Administering agent

(b) In the districts indicated, the height and setback of a #building or other structure# shall be as set forth herein except where modified pursuant to paragraphs (g)and (h) of this Section.

For the purposes of this Section, where #base planes# of different elevations apply to different portions of a #building or other structure#, each such portion of the #building# may be considered to be a separate #building#. Furthermore, for the purposes of this Section, #building segments# may be considered to be separate #buildings# and abutting #semi-detached buildings# may be considered to be one #building#.

Such plane curves may not exceed a pitch of 80 degrees in relation to a plane drawn parallel to the #base plane# at the maximum height of the permitted perimeter wall. (See Figure G).

NOTICE OF PUBLIC SCOPING
NEW STAPLETON WATERFRONT DEVELOPMENT PROJECT

Office of the Deputy Mayor for Economic Development and Rebuilding

NOTICE IS HEREBY GIVEN THAT, pursuant to Section 5-07(b) of the Rules of Procedure of the New York City Charter, a public scoping meeting will be held on **Wednesday, November 30, 2005, at the Former Homeport, located at 455 Front Street (at the intersection of Canal Street), Staten Island, New York,** at 5:00 p.m., as submitted by the New York City Economic Development Corporation on behalf of the Office of the Deputy Mayor for Economic Development and Rebuilding, to hear comments from the public regarding the proposed scope of work for the Environmental Impact Statement (EIS) for the New Stapleton Waterfront Development Plan.

The Project Area includes the former United States Navy Homeport, generally bounded by the approximate extension of St. Julian Place to the north, Front Street to the west, Vanderbilt Avenue to the south, and Upper New York Bay to the east (the Homeport Site), and the adjacent properties located between Hannah Street to the north, the Staten Island Rapid Transit (SIRT) tracks to the west, Willow Avenue to the south, and the waterfront to the east.

The New Stapleton Waterfront Development Project is a plan for the redevelopment of the former Homeport Navy base along the waterfront in the Stapleton section of Staten Island. The development project is the result of a public planning effort by the Mayor's Homeport Task Force, a working group comprised of city and elected officials and community and business representatives. The New Stapleton Waterfront Development Project is a mixed-use plan combining residential, local retail, restaurant/event space, sports complex, commercial uses. The development is expected to total approximately 682,500 square feet. The project also includes the creation of a waterfront esplanade and open spaces, the reconstruction of Front Street, which borders the site to the west, and site preparation to establish developable parcels within the site.

Implementation of the proposed development project requires several land use approvals subject to the ULURP process, including zoning map changes, zoning text changes, the disposition of city-owned property and changes to the City Map. In addition to the Homeport Site, the rezoning includes the blocks immediately west of the site between the SIRT tracks and Front Street, which could result in approximately 343,000 square feet of residential and local retail development.

The purpose of the scoping meeting is to provide the public with the opportunity to comment on the scope of analysis proposed to be included in the EIS for the referenced project.

A copy of the Scoping Document for the project may be obtained by any member of the public from:

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

If an entity other than a not-for-profit organization is proposed to serve as the #administering agent#, and the affected Community Board objects during its review period to the approval of the proposed entity, the Commissioner shall respond in writing to the Community Board's objections prior to approving the proposed entity to serve as #administering agent#.

If a #residence# is so constructed, the #side yard# requirements shall be waived along that boundary of the #zoning lot# coincident with said party wall or party walls, or independent wall or walls along a #side lot line#, and one #side yard# shall be provided along any #side lot line# of the #zoning lot# where such a wall is not so utilized, at least eight feet wide in R3-1, R3-2, R4 or R5 Districts and four feet wide in R4-1, R4B or R5B Districts.

R2A R2X R3 R4 R4A R4-1 R5A

(b) In the districts indicated, the height and setback of a #building or other structure# shall be as set forth herein except where modified pursuant to paragraphs (g)and (h) of this Section.

For the purposes of this Section, where #base planes# of different elevations apply to different portions of a #building or other structure#, each such portion of the #building# may be considered to be a separate #building#. Furthermore, for the purposes of this Section, #building segments# may be considered to be separate #buildings# and abutting #semi-detached buildings# may be considered to be one #building#.

The perimeter walls of a #building or other structure# are those portions of the outermost walls enclosing the #floor area# within a #building or other structure# at any level and height is measured from the #base plane#. Above these heights, sloping planes control the maximum height of the #building or other structure# requiring either a setback or a pitched roof. These planes start at the maximum permitted height of the perimeter walls and meet at a ridge line of 35 feet above the #base plane#. The exact locations of these planes are flexible and are determined in the steps set forth in paragraphs (1) through (5) as follows:

* * *

R2X R3 R4 R4A R4-1 R5A
(6) Special Situations
(i) For convex curved perimeter walls the #building or other structure# must be within a plane curve tapering uniformly to a vertex located at a height of 35 feet. For concave curved perimeter walls, the #building or other structure# must lie within a plane curve extending from the maximum perimeter wall height to a ridge line parallel to the prolongation of the perimeter wall at the 35 foot level. Such plane curves may not exceed a pitch of 80 degrees in relation to a plane drawn parallel to the #base plane# at the maximum height of the permitted perimeter wall. (See Figure G).

■ NOTICE

NOTICE OF PUBLIC SCOPING
NEW STAPLETON WATERFRONT DEVELOPMENT PROJECT
Office of the Deputy Mayor for Economic Development and Rebuilding

NOTICE IS HEREBY GIVEN THAT, pursuant to Section 5-07(b) of the Rules of Procedure of the New York City Charter, a public scoping meeting will be held on **Wednesday, November 30, 2005, at the Former Homeport, located at 455 Front Street (at the intersection of Canal Street), Staten Island, New York, at 5:00 p.m.**, as submitted by the New York City Economic Development Corporation on behalf of the Office of the Deputy Mayor for Economic Development and Rebuilding, to hear comments from the public regarding the proposed scope of work for the Environmental Impact Statement (EIS) for the New Stapleton Waterfront Development Plan.

The Project Area includes the former United States Navy Homeport, generally bounded by the approximate extension of St. Julian Place to the north, Front Street to the west, Vanderbilt Avenue to the south, and Upper New York Bay to the east (the Homeport Site), and the adjacent properties located between Hannah Street to the north, the Staten Island Rapid Transit (SIRT) tracks to the west, Willow Avenue to the south, and the waterfront to the east.

The New Stapleton Waterfront Development Project is a plan for the redevelopment of the former Homeport Navy base along the waterfront in the Stapleton section of Staten Island. The development project is the result of a public planning effort by the Mayor's Homeport Task Force, a working group comprised of city and elected officials and community and business representatives. The New Stapleton Waterfront Development Project is a mixed-use plan combining residential, local retail, restaurant/event space, sports complex, commercial uses. The development is expected to total approximately 682,500 square feet. The project also includes the creation of a waterfront esplanade and open spaces, the reconstruction of Front Street, which borders the site to the west, and site preparation to establish developable parcels within the site.

Implementation of the proposed development project requires several land use approvals subject to the ULURP process, including zoning map changes, zoning text changes, the disposition of city-owned property and changes to the City Map. In addition to the Homeport Site, the rezoning includes the blocks immediately west of the site between the SIRT tracks and Front Street, which could result in approximately 343,000 square feet of residential and local retail development.

The purpose of the scoping meeting is to provide the public with the opportunity to comment on the scope of analysis proposed to be included in the EIS for the referenced project. A copy of the Scoping Document for the project may be obtained by any member of the public from:

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

Negative Declaration

Contact Persons
Robert Dobruskin, Director
Department of City Planning, Environmental Assessment and Review Division
(212) 720-3423
SEQRA Classification: Type I

The proposal involves an application by 27 West 19th Street LLC, for a Special Permit pursuant to Zoning Resolution (ZR) Section 74-712 to modify certain bulk regulations in connection with a proposed residential development located within the Ladies' Mile Historic District.

The proposed action would facilitate a proposal by the applicant to construct a 150-foot high, 25,550 gross square foot residential building containing up to 21 dwelling units on a 2,300 squarefoot site located at 27 West 19th Street (Block 821, Lot 24) in the Flatiron neighborhood of Community District 5, Manhattan. The project site is zoned C6-4A and is located within the Ladies' Mile Historic District. It is currently occupied by a public parking lot with a licensed capacity of 18 spaces.

The bulk modifications sought under the special permit would allow the proposed building to have a 150-foot street wall rather than a 60-foot street wall; to provide a 26-foot, 8-inch, rather than a 30-foot rear yard; to locate legally required windows on the rear of the proposed building 26 feet, 8 inches from the rear lot line rather than 30 feet from the lot line; and to not provide a rear setback of ten feet above a height of 125 feet. Development of the proposed building is expected to be completed by 2007.

Because the project site is located within a Historic District, any new development on it is subject to approval by the New York City Landmarks Preservation Commission (LPC). The LPC issued a Certificate of Appropriateness for the proposed building on May 5, 2005.

The Environmental Assessment and Review Division of the Department of City Planning, on behalf of the City Planning Commission, has completed its technical review of the Environmental Assessment Statement, dated October 13, 2005, prepared in connection with the ULURP Application (060111 ZSM). The City Planning Commission has determined that the proposed action will have no significant effect on the quality of the environment.

The above determination is based on an environmental assessment which finds that no significant effects on the environment which would require an Environmental Impact Statement are foreseeable. The Negative Declaration has been prepared in accordance with Article 8 of the Environmental Conservation Law 6NYCRR part 617.

Should you have any questions pertaining to the Negative Declaration, you may contact Patrick Blanchfield at (212) 720-3346.

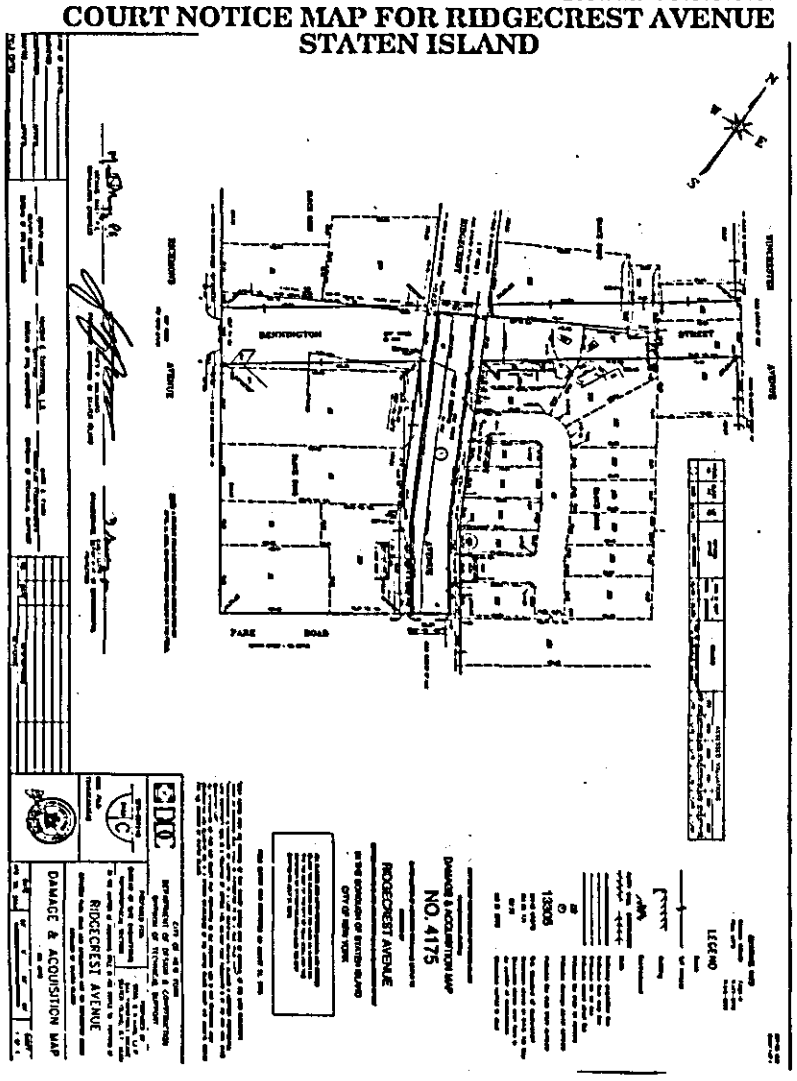
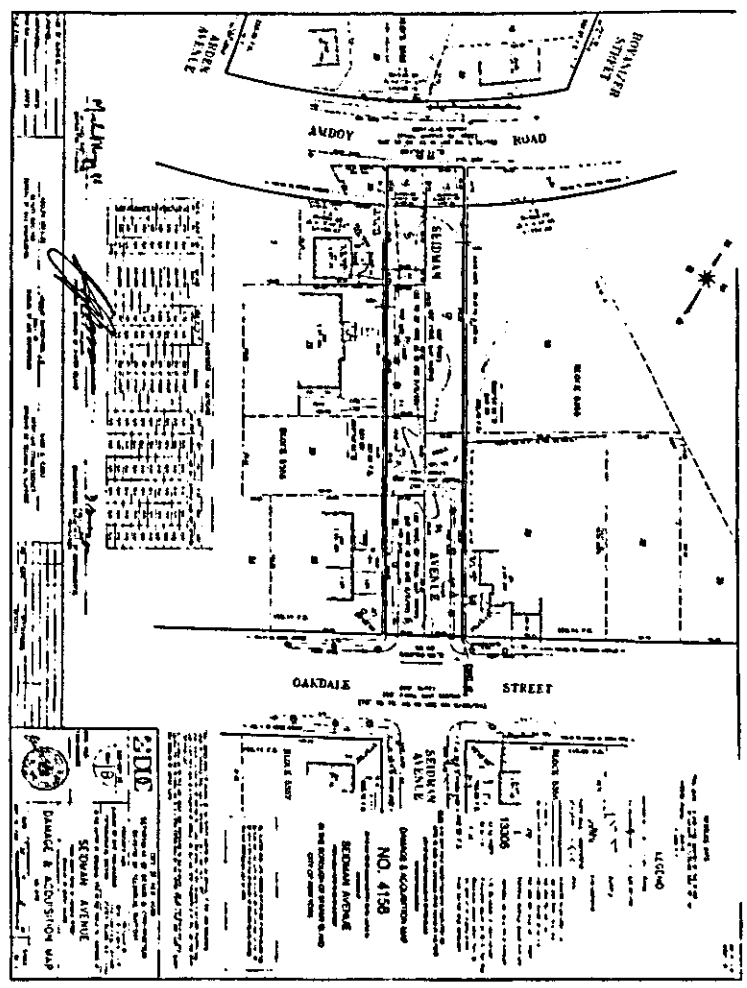
COURT NOTICE MAP FOR RIDGECREST AVENUE STATEN ISLAND



COURT NOTICE MAP FOR SEIDMAN AVENUE STATEN ISLAND



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists–free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

INVOCATION

The Invocation was delivered by Rabbi Jonathan Glass, Civic Center Synagogue, 49 White Street, New York, New York 10013.

One of the kindnesses bestowed upon humanity by our Creator is the unit of time. If night did not follow day nor weekend follow week, one would find it too difficult to put past failings behind in order to start anew. All the more so, that with in a few weeks in the Jewish calendar, the old year will come to an end and a new year will begin.

In the wake of 9/11 a new dawn has broken upon our city and we anticipate th3e same for the unfortunate victims of the Gulf Coast. This is also the time to pray for a dawn of peace, hoping that this time next year all peoples will enjoy freedom, not maintained by armies but by God.

Let me therefore wish that all of us be inscribed in the Book of Life for a happy and healthy new year.

Council Member Gerson moved to spread the Invocation in full upon the Record.

At this point, the Speaker (Council Member Miller) asked for a moment of silence in memory of New Yorker Pfc. Jose Riuz of the 21st Infantry Regiment, 1st Brigade, 25th Infrantry Division, who was killed on August 15, 2005 in Mosul, Iraq. Pfc. Ruiz left behind a wife and daughter who are both residents of Washington Heights.

The Speaker (Council Member Miller) also asked for a moment of silence for those who lost their lives in Hurricane Katrina as well as for those who survived and suffered its after-affects.

ADOPTION OF MINUTES

Council Member Fidler moved that the Minutes of the Stated Meetings of June 23, June 30 and July 27, 2005 be adopted as printed.

Communication for the Mayor - Mayor's veto and disapproval message of Introductory Number 669, in relation to suspending the activation of parking meters on Sundays.

August 25, 2005

Honorable Victor L. Robles
City Clerk and Clerk of the Council
Municipal Building, 2nd Floor
New York, NY 10007

Dear Mr. Robles:

Transmitted herewith is the bill disapproved by the Mayor. The bill is as follows.
Introductory Number 669

A Local Law in relation to suspending the activation of parking meters on Sundays.

Sincerely,

Karen E. Meara

(The following is the text of the Mayor's Veto and Disapproval Message for Int. No. 669:)

August 25, 2005

Hon. Victor Robles
City Clerk and Clerk of the Council
Municipal Building
New York, NY 10007

Dear Mr. Robles:

Pursuant to Section 37 of the New York City Charter, I hereby disapprove Introductory Number 669, which would suspend activation of parking meters on Sunday.

Meters are an invaluable traffic management tool that are used to maintain access to the limited number of curb spaces around the City. One of the principle purposes of meters, regardless of which day they are in effect, is to turn over parking spaces so that more people can gain access to parking spots in a busy commercial area. By having meters in effect on Sunday, curb spaces "turn over" allowing for more parking and commercial activity. The majority of the City's meters are not activated on Sundays, however, there are many areas where Sunday meters are essential to both motorists and businesses.

Sunday meters are in operation in long established commercial strips where stores have been open for business on Sunday for many years. While the Department of Transportation expanded the Sunday meter program over the past three years, many Sunday meters have been in effect for over a decade. By eliminating Sunday meters in these commercial areas, both motorists and businesses will suffer.

Another unfortunate by-product of this legislation is that double parking, parking in bus stops and in front of fire hydrants will increase because of the fewer available parking spots.

In addition to hurting local businesses and potentially creating more accidents, the legislation will eliminate $10 million in annual revenue.

Finally, the bill's 30 day effective date is problematic. This short time period does not give the Department of Transportation the sufficient time necessary to manufacture; and install the signs needed to regulate the changes in parking regulations for the 32,000 spots the bill effects. For the foregoing reasons. I hereby disapprove Introductory Number 669.

Sincerely,

Michael R. Bloomberg

Referred to the Committee on Finance.

REPORTS OF THE STANDING COMMITTEES

Report of the Committee on Civil Service and Labor

Report for Int. No. 629-B

Report of the Committee on Civil Service and Labor in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to prohibiting employers from locking employees or other individuals inside a workplace and increasing the fines for obstruction of exits and unlawful change of exits.

The Committee on Civil Service and Labor to which was referred on April 20, 2005 (Minutes, page 2002) the annexed amended proposed local law respectfully

REPORTS:

On September 15, 2005, the Committee on Civil Service and Labor, chaired by Council Member Joseph P. Addabbo, Jr., will hold a hearing on Proposed Int. No. 629-B, a bill that would amend the Administrative Code of the City of New York, in relation to prohibiting employers from locking employees or other individuals working inside a workplace and increasing the fines for obstruction of exits and unlawful change of exits. The Committee previously held a hearing on June 7, 2005 to consider Int. No. 629. Subsequently, the Committee held a hearing on August 17, 2005, at which time the committee considered and approved Int. No. 629-A. The Council re-referred Int. No. 629-A to the Committee for further consideration on the breadth of the provision for the posting of signs in proposed §27-4267.5 (4) of Int. No. 629-A. This provision was modified, and has been renumbered as proposed §27-4267.5(5) in Proposed Int. No. 629-B.

Background:

The Triangle Shirtwaist Fire of 1911 remains a vivid and horrid tragedy that changed American labor unions and labor laws. At that time, 146 women and girls whose average age was 19 perished in that fire because they were locked in their workplace. According to David Von Drehle's book, entitled *Triangle: the Fire that Changed America*, the Triangle Shirtwaist Company fire started on an upper floor of a high-rise factory building in Greenwich Village on a Saturday afternoon in March 1911. For several critical minutes during the initial commotion, no one notified the 250 workers on the ninth floor, where most of the employees and sewing machines were located. At 4:45 p.m., a guard routinely locked one of the two exit doors on the ninth floor, to discourage theft. It was then that the workers on the ninth floor first learned about the fire from the smoke and flames. Some escaped through the other, unlocked door. Others used a fire escape. Still others braved the elevators. According to Von Drehle, "eventually there was just the locked door. The other exit was blocked by fire, the elevators couldn't run, the fire escape had collapsed... and there were two horrible choices left: to jump out the windows or to die in the fire." Fifty-four people died by jumping and the rest died in the fire.[1] Shortly after this incident, the governor of New York appointed the Factory Investigating Commission. Over the next three years, the commission held dozens of hearings, resulting in the passage of the most sweeping set of workplace labor reforms in America.

Despite numerous workplace safety laws and regulations that dictate emergency egress plans and fire safety equipment and plans, the problem of locking workers in the workplace still exists. Large retailers have been cited for and accused of continuing this potentially fatal practice. For example, the Untied States Department of Labor's Occupational Safety and Health Administration ("OSHA") cited the Sears, Roebuck and Company store at 5200 Flatbush Avenue, Brooklyn in August 2000 for $82,500 in violations for padlocking fire exits and other alleged fire safety violations.[2] According to OSHA, Sears was also cited for this type of violation in Syracuse, NY in February 1999; in Bayshore, NY in February 1998; and in Boca Raton, FL in July 1997.[3] In January 2004, a Sam's Club[4] employee severely crushed his ankle when heavy machinery fell while he was stocking shelves at 3 a.m. The trip to the hospital was delayed by over an hour because, according to a Wal-Mart Vice President, "the company used lock-ins to protect stores and employees in high crime areas."[5] Furthermore, according to a report in *The New York Times*, "[f]ive janitors said in interviews that supermarkets in Brooklyn, Queens and the Bronx still locked them in, with fire exits blocked or padlocked, even though the Fire Department was alerted to the problem [in June 2004].s[6] According to a March 25, 2005 article in *The New York Times*, "three immigrant janitors will file a lawsuit... against two supermarkets in the Bronx, accusing them of endangering their lives by locking them in at night with fire exits blocked or padlocked."[7]

[8] Administrative Code of the City of New York §26-248(a).

Proposed Int. No. 629-B

Section 1 of Proposed Int. No. 629-B would explain the legislative findings and intent for the proposed legislation. Pursuant to this section, a workplace is intended to be "any location, away from the home, permanent or temporary, where any employee, independent contractor or other individual performs any work-related duty in the course of employment, whether or not such duty is a direct responsibility of such person, including, but not limited to, any building that is classified by Title 27 the Administrative Code of the City of New York" (the "Code").

Section 2 would amend §26-248(g)(3) of the Code. Currently, subdivision g provides penalties for violations "at any structure, or part thereof, or land,"[8] that produce "an imminent hazard to persons or property as a result of (a) chance of occupancy; (b) use without a permit; (c) obstruction of exits; and (d) unlawful change of exits. Proposed Int. No. 629-B would delete the imminent hazard violations contained in subparagraphs c and d of §26-248(g)(3) and create harsher penalties for such violations in §3, discussed below.

Section 3 of Proposed Int. No. 629-B would amend §26-248 of the Code by adding a new subdivision i, which would increase the penalties for the violations deleted from paragraph 3 of subdivision g (see above). Pursuant to this subdivision, violations that produce an imminent hazard to persons or property as a result of any (a) obstruction of an exit or (b) unlawful change of an exit would subject the violator to a penalty of not less than $5,000 for a first violation; not less than $5,000 nor more than $10,000 for a second violation; not less than $10,000 nor more than $15,000 for a third violation; and not less than $15,000 nor more than $20,000 dollars for a fourth violation and every subsequent violation, or for any such violation by imprisonment for not more than six months, or by both the applicable fine and imprisonment. Such penalties would be applicable notwithstanding any other law, rule or regulation, and would be in addition to any other penalties provided in the Code or elsewhere.

Section 4 would amend Article 10 of Subchapter 3 of Chapter 1 of Title 26 of the Code by adding a new section, §26-252.1. Subdivision one of the new section would prohibit an employer or the agent of such employer from locking the doors of or otherwise prohibiting exit from any workplace when the health and safety of any employee, independent contractor or other person working in the workplace may become endangered by fire or other hazardous condition. There is an exemption to this prohibition for places specifically designated in §27-371(j) of the Code, "where extra safeguards are required," including penal facilities, mental institutions, banks, museums and jewelry stores.

Subdivision 2 of proposed §26-252.1 would require the Fire Department of the City of New York ("FDNY") to conduct a minimum of 50 unannounced inspections per year to ensure the identification and abatement of any hazardous conditions in violation of this section. Such inspections would be required to include, but not be limited to, sites where there are known or suspected conditions affecting employee safety and health.

Subdivision 3 of proposed §26-252.1 would create "whistleblower" protections for employees who are the subject of retaliatory action by their employer for lawful acts made in furtherance of civil or criminal enforcement proceedings brought concerning the failure of any employer to comply with §26-252.1. Employees of the City and State of New York already have similar protection under §12-113 of the Code and §75-B of the New York State Civil Service

Law, respectively. The lawful acts protected by the proposed paragraph 3 would include, but not be limited to, assisting in the investigation and initiation of an enforcement proceeding relating to non-compliance with the provisions of §26-252.1, providing testimony in any such proceeding or providing other assistance in connection therewith. Subdivision 3 would provide that employees would be entitled to relief f or any adverse action, including, but not limited to an injunction to restrain any adverse or retaliatory action; reinstatement to the same or equivalent position; reinstatement of full benefits and seniority rights, including payment of any missed back pay, plus interest; and compensation for any special damages sustained because of the action, including litigation costs and reasonable attorneys' fees.

Subdivision 4 would classify any violation of §26-252.1 as a misdemeanor, and for each employee, independent contractor or other individual working in a workplace at the time such violation occurred, the violation would carry a penalty of not less than $5,000 for a first violation; not less than $5,000 nor more than $10,000 for a second violation; not less than $10,000 nor more than $15,000 for a third violation; and not less than $15,000 nor more than $20,000 dollars for a fourth violation and any subsequent violation, or a term of imprisonment not more than nine months, or both fine and imprisonment. This subdivision would also give a court discretion to enter separate sentences for each offense, and concurrent or consecutive sentences if a jail term is imposed. In addition, this subdivision would subject a violator to a civil penalty of not more than $5,000 for each employee, independent contractor or other individual locked inside a workplace in violation of the subdivision, to be recovered in a civil action brought in a court of competent jurisdiction or in a proceeding before the Environmental Control Board, in accordance with §§26-126.1 and 26-126.2 of the Code. Such penalties would be applicable notwithstanding any other law, rule or regulation, and would be in addition to any other penalties provided in this Code or elsewhere.

Subdivision 5 of proposed §26-252.1 would require employers who violate this subdivision to post a sign in English, Spanish, Korean, Chinese and any other language deemed necessary by the Fire Commissioner, to be prominently displayed at all workplaces notifying all employees, independent contractors or any other individuals working in such workplace of the prohibitions against locking the doors of or otherwise prohibiting exit from any workplace and employer retaliation established pursuant to §26-252.1. In addition, the Fire Commissioner may, by rule-making authority, direct any employer to also post such sign. Such sign would be in a form prescribed by the Fire Commissioner and may contain any other information deemed necessary by the Fire Commissioner, or as recommended by the Police Commissioner or the Buildings Commissioner.

To further protect employees from hazardous conditions, section 5 of Proposed Int. No. 629-B would amend Subchapter 29 of Chapter 4 of Title 27 of the Code by adding §27-4267.5. Proposed §27-4267.5 would require the owner or other person having charge of a building or space classified in Occupancy Group C,[9] designed to be occupied or arranged to be occupied for an occupant load of more than five hundred persons in such building or space, or in which more than twenty-five persons are employed, to keep on file a safety plan for evacuation procedures in accordance with the requirements of the Fire Commissioner. Such plan would be required to be distributed by such owner or person to the tenants and employees of such establishment.

Section 6 of Proposed Int. No. 629-B would contain a severability clause. Pursuant to section 7, Proposed Int. No. 629-B would be effective 90 days after its enactment into law.

[9]Occupancy group C (mercantile occupancy group) is classified in §27-248 of the Code as follows: "[b]uildings and spaces shall be classified in the mercantile occupancy group when they are used for display and sales of goods accessible to public inspection. Highly combustible or flammable goods, such as those made of pyroxylin products, shall be limited to small quantities that do not constitute a high hazard; if not so limited, the occupancy shall meet the requirements for high hazard occupancies when the latter are more restrictive than the corresponding requirements for the mercantile classification."

FISCAL IMPACT STATEMENT:

	Effective FY 03	FY Succeeding Effective FY 03	Full Fiscal Impact FY 04
Revenues (+)	$100,000	$150,000	$150,000
Expenditures (-)	0	$0	$0
Net	$100,000	$150,000	$150,000

IMPACT ON REVENUES: There is an anticipated impact on revenue from the collection of fines, but the revenue is modest because the objective of Intro. 629-B is to save lives via compliance, and not to raise revenue.

IMPACT ON EXPENDITURES: There is no additional cost to the City in Fiscal 2006, Fiscal 2007 or in any subsequent fiscal year because this legislation is only amending laws that are already in the New York City administrative code so the cost has already been factored in the budget.

Int. No. 629-B

By Council Members Yassky, Barron, Clarke, Fidler, James, Koppell, Liu, Nelson, Stewart, Weprin, Foster, Gennaro, Quinn, Gerson, Addabbo, Jr., Jackson, Brewer, Comrie, Martinez, de Blasio, The Speaker (Council Member Miller), Gonzalez, Seabrook, Katz, Arroyo and The Public Advocate (Ms. Gotbaum)

A Local Law to amend the administrative code of the city of New York, in relation to prohibiting employers from locking employees or other individuals inside a workplace and increasing the fines for obstruction of exits and unlawful change of exits.

Be it enacted by the Council as follows:

Section 1. Legislative findings and intent. The Triangle Shirtwaist fire of 1911 significantly impacted labor unions and labor laws in the United States. At that time, 146 women and girls whose average age was 19 tragically perished in that fire because they were locked in their workplace. Despite numerous workplace safety laws and regulations that mandate emergency egress plans and fire safety equipment and plans, the problem of locking workers in the workplace still exists. A number of large retailers have been cited by the Untied States Department of Labor's Occupational Safety and Health Administration for continuing this potentially fatal practice. In addition, newspaper accounts have indicated that janitors and immigrant workers at supermarkets in Brooklyn, Queens and the Bronx are being locked in the workplace, with fire exits blocked or padlocked.

This legislation would increase the penalties for obstruction of exits and unlawful change of exits. In addition, this legislation would create a penalty where an employer locks the doors of or otherwise prohibits the exit from any workplace when by doing so the health or safety of an employee may become endangered. A workplace is intended to be any location, away from the home, permanent or temporary, where any employee, independent contractor or other individual performs any work-related duty in the course of employment, whether or not such duty is a

direct responsibility of such person, including, but not limited to, any building that is classified by title twenty-seven of the Administrative Code of the City of New York.

§2. Paragraph 3 of subdivision g of section 26-248 of the administrative code of the city of New York, as last amended by local law number 33 for the year 1991, is amended to read as follows:

3. A violation which produces an imminent hazard to persons or property as a result of (a) a change of occupancy[;] or (b) use without a permit[; (c) obstruction of exits; (d) unlawful change of exits;].

§3. Section 26-248 of the administrative code of the city of New York, as last amended by local law number 33 for the year 1991, is amended by adding a new subdivision i to read as follows:

i. *Notwithstanding any other law, rule or regulation, and in addition to any other penalties provided in this code or pursuant to any other law, rule or regulation, any person who is convicted of a violation which produces an imminent hazard to persons or property as a result of any (a) obstruction of an exit or (b) unlawful change of an exit shall be punished by a fine of not less than five thousand dollars for a first violation, not less than five thousand dollars nor more than ten thousand dollars for a second violation, not less than ten thousand dollars nor more than fifteen thousand dollars for a third violation, and not less than fifteen thousand dollars nor more than twenty thousand dollars for a fourth violation and any subsequent violation, or for any such violation by imprisonment for not more than six months, or by both the applicable fine and imprisonment.*

§4. Article 10 of subchapter 3 of chapter 1 of title 26 of the administrative code of the city of New York is amended by adding a new section 26-252.1 to read as follows:

§26-252.1 Workplace exits (1) Except for the exemptions specified in subdivision j of section 27-371 of title twenty seven of the administrative code of the city of New York, no employer or agent of such employer shall lock the doors of or otherwise prohibit exit from any workplace, when by so doing the health or safety of any employee, independent contractor or other individual working in such workplace may become endangered by fire or other hazardous condition.

(2) In addition to any other inspection requirements imposed by law, rule or regulation, a minimum of fifty unannounced inspections per year shall be conducted by the fire department to ensure the identification and abatement of any hazardous conditions in violation of this section. Such inspections shall include, but not be limited to, sites where there are known or suspected conditions affecting employee safety and health.

(3) Any employee who believes that he or she has been the subject of a retaliatory action by his or her employer or the agent of such employer, as defined by section seven hundred forty of the labor law, due to the lawful acts of such employee in furtherance of a civil or criminal enforcement proceeding brought concerning the failure of any employer or the agent of such employer to comply with this section, may bring an action in any court of competent jurisdiction for the relief provided for in this subdivision and shall be entitled to all relief necessary to make such employee whole. Such lawful acts of an employee shall include, but not be limited to, assisting in the investigation and initiation of an enforcement proceeding concerning the non-compliance of this section, providing testimony in any such proceeding or providing other assistance in connection therewith. The relief to which such employee shall be entitled shall include, but not be limited to, (i) an injunction to restrain any adverse or retaliatory action, (ii) reinstatement to the position such officer or employee would have had but for such action, or to an equivalent position, (iii) reinstatement of full benefits and seniority rights including payment of any missed back pay, plus interest and (iv) compensation for any special damages sustained as a result of such action, including litigation costs and reasonable attorneys' fees.

(4) Notwithstanding the provisions of any other law, rule or regulation, and in addition to any other penalties provided in this code or pursuant to any other law, rule or regulation, any person who is convicted of any violation of this section shall be guilty of a misdemeanor and shall be subject to a fine for each employee, independent contractor or other individual working in a workplace at the time such person violated this section, of not less than five thousand dollars for a first violation, not less than five thousand dollars nor more than ten thousand dollars for a second violation, not less than ten thousand dollars nor more than fifteen thousand dollars for a third violation, and not less than fifteen thousand dollars nor more than twenty thousand dollars for a fourth violation and any subsequent violation, or a term of imprisonment not exceeding nine months, or both the applicable fine and imprisonment. The court may impose a separate sentence for each offense, and if imprisonment is imposed, the court may order any of such sentences to be served concurrently or consecutively. Such violator shall also be subject to a civil penalty of not more than five thousand dollars for each employee, independent contractor or other individual working in a workplace at the time such person violated this section, to be recovered in a civil action brought in a court of competent jurisdiction or in a proceeding before the environmental control board.

(5) Any person who is convicted of a violation of this section, or any person directed by rule promulgated by the fire commissioner, shall post a sign in English, Spanish, Korean, Chinese and any other language deemed necessary by the fire commissioner, to be prominently displayed at all workplaces notifying all employees, independent contractors or any other individuals working in such workplace of the prohibitions against locking the doors of or otherwise prohibiting exit from any workplace and employer retaliation established pursuant to this section. Such sign shall be in a form prescribed by the fire commissioner and may contain any other information deemed necessary by the fire commissioner, or as recommended by the police commissioner or the commissioner.

§5. Subchapter 29 of chapter 4 of title 27 of the administrative code of the city of New York is amended by adding new section 27-4267.5 to read as follows:

§27-4267.5 Safety plans for mercantile establishments. The owner or other person having charge of a building or space classified in occupancy group C, designed to be occupied or arranged to be occupied for an occupant load of more than five hundred persons in such building or space, or in which more than twenty-five persons are employed, shall keep on file a safety plan for evacuation procedures in accordance with the requirements of the commissioner. Such plan shall be distributed by such owner or person to the tenants and employees of such establishment.

§6. If any section, subsection, sentence, clause, phrase or other portion of this local law is, for any reason, declared unconstitutional or invalid, in whole or in part, by any court of competent jurisdiction, such portion shall be deemed severable, and such unconstitutionality or invalidity shall not affect the validity of the remaining portions of this law, which remaining portions shall continue in full force and effect.

§7. This local law shall take effect ninety days after its enactment into law.

Report of the Committee on Economic Development

Report for Int. No. 693

Report of the Committee on Economic Development in favor of approving and adopting a Local Law to amend the administrative code of the city of New York, in relation to establishing a Chinatown/Lower East Side empire zone and the repeal of section 22-715 of such code.

The Committee on Economic Development to which was referred on August 17, 2005 (Minutes, page 4229) the annexed proposed local law respectfully

REPORTS:

INT. NO. 693:

The bill would amend the Administrative Code of the City of New York by authorizing the establishment of a Chinatown/Lower East Side Empire Zone within the Borough of Manhattan and by adding a new section 22-715 to establish the boundaries of that zone.

Section one of Int. No. 693 expresses the Council's views on the economic benefits of the designation as an empire zone. It is also the Council's view that affordable housing within the Chinatown/Lower East Side Empire Zone remains a critical need, as it does throughout the City, that the designation of an empire zone does not preclude the preservation and creation of affordable housing within an empire zone, and that efforts must be made to preserve and increase the desperately needed supply of housing for low-income individuals and families within the zone, as well as elsewhere.

Program Background:

In August 2002, the Council enacted Local Law 25/2002 which authorized the submission of an application to the State for designation of a Chinatown/Lower East Side Empire Zone but it was for a much smaller area than is set forth in Int. No. 693. Unfortunately, the State declined to approve that application.

In April 2005, the State Legislature authorized the creation of eleven additional Empire Zones throughout the State in specified counties (those counties in New York State that did not already have an Empire Zone), and an additional one "in New York County in the vicinity south of East Houston Street, east of Broadway, west of the East River, and north of Chambers Street and the Brooklyn Bridge, in an area commonly known as Chinatown." (Chapter 63 of the Laws of 2005). The State legislation authorized the designation from among those of up to three (3) new Empire Zones in each of the next four (4) calendar years, including this year (General Municipal Law §960(b)).

The State has also recently set September 29, 2005 as the deadline for submission of applications for the three zones that may be designated in this calendar year. An application for Empire Zone designation must be accompanied by a local law that authorizes the application, establishes an Empire Zone Administrative Board, designates a certifying/decertifying officer designation and establishes the Empire Zone's boundaries. Int. No. 693 incorporates into the boundaries of the

proposed Empire Zone essentially the entirety of the area authorized by the State Legislature.

The Economic Development Zone Program was established by the State Legislature in 1986 and is set forth in General Municipal Law (GML) Article 18-B, §§ 955 *et.seq.)*. In 2000, the State Legislature renamed the program the Empire Zone Program. The Empire Zone Program is designed to stimulate economic growth in a number of the State's most severely distressed areas by providing tax incentives and utility discounts for businesses that locate or expand within the Zone. To ensure that the population targeted by the program will benefit from the new jobs created, localities are required to provide or arrange for job training, childcare and other assistance that will prepare individuals to enter the workplace. Since the program seeks to have long-lasting impact on distressed neighborhoods, it calls for localities to coordinate their efforts with departments of social services, training institutions, labor unions, community-based organizations, publicly funded job training programs and private industry councils, as well as with other agencies that could be expected to play significant roles in the local economy. Specific benefits that the program provides include, but are not limited to, a combination of tax credits and tax exemptions, reduced utility rates and technical assistance.[1]

Requirements and Procedure for Designation of an Empire Zone:

In general, General Municipal Law § 958 (a)(i) requires that the area include one or more United States census tracts having a minimum poverty rate of 20 percent, an unemployment rate equal to 1.25 times the statewide rate, and a population of at least 2,000.[2] Areas that are nearby or contiguous to census tracts or block numbering areas described in §958(a)(i) are also eligible to be included in an Empire Zone if the Commissioner, at the request of the applicant, finds that such additional areas have significant potential for business development and job creation *and* will enhance

[2]General Municipal Law, Article 18-B, §958(a)(i).

economic revitalization of the Zone and benefit Zone residents[3]. Also, in general, the designated area must meet the following additional requirements:

1. It must be limited in size to two square miles;

2. A minimum of 25 percent of the total Empire Zone area must be zoned under the local zoning resolution for commercial or industrial use as-of-right; and

3. At least 25 percent of the total land within the Empire Zone area must be vacant, abandoned or otherwise available for commercial or industrial use.[4]

However, by specifying boundaries for a Chinatown/Lower East Side Empire Zone, the State Legislature has implicitly determined that these criteria are met or determined that such criteria need not be met.

Applications for designation of an area as an empire zone are submitted to the New York State Commissioner of Economic Development who is authorized to make recommendations to the Empire Zone Designation Board but it is the Empire Zone Designation Board that actually makes the designation from among those recommendations. This Board consists of the New York State Commissioner of Taxation and Finance, the State Director of the Budget, the State Commissioner of Labor, two members appointed by the Governor, one member appointed by the Temporary President of the Senate, one member appointed by the Speaker of the Assembly, and two non-voting members, one of whom is appointed by the Minority Leader of the State Senate and one of whom is appointed by the Minority Leader of the State Assembly. The Governor designates the chairman of the Board from among the voting members.

Empire Zone designations remain in effect until June 30, 2011.

Description of the Chinatown and the Lower East Side Economies:

[3]General Municipal Law, Article 18-B, §958(a)(ii).

"Chinatown is currently a busy commercial hub that is home to over 3,750 businesses, many of which are in the retail and wholesale industries. The area is a manufacturing center for New York City's garment industry, a tourist attraction and cultural center for Asian Americans throughout the New York City metropolitan region."[5] Canal Street, the neighborhood's main transportation corridor, facilitates distribution of goods manufactured in the area by linking the Manhattan and Brooklyn Bridges with the Holland Tunnel leading to New Jersey.[6]

The Lower East Side is home to over 1,000 businesses, primarily family-owned and operated small retail businesses such as food, clothing and decorating shops that primarily cater to the metropolitan area, gift shops that cater to tourists, boutiques, cafes and bars. The dramatic fall off in foot traffic following the September 11 disaster resulted in major losses to these businesses, some losses in excess of 40%. The Lower East Side is also home to some manufacturers operating out of commercial/industrial space.

Notwithstanding its activity and strategic location, Chinatown and the Lower East Side are communities with areas of high poverty, considerable unemployment, overcrowded housing conditions and vacant or under utilized light manufacturing and retail space. In recent years, the garment manufacturing industry, a major employer in Chinatown, has suffered economic downturns. The World Trade Center disaster on September 11 exacerbated the troubles of this declining economy. The garment, restaurant, retail and tourism industries suffered the greatest declines in revenue as a result of September 11.[7]

To date, the economies of these neighborhoods have not fully recovered.

Report for Int. No. 690-A

Report of the Committee on Finance in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to the imposition of the utility tax and providing a separate rate for such tax for certain cooperative corporations that produce and distribute electricity, steam, refrigeration or water to such cooperative corporation tenants and/or occupants.

The Committee on Finance to which was referred on July 27, 2005 (Minutes, page 3986) the annexed amended proposed local law respectfully

REPORTS:

Today, the Committee on Finance, chaired by Council Member David Weprin, will hold a hearing on Proposed Int. No. 690-A, a proposed local law that would reduce the utility tax rate to 0% on certain cooperative corporations that generate and produce submetered energy (including electricity, steam, and refrigeration) for use of tenants and/or occupants.

BACKGROUND

Utility and Sales Tax on Provision of Electricity By a Building to Occupants

The City of New York is authorized to impose a utility tax ("UTX") by section 1201 of the New York State Tax Law (the "Tax Law") and section 20-b of the General City Law. The UTX, set forth in Administrative Code §11-1101, is imposed on every utility and vendor of utility services that does business in New York City. The basic utility tax rate is 2.35 percent of the utility's/vendor's of utility services gross income or gross operating income.

Vendors of utility services are those that are not "utilities" themselves, but that sell gas, electricity, steam, water, refrigeration, or telecommunications services, whether or not these activities represent the vendor's main business. Such term includes a landlord "who furnishes or sells gas, electricity, steam, water, refrigeration, ... service... regardless of whether such furnishing, selling, or operation constitutes the main activity of such person or is merely incidental thereto." NYC Administrative Code §11-1101.7

In addition to the utility tax, section 1105(b) of the Tax Law subjects the receipts from the sale of "gas, electricity, refrigeration and steam and gas, electric, refrigeration and steam service" to the State sales and compensating use tax. Section 1107 of the Tax Law makes these same sales subject to the local portion of the sales tax and compensating use tax. To be deemed taxable, the sale shall be a separately identifiable transaction. Accordingly, courts and the New York State Department of Taxation & Finance (the "Department") have distinguished between submetered electricity and those charges included as a portion of the overall rental charge.[1]

According to reports containing statements made by the representatives from the NYC Department of Finance (the "Finance Department"), it seems that the Finance Department has adopted a similar position for utility tax purposes.[2] If buildings submeter and separately bill the electricity that they co-generate and provide such electricity to their occupants they are required to pay the utility tax; while those that do not, but rather include the electric charges as part of the rent, are not subject to the UTX.[3]

Benefits of Submetering

Submetering of electricity by landlords to tenants so that they may be separately charged for their electric use is recognized as an effective means of energy conservation. In fact, the State, through the New York state Energy Research and Development Authority (NYSERDA) offers incentive programs to encourage the installation of submeters to reduce electrical consumption. Moreover, the City provides J-51 tax abatements and tax exemptions to apartment buildings for the installation of submeters as an incentive for buildings to make these improvements.[4]

[1] In *Mutual Redevelopment Houses, Inc., v. Roth*, 763 N.Y.S.2d 124 (2003) the New York State Tax Appeals Tribunal (the "Tribunal") ruled that a cooperative corporation that separately charged its tenants, through the use of individual meters, for the electricity they actually consumed was required to collect sales tax on the sale of the electricity. The Tribunal held that a taxable sale occurred when the taxpayer used meters to measure electricity consumption and then separately charged the tenants based on actual usage.

The Situation Regarding Certain City Cooperatives

According to news reports, in 2004, the Finance Department visited two large City cooperatives which generate their own electricity and provide and separately bill charges for this electricity through submetering to its residents.[5] The two cooperatives were the Penn South coops in Manhattan and the North Shore Tower coops in Queens.[6] Based upon the findings that the two co-ops generated their own electricity and separately billed the residents for their electricity, the Department of Finance billed Penn South and North Shore Towers for back utility taxes dating back to at least the mid-1980s.[7] Both cooperatives have since settled the claims for back taxes with the Department of Finance but continue to owe utility tax for the electricity provided to residents.[8]

The State Legislature has recently adopted legislation that would remove these transactions by large cooperative apartments that have been cogenerating prior to January 1, 2004, from the purview of the sales tax.[9] This legislation, designed to provide equitable tax treatment to buildings that submeter, would exempt from the State sales and use tax the sale of electricity, refrigeration and steam that is produced by a cogeneration facility in operation prior to January 1, 2004 and owned by coop (containing at least 1,500 units) when such energy is metered and distributed to tenants of such co-op.

PROPOSED INT. NO 690-A

Proposed Int. No. 690-A seeks to remedy with regard to the UTX, the same situation addressed by the State Legislature with its sales tax legislation. The proposed local law would lower the UTX rate to 0%, for the same types of Co-ops that the State legislation addresses. In order to qualify for the 0% utility tax rate, the Co-op shall:

1. Contain at least 1,500 apartments;
2. Furnish or sell metered energy (electric, steam, refrigeration, or water) to tenants and/or occupants;
3. Such energy is generated by a cogeneration facility owned or operated by such Co-op;

By Council Members Weprin, Quinn, Recchia Jr., The Speaker (Council Member Miller), Comrie, Liu, Nelson, Gentile, Avella, Moskowitz, Gennaro, and the Public Advocate (Ms. Gotbaum)

A Local Law to amend the administrative code of the city of New York, in relation to the imposition of the utility tax and providing a separate rate for such tax for certain cooperative corporations that produce and distribute electricity, steam, refrigeration or water to such cooperative corporation tenants and/or occupants.

Be it enacted by the Council as follows:

Report for Res. No. 1126-A

Report of the Committee on Finance in favor of approving and adopting, as amended, a Resolution concerning the amendment to the Metrotech Area Business Improvement District Plan which provides for a change in the method of assessment upon which the district charge is based, and setting the date, time and place for the hearing of the local law amending the District Plan for the Metrotech Area Business Improvement District.

The Committee on Finance to which was referred on August 17, 2005 (Minutes, page 4257) the annexed amended resolution respectfully

REPORTS:

ANALYSIS:

This Preconsidered Resolution sets a date, time, and place for a public hearing pursuant to a request from the Metrotech Area Business Improvement District ("BID") to authorize a change in the current method of assessment upon which the district charge in the Metrotech Area BID is based.

In 1991, pursuant to Chapter 4 of Title 25 of the Administrative Code of the City of New York (the "BID Law"), the City established the Metrotech Area BID.[1] At such time, the method of assessment for Class A (Development Site/ Utility Properties) was based on the square footage and a fixed percentage of the annual budget, and the assessment for Class B (Commercial properties) was based on the assessed value (A/V) and fixed percentage of annual budget.[2] In recent years, several large Class A properties have moved into the area. However, the current Plan's limitations on the total amount of the budget paid by each class has resulted in Class A paying disproportionately lower share of the overall budget and Class B paying in a disproportionately large share of the overall budget.

To alleviate the burden on smaller commercial properties, at the November 19, 2004 Metrotech BID Board of Director Meeting, a Resolution was passed to amend the By-Laws of the Corporation to effect a change in the District Plan for the Metrotech Area BID (the "Plan"). The amendment to the Plan would change the assessment formulas to assess all properties based on A/V which would result in a reduction in the assessment of Class B properties. Under the BID Law, amendments to the district plan changing the method in assessment upon which the district charge is based must be adopted by local law after a public hearing.

The hearing on the local law and the BID plan, will be held on October 11, 2005 in the City Council Committee Room, 2nd Floor, City Hall at 11:00 a.m., before the Committee on Finance.

Preconsidered Reso. 1126-A also directs that all notices required under the BID law be properly given by the Department of Small Business Services and the Metrotech Area BID Steering Committee, respectively. Under the BID Law, notice for the hearing is required to be published in at least 1 newspaper at least 10 days prior to the date specified for the hearing. At the request of the Chair of the Committee, SBS has agreed to cause written notice of the hearing to be sent property owners in the District.

[1]Local Law 40 of 1991.

[2]According to DBS, Class A properties are generally large commercial properties located on city development sites that were developed through City economic development programs. Class B properties are other commercial properties.

Accordingly, Your Committee recommends its adoption, as amended.

I. MAP OF THE DISTRICT

Geographically, Downtown Brooklyn is located in the northwest part of Brooklyn. It is less than a mile and almost due east of the Wall Street Business District of Manhattan. Downtown Brooklyn is bounded by Clinton Street and Brooklyn Heights to the West, Tillary Street and the Bridge Plaza neighborhood, parks and Fulton Landing to the north, Ingersoll Houses and the Fort Greene neighborhood to the east and Atlantic Avenue and Boerum Hill to the south.

The METROTECH Area Business Improvement District, (the "District") will generally include the area bounded by Adams Street to the west curb, Tillary Street to the north, Flatbush Avenue Extension to the east and Fulton Mall to the south plus the area bounded by DeKalb Avenue, Flatbush Avenue Extension, Rockwell Place[,] and Fulton Street. The District is located in Downtown Brooklyn in the Borough of Brooklyn, as indicated on the map, (the "District Map") annexed hereto as Exhibit 1.

The [Board of Estimate] Mayor, by a resolution dated [November 16, 1989],[Calendar No. 406], May 7, 2001 a copy of which is annexed hereto as Exhibit 2, has provided for the preparation of this amendment to the plan as amended (the "Plan") pursuant to authority granted by Local Law [78] 96 of [1985] 1989 (as the same has been amended, hereinafter referred to as the "Law") for the District.

II. PRESENT USES OF DISTRICT PROPERTY AND DISTRICT PROFILE

A. General Introduction

Downtown Brooklyn's role as a commercial and civic Center is long standing. It has served as the seat of government for the City of Brooklyn and, since 1898, the Borough of Brooklyn. Because of its proximity to the Central Business District of the City of New York and, since 1898, the Borough of Manhattan, and because of its excellent ports, Downtown Brooklyn has served as Brooklyn's commercial center as well.

The District is made up of a variety of building types and styles on the equivalent of twenty square blocks in Downtown Brooklyn. Early, middle and late nineteenth century three and four story rowhouses stand next to much larger twentieth century industrial and commercial buildings.

The District is the site of the Beaux Arts turn-of-the-century former Brooklyn headquarters of the New York and New Jersey Telephone Company, the late nineteenth century Romanesque Revival former Brooklyn Fire Department Headquarters, a municipally and nationally designated landmark, and the Art Deco Brooklyn headquarters of [New York Telephone] Verizon, in addition to its many architecturally non-descript or vernacular buildings. Part of the operations of Long Island University are housed in the former Brooklyn Paramount Theater, which, along with the Brooklyn Fox Theater, served as New York City's center of early entertainment.

[Rock-n-Roll.] World-famous Barton's Candy was made across the street from both of these theaters.

There are two police precincts, the 84th and the 88th; one sanitation district, BK North 2; and one Community Board, Brooklyn 2, serving the District.

B. Office Profile

There are a [limited] number of large office buildings currently in the District: 370 Jay Street (NYC Transit Authority), 57 Willoughby Street, 81 Willoughby Street, 395 Flatbush Avenue Extension which is leased by [New York Telephone] Verizon, the two [New York Telephone] Verizon properties at 360 Bridge Street and 101 Willoughby Street, and 345 Adams Street, which is owned and occupied by the City of New York. The five new office buildings of METROTECH Center, including two Chase Financial Services Center at METROTECH buildings and the former Barton's Candy factory, Ten METROTECH Center, now used as office space, Renaissance Plaza at 350 Jay Street/333 Adams Street contains the New York Marriott Brooklyn Hotel and has offices for the NYC Law, Finance Departments, Community Board #2 and the Kings County DA=s Office. The NYS Workers Compensation Board also has offices in the building as well as Fleet Bank, Empire Insurance Group and the Securities Industry Automation Corporation(SIAC). Other office space in the District is located in converted residential or industrial space.

Currently, [over four million square feet of office space is] under construction or planned for the immediate future are, Polytechnic University=s first dormitory in Brooklyn and a new gym/academic building, 330 Jay Street (Twelve MetroTech Center), a 32 story building which will house additional Supreme Court court rooms and offices and New York City Technical College is planning a significant expansion. [These development projects include: METROTECH Center (Forest City METROTECH Associates, developer), including two Chase Financial Services Center at METROTECH buildings (being constructed by Chase Manhattan Bank) and Twelve METROTECH Center/330 Jay Street *(330* Jay Street Associates). The former Barton's Candy factory now used as office space, and which will be upgraded by 625 Fulton Associates, as Ten METROTECH Center].

C. Retail Profile

The major retail area of the District is located on Willoughby Street and on Jay, Lawrence, Bridge and Duffield Streets between Willoughby Street and Fulton Mall. The Fulton Mall is a limited-vehicular-access shopping street designed and developed in the mid-nineteen-seventies and constructed in the early nineteen-eighties as an effort to attract more shoppers and workers to Downtown Brooklyn and to encourage office development.

The District encompasses the gamut of retail stores on first, second and often third floors of rowhouse residences converted to retail use. These businesses include restaurants and bars, jewelry shops, women's and men's clothing stores, card shops, discount stores, stationery stores, a pet shop, green grocers, delicatessens, electronics stores and a number of fabric shops, many located on Bridge Street. The District also includes a dry cleaner, liquor stores, shoe repair shops as well as other small shops. The most noted national, or regional chain store[s] in the District [are] is [Newmark & Lewis and] Radio Shack [both electronics stores.]

The retail part of the District draws its shoppers from the Fulton Mall and from office workers and jurors in Downtown Brooklyn. The retail stores in the District would not attract a regional market if they were not located in such close proximity to the Fulton Mall.

The merchants of the area are a mixture of American-born and foreign-born men and women. Many, [though not all] of the foreign-born immigrants come from the Far East: China, Korea,

[from] Pakistan and from the Middle East, most particularly Syria and Lebanon. Many of the sales staffs of the retail businesses are also immigrants. These immigrant owners and workers reflect the populations of the most recent immigrants to Brooklyn.

The District currently contains [three] one bank[branches] branch: [Chemical] Chase Bank[.], [Citibank and CrossLand Savings Bank, though it is served by many others.]

D. Institutional Profile

Downtown Brooklyn is home to five institutions of higher education. Three of these institutions are in the District: New York City Technical College, Polytechnic University and Long Island University. The Institute of Design and Construction, a technical training institute, is also located in the District.

George Westinghouse Vocational and Technical High School is located in the northern part of the district across from both New York City Technical College and Polytechnic University and adjacent to WNYE, Channel 25, headquarters. The Friends School, a kindergarten through twelfth grade school administered and operated by the Society of Friends, is located on Pearl Street. St. Joseph High School, operated by the Sisters of St. Joseph, a Roman Catholic order, is located at the corner of Bridge Street and Willoughby Street.

[BACA Downtown, the Brooklyn Arts Council Brooklyn Arts and Cultural Association'S OBIE Award-winning theater and gallery, is located in a building on Willoughby Street owned by St. Boniface's]

[Roman Catholic Church, located around the corner on Duffield Street.]

Many city- and state-owned buildings and many city and state agencies are located within the District. The New York City Transit Authority owns its headquarters building on Jay Street and has offices in other buildings throughout the District and Downtown Brooklyn. The City owns the building at 345 Adams Street in which its Department of Finance is located. One of the Human Resources Administration's social services centers operates from a building on Duffield Street and its Emergency Assistance Unit is located around the corner on Willoughby Street. The Family Court is behind it on Adams Street.

E. Residential Profile

There are few entirely residential buildings in the District. The former Brooklyn Fire Department Headquarters at 365 Jay Street which Forest City METROTECH Associates renovated and restored for the 18 lower-income tenants displaced by the METROTECH project is one such building. Other residential buildings are located on Albee Square West. Most other residential uses are located above the retail uses in the rowhouses described above.

F. Transportation Access

The Regional Plan Association describes Downtown Brooklyn one of the best public transportation hubs in the country. Fourteen subway lines and fifteen bus lines serve the area.

Manhattan's business districts are as close as a five minutes subway ride.

The most convenient public transportation from Nassau and Suffolk Counties is by the Long Island Rail Road. Its Atlantic Avenue terminus is located in Downtown Brooklyn.

New York City's airports are a short ride from Downtown Brooklyn via the Brooklyn-Queens Expressway or Atlantic Avenue.

The District itself contains the stations of the "A", "C" and "F" lines at Jay Street-Borough Hall, the "R", "N" and "M" at Lawrence Street and the "B", "D", "M", "N", "Q", and "R" lines at De Kalb Avenue.

Automobile travel to Downtown Brooklyn, and hence the District, is convenient from Manhattan via the Brooklyn and Manhattan Bridges, from Long Island via the Brooklyn-Queens Expressway, the Long Island Expressway, Atlantic Avenue, Eastern Parkway and the Belt Parkway. Travel from New Jersey is also convenient via the Verrazano Bridge or through the Borough of Manhattan via the Holland or Lincoln Tunnel.

Recent demographic information collected for Downtown Brooklyn indicates that there are in excess of 2,000 MetroTech employees that reside in Staten Island. There are currently only a few options for traveling from home to work for these individuals and only one of them provides for direct access. The first involves taking the Staten Island Ferry at the St. George Terminal in Staten Island to Whitehall Street in lower Manhattan and then the subway to Brooklyn. Others take express buses to either Bay Ridge in Brooklyn or to lower Manhattan and then a subway to Downtown Brooklyn. A smaller group uses a van service that drops them off close to MetroTech. Finally, some people drive either as part of a car pool or individually.

A. Description of Services

The services to be provided pursuant to this Plan (the "Services") may include any services required for the enjoyment and protection of the public and the promotion and the enhancement of the District as provided in the Plan, whether or not such services are in connection with Improvements (hereinafter defined) authorized pursuant to Section IV of this Plan. D. Description of Services

1. Security - Security services may include, without limitation, the coordination of a District-wide crime prevention program. The District Management Association has formed [and incorporated, as its wholly-owned subsidiary,] BID Security, [Services Corp. It is the intention of the District Management Association to use BID Security Services Corp. as] its well-trained, highly-professional security force to provide 24-hour-a-day, seven-day-a-week security services for the District. This security force will operate through a system of closed-circuit televisions, foot patrols and mobile patrols in overlapping shifts. These security patrols will be linked to a command post which in turn will be linked to the 84th and 88th

NYPD Precincts. The prime functions of this private security force is, (1) in cooperation with the New York City Police Department (NYPD), to patrol the streets and sidewalks of the District to reduce the incidence of serious crime, and (2) in cooperation with the NYPD, other City agencies and the building staffs of private owners, to maintain and improve the quality of life in the District by seeking to obtain compliance with City regulations controlling vending, sidewalk obstructions, noise generation and air pollution from mobile sources.

The decision to use its own security force to implement the METROTECH Area Business Improvement District security program arises from the District Management Association's need to have the highest level of control in ensuring that the carefully developed program is carried out with the professionalism and sensitivity to the special needs of the community.

2. Sanitation - In order to maintain a high level of cleanliness in the District, services to supplement those to be provided by the Department of Sanitation are necessary. [6]5. Transportation - The District Management Association proposed to sponsor an express bus service from Staten Island to Downtown Brooklyn This service consists of the District Management Association contracting with a bus operator for a weekday express bus service as follows:

The primary target market was the mid-island and southern tier population so as not to excessively impact on the ferry options.

The buses were modern fully equipped coaches with fully upholstered seats and two-way radios.

The District Management Association pre-sold commuter tickets, in twenty and forty trip denominations.

- Routes were established in consultation with the bus operator with approximately five to seven stops on Staten Island and one or two stops Downtown Brooklyn. The commuter survey was initially be used to identify prime locations. Proximity to "park and ride" facilities was a consideration..

[7]6. Administration - Administration of the District will be through salaried staff, which may include, without limitation, a director, a secretary and any other special staff that the District Management Association may deem necessary from time to time such as accountants and legal advisors. Administration costs may also include, without limitation, office rental and equipment, office supplies, printing and insurance.

The District Management Association shall establish for each Contract Year [after the first Contract Year,] a proposed budget of expenditures. Such proposed budgets shall (with respect to the Contract Years to which they respectively apply): (i) reasonably itemize the purposes for which monies are proposed to be expended by the District Management Association; (ii) specify the amount, if any, proposed to be expended by the District Management Association for debt service and (iii) set forth the total amount proposed to be expended (the "Total Annual Budget Amount"). A proposed budget[, whether for the first Contract Year or] for a subsequent Contract Year, shall be referred to as "Budget".

C. General Provisions

1. The District Management Association shall make no expenditures other than in accordance with and pursuant to: (i) a Budget for which a total Annual Budget Amount has been approved in a resolution and adopted by the District Management Association and approved by the City; or (ii) any provisions in the Contract providing for the satisfaction of outstanding obligations of the District Management Association; or (iii) any provisions in the Contract providing for the expenditure of amounts provided in the Budget for, but unexpended in, a previous Contract Year.

2. The Total Annual Budget Amount shall not exceed the maximum total and annual amount which the District Management Association may expend for the Contract Year in question pursuant to paragraph A of this Section VI.

3. The Total Annual Budget Amount shall not be less than the amount needed to satisfy the District Management Association's debt service obligations, if any, for the Contract Year in question.

4. Subject to the District Management Association's need to satisfy its debt service obligations for the Contract Year in question the District Management Association may revise the itemizations within any Budget.

5. In the event that in any given Contract Year the sources of funding do not in the aggregate produce revenues equal to the Total Annual Budget Amount for such Contract Year, the District Management Association may, subject to the Contract, forego some or all of the non-debt service expenditures as are provided for in the Budget in question.

VII. BENEFITTED PROPERTIES

The providing of Services and Improvements shall benefit all properties within the District (the "Benefitted Properties"). The Benefitted Properties are described, in the alternative, by the following: (x) the District Map, or (y) the tax blocks and lots indicated in Exhibit 4 hereto.

VIII. DISTRICT MANAGEMENT ASSOCIATION

The District Management Association is a not-for-profit corporation incorporated under Section 402 of the New York State Corporation Law and is named the METROTECH Area District Management Association, Inc. The corporation is organized for the purpose of executing the responsibilities of a district management association as set forth in the Law. Furthermore, the District Management Association will carry out the activities prescribed in the Plan and promote and support the District. The District Management Association has seven classes of voting membership and one class of non-voting membership. The voting classes of membership are composed of [~~(i) owners of record of real property located within the District, (ii) commercial tenants leasing space within the District, (iii) residential tenants leasing space within the District including proprietary lessees and (iv) public representatives~~] (i) owners of record of development properties located in the District, (ii) owners of record of commercial properties located in the District, (iii) owners of record of not-for-profit properties located in the District, (iv) commercial tenants leasing space within the District, (v) residential tenants leasing space within the District including proprietary lessees and (vi) public representatives. The non-voting class may include community board representatives, and others with an interest in the welfare of the District. Each voting class elects members to the Board of Directors of the District Management Association in a manner prescribed by the by-laws of the District Management Association. The Board of Directors of the District Management Association includes representatives of owners of record of real property located within the District (which shall constitute a majority of the Board), representatives of both commercial and residential tenants leasing space in buildings including proprietary lessees within the District, and one member appointed by each of the

following public officials: the Mayor of the City, the Comptroller of the City, the Borough President of Brooklyn and the City Council member representing the District or if more than one City Council member represents a portion of the District than by the speaker of the City Council.

IX. USER RIGHTS

A. User Rights Generally

The District Management Association may undertake or permit commercial activities or other private uses of the street or other parts of the District in which the City has any real property interests (the "User Right(s)"); provided, however, that the User Rights so undertaken or permitted by the District Management Association shall have been (i) set forth in this Plan or authorized for licensing or granting by the City to the District Management Association in a resolution adopted by the City Council, (ii) licensed or granted to the District Management Association by the City pursuant to the Contract, and (iii) authorized by the appropriate City agency having jurisdiction thereof. Once so granted or licensed, the User Right(s) in question shall be undertaken or permited by the District Management Association in such manner to conform to the requirements, if any, set forth in this Plan, or in the aforesaid resolution and in the Contract with respect to User Right(s), and conform to the requirements authorized by the appropriate City agency having jurisdiction thereof. Such requirements may include but shall not be limited to (i) requirements as to what consideration, if any, the District Management Association shall pay to the City for the grant and/or license in question; (ii) requirements as to whether and how the District Management Association may permit other persons to undertake the User

Right(s) in question pursuant to a sub-grant or sub-license; (iii) requirements as to what charges the District Management Association may impose upon other persons as consideration for such sub-grant or sub-license; and (iv) requirements as to the general regulation of the User Right(s) by whomsoever undertaken.

B. Proposed User Rights

Subject to the approval and control of the appropriate City agency and/or subject to the requirements set forth in any contract the District Management Association may undertake or permit the following User Rights, subject to the requirements set forth in the Contract:

Newsstand Kiosks, Other Kiosks

The District Management Association proposes to establish and maintain high standards for the appearance, design and offerings of newsstand and other kiosks within the District. Working with the City's Art Commission, the District plans to design and install attractive kiosks for vending that would reflect the designs of the new development projects and other area buildings. To make these improvements possible, the District must be able to derive revenue from the kiosks and control their design, appearance and operations. The District Management Association will use the resulting revenues to offset its investment in kiosks, and for other neighborhood purposes.

I. REGULATIONS

The rules and regulations proposed for governing the operation of the District and the provision of Services by the District Management Association (the "Regulations") are set forth herein below.

1. The District Management Association shall obligate itself to provide Services as described in the Contract for a specified term (each year of the Contract term to be defined as a "Contract Year"). Such disbursements shall be made in accordance with general procedures for the payment of other City expenditures.

2. The District Management Association shall comply with all terms, conditions and requirements (i) elsewhere set forth in this Plan, and (ii) to be set forth, in the Contract and in any other contracts which both the District Management Association and the City may enter (the terms, conditions and requirements referred to in clauses (i) and (ii) to be hereby incorporated by reference in the definition for "Regulations," and (iii) shall comply with all terms, conditions and requirements set forth by the appropriate City agency which is required pursuant to law to give its approval.

McMAHON, HELEN SEARS, ALBERT VANN, DENNIS P. GALLAGHER, JAMES S. ODDO, Committee on Finance, September 15, 2005.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

At this point, the Speaker (Council Member Miller) announced that the following items have been **preconsidered** by the Committee on Finance and have been favorably reported for adoption.

Report for M-666

Report of the Committee on Finance in favor of approving a Communication from Office of Management and Budget regarding the transfer city funds between various agencies in fiscal year 2005 to implement changes in the City's expense budget.

The Committee on Finance to which was referred on September 15, 2005 the annexed communication respectfully

REPORTS:

Introduction. At a meeting of the Committee on Finance of the City Council of the City of New York on September 15, 2005, the Committee on Finance received a communication, dated September 14, 2005 from the Office of Management and Budget of the Mayor of The City of New York, of a proposed request, (the "Modification"), to modify units of appropriation and transfer city funds from the Labor Reserve to units of appropriation in the Fiscal 2005 Expense Budget (as defined below) pursuant to Section 107(b) of the Charter of the City of New York (the "Charter").

Analysis. The Council annually adopts the City's budget covering expenditures other than for capital projects (the "expense budget") pursuant to Section 254 of the Charter. On June 24, 2004, the Council adopted the expense budget for fiscal year 2005 (the "Fiscal 2005 Expense Budget"). This modification (MN-8) represents the transfer of funds from the Labor Reserve: (i) to various agencies to implement the final component of the DC 37 contract providing a one percent wage increase retroactive for Fiscal Year 2005; (ii) to fund the PERB arbitration award for the PBA; and (iii) to fund wage increases for plumbers and carpenters at CUNY.

If the Mayor wishes to transfer part or all of any unit of appropriation to another unit of appropriation from one agency to another or such that the transfer results in any unit of appropriation being increased or decreased by the greater of five percent or $50,000, Section 107(b) of the Charter requires that the Mayor must first notify the Council of the proposed action. Within 30 days after the first stated meeting of the Council following receipt of such notice, the Council may disapprove such proposed action. If the Council fails to approve or disapprove such proposed action within such 30-day period, the proposed action becomes effective and the Mayor has the authority to make such transfer.

Description of Above-captioned Resolution. In the above-captioned resolution, the Council would approve the Modification pursuant to Section 107(b) of the Charter. Such resolution would take effect as of the date of adoption.

(The following is the text of a Fiscal Impact Memo to the Finance Committee from the Finance Division of the New York City Council).

TO: Honorable Gifford Miller
Speaker

Honorable David I. Weprin
Chairman, Finance Committee

FROM: Frank Tramontano, First Deputy Director
Finance Division

DATE: September 15, 2005

SUBJECT: A budget modification (MN-8) for Fiscal Year 2005 to transfer funds between various agencies.

INITIATION: By letter dated September 14, 2005, the Director of the Office of Management and Budget submitted to the Council pursuant to section 107(b) of the New York City Charter a request for approval to transfer funds totaling $209,854,750 within and between various City agencies.

BACKGROUND: This modification (MN-8) implements expense budget changes that relate solely and specifically to labor contracts.

FISCAL IMPACT: This modification represents the transfer of funds within and between agencies. The net effect of this modification is zero.

Accordingly, Your Committee recommends its adoption.

In connection herewith, Council Member Weprin offered the following resolution:

Res. No. 1154

Resolution approving the modification (MN-8) of units of appropriation and the transfer of city funds between agencies proposed by the Mayor pursuant to Section 107(b) of the Charter of the City of New York.

By Council Member Weprin

Whereas, at a meeting of the Committee on Finance of the City Council of the City of New York (the "City Council") on September 15, 2005, the Committee on Finance received a communication, dated September 14, 2005, from the Office of Management and Budget of the Mayor of The City of New York (the "Mayor"), of a proposed request, attached hereto as Exhibit A (the "Modification"), to modify units of appropriation and transfer city funds in the amount of $209,854,750 from the Labor Reserve to various agencies in the Fiscal Year 2005 expense budget as adopted by the Council on June 24, 2004, pursuant to Section 107(b) of the Charter of the City of New York (the "Charter"); and

Whereas, pursuant to Section 107(b) of the Charter, the City Council has thirty (30) days after the first stated meeting of the City Council following such receipt within which to act upon the Modification;

NOW, THEREFORE, The Council of The City of New York hereby resolves as follows:

1. Approval of Modification. The City Council hereby approves, pursuant to Section 107(b) of the Charter, the actions proposed by the Mayor as set forth in the Modification.

2. Effective Date. This resolution shall take effect as of the date hereof.

ATTACHMENT: Exhibit A

September 14, 2005

TO THE CITY COUNCIL

Dear Council Members:

In accordance with Section 107(b) of the New York City Charter, I request your approval to transfer City funds between various agencies in fiscal year 2005 to implement changes in the City's expense budget.

This modification - MN 8 - transfers funds from the City's Labor Reserve in the Miscellaneous Budget to the agencies to fund the retroactive cost in fiscal year 2005 of the additional 1 % collective bargaining adjustment for DC 37 employees, to the Police Department to fund the retroactive cost of the PBA settlement, and to the Community Colleges to fund retroactive collective bargaining cost for plumbers and carpenters.

Your approval of modification MN - 8 is respectfully requested.

Yours truly,

GIOIA, ROBERT JACKSON, G. OLIVER DOPPELL, MICAHEL E. McMAON, HELEN SEARS, ALBERT VANN, DENNIS P. GALLAGHER, JAMES S. ODDO, Committee on Finance, September 15, 2005.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

At this point the Speaker (Council Member Miller) announced that the following items had been preconsidered by the Committee on Finance and had been favorably reported for adoption.

Report for M-667

Report of the Committee on Finance in favor of approving a Communication from Office of Management and Budget regarding the transfer City funds between various agencies in fiscal year 2006 to implement changes in the City's expense budget.

The Committee on Finance to which was referred on September 15, 2005 the annexed communication respectfully

REPORTS:

Introduction. At a meeting of the Committee on Finance of the City Council of the City of New York on September 15, 2005, the Committee on Finance received a communication, dated September 14, 2005 from the Office of Management and Budget of the Mayor of The City of New York, of a proposed request, (the "Modification"), to modify units of appropriation and transfer city funds between units of appropriation in the Fiscal 2006 Expense Budget (as defined below) pursuant to Section 107(b) of the Charter of the City of New York (the "Charter").

Analysis. The Council annually adopts the City's budget covering expenditures other than for capital projects (the "expense budget") pursuant to Section 254 of the Charter. On June 30, 2005, the Council adopted the expense budget for Fiscal Year 2006 (the "Fiscal 2006 Expense Budget"). This modification (MN-2) represents the transfer of funds within and between various agencies to reallocate appropriations reflected in the City's Fiscal 2006 Expense Budget. In addition to City Council requested changes, MN-2: (i) moves $19,486,303 from the labor reserve to fund the DC 37 one percent wage increase; (ii) moves $10,128,500 from the general reserve to fund workers compensation for volunteer firefighters, daycare slots, operating expenses for the new Bronx regional library branch and new needs as identified by the Administration.

If the Mayor wishes to transfer part or all of any unit of appropriation to another unit of appropriation from one agency to another or such that the transfer results in any unit of appropriation being increased or decreased by the greater of five percent or $50,000, Section 107(b) of the Charter requires that the Mayor must first notify the Council of the proposed action. Within 30 days after the first stated meeting of the Council following receipt of such notice, the Council may disapprove such proposed action. If the Council fails to approve or disapprove such proposed action within such 30-day period, the proposed action becomes effective and the Mayor has the authority to make such transfer.

Description of Above-captioned Resolution. In the above-captioned resolution, the Council would approve the Modification pursuant to Section 107(b) of the Charter. Such resolution would take effect as of the date of adoption.

(The following is the text of a Fiscal Impact Memo to the Finance Committee from the Finance Division of the New York City Council).

TO: Honorable Gifford Miller Speaker

Honorable David I. Weprin
Chairman, Finance Committee

FROM: Staci Emanuel, Deputy Director-Expense
Finance Division

DATE: September 15, 2005

SUBJECT: A budget modification (MN-2) for Fiscal Year 2006 to transfer funds between various agencies.

INITIATION: By letter dated September 14, 2005, the Director of the Office of Management and Budget submitted to the Council pursuant to section 107(b) of the New York City Charter a request for approval to transfer funds totaling $30,274,803 within and between various City agencies.

BACKGROUND: This modification (MN-2) reallocates expense budget appropriations that were reflected in the City's Fiscal 2006 Adopted Budget.

FISCAL IMPACT: This modification represents the transfer of funds within and between agencies. The net effect of this modification is zero.

Accordingly, Your Committee recommends its adoption.

(For text of the Attachment to the Committee Report, please refer to material following the text of Res. No. 1155 below:)

In connection herewith, Council Member Weprin offered the following resolution:

Res. No. 1155

Resolution approving the Modification (MN-2) of units of appropriation and the transfer of city funds between agencies proposed by the Mayor pursuant to Section 107(b) of the Charter of the City of New York.

Whereas, at a meeting of the Committee on Finance of the City Council of the City of New York (the "City Council") on September 15, 2005 the Committee on Finance received a communication, dated September 14, 2005, from the Office of Management and Budget of the Mayor of The City of New York (the "Mayor"), of a proposed request, attached hereto as Exhibit A (the "Modification"), to modify units of appropriation and transfer city funds in the amount of $30,274,803 between various agencies in the Fiscal Year 2006 expense budget as adopted by the Council on June 30, 2005, pursuant to Section 107(b) of the Charter of the City of New York (the "Charter"); and

Whereas, pursuant to Section 107(b) of the Charter, the City Council has thirty (30) days after the first stated meeting of the City Council following such receipt within which to act upon the Modification;

NOW, THEREFORE, The Council of The City of New York hereby resolves as follows:

1. Approval of Modification. The City Council hereby approves, pursuant to Section 107(b) of the Charter, the actions proposed by the Mayor as set forth in the Modification.

REPORTS:

TO: Hon. David Weprin
Chair, Finance Committee

Members of the Finance Committee

FROM: David Pechefsky, Finance Division

RE: Finance Committee Agenda of September 15, 2005: Resolution approving a tax exemption for one Preconsidered Land Use Item as requested by the Department of Housing Preservation and Development (Council District 42).

HPD has submitted a request to the Council to approve a property tax exemption for one project to be developed under the federal Section 811 Supportive Housing Program for Persons With Disabilities. Through the Section 811 program housing is developed with financing from the federal Department of Housing and Urban Development (HUD) and the City provides tax exemptions pursuant to State law. The completed projects provide rental housing for low-income persons with disabilities and receive operating subsidies from HUD.

This project is located in Council Member Barron's District and is for the construction of a 18-unit building. The value of the tax exemption is projected at approximately $28,300 in the first year of the exemption and $1.7 million over the 40-year length of the exemption.

This item has the approval of Council Member Barron.

In connection herewith, Council Member Weprin offered the following resolution:

Res. No. 1156

Resolution approving a partial exemption from real property taxes for property located at 433 – 441 De Witt Avenue (Block 4318, Lots 31, 32, 33, and 34), Brooklyn, pursuant to Section 422 of the Real Property Tax Law (Preconsidered L.U. No. 562).

By Council Member Weprin

WHEREAS, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council its request dated August 01, 2005 that the Council take the following action regarding a housing project to be located at 433 – 441 De Witt Avenue (Block 4318, Lots 31, 32, 33, and 34), Borough of Brooklyn ("the Project "):

Approve a partial exemption of the Project from real property taxes pursuant to Section 422 of the Real Property Tax Law (the "Tax Exemption");

WHEREAS, the project description that HPD provided to the Council states that the purchaser of the Project (the "Sponsor") is a duly organized housing development fund company under Article XI of the Private Housing Finance Law;

WHEREAS, the Council held a hearing on the Project on September 15, 2005;

WHEREAS, the Council has considered the financial implications relating to the Tax Exemption;

RESOLVED:

The Project shall be developed upon the terms and conditions set forth in the Project Summary that HPD has submitted to the Council, a copy of which is attached hereto.

The Council hereby grants an exemption from real property taxes as follows:

All of the value of the property in the Project, including both the land and improvements, shall be exempt from real property taxes, other than assessments for local improvements, from the date of conveyance of the land to the Sponsor until the date of issuance of the temporary or permanent Certificate of Occupancy for the housing project;

All of the value of the property in the Project, including both the land and improvements, (excluding those portions, if any, devoted to business or commercial use) shall be exempt from real property taxes, other than assessments for local improvements, commencing upon the date of issuance of the temporary or permanent Certificate of Occupancy for the housing project (or, if the housing project is constructed in stages, upon the date of issuance of the temporary or permanent Certificate of Occupancy for each such stage) ("Effective Date"), and terminating upon the earlier to occur of (i) the date the HUD mortgage is satisfied, or (ii) a date which is forty (40) years from the Effective Date ("Expiration Date"); provided, however, that the Sponsor shall make an annual real estate tax payment commencing upon the Effective Date and terminating upon the Expiration Date;

Commencing upon the Effective Date and during each year thereafter until the Expiration Date, the Sponsor shall make real estate tax payments in the sum of (i) $7,707, which is ten percent (10%) of the annual shelter rent for the housing project, as determined by HPD in accordance with the formula agreed upon with HUD, plus (ii) an additional amount equal to twenty-five percent (25%) of the amount by which the total contract rents applicable to the housing project for that year (as adjusted and established pursuant to Section 8 of the United States Housing Act of 1937, as amended) exceed the total contract rents which are authorized as of the Effective Date. Notwithstanding the foregoing, the total annual real estate tax payment by the Sponsor shall not at any time exceed the lesser of either (i) seventeen percent (17%) of the contract rents, or (ii) the amount of real estate taxes that would otherwise be due in the absence of any form of tax exemption or abatement provided by any existing or future local, state, or federal law, rule or regulation; and

That, in consideration of such tax exemption, the Sponsor, for so long as the partial tax exemption provided hereunder shall remain in effect, shall waive the benefits, if any, of additional or concurrent real property tax abatement and/or tax exemption which may be authorized under any existing or future local, state, or federal law, rule or regulation.

Report of the Committee on Housing and Buildings

Report for Int. No. 324-A

Report of the Committee on Housing and Buildings in favor of approving and adopting, as amended, a Local Law to amend the New York city charter, in relation to green building standards for certain capital projects.

The Committee on Housing and Buildings to which was referred on April 21, 2004 (Minutes, page) the annexed proposed local law respectfully

REPORTS:

BACKGROUND AND INTENT:

I. Introduction

On September 15, 2005, the Committee on Housing and Buildings, chaired by Council Member Madeline Provenzano, will consider Proposed Int. No. 324-A, a Local Law to amend the Administrative Code of the City of New York, in relation to requirements for city-owned and city-funded green buildings. The Committee previously heard testimony on earlier versions of this legislation on June 15, 2005 and on September 27, 2004, which testimony included comments from representatives of the Administration and other persons interested in this legislation.

II. Environmental and Health Impacts of Buildings

Enormous quantities of resources are used during building construction, renovation and operation, the production of which has substantial environmental impacts. In addition, many indoor building materials release hazardous toxins, impairing indoor air quality and reducing occupant health and productivity. The environmental impact of commercial and residential buildings includes the following:[1]

- 65.2% of the total United States electricity consumption
- 36% of the total United States primary energy use
- 30% of the total United States greenhouse gas emissions
- 136 million tons of construction and demolition waste in the United States (approx. 2.8 lbs/person/day)
- 12% of potable water used in the United States
- 40% (3 billion tons annually) of raw materials use globally.

Since much of New York City's electricity is produced within the City, and most buildings use oil or natural gas for their heat and hot water, energy consumption by buildings translates directly into greater local pollution, including the emission of sulfur dioxide, nitrogen oxides, particulate matter, carbon dioxide, and mercury. These pollutants contribute to respiratory disease, heart disease, smog, acid rain, and climate change. Moreover, as energy demand rises, so does the City's reliance on dirty, inefficient power plants, and so rises the City's and the nation's dependence on foreign oil and natural gas.

III. Definition of Green Building

Modern architects and engineers can reduce the health and environmental impacts of buildings by designing "high-performance buildings" or "green buildings." According to the U.S. Green Building Council (USGBC), "green building" is "design and construction practices that significantly reduce or eliminate the negative impact of buildings on the environment and occupants in five broad areas [of design]: sustainable site planning; safeguarding water and water efficiency; energy efficiency and renewable energy; conservation of materials and resources; and indoor environmental quality."[2] There is no simple checklist, however, for constructing green buildings because what makes sense for one building project may not make sense for another, and the issues of greatest importance in one geographical area may be less important elsewhere. For example, for a building that uses a chiller for cooling, which require large quantities of water, it may be economical to recycle wastewater, something that may be deemed an excessive investment in a building with less sizable water needs. Similarly, in areas with severe water shortages it may be more important to emphasize water conservation than in New York City where energy use may be of greater concern due to the siting of power plants within the city and limitations on transmission capacity into the city.

The U.S. Green Building Council, the nation's foremost coalition of real estate and environmental organizations working to promote green buildings, has developed a green building rating system known as LEED (Leadership in Energy and Environmental Design). Buildings receive LEED certification if their designs score sufficient "points" in the five general design areas listed above. Depending on the number of points a building receives, it can be rated Certified, Silver, Gold or Platinum. LEED has designed rating systems for new construction and major renovation, for commercial interiors and for existing buildings. A rating system for core and shell construction is currently being piloted, and LEED for homes will be released in 2006. To date, 1,921 building projects, nationwide, are seeking LEED certification with the USGBC, and 215 have completed certification.[3]

IV. Benefits of Green Building

The benefits of green building include reduced impact on natural resources, financial savings, improved occupant comfort and health, and reduced strain on local infrastructure.[4] As compared with conventional construction, green buildings typically use less water and energy, reduce air pollution, use fewer resources and produce less waste, have better indoor air quality and are associated with improvements in worker productivity.

Many of these benefits lead to financial savings. One study estimated that the financial savings over a 20-year period from energy, emissions, water, waste, building commissioning, and productivity total nearly $50 per square foot.[5] According to the study, the financial savings from reduced energy consumption alone exceed average increased costs associated with green buildings. Unlike private developers who would not receive many of these financial benefits, including benefits from reduced air pollution or reduced stress on infrastructure such as water treatment facilities, New York City would receive many of these financial benefits.

New York City owns or leases approximately 4000 buildings, and spends over $7 billion on capital construction annually. As a result, the City's adoption of green building practices would have positive effects beyond just City projects. If the City begins constructing green buildings, it will introduce the practice to the countless architects, builders and developers who work on city projects. The City's enormous purchasing power would not only encourage and nurture green building in the

construction industry, but also among downstream industries that supply building materials.

V. First Costs of Green Building

Costs studies conducted in the last two years, including studies for the State of California and the United States General Services Administration, reveal that constructing buildings according to LEED standards results in little or no increase in upfront capital costs.

An analysis of 33 LEED-certified buildings for the State of California in 2003 revealed an average LEED cost premium of less than 1.84%, with a 0.66% premium for building that achieved the most basic level of LEED certification and 2.11% for building that achieved LEED Silver.[6] Moreover, the study estimated a ten times return on the investment in green building design. The study examined LEED-certified offices and schools, comparing each building's actual cost with the estimated cost of the same building if designed and constructed conventionally. The study also examined the energy, waste, and water savings associated with green building, as well as productivity and health benefits.

A recently published study conducted for the U.S. General Services Administration ("GSA") estimated similar first costs for green design.[7] The GSA study determined that building a new courthouse to LEED Certified would add -0.4% to 1.0% to construction costs, and building to LEED Silver would add -0.03% to 4.4% to construction costs. The study also found that modernizing an office building to LEED Certified would add 1.4% to 2.1% to construction costs, and for LEED Silver would add 3.1% to 4.2% to construction costs.

Finally, a 2004 study of 93 conventional and 45 LEED certification seeking libraries, laboratories, and academic classroom buildings found no statistical difference in the cost per square foot of constructing buildings whether LEED was used or not.[8] The study concluded that the cost per square foot of LEED and non-LEED buildings falls within the same dollar range and that "many projects can achieve sustainable design within their initial budget, or with very small supplemental funding."[9]

VI. Green Building Laws in Other Jurisdictions

Numerous federal, state, and local governments and agencies have adopted LEED or have otherwise required that buildings be built according to green building criteria. As shown below, among the many cities to have adopted LEED, most require city buildings to achieve a LEED Silver rating, limit the requirements to buildings above 5,000-10,000 square feet, and apply the requirements to both new construction and renovations.

In New York City, numerous governmental agencies have embraced green building technology concepts. The Battery Park City Authority has begun utilizing green building guidelines modeled on LEED for all commercial and residential building construction in Battery Park City. The Department of Design and Construction has also developed High Performance Building Guidelines and has begun applying the guidelines for schools, libraries and other facilities. The New York City Transit Authority has adopted green building guidelines for all new transit facilities, including the Second Avenue Subway. Moreover, the Lower Manhattan Development Corporation and the Port Authority of New York and New Jersey have developed sustainable design guidelines and have designated "environmental planning" as one of five general requirements for the redevelopment of the World Trade Center site and surrounding area.

VII. Proposed Int. No. 324-A

Bill section one contains a statement of findings and purpose. The use of green building criteria will substantially reduce the City's electricity consumption, air pollution and water use, as well as improve occupant health and worker productivity. The bill would employ the use of green building standards in the construction and renovation of city-owned and city-funded buildings by capturing certain construction projects that are funded with capital funds from the City's treasury.

Bill section two creates a new section 224.1 to add to the New York City Charter on "Green Building Standards."

Subdivision a of this new section contains the definitions that are to be used for the purposes of this section. The newly defined terms are:

The term "capital project" means a capital project as defined in section 210 of this chapter that is paid for in whole or in part from the city treasury.

The term "city agency" means a city, county, borough, or other office, position, administration, department, division, bureau, board or commission, or a corporation, institution or agency of government, the expenses of which are paid, in whole or in part, from the city treasury.

The term "construction work" means any work or operations necessary or incidental to the erection, demolition, assembling, alteration, installing, or equipping of any building.

The term "green building standards" means design guidelines, a rating system or rules for constructing buildings that ensure site planning, water efficiency, energy efficiency and renewable energy, conservation of materials and resources and indoor environmental quality.

The term "inflation" means the annual twelve (12) month average of the consumer price index published by the United States Department of Labor.

The term "LEED energy and atmosphere credit 1" means the credit point under LEED for New Construction version 2.1 intended to achieve increased energy performance.

The term "LEED green building rating system" means a version of the Leadership in Energy and Environmental Design (LEED) building rating system published by the United States Green Building Council, not less stringent than the selected green building rating system, including a standard developed by or for the city consisting of practices and technologies derived from the LEED rating system that are reasonable and appropriate for building in New York City.

The term "LEED water efficiency credit 3.2" means the credit point under the LEED for New Construction version 2.1 intended to achieve water use reduction.

The term "not less stringent" means providing no less net environmental and health benefits.

The term "rehabilitation work" means any restoration, replacement or repair of any materials, systems and/or components.

The term "selected green building rating system" means the current and most appropriate building rating system published by the United States Green Building Council; provided, however, at the Mayor's discretion, the term "selected green building rating system" shall mean New Construction version 2.1, Existing Buildings version 2 or Commercial Interiors version 2, whichever is most appropriate for the project under United States Green Building Council guidelines.

The term "substantial reconstruction" means a capital project in which the scope of work includes rehabilitation work in at least two of the three major systems, electrical, HVAC (heating, ventilating and air conditioning) and plumbing, of a building and construction work affects at least fifty percent (50%) of the building's floor area.

Subdivision b of section 224.1 contains two paragraphs with differing threshold amounts. Paragraph one of subdivision b of such section sets a threshold to provide that any capital project with an estimated construction cost of $2 million or more involving (i) the construction of any new building, (ii) any addition to any existing building, or (iii) the substantial reconstruction of any existing building shall be designed and constructed in a manner that shall comply with green building standards not less stringent than the standards prescribed for buildings designed in accordance with the LEED green building rating system to achieve a LEED silver or higher rating, except that any capital project involving any building classified in occupancy groups G or H-2 is to achieve a rating of LEED certified or higher.

This paragraph also provides that if the Mayor elects to utilize any green building standards other than the LEED green building rating system, then the Mayor shall publish findings that demonstrate that such other green building standards are not less stringent than the standards prescribed for buildings designed in accordance with the LEED green building rating system to achieve a LEED silver or higher rating or for any capital project involving any building classified in occupancy groups G (education) or H-2 (incapacitated institutional / hospital) to achieve a LEED certified or higher rating. The legislation mandates the Mayor to review and

update the green building standards utilized by the City no less often than once every three years.

Paragraph two of subdivision b of section 224.1 imposes additional energy reduction requirements upon projects that are required to comply with green building standards in accordance with paragraph one of subdivision b of section 224.1 when there is an estimated construction cost of $12 million or more. For those capital projects of $12 million or more but less than $30 million, with the exception of buildings classified in occupancy group G (education), the project shall be designed and constructed to reduce energy by a minimum of 20%. This energy cost reduction is to be determined by the methodology prescribed in LEED energy and atmosphere credit 1 or the New York state energy conservation code, whichever is more stringent. The design agency shall also make investments in energy efficiency that reduce energy cost by an additional 5% if that agency finds that the payback on such investment through savings in energy cost would not exceed seven years.

For those capital projects of $30 million or more, with the exception of buildings classified in occupancy group G (education), the project shall be designed and constructed to reduce energy by a minimum of 25%. This energy cost reduction is to be determined by the methodology prescribed in LEED energy and atmosphere credit 1 or the New York state energy conservation code, whichever is more stringent. The design agency shall also make investments in energy efficiency that reduce energy cost by an additional 5% if that agency finds that the payback on such investment through savings in energy cost would not exceed seven years.

For those capital projects of $12 million or more involving buildings classified in occupancy group G (education), the project shall be designed and constructed to reduce energy by a minimum of 20%. This energy cost reduction is to be determined by the methodology prescribed in LEED energy and atmosphere credit 1 or the New York state energy conservation code, whichever is more stringent. The design agency shall also make investments in energy efficiency that reduce energy cost by an additional 5% if that agency finds that the payback on such investment through savings in energy cost would not exceed seven years; provided, however, that alternatively, the design agency shall make investments in energy efficiency that reduce energy cost by an additional 10% if it finds that the payback on such investment through savings in energy cost would not exceed seven years.

Subdivision c of section 224.1 imposes requirements upon any capital project not subject to subdivision b of such section as follows:

Under paragraph one of this subdivision, any such capital project involving the installation or replacement of a boiler with an estimated construction cost for such installation or replacement of $2 million or more, or involving the installation or replacement of lighting systems in a building at an estimated construction cost for such installation or replacement of $1 million or more, be designed and constructed to reduce energy cost by a minimum of 10% as determined by the methodology prescribed in LEED energy and atmosphere credit 1 or the New York state energy conservation code, whichever is more stringent.

Under paragraph two of this subdivision, any capital project, other than a project required to comply with paragraph on of the same subdivision, that involves the installation or replacement of any HVAC comfort controls at an estimated construction cost for such installation or replacement of $2 million or more shall be designed and constructed to reduce energy cost by a minimum of 5% as determined by the methodology prescribed in LEED energy and atmosphere credit 1 or the New York state energy conservation code, whichever is more stringent.

Subdivision d of section 224.1 provides that in addition to any other applicable subdivision in section 224.1, each capital project involving the installation or replacement of plumbing systems that includes the installation or replacement of plumbing fixtures at an estimated construction cost for such installation or replacement of plumbing systems of five hundred thousand dollars ($500,000) or more shall be designed and constructed to reduce potable water consumption in the aggregate by a minimum of 30%, as determined by a methodology not less stringent than that prescribed in LEED water efficiency credit 3.2. This provision also provides that such percentage be reduced to a minimum of 20% if the Department of Buildings fails to approve an application for such project to use waterless urinals.

Subdivision e of section 224.1 provides that the provisions of this new section 224.1 of the New York City Charter shall apply only to capital projects involving buildings classified in occupancy groups B-1 (moderate hazard storage), B-2 (low hazard storage), C (mercantile), E (business), F-1a (assembly – theatres, etc), F-1b (assembly – churches, concert halls, etc.), F-3 (assembly – museums, etc.), F-4 (assembly restaurants, etc.), G (education), H-1 (restrained institutional) and H-2 (incapacitated institutional / hospital).

Under subdivision f of section 224.1, the Mayor has the discretion to exempt from the provisions of section 224.1 of the Charter, capital projects which account for up to 20% of the capital dollars in each fiscal year that are subject to such section if in his or her sole judgment such exemption is necessary in the public interest. At the conclusion of each fiscal year the Mayor shall report to the Council on the exemptions granted pursuant to this section.

Subdivision g of section 224.1 addresses capital projects of entities that are not City agencies and charges that the provisions of this section shall not apply to capital projects of those entities unless 50% or more of the estimated cost of such project is to be paid for out of the city treasury. This exemption shall not apply to any capital project that receives $10 million or more out of the city treasury.

Subdivision h of section 224.1 provides that this section would not apply to capital projects that have received capital dollars from the city treasury before January 1, 2007.

Subdivision i of section 224.1 provides that the Mayor promulgate rules to carry out the provisions of section 224.1 of the Charter as created by this legislation.

Subdivision j of section 224.1 provides that the costs listed in subdivisions b, c, d and g of section 224.1 be indexed to inflation.

Subdivision k of section 224.1 addresses capital projects accounting for at least 50% of the capital dollars of each city agency subject to paragraph one of subdivision b of section 224.1, which utilize a version of the LEED green building rating system for which the United States Green Building Council will accept applications for certification to provide that those projects apply to the United States Green Building Council for certification that such projects have achieved a silver or higher rating under the LEED green building rating system. This provision would sunset on and after January 1, 2017.

Bill section three requires the Department of Design and Construction to report annually on the implementation of this law. This annual report is to be prepared no later than September 1st of each year with the first such report to be completed on or prior to September 1, 2008. The annual report shall include, but shall not be limited to:

- A list and brief description, including square footage and total cost of any capital project subject to section 224.1 of the Charter which was completed during the preceding calendar year;
- The estimated level of LEED certification such capital projects have achieved as determined by the design agency in accordance with the LEED rating system or, if applicable, the level achieved, as certified by the United States Green Building Council;
- Additional costs attributable to complying with the LEED green building rating system or any other green building standard;
- An assessment of the health, environmental and energy-related benefits achieved in comparison with a base-case code compliant project (including projected energy savings and reductions in peak load, reductions in emissions, reductions in storm water runoff and potable water use);
- A summary of agency findings concerning any additional investment in energy efficiency pursuant to subparagraphs (i), (ii) and (iii) of paragraph two of subdivision b of section 224.1 of the Charter, including any additional energy efficiency investment considered and the estimated payback time for such investment through savings in energy cost; and
- The total value of capital allocations in each fiscal year, by city agency, of projects subject to, and exempted by the Mayor for each of paragraph one and subparagraphs (i), (ii) and (iii) of paragraph two of subdivision b, paragraphs one and two of subdivision c and subdivision d of section 224.1 of the Charter, as well as a list and brief description, by agency, of such exempted projects, including square footage and project cost.

The reporting requirement imposed under this legislation expires on and after January 1, 2019.

Bill section four provides that the bill become effective on January 1, 2007 and that the provisions of this bill shall apply to capital projects for which the final design is approved pursuant to section 223 of the New York City Charter after the effective date. The Mayor shall take all actions necessary for the timely implementation of this local law, including the promulgation of rules, and shall take all practicable steps to implement this local law prior to the effective date. This bill section also provides that the reporting requirement provisions instituted by this local law under bill section 3 would expire and be of no further force and effect on and after January 1, 2019. The sunset provision applicable to subdivision k of section 224.1 of the Charter is also contained in this bill section and provides for an expiration of the provisions of such subdivision k on and after January 1, 2017.

Amendments to Int. No. 324

The title of Int. No. 324 and the provisions of the bill were amended to reflect that the bill now amends the New York City Charter, where as the original bill amended the Administrative Code of the City of New York. The A-version was structured based upon certain threshold dollar amounts of capital funds for construction costs being paid in whole or in part from the City Treasury, which would trigger compliance with the bill's provisions to employ green building standards in the applicable capital project.

Update

On Thursday, September 15, 2005, the Committee considered a Preconsidered Resolution entitled "Resolution determining that Proposed Int. No. 324-A, a Local Law to amend the New York city charter, in relation to green building standards for certain capital projects, will not have a significant adverse impact on the environment." The Committee adopted the Preconsidered Resolution by a vote of 10 in the affirmative, zero in the negative and no abstentions.

The Committee then passed Proposed Int. No. 324-A by a vote of 10 in the affirmative, zero in the negative, with no abstentions.

(The following is the Fiscal Impact Statement for Int. No. 324-A:)

FISCAL IMPACT STATEMENT:

	Effective FY 07	FY Succeeding Effective FY 08	Full Fiscal Impact FY 10
Revenues (+)	$0	$0	$0
Expenditures (-)	$400,000	$400,000	$0
Net	$400,000	$400,000	$0

IMPACT ON REVENUES: None

IMPACT ON EXPENDITURES: It is estimated that for covered projects construction costs will increase on average by 3% resulting in an increase in debt service costs reflected in the City's Expense Budget. However, the new design standards will result in savings on building operating costs ranging from 10% to 30% for energy costs and 30% for water costs. These savings are estimated to effectively offset the increases in debt service costs, leaving training needs as the principal net cost of this legislation. Based on the scope and volume of work contained in the City's Ten-Year Capital Strategy for Fiscal Years 2006-2015, a total of approximately $12 billion in capital work is estimated to be covered by this legislation. A 3% increase in costs equates to $360 million over the ten years or $36 million per year generating approximately $2.6 million in additional debt service costs each year beginning in Fiscal 2009. Given the design standards required, operating expense savings are estimated to be approximately equal to the $2.6 million debt service costs. The costs and savings are anticipated to grow in tandem by this amount in each successive year reaching a total of $18.2 million each in Fiscal 2015. The relationship between costs and savings could be impacted by the rate of changes in construction costs relative to changes in operating costs. It should also be noted that the authority to exempt projects given to the Mayor should allow the City to undertake projects where benefits are maximized relative to costs.

The Mayor's Office of Management and Budget estimates that to successfully implement this legislation a cost of approximately $400,000 each year for three years will be incurred to train city employees working on capital projects.

Int. No. 324-A

By The Speaker (Council Member Miller) and Council Members Gennaro, Brewer, Clarke, Fidler, Gerson, Gioia, James, Koppell, Liu, Martinez, Nelson, Recchia Jr., Sanders Jr., Stewart, Weprin, Gonzalez, Yassky, Moskowitz, Reyna, Foster, Perkins, McMahon, Addabbo Jr., Monserrate, Gentile, DeBlasio, Baez, Palma, Katz, Avella, Reed, Jackson, Vallone Jr., Quinn, Rivera, Barron, Lopez, Arroyo and The Public Advocate (Ms. Gotbaum).

A Local Law to amend the New York city charter, in relation to green building standards for certain capital projects.

Be it enacted by the Council as follows:

Section 1. Statement of findings and purpose. Probably no urban activity has greater impact on human health and the environment than building construction and use. Enormous quantities of resources are used during building construction, renovation and operation, and the production of these resources has substantial environmental impacts. It is estimated that 40% of raw materials consumed globally are used for buildings. In addition, in the United States, commercial and residential buildings are responsible for approximately 65% of electricity consumption, 30% of greenhouse gas emissions, 12% of potable water use and 136 million tons of construction and demolition waste annually. Also, many indoor building materials release hazardous toxins, impairing indoor air quality and reducing occupant health and productivity.

Since most of New York City's electricity is produced within the City and many buildings use oil or natural gas for their heating and hot water, energy consumption in building operation translates into greater local pollution, including emissions of sulfur dioxide, nitrogen oxides, particulate matter, carbon dioxide, and mercury. These pollutants contribute to respiratory disease, heart disease, smog, acid rain, and climate change. Moreover, as energy demand rises, so does our reliance on dirty, inefficient power plants, as well as the nation's dependence on foreign oil and natural gas.

Modern architects and engineers can reduce the health and environmental impacts of buildings by designing "high-performance buildings" or "green buildings." The United States Green Building Council, the nation's foremost coalition of real estate and environmental organizations working to promote green buildings, has developed a green building rating system known as LEED (Leadership in Energy and Environmental Design). Buildings receive LEED certification if their designs score sufficient "points" in five general design areas including siting, water efficiency, energy and atmosphere, materials and resources and indoor environmental quality. Thousands of residential and commercial buildings, ranging from single-family homes to large corporate headquarters, have been designed and constructed throughout the United States utilizing green building principles. Significant local examples include 4 Times Square and 20 River Terrace. A recent study conducted for the State of California concluded that, on average, green buildings show a ten times return on the investment in green building design. This comprehensive analysis of 33 green buildings revealed an average green cost premium of less than 2%, with only a 0.66% premium for buildings that achieved the most basic level of LEED certification.

Numerous municipalities, including Atlanta, Austin, Boston, Boulder, Chicago, Dallas, Los Angeles, Portland (Oregon), San Diego, San Francisco, San José, and Seattle, have adopted LEED or have otherwise required that city-owned buildings be built according to green building criteria. Some localities have created incentive programs for privately-owned green building construction, including the use of direct subsides, density bonuses and expedited permitting. Indeed, Boston will soon require private sector buildings of over 50,000 square feet to be LEED-certifiable.

In New York City, numerous governmental bodies have also embraced green building concepts. The Battery Park City Authority has begun utilizing green building guidelines modeled on LEED for all commercial and residential building construction in Battery Park City. The Department of Design and Construction has also developed High Performance Building Guidelines and has begun applying the guidelines for libraries and other facilities. The New York City Transit Authority has adopted green building guidelines for all new transit facilities, including the Second Avenue Subway. Moreover, the Lower Manhattan Development Corporation and the Port Authority of New York and New Jersey have developed sustainable design guidelines and have designated "environmental planning" as one of five general requirements for the redevelopment of the World Trade Center site and surrounding area.

Likewise, many states, such as California, Connecticut, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island, have begun utilizing LEED for state-owned buildings. The State of New York provides tax credits for buildings that meet defined green building criteria and, under Executive Order 111, state agencies are directed to reduce energy use and carbon dioxide emissions and to utilize green building principles.

The City owns approximately 1,300 buildings and leases over 12.8 million square feet of office space, and this legislation will affect approximately $12 billion in construction over the City's ten-year capital plan. Considering the size of the City's real estate portfolio, the Council finds that the use of green building criteria for City capital projects will substantially reduce New York City's electricity consumption, air pollution and water use, as well as improve occupant health and worker productivity and encourage market transformation. The Council further finds that reducing overall energy demand through green building techniques will reduce our dependence on foreign oil. Finally, the Council finds that green buildings are a sound investment of public dollars. The Council's financial analysis indicates that, without taking any other savings or social benefits into account, savings in water and energy cost will offset debt service payments on any increase in capital expenditures resulting from this legislation. Accordingly, the Council declares that it is reasonable and necessary to employ green building standards in the construction and renovation of City-owned and City-funded buildings and that these standards be utilized in an orderly and timely fashion.

§2. The New York city charter is amended by adding a new section 224.1, to read as follows:

§224.1 Green building standards. a. As used in this section the following terms shall have the following meanings:

(1) The term "capital project" shall mean a capital project as defined in section 210 of this chapter that is paid for in whole or in part from the city treasury.

(2) The term "city agency" shall mean a city, county, borough, or other office, position, administration, department, division, bureau, board or commission, or a corporation, institution or agency of government, the expenses of which are paid, in whole or in part, from the city treasury.

(3) The term "construction work" shall mean any work or operations necessary or incidental to the erection, demolition, assembling, alteration, installing, or equipping of any building.

(4) The term "green building standards" shall mean design guidelines, a rating system or rules for constructing buildings that ensure site planning, water efficiency, energy efficiency and renewable energy, conservation of materials and resources and indoor environmental quality.

(5) The term "inflation" shall mean the annual twelve (12) month average of the consumer price index published by the United States department of labor.

(6) The term "LEED energy and atmosphere credit 1" shall mean the credit point under LEED for New Construction version 2.1 intended to achieve increased energy performance.

(7) The term "LEED green building rating system" shall mean a version of the Leadership in Energy and Environmental Design (LEED) building rating system published by the United States Green Building Council, not less stringent than the selected green building rating system, including a standard developed by or for the city consisting of practices and technologies derived from the LEED rating system that are reasonable and appropriate for building in New York city.

(8) The term "LEED water efficiency credit 3.2" shall mean the credit point under the LEED for New Construction version 2.1 intended to achieve water use reduction.

(9) The term "not less stringent" shall mean providing no less net environmental and health benefits.

(10) The term "rehabilitation work" shall mean any restoration, replacement or repair of any materials, systems and/or components.

(11) The term "selected green building rating system" shall mean the current and most appropriate building rating system published by the United States Green Building Council; provided, however, at the mayor's discretion, the term "selected green building rating system" shall mean New Construction version 2.1, Existing Buildings version 2 or Commercial Interiors version 2, whichever is most appropriate for the project under United States Green Building Council guidelines.

(12) The term "substantial reconstruction" shall mean a capital project in which the scope of work includes rehabilitation work in at least two of the three major systems, electrical, HVAC (heating, ventilating and air conditioning) and plumbing, of a building and construction work affects at least fifty percent (50%) of the building's floor area.

b. (1) Each capital project with an estimated construction cost of two million dollars ($2,000,000) or more involving (i) the construction of a new building, (ii) an addition to an existing building, or (iii) the substantial reconstruction of an existing building shall be designed and constructed to comply with green building standards not less stringent than the standards prescribed for buildings designed in accordance with the LEED green building rating system to achieve a LEED silver or higher rating, or, with respect to buildings classified in occupancy groups G or H-2, to achieve a LEED certified or higher rating. If the mayor elects to utilize green building standards other than the LEED green building rating system, the mayor shall publish findings demonstrating that such other green building standards are not less stringent than the LEED standards described above for achievement of a LEED silver or, if applicable, a LEED certified rating. The green building standards utilized by the city in accordance with this section shall be reviewed and updated, as necessary, by the mayor no less often than once every three years.

(2) In addition, if the estimated construction cost of a project required to comply with green building standards in accordance with paragraph one of this subdivision is 12 million dollars ($12,000,000) or more such project shall be designed and constructed to reduce energy cost as follows:

(i) Capital projects, other than buildings classified in occupancy group G, with an estimated construction cost of 12 million dollars ($12,000,000) or more but less than 30 million dollars ($30,000,000) shall be designed and constructed to reduce energy cost by a minimum of twenty percent (20%), as determined by the methodology prescribed in LEED energy and atmosphere credit 1 or the New York state energy conservation code, whichever is more stringent. In addition to such twenty percent (20%) reduction in energy cost, the design agency shall make investments in energy efficiency that reduce energy cost by an additional five percent (5%) if it finds that the payback on such investment through savings in energy cost would not exceed seven years.

(ii) Capital projects, other than buildings classified in occupancy group G, with an estimated construction cost of 30 million dollars ($30,000,000) or more shall be designed and constructed to reduce energy cost by a minimum of twenty-five percent (25%), as determined by the methodology prescribed in LEED energy and atmosphere credit 1 or the New York state energy conservation code, whichever is more stringent. In addition to such twenty-five percent (25%) reduction in energy cost, the design agency shall make investments in energy efficiency that reduce energy cost by an additional five percent (5%) if it finds that the payback on such investment through savings in energy cost would not exceed seven years.

(iii) Capital projects involving buildings classified in occupancy group G with an estimated construction cost of 12 million dollars ($12,000,000) or more shall be designed and constructed to reduce energy cost by a minimum of twenty percent (20%), as determined by the methodology prescribed in LEED energy and atmosphere credit 1 or the New York state energy conservation code, whichever is more stringent. In addition to such twenty percent (20%) reduction in energy cost, the design agency shall make investments in energy efficiency that reduce energy cost by an additional five percent (5%) if it finds that the payback on such investment through savings in energy cost would not exceed seven years or, in the alternative, the design agency shall make investments in energy efficiency that reduce energy cost by an additional ten percent (10%) if it finds that the payback on such investment through savings in energy cost would not exceed seven years.

c. Capital projects, other than those required to comply with green building standards in accordance with subdivision b of this section, shall be subject to the following:

(1) Each capital project that includes the installation or replacement of a boiler at an estimated construction cost for such installation or replacement of two million dollars ($2,000,000) or more, or that involves the installation or replacement of lighting systems in a building at an estimated construction cost for such installation or replacement of one million dollars ($1,000,000) or more, shall be designed and constructed to reduce energy cost by a minimum of ten percent (10%), as determined by the methodology prescribed in LEED energy and atmosphere credit 1 or the New York state energy conservation code, whichever is more stringent.

(2) Each capital project, other than a project required to comply with paragraph one of this subdivision, that involves the installation or replacement of HVAC comfort controls at an estimated construction cost for such installation or replacement of two million dollars ($2,000,000) or more, shall be designed and constructed to reduce energy cost by a minimum of five percent (5%) as determined by the methodology prescribed in LEED energy and atmosphere credit 1 or the New York state energy conservation code, whichever is more stringent.

d. In addition to complying with any other applicable subdivision in this section, each capital project involving the installation or replacement of plumbing systems that includes the installation or replacement of plumbing fixtures at an estimated construction cost for such installation or replacement of plumbing systems of five hundred thousand dollars ($500,000) or more shall be designed and constructed to reduce potable water consumption in the aggregate by a minimum of thirty percent (30%), as determined by a methodology not less stringent than that prescribed in LEED water efficiency credit 3.2; provided, however, that such percentage shall be reduced to a minimum of 20% if the department of buildings rejects an application for the use of waterless urinals for the project.

e. This section shall apply only to capital projects involving buildings classified in occupancy groups B-1, B-2, C, E, F-1a, F-1b, F-3, F-4, G, H-1 and H-2.

f. The mayor may exempt from each provision of this section capitol projects accounting for up to 20% of the capital dollars in each fiscal year subject to such provision if in his or her sole judgment such exemption is necessary in the public interest. At the conclusion of each fiscal year the mayor shall report to the council the exemptions granted pursuant to this section.

g. This section shall not apply to capital projects of entities that are not city agencies unless fifty percent (50%) or more of the estimated cost of such project is to be paid for out of the city treasury. This exemption shall not apply to any capital project that receives ten million dollars ($10,000,000) or more out of the city treasury.

h. This section shall not apply to capital projects that have received capital dollars from the city treasury before January 1, 2007.

i. The mayor shall promulgate rules to carry out the provisions of this section.

The Committee on Rules, Privileges & Elections to which was referred on August 17, 2005 (Minutes, page 4001) the annexed communication respectfully

REPORTS:

Topic: *New York City Taxi and Limousine Commission - (Candidates for advice and consent of the Council)*

- *Edward Gonzales, M-650*
- *Howard Richard Vargas, Pre-considered-M-664*

The New York City Taxi and Limousine Commission ("TLC") was created pursuant to Local Law 12 of 1971. Section 2300 of Chapter 65 of the New York City Charter ("Charter") states that there shall be a TLC, the purposes of which shall be, inter alia, the "continuance, further development and improvement of taxi and limousine service in the City. It shall be the further purpose of the [TLC], consonant with the promotion and protection of the public comfort and convenience, to adopt and establish an overall public transportation policy governing taxi, coach, limousine and wheelchair accessible van services as it relates to the overall public transportation network of the City." The TLC is also responsible for establishing certain rates, standards and criteria for the licensing of vehicles, drivers and chauffeurs, owners and operators engaged in such services, and for providing "authorization" to persons to operate commuter van services within the City. *Rules of the City of New York*, Title 35, § 9-02.

The TLC consists of nine members appointed by the Mayor, all with the advice and consent of the New York City Council. Five of said members, one resident from each of the five boroughs of the City, are recommended for appointment by a majority vote of the Council Members of the respective borough. TLC members are appointed for terms of seven years, and can serve until the appointment and qualification of a successor. Vacancies, other than those that occur at the expiration of a term, shall be filled for the unexpired term. The Mayor may remove any such member for cause, upon stated charges.

The Mayor designates one member of the TLC to act as the Chairperson and Chief Executive Officer. The Chairperson shall have charge of the organization of his/her office and have authority to employ, assign and superintend the duties of such officers and employees as may be necessary to carry out the provisions of Chapter 65 of the Charter. The Charter provides that the Chairperson shall devote his/her full time to this position and, as such, receive compensation as set by the Mayor. The Chair currently receives $160,217 annually. Other members of the TLC are not entitled to compensation.

Pursuant to the Charter, all proceedings of the TLC and all documents and records in its possession shall be public records and the TLC shall make an annual report to the City Council on or before the second Monday of January in each year.

Upon appointment by the Mayor with the advice and consent of the Council, Mr. Gonzales, a resident of Queens, will be eligible to serve as a member of the TLC for the remainder of a seven-year term that expires on January 31, 2012. Mr. Gonzales will replace Mr. Harry Rubinstein who has been serving in a holdover capacity since January 31, 2005. Copies of Mr. Gonzales's resume and the proposed Committee report and resolution are annexed to this briefing paper.

Upon appointment by the Mayor with the advice and consent of the Council, Mr. Vargas, a resident of the Bronx, will be eligible to serve as a member of the TLC for the remainder of a seven-year term that expires on January 31, 2008. Mr. Vargas will fill a vacant position formerly held by Mr. Alberto Torres. Mr. Vargas was recommended for appointment by a majority vote of the Council Members of Bronx County. Copies of Mr. Vargas's resume and the proposed Committee report and resolution are annexed to this briefing paper.

RESOLUTIONS

The following are the respective Committee Reports for each of the Resolutions referred to the Council for a voice-vote pursuant to Rule 8.50 of the Council:

At this point the Speaker (Council Member Miller) announced that the following items had been **preconsidered** by the Committee on Finance and had been favorably reported for adoption.

Report for Res. No. 1149

Report of the Committee on Finance in favor of approving a Resolution calling upon the New York State Legislature to amend the New York Tax Law to give the City of New York the authority to replace its portion of the sales tax on motor fuel and diesel fuel with an excise tax, setting a flat/fixed cents per gallon tax rate.

The Committee on Finance to which was referred on September 15, 2005 the annexed resolution respectfully

REPORTS:

Today, the Committee on Finance, chaired by Council Member David Weprin, will hold a hearing on a Preconsidered Resolution which calls upon the New York State Legislature to amend the New York Tax Law (the "Tax Law") to give New York City the authority to replace its portion of the sales tax on motor fuel and diesel fuel with an excise tax.

Under current law, New York State and the federal government impose excise taxes on the sale, use, distribution or manufacture of gasoline and diesel fuel. These taxes are fixed amounts levied on a gallon of gasoline or diesel. In addition to such taxes, both the City and State impose a sales tax on the sale of such fuels. The sales tax, unlike the excise tax, is computed on the *selling price* of a gallon of gasoline or diesel fuel. As a result, in recent months when oil and gasoline prices have risen sharply, consumers in the City have been forced to pay more for both the actual cost of gasoline and the sales tax associated with such cost. This resolution has been introduced, according to its sponsor, to provide some relief to consumers in the City by substituting the current sales tax on gasoline with an excise tax. The excise tax, unlike the current sales tax, would be a flat/fixed cents per gallon rate.

BACKGROUND

The Rising Cost of Motor Fuel and Diesel Fuel

The devastation of Hurricane Katrina, coupled with recent volatility in the crude oil market and shutdown of a number of US refineries, has left gasoline, crude oil and heating oil prices at an almost all time high.[1] In the immediate aftermath of Hurricane Katrina, crude oil prices on the New York Mercantile Exchange hit a record-breaking level of $70.85 per barrel.[2]

The effects of these near-record prices have trickled down into parts of the consumer market. This is particularly noticeable in New York, the state which leads the country with highest local/state gasoline taxes.[3] Affected consumers in New York paid a state-wide average of $3.37 during the first week of September 2005. Compared to the same period a year earlier, gas prices in New York are 70% higher and consumers have been forced to pay an additional $1.30 per gallon of gasoline.[4]

High gasoline prices have been squeezing household budgets of low-income families requiring them to spend as much as 6% of their budget on energy costs, which includes gasoline.[5] This reflects an increase of almost 2% in just the last 3 years. Except for housing costs, low- and middle-income households spend more of their earnings on transportation than anything else.[6] With the rising price of gasoline, lower income families are hit the hardest since they are least able to adapt, yet, are in most need of reliable, affordable transportation.

New York State/Federal Taxes on Motor and Diesel Fuel

Under current law, the State of New York and federal government impose the following taxes on the distribution, manufacture, sale or use of diesel motor fuel and motor fuel in New York:

[1] *Gas Prices Soaring Before Holiday*, Peter J. Howe, Boston Globe, August 23, 2005

[2] The New York Times, *No Quick Fix for Gulf Oil Operations*, by Jad Mouawad, August 31, 2005.

[3] Money.cnn.com, *More States Mull Gas Tax Breaks*, by Jessica Seid, September 7, 2005. According the American Petroleum Institute, New York residents pay 62.9 cents in taxes alone per gallon of gasoline.

- Federal Excise Tax: Internal Revenue Code § 4081 imposes an 18.4 cents per gallon excise tax on gasoline and 24.4 cents per gallon excise tax on diesel fuel;

- Tax on Gasoline and Similar Motor Fuel: Pursuant to the Tax Law §§ 284-284-c; 282-282-c, the State imposes an excise tax of $.08 per gallon upon motor fuel which is produced, refined, or manufactured by a distributor in the State;

- Petroleum Testing Fee: Pursuant to Tax Law § 284-d, the State imposes a regulatory fee at the rate of of/2 of 1 mill per gallon upon motor fuel imported, manufactured or sold within this state by a distributor;

- Petroleum Business Tax: New York State imposes a business tax of $.152 per gallon of gasoline and $.1345 per gallon for diesel; and

- Spill Tax: New York State also collects a spill tax equal to 0.3 cents per gallon on gasoline and diesel.

Local and State Sales Taxes on Sale of Gasoline and Diesel Fuel in New York City

In addition to such state and federal excise taxes, there is a 4% state, 4% local and 0.375% Metropolitan Commuter Transportation District ("MCTD") sales tax imposed on the sale of gasoline and diesel in New York City. In contrast to the federal and state excise taxes that are fixed/flat amounts levied on a gallon of gasoline or diesel, the sales tax is calculated as a percentage of the selling price, computed at a current rate of 8.375% per gallon. If the selling price of a gallon of gasoline or diesel increases, so does the corresponding sales tax.

PRECONSIDERED RES. NO. This Preconsidered Reso. calls upon the New York State Legislature to amend the New York Tax Law to allow the City of New York to replace its 4% sales tax, imposed on the selling price of gasoline, with an excise tax that would be set a flat/fixed rate per gallon. This new legislation would provide some immediate relief to many New Yorkers, especially those low-income families who are unable to absorb the high price of gasoline, by reforming the current sales tax from a percentage rate, based off of the selling price of fuel that increases with the cost of gasoline, to a fixed/ flat rate. If enacted, a fixed/flat rate would not fluctuate with the price of gasoline so that if the price continues to climb, the cost of the tax would not.

Int. No. 710

By The Speaker (Council Member Miller) and Council Members Brewer, Fidler, Gennaro, Gentile, Gonzalez, Liu, Nelson, Sanders, Stewart, Vann, Weprin and Jackson.

A Local Law to amend the New York city charter, in relation creating incentives for city agencies to save energy.

Be it enacted by the Council as follows:

Section 1. Declaration of Legislative Findings and Intent. The municipal government is by far the City's largest energy consumer, together with the New York City Housing Authority accounting for more than 10% of the total energy consumed in the City. This amounts to more than 5 billion kilowatt-hours of electricity annually, at a cost of approximately $568 million. Reducing the City's electricity use will not only save money, but will also reduce stress on the power grid, reduce the need to build new power plants, and may improve local air quality. Unfortunately, however, agencies have no inherent financial incentive to reduce their electricity use.

Currently, each city agency has its own budget item(s) for Heat, Light, & Power (HLP). This is not an individual unit of appropriation, but, rather, an object code within one or more of their Other Than Personal Services (OTPS) units of appropriation. Money left in an agency's HLP budget (due, for example, to energy efficiency measures) could be used for any other purpose within the OTPS unit of appropriation. In addition, agencies can transfer up to 5% or $50,000, whichever is larger, of one unit of appropriation to another without seeking a budget modification. However, whenever an agency has unspent monies in a unit of appropriation, the operating procedure of the Office of Management and Budget generally requires that the money be returned to the general fund, rather than being available for other agency purposes. As a result, agencies have no incentive to save energy and reap no financial benefit from any energy-saving measures they employ.

Faced with similar problems, some states, including Arizona, Maine, Connecticut and Hawaii, have passed legislation allowing agencies to retain a share of any financial savings resulting from energy efficiency improvements. Doing so creates a clear incentive for state agencies to save energy and aligns the interests of agencies with those of the state. Accordingly, the Council declares it is reasonable and necessary to require the Office of Management and Budget to devise a similar program through which New York City agencies will share the financial savings resulting from energy savings.

§2. Chapter 10 of the New York city charter, as added by vote of the electors at the general election held on November 7, 1989, is amended by adding a new subdivision e to section 107 to read as follows:

e. By January 1, 2006, the office of management and budget shall develop an energy efficiency incentive program in which any city agency may, subject to appropriation, retain a portion of any energy cost savings demonstrably attributable to energy efficiency investments or other conservation measures undertaken by that agency. Said portion shall not be less than fifty per cent of the energy cost savings and shall accrue to the agency annually for a period equal to the useful life of the energy efficiency investments or, for conservation measures, for a period deemed appropriate by the office but, in any event, no less than three years.

§3. This local law shall take effect immediately upon enactment into law.

Referred to the Committee on Finance.

Res. No. 1147

Resolution determining that Proposed Int. No. 324-A, a Local Law to amend the New York city charter, in relation to green building standards for certain capital projects, will not have a significant adverse impact on the environment.

By The Speaker (Council Member Miller) and Council Members Gennaro, Gentile, Gerson, Gonzalez, Nelson, Sanders, Vann and Weprin.

Whereas, Pursuant to the New York State Environmental Quality Review Act (Article 8 of the New York State Environmental Conservation Law) and regulations promulgated thereunder in 6 NYCRR Part 617 and in accordance with Executive Order No. 91 of August 24, 1977, as modified by the Rules of Procedure for City Environmental Quality Review (62 RCNY § 5-01, *et seq.*), the Council has evaluated the appropriate criteria to determine the environmental significance of Proposed Int. 324-A, which is a local law to amend the New York city charter, in relation to green building standards for certain capital projects; and

Whereas, The attached Environmental Assessment Statement, including the attached Environmental Assessment Analysis of Int. No. 324-A, and Negative Declaration represent the findings and conclusions of the Council; now, therefore, be it

Resolved, That the Council of the City of New York hereby determines that the enactment of Proposed Int. 324-A, will not have a significant adverse impact on the environment.

Adopted by the Council (preconsidered and approved by the Committee on Housing and Buildings.)

Res. No. 1148

Resolution calling upon the State Legislature and the Governor to enact legislation amending the Retirement and Social Security Law to allow members of New York City's five pension systems on military leave and serving in Afghanistan and Iraq, and who are disabled as the natural and proximate result of an accident sustained in such service, to qualify for accidental disability benefits equal to three-quarters of their City salary.

By The Speaker (Council Member Miller) and Council Members Barron, Brewer, Comrie, Fidler, Gennaro, Gentile, Gerson, Gonzalez, Liu, Nelson, Sanders, Sears, Vann, Weprin, Addabbo Jr. and Jackson.

Whereas, According to the Mayor's Office of Veterans Affairs ("MOVA "), as many as 11,000 New York City residents have served in the military the last three years, with most believed to have been assigned to service in the current wars in Iraq and Afghanistan; and

Whereas, According to the Administration, approximately 1,500 City employees had been called to active duty since September 11, 2001; and

Whereas, According to news reports from mainstream media sources such as the *New York Times* and *Associated Press*, the Veterans Administration has dramatically underestimated the number of veterans nationwide who will need medical care, with around 100,000 veterans now being estimated to need such care, instead of the 23,553 veterans for whom medical care was originally budgeted; and

Whereas, In light of a July 2005 study commissioned by the United States military and undertaken by the Institute of Medicine of the National Academies, veterans may be exposed to chemical agents that leave them susceptible to conditions like cancer that may be diagnosed after many years; and

Whereas, Veterans returning to New York City may face particular difficulties readjusting to civilian life, compounded by, according to *Crains New York Business*, the noise, intensity and isolation of life in the City; and

Whereas, The City of New York has particular responsibility to support employees of the City who are serving in active combat; and

Whereas, State Law has recently been amended to grant accidental death benefits to City employees killed while serving on active duty; and

Whereas, Current pension provisions do not appear to provide benefits for City employees who may not be able to work on an on-going basis due to their service-related injuries; and

Whereas, It is both inconsistent and unfair to fail to provide pension benefits to those City employees serving on active duty who are disabled rather than killed while serving their Country; and

Whereas, Pursuant to the Retirement and Social Security Law, members of specified retirement systems in active service to New York City who are determined to be eligible for primary social security disability benefits and are disabled as the natural and proximate result of an accident sustained in such active service and not caused by such member's own willful negligence are entitled to an accidental disability benefit pension determined by law; and

Whereas, The highest such accidental disability benefit pension currently available is payable to uniformed City employees disabled in an accident sustained in City service and is equal to three-quarters of their final average salary; and

Whereas, Military service by New York City employees are of unquantifiable value to New York City and the United States and should be considered service to the City of New York for which accidental disability benefits are granted; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the State Legislature and the Governor to enact legislation amending the Retirement and Social Security Law to allow members of New York City's five pension systems on military leave and serving in Afghanistan and Iraq, and who are disabled as the natural and proximate result of an accident sustained in such service, to qualify for accidental disability benefits equal to three-quarters of their City salary.

Referred to the Committee on Civil Service and Labor.

Res. No. 1149

Resolution calling upon the New York State Legislature to amend the New York Tax Law to give the City of New York the authority to replace its portion of the sales tax on motor fuel and diesel fuel with an excise tax, setting a flat/fixed cents per gallon tax rate.

By Council Members Avella, The Speaker (Council Member Miller), Weprin, Gentile, Provenzano, Quinn, Oddo, Gennaro, Nelson, Gallagher, The Public Advocate (Ms. Gotbaum), Brewer, Comrie, Fidler, Gerson, James, McMahon, Palma, Sanders, Sears Arroyo and Koppell.

Whereas, Gas, crude oil and heating oil prices have reached an all time high all across our nation; and

Whereas, According to the *New York Times*, oil and gasoline prices rose sharply amid "reports of damage to oil production and refineries from Hurricane Katrina"; and

Whereas, Many U.S. companies are passing on their rising fuel costs to their customers; and

Whereas, The price of gasoline has risen 30 percent in New York City over the last year and skyrocketing crude oil prices are eating away at the incomes of New Yorkers; and

Whereas, According to *CNNMoney*; "it is lower income families that get hit the hardest, spending as much as six percent of their budget to drive their car to work..." and,

Whereas, Both the federal government and the New York State government impose flat/fixed rate taxes on motor fuel and diesel motor fuel at rates totaling 18.4 cents per gallon and 23.6 cents per gallon, respectively; and

Whereas, New York City consumers are also forced to pay an 8.375 percent sales tax, which includes a 4 percent New York City tax, based upon a percentage of the sales price of a gallon rather than a flat/fixed cents per gallon tax; and

Whereas, Given the tremendous increase in the cost of oil over the past few years, almost doubling in that period, consumers in New York City are not only being squeezed financially by the base price of oil, but are also being squeezed financially in relation to New York City's sales tax revenue that has gone up with the price of oil; now, therefore, be it

Resolved, That the New York City Council calls upon the New York State Legislature to amend the New York Tax Law to give the City of New York the authority to replace its portion of the sales tax on motor fuel and diesel fuel with an excise tax, setting a flat/fixed cents per gallon tax rate.

Adopted by the Council (preconsidered and approved by the Committee on Finance.)

Res. No. 1150

Resolution denouncing the grossly inadequate and extremely delayed response to the Hurricane Katrina crisis, and calling upon the President of the United States and the United States Congress to provide for a comprehensive, fully funded and effective national response effort, which includes the efficient coordination of aid and adequate support for the rebuilding of the area and lives of the people affected by this tragic event.

By Council Members Martinez, Barron, Clarke, Comrie, Fidler, Foster, Gerson, James, Liu, Palma, Quinn, Sanders, Sears, Stewart, Vann, Weprin and Jackson.

Whereas, On Monday, August 29, 2005, Hurricane Katrina barreled through the Gulf Coast states of the United States with devastating force, destroying both lives and property in Louisiana, Mississippi and Alabama; and

Whereas, Levees surrounding the City of New Orleans were so weakened by the hurricane that they gave way, flooding that historic city with the waters of Lake Pontchartrain, causing widespread death, destruction and human suffering; and

Whereas, The City of New York has great empathy for the devastated Gulf Coast region, having endured its own tragic disaster on September 11, 2001, when terrorist attacks destroyed the Twin Towers of the World Trade Center, killing thousands of people; and

Whereas, The loss of lives and enormous devastation that was caused by Hurricane Katrina makes this hurricane "the most significant natural disaster to hit" the United States, according to Federal Emergency Management Agency ("FEMA") official Bill Lokey, as reported in the August, 31, 2005 edition of the New York Post; and

Whereas, Louisiana Senator David Vitter has said that 10,000 people might have died in Louisiana alone, as of September 5, 2005; and

Whereas, Hundreds of thousands of people, including the population of the City of New Orleans, have been displaced from their homes; and

Whereas, The images of devastation from the Gulf Coast have profoundly shocked people across the country and the world; and

Whereas, Representative Maxine Waters of California stated that New Orleans "looks like an underdeveloped country," and at "(n)o time did I think in America we would see this kind of homelessness, this kind of displacement...(t)his is the worst thing I have ever seen;" and

Whereas, Coverage of Hurricane Katrina indicated that the federal government failed to adequately respond in the first days of the disaster; and

Whereas, According to various news reports, the federal government, particularly FEMA, waited hours after Hurricane Katrina struck before seeking approval from Homeland Security Secretary Michael Chertoff to send 1,000 federal relief workers into the region; and

Whereas, In another example of the tragic delay in providing appropriate help, news reports also indicate that the federal government waited over one week before accepting assistance in the form of medical supplies, cleanup equipment and personnel from foreign countries such as Canada; and

Whereas, Much suffering occurred in the days following the breach of the levies, including people who died or became very ill as a result of the flooding or the lack of food, water or needed medications, families who were separated in the turmoil, and crime which took place due to inadequate protection of the people of New Orleans; and

Whereas, New Orleans Mayor C. Ray Nagin captured the sentiments of many when he stated in broadcasts that "(t)oo many people died because of lack of action," and conveyed his belief that coordination failures and bureaucratic obstacles are no justification for the failure of the federal government to respond in a timely fashion, and that it was inexcusable for federal authorities to effectively stand by and allow the breakdown of civil society in New Orleans; and

Whereas, An early internal memorandum from the head of FEMA reflected no urgency in language in responding to the disaster, and placed emphasis on conveying

"a positive image of disaster operations," "maintain(ing) positive working relationships with disaster affected communities," and "collect(ing) and disseminat(ing) information to make referrals for appropriate assistance;" and

Whereas, FEMA conducted disaster relief exercises in 2004, responding to a mock hurricane that would spill over New Orleans' levees, destroying buildings and trapping residents, yet, apparently, such exercises failed to reveal problems that plagued the response to Hurricane Katrina, such as the inability to repair levee breaches rapidly, the inadequacy of the New Orleans Superdome as an emergency hosting site for evacuees and the breakdown of communications infrastructure; and

Whereas, The September 9, 2005 edition The Washington Post notes that the incorporation of FEMA into the Department of Homeland Security and the appointment of leaders without backgrounds in emergency management has severely limited emergency preparedness at that agency, thus also leaving the bulk of disaster mitigation work in the hands of state and local jurisdictions who may not have the resources to respond to disasters effectively; and

Whereas, The Washington Post also reported on September 9, 2005, that 5 of 8 top FEMA officials came to their posts with virtually no experience in handling disasters, and now lead an agency whose ranks of seasoned crisis managers have thinned dramatically; and

Whereas, Public statements by certain government leaders and images of the crisis offered by the media carelessly exacerbated a sense of alienation and fear among many people; and

Whereas, For example, in response to reports of looting, Louisiana Governor Kathleen Blanco made inflammatory statements, such as Arkansas National Guard troops under her command are "battle-tested," "have M-16's and they are locked and loaded," and "(t)hese troops know how to shoot and kill... and I expect they will;" and

Whereas, Additionally, the media described images of some African Americans taking food from a deserted store as looting without regard to the desperate conditions and the stark choices faced by survivors of this crisis; and

Whereas, Race and class played a role in the impact of Hurricane Katrina's devastation; and

Whereas, Dr. Beverly Wright of the Deep South Center for Environmental Justice notes that the population of New Orleans is 67 percent African-American, and that 50 percent of this figure lives below poverty; and

Whereas, Many of those who failed to evacuate the affected areas were unable to do so because they did not have a car or the financial means to leave; and

Whereas, The Bush Administration's failure to address the growing poverty and fragility of families in the United States contributed to the inability of tens of thousands of people to evacuate in response to the Hurricane warnings; and

Whereas, The Bush Administration has reduced or called for the reduction of many of the domestic safety nets needed to adequately support our readiness to respond to such national tragedies and support the well-being of the people of the United States; and

Whereas, Senate Majority Leader Bill Frist notes that initial relief and recovery operations could cost between $100 billion and $200 billion; and

Whereas, The destruction wrought by Hurricane Katrina raises a broad range of issues that the nation must address swiftly, including the need for housing, schooling and jobs for the many who were displaced, the unique problems faced by immigrants, economic and emotional support for the families and communities that were devastated, and a firm commitment to the physical cleanup and reconstruction of property that was destroyed; and

Whereas, As a city which found itself the recipient of national and international support and expressions of the spirit of humanity as a result of its own enormous tragedy that took place on September 11, 2001, an event that also caused great loss of life and destruction, the City of New York finds the federal government's response to the Hurricane Katrina victims wholly inadequate; now, therefore, be it

Resolved, That the Council of the City of New York denounces the grossly inadequate and extremely delayed response to the Hurricane Katrina crisis, and calls upon the President of the United States and the United States Congress to provide for a comprehensive, fully funded and effective national response effort, which includes the efficient coordination of aid and adequate support for the rebuilding of the lives of the people affected by this tragic event.

Resolution requesting that the Mayor of the City of New York send a budget modification to the City Council for $1 million to be appropriated to the American Red Cross to enable it to provide additional assistance in the Hurricane Katrina Relief Effort.

By Council Members McMahon, Baez, Fidler, Foster, Gennaro, Gentile, Gerson, Gonzalez, Nelson, Palma, Quinn, Sanders Jr., Vann, Lanza and Jackson.

Whereas, On August 29, 2005, Hurricane Katrina made landfall as a Category 4 hurricane near Grand Isle, Louisiana and the mouth of the Mississippi River; and

Whereas, Hurricane Katrina and its aftermath caused catastrophic damage, wiped out entire neighborhoods, displaced hundreds of thousands of residents in the southeastern United States, constituting the worst natural disaster in the history of the United States; and

Whereas, In the wake of the September 11th terrorist attacks, according to the New York City Fire Department (the "Department"), the State of Louisiana provided technical and monetary support for the City of New York by raising almost $1 million to purchase fire vehicles for the Department, including the "Spirit of Louisiana" which was dedicated to the Department in December 2002; and

Whereas, In a similar gesture of goodwill, New York City recently deployed over 300 police officers, 300 firefighters, and a convoy of fire vehicles led by the "Spirit of Louisiana" to Louisiana to aid in the rescue efforts; and

Whereas, According to State Department, the United States has received offers to aid in the humanitarian crisis triggered by Hurricane Katrina from more than 50 countries, including some of the world's poorest nations- such as Afghanistan, Bangladesh, and Honduras, and those countries hardest hit by the December 2004 tsunami including Thailand, Indonesia, Sri Lanka and India; and

Whereas, Although such assistance has been extremely beneficial, additional support is necessary to aid the public and private organizations, such as the American Red Cross, that have launched the largest mobilization of resources for a single natural domestic disaster and continue to provide relief for victims of Hurricane Katrina; and

Whereas, In light of the outpouring of worldwide support and Louisiana's generosity in the aftermath of September 11th, it is incumbent upon the City of New York to join together with countries from around the world and help victims of Hurricane Katrina; now, therefore, be it

Resolved, That the Council of the City of New York requests that the Mayor of the City of New York send a budget modification to the City Council for $1 million to be appropriated to the American Red Cross to enable it to provide additional assistance in the Hurricane Katrina Relief Effort.

Whereas, Beginning with the world's first dramatic performance held on the banks of the Nile River in 2000 B.C., live theater has established itself as an indispensable form of human expression; and

Whereas, Live theater in New York City dates back to well before the 1800's; and

Whereas, In 1891, the first electric marquis lit up a theatre located at the current site of the Flatiron Building, and ten years after this event, the theatre district in Manhattan would be so illuminated by white lights that O.J. Gaude would refer to it as the "great white way;" and

Whereas, The construction of theatres during the early 1900's would concentrate New York City's currently world-renowned theatre district, formerly spread out over more than 30 blocks, in midtown Manhattan; and

Whereas, During the 1940's, New York City saw the birth of Off-Broadway productions, with the growth of small theatres in Greenwich Village; and

Whereas, According to livebroadway.com, Broadway theatergoers purchased approximately 11.6 million tickets in the 2003–2004 season, which generated more than $770 million in gross revenues; and

Whereas, According to livebroadway.com, from June 2002 through June 2003, Broadway as an industry contributed $4.3 billion to the economy of New York City, comprised of $2.60 billion in impact from ancillary spending by Broadway-motivated visitors, $1.66 billion in impact from expenditures made to produce and run shows, and $42 million in impact from capital investment to the theatres; and

Whereas, Currently, there are approximately 1500 Off-Broadway and Off-Off Broadway productions in New York City, selling about 7 million tickets per year; and

Whereas, Live theater has also found its way to New York City's outer boroughs, with performances taking place at institutions such as the Brooklyn Academy of Music, Flushing Town Hall and Queens Theatre in the Park; and

Whereas, Live theater is an important community resource, enriching the cultural fabric of New York City by bringing to life ideas representing the complex diversity held by this region and the world and serving as a powerful force to dissolve misunderstandings and dispel stereotypes; and

Whereas, Live theater is a cherished art form within this community, one deserving continued public and private financial and moral support; now, therefore, be it

Int. No. 718

By Council Members Reed, The Speaker (Council Member Miller), Gennaro, Nelson, Brewer, Comrie, James, Liu, Palma and Recchia.

A Local Law to amend the administrative code of the city of New York, in relation to the administrative adjudications board.

Be it enacted by the Council as follows:

Section 1. Declaration of legislative findings and intent. The Council of the City of New York hereby finds that the Environmental Control Board ("ECB") requires modifications to its structure and hearing processes in order to provide greater fairness and more timely and effective decisions for City residents and business owners appearing before it. The Council, through its oversight functions and through receipt of numerous reports from persons who have appeared before the Environmental Control Board, has discerned alarming practices relating to ECB adjudications that raise serious questions as to whether respondents are treated fairly and accorded due process and also raises concerns that outcomes are not always based upon the merits of the matters adjudicated by the ECB. The Council seeks to address these shortcomings in an effort to provide a more fair administrative adjudicatory process that will engender greater confidence in and respect for the ECB's determinations and that will also serve to help foster an environment for business, especially small businesses to thrive in New York City. Additionally, as a means towards more appropriately reflecting the breadth of violations adjudicated before the ECB, the Council sees fit to rename the entity so that the simple fact that it is housed within the Department of Environmental Protection does not imply that environmental violations are the sole type of violation within its purview.

§2. Section 1-112 of the administrative code of the city of New York is amended by adding a new paragraph 22 to read as follows:

22. "Environmental control board". The administrative adjudications board.

In the event that a party chooses to seek judicial review without having first filed timely exceptions with the board, the decision of the administrative law judge shall be deemed to be the final decision and order of the board.*

§11. Subdivision a of section 24-187 of title 24 of the administrative code of the city of New York is amended to read as follows:

§24-187 Board decision and order. (a) If any party files exceptions to the decision of the [hearing officer or member of the board] *administrative law judge* conducting a hearing within the prescribed time, the board shall review the record and issue its decision and order in which it may adopt, modify, or reject the findings, conclusions, and recommendations of the [hearing officer or member of the board] *administrative law judge* who conducted the hearing.

§12. This local law shall take effect ninety days after its enactment into law except that the commissioner of environmental protection shall take such actions as are necessary to implement the provisions of this local law prior to such effective date.

Res. No. 1153

Resolution urging the United States Office of Immigration Customs Enforcement to exercise prosecutorial discretion and decline to pursue orders of removal or to carry out removal orders in exceptional situations where deportation would cause extreme hardship to individuals themselves, family or community members.

By Council Members Stewart, de Blasio, Liu, Barron, Brewer, Clarke, Comrie, Foster, Gerson, James, Martinez, Palma, Quinn, Weprin and Gennaro.

Whereas, Changes to immigration law made in 1996 dramatically reduced the amount of discretion immigration judges have to halt immigration enforcement proceedings in compelling situations and left discretion in the hands of immigration enforcement authorities, who must make decisions regarding when to pursue removal of undocumented immigrants from this country; and

Whereas, Given limited resources at their disposal, immigration authorities should focus on situations where seeking deportation serves current law enforcement purposes and where there are not compelling circumstances that cut against pursuing or enforcing a removal order and should exercise their discretion to decline to seek or enforce removal orders where the circumstances warrant; and

Whereas, Several cases that have recently gained attention in New York City suggest that immigration authorities are not giving adequate consideration to the health, safety and other compelling needs of individuals facing deportation, their families and their communities in making determinations about whether to pursue removal and enforcement of removal orders; and

Whereas, The case of Chibueze Okorie offers a clear example of this tendency; and

Whereas, Mr. Okorie came to this country on a tourist visa in 1989, seeking opportunity and determined to help support his mother and eight siblings in Nigeria; and

Whereas, Shortly after he arrived in New York, Mr. Okorie was convicted of a charge of possession with intent to distribute a controlled substance and sentenced to 18 months time served;

Whereas, Since he was released from prison and finished serving three years on supervisory parole in the early 1990s, Mr. Okorie has become an exceptionally valuable member of his community; and

Whereas, In 1991, Mr. Okorie became a member of the Church of Gethsemane, a unique congregation based in Park Slope, Brooklyn; he has devoted much of his life since then to serving the church and its congregants; and

Whereas, As Minister of Evangelism and an elder at the Church of the Gethsemane, Mr. Okorie has assisted hundreds of individuals who have been incarcerated, as well as their families; and

Whereas, Mr. Okorie recently spent two years studying at the New York Theological Seminary, from which he received a Certificate in Christian Ministry; and

Whereas, In 2004, Mr. Okorie established Community Central Re-Entry, a charitable, non-profit organization with the mission of providing crucial services to formerly incarcerated individuals to end the cycle of incarceration; and

Whereas, Mr. Okorie's work has focused on helping incarcerated individuals find productive ways to re-integrate into society and helping their families provide crucial support; and

Whereas, Mr. Okorie's valuable contributions have been recognized by numerous institutions, including the Council of the City of New York, which awarded him a citation as an outstanding citizen, as well as the New York City Chapter of the National Black and Presbyterian Caucus, the Developing Justice in South Brooklyn Project of the Fifth Avenue Committee and the Brooklyn Society for Ethical Culture; and

Whereas, Mr. Okorie has used his life story as a powerful tool in his work; he stands as a stellar example of someone who, through hard work and dedication to his ideals, has turned his life around; and

Whereas, Mr. Okorie's story brings hope to many incarcerated individuals who struggle to imagine how to reintegrate themselves into society in productive ways after serving their sentences; and

Whereas, Mr. Okorie has a very close relationship with his six year old son – Chigozie -- who is a United States citizen; losing contact with his father would be a severe hardship for Chigozie; and

Whereas, For many years, Mr. Okorie has provided crucial financial assistance to his mother and sisters and brothers in Nigeria, who rely upon this support; and

Whereas, Were Mr. Okorie to be forced to return to Nigeria, he would face great difficulty finding work that would enable him to support himself and his family; and

Whereas, Numerous religious leaders have leant their voices to support Mr. Okorie in his efforts to remain in this country; and

Whereas, At least twenty elected officials at the local, state and federal levels have written to the United States Immigration and Customs Enforcement Office to request relief that enables Mr. Okorie to remain in this country; and

Whereas, As an example, Senator Hillary Rodham Clinton wrote: "Mr. Okorie's story of rehabilitation after a criminal conviction, his unusual and enormous contributions to his community, and his strong and loving relationship with his United States citizen six-year-old son, strongly commend him as a case for favorable exercise of discretion;" and

Whereas, Andrea Marie Mortlock presents another powerful example of a case where deportation would cause extreme hardship and serve little law enforcement purpose so that exercise of discretion to halt enforcement of a deportation order would be appropriate; and

Whereas, In 1987, Ms. Mortlock was convicted of sale of a controlled substance and served a one year sentence;

Whereas, Ms. Mortlock's failure to attend an immigration hearing in 1995 led to the issuance of a deportation order in absentia; and

Whereas, Mr. Mortlock was held in immigration detention for almost three years before a federal judge ordered her release in 2003; and

Whereas, Ms. Mortlock has not been arrested or had any other contact with the criminal justice system since she was released from detention in 2003; since that time, she and her lawyer have reported regularly to immigration headquarters;

Whereas, Ms. Mortlock entered the United States as a lawful permanent resident at the age of 15 in 1979; and

Whereas, Ms. Mortlock has lived in the United States continuously since 1979 and she has no family in Jamaica; and

Whereas, Ms. Mortlock has two United States citizen children who live in New York; and

Whereas, Ms. Mortlock was diagnosed with HIV/AIDS in 1988; earlier this year, she was hospitalized with pneumonia and she now suffers from extreme wasting syndrome and neuropathy; and

Whereas, Ms. Mortlock was unexpectedly taken into custody on August 11 and sent to a Passaic County jail in Paterson, New Jersey, where she was held until September 13, during which time she was not able to see her physician and reported that she missed some medications and did not regularly get essential dietary supplements; and

Whereas, Although Ms. Mortlock was released from custody on September 13, authorities at the United States Office of Immigration Customs Enforcement have not indicated that they intend to stop pursuing her deportation; and

Whereas, Were Ms. Mortlock deported, she would not have access to critical nutritional supplements and growth hormones that have helped to stabilize her condition; and

Whereas, Ms. Mortlock's physician predicts that "missing [her] medications will lead to rapid progression and death;" and

Whereas, The cases of Mr. Okorie and Ms. Mortlock are two examples of current cases that present compelling circumstances that call for the exercise of prosecutorial discretion to stop the removal process; now, therefore, be it

Resolved, That the Council of the City of New York urges the United States Office of Immigration Customs Enforcement to exercise prosecutorial discretion and decline to pursue orders of removal or to carry out removal orders in exceptional situations where deportation would cause extreme hardship to individuals themselves, family or community members.

NOTICE OF PUBLIC SCOPING
NEW STAPLETON WATERFRONT DEVELOPMENT PROJECT

Office of the Deputy Mayor for Economic Development and Rebuilding

NOTICE IS HEREBY GIVEN THAT, pursuant to Section 5-07 (b) of the Rules of Procedure of the New York City Charter, a public scoping meeting will be held on **Wednesday, November 30, 2005, at the Former Homeport, located at 455 Front Street (at the intersection of Canal Street), Staten Island, New York, at 5:00 p.m.**, as submitted by the New York City Economic Development Corporation on behalf of the Office of the Deputy Mayor for Economic Development and Rebuilding, to hear comments from the public regarding the proposed scope of work for the Environmental Impact Statement (EIS) for the New Stapleton Waterfront Development Plan.

The Project Area includes the former United States Navy Homeport, generally bounded by the approximate extension of St. Julian Place to the north, Front Street to the west, Vanderbilt Avenue to the south, and Upper New York Bay to the east (the Homeport Site), and the adjacent properties located between Hannah Street to the north, the Staten Island Rapid Transit (SIRT) tracks to the west, Willow Avenue to the south, and the waterfront to the east.

The New Stapleton Waterfront Development Project is a plan for the redevelopment of the former Homeport Navy base along the waterfront in the Stapleton section of Staten Island. The development project is the result of a public planning effort by the Mayor's Homeport Task Force, a working group comprised of city and elected officials and community and business representatives. The New Stapleton Waterfront Development Project is a mixed-use plan combining residential, local retail, restaurant/event space, sports complex, commercial uses. The development is expected to total approximately 682,500 square feet. The project also includes the creation of a waterfront esplanade and open spaces, the reconstruction of Front Street, which borders the site to the west, and site preparation to establish developable parcels within the site.

Implementation of the proposed development project requires several land use approvals subject to the ULURP process, including zoning map changes, zoning text changes, the disposition of city-owned property and changes to the City Map. In addition to the Homeport Site, the rezoning includes the blocks immediately west of the site between the SIRT tracks and Front Street, which could result in approximately 343,000 square feet of residential and local retail development.

The purpose of the scoping meeting is to provide the public with the opportunity to comment on the scope of analysis proposed to be included in the EIS for the referenced project. A copy of the Scoping Document for the project may be obtained by any member of the public from:

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

§ 2. Subdivision (b) of section 5-05 of chapter 5 of title 28 of the Rules of the City of New York is amended to read as follows:

(b) Preliminary application. All applicants who intend to apply for tax exemption and tax abatement when they complete conversion, alteration or improvements must file a notice of intent form (form J-11) with the Department of Finance which describes the work for which tax benefits will be claimed, estimates the cost of the work for which tax benefits will be claimed and estimates the cost of the work which will be eligible for tax benefits. Such form must be filed not less than 45 days prior to the commencement of construction. If the scope of the work or the estimated cost changes materially, applicants must file a revised form with the Department of Finance. Applicants who fail to comply with the provisions of this subdivision (b) must pay a penalty at the time of issuance of a Certificate of Eligibility and Reasonable Cost of five hundred dollars ($500) plus an

amount equal to one percent (1%) of the amount stated on the Certificate of Eligibility and Reasonable Cost in excess of ten thousand dollars ($10,000), provided that HPD may waive the penalty for projects receiving substantial governmental assistance. The penalty prescribed by this §5-05(b) is in addition to the normal filing fees prescribed in §5-05(f). Notwithstanding the foregoing, an applicant who performs an abatement of lead-based paint hazards shall not be required to file a notice of intent form (form J-11) with the Department of Finance prior to commencement of work, and no additional fee or penalty shall be due and owing HPD at the time of issuance of a certificate of eligibility and reasonable cost for failure to file such notice of intent.

§ 3. Items 13a and 13b of the Itemized Cost Breakdown Schedule contained in section 5-08 of chapter 5 of title 28 of the Rules of the City of New York, and accompanying footnote 5a, are hereby deleted, and Item 13 of such Itemized Cost Breakdown Schedule, and accompanying footnote 5, are hereby amended to read as follows:

21. Maximum of one per apartment unless the apartment has two or more bathrooms.

Statement of Basis and Purpose: The proposed rule amendments implement local law number 74 for the year 2005. Local Law No. 74 amended Section 11-243 of the New York City Administrative Code (the "J-51 Law") by extending J-51 tax benefits for the abatement of lead-based paint hazards in common areas as well as in an existing dwelling unit even if such unit is vacant, thereby also eliminating the requirement that the eligible unit be occupied by a child under the age of seven. The local law also requires HPD to establish two schedules of certified reasonable costs for items that are included in an abatement of lead-based paint hazards, one for targeted areas and one for non-targeted areas. Such schedules must be promulgated within 180 days of the effective date of Local Law 74, shall be used for any such abatements that are commenced on or after August 2, 2004, and must be reviewed biennially. Finally, Local Law 74 eliminates the notice of intent requirement for the commencement of lead-based paint abatement work as well as the additional fee or penalty imposed for failure to file such notice with the Department of Finance at least 45 days prior to the commencement of such work.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists–free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Administering agent

The "administering agent" is the entity or entities identified in the #lower income housing plan# as responsible for ensuring compliance with such plan.

The #administering agent# shall be a not-for-profit organization, unless the Commissioner of Housing Preservation and Development finds that a good faith effort by the developer of the #compensated development# to secure a qualified not-for-profit organization as the #administering agent# was unsuccessful, or, in Community District 1, Borough of Brooklyn, if the #floor area# of the #standard units# comprising the #lower income housing# constitutes less than half of the total #residential floor area# or community facility #floor area# used as a not-for-profit institution with sleeping accommodations in the #building#. However, in Community District 7, Borough of Brooklyn, the Commissioner may approve an entity that is responsible for compliance monitoring pursuant to city, state, or federal funding sources, to serve as the #administering agent# during such compliance period.

Fair rent

At initial occupancy of #lower income housing#, "fair rent" (the "Section 8 Standard") is an annual rent for each such housing equal to not more than either the public assistance shelter allowance if the #family# receives public assistance, or 30 percent of the annual income of the tenant of such housing, provided that such tenant is a #lower income household# at the time of initial occupancy pursuant to the provisions of this program.

Upon renewal of a lease for an existing tenant in #lower income housing#, #fair rent# (the "Rent Stabilization Standard") is not more than the then-current #fair rent# for such housing plus a percentage increase equal to the percentage increase for a renewal lease of the same term permitted by the Rent Guidelines Board for units subject to the rent stabilization law.

After initial occupancy, upon rental of #lower income housing# to a new tenant, #fair rent# is not more than the higher of:

(a) the then-currently applicable "Section 8 Standard"; or

(b) the Rent Stabilization Standard.

In order for rent to be #fair rent#, the following must also apply:

There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income household# responsible for the payment of utilities as long as the sum of:

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment do not exceed 30 percent of said #lower income household's# income.

However, in Community Districts 1 and 7, Borough of Brooklyn, the Commissioner of Housing Preservation and Development may determine that rents satisfying the requirements of City, State or Federal programs assisting #lower income housing# will be considered #fair rent#, provided that such rents do not exceed 30 percent of #lower income household's# income, as applicable, and provided further that upon expiration or termination of the requirements of the City, State or Federal program, rent increases and re-rentals shall be subject to the higher of the then-currently applicable Section 8 Standard or the Rent Stabilization Standard.

At initial occupancy of any #lower income housing#, no portion of the #fair rents# shall be for the payment of the principal or interest on any debt, and the #lower income housing# shall not secure any debt and shall be free of all liens, except liens for real estate taxes, water charges and sewer rents and other governmental charges for which payment is not yet due. #Fair rents# may be used for the payment of principal or interest of debt only if such debt was incurred after the date of initial occupancy and is for a capital improvement to such #lower income housing# other than those capital improvements set forth in the #lower income housing plan#.

In Community Districts 1 and 7, Borough of Brooklyn, at initial occupancy of any #lower income housing#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95, paragraph(c), and provided that the lender agrees to enter into a written agreement which subordinates such debt to the provisions of the #lower income housing plan#.

Lower income household

A "lower income household" is a #family# having an income equal to or less than the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U.S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

In Community Districts 1 and 7, Borough of Brooklyn, #lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City or State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with U. S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.

Lower income housing

"Lower income housing" are #standard units# occupied or to be occupied by #lower income households#. #Lower income housing# shall not include #standard units# assisted under city, state or federal programs, except where such assistance is in the form of:

(a) real estate tax abatements and exemptions which are specifically limited to the #lower income housing#; or

(b) operating assistance that the Commissioner of the Department of Housing Preservation and Development determines will be used to enable households with incomes of not more than 62.5 percent of the "80 Percent of SMSA Limits" to afford such #lower income housing#.

However, in Community Districts 1 and 7, Borough of Brooklyn, #lower income housing# shall include #standard units# assisted under City, State or Federal programs.

23-942
In Community Districts 1 and 7, Borough of Brooklyn

The provisions of this Section 23-942 shall apply in the designated areas set forth in Section 23-922, except within Waterfront Access Plan BK-1.

The #floor area# of a #development# or #enlargement# may not exceed the base #floor area ratio# set forth in the table below, except that such #floor area# may be increased by one and one-quarter square feet for each square foot of #floor area# provided for #lower income housing#, up to the maximum #floor area ratio# specified in the table in this Section. However, in Community District 7, Borough of Brooklyn, the amount of #lower income housing# required to receive such bonus #floor area# need not exceed 20 percent of the total #floor area#, exclusive of ground floor non-#residential floor area#, in the #building#.

District	Base #floor area ratio#	Maximum #floor area ratio#
R6B	2.0	2.2
R6*	2.2	2.42
R6A	2.7	3.6
R6**	2.7	3.6

R8A	5.4	7.2

* for #zoning lots#, or portions thereof, beyond 100 feet of a #wide street#
** for #zoning lots#, or portions thereof, within 100 feet of a #wide street#

In addition, the following rules shall apply:

(a) The compensated #building# must be #developed# or #enlarged# pursuant to the Quality Housing Program or, in #Special Mixed Use Districts#, pursuant to paragraph (b) of Section 123-662; and

(b) The #lower income housing# must be provided in accordance with the provisions set forth in Section 23-95 (Lower Income Housing Requirements).

23-95
Lower Income Housing Requirements

* * *

(f) Permits and certificates of occupancy

No building permit for the #compensated development# shall be issued until the Commissioner of Housing Preservation and Development certifies that an acceptable #lower income housing plan# has been filed and approved.

No temporary certificate of occupancy shall be issued for any part of the #compensated development# until a temporary certificate of occupancy for each unit of #lower income housing# has been issued or, in Community District 7, Borough of Brooklyn, if the #building# has a valid certificate of occupancy and no new certificate of occupancy is required under the preservation option, until the Commissioner has certified to the Department of Buildings that the applicant has fulfilled its obligations with respect to the #lower income housing#. No permanent certificate of occupancy shall be issued for any part of the #compensated development# until a permanent certificate of occupancy for each unit of the #lower income housing# has been issued or, in Community District 7, Borough of Brooklyn, if the #building# has a valid certificate of occupancy and no new certificate of occupancy is required under the preservation option, until the Commissioner has certified to the Department of Buildings that the applicant has fulfilled its obligations with respect to the #lower income housing#. Prior to the issuance of any temporary or permanent certificate of occupancy for the #compensated development#, the Commissioner of Housing Preservation and Development shall certify that the #lower income housing# is in compliance with the #lower income housing plan#.

(g) Insurance

The #administering agent# of the #lower income housing# shall have said housing insured against any damage or destruction in an amount equal to no less than the replacement value of such housing.

Any insurance proceeds received as a result of damage or destruction of all or part of such housing shall be used first for restoring such damaged or destroyed housing to #lower income housing#, free of violations under the New York City Building Code, the New York State Multiple Dwelling Law, the New York City Housing Maintenance Code and this Resolution. However, in Community Districts 1 and 7, Borough of Brooklyn, the Commissioner of Housing Preservation and Development may modify this requirement to provide priority for lenders participating in the financing of #lower income housing# that is assisted under City, State or Federal programs.

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(b) #Dwelling units# designated as #lower income housing# shall be distributed throughout the #development#. No #story# shall contain more than two such units unless at least 80 percent of all #stories# contain two such units. under 600 net square feet
600 - 749 net square feet

950 - 1149 net square feet

23-952

To qualify for one or more of these options, the designated #lower income housing# shall meet the following requirements:

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

Such notice shall seek public comment regarding whether there has been #harassment# of the lawful occupants of such #multiple dwelling# from the #referral date# to the date of submission of comments. If the Department of Housing Preservation and Development receives comments containing material evidence that #harassment# occurred on or after the #referral date# and more than fifteen years prior to the #application date#, the Department of Housing Preservation and Development shall, in accordance with paragraph (a)(8) of this Section, set the commencement of the #inquiry period# on a date prior to the date of such alleged harassment.

7. The Department of Housing Preservation and Development shall determine whether there is reasonable cause to believe that #harassment# has occurred during the #inquiry period#.

8. The Department of Housing Preservation and Development may deny a #certification of no harassment# without a prior hearing if there has been a finding by the Division of Housing and Community Renewal or any court having jurisdiction that there has been harassment, unlawful eviction or arson at the #multiple dwelling# during the #inquiry period#.

(d) Certification of Cure For Harassment

(iv) The Department of Buildings shall include the occupancy restrictions of the #restrictive declaration# in any temporary or permanent certificate of occupancy for any new or existing structure or portion thereof on the #cure requirement lot#, except where the management and operation of the #cure compliance lot# is wholly controlled by, and the #restrictive declaration# requires that management and operation of the #cure compliance lot# remain wholly controlled by, an independent not-for-profit administering agent that is not affiliated with the owner of the #cure requirement lot#. Failure to comply with the terms and conditions set forth in the #restrictive declaration# shall constitute a violation, and a basis for revocation, of any certificate of occupancy containing such restriction.

~~(3) no portion of the lower income housing provided pursuant to paragraph (c) of this Section may be used to increase the #floor area ratio# of a #zoning lot# pursuant to Section 96-21 or Section 23-90.~~

~~(d) For the purposes of this Chapter, "harassment" (including other failure to satisfy applicable legal requirements in eviction and relocation practices) shall mean any conduct, as described below, by or on behalf of an owner of a #building# containing #dwelling units# or #rooming units# which materially advanced #development#, #enlargement#, demolition of a #building#, the conversion or alteration of a #building# or the #extension# of a #use# within a #building#, in the furtherance of which the permit is sought:~~

~~(1) the use or threatened use of force which causes or is intended to cause any person lawfully entitled to occupancy of a #dwelling unit# or #rooming unit# in such multiple dwelling to vacate such unit or to surrender or waive any rights in relation to such occupancy;~~

~~(2) the interruption or discontinuance of essential services which:~~

~~(i) interferes with or disturbs or is intended to interfere with or disturb the comfort, repose, peace or quiet of any person lawfully entitled to occupancy of a #dwelling unit# or #rooming unit# in the use or occupancy of such #dwelling unit# or #rooming unit#; and~~

~~(4) any other conduct which prevents or is intended to prevent any person from the lawful occupancy of such #dwelling unit# or #rooming unit# or causes or is intended to cause such person lawfully entitled to occupancy of such #dwelling unit# to vacate such unit or to surrender or waive any rights in relation to such occupancy, including but not limited to removing the possessions of any occupant from the #dwelling unit# or #rooming unit#, removing the door at the entrance to the #dwelling unit# or #rooming unit#, removing, plugging or otherwise rendering the lock on such entrance door inoperable, or changing the lock on such entrance door without supplying the occupant with a key.~~

~~For any alleged act of harassment which has taken place within 15 years of the date of filing an application for a building permit or special permit pursuant to Sections 96-107, 96-108, 96-109, 96-23 or 96-24, there shall be a presumption, rebuttable by the applicant, that the harassment materially advanced the #development# on the #zoning lot# or the #enlargement#, #extension#, conversion or alteration of the existing #building# in furtherance of which the permit is sought.~~

~~Such determination of harassment for the purpose of this Chapter shall be made by the Department of Housing Preservation and Development after a hearing in accordance with applicable statutes and regulations, prior to certification of compliance with the aforementioned Sections 96-107, 96-108, 96-109, 96-23 or 96-24.~~

NOTICE OF PUBLIC SCOPING
NEW STAPLETON WATERFRONT DEVELOPMENT PROJECT

Office of the Deputy Mayor for Economic Development and Rebuilding

NOTICE IS HEREBY GIVEN THAT, pursuant to Section 5-07 (b) of the Rules of Procedure of the New York City Charter, a public scoping meeting will be held on **Wednesday, November 30, 2005, at the Former Homeport, located at 455 Front Street (at the intersection of Canal Street), Staten Island, New York, at 5:00 p.m.**, as submitted by the New York City Economic Development Corporation on behalf of the Office of the Deputy Mayor for Economic Development and Rebuilding, to hear comments from the public regarding the proposed scope of work for the Environmental Impact Statement (EIS) for the New Stapleton Waterfront Development Plan.

The Project Area includes the former United States Navy Homeport, generally bounded by the approximate extension of St. Julian Place to the north, Front Street to the west, Vanderbilt Avenue to the south, and Upper New York Bay to the east (the Homeport Site), and the adjacent properties located between Hannah Street to the north, the Staten Island Rapid Transit (SIRT) tracks to the west, Willow Avenue to the south, and the waterfront to the east.

The New Stapleton Waterfront Development Project is a plan for the redevelopment of the former Homeport Navy base along the waterfront in the Stapleton section of Staten Island. The development project is the result of a public planning effort by the Mayor's Homeport Task Force, a working group comprised of city and elected officials and community and business representatives. The New Stapleton Waterfront Development Project is a mixed-use plan combining residential, local retail, restaurant/event space, sports complex, commercial uses. The development is expected to total approximately 682,500 square feet. The project also includes the creation of a waterfront esplanade and open spaces, the reconstruction of Front Street, which borders the site to the west, and site preparation to establish developable parcels within the site.

Implementation of the proposed development project requires several land use approvals subject to the ULURP process, including zoning map changes, zoning text changes, the disposition of city-owned property and changes to the City Map. In addition to the Homeport Site, the rezoning includes the blocks immediately west of the site between the SIRT tracks and Front Street, which could result in approximately 343,000 square feet of residential and local retail development.

The purpose of the scoping meeting is to provide the public with the opportunity to comment on the scope of analysis proposed to be included in the EIS for the referenced project. A copy of the Scoping Document for the project may be obtained by any member of the public from:

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

Administering agent

The "administering agent" is the entity or entities identified in the #lower income housing plan# as responsible for ensuring compliance with such plan.

The #administering agent# shall be a not-for-profit organization, unless the Commissioner of Housing Preservation and Development finds that a good faith effort by the developer of the #compensated development# to secure a qualified not-for-profit organization as the #administering agent# was unsuccessful, or, in Community District 1, Borough of Brooklyn, if the #floor area# of the #standard units# comprising the #lower income housing# constitutes less than half of the total #residential floor area# or community facility #floor area# used as a not-for-profit institution with sleeping accommodations in the #building#. However, in Community District 7, Borough of Brooklyn, the Commissioner may approve an entity that is responsible for compliance monitoring pursuant to city, state, or federal funding sources, to serve as the #administering agent# during such compliance period.

Fair rent

At initial occupancy of #lower income housing#, "fair rent" (the "Section 8 Standard") is an annual rent for each such housing equal to not more than either the public assistance shelter allowance if the #family# receives public assistance, or 30 percent of the annual income of the tenant of such housing, provided that such tenant is a #lower income household# at the time of initial occupancy pursuant to the provisions of this program.

Upon renewal of a lease for an existing tenant in #lower income housing#, #fair rent# (the "Rent Stabilization Standard") is not more than the then-current #fair rent# for such housing plus a percentage increase equal to the percentage increase for a renewal lease of the same term permitted by the Rent Guidelines Board for units subject to the rent stabilization law.

After initial occupancy, upon rental of #lower income housing# to a new tenant, #fair rent# is not more than the higher of:

(a) the then-currently applicable "Section 8 Standard"; or

(b) the Rent Stabilization Standard.

In order for rent to be #fair rent#, the following must also apply:

There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income household# responsible for the payment of utilities as long as the sum of:

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment do not exceed 30 percent of said #lower income household's# income.

However, in Community Districts 1 and 7, Borough of Brooklyn, the Commissioner of Housing Preservation and Development may determine that rents satisfying the requirements of City, State or Federal programs assisting #lower income housing# will be considered #fair rent#, provided that such rents do not exceed 30 percent of #lower income household's# income, as applicable, and provided further that upon expiration or termination of the requirements of the City, State or Federal program, rent increases and re-rentals shall be subject to the higher of the then-currently applicable Section 8 Standard or the Rent Stabilization Standard.

At initial occupancy of any #lower income housing#, no portion of the #fair rents# shall be for the payment of the principal or interest on any debt, and the #lower income housing# shall not secure any debt and shall be free of all liens, except liens for real estate taxes, water charges and sewer rents and other governmental charges for which payment is not yet due. #Fair rents# may be used for the payment of principal or interest of debt only if such debt was incurred after the date of initial occupancy and is for a capital improvement to such #lower income housing# other than those capital improvements set forth in the #lower income housing plan#.

In Community Districts 1 and 7, Borough of Brooklyn, at initial occupancy of any #lower income housing#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95, paragraph(c), and provided that the lender agrees to enter into a written agreement which subordinates such debt to the provisions of the #lower income housing plan#.

Lower income household

A "lower income household" is a #family# having an income equal to or less than the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U.S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

In Community Districts 1 and 7, Borough of Brooklyn, #lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City or State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with U. S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.

Lower income housing

"Lower income housing" are #standard units# occupied or to be occupied by #lower income households#. #Lower income housing# shall not include #standard units# assisted under city, state or federal programs, except where such assistance is in the form of:

(a) real estate tax abatements and exemptions which are specifically limited to the #lower income housing#; or

(b) operating assistance that the Commissioner of the Department of Housing Preservation and Development determines will be used to enable households with incomes of not more than 62.5 percent of the "80 Percent of SMSA Limits" to afford such #lower income housing#.

However, in Community Districts 1 and 7, Borough of Brooklyn, #lower income housing# shall include #standard units# assisted under City, State or Federal programs.

However, in Community District 7, Borough of Brooklyn, the amount of #lower income housing# required to receive such bonus #floor area# need not exceed 20 percent of the total #floor area#, exclusive of ground floor non-#residential floor area#, in the #building#.

If an entity other than a not-for-profit organization is proposed to serve as the #administering agent#, and the affected Community Board objects during its review period to the approval of the proposed entity, the Commissioner shall respond in writing to the Community Board's objections prior to approving the proposed entity to serve as #administering agent#.

~~(d) For the purposes of this Chapter, "harassment" (including other failure to satisfy applicable legal requirements in eviction and relocation practices) shall mean any conduct, as described below, by or on behalf of an owner of a #building# containing #dwelling units# or #rooming units# which materially advanced #development#, #enlargement#, demolition of a #building#, the conversion or alteration of a #building# or the #extension# of a #use# within a #building#, in the furtherance of which the permit is sought:~~

~~(1) the use or threatened use of force which causes or is intended to cause any person lawfully entitled to occupancy of a #dwelling unit# or #rooming unit# in such multiple dwelling to vacate such unit or to surrender or waive any rights in relation to such occupancy;~~

~~(2) the interruption or discontinuance of essential services which:~~

~~(i) interferes with or disturbs or is intended to interfere with or disturb the comfort, repose, peace or quiet of any person lawfully entitled to occupancy of a #dwelling unit# or #rooming unit# in the use or occupancy of such #dwelling unit# or #rooming unit#; and~~

~~(3) the failure to comply with the provisions of subdivision (e) of Section 27-2140 of Article 7 of subchapter 5 of the Housing Maintenance Code which causes or is intended to cause such person lawfully entitled to occupancy of such #dwelling unit# or #rooming unit# to vacate such unit or to waive any rights in relation to such occupancy; or~~

~~(4) any other conduct which prevents or is intended to prevent any person from the lawful occupancy of such #dwelling unit# or #rooming unit# or causes or is intended to cause such person lawfully entitled to occupancy of such #dwelling unit# to vacate such unit or to surrender or waive any rights in relation to such occupancy, including but not limited to removing the possessions of any occupant from the #dwelling unit# or #rooming unit#; removing the door at the entrance to the #dwelling unit# or #rooming unit#; removing, plugging or otherwise rendering the lock on such entrance door inoperable; or changing the lock on such entrance door without supplying the occupant with a key.~~

~~For any alleged act of harassment which has taken place within 15 years of the date of filing an application for a building permit or special permit pursuant to Sections 96-107, 96-108, 96-109, 96-23 or 96-24, there shall be a presumption, rebuttable by the applicant, that the harassment materially advanced the #development# on the #zoning lot# or the #enlargement#, #extension#, conversion or alteration of the existing #building# in furtherance of which the permit is sought.~~

~~Such determination of harassment for the purpose of this Chapter shall be made by the Department of Housing Preservation and Development after a hearing in accordance with applicable statutes and regulations, prior to certification of compliance with the aforementioned Sections 96-107, 96-108, 96-109, 96-23 or 96-24.~~

~~Notwithstanding anything set forth in this Section, no act of harassment which occurred prior to September 5, 1973, shall constitute harassment for the purposes of this Chapter.~~

NOTICE OF PUBLIC SCOPING
NEW STAPLETON WATERFRONT DEVELOPMENT PROJECT

Office of the Deputy Mayor for Economic Development and Rebuilding

NOTICE IS HEREBY GIVEN THAT, pursuant to Section 5-07(b) of the Rules of Procedure of the New York City Charter, a public scoping meeting will be held on **Wednesday, November 30, 2005, at the Former Homeport, located at 455 Front Street (at the intersection of Canal Street), Staten Island, New York, at 5:00 p.m.,** as submitted by the New York City Economic Development Corporation on behalf of the Office of the Deputy Mayor for Economic Development and Rebuilding, to hear comments from the public regarding the proposed scope of work for the Environmental Impact Statement (EIS) for the New Stapleton Waterfront Development Plan.

The Project Area includes the former United States Navy Homeport, generally bounded by the approximate extension of St. Julian Place to the north, Front Street to the west, Vanderbilt Avenue to the south, and Upper New York Bay to the east (the Homeport Site), and the adjacent properties located between Hannah Street to the north, the Staten Island Rapid Transit (SIRT) tracks to the west, Willow Avenue to the south, and the waterfront to the east.
The New Stapleton Waterfront Development Project is a plan for the redevelopment of the former Homeport Navy base along the waterfront in the Stapleton section of Staten Island. The development project is the result of a public planning effort by the Mayor's Homeport Task Force, a working group comprised of city and elected officials and community and business representatives. The New Stapleton Waterfront Development Project is a mixed-use plan combining residential, local retail, restaurant/event space, sports complex, commercial uses. The development is expected to total approximately 682,500 square feet. The project also includes the creation of a waterfront esplanade and open spaces, the reconstruction of Front Street, which borders the site to the west, and site preparation to establish developable parcels within the site.

Implementation of the proposed development project requires several land use approvals subject to the ULURP process, including zoning map changes, zoning text changes, the disposition of city-owned property and changes to the City Map. In addition to the Homeport Site, the rezoning includes the blocks immediately west of the site between the SIRT tracks and Front Street, which could result in approximately 343,000 square feet of residential and local retail development.

The purpose of the scoping meeting is to provide the public with the opportunity to comment on the scope of analysis proposed to be included in the EIS for the referenced project. A copy of the Scoping Document for the project may be obtained by any member of the public from:

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

Once constructed, the Shaft would be an unmanned, underground facility capable of conveying water from City Tunnel No. 3 to the surface distribution system. The Shaft 33B Draft Environmental Impact Statement (Draft EIS) is available for review at the below listed repositories. In addition, the Draft EIS is available on CD-ROM and is posted on the NYCDEP's website at http://www.nyc.gov/dep. READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Administering agent

The "administering agent" is the entity or entities identified in the #lower income housing plan# as responsible for ensuring compliance with such plan.

The #administering agent# shall be a not-for-profit organization, unless the Commissioner of Housing Preservation and Development finds that a good faith effort by the developer of the #compensated development# to secure a qualified not-for-profit organization as the #administering agent# was unsuccessful, or, in Community District 1, Borough of Brooklyn, if the #floor area# of the #standard units# comprising the #lower income housing# constitutes less than half of the total #residential floor area# or community facility #floor area# used as a not-for-profit institution with sleeping accommodations in the #building#. However, in Community District 7, Borough of Brooklyn, the Commissioner may approve an entity that is responsible for compliance monitoring pursuant to city, state, or federal funding sources, to serve as the #administering agent# during such compliance period.

Fair rent

At initial occupancy of #lower income housing#, "fair rent" (the "Section 8 Standard") is an annual rent for each such housing equal to not more than either the public assistance shelter allowance if the #family# receives public assistance, or 30 percent of the annual income of the tenant of such housing, provided that such tenant is a #lower income household# at the time of initial occupancy pursuant to the provisions of this program.

Upon renewal of a lease for an existing tenant in #lower income housing#, #fair rent# (the "Rent Stabilization Standard") is not more than the then-current #fair rent# for such housing plus a percentage increase equal to the percentage increase for a renewal lease of the same term permitted by the Rent Guidelines Board for units subject to the rent stabilization law.

After initial occupancy, upon rental of #lower income housing# to a new tenant, #fair rent# is not more than the higher of:

(a) the then-currently applicable "Section 8 Standard"; or

(b) the Rent Stabilization Standard.

In order for rent to be #fair rent#, the following must also apply:

There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income household# responsible for the payment of utilities as long as the sum of:

(1) the initial #fair rent#; and

(2) the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment do not exceed 30 percent of said #lower income household's# income.

However, in Community Districts 1 and 7, Borough of Brooklyn, the Commissioner of Housing Preservation and Development may determine that rents satisfying the requirements of City, State or Federal programs assisting #lower income housing# will be considered #fair rent#, provided that such rents do not exceed 30 percent of #lower income household's# income, as applicable, and provided further that upon expiration or termination of the requirements of the City, State or Federal program, rent increases and re-rentals shall be subject to the higher of the then-currently applicable Section 8 Standard or the Rent Stabilization Standard.

At initial occupancy of any #lower income housing#, no portion of the #fair rents# shall be for the payment of the principal or interest on any debt, and the #lower income housing# shall not secure any debt and shall be free of all liens, except liens for real estate taxes, water charges and sewer rents and other governmental charges for which payment is not yet due. #Fair rents# may be used for the payment of principal or interest of debt only if such debt was incurred after the date of initial occupancy and is for a capital improvement to such #lower income housing# other than those capital improvements set forth in the #lower income housing plan#.

In Community Districts 1 and 7, Borough of Brooklyn, at initial occupancy of any #lower income housing#, a portion of the #fair rents# may be for the payment of the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95, paragraph(c), and provided that the lender agrees to enter into a written agreement which subordinates such debt to the provisions of the #lower income housing plan#.

Lower income household

A "lower income household" is a #family# having an income equal to or less than the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U.S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

In Community Districts 1 and 7, Borough of Brooklyn, #lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City or State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with U. S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.

Lower income housing

"Lower income housing" are #standard units# occupied or to be occupied by #lower income households#. #Lower income housing# shall not include #standard units# assisted under city, state or federal programs, except where such assistance is in the form of:

(a) real estate tax abatements and exemptions which are specifically limited to the #lower income housing#; or

(b) operating assistance that the Commissioner of the Department of Housing Preservation and Development determines will be used to enable households with incomes of not more than 62.5 percent of the "80 Percent of SMSA Limits" to afford such #lower income housing#.

However, in Community Districts 1 and 7, Borough of Brooklyn, #lower income housing# shall include #standard units# assisted under City, State or Federal programs.

The #floor area# of a #development# or #enlargement# may not exceed the base #floor area ratio# set forth in the table below, except that such #floor area# may be increased by one and one-quarter square feet for each square foot of #floor area# provided for #lower income housing#, up to the maximum #floor area ratio# specified in the table in this Section. However, in Community District 7, Borough of Brooklyn, the amount of #lower income housing# required to receive such bonus #floor area# need not exceed 20 percent of the total #floor area#, exclusive of ground floor non-

#residential floor area#, in the #building#.

* for #zoning lots#, or portions thereof, beyond 100 feet of a #wide street#
** for #zoning lots#, or portions thereof, within 100 feet of a #wide street#

In addition, the following rules shall apply:

(a) The compensated #building# must be #developed# or #enlarged# pursuant to the Quality Housing Program or, in #Special Mixed Use Districts#, pursuant to paragraph (b) of Section 123-662; and

(b) The #lower income housing# must be provided in accordance with the provisions set forth in Section 23-95 (Lower Income Housing Requirements).
