or #supplemental public access area#, pursuant to the design requirements of paragraph (b) of this Section, inclusive.

(b) Specific design requirements for Public Access Prototypes

The provisions of Section 62-63 (Specific Design Requirements for Public Access Prototypes) shall be inapplicable. In lieu thereof the following provisions for #shore public walkways# and #supplemental public access areas# shall apply:

(1) Greenpoint-Williamsburg Shore Public Walkway-Prototype I

1. One circulation path with a minimum clear width of 12 feet is required. The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path.

(ii) A minimum of one linear foot of seating shall be provided for every 100 square feet of #shore public walkway#. At least 60 percent of the required seating shall be landward of the required circulation path.

(iii) A minimum of 50 percent of the pedestrian circulation zone, excluding the required circulation path, shall be planting area. Rip rap, beach or other shoreline materials may be counted as an equivalent to planting area.

(iv) One shade tree is required for every 1,200 square feet of #shore public walkway# and one small or ornamental tree shall be required for every 750 square feet of #shore public walkway#. Trees may be located either in the pedestrian circulation zone landward of the required circulation path or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(2) Greenpoint-Williamsburg Shore Public Walkway-Prototype II

1) The provisions of 62-621 (Shore public walkways) shall apply except that a #shore public walkway# shall have a minimum 30 foot pedestrian circulation zone and a minimum 15 foot buffer zone.

2) One circulation path with a minimum clear width of 12 feet is required. The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path, in which case, the path shall be located within 20 feet of the shoreline. A secondary circulation path may be provided, with a minimum width of 10 feet. Connecting paths having a minimum width of ten feet shall be provided between the two circulation paths at intervals not to exceed 100 feet.

3) A minimum of one linear foot of seating shall be provided for every 70 square feet of #shore public walkway#.

4) A minimum of 70 percent of the pedestrian circulation zone, excluding the required circulation path shall be planting area. A minimum of 50 percent of this planting area must be improved as lawn according to the provisions of Section 62-675 (Planting and trees).

(v) One shade tree is required for every 1,900 square feet of #shore public walkway# and shall be located in the pedestrian circulation zone. In addition, one shade, small or ornamental tree shall be required for every 850 square feet of #shore public walkway# and may be located either in the pedestrian circulation zone or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(3) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Plaza

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 40 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 25 percent of the pedestrian circulation zone shall be planting area.

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(4) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Park

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 50 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 60 percent of the pedestrian circulation zone shall be planting area with no more than 30 percent of the planting area in raised planting beds. At least 35 percent of the #supplemental public access area# shall be lawn in compliance with the standards set forth in paragraph (c)(5) of Section 62-675 (Planting and trees).

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(c) Amenities

In parcels where #supplemental public access area# is required, no more than fifteen percent of public access area may be reduced if playgrounds and other amenities are provided in accordance with the following provisions.

(1) Playgrounds

A playground shall have a minimum size of 1,000 square feet and, if applicable, there shall be a minimum of 400 feet between any two playground areas. For every five square feet of playground area provided, the total amount of required public access may be reduced by the rate of one square foot.

(2) Other amenities

A reduction in the total amount of required public access area shall be permitted according to the following table.

Amenity	Square feet reduction
Picnic table	22 sq. ft. per table, to a max. of 200 sq. ft.
Chess table	20 sq. ft. per table,to a max. of 200 sq. ft.
Telescope	10 sq. ft. per telescope, to a max. of 50 sq. ft.
Fountain/water feature	150 sq. ft. per feature, to a max. of 300 sq. ft.
Shade structure	150 sq. ft. perstructure, to a max. of 300 sq. ft.

(d) Public access design reference standards

Section 62-67 is hereby modified by the following provisions.

(1) Guardrails

The provisions of paragraph (a) Section 62-671 (Guardrails, gates and other protective barriers) shall be inapplicable. In lieu thereof the following provisions for guardrails shall apply:

(i) Guardrails shall be located within waterfront public access areas continuously along any bulkhead, stabilized shore or the water edges of a #pier# or #platform# that is located within 50 feet of a circulation path; and continuously along any grade level change of 30 inches or greater adjoining or within 10 feet of a circulation path. However, guardrails shall not be required landward of any rip rap, beach or any other shoreline material that is at least 10 feet wide. If any protective barrier is provided adjacent to any rip rap, beach or other shoreline material, they shall not exceed a height of 21 inches or shall consist of a bollard and chain device.

Guardrails shall not be required at access points to WD #uses# and #development# on #floating structures#. The minimal protective barrier at such locations shall be a swing gate, bollard and chain or similar device.

(ii) Guardrails shall comply with illustration A1; alternatively, illustration A2 may be used in #piers#.

All guardrail components and hardware shall be in stainless steel or cast aluminum, as applicable.

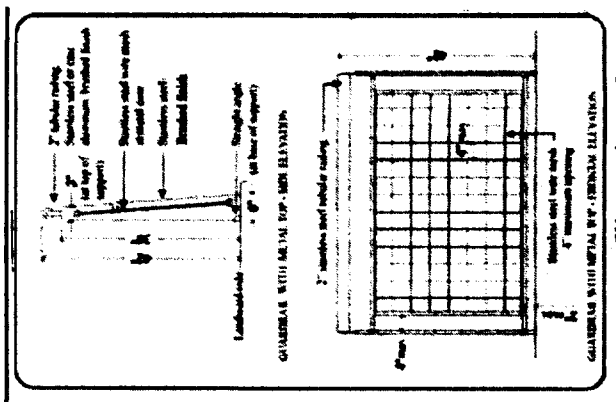

Illustration A2

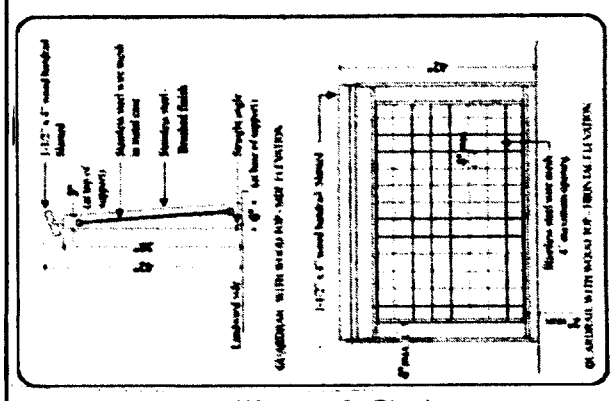

Illustration A1

(Alternate for Piers)

(2) Seating

In addition to the provisions of Section 62-672, at least fifty percent of the required seating along any #shore public walkway# or #supplemental public access area# shall comply with illustration B1 or B2 below.

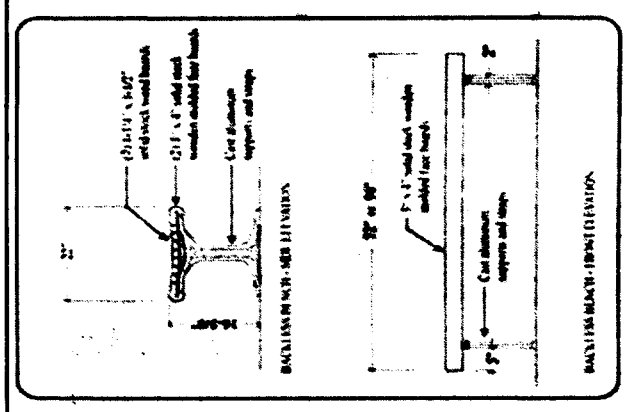

Illustration B2

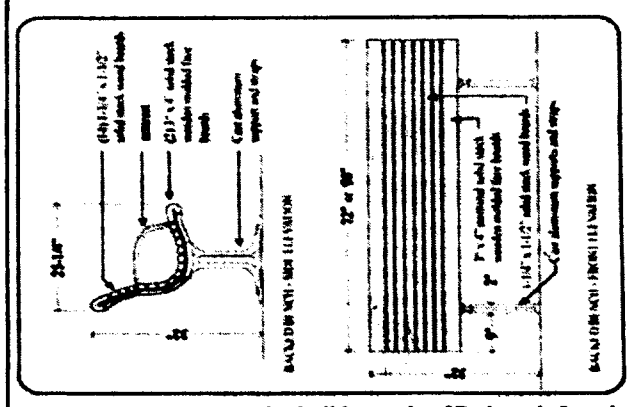

Illustration B1

All wood boards shall be made of Redwood, Jarrah or Ipe, have eased edges and ends and be treated for external use without stain or varnish.

All supports and backstraps shall be 713 tenzalloy cast aluminum, with a rust inhibitor and a top coat finish of thermosetting polyester powdercoat that is ultra-violet, chip and flake resistant. Metal components shall have a light gray or aluminum color.

(3) Lighting

In addition to the provisions of Section 62-673, the required lighting along any public access area shall comply with illustration C1 below.

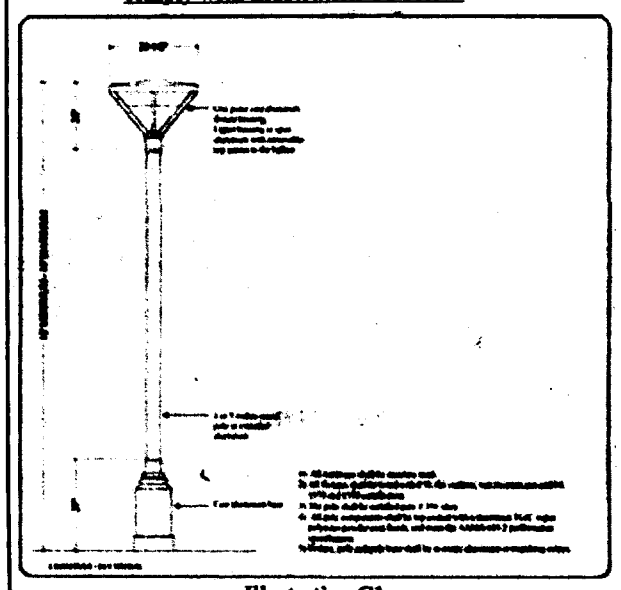

Illustration C1

(4) Planting and trees

The provisions of paragraph (c)(6) (Container planting) of Section 62-675 shall be inapplicable.

unless a structural or environmental necessity is demonstrated at the time of certification.

(5) Paving

In addition to the provisions of Section 62-676, the paving for the required clear path within the #shore public walkway# shall be gray. At least fifty percent of all other paved areas within the #shore public walkway# and #supplemental public access areas# shall be paved in the same color range.

(e) Special public access provisions by parcel

The provisions of Sections 62-41 (Requirements for waterfront public access) and 62-60 (DESIGN STANDARDS FOR THE WATERFRONT AREA) are modified at the following designated locations which are shown on Map BK-1b in paragraph (g) of this Section:

1. Parcels 1 and 2

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#
The requirements for #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is developed first shall provide an #upland connection# along the #lot line# between the two parcels. The width of the #upland connection# may be utilized by the developer of the remaining parcel in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels, according to the provisions of paragraph (f)(1) of this Section. If both parcels are developed concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

(3) Parcel 5a

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (g) of this Section.

The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot lines of Parcels 5b and 6.

(iii) #Supplemental public access area#

The #supplemental public access area# shall abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. The #upland connection#, however, may cut across the #supplemental public access area# provided that no area shall be less than 5,000 square feet. All #supplemental public access areas# shall have a minimum width to depth ratio of 1.0 to 1.0 and a maximum width to depth ratio of 2.0 to 1.0. In no event shall the #supplemental public access area# be deeper than 100 feet. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

Alternatively, a portion of the required #supplemental public access area# that is a minimum of 5,000 square feet may abut the #shore public walkway# continuously along the longest side provided that it also abuts a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-641, but shall not be counted towards satisfying the required amount of public access area on the site. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(4) Parcel 5b

#Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(5) Parcel 5c

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

Two #upland connections# shall be provided between West Street and the #shore public walkway#, one each located within the prolongation of the #street lines# of Eagle Street, and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided on Parcel 5c.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the pedestrian circulation zone of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(6) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5 and be subject to the following requirements:

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

One #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (g) of this Section. The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.

Two #upland connections# shall be provided between West Street and the #shore public walkway#, each located within the prolongation of the #street lines# of Eagle Street and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5 and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining of the required #supplemental public access area# shall be located within the area bounded by the western prolongation of the north #street line# of Dupont Street, the #shore public walkway#, the northern prolongation of the eastern boundary of Parcel 6 and Parcel 6 . The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(7) Parcel 7

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply, except that any portion of the required #shore public walkway# where the distance between the shoreline and the boundaries of Parcel 7 is less than 17 feet shall be improved entirely as clear path.

(ii) #Supplemental public access area#

The requirement for a #supplemental public access area# on Parcel 7 is waived.

(8) Parcels 9, 10 and 11

(i) #Shore public walkway#

The requirements for Prototype II described in paragraph (b)(2) of this Section shall apply.

(ii) #Supplemental public access area#

For each parcel, the #supplemental public access area# requirements shall be provided to widen the pedestrian circulation zone of the #shore public walkway#, evenly distributed along the entire length of such #shore public walkway#.

(9) Parcel 13

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Milton Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be bounded by the southern #street line# of Greenpoint Avenue, the #shore public walkway# and the northern boundary of the required Milton Street #upland connection#. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(10) Parcel 14

(i) #Shore public walkway#

The area between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# shall be improved pursuant to the requirements of Prototype II described in paragraph (b)(2) of this Section. The remaining required #shore public walkway# shall be improved pursuant to the requirements of Prototype I as described in paragraph (b)(1) of this Section.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway#. The southern boundary of such #upland connection# shall be defined by a line between the intersection of the prolongation of the southern #street line# of Calyer Street and the western #street line# of West Street, and a point on the easterly boundary of the #shore public walkway# 30 feet north of the northern #street line# of Quay Street

(iii) #Supplemental public access area#
Two #supplemental public access areas# shall be provided. A #supplemental public access area# with a minimum of 9,000 square feet shall be provided between the

prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# to widen the pedestrian circulation zone of the #shore public walkway#.

The remaining requirements for #supplemental public access area# shall be located in the area bounded by the southern boundary of the required Calyer Street #upland connection#, the #shore public walkway# and the southern boundary line of the parcel. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(11) Parcel 15

An #upland connection# shall be provided within the prolongation of the #street lines# of WestStreet, connecting Quay Street to Parcel 20.

(12) Parcels 19, 20, 21 and 22

Parcels 19, 20, 21 and 22 shall be designated as public parks as of (date of adoption).

(13) Parcel 24
#Shore public walkway#

Prototype I described in paragraph (b)(1) of this Section shall apply.

(14) Parcel 25

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of North 6th Street.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.

One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet from the southern #street line# of North 7th Street. The entire #supplemental public access area#, excluding the required buffer, shall be developed as clear circulation path.

A minimum of one linear foot of seating shall be required for every 40 square feet of pedestrian circulation zone and shall be located in the required buffer zone. Four trees shall be required, at least two of which are shade trees. Small or ornamental trees located within the buffer zone shall not be counted toward the minimum requirements.

The remaining required #supplemental public access area# shall be located either on the #pier# or abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. At least 70 percent of the required #supplemental public access# shall have a width to depth ratio of 2 to 1. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on a #pier# located at the western terminus of North 6th Street pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(15) Parcel 26

(i) #Shore public walkway#

The requirements of Section 62-411 (Requirements for shore public walkways) shall apply, except that the minimum required width of the #shore public walkway# shall be reduced to 34 feet between North 5th Street and the northern boundary of the required #upland connection# at the prolongation of North 4th Street. The quantity of public access eliminated from the #shore public walkway# as a result of this width reduction shall be located in the triangle formed between the #shore public walkway#, the southern #street line# of the North 4th Street #upland connection# and the bulkhead line. The entirety of the #shore public walkway# shall be improved pursuant to the requirements for Prototype I described in paragraph (b)(1) of this Section.

(ii) #Upland connections#

An #upland connection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street.

(16) Parcel 27

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure#, but shall not need to be wider than 40 feet.

Notwithstanding the requirements of Paragraph (c) of Section 62-62 (General Requirements for Public Access), the #shore public walkway# may be located within the #building or other structure#, and the obstructions permitted by Section 62-626, paragraph (a), shall include any supporting structural elements of the #building or other structure# and its related appurtenances. Additionally, the #shore public walkway# shall have a minimum clear path of 12 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#

The requirements for #supplemental public access# shall be waived.

(f) Special visual corridor provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan are shown on Map BK-1c in paragraph (g) of this Section and shall be as follows:

(1) Parcels 3 and 4

A #visual corridor# shall be provided through Parcels 3 and 4 to the pierhead line within a flexible area along the #lot lines# between them.

Whichever parcel develops second shall complete the required clearance to comply with the #visual corridor# requirements along the #upland connection# already provided in accordance with the requirements of paragraph (e)(2)(ii) of this Section. If both parcels are developed concurrently, then the requirements can be divided equally along the #lot line# between the parcels.

(2) Parcel 5a

A #visual corridor# shall be provided through Parcel 5a to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(3) Parcel 5b

Two #visual corridors# shall be provided through Parcel 5b to the pierhead line as the prolongation of the #street lines# of West Street and Dupont Street, respectively.

(4) Parcel 5c

(i) Three #visual corridors# shall be provided through Parcel 5c to the pierhead line as the prolongation of the #street lines# of West Street, Eagle Street and Green Street.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be permitted obstructions along the #visual corridor# along Green Street.

(5) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5, subject to the following #visual corridors# requirements:

(i) One #visual corridor# shall be provided through Parcel 5 to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.
Four #visual corridors# shall be provided through Parcel 5 to the pierhead line, each located as the prolongation of the #street lines# of West Street, Dupont Street, Eagle Street and Green Street, respectively.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be allowed along the #visual corridor# along Green Street.

(6) Parcel 13

Two #visual corridors# shall be provided through Parcel 13 to the pierhead line as the prolongation of the #street lines# of Milton Street and Oak Street, respectively.

(7) Parcel 14

A #visual corridor# shall be provided through Parcel 14 as the prolongation of the #street lines# of Oak Street.

(8) Parcel 15

A #visual corridor# shall be provided though Parcel 15 as the prolongation of the #stret lines# of West Street.

(9) Parcel 25

A #visual corridor# shall be provided through Parcel 25 as the prolongation of the #street lines# of North 6th Street.

REDEVELOPMENT OF A PORTION OF THE FARM COLONY IN STATEN ISLAND – Request for Expressions of Interest – DUE 02-18-05 AT 4:00 P.M. – Located in the Willowbrook area of central Staten Island, the Site is part of the Farm Colony - Seaview Hospital Historic District. The approximately 59-acre Site is zoned R3-2 with a NA-1 (Special Natural Area District) overlay. Eleven historically significant and deteriorated buildings are located on the Site, which is identified as Block 1955, part of Lot 1 in the Borough of Staten Island tax map.
NYCEDC's goal is to solicit ideas for the redevelopment of the Site that address the unique constraints affecting development including, but not limited to, the rehabilitation and adaptive reuse of the existing buildings. Other development goals include sensitivity to both the Site's location in a Special Natural Area District and its bucolic setting within the Staten Island Greenbelt, as well as the Site's adjacency to low-density residential and institutional development. Therefore, development concepts should focus on cultural, educational, and recreational uses permitted by zoning. All proposals for new construction must be consistent with the recommendations made by the Mayor's Staten Island Growth Management Task Force. Further, general residential uses will not be permitted on the Site. Senior

housing, although not a preferred use, will be considered on a case-by-case basis.
A question-and-answer session to discuss the Site and tour will be held on January 20, 2005 at 10:00 a.m. To attend the question-and-answer session and site visit, please call (212) 312-3875 on or before January 14, 2005. Interested parties are strongly encouraged to attend.

For more information, and to request a copy of the RFEI, visit www.nycedc.com/farmcolonyRFEI or call (212) 312-3969. Please submit six (6) copies of your proposal.

REHAB. ON THE STATEN ISLAND RAILROAD ARTHUR KILL LIFT BRIDGE – Public Bid – DUE 01-27-05 AT 2:00 P.M. – As part of the City's efforts to reactivate freight service on the Staten Island Railroad, the New York City Economic Development Corp. is letting this bridge rehab. contract (#5320016). Located between the Howland Hook Marine Terminal and the Gothels Bridge on the west shore of Staten Island, the Arthur Kill Lift Bridge is a single-track movable bridge that spans approximately 500' over the Arthur Kill. Built in 1958 this bridge was in use until the early 1990's. The bridge is currently operational and the intent of this rehab is to prepare it for daily reliable use. The proposed bid date is January 27, 2005 and a site visit is schedule for January 6, 2005. Bidders interested in attending the site visit must register at the Port Ivory Security Office on Western Avenue, a pre walk through meeting will be held at Port Ivory Administration Building.

The scope of work entails lead paint abatement, cleaning and painting structural steel and machinery house exteriors, concrete spall and crack repairs, replacement of bridge walkways and railings, electric signal and power upgrades, installation of new meter house and meter house electrical equipment, bridge machinery repairs, bridge balancing and start-up. The engineer's estimate is approximately $6,000,000. The cost of the Bid package is $200 USD payable to either a certified bank check or money order. Cash, personal or company checks are not acceptable. All submitted bids are required to have a Bid bond.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals -
PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

DESIGN & CONSTRUCTION

■ NOTICE

Determination and Findings of the City of New York Pursuant to Section 204 of the NYS Eminent Domain Procedure Law

Whereas, the acquisition of certain street properties known as portions of Amboy Road from Parkwood Avenue to Madera Street, Seguine Avenue from Amboy Road to Waterbury Avenue, and Foster Road from Wheeling Avenue to Amboy Road has been proposed by the City of New York; and

Whereas, the acquisition is pursuant to the NYS Eminent Domain Procedure Law ("EDPL") which provides a uniform procedure for condemnations by municipalities throughout the State; and

Whereas, pursuant to the EDPL, the City of New York is required to hold a public hearing to determine whether the public would be served by the proposed acquisition of the above-mentioned property and the impact of such acquisition on the locality where the project is to be constructed; and

Whereas, the City of New York held a public hearing concerning this acquisition on November 3, 2004, in the borough of Staten Island.

Now, therefore, let it be known that the City of New York, pursuant to section 204 of EDPL, hereby determines and finds:

(1) The public use and benefit of this project is to improve street and traffic safety through various methods. The City will widen and reconstruct roadways, reconstruct sidewalks and curbs, and install new traffic appurtenances (streetlights, signals, etc).

(2) The property to be acquired is shown on the Tax Map of the City of New York for the Borough of Staten Island and include the following: Block 6681, part of lots 15, 45, 65, 70; Block 6724, part of lots 50, 54, 61; Block 6858, part of lot 66; Block 6896, part of lots 52, 53, 71, 76, and the beds of the street for Amboy Road, Foster Road and Seguine Avenue.

The location of the proposed acquisition is:

Amboy Road from Parkwood Avenue to Madera Street; Seguine Avenue from Amboy Road to Waterbury Avenue; and Foster Road from Wheeling Avenue to Amboy Road; In the Borough of Staten Island, City of New York. The location was selected based on the need for pedestrian and traffic safety improvements.

(3) The general effect on the residents of the locality will be improved traffic and pedestrian safety. This safety improvement project was the subject of a completed environmental impact study (and subsequent modifications) for the Lemon Creek Watershed area. The EIS concluded that there was no significant negative impact on the environment.

(4) Comments and concerns raised by property owners at the public hearing and through subsequent written submissions are being reviewed by the City. Issues raised at the hearing include concerns about increased traffic volume and placement of private electric utility facilities on the residential streets. Residents also requested that the City review its plans to remove certain existing retaining walls and guard railings. The City continues to review the plans and will make modifications addressing these concerns whenever possible. DDC will work with the Department of Transportation, the community and other City agencies to insure that proper street amenities, i.e.; traffic signals, pavement markings, traffic barriers and lighting are installed pursuant to City procedures. DDC has referred questions concerning placement of utilities to the appropriate utility operator and will continue to work with the utilities to review the situation.

NOTICE:

Pursuant to EDPL section 207, property owners have thirty (30) days from completion of the publication of this determination and findings to seek judicial review of the determination and findings. Expected date of publication is January 10 –January 12, 2005.

Pursuant to EDPL sections 207 and 208, exclusive venue for judicial review of these determination and findings is the Appellate Division of the Supreme Court in the Judicial Department where any part of the property to be acquired is located.

Copies of this determination and findings of the New York City are available without cost upon written request to:

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

CHARTER REVISION COMMISSION

■ PUBLIC MEETING

The 2005 Charter Revision Commission will hold a public meeting on January 19, 2005. The topic of this meeting will be administrative law reform. The Commission will hear expert testimony from Carol Robles-Roman, Deputy Mayor for Legal Affairs. Although administrative law reform will be the main subject of this public meeting, Commission business will not necessarily be limited to that topic. The Commission may also consider other topics related to its review of the City Charter. As this is a public meeting and not a public hearing, the public will have the opportunity to observe, but not to testify.
Time: 7:00 P.M.
Location: Spector Hall, 22 Reade Street, 1st Floor. Located between Broadway and Centre Street in Lower Manhattan.

Individuals requesting spoken or sign language interpreters for any of these public meetings should contact Commission staff member Brian Geller at (212) 788-2952 five (5) business days prior to the Public Meeting. TDD users should call Verizon Relay Services.

To contact the Commission by telephone, please call (212) 676-2060.
To contact the Commission by mail, please write to:

SPECIAL BULK REGULATIONS

All #zoning lots# within #waterfront blocks# shall comply with the #bulk# regulations of this Section. For the purposes of this Section, non-#waterfront blocks# included in Waterfront Access Plan BK-1 shall be considered to be #waterfront blocks#. Existing non-complying buildings or other structures shall be subject to the provisions of Article V (Non-Conforming Uses and non-complying Buildings).

62-35
Special Bulk Regulations within Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1 the Special Bulk Regulations of this section are further modified as delineated herein.

62-351
Special floor area, lot coverage and residential density distribution regulations

Within any parcel, and between any adjacent parcels which are under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined in (e) of the definition of a #zoning lot# in Section 12-10), identified in Waterfront Access Plan BK-1; the total #floor area# and #lot coverage# permitted pursuant to Section 62-32 and the residential density permitted pursuant to Section 23-22 may be located anywhere within such parcel or between such parcels without regard to #zoning lot lines# or district boundaries provided that such location of #floor area#, #lot coverage# or residential density complies with Section 62-31 and Section 62-34 as modified by Section 62-352.

62-352
Special Height and Setback Regulations

The provisions of Section 62-341 are modified as follows:

(a) Paragraph (c)(1) (Maximum base height) shall be modified in R6 Districts to permit a maximum base height of 65 feet or six #stories#, whichever is less.

(b) Paragraph (c)(2) (Maximum #building# height) shall not apply. In lieu thereof, the maximum #building# height in an R6 District shall be 65 feet or six #stories#, whichever is less, within 100 feet of Commercial Street, West Street, Dupont Street, Franklin Street and Kent Avenue. Beyond 100 feet of such streets and any other portions of an R6 District, the maximum #building# height in shall be 110 feet. In R8 Districts, the maximum #building# height shall be 210 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 200 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 210 feet to a maximum #building# height of 310 feet. Such maximum #building# heights of 110 feet, 210 feet and 310 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 110 feet, 210 feet or 310 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

(c) Paragraphs (c)(3) (#Floor area# distribution) and (c)(5) (Additional setback provisions for high #buildings#) shall not apply.

(d) Paragraph (c)(4) (Maximum #residential# tower size) shall not apply. In lieu thereof, each #residential story# of a #building# located entirely above a height of 85 feet shall not exceed a gross area of 8,100 square feet in an R6 District and 11,000 square feet in an R8 District.

(e) Paragraph (c)(6) shall not apply. In lieu thereof, the maximum length of any #story# of a #building# that exceeds a height of 65 feet in an R6 District or 85 feet in an R8 District shall not exceed 170 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above such heights. Any side of such rectangle shall not exceed 170 feet.

(f) Paragraph (c)(7) (Ground floor streetscape provisions) shall not apply. In lieu thereof, all off-street parking spaces located within 50 feet of a #street#, a #visual corridor# containing a private road, and a #shore public walkway#, #upland connection# or #supplemental public access area# and which are located on a #story# that is above the #base plane# shall be within facilities that are located behind #commercial#, #community facility# or #residential floor area# so that no portion of such parking facility, other than entrances and exits, is visible from such #streets#, #visual corridors# or publicly accessible open spaces. Such #floor area# shall have a minimum depth of 25 feet. Seventy percent of the surface area of the facade of a facility containing parking spaces which are not otherwise required to be behind such #floor area# shall be composed of the same materials as the facade of the #building# in which it is located.

(g) Any roof of a facility containing off-street parking spaces, not otherwise covered by a #building#, which is larger than 400 square feet shall be landscaped and accessible for the recreational use of the occupants of the building in which it is located. Hard surfaced areas shall not cover more than 60 percent of such roof area.

(h) The #streetwall# of a #building# on any #zoning lot# fronting on Commercial Street, West Street and Kent Avenue shall be located within eight feet of, and extend along 70 percent of such #street line# to a minimum height of 40 feet.

(i) All #developments#, conversions, and #enlargements# or #extensions# which increase the existing #floor area# by more than 10 percent, shall provide along the entire #street# length of the #zoning lot#, one tree for every 25 feet of # street# frontage. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals except where the Commissioner of Buildings determines that such tree planting would be unfeasible. Such trees shall be planted in accordance with the standards of the Department of Parks and Recreation.

62-57
Special Parking and Loading Regulations for Waterfront Access Plan BK-1
Within Waterfront Access Plan BK-1 the Special Parking and Loading Regulations of this section are further modified as follows:

(y) The provisions of Section 62-511 and Section 62-521 shall not be applicable.

(z) #Accessory# off-street parking spaces for #uses# permitted pursuant to Section 62- 29 shall be provided in conformity with the regulations of Sections 36-21, 36-22 and 36-232 for C2-4 districts.

(aa) Any required #accessory# off-street parking spaces provided for #uses# located on a parcel identified in Waterfront Access Plan BK-1 may be located anywhere within such parcel.

62-711
Waterfront public access and visual corridors

* * *

5. for the #development# of a park, a site plan and all other applicable data have been submitted showing compliance with the provisions of Section 62-416 (Special regulations for zoning lots that include parks).

A certification pursuant to paragraph (c) of this section, for any parcel identified in Waterfront Access Plan BK-1, may provide for the phased implementation of all required public access areas provided that an amount of public access area proportionate to the amount of #floor area# being developed on the parcel is provided in each phase. Additionally, for any #development# located within 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 200 linear feet of #shore public walkway# and any adjacent supplemental area, one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway# and, shall have at least one other connection from such required portion of the #shore public walkway# to an adjacent #shore public walkway#, a #street# or another #upland connection#. For any #development# located entirely beyond 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 100 linear feet of #shore public walkway#, and one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway#.

A certificate pursuant to paragraphs (b) or (c) of this Section shall be granted on condition that an acceptable restrictive declaration is executed and filed pursuant to Section 62-14 (Requirements for Recordation).

62-812
Elements of a Waterfront Access Plan

A Waterfront Access Plan may:

1) on #zoning lots# where public access or #visual corridors# are required pursuant to the provisions of Sections 62-40 and 62-60, modify the size, configuration, location or design of required waterfront public access areas or #visual corridors# within certain designated areas in order to address local conditions, provided such plan does not impose a public access or #visual corridor# requirement on any #zoning lot# greater than would otherwise be required pursuant to the provisions of Sections 62-40 or 62-60. For the purpose of determining the amount of public access, the highest standard applicable to a zoning lot may be applied regardless of any specific #use# permitted or proposed for such #zoning lot#. Within Waterfront Access Plan BK-1, the public access and #visual corridor# requirements for any parcel located within the Waterfront Access Plan may be determined by aggregating the public access and #visual corridor# requirements of each zoning lot within the parcel and such aggregated requirements may be modified within such parcel without regard to #zoning lot lines#;

62-831

Waterfront Access Plan BK-1:
Greenpoint-Williamsburg
Maps BK-1a through BK-1c in paragraph (g) of this Section show the boundaries of the area comprising the Greenpoint-Williamsburg Waterfront Access Plan and the location of certain features mandated or permitted by the Plan. The plan area has been divided into parcels consisting of tax blocks and lots and other lands as established on (date of adoption), as follows:

(3) The provisions of Section 62-623 (Supplemental public access areas) shall be inapplicable. In lieu thereof, the following provisions shall apply:

A required #supplemental public access area# shall be directly connected to either a #pier# public access area, an #upland connection# or a #shore public walkway# on either its landward or seaward side and its pedestrian circulation zone shall be contiguous with the adjacent pedestrian circulation zone.

2) A buffer zone shall only be required where a #supplemental public access area# adjoins a non-publicly accessible portion of a #zoning lot#, in which case its minimum width shall be 15 feet.

(4) #Street# Treatment

All #streets# adjacent to a #shore public walkway# or #supplemental public access area# shall be improved as a continuation of such #shore public walkway# or #supplemental public access area#, pursuant to the design requirements of paragraph (b) of this Section, inclusive.

(b) Specific design requirements for shore public walkway prototypes

The provisions of Section 62-63 (Specific Design Requirements for Public Access Prototypes) shall be inapplicable. In lieu thereof the following provisions for #shore public walkways# shall apply:

(1) Greenpoint-Williamsburg Shore Public Walkway-Prototype I

1. One circulation path with a minimum clear width of 12 feet is required.

The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path.

(ii) A minimum of one linear foot of seating shall be provided for every 100 square feet of #shore public walkway#. At least 60 percent of the required seating shall be landward of the required circulation path.

(iii) A minimum of 50 percent of the pedestrian circulation zone, excluding the required circulation path, shall be planting area. Rip rap, beach or other shoreline materials may be counted as an equivalent to planting area.

(iv) One shade tree is required for every 1,200 square feet of #shore public walkway# and one small or ornamental tree shall be required for every 750 square feet of #shore public walkway#. Trees may be located either in the pedestrian circulation zone landward of the required circulation path or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(2) Greenpoint-Williamsburg Shore Public Walkway-Prototype II

1) The provisions of 62-621 (Shore public walkways) shall apply except that a #shore public walkway# shall have a minimum 30 foot pedestrian circulation zone and a minimum 15 foot buffer zone.

2) One circulation path with a minimum clear width of 12 feet is required. The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path, in which case, the path shall be located within 20 feet of the shoreline. A secondary circulation path may be provided, with a minimum width of 10 feet. Connecting paths having a minimum width of ten feet shall be provided between the two circulation paths at intervals not to exceed 100 feet.

3) A minimum of one linear foot of seating shall be provided for every 70 square feet of #shore public walkway#.

4) A minimum of 70 percent of the pedestrian circulation zone, excluding the required circulation path and transition zones, shall be planting area. A minimum of 50 percent of this planting area must be improved as lawn according to the provisions of Section 62-675 (Planting and trees).

(v) One shade tree is required for every 1,900 square feet of #shore public walkway# and shall be located in the pedestrian circulation zone. In addition, one shade, small or ornamental tree shall be required for every 850 square feet of #shore public walkway# and may be located either in the pedestrian circulation zone or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(3) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Plaza

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 40 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 25 percent of the pedestrian circulation zone shall be planting area.

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(4) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Park

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 50 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 60 percent of the pedestrian circulation zone shall be planting area with no more than 30 percent of the planting area in raised planting beds. At least 35 percent of the #supplemental public access area# shall be lawn in compliance with the standards set forth in paragraph (c)(5) of Section 62-675 (Planting and trees).

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation

zone shall not be counted toward the minimum requirements.

(c) Amenities

In parcels where #supplemental public access area# is required, no more than fifteen percent of public access area may be reduced if playgrounds and other amenities are provided in accordance with paragraphs (c)(1) and (c)(2) of this Section.

(1) Playgrounds

A playground shall have a minimum size of 1,000 square feet and, if applicable, there shall be a minimum of 400 feet between any two playground areas. For every five square feet of playground area provided, the total amount of required public access may be reduced by the rate of one square foot.

(2) Other amenities

A reduction in the total amount of required public access area shall be permitted according to the following table. The number and variety of such amenities shall be determined upon certification.

Amenity	Square feet reduction
Picnic table	22 sq. ft.
Chess table	20 sq. ft.
Telescope	10 sq. ft.
Art	50 - 200 sq. ft.
Fountain/water feature	50 - 200 sq. ft.
Shade structure	50 - 200 sq. ft.

(d) Public access design reference standards

Section 62-67 is hereby modified by the following provisions.

(1) Guardrails

The provisions of paragraph (a) Section 62-671 (Guardrails, gates and other protective barriers) shall be inapplicable. In lieu thereof the following provisions for guardrails shall apply:

(i) Guardrails shall be located within waterfront public access areas continuously along any bulkhead, stabilized shore or the water edges of a #pier# or #platform# that is located within 50 feet of a circulation path; and continuously along any grade level change of 30 inches or grader adjoining or within 10 feet of a circulation path. However, guardrails shall not be required landward of any rip rap, beach or any other shoreline material that is at least 10 feet wide. If any protective barrier is provided adjacent to any rip rap, beach or other shoreline material, they shall not exceed a height of 21 inches or shall consist of a bollard and chain device.

Guardrails shall not be required at access points to WD #uses# and #development# on #floating structures#. The minimal protective barrier at such locations shall be a swing gate, bollard and chain or similar device.

(ii) Guardrails shall comply with illustration A1, alternatively illustration A2 may be used in #piers#.

Illustration A1

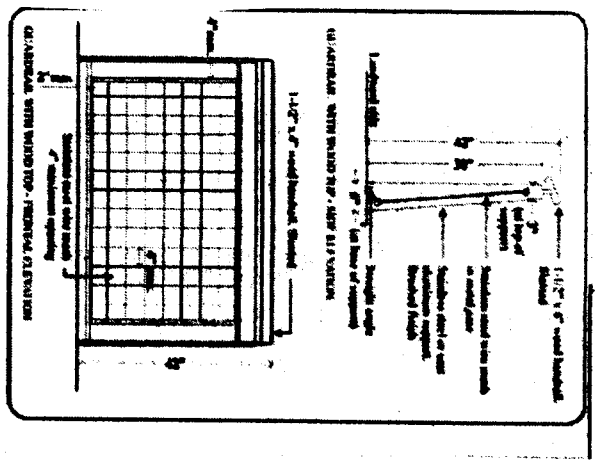

Illustration A2

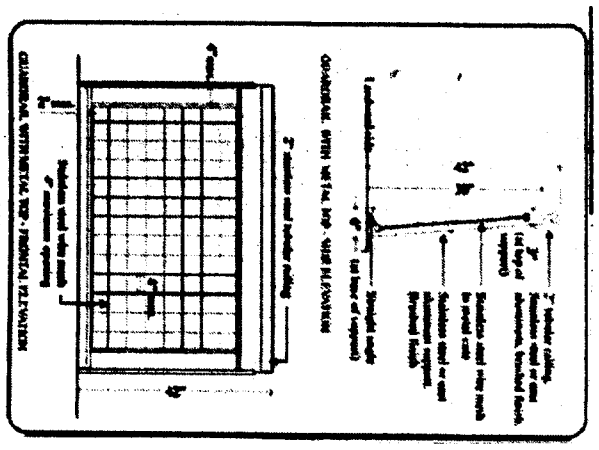

(Alternate for Piers)

All guardrail components and hardware shall be in stainless steel or cast aluminum, as applicable.

(2) Seating

In addition to the provisions of Section 62-672, at least fifty percent of the required seating along any #shore public walkway# or #supplemental public access area# shall comply with illustration B1 or B2 below.

Illustration B1

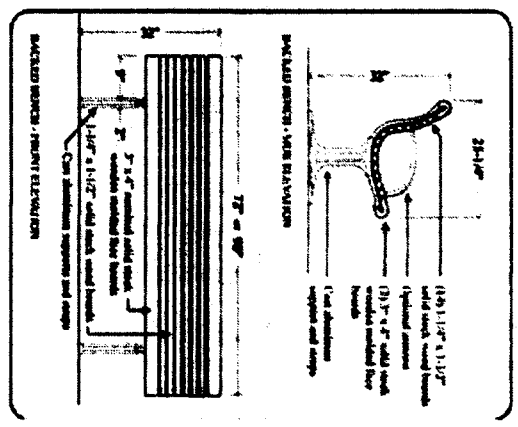

Illustration B2

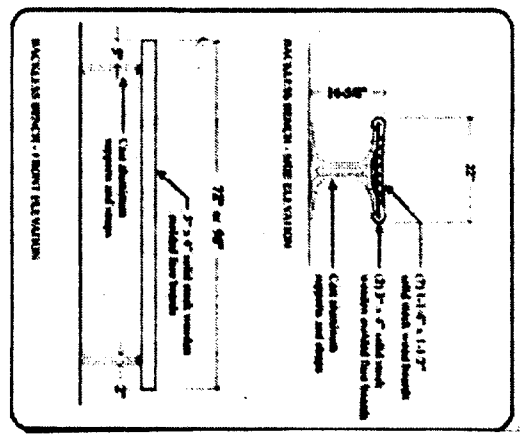

All wood boards shall be made of Redwood, Jarrah or Ipe, have eased edges and ends and be treated for external use without stain or varnish.

All supports and backstraps shall be 713 tenzalloy cast aluminum, with a rust inhibitor and a top coat finish of thermosetting polyester powdercoat that is ultra-violet, chip and flake resistant. Metal components shall have a light gray or aluminum color.

(3) Lighting

In addition to the provisions of Section 62-673, the required lighting along any public access area shall comply with illustration C1 below.

(4) Planting and trees

The provisions of paragraph (c)(6) (Container planting) of Section 62-675 shall be inapplicable, unless a structural or environmental necessity is demonstrated at the time of certification.

(5) Paving

In addition to the provisions of Section 62-676, the paving for the required clear path within the #shore public walkway# shall be gray. At least fifty percent of all other paved areas within the #shore public walkway# and #supplemental public access areas# shall be paved in the same color range.

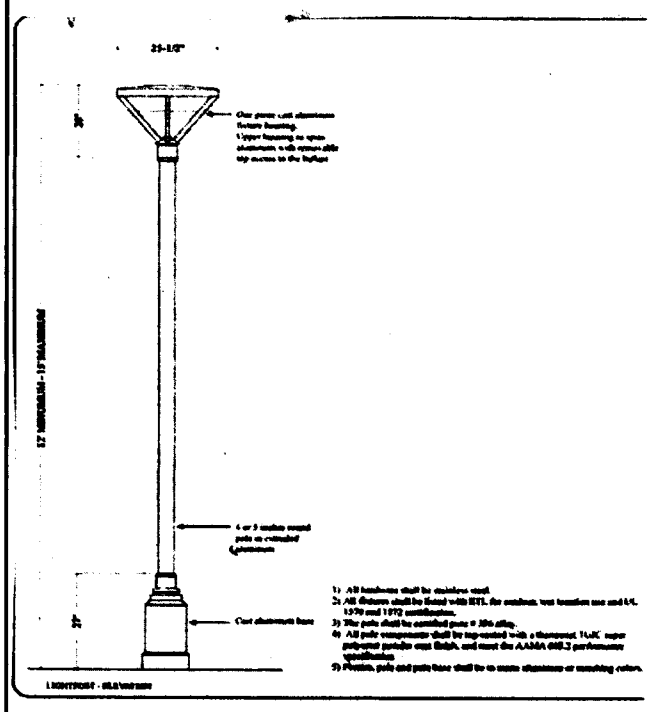

Illustration C1

Illustration C1

(e) Special public access provisions by parcel

The provisions of Sections 62-41 (Requirements for waterfront public access) and 62-60 (DESIGN STANDARDS FOR THE WATERFRONT AREA) are modified at the following designated locations which are shown on Map BK-1b in paragraph (g) of this Section:

1. Parcels 1 and 2

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#
The requirements for #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is developed first shall provide an #upland connection# along the #lot line# between the two parcels. The width of the #upland connection# may be utilized by the developer of the remaining parcel in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels, according to the provisions of paragraph (f)(1) of this Section. If both parcels are developed concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

(3) Parcel 5a

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location indicated on Map BK-1b in paragraph (g) of this Section.

The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(iii) #Supplemental public access area#

The #supplemental public access area# shall abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. The #upland connection#, however, may cut across the #supplemental public access area# provided that no area shall be less than 5,000 square feet. All #supplemental public access areas# shall have a minimum width to depth ratio of 1.0 to 1.0 and a maximum width to depth ratio of 2.0 to 1.0. In no event shall the #supplemental public access area# be deeper than 100 feet. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

Alternatively, a portion of the required #supplemental public access area# that is a minimum of 5,000 square feet may abut the #shore public walkway# continuously along the longest side provided that it also abuts a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-641, but shall not be counted towards satisfying the required amount of public access area on the site. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(4) Parcel 5b

#Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(5) Parcel 5c

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

Two #upland connections# shall be provided between West Street and the #shore public walkway#, one located within the prolongation of the #street lines# of Eagle Street, the other located within the prolongation of the #street lines# of Green Street.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided on Parcel 5c.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the pedestrian circulation zone of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(6) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5 and be subject to the following requirements:

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

One #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location indicated on Map BK-1b in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.

Two #upland connections# shall be provided between West Street and the #shore public walkway#, each located within the prolongation of the #street lines# of Eagle Street and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5 and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining of the required #supplemental public access area# shall be located within the area bounded by the western prolongation of the north #street line# of Dupont Street, the #shore public walkway#, the northern prolongation of the eastern boundary of Parcel 6 and Parcel 6. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section

(7) Parcel 7

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply, except that any portion of the required #shore public walkway# where the distance between the shoreline and the boundaries of Parcel 7 is less than 17 feet shall be improved entirely as clear path.

(ii) #Supplemental public access area#

The requirement for a #supplemental public access area# on Parcel 7 is waived.

(8) Parcels 9, 10 and 11

(i) #Shore public walkway#

The requirements for Prototype II described in paragraph (b)(2) of this Section shall apply.

(ii) #Supplemental public access area#

For each parcel, the #supplemental public access area# requirements shall be provided to widen the pedestrian circulation zone of the #shore public walkway#, evenly distributed along the entire length of such #shore public walkway#.

(9) Parcel 13

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Milton Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be bounded by the southern #street line# of Greenpoint Avenue, the #shore public walkway# and the northern boundary of the required Milton Street #upland connection#. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(10) Parcel 14

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Calyer Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be distributed evenly along the #shore public walkway# between the southern boundary of the required Calyer Street #upland connection# and the prolongation of the northern #street line# of Quay Street. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(11) Parcel 15

An #upland connection# shall be provided within the prolongation of the #street lines# of West Street, connecting QuayStreet to Parcel 20.

(12) Parcels 19, 20, 21 and 22

Parcels 19, 20, 21 and 22 shall be designated as public parks as of (date of adoption).

(13) Parcel 24

Prototype I described in paragraph (b)(1) of this Section shall apply.

(14) Parcel 25

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of North 6th Street.

(iii) #Supplemental public access area#
Two #supplemental public access areas# shall be provided.

One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet from the southern #street line# of North 7th Street. The entire #supplemental public access area#, excluding the required buffer, shall be developed as clear circulation path.

A minimum of one linear foot of seating shall be required for every 40 square feet of pedestrian circulation zone and shall be located in the required buffer zone. Four trees shall be required, at least two of which are shade trees. Small or ornamental trees located within the buffer zone shall not be counted toward the minimum requirements.

The remaining required #supplemental public access area# shall be located either on the #pier# or parallel to the #shore public walkway#. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the North 6th Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(15) Parcel 26

(i) #Shore public walkway#

The requirements of Section 62-411 (Requirements for shore public walkways) shall apply, except that the minimum required width of the #shore public walkway# shall be reduced to 34 feet between North 5th Street and the northern edge of the required #upland connection# at the prolongation of North 4th Street. The quantity of public access eliminated from the #shore public walkway# as a result of this width reduction shall be located in the triangle formed between the #shore public walkway#, the southern #street line# of the North 4th Street #upland connection# and the bulkhead line. The entirety of the #shore public walkway# shall be improved pursuant to the requirements for Prototype I described in paragraph (b)(1) of this Section.

(ii) #Upland connections#

An #upland connection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street.

(16) Parcel 27

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure#, but shall not need to be wider than 40 feet.

Notwithstanding the requirements of Paragraph (c) of Section 62-62 (General Requirements for Public Access), the #shore public walkway# may be located within the #building or other structure#, and the obstructions permitted by Section 62-626, paragraph (a), shall include any supporting structural elements of the #building or other structure# and its related appurtenances. Additionally, the #shore public walkway# shall have a minimum clear path of 12 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#
The requirements for #supplemental public access# shall be waived.

(f) Special visual corridor provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan are shown on Map BK-1c in paragraph (g) of this Section and shall be as follows:

(1) Parcels 3 and 4

A #visual corridor# shall be provided through Parcels 3 and 4 to the pierhead line within a flexible area along the #lot lines# between them.

Whichever parcel develops second shall complete the required clearance to comply with the #visual corridor# requirements along the #upland connection# already provided in accordance with the requirements of paragraph (e)(2)(ii) of this Section. If both parcels are developed concurrently, then the requirements can be divided equally along the #lot line# between the parcels.

(2) Parcel 5a

A #visual corridor# shall be provided through Parcel 5a to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be

200 feet from the shared lot line of Parcels 5b and 6.

(3) Parcel 5b

Two #visual corridors# shall be provided through Parcel 5b to the pierhead line as the prolongation of the #street lines# of West Street and Dupont Street, respectively.

(4) Parcel 5c

(i) Two #visual corridors# shall be provided through Parcel 5c to the pierhead line as the prolongation of the #street lines# of Eagle Street and Green Street.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be permitted obstructions along the #visual corridor# along Green Street.

(5) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5, subject to the following #visual corridors# requirements:

(i) One #visual corridor# shall be provided through Parcel 5 to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.
Four #visual corridors# shall be provided through Parcel 5 to the pierhead line, each located as the prolongation of the #street lines# of West Street, Dupont Street, Eagle Street and Green Street, respectively.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be allowed along the #visual corridor# along Green Street.

(6) Parcel 13

Two #visual corridors# shall be provided through Parcel 13 to the pierhead line as the prolongation of the #street lines# of Milton Street and Oak Street, respectively.

(7) Parcel 14

A #visual corridor# shall be provided through Parcel 14 as the prolongation of the #street lines# of Oak Street.

(8) Parcel 15

A #visual corridor# shall be provided though Parcel 15 as the prolongation of the #stret lines# of West Street.

(9) Parcel 25

A #visual corridor# shall be provided through Parcel 25 as the prolongation of the #street lines# of North 6th Street.

INCLUSIONARY HOUSING

23-91
General Provisions

~~**R10**~~

~~In the district indicated, a~~An Inclusionary Housing program is established in those areas designated in Section 23-92 (Applicability) to preserve and to promote a mixture of low to upper income housing within neighborhoods experiencing a shift from mixed to upper income housing and thus to promote the general welfare. The requirements of this program are set forth in Sections 23-90 through 23-~~94~~95.

23-92
Applicability

23-921
R10 Districts

The Inclusionary Housing Program shall apply in R10 Districts.

23-922
Community District 1, Borough of Brooklyn

The Inclusionary Housing Program shall apply in the following areas of Community District 1 in the Borough of Brooklyn located north of the Williamsburg Bridge, Washington Plaza, Borinquen Place and Grand Street:

(a) Waterfront Access Plan BK-1, as set forth in Section 62-352;

(b) all #Special Mixed Use Districts#;

(c) all R6A, R6B and R7A Districts; and

(d) the following R6 areas:

(1) the #block# bounded by Havemeyer Street, North Sixth Street, Metropolitan Avenue and North Fifth Street;

(2) the #block# bounded by Roebling Street, North Fifth Street, Havemeyer Street and Metropolitan Avenue;

(3) those #blocks# bounded by Wythe Avenue, Grand Street, Berry Street and South Third Street;

(4) those #blocks# and portions of #blocks# bounded by Bedford Avenue, North 1st Street, Driggs Street, Fillmore Place, Roebling Street, and a line coincident with the centerline of the long dimension of the #blocks# bounded by Bedford Avenue, Grand Street, Roebling Street and South First Street; and

(5) that portion of the #block# bounded by Franklin Street, Huron Street, Manhattan Avenue and India Street that is within 100 feet of Franklin Street and 100 feet of India Street.

~~**23-92**~~ **23-93**
Definitions

For the purposes of the Inclusionary Housing program, matter in italics is defined either in Section 12-10 (DEFINITIONS) or in this Section.

Fair rent

* * *

At initial occupancy of any #lower income housing#, no portion of the #fair rents# shall be for the payment of the principal or interest on any debt, and the #lower income housing# shall not secure any debt and shall be free of all liens, except liens for real estate taxes, water charges and sewer rents and other governmental charges for which payment is not yet due. #Fair rents# may be used for the payment of principal or interest of debt only if such debt was incurred after the date of initial occupancy and is for a capital improvement to such #lower income housing# other than those capital improvements set forth in the #lower income housing plan#.

In Community District 1, Borough of Brooklyn, at initial occupancy of any #lower income housing#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95(c) o this Resolution, and provided that the lender agrees to enter into a written agreement which subordinates such debt.

Lower income household

A "lower income household" is a #family# having an income equal to or less than the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U.S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.
In Community District 1, Borough of Brooklyn, for the purposes of Section 23-953 (Preservation option), #lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City and State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with U. S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.

Lower income housing
"Lower income housing" are #standard units# occupied or to be occupied by #lower income households#. #Lower income housing# shall not include #standard units# assisted under city, state or federal programs, except where such assistance is in the form of:

(e) real estate tax abatements and exemptions which are specifically limited to the #lower income housing#; or

(f) operating assistance that the Commissioner of the Department of Housing Preservation and Development determines will be used to enable households with incomes of not more than 62.5 percent of the "80 Percent of SMSA Limits" to afford such #lower income housing#.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall include #standard units# assisted under city, state or federal programs.

Lower income housing plan

The "lower income housing plan", is the plan accepted by the Commissioner of Housing Preservation and Development, which sets forth the developer's plans for creating and maintaining the specified #lower income housing# pursuant to this program, including but not limited to, choice of #administering agent#, tenant selection, rent levels in the #lower income housing# and income verification of tenants pursuant to Section ~~23-94~~ 23-95 paragraphs (b), (c) and (d) of this Resolution.

Floor Area Compensation

23-941
In R10 Districts

The #floor area ratio# of a #development# may be increased from 10.0 to a maximum of 12.0 at the rate set forth in this Section, if the developer of such #development# provides #lower income housing# pursuant to Section ~~23-94~~ 23-95 (Lower Income Housing Requirements).

For each square foot of #floor area# provided for #lower income housing# pursuant to the options listed in Column A and which meets the requirements set forth in Section ~~23-94~~ 23- 95, the #floor area# of the #development# may be increased by the number of square feet set forth in Column B.

* * *

23-942
In Community District 1, Borough of Brooklyn

The provisions of this Section 23-942 shall apply in the designated areas set forth in Section 23-922, except within Waterfront Access Plan Bk-1. The base #floor area ratio# of any #building developed# or #enlarged# pursuant to the Quality Housing Program, or, in #Special Mixed Use Districts#, pursuant to paragraph (b) of Section 123-662, may be increased to the maximum #floor area ratio# set forth in the table below if the developer of such #development# provides #lower income housing# pursuant to Section 23-95 (Lower Income Housing Requirements).

District	Base #floor area ratio#	Maximum #floor area ratio#
R6B	2.0	2.2

~~23-94~~ 23-95
Lower Income Housing Requirements

~~R10~~

To qualify for the increased #floor area#, #compensated developments# must provide #lower income housing# for the life of the increased #floor area# in the #compensated development# pursuant to one or more of the options listed in Section ~~23-941, 23-942 and 23-943~~, 23-951, 23-952 and 23-953 and such #lower income housing# must meet each of the requirements set forth below.

* * *

~~23-941~~ 23-951
On-site new construction option

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(a) The #lower income housing# shall be located in newly constructed #floor area# in the #compensated development#. The #lower income housing# shall be maintained and leased to #lower income households# for the life of the increased #floor area#.

(b) #Dwelling units# designated as #lower income housing# shall be distributed throughout the #development#. No #story# shall contain more than two such units unless at least 80 percent of all #stories# contain two such units. The size of the designated #lower income housing# units shall at least be distributed among the various size units in proportion to the total distribution of unit size within the #building# in the following categories of unit sizes:

under 600 net square feet
600 - 749 net square feet
750 - 949 net square feet
950 - 1149 net square feet
1150 or more net square feet

In Community District 1, Borough of Brooklyn, the requirements of this paragraph (b) may be waived by the Commissioner of Housing Preservation and Development to facilitate the #development# of #lower income housing#.

~~23-942~~ 23-952
Substantial rehabilitation and off-site new construction options

To qualify for one or more of these options, the designated #lower income housing# shall meet the following requirements:

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#.

For the new construction option the #lower income housing# shall be in a new #building#. For the substantial rehabilitation options, the #lower income housing# shall be in an existing #building# in which, prior to the submission of the #lower income housing plan# pursuant to this Section, any #residential# portion not in public ownership had been entirely vacant for not less than three years.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall be located only within such Community District, and the administering agent shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

* * *

~~23-943~~ 23-953
Preservation option

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#.

The #lower income housing# shall be in an existing occupied #residential# or #mixed building#. Only #standard units# occupied by #lower income households# shall be #lower income housing#. For each #standard unit# designated as #lower income housing# the #administering agent# shall verify the income of the household in tenancy.

However, in Community District 1, Borough of Brooklyn, #lower income housing# shall be located only within such Community District, and the administering agent shall not be required to verify the income of households in tenancy as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

SPECIAL USE REGULATIONS

* * *

62-29
Special Use Regulations for Waterfront Access Plan BK-1

All Use Group 6 and 9 #uses# delineated in Section 62-212 (Waterfront-Enhancing Uses) not otherwise permitted, shall be a permitted use on any parcel identified in Waterfront Access Plan BK-1, provided that such use is limited to not more than 10,000 square feet of #floor area# per establishment; the total amount of #floor area# used for such #uses# does not exceed two per cent of the total amount of #floor area# permitted on such parcel; and such #uses# are located below the level of the first #story# ceiling of a #building# or are located on a #pier# or #platform#.

Additionally, Docks for water taxis (Use Group 6) and Docks or mooring facilities for non-commercial pleasure boats (Use Group 6) shall be a permitted use on any parcel identified in Waterfront Access Plan BK-1.

* * *

62-30
SPECIAL BULK REGULATIONS

All #zoning lots# within #waterfront blocks# shall comply with the #bulk# regulations of this Section. For the purposes of this Section, non-#waterfront blocks# included in Waterfront Access Plan BK-1 shall be considered to be #waterfront blocks#. Existing non-complying buildings or other structures shall be subject to the provisions of Article V (Non-Conforming Uses and non-complying Buildings).

62-31
Bulk Computations on Waterfront Zoning Lots

* * *

(b) #Floor area#, #dwelling units# or #rooming units# generated by existing #piers# or #platforms# within the #seaward lot# may be located anywhere on the #zoning lot# provided the amount on the #upland lot# does not exceed the maximum for the district on such portion of the #zoning lot# by more than 20 percent. No #bulk# distribution from the #seaward lot# shall be permitted for new #piers# or #platforms#, except within Waterfront Access Plan BK-1. Such # bulk# distribution shall be permitted for new portions of #piers# located within Waterfront Access Plan BK-1, provided that such new portion of the #pier# is accessed from a portion of an existing #pier# containing not less than 25 percent of the #water coverage# of such existing #pier# and that the #water coverage# of the new and existing portions of the #pier# does not exceed the #water coverage# of the existing #pier#.

* * *

62-35
Special Bulk Regulations within Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1, the special #bulk# regulations of this Chapter are further modified as set forth in this Section 62-35, inclusive.

62-351
Special floor area regulations

(a) Maximum permited #floor area ratio#

In R6 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# shall be 2.43. In R8 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# shall be 5.5. In R6 and R8 Districts, the maximum permitted #floor area ratio# for any #zoning lot# containing #residences# may be increased for #developments# and #enlargements# that provide lower income housing pursuant to Section 62-352.

(b) #Buildings# used for #accessory# off-#street# parking spaces

The #floor area# of a #building# shall not include floor space used for #accessory# off-street parking spaces provided in any #story# located not more than 33 feet above the height of the #base plane#.

62-352
Inclusionary Housing

The provisions of Section 23-90 (INCLUSIONARY HOUSING) shall apply in R6 and R8 Districts within Waterfront Access Plan BK-1 as modified in this Section.

(a) Definitions

Fair rent

At initial occupancy of #lower income housing# that is occupied by a #moderate income household# or a #middle income household# as defined in this Section, "fair rent" is an annual rent for each such housing equal to not more than either the public assistance shelter allowance if the #family# receives public assistance, or 30 percent of the annual income of the tenant of such housing (the "30 Percent Standard").

Upon renewal of a lease for such an existing tenant in #lower income housing#, #fair rent# (the "Rent Stabilization Standard") is not more than the then-current #fair rent# for such housing plus a percentage increase equal to the percentage increase for a renewal lease of the same term permitted by the Rent Guidelines Board for units subject to the rent stabilization law.

After initial occupancy, upon rental of #lower income housing# to a new tenant, #fair rent# is not more than the higher of:

(1) the then-currently applicable "30 Percent Standard"; or

(2) the Rent Stabilization Standard.

In order for rent to be #fair rent#, the following must also apply:

There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation

and Development may approve a #lower income housing plan# making a #lower income, #moderate income# or #middle income household# responsible for the payment of utilities as long as the sum of:

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment do not exceed 30 percent of said #lower income#, #moderate income# or #middle income household's# income.

At initial occupancy of any #lower income housing# occupied by a #moderate income# or #middle income household#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95(c) o this Resolution, and provided that the lender agrees to enter into a written agreement which subordinates such debt.

Lower income housing
For the purposes of this Section, "lower income housing" shall include #standard units# occupied or to be occupied by #lower income#, #moderate income# or #middle income households#.

Moderate income household

For the purposes of this Section 62-352, a "moderate income household" is a #family# having an income equal to or less than the following proportion:

125
80

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

Middle income household

For the purposes of this Section 62-352, a "middle income household" is a #family# having an income equal to or less than the following proportion:

175
80

of the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U. S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

(b) Floor area increase

The maximum permitted #floor area ratio# on a #zoning lot# containing #residences# may be increased in R6 Districts from 2.43 to 2.75, and in R8 Districts from 5.5 to 6.5, provided that:

(1) at least 15% of the total #floor area# on the #zoning lot# is occupied by #lower income households#, or

(2) at least 10% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 10% of the total #floor area# on the #zoning lot# is occupied by #moderate income households#, or

(3) at least 10% of the total #floor area# on the #zoning lot# is occupied by #lower income households# and at least 15% of the total #floor area# on the #zoning lot# is occupied by #middle income households#.

(c) Lower Income Housing Requirements

#Developments# that increase #floor area# in accordance with the provisions of this Section shall comply with the lower income housing requirements of Section 23-95, except as modified in this paragraph (c).

(1) The provisions of Section 23-95(b) shall apply, except that in addition, incoming households of #standard units# in #lower income housing# may be #moderate# and #middle income households#, and sublessees of a #moderate# or #middle income household# may also be a #moderate# or #middle income household#.

Furthermore, on and after the issuance of a certificate of occupancy for #lower income housing#, the #administering agent# shall have a duty to rent such housing to #lower#, #moderate# or #middle income households#, as provided in this Section.

This duty to rent shall be satisfied by the #administering agent#, if such agent has in fact rented all such units to #lower#, #moderate# or #middle income households#, as provided in this Section, or has, in good faith, made a continuing public offer to rent such units at rents no greater than the rents authorized by this program or otherwise at law.

(2) The provisions of Section 23-95(d) shall apply, except that prior to renting #lower income housing#, the #administering agent# shall verify the income of each household to occupy such housing, to assure that the households are #lower#, #moderate# or #middle income households# as provided by this Section. The #administering agent# shall submit an affidavit to the Commissioner of Housing Preservation and Development upon initial occupancy and annually thereafter attesting that all incoming occupants of #lower income housing# are #lower#, #moderate# or #middle income households# as required by the provisions of this Section.

(3) Section 23-951(a) shall apply, except that the #lower income housing# shall be maintained and leased to #lower#, #moderate# or #middle income households#, as provided in this Section, for the life of the increased #floor area#.

62-353
Special floor area, lot coverage and residential density distribution regulations

Within any parcel identified in Section 62-381, and with respect to any such parcels which are adjacent to each other and which are under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined in (e) of the definition of a #zoning lot# in Section 12-10) or with respect to which each party in interest (as defined in (f)(4) of the definition of a #zoning lot# in Section 12-10) has executed a declaration declaring that the properties are to be develop as a single parcel or has waived its right to execute such declaration, the total #floor area# and #lot coverage# permitted pursuant to Section 62-351 or 62-352 and the residential density permitted pursuant to Section 23-22 may be located anywhere within such parcel or between such parcels without regard to #zoning lot lines# or district boundaries provided that such location of #floor area#, #lot coverage# or residential density complies with Section 62-31 and Section 62-34 as modified by Section 62-354.

62-354
Special Height and Setback Regulations

The provisions of Section 62-341 are modified as follows:

(a) Paragraph (c)(1) (Maximum base height) shall be modified in R6 Districts to permit a maximum base height of 65 feet or six #stories#, whichever is less. However, for #buildings or other structure# located on a #zoning lot# with more than 100 feet of frontage on a #street# in R6 Districts, not less than 20 percent of such frontage shall exceed a maximum base height of 55 feet or 5 #stories#, whichever is less.

(b) Paragraph (c)(2) (Maximum #building# height) shall not apply. In lieu thereof, the maximum #building# height in an R6 District shall be 65 feet or six #stories#, whichever is less, within 100 feet of Commercial Street, West Street, Dupont Street, Franklin Street and Kent Avenue. Beyond 100 feet of such #streets# and any other portions of an R6 District, the maximum #building# height in shall be 110 feet. In R8 Districts, the maximum #building# height shall be 210 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 200 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 210 feet to a maximum #building# height of 310 feet. Such maximum #building# heights of 110 feet, 210 feet and 310 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 110 feet, 210 feet or 310 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.
For #developments# that provide #lower income housing# pursuant to Section 62- 352, the increased #floor area# permitted for such #developments# may exceed the height limits of an R8 District set forth in this paragraph (b) provided that the maximum building height shall be 260 feet, except that for #zoning lots developed# with multiple #buildings# or portions of #buildings# that exceed a height of 250 feet, not more than half of such #buildings# or portions of #buildings# may exceed a height of 260 feet to a maximum #building# height of 360 feet. Such maximum #building# heights of 260 feet and 360 feet may be exceeded by a penthouse portion of a #building#, provided any #story# of a #building# within such penthouse portion does not exceed 85 percent of the gross area of the highest #story# of the same #building# entirely below a height of 260 feet or 360 feet, as applicable, and the maximum height of such penthouse portion does not exceed 40 feet.

(c) Paragraphs (c)(3) (#Floor area# distribution) and (c)(5) (Additional setback provisions for high #buildings#) shall not apply.

(d) Paragraph (c)(4) (Maximum #residential# tower size) shall not apply. In lieu thereof, each #residential story# of a #building# located entirely above a height of 85 feet shall not exceed a gross area of 8,100 square feet in an R6 District and 11,000 square feet in an R8 District. If such #residential story# of a #building# is located partially in an R6 District and partially in an R8 District, it shall not exceed a gross area of 11,000 square feet and any portion located in an R6 district shall not exceed a gross area of 8,100 square feet.

(e) Paragraph (c)(6) shall not apply. In lieu thereof, the maximum length of any #story# of a #building# that exceeds a height of 85 feet shall not exceed 170 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above such heights. Any side of such rectangle shall not exceed 170 feet.

(f) Paragraph (c)(7) (Ground floor streetscape provisions) shall not apply. In lieu thereof, all off-street parking spaces located within 50 feet of a #street#, a #visual corridor# containing a private road, and a #shore public walkway#, #upland connection# or #supplemental public access area# and which are located on a #story# that is above the #base plane# shall be within facilities that are located behind #commercial#, #community facility# or #residential# floor space so that no portion of such parking facility, other than entrances and exits, is visible from such #streets#, #visual corridors# or publicly accessible open spaces. Such floor space shall have a minimum depth of 25 feet. Up to 5 percent of such floor space may be used for mechanical equipment provided that no floor space used for mechanical equipment is located within 15 feet of the #street wall# of the #building# below a height of 15 feet above the #base plane#, and that no exhaust vents are located on the street wall of the #building# below a height of 15 feet above the #base plane#. The remainder of such floor space shall be used for #commercial#, #community facility# or #residential floor area#. Seventy percent of the surface area of the facade of a facility containing parking spaces which are not otherwise required to be behind such #floor area# shall be composed of the same materials as the facade of the #building# in which it is located.

(g) Any roof of a facility containing off-street parking spaces, not otherwise covered by a #building#, which is larger than 400 square feet shall be landscaped. Up to 5 percent of such roof area may be used for mechanical equipment provided that such mechanical equipment is screened from view by a fence which is at least 75 percent opaque or by at least 3 feet of dense planting. Up to 25 percent of such roof area may be accessible solely from an adjacent #dwelling unit# and the remaining roof area shall be accessible for the recreational use of the occupants of the building in which it is located. Hard surfaced areas shall not cover more than 60 percent of such roof area.

(h) At least 70 percent of the width of the #streetwall# of a #building# or #buildings# fronting on a portion of a #street#, #upland connection# or #visual corridor# which is not adjacent to a #shore public walkway# or #supplemental public access area# shall be located within eight feet of such #street line# and extend to a minimum height of 30 feet.

(i) All #developments#, conversions, and #enlargements# or #extensions# which increase the existing #floor area# by more than 10 percent, shall provide along the entire #street# length of the #zoning lot#, one tree for every 25 feet of # street# frontage. Such trees shall be of at least three-inch caliper at the time of planting and be placed at approximately equal intervals except where the Department of Parks and Recreation determines that such tree planting would be unfeasible. Such trees shall be planted in accordance with the standards of the Department of Parks and Recreation.

62-57
Special Parking and Loading Regulations for Waterfront Access Plan BK-1

Within Waterfront Access Plan BK-1 the Special Parking and Loading Regulations of this section are further modified as follows:

(a) The provisions of Section 62-511 and Section 62-521 shall not be applicable.

(b) #Accessory# off-street parking spaces for #uses# permitted pursuant to Section 62- 29 shall be provided in conformity with the regulations of Sections 36-21, 36-22 and 36-232 for C2-4 districts.

(c) Any required #accessory# off-street parking spaces provided for #uses# located on a parcel identified in Waterfront Access Plan BK-1 may be located anywhere within such parcel.

Waterfront public access and visual corridors

* * *

5. for the #development# of a park, a site plan and all other applicable data have been submitted showing compliance with the provisions of Section 62-416 (Special regulations for zoning lots that include parks).

A certification pursuant to paragraph (c) of this section, for any parcel identified in Waterfront Access Plan BK-1, may provide for the phased implementation of all required public access areas provided that an amount of public access area proportionate to the amount of #floor area# being developed on the parcel is provided in each phase. Additionally, for any #development# located within 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 200 linear feet of #shore public walkway# and any adjacent #supplemental public access area# located between such #development# and the required #shore public walkway#, one #upland connection# through or adjacent to the entire parcel to such required portion of the #shore public walkway# and, shall have at least one other connection from such required portion of the #shore public walkway# to an adjacent #shore public walkway#, a #street# or another #upland connection#. For any #development# located entirely beyond 200 feet of a #shore public walkway#, the initial phase and each subsequent phase, shall also provide a minimum of 100 linear feet of #shore public walkway#, and one #upland connection# through or adjacent

to the entire parcel to such required portion of the #shore public walkway#. However, no public access area needs to be provided for a phase consisting of a #development # in which all included #residential# units are affordable units for a #lower income household# as defined in section 23-93 or a #moderate income household# or a #middle income household# as defined in section 62-352.

A certificate pursuant to paragraphs (b) or (c) of this Section shall be granted on condition that an acceptable restrictive declaration is executed and filed pursuant to Section 62-14 (Requirements for Recordation).

62-812
Elements of a Waterfront Access Plan

A Waterfront Access Plan may:

1) on #zoning lots# where public access or #visual corridors# are required pursuant to the provisions of Sections 62-40 and 62-60, modify the size, configuration, location or design of required waterfront public access areas or #visual corridors# within certain designated areas in order to address local conditions, provided such plan does not impose a public access or #visual corridor# requirement on any #zoning lot# greater than would otherwise be required pursuant to the provisions of Sections 62-40 or 62-60. For the purpose of determining the amount of public access, the highest standard applicable to a zoning lot may be applied regardless of any specific #use# permitted or proposed for such #zoning lot#. Within Waterfront Access Plan BK-1, the public access and #visual corridor# requirements for any parcel located within the Waterfront Access Plan may be determined by aggregating the public access and #visual corridor# requirements of each zoning lot within the parcel and such aggregated requirements may be modified within such parcel without regard to #zoning lot lines#;

Waterfront Access Plan BK-1: Greenpoint-Williamsburg

Maps BK-1a through BK-1c in paragraph (g) of this Section show the boundaries of the area comprising the Greenpoint-Williamsburg Waterfront Access Plan and the location of certain features mandated or permitted by the Plan. The plan area has been divided into parcels consisting of tax blocks and lots and other lands as established on (date of adoption), as follows:

Parcel 1:	Block 2472, Lot 350
Parcel 2:	Block 2472, Lot 400
Parcel 3:	Block 2472, Lot 410
Parcel 4:	Block 2472, Lot 425
Parcel 5a:	Block 2472, Lot 100
Parcel 5b:	Block 2472, Lot 32 and Block 2494, Lot 6
Parcel 5c:	Block 2472 Lot 2, Block 2494 Lot 1, Block 2502 Lot 1, Block 2510 Lot 1 and Block 2520 Lot 57
Parcel 6:	Block 2472, Lot 75
Parcel 7:	Block 2520, Lot 1
Parcel 8:	Block 2530, Lots 55 and 56
Parcel 9:	Block 2530, Lots 1
Parcel 10:	Block 2538, Lot 1
Parcel 11:	Block 2543, Lot 1
Parcel 12:	Block 2556, Lots 41
Parcel 13:	Block 2556 Lot 1, Block 2564 Lot 1, Block 2567 Lot 1 and Block 2570 Lot 36
Parcel 14:	Block 2570, Lot 1
Parcel 15:	Block 2590, Lot 1
Parcel 16:	Block 2590, Lot 210
Parcel 17:	Block 2590, Lot 215
Parcel 18:	Block 2590, Lot 22
Parcel 19:	Block 2590, Lot 25
Parcel 20:	Block 2590, Lot 100 and Block 2277, Lot 1
Parcel 21:	Block 2287, Lot 1,16 and 30 and Block 2294 Lots 1 and 5
Parcel 22:	Block 2301, Lots 1, 50, 60 & 70
Parcel 23:	Block 2316, Lot 46
Parcel 24:	Block 2308, Lot 1 and Block 2316, Lot 1
Parcel 25:	Block 2324, Lot 1 & Block 2332, Lot 1
Parcel 26:	Block 2340, Lot 1
Parcel 27:	Block 2348, Lot 1

(a) Area wide modifications:

The following provisions shall apply to all #developments# required to provide public access, pursuant to Section 62-40 (REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AND VISUAL CORRIDORS):

(1) Paragraph (c) of Section 62-412 (Requirements for public access on piers) is applicable, except that a minimum of 15 feet are required along each water edge.

(2) The provisions of Section 62-61 (Design Options and Methodology) shall be inapplicable. In lieu thereof, the following provisions shall apply:

2 All required public access areas and #visual corridors# shall comply with the general requirements set forth in Section 62-62 (General Requirements for Public Access Areas) and the specific requirements as set forth in this Section.

(ii) #Upland connections#, #visual corridors#, public access areas on #piers# and public access areas in conjunction with #floating structures# shall comply with the design requirements set forth in Sections 62-64 through 62-66, inclusive.

(iii) Public access areas are subject to the design reference standards set forth in Section 62-67 and paragraph (d) of this Section.

(3) The provisions of Section 62-623 (Supplemental public access areas) shall be inapplicable. In lieu thereof, the following provisions shall apply:

c) A required #supplemental public access area# shall be directly connected to either a #pier# public access area, an #upland connection# or a #shore public walkway# on either its landward or seaward side and its pedestrian circulation zone shall be contiguous with the adjacent pedestrian circulation zone.

d) A buffer zone shall only be required where a #supplemental public access area# adjoins a non-publicly accessible portion of a #zoning lot#, in which case its minimum width shall be 15 feet.

(4) #Street# Treatment

All #streets# adjacent to a #shore public walkway# or #supplemental public access area# shall be improved as a continuation of such #shore public walkway# or #supplemental public access area#, pursuant to the design requirements of paragraph (b) of this Section, inclusive.

(b) Specific design requirements for Public Access Prototypes

The provisions of Section 62-63 (Specific Design Requirements for Public Access Prototypes) shall be inapplicable. In lieu thereof the following provisions for #shore public walkways# and #supplemental public access areas# shall apply:

(1) Greenpoint-Williamsburg Shore Public Walkway-Prototype I

1. One circulation path with a minimum clear width of 12 feet is required. The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path.

(ii) A minimum of one linear foot of seating shall be provided for every 100 square feet of #shore public walkway#. At least 60 percent of the required seating shall be landward of the required circulation path.

(iii) A minimum of 50 percent of the pedestrian circulation zone, excluding the required circulation path, shall be planting area. Rip rap, beach or other shoreline materials may be counted as an equivalent to planting area.

(iv) One shade tree is required for every 1,200 square feet of #shore public walkway# and one small or ornamental tree shall be required for every 750 square feet of #shore public walkway#. Trees may be located either in the pedestrian circulation zone landward of the required circulation path or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(2) Greenpoint-Williamsburg Shore Public Walkway-Prototype II

1) The provisions of 62-621 (Shore public walkways) shall apply except that a #shore public walkway# shall have a minimum 30 foot pedestrian circulation zone and a minimum 15 foot buffer zone.

2) One circulation path with a minimum clear width of 12 feet is required. The path must be within ten feet of the seaward edge of the #shore public walkway#, except when rip rap, beach or other shoreline materials are provided in a publicly accessible area seaward of the path, in which case, the path shall be located within 20 feet of the shoreline. A secondary circulation path may be provided, with a minimum width of 10 feet. Connecting paths having a minimum width of ten feet shall be provided between the two circulation paths at intervals not to exceed 100 feet.

3) A minimum of one linear foot of seating shall be provided for every 70 square feet of #shore public walkway#.

4) A minimum of 70 percent of the pedestrian circulation zone, excluding the required circulation path shall be planting area. A minimum of 50 percent of this planting area must be improved as lawn according to the provisions of Section 62-675 (Planting and trees).

(v) One shade tree is required for every 1,900 square feet of #shore public walkway# and shall be located in the pedestrian circulation zone. In addition, one shade, small or ornamental tree shall be required for every 850 square feet of #shore public walkway# and may be located either in the pedestrian circulation zone or in the buffer zone. Fifty percent of required shade trees shall be located within 10 feet of the required clear path.

(3) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Plaza

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 40 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 25 percent of the pedestrian circulation zone shall be planting area.

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(4) Greenpoint-Williamsburg Supplemental Public Access - Waterfront Park

(i) The entire #supplemental public access area# shall be a pedestrian circulation zone, except for any buffer zone required by paragraph (a)(3)(ii) of this Section.

(ii) There shall be at least one circulation path throughout the #supplemental public access area#. Such path shall provide access to the primary entrance of any building or #use# that is within or adjacent to the #supplemental public access area#.

The required circulation path shall have a minimum clear width of ten feet and any other circulation path shall have a minimum clear width of six feet.

Within a transition zone, the minimum aggregate width of clear path along any side of the #supplemental public access area# shall be equal to 50 percent of the length of the intersection between the two public access areas, and any single path providing access between waterfront public access areas shall have a minimum width of 10 feet.

(iii) A minimum of one linear foot of seating shall be provided for every 50 square feet of pedestrian circulation zone. Fifty percent of required seating shall be under shade throughout the day.

(iv) A minimum of 60 percent of the pedestrian circulation zone shall be planting area with no more than 30 percent of the planting area in raised planting beds. At least 35 percent of the #supplemental public access area# shall be lawn in compliance with the standards set forth in paragraph (c)(5) of Section 62-675 (Planting and trees).

(v) Four trees shall be required for the first 2,500 square feet of #supplemental public access area#, at least two of which shall be shade trees. For each additional 750 square feet, one additional shade, ornamental or small tree shall be required. Small or ornamental trees located within the pedestrian circulation zone shall not be counted toward the minimum requirements.

(c) Amenities

In parcels where #supplemental public access area# is required, no more than fifteen percent of public access area may be reduced if playgrounds and other amenities are provided in accordance with the following provisions.

(1) Playgrounds

A playground shall have a minimum size of 1,000 square feet and, if applicable, there shall be a minimum of 400 feet between any two playground areas. For every five square feet of playground area provided, the total amount of required public access may be reduced by the rate of one square foot.

(2) Other amenities

A reduction in the total amount of required public access area shall be permitted according to the following table.

Amenity	Square feet reduction
Picnic table	22 sq. ft. per table, to a max. of 200 sq. ft.
Chess table	20 sq. ft. per table,to a max. of 200 sq. ft.
Telescope	10 sq. ft. per telescope, to a max. of 50 sq. ft.
Fountain/water feature	150 sq. ft. per feature, to a max. of 300 sq. ft.
Shade structure	150 sq. ft. perstructure, to a max. of 300 sq. ft.

(d) Public access design reference standards

Section 62-67 is hereby modified by the following provisions.

(1) Guardrails

The provisions of paragraph (a) Section 62-671 (Guardrails, gates and other protective barriers) shall be inapplicable. In lieu thereof the following provisions for guardrails shall apply:

(i) Guardrails shall be located within waterfront public access areas continuously along any bulkhead, stabilized shore or the water edges of a #pier# or #platform# that is located within 50 feet of a circulation path; and continuously along any grade level change of 30 inches or greater adjoining or within 10 feet of a circulation path. However, guardrails shall not be required landward of any rip rap, beach or any other shoreline material that is at least 10 feet wide. If any protective barrier is provided adjacent to any rip rap, beach or other shoreline material, they shall not exceed a height of 21 inches or shall consist of a bollard and chain device.

Guardrails shall not be required at access points to WD #uses# and #development# on #floating structures#. The minimal protective barrier at such locations shall be a swing gate, bollard and chain or similar device.

(ii) Guardrails shall comply with illustration A1; alternatively, illustration A2 may be used in #piers#.

All guardrail components and hardware shall be in stainless steel or cast aluminum, as applicable.

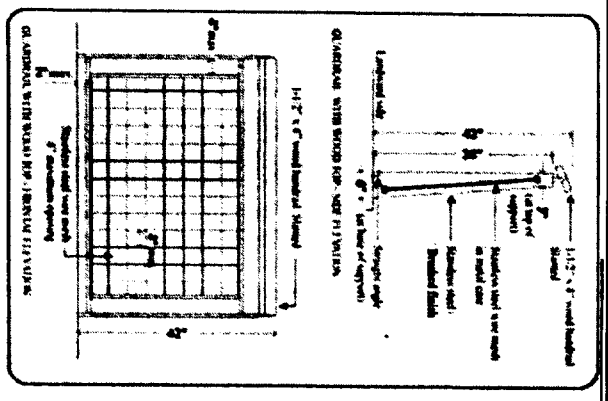

Illustration A1

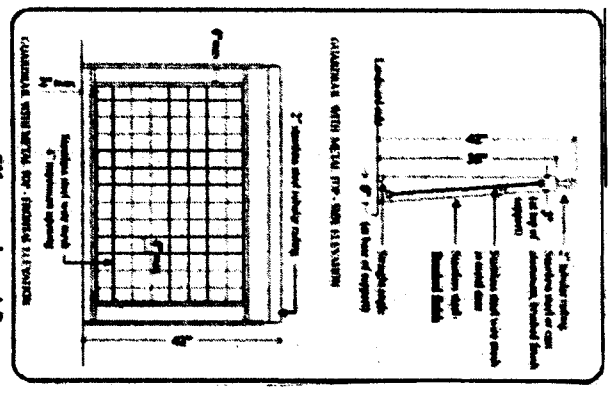

Illustration A2

(Alternate for Piers)

(2) Seating

In addition to the provisions of Section 62-672, at least fifty percent of the required seating along any #shore public walkway# or #supplemental public access area# shall comply with illustration B1 or B2 below.

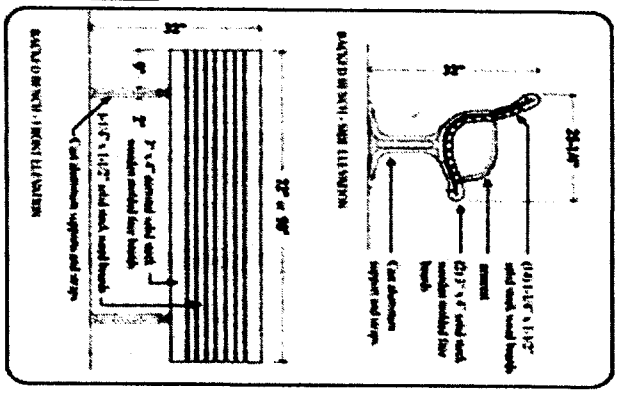

Illustration B1

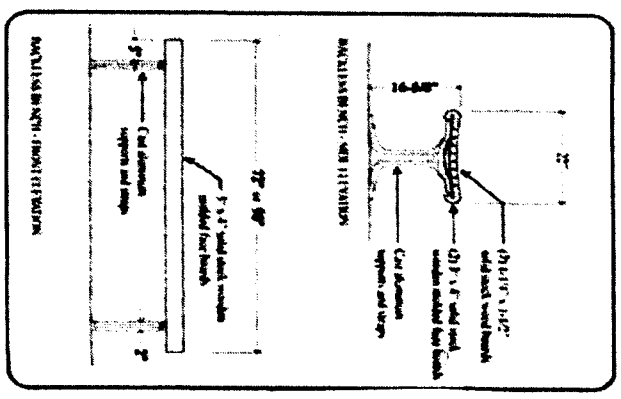

Illustration B2

All wood boards shall be made of Redwood, Jarrah or Ipe, have eased edges and ends and be treated for external use without stain or varnish.

All supports and backstraps shall be 713 tenzalloy cast aluminum, with a rust inhibitor and a top coat finish of thermosetting polyester powdercoat that is ultra-violet, chip and flake resistant. Metal components shall have a light gray or aluminum color.

(3) Lighting

In addition to the provisions of Section 62-673, the required lighting along any public access area shall comply with illustration C1 below.

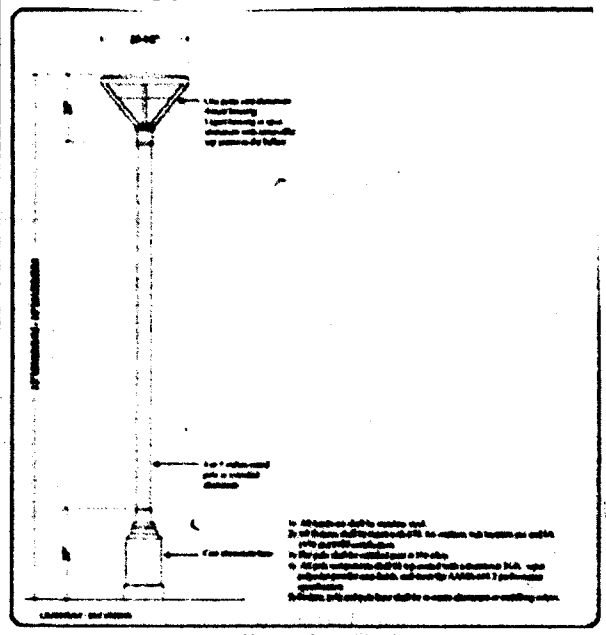

Illustration C1

(4) Planting and trees

The provisions of paragraph (c)(6) (Container planting) of Section 62-675 shall be inapplicable, unless a structural or environmental necessity is demonstrated at the time of certification.

(5) Paving

In addition to the provisions of Section 62-676, the paving for the required clear path within the #shore public walkway# shall be gray. At least fifty percent of all other paved areas within the #shore public walkway# and #supplemental public access areas# shall be paved in the same color range.

(e) Special public access provisions by parcel

The provisions of Sections 62-41 (Requirements for waterfront public access) and 62-60 (DESIGN STANDARDS FOR THE WATERFRONT AREA) are modified at the following designated locations which are shown on Map BK-1b in paragraph (g) of this Section:

1. Parcels 1 and 2

(i) #Shore public walkway#
The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#
The requirements for #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is developed first shall provide an #upland connection# along the #lot line# between the two parcels. The width of the #upland connection# may be utilized by the developer of the remaining parcel in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels, according to the provisions of paragraph (f)(1) of this Section. If both parcels are developed concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

(3) Parcel 5a

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (g) of this Section.

The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot lines of Parcels 5b and 6.

(iii) #Supplemental public access area#

The #supplemental public access area# shall abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. The #upland connection#, however, may cut across the #supplemental public access area# provided that no area shall be less than 5,000 square feet. All #supplemental public access areas# shall have a minimum width to depth ratio of 1.0 to 1.0 and a maximum width to depth ratio of 2.0 to 1.0. In no event shall the #supplemental public access area# be deeper than 100 feet. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

Alternatively, a portion of the required #supplemental public access area# that is a minimum of 5,000 square feet may abut the #shore public walkway# continuously along the longest side provided that it also abuts a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-641, but shall not be counted towards satisfying the required amount of public access area on the site. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(4) Parcel 5b

#Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(5) Parcel 5c

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

Two #upland connections# shall be provided between West Street and the #shore public walkway#, one each located within the prolongation of the #street lines# of Eagle Street, and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided on Parcel 5c.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the pedestrian circulation zone of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(6) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged

into one parcel, they shall be known as Parcel 5 and be subject to the following requirements:

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

One #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on Map BK-1b in paragraph (g) of this Section. The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.

Two #upland connections# shall be provided between West Street and the #shore public walkway#, each located within the prolongation of the #street lines# of Eagle Street and Green Street, respectively.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.
A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5 and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply.

The remaining of the required #supplemental public access area# shall be located within the area bounded by the western prolongation of the north #street line# of Dupont Street, the #shore public walkway#, the northern prolongation of the eastern boundary of Parcel 6 and Parcel 6 . The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(iv) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(7) Parcel 7

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply, except that any portion of the required #shore public walkway# where the distance between the shoreline and the boundaries of Parcel 7 is less than 17 feet shall be improved entirely as clear path.

(ii) #Supplemental public access area#

The requirement for a #supplemental public access area# on Parcel 7 is waived.

(8) Parcels 9, 10 and 11

(i) #Shore public walkway#

The requirements for Prototype II described in paragraph (b)(2) of this Section shall apply.

(ii) #Supplemental public access area#

For each parcel, the #supplemental public access area# requirements shall be provided to widen the pedestrian circulation zone of the #shore public walkway#, evenly distributed along the entire length of such #shore public walkway#.

(9) Parcel 13

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Milton Street.

(iii) #Supplemental public access area#

A #supplemental public access area# shall be bounded by the southern #street line# of Greenpoint Avenue, the #shore public walkway# and the northern boundary of the required Milton Street #upland connection#. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(10) Parcel 14

(i) #Shore public walkway#

The area between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# shall be improved pursuant to the requirements of Prototype II described in paragraph (b)(2) of this Section. The remaining required #shore public walkway# shall be improved pursuant to the requirements of Prototype I as described in paragraph (b)(1) of this Section.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway#. The southern boundary of such #upland connection# shall be defined by a line between the intersection of the prolongation of the southern #street line# of Calyer Street and the western #street line# of West Street, and a point on the easterly boundary of the #shore public walkway# 30 feet north of the northern #street line# of Quay Street

(iii) #Supplemental public access area#
Two #supplemental public access areas# shall be provided. A #supplemental public access area# with a minimum of 9,000 square feet shall be provided between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# to widen the pedestrian circulation zone of the #shore public walkway#.

The remaining requirements for #supplemental public access area# shall be located in the area bounded by the southern boundary of the required Calyer Street #upland connection#, the #shore public walkway# and the southern boundary line of the parcel. The requirements for Waterfront Park described in paragraph (b)(4) of this Section shall apply.

(11) Parcel 15

An #upland connection# shall be provided within the prolongation of the #street lines# of WestStreet, connecting Quay Street to Parcel 20.

(12) Parcels 19, 20, 21 and 22

Parcels 19, 20, 21 and 22 shall be designated as public parks as of (date of adoption).

(13) Parcel 24
#Shore public walkway#

Prototype I described in paragraph (b)(1) of this Section shall apply.

(14) Parcel 25

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply.

(ii) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of North 6th Street.

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.

One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet from the southern #street line# of North 7th Street. The entire #supplemental public access area#, excluding the required buffer, shall be developed as clear circulation path.

A minimum of one linear foot of seating shall be required for every 40 square feet of pedestrian circulation zone and shall be located in the required buffer zone. Four trees shall be required, at least two of which are shade trees. Small or ornamental trees located within the buffer zone shall not be counted toward the minimum requirements.

The remaining required #supplemental public access area# shall be located either on the #pier# or abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. At least 70 percent of the required #supplemental public access# shall have a width to depth ratio of 2 to 1. The requirements for Waterfront Plaza described in paragraph (b)(3) of this Section shall apply. If any #supplemental public access area# is located on the #pier#, the planting requirements for Waterfront Plaza shall apply, except that trees may be substituted by a shading element at a rate of 450 sq. ft. of shade element per tree.

(iv) #Pier# public access

Public access shall be provided on a #pier# located at the western terminus of North 6th Street pursuant to the requirements of Section 62-412 and of paragraph (a)(1) of this Section.

(15) Parcel 26

(i) #Shore public walkway#

The requirements of Section 62-411 (Requirements for shore public walkways) shall apply, except that the minimum required width of the #shore public walkway# shall be reduced to 34 feet between North 5th Street and the northern boundary of the required #upland connection# at the prolongation of North 4th Street. The quantity of public access eliminated from the #shore public walkway# as a result of this width reduction shall be located in the triangle formed between the #shore public walkway#, the southern #street line# of the North 4th Street #upland connection# and the bulkhead line. The entirety of the #shore public walkway# shall be improved pursuant to the requirements for Prototype I described in paragraph (b)(1) of this Section.

(ii) #Upland connections#

An #upland connection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street.

(16) Parcel 27

(i) #Shore public walkway#

The requirements for Prototype I described in paragraph (b)(1) of this Section shall apply to all new #development#.

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or other structure#, but shall not need to be wider than 40 feet.

Notwithstanding the requirements of Paragraph (c) of Section 62-62 (General Requirements for Public Access), the #shore public walkway# may be located within the #building or other structure#, and the obstructions permitted by Section 62-626, paragraph (a), shall include any supporting structural elements of the #building or other structure# and its related appurtenances. Additionally, the #shore public walkway# shall have a minimum clear path of 12 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-672 and 62-675. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#

The requirements for #supplemental public access# shall be waived.

(f) Special visual corridor provisions by parcel
The designated locations for #visual corridors# pursuant to this Plan are shown on Map BK-1c in paragraph (g) of this Section and shall be as follows:

(1) Parcels 3 and 4

A #visual corridor# shall be provided through Parcels 3 and 4 to the pierhead line within a flexible area along the #lot lines# between them.

Whichever parcel develops second shall complete the required clearance to comply with the #visual corridor# requirements along the #upland connection# already provided in accordance with the requirements of paragraph (e)(2)(ii) of this Section. If both parcels are developed concurrently, then the requirements can be divided equally along the #lot line# between the parcels.

(2) Parcel 5a

A #visual corridor# shall be provided through Parcel 5a to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcels 5b and 6.

(3) Parcel 5b

Two #visual corridors# shall be provided through Parcel 5b to the pierhead line as the prolongation of the #street lines# of West Street and Dupont Street, respectively.

(4) Parcel 5c

(i) Three #visual corridors# shall be provided through Parcel 5c to the pierhead line as

the prolongation of the #street lines# of West Street, Eagle Street and Green Street.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be permitted obstructions along the #visual corridor# along Green Street.

(5) Parcel 5

In the event that Parcels 5a, 5b and 5c are merged into one parcel, they shall be known as Parcel 5, subject to the following #visual corridors# requirements:

(i) One #visual corridor# shall be provided through Parcel 5 to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (g) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot line of Parcel 6.
Four #visual corridors# shall be provided through Parcel 5 to the pierhead line, each located as the prolongation of the #street lines# of West Street, Dupont Street, Eagle Street and Green Street, respectively.

(ii) Permitted obstructions on #piers#, per Section 62-65 paragraph (b), shall be allowed along the #visual corridor# along Green Street.

(6) Parcel 13

Two #visual corridors# shall be provided through Parcel 13 to the pierhead line as the prolongation of the #street lines# of Milton Street and Oak Street, respectively.

(7) Parcel 14

A #visual corridor# shall be provided through Parcel 14 as the prolongation of the #street lines# of Oak Street.

(8) Parcel 15

A #visual corridor# shall be provided though Parcel 15 as the prolongation of the #stret lines# of West Street.

(9) Parcel 25

A #visual corridor# shall be provided through Parcel 25 as the prolongation of the #street lines# of North 6th Street.
