23-44
Permitted Obstructions in Required Yards or Rear Yard Equivalents

In all #Residence Districts#, the following shall not be considered obstructions when located within a required #yard# or #rear yard equivalent#:

(a) In any #yard# or #rear yard equivalent#:

* * *

Overhangs in R4 and R5 Districts, except R4A, R4-1, R4B, R5A, ~~or~~ R5B or R5D Districts, which are that portion of a #building# above the first #story# including the #basement# which projects not more than three feet into the required 18 foot #front yard#. In no case shall the lowest level of the projected portion be less than seven feet above the level of the #front yard# at the face of the #building#. Supports for the projected portion of any #building# are permitted obstructions within the required #front yard#, provided that the total area occupied by such supports does not exceed 15 percent of the area underneath the projected portion. No support may extend beyond the three-foot projection;

Parking spaces, off-street, open, #accessory#, within a #side# or #rear yard#;

Parking spaces, off-street, open, within a #front yard# that are #accessory# to a #residential building# where:

(1) in R2X, R3, R4 and R5 Districts, no more than two parking spaces are required, provided such spaces are located in a permitted #side lot ribbon#;

(2) in R3, R4 and R5 Districts, more than two parking spaces are required, provided such spaces meet all the requirements of paragraph (b) of Section 25-621 (Location of parking spaces in certain districts) and the screening requirements of Section 25-66.

However, no such parking spaces shall be permitted in any #front yard# within a R4B, ~~or~~ R5B or R5D District, and no such required spaces shall be permitted in any #front yard# within any R1, R2, R3, R4A or R4-1 District within a #lower density growth management area#.

* * *

23-45
Minimum Required Front Yards
R1 R2 R3 R4 R5

(a) In the districts indicated, #front yards# shall be provided as set forth in the following table, except that for a #corner lot# in an R1-2 District, one #front yard# may have a depth of 15 feet and, for a #corner lot# in an R3 District, one #front yard# may have a depth of 10 feet.

Front Yard	District
20 feet	R1
15 feet	R2 R3-1 R3-2
15 feet	R2A
10 feet*	R3A R3X R4A R4-1 R5A
10 feet**	R4 R5
5 feet*	R4B R5B R5D

* Except as provided in paragraphs (b) and (c) of this Section.

** If the depth of a #front yard# exceeds 10 feet or the #zoning lot# is #developed# pursuant to the optional regulations applicable in a #predominantly built-up area#, the depth of a #front yard# shall be at least 18 feet. However, on a #corner lot#, if one #front yard# has a depth of at least 18 feet, the other #front yard# shall have a depth of at least 10 feet.

Furthermore, if an opening to an #accessory# off-street parking space is located within the #street wall# of a #residential building#, there shall be an open area between the opening and the #street line# which is at least 8 and 1/2 feet in width by 18 feet in depth, except this provision shall not apply in R5D Districts.

R2A R3A R3X R4A R4-1 R4B R5A R5B R5D

(b) For the purpose of paragraphs (b) and (c) the area between the #street line# and the front building wall of adjacent #buildings# on the same or adjoining #zoning lots# shall be considered adjacent #front yards#.

Except as provided in paragraph (c) of this Section, in the districts indicated, if adjacent #residential buildings# on the same or on adjoining #zoning lots# fronting on the same #street# have #front yards# greater than the minimum set forth in paragraph (a) of this Section, then a #front yard# shall be provided which:

(1) in R2A, R3A, R3X, R4A, R4-1 or R5A Districts is at least as deep as an adjacent #front yard#; and

(2) in R4B, ~~or~~ R5B and R5D Districts is no deeper than the deepest adjacent #front yard# and no shallower than the shallowest adjacent #front yard.

However, a #front yard# need not exceed 20 feet in depth.

In determining the depth of the adjacent #front yards#, balconies, and projections from the front building wall that do not exceed 33 percent of the aggregate width of the #building#, shall be disregarded.

For new #developments# or #enlargements#, projections into the required #front yard# are permitted provided that the aggregate width of all projections at the level of any #story# does not exceed 33 percent of the aggregate width of the #building#. The depth of such projections shall not exceed three feet into the #front yard#. However, balconies shall be subject to the provisions of Sections 23-13 (Balconies) and 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents).

(c) The provisions of paragraph (b) of this Section determining the depth of a #front yard# by the location of a #front yard# on an adjacent #zoning lot#, are modified as follows:

(1) on #corner lots#, these provisions shall apply on only one #street# frontage; and

(2) these provisions shall not apply to:

(i) any #street# frontage of a #zoning lot# where such frontage has a length of at least 150 feet along such #street

(ii) any #zoning lot# located in historic districts designated by the Landmarks Preservation Commission; or

(iii) a frontage of any #zoning lot# where the depths of 50 percent of the #front yards# within 150 feet of the #side lot lines# of such #zoning lot# are shallower by more than two feet than the shallowest of the adjacent #front yards#.

R1 R2 R3 R4 R5

(d) For any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, the provisions of paragraphs (a) and (b) of this Section are modified as follows:

The depth of the #front# yard may vary between the requirements of paragraph (a) of this Section, or as modified in any applicable Special District, and the depth of the #front yard# of any adjacent #zoning lot#.

R5D

(e) In R5D Districts, all areas of the #zoning lot# between the #street line# and the #street wall# of the #building# shall be planted, except at the entrances to and exits from the #building#.

23-44
Permitted Obstructions in Required Yards or Rear Yard Equivalents

In all #Residence Districts#, the following shall not be considered obstructions when located within a required #yard# or #rear yard equivalent#:

(a) In any #yard# or #rear yard equivalent#:

* * *

Overhangs in R4 and R5 Districts, except R4A, R4-1, R4B, R5A, ~~or~~ R5B or R5D Districts, which are that portion of a #building# above the first #story# including the #basement# which projects not more than three feet into the required 18 foot #front yard#. In no case shall the lowest level of the projected portion be less than seven feet above the level of the #front yard# at the face of the #building#. Supports for the projected portion of any #building# are permitted obstructions within the required #front yard#, provided that the total area occupied by such supports does not exceed 15 percent of the area underneath the projected portion. No support may extend beyond the three-foot projection;

Parking spaces, off-street, open, #accessory#, within a #side# or #rear yard#;

Parking spaces, off-street, open, within a #front yard# that are #accessory# to a #residential building# where:

(1) in R2X, R3, R4 and R5 Districts, no more than two parking spaces are required, provided such spaces are located in a permitted #side lot ribbon#;

(2) in R3, R4 and R5 Districts, more than two parking spaces are required, provided such spaces meet all the requirements of paragraph (b) of Section 25-621 (Location of parking spaces in certain districts) and the screening requirements of Section 25-66.

However, no such parking spaces shall be permitted in any #front yard# within a R4B, ~~or~~ R5B or R5D District, and no such required spaces shall be permitted in any #front yard# within any R1, R2, R3, R4A or R4-1 District within a #lower density growth management area#.

* * *

23-45
Minimum Required Front Yards
R1 R2 R3 R4 R5
(a) In the districts indicated, #front yards# shall be provided as set forth in the following table, except that for a #corner lot# in an R1-2 District, one #front yard# may have a depth of 15 feet and, for a #corner lot# in an R3 District, one #front yard# may have a depth of 10 feet.

Front Yard	District
20 feet	R1
15 feet	R2 R3-1 R3-2
15 feet	R2A
10 feet*	R3A R3X R4A R4-1 R5A
10 feet**	R4 R5
5 feet*	R4B R5B R5D

* Except as provided in paragraphs (b) and (c) of this Section.
** If the depth of a #front yard# exceeds 10 feet or the #zoning lot# is #developed# pursuant to the optional regulations applicable in a #predominantly built-up area#, the depth of a #front yard# shall be at least 18 feet. However, on a #corner lot#, if one #front yard# has a depth of at least 18 feet, the other #front yard# shall have a depth of at least 10 feet.

Furthermore, if an opening to an #accessory# off-street parking space is located within the #street wall# of a #residential building#, there shall be an open area between the opening and the #street line# which is at least 8 and 1/2 feet in width by 18 feet in depth, except this provision shall not apply in R5D Districts.
R2A R3A R3X R4A R4-1 R4B R5A R5B R5D
(b) For the purpose of paragraphs (b) and (c) the area between the #street line# and the front building wall of adjacent #buildings# on the same or adjoining #zoning lots# shall be considered adjacent #front yards#.

Except as provided in paragraph (c) of this Section, in the districts indicated, if adjacent #residential buildings# on the same or on adjoining #zoning lots# fronting on the same #street# have #front yards# greater than the minimum set forth in paragraph (a) of this Section, then a #front yard# shall be provided which:

(1) in R2A, R3A, R3X, R4A, R4-1 or R5A Districts is at least as deep as an adjacent #front yard#; and

(3) in R4B, ~~or~~ R5B and R5D Districts is no deeper than the deepest adjacent #front yard# and no shallower than the shallowest adjacent #front yard.

However, a #front yard# need not exceed 20 feet in depth.
In determining the depth of the adjacent #front yards#, balconies, and projections from the front building wall that do not exceed 33 percent of the aggregate width of the #building#, shall be disregarded.

For new #developments# or #enlargements#, projections into the required #front yard# are permitted provided that the aggregate width of all projections at the level of any #story# does not exceed 33 percent of the aggregate width of the #building#. The depth of such projections shall not exceed three feet into the #front yard#. However, balconies shall be subject to the provisions of Sections 23-13 (Balconies) and 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents).

(c) The provisions of paragraph (b) of this Section determining the depth of a #front yard# by the location of a #front yard# on an adjacent #zoning lot#, are modified as follows:

(1) on #corner lots#, these provisions shall apply on only one #street# frontage; and

(2) these provisions shall not apply to:

(i) any #street# frontage of a #zoning lot# where such frontage has a length of at least 150 feet along such #street

(ii) any #zoning lot# located in historic districts designated by the Landmarks Preservation Commission; or

(iii) a frontage of any #zoning lot# where the depths of 50 percent of the #front yards# within 150 feet of the #side lot lines# of such #zoning lot# are shallower by more than two feet than the shallowest of the adjacent #front yards#.

R1 R2 R3 R4 R5
(d) For any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, the provisions of paragraphs (a) and (b) of this Section are modified as follows:

The depth of the #front# yard may vary between the requirements of paragraph (a) of this Section, or as modified in any applicable Special District, and the depth of the #front yard# of any adjacent #zoning lot#.

AGENCY RULES

CONSUMER AFFAIRS'

■ NOTICE

REGULATORY AGENDA FOR FISCAL YEAR 2006-2007

Pursuant to Section 1042 of the New York City Charter, the New York City Department of Consumer Affairs hereby publishes its Regulatory Agenda for May, 2006 through May, 2007.

1. The Department, pursuant to Section 20-104 (b) of Chapter 1 and Section 20-391 of Chapter 2 of the Administrative Code of the City of New York, intends to adopt a rule governing written examinations for home improvement contractor license applicants.

The Department proposes to amend the rule governing the written examination required to be taken by home improvement license applicants with respect to how often the tests are administered and revise the requirements for which applicants are required to take the test.

The proposed amendment would provide that the tests would be administered daily rather than only twice per month. It would also expand the period after a license expiration date when renewal applicants would be required to take an examination, and would create a system for re-examining applicants who had twice failed their examination.

At this time, the Department is not aware of any federal, state, or local laws or rules which overlap or conflict with the anticipated regulatory amendments. The Department anticipates the amendments to be promulgated by the Fall of 2006.

2. The Department, pursuant to Section 20-376 (d) of the Administrative Code of the City of New York, intends to adopt a rule governing license of sightseeing busses.

The Department proposes to adopt a rule governing the records to be maintained pertaining to the operation and maintenance of sightseeing busses relating to the best available retrofit technology installed on such busses and the certification of compliance with such installation requirements to be submitted with license applications for such busses.

The proposed rule would implement the requirement that the Commissioner adopt rules relating to the maintenance of records pertaining to the operation and maintenance of sightseeing busses to ensure compliance with the installation and use of best available retrofit technology mandated by section 24-136.6 of the Administrative Code of the City of New York enacted by Local Law No. 41 for the year 2005.

At this time, the Department is not aware of any federal, state, or local laws or rules which overlap or conflict with the anticipated regulatory amendments. The Department anticipates the amendments to be promulgated by the Summer of 2006.

3. The Department, pursuant to Sections 20-104 (b) of the Administrative Code of the City of New York, intends to amend rules governing sidewalk cafes.

The Department proposes amend the provision governing the physical criteria for sidewalk café relating to the width of the service aisle to be maintained along the length of the sidewalk for an unenclosed sidewalk café and relating to the installation of heaters in an unenclosed sidewalk cafe.

The Department proposes to amend Section 2-53 of Title 6 that bans the use of heaters in all sidewalk cafes by limiting the furnishings that may be included in them that excludes space heaters. The Department proposes to revise this requirement to authorize the use of space heaters in only unenclosed sidewalk cafes provided they comply with the standards imposed for such equipment by the Department of Buildings. The Department also proposes to amend Section 2-55 of Title 6 of the Rules of the City of New York that provides for a service aisle of not less than 36 inches to be maintained along the length of an unenclosed sidewalk café. Since issues have been raised that, as specified, the requirement is ambiguous about whether such service aisle is required to be maintained only if the café is separated from the sidewalk space by a barrier, the proposed amendment will clarify that the service aisle must be maintained regardless of the presence of a barrier.

At this time, the Department is not aware of any federal, state, or local laws or rules which overlap or conflict with the anticipated regulatory amendments. The Department anticipates the amendments to be promulgated by the Summer of 2006.

4. The Department, pursuant to Sections 20-104 (b) and 20-525 of the Administrative Code of the City of New York, intends to amend a rule governing the non-consensual towing of vehicles from private property.

The Department proposes to revise the rule governing the requirements for towing companies to engage in non-consensual towing from private property.

The proposed amendments would incorporate in the sign to be posted at the property to enable towing companies to tow vehicles from the property the requirements specified in Section 19-169.1 of the New York Administrative Code that mandates that the sign an owner of the property is required to post disclose the hours during which towed vehicles can be redeemed. The amendment would also specify a minimum time period during which towed vehicles must be made available for redemption and make technical changes in the wording to eliminate potential ambiguities about the signage requirements.

At this time, the Department is not aware of any federal, state, or local laws or rules which overlap or conflict with the anticipated regulatory amendments. The Department anticipates the amendments to be promulgated by the Summer of 2006.

5. The Department, pursuant to Sections 20-747 of the Administrative Code of the City of New York, intends to amend a rule governing the posting of signs regarding the redemption of beverages containers by correcting an incorrect reference to a statutory provision.

The Department proposes amend the provision that specifies the signs required to be posted pursuant to the administrative code which incorrectly cites §20-745 as the statutory provision requiring such posting. The cited section includes only the definitions applicable to the law. The correct reference is to §20-746 which provides for the posting of the sign. This technical change eliminates any ambiguity that the reference to the incorrect section of the law may create.

At this time, the Department is not aware of any federal, state, or local laws or rules which overlap or conflict with the anticipated regulatory amendments. The Department anticipates the amendments to be promulgated by the Fall of 2006.

6. The Department, pursuant to Section 20-104 (b) of the Administrative Code of the City of New York, intends to amend the rules governing newsstands.

The Department proposes revising the rules governing newsstands to clarify, update and streamline the requirements governing the applications for and the renewal of newsstand licenses, and the requirements governing the siting and the operation of newsstands and the replacement of licensed newsstands to be constructed and installed by a franchisee.

The Council adopted Resolution No. 1004 in 2003 authorizing the Department of Transportation to grant nonexclusive franchises for the installation, operation and maintenance of coordinated franchise structures. The Council also enacted Local Law No, 64 for the Year 2003 that revised the requirements governing the issuance of newsstand licenses and renewals and the operations of newsstands to conform with the franchising program adopted by Resolution 1004. The revisions in the rules governing newsstands that the department proposes to adopt are necessary to implement and effectuate the requirements of Resolution 1004 and Local Law No. 64 for the year 2003.

At this time, the Department is not aware of any federal, state, or local laws or rules which conflict with the anticipated amendment. The Department anticipates the amendments to be promulgated by the Fall of 2005.

7. The Department, pursuant to Section 20-104 (b) of the Administrative Code of the City of New York, intends to revise the rule regarding the requirements for written examinations for motion picture projectionists.

PURSUANT TO SECTION 1042 OF THE NEW YORK CITY CHARTER, THE NEW YORK CITY DEPARTMENT OF SANITATION HEREBY PUBLISHES ITS REGULATORY AGENDA FOR JULY 1, 2006 THROUGH JUNE 30, 2007:

A. THE FOLLOWING RULES WILL BE PROMULGATED PURSUANT TO THE NEW YORK CITY SOLID WASTE TRANSFER STATION LAW AS SET FORTH IN SECTIONS 16-130 AND 16-131 OF THE ADMINISTRATIVE CODE OF THE CITY OF NEW YORK.

1. SUBJECT AREA: SOLID WASTE FACILITIES – EXPANDING THE DEFINITION OF "FILL MATERIAL" AND THE USE THEREOF IN CERTAIN PROJECTS.

RATIONALE: Local Law No. 45 of 2003 amended §16-130(a)(7) of the New York City Administrative Code by expanding the definition of "fill material" to include "asphalt millings". Asphalt millings are composed of approximately 90% rock, sand and gravel aggregate and approximately 5% asphalt, also known as asphalt cement. Fill material has a number of uses, and is suitable in many fill material projects throughout the City including, but not limited to, the alteration or improvement of land by grading, leveling and compacting. The New York State Department of Environmental Conservation also considers asphalt millings to be non-hazardous, and allows its use as a safe and appropriate fill material. The addition of asphalt millings to the definition of 'fill material' under the Department's rules will conform them to the New York City Administrative Code. Additionally, Section 16-130(b) of the Administrative Code authorizes the Sanitation Commissioner to establish by rule one or more classes of permits for fill material operations. Given the different types of development projects throughout the City, the Department may establish different classes of fill material operation permits.

RATIONALE: Section 16-130(b) of the Administrative Code of the City of New York authorizes the Commissioner of Sanitation to establish one or more classes of permits for solid waste transfer facilities. Some transfer stations operating in New York City exclusively receive and process recyclable materials. The promulgation of separate rules requiring such facilities to register with the Department will enhance the Department's oversight and enforcement responsibilities in this area.

RULE: The Department will promulgate a rule establishing registration requirements for facilities that only receive and process recyclables designated by the Department.

B. THE FOLLOWING RULES WILL BE PROMULGATED PURSUANT TO THE NEW YORK CITY RECYCLING LAW AS SET FORTH IN CHAPTERS 3 AND 4 OF TITLE 16 OF THE ADMINISTRATIVE CODE OF THE CITY OF NEW YORK:

1. SUBJECT AREA: RECYCLING – RULES GOVERNING RECYCLING REQUIREMENTS FOR COMMERCIAL ESTABLISHMENTS AND PRIVATE CARTERS.

RATIONALE: To encourage and promote increased recycling participation within the commercial waste sector and increase the marketability of recyclables in the commercial waste stream, the Department will amend its commercial recycling rules by clarifying the source separation requirements for generators of private carter-collected waste and private carters, and requirements for properly placing out recyclable materials for collection.

RULE: The Department will amend its rules by clarifying the source separation requirements for commercial establishments that generate private carter-collected waste and private carters, and the set-out requirements for commercial establishments.

RATIONALE: In 1999, the Department completed the multi-phase expansion of leaf and yard waste composting collection service to residents in districts with high leaf generation in the Bronx, Brooklyn, Queens and Staten Island, and continues to compost leaves and yard waste at its various compost facilities. Municipal recycling and composting continue to represent a major component of the City's solid waste management system. The Department has concluded after careful study that the use of leak-proof paper bags will reduce overall composting costs, eliminate odors caused by the anaerobic digestion of leaf and yard waste material post collection, and create a better and more marketable horticultural end product. In accordance with the findings of the Department's study, the purpose of this rule, which is technical in nature, is to enable the Department to maximize its ability of capturing all of the leaf yard waste material set out by residents at designated times and to convert that material into a usable end product while reducing the City's waste stream.

RULE: The Department will 1) amend its residential recycling rules by designating "yard waste" as an additional recyclable material, and 2) specify the set-out requirements for residential building owners and generators of seasonal yard waste in sanitation districts designated by the Sanitation Commissioner to receive curbside collection service for seasonal yard waste during the fall season.

INDIVIDUALS AND ENTITIES LIKELY TO BE AFFECTED BY THE PROPOSED RULE: Residential building owners and generators of yard waste.

RELEVANT FEDERAL, STATE AND LOCAL LAWS AND RULES APPLICABLE TO PROPOSED RULE:

(a) Section 1-08 of Title 16 of the Rules of the City of New York governing recycling of residential waste;

(b) Section 16-301 et seq. of the Administrative Code of the City of New York; and

(c) City Administrative Procedure Act: New York City Charter Section 1043.

SCHEDULE FOR ADOPTION: As soon as possible.

OFFICIAL CONTACT: Deputy Commissioner for Legal Affairs, Department of Sanitation.

TELEPHONE: (646) 885-5006.

3. SUBJECT AREA: RULES GOVERNING THE RECYCLING OF ALL USED RECHARGEABLE BATTERIES AND PRODUCTS CONTAINING RECHARGEABLE BATTERIES SOLD IN NEW YORK CITY.

RATIONALE: Local Law 97 of 2005 requires City businesses that sell rechargeable batteries (except food stores under 14,000 square feet) to accept from consumers used rechargeable batteries for proper disposal. Local Law 97 also requires manufacturers to submit a plan to the Department identifying the methods by which the manufacturers will collect, transport, and recycle rechargeable batteries collected by retailers. The manufacturers will be required to fund this initiative. Local Law 97 requires the Sanitation Commissioner to promulgate rules governing the new program.

RULE: Amendments to Title 16 of the Rules of the City of New York that will ban the disposal of used rechargeable batteries from the solid waste stream, and require manufacturers of rechargeable batteries to take back and recycle the used rechargeable batteries that are sold or disposed of in New York City.

INDIVIDUALS AND ENTITIES LIKELY TO BE AFFECTED BY PROPOSED RULES:
Manufacturers, distributors, transporters and retailers engaged in the transport and sale of rechargeable batteries and products that contain rechargeable batteries.

RELEVANT FEDERAL, STATE AND LOCAL LAWS OR RULES APPLICABLE TO PROPOSED RULE:

(a) Title 16 of the Rules of the City of New York;

(b) Chapter 4 of Title 16 of the Administrative Code of the City of New York;

(c) City Administrative Procedure Act: Section 1043 of the New York City Charter.

SCHEDULE FOR ADOPTION: As soon as possible.

RATIONALE: Pursuant to Local Law 42 of 1996 the New York City Business Integrity Commission promulgated Title 16-A of the Rules of the City of New York establishing standards for the issuance, suspension and revocation of licenses, and governing the conduct of licensees engaged in commercial waste removal. The rules also set forth requirements for commercial establishments that remove,

collect or dispose of trade waste generated in the course of their own businesses. Some of the rules promulgated by the Business Integrity Commission overlap with those of the Department. The Department believes that conforming its rules to those of the Business Integrity Commission will clarify the City's oversight and enforcement responsibilities in this area.

RULE: Amendments to Title 16 of the Rules of the City of New York to conform to rules established by the New York City Business Integrity Commission under Title 16-A.

INDIVIDUALS AND ENTITIES LIKELY TO BE AFFECTED BY PROPOSED RULES:

Statement of Basis and Purpose

The proposed rules would amend existing rules to allow limited liability companies to own and operate taxicab medallions. In addition, the proposed rules would provide that members and managing members of such limited liability companies would be subject to the same requirements as are partners, shareholders, officers and directors of corporate and partnership owners and operators of taxicab medallions, for all purposes of the Taxicab Owners Rules, including with respect to fitness to own taxicab medallions.

The existing rules provide that taxicab medallions may be owned by individuals, partnerships and corporations. The governing statute, section 19-502(i) of the New York City Administrative Code, authorizes a broader scope of entities that may own taxicab medallions: "any person, firm, partnership, corporation or association." The limited liability company structure may offer certain advantages for some owners when compared with the personal, partnership or corporate forms of ownership – in particular, industry representatives have indicated that the limited liability company structure can have tax advantages over other forms of taxicab medallion ownership. At the same time, based on review of the law governing limited liability companies, the Taxi and Limousine Commission believes that taxicab medallion owners' use of the limited liability company structure will not impair the Commission's ability to regulate and monitor the taxicab industry.

1. **SUBJECT:** Guarantee Period for Protected and Non-Protected Streets

1) Reason: To amend 2-11(e)(16)(ii) of the Highway Rules to remove a 3 year timeframe for maintenance of a non protected street and combine both protected and non-protected streets under the permittee's responsibility for maintenance and permanent restorations to 5 years.

2) Anticipated contents: To increase overall time frame for maintenance and permanent restorations from 3 to 5 years on all streets.

3) Objective: To create a uniform standard for all streets.

2. **SUBJECT:** Street Opening and Excavation Permit Requirements for Licensed Master Plumbers

1) Reason: Contractors, who are not licensed by the City of New York, make cuts to the street and often fail to restore them to the satisfaction of the Department. By

requiring master plumbers and those companies affiliated with the master plumber's license to take out street opening permits, responsibility for proper street restoration is placed with the plumber.

2) Anticipated contents: Requiring that licensed master plumbers and plumbing companies affiliated with the plumber's license secure street opening permits.

4) Legal basis: Section 2903 (b) of the New York City Charter.

5) Types of individuals and entities likely to be affected: Licensed master plumbers and affiliated plumbing companies.

6) Other relevant law: None.

7) Approximate schedule: First Quarter FY 2007.

Agency Contact: John Liszczak 212-442-7292

3. SUBJECT: Excavation and Restoration Requirements

1) Reason: By amending section 2-11(e)(12)(iv) to eliminate the words "machine excavated" and to eliminate subparagraph v, clarifies that excavations within 3 feet of each other must be restored such that multiple cuts are restored to appear as one single cut.

2) Anticipated contents: Rule will establish a standard whereby excavations that are within 3 feet of each other must be restored integrally.

3) Objective: To create a formal procedure for restoration methods for street cuts that are less than 3 feet apart.

4) Legal basis: Section 2903 (b) of the New York City Charter.

5) Types of individuals and entities likely to be affected: All permittees, including utilities, plumbers and general contractors.

6) Other relevant law: None.

7. Approximate schedule: First Quarter FY 2007

2) Anticipated contents: To require that managing agent, distributor, or owner of the container ensure that the proper material is placed directly under the wheels or roller of the container to adequately distribute the weight.

3) Objective: To create a specific standard for containers while stored on the roadway.

4) Legal basis: Section 2903 (b) of the New York City Charter.

32. SUBJECT: Requiring structural analysis and inspection of bridges before issuing overweight vehicle permits to vehicles with a gross weight equal to or in excess of 300,000 lbs.

1) Reason: A bridge is designed for a vehicular load between 40,000 pounds and 90,000 pounds. If a vehicle with a gross weight of 300,000 pounds is to cross these bridges, the operator of the vehicle may be required to hire a licensed bridge designer acceptable to the Department to analyze critical bridges to establish that the bridges on the vehicle's route have the capacity to carry the loads of these vehicles.

2) Anticipated contents: The rule will require overweight permit applicants to perform an analysis of the bridge structures on their routes, and to additionally perform a post inspection for vehicles weighing in excess of 300,000 lbs.

3) Objective: Analysis requiring inspections performed by bridge engineers will expedite the permit process and safeguard the integrity of the bridges which are subjected to heavy loads.

4) Legal basis: Section 2903 of the New York City Charter.
5) Types of individuals and entities likely to be affected: The trucking industry, private utilities, public agencies and individual truckers and crane operators who bring in overweight vehicles to the City.

6) Other relevant law: Zone.

7) Approximate schedule: Third Quarter FY 2007

Agency Contact: Kamal Kishore 212-788-9004

33. SUBJECT: Identifying bridges near proposed street openings and excavations.

1) Reason: Contractors are often unaware of the existence of bridges on the local street system. Structural elements such as reinforced concrete approach slabs or bridge decks can be seriously damaged by contractors' work, jeopardizing public safety and incurring unnecessary repair costs for the city.

2) Anticipated contents: Adding a new requirement to Section 2-11(d) (1) stating that applications should specify if the proposed work will be within 100 feet of a bridge.

3) Objective: To ensure that the applicant arranges the work so as to avoid damaging the bridge or, if relocation is not an option, the applicant could be given appropriate specifications to restore the structure. If the Division of Bridges determines the work would do irreparable damage to the structure, the permit application would be rejected.

4) Legal basis: Section 2903(b) of the New York City Charter.

5) Types of individuals and entities likely to be affected Developers, utility companies, commercial and residential property owners.

6) Other relevant law: None

7) Approximate schedule: Third Quarter, FY 2007

Agency Contact: Russell Holcomb – 212-788-1700

34. SUBJECT: To amend the fees charged for single use permits for super sized vehicles.

1) Reason: The administrative fees charged for supersized permits no longer reflect the costs incurred to provide the permits.

2) Anticipated contents: To amend the $25.00 administrative fee charged for these permits.

3) Objective: To cover the costs of issuing these permits.

4) Legal basis: Section 2903(a) of the New York City Charter.

5) Types of individuals and entities likely to be affected: The trucking industry, private utilities, individual trucking companies and crane operators who bring in oversized and super-sized vehicles and cranes to the City.

6) Other relevant law: None

7) Approximate schedule: Third Quarter FY 2007

Agency Contact: Dorothy Roses - 212 788-2105

35. SUBJECT: To add a new rule governing the towing of utility poles.

1) Reason: The towing of utility poles represents a danger to the traveling public due to the restricted/limited visibility of the poles given their dimensions. This rule would require that these poles and the towing vehicles be marked so as to increase visibility.

2) Anticipated contents: The rule change would require that: all Utility Pole Transportation must include a towing vehicle and a chase vehicle; both the towing vehicle and the chase vehicle must have amber revolving lights visible from at least 1,000 feet; amber revolving, and strobe lights must be placed on the poles at a spacing of every 15 feet; an amber revolving light must be mounted atop the rear of the pole; a light bar indicating braking and turning movements must be affixed to the rear of the pole and must include two standard orange flags as well as reflective stripping; both the towing vehicle and the chase vehicle must be equipped with signs indicating "Oversized Load", with these signs being affixed to the front of the towing vehicle and the rear of the chase vehicle.

3) Objective: To ensure the continued safety of the traveling public.

4) Legal basis: Section 2903 of the New York City Charter.

5) Types of individuals and entities likely to be affected: Private utility companies and trucking companies that transport utility poles.

3) Objective: Making single-use permit process for overdimensional vehicles consistent with process for overweight vehicles.

4) Legal basis: Section 2903(b) of the New York City Charter.

5) Types of individuals and entities likely to be affected: Permittees applying for single-use permits.

6) Other relevant law: None

7) Approximate schedule: Third Quarter FY 2007

Agency Contact: Dorothy Roses 212-788-2105

DIVISION OF ADMINISTRATIVE SERVICES

37. SUBJECT: Increasing current fees for Jolt Elimination Team Backcharges (JETS).

1) Reason: The administrative fees charged in section 2-03 of the Highway Rules no longer reflect administrative and labor costs incurred in performing the required emergency repair work.

2) Anticipated contents: The rule would raise the $86.00 per square yard administrative fee charged for such repair work.

3) Objective: To cover the costs of performing the emergency work.

4) Legal basis: Section 2903(b) of the New York City Charter.

5) Types of individuals and entities likely to be affected: Public utilities.

6) Other relevant law: None

7) Approximate schedule: First Quarter FY 2007

Agency Contact: Joseph Cannisi 212-487-8420

2) Anticipated contents: Deletion of rule.

3) Objective: To remove a rule that does not belong in the Highway Rules.

4) Legal basis: Section 2903(b) of the New York City Charter

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:

Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Furthermore, if an opening to an #accessory# off-street parking space is located within the #street wall# of a #residential building#, there shall be an open area between the opening and the #street line# which is at least 8 and 1/2 feet in width by 18 feet in depth, except this provision shall not apply in R5D Districts.

R2A R3A R3X R4A R4-1 R4B R5A R5B R5D

(b) For the purpose of paragraphs (b) and (c) the area between the #street line# and the front building wall of adjacent #buildings# on the same or adjoining #zoning lots# shall be considered adjacent #front yards#.

Except as provided in paragraph (c) of this Section, in the districts indicated, if adjacent #residential buildings# on the same or on adjoining #zoning lots# fronting on the same #street# have #front yards# greater than the minimum set forth in paragraph (a) of this Section, then a #front yard# shall be provided which:

(1) in R2A, R3A, R3X, R4A, R4-1 or R5A Districts is at least as deep as an adjacent #front yard#; and

(2) in R4B, ~~or~~ R5B and R5D Districts is no deeper than the deepest adjacent #front yard# and no shallower than the shallowest adjacent #front yard.

However, a #front yard# need not exceed 20 feet in depth.

In determining the depth of the adjacent #front yards#, balconies, and projections from the front building wall that do not exceed 33 percent of the aggregate width of the #building#, shall be disregarded.

For new #developments# or #enlargements#, projections into the required #front yard# are permitted provided that the aggregate width of all projections at the level of any #story# does not exceed 33 percent of the aggregate width of the #building#. The depth of such projections shall not exceed three feet into the #front yard#. However, balconies shall be subject to the provisions of Sections 23-13 (Balconies) and 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents).

(c) The provisions of paragraph (b) of this Section determining the depth of a #front yard# by the location of a #front yard# on an adjacent #zoning lot#, are modified as follows:

(1) on #corner lots#, these provisions shall apply on only one #street# frontage; and

(2) these provisions shall not apply to:

(i) any #street# frontage of a #zoning lot# where such frontage has a length of at least 150 feet along such #street

(ii) any #zoning lot# located in historic districts designated by the Landmarks Preservation Commission; or

(iii) a frontage of any #zoning lot# where the depths of 50 percent of the #front yards# within 150 feet of the #side lot lines# of such #zoning lot# are shallower by more than two feet than the shallowest of the adjacent #front yards#.

R1 R2 R3 R4 R5

(d) For any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, the provisions of paragraphs (a) and (b) of this Section are modified as follows:

The depth of the #front# yard may vary between the requirements of paragraph (a) of this Section, or as modified in any applicable Special District, and the depth of the #front yard# of any adjacent #zoning lot#.

R5D

(e) In R5D Districts, all areas of the #zoning lot# between the #street line# and the #street wall# of the #building# shall be planted, except at the entrances to and exits from the #building#.

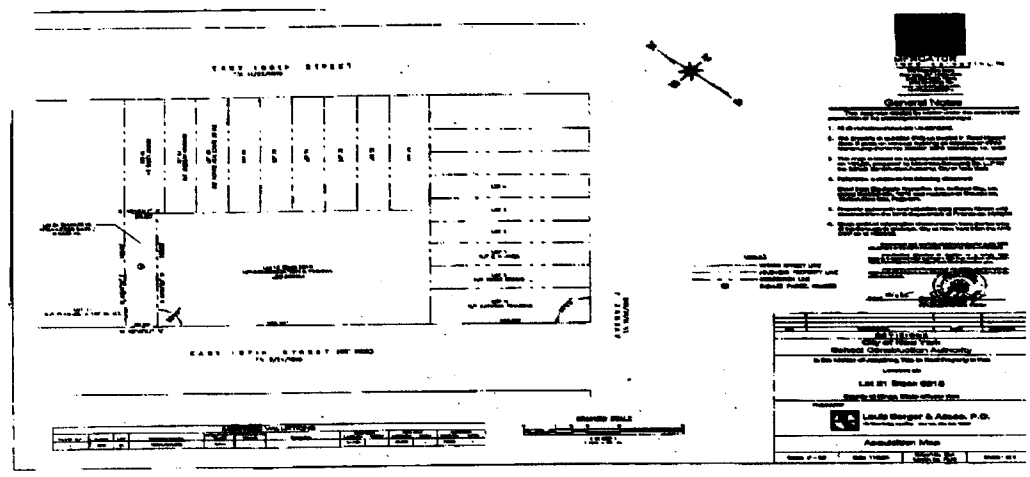
COURT NOTICE MAP FOR SCHOOL CONSTRUCTION AUTHORITY



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Permitted Obstructions in Required Yards or Rear Yard Equivalents

In all #Residence Districts#, the following shall not be considered obstructions when located within a required #yard# or #rear yard equivalent#:

(a) In any #yard# or #rear yard equivalent#:
* * *
Overhangs in R4 and R5 Districts, except R4A, R4-1, R4B, R5A, ~~or~~ R5B or R5D Districts, which are that portion of a #building# above the first #story# including the #basement# which projects not more than three feet into the required 18 foot #front yard#. In no case shall the lowest level of the projected portion be less than seven feet above the level of the #front yard# at the face of the #building#. Supports for the projected portion of any #building# are permitted obstructions within the required #front yard#, provided that the total area occupied by such supports does not exceed 15 percent of the area underneath the projected portion. No support may extend beyond the three-foot projection;

Parking spaces, off-street, open, #accessory#, within a #side# or #rear yard#;

Parking spaces, off-street, open, within a #front yard# that are #accessory# to a #residential building# where:

(1) in R2X, R3, R4 and R5 Districts, no more than two parking spaces are required, provided such spaces are located in a permitted #side lot ribbon#;

(2) in R3, R4 and R5 Districts, more than two parking spaces are required, provided such spaces meet all the requirements of paragraph (b) of Section 25-621 (Location of parking spaces in certain districts) and the screening requirements of Section 25-66.

However, no such parking spaces shall be permitted in any #front yard# within a R4B, ~~or~~ R5B or R5D District, and no such required spaces shall be permitted in any #front yard# within any R1, R2, R3, R4A or R4-1 District within a #lower density growth management area#.

23-45
Minimum Required Front Yards
R1 R2 R3 R4 R5

(a) In the districts indicated, #front yards# shall be provided as set forth in the following table, except that for a #corner lot# in an R1-2 District, one #front yard# may have a depth of 15 feet and, for a #corner lot# in an R3 District, one #front yard# may have a depth of 10 feet.

Front Yard	District
20 feet	R1
15 feet	R2 R3-1 R3-2
15 feet	R2A
10 feet*	R3A R3X R4A R4-1 R5A
10 feet**	R4 R5
5 feet*	R4B R5B R5D

* Except as provided in paragraphs (b) and (c) of this Section.

** If the depth of a #front yard# exceeds 10 feet or the #zoning lot# is #developed# pursuant to the optional regulations applicable in a #predominantly built-up area#, the depth of a #front yard# shall be at least 18 feet. However, on a #corner lot#, if one #front yard# has a depth of at least 18 feet, the other #front yard# shall have a depth of at least 10 feet.

Furthermore, if an opening to an #accessory# off-street parking space is located within the #street wall# of a #residential building#, there shall be an open area between the opening and the #street line# which is at least 8 and 1/2 feet in width by 18 feet in depth, except this provision shall not apply in R5D Districts.

R2A R3A R3X R4A R4-1 R4B R5A R5B R5D

(b) For the purpose of paragraphs (b) and (c) the area between the #street line# and the front building wall of adjacent #buildings# on the same or adjoining #zoning lots# shall be considered adjacent #front yards#.

Except as provided in paragraph (c) of this Section, in the districts indicated, if adjacent #residential buildings# on the same or on adjoining #zoning lots# fronting on the same #street# have #front yards# greater than the minimum set forth in paragraph (a) of this Section, then a #front yard# shall be provided which:

(1) in R2A, R3A, R3X, R4A, R4-1 or R5A Districts is at least as deep as an adjacent #front yard#; and

(2) in R4B, ~~or~~ R5B and R5D Districts is no deeper than the deepest adjacent #front yard# and no shallower than the shallowest adjacent #front yard.

However, a #front yard# need not exceed 20 feet in depth.

In determining the depth of the adjacent #front yards#, balconies, and projections from the front building wall that do not exceed 33 percent of the aggregate width of the #building#, shall be disregarded.

For new #developments# or #enlargements#, projections into the required #front yard# are permitted provided that the aggregate width of all projections at the level of any #story# does not exceed 33 percent of the aggregate width of the #building#. The depth of such projections shall not exceed three feet into the #front yard#. However, balconies shall be subject to the provisions of Sections 23-13 (Balconies) and 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents).

(c) The provisions of paragraph (b) of this Section determining the depth of a #front yard# by the location of a #front yard# on an adjacent #zoning lot#, are modified as follows:

(1) on #corner lots#, these provisions shall apply on only one #street# frontage; and

(2) these provisions shall not apply to:

(i) any #street# frontage of a #zoning lot# where such frontage has a length of at least 150 feet along such #street

(ii) any #zoning lot# located in historic districts designated by the Landmarks Preservation Commission; or

(iii) a frontage of any #zoning lot# where the depths of 50 percent of the #front yards# within 150 feet of the #side lot lines# of such #zoning lot# are shallower by more than two feet than the shallowest of the adjacent #front yards#.

R1 R2 R3 R4 R5

(d) For any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, the provisions of paragraphs (a) and (b) of this Section are modified as follows:

The depth of the #front# yard may vary between the requirements of paragraph (a) of this Section, or as modified in any applicable Special District, and the depth of the #front yard# of any adjacent #zoning lot#.

R5D

(e) In R5D Districts, all areas of the #zoning lot# between the #street line# and the #street wall# of the #building# shall be planted, except at the entrances to and exits from the #building#.

23-44
Permitted Obstructions in Required Yards or Rear Yard Equivalents

In all #Residence Districts#, the following shall not be considered obstructions when located within a required #yard# or #rear yard equivalent#:

(a) In any #yard# or #rear yard equivalent#:
* * *

Overhangs in R4 and R5 Districts, except R4A, R4-1, R4B, R5A, ~~or~~ R5B or R5D Districts, which are that portion of a #building# above the first #story# including the #basement# which projects not more than three feet into the required 18 foot #front yard#. In no case shall the lowest level of the projected portion be less than seven feet above the level of the #front yard# at the face of the #building#. Supports for the projected portion of any #building# are permitted obstructions within the required #front yard#, provided that the total area occupied by such supports does not exceed 15 percent of the area underneath the projected portion. No support may extend beyond the three-foot projection;

Parking spaces, off-street, open, #accessory#, within a #side# or #rear yard#;

Parking spaces, off-street, open, within a #front yard# that are #accessory# to a #residential building# where:

(1) in R2X, R3, R4 and R5 Districts, no more than two parking spaces are required, provided such spaces are located in a permitted #side lot ribbon#;

(2) in R3, R4 and R5 Districts, more than two parking spaces are required, provided such spaces meet all the requirements of paragraph (b) of Section 25-621 (Location of parking spaces in certain districts) and the screening requirements of Section 25-66.

However, no such parking spaces shall be permitted in any #front yard# within a R4B, ~~or~~ R5B or R5D District, and no such required spaces shall be permitted in any #front yard# within any R1, R2, R3, R4A or R4-1 District within a #lower density growth management area#.

23-45
Minimum Required Front Yards
R1 R2 R3 R4 R5

(a) In the districts indicated, #front yards# shall be provided as set forth in the following table, except that for a #corner lot# in an R1-2 District, one #front yard# may have a depth of 15 feet and, for a #corner lot# in an R3 District, one #front yard# may have a depth of 10 feet.

Front Yard	District
20 feet	R1
15 feet	R2 R3-1 R3-2
15 feet	R2A
10 feet*	R3A R3X R4A R4-1 R5A
10 feet**	R4 R5
5 feet*	R4B R5B R5D

* Except as provided in paragraphs (b) and (c) of this Section.
** If the depth of a #front yard# exceeds 10 feet or the #zoning lot# is #developed# pursuant to the optional regulations applicable in a #predominantly built-up area#, the depth of a #front yard# shall be at least 18 feet. However, on a #corner lot#, if one #front yard# has a depth of at least 18 feet, the other #front yard# shall have a depth of at least 10 feet.

Furthermore, if an opening to an #accessory# off-street parking space is located within the #street wall# of a #residential building#, there shall be an open area between the opening and the #street line# which is at least 8 and 1/2 feet in width by 18 feet in depth, except this provision shall not apply in R5D Districts.
R2A R3A R3X R4A R4-1 R4B R5A R5B R5D

(b) For the purpose of paragraphs (b) and (c) the area between the #street line# and the front building wall of adjacent #buildings# on the same or adjoining #zoning lots# shall be considered adjacent #front yards#.

Except as provided in paragraph (c) of this Section, in the districts indicated, if adjacent #residential buildings# on the same or on adjoining #zoning lots# fronting on the same #street# have #front yards# greater than the minimum set forth in paragraph (a) of this Section, then a #front yard# shall be provided which:

(1) in R2A, R3A, R3X, R4A, R4-1 or R5A Districts is at least as deep as an adjacent #front yard#; and

(3) in R4B, ~~or~~ R5B and R5D Districts is no deeper than the deepest adjacent #front yard# and no shallower than the shallowest adjacent #front yard.

However, a #front yard# need not exceed 20 feet in depth.
In determining the depth of the adjacent #front yards#, balconies, and projections from the front building wall that do not exceed 33 percent of the aggregate width of the #building#, shall be disregarded.

For new #developments# or #enlargements#, projections into the required #front yard# are permitted provided that the aggregate width of all projections at the level of any #story# does not exceed 33 percent of the aggregate width of the #building#. The depth of such projections shall not exceed three feet into the #front yard#. However, balconies shall be subject to the provisions of Sections 23-13 (Balconies) and 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents).

(c) The provisions of paragraph (b) of this Section determining the depth of a #front yard# by the location of a #front yard# on an adjacent #zoning lot#, are modified as follows:

(1) on #corner lots#, these provisions shall apply on only one #street# frontage; and

(2) these provisions shall not apply to:

(i) any #street# frontage of a #zoning lot# where such frontage has a length of at least 150 feet along such #street

(ii) any #zoning lot# located in historic districts designated by the Landmarks Preservation Commission; or

(iii) a frontage of any #zoning lot# where the depths of 50 percent of the #front yards# within 150 feet of the #side lot lines# of such #zoning lot# are shallower by more than two feet than the shallowest of the adjacent #front yards#.

R1 R2 R3 R4 R5
(d) For any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, the provisions of paragraphs (a) and (b) of this Section are modified as follows:

The depth of the #front# yard may vary between the requirements of paragraph (a) of this Section, or as modified in any applicable Special District, and the depth of the #front yard# of any adjacent #zoning lot#.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Permitted Obstructions in Required Yards or Rear Yard Equivalents

In all #Residence Districts#, the following shall not be considered obstructions when located within a required #yard# or #rear yard equivalent#:

(a) In any #yard# or #rear yard equivalent#:
* * *
Overhangs in R4 and R5 Districts, except R4A, R4-1, R4B, R5A, ~~or~~ R5B or R5D Districts, which are that portion of a #building# above the first #story# including the #basement# which projects not more than three feet into the required 18 foot #front yard#. In no case shall the lowest level of the projected portion be less than seven feet above the level of the #front yard# at the face of the #building#. Supports for the projected portion of any #building# are permitted obstructions within the required #front yard#, provided that the total area occupied by such supports does not exceed 15 percent of the area underneath the projected portion. No support may extend beyond the three-foot projection;

Parking spaces, off-street, open, #accessory#, within a #side# or #rear yard#;

Parking spaces, off-street, open, within a #front yard# that are #accessory# to a #residential building# where:

(1) in R2X, R3, R4 and R5 Districts, no more than two parking spaces are required, provided such spaces are located in a permitted #side lot ribbon#;

(2) in R3, R4 and R5 Districts, more than two parking spaces are required, provided such spaces meet all the requirements of paragraph (b) of Section 25-621 (Location of parking spaces in certain districts) and the screening requirements of Section 25-66.

However, no such parking spaces shall be permitted in any #front yard# within a R4B, ~~or~~ R5B or R5D District, and no such required spaces shall be

permitted in any #front yard# within any R1, R2, R3, R4A or R4-1 District within a #lower density growth management area#.

23-45
Minimum Required Front Yards
R1 R2 R3 R4 R5

(a) In the districts indicated, #front yards# shall be provided as set forth in the following table, except that for a #corner lot# in an R1-2 District, one #front yard# may have a depth of 15 feet and, for a #corner lot# in an R3 District, one #front yard# may have a depth of 10 feet.

Front Yard	District
20 feet	R1
15 feet	R2 R3-1 R3-2
15 feet	R2A
10 feet*	R3A R3X R4A R4-1 R5A
10 feet**	R4 R5
5 feet*	R4B R5B R5D

* Except as provided in paragraphs (b) and (c) of this Section.

** If the depth of a #front yard# exceeds 10 feet or the #zoning lot# is #developed# pursuant to the optional regulations applicable in a #predominantly built-up area#, the depth of a #front yard# shall be at least 18 feet. However, on a #corner lot#, if one #front yard# has a depth of at least 18 feet, the other #front yard# shall have a depth of at least 10 feet.

Furthermore, if an opening to an #accessory# off-street parking space is located within the #street wall# of a #residential building#, there shall be an open area between the opening and the #street line# which is at least 8 and 1/2 feet in width by 18 feet in depth, except this provision shall not apply in R5D Districts.

R2A R3A R3X R4A R4-1 R4B R5A R5B R5D

(b) For the purpose of paragraphs (b) and (c) the area between the #street line# and the front building wall of adjacent #buildings# on the same or adjoining #zoning lots# shall be considered adjacent #front yards#.

Except as provided in paragraph (c) of this Section, in the districts indicated, if adjacent #residential buildings# on the same or on adjoining #zoning lots# fronting on the same #street# have #front yards# greater than the minimum set forth in paragraph (a) of this Section, then a #front yard# shall be provided which:

(1) in R2A, R3A, R3X, R4A, R4-1 or R5A Districts is at least as deep as an adjacent #front yard#; and

(2) in R4B, ~~or~~ R5B and R5D Districts is no deeper than the deepest adjacent #front yard# and no shallower than the shallowest adjacent #front yard.

However, a #front yard# need not exceed 20 feet in depth.

In determining the depth of the adjacent #front yards#, balconies, and projections from the front building wall that do not exceed 33 percent of the aggregate width of the #building#, shall be disregarded.

For new #developments# or #enlargements#, projections into the required #front yard# are permitted provided that the aggregate width of all projections at the level of any #story# does not exceed 33 percent of the aggregate width of the #building#. The depth of such projections shall not exceed three feet into the #front yard#. However, balconies shall be subject to the provisions of Sections 23-13 (Balconies) and 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents).

(c) The provisions of paragraph (b) of this Section determining the depth of a #front yard# by the location of a #front yard# on an adjacent #zoning lot#, are modified as follows:

(1) on #corner lots#, these provisions shall apply on only one #street# frontage; and

(2) these provisions shall not apply to:

(i) any #street# frontage of a #zoning lot# where such frontage has a length of at least 150 feet along such #street

(ii) any #zoning lot# located in historic districts designated by the Landmarks Preservation Commission; or

(iii) a frontage of any #zoning lot# where the depths of 50 percent of the #front yards# within 150 feet of the #side lot lines# of such #zoning lot# are shallower by more than two feet than the shallowest of the adjacent #front yards#.

R1 R2 R3 R4 R5

(d) For any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, the provisions of paragraphs (a) and (b) of this Section are modified as follows:

The depth of the #front# yard may vary between the requirements of paragraph (a) of this Section, or as modified in any applicable Special District, and the depth of the #front yard# of any adjacent #zoning lot#.

R5D

(e) In R5D Districts, all areas of the #zoning lot# between the #street line# and the #street wall# of the #building# shall be planted, except at the entrances to and exits from the #building#.

23-44
Permitted Obstructions in Required Yards or Rear Yard Equivalents

In all #Residence Districts#, the following shall not be considered obstructions when located within a required #yard# or #rear yard equivalent#:

(a) In any #yard# or #rear yard equivalent#:

* * *

Overhangs in R4 and R5 Districts, except R4A, R4-1, R4B, R5A, ~~or~~ R5B or R5D Districts, which are that portion of a #building# above the first #story# including the #basement# which projects not more than three feet into the required 18 foot #front yard#. In no case shall the lowest level of the projected portion be less than seven feet above the level of the #front yard# at the face of the #building#. Supports for the projected portion of any #building# are permitted obstructions within the required #front yard#, provided that the total area occupied by such supports does not exceed 15 percent of the area underneath the projected portion. No support may extend beyond the three-foot projection;

Parking spaces, off-street, open, #accessory#, within a #side# or #rear yard#;

Parking spaces, off-street, open, within a #front yard# that are #accessory# to a #residential building# where:

(1) in R2X, R3, R4 and R5 Districts, no more than two parking spaces are required, provided such spaces are located in a permitted #side lot ribbon#;

(2) in R3, R4 and R5 Districts, more than two parking spaces are required, provided such spaces meet all the requirements of paragraph (b) of Section 25-621 (Location of parking spaces in certain districts) and the screening requirements of Section 25-66.

However, no such parking spaces shall be permitted in any #front yard# within a R4B, ~~or~~ R5B or R5D District, and no such required spaces shall be permitted in any #front yard# within any R1, R2, R3, R4A or R4-1 District within a #lower density growth management area#.

* * *

23-45
Minimum Required Front Yards
R1 R2 R3 R4 R5

(a) In the districts indicated, #front yards# shall be provided as set forth in the following table, except that for a #corner lot# in an R1-2 District, one #front yard# may have a depth of 15 feet and, for a #corner lot# in an R3 District, one #front yard# may have a depth of 10 feet.

Front Yard	District
20 feet	R1
15 feet	R2 R3-1 R3-2
15 feet	R2A
10 feet*	R3A R3X R4A R4-1 R5A
10 feet**	R4 R5
5 feet*	R4B R5B R5D

* Except as provided in paragraphs (b) and (c) of this Section.
** If the depth of a #front yard# exceeds 10 feet or the #zoning lot# is #developed# pursuant to the optional regulations applicable in a #predominantly built-up area#, the depth of a #front yard# shall be at least 18 feet. However, on a #corner lot#, if one #front yard# has a depth of at least 18 feet, the other #front yard# shall have a depth of at least 10 feet.

Furthermore, if an opening to an #accessory# off-street parking space is located within the #street wall# of a #residential building#, there shall be an open area between the opening and the #street line# which is at least 8 and 1/2 feet in width by 18 feet in depth, except this provision shall not apply in R5D Districts.
R2A R3A R3X R4A R4-1 R4B R5A R5B R5D

(b) For the purpose of paragraphs (b) and (c) the area between the #street line# and the front building wall of adjacent #buildings# on the same or adjoining #zoning lots# shall be considered adjacent #front yards#.

Except as provided in paragraph (c) of this Section, in the districts indicated, if adjacent #residential buildings# on the same or on adjoining #zoning lots# fronting on the same #street# have #front yards# greater than the minimum set forth in paragraph (a) of this Section, then a #front yard# shall be provided which:

(1) in R2A, R3A, R3X, R4A, R4-1 or R5A Districts is at least as deep as an adjacent #front yard#; and

(3) in R4B, ~~or~~ R5B and R5D Districts is no deeper than the deepest adjacent #front yard# and no shallower than the shallowest adjacent #front yard.

However, a #front yard# need not exceed 20 feet in depth.
In determining the depth of the adjacent #front yards#, balconies, and projections from the front building wall that do not exceed 33 percent of the aggregate width of the #building#, shall be disregarded.

For new #developments# or #enlargements#, projections into the required #front yard# are permitted provided that the aggregate width of all projections at the level of any #story# does not exceed 33 percent of the aggregate width of the #building#. The depth of such projections shall not exceed three feet into the #front yard#. However, balconies shall be subject to the provisions of Sections 23-13 (Balconies) and 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents).

(c) The provisions of paragraph (b) of this Section determining the depth of a #front yard# by the location of a #front yard# on an adjacent #zoning lot#, are modified as follows:

(1) on #corner lots#, these provisions shall apply on only one #street# frontage; and

(2) these provisions shall not apply to:

(i) any #street# frontage of a #zoning lot# where such frontage has a length of at least 150 feet along such #street

(ii) any #zoning lot# located in historic districts designated by the Landmarks Preservation Commission; or

(iii) a frontage of any #zoning lot# where the depths of 50 percent of the #front yards# within 150 feet of the #side lot lines# of such #zoning lot# are shallower by more than two feet than the shallowest of the adjacent #front yards#.

R1 R2 R3 R4 R5
(d) For any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, the provisions of paragraphs (a) and (b) of this Section are modified as follows:
The depth of the #front# yard may vary between the requirements of paragraph (a) of this Section, or as modified in any applicable Special District, and the depth of the #front yard# of any adjacent #zoning lot#.

NEW TEACHERS INDUCTION/MENTORING PROGRAMS ON-LINE TRACKING – Negotiated Acquisition – PIN# 749040040 – To enter into a negotiated acquisition to contract with AHA! Interactive, Inc., located at 53 West Jackson Boulevard, Chicago, IL 60604, to provide the new teacher induction/mentoring program's on-line tracking system. The New Teacher Induction Program was created in response to a State mandate requiring all new teachers to receive a mentor for their first year of teaching. AHA! Educator, AHA!'s web-based tracking system, was purchased through an exception to bid in June 2004, when the mentoring program was first launched. Although this system has been an essential component of the accountability and tracking of the program, its application has been limited, as the current level of funding has only partially met the DOE's needs. Currently, AHA! is able to track mentor and new teacher assignments, the interactions mentors have with new teachers, and new teacher professional growth. It also provides basic information such as file numbers, types of assignments and contact information. However, for both operational and reporting purposes, we need to extend the contract and make some technical enhancements, which will improve reporting capability, streamline the way new teacher data is loaded into the system, make information searches more efficient, and allow the Office of New Teacher Induction to administer mid-year surveys of new teachers, mentors, and principals. The DOE has been conceptualizing a larger-scale system-wide professional development tracking system, which, when implemented, will subsume the Mentoring Program's tracking system. As a result, DHR has not yet been able to develop an RFP for this effort. Therefore, in the short term, DHR will need to continue to track the mentoring program through the existing system. This contract will run from June 30, 2006 through June 30, 2007, for an amount not-to-exceed $255,000.

NEW TEACHERS INDUCTION/MENTORING PROGRAMS ON-LINE TRACKING – Negotiated Acquisition – PIN# 749040040 – To enter into a negotiated acquisition to contract with AHA! Interactive, Inc., located at 53 West Jackson Boulevard, Chicago, IL 60604, to provide the new teacher induction/mentoring program's on-line tracking system. The New Teacher Induction Program was created in response to a State mandate requiring all new teachers to receive a mentor for their first year of teaching. AHA! Educator, AHA!'s web-based tracking system, was purchased through an exception to bid in June 2004, when the mentoring program was first launched. Although this system has been an essential component of the accountability and tracking of the program, its application has been limited, as the current level of funding has only partially met the DOE's needs. Currently, AHA! is able to track mentor and new teacher assignments, the interactions mentors have with new teachers, and new teacher professional growth. It also provides basic information such as file numbers, types of assignments and contact information. However, for both operational and reporting purposes, we need to extend the contract and make some technical enhancements, which will improve reporting capability, streamline the way new teacher data is loaded into the system, make information searches more efficient, and allow the Office of New Teacher Induction to administer mid-year surveys of new teachers, mentors, and principals. The DOE has been conceptualizing a larger-scale system-wide professional development tracking system, which, when implemented, will subsume the Mentoring Program's tracking system. As a result, DHR has not yet been able to develop an RFP for this effort. Therefore, in the short term, DHR will need to continue to track the mentoring program through the existing system. This contract will run from June 30, 2006 through June 30, 2007, for an amount not-to-exceed $255,000.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

However, on a #corner lot#, if one #front yard# has a depth of at least 18 feet, the other #front yard# shall have a depth of at least 10 feet.

Furthermore, if an opening to an #accessory# off-street parking space is located within the #street wall# of a #residential building#, there shall be an open area between the opening and the #street line# which is at least 8 and 1/2 feet in width by 18 feet in depth, except this provision shall not apply in R5D Districts.

(d) For any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, the provisions of paragraphs (a) and (b) of this Section are modified as follows:

The depth of the #front# yard may vary between the requirements of paragraph (a) of this Section, or as modified in any applicable Special District, and the depth of the #front yard# of any adjacent #zoning lot#.

R5D

(e) In R5D Districts, all areas of the #zoning lot# between the #street line# and the #street wall# of the #building# shall be planted, except at the entrances to and exits from the #building#.

Supports for the projected portion of any #building# are permitted obstructions within the required #front yard#, provided that the total area occupied by such supports does not exceed 15 percent of the area underneath the projected portion. No support may extend beyond the three-foot projection;

Parking spaces, off-street, open, #accessory#, within a #side# or #rear yard#;

Parking spaces, off-street, open, within a #front yard# that are #accessory# to a #residential building# where:

However, on a #corner lot#, if one #front yard# has a depth of at least 18 feet, the other #front yard# shall have a depth of at least 10 feet.

Furthermore, if an opening to an #accessory# off-street parking space is located within the #street wall# of a #residential building#, there shall be an open area between the opening and the #street line# which is at least 8 and 1/2 feet in width by 18 feet in depth, except this provision shall not apply in R5D Districts.

AGENCY RULES

BUSINESS INTEGRITY COMMISSION

■ **NOTICE**

Business Integrity Commission
Regulatory agenda for Fiscal Year 2007

In compliance with section 1042 of the New York City Charter, the following is the regulatory agenda for rules that the Business Integrity Commission ("BIC") anticipates that it may promulgate during the fiscal year beginning July 1, 2006 and ending June 30, 2007.

An approximate schedule for adopting the proposed rules and the name and telephone number of a Business Integrity Commission official knowledgeable about each subject area involved are listed below each section.

1. RULES RELATING TO PUBLIC MARKETS:

BIC anticipates promulgating rules concerning administration of the public markets to adopt and update rules formerly promulgated by the (then) Department of

Business Services ("DBS"). Modifications may also be necessary to address issues that have arisen in the implementation and meaning of the rules. The content of the rules will follow the present DBS rules found in Title 66 of the Rules of the City of New York, Chapter 1, "Markets." BIC is authorized to promulgate rules governing the public markets in the City of New York pursuant to section 2102 of Chapter 63 of the Charter of the City of New York City. Businesses operating in and/or providing services to the City's public markets would likely be subject to the rules.

First half of fiscal year 2007
Julia Davis, General Counsel, 212-676-6202

2. RULES RELATING TO THE TRADE WASTE INDUSTRY

BIC anticipates updating rules concerning the trade waste industry found at Title 17 of the Rules of the City of New York, Chapter 1, "Licensing and Regulation" to reflect BIC's assumption of jurisdiction of this industry and to remove outdated references concerning the 1996 effective date of the rules. Modifications may also be necessary to address issues that have arisen in the implementation and meaning of the rules. BIC is authorized to promulgate rules governing the trade waste industry in the City of New York pursuant to section 2102 of Chapter 63 of the Charter of the City of New York City. Businesses operating in the trade waste industry, including but not limited to carters, construction and debris haulers, self-haulers and trade waste brokers, would likely be subject to the rules.

Second half of fiscal year 2007

AGREEMENT entered into this 20th day of April, 2006 by and between the City of New York and related public employers pursuant to and limited to their respective elections or statutory requirement to be covered by the New York City Collective Bargaining Law and their respective authorizations to the City to bargain on their behalf (hereinafter referred to jointly as the "Employer"), and District No. 1 - PCD/MEBA Licensed Division, AFL-CIO (hereinafter referred to as the "Union"), for the forty-three month and thirteen day period from April 1, 2002 to November 13, 2005.

WITNESSETH:

WHEREAS, the parties hereto have entered into collective bargaining and desire to reduce the results thereof to writing,

NOW, THEREFORE, it is mutually agreed as follows:

ARTICLE I - UNION RECOGNITION AND UNIT DESIGNATION

Section 1.

The Employer recognizes the Union as the exclusive collective bargaining representative of all Licensed Officers (hereinafter referred to as "Employees") in the bargaining unit composed of persons employed in the following titles: Captain (TC#91510), Assistant Captain (TC#91504), Mate (TC#91556), Chief Marine Engineer (TC#91522), Marine Engineer(TC#91542), Chief Marine Engineer (DC) (TC#91524), Marine Engineer (DC) (TC# 91544) and Mate (DC) (TC# 91555).

Section 2.

Section 3.
For purposes of this Agreement, per annum shall mean per annum paid employees, both permanent and provisional. Temporary means hiring-hall employees. Step up employees are per annum employees of the Ferry or DC operating service assigned to work in a higher title.

ARTICLE II - JOB SECURITY

During the term of this Agreement, the Employer will attempt to retain all per annum employees who hold positions by permanent appointment. If curtailment because of a reduced number of runs becomes necessary, no such curtailment shall become effective without prior discussion with the Union.

ARTICLE III - DUES CHECK-OFF

Section 1.

a. The Union shall have the exclusive right to the checkoff and transmittal of dues on behalf of each employee in accordance with the Mayor's Executive Order No. 98, dated May 15, 1969 entitled "Regulations Relating to Checkoff of Union Dues" and in accordance with the Mayor's Executive Order No. 107, dated December 29, 1986 entitled "Procedures for Orderly Payroll Checkoff of Union Dues and Agency Shop Fees."

b. Any employee may consent in writing to the authorization of the deduction from his or her wages and to the designation of the Union as the recipient thereof. Such consent, if given, shall be in a proper form acceptable to the Employer, which bears the signature of the employee.

Section 2.
The agency head is empowered to grant a leave of absence with pay for the first week's absence of an employee covered by Worker's Compensation who is physically disabled in the performance of official duties.

INTERPRETATIONS

A. Agencies should use election forms (DP2002), which are obtainable from the Stock Section (Room 433) of the Department of Personnel.

B. The election of an option, as provided for in this section, should be made within the first seven consecutive calendar days following absence, in order that an employee, who so elects, is assured of receiving full pay during the period of Worker's Compensation coverage. The agency head's authority to grant leave with full pay, without charge to leave balances pursuant to Section 2, does not extend beyond the first seven consecutive calendar days following absence.

C. Where an employee has been absent for an initial period of less than a week and an extended subsequent absence may possibly result from the same disability or condition, the employee must elect a rate of charge (on Form DP-2002) within seven calendar days of the first day of absence in order to receive full pay, even though the employee has already returned to work.

D. An employee who fails to elect a rate of charge within the prescribed period shall be deemed to have selected Option 2 and will receive the benefits of Worker's Compensation only.

E. Provisional and temporary incumbents in per annum positions are also covered under the Worker's Compensation Law.

Section 3.
a. Upon the determination by the head of an agency that an employee has been physically disabled because of an assault arising out of and in the course of the employee's employment, the agency head will grant the injured employee a leave of absence with pay not to exceed eighteen (18) months. No such leave with pay shall be granted unless the Worker's Compensation Division of the Law Department advises the head of the agency in writing that the employee's injury has been accepted by the Division as compensable under the Worker's Compensation Law, or if such injury is not accepted by the Division as compensable under such law, unless the Worker's Compensation Board determines that such injury is compensable under such law.

For a permanent employee who has five (5) years or more of service who does not have sufficient leave credit to cover his/her absence pending a determination by the Worker's Compensation Division of the Law Department, the agency head shall advance the employee up to forty-five (45) calendar days of paid leave. In the event the Worker's Compensation Division of the Law Department does not accept the injury as compensable under the law or the Worker's Compensation Board determines that such injury is not compensable under such law, the employee shall reimburse the City for the paid leave advance. An employee who is granted a leave of absence with

pay pursuant to this Section shall receive the difference between the employee's weekly salary and the compensation rate without charge against annual leave or sick leave. The employee shall, as a condition of receiving benefits under this Section, execute an assignment of the proceeds of any judgement or settlement in any third-party action arising from such injury in the amount of the pay and medical disbursements received pursuant to this Section, but NOT to exceed the amount of such proceeds. Such assignment shall be in the form prescribed by the Corporation Counsel. The injured employee shall undergo such medical examinations as are requested by the Worker's Compensation Division of the Law Department and the employing agency, and when found fit for duty by the Worker's Compensation Board shall return to employment.

No benefits shall be paid while an employee is suspended pending disciplinary action, or if an employee is subsequently found culpable of having commenced the assault or unnecessarily continued the assault.
Benefits provided under this section shall be in addition to, but not concurrent with, benefits provided under Sections 1 and 2 hereof.

b. For employees who do not come under the provisions of Section 3(a) hereof but who are injured in the course of employment, upon the determination of an agency head that an employee has been physically disabled because of an injury arising out of and in the course of employment, through no fault of the employee, the agency head will grant the injured employee an extended sick leave with pay not to exceed three months after all the employee's sick leave and annual leave balances have been exhausted. This additional leave must be taken immediately following the exhaustion of such balances. No such leave with pay shall be granted unless the Worker's Compensation Division of the Law Department advises the agency head in writing that the employee's injury has been accepted by the Division as compensable under the Worker's Compensation Law, or if such injury is not accepted by the Division as compensable under such law, unless the Worker's Compensation Board determines that such injury is compensable under such law.

An employee who is granted extended sick leave with pay pursuant to this section, shall receive the difference between the employee's weekly salary and the compensation rate for the period of time granted. The employee shall, as a condition of receiving benefits under this section, execute an assignment of the proceeds of any judgment or settlement in any third-party action arising from such injury, in the amount of the pay and medical disbursements received pursuant to this section, but not to exceed the amount of such proceeds. Such assignment shall be in the form prescribed by the Corporation Counsel. The injured employee shall undergo such medical examinations as are requested by Worker's Compensation Division of the Law Department and the employing agency, and when found fit for duty by the Worker's Compensation Board shall return to employment. Benefits provided under this section shall be in addition to but not concurrent with benefits provided under Sections 1 and 2 hereof. The benefits provided by this section shall not be provided or continued beyond the date on which disability retirement benefits become effective.

INTERPRETATION

A. An "assignment" Form (DP2010 obtainable from the Department of Personnel Stock Section, Room 433) must be executed in duplicate by the injured employee and submitted to the employing agency. The employing agency shall forward the duplicate copy to the Worker's Compensation Section of the Law Department, and retain the original.

No Licensed Officer will be required to clean the vessels.

Section 8. - Assignment of Overtime
a. There shall be established in each title of Licensed Officers covered by this Agreement a list of Officers in seniority order who have signified in writing to the Office of the Director of Ferries or the Office of the Director of Maintenance (DC) that they will be available for overtime work.

b. The assignment of overtime work in each title will be made from the established list on a rotating basis. When a Licensed Officer accepts or refuses overtime assignment in his turn, he rotates to the bottom of the list and will not be called again until all the officers in that title have either accepted or refused an assignment to work overtime at least once.

c. If it is impractical to fill an overtime assignment in any particular title in the above manner the job may be assigned to another qualified employee of the agency to be selected at the sole discretion of the agency head.

ARTICLE XVI - GRIEVANCE AND ARBITRATION

Section 1. - Definition:
The term *grievance* shall mean:

a. A dispute concerning the application or interpretation of the terms of this Agreement;

b. A claimed violation, misinterpretation or misapplication of the rules or regulations, written policy or orders of the Employer applicable to the agency which employs the grievant affecting the terms and conditions of employment; provided, disputes involving the Rules and Regulations of the New York City Personnel Director shall not be subject to the Grievance Procedure or arbitration;

c. A claimed assignment of employees to duties substantially different from those stated in their job specifications;

d. A claimed improper holding of an open competitive rather than a promotional examination; and

e. A claimed wrongful disciplinary action taken against a permanent employee covered by Section 75 (1) of the Civil Service Law upon whom the agency head has served written charges of incompetency or misconduct while the employee is serving in his permanent title or which affects the employee's permanent status.

Section 2.
The Grievance Procedure, except for paragraphs **d.** and **e.** of Section 1, shall be as follows:

Employees may at any time informally discuss with their supervisors a matter which may become a grievance. If the results of such a discussion are unsatisfactory, the employees may present the grievance at Step I.

All grievances must be presented in writing at all steps in the grievance procedure. For all grievances as defined in Section 1(c), no monetary award shall in any event cover any period prior to the date of the filing of the Step I grievance unless such grievance has been filed within (30) days of the assignment to alleged out-of-title work.

Step I. - The employee and/or the Union shall present the grievance in the form of a memorandum to the person designated for such purpose by the agency head not later than 120 days after the date on which the grievance arose. The employee may also request an appointment to discuss the grievance. The person designated by the Employer to hear the grievance shall take any steps necessary to a proper disposition of the grievance and shall issue a determination in writing by the end of the third work day following the date of submission.

Step II. - An appeal from an unsatisfactory determination at Step I shall be presented in writing to the agency head or the agency head's designated representative who shall not be the same person designated in Step I. The appeal must be made within five (5) working days of the receipt of the Step I determination. The agency head or designated representative, if any, shall meet with the employee and/or the Union for review of the grievance and shall issue a determination in writing by the end of the tenth work day following the date on which the appeal was filed.

Step III. - An appeal from an unsatisfactory determination at Step II shall be presented by the employee and/or the Union to the Commissioner of Labor Relations, in writing, within ten (10) working days of the receipt of the Step II determination. The grievant or the Union should submit copies of the Step I and Step II grievance filings and any agency responses thereto. Copies of such appeal shall be sent to the agency head. The Commissioner of Labor Relations or the Commissioner's designee shall review all appeals from Step II determinations and shall answer such appeals within fifteen (15) working days following the date on which the appeal was filed.

Step IV. - An appeal from an unsatisfactory determination at Step III may be brought solely by the Union to the Office of Collective Bargaining for impartial arbitration within fifteen (15) working days of receipt of the Step III determination. In addition, the Employer shall have the right to bring directly to arbitration any dispute between the parties concerning any matter defined herein as a "grievance". The Employer shall commence such arbitration by submitting a written request therefor to the Office of Collective Bargaining. A copy of the notice requesting impartial arbitration shall be forwarded to the opposing party. The arbitration shall be conducted in accord with the Consolidated Rules of the Office of Collective Bargaining. The costs and fees of such arbitration shall be borne equally by the Union and the Employer.

The arbitrator's decision, order or award (if any), shall be limited to the application and interpretation of the Agreement, and the arbitrator shall not add to, subtract from or modify the Agreement. The arbitrator's award shall be final and binding and enforceable in any appropriate tribunal in accord with Article 75 of the Civil Practice Law and Rules. An arbitrator may provide for and direct such relief as the arbitrator deems shall be necessary and proper, subject to the limitations set forth above and any applicable limitations of law.

Section 3.
As a condition to the right of the Union to invoke impartial arbitration set forth in this Article, including the arbitration of a grievance involving a claimed improper holding of an open-competitive rather than a promotional examination,

the employee or employees and the Union shall be required to file with the Director of Office of Collective Bargaining a written waiver of the right, if any, of the employee or employees and the Union to submit the underlying dispute to any other administrative or judicial tribunal except for the purpose of enforcing the arbitrator's award.

Section 4.
In any case involving a grievance under Section 1e. of this Article, the following procedure shall govern upon service of written charges of incompetency or misconduct:

Step A. - Following the service of written charges, a conference with such employee shall be held with respect to such charges by the person designated by the agency head to review a grievance at Step I of the Grievance Procedure set forth in this Agreement. The employee may be represented at such conference by a representative of the Union. The person designated by the agency head to review the charges shall take any steps necessary to a proper disposition of the charges and shall issue a determination in writing by the end of the fifth day following the date of the conference.

If the employee is satisfied with the determination in Step A. above, the employee may choose to accept such decision as an alternative to and in lieu of a determination made pursuant to the procedures provided for in Section 75 of the Civil Service Law. As a condition of accepting such determination, the employee shall sign a waiver of the employee's right to the procedures available to him or her under Sections 75 and 76 of the Civil Service Law.

Step B(i). - If the employee is not satisfied with the decision at Step A. above, then the Employer shall proceed in accordance with the disciplinary procedures set forth in Section 75 of the Civil Service Law. As an alternative, the Union with the consent of the employee may choose to proceed in accord with the Grievance Procedure set forth in this Agreement, including the right to proceed to binding arbitration pursuant to Step IV of such Grievance Procedure. As a condition for submitting the matter to the Grievance Procedure, the employee and the Union shall file a written waiver of the right to utilize the procedures available to the employee pursuant to Sections 75 and 76 of the Civil Service Law, or any other administrative or judicial tribunal, except for the purpose of enforcing an arbitrator's award, if any. Notwithstanding such waiver, the period of an employee's suspension without pay pending hearing and determination of charges shall not exceed thirty (30) days.

Step B(ii) - If the election is made to proceed pursuant to the Grievance Procedure, an appeal from the determination of Step A. above, shall be made to the agency head or designated representative. The appeal must be made in writing within five (5) working days of the receipt of the decision. The agency head or representative shall meet with the employee and the Union for review of the grievance and shall issue a written reply to the employee and the Union by the end of the tenth working day following the day on which the appeal was filed. The agency head or designated representative shall have the power to impose the discipline, if any, decided upon, up to and including termination of the accused employee's employment. In the event of such termination or suspension without pay totaling more than thirty (30) days, the Union with the consent of the grievant may elect to skip Step C of the Section and proceed directly to Step D.

Step C. - If the grievant is not satisfied with the determination of the agency head or designated representative, the grievant or the Union may appeal to the Commissioner of Labor Relations in writing within ten (10) days of the determination of the agency head or designated representative. The Commissioner of Labor Relations shall issue a written reply to the grievant and the Union within fifteen (15) working days.

Step D. - If the grievant is not satisfied with the determination of the Commissioner of Labor Relations, the Union with the consent of the grievant may proceed to arbitration pursuant to the procedures set forth in Step IV of the Grievance Procedure set forth in this Agreement.

Section 5.
Any grievance concerning a large number of employees which concerns the claimed misinterpretation, inequitable application, violation or failure to comply with the provisions of the Agreement may be filed directly at Step III of the Grievance Procedure. All other individual grievances in process concerning the same issue shall be consolidated with the "group" grievance.

Section 6.
If a determination satisfactory to the Union at any level of the Grievance Procedure is not implemented within a reasonable time, the Union may re-institute the original grievance at Step III of the Grievance Procedure; of if a satisfactory Step III determination has not been so implemented, the Union may institute a grievance concerning such failure to implement at Step IV of the Grievance Procedure.

Section 7.
If the employer exceeds any time limit prescribed at any Step in the Grievance Procedure, the grievant and/or the Union may invoke the next step of the procedure, except, however, that only the Union may invoke impartial arbitration under Step IV.

Section 8.
The Employer shall notify the Union in writing of all grievances filed by employees, all grievance hearings, and all determinations. The Union shall have the right to have a representative present at any grievance hearing and shall be given forty-eight (48) hours' notice of all grievance hearings.

Section 9.
Each of the steps in the Grievance Procedure, as well as time limits prescribed at each step of this Grievance Procedure, may be waived by mutual agreement of the parties.

Section 10.
a. Any grievance relating to a claimed improper holding of any open-competitive rather than a promotional examination shall be presented in writing by the employee or the Union representative to the Commissioner of Labor Relations not later than thirty (30) days after the notice of the intention to conduct such open-competitive examination, or copy of the appointing officer's request for such open-competitive examination, as the case may be, has been posted in accordance with Section 51 of the Civil Service Law. The grievance shall be considered and passed upon within ten (10) days after its presentation. The determination shall be in writing, copies of which shall be transmitted to both parties to the grievance upon issuance.

b. A grievance relating to the use of an open competitive rather than a promotional examination which is unresolved by the Commissioner of Labor Relations may be brought to impartial arbitration as provided in Sections 2 and 3 above. Such a grievance shall be presented by the Union, in writing, for arbitration within fifteen (15) days of the presentation of such grievance to the Commissioner of Labor Relations, and the arbitrator shall decide such grievance within 75 days of its presentation to the arbitrator. The party requesting such arbitration shall send a copy of such request to the other party. The costs and fees of such arbitration shall be borne equally by the Employer and the Union.

Section 11.
A non-Mayoral agency not covered by this Agreement but which employs employees in titles identical to those covered by this Agreement may elect to permit the Union to appeal an unsatisfactory determination received at the last step of its Grievance Procedure prior to arbitration on fiscal matters only to the Commissioner of Labor Relations. If such election is made, the Union shall present its appeal to the Commissioner of Labor Relations in writing within ten (10) working days of the receipt of the last step determination. The Union should submit copies of the grievance filings at the prior steps of its Grievance Procedure and any agency responses thereto. Copies of such appeals shall be sent to the agency head. The Commissioner of Labor Relations, or his designee, shall review all such appeals and answer all such appeals within fifteen (15) working days. An appeal from a determination of the Commissioner of Labor Relations may be taken to arbitration under procedures, if any, applicable to the non-Mayoral agency involved.

Section 12.
The grievance and the arbitration procedure contained in this Agreement shall be the exclusive remedy for the resolution of disputes defined as "grievances" herein. This shall not be interpreted to preclude either party from enforcing the arbitrator's award in court. This Section shall not be construed in any manner to limit the statutory rights and obligations of the Employer under Article XIV of the Civil Service Law.

Section 13. Expedited Arbitration Procedure.
a. The parties agree that there is a need for an expedited arbitration process that would allow for the prompt adjudication of grievances as set forth below.

b. The parties voluntarily agree to submit matters to final and binding arbitration pursuant to the New York City Collective Bargaining Law and under the jurisdiction of the Office of Collective Bargaining. An arbitrator or panel of arbitrators, as agreed to by the parties, will act as the arbitrator of any issue submitted under the expedited procedure herein.

c. The selection of those matters which will be submitted shall include, but not limited to, out-of-title cases concerning all titles, disciplinary cases wherein the proposed penalty is a monetary fine of one week or less or written reprimand, and other cases pursuant to mutual agreement by the parties. The following procedures shall apply:

i. SELECTION AND SCHEDULING OF CASES:

(1) The Deputy Chairperson for Disputes of the Office of Collective Bargaining shall propose which cases shall be subject to the procedures set forth in this Section 13 and notify the parties of proposed hearing dates for such cases.
(2) The parties shall have ten business days from the receipt of the Deputy Chairperson's proposed list of cases and hearing schedule(s) to raise any objections thereto.
(3) If a case is not proposed by the Deputy Chairperson for expedited handling, either party may, at any time prior to the scheduling of an arbitration hearing date for such case, request in writing to the other party and to the Deputy Chairperson of Disputes of the Office of Collective Bargaining that said case be submitted to the expedited procedure. The party receiving such request shall have ten business days from the receipt of the request to raise any objections thereto.
(4) No case shall be submitted to the expedited arbitration process without the mutual agreement of the parties.

ii. CONDUCT OF HEARINGS:

(1) The presentation of the case, to the extent possible, shall be made in the narrative form. To the degree that witnesses are necessary, examination will be limited to questions of material fact and cross-examination will be similarly limited. Submission of relevant documents, etc., will not be unreasonably limited and may be submitted as a "packet" exhibit.
(2) In the event either party is unable to proceed with hearing a particular case, the case shall be rescheduled. However, only one adjournment shall be permitted. In the event that either party is unable to proceed on a second occasion, a default judgment may be entered against the adjourning party at the Arbitrator's discretion absent good cause shown.
(3) The Arbitrator shall not be precluded from attempting to assist the parties in settling a particular case.
(4) A decision will be issued by the Arbitrator within two weeks. It will not be necessary in the Award to recount any of the facts presented. However, a brief explanation of the Arbitrator's rationale may be included. Bench decisions may also be issued by the Arbitrator.
(5) Decisions in this expedited procedure shall not be considered as precedent for any other case nor entered into evidence in any other forum or dispute except to enforce the Arbitrator's award.
(6) The parties shall, whenever possible, exchange any documents intended to be offered in evidence at least one week in advance of the first hearing date and shall endeavor to stipulate to the issue in advance of the hearing date.

ARTICLE XVII - UNION REPRESENTATIVE - UNION ACTIVITY

Section 1.
Upon request, which shall not be unreasonably denied, and upon showing proper identification to the Employer's representatives, Union representatives shall have the right to go on the property and vessels of the Employer for the purpose of consulting with the Licensed Officers or the Employer or Agents of the Employer. Such visits shall be made at reasonable times and in no way interfere with the operation, loading or discharging of the Employer's vessels.

Section 2.
The Union will maintain and furnish the Employer a copy of an insurance policy which will protect the Employer against any claim for loss of life or injury occurring to a representative of the Union while on the property or a vessel of the Employer.

Section 3.
Time spent by Union officials and representatives in the conduct of labor relations shall be governed by the provisions of Mayor's Executive Order No. 75 dated March 22, 1973 as amended or superseded by subsequent Executive Orders. At least one week in advance of a meeting the party calling the meeting shall provide, to the other party, a written agenda of matters to be discussed. Minutes shall be kept and copies supplied to all members of a committee.

ARTICLE XIX - BULLETIN BOARDS

The Union may maintain bulletin boards in places and locations where notices are usually posted by the Employer for the Licensed Officers to read. Such bulletin boards shall be used only for the purpose of notifying Licensed Officers in the Unit of matters pertaining to Union business. All notices shall be on Union stationery.

ARTICLE XX - NO STRIKES: NO LOCKOUT

Section 1.
Neither the Union nor any Licensed Officer covered by this Agreement shall induce or engage in any strikes, slowdowns, work stoppages, or mass absenteeism, nor shall the Union induce any mass resignation during the term of this Agreement.

Section 2.
The Employer shall not lock out any Licensed Officers covered by this Agreement.

Section 3.
The foregoing Sections "1" and "2" shall not be construed to limit the rights of the Employer or the duties of the Employees and the Union under State Law.

ARTICLE XXI - APPLICATION OF AGREEMENT

It is specifically understood and agreed that the terms and provisions of this Agreement and the benefits granted hereunder shall be applicable to each Employee in the Unit described in Section 1, Article I of this contract as of January 1, 2000, the effective date of this Agreement, provided, however, the Union executes the following instruments and the provisions of such instruments are complied with:

Re: 2002-2005 MEBA (Ferryboat) Agreement

Dear Mr. LaRiviere:

This letter is to confirm certain mutual understandings and agreements regarding the above-captioned agreement.

The parties agree to establish a "Joint Labor Management Committee on Productivity Initiatives" ("Committee")

Composition of the Committee

The Committee shall comprise representatives designated by: the Deputy Mayor for Operations, the Law Department, the Office of Labor Relations, the Office of Management and Budget, the Office of Operations, and MEBA.

Goals and Objectives

The Committee shall work to identify efficiencies in the administration and delivery of governmental services, which shall in turn be utilized to provide additional compensation to employees. This agreement expresses the joint labor and management commitment to associate improved City service and performance with appropriate compensation for the workforce.

The goal of the Committee's work shall be to identify, review, recommend and develop initiatives that generate workplace savings, maximize the potential of the City workforce and ensure the provision of essential services while at the same time improving compensation for the City workforce. To that end, the parties will seek to identify quantifiable savings while at the same time maintaining or improving City services.
The Committee shall make all reasonable efforts to issue a report or reports as soon as practicable, which propose initiatives representing meaningful, quantifiable, recurring savings to the City and which generate funding to be utilized to compensate employees. Upon completion and acceptance of all committee members of the report, an additional one percent (1%) increase shall be paid to employees covered by this agreement.

The parties agree to meet and negotiate the application of any additional savings above 1% generated by the programs developed by the Committee.

Areas for Consideration

The Committee's study may encompass such matters, including, but not limited to, absence control, contracting in, workers compensation and other efficiencies.

Sick leave usage. The Committee will seek to design a program to examine baseline data as to sick leave usage as a benchmark for comparison. The goal will be to reduce employee sick leave usage on an ongoing basis as a productivity enhancement.

Contracting-in. The Committee shall identify areas wherein City services are now being outsourced with the goal of providing those services by City employees with a cost savings to the City.

Workers Compensation Cost Containment Task Force. The Committee shall create a special task force, requesting such assistance of cost containment experts as necessary, with the goal of developing reforms that emphasize effective treatments and speed the return to work; that explore the manner in which treatment services are provided; that set specific standards of evaluation and treatment; and that serve to root out fraudulent claims.

Such other areas as the Committee may mutually agree.

Implementation of Savings

The initiatives and programs developed pursuant to this Committee must be unanimously agreed upon. In the event there is a dispute as to the amount of savings generated by an initiative or the implementation of a program, or the savings generated by a program are not paid pursuant to this agreement, it shall be submitted to arbitration upon written notice therefor by any of the parties to this Agreement to the party with whom such dispute or controversy exists. The matter submitted for arbitration shall be submitted to an arbitration panel consisting of the three impartial members of the Board of Collective Bargaining pursuant to Title 61 of the rules of the City of New York. Any award in such arbitration proceeding shall be final and binding and shall be enforceable pursuant to Article 75 of the CPLR.

If the above accords with your understanding, kindly execute the signature line provided below.

ADDRESS: 200 CENTRAL PARK WEST The American Museum of Natural History UPPER WEST SIDE-CPW	BOROUGH: MANHATTAN	BLOCK/LOT: 1130 / 1

To the Mayor, the Council, and the Division of Construction, AMNH.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for interior mechanical alterations at the cellar level; as shown in drawings labeled M-100A, M-200A, M-300A, all dated April 6, 2006, prepared by Rory Stephen Ronan, P.E.

The Commission has reviewed the application and these drawings and finds that the work will have no effect on the significant protected features of this Individual Landmark or the Upper West Side/ Central Park West Historic District.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

ADDRESS: 427 EAST 140TH STREET HISTORIC DISTRICT MOTT HAVEN EAST	BOROUGH: BRONX	BLOCK/LOT: 2285 / 75

To the Mayor, the Council, and the Senior Director, NYC HPD.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed an application for facade repair, including the removal and replacement of deteriorated brownstone, window lintel and backer brick; as shown in photographs and a drawing labeled A-1, dated March 31, 2006, prepared by Asif Jamil, R.A.

In reviewing this application, the Commission notes that the Mott Haven East Historic District designation report describes 127 East 140th Street as one of a row of Romanesque Revival/ Renaissance Revival style rowhouses, designed by Walter H.C. Hornum, built in 1897-1900. The Commission also notes that existing condition photographs show that the brownstone facade has separated from the brick behind it.

With regard to this proposal, the Commission finds, in accordance with the R.C.N.Y., Title 63, Section 2-14, that documentation reveals that the existing brownstone surface is exfoliating, damaged or otherwise unsound; that the proposal calls for the replication of the original texture, color, profiles and details of the facade material; the Commission also finds that the work is restorative in nature, and will contribute to the long-term preservation of the facade by preventing water penetration and subsequent deterioration. Based on these findings the Commission determines that the proposed work is appropriate to the building and the Mott Haven East Historic District. The work, therefore, is approved.

This permit is issued contingent upon the Commission's review and approval of test sample of the proposed tinted top layer, please contact the staff to arrange a site visit.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. ADDRESS: 2-12 FULTON STREET Schermerhorn Row Block SOUTH STREET SEAPORT	BOROUGH: MANHATTAN	BLOCK/LOT: 74 / 7777

To the Mayor, the Council, and the Senior Vice President, NYC EDC.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The staff of the Landmarks Preservation Commission has reviewed a proposal for restorative work at all window sashes, frames and casings within this block, including consolidation, dutchman repair and/or replacement of loose, missing or deteriorated components, new sealant, weatherstripping and painting; as shown and described in photographs, specifications and drawings labeled T-1 through T-4, and A-1 through A-22, all dated January 23, 2006, prepared by Wank Adams Slavin, LLP.

In reviewing this proposal the Commission notes that the South Street Seaport Historic District designation report describes 2-12 Fulton Street as Georgian-Federal Style counting houses built in 1811, 14-18 Fulton Street (A.K.A. 195 and 197 Front Street) as Federal style counting houses built in 1811, 191-193 Front Street as late 18th century buildings altered in the 19th century, 181-189 Front Street (A.K.A. 159-163 John Street) as Greek Revival style warehouses built in 1835-36, 165 John Street as a building constructed in 1811 with later alterations, 167-171 John Street as a building constructed in 1850, and 91-93 South Street as a Federal style building constructed in 1811-12 and altered in 1868. The Commission also notes that the Schermerhorn Row Block, and Individual Landmark, is comprised of 2-18 Fulton Street, 189-195 Front Street, 159-171 John Street and 91-92 South Street.

With regard to this proposal, the Commission finds that the windows are have deteriorated and are in need of repair, that the proposed work will not cause the removal of significant architectural features from the Individual Landmark or the South Street Seaport Historic District; and that the work will contribute to the long-term preservation of the building by preventing water penetration and subsequent deterioration.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. To the Mayor, the Council, and the Senior Vice President, NYC EDC.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

In reviewing this proposal the Commission notes that the South Street Seaport Historic District designation report describes the buildings on block 74 as15-19 Fulton Street (A.K.A. 201 Front Street) a commercial style building designed by Beyer Blinder Belle, built in 1980. 21-25 Fulton Street (A.K.A. 205 Water Street) a row of Greek Revival style store buildings built in 1845-46, 207-211 Water Street a Greek Revival style warehouse built in 1835-36, 213-215 Water Street an Italianate style warehouse designed by Stephen D. Hatch built in 1868, 217 Water Street (A.K.A. 133 Beekman Street, A.K.A. 208-210 Front Street) a loft building built in 1914 designed by James Laher, 207 Front Street a structure built in 1816 and altered in 1901, 206 Front Street a brick building built in 1798-99 and remodeled after a fire in 1880. 205 Front Street a structure built in 1800 and remodeled in the Greek Revival style, and 203-204 Front Street as two buildings built in 1814-15 and altered in the Greek Revival style in the mid 19th century.

With regard to this proposal, the Commission finds that the windows are have deteriorated and are in need of repair, that the proposed work will not cause the removal of significant architectural features from the Individual Landmark or the South Street Seaport Historic District; and that the work will contribute to the long-term preservation of the building by preventing water penetration and subsequent deterioration.

ADDRESS: EAST 76TH STREET HISTORIC DISTRICT UPPER EAST SIDE	BOROUGH: MANHATTAN	BLOCK/LOT: 7777 / 77

To the Mayor, the Council, and the Commissioner, NYC DOT.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal to replace two cobra head lampposts with bishop's crook lampposts on East 76th Street between Fifth Avenue and Madison Avenue, within the Upper East Side Historic District.

The Commission notes that the bishop's crook post was installed throughout the city beginning in the early 20th century, during or shortly after the development of much of this historic district; and that the bishop's crook post, or types similar in scale and details, were installed historically in this district.

The Commission finds that the existing standard lampposts are not harmonious in scale, material, detail, and color with the architectural and historic character of the historic district; that the new bishop's crook lampposts reproduce almost exactly the historic bishop's crook posts; that they are harmonious in scale, materials, design, and color with the character of the street and district; that the work will strengthen the historic character of the street and district; and that the work will otherwise have no effect on any protected features of the district, including sidewalks, since the new posts will be placed in existing post locations. Based on these findings, the Commission determines the proposed work to be appropriate to the Upper East Side Historic District.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process

ADDRESS: 79TH STREET TRANSVERSE ROAD Central Park SCENIC LANDMARK	BOROUGH: MANHATTAN	BLOCK/LOT: 1111 / 1

To the Mayor, the Council, and the Asst. Commissioner of Facilities, PDNY.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for excavation work to create a subterranean vault for mechanical equipment, located within a parking lot adjacent to the Fire Department communication building; as shown on drawings labeled T-1AD-0, A001, A100, SM-1, SC-1, ES-1, E-1, E-5 and E-6, all dated revised March 6, 2006, EJ-11406-A, dated revised August 1997, and EO-12917-B, dated revised April 2002, submitted by Swanke Hayden Connell Architects.

In reviewing this proposal, the Commission notes that this Gothic Revival style building, designed by Morgan & Trainer and built in 1914, was constructed for the Fire Department as the central station for the fire communication telegraph system.

With regard to this proposal the Commission finds that the excavation work will not detract from the character of this Scenic Landmark; and that the work will not cause the removal of significant architectural features from the site. Based on these findings, the work has been found to be appropriate to the building and the Scenic Landmark. The work, therefore, is approved.

The Commission stipulates that in the event that any archaeological resources are found during excavation, work should cease in the area of the discovery and Amanda Sutphin, Director of Archaeology, should be contacted at (212) 669-7823 to assess the significance of what has been found and what the next steps, if any, should be.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Permitted Obstructions in Required Yards or Rear Yard Equivalents

In all #Residence Districts#, the following shall not be

considered obstructions when located within a required #yard# or #rear yard equivalent#:

(a) In any #yard# or #rear yard equivalent#:

* * *

Overhangs in R4 and R5 Districts, except R4A, R4-1, R4B, R5A, ~~or~~ R5B or R5D Districts, which are that portion of a #building# above the first #story# including the #basement# which projects not more than three feet into the required 18 foot #front yard#. In no case shall the lowest level of the projected portion be less than seven feet above the level of the #front yard# at the face of the #building#. Supports for the projected portion of any #building# are permitted obstructions within the required #front yard#, provided that the total area occupied by such supports does not exceed 15 percent of the area underneath the projected portion. No support may extend beyond the three-foot projection;

Parking spaces, off-street, open, #accessory#, within a #side# or #rear yard#;

Parking spaces, off-street, open, within a #front yard# that are #accessory# to a #residential building# where:

(1) in R2X, R3, R4 and R5 Districts, no more than two parking spaces are required, provided such spaces are located in a permitted #side lot ribbon#;

(2) in R3, R4 and R5 Districts, more than two parking spaces are required, provided such spaces meet all the requirements of paragraph (b) of Section 25-621 (Location of parking spaces in certain districts) and the screening requirements of Section 25-66.

However, no such parking spaces shall be permitted in any #front yard# within a R4B, ~~or~~ R5B or R5D District, and no such required spaces shall be permitted in any #front yard# within any R1, R2, R3, R4A or R4-1 District within a #lower density growth management area#.

23-45
Minimum Required Front Yards
R1 R2 R3 R4 R5

(a) In the districts indicated, #front yards# shall be provided as set forth in the following table, except that for a #corner lot# in an R1-2 District, one #front yard# may have a depth of 15 feet and, for a #corner lot# in an R3 District, one #front yard# may have a depth of 10 feet.

Front Yard	District
20 feet	R1
15 feet	R2 R3-1 R3-2
15 feet	R2A
10 feet*	R3A R3X R4A R4-1 R5A
10 feet**	R4 R5
5 feet*	R4B R5B R5D

* Except as provided in paragraphs (b) and (c) of this Section.

** If the depth of a #front yard# exceeds 10 feet or the #zoning lot# is #developed# pursuant to the optional regulations applicable in a #predominantly built-up area#, the depth of a #front yard# shall be at least 18 feet. However, on a #corner lot#, if one #front yard# has a depth of at least 18 feet, the other #front yard# shall have a depth of at least 10 feet.

Furthermore, if an opening to an #accessory# off-street parking space is located within the #street wall# of a #residential building#, there shall be an open area between the opening and the #street line# which is at least 8 and 1/2 feet in width by 18 feet in depth, except this provision shall not apply in R5D Districts.

R2A R3A R3X R4A R4-1 R4B R5A R5B R5D

(b) For the purpose of paragraphs (b) and (c) the area between the #street line# and the front building wall of adjacent #buildings# on the same or adjoining #zoning lots# shall be considered adjacent #front yards#.

Except as provided in paragraph (c) of this Section, in the districts indicated, if adjacent #residential buildings# on the same or on adjoining #zoning lots# fronting on the same #street# have #front yards# greater than the minimum set forth in paragraph (a) of this Section, then a #front yard# shall be provided which:

(1) in R2A, R3A, R3X, R4A, R4-1 or R5A Districts is at least as deep as an adjacent #front yard#; and

(2) in R4B, ~~or~~ R5B and R5D Districts is no deeper than the deepest adjacent #front yard# and no shallower than the shallowest adjacent #front yard.

However, a #front yard# need not exceed 20 feet in depth.

In determining the depth of the adjacent #front yards#, balconies, and projections from the front building wall that do not exceed 33 percent of the aggregate width of the #building#, shall be disregarded.

For new #developments# or #enlargements#, projections into the required #front yard# are permitted provided that the aggregate width of all projections at the level of any #story# does not exceed 33 percent of the aggregate width of the #building#. The depth of such projections shall not exceed three feet into the #front yard#. However, balconies shall be subject to the provisions of Sections 23-13 (Balconies) and 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents).

(c) The provisions of paragraph (b) of this Section determining the depth of a #front yard# by the location of a #front yard# on an adjacent #zoning lot#, are modified as follows:

(1) on #corner lots#, these provisions shall apply on only one #street# frontage; and

(2) these provisions shall not apply to:

(i) any #street# frontage of a #zoning lot# where such frontage has a length of at least 150 feet along such #street

(ii) any #zoning lot# located in historic districts designated by the Landmarks Preservation Commission; or

(iii) a frontage of any #zoning lot# where the depths of 50 percent of the #front yards# within 150 feet of the #side lot lines# of such #zoning lot# are shallower by more than two feet than the shallowest of the adjacent #front yards#.

R1 R2 R3 R4 R5

(d) For any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, the provisions of paragraphs (a) and (b) of this Section are modified as follows:

The depth of the #front# yard may vary between the requirements of paragraph (a) of this Section, or as modified in any applicable Special District, and the depth of the #front yard# of any adjacent #zoning lot#.

R5D

(e) In R5D Districts, all areas of the #zoning lot# between the #street line# and the #street wall# of the #building# shall be planted, except at the entrances to and exits from the #building#.

Minimum Required Front Yards
R1 R2 R3 R4 R5

(a) In the districts indicated, #front yards# shall be provided as set forth in the following table, except that for a #corner lot# in an R1-2 District, one #front yard# may have a depth of 15 feet and, for a #corner lot# in an R3 District, one #front yard# may have a depth of 10 feet.

Front Yard	District
20 feet	R1
15 feet	R2 R3-1 R3-2
15 feet	R2A
10 feet*	R3A R3X R4A R4-1 R5A
10 feet**	R4 R5
5 feet*	R4B R5B R5D

* Except as provided in paragraphs (b) and (c) of this Section.
** If the depth of a #front yard# exceeds 10 feet or the #zoning lot# is #developed# pursuant to the optional regulations applicable in a #predominantly built-up area#, the depth of a #front yard# shall be at least 18 feet. However, on a #corner lot#, if one #front yard# has a depth of at least 18 feet, the other #front yard# shall have a depth of at least 10 feet.

Furthermore, if an opening to an #accessory# off-street parking space is located within the #street wall# of a #residential building#, there shall be an open area between the opening and the #street line# which is at least 8 and 1/2 feet in width by 18 feet in depth, except this provision shall not apply in R5D Districts.
R2A R3A R3X R4A R4-1 R4B R5A R5B R5D

(b) For the purpose of paragraphs (b) and (c) the area between the #street line# and the front building wall of adjacent #buildings# on the same or adjoining #zoning lots# shall be considered adjacent #front yards#.

Except as provided in paragraph (c) of this Section, in the districts indicated, if adjacent #residential buildings# on the same or on adjoining #zoning lots# fronting on the same #street# have #front yards# greater than the minimum set forth in paragraph (a) of this Section, then a #front yard# shall be provided which:

(1) in R2A, R3A, R3X, R4A, R4-1 or R5A Districts is at least as deep as an adjacent #front yard#; and

(3) in R4B, ~~or~~ R5B and R5D Districts is no deeper than the deepest adjacent #front yard# and no shallower than the shallowest adjacent #front yard.

However, a #front yard# need not exceed 20 feet in depth.
In determining the depth of the adjacent #front yards#, balconies, and projections from the front building wall that do not exceed 33 percent of the aggregate width of the #building#, shall be disregarded.

For new #developments# or #enlargements#, projections into the required #front yard# are permitted provided that the aggregate width of all projections at the level of any #story# does not exceed 33 percent of the aggregate width of the #building#. The depth of such projections shall not exceed three feet into the #front yard#. However, balconies shall be subject to the provisions of Sections 23-13 (Balconies) and 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents).

(c) The provisions of paragraph (b) of this Section determining the depth of a #front yard# by the location of a #front yard# on an adjacent #zoning lot#, are modified as follows:

(1) on #corner lots#, these provisions shall apply on only one #street# frontage; and

(2) these provisions shall not apply to:

(i) any #street# frontage of a #zoning lot# where such frontage has a length of at least 150 feet along such #street

(ii) any #zoning lot# located in historic districts designated by the Landmarks Preservation Commission; or

(iii) a frontage of any #zoning lot# where the depths of 50 percent of the #front yards# within 150 feet of the #side lot lines# of such #zoning lot# are shallower by more than two feet than the shallowest of the adjacent #front yards#.

R1 R2 R3 R4 R5
(d) For any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, the provisions of paragraphs (a) and (b) of this Section are modified as follows:
The depth of the #front# yard may vary between the requirements of paragraph (a) of this Section, or as modified in any applicable Special District, and the depth of the #front yard# of any adjacent #zoning lot#.

The New York City Department of City Planning, on behalf of the City Planning Commission as lead agency, issued a Notice of Completion on February 17, 2006 for a Draft Environmental Impact Statement (DEIS) for the Silvercup West proposal, in accordance with Article 8 of the Environmental Conservation Law.

A public hearing on the DEIS will be held on Wednesday, May 24, 2006, at 10:00 A.M., at City of New York Department of City Planning, Spector Hall, 22 Reade Street, New York, New York 10007, to receive comments from the public on the DEIS. Comments are requested on the DEIS and will be accepted until ten days after the close of the public hearing.

The DEIS analyzes a proposal by Terra Cotta, LLC to develop "Silvercup West", an approximately 2.77 million gross square foot (gsf) mixed-use development on an approximately 6-acre waterfront site (the project site) located at 42-20 Vernon Boulevard (Block 477, Lots 13, 15, 20 and 24) in the Long Island City neighborhood of Queens Community Board 2. The project site is generally bounded by the Queensboro Bridge to the north, Vernon Boulevard to the east, 43rd Avenue to the south, and the East River to the west, and is located within the area covered by the Waterfront Access Plan (WAP) Q-1 for Northern Hunters Point. The proposed development would be comprised of the following uses:

- Residential: approximately 1,044,000 gsf (1,040 dwelling units)
- Production Studios: approximately 347,000 gsf
- Office: approximately 655,000 gsf
- Retail: approximately 77,000 gsf
- Catering Facility: approximately 45,000 gsf
- Cultural/Community Facility: approximately 131,000 gsf
- Health Club: approximately 43,000 gsf
- Parking: approximately 433,760 gsf (1,400 accessory spaces)

The proposed project would contain three towers. Two residential towers at the southern portion of the building would be 517 feet and 600 feet in height, respectively, and a commercial tower at the northern portion of the building would be 557 feet in height. The project would also include a 1,400-space accessory parking garage with access provided by two driveways on Vernon Boulevard. Also, the portion of 43rd Avenue along the southern portion of the project site, between Vernon Boulevard and the East River, which is a mapped but currently unimproved street, would be re-graded and improved as part of the proposed project, and the East River bulkhead would be reestablished along the project site's western boundary. The proposed project would provide a publicly accessible waterfront esplanade between the project site's western boundary and the East River and an upland connection along the project site's northern boundary. The development requires the following actions:

- An amendment to the zoning map to change the zoning designation of the project site from M1-4 to an MX (M1-5/R10) Special Mixed-Use District.
- a zoning text amendment to Zoning Resolution (ZR) Section 123-90 to establish the Special Mixed-Use District, and to create a CPC special permit to allow accessory signage within the Special Mixed-Use District with a greater surface area and height than that allowed by ZR Section 123-40;
- a special permit pursuant to the above proposed text amendment to allow an accessory sign on the project site with a greater surface area and height than allowed by ZR Section 123-40;
- a special permit pursuant to ZR Sections 13-134 and 13-561 to allow an accessory parking garage exceeding 225 spaces;
- a special permit pursuant to ZR Section 62-736 to modify the bulk regulations of ZR Section 62-341 for development on a waterfront block;
- an authorization pursuant to ZR Section 62-722 to modify the waterfront public access and visual corridor design requirements of ZR Section 62-60;
- an amendment to the City Map for 43rd Avenue between Vernon Boulevard and the East River to modify the elevation of this mapped but unimproved portion of the street;
- a certification pursuant to ZR Section 62-711 that the site plan complies with the provisions of ZR Section 62-80;
- a Board of Standards and Appeals (BSA) special permit pursuant to ZR Section 73-36 for a physical culture or Health Establishment; and
- permits from the New York State Department of Environmental Conservation (NYSDEC) and, possibly, the US Army Corps of Engineers to reestablish the bulkhead along the site's western boundary.

The project site is currently occupied by a New York Power Authority (NYPA) power generating facility and a New York City Department of Sanitation (DSNY) open storage pile of de-icing salt and sand, both of which would be relocated from the site prior to construction of the proposed project. The site also contains the Terra Cotta Company building (Lot 20), which is a New York City designated landmark and is listed on the State and National Register of Historic Places. This building is currently being renovated and would be retained as part of the proposed project. Construction of the proposed project is expected to be completed by 2009.

The DEIS identifies significant adverse impacts related to hazardous materials, traffic, bus service and pedestrian conditions, and identifies measures that would mitigate the impacts. The DEIS considers three alternatives to the proposed project: the No Action Alternative, the Reduced Bulk Alternative, and the Alternative Size, Design or Configuration Alternative.
