DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

LEGAL REPRESENTATION AT WORKERS COMPENSATION HEARINGS AND DEPOSITIONS HELD OUTSIDE THE CITY OF NEW YORK – Negotiated Acquisition – PIN# 02506X100014 – DUE 12-15-05 AT 5:00 P.M. – The New York City Law Department seeks expressions of interest from law firms with expertise in providing legal representation before the New York State Workers' Compensation Board at hearings, appeals, and depositions that may be conducted at hearing points outside the City of New York. The Department intends to enter into negotiations with one or more qualified firms and to award a single contract for the services. Contract award will be by the Negotiated Acquisition method of source selection because it has been determined that it is not practicable or not advantageous to use Competitive Sealed Proposals; that it is not in the best interest of the City to use Competitive Sealed Proposals, and that award of the contract by Negotiated Acquisition is justified. It is projected that the term of the proposed contract will commence as of May 15, 2006 and continue through May 14, 2009 with one option to renew for an additional two-year term. The selected firm will be required to handle such matters on an as-required basis at hearing points within the State of New York but outside the City of New York. It is estimated that approximately 4000 hearings were held outside the City's geographical limits last year, the majority of which were held at various Nassau, Suffolk and Westchester County hearing points. Interested firms should send one original and four (4) copies of an Expression of Interest ("EOI") to: John Sweeney, Division Chief, Workers' Compensation Division, New York City Law Department, 350 Jay Street, 9th Floor, Brooklyn, New York, 11201. EOI should contain the following information, which should be organized under the following headings:

1. a description of the firm as a whole, including the firm's areas of practice and specialization, the number of offices maintained by the firm and it/their location(s), and the number of attorneys, paralegals, and support personnel at each such office;
2. a detailed description of the firm's background and experience as counsel for respondents in workers' compensation matters;
3. a detailed description of the firm's attorneys, paralegals and other personnel resources available to provide the workers' compensation-related legal services.

The Law Department intends to award one contract predicated upon a fee-per-hearing and fee-per-service basis. Based on the Department's review of EOIs received by the above-stated deadline, each firm whose EOI is determined to be within a competitive range of Technical Merit will be provided with a detailed Scope of Work, a Law Firm Questionnaire, Price Proposal Forms, and instructions for submitting these materials. Subsequent decisions with respect to contract award will be made on the basis of the evaluation of these materials.

The Corporation Counsel has determined that it is not practicable or not advantageous to use Competitive Sealed Proposals as the method of source selection for the award of this contract, which is a contract for Legal Services.

All attorneys performing services under any contract that may result from this solicitation shall be members in good standing of the Bar of the State of New York.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

■ NOTICE

PUBLIC NOTICE OF A SCOPING MEETING DRAFT ENVIRONMENTAL IMPACT STATEMENT (CEQR No. 05DCP063Y)

Notice is hereby given that pursuant to Section 5-07 of the Rules of Procedure for Environmental Review (CEQR) and 6 NYCRR 617.8 (State Environmental Quality Review) the New York City Department of City Planning (DCP), acting on behalf of the City Planning Commission as CEQR lead agency, has determined that a draft environmental impact statement is to be prepared for the proposed West 61st Street Rezoning and Citywide GLSD Text Amendment, CEQR Number 05DCP063Y.

West End Enterprises, LLC and West 60th Street Associates, LLC, proposes an amendment to the zoning map to change the zoning designation of the western half of the block bounded by West End Avenue, West 61st Street, Amsterdam Avenue, and West 60th Street (Block 1152, Lots 1, 5, 8, 10-13, p/o 43, 52, 53, 55-58, and 61) from M1-6 to C4-7 and C6-2 in the Upper West Side neighborhood of Manhattan Community Board 7.

The applicant is also requesting a special permit pursuant to Zoning Resolution (ZR) Section 74-52 for a public parking garage, a special permit pursuant to ZR Section 74-74 for a general large-scale development, and a zoning text amendment to the provisions of ZR Section 74-74 to modify the open space requirements for certain large-scale developments in R8, C4, C5, and C6 zoning districts citywide.

The proposed actions would facilitate a proposal by the applicant to develop a mixed-use building on a property located at 239 West 60th Street (Block 1152, Lots 5, 8, 10-13, 43, 52, 53, and 55), which is a through-lot site with frontages on both West 60th Street and West 61st Street.

The proposed building would contain a total of approximately 481,425 gross square feet (gsf) of floor area consisting of 342 residential units; 4,420 gsf of medical office space; 10,340 gsf of ground-floor retail space; and 281 parking spaces, of which 121 would be accessory parking spaces and 160 would be public parking spaces. The applicant has merged the properties located at 242 West 61st Street (Block 1152, Lot 56) and 244 West 61st Street (Block 1152, Lot 57) with the project site to create a combined zoning lot. This would allow a portion of the unused development rights from these properties, which are developed with two 5-story residential buildings, to be used in developing the proposed project. The proposed project would be comprised of a 29-story tower with a maximum height of 372 feet and three mid-rise components of 7, 9 and 14 stories. Construction of the proposed project is expected to be completed in 2008.

Although the applicant intends to construct a development with 342 dwelling units on the projects site, a development with more dwelling units could be built under the proposed zoning. The reasonable worst case development scenario (RWCDS) to be analyzed in the EIS assumes that 559 units could be constructed on the project site, which would be the maximum number of dwelling units allowed under the proposed zoning.

The RWCDS also assumes that four additional properties would be developed as a result of the proposed rezoning. The property located at 246 West 61th Street (Block 1152, Lot 58), which is not under the control of the applicant, would be developed with a 10-story residential building containing approximately 61 dwelling units. In addition, the property located at 28 West End Avenue (Block 1152, Lot 61), also not under the control of the applicant, would be developed with a 31-story building containing approximately 190 dwelling units and a 100,000 gsf middle school. The RWCDS also assumes that the two 5-story residential buildings located at 242 West 61st Street (Block 1152, Lot 56) and 244 West 61st Street (Block 1152, Lot 57), which are under the applicant's control, could each be enlarged with an additional penthouse unit.

The proposed text amendment to modify the open space provisions of ZR Section 74-74 would allow the City Planning Commission to waive the open space requirements for proposed general large-scale developments in R8, C4, C5, or C6 zoning districts provided that the applicant comply with the applicable open space requirements of the Quality Housing Program. The zoning districts within which the proposed text amendment could potentially be utilized (R8, C4, C5, and C6) are located within areas of Manhattan Community Districts 1-8, and 10-12; Queens Community Districts 1-10, and 12-14; Bronx Community Districts 1-3, 5-7, and 9-12; Staten Island Community Districts 1-3; and Brooklyn Community Districts 1-6, 8, 9, 11, 12, and 14-18.

Public comments are requested with respect to the issues to be addressed in the draft environmental impact statement.

A public scoping meeting has been scheduled for Tuesday, December 20, 2005 at 10:00 A.M. at the City of New York Department of City Planning, Spector Hall, 22 Reade Street, New York, New York 10007. Written comments will be accepted by the lead agency through the tenth day following the scoping meeting.

Copies of the Draft Scope of Work and the Environmental Assessment Statement may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 22 Reade Street, 4E, New York, New York 10007, Robert Dobruskin, Director (212) 720-3423; or from the Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, New York 10038, Robert Kulikowski, Ph.D., Director (212) 788-2937.

SCHOOL CONSTRUCTION AUTHORITY

■ NOTICE

NOTICE OF PUBLIC HEARING PURSUANT TO ARTICLE 8 OF THE NEW YORK STATE ENVIRONMENTAL CONSERVATION LAW FOR A NEW PRIMARY/INTERMEDIATE SCHOOL PROJECT

The New York City School Construction Authority ("SCA") shall conduct a public hearing on Monday, December 5, 2005, at 3:30 p.m. at P.S. 44, located at 80 Maple Parkway, Staten Island, New York. The hearing is being held pursuant to Article 8 of the New York State Environmental Conservation Law, and concerns the Draft Environmental Impact Statement ("DEIS") that has been prepared to address potential significant adverse environmental impacts resulting from the proposed project.

The proposed project involves the construction of a new, approximately 822-seat primary/intermediate public school facility on an approximately 2.1-acre property owned by the City of New York and under the control of the New York City Department of Education. The proposed school facility would be built on the site of the former P.S. 44 Annex, which is located on the western half of the block bounded by Regis Drive to the north, Elson Court to the east, Jules Drive and Goethals Road North to the south, and Farragut Avenue to the west. The site adjoins the 1.6-acre Jennifer's Playground, which is operated by the New York City Department of Parks and Recreation. The project is a State Environmental Quality Review Type I action.

The purpose of this hearing is to receive comments on the DEIS that has been prepared for the proposed project. All interested persons are invited to attend the hearing and to present oral and/or written statements concerning the DEIS. The SCA will continue to accept written comments on the DEIS at the address listed below until the close of business on December 15, 2005.

The DEIS is available for examination during normal business hours at the SCA Legal Department, located at 30-30 Thomson Avenue, Long Island City, New York, 11101. For further information, contact Ross J. Holden, SCA Vice President & General Counsel, at (718) 472-8220.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists–free of charge–, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

LEGAL REPRESENTATION AT WORKERS COMPENSATION HEARINGS AND DEPOSITIONS HELD OUTSIDE THE CITY OF NEW YORK – Negotiated Acquisition – PIN# 02506X100014 – DUE 12-15-05 AT 5:00 P.M. – The New York City Law Department seeks expressions of interest from law firms with expertise in providing legal representation before the New York State Workers' Compensation Board at hearings, appeals, and depositions that may be conducted at hearing points outside the City of New York. The Department intends to enter into negotiations with one or more qualified firms and to award a single contract for the services. Contract award will be by the Negotiated Acquisition method of source selection because it has been determined that it is not practicable or not advantageous to use Competitive Sealed Proposals; that it is not in the best interest of the City to use Competitive Sealed Proposals, and that award of the contract by Negotiated Acquisition is justified. It is projected that the term of the proposed contract will commence as of May 15, 2006 and continue through May 14, 2009 with one option to renew for an additional two-year term. The selected firm will be required to handle such matters on an as-required basis at hearing points within the State of New York but outside the City of New York. It is estimated that approximately 4000 hearings were held outside the City's geographical limits last year, the majority of which were held at various Nassau, Suffolk and Westchester County hearing points. Interested firms should send one original and four (4) copies of an Expression of Interest ("EOI") to: John Sweeney, Division Chief, Workers' Compensation Division, New York City Law Department, 350 Jay Street, 9th Floor, Brooklyn, New York, 11201. EOI should contain the following information, which should be organized under the following headings:

1. a description of the firm as a whole, including the firm's areas of practice and specialization, the number of offices maintained by the firm and it/their location(s), and the

number of attorneys, paralegals, and support personnel at each such office;

2. a detailed description of the firm's background and experience as counsel for respondents in workers' compensation matters;

3. a detailed description of the firm's attorneys, paralegals and other personnel resources available to provide the workers' compensation-related legal services.

The Law Department intends to award one contract predicated upon a fee-per-hearing and fee-per-service basis. Based on the Department's review of EOIs received by the above-stated deadline, each firm whose EOI is determined to be within a competitive range of Technical Merit will be provided with a detailed Scope of Work, a Law Firm Questionnaire, Price Proposal Forms, and instructions for submitting these materials. Subsequent decisions with respect to contract award will be made on the basis of the evaluation of these materials.

The Corporation Counsel has determined that it is not practicable or not advantageous to use Competitive Sealed Proposals as the method of source selection for the award of this contract, which is a contract for Legal Services.

All attorneys performing services under any contract that may result from this solicitation shall be members in good standing of the Bar of the State of New York.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

§5. Chapter 8 of Title 35 of the Rules of the City of New York is amended by adding a new section 8-17 to read as follows:

§8-17 Summary Suspension Pending Compliance with Commission Rules.

(a)(i) If the Chairperson or his or her designee determines that the licensee is not in compliance with the requirements in subdivision (b) of §2-19 or subdivision (v) of §6-16 of this Title, such licensee's driver's license shall be summarily suspended pending an opportunity to be heard.

(ii) Upon a determination made pursuant to paragraph (i) of this subdivision that a driver's license shall be summarily suspended, the Commission shall notify the licensee either by personal service or by first class mail to the last mailing address filed with the Commission that the licensee's driver's license shall be suspended either immediately upon service of such notice if made by personal service, or five (5) days after the date of the mailing of such notice if mailed. Such notice shall contain, at a minimum the following information:

(1) a notice that the licensee's driver's license is being suspended for a violation of the Commission's Rules or applicable Administrative Code Section;

(2) a description of the nature of the violation;

(3) the Rule or Administrative Code Section alleged to have been violated; provided, however, that if there is a conflict between the Rule or Code Section cited and the description of the violation, the description shall be dispositive; and

(4) a notice that if the licensee wishes to be heard concerning the suspension, he or she may provide the Commission with written documentation refuting the suspension of his or her license within ten (10) calendar days of the receipt of the notice if notice was given by personal service, or fifteen (15) calendar days of the mailing of the notice of suspension if the notice was mailed.

(iii) All documentation submitted by a licensee refuting the suspension shall be reviewed by an ALJ. Suspension of the driver's license shall continue while documentation is under review by the ALJ. After review of the documentary evidence, the ALJ shall issue a decision which shall include findings of fact and conclusions of law. If the ALJ finds that a violation has been committed, the appropriate penalties shall be imposed, which shall include continued suspension of the driver's license until compliance and may also include a fine. If the ALJ finds that no violation has been committed, the suspension shall be vacated. The decision of the ALJ shall be final, and a licensee may appeal such decision pursuant to §8-13 of this Chapter.

(iv) In the event no decision is rendered by the ALJ within sixty (60) calendar days of the receipt of written documentation provided by the licensee, the suspension shall be thereafter stayed until such decision is rendered.

(b) In the event a licensee does not provide the Commission with written documentation refuting the suspension within ten (10) calendar days of the receipt of the notice if notice was given by personal service, or fifteen (15) calendar days of the mailing of the notice of suspension if the notice was mailed, it shall be deemed that the opportunity to be heard has been waived and a violation has been committed, and the appropriate penalties shall be imposed, which shall include continued suspension of the driver's license until compliance and may also include a fine.

(c) Suspension of drivers' licenses pursuant to this section shall continue until the fines assessed pursuant to paragraph (iii) of subdivision (a) this section have been paid and until compliance with the underlying Commission Rule or Administrative Code Section has been shown to the satisfaction of the Chairperson or his or her designee.

(d) At any time after a licensee has been notified of suspension, a licensee may pay any applicable fine, comply with the underlying Commission Rule or Administrative Code Section and furnish proof of such compliance to the satisfaction of the Chairperson or his or her designee. Upon such payment and submission of proof of compliance, the suspension of the driver's license shall be lifted. If the licensee pays any applicable fine and furnishes proof of compliance either in lieu of submitting documentation or after documentation has been submitted but before a decision has been rendered, the suspension shall be lifted and the opportunity to be heard shall be deemed to have been waived.

§6. This rule shall take effect immediately.

STATEMENT OF BASIS AND PURPOSE

This rulemaking pursuant to section 1043(h)(1) of the New York City Charter empowers the Taxi and Limousine Commission ("Commission") to impose fines on taxicab and for-hire vehicle drivers (collectively "licensees") for failure to take an annual drug test as required under the Commission's Rules. This rulemaking also establishes the procedure for suspension of licensees' driver's licenses following failure to comply with the annual drug test requirement.

The rule provides that licensees who fail to undergo annual drug testing shall have their driver's licenses suspended. Upon failure to be tested by the anniversary of the date of issuance of the current license, a licensee will not be allowed to operate a taxicab or a for-hire vehicle until he or she complies with the annual requirement and undergoes a drug test. This rule further clarifies that if the drug test result is positive, the licensee will undergo a fitness hearing to determine whether the license should be revoked.

The rule establishes that if a licensee fails to take a drug test, the driver's license shall be summarily suspended. The Commission is required to notify the licensee either by personal service or by first class mail to the last mailing address filed with the Commission that the licensee's driver's license shall be suspended either immediately upon service of such notice if made by personal service, or five (5) days after the date of the mailing of such notice if mailed. The licensee is then given the opportunity to refute that suspension within ten (10) calendar days of such notice if such notice is given by personal service, or within fifteen (15) calendar days if such notice is sent by mail. Alternatively, instead of submitting documentation, a licensee may submit a guilty plea to the Commission, pay any applicable fine, comply with the underlying Rule or Administrative Code Section, and furnish proof of such compliance to the satisfaction of the Chairperson or his or her designee. If the licensee chooses to plead guilty, his or her opportunity to be heard shall be waived, and his or her suspension will be lifted upon the furnishing of the proof of compliance and the payment of a fine if applicable.

If an ALJ determines that the licensee committed a violation by failing to take the drug test, or if the licensee waives the opportunity to be heard by failing to respond within ten (10) calendar days of personal service or fifteen (15) calendar days of the date of mailing if service is by mail, the penalty will be imposed and the suspension shall remain until the licensee complies with the requirement. An ALJ's determination is final, and the licensee may appeal the decision pursuant to §8-13 of the Commission Rules.

Finally, to encourage prompt compliance with the drug test requirements, the rule provides that if a licensee who has failed to take his or her annual drug test by the anniversary of the date of the current license subsequently submits to such test within thirty (30) days of such anniversary, the suspension will be lifted, though a conviction will remain on the licensee's record. If a licensee waits to take the drug test until more than thirty (30) days after the anniversary of the issuance of the current license, the suspension will be lifted only after the licensee also pays a penalty of $200.

FINDING PURSUANT TO NYC CHARTER SECTION 1043(h)(1)

I hereby make the following finding that a rulemaking pursuant to section 1043(h)(1) of the New York City Charter relating to license suspension procedures for taxicab and for-hire vehicle drivers who fail to submit to required drug tests is necessary and proper.

The Taxi and Limousine Commission licenses and regulates over 50,000 vehicles and approximately 100,000 drivers each year. Each day taxicabs and for-hire vehicles transport approximately 900,000 passengers. The vast number of New Yorkers affected by the use of taxicabs and for-hire vehicles requires that drivers be fit to operate such vehicles. A drug-free driving force ensures the health and safety of passengers, other motorists and pedestrians in the City of New York

The New York City Charter explicitly charges the Commission with the regulation and supervision of the industry of transportation of persons licensed by vehicles in the city, including the establishment of safety standards. City Charter § 2303. The City Council previously established that taxicab and for-hire vehicle drivers must, as a requirement for licensure, not be addicted to the use of drugs or intoxicating liquors. Administrative Code §19-505(b)(6). Using such requirement as a guideline, the Commission required that all drivers must annually submit to a drug test as proof that they are not using drugs or alcohol. TLC Rules §2-19(b), 6-16(v). I find that this new procedure is necessary to ensure that the TLC licenses of drivers who fail to submit to their annual drug tests may be suspended immediately, pending their compliance with drug test requirements.

THEREFORE, I find that the immediate effectiveness of a rule relating to the establishment of license suspension procedures for failure to be tested for drugs or controlled substances pursuant to Chapter 5 of Title 19 of the Administrative Code of the City of New York and sections 2-19(b) and 6-16(v) of Title 35 of the Rules of the City of New York is necessary to address an imminent threat to health and safety.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

LEGAL REPRESENTATION AT WORKERS COMPENSATION HEARINGS AND DEPOSITIONS HELD OUTSIDE THE CITY OF NEW YORK – Negotiated Acquisition – PIN# 02506X100014 – DUE 12-15-05 AT 5:00 P.M. – The New York City Law Department seeks expressions of interest from law firms with expertise in providing legal representation before the New York State Workers' Compensation Board at hearings, appeals, and depositions that may be conducted at hearing points outside the City of New York. The Department intends to enter into negotiations with one or more qualified firms and to award a single contract for the services. Contract award will be by the Negotiated Acquisition method of source selection because it has been determined that it is not practicable or not advantageous to use Competitive Sealed Proposals; that it is not in the best interest of the City to use Competitive Sealed Proposals, and that award of the contract by Negotiated Acquisition is justified. It is projected that the term of the proposed contract will commence as of May 15, 2006 and continue through May 14, 2009 with one option to renew for an additional two-year term. The selected firm will be required to handle such matters on an as-required basis at hearing points within the State of New York but outside the City of New York. It is estimated that approximately 4000 hearings were held outside the City's geographical limits last year, the majority of which were held at various Nassau, Suffolk and Westchester County hearing points. Interested firms should send one original and four (4) copies of an Expression of Interest ("EOI") to: John Sweeney, Division Chief, Workers' Compensation Division, New York City Law Department, 350 Jay Street, 9th Floor, Brooklyn, New York, 11201. EOI should contain the following information, which should be organized under the following headings:

1. a description of the firm as a whole, including the firm's areas of practice and specialization, the number of offices maintained by the firm and it/their location(s), and the number of attorneys, paralegals, and support personnel at each such office;
2. a detailed description of the firm's background and experience as counsel for respondents in workers' compensation matters;
3. a detailed description of the firm's attorneys, paralegals and other personnel resources available to provide the workers' compensation-related legal services.

The Law Department intends to award one contract predicated upon a fee-per-hearing and fee-per-service basis. Based on the Department's review of EOIs received by the above-stated deadline, each firm whose EOI is determined to be within a competitive range of Technical Merit will be provided with a detailed Scope of Work, a Law Firm Questionnaire, Price Proposal Forms, and instructions for submitting these materials. Subsequent decisions with respect to contract award will be made on the basis of the evaluation of these materials.

The Corporation Counsel has determined that it is not practicable or not advantageous to use Competitive Sealed Proposals as the method of source selection for the award of this contract, which is a contract for Legal Services.

All attorneys performing services under any contract that may result from this solicitation shall be members in good standing of the Bar of the State of New York.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals -
PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the

best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

LEGAL REPRESENTATION AT WORKERS COMPENSATION HEARINGS AND DEPOSITIONS HELD OUTSIDE THE CITY OF NEW YORK – Negotiated Acquisition – PIN# 02506X100014 – DUE 12-15-05 AT 5:00 P.M. – The New York City Law Department seeks expressions of interest from law firms with expertise in providing legal representation before the New York State Workers' Compensation Board at hearings, appeals, and depositions that may be conducted at hearing points outside the City of New York. The Department intends to enter into negotiations with one or more qualified firms and to award a single contract for the services. Contract award will be by the Negotiated Acquisition method of source selection because it has been determined that it is not practicable or not advantageous to use Competitive Sealed Proposals; that it is not in the best interest of the City to use Competitive Sealed Proposals, and that award of the contract by Negotiated Acquisition is justified. It is projected that the term of the proposed contract will commence as of May 15, 2006 and continue through May 14, 2009 with one option to renew for an additional two-year term. The selected firm will be required to handle such matters on an as-required basis at hearing points within the State of New York but outside the City of New York. It is estimated that approximately 4000 hearings were held outside the City's geographical limits last year, the majority of which were held at various Nassau, Suffolk and Westchester County hearing points. Interested firms should send one original and four (4) copies of an Expression of Interest ("EOI") to: John Sweeney, Division Chief, Workers' Compensation Division, New York City Law Department, 350 Jay Street, 9th Floor, Brooklyn, New York, 11201. EOI should contain the following information, which should be organized under the following headings:

1. a description of the firm as a whole, including the firm's areas of practice and specialization, the number of offices maintained by the firm and it/their location(s), and the number of attorneys, paralegals, and support personnel at each such office;
2. a detailed description of the firm's background and experience as counsel for respondents in workers' compensation matters;
3. a detailed description of the firm's attorneys, paralegals and other personnel resources available to provide the workers' compensation-related legal services.

The Law Department intends to award one contract predicated upon a fee-per-hearing and fee-per-service basis. Based on the Department's review of EOIs received by the above-stated deadline, each firm whose EOI is determined to be within a competitive range of Technical Merit will be provided with a detailed Scope of Work, a Law Firm Questionnaire, Price Proposal Forms, and instructions for submitting these materials. Subsequent decisions with respect to contract award will be made on the basis of the evaluation of these materials.

The Corporation Counsel has determined that it is not practicable or not advantageous to use Competitive Sealed Proposals as the method of source selection for the award of this contract, which is a contract for Legal Services.

All attorneys performing services under any contract that may result from this solicitation shall be members in good standing of the Bar of the State of New York.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

Name, Description and Location of Proposal:

Gateway Cathedral Expansion
The applicant, Gateway Cathedral, is requesting the following actions in connection with the proposed expansion of Gateway Cathedral, located at 200 Boscombe Avenue (Block 7577, Lot 3):

- A Special Permit pursuant to Zoning Resolution (ZR) Section 74-53 (Accessory Group Parking Facilities);
- An Authorization pursuant to ZR Section 107-68 (Modification of Group Parking Facility and Access Regulations in the Special South Richmond Development District);
- An Authorization pursuant to ZR Section 107-64 (Removal of Trees in the Special South Richmond Development District); and
- An Authorization pursuant to ZR Section 107-65 (Modification of Topography in the Special South Richmond Development District).

The project site is located in an R3-2 zoning district in the Special South Richmond Development District in Staten Island Community Board 3. It is bounded by Boscombe Avenue to the north, Weiner Avenue to the east, Richmond Valley Road to the south, and Madsen Avenue to the west. The site is accessed by two curb cuts on Boscombe Avenue and one on Richmond Valley Road. The project site is 22.51 acres in size and is currently improved with a church with a seating capacity of 1,204, an 18,120 square foot school facility, and accessory parking for 225 vehicles.

The proposed project would include an expansion of the church by 2,250 seats to 3,454 seats, an expansion of the parking lot from 225 spaces to 941 spaces, a new recreational field, a memorial garden, a new entry plaza; and additional classroom and school facilities. The authorizations are required for the proposed church and parking lot expansion, recreational field, memorial garden, and entry plaza. The school expansion is as-of-right and does not require any approvals. Additionally, as a part of the proposed project, traffic signal timing at the intersections of Page Avenue and Richmond Valley Road and Page Avenue and Amboy Road would be modified as required by the New York City Department of Transportation (DOT). The applicant would also notify DOT within six months of the completion of construction for the possible modification of the signal timing at traffic signals located at both drives onto the property along Boscombe Avenue. The applicant would also re-stripe the western most facility driveway on Boscombe Avenue to provide a single fifteen foot wide ingress and two eleven foot wide egress lanes. It is expected that the expansion will be completed in December 2006.

The proposed project was the subject of a previous proposal (CEQR No. 03DCP012R and ULURP Nos. 020401 ZSR, 020402 ZSR, and N020403 ZAR), by the same name, that was withdrawn during the ULURP process.

Statement of No Significant Effect:

The Environmental Assessment and Review Division of the Department of City Planning, on behalf of the City Planning Commission, has completed its technical review of the Environmental Assessment Statement dated November 9, 2005, prepared in connection with the ULURP Application (060134 ZSR, N060135 ZAR, N060136 ZAR). The City Planning Commission has determined that the proposed action will have no significant effect on the quality of the environment.

Supporting Statement:

The above determination is based on an environmental assessment which finds that no significant effects on the environment which would require an Environmental Impact Statement are foreseeable.

This Negative Declaration has been prepared in accordance with Article 8 of the Environmental Conservation Law 6NYCRR part 617.

Such standards, developed by usual work measurement procedures, may be used to determine acceptable performance levels, to prepare work schedules and to measure the performance of each employee or group of employees. Notwithstanding the above, questions concerning the practical impact that decisions on the above matters have on employees are within the scope of collective bargaining. Longevity Increment Eligibility Rules

The following rules shall govern the eligibility of employees for the longevity increments provided for in Article III, Section 8 of ***the 2002-2005 Institutional Services Unit Agreement***:

1. Only service in pay status shall be used to calculate the 15 years of service, except that for other than full time per annum employees only a continuous year of service in pay status shall be used to calculate the 15 years of service. A continuous year of service shall be a full year of service without a break of more than 31 days. Where the regular and customary work year for a title is less than a twelve month year, such as a school year, such regular and customary year shall be credited as a continuous year of service counting towards the 15 years of service. If the normal work year for an employee is less than the regular and customary work year for the employee's title, it shall be counted as a continuous year of service if the employee has customarily worked that length work year and the applicable agency verifies that information.

2. Service in pay status prior to any breaks in service of more than one year shall not be used to calculate the 15 years of service. Where an employee has less than seven years of continuous service in pay status, breaks in service of less than one year shall be aggregated. Where breaks in service aggregate to more than one year they shall be treated as a break in service of more than one year and the service prior to such breaks and the aggregated breaks shall not be used to calculate the 15 years of service. No break used to disqualify service shall be used more than once.

3. The following time in which an employee is not in pay status shall not constitute a break in service as specified in paragraph 2 above.

   a. Time on a leave approved by the proper authority which is consistent with the **Personnel Rules and Regulations of the City of New York** or the appropriate personnel authority of a covered organization.

   b. Time prior to a reinstatement.

   c. Time on a preferred list pursuant to **Civil Service Law Sections 80 and 81** or any similar contractual provision.

   d. Time not in pay status of 31 days or less.

   Notwithstanding the above, such time as specified in subsections a, b and c above shall not be used to calculate the 15 years of service.

4. Once an employee has completed the 15 years of "City" service in pay status and is eligible to receive the $800 longevity increment, the $800 shall become part of the employee's base rate for all purposes except as provided in paragraph 5 below.

5. The $800 longevity increment shall not become pensionable until fifteen months after the employee begins to receive such $800 increment. Fifteen months after the employee begins to receive the $800 longevity increment, such $800 longevity increment shall become pensionable and as part of the employee's base rate, the $800 longevity increment shall be subject to the general increases provided in Article III, Section 3a of this Agreement.

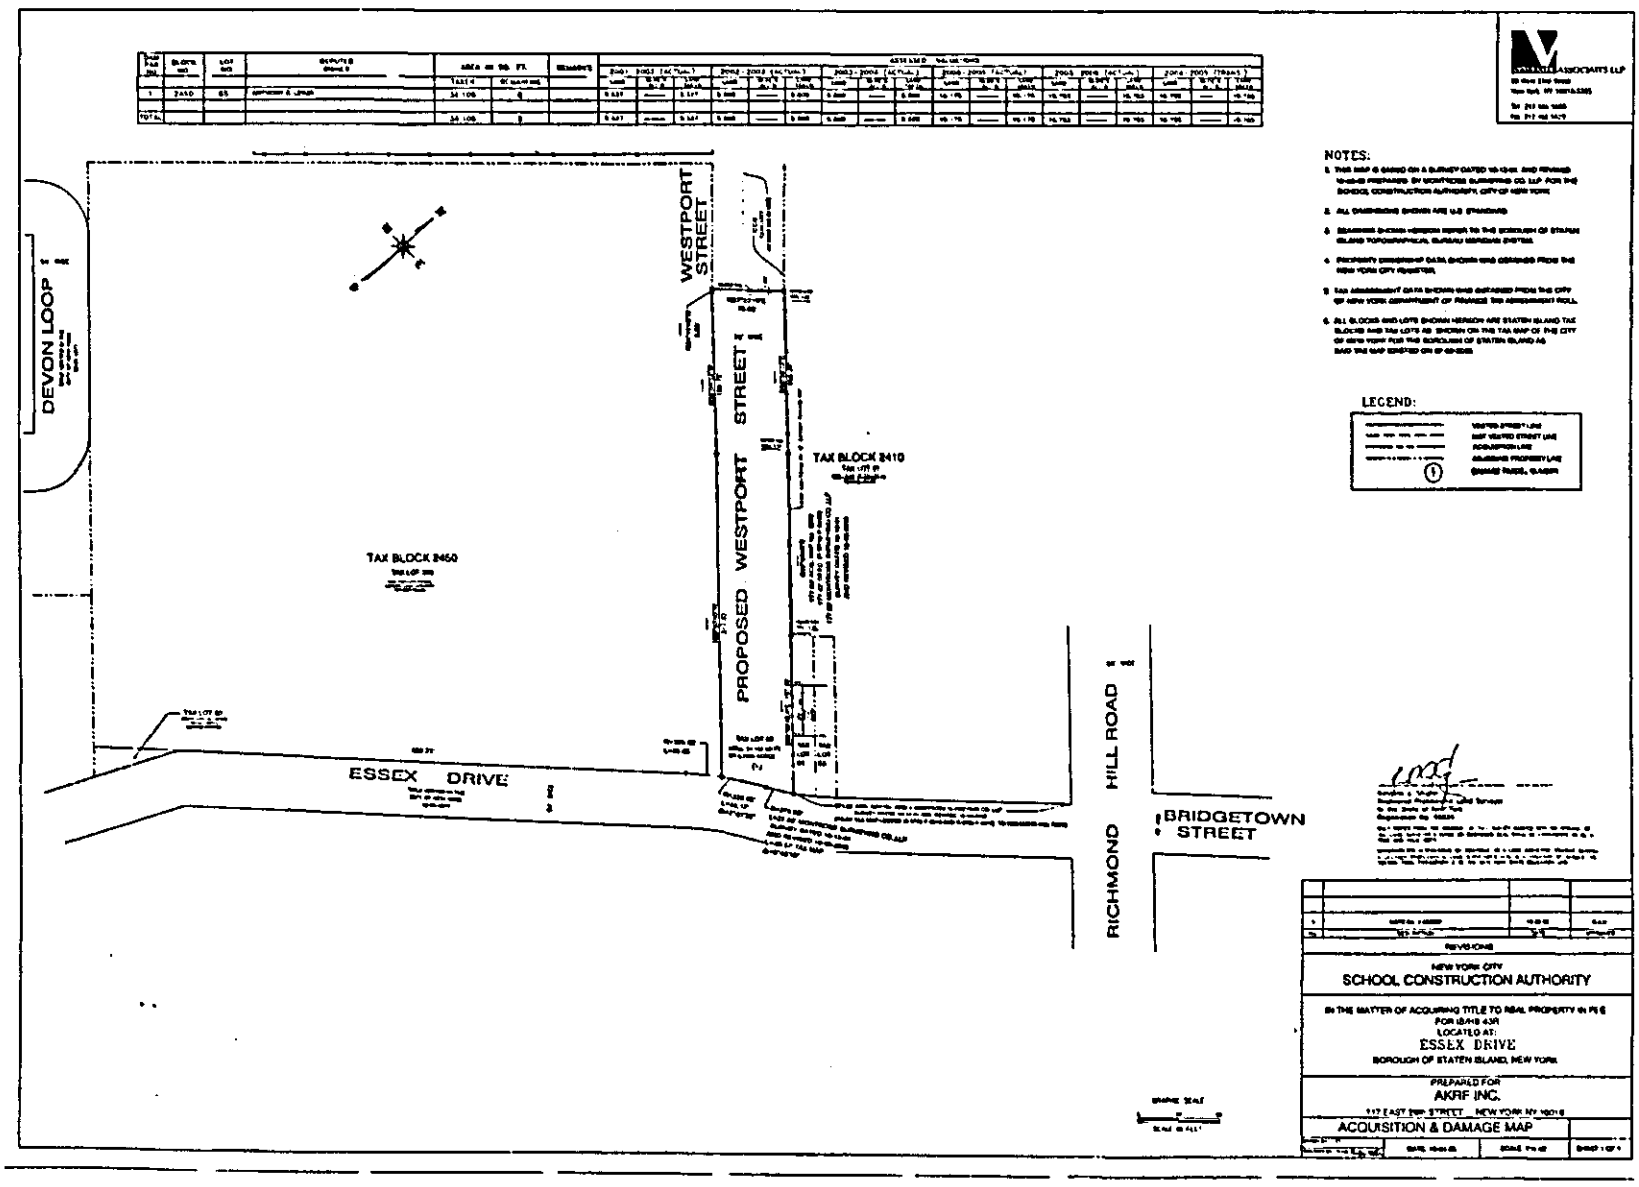
COURT NOTICE MAP FOR (NEW YORK CITY SCHOOL CONSTRUCTION AUTHORITY)



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3.00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals -
PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of

contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

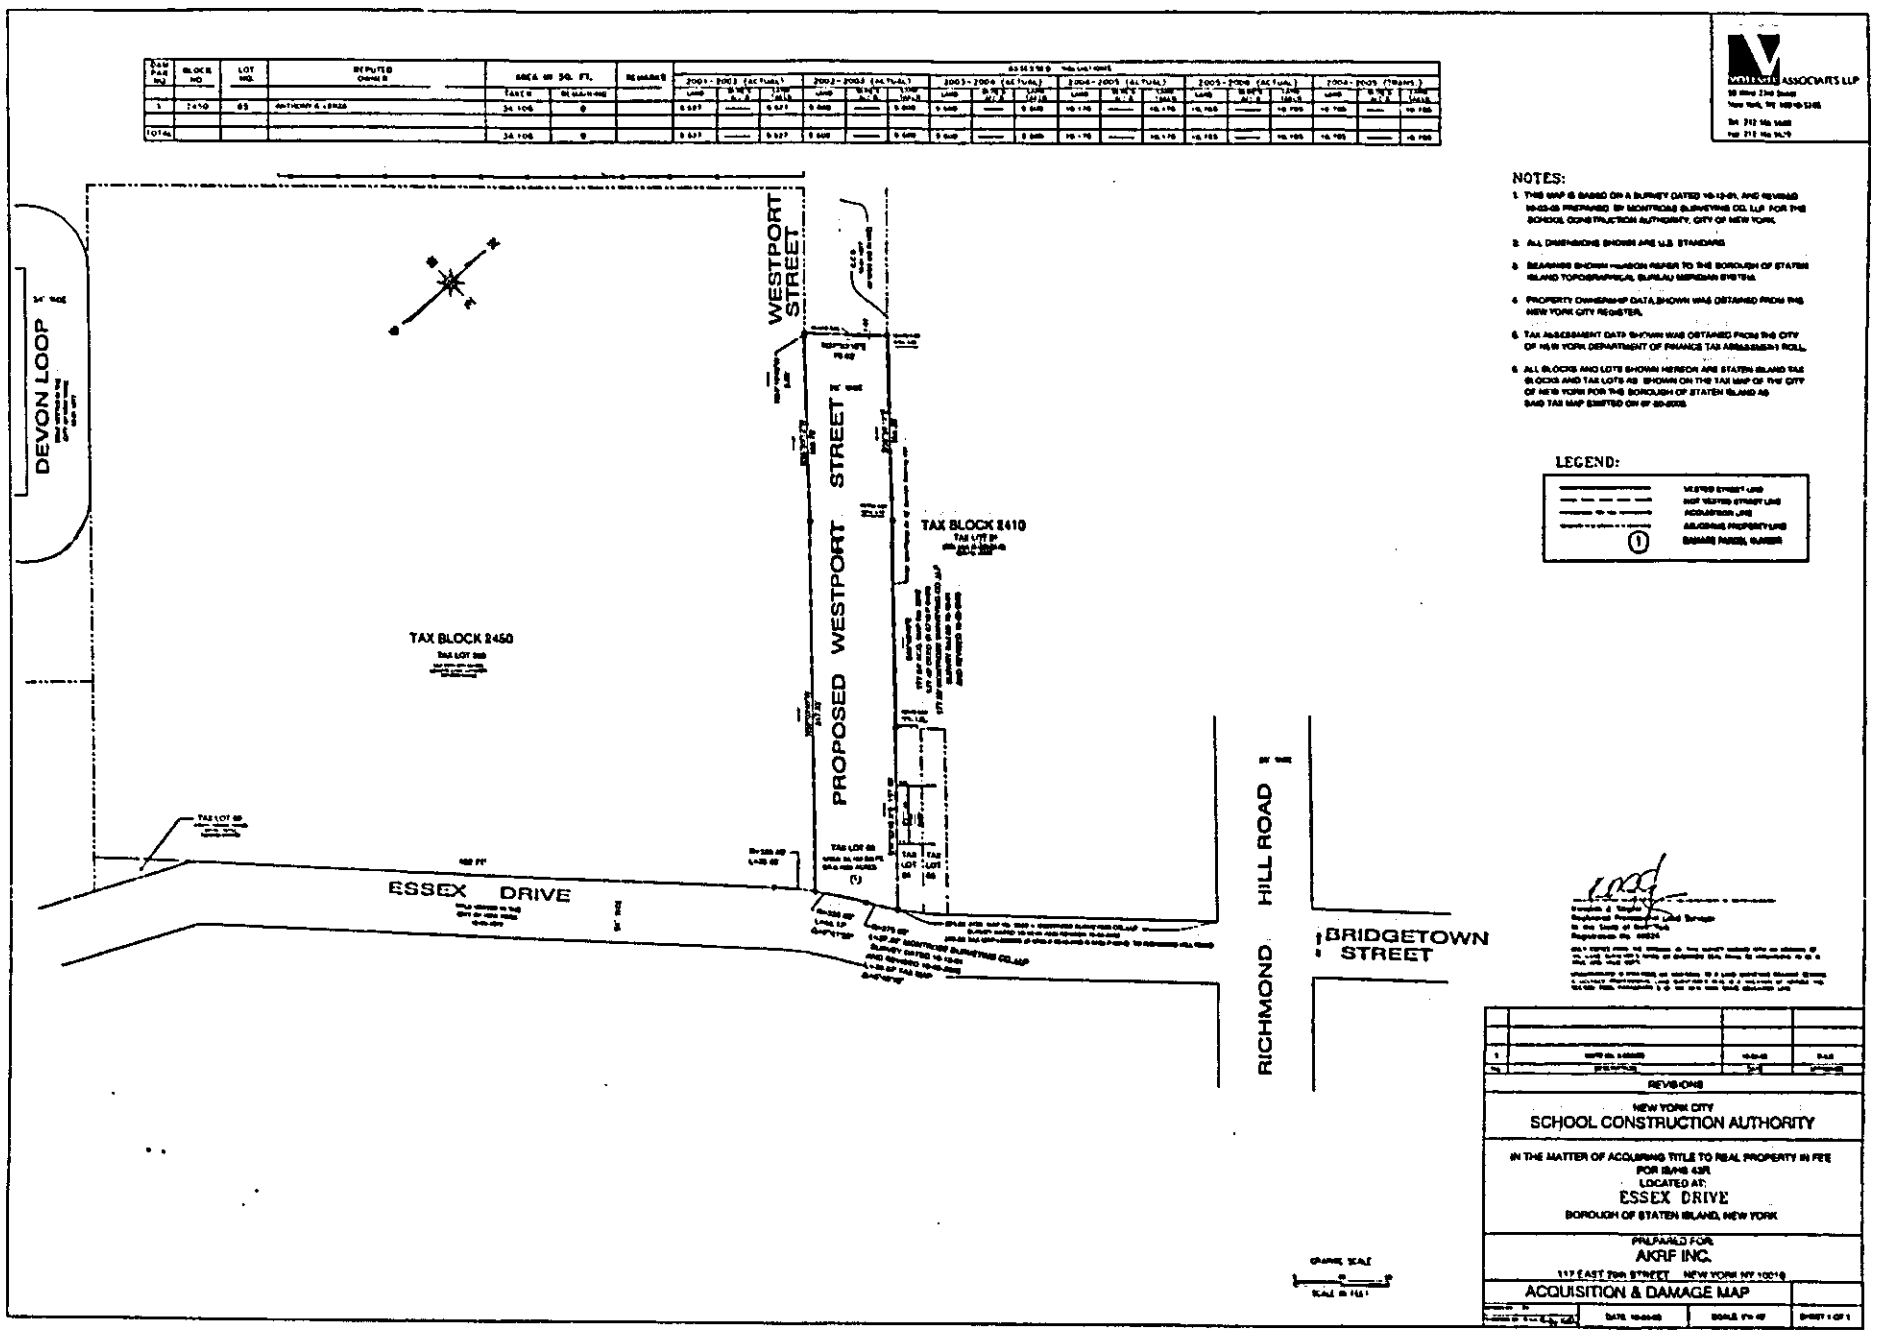
COURT NOTICE MAP FOR SCHOOL CONSTRUCTION AUTHORITY



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists–free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 a.m. to 5:00 p.m.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

(b) For the purpose of paragraphs (b) and (c) the area between the #street line# and the front building wall of adjacent #buildings# on the same or adjoining #zoning lots# shall be considered adjacent #front yards#.

Except as provided in paragraph (c) of this Section, in the districts indicated, if adjacent #residential buildings# on the same or on adjoining #zoning lots# fronting on the same #street# have #front yards# greater than the minimum set forth in paragraph (a) of this Section, then a #front yard# shall be provided which:

(1) in R2A, R3A, R3X, R4A, ~~or~~ R4-1, or R5A Districts is at least as deep as an adjacent #front yard#; and

(a) has less than the prescribed minimum #lot width#; and

(b) was owned separately and individually from all other adjoining tracts of land, both on December 15, 1961 and on the date of application for a building permit.

However, in no event shall the required width of a #side yard# be less than five feet.

R3-1 R3-2 R4 R5

In the districts indicated, except R4A and R5A Districts, a #residence# may be constructed so as to:

(c) share a party wall or party walls with other #residences# being erected at the same time on an adjoining #zoning lot# or #zoning lots#.

If a #residence# is so constructed, the #side yard# requirements shall be waived along that boundary of the #zoning lot# coincident with said party wall or party walls, or independent wall or walls along a #side lot line#, and one #side yard# shall be provided along any #side lot line# of the #zoning lot# where such a wall is not so utilized, at least eight feet wide in R3-1, R3-2, R4 or R5 Districts and four feet wide in R4-1, R4B or R5B Districts.

Permitted obstructions in certain districts
R2A R3 R4 R4A R4-1 R5A

Maximum Height of Walls and Required Setbacks
R2A R2X R3 R4 R4A R4-1 R5A

(b) In the districts indicated, the height and setback of a #building or other structure# shall be as set forth herein except where modified pursuant to paragraphs (g)and (h) of this Section.

For the purposes of this Section, where #base planes# of different elevations apply to different portions of a #building or other structure#, each such portion of the #building# may be considered to be a separate #building#. Furthermore, for the purposes of this Section, #building segments# may be considered to be separate #buildings# and abutting #semi-detached buildings# may be considered to be one #building#.

The perimeter walls of a #building or other structure# are those portions of the outermost walls enclosing the #floor area# within a #building or other structure# at any level and height is measured from the #base plane#. Perimeter walls are subject to setback regulations at a maximum height above the #base plane# of:

21 feet R2A R2X R3 R4A

25 feet R4 R4-1 R5A

26 feet* R3 R4A R4-1 within #lower density growth management areas#

* In R3, R4A and R4-1 Districts within #lower density growth management areas#, where a #base plane# is established at a #base flood elevation# higher than grade, the maximum perimeter wall height shall be 21 feet above such base flood elevation or 26 feet above grade, whichever is more.

Above these heights, sloping planes control the maximum height of the #building or other structure# requiring either a setback or a pitched roof. These planes start at the maximum permitted height of the perimeter walls and meet at a ridge line of 35 feet above the #base plane#. The exact locations of these planes are flexible and are determined in the steps set forth in paragraphs (1) through (5) as follows:
R2X R3 R4 R4A R4-1 R5A

(6) Special Situations

(i) For convex curved perimeter walls the #building or other structure# must be within a plane curve tapering uniformly to a vertex located at a height of 35 feet. For concave curved perimeter walls, the #building or other structure# must lie within a plane curve extending from the maximum perimeter wall height to a ridge line parallel to the prolongation of the perimeter wall at the 35 foot level. Such plane curves may not exceed a pitch of 80 degrees in relation to a plane drawn parallel to the #base plane# at the maximum height of the permitted perimeter wall. (See Figure G).

R3-2 R4 R5

(h) In the districts indicated, except R4A, R4B, R4-1, R5A and R5B Districts, the City Planning Commission may authorize a #building or other structure# that penetrates the height and setback regulations set forth in paragraphs (b) and (d) above except for #buildings# utilizing the optional regulations for #predominantly built-up areas#. DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals -
PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 A.M. to 5:00 P.M.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

INVOCATION

The Invocation was delivered by Rabbi Marjorie Slome, West End Temple, 147-02 Newport Avenue, Neponsit, N.Y. 11694.

As the Jewish Community finds itself ensconced in a period of introspection,
Poised between the celebration of our new year 5,766 and a time of personal
and communal reflection that will beginning tomorrow night on Yom Kippur, our Pay of Atonement,
I offer a meditation from our High Holiday prayer book:

God of the beginning
God of the end
God of all creatures,
God of all generations
With love You guide the world,
With love You walk hand in hand with all the living.

You created us in Your image, capable of love and justice,
That in creation's long unfolding, we might be Your partners.
You endowed people with freedom;
You gave us judgment;
You have set before us many paths to tread,
That we might search and find the way that is true for us. We thank You for Your gift of choice.
Created in Your image, we are called upon to choose.

Let our reflections during these Days of Awe, help us to bring into our lives, the harmony we seek and the love we would share.

Public Advocate Gotbaum, Speaker Miller, Members of City Council, our citizens have entrusted in you, the welfare and safety of this city's inhabitants.
May the choices you make be for a blessing.

Amen.

REPORTS OF THE STANDING COMMITTEES

Report of the Committee on Education

Report for Int. No. 464-A

Report of the Committee on Education in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to the provision of language assistance services by the Department of Education.

The Committee on Education to which was referred on September 28, 2004 (Minutes, page 4446) the annexed amended proposed local law respectfully

REPORTS:

On, October 7, 2005 at 10:00 a.m., the Committee on Education, chaired by Council Member Eva Moskowitz, will hold a hearing proposed Int. 464-A, a proposed local law that would amend the administrative code of the city of New York, in relation to the provision of language assistance services to the parents of public school students. The Department of Education (the "Department"), parents, teachers and advocates are expected to testify.

Prior Hearing On Int. 464

On May 17, 2005, the Education Committee held a hearing on Int. 464. At that hearing, the Committee heard testimony from the public, from advocates and from the Department. Generally, the public and advocates testified that a significant population of public school parents are unable to communicate effectively with the

Department due to language barriers, and that legislation requiring the Department to provide translation services would ameliorate that problem.

The Department, in turn, asserted three points. First, it claimed that the Council lacked the authority to pass Int. 464. Second, the Department described its current and anticipated translation efforts to the Committee. Third, it announced that its budget for translation services would be increased by approximately $4 million (that increase took effect for the FY '06 budget).

Since the initial hearing on Int. 464, the proposed legislation has been substantially redrafted. A copy of the bill, proposed Int. 464-A, and a complete description follow.

Background And Rationale For Proposed Int. 464-A

New York City is a city of immigrants. Nationwide, in 2003, about 33 million foreign-born people lived in the United States, accounting for nearly 12 percent of the population.[1] New York City, in 2000, however, had a foreign-born population of 2.87 million, or 36% of the population, an all-time high.[2]

Almost 200 languages are routinely spoken in the City and 43% of public schools students (approximately 500,000 students) speak a language at home other than English.[3] Of them, about 140,000 students are enrolled in English language learner ("ELL") programs because they do not speak English proficiently.[4] Spanish, followed by Chinese, are the most commonly-spoken home languages other than English.[5] School surveys, for example, suggest that nearly 300,000 public school parents speak exclusively Spanish at home.[6] The prior hearing established that many parents and guardians of school-aged children do not speak English at a level sufficient to fully engage the New York City Department of Education directly or through their children and family members.

Accordingly, the Committee will now consider whether the Council should pass Proposed Int. 464-A.

Language Assistance Services in New York City Public Schools

State law does not require the Department to provide translation from English except for a limited group of documents concerning special education evaluation and placement.[7] The Department's efforts are, therefore, generally voluntary and born of practical needs.

The Department and other City services, such as the 311 information line, provide some language assistance services to parents. Bi-lingual school personnel also provide translation and interpretation, for the most part informally and in addition to their regular duties. Prior to the 2004-05 school year, the Department spent approximately $1 million centrally each year on translation and interpretation services and another $4.4 million on outsourcing translation services.[8] Currently, the Department translates some documents into the eight languages spoken by approximately 95% of public school parents: Spanish, Chinese, Russian, Bengali, Haitian Creole, Korean, Urdu and Arabic.[9] These documents are typically form documents used throughout the school system for specific purposes, such as application forms, informational guides, disciplinary rules, notices pursuant to No Child Left Behind or other laws, information for ELL families, and similar documents.[10] Other notices, specifically report cards, health-related documents and other critical information, are not translated.

The Department rarely provides interpretation (meaning the oral translation of the spoken word between different languages). Instead, interpretation is done, for the most part, informally by family members or bi-lingual school staff. While interpretation is provided at some meetings, such as the Department's large "town hall" meetings or at "fairs" at which tutoring or other programs are offered, interpretation is not routinely offered at Panel for Educational Priorities meetings (where the Chancellor used to require interpretation from Deputy Chancellor Lam),[11] or at local Community Education Council, PTA or PA meetings, unless special arrangements are made locally. Parent teacher conferences are not interpreted and disciplinary proceedings may not be interpreted, either.

The Department's language assistance services are, admittedly, insufficient to meet the needs of the parents and guardians of City schoolchildren.[12] To improve these services, the Department created a new translation unit in September 2004, which will spend approximately $8 to $10 million next year, depending on how the total is calculated.[13] When the unit was created, Chancellor Klein stated: "New Yorkers and their children speak hundreds of languages and dialects. We are committed to bridging the language gap and giving parents the tools they need to do the best possible job of monitoring and building their children in our schools and communities."[14] The translation until will eventually employ approximately 40 people, including 26 full-time translators, and potentially lower the cost of document translation by two-thirds.[15] The Department hopes to expand this program to provide interpretation of 150 languages.[16]

Whether the Department can achieve this goal depends on several factors. Centralized language services may be necessary, but cannot replace the daily, routine, face-to-face translation and interpretation that occurs at 1350 schools citywide. That level of service would require hundreds or thousands of bi-lingual employees working in school buildings, not a centralized translation unit. It would require bi-lingual teachers, secretaries, safety agents, and school aids. To accomplish this, the Department would likely have to pay a premium to attract bi-lingual employees. Yet, it does not presently do so[17] and, as a result, not even all parent coordinators – the first line of contact between parents and the school system – are bi-lingual. (Those who are say they become swamped with translation and interpretation requests.)[18]

Proposed Int. 464-A is intended to remedy these problems and to ensure that parents and guardians of public school children are able to communicate effectively with the Department.

The Proposed Local Law – Proposed Int. 464-A

The proposed local law would require the Department to provide language assistance services to parents and guardians who have contact with the Department of Education.

Section 1 of the proposed local law contains legislative findings. The findings would indicate that almost 200 languages are spoken in New York City, and that many parents and guardians of students do not speak English at a sufficient level to conduct business with the Department. The findings would indicate that parental involvement is a strong determiner of a child's success in school, and that the limited translation and language services provided by the Department and the City, as well as the assistance of friends, family members and advocates, are insufficient to meet the needs of parents and, thus, inhibit parental involvement. Accordingly, children's education suffers. The findings would also indicate that the Department's staffing, infrastructure, policies and operating procedures hinder the effective delivery of language assistance services, and that the proposed local law would lessen the impact of these deficiencies.

Section 2 of the proposed local law would create a new chapter 11 of title 8 of the Administrative Code, containing 11 sections, as follows:

Section 8-1101 would set forth the short title of the act, the "Educational Equity Act."

Section 8-1102 would contain definitions of "covered language," the "department," "document," "interpretation" "primary language," "school" and "translation." In particular, it would define "covered language" to mean the nine languages most commonly spoken by persons living in New York City, as reported by the Department of City Planning or such other agency as the Department deems a reliable source of such information; "document" to mean any written communication by the Department to any parent or guardian of a child who attends or seeks to attend or is entitled to attend public school within the City; and "primary language" to mean the language spoken by a student's parents or guardians, as expressed to the Department by such parents or guardians.

Section 8-1103 would require each school to develop a language assistance plan in such form as the Department shall specify. Such plans would be prepared annually in anticipation of the Department's annual budget request, and would specify, at a minimum, each school's language assistance needs, it's ability to fulfill those needs and the resources required to do so. The Department would be required to collect and review such plans early enough in each fiscal year to be able to take them into consideration when formulating school-based budgets for the coming fiscal year.

Section 8-1104 would require the Department to determine the primary language spoken by each student's parents or guardians within 30 days of the date that the proposed local law would become effective, or within 30 days of a child's enrollment or in the school system if such enrollment is more than 30 days after such effective date, and whether such parents or guardians require language assistance services to communicate effectively with the Department.

Section 8-1105(a) would require the Department to ensure that a sufficient number of interpreters are available by telephone during regular business hours to provide interpretation services in each of the covered languages to meet the expected needs of parents or guardians who seek to communicate with the Department. Such services would also be available at schools and regional and other Department offices and other locations where parents and guardians interact with the Department, but may also be provided at such locations by telephone where a person fluent in the necessary covered language is not available at such location. Section 1105(b) would require the Department to provide interpretation services in the appropriate covered

languages at meetings of the Panel for Educational Policy, at Department events at which 400 or more persons are expected to attend and at meetings at which the Department reasonably believes that ten percent or more of the expected attendees speak a covered language other than English.

Section 8-1106(a) would require the Department to translate certain documents into each of the covered languages and to disseminate such documents to parents and guardians in whichever of the covered languages, if any, is their primary language. Such documents would include standardized text on report cards and permission slips, and documents disseminated to 1000 or more parents or guardians that require a parent or guardian to respond or act to obtain or preserve a child's educational right or benefit, or that notify such parents and guardians of an upcoming event that concerns their child's education. Section 8-1106(b) would require the Department to provide, with respect to documents that it produced centrally or regionally for distribution to all or substantially all parents and guardians within the City or an administrative region, as applicable, that it does not distribute to parents or guardians in their primary language and that concern discipline or students', health, safety, right to attend school or other legal right, a cover letter or statement on the face of such documents, indicating in the covered languages, how to obtain a free translation or interpretation of such documents.

Section 8-1106(c) would impose requirements with respect to documents not prepared for distribution citywide or regionally that concern an individual student's health, safety, legal or disciplinary matter, right to continue to receive a public education, or placement in special education, English language learner or non-standard academic programs. The Department would be required to either translate such documents or provide a cover letter or statement on the face of such documents, indicating in the appropriate covered language, how to obtain a free translation or interpretation of such documents.

Section 8-1106(d) would require the Department to provide a mechanism by which employees could fax documents of a reasonable length to a person or service and receive back a translation, such that under ordinary circumstances a single-page note or letter would be received back within 24 hours or by the end of the following business day, whichever is later.

Section 8-1107(a) would require the Department to prepare a short, concise document in each of the covered languages, informing parents and guardians of their right to obtain translation and interpretation services as required by the proposed local law and by any other applicable law, rule or regulation, and explaining how to obtain such services. Section 8-1107(a) would also require the Department to distribute such document in the appropriate covered language, if any, to all parents and guardians who require language assistance services. Copies of such document in each covered language would also be required to be placed in sufficient quantities in each school or office to which the public has access.

Section 8-1107(b) would require the Department to post a sign written in each of the covered languages, in a conspicuous location in each school or Department office building to which the public has access, indicating the availability of such document at such location. Section 8-1107(c) would require, in the event that the Department determines that ten percent or more of the parents or guardians of the students attending any individual school speak a primary language that is not a covered language, to prepare and make available at such school in such other language the document and sign required by Sections 8-1107(a) and (b).

Section 8-1108 would permit the Department to satisfy the translation requirements of the proposed local law with respect to any document for which the proposed local law requires translation, through a certification of translation. Such certification could be used with respect to any document concerning a student's education that must be completed with information provided by a parent or guardian whose primary language is not the language in which the document is printed, where such document is completed by either a parent or guardian or a Department employee, and signed by the parent or guardian, provided that such Department employee certifies that such parent or guardian received translation or interpretation services, understood the purpose of the document as well as information conveyed in the translation or interpretation, and received a copy of such document along with the certification.

Section 8-1109 would require the Department's website to contain on its homepage information in each of the covered languages explaining the right of parents and guardians to obtain language assistance services.

Section 8-1110 would require the Department to report annually to the City Council on or before the first day of December of each year, beginning in December 2007, the number of parents and guardians of schoolchildren during the immediately preceding school year, whose primary language was not English, and, for each covered language other than English, the number of such parents and guardians speaking such language. In addition, the Department would be required to report on the number and general nature of distinct documents that the Department translated into the covered language, the number of meetings at which the Department provided interpretation services and in what languages, the Department's annual budget for language assistance services, the number of Department employees whose primary job function is such services, and number of times interpretation services were provided by telephone and in what languages.

Section 8-1111 would make clear that the proposed local law would not: preclude a parent or guardian from having an adult volunteer, relative 16 years of age or older, or spouse or domestic partner, provide translation or interpretation services for such individual; be construed as preventing the Department from complying with any provision of State or federal law concerning translation or interpretation; be construed as prohibiting the Department from exceeding the mandates of this chapter, from relying upon the resources of other city, state or federal agencies, or from translating documents into, or providing interpretation services in, languages other than the covered languages; require the Department to translate documents or provide interpretation for matters that do not concern a student's education, or that are prolix or are unintelligible; or require the Department to translate or interpret legal documents not otherwise required to be translated by this chapter, including, but not limited to, legal documents generated by or for use in a proceeding not held by the department, except to provide upon request a general explanation of the nature of such documents if such documents concern the public education of the parent's or guardian's child.

Section 3 of the proposed law would provide a severability clause.

Section 4 of the proposed law would state that it would become effective 180 days after enactment.

A copy of the proposed local law follows.

Accordingly, Your Committee recommends its adoption, as amended.

Int. No. 464-A

By Council Members Monserrate, Yassky, Barron, Comrie, Gerson, Gonzalez, James, Koppell, Palma, Martinez, Reyna, Brewer, Clarke, Foster, Jackson, Liu, Quinn, Recchia, Reed, Rivera, Sanders, Sears, Stewart, Weprin, Dilan, DeBlasio, Lopez, Vann, Gennaro, Moskowitz, Arroyo, Nelson, Seabrook, Gioia, the Speaker (Council Member Miller) and The Public Advocate (Ms. Gotbaum)

A Local Law to amend the administrative code of the city of New York, in relation to the provision of language assistance services by the Department of Education.

Be it enacted by the Council as follows:

Section 1. Legislative findings. According to the New York City Department of Education, almost 200 languages are spoken in New York City, and approximately 2.87 million New Yorkers, or 36% of the population, are foreign born. As a result, about 43% of public schools students (approximately 500,000 students) speak a language at home other than English and, therefore, approximately 2 in 5 parents of children who attend public school also speak these languages, primarily, instead of English.

Parental involvement in a child's education is a strong determiner of that child's success in school. The Council finds that many parents and guardians of school-aged children do not speak English sufficiently well to meaningfully engage their children in all aspects of their education. In particular, such parents need language assistance to communicate effectively with the New York City Department of Education.

Although the Department of Education and other City agencies provide some translation and language assistance services to the parents of schoolchildren, these services are inadequate, for several reasons. Such services are often focused in areas that do not truly assist parents. For example, the Department primarily translates documents that are produced centrally concerning legal or procedural matters that parents might review once, if ever. Parents, however, most often need language assistance at their local schools in person, or by telephone, in order to speak with a teacher or the principal about routine matters like homework, attendance, health, behavior or a child's performance in class.

In addition, the Department's language assistance efforts are hampered by institutional policies that make its current provision of effective language assistance more difficult. For example, the documents that the Department does translate are, frequently, written in bureaucratic jargon and are difficult to understand in any language. Parents, therefore, often need to engage in a dialogue to understand the information and choices they are being given. Additionally, the Department delivers documents so close to the Department's self-imposed deadlines that parents often cannot meaningfully respond to these documents even if they can read and understand them, and, therefore, the time needed to obtain translation is fatal to meeting such deadlines. The Department also tends to impose uniform deadlines and schedules for parents across the City, overwhelming its support systems with thousands of simultaneous requests for information. Such support is available, if at all, during business hours, complicating the process for hard-working immigrant parents who may lack convenient access to a telephone during their workdays.

The Department also suffers from staffing and infrastructure shortcomings that exacerbate the above-mentioned problems. Schools and regional offices are not routinely staffed with enough bi-lingual employees, in part because the Department cannot always assign bi-lingual employees where they are most needed, or pay them a premium for using their language skills. Frequently, no one within a school building can assist school staff with translation needs, and many schools lack sufficient phone lines or Internet connections to enable staff to obtain assistance from the Department. Moreover, there is frequently no one available from the Department to assist school staff members with translation needs. Even if staff members are available to translate documents, they often lack access to working copiers to reproduce and distribute them.

The Department's approach to customer service also fails to incorporate developing technologies for translation and interpretation, to the detriment of non-English speaking parents. For example, wireless headsets for simultaneous interpretation equipment can be used to communicate at meetings, and translation

programs available on the Internet could assist parents, but these methods are infrequently used. The Department's website, too, lacks sufficient content in languages other than English to provide even minimal assistance to non-English speakers.

Finally, the Department's centralized approach favors a "one size fits all" language assistance model, where the needs of parents and of individual schools are not directly taken into account. To provide language assistance services efficiently, the Department needs to distinguish between schools with low language-assistance needs and those with higher needs and concentrate its efforts on the latter. The Department should also respect the judgment of each school's principal and ensure that the annual budgets of the 1350 public schools reflect the each school's language assistance needs.

Until such a time as the demand for adult English language education can be met for all New Yorkers who seek it, the need for municipal translation and interpretation services remains high. The Council, therefore, finds that legislation is necessary to improve the quantity and quality of translation services provided by the City of New York to parents and guardians of public schoolchildren.

§2. Title 8 of the administrative code of the city of New York is hereby amended to add a new chapter 11 to read as follows:

§8-1101 Short title. This local law shall be known and may be cited as the Education Equity Act.

§8-1102 Definitions. When used in this chapter:

a. "Covered languages" means the nine most common languages spoken by persons living in New York City, as reported by the New York city department of city planning or such other city agency as the New York city department of education deems a reliable source of such information.

b. "Department" means the New York city department of education and any successor agency.

c. "Document" means written communication by the department to any parent or guardian of a child who attends or seeks to attend or is entitled to attend public school within the city of New York.

d. "Interpretation" means the act of contemporaneous communication between speakers of two or more covered languages wherein the written or oral words of one person are communicated to others orally in a different language.

e. "Primary language" means the primary language spoken by a student's parents or guardians, as expressed to the department by such parents or guardians.

f. "School" means any public school within the jurisdiction of the department.

g. "Translation" means the act of communication between speakers of two or more covered languages wherein the written words of one person are communicated to others in writing in a different language.

§8-1103 School-based language assistance plans. Each school shall prepare annually a language assistance plan in such form as the department shall specify. Such language assistance plan shall contain, at a minimum, each school's assessment of (1) its language assistance needs, (2) its ability to fulfill such needs, and (3) the resources it requires to fulfill such needs. The department shall collect and review such language assistance plans at a date sufficiently early in each fiscal year to be able to consider the contents of sach plans in formulating school-based budgets for the coming fiscal year.

§8-1104 Determination of primary language. For each student enrolled in the New York city public school system, the department shall determine, by the effective date of the local law that added this chapter, or within thirty days of such student's enrollment if such enrollment occurs after such effective date, the primary language spoken by the parents or guardians of such student and whether, if such language is not English, such parent or guardian requires language assistance services in order to communicate effectively with the department.

§8-1105 Interpretation services required. a. The department shall ensure that during regular business hours a sufficient number of individuals are available by telephone to provide interpretation services in each of the covered languages to meet the expected needs of parents or guardians who seek to communicate with the department. Such interpretation services shall also be available through staff members who shall be present at schools, regional or other departmental offices, and other locations where parents and guardians interact with the department, but may be provided at such locations by telephone in the event that a person fluent in the necessary covered language is not available at such location.

b. The department shall provide interpretation services at (i) meetings of the panel for educational policy, (ii) events at which four hundred or more persons are expected to attend, and (iii) meetings or events at which the department reasonably believes that ten percent or more of the persons expected to attend speak primary languages that are covered languages other than English. Such interpretation services shall be provided in whichever of the covered languages the department expects will be spoken as the primary language of the persons attending such meeting or event.

§8-1106 Translation services required. a. The department shall translate the following documents into each of the covered languages and disseminate such documents to parents and guardians in whichever of the covered languages, if any, is their primary language, as determined by the department pursuant to section 8-1104 of this chapter:

1. The standardized text on report cards and permissions slips; and

2. Documents disseminated to one thousand or more parents or guardians that require a parent or guardian to respond to the department, or that require a parent or guardian to take an action in order to obtain or preserve a right or benefit with respect to their child's education, or that provide notification of an upcoming event that concerns their child's education.

b. With respect to any document that the department produces centrally or regionally for distribution to all or substantially all parents and guardians within the city or an administrative region, as applicable, that it does not distribute to all parents or guardians in the primary language of such parents or guardians, as determined by the department pursuant to section 8-1104 of this chapter, and which document concerns discipline or students' health, safety, right to attend school or any other legal right granted to students or to the parents or guardians by city, state or federal law, the department shall provide either a cover letter or a statement on the face of such document, indicating in each covered language how to obtain a free translation or interpretation of such document from the department.

c. With respect to any document not prepared for distribution citywide or regionally, that concerns an individual student's (i) health, safety, legal or disciplinary matter, (ii) right to continue to receive public education, or (iii) placement in any special education, English language learner or non-standard academic program, the department shall, if not required to do otherwise by state or federal law, rule or regulation, provide such student's parents or guardians whose primary language is a covered language other than English with a translation of such document into the appropriate covered language, or shall provide either a cover letter or a statement on the face of the document, indicating in the appropriate covered language how to obtain a free translation or interpretation of such document from the department.

d. The department shall provide a mechanism by which its employees can fax documents of a reasonable length to a person or service and receive back a translation of such documents in accordance with the sender's instructions. Such mechanism shall be designed such that, under ordinary circumstances, a principal or teacher can obtain a translation of a single-page note or letter within twenty-four hours or by the conclusion of the next business day, whichever is later.

§8-1107. Notice to parents and guardians. a. The department shall prepare in each of the covered languages a short, concise document setting forth the rights of parents and guardians with respect to translation and interpretation services as required by this chapter and by any other applicable law, rule or regulation, and explaining how to obtain such services. Such document shall be provided, in the appropriate covered language, if any, to each parent or guardian who, as determined by the department pursuant to section 8-1104 of this chapter, requires language assistance services. Copies of such document in each covered language shall be placed in each public school or office to which the public has access in sufficient quantity that it can be provided to any member of the public who enters such school or office and requires language assistance services.

b. A sign written in each of the covered languages shall be displayed in a conspicuous location in each school or department office building to which the public has access, indicating the availability and location in such school or building of the document required pursuant to subdivision a of this section.

c. In the event that the department determines that ten percent or more of the parents or guardians of the students attending any individual school speak a primary language that is not a covered language, then at such individual school, the document and sign required by this section shall be prepared and made available at such school in such other language in addition to the covered languages.

§8-1108 Certification of translation. In the department's discretion, it may satisfy the translation requirements of this chapter with respect to any document concerning a student's education that must be completed with information provided by a parent or guardian whose primary language, as determined by the department pursuant to section 8-1104 of this chapter, is not the language in which the document is printed, if such document is completed by either a parent or guardian or by a department employee, and signed by the parent or guardian, provided that such department employee certifies on the face of such document or upon an attached document, in such form and manner as determined by the department, that (i) such employee provided or secured interpretation or translation services for each parent or guardian signing the document, (ii) the employee believes that each such person understood the purpose of the document and the information being provided in the document and conveyed in the interpretation or translation, and (iii) each such person received a copy of such document and such certification.

§8-1109 Department of education website. The department's website shall contain, on its homepage and on such other web pages as the department shall determine is appropriate, information in each of the covered languages sufficient to direct any user whose primary language is a covered language other than English to a resource on the department's website that contains an explanation of the rights of parents and guardians to translation and interpretation services as required by this

chapter and by any other applicable law, rule or regulation, and explaining how to obtain such services.

§8-1110 Reporting. The department shall report annually to the city council on or before the first day of December of each year, beginning in December 2007, the number of parents or guardians who had children in the New York city public school system during the immediately preceding school year whose primary language, as determined pursuant to section 8-1104 of this chapter, was not English, and, for each covered language other than English, the number of such parents and guardians speaking such language. Such report shall also state, with respect to such reporting period:

1. the number of distinct documents that the department translated into the covered languages and the general nature of such documents;

2. the number of meetings at which the department provided interpretation services and the languages for which it provided such services;

Reports of the Committee on Finance

Report for Int. No. 692

Report of the Committee on Finance in favor of approving and adopting, a Local Law to amend the administrative code of the city of New York, in relation to amending the district plan of the Metrotech Area business improvement district to change the method of assessment upon which the district charge is based.

The Committee on Finance to which was referred on July 27, 2005 (Minutes, page 3988) the annexed proposed local law

REPORTS:

ANALYSIS:

Under Local Law 82 of 1990, the City Council assumed responsibility for adopting the legislation which would establish and regulate individual business improvement districts.[1] In 1991, pursuant to such legislation, the City established the Metrotech Area BID.[2]

Pursuant to §25-410 of the Administrative Code, the district plan upon which the establishment of the BID is based, may, upon recommendation of the district management association, be amended by the City Council. Under §25-410(b) of the Administrative Code,

[1]Codified in Chapter 4 of title 25 of the Administrative Code of the City of New York (the "BID Law").

[2]Local Law 40 of 1991

amendments to the district plan which change the method of assessment upon which the district charge is based, may be adopted by local law. Such local law may be adopted by the City Council after a public hearing and upon determination that the tax and debt limits prescribed in section 25-412 of the Administrative Code will not be exceeded and the public notice requirements have been met.

This proposed legislation authorizes a change in the current method of assessment upon which the district charge in the Metrotech Area BID is based.[3] In 1991, when the Metrotech BID was established, the method of assessment for Class A (Development Site/ Utility Properties) was based on the square footage and a fixed percentage of the annual budget, and the assessment for Class B (Commercial properties) was based on the assessed value (A/V) and fixed percentage of annual budget.[4] In recent years several large Class A properties have moved into the area. However, the current Plan's limitations on the total amount of the budget paid by each class has resulted in Class A paying a disproportionately lower share of the overall budget and Class B paying a disproportionately larger share of the overall budget.

To alleviate the burden on smaller commercial properties, at the November 19, 2004 Metrotech BID Board of Director Meeting, a Resolution was passed to amend the By-Laws of the Corporation to effect a change in the District Plan for the Metrotech Area BID (the "Plan"). The amendment to the Plan would change the assessment formulas to assess all properties based on A/V which would result in a reduction in the assessment of Class B properties. Under the BID Law, an amendment to the district plan that changes the method of assessment upon which the district charge is based, must be adopted by local law after a public hearing.

Under such process, the City Council has already adopted Resolution No. 1126-A, which set October 11, 2005 as the public hearing date for Int. No. 692, the local law changing the method of assessment upon which the Metrotech BID district charge is based. In addition to the public hearing requirement in order to approve the BID's change in method of assessment, on September 15, 2005 (the date the Resolution setting the hearing date was adopted), the Finance Committee Chair informed the Department of Small Business Services ("SBS") that it desired written notices of the proposed change and the hearing date to be mailed to property owners in the BID. According to SBS, such written notice has been sent.

Pursuant to the Administrative Code and the proposed Local Law, when the Committee considers this proposed local law on October 11, 2005, it must answer the following questions:

Were all notice requirements contained in the BID Law complied with?

[3]Local Law 40 of 1991 established the Metrotech Area BID.

[4]According to NYC Department of Small Business Services, Class A properties are generally large commercial properties located on city development sites that were developed through City economic development programs. Class B properties are other commercial properties.

Is it in the public interest to authorize a change in the method of assessment upon which the district charge in the Metrotech Area business improvement district is based?

Have the tax and debt limits prescribed in section 25-412 of the BID Law been complied with?

If the Committee finds in the affirmative on these questions then the legislation can be adopted.

EFFECTIVE DATE:

This local law authorizing such change shall be retroactive to and deemed to have been in full force and effect as of July 1, 2005.

Report for Int. No. 669

Report of the Committee on Finance in favor of approving and adopting, notwithstanding the objection of the Mayor, a Local Law to amend the administrative code of the city of New York, in relation to suspending the activation of parking meters on Sundays.

The Committee on Finance to which was referred on June 30, 2005 (Minutes, page 3746) and originally adopted by the Council on July 27, 2005 (Minutes, page 3793) the annexed proposed local law respectfully

REPORTS:

INTRODUCTION

Today, the Committee on Finance, chaired by Council Member David Weprin, will consider whether to override the Mayor's veto of Int. No. 669. The Committee on Finance first approved Int. No. 669 on July 27, 2005 by a vote of 16-1. On July 27, 2005, the full Council voted to adopt the legislation by a vote of 41-3. On August 25, 2005, the Mayor disapproved Int. No. 669 and returned it to the Council. The Council received the Mayor's veto of Int. No. 669 on August 26, 2005.[1] The proposed local law seeks to amend chapter 1 of Title 19 of the Administrative Code of the City of New York by adding a new section 19-167 that would suspend the activation of metered parking on Sundays.

BACKGROUND

The City's Department of Transportation currently regulates metered parking on Sundays and issues notices of violation and summonses for the failure to activate the parking meter on Sundays. For City residents who attend religious services on Sundays, this regulation, however, has made it seemingly difficult or impossible to attend a full service, by requiring some worshippers to interrupt their religious services in order to put money in the meter. Some of these worshippers have complained that such a regulation disturbs church services and prevents them from attending uninterrupted religious service.

Nonetheless, the regulation of parking spaces through meters serves to manage the use of such space to provide mobility, accessibility, and flexibility among motorists, especially on the weekdays and Saturdays when city residents work and carry out commerce and daily chores.

While a busier society over the past twenty-five years has seen a growth in the amount of non-leisure activity occurring on Sunday, for many New Yorkers Sunday is still considered "a day of rest" to gather with family members and with friends and acquaintances at local community institutions, including churches. The regulation of parking on Sunday through the use of meters severely inconveniences and sometimes significantly disrupts such gatherings.

ANALYSIS

Int. No. 669 would chapter 1 of title 19 of the Administrative Code of the City of New York by adding a new section 19-167. This section, entitled "Suspending the activation of parking meters on Sundays," would permit a person to park a vehicle on Sunday in a parking space with a meter without having to activate that meter. The bill would require that such person not be issued a notice of violation or summons for failing to activate such parking meter on a Sunday.

EFFECTIVE DATE

The local law would take effect thirty days after its enactment into law and require the Commissioner of Transportation to take all actions necessary prior to the effective date in order for the law to be successfully implemented on its effective date.

FISCAL IMPACT STATEMENT:

	Effective FY 06	FY Succeeding Effective FY 07	Full Fiscal Impact FY 07
Revenues (+)	($5,800,000)	($7,000,000)	($7,000,000)
Expenditures (-)	Minimal	Minimal	Minimal
Net	($5,800,000)	($7,000,000)	($7,000,000)

IMPACT ON REVENUES: This legislation would result in the direct loss of approximately $7 million in City parking meter revenue annually. Additionally, there would be a decrease in parking violation revenue from not issuing parking summonses related to Sunday meter parking.

IMPACT ON EXPENDITURES: There will be a cost associated with changing the signs that has yet to be determined.

Report for Int. No. 468-A

Report of the Committee on Health in favor of approving and adopting, notwithstanding the objection of the Mayor, a Local Law to amend the administrative code of the city of New York, in relation to requiring employers in the grocery industry to make prevailing health care expenditures on behalf of their employees.

The Committee on Health to which was referred on September 28, 2004 (Minutes, page 4465) and originally adopted by the Council on August 17, 2005 (Minutes, page 4096) the annexed amended proposed local law respectfully

Previous hearings on this legislation were held on December 10, 2004, June 9, 2005 and August 17, 2005, at which time the Committee, and subsequently the full Council, passed Int. No. 468-A.

I. BACKGROUND

A. National

The number of people without health insurance in the United States is striking. According to a 2004 report by Families USA (the "Families USA Report"), approximately 81.8 million people – one out of three (32.2 percent) of those under the age of 65 – were without health insurance in the United States for all or part of 2002 and 2003.[1] Of these 81.8 million uninsured individuals, two-thirds (65.3 percent) were uninsured for six months or more.[2] In fourteen (14) states, including New York, more than one out of three people under the age of 65 went without health insurance for all or part of 2002-2003.[3] The ten states with the largest number of uninsured people were California (11.9 million), Texas (8.5 million), New York (5.6 million), Florida (4.8 million), Illinois (3.5 million), Pennsylvania (2.8 million), Ohio (2.8 million), Michigan (2.5 million), Georgia (2.5 million), and North Carolina (2.4 million).[4]

[1]Families USA, One in Three: Non-elderly Americans Without Health Insurance, 2002-2003, June 2004, p.1.

[2]Id.

The Families USA Report notes that, contrary to popular perception, the overwhelming majority of people who experienced periods without health insurance in the last two years were connected to the workforce (either employed or actively seeking work). More than four in five individuals (85.5 percent) who went without health insurance during 2002-2003 were connected to the workforce in December 2003.[5] More specifically, of those uninsured individuals connected to the workforce, 78.8 percent were employed in December 2003, and 5.7 percent were actively looking for employment.[6]

Living without health insurance results in myriad negative impacts on one's current and long-term health. These impacts result in a situation where the uninsured:[7]

Are less likely to have a usual source of care outside the emergency room

Often go without screening and preventive care

Are sicker and die earlier than those who have insurance

Are subject to medical care that is more costly than that provided for insured Americans

Often delay or forgo needed medical care

Furthermore, the delay in obtaining medical attention for preventable and treatable illnesses has the unfortunate consequence of contributing to a sicker and less productive workforce.[8]

The Families USA Report further notes that while lack of health insurance coverage is a problem that affects people of all races and ethnic origins, African Americans and Hispanics are much more likely to be uninsured. While 23.5 percent of white, non-Hispanic people were uninsured, nearly three out of five non-elderly Hispanics (59.5 percent) and more than two out of five non-elderly African Americans (42.9 percent) were uninsured.[9] The Report also finds that Hispanics and African Americans experience longer spells of uninsurance compared to white, non-Hispanic people. Of the total number of uninsured Hispanics, African Americans and white, non-Hispanic people, 50.2, 34.1, and 24.2 percent, respectively, were uninsured for 13 months or more.[10]

B. New York City

According to a report written by the Brennan Center for Justice at NYU School of Law and New York Jobs with Justice, entitled "An Analysis of the New York City Health Care Security Act" in March 2005, 1.8 million working people in New York City, or a quarter of the City's population, did not have health insurance.[11]

A recent survey by the Commonwealth Fund found that one out of every three workers in New York City do not receive health insurance through their jobs.[12] Additionally, while many businesses continue to provide health insurance, the rising

costs of providing such insurance are increasingly being shifted to employees.[13] Between 2002 and 2003, the average American worker faced an increase of 11.2% on their health insurance premium.[14] In New York, the average worker's contribution for family coverage rose 54 percent, from $1,392 per year in 2001 to $2,148 per year in 2003.[15] As the cost of the required employee contribution has risen, the number of employees able to participate in employer-sponsored health insurance has decreased.[16]

According to the Association of Senior Human Resource Executives, there are currently bills pending in approximately thirty states that would require employers to provide some form of health insurance coverage for their employees.[17] This plethora

of bills requiring some form of health insurance coverage can be attributed to the continued increase of uninsured Americans and the lack of immediate and viable solutions at the federal level. Even localities have sought to address the crisis in health insurance. In addition to the Health Care Security Act currently being considered in New York City, San Francisco has had a law in effect for several years that requires employers who contract with the City of San Francisco provide health insurance to their employees. The City of San Francisco recently held a hearing in April on broadening the law to apply to all employers in the city.

Retailers in the grocery industry have helped pay for their employees' health care costs for several decades.[18] Currently, nearly 72% of grocery retailers help pay for health care for approximately 20,794 employees and their families.[19] However, the ability of such retailers to continue to financially assist with employee health care costs is becoming increasingly threatened due to a new trend among certain grocery retailers, especially gourmet groceries and "big box" food retailers, not to pay for the cost of health care, which in turn puts pressure on those employers who pay for health care costs to eliminate or reduce such benefits in an effort to remain competitive.[20]

[17]"Policy Brief: Pressure Building at State Level to Compel Employers to Provide Health Insurance Coverage," The Association of Senior Human Resource Executives, April 1, 2005.

Ensuring that employers do not eliminate employer-paid health care is important for minimizing the burden on taxpayers and the public health care system, protecting the health, safety and well-being of hardworking New Yorkers and promoting safe conditions and stable growth. Furthermore, research shows that ensuring access to employer-paid health care can strengthen industries by reducing employee turnover and improving employers' ability to recruit new employees. Under the Health Care Security Act, an estimated 300 hundred employers in the grocery industry will be required to make health care expenditures, thus helping the approximately 6,000 grocery employees and their families who presently do not have health care coverage to receive some financial assistance toward their health care costs.[21] By requiring that grocery retailers provide financial assistance for their employees' health care costs, the Health Care Security Act is the first step toward reducing the number of working New Yorkers who do not receive health care coverage.

[21]Working Paper: "NYC Health Care Security Act, Leveling the Playing Field for Responsible Businesses, An Analysis of the New York City Health Care Security Act," Brennan Center for Justice at NYU School of Law and New York Jobs with Justice, December 2004, at 11.

Paragraph 11 of subdivision b of section 22-506 would define "health care services" as primary or secondary medical care or services that would include, but not be limited to (i) inpatient and outpatient hospital services, (ii) physicians' surgical and medical services, (iii) laboratory, diagnostic and x-ray services, (iv) prescription drug coverage, (v) annual physical examinations, (vi) preventative services, (vii) mental health services or (viii) substance abuse treatment services. Paragraph 11 would also provide that this term would not include any medical procedure or treatment that is solely cosmetic.

Paragraph 12 of subdivision b would define "prevailing health care expenditure rate" as the amount of health care expenditure customarily made on behalf of a full-time employee and/or the family of such employee in the same trade or occupation in the covered industry." Such expenditure would be prorated on an hourly basis and calculated pursuant to paragraph 2 of subdivision c of this section.

Paragraph 13 would define "required health care expenditure" as the total health care expenditure that a covered employer would be required to make each year for its employees and/or the families of its employees pursuant to subdivision c of this section.

Paragraph 14 would define "retaliatory action" as the discharge, suspension, demotion or penalization of, or discrimination or taking other adverse action against, an employee with respect to the terms and conditions of such employee's employment.

Subdivision c of section 22-506 of Int. No. 468-A would create requirements with respect to health care expenditures. Specifically, paragraph 1 of subdivision c would mandate that covered employees make required health care expenditures on behalf of their employees and/or the families of their employers each fiscal year.

Paragraph 2 of subdivision c would state that the administering agency shall annually determine the prevailing health care expenditure rate for employees in the covered industry using procedures and standards similar to those used to calculate prevailing wages and fringe benefits pursuant to sections 230 and 220 of the New York state labor law. This paragraph would also provide that where 30 percent or more of such employees are covered by a valid collective bargaining agreement, the prevailing health care expenditure rate for such employees would be equal to the health care expenditure rate for full-time employees as provided under such collective bargaining agreements. This paragraph would also provide that where there are more than one such collective bargaining agreements with differing health

care expenditure rates for full-time employees which together cover 30 percent or more of the employees in the covered industry, the prevailing health care expenditure rate for such employees would be the average such rate of all such agreements. Additionally, paragraph 2 if subdivision c would provide that all employees employed in the covered industry would be deemed to be in the same trade or occupation for purposes of determining the prevailing health care expenditure rate. Finally, paragraph 2 of this subdivision would state that each prevailing health care expenditure rate determined pursuant to this subdivision shall be published by the administering agency by March 1 of each year and shall take effect on July 1 of the fiscal year.

Paragraph 3 of subdivision c Int. No. 468-A would state that each covered employer must annually determine its required health care expenditure by multiplying the prevailing health care expenditure rate as determined by the administering agency pursuant to this subdivision for such employer's covered industry by the total number of hours worked during the fiscal year by all the employees of that employer.

Paragraph 4 of subdivision c of Int. No. 468-A would establish certain record keeping requirements for employers. Subparagraph (i) of paragraph 4 of subdivision c would state that a covered employer is required to maintain an accurate work log that lists, for each employee, such employee's name, trade or occupation and the dates and hours worked by that employee. Subparagraph (ii) would require that a covered employer provide an employee or his/her designated representative(s) with access to such employee's work log and payroll records for inspection and copying. Subparagraph (iii) would require the maintenance of accurate records of health care expenditures and required health care expenditures, as well as proof of such expenditures each year, provided that covered employers would not be required to maintain such records in any particular form. Subparagraph (iv) would require employers to submit a report to the administering agency on an annual basis containing the information required to be maintained pursuant to subparagraphs (i) and (iii) of this paragraph, and such other information that the administering agency shall require. This report would be made available to the public upon request without employee names or other personally identifying information. Furthermore, paragraph 4 would state that a covered employer that is a signatory to one or more collective bargaining agreements that cover at least 75 percent of its employees may comply with this section as provided in subdivision g.

Subdivision d of section 22-506 of Int. No. 468-A would specify provisions with respect to unlawful retaliation. Specifically, subdivision d would make it unlawful for any covered employer to deprive or threaten to deprive any person of employment, take or threaten to take any retaliatory action against any person, or directly or indirectly intimidate, threaten, coerce, command or influence or attempt to intimidate, threaten, coerce, command or influence any person because such person has taken an action to enforce, inquire about or inform others about the requirements of this section. Subdivision d would also provide that taking any such adverse action against any person within 90 days of such person's exercise of rights pursuant to this section shall raise a rebuttable presumption that such action was in retaliation for the exercise of such rights.

Subdivision e of section 22-506 of Int. No. 468-A would create violations and penalties. Paragraph 1 of subdivision e would provide that any covered employer found to be in violation of this section by failing to make health care expenditures during the fiscal year at least equal to the required health care expenditure for such employer shall be liable for a civil penalty equal to the amount of the shortfall. Paragraph 2 of subdivision e would state that any covered employer found to be in violation of this section by failing to make health care expenditures during the fiscal year at least equal to the required health care expenditure for such employer shall correct such violation within 90 days of such determination. Pursuant to paragraph 2, the administering agency would serve a notice to correct such violation, which would specify the date that is 90 days from such determination by which the violation shall be corrected. Failure to correct such violation would subject a covered employer to a civil penalty of not less than $500 for each day that such violation continues.

Paragraph 3 of subdivision e would provide that any covered employer found to have violated any of the requirements of paragraph (4) of subdivision c of this section would be liable for a civil penalty of not less than $500 for each violation.

Paragraph 4 of subdivision e would provide that in addition to being liable for civil penalties pursuant to this subdivision, any covered employer found to have violated this section may be subject to other action taken by the administering agency, including, but not limited to, requesting that City agencies or departments revoke or suspend any City-issued registration certificates, permits or licenses held by such covered employer until such time as the violation is remedied.

Paragraph 5 of subdivision e would provide that penalties imposed pursuant to this section shall not affect any right or remedy available or any civil or criminal penalty applicable under law to any individual or entity, or in any way diminish or reduce the remedy or damages recoverable in any action in equity or law before a court with competent jurisdiction.

Subdivision f of section 22-506 of Int. No. 468-A would provide for enforcement of this legislation. Specifically, paragraph 1 of this subdivision would provide that the administering agency shall take appropriate action to enforce this section, including, but not limited to, periodically auditing covered employers to monitor compliance with this section, establishing a system to receive complaints from any person charging that a violation has occurred pursuant to this section, investigating complaints received and making findings of violations and civil penalties in accordance with the provisions of this section.

Paragraph 2 of subdivision f would provide that any proceeding to recover any civil penalty authorized pursuant to this chapter shall be commenced by the service of a notice of violation, which would be returnable to the administering agency. The commissioner or other designated person of such administering agency would be authorized to impose the civil penalties prescribed by this section after due notice and an opportunity for a hearing.

Paragraph 3 of subdivision f would provide that any action or proceeding that may be appropriate or necessary for the correction of any violation issued pursuant to this section, including, but not limited to, actions to secure permanent injunctions, enjoining any act or practices which constitute such violation, mandating compliance with the provisions of this section or such other relief as may be appropriate, may be initiated in any court of competent jurisdiction by the corporation counsel or such other persons designated by the corporation counsel on behalf of the administering agency.

Paragraph 4 of subdivision f would provide that any joint-labor management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (section 175a of title 29 of the United States Code) operating in the covered industry may bring an action in any court of competent jurisdiction against a covered employer that fails to make health care expenditures during the fiscal year at least equal to the required health care expenditure for such employer in violation of this section. Upon a determination of any such violation, the court may award any appropriate remedy at law or equity and shall award reasonable attorney's fees and costs incurred in maintaining the action to any complaining party who prevails in any such enforcement action.

Paragraph 5 of subdivision f would state that any aggrieved person may bring an action in any court of competent jurisdiction against a covered employer for violation of subdivision d of this section. Upon a determination of any such violation, the court may award any appropriate remedy at law or equity and shall award reasonable attorney's fees and costs incurred in maintaining the action to any complaining party who prevails in any such enforcement action.

Paragraph 6 of subdivision f would require that any enforcement proceedings commenced under this section must be commenced within 3 years after the date of the occurrence or termination of the alleged violation, which ever occurs later.

Subdivision g of section 22-506 of Int. No. 468-A would provide for an exemption to the legislation. Specifically, a covered employer that is a signatory to one or more collective bargaining agreements that cover at least 75 percent of its employees may fully comply with the requirements of this section by filing annually with the administering agency proof of such collective bargaining agreements and their terms, in such form and manner as specified by the administering agency, and would otherwise be exempt from all other provisions of this section.

Subdivision h of section 22-506 of Int. No. 468-A would state requirements regarding rules. Specifically, the administering agency shall promulgate rules in accordance with this section and such other rules as might be necessary for the purpose of implementing, construing and carrying out the provisions of this section.

Section 3 of Int. No. 468-A would contain a severability clause.

Section 4 would state that Int. No. 468-A would take effect 90 days after its enactment into law.

Council received the Mayor's veto on September 16, 2005. The proposed local law will be reconsidered by the Committee on October 11, 2005.

DATE SUBMITTED TO THE COUNCIL: September 28, 2004.

Notwithstanding the objection of the Mayor, the Committee recommends the re-adoption of Int. No. 468-A.

(The following is the text of Int. No. 468-A:)

Int. No. 468-A

By Council Members Quinn, Jackson, Reyna, Rivera, Gioia, Gennaro, Addabbo, Palma, Weprin, Yassky, Baez, Brewer, James, Gerson, Perkins, Katz, de Blasio, Martinez, Monserrate, Comrie, Sanders, Barron, Boyland, Clarke, Fidler, Gentile, Gonzalez, Koppell, McMahon, Nelson, Recchia, Sears, Stewart, Vann, Foster, Liu, Reed, Moskowitz, Lopez, Seabrook, Vallone Jr., Arroyo, The Public Advocate (Gotbaum), The Speaker (Council Member Miller) and Avella.

A Local Law to amend the administrative code of the city of New York, in relation to requiring employers in the grocery industry to make prevailing health care expenditures on behalf of their employees.

Be it enacted by the Council as follows:

Section 1. Declaration of legislative findings and intent. In major industries in New York City, such as the grocery industry, responsible employers have long provided employer-paid health care for their employees and the families of their employees. Ensuring that employers do not eliminate employer-paid health care is important for minimizing the burden on taxpayers and the public health care system, protecting the health, safety and well-being of hardworking New Yorkers and promoting safe conditions and stable growth. Furthermore, research shows that ensuring access to employer-paid health care can strengthen industries by reducing employee turnover and improving employers' ability to recruit new employees.

The City Council finds that in order to achieve these goals, employers should make prevailing health care expenditures on behalf of their employees. This local law initially establishes such a program in the grocery industry, where responsible employers have demonstrated that it is economically feasible to pay for their employees' health care, but a growing number of employers in this industry are not doing so.

§2. Chapter 5 of title 22 of the administrative code of the city of New York is hereby amended by adding a new section 22-506 to read as follows:

§22-506 a. Short title. This section shall be known and may be cited as the "Health Care Security Act."

(6) "Entity" or "Person" means any natural person, corporation, sole proprietorship, partnership, association, joint venture, limited liability company or other legal entity.

(11) "Health care services" means primary or secondary medical care or services, including, but not limited to, (i) inpatient and outpatient hospital services, (ii) physicians' surgical and medical services, (iii) laboratory, diagnostic and x-ray services, (iv) prescription drug coverage, (v) annual physical examinations, (vi) preventative services, (vii) mental health services or (viii) substance abuse treatment services; provided, however, that such term shall not include any medical procedure or treatment which is solely cosmetic.

(12) "Prevailing health care expenditure rate" means the amount of health care expenditure customarily made on behalf of a full-time employee and/or the family of such employee in the same trade or occupation in the covered industry, prorated on an hourly basis and calculated pursuant to paragraph 2 of subdivision c of this section.

(2) The administering agency shall annually determine the prevailing health care expenditure rate for employees in the covered industry using procedures and standards similar to those used to calculate prevailing wages and fringe benefits pursuant to sections 230 and 220 of the New York state labor law; provided that where thirty percent or more of such employees are covered by a valid collective bargaining agreement, the prevailing health care expenditure rate for such employees shall be equal to the health care expenditure rate for full-time employees as provided under such collective bargaining agreement; provided further that where there are more than one such collective bargaining agreements with differing health care expenditure rates for full-time employees which together cover thirty percent or more of the employees in the covered industry, the prevailing health care expenditure rate for such employees shall be the average such rate of all such agreements; and provided further that all employees employed in the covered industry shall be deemed to be in the same trade or occupation for purposes of determining the prevailing health care expenditure rate. Each prevailing health care expenditure rate determined pursuant to this subdivision shall be published by the administering agency by March 1 of each year and shall take effect on July 1 of the fiscal year.

(3) Each covered employer shall annually determine its required health care expenditure by multiplying the prevailing health care expenditure rate as determined by the administering agency pursuant to this subdivision for such employer's covered industry by the total number of hours worked during the fiscal year by all the employees of such employer.

(4) A covered employer shall (i) maintain an accurate work log that lists, for each employee, such employee's name, trade or occupation and the dates and hours worked by such employee; (ii) provide an employee or such employee's designated representative(s) with access to such employee's work log and payroll records for inspection and copying; (iii) maintain accurate records of health care expenditures and required health care expenditures, and proof of such expenditures each year, provided, however, that covered employers shall not be required to maintain such records in any particular form; and (iv) provide a report to the administering agency on an annual basis containing the information required to be maintained pursuant to subparagraphs (i) and (iii) of this paragraph, and such other information as the administering agency shall require. It shall be unlawful for any covered employer to deprive or threaten to deprive any person of employment, take or threaten to take any retaliatory action against any person, or directly or indirectly intimidate, threaten, coerce, command or influence or attempt to intimidate, threaten, coerce, command or influence any person because such person has taken an action to enforce, inquire about or inform others about the requirements of this section. Taking any such adverse action against any person within ninety days of such person's exercise of rights pursuant to this section shall raise a rebuttable presumption that such action was in retaliation for the exercise of such rights.

e. Violations and penalties. (1) Any covered employer found to be in violation of this section by failing to make health care expenditures during the fiscal year at least equal to the required health care expenditure for such employer shall be liable for a civil penalty equal to the amount of the shortfall.

(2) Any covered employer found to be in violation of this section by failing to make health care expenditures during the fiscal year at least equal to the required health care expenditure for such employer shall correct such violation within ninety days of such determination. The administering agency shall serve a notice to correct such violation which shall specify the date which is ninety days from such determination by which the violation shall be corrected. Failure to correct such violation pursuant to this paragraph shall subject a covered employer to a civil penalty of not less than five hundred dollars for each day such violation continues.

(3) Any covered employer found to have violated any of the requirements of paragraph (4) of subdivision c of this section shall be liable for a civil penalty of not less than five hundred dollars for each such violation.

(4) In addition to being liable for civil penalties pursuant to this subdivision, any covered employer found to have violated this section may be subject to other action taken by the administering agency, including, but not limited to, requesting that city agencies or departments revoke or suspend any city-issued registration certificates, permits or licenses held by such covered employer until such time as the violation is remedied.

(5) Penalties imposed pursuant to this section shall not affect any right or remedy available or civil or criminal penalty applicable under law to any individual or entity, or in any way diminish or reduce the remedy or damages recoverable in any action in equity or law before a court of law with competent jurisdiction.

f. Enforcement. (1) The administering agency shall take appropriate action to enforce this section, including, but not limited to, periodically auditing covered employers to monitor compliance with this section; establishing a system to receive complaints from any person charging that a violation has occurred pursuant to this section; investigating complaints received; and making findings of violations and civil penalties in accordance with the provisions of this section.

(2) Any proceeding to recover any civil penalty authorized pursuant to this chapter shall be commenced by the service of a notice of violation which shall be returnable to the administering agency. The commissioner or other designated person of such administering agency shall, after due notice and an opportunity for a hearing, be authorized to impose the civil penalties prescribed by this section.

(3) Any action or proceeding that may be appropriate or necessary for the correction of any violation issued pursuant to this section, including, but not limited to, actions to secure permanent injunctions, enjoining any acts or practices which constitute such violation, mandating compliance with the provisions of this section or such other relief as may be appropriate, may be initiated in any court of competent jurisdiction by the corporation counsel or such other persons designated by the corporation counsel on behalf of the administering agency.

(4) Any joint-labor management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (section 175a of title 29 of the United States code) operating in the covered industry may bring an action in any court of competent jurisdiction against a covered employer that fails to make health care expenditures during the fiscal year at least equal to the required health care expenditure for such employer in violation of this section. Upon a determination of any such violation, the court may award any appropriate remedy at law or equity and shall award reasonable attorney's fees and costs incurred in maintaining the action to any complaining party who prevails in any such enforcement action.

(5) Any aggrieved person may bring an action in any court of competent jurisdiction against a covered employer for violation of subdivision d of this section. Upon a determination of any such violation, the court may award any appropriate remedy at law or equity and shall award reasonable attorney's fees and costs incurred in maintaining the action to any complaining party who prevails in any such enforcement action.

(6) Any enforcement proceedings commenced under this section must be commenced within three years after the date of the occurrence or termination of the alleged violation, which ever occurs later.

g. Exemption. A covered employer that is a signatory to one or more collective bargaining agreements that cover at least seventy-five percent of its employees may fully comply with the requirements of this section by filing annually with the administering agency proof of such collective bargaining agreements and their terms, in such form and manner as specified by the administering agency, and shall otherwise be exempt from all other provisions of this section.

h. Rules. The administering agency shall promulgate rules in accordance with this section and such other rules as may be necessary for the purpose of implementing, construing and carrying out the provisions this section.

§ 3. If any section, subsection, sentence, clause, phrase, or other portion of this local law, including any requirement imposed pursuant to it, is for any reason declared unconstitutional or invalid, in whole or in part, by any court of competent jurisdiction, such portion shall be deemed severable, and such unconstitutionality or invalidity shall not affect the validity of the remaining portions of this local law, which remaining portions shall continue in full force and effect.

Reports of the Committee on State and Federal Legislation

At this point the Speaker (Council Member Miller) announced that the following item had been preconsidered by the Committee on State and Federal Legislation and had been favorably reported for adoption.

Report for State Legislation Res. No. 143

Report of the Committee on State and Federal Legislation in favor of approving a State Legislation Resolution requesting the New York State Legislature to pass a bill introduced by Senator Golden, S.5984, "AN ACT to amend the tax law, in relation to enabling a city of one million or more to suspend for December, January and February the sales and compensating use tax imposed on fuel oil used for residential heating purposes and natural gas used for residential purposes".

The Committee on State and Federal Legislation to which was referred on October 11, 2005 the annexed State Legislation Resolution respectfully

REPORTS:

This legislative item is a Request for a Home Rule Message asking for the New York State Legislature in Albany to act favorably in this matter.

Today the Committee on State and Federal Legislation will meet to consider a State Legislative proposal which would give New York City the authority to suspend the local sales tax on certain home energy sources. Currently, New York City lacks any authority to change its sales tax on home energy sources. This bill would allow New York City to suspend the 4% local sales tax on the retail sale or use of home heating oil and natural gas used for residential purposes for the months of December, January and February. This proposal has been introduced so that some measure of relief can be provided to New York City residents during this time of dramatically increasing residential energy prices.

BACKGROUND:

The Rising Costs of Major Home Heating Energy Sources

Home Heating Oil:

According to a *New York State Energy Research and Development Authority Weekly Heating Fuels Report,* published on September 5, 2005, home heating oil prices in New York State have reached historic highs and the weekly average home heating oil price on such date revealed an increase of over 50% compared to the exact same time last year. The dramatic price increases in home heating oil are attributable to recent events including capacity problems, speculation behind higher oil prices, and the devastation of a number of tropical storms and hurricanes (most notably, Hurricanes Katrina and Rita) to the U.S. Gulf region's oil-producing infrastructure. As a result, New Yorkers who purchase home heating oil to heat their homes will be paying an average of $400 more this winter compared to last winter.[1]

Natural Gas:

According to recent estimates by the Energy Department, natural gas consumers are also likely to pay roughly $400 more for their natural gas this winter than last year, with average bills jumping to $1,130.[2] In the last couple of months, the price of natural gas has nearly doubled. Natural gas prices for November delivery closed at $14.196 a thousand cubic feet, a gain of 9.6 cents on the New York Mercantile Exchange. Natural gas now costs more than three times its average of $4.70 from 2000 to 2005 and seven times the 1990's average price of $2 a thousand cubic feet.[3]

In New York State, 50% of all homes use natural gas as their main source of heating, while 40% of homes use fuel oil.[4] This increase in home heating oil and natural gas prices, which in some cases translates into tens and hundreds of additional dollars per month for a homeowner, disproportionately affects persons of low and middle income, many of whom are struggling to keep their homes heated during the cold winter months.

Applicability of State Sales Tax Laws to Home Energy Sources in New York City

Article 28 of the State Tax Law imposes a state sales tax of four percent on the receipts of every retail sale of goods and the sale of services unless otherwise specified in the article. Section 1210 of Article 29 of the State Tax Law authorizes cities and counties to adopt local laws or ordinances enacting local sales and compensating use taxes.

[4] 1997 Residential Energy Overview

However, since the City's fiscal crisis in the mid 1970s, New York City's authority to impose a local sales tax pursuant to §1210 of the Tax Law has been suspended. Since the creation of the Municipal Assistance Corporation (MAC), §1107 of the Tax Law directly imposes New York City's local portion of the sales tax. This state imposition of the City's sales tax remains in effect until all of the bonds and notes issued by MAC are paid, at which time the City is no longer subject to §1107 and its authority to act pursuant to §1210 returns.

In 1978, the legislature added §1105-A to Article 28 of the Tax Law which phased out the State's four percent portion of the sales tax on certain energy sources and services used for residential purposes, which included fuel oil, coal, wood (for heating), natural gas, electricity, steam and gas, and electric and steam services. By October 1, 1980, a zero percent State sales tax rate was in effect for these residential energy sources and services. The following year, §1210 of the tax law was amended to allow cities and counties that imposed a local sales tax pursuant to its provisions to lower their local portion of the sales tax on energy sources used for residential purposes, or to exempt such energy sources altogether from the local sales tax (See §§1210(a)(3) and (b)(3)). However, the law provided that any such option to impose a lower rate or to exempt the residential energy sources from the local sales tax had to apply to all of the enumerated energy sources - a locality could not chose to lower the rates on, or exempt, for example, home heating oil but not gas or electricity used for residential purposes.

This flexibility for municipalities to lower their sales tax on, or exempt from the tax, residential energy sources and services was expressly denied to those localities subject to the sales tax provisions imposed on them by the State upon the creation of a Municipal Assistance Corporation. Thus, because New York City is subject to §1107 until its MAC bonds are discharged, it currently lacks the authority to reduce the tax rate on residential energy sources or services or to exempt them from the sales tax.

ANALYSIS OF STATE PROPOSAL

This Senate bill would authorize the City to adopt a local law suspending its sales tax on both fuel oil used for residential purposes, and on natural gas and natural gas services used for residential purposes. The bill provides that the City may enact

such suspension for the months of December, January and February. The local law would have to take effect immediately upon its enactment and would expire and be deemed repealed on March 1, 2006.

Reports of the Committee on Transportation

Report for Int. No. 699

Report of the Committee on Transportation in favor of approving and adopting, notwithstanding the objection of the Mayor, a Local Law to amend the administrative code of the city of New York, in relation to licensing of stoop line stands contingent upon certification that such stand does not obstruct pedestrian traffic.

The Committee on Transportation to which was referred on August 17, 2005 (Minutes, page 4243) and originally adopted by the Council on August 17, 2005 (Minutes, page 4209) the annexed proposed local law respectfully

REPORTS:

INTRODUCTION

On October 3, 2005, the Committee on Transportation, chaired by Council Member John C. Liu, will consider an override of the Mayor's veto of Int. 699. Int. 699 would amend Section 20-239 of the Administrative Code of the City of New York. The bill would require the Department of Transportation ("DOT") to prepare a report on whether or not a stoop line stand would have an adverse effect on pedestrian safety or would obstruct pedestrian passage. The report would have to be based on an on-site analysis and DOT would have to certify that there would be no adverse effect on pedestrian safety or pedestrian traffic before the Department of Consumer Affairs can issue a stoop line stand license to a merchant or renew such a license. Under this bill, the Commissioner of Consumer Affairs would be required to forward copies of stoop line stand applications or renewals and any Department of Transportation certification and reports on the stoop line stand to the local council member and community board within five days after the receipt of each by the Commissioner of Consumer Affairs.

On August 17, 2005, the Committee on Transportation held a full public hearing on a Int. 699 as a preconsidered introduction. The Committee heard testimony on this bill from David Woloch, Deputy Commissioner for External Affairs at the NYC Department of Transportation; Pauline Toole, Assistant Commissioner at the Department of Consumer Affairs; Sung Soo Kim, President of the Korean American Small Business Service Congress and Bong Kt Hong of the Korean American Small Business Service Center.

Following testimony, the Committee voted to approve Preconsidered Introduction 699. The vote was seven in the affirmative and one in the negative. Accordingly, the Committee recommended its adoption. On August 17, 2005, Preconsidered Int. No. 699 was passed by the full Council by a vote of 39 in the affirmative, nine in the negative, and two abstentions and then sent to the Mayor for disposition.

On September 16, 2005, this legislation was vetoed by the Mayor. A veto and disapproval message (M-672) on Int. No 699 was subsequently received by the City Council from the Clerk at its Stated Meeting on September 28, 2005. The message was referred to the Committee on Transportation and the Committee will consider repassing Int. No. 699, notwithstanding the objections of the Mayor.

BACKGROUND

The use of public sidewalks to sell goods has been a tradition since the founding of the City of New York. Selling goods to the public on streets provides work for many small entrepreneurs, many of whom are immigrants, and is convenient for customers.[1] But, for almost as long as people have been selling goods on streets, others have complained about the noise, confusion and congestion that street sales may create on a busy public sidewalk.[2]

Although many of the past discussions about the problem of selling goods on public streets involved mainly street peddlers, it was acknowledged that stoop line stands also caused problems.[3] hi the early 1900s, merchants saw stoop line stands as a way to attract shoppers after laws were passed to prohibit street peddlers, but Mayor Fiorella LaGuardia considered stoop line stands to be glorified pushcarts.[4]

Almost a century later, with a greatly increased population[5], many stoop line stands are still contributing to noise, congestion, confusion and potentially creating pedestrian safety issues as people have to walk in the streets because there are more people and stoop line stands competing for scarce sidewalk space. The problems caused by stoop line stands have lead to periodic enforcement blitzes by the City to curb the problem.

For instance, on September 25, 2004, a Brighton Beach fruit vendor was issued $3,000 in tickets because of problems with his stoop line stand.[6] In 2002, the Commissioner of Consumer Affairs joined local

Flushing elected and community officials to visit local businesses to educate them about stoop line stands laws. The visit was initially successful, but within three weeks, many of the businesses again set up illegal stoop line stands.[7] In addition to pedestrian safety issues, public safety issues may arise from the operation of stoop line stands on crowded streets. The 109th Precinct, which covers Flushing, noted that pick pocketing near stoop line stands is a problem because of the increased congestion.[8]

Stoop line stands are regulated by Chapter 20, subchapter 7 of the New York City Administrative Code. Under the code, a merchant must obtain a license from the Department of Consumer Affairs before lawfully operating a stoop line stand.[9] Stoop line stands are also limited to the sale of certain types of merchandise.[10]

The Administrative Code regulates the size of the stand. Stoop line stands cannot exceed ten feet in length, four feet in width or seven feet in height.[11] However, on a sidewalk that is at least 16 feet wide, the stand may be five feet in width.[12] Before a stoop line stand license may be issued, the location must be approved by the Department of Transportation.[13] Similarly, the Department of Transportation cannot approve a renewal license unless it determines the stoop line stand does not obstruct the free use of the sidewalks by pedestrians.[14] These stoop line stands may be temporarily removed where a police officer or other authorized City employee determines that exigent conditions require the removal of the stoop line stand.[15]

ANALYSIS

Section one of the bill amends section 20-239 of the Administrative Code by clarifying what actions the Department of Transportation must take on a stoop line stand license before the Commissioner of Consumer Affairs may issue a stoop line stand license. Under current section 20-239, the Department of Consumer Affairs must obtain "approval" from the Department of Transportation to issue a new stoop line stand license or a determination from the Department of Transportation that the location does not obstruct the free use of sidewalks by pedestrians before a license may be renewed.

The bill would require that the Department of Transportation issue a written certification that the stoop line stand for which a license or renewal is sought will not have an adverse affect on pedestrian safety or pose an obstruction to the free use of sidewalks by pedestrians. Before a license or renewal may be issued, the Department of Transportation must support that determination by producing a report based upon an on-site analysis of pedestrian traffic volume. In the report, the Department of Transportation shall include the data used to reach its conclusion, describe the methodology used to make its determination and certify that the stoop line stand will not have an adverse effect on pedestrian safety nor pose an obstruction to the free use of the sidewalks by pedestrians.

To ensure that the community is aware of applications for and renewals of stoop line stands, the bill requires the Commissioner of Consumer Affairs to forward copies of applications for a stoop line stand license or renewal, and any certifications or reports to the local council member and community board within five days of receipt of each by the Commissioner.

Section two of the bill provides that this local law shall take effect immediately after its enactment into law.

Res. No. 1193

Resolution calling upon the Department of Consumer Affairs, in response to the disruption of Hurricanes Katrina and Rita, to examine the necessity of declaring gasoline in temporary short supply in order to protect consumers from price gouging and for the New York State Attorney General to vigilantly continue investigating instances of potential price gouging.

By Council Members Gentile, Barron, Comrie, Fidler, James, Jennings, Koppell, Liu, McMahon, Nelson, Palma, Recchia, Stewart and Weprin

Whereas, Most of the gasoline sold in the Unites States comes out of the refineries in the Gulf Coast region, accounting for some 45% of the nation's gasoline production; and

Whereas, Hurricane Katrina brought to a halt many of the oil refineries in the region, resulting in the cost of crude oil surpassing $70 a barrel, an all-time high; and

Whereas, Resulting from the climbing cost of oil and its limited production, the cost of gasoline for consumers began to rise steeply, with regular unleaded gasoline prices in New York City having approached $4 a gallon several weeks ago; and

Whereas, As gasoline prices continued to rise on a daily basis, some New York City gas stations were raising gasoline prices more than once a day, prompting elected officials and consumers alike to call for action against potential price gougers; and

Whereas, Although there is no federal price gouging law, Hurricane Katrina's effect on gas prices has prompted a number of members of Congress to consider enacting some form of federal protection; and

Whereas, New York is one of 23 states to have price gouging laws; the New York law, however, does not go into effect unless the Governor has declared a state of emergency; and

Whereas, Governor Pataki and Attorney General Spitzer have announced that the State Gasoline Price Stability Task Force is monitoring gasoline stations for price gouging and will take legal action if any improprieties are discovered; and

Whereas, In New York City, the commissioner of the Department of Consumer Affairs may declare a consumer product, including gasoline, to be in temporary short supply, which puts into place a number of consumer protections, one of which prohibits retailers to "increase prices in excess of an amount reflecting normal market fluctuations"; and

Whereas, To further protect consumers from unscrupulous gas stations during this trying time, the City Council acted quickly and introduced legislation to increase fines against gas stations that violate regulations pertaining to the sale of unleaded gasoline and octane rating certification; and

Whereas, Despite reports that some gas stations in the city were dry, city officials claimed that there was no emergency but that the Department of Consumer Affairs was monitoring the situation and sending out inspectors to ensure that gas stations were properly advertising prices and checking octane levels at the pumps; and

Whereas, Although the devastation of Hurricane Rita was significantly less than that of Hurricane Katrina, it still affected a number of oil refineries in the area, which as some speculate, could once again affect gasoline prices and supplies in the area in the coming weeks; now therefore, be it

Resolved, That the Council of the City of New York calls upon the Department of Consumer Affairs, in response to the disruption of Hurricanes Katrina and Rita, to examine the necessity of declaring gasoline in temporary short supply in order to protect consumers from price gouging and for the New York State Attorney General to vigilantly continue investigating instances of potential price gouging.

Res. No. 1194

Resolution calling upon President Bush to continue utilizing the Strategic Petroleum Reserve to mitigate the rising price of fuel caused by Hurricanes Katrina and Rita, and to compel him to consider alternative methods to help alleviate the concern over possible record-high winter fuel costs.

By Council Members Gentile, Barron, Comrie, Fidler, James, Jennings, Nelson, Palma, Recchia, Stewart and Weprin.

Whereas, The devastating results of both Hurricane Katrina and Hurricane Rita, have demonstrated that natural disasters in the Gulf region produce an eminent threat to oil production on the Gulf Coast; and

Whereas, "Through the end of September, the 2005 season has had nine hurricanes, five of them major, and 17 named storms," according to the National Hurricane Center, which notes that the number of hurricanes have increased, dramatically, over the past few years; and

Whereas, Hurricane researchers forecast another two hurricanes for the month of October, one of which will be of sufficient destructive power that could put the United States at the mercy of a further energy crisis; and

Whereas, The Gulf region produces roughly 29% of United States crude oil and 30% of United States gasoline production; and

Whereas, Hurricanes Katrina and Rita have closed 109 oil rigs and 5 major drilling stations, according the Secretary of the Interior, as well as the Louisiana Offshore Platform and the New Orleans Port, responsible for a bulk of oil importation and transportation; and

Whereas, On October 4, 2005, close to 90% of Gulf crude oil production and nearly 75% of Gulf natural gas extractions remain shut down, according to the Minerals Management Service, an agency of the U.S. Department of the Interior; and

Whereas, As of October 4, 2005, the average price of a gallon of regular unleaded gasoline had risen to $3.005 in New York City, a price nearly a dollar more than Oct. 4, 2004, according to AAA's Daily Fuel Gauge Report; and

Whereas, The average U.S. household can expect to pay 53% more on their gas bills this winter, due to the loss of natural gas extraction from the Gulf, combined with the already 33% spike on fuel costs for their automobiles; and

Whereas, Senator Charles Schumer has proposed various legislative devices to curb the continual rise in fuel costs, including calling on President Bush to continue to offer crude oil from the nation's Strategic Petroleum Reserve (SPR) for a time period of at least three months, whereby oil producers are given the opportunity to supplement their dwindling supply lines through online auction; and

Whereas, Senator Schumer believes that the release of crude oil from the SPR will force crude oil producers, both foreign and domestic, to reduce their demanded price for crude oil by providing refineries with an alternative source; and

Whereas, Senator Schumer, along with Senator Richard Durbin, has introduced a bill to create the Strategic Gasoline and Fuel Reserve, calling for the storage of up to 40 million barrels of refined gasoline and up to 7.5 million barrels of jet fuel which would immediately hit the market in time of need to accelerate the process of getting refined products to consumers; and

Whereas, Without governmental action, the U.S. public, including millions of New Yorkers, will be forced to cut back on travel and other uses of their automobiles as well as losing a substantial portion of their income to rising gas and heating costs; and

Whereas, The utilization of these measures such as these will assist in sustaining the price of gasoline thereby helping consumers handle the rising cost of the natural gas required for heating their homes and businesses during the winter months; now, therefore, be it

Resolved, That the Council of the City of New York calls upon President Bush to continue utilizing the Strategic Petroleum Reserve to mitigate the rising price of fuel caused by Hurricanes Katrina and Rita, and to compel him to consider alternative methods to help alleviate the concern over possible record-high winter fuel costs.

Section 1. The Council shall be authorized to fix new annual tax rates for taxes on real property for fiscal year 2006. Notwithstanding any provision of this local law, any new annual tax rates fixed pursuant to this local law shall be at rates that are ten percent less than the rates for taxes on real property in effect immediately prior to any such new rates fixed pursuant to the authority of this local law; provided, however, that any such new rates fixed pursuant to the authority of this local law shall only be effective for fiscal year 2006 if fixed by resolution adopted on or before June 30, 2006.

Res. No. 1196

Resolution calling upon the New York State Legislature to adopt legislation that would require that all preparatory procedures necessary for laser hair removal be performed under the direct supervision of a physician properly trained and licensed in such hair removal procedure.

By Council Members Rivera, Barron, Gonzalez and Palma.

Whereas, Laser hair removal has become a popular method of removing unwanted facial and body hair; and

Whereas, Laser hair removal works by using a process referred to as selective photothermolysis, whereby a beam of laser light is sent to a group of hair follicles that is capable of destroying the hair roots while leaving the surrounding skin unharmed; and

Whereas, Individuals who are considered qualified to perform laser hair removal varies state by state, and in New York State, such procedures may be performed by non-physician operators at spas, salons or clinics; and

Whereas, According to a 2002 member survey of the American Society for Dermatologic Surgery (the "ASDS"), dermatologic surgeons indicate that cosmetic procedures, including laser hair removal, present a public safety concern when performed by non-physicians without adequate training or supervision; and

Whereas, According to the survey, the incidence of complications from laser and other light-based hair removal practices by non-physicians rose significantly from 24% in 2001 to 31% in 2002, and 41% of surveyed members reported an increase in patients seeking corrective care after laser hair removal treatments performed by untrained non-physicians; and

Whereas, Complications from poorly supervised laser hair removal preparatory treatments can be fatal, as in the case of Shiri Berg, a 22 year-old college student who died on January 10, 2005, after spending ten days in a coma as a result of using a cream containing Lidocaine and Tetracaine, which the spa that was to perform her laser hair removal told her to use in advance of the treatment in order to minimize any discomfort during the procedure; and

Whereas, Almost three years earlier, Blanca Bolanos went into convulsions in her car driving to a Tuscon, Arizona, laser hair removal clinic, and spent two years in a coma before dying, also as a result of using a cream containing Lidocaine and Tetracaine in anticipation of her laser hair removal treatment; and

Whereas, In recognition of the dangers of improperly supervised laser hair removal preparatory procedures, the New York State Legislature should adopt a law that requires that such treatments be provided only under the direct supervision of a physician; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to adopt legislation that would require that all preparatory procedures necessary for laser hair removal be performed under the direct supervision of a physician properly trained and licensed in such hair removal procedure.

Resolved, that the Council of the City of New York, in accordance with the provisions of Section 2 of Article 9 of the Constitution of the State of New York, does hereby request the New York State Legislature to enact into law the aforesaid pending bill.

Adopted by the Council (preconsidered and approved by the Committee on State and Federal Legislation.)

Res. No. 1197

Resolution in support of H. Res. 313, which urges the President to authorize the transfer of ownership of one of the bells taken from the town of Balangiga on the island of Samar, Philippines in 1901, and currently displayed at F.E. Warren Air Force Base in Wyoming, to the people of the Philippines.

By Council Members Sears, Barron, Liu and Weprin.

Whereas, The United States of America and the citizens of the Republic of the Philippines have shared historic and political ties since the island was ceded to United States by Spain at the conclusion of the Spanish-American War in 1898; and

Whereas, After the United States acquired the Philippines, armed conflict occurred between American Forces and the Filipinos that resulted in the Philippine-American War, which was fought between 1899 and 1902; and

Whereas, During one of the battles of the Philippine-American War that took place in the Town of Balangiga on the island of Samar on September 28, 1901, the town's church bells were rung in order to signal to the Filipinos that an attack against the American Forces had begun; and

Whereas, During the battle in the Town of Balangiga, members of the United States Armed Forces confiscated the church bells and brought them to the United States as war trophies; and

Whereas, The church bells of Balangiga are currently located at the F.E. Warren Air Force Base in Cheyenne, Wyoming; and

Whereas, Representative Robert Filner has recently introduced H. Res. 313, which urges the President to authorize the transfer of ownership of one of the bells taken from the town of Balangiga back to the people of the Philippines; and

Whereas, According to H. Res. 313, the church bells of Balangiga should more properly serve as a symbol of friendship and cooperation between the United States and the Philippines and not the conflict that occurred during the Philippine-American War; and

Whereas, According to H. Res. 313, the United States holds supportable legal title to the bells recognizable under international law and the United States government has final disposition over the church bells of Balangiga; and

Whereas, According to H. Res. 313, the Republic of the Philippines has repeatedly requested the return of the church bells; and

Whereas, According to H. Res. 313, a proposal has been put forth that provides a means for both countries to mutually share in the heritage that the church bells of Balangiga represent, enabling both countries to retain an original and a duplicate bell; and

Whereas, The United States is home to a large Philippine population, who have made many contributions to the economic and cultural viability of our nation and our City; now, therefore, be it

Resolved, That the Council of the City of New York supports H. Res. 313, which urges the President to authorize the transfer of ownership of one of the bells taken from the town of Balangiga on the island of Samar, Philippines in 1901, and currently displayed at F.E. Warren Air Force Base in Wyoming, to the people of the Philippines.

Res. No. 1198

Resolution denouncing the use of fur by all clothing makers and the inhumane manner in which the animals used for fur are killed.

By Council Members Vallone Jr., Gonzalez, James, Liu and Palma.

Whereas, The fur industry is experiencing a resurgence of popularity as evidenced by the proliferation of clothing makers and designers using fur in their product lines; according to the Fur Information Council of America, the number of fashion designers using fur in their ready-to-wear collections rose from 42 in 1985 to over 400 in 2004; and

Whereas, A study by Women's Wear Daily Magazine reported that in April 2004, 74% of 200 high end specialty retailers surveyed across the United States sold fur products with 79% of the remaining stores planning to do so in within the next year; and

Whereas, Economic data also reflects the growth of the fur industry, with a recent report showing worldwide fur sales totaling $11 billion in 2001/02; and

Whereas, Southwick Association of Business, a better business association, reported that 2003 fur sales in the United States reached an all time high of $1.8 billion, up 7.5% from 2002 and up 80% from 1991, with New York City ranking as having the most fur sales in the United States; and

Whereas, Probably one of the greatest impacts on the fur industry has been the emergence of the fur industry in China in the last ten years, which, as a member of the International Fur Trade Federation, not only has become the largest fur exporter in the world but also has the biggest fur trade production and processing base in the world; and

Whereas, According to Chinese Customs statistics, in 2003 the country had a net volume for fur imports and exports of $997.6 million, an increase of 42.5% from the previous year; and

Whereas, The affordability of Chinese fur products has helped proliferate the types of clothing products and accessories made with fur, including sportswear and mass produced ready to wear clothing lines at affordable prices; and

Whereas, Although the fur industry and clothing manufacturers have made fur more trendy, accessible, and affordable, the inhumane manner in which animals are trapped, bred, kept and killed has not changed; and

Whereas, Although many countries, including the United States, have laws regarding animal welfare, China and several other countries do not, thus making the fur industry responsible for the horrific treatment of animals slaughtered for their pelts; and

Whereas, A shocking investigative video depicting fur farmers at work shows them skinning raccoon dogs and foxes alive, after breaking their necks or backs by swinging them by their legs, smashing their heads on the ground, or beating them on the head with a metal or wood stick to stun them; and

Whereas, After being stunned, a knife is used to cut the animal at the rear of their belly only to have their skin ripped off its body until it comes off at the head; and

Whereas, This report and investigative video have documented that the animals are often still alive and conscious while being skinned, only to be tossed on top of piles of carcasses, where they might survive for another 10 to 15 minutes; and

Whereas, While the fur industry, clothing designers and makers have made fur trendy, widely accessible and affordable and a highly lucrative business, they in no way can justify the need for fur, especially at the expense of millions of animals' lives, which can be snuffed out by methods that can only be described as excessively cruel and inhumane; now therefore, be it

Resolved, That the Council of the City of New York denounces the use of fur by all clothing makers and the inhumane manner in which the animals used for fur are killed.

Referred to the Committee on Consumer Affairs.

§ 3. This local law shall take effect immediately after its enactment into law.

Int. No. 735

Res. No. 1199

Resolution calling upon the United States Senate to reject the nomination of Harriet Miers an Associate Justice to the Supreme Court of the United States.

By Council Members Yassky, Barron, Brewer, James and Palma.

Whereas, On July 1, 2005, Sandra Day O'Connor announced her retirement as an Associate Justice of the Supreme Court of the United States after 24 terms of service; and

Whereas, After the death of Chief Justice William H. Rehnquist and the appointment of John Roberts to that position, President George W. Bush announced on October 3, 2005, that he had selected Harriet Miers to replace Justice O'Connor on the Supreme Court; and

Whereas, Harriet Miers currently serves as White House counsel and according to an article appearing in the October 4, 2005 issue of *The New York Times*, has worked with President Bush for more than 10 years in solely non-judicial capacities; and

Whereas, It remains to be seen where Ms. Miers stands on virtually every issue that could have a profound impact upon the lives of millions of Americans, since she has no experience as a judge, no record of decisions and no paper trail that would aid in weighing her judicial philosophy and legal background to determine her impact on the Court; and

Whereas, The National Organization for Women (NOW) has expressed concern regarding the total lack of information on this nominee, stating that it "urges the Senate to ask tough questions, insist on answers, and refuse to confirm this nomination unless they can establish that Miers supports the fundamental rights of women"; and

Whereas, Although she has never taken a public position on abortion, ABC World News Tonight reported that she is listed as a "bronze donor" for donation to a Texas pro-life group in 1989; and

Whereas, Additionally, an article appearing in the October 4, 2005 issue of *The New York Times* reports that Ms. Miers, as president of the State Bar of Texas, led an effort to roll back the American Bar Association's support for abortion rights; and

Whereas, A Supreme Court Justice is appointed for a lifetime term, and the Senate should not confirm someone to this powerful and influential position with so little information; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the United States Senate to reject the nomination of Harriet Miers an Associate Justice to the Supreme Court of the United States.

(b) In the districts indicated, the height and setback of a #building or other structure# shall be as set forth herein except where modified pursuant to paragraphs (g)and (h) of this Section.

For the purposes of this Section, where #base planes# of different elevations apply to different portions of a #building or other structure#, each such portion of the #building# may be considered to be a separate #building#. Furthermore, for the purposes of this Section, #building segments# may be considered to be separate #buildings# and abutting #semi-detached buildings# may be considered to be one #building#.

The perimeter walls of a #building or other structure# are those portions of the outermost walls enclosing the #floor area# within a #building or other structure# at any level and height is measured from the #base plane#. Above these heights, sloping planes control the maximum height of the #building or other structure# requiring either a setback or a pitched roof. These planes start at the maximum permitted height of the perimeter walls and meet at a ridge line of 35 feet above the #base plane#. The exact locations of these planes are flexible and are determined in the steps set forth in paragraphs (1) through (5) as follows:
R2X R3 R4 R4A R4-1 R5A

(6) Special Situations

(i) For convex curved perimeter walls the #building or other structure# must be within a plane curve tapering uniformly to a vertex located at a height of 35 feet. For concave curved perimeter walls, the #building or other structure# must lie within a plane curve extending from the maximum perimeter wall height to a ridge line parallel to the prolongation of the perimeter wall at the 35 foot level. Such plane curves may not exceed a pitch of 80 degrees in relation to a plane drawn parallel to the #base plane# at the maximum height of the permitted perimeter wall. (See Figure G).

Services (Other Than Human Services)

STRUCTURED JUDGMENT/SETTLEMENT CONSULTANT SERIVICES – Request for Qualifications – PIN# 02506X100026 – DUE 12-22-05 AT 5:00 P.M. – The New York City Law Department ("Department") seeks Expressions of Interest ("EOI") from qualified structured judgment and settlement brokers and/or firms to assist the City of New York ("City") with structured judgments and settlements in medical malpractice and personal injury cases brought against the following: (1) the City, its agencies and/or employees; (2) the NYC Health and Hospitals Corporation ("HHC"), the physicians and other providers employed by HHC and/or HHC's affiliates; and (3) the NYC Department of Education and/or its employees. The Department's intention is to create a panel of approximately five firms to assist the Department's Tort Division with structured judgments and settlements. It is anticipated that assignments from the panel will be made on a rotating, case-by-case basis and that this panel will be in place for a period of approximately three years. Consultation services will include the following: (1) providing annuity quotes and settlement illustrations; (2) reviewing and pricing life care plans; (3) attending court hearings, mediations and settlement conferences; (4) preparing court documents, such as infant compromise orders, settlement agreements, judgments and trust agreements; and (5) periodic counseling and training of Law Department staff on the use of structured settlements and on the case law, mechanics and calculations required on periodic judgments.

Firms selected for the panel must demonstrate the following: (1) substantial experience in the structuring of judgments and settlements in medical malpractice and personal injury cases; (2) the ability to draft legal forms including settlement and trust agreements, infant compromise orders and judgments in accordance with CPLR Articles 50-A and B and applicable case law; and (3) substantial personnel and other resources enabling the firm to handle a large volume of structured judgments and settlements and related services. Structured Judgment and Settlement brokers and/or firms wishing to be considered for selection to the Department's panel must submit one original and three copies of a written EOI to Tom Dowling, Deputy Agency Chief Contracting Officer, New York City Law Department, 100 Church Street, Room 6-204, New York, New York 10007 (Phone: 212-788-1003; e-mail: tdowling@law.nyc.gov) by no later than 5:00 p.m. on December 22, 2005. The EOI should be organized under the three above-specified criteria and be in the form of a firm resume that describes in detail and demonstrates that the firm has the above-specified experience, ability and resources and meets the below-specified minimum requirements. The package containing the EOI should be marked prominently with the above-referenced Procurement Identification Number (PIN 02506X100026) and otherwise identify the submission as an EOI submitted in response to this notice. Firms whose EOIs are determined to be within a competitive range of technical merit will receive a test case for work-up, the written responses to which will be utilized by the Department to make subsequent decisions regarding placement on its panel. Recipients of this solicitation are advised that Tom Dowling is the Department's sole authorized point of contact with respect to this solicitation.

The following minimum requirements apply to this solicitation: (1) all structured settlement and judgment brokers and/or firms on the Department's panel must be members of the National Structured Settlements Trade Association; and (2) all panel members must agree to execute, under oath, a Certificate of Reliability and Assurances ("CORA") which must accompany each Annuity Contract and Settlement Agreement. The CORA is a series of affirmative representations and warranties issued in writing for every case in which the firm certifies the following: (1) it does not pay commission rebates to any party or insurer, or evade the anti-rebating statutes through "service fee" or "administrative fee" arrangements; (2) it fully discloses age ratings and never misrepresents the cost of a structured settlement or judgment by engaging in post settlement medical underwriting; (3) it always discloses the true cost of the structured settlements and judgments it negotiates and does not attempt to artificially inflate the value of any settlement or judgment by using unrealistic present value calculations; and (4) it is not an "in-house" or captive broker owned or controlled by an insurance carrier.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

DEVELOP TRANSITIONAL RESIDENCE FOR HOMELESS ADULTS AND FAMILIES AND DROP IN CENTERS FOR ADULTS – Competitive Sealed Proposals – Judgment required in evaluating proposals - PIN# 071-00S-003-262 – DUE 01-03-06 AT 5:00 P.M. – The Department of Homeless Services is soliciting proposals from organizations interested in developing and operating transitional residences for homeless adults and families including the Neighborhood Based Cluster Residence and drop-in centers for adults. This is an open-ended solicitation; there is no due date for submission. Proposals will be reviewed by the Department as they are received and contracts will be awarded on an on-going basis, until the agency's capacity needs are met. DHS reserves the right to award a contract on the basis of initial offers received without discussion. Contracts will be awarded to responsible applicants whose negotiated offers are determined to be the most advantageous to the City, taking into consideration the price and other such factors and criteria set-forth in the RFP. Contract award will be subject to the timely completion of contract negotiations between the agency and the selected proposer.

It is anticipated that the transitional residence contracts will range from 3 to 20 years including renewal options and depending on the financial terms and conditions.

Pursuant to Section 312 (c) (1) (ii) of the New York City Charter, the Competitive Sealed Bid procurement method is not the most advantageous method because judgment is required in evaluating competing proposals, and it is in the best interest of the city to require a balancing of price, quality and other factors.

Thus, pursuant to Section 3-03 (c) of the Procurement Policy Board Rules, the open ended RFP will be used because the Department will select qualified providers to develop and operate transitional residences in order to address the need to create additional shelter capacity citywide. In addition, this open-ended method will provide interested applicants an opportunity to propose sites for the targeted population, as they become available for shelter development.

All proposers must meet the following minimum qualifications 1) must have a tax exempt status under 501 (c) (3) of the Internal Revenue Code and or be legally incorporated as a for-profit entity; 2) must demonstrate that they have, or can obtain by the contract start date, site control of the proposed Standalone facility location(s); and 3) must demonstrate an intent to enter into lease agreements with the owner(s) or management designee(s) for each property.

Any organization that believes it can provide these services may contact: John Iaffaldano, Associate Staff Analyst, Office of Contracts and Procurement at the Department of Homeless Services at (212) 361-8435, 33 Beaver Street, 13th Floor, NY, NY 10004, to request a copy of the RFP application, which is available for pick-up Monday through Friday on business days between the hours of 9:00 A.M. to 5:00 P.M.

The Department's intention is to create a panel of approximately five firms to assist the Department's Tort Division with structured judgments and settlements. It is anticipated that assignments from the panel will be made on a rotating, case-by-case basis and that this panel will be in place for a period of approximately three years. Consultation services will include the following: (1) providing annuity quotes and settlement illustrations; (2) reviewing and pricing life care plans; (3) attending court hearings, mediations and settlement conferences; (4) preparing court documents, such as infant compromise orders, settlement agreements, judgments and trust agreements; and (5) periodic counseling and training of Law Department staff on the use of structured settlements and on the case law, mechanics and calculations required on periodic judgments.
Firms selected for the panel must demonstrate the following: (1) substantial experience in the structuring of judgments and settlements in medical malpractice and personal injury cases; (2) the ability to draft legal forms including settlement and trust agreements, infant compromise orders and judgments in accordance with CPLR Articles 50-A and B and applicable case law; and (3) substantial personnel and other resources enabling the firm to handle a large volume of structured judgments and settlements and related services. Structured Judgment and Settlement brokers and/or firms wishing to be considered for selection to the Department's panel must submit one original and three copies of a written EOI to Tom Dowling, Deputy Agency Chief Contracting Officer, New York City Law Department, 100 Church Street, Room 6-204, New York, New York 10007

The package containing the EOI should be marked prominently with the above-referenced Procurement Identification Number (PIN 02506X100026) and otherwise identify the submission as an EOI submitted in response to this notice. Firms whose EOIs are determined to be within a competitive range of technical merit will receive a test case for work-up, the written responses to which will be utilized by the Department to make subsequent decisions regarding placement on its panel. Recipients of this solicitation are advised that Tom Dowling is the Department's sole authorized point of contact with respect to this solicitation.

The following minimum requirements apply to this solicitation: (1) all structured settlement and judgment brokers and/or firms on the Department's panel must be members of the National Structured Settlements Trade Association; and (2) all panel members must agree to execute, under oath, a Certificate of Reliability and Assurances ("CORA") which must accompany each Annuity Contract and Settlement Agreement. The CORA is a series of affirmative representations and warranties issued in writing for every case in which the firm certifies the following: (1) it does not pay commission rebates to any party or insurer, or evade the anti-rebating statutes through "service fee" or "administrative fee" arrangements; (2) it fully discloses age ratings and never misrepresents the cost of a structured settlement or judgment by engaging in post settlement medical underwriting; (3) it always discloses the true cost of the structured settlements and judgments it negotiates and does not attempt to artificially inflate the value of any settlement or judgment by using unrealistic present value calculations; and (4) it is not an "in-house" or captive broker owned or controlled by an insurance carrier.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.
