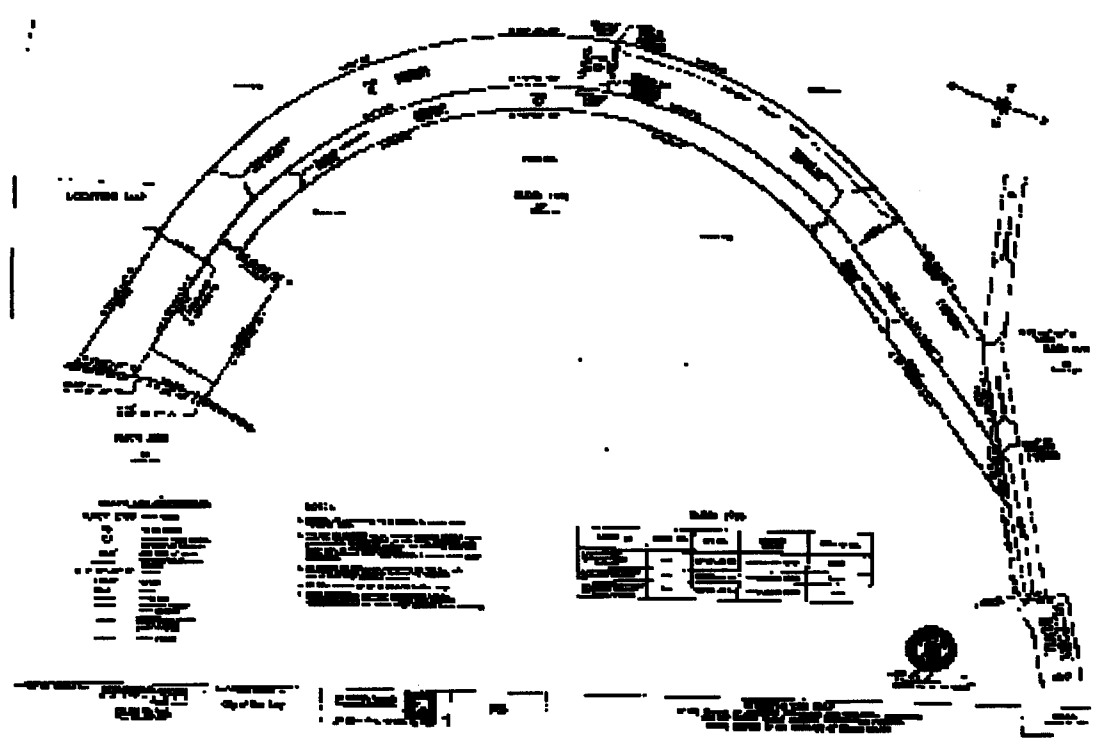
COURT NOTICE MAP FOR STATEN ISLAND RAILROAD REACTIVATION PROJECT, TRAVIS BRANCH



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists–free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

■ PUBLIC HEARINGS

NEW YORK CITY WETLANDS TRANSFER TASK FORCE

PLEASE TAKE NOTICE, that the New York City Wetlands Transfer Task Force ("Task Force") will hold two (2) public hearings to receive comments regarding the possible transfer of City-owned wetlands to the New York City Department of Parks & Recreation.

The Task Force is a temporary entity created by Local Law 83 (2005) to study the technical, legal, environmental, and economical feasibility of such a transfer of City-owned property only. Before its term expires, the Task Force must submit recommendations on the subject to the Mayor of the City of New York and the Speaker of the Council of the City of New York.

Wetlands improve natural water quality, help prevent flooding, stem shoreline erosion, and provide venues for recreation and aesthetic appreciation. Despite their many advantages, wetlands within the City of New York have decreased over the years from more than one hundred (100) square miles to approximately fourteen (14) square miles.

The time and place of the public hearings have been scheduled as follows:

DATE: May 22, 2006
TIME: 7:00 P.M. - 9:00 P.M.
LOCATION: Blue Heron Nature Center
222 Poillon Avenue, Staten Island, NY 10312

and

DATE: June 1, 2006
TIME: 7:00 P.M. - 9:00 P.M.
LOCATION: Salt Marsh Nature Center
3302 Avenue U, Brooklyn, NY 11234.

Additional public hearings may be scheduled. Any person in attendance at these public hearings shall be given a reasonable opportunity to present oral or written statements and to submit other documents concerning the transfer actions being considered. Each speaker shall be allotted a maximum of three (3) minutes.

The Task Force has a website (www.nyc.gov/parks, keyword "wetlands") where more information regarding City-owned wetlands, public hearings and other Task Force activities can be viewed. Written comments may be submitted through the website, as well as via postal mail at the addresses below. The deadline for public comment is Friday, June 16, 2006.

Statement of Basis and Purpose of Proposed Rule

The Environmental Control Board (ECB) is making the following revisions to the ECB Penalty Schedules:
(1) The Board is revising the Buildings Penalty Schedule found in Section 31-103 of Subchapter G of Chapter 31 of Title 15 of the Rules of the City of New York to add twelve new charges with enhanced penalties for violations within manufacturing districts. These charges are being added to the Buildings Penalty Schedule to provide enhanced penalties for certain Building Code violations within manufacturing districts. The proposed enhanced penalties are being implemented as a result of the City's industrial retention initiative developed by the Mayor's Office of Industrial and Manufacturing Businesses to deter the illegal conversion of industrial properties to residential uses. The existing penalties do not adequately or equitably penalize property owners for the destruction of industrial space. Currently, property owners absorb the existing penalties as a cost of doing business in order to generate the higher profits offered by residential conversion. The enhanced penalties are necessary to offset the high rents that these illegally converted residential units command. The new charges with enhanced penalties include the following: (a) occupancy of a new building in a manufacturing district without a valid certificate of occupancy; (b) occupancy of a building altered for residential use in a manufacturing district without a valid certificate of occupancy; (c) occupancy of a building in a manufacturing district inconsistent with the certificate of occupancy or Department of Buildings records; (d) performing construction or alteration work for residential use in a manufacturing district without a permit; (e) performing plumbing work for residential use in a manufacturing district without a permit; (f) performing plumbing work for residential use in a manufacturing district contrary to approved plans; and (g) performing construction work for residential use in a manufacturing district contrary to approved applications and plans.

(2) The Board is revising the Department of Sanitation's Penalty Schedule found in section 31-122 of Subchapter G of Chapter 31 of Title 15 of the Rules of the City of New York to add new charges as a result of the enactment of Local Law No. 108 of 2005, which amends section 16-118(2) of the Administrative Code of the City of New York to codify the responsibilities of vacant lot owners, lessees, tenants or persons in charge of vacant lots to maintain such lots and adjacent areas. The law as amended requires that all vacant lot owners, lessees, tenants or persons in charge of vacant lots be responsible for ensuring that the entire lot is kept free from garbage, refuse, rubbish, litter and other offensive material. The law as amended re-designates the existing text of subdivision (2) as paragraph (a) of such subdivision. A new paragraph (b) is added to subdivision (2) to incorporate the areas fronting vacant lots to the list of property areas that would be required to be kept clear, including the roadway, but not catch basins, extending one and one-half feet into the street, and also requires that all vacant lot owners, lessees, tenants or persons in charge of vacant lots be responsible for ensuring that the entire lot is kept free from garbage, refuse, rubbish, litter and other offensive material. As a result of these changes to the law, ECB is establishing three new charges and revising three existing charges to correspond to the law as amended.

(3) The Board is revising the Public Safety Graffiti Penalty Schedule found in Section 31-119 of Subchapter G of Chapter 31 of Title 15 of the Rules of the City of New York to add a new charge as a result of the enactment of Local Law No. 111 of 2005, which adds a new section, 10-117.3, to the Administrative Code of the City of New York in relation to the removal of graffiti from commercial buildings and from residential buildings containing six dwelling units or more. Owners will be required, upon notice, to remove the graffiti. Owners, upon notice, will have sixty days to remove graffiti before any hearing is held and a civil penalty is imposed. In order to implement this new law, ECB is adding violation of section 10-117.3 to the Public Safety Graffiti Penalty Schedule.

(4) The Board is revising the ECB Appeals rules that are found in Sections 31-71(a), 31-72 (a & b), and 31-73 (a & b) of Subchapter D of Chapter 31 of Title 15 of the Rules of the City of New York. The purpose of the revision to 15 RCNY 31-71(a) is to make clear that the filing of proof of service must be made within the same 30 day period that is required to file exceptions. The revision to 15 RCNY 31-72 (a) is to clarify that a request for a copy of an audio tape extends the time to appeal just as does a request for a transcript and to make clear that applications for extension of time to appeal must be served on all parties and proof of such service must be filed with the tribunal. This would make the service requirements for extension requests identical to the service requirements for the exceptions themselves. This revision also conforms 15 RCNY 31-72(b), which governs applications for extension of time to file an appeal for any reason other than a request for a transcript or audiotape, to these same service and filing requirements. As for 15 RCNY 31-73 (a & b), the revision to this section is to clarify that as a pre-requisite to appeal, any civil penalties imposed by the hearing officer must be paid by a date certain, and set a clearly identifiable date by which payment must be made.

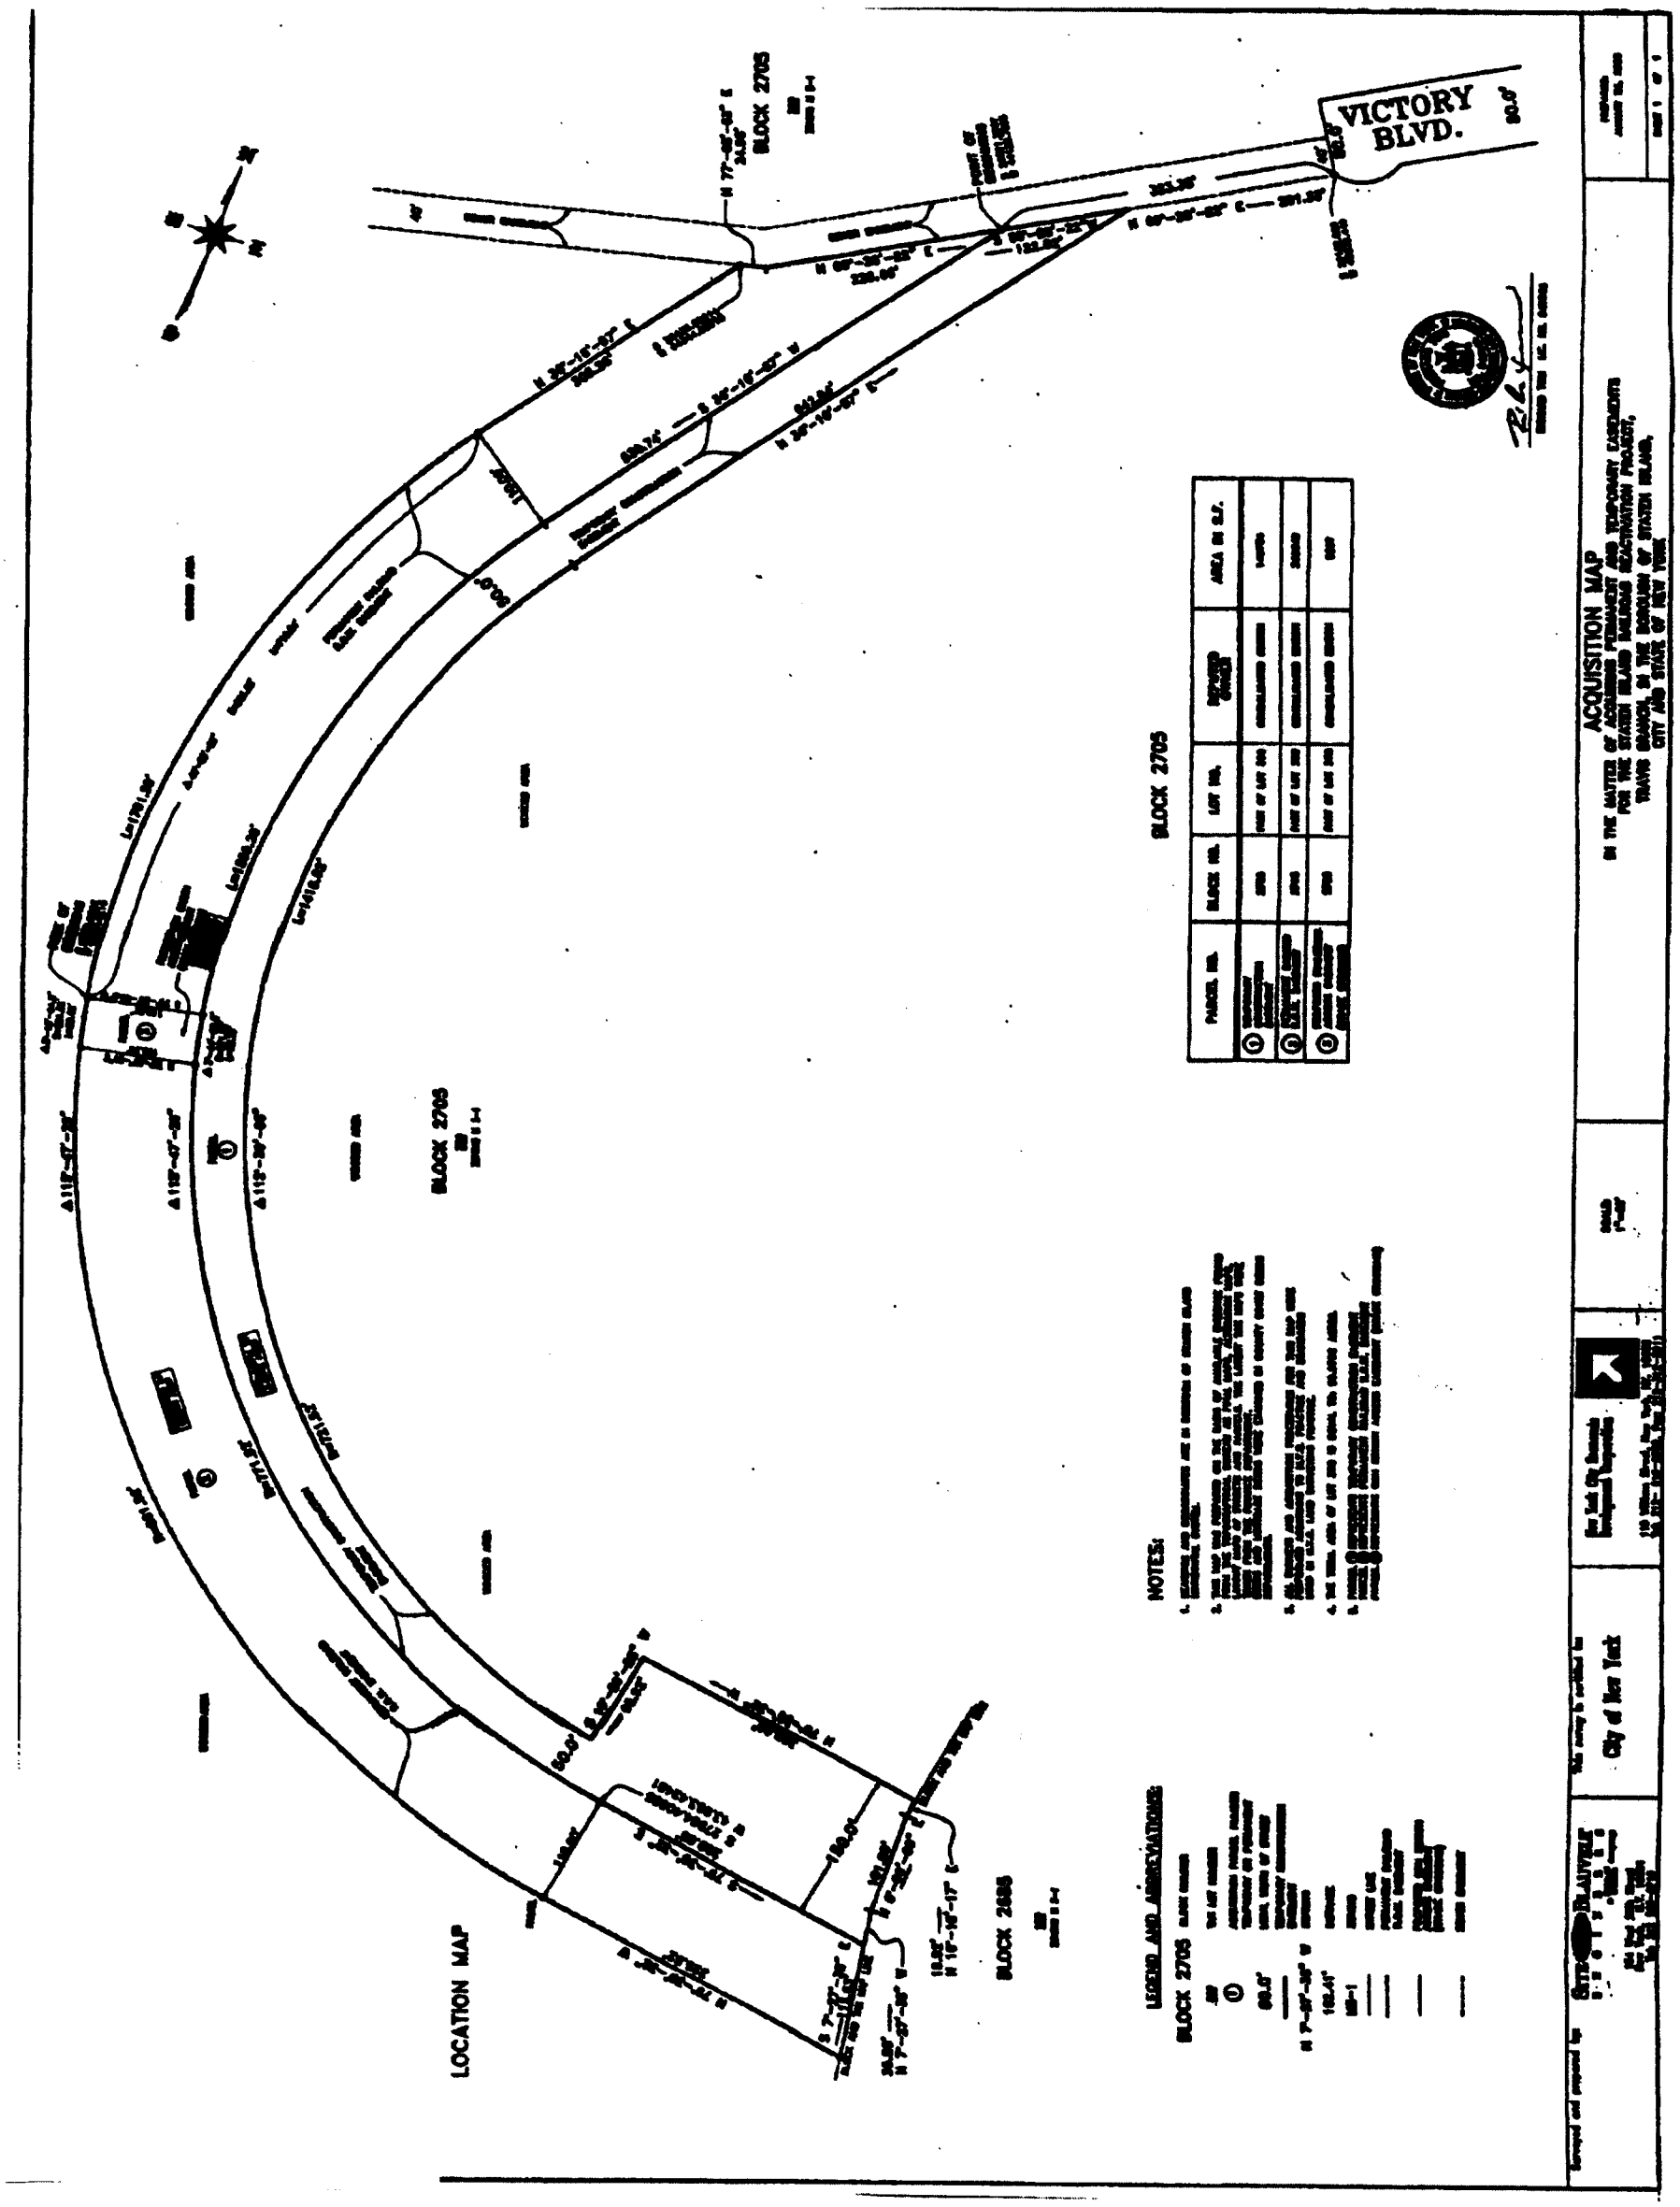
COURT NOTICE MAP FOR STATEN ISLAND RAILROAD REACTIVATION PROJECT, TRAVIS BRANCH



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. INVOCATION

The Invocation was delivered by Rabbi Raphael Butler, Executive Director – Afikim Foundation, 111 John Street, Suite 1720, New York, NY.

O Master of the Universe, with Thy known wisdom inspire the members of this Council and infuse them with Your divine gifts of knowledge, understanding and compassion.

King David, as he lay on his deathbed, turns to his son Solomon, the brightest of men – and offers his final words of encouragement to the soon to be King.

He implores him, "Be strong and thus come be a person of distinction." What was David's intent in offering these final words to his son?

Commentaries explain that David was encouraging Solomon to seek the counsel of others…to ask advice. Even though Solomon was the brightest of men, David understood that in legislating as in life, true strength is arrived at through the power of consultation; for when different perspectives are heard and deliberated, the brightest of people become people of distinction.

Grant our members the vision of David and the clarity of Solomon as they reach across this Chamber and across our Great City to secure, sustain and nurture the community of New Yorkers that have chosen them as their voice and conscience.

Grant this Council the persevering strength of principled deliberation and compromise;

And let us say – Amen.

Council Member Weprin moved to spread the Invocation in full upon the record.

At this point, the Speaker (Council Member Quinn) asked for a Moment of Silence in memory of Matthew J. Farrell, former Director of the Council's Administrative Division and long-time Council staffer, who died suddenly at the age of 35 on March 24, 2006.

ADOPTION OF MINUTES

Council Member Addabbo moved that the Minutes of the Stated Meeting of March 1, 2006 be adopted as printed.

April 3, 2006

TO THE CITY COUNCIL

Dear Council Members:

In accordance with Section 107(e) of the New York City Charter, I seek your approval to appropriate new revenues of $1.21 billion in fiscal year 2006.

This modification - MN 6 - appropriates $1.3 billion to the Budget Stabilization Account in the City's Debt Service Budget and reduces Medical Assistance in the Department of Social Services by $81 million to reflect a reduction in unrestricted aid resulting from a realignment of the Medicaid Budget.

The $1.21 billion of new revenues results from forecasted increases in tax revenues of $942 million and savings in prior payables of $400 million, offset by reductions of $59 million in miscellaneous revenues and $73 million in unrestricted intergovernmental aid, of which $81 million results from the Medicaid Budget realignment.

Your approval of modification - MN 6 - is respectfully requested.

Yours truly,

Mark Page

REPORTS OF THE STANDING COMMITTEES

Reports of the Committee on Civil Service and Labor

At this point, the Speaker (Council Member Quinn) announced that the following items have been **preconsidered** by the Committee on Civil Service and Labor and have been favorably reported for adoption.

Report for Int. No. 244

Report of the Committee on Civil Service and Labor in favor of approving and adopting, a Local Law to amend the administrative code of the city of New York, in relation to members of the fire department who formerly served as police officers.

The Committee on Civil Service and Labor to which was referred on April 5, 2006 the annexed proposed local law respectfully

REPORTS:

On April 4, 2006, the Committee on Civil Service and Labor, chaired by Council Member Joseph P. Addabbo, Jr., will hold a hearing to consider Preconsidered Int. No. 244.

BACKGROUND

As part of the recently negotiated contract settlement between the City of New York and the Uniformed Firefighters Association (UFA), the parties agreed to support legislation that would require persons who have served in the uniformed force of the New York City Police Department ("NYPD") and then join the New York City Fire Department ("FDNY") to be hired at the entry level hiring rate. Upon appointment to the FDNY, such employees would be considered newly appointed employees for purposes of salary, eligibility for promotion and all other economic benefits, other than retirement and pension benefits. This legislation is necessary to implement what was agreed upon by the parties in collective bargaining.

PRECONSIDERED INT. NO. 244

Paragraph 1 of subdivision (a) of § 15-111 of the Administrative Code currently provides that any member of the uniformed force of the FDNY, who immediately prior to his or her appointment or employment, served or had served as a member of the police force of the NYPD, shall have such time served in the NYPD counted as service in the FDNY in determining his or her compensation, promotion, retirement and pension, if such employee contributes to the appropriate FDNY pension fund a sum equal to the amount he or she would have been required to contribute had the time served in the NYPD been served in the FDNY. In order to implement the agreement negotiated by the City of New York and the UFA, this Preconsidered Int. amends paragraph 1 of subdivision (a) of section 15-111 by removing the ability to use such prior police service in determining compensation and promotion of such firefighters.

It is important to note that the savings associated with this amendment have already been applied to the UFA's contract settlement, which was recently ratified by the union. Therefore, in the event that this proposed bill is not enacted, the parties would have to re-open negotiations.

(The following is the Fiscal Impact Statement for Int. No. 244:)

FISCAL IMPACT STATEMENT:

	Effective FY 06	FY Succeeding Effective FY 07	Full Fiscal Impact FY 09
Revenues (+)	$0	$0	$0
Expenditures (-)	$0	$0	$0
Net	$0	$0	$0

IMPACT ON REVENUES: Although there is savings associated with the legislation, we have stated no impact on revenues since the fiscal impact on the City's financial plan as a result of this legislation is $0. This amendment was part of a negotiated contract settlement agreed to by the City and the Uniformed Firefighters Association ("UFA") and savings associated with this amendment have already been applied to the UFA's contract settlement. If the proposed bill is not enacted the UFA would need to provide the City with some form of equivalent savings.

The actual amount of the savings associated with this amendment only is as follows: $441,597 for FY06; $2.8 million for FY07; $3.9 million in FY08; and $4.9 million in FY09.

IMPACT ON EXPENDITURES: This legislation has no impact on expenditures.

Submission of alternative estimate of revenues	prior to May 15	prior to May 31

The legislation leaves intact the five days which the Mayor has to veto any increases or additions to the budget or any unit of appropriation or any change in any term and condition as adopted by the council, as well as the ten day period which the Council has under law to override any such veto.

This legislation would take effect immediately.

Report for M-106

Report of the Committee on Finance in favor of approving a Communication from the Office of Management & Budget – Pursuant to Section 107(b) of the New York City Charter, transfer City funds between various agencies in fiscal year 2006 to implement changes to the City's expense budget. (MN - 5)

The Committee on Finance to which was referred on April 5, 2006 the annexed resolution respectfully

REPORTS:

Introduction. At a meeting of the Committee on Finance of the City Council of the City of New York on April 5, 2006, the Committee on Finance received a communication, dated April 3, 2006 from the Office of Management and Budget of the Mayor of The City of New York, of a proposed request, (the "Modification"), to modify units of appropriation and transfer city funds between units of appropriation in the Fiscal 2006 Expense Budget (as defined below) pursuant to Section 107(b) of the Charter of the City of New York (the "Charter").

Analysis. The Council annually adopts the City's budget covering expenditures other than for capital projects (the "expense budget") pursuant to Section 254 of the Charter. On June 30, 2005, the Council adopted the expense budget for Fiscal Year 2006 (the "Fiscal 2006 Expense Budget"). This modification (MN-5) represents the transfer of funds within and between various agencies to reallocate appropriations reflected in the City's Fiscal 2006 Expense Budget. In addition to City Council requested changes, other changes in MN-5 include: (i) an appropriation of $1 billion to the Miscellaneous budget for the purpose of funding the Health Insurance Trust fund; (ii) a $575,000,000 appropriation to the Health and Hospitals Corporation to access $1.15 billion in Medicaid payments that cover uninsured patients; (iii) an appropriation of $367 million for collective bargaining to cover contractual costs for City employees; and (iv) $925 million in pension savings. The result of this modification draws down $251 million in the General Reserve bringing that total to $100 million.

If the Mayor wishes to transfer part or all of any unit of appropriation to another unit of appropriation from one agency to another or such that the transfer results in any unit of appropriation being increased or decreased by the greater of five percent or $50,000, Section 107(b) of the Charter requires that the Mayor must first notify the Council of the proposed action. Within 30 days after the first stated meeting of the Council following receipt of such notice, the Council may disapprove such proposed action. If the Council fails to approve or disapprove such proposed action within such 30-day period, the proposed action becomes effective and the Mayor has the authority to make such transfer.

Description of Above-captioned Resolution. In the above-captioned resolution, the Council would approve the Modification pursuant to Section 107(b) of the Charter. Such resolution would take effect as of the date of adoption.

(The following is a Fiscal Impact Memo to the Speaker (Council Member Quinn) and the Finance Committee from the Finance Division of the New York City Council:)

TO: Honorable Christine Quinn
Speaker
Honorable David I. Weprin
Chairman, Finance Committee

FROM: Staci Emanuel, Deputy Director-Expense
Finance Division

DATE: April 5, 2006

SUBJECT: A budget modification (MN-5) for Fiscal Year 2006 to transfer funds between various agencies.

INITIATION: By letter dated April 3, 2006, the Director of the Office of Management and Budget submitted to the Council pursuant to section 107(b) of the New York City Charter a request for approval to transfer funds - totaling $1,952,287,366 within and between various City agencies.

BACKGROUND: This modification (MN-5) implements expense budget appropriations that were reflected in the City's January Financial Plan and reflects changes requested by the City Council.

FISCAL IMPACT: This modification represents the transfer of funds within and between agencies. The net effect of this modification is zero.

Accordingly, Your Committee recommends its adoption.

In connection herewith, Council Member Weprin offered the following resolution:

Res. No. 233

Resolution approving the Modification (MN-5) of units of appropriation and the transfer of city funds between agencies proposed by the Mayor pursuant to' Section 107(b) of the charter of the city of New York.

Whereas, pursuant to Section 107(b) of the Charter, the City Council has thirty (30) days after the first stated meeting of the City Council following such receipt within which to act upon the Modification;

NOW, THEREFORE, The Council of The City of New York hereby resolves as follows:

1. **Approval of Modification**. The City Council hereby approves, pursuant to Section 107(b) of the Charter, the actions proposed by the Mayor as set forth in the Modification.

2. **Effective Date**. This resolution shall take effect as of the date hereof.

VALLONE JR., ALBERT VANN, DAVID YASSKY, VINCENT J. GENTILE, DENNIS P. GALLAGHER, Committee on Finance, April 5, 2006.

On motion of the Speaker (Council Member Quinn), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

At this point, the Speaker (Council Member Quinn) announced that the following items have been **preconsidered** by the Committee on Finance and have been favorably reported for adoption.

Report for M-107

Report of the Committee on Finance in favor of approving a Communication from the Office of Management & Budget – Pursuant to Section 107(e) of the New York City Charter, appropriate new revenues of $1.21 billion in fiscal year 2006. (MN - 6)

The Committee on Finance to which was referred on April 5, 2006 the annexed communication respectfully

REPORTS:

Introduction. At the meeting of the Committee on Finance of the City Council on April 5th, 2006, the Council received a communication, from the Office of Management and Budget of the Mayor, dated April 3rd, 2006, of a proposed request to modify, pursuant to Section 107(e) of the Charter of the City of New York, the Fiscal 2006 Expense Budget, and the revenue estimate related thereto prepared by the Mayor as of June 30, 2005 and modified on December 19th 2005.

Analysis. The Council annually adopts the City's budget covering expenditures pursuant to Section 254 of the Charter. On June 30, 2005, the Council adopted the expense budget for fiscal year 2006 (the "Fiscal 2006 Expense Budget"). On June 30, 2005, the Mayor submitted to the Council a revenue estimate related to the Fiscal 2006 Expense Budget. Circumstances have changed since the Council adopted the Fiscal 2006 Expense Budget.

Section 107(e) provides one mechanism for the Mayor and the Council to amend the expense budget and related revenue estimate to reflect changes in circumstances that occur after adoption of a budget. Section 107(e) permits the modification of the budget in order to create new units of appropriation, to appropriate new revenues from any source other than categorical federal, state and private funding or to use previously unappropriated funds received from any source.

Discussion of Above-captioned Resolution. The above-captioned resolution would authorize the modifications to the Fiscal 2006 Expense Budget and related revenue estimate requested in the Communication.

This modification (MN-6) seeks to increase revenues in the net amount of $1,209,852,274 for Fiscal 2006. This amount includes an additional $942 million in tax revenues, and increases in non-tax revenues of $268 million.

The increase in tax revenue is a result of the combination of strong collections of real estate related tax revenue sources, as well as personal income tax and business tax collections exceeding expectations. Non-tax revenue changes include restructuring outstanding TSASC debt and associated tobacco settlement revenue to the City (-$233 million), delaying the sale of taxi medallions to fiscal 2007 (-$63 million), Medicaid restructuring (-$81 million) and a write-down of prior year payables ($400 million).

This revenue modification appropriates $1.291 billion to the Fiscal 2006 Budget Stabilization Account to be used to reduce the Fiscal 2007 budget gap and reduces medical assistance in Department of Social Service by $80.9 million.

The resolution would also direct the City Clerk to forward a certified copy thereof to the Mayor and the Comptroller so that Mayor, the Comptroller and the City Clerk may certify the Fiscal 2006 Expense Budget as amended thereby as the budget for the remainder of the fiscal year. The above-captioned resolution would take effect as of the date adopted.

(For text of Exhibit B numbers, please see the Attachment to Res. No. 234, Exhibit B).

(The following is a Fiscal Impact Memo sent to the Speaker (Council Member Quinn) and the Committee on Finance from the Finance Division of the New York City Council:)

TO: Honorable Christine Quinn
Speaker

Honorable David Weprin
Chairman, Finance Committee

FROM: Pablo Zangerle
Deputy Director, Finance Division

DATE: April 5, 2006

SUBJECT: A Preconsidered Budget Modification (MN-6) for Fiscal 2006 that will recognize a net increase in revenues of $1,209,852,274.

INITIATION: By letter dated April 3, 2006, the Director of the Office of Management and Budget submitted to the Council pursuant to section 107(e) of the New York City Charter a request to increase revenues by $1,209,852,274.

BACKGROUND: This modification (MN-6) seeks to increase revenues in the net amount of $1,209,852,274 for Fiscal 2006. This amount includes an additional $942 million in tax revenues and increases in non-tax revenues of $268 million.

This revenue modification appropriates $1.291 billion to the Budget Stabilization Account in the Debt Service Budget and reduces medical assistance in the Department of Social Services by $80.852 million resulting from a realignment of the Medicaid Budget.

FISCAL IMPACT: This modification represents a net increase in the Fiscal 2006 budget of $1,209,852,274.

Accordingly, Your Committee recommends its adoption.

In connection herewith, Council Member Weprin offered the following resolution:

Res. No. 234

Resolution approving a modification pursuant to Section 107(E) of the Charter of the City of New York.

By Council Member Weprin.

Whereas, on April 5th, 2006, the Committee on Finance of the City Council received a communication, dated April 3rd, 2006, from the Mayor's Office of Management and Budget, of a proposed request to recognize a net increase in revenue pursuant to Section 107(e) of the Charter of the City of New York, attached hereto as Exhibit A (the "Request to Appropriate"); and

Whereas, Section 107(e) of the Charter requires the City Council and the Mayor to follow the procedures and required approvals pursuant to Sections 254, 255 and 256 of the Charter, without regard to the dates specified therein, in the case of the proposed appropriation of any new revenues and the creation of new units of appropriation; and

Whereas, Section 107(e) of the Charter requires that any request by the Mayor respecting an amendment of the budget that involves a increase in the budget shall be accompanied by a statement of the source of current revenues or other identifiable and currently available funds required for the payment of such additional amounts, attached hereto as Exhibit B (together with the Request to Appropriate, the "Revenue Modification");

NOW, THEREFORE, the Council of the City of New York hereby resolves as follows:

1. Approval of Modification. The City Council hereby approves the Revenue Modification pursuant to Section 107(e) of the Charter.

2. Further Actions. The City Council directs the City Clerk to forward a certified copy of this resolution to the Mayor and the Comptroller as soon as practicable so that the Mayor, the Comptroller and the City Clerk may certify the Fiscal 2006 Expense Budget as amended by this resolution as the budget for the remainder of the fiscal year.

3. Effective Date. This resolution shall take effect as of the date hereof.

M-107

April 3, 2006

TO THE CITY COUNCIL

Dear Council Members:

In accordance with Section 107(e) of the New York City Charter, I seek your approval to appropriate new revenues of $1.21 billion in fiscal year 2006.

This modification - MN 6 - appropriates $1.3 billion to the Budget Stabilization Account in the City's Debt Service Budget and reduces Medical Assistance in the Department of Social Services by $81 million to reflect a reduction in unrestricted aid resulting from a realignment of the Medicaid Budget.

The $1.21 billion of new revenues results from forecasted increases in tax revenues of $942 million and savings in prior payables of $400 million, offset by reductions of $59 million in miscellaneous revenues and $73 million in unrestricted intergovernmental aid, of which $81 million results from the Medicaid Budget realignment.

Your approval of modification - MN 6 - is respectfully requested.

Yours truly,

Mark Page

c. The provisions of the Article XI Exemption shall apply separately to each individual property comprising the Transfer Area, and a sale or other event which would cause the expiration, termination, or revocation of the Article XI Exemption with respect to one property in the Transfer Area shall not affect the continued validity of the Article XI Exemption with respect to other properties in the Transfer Area.

2. Pursuant to Section 696 of the General Municipal Law as follows:

a. All of the value of the buildings, structures, and other improvements situated on the Transfer Area shall be exempt from local and municipal taxes, other than assessments for local improvements and land value, for a period of twenty years commencing on the Article XI Expiration Date ("UDAAP Commencement Date"); provided, however, that such exemption shall decrease in ten equal annual decrements commencing upon the July 1st immediately preceding the tenth anniversary of the UDAAP Commencement Date.

HPD shall deliver written notice of any such determination of noncompliance to the owner of such real property and all mortgagees of record, which notice shall provide for an opportunity to cure of not less than ninety (90) days. If the noncompliance specified in such notice is not cured within the time period specified therein, the UDAAP Exemption shall prospectively terminate with respect to the real property specified therein.

d. Notwithstanding any other provision to the contrary, the combined duration of the Article XI Exemption and the UDAAP Exemption shall not exceed forty (40) years.

e. The provisions of the UDAAP Exemption shall apply separately to each individual property comprising the Transfer Area, and a sale or other event which would cause the expiration, termination, or revocation of the UDAAP Exemption with respect to one property in the Transfer Area shall not affect the continued validity of the UDAAP Exemption with respect to other properties in the Transfer Area.

By Council Members Katz and Garodnick

Whereas, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council on February 6, 2006 its request dated February 1, 2006 that the Council take the following actions regarding the following Urban Development Action Area Project (the "Project") located at N/A Ocean Avenue (Block 5026/Lot 325); 840 Glenmore Avenue (Block 4007/Lot 13) and 446 Shepherd Avenue (Block 4020/Lot 24); 594 Marcy Avenue (Block 1758/Lot 49), 327 Clifton Place (Block 1789/Lot 80), 22 Van Buren Street (Block 1795/Lot 15); 123 Thames Street (Block 3010/Lot 36); and 974 Glenmore Avenue (Block 4211/Lot 20); Community Districts 3, 5, and 9, Borough of Brooklyn (the "Disposition Area"):

Whereas, the Council has considered the land use and financial implications and other policy issues relating to the Project;

Resolved:

The Council waives the area designation requirement pursuant to Section 693 of the General Municipal Law.

The Council approves the Project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law.

2. Pursuant to Section 696 of the General Municipal Law as follows:

a. All of the value of the buildings, structures, and other improvements situated on the Transfer Area shall be exempt from local and municipal taxes, other than assessments for local improvements and land value, for a period of twenty years commencing on the Article XI Expiration Date ("UDAAP Commencement Date"); provided, however, that such exemption shall decrease in ten equal annual decrements commencing upon the July 1st immediately preceding the tenth anniversary of the UDAAP Commencement Date.

with, or for the benefit of, the City of New York. HPD shall deliver written notice of any such determination of noncompliance to the owner of such real property and all mortgagees of record, which notice shall provide for an opportunity to cure of not less than ninety (90) days. If the noncompliance specified in such notice is not cured within the time period specified therein, the UDAAP Exemption shall prospectively terminate with respect to the real property specified therein.

d. Notwithstanding any other provision to the contrary, the combined duration of the Article XI Exemption and the UDAAP Exemption shall not exceed forty (40) years.

e. A Local Law to amend the New York City charter, in relation to allowing lawfully present immigrants in New York City to vote in all New York City municipal elections.

Be it enacted by the Council as follows:

Section 1. Declaration of Legislative Intent and Findings.

According to the New York City Department of City Planning, New York City is home to 1,361,007 non-citizens of voting age who contribute in countless ways to the economic, social and cultural vitality of our city, but are not allowed to directly participate in choosing the municipal representatives who make the policies that affect their daily lives. These city residents are subject to all the laws that citizens must observe. The fact that nearly one out of five New Yorkers of voting age cannot vote undermines the health of our local democracy.

Local voting affirms the hallowed principle of the American Revolution: "no taxation without representation." Immigrants pay 15.5% of the state's income tax or $18.2 billion in taxes annually. Our Founding Fathers believed that immigrant suffrage was a way to give newcomers a stake in the emerging American democracy. Until 1804, New York State allowed non-citizen immigrants to vote in federal, state and local elections. Indeed, for most of this country's history-from the 1770s to the 1920s-twenty-two states and federal territories permitted non-citizen residents to vote in local, state and federal elections, and to hold public offices such as alderman, coroner and school board member.

For every disempowered group in America's history, voting rights have been a vital tool for acquiring economic, social and civil rights and for expanding democracy. For African-Americans, women, and young men who were expected to go to war at 18 but were not yet allowed to vote, breaking down legal barriers to voting was a crucial point in the struggle for equality. Recognizing the importance of voting, the leaders of the Civil Rights Movement succeeded in banishing poll taxes and literacy tests. In 1971, the voting age was lowered to 18.

Nevertheless, an alarmingly large part of New York City's population remains disenfranchised.

Expanding the franchise is a rational and practical way to unite all members of our society toward a common goal of making New York City a better place. It acknowledges people's membership in their communities and gives them a way to be actively engaged in improving their neighborhood. Far from being a substitute for citizenship, allowing non-citizen New Yorkers to vote is the best way to promote civic education and participation.

The administration of this process is not only possible, but we have experience doing it here in New York City. All immigrants living in New York City - including undocumented immigrants - who had children in public schools could vote in school board elections from 1970 until 2003, when the school boards were eliminated.

It is the intent of this Council that adequate information and resources that are culturally and linguistically competent be provided to the direct beneficiaries of this Chapter in order to prevent unintended noncompliance or violations of this law. Further, it is the intent of this Council that unintended violations of this Chapter will not negatively affect an individual's immigration status or naturalization efforts.

New York, home of the Statue of Liberty and Ellis Island, symbolizes America's past and future as an immigrant nation. It is only appropriate for New York City to expand our democracy and allow non-citizen residents to vote in municipal elections and to set an example fitting for a city created by immigrants.

§2. The New York City charter is amended by adding a new chapter forty-six-A, to read as follows:

A Local Law to amend the New York city charter, in relation to prohibiting military recruitment in New York City public schools and the City University of New York.

Be it enacted by the Council as follows:

Section 1. Legislative findings. The City Council finds that the United States military is actively engaged in recruiting young men and women in New York City to serve in the Armed Forces. Such recruitment, however, is not carried out even-handedly throughout the City. Instead, the military concentrates its efforts on communities of color where, due to poverty, inadequate education, and misinformation, parents and young adults lack the resources to resist military recruiters.

In particular, parents of schoolchildren of color are often unaware that public schools are required to provide the United States military with lists of student names and addresses, and that they can remove their children from these lists. Moreover, statistics from the New York City Department of Education indicate that only 1 in 10 black and Hispanic students earns a Regents diploma and, therefore, civilian employers and educational institutions are less likely to accept young men and women of color once they leave high school. The military is therefore often seen by such students as their only career choice after graduation. As a result, young adults of color are disproportionately recruited into the military, bear an unequal burden of military service, and are more likely to be killed or injured.

The City Council finds that permitting the United States military to recruit personnel within, or use the resources of, the New York City public schools and the City University of New York, exacerbates this problem, and is discriminatory and contrary to the well being of New York City's young adults.

§2. Chapter 20 of the New York city charter is hereby amended to add a new section 530 to read as follows:

§530 Military recruitment prohibited. a. Definitions. For the purposes of this section, the following terms shall have the following meanings:

1. "Educational agency" shall mean the New York city department of education or the City University of New York, or any individual school thereof.

2. "United States armed forces" shall mean the United States military, including, but not limited to, the army, navy, air force, marines and the national guard, or any other branch or reserve component thereof.

b. Prohibition of military recruitment. Educational agencies shall prohibit members, representatives or other agents of any branch of the United States armed forces from utilizing any grounds, buildings, facilities or equipment owned, leased or operated by such agencies, or any supplies or materials created or used by such agencies, including, but not limited to, lists of student names, addresses, telephone numbers or other personally identifying student information, and shall prohibit the United States armed forces from attending or utilizing in any way any job or college recruiting event sponsored by such agencies held at any location, whether or not owned, leased or operated by an educational agency, for the purpose of membership recruiting for the United States armed forces.

c. Consent to disclosure of student information. An educational agency shall not provide any personally identifying information about any student to the United States armed forces, unless such agency obtains the prior written consent of a parent or guardian of such student, or if such student is eighteen years of age or older, the prior written consent of such student.

§3. If any subsection, sentence, clause, phrase or other portion of this local law is, for any reason, declared unconstitutional or invalid, in whole or in part, by any court of competent jurisdiction, such portion shall be deemed severable and such unconstitutionality or invalidity shall not affect the validity of the remaining portions of the local law that added this section, which remaining portions shall remain in full force and effect.

§4. This local law shall take effect immediately upon its enactment.

Resolution calling upon the New York State Department of Education to improve the process by which eligible students enroll in Supplemental Education Services and to improve oversight of the providers of such services.

By Council Members Brewer, Barron, Clarke, Comrie, Foster, Gerson, Jackson, James, Liu, Mark-Viverito, Mendez, Palma and Seabrook.

Whereas, Pursuant to the federal No Child Left Behind Act (NCLB), public schools that have failed to meet "adequate yearly progress" in reaching State academic standards are listed as "Title I Schools in Need of Improvement"; and

Whereas, New York State identifies such elementary and middle schools based on State English language arts and mathematics tests taken by students in grades 4-8, and the State further identifies high schools based on the results in English language arts and/or math Regents and graduation rates; and

Whereas, Pursuant to NCLB, low-income students attending a school that has been identified by the State as "in need of improvement" for two consecutive years, may be eligible for a school transfer or Supplemental Education Services (SES); and

Whereas, SES programs are free tutoring programs in English language arts, reading or math, and are provided by New York State approved educational organizations, including community-based organizations, faith-based organizations and for-profit education companies; and

Whereas, The New York City Department of Education lists over 200 schools that are eligible for SES programs for 2005-06; and

Whereas, According to a September 2005 press release from the New York City Department of Education, there are currently 87 State approved SES providers operating in the City; and

Whereas, The New York City Department of Education indicates that the number of New York City students participating in such programs has been steadily increasing, reaching 87,318 in 2004-05; and

Whereas, Despite the increasing number of students being served, there remains a significant number of eligible students who are going without supplemental services; and

Whereas, According to a *New York Times (NYT)* article appearing on February 12, 2006, less than half of the 215,000 New York City students eligible for SES actually received such services; and

Whereas, In addition, the *NYT* article also stated that approximately 34,000 New York City students attended only a few tutoring sessions and did not complete the SES program; and

Whereas, State and City officials as well as providers and education advocates have suggested that students are not participating in the free tutoring programs for a number of reasons, including the lack of parent awareness and a complicated enrollment procedure; and

Whereas, In addition to the lack of student participation, there have also been oversight concerns regarding the SES providers; and

Whereas, A Report done by the special commissioner of investigation for the City's school system found that some tutoring companies may have inappropriately recruited students through gift certificates, tickets to sporting events and electronic gifts; and

Whereas, Further, some education advocates have suggested that some tutoring companies have avoided serving students with learning or language difficulties because the measurement of a company's performance is partially based on the progress its students make; and

Whereas, According to the New York State Education Department's Request for Qualifications (RFQ), approved SES providers must submit annual progress reports to be reviewed by the State Education Department, which are used to determine continued eligibility as an approved provider; and

Whereas, According to the RFQ, providers will be removed as an approved SES provider if they fail, for two consecutive years, to contribute to a student's academic performance; and

Whereas, Action must be taken to ensure that the services offered by SES providers are having a positive impact on student achievement in the quickest time possible; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Department of Education to improve the process by which eligible students enroll in Supplemental Education Services and to improve to improve oversight of the providers of such services.

Section 1. Legislative Declaration. It is hereby declared that the posting of notification of the inability to deliver mail on the front door of a residence creates a public safety risk. Such postings not only notify the homeowner or resident of an attempt to deliver mail, they also notify all passersby of an unoccupied home. Given that homes are more likely to be burglarized when residents are away, these postings can create an easy opportunity for a potential burglar and encourage criminal activity, endangering the health, welfare and safety of the citizens of our City.

§2. Chapter 1 of title 10 of the administrative code of the city of New York is hereby amended by adding a new section 10-119.2 to read as follows:

*§10-119.2. **Notice of Inability to Deliver Mail or Packages**. a. For purposes of this section the following terms shall have the following meanings:*

1. The term "mail" shall mean any letter or package to be delivered to an addressee through either a public or private postal system.

2. The term "intended recipient" shall mean the person or entity to whom the mail is addressed or any such person evincing access to the addressed premises.

3. The term "usual mail delivery receptacle" shall mean the addressee's designated mailbox or door mail slot.

b. It shall be unlawful for any person or entity that delivers mail to post notification of inability to deliver mail in a manner conspicuous to persons other than the intended recipient of such mail. Such unlawful methods of posting shall include, but not be limited to, posting on the front door of a residence. Any person or entity delivering such mail shall, where practicable, place such notification in or through the usual mail delivery receptacle where it is inconspicuous to all but the intended recipient.

§3. This local law shall take effect 120 days after its enactment into law.

Resolution calling upon the New York State Legislature to adopt and the Governor to sign legislation allowing taxpayer money to fund tuition vouchers for private and parochial schools.

By Council Members Felder, Gallagher, Lanza and Oddo.

Whereas, On June 27, 2002, the United States Supreme Court held in *Zelman, Superintendent of Public Instruction of Ohio, et al. v. Simmons-Harris, et al.* that a school voucher program in Cleveland, Ohio that provides public funding for religious school tuition does not violate the Establishment Clause of the United States Constitution, thereby enabling states under certain circumstances to create acceptable publicly-funded voucher programs; and

Whereas, President Bush has called voucher programs "a constructive approach to improving public education;" and

Whereas, School choice advocates at the Institute for Justice have declared that vouchers are "an educational lifeline to students trapped in failing public schools;" and

Whereas, The Manhattan Institute has reported that New York City 4th and 5th grade students who were sent to private schools through a privately-funded voucher system improved their reading scores by 4 points and their math scores by 6 points after one year; and

Whereas, The Campaign for Fiscal Equity has found that only 22% of high school graduates in New York City earn a Regents diploma, only 25% of the City's sixth graders score at the highest level ("Distinction") on the State reading test, and only 41% of the City's high school students pass the Regents Mathematics I exam; and

Whereas, All parents, regardless of income, should have the ability to send their children to the best possible schools available; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to adopt and the Governor to sign legislation allowing taxpayer money to fund tuition vouchers for private and parochial schools.

Resolution recognizing the month of June 2006, and the month of June of every year thereafter, as Water Safety Month in the City of New York and urging all New Yorkers and visitors, who plan to be near any water source, to apply water safety measures to prevent drownings and water-related injuries.

By Council Members Felder, Addabbo Jr., Brewer, Fidler, Foster, Gennaro, Gonzalez, Jackson, Liu, Mendez, Nelson, Recchia, Seabrook and Weprin.

Whereas, The City of New York is home to a multitude of beaches and pools which provide free recreation and enjoyment for millions of New Yorkers and visitors each year; and

Whereas, The New York City Department of Parks and Recreation manages 14 miles of beaches and 53 outdoor pools located throughout the City's five boroughs; and

Whereas, In order to keep the beaches and pools safe, the City's Department of Parks and Recreation hires and trains a lifeguard staff which supervises the public use of the City's beaches and pools; and

Whereas, Recreation on boats and jet-skis and at beaches and pools, as well as fishing, can be fun, enjoyable and healthy activities so long as individuals practice water safety; and

Whereas, According to the United States Army Corps of Engineers' National Water Safety Program, drowning is the second leading cause of accidental deaths for persons 15 through 44 years of age; and

Whereas, According to the Centers for Disease Control and Prevention (CDC), drowning is the second leading cause of injury-related death for children aged 1 through 14 years; and

Whereas, The CDC reported that in the year 2000, 3,482 people unintentionally drowned in the United States, an average of 9 people per day, and that more than 75% of the drownings occurred among males; and

Whereas, Statistics from the CDC's National Center for Injury Prevention and Control indicate that the drowning rate among African-Americans is approximately 1.4 times that among whites; and

Whereas, According to the United States Army Corps of Engineers' National Water Safety Program, most drowning victims had no intention of being in water, such as boaters and individuals who are fishing, and drown within 10-30 feet of safety; and

Whereas, Exercising water safety measures can prevent drownings and water-related injuries and ensure that fun does not unnecessarily turn into tragedy; and

Whereas, Individuals who plan to be near any water source – particularly near pools, rivers, and the ocean – are urged to exercise water safety measures recommended by the American Red Cross, the Journal of the American Medical Association, and the American Medical Association; and

Whereas, The recommended water safety measures include, but are not limited to, taking a boating course to learn about navigation rules, emergency procedures and the effects of wind, water conditions and weather, developing a float plan so that anytime you go out in a boat you would give a responsible person details about where you will be and how long you will be gone, learning how to swim if you intend to play or work around water, wearing a properly fitted Coast Guard-approved life jacket when boating and fishing, never mixing alcohol and swimming since alcohol impairs your judgment, balance, and coordination, affects your swimming and diving skills, and reduces your body's ability to stay warm, always practicing the "buddy system" and never swimming alone, swimming only in supervised areas, always obeying all rules and posted signs and entering feet first into water if you do not know the depth, paying attention to local weather conditions and forecasts and stop swimming and boating at the first indication of bad weather since water conducts electricity, not taking chances by over estimating your swimming skills, swimming only in designated swimming areas, never leaving a child unobserved around water including bathtubs and sinks, and knowing how to prevent, recognize, and respond to emergencies; and

Whereas, The Council of the City of New York believes that the month of June 2006, and the month of June of every year thereafter, should be designated as Water Safety Month to serve as a reminder of the vital importance of water safety as we approach warm weather months; now, therefore, be it

Resolved, That the Council of the City of New York recognizes the month of June 2006, and the month of June of every year thereafter, as Water Safety Month in the City of New York and urge all New Yorkers and visitors, who plan to be near any water source, to apply water safety measures to prevent drownings and water-related injuries.

A Local Law to amend the New York city charter, in relation to requiring the Department of Education to provide personnel and disciplinary records to any nonpublic school that considers hiring a former or current Department of Education employee.

Be it enacted by the Council as follows:

Section 1. Legislative findings and intent. Education Law §549 declares that it is the State's "primary responsibility to ensure the health, welfare and safety of children attending both public and nonpublic schools." One way to help fulfill this mandate is to ensure that all public school teachers, administrators and staff undergo a criminal background check. This procedure, mandated for public school personnel, is designed to discover whether those with criminal histories, particularly with respect to sex offenses or other acts injurious to children, are applying for these sensitive positions of trust within our public school system.

Unfortunately, however, State law does not mandate the same type of criminal background check for nonpublic school personnel. As past incidents have shown though, teachers and other school personnel who may prey on our students are not limited to public schools. In an incident in Brooklyn in March of 2004, a nonpublic schoolteacher was arrested on child pornography charges, and had previously been arrested for the same charge in 1999; however, the school was not aware of his criminality when he was hired. In fact, this teacher had been employed by the Department of Education and subsequently terminated after the initial 1999 charge.

This incident, and others like it, points not only to the importance of an amendment to State law to mandate that nonpublic school personnel be subject to the same criminal background checks as those who teach and work in our public schools, but also to the need to require the Department of Education to supply personnel records and other criminal background information to nonpublic schools that are considering hiring a current or former DOE employee. When it comes to the safety of our children, there should not be any hesitation in sharing this type of vital information. Until State law is changed, the Department of Education should provide this information to ensure the safety of all our schoolchildren.

§2. Chapter 20 of the New York city charter is amended to add a new section 530 to read as follows:

§530. Department of education to provide nonpublic schools with criminal background information on employees. The department of education shall, upon written request of a nonpublic school, provide such nonpublic school with any relevant personnel records, and the results of any criminal background check conducted by the department of education, with respect to current or former employees of the department. The written request shall only be made by a nonpublic school that has interviewed and is considering hiring a current or former employee of the department of education. All information requested by a nonpublic school shall remain strictly confidential, and the department of education may not take any adverse personnel action against any individual who seeks other employment. In addition, the department of education, in its discretion, may redact any portions of any records that it provides to the nonpublic school. The department of education may also promulgate any rules and regulations it deems necessary to implement the provisions of this section and to ensure the confidentiality of personnel records. For the purposes of this section, "adverse personnel action" shall mean dismissal, demotion, suspension, disciplinary action, negative performance evaluation, any action resulting in loss of staff, office space or equipment or other benefit, failure to appoint, failure to promote, or any transfer or assignment or failure to transfer or assign against the wishes of the affected officer or employee.

§3. This local law shall take effect immediately.

Resolution calling upon the New York City Board of Elections to take various measures to ensure public input and public confidence in any election system procured pursuant to the Help America Vote Act of 2002 (HAVA).

By Council Members Jackson, Arroyo, Barron, Brewer, Clarke, Comrie, Dickens, Foster, Gennaro, James, Koppell, Liu, Mark-Viverito, Mendez, Nelson, Palma, Seabrook, Stewart, Martinez, McMahon, Monserrate, Avella and Vacca.

Whereas, The federal Help America Vote Act of 2002 (HAVA) requires the New York City Board of Elections to modernize elections; and

Whereas, One substantive aspect of election modernization entails the procurement of new voting machines to replace the outdated lever machines that are currently in use throughout the city; and

Whereas, The rationale behind Congress' adoption of HAVA was to prevent the debacle that occurred in Florida during the 2000 presidential election, which for many Americans left the accuracy and integrity of the vote in question; and

Whereas, Transparency, accountability, and public input are hallmarks of democratic government; and

Whereas, Free and fair elections are best served by members of the public participating in and observing all aspects of the conduct of elections as this protects the accuracy and instills confidence in the outcomes; and

Whereas, Notwithstanding the preceding, the New York City Board of Elections has not yet held public hearings regarding election modernization; and

Whereas, No governmental body in New York has yet held public tests of any of the new voting systems allegedly under consideration; and

Whereas, The New York City Board of Elections has not yet published a cost analysis of the acquisition, transition, and continuing costs of new voting systems; and

Whereas, Citizens continue to advocate for transparency in the process of selecting and testing new voting equipment; and

Whereas, Public participation and confidence in the selection process would be improved if the New York City Board of Elections undertakes the following measures prior to selection of new machines:

1. Conduct public hearings in each borough, during both day and evening hours; and

2. Publish an analysis of acquisition, transition, and continuing costs of all systems under consideration; and

3. Demonstrate in public, for all systems under consideration, that all work necessary for the conduct of elections can be performed by bi-partisan elections staff and will not require the delegation of any tasks to vendor technicians for any reason, including the employment of secret software or systems that cannot be serviced by bi-partisan staff; and

4. Certify that the voter verified paper audit record produced by Direct Recording Electronic (DRE) systems under consideration use paper of a quality that does not fade during the time that such records are required to be kept, and do not require climate-controlled storage; and

5. Demonstrate in public the ease of use and accuracy for all systems under consideration, via the conduct of a multi-machine Mock Election Public Test with a

minimum of four machines and a central tabulator if it is part of the new voting system, in which the rate of error or malfunctions does not exceed that which has been recorded for our present lever voting machines; and

6. Demonstrate to the public the effectiveness of vendor documentation, training materials, and ability to train county staff by requiring the vendor to train Board of Elections staff, and Board of Elections staff to independently perform all tasks to prepare the test machines for the test including ballot programming, and to train election inspectors for the test, and to perform all post-election tasks to canvass the votes; and

7. Demonstrate to the public the accuracy of the votes displayed on the DRE screen and voter verified printout, tallies, and DRE activity logs; and

8. Demonstrate to the public the accuracy of associated tabulating equipment results; and

9. Conduct a Professional Hacking Test ("Red Test"), such as the RABA Technologies test commissioned by the Department of Legislative Services of the Maryland General Assembly; and

10. Conduct a Public Hacking Test, such as the one sponsored by Leon County, Florida Supervisor of Elections Ion Sancho and Harri Hursti, the computer security expert from Finland; and

11. Demonstrate to the public the capacity of bipartisan staff of the New York City Board of Elections to conduct a procedure to confirm that any voting systems equipment purchased and delivered for use in city elections is correctly configured and consists of exactly the same components as the system of that type that was certified for use in New York State by the State Board of Elections, including a demonstration of an easily-used inventory list of all system components in each state-certified voting system under consideration, which includes all hardware, programming, files, file system structures, documentation, training materials, accessories, and all other components, and a demonstration that all components are safe and proper for inclusion in a voting system in New York State, and that no components would allow for illegal activities such as wireless communications; and

12. Commit to audits, both before and after each election, that will verify that the machines used are correctly configured and contained exactly the same components as the system of that type that was certified for use in New York State; and

13. Commit that all political parties with candidates in an election may designate technical and legal representatives to inspect voting systems before elections for illegal communication capability whether hardware, software, firmware, or any other type; and

14. Commit that the testing of electronic voting systems that include the use of test ballots will use ballots entered via the same method by voters on election day, including use of all accessibility attachments, minority language displays, DRE voter verified printouts, and extraction of end-of-day results; and

15. Commit to include in the contract for procurement the posting of a bond or letter of credit so that vendors can remedy the problems that occur, and reimburse the additional expenses that are incurred, due to the determination that systems upon delivery, or after vendor access to systems, are corrupt or different from the state-certified version of the system; and

16. Commit that if a recognized computer professional or security expert believes that they have found a weakness in the voting system acquired, the Board of Elections shall arrange for a test to enable such professional or expert to demonstrate the presence of the weakness and suggest ways to remedy it; and

Whereas, These measures will further enhance the democratic process and ultimately improve voter participation once the new systems are in place; now, therefore, be it

Resolved, That the Council of the City of New York urges the New York City Board of Elections to take various measures to ensure public input and public confidence in any election systems procured pursuant to the Help America Vote Act of 2002 (HAVA).

Be it enacted by the Council as follows:

Section 1. Chapter 1 of title 17 of the administrative code of the city of New York is hereby amended by adding a new section 17-192 to read as follows:

§17-192. a. Hospital Closure Study. The department, in consultation with the economic development corporation and the New York city health and hospitals corporation, shall conduct a study analyzing the socio-economic impact of all hospitals that were closed or converted during the period of January 1, 1995 through December 31, 2005. Such study shall consist of a comprehensive analysis of the socio-economic impact of such hospital closures and conversions, including, but not limited to, the effect such closures or conversions have had on: (i) the delivery of health care services; (ii) disparities in health care; and (iii) the local economy. Where a private hospital was closed or converted, such study shall also analyze the impact such closure has had on hospitals operated by the New York city health and hospitals corporation.

b. Report. On or before November 1 of the year two thousand and six, the department shall submit to the mayor and the speaker of the city council a report summarizing the results of the study conducted pursuant to subdivision a of this section, disaggregated by each such hospital.

§2. Nothing in this local law shall be interpreted or applied so as to create any power, duty or obligation in conflict with any federal or state law.

A Local Law to amend the administrative code of the city of New York, in relation to maintaining maintenance hole covers and electrical-related infrastructure.

Be it enacted by the Council as follows:

Section 1. Declaration of legislative findings and intent. The dangers of stray voltage and exploding manhole covers became apparent two years ago when Jodie S. Lane was electrocuted on the streets of New York while walking her two dogs. Although stray voltage and exploding manhole covers have been part of New York City life for many years, the death of Jodie Lane was the first time stray voltage was known to have killed a pedestrian. To address the dangers on our sidewalks and streets, the City Council held a series of hearings on stray voltage. The result of these hearings was the passage of Local Law 44 of 2004 ("Local Law 44"), which required the local electric corporation and the New York City Department of Transportation to conduct annual tests of the electrical infrastructure. The law also requires the local electric corporation to make repairs if it finds stray voltage. The Public Service Commission also issued an order instituting safety standards requiring utilities to conduct testing and inspections.

Despite Local Law 44, people and animals are still being injured and killed by exposure to stray voltage and endangered by exploding maintenance hole covers (commonly called "manhole covers"). Recently, a manhole cover exploded with enough force to overturn a large sports utility vehicle that landed on a firefighter responding to reports of a manhole fire. The vehicle landed sideways on the firefighter, who miraculously was not seriously injured because he crashed clean through a side window of the vehicle.

The Council finds that there still is a state of danger on our sidewalks and streets and that it must exercise its police powers to ensure that the sidewalks and streets are safe. The local electric corporation recently testified at a City Council hearing that it was spending millions of dollars to purchase new equipment to detect stray voltage. The detection of stray voltage is necessary, but the Council believes that the real problem with stray voltage results from an aging infrastructure that is poorly or inadequately maintained. The Council believes that more needs to be done to prevent stray voltage.

The Council believes that companies that own or maintain electrical-related infrastructure and manholes need to be more accountable for ensuring the safety of New Yorkers walking on the sidewalks and streets. By exposing to liability for civil penalties companies that allow their electrical-related infrastructure to emit stray voltage or manhole covers to become hazardous, the Council intends for these companies to take a more aggressive approach in preventing stray voltage and manhole cover hazards before anyone is harmed.

§2. This local law shall be known as the Street Utilities Safety Act.

§3. Subdivision a of section 19-153 of the administrative code of the city of New York is amended to read as follows:

§19-153 **Inspection, testing and repair of electrical-related infrastructure.** a. The provisions of this section shall only apply to electrical-related infrastructure located in the city of New York capable of emitting stray voltage. For purposes of this [section] *chapter*, the following terms shall have the following meanings: 1. "Local electric corporation" shall mean an electric corporation as defined in paragraph 13 of section 2 of the public service law, or its successor provision, that

owns and operates transmission and distribution systems for the provision of electrical service in the city of New York.

2. "Local gas corporation" shall mean a gas corporation as defined in paragraph 11 of section 2 of the public service law, or its successor provision, that owns and operates transmission and distribution systems for the provision of gas service in the city of New York.

[2] *3.* "Stray voltage" shall mean any unintended electrical potentials between contact points that may be encountered by humans or animals.

[3] *4.* "Voltmeter" shall mean an instrument that measures differences of electric potential in volts.

[4] 5. "Non-conductive protective material" shall mean any casing or material of sufficient composition or thickness to adequately obstruct the unintended flow of electricity.

§4. Chapter 1 of title 19 of the administrative code of the city of New York is amended by adding new sections 19-154 and 19-155 to read as follows:

§19-154 ***Penalties for failure to maintain maintenance hole covers.***

a. Any local gas corporation or local electric corporation that owns or maintains maintenance hole covers and the equipment contained under the maintenance hole covers shall maintain them so that they do not present any hazards. Hazardous maintenance hole covers include, but are not limited to, one that is displaced by a sudden unexpected increase in pressure or one that is raised to a temperature that is hazardous to pedestrians and animals.

b. If the department makes a determination that a maintenance hole cover is hazardous, the local gas corporation or local electric corporation that owns or maintains such maintenance hole cover shall be liable for a civil penalty of up to one thousand dollars for the first violation and up to five thousand dollars for each succeeding violation that occurs within a twelve-month period on the same or other maintenance hole covers owned or maintained by the same local gas corporation or local electric corporation.

§19-155 ***Penalties for incidents of stray voltage.*** *a. Any local electric corporation that owns or maintains electrical-related infrastructure shall maintain it so that it does not emit stray voltage.*

b. Upon notice of an incident of stray voltage, the department shall test the electrical-related infrastructure reported to be emitting stray voltage. If the department's test indicates the presence of stray voltage, the local electric corporation responsible for the electrical-related infrastructure emitting stray voltage shall be subject to a civil penalty of up to one thousand dollars for the first violation and up to five thousand dollars for each succeeding violation that occurs within a twelve-month period on the same or other electrical-related infrastructure owned or maintained by such local electric corporation.

A Local Law to amend the administrative code of the city of New York, in relation to notifying tenants of city-owned buildings about the potential for tenant ownership prior to disposition.

Be it enacted by the Council as follows:

Section 1. Legislative findings. The Council finds that many tenants who reside in housing owned by the City are not adequately notified of the opportunity to organize themselves and to prepare themselves to responsibly take the necessary steps that would give them the ability to purchase and manage the building in which they reside prior to its disposition by the City. Thus the Council seeks to impose mandatory notification requirements in order to inform tenants of the options available to them before the City divests itself of their building and to ensure that tenants know that they have the potential ability to purchase their own building with the appropriate support and guidance.

§2. Title 26 of the administrative code of the city of New York is hereby amended by adding a new chapter 10 to read as follows:

Chapter 10

Notification to Tenants of City-Owned Property Prior to Disposition

§26-901. Definitions

§26-902. Notification

§26-903. Tenant Meeting

§26-904. Delivery by Mail

§26-901. Definitions. For the purposes of this chapter, the following definitions shall apply:

a. "Department" shall mean the department of housing preservation and development.

b. "Disposition" shall mean a sale or transfer of property or change in the title or ownership of property from the city.

c. "Tenant" shall mean any lawful occupant of a multiple dwelling who is eighteen years of age or older.

§26-902. Notification. Notwithstanding any law or rule to the contrary, prior to any disposition of a multiple dwelling owned by the city, the city is obligated to provide a written notice to tenants residing in such multiple dwelling, each such written notice shall include language clearly and fully explaining all of the department's disposition programs and their specific requirements for participation, such as the Tenant Interim Lease Apartment Purchase (TIL) program, and shall include a department telephone number for tenants to contact for further information. Such notice shall also include specific language in large bold letters, "The tenants of this building may have the right to tenant home ownership and should inquire with the department of housing preservation and development." The right to such notice shall not be dependent upon an action by the tenant, such as a written or verbal request. A duplicate written notice shall also be conspicuously placed and of sufficient size to be easily readable in the lobby and in at least one other common area of such multiple dwelling.

§26-903. Tenant Meeting. Prior to any disposition of a multiple dwelling owned by the city but after the tenants of such multiple dwelling have received the written notice as described in section 26-902 of this chapter, a public meeting of the tenants of such multiple dwelling shall be held by the department at such multiple dwelling or at a location in close proximity thereto if such multiple dwelling does not have a suitable space for such meeting of the tenants. Such meeting shall take place between the hours of 6:00 p.m. and 9:00 p.m. and representatives of the department shall be on hand to describe and distribute literature relating to every department disposition program. At such meeting, tenants shall be informed of their right to possibly participate in one of these programs including the potential to participate in a program that will result in ownership by the tenants of such multiple dwelling. A written notice informing the tenants of such meeting and listing a department telephone number for further information shall be posted by the department in a conspicuous manner in the lobby and in at least one other common area of such multiple dwelling at least ten days prior to such tenant meeting. Such notice shall also include specific language in large bold letters, "The tenants of this building may have the right to tenant home ownership." The department must document that a majority of tenants were informed of the various department disposition programs at the meeting through the production of a signed petition or through the production of return receipts from certified mail as described in section 26-904 of this chapter or through a combination thereof. Prior to the disposition of such city-owned multiple dwelling, a majority of tenants must consent in writing to such transfer and such consent must be documented by the department through a signed petition collected during or at the conclusion of such meeting, or through the return of a written document with the tenant's signature indicating such consent, which document was delivered to the tenant via certified mail, as described in section 26-904 of this chapter, which mail included a postage paid envelope addressed to the department for return use. Notwithstanding, the department shall not take any action to dispose of a multiple dwelling subject to this chapter, prior to the passage of at least one hundred days, at a minimum, from the date of the public meeting of the tenants of such multiple dwelling as required by this section.

§26-904. Delivery by Mail. Each written notice described in section 26-902 of this chapter or described in section 26-903 of this chapter shall be sent to each tenant by the department via certified mail, return receipt required within ten business days. An attempt at such certified mail delivery shall be made by the department at least two times for the notice described in section 26-902 and at least two times for the notice described in section 26-903 before a tenant can be deemed to have waived their potential right to tenant ownership. Such written notification shall also be affixed to or placed under the door of each dwelling unit in such multiple dwelling and shall be attested to by a representative of the department.

§3. This local law shall take effect on the one hundred and twentieth day after it shall have been enacted into law, except prior to such date the commissioner of housing preservation and development may take all actions necessary for its implementation including the promulgation of rules.

Int. No. 255

By Council Members Martinez, Brewer, Dickens, Foster, Gerson, Gonzalez, Jackson, Koppell, Liu, Mark-Viverito, Mendez, Nelson, Recchia, Seabrook and Weprin.

A Local Law to amend the administrative code of the city of New York, in relation to special hydrant wrenches being issued to each police patrol car/unit so that an open hydrant can be shut off in a timely manner to prevent costly damages to City and private property, to alleviate adverse conditions of low water pressure and to ensure public safety.

Be it enacted as by the Council as follows:

Section 1. Legislative Intent and Findings

The City Council hereby finds and declares that there must be greater accountability for shutting off open hydrants in a timely manner and in light of that, all police patrol cars/units should be issued special fire hydrant wrenches. Currently, the Department of Environmental Protection and the Fire Department have special wrenches to shut off open hydrants, but cannot regularly shut them off in a timely manner due to understaffing and firefighters expressing reluctance to become involved in possible altercations with large crowds. Complaints from certain districts regarding the lack of efficient response to open or leaking hydrants demonstrates the necessity for this reform.

According to the Preliminary Fiscal 2004 Mayor's Management Report, the most frequent 311 citizen inquiries made to the Department of Environmental Protection (DEP), relates to open or leaking fire hydrants. In three months alone, 12,082 calls or 14.2% of total calls were received for this complaint from July through October of 2003.

Illegally opened fire hydrants are detrimental to New York City and its residents in several ways. Based on DEP statistics, these open hydrants are costly to the City in terms of the loss of large amounts of water. Specifically, a single hydrant could waste up to 1,000 gallons of water per minute or 1,000,000 gallons in a 24-hour period, amplifying the cost in times of drought and crisis. Illegally opened fire hydrants may also lead to low water pressure that may adversely affect nearby facilities and residences and more seriously, may hinder fire-fighting by reducing the flow of water to hoses and pumps. Additionally, when the fire hydrants are open just before rainstorms, it can contribute to street flooding and sewer backups. Finally, they may also lead to damages to City infrastructure, damages to residential and commercial property, and damages to cable and telephone equipment, all of which pose a viable danger to the public.

The intent of the Council is not to infringe upon the day-to-day operational activities of the Police Department but to simply point out a necessity in light of Council findings. The availability of wrenches to every police patrol car/unit can only help in avoiding costly damages to City and private property, to alleviate adverse conditions of low water pressure and to enhance the safety of New York City residents.

§2. Chapter one of title 14 of the administrative code of the city of New York is amended to add a new section 14-152, to read as follows:

§14-152. Special Hydrant Wrenches.

Every patrol car must be equipped with a special hydrant wrench capable of opening and closing fire hydrants in the city.

Res. No. 229

Resolution calling upon the New York State Legislature to create a law that mandates that a New York City Police Department representative serve as a member of the Port Authority Board of Commissioners and the Metropolitan Transportation Authority Board, in order to address security concerns.

By Council Members Vallone Jr., Clarke, Fidler, Gennaro, Gentile, Gerson, Liu, Mendez, Nelson, Recchia, Seabrook and Sears.

Whereas, The Port Authority of New York and New Jersey ("Port Authority") manages and maintains the bridges, tunnels, bus terminals, airports, Port Authority Trans-Hudson ("PATH") system and seaport that are critical to the trade and transportation capabilities in the New York-New Jersey region; and

Whereas, The Metropolitan Transportation Authority ("MTA") subways, buses, and railroads provide mass transit to nearly 8 million New Yorkers each weekday, and move 2.4 billion New Yorkers each year; MTA bridges and tunnels carry nearly 300 million vehicles annually—more than any bridge and tunnel authority in the nation; the MTA operates the largest transportation network in North America, serving a population of 14.6 million people in the 5,000 square-mile area spanning New York City through Long Island, southeastern New York State, and Connecticut; and

Whereas, A twelve-member Board of Commissioners governs the Port Authority, to which the Governor of New York and the Governor of New Jersey appoint six members each, subject to State Senate approval; Port Authority Board Members serve as public officials without pay for overlapping six-year terms, and the Governors retain the right to veto the actions of Commissioners from his or her own state; the Board of Commissioners appoints an Executive Director to carry out the Port Authority's policies and manage its day-to-day operations; and

Whereas, The MTA is governed by a Board consisting of seventeen members who are nominated by the Governor of New York, with four members recommended by the Mayor of New York City, and one member recommended by each of the County Executives of Nassau, Suffolk, Westchester, Dutchess, Orange, Rockland, and Putnam counties; the MTA Board also has six rotating non-voting seats held by representatives of organized labor and the Permanent Citizens Advisory Committee, which serves as a voice for users of MTA transit and commuter facilities; all Board members are confirmed by the New York State Senate; and

Whereas, Current New York State law does not direct the Governor of New York to designate a member of the New York City Police Department ("NYPD") to the Port Authority Board of Commissioners and the MTA Board, although the NYPD is viewed as the Nation's leader in law enforcement practices; and

Whereas, NYPD officers work for the largest police department in the Nation, and have extensive training in crime prevention, investigations, narcotics enforcement, forensic science, law, youth relations, and community affairs, in addition to significant expertise in counterterrorism tactics; and

Whereas, The vast transportation system operated by the Port Authority and the MTA, and the critical infrastructure and important entryways in the New York City region managed by these entities are vulnerable to criminal acts, as well as terrorism; this extensive transit network, including major access points to New York City, must be monitored with the utmost diligence to ensure the safety of all New Yorkers and Americans alike; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to create a law that mandates that a New York City Police Department representative serve as a member of the Port Authority Board of Commissioners and the Metropolitan Transportation Authority Board, in order to address security concerns.

Referred to the Committee on Public Safety.

Res. No. 230

Resolution calling upon the New York State Legislature to enact A09954, "Nixzmary's Law," which would provide for police officers to enter without a search warrant for the purposes of investigating severe and repeated child abuse and maltreatment, or to investigate whether the safety of a child is endangered.

By Council Members Vallone Jr., Addabbo Jr., Comrie, Gennaro, Gentile, Sears and Gallagher.

Whereas, The current Criminal Procedure Law requires the New York City Police Department (NYPD) to obtain a warrant prior to entering a home to investigate allegations of child abuse; and

Whereas, Nixzmary Brown, a seven year-old girl, died in January 2006 at the home where she lived with her family, and was allegedly sexually abused, malnourished, and beaten to death by her stepfather; after a second report was made to the State Central Registry (SCR) in December 2005 by the school social worker regarding alleged physical abuse to Nixzmary, ACS Child Protective Services (CPS) caseworkers made four unsuccessful attempts to conduct home visits between December 2005 and January 2006; the tragic death of Nixzmary Brown may have been prevented if ACS caseworkers were able to enter her home without obtaining a warrant; and

Whereas, In the wake of this tragedy, New York State Assemblymember Darryl Towns introduced A09544, also known as "Nixzmary's Law," to prevent another child from suffering the abuse, maltreatment, and possible death, as in the case of Nixzmary Brown; this legislation would amend the Criminal Procedure Law to eliminate the need to undergo the lengthy process of acquiring a search warrant in serious cases of alleged child abuse; and

Whereas, Passing this legislation enhances the ability of ACS caseworkers and NYPD officers to fulfill the mission of ensuring the safety and well-being of New York City children, thus improving the protection of children from abuse and neglect and increasing the prevention of resultant child fatalities; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to enact A09954, "Nixzmary's Law," which would provide for police officers to enter without a search warrant for the purposes of investigating severe and repeated child abuse and maltreatment, or to investigate whether the safety of a child is endangered.

Res. No. 231

Resolution calling upon the New York City Department of Education to not enter into any contracts with wireless communication providers that allow any cellular towers, base stations or antennas on school property.

By Council Members Vallone Jr., Avella, Brewer, Fidler, Gentile, Gerson, Jackson, James, Mendez, Nelson and Recchia.

Whereas, In 2003, the Chancellor of the Department of Education (DOE) put forth a proposal to utilize DOE facilities, including public schools and support and administrative facilities, as transmission sites for commercial wireless communications companies; and

Whereas, According to DOE's "Presentation on Development of Real Estate Assets for Wireless Technology," the commercial wireless companies could install base stations or other small antennas on the roof of participating schools; and

Whereas, Base stations receive and transmit radio frequency ("RF") energy; and

Whereas, According to a *Gotham Gazette* article dated May 27, 2004, cellular phones use RF energy at frequencies between 800 and 900 megahertz, which is greater than a cordless phone but less than a microwave oven frequency; and

Whereas, While the RF may not initially seem dangerous, it is the constancy of the emissions and proximity of equipment that has prompted concern among scientists, advocates and parents; and

Whereas, Most of the health studies that have been conducted regarding RF energy have been inconclusive when determining long-term health effects; and

Whereas, For example, The World Health Organization states that although it is unlikely that exposure to RF from base stations will lead to cancer, there are also gaps in knowledge that need to be filled, such as the long-term effects of multiple base stations in a small area, before better health risk assessments about the effects of base stations can be made; and

Whereas, Due to such uncertainty, school districts across the country, including the Los Angeles Unified School District and Orange County School District in Florida, have stopped proposals to lease space on or near schools for cellular equipment use; and

Whereas, In June 2003, the Panel for Educational Policy, a 13 member board appointed by the Mayor and Borough Presidents, passed a referendum against the DOE's proposal; and

Whereas, Further, Legislation has been introduced in the New York State Senate and Assembly (S.4066/A.5648) that would prohibit wireless facilities from being constructed within 500 feet of a school, including nursery schools; and

Whereas, While the proposal would generate revenue for schools and educational programs, too many uncertainties exist as to the future health risks such cellular equipment might pose to the children of New York City; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York City Department of Education to not enter into any contracts with wireless communication providers that allow any cellular towers, base stations or antennas on school property.

Resolution supporting Senator Russell Feingold's call for the censure of President George Bush for his domestic wiretapping program.

By Council Members Yassky, Barron, Clarke, Foster, James, Liu, Mark-Viverito, Mendez, Monserrate and Seabrook.

Whereas, Individual privacy rights and the strict regulation of the government's ability to invade the homes and monitor the private communications of all Americans for law enforcement purposes are fundamental principles of the American judicial system; and

Whereas, On December 16, 2005, the New York Times published an article revealing that in 2002, President George Bush signed an order directing the National Security Agency to initiate an undisclosed number of wiretaps of international telephone calls placed from within the United States and to monitor e-mails sent from within the United States without legally obtaining appropriate warrants; and

Whereas, The Foreign Intelligence Surveillance Act of 1978 authorizes the Government to immediately begin wiretaps during an emergency, provided that warrants for these wiretaps are granted by secret proceedings in the Foreign Intelligence Surveillance Court; and

Whereas, According to Senate Resolution 398, on April 20, 2004, and again on July 14, 2004 and June 9, 2005, President Bush misled the public by stating that the Federal Government would not conduct wiretaps without court orders; and

Whereas, When the President made these statements he was fully aware that the National Security Agency, with his approval, was in fact conducting numerous wiretaps without court orders; and

Whereas, After the New York Times disclosed the existence of the program, President Bush admitted that his domestic surveillance program was conducted without approval from the Foreign Intelligence Surveillance Court; and

Whereas, A wide array of public figures in the United States, including former Vice President Al Gore, have loudly condemned the President's program; and

Whereas, Senator Russell Feingold of Wisconsin has introduced a resolution into the United States Senate calling upon the Senate to censure President Bush because of his actions; and

Whereas, It is clear that the President of the United States authorized a domestic surveillance program in violation of the Foreign Intelligence Surveillance Act of 1978 and intentionally misled the American public about the existence of the program; now, therefore, be it

Resolved, That the Council of the City of New York supports Senator Russell Feingold's call for the censure of President George Bush for his domestic wiretapping program.

Referred to the Committee on State and Federal Legislation.

■ PUBLIC HEARINGS

NEW YORK CITY WETLANDS TRANSFER TASK FORCE

PLEASE TAKE NOTICE, that the New York City Wetlands Transfer Task Force ("Task Force") will hold two (2) public hearings to receive comments regarding the possible transfer of City-owned wetlands to the New York City Department of Parks & Recreation.

The Task Force is a temporary entity created by Local Law 83 (2005) to study the technical, legal, environmental, and economical feasibility of such a transfer of City-owned property only. Before its term expires, the Task Force must submit recommendations on the subject to the Mayor of the City of New York and the Speaker of the Council of the City of New York.

Wetlands improve natural water quality, help prevent flooding, stem shoreline erosion, and provide venues for recreation and aesthetic appreciation. Despite their many advantages, wetlands within the City of New York have decreased over the years from more than one hundred (100) square miles to approximately fourteen (14) square miles.

The time and place of the public hearings have been scheduled as follows:

DATE: May 22, 2006
TIME: 7:00 P.M. - 9:00 P.M.
LOCATION: Blue Heron Nature Center
222 Poillon Avenue, Staten Island, NY 10312

and

DATE: June 1, 2006
TIME: 7:00 P.M. - 9:00 P.M.
LOCATION: Salt Marsh Nature Center
3302 Avenue U, Brooklyn, NY 11234.

Additional public hearings may be scheduled. Any person in attendance at these public hearings shall be given a reasonable opportunity to present oral or written statements and to submit other documents concerning the transfer actions being considered. Each speaker shall be allotted a maximum of three (3) minutes.

The Task Force has a website (www.nyc.gov/parks, keyword "wetlands") where more information regarding City-owned wetlands, public hearings and other Task Force activities can be viewed. Written comments may be submitted through the website, as well as via postal mail at the addresses below. The deadline for public comment is Friday, June 16, 2006.

WATER BOARD

■ PUBLIC NOTICE

PUBLIC NOTICE IS HEREBY GIVEN that the New York City Water Board will consider an increase in the rate charged for water supply made available to customers outside of New York City from either the Croton or Catskill/Delaware systems of the Water Supply System of the City of New York (the "System"). The basis for this increase is contained in a report prepared by the Amawalk Consulting Group LLC, Rate Consultant to the Board, which sets forth the unit cost of water supply for facilities north of the City for the fiscal year beginning July 1, 2006.

Specifically, it is proposed that the following rate changes become effective as of July 1, 2006:

- **The regulated rate for water supply provided to users outside the City that is within the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York, will be increased from $617.79 per million gallons ("MG") to approximately $700.00 per MG. The precise dollar amount will be determined by June 13, 2006, and will be announced on or before the day of the public hearing.**
- **The rate for water supply provided to users outside the City that is in excess of the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York will be continued at a level equal to the in-City metered rate which, as of July 1, 2006, has been increased from $2,205.88 to $2,419.79 per MG.**

Therefore, in accordance with Section 1045-j(3) of the Public Authorities Law, a public hearing will be held as follows:

Tuesday, June 13, 2006, at 2:00 P.M., in the 2nd Floor Training Room of NYCDEP's Bureau of Water Supply Sutton Park Office, located at 465 Columbus Avenue, Valhalla, New York 10595.

Interested parties who wish to obtain copies of the Rate Consultant's report concerning the cost of supplying water to upstate customers or who wish to give comments to the Board should contact Kevin Kunkle, New York City Water Board, One Lefrak City, 59-17 Junction Boulevard, 8th Floor, Flushing, New York 11373-5108, telephone (718) 595-3601.

■ PUBLIC NOTICE

PUBLIC NOTICE IS HEREBY GIVEN that the New York City Water Board will consider an increase in the rate charged for water supply made available to customers outside of New York City from either the Croton or Catskill/Delaware systems of the Water Supply System of the City of New York (the "System"). The basis for this increase is contained in a report prepared by the Amawalk Consulting Group LLC, Rate Consultant to the Board, which sets forth the unit cost of water supply for facilities north of the City for the fiscal year beginning July 1, 2006.

Specifically, it is proposed that the following rate changes become effective as of July 1, 2006:

The precise dollar amount will be determined by June 13, 2006, and will be announced on or before the day of the public hearing.**
- **The rate for water supply provided to users outside the City that is in excess of the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York will be continued at a level equal to the in-City metered rate which, as of July 1, 2006, has been increased from $2,205.88 to $2,419.79 per MG.**

Therefore, in accordance with Section 1045-j(3) of the Public Authorities Law, a public hearing will be held as follows:

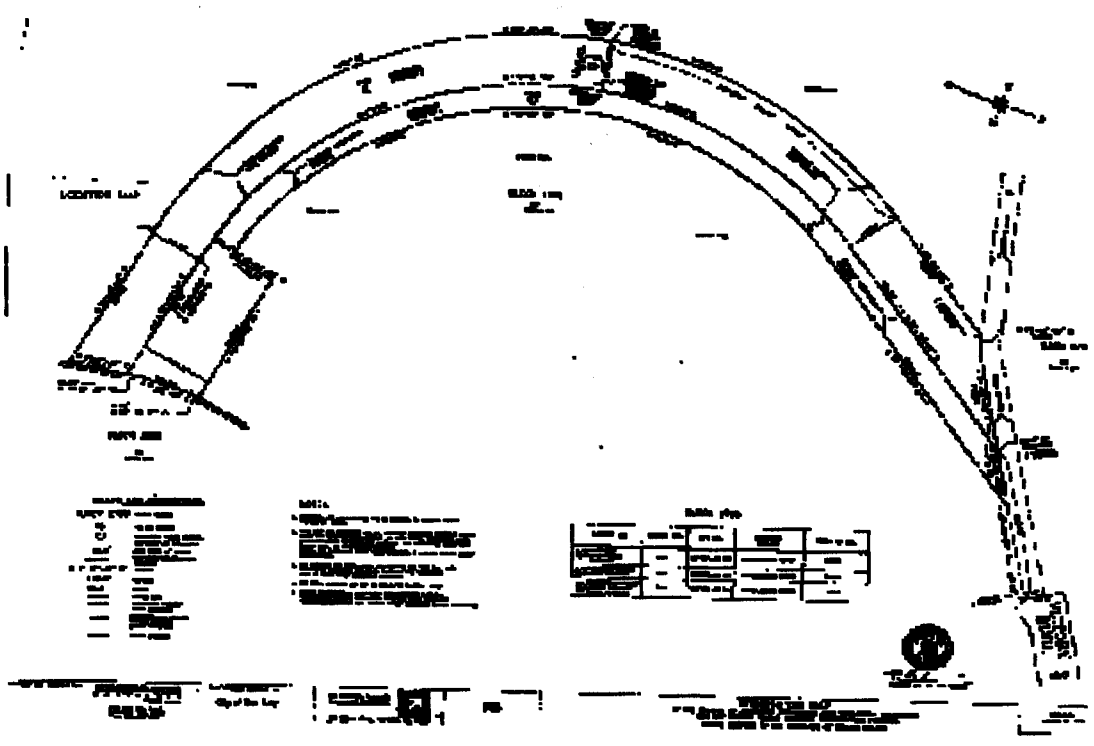
COURT NOTICE MAP FOR STATEN ISLAND RAILROAD REACTIVATION PROJECT, TRAVIS BRANCH



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. WATER BOARD

■ **NOTICE**

PUBLIC NOTICE IS HEREBY GIVEN that the New York City Water Board will consider an increase in the rate charged for water supply made available to customers outside of New York City from either the Croton or Catskill/Delaware systems of the Water Supply System of the City of New York (the "System"). The basis for this increase is contained in a report prepared by the Amawalk Consulting Group LLC, Rate Consultant to the Board, which sets forth the unit cost of water supply for facilities north of the City for the fiscal year beginning July 1, 2006.

Specifically, it is proposed that the following rate changes become effective as of July 1, 2006:

● **The regulated rate for water supply provided to users outside the City that is within the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York, will be increased from $617.79 per million gallons ("MG") to approximately $700.00 per MG. The precise dollar amount will be determined by June 13, 2006, and will be announced on or before the day of the public hearing.**

● **The rate for water supply provided to users outside the City that is in excess of the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York will be continued at a level equal to the in-City metered rate which, as of July 1, 2006, has been increased from $2,205.88 to $2,419.79 per MG.**

Therefore, in accordance with Section 1045-j(3) of the Public Authorities Law, a public hearing will be held as follows:

Tuesday, June 13, 2006, at 2:00 P.M., in the 2nd Floor Training Room of NYCDEP's Bureau of Water Supply Sutton Park Office, located at 465 Columbus Avenue, Valhalla, New York 10595.

Interested parties who wish to obtain copies of the Rate Consultant's report concerning the cost of supplying water to upstate customers or who wish to give comments to the Board should contact Kevin Kunkle, New York City Water Board, One Lefrak City, 59-17 Junction Boulevard, 8th Floor, Flushing, New York 11373-5108, telephone (718) 595-3601.

WATER BOARD

■ NOTICE

PUBLIC NOTICE IS HEREBY GIVEN that the New York City Water Board will consider an increase in the rate charged for water supply made available to customers outside of New York City from either the Croton or Catskill/Delaware systems of the Water Supply System of the City of New York (the "System"). The basis for this increase is contained in a report prepared by the Amawalk Consulting Group LLC, Rate Consultant to the Board, which sets forth the unit cost of water supply for facilities north of the City for the fiscal year beginning July 1, 2006.

Specifically, it is proposed that the following rate changes become effective as of July 1, 2006:

● **The regulated rate for water supply provided to users outside the City that is within the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York, will be increased from $617.79 per million gallons ("MG") to approximately $700.00 per MG. The precise dollar amount will be determined by June 13, 2006, and will be announced on or before the day of the public hearing.**

● **The rate for water supply provided to users outside the City that is in excess of the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York will be continued at a level equal to the in-City metered rate which, as of July 1, 2006, has been increased from $2,205.88 to $2,419.79 per MG.**

Therefore, in accordance with Section 1045-j(3) of the Public Authorities Law, a public hearing will be held as follows:

Tuesday, June 13, 2006, at 2:00 P.M., in the 2nd Floor Training Room of NYCDEP's Bureau of Water Supply Sutton Park Office, located at 465 Columbus Avenue, Valhalla, New York 10595.

Interested parties who wish to obtain copies of the Rate Consultant's report concerning the cost of supplying water to upstate customers or who wish to give comments to the Board should contact Kevin Kunkle, New York City Water Board, One Lefrak City, 59-17 Junction Boulevard, 8th Floor, Flushing, New York 11373-5108, telephone (718) 595-3601.

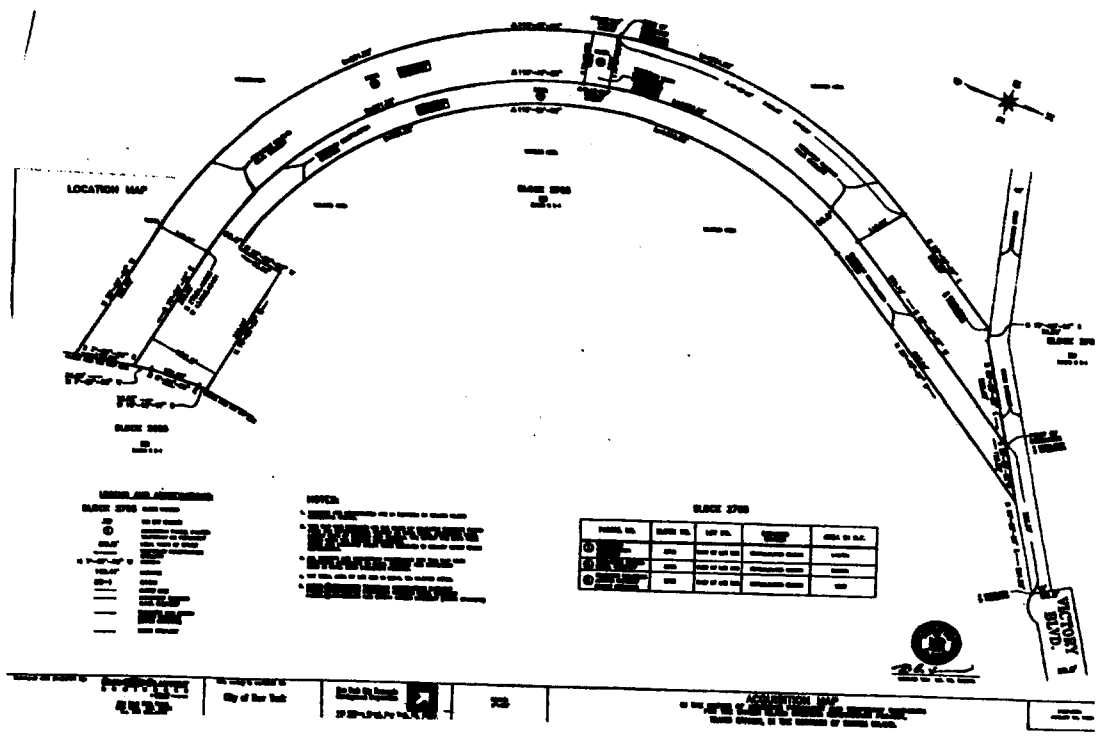
COURT NOTICE MAP FOR STATEN ISLAND RAILROAD REACTIVATION PROJECT, TRAVIS BRANCH



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Name, Description and Location of Proposal:

Riverview, College Point, New York

The Powell's Cove Associates LLC proposes a modification of a previously approved special permit to permit the reorientation of dwelling units in a Large Scale Residential Development located along the East River shoreline in College Point, Queens Community District 7. Additionally, the applicant is now seeking a zoning authorization pursuant to Zoning Resolution (ZR) section 78-313 to distribute floor area across zoning lots; an authorization pursuant to ZR section 23-631(h) to waive wall heights; an authorization pursuant to ZR section 26-26 to modify the required width of private roads; a waterfront certification pursuant to ZR section 62-711; and a zoning text change to ZR section 78-06 to change the ownership requirements for LSRD within Queens Community District 7. The Zoning text change would apply only to the applicant's property. In addition, a landfill approval is being sought, to legalize shoreline landfill which was deposited by a previous owner. NYSDEC has entered into a Consent Decree with the project sponsor by which it approves of the landfill, conditioned on the project sponsor meeting certain landscaping and public access conditions.

The proposed actions would permit the construction of 202 new dwelling units located in 74 two- and three-family, three story attached buildings arranged in 16 clusters on the property, for a total of 399 dwelling units in a reconfigured site plan, compared to the 500 dwelling units previously approved. The proposed actions would also allow for the completion of a publicly-accessible waterfront open space on a portion of the project site where there had been landfilling activities by a previous owner.

The project site is located at 121-21 through 121-39 5th Avenue, on the north side of Powell's Cove Boulevard between 121st Street and Lax Avenue (Block 3916, Lots 90, 100, 300, and 400), within an R4 zoning district. The project site currently has 236 three-story residential structures with accessory parking and a small public walkway on the western portion of the site.

Statement of No Significant Effect Upon Modification:

The Environmental Assessment and Review Division of the Department of City Planning, on behalf of the City Planning Commission, has completed its technical review of the Environmental Assessment Statement dated April 20, 2006, prepared in connection with the ULURP Application (N020331 ZAQ, N020332 MLQ, N020333 ZCQ, M820250(D)ZAQ, N0260426 ZRQ, N060427 NAQ, and N060428 ZAQ). The City Planning Commission has determined that the proposed action will have no significant effect on the quality of the environment, once it is modified as follows:

1. The applicant agrees via a restrictive declaration to prepare a hazardous materials sampling protocol including a health and safety plan, which would be submitted to the Department of Environmental Protection (DEP) for approval. The applicant agrees to test and identify any potential hazardous material impact pursuant to the approved sampling protocol and, if any such impact is found, submit a hazardous material remediation plan including a health and safety plan to DEP for approval. If necessary, remediation measures would be undertaken pursuant to the remediation plan.

Supporting Statement:

The above determination is based on an environmental assessment which finds that:

1. A Phase I Environmental Site Assessment (ESA), available in the proposal's CEQR file, was prepared in October 29, 2003 for the property under the control of the applicant located at 121-21 through 121-39 5th Avenue (Block 3916, Lots 90, 100, 300 and 400). The ESA was reviewed by DEP's Office of Environmental Planning and Assessment, and a restrictive declaration was recommended, as stated in a memo by DEP dated July 16, 2004, due to the potential presence of hazardous material on the site as a result of past and present land uses at the applicant's site. The declaration requires that Phase II testing would occur and is binding upon the property's successors and assigns. The declaration serves as a mechanism to assure the potential for hazardous material contamination that may exist in the sub-surface soils and groundwater on the applicant's sites would be characterized prior to any site disturbance (i.e., site grading, excavation, demolition, or building construction).

   On September 21, 2004, the restrictive declaration was signed, recorded and executed. In an email dated April 14, 2006 sent to City Planning, DEP agreed to the conditions of the restrictive declaration.

   With the implementation of the condition described above, no significant adverse impact related to hazardous materials would occur.

2. No other significant adverse effects on the environment which would require an Environmental Impact Statement are foreseeable.

It is fully agreed and understood that if the foregoing conditions, modification, and alterations are not fully incorporated into the proposed action, this Conditional Negative Declaration shall become null and void. In such event, the applicant shall be required to prepare a Draft Environmental Impact Statement before preceding further with said proposal.

This Conditional Negative Declaration has been prepared in accordance with Article 8 of the Environmental Conservation Law 6NYCRR part 617.

Should you have any questions pertaining to this Conditional Negative Declaration, you may contact Katherine Bucke at (212) 720-3493.

WATER BOARD

■ NOTICE

PUBLIC NOTICE IS HEREBY GIVEN that the New York City Water Board will consider an increase in the rate charged for water supply made available to customers outside of New York City from either the Croton or Catskill/Delaware systems of the Water Supply System of the City of New York (the "System"). The basis for this increase is contained in a report prepared by the Amawalk Consulting Group LLC, Rate Consultant to the Board, which sets forth the unit cost of water supply for facilities north of the City for the fiscal year beginning July 1, 2006.

Specifically, it is proposed that the following rate changes become effective as of July 1, 2006:

● **The regulated rate for water supply provided to users outside the City that is within the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York, will be increased from $617.79 per million gallons ("MG") to approximately $700.00 per MG. The precise dollar amount will be determined by June 13, 2006, and will be announced on or before the day of the public hearing.**

● **The rate for water supply provided to users outside the City that is in excess of the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York will be continued at a level equal to the in-City metered rate which, as of July 1, 2006, has been increased from $2,205.88 to $2,419.79 per MG.**

Therefore, in accordance with Section 1045-j(3) of the Public Authorities Law, a public hearing will be held as follows: **Tuesday, June 13, 2006, at 2:00 P.M., in the 2nd Floor Training Room of NYCDEP's Bureau of Water Supply Sutton Park Office, located at 465 Columbus Avenue, Valhalla, New York 10595.**

Interested parties who wish to obtain copies of the Rate Consultant's report concerning the cost of supplying water to upstate customers or who wish to give comments to the Board should contact Kevin Kunkle, New York City Water Board, One Lefrak City, 59-17 Junction Boulevard, 8th Floor, Flushing, New York 11373-5108, telephone (718) 595-3601.

m19-25

PUBLIC NOTICE IS HEREBY GIVEN THAT pursuant to Section 1045-j (9) of the Public Authorities Law, that after public hearings were held on May 1, 2 and 3, 2006, in accordance with the provisions of such law, the New York City Water Board (the "Board") has, at its meeting held on May 12, 2006, adopted a resolution approving increases in water rates to users of the Water Supply System of the City of New York, for the fiscal year commencing July 1, 2006, from those rates currently in effect, and making certain customer service and billing policy changes, as follows:

I. **There will be a change from currently effective water and wastewater rates for services provided during the fiscal year commencing July 1, 2006.**

(1) Metered and unmetered water rates will increase by 9.4%.

(2) Wastewater charges will remain at 159% of water charges.

(3) The regulated rate for water provided to municipalities and water districts outside of the City which does not exceed the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York will increase by not more than 13% to approximately $700.00 per million gallons, and the rate charged for water provided to municipalities and water districts outside of the City which exceeds the allowance quantities of water set forth in Section 24-360 of the Administrative Code of the City of New York will be equal to the in-City metered rate of $2,419.79 per million gallons.

II. **There will also be changes to certain billing policies and miscellaneous fees and charges.**

(1) Multiple Family Conservation Program (MCP) - The deadline for filing an application for the MCP, currently set forth as December 31, 2006, will be extended by two years to December 31, 2008. Other billing programs due to expire June 30, 2007 will also be extended two years to June 30, 2009.

(2) Miscellaneous Fees for Wastewater Service – The current fee of $200 imposed when, at the request of a customer, the Department of Environmental Protection (DEP) performs a dye test to determine the existence of a connection to the wastewater system will be extended to include any engineering field investigation performed in lieu of a dye test which determines the availability and/or condition of a wastewater connection.

(3) Letter of Authorization (LOA) – A valid LOA must contain a statement that the owner hereby rescinds any previously issued LOA. In cases where an owner has authorized multiple representatives, DEP shall deem the latest dated LOA to be valid, superseding any earlier dated LOAs.

(4) Existing Water Board and DEP policies and procedures will be iterated in the Rate Schedule in the interest of providing a more complete source of information to the Board's customers including the following:

a. DEP's responsibility for the maintenance and repair of water meters used for billing purposes does not extend to the building's plumbing system, including but not limited to service lines, control valves, check valves, and internal piping which are the responsibility of the property owner. Accordingly, owners are responsible for ensuring that the building's plumbing system is in an adequate state of repair so as to enable DEP to repair, upgrade or replace the meter.

b. Currently, DEP may assess a fee when a water meter requires repair or replacement due to the customer's vandalism or other actions. The term "other actions" will be replaced with the more specific term "failure to reasonably protect the meter or components."

Copies of the New York City Water Board Water and Wastewater Rate Schedule are available for inspection by the public during regular business hours at the offices of the New York City Water Board, 59-17 Junction Boulevard, 8th Floor, Flushing, NY 11373.

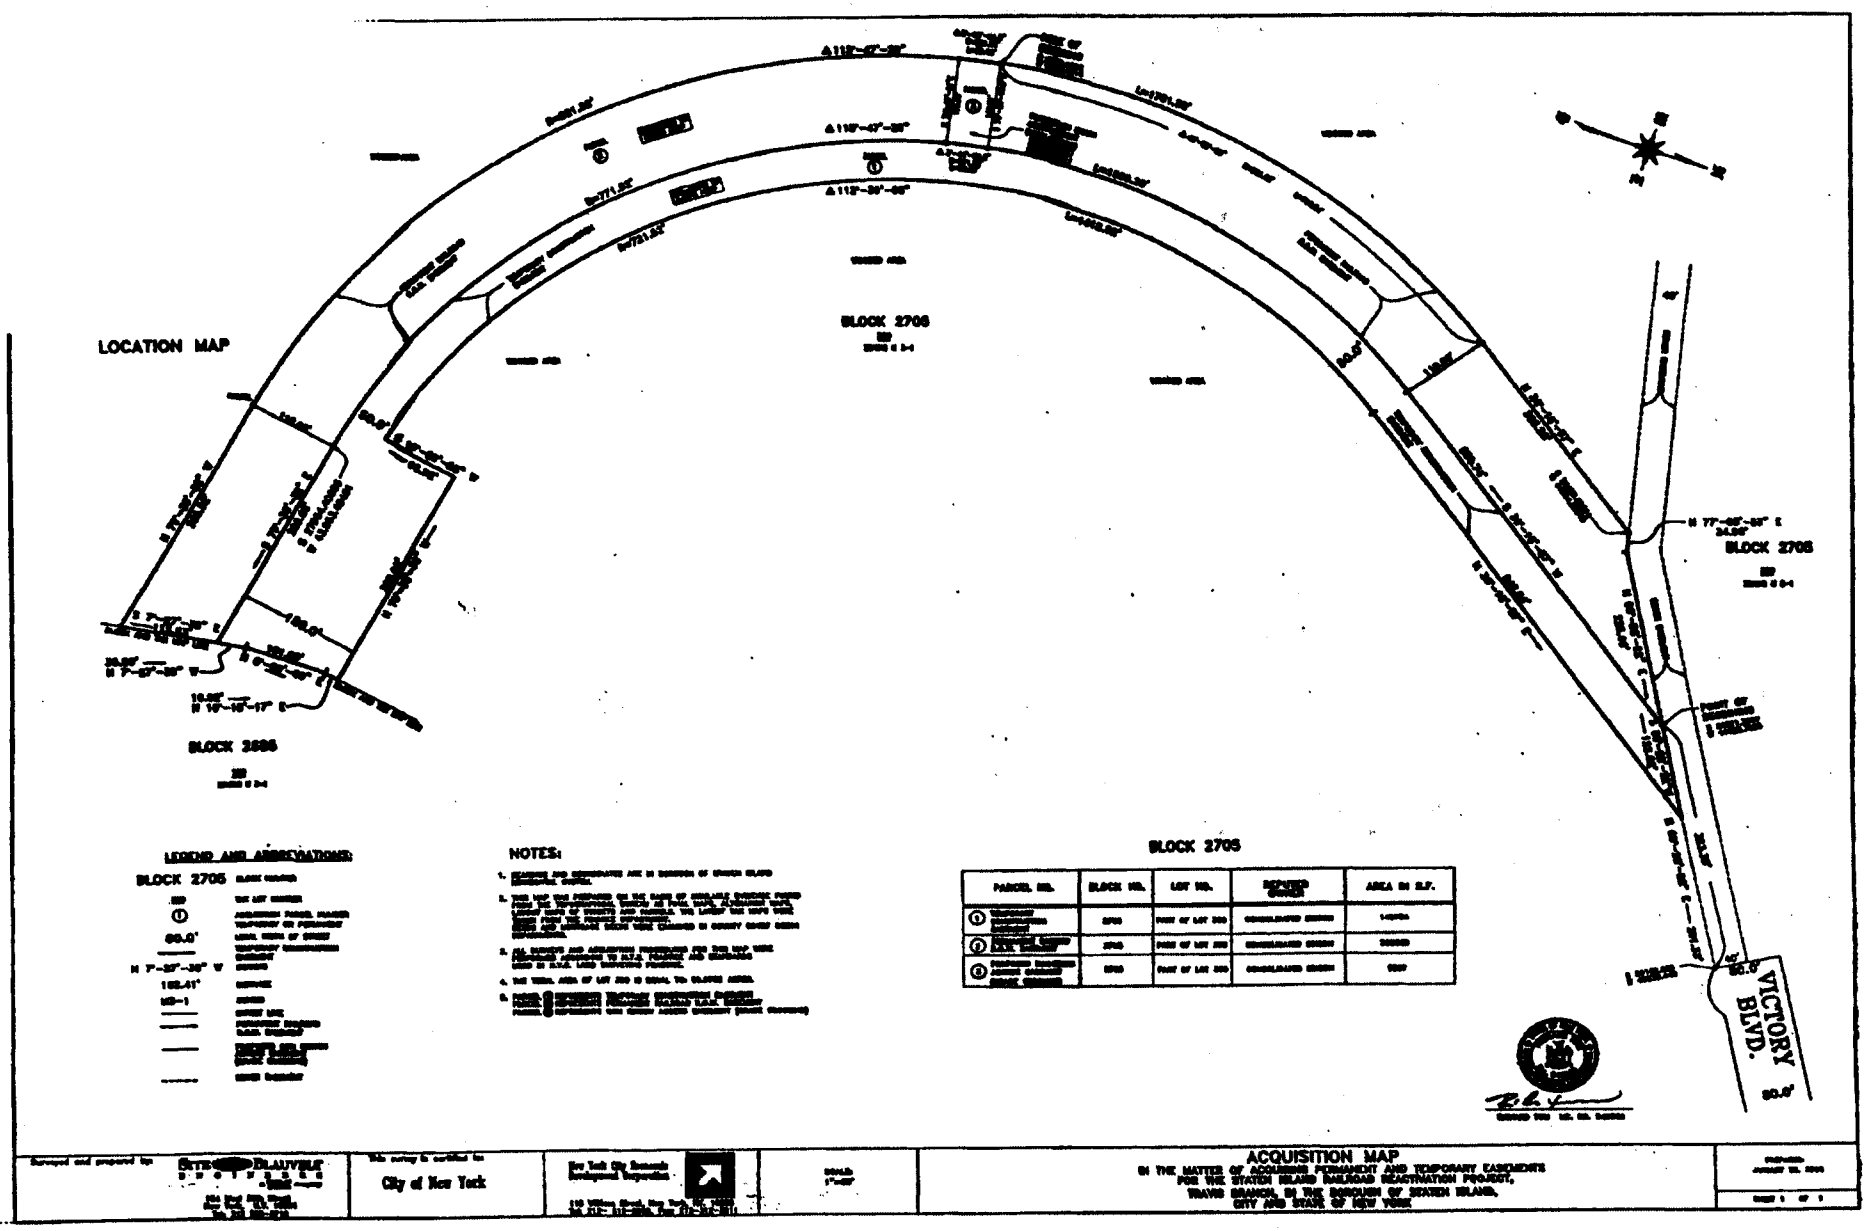
COURT NOTICE MAP FOR STATEN ISLAND RAILROAD REACTIVATION PROJECT, TRAVIS BRANCH



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Statement of Basis and Purpose

This amendment is promulgated pursuant to the authority of the Commissioner of Parks (the "Commissioner") under Sections 389(b), 533(a)(9) and 1043 of the New York City Charter. The Commissioner is authorized to establish and enforce rules for the use, government and protection of all property under the charge or control of Parks.

The amendment provides an updated and consistent fee schedule for all recreation centers. The new fees ensure the continued usage and enjoyment of all recreation centers and provide adequate funding for Parks to sustain appropriate staffing levels and improve facility administration therein.

Moreover, it has recently been determined that Parks may charge membership fees for recreation centers funded by Community Development Block Grants that are consistent with all other recreation centers. With this amendment, the only relevant factor that affects recreation center membership fees is whether or not a recreation center has a pool dedicated for public use, which increases the operation costs of such centers.

(3) An accessible taxicab hacked-up pursuant to this section shall not be eligible for any extension of the retirement dates provided in this paragraph.

STATEMENT OF BASIS AND PURPOSE

The rules provide specifications for taxicabs to be used with accessible medallions pursuant to section 19-532(b) of the Administrative Code of the City of New York. The specifications are applicable to taxicabs that are hacked-up for use with accessible and other medallions on or after June 25, 2006. The specifications incorporate federal regulations promulgated pursuant to the Americans with Disabilities Act of 1990 ("ADA") applicable to vans under 22 feet in length, by the federal Department of Transportation, Code of Federal Regulations, title 49, parts 37 and 38, and by the federal Architectural and Transportation Barriers Compliance Board, Code of Federal Regulations, title 36, sections 1192.23 *et seq.* The purpose of the rules is to ensure that accessible taxicabs are accessible to passengers who use wheelchairs

The rules require that an accessible taxicab be a vehicle other than a van the chassis for which as originally manufactured is designed to seat eight or more persons, a bus, or a minibus. The vehicle must meet the specifications either after original manufacture or after modification by a second-stage manufacturer that is approved by the original manufacturer. The Taxi and Limousine Commission staff has identified two vehicles currently in production that meet the specifications – the Chevrolet Uplander, as modified by Eldorado National and sold as the Amerivan PT, and as modified by the Braun Corporation and sold as the Braun Entervan.

WATER BOARD

■ NOTICE

PUBLIC NOTICE IS HEREBY GIVEN THAT pursuant to Section 1045-j (9) of the Public Authorities Law, that after public hearings were held on May 1, 2 and 3, 2006, in accordance with the provisions of such law, the New York City Water Board (the "Board") has, at its meeting held on May 12, 2006, adopted a resolution approving increases in water rates to users of the Water Supply System of the City of New York, for the fiscal year commencing July 1, 2006, from those rates currently in effect, and making certain customer service and billing policy changes, as follows:

I. There will be a change from currently effective water and wastewater rates for services provided during the fiscal year commencing July 1, 2006.

(1) Metered and unmetered water rates will increase by 9.4%.

(2) Wastewater charges will remain at 159% of water charges.

(3) The regulated rate for water provided to municipalities and water districts outside of the City which does not exceed the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York will increase by not more than 13% to approximately $700.00 per million gallons, and the rate charged for water provided to municipalities and water districts outside of the City which exceeds the allowance quantities of water set forth in Section 24-360 of the Administrative Code of the City of New York will be equal to the in-City metered rate of $2,419.79 per million gallons.

II. There will also be changes to certain billing policies and miscellaneous fees and charges.

(1) Multiple Family Conservation Program (MCP) - The deadline for filing an application for the MCP, currently set forth as December 31, 2006, will be extended by two years to December 31, 2008. Other billing programs due to expire June 30, 2007 will also be extended two years to June 30, 2009.

(2) Miscellaneous Fees for Wastewater Service – The current fee of $200 imposed when, at the request of a customer, the Department of Environmental Protection (DEP) performs a dye test to determine the existence of a connection to the wastewater system will be extended to include any engineering field investigation performed in lieu of a dye test which determines the availability and/or condition of a wastewater connection.

(3) Letter of Authorization (LOA) – A valid LOA must contain a statement that the owner hereby rescinds any previously issued LOA. In cases where an owner has authorized multiple representatives, DEP shall deem the latest dated LOA to be valid, superseding any earlier dated LOAs.

(4) Existing Water Board and DEP policies and procedures will be iterated in the Rate Schedule in the interest of providing a more complete source of information to the Board's customers including the following:

a. DEP's responsibility for the maintenance and repair of water meters used for billing purposes does not extend to the building's plumbing system, including but not limited to service lines, control valves, check valves, and internal piping which are the responsibility of the property owner. Accordingly, owners are responsible for ensuring that the building's plumbing system is in an adequate state of repair so as to enable DEP to repair, upgrade or replace the meter.

b. Currently, DEP may assess a fee when a water meter requires repair or replacement due to the customer's vandalism or other actions. The term "other actions" will be replaced with the more specific term "failure to reasonably protect the meter or components."

Copies of the New York City Water Board Water and Wastewater Rate Schedule are available for inspection by the public during regular business hours at the offices of the New York City Water Board, 59-17 Junction Boulevard, 8th Floor, Flushing, NY 11373. **m25-j1**

TAXI AND LIMOUSINE COMMISSION

■ NOTICE

Notice of Promulgation of Rules

Notice is hereby given in accordance with section 1043(e) of the Charter of the City of New York ("Charter") that the Taxi and Limousine Commission ("TLC") hereby promulgates rules altering license application requirements for taxicab drivers whose licenses expire because they are unable to file timely renewal applications due to active military service; and allowing licensed taxicabs and for-hire vehicle drivers to advance the dates of expiration of their non-probationary licenses one time during the second year of any renewal period.

These rules are promulgated pursuant to section 1043 of the Charter and sections 19-503 and 19-505 of the Administrative Code of the City of New York.

Proposed rules were published for comment in The City Record on April 7, 2006. A public hearing on those proposed rules was held before the TLC at its offices at 40 Rector Street, 5th Floor New York, New York 10006 on May 11, 2006, and amendments to the proposed rules were made at the hearing. Pursuant to section 1-043(e)(1)(c) of the Charter, these rules will take effect 30 days following publication in The City Record.

Statement of Basis and Purpose

The rules amend previously existing Taxi and Limousine Commission ("TLC") rules in two respects.

First, the rules alter license application requirements for taxicab drivers whose licenses expire because they are unable to file renewal applications due to active military service.

Existing rules require a new applicant for a taxicab driver's license to complete 80 hours of instruction in taxi-related subjects and pass an examination as a pre-requisite to obtaining a taxicab driver's license. The amended rules waive this requirement for a taxicab driver who is unable to renew his or her driver's license due to active military service, provided that the driver files an application for a driver's license within 90 days of discharge from active military service, and within three years of expiration of his or her previous driver's license. The purpose of this change is to allow taxicab drivers to resume taxicab service with a minimum of delay upon return from military duty.

Second, the rules amend existing TLC rules to permit a licensed taxicab driver or for-hire vehicle driver to advance the date of expiration of his or her non-probationary license one time during the second year of any renewal period.

Previously existing rules provide that a licensed taxicab or for-hire vehicle driver must submit a completed renewal application by the expiration date of the license to be renewed, and that such application must include drug testing performed no earlier than 30 days before the expiration date of the license to be renewed. Failure to take a drug test by the license expiration date or to renew within the prescribed time period results in expiration of the license; thereafter, in order to obtain a license, the applicant must complete the requirements for a new license, which are more extensive than the requirements for a renewal license.

Experience has demonstrated that a significant number of taxicab and for-hire vehicle drivers are periodically absent from the New York City area for personal reasons, for extended periods of time. In some cases, those absences extend through the entire 30-day period during which the licensee must submit to drug testing and apply for license renewal, resulting in substantial inconvenience or even hardship to the licensee.

The amended rules will permit a driver (other than a driver still in his or her probationary period) who is in the second year of a license and who might not be able to timely file a completed renewal application because of such an extended absence to advance his or her expiration date and complete the renewal application prior to the period of absence.

The amended rules allow the licensee, upon submission of the prescribed form, to advance his or her license expiration date as of right one time during the second year of any renewal period, provided that the licensee has completed the drug test required for licensees in the first year of a two year license. The licensee's 30-day drug test window would be advanced to correspond to the advanced expiration date, and all other requirements of a license renewal application are retained. The renewal license then issued will be valid for two years from the advanced expiration date of the previous license.

Finally, the rules enable those few drivers who are unable to take advantage of the foregoing because their licenses expire in the period between the date the revised drug test rules became effective on March 16, 2006 and June 23, 2006 to seek relief if they have been unable to take the drug test within the required time as a result of being absent from the New York City area. Under the rule, such drivers will have until September 15, 2006 to apply to the Chairperson or his or her designee for a six- month extension of time to renew their licenses. A driver seeking such an extension will be required to supply documentation demonstrating that the driver was absent from New York City during the time required for the taking of the drug test and was therefore not reasonably able to submit a completed license renewal application before the expiration of such holder's license. If a driver's request for an extension of time is granted, the driver must complete all requirements applicable to renewal license applicants and pay the late filing fee provided by the current rules. Such renewal applicants will be required to take their drug test no sooner than thirty days prior to the completion of the renewal application. A driver's license will remain expired until the renewal license is issued.

This change is made to accommodate the small number of drivers who may not be able to advance their expiration dates as permitted by these amendments but whose licenses may have expired when they were unable to comply with the new drug test date requirements which became effective on March 16, 2006. Under current rules, a renewal applicant must file a completed application by the expiration date for his current license and such license will expire automatically if the drug test is not taken by such expiration date.
Section 1. Title 35, section 2-03 (a) of the Rules of the City of New York is hereby amended to read as follows:

[Material inside brackets indicates deleted material]. Underscoring indicates new material.

(a) Except as set forth in subdivisions (c) and (d) of this section, all applicants for a taxicab driver's license are required to attend and pass an authorized course of training in taxi-related subjects. This course shall contain eighty (80) hours of instruction. The course shall include, but not be limited to, instruction on Commission rules and procedures, geography, map reading skills, driver/passenger relations and courtesy, as well as any other material deemed appropriate or relevant by the Commission. An applicant must successfully complete such course, and pass an examination administered by the Commission on mandatory subjects, as well as proficiency in the English language, as a prerequisite to obtaining a taxicab driver's license.

Section 2. Title 35, section 2-03 of the Rules of the City of New York is hereby amended by the addition of subdivision (d) thereto, to read as follows:

[Material inside brackets indicates deleted material]. Underscoring indicates new material.

(d) Any applicant for a license under this chapter who previously held a taxicab driver's license pursuant to this chapter and who had previously met the requirements of section 2-03(a) of this chapter shall not be required to meet such requirements again and shall be deemed to have fulfilled the pre-requisite to obtaining a taxicab driver's license as specified in section 2-03(a) of this chapter, provided that

(1) Such applicant's prior taxicab driver's license expired solely because the applicant was not available to timely renew such license because the applicant was on active military service, and not as a result of any action taken or commenced by the Commission to suspend, revoke, or otherwise terminate such license;

(2) Such applicant's military service commenced prior to the expiration date of his or her prior license and such applicant applies for a new taxicab driver's license under these rules within ninety (90) days of completing active military service, and in no event later than three (3) years following expiration of the prior license, and applicant provides proof of the dates of active military service; and

(3) Such applicant meets all other requirements for obtaining a new taxicab driver's license.

Section 3. Title 35, section 2-10 (a) (2) of the Rules of the City of New York is hereby amended to read as follows:

[Material inside brackets indicates deleted material]. Underscoring indicates new material.

§2-10 Term of a License.

(a) (2) (A) A license issued to a renewing applicant shall expire two years from the date on which the previous license expired. The Commission may, in its discretion, extend the expiration date of such license by up to an additional thirty-one days.

(B) The holder of a renewal license under subparagraph (a)(2)(A) of this paragraph who is in the second year of such license and who has completed the drug test required by section 2-19 (b)(1) of this chapter for licensees in the first year of such license, may, upon written request to the Chairperson, advance the expiration date of his or her license to any date prior to the scheduled expiration of such license. One such request may be made during the term for such license. The request must be made on a form to be prescribed by the Chairperson or his or her designee and must be submitted in accordance with instructions on that form.

(C) The holder of a license seeking to renew such license after advancing the expiration date thereof hereunder must comply with all requirements for renewal applicants, including with the requirements imposed by sections 2-02, 2-11 and 2-19 of this chapter; notwithstanding the provisions of section 2-19(b) of this chapter, the drug test provided for therein shall be performed no sooner than thirty (30) days prior to, and in any event no later than, such advanced expiration date. For purposes of section 2-19(b) of this chapter, a licensee who has advanced his or her expiration date shall be treated as being a licensee in the second year of a two-year license.

(D) (i) Notwithstanding the provisions of section 2-05(c) of this chapter, the holder of a renewal license under subparagraph (a)(2)(A) of this paragraph that expires between March 16, 2006, and June 23, 2006, inclusive, may request an extension of the time to submit a license renewal application on the ground that the licensee was unable to submit to license renewal drug testing as required by section 2-19(b)(1) of this chapter due to the licensee's absence from the New York City area during the entire time provided by that section for submission to such drug testing.

(ii) The request for an extension of time to submit a license renewal application shall be made in writing to the Chairperson or his or her designee and shall include documentation demonstrating that the holder of the license was absent from the New York City area during the entire time provided by section 2-19(b)(1) of this chapter for submission to drug testing for the renewal of such license, and was therefore not reasonably able to submit a license renewal application before the expiration of such license.

(iii) Any such request for an extension of time must be received by the Chairperson or his or her designee no later than September 15, 2006. If the Chairperson or his or her designee grants the request, the licensee's time to submit an application for renewal of his or her license shall be extended to six months after the expiration of his or her license.

(iv) A license renewal application submitted by a licensee granted such an extension must comply with all requirements for renewal applications, including payment of the late-filing fee provided by section 2-05(c) of this chapter, except that the drug test required by section 2-19(b) of this chapter shall be taken no sooner than thirty (30) days prior to the completion of such license renewal application.

(v) The expiration of a license shall not be affected by the licensee's eligibility for an extension, or request for an extension, of the time to submit a license renewal application under this paragraph, and such license shall remain expired until a renewal license is issued under item (iv) of this subparagraph.

Section 4. Title 35, section 6-02(a) (2) of the Rules of the City of New York is hereby amended to read as follows:

[Material inside brackets indicates deleted material]. Underscoring indicates new material.

§6-02 Terms of Licenses.

(a) (2) (A) A license issued to a renewing applicant for a for-hire vehicle driver's license shall expire two years from the date on which the previous license expired. The Commission may, in its discretion, extend the expiration date of such license by up to an additional thirty-one days.

(B) The holder of a renewal license under subparagraph (a)(2)(A) of this paragraph who is in the second year of such license and who has completed the drug test required by section 6-16(v)(1) of this chapter for licensees in the first year of such license, may, upon written request to the Chairperson, advance the expiration date of his or her license to any date prior to the scheduled expiration of such license. One such request may be made during the term of such license. The request must be made on a form to be prescribed by the Chairperson or his or her designee and must be submitted in accordance with instructions on that form.

(C) The holder of a license seeking to renew such license after advancing the expiration date thereof hereunder must comply with all requirements for renewal applicants, including with the requirements imposed by sections 6-02 and 6-16 of this chapter; notwithstanding the provisions of section 6-16(v) of this chapter, the drug test provided for therein shall be performed no sooner than thirty (30) days prior to, and in any event, no later than, such advanced expiration date. For purposes of section 6-16(v) of this chapter, a licensee who has advanced his or her expiration date shall be treated as a licensee in the second year of a two-year license.

(D) (i) Notwithstanding the provisions of section 6-02(a)(4) of this chapter, the holder of a renewal license under subparagraph (a)(2)(A) of this paragraph that expires between March 16, 2006, and June 23, 2006, inclusive, may request an extension of the time to submit a license renewal application on the ground that the licensee was unable to submit to license renewal drug testing as required by section 6-16(v)(1) of this chapter due to the licensee's absence from the New York City area during the entire time provided by that section for submission to such drug testing.

(ii) The request for an extension of time to submit a license renewal application shall be made in writing to the Chairperson or his or her designee and shall include documentation demonstrating that the holder of the license was absent from the New York City area during the entire time provided by section 6-16(v)(1) of this chapter for submission to drug testing for the renewal of such license, and was therefore not reasonably able to submit a license renewal application before the expiration of such license.

(iii) Any such request for an extension of time must be received by the Chairperson or his or her designee no later than September 15, 2006. If the Chairperson or his or her designee grants the request, the licensee's time to submit an application for renewal of his or her license shall be extended to six months after the expiration of his or her license.

(iv) A license renewal application submitted by a licensee granted such an extension must comply with all requirements for renewal applications, including payment of the late-filing fee provided by section 6-03(e) of this chapter, except that the drug test required by section 6-16(v) of this chapter shall be taken no sooner than thirty (30) days prior to the completion of such license renewal application.

(v) The expiration of a license shall not be affected by the licensee's eligibility for an extension, or request for an extension, of the time to submit a license renewal application under this paragraph, and such license shall remain expired until a renewal license is issued under item (iv) of this subparagraph.

Section 2. A new Subdivision (c) of Section 1-17 of Chapter 1 of Title 35 of the Rules of the City New York is added to read as follows:

(c) A taxicab that is equipped with factory installed curtain airbags shall be exempt from the provisions of subdivision (a) of this section. Such taxicab shall be equipped with a cellular telephone that has an emergency dialing feature, in accordance with section 1-13(b) of this chapter, and shall be equipped with a digital camera and recording system that is approved by the Commission pursuant to paragraph (b)(3) of this section. Installation of a partition in such taxicab shall be optional, provided that any such partition shall not extend the full width of the interior of the taxicab, but instead shall allow a space of six inches at each side, sufficient to permit proper deployment of the curtain airbags, and shall conform in all other respects with the requirements of section 3-03(e)(3)(i) of this title.

Section 3. Section 1-86 of Chapter 1 of Title 35 of the Rules of the City of New York is amended by adding a new penalty labeled §1-17(c) between §1-17(a) and §1-18(a) to read as follows:

Rule No.	Penalty	Personal Appearance Required
§1-17(a)	$300 and suspension until the condition is corrected	Yes
§1-17(c)	$300 and suspension until the condition is corrected	Yes
§1-18(a)	$100 and suspension until the condition is corrected	Yes

STATEMENT OF BASIS AND PURPOSE

This rulemaking amends existing rules requiring installation of partitions in taxicabs, to create an exception for taxicabs that are equipped with factory installed curtain airbags. Taxi and Limousine Commission ("Commission") staff have found that partitions that conform to existing rules will impede the proper deployment of curtain airbags that are factory installed in 2006 Toyota Sienna minivans, a vehicle model that is approved for use as a taxicab pursuant to section 3-03(c)(7) of the Commission's rules, thereby reducing or eliminating the safety value of those curtain airbags, and creating additional risk of injury to the driver and passengers of a taxicab in the event of an accident.

In order to permit proper deployment of curtain airbags, this rule allows the owner of a taxicab equipped with factory installed curtain airbags to install a modified partition or to install no partition, and requires the owner in either event to install a cellular telephone with an emergency dialing feature and a security camera system approved by the Commission pursuant to section 1-17(b)(3) of the Commission's rules. This rule further provides that the penalty for installation of an improper partition or for the failure to install a proper cellular telephone and security camera system is the same as the penalty provided in existing rules for failure to install a proper partition.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:

Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

The City Council, by resolution adopted on May 24, 2006, set June 13, 2006 as the date, 11:00 a.m. as the time, and the City Council Committee Room, 2nd Floor, City Hall, New York, New York 10007, as the place for a public hearing (the "Public Hearing") to hear all persons interested in the proposed legislation which would establish the Bay Ridge 5th Avenue Business Improvement District (the "District") in the Borough of the Brooklyn. The District shall be established in accordance with a district plan (the "District Plan") on file at the Office of the City Clerk. The City Council has authorized the New York City Department of Small Business Services to publish, on its behalf, this notice of the Public Hearing containing the information required by Section 25-406(c) of the Administrative Code of the City of New York and summarizing the resolution adopted.

The District Plan was submitted to, and reviewed by, the City Planning Commission and Brooklyn Community Board Number 10. The Community Board and the City Planning Commission have approved the District Plan.

The District Plan provides that the proposed District shall include properties along both sides of 5th Avenue, from 65th Street to 85th Street. Services to be provided in the District shall include, but not be limited to, sanitation, marketing and promotion, beautification, holiday lighting, public safety, parking, administration of the District and additional services required for the enjoyment and protection of the public and the promotion and enhancement of the District. Pursuant to the District Plan, capital improvements (hereinafter "Improvements") may include, but shall not limited to, sidewalk plantings, sidewalk logos, kiosks, street identification and pedestrian crossing enhancements. The Improvements shall be implemented on an as-needed basis. During the existence of the BID, the maximum cost of the Improvements, if any, shall not exceed $1,500,000. The District shall be managed by the Bay Ridge 5th Avenue District Management Association, Inc.

To defray the cost of services and improvements provided in the District, all real property in the District shall be assessed in proportion to the benefit such property receives from the services and improvements. Each property shall be assessed at a rate, determined annually by the Bay Ridge 5th Avenue District Management Association, Inc., to yield an amount sufficient to meet the District's annual budget. The annual budget for the District's first year of operation is $338,000.

Those properties within the District which are devoted in whole or in part to commercial uses shall constitute Class A properties and shall be assessed in accordance with the following formula:

$$\text{Rate 1} = \frac{\text{BUDGET}}{\text{TOTAL CLASS A LINEAR FRONT FEET}}$$

INDIVIDUAL ASSESSMENT = Rate 1 x INDIVIDUAL PROPERTY LINEAR FRONT FEET

(** Corner properties will be assessed an additional $100 per year.)
(*** In the event movie theatre becomes a mini-mall, there will be an additional assessment of $500 per year.)

The rate per individual property linear front foot shall not exceed $42.25 for the first Contract Year.

Those properties within the District which are privately owned vacant lots shall constitute Class B properties and shall be assessed one dollar ($1.00) per annum.

Those properties within the District which are devoted in whole to residential uses shall constitute Class C properties and shall be assessed at one dollar ($1.00) per annum.

All government and not-for-profit properties devoted to public or not-for-profit use shall constitute class D property and be exempt from district assessment. Government or not-for-profit owned property devoted to commercial/for-profit uses shall constitute class A property and the portion of the property devoted to commercial/for-profit uses shall be assessed in the same manner as those properties listed in class A.

The amount, exclusive of debt service, assessed and levied in any given year against benefited real property within the District may not exceed twenty percent (20%) of the total general City taxes levied in such year against such properties.

Copies of the resolution adopted by the City Council, which include a copy of the District Plan, are available for public inspection from 9:00 A.M. to 4:00 P.M. Monday through Friday at the Office of the City Clerk located at 265 Municipal Building (South Side), One Centre Street, New York, New York 10007. Any owner of real property, deemed benefited and therefore within the District, objecting to the District Plan, must file an objection at the Office of the City Clerk, on forms made available by the City Clerk, within thirty (30) days of the close of the hearing on the proposed District. If owners of at least fifty-one percent (51%) of the assessed value of benefited real property situated within the boundaries of the District proposed for establishment, as shown on the latest completed assessment roll of the City, or at least fifty-one percent (51%) of the owners of benefited real property within the area included in the District proposed for establishment file objections with the City Clerk, the District shall not be established.

WATER BOARD

■ NOTICE

PUBLIC NOTICE IS HEREBY GIVEN THAT pursuant to Section 1045-j (9) of the Public Authorities Law, that after public hearings were held on May 1, 2 and 3, 2006, in accordance with the provisions of such law, the New York City Water Board (the "Board") has, at its meeting held on May 12, 2006, adopted a resolution approving increases in water rates to users of the Water Supply System of the City of New York, for the fiscal year commencing July 1, 2006, from those rates currently in effect, and making certain customer service and billing policy changes, as follows:

I. **There will be a change from currently effective water and wastewater rates for services provided during the fiscal year commencing July 1, 2006.**

(1) Metered and unmetered water rates will increase by 9.4%.
(2) Wastewater charges will remain at 159% of water charges.
(3) The regulated rate for water provided to municipalities and water districts outside of the City which does not exceed the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York will increase by not more than 13% to approximately $700.00 per million gallons, and the rate charged for water provided to municipalities and water districts outside of the City which exceeds the allowance quantities of water set forth in Section 24-360 of the Administrative Code of the City of New York will be equal to the in-City metered rate of $2,419.79 per million gallons.

II. **There will also be changes to certain billing policies and miscellaneous fees and charges.**

(1) Multiple Family Conservation Program (MCP) - The deadline for filing an application for the MCP, currently set forth as December 31, 2006, will be extended by two years to December 31, 2008. Other billing programs due to expire June 30, 2007 will also be extended two years to June 30, 2009.
(2) Miscellaneous Fees for Wastewater Service – The current fee of $200 imposed when, at the request of a customer, the Department of Environmental Protection (DEP) performs a dye test to determine the existence of a connection to the wastewater system will be extended to include any engineering field investigation performed in lieu of a dye test which determines the availability and/or condition of a wastewater connection.
(3) Letter of Authorization (LOA) – A valid LOA must contain a statement that the owner hereby rescinds any previously issued LOA. In cases where an owner has authorized multiple representatives, DEP shall deem the latest dated LOA to be valid, superseding any earlier dated LOAs.
(4) Existing Water Board and DEP policies and procedures will be iterated in the Rate Schedule in the interest of providing a more complete source of information to the Board's customers including the following:
a. DEP's responsibility for the maintenance and repair of water meters used for billing purposes does not extend to the building's plumbing system, including but not limited to service lines, control valves, check valves, and internal piping which are the responsibility of the property owner. Accordingly, owners are responsible for ensuring that the building's plumbing system is in an adequate state of repair so as to enable DEP to repair, upgrade or replace the meter.
b. Currently, DEP may assess a fee when a water meter requires repair or replacement due to the customer's vandalism or other actions. The term "other actions" will be replaced with the more specific term "failure to reasonably protect the meter or components."

Copies of the New York City Water Board Water and Wastewater Rate Schedule are available for inspection by the public during regular business hours at the offices of the New York City Water Board, 59-17 Junction Boulevard, 8th Floor, Flushing, NY 11373.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

NOTICE OF ADOPTION OF FINAL RULE

The Procurement Policy Board adopted an amendment to § **2-05 Specifications** of its Rules pursuant to Section 311 of the New York City Charter. The proposed amendment was published on February 28, 2005. A public hearing was held on March 29, 2005. The amendment was adopted by the PPB on April 25, 2006. The effective date of this amendment is July 1, 2006.

Basis and Purpose of the Amendment
The proposed amendment to section 2-05 regarding the authority to contract for drafting of specifications expands and clarifies the situations where a vendor that drafted specifications is prohibited from participating in subsequent solicitations.

The Amended Rule
In the amendment, which immediately follows this notice, new material is underlined and deletions are bracketed.

Brendan J. Sexton, Chair

Section1. Subdivision (b) of Section 2-05 of Title 9 of the Rules of the City of New York is amended to read as follows:

(b) Authority to Contract for Drafting of Specifications. The drafting of specifications [shall] may be [contracted-out] performed by a vendor only upon a determination by the ACCO that it is in the best interest of the City to do so. [In such event, the selected] Any vendor [supplier] participating in the drafting of specifications shall not participate, in any manner, in a response to [that] any subsequent solicitation utilizing such specifications, in whole or in part, [whether as a contractor or subcontractor shall not be allowed], unless, after reviewing the specifications, the ACCO determines, with CCPO approval, that the specifications do not favor [the selected] a vendor [supplier] or such vendor's [supplier's] good, service, or construction, and it is in the City's best interest to allow such participation and the basis thereof. Such prohibited participation shall include, but not be limited to, participating as a contractor or a subcontractor, or as a consultant to any contractor or subcontractor, responding to the solicitation using the specifications. The provisions of this subdivision shall apply to any vendor that has drafted any portion of the specifications used in a procurement, regardless of whether such vendor's services were procured specifically for the drafting of those specifications, were procured as general consulting services, or were donated.

NOTICE OF ADOPTION OF FINAL RULE

The Procurement Policy Board adopted a new rule § **4-12 Late Registration** pursuant to Section 311 of the New York City Charter. The proposed Rule was published on October 6, 2005. A public hearing was held on November 8, 2005. The Rule was adopted by the PPB on April 25, 2006. The effective date of this rule is July 1, 2006.

Basis and Purpose of the Rule
The proposed rule creates a new section 4-12 which establishes standards regarding the submission of certain contracts to the Comptroller for registration and provides for monetary penalties in the event that an agency fails to meet such standards.

The Amended Rule
In the rule, which immediately follows this notice, new material is underlined.

Brendan J. Sexton, Chair

Section 4 -12 of Title 9 of the Rules of the City of New York is amended to read as follows:

Section 4-12 Late Registration.

(a) Policy. (i) No contract shall be implemented until the procedures set forth in Charter § 328 have been followed.

(ii) In the circumstance wherein an expiring contract for client services is to be replaced by a new contract awarded from an RFP pursuant to Section 3-03, renewed pursuant to Section 4-04 or extended pursuant to Sections 3-04(b)(2)(iii) or 4-02(b)(1)(iii), the agency should notify the selected vendor of its selection by no later than ninety (90) days prior to the expiration date of the contract that is to be replaced, renewed or extended. Earlier notification is preferable, particularly where the agency anticipates that the vendor will be required to file a new VENDEX questionnaire pursuant to Section 2-08(e)(2). In addition, where an agency proposes to continue services by means of a new RFP award, the Notice of Solicitation for such RFP should be published by the agency pursuant to Section 3-03(d) by no later than two hundred fifty (250) days prior to the expiration of the contract(s) to be replaced.

(b) Timeliness of Submission for Registration.
(i) The provisions of this subdivision shall apply to client service contracts and extensions: contracts awarded by negotiated acquisition where there is a compelling need to extend the contract one or more times beyond the cumulative twelve-month limit, pursuant to Section 3-04(b)(2)(iii); contracts for which no public hearing is required pursuant to these Rules because they do not differ materially in terms and conditions from contracts currently held by the City where the parties to such contracts are the same, pursuant to Section 2-11(b)(3); extensions of contract terms for a cumulative period not to exceed one year, pursuant to Section 4-02(b)(1)(iii); and renewal contracts, pursuant to Section 4-04. Notwithstanding the above, contracts awarded pursuant to Section 1-02(e) shall not be subject to the provisions of this subdivision. (ii) Any agency that submits such a contract or extension to the Comptroller for registration after the start date of such contract shall be deemed to have submitted the contract in an untimely manner, unless the ACCO determines that the vendor's conduct constituted a material cause of such late submission. The ACCO shall not make such a determination against a vendor unless the agency met the timely notification set forth in subdivision (a)(ii) above, i.e., by notifying the vendor at least ninety (90) days prior to the expiration of the contract to be replaced.

(c) Substantial Compliance. The CCPO shall review each agency's performance under this Section at least twice each year. Any agency that the CCPO determines is generally submitting contracts in an untimely manner as defined in this Section, i.e., is not in substantial compliance with the provisions of subdivision (b) of this Section, shall be required to make interest payments in accordance with subdivision (d) for any subsequent contracts that are submitted to the Comptroller for registration in an untimely manner. The CCPO may, upon application of an agency previously determined not to be in substantial compliance with the provisions of this Section, review the agency's intervening performance, and may determine that the agency is now in substantial compliance with the provisions of this Section. An agency shall not be required to make late registration payments for contracts entered into by the agency subsequent to such a determination.

(d) Interest payments. (i) An agency required to make interest payments under this Section shall make them for the period commencing thirty (30) days after the start date of the contract and ending with the date the contract is registered. Interest payments shall be made only to reimburse the vendor for interest actually incurred by the vendor pursuant to a loan taken out by the vendor; where such loan was used and interest incurred because of the untimely registration of a contract. The rate at which such interest is reimbursed shall not exceed the maximum rate allowed by law or the rate set jointly by the Comptroller and OMB pursuant to Section 4-06, whichever is lower. The amount of the loan on which the interest payments are based shall not be greater than the amount due under the contract prior to registration. No interest shal be paid if the vendor had been previously offered an interest-free loan in connection with the contract in question, but declined to accept it.

(ii) The Comptroller and OMB may, for a limited period of time not to exceed thirty days per calendar year, jointly defer the City's obligation to pay interest when the City is experiencing a shortage of cash. In such event, the CCPO shall provide, at the earliest practicable opportunity, written notice to ACCOs of this action and its expected duration. Notice of this action shall be published by the CCPO in the City Record as soon as is practicable after such determination is made, not to exceed thirty days. The CCPO shall provide similar written notice of subsequent action either to extend or cancel this period of deferral.

(iii) Except where otherwise required by law, an interest payment required by these Rules shall be paid from the agency expense budget of the agency awarding the contract, provided however that if the obligation to make an interest payment is incurred in whole or in part due to another agency's involvement in the procurement process, then the portion of the total interest payment that is attributable to delays by that agency shall be charged to that agency's miscellaneous budget.

WATER BOARD

■ NOTICE

PUBLIC NOTICE IS HEREBY GIVEN THAT pursuant to Section 1045-j (9) of the Public Authorities Law, that after public hearings were held on May 1, 2 and 3, 2006, in accordance with the provisions of such law, the New York City Water Board (the "Board") has, at its meeting held on May 12, 2006, adopted a resolution approving increases in water rates to users of the Water Supply System of the City of New York, for the fiscal year commencing July 1, 2006, from those rates currently in effect, and making certain customer service and billing policy changes, as follows:

I. There will be a change from currently effective water and wastewater rates for services provided during the fiscal year commencing July 1, 2006.

(1) Metered and unmetered water rates will increase by 9.4%.
(2) Wastewater charges will remain at 159% of water charges.
(3) The regulated rate for water provided to municipalities and water districts outside of the City which does not exceed the allowance quantities set forth in Section 24-360 of the Administrative Code of the City of New York will increase by not more than 13% to approximately $700.00 per million gallons, and the rate charged for water provided to municipalities and water districts outside of the City which exceeds the allowance quantities of water set forth in Section 24-360 of the Administrative Code of the City of New York will be equal to the in-City metered rate of $2,419.79 per million gallons.

II. There will also be changes to certain billing policies and miscellaneous fees and charges.

(1) Multiple Family Conservation Program (MCP) - The deadline for filing an application for the MCP, currently set forth as December 31, 2006, will be extended by two years to December 31,

2008. Other billing programs due to expire June 30, 2007 will also be extended two years to June 30, 2009.

(2) Miscellaneous Fees for Wastewater Service – The current fee of $200 imposed when, at the request of a customer, the Department of Environmental Protection (DEP) performs a dye test to determine the existence of a connection to the wastewater system will be extended to include any engineering field investigation performed in lieu of a dye test which determines the availability and/or condition of a wastewater connection.

(3) Letter of Authorization (LOA) – A valid LOA must contain a statement that the owner hereby rescinds any previously issued LOA. In cases where an owner has authorized multiple representatives, DEP shall deem the latest dated LOA to be valid, superseding any earlier dated LOAs.

(4) Existing Water Board and DEP policies and procedures will be iterated in the Rate Schedule in the interest of providing a more complete source of information to the Board's customers including the following:

a. DEP's responsibility for the maintenance and repair of water meters used for billing purposes does not extend to the building's plumbing system, including but not limited to service lines, control valves, check valves, and internal piping which are the responsibility of the property owner. Accordingly, owners are responsible for ensuring that the building's plumbing system is in an adequate state of repair so as to enable DEP to repair, upgrade or replace the meter.

b. Currently, DEP may assess a fee when a water meter requires repair or replacement due to the customer's vandalism or other actions. The term "other actions" will be replaced with the more specific term "failure to reasonably protect the meter or components."

Copies of the New York City Water Board Water and Wastewater Rate Schedule are available for inspection by the public during regular business hours at the offices of the New York City Water Board, 59-17 Junction Boulevard, 8th Floor, Flushing, NY 11373.
