Exception: The repair, replacement or alteration to existing water waste, vent or storm water piping or the addition of no more than three (3) plumbing fixtures or roof drains to an existing floor of an existing building, shall require only a visual inspection of waste, vent and storm water pipe roughing and finish in addition to a pressure test of water piping at available building water pressure.

312.1.1 Test gauges. Gauges used for testing shall be as follows:

1. Tests requiring a pressure of 10 psi or less shall utilize a testing gauge having increments of 0.10 psi or less.
2. Tests requiring a pressure of greater than 10 psi but less than or equal to 100 psi shall utilize a testing gauge having increments of 1 psi or less.
3. Tests requiring a pressure of greater than 100 psi shall utilize a testing gauge having increments of 2 psi or less.

312.2 Drainage and vent water test. A water test shall be applied to the drainage system either in its entirety or in sections. If applied to the entire system, all openings in the piping shall be tightly closed, except the highest opening, and the system shall be filled with water to the point of overflow. If the system is tested in sections, each opening shall be tightly plugged except the highest openings of the section under test, and each section shall be filled with water, but no section shall be tested with less than a 10 foot (3048 mm) head of water. In testing successive sections, at least the upper 10 feet (3048 mm) of the next preceding section shall be tested so that no joint or pipe in the building, except the uppermost 10 feet (3048 mm) of the system, shall have been submitted to a test of less than a 10 foot (3048 mm) head of water. This pressure shall be held for at least 15 minutes. The system shall then be tight at all points.

312.3 Drainage and vent air test. An air test shall be made by forcing air into the system until there is a uniform gauge pressure of 5 pounds per square inch (psi) (34.5 kPa). This pressure shall be held for a test period of at least 15 minutes. Any adjustments to the test pressure required because of changes in ambient temperature or the seating of gaskets shall be made prior to the beginning of the test period.

312.4 Drainage and vent final test. The final test of the completed drainage and vent system shall be visual and in sufficient detail to determine compliance with the provisions of this code except that the plumbing shall be subjected to a smoke test where necessary for cause. Where the smoke test is utilized, it shall be made by filling all traps with water and then introducing into the entire system a pungent, thick smoke produced by one or more smoke machines. When the smoke appears at stack openings on the roof, the stack openings shall be closed and a pressure equivalent to a 1–inch water column (248.8 Pa) shall be held for a test period of not less than 15 minutes.

312.5 Water supply system test. Upon completion of a section of or the entire water supply system, the system, or portion completed, shall be tested and proved tight under a water pressure of 50 psi above its normal working pressure but not less than 150 psi. The water utilized for tests shall be obtained from a potable source of supply. The required tests shall be performed in accordance with this section and Section PC 107.

312.6 Gravity sewer test. Gravity sewer tests shall consist of plugging the end of the building sewer at the point of connection with the public sewer, filling the building sewer with water, testing with not less than a 10-foot (3048 mm) head of water and maintaining such pressure for 15 minutes.

312.7 Forced sewer test. Forced sewer tests shall consist of plugging the end of the building sewer at the point of connection with the public sewer and applying a pressure of 5 psi (34.5 kPa) greater than the shut off pump rating, and maintaining such pressure for 15 minutes.

312.8 Storm drainage system test. Storm drain systems within a building shall be tested by water or air in accordance with Sections 312.2 or 312.3.

312.9 Inspection and testing of backflow prevention assemblies. Inspection and testing shall comply with Sections 312.9.1 and 312.9.2.

312.9.1 Inspections. Annual inspections shall be made of all backflow prevention assemblies and air gaps to determine whether they are operable.

312.9.2 Testing. Reduced pressure principle backflow preventer assemblies, double check-valve assemblies, pressure vacuum breaker assemblies, reduced pressure detector fire protection backflow prevention assemblies, double check detector fire protection backflow prevention assemblies, hose connection backflow preventers, and spill-proof vacuum breakers shall be tested at the time of installation, immediately after repairs or relocation. Refer to Section 608.13 and the city department of environmental protection for additional testing requirements. The testing procedure shall be performed in accordance with one of the following standards: ASSE 5013, ASSE 5015, ASSE 5020, ASSE 5047, ASSE 5048, ASSE 5052, ASSE 5056, CAN/CSA, B64.10

SECTION PC 313
EQUIPMENT EFFICIENCIES

313.1 General. Equipment efficiencies shall be in accordance with the New York state energy conservation construction code.

SECTION PC 314
CONDENSATE DISPOSAL

314.1 Fuel-burning appliances. Liquid combustion by-products of condensing appliances shall be collected and discharged to an approved plumbing fixture or disposal area in accordance with the manufacturer's installation instructions. Condensate piping shall be of approved corrosion-resistant material and shall not be smaller than the drain connection on the appliance. Such piping shall maintain a minimum horizontal slope in the direction of discharge of not less than one-eighth unit vertical in 12 units horizontal (1-percent slope).

314.2 Evaporators and cooling coils. Condensate drain systems shall be provided for equipment and appliances containing evaporators or cooling coils. Condensate drain systems shall be designed, constructed and installed in accordance with Sections 314.2.1 through 314.2.3.

314.2.1 Condensate disposal. Condensate from all cooling coils and evaporators shall be conveyed from the drain pan outlet to an approved place of disposal. Condensate shall not discharge into a street, alley or other areas so as to cause a nuisance.

314.2.2 Drain pipe materials and sizes. Components of the condensate disposal system shall be cast iron, galvanized steel, copper, ABS, or PVC pipe. All components shall be selected for the pressure and temperature rating of the installation. Condensate waste and drain line size shall not be less than ¾ inch (19 mm) internal diameter and shall not decrease in size from the drain pan connection to the place of condensate disposal. Where the drain pipes from more than one unit are manifolded together for condensate drainage, the pipe or tubing shall be sized in accordance with an approved method. All horizontal sections of drain piping shall be installed in uniform alignment at a uniform slope.

314.2.3 Auxiliary and secondary drain systems. In addition to the requirements of Section 314.2.1, a secondary drain or auxiliary drain pan shall be required for each cooling or evaporator coil where damage to any building components will occur as a result of overflow from the equipment drain pan or stoppage in the condensate drain piping. One of the following methods shall be used:

1. An auxiliary drain pan with a separate drain shall be provided under the coils on which condensation will occur. The auxiliary pan drain shall discharge to a conspicuous point of disposal to alert occupants in the event of a stoppage of the primary drain. The pan shall have a minimum depth of 1.5 inches (38 mm), shall not be less than 3 inches (76 mm) larger than the unit or the coil dimensions in width and length and shall be constructed of corrosion-resistant material. Metallic pans shall have a minimum thickness of not less than 0.0276 inch (0.7 mm) galvanized sheet metal. Nonmetallic pans shall have a minimum thickness of not less than 0.0625 inch (1.6 mm).
2. A separate overflow drain line shall be connected to the drain pan provided with the equipment. Such overflow drain shall discharge to a conspicuous point of disposal to alert occupants in the event of a stoppage of the primary drain. The overflow drain line shall connect to the drain pan at a higher level than the primary drain connection.
3. An auxiliary drain pan without a separate drain line shall be provided under the coils on which condensate will occur. Such pan shall be equipped with a water level detection device that will shut off the equipment served prior to overflow of the pan. The auxiliary drain pan shall be constructed in accordance with Item 1 of 314.2.3.

314.2.4 Traps. Condensate drains shall be trapped as required by the equipment or appliance manufacturer.

CHAPTER 4
FIXTURES, FAUCETS AND FIXTURE FITTINGS

SECTION PC 401
GENERAL

401.1 Scope. This chapter shall govern the materials, design and installation of plumbing fixtures, faucets and fixture fittings in accordance with the type of occupancy, and shall provide for the minimum number of fixtures for various types of occupancies.

401.2 Prohibited fixtures and connections. Water closets having a concealed trap seal or an unventilated space or having walls that are not thoroughly washed at each discharge in accordance with ASME A112.19.2M shall be prohibited. Any water closet that permits siphonage of the contents of the bowl back into the tank shall be prohibited. Trough urinals shall be prohibited.

401.3 Water conservation. The maximum water flow rates and flush volume for plumbing fixtures and fixture fittings shall comply with 604.4.

SECTION PC 402
FIXTURE MATERIALS

402.1 Quality of fixtures. Plumbing fixtures shall be constructed of approved materials, with smooth, impervious surfaces, free from defects and concealed fouling surfaces, and shall conform to standards cited in this code. All porcelain enameled surfaces on plumbing fixtures shall be acid resistant.

402.2 Materials for specialty fixtures. Materials for specialty fixtures not otherwise covered in this code shall be of stainless steel, soapstone, chemical stoneware or

plastic, or shall be lined with lead, copper-base alloy, nickel-copper alloy, corrosion-resistant steel or other material especially suited to the application for which the fixture is intended.

402.3 Sheet copper. *Sheet copper for general applications shall conform to ASTM B 152 and shall not weigh less than 12 ounces per square foot (3.7 kg/m^2).*

402.4 Sheet lead. *Sheet lead for pans shall not weigh less than 4 pounds per square foot (19.5 kg/m^2) coated with an asphalt paint or other approved coating.*

SECTION PC 403
MINIMUM PLUMBING FACILITIES

403.1 Minimum number of fixtures. *Plumbing fixtures shall be provided for the type of occupancy and in the minimum number shown in Table 403.1. Types of occupancies not shown in Table 403.1 shall be considered individually by the commissioner. The number of occupants shall be determined by the New York city building code. Occupancy classification shall be determined in accordance with the New York city building code.*

a. ***The fixtures shown are based on one fixture being the minimum required for the number of persons indicated. Any fraction of the number of persons requires and additional fixture. The number of occupants shall be determined by the New York city building code.***

b. ***Toilet facilities for employees shall be separate from facilities for inmates or patients.***

c. ***A single-occupant toilet room with one water closet and one lavatory serving not more than two adjacent patient rooms shall be permitted where such room is provided with direct access from each patient room and with provisions for privacy.***

d. ***For day nurseries, a maximum of one bathtub shall be required.***

e. ***For attached one- and two-family dwellings, one automatic clothes washer connection shall be required per 20 dwelling units.***

f. ***Use a calculation based on 1 person/125 net square feet.***

g. ***For the purposes of this table only, "Bar" shall mean a business establishment or a portion of a non-profit entity devoted primarily to the selling and serving of alcoholic beverages for consumption by the public, guests, patrons, or members on the premises and in which the serving of food is only incidental.***

h. ***The total number of occupant for a single establishment comprising a restaurant with an accessory bar shall be considered as a restaurant for the purposes of determining the minimum number of plumbing fixtures.***

i. ***As per the New York city building code.***

j. ***The requirements for the number of water closets for a total occupancy of 150 persons or fewer shall not apply to bars except that there shall be at least one water closet for men and at least one water closet for women or at least two unisex toilet rooms.***

403.2 Separate facilities. *Where plumbing fixtures are required, separate facilities shall be provided for each sex.*

Exceptions:

1. *Separate facilities shall not be required for private facilities.*
2. *Separate employee facilities shall not be required in occupancies in which 15 or less people are employed.*
3. *Separate facilities shall not be required in structures or tenant spaces with a total occupant load, including both employees and customers, of 15 or less.*

403.3 Number of occupants of each sex. *The required water closets, lavatories, and showers or bathtubs shall be distributed equally between the sexes based on the percentage of each sex anticipated in the occupant load. The occupant load shall be composed of 50 percent of each sex, unless statistical data approved by the commissioner indicate a different distribution of the sexes.*

403.4 Location of employee toilet facilities in occupancies other than assembly or mercantile. *Access to toilet facilities in occupancies other than mercantile and assembly occupancies shall be from within the employees' working area. Employee facilities shall be either separate facilities or combined employee and public facilities.*

Exception: *Facilities that are required for employees in storage structures or kiosks, and are located in adjacent structures under the same ownership, lease or control, shall be a maximum travel distance of 500 feet (152,400 mm) from the employees' working area.*

403.4.1 Travel distance. *The required toilet facilities in occupancies other than assembly or mercantile shall be located not more than one story above or below the employee's working area and the path of travel to such facilities shall not exceed a distance of 500 feet (152,400 mm).*

Exception: *The location and maximum travel distances to required employee toilet facilities in factory and industrial occupancies are permitted to exceed that required in Section 403.4.1, provided the location and maximum travel distance are approved by the commissioner.*

403.5 Location of employee toilet facilities in mercantile and assembly occupancies. *Employees shall be provided with toilet facilities in building and tenant spaces utilized as restaurants, nightclubs, places of public assembly and mercantile occupancies. The employee facilities shall be either separate facilities or combined employee and public facilities. The required toilet facilities shall be located not more than one story above or below the employees' work area and the path of travel to such facilities, in other than covered malls, shall not exceed a distance of 500 feet (152,400 mm). The path of travel to required facilities in covered malls shall not exceed a distance of 300 feet (91,440 mm).*

Exception: *Employee toilet facilities shall not be required in tenant spaces where the travel distance from the main entrance of the tenant space to a central toilet area does not exceed 300 feet (91,440 mm) and such central toilet facilities are located not more than one story above or below the tenant space.*

403.6 Public facilities. *Customers, patrons and visitors shall be provided with public toilet facilities in structures and tenant spaces intended for public utilization. Public toilet facilities shall be located not more than one story above or below the space required to be provided with public toilet facilities and the path of travel to such facilities shall not exceed a distance of 500 feet (152 m).*

Exception: *Public utilization of toilet facilities shall not be required for establishments less than 10,000 square feet in Occupancy Groups B or M.*

403.6.1 Covered malls. *In covered mall buildings, the path of travel to required toilet facilities shall not exceed a distance of 300 feet (91 440 mm). Facilities shall be installed in each individual store or in a central toilet area located in accordance with this section. The maximum travel distance to the central toilet facilities in covered mall buildings shall be measured from the main entrance of any store or tenant space.*

403.6.2 Pay facilities. *Where pay facilities are installed, such facilities shall be in excess of the required minimum facilities. Required facilities shall be free of charge.*

403.7 Signage. *Required public facilities shall be designated by a legible sign for each sex. Signs shall be readily visible and located near the entrance to each toilet facility.*

SECTION PC 404
ACCESSIBLE PLUMBING FACILITIES

404.1 Where required. *Accessible plumbing facilities and fixtures shall be provided in accordance with the New York city building code.*

SECTION PC 405
INSTALLATION OF FIXTURES

405.1 Water supply protection. *The supply lines and fittings for every plumbing fixture shall be installed so as to prevent backflow.*

405.2 Access for cleaning. *Plumbing fixtures shall be installed so as to afford easy access for cleaning both the fixture and the area around the fixture.*

405.3 Setting. *Fixtures shall be set level and in proper alignment with reference to adjacent walls.*

405.3.1 Water closets, urinals, lavatories and bidets. *A water closet, urinal, lavatory or bidet shall not be set closer than 15 inches (381 mm) from its center to any side wall, partition, vanity or other obstruction, or closer than 30 inches (762 mm) center-to-center between water closets, urinals or adjacent fixtures. There shall be at least a 21 inch (533 mm) clearance in front of the water closet, urinal or bidet to any wall, fixture or door. Water closet compartments shall not be less than 30 inches (762 mm) wide or 60 inches (1524 mm) deep. There shall be at least a 21 inch (533 mm) clearance in front of a lavatory to any wall,*

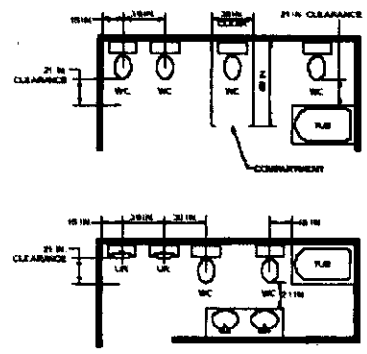

FIGURE 405.3.1
FIXTURE CLEARANCE

fixture or door (see Figure 405.3.1).

405.3.2 Public lavatories. *In employee and public toilet rooms, the required lavatory shall be located in the same room as the required water closet.*

405.4 Floor and wall drainage connections. *Connections between the drain and floor outlet plumbing fixtures shall be made with a floor flange. The flange shall be attached to the drain and anchored to the structure. Connections between the drain and wall-hung water closets shall be made with an approved extension nipple or horn adapter. The water closet shall be bolted to the hanger with corrosion-resistant bolts or screws. Joints shall be sealed with an approved elastomeric gasket, flange-to-fixture connection complying with ASME A112.4.3 or setting compound conforming to FS TT-P-1536A.*

405.4.1 Floor flanges. *Floor flanges for water closets or similar fixtures shall not be less than 0.125 inch (3.2 mm) thick for brass, 0.25 inch (6.4 mm) thick for plastic, and 0.25 inch (6.4 mm) thick and not less than a 2 inch (51 mm) caulking depth for cast-iron or galvanized malleable iron.*

Floor flanges of hard lead shall weigh not less than 1 pound, 9 ounces (0.7 kg) and shall be composed of lead alloy with not less than 7.75 percent antimony by weight. Closet screws and bolts shall be of brass. Flanges shall be secured to the building structure with corrosion-resistant screws or bolts.

405.4.2 Securing floor outlet fixtures. *Floor outlet fixtures shall be secured to the floor or floor flanges by screws or bolts of corrosion-resistant material.*

405.4.3 Securing wall-hung water closet bowls. *Wall-hung water closet bowls shall be supported by a concealed metal carrier that is attached to the building structural members so that strain is not transmitted to the closet connector or any other part of the plumbing system. The carrier shall conform to ASME A112.6.1M or ASME A112.6.2.*

405.5 Water-tight joints. *Joints formed where fixtures come in contact with walls or floors shall be sealed.*

405.6 Plumbing in mental health centers. *In mental health centers, pipes or traps shall not be exposed, and fixtures shall be bolted through walls.*

405.7 Design of overflows. *Where any fixture is provided with an overflow, the waste shall be designed and installed so that standing water in the fixture will not rise in the overflow when the stopper is closed, and no water will remain in the overflow when the fixture is empty.*

405.7.1 Connection of overflows. *The overflow from any fixture shall discharge into the drainage system on the inlet or fixture side of the trap.*

Exception: *The overflow from a flush tank serving a water closet or urinal shall discharge into the fixture served.*

405.8 Slip joint connections. *Slip joints shall be made with an approved elastomeric gasket and shall only be installed on the trap outlet, trap inlet and within the trap seal. Fixtures with concealed slip-joint connections shall be provided with an access panel or utility space at least 12 inches (305 mm) in its smallest dimension or other approved arrangement so as to provide access to the slip joint connections for inspection and repair.*

405.9 Design and installation of plumbing fixtures. *Integral fixture fitting mounting surfaces on manufactured plumbing fixtures or plumbing fixtures constructed on site, shall meet the design requirements of ASME A112.19.2M or ASME A112.19.3M.*

SECTION PC 406
AUTOMATIC CLOTHES WASHERS

406.1 Approval. *All automatic clothes washers shall conform to ASSE 1007*

406.2 Water connection. *The water supply to an automatic clothes washer shall be protected against backflow by an air gap installed integrally within the machine conforming to ASSE 1007 or with the installation of a backflow preventer in accordance with Section PC 608.*

406.3 Waste connection. *The waste from an automatic clothes washer shall discharge through an air break into a standpipe in accordance with Section 802.4 or into a laundry sink. The trap and fixture drain for an automatic clothes washer standpipe shall be a minimum of 2 inches (51 mm) in diameter. The automatic clothes washer fixture drain shall connect to a branch drain or drainage stack a minimum of 3 inches (76 mm) in diameter.*

SECTION PC 407
BATHTUBS

407.1 Approval. *Bathtubs shall conform to ANSI Z124.1, ASME A112.19.1M, ASME A112.19.4M, ASME A112.19.9M, CSA B45.2, CSA B45.3 or CSA B45.5.*

407.2 Bathtub waste outlets. *Bathtubs shall have waste outlets a minimum of 1.5 inches (38 mm) in diameter. The waste outlet shall be equipped with an approved stopper.*

407.3 Glazing. *Windows and doors within a bathtub enclosure shall conform to the safety glazing requirements of the New York city building code.*

407.4 Bathtub enclosure. *Doors within a bathtub enclosure shall conform to ASME A112.19.15.*

SECTION PC 408

BIDETS

408.1 Approval. *Bidets shall conform to ASME A112.19.2M, ASME A112.19.9M or CSA B45.1.*

408.2 Water connection. *The water supply to a bidet shall be protected against backflow by an air gap or backflow preventer in accordance with Sections 608.13.1, 608.13.2, 608.13.3, 608.13.5, 608.13.6 or 608.13.8.*

SECTION PC 409
DISHWASHING MACHINES

409.1 Approval. *Domestic dishwashing machines shall conform to ASSE 1006. Commercial dishwashing machines shall conform to ASSE 1004 and NSF 3.*

409.2 Water connection. *The water supply to a dishwashing machine shall be protected against backflow by an air gap or backflow preventer in accordance with Section PC 608.*

409.3 Waste connection. *The waste connection of a dishwashing machine shall comply with Sections 802.1.6 or 802.1.7, as applicable.*

SECTION PC 410
DRINKING FOUNTAINS

410.1 Approval. *Drinking fountains shall conform to ASME A112.19.1M, ASME A112.19.2M or ASME A112.19.9M, and water coolers shall conform to ARI 1010. Drinking fountains and water coolers shall conform to NSF 61, Section 9. Where water is served in restaurants, drinking fountains shall not be required. In other occupancies, where drinking fountains are required, bottled water dispensers shall be permitted to be substituted for not more than 50 percent of the required drinking fountains.*

410.2 Prohibited location. *Drinking fountains shall not be installed in public restrooms.*

SECTION PC 411
EMERGENCY SHOWERS AND EYEWASH STATIONS

411.1 Approval. *Emergency showers and eyewash stations shall conform to ISEA Z358.1.*

411.2 Waste connection. *Waste connections shall not be required for emergency showers and eyewash stations.*

SECTION PC 412
FLOOR AND TRENCH DRAINS

412.1 Approval. *Floor drains shall conform to ASME A112.6.3, ASME A112.3.1 or CSA B79. Trench drains shall comply with ASME A112.6.3.*

412.2 Floor drain trap and strainer. *Floor drain traps shall have removable strainers. The strainer shall have a waterway area of not less than the area of the tailpiece. The floor drain shall be constructed so that the drain is capable of being cleaned. Access shall be provided to the drain inlet.*

412.3 Size of floor drains. *Floor drains shall have a minimum 3 inch (76 mm) diameter drain outlet.*

412.4 Public laundries and central washing facilities. *In public coin-operated laundries and in the central washing facilities of multiple-family dwellings, the rooms containing automatic clothes washers shall be provided with floor drains located to readily drain the entire floor area. Such drains shall have a minimum 3 inch (76 mm) diameter drain outlet and be provided with lint strainers.*

SECTION PC 413
FOOD WASTE GRINDER UNITS

413.1 Approval. *Domestic food waste grinders shall conform to ASSE 1008. Food waste grinders shall not increase the drainage fixture unit load on the sanitary drainage system.*

413.2 Domestic food waste grinder waste outlets. *Domestic food waste grinders shall be connected to a drain of not less than 2 inches (51 mm) in diameter.*

413.3 Reserved.

413.4 Water supply required. *All food waste grinders shall be provided with a supply of cold water.*

SECTION PC 414
GARBAGE CAN WASHERS

414.1 Water connection. *The water supply to a garbage can washer shall be protected against backflow by an air gap or a backflow preventer in accordance with Section 608.13.1, 608.13.2, 608.13.3, 608.13.5, 608.13.6 or 608.13.8.*

414.2 Waste connection. *Garbage can washers shall be trapped separately. The receptacle receiving the waste from the washer shall have a removable basket or strainer to prevent the discharge of large particles into the drainage system.*

SECTION PC 415
LAUNDRY TRAYS

415.1 Approval. *Laundry trays shall conform to ANSI Z124.6, ASME A112.19.1M, ASME A112.19.3M, ASME A112.19.9M, CSA B45.2 or CSA B45.4.*

415.2 Waste outlet. *Each compartment of a laundry tray shall be provided with a waste outlet a minimum of 1.5 inches (38 mm) in diameter and a strainer or crossbar to restrict the clear opening of the waste outlet.*

SECTION 416
LAVATORIES

416.1 Approval. *Lavatories shall conform to ANSI Z124.3, ASME A112.19.1M, ASME A112.19.2M, ASME A112.19.3M, ASME A112.19.4M, ASME A112.19.9M, CSA B45.1, CSA B45.2, CSA B45.3 or CSA B45.4. Group wash-up equipment shall conform to the requirements of Section PC 402. Every 20 inches (508 mm) of rim space shall be considered as one lavatory.*

416.2 Cultured marble lavatories. *Cultured marble vanity tops with an integral lavatory shall conform to ANSI Z124.3 or CSA B45.5.*

416.3 Lavatory waste outlets. *Lavatories shall have waste outlets not less than 1.25 inches (32 mm) in diameter. A strainer, pop-up stopper, crossbar or other device shall be provided to restrict the clear opening of the waste outlet.*

416.4 Moveable lavatory systems. *Moveable lavatory systems shall comply with ASME A112.19.12.*

SECTION PC 417
SHOWERS

417.1 Approval. *Prefabricated showers and shower compartments shall conform to ANSI Z124.2, ASME A112.19.9M or CSA B45.5. Shower valves for individual showers shall conform to the requirements of Section 424.4.*

417.2 Water supply riser. *Every water supply riser from the shower valve to the shower head outlet, whether exposed or not, shall be attached to the structure in an approved manner.*

417.3 Shower waste outlet. *Waste outlets serving showers shall be at least 2 inches (51 mm) in diameter and, for other than waste outlets in bathtubs, shall have removable strainers not less than 3 inches (76 mm) in diameter with strainer openings not less than 0.25 inch (6.4 mm) in minimum dimension. Where each shower space is not provided with an individual waste outlet, the waste outlet shall be located and the floor pitched so that waste from one shower does not flow over the floor area serving another shower. Waste outlets shall be fastened to the waste pipe in an approved manner.*

417.4 Shower compartments. *All shower compartments shall have a minimum of 900 square inches (0.58 m^2) of interior cross-sectional area. Shower compartments shall not be less than 30 inches (762 mm) in minimum dimension measured from the finished interior dimension of the compartment, exclusive of fixture valves, showerheads, soap dishes, and safety grab bars or rails. Except as required in Section PC 404, the minimum required area and dimension shall be measured from the finished interior dimension at a height equal to the top of the threshold and at a point tangent to its centerline and shall be continued to a height not less than 70 inches (1778 mm) above the shower drain outlet.*

> ***417.4.1 Wall area.*** *The wall area above built-in tubs with installed shower heads and in shower compartments shall be constructed of smooth, noncorrosive and nonabsorbent waterproof materials to a height not less than 6 feet (1829 mm) above the room floor level, and not less than 70 inches (1778 mm) where measured from the compartment floor at the drain. Such walls shall form a water-tight joint with each other and with either the tub, receptor or shower floor.*

417.5 Shower floors or receptors. *Floor surfaces shall be constructed of impervious, noncorrosive, nonabsorbent and waterproof materials.*

417.6 Glazing. *Windows and doors within a shower enclosure shall conform to the safety glazing requirements of the New York city building code.*

SECTION PC 418
SINKS

418.1 Approval. *Sinks shall conform to ANSI Z124.6, ASME A112.19.1M, ASME A112.19.2M, ASME A112.19.3M, ASME A112.19.4M, ASME A112.19.9M, CSA B45.1, CSA B45.2, CSA B45.3 or CSA B45.4.*

418.2 Sink waste outlets. *Sinks shall be provided with waste outlets a minimum of 2 inches (51mm) in diameter. A strainer or crossbar shall be provided to restrict the clear opening of the waste outlet.*

418.3 Moveable sink systems. *Moveable sink systems shall comply with ASME A112.19.12.*

SECTION PC 419
URINALS

419.1 Approval. *Urinals shall conform to ASME A112.19.2M, CSA B45.1 or CSA B45.5. Urinals shall conform to the water consumption requirements of Section 604.4. Urinals shall conform to the hydraulic performance requirements of ASME A112.19.6, CSA B45.1 or CSA B45.5.*

419.2 Substitution for water closets. *In each bathroom or toilet room, urinals shall not be substituted for more than 50 percent of the required water closets.*

419.3 Surrounding material. *Wall and floor space to a point 2 feet (610 mm) in front of a urinal lip and 4 feet (1219 mm) above the floor and at least 2 feet (610 mm) to each side of the urinal shall be waterproofed with a smooth, readily cleanable, nonabsorbent material.*

SECTION PC 420
WATER CLOSETS

420.1 Approval. *Water closets shall conform to the water consumption requirements of Section 604.4 and shall conform to ANSI Z124.4, ASME A112.19.2M, CSA B45.1, CSA B45.4 or CSA B45.5. Water closets shall conform to the hydraulic performance requirements of ASME A112.19.6. Water closet tanks shall conform to ANSI Z124.4, ASME A112.19.2, ASME A112.19.9M, CSA B45.1, CSA B45.4 or CSA B45.5. Electro-hydraulic water closets shall comply with ASME A112.19.13.*

420.2 Water closets for public or employee toilet facilities. *Water closet bowls for public or employee toilet facilities shall be of the elongated type.*

420.3 Water closet seats. *Water closets shall be equipped with seats of smooth, nonabsorbent material. All seats of water closets provided for public or employee toilet facilities shall be of the hinged open-front type. Integral water closet seats shall be of the same material as the fixture. Water closet seats shall be sized for the water closet bowl type.*

420.4 Water closet connections. *A 4-inch by 3-inch (102 mm by 76 mm) closet bend shall be acceptable. Where a 3-inch (76 mm) bend is utilized on water closets, a 4-inch by 3-inch (102 mm by 76 mm) flange shall be installed to receive the fixture horn.*

420.5 Water closets for children's use. *In nurseries, schools, and similar places where plumbing fixtures are provided for the use of children under six years of age, such water closets shall be of a size and height suitable for the children's use.*

SECTION PC 421
WHIRLPOOL BATHTUBS

421.1 Approval. *Whirlpool bathtubs shall comply with ASME A112.19.7M or with CSA B45.5 and CSA B45 (Supplement 1).*

421.2 Installation. *Whirlpool bathtubs shall be installed and tested in accordance with the manufacturer's installation instructions. The pump shall be located above the weir of the fixture trap. Access shall be provided to the pump.*

421.3 Drain. *The pump drain and circulation piping shall be sloped to drain the water in the volute and the circulation piping when the whirlpool bathtub is empty.*

421.4 Suction fittings. *Suction fittings for whirlpool bathtubs shall comply with ASME A112.19.8M.*

421.5 Whirlpool enclosure. *Doors within a whirlpool enclosure shall conform to ASME A112.19.15.*

SECTION PC 422
HEALTH CARE FIXTURES AND EQUIPMENT

422.1 Scope. *This section shall govern those aspects of health care plumbing systems that differ from plumbing systems in other structures. Health care plumbing systems shall conform to the requirements of this section in addition to the other requirements of this code. The provisions of this section shall apply to the special devices and equipment installed and maintained in the following occupancies: nursing homes, homes for the aged, orphanages, infirmaries, first aid stations, psychiatric facilities, clinics, professional offices of dentists and doctors, mortuaries, educational facilities, surgery, dentistry, research and testing laboratories, establishments manufacturing pharmaceutical drugs and medicines, and other structures with similar apparatus and equipment classified as plumbing.*

422.2 Approval. *All special plumbing fixtures, equipment, devices and apparatus shall be of an approved type.*

422.3 Protection. *All devices, appurtenances, appliances and apparatus intended to serve some special function, such as sterilization, distillation, processing, cooling, or storage of ice or foods, and that connect to either the water supply or drainage system, shall be provided with protection against backflow, flooding, fouling, contamination of the water supply system and stoppage of the drain.*

422.4 Materials. *Fixtures designed for therapy, special cleansing or disposal of waste materials, combinations of such purposes, or any other special purpose, shall be of smooth, impervious, corrosion-resistant materials and, where subjected to temperatures in excess of 180°F (82°C), shall be capable of withstanding, without damage, higher temperatures.*

422.5 Access. *Access shall be provided to concealed piping in connection with special fixtures where such piping contains steam traps, valves, relief valves, check valves, vacuum breakers or other similar items that require periodic inspection, servicing, maintenance or repair. Access shall be provided to concealed piping that requires periodic inspection, maintenance or repair.*

422.6 Clinical sink. *A clinical sink shall have an integral trap in which the upper portion of a visible trap seal provides a water surface. The fixture shall be designed so as to permit complete removal of the contents by siphonic or blowout action and to reseal the trap. A flushing rim shall provide water to cleanse the interior surface. The fixture shall have the flushing and cleansing characteristics of a water closet.*

422.7 Prohibited usage of clinical sinks and service sinks. *A clinical sink serving a soiled utility room shall not be considered as a substitute for, or be utilized as, a service sink. A service sink shall not be utilized for the disposal of urine, fecal matter or other human waste.*

422.8 Ice prohibited in soiled utility room. *Machines for manufacturing ice, or any device for the handling or storage of ice, shall not be located in a soiled utility room.*

422.9 Sterilizer equipment requirements. *The approval and installation of all sterilizers shall conform to the requirements of the New York city mechanical code.*

> ***422.9.1 Sterilizer piping.*** *Access for the purposes of inspection and maintenance shall be provided to all sterilizer piping and devices necessary for the operation of sterilizers.*
>
> ***422.9.2 Steam supply.*** *Steam supplies to sterilizers, including those connected by pipes from overhead mains or branches, shall be drained to prevent any moisture from reaching the sterilizer. The condensate drainage from the steam supply shall be discharged by gravity.*
>
> ***422.9.3 Steam condensate return.*** *Steam condensate returns from sterilizers shall be a gravity return system.*
>
> ***422.9.4 Condensers.*** *Pressure sterilizers shall be equipped with a means of condensing and cooling the exhaust steam vapors. Nonpressure sterilizers shall be equipped with a device that will automatically control the vapor, confining the vapors within the vessel.*

422.10 Special elevations. *Control valves, vacuum outlets and devices protruding from a wall of an operating, emergency, recovery, examining or delivery room, or in a corridor or other location where patients are transported on a wheeled stretcher, shall be located at an elevation that prevents bumping the patient or stretcher against the device.*

SECTION PC 423
SPECIALTY PLUMBING FIXTURES

423.1 Water connections. *Baptisteries, ornamental and lily pools, aquariums, ornamental fountain basins, swimming pools, and similar constructions, where provided with water supplies, shall be protected against backflow in accordance with Section PC 608.*

423.2 Approval. *Specialties requiring water and waste connections shall be submitted for approval.*

SECTION PC 424
FAUCETS AND OTHER FIXTURE FITTINGS

424.1 Approval. Faucets and fixture fittings shall conform to ASME A112.18.1 or CSA B125. Faucets and fixture fittings that supply drinking water for human ingestion shall conform to the requirements of NSF 61, section 9. Flexible water connectors exposed to continuous pressure shall conform to the requirements of Section 605.6.

424.1.1 Faucets and supply fittings. Faucets and supply fittings shall conform to the water consumption requirements of Section 604.4.

424.1.2 Waste fittings. Waste fittings shall conform to one of the standards listed in Tables 702.1 and 702.4 for above-ground drainage and vent pipe and fittings, or the waste fittings shall be constructed of tubular stainless steel with a minimum wall thickness of 0.012 inch (0.30 mm), tubular copper alloy having a minimum wall thickness of 0.027 inch (0.69 mm) or tubular plastic complying with ASTM F 409.

424.2 Hand showers. Hand-held showers shall conform to ASSE 1014 or CSA B125.

424.3 Shower and tub valves. Shower, tub and shower-tub combination valves shall be balanced pressure, thermostatic or combination balanced-pressure/thermostatic valves that conform to the requirements of ASSE 1016 or CSA B125. Multiple (gang) showers supplied with a single tempered water supply pipe shall have the water supply for such showers controlled by a master thermostatic mixing valve complying with ASSE 1017. Shower, tub and shower-tub combination valves and master thermostatic mixing valves required by this section shall be equipped with a means to limit the maximum setting of the valve to 120°F (49°C), which shall be field adjusted in accordance with the manufacturer's instructions.

424.4 Hose-connected outlets. Faucets and fixture fittings with hose-connected outlets shall conform to ASME A112.18.3M.

424.5 Temperature-actuated, flow reduction valves for individual fixture fittings. Temperature-actuated, flow reduction devices, where installed for individual fixture fittings, shall conform to ASSE 1062. Such valves shall not be used alone as a substitute for the balanced pressure, thermostatic or combination shower valves required in Section 424.3.

424.6 Transfer valves. Deck-mounted bath/shower transfer valves containing an integral atmospheric vacuum breaker shall conform to the requirements of ASME A112.18.7.

SECTION PC 425
FLUSHING DEVICES FOR WATER CLOSETS AND URINALS

425.1 Flushing devices required. Each water closet, urinal, clinical sink and any plumbing fixture that depends on trap siphonage to discharge the fixture contents to the drainage system shall be provided with a flushometer valve, flushometer tank or a flush tank designed and installed to supply water in quantity and rate of flow to flush the contents of the fixture, cleanse the fixture and refill the fixture trap.

425.1.1 Separate for each fixture. A flushing device shall not serve more than one fixture.

425.2 Flushometer valves and tanks. Flushometer valves and tanks shall comply with ASSE 1037. Vacuum breakers on flushometer valves shall conform to the performance requirements of ASSE 1001 or CAN/CSA-B64.1.1. Access shall be provided to vacuum breakers. Flushometer valves shall be of the water-conservation type and shall not be utilized where the water pressure is lower than the minimum required for normal operation. When operated, the valve shall automatically complete the cycle of operation, opening fully and closing positively under the water supply pressure. Each flushometer valve shall be provided with a means for regulating the flow through the valve. The trap seal to the fixture shall be automatically refilled after each valve flushing cycle.

425.3 Flush tanks. Flush tanks equipped for manual flushing shall be controlled by a device designed to refill the tank after each discharge and to shut off completely the water flow to the tank when the tank is filled to operational capacity. The trap seal to the fixture shall be automatically refilled after each flushing. The water supply to flush tanks equipped for automatic flushing shall be controlled with a timing device or sensor control devices.

425.3.1 Fill valves. All flush tanks shall be equipped with an antisiphon fill valve conforming to ASSE 1002 or CSA B125. The fill valve backflow preventer shall be located at least 1 inch (25 mm) above the full opening of the overflow pipe.

425.3.2 Overflows in flush tanks. Flush tanks shall be provided with overflows discharging to the water closet or urinal connected thereto and shall be sized to prevent flooding the tank at the maximum rate at which the tanks are supplied with water according to the manufacturer's design conditions. The opening of the overflow pipe shall be located above the flood level rim of the water closet or urinal or above a secondary overflow in the flush tank.

425.3.3 Sheet copper. Sheet copper utilized for flush tank linings shall conform to ASTM B 152 and shall not weigh less than 10 ounces per square foot (0.03 kg/m^2).

425.3.4 Access required. All parts in a flush tank shall be accessible for repair and replacement.

425.4 Not included in the IPC.

425.5 Flush pipes and fittings. Flush pipes and fittings shall be of nonferrous material and shall conform to ASME A112.19.5 or CSA B125.

SECTION PC 426
MANUAL FOOD AND BEVERAGE DISPENSING EQUIPMENT

426.1 Approval. Manual food and beverage dispensing equipment shall conform to the requirements of NSF 18.

SECTION PC 427
FLOOR SINKS

427.1 Approval. Sanitary floor sinks shall conform to the requirements of ASME A112.6.7.

CHAPTER 5
WATER HEATERS

SECTION PC 501
GENERAL

501.1 Scope. The provisions of this chapter shall govern the materials, design and installation of water heaters and the related safety devices and appurtenances.

501.2 Water heater as space heater. Where a combination potable water heating and space heating system requires water for space heating at temperatures higher than 140°F (60°C), a master thermostatic mixing valve complying with ASSE 1017 shall be provided to limit the water supplied to the potable hot water distribution system to a temperature of 140°F (60°C) or less. The potability of the water shall be maintained throughout the system.

501.3 Drain valves. Drain valves for emptying shall be installed at the bottom of each tank-type water heater and hot water storage tank. Drain valves shall conform to ASSE 1005.

501.4 Location. Water heaters and storage tanks shall be located and connected so as to provide access for observation, maintenance, servicing and replacement.

501.5 Water heater labeling. All water heaters shall be third-party certified.

501.6 Water temperature control in piping from tankless heaters. The temperature of water from tankless water heaters shall be a maximum of 140°F (60°C) when intended for domestic uses. This provision shall not supersede the requirement for protective shower valves in accordance with Section 424.3.

501.7 Pressure marking of storage tanks. Storage tanks and water heaters installed for domestic hot water shall have the maximum allowable working pressure clearly and indelibly stamped in the metal or marked on a plate welded thereto or otherwise permanently attached. Such markings shall be in an accessible position outside of the tank so as to make inspection or reinspection readily possible.

501.8 Temperature controls. All hot water supply systems shall be equipped with automatic temperature controls capable of adjustments from the lowest to the highest acceptable temperature settings for the intended temperature operating range.

SECTION PC 502
INSTALLATION

502.1 General. Water heaters shall be installed in accordance with the manufacturer's installation instructions. Oil-fired water heaters shall conform to the requirements of this code and the New York city mechanical code. Electric water heaters shall conform to the requirements of this code and provisions of the New York city electrical code . Gas-fired water heaters shall conform to the requirements of the New York city fuel gas code.

502.2 Rooms used as a plenum. Water heaters using solid, liquid or gas fuel shall not be installed in a room containing air-handling machinery when such room is used as a plenum.

502.3 Water heaters installed in attics. Electric water heaters only shall be installed in attics. An attic containing a water heater shall be provided with an opening and unobstructed passageway large enough to allow removal of the water heater. The passageway shall not be less than 30 inches (762 mm) high and 22 inches (559 mm) wide and not more than 20 feet (6096 mm) in length when measured along the centerline of the passageway from the opening to the water heater. The passage way shall have continuous solid flooring not less than 24 inches (610 mm) wide. A level service space at least 30 inches (762 mm) deep and 30 inches (762 mm) wide shall be present at the front or service side of the water heater. The clear access opening dimensions shall be a minimum of 20 inches by 30 inches (508 mm by 762 mm) where such dimensions are large enough to allow removal of the water heater.

502.4 Seismic supports. Where earthquake loads are applicable in accordance with the New York city building code, water heater supports shall be designed and installed for the seismic forces in accordance with the New York city building code.

SECTION PC 503
CONNECTIONS

503.1 Cold water line valve. The cold water branch line from the main water supply line to each hot water storage tank or water heater shall be provided with a valve, located near the equipment and serving only the hot water storage tank or water heater. The valve shall not interfere or cause a disruption of the cold water supply to the remainder of the cold water system. The valve shall be provided with access on the same floor level as the water heater served.

503.2 Water circulation. The method of connecting a circulating water heater to the tank shall provide proper circulation of water through the water heater. The pipe or tubes required for the installation of appliances that will draw from the water heater or storage tank shall comply with the provisions of this code for material and installation.

SECTION PC 504
SAFETY DEVICES

504.1 Antisiphon devices. An approved means, such as a cold water "dip" tube with a hole at the top or a vacuum relief valve installed in the cold water supply line above the top of the heater or tank, shall be provided to prevent siphoning of any storage water heater or tank.

504.2 Vacuum relief valve. Bottom fed water heaters and bottom fed tanks connected to water heaters shall have a vacuum relief valve installed. The vacuum relief valve shall comply with ANSI Z21.22.

504.3 Shutdown. A means for disconnecting an electric hot water supply system from its energy supply shall be provided in accordance with the New York city electrical code. A separate valve shall be provided to shut off the energy fuel supply to all other types of hot water supply systems.

504.4 Relief valve. All storage water heaters operating above atmospheric pressure shall be provided with an approved, self-closing (levered) pressure relief valve and temperature relief valve or combination thereof. The relief valve shall conform to ANSI Z21.22. The relief valve shall not be used as a means of controlling thermal expansion.

504.4.1 Installation. Such valves shall be installed in the shell of the water heater tank. Temperature relief valves shall be so located in the tank as to be actuated by the water in the top 6 inches (152 mm) of the tank served. For installations with separate storage tanks, the valves shall be installed on the tank and there shall not be any type of valve installed between the water heater and the storage tank. There shall not be a check valve or shutoff valve between a relief valve and the heater or tank served.

504.5 Relief valve approval. Temperature and pressure relief valves, or combinations thereof, and energy cutoff devices shall bear the label of an approved agency and shall have a temperature setting of not more than 210°F (99°C) and a pressure setting not exceeding the tank or water heater manufacturer's rated working pressure or 150 psi (1035 kPa), whichever is less. The relieving capacity of each pressure relief valve and each temperature relief valve shall equal or exceed the heat input to the water heater or storage tank.

504.6 Relief outlet waste. The outlet of a pressure, temperature or other relief valve shall not be directly connected to the drainage system.

504.6.1 Discharge. The relief valve shall discharge full size to a safe place of disposal such as the floor, outside the building, or an indirect waste receptor. The discharge pipe shall not have any trapped sections and shall have a visible air gap or air gap fitting located in the same room as the water heater. The outlet end of the discharge pipe shall not be threaded and such discharge pipe shall not have a valve or tee installed. Relief valve piping shall be piped independent of other equipment drains or relief valve discharge piping to the disposal point. Such pipe shall be installed in a manner that does not cause personal injury to occupants in the immediate area or structural damage to the building.

504.6.2 Materials. Relief valve discharge piping shall be of those materials listed in Section 605.5 or shall be tested, rated and approved for such use in accordance with ASME A112.4.1. Piping from safety pan drains shall be of those materials listed in Table 605.4.

504.7 Required pan. Where water heaters or hot water storage tanks are installed in locations where leakage of the tanks or connections will cause damage, the tank or water heater shall be installed in a galvanized steel pan having a minimum thickness of 24 gage, or other pans approved for such use.

504.7.1 Pan size and drain. The pan shall be not less than 1.5 inches (38 mm) deep and shall be of sufficient size and shape to receive all dripping or condensate from the tank or water heater. The pan shall be drained by an indirect waste pipe having a minimum diameter of ¾ inch (19 mm).

504.7.2 Pan drain termination. The pan drain shall extend full-size and terminate over a suitably located indirect waste receptor or floor drain or extend to the exterior of the building and terminate not less than 6 inches (152 mm) and not more than 24 inches (610 mm) above the adjacent ground surface.

504.8 Flow sensing switch. On copper fin tube, gas fired domestic hot water heaters, a flow switch shall be provided to interrupt the gas supply to the heater in the event water flow through the coil is interrupted.

SECTION PC 505
INSULATION

505.1 Unfired vessel insulation. Unfired hot water storage tanks shall be insulated so that heat loss is limited to a maximum of 15 British thermal units per hour (Btu/h) per square foot (47 W/m^2) of external tank surface area. For purposes of determining this heat loss, the design ambient temperature shall not be higher than 65°F (18°C).

CHAPTER 6
WATER SUPPLY AND DISTRIBUTION

SECTION PC 601
GENERAL

601.1 Scope. This chapter shall govern the materials, design and installation of water supply systems, both hot and cold, for utilization in connection with human occupancy and habitation and shall govern the installation of individual water supply systems.

601.2 Solar energy utilization. Solar energy systems used for heating potable water or using an independent medium for heating potable water shall comply with the applicable requirements of this code. The use of solar energy shall not compromise the requirements for cross connection or protection of the potable water supply system required by this code.

601.3 Existing piping used for grounding. Existing metallic water service piping used for electrical grounding shall not be replaced with nonmetallic pipe or tubing until other approved means of grounding is provided.

601.4 Tests. The potable water distribution system shall be tested in accordance with Section 312.5.

601.5 Water Supply. Water supply infrastructure to the building shall be applied for and regulated by the city department of environmental protection.

SECTION PC 602
WATER REQUIRED

602.1 General. Every structure equipped with plumbing fixtures and utilized for human occupancy or habitation shall be provided with a potable supply of water in the amounts and at the pressures specified in this chapter.

602.2 Potable water required. Only potable water shall be supplied to plumbing fixtures that provide water for drinking, bathing or culinary purposes, or for the processing of food, medical or pharmaceutical products. Unless otherwise provided in this code, potable water shall be supplied to all plumbing fixtures.

602.3 Individual water supply. Where a potable public water supply is not available, individual sources of potable water supply shall be utilized.

602.3.1 Sources. Dependent on geological and soil conditions and the amount of rainfall, individual water supplies are of the following types: drilled well, driven well, dug well, bored well, or cistern. Surface bodies of water and land cisterns shall not be sources of individual water supply unless properly treated by approved means to prevent contamination.

602.3.2 Minimum quantity. The combined capacity of the source and storage in an individual water supply system shall supply the fixtures with water at rates and pressures as required by this chapter.

602.3.3 Water quality. Water from an individual water supply shall be approved as potable by the authority having jurisdiction prior to connection to the plumbing system.

602.3.4 Disinfection of system. After construction or major repair, the individual water supply system shall be purged of deleterious matter and disinfected in accordance with Section PC 610.

602.3.5 Pumps. Pumps shall be rated for the transport of potable water. Pumps in an individual water supply system shall be constructed and installed so as to prevent contamination from entering a potable water supply through the pump units. Pumps shall be sealed to the well casing or covered with a water-tight seal. Pumps shall be designed to maintain a prime and installed such that ready access is provided to the pump parts of the entire assembly for repairs.

602.3.5.1 Pump enclosure. The pump room or enclosure around a well pump shall be drained and protected from freezing by heating or other approved means. Where pumps are installed in basements, such pumps shall be mounted on a block or shelf not less than 18 inches (457 mm) above the basement floor. Well pits shall be prohibited.

SECTION PC 603
WATER SERVICE

603.1 Size of water service pipe. The water service pipe shall be sized to supply water to the structure in the quantities and at the pressures required in this code. The minimum diameter of water service pipe shall be 1 inch (25mm).

603.2 Separation of water service and building sewer. Water service pipe and the building sewer shall be separated by 5 feet (1524 mm) of undisturbed or compacted earth.

Exceptions:

1. The required separation distance shall not apply where the bottom of the water service pipe within 5 feet (1524 mm) of the sewer is a minimum of 12 inches (305 mm) above the top of the highest point of the sewer and the pipe materials conform to Section 703.1.
2. Water service pipe is permitted to be located in the same trench with a building sewer, provided such sewer is constructed of materials listed in Table 702.2.
3. The required separation distance shall not apply where a water service pipe crosses a sewer pipe provided the water service pipe is sleeved to at least 5 feet (1524 mm) horizontally from the sewer pipe centerline, on both sides of such crossing with pipe materials listed in Table 605.3, Table 702.2 or Table 702.3.

603.2.1 Water service near sources of pollution. Potable water service pipes shall not be located in, under or above cesspools, septic tanks, septic tank drainage fields or seepage pits (see Section 605.1 for soil and groundwater conditions) and shall be separated by a minimum of 10 feet (3048 mm) and shall meet all New York city department of environmental protection requirements.

SECTION PC 604
DESIGN OF BUILDING WATER DISTRIBUTION SYSTEM

604.1 General. The design of the water distribution system shall conform to accepted engineering practice. Methods utilized to determine pipe sizes shall be approved.

604.2 System interconnection. At the points of interconnection between the hot and cold water supply piping systems and the individual fixtures, appliances or devices, provisions shall be made to prevent flow between such piping systems.

604.3 Water distribution system design criteria. The water distribution system shall be designed, and pipe sizes shall be selected such that under conditions of peak demand, the capacities at the fixture supply pipe outlets shall not be less than shown in Table 604.3. The minimum flow rate and flow pressure provided to fixtures and appliances not listed in Table 604.3 shall be in accordance with the manufacturer's installation instructions.

TABLE 604.3
WATER DISTRIBUTION SYSTEM DESIGN CRITERIA
REQUIRED CAPACITY AT FIXTURE SUPPLY PIPE OUTLETS

FIXTURE SUPPLY OUTLET	FLOW RATE[a]	FLOW PRESSU
Bathtub	4	8
Bidet	2	4
Combination fixture	4	8
Dishwasher, residential	2.75	8
Drinking fountain	0.75	8
Laundry tray	4	8
Lavatory	2	8
Shower	3	8
Shower, temperature	3	20
Sillcock, hose bibb	5	8
Sink, residential	2.5	8
Sink, service	3	8
Urinal, valve	15	15
Water closet, blow out, flushometer valve	35	25
Water closet, flushometer	1.6	15
Water closet, siphonic, flushometer valve	25	15
Water closet, tank, close coupled	3	8
Water closet, tank, one	6	20

For SI: 1 pound per square inch = 6.895 kPa, 1 gallon per minute = 3.785 L/m.

or additional requirements for flow rates and quantities, see Section 604.4.

inimum pressures as per manufacturer's recommendations.

604.4 Maximum flow and water consumption. *The maximum water consumption flow rates and quantities for all plumbing fixtures and fixture fittings shall be in accordance with Table 604.4.*

Exceptions:

1. *Blowout design water closets (3.5 gallons (13 L) per flushing cycle).*
2. *Vegetable sprays.*
3. *Clinical sinks (4.5 gallons (17 L) per flushing cycle).*
4. *Service sinks.*
5. *Emergency showers.*

TABLE 604.4
MAXIMUM FLOW RATES AND CONSUMPTION FOR PLUMBING FIXTURES AND FIXTURE FITTINGS

PLUMBING FIXTURE OR FIXTURE FITTING	MAXIMUM FLOW RATE OR QUANTITY[b]
Lavatory, private	2.2 gpm at 60 psi
Lavatory, public, (metering)	0.25 gallon per metering cycle
Lavatory, public (other than metering)	0.5 gpm at 60 psi
Shower head[a]	2.5 gpm at 80 psi
Sink faucet	2.2 gpm at 60 psi
Urinal	1.0 gallon per flushing cycle
Water closet	1.6 gallons per flushing cycle

For SI: 1 gallon = 3.785 L, 1 gallon per minute = 3.785 L/m, 1 pound per square inch = 6.895 kPa.

A hand-held shower spray is a shower head.

b. Consumption tolerances shall be determined from referenced standards.

604.5 Size of fixture supply. *The minimum size of a fixture supply pipe shall be as shown in Table 604.5. The fixture supply pipe shall not terminate more than 24 inches (610 mm) from the point of connection to the fixture. Each fixture supply shall have a stop valve. A reduced-size flexible water connector installed between the supply pipe and the fixture shall be of an approved type. The connector shall be used singularly. Coupling of two or more connectors shall not be allowed. The supply pipe shall extend to the floor or wall adjacent to the fixture. The minimum size of individual distribution lines utilized in parallel water distribution systems shall be as shown in Table 604.5.*

TABLE 604.5
MINIMUM SIZES OF FIXTURE WATER SUPPLY PIPES

FIXTURE	MINIMUM PIPE SIZE (inch)
Bathtubs[a] (60 "x 32 " and smaller	½
Bathtubs[a] (larger than 60 " x 32)	½
Bidet	⅜
Combination sink and tray	½
Dishwasher, domestic[a]	½
Drinking fountain	⅜
Hose bibbs	½
Kitchen sink[a]	½
Laundry, 1, 2 or 3 compartments[a]	½
Lavatory	⅜
Shower, single head[a]	½
Sinks, flushing rim	¾
Sinks, service	½
Urinal, flush tank	½
Urinal, flush valve	¾
Wall hydrant	½
Water closet, flush tank	⅜
Water closet, flush valve	1
Water closet, flushometer tank	⅜
Water closet, one piece[a]	½

For SI: 1 inch = 25.4 mm, 1 foot = 304.8 mm, 1 pound per square inch = 6.895 kPa.

604.6 Variable street pressures. *Where street water main pressures fluctuate, the building water distribution system shall be designed for the minimum pressure available.*

604.7 Inadequate water pressure. *Wherever water pressure from the street main or other source of supply is insufficient to provide flow pressures at fixture outlets as required under Table 604.3, a water pressure booster system conforming to Section 606.5 shall be installed on the building water supply system.*

604.8 Water-pressure reducing valve or regulator. *Where water pressure within a building exceeds 85 psi (586 kPa) static, an approved water-pressure reducing valve conforming to ASSE 1003 with strainer shall be installed to reduce the pressure in the building water distribution piping to 85 psi (586 kPa) static or less.*

Exception: *Service lines to sill cocks and outside hydrants, and main supply risers where pressure from the mains is reduced to 85 psi (586 kPa) or less at individual fixtures.*

604.8.1 Valve design. *The pressure-reducing valve shall be designed to remain open to permit uninterrupted water flow in case of valve failure.*

604.8.2 Repair and removal. *All water-pressure reducing valves, regulators and strainers shall be so constructed and installed as to permit repair or removal of parts without breaking a pipeline or removing the valve and strainer from the pipeline.*

604.9 Water hammer. *The flow velocity of the water distribution system shall be controlled to reduce the possibility of water hammer. A water-hammer arrestor shall be installed where quick-closing valves are utilized. Water-hammer arrestors shall be installed in accordance with the manufacturer's specifications. Water-hammer arrestors shall conform to ASSE 1010 and PDI WH201.*

604.10 Parallel water distribution system manifolds. *Hot water and cold water manifolds installed with parallel connected individual distribution lines to each fixture or fixture fitting shall be designed in accordance with Sections 604.10.1 through 604.10.3.*

604.10.1 Manifold sizing. *Hot water and cold water manifolds shall be sized in accordance with Table 604.10.1. The total gallons per minute is the demand of all outlets supplied.*

TABLE 604.10.1
MANIFOLD SIZING

NOMINAL SIZE INTERNAL DIAMETER (inches)	MAXIMUM DEMAND (gpm)	
	Velocity at 4 feet per second	Velocity at 8 feet per second
½	2	5
¾	6	11
1	10	20
1¼	15	31
1½	22	44

For SI: 1 inch = 25.4 mm, 1 gallon per minute = 3.785 L/m, 1 foot per second = 0.305 m/s.

604.10.2 Valves. *Individual fixture shutoff valves installed at the manifold shall be identified as to the fixture being supplied.*

604.10.3 Access. *Access shall be provided to manifolds.*

604.11 Individual pressure balancing in-line valves for individual fixture fittings. *Where individual pressure balancing in-line valves for individual fixture fittings are installed, such valves shall comply with ASSE 1066. Such valves shall be installed in an accessible location and shall not be utilized alone as a substitute for the balanced pressure, thermostatic or combination shower valves required in Section 424.3.*

SECTION PC 605
MATERIALS, JOINTS AND CONNECTIONS

605.1 Soil and ground water. *The installation of a water service or water distribution pipe shall be prohibited in soil and groundwater contaminated with solvents, fuels, organic compounds or other detrimental materials causing permeation, corrosion, degradation or structural failure of the piping material. Where detrimental conditions are suspected, a chemical analysis of the soil and ground water conditions shall be required to ascertain the acceptability of the water service or water distribution piping material for the specific installation. Where detrimental conditions exist, approved alternative materials or routing shall be required.*

605.2 Reserved.

605.3 Water service pipe. *Water service pipe shall conform to NSF 61 and shall conform to one of the standards listed in Table 605.3. All ductile iron water pipe shall be cement mortar lined in accordance with AWWA C104.*

605.3.1 Dual check-valve-type backflow preventer. *Where a dual check-valve backflow preventer is installed on the water supply system, it shall comply with ASSE 1024.*

TABLE 605.3
WATER SERVICE PIPE

MATERIA	STANDAR

605.4 Water distribution pipe. *Water distribution pipe shall conform to NSF 61 and shall conform to one of the standards listed in Table 605.4.*

TABLE 605.4
WATER DISTRIBUTION PIPE

MATERIA	STANDAR

605.5 Fittings. *Pipe fittings shall be approved for installation with the piping material installed and shall conform to the respective pipe standards or one of the standards listed in Table 605.5. All pipe fittings utilized in water supply systems shall also conform to NSF 61. The fittings shall not have ledges, shoulders or reductions capable of retarding or obstructing flow in the piping. Ductile and gray iron pipe fittings shall be cement mortar lined in accordance with AWWA C104.*

605.5.1 Mechanically formed tee fittings. *Mechanically extracted outlets shall have a height not less than three times the thickness of the branch tube wall.*

605.5.1.1 Full flow assurance. *Branch tubes shall not restrict the flow in the run tube. A dimple/depth stop shall be formed in the branch tube to ensure that penetration into the collar is of the correct depth. For inspection purposes, a second dimple shall be placed 0.25 inch (6.4 mm) above the first dimple. Dimples shall be aligned with the tube run.*

605.5.1.2 Brazed joints. *Mechanically formed tee fittings shall be brazed in accordance with Section 605.14.1.*

TABLE 605.5
PIPE FITTINGS

MATERIAL	STANDARD
Cast-iron	ASME B16.4; ASME B16.12
Copper or copper alloy	ASME B16.15; ASME B16.18; ASME B16.22; ASME B16.23; ASME B16.26; ASME B16.29
Gray iron and ductile iron	AWWA C 110; AWWA C 153
Stainless steel (Type 304/304L)	ASTM A 312; ASTM A 778
Stainless steel (Type 316/316L)	ASTM A 312; ASTM A 778
Steel	ASME B16.9; ASME B16.11; ASME B16.28

605.6 Flexible water connectors. *Flexible water connectors exposed to continuous pressure shall conform to IAPMO PS 74 95 and PS 48 92, shall not exceed 24 inches (610 mm), shall be used in exposed locations only and shall be used singularly, that is, two connectors can not be joined.*

605.7 Valves. *All valves shall be of the approved type and compatible with the type of piping material installed in the system.*

605.8 Manufactured pipe nipples. *Manufactured pipe nipples shall conform to the standard listed in Table 605.8.*

TABLE 605.8
MANUFACTURED PIPE NIPPLES

MATERIAL	STANDARD
Brass-, copper-, chromium-plated	ASTM B 687

605.9 Prohibited joints and connections. *The following types of joints and connections shall be prohibited:*

1. *Cement or concrete joints.*
2. *Joints made with fittings not approved for the specific installation.*
3. *Solvent-cement joints between different types of plastic pipe.*
4. *Saddle-type fittings.*

605.10 and 605.11 Reserved.

605.12 Brass. *Joints between brass pipe or fittings shall comply with Sections 605.12.1 through 605.12.3.*

605.12.1 Brazed joints. *All joint surfaces shall be cleaned. An approved flux shall be applied where required. The joint shall be brazed with a filler metal conforming to AWSA5.8.*

605.12.2 Mechanical joints. *Mechanical joints shall be installed in accordance with the manufacturer's instructions.*

605.12.3 Threaded joints. *Threads shall conform to ASME B1.20.1. Pipe-joint compound or tape shall be applied on the male threads only.*

605.13 Gray iron and ductile iron joints. *Joints for gray and ductile iron pipe and fittings shall comply with AWWA C111 and shall be installed in accordance with the manufacturer's installation instructions.*

605.14 Copper pipe. *Joints between copper or copper-alloy pipe or fittings shall comply with Sections 605.14.1 through 605.14.4.*

605.14.1 Brazed joints. *All joint surfaces shall be cleaned. An approved flux shall be applied where required. The joint shall be brazed with a filler metal conforming to AWS A5.8.*

605.14.2 Mechanical joints. *Mechanical joints shall be installed in accordance with the manufacturer's instructions.*

605.14.3 Soldered joints. *Solder joints shall be made in accordance with the methods of ASTM B 828. All cut tube ends shall be reamed to the full inside diameter of the tube end. All joint surfaces shall be cleaned. A flux conforming to ASTM B 813 shall be applied. The joint shall be soldered with a solder conforming to ASTM B 32. The joining of water supply piping shall be made with lead-free solder and fluxes. "Lead free" shall mean a chemical composition equal to or less than 0.2-percent lead.*

605.14.4 Threaded joints. *Threads shall conform to ASME B1.20.1. Pipe-joint compound or tape shall be applied on the male threads only.*

605.15 Copper tubing. *Joints between copper or copper-alloy tubing or fittings shall comply with Sections 605.15.1 through 605.15.4.*

605.15.1 Brazed joints. *All joint surfaces shall be cleaned. An approved flux shall be applied where required. The joint shall be brazed with a filler metal conforming to AWS A5.8.*

605.15.2 Flared joints. *Flared joints for water pipe shall be made by a tool designed for that operation.*

605.15.3 Mechanical joints. *Mechanical joints shall be installed in accordance with the manufacturer's instructions.*

605.15.4 Soldered joints. *Solder joints shall be made in accordance with the methods of ASTM B 828. All cut tube ends shall be reamed to the full inside diameter of the tube end. All joint surfaces shall be cleaned. A flux conforming to ASTM B 813 shall be applied. The joint shall be soldered with a solder conforming to ASTM B 32. The joining of water supply piping shall be made with lead-free solders and fluxes. "Lead free" shall mean a chemical composition equal to or less than 0.2-percent lead.*

.605.16 through 605.21 Reserved.

605.22 Stainless steel. *Joints between stainless steel pipe and fittings shall comply with Sections 605.22.1 and 605.22.2.*

605.22.1 Mechanical joints. *Mechanical joints shall be installed in accordance with the manufacturer's instructions.*

605.22.2 Welded joints. *All joint surfaces shall be cleaned. The joint shall be welded autogenously or with an approved filler metal as referenced in ASTM A 312.*

605.23 Joints between different materials. *Joints between different piping materials shall be made with a mechanical joint of the compression or mechanical-sealing type, or as permitted in Sections 605.23.1 and 605.23.3. Connectors or adapters shall have an elastomeric seal conforming to ASTM D 1869 or ASTM F 477. Joints shall be installed in accordance with the manufacturer's instructions.*

605.23.1 Copper or copper-alloy tubing to galvanized steel pipe. *Joints between copper or copper-alloy tubing and galvanized steel pipe shall be made with a brass fitting or dielectric fitting. The copper tubing shall be soldered to the fitting in an approved manner, and the fitting shall be screwed to the threaded pipe.*

605.23.2 Reserved.

605.23.3 Stainless steel. *Joints between stainless steel and different piping materials shall be made with a mechanical joint of the compression or mechanical sealing type or a dielectric fitting.*

SECTION PC 606
INSTALLATION OF THE BUILDING WATER DISTRIBUTION SYSTEM

606.1 Location of full-open valves. *Full-open valves shall be installed in the following locations:*

1. *On the building water service pipe from the public water supply near the curb.*
2. *On the water distribution supply pipe at the entrance into the structure.*
3. *On the discharge side of every water meter.*
4. *On the base of every water riser pipe in occupancies other than multiple-family residential occupancies that are two stories or less in height and in one- and two-family residential occupancies.*
5. *On the top of every water down-feed pipe in occupancies other than one- and two-family residential occupancies.*
6. *On the entrance to every water supply pipe to a dwelling unit, except where supplying a single fixture equipped with individual stops.*
7. *On the water supply pipe to and from a gravity or pressurized water tank.*
8. *On the water supply pipe to every water heater.*

606.2 Location of shutoff valves. *Shutoff valves shall be installed in the following locations:*

1. *On the fixture supply to each plumbing fixture other than bathtubs and showers in one- and two-family residential occupancies, and other than in individual guestrooms that are provided with unit shutoff valves in hotels, motels, boarding houses and similar occupancies.*
2. *On the water supply pipe to each sillcock.*
3. *On the water supply pipe to each appliance or mechanical equipment.*

606.3 Access to valves. *Access shall be provided to all required full-open valves and shutoff valves.*

606.4 Valve identification. *Service and hose bibb valves shall be identified. All other valves installed in locations that are not adjacent to the fixture or appliance shall be identified, indicating the fixture or appliance served.*

606.5 Water pressure booster systems. *Water pressure booster systems shall be provided as required by Sections 606.5.1 through 606.5.10.*

606.5.1 Water pressure booster systems required. *Where the water pressure in the public water main or individual water supply system is insufficient to supply the minimum pressures and quantities specified in this code, the supply shall be supplemented by an elevated water tank, a hydropneumatic pressure booster system or a water pressure booster pump installed in accordance with 606.5.5.*

606.5.2 Support. *All water supply tanks shall be supported in accordance with the New York city building code.*

606.5.3 Covers. *All water supply tanks shall be covered to keep out unauthorized persons, dirt and vermin. The covers of gravity tanks shall be vented with a return bend vent pipe with an area not less than the area of the down-feed riser pipe, and the vent shall be screened with a corrosion-resistant screen of not less than 16 by 20 mesh per inch (6 by 8 mesh per cm).*

606.5.4 Overflows. *Each gravity or suction water supply tank shall be provided with an overflow not smaller than shown in Table 606.5.4(1) and/or Table 606.5.4(2) The gallons per minute listed in the tables shall be the total automatic pump capacity connected to the tank. The overflow outlet shall discharge within 6 inches (152 mm) of a roof or roof drain, or over an open water supplied fixture. The overflow discharge shall be provided with durable screening with openings of not more than ⅛ inch.*

TABLE 606.5.4(1)
SIZE OF OVERFLOWS FOR GRAVITY AND SUCTION TANKS
(See Figure 606.5.4 (Single Orifice/Multiple Orifice))

OVERFLOW PIPE SIZE (inches)	*MAXIMUM ALLOWABLE GPM FOR EACH ORIFICE OPENING INTO TANK*	*MAXIMUM ALLOWABLE GPM FOR VERTICAL OVERFLOW (PIPING CONNECTING ORIFICES)*
2	*19*	*25*
3	*43*	*75*
4	*90*	*163*
5	*159*	*296*
6	*257*	*472*
8	*505*	*1,020*
10	*890*	*1,870*
12	*1,400*	*2,967*

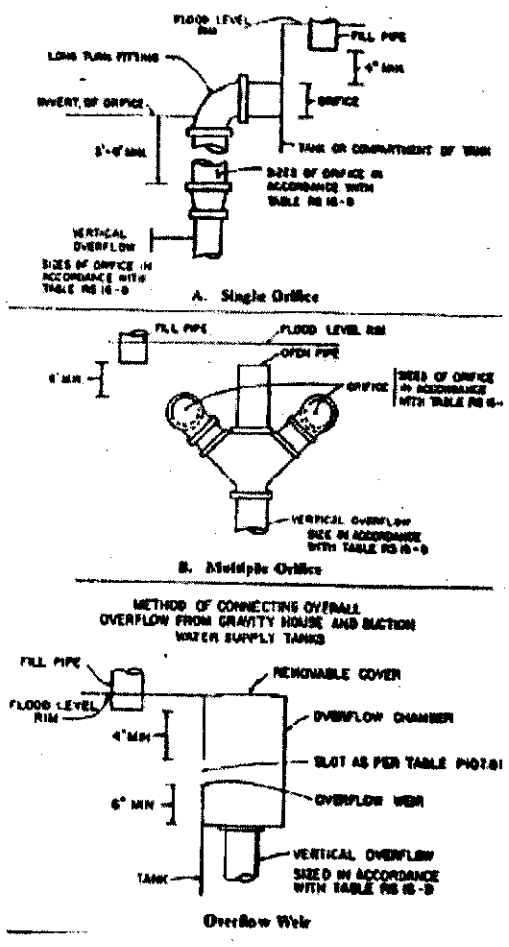
TABLE 606.5.4(2)
SIZE OF WEIRS FOR GRAVITY AND SUCTION TANKS
(See Figure (Overflow Weir))

SLOTTED WEIR OPENING INTO TANK BETWEEN OVERFLOW CHAMBER AND WATER COMPARTMENT[a]	*MAXIMUM GPM ALLOWABLE FOR WEIR*
3 inches x 24 inches	*381*
3 ½ inches x 24 inches	*475*
4 ½ inches x 24 inches	*685*
4 ½ inches x 36 inches	*1,037*
6 inches x 36 inches	*1,569*
6 inches x 48 inches	*2,100*

a. Bottom of the overflow chamber must be at least 6 inches below weir.

b. Bottom outlet shall be provided in the chamber of sizes based on capacities as indicated in Table 606.5.4(1).

FIGURE ***606.5.4***



606.5.4.1 Water piping control and location. Water inlets to gravity house tanks shall be controlled by a ball cock or other automatic supply valve or emergency electrical cut-off so installed as to prevent the overflow of the tank in the event that the pumps filling the tanks do not shut off at the predetermined level or the street pressure rises to a point where it can fill the tank. The water inlet to a suction tank shall be controlled by a ball cock or other automatic supply valve. The inlet shall be terminated so as to provide an accepted air gap but in no case shall it be less than 4 inches (102 mm) above the top of the overflow. The outlet from a gravity tank to the distribution system shall be equipped with a strainer located at least 2 inches (51 mm) above the tank bottom to prevent solids from entering the piping system. All down-feed supplies from a tank cross-connected in any manner with distribution supply piping in a building supplied by direct street or pump pressure, shall be equipped with a check valve on the main cold water down supply to prevent backflow of water into the roof tank.

606.5.4.2 Drain pipes for emptying tanks. Each tank or tank compartment shall be provided, at its lowest point, with a valved pipe to permit emptying the tank. The drain pipe shall discharge as required for the overflow pipe, and shall be at least 4 inches (102 mm) in diameter.

606.5.4.3 Prohibited location. Potable water gravity tanks or manholes of potable water pressure tanks shall not be located directly under any soil or waste piping.

606.5.4.4 Design. The gravity house supply tank shall be built of wood, steel, or equivalent materials. Subject to the approval of the Commissioner, additional linings may be installed in the tank, provided the lining material does not have a toxic or otherwise objectionable effect on the potable water. Steel tanks shall be painted both inside and outside. If a tank with a dividing partition is installed, the total capacity of the combined compartments shall be considered as the capacity of a single tank for the purpose of determining storage capacities of the tank.

606.5.4.5 Cleaning or painting. Water tanks shall be cleaned and painted in accordance with the following:

1. No water tank of any kind that is part of a building water supply system used for potable purposes shall be cleaned with any material or painted on the inside with any material that will have a toxic or otherwise objectionable effect on the potability of the water supply when the tank is put into service. No lead paint shall be used. The water supply connections to and from a tank shall be disconnected or plugged while the tank is being cleaned or painted to prevent any foreign fluid or substance from entering the distribution piping. Where the air in a tank may be insufficient to sustain human life, or may contain an injurious gas, adequate measures shall be taken for the protection of the workers.
2. After the tank has been cleaned or painted, it shall be disinfected according to the following procedure before it is put back in service:
   - 2.1. The underside of the top, the bottom, and the walls shall be washed with a hypochlorite solution containing 100 or more parts per million of available chlorine.
   - 2.2. The tank shall be filled with water to which hypochlorite solution is added during the filling in sufficient quantity so that the treated water in the tank will contain at least 10 parts per million of available chlorine.
   - 2.3. The chlorinated water shall be allowed to remain in the tank for two hours.
   - 2.4. Finally, the tank shall be drained completely before refilling.
3. House and suction tanks shall be drained and cleaned at least once a year.

606.5.5 Low-pressure cutoff required on booster pumps. A low-pressure cutoff shall be installed on all booster pumps in a water pressure booster system to prevent creation of a vacuum or negative pressure on the suction side of the pump when a positive pressure of 10 psi (68.94 kPa) or less occurs on the suction side of the pump.

606.5.6 and 606.5.7 Reserved.

606.5.8 Prohibited location of potable supply tanks. Potable water gravity tanks or manholes of potable water pressure tanks shall not be located directly under any soil or waste piping or any source of contamination.

606.5.9 Pressure tanks, vacuum relief. All water pressure tanks shall be provided with a vacuum relief valve at the top of the tank that will operate up to a maximum water pressure of 200 psi (1380 kPa) and up to a maximum temperature of 200°F (93°C). The minimum size of such vacuum relief valve shall be 0.50 inch (12.7 mm).

Exception: This section shall not apply to pressurized captive air diaphragm/bladder tanks.

606.5.10 Pressure relief for tanks. Every pressure tank in a hydropneumatic pressure booster system shall be protected with a pressure relief valve. The pressure relief valve shall be set at a maximum pressure equal to the rating of the tank. The relief valve shall be installed on the supply pipe to the tank or on the tank. The relief valve shall discharge by gravity to a safe place of disposal.

606.6 Water supply system test. Upon completion of a section of or the entire water supply system, the system, or portion completed, shall be tested in accordance with Section PC 312.

SECTION PC 607
HOT WATER SUPPLY SYSTEM

607.1 Where required. In residential occupancies, hot water shall be supplied to all plumbing fixtures and equipment utilized for bathing, washing, culinary purposes, cleansing, laundry or building maintenance. In nonresidential occupancies, hot water shall be supplied to all plumbing fixtures and equipment utilized for culinary purposes, cleansing, laundry or building maintenance. In nonresidential occupancies, hot water or tempered water shall be supplied for bathing and washing purposes. Tempered water shall be delivered for accessible hand-washing facilities.

607.2 Hot water supply temperature maintenance. Where the developed length of hot water piping from the source of hot water supply to the farthest fixture exceeds 20 feet (6096 mm), the hot water supply system shall be provided with a method of maintaining the temperature in accordance with the New York state energy conservation construction code.

607.2.1 Piping insulation. Circulating hot water system piping shall be insulated in accordance with the New York state energy conservation construction code.

607.2.2 Hot water system controls. Automatic circulating hot water system pumps or heat trace shall be arranged to be conveniently turned off automatically or manually, when the hot water system is not in operation.

607.2.3 Recirculating pump. Where a thermostatic mixing valve is used in a system with a hot water recirculating pump, the hot water or tempered water return line shall be routed to the cold water inlet pipe of the water heater and the cold water inlet pipe or the hot water return connection of the thermostatic mixing valve.

607.3 Thermal expansion control. A means of controlling increased pressure caused by thermal expansion shall be provided where required in accordance with Sections 607.3.1 and 607.3.2.

607.3.1 Pressure-reducing valve. For water service system sizes up to and including 2 inches (51 mm), a device for controlling pressure shall be installed where, because of thermal expansion, the pressure on the downstream side of a pressure-reducing valve exceeds the pressure-reducing valve setting.

607.3.2 Backflow prevention device or check valve. Where a backflow prevention device, check valve or other device is installed on a water supply system utilizing storage water heating equipment such that thermal expansion causes an increase in pressure, a device for controlling pressure shall be installed.

607.4 Flow of hot water to fixtures. Fixture fittings, faucets and diverters shall be installed and adjusted so that the flow of hot water from the fittings corresponds to the left-hand side of the fixture fitting.

Exception: Shower and tub/shower mixing valves conforming to ASSE 1016, where the flow of hot water corresponds to the markings on the device.

SECTION PC 608
PROTECTION OF POTABLE WATER SUPPLY

608.1 General. A potable water supply system shall be designed, installed and maintained in such a manner so as to prevent contamination from nonpotable liquids, solids or gases being introduced into the potable water supply through cross-connections or any other piping connections to the system. Backflow preventer applications shall conform to Table 608.1, except as specifically stated in Sections 608.2 through 608.16.9.

TABLE 608.1
APPLICATION OF BACKFLOW PREVENTERS

DEVICE	DEGREE OF HAZ	APPLICATION[b]	APPLICABLE STANDARDS
Air gap	High or	Backsiphonage or	ASME A112.1.2
Air gap fittings for use with plumbing fixtures, appliances	High or low	Backsiphonage or backpressure	ASME A112.1.3
Antisiphon-type fill valves for	High hazard	Backsiphonage only	ASSE 1002, CSA B125
Barometric loop	High or low	Backsiphonage only	(See Section 608.13.4)

Low hazard

High hazard-See Contamination (Section 202).

See Backpressure (Section 202).

See Backpressure, lowhead (Section 202).

See Backsiphonage (Section 202).

608.2 Plumbing fixtures. *The supply lines or fittings for every plumbing fixture shall be installed so as to prevent backflow.*

608.3 Devices, appurtenances, appliances and apparatus. *All devices, appurtenances, appliances and apparatus intended to serve some special function, such as sterilization, distillation, processing, cooling, or storage of ice or foods, and that connect to the water supply system, shall be provided with protection against backflow and contamination of the water supply system. Water pumps, filters, softeners, tanks and all other appliances and devices that handle or treat potable water shall be protected against contamination.*

608.3.1 Special equipment, water supply protection. *The water supply for hospital fixtures shall be protected against backflow with a reduced pressure principle backflow preventer, an atmospheric or spill-proof vacuum breaker, or an air gap. Vacuum breakers for bedpan washer hoses shall not be located less than 5 feet (1524 mm) above the floor. Vacuum breakers for hose connections in health care or laboratory areas shall not be less than 6 feet (1829 mm) above the floor.*

608.4 Water service piping. *Water service piping shall be protected in accordance with Sections 603.2 and 603.2.1.*

608.5 Chemicals and other substances. *Chemicals and other substances that produce either toxic conditions, taste, odor or discoloration in a potable water system shall not be introduced into, or utilized in, such systems.*

608.6 Cross-connection control. *Cross connections shall be prohibited, except where approved protective devices are installed.*

608.6.1 Private water supplies. *Cross connections between a private water supply and a potable public supply shall be prohibited.*

608.7 Stop-and-waste valves prohibited. *Combination stop-and-waste valves or cocks shall not be installed underground.*

608.8 Identification of potable and nonpotable water. *In all buildings where two or more water distribution systems, one potable water and the other nonpotable water, are installed, each system shall be identified either by color marking or metal tags in accordance with Sections 608.8.1 through 608.8.3.*

608.8.1 Information. *Pipe identification shall include the contents of the piping system and an arrow indicating the direction of flow. Hazardous piping systems shall also contain information addressing the nature of the hazard. Pipe identification shall be repeated at maximum intervals of 25 feet (7620 mm) and at each point where the piping passes through a wall, floor or roof. Lettering shall be readily observable within the room or space the piping is located.*

608.8.2 Color. *The color of the pipe identification shall be discernable and consistent throughout the building.*

608.8.3 Size. *The size of the background color field and lettering shall comply with Table 608.8.3.*

TABLE 608.8.3
SIZE OF PIPE IDENTIFICATION

PIPE DIAMETER (inches)	LENGTH BACKGROUND COLOR FIELD (inches)	SIZE OF LETTERS (inches)
¾ to 1¼	8	0.5
1½ to 2	8	0.75
2½ to 6	12	1.25
8 to 10	24	2.5
over 10	32	3.5

For SI: 1 inch = 25.4 mm.

608.9 Reutilization prohibited. *Water utilized for the cooling of equipment or other processes shall not be returned to the potable water system. Such water shall be discharged into a drainage system through an air gap or shall be utilized for nonpotable purposes.*

608.10 Reuse of piping. *Piping that has been utilized for any purpose other than conveying potable water shall not be utilized for conveying potable water.*

608.11 Painting of water tanks. *The interior surface of a potable water tank shall not be lined, painted or repaired with any material that changes the taste, odor, color or potability of the water supply when the tank is placed in, or returned to, service.*

608.12 Pumps and other appliances. *Water pumps, filters, softeners, tanks and all other devices that handle or treat potable water shall be protected against contamination.*

608.13 Backflow protection. *Means of protection against backflow shall be provided, maintained and inspected in accordance with Sections 608.13.1 through 608.13.9.*

608.13.1 Air gap. *The minimum required air gap shall be measured vertically from the lowest end of a potable water outlet to the flood level rim of the fixture or receptacle into which such potable water outlet discharges. Air gaps shall comply with ASME A112.1.2 and air gap fittings shall comply with ASME A112.1.3.*

608.13.2 Reduced pressure principle backflow preventers. *Reduced pressure principle backflow preventers shall conform to ASSE 1013, AWWA C511 or CAN/CSA B64.4. Reduced pressure detector assembly backflow preventers shall conform to ASSE 1047. These devices shall be permitted to be installed where subject to continuous pressure conditions. The relief opening shall discharge by air gap and shall be prevented from being submerged. These devices shall be tested annually by a certified tester.*

608.13.3 Backflow preventer with intermediate atmospheric vent. *Backflow preventers with intermediate atmospheric vents shall conform to ASSE 1012 or CAN/CSA B64.4. These devices shall be permitted to be installed where subject to continuous pressure conditions. The relief opening shall discharge by air gap and shall be prevented from being submerged.*

608.13.4 Barometric loop. *Barometric loops shall precede the point of connection and shall extend vertically to a height of 35 feet (10 668 mm). A barometric loop shall only be utilized as an atmospheric-type or pressure-type vacuum breaker.*

608.13.5 Pressure-type vacuum breakers. *Pressure-type vacuum breakers shall conform to ASSE 1020 and spillproof vacuum breakers shall comply with ASSE 1056. These devices are designed for installation under continuous pressure conditions when the critical level is installed at the required height. Pressure-type vacuum breakers shall not be installed in locations where spillage could cause damage to the structure.*

608.13.6 Atmospheric-type vacuum breakers. *Pipe-applied atmospheric-type vacuum breakers shall conform to ASSE 1001 or CAN/CSA B64.1.1. Hose-connection vacuum breakers shall conform to ASSE 1011, ASSE 1019, ASSE 1035, ASSE 1052, CAN/CSA B64.2, CAN/CSA B64.2.2 or CSA B64.7. These devices shall operate under normal atmospheric pressure when the critical level is installed at the required height.*

608.13.7 Double check-valve assemblies. *Double check-valve assemblies shall conform to ASSE 1015 or AWWA C510. Double-detector check-valve assemblies shall conform to ASSE 1048. These devices shall be capable of operating under continuous pressure conditions. These devices shall be tested annually by a certified tester.*

608.13.8 Spillproof vacuum breakers. *Spillproof vacuum breakers (SVB) shall conform to ASSE 1056. These devices are designed for installation under continuous-pressure conditions when the critical level is installed at the required height.*

608.13.9 Chemical dispenser backflow devices. *Backflow devices for chemical dispensers shall comply with ASSE 1055 or shall be equipped with an air gap fitting.*

608.14 Location of backflow preventers. *Access shall be provided to backflow preventers as specified by the installation instructions of the approved manufacturer.*

608.14.1 Outdoor enclosures for backflow prevention devices. *Outdoor enclosures for backflow prevention devices shall comply with ASSE 1060.*

608.15 Protection of potable water outlets. *All potable water openings and outlets shall be protected against backflow in accordance with Section 608.15.1, 608.15.2, 608.15.3, 608.15.4, 608.15.4.1, or 608.15.4.2.*

608.15.1 Protection by air gap. *Openings and outlets shall be protected by an air gap between the opening and the fixture flood level rim as specified in Table 608.15.1. Openings and outlets equipped for hose connection shall be protected by means other than an air gap.*

TABLE 608.15.1
MINIMUM REQUIRED AIR GAPS

FIXTURE	MINIMUM AIR GAP	
	Away from a wall	Close to a wall (inches)
Lavatories and other fixtures with effective opening not greater than	1	1½
Sink, laundry trays, gooseneck back faucets and other fixtures with effective openings not greater than ¾ inch in	1.5	2.5
Over-rim bath fillers and other fixtures with effective openings not	2	3

Drinking water fountains, single orifice not greater than 3/8 inch in diameter or multiple orifices with a total area of 0.150 square inch	1	1 1/2
Effective openings greater than 1 inch	Two times the diameter of the effective opening	Three times the diameter

For SI: 1 inch = 25.4 mm.

a. Applicable where walls or obstructions are spaced from the nearest inside-edge of the spout opening a distance greater than three times the diameter of the effective opening for a single wall, or a distance greater than four times the diameter of the effective opening for two intersecting walls.**608.15.2 Protection by a reduced pressure principle backflow preventer.** Openings and outlets shall be protected by a reduced pressure principle backflow preventer.

608.15.3 Protection by a backflow preventer with intermediate atmospheric vent. *Openings and outlets shall be protected by a backflow preventer with an intermediate atmospheric vent.*

608.15.4 Protection by a vacuum breaker. *Openings and outlets shall be protected by atmospheric-type or pressure-type vacuum breakers. The critical level of the vacuum breaker shall be set a minimum of 6 inches (152 mm) above the flood level rim of the fixture or device. Fill valves shall be set in accordance with Section 425.3.1. Vacuum breakers shall not be installed under exhaust hoods or similar locations that will contain toxic fumes or vapors. Pipe-applied vacuum breakers shall be installed not less than 6 inches (152 mm) above the flood level rim of the fixture, receptor or device served.*

608.15.4.1 Deck-mounted and integral vacuum breakers. *Approved deck-mounted or equipment-mounted vacuum breakers and faucets with integral atmospheric or spillproof vacuum breakers shall be installed in accordance with the manufacturer's instructions and the requirements for labeling with the critical level not less than 1 inch (25 mm) above the flood level rim.*

608.15.4.2 Hose connections. *Sillcocks, hose bibbs, wall hydrants and other openings with a hose connection shall be protected by an atmospheric-type or pressure-type vacuum breaker or a permanently attached hose connection vacuum breaker.*

Exceptions:

1. *This section shall not apply to water heater and boiler drain valves that are provided with hose connection threads and that are intended only for tank or vessel draining.*
2. *This section shall not apply to water supply valves intended for connection of clothes washing machines where backflow prevention is otherwise provided or is integral with the machine.*

608.16 Connections to the potable water system. *Connections to the potable water system shall conform to Sections 608.16.1 through 608.16.9.*

608.16.1 Beverage dispensers. *The water supply connection to carbonated beverage dispensers shall be protected against backflow by a backflow preventer conforming to ASSE 1022 or by an air gap. The backflow preventer device and the piping downstream therefrom shall not be affected by carbon dioxide gas.*

608.16.2 Connections to boilers. *The potable supply to the boiler shall be equipped with a backflow preventer with an intermediate atmospheric vent complying with ASSE 1012 or CAN/CSA B64.3. Where conditioning chemicals are introduced into the system, the potable water connection shall be protected by an air gap or a reduced pressure principle backflow preventer, complying with ASSE 1013, CAN/CSA B64.4 or AWWA C511.*

608.16.3 Heat exchangers. *Heat exchangers utilizing an essentially toxic transfer fluid shall be separated from the potable water by double-wall construction. An air gap open to the atmosphere shall be provided between the two walls. Heat exchangers utilizing an essentially nontoxic transfer fluid shall be permitted to be of single-wall construction.*

608.16.4 Connections to automatic fire sprinkler systems and standpipe systems. *The potable water supply to automatic fire sprinkler and standpipe systems shall be protected against backflow by a double check-valve assembly or a reduced pressure principle backflow preventer.*

Exceptions:

1. *Where systems are installed as a portion of the water distribution system in accordance with the requirements of this code and are not provided with a fire department connection, isolation of the water supply system shall not be required.*
2. *Isolation of the water distribution system is not required for deluge, preaction or dry pipe systems.*

608.16.4.1 Additives or nonpotable source. *Where systems under continuous pressure contain chemical additives or antifreeze, or where systems are connected to a nonpotable secondary water supply, the potable water supply shall be protected against backflow by a reduced pressure principle backflow preventer. Where chemical additives or antifreeze are added to only a portion of an automatic fire sprinkler or standpipe system, the reduced pressure principle backflow preventer shall be permitted to be located so as to isolate that portion of the system. Where systems are not under continuous pressure, the potable water supply shall be protected against backflow by an air gap or a pipe applied atmospheric vacuum breaker conforming to ASSE 1001or CAN/CSA B64.1.1.*

608.16.5 Connections to lawn irrigation systems. *The potable water supply to lawn irrigation systems shall be protected against backflow by an atmospheric-type vacuum breaker, a pressure-type vacuum breaker or a reduced pressure principle backflow preventer. A valve shall not be installed downstream from an atmospheric vacuum breaker. Where chemicals are introduced into the system, the potable water supply shall be protected against backflow by a reduced pressure principle backflow preventer.*

608.16.6 Connections subject to backpressure. *Where a potable water connection is made to a nonpotable line, fixture, tank, vat, pump or other equipment subject to back-pressure, the potable water connection shall be protected by a reduced pressure principle backflow preventer.*

608.16.7 Chemical dispensers. *Where chemical dispensers connect to the potable water distribution system, the water supply system shall be protected against backflow in accordance with Section 608.13.1, 608.13.2, 608.13.5, 608.13.6, 608.13.8 or 608.13.9.*

608.16.8 Portable cleaning equipment. *Where the portable cleaning equipment connects to the water distribution system, the water supply system shall be protected against backflow in accordance with Section 608.13.1, 608.13.2, 608.13.3, 608.13.7 or 608.13.8.*

608.16.9 Dental pump equipment. *Where dental pumping equipment connects to the water distribution system, the water supply system shall be protected against backflow in accordance with Section 608.13.1, 608.13.2, 608.13.5, 608.13.6 or 608.13.8.*

608.17 Protection of individual water supplies. *An individual water supply shall be located and constructed so as to be safeguarded against contamination in accordance with Sections 608.17.1 through 608.17.8.*

608.17.1 Well locations. *A potable ground water source or pump suction line shall not be located closer to potential sources of contamination than the distances shown in Table 608.17.1. In the event the underlying rock structure is limestone or fragmented shale, the local or state health department shall be consulted on well site location. The distances in Table 608.17.1 constitute minimum separation and shall be increased in areas of creviced rock or limestone, or where the direction of movement of the ground water is from sources of contamination toward the well.*

TABLE 608.17.1
DISTANCE FROM CONTAMINATION TO PRIVATE WATER SUPPLIES AND PUMP SUCTION LINES

SOURCE OF CONTAMINATION	DISTANCE (feet)
Barnyard	100
Farm silo	25
Pasture	100
Pumphouse floor drain of cast iron draining to ground surface	2
Seepage pits	50
Septic tank	25
Sewer	10
Subsurface disposal fields	50
Subsurface pits	50

For SI: 1 foot = 304.8 mm.

608.17.2 Elevation. *Well sites shall be positively drained and shall be at higher elevations than potential sources of contamination.*

608.17.3 Depth. *Private potable well supplies shall not be developed from a water table less than 10 feet (3048 mm) below the ground surface.*

608.17.4 Water-tight casings. *Each well shall be provided with a water-tight casing to a minimum distance of 10 feet (3048 mm) below the ground surface. All casings shall extend at least 6 inches (152 mm) above the well platform. The casing shall be large enough to permit installation of a separate drop pipe. Casings shall be sealed at the bottom in an impermeable stratum or extend several feet into the water-bearing stratum.*

608.17.5 Drilled or driven well casings. *Drilled or driven well casings shall be of steel or other approved material. Where drilled wells extend into a rock formation, the well casing shall extend to and set firmly in the formation. The annular space between the earth and the outside of the casing shall be filled with cement grout to a minimum distance of 10 feet (3048 mm) below the ground surface. In an instance of casing to rock installation, the grout shall extend to the rock surface.*

608.17.6 Dug or bored well casings. *Dug or bored well casings shall be of water-tight concrete, tile, or galvanized or corrugated metal pipe to a minimum distance of 10 feet (3048 mm) below the ground surface. Where the water table is more than 10 feet (3048 mm) below the ground surface, the water-tight casing shall extend below the table surface. Well casings for dug wells or bored wells constructed with sections of concrete, tile, or galvanized or corrugated metal pipe shall be surrounded by 6 inches (152 mm) of grout poured into the hole between the outside of the casing and the ground to a minimum depth of 10 feet (3048 mm).*

608.17.7 Cover. *Every potable water well shall be equipped with an overlapping water-tight cover at the top of the well casing or pipe sleeve such that contaminated water or other substances are prevented from entering the well through the annular opening at the top of the well casing, wall or pipe sleeve. Covers shall extend downward at least 2 inches (51 mm) over the outside of the*

well casing or wall. A dug well cover shall be provided with a pipe sleeve permitting the withdrawal of the pump suction pipe, cylinder or jet body without disturbing the cover. Where pump sections or discharge pipes enter or leave a well through the side of the casing, the circle of contact shall be water tight.

608.17.8 Drainage. *All potable water wells and springs shall be constructed such that surface drainage will be diverted away from the well or spring.*

SECTION PC 609
HEALTH CARE PLUMBING

609.1 Scope. *This section shall govern those aspects of health care plumbing Systems that differ from plumbing systems in other structures. Health care plumbing systems shall conform to the requirements of this section in addition to the other requirements of this code. The provisions of this section shall apply to the special devices and equipment installed and maintained in the following occupancies: nursing homes, homes for the aged, orphanages, infirmaries, first aid stations, psychiatric facilities, clinics, professional offices of dentists and doctors, mortuaries, educational facilities, surgery, dentistry, research and testing laboratories, establishments manufacturing pharmaceutical drugs and medicines, and other structures with similar apparatus and equipment classified as plumbing.*

609.2 Water service. *All hospitals shall have two water service pipes installed in such a manner so as to minimize the potential for an interruption of the supply of water in the event of a water main or water service pipe failure.*

609.3 Hot water. *Hot water shall be provided to supply all of the hospital fixture, kitchen and laundry requirements. Special fixtures and equipment shall have hot water supplied at a temperature specified by the manufacturer. The hot water system shall be installed in accordance with Section PC 607.*

609.4 Vacuum breaker installation. *Vacuum breakers shall be installed a minimum of 6 inches (152 mm) above the flood level rim of the fixture or device in accordance with Section PC 608. The flood level rim of hose connections shall be the maximum height at which any hose is utilized.*

609.5 Prohibited water closet and clinical sink supply. *Jet or water-supplied orifices, except those supplied by the flush connections, shall not be located in or connected with a water closet bowl or clinical sink. This section shall not prohibit an approved bidet installation.*

609.6 Clinical, hydrotherapeutic and radiological equipment. *All clinical, hydrotherapeutic, radiological or any equipment that is supplied with water or that discharges to the waste system shall conform to the requirements of this section and Section PC 608.*

609.7 Condensate drain trap seal. *A water supply shall be provided for cleaning, flushing and resealing the condensate trap, and the trap shall discharge through an air gap in accordance with Section PC 608.*

609.8 Valve leakage diverter. *Each water sterilizer filled with water through directly connected piping shall be equipped with an approved leakage diverter or bleed line on the water supply control valve to indicate and conduct any leakage of unsterile water away from the sterile zone.*

SECTION PC 610
DISINFECTION OF POTABLE WATER SYSTEM

610.1 General. *New or repaired potable water systems shall be purged of deleterious matter and disinfected prior to utilization. The method to be followed shall be that prescribed by the health authority or water purveyor having jurisdiction or, in the absence of a prescribed method, the procedure described in either AWWA C651 or AWWA C652, or as described in this section. This requirement shall apply to "on-site" or "in-plant" fabrication of a system or to a modular portion of a system.*

1. *The pipe system shall be flushed with clean, potable water until dirty water does not appear at the points of outlet.*
2. *The system or part thereof shall be filled with a water/chlorine solution containing at least 50 parts per million (50 mg/L) of chlorine, and the system or part thereof shall be valved off and allowed to stand for 24 hours; or the system or part thereof shall be filled with a water/chlorine solution containing at least 200 parts per million (200 mg/L) of chlorine and allowed to stand for 3 hours.*
3. *Following the required standing time, the system shall be flushed with clean potable water until the chlorine is purged from the system.*
4. *The procedure shall be repeated where shown by a bacteriological examination that contamination remains present in the system.*

SECTION PC 611
DRINKING WATER TREATMENT UNITS

611.1 Design. *Drinking water treatment units shall meet the requirements of NSF 42, NSF 44, NSF 53 or NSF 62.*

611.2 Reverse osmosis systems. *The discharge from a reverse osmosis drinking water treatment unit shall enter the drainage system through an air gap or an air gap device that meets the requirements of NSF 58.*

611.3 Connection tubing. *The tubing to and from drinking water treatment units shall be of a size and material as recommended by the manufacturer. The tubing shall comply with NSF 14, NSF 42, NSF 44, NSF 53, NSF 58 or NSF 61.*

SECTION PC 612
SOLAR SYSTEMS

612.1 Solar systems. *The construction, installation, alterations and repair of systems, equipment and appliances intended to utilize solar energy for space heating or cooling, domestic hot water heating, swimming pool heating or process heating shall be in accordance with the New York city mechanical code.*

SECTION PC 613
TEMPERATURE CONTROL DEVICES AND VALVES

613.1 Temperature-actuated mixing valves. *Temperature actuated mixing valves, which are installed to reduce water temperatures to defined limits, shall comply with ASSE 1016 and ASSE 1017.*

CHAPTER 7
SANITARY DRAINAGE

SECTION PC 701
GENERAL

701.1 Scope. *The provisions of this chapter shall govern the materials, design, construction and installation of sanitary drainage systems.*

701.2 Sewer required. *Every building in which plumbing fixtures are installed and all premises having drainage piping shall be connected to a public sewer, where available, or an approved private sewage disposal system in accordance with applicable city department of environmental protection rules.*

701.3 Separate sewer connection. *Every building having plumbing fixtures installed and intended for human habitation, occupancy or use on premises abutting on a street, alley or easement in which there is a public sewer shall have a separate connection with the sewer. Where located on the same lot, multiple buildings shall not be prohibited from connecting to a common building sewer that connects to the public sewer.*

701.4 Sewage treatment. *Sewage or other waste from a plumbing system that is deleterious to surface or subsurface waters shall not be discharged into the ground or into any waterway unless it has first been rendered innocuous through subjection to an approved form of treatment.*

701.5 Damage to drainage system or public sewer. *Wastes detrimental to the public sewer system or to the functioning of the sewage-treatment plant shall be treated and disposed of in accordance with appplicable rules of the city department of environmental protection.*

701.6 Tests. *The sanitary drainage system shall be tested in accordance with Section PC 312.*

701.7 Connections. *Direct connection of a steam exhaust, blowoff or drip pipe shall not be made with the building drainage system. Wastewater when discharged into the building drainage system shall be at a temperature not higher than 150°F (65.6°C). When higher temperatures exist, approved cooling methods shall be provided.*

701.8 Engineered systems. *Engineered sanitary drainage systems shall conform to the provisions of Sections 28-105 and PC 714.*

701.9 Drainage piping in food service areas. *Exposed soil or waste piping shall not be installed above any working, storage or eating surfaces in food service establishments.*

701.10 Plastic pipe. *Plastic piping and fittings shall not be used.*

Exception: *Plastic piping and fittings may be used in residential buildings five stories or less in height.*

SECTION PC 702
MATERIALS

702.1 Above-ground sanitary drainage and vent pipe. *Above-ground soil, waste and vent pipe shall conform to one of the standards listed in Table 702.1.*

TABLE 702.1
ABOVE-GROUND DRAINAGE AND VENT PIPE

MATERIAL	STANDARD
Acrylonitrile butadiene styrene (ABS) plastic pipe schedule 40	ASTM D 2661; ASTM F 628; CSA B181.1
Brass pipe	ASTM B 43
Cast-iron pipe	ASTM A 74; CISPI 301; ASTM A 888
Copper or copper-alloy pipe	ASTM B 42; ASTM B 302
Copper or copper-alloy tubing (Type K, L)	ASTM B 75; ASTM B 88; ASTM B 251; ASTM B 306
Ductile iron	AWWA C151
Galvanized steel pipe	ASTM A 53
Glass pipe	ASTM C 1053
High silicon cast iron	ASTM A 518 A/518 M
Polyolefin pipe	ASTM F 1412; ASTM D 2657; CAN/CSA B181.3
Polyvinyl chloride (PVC) plastic pipe (Type DWV)	ASTM D 2665; ASTM D 3311; ASTM F 1866
Stainless steel drainage systems, Types 304 and 316L	ASME A112.3.1

702.2 Underground building sanitary drainage and vent pipe. *Underground building sanitary drainage and vent pipe shall conform to one of the standards listed in Table 702.2.*

TABLE 702.2
UNDERGROUND BUILDING DRAINAGE AND VENT PIPE

Stainless steel drainage V stems, Types 304 and	ASME A112.3.1

702.5 Chemical waste system. A chemical waste system shall be completely separated from the sanitary drainage system. The chemical waste shall be treated in accordance with Section 803.2 before discharging to the sanitary drainage system. Separate drainage systems for chemical wastes and vent pipes shall be of an approved material that is resistant to corrosion and degradation for the concentrations of chemicals involved.

702.6 Lead bends and traps. Lead bends and traps shall not be less than 0.125 inch (3.2 mm) wall thickness.

SECTION PC 703
BUILDING SEWER

703.1 Building sewer pipe near the water service. Where the building sewer is installed within 5 feet (1524 mm) of the water service, as provided for in Section 603.2, the building sewer pipe shall conform to one of the standards for, cast-iron pipe, copper or copper-alloy tubing, or ductile iron listed in Table 702.3.

703.2 Drainage pipe in filled ground. Where a building sewer or building drain is installed on filled or unstable ground, the drainage pipe shall conform to one of the standards for, cast-iron pipe, copper or copper-alloy tubing, ductile iron, non-asbestos fiber cement or concrete pipe listed in Table 702.3.

703.3 Sanitary and storm sewers. Where separate systems of sanitary drainage and storm drainage are installed in the same property, the sanitary and storm building sewers or drains shall be permitted to be laid side by side in one trench.

703.4 Existing building sewers and drains. Existing building sewers and drains shall connect with new building sewer and drainage systems only where found by examination and test to conform to the new system in quality of material. The commissioner shall notify the owner to make the changes necessary to conform to this code.

703.5 Cleanouts on building sewers. Cleanouts on building sewers shall be located as set forth in Section PC 708.

703.6 Building house traps. Building house traps shall be installed on all building drains near the foundation wall of the structure, inside of the street line, and on the sewer side of all connections except the connection used to receive the discharge from a sewage ejector, oil separator or leader on combined systems. If such trap is placed outside of the foundation wall or below a cellar floor, it shall be made accessible in a manhole with a cover, or by extension of the two handholes that shall be provided with cleanouts at the cellar floor or grade. Handhold extensions shall be not more than 18 inches (457 mm) above the centerline of the drain. Building (house) traps shall be the same size as the building house drain connected thereto.

SECTION PC 704
DRAINAGE PIPING INSTALLATION

704.1 Slope of horizontal drainage piping. Horizontal drainage piping shall be installed in uniform alignment at uniform slopes. The minimum slope of a horizontal drainage pipe shall be in accordance with Table 704.1.

TABLE 704.1
SLOPE OF HORIZONTAL DRAINAGE PIPE

SIZE (inches)	MINIMUM SLOPE (inch per foot)
2 ½ or less	¼
3 to 6	⅛
8 or larger	1/16

For SI: 1 inch = 25.4 mm, 1 inch per foot = 0.083.3 mm/m.

704.2 Change in size. The size of the drainage piping shall not be reduced in size in the direction of the flow. A 4 inch by 3 inch (102 mm by 76mm) water closet connection shall not be considered as a reduction in size.

704.3 Connections to offsets and bases of stacks. Horizontal branches shall connect to the bases of stacks at a point located not less than 10 times the diameter of the drainage stack downstream from the stack. Except as prohibited by Section 711.2, horizontal branches shall connect to horizontal stack offsets at a point located not less than 10 times the diameter of the drainage stack downstream from the upper stack.

704.4 Future fixtures. Drainage piping for future fixtures shall terminate with an approved cap or plug.

704.5 Dead ends. In the installation or removal of any part of a drainage system, dead ends shall be prohibited. Cleanout extensions and approved future fixture drainage piping shall not be considered as dead ends.

704.6 Suds Pressure Zones Vents. Where sinks, laundry trays, laundry washing machines, bathtubs, and similar fixtures in which detergents producing suds are normally used and discharged at an upper floor level into a soil or waste stack that also serves fixtures in other occupancy units at a lower floor level, the drainage and vent piping for such lower fixtures shall be arranged so as to avoid connection to suds pressure zones in the sanitary drainage and vent systems. If connected to the sanitary system, a suds relief vent relieving to a nonpressure zone shall be provided at each suds pressure zone where such connections are installed. The diameter of such relief vent shall be at least ¾ the diameter of the piping in which the pressure zone occurs, but not less than 2 inches (51mm). Suds pressure zones shall be considered to exist at the following locations in sanitary drainage and vent systems when the piping serves fixtures on two or more floors that receive wastes that contain detergents producing suds:

1. In a soil or waste stack a zone shall be considered to exist in the vertical portion within 40 stack diameters of the base fitting.
2. In the horizontal drain at the base of a soil or waste stack a zone shall be considered to exist in the horizontal portion within ten stack diameters of the base fitting. Where a 60 degree or 90 degree fitting is installed in the horizontal drain, a zone shall be considered to exist in the horizontal portion within 40 drain diameters upstream of and 10 drain diameters downstream of the fitting in accordance with Figure 704.6 (2).
3. In a soil or waste stack offset of 60 degrees or 90 degrees, a zone shall be considered to exist in the vertical portion of the stack within 40 stack diameters of the base fitting for the upper section of the stack. The zone shall be considered to exist in the horizontal offset within 10 stack diameters of such base fitting and within 40 stack diameters of the top fitting for the lower section of the stack.
4. In a vent stack that has its base connected to a suds pressure zone in the sanitary drainage system, a zone shall be considered to exist in the portion of the vent stack extending from its base connection up to the lowest branch

vent fitting located above the level of the suds pressure zone in the sanitary drainage system.

FIGURE 704.6 (2)
SECTION PC 705

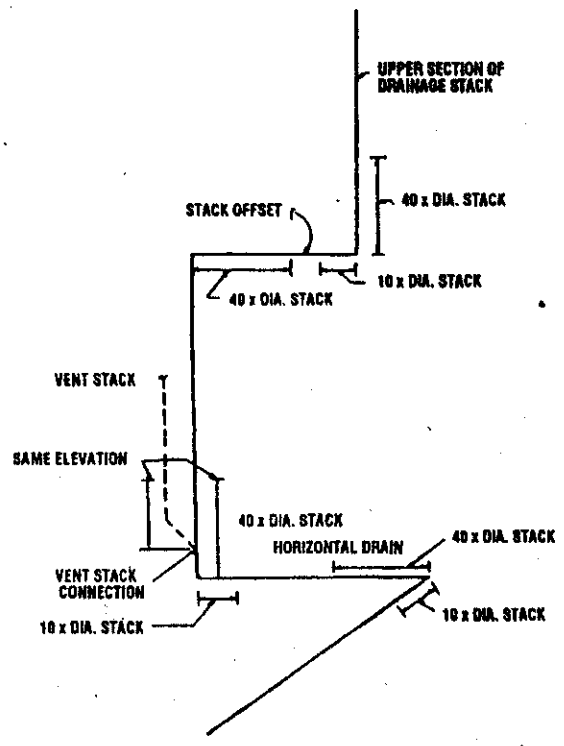

Figure RS 16-8. Suds Pressure Zones.

JOINTS

705.1 General. *This section contains provisions applicable to joints specific to sanitary drainage piping.*

705.2 ABS plastic. *Joints between ABS plastic pipe or fittings shall comply with Sections 705.2.1 through 705.2.3.*

705.2.1 Mechanical joints. *Mechanical joints on drainage pipes shall be made with an elastomeric seal conforming to ASTM C 1173, ASTM D 3212 or CAN/CSA B602. Mechanical joints shall be installed only in underground systems unless otherwise approved. Joints shall be installed in accordance with the manufacturer's instructions.*

705.2.2 Solvent cementing. *Joint surfaces shall be clean and free from moisture. Solvent cement that conforms to ASTM D 2235 or CSA B181.1 shall be applied to all joint surfaces. The joint shall be made while the cement is wet. Joints shall be made in accordance with ASTM D 2235, ASTM D 2661, ASTM F 628 or CSA B181.1. Solvent-cement joints shall be permitted above or below ground.*

705.2.3 Threaded joints. *Threads shall conform to ASME B1.20.1. Schedule 80 or heavier pipe shall be permitted to be threaded with dies specifically designed for plastic pipe. Approved thread lubricant or tape shall be applied on the male threads only.*

705.3 Asbestos-cement. *Joints between asbestos-cement pipe or fittings shall be made with a sleeve coupling of the same composition as the pipe, sealed with an elastomeric ring conforming to ASTM D 1869.*

705.4 Brass. *Joints between brass pipe or fittings shall comply with Sections 705.4.1 through 705.4.4.*

705.4.1 Brazed joints. *All joint surfaces shall be cleaned. An approved flux shall be applied where required. The joint shall be brazed with a filler metal conforming to AWS A5.8.*

705.4.2 Mechanical joints. *Mechanical joints shall be installed in accordance with the manufacturer's instructions.*

705.4.3 Threaded joints. *Threads shall conform to ASME B1.20.1. Pipe-joint compound or tape shall be applied on the male threads only.*

705.4.4 Welded joints. *All joint surfaces shall be cleaned. The joint shall be welded with an approved filler metal.*

705.5 Cast iron. *Joints between cast-iron pipe or fittings shall comply with Sections 705.5.1 through 705.5.3.*

705.5.1 Caulked joints. *Joints for hub and spigot pipe shall be firmly packed with oakum or hemp. Molten lead shall be poured in one operation to a depth of not less than 1 inch (25 mm). The lead shall not recede more than 0.125 inch (3.2 mm) below the rim of the hub and shall be caulked tight. Paint, varnish or other coatings shall not be permitted on the jointing material until after the joint has been tested and approved. Lead shall be run in one pouring and shall be caulked tight. Acid-resistant rope and acidproof cement shall be permitted.*

705.5.2 Compression gasket joints. *Compression gaskets for hub and spigot pipe and fittings shall conform to ASTM C 564. Gaskets shall be compressed when the pipe is fully inserted.*

705.5.3 Mechanical joint coupling. *Mechanical joint couplings for hubless pipe and fittings shall comply with CISPI 310 or ASTM C 1277. The elastomeric sealing sleeve shall conform to ASTM C 564 or CAN/CSA B602 and shall be provided with a center stop. Mechanical joint couplings shall be installed in accordance with the manufacturer's installation instructions.*

705.6 Concrete joints. *Joints between concrete pipe and fittings shall be made with an elastomeric seal conforming to ASTM C 443, ASTM C 1173, CAN/CSA A257.3M or CAN/CSA B602.*

705.7 and 705.8 Reserved.

705.9 Copper pipe. *Joints between copper or copper-alloy pipe or fittings shall comply with Sections 705.9.1 through 705.9.5.*

705.9.1 Brazed joints. *All joint surfaces shall be cleaned. An approved flux shall be applied where required. The joint shall be brazed with a filler metal conforming to AWS A5.8.*

705.9.2 Mechanical joints. *Mechanical joints shall be installed in accordance with the manufacturer's instructions.*

705.9.3 Soldered joints. *Solder joints shall be made in accordance with the methods of ASTM B 828. All cut tube ends shall be reamed to the full inside diameter of the tube end. All joint surfaces shall be cleaned. A flux conforming to ASTM B 813 shall be applied. The joint shall be soldered with a solder conforming to ASTM B 32.*

705.9.4 Threaded joints. *Threads shall conform to ASME B1.20.1. Pipe-joint compound or tape shall be applied on the male threads only.*

705.9.5 Welded joints. *All joint surfaces shall be cleaned. The joint shall be welded with an approved filler metal.*

705.10 Copper tubing. *Joints between copper or copper-alloy tubing or fittings shall comply with Sections 705.10.1 through 705.10.3.*

705.10.1 Brazed joints. *All joint surfaces shall be cleaned. An approved flux shall be applied where required. The joint shall be brazed with a filler metal conforming to AWS A5.8.*

705.10.2 Mechanical joints. *Mechanical joints shall be installed in accordance with the manufacturer's instructions.*

705.10.3 Soldered joints. *Solder joints shall be made in accordance with the methods of ASTM B 828. All cut tube ends shall be reamed to the full inside diameter of the tube end. All joint surfaces shall be cleaned. A flux conforming to ASTM B 813 shall be applied. The joint shall be soldered with a solder conforming to ASTM B 32.*

705.11 Borosilicate glass joints. *Glass-to-glass connections shall be made with a bolted compression-type stainless steel (300 series) coupling with contoured acid-resistant elastomeric compression ring and a fluorocarbon polymer inner seal ring; or with caulked joints in accordance with Section 705.11.1.*

705.11.1 Caulked joints. *Every lead-caulked joint for hub and spigot soil pipe shall be firmly packed with oakum or hemp and filled with molten lead not less than 1 inch (25 mm) deep and not to extend more than 0.125 inch (3.2 mm) below the rim of the hub. Paint, varnish or other coatings shall not be permitted on the jointing material until after the joint has been tested and approved. Lead shall be run in one pouring and shall be caulked tight. Acid-resistant rope and acidproof cement shall be permitted.*

705.12 Steel. *Joints between galvanized steel pipe or fittings shall comply with Sections 705.12.1 and 705.12.2.*

705.12.1 Threaded joints. *Threads shall conform to ASME B1.20.1. Pipe-joint compound or tape shall be applied on the male threads only.*

705.12.2 Mechanical joints. *Joints shall be made with an approved elastomeric seal. Mechanical joints shall be installed in accordance with the manufacturer's instructions.*

705.13 Lead. *Joints between lead pipe or fittings shall comply with Sections 705.13.1 and 705.13.2.*

705.13.1 Burned. *Burned joints shall be uniformly fused together into one continuous piece. The thickness of the joint shall be at least as thick as the lead being joined. The filler metal shall be of the same material as the pipe.*

705.13.2 Wiped. *Joints shall be fully wiped, with an exposed surface on each side of the joint not less than 0.75 inch (19.1 mm). The joint shall be at least 0.325 inch (9.5 mm) thick at the thickest point.*

705.14 PVC plastic. *Joints between PVC plastic pipe or fittings shall comply with Sections 705.14.1 through 705.14.3.*

705.14.1 Mechanical joints. *Mechanical joints on drainage pipe shall be made with an elastomeric seal conforming to ASTM C 1173, ASTM D 3212 or CAN/CSA B602. Mechanical joints shall not be installed in above-ground systems, unless otherwise approved. Joints shall be installed in accordance with the manufacturer's instructions.*

705.14.2 Solvent cementing. *Joint surfaces shall be clean and free from moisture. A purple primer that conforms to ASTM F 656 shall be applied. Solvent cement not purple in color and conforming to ASTM D 2564, CSA B137.3, CSA B181.2 or CSA B182.1 shall be applied to all joint surfaces. The joint shall be made while the cement is wet and shall be in accordance with ASTM D 2855. Solvent-cement joints shall be permitted above or below ground.*

705.14.3 Threaded joints. *Threads shall conform to ASME B1.20.1. Schedule 80 or heavier pipe shall be permitted to be threaded with dies specifically designed for plastic pipe. Approved thread lubricant or tape shall be applied on the male threads only.*

705.15 Vitrified clay. *Joints between vitrified clay pipe or fittings shall be made with an elastomeric seal conforming to ASTM C 425, ASTM C 1173 or CAN/CSA B602.*

705.16 Joints between different materials. *Joints between different piping materials shall be made with a mechanical joint of the compression or mechanical-sealing type conforming to ASTM C 1173, ASTM C 1460 or ASTM C 1461. Connectors and adapters shall be approved for the application and such joints shall have an elastomeric seal conforming to ASTM C 425, ASTM C 443, ASTM C 564, ASTM C 1440, ASTM D 1869, ASTM F 477, CAN/CSA A257.3M or CAN/CSA B602, or as required in Sections 705.16.1 through 705.16.5. Joints between glass pipe and other types of materials shall be made with adapters having a TFE seal. Joints shall be installed in accordance with the manufacturer's instructions.*

705.16.1 Copper or copper-alloy tubing to cast-iron hub pipe. *Joints betweecopper or copper-alloy tubing and cast-iron hub pipe shall be made with a brass ferrule or compression joint. The copper or copper-alloy tubing shall be soldered to the ferrule in an approved manner, and the ferrule shall be joined to the cast-iron hub by a caulked joint or a mechanical compression joint.*

705.16.2 Reserved.

705.16.3 Cast-iron pipe to galvanized steel or brass pipe. *Joints between cast-iron and galvanized steel or brass pipe shall be made by either caulked or threaded joints or with an approved adapter fitting.*

705.16.4 Plastic pipe or tubing to other piping material. *Joints between different grades of plastic pipe or between plastic pipe and other piping material shall be made with an approved adapter fitting. Joints between plastic pipe and cast-iron hub pipe shall be made by a caulked joint or a mechanical compression joint.*

705.16.5 Lead pipe to other piping material. *Joints between lead pipe and other piping material shall be made by a wiped joint to a caulking ferrule, soldering nipple, or bushing or shall be made with an approved adapter fitting.*

705.16.6 Borosilicate glass to other materials. *Joints between glass pipe and other types of materials shall be made with adapters having a TFE seal and shall be installed in accordance with the manufacturer's instructions.*

705.16.7 Stainless steel drainage systems to other materials. *Joints between stainless steel drainage systems and other piping materials shall be made with approved mechanical couplings.*

705.17 Drainage slip joints. *Slip joints shall comply with Section 405.8.* ***705.18 Caulking ferrules.*** *Ferrules shall be of red brass and shall be in accordance with Table 705.18.*

TABLE 705.18
CAULKING FERRULE SPECIFICATIONS

PIPE SIZES	INSIDE DIAMETER	LENGTH	MINIMUM WEIGHT EACH
2	2¼	4½	1 pound
3	3¼	4½	1 pound 12
4	4¼	4½	2 pounds 8

For SI: 1 inch = 25.4 mm, 1 ounce = 28.35 g, 1 pound = 0.454 kg.

705.19 Soldering bushings. *Soldering bushings shall be of red brass and shall be in accordance with Table 705.19.*

TABLE 705.19
SOLDERING BUSHING SPECIFICATIONS

PIPE SIZES (inches)	MINIMUM WEIGHT EACH
1¼	6 ounces
1½	8 ounces
2	14 ounces
2½	1 pound 6 ounces
3	2 pounds
4	3 pounds 8 ounces

For SI: 1 inch = 25.4 mm, 1 ounce = 28.35 g, 1 pound = 0.454 kg.

705.20 Stainless steel drainage systems. *O-ring joints for stainless steel drainage systems shall be made with an approved elastomeric seal.*

SECTION PC 706
CONNECTIONS BETWEEN DRAINAGE PIPING AND FITTINGS

706.1 Connections and changes in direction. *All connections and changes in direction of the sanitary drainage system shall be made with approved drainage fittings. Connections between drainage piping and fixtures shall conform to Section PC 405.*

706.2 Obstructions. *The fittings shall not have ledges, shoulders or reductions capable of retarding or obstructing flow in the piping. Threaded drainage pipe fittings shall be of the recessed drainage type.*

706.3 Installation of fittings. *Fittings shall be installed to guide sewage and waste in the direction of flow. Change in direction shall be made by fittings installed in accordance with Table 706.3. Change in direction by combination fittings, side inlets or increasers shall be installed in accordance with Table 706.3 based on the pattern of flow created by the fitting.*

TABLE 706.3
FITTINGS FOR CHANGE IN DIRECTION

TYPE OF FITTING PATTERN	CHANGE IN DIRECTION		
	Horizontal to vertical	Vertical to horizontal	Horizontal to horizontal
Sixteenth bend	X	X	X
Eighth bend	X	X	X
Sixth bend	X	X	X
Quarter bend	X	X[a]	X[a]
Short sweep	X	X[a,b]	X[a]
Long sweep	X	X	X
Sanitary tee	X[c]	-	-
Wye	X	X	X
Combination wye and eighth	X	X	X

For SI: 1 inch = 25.4 mm.

The fittings shall only be permitted for a 2-inch or smaller fixture drain.

Three inches or larger.

For a limitation on double sanitary tees, see Section 706.3.

SECTION PC 707
PROHIBITED JOINTS AND CONNECTIONS

707.1 Prohibited joints. *The following types of joints and connections shall be prohibited:*

1. *Cement or concrete joints.*
2. *Mastic or hot-pour bituminous joints.*
3. *Joints made with fittings not approved for the specific installation.*
4. *Joints between different diameter pipes made with elastomeric rolling O-rings.*
5. *Solvent-cement joints between different types of plastic pipe.*
6. *Saddle-type fittings.*

SECTION PC 708
CLEANOUTS

708.1 Scope. *This section shall govern the size, location, installation and maintenance of drainage pipe cleanouts.*

708.2 Cleanout plugs. *Cleanout plugs shall be brass or plastic, or other approved materials. Brass cleanout plugs shall be utilized with metallic drain, waste and vent piping only, and shall conform to ASTM A 74, ASME A112.3.1 or ASME A112.36.2M. Cleanouts with plate-style access covers shall be fitted with corrosion-resisting fasteners. Plastic cleanout plugs shall conform to the requirements of Section 702.4. Plugs shall have raised square or countersunk square heads. Countersunk heads shall be installed where raised heads are a trip hazard. Cleanout plugs with borosilicate glass systems shall be of borosilicate glass.*

708.3 Where required. *Cleanouts shall be located in accordance with Sections 708.3.1 through 708.3.4.*

708.3.1 Horizontal drains within buildings. *All horizontal drains shall be provided with cleanouts located not more than 100 feet (30 480 mm) apart.*

708.3.2 Building sewers. *Building sewers shall be provided with cleanouts located not more than 100 feet (30 480 mm) apart measured from the upstream entrance of the cleanout. For building sewers 8 inches (203 mm) and larger, manholes shall be provided and located not more than 200 feet (60 960 mm) from the junction of the building drain and building sewer, at each change in direction and at intervals of not more than 400 feet (122 m) apart. Manholes and manhole covers shall be of an approved type.*

708.3.3 Changes of direction. *Cleanouts shall be installed at each change of direction of the building drain or horizontal waste or soil lines greater than 45 degrees (0.79 rad). Where more than one change of direction occurs in a run of piping, only one cleanout shall be required for each 40 feet (12 192 mm) of developed length of the drainage piping.*

708.3.4 Base of stack. *A cleanout shall be provided at the base of each waste or soil stack.*

708.3.5 Manholes. *Manholes serving a building drain shall have secured gas-tight covers and shall be located in accordance with Section 708.3.2.*

708.4 Concealed piping. *Cleanouts on concealed piping or piping under a floor slab or in a crawl space of less than 24 inches (610 mm) in height or a plenum shall be extended through and terminate flush with the finished wall, floor or ground surface or shall be extended to the outside of the building. Cleanout plugs shall not be covered with cement, plaster or any other permanent finish material. Where it is necessary to conceal a cleanout or to terminate a cleanout in an area subject to vehicular traffic, the covering plate, access door or cleanout shall be of an approved type designed and installed for this purpose.*

708.5 Opening direction. *Every cleanout shall be installed to open to allow cleaning in the direction of the flow of the drainage pipe or at right angles thereto.*

708.6 Prohibited installation. *Cleanout openings shall not be utilized for the installation of new fixtures, except where approved and where another cleanout of equal access and capacity is provided.*

708.7 Minimum size. *Cleanouts shall be the same nominal size as the pipe they serve up to 4 inches (102 mm). For pipes larger than 4 inches (102 mm) nominal size, the minimum size of the cleanout shall be 4 inches (102 mm).*

Exceptions:

1. *"P" trap connections with slip joints or ground joint connections, or stack cleanouts that are not more than one pipe diameter smaller than*

the drain served, shall be permitted.

2. *Cast-iron cleanout sizing shall be in accordance with referenced standards in Table 702.4, ASTM A 74 for hub and spigot fittings or ASTM A 888 or CISPI 301 for hubless fittings.*

708.8 Clearances. *Cleanouts on 6-inch (153 mm) and smaller pipes shall be provided with a clearance of not less than18 inches (457 mm) for rodding. Cleanouts on 8-inch (203 mm) and larger pipes shall be provided with a clearance of not less than 36 inches (914 mm) for rodding.*

708.9 Access. *Access shall be provided to all cleanouts.*

SECTION PC 709
FIXTURE UNITS

709.1 Values for fixtures. *Drainage fixture unit values as given in Table 709.1 designate the relative load weight of different kinds of fixtures that shall be employed in estimating the total load carried by a soil or waste pipe, and shall be used in connection with Tables 710.1(1) and 710.1(2) of sizes for soil, waste and vent pipes for which the permissible load is given in terms of fixture units.*

TABLE 709.1
DRAINAGE FIXTURE UNITS FOR FIXTURES AND GROUPS

FIXTURE TYPE	DRAINAGE FIXTURE UNIT VALUE AS LOAD	MINIMUM SIZE OF TRAP (inches)
Automatic clothes washers, commercial[f,g]	3	2
Automatic clothes washers, residential[g]	2	2
Bathroom group as defined in Section 202 (1.6 gpf)	5	—
Bathroom group as defined in Section 202 (water closet flushing	6	—
Bathtub[b] (with or without overhead shower or whirlpool	2	1½
Bidet	1	1¼
Combination sink and tray	2	1½
Dental lavatory	1	1¼
Dental unit or cuspidor	1	1¼
Dishwashing machine,[c] domestic	2	1½
Drinking fountain	½	1¼
Emergency floor drain	0	2
Floor drains	2	2
Kitchen sink, domestic	2	1½
Kitchen sink, domestic with food waste grinder and/or	2	1½
Laundry tray (1 or 2 compartments)	2	1½
Lavatory	1	1¼
Shower	2	1½
Sink	2	1½
Urinal	4	Note d
Urinal, 1 gallon per flush or less	2[e]	Note d
Wash sink (circular or multiple) each set of faucets	2	1½
Water closet, flushometer tank, public or private	4[e]	Note d
Water closet, private (1.6 gpf)	3[e]	Note d
Water closet, private (flushing greater than 1.6 gpf)	4[e]	Note d
Water closet, public (1.6 gpf)	4[e]	Note d
Water closet, public (flushing greater than 1.6 gpf)	6[e]	Note d

For SI: 1 inch = 25.4 mm, 1 gallon = 3.785 L.

For traps larger than 3 inches, use Table 709.2.

A shower head over a bathtub or whirlpool bathtub attachment does not increase the drainage fixture unit value.

See Sections 709.2 through 709.4 for methods of computing unit value of fixtures not listed in this table or for rating of devices with intermittent flows.

Trap size shall be consistent with the fixture outlet size.

For the purpose of computing loads on building drains and sewers, water closets and urinals shall not be rated at a lower drainage fixture unit unless the lower values are confirmed by testing.

For fixtures added to a dwelling unit bathroom group, add the DFU value of those additional fixtures to the bathroom group fixture count.

See Section 406.3 for sizing requirements for fixture drain, branch drain, and drainage stack for an automatic clothes washer standpipe.

709.2 Fixtures not listed in Table 709.1. *Fixtures not listed in Table 709.1 shall have a drainage fixture unit load based on the outlet size of the fixture in accordance with Table 709.2. The minimum trap size for unlisted fixtures shall be the size of the drainage outlet but not less than 1.25 inches (32 mm).*

TABLE 709.2
DRAINAGE FIXTURE UNITS FOR FIXTURE DRAINS OR TRAPS

FIXTURE DRAIN OR TRAP SIZE (inches)	DRAINAGE FIXTURE UNIT VALUE
1¼	1
1½	2
2	3
2½	4
3	5
4	6

For SI: 1 inch = 25.4 mm.

709.3 Values for continuous and semicontinuous flow. *Drainage fixture unit values for continuous and semicontinuous flow into a drainage system shall be computed on the basis that 1 gpm (0.06 L/s) of flow is equivalent to two fixture units.*

709.4 Values for indirect waste receptor. *The drainage fixture unit load of an indirect waste receptor receiving the discharge of indirectly connected fixtures shall be the sum of the drainage fixture unit values of the fixtures that discharge to the receptor, but not less than the drainage fixture unit value given for the indirect waste receptor in Table 709.1 or 709.2.*

SECTION PC 710
DRAINAGE SYSTEM SIZING

710.1 Maximum fixture unit load. *The maximum number of drainage fixture units connected to a given size of building sewer, building drain or horizontal branch of the building drain shall be determined using Table 710.1(1). The maximum number of drainage fixture units connected to a given size of horizontal branch or vertical soil or waste stack shall be determined using Table 710.1(2).*

710.1.1 Horizontal stack offsets. *Horizontal stack offsets shall be sized as required for building drains in accordance with Table 710.1(1), except as required by Section 711.4.*

710.1.2 Vertical stack offsets. *Vertical stack offsets shall be sized as required for straight stacks in accordance with Table 710.1(2), except where required to be sized as a building drain in accordance with Section 711.1.1.*

TABLE 710.1 (1)
BUILDING DRAINS AND SEWERS

DIAMETER OF PIPE (inches)	MAXIMUM NUMBER OF DRAINAGE FIXTURE UNITS CONNECTED TO ANY PORTION OF THE BUILDING DRAIN OR THE BUILDING SEWER, INCLUDING BRANCHES OF THE BUILDING DRAIN[a]

12	2	1	6	8
15	7	N	N	N

For SI:1 inch = 25.4mm

a. Does not include branches of the building drain. Refer to Table 710.1(1).

b. Stacks shall be sized based on the total accumulated connected load at each story or branch interval. As the total accumulated connected load decreases, stacks are permitted to be reduced in size. Stack diameters shall not be reduced to less than one-half of the diameter of the largest stack size required.

c. Sizing load based on design criteria.

710.2 Reserved.

SECTION PC 711
OFFSETS IN DRAINAGE PIPING IN BUILDINGS OF FIVE STORIES OR MORE

711.1 Horizontal branch connections above or below vertical stack offsets. *If a horizontal branch connects to the stack within 2 feet (610 mm) above or below a vertical stack offset, and the offset is located more than four branch intervals below the top of the stack, the offset shall be vented in accordance with Section PC 915.*

711.1.1 Omission of vents for vertical stack offsets. *Vents for vertical offsets required by section 711.1 shall not be required where the stack and its offset are sized as a building drain (see Table 710.1(1), Column 5).*

711.2 Horizontal branch connections to horizontal stack offsets. *Where a horizontal stack offset is located more than four branch intervals below the top of the stack, a horizontal branch shall not connect within the horizontal stack offset or within 2 feet (610 mm) above or below such offset.*

711.3 Horizontal stack offsets. *A stack with a horizontal offset located more than four branch intervals below the top of the stack shall be vented in accordance with Section PC 915 and sized as follows:*

1. *The portion of the stack above the offset shall be sized as for a vertical stack based on the total number of drainage fixture units above the offset.*
2. *The offset shall be sized in accordance with Section 710.1.1.*
3. *The portion of the stack below the offset shall be sized as for the offset or based on the total number of drainage fixture units on the entire stack, whichever is larger (see Table 710.1(2), Column 4).*

711.3.1 Omission of vents for horizontal stack offsets. *Vents for horizontal stack offsets required by Section 711.3 shall not be required where the stack and its offset are one pipe size larger than required for a building drain (see Table 710.1(1), Column 5) and the entire stack and offset are not less in cross-sectional area than that required for a straight stack plus the area of an offset vent as provided for in Section PC 915. Omission of offset vents in accordance with this section shall not constitute approval of horizontal branch connections within the offset or within 2 feet (610 mm) above or below the offset.*

711.4 Offsets below lowest branch. *Where a vertical offset occurs in a soil or waste stack below the lowest horizontal branch, change in diameter of the stack because of the offset shall not be required. If a horizontal offset occurs in a soil or waste stack below the lowest horizontal branch, the required diameter of the offset and the stack below it shall be determined as for a building drain in accordance with Table 710.1(1).*

SECTION PC 712
EJECTORS

712.1 Building subdrains. *Building subdrains that cannot be discharged to the sewer by gravity flow shall be discharged into a tightly covered and vented ejector pit/basin from which the liquid shall be lifted and discharged into the building gravity drainage system by automatic pumping equipment or other approved method.*

712.2 Valves required. *A check valve and full open valve, located on the discharge side of the check valve, shall be installed in the pump or ejector discharge piping between the pump or ejector and the gravity drainage system. Access shall be provided to such valves. Such valves will be located above the sump cover required by Section 712.1 or, where the discharge pipe from the ejector is below grade, the valves shall be accessibly located outside the sump below grade in an access pit with a removable access cover.*

712.3 Ejector design. *The ejector, pit and discharge piping shall conform to the requirements of Sections 712.3.1 through 712.3.5.*

712.3.1 Ejector pump. *The ejector pump capacity and head shall be appropriate to anticipated use requirements.*

712.3.2 Ejector pit. *The ejector pit shall be not less than 18 inches (457 mm) in diameter and 24 inches (610 mm) deep, unless otherwise approved. The pit shall be accessible and located such that all drainage flows into the pit by gravity. The ejector pit shall be constructed of tile, concrete, steel, plastic or other approved materials. The pit bottom shall be solid and provide permanent support for the pump. The ejector pit shall be fitted with a gas-tight removable cover adequate to support anticipated loads in the area of use. The ejector pit shall be vented in accordance with Chapter 9.*

712.3.3 Discharge piping. *Discharge piping shall meet the requirements of Section 712.2.*

712.3.4 Maximum effluent level. *The effluent level control shall be adjusted and maintained to at all times prevent the effluent from rising to within 2 inches (51 mm) of the invert of the gravity drain inlet into the sump.*

712.3.5 Ejector connection to the drainage system. *Pumps connected to the drainage system shall connect to the building sewer or shall connect to a wye fitting in the building drain a minimum of 10 feet (3048 mm) from the base of any soil stack, waste stack or fixture drain. Where the discharge line connects into horizontal drainage piping, the connector shall be made through a wye fitting into the top of the drainage piping.*

712.4 Sewage pumps and sewage ejectors. *A sewage pump or sewage ejector shall automatically discharge the contents of the pit to the building drainage system downstream of the house trap.*

712.4.1 Macerating toilet systems. *Macerating toilet systems shall comply with CSA B45.9 or ASME A112.3.4 and shall be installed in accordance with the manufacturer's installation instructions.*

712.4.2 Capacity. *A sewage pump or sewage ejector shall have the capacity and head for the application requirements. Pumps or ejectors that receive the discharge of water closets shall be capable of handling spherical solids with a diameter of up to and including 2 inches (51 mm). Other pumps or ejectors shall be capable of handling spherical solids with a diameter of up to and including 1 inch (25.4 mm). The minimum capacity of a pump or ejector based on the diameter of the discharge pipe shall be in accordance with Table 712.4.2.*

Exceptions:

1. *Grinder pumps or grinder ejectors that receive the discharge of water closets shall have a minimum discharge opening of 1.25 inches (32 mm).*
2. *Macerating toilet assemblies that serve single water closets shall have a minimum discharge opening of 0.75 inch (19 mm).*

TABLE 712.4.2
MINIMUM CAPACITY OF SEWAGE PUMP OR SEW AGE EJECTOR

DIAMETER OF THE DISCHARGE PIPE (inches)	CAPACITY OF PUMP OR EJECTOR (gpm)

For SI: 1 inch = 25.4 mm, 1 gallon per minute = 3.785 L/m.

SECTION PC 713

HEALTH CARE PLUMBING

713.1 Scope. *This section shall govern those aspects of health care plumbing systems that differ from plumbing systems in other structures. Health care plumbing systems shall conform to this section in addition to the other requirements of this code. The provisions of this section shall apply to the special devices and equipment installed and maintained in the following occupancies: nursing homes; homes for the aged; orphanages; infirmaries; first aid stations; psychiatric facilities; clinics; professional offices of dentists and doctors; mortuaries; educational facilities; surgery, dentistry, research and testing laboratories; establishments manufacturing pharmaceutical drugs and medicines; and other structures with similar apparatus and equipment classified as plumbing.*

713.2 Bedpan washers and clinical sinks. *Bedpan washers and clinical sinks shall connect to the drainage and vent system in accordance with the requirements for a water closet. Bedpan washers shall also connect to a local vent.*

713.3 Indirect waste. *All sterilizers, steamers and condensers shall discharge to the drainage through an indirect waste pipe by means of an air gap. Where a battery of not more than three sterilizers discharges to an individual receptor, the distance between the receptor and a sterilizer shall not exceed 8 feet (2438 mm). The indirect waste pipe on a bedpan steamer shall be trapped.*

713.4 Vacuum system station. *Ready access shall be provided to vacuum system station receptacles. Such receptacles shall be built into cabinets or recesses and shall be visible.*

713.5 Bottle system. *Vacuum (fluid suction) systems intended for collecting, removing and disposing of blood, pus or other fluids by the bottle system shall be provided with receptacles equipped with an overflow prevention device at each vacuum outlet station.*

713.6 Central disposal system equipment. *All central vacuum (fluid suction) systems shall provide continuous service. Systems equipped with collecting or control tanks shall provide for draining and cleaning of the tanks while the system is in operation. In hospitals, the system shall be connected to the emergency power system. The exhausts from a vacuum pump serving a vacuum (fluid suction) system shall discharge separately to open air above the roof.*

713.7 Central vacuum or disposal systems. *Where the waste from a central vacuum (fluid suction) system of the barometric-lag, collection-tank or bottle-disposal type is connected to the drainage system, the waste shall be directly connected to the sanitary drainage system through a trapped waste.*

713.7.1 Piping. *The piping of a central vacuum (fluid suction) system shall be of corrosion-resistant material with a smooth interior surface. A branch shall not be less than 0.5 inch (12.7 mm) nominal pipe size for one outlet and shall be sized in accordance with the number of vacuum outlets. A main shall not be less than 1 inch (25 mm) nominal pipe size. The pipe sizing shall be increased in accordance with the manufacturer's instructions as stations are increased.*

713.7.2 Velocity. *The velocity of airflow in a central vacuum (fluid suction) system shall be less than 5,000 feet per minute (25 m/s).*

713.8 Vent connections prohibited. *Connections between local vents serving bedpan washers or sterilizer vents serving sterilizing apparatus and normal sanitary plumbing systems are prohibited. Only one type of apparatus shall be served by a local vent.*

*713.9 **Local vents and stacks for bedpan washers.** Bedpan washers shall be vented to open air above the roof by means of one or more local vents. The local vent for a bedpan washer shall not be less than a 2-inch-diameter (51 mm) pipe. A local vent serving a single bedpan washer is permitted to drain to the fixture served.*

*713.9.1 **Multiple installations.** Where bedpan washers are located above each other on more than one floor, a local vent stack is permitted to be installed to receive the local vent on the various floors. Not more than three bedpan washers shall be connected to a 2-inch (51 mm) local vent stack, not more than six to a 3-inch (76 mm) local vent stack and not more than 12 to a 4-inch (102 mm) local vent stack. In multiple installations, the connections between a bedpan washer local vent and a local vent stack shall be made with tee or tee-wye sanitary pattern drainage fittings installed in an upright position.*

*713.9.2 **Trap required.** The bottom of the local vent stack, except where serving only one bedpan washer, shall be drained by means of a trapped and vented waste connection to the sanitary drainage system. The trap and waste shall be the same size as the local vent stack.*

*713.9.3 **Trap seal maintenance.** A water supply pipe not less than ¼ inch (6.4 mm) in diameter shall be taken from the flush supply of each bedpan washer on the discharge or fixture side of the vacuum breaker, shall be trapped to form not less than a 3-inch (76 mm) water seal, and shall be connected to the local vent stack on each floor. The water supply shall be installed so as to provide a supply of water to the local vent stack for cleansing and drain trap seal maintenance each time a bedpan washer is flushed.*

*713.10 **Sterilizer vents and stacks.** Multiple installations of pressure and nonpressure sterilizers shall have the vent connections to the sterilizer vent stack made by means of inverted wye fittings. Access shall be provided to vent connections for the purpose of inspection and maintenance.*

*713.10.1 **Drainage.** The connection between sterilizer vent or exhaust openings and the sterilizer vent stack shall be designed and installed to drain to the funnel or basket-type waste fitting. In multiple installations, the sterilizer vent stack shall be drained separately to the lowest sterilizer funnel or basket-type waste fitting or receptor.*

*713.11 **Sterilizer vent stack sizes.** Sterilizer vent stack sizes shall comply with Sections 713.11.1 through 713.11.4.*

*713.11.1 **Bedpan steamers.** The minimum size of a sterilizer vent serving a bedpan steamer shall be 1.50 inches (38 mm) in diameter. Multiple installations shall be sized in accordance with Table 713.11.1.*

TABLE 713.11.1
STACK SIZES FOR BEDPAN STEAMERS AND BOILING-TYPE STERILIZERS
(Number of Connections of Various Sizes Permitted to Various-sized Sterilizer Vent Stacks)

STACK SIZE (inches)	CONNECTION SIZE

4[a]	8	or	4
4[b]	4	and	4

For SI: 1 inch = 25.4 mm.
a. Total of each size.
b. Combination of sizes.

*713.11.2 **Boiling-type sterilizers.** The minimum size of a sterilizer vent stack shall be 2 inches (51 mm) in diameter where serving a utensil sterilizer and 1.5 inches (38 mm) in diameter where serving an instrument sterilizer. Combinations of boiling-type sterilizer vent connections shall be sized in accordance with Table 713.11.1.*

*713.11.3 **Pressure sterilizers.** Pressure sterilizer vent stacks shall be 2.5 inches (64 mm) minimum. Those serving combinations of pressure sterilizer exhaust connections shall be sized in accordance with Table 713.11.3.*

TABLE 713.11.3

3[b]	1 and	1 and 5 and	2 and —	2 1

For SI: 1 inch = 25.4 mm.
a. Total of each size.
b. Combination of sizes.

*713.11.4 **Pressure instrument washer sterilizer sizes.** The minimum diameter of a sterilizer vent stack serving an instrument washer sterilizer shall be 2 inches (51 mm). Not more than two sterilizers shall be installed on a 2-inch (51mm) stack, and not more than four sterilizers shall be installed on a 3-inch (76 mm) stack.*

SECTION PC 714
COMPUTERIZED DRAINAGE DESIGN

*714.1 **Design of drainage system.** The sizing, design and layout of the drainage system shall be permitted to be designed by approved computer design methods.*

*714.2 **Load on drainage system.** The load shall be computed from the simultaneous or sequential discharge conditions from fixtures, appurtenances and appliances or the peak usage design condition.*

*714.2.1 **Fixture discharge profiles.** The discharge profiles for flow rates versus time from fixtures and appliances shall be in accordance with the manufacturer's specifications.*

*714.3 **Selections of drainage pipe sizes.** Pipe shall be sized to prevent full-bore flow.*

*714.3.1 **Selecting pipe wall roughness.** Pipe size calculations shall be conducted with the pipe wall roughness factor (k_s), in accordance with the manufacturer's specifications and as modified for aging roughness factors with deposits and corrosion.*

*714.3.2 **Slope of horizontal drainage piping.** Horizontal drainage piping shall be designed and installed at slopes in accordance with Table 704.1.*

SECTION PC 715
BACKWATER VALVES

*715.1 **Sewage backflow.** Where fixtures, floor drains, or area drains are subject to overflow as the result of backwater from the public sewer system, accessible backwater valves shall be installed in the fixture drain pipe from such fixture, in the branch drain to such area drain or group of fixtures, or in the building drain at its point of exit from the building and downstream from the building trap.*

*715.2 **Material.** All bearing parts of backwater valves shall be of corrosion-resistant material. Backwater valves shall comply with ASME A112.14.1, CSA B181.1 or CSA B181.2.*

*715.3 **Seal.** Backwater valves shall be so constructed as to provide a mechanical seal against backflow. The flap shall be so designed as to hang partially open when not subject to backwater pressure.*

*715.4 **Diameter.** Backwater valves, when fully opened, shall have a capacity not less than that of the pipes in which they are installed.*

*715.5 **Accessibility.** Backwater valves shall be installed so that access is provided to the working parts for service and repair. Masonry access manholes shall be provided when the centerline of any drain line is 18 inches (457 mm) or more below a slab on grade.*

CHAPTER 8
INDIRECT/SPECIAL WASTE

SECTION PC 801
GENERAL

*801.1 **Scope.** This chapter shall govern matters concerning indirect waste piping and special wastes. This chapter shall further control matters concerning food-handling establishments, sterilizers, clear-water wastes, swimming pools, methods of providing air breaks or air gaps, and neutralizing devices for corrosive wastes.*

*801.2 **Protection.** All devices, appurtenances, appliances and apparatus intended to serve some special function, such as sterilization, distillation, processing, cooling, or storage of ice or foods, and that discharge to the drainage system, shall be provided with protection against backflow, flooding, fouling, contamination and stoppage of the drain.*

SECTION PC 802
INDIRECT WASTES

*802.1 **Where required.** Food-handling equipment and clear-water waste shall discharge through an indirect waste pipe as specified in Sections 802.1.1 through 802.1.7. All health-care related fixtures, devices and equipment shall discharge to the drainage system through an indirect waste pipe by means of an air gap in accordance with this chapter and Section 713.3. Fixtures not required by this section to be indirectly connected shall be directly connected to the plumbing system in accordance with Chapter 7.*

*802.1.1 **Food handling.** Equipment and fixtures utilized for the storage, preparation and handling of food shall discharge through an indirect waste pipe by means of an air gap.*

*802.1.2 **Floor drains in food storage areas.** Floor drains located within walk-in refrigerators or freezers in food service and food establishments shall be*

indirectly connected to the sanitary drainage system by means of an air gap. Where a floor drain is located within an area subject to freezing, the waste line serving the floor drain shall not be trapped and shall indirectly discharge into a waste receptor located outside of the area subject to freezing.

Exception: *Where protected against backflow by a backwater valve, such floor drains shall be indirectly connected to the sanitary drainage system by means of an air break or an air gap.*

802.1.3 Potable clear-water waste. *Where devices and equipment, such as sterilizers and relief valves, discharge potable water to the building drainage system, the discharge shall be through an indirect waste pipe by means of an air gap.*

802.1.4 Swimming pools. *Where wastewater from swimming pools, backwash from filters and water from pool deck drains discharge to the building drainage system, the discharge shall be through an indirect waste pipe by means of an air gap.*

802.1.5 Nonpotable clear-water waste. *Where devices and equipment such as process tanks, filters, drips and boilers discharge nonpotable water to the building drainage system, the discharge shall be through an indirect waste pipe by means of an air break or an air gap.*

802.1.6 Domestic Dishwashing machines. *Domestic dishwashing machines shall discharge indirectly through an air gap or air break into a standpipe or waste receptor in accordance with Section 802.2, or discharge into a wye-branch fitting on the tailpiece of the kitchen sink or the dishwasher connection of a food waste grinder. The waste line of a domestic dishwashing machine discharging into a kitchen sink tailpiece or food waste grinder shall connect to a deck-mounted air gap or the waste line shall rise and be securely fastened to the underside of the sink rim or counter.*

802.1.7 Commercial dishwashing machines. *The discharge from a commercial dishwashing machine shall be through an air gap or air break into a standpipe or waste receptor in accordance with Section 802.2.*

802.2 Installation. *All indirect waste piping shall discharge through an air gap or air break into a waste receptor or standpipe. Waste receptors and standpipes shall be trapped and vented and shall connect to the building drainage system. All indirect waste piping that exceeds 2 feet (610 mm) in developed length measured horizontally, or 4 feet (1219 mm) in total developed length, shall be trapped.*

802.2.1 Air gap. *The air gap between the indirect waste pipe and the flood level rim of the waste receptor shall be a minimum of twice the effective opening of the indirect waste pipe.*

802.2.2 Air break. *An air break shall be provided between the indirect waste pipe and the trap seal of the waste receptor or standpipe.*

802.3 Waste receptors. *Every waste receptor shall be of an approved type. A removable strainer or basket shall cover the waste outlet of waste receptors. Waste receptors shall be installed in ventilated spaces. Waste receptors shall not be installed in bathrooms or toilet rooms or in any inaccessible or unventilated space such as a closet or storeroom. Ready access shall be provided to waste receptors.*

802.3.1 Size of receptors. *A waste receptor shall be sized for the maximum discharge of all indirect waste pipes served by the receptor. Receptors shall be installed to prevent splashing or flooding.*

802.3.2 Open hub waste receptors. *Waste receptors shall be permitted in the form of a hub or pipe extending not less than 1 inch (25.4 mm) above a water-impervious floor and are not required to have a strainer.*

802.4 Standpipes. *Standpipes shall be individually trapped. Standpipes shall extend a minimum of 18 inches (457 mm) and a maximum of 42 inches (1067 mm) above the trap weir. Access shall be provided to all standpipes and drains for rodding.*

SECTION PC 803
SPECIAL WASTES

803.1 Wastewater temperature. *Steam pipes shall not connect to any part of a drainage or plumbing system and water above 150°F (66°C) shall not be discharged into any part of a drainage system. Such pipes shall discharge into an indirect waste receptor connected to the drainage system.*

803.2 Neutralizing device required for corrosive wastes. *Corrosive liquids, spent acids or other harmful chemicals that destroy or injure a drain, sewer, soil or waste pipe, or create noxious or toxic fumes or interfere with sewage treatment processes shall not be discharged into the plumbing system without being thoroughly neutralized or treated in accordance with the requirements of the New York city department of environmental protection.*

803.3 System design. *A chemical drainage and vent system shall be designed and installed in accordance with this code. Chemical drainage and vent systems shall be completely separated from the sanitary systems. Chemical waste shall not discharge to a sanitary drainage system until such waste has been treated in accordance with Section 803.2.*

SECTION PC 804
MATERIALS, JOINTS AND CONNECTIONS

804.1 General. *The materials and methods utilized for the construction and installation of indirect waste pipes and systems shall comply with the applicable provisions of Chapter 7.*

CHAPTER 9
VENTS

SECTION PC 901
GENERAL

901.1 Scope. *The provisions of this chapter shall govern the materials, design, construction and installation of vent systems.*

901.2 Trap seal protection. *The plumbing system shall be provided with a system of vent piping that will permit the admission or emission of air so that the seal of any fixture trap shall not be subjected to a pneumatic pressure differential of more than 1 inch of water column (249 Pa).*

901.2.1 Venting required. *Every trap and trapped fixture shall be vented in accordance with one of the venting methods specified in this chapter.*

901.3 Chemical waste vent system. *The vent system for a chemical waste system shall be independent of the sanitary vent system and shall terminate separately through the roof to the open air.*

901.4 Use limitations. *The plumbing vent system shall not be utilized for purposes other than the venting of the plumbing system.*

901.5 Tests. *The vent system shall be tested in accordance with Section PC 312.*

901.6 Engineered systems. *Engineered venting systems shall conform to the provisions of Section PC 918.*

SECTION PC 902
MATERIALS

902.1 Vents. *The materials and methods utilized for the construction and installation of venting systems shall comply with the applicable provisions of Section PC 702.*

902.2 Sheet copper. *Sheet copper for vent pipe flashings shall conform to ASTM B 152 and shall weigh not less than 8 ounces per square foot (2.5 kg/m^2).*

902.3 Sheet lead. *Sheet lead for vent pipe flashings shall weigh not less than 3 pounds per square foot (15 kg/m^2) for field-constructed flashings and not less than 2.5 pounds per square foot (12 kg/m^2) for prefabricated flashings.*

SECTION PC 903
VENT STACKS AND STACK VENTS

903.1 Stack required. *Every building in which plumbing is installed shall have at least one 4 inch vent stack (or stack vent). Such stack shall run undiminished in size and as directly as possible from the building drain through to the open air above the roof.*

903.1.1 Connection to drainage system. *A vent stack shall connect to the building drain or to the base of a drainage stack in accordance with Section 903.4. A stack vent shall be an extension of the drainage stack.*

903.2 Vent stack required. *A vent stack shall be required for every drainage stack that is three branch intervals or more.*

903.3 Vent termination. *Every vent stack or stack vent shall terminate outdoors above the roof or to the stack vent portion of the soil or waste stack, at least 6 inches (152 mm) above the flood level of the highest fixture connection discharging into the soil or waste stack.*

903.4 Vent connection at base. *Every vent stack shall connect to the base of the drainage stack. The vent stack shall connect at or below the lowest horizontal branch. Where the vent stack connects to the building drain, the connection shall be located downstream of the drainage stack and within a distance of 10 times the diameter of the drainage stack.*

903.5 Vent headers. *Stack vents and vent stacks connected into a common vent header at the top of the stacks and extending to the open air above the roof at one point shall be sized in accordance with the requirements of Section 916.1, but shall not be smaller than the smallest stack vent. The number of fixture units shall be the sum of all fixture units on all stacks connected thereto, and the developed length shall be the longest vent length from the intersection at the base of the most distant stack to the vent terminal in the open air, as a direct extension of one stack.*

903.6 Sub stack connections. *Where it is desired to terminate stacks at a point below the roof terminus of the main vent stack, the sub-stack may connect to the main vent stack provided the portion of the main vent stack above the connection is sized for the total fixture unit load connected thereto, and for the maximum developed length of the stack or sub-stack.*

SECTION PC 904
VENT TERMINALS

904.1 Roof extension. *All open vent pipes that extend through a roof shall be terminated at least 24 inches (610 mm) above the roof, except that where a roof is to be used for any purpose other than weather protection or maintenance, the vent extensions shall be run at least 7 feet (2134 mm) above the roof. Approved vandal resistant vent caps may be used.*

904.2 Frost closure. *Where the 97.5-percent value for outside design temperature is 0°F (-18° C) or less, every vent extension through a roof shall be a minimum of 4 inches (102 mm) in diameter. Any increase in the size of the vent shall be made inside the structure directly below the roof.*

904.3 Flashings. *The juncture of each vent pipe with the roof line shall be made water tight by an approved flashing.*

904.4 Prohibited use. *Vent terminals shall not be used as a flag pole or to support flag poles, television aerials or similar items.*

904.5 Location of vent terminal. *An open vent terminal from a drainage system shall not be located directly beneath any door, operable window, or other air intake opening of the building or of an adjacent building, and any such vent terminal shall not be within 10 feet (3048 mm) horizontally of such an opening unless it is at least 3 feet (914 mm) above the top of such opening.*

904.6 and 904.7 Reserved.

SECTION PC 905
VENT CONNECTIONS AND GRADES

905.1 Connection. *All individual, branch and circuit vents shall connect to a vent stack, stack vent, or extend to the open air above the roof.*

905.2 Grade. All vent and branch vent pipes shall be so graded and connected as to drain back to the drainage pipe by gravity.
905.3 Vent connection to drainage system. Every dry vent connecting to a horizontal drain shall connect above the centerline of the horizontal drain pipe.
905.4 Reserved.
905.5 Height above fixtures. A connection between a vent pipe and a vent stack or stack vent shall be made at least 6 inches (152 mm) above the flood level rim of the highest fixture served by the vent. Horizontal vent pipes forming branch vents, relief vents or loop vents shall be at least 6 inches (152 mm) above the flood level rim of the highest fixture served.
905.6 Vent for future fixtures. Where the drainage piping has been roughed-in for future fixtures, a rough-in connection for a vent shall be installed. The vent size shall be not less than one half the diameter of the rough-in drain to be served. The vent rough-in shall connect to the vent system, or shall be vented by other means as provided for in this chapter. The connection shall be identified to indicate that it is a vent.

SECTION PC 906
FIXTURE VENTS

906.1 Reserved.
906.2 Venting of fixture drains. The vent for a fixture drain, except where serving a fixture with integral traps, such as water closets, shall connect above the weir of the fixture trap being vented.
906.3 Crown vent. A vent shall not be installed within two pipe diameters of the trap weir.

SECTION PC 907
INDIVIDUAL VENT

907.1 Individual vent permitted. Each trap and trapped fixture is permitted to be provided with an individual vent. The individual vent shall connect not more than 4 feet (1219 mm) to the fixture drain of the trap or trapped fixture being vented.
907.2 Floor drain vents. No vents will be required for piping serving floor drains when the floor drain is located not more than 15 feet (4572 mm) from a vented line.

SECTION PC 908
COMMON VENT

908.1 Individual vent as common vent. An individual vent is permitted to vent two traps or trapped fixtures as a common vent. The traps or trapped fixtures being common vented shall be located on the same floor level.
908.2 Connection at the same level. Where the fixture drains being common vented connect at the same level, the vent connection shall be at the interconnection of the fixture drains.
908.3 Connection at different levels. Where the fixture drains connect at different levels, the vent shall connect as a vertical extension of the vertical drain. The vertical drain pipe connecting the two fixture drains shall be considered the vent for the lower fixture drain, and shall be sized in accordance with Table 908.3. The upper fixture shall not be a water closet.

TABLE 908.3
COMMON VENT SIZES

PIPE SIZE (inches)	MAXIMUM DISCHARGE FROM UPPER FIXTURE DRAIN (dfu)
1½	1
2	4
2½ to 3	6

For SI: 1 inch = 25.4 mm.

SECTION PC 909
WET VENTING

909.1 Wet vent permitted. Any combination of fixtures within one bathroom group located in the same room are permitted to be vented by a wet vent. The wet vent shall be considered the vent for the fixtures and shall extend from the connection of the dry vent along the direction of the flow in the drain pipe to the most downstream fixture drain connection to the horizontal branch drain. Only the fixtures within the bathroom groups shall connect to the wet-vented horizontal branch drain. Any additional fixtures shall discharge downstream of the wet vent.
909.2 Vent connection. The dry vent connection to the wet vent shall be an individual vent or common vent to the lavatory, bidet, shower or bathtub. The dry vent shall be sized based on the largest required diameter of pipe within the wet vent system served by the dry vent.
909.3 Size. The wet vent shall be a minimum size of 2 inches (50.8 mm).

SECTION PC 910
WASTE STACK VENT
RESERVED

SECTION PC 911
CIRCUIT VENTING

911.1 Circuit vent permitted. A maximum of eight fixtures connected to a horizontal branch drain shall be permitted to be circuit vented. Each fixture drain shall connect horizontally to the horizontal branch being circuit vented. The horizontal branch drain shall be classified as a vent from the most downstream fixture drain connection to the most upstream fixture drain connection to the horizontal branch.

911.1.1 Multiple circuit-vented branches. Circuit-vented horizontal branch drains are permitted to be connected together. Each group of a maximum of eight fixtures shall be considered a separate circuit vent and shall conform to the requirements of this section.

911.2 Vent connection. The circuit vent connection shall be located between the two most upstream fixture drains. The vent shall connect to the horizontal branch and shall be installed in accordance with Section 905. The circuit vent pipe shall not receive the discharge of any soil or waste.
911.3 Slope and size of horizontal branch. The maximum slope of the vent section of the horizontal branch drain shall be one unit vertical in 12 units horizontal (8-percent slope). The entire length of the vent section of the horizontal branch drain shall be sized for the total drainage discharge to the branch.

911.3.1 Size of multiple circuit vent. Each separate circuit-vented horizontal branch that is interconnected shall be sized independently in accordance with Section 911.3. The downstream circuit-vented horizontal branch shall be sized for the total discharge into the branch, including the upstream branches and the fixtures within the branch.

911.4 Relief vent. A relief vent shall be provided for circuit vented horizontal branches receiving the discharge of four or more water closets and connecting to a drainage stack that receives the discharge of soil or waste from upper horizontal branches.

911.4.1 Connection and installation. The relief vent shall connect to the horizontal branch drain between the stack and the most downstream fixture drain of the circuit vent. The relief vent shall be installed in accordance with Section PC 905.

911.4.2 Fixture drain or branch. The relief vent is permitted to be a fixture drain or fixture branch for fixtures located within the same branch interval as the circuit-vented horizontal branch. The maximum discharge to a relief vent shall be four fixture units.

911.5 Additional fixtures. Fixtures, other than the circuit-vented fixtures, are permitted to discharge to the horizontal branch drain. Such fixtures shall be located on the same floor as the circuit-vented fixtures and shall be either individually or common vented.

SECTION PC 912
COMBINATION DRAIN AND VENT SYSTEM

912.1 Permitted Combination Waste and Vent System. A combination waste and vent piping system, limited for use as a means of venting the traps of floor drains and laboratory sinks, shall be permitted in conjunction with horizontal branch waste piping of an independent flammable oil waste system or acid waste systems, and as described under indirect wastes and special wastes.
912.2 Installation. Combination drain and vent system shall comply with this section.

912.2.1 Slope. The horizontal combination drain and vent pipe shall have a maximum slope of one-half unit vertical in 12 units horizontal (4-percent slope). The minimum slope shall be in accordance with Table 704.1.

912.2.2 Connection. The combination drain and vent system shall be provided with a dry vent connected at any point within the system or the system shall connect to a horizontal drain that is vented in accordance with one of the venting methods specified in this chapter. Combination drain and vent systems connecting to building drains receiving only the discharge from a stack or stacks shall be provided with a dry vent. The vent connection to the combination drain and vent pipe shall extend vertically a minimum of 6 inches (152 mm) above the flood level rim of the highest fixture being vented before offsetting horizontally.

912.2.3 Vent size. The vent shall be sized for the total drainage fixture unit load in accordance with Section 916.2.

912.3 Size. The minimum size of a combination drain and vent pipe shall be in accordance with Table 912.3.

TABLE 912.3
SIZE OF COMBINATION DRAIN AND VENT PIPE

DIAMETER PIPE (inches)	MAXIMUM NUMBER OF DRAINAGE FIXTURE UNITS (dfu) (dfu)

2	3	4
2½	6	26
3	12	31
4	20	50
5	160	250
6	360	575

SI: 1 inch = 25.4 mm.

SECTION PC 913
ISLAND FIXTURE VENTING

913.1 Limitation. *Island fixture venting shall not be permitted for fixtures other than sinks and lavatories. Residential kitchen sinks with a dishwasher waste connection, a food waste grinder, or both, in combination with the kitchen sink waste, shall be permitted to be vented in accordance with this section.*

913.2 Vent connection. *The island fixture vent shall connect to the fixture drain as required for an individual or common vent. The vent shall rise vertically to above the drainage outlet of the fixture being vented before offsetting horizontally or vertically downward. The vent or branch vent for multiple island fixture vents shall extend to a minimum of 6 inches (152 mm) above the highest island fixture being vented before connecting to the outside vent terminal.*

913.3 Vent installation below the fixture flood level rim. *The vent located below the flood level rim of the fixture being vented shall be installed as required for drainage piping in accordance with Chapter 7, except for sizing. The vent shall be sized in accordance with Section 916.2. The lowest point of the island fixture vent shall connect full size to the drainage system. The connection shall be to a vertical drain pipe or to the top half of a horizontal drain pipe. Cleanouts shall be provided in the island fixture vent to permit rodding of all vent piping located below the flood level rim of the fixtures. Rodding in both directions shall be permitted through a cleanout.*

SECTION PC 914
RELIEF VENTS - STACKS OF MORE THAN 10 BRANCH INTERVALS

914.1 Where required. *Soil and waste stacks in buildings having more than 10 branch intervals shall be provided with a yoke relief vent at each tenth interval installed, beginning with the top floor.*

914.2 Size and connection. *The size of the relief yoke vent shall be equal to the size of the vent stack to which it connects. The lower end of each relief vent shall connect to the soil or waste stack through a wye below the horizontal branch serving the floor, and the upper end shall connect to the vent stack through a tee or inverted wye not less than 3 feet (914 mm) above the floor.*

SECTION PC 915
VENTS FOR STACK OFFSETS

915.1 Vent for horizontal offset of drainage stack. *Horizontal offsets of drainage stacks shall be vented where five or more branch intervals are located above the offset. The offset shall be vented by venting the upper section of the drainage stack and the lower section of the drainage stack.*

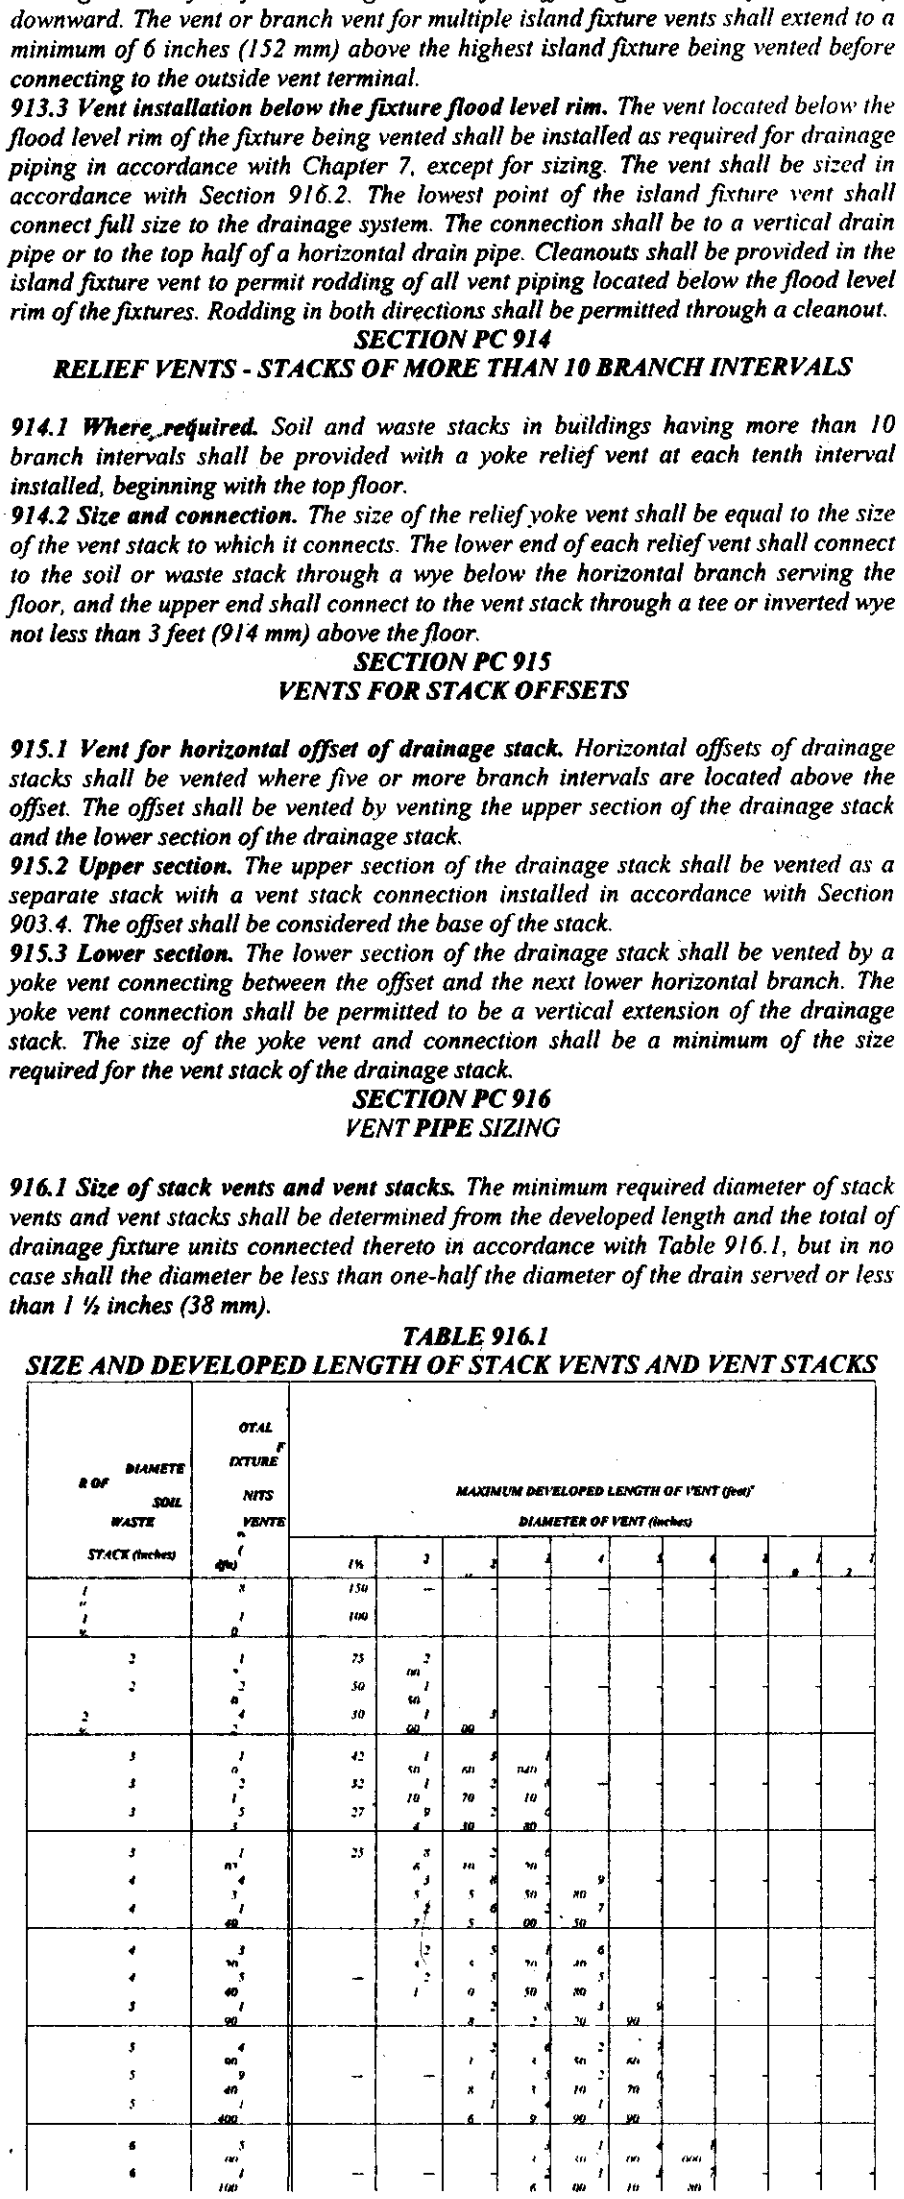
915.2 Upper section. *The upper section of the drainage stack shall be vented as a separate stack with a vent stack connection installed in accordance with Section 903.4. The offset shall be considered the base of the stack.*

915.3 Lower section. *The lower section of the drainage stack shall be vented by a yoke vent connecting between the offset and the next lower horizontal branch. The yoke vent connection shall be permitted to be a vertical extension of the drainage stack. The size of the yoke vent and connection shall be a minimum of the size required for the vent stack of the drainage stack.*

SECTION PC 916
VENT PIPE SIZING

916.1 Size of stack vents and vent stacks. *The minimum required diameter of stack vents and vent stacks shall be determined from the developed length and the total of drainage fixture units connected thereto in accordance with Table 916.1, but in no case shall the diameter be less than one-half the diameter of the drain served or less than 1 ½ inches (38 mm).*

TABLE 916.1
SIZE AND DEVELOPED LENGTH OF STACK VENTS AND VENT STACKS



For SI: 1 inch = 25.4 mm, 1 foot = 304.8 mm.

a. The developed length shall be measured from the vent connection to the open air.

916.2 Vents other than stack vents or vent stacks. *The diameter of individual vents, branch vents, circuit vents and relief vents shall be at least one-half the required diameter of the drain served. The required size of the drain shall be determined in accordance with Table 710.1(2). Vent pipes shall not be less than 1 ½ inches (38 mm) in diameter. Vents shall be sized in accordance with Table 916.1 utilizing the drainage fixture units and the corresponding developed length. Relief vents for soil and waste stacks in buildings having more than 10 branch intervals shall be sized in accordance with Section 914.2.*

916.3 Developed length. *The developed length of individual, branch, circuit and relief vents shall be measured from the farthest point of vent connection to the drainage system to the point of connection to the vent stack, stack vent or termination outside of the building.*

916.4 Multiple branch vents. *Where multiple branch vents are connected to a common branch vent, the common branch vent shall be sized in accordance with this section based on the size of the common horizontal drainage branch that is or would be required to serve the total drainage fixture unit (dfu) load being vented.*

916.5 Ejector vents. *Ejector vent sizes shall be determined in accordance with Sections 916.5.1 and 916.5.2.*

916.5.1 Sewage pumps and sewage ejectors other than pneumatic. *Drainage piping below sewer level shall be vented in a similar manner to that of a gravity system. Building sump vent sizes for sumps with sewage pumps or sewage ejectors, other than pneumatic, shall be determined in accordance with Table 916.5.1.*

916.5.2 Pneumatic sewage ejectors. *The air pressure relief pipe from a pneumatic sewage ejector shall be connected to an independent vent stack terminating as required for vent extensions through the roof. The relief pipe shall be sized to relieve air pressure inside the ejector to atmospheric pressure, but shall not be less than 1 ½ inches (38 mm) in size.*

TABLE 916.5.1
SIZE AND LENGTH OF SUMP VENTS

DISCHARGE CAPACITY OF PUMP (gpm)	MAXIMUM DEVELOPED LENGTH OF VENT (feet) [a]					
	Diameter of vent (inches)

100	10'	25	97	250	No limit	No limit
150	Not permitted	10'	44	110	370	No limit
200	Not permitted	Not permitted	20	60	210	No limit
250	Not permitted	Not permitted	10	36	132	No limit
300	Not permitted	Not permitted	10'	22	88	380
400	Not permitted	Not permitted	Not permitted	10'	44	210
500	Not permitted	Not permitted	Not permitted	Not permitted	24	130

For SI: 1 inch = 25.4 mm, 1 foot = 304.8 mm, 1 gallon per minute = 3.785 L/m.

a. Developed length plus an appropriate allowance for en trance losses and friction due to fit tings, changes in direction and diameter. Suggested allowances shall be obtained from NSB Mono graph 31 or other approved sources. An allowance of

50 per cent of the developed length shall be assumed if a more precise value is not avail able.

b. Actual values greater than 500 feet.

c. Less than 10 feet.

SECTION PC 917
AIR ADMITTANCE VALVES
RESERVED

SECTION PC 918
ENGINEERED VENT SYSTEMS

918.1 General. *Engineered vent systems shall comply with this section and Section 28-105.*

918.2 Individual branch fixture and individual fixture header vents. *The maximum developed length of individual fixture vents to vent branches and vent headers shall be determined in accordance with Table 918.2 for the minimum pipe diameters at the indicated vent airflow rates. The individual vent airflow rate shall be determined in accordance with the following:*

Q_v = Total vent stack airflow rate (cfm).

Q_v (gpm) = $27.8\, r_v^{2}(1 - r_v)D^{5}$

Q_v (cfm) = $0.134\, Q_v$ (gpm)

where:

D = Drainage stack diameter (inches).

Q_s = Design discharge load (gpm).

r_v = Waste water flow area to total area.

$$\frac{Q_s}{27.8\, D^{2.5}}$$

Individual vent airflow rates are obtained by equally distributing Q_v into one-half the total number of fixtures on the branch or header for more than two fixtures; for an odd number of total fixtures, decrease by one; for one fixture, apply the full value of Q_v.

$$Q_{vr} = N_{vr}\, Q \qquad \text{(Equation 9-1)}$$

For SI: $Q_{vr} = N_{vr}\, Q \times 0.4719\ L/s$

where:

N_{vr} = Number of fixtures per header (or vent branch); total number of fixtures connected to vent stack.

Q_{vr} = Vent branch or vent header airflow rate (cfm).

TABLE 918.2
MINIMUM DIAMETER AND MAXIMUM LENGTH OF INDIVIDUAL BRANCH FIXTURE VENTS AND INDIVIDUAL FIXTURE HEADER VENTS FOR SMOOTH PIPES

DIAMETER OF VENT	INDIVIDUAL VENT AIRFLOW RATE (cubic feet per minute)																			
	Maximum developed length of vent (feet)																			
½																				
¾																				
1																				
1¼																				
1½																				

Individual vent developed length shall be increased by 20 percent of the distance from the vent stack to the fixture vent connection on the vent branch or header.

2																				

For SI: 1 inch = 25.4 mm, 1 cubic foot per minute = 0.4719 L/s, 1 foot = 304.8 mm

918.3 A Licensed Professional Engineer shall certify design. *An engineer shall also inspect and certify the system upon completion of the system.*

SECTION PC 919
COMPUTERIZED VENT DESIGN

919.1 Design of vent system. *The sizing, design and layout of the vent system shall be permitted to be determined by approved computer program design methods.*

919.2 System capacity. *The vent system shall be based on the air capacity requirements of the drainage system under a peak load condition.*

919.3 Design shall be certified by a Licensed Professional Engineer. *An engineer shall also inspect and certify the system upon completion of the system.*

CHAPTER 10
TRAPS, INTERCEPTORS AND SEPARATORS

SECTION PC 1001
GENERAL

1001.1 Scope. *This chapter shall govern the material and installation of traps, interceptors and separators.*

SECTION PC 1002
TRAP REQUIREMENTS

1002.1 Fixture traps. *Each plumbing fixture shall be separately trapped by a water-seal trap, except as otherwise permitted by this code. The trap shall be placed as close as possible to the fixture outlet. The vertical distance from the fixture outlet to the trap weir shall not exceed 24 inches (610 mm). The distance of a clothes washer standpipe above a trap shall conform to Section 802.4. A fixture shall not be double trapped.*

Exceptions:

1. *This section shall not apply to fixtures with integral traps.*
2. *A combination plumbing fixture is permitted to be installed on one trap provided that one compartment is not more than 6 inches (152 mm) deeper than the other compartment and the waste outlets are not more than 30 inches (762 mm) apart.*
3. *A grease trap intended to serve as a fixture trap in accordance with the manufacturer's installation instructions shall be permitted to serve as the trap for a single fixture or a combination sink of not more than three compartments where the vertical distance from the fixture outlet to the inlet of the interceptor does not exceed 30 inches (762 mm), and the developed length of the waste pipe from the most upstream fixture outlet to the inlet of the interceptor does not exceed 60 inches (1524 mm).*

1002.2 Design of traps. *Fixture traps shall be self-scouring. Fixture traps shall not have interior partitions, except where such traps are integral with the fixture or where such traps are constructed of an approved material that is resistant to corrosion and degradation. Slip joints shall be made with an approved elastomeric gasket and shall be installed only on the trap inlet, trap outlet and within the trap seal.*

1002.3 Prohibited traps. *The following types of traps are prohibited:*

1. *Traps that depend on moving parts to maintain the seal.*
2. *Bell traps.*
3. *Crown-vented traps.*
4. *Traps not integral with a fixture and that depend on interior partitions for the seal, except those traps constructed of an approved material that is resistant to corrosion and degradation.*
5. *"S" traps.*
6. *Drum traps.*

   Exception: *Drum traps used as solids interceptors and drum traps serving chemical waste systems shall not be prohibited.*

1002.4 Trap seals. *Each fixture trap shall have a liquid seal of not less than 2 inches (51 mm) and not more than 4 inches (102 mm), or deeper for special designs relating to accessible fixtures. Where a trap seal is subject to loss by evaporation, a trap seal primer valve shall be installed. A trap seal primer valve shall conform to ASSE 1018 or ASSE 1044.*

1002.5 Size of fixture traps. *Fixture trap size shall be sufficient to drain the fixture rapidly and not less than the size indicated in Table 709.1.A trap shall not be larger than the drainage pipe into which the trap discharges.*

1002.6 Building traps. *Building traps shall be provided with a cleanout and a relief vent or fresh air intake but in no case less than 3 inches (76 mm) on the inlet side of the trap. The size of the relief vent or fresh air intake shall not be less than one-half the diameter of the drain to which the relief vent or air intake connects. Such relief vent or fresh air intake shall be carried above grade and shall be terminated in a screened outlet located outside the building.*

1002.7 Trap setting and protection. *Traps shall be set level with respect to the trap seal and, where necessary, shall be protected from freezing.*

1002.8 Recess for trap connection. *A recess provided for connection of the underground trap, such as one serving a bathtub in slab-type construction, shall have sides and a bottom of corrosion-resistant, insect- and vermin proof construction.*

1002.9 Acid-resisting traps. *Where a vitrified clay or other brittleware, acid-resisting trap is installed underground, such trap shall be embedded in concrete extending 6 inches (152 mm) beyond the bottom and sides of the trap.*

1002.10 Plumbing in mental health centers. *In mental health centers, pipes and traps shall not be exposed.*

SECTION PC 1003
INTERCEPTORS AND SEPARATORS

1003.1 Where required. *Interceptors and separators shall be provided to prevent the discharge of oil, grease, sand and other substances harmful or hazardous to the building drainage system, the public sewer, or sewage treatment plant or processes.*

1003.2 Approval. *The size, type and location of each interceptor and of each separator shall be designed and installed in accordance with the manufacturer's instructions and the requirements of this section based on the anticipated conditions of use. Wastes that do not require treatment or separation shall not be discharged into any interceptor or separator.*

1003.3 Grease traps and grease interceptors. *Grease traps and grease interceptors shall comply with the requirements of Sections 1003.3.1 through 1003.3.4.2.*

1003.3.1 Grease traps and grease interceptors required. *A grease trap or grease interceptor shall be required to receive the drainage from fixtures and equipment with grease-laden waste located in food preparation areas, such as in restaurants, hotel kitchens, hospitals, school kitchens, bars, factory cafeterias, or restaurants and clubs.*

1003.3.2 Food waste grinders. *Where food waste grinders connect to grease traps, a solids interceptor shall separate the discharge before connecting to the grease trap. Solids interceptors and grease interceptors shall be sized and rated*

for the discharge of the food waste grinder.

1003.3.3 Grease trap and grease interceptor not required. *A grease trap or a grease interceptor shall not be required for individual dwelling units or any private living quarters.*

1003.3.4 Grease traps and grease interceptors. *Grease traps and grease interceptors shall conform to PDI G101, ASME A112.14.3 or ASME A112.14.4 and shall be installed in accordance with the manufacturer's instructions.*

1003.3.4.1 Grease trap capacity. *Grease traps shall have the grease retention capacity indicated in Table 1003.3.4.1 for the flow-through rates indicated.*

1003.3.4.2 Rate of flow controls. *Grease traps shall be equipped with devices to control the rate of water flow so that the water flow does not exceed the rated flow. The flow-control device shall be vented and terminate not less than 6 inches (152 mm) above the flood rim level or be installed in accordance with the manufacturer's instructions.*

TABLE 1003.3.4.1
CAPACITY OF GREASE TRAPS

12	24
14	28
15	30
18	36
20	40
25	50
35	70
50	100

For SI: 1 gallon per minute = 3.785 L/m, 1 pound = 0.454 kg.

1003.4 Oil separators required. *At repair garages, car washing facilities with engine or undercarriage cleaning capability and at factories where oily and flammable liquid wastes are produced, separators shall be installed into which all oil-bearing, grease-bearing or flammable wastes shall be discharged before emptying in the building drainage system or other point of disposal.*

1003.4.1 Separation of liquids. *A mixture of treated or untreated light and heavy liquids with various specific gravities shall be separated in an approved receptacle.*

1003.4.2 Oil separator design. *Oil separators shall be designed in accordance with Sections 1003.4.2.1 and 1003.4.2.2.*

1003.4.2.1 General design requirements. *Oil separators shall have a depth of not less than 2 feet (610 mm) below the invert of the discharge drain. The outlet opening of the separator shall have not less than an 18-inch (457 mm) water seal.*

1003.4.2.2 Garages and service stations. *Where automobiles are serviced, greased, repaired or washed or where gasoline is dispensed, oil separators shall have a minimum capacity of 6 cubic feet (0.17 m^3) for the first 100 square feet (9.3 m^2) of area to be drained, plus 1 cubic foot (0.028 m^3) for each additional 100 square feet (9.3 m^2) of area to be drained into the separator. Parking garages in which servicing, repairing or washing is not conducted, and in which gasoline is not dispensed, shall not require a separator. Areas of commercial garages utilized only for storage of automobiles are not required to be drained through a separator.*

1003.5 Sand interceptors in commercial establishments. *Sand and similar interceptors for heavy solids shall be designed and located so as to be provided with ready access for cleaning, and shall have a water seal of not less than 6 inches (152 mm).*

1003.6 Laundries. *Commercial laundries shall be equipped with an interceptor with a wire basket or similar device, removable for cleaning, that prevents passage into the drainage system of solids 0.5 inch (12.7 mm) or larger in size, string, rags, buttons or other materials detrimental to the public sewage system.*

1003.7 Bottling establishments. *Bottling plants shall discharge process wastes into an interceptor that will provide for the separation of broken glass or other solids before discharging waste into the drainage system.*

1003.8 Slaughterhouses. *Slaughtering room and dressing room drains shall be equipped with approved separators. The separator shall prevent the discharge into the drainage system of feathers, entrails and other materials that cause clogging.*

1003.9 Venting of interceptors and separators. *Interceptors and separators shall be designed so as not to become air bound where tight covers are utilized. Each interceptor or separator shall be vented where subject to a loss of trap seal.*

1003.10 Access and maintenance of interceptors and separators. *Access shall be provided to each interceptor and separator for service and maintenance. Interceptors and separators shall be maintained by periodic removal of accumulated grease, scum, oil, or other floating substances and solids deposited in the interceptor or separator.*

SECTION PC 1004
MATERIALS, JOINTS AND CONNECTIONS

1004.1 General. *The materials and methods utilized for the construction and installation of traps, interceptors and separators shall comply with this chapter and the applicable provisions of Chapters 4 and 7. The fittings shall not have ledges, shoulders or reductions capable of retarding or obstructing flow in the piping system.*

CHAPTER 11
STORM DRAINAGE

SECTION PC 1101
GENERAL

1101.1 Scope. *The provisions of this chapter shall govern the materials, design, construction and installation of storm drainage. Storm Water discharge shall be in accordance with city department of environmental protection requirements.*

1101.2 Where required. *All roofs, paved areas, yards, courts and courtyards shall drain into a separate storm sewer system, or a combined sewer system, or to an approved place of disposal. In accordance with city department of environmental protection requirements, an approved system for beneficial collection and use of storm water may be installed in which case overflow from such a system shall be discharged to street storm sewer or street combined sewer.*

1101.3 Prohibited drainage. *Storm water shall not be drained into sewers intended for sewage only.*

1101.4 Tests. *The conductors and the building storm drain shall be tested in accordance with Section PC 312.*

1101.5 Continuous flow. *The size of a drainage pipe shall not be reduced in the direction of flow.*

1101.6 Fittings and connections. *All connections and changes in direction of the storm drainage system shall be made with approved drainage-type fittings in accordance with Table 706.3. The fittings shall not obstruct or retard flow in the system.*

1101.7 Roof design. *Roofs shall be designed for the maximum possible depth of water that will pond thereon as determined by the relative levels of roof deck and overflow weirs, scuppers, edges or serviceable drains in combination with the deflected structural elements. In determining the maximum possible depth of water, all primary roof drains shall be assumed to be blocked.*

1101.8 Cleanouts required. *Cleanouts shall be installed in the storm drainage system and shall comply with the provisions of this code for sanitary drainage pipe cleanouts.*

Exception: *Subsurface drainage system.*

1101.9 Backwater valves. *Backwater valves installed in a storm drainage system shall conform to Section PC 715.*

1101.10 Plastic Pipe. *Plastic piping and fittings shall not be used.*

Exceptions:

1. *Plastic piping and fittings may be used in residential buildings five stories or less in height.*
2. *Corrugated polyethylene piping and fittings, with a diameter of twelve inches (305 mm) or more may be used in connection with any type of building for underground yard drainage and storm water piping when used outside of the foundation wall of the building and not connecting to any piping system from the interior of the building.*

SECTION 1102
MATERIALS

1102.1 General. *The materials and methods utilized for the construction and installation of storm drainage systems shall comply with this section and the applicable provisions of Chapter 7.*

1102.2 Inside storm drainage conductors. *Inside storm drainage conductors installed above ground shall conform to one of the standards listed in Table 702.1.*

1102.3 Underground building storm drain pipe. *Underground building storm drain pipe shall conform to one of the standards listed in Table 702.2.*

1102.4 Building storm sewer pipe. *Building storm sewer pipe shall conform to one of the standards listed in Table 1102.4.*

TABLE 1102.4

	30,650	15,320

For SI: 1 inch = 25.4 mm, 1 square foot = 0.0929 m².

***1106.4 Vertical walls.** In sizing roof drains and storm drainage piping, one-half of the area of any vertical wall that diverts rainwater to the roof shall be added to the projected roof area for inclusion in calculating the required size of vertical conductors, leaders and horizontal storm drainage piping.*

***1106.5 Parapet wall scupper location.** Parapet wall roof drainage scupper and overflow scupper location shall comply with the requirements of the New York city building code.*

***1106.6 Size of roof gutters.** The size of semicircular gutters shall be based on the maximum projected roof area in accordance with Table 1106.6.*

TABLE 1106.6 SIZE OF SEMICIRCULAR ROOF GUTTERS DIAMETER OF GUTTERS (inches)	HORIZONTALLY PROJECTED ROOF AREA (square feet)

For SI: 1 inch = 25.4 mm, 1 square foot = 0.0929 m².

SECTION PC 1107
SECONDARY (EMERGENCY) ROOF DRAINS

*1107.1 **Secondary drainage required.** Secondary (emergency) roof drains or scuppers shall be provided where the roof perimeter construction extends above the roof in such a manner that water will be entrapped if the primary drains allow buildup for any reason. The inlet elevation of secondary (overflow) drains and the invert elevation of overflow scuppers should be not less than 2 inches (51 mm) or more than 4 inches (102 mm) above the low point of the (adjacent to) roof surface unless a safer water depth loading, including the required hydraulic head to maintain required flow rate out of the overflow drainage system that has been determined by the structural design.*

*1107.2 **Primary and secondary storm systems.** Where practical secondary roof drain systems shall have the end point of discharge separate from the primary system. Discharge shall be above grade, in a location which would normally be observed by the building occupants or maintenance personnel. Where separate systems are impractical and to prevent water from flowing over sidewalk or pedestrian walkways, secondary drainage system may tie into the primary drainage system in the vertical conductors.*

*1107.3 **Sizing of secondary drains.** Secondary (emergency) roof drain systems shall be sized in accordance with Section PC 1106 based on the rainfall rate of 3 inches (76 mm) per hour. Scuppers shall be sized to prevent the depth of ponding water from exceeding that for which the roof was designed as determined by Section 1101.7. Scuppers shall not have an opening dimension of less than 4 inches (102 mm). Where secondary drainage systems tie into primary drainage systems, the combined primary and secondary system shall be sized based on their combined rainfall rate of 6 inches (152 mm) per hour.*

SECTION PC 1108
COMBINED SANITARY AND STORM SYSTEM

*1108.1 **Size of combined drains and sewers.** The size of a combination sanitary and storm drain or sewer shall be computed in accordance with the method in Section 1106.3. The fixture units shall be converted into an equivalent projected roof or paved area. Where the total fixture load on the combined drain is less than or equal to 256 fixture units, the equivalent drainage area in horizontal projection shall be taken as 1333 square feet (124m²). Where the total fixture load exceeds 256 fixture units, each additional fixture unit shall be considered the equivalent of 5.2 square feet (.48m²) of drainage area. These values are based on a rainfall rate of 3 inch (75 mm) per hour.*

SECTION PC 1109
VALUES FOR CONTINUOUS FLOW

*1109.1 **Equivalent roof area.** Where there is a continuous or semicontinuous discharge into the building storm drain or building storm sewer, such as from a pump, ejector, air conditioning plant or similar device, each gallon per minute of such discharge shall be computed as being equivalent to 32 square feet (2.97 m²) of roof area, based on a rainfall rate of 3 inches (75 mm) per hour.*

SECTION PC 1110
CONTROLLED FLOW ROOF DRAIN SYSTEMS

*1110.1 **General.** The roof of a structure shall be designed for the storage of water where the storm drainage system is engineered for controlled flow. The controlled flow roof drain system shall be an engineered system in accordance with this section and Section 28-105. The controlled flow system shall be designed based on the design rainfall rate in accordance with Section 1106.1.*

*1110.2 **Control devices.** The control devices shall be installed so that the rate of discharge of water per minute shall not exceed the values for continuous flow as indicated in Section 1109.1.*

*1110.3 **Installation.** Runoff control shall be by control devices. Control devices shall be protected by strainers.*

*1110.4 **Minimum number of roof drains.** Not less than two roof drains shall be installed in roof areas 10,000 square feet (929 m²) or less and not less than four roof drains shall be installed in roofs over 10,000 square feet (929 m²) in area.*

Vitrified clay pipe	*ASTM C 4; ASTM C 700*
Stainless steel drainage Systems, Type 316L	*ASME A112.3.1*

1102.6 Roof drains. *Roof drains shall conform to ASME A112.21.2M or ASME A112.3.1.*

1102.7 Fittings. *Pipe fittings shall be approved for installation with the piping material installed, and shall conform to the respective pipe standards or one of the standards listed in Table 1102.7. The fittings shall not have ledges, shoulders or reductions capable of retarding or obstructing flow in the piping. Threaded drainage pipe fittings shall be of the recessed drainage type.*

Malleable iron	*ASME B16.3*
Plastic, general	*ASTM F 409*
Polyethylene (PE) plastic	*ASTM D 2609*
Polyvinyl chloride (PVC) plastic	*ASTM D 2464; ASTM D 2466; ASTM D 2467; CSA B137.2; ASTM D 2665; ASTM F 1866*
Steel	*ASME B16.9; ASME B16.11; ASME B16.28*
Stainless steel drainage Systems, Type 316L	*ASME A112.3.1*

SECTION PC 1103
TRAPS

1103.1 Main trap. *Leaders and storm drains connected to a combined sewer shall be trapped. Individual storm water traps shall be installed on the storm water drain branch serving each conductor, or a single trap shall be installed in the main storm drain just before its connection with the combined building sewer or the public sewer. A hooded catch basin located within the street line shall be the equivalent of a building house trap for the connection to a street combined sewer.*

1103.2 Material. *Storm water traps shall be of the same material as the piping system to which they are attached.*

1103.3 Size. *Traps for individual conductors shall be the same size as the horizontal drain to which they are connected.*

1103.4 Cleanout. *An accessible cleanout shall be installed on the building side of the trap.*

SECTION PC 1104
CONDUCTORS AND CONNECTIONS

1104.1 Prohibited use. *Conductor pipes shall not be used as soil, waste or vent pipes, and soil, waste or vent pipes shall not be used as conductors.*

1104.2 Combining storm with sanitary drainage. *The sanitary and storm drainage systems of a structure shall be entirely separate except for minor modifications to existing buildings having combined systems. Where a combined building drain is utilized, the building storm drain shall be connected in the same horizontal plane through a single-wye fitting to the combined sewer at least 10 feet (3048 mm) downstream from any soil stack. If a separate city storm sewer is not available, building sanitary drains shall be separate and shall only be permitted to connect to common building combined sewer downstream of building house trap.*

1104.3 Clear water drains. *Drains carrying clear water, i.e. air conditioning drips, pump drips, cooling water, etc. may discharge into the storm water drainage system through an indirect waste connection discharging into a trapped funnel or raised lip floor drain.*

SECTION PC 1105
ROOF DRAINS

1105.1 Strainers. *Roof drains shall have strainers extending not less than 4 inches (102 mm) above the surface of the roof immediately adjacent to the roof drain. Strainers shall have an available inlet area, above roof level, of not less than one and one-half times the area of the conductor or leader to which the drain is connected.*

1105.2 Flat decks. *Roof drain strainers for use on sun decks, parking decks and similar areas that are normally serviced and maintained shall comply with Section 1105.1 or shall be of the flat-surface type, installed level with the deck, with an available inlet area not less than two times the area of the conductor or leader to which the drain is connected.*

1105.3 Roof drain flashings. *The connection between roofs and roof drains which pass through the roof and into the interior of the building shall be made water tight by the use of approved flashing material.*

SECTION 1106
SIZE OF CONDUCTORS, LEADERS

1106.1 General. *The size of the vertical conductors and leaders, gutters, building storm drains, building storm sewers, and any horizontal branches of such drains or sewers shall be based on the 100-year hourly rainfall rate of 3 inches (76 mm) per hour. Sizing for secondary and combined primary and secondary conductors, leaders and drains shall be in accordance with Section PC 1107.*

1106.2 Vertical conductors and leaders. Vertical conductors and leaders shall be sized for the maximum projected roof area, in accordance with Table 1106.2.

TABLE 1106.2
SIZE OF VERTICAL CONDUCTORS AND LEADERS

DIAMETER OF LEADER (inches)[a]	HORIZONTALLY PROJECTED ROOF AREA (square feet) Rainfall rate (inches per hour) 3
2	960
3	2,930
4	6,130
5	11,530
6	17,995
8	38,660

For SI: 1 inch = 25.4 mm, 1 square foot = 0.0929 m².

a. Sizes indicated are the diameter of circular piping. This table is applicable to piping of other shapes provided the cross-sectional shape fully encloses a circle of the diameter indicated in this table.

SECTION PC 1111
SUBSOIL DRAINS

1111.1 Subsoil drains. *Subsoil drains shall be open-jointed, horizontally split or perforated pipe conforming to one of the standards listed in Table 1102.5. Such drains shall not be less than 4 inches (102 mm) in diameter. Where the building is subject to backwater, the subsoil drain shall be protected by an accessibly located backwater valve. Where subsoil drainage is discharged into a public sewer, the subsoil drains shall discharge into a readily accessible silt and sand interceptor before being connected into the gravity drainage or sump system. Subsoil drainage shall discharge to a trapped area drain, sump, dry well or approved location above ground. The subsoil sump shall not be required to have either a gas-tight cover or a vent. The sump and pumping system shall comply with Section 1113.1.*

SECTION 1112
BUILDING SUBDRAINS

1112.1 Building subdrains. *Building subdrains located below the public sewer level shall discharge into a sump or receiving tank, the contents of which shall be automatically lifted and discharged into the drainage system as required for building sumps. The sump and pumping equipment shall comply with Section 1113.1.*

SECTION *PC 1113*
SUMPS AND PUMPING SYSTEMS

1113.1 Pumping system. *The sump pump, pit and discharge piping shall conform to Sections 1113.1.1 through 1113.1.4.*

1113.1.1 Pump capacity and head. *The sump pump shall be of a capacity and head appropriate to anticipated use requirements.*

1113.1.2 Sump pit. *The sump pit shall not be less than 18 inches (457 mm) in diameter and 24 inches (610 mm) deep, unless otherwise approved. The pit shall be accessible and located such that all drainage flows into the pit by gravity. The sump pit shall be constructed of tile, steel, plastic, cast-iron, concrete or other approved material, with a removable cover adequate to support anticipated loads in the area of use. The pit floor shall be solid and provide permanent support for the pump.*

1113.1.3 Electrical. *Electrical service outlets, when required, shall meet the requirements of the New York city electrical code.*

1113.1.4 Piping. *Discharge piping shall meet the requirements of Section 1102.2, 1102.3 or 1102.4 and shall include a gate valve and a full flow check valve. Pipe and fittings shall be the same size as, or larger than, pump discharge tapping.*

Exception: *In one- and two-family dwellings, only a check valve shall be required, located on the discharge piping from the pump or ejector.*

CHAPTER 12
SPECIAL PIPING AND STORAGE SYSTEMS

SECTION PC 1201
GENERAL

1201.1 Scope. *The provisions of this chapter shall govern the design and installation of piping and storage systems for nonflammable medical gas systems and nonmedical oxygen systems. All maintenance and operations of such systems shall be in accordance with the New York city fire code.*

SECTION PC 1202
MEDICAL GASES

1202.1 Nonflammable medical gases. *Nonflammable medical gas systems, inhalation anesthetic systems and vacuum piping systems shall be designed and installed in accordance with NFPA 99C.*

Exceptions:

1. *This section shall not apply to portable systems or cylinder storage.*
2. *Vacuum system exhaust shall comply with the New York city mechanical code.*

SECTION PC 1203
OXYGEN SYSTEMS

1203.1 Design and installation. *Nonmedical oxygen systems shall be designed and installed in accordance with NFPA 50 and NFPA 51.*

CHAPTER 13
REFERENCED STANDARDS

This chapter lists the standards that are referenced in various sections of this document. The standards are listed herein by the promulgating agency of the standard, the standard identification, the effective date and title and the section or sections of this document that reference the standard. The application of the referenced standards shall be as specified in Section 102.8.

APPENDIX C
WATER CONSERVATION SYSTEMS

Note: Section 301.3 of this code requires all plumbing fixtures that receive water or waste to discharge to the sanitary drainage system of the structure. In order to allow for the utilization of a water recycling system, section 301.3 should be revised to read as follows:

301.3 Connections to drainage system. *All plumbing fixtures, drains, appurtenances and appliances used to receive or discharge liquid wastes or sewage shall be directly connected to the drainage system of the building or premises, in accordance with the requirements of this code. This section shall not be construed to prevent indirect waste systems provided for in Chapter 8.*

Exception: *Lavatories shall not be required to discharge to the sanitary drainage system where such fixtures discharge to an approved water recycling system.*

PC C101
WATER RECYCLING SYSTEMS

C101.1 General. Water recycling systems shall receive storm water captured from roofs and balconies, condensate reclamation systems, gray water discharge only

of lavatories from public restrooms in commercial office buildings, and the treated effluent from an approved black water treatment system as regulated by Department of Health and Mental Hygiene. Recycled water shall be utilized only for flushing water closets and urinals, cooling tower makeup and irrigation systems that are located in the same lot as the water recycling system. Recycled water shall be considered non-potable. Such systems shall comply with sections C101.2 through C101.12.

C101.2 Definitions. The following terms shall have the meanings shown herein.

BLACK WATER. *Waste water discharged from water closets, urinals and any other fixtures discharging animal or vegetable matter in suspension or solution.*

GRAY WATER. *Waste water discharged from lavatories, bathtubs, showers, clothes washers and laundry sinks.*

C101.3 Installation. *All drain, waste and vent piping associated with gray or black water recycling systems shall be installed in full compliance with this code.*

C101.4 Reservoir. *Water captured for recycling purposes shall be collected in an approved reservoir constructed of durable, nonabsorbent and corrosion-resistant materials. The reservoir shall be a closed and gas-tight vessel. Access openings shall be provided to allow inspection and cleaning of the reservoir interior. The holding capacity of the reservoir shall be a minimum of twice the volume of water required to meet the daily flushing requirements of the fixtures supplied with recycled water, but not less than 50 gallons (189 L).*

C101.5 Filtration. *All water entering the reservoir shall pass through an approved filter such as a media, sand or diatomaceous earth filter. Filter may be installed in a sidestream arrangement sized to filter the entire volume of the tank at a rate equal to four times the recycled water in a one-hour period.*

C101.6 Disinfection. *Recycled water shall be disinfected by an approved method that employs ultraviolet or one or more disinfectants such as chlorine, iodine or ozone.*

C101.7 Makeup water. *Potable water shall be supplied as a source of makeup water for the recycled water system. The potable water supply shall be protected against backflow in accordance with Section PC 608. There shall be a full-open valve on the makeup water supply line to the reservoir.*

C101.8 Overflow. *The collection reservoir shall be equipped with an overflow pipe of the same diameter as the influent pipe for the captured water. The overflow shall be directly connected to the building house drainage system.*

C101.9 Drain. *A drain shall be located at the lowest point of the collection reservoir and shall be directly connected to the sanitary drainage system. The drain shall be a minimum of 4 inch (102 mm) diameter and shall be provided with a full-open valve.*

C101.10 Vent required. *The reservoir shall be provided with a vent sized in accordance with Chapter 9 based on the size of the reservoir influent pipe.*

C101.11 Coloring. *The recycled water shall be dyed blue or green with a food grade vegetable dye before such water is supplied to the fixtures.*

C101.12 Identification. *All recycled water distribution piping and reservoirs shall be identified as containing nonpotable water. Piping identification shall be in accordance with Section 608.8.*

PC C102
WATERLESS URINALS

C102.1 Waterless urinals. *Approved waterless urinals may be utilized only as part of an approved building water conservation plan.*

APPENDIX D
DEGREE DAY AND DESIGN TEMPERATURES
RESERVED

APPENDIX E
SIZING OF WATER PIPING SYSTEM

SECTION PC E101
GENERAL

E101.1 Scope.

E101.1.1 *This appendix outlines two procedures for sizing a water piping system (see Section E103.3). The design procedures are based on the minimum static pressure available from the supply source, the head charges in the system caused by friction and elevation, and the rates of flow necessary for operation of various fixtures.*

SECTION PC E102
INFORMATION REQUIRED

E102.1 Preliminary. *Obtain the necessary information regarding the minimum daily static service pressure in the area where the building is to be located. If the building supply is to be metered, obtain information regarding friction loss relative to the rate of flow for meters in the range of sizes likely to be used. Friction loss data can be obtained from most manufacturers of water meters.*

E102.2 Demand load.

E102.2.1 *Estimate the supply demand of the building main and the principal branches and risers of the system by totaling the corresponding demand from the applicable part of Table E 103.3(3).*

E102.2.2 *Estimate continuous supply demands in gallons per minute (L/m) for lawn sprinklers, air conditioners, etc., and add the sum to the total demand for fixtures. The result is the estimated supply demand for the building supply.*

SECTION PC E103
SELECTION OF PIPE SIZE

E103.1 General. *Decide from Table 604.3 what is the desirable minimum residual pressure that should be maintained at the highest fixture in the supply system. If the highest group of fixtures contains flush valves, the pressure for the group should not be less than 15 psi (103.4 kPa) flowing. For flush tank supplies, the available pressure should not be less than 8 psi (55.2 kPa) flowing, except blowout action fixtures must not be less than 25 psi (172.4 kPa) flowing.*

E103.2 Pipe sizing.

E103.2.1 *Pipe sizes can be selected according to the following procedure or by other design methods conforming to acceptable engineering practice and approved by the department. The sizes selected must not be less than the minimum required by this code.*

E103.2.2 *Water pipe sizing procedures are based on a system of pressure requirements and losses, the sum of which must not exceed the minimum pressure available at the supply source. These pressures are as follows:*

1. *Pressure required at fixture to produce required flow. See Section 604.3 and Section 604.5.*
2. *Static pressure loss or gain (due to head) is computed at 0.433 psi per foot (9.8 kPa/m) of elevation change.*
   Example: *Assume that the highest fixture supply outlet is 20 feet (6096 mm) above or below the supply source. This produces a static pressure differential of 8.66 psi (59.8 kPa) loss.*
3. *Loss through water meter. The friction or pressure loss can be obtained from meter manufacturers.*
4. *Loss through taps in water main. (See Table E103.3.4(4))*
5. *Losses through special devices such as filters, softeners, backflow prevention devices and pressure regulators. These values must be obtained from the manufacturers.*
6. *Loss through valves and fittings. Losses for these items are calculated by converting to equivalent length of piping and adding to the total pipe length. (See Tables E103.3(5) and E103.3(6))*
7. *Loss due to pipe friction can be calculated when the pipe size, the pipe length and the flow through the pipe are known. With these three items, the friction loss can be determined using Figures E103.3(2) through E103.3(7). For piping flow charts not included, use manufacturers' tables and velocity recommendations.*

Note: *For the purposes of all examples, the following metric conversions are applicable:*

1 cubic foot per minute = 0.4719 L/s
1 square foot = 0.0929 m2
1 degree = 0.0175 rad
1 pound per square inch = 6.895 kPa
1 inch = 25.4 mm
1 foot = 304.8 mm
1 gallon per minute = 3.785 L/m

E103.3 Segmented loss method. *The size of water service mains, branch mains and risers by the segmented loss method, must be determined according to water supply demand gpm (L/m), available water pressure psi (kPa) and friction loss caused by the water meter and developed length of pipe feet (m), including equivalent length of fittings. This design procedure is based on the following parameters:*

Calculate the friction loss through each length of the pipe.

Based on a system of pressure losses, the sum of which must not exceed the minimum pressure available at the street main or other source of supply.

Pipe sizing shall be based on (1) estimated peak demand, (2) total pressure losses caused by difference in elevation, equipment, developed length and pressure required at most remote fixture, (3) loss through taps in water main, (4) losses through fittings, filters, backflow prevention devices, valves and pipe friction.

Because of the variable conditions encountered in hydraulic design, it is impractical to specify definite and detailed rules for sizing of the water piping system. Current sizing methods do not address the differences in the probability of use and flow characteristics of fixtures between types of occupancies. Creating an exact model of predicting the demand for a building is impossible and final studies assessing the impact of water conservation on demand are not yet complete. The following steps are necessary for the segmented loss method.

1. ***Preliminary.*** *Obtain the necessary information regarding the minimum daily static service pressure in the area where the building is to be located. If the building supply is to be metered, obtain information regarding friction loss relative to the rate of flow for meters in the range of sizes to be used. Friction loss data can be obtained from manufacturers of water meters. It is essential that enough pressure be available to overcome all system losses caused by friction and elevation so that plumbing fixtures operate properly. Section 604.6 requires the water distribution system to be designed for the minimum pressure available taking into consideration pressure fluctuations. The lowest pressure must be selected to guarantee a continuous, adequate supply of water. The lowest pressure in the public main usually occurs in the summer because of lawn sprinkling and supplying water for air-conditioning cooling towers. Future demands placed on the public main as a result of large growth or expansion should also be considered. The available pressure will decrease as additional loads are placed on the public system.*
2. ***Demand load.*** *Estimate the supply demand of the building main and the principal branches and risers of the system by totaling the corresponding demand from the applicable part of Table E103.3(3). When estimating peak demand sizing methods typically*

use water supply fixture units (see Table E103.3(2)). This numerical factor measures the load-producing effect of a single plumbing fixture of a given kind. The use of such fixture units can be applied to a single basic probability curve (or table), found in the various sizing methods (Table E103.3(3)). The fixture units are then converted into gallons per minute (L/m) flow rate for estimating demand.

2.1. Estimate continuous supply demand in gallons per minute (L/m) for lawn sprinklers, air conditioners, etc., and add the sum to the total demand for fixtures. The result is the estimated supply demand for the building supply. Fixture units cannot be applied to constant use fixtures such as hose bibbs, lawn sprinklers and air conditioners. These types of fixtures must be assigned the gallon per minute (L/m) value.

*3. **Selection of pipe size.** This water pipe sizing procedure is based on a system of pressure requirements and losses, the sum of which must not exceed the minimum pressure available at the supply source. These pressures are as follows:*

3.1. Pressure required at the fixture to produce required flow. See Section 604.3 and Section 604.5.

3.2. Static pressure loss or gain (due to head) is computed at 0.433 psi per foot (9.8 kPa/m) of elevation change.

3.3. Loss through a water meter. The friction or pressure loss can be obtained from the manufacturer.

3.4. Loss through taps in water main (see Table E103.3(4)).

3.5. Losses through special devices such as filters, softeners, backflow prevention devices and pressure regulators. These values must be obtained from the manufacturers.

3.6. Loss through valves and fittings. Losses for these items are calculated by converting to equivalent length of piping and adding to the total pipe length. (see Tables E103.3(5) and E103.3(6)).

3.7. Loss due to pipe friction can be calculated when the pipe size, the pipe length and the flow through the pipe are known. With these three items, the friction loss can be determined using Figures E103.3(2) through E103.3(7). When using charts, use pipe inside diameters. For piping flow charts not included, use manufacturers' tables and velocity recommendations. Before attempting to size any water supply system, it is necessary to gather preliminary information which includes available pressure, piping material, select design velocity, elevation differences and developed length to most remote fixture. The water supply system is divided into sections at major changes in elevation or where branches lead to fixture groups. The peak demand must be determined in each part of the hot and cold water supply system which includes the corresponding water supply fixture unit and conversion to gallons per minute (L/m) flow rate to be expected through each section. Sizing methods require the determination of the "most hydraulically remote" fixture to compute the pressure loss caused by pipe and fittings. The hydraulically remote fixture represents the most downstream fixture along the circuit of piping requiring the most available pressure to operate properly. Consideration must be given to all pressure demands and losses, such as friction caused by pipe, fittings and equipment, elevation and the residual pressure required by Table 604.3. The two most common and frequent complaints about the water supply system operation are lack of adequate pressure and noise.

Problem: What size Type L copper water pipe, service and distribution will be required to serve a two-story factory building having on each floor, back-to-back, two toilet rooms each equipped with hot and cold water? The highest fixture is 21 feet (6401 mm) above the street main, which is tapped with a 2-inch (51 mm) corporation cock at which point the minimum pressure is 55 psi (379.2 kPa). In the building basement, a 2-inch (51 mm) meter with a maximum pressure drop of 11 psi (75.8 kPa) and 3-inch (76 mm) reduced pressure principle backflow preventer with a maximum pressure drop of 9 psi (621 kPa) are to be installed. The system is shown by Figure E103.3(1). To be determined are the pipe sizes for the service main and the cold and hot water distribution pipes.

***Solution:** A tabular arrangement, such as shown in Table E103.3(1) should first be constructed. The steps to be followed are indicated by the tabular arrangement itself as they are in sequence, columns 1 through 10 and lines A through L.*

Step 1

***Columns 1 and 2:** Divide the system into sections breaking at major changes in elevation or where branches lead to fixture groups. After point B (see Figure E103.3(1)), separate consideration will be given to the hot and cold water piping. Enter the sections to be considered in the service and cold water piping in Column 1 of the tabular arrangement. Column 1 of Table E103.3(1) provides a line-by-line recommended tabular arrangement for use in solving pipe sizing.*

The objective in designing the water supply system is to ensure an adequate water supply and pressure to all fixtures and equipment. Column 2 provides the pounds per square inch (psi) to be considered separately from the minimum pressure available at the main. Losses to take into consideration are the following: the differences in elevations between the water supply source and the highest water supply outlet, meter pressure losses, the tap in main loss, special fixture devices such as water softeners and prevention devices and the pressure required at the most remote fixture outlet. The difference in elevation can result in an increase or decrease in available pressure at the main. Where the water supply outlet is located above the source, this results in a loss in the available pressure and is subtracted from the pressure at the water source. Where the highest water supply outlet is located below the water supply source, there will be an increase in pressure that is added to the available pressure of the water source.

Column 3: According to Table E103.3(3), determine the gpm (L/m) of flow to be expected in each section of the system. These flows range from 28.6 to 108 gpm. Load values for fixtures must be determined as water supply fixture units and then converted to a gallon-per-minute (gpm) rating to determine peak demand. When calculating peak demands, the water supply fixture units are added and then converted to the gallon-per-minute rating. For continuous flow fixtures such as hose bibbs and lawn sprinkler systems, add the gallon-per-minute demand to the intermittent demand of fixtures. For example, a total of 120 water supply fixture units is converted to a demand of 48 gallons per minute. Two hose bibbs x 5 gpm demand = 10 gpm. Total gpm rating = 48.0 gpm + 10 gpm = 58.0 gpm demand.

Step 2

***Line A:** Enter the minimum pressure available at the main source of supply in Column 2. This is 55 psi (379.2 kPa). The local water authorities generally keep records of pressures at different times of day and year. The available pressure can also be checked from nearby buildings or from fire department hydrant checks.*

***Line B:** Determine from Section 604.3 the highest pressure required for the fixtures on the system, which is 15 psi (103.4 kPa), to operate a flushometer valve. The most remote fixture outlet is necessary to compute the pressure loss caused by pipe and fittings, and represents the most downstream fixture along the circuit of piping requiring the available pressure to operate properly as indicated by Table 604.3.*

***Line C:** Determine the pressure loss for the meter size given or assumed. The total water flow from the main through the service as determined in Step 1 will serve to aid in the meter selected. There are three common types of water meters; the pressure losses are determined by the American Water Works Association Standards for displacement type, compound type and turbine type. The maximum pressure loss of such devices takes into consideration the meter size, safe operating capacity (gpm) and maximum rates for continuous operations (gpm). Typically, equipment imparts greater pressure losses than piping.*

***Line D:** Select from Table E103.3(4) and enter the pressure loss for the tap size given or assumed. The loss of pressure through taps and tees in pounds per square inch (psi) are based on the total gallon-per-minute flow rate and size of the tap.*

***Line E:** Determine the difference in elevation between the main and source of supply and the highest fixture on the system. Multiply this figure, expressed in feet, by 0.43 psi (2.9 kPa). Enter the resulting psi loss on Line E. The difference in elevation between the water supply source and the highest water supply outlet has a significant impact on the sizing of the water supply system. The difference in elevation usually results in a loss in the available pressure because the water supply outlet is generally located above the water supply source. The loss is caused by the pressure required to lift the water to the outlet. The pressure loss is subtracted from the pressure at the water source. Where the highest water supply outlet is located below the water source, there will be an increase in pressure which is added to the available pressure of the water source.*

***Lines F, G and H:** The pressure losses through filters, backflow prevention devices or other special fixtures must be obtained from the manufacturer or estimated and entered on these lines. Equipment such as backflow prevention devices, check valves, water softeners, instantaneous or tankless water heaters, filters and strainers can impart a much greater pressure loss than the piping. The pressure losses can range from 8 psi to 30 psi.*

Step 3

***Line I:** The sum of the pressure requirements and losses that affect the overall system (Lines B through H) is entered on this line. Summarizing the steps, all of the system losses are subtracted from the minimum water pressure. The remainder is the pressure available for friction, defined as the energy available to push the water through the pipes to each fixture. This force can be used as an average pressure loss, as long as the pressure available for friction is not exceeded. Saving a certain amount for available*

water supply pressures as an area incurs growth, or because of aging of the pipe or equipment added to the system is recommended.

Step 4

Line J: *Subtract Line I from Line A. This gives the pressure that remains available from overcoming friction losses in the system. This figure is a guide to the pipe size that is chosen for each section, incorporating the total friction losses to the most remote outlet (measured length is called developed length).*

Exception: *When the main is above the highest fixture, the resulting psi must be considered a pressure gain (static head gain) and omitted from the sums of Lines B through H and added to Line J.*

The maximum friction head loss that can be tolerated in the system during peak demand is the difference between the static pressure at the highest and most remote outlet at no-flow conditions and the minimum flow pressure required at that outlet. If the losses are within the required limits, then every run of pipe will also be within the required friction head loss. Static pressure loss is the most remote outlet in feet x 0.433 = loss in psi caused by elevation differences.

Step 5

Column 4: *Enter the length of each section from the main to the most remote outlet (at Point E). Divide the water supply system into sections breaking at major changes in elevation or where branches lead to fixture groups.*

Step 6

Column 5: *When selecting a trial pipe size, the length from the water service or meter to the most remote fixture outlet must be measured to determine the developed length. However, in systems having a flush valve or temperature controlled shower at the top most floors the developed length would be from the water meter to the most remote flush valve on the system. A rule of thumb is that size will become progressively smaller as the system extends farther from the main source of supply. Trial pipe size may be arrived at by the following formula:*

Line J *(Pressure available to overcome pipe friction) x 100/equivalent length of run total developed length to most remote fixture x percentage factor of 1.5 (note: a percentage factor is used only as an estimate for friction losses imposed for fittings for initial trial pipe size) = psi (average pressure drops per 100 feet of pipe).*

For trial pipe size see Figure E 103.3(3) (Type L copper) based on 2.77 psi and a 108 gpm = 2½ inches. To determine the equivalent length of run to the most remote outlet, the developed length is determined and added to the friction losses for fittings and valves. The developed lengths of the designated pipe sections are as follows:

A – B	*54*	*feet*
B – C	*8*	*feet*
C – D	*13 feet*	
D – E	*150 feet*	

Total developed length = 225 feet

The equivalent length of the friction loss in fittings and valves must be added to the developed length (most remote outlet). Where the size of fittings and valves is not known, the added friction loss should be approximated. A general rule that has been used is to add 50 percent of the developed length to allow for fittings and valves. For example, the equivalent length of run equals the developed length of run (225 ft x1.5 = 338 feet). The total equivalent length of run for determining a trial pipe size is 338 feet.

Example: *9.36 (pressure available to overcome pipe friction) x 100/ 338 (Equivalent length of run = 225 x 1.5) = 2.77 psi (average pressure drop per 100 feet of pipe).*

Step 7

Column 6: *Select from Table E103.3(6) the equivalent lengths for the trial pipe size of fittings and valves on each pipe section. Enter the sum for each section in Column 6. (The number of fittings to be used in this example must be an estimate.) The equivalent length of piping is the developed length plus the equivalent lengths of pipe corresponding to friction head losses for fittings and valves. Where the size of fittings and valves is not known, the added friction head losses must be approximated. An estimate for this example is as follows:*

COLD WATER PIPE SECTION	FITTINGS / VALVES	PRESSURE LOSS EXPRESSED AS EQUIVALENT LENGTH OF TUBE (FEET)	HOT WATER PIPE SECTION	FITTINGS / VALVES	PRESSURE LOSS EXPRESSED AS EQUIVALENT OF TUBE (FEET)
A-B	3 – 2 ½" Gate valves	3	A-B	3 – 2 ½" Gate valves	3
	1 – 2 ½" Side branch tee	12		1 – 2 ½" Side branch tee	12
B-C	1 – 2 ½" Straight run tee	0.5	B-C	1 – 2" Straight run tee	7
				1- 2" 90-degree ell	0.5
C-F	1 – 2 ½" Side branch tee	12	C-F	1 – 1 ½" Side branch tee	7
C-D	1 – 2 ½" 90-degree ell	7	C-D	1 - ½" 90 degree ell	4
D-E	1 – 2 ½" Side branch tee	12	D-E	1 – 1 ½" Side branch tee	7

Step 8

Column 7: *Add the figures from Column 4 and Column 6, and enter in Column 7. Express the sum in hundreds of feet.*

Step 9

Column 8: *Select from Figure E103.3(3) the friction loss per 100 feet (30 480 mm) of pipe for the gallon-per-minute flow in a section (Column 3) and trial pipe size (Column 5). Maximum friction head loss per 100 feet is determined on the basis of total pressure available for friction head loss and the longest equivalent length of run. The selection is based on the gallon-per-minute demand, the uniform friction head loss, and the maximum design velocity. Where the size indicated by hydraulic table indicates a velocity in excess of the selected velocity, a size must be selected which produces the required velocity.*

Step 10

Column 9: *Multiply the figures in Columns 7 and 8 for each section and enter in Column 9.*

Total friction loss is determined by multiplying the friction loss per 100 feet (30 480 mm) for each pipe section in the total developed length by the pressure loss in fittings expressed as equivalent length in feet. Note: section C-F should be considered in the total pipe friction losses only if greater loss occurs in section C-F than in pipe section D-E. section C-F is not considered in the total developed length. Total friction loss in equivalent length is determined as follows:

PIPE SECTIONS	FRICTION LOSS EQUIVALENT LENGTH (feet)	
	Cold Water	Hot Water
A-B	0.69 x 3.2 = 2.21	0.69 x 3.2 = 2.21
B-C	0.085 x 3.1 = 0.26	0.16 x 1.4 = 0.22
C-D	0.20 x 1.9 = 0.38	0.17 x 3.2 = 0.54
D-E	1.62 x 1.9 = 3.08	1.57 x 3.2 = 5.02
Total pipe friction losses (Line K)	5.93	7.99

Step 11

Line K: *Enter the sum of the values in Column 9. The value is the total friction loss in equivalent length for each designated pipe section.*

Step 12

Line L: *Subtract Line J from Line K and enter in Column 10.*

The result should always be a positive or plus figure. If it is not, repeat the operation using Columns 5, 6, 8 and 9 until a balance or near balance is obtained. If the difference between Lines J and K is a high positive number, it is an indication that the pipe sizes are too large and should be reduced, thus saving materials. In such a case, the operations using Columns 5, 6, 8 and 9 should again be repeated.

The total friction losses are determined and subtracted from the pressure available to overcome pipe friction for trial pipe size. This number is critical as it provides a guide to whether the pipe size selected is too large and the process should be repeated to obtain an economically designed system.

Answer: *The final figures entered in Column 5 become the design pipe size for the respective sections. Repeating this operation a second time using the same sketch but considering the demand for hot water, it is possible to size the hot water distribution piping. This has been worked up as a part of the overall problem in the tabular arrangement used for sizing the service and water distribution piping. Note that consideration must be given to the pressure losses from the street main to the water heater (section A-B) in determining the hot water pipe sizes.*

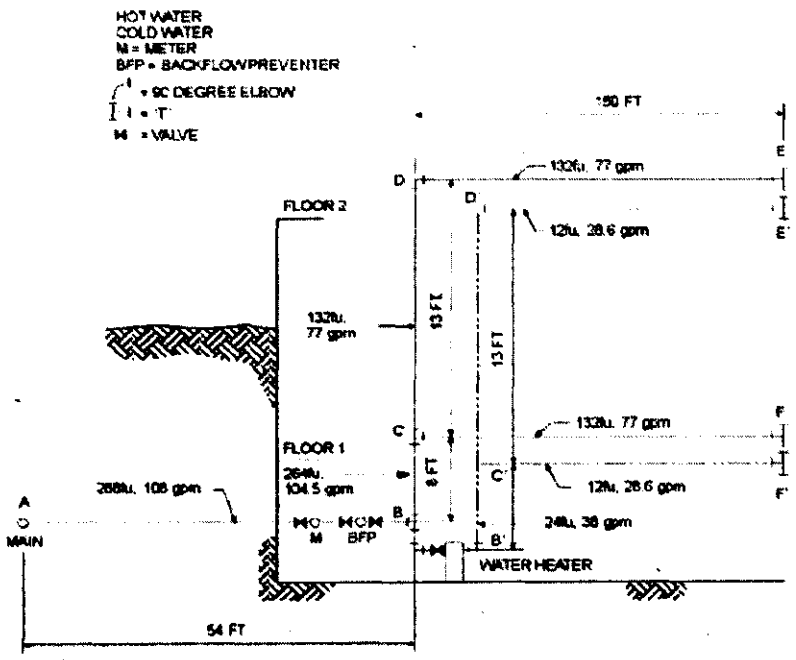

FIGURE E103.3(1)
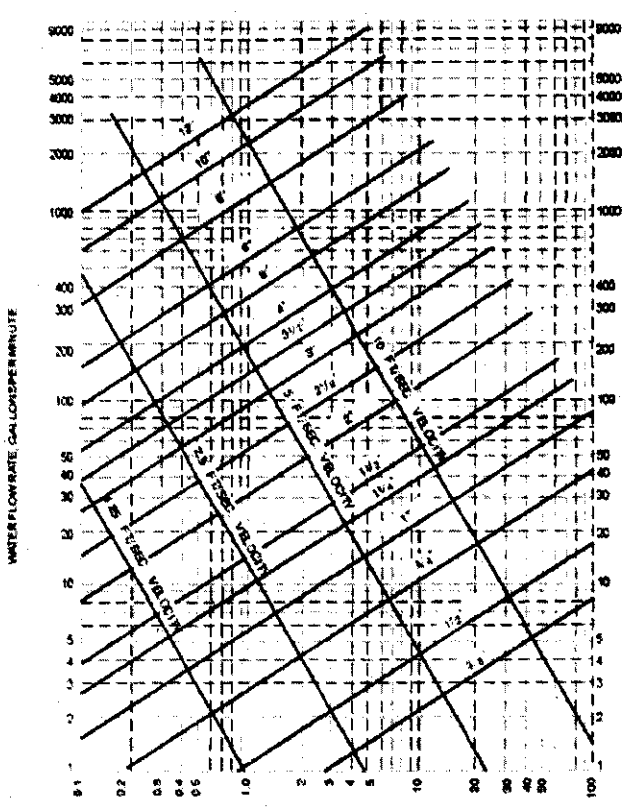
EXAMPLE-SIZING

For SI: 1 foot = 304.8 mm, 1 gpm = 3.785 L/m.



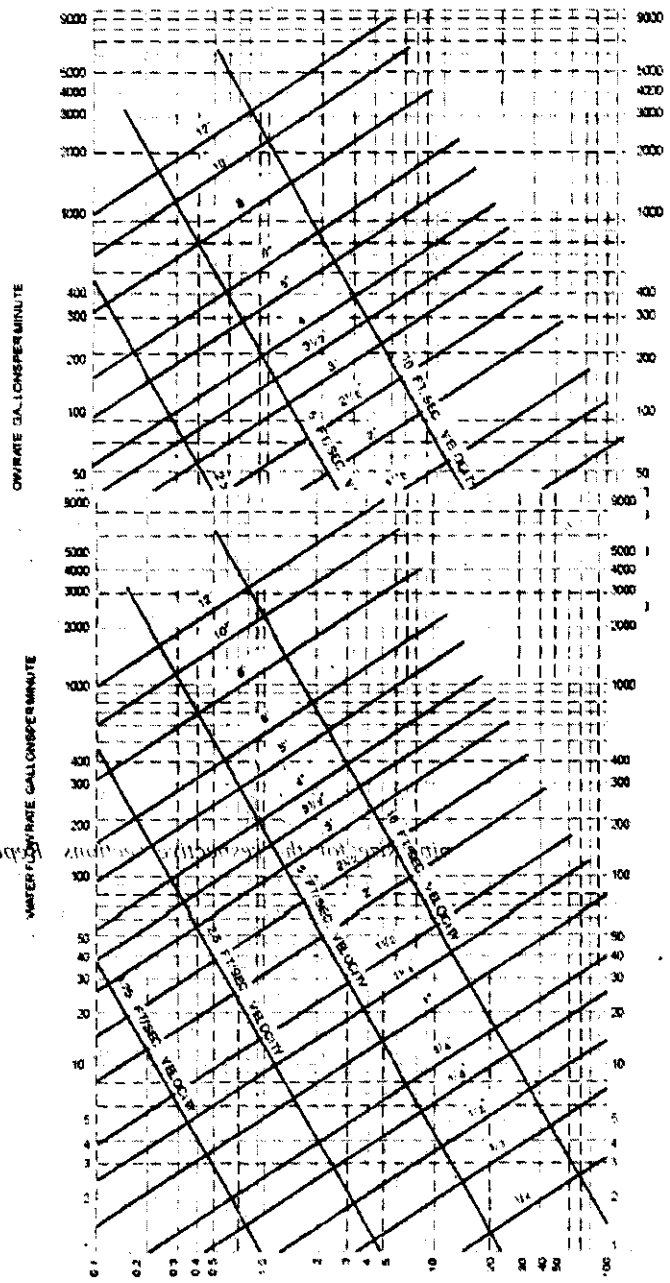
PRESSURE DROP PER 100 FEET OF TUBE, POUNDS PER SQUARE INCH

Note: Fluid velocities in excess of 5 to 8 feet/second are not usually recommended.

FIGURE E103.3(4)
FRICTION LOSS IN SMOOTH PIPE[a]
(TYPE M, ASTM B 88 COPPER TUBING)

For SI: 1 inch = 25.4 mm, 1 foot = 304.8 mm, 1 gpm = 3.785 L/m, 1 psi = 6.895 kPa, 1 foot per second = 0.305 m/s.

a. This chart applies to smooth new copper tubing with recessed (Streamline) soldered joints and to the actual sizes of types indicated on the diagram.



To be considered as pressure gain for fixtures below main (to consider separately, omit from "I" and add to "J").

To consider separately, in K use C-F only if greater loss than above,

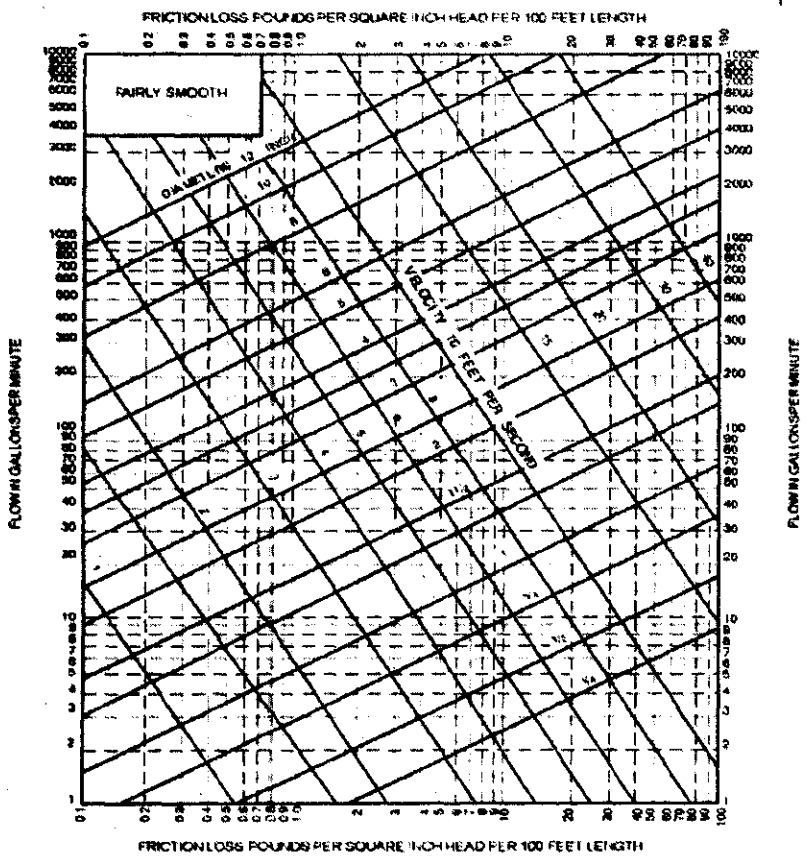


FIGURE E103.3(5)
FRICTION LOSS IN FAIRLY SMOOTH PIPE[a]

For SI: 1 inch = 25.4 mm, 1 foot = 304.8 mm, 1 gpm = 3.785 L/m, 1 psi = 6.895 kPa, 1 foot per second = 0.305 m/s.

a. This chart applies to smooth new steel (fairly smooth) pipe and to actual diameters of standard-weight pipe.

CHAPTER 5
THE NEW YORK CITY BUILDING CODE

SECTION 501
ENACTMENT AND UPDATE OF THE NEW YORK CITY BUILDING CODE

§28-501.1. Local law. A local law shall be enacted setting forth in this chapter a New York city building code based on the 2003 edition of the International Building Code published by the International Code Council, with changes recommended to adapt such code to the unique character of the city.

§28-501.2 Update. No later than the third year after the effective date of the New York city building code and every third year thereafter, the commissioner shall submit to the city council proposed amendments that he or she determines should be made to such code to bring it up to date with the latest edition of the International Building Code or otherwise modify the provisions thereof. In addition, prior to the submission of such proposal to the city council, such proposal shall be submitted to an advisory committee established by the commissioner pursuant to this title for review and comment.

CHAPTER 6
THE NEW YORK CITY MECHANICAL CODE

SECTION 601
ENACTMENT AND UPDATE OF THE NEW YORK CITY MECHANICAL CODE

§28-601.1. Local law. A local law shall be enacted setting forth in this chapter a New York city mechanical code based on the 2003 edition of the International Mechanical Code published by the International Code Council, with changes recommended to adapt such code to the unique character of the city.

§28-601.2 Update. No later than the third year after the effective date of the New York city mechanical code and every third year thereafter, the commissioner shall submit to the city council proposed amendments that he or she determines should be made to such code to bring it up to date with the latest edition of the International Mechanical Code or otherwise modify the provisions thereof. In addition, prior to the submission of such proposal to the city council, such proposal shall be submitted to an advisory committee established by the commissioner pursuant to this title for review and comment.

CHAPTER 7
THE NEW YORK CITY FUEL GAS CODE

SECTION 701
ENACTMENT AND UPDATE OF THE NEW YORK CITY FUEL GAS CODE

§28-701.1. Local law. A local law shall be enacted setting forth in this chapter a New York city fuel gas code based on the 2003 edition of the International Fuel Gas Code published by the International Code Council, with changes recommended to adapt such code to the unique character of the city.

§28-701.2 Update. No later than the third year after the effective date of the New York city fuel gas code and every third year thereafter, the commissioner shall submit to the city council proposed amendments that he or she determines should be made to such code to bring it up to date with the latest edition of the International Fuel Gas Code or otherwise modify the provisions thereof. In addition, prior to the submission of such proposal to the city council, such proposal shall be submitted to an advisory committee established by the commissioner pursuant to this title for review and comment.

CHAPTER 8
THE NEW YORK CITY RESIDENTIAL CODE

SECTION 801
ENACTMENT AND UPDATE OF THE NEW YORK CITY RESIDENTIAL CODE

§28-801.1. Local law. A local law shall be enacted setting forth in this chapter a New York city residential code based on the 2003 edition of the International Residential Code published by the International Code Council, with changes recommended to adapt such code to the unique character of the city.

§28-801.2 Update. No later than the third year after the effective date of the New York city residential code and every third year thereafter, the commissioner shall submit to the city council proposed amendments that he or she determines should be made to such code to bring it up to date with the latest edition of the International Residential Code or otherwise modify the provisions thereof. In addition, prior to the submission of such proposal to the city council, such proposal shall be submitted to an advisory committee established by the commissioner pursuant to this title for review and comment.

§2. This local law shall take effect on July 1, 2007 provided, however that prior to such date a New York city building code based on the 2003 edition of the International Building Code, a New York city mechanical code based on the 2003 edition of the International Mechanical Code, , a New York city residential code based on the 2003 edition of the International Residential Code, a New York city fuel gas code based on the 2003 edition of the International Fuel Gas Code, all such international codes published by the International Code Council, with recommended changes that reflect the unique character of the city, shall be enacted and that if a local law or laws enacting such New York city codes are not enacted prior to July 1, 2007, this local law shall not take effect, and provided, further, that prior to the effective date of this local law the commissioner shall take all administrative actions necessary for the timely implementation of this local law including but not limited to the promulgation of rules.

MADELINE PROVENZANO, Chairperson; JOEL RIVERA, DIANA REYNA, TONY AVELLA, GALE A. BREWER, LEROY G. COMRIE, LEWIS A. FIDLER, ROBERT JACKSON, MELINDA R. KATZ, LETITIA JAMES, JAMES S. ODDO, Committee on Housing and Buildings,; November 16, 2005.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

Report for Res. No. 1223

Report of the Committee on Housing and Buildings in favor of approving a Resolution determining that Proposed Int. No. 478-A, a Local Law to amend the administrative code of the city of New York, in relation to enacting the New York city plumbing code based on the 2003 edition of the International Plumbing Code published by the International Code Council and enacting administrative provisions applicable to such New York city plumbing code and to such other codes as may hereafter be enacted by the city based on the 2003 editions of the International Building Code, the International Fuel Gas Code, the International Mechanical Code and the International Residential Code, will not have a significant adverse impact on the environment.

The Committee on Housing and Buildings to which was referred on October 27, 2005 (Minutes, page 5026) the annexed resolution respectfully

REPORTS:

BACKGROUND AND INTENT:

On November 16, 2005, the Council is expected to vote on Res. No. 1223.

On November 15, 2005, the Committee on Housing and Buildings, chaired by Council Member Madeline Provenzano, convened to consider Res. No. 1223 as the Committee expected to vote on Proposed Int. No. 478-A. The enactment of local legislation is considered to be an "action" subject to the New York State Environmental Quality Review Act (Environmental Conservation Law, Article 8) and the City Environmental Quality Review Procedure (CEQR), which require an analysis of the environmental impacts of taking that action. One possible outcome of the environmental analysis is a determination that the proposed action will not have a "significant adverse environmental impact," warranting the issuance of a Negative Declaration. Such an environmental analysis was performed regarding the enactment of Proposed Int. No. 478-A and it was determined that the issuance of a Negative Declaration was in fact an appropriate outcome. Res. No. 1223 is the mechanism by which the Council adopts that Negative Declaration.

Update

On Tuesday, November 15, 2005, the Committee on Housing and Buildings considered Res. No. 1223, determining that Proposed Int. No. 478-A, a Local Law to amend the administrative code of the city of New York, in relation to enacting the New York city plumbing code based on the 2003 edition of the International Plumbing Code published by the International Code Council and enacting administrative provisions applicable to such New York city plumbing code and to such other codes as may hereafter be enacted by the city based on the 2003 editions of the International Building Code, the International Fuel Gas Code, the International Mechanical Code and the International Residential Code, will not have a significant adverse impact on the environment.

The Committee adopted Res. No. 1223 by a vote of 9 in the affirmative, zero in the negative and no abstentions.

Accordingly, the Committee recommends its adoption.

(For text of the resolution, please see the Report of the Committee on Housing & Buildings for Res. No. 1123 printed in the Minutes of the Stated Council Meeting of October 27, 2005, page 5026.)

November 14, 2005

Mr. Robert Kulikowski, Director
Office of Environmental Coordination
100 Gold Street, 2nd Floor
New York, NY 10038

Re: CEQR No. 05 DOB 001 Y
Lead Agency, EAS

Dear Mr. Kulikowski:

In accordance with Executive Order No. 91 of 1977, as amended, and the Rules of Procedure for City Environmental Quality Review (CEQR) and Article 8 of the New York State Environmental Conservation Law, 6 NYCRR Part 617, the Council of the City of New York and the New York City Department of Buildings, are assuming CEQR Co-lead agency status for the review of the action described below.

The action proposed is passage of a local law by the New York City Council to amend the administrative code of the City of New York, in relation to enacting the New York city plumbing code based on the 2003 edition of the International Plumbing Code published by the International Code Council and enacting administrative provisions applicable to such New York city plumbing code and to such other codes as may hereafter be enacted by the city based on the 2003 editions of the International Building Code, the International Fuel Gas Code, the International Mechanical Code, and the International Residential Code.

Enclosed are parts I, II and III of the Environmental Assessment Statement (EAS

Pursuant to with Executive Order No. 91 of 1977, as amended, and the Rules o Procedure for City Environmental Quality Review (CEQR) and Article 8 of the New York State Environmental Conservation Law, 6 NYCRR Part 617, the lead agencies are required to determine whether a proposed action may or will not have a significant effect on the environment. In accordance with this requirement, the Council of the City of New York and the New York City Department of Buildings have determined that the proposed action will not ha

a significant adverse impact on the environment. Attached is the Negative Declaration for this action, CEQR number 05DOB001Y.

If you have any questions, please feel free to contact us at 212-566-3291, or 212-788-9122, respectively.

Sincerely,

Phyllis Arnold
General Counsel
NYC Department of Buildings

Jeffrey Haberman
Deputy Director, Infrastructure Division
New York City Council

NEGATIVE DECLARATION

CEQR No.	05 DOB001Y
Date Issued:	November 14, 2005
Name:	Intro 478 A
Location:	Citywide
SEQRA Classification:	Unlisted
Co-Lead Agencies:	The Council of the City Of New York The New York City Department of Buildings

Description:
A local law to amend the administrative code of the City of New York, in relation to enacting the New York city plumbing code based on the 2003 edition of the International Plumbing Code published by the International Code Council and enacting administrative provisions applicable to such New York city plumbing code and to such other codes as may hereafter be enacted by the city based on the 2003 editions of the International Building Code, the International Fuel Gas Code, the International Mechanical Code, and the International Residential Code.

Statement of No Significant Effect:
The Council of the City of New York and the New York City Department of Buildings, as CEQR Co-lead agencies, have reviewed the proposed action pursuant to Article 8 of the New York State Environmental Conservation Law, 6 NYCRR Part 617 and the City Environmental Quality Review (CEQR), including Executive Order No. 91 of 1977, as amended, and the CEQR Rules of Procedure found in Title 62, Chapter

5 of the Rules of the City of New York, and determined that the proposed action will not have a significant adverse impact on the environment.

Supporting Statements:
The above determination is based upon an Environmental Assessment Statement (EAS) and supporting documentation.

The EAS and supporting documentation find that no significant effects upon the environment, which would require the preparation of an Environmental Impact Statement, are foreseeable.

This Negative Declaration has been prepared in accordance with Article 8 of the Environmental Conservation Law 6NYCRR Part 617.

IF "YES", IDENTIFY THE LOCATION OF THE SITES PROVIDING THE INFORMATION REQUESTED IN 13a & 13b ABOVE. Citywide

Site Description
EXCEPT WHERE OTHERWISE INDICATED, ANSWER THE FOLLOWING QUESTIONS WITH REGARD TO THE DIRECTLY AFFECTED AREA. THE DIRECTLY AFFECTED AREA CONSISTS OF THE PROJECT SITE AND THE AREA SUBJECT TO ANY CHANGE IN REGULATORY CONTROLS.

PART II, SITE AND ACTION DESCRIPTION

1. GRAPHICS Please attach: (1) a Sanborn or other land use map; (2) a zoning map; and (3) a tax map. On each map, clearly show the boundaries of the directly affected area or areas and indicate a 400-foot radius drawn from the outer boundaries of the project site. The maps should not exceed 8½ x 14 inches in size. Citywide

2. PHYSICAL SETTING (both developed and undeveloped areas) N/A
Total directly affected area (sq. ft.): Water surface area (sq. ft.):
Roads, building and other paved surfaces (sq. ft.): Other, describe (sq. ft.):

3. PRESENT LAND USE N/A
Residential
Total no. of dwelling units: No. of low-to-moderate income units:
No. of stories: Gross floor area (sq. ft.):
Describe type of residential structures:
Commercial
Retail: No. of bldgs: Gross floor area of each building (sq. ft.):
Office: No. of bldgs: Gross floor area of each building (sq. ft.):
Other: No. of bldgs: Gross floor area of each building (sq. ft.):
Specify type(s): No. of stories and height of each building:
Manufacturing/Industrial
No. of bldgs: Gross floor area of each building (sq. ft.):
No. of stories and height of each building:
Type of use(s): Open storage area (sq. ft.)
If any unenclosed activities, specify:
Community facility
Type of community facility:
No. of bldgs: Gross floor area of each building (sq. ft.):
No. of stories and height of each building:
Vacant land
Is there any vacant land in the directly affected area? ☐ Yes ☐ No
If yes, describe briefly:
Publicly accessible open space
Is there any existing publicly accessible open space in the directly affected area? ☐ Yes ☐ No
If yes, describe briefly:
Does the directly affected area include any mapped City, State or Federal parkland? ☐ Yes ☐ No
If yes, describe briefly:
Does the directly affected area include any mapped or otherwise known wetland? ☐ Yes ☐ No
If yes, describe briefly:
Other land use
No. of stories: Gross floor area (sq. ft.):
Type of use:

4. EXISTING PARKING N/A

No. of public spaces: No. of accessory spaces:
Operating hours: Attended or non-attended?
Lot
No. of public spaces: No. of accessory spaces:
Operating hours: Attended or non-attended?
Other (including street parking) - please specify and provide same data as for lots and garages, as appropriate.

5. EXISTING STORAGE TANKS N/A
Gas or service station? ☐ Yes ☐ No Oil storage facility? ☐ Yes ☐ No Other? ☐ Yes ☐ No
If yes, specify:
Number and size of tanks: Last NYFD inspection date:
Location and depth of tanks:

SEE CEQR TECHNICAL MANUAL CHAPTER III F, HISTORIC RESOURCES

6. CURRENT USERS N/A
No. of residents: _____ No. and type of businesses: _____
No. and type of workers by businesses: _____ No. and type of non-residents who are not workers: _____

7. HISTORIC RESOURCES (ARCHITECTURAL AND ARCHAEOLOGICAL RESOURCES)
Answer the following two questions with regard to the directly affected area, lots abutting that area, lots along the same blockfront or directly across the street from the same blockfront, and, where the directly affected area includes a corner lot, lots which front on the same street intersection. Citywide (See Attachments A & C)

Do any of the areas listed above contain any improvement, interior landscape feature, aggregate of landscape features, or archaeological resource that:
(a) has been designated (or is calendared for consideration as) a New York City Landmark, Interior Landmark or Scenic Landmark;
(b) is within a designated New York City Historic District;
(c) has been listed on, or determined eligible for, the New York State or National Register of Historic Places;
(d) is within a New York State or National Register Historic District; or
(e) has been recommended by the New York State Board for listing on the New York State or National Register of Historic Places?
Identify any resource:

Do any of the areas listed in the introductory paragraph above contain any historic or archaeological resource other than those listed in response to the previous question? Identify any resource.

SEE CEQR TECHNICAL MANUAL CHAPTER III K, WATERFRONT REVITALIZATION PROGRAM

8. WATERFRONT REVITALIZATION PROGRAM Citywide (See Attachments E & F)
Is any part of the directly affected area within the City's Waterfront Revitalization Program boundaries? ☒ Yes ☐ No
(A map of the boundaries can be obtained at the Department of City Planning bookstore.)
If yes, append a map showing the directly affected area as it relates to such boundaries. A map requested in other parts of this form may be used.

Project Description

THE SUBPART SHOULD GENERALLY BE COMPLETED ONLY IF YOUR ACTION INCLUDES A SPECIFIC OR KNOWN DEVELOPMENT AT PARTICULAR LOCATIONS

9. CONSTRUCTION N/A See Attachment C
Will the action result in demolition of or significant physical alteration to any improvement? ☐ Yes ☐ No
If yes, describe briefly:

Will the action involve either above-ground construction resulting in any ground disturbance or in-ground construction?
☐ Yes ☐ No If yes, describe briefly:

No. of residents:_____ No. and type of businesses:_____
No. and type of workers by businesses: _____ No. and type of non-residents who are not workers:_____

SEE CEQR TECHNICAL MANUAL CHAPTER III B, SOCIO-ECONOMIC CONDITIONS

SEE CEQR TECHNICAL MANUAL CHAPTER III C, COMMUNITY FACILITIES & SERVICES

14. HISTORIC RESOURCES (ARCHITECTURAL AND ARCHAEOLOGICAL RESOURCES)
Will the action affect any architectural or archaeological resource identified in response to either of the two questions at number 7 in the Site Description section of the form? ☐ Yes ☐ No
If yes, describe briefly: Citywide (See Attachments A & C)

15. DIRECT DISPLACEMENT
Will the action directly displace specific business or affordable and/or low income residential units? ☐ Yes ☒ No
If yes, describe briefly:

Zoning Information

16. COMMUNITY FACILITIES
Will the action directly eliminate, displace, or alter public or publicly funded community facilities such as educational facilities, libraries, hospitals and other health care facilities, day care centers, police stations, or fire stations? ☐ Yes ☒ No
If yes, describe briefly:

17. What is the zoning classification(s) of the directly affected area? N/A

18. What is the maximum amount of floor area that can be developed in the directly affected area under the present zoning? Describe in terms of bulk for each use. N/A

19. What is the proposed zoning of the directly affected area? N/A

20. What is the maximum amount of floor area that could be developed in the directly affected area under the proposed zoning? Describe in terms of bulk for each use. N/A

21. What are the predominant land uses and zoning classifications within a 1/4 mile radius of the proposed action? N/A

Additional Information

22. Attach any additional information as may be needed to describe the action. If your action involves changes in regulatory controls that affect one or more sites not associated with a specific development, it is generally appropriate to include here one or more reasonable development scenarios for such sites and, to the extent possible, to provide information about such scenario(s) similar to that requested in the Project Description questions 9 through 16. See Attachments A, B, C, and D

q. AIR QUALITY	See CEQR Technical Manual Chapter III.Q.
r. NOISE	See CEQR Technical Manual Chapter III.R.
s. CONSTRUCTION IMPACTS	See CEQR Technical Manual Chapter III.S.
t. PUBLIC HEALTH	See CEQR Technical Manual Chapter III.T.

The CEQR Technical Manual sets forth methodologies developed by the City to be used in analyses prepared for the above- listed categories. Other methodologies developed or approved by the lead agency may also be utilized. If a different methodology is contemplated, it may be advisable to consult with the Mayor's Office of Environmental Coordination. You should also attach any other necessary analyses or information relevant to the determination whether the action may have a significant impact on the environment, including, where appropriate, information on combined or cumulative impacts, as might occur, for example, where actions are interdependent or occur within a discrete geographical area or time frame.

NOTE: Any person who knowingly makes a false statement or who knowingly falsifies any statement on this form or allows any such statement to be falsified shall be guilty of an offense punishable by fine or imprisonment or both, pursuant to Section 10-154 of the New York City Administrative Code, and may be liable under applicable laws.

Impact Significance

PART III, ENVIRONMENTAL ASSESSMENT AND DETERMINATION

TO BE COMPLETED BY THE LEAD AGENCY

The lead agency should complete this Part after Parts I and II have been completed. In completing this Part, the lead agency should consult 6 NYCRR 617.7, which contains the State Department of Environmental Conservation's criteria for determining significance.

The lead agency should ensure the creation of a record sufficient to support the determination in this Part. The record may be based upon analyses submitted by the applicant (if any) with Part II of the EAS. The CEQR Technical Manual sets forth methodologies developed by the City to be used in analyses prepared for the listed categories. Alternative or additional methodologies may be utilized by the lead agency.

1. For each of the impact categories listed below, consider whether the action may have a significant effect on the environment with respect to the impact category. If it may, mark yes.

LAND USE, ZONING, AND PUBLIC POLICY	NO
SOCIOECONOMIC CONDITIONS	NO
COMMUNITY FACILITIES AND SERVICES	NO
OPEN SPACE	NO
SHADOWS	NO
URBAN DESIGN/VISUAL RESOURCES	NO
NEIGHBORHOOD CHARACTER	NO
NATURAL RESOURCES	NO
HAZARDOUS MATERIALS	NO
WATERFRONT REVITALIZATION PROGRAM	NO
INFRASTRUCTURE	NO
SOLID WASTE AND SANITATION SERVICES	NO
ENERGY	NO
TRAFFIC AND PARKING	NO
TRANSIT AND PEDESTRIANS	NO
AIR QUALITY	NO
NOISE	NO
CONSTRUCTION IMPACTS	NO
PUBLIC HEALTH	NO

2. Are there any aspects of the action relevant to the determination whether the action may have a significant impact on the environment, such as combined or cumulative impacts, that were not fully covered by other responses and supporting materials? If there are such impacts, explain them and state where, as a result of them, the action may have a significant impact on the environment. No

3. If the lead agency has determined in its answers to questions 1 and 2 of this Part that the action will have no significant impact on the environment, a negative declaration is appropriate. The lead agency may, in its discretion, further elaborate here upon the reasons for issuance of a negative declaration. See Attachments A and C

4. If the lead agency has determined in its answers to questions 1 and 2 of this part that the action may have a significant impact on the environment, a conditional negative declaration (CND) may be appropriate if there is a private applicant for the action and the action is not Type I. A CND is only appropriate when conditions imposed by the lead agency will modify the proposed action so that no significant adverse environmental impacts will result. If a CND is appropriate, the lead agency should describe here the conditions to the action that will be undertaken and how they will mitigate potential significant impacts.

5. If the lead agency has determined that the action may have a significant impact on the environment, and if a conditional negative declaration is not appropriate, then the lead agency should issue a positive declaration. Where appropriate, the lead agency may, in its discretion, further elaborate here upon the reasons for issuance of a positive declaration. In particular, if supporting materials do not make clear the basis for a positive declaration, the lead agency should describe briefly the impact(s) it has identified that may constitute a significant impact on the environment.

ATTACHMENT A: PROJECT DESCRIPTION

Re: CEQR No. 05 DOB 001 Y

Intro. No. 478-A – A local law to amend the Administrative Code of the City of New York, in relation to enacting the New York City plumbing code based on the 2003 edition of the International Plumbing Code published by the International Code Council and enacting administrative provisions applicable to such New York City plumbing code and to such other codes as may hereafter be enacted by the City based on the 2003 editions of the International Building Code, the International Mechanical Code, the International Fuel Gas Code and the International Residential Code.

Location: Citywide
Type of Action: Unlisted

PROJECT DESCRIPTION

The proposed action is the passage of a local law that sets forth new administrative and enforcement provisions for the City's new construction codes as well as the City's new plumbing code. It provides for further adoption by subsequent local law of the following codes: the building code, the mechanical code, the fuel gas code and the residential code. All codes are proposed to become effective July 1, 2007.

Purpose and Need

The New York City Building Code affects all aspects of construction and development in the City by regulating the type of materials which can be used by developers, establishing minimum standards for construction and public safety, and defining the review process which must be followed to ensure code compliance.

Since New York City's Building Code was established in the early nineteenth century, it has undergone periodic review and revision to better incorporate the inevitable changes and improvements in building and construction technology that occur over time. During the last comprehensive revision and updating of the City's Building Code in 1968, the City took the first step to ensure that the Building Code was the most up-to-date, safe and efficient code by liberal reference to accepted national reference standards. The proposed action continues that progress by utilizing the uniform format, clarity and built-in infrastructure of national model codes, and where necessary, modifying or adding new text tailored to the unique needs and characteristics of the City's built environment.

Over the past forty years, New York City enforcement officials have addressed critical issues through targeted local laws and rule making. As a result, the current Building Code is widely recognized as one of the most stringent and advanced codes in the country. Despite this, the Building Code is criticized for its convoluted nature and overall lack of clarity, resulting in the need for various types of costly reviews and an increased potential for corruption. As a result of industry demand to update the City's

Building Code, the Mayor issued Executive Order No. 30 in November 2002, establishing a Code Commission. The expressed purpose was to determine the feasibility of adopting a new model building code for New York City. In 2003, the Mayor accepted the Commission's recommendation calling for a consensus-based building code development process that emulated the successful Electrical Code development process.

The Model Code Program and Process

During the summer of 2003, the NYC Model Code Program (the "Program") was established as a result of the mandate described above. The Program is a public/private partnership of over 400 professionals involved in 13 technical committees and 8 advisory committees. The participating individuals include architects, engineers, contractors, developers, attorneys and representatives of the construction industry, labor, real estate and government. Over the past two years, these various constituencies have volunteered thousands of hours of service.

The goal of the Model Code Program is to incorporate provisions from the national model codes and reference standards, including the International Code Council ("ICC"), the National Fire Protection Association ("NFPA") and other national codes and standards, to form a code appropriate for the high-density urban environment of the City. The new code would retain the most important public safety provisions that are part of the current New York City Building Code, including the recent Carbon Monoxide and World Trade Center laws (Local Laws 7 & 26 of 2004, respectively). The new code would ensure public safety while streamlining procedures and providing the public with easier access to information, thereby improving the process by which development occurs and permits are issued. It would benefit overall construction in New York by reducing bureaucratic requirements while continuing to maintain high levels of safety and performance. The new Code would also assist in the creation of affordable housing and promote continued economic growth.

The proposed action, Intro 478-A, represents the work product of the Administration/Enforcement and the Plumbing Technical Committees. The committees conducted line-by-line reviews of the current Building Code, the many volumes of the International family of Codes, including the International Plumbing Code, and other relevant codes and standards. The technical committees, upon completion of their review, reached consensus and submitted their proposed text to the overseeing Managing Committee.

The Managing Committee is comprised of the Chairs of the Technical Committees, and individuals with government and industry. It includes representatives from the Departments of Buildings, Design and Construction, Fire, the New York City Council, the Economic Development Corporation, trade unions, and professional organizations such as American Institute of Architects, Structural Engineers Association of NY, Building Owners and Managers Association, and Association of Builders and Owners. The Managing Committee considered all submissions of the Administration/Enforcement and the Plumbing Technical Committees. The Managing Committee could either approve or reject the submissions by section. A comment period of no less than two weeks was established. If no written comments were received from the Managing

Committee members by the end of the comment period, the submissions were deemed approved. Any written comments received were reviewed by the Department and incorporated into the section or referred back to the appropriate Technical Committee for further review of the section. Once approved, all submissions were reviewed and prepared by the Department for approval by the Commissioner and presented to the City Council.

Concurrent to the Managing Committee's review of the work product of the Administration/Enforcement and the Plumbing Technical Committees, the Department evaluated the effect of the proposed code changes on construction cost through the use of four prototypical case studies: a 37-story commercial high-rise, a 29-story residential high-rise, a 4-story residential low-rise and a 5-story school. Once again, the volunteer efforts of leading design and cost estimating experts in the city were relied upon to conduct this cost impact assessment. The first step was to estimate the total cost of the prototype building or school, designed in accordance with the current New York City Building Code. Then the prototypes were "redesigned," utilizing building plumbing systems and other provisions in accordance with the proposed action. Based upon the design and comparative cost analyses, the changes resulting from the proposed action appear to have negligible impact on the overall construction cost of the prototype buildings in our evaluation. (See **Attachment D** for additional information from the Cost Impact Assessment Report, May 2005.)

The bill was originally introduced in the City Council as Intro 478. In November 2004 the Council held a public hearing on the proposed legislation. The Department received and carefully reviewed the comments raised during the hearing. Intro 478-A reflects the combined efforts of the Department, as well as the Technical Committees of the Model Code Program, to address the issues raised during that initial public hearing. The City Council held a hearing on Intro 478 A in June 2005.

Major Changes from the Current Code

The major differences between the proposed action and the current NYC Building Code are summarized below. See **Attachment B** for the complete summary.

Administrative and Enforcement Provisions

Title 28, Chapter 1,
Section 28-104 Materials, Equipment and Devices;
Section 28-105 Alternative Materials, Design, Methods of Construction and Equipment

- New materials and equipment that are accepted or evaluated by nationally recognized evaluation services or that are listed by nationally recognized testing laboratories such as Underwriters Laboratories, may be accepted in New York City without the need for a separate approval by the Department.
- The Commissioner may approve the use of alternative materials, engineered design, methods of construction and equipment in individual circumstances where he or she finds it at least the equivalent of that prescribed in the code in quality, strength, effectiveness, fire resistance, durability and safety.

- The ability of architects and engineers to professionally certify certain types of materials and equipment is expanded.

Title 28, Chapter 1, Section 28-106
Permits
- A new provision allows work permits to be issued for up to 2 years, with the exception that sidewalk shed permits would continue to be issued for up to one year.

Title 28, Chapter 1, Section 28-106
Permits
- A new category of Ordinary Plumbing Work is created. It allows a licensed plumber to report to the Department on a monthly basis certain work performed in accordance with this code. No filing of plans or permit is required for such work.

Title 28, Chapter 1, Section 28-107
Construction Documents
- Plumbing and fire suppression alterations for which a master plumber or master fire suppression piping contractor may file, currently limited to a maximum of $18,000 for plumbing and $10,000 for fire suppression, are permitted up to $25,000 to reflect increased construction costs.

Title 28, Chapter 1, Section 28-125
Temporary Structures and Uses
- New provisions govern permitting requirements for temporary uses and structures.

Title 28, Chapter 1, Section 28-126
Fees
- Required Department fees are now located in easy-to-read charts.
- Fee rebate incentives are created to encourage energy and water savings and other environmentally sustainable strategies in designing building systems.
- Fees for accelerated plan review, inspections and issuance of certificates of occupancy are introduced.

Title 28, Chapter 1, Section 28-127
Inspections and Sign-Off of Completed Work
- Approved inspection agencies may be used as an alternative to Department inspections for all but certificate of occupancy inspections.
- Work is required to be signed-off.

Title 28, Chapter 1, Section 28-128
Certificates of Occupancy
- Certificates of occupancy are required to be posted in all but one- and two-family residential occupancies.
- Partial certificates of occupancy may be issued for specific floors in buildings constructed before 1938.
- The duration of temporary certificates of occupancy is no longer limited to 90 days.

Title 28, Chapter 1, Section 28-130
Enforcement
- The enforcement provisions are consolidated and simplified. In order to consider the comprehensiveness and equity of prescribed penalties, the proposed action calls for the establishment by subsequent local law of schedules of civil and criminal penalties reflecting the severity and repeated nature of infractions.

Title 28, Chapter 1,
Section 28-140 Emergency Power of the Commissioner
Section 28-141 Unsafe Buildings
- The proposed legislation codifies the Department's common law power to act in emergencies.
- Monies owed in conjunction with the Department's prosecution of Unsafe Buildings proceedings in court and the performance of work pursuant to court orders are authorized to be collected as tax liens.

Title 28, Chapter 2 (all)
- License terms generally are extended from the current one year to three years.
- Government employee plumbers and fire suppression piping installers are expressly recognized and the government experience of trainees is allowed to be credited toward qualifying for a master plumber or master fire suppression piping contractor license.
- Journeyman registration is recognized for plumbers and fire suppression piping installers, and two years of journeyman experience are required as part of the traditional 7-year experience requirement for a master plumber or master fire suppression piping contractor license.
- Stakeholder participation has been expanded on the Master Plumbers' and Fire Suppression Contractors' Licensing Boards.

Plumbing Code Technical Provisions

Title 28, Chapter 4
PC Chapter 3 General Requirements
PC Chapter 7 Sanitary Drainage
PC Chapter 11 Storm Drainage
Plastic Pipe
- The ability to use plastic piping in drain, waste and venting systems in residential buildings is increased from the current maximum building height of three stories to five stories.
- Corrugated polyethylene piping and fittings are permitted outside of the foundation wall for yard drains and stormwater piping in all building types.

Title 28, Chapter 4
PC Chapter 4, Fixtures, Faucets and Fixture Fittings
New Standards
- New Standards are introduced for:
  - Emergency showers and eyewash stations

  - Glazing of shower enclosure windows and doors
  - Whirlpool bathtubs.

Title 28, Chapter 4
PC Chapter 5 Water Heaters
- This section updates the current NYC Code regarding water heater installation requirements and adds additional safety measures.

Title 28, Chapter 4
PC Chapter 11 Storm Drainage
Secondary (Emergency) Roof Drains
- A new requirement calls for overflow drains to protect the roof should primary drains be blocked.

Title 28, Chapter 4
PC Chapter 9 Vents
- Under certain conditions, the new code allows up to 8 floor outlet fixtures to be circuit vented.
- Wet venting is permitted for a bathroom group.
- Vent and soil stacks are now per the IPC.

Title 28, Chapter 4, PC Appendix C Water Conservation Systems
- Under an approved water conservation plan, beneficial collection of rain and certain waste water may be recycled for nonpotable uses, and waterless urinals are permitted.

ENVIRONMENTAL EFFECTS OF THE PROPOSED ACTION

By definition, a CEQR analysis of a proposed action compares the future without the proposed action to the future with the proposed action and assesses that difference to determine its significance. In this instance, the future without the proposed action assumes that construction, development and building alteration continue to be regulated by the current New York City Building Code, Reference Standards, and associated Technical Policy and Procedure Notices, Operational Policy and Procedure Notices, Administrative Policy and Procedure Notices, Legal Policy and Procedure Notices, Agency Directives, Agency Memoranda, Published Letters and Agency Rules (hereafter collectively referred as "the New York City Building Code," or "the Building Code"). The future with the proposed action assumes Intro 478-A is approved and the new code is in effect.

Development in New York City is controlled primarily by two sets of documents: the New York City Zoning Resolution that regulates building size, population density and the way land is used through zoning, and the New York City Building Code that regulates how buildings and structures must be built. In most cases, a developer may build a structure "as-of-right" if the Department of Buildings is satisfied that the structure complies with the provisions of the Zoning Resolution and the Building Code. A developer files plans with the Department of Buildings that demonstrate such compliance. Construction may begin upon issuance of the building permit.

Implementation of the proposed action would result in a new building code that ensures public safety while streamlining procedures and providing the public with easier access to information, thereby improving the process by which development occurs and permits are issued. The proposed action does not involve zoning changes, a specific development site or construction project.

The Department has examined the proposed action by analyzing all of its components, singly and in combination. **Attachment C** sets out a matrix summarizing the analysis of the proposed action (described above) relative to the impact categories required to be assessed. The proposed action would have a beneficial effect upon the construction of the built environment in New York City. By contrast, no part of the action, nor the action as a whole, is expected to result in significant adverse environmental impacts.

ATTACHMENT B
BILL SUMMARY

SECTION –BY-SECTION ANALYSIS
Intro 478-A

Section 1.[1] Section 1 of the bill creates new Title 28 of the administrative code, entitled NEW YORK CITY CONSTRUCTION CODES. The structure of Title 28 reflects the provisions of Intro 478-A as well as those of the anticipated completion bill next year: Intro 478-A's provisions consist of Chapter 1, Administration and Enforcement; Chapter 2, Licensing and Registration of Businesses, Trades and Occupations Engaged in Building Work; Chapter 3, Special Provisions Relating to Regulation of Outdoor Signs; and Chapter 4, The New York City Plumbing Code. These chapters are followed by the framework for chapters to be set forth in future legislation as follows: Chapter 5, The New York City Building Code; Chapter 6, The New York City Mechanical Code; Chapter 7, The New York City Fuel Gas Code; Chapter 8, and The New York City Residential Code. The administration and enforcement provisions of Chapter 1 apply to all of the technical codes comprising subsequent chapters.

Section 2. Section 2 of the bill calls for an effective date of July 1, 2007, provided that a completion bill is passed prior to that date. That completion bill is proposed to set forth the content of Chapters 5 through 9 as described in Section 1 and will repeal Title 26, Chapter 1, and Title 27, Chapter 1 of the administrative code. If the completion bill is not passed by July 1, 2007, this law will be of no force and effect. Section 2 further allows the commissioner of buildings to take administrative actions for timely implementation of the new code, including promulgation of rules.

TITLE 28, CHAPTER 1 – ADMINISTRATION AND ENFORCEMENT

Section 28-101. General. Section 28-101 defines the scope of Chapter 1 as administration and enforcement of the code and introduces various codes that will comprise the New York City Construction Codes: The New York City Plumbing Code; The New York City Building Code; The New York City Mechanical Code; The New York City Fuel Gas Code; and The New York City Residential Code;. It further describes the intent of the construction codes and establishes a transition period of one

[1] Sections 1 and 2 here noted refer to the main body of Intro 478-A. Section 1 contains the proposed new chapters of Title 28, each of which is itself comprised of sections, which are detailed in the text following by their proposed codified section number. The codified section numbers occasionally skip the sequence. This is done deliberately in order to maintain consistency with the model code. In the Administrative and Enforcement provisions, there is no indication of reserved sections. In the Plumbing provisions, there is such an indication.

year from the effective date of the new code in which any work for which a permit application is filed prior to one year after the effective date may, at the owner's option, comply either with this proposed code or with the code in force prior to this code. The Commissioner may grant extensions when he or she deems them necessary. Finally, Section 28-101 sets out definitions to be used throughout this code.

Section 28-102. Applicability. Section 28-102 states that where there is a conflict in requirements, whether within this code or between this code and other applicable laws, unless otherwise provided the more restrictive requirement shall prevail. It contains a severability clause. It also states that structures that were legal, or that were permitted prior to the effective date of this code, may continue their legal use under this code unless specifically required to be changed retroactively; that prior illegal uses or occupancies remain illegal; that buildings may be changed in use or occupancy, or altered, in accordance with this code. Finally, buildings erected prior to December 6, 1969, may at the option of the owner, be altered or converted to a multiple dwelling in accordance with the provisions of this code or in accordance with the applicable provisions of the multiple dwelling law covering the same subject matter, provided the general safety and public welfare are not endangered.

Section 28-103. Duties and Powers of the Building Commissioner. Section 28-103 sets forth the authority for enforcement by the Commissioner, except that the Fire Commissioner shall share such authority with regard to issues of fire safety, and the Commissioner of Small Business Services shall share such authority for buildings under its jurisdiction. Other administrative requirements of the current code, under both Titles 26 and 27, are retained, including interpretation; variations; appeals; commissioner's seal and judicial notice; proofs, affidavits and oaths; the cooperation of other departments; safety or health issues that may arise but are not covered by the code; identification; right of entry; and the requirement of the Department to keep administrative and complaint records and lists of permits approved for cellular antenna. The section authorizes the Department to receive and review plans and issue permits, and prohibits Department personnel from engaging for private benefit in the industry. The section also authorizes the commissioner to require additional tests if there is insufficient evidence that a material or method of construction conforms to the requirements of the code.

Section 28-104 Materials, Equipment and Devices. This section sets out the duties and powers of the Department regarding the allowance of materials, assemblies and equipment ("materials") that are regulated by the code, and changes the current code as follows: used materials meeting the requirements of the code are permitted subject to approval; the Commissioner may accept the approvals, listings or recommendations of architects, engineers, or nationally recognized standards or testing entities, allowing the Commissioner, for example, to accept recommendations of the International Code Council Evaluation Services or listings by Underwriters Laboratories. Further, unless otherwise limited, the Commissioner is empowered to grant modifications to the code for individual cases where he or she deems it necessary and where the intent of the code is

preserved; the Commissioner may require reports or tests prior to approval, and may, at his or her option, approve the testing procedure absent a recognized test method.

Section 28-105 Alternative Materials, Design, Methods of Construction and Equipment. The Commissioner may approve the use of alternative materials, engineered design, methods of construction and equipment in individual circumstances where he or she finds it at least the equivalent of that prescribed in the code in quality, strength, effectiveness, fire resistance, durability and safety;

Section 28-106 Permits. Requirements and classifications of permits are similar to the current code, with some exceptions and additions. Equipment use permits are eliminated, but their function is relocated to section 28-128 as certificates of compliance. Generally, separate permits are required for each trade, with exceptions as in the current code.

Exemptions from the permit requirement are provided, with qualifications, including the following: emergency repairs, including erection of sidewalk sheds and fences, structural stabilization, repair of gas leaks, repair or replacement of heating equipment during heating season, replacement of parts required for a combined standpipe or sprinkler system; minor alterations and ordinary repairs; work performed by utility corporations subject to the jurisdiction of the New York State Public Service Commission; a new category entitled ordinary plumbing work, which allows a plumber to perform listed repairs without permit and then report them monthly to the Department; installation of some signs; or other categories of work established by rule. Work not constituting minor alterations or ordinary repairs is defined similarly to the current code.

The section sets out the requirements for a permit application, similar to current requirements but with the addition in the code of a site safety plan (currently required in rule), and includes workers compensation and employee disability insurance where required by law and liability insurance where required by rule. As in the current code, the permit application must be diligently prosecuted or it will be deemed abandoned after 12 months, although extensions may be permitted subject to reinstatement fees.

A new provision in this section allows permits to be issued for up to two years, with the exception that permits for sidewalk sheds would continue to be issued for up to one year. Similar to the current code, a permit will be deemed expired or invalid if work is not prosecuted for a 12-month period or, in a special flood hazard area, within 188 days of the permit issuance date. As with the application, the Commissioner may reinstate a permit, subject to reinstatement fees.

Provisions governing the Commissioner's power to suspend and/or revoke permits are similar to those in the current code, except that the response time allowed the applicant following notification until actual revocation is extended to 10 business days if notification is delivered in person and 15 calendar days if by mail. Similarly, posting of the permit and conditions of the permit related to compliance with the code, conformance to approved plans, adherence to the lot diagram, compliance with safety requirements,

sign permit identification and sidewalk sheds are similar to those in the current code. The provisions require compliance with the noise code and maintenance of a listing by the Commissioner that is available to the public on the Department's website of alteration permits issued for the erection or placement of cellular antennae on buildings.

Section 28-107. Construction Documents. Section 28-107 states the requirement for construction documents, similar to the current code but introduces a new term, the place of assembly operation certificate (see Section 28-118).

Various terms are defined, similar to terms used in the current code, except the term "construction document acceptance," introduced in recognition of the professional certification process. The threshold for "limited plumbing, sprinkler and standpipe alterations" has been increased to $25,000 from the current $18,000.

The section states that applications must be filed by architects or engineers, with some exceptions, and continues to permit the use of filing representatives. In the event that an applicant seeks partial approval of the construction documents in order to proceed with excavation or foundations, submission requirements are now clearly detailed for such partial approval.

Certain exemptions for plans related to equipment work applications for fuel-burning and fuel-oil storage equipment are removed from the code, to be promulgated in rule.

Deferred submittals, relating for example to building or curtainwall structure, are permitted for a specified period of time with the prior approval of the Commissioner. Construction related to deferred submittals is not permitted until such submittals have been approved by the Department.

As with permits, construction document approvals may be suspended or revoked by the Commissioner but the response time allowed the applicant following notification until actual revocation is extended to 10 business days if notification is delivered in person and 15 calendar days if by mail.

Minor changes to the construction documents may be submitted for approval following completion of the work, which is not currently permitted.

Section 28-108. Submittal of Construction Documents. The section sets out the various elements of a construction document submission, reorganized but generally similar to current requirements with some exceptions:

The Commissioner may promulgate rules to accept electronic submissions.

The Commissioner may require additional information or waive required information where he or she deems it appropriate.

In addition to stating that he or she is authorized by the owner to make the application and that it complies with this code and other laws and rules, the applicant must certify (a) that the site contains no occupied housing accommodations subject to rent control or, new in this code, rent stabilization, (b) that the owner has notified, and complied with the requirements of, the New York State Department of Housing and Community Renewal, OR new paragraph (c) that the owner is not required to notify NYSDHCR.

The owner must sign a statement that he or she has authorized the architect or engineer to make the application.

This section codifies what is currently stated in procedures of the Department, that materials, equipment and assemblies required by this code to be approved must be identified in the application submission.

Documents required by the New York State Energy Conservation Construction Code (NYSECCC) are required in the construction document submission.

Section 28-109. New Building Applications. The section sets out the various requirements of applications for new buildings. It is reorganized but generally similar to current requirements with some exceptions: Architectural plans: This section adds some detailed requirements such as curb cuts, multiple dwelling classifications, egress and accessibility information. Where shop drawings and manufacturer's information, submitted during the construction process, are required to fully describe curtain walls, approval is conditioned on this future submission, which is new for architectural plans, and associated information required by the NYSECCC dealing with weatherproofing must be submitted at that time as well. The architect or engineer must ultimately certify its conformance to design drawings.

Section 28-110. Alterations. The section sets out the various requirements of applications for building alterations. It is reorganized but generally similar to current requirements with some exceptions. With regard to substantial horizontal enlargements, the applicant is no longer required to address the adequacy of the storm drainage system for an enlargement on a lot where the total amount of impervious surface as expanded will be less than or equal to 1000 square feet. However, an existing conditions survey will now be required. In alterations to buildings in which any dwelling unit will be occupied during construction, a Tenant Protection Plan will be required as part of the construction documents submittal. This has previously been required by Department directive.

Section 28-111. Foundations and Earthwork Applications. The section sets out the various requirements of foundations and earthwork applications. It is generally similar to current code requirements.

Section 28-112. Demolition Work Permit. This section describes the requirements of the demolition work permit. It is generally similar to current code requirements.

Section 28-113. Plumbing work Applications. This section describes the requirements for applications for plumbing work. Plans are not required for limited plumbing alterations. It is generally similar to current code requirements.

Section 28-114. Signs. This section describes the data and information required for applications for signs. It is generally similar to current code requirements.

Section 28-115 Service Equipment. This section describes construction documents required for service equipment applications. It is generally similar to current code requirements. Equipment work applications for elevators are required to demonstrate, among other things currently required, compliance with accessibility requirements.

Section 28-116. Fire Suppression Piping Systems. This section describes the requirements for applications for fire suppression piping systems. This includes a plot plan to scale indicating the location of the system in relation to the rest of the building. However applications for limited standpipe alterations and limited sprinkler alterations do not require a plot plan.

Section 28-117. Fire and Emergency Alarm Systems. The section sets out new submission requirements in the code for approval of fire and emergency alarm system documents including but not limited to carbon monoxide.

Section 28-118. Place of Assembly. The section sets out new submission requirements for place of assembly operation certificate applications.

Section 28-119. Asbestos Investigation. This section describes the requirements regarding asbestos investigations for all applications for work on buildings constructed on or before April 1, 1987. It is generally similar to current code requirements. In consultation with the commissioner of the Department of Environmental Protection, the Commissioner may exempt categories of applications from the requirements of asbestos investigations by promulgation of rules.

Section 28-120 Alteration or Demolition of Single Room Occupancy Multiple Dwellings. This section describes the conditions under which a work permit application for the alteration or demolition of a single room occupancy multiple dwelling may be approved or accepted. It is generally similar to current code requirements.

Section 28-121. Pavement Plan. This section describes the requirements for submission of a pavement plan. The requirement in the current code for submission of a pavement plan with any new building or alteration application is changed to requiring

such submission only when a certificate of occupancy is needed. In addition, when the building already has a sidewalk, an architect or engineer may certify that complete sidewalks complying with Department of Transportation requirements exist and will not be removed or damaged by the work, in lieu of submitting a plan.

Section 28-122. Fire Protection Plan. The requirement in the current code for a fire protection plan has been modified in the following ways: (a) Photoluminescent low-level exit path markings are required in the plan; (b) the fire safety plan, prepared after occupancy, is eliminated as a part of the fire protection plan; and (c) in order to be exempt from providing a fire protection plan, in addition to current exemption requirements of no change in use and valuation of less than $3 million, an alteration must not create an inconsistency with a previously approved fire protection plan.

Section 28-123. Special Flood Hazard Areas. Applications for work in special flood hazard areas are described in this section.

Section 28-124 Site Safety Plan. This section describes the requirements of a Site Safety Plan. This is currently a legal requirement by Rule.

Section 28-125. Temporary Structures and Uses. This is a new provision authorizing and regulating permits for temporary structures or uses. Such permit applications must be submitted at least 15 days prior to the commencement of the temporary use or the construction of the temporary structure, and permits are issued for 30 days, with renewal possible as the Commissioner deems necessary. The Fire Department must be notified prior to issuance of permits for temporary places of assembly. Fees are required as set forth in Section 28-108.

Section 28-126. Fees. This section collects in one place (except license fees) and organizes into table form fees required by the Department in the current code. Most fees remain the same, except that minor changes have been made in order to make them consistent overall. The requirement for fees in order to validate a permit or to obtain a required inspection or other service is similar to that in the current code, and the exemption for religious, charitable and educational organizations is retained.

The section is organized into the following tables, with important differences other than those noted above as follow:

Permit Fees: Permit fees for new buildings have been rounded to the nearest cent. Fees for alterations, demolition, excavation and foundations, service equipment, asbestos and temporary structures are carried over from the current code. The fee for permit reinstatement is codified.

Refunds and Rebates: The current provision for refunds for building or crane or derrick applications that are withdrawn is retained. A new provision is introduced authorizing the Commissioner to promulgate rules for rebates of fees based upon accomplishments in the building design and construction that conserve energy

and/or water, utilize renewable energy sources, recycle construction and demolition waste, utilize brownfield sites, and/or achieve other sustainable objectives of specific benefit to New York City.

Inspection Fees: Inspection fees for power-operated cranes are substantially the same as in the current code, with some adjustments made for consistency. Fees for reviews of prototype crane designs are retained, but the number of options and amendments for a given fee is limited. Amendments to applications for on-site crane and derrick inspections are assigned fees.

Fees for periodic, search and other inspections remain substantially unchanged.

Special Fees: A new provision authorizes the Commissioner to promulgate rules introducing fees for accelerated plan reviews, inspections and certificates of occupancy. Other new fees deal with applications for temporary certificates of occupancy, certificates of operation for places of assembly and temporary places of assembly, temporary use letters for places of assembly and temporary structures, and monthly reports for ordinary plumbing work. In addition, a fee is introduced for the approval or acceptance of materials, assemblies or equipment evaluated by an evaluation service approved by the Department.

Other Fees: Miscellaneous reproduction fees have been moved from the code to rule in order to better respond to the changing document technologies used in the industry and the Department.

Section 28-127. Inspections and Sign-Off of Completed Work. As in the current code, Section 28-109 requires that inspections be made to ensure compliance with the code as the Commissioner may direct and as required elsewhere in the code, and that construction work be accessible and exposed as required for inspection purposes, including prior to permit issuance.

Equipment use permits, as they are known in the current code, become certificates of compliance in the proposed code, and are required for most equipment used in the building construction, with certain exceptions as currently; one exception is new, exhaust systems with a capacity of 2,000 cubic feet per minute or less, including fans. Temporary certificates of compliance may be obtained where approved by the Commissioner.

There is a new provision in this section requiring inspection of every place of assembly. Upon satisfactory inspection and issuance of a certificate of occupancy, a place of assembly will be granted a certificate of operation, currently called a place of assembly permit, to be renewed annually upon satisfactory inspection by the Fire Department, or a temporary certificate of operation in the case of a temporary certificate of occupancy if approved by the Commissioner.

This section carries over the requirement for final inspections of building construction and for inspections of signs and service equipment installations. Inspections may, upon

approval by the Commissioner, be made by architects, engineers, employees of the Department or other city agencies, or by approved inspection agencies, except that final inspections prior to issuance of a certificate of occupancy must be made by the Department. The permit holder must request the inspection, and the inspector must file an inspection report. Upon satisfactory correction of any defects reported, the architect, engineer, other supervising entity must submit a sign-off form certifying same and the Department will issue a letter of completion; or, where Department inspection is required, the Department employee who inspects the work must prepare and file the report and the Department will sign off and issue a certificate of occupancy.

One new provision in this section allows the Department to refuse to issue a letter of completion for a building pending payment of all outstanding penalties.

Section 28-128. Certificates of Occupancy. Certificates of occupancy are issued to establish the use and occupancy classification of a building and that the building complies with the code. Requirements in the proposed code remain substantially unchanged from the current code, except as follows:

Certificates of occupancy are required for all new buildings, for alterations where there is a change of occupancy group or zoning use group, for alterations to the existing means of egress or for any alteration where there was previously no certificate of occupancy; however an alteration changing the number of habitable rooms will not require a certificate of occupancy.

The information required on the certificate of occupancy is detailed.

Certificates of compliance for service equipment will be a prerequisite for obtaining a certificate of occupancy.

Upon issuance of a certificate of occupancy, a certificate of operation must be issued for each place of assembly as well.

The duration of a Temporary Certificate of Occupancy is removed from the code, to be defined by the Commissioner.

Partial certificates of occupancy may be issued to specific floors of a building erected prior to January 1, 1938, if certain conditions are met.

Certificates of occupancy are required to be posted in all but one and two family occupancies.

One new provision in this section allows the Department to refuse to issue a final certificate of occupancy for a building pending payment of all outstanding penalties.

Section 28-129. Service Utilities. Requirements relating to the connection or alteration of gas piping systems, as well as when permits are required for such connection or alteration, remain the same as the current code. The Commissioner is authorized to allow temporary connection of the building or gas piping system to the gas service utility, and also in an emergency to allow disconnection of gas service.

Section 28-130. Enforcement. This section establishes as an unlawful act any failure to comply with this code, the Zoning Resolution or Department rules. It authorizes the Commissioner to issue notices and orders to persons responsible for unlawful acts. The section collects and organizes various parts of the current code related to violations and penalties in one section (except for licensing and outdoor signs) and is otherwise similar to the current code.

For violations of the code, Zoning Resolution or Department rules, the responsible person may be subject to civil and/or criminal actions. For civil actions, the maximum penalty for a violation is $10,000, and for criminal actions, the responsible person is subject to a fine and/or imprisonment, to be established by local law in a schedule and classified by the repetition or seriousness of the violation. Except as otherwise specifically provided by local law, such person will be liable for a civil penalty, which may be recoverable in a proceeding before the Environmental Control Board (ECB).

As currently, the subject of an ECB violation is required to correct it and to certify same within 30 days of the Commissioner's order, which is included in the notice, except that in the case of a hazardous violation the time limit will be set in the order itself. If a first violation is corrected within the time frame set, no penalty will be imposed by ECB. A judgment by the ECB against the owner of certain residential properties of three or fewer dwellings may constitute a tax lien against the property.

The section also covers buildings in residential districts and, new in this proposed code, in certain commercial overlays with uses not in compliance with the Zoning Resolution. These public nuisances are subject to administrative closure actions.

Section 28-131. Illegal Conversions. These provisions reflect provisions of current law regarding illegal conversions.

Section 28-132. False Statements. This section preserves the Department's current enforcement capabilities.

Section 28-133. Failure To File Required Reports. This section preserves the Department's current enforcement capabilities.

Section 28-134. Environmental Control Board. This section preserves the Department's current enforcement capabilities.

Section 28-135. Abatement of Public Nuisance Caused by Certain Illegal

Occupancies. This section preserves the Department's current enforcement capabilities.

Section 28-136. Penalty for Work Without a Permit. This section preserves the Department's current enforcement capabilities.

Section 28-137 Peremptory Orders. This section is similar to the current code regarding the Department's authority to issue stop-work orders, and includes civil and criminal penalties to responsible parties for failure to comply with such orders.

Like the current code, the section covers dangerous buildings, whether dangerous by the physical conditions of the building, building systems or site, or by overcrowding or other improper use, and authorizes the Commissioner to declare such conditions public nuisances. As a result, the Commissioner may order a building to be vacated, with or without a seal. The basis on which the Commissioner may issue vacate orders is codified. Notification of the community and penalties and punishments for violation of an order to vacate are covered.

Finally, this section covers emergency conditions and structures that are imminently dangerous, procedures related to the recovery of bodies from wrecked structures, and temporary safeguards, demolition and emergency work required by the Commissioner, and authorizes the Commissioner to call on other city agencies for assistance according to their respective expertise.

Section 28-138. Order to Seal, Secure and Close. This section preserves the Department's current enforcement capabilities.

Section 28-139. Penalties for Violation of Vacate Orders. This section preserves the Department's current enforcement capabilities.

Section 28-140. Emergency Power of the Commissioner. This section clarifies the Commissioner's current legal authority relating to emergency conditions.

Section 28-141. Unsafe Buildings. This section is similar to the current code with regard to unsafe buildings, except that the language has been updated. It describes the conditions under which the Commissioner may declare a building to be unsafe and requires that such a building must be taken down and removed or made safe. It mandates the recording of an unsafe building finding with the Department, the notice and order to anyone having a recorded vested or contingent interest in the building, the allowance of a defined period of time for the owner to bring the structure to a safe condition, and, if the owner fails to do so, the survey, court proceeding, precept, assistance by other city agencies in the execution of precept, return of precept, reimbursement of the city and lien of judgment on the premises.

Precepts will be effective for three years from the date of issuance. The Commissioner is authorized to modify a precept if he or she is satisfied that such change will secure the

safety of the structure equally well, and is required to send written notice of such a determination to the owner and applicant.

Section 28-142. Maintenance of Buildings and Owner's Responsibilities. This section collects in one location the owner's responsibilities for proper maintenance of retaining walls and fences, other site structures and party walls, and required periodic inspections related to building facades, boilers and elevators, escalators, amusement rides and related conveying equipment. These requirements remain substantially the same as in the current code, with the following exceptions:

The five-year cycle for critical examinations of exterior walls has been changed from the currently mandated cycle dates for all buildings, in order to allow each building to have its own cycle based upon its history. A new building's cycle will commence at the point of completion of the exterior wall.

The Commissioner is authorized to promulgate rules regarding the qualification of boiler inspectors beyond those requirements set by the New York State Department of Labor.

Inspection of the boiler interior is required when the construction of the boiler permits.

The cycle for boiler inspections will be established in rule and is changed from a specific calendar date as currently required.

The interval of elevator and related inspections is changed to every six months, with testing required in addition annually, again changed from a specific calendar date as currently required. Chair lifts and stairway chair lifts are required to be inspected. Defects found in elevator inspections and testing must be corrected within two weeks of filing the report.

The Department is required to be notified 72 hours prior to any required inspection and testing of personnel hoists.

Owner retaining wall maintenance obligations are clarified.

TITLE 28, CHAPTER 2 – LICENSING AND REGISTRATION OF BUSINESSES, TRADES AND OCCUPATIONS ENGAGED IN BUILDING WORK

Section 28-201. General. Section 28-201 governs all licenses issued by the Department. It contains definitions, general qualifications, and restrictions, and administrative procedures, such as renewal, suspension, revocation, and reinstatement. The term of licenses is extended to three years for licenses subject to examination.

Fees are presented in table form but remain substantially the same, although minor changes have been made to make them consistent. Sign, Single Control Room and Total Room are defined.

Section 28-203. Rigger License. This section is similar to the current code except it adds a requirement that the licensee demonstrate fitness to perform the work at the time of license renewal. It also creates a new permit classification, climber and tower crane rigger.

Section 28-204. Hoisting Machine Operator License. This section is similar to the current code except that the Class C license now has a number of sub-classifications, in accordance with current rule. In addition, the qualifications for each license classification have been increased. Finally, upon renewal of the license an individual is required to demonstrate fitness to perform the work.

Section 28-205. Concrete Testing Laboratory License. This section is similar to the current code requirement.

Section 28-206. Welder License. This section is similar to the current code except that upon renewal of the license an individual is required to demonstrate fitness to perform the work.

Section 28-207. Private Elevator Inspector Certification. This certification is codified from rule, but is similar to the current requirement.

Section 28-208. Private Elevator Inspection Agency Certification. This certification is codified from rule, but is similar to the current requirement.

Section 28-209. Master Plumber License. This section is largely similar to the current code but significantly reorganized. Changes to the current code requirements, other than those set forth in Section 28-201, are as follows:

> Experience qualifications recognize a new role, the journeyman plumber, and make that role a prerequisite under one path to becoming a licensed master plumber. Another new path introduced in this code is that for an architect or engineer.
>
> The new code introduces, as a basis for qualifying for a master plumber license, credit for certain work on existing buildings performed by a city employee under the supervision of a licensed master plumber also in the employ of the candidate's agency. The provision addresses the problem encountered by city employee candidates who have been unable to satisfy the current code's requirement that they be employed by the licensed master plumber. While some courts have responded to this problem by effectively reading out the employment requirement, the drafters believe that for other than maintenance and repair work by city employees, employment by the supervising licensed master plumber is

> essential to insure responsible control over the candidate. The solution reflected in the proposed legislation would allow the city employee candidate to credit certain of his or her work on existing buildings toward the master plumber license. A licensed master plumber working for a city agency is not permitted to engage in plumbing contract work outside of his or her government employment.

Section 28-210. Journeyman Plumber Registration. This is a new license title and recognizes the experience of an individual on a path toward becoming a licensed master plumber. A journeyman plumber is not permitted to engage in plumbing work except under the direct and continuing supervision of a licensed master plumber. Qualifications for journeyman recognize both formal training programs and the experience gained by working under the direct and continuing supervision of a licensed master plumber.

Section 28-211. Master Fire Suppression Piping Contractor License. This section is largely similar to the current code but significantly reorganized. Changes to the current code requirement other than those set forth in Section 28-201, are as follows:

> Experience qualifications recognize a new role, the journeyman fire suppression piping installer, and make that role a prerequisite under one path to becoming a licensed master plumber. Another new path introduced in this code is that for an architect or engineer.
>
> The new code introduces, as a basis for qualifying for a master fire suppression piping contractor license, credit for certain work on existing buildings performed by a city employee under the supervision of a licensed master fire suppression piping contractor also in the employ of the candidate's agency. The provision addresses the problem encountered by city employee candidates who have been unable to satisfy the current code's requirement that they be employed by the licensed master fire suppression piping contractor. While some courts have responded to this problem by effectively reading out the employment requirement, the drafters believe that for other than maintenance and repair work by city employees, employment by the supervising licensed master fire suppression piping contractor is essential to insure responsible control over the candidate. The solution reflected in the proposed legislation would allow the city employee candidate to credit certain of his or her work on existing buildings toward the master fire suppression piping contractor license. A licensed master fire suppression piping contractor working for a city agency is not permitted to engage in fire suppression piping contract work outside of his or her government employment.

Section 28-212. Journeyman Fire Suppression Piping Installer Registration. This is a new license title and recognizes the experience of an individual on a path toward becoming a licensed master fire suppression piping contractor. A journeyman fire suppression piping installer is not permitted to engage in fire suppression piping work except under the direct and continuing supervision of a licensed master fire suppression

piping contractor. Qualifications for journeyman recognize both formal training programs and the experience gained by working under the direct and continuing supervision of a licensed master fire suppression piping contractor.

Section 28-213. Oil-Burning Equipment Installer License. This section is similar to the current code except for the requirement that the licensee demonstrate fitness to perform the work at the time of license renewal.

Section 28-214. High-Pressure Boiler Operating Engineer License. This section is similar to the current code except for the requirement that the licensee demonstrate fitness to perform the work at the time of license renewal.

Section 28-215. Portable High-Pressure Boiler Operating Engineer License. This section is similar to the current code except for the requirement that the licensee demonstrate fitness to perform the work at the time of license renewal.

Section 28-216. Sign Hanger License. This section is similar to the current code except for the requirement that the licensee demonstrate fitness to perform the work at the time of license renewal.

Section 28-217. Filing Representative Registration. This section is similar to the current code.

Section 28-218. Boards. Section 28-218 authorizes the Commissioner to appoint a Plumbing and Fire Suppression Piping Contractor Board and sets forth the make-up and responsibilities of the Board. The make-up of the Board differs slightly from that under the current code, adding journeyman representation, and the responsibilities are advisory to the Commissioner rather than investigative and disciplinary.

Section 28-219. Penalties. Persons convicted of engaging in unlicensed work may be fined up to $10,000, and/or imprisoned for up to 6 months. Persons convicted of other violations of this chapter may be fined up to $5,000, and/or imprisoned for up to 3 months. In addition, such persons will be liable for civil penalties in similar amounts for each violation. These penalties are substantially increased over those in the current code.

TITLE 28, CHAPTER 3 – SPECIAL PROVISIONS RELATING TO REGULATION OF OUTDOOR SIGNS

Section 28-301. Maintenance Permit for Outdoor Signs. This section carries over the provisions of current code governing the Commissioner's power to establish a maintenance permit for signs within 900 linear feet of and within view of an arterial highway or within 200 linear feet of and within view of a public park of a half-acre or more.

Section 28-302. Outdoor Advertising Companies. The provisions of Section 302 carry forward without material change the provisions of Local Law 14 of 2001 and Local Law 31 of 2005, regarding the enforcement of zoning and code restrictions on the display of outdoor signs within 900 linear feet of and within view of an arterial highway or within 200 linear feet of and within view of a public park of a half-acre or more. The proposal consolidates all such provisions into Chapter 3.

The moratorium on enforcement of certain penalties for awning violations, enacted in Local Law 35 of 2004, is expected to expire before the effective date of the new code. Accordingly, its provisions are not included.

TITLE 28, CHAPTER 4 – THE NEW YORK CITY PLUMBING CODE (PC)

Section 28-401. Enactment and Update of the New York City Plumbing Code. Section 28-401 adopts the New York City Plumbing Code, based upon the 2003 edition of the International Plumbing Code. It sets forth the requirement that the Commissioner propose updates to that code every three years in order to keep abreast of changes in the International Plumbing Code, and that the City Council act on such proposals within 120 days. The section further requires that the Commissioner submit such proposals to an advisory committee for review and comment prior to submission to the Council.

PC Chapter 1 – Administration

Section PC-101. General. This section sets forth the citation format as used in this document, with the prefix PC referring to the New York City Plumbing Code.

The scope of the PC is established as the erection, installation, alteration, repairs, relocation, replacement, addition to, use or maintenance of plumbing systems in all buildings in the city except the following: detached one- and two-family residences and multiple single-family residences not more than three stories high with separate egress, which should comply with the New York City Residential Code; plumbing systems in existing buildings undergoing repair, alteration, or additions, and change of occupancy, will be regulated under the existing building provisions of the New York City Building Code; waterfront property used for waterfront commerce and/or navigation; and bridges, tunnels or subways and related structures.

The PC also regulates nonflammable medical gas, inhalation anesthetic, vacuum piping, nonmedical oxygen systems and sanitary and condensate vacuum collection systems. The installation of fuel gas distribution systems and equipment, fuel gas-fired water heating systems and water heater venting systems will be regulated under the New York City Fuel Gas Code.

The PC defines its purpose as establishing minimum standards to safeguard life, health, property and public welfare with regard to plumbing systems. A severability clause is included.

Section PC-102. Applicability. Section PC-102 states that the code applies to all plumbing as noted in the previous section, and that any conflict between sections will be resolved according to the more restrictive requirement. Further, it provides that plumbing systems legally existing on the effective date of the code are permitted to remain, and requires that plumbing systems be maintained in good condition. Referenced standards are listed in PC-Chapter 13. Plumbing issues not specifically covered in the PC will be subject to the determination of the Commissioner in the interest of protecting life, health, property and public welfare.

Section PC-107. Inspections and Testing. This section sets parameters for when inspections and testing are required during construction and for inspections and testing of engineered systems. It authorizes the Commissioner to allow temporary connection to the utility source for testing of plumbing systems or for use under a temporary certificate of occupancy.

PC Chapter 2 - Definitions

Section PC-201. General. Section PC-201 sets forth the rules for using the definitions in this chapter.

Section PC-202. General Definitions. This section sets out definitions relating to plumbing in one location, and utilizes definitions currently found in Reference Standard 16.

PC Chapter 3 - General Regulations

Section PC-301. General. Section PC-301 prohibits the impairment of the structural system by the plumbing system, and prohibits the inclusion of any plumbing system in an elevator shaft or elevator equipment room, except a sump pump or floor drain at the base of the shaft. It requires that every fixture or appliance or device using water be connected to the water supply system, and that the liquid waste or sewage discharged from any fixture, drain, appliance or appurtenance to the building be directly connected to the sanitary drainage system of the building or premises. Finally, it provides that where there is a conflict between the code and a manufacturer's requirements, the more restrictive requirement shall apply.

Section PC-302. Exclusion of Materials Detrimental to the Sewer System. This section prohibits the disposal of flammable, poisonous, explosive, oil or other materials detrimental to the plumbing system into plumbing drains, and refers issues regarding industrial waste to the New York City Department of Environmental Protection.

Section PC-303. Materials. Section PC-303 requires that all plumbing materials be identified as to manufacturer and installed in accordance with the more restrictive requirement between this code and the manufacturer's requirements. Plastic piping must

be third-party certified according to a standard, and all materials must be used in conformance with the code.

Section PC-304. Rodent-Proofing. This section is equal to current code requirements except that it sets maximum openings for strainer plates on drain inlets and is less prescriptive regarding methods of blocking openings.

Section PC-305. Protection of Pipes and Plumbing System Components. Section PC-305 provides general protection requirements for piping with regard to passage through corrosive materials, fire ratings, thermal gradients, waterproofing and with regard to other potential physical damage. It is equal to current code requirements.

Section PC-306. Trenching, Excavation and Backfill. This relates to the support and protection of piping running underground through trench or excavation and is equivalent to requirements in the current code except that it provides more detail for bedding of piping in unstable soils, as at the river's edge.

Section PC-307. Structural Safety. This section requires coordination with the design and construction work of other trades so as to maintain the structural integrity of the building design and to protect piping that runs through *plenum* space. It is similar to current code requirements.

Section PC-308. Piping Support. Support of piping with regard to seismic loads, the support devices and anchorages and spacing, expansion joint fittings and support for stack and manifold piping are covered in this section. The current code does not require seismic support of plumbing piping; sway bracing at changes of direction greater than 45 degrees; certain anchorages; or the proposed support of parallel water distribution systems.

Section PC-309. Flood Hazard Resistance. Section PC-309 sets forth the requirements in flood hazard areas equivalent to those in the current code.

Section PC-310. Washroom and Toilet Room Requirements. While this section collects the requirements from several locations in the current code and other laws, it is similar to current requirements.

Section PC-311. Toilet Facilities for Workers. This section relates exclusively to toilet facilities for construction workers and is equal to current code requirements.

Section PC-312. Tests and Inspections. The tests and inspections required by this section are equal to those required by the current code, except that the proposed code includes a new requirement that reduced-pressure-zone valves and double-check valves within the building be tested annually.

Section PC-313. Equipment Efficiencies. This section requires that equipment efficiencies comply with New York State Energy Conservation Construction Code.

Section PC-314. Condensate Disposal. This section introduces the collection and discharge of liquid combustion byproducts of condensing appliances, and provides standards for condensate drain systems. Also new is the allowance of polyvinyl chloride among allowable drainage system materials.

PC Chapter 4 - Fixtures, Faucets and Fixture Fittings

Section PC-401. General. Section PC-401 describes the scope of this chapter, and establishes certain prohibitions related to toilets and urinals, and certain water conservation standards. It is equal to the current code.

Section PC-402. Fixture Materials. This section establishes the standards for fixture materials and is equal to the current code.

Section PC-403. Minimum Plumbing Facilities. Section PC-403 establishes the minimum facilities required and the minimum number of fixtures required according to occupancy type and space configuration. The requirements of Local Law 57 of 2005 *Equal Acess to Bathroom Facilities* are reflected in this section. The provisions of this section are similar to current standards.

Section PC-404. Accessible Plumbing Facilities. This section directs the user to the accessibility sections of the building code and is equal to the current code.

Section PC-405. Installation of Fixtures. This section sets basic parameters for proper flow, cleaning, maneuverability and mounting and is equal to the current code.

Section PC-406. Automatic Clothes Washers. Section PC-406 sets the standard for installing automatic clothes washers and is equal to the current code.

Section PC-407. Bathtubs. This section sets forth the standards for bathtubs and their enclosures and is equal to the current code.

Section PC-408. Bidets. This section sets forth the standards for bidets and is equal to the current code.

Section PC-409. Dishwashing Machines. This section sets forth the standards for dishwashing machines and is equal to the current code.

Section PC-410. Drinking Fountains. This section sets forth the standards for drinking fountains, water coolers and bottled water dispensers and is equal to the current code.

Section PC-411. Emergency Showers and Eyewash Stations. This section introduces new standards for emergency showers and eyewash stations.

Section PC-412. Floor and Trench Drains. This section sets forth the standards for floor and trench drains and is equal to the current code.

Section PC-413. Food Waste Grinder Units. This section sets forth the standards for domestic food waste grinder units and is equal to the current code.

Section PC-414. Garbage Can Washers. Section PC-414 sets forth the standards for garbage can washers and requires separate traps with removable baskets or strainers, which is more restrictive than the current code.

Section PC-415. Laundry Trays. This section sets forth the standards for laundry trays and is equal to the current code.

Section PC-416. Lavatories. This section sets forth the standards for lavatories. In group wash-up equipment, where the current code allows 18 inches per lavatory, the proposed code requires a less dense 20 inches per lavatory. Otherwise the section is equal to the current code.

Section PC-417. Showers. This section sets forth the standards for showers and is equal to the current code except that the proposed code also provides standards for the glazing in the shower enclosure.

Section PC-418. Sinks. This section sets forth updated standards for sinks and provides new standards for movable sink systems.

Section PC-419. Urinals. This section sets forth the standards for urinals and is equal to the current code except that it requires expanded waterproofing around the urinal.

Section PC-420. Water Closets. This section sets forth the standards for water closets and is equal to the current code.

Section PC-421. Whirlpool Bathtubs. This section sets forth the standards for whirlpool bathtubs. There are no such standards in the current code.

Section PC-422. Health Care Fixtures and Equipment. This section sets forth additional standards over and above the standards of this chapter of the plumbing code for health care fixtures and equipment, in nursing homes, homes for the aged, orphanages, infirmaries, first aid stations, psychiatric facilities, clinics, professional offices of dentists and doctors, mortuaries, educational facilities, surgery, dentistry, research and testing laboratories, establishments manufacturing pharmaceutical drugs and medicines, and in other structures with similar apparatus and equipment classified as plumbing. These standards are more comprehensive than those in the current code.

Section PC-423. Specialty Plumbing Fixtures. Baptisteries, ornamental and lily pools, aquariums, ornamental fountain basins, swimming pools, and similar constructions

provided with water supplies and waste connections are required to be submitted to the Department for approval. This is equal to the current code.

Section PC-424. Faucets and Other Fixture Fittings. The standards for faucets and other fixture fittings are more comprehensive than in the current code.

Section PC-425. Flushing Devices for Water Closets and Urinals. Section PC-425 sets forth standards for flushing devices for water closets and urinals that are more comprehensive than the current code requirements.

Section PC-426. Manual Food and Beverage Dispensing Equipment. This section sets forth standards for manual food and beverage dispensing equipment. There are no such requirements in the current code.

Section PC-427. Floor Sinks. This section sets forth standards for floor sinks and is equal to the current code.

PC Chapter 5 – Water Heaters

Section PC-501. General. This section establishes general requirements for water heaters, combination water and space heaters, and related equipment. These requirements are updated from the current code.

Section PC-502. Installation. Section PC-502 references other parts of this code for standards related to oil- or gas-fired or electric water heaters, prohibits certain types in air-handling equipment plenum rooms and provides requirements related to attic installations and seismic conditions. In general, it updates the current code.

Section PC-503. Connections. Section PC-503 establishes standards for the connection of water heaters to the supply system and is equal to the current code.

Section PC-504. Safety Devices. This section sets forth the standards for anti-siphon devices, relief valves, electrical disconnects, relief outlet waste, pans for tank or connection leakage, all updated from the current code, and for flow-sensing switches for copper-fin-tube gas-fired domestic hot-water heaters that shut off the gas supply when the device senses a stop to the water flow, a requirement not included in the current code.

Section PC-505. Insulation. This section sets forth standards for insulation of unfired hot water storage tanks and is more restrictive than the current code.

PC Chapter 6 – Water Supply and Distribution

Section PC-601. General. This section sets forth general requirements related to hot and cold water supply and distribution. It references Department of Environmental Protection regulations rather than including them as the current code does.

Section PC-602. Water Required. This section sets forth the requirement for a potable water supply system in any structure used for human occupancy or habitation and sets standards for approval by the authority having jurisdiction of individual water supply systems where water is not provided through the municipal system. The current code requires water to be supplied through the municipal system regulated by the Department of Environmental Protection.

Section PC-603. Water Service. Section PC-603 establishes standards for the size and location of the water service to a building relative to the building sewer or other source of pollution, and is equal to the current code.

Section PC-604. Design of Building Water Distribution System. This section sets forth standards for the distribution system, including water flow rates and pressure, which are equal to the current code. In addition, it sets standards for labeling and access to hot and cold water manifold systems.

Section PC-605. Materials, Joints and Connections. Section PC-605 sets forth standards for piping materials, joints and connections and is equal to the current code except that Table 605.8 regarding manufactured pipe nipples is more restrictive than the current code.

Section PC-606. Installation of the Building Water Distribution System. This section sets forth the requirements for the installation of the building water distribution system, including the location of full-open and shut-off valves and water pressure booster systems where required, and is equal to the current code.

Section PC-607. Hot Water Supply System. The requirement for the hot-water supply system, thermal expansion control and the flow of hot water are equal to the current code except that the proposed code reduces the current maximum of 50 feet to 20 feet, beyond which a system must be introduced to maintain the temperature of the water in accordance with the New York State Energy Conservation Construction Code.

Section PC-608. Protection of Potable Water Supply. This section sets forth standards to protect the potable water supply in a building from nonpotable sources, from cross-connection or backflow, and is equal to the current code except that it adds the requirement for annual testing by a certified tester of reduced-pressure principle backflow preventors and double check-valve assemblies.

Section PC-609. Health Care Plumbing. This section sets forth the standards for plumbing systems in health care facilities, defined as nursing homes, homes for the aged, orphanages, infirmaries, first-aid stations, psychiatric facilities, clinics, professional offices of dentists and doctors, mortuaries, educational facilities, surgery, dentistry, research and testing laboratories, establishments manufacturing pharmaceutical drugs and medicines, and other structures with similar apparatus and equipment classified as plumbing. The requirements are equal to those of the current code.

Section PC-610. Disinfection of Potable Water System. New or repaired potable water systems, or systems found to be contaminated, are required to be disinfected prior to use, and standards are set forth in this section which are equal to those in the current code.

Section PC-611. Drinking Water Treatment Units. This section sets forth the standards for drinking water treatment units and is equal to the current code.

Section PC-612. Solar Systems. This section references the mechanical code with regard to solar energy systems and is equal to the current code.

Section PC-613. Temperature Control Devices and Valves. This section sets forth a new standard for temperature-actuated mixing valves and is more restrictive than the current code.

PC Chapter 7 – Sanitary Drainage

Section PC-701. General. This section establishes the requirement for any building with a plumbing system to have a sewer that is connected to the public sewer system or to a private sewage disposal system approved by the Department of Environmental Protection. It sets forth the general standards for such a system, which are equal to those in the current code, except that plastic piping is permitted in residential buildings no more than five stories in height, an increase from three stories under the current code.

Section PC-702. Materials. PC-702 sets forth standards for materials used in sanitary drainage systems and is equal to the current code.

Section PC-703. Building Sewer. This section sets forth the standards for building sewers and is equal to the current code.

Section PC-704. Drainage Piping Installation. This section sets forth the standards for installation of drainage piping and is equal to the current code.

Section PC-705. Joints. This section sets forth the standards for joints of and between various materials as permitted and is equal to the current code.

Section PC-706. Connections between Drainage Piping and Fittings. This section sets forth the standards for connections between drainage piping and fittings and is equal to the current code.

Section PC-707. Prohibited Joints and Connections. This section sets forth types of joints and connections that are prohibited and is equal to the current code.

Section PC-708. Cleanouts. This section sets forth the standards for the size, location, installation and maintenance of drainage pipe cleanouts and is equal to the current code.

Section PC-709. Fixture Units. Section PC-709 establishes drainage fixture unit values for various fixtures and is equal to the current code.

Section PC-710. Drainage System Sizing. Based on the drainage fixture unit values established in PC-709, PC-710 provides standards for sizing the drainage system, and is equal to the current code.

Section PC-711. Offsets in Drainage Piping in Buildings of Five Stories or More. This section establishes standards for offsets in vertical and horizontal drainage piping in buildings of five or more stories and is equal to the current code.

Section PC-712. Ejectors. This section sets forth the standards for sewage pumps and sewage ejectors, required where building subdrains cannot discharge sewage by gravity flow into the building sewer. The requirements are equal to the current code.

Section PC-713. Health Care Plumbing. This section sets forth the standards for sanitary drainage systems in health care facilities, defined as nursing homes, homes for the aged, orphanages, infirmaries, first-aid stations, psychiatric facilities, clinics, professional offices of dentists and doctors, mortuaries, educational facilities, surgery, dentistry, research and testing laboratories, establishments manufacturing pharmaceutical drugs and medicines, and other structures with similar apparatus and equipment classified as plumbing, and is equal to the current code.

Section PC-714. Computerized Drainage Design. PC-714 allows the design of sanitary drainage systems by approved computer design methods, sets forth certain standards, and is equal to current code requirements.

Section PC-715. Backwater Valves. This section sets forth the standards for backwater valves in sanitary drainage systems where there is the potential for backflow and is equal to the current code.

PC Chapter 8 – Indirect/Special Waste

Section PC-801. General. This section defines the scope of the chapter as indirect waste piping and special wastes, including for food-handling establishments, sterilizers, clear-water wastes, swimming pools, methods of providing air breaks or air gaps, and neutralizing devices for corrosive wastes. It further establishes basic protective measures required in these conditions. It is equal to the current code.

Section PC-802. Indirect Wastes. PC-802 sets forth where indirect wastes are required and standards for their installation, and standards also for waste receptors and standpipes. The requirements are equal to the current code.

Section PC-803. Special Wastes. This section requires that steam pipes not connect to any part of the plumbing or drainage system and references Department of

Environmental Protection standards for the disposal of chemical wastes. It is equal to the current code requirements.

Section PC-804. Materials, Joints and Connections. This section references PC-Chapter 7 for material, joint and connection requirements related to indirect waste pipes and systems.

PC Chapter 9 – Vents

Section PC-901. General. This section requires that all traps and trapped fixtures be vented, and the admission or emission of air to protect the trap seal, and sets basic parameters. It is equal to the current code.

Section PC-902. Materials. This section references Section PC-702 for materials and adds standards for vent flashing in copper and lead. It is equal to the current code.

Section PC-903. Vent Stacks and Stack Vents. This section sets forth the requirement for a vent stack or stack vent of minimum four inches diameter from the building drain to above the roof of the building, and related standards for vent stacks and stack vents, and is equal to the current code.

Section PC-904. Vent Terminals. Section PC-904 sets forth the standards for vent terminals and is equal to the current code.

Section PC-905. Vent Connections and Grades. This section requires that individual, branch and circuit vents connect to a vent stack, stack vent or extend above the roof to the open air. It sets forth the standards for connections and grades of vent and branch vent piping and is equal to the current code.

Section PC-906. Fixture Vents. This section sets forth the standards for fixture vents and is equal to the current code.

Section PC-907. Individual Vent. This section sets forth the standards for individual vents for traps and trapped fixtures, states that vents are not required for floor drains located within 15 feet of a vent line and is equal to the current code.

Section PC-908. Common Vent. This section sets forth the requirements for common venting of traps, trapped fixtures and fixture drains and is equal to the current code.

Section PC-909. Wet Venting. This section permits wet venting of the fixtures in a single bathroom group in the same room and sets forth the standards for wet venting. Wet venting is not permitted in the current code.

Section PC-911. Circuit Venting. Section PC-911 allows circuit venting of up to eight fixtures connected to a horizontal branch drain, and sets forth standards. Circuit venting is not permitted under the current code.

Section PC-912. Combination Drain and Vent System. This section sets forth the standards for combination drain and vent systems and is equal to the current code.

Section PC-913. Island Fixture Venting. Section PC-913 permits island fixture venting for sinks and lavatories and is equal to the current code.

Section PC-914. Relief Vents – Stacks of More Than 10 Branch Intervals. This section sets forth the standards for yoke relief vents and is equal to the current code.

Section PC-915. Vents for Stack Offsets. This section requires venting of horizontal offsets of drainage stacks where five or more branch intervals are located above the offset, and sets forth standards. It is equal to the current code.

Section PC-916. Vent Pipe Sizing. This section sets forth standards for sizing of vent pipes. It allows longer run lengths for vent piping, but retains the minimum diameter of 1-1/2 inches of the current code. This diameter is more restrictive than the current code with respect to relief pipes for pneumatic sewage ejectors.

Section PC-918. Engineered Vent Systems. This section allows engineered vent systems and sets forth the standards for same, however it requires that both the design and the installed system be certified by an engineer.

Section PC-919. Computerized Vent Design. This section allows computerized vent system design and sets forth standards for same, however it requires that both the design and the installed system be certified by an engineer.

PC Chapter 10 – Traps, Interceptors and Separators

Section PC-1001. General. This section defines the chapter scope as the material and installation of traps, interceptors and seperators.

Section PC-1002. Trap Requirements. This section requires a separate water-sealed trap for each fixture, with certain exceptions, and sets forth the standards for traps. It is equal to the current code.

Section PC-1003. Interceptors and Separators. Section PC-1003 sets forth the standards for interceptors and separators to prevent the delivery of oils, grease, sand or other materials harmful or hazardous to the building drainage system and/or the public sewer system. It is equal to the current code.

Section PC-1004. Materials, Joints and Connections. This section sets forth, by text and reference, the standards for materials, joints and connections used in traps, interceptors and separators and is equal to the current code.

PC Chapter 11 – Storm Drainage

Section PC-1101. General. This chapter regulates the drainage of storm water from building roofs, paved areas, yards, courts and courtyards, which are required to drain into a separate storm sewer system, or a combined sewer system, or to an approved place of disposal, and refers to regulations of the New York City Department of Environmental Protection (DEP) for the proper discharge into the street storm sewer or combined sewer. The section establishes basic standards for storm drainage design and testing, allows for "beneficial collection" for recycling of storm water, requires a secondary overflow roof drainage system not required by the current code, and allows the use of plastic piping for drainage in residential buildings of five stories or less in height. In other ways, the section is equal to the current code.

Section PC-1102. Materials. This section sets forth standards for materials of storm drainage systems and is equal to the current code.

Section PC-1103. Traps. This section requires that storm drains connected to a combined sewer be trapped and sets forth standards for such traps. It is equal to the current code.

Section PC-1104. Conductors and Connections. This section prohibits the use of conductor pipes as soil, waste or vent pipes, and use of soil, waste or vent pipes as conductors, and regulates combining storm and sanitary drainage systems. It is equal to the current code.

Section PC-1105. Roof Drains. This section sets forth the standards for roof drains and is equal to the current code.

Section PC-1106. Size of Conductors, Leaders. Current code requires that storm drainage systems be sized to handle rainfall of a minimum 5 inches; the proposed code requires vertical conductors and leaders, gutters, building storm drains, building storm sewers, and any horizontal branches of such drains or sewers to be sized based upon a storm of minimum 3 inches of rainfall per hour. In addition, it requires that one-half the area of any wall diverting its rainfall to a roof must be added to the roof area in calculating the size of drainage elements, and recognizes scuppers, neither of which is included in the current code. See Section PC-1107 for related requirements.

Section PC-1107. Secondary (Emergency) Roof Drains. This is a new requirement. Section PC-1107 requires and sets forth standards for a secondary roof drainage system for any roof where water might be entrapped in the event of a blocked drain and the building's structure is not designed for the hydraulic head. Where scuppers are used, they are required to have a minimum 4-inch diameter opening. The section further

requires that the elements of the secondary drainage system be designed for a rainfall of 3 inches per hour, and that a combined leader for the primary and secondary roof drainage systems be designed to accommodate 6 inches per hour.

Section PC-1108. Combined Sanitary and Storm System. This section sets forth the standards for sizing elements of a combined sanitary and storm drain or sewer and is equal to the current code.

Section PC-1109. Values for Continuous Flow. Where there is a continuous or semicontinuous discharge into the building storm drain or building storm sewer, such as from a pump, ejector, air conditioning plant or similar device, this section provides a conversion factor to be used in sizing the storm drain or sewer elements. It uses the rainfall rate of 3 inches per hour set out in PC-1106 and PC-1107, but is otherwise equal to the current code.

Section PC-1110. Controlled-Flow Roof Drain Systems. This section sets forth standards for controlled-flow roof drain systems and is equal to the current code.

Section PC-1111. Subsoil Drains. This section sets forth standards for subsoil drains and is equal to the current code.

Section PC-1112. Building Subdrains. This section sets forth standards for building subdrains located below the public sewer level and delivery to the public sewer and is equal to the current code.

Section PC-1113. Sumps and Pumping Systems. Section PC-1113 sets forth standards for sumps and pumping systems in more detail than is provided in the current code.

PC Chapter 12 – Special Piping and Storage Systems

Section PC-1201. General. This section sets forth the scope of the chapter, the design and installation of piping and storage systems for nonflammable medical gas systems and nonmedical oxygen systems.

Section PC-1202. Medical Gases. This section sets forth standards for medical gas systems, except portable or cylinder storage, and updates the current code.

Section PC-1203. Oxygen Systems. This section sets forth standards for oxygen systems and updates the current code.

PC Chapter 13 – Referenced Standards

The list of referenced standards is much more comprehensive than in the current code, and the standards are updated.

PC Appendix C – Water Conservation Systems

This appendix sets forth the plumbing standards for a water conservation system, under which a building may capture certain rain and waste water and recycle it for nonpotable uses. Under such an approved system, the appendix also allows the use of waterless urinals. The water conservation system must be permitted by the New York City Departments of Health and Environmental Protection. The current code does not contain any provisions for the recycling or reuse of water.

PC Appendix E – Sizing of Water Piping System

PC-Appendix E offers two methods of sizing piping that are consistent with the current code but more detailed.

TITLE 28, CHAPTER 5 – THE NEW YORK CITY BUILDING CODE (BC)

Section 501 – Enactment and Update of The New York City Building Code. Section 28-501 calls for a local law to adopt the New York City Building Code, based upon the 2003 edition of the International Building Code. It sets forth the requirement that the Commissioner propose updates to that code every three years in order to keep abreast of changes in the International Building Code. The section further requires that the Commissioner submit such proposals to an advisory committee for review and comment prior to submission to the Council.

TITLE 28, CHAPTER 6 – THE NEW YORK CITY MECHANICAL CODE (MC)

Section 601 – Enactment and Update of The New York City Mechanical Code. Section 28-601 calls for a local law to adopt the New York City Mechanical Code, based upon the 2003 edition of the International Mechanical Code. It sets forth the requirement that the Commissioner propose updates to that code every three years in order to keep abreast of changes in the International Mechanical Code. The section further requires that the Commissioner submit such proposals to an advisory committee for review and comment prior to submission to the Council.

TITLE 28, CHAPTER 7 – THE NEW YORK CITY FUEL GAS CODE (FGC)

Section 701 – Enactment and Update of The New York City Fuel Gas Code. Section 28-701 calls for a local law to adopt the New York City Fuel Gas Code, based upon the 2003 edition of the International Fuel Gas Code. It sets forth the requirement that the Commissioner propose updates to that code every three years in order to keep abreast of changes in the International Fuel Gas Code. The section further requires that the Commissioner submit such proposals to an advisory committee for review and comment prior to submission to the Council.

TITLE 28, CHAPTER 8 – THE NEW YORK CITY RESIDENTIAL CODE (RC)

Section 801 – Enactment and Update of The New York City Residential Code. Section 28-801 calls for a local law to adopt the New York City Residential Code, based upon the 2003 edition of the International Residential Code. It sets forth the requirement that the Commissioner propose updates to that code every three years in order to keep abreast of changes in the International Residential Code. The section further requires that the Commissioner submit such proposals to an advisory committee for review and comment prior to submission to the Council.

	Administration & Enforcement	Materials, Equipment & Devices & Alternative Materials, Design, Methods of Construction
Title 28, Chapter 1 Section 28-104, & 28.105	Materials, Equipment & Devices & Alternative Materials, Design, Methods of Construction. New materials and equipment that are accepted or evaluated by nationally recognized evaluation services or that are listed by nationally recognized testing laboratories such as Underwriters Laboratories, may now be accepted in New York City without the need for a separate approval by the Department. The ability of architects and engineers to professionally certify certain types of materials and equipment is expanded. The method by which new materials and equipment are approved for use would change, however the performance standards and demonstration of code compliance remains unchanged.	
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.	
b. Socioeconomic conditions	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.	
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.	
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.	
e. Shadows	The portion of the action described above would not result in the creation of new shadows.	
f. Historic resources	The portion of the action described above would not result in significant adverse impacts to historic resources.	
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.	
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.	
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural resource.	
j. Hazardous materials	The portion of the action described above would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.	
k. Waterfront revitalization	The portion of the action described above would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage. Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies.	
l. Infrastructure	The portion of the action described above would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants.	
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan.	
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.	
o. Traffic and parking	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy. The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.	
p. Transit and pedestrians	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or pedestrian impacts. The portion of the action described above would not generate specific new development. It would not result in the generation of significant transit or pedestrian impacts.	
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant transit or pedestrian impacts. The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.	
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.	
s. Construction impacts	The portion of the action described above would not generate specific new development. However it would benefit overall construction in New York by streamlining the process by which new materials and equipment are accepted for use in NYC. This would reduce the cost of product approvals and increase the choice of materials available to NYC contractors as of right and minimize delays, while still ensuring public safety.	
t. Public health	The portion of the action described above would not result in significant adverse public health impacts.	

	Administration & Enforcement
Title 28, Chapter 1 Section 28-106	Permits. Requirements and classifications of permits are similar to the current code, with some exceptions and additions A new provision allows work permits to be issued for up to 2 years, with the exception that sidewalk shed permits would continue to be issued for up to 1 year.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this proposed action. Consequently, the proposed action is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic conditions	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space that would be considered a significant impact.
e. Shadows	The portion of the action described above would not result in the creation of new shadows.
f. Historic resources	The portion of the action described above would not result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural resource.
j. Hazardous materials	The portion of the action described above would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies.
l. Infrastructure	The portion of the action described above would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants.
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan.
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.
o. Traffic and parking	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.
p. Transit and pedestrians	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or pedestrian impacts.
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant transit or pedestrian impacts. The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction impacts	The portion of the action described above would not generate specific new development. However it would benefit overall construction in New York. The allowance of two-year permits reduces bureaucratic filing requirements while not affecting technical and/or safety compliance requirements.
t. Public health	The portion of the action described above would not result in significant adverse public health impacts.

	Administration & Enforcement
Title 28, Chapter 1, Section 28-106	Permits. A new category of Ordinary Plumbing Work is created. It would allow a licensed plumber to report to the Department on a monthly basis certain work performed in accordance with this code. No filing of plans or permit shall be required for such work.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic conditions	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.
e. Shadows	The portion of the action described above would not result in the creation of new shadows.
f. Historic resources	The portion of the action described above would not result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural resource.
j. Hazardous materials	The portion of the action described above would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies. Temporary uses located within the coastal zone would be subject to more controls.
l. Infrastructure	The portion of the action described above would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants.
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan.
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.
o. Traffic and parking	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.
p. Transit and pedestrians	The portion of the action described above would not generate new development. It would not result in the generation of significant transit or pedestrian impacts.
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction impacts	The portion of the action described above would not result in significant adverse construction impacts.
t. Public health	The portion of the action described is a new safety provision and would result in an improvement to public safety during construction. It would not result in significant adverse public health impacts.

	Administration & Enforcement
Title 28, Chapter 1 Section 28-107	Construction Documents. Requirements for construction documents are similar to current code with some revisions. Plumbing and fire suppression alterations for which a master plumber or master fire suppression piping contractor may file, currently limited to a maximum of $18,000 for plumbing and $18,000 for fire suppression, would be increased up to $25,000 to reflect increased construction costs.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic conditions	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.
e. Shadows	The portion of the action described above would not result in the creation of new shadows.
f. Historic resources	The portion of the action described above would not result in new ground disturbance or new construction that would result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural resource.
j. Hazardous materials	The action would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies.
l. Infrastructure	The portion of the action described above would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants.
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan.
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.
o. Traffic and parking	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.
p. Transit and pedestrians	The portion of the action described above would not generate new development. It would not result in the generation of significant transit or pedestrian impacts.
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction impacts	The portion of the action described above would not generate specific new development. However it would benefit overall construction in New York. It would update the specified plumbing and fire suppression alteration filing process by adjusting the original values to current value.
t. Public health	The portion of the action described above would not result in significant adverse public health impacts.

	Administration & Enforcement
Title 28, Chapter 1, Section 28-125	Temporary Structures and Uses. This is a new provision authorizing and regulating permit requirements for temporary uses and structures.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic conditions	The portion of the action described is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.
e. Shadows	The portion of the action described would not result in the creation of new shadows.
f. Historic resources	The portion of the action described would not result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described would not result in the disturbance of a natural resource.
j. Hazardous materials	The portion of the action described would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies. Temporary uses located within the coastal zone would be subject to more controls.
l. Infrastructure	The portion of the action described would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants.
m. Solid waste and sanitation services	The portion of the action described would not affect the City's Comprehensive Solid Waste Management Plan.
n. Energy	The portion of the action described would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.
o. Traffic and parking	The portion of the action described would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.
p. Transit and pedestrians	The portion of the action described would not generate new development. It would not result in the generation of significant transit or pedestrian impacts.
q. Air quality	The portion of the action described would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction impacts	The portion of the action described would not result in significant adverse construction impacts.
t. Public health	The portion of the action described would not result in significant adverse public health impacts.

	Administration & Enforcement
Title 28, Chapter 1, Section 28-126	Fees. Required Department fees are now located in easy-to-read charts. Fee rebate incentives have been created to encourage energy and water savings in designing building systems. Fees for accelerated plan review, inspections and issuance of certificates of occupancy are introduced in the section.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.
e. Shadows	The portion of the action described above would not result in the creation of new shadows.
f. Historic resources	The portion of the action described above would not result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural resource. Conversely, the creation of fee rebates for the use of energy and water conservation strategies and for certification under LEED/green buildings rating system would encourage preservation of natural resources.
j. Hazardous materials	The portion of the action described above would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage. Conversely, the creation of fee rebates would encourage the remediation of contaminated sites and would positively affect the environment.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies.
l. Infrastructure	The portion of the action described above would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants. On the contrary, the creation of fee rebates for water conservation strategies would reduce demand on natural resources when utilized.
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan. Conversely, the recycling of construction and demolition waste would be encouraged by the creation of fee rebates for such construction practices.
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy. Conversely, energy conservation would be encouraged by the creation of fee rebates for building designs that conserve energy, utilize renewable energy resources and/or achieve other sustainable objectives of specific benefit to NYC.
o. Traffic and parking	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts. The creation of fee rebates for the provision of bicycle storage facilities would encourage an increase in bicycle utilization.
p. Transit and pedestrians	The portion of the action described above would not generate new development. It would not result in the generation of significant transit or pedestrian impacts.
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction	The portion of the action described above would not result in significant adverse construction impacts.
t. Public health	The portion of the action described above would not result in significant adverse public health impacts.

	Administration & Enforcement
Title 28, Chapter 1, Section 28-127	**Inspections and Sign-Off of Completed Work** Approved inspection agencies may be used as an alternative to Department inspections for all but certificate of occupancy inspections. Work is required to be signed off.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic conditions	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.
e. Shadows	The portion of the action described above would not result in the creation of new shadows.
f. Historic resources	The portion of the action described above would not result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural resource.
j. Hazardous materials	The action would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies.
l. Infrastructure	The portion of the action described above would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants.
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan.
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.
o. Traffic and parking	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.
p. Transit and pedestrians	The portion of the action described above would not generate new development. It would not result in the generation of significant transit or pedestrian impacts.
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction impacts	The portion of the action described above would not generate specific new development. However it would benefit overall construction in New York by streamlining the inspection process. This would reduce delays, while still ensuring public safety.
t. Public health	The portion of the action described above would not result in significant adverse public health impacts.

	Administration & Enforcement
Title 28, Chapter 1 Section 28-128	**Certificates of Occupancy.** Requirements of the proposed action remain substantially unchanged from the current Code, however, certificates of occupancy will now be required to be posted in all but one- and two-family residential occupancies. Partial certificates of occupancy may be issued for specific floors in buildings constructed before 1938. The duration of temporary certificates of occupancy is no longer limited to 90 days.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic conditions	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.
e. Shadows	The portion of the action described above would not result in the creation of new shadows.
f. Historic resources	The portion of the action described above would not result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural resource.
j. Hazardous materials	The action would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies.
l. Infrastructure	The portion of the action described above would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants.
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan.
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.
o. Traffic and parking	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.
p. Transit and pedestrians	The portion of the action described above would not generate new development. It would not result in the generation of significant transit or pedestrian impacts.
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction impacts	The portion of the action described above would not generate significant adverse construction impacts.
t. Public health	The portion of the action described above would not result in significant adverse public health impacts.

	Administration & Enforcement
Title 28, Chapter 1, Section 28-130	**Enforcement.** The enforcement provisions have been consolidated and simplified. In order to consider the comprehensiveness and equity of prescribed penalties, the proposed legislation calls for the establishment by subsequent local law of schedules of civil and criminal penalties reflecting the severity and repeated nature of infractions.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic conditions	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.
e. Shadows	The portion of the action described above would not result in the creation of new shadows.
f. Historic resources	The portion of the action described above would not result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural resource.
j. Hazardous materials	The action would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies.
l. Infrastructure	The portion of the action described above would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants.
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan.
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.
o. Traffic and parking	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.
p. Transit and pedestrians	The portion of the action described above would not generate new development. It would not result in the generation of significant transit or pedestrian impacts.
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction impacts	The portion of the action described above would not generate significant adverse construction impacts.
t. Public health	The portion of the action described above would not result in significant adverse public health impacts.

	Administration & Enforcement
Title 28, Chapter 1, Sections 28-140 & 28-141	**Emergency Power of the Commissioner and Unsafe Buildings.** The proposed legislation codifies the Department's common law power to act in emergencies. Monies owed in conjunction with the Department's prosecution of Unsafe Buildings proceedings in court and the performance of work pursuant to court orders are authorized to be collected as tax liens.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic conditions	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.
e. Shadows	The portion of the action described above would not result in the creation of new shadows.
f. Historic resources	The portion of the action described above would not result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural resource.
j. Hazardous materials	The action would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies.
l. Infrastructure	The portion of the action described above would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants.
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan.
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.
o. Traffic and parking	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.
p. Transit and pedestrians	The portion of the action described above would not generate new development. It would not result in the generation of significant transit or pedestrian impacts.
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction impacts	The portion of the action described above would not generate significant adverse construction impacts.
t. Public health	The portion of the action described above would not result in significant adverse public health impacts.

	Plumbing Code Technical Provisions
Title 28, Chapter 4, PC Chapter 5	Water Heaters. This section updates the current NYC Code regarding water heater installation requirements and adds additional safety measures.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic conditions	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.
e. Shadows	The portion of the action described above would not result in the creation of new shadows.
f. Historic resources	The portion of the action described above would not result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural resource.
j. Hazardous materials	The action would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies.
l. Infrastructure	The portion of the action described above would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants.
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan.
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.
o. Traffic and parking	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.
p. Transit and pedestrians	The portion of the action described above would not generate new development. It would not result in the generation of significant transit or pedestrian impacts.
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction impacts	The portion of the action described above would not result in significant adverse construction impacts.
t. Public health	The portion of the action described above would result in an increase in public safety. It would not result in significant adverse public health impacts.

	Plumbing Code Technical Standards
Title 28, Chapter 4, PC Sections 303, 701 & 1101	Plastic Pipe. The ability to use plastic piping in drain, waste and venting systems in residential buildings has been increased from the current maximum building height of three stories to five stories. Corrugated polyethylene piping and fittings are permitted outside of the foundation wall for yard drains and stormwater piping in all building types.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic conditions	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.
e. Shadows	The portion of the action described above would not result in the creation of new shadows.
f. Historic resources	The portion of the action described above would not result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural resource.
j. Hazardous materials	The action would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies.
l. Infrastructure	The portion of the action described above would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants.
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan.
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.
o. Traffic and parking	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.
p. Transit and pedestrians	The portion of the action described above would not generate new development. It would not result in the generation of significant transit or pedestrian impacts.
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction impacts	The portion of the action described above would not generate specific new development. However it would benefit overall construction in New York by reducing plumbing costs in residential buildings of 4 and 5 stories by extending the current practice of allowing plastic pipes in residential buildings of up to 3 stories.
t. Public health	The portion of the action described above would not result in significant adverse public health impacts.

	Administration & Enforcement
Title 28, Chapter 2 (all)	Licensing. License terms generally are extended from the current one year to three years. Government employee plumbers and fire suppression piping installers are expressly recognized and the government experience of trainees is allowed to be credited toward qualifying for a master plumber or master fire suppression piping contractor license. Journeyman registration is recognized for plumbers and fire suppression piping installers, and two years of journeyman experience is required as part of the traditional 7-year experience requirement for a master plumber or master fire suppression piping contractor license. Stakeholder participation has been expanded on the Plumbing and Fire Suppression Piping Contractor License Board.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic conditions	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.
e. Shadows	The portion of the action described above would not result in the creation of new shadows.
f. Historic resources	The portion of the action described above would not result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural resource.
j. Hazardous materials	The action would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies.
l. Infrastructure	The portion of the action described above would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants.
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan.
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.
o. Traffic and parking	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.
p. Transit and pedestrians	The portion of the action described above would not generate new development. It would not result in the generation of significant transit or pedestrian impacts.
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction impacts	The portion of the action described above would not generate specific new development. However it would benefit overall construction in New York by clarifying the bureaucratic requirements and protecting worker and public safety.
t. Public health	The portion of the action described above would not result in significant adverse public health impacts.

	Plumbing Code Technical Provisions
Title 28, Chapter 4, PC Chapter 4 Sections 411, 417, 421	Fixtures, Faucets & Fixture Fittings. New standards are introduced for emergency showers and eyewash stations, glazing of shower enclosure windows and doors and whirlpool bathtubs.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic conditions	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.
e. Shadows	The portion of the action described above would not result in the creation of new shadows.
f. Historic resources	The portion of the action described above would not result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural resource.
j. Hazardous materials	The action would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies.
l. Infrastructure	The portion of the action described above would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants.
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan.
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.
o. Traffic and parking	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.
p. Transit and pedestrians	The portion of the action described above would not generate new development. It would not result in the generation of significant transit or pedestrian impacts.
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction impacts	The portion of the action described above would not result in significant adverse construction impacts.
t. Public health	The portion of the action described above would not result in significant adverse public health impacts.

	Plumbing Code Technical Standards
Title 28, Chapter 4, PC Chapter 9	Vents. Under certain conditions, the new code allows multiple fixtures to be circuit vented.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic conditions	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.
e. Shadows	The portion of the action described above would not result in the creation of new shadows.
f. Historic resources	The portion of the action described above would not result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural res[illegible]ce.
j. Hazardous materials	The action would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would app[illegible], to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies.
l. Infrastructure	The portion of the action described above would not significantly increase the demand for water or decrease water pressure, nor would it result in a significant increase of flow through the City's sewers or wastewater treatment plants.
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan.
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.
o. Traffic and parking	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.
p. Transit and pedestrians	The portion of the action described above would not generate new development. It would not result in the generation of significant transit or pedestrian impacts.
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction impacts	The portion of the action described above would not result in significant adverse construction impacts.
t. Public health	The portion of the action described above results in an increase in public safety by safeguarding building envelope and structural integrity. It would not result in significant adverse public health impacts.

Attachment C – Assessment Summary Page 16 of 17

	Plumbing Code Technical Standards
Title 28, Chapter 4, PC Appendix C	Water Conservation Systems. Under an approved water conservation plan, beneficial collection of rain and certain wastewater may be recycled for nonpotable uses, and waterless urinals are permitted.
a. Land use, zoning and public policy	The portion of the action described above would not result in significant changes in land use. It would not affect regulation or policies governing land use. There are no zoning changes that would accompany this portion of the action. Consequently, it is not expected to have significant effects on land use, zoning or other public policies.
b. Socioeconomic conditions	The portion of the action described above is not expected to create substantial socioeconomic changes that would not be expected to occur absent the action.
c. Community facilities & services	The portion of the action described above would not result in the direct alteration or displacement of any community facility. Nor would it result in the creation of significant demands on community facilities.
d. Open Space	The portion of the action described above would not result in significant adverse direct or indirect impacts to open space.
e. Shadows	The portion of the action described above would not result in the creation of new shadows.
f. Historic resources	The portion of the action described above would not result in significant adverse impacts to historic resources.
g. Urban Design / visual resources	The portion of the action described above would not result in the generation of substantial bulk or types of in-ground construction that would significantly affect urban design and/or visual resources of a neighborhood.
h. Neighborhood character	The portion of the action described above would not exceed the preliminary thresholds outlined in the CEQR technical manual that require an assessment of neighborhood character.
i. Natural resources	The portion of the action described above would not result in the disturbance of a natural resource. It would result in a decrease in water consumption in those buildings utilizing such water-conserving measures.
j. Hazardous materials	The action would not significantly increase exposure of people or the environment to hazardous materials and would not result in significant public health impacts or environmental damage.
k. Waterfront revitalization	Because the proposed action applies citywide, the provisions of the new building code would apply to structures and/or sites located within the boundaries of the Coastal Zone. It should be noted however that the portion of the action described above would not, in and of itself, generate new development. See Attachments E and F for the consistency review. As indicated, this portion of the action is consistent with the policies of the WRP and would not substantially hinder the achievement of any of the coastal policies.
l. Infrastructure	The portion of the action described above would decrease the demand. It would not result in a significant decrease in water pressure or significant increase of flow through the City's sewers or wastewater treatment plants.
m. Solid waste and sanitation services	The portion of the action described above would not affect the City's Comprehensive Solid Waste Management Plan.
n. Energy	The portion of the action described above would not significantly affect the transmission or generation of energy and would not generate substantial indirect consumption of energy.
o. Traffic and parking	The portion of the action described above would not generate specific new development. It would not result in the generation of significant traffic or parking impacts.
p. Transit and pedestrians	The portion of the action described above would not generate new development. It would not result in the generation of significant transit or pedestrian impacts.
q. Air quality	The portion of the action described above would not generate specific new development. It would not result in the generation of significant air quality impacts from stationary or mobile sources.
r. Noise	The portion of the action described above would not generate specific new development. It would not result in the generation of significant noise impacts from stationary or mobile sources.
s. Construction impacts	The portion of the action described above would not generate specific new development. However it would benefit overall construction in New York by introducing the possibility of incorporating greywater systems into buildings, while still ensuring public safety.
t. Public health	The portion of the action described above would not result in significant adverse public health impacts.

1 Executive Summary

In keeping with Mayor Bloomberg's charge to streamline the building code while maintaining the high safety and construction standards of our current code, the Department of Buildings, with the extraordinary voluntary participation of over 400 experts in their fields in New York City, proceeded over the past two years to revise the current code on the model of the International Building Code (IBC) and its family of related codes, published by the International Code Council, a non-profit organization. To date, work is complete on Administration and Enforcement of the code and on the entire Plumbing Code. Accordingly, the Cost Impact Assessment Project has completed Phase I of its work and evaluated the effect on construction cost of these proposed code changes through four case studies: a commercial high-rise, a residential high-rise, a proposal for low-rise affordable housing and a school.

Based upon the design and cost analyses of our assessment team experts and our comparative analysis to date, these Phase I code elements appear to have negligible impact on the overall construction cost of the prototype buildings in our evaluation.

2 Introduction

In November, 2002, Mayor Bloomberg initiated an Advisory Commission to investigate the adoption of a model building code, and ultimately accepted the Commission's recommendation to adopt the International Building Code (IBC) and its family of related codes as a model code for New York City. Accordingly, he authorized the Department of Buildings to commence a process by which the IBC would be adapted for New York City's density and its high-rise development, resulting in a streamlined code aligned with current national and international building safety standards. Published by the International Code Council (ICC), a non-profit organization, the IBC is currently adopted by the states of New York, New Jersey and Connecticut in our region, and the family of codes, the I-Codes, are widely used in state and local jurisdictions in 48 states. Significantly, the ICC offers both update services for the model code, in which New York City will participate importantly, and review services for new technologies, products and materials.

The New York City Department of Buildings, charged by the mayor with leading the code revision effort, has been working with over 400 volunteer experts in the city's real estate, design, labor and construction industry for over two years to adapt the IBC for New York City. In November 2004, the Housing and Buildings Committee of the City Council held its first hearing on the first of two bills planned for the adoption of the new code. Intro 478 will be reintroduced this spring as Intro 478A, proposing a new Title 28 of the Administrative Code entitled The New York City Construction Codes, and will represent the completed chapters governing the administration and enforcement of the code (Title 28, Chapters 1, Administration and Enforcement, and 2, Licensing) and the entire plumbing code (Title 28, Chapter 3, The New York City Plumbing Code).

In order to evaluate the cost impact of the proposed building code, the Department, again relying on the volunteer efforts of leading design and cost estimating experts in the city, has commenced this Cost Impact Assessment Project. Phase I of the Project Report focuses on the proposed chapters to be included in Intro 478A, including Administration and Enforcement (Chapter 1 of the IBC) and the Plumbing Code (referenced from Chapter 29 of the IBC). The cost impact of the remaining elements of the proposed code will be addressed in subsequent phases of the project.

3 *Approach: Case Studies*

Three building prototypes and an actual school are being evaluated as case studies, selected to represent a significant volume of construction in New York City, and 69% of the 2003 building stock excluding one- and two-family residences (J3): a 37-story commercial high-rise, a 29-story residential high-rise, a 4-story residential low-rise and a 5-story school. While no single building design can represent an entire building type, or all the conditions which might be found in various individual buildings of the type, our prototypes have been selected with the help of our assessment team experts to represent the common conditions found in each type.

Each building assessment team has evaluated the total cost of their prototype building or school, each of which has been designed in accordance with the current New York City Building Code. Then we have asked plumbing engineers to "redesign" the building plumbing systems according to the proposed code. In this early stage, without benefit of changes which might arise in the space configuration or the structural or fire systems in the building as a result of changes to subsequent code chapters, these plumbing revisions can be evaluated as differences from the original building estimate. Likewise revisions in the administration of the code are evaluated for their impact on construction cost. We are aware that the outstanding code changes may impact on our current assessment work, potentially requiring us to revisit our current findings. However, code administration requirements and the plumbing systems represent significant elements of the construction cost of these buildings, and we anticipate that our current findings in these areas will remain substantially the same.

Finally, we have presented the final draft of this report to the Assessment Board and to the chairs of the technical committees, and have incorporated their comments in Part 5 of this report.

4 *Principal Changes*

4.1 Chapter 1: Administration and Enforcement

Chapter 1 proposes a number of significant changes in the administration and enforcement of the code. For example, the Department's Materials, Equipment and Assemblies Division (MEA) will be transformed into a unit which advises the Commissioner regarding the recommendations of the ICC Evaluation Services or other nationally recognized evaluation services as to the safety of proposed technological innovations. Architects will also be allowed to professionally certify the safety of certain types of materials and equipment. And UL listing and other recognized national standards of certain equipment and assemblies will be accepted as-of-right.

Work permits, currently issued for one-year periods, may be issued for up to two years. Certain "ordinary plumbing work" will be exempt from filing of plans and permits, however the licensee engaged in such work will be required to report his or her activity monthly to the Department. The maximum limit up to which plumbing and fire suppression plans need not be filed for approval is increased to $25,000 for each.

Certain incentives are provided for, including fee incentives for energy and water conservation and new fees for expedited plan reviews, expedited inspections and expedited Certificate of Occupancy issuance. Inspections by approved inspection agencies may be accepted in lieu of inspections by the Department. Partial Final Certificates of Occupancy may be issued for individual floors of an existing building which does not have its own Certificate of Occupancy.

Periodic inspections, including those for building facades, boilers and elevators, will no longer be required to follow identical cycles.

Department-issued licenses, currently renewed annually, will be issued and renewed for three-year periods. Government employees will be able to gain required experience for licensing while working under government-employed licensed master plumbers and licensed master fire-suppression piping installers. New registrations will be introduced for journeyman plumbers and journeyman fire suppression installers, and will be part of the requirement for licensing. The Plumbing Board will take on an advisory role to the Commissioner in lieu of a disciplinary role.

4.2 Chapter 29 (Plumbing Code): Plumbing Systems

With regard to the number of plumbing fixtures required in a building, the proposed code will model the requirement of the International Plumbing Code (IPC) with the exception of commercial buildings, where requirements in the current code will be retained. In addition, vent and soil stack tables will be modeled on the IPC.

Drainage, waste and vent systems in PVC will be permitted in residential buildings up to five stories; under the current code, PVC is permitted only up to three stories.

On copper fin-tube and gas-fired domestic hot water heaters, a flow switch will be required to interrupt the gas supply to the heater in the event water flow through the coil is interrupted.

RPZs and double detector checks will now be required to be tested annually by a certified tester.

Wet venting will be permitted for a bathroom group. Circuit venting will be permitted for up to eight floor fixtures. In addition, engineered vent systems will be permitted, as well as computerized vent designs.

Overflow roof drains are a new requirement between 2" and 4" above the low point of the roof surface, with some exceptions.

There is an appendix covering water conservation systems where the building has a full water conservation program. It permits the use of storm water and certain waste water harvesting and reuse, and also the use of waterless urinals.

Finally, DEP requirements have been eliminated from the building code and DEP regulations are referenced instead.

rental unit on the ground floor, a 3-bedroom owner unit on the second and third floors, and a 2-bedroom rental unit on the fourth floor. The building has no basement. A single stair, exterior from ground to the second floor and interior from the second to the fourth floors, provides the sole means of egress, and the rear yard is accessed through a single exterior stair from the second floor. The roof slopes four inches from the front to the rear, with gutters and leader providing drainage. The boiler is located on the second floor and utility meters and trash are located under the exterior stair in front.

The proposal for assessment purposes, in addition to the proposed administration and plumbing code changes, is to make this four-story building into a four-family unit, still with no basement and still with a single means of egress. The ground floor houses the RPZ required for this multiple dwelling and a studio apartment. The remaining three units are 2-bedroom, with access to the rear-yard stair through one second-floor bedroom. The building is sprinklered throughout.

Administration changes resulted in negligible cost impact.

The principal plumbing change based upon the proposed code was the use of PVC piping for soil and waste venting and roof drainage piping, resulting in a $1,515 decrease per dwelling in the plumbing cost, or $21,210 in the overall estimate. This was a 3% decrease in the plumbing cost, but negligible to the cost of the $6.2 million development.

5.4 School

This five-story high school in Queens, including a cellar and four stories above-ground, is approximately 150,000 gross square feet. On the cellar level are the gymnasium and locker rooms, the cafeteria, staff dining and kitchen, medical suite, plumbing, fire pump and switchgear rooms, and various storage and office spaces for the building. On the ground level are the auditorium, general office, classrooms and support spaces. The second floor contains classrooms and offices. On the third floor, in addition to classrooms and offices, are the library, an outdoor court in the center of the building and a low roof with mechanical equipment. The remaining classrooms and offices are on the fourth floor, along with intermediate roofs with additional mechanical equipment. The high roof level contains a single stair bulkhead.

Administration changes resulted in negligible cost impact.

The only plumbing code change affecting the cost was the secondary roof drainage system, with an increase of $9,000. This resulted in a 1% increase in the plumbing estimate, a negligible amount in the overall $47,300,000 building cost.

Notes: While the proposed-code cost estimate, provided in the appendix, showed deletions for plastic piping, these in fact will not apply: plastic piping is not currently and will not be permitted in schools under the proposed code for supply lines; and as it *is* permitted for storm and sanitary waste lines with special approval under the current code but was not selected by the owner, this same selection was carried through to the proposed-code estimate as shown in Tables 5.5.1 and 5.5.2 following.

The estimate also shows a $2500 increase for a larger double-check valve, however this relates not to plumbing code changes but to anticipated changes in other building systems not yet included in our study and will be picked up when these systems are introduced in the report.

Finally, the deletion of 50 feet of gas piping was determined to be an error and has been disregarded in our assessment.

5.5 Comparative Results and Analysis

Table 5.5.1 presents the results of our findings for Phase I. In the format established by the Construction Specifications Institute and used industry-wide, the table lays out the basis of the original estimate in the first column for each building, the impact of the proposed code changes in the second column, and the percentage relationship of the proposed-code number to the current-code number. Thus, for example, because no estimator anticipated a direct impact from the Administration and Enforcement changes, only the Plumbing line (Division 15) is changed in the estimates for each building.

Table 5.5.2 identifies the issues behind the cost impacts and how they affected the estimates. Thus, while wet venting of bathtubs provides a cost savings in the residential high-rise, the cost increase is greater for the secondary roof drainage system in this prototype and affects also the commercial high-rise and the school. The residential low-rise avoids this increase by its sloped roof and lack of parapet, which together avoid retainage of water on the roof – rainwater runs to a gutter on the back face of the building and into a leader, and in the event of a plugged leader it simply spills over the gutter. On the other hand, the use of PVC in the residential low-rise building reduces the plumbing cost by 3%.

It should be noted that the cost estimator for the high-rise residential prototype identifies a longer-term savings for the industry, and therefore for the general cost of construction, resulting from the proposed administration chapter related to a more flexible approach to materials, equipment and assemblies approvals: The acceptance of the recommendations of nationally recognized evaluation services, the possibility of architects and engineers certifying certain materials, and the acceptance of UL listings and other recognized national standards for certain

equipment as-of-right. He further anticipates potential savings from fee rebates for energy and water savings, and for the possibility of two-year permits and renewals. Finally, with regard to alterations of existing buildings, he predicts savings for "ordinary plumbing work", which is exempt from filing requirements with certain conditions. It can also be anticipated that the simpler, better organized and internationally used code will reduce design costs and increase competition both from companies outside of New York doing work in the city, and from New York companies working in more familiar code territory in locations outside of the city and state.

Members of the Assessment Board commented that the cost reduction for the use of pvc in the residential low-rise may become greater with increased acceptance and experience in its use in New York City. Related discussion noted that a different type of firestopping may be required and might counterbalance the cost reduction. Firestopping will be evaluated at a different phase of this project.

Table 5.5.1: COMPARATIVE COST IMPACT ANALYSIS OF THE PROPOSED NEW CODE
Phase I: Administration, Plumbing - May 24, 2005

CSI Division Number	CSI Division Description	Commercial Hi-Rise - current code (2005 $)	Commercial Hi-Rise - proposed code (2005 $)	Percent change, current code basis	Residential Hi-Rise - current code (adjusted to 2005 $)	Residential Hi-Rise - proposed code (2005 $)	Percent change, current code basis	Residential Lo-Rise, 4-story 3-family, prototype layout - current-code systems (adjusted to 2005 $)	Residential Lo-Rise, proposed 4-story 3-family prototype layout, proposed-code systems (2005 $)	Percent change, current code basis	School - current code (2005 $)	School - proposed code (2005 $)	Percent change, current code basis

Total		$307,467,716	$14,643,925		$43,267,835	$3,239,980		$4,207,854	$725,617		$47,323,343	$1,902,517	

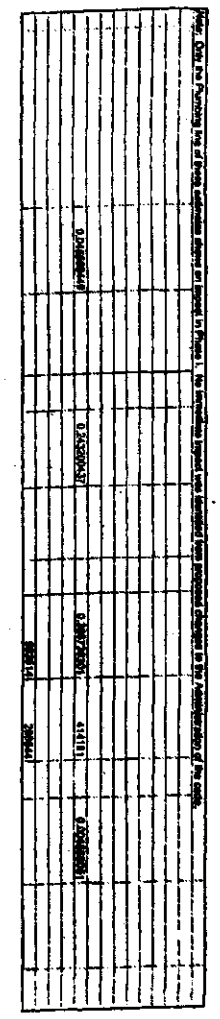

Table 5.5.2: ANALYSIS OF ISSUES IMPACTING CONSTRUCTION COST CHANGES

Phase I: Administration, Plumbing - May 24, 2005

Code Issue	Commercial Hi-Rise (2005 $)	Residential Hi-Rise (2005 $)	Residential Lo-Rise (2005 $)	School (2005 $)	Comments
Chapter 1: Administration					
Current-code estimate	No estimate	No estimate	No estimate	No estimate	
Cost impact	Negligible	Negligible	Negligible	Negligible	Anticipated long-term savings – see Section 5.5
Proposed-code estimate	No estimate	No estimate	No estimate	No estimate	
Chapter 29: Plumbing Code					
Original estimate	$ 6,541,890	$ 3,201,060	$ 746,627	$ 1,793,517	
Secondary roof drainage system	$ 35,000	$ 72,000		$ 8,000	Scuppers were identified as possible alternate design.
Wet venting of bathtubs		$ (34,800)			
Use of PVC			$ (21,210)		
Plumbing estimate, proposed code	$ 6,576,890	$ 3,238,860	$ 725,617	$ 1,802,517	

6 *Recommendations*

Based upon our analysis of the three prototypes and the school to date, we find negligible impact on the cost of construction in New York City as a result of the proposed modifications to the building code in this first phase. On the basis of this finding, we recommend that the code as proposed to date be adopted, and thus that Intro 478A be passed into law. It is understood that, without similar passage of the completion bill, to be introduced in 2006, Intro 478A will not take effect.

ATTACHMENT E
NEW YORK CITY WATERFRONT REVITALIZATION PROGRAM
Consistency Assessment Form

Proposed actions that are subject to CEQR, ULURP or other local, state or federal discretionary review procedures, and that are within New York City's designated coastal zone, must be reviewed and assessed for their consistency with the *New York City Waterfront Revitalization Program (WRP)*. The WRP was adopted as a 197-a Plan by the Council of the City of New York on October 13, 1999, and subsequently approved by the New York State Department of State with the concurrence of the United States Department of Commerce pursuant to applicable state and federal law, including the Waterfront Revitalization of Coastal Areas and Inland Waterways Act. As a result of these approvals, state and federal discretionary actions within the city's coastal zone must be consistent to the maximum extent practicable with the WRP policies and the city must be given the opportunity to comment on all state and federal projects within its coastal zone.
This form is intended to assist an applicant in certifying that the proposed activity is consistent with the WRP. It should be completed when the local, state, or federal application is prepared. The completed form and accompanying information will be used by the New York State Department of State, other state agencies or the New York City Department of City Planning in their review of the applicant's certification of consistency.

A. CO-APPLICANTS

1. Name:
   Phyllis Arnold — **New York City Department of Buildings**
   Jeffrey Haberman — **New York City Council**

2. Address:
   280 Broadway, New York, NY 10007
   250 Broadway, New York, NY 10007

3. Telephone: **212-566-3291** Fax: **212-566-3813**
   Telephone: **212-788-9122** Fax: **212-788-9160**

4. Project site owner:
   Not Applicable

B. PROPOSED ACTIVITY

1. Brief description of activity:
   The proposed action is the passage of a local law that sets forth new administrative and enforcement provisions for the City's new construction codes as well as the City's new plumbing code. It provides for further adoption by subsequent local law of the following codes: the building code, the mechanical code, the fuel gas code and the residential. All codes are proposed to become effective July 1, 2007.

2. Purpose of activity:
   Adoption of a new building code that ensures public safety while streamlining procedures and providing the public with easier access to information.

5. Location of activity: (street address/borough or site description):
   Citywide.

4. If a federal or state permit or license was issued or is required for the proposed activity, identify the permit type(s), the authorizing agency and provide the application or permit number(s), if known:
   N/A

5. Is federal or state funding being used to finance the project? If so, please identify the funding source(s).
NO

6. Will the proposed project require the preparation of an environmental impact statement?
Yes No XXX If yes, identify Lead Agency:

7. Identify City discretionary actions, such as a zoning amendment or adoption of an urban renewal plan, required for the proposed project.
A local law to amend the administrative code of the City of New York.

C. COASTAL ASSESSMENT

Location Questions:	**Yes**	**No**
1. Is the project site on the waterfront or at the water's edge?		
The Building Code affects the entire City, including sites on the waterfront or at the water's edge.		
2. Does the proposed project require a waterfront site?		X
3. Would the action result in a physical alteration to a waterfront site, including land along the shoreline, land underwater, or coastal waters?		X

Policy Questions:
The following questions represent, in a broad sense, the policies of the WRP. Numbers in parentheses after each question indicate the policy or policies addressed by the question. The new Waterfront Revitalization Program offers detailed explanations of the policies, including criteria for consistency determinations.

Check either "Yes" or "No" for each of the following questions. For all "yes" responses, provide an attachment assessing the effects of the proposed activity on the relevant policies or standards. Explain how the action would be consistent with the goals of those policies and standards.

	Yes	**No**
4. Will the proposed project result in revitalization or redevelopment of a deteriorated or under- used waterfront site? (1)		X
5. Is the project site appropriate for residential or commercial redevelopment? (1.1)	X	
6. Will the action result in a change in scale or character of a neighborhood? (1.2)		X
7. Will the proposed activity require provision of new public services or infrastructure? in undeveloped or sparsely populated sections of the coastal ar .? (1.3)		X
8. Is the action located in one of the designated Significant Maritime and Industrial Areas (SMIA): South Bronx, Newtown Creek, Brooklyn Navy Yard, Red Hook, Sunset Park, or Staten Island? (2)	X	
9. Are there any waterfront structures, such as piers, docks, bulkheads or wharves, located on the project sites? (2)	X	
10. Would the action involve the siting or construction of a facility essential to the generation or transmission of energy, or a natural gas facility, or would it develop new energy resources? (2.1)		X
11. Does the action involve the siting of a working waterfront use outside of a SMIA? (2.2)		X

	Yes	**No**
12. Does the proposed project involve infrastructure improvement, such as construction or repair of piers, docks, or bulkheads? (2.3, 3.2)		X
13. Would the action involve mining, dredging, or dredge disposal, or placement of dredged or fill materials in coastal waters? (2.3, 3.1, 4, 5.3, 6.3)		X
14. Would the action be located in a commercial or recreational boating center, such as City Island, Sheepshead Bay or Great Kills or an area devoted to water-dependent transportation? (3)	X	
15. Would the proposed project have an adverse effect upon the land or water uses within a commercial or recreation boating center or water-dependent transportation center? (3.1)		X
16. Would the proposed project create any conflicts between commercial and recreational boating? (3.2)		X
17. Does the proposed project involve any boating activity that would have an impact on the aquatic environment or surrounding land and water uses? (3.3)		X
18. Is the action located in one of the designated Special Natural Waterfront Areas (SNWA): Long Island Sound- East River, Jamaica Bay, or Northwest Staten Island? (4 and 9.2)	X	
19. Is the project site in or adjacent to a Significant Coastal Fish and Wildlife Habitat? (4.1)	X	
20. Is the site located within or adjacent to a Recognized Ecological Complex: South Shore of Staten Island or Riverdale Natural Area District? (4.1and 9.2)	X	
21. Would the action involve any activity in or near a tidal or freshwater wetland? (4.2)	X	
22. Does the project site contain a rare ecological community or would the proposed project affect a vulnerable plant, fish, or wildlife species? (4.3)		X
23. Would the action have any effects on commercial or recreational use of fish resources? (4.4)		X
24. Would the proposed project in any way affect the water quality classification of nearby waters or be unable to be consistent with that classification? (5)		X
25. Would the action result in any direct or indirect discharges, including toxins, hazardous substances, or other pollutants, effluent, or waste, into any waterbody? (5.1)		X
26. Would the action result in the draining of stormwater runoff or sewer overflows into coastal waters? (5.1)		X
27. Will any activity associated with the project generate nonpoint source pollution? (5.2)		X
28. Would the action cause violations of the National or State air quality standards? (5.2)		X

	Yes	**No**
29. Would the action result in significant amounts of acid rain precursors (nitrates and sulfates)? (5.2C)		X
30. Will the project involve the excavation or placing of fill in or near navigable waters, marshes, estuaries, tidal marshes or other wetlands? (5.3)		X
31. Would the proposed action have any effects on surface or ground water supplies? (5.4)		X
32. Would the action result in any activities within a federally designated flood hazard area or state-designated erosion hazards area? (6)	X	
33. Would the action result in any construction activities that would lead to erosion? (6)		X
34. Would the action involve construction or reconstruction of a flood or erosion control structure? (6.1)		X
35. Would the action involve any new or increased activity on or near any beach, dune, barrier island, or bluff? (6.1)		X
36. Does the proposed project involve use of public funds for flood prevention or erosion control? (6.2)		X
37. Would the proposed project affect a non-renewable source of sand ? (6.3)		X
38. Would the action result in shipping, handling, or storing of solid wastes, hazardous materials, or other pollutants? (7)	X	
39. Would the action affect any sites that have been used as landfills? (7.1)	X	
40. Would the action result in development of a site that may contain contamination or that has a history of underground fuel tanks, oil spills, or other form or petroleum product use or storage? (7.2)	X	
41. Will the proposed activity result in any transport, storage, treatment, or disposal of solid wastes or hazardous materials, or the siting of a solid or hazardous waste facility? (7.3)	X	
42. Would the action result in a reduction of existing or required access to or along coastal waters, public access areas, or public parks or open spaces? (8)		X
43. Will the proposed project affect or be located in, on, or adjacent to any federal, state, or city park or other land in public ownership protected for open space preservation? (8)	X	
44. Would the action result in the provision of open space without provision for its maintenance? (8.1)		X
45. Would the action result in any development along the shoreline but NOT include new water-enhanced or water-dependent recreational space? (8.2)		X
46. Will the proposed project impede visual access to coastal lands, waters and open space? (8.3)		X

	Yes	**No**
47. Does the proposed project involve publicly owned or acquired land that could accommodate waterfront open space or recreation? (8.4)		X
48. Does the project site involve lands or waters held in public trust by the state or city? (8.5)		X
49. Would the action affect natural or built resources that contribute to the scenic quality of a coastal area? (9)		X
50. Does the site currently include elements that degrade the area's scenic quality or block views to the water? (9.1)		X
51. Would the proposed action have a significant adverse impact on historic, archeological, or cultural resources? (10)		X
52. Will the proposed activity affect or be located in, on, or adjacent to an historic resource listed on the National or State Register of Historic Places, or designated as a landmark by the City of New York? (10)	X	

D. CERTIFICATION
The applicant or agent must certify that the proposed activity is consistent with New York City's Waterfront Revitalization Program, pursuant to the New York State Coastal Management Program. If this certification cannot be made, the proposed activity shall not be undertaken. If the certification can be made, complete this section.

"The proposed activity complies with New York State's Coastal Management Program as expressed in New York City's approved Local Waterfront Revitalization Program, pursuant to New York State's Coastal Management Program, and will be conducted in a manner consistent with such program."

The answer to Question (41) implicates Policy (7.3)

The answer to Question (43) implicates Policy (8)

The answer to Question (52) implicates Policy (10)

Question (5) - The Building Code, and therefore the proposed action, would apply citywide. Therefore sites that are or would become subject to the provisions of the Code may be those that are appropriate for residential or commercial redevelopment and are located within the coastal zone area. However, there is no reason to believe that the activities that would occur or are likely to occur due to compliance with proposed action are not consistent with Policy (1) - "Encourage commercial and residential redevelopment in appropriate coastal zone areas." It should be noted that the proposed action in and of itself would not generate new development.

Question (8) - The Building Code, and therefore the proposed action, would apply citywide. Therefore sites that are or would become subject to the provisions of the Code may be located

within a "Significant Maritime and Industrial Area". However, there is no reason to believe that the activities that would occur or are likely to occur due to compliance with proposed action are not consistent with Policy (2) - "Support water-dependent and industrial uses in New York City coastal areas that are well-suited to their continued operation." It should be noted that the proposed action in and of itself would not generate new development.

Question (9) - The Building Code, and therefore the proposed action, would apply citywide. Therefore sites that are or would become subject to the provisions of the Code may contain waterfront structures such as piers, docks, bulkheads or wharves. However, there is no reason to believe that the activities that would occur or are likely to occur due to compliance with proposed action are not consistent with Policy (2) - "Support water-dependent and industrial uses in New York City coastal areas that are well-suited to their continued operation." It should be noted that the proposed action in and of itself would not generate new development.

Question (14) - The Building Code, and therefore the proposed action, would apply citywide. Therefore sites that are or would become subject to the provisions of the Code may be located within a "commercial or recreation boating center, such as City Island, Sheepshead Bay, or Great Kills, or in an area devoted to water-dependent transportation". However there is no reason to believe that the activities that would occur or are likely to occur due to compliance with proposed action are not consistent with Policy (3) – "Promote use of New York City's waterways for commercial and recreational boating and water-dependent transportation centers." It should be noted that the proposed action in and of itself would not generate new development.

Question (18) - The Building Code, and therefore the proposed action, would apply citywide. Therefore sites that are or would become subject to the provisions of the Code may be located in a designated "Special Natural Waterfront Area". However there is no reason to believe that the activities that would occur or are likely to occur due to compliance with proposed action are not consistent with Policy (4) – "Protect and restore the quality and function of ecological systems within the New York City coastal area" and Policy (9.2) – "Protect scenic values associated with natural resources." It should be noted that the proposed action in and of itself would not generate new development.

Question (19) - The Building Code, and therefore the proposed action, would apply citywide. Therefore sites that are or would become subject to the provisions of the Code may be located in or adjacent to a "Significant Coastal Fish and Wildlife Habitat". However there is no reason to believe that the activities that would occur or are likely to occur due to compliance with proposed action are not consistent with Policy (4.1) – "Protect and restore the ecological quality and component habitants and resources within the Special Natural Waterfront Areas, Recognized Ecological Complexes, and Significant Coastal Fish and Wildlife Habitats." It should be noted that the proposed action in and of itself would not generate new development.

Question (20) - The Building Code, and therefore the proposed action, would apply citywide. Therefore sites that are or would become subject to the provisions of the Code may be located in or adjacent to a "Significant Coastal Fish and Wildlife Habitat". However there is no reason to believe that the activities that would occur or are likely to occur due to compliance with proposed action are not consistent with Policy (4.1) – "Protect and restore the ecological quality and component habitants and resources within the Special Natural Waterfront Areas, Recognized Ecological Complexes, and Significant Coastal Fish and Wildlife Habitats" and Policy (9.2) –

"Protect scenic values associated with natural resources." It should be noted that the proposed action in and of itself would not generate new development.

Question (21) - The Building Code, and therefore the proposed action, would apply citywide. Therefore sites that are or would become subject to the provisions of the Code may be located "in or near an active tidal or freshwater wetland". However there is no reason to believe that the activities that would occur or are likely to occur due to compliance with proposed action are not consistent with Policy (4.2) – "Protect and restore tidal and freshwater wetlands". It should be noted that the proposed action in and of itself would not generate new development.

Question (32) - The Building Code, and therefore the proposed action, would apply citywide. Therefore sites that are or would become subject to the provisions of the Code may be located "within a federally designated flood hazard area or state-designated erosion hazards 2 area". However there is no reason to believe that the activities that would occur or are likely to occur due to compliance with proposed action are not consistent with Policy (6) – "Minimize loss of life, structures and natural resources caused by flooding and erosion". It should be noted that the proposed action in and of itself would not generate new development.

Question (38) – Policy 7 recognizes that the improper disposal of solid waste, including demolition and construction debris, can affect the use and quality of the city's water ways and coastal lands. The proposed action would not alter the requirements of a developer, contractor, plumber, etc. to dispose of solid wastes properly, in compliance with all federal, state and city regulations. A new provision is introduced in the proposed action authorizing the commissioner to promulgate rules for rebates of fees based upon accomplishments in a building design and construction that conserve energy and/or water, utilize renewable energy sources, recycle construction and demolition waste, remediate brownfield sites, and/or perform other sustainable actions of specific benefit to New York City. Therefore the proposed action is consistent with Policy 7 "Minimize environmental degradation from solid waste and hazardous substances.

Question (39) The Building Code, and therefore the proposed action, would apply citywide. Therefore sites that are or would become subject to the provisions of the Code may be located on "sites that have been used as landfills". The proposed action would not alter the requirements of a developer, contractor, etc. to remediate contaminated sites and dispose of solid wastes properly, in compliance with all federal, state and city regulations. A new provision is introduced in the proposed action authorizing the commissioner to promulgate rules for rebates of fees based upon accomplishments in a building design and construction that conserve energy and/or water, utilize renewable energy sources, recycle construction and demolition waste, remediate brownfield sites, and/or perform other sustainable actions of specific benefit to New York City. Therefore the proposed action is consistent with Policy 7.1 "Remediate inactive hazardous waste disposal sites to ensure that the public health and the waters, wetlands and habitats are protected"

Question (40). The Building Code, and therefore the proposed action, would apply citywide. Therefore sites that are or would become subject to the provisions of the Code may be located on a site that may contain contamination or that has a history of underground fuel tanks, oil spills, or other form or petroleum product use or storage. As described above, the proposed action would not alter the requirements of a developer, contractor, etc. to remediate contaminated sties and dispose of solid wastes properly, in compliance with all federal, state and city regulations. A new provision is introduced in the proposed action authorizing the commissioner to promulgate rules for rebates of fees based upon accomplishments in a building design and construction that

conserve energy and/or water, utilize renewable energy sources, recycle construction and demolition waste, remediate brownfield sites, and/or perform other sustainable actions of specific benefit to New York City. Therefore the proposed action is consistent with Policy 7.2 "prevent and remediate discharge of petroleum products".

Question (41) – Policy 7.3, "Transport solid waste and hazardous substances and site solid and hazardous waste facilities in a manner that minimizes potential degradation of coastal resources" would not be impaired by the enactment of proposed action. The proposed action does not require nor would it result in the siting of any solid or hazardous waste facilities nor should it result in the inappropriate handling of solid waste and hazardous substances.

Question (43) – The Building Code, and therefore the proposed action, would apply citywide. Therefore sites that are or would become subject to the provisions of the Code may be located "...adjacent to any federal, state or city park or other land in public ownership protected for open space preservation". However, Policy 8, "Provide public access to and along New York City's coastal waters" would not be affected by any of the activities that may be required to comply with the proposed action. It should be noted that the proposed action in and of itself would not generate new development.

Question (52) - The Building Code, and therefore the proposed action, would apply citywide. Therefore sites that are or would become subject to the provisions of the Code may be located "in, on or adjacent to an historic resource listed on the National or State Register of Historic Places, or designated as a landmark by the City of New York", there is no reason to believe that the activities that would occur or are likely to occur due to compliance with proposed action are not consistent with Policy (10) – "Protect, preserve and enhance resources significant to the historical, archaeological, and cultural legacy of the New York City coastal area. It should be noted that the proposed action, in and of itself, would not generate new development, nor does it affect a property owner's responsibility to comply with the provisions of Sections 25-301 through 25-322 of the NY City Administrative Code regarding Landmarks Preservation and Historic Districts.

MADELINE PROVENZANO, Chairperson; JOEL RIVERA, DIANA REYNA, TONY AVELLA, GALE A. BREWER, LEROY G. COMRIE, LEWIS A. FIDLER, ROBERT JACKSON, MELINDA R. KATZ, LETITIA JAMES, JAMES S. ODDO, Committee on Housing and Buildings, November 16, 2005.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

Reports of the Committee on Land Use

Report for L.U. No. 529

Report of the Committee on Land Use in favor of approving Uniform Land Use Review Procedure application no. C 050460 HAM, an Urban Development Action Area Designation, Project, and the disposition of such property located 115-119 West 137th Street, Borough of Manhattan, Council District no. 9. This matter is subject to Council Review and action pursuant to §197-c and §197-d of the New York City Charter and Article 16 of the General Municipal Law.

The Committee on Land Use to which was referred on July 27, 2005 (Minutes, page 3992) the annexed Land Use resolution respectfully

REPORTS:

SUBJECT

MANHATTAN CB-10 C 050460 HAM

City Planning Commission decision approving an application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

a) the designation of property located at 115, 117 and 119 West 137th Street (Block 2006/Lots 20, 121 and 22), as an Urban Development Action Area (the "Area");

b) an Urban Development Action Area Project for such area (the "Project"); and

2) pursuant to Section 197-c of the New York City Charter for the disposition of such property to a developer selected by HPD.

INTENT

To facilitate the development of two buildings, tentatively known as the Lenox Powell Apartments, with approximately 37 residential units.

Report Summary:

COMMITTEE ACTION

DATE: November 15, 2005

The Committee recommends that the Council approve the attached resolution and thereby approve the disposition, designation and project, make the findings required by Article 16 of the General Municipal Law and approve the decision of the City Planning Commission.

In connection herewith, Council Members Katz and Martinez offered the following resolution:

Res. No. 1248

Resolution approving the decision of the City Planning Commission on an application submitted by the Department of Housing Preservation and Development, ULURP No. C 050460 HAM, approving the designation of 115, 117 and 119 West 137th Street (Block 2006/Lots 20, 121 and 22), Manhattan, as an Urban Development Action Area, approving the project for the area as an Urban Development Action Area Project, and approving the disposition of such property to a developer selected by the Department of Housing Preservation and Development (L.U. No. 29; C 050460 HAM).

By Council Members Katz and Martinez

WHEREAS, the City Planning Commission filed with the Council on October 25, 2005 its decision dated October 19, 2005 (the "Decision"), on the application submitted by the Department of Housing Preservation and Development pursuant to Section 197-c of the New York City Charter and Article 16 of the General Municipal Law of New York State regarding:

a) the designation of 115,117 and 119 West 137th Street (Block 2006, Lots 20,121 and 22), as an Urban Development Action Area (the "Area");

b) an Urban Development Action Area Project for such area (the "Project"); and

pursuant to Section 197-c of the New York City Charter for the disposition of such property to a developer selected by the Department of Housing Preservation and Development to facilitate the development of two buildings, tentatively known as the Lenox Powell Apartments, with approximately 37 residential units, to be developed under HPD's Vacant Building Program (the "Disposition"), Community District 10, Borough of Manhattan (ULURP No. C 050460 HAM) (the "Application");

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d(b)(l) of the City Charter;

WHEREAS, the Application and Decision are subject to review and action by the Council pursuant to Article 16 of the General Municipal Law of New York State;

WHEREAS, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council its recommendations regarding the Application on October 4,

2005;

WHEREAS, upon due notice, the Council held a public hearing on the Application and Decision on November 14, 2005;

WHEREAS, the Council has considered the land use and financial implications and other policy issues relating to the Application;

RESOLVED:

Pursuant to Section 197-d, the Council approves the decision of the City Planning Commission (C 050460 HAM).

The Council finds that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the City of New York and that a designation of the Project as an urban development action area project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law.

The Council approves the designation of the Disposition Area as an urban development action area pursuant to Section 693 of the General Municipal Law.

The Council approves the Project as an urban development action area project pursuant to Section 694 of the General Municipal Law.

The Council approves the disposition of said property to developer selected by the Department of Housing Preservation and Development.

MELINDA R. KATZ, Chairperson; BILL PERKINS, MICHAEL C. NELSON, CHRISTINE C. QUINN, TONY AVELLA, LEROY G. COMRIE, SIMCHA FELDER, ERIC N. GIOIA, G. OLIVER KOPPELL, MIGUEL MARTINEZ, MICHAEL E. McMAHON, HIRAM MONSERREATE, JAMES SANDERS, JR., LARRY B. SEABROOK, ALBERT VANN, VINCENT J. GENTILE, ANDREW J. LANZA, Committee on Land Use, November 15, 2005.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

Report for L.U. No. 531

Report of the Committee on Land Use in favor of approving Uniform Land Use Review Procedure application no. C 050503 HAK, an Urban Development Action Area Designation, Project, and the disposition of such property located at 852-856 Myrtle Avenue, Borough of Brooklyn, Council District no. 36.

The Committee on Land Use to which was referred on July 27, 2005 (Minutes, page 3993) the annexed Land Use resolution respectfully

REPORTS:

SUBJECT

BROOKLYN CB-3 C 050503 HAK

City Planning Commission decision approving an application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

a) the designation of property located at 852-856 Myrtle Avenue (Block 1755, Lot 20) as an Urban Development Action Area (the "Area"); and

b) an Urban Development Action Area Project for such area (the "Project"); and

2) pursuant to Section 197-c of the New York City Charter for the disposition of such property to a developer to be selected by HPD.

INTENT

To facilitate development of a six-story building, tentatively known as Myrtle Avenue Apartments, with approximately 33 residential units for low-income persons.

Report Summary:

COMMITTEE ACTION

DATE: November 15, 2005

The Committee recommends that the Council approve the attached resolution and thereby approve the disposition, designation and project, make the findings required by Article 16 of the General Municipal Law and approve the decision of the City Planning Commission.

In connection herewith, Council Members Katz and Martinez offered the following resolution:

Res. No. 1249

Resolution approving the decision of the City Planning Commission on an application submitted by the Department of Housing Preservation and Development, ULURP No. C 050503 HAK, approving the designation of 852-856 Myrtle Avenue (Block 1755, Lot 20), Brooklyn, as an Urban Development Action Area, approving the project for the area as an Urban Development Action Area Project, and approving the disposition of such property to a developer selected by the Department of Housing Preservation and Development (L.U. No. 531; C 050503 HAK).

By Council Members Katz and Martinez

WHEREAS, the City Planning Commission filed with the Council on October 3, 2005 its decision dated September 28, 2005 (the "Decision"), on the application submitted by the Department of Housing Preservation and Development pursuant to Section 197-c of the New York City Charter and Article 16 of the General Municipal Law of New York State regarding:

a) the designation of 852-856 Myrtle Avenue (Block 1755, Lot 20), as an Urban Development Action Area (the "Area");

b) an Urban Development Action Area Project for such area (the "Project"); and

pursuant to Section 197-c of the New York City Charter for the disposition of such property to a developer selected by the Department of Housing Preservation and Development to facilitate development of a six-story building, tentatively known as Myrtle Avenue Apartments, with approximately 33 residential units for low-income persons, to be developed under the New York State Housing Trust Fund Program (the "Disposition"), Community District 3, Borough of Brooklyn (ULURP No. C 050503 HAK) (the "Application");

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d(b)(l) of the City Charter;

WHEREAS, the Application and Decision are subject to review and action by the Council pursuant to Article 16 of the General Municipal Law of New York State;

WHEREAS, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council its recommendations regarding the Application on September 22,

2005;

WHEREAS, upon due notice, the Council held a public hearing on the Application and Decision on November 14, 2005;

WHEREAS, the Council has considered the land use and financial implications and other policy issues relating to the Application;

RESOLVED:

Pursuant to Section 197-d, the Council approves the decision of the City Planning Commission (C 050503 HAK).

The Council finds that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the City of New York and that a designation of the Project as an urban development action area project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law.

The Council approves the designation of the Disposition Area as an urban development action area pursuant to Section 693 of the General Municipal Law.

The Council approves the Project as an urban development action area project pursuant to Section 694 of the General Municipal Law.

The Council approves the disposition of said property to developer selected by the Department of Housing Preservation and Development.

Report for L.U. No. 547

Report of the Committee on Land Use in favor of approving Uniform Land Use Review Procedure application no. 050180 ZMR, pursuant to §197-c and §197-d of the New York City Charter, concerning changes to the zoning map, Borough of Staten Island, Council District no. 50.

The Committee on Land Use to which was referred on August 17, 2005 (Minutes, page 4270) the annexed Land Use resolution

REPORTS:

SUBJECT

STATEN ISLAND CB-3 C 050180 ZMR

City Planning Commission decision approving an application submitted by Council Members James S. Oddo and Andrew J. Lanza, pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section Nos. 27b and 34a, changing from an R3-1 District to an R2 District property bounded by: Hylan Boulevard, Oak Avenue, a line 165 feet southeasterly of Hylan Boulevard, a line 100 feet southwesterly of Maiden Place (between Hylan Boulevard and Primrose Place) and its southeasterly prolongation, Falcon Avenue, Penn Avenue, a line 100 feet southeasterly of Falcon Avenue, a line 120 feet southwesterly of Tysens Lane, Mill Road, Tysens Lane, Manila Avenue, Roberts Drive, Mill Road, Guyon Avenue, Riga Street, Adelaide Avenue, Lynn Street, a line 95 feet southwesterly of Guyon Avenue, Falcon Avenue, Guyon Avenue, Tarrytown Avenue, Adelaide Avenue, Medina Street, and Isabella Avenue, as shown on a diagram (for illustrative purposes only) dated June 20, 2005.

INTENT

To amend the Zoning Map, Section Nos. 27b and 34a.

Report Summary:

COMMITTEE ACTION

DATE: November 15, 2005

The Committee recommends that the Council approve the attached resolution and thereby approve the decision of the City Planning Commission.

In connection herewith, Council Members Katz and Avella offered the following resolution:

Res. No. 1250

Resolution approving the decision of the City Planning Commission on ULURP No. C 050180 ZMR, a Zoning map change (L.U. No. 547).

By Council Members Katz and Avella

WHEREAS, the City Planning Commission filed with the Council on October 21, 2005 its decision dated October 19, 2005 (the "Decision"), on the application submitted by Council Members James S. Oddo and Andrew L Lanza, pursuant to Sections 197-c and 201 of the New York City Charter, for an amendment to the Zoning Map (UEURP No. C 050180 ZMR) (the "Application");

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d(b)(l) of the City Charter;

WHEREAS, upon due notice, the Council held a public hearing on the Decision and Application on November 14, 2005;

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Decision and Application; and

WHEREAS, the Council has considered the relevant environmental issues and the Negative Declaration, issued on June 20, 2005 (CEQR No. 05DCP036R);

RESOLVED:

The Council finds that the action described herein will have no significant effect on the environment.

Pursuant to Sections 197-d and 200 of the City Charter and on the basis of the Decision and Application, the Council approves the Decision.

The Zoning Resolution of the City of New York, effective as of December 15, 1961, and as subsequently amended, is further amended by changing the Zoning Map, Section Nos. 27B and 34a, changing from an R3-1 District to an R2 District property bounded by: Hylan Boulevard, Oak Avenue, a line 165 feet southeasterly of Hylan Boulevard, a line 100 feet southwesterly of Maiden Place (between Hylan Boulevard and Primrose Place) and its southeasterly prolongation, Falcon Avenue, Penn Avenue, a line 100 feet southeasterly of Falcon Avenue, a line 120 feet southwesterly of Tysens Lane, Mill Road, Tysens Lane, Manila Avenue, Roberts Drive, Mill Road, Guyon Avenue, Riga Street, Adelaide Avenue, Lynn Street, a line 95 feet southwesterly of Guyon Avenue, Falcon Avenue, Guyon Avenue, Tarrytown Avenue, Adelaide Avenue, Medina Street, and Isabella Avenue, as shown on a diagram (for illustrative purposes only) dated June 20, 2005, Community District 3, Borough of Staten Island.

MELINDA R. KATZ, Chairperson; BILL PERKINS, MICHAEL C. NELSON, CHRISTINE C. QUINN, TONY AVELLA, LEROY G. COMRIE, SIMCHA FELDER, ERIC N. GIOIA, G. OLIVER KOPPELL, MIGUEL MARTINEZ, MICHAEL E. McMAHON, HIRAM MONSERRATE, JAMES SANDERS, JR., LARRY B. SEABROOK, ALBERT VANN, VINCENT J. GENTILE, ANDREW J. LANZA, Committee on Land Use, November 15, 2005.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

Report for L.U. No. 559

Report of the Committee on Land Use in favor of approving Application no. 20065051 HAM, an Urban Development Action Area Project located at 306 West 115th Street, Council District no. 9, Borough of Manhattan. This matter is subject to Council review and action pursuant to Article 16 of the New York General Municipal Law, at the request of the New York City Department of Housing Preservation and Development.

The Committee on Land Use to which was referred on August 17, 2005 (Minutes, page 4274) the annexed Land Use resolution respectfully

REPORTS:

INTENT

HPD requests that the Council:

1. Find that the present status of the Disposition Areas tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes of Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3. Waive the requirements of Sections *197-c* and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law;

4. Approve the projects as Urban Development Action Area Projects pursuant to Section 694 of the General Municipal Law; and

5. Approve an exemption of the projects from real property taxes pursuant to Section 696 of the General Municipal Law for L.U. Nos. 598, 612 and 613.

Report Summary:

COMMITTEE ACTION

DATE: November 15, 2005

The Committee recommends that the Council approve the attached resolution and thereby approve the proposals, grant the requests made by the Department of Housing Preservation and Development, and make the findings required by Article 16 of the General Municipal Law.

In connection herewith, Council Members Katz and Martinez offered the following resolution:

Res. No. 1251

Resolution approving an Urban Development Action Area Project located at 306 West 115th Street (Block 1848/Lot 21), Manhattan, and waiving the urban development action area designation requirement and the Uniform Land Use Review Procedure, pursuant to Sections 693 and 694 of the General Municipal Law (L.U. No. 559; 20065051 HAM).

By Council Members Katz and Martinez

WHEREAS, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council on August 15, 2005 its request dated August 1, 2005 that the Council take the following actions regarding an Urban Development Action Area Project (the "Project") located at 306 West 115th Street (Block 1848/Eot 21), Community District 10, Borough of Manhattan (the "Disposition Area"):

1. Find that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes of Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3. Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law; and

4. Approve the Project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law.

WHEREAS, the Project is to be developed on land that is now an eligible area as defined in Section 692 of the General Municipal Law, consists solely of the rehabilitation or conservation of existing private or multiple dwellings or the construction of one to four unit dwellings, and does not require any change in land use permitted under the New York City Zoning Resolution;

WHEREAS, upon due notice, the Council held a public hearing on the Project on November 14,2005;

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Project;

RESOLVED:

The Council finds that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the City of New York and that a designation of the Project as an urban development action area project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law.

The Council waives the area designation requirement of the Disposition Area as an urban development action area under Section 693 of the General Municipal Law pursuant to said Section.

The Council waives the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law.

The Council approves the Project as an urban development action area project pursuant to Section 694 of the General Municipal Law.

The Project shall be disposed of and developed upon the terms and conditions in the Project Summary that HPD has submitted to the Council, a copy of which is attached hereto.

Report for L.U. No. 595

Report of the Committee on Land Use in favor of approving Application no. 20065065 HAK, an Urban Development Action Area Project known as MacBain Development, located in Community Board 16, Council Districts no. 37 and 41, Borough of Brooklyn.

The Committee on Land Use to which was referred on September 28, 2005 (Minutes, page 4707) the annexed Land Use resolution respectfully

REPORTS:

(For text of report, please see the Report of the Committee on Land Use for L.U. No. 559 printed in these Minutes.)

In connection herewith, Council Members Katz and Martinez offered the following resolution:

Res. No. 1252

Resolution approving an Urban Development Action Area Project located at 2063 Fulton Street (Block 1542/Lot 69), 2174 Fulton Street (Block 1552/Lot 20), 2206 Fulton Street (Block 1552/Lot 40), 2074 Dean Street (Block

1446/Lot 11), Brooklyn, and waiving the urban development action area designation requirement and the Uniform Land Use Review Procedure, pursuant to Sections 693 and 694 of the General Municipal Law (L.U. No. 595; 20065065 HAK).

By Council Members Katz and Martinez

WHEREAS, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council on September 14, 2005 its request dated September 1, 2005 that the Council take the following actions regarding an Urban Development Action Area Project (the "Project") located at 2063 Fulton Street (Block 1542/Lot 69), 2174 Fulton Street (Block 1552/Lot 20), 2206 Fulton Street (Block 1552/Lot 40), 2074 Dean Street (Block 1446/Lot 11), Community District 16, Borough of Brooklyn (the "Disposition Area"):

1. Find that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes of Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3. Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law; and

4. Approve the Project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law.

WHEREAS, the Project is to be developed on land that is now an eligible area as defined in Section 692 of the General Municipal Law, consists solely of the rehabilitation or conservation of existing private or multiple dwellings or the construction of one to four unit dwellings, and does not require any change in land use permitted under the New York City Zoning Resolution;

WHEREAS, upon due notice, the Council held a public hearing on the Project on November 14,2005;

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Project;

RESOLVED:

The Council finds that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the City of New York and that a designation of the Project as an urban development action area project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law.

The Council waives the area designation requirement of the Disposition Area as an urban development action area under Section 693 of the General Municipal Law pursuant to said Section.

The Council waives the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law.

The Council approves the Project as an urban development action area project pursuant to Section 694 of the General Municipal Law.

The Project shall be disposed of and developed upon the terms and conditions in the Project Summary that HPD has submitted to the Council, a copy of which is attached hereto.

REPORTS:

(For text of report, please see the Report of the Committee on Land Use for L.U. No. 559 printed in these Minutes.)

In connection herewith, Council Members Katz and Martinez offered the following resolution:

Res. No. 1253

Resolution approving an Urban Development Action Area Project located at 314 West 115th Street (Block 1848/Lot 25), Manhattan, and waiving the urban development action area designation requirement and the Uniform Land Use Review Procedure, pursuant to Sections 693 and 694 of the General Municipal Law (L.U. No. 597; 20065067 HAM).

By Council Members Katz and Martinez

WHEREAS, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council on September 14, 2005 its request dated September 1, 2005 that the Council take the following actions regarding an Urban Development Action Area Project (the "Project") located at 314 West 115th Street (Block 1848/Lot 25), Community District 10,Boroughof Manhattan (the "Disposition Area"):

1. Find that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes of Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3. Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law; and

4. Approve the Project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law.

WHEREAS, the Project is to be developed on land that is now an eligible area as defined in Section 692 of the General Municipal Law, consists solely of the rehabilitation or conservation of existing private or multiple dwellings or the construction of one to four unit dwellings, and does not require any change in land use permitted under the New York City Zoning Resolution;

WHEREAS, upon due notice, the Council held a public hearing on the Project on November 14,2005;

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Project;

RESOLVED:

The Council finds that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the City of New York and that a designation of the Project as an urban development action area project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law.

The Council waives the area designation requirement of the Disposition Area as an urban development action area under Section 693 of the General Municipal Law pursuant to said Section.

The Council waives the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law.

The Council approves the Project as an urban development action area project pursuant to Section 694 of the General Municipal Law.

The Project shall be disposed of and developed upon the terms and conditions in the Project Summary that HPD has submitted to the Council, a copy of which is attached hereto.

REPORTS:

(For text of report, please see the Report of the Committee on Land Use for L.U. No. 559 printed in these Minutes.)

In connection herewith, Council Members Katz and Martinez offered the following resolution:

Res. No. 1254

Resolution approving an Urban Development Action Area Project located at 2 Convent Avenue (Block 1967/Lot 72), 4 Convent Avenue (Block 1967/Lot 172), 12 Convent Avenue (Block 1967/Lot 75), and 456 West 152 Street (Block 2066/Lot 25), Manhattan, and waiving the urban development action area designation requirement and the Uniform Land Use Review Procedure, pursuant to Sections 693 and 694 of the General Municipal Law (L.U. No. 598; 20065068 HAM).

By Council Members Katz and Martinez

WHEREAS, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council on September 14, 2005 its request dated September 1, 2005 that the Council take the following actions regarding the following Urban Development Action Area Project (the "Project") located at 2 Convent Avenue (Block 1967/Lot 72), 4 Convent Avenue (Block 1967/Lot 172), 12 Convent Avenue (Block 1967/Lot 75), and 456 West 152 Street (Block 2066/Lot 25), Borough of Manhattan (the "Project Area"):

1. Find that the present status of the Project Area tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3. Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law;

4. Approve the Project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law; and

5. Approve the exemption of the Project Area from real property taxes pursuant to Section 696 of the General Municipal Law (the "Tax Exemption").

WHEREAS, the Project is to be developed on land that *is* now an eligible area as defined in Section 692 of the General Municipal Law, consists solely of the rehabilitation or conservation of existing private or multiple dwellings or the construction of one to four unit dwellings, and does not

WHEREAS, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council on September 14, 2005 its request dated September 1, 2005 that the Council take the following actions regarding the following Urban Development Action Area Project (the "Project") located at 2 Convent Avenue (Block 1967/Lot 72), 4 Convent Avenue (Block 1967/Lot 172), 12 Convent Avenue (Block 1967/Lot 75), and 456 West 152 Street (Block 2066/Lot 25), Borough of Manhattan (the "Project Area"):

1. Find that the present status of the Project Area tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3. Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law;

4. Approve the Project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law; and

5. Approve the exemption of the Project Area from real property taxes pursuant to Section 696 of the General Municipal Law (the "Tax Exemption").

WHEREAS, the Project is to be developed on land that *is* now an eligible area as defined in Section 692 of the General Municipal Law, consists solely of the rehabilitation or conservation of existing private or multiple dwellings or the construction of one to four unit dwellings, and does not for local improvements and land value, for a period often years commencing on the July 1st following the conveyance of the Project Area to the Sponsor.

b. The partial tax exemption granted hereunder shall terminate with respect to all or any portion of the Project Area if the Department of Housing Preservation and Development determines that such real property has not been, or is not being, developed, used, and/or operated in compliance with the requirements of all applicable agreements made by the Sponsor or the owner of such real property with, or for the benefit of, the City of New York. The Department of Housing Preservation and Development shall deliver written notice of any such determination of noncompliance to the owner of such real property and all mortgagees of record, which notice shall provide for an opportunity to cure of not less than ninety (90) days. If the noncompliance specified in such notice is not cured within the time period specified therein, the partial tax exemption granted hereunder shall prospectively terminate with respect to the real property specified therein.

REPORTS:

SUBJECT

STATEN ISLAND CB-3 **C 050145 ZMR**

City Planning Commission decision approving an application submitted by Andrew J. Lanza, pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section Nos. 26d, 27b, 33c, 34a, changing

from an R3-1 District to an R3X District property bounded by: Amboy Road, Fairbanks Avenue, North Railroad Avenue and its northeasterly centerline prolongation, Willowbrook Parkway, the centerline of the New York City Railroad right-of-way (S.I.R.T.O.A.), Emmet Avenue and its northwesterly centerline prolongation, South Railroad Avenue, Buffalo Street, Twombly Avenue, Emmet Avenue, South Railroad Avenue and its northeasterly centerline prolongation, Willowbrook Parkway, the northeasterly centerline prolongation of Hooper Avenue, Emmet Avenue, O' German Avenue, a line 100 feet southwesterly of Buffalo Street, Durant Avenue, Buffalo Street, Emmet Avenue, Thollen Street, Hopkins Avenue, Durant Avenue, Justin Avenue, a line 350 feet southeasterly of Durant Avenue, Bay Terrace, South Railroad Avenue, Kelvin Avenue, O'Gorman Avenue, Justin Avenue, South Railroad Avenue, Spratt Avenue and its southeasterly centerline prolongation, Amboy Road, Hopkins Avenue, Sheridan Court, and Buffalo Street, within the Special South Richmond Development District, as shown on a diagram (for illustrative purposes only) dated June 20, 2005.

INTENT

To amend the Zoning Map, Section Nos. 26d, 27b, 33c, 34a.

Report Summary:

COMMITTEE ACTION

DATE: November 15, 2005

The Committee recommends that the Council approve the attached resolution and thereby approve the decision of the City Planning Commission.

In connection herewith, Council Members Katz and Avella offered the following resolution:

Res. No. 1255

Resolution approving the decision of the City Planning Commission on ULURP No. C 050145 ZMR, a Zoning Map change (L.U. No. 611).

By Council Members Katz and Avella

WHEREAS, the City Planning Commission filed with the Council on October 21, 2005 its decision dated October 19, 2005 (the "Decision"), on the application submitted by Council Member Andrew J. Lanza, pursuant to Sections 197-c and 201 of the New York City Charter, for an amendment to the Zoning Map (ULURP No. C 050145 ZMR) (the "Application");

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d(b)(l) of the City Charter;

WHEREAS, upon due notice, the Council held a public hearing on the Decision and Application on November 14, 2005;

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Decision and Application; and

WHEREAS, the Council has considered the relevant environmental issues and the Negative Declaration, issued on June 20, 2005 (CEQR No. 05DCP027R);

RESOLVED:

The Council finds that the action described herein will have no significant effect on the environment.

Pursuant to Sections 197-d and 200 of the City Charter and on the basis of the Decision and Application, the Council approves the Decision.

The Zoning Resolution of the City of New York, effective as of December 15, 1961, and as subsequently amended, is further amended by changing the Zoning Map, Section Nos. 26d, 27b, 33c, 34b, changing from an R3-1 District to an *R3X* District property bounded by: Amboy Road, Fairbanks Avenue, North Railroad Avenue and its northeasterly centerline prolongation, Willowbrook Parkway, the centerline of the New York City Railroad right-of-way (S.I.R.T.O.A.), Emmet Avenue and its northwesterly centerline prolongation, South Railroad Avenue, Buffalo Street, Twombly Avenue, Emmet Avenue, South Railroad Avenue and its northeasterly centerline prolongation, Willowbrook Parkway, the northeasterly centerline prolongation of Hooper Avenue, Emmet Avenue, O'Gorman Avenue, a line 100 feet southwesterly of Buffalo Street, Durant Avenue, Buffalo Street, Emmet Avenue, Thollen Street, Hopkins Avenue, Durant Avenue, Justin Avenue, a line 350 feet southeasterly of Durant Avenue, Bay Terrace, South Railroad Avenue, Kelvin Avenue, O'Gorman Avenue, Justin Avenue, South Railroad Avenue, Spratt Avenue and its southeasterly centerline prolongation, Amboy Road, Hopkins Avenue, Sheridan Court, and Buffalo Street, within the Special South Richmond Development District, as shown on a diagram (for illustrative purposes only) dated June 20, 2005, Community District 3, Borough of Staten Island.

MELINDA R. KATZ, Chairperson; BILL PERKINS, MICHAEL C. NELSON, CHRISTINE C. QUINN, TONY AVELLA, LEROY G. COMRIE, SIMCHA FELDER, ERIC N. GIOIA, G. OLIVER KOPPELL, MIGUEL MARTINEZ, MICHAEL E. McMAHON, HIRAM MONSERRATE, JAMES SANDERS, JR., LARRY B. SEABROOK, ALBERT VANN, VINCENT J. GENTILE, ANDREW J. LANZA, Committee on Land Use, November 15, 2005.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

Report for L.U. No. 612

Report of the Committee on Land Use in favor of approving Application no. 20065086 HAK, an Urban Development Action Area Project located at 193 Classon Avenue and 223A Monroe Street, Council Districts no. 35 and 36, Borough of Brooklyn.

The Committee on Land Use to which was referred on October 27, 2005 (Minutes, page 5037) the annexed Land Use resolution respectfully

REPORTS:

(For text of report, please see the Report of the Committee on Land Use for L.U. No. 559 printed in these Minutes.)

In connection herewith, Council Members Katz and Martinez offered the following resolution:

Res. No. 1256

Resolution approving an Urban Development Action Area Project located at 193 Classon Avenue (Block 1896/Lot 103) and 223A Monroe Street (Block 1813/Lot 80), Brooklyn, and waiving the urban development action area designation requirement and the Uniform Land Use Review Procedure, pursuant to Sections 693 and 694 of the General Municipal Law (L.U. No. 612; 20065086 HAK).

By Council Members Katz and Martinez

WHEREAS, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council on October 14, 2005 its request dated September 26,2005 that the Council take the following actions regarding the following Urban Development Action Area Project (the "Project") located at 193 Classon Avenue (Block 1896/Lot 103) and 223 A Monroe Street (Block 1813/Lot 80), Community District 3, Borough of Brooklyn (the "Disposition Area"):

1. Find that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3. Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law;

4. Approve the Project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law; and

5. Approve the exemption of the Project from real property taxes pursuant to Section 696 of the General Municipal Law (the "Tax Exemption").

WHEREAS, the Project is to be developed on land that is now an eligible area as defined in Section 692 of the General Municipal Law, consists solely of the rehabilitation or conservation of existing private or multiple dwellings or the construction of one to four unit dwellings, and does not require any change in land use permitted under the New York City Zoning Resolution;

WHEREAS, upon due notice, the Council held a public hearing on the Project on November 14,2005;

WHEREAS, the Council has considered the land use and financial implications and other policy issues relating to the Project;

RESOLVED:

The Council finds that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the City of New York and that a designation of the Project as an urban development action area project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law.

The Council waives the area designation requirement pursuant to Section 693 of the General Municipal Law.

The Council waives the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law.

The Council approves the Project as an urban development action area project pursuant to Section 694 of the General Municipal Law.

The Project shall be developed in a manner consistent with the Project Summary that HPD has submitted to the Council, a copy of which is attached hereto.

The exemption of the Project from real property taxes pursuant to Section 696 of the General Municipal Law is approved as follows:

a. All of the value of the buildings, structures, and other improvements situated on the Disposition Area shall be exempt from local and municipal taxes, other than assessments for local improvements and land value, for a period of ten years commencing on the date of the conveyance of the Disposition Area to the Sponsor.

b. The partial tax exemption granted hereunder shall terminate with respect to all or any portion of the Disposition Area if the Department of Housing Preservation and Development determines that such real property has not been, or is not being, developed, used, and/or operated in compliance with the requirements of all applicable agreements made by the Sponsor or the owner of such real property with, or for the benefit of, the City of New York. The Department of Housing Preservation and Development shall deliver written notice of any such determination of noncompliance to the owner of such real property and all mortgagees of record, which notice shall provide for an opportunity to cure of not less than ninety (90) days. If the noncompliance specified in such notice is not cured within the time period specified therein, the partial tax exemption granted hereunder shall prospectively terminate with respect to the real property specified therein.

Res. No. 1257

Resolution approving an Urban Development Action Area Project located at 12 Marconi Place (Block 1565/Lot 30), 23 Somers Street (Block 138/Lot 58), 420 Chauncey Street (Block 1515/Lot 27), 1248 Herkimer Street (Block 1566/Lot 21), 1895 Bergen Street (Block 1446/Lot 64), 1923 Bergen Street (Block 1446/Lot 52), 1930 Bergen Street (Block 1452/Lot 40), 2079 Pacific Street (Block 1432/Lot 59), and 2085 Pacific Street (Block 1432/Lot 56), Brooklyn, and waiving the urban development action area designation requirement and the Uniform Land Use Review Procedure, pursuant to Sections 693 and 694 of the General Municipal Law (L.U. No. 613; 20065087 HAK).

By Council Members Katz and Martinez

WHEREAS, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council on October 14,2005 its request dated September 26,2005 that the Council take the following actions regarding the following Urban Development Action Area Project (the "Project") located at 12 Marconi Place (Block 1565/Lot 30), 23 Somers Street (Block 1538/Lot 58), 420 Chauncey Street (Block 1515/Lot 27), 1248 Herkimer Street (Block 1566/Lot 21), 1895 Bergen Street (Block 1446/Lot 64), 1923 Bergen Street (Block 1446/Lot 52), 1930 Bergen Street (Block 1452/Lot 40), 2079 Pacific Street (Block 1432/Lot 59), and 2085 Pacific Street (Block 1432/Lot 56), Community District 16, Borough of Brooklyn (the "Disposition Area"):

1. Find that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3. Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law;

4. Approve the Project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law; and

5. Approve the exemption of the Project from real property taxes pursuant to Section 696 of the General Municipal Law (the "Tax Exemption").

WHEREAS, the Project is to be developed on land that is now an eligible area as defined in Section 692 of the General Municipal Law, consists solely of the rehabilitation or conservation of existing private or multiple dwellings or the construction of one to four unit dwellings, and does not require any change in land use permitted under the New York City Zoning Resolution;

WHEREAS, upon due notice, the Council held a public hearing on the Project on November 14,2005;

WHEREAS, the Council has considered the land use and financial implications and other policy issues relating to the Project;

RESOLVED:

The Council finds that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the City of New York and that a designation of the Project as an urban development action area project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law.

The Council waives the area designation requirement pursuant to Section 693 of the General Municipal Law.

The Council waives the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law.

The Council approves the Project as an urban development action area project pursuant to Section 694 of the General Municipal Law.

The Project shall be developed in a manner consistent with the Project Summary that HPD has submitted to the Council, a copy of which is attached hereto.

The exemption of the Project from real property taxes pursuant to Section 696 of the General Municipal Law is approved as follows:

a. All of the value of the buildings, structures, and other improvements situated on the Disposition Area shall be exempt from local and municipal taxes, other than assessments for local improvements and land value, for a period of ten years commencing on the date of the conveyance of the Disposition Area to the Sponsor.

b. The partial tax exemption granted hereunder shall terminate with respect to all or any portion of the Disposition Area if the Department of Housing Preservation and Development determines that such real property has not been, or is not being, developed, used, and/or operated in compliance with the requirements of all applicable agreements made by the Sponsor or the owner of such real property with, or for the benefit of, the City of New York. The Department of Housing Preservation and Development shall deliver written notice of any such determination of noncompliance to the owner of such real property and all mortgagees of record, which notice shall provide for an opportunity to cure of not less than ninety (90) days. If the noncompliance specified in such notice is not cured within the time period specified therein, the partial tax exemption granted hereunder shall prospectively terminate with respect to the real property specified therein.

Res. No. 1258

Resolution approving the decision of the City Planning Commission on ULURP No. M 050272 ZMK (L.U. No. 617), for the modification of a Restrictive Declaration, to facilitate the development of a storage facility (UG 16) in C7 and C3 Districts, Brooklyn.

By Council Members Katz and Avella

WHEREAS, the City Planning Commission filed with the Council on October 21, 2005 its decision dated October 19, 2005 (the "Decision") on the application submitted by Knapp Street Entertainment Center, Inc., for the modification of a Restrictive Declaration, which was previously approved in connection with an application for a Zoning Map amendment (CP-21725), to remove Block 8833, Lot 200, from among the properties subject to the conditions of the Declaration to facilitate the development of a storage facility (Use Group 16) on property located at 2461 Knapp Street (Block 8833, Lot 200), in C7 and C3 Districts, Community District 15, Borough of Brooklyn (UEURP No. M 050272 ZMK) (the "Application");

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d(b)(l) of the City Charter;

WHEREAS, the subject application is a request by Knapp Street Entertainment Center, Inc., to modify a Restrictive Declaration as it relates to *Tax* Block 8833, Lot 200 so as to permit an alternative development;

WHEREAS, upon due notice, the Council held a public hearing on November 14, 2005 on the Decision and Application;

WHEREAS, the Council has considered the relevant environmental issues and the Negative Declaration issued on May 5, 2005 (CEQR No. 05BSA079K);

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Decision and Application;

RESOLVED:

The Council finds that the action described herein will have no significant effect on the environment.

Pursuant to Sections 197-d and 200 of the New York City Charter and on the basis of the Decision and Application, the Council approves the Decision.

MELINDA R. KATZ, Chairperson; BILL PERKINS, MICHAEL C. NELSON, CHRISTINE C. QUINN, TONY AVELLA, LEROY G. COMRIE, SIMCHA FELDER, ERIC N. GIOIA, G. OLIVER KOPPELL, MIGUEL MARTINEZ, MICHAEL E. McMAHON, HIRAM MONSERRATE, JAMES SANDERS, JR., LARRY B. SEABROOK, ALBERT VANN, VINCENT J. GENTILE, ANDREW J. LANZA, Committee on Land Use, November 15, 2005.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

Report for L.U. No. 618

Report of the Committee on Land use in favor of approving Uniform Land Use Review Procedure application no. 060053 ZRK, pursuant to §197-c and §197-d of the New York City Charter, concerning changes to the zoning map, Borough of Brooklyn, Council District nos. 38 and 39.

The Committee on Land use to which was referred on October 27, 2005 (Minutes, page 5039) the annexed Land use resolution respectfully

REPORTS:

SUBJECT

BROOKLYN CB-7 N 060053 ZRK

City Planning Commission decision approving an application submitted by the Department of City Planning pursuant to Section 201 of the New York City Charter, for amendments to the Zoning Resolution of the City of New York, relating to Article II, Chapter 3 (Bulk Regulations for Residential Buildings in Residence Districts), Article II, Chapter 4 (Bulk Regulations for Community Facility Buildings in Residence Districts), and Article III, Chapter 5 (Bulk Regulations for Mixed Buildings in Commercial Districts), to permit an Exclusionary Housing bonus in specified areas within Community District 7.

INTENT

To permit an Inclusionary Housing bonus in certain areas in Community District No.7.

Report Summary:

COMMITTEE ACTION

DATE: November 15, 2005

The Committee recommends that the Council approve the attached resolution and thereby approve the decision of the City Planning Commission.

In connection herewith, Council Members Katz and Avella offered the following resolution:

Res. No. 1259

Resolution approving the decision of the City Planning Commission on Application No. N 060053 ZRK, for amendments to the text of the Zoning Resolution of the City of New York relating to Article II, Chapter 3 (Bulk Regulations for community Facility Buildings in Residence Districts), Article III, Chapter 5 (Bulk Regulations for Mixed Buildings in Commercial Districts), to permit an Inclusionary Housing bonus in specified areas within Community District 7 in Brooklyn (L.U. No. 618).

By Council Members Katz and Avella

WHEREAS, the City Planning Commission filed with the Council on October 21, 2005 its decision dated October 19, 2005 (the "Decision"), on the application submitted by the Department of City Planning, pursuant to Section 201 of the New York City Charter, for amendments to the text of the Zoning Resolution of the City of New York (Application No. N 060053 ZRK) (the "Application");

WHEREAS, the Application is related to ULURP Application Number C 060054 ZMK (E.U. No. 619), an amendment to the Zoning Map to rezone all or portions of fifty blocks in the Brooklyn neighborhoods of Park Slope South, Greenwood Heights and Windsor Terrace from R5 and R6 districts to R5B, R6B, R6A, C4-3A and R8A districts;

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d(b)(l) of the City Charter;

WHEREAS, upon due notice, the Council held a public hearing on the Decision and Application on November 14, 2005;

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Decision and Application; and

WHEREAS, the Council has considered the relevant environmental issues and the Negative Declaration, issued on August 22, 2005, which included (E) designations for hazardous materials, air quality and noise (CEQR No. 06DCP014K);

RESOLVED:

The Council finds that the action described herein will have no significant effect on the environment;

Pursuant to Sections *191-d* and 200 of the City Charter and on the basis of the Decision and Application the Council approves the Decision; and

The Zoning Resolution of the City of New York, effective as of December 15, 1961, and as subsequently amended, is further amended as follows:

Matter in underline is new, to be added;

Matter in ~~strikeout~~ is old, to be deleted;

Matter in # # is defined in Section 12-10;

* * * indicates where unchanged text appears in the Zoning Resolution

23-145

For residential buildings developed or enlarged pursuant to the Quality Housing Program

R6 R7 R8 R9 R10

In the districts indicated, the maximum #lot coverage# and the maximum #floor area ratio# for any #residential building# on a #zoning lot developed# or #enlarged# pursuant to the Quality Housing Program shall be as set forth in the following table and the maximums for #developments#, or #enlargements# where permitted, located within 100 feet of a #wide street# in R6, R7 or R8 Districts without a letter suffix outside the #Manhattan Core#, shall be as designated by the same district with an asterisk. In an R6 District inside the #Manhattan Core# located within 100 feet of a #wide street#, the maximums shall be indicated by the same district with a double asterisk.

MAXIMUM LOT COVERAGE AND FAR
FOR
QUALITY HOUSING BUILDINGS
(in percent)

District	#Corner Lot #	#Interior Lot# or #Through Lot#	Maximum#Floor Area Ratio#
R6	80	60	2.20
R6**	80	60	2.43
R6*R6A R7B	80	65	3.00
R6B	80	60	2.00
R7	80	65	3.44
R7* R7A	80	65	4.00
R7X	80	70	5.00
R8 R8A R8X	80	70	6.02
R8*	80	70	7.20
R8B	80	70	4.00
R9 R9A	80	70	7.52
R9X	80	70	9.00
R10	100	70	10.00

However, the #floor area ratios# in the table in this Section shall be modified in certain R6, ~~and~~ R7 and R8A Districts within Community Districts 1 and 7 in the Borough of Brooklyn, as specified in Section 23-942 (In Community Districts 1 and 7, Borough of Brooklyn).

* * *

23-922
Community Districts 1 and 7, Borough of Brooklyn

The Inclusionary Housing Program shall apply in the following areas:

(a) In the following areas of Community District 1, in the Borough of Brooklyn, located
north of the Williamsburg Bridge, Washington Plaza, Borinquen Place and Grand Street:

(a1) Waterfront Access Plan BK-1, as set forth in Section 62-352;

(b2) all #Special Mixed Use Districts#;

(c3) all R6A, R6B and R7A Districts; and

(d4) the following R6 areas:

(1i) the #block# bounded by Havemeyer Street, North Sixth Street, Metropolitan Avenue and North Fifth Street;

(2ii) the #block# bounded by Roebling Street, North Fifth Street, Havemeyer
Street and Metropolitan Avenue;

(3iii) those #blocks# bounded by Wythe Avenue, Grand Street, Berry Street and
South Third Street;

(4iv) those #blocks# and portions of #blocks# bounded by Bedford Avenue,
North 1st Street, Driggs Street, Fillmore Place, Roebling Street, and a line coincident with the centerline of the long dimension of the #blocks# bounded by Bedford Avenue, Grand Street, Roebling Street and South First Street; and

(5v) that portion of the #block# bounded by Franklin Street, Huron Street,
Manhattan Avenue and India Street that is within 100 feet of Franklin Street and 100 feet of India Street.

(b) In Community District 7, in the Borough of Brooklyn, in all R8A districts.

23-93
Definitions
For the purposes of the Inclusionary Housing program, matter in italics is defined either in
Section 12-10 (DEFINITIONS) or in this Section.

Administering agent

The "administering agent" is the entity or entities identified in the #lower income housing plan#
as responsible for ensuring compliance with such plan.

The #administering agent# shall be a not-for-profit organization, unless the Commissioner of Housing Preservation and Development finds that a good faith effort by the developer of the #compensated development# to secure a qualified not-for-profit organization as the #administering agent# was unsuccessful, or, in Community District 1, Borough of Brooklyn, if the #floor area# of the #standard units# comprising the #lower income housing# constitutes less than half of the total #residential floor area# or community facility #floor area# used as a not-for profit institution with sleeping accommodations in the #building#. However, in Community District 7, Borough of Brooklyn, the Commissioner may approve an entity that is responsible for compliance monitoring pursuant to city, state, or federal funding sources, to serve as the #administering agent# during such compliance period.

* * *

Fair rent

At initial occupancy of #lower income housing#, "fair rent" (the "Section 8 Standard") is an annual rent for each such housing equal to not more than either the public assistance shelter allowance if the #family# receives public assistance, or 30 percent of the annual income of the tenant of such housing, provided that such tenant is a #lower income household# at the time of initial occupancy pursuant to the provisions of this program.

Upon renewal of a lease for an existing tenant in #lower income housing#, #fair rent# (the "Rent Stabilization Standard") is not more than the then-current #fair rent# for such housing plus a percentage increase equal to the percentage increase for a renewal lease of the same term permitted by the Rent Guidelines Board for units subject to the rent stabilization law.

After initial occupancy, upon rental of #lower income housing# to a new tenant, #fair rent# is not
more than the higher of:

(a) the then-currently applicable "Section 8 Standard"; or

(b) the Rent Stabilization Standard.

In order for rent to be #fair rent#, the following must also apply:

There shall be no additional charge to the tenant for the provision of heat and electric service, except that the Commissioner of Housing Preservation and Development may approve a #lower income housing plan# making a #lower income household# responsible for the payment of utilities as long as the sum of:

(1) the initial #fair rent#; and

the monthly costs of a reasonable compensation for these utilities, by an energy conservative household of modest circumstances consistent with the requirements of a safe, sanitary and healthful living environment do not exceed 30 percent of said #lower income household's# income.

However, in Community Districts 1 and 7, Borough of Brooklyn, the Commissioner of Housing Preservation and Development may determine that rents satisfying the requirements of City, State or Federal programs assisting #lower income housing# will be considered #fair rent#, provided that such rents do not exceed 30 percent of #lower income household's# income, as applicable, and provided further that upon expiration or termination of the requirements of the City, State or Federal program, rent increases and re-rentals shall be subject to the higher of the then-currently applicable Section 8 Standard or the Rent Stabilization Standard.

At initial occupancy of any #lower income housing#, no portion of the #fair rents# shall be for the payment of the principal or interest on any debt, and the #lower income housing# shall not secure any debt and shall be free of all liens, except liens for real estate taxes, water charges and sewer rents and other governmental charges for which payment is not yet due. #Fair rents# may be used for the payment of principal or interest of debt only if such debt was incurred after the date of initial occupancy and is for a capital improvement to such #lower income housing# other than those capital improvements set forth in the #lower income housing plan#.

In Community Districts 1 and 7, Borough of Brooklyn, at initial occupancy of any #lower income housing#, a portion of the #fair rents# may be for the payment of

the principal or interest on debt, and such housing may secure debt, provided that, as of the date of the approval of the #lower income housing plan#, the Commissioner of Housing Preservation and Development finds that the total annual rent, when such interest and principal payments are deducted, is in compliance with the requirements of Section 23-95, paragraph(c), and provided that the lender agrees to enter into a written agreement which subordinates such debt to the provisions of the #lower income housing plan#.

Lower income household

A "lower income household" is a #family# having an income equal to or less than the income limits (the "80 Percent of SMSA Limits") for New York City residents established by the U.S. Department of Housing and Urban Development pursuant to Section 3(b)(2) of the United States Housing Act of 1937, as amended, for lower income families receiving housing assistance payments.

In Community Districts 1 and 7, Borough of Brooklyn, #lower income households# shall also include all existing households in tenancy, provided such households occupy units that are within a #building# in which rents for all occupied units are regulated by City or State law, and the aggregate maximum permitted annual rent roll for such occupied units, divided by the number of occupied units, is less than 30 percent of the applicable income limit for a #lower income household# as provided in this Section. In determining the applicable income limit for such #lower income households#, the Commissioner of Housing Preservation and Development may make adjustments, consistent with U. S. Department of Housing and Urban Development regulations, for the number of persons residing in each unit.

Lower income housing

"Lower income housing" are #standard units# occupied or to be occupied by #lower income households#. #Lower income housing# shall not include #standard units# assisted under city, state or federal programs, except where such assistance is in the form of:

(a) real estate tax abatements and exemptions which are specifically limited to the #lower income housing#; or

(b) operating assistance that the Commissioner of the Department of Housing Preservation and Development determines will be used to enable households with incomes of not more than 62.5 percent of the "80 Percent of SMSA Limits" to afford such #lower income housing#.

However, in Community Districts 1 and 7, Borough of Brooklyn, #lower income housing# shall include #standard units# assisted under City, State or Federal programs.

* * *

23-942
In Community Districts 1 and 7, Borough of Brooklyn

The provisions of this Section 23-942 shall apply in the designated areas set forth in Section 23-
922, except within Waterfront Access Plan BK-1.

The #floor area# of a #development# or #enlargement# may not exceed the base #floor area ratio# set forth in the table below, except that such #floor area# may be increased by one and one-quarter square feet for each square foot of #floor area# provided for #lower income housing#, up to the maximum #floor area ratio# specified in the table in this Section. However, in Community District 7, Borough of Brooklyn, the amount of #lower income housing# required to receive such bonus #floor area# need not exceed 20 percent of the total #floor area#, exclusive of ground floor non-#residential floor area#, in the #building#.

District	Base #floor area ratio#	Maximum #floor area ratio#
R6B	2.0	
R6*	2.2	
R6	2.42	
R6A	2.7	3.6
R6**	2.7	3.6
R7A	3.45	4.6
R8A	5,4	72

* for #zoning lots#, or portions thereof, beyond 100 feet of a #wide street#

** for #zoning lots#, or portions thereof, within 100 feet of a #wide street#

In addition, the following rules shall apply:

(a) The compensated #building# must be #developed# or #enlarged# pursuant to the Quality Housing Program or, in #Special Mixed Use Districts#, pursuant to paragraph (b) of Section 123-662; and

(b) The #lower income housing# must be provided in accordance with the provisions set forth in Section 23-95 (Lower Income Housing Requirements).

23-95
Lower Income Housing Requirements

* * *

(f) Permits and certificates of occupancy

No building permit for the #compensated development# shall be issued until the Commissioner of Housing Preservation and Development certifies that an acceptable #lower income housing plan# has been filed and approved.

No temporary certificate of occupancy shall be issued for any part of the #compensated development# until a temporary certificate of occupancy for each unit of #lower income housing# has been issued or, in Community District 7, Borough of Brooklyn, if the #building# has a valid certificate of occupancy and no new certificate of occupancy is required under the preservation option, until the Commissioner has certified to the Department of Buildings that the applicant has fulfilled its obligations with respect to the #lower income housing#. No permanent certificate of occupancy shall be issued for any part of the #compensated development# until a permanent certificate of occupancy for each unit of the #lower income housing# has been issued or, in Community District 7, Borough of Brooklyn, if the #building# has a valid certificate of occupancy and no new certificate of occupancy is required under the preservation option, until the Commissioner has certified to the Department of Buildings that the applicant has fulfilled its obligations with respect to the #lower income housing#. Prior to the issuance of any temporary or permanent certificate of occupancy for the #compensated development#, the Commissioner of Housing Preservation and Development shall certify that the #lower income housing# is in compliance with the #lower income housing plan#.

(g) Insurance

The #administering agent# of the #lower income housing# shall have said housing insured against any damage or destruction in an amount equal to no less than the replacement value of such housing.

Any insurance proceeds received as a result of damage or destruction of all or part of such housing shall be used first for restoring such damaged or destroyed housing to #lower income housing#, free of violations under the New York City Building Code, the New York State Multiple Dwelling Law, the New York City Housing Maintenance Code and this Resolution. However, in Community Districts 1 and 7, Borough of Brooklyn, the Commissioner of Housing Preservation and Development may modify this requirement to provide priority for lenders participating in the financing of #lower income housing# that is assisted under City, State or Federal programs.

* * *

23-951
On-site new construction option

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(a) The #lower income housing# shall be located in newly constructed #floor area# in the
#compensated development#. The #lower income housing# shall be maintained and leased to #lower income households# for the life of the increased #floor area#.

(b) #Dwelling units# designated as #lower income housing# shall be distributed throughout the #development#. No #story# shall contain more than two such units unless at least 80 percent of all #stories# contain two such units. The size of the designated #lower income housing# units shall at least be distributed among the various size units in proportion to the total distribution of unit size within the #building# in the following categories of unit sizes:

under 600 net square feet
600 - 749 net square feet
750 - 949 net square feet
950 - 1149 net square feet
1150 or more net square feet

In Community District 1, Borough of Brooklyn, the requirements of this paragraph, (b), may be waived by the Commissioner of Housing Preservation and Development to facilitate the #development# of #lower income housing#.

In Community District 7, Borough of Brooklyn, if the #lower income housing# is subject to the requirements of city, state or federal programs assisting the #lower income housing# that have size and distribution requirements conflicting with the size and distribution requirements of this paragraph, (b), then the size and distribution requirements of this paragraph, (b), may be waived by the Commissioner of Housing Preservation and Development to facilitate the #development# of #lower income housing#.

23-952
Substantial rehabilitation and off-site new construction options

To qualify for one or more of these options, the designated #lower income housing# shall meet the following requirements:

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

(2) within an adjacent Community District and within a one-half mile radius of the #compensated development#, except that #lower income housing# located within a one-half mile radius of a #compensated development# in Community District 1, Borough of Brooklyn, shall be located in an adjacent Community District in the Borough of Brooklyn.

For the new construction option the #lower income housing# shall be in a new #building#. For the substantial rehabilitation options, the #lower income housing# shall be in an existing #building# in which, prior to the submission of the #lower income housing plan# pursuant to this Section, any #residential# portion not in public ownership had been entirely vacant for not less than three years.

Furthermore, in Community Districts 1 and 7, Borough of Brooklyn, the #administering agent# shall not be required to verify the income of households in tenancy, as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

(b) The #lower income housing# shall be maintained and leased to #lower income households# for the life of the increased #floor area#.

(c) On-site substantial rehabilitation units shall be those units on the same #zoning lot# as the #compensated development#.

23-953
Preservation option

To qualify for this option, the designated #lower income housing# shall meet the following requirements.

(a) The #lower income housing# shall be located either:

(1) within the same Community District as the #compensated development#; or

within an adjacent Community District and within a one-half mile radius of the #compensated development#, except that #lower income housing# located within a one-half mile radius of a #compensated development# in Community District 1, Borough of Brooklyn, shall be located in an adjacent Community District in the Borough of Brooklyn.

The #lower income housing# shall be in an existing occupied #residential# or #mixed building#. Only #standard units# occupied by #lower income households# shall be #lower income housing#. For each #standard unit# designated as #lower income housing# the #administering agent# shall verify the income of the household in tenancy.

Furthermore, in Community Districts 1 and 7, Borough of Brooklyn, the #administering agent# shall not be required to verify the income of households in tenancy, as of the date upon which the Commissioner of Housing Preservation and Development approves the #lower income housing plan#.

* * *

24-161
Maximum floor area ratio for zoning lots containing community facility and residential

Uses

R1 R2 R3-1 R3A R3X R4-1 R4A R4B R6A R6B R7-2 R7A R7B R7X R8 R9 R10

In the districts indicated, for #zoning lots# containing #community facility# and #residential uses#, the maximum #floor area ratio# permitted for a #community facility use# shall be as set forth in Section 24-11, inclusive, and the maximum #floor area ratio# permitted for a #residential use# shall be as set forth in Article II, Chapter 3, provided the total of all such #floor area ratios# does not exceed the greatest #floor area ratio# permitted for any such #use# on the #zoning lot#.

The following rules shall apply in the designated areas set forth in Section 23-922 (Community Districts 1 and 7, Borough of Brooklyn):

(a) The provisions of this Section 24-161 shall apply in the following areas of Community District 1, Borough of Brooklyn:

(1) those portions of #blocks# bounded by a line 82 feet west of Franklin Street, a line 100 feet north of Freeman Street, a line 100 feet west of Franklin Street, Freeman Street, Franklin Street, and Eagle Street, and

(2) those #blocks# and portions of #blocks# bounded by Berry Street, North 5th Street, a line 100 feet southeasterly of Havemeyer Street, North 6th Street, Havemeyer Street, North 7th Street, Roebling Street, North 8th Street, Driggs Avenue, North 9th Street, a line 100 feet southeasterly of Bedford Avenue, North 11th Street, Union Avenue, Richardson Street, Leonard Street, Bayard Street, Graham Avenue, Driggs Avenue, North 12th Street, a line midway between Bedford Avenue and Berry Street, and North 10th Street.

(b) In the designated areas set forth in Section 23-922 (Community Districts 1 and 7, Borough of Brooklyn), except as set forth in paragraph (a) above and except within Waterfront Access Plan BK-1, the #floor area ratios# of Section 23-942 shall apply where the #residential# portion of a #building# is #developed# or #enlarged# pursuant to the Quality Housing Program.

* * *

35-31
Maximum Floor Area Ratio for Mixed Buildings

C1 C2 C3 C4 C5 C6

In all districts, except as set forth in Section 35-311, the provisions of this Section shall apply to any #zoning lot# containing a #mixed building#.

The maximum #floor area ratio# permitted for a #commercial# or #community facility use# shall be as set forth in Article III, Chapter 3, and the maximum #floor area ratio# permitted for a #residential use# shall be as set forth in Article II, Chapter 3, provided the total of all such #floor area ratios# does not exceed the greatest #floor area ratio# permitted for any such #use# on the #zoning lot#. However, in C4-7 Districts within Community District 7 in the Borough of Manhattan, such maximum #residential floor area ratio# may be increased pursuant to the provisions of Section 23-90 (INCLUSIONARY HOUSING).

In Community District 7, Borough of Manhattan, the maximum #floor area ratio# permitted for a #residential use# set forth in Article II, Chapter 3 may be increased pursuant to the provisions of Section 23-90 (INCLUSIONARY HOUSING).

The following rules shall apply in the designated areas set forth in Section 23-922 (Community Districts 1 and 7, Borough of Brooklyn):

(a) The provisions of this Section 35-31 shall apply in the following areas of Community District 1, Borough of Brooklyn:

(1) those portions of #blocks# bounded by a line 82 feet west of Franklin Street, a line 100 feet north of Freeman Street, a line 100 feet west of Franklin Street, Freeman Street, Franklin Street, and Eagle Street, and

(2) those #blocks# and portions of #blocks# bounded by Berry Street, North 5th Street, a line 100 feet southeasterly of Havemeyer Street, North 6th Street, Havemeyer Street, North 7th Street, Roebling Street, North 8th Street, Driggs Avenue, North 9th Street, a line 100 feet southeasterly of Bedford Avenue, North 11th Street, Union Avenue, Richardson Street, Leonard Street, Bayard Street, Graham Avenue, Driggs Avenue, North 12th Street, a line midway between Bedford Avenue and Berry Street, and North 10th Street.

(b) In the designated areas set forth in Section 23-922 (Community Districts 1 and 7, Borough of Brooklyn), except as set forth in paragraph (a) above, and except within Waterfront Access Plan BK-1, the #floor area ratios# of Section 23-942 shall apply where the #residential# portion of a #building# is #developed# or #enlarged# pursuant to the Quality Housing Program.

Report for L.U. No. 619

Report of the Committee on Land Use in favor of approving Uniform Land Use Review Procedure application no. 060054 ZMK, pursuant to §197-c and §197-d of the New York City Charter, concerning changes to the zoning map, Borough of Brooklyn, Council District no. 38 and 39.

The Committee on Land Use to which was referred on October 27, 2005 (Minutes, page 5039) the annexed Land Use resolution respectfully

REPORTS:

SUBJECT

BROOKLYN CB-7 **C 060054 ZMK**

City Planning Commission decision approving an application submitted by the Department of City Planning pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section No. 16d.

INTENT

To amend Zoning Map, Section No. 16d.

Report Summary:

COMMITTEE ACTION

DATE: November 15, 2005

The Committee recommends that the Council approve the attached resolution and thereby approve the decision of the City Planning Commission.

In connection herewith, Council Members Katz and Avella offered the following resolution:

Res. No. 1260

Resolution approving the decision of the City Planning Commission on ULURP No. C 060054 ZMK, a Zoning Map change (L.U. No. 619).

By Council Members Katz and Avella

WHEREAS, the City Planning Commission filed with the Council on October 21, 2005 its decision dated October 19, 2005 (the "Decision"), on the application submitted by the Department of City Planning, pursuant to Sections 197-c and 201 of the New York City Charter, for an amendment to the Zoning Map (ULURP No. C 060054 ZMK) (the "Application");

WHEREAS, the Application is related to Application Number N 060053 ZRK (L.U. No. 618), an amendment to the text of the Zoning Resolution, Article 2, Chapter 3, to apply the Inclusionary Housing program to the proposed R8A districts on Fourth Avenue;

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d(b)(l) of the City Charter;

WHEREAS, upon due notice, the Council held a public hearing on the Decision and Application on November 14, 2005;

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Decision and Application; and

WHEREAS, the Council has considered the relevant environmental issues and the Negative Declaration, issued on August 22, 2005, which included (E) designations for hazardous materials, air quality and noise (CEQR No. 06DCP014K);

RESOLVED:

The Council finds that the action described herein will have no significant effect on the environment.

Pursuant to Sections 197-d and 200 of the City Charter and on the basis of the Decision and Application, the Council approves the Decision.

The Zoning Resolution of the City of New York, effective as of December 15, 1961, and as subsequently amended, is further amended by changing the Zoning Map, Section No. 16d,

1. eliminating from an existing R5 District a C2-3 District bounded by:

a. 16th Street, a line 100 feet southeasterly of 7th Avenue, Prospect Avenue, and 7th Avenue; and

b. 16th Street, Prospect Park West, 18th Street, and a line 150 feet northwesterly of Prospect Park West;

2. eliminating from an existing R5B District a C2-3 District bounded by:

a. 16th Street, a line 150 feet southeasterly of Prospect Park West. Windsor Place, and Prospect Park West; and

b. Prospect Avenue, a line 150 feet southeasterly of Prospect Park West, 18th Street, and Prospect Park West;

3. eliminating from an existing R6 District a Cl-3 District bounded by:

a. 21st Street, a line 150 feet southeasterly of 4th Avenue, 24th Street, and 4th Avenue;

b. 15th Street, a line 150 feet southeasterly of 5th Avenue, Prospect Avenue, and a line 150 feet northwesterly of 5th Avenue; and

c. Prospect Expressway, a line 100 feet southeasterly of 5th Avenue, 17th Street, a line 150 feet southeasterly of 5th Avenue, 23rd Street, a line 150 feet northwesterly of 5th Avenue, 17th Street, and 5th Avenue;

4. eliminating from an existing R6 District a C2-3 District bounded by:

a. 15th Street, a line 100 feet southeasterly of 3rd Avenue, a line 80 feet northeasterly of Prospect Avenue, a line 180 feet southeasterly of 3rd Avenue. Prospect Avenue, and 3rd Avenue;

b. 15th Street, a line 150 feet southeasterly of 4th Avenue, Prospect Avenue, and a line 100 feet northwesterly of 4th Avenue;

c. Prospect Expressway, a line 150 feet southeasterly of 4th Avenue, 20th Street, and 4th Avenue;

d. 23rd Street, 5th Avenue, 24th Street, and a line 150 feet northwesterly of 5th

Avenue;

e. 15th Street, a line 100 feet southeasterly of 7th Avenue, 16th Street, and 7th Avenue; and

f. Prospect Avenue, 7th Avenue, 17th Street, and a line 100 feet northwesterly of 7th Avenue;

5. changing from an R5 District an R5B District property bounded by 16th Street, 8th Avenue, Windsor Place, a line 400 feet southeasterly of 8th Avenue, 16th Street, Prospect Park West, 20th Street, a line 110 feet northwesterly of Prospect Park West, a line midway between 19th Street and 20th Street, a line 175 feet northwesterly of Prospect Park West, 19th Street, 7th Avenue, Prospect Avenue, and a line 100 feet southeasterly of 7th Avenue;

6. changing from an R5 District to an R6A District property bounded by 16th Street, a line 100 feet southeasterly of 7th Avenue, Prospect Avenue, and 7th Avenue;

7. changing from an R6 District to an R5B District property bounded by 15th Street, a line 100 feet northwesterly of 7th Avenue, 16th Street, 7th Avenue, Prospect Avenue, and a line 100 feet southeasterly of 6th Avenue;

8. changing from an R6 District to an R6A District property bounded by:

a. 15th Street, a line 100 feet southeasterly of 3rd Avenue, Prospect Avenue, and 3rd Avenue;

b. Prospect Expressway, a line 100 feet southeasterly of 5th Avenue, 24th Street, and a line 100 feet northwesterly of 5th Avenue; and

c. 15th Street, a line 100 feet southeasterly of 7th Avenue, 16th Street, and a line 100 feet northwesterly of 7th Avenue;

9. changing from an R6 District to an R6B District property bounded by:

a. 15th Street, a line 100 feet northwesterly of 4th Avenue, Prospect Avenue, and a line 100 feet southeasterly of 3rd Avenue;

b. 15th Street, a line 100 feet northwesterly of 5th Avenue, 24th Street, and a line 100 feet southeasterly of 4th Avenue;

c. 15th Street, a line 100 feet southeasterly of 6th Avenue, Prospect Avenue, 7th Avenue, 23rd Street, 6th Avenue, 24th Street, and a line 100 feet southeasterly of 5th Avenue; and

d. 15th Street, a line 100 feet westerly of Bartel Pritchard Square, a line 100 feet northwesterly of Prospect Park West, 16th Street, a line 400 feet southeasterly of 8th Avenue, Windsor Place, 8th Avenue, 16th Street, and a line 100 feet southeasterly of 7th Avenue;

10. changing from an R6 District to an R8A District property bounded by 15th Street, a line 100 feet southeasterly of 4th Avenue, 24th Street, 4th Avenue, Prospect Avenue, and a line 100 feet northwesterly of 4th Avenue;

11. changing from an R6 District to a C4-3A District property bounded by 15th Street, a line 100 feet southeasterly of 5th Avenue, Prospect Expressway, and a line 100 feet northwesterly of 5th Avenue;

12. establishing within an existing R5B District a C2-4 District bounded by:

a. 16th Street, a line 100 feet southeasterly of Prospect Park West, Windsor Place, and Prospect Park West; and

b. Prospect Avenue, a line 100 feet southeasterly of Prospect Park West, 18th Street, and Prospect Park West;

13. establishing within an existing R8B District a C2-4 District bounded by 15th Street, Bartel Pritchard Square, Prospect Park Southwest, a line 100 feet southeasterly of Bartel Pritchard Square, a line 100 feet southeasterly of Prospect Park West, 16th Street, a line 100 feet northwesterly of Prospect Park West, and a line 100 feet easterly of Bartel Pritchard Square;

14. establishing within a proposed R5B District a C2-4 District bounded by 16th Street, Prospect Park West, 18th Street, and a line 100 feet northwesterly of Prospect Park West;

15. establishing within a proposed R6A District a C2-4 District bounded by:

a. 15th Street, a line 100 feet southeasterly of 3rd Avenue, Prospect Avenue, and 3rd Avenue;

b. Prospect Expressway, a line 100 feet southeasterly of 5th Avenue, 23rd Street, 5th Avenue, 24th Street, and a line 100 feet northwesterly of 5th Avenue; and

c. 15th Street, a line 100 feet southeasterly of 7th Avenue, Prospect Avenue, and 7th Avenue;

16. establishing within a proposed R6B District a C2-4 District bounded by:

a. a line 60 feet northeasterly of Prospect Avenue, a line 180 feet southeasterly of 3rd Avenue, Prospect Avenue, and a line 100 feet southeasterly of 3rd Avenue; and

b. Prospect Avenue, 7th Avenue, 17th Street, and a line 100 feet northwesterly of 7th Avenue; and

17. establishing within a proposed R8A District a C2-4 District bounded by:

a. 15th Street, a line 100 feet southeasterly of 4th Avenue, 20th Street, 4th Avenue, Prospect Avenue, and a line 100 feet northwesterly of 4th Avenue; and

b. 21 st Street, a line 100 feet southeasterly of 4th Avenue, 24th Street, and 4th Avenue; as shown on a diagram (for illustrative purposes only) dated August 22, 2005, and which includes CEQR Designation E-152, Community District 7, Borough of Brooklyn.

Report for L.U. No. 621

Report of the Committee on Land Use in favor of approving Uniform Land Use Review Procedure application no. C 050483 HAM, an Urban Development Action Area Designation, Project, and the disposition of such property located on site 34A in the Milbrank Frawley Circle East Urban Renewal Area, borough of Manhattan, Council District no. 8.

The Committee on Land Use to which was referred on October 27, 2005 (Minutes, page 5040) the annexed Land Use resolution respectfully

REPORTS:

SUBJECT

MANHATTAN CB – 11 **C 050483 HAM**

City Planning Commission decision approving an application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

a) the designation of property located at 1401, 1405, 1407, 1409, 1413 and 1415 Fifth Avenue (Block 1621, Lots 1, 3-4, 69, 70 and 72); 3 East 115th Street (Block 1621, Lot 5); 4, 6 and 8 East 116th Street (Block 1621, Lots 67-68, and 168), part of Site 34A within the Milbank Frawley Circle East Urban Renewal Area Urban Renewal Area, as an Urban Development Action Area (the "Area");

b) an Urban Development Action Area Project for such area (the "Project"); and

2) pursuant to Section 197-c of the New York City Charter for the disposition of such property to a developer selected by HPD.

INTENT

To facilitate development of three buildings, with approximately 110 residential units and retail space.

Report Summary:

COMMITTEE ACTION

DATE: November 15, 2005

The Committee recommends that the Council approve the attached resolution and thereby approve the disposition, designation and project, make the findings required by Article 16 of the General Municipal Law and approve the decision of the City Planning Commission.

In connection herewith, Council Members Katz and Martinez offered the following resolution:

Res. No. 1261

Resolution approving the decision of the City Planning Commission on an application submitted by the Department of Housing Preservation and Development, ULURP No. C 050483 HAM, approving the designation of 1401, 1405, 1407, 1409, 1413 and 1415 Fifth Avenue (Block 1621, Lots 1, 3-4, 69, 70 and 72); 3 East 115th Street (Block 161, Lot 5); 4, 6 and 8 East 116th Street (Block 1621, Lots 67-68, and 168), part of Site 34A within the Milbank Frawley Circle East Urban Renewal Area Urban Renewal Area, Manhattan, as an Urban Development Action Area, approving the project for the area as an Urban Development Action Area Project, and approving the disposition of such property to a developer selected by the Department of Housing Preservation and Development (L.U. No. 621; C 050483 HAM).

By Council Members Katz and Martinez

WHEREAS, the City Planning Commission filed with the Council on October 25, 2005 its decision dated October 19, 2005 (the "Decision"), on the application submitted by the Department of Housing Preservation and Development pursuant to Section 197-c of the New York City Charter and Article 16 of the General Municipal Law of New York State regarding:

a) the designation of 1401, 1405, 1407, 1409, 1413 and 1415 Fifth Avenue (Block 1621, Lots 1, 3-4, 69, 70 and 72); 3 East 115th Street (Block 1621, Lot 5); 4, 6 and 8 East 116th Street (Block 1621, Lots 67-68, and 168), part of Site 34A within the Milbank Frawley Circle East Urban Renewal Area Urban Renewal Area, as an Urban Development Action Area (the "Area");

b) an Urban Development Action Area Project for such area (the "Project"); and

pursuant to Section 197-c of the New York City Charter for the disposition of such property to a developer selected by the Department of Housing Preservation and Development to facilitate development of three separate buildings containing 110 dwelling units for middle and low-income residents and retail space, to be developed under the Housing Development Corporation's New Housing Opportunities Program (the "Disposition"), Community District 11, Borough of Manhattan (ULURP No. C 050483 HAM) (the "Application");

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d(b)(1) of the City Charter;

WHEREAS, the Council has considered the relevant environmental review (CEQR No. 05HPD004M) and the fact that a negative declaration was issued on December 7, 2004;

WHEREAS, the Application and Decision are subject to review and action by the Council pursuant to Article 16 of the General Municipal Law of New York State;

WHEREAS, the New York City Department of Housing Preservation and Development ("HPD") submitted to the Council its recommendations regarding the Application on September 22, 2005;

WHEREAS, upon due notice, the Council held a public hearing on the Application and Decision on November 14, 2005;

WHEREAS, the Council has considered the land use and financial implications and other policy issues relating to the Application;

RESOLVED:

The Council finds that the action described herein will have no significant impact on the environment; and

Pursuant to Section 197-d, the Council approves the decision of the City Planning Commission (C 050483 HAM).

The Council finds that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the City of New York and that a designation of the Project as an urban development action area project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law.

The Council approves the designation of the Disposition Area as an urban development action area pursuant to Section 693 of the General Municipal Law.

The Council approves the Project as an urban development action area project pursuant to Section 694 of the General Municipal Law.

The Council approves the disposition of said property to developer selected by the Department of Housing Preservation and Development.

MELINDA R. KATZ, Chairperson; BILL PERKINS, MICHAEL C. NELSON, CHRISTINE C. QUINN, TONY AVELLA, LEROY G. COMRIE, SIMCHA FELDER, ERIC N. GIOIA, G. OLIVER KOPPELL, MIGUEL MARTINEZ, MICHAEL E. McMAHON, HIRAM MONSERRATE, JAMES SANDERS, JR., LARRY B. SEABROOK, ALBERT VANN, VINCENT J. GENTILE, ANDREW J. LANZA, Committee on Land Use, November 15, 2005.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

Reports of the Committee on Public Safety

Report for Int. No. 343-A

Report of the Committee on Public Safety in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to increasing the fines for the offense of failing to yield the right of way to emergency vehicles en route to an emergency.

The Committee on Public Safety to which was referred on April 21, 2004 (Minutes, page 1767) the annexed amended proposed local law respectfully

REPORTS:

I. BACKGROUND

Under state Vehicle and Traffic Law (VTL) § 1144, "upon the immediate approach of an authorized emergency vehicle;" the driver of every other vehicle "shall yield the right of way and shall immediately drive to a position parallel to, and as close as possible to the right-hand edge or curb of any roadway...and shall stop and remain in such position until the authorized emergency vehicle has passed."[34]

An "authorized emergency vehicle" is defined in the VTL as "every ambulance, police vehicle or bicycle, correction vehicle, fire vehicle, civil defense emergency vehicle, emergency ambulance service vehicle, blood delivery vehicle, county emergency medical services vehicle, environmental emergency response vehicle, sanitation patrol vehicle, hazardous materials emergency vehicle and ordnance disposal vehicle of the armed forces of the United States."[35]

Any person convicted of a violation of this section "shall for a first conviction thereof be punished by a fine of not more than one hundred fifty dollars or by imprisonment for not more than fifteen days or by both such fine and imprisonment; for a conviction of a second violation both of which were committed within a period of eighteen months, such person shall be punished by a fine of not more than three hundred dollars or by imprisonment for not more than forty-five days or by both such fine and imprisonment; upon a conviction of a third or subsequent violation, all of which were committed within a period of eighteen months, such person shall be punished by a fine of not more than four hundred fifty dollars or by imprisonment for not more than ninety days or by both such fine and imprisonment."[36]

Despite these penalties, numerous drivers fail to yield to emergency vehicles, as reflected in a WCBS-TV news report in 2003.[37] Over the course of two days and nights, the WCBS-TV reporter lost count of the number of pedestrians and cars who "defied wailing ambulances to get to where they were going."[38] The reporter also saw "taxis that stopped to drop off fares rather than make room for a speeding ambulance."[39] This report reflects similar behavior by drivers in other parts of the state.[40]

II. PROPOSED INTRO 343-A

Proposed Intro 343-A makes the offense of failing to yield to an emergency vehicle a misdemeanor, and "for a first conviction [of this local law, a person shall] be punished by a fine of not more than three hundred dollars or by imprisonment for not more than thirty days or by both such fine and imprisonment; for a conviction of a second violation, both of which were committed within a period of ten years, such person shall be punished by a fine of not more than six hundred dollars or by imprisonment for not more than ninety days or by both such fine and imprisonment; upon a conviction of a third or subsequent violation, all of which were committed within a period of ten years, such person shall be punished by a fine of not more than nine hundred dollars or by imprisonment for not more than one-hundred eighty days or by both such fine and imprisonment."

This local law shall take effect immediately.

(The following is the Fiscal Impact Statement for Int. No. 343-A:)

(The following is the Fiscal Impact Statement for Int. No. 139-A:)

FISCAL IMPACT STATEMENT:

	Effective FY 06	FY Succeeding Effective FY 07	Full Fiscal Impact FY 06
Revenues (+)	$0	$0	$0
Expenditures (-)	$0	$0	$0
Net	$0	$0	$0

IMPACT ON REVENUES: The positive impact on revenues from increased criminal penalties in any given fiscal year as a result of the enactment of this legislation would be de minimus.

IMPACT ON EXPENDITURES: There would be no impact on expenditures resulting from the enactment of this legislation.

SOURCE OF FUNDS To COVER ESTIMATED COSTS: Not applicable

SOURCE OF INFORMATION: City Council Finance Division

ESTIMATE PREPARED BY: Andy Grossman, Assistant Director, City Council Finance Division Andrew D. Lenney, City Council Finance Division

HISTORY: Considered by the Committee on June 24, 2004.

Amended version 343-A to be considered by the Committee on October 31, 2005.

DATE SUBMITTED TO COUNCIL: Initially introduced on April 21, 2004 as Int. 343.

Accordingly, Your Committee recommends its adoption, as amended.

Int. No. 343-A

By Council Members Vallone Jr., Clarke, Fidler, Foster, Gennaro, Gentile, Gerson, Nelson, Reed, Rivera, Sanders Jr., Sears and Weprin

A LOCAL LAW to amend the administrative code of the city of New York, in relation to increasing the fines for the offense of failing to yield the right of way to emergency vehicles en route to an emergency.

Be it enacted by the Council as follows:

Section 1. Legislative findings and intent. Traffic congestion in New York presents an ongoing problem to emergency services. Emergency vehicles en route to an emergency are often forced to contend with stubbornly apathetic drivers who refuse to yield the right of way.

State law currently sets the fine schedule for consecutive traffic infractions. The density of the population in New York City, however, increases not only automobile congestion, but also the number of emergency situations that arise and the scale of the response required to address many emergencies, thus posing a risk to public safety and health. Drivers who are unwilling to yield the roadway for emergency vehicles obstruct not only emergency vehicles, but also other drivers who attempt to yield the roadway. Many of the city's roadways are narrow enough that one such unwilling driver has the ability to obstruct completely the progress of an emergency vehicle.

The City Council, in an effort to protect those in emergency situations by opening up the city's streets to emergency vehicles, creates a new section of the administrative code that increases the fines for failing to yield the right of way for an emergency vehicle.

§ 2. Chapter one of title 10 of the administrative code of the city of New York is amended to add a new section 10-164, to read as follows:

§10-164 Operation of vehicles on approach of authorized emergency vehicles.

a. Upon the immediate approach of an authorized emergency vehicle, as defined in the vehicle and traffic law, equipped with at least one lighted lamp exhibiting red light visible under normal atmospheric conditions from a distance of five hundred feet to the front of such vehicle other than a police vehicle or bicycle when operated as an authorized emergency vehicle, and when audible signals are sounded from any said vehicle by siren, exhaust whistle, bell, air-horn or electronic equivalent; the driver of every other vehicle shall yield the right of way and shall immediately drive to a position parallel to, and as close as possible to the right-hand edge or curb of the roadway, or to either edge of a one-way roadway three or more lanes in width, clear of any intersection, and shall stop and remain in such position until the authorized emergency vehicle has passed, unless otherwise directed by a police officer or other authorized employee of the police department.

b. Any person who violates the provisions of this section shall be guilty of a misdemeanor, and for a first conviction thereof shall be punishable by a fine of not more than three hundred dollars or by imprisonment for not more than thirty days or by both such fine and imprisonment; for a conviction of a second violation, both of which were committed within a period of ten years, a person shall be punishable by a fine of not more than six hundred dollars or by imprisonment for not more than ninety days or by both such fine and imprisonment; upon a conviction of a third or subsequent violation, all of which were committed within a period of ten years, a person shall be punishable by a fine of not more than nine hundred dollars or by imprisonment for not more than one-hundred eighty days or by both such fine and imprisonment.

§ 3. This local law shall take effect immediately.

PETER F. VALLONE, Chairperson; ERIK MARTIN DILAN, HELEN D. FOSTER, MELINDA R. KATZ, HIRAM MONSERRATE, DAVID YASSKY, Committee on Public Safety, October 31, 2005.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

Report for Int. No. 528-A

Report of the Committee on Public Safety in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to proscribing certain conduct at major venue sporting events.

The Committee on Public Safety to which was referred on December 15, 2004 (Minutes, page 5608) the annexed amended proposed local law respectfully

REPORTS:

At today's hearing, the Committee will consider a bill that makes it illegal to engage in certain conduct at major venue sporting events.

Background

A. Local Law 61 of 2003

On October 20, 2003, the Mayor signed Local Law 61 of 2003, which created a new section 10-162 of the administrative code involving interference with a professional sporting event. Under this law, any person who "knowingly enters or remains unlawfully upon the playing area of a professional sporting event shall be guilty of a misdemeanor punishable by imprisonment of not more than one year, a fine of not more than one thousand dollars, or both." Under the law, a "sports participant" is an "umpire, referee, player, coach, manager, security employee, groundskeeper, stadium operations employee, or any other sanctioned participant in which the professional sporting event is taking place." A "professional sporting event" is an "athletic competition or practice involving a professional team" and includes the period "from the opening of the venue's gates to the public, to the closing of the gates after the event." In addition to criminal penalties, the law also provides for civil penalties of up to $25,000.

B. First Prosecution Under Local Law 61 of 2003

The first prosecution under this new statute stemmed from a May 5, 2004 incident at Shea Stadium when, during a Mets game, a spectator ran onto the field carrying a sign that read: "Howard Stern, Here's Johnny".[41] In a plea deal several months later, the spectator agreed to serve eight weekends in prison in September and October of 2004, pay a $2,000 fine, and stay away from Shea Stadium for three years. Mets Vice President for Security Robert Kasdon believed that the sentence agreed to was the most severe penalty handed out for the disruption of a sporting event.[42]

C. November 2004 Detroit Pistons-Indiana Pacers Incident

In Detroit, Michigan on November 19, 2004, at a basketball game between the Detroit Pistons and the Indiana Pacers, a brawl ensued after a fan threw a cup of liquid at Ron Artest, a member of the Indiana Pacers, who then proceeded into the stands to confront the fan. Nine spectators were injured as a result of the melee.[43] Several players were suspended, and five players from the Indiana Pacers and five spectators were charged with misdemeanor assault and battery, including the spectator who threw the liquid-filled cup.[44]

Under the current provisions of section 10-162 of the administrative code, the spectator who started the melee by throwing the cup onto the court could not be charged for throwing the object onto the professional sporting venue because he did not enter upon or remain unlawfully on the court. Perhaps the fan could have been charged under Penal Law §240.20, disorderly conduct, or Penal Law §240.26, harassment; these statutes are violations and carry only up to fifteen days in prison.

Proposed Intro 528-A

Proposed Intro 528-A deletes the reference to professional sporting event, creates the new term "major venue sporting event," and repeals and reenacts subdivision b of section 10-162:

A "major venue sporting event" is defined as "an athletic competition or practice involving a professional team or an athletic competition or practice being conducted in a venue with a permanent seating capacity of more than five thousand."

It shall be illegal for any person other than a sports participant to knowingly enter or remain unlawfully upon the playing area of a major venue sporting event.

It shall be illegal for any person other than a sports participant to subject a sports participant to contact by means of any substance, object or dangerous instrument during a major venue sporting event, or attempt to do so, with the intent to cause physical injury to a sports participant during a major venue sporting event or with the intent to disrupt a major venue sporting event.

It shall be illegal for any person other than a sports participant to place, drop, toss or hurl any substance, object or dangerous instrument onto the playing area of a major venue sporting event, or attempt to do so, with the intent to cause physical injury to a sports participant during a major venue sporting event or with the intent to disrupt a major venue sporting event.

It shall be illegal for any person other than a sports participant to strike, slap, kick or otherwise subject to physical contact a sports participant during a major venue sporting event, or to attempt to do so, with the intent to cause physical injury to a sports participant during a major venue sporting event or with the intent to disrupt a major venue sporting event.

[44] Peters and Robbins, *5 Pacers and 5 Fans Are Charged in Fight*, New York Times, December 9, 2004.

The criminal penalties are set forth as follows:

Any person who knowingly enters or remains unlawfully upon the playing area of a major venue sporting event shall be guilty of a misdemeanor punishable by imprisonment of not more than one year, a fine of not more than one thousand dollars, or both.

Any person who uses a dangerous instrument when subjecting a sports participant to contact shall be guilty of a misdemeanor punishable by imprisonment of not more than one year or a fine of not more than one thousand dollars, or both. Any person who uses any substance or object other than a dangerous instrument shall be guilty of a misdemeanor punishable by imprisonment of not more than ninety days or a fine of not more than five hundred dollars, or both.

Any person who places, drops, tosses or hurls any dangerous instrument onto the major venue sporting event venue shall be guilty of a misdemeanor punishable by imprisonment of not more than one year or a fine of not more than one thousand dollars, or both. Any person who places, drops, tosses or hurls any substance or object other than a dangerous instrument shall be guilty of a misdemeanor punishable by imprisonment of not more than ninety days or a fine of not more than five hundred dollars, or both.

Any person who strikes, slaps, kicks or otherwise subjects to physical contact a sports participant during a major venue sporting event shall be guilty of a misdemeanor punishable by imprisonment of not more than one year or a fine of not more than one thousand dollars, or both.

Civil penalties are set forth as follows:

Any person who knowingly enters or remains unlawfully upon the playing area or places, drops, tosses or hurls any substance, object or dangerous instrument onto the playing area shall be liable, to any person or entity injured or aggrieved by such action, for a civil penalty of not less than one thousand dollars and not more than five thousand dollars.

Any person who strikes, slaps, kicks or otherwise subjects to physical contact a sports participant during a major venue sporting event, or attempts to do so, shall be liable, to any person or entity injured or aggrieved by such action, for a civil penalty of not less than ten thousand dollars and not more than twenty-five thousand dollars.

This local law shall take effect 30 days after its enactment into law.

(The following is the Fiscal Impact Statement for Int. No. 528-A:)

FISCAL IMPACT STATEMENT:

	Effective FY 06	FY Succeeding Effective FY 07	Full Fiscal Impact FY 06
Revenues (+)	$0	$0	$0
Expenditures (-)	$0	$0	$0
Net	$0	$0	$0

IMPACT ON REVENUES: The positive impact on revenues from increased criminal and civil penalties in any given fiscal year as a result of the enactment of this legislation would be de minimus.

IMPACT ON EXPENDITURES: There would be no impact on expenditures resulting from the enactment of this legislation.

Int. No. 528-A

By Council Members Vallone Jr., Addabbo Jr., Fidler, Gennaro, Jennings, Katz, Koppell, Nelson, Recchia Jr., Rivera, Vann, Seabrook, Gentile and Liu

A Local Law to amend the administrative code of the city of New York, in relation to proscribing certain conduct at major venue sporting events.

Be it enacted by the Council as follows:

Section 1. Legislative intent and findings. Unruly behavior at professional sporting events, and at sporting events at major venues, has increased in recent years. In 2003, local law 61 was adopted to make it illegal to enter the playing area of a professional sporting event or to enter such area and assault or attempt to assault a professional sports participant. This local law, however, only penalizes the entering of the playing area or the assault or attempted assault of a professional sports participant after entering the playing area of the professional sporting event, but does not address the tossing or hurling of objects, substances or dangerous instruments onto the playing area of a sporting event, the tossing or hurling of an object, substance or dangerous instrument at a sports participant during a sporting event, or the assault or attempted assault of a professional sports participant from the viewing area of a sporting event.

The Council finds that tossing or hurling objects, substances or dangerous instruments onto the playing area of a professional sporting event, and at sporting events at major venues, may cause serious injury and may result in violence, particularly in a crowded venue during a sporting event. It is not the intent of this local law to penalize traditional fan participation in sports events, including but not limited to throwing a ball back onto the field after a home run, or the tossing of hats onto the rink after a hat trick in a hockey game. Rather, this local law is intended to address that behavior which is not part of a sports tradition but is intended to cause physical injury or disrupt an event.

§2. Subdivision a of section 10-162 of the administrative code of the city of New York, as added by local law number 61 for the year 2003, is amended to read as follows:

a. Definitions. For the purposes of this section, the following terms shall have the following meanings:

1. [Professional Sporting Event] *Major venue sporting event.* An athletic competition or practice involving a professional team *or an athletic competition or practice being conducted in a venue with a permanent seating capacity of more than five thousand.* The duration of [said] *such* competition or practice is to include the period from the opening of the venue's gates to the public, to the closing of the gates after the event.

2. Playing [Area] *area.* Any area designated for use by players, coaches, officials or other team or league personnel that is on, or adjacent to, the area of play during the period from the opening of the venue's gates to the public, to the closing of the gates after the event.

3. Sports [Participant] *participant.* An umpire, referee, player, coach, manager, security employee, groundskeeper, stadium operations employee, or any other sanctioned participant in which the major venue sporting event is taking place.

4. Dangerous instrument. Any instrument, article or substance which, under the circumstances in which it is used, attempted to be used or threatened to be used, is readily capable of causing death or other serious physical injury.

5. Substance. The term includes, but is not limited, to any liquid or saliva.

§3. Subdivision b of section 10-162 is REPEALED and REENACTED to read as follows:

b. Conduct prohibited. 1. It shall be illegal for any person other than a sports participant to knowingly enter or remain unlawfully upon the playing area of a major venue sporting event.

2. It shall be illegal for any person other than a sports participant to subject a sports participant to contact by means of any substance, object or dangerous instrument during a major venue sporting event, or attempt to do so, with the intent to cause physical injury to a sports participant during a major venue sporting event or with the intent to disrupt a major venue sporting event.

3. It shall be illegal for any person other than a sports participant to place, drop, toss or hurl any substance, object or dangerous instrument onto the playing area of a major venue sporting event, or attempt to do so, with the intent to cause physical injury to a sports participant during a major venue sporting event or with the intent to disrupt a major venue sporting event.

4. It shall be illegal for any person other than a sports participant to strike, slap, kick or otherwise subject to physical contact a sports participant during a major venue sporting event, or to attempt to do so, with the intent to cause physical

injury to a sports participant during a major venue sporting event or with the intent to disrupt a major venue sporting event.

§4. Section 10-162 of the administrative code is amended by adding new subdivisions c and d, to read as follows:

c. Criminal penalties.

1. Any person who knowingly enters or remains unlawfully upon the playing area of a major venue sporting event shall be guilty of a misdemeanor punishable by imprisonment of not more than one year, a fine of not more than one thousand dollars, or both.

2. Any person who uses a dangerous instrument when violating the provisions of paragraph two of subdivision b of this section shall be guilty of a misdemeanor punishable by imprisonment of not more than one year or a fine of not more than one thousand dollars, or both. Any person who violates the provisions of such paragraph by using any substance or object other than a dangerous instrument shall be guilty of a misdemeanor punishable by imprisonment of not more than ninety days or a fine of not more than five hundred dollars, or both.

3. Any person who uses a dangerous instrument when violating the provisions of paragraph three of subdivision b of this section shall be guilty of a misdemeanor punishable by imprisonment of not more than one year or a fine of not more than one thousand dollars, or both. Any person who violates the provisions of such paragraph by using any substance or object other than a dangerous instrument shall be guilty of a misdemeanor punishable by imprisonment of not more than ninety days or a fine of not more than five hundred dollars, or both.

4. Any person who violates the provisions of paragraph four of subdivision b of this section shall be guilty of a misdemeanor punishable by imprisonment of not more than one year or a fine of not more than one thousand dollars, or both.

d. Civil penalties.

1. Any person who violates the provisions of paragraph one or paragraph three of subdivision b of this section shall be liable, to any person or entity injured or aggrieved by such action, for a civil penalty of not less than one thousand dollars and not more than five thousand dollars.

2. Any person who violates the provisions of paragraph two or paragraph four of subdivision b of this section shall be liable, to any person or entity injured or aggrieved by such action, for a civil penalty of not less than ten thousand dollars and not more than twenty-five thousand dollars.

3. The civil penalties set forth in paragraphs one and two of this subdivision shall be in addition to any criminal penalties and/or sanctions that may be imposed, and such civil penalties shall not limit or preclude any cause of action available to any person or entity injured or aggrieved by such action.

§5. This local law shall take effect 30 days after its enactment into law.

PETER F. VALLONE, Chairperson; ERIK MARTIN DILAN, HELEN D. FOSTER, MELINDA R. KATZ, HIRAM MONSERRATE, DAVID YASSKY, Committee on Public Safety, October 31, 2005.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

Report for Int. No. 703-A

Report of the Committee on Public Safety in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to increasing civil penalties for damaging houses of religious worship or religious articles therein.

The Committee on Public Safety to which was referred on August 17, 2005 (Minutes, page 4248) the annexed proposed amended local law respectfully

REPORTS:

BACKGROUND:

Section 10-116 of the administrative code makes it illegal for any person to "willfully and without authority" break, deface, or otherwise damage "any house of religious worship or any portion thereof, or any appurtenances thereto, or any book, scroll, ark, furniture, ornaments, musical instrument… or any other chattel contained therein for use in connection with religious worship." A violation of this provision constitutes a misdemeanor punishable by imprisonment of not more than one year or by a fine of not more than two thousand five hundred nor less than five hundred dollars, or both. In addition, under the current statute, "any person violating this section shall be subject to a civil penalty not to exceed ten thousand dollars."

PROPOSED INTRO 703-A

Proposed Intro 703-A amends section 10-116 by indicating that "religious figures or religious monuments" are "appurtenances" covered by the law, and by increasing the civil penalty to "not less than ten thousand dollars and not more than twenty-five thousands dollars." The bill also indicates that the civil penalty is in addition to any criminal penalty that may be imposed, and that "such civil penalty shall not limit or preclude any cause of action available to any person or entity aggrieved by any of the acts prohibited by this section."

This local law shall take effect immediately upon its enactment into law.

(The following is the Fiscal Impact Statement for Int. No. 703-A:)

FISCAL IMPACT STATEMENT:

	Effective FY 06	FY Succeeding Effective FY 07	Full Fiscal Impact FY 06

Int. No. 703-A

By Council Members Oddo, Gallagher, Lanza, The Speaker (Council Member Miller), Addabbo Jr., Arroyo, Avella, Fidler, Gennaro, Gentile, Jackson, James, Martinez, McMahon, Nelson, Recchia Jr., Stewart, Vallone Jr., Weprin, Brewer, Clarke, Foster, Gerson, Gonzalez, Koppell, Liu, Perkins, Rivera, Sanders Jr., Vann and Reed

A Local Law to amend the administrative code of the city of New York, in relation to increasing civil penalties for damaging houses of religious worship or religious articles therein.

Be it enacted by the Council as follows:

Section 1. Section 10-116 of the administrative code of the city of New York, as amended by local law 70 of 1996, is amended to read as follows:

§ 10-116 Damaging houses of religious worship or religious articles therein prohibited. Any person who willfully and without authority breaks, defaces or otherwise damages any house of religious worship or any portion thereof, or any appurtenances thereto, *including religious figures or religious monuments*, or any book, scroll, ark, furniture, ornaments, musical instrument, article of silver or plated ware, or any other chattel contained therein for use in connection with religious worship, or any person who knowingly aids, abets, conceals or in any way assists any such person shall be guilty of a misdemeanor punishable by imprisonment of not more than one year or by a fine of not more than two thousand five hundred nor less than five hundred dollars, or both. In addition, any person violating this section shall

be subject to a civil penalty [not to exceed ten thousand dollars] *of not less than ten thousand dollars and not more than twenty-five thousand dollars. Such civil penalty shall be in addition to any criminal penalty or sanction that may be imposed, and such civil penalty shall not limit or preclude any cause of action available to any person or entity aggrieved by any of the acts prohibited by this section.*

§2. This local law shall take effect immediately upon its enactment into law.

PETER F. VALLONE, Chairperson; ERIK MARTIN DILAN, HELEN D. FOSTER, MELINDA R. KATZ, HIRAM MONSERRATE, DAVID YASSKY, Committee on Public Safety, October 31, 2005.

On motion of the Speaker (Council Member Miller), and adopted, the foregoing matter was coupled as a General Order for the day (see ROLL CALL ON GENERAL ORDERS FOR THE DAY).

GENERAL ORDER CALENDAR

Report for Int. No. 70-A

Report of the Committee on Sanitation and Solid Waste Management in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to requiring a recycling program for all rechargeable batteries.

The Committee on Sanitation and Solid Waste Management to which was referred on February 4, 2004 (Minutes, page 430) and originally reported to the Council on October 27, 2005 (Minutes, page 4956) the annexed amended proposed local law respectfully

REPORTS:

(For text of the report and amended bill, please see the Reports of the Committee on Sanitation and Solid Waste Management for Int. No. 70-A printed in the Minutes of the Stated Council Meeting of October 27, 2005, page .)

INTRODUCTION AND READING OF BILLS

Int. No. 744

By The Speaker (Council Member Miller)

A Local Law to amend the administrative code of the city of New York, in relation to technical amendments to section 24-163.1 of such code.

Be it enacted by the Council as follows:

Section 1. Paragraph two of subdivision d of section 24-163.1 of the administrative code of the city of New York is amended to read as follows:

(2) The city shall achieve the following minimum percentage increases in the average fuel economy of all light-duty vehicles purchased by the city during the following fiscal years, relative to the average fuel economy of all such vehicles purchased by the city during the fiscal year beginning July 1, 2004, calculated pursuant to paragraph one of this subdivision:

(i) For the fiscal year beginning July 1, 2006, five percent;

(ii) For the fiscal year beginning July 1, 2007, eight percent;

(iii) For the fiscal year beginning July 1, 2008, ten percent;

(iv) For the fiscal year beginning July 1, 2009, twelve percent;

(v) For the fiscal years beginning July 1, 2010[,] *and July 1, 2011* fifteen percent;

(vi) For the fiscal years beginning July 1, 2012, *July 1, 2013 and July 1, 2014* eighteen percent; and

(vii) For the fiscal year beginning July 1, 2015, and for each fiscal year thereafter, twenty percent.

§2. Subdivision g of section 24-163.1 of the administrative code of the city of New York is amended to read as follows:

g. This section shall not apply:

(1) where federal or state funding precludes the city from imposing the purchasing requirements of this section;

(2) to purchases that are emergency procurements pursuant to section three hundred fifteen of the charter; or

(3) except for subdivision f of this section, to diesel fuel-powered motor vehicles subject to *paragraph two of subdivision b of* section 24-163.4 of this chapter.

§3. This local law shall take effect immediately upon its enactment.

Referred to the Committee on Environmental Protection.

Int. No. 745

By The Speaker (Council Member Miller)

A Local Law to amend the New York city charter, in relation to the applicability of local law number 86 for the year 2005.

Be it enacted by the Council as follows:

Section 1. Subdivision h of section 224.1 of the New York city charter, as added by local law 86 of 2005, is amended to read as follows:

h. This section shall not apply to capital projects *of entities that are not city agencies* that have received capital dollars from the city treasury before January 1, 2007.

§2. This local law shall take effect on January 1, 2007.

Referred to the Committee on Housing and Buildings.

Int. No. 746

By Council Members Addabbo Jr., Barron, Clarke, Comrie, de Blasio, Foster, Gentile, Gerson, Gioia, Gonzalez, Jackson, James, Lanza, Lopez, McMahon, Oddo, Perkins, Reed, Rivera, Sanders, Sears, Vallone Jr., Boyland, Nelson and Weprin.

Int. No. 747

By Council Members Avella, Clarke, Gonzalez and Nelson.

A Local Law to amend the administrative code of the city of New York, in relation to clarifying the rights of pet owners in multiple dwellings.

Be it enacted by the Council as follows:

Section 1. Subdivision b of section 27-2009.1 of the administrative code of the city of New York is amended to read as follows:

b. Where a tenant in a multiple dwelling openly and notoriously for a period of three months or more following taking possession of a unit, harbors or has harbored a household pet or pets, the harboring of which is not prohibited by the multiple dwelling law, the housing maintenance or health codes of the city of New York or any other applicable law, and the owner or his or her agent has knowledge of this fact, and such owner fails within this three month period to commence a summary proceeding or action to enforce a lease provision prohibiting the keeping of such household pets, such lease provision shall be deemed waived. *This subdivision shall be applicable to any rental, cooperative, or condominium unit in a multiple dwelling.*

§2. Section 27-2009.1 of the administrative code of the city of New York is amended by relettering subdivisions c, d and e as subdivisions h, i and j, respectively, and by adding new subdivisions c, d, e, f and g to read as follows:

c. Where a tenant in a multiple dwelling openly and notoriously for a period of three months or more following taking possession of a unit, harbors or has harbored a household pet or pets, the harboring of which is not prohibited by the multiple dwelling law, the housing maintenance or health codes of the city of New York or any other applicable law, and the owner or his agent has knowledge of this fact, and such owner fails within this three month period to commence a summary proceeding or action to enforce a lease provision prohibiting the keeping of such household pets, such lease provision shall be deemed waived for the duration of the tenant's occupancy in such multiple dwelling for each species of household pet or pets that is harbored or was harbored in such multiple dwelling. This subdivision shall be applicable to any rental tenant in a multiple dwelling who currently is harboring or has harbored a household pet or pets at any time since July nineteenth, nineteen ninety-five during their occupancy in the multiple dwelling in which they currently reside.

d. A household pet or pets that is harbored or was harbored by a tenant in a multiple dwelling pursuant to the provisions of subdivision c of this section may be replaced by another pet or pets. However, at no time shall the total number of household pets in that multiple dwelling exceed the total number of pets that were harbored at the same time by such tenant in that multiple dwelling at any time since July nineteenth, nineteen ninety-five.

e. At the option of the owner, the species of a household pet that is harbored or was harbored in a multiple dwelling may be changed with the written permission of the owner.

f. No language contained in the provisions of this section shall be construed to limit the rights provided herein under subdivisions b, c and d of this section to a tenant in a multiple dwelling.

g. For the purposes of this section, the term agent shall not include those short term independent contractors who are tradesmen, such as plumbers, electricians or painters who the owner can demonstrate were not on, or who did not visit, the premises at least two times during any one month that the tenant harbors or has harbored a household pet or pets and shall also not include those security guard companies that are independent contractors whose personnel or subcontractors the owner can demonstrate were not on, or who did not visit, the premises at least two times during any one month that the tenant harbors or has harbored a household pet or pets.

§3. This local law shall take effect immediately and shall apply to existing and future leases and renewals and shall also apply to existing lawful occupancies.

Referred to the Committee on Housing and Buildings.

Res. No. 1237

Resolution urging the federal government to increase the civil service examination preference point system, which currently awards 5-10 points to veterans of the armed forces applying for federal jobs, to 10-15 points.

By Council Members Baez, Addabbo, Avella, Boyland, Clarke, Fidler, Foster, Gonzalez, James, Nelson and Weprin.

Whereas, Since the Civil War, veterans have been given a measure of preference when being appointed to federal jobs; and

Whereas, The Veteran's Preference Act of 1944 is required to give veterans, who meet eligibility requirements, preference when applying for civil service federal jobs by means of a point system; and

Whereas, By law, veterans who are disabled or who serve on active duty in the Armed Forces during specified time periods or military campaigns are entitled to preference over non-veterans in both federal hiring practices and in retention during reductions in workforce; and

Whereas, Congress enacted these laws to prevent veterans from being penalized for time spent in the armed forces; and

Whereas, Currently, the point system awards veterans 5 to 10 points on their civil service examination based on eligibility requirements for preference; and

Whereas, Increasingly, civil service standardized tests and eligible lists are being replaced with more subjective measures such as those used in the private sector, and, as competition for federal civil service examination positions grows stronger, the current preference points are not always adequate to provide the needed boost for veterans seeking such federal employment opportunities; and

Whereas, Veterans deserve our respect and appreciation for making such enormous sacrifices on behalf of our country, and they need to know that we, as a country, will assist them in their time of need; and

Whereas, It is time to give the men and women of the armed forces additional preference points to assist them in their securing and retaining positions in the government sector; now, therefore, be it

Resolved, That the Council of the City of New York urges the federal government to increase the civil service examination preference point system, which currently awards 5-10 points to veterans of the armed forces applying for federal jobs, to 10-15 points.

Referred to the Committee on Veterans.

Res. No. 1238

Resolution calling upon the New York State Legislature to amend the Vehicle and Traffic Law so that non-police officers employed by state and municipal law enforcement agencies are mandated to wear safety belts while operating authorized emergency vehicles, and urging the New York City Police Commissioner to enforce the ban against unauthorized mobile telephone use by law enforcement personnel while operating authorized emergency vehicles.

By Council Members Baez, Barron, Foster, Gerson and Nelson.

Whereas, Traffic accidents that result in serious injuries and fatalities because of the failure to wear safety belts, and because of the use of hand-held mobile telephones while driving, are preventable tragedies; and

Whereas, The U.S. Department of Transportation's National Highway Traffic Safety Administration indicates that 56 percent of the estimated 42,800 people killed on U.S. highways in 2004 were not wearing safety belts; at a current rate of 82 percent of Americans wearing their safety belts while driving or riding in their vehicles, safety belts are preventing 15,700 fatalities, 350,000 serious injuries, and $67 billion in economic costs associated with traffic injuries and deaths every year; and

Whereas, According to a study published in the *New England Journal of Medicine*, the distraction caused by mobile telephone use while driving quadrupled the risk of a collision, a rate equivalent to the impairment caused by legal intoxication; further, a 2003 article by the Harvard Center for Risk Analysis assessed that mobile telephone use by drivers may cause approximately 2,600 deaths, 330,000 moderate to critical injuries, and 1.5 million instances of property damage in America per year; and

Whereas, States have taken an active role in addressing traffic safety, leading to the adoption of safety belt use requirements, with forty-nine states mandating all motor vehicle occupants to wear safety belts; every state has also considered legislation regarding mobile telephones and distracted driving, with 17 states enacting such laws; and

Whereas, New York State law does not mandate that police officers and non-police officers employed by state and municipal law enforcement agencies wear safety belts while operating an "authorized emergency vehicle," as defined in the Vehicle and Traffic Law, which includes vehicles "operated by the police department"; in addition, police officers and non-police officers employed by state and municipal law enforcement agencies are prohibited from using hand-held mobile telephones while driving authorized emergency vehicles, except when performing official duties; and

Whereas, Although police officers and others employed by law enforcement agencies should be encouraged to use these safety devices while operating an authorized emergency vehicle, non-police officers who operate authorized emergency vehicles should not be statutorily exempt from wearing safety belts, as these actions

have been proven to jeopardize public safety, which includes the safety of non-police officers; and

Whereas, While the use of such seat belts may be perceived as difficult considering the number of times a non-police officer enters and exits his or her vehicle, it is imperative for the safety of these individuals, as well as for the public, that these officers wear safety belts; and

Whereas, It is also important that police officers and non-police officers adhere to the law that bans hand-held mobile telephone use, except when engaging in official duties, because such use endangers public safety and the Police Commissioner should ensure that this ban is enforced; and

Whereas, These vehicle and traffic laws were designed to protect the public, as well as law enforcement personnel, and should be enforced uniformly; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to amend the Vehicle and Traffic Law so that non-police officers employed by state and municipal law enforcement agencies are mandated to wear safety belts while operating authorized emergency vehicles, and urging the New York City Police Commissioner to enforce the ban against unauthorized mobile telephone use by law enforcement personnel while operating authorized emergency vehicles.

Referred to the Committee on Public Safety.

Res. No. 1239

Resolution urging the New York City Police Commissioner to improve the education of Traffic Enforcement Agents regarding the use of safety belts and hand-held mobile telephones, and to enforce any violations by Traffic Enforcement Agents of state statutes.

By Council Members Baez, Barron, Foster, Gerson and Martinez.

Whereas, Traffic accidents that result in serious injuries and fatalities because of the failure to wear safety belts, and because of the use of hand-held mobile telephones while driving, are preventable tragedies; and

Whereas, The U.S. Department of Transportation's National Highway Traffic Safety Administration indicates that 56 percent of the estimated 42,800 people killed on U.S. highways in 2004 were not wearing safety belts; at a current rate of 82 percent of Americans wearing their safety belts while driving or riding in their vehicles, safety belts are preventing 15,700 fatalities, 350,000 serious injuries, and $67 billion in economic costs associated with traffic injuries and deaths every year; and

Whereas, According to a study published in the *New England Journal of Medicine,* the distraction caused by mobile telephone use while driving quadrupled the risk of a collision, a rate equivalent to the impairment caused by legal intoxication; further, a 2003 article by the Harvard Center for Risk Analysis assessed that mobile telephone use by drivers may cause approximately 2,600 deaths, 330,000 moderate to critical injuries, and 1.5 million instances of property damage in America per year; and

Whereas, States have taken an active role in addressing traffic safety, leading to the adoption of safety belt use requirements, with forty-nine states mandating all motor vehicle occupants to wear safety belts; every state has also considered legislation regarding mobile telephones and distracted driving, with 17 states enacting such laws; and

Whereas, The mission of the New York City Police Department's Traffic Control Division, to which Traffic Enforcement Agents are assigned, is to promote the safety and security of all persons who use the streets and highways of New York City; the functions of Traffic Enforcement Agents include enforcing all laws and ordinances as they relate to each of the different forms of street and highway traffic; reducing the number of vehicular and pedestrian accidents; and developing and implementing strategies that will improve the flow of traffic, remove obstacles to traffic movement, and expedite motor vehicle traffic about the City; and

Whereas, New York State law mandates that Traffic Enforcement Agents wear safety belts while operating a motor vehicle, unless those vehicles are "authorized emergency vehicles," as defined in the Vehicle and Traffic Law, which includes vehicles "operated by the police department"; in addition, Traffic Enforcement Agents are prohibited from using hand-held mobile telephones while driving, except when performing official duties; and

Whereas, Although Traffic Enforcement Agents may not be mandated by state law to use safety belts while operating their police vehicles, and although the use of such seat belts may be perceived as difficult considering the number of times a Traffic Enforcement Agent enters and exits his or her vehicle, it is imperative for the safety of these agents, as well as for the public, that these agents be urged to use safety belts; and

Whereas, It is also important that Traffic Enforcement Agents be advised of the law that bans hand-held mobile telephone use while operating a motor vehicle; and

Whereas, These vehicle and traffic laws were designed to protect the public, as well as Traffic Enforcement personnel, and should be enforced uniformly; now, therefore, be it

Resolved, That the Council of the City of New York urges the New York City Police Commissioner to improve the education of Traffic Enforcement Agents regarding the use of safety belts and hand-held mobile telephones, and to enforce any violations by Traffic Enforcement Agents of state statutes.

Referred to the Committee on Public Safety.

Res. No. 1240

Resolution commemorating the life and mourning the loss of Rosa Parks, an icon of the civil rights movement whose brave act of refusing to give up her seat on an Alabama bus in 1955 led to the end of legalized segregation in the United States; and further declaring that December 1st shall annually be observed as Rosa Parks Commemoration Day in New York City, and encouraging all businesses in the City, both public and private, to either close on December 1st or allow the many workers and students in the City who will want to attend Rosa Parks Commemoration events taking place during normal business hours, to take the day off, or leave work and school early with impunity .

By Council Members Barron, Clarke, Perkins, Fidler, James, Foster, Monserrate, McMahon, Seabrook, Katz, Dilan, Comrie, Vann, Moskowitz, Yassky, Quinn, Jackson, Stewart, Recchia Jr., Martinez, Liu, Baez, Boyland, Brewer, Gonzalez, Jennings, Sears, Weprin and Gioia.

Whereas, Rosa Parks, an icon of the civil rights movement, died on October 24, 2004 at the age of 92; and

Whereas, Rosa Parks was born Rosa Lee McCauley in Tuskegee, Alabama, on February 4, 1913, to James and Leona McCauley; and

Whereas, Growing up in segregated Montgomery, Alabama during the 1920's and 1930's, Rosa Parks was forced to attend second-rate all-black schools, such as the Montgomery Industrial School for Girls; and

Whereas, Rosa Parks was forced on a daily basis to obey Jim Crow segregation laws governing her behavior in public places, such as having to drink from separate water fountains and not being able to eat at whites-only restaurants, laws that she came to detest at an early age; and

Whereas, With her mother's help, and despite the segregation laws that governed at that time, Rosa Parks was able to grow up proud of herself and other black people and believed that "people should be judged by the respect they have for themselves and others;" and

Whereas, In 1932, Rosa Parks married Raymond Parks, a barber who was active in civil rights causes, and together the couple enjoyed a modest degree of prosperity since Mrs. Parks also worked as a seamstress making bed sheets for the Montgomery Fair department store; and

Whereas, During the early 1940's, Rosa Parks and her husband became members of the Voters League, a group that helped blacks pass a special voter registration literacy test which was designed to discourage blacks from voting and later banned by the Voting Rights Act of 1965; and

Whereas, In 1943, Rosa Parks became active in the American Civil Rights Movement when she began working as a secretary for the Montgomery, Alabama branch of the National Association for the Advancement of Colored People ("NAACP") in her spare time, a position she held until 1957; and

Whereas, On December 1, 1955, on her way home from work, Rosa Parks boarded a Cleveland Avenue bus in Montgomery, Alabama and sat in the middle section of the bus that was designated for black riders, a section that was not fixed in size, but determined by the placement of a movable sign at the discretion of the bus driver; and

Whereas, Rosa Parks refused to give up her seat after the bus driver placed the sign behind her and ordered her and three other black passengers to move so that a lone white man could sit in their seats; and

Whereas, Rosa Parks' refusal to move from her seat resulted in her arrest and she was subsequently tried and convicted of disorderly conduct, as well as violating a local ordinance and fined $14; and

Whereas, Rosa Parks' arrest and conviction prompted influential leaders of the African-American community in Montgomery, including the Reverend Dr. Martin Luther King, Jr., to plan and carry out the Montgomery Bus Boycott, which began on December 5, 1955 and lasted for 381 days, until the laws requiring segregation on public buses were repealed; and

Whereas, Rosa Parks' brave act in December 1955 ushered in the American Civil Rights Movement, which ultimately led to the United States Supreme Court ruling on November 13, 1956 that segregated bus service was unconstitutional, a decision that effectively put an end to the Jim Crow laws that had been established in the south; and

Whereas, Rosa Parks and her husband lived in Montgomery, Alabama until 1957 when they moved to Detroit, Michigan because she lost her job in the Montgomery Fair department store, her husband quit his job after his boss prevented him from talking about his wife's legal case, and because they were the recipients of numerous threats and almost constant telephone harassment; and

Whereas, After relocating to Detroit, Michigan, Rosa Parks remained devoted to human rights causes and spent the later years of her life being sought out as a dignified spokesperson for the civil rights movement; and

Whereas, The Reverend Dr. Martin Luther King, Jr. once stated that Rosa Parks "was regarded as one of the finest citizens of Montgomery – not one of the finest Negro citizens – but one of the finest citizens of Montgomery;" and

Whereas, In 1965, Rosa Parks became a staff assistant to United States Representative John Conyers of Michigan, a position she held until her retirement in 1988; and

Whereas, In February 1987, Rosa Parks and Elaine Eason Steele co-founded The Rosa and Raymond Parks Institute for Self Development, an institute that offers career training for 12 to 18-year-olds and that runs the "Pathways to Freedom" bus tours that introduces young people to important civil rights and underground railroad sites throughout the country; and

Whereas, Rosa Parks published a children's book in 1993 entitled "*Rosa Parks: My Story*," which chronicled her life leading up to that monumental day in 1955 when she refused to give up her seat on the bus, and also published her memoirs *Quiet Strength* in 1995; and

Whereas, Rosa Parks was the recipient of many honorary doctorate degrees from universities worldwide, an honorary member of the Alpha Kappa Alpha Sorority, inducted into the Michigan Women's Hall Fame in 1983 and called upon to be a part of the group welcoming South African President Nelson Mandela to United States in 1990; and

Whereas, Rosa Parks was the recipient of numerous awards including the NAACP's Spingarn Medal in 1979, it's highest honor, and the Martin Luther King, Sr. award in 1980, the Rosa Parks Peace Prize in Stockholm, Sweden in 1994 and the first International Freedom Conductor Award given by the National Underground Railroad Freedom Center in 1998; and

Whereas, Rosa Parks received the Presidential Medal of Freedom in 1996, and the Congressional Gold Medal of Honor in 1999, the highest civilian awards given by the Executive and Legislative branches of the United States government; and

Whereas, In November 2001, The Rosa Parks Library and Museum in Montgomery, Alabama was dedicated and is located on the corner where Mrs. Parks boarded the famed bus; and

Whereas, Rosa Parks courageous act on the Montgomery bus on December 1, 1955 earned her the nickname "Mother of the Civil Rights Movement; now, therefore, be it

Resolved, That the Council of the City of New York commemorates the life and mourns the loss of Rosa Parks, an icon of the civil rights movement whose brave act of refusing to give up her seat on an Alabama bus in 1955 led to the end of legalized segregation in the United States; and, be it further

Resolved, That the Council of the City of New York declares that December 1st shall annually be observed as Rosa Parks Commemoration Day in New York City; and, be it further

Resolved, That the Council of the City of New York encourages all businesses in the City, both public and private, to either close on December 1st or allow the many workers and students in the City who will want to attend Rosa Parks Commemoration events taking place during normal business hours, to take the day off, or leave work and school early with impunity.

Referred to the Committee on Cultural Affairs, Libraries & International Intergroup Relations.

Int. No. 748

By Council Members Gerson, Quinn, Brewer, Stewart and Weprin.

A Local Law to amend the administrative code of the city of New York, in relation to pedicabs.

Be it enacted by the Council as follows:

Section One. Legislative Findings and Intent.

Due to the large population and heavy commerce of New York City, the public streets are congested with countless vehicles for transporting consumer goods and individuals. Recently, the city has seen a significant growth in the number of pedicabs operating in the City. Due to their high maneuverability and unique character, pedicabs have become a new and increasingly utilized form of paid transportation for City tourists and residents.

However, due to the quantity of pedestrian and vehicular traffic within the city, the safe operation of pedicabs is of great concern. Presently, the City has no mechanism to monitor the quantity or operational procedures of these slow moving vehicles. Consequently, the City is unable to ensure that pedicabs are safely maintained and that their operators are sufficiently versed in all City traffic regulations.

The Council finds that regulations regarding such matters are necessary for the interests of public safety and welfare.

§ 2. Chapter 2 of Title 20 of the administrative code of the city of New York is amended by the addition of a new subchapter 33, to read as follows:

SUBCHAPTER 33

PEDICABS

§ 20-1100 ***Definitions.***

§ 20-1101 ***License required; fee; term.***

§ 20-1102 ***Insurance.***

§ 20-1103 ***License plate.***

§ 20-1104 ***Inspection.***

§ 20-1105 ***Pedicab operator's license.***

§ 20-1106 ***Training program and examination.***

§ 20-1107 ***Suspension and revocation.***

§ 20-1108 ***Penalties.***

§ 20-1100 ***Definitions.*** *Whenever used in this subchapter, the following terms shall mean:*

a. "Owner" means any person, firm, partnership, corporation or association owning and operating a pedicab or pedicabs, and shall include a purchaser under a reserve title contract, conditional sales agreement or vendor's agreement and the lessee of such vehicle or vehicles under a written lease or similar contract.

b. "Pedicab license" means a license issued by the commissioner for each pedicab.

c. "Operator's license" means a license issued by the commissioner for each person authorized to operate a pedicab within the city of New York.

d. "Inspection card" means a card issued by the commissioner to pedicab licensees which card shall display the license number of such vehicle.

e. "Pedicab" means any wheeled carriage or vehicle, propelled by human power, designed to seat and carry one or more passengers and operated for hire within the city of New York.

f. "Pedicab operator" means any person licensed to operate a pedicab in the city of New York.

§ 20-1101 ***License required; fee; term.*** *a. It shall be unlawful to operate or permit another to operate a pedicab within the city unless the owner shall have first obtained a license therefore from the commissioner. An applicant for a pedicab license shall be at least eighteen years of age and hold a valid state issued driver's license.*

b. The original and renewal license fee for each pedicab shall be fifty dollars.

c. The term of the license shall be two years.

d. The commissioner shall not renew any pedicab license in the event that such licensed pedicab has not been operated for at least four months during the preceding license year; provided that such failure to operate shall not have been caused by strike, riot, war or other public catastrophe, or disability, illness, or other similar reasonable cause beyond the control of the licensee.

e. It shall be unlawful for a pedicab license to be transferred to any person, firm, partnership, corporation, association or to another pedicab.

§ 20-1102 ***Insurance.*** *a. As a condition of the issuance of a pedicab license, each applicant shall furnish proof that his or her pedicab is insured under a liability insurance policy for personal injury or death and for injury to or destruction of property of one or more persons, resulting from any one accident, in an amount not less than the minimum dollar amount of liability insurance coverage required by section 370 of article 8 of the vehicle and traffic law to be maintained by owners of vehicles engaged in the business of carrying or transporting passengers for hire.*

b. The licensee shall notify the commissioner of any modification, amendment, cancellation or substitution of any insurance policy required under subdivision a of this section within ten days of the notice to the licensee of such modification, amendment, cancellation or substitution.

§ 20-1103 ***License plate.*** *Upon the payment of the license fee, and subject to the qualifications set forth in this subchapter, the commissioner shall issue a license to the owner of the pedicab together with a license plate to be securely affixed to a conspicuous part of such pedicab, on which shall be clearly set forth the license number of the pedicab. The license plate issued to the licensee may, in the discretion of the commissioner, be a plate of a permanent nature with a replaceable date tag attached thereto, indicating the expiration date of the plate during each license year and the issuance of such a plate with such date tag to a person possessing such a plate, shall be deemed issuance of a license plate. Such license plate and the replaceable date tag to be attached thereto shall be of such material, form, design and dimension and set forth such distinguishing number or other identification marks as the commissioner shall prescribe. The commissioner, upon renewal of the license hereunder, may continue the use of the license plate for as many additional license years as he or she in his or her discretion may determine, in which event he or she shall issue and deliver to the licensee a replaceable date tag or license plate as evidence of renewal of the license, which shall be attached or affixed in such manner as he or she may prescribe by rule. In the event of the loss, mutilation or destruction of any license plate or date tag issued hereunder, the owner may file such statement and proof of facts as the commissioner shall require, with a fee of twenty-five dollars, at the department, and the department shall issue a duplicate or substitute license plate or date tag. The failure to affix or display such date tag or license plate in a manner prescribed by the commissioner shall constitute a violation of this section.*

*§ 20-1104 **Inspection**. a. A vehicle shall be licensed as a pedicab only after it shall have been examined and inspected. The commissioner shall refuse a license to or, if already issued, suspend the license of any pedicab found to be unfit for operation.*

b. The commissioner shall cause all licensed pedicabs to be inspected at least once every four months. The date of such inspection and the signature of the person making the inspection shall be recorded upon the inspection card in the spaces provided therefore.

c. The commissioner shall prescribe an appropriate form of inspection card for pedicabs and the manner in which such card and pedicab driver's identification cards shall be displayed.

*§ 20-1105 **Pedicab operator's license**. a. It shall be unlawful for any person to operate a pedicab within the city without having a valid pedicab operator's license.*

b. The biennial fee for each such pedicab operator's license shall be fifty dollars.

c. The commissioner shall investigate each applicant as to character and fitness before such operator's license shall be issued.

d. A pedicab operator's license shall not be issued or renewed unless the applicant therefore has satisfactorily completed a pedicab safety training course and examination pursuant to section 20-1106 of this subchapter within six months prior to the date of application.

e. It shall be unlawful for any pedicab owner to permit such pedicab to be operated by a person who does not possess a valid pedicab operator's license issued pursuant to this section. In any prosecution of an owner for a violation of this section, it shall not be necessary to prove that the owner knew or should have known that the operator was unlicensed, and there shall be a rebuttable presumption that such pedicab was operated with the permission of the owner.

f. All licensed pedicab drivers shall adhere to all traffic laws and rules of the city and state of New York.

*§ 20-1106 **Training program and examination**. a. The department, in conjunction with the department of transportation, shall offer a training program and a written examination for all pedicab drivers. The commissioner shall issue a certificate to any person successfully completing the training program and achieving satisfactory results on the written examination administered by the department. Such training program shall include, but not be limited to, the following subjects: (1) passenger, pedestrian and vehicular traffic safety, (2) proper care and maintenance of the pedicab, (3) traffic laws and rules of the city and state of New York, (4) all laws and rules of the city of New York pertaining to pedicabs and (5) such other subjects as shall be deemed appropriate and necessary by the commissioner.*

b. The department may impose a fee for the training program and examination, in order to defray expenses incurred in the administration thereof.

c. The department shall offer the training program and examination, as provided in subdivision a herein, on a regularly scheduled basis, but no less frequently than at least three times per year, or more frequently as deemed necessary by the commissioner.

*§ 20-1107 **Suspension and revocation**.*

a. After notice and opportunity to be heard, the commissioner may suspend or revoke any pedicab or pedicab operator's license where the holder has failed to comply with any provisions of this subchapter or of the rules promulgated thereunder, or with any other laws or rules governing pedicabs, or which pedicab or pedicab operator is otherwise found to be unfit for such license. Such suspension shall remain in effect until compliance and fitness have been established by the licensee and accepted by the department. Grounds for suspension or revocation shall include, but not be limited to, failure to submit a pedicab for inspection and suspension and revocation of a licensee's state issued driver's license.

b. Any pedicab operator found to have committed at least three violations of this subchapter within any twelve-month period shall have his or her license suspended by the commissioner for a period of not less than three months. For purposes of this subdivision, all violations written on any one day shall constitute a single violation.

c. Notwithstanding the provisions of subdivision b of this section, any operator of a pedicab found to have committed at least five violations of this subchapter within any twenty-four month period shall have his or her license suspended by the commissioner for a period of not less than six months. For purposes of this subdivision, all violations written on any one day shall constitute a single violation.

d. A pedicab operator whose license has been revoked in accordance with this provision may not apply for a new license for three years from the date of revocation.

*§ 20-1109 **Penalties**. a. Any person who violates a provision of this subchapter may be liable for a fine of not less than $250 nor more than $1000 and a civil penalty of $250, for each violation.*

b. Any person operating an unlicensed pedicab may further be subject to seizure and impoundment of his or her pedicab until all applicable penalties and storage fees have been satisfied, or bond has been posted pursuant to the rules promulgated hereunder.

§ 3. This local law shall take effect 120 days after it shall have been enacted into law; provided that the commissioner may take any actions necessary prior to such effective date for the implementation of this local law including, but not limited to, establishing guidelines and promulgating rules.

Referred to the Committee on Consumer Affairs.

Int. No. 749

By Council Members Gioia, Quinn, Addabbo Jr., Recchia, Jackson, Brewer, Gerson, James, Liu, Martinez, Nelson, Stewart, Weprin and Katz.

A Local Law to amend the administrative code of the city of New York, in relation to protecting department of education employees from certain adverse personnel action.

Be it enacted by the Council as follows:

Section 1. Chapter one of title twelve of the administrative code of the city of New York is amended to add a new section 12-113.1 to read as follows:

§12-113.1 Protection of department of education employees. a. Definitions. For purposes of this section:

1. "Adverse personnel action" shall mean dismissal, demotion, suspension, disciplinary action, negative performance evaluation, any action resulting in loss of staff, office space or equipment or other benefit, failure to appoint, failure to promote, or any transfer or assignment or failure to transfer or assign against the wishes of the affected officer or employee.

2. "Commissioner" shall mean the special commissioner of investigation for the New York City school district.

3. "Remedial action" shall mean any appropriate action to restore the officer or employee to his or her former status, which may include one or more of the following:

(a) reinstatement of an officer or employee to a position the same as or comparable to the position such officer or employee held or would have held if not for the adverse personnel action, or, as appropriate, to an equivalent position;

(b) reinstatement of full seniority rights;

(c) payment of lost compensation; and

(d) other measures necessary to address the effects of the adverse personnel action.

b. 1. No officer or employee of the department of education shall take an adverse personnel action with respect to another officer or employee of such department who, acting in the best interests of students, has made a complaint or report regarding any department or school policy or procedure that presents a risk of harm to the health, safety, general welfare or educational welfare of students.

2. The provisions of this section shall apply to any complaint or report made to (i) the commissioner, (ii) a council member, the public advocate, the comptroller or the mayor, who shall refer such report to the commissioner or (iii) any superior officer or employee in a school, the department of education or the state department of education.

c. An officer or employee who believes that another officer or employee has taken an adverse personnel action in violation of subdivision b of this section may report such action to the commissioner.

d. 1. Upon receipt of a report made pursuant to subdivision c of this section, the commissioner shall conduct an inquiry to determine whether adverse personnel action has been taken in violation of this section.

2. Within fifteen days after receipt of an allegation of a prohibited adverse personnel action, the commissioner shall provide written notice to the officer or employee making the allegation that the allegation has been received by the commissioner. Such notice shall include the name of the person in the department of education who shall serve as a contact with the officer or employee making the allegation.

3. Upon the completion of an investigation initiated under this section, the commissioner shall provide a written statement of the final determination to the officer or employee who complained of the adverse personnel action taken in violation of this section. The statement shall include the commissioner's recommendations, if any, for remedial action, or shall state the commissioner has determined to dismiss the complaint and terminate the investigation.

4. Upon a determination that an adverse personnel action has been taken in violation of this section, the commissioner shall without undue delay report his or her findings and, if appropriate, recommendations to the chancellor of the department of education, who (i) shall determine whether to take remedial action and (ii) shall report such determination to the commissioner in writing. Upon a determination that the chancellor has failed to take appropriate remedial action, the commissioner shall consult with the chancellor and afford such person reasonable opportunity to take such action. If such action is not taken, the commissioner shall report his or her findings and the response of the chancellor to the mayor.

e. Nothing in this section shall be construed to limit the rights of any officer or employee with regard to any administrative procedure or judicial review, nor shall anything in this section be construed to alter any provision of a valid collective bargaining agreement.

f. Not later than October thirty-first of each year, the commissioner shall prepare and forward to the mayor and the council a report on the complaints governed by this section during the preceding fiscal year. The report shall include, but not be limited to, the number of complaints received pursuant to this section, and the disposition of such complaints.

§2. This local law shall take effect immediately.

Referred to the Committee on Civil Service and Labor.

Int. No. 750

By Council Members Katz, Gerson and Stewart (by request of the Mayor).

A Local Law to amend the New York city charter, in relation to authorizing the department of transportation to extend the date of the franchise for the operation and maintenance of bus stop shelters.

Be it enacted by the Council as follows:

Section 1. Subdivision b of section 378 of the New York city charter, as amended by local law 78 for the year 2005, is amended to read as follows:

b. Not later than the first day of March, nineteen hundred ninety, the mayor shall designate a single agency as the responsible agency for each type of franchise currently granted by the city. If such an agency intends to continue granting any such type of franchise, the agency shall submit to the council a proposed authorizing resolution for such type of franchise at least two years, or such shorter period as may be approved by the franchise and concession review committee, prior to the earliest expiration date of any existing franchise of that type; provided, however, that such an agency, with the approval of the franchise and concession review committee, may extend to the thirty-first day of December, nineteen hundred ninety-two the expiration date of any franchise which is scheduled to expire prior to that date, if such an extension is necessary in order to provide the agency with adequate time during which to prepare a proposed authorizing resolution for the type of franchise involved; and provided further, that the department of transportation, with the approval of the franchise and concession review committee, may extend the expiration date of the operating authority of any private bus company that receives a subsidy from the city that operates the bus routes BXM1, BXM2, BXM3, BXM4A, BXM4B, BXM11, and BXM18 to a date not later than the fifteenth day of January, two thousand and five, and for any private bus company that receives a subsidy from the city that operates the bus routes QM1, QM1A, QM2, QM2A, QM3, QM4, Q25, Q34, Q65, Q65A, Q66, Q67, Q101, Q101R, Q102, Q103, Q104, and QBX1 to a date not later than the twenty-sixth day of February, two thousand and five, and for any private bus company that receives a subsidy from the city that operates the bus routes BXM6, BXM7, BXM7A, BXM7B, BXM9, and BXM10 to a date not later than the fifteenth day of September, two thousand and five, and for any private bus company that receives a subsidy from the city that operates the bus routes Q18, Q19, Q19A, Q19B, Q23, Q29, Q33, Q38, Q39, Q45, Q47, Q53, Q72, QM10, QM11, QM12, QM22, QM24, and QM24W to a date not later than the thirtieth day of November, two thousand and five, and for any private bus company that receives a subsidy from the city that operates the bus routes Q110, Q111, Q112, Q113, and QM21 to a date not later than the thirtieth day of November, two thousand and five, and for any private bus company that receives a subsidy from the city that operates the bus routes Q6, Q7, Q8, Q9, Q9A, Q10, Q10A, Q11, Q21, Q22, Q22A, Q35, Q37, Q40, Q41, Q60, QM15, QM16, QM17, QM18, and QM23 to a date not later than the thirtieth day of November, two thousand and five, and for any private bus company that receives a subsidy from the city that operates the bus routes B100, B103, BM1, BM2, BM3, BM4, and BQM1 to a date not later than the thirtieth day of November, two thousand and five; and provided further, that the department of transportation, with the approval of the franchise and concession review committee, may extend the expiration date of the operating authority of any private bus company that does not receive a subsidy from the city to a date not later than the thirtieth day of June, two thousand and seven; and provided further, that the department of transportation, with the approval of the franchise and concession review committee, may extend the expiration date of any franchise to operate and maintain bus shelters to a date not later than the thirty-first day of December, two thousand and [five] *six*. Notwithstanding the provisions of section three hundred seventy-one, the public notice and hearing requirements of the franchise and concession review committee with respect to an approval of an extension of the operating authority of a private bus company that receives a subsidy from the city shall be fully satisfied by a public hearing held after notice of such hearing shall have been published at least one day prior thereto in the City Record.

§2. This local law shall take effect immediately.

Referred to the Committee on Land Use.

Res. No. 1241

Resolution denouncing the Governor of Puerto Rico's "crisis solutions" imposed in response to Puerto Rico's debt and budget difficulties, and urging him to work with all unionized sectors of government and public corporations to develop better policies to address these problems.

By Council Member Monserrate.

Whereas, Since June 2005, the Governor and Legislature of Puerto Rico have been at an impasse over the proposed budget; and

Whereas, In July of 2005, Governor Anibal Acevedo Vila declared that, due to Puerto Rico's debt and budget crisis, his administration would propose "crisis solutions", which would include laying off 40,000 public employees, sub-contracting services and privatizing some services; and

Whereas, In addition, Governor Acevedo announced that, among other harsh measures, water usage rates would increase by 128 percent, bus fares by 50 percent, and highway tolls by 43 percent; and

Whereas, During this time of hardship, many labor union contracts are coming up for re-negotiation, and the Governor has already ruled out wage increases and declared that he will not sign any bills requiring increased spending; and

Whereas, The government's policies have negatively effected the working people of Puerto Rico, and have threatened to interfere with the proper functioning of governmental services; and

Whereas, Social service cutbacks and increased prices have already affected many, and have had an especially negative impact on the poorest communities; and

Whereas, It is imperative that the Governor and Legislature work together to formulate more equitable and reasonable policies to address Puerto Rico's financial difficulties; and

Whereas, It is also necessary for the Governor to direct all government agencies to bargain in good faith with the unionized sectors of government and public corporations, in connection with any contracts which are about to expire; and

Whereas, The Governor and Legislature should also involve the working people of Puerto Rico, via the unions, as partners in working out appropriate, fair and effective solutions to Puerto Rico's problems; now, therefore, be it

Resolved, That the Council of the City of New York denounces the Governor of Puerto Rico's "crisis solutions" imposed in response to Puerto Rico's debt and budget difficulties, and urges him to work with all unionized sectors of government and public corporations to develop better policies to address these problems.

Referred to the Committee on Cultural Affairs, Libraries & International Intergroup Relations.

Int. No. 751

By Council Members Weprin, Gerson and Nelson (by request of the Mayor).

A Local Law to amend the administrative code of the city of New York, in relation to authorizing an increase in the amount to be expended in eleven business improvement districts and one special assessment district.

Be it enacted by the Council as follows:

§1. Subdivision a of section 25-421.1 of the administrative code of the city of New York, as amended by local law number 37 for the year 2003, is amended to read as follows:

a. The city council having determined, pursuant to subdivision b of section 25-410 of chapter four of this title, that it is in the public interest to authorize an increase in the amount to be expended annually in the Metrotech Area business improvement district beginning on July 1, [2002] *2005*, and the council having determined further that the tax and debt limits prescribed in section 25-412 of chapter four of this title will not be exceeded by such increased expenditure, there is hereby authorized in such district an annual expenditure of [two million four hundred seventy-five thousand nine hundred thirty-six dollars ($2,475,936)] *two million six hundred twenty-four thousand four hundred ninety-two dollars ($2,624,492)*.

§2. Subdivision a of section 25-423.1 of the administrative code of the city of New York, as amended by local law number 10 for the year 2004, is amended to read as follows:

a. The city council having determined, pursuant to subdivision b of section 25-410 of chapter four of this title, that it is in the public interest to authorize an increase in the amount to be expended annually in the 34th Street business improvement district beginning on July 1, [2003] *2005*, and the council having determined further that the tax and debt limits prescribed in section 25-412 of chapter four of this title will not be exceeded by such increased expenditure, there is hereby authorized in such district an annual expenditure of [eight million one hundred ninety-eight thousand five hundred dollars ($8,198,500)] *eight million six hundred fifty-seven thousand dollars ($8,657,000)*.

§3. Subdivision a of section 25-427 of the administrative code of the city of New York, as amended by local law number 30 for the year 2002, is amended to read as follows:

a. The city council having determined, pursuant to subdivision b of section 25-410 of chapter four of this title, that it is in the public interest to authorize an increase in the amount to be expended annually in the Grand Central business improvement district beginning on July 1, [2002] *2005*, and the council having determined further that the tax and debt limits prescribed in section 25-412 of chapter four of this title will not be exceeded by such increased expenditure, there is hereby authorized in

such district an annual expenditure of [eleven million fourteen thousand eight hundred dollars ($11,014,800)] *eleven million five hundred sixty-five thousand five hundred forty dollars ($11,565,540).*

§4. Chapter 5 of title 25 of the administrative code of the city of New York is amended by adding a new section 25-430.1 to read as follows:

§ 25-430.1 Woodhaven business improvement district.

a. The city council having determined, pursuant to subdivision b of section 25-410 of chapter four of this title, that it is in the public interest to authorize an increase in the amount to be expended annually in the Woodhaven business improvement district beginning on July 1, 2005, and the council having determined further that the tax and debt limits prescribed in section 25-412 of chapter four of this title will not be exceeded by such increased expenditure, there is hereby authorized in such district an annual expenditure of two hundred eighteen thousand dollars ($218,000).

b. The amount of such expenditure to be levied upon each property in the district shall be determined in accordance with the method of assessment set forth in the Woodhaven business improvement district plan.

§5. Subdivision a of section 25-431.1 of the administrative code of the city of New York, as added by local law number 30 for the year 2002, is amended to read as follows:

a. The city council having determined, pursuant to subdivision b of section 25-410 of chapter four of this title, that it is in the public interest to authorize an increase in the amount to be expended annually in the Fifth Avenue Association business improvement district beginning on July 1, [2002] *2005*, and the council having determined further that the tax and debt limits prescribed in section 25-412 of chapter four of this title will not be exceeded by such increased expenditure, there is hereby authorized in such district an annual expenditure of [two million one hundred twenty-six thousand seven hundred sixty-six dollars ($2,126,766)] *two million two hundred eighty-two thousand five hundred dollars ($2,282,500).*

§6. Subdivision a of section 25-432.1 of the administrative code of the city of New York, as added by local law number 30 for the year 2002, is amended to read as follows:

a. The city council having determined, pursuant to subdivision b of section 25-410 of chapter four of this title, that it is in the public interest to authorize an increase in the amount to be expended annually in the Fashion Center business improvement district beginning on July 1, [2002] *2005*, and the council having determined further that the tax and debt limits prescribed in section 25-412 of chapter four of this title will not be exceeded by such increased expenditure, there is hereby authorized in such district an annual expenditure of [four million dollars ($4,000,000)] *four million three hundred sixty thousand dollars ($4,360,000).*

§7. Section 25-436 of the administrative code of the city of New York, as amended by local law number 30 for the year 2002, is amended to read as follows:

a. The city council having determined, pursuant to subdivision b of section 25-410 of chapter four of this title, that it is in the public interest to authorize an increase in the amount to be expended annually in the Grand Street business improvement district beginning on July 1, [2002] *2005*, and the council having determined further that the tax and debt limits prescribed in section 25-412 of chapter four of this title will not be exceeded by such increased expenditure, there is hereby authorized in such district an annual expenditure of [eighty-five thousand three hundred seventy-five dollars ($85,375)] *one hundred thirty-five thousand two hundred dollars ($135,200).*

§8. Subdivision a of section 25-437.1 of the administrative code of the city of New York, as added by local law number 30 for the year 2002, is amended to read as follows:

a. The city council having determined, pursuant to subdivision b of section 25-410 of chapter four of this title, that it is in the public interest to authorize an increase in the amount to be expended annually in the 125th Street business improvement district beginning on July 1, [2002] *2005*, and the council having determined further that the tax and debt limits prescribed in section 25-412 of chapter four of this title will not be exceeded by such increased expenditure, there is hereby authorized in such district an annual expenditure of [five hundred twenty-five thousand dollars ($525,000)] *six hundred three thousand dollars ($603,000).*

§9. Subdivision a of section 25-440 of the administrative code of the city of New York, as amended by local law number 30 for the year 2002, is amended to read as follows:

a. The city council having determined, pursuant to subdivision b of section 25-410 of chapter four of this title, that it is in the public interest to authorize an increase in the amount to be expended annually in the Washington Heights business improvement district beginning on July 1, [2002] *2005*, and the council having determined further that the tax and debt limits prescribed in section 25-412 of chapter four of this title will not be exceeded by such increased expenditure, there is hereby authorized in such district an annual expenditure of [three hundred eleven thousand seven hundred dollars ($311,700)] *five hundred seventeen thousand four hundred twenty-two dollars ($517,422).*

§10. Chapter 5 of title 25 of the administrative code of the city of New York is amended by adding a new section 25-442.2 to read as follows:

§ 25-442.2 Downtown-Lower Manhattan business improvement district.

a. The city council having determined, pursuant to subdivision b of section 25-410 of chapter four of this title, that it is in the public interest to authorize an increase in the amount to be expended annually in the Downtown-Lower Manhattan business improvement district beginning on July 1, 2005, and the council having determined further that the tax and debt limits prescribed in section 25-412 of chapter four of this title will not be exceeded by such increased expenditure, there is hereby authorized in such district an annual expenditure of thirteen million dollars ($13,000,000).

b. The amount of such expenditure to be levied upon each property in the district shall be determined in accordance with the method of assessment set forth in the Downtown-Lower Manhattan business improvement district plan, as amended.

§11. Subdivision a of section 25-445 of the administrative code of the city of New York, as added by local law number 93 for the year 1995, is amended to read as follows:

a. The city council having determined, pursuant to subdivision b of section 25-410 of chapter four of this title, that it is in the public interest to authorize an increase in the amount to be expended annually in the Kings Highway business improvement district beginning on July 1, [1995] *2005*, and the council having determined further that the tax and debt limits prescribed in section 25-412 of chapter four of this title will not be exceeded by such increased expenditure, there is hereby authorized in such district an annual expenditure of [two hundred thousand dollars ($200,000)] *two hundred fifty thousand dollars ($250,000).*

§12. Subdivision a of section 25-602 of the administrative code of the city of New York, as amended by local law number 88 for the year 1995, is amended to read as follows:

a. The city council having determined, pursuant to subdivision b of section 25-410 of chapter four of this title, that it is in the public interest to authorize an increase in the amount to be expended annually in the Fulton Mall special assessment district, and the council having determined further that the tax and debt limits prescribed in section 25-412 of chapter four of this title will not be exceeded by such increased expenditure, there is hereby authorized in such district an annual expenditure of [one million one hundred ninety-two thousand one hundred fifty-six dollars ($1,192,156)] *one million four hundred thirty thousand dollars ($1,430,000).*

§ 13. This local law shall take effect immediately and shall be retroactive to and deemed to have been in full force and effect as of July 1, 2005.

Referred to the Committee on Finance.

Res. No. 1242

Resolution concerning the increase in the annual expenditure for the Metrotech Area, the 34th Street, the Grand Central, the Woodhaven, the Fifth Avenue, the Fashion Center, the Grand Street, the 125th Street, the Washington Heights, the Downtown-Lower Manhattan, and the Kings Highway Business Improvement Districts, and the Fulton Mall Special Assessment District, and the setting of the time and place for the hearing of the local law increasing the annual expenditure for such districts.

By Council Members Weprin and Nelson (by request of the Mayor).

Whereas, pursuant to Chapter 4 of Title 25 of the Administrative Code of the City of New York or the predecessor of such Chapter (the "BID Law") the City established the Metrotech Area, the 34th Street, the Grand Central, the Woodhaven, the Fifth Avenue, the Fashion Center, the Grand Street, the 125th Street, the Washington Heights, the Downtown-Lower Manhattan, and the Kings Highway Business Improvement Districts in the City of New York; and

Whereas, the Fulton Mall Special Assessment District was established by the Board of Estimate pursuant to Chapter 911 of the laws of New York of 1976; and

Whereas, Section 25-416 of the BID Law (whose parallel provision in the General Municipal Law is Section 980-o) states, in relevant part, that "special...assessment districts...shall be subject to the provisions of this chapter [the BID Law] but shall not be required to comply with any provisions of this chapter which are contrary to or more restrictive than those under which the district was established...."; and

Whereas, Section 25-410 (b) of the BID Law provides a procedure for authorizing "the amount to be expended annually" in business improvement districts, and pursuant to Section 25-416 of the BID Law in special assessment districts; and

Whereas, pursuant to Local Law No. 82 for the year 1990, the City Council assumed responsibility for adopting legislation relating to Business Improvement Districts; and

Whereas, pursuant to Section 25-410(b) of the BID Law, an increase in the amount to be expended annually may be adopted by local law, provided that the City Council determines, after a public hearing, that it is in the public interest to authorize the increase and that the tax and debt limits prescribed in Section 25-412 of the BID Law will not be exceeded; and

Whereas, the eleven (11) Business Improvement Districts and one Special Assessment District wish to increase the amount to be expended annually beginning on July 1, 2005 as follows: Metrotech Area, $2,624,492; 34th Street, $8,657,000; Grand Central, $11,565,540; Woodhaven, $218,000; Fifth Avenue, $2,282,500; Fashion Center, $4,360,000; Grand Street, $135,200; 125th Street, $603,000; Washington Heights, $517,422; Downtown-Lower Manhattan, $13,000,000; Kings Highway, $250,000; and Fulton Mall, $1,430,000.

Whereas, pursuant to Section 25-410(b) of the BID Law, the City Council is required to give notice of the public hearing by publication of a notice in at least one

newspaper having general circulation in the districts specifying the time when and the place where the hearing will be held and stating the proposed amount to be expended annually; now, therefore, be it

Resolved, that the Council of the City of New York, pursuant to Section 25-410(b) of the BID Law hereby directs that:

(i) _____ is the date and the City Council Committee Room, 2nd floor, City Hall, is the place and _____ is the time for a public hearing (the "Public Hearing") to hear all persons interested in the legislation, which would increase the amount to be expended annually in the eleven Business Improvement Districts and one Special Assessment District; and

(ii) On behalf of the City Council and pursuant to Section 25-410(b) of the BID Law, the District Management Associations of the Metrotech Area, the 34th Street, the Grand Central, the Woodhaven, the Fifth Avenue, the Fashion Center, the Grand Street, the 125th Street, the Washington Heights, the Downtown-Lower Manhattan, and the Kings Highway Business Improvement Districts, and the Fulton Mall Special Assessment District are hereby authorized to publish in a newspaper of general circulation in each district, not less than ten (10) days prior to the Public Hearing, a notice stating the time and place of the Public Hearing and setting forth the increase in the amount to be expended annually in each of the eleven Business Improvement Districts and one Special Assessment District.

Referred to the Committee on Finance.

Res. No. 1243

Resolution amending and restating the Resolution computing and certifying base percentage, current percentage and current base proportion of each class of real property for Fiscal 2006 to the State Board of Real Property Services pursuant to Section 1803-a, Real Property Tax Law.

Whereas, on February 11, 2005, the State Board of Real Property Services (the "SBRPS") certified the final state equalization rate, class ratios and class equalization rates for the City's Fiscal 2006 assessment rolls, required by Article 18, Real Property Tax Law; and

Whereas, Section 1803-a (1), Real Property Tax Law, requires the Council to compute and certify, to the SBRPS, for each tax levy, the base percentage, the current percentage and the current base proportion of each class of real property in the City subsequent to the date on which the SBRPS files with the Clerk of the Council a certification setting forth the final state equalization rate, class ratios and class equalization rates for the City's Fiscal 2006 assessment rolls, pursuant to Section 1212, Real Property Tax Law; and

Whereas, on June 30, 2005, the Council adopted a resolution computing and certifying the base percentage, current percentage and current base proportion of each class of real property for Fiscal 2006 to the State Board of Real Property Services pursuant to Section 1803-a, Real Property Tax Law (the "June 30th Resolution"); and

Whereas, the June 30th Resolution reflects a 5.0 percent cap on any increase in the current base proportion for any class of real property, as compared with the previous year's adjusted base proportion; and

Whereas, after the adoption of the June 30th Resolution, Section 1803-a, Real Property Tax Law, was amended to lower the percent of increase in the current base proportion as compared with the previous year's adjusted base proportion to 2.0 percent;

NOW, THEREFORE, be it resolved by The Council of The City of New York as follows:

Section 1. Computation and Certification of Base Percentages. Current Base Percentages and Current Base Proportions for Fiscal 2006. (a) The Council hereby computes and certifies the base percentage, the current percentage and the current base percentage for the City's Fiscal 2006 assessment rolls as shown on SBRPS Form RP-6700, attached hereto as Exhibit A and incorporated herein by reference (the "CBP Certificate").

(b) The Clerk of the Council is hereby authorized and directed to execute the CBP Certificate and to file it with the SBRPS after the date on which the SBRPS filed with the Clerk of the Council a certification setting forth the final state equalization rate, class ratios and class equalization rates for the City's Fiscal 2006 assessment rolls, pursuant to Section 1212, Real Property Tax Law.

Section 2. Effective Date. This resolution shall take effect as of the date hereof.

Res. No. 1244

Resolution amending and restating the Resolution computing and certifying adjusted base proportion of each class of real property for Fiscal 2006 to the State Board of Real Property Services pursuant to Section 1803-a, Real Property Tax Law.

Whereas, on June 6, 2005, pursuant to Section 1514 of the Charter of the City of New York, the Commissioner of the Department of Finance delivered to the Council the certified assessment rolls for all real property assessable for taxation in the City in each borough thereof for the fiscal year beginning on July 1, 2005 and ending on June 30, 2006 ("Fiscal 2006"), a certified copy of which is in the Office of the Clerk of the City pursuant to Section 516, Real Property Tax Law (the "Fiscal 2006 Assessment Rolls"); 1 and

Whereas, Section 1803-a (5), Real Property Tax Law, requires the Council subsequent to the filing of the final Fiscal 2006 Assessment Rolls, to adjust current base proportions computed pursuant to the Current Base Proportion Resolution to reflect additions to and removals from the Fiscal 2006 Assessment Rolls as described therein (each such current base proportion so adjusted to be known as an "Adjusted Base Proportion"); and

Whereas, within five (5) days upon determination of the Adjusted Base Proportions, Section 1803-a (6), Real Property Tax Law, requires the Council to certify, to the State Board of Real Property Services ("SBRPS"), the Adjusted Base Proportion for each class of real property applicable to the City, the assessed value of all property in each class of real property, the net change in assessed value for each class on the Fiscal 2006 Assessment Rolls resulting from the additions to or removals from the Fiscal 2006 Assessment Rolls as described above, and the net change in assessed value for each class on the Fiscal 2006 Assessment Rolls resulting from changes other than those referred to above; and

Whereas, on June 30, 2005, the Council adopted a resolution in which the Council computed and certified the current base proportion, the current percentage and the base percentage of each class of real property in the City for Fiscal 2006 pursuant to Section 1803-a (1), Real Property Tax Law (the "Current Base Proportion Resolution"); and

Whereas, after the June 30th adoption of the Current Base Proportion Resolution, Section 1803-a, Real Property Tax Law, was amended to lower the percent of increase in the current base proportion as compared with the previous year's adjusted base proportion to 2.0 percent; and

[1] The Commissioner of the Department of Finance initially released the certified assessment rolls for all real property assessable for taxation in the City in each borough thereof for Fiscal 2006 on May 25, 2005. On June 6, 2005, the Commissioner of the Department of Finance released the revised certified assessment rolls for all real property assessable for taxation in the City in each borough thereof for Fiscal 2006, herein referred to as the "Fiscal 2006 Assessment Rolls".

Whereas, pursuant to the amendment to Section 1803-a, Real Property Tax Law, November 16, 2005, the Council adopted a resolution computing and certifying the base percentage, current percentage and current base proportion of each class of real property for Fiscal 2006 to the SBRPS pursuant to Section 1803-a, Real Property Tax Law;

NOW, THEREFORE, be it resolved by The Council of The City of New York as follows: **Section 1. <u>Computation and Certification of Adjusted Base Proportions and Related Information for Fiscal 2006.</u>** (a) The Council hereby computes and certifies the Adjusted Base Proportion for each class of real property applicable to the City, the assessed value of all property in each class of real property, the net change in assessed value for each class on the Fiscal 2006 Assessment Rolls resulting from the additions to or removals from the Fiscal 2006 Assessment Rolls as described in Section 1803-a (5), Real Property Tax Law, and the net change in assessed value for each class on the Fiscal 2006 Assessment Rolls resulting from changes other than those described in Section 1803-A (5), Real Property Tax Law, as shown on SBRPS Form RP-6702, attached hereto as Exhibit A and incorporated herein by reference (the "ABP Certificate").

(b) The Clerk of the Council is hereby authorized and directed to execute the ABP Certificate and to file it with the SBRPS no later than five (5) days after the date hereof.

Section 2. Effective Date. This resolution shall take effect as of the date hereof.

Adopted by the Council (preconsidered and approved by the Committee on Finance.)

Res. No. 1245

Resolution amending and restating the Resolution to provide the amounts necessary for the support of the government of the City of New York and the counties therein and for the payment of indebtedness thereof, for the Fiscal Year beginning on July 1, 2005 and ending on June 30, 2006, by the levy of taxes on the Real Property in the City of New York, in accordance with the provisions of the Constitution of the State of New York, the Real Property Tax Law and the Charter of the City of New York.

By Council Member Weprin.

Whereas, on May 5, 2005, pursuant to the Section 249 of the Charter of the City of New York ("the Charter"),the Mayor of the City of New York (the "Mayor") submitted to the Council of the City of New York (the "Council"), the executive budget for the support of the government of the City of New York and the counties therein (collectively, the "City") for the fiscal year beginning on July 1, 2006 and ending on June 30, 2006 ("Fiscal 2006"); and

Whereas, on June 6, 2005, pursuant to Section 1514 of the Charter, the Commissioner of the Department of Finance (the "Commissioner") delivered, to the Council, the certified assessment rolls for all real property assessable for taxation in the City in each borough thereof for Fiscal 2006 , a certified copy of which is in the Office of the Clerk of the City pursuant to Section 516, Real Property Tax Law (the "Fiscal 2006 Assessment Rolls"); * and

Whereas, on June 30, 2005 , the Council adopted a resolution in which the Council computed and certified the current base proportion, the current percentage and the base percentage of each class of real property in the City for Fiscal 2006 pursuant to Section 1803-a(1), Real Property Tax Law (the "Current Base Proportion Resolution"); and

Whereas, on June 30, 2005, pursuant to Section 1803-a, Real Property Tax Law, the Council adopted a resolution in which the Council adjusted the current base proportion of each class of real property in the City for Fiscal 2006, to reflect the additions to, and full or partial removal from, the Fiscal 2006 Assessment Rolls (the "Adjusted Base Proportion Resolution"); and

Whereas, on June 30, 2005, pursuant to Section 254 of the Charter, the Council adopted the budget for the support of the government of the City and for the payment of indebtedness thereof for Fiscal 2006 (the" Fiscal 2006 Budget"); and

Whereas, on June 30, 2005, pursuant to Section 1515(a) of the Charter, the Mayor prepared and submitted to the Council, a statement setting forth the amount of the Fiscal 2006 Budget as approved by the Council (the "Fiscal 2006 Budget Statement") and an estimate of the probable amount of receipts into the City treasury during Fiscal 2006 from all the sources of revenue of the general fund and all receipts other than those of the general fund and taxes on real property, a copy of which is attached hereto as Exhibit A (the "Fiscal 2006 Revenue Estimate"); and

Whereas , on June 30, 2005, pursuant to Section 1516 of the Charter, the Council adopted a resolution to provide the amounts necessary for the support of the government of the City, among other things, by the levy of taxes on real property in the City (the "Tax Fixing Resolution"); and

** The Commissioner of the Department of Finance initially released the certified assessment rolls for all real property assessable for taxation in the City in each borough thereof for Fiscal 2006 on May 25, 2005. On June 6, 2005, the Commissioner of the Department of Finance released the revised certified assessment rolls for all real property assessable for taxation in the City in each borough thereof for Fiscal 2006, herein referred to as the "Fiscal 2006 Assessment Rolls ".*

Whereas, after the adoption of the Current Base Proportion Resolution, the Adjusted Base Proportion Resolution, the Fiscal 2006 Budget and the Tax Fixing Resolution, Section 1803-a, Real Property Tax Law, was amended to lower the allowable percent increase in the current base proportion as compared with the previous year's adjusted base proportion from 5.0 percent to 2.0 percent; and

Whereas the amendment to Section 1803-a, Real Property Tax Law, requires the amending and restating of the Tax Fixing Resolution;

NOW THEREFORE, be it resolved by The Council of The City of New York as follows:

Section 1. Fixing of Real Property Tax Rates for Fiscal 2006.

a. Determining the Amount of the Real Property Tax Levy.

(i) The total amount of the Fiscal 2006 Budget as set forth in the Fiscal 2006 Budget Statement is $50,187,618,768.

(ii) The estimate of the probable amount of receipts into the City treasury during Fiscal 2006 from all the sources of revenue of the general fund and all receipts other than those of the general fund and taxes on real property as set forth in the Fiscal 2006 Revenue Estimate is $37,735,714,768.

(iii) Pursuant to Section 1516 of the Charter, the Council hereby determines that the amount required to be raised by tax on real property shall be $12,451,904,000, which is derived from deducting the amount set forth in the Fiscal 2006 Revenue Estimate from the amount of the Fiscal 2006 Budget.

(iv) In order to achieve a real property tax yield of $12,451,904,000 due to provision for uncollectible taxes and refunds and collection of levies from prior years, the Council hereby determines that a real property tax levy of $13,668,121,226 will be required, calculated as follows:

Not Subject to the 2 1/2 Percent Tax Limitation:		
For Debt Service:		
Funded Debt	$1,039,491,112	
Amount Required for Debt Service and Financing as:		
Provision for Uncollectible Taxes	$99,466,778	
Provision for Refunds	$18,950,072	
Collection of Prior Years' Levies	($16,886,435)	$1,141,021,527
Subject to the 2 1/2 Percent Tax Limitation:		
For Debt Service:		
Temporary Debt		
Interest on Temporary Debt	$26,250,000	
For General Operating Expenses:		
Funds Required	$11,386,162,888	
Amount Required for Debt Service and Operating Expenses as:		
Provision for Uncollectible Taxes	$1,092,030,448	
Provision for Refunds	$208,049,928	
Collection of Prior Years' Levies	($185,393,565)	12,527,099,699
TOTAL REAL PROPERTY TAX LEVY		$13,668,121,226

The Council hereby determines that such amount, levied at such rates on the classes of real property pursuant to paragraph (iv) of subsection b below will produce a balanced budget within generally accepted accounting principles for municipalities.

(v) The real property tax levy, net of provision for uncollectible taxes and refunds and the collection of levies from prior years, determined pursuant to clause (iv) above shall be applied as follows:

(A) For payment of debt service not subject to the 2 1/2 percent tax limitation:	$1,039,491,112
(B) For debt service on short-term debt subject to the 2 1/2 percent tax limitation:	$26,250,000
(C) To provide for conducting the public business of the City and to pay the appropriated expenditures for the counties therein as set forth in the Fiscal 2006 Budget in excess of the amount of revenues estimated in the Fiscal 2006 Revenue Estimate:	$11,386,162,888

b. Authorizing and Fixing the Real Property Tax Rates.

(i) Assessed Valuation Calculations of Taxable Real Property in the City. The Fiscal 2006 Assessment Rolls set forth the following valuations by class within each borough of the City.

(A) The assessed valuation by class of real property for the purpose of taxation in each borough of the City, exclusive of the assessed valuation of veterans' real property exempt under state law from tax for general purposes but subject to tax for school purposes is set forth below:

Assessment by Class of Property Subject to Taxation for All Purposes

Borough	All One, Two and Three Family Residential Real Property*	All Other Residential Real Property	Utility Real Property	All Other Real Property	Assessment of Property Subject to Taxation for All Purposes
Manhattan	$508,921,867	$26,108,157,131	$3,175,172,831	$38,272,045,559	$68,064,297,388
The Bronx	1,073,743,506	2,560,454,173	894,293,239	2,001,655,781	6,530,146,699
Brooklyn	3,823,381,415	4,887,259,975	1,720,562,168	3,903,091,837	14,334,295,395
Queens	5,490,206,836	5,208,721,398	2,115,134,531	5,557,565,889	18,371,628,654
Staten Island	1,989,394,491	238,986,993	596,829,036	1,000,953,074	3,826,163,594
TOTAL	$12,885,648,115	$39,003,579,670	$8,501,991,805	$50,735,312,140	$111,126,531,730

(B) The assessed valuation by class of veterans' real property exempt under state law from tax for general purposes but subject to tax for school purposes in each borough of the City is set forth below:

Assessment by Class of Veterans' Property Exempted under State Law from Tax for General Purposes but Subject to Tax for School Purposes

Borough	All One, Two and Three Family Residential Real Property*	All Other Residential Real Property	Utility Real Property	All Other Real Property	Total Assessment of Veterans' Property Exempted under State Law from Tax for General Purposes but Subject to Tax for School Purposes
Manhattan	$666,354	$67,067,837	$0	$5,000	$67,739,191
The Bronx	12,020,572	3,479,178	0	30,295	15,530,045
Brooklyn	36,135,010	6,820,837	0	69,797	43,025,644
Queens	70,623,313	34,081,925	0	93,078	104,798,316
Staten Island	39,450,278	872,254	0	8,872	40,331,404
TOTAL	$158,895,527	$112,322,031	$0	$207,042	$271,424,600

**Includes condominiums of three stories or fewer which have always been condominiums.*

(ii) Chapter 389 of the Laws of 1997 established a new real property tax exemption providing schoól tax relief (Section 425, Real Property Tax Law). Pursuant to subdivision 8 of Section 425, the assessment by tax class of property subject to taxation for all purposes and the assessment by tax class of veterans' real property exempt under state law from tax for general purposes but subject to tax for school purposes has been increased by the amounts shown below for purposes of:

(a) determining the City's tax and debt limits pursuant to law; (b) determining the amount of taxes to be levied; (c) calculating tax rates by class; and (d) apportioning taxes among classes in a special assessing unit under Article 18, Real Property Tax Law.

(A) The assessed valuation by class of real property for the purpose of taxation in each borough of the City exempted under Section 425, Real Property Tax Law, exclusive of the assessed valuation of veterans' real property exempt under state law from tax for general purposes but subject to tax for school purposes is set forth below:

Assessment by Class of Property Exempted under Section 425, Real Property Tax Law, for All Purposes

Borough	All One, Two and Three Family Residential Real Property*	All Other Residential Real Property**	All Other Real Property	Exempted under Section 425, Real Property Tax Law, for All Purposes
Manhattan	$4,920,111	$182,805,488	$209,843	$187,935,442
The Bronx	67,993,435	23,167,291	42,975	91,203,701
Brooklyn	218,796,901	52,345,360	199,913	271,342,174
Queens	321,908,969	110,872,548	258,197	433,039,714
Staten Island	125,099,711	3,772,380	44,714	128,916,805
TOTAL	$738,719,127	$372,963,067	$755,642	$1,112,437,836

(B) The assessed valuation by class of veterans' real property exempt under state law from tax for general purposes and exempt under Section 425, Real Property Tax Law, for school purposes in each borough of the city is set forth below:

Assessment by Class of Veterans' Property Exempted under Section 425, Real Property Tax Law, for School Purposes

Borough	All One, Two and Three Family Residential Real Property*	All Other Residential Real Property**	Total Assessment of Veterans' Property Exempted under Section 425, Real Property Tax Law, for School Purposes
Manhattan	$2,860	$824	$3,684
The Bronx	12,265	3,494	15,759
Brooklyn	22,711	8,943	31,654
Queens	11,801	4,466	16,267
Staten Island	12,612	0	12,612
TOTAL	$62,249	$17,727	$79,976

**Includes condominiums of three stories or fewer which have always been condominiums.*
*** Only residential real property held in the cooperative or condominium form of ownership qualifies for the real property tax exemption providing school tax relief.*

(iii) Operating Limit Provisions. The Council hereby determines that the amount to be raised by tax on real property for the Fiscal 2006 Budget pursuant to clause (iii) of subsection (a) of Section 1 thereof does not exceed the limit imposed by Section 10, Article VIII of the Constitution of the State of New York, as amended, and Article 12-A, Real Property Tax Law (the "Operating Limit Provisions").*

(A) The Operating Limit Provisions require that the City not levy taxes on real property in any fiscal year in excess of an amount equal to a combined total of two and one-half percent (2 1/2 %) of the average full valuation of taxable real property, less (i) the amount to be raised by tax on real property in such year for the payment of the interest on and the redemption of certificates or other evidence of indebtedness described therein and (ii) the aggregate amount of district charges, exclusive of debt service, imposed in such year by business improvement districts pursuant to Article 19-A, General Municipal Law.

(B) The Operating Limit Provisions require that average full valuations of taxable real property be determined by taking the assessed valuations of taxable real property on the last completed assessment roll and the four (4) preceding assessment rolls of the City and applying thereto the special equalization ratios which such assessed valuations of each such roll bear to the full valuations as fixed and determined by the State Office of Real Property Services ("ORPS") pursuant to Section 1251, Real Property Tax Law, as shown below:

Fiscal Year	Assessed Valuations	Assessment Percentage	Full Valuations
2002	89,539,563,218	0.2283	$392,201,328,156
2003	94,506,250,871	0.2230	423,794,846,955
2004	99,854,097,559	0.2056	485,671,680,734
2005	103,676,971,611	0.2067	501,581,865,559
2006	111,397,956,330	0.2028	549,299,587,426
		AVERAGE	*$470,309,861,766*
2 1/2 percent thereof for Fiscal 2006			$11,762,746,544
Less debt service subject to the 2 1/2 percent tax limitation:			
Temporary debt			
Interest on temporary debt			($26,250,000)
Less aggregate amount of district charges subject to the 2 1/2 percent tax limitation **			($70,278,399)
Constitutional amount subject to the limitation which may be raised for other than debt service in accordance with the provisions of Section 10, Article VIII, of the State Constitution			$11,666,218,145

** The amount to be raised by tax on real property for purposes of the Operating Limit determination is equal to the real property tax levy as reduced by the net reductions in amounts collected as authorized by New York State law.*

*** The tax fixing resolution adopted by the New York City Council on June 30, 2005 projected the amount of district charges to be $69,997,115. Since the adoption of the June 30, 2005 resolution, estimates of Fiscal 2006 district charges have been increased to $70,278,399.*

(iv) Adjusted Base Proportions. Pursuant to the Adjusted Base Proportion Resolution, the Council certified the following adjusted base proportions to be used in determining the Fiscal 2006 tax rates for the four classes of properties:

All One-, Two- and Three-Family Residential Real Property*	14.9461
All Other Residential Real Property	35.4295
Utility Real Property	7.6566
All Other Real Property	41.9678
Total	100.0000

**Includes condominiums of three stories or fewer which have always been condominiums*

(v) Tax Rates on Adjusted Base Proportions.

(A) Pursuant to Section 1516 of the Charter, the Council hereby authorizes and fixes the rates of tax for Fiscal 2006 (1) by class upon each dollar of assessed valuation of real property subject to taxation for all purposes of, and within, the City, as fixed in cents and thousandths of a cent per dollar of assessed valuation, as follows:

	All One, Two and Three Family Residential Real Property*	All Other Residential Real Property	Utility Real Property	All Other Real Property
Subject to the 2 1/2 percent tax limitation as authorized by Article VIII, Section 10, of the State Constitution including a reserve for uncollectible taxes	0.14427	0.11360	0.11281	0.10362
Not subject to the 2 1/2 percent tax limitation as authorized by Article VIII, Sections 10 and 11, of the State Constitution including a reserve for uncollectible taxes	0.01319	0.01036	0.01028	0.00944
Decimal rate on adjusted proportion for all purposes	0.15746	0.12396	0.12309	0.11306

**Includes condominiums of three stories or fewer which have always been condominiums.*

and (2) by class upon each dollar of assessed valuation of veterans' real property exempt under state law from tax for general purposes but subject to tax for school purposes of, and within, the City, as fixed in cents and thousandths of a cent per dollar of assessed valuation, as follows:

	All One, Two and Three Family Residential Real Property*	All Other Residential Real Property	Utility Real Property	All Other Real Property
Subject to the 2 1/2 percent tax limitation as authorized by Article VIII, Section 10, of the State Constitution including a reserve for uncollectible taxes	0.08335	0.06589	0.00000	0.06017
Not subject to the 2 1/2 percent tax limitation as authorized by Article VIII, Sections 10 and 11, of the State Constitution including a reserve for uncollectible taxes	0.00358	0.00283	0.00000	0.00259
Decimal rate on adjusted proportion for all veterans' property exempted under state law from tax for general purposes but subject to tax for school purposes	0.08693	0.06872	0.00000	0.06276

**Includes condominiums of three stories or fewer which have always been condominiums.*

Section 2. Authorization of the Amendment and Restatement of the Levy of Real Property Taxes for Fiscal 2006.

a. Pursuant to Section 1517 of the Charter, the Council hereby authorizes and directs the Commissioner to (i) set down in the Fiscal 2006 Assessment Rolls, opposite to the several sums set down as the valuation of real property, the amended and restated respective sums, in dollars and cents, to be paid as a tax thereon, rejecting the fractions of a cent and add and set down the aggregate valuations of real property in the boroughs of the City and (ii) send a certificate of such aggregate valuation in each such borough to the Comptroller of the State.

b. Pursuant to Section 1518 of the Charter, immediately upon the completion of the Fiscal 2006 Assessment Rolls, the City Clerk shall procure the proper amended and restated warrants in the form attached hereto as Exhibit B to be signed by the Public Advocate of the City ("Public Advocate") and counter-signed by the City Clerk authorizing and requiring the Commissioner to collect the several sums therein mentioned according to law and immediately thereafter the Fiscal 2006 Assessment Rolls of each borough shall be delivered by the Public Advocate to the Commissioner with proper warrants, so signed and counter-signed, annexed thereto.

Section 3. Effective Date. The Tax Fixing Resolution, as hereby amended and restated, shall remain in full force and effect, and this resolution shall take effect as of the date hereof.

EXHIBIT A

THE CITY OF NEW YORK
OFFICE OF THE MAYOR
NEW YORK, N.Y. 10007

June 30, 2005

To The HONORABLE COUNCIL of THE CITY OF NEW YORK

For the Expense Budget of the City of New York as adopted by the Council pursuant to Section 254 of the Charter for the Fiscal Year beginning July 1, 2005 and ending June 30, 2006 (Fiscal Year 2006) the amount of appropriation is:

Amounts Appropriated		$50,187,618,768
The probable amounts and sources of revenues (other than Real Property Taxes) for Fiscal Year 2006, as estimated by me pursuant to Section 1515 of the Charter, are as set forth below:		
Taxes (excluding Real Property Taxes)		$17,590,697,259
Miscellaneous Revenues	$3,537,414,142	
Grants:		
Federal	5,108,347,111	
State	9,320,109,005	
Provision for Disallowances	(15,000,000)	
Unrestricted State and Federal Aid	562,418,737	
Other Categorical Aid	926,433,253	
Anticipated Aid	50,000,000	
Transfer from Capital Funds	364,260,261	
Tax Audit Revenue	511,735,000	
Tax Program	(220,700,000)	
		$20,145,017,509
Making the total amount of the Expense Budget for the Fiscal Year 2006 to be financed by Real Property Taxes (after provision for uncollectibles, refunds and collection of prior years' levies):		$12,451,904,000

EXHIBIT A

In order to achieve the required Real Property Tax yield of $12,451,904,000, a Real Property Tax levy of $13,668,121,226 will be required:

The amount of taxes on real estate to be levied subject to the 2-1/2 percent tax limitation as authorized by Article VIII Section 10 of the State Constitution including a provision for uncollectible taxes	$12,527,099,699
The amount of taxes on real estate to be levied not subject to the 2-1/2 percent tax limitation as authorized by Article VIII Sections 10 and 11(a) of the State Constitution including a provision for uncollectible taxes	$1,141,021,527
Total amount of Real Property Taxes to be levied for the Fiscal Year 2006 is	$13,668,121,226

Very truly yours,

Michael R. Bloomberg
Mayor

EXHIBIT B

FORM OF WARRANT

WARRANT

To Martha E. Stark, the Commissioner of Finance of the City of New York:

You are hereby authorized and required, in accordance with the provisions of the Real Property Tax Law and the Charter of the City of New York, to collect the real property tax on the properties named and described in the real property assessment roll in accordance with the assessments thereon and the tax rates fixed by the City Council for the fiscal year beginning on July 1, 2006.

Public Advocate of the
City of New York

Clerk of the City of
New York

(SEAL)

11

Adopted by the Council (preconsidered and approved by the Committee on Finance.)

Res. No. 1246

Resolution calling upon the United States Senate to reject the nomination of Samuel A. Alito, Jr. as an Associate Justice to the Supreme Court of the United States.

By Council Member Yassky.

Whereas, On July 1, 2005, after 24 terms of service, Sandra Day O'Connor announced her retirement as an Associate Justice of the Supreme Court of the United States; and

Whereas, After the death of Chief Justice William H. Rehnquist and the appointment of John Roberts to that position, President George W. Bush announced that he had selected Harriet Miers to replace Justice O'Connor on the Supreme Court; and

Whereas, Just four days after Harriet Miers withdrew her nomination, President Bush nominated Samuel A. Alito, a Federal Appeals Court judge from the Third Circuit, for that same position; and

Whereas, Unlike Ms. Miers, Judge Alito does have a judicial history, and it is that record which is cause for concern; and

Whereas, As a judge, Judge Alito has consistently made conservative rulings on abortion, with one notable opinion voting to uphold a law requiring a woman to notify her husband before obtaining an abortion, a position which was rejected as unconstitutional by the Supreme Court; and

Whereas, National Abortion and Reproductive Rights Action League (NARAL) President Nancy Keenan has stated that "Alito's confirmation could shift the court in a direction that threatens to eviscerate the core protections for women's freedom guaranteed by Roe v. Wade or overturn the landmark decision altogether"; and

Whereas, The National Organization for Women (NOW) is so concerned about Judge Alito's record and opposed to his nomination that it has called upon Justice O'Connor to remain on the bench; and

Whereas, NOW has also stated that Judge Alito's "decisions in a number of cases demonstrate a rigid adherence to states rights at the expense of those facing sex and race discrimination and other Civil Rights violations"; and

Whereas, According to a November 3, 2005 article on *Bloomberg.com*, in 2003, Judge Alito sought to limit the federal antitrust laws, voting, in a dissenting opinion, to strike down a $68 million award against 3M Company, for monopolizing tape sales at the expense of a smaller rival; and

Whereas, Numerous rulings of Judge Alito's have been distinctly pro-business and are of concern to many, including the Washington advocacy group, Alliance for Justice, which stated that Judge Alito's 3M opinion "would have made it easier for large corporations to engage in practices designed to eliminate competition from smaller businesses"; and

Whereas, According to a November 1, 2005 *Washington Post* article, Judge Alito has argued that Congress did not have the power to ban the intrastate sale of machine guns, an opinion that pro-gun control advocates find disturbing; and

Whereas, Dennis Henigan, legal director of the Brady Center to Prevent Gun Violence, said that Judge Alito's opinion regarding intrastate gun control is "perhaps the most powerful evidence that Judge Alito is very much a right-wing judicial activist"; and

Whereas, According to Democratic National Committee Chairman Howard Dean, Judge Alito's body of work has consistently suggested "an activist judicial philosophy bent on rolling back the rights and freedoms that all Americans value"; and

Whereas, Supreme Court Justices hold unparalleled power to shape national law and policy for generations, and the next Justice could tip the balance in many cases dealing with reproductive rights and other personal freedoms; and

Whereas, A lifetime appointment to the Supreme Court should be used to provide the American people with a Justice who can be relied upon to use his or her experience, skill and wisdom to protect individual rights and freedoms; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the United States Senate to reject the nomination of Samuel A. Alito, Jr. as an Associate Justice to the Supreme Court of the United States.

Referred to the Committee on State and Federal Legislation.

L.U. No. 623

By Council Member Weprin:

Gates Patchen Houses, 940 - 950 Gates Avenue, Block 1638, Lot 6, Brooklyn, Community District 3, Council District No. 41.

CITY PLANNING COMMISSION

■ PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN THAT RESOLUTIONS Have been adopted by the City Planning Commission Scheduling public hearings on the following matters to be held at Spector Hall, 22 Reade Street, New York on Wednesday, January 11, 2006, commencing at 10:00 a.m.

BOROUGH OF THE BRONX
Nos. 1 – 12
YANKEE STADIUM
No. 1

CD 4 **C 060056 MMX**

IN THE MATTER OF an application, submitted by the Department of Parks and Recreation pursuant to Sections 197-c and 199 of the New York City Charter, for an amendment to the City Map involving:

- the establishment of a park addition within an area bounded by East 161st Street, River Avenue, East 157th Street, Major Deegan Boulevard and Macombs Dam Bridge Approach; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. 13113 dated September 22, 2005 and signed by the Borough President.

Resolution for adoption scheduling January 11, 2006 for a public hearing.

No. 2

CD 4 **C 060057 MMX**

IN THE MATTER OF an application, submitted by the Department of Parks and Recreation pursuant to Sections 197-c and 199 of the New York City Charter, for an amendment to the City Map involving:

- the establishment of a park between Major Deegan Boulevard and the Harlem River; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. 13115 dated September 22, 2005 and signed by the Borough President.

Resolution for adoption scheduling January 11, 2006 for a public hearing.

No. 3

CD 4 **C 060058 MMX**

IN THE MATTER OF an application, submitted by the Department of Parks and Recreation pursuant to Sections 197-c and 199 of the New York City Charter, for an amendment to the City Map involving:

- the establishment of parks within an area bounded by East 158th Street, River Avenue, East 153rd Street, and Gerard Avenue; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. 13114 dated September 22, 2005 and signed by the Borough President.

Resolution for adoption scheduling January 11, 2006 for a public hearing.

No. 4

CD 4 **C 060059 MMX**

IN THE MATTER OF an application, submitted by the Department of Parks and Recreation pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of portions of Jerome Avenue between East 164th Street and Macombs Dam Bridge Approach, Macombs Dam Bridge Approach between Jerome Avenue and East 161st Street, and East 161st Street between Macombs Dam Bridge Approach and River Avenue;
- the establishment of a park addition within an area bounded by East 161st Street, River Avenue, East 164th Street, Jerome Avenue and Macombs Dam Bridge Approach;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. 13112 dated September 22, 2005 and signed by the Borough President.

Resolution for adoption scheduling January 11, 2006 for a public hearing.

No. 5

CD 4 **C 060144 PQX**

IN THE MATTER OF an application submitted by the Department of Parks and Recreation and the Department of Citywide Administrative Services, pursuant to Section 197-c of the New York City Charter, for the acquisition of property bounded by East 161st Street, River Avenue, Jerome Avenue, the Macombs Dam Bridge approach, and East 164th Street (Block 2492, Lot 1 and Block 2493, p/o Lot 9).

Resolution for adoption scheduling January 11, 2006 for a public hearing.

No. 6

CD 4 **C 060145 PPX**

IN THE MATTER OF an application submitted by the Department of Citywide Administrative Services (DCAS) and the Department of Parks and Recreation (DPR), pursuant to Section 197-c of the New York City Charter, for the disposition of city-owned property to the New York City Economic Development Corporation, located at Block 2492, Lot 1 and Block 2493, p/o Lot 9 restricted to stadium and related uses only.

Resolution for adoption scheduling January 11, 2006 for a public hearing.

No. 7

CD 4 **C 060146 PPX**

IN THE MATTER OF an application submitted by the Department of Citywide Administrative Services (DCAS) and the Department of Parks & Recreation (DPR), pursuant to Section 197-c of the New York City Charter, for the disposition of six (6) city owned properties to the New York City Economic Development Corporation restricted to public parking and accessory uses:

BLOCK	LOT
2490	1
2539	p/o Lot 2
2357	100
2485	1
2486	1
2482	6

Resolution for adoption scheduling January 11, 2006 for a public hearing.

No. 8

CD 4 **C 060147 PPX**

IN THE MATTER OF an application submitted by the Department of Citywide Administrative Services (DCAS) and the Department of Parks & Recreation (DPR), pursuant to Section 197-c of the New York City Charter, for the disposition to the New York City Economic Development Corporation of six (6) city-owned properties restricted to public parking, retail and accessory uses:

BLOCK	LOT
2499	1
2499	100
2493	p/o Lot 9
2499	108
2354	20
2354	65

Resolution for adoption scheduling January 11, 2006 for a public hearing.

No. 9

CD 4 **C 060148 MCX**

IN THE MATTER OF an application submitted by the Department of Parks and Recreation pursuant to Sections 197-c of the New York City Charter, for a major concession for a tennis facility in a portion of Macombs Dam Park, generally bounded by Jerome Avenue, East 161st Street, Macombs Dam Bridge Approach and the Major Deegan Expressway north-east quadrant westbound exit ramp (Block 2499, part of Lot 108).

Resolution for adoption scheduling January 11, 2006 for a public hearing.

No. 10

CD 4 **C 060148 (A) MCX**

IN THE MATTER OF an application submitted by the Department of Parks and Recreation pursuant to Sections 197-c of the New York City Charter and proposed for modification on December 12, 2005 pursuant to Section 2-06 (c) (1) of the Uniform Land Use Review Procedure for a major concession for a tennis facility in an approximately five acre portion of parkland*, generally bounded by the Harlem River; Ramp A, the 161st Street Exit from the Major Deegan Expressway; Exterior Street; and the inland prolongation of the southern edge of Slip 4 (Block 2539, part of Lot 2).

* Proposed to be mapped Park under related application C 060057 MMX

Resolution for adoption scheduling January 11, 2006 for a public hearing.

No. 11

CD 4 **C 060149 ZSX**

IN THE MATTER OF an application submitted by the Department of Parks and Recreation and the Economic Development Corporation pursuant to Sections 197-c and 201 of the New York City Charter **for the grant of a special permit pursuant to Section 74-512 of the Zoning Resolution to allow a 4-story public parking garage with a maximum capacity of 949 spaces, to allow spaces to be located on the roof, and to allow floor space up to a height of 23 feet above curb level to be exempted from the definition of floor area as set forth in Section 12-10 (DEFINITIONS), on property located at East 151st Street between River Avenue and Gerard Avenue** (Block 2354, Lots 20 and 65 and the demapped volume of East 151st Street), in an M1-2 District..

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, N.Y. 10007.

Resolution for adoption scheduling January 11, 2006 for a public hearing.

No. 12

CD 4 **C 060150 ZSX**

IN THE MATTER OF an application submitted by the Department of Parks and Recreation and the Economic Development Corporation pursuant to Sections 197-c and 201 of the New York City Charter **for the grant of a special permit pursuant to Section 74-54 of the Zoning Resolution to modify the rear yard regulations of Section 43-28 to allow a 4-story public parking garage with a maximum capacity of 949 spaces on property located at East 151st Street between River Avenue and Gerard Avenue** (Block 2354, Lots 20 and 65 and the demapped volume of East 151st Street), in an M1-2 District.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, N.Y. 10007.

Resolution for adoption scheduling January 11, 2006 for a public hearing.

NOTICE

On Wednesday, January 11, 2006, at 10:00 a.m., in Spector Hall, at the Department of City Planning, 22 Reade Street, in Lower Manhattan, a public hearing is being held by the New York City Department of Parks and Recreation in conjunction with the above ULURP hearings to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning the disposition of City-owned property; acquisition of private property by the City; the mapping of new parks and demapping portions of East 161st Street, Macomb's Dam Bridge Approach, and Jerome Avenue; approval of a major concession to operate tennis courts; and a special permit for a public parking garage and to allow modification of rear yard requirements for that garage. The proposed project would facilitate the construction of a new Yankee Stadium one block north of its existing location at East 161st Street and River Avenue in The Bronx, Community District 4; construction of four new parking garages in the vicinity of the proposed stadium; and development of new parkland. The major concession set forth in ULURP Application No. C 060148(A) MCX will be included as an alternative to the Proposed Action in the Final Environmental Impact Statement.

This hearing is being held pursuant to the State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR), CEQR No. 05DPR006X.

No. 13
PELHAM BAY REZONING

CD 10 **C 060179 ZMX**

IN THE MATTER OF an application submitted by the Department of City Planning pursuant to Sections 197-c and 201 of the New York City Charter **for an amendment of the Zoning Map, Section Nos. 4a and 4b:**

1. **eliminating from an existing R7-1 District a C1-2 District bounded by:**

Avenue, a line midway between Parkview Avenue and Bruckner Boulevard (west), a line 100 feet northwesterly of Roberts Avenue, and a line midway between Crosby Avenue and Hobart Avenue; and

d. Westchester Avenue, Roberts Avenue, a line 150 feet southeasterly of Westchester Avenue, a line 100 feet southwesterly of Crosby Avenue, Daniel Street, a line 150 feet westerly of Crosby Avenue, Middletown Road, and a line midway between Mulford Avenue and Mayflower Avenue;

5. **changing from an R6 District to an R5A District property bounded by**

2. Wilkinson Avenue, a line midway between Edison Avenue and Hobart Avenue, a line 370 feet southerly of Wilkinson Avenue, and Edison Avenue;

6. **changing from a R7-1 District to an R5A District property bounded by:**

a. East 196th Street, Burr Avenue, line perpendicular to the southwesterly street line of Burr Avenue distant 135 feet northwesterly (as measured along the street line) from the point of intersection of the southwesterly street line of Burr Avenue and a westerly street line of Westchester Avenue, a line midway between Colonial Avenue and Burr Avenue, a line 100 feet northwesterly of Westchester Avenue, Colonial Avenue, a line 275 feet northwesterly of Westchester Avenue, and a line midway between Colonial Avenue and Burr Avenue;

b. a line 275 feet northwesterly of Westchester Avenue, a line midway between St. Paul Avenue and Colonial Avenue, a line 100 feet northwesterly of Westchester Avenue, and St. Paul Avenue;

c. a line 275 feet northwesterly of Westchester Avenue, a line midway between Continental Avenue and St. Paul Avenue, a line 100 feet northwesterly of Westchester Avenue, and Continental Avenue;

d. a line 150 feet northerly of Buhre Avenue, Edison Avenue, a line 100 feet northerly of Buhre Avenue, and Pilgrim Avenue;

e. a line 100 feet southeasterly of Westchester Avenue, a line 100 feet southwesterly of Crosby Avenue, a line 150 feet southeasterly of Westchester Avenue, and Roberts Avenue;

f. a line 100 feet northwesterly of Roberts Avenue, Jarvis Avenue, Roberts Avenue, and Hobart Avenue; and

g. Daniel Street, a line 100 feet westerly of Crosby Avenue, Middletown Road, and a line 150 feet westerly of Crosby Avenue;

7. **changing from an R7-1 District to an R6 District property bounded by** a line 150 feet northwesterly of Buhre Avenue, a line 100 feet southeasterly of Westchester Avenue, and the northwesterly centerline prolongation of Jarvis Avenue;

8. **establishing within an existing R7-1 District a C1-4 District bounded by:**

a. a line 150 feet southeasterly of Westchester Avenue, Crosby Avenue, a line 100 feet southeasterly of Westchester Avenue, a line midway between Crosby Avenue and Hobart Avenue, a line 150 feet northwesterly of Middletown Road, Hobart Avenue, Middletown Road, and a line 100 feet westerly and southwesterly of Crosby Avenue; and

b. Lee Street, Westchester Avenue, Mulford Avenue, Middletown Road, and Hutchinson River Parkway East;

9. **establishing within an existing and proposed R6 District a C2-4 District bounded by:**

a. Wilkinson Avenue, a line 100 feet easterly of Westchester Avenue and its northerly prolongation, Sands Place, Westchester Avenue, St. Theresa Avenue, a line 100 feet westerly of Westchester Avenue, and a line 100 feet easterly of Hobart Avenue; and

b. Westchester Avenue, Mahan Avenue, a line 150 feet northwesterly of Buhre Avenue, a line 100 feet southeasterly of Westchester Avenue, the northwesterly centerline prolongation of Jarvis avenue, and Buhre Avenue; and

10. **establishing within an existing R7-1 District a C2-4 District bounded by:**

a. a line 100 feet northerly of Wilkinson Avenue, a line 100 feet northwesterly of Westchester Avenue, a line midway between Colonial Avenue and Burr Avenue, the northeasterly prolongation of a line 150 feet northwesterly of Westchester Avenue, Burr Avenue, Westchester Avenue, Wilkinson avenue, and a line 100 feet easterly of Hobart Avenue; and

b. a line 100 feet northerly of Buhre Avenue, Edison Avenue, a line 150 feet northwesterly of Westchester Avenue, Hobart Avenue, Westchester Avenue, Buhre Avenue, Hobart Avenue, a line 100 feet southeasterly of Westchester Avenue, Crosby Avenue, a line 150 feet southeasterly of Westchester Avenue, a line 100 feet southwesterly of Crosby Avenue, a line 100 feet southeasterly of Westchester Avenue, Roberts Avenue, Pilgrim Avenue, Westchester Avenue, Buhre Avenue, and Pilgrim Avenue;

as shown on a diagram (for illustrative purposes only) dated October 17, 2005 and subject to the conditions of CEQR Declaration E-157.

Resolution for adoption scheduling January 11, 2006 for a public hearing.

No. 14
WESTCHESTER SQUARE REZONING

CD 10 **C 060180 ZMX**

IN THE MATTER OF an application submitted by the Department of City Planning pursuant to Sections 197-c and 201 of the New York City Charter **for an amendment of the Zoning Map, Section No. 4b:**

1. **eliminating from within an existing R6 District a C1-2 District bounded by:**

a. East Tremont Avenue, Lane Avenue, Benson Street, a line 100 feet westerly of Lane Avenue, a line 100 feet southwesterly of East Tremont Avenue, and St. Raymond Avenue; and

b. Manning Street, a line 150 feet easterly of Castle Hill Avenue, Westchester Avenue, and Castle Hill Avenue;

2. **eliminating from within an existing R6 District a C2-2 District bounded by:**

a. East Tremont Avenue, Seddon Street, a line 150 feet southerly of East Tremont Avenue, and Castle Hill Avenue;

b. East Tremont Avenue, St. Raymond Avenue, Benson Street, Maclay Avenue, a line 150 feet southerly of East Tremont Avenue, and Saint Peters Avenue; and

c. East Tremont Avenue, a line 100 feet southeasterly of Westchester Avenue, Seabury Avenue, Westchester Avenue, the southwesterly boundary line of St. Peter's Cemetery and its northwesterly and southeasterly prolongation, Butler Place and its southwesterly centerline prolongation, Herschell Street, a line 100 feet southeasterly of Westchester Avenue, Zerega Avenue, Westchester Avenue, a line 150 feet easterly of Castle Hill Avenue, a line 100 feet northerly and northwesterly of Westchester Avenue, a line midway between Zerega Avenue and Parker Street, Tratman Avenue and its southwesterly centerline prolongation, a line 100 feet northeasterly of Zerega Avenue, a line 100 feet northwesterly of Westchester Avenue, Overing Street, and Westchester Avenue;

3. **changing from an R6 District to an R4A District property bounded by** a line 100 feet southeasterly of Westchester Avenue, Herschell Street, a line 125 feet southeasterly of Westchester Avenue, a line 100 feet northeasterly of Herschell Street, Butler Place and its southwesterly centerline prolongation, Herschell Street, Halsey Street, and Zerega Avenue;

4. **changing from an M1-1 District to an R4A District property bounded by** Butler Place and its southwesterly centerline prolongation, a line 100 feet northeasterly of Herschell Street, a line perpendicular to the southwesterly street line of Rowe Street, distant 150 feet northwesterly (as measured along the street line) from the point of intersection of the southwesterly street line of Rowe Street and the westerly street line of Seabury Avenue, Herschell Street, a line 300 feet southeasterly of Halsey Street, a line 100 feet southwesterly of Herschell Street, a line 100 feet southeasterly of Halsey Street, a line 150 feet southwesterly of Herschell Street, Halsey Street, and Herschell Street;

5. **changing from a R6 District to an R5A District property bounded by** a line 100 feet southerly of East Tremont Avenue, Overing Street, Maclay Avenue, a line midway between Benson Street and Overing Street, St. Raymond Avenue, a line 100 feet southwesterly of East Tremont Avenue, a line 225 feet northwesterly of Frisby Avenue, Benson Street, Frisby Avenue, a line 70 feet northeasterly of Overing Street, a line 100 feet northwesterly of Frisby Avenue, Saint Peters Avenue, a line midway between Frisby Avenue and Tratman Avenue, Rowland Street, Tratman Avenue, a line 130 feet southwesterly of Rowland Street, a line 100 feet southeasterly of Tratman Avenue, a line 100 feet northeasterly of Zerega Avenue, Tratman Avenue and its southwesterly centerline prolongation, Parker Street, a line 100 feet northwesterly of Westchester Avenue, Doris Street, Lyon Avenue, a line 100 feet easterly of Castle Hill Avenue, a line midway between Manning Street and Starling Avenue, Glebe Avenue, Glover Street, St. Raymond Avenue, Castle Hill Avenue, Glover Street, a line 50 feet northwesterly of Stearns Street, a line 95 feet northeasterly of Glover Street, Maclay Avenue and its southwesterly centerline prolongation, a line midway between Zerega Avenue and Parker Street, Santa Maria Avenue, Zerega Avenue, Dorsey Street, Hubbell Street, a line 70 feet northwesterly of Dorsey Street, a line 70 feet southwesterly of Seddon Street, a line 50 feet southeasterly of Maclay Avenue, Seddon Street, Maclay Avenue, and Saint Peters Avenue;

6. **establishing within an existing R6 District a C1-4 District bounded by:**

a. East Tremont Avenue, Lane Avenue, Benson Street, a line 100 feet westerly of Lane Avenue, a line 100 feet southwesterly of East Tremont Avenue, and St. Raymond Avenue; and

b. Manning Street, a line 100 feet easterly of Castle Hill Avenue, Westchester Avenue, and Castle Hill Avenue;

7. **establishing within an existing R6 District a C2-4 District bounded by:**

a. East Tremont Avenue, Seddon Street, a line 100 feet southerly of East Tremont Avenue, and Castle Hill Avenue;

b. East Tremont Avenue, St. Raymond Avenue, Benson Street, Maclay Avenue, Overing Street, a line 100 feet southerly of East Tremont Avenue, and Saint Peters Avenue; and

c. East Tremont Avenue, a line 100 feet southeasterly of Westchester Avenue, Seabury Avenue, Westchester Avenue, Herschell Street, a line 100 feet southeasterly of Westchester Avenue, Zerega Avenue, Westchester Avenue, a line 100 feet easterly of Castle Hill Avenue, a line 100 feet northerly and northwesterly of Westchester Avenue, Zerega Avenue, Tratman Avenue, a line 100 feet northeasterly of Zerega Avenue, a line 100 feet northwesterly of Westchester Avenue, Overing Street, and Westchester Avenue; and

d. St. Raymond Avenue, a line 100 feet easterly of Castle Hill Avenue, Manning Street, and Castle Hill Avenue;

Borough of the Bronx, Community District 10, as shown on a diagram (for illustrative purposes only) dated October 17, 2005, and subject to the conditions of CEQR Declaration E-158.

Resolution for adoption scheduling January 11, 2006 for a public hearing.

<u>23-013</u>
<u>Harassment</u>

<u>Within the Greenpoint-Williamsburg anti-harassment area in Community District 1, Borough of Brooklyn, as shown on Map 1 in this Section, the provisions of paragraphs (a) through (d), inclusive, of Section 93-90 (Harassment) shall apply as modified in this Section.</u>

For the purposes of this Section, the following definitions in Section 93-90(a) shall be modified:

Anti-Harassment Area
"Anti Harassment Area" shall mean the Greenpoint-Williamsburg anti-harassment area as shown on Map 1 in this section.

Referral date
"Referral date" shall mean October 4, 2004.

In addition, Section 93-90(d)(3) is modified as follows:

No portion of the #low income housing# required under this Section shall qualify to:

(i) increase the #floor area ratio# pursuant to the provisions of Section 23-90 or Section 62-352 (Inclusionary Housing), or

(ii) increase the maximum height of a #building# or the height above which the gross area per #residential story# of a #building# is limited pursuant to the provisions of Section 62-354 (Special height and setback regulations), paragraphs (b)(2) and (d), or

(iii) satisfy an eligibility requirement of any real property tax abatement or exemption program with respect to any #multiple dwelling# that does not contain such #low income housing#.

Map 1
Greenpoint-Williamsburg anti-harassment area

* * *

23-922
Community Districts 1 and 7, Borough of Brooklyn

The Inclusionary Housing Program shall apply in the following areas:

(a) In the following areas of Community District 1, in the Borough of Brooklyn, located ~~north of the Williamsburg Bridge, Washington Plaza, Borinquen Place and Grand Street~~ in an area bounded by South 5th Street, Grand Street Extension/ Borinquen Place, Union Avenue, Metropolitan Avenue, Humboldt Street, Meeker Avenue, Russell Street, Engert Avenue, McGuinness Boulevard, the Newtown Creek, and the East River:

(1) Waterfront Access Plan BK-1, as set forth in Section 62-352;

(2) all #Special Mixed Use Districts#;

(3) all R6A, R6B and R7A Districts; and

(4) R6 Districts within the following ~~R6~~ areas:

(i) the #block# bounded by Havemeyer Street, North Sixth Street, Metropolitan Avenue and North Fifth Street;

(ii) the #block# bounded by Roebling Street, North Fifth Street, Havemeyer Street, ~~and~~ Metropolitan Avenue, and North Fourth Street;

(iii) those #blocks# bounded by Wythe Avenue, Grand Street, Berry Street and South Third Street;

(iv) those #blocks# and portions of #blocks# bounded by Bedford Avenue, North 1st Street, Driggs ~~Street~~ Avenue, Fillmore Place, Roebling Street, and a line coincident with the centerline of the long dimension of the #blocks# bounded by Bedford Avenue, Grand Street, Roebling Street and South First Street; ~~and~~

(v) that portion of the #block# bounded by Havemeyer Street, Hope Street, Marcy Avenue, and South First Street that is within 100 feet of Grand Street; and

(vi) that portion of the #block# bounded by Franklin Street, Huron Street, Manhattan Avenue and India Street that is within 100 feet of Franklin Street and 100 feet of India Street.

(b) In Community District 7, in the Borough of Brooklyn, in all R8A districts.

23-93
Definitions

For the purposes of the Inclusionary Housing program, matter in italics is defined either in Section 12-10 (DEFINITIONS) or in this Section.

Administering agent

The "administering agent" is the entity or entities identified in the #lower income housing plan# as responsible for ensuring compliance with such plan.

The #administering agent# shall be a not-for-profit organization, unless the Commissioner of Housing Preservation and Development finds that a good faith effort by the developer of the #compensated development# to secure a qualified not-for-profit organization as the #administering agent# was unsuccessful~~, or, in Community District 1, Borough of Brooklyn, if the #floor area# of the #standard units# comprising the #lower income housing# constitutes less than half of the total #residential floor area# or #community facility floor area used# as a not for profit institution with sleeping accommodations in the #building#~~. However, in Community Districts 1 and 7, Borough of Brooklyn, the Commissioner may approve an entity that is responsible for compliance monitoring pursuant to city, state, or federal funding sources, to serve as the #administering agent# during such compliance period.

* * *

23-942
In Community Districts 1 and 7, Borough of Brooklyn

The provisions of this Section 23-942 shall apply in the designated areas set forth in Section 23-922, except within Waterfront Access Plan BK-1.

(a) Maximum floor area ratio

The #floor area# of a #development# or #enlargement# may not exceed the base #floor area ratio# set forth in the table below, except that such #floor area# may be increased by one and one-quarter square feet for each square foot of #floor area# provided for #lower income housing#, up to the maximum #floor area ratio# specified in the table in this Section. However, ~~in Community District 7, Borough of Brooklyn,~~ the amount of #lower income housing# required to receive such bonus #floor area# need not exceed 20 percent of the total #floor area#, exclusive of ground floor non-#residential floor area#, in the #building#.

District	Base #floor area ratio#	Maximum #floor area ratio#
R6B	2.0	2.2
R6*	2.2	2.42
R6A	2.7	3.6
R6**	2.7	3.6
R7A	3.45	4.6
R8A	5.4	7.2

* for #zoning lots#, or portions thereof, beyond 100 feet of a #wide street#

** for #zoning lots#, or portions thereof, within 100 feet of a #wide street#

~~In addition, the following rules shall apply.~~

~~(a)~~(b) Height and setback

~~The compensated #building# must be #developed# or #enlarged# pursuant to the Quality Housing Program or, in #Special Mixed Use Districts#, pursuant to paragraph (b) of Section 123-662, and~~

(1) Except in #Special Mixed Use Districts#, the compensated #building# must be #developed# or #enlarged# pursuant to the height and setback regulations of Section 23-633 (Street wall location and height and setback regulations in certain districts) or Section 35-24 (Special Street Wall Location and Height and Setback Regulations in Certain Districts), as applicable.

(2) In #Special Mixed Use Districts#, where the residence district designation has a letter suffix, the compensated #building# must be #developed# or #enlarged# pursuant to paragraph (b) of Section 123-662 (All buildings in Special Mixed Use Districts with R6, R7, R8, R9 and R10 District designations). Where the #residence district# designation does not have a letter suffix, the compensated #building# must be #developed# or #enlarged# pursuant to the height and setback regulations of Section 23-633 regardless of whether the #building# is #developed# or #enlarged# pursuant to the Quality Housing Program.

~~(b)~~(c) Lower income housing requirements

The #lower income housing# must be provided in accordance with the provisions set forth in Section 23-95 (Lower Income Housing Requirements).

* * *

23-95
Lower Income Housing Requirements

* * *

(f) Permits and certificates of occupancy

No building permit for the #compensated development# shall be issued until the Commissioner of Housing Preservation and Development certifies that an acceptable #lower income housing plan# has been filed and approved.

No temporary certificate of occupancy shall be issued for any part of the #compensated development# until a temporary certificate of occupancy for each unit of #lower income housing# has been issued or, in Community Districts 1 and 7, Borough of Brooklyn, if the #building# has a valid certificate of occupancy and no new certificate of occupancy is required under the preservation option, until the Commissioner has certified to the Department of Buildings that the applicant has fulfilled its obligations with respect to the #lower income housing#. No permanent certificate of occupancy shall be issued for any part of the #compensated development# until a permanent certificate of occupancy for each unit of the #lower income housing# has been issued or, in Community Districts 1 and 7, Borough of Brooklyn, if the #building# has a valid certificate of occupancy and no new certificate of occupancy is required under the preservation option, until the Commissioner has certified to the Department of Buildings that the applicant has fulfilled its obligations with respect to the #lower income housing#. Prior to the issuance of any temporary or permanent certificate of occupancy for the #compensated development#, the Commissioner of Housing Preservation and Development shall certify that the #lower income housing# is in compliance with the #lower income housing plan#.

* * *

23-951
On-site new construction option

* * *

(b) #Dwelling units# designated as #lower income housing# shall be distributed throughout the #development#. No #story# shall contain more than two such units unless at least 80 percent of all #stories# contain two such units. The size of the designated #lower income housing# units shall at least be distributed among the various size units in proportion to the total distribution of unit size within the #building# in the following categories of unit sizes:

under 600 net square feet
600 - 749 net square feet
750 - 949 net square feet
950 - 1149 net square feet
1150 or more net square feet

~~In Community District 1, Borough of Brooklyn, the requirements of this paragraph, (b), may be waived by the Commissioner of Housing Preservation and Development to facilitate the #development# of #lower income housing#.~~

In Community Districts 1 and 7, Borough of Brooklyn, if the #lower income housing# is subject to the requirements of city, state or federal programs assisting the #lower income housing# that have size and distribution requirements conflicting with the size and distribution requirements of this paragraph, (b), then the size and distribution requirements of this paragraph, (b), may be waived by the Commissioner of Housing Preservation and Development to facilitate the #development# of #lower income housing#.

* * *

24-012
Harassment

Within the Greenpoint-Williamsburg anti-harassment area set forth in Section 23-013, the provisions of Section 23-013 shall apply to any #zoning lot# containing a #building used# partly for a #residential use#.

* * *

24-161
Maximum floor area ratio for zoning lots containing community facility and residential uses
R1 R2 R3-1 R3A R3X R4-1 R4A R4B R6A R6B R7-2 R7A R7B R7X R8 R9 R10

In the districts indicated, for #zoning lots# containing #community facility# and #residential uses#, the maximum #floor area ratio# permitted for a #community facility use# shall be as set forth in Section 24-11, inclusive, and the maximum #floor area ratio# permitted for a #residential use# shall be as set forth in Article II, Chapter 3, provided the total of all such #floor area ratios# does not exceed the greatest #floor area ratio# permitted for any such #use# on the #zoning lot#.

~~The following rules shall apply i~~In the designated areas set forth in Section 23-922 (Community Districts 1 and 7, Borough of Brooklyn)~~,~~:

~~(a) The provisions of this Section 24-161 shall apply in the following areas:~~

~~(1) those portions of #blocks# bounded by a line 82 feet west of Franklin Street, a line 100 feet~~

~~north of Freeman Street, a line 100 feet west of Franklin Street, Freeman Street, Franklin Street, and Eagle Street, and~~

~~(2) those #blocks# and portions of #blocks# bounded by Berry Street, North 5th Street, a line 100 feet southeasterly of Havemeyer Street, North 6th Street, Havemeyer Street, North 7th Street, Roebling Street, North 8th Street, Driggs Avenue, North 9th Street, a line 100 feet southeasterly of Bedford Avenue, North 11th Street, Union Avenue, Richardson Street, Leonard Street, Bayard Street, Graham Avenue, Driggs Avenue, North 12th Street, a line midway between Bedford Avenue and Berry Street, and North 10th Street.~~

~~(b) In the designated areas set forth in Section 23-922 (Community District 1, Borough of Brooklyn), except as set forth in paragraph (a) above and~~ except within Waterfront Access Plan BK-1, the #floor area ratios# of Section 23-942 shall apply where the #residential# portion of a #building# is #developed# or #enlarged# pursuant to the Quality Housing Program.

* * *

35-31
Maximum Floor Area Ratio for Mixed Buildings

C1 C2 C3 C4 C5 C6

In all districts, except as set forth in Section 35-311, the provisions of this Section shall apply to any #zoning lot# containing a #mixed building#.

* * *

~~The following rules shall apply i~~In the designated areas set forth in Section 23-922 (Community Districts 1 and 7, Borough of Brooklyn),

~~(a) The provisions of this Section 35-31 shall apply in the following areas:~~

~~(1) those portions of #blocks# bounded by a line 82 feet west of Franklin Street, a line 100 feet north of Freeman Street, a line 100 feet west of Franklin Street, Freeman Street, Franklin Street, and Eagle Street, and~~

~~(2) those #blocks# and portions of #blocks# bounded by Berry Street, North 5th Street, a line 100 feet southeasterly of Havemeyer Street, North 6th Street, Havemeyer Street, North 7th Street, Roebling Street, North 8th Street, Driggs Avenue, North 9th Street, a line 100 feet southeasterly of Bedford Avenue, North 11th Street, Union Avenue, Richardson Street, Leonard Street, Bayard Street, Graham Avenue, Driggs Avenue, North 12th Street, a line midway between Bedford Avenue and Berry Street, and North 10th Street.~~

~~(b) In the designated areas set forth in Section 23-922 (Community District 1, Borough of Brooklyn), except as set forth in paragraph (a) above, and~~ except within Waterfront Access Plan BK-1, the #floor area ratios# of Section 23-942 shall apply where the #residential# portion of a #building# is #developed# or #enlarged# pursuant to the Quality Housing Program.

* * *

62-341
Developments on land and platforms

All #developments# on portions of a #zoning lot# landward of the #shoreline# or on #platforms# shall be subject to the height and setback provisions of this Section. However, when the seaward view from all points along the shoreline of a #zoning lot# is entirely obstructed by existing elevated roads, bridges or similar structures which are less than 50 feet above mean high water and within 200 feet of the #shoreline#, #developments# shall be exempt from the requirements of this Section. Height and setback regulations for #developments# on #piers# and #floating structures# are set forth in Sections 62-342 and 62-343.

(a) For the purposes of applying the height and setback regulations of this Section, the following provisions shall apply:

(1) #Street lines#

For the purposes of paragraphs (c) and (d) of this Section and of paragraph (h) of Section 62-354, a #shore public walkway#, #visual corridor#, #upland connection# or #supplemental public access area# shall be considered a #street# and its boundary shall be treated as a #street line#. Any #visual corridor# or #upland connection# that measures at least 75 feet in width, or any #shore public walkway# or #supplemental public access area#, shall be considered a #wide street#. Any other #visual corridor# or #upland connection# shall be considered a #narrow street#.

62-352
Inclusionary Housing

* * *

(b) Floor area increase

(1) For #zoning lots# located in R8 Districts, or located partially in R8 Districts and partially in R6 Districts, the maximum permitted #floor area ratio# on such #zoning lots# may be increased in R6 Districts from 2.43 to 2.75, and in R8 Districts from 4.88 to 6.5, provided that:

(i) at least 20% of the total #residential floor area# on the #zoning lot# is occupied by lower income households#, or

(ii) at least 10% of the total #residential floor area# on the #zoning lot# is occupied by #lower income households# and at least 15% of the total #residential floor area# on the #zoning lot# is occupied by #moderate income households#.

(2) For #zoning lots# located entirely within R6 Districts, the maximum permitted #floor area ratio# may be increased from 2.43 to 2.75 provided that:

(i) at least 7.5% of the total #residential floor area# on the #zoning lot# is occupied by #lower income households#, or

(ii) at least 5% of the total #residential floor area# on the #zoning lot# is occupied by #lower income households# and at least 5% of the total #residential floor area# on the #zoning lot# is occupied by #moderate income households#.

Where #lower# or #moderate income housing# is provided on a #zoning lot# other than the #zoning lot# occupied by the compensated #development#, the percentage of #residential floor area# required to be occupied by such households pursuant to this Section shall be determined as a percentage of the #residential floor area# on the #zoning lot# of such compensated #development#, inclusive of #floor area# bonused pursuant to this Section.

For the purposes of determining the amount of #lower income housing# required to increase the maximum permitted #floor area# pursuant to this paragraph (b), community facility #floor area# used as a philanthropic or not-for-profit institution with sleeping accommodations shall be considered #residential floor area#.

Any #zoning lot# located entirely within an R6 District that, in conjunction with a #zoning lot# located partially or entirely within an R8 District, utilizes a distribution of #floor area#, #lot coverage# or #residential# density without regard to #zoning lot lines# or district boundaries pursuant to Section 62-353 (Special floor area, lot coverage and residential density distribution regulations), shall comply with the provisions of paragraph (b)(1) of this Section.

* * *

(d) Permits and certificate of occupancy

The requirements of paragraph (f) of Section 23-94 shall not apply. In lieu thereof, the provisions of this paragraph (d) shall apply.

No building permit for any portion of the #compensated development# that utilizes #floor area# bonused pursuant to paragraph (b) of this Section, or is located on any #story# that utilizes the increased height for #developments# that provide Inclusionary Housing as set forth in paragraph (b)(2) of Section 62-354 (Special Height and Setback Regulations) shall be issued until the Commissioner of Housing Preservation and Development certifies that an acceptable #lower income housing plan# has been filed and approved.

No temporary certificate of occupancy shall be issued for any portion of the #compensated development# that utilizes #floor area# bonused pursuant to paragraph (b) of this Section, or is located on any #story# that utilizes the increased height for #developments# that provide Inclusionary Housing as set forth in paragraph (b)(2) of Section 62-354 (Special Height and Setback Regulations), until a temporary certificate of occupancy for each unit of #lower income housing# that is the subject of the #lower income housing plan# accepted by the Commissioner of Housing Preservation and Development has been issued or, if the building has a valid certificate of occupancy and no new certificate of occupancy is required under the preservation option, until the Commissioner has certified to the Department of Buildings that the applicant has fulfilled its obligations with respect to the lower income housing. No permanent certificate of occupancy shall be issued for any portion of the #compensated development# that utilizes #floor area# bonused pursuant to paragraph (b) of this Section, or is located on any #story# which utilizes the increased height for #developments# that provide Inclusionary Housing as set forth in paragraph (b)(2) of Section 62-354 (Special Height and Setback Regulations), until a permanent certificate of occupancy for each unit of #lower income housing# that is the subject of the #lower income housing plan# accepted by the Commissioner of Housing Preservation and Development has been issued or, if the building has a valid certificate of occupancy and no new certificate of occupancy is required under the preservation option, until the Commissioner has certified to the Department of Buildings that the applicant has fulfilled its obligations with respect to the lower income housing.

* * *

62-354
Special Height and Setback Regulations

* * *

(e) Paragraph (c)(6) shall not apply. In lieu thereof, the outermost walls of each #story# located entirely above a height of 85 feet shall be inscribed within a rectangle. The maximum length of any side of such rectangle that is parallel or within 45 degrees of being parallel to Kent Avenue, West Street or Commercial Street, whichever is closest, shall not exceed 110 feet. The maximum length of any other side of such rectangle shall not exceed 170 feet, except that for #buildings# where at least 20 percent of the total #floor area# is comprised of #lower income housing# pursuant to Section 62-352, such maximum length of 170 feet shall apply above a height of 100 feet.

(e) Special public access provisions by parcel

* * *

(5) Parcel 5c

* * *

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided on Parcel 5c.

A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7. The requirements for a waterfront plaza described in paragraph (b)(3) of this Section shall apply.

The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the pedestrian circulation zone of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, ~~the planting requirements for Waterfront Plaza shall apply, except that~~ one shade tree shall be required for each 1,000 square feet of #supplemental public access area#, but in no event shall more than four shade trees be required. A shading element may be substituted for the required shade trees ~~may be substituted by a shading element~~ at a rate of 450 sq. ft. of shade element per tree.

* * *

(13) Parcel 25

* * *

(iii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.

One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet ~~from the southern #street line# of North 7th Street~~ measured from the #shore public walkway#. The entire #supplemental public access area#, excluding the required buffer, shall be developed as clear circulation path.

A minimum of one linear foot of seating shall be required for every 40 square feet of pedestrian circulation zone and shall be located in the required buffer zone. Four trees shall be required, at least two of which are shade trees. Small or ornamental trees located within the buffer zone shall not be counted toward the minimum requirements.

The remaining required #supplemental public access area# shall be located either on the #pier# or abut the #shore public walkway# continuously along its longest side, and shall also abut the required #upland connection# where it meets the #shore public walkway#. At least 70 percent of the required #supplemental public access# shall have a width to depth ratio of 2:1. The requirements for a waterfront plaza described in paragraph (b)(3) of this Section shall apply. If any #supplemental public access area# is located on the #pier#, ~~the planting requirements for Waterfront Plaza shall apply, except that~~ one shade tree shall be required for each 1,000 square feet of #supplemental public access area#, but in no event shall more than four shade trees be required. A shading element may be substituted for the required shade trees ~~may be substituted by a shading element~~ at a rate of 450 sq. ft. of shade element per tree.

* * *

(14) Parcel 26

* * *

(ii) #Upland connections#

An #upland cnnection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street. However, if the #upland connection# is provided within a private drive pursuant to Section 62-622, then a portion of the southern pedestrian circulation zone beyond 15 feet from Kent Avenue may be located up to 15 feet outside the prolongation of the #street lines# of North 4th Street, provided that this pedestrian circulation zone is not located entirely outside the prolongation of the #street lines# of North 4th Street at any point within 80 feet of Kent Avenue.

123-64
Maximum Floor Area Ratio and Lot Coverage Requirements for Mixed Use Buildings

(a) Maximum #floor area ratio#

(1) Manufacturing or commercial portions

The maximum #floor area ratio# permitted for the #manufacturing# or #commercial# portion of a #mixed use building# in #Special Mixed Use Districts# shall be the applicable maximum #floor area ratio# permitted for #manufacturing# or #commercial buildings# under the provisions of Section 43-12, in accordance with the designated M1 District.

(2) Community facility portion

The maximum #floor area ratio# permitted for the #community facility# portion of a #mixed use building# in #Special Mixed Use Districts# shall be the applicable maximum #floor area ratio# permitted for #community facility buildings# in #Residence Districts# under the provisions of Section 24-11, in accordance with the designated #Residence District#.

(3) #Residential# portion

Where the #Residence District# designation is an R3, R4 or R5 District, the maximum #floor area ratio# permitted for the #residential# portion of a #mixed use building# in #Special Mixed Use Districts# shall be the applicable maximum #floor area ratio# permitted for #residential buildings# under the provisions of Sections 23-14 and 23-141, in accordance with the designated #Residence District#.

Where the #Residence District# designation is an R6, R7, R8, R9 or R10 District, the maximum #floor area ratio# permitted for the #residential# portion of a #mixed use building# in #Special Mixed Use Districts# shall be the applicable maximum #floor area ratio# permitted for #residential buildings# under the provisions of Section 123-63, in accordance with the designated #Residence District#.

(4) Maximum #floor area# in #mixed use buildings#

The maximum total #floor area# in a #mixed use building# in #Special Mixed Use Districts# shall be the maximum #floor area# permitted for either the #commercial#, #manufacturing#, #community facility# or #residential# portion of such #building#, as set forth in this Section, whichever permits the greatest amount of #floor area#.

However, in the designated areas set forth in Section 23-922 (Community District 1, Borough of Brooklyn), ~~the following rules shall apply:~~

~~(i) The provisions of paragraph (a)(4) of this Section 123-64 shall apply in the following areas:~~

~~(1) those portions of #blocks# bounded by a line 82 feet west of Franklin Street, a line 100 feet north of Freeman Street, a line 100 feet west of Franklin Street, Freeman Street, Franklin Street, and Eagle Street, and~~

~~(2) those #blocks# and portions of #blocks# bounded by Berry Street, North 5th Street, a line 100 feet southeasterly of Havemeyer Street, North 6th Street, Havemeyer Street, North 7th Street, Roebling Street, North 8th Street, Driggs Avenue, North 0th Street, a line 100 feet southeasterly of Bedford Avenue, North 11th Street, Union Avenue, Richardson Street, Leonard Street, Bayard Street, Graham Avenue, Driggs Avenue, North 12th Street, a line midway between Bedford Avenue and Berry Street, and North 10th Street.~~

~~(ii) In the designated areas set forth in Section 23-922 (Community District 1, Borough of Brooklyn), except as set forth in paragraph (i) above and~~ except within Waterfront Access Plan BK-1, the #floor area ratios# of Section 23-942 shall apply.

BOROUGH OF QUEENS

Nos. 6 & 7
SOUTH JAMAICA I URBAN RENEWAL PLAN/NEW FOUNDATIONS

No. 6

CD 12 **C 050422 HUQ**

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD), pursuant to Section 505 of Article 15 of the General Municipal (Urban Renewal) Law of New York State and Section 197-c of the New York City Charter, for the 6th amendment to the South Jamaica I Urban Renewal Plan for the South Jamaica Urban Renewal Area.

The proposed plan:

1. Revises the land use definition to permit residential, commercial and community facility uses on residential sites where permitted by zoning.

2. Deletes sites from the plan that have been developed or rehabilitated by private owners.

3. Subdivides Site 4B into sites: 4b, 4c, and 4d; and Site 13 into sites: 13a, 13b, 13c, 13d and 13e.

These changes would facilitate the development of a mixed-use building with two residential units and commercial space to be developed under the Department of Housing Preservation and Development's New Foundation Program.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 7

CD 12 **C 050423 HAQ**

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

   a) the designation of property located at 115-40 and 115-42 Sutphin Boulevard (Block 11994, Lots 13 and 14) Site 4C within the South Jamaica I Urban Renewal Area, as an Urban Development Action Area; and

   b) an Urban Development Action Area Project for such area;

2) pursuant to Section 197-c of the New York City Charter for the disposition of such lots to a developer to be selected by HPD;

to facilitate the development of a mixed-use building with two residential units and commercial space to be developed under the Department of Housing Preservation and Development's New Foundation Program

Resolution for adoption scheduling January 25, 2006 for a public hearing.

FLIGHT 587 MEMORIAL PARK

CD 14 **C 060090 MMQ**

IN THE MATTER OF an application, submitted by the Department of Parks and Recreation and the Department of Transportation pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of portions of Beach 116th Street and Ocean Promenade;
- the modification and the realignment of the turnaround at the southerly terminus of Beach 116th Street;
- the establishment of a Memorial Park;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. 4982 dated October 6, 2005 and signed by the Borough President.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF STATEN ISLAND
No. 9
GATEWAY CATHEDRAL

CD 3 **C 060134 ZSR**

IN THE MATTER OF an application submitted by Gateway Cathedral pursuant to Sections 197-c and 201 of the New York City Charter for **the grant of a special permit** pursuant to Section 74-53 of the Zoning Resolution **to modify the requirements of Section 25-12 (Maximum Size of Accessory Group parking Facilities) to allow a group parking facility accessory to uses in a large-scale community facility development with a maximum of 941 spaces on property located at 200 Boscombe Avenue** (Block 7577, Lot 3), in an R3X District, within the Special South Richmond Development District.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, N.Y. 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF MANHATTAN
No. 10
SPECIAL WEST CHELSEA DISTRICT TEXT AMENDMENT

CD 4 **N 060199 ZRM**

IN THE MATTER OF an application submitted by the Department of City Planning pursuant to Section 201 of the New York City Charter for an amendment of the Zoning Resolution of the City of New York, relating to Article IX, Chapter 8 (Special West Chelsea District),.

Matter in underline is new, to be added;
Matter in ~~strikeout~~ is old, to be deleted;
Matter within # # is defined in Section 12-10 (DEFINITIONS)
* * * indicates where unchanged text appears in the Resolution

* * *

Article IX - Special Purpose Districts

Chapter 8
Special West Chelsea District

* * *

98-10
SPECIAL USE AND PARKING REGULATIONS WITHIN THE SPECIAL WEST CHELSEA DISTRICT

98-11
Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line

The Commissioner of Buildings shall not issue any building permit for demolition, excavation or foundation work to be performed above or beneath the #High Line# or within 25 feet of support structures of the #High Line#, except by determination by such Commissioner that such work would not adversely affect the structural integrity of the #High Line# and by determination by the ~~City agency or official designated by the Office of the Mayor for such purpose~~Commissioner of Parks that such work would not adversely affect the City's ability to inspect and maintain as necessary to ensure the structural integrity of the #High Line#.

* * *

98-18
Parking Regulations in Subarea H

#Accessory# off-street parking spaces for existing or new governmental offices may be located on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided that:

(a) such spaces are located within Subarea H and in a facility, or portion thereof, that is entirely below #curb level#;

(b) the portion of such facility beneath the required public plaza area shown on Diagram 3 in Appendix A is sufficiently below #curb level# so that trees may be planted at #curb level# within such public plaza but is in no case less than 4 feet below curb level; and

(c) ~~and that~~ no more than 377 spaces are provided within such facility

For purposes of this Section, the governmental offices on Block 688, Lots 1001-1002 as of June 23, 2005, may have up to 377 #accessory# off-street parking spaces in such facility.

98-40
SPECIAL YARD, HEIGHT AND SETBACK, AND MINIMUM DISTANCE BETWEEN BUILDINGS REGULATIONS

* * *

98-423
Street wall location, minimum and maximum base heights and maximum building heights

The provisions set forth in paragraph (a) of this Section shall apply to all #developments# and #enlargements#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (f) of this Section.

(a) On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along such entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in the table of this Section. On #corner lots# with both #wide# and #narrow street# frontages, a #street wall# with a minimum height of 15 feet shall be located on ~~a~~ the #narrow street line# ~~beyond 50 feet of its intersection with a #wide street# and extend along such entire #narrow street# frontage of the #zoning lot#~~ between 50 and 100 feet from its intersection with a #wide street#. On all other #narrow street# frontages, the #street wall# shall be located on the #street line# and extend along at least 70 percent of the #narrow street# frontage of the #zoning lot# up to at least the minimum base height specified in the table in this Section.

* * *

(b) Subareas A and D

(1) #Street wall# location

In Subarea D, on #corner lots# between the north side of West 18th Street and the south side of West 22nd Street, a #street wall# with a minimum height of 15 feet shall be located on the #narrow street line# between 50 and 150 feet of its intersection with Eleventh Avenue.

In Subarea D, for #buildings# that do not include towers as set forth in paragraph (b)(3) of this Section, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front. In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within 10 feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.

* * *

98-424
Authorization to modify ~~height and setback~~certain bulk regulations

For #zoning lots# located entirely within 75 feet of the west side of the #High Line#, the City Planning Commission may authorize the modification of height and setback regulations set forth in Section 98-40 and 98-50, inclusive, ~~and~~ the transparency requirements set forth in Sections 98-141 and 98-54, and the underlying #rear yard# and minimum distance between #legally required windows# and walls or #lot lines# regulations. The Commission shall find that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public areas.

* * *

98-50
SPECIAL HEIGHT AND SETBACK, OPEN AREA AND TRANSPARENCY REGULATIONS FOR ZONING LOTS WITHIN OR ADJACENT TO THE HIGH LINE TRANSFER CORRIDOR

98-51
Height and Setback Regulations on the East Side of the High Line

* * *

(b) In C6-3A Districts and in Subareas C, F and G

For #zoning lots# extending less than ~~120~~ 115 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of a #building# shall exceed a height of 3 feet, 6 inches above the level of the #High Line bed#.

For #zoning lots# that extend for at least ~~120~~ 115 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of the #building# shall exceed a height of 3 feet, 6 inches above the level of the #High Line bed#, except that a maximum of 40 percent of such #High Line frontage# may rise without setback above a height of 3 feet, 6 inches above the level of the #High Line bed# provided such portion of the #building# is not located directly between the #High Line# and any #street wall# of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (c) (Subareas C, F and I) of Section 98-423 (Street wall location, minimum and maximum base heights and maximum building heights).

However, the provisions of this paragraph, (b), shall not apply to any #zoning lot# existing on June 23, 2005 where the greatest distance between the eastern side of the #High Line# and a ~~#side~~ lot line# east of the #High Line# is 35 feet when measured parallel to the nearest #narrow street line#.

* * *

98-60
SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS

98-61
High Line Access Easement Volume Requirement

* * *

(e) such #development# or #enlargement# is located wholly within an M1-5 District and no portion of such #development# or #enlargement# has more than 10,000 square feet of #floor area# and is located within five feet of the #High Line#.; or

(f) such #development# or #enlargement# is located on a #zoning lot# that fronts on West 23rd Street.

* * *

98-70
SUPPLEMENTAL REGULATIONS

In the Special West Chelsea District, the provisions of paragraphs (a) through (d), inclusive, of Section 93-90 (HARASSMENT) shall apply as modified in this Section.

For the purposes of this Section, the following definitions in Section 93-90 (HARASSMENT) shall be modified:

Anti-harassment area

"Anti-harassment area" shall mean the #Special West Chelsea District#

Referral date

"Referral date" shall mean December 20, 2004.

In addition, Section 93-90(d)(3) is modified as follows:

No portion of the #low income housing# required under this Section shall qualify to:

(a) increase the #floor area ratio# pursuant to the provisions of the #Special West Chelsea District#, #Special Hudson Yards District#, #Special Garment Center District#, #Special Clinton District# or Section 23-90, or

(b) satisfy an eligibility requirement of any real property tax abatement or exemption program with respect to any #multiple dwelling# that does not contain such #low income housing#.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

YVETTE V. GRUEL, Calendar Officer
City Planning Commission

TRANSPORTATION

■ PUBLIC HEARINGS

Notice is hereby given, pursuant to law, that the following proposed revocable consents have been scheduled for a public hearing by the New York City Department of Transportation. The hearing will be held at 40 Worth Street, Room 814, Borough of Manhattan, commencing at 2:00 P.M. on Wednesday, January 25, 2006. Interested parties can obtain copies of proposed agreements or request sign-language interpreters (with at least seven days prior notice) at 40 Worth Street, 9 South, New York, NY 10013, or by calling (212) 442-8040.

#1 In the matter of a proposed revocable consent authorizing Bishop Francis J. Mugavero Center for Geriatric Care, Inc. to continue to maintain and use planted areas, on the south sidewalk of Pacific Street, east of Hoyt Street, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016 and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2016 - $ 265/per annum

the maintenance of a security deposit in the sum of $3,000, and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#2 In the matter of a proposed revocable consent authorizing Brookdale Hospital Medical Center to continue to maintain and use conduits, together with a street vault and a manhole, under and across Rockaway Parkway, north of Linden Boulevard, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016 and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2007 - $12,045
For the period July 1, 2007 to June 30, 2008 - $12,347
For the period July 1, 2008 to June 30, 2009 - $12,649
For the period July 1, 2009 to June 30, 2010 - $12,951
For the period July 1, 2010 to June 30, 2011 - $13,253
For the period July 1, 2011 to June 30, 2012 - $13,555

For the period July 1, 2012 to June 30, 2013 - $13,857
For the period July 1, 2013 to June 30, 2014 - $14,159
For the period July 1, 2014 to June 30, 2015 - $14,461
For the period July 1, 2015 to June 30, 2016 - $14,763

the maintenance of a security deposit in the sum of $14,800 and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#3 In the matter of a proposed revocable consent authorizing North Fork Bank to continue to maintain and usea nine (9) lampposts, together with electrical conduits, in and on the sidewalks of Manhattan Avenue and Calyer Street, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2016 - $1,350/per annum

the maintenance of a security deposit in the sum of $2,000, and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#4 In the matter of a proposed revocable consent authorizing The New York Community Hospital of Brooklyn, Inc. to continue to maintain and use a ramp on the south sidewalk of Avenue O, west of Kings Highway, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2016 - $25/per annum

the maintenance of a security deposit in the sum of $15,000, and the filing of an insurance policy in the minimum amount of $500,000/$2,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $200,000.

#5 In the matter of a proposed revocable consent authorizing Montefiore Medical Center to continue to maintain and use a tunnel, under and across Bainbridge Avenue, north of East 210th Street, in the Borough of the Bronx. COURT NOTICES

SUPREME COURT

■ NOTICE

QUEENS COUNTY
IA PART 8
NOTICE OF ACQUISITION
INDEX NUMBER 23585/05

In the Matter of Application of the CITY OF NEW YORK relative to acquiring title in fee simple absolute to certain real property where not heretofore acquired for **182nd Street from 149th Road to 150th Avenue, 182nd Street from 148th Drive to 147th Avenue, 150th Avenue from Rockaway Boulevard to Guy Brewer Boulevard** in the Borough of Queens, City and State of New York.

PLEASE TAKE NOTICE, that by order of the Supreme Court of the State of New York, County of Queens, IA Part 8 (Hon. Jaime A. Rios, J.S.C.), duly entered in the office of the Clerk of the County of Queens on December 9, 2005, the application of the City of New York to acquire certain real property, for 182nd Street from 149th Road to 150th Avenue, 182nd Street from 148th Drive to 147th Avenue, 150th Avenue from Rockaway Boulevard to Guy Brewer Boulevard, was granted and the City was thereby authorized to file an acquisition map with the Office of the City Register. Said map, showing the property acquired by the City, was filed with the City Register on December 16, 2005. Title to the real property vested in the City of New York on December 16, 2005.

PLEASE TAKE FURTHER NOTICE, that the City has acquired the following parcels of real property:

Damage Parcel	Block	Lot
1	13410	p/o 18
2	13410	p/o 10
3	13412	p/o 1
6	13407	p/o 5
7	13407	p/o 36
8	13407	p/o 34
9	13407	p/o 32
10	13407	p/o 12
11	13407	p/o 25
12 & 13	13407	p/o 1
14	13408	p/o 9
15	13408	p/o 1
16	13384	p/o 65
17	13384	p/o 84
18	13384	p/o 80
19	13387	p/o 79
20	13387	p/o 75

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to sections 503 and 504 of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired in the above-referenced proceeding and having any claim or demand on account thereof is hereby required, on or before December 16, 2006 (which is one (1) calendar year from the title vesting date), to file a written claim with the Clerk of the Court of Queens County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007. Pursuant to EDPL section 504, the claim shall include:

A. the name and post office address of the condemnee;

B. reasonable identification by reference to the acquisition map, or otherwise, of the property affected by the acquisition, and the condemnee's interest therein;

C. a general statement of the nature and type of damages claimed, including a schedule of fixture items which comprise part or all of the damages claimed; and,

D. if represented by an attorney, the name, address and telephone number of the condemnee's attorney.

Pursuant to EDPL section 503(C), in the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.

PLEASE TAKE FURTHER NOTICE, that, pursuant to section 5-310 of the New York City Administrative Code, proof of title shall be submitted to the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007 on or before December 16, 2007 (which is two (2) calendar years from the title vesting date).

Dated: December 19, 2005 New York, New York,
MICHAEL A. CARDOZO, Corporation Counsel
of the City of New York
Attorney for the Condemnor
100 Church Street, New York, New York 10007

Services (Other Than Human Services)

WMD AND COASTAL STORM FIELD EXERCISES – Negotiated Acquisition – PIN# 017OEM06002 – DUE 01-23-06 AT 5:00 P.M. – Due to the short timeframe in which these services must be conducted, we have determined there is insufficient time to conduct an open, competitive solicitation, and it is in the best interest of the City to extend the contract with the current provider for an additional 12 months. Additionally, it would be impracticable for a vendor who does not have experience with the specific operations of NYC to be able to design and implement this exercise in the timeframe needed.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

JUVENILE JUSTICE

■ SOLICITATIONS

Human / Client Service

NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 09-01-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew.

Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. If a vendor is interested in being considered for award of a contract described above, please hand deliver a written expression of interest addressed to Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 pursuant to the terms of the solicitation document.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

The Department of Housing Preservation and Development has received an application for a certification that during the inquiry period noted for the premises above, that no harassment has occurred at such premises in the form of threats, use of physical force, deprivation of essential services such as heat, water, gas or electric, or by any other conduct intended to cause persons to vacate the premises or waive rights related to their occupancy. Upon the issuance of a Certification, an owner can legally convert the premises to non-single room occupancy use.

Comments as to whether harassment has occurred at the premises should be submitted to the Operations Division, Anti-Harassment Unit, 100 Gold Street, 3rd Floor, New York, NY 10038, by letter postmarked not later than 30 days from the date of this notice or by an in-person statement made within the same period. To schedule an appointment for an in-person statement call (212) 863-8272.

REQUEST FOR COMMENT ON APPLICATION FOR CERTIFICATION OF NO HARASSMENT PURSUANT TO THE SPECIAL CLINTON DISTRICT PROVISIONS OF THE ZONING RESOLUTION

DATE OF NOTICE: January 6, 2006

TO: OCCUPANTS, FORMER OCCUPANTS AND OTHER INTERESTED PARTIES OF

Address – Application # – Inquiry Period

306 West 48th Street, Manhattan – C15/05 – September 5, 1973 to Present

Prior to the issuance of a permit by the Department of Buildings for the alteration or demolition of residential buildings in certain areas of the Special Clinton District, the Department of Housing Preservation and Development is required to certify that: 1) prior to evicting or otherwise terminating the occupancy of any tenant preparatory to alteration or demolition, the owner shall have notified HPD of the owner's intention to alter or demolish the building and 2) the eviction and relocation practices followed by the owner of the building satisfy all applicable legal requirements and that no harassment has occurred.

The owner of the building located at the above-referenced address seeks the issuance of an HPD Certification. The owner has represented and certified to HPD of the owner's intention to alter or demolish the building and that the eviction and relocation practices followed by the owner satisfy all applicable legal requirements and that no harassment has occurred. For your information HPD considers harassment to include, but not be limited to, the threatened or actual use of physical force, deprivation of essential services such as heat, water, gas or electric, or any other conduct intended to cause persons to vacate the premises or waive rights related to their occupancy.

HPD requests that if you have any comments or evidence of unlawful eviction and relocation practices or harassment occurring at the above referenced premises that you notify the Housing Litigation Division, SRO Anti-Harassment Unit, 3rd Floor, 100 Gold Street, New York, NY 10038, by letter postmarked not later than 30 days from the date of this notice or by an in-person statement made within the same period. To schedule an appointment for an in-person statement call (212) 863-8272.

LANDMARKS PRESERVATION COMMISSION

■ NOTICE

ADVISORY REPORTS

ISSUE DATE: 12/30/05	DOCKET #: 064402	SRA #: SRA 06-4936
ADDRESS: 31 CHAMBERS STREET, Surrogate's Court (Hall of Records), INTERIOR LANDMARK	BOROUGH: MANHATTAN	BLOCK/LOT: 153 / 24

To the Mayor, the Council, and the Assistant Commissioner, DCAS.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for interior mechanical alterations at the second floor, at a non-designated portion of the building's interior; as shown on drawings labeled E-5.0 and E-5.1, dated December 21, 2005, prepared by Alexander Gutkin, P.E.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Jared Knowles.

BINDING REPORTS

ISSUE DATE: 12/28/05	DOCKET #: 063795	SRB #: SRB 06-4892
ADDRESS: 1 CENTRE STREET, Municipal Building, INDIVIDUAL LANDMARK	BOROUGH: MANHATTAN	BLOCK/LOT: 121 / 1

To the Mayor, the Council, and the NYC Department of Citywide Administrative Services.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for the temporary removal of brick and granite paving, risers, and vault lights from the western courtyard and from various locations around the Municipal Building; waterproofing the associated underground vaults; and the reinstallation of the paving materials; as shown in photographs, a letter dated November 14, 2005, prepared by John Ciardullo Associates, P.C., and drawings labeled T01, L01 through L16, R02 and R03, all dated July 27, 2005, T001, S100, S200 through S205, S300 through S303, S400 through S404, S500 and S501, all dated September 13, 2005, prepared by John Joseph Ciardullo, Jr., R.A.

The Commission has reviewed the application and these drawings and finds that the proposed work will help protect the building's facade and structure from further damage due to water infiltration; and that any damaged paving material will be replaced in-kind.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this report, the applicant agrees to notify the Commission if actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this report, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This letter constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Jared Knowles.

ISSUE DATE: 12/23/05	DOCKET #: 064148	SRB #: SRB 06-4836
ADDRESS: 209 AVENUE OF THE AMERICAS HISTORIC DISTRICT: CHARLTON KING VANDAM	BOROUGH: MANHATTAN	BLOCK/LOT: 519 / 49

To the Mayor, the Council, and the Director of Street Lighting, NYC Department of Transporation.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal to replace one modern lamppost within Charlton Park, as shown and described on the application form, existing condition photograph and specifications supplied by Magnificast.

The Commission finds that the existing lamppost is not harmonious in scale, material, detail, and color with the architectural and historic character of the historic district, ; that the installation will strengthen the historic character of the street and district; that the new lamppost is harmonious in scale, materials, design, and color with the character of the district; and that the replacement of the existing post will result in no effect on any other protected features of the district, including sidewalks. Based on these findings, the Commission determines the proposed work to be appropriate to the Charlton King Vandam Historic District.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit, a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Jared Knowles.

OFFICE OF THE MAYOR

■ NOTICE

Prompt Payment Interest Rate - January 1, 2006 - June 30, 2006

Section 4-06 of the Procurement Policy Rules requires City agencies to process contract payments efficiently and expeditiously so as to assure timely contract payments to those suppliers doing business with the City.

The Rule further requires that when payments are made after the Required Payment Date ("RPD"), interest, unless otherwise specified in the Rules, must be paid to the supplier.

The Comptroller and the Office of Management and Budget (OMB) have jointly set the new Prompt Payment Interest Rate. The new Prompt Payment Interest Rate is 5.125% effective on payments for the six month period January 1, 2006 - June 30, 2006.

Questions on this notice should be directed to:

Louisa Chafee, Associate Director
Mayor's Office of Contract Services
253 Broadway, 9th Floor
New York, NY 10007
Tel: (212) 788-8976

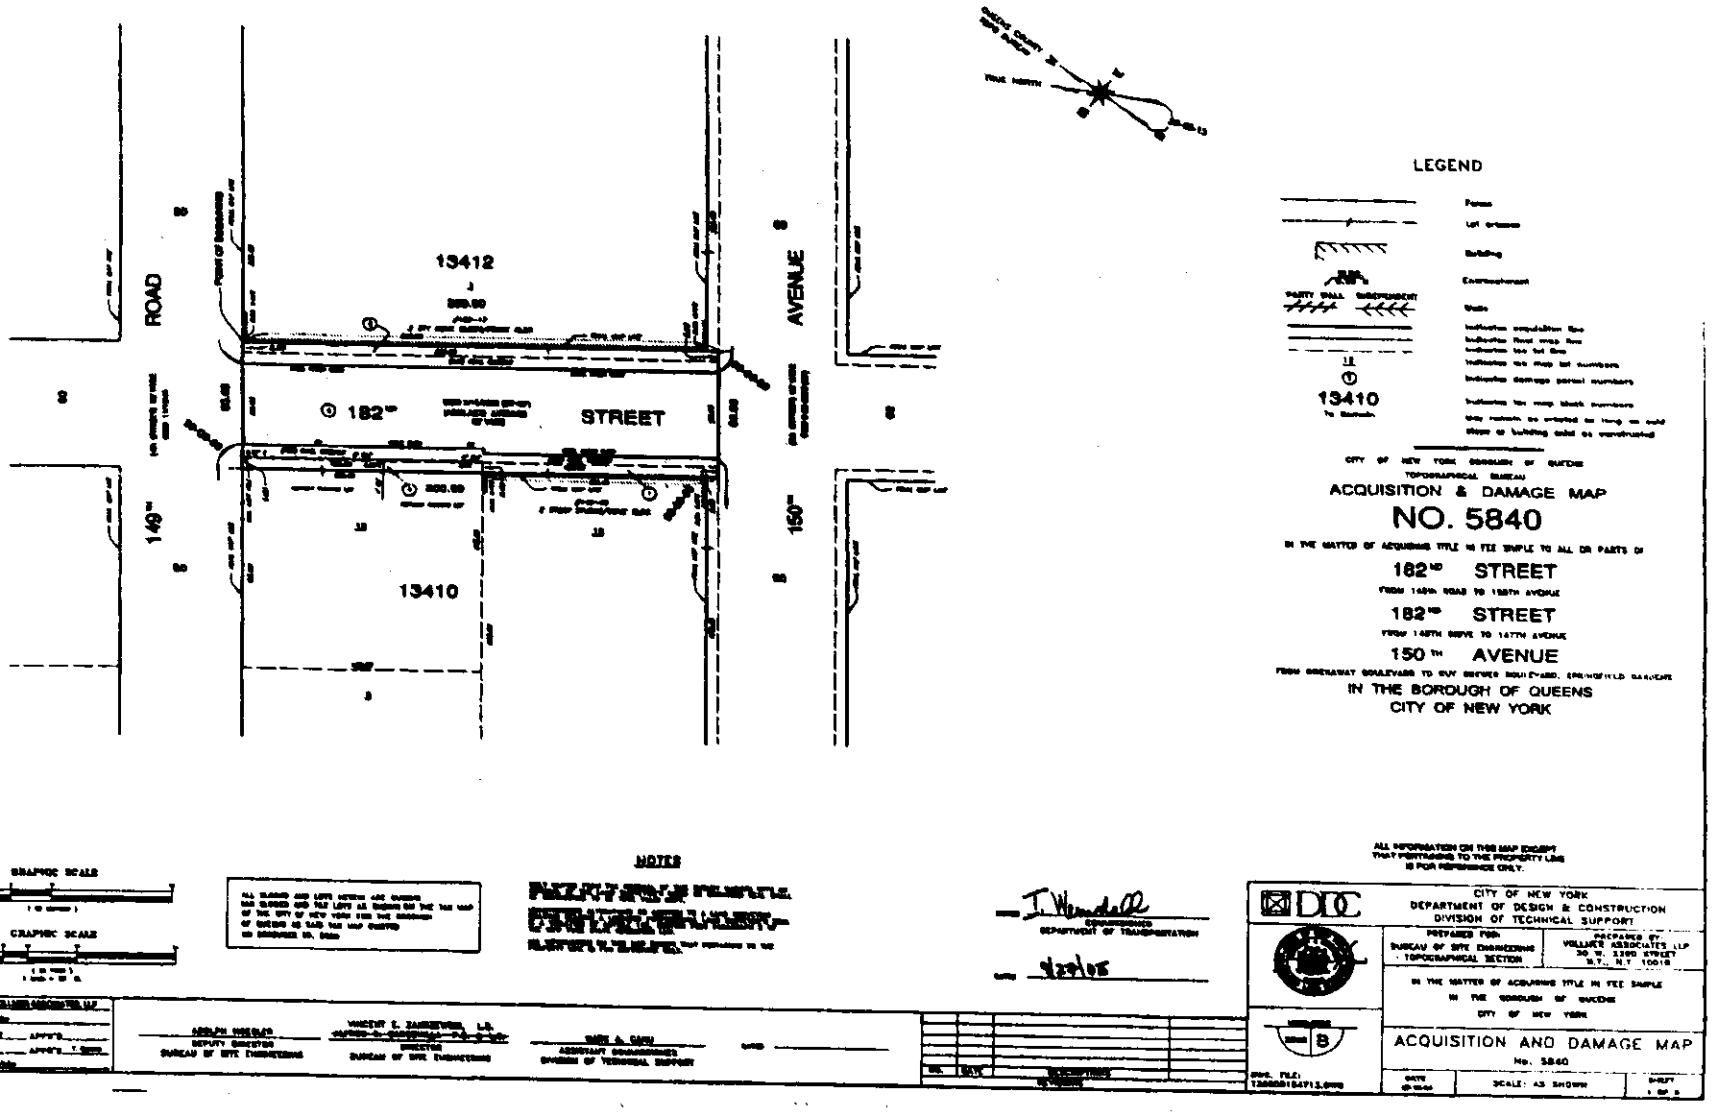
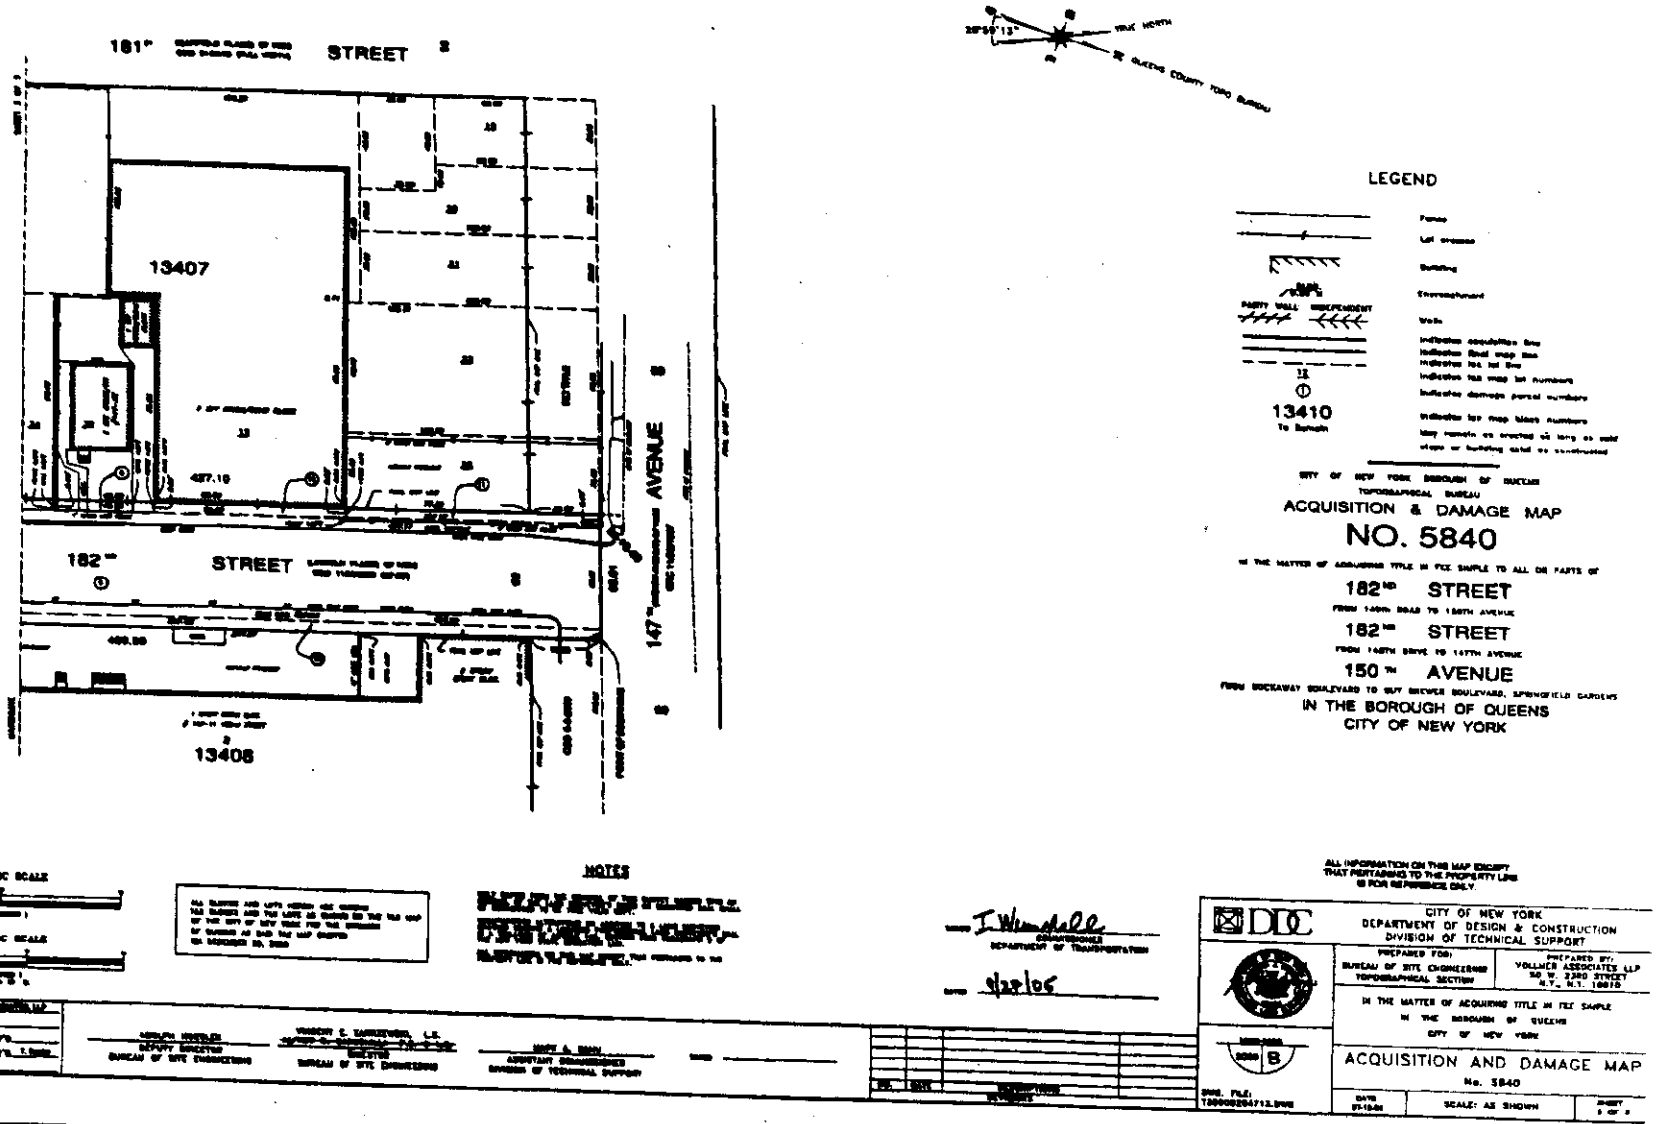
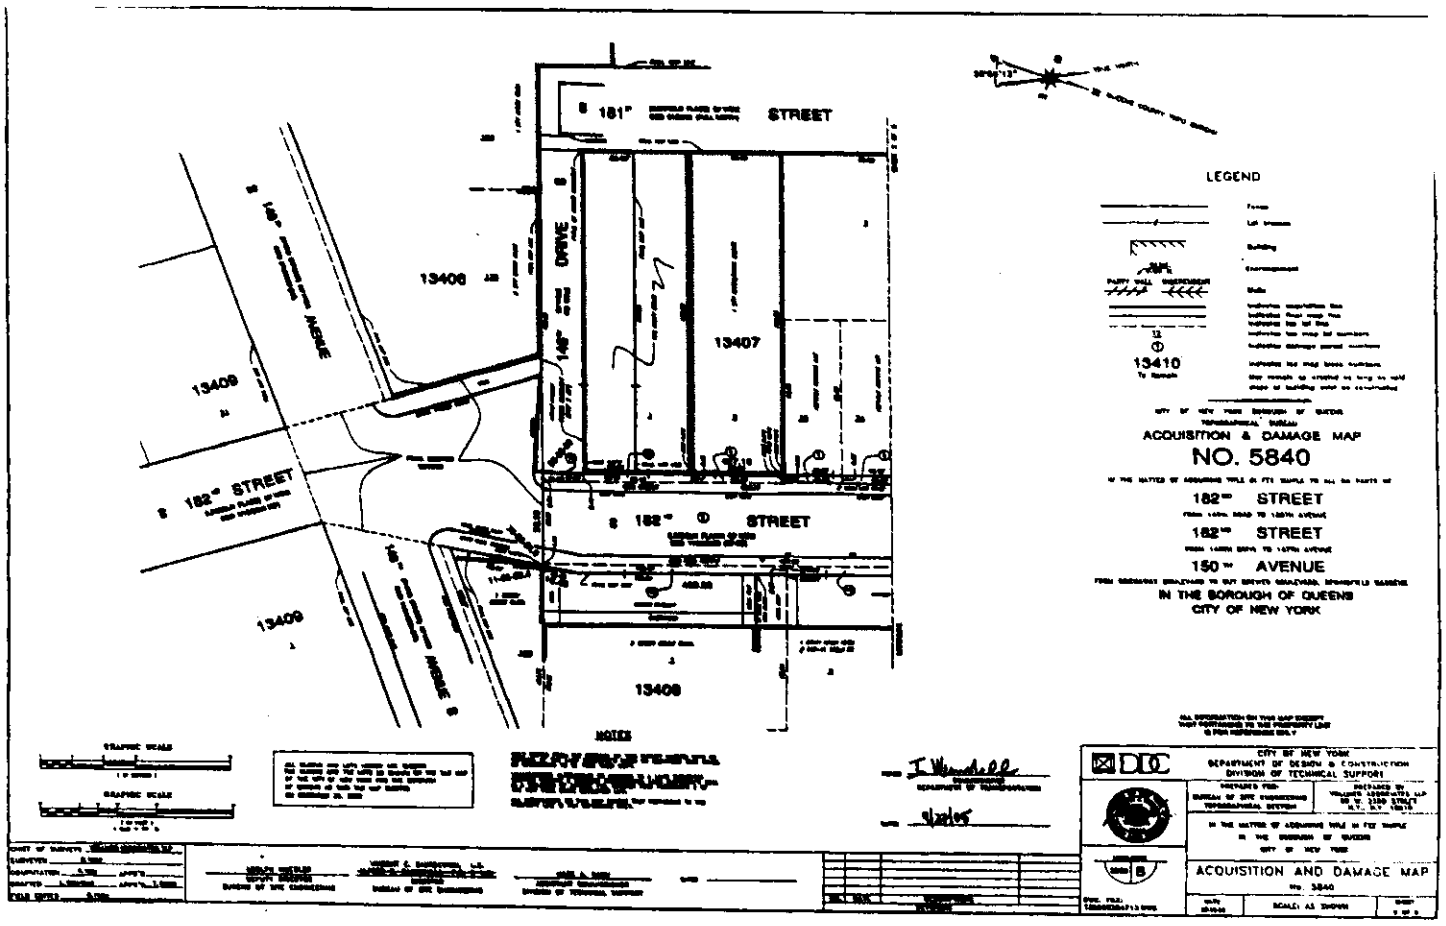
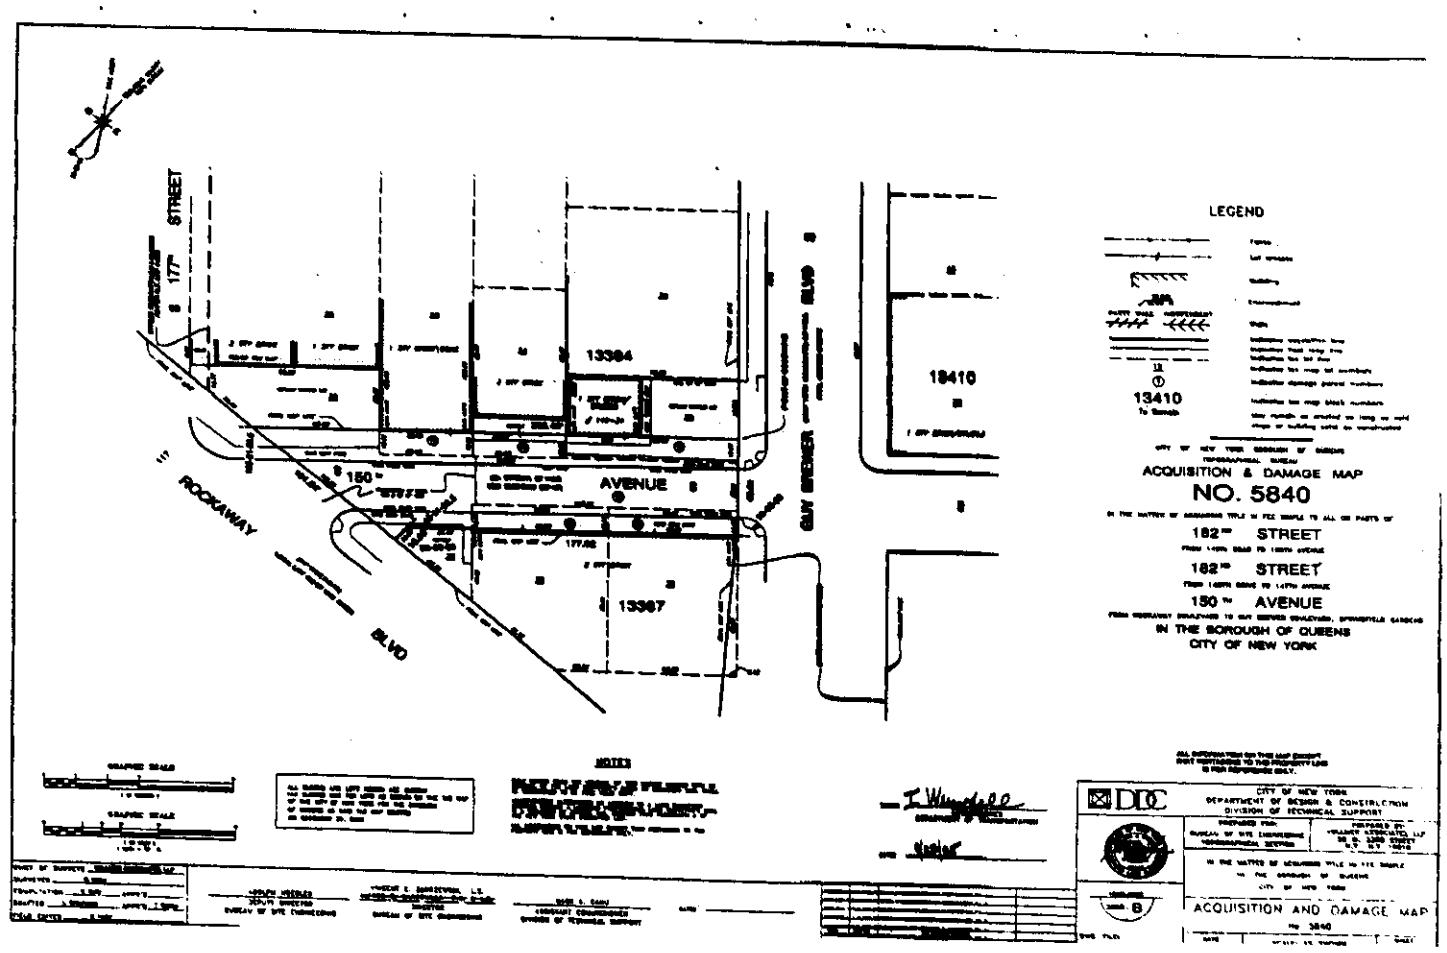
COURT NOTICE MAPS FOR 182ND STREET

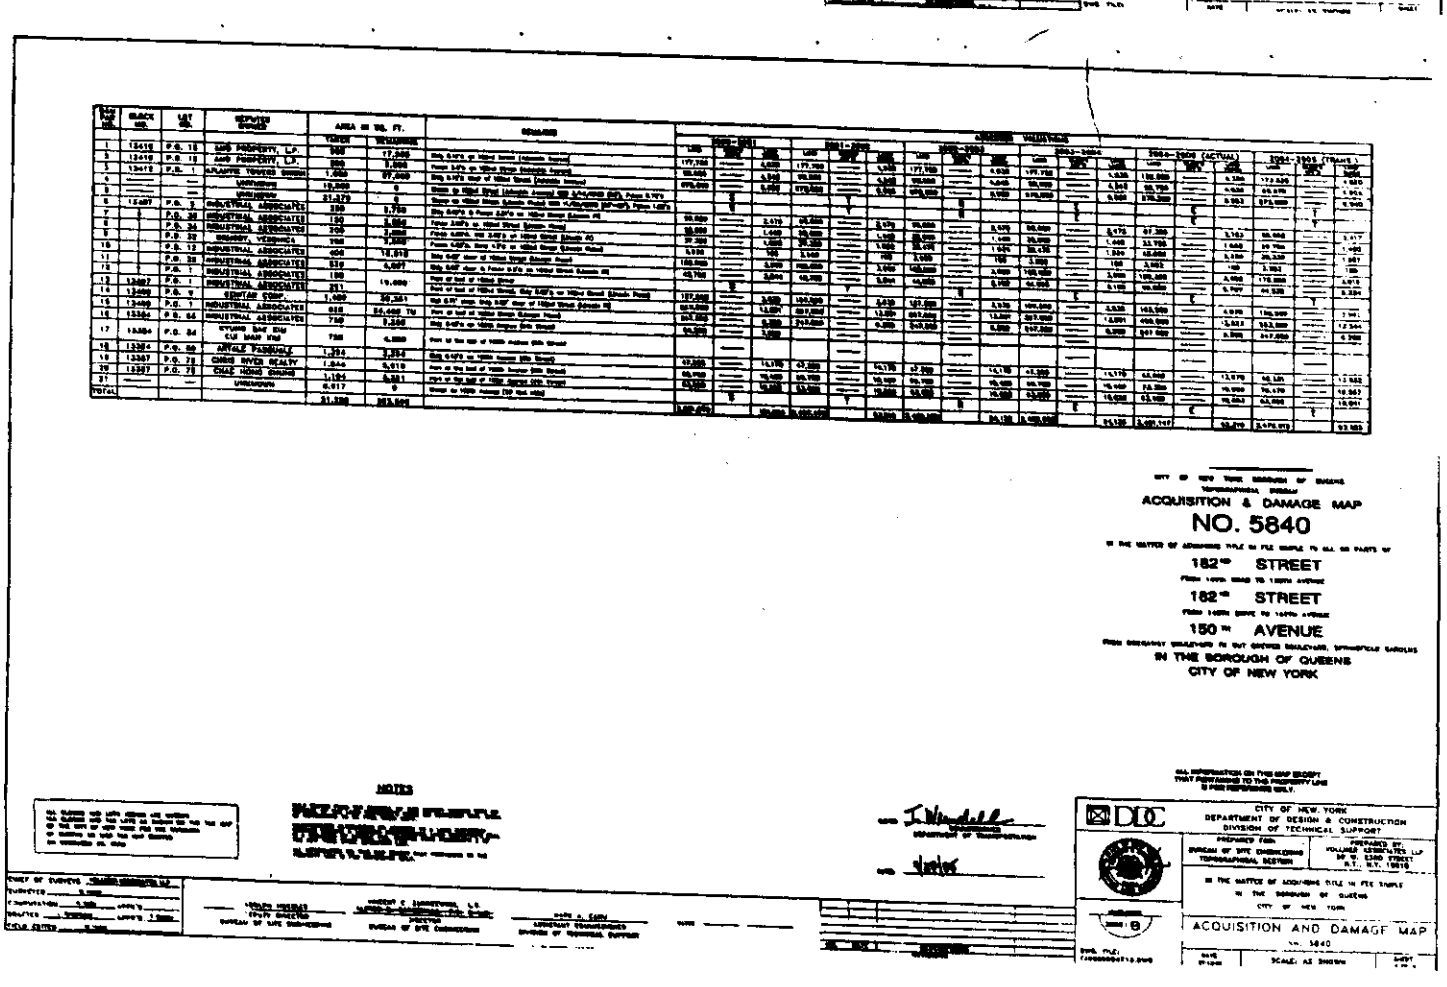




COURT NOTICE MAPS FOR 182ND STREET







READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

COMMON ABBREVIATIONS USED IN THE CR

The CR contains many abbreviations. Listed below are simple explanations of some of the most common ones appearing in the CR:

AB ..... Acceptable Brands List
AC .....Accelerated Procurement
AMT.....Amount of Contract
BL .....Bidders List
CSB.....Competitive Sealed Bidding (including multi-step)
CB/PQ.....CB from Pre-qualified Vendor List
CP .....Competitive Sealed Proposal (including multi-step)
CP/PQ.....CP from Pre-qualified Vendor List
CR .....The City Record newspaper
DA.....Date bid/proposal documents available
DUE.....Bid/Proposal due date; bid opening date
EM .....Emergency Procurement
IG .....Intergovernmental Purchasing
LBE.....Locally Based Business Enterprise
M/WBE .....Minority/Women's Business Enterprise
NA.....Negotiated Acquisition
NOTICE....Date Intent to Negotiate Notice was published in CR
OLB.....Award to Other Than Lowest Responsible & Responsive Bidder/Proposer
PIN.....Procurement Identification Number
PPB.....Procurement Policy Board
PQ .....Pre-qualified Vendors List
RS.....Source required by state/federal law or grant
SCE.....Service Contract Short-Term Extension
DP .....Demonstration Project
SS.....Sole Source Procurement
ST/FED.....Subject to State &/or Federal requirements

KEY TO METHODS OF SOURCE SELECTION

The Procurement Policy Board (PPB) of the City of New York has by rule defined the appropriate methods of source selection for City procurement and reasons justifying their use. The CR procurement notices of many agencies include an abbreviated reference to the source selection method utilized. The following is a list of those methods and the abbreviations used:

CSB.....**Competitive Sealed Bidding** (including multi-step)
Special Case Solicitations / Summary of Circumstances:
CP .....***Competitive Sealed Proposal*** (including multi-step)
CP/1 .....Specifications not sufficiently definite
CP/2 .....Judgement required in best interest of City
CP/3 .....Testing required to evaluate
CB/PQ/4....
CP/PQ/4 ....**CB or CP from Pre-qualified Vendor List/** Advance qualification screening needed
DP .....Demonstration Project
SS.....**Sole Source Procurement/**only one source
RS.....Procurement from a Required Source/ST/FED
NA.....Negotiated Acquisition
For ongoing construction project only:
NA/8.....Compelling programmatic needs
NA/9.....New contractor needed for changed/additional work
NA/10.....Change in scope, essential to solicit one or limited number of contractors
NA/11.....Immediate successor contractor required due to termination/default
For Legal services only:
NA/12.....Specialized legal devices needed; CP not advantageous
WA .....**Solicitation Based on Waiver/Summary of Circumstances** (Client Services/BSB or CP only)
WA1 .....Prevent loss of sudden outside funding
WA2 .....Existing contractor unavailable/immediate need
WA3 .....Unsuccessful efforts to contract/need continues
IG .....**Intergovernmental Purchasing** (award only)
IG/F.....Federal
IG/S.....State
IG/O .....Other
EM .....**Emergency Procurement** (award only) An unforeseen danger to:
EM/A.....Life
EM/B.....Safety
EM/C.....Property
EM/D.....A necessary service
AC .....**Accelerated Procurement/**markets with significant short-term price fluctuations
SCE.....**Service Contract Extension/**insufficient time; necessary service; fair price
Award to Other Than Lowest Responsible & Responsive Bidder or Proposer / Reason (award only)
OLB/a.....anti-apartheid preference
OLB/b.....local vendor preference
OLB/c.....recycled preference
OLB/d.....other: (specify)

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

SAMPLE NOTICE:

QUEENS BOROUGH PRESIDENT

PUBLIC HEARINGS

Notice is hereby given that a Public Hearing will be held by the Borough President of Queens, Helen Marshall, on **Thursday, January 12, 2006** at 10:30 A.M., in the Borough Presidents Conference Room located at 120-55 Queens Boulevard, Kew Gardens, New York 11424, on the following items:

CD05 - BSA #780-45 BZ - IN THE MATTER of an application submitted by Anthony G. Mango on behalf of Giuseppe Rapisardi & Anna Rapisardi pursuant to Section 11-413 of the NYC Zoning Resolution, for legalization of an existing contractor's establishment (U.G.16) in a two-story building, in an R6B district located at **1818-1820 Bleecker Street,** Block 3435, Lots 21 and 22, Zoning Map 13d, Ridgewood, Borough of Queens.

CD03 - BSA #83-00 BZ - IN THE MATTER of an application submitted by Eric Palatnik, P.C. on behalf of KFC US Properties, Inc. pursuant to Section 73-11 of the NYC Zoning Resolution, to reopen and extend the term of a special permit allowing an accessory drive-through facility at an existing eating and drinking establishment for a period of ten (10) years in an R4/C1-2 district located at **87-11/21 Northern Boulevard,** Block 1417, Lot 36, Zoning Map 9d, Jackson Heights, Borough of Queens.

CD08 - BSA #322-05 BZ - IN THE MATTER of an application submitted by Eric Palatnik, P.C. on behalf of Queens Jewish Community Council pursuant to Section 72-21 of the NYC Zoning Resolution, for bulk variances to allow modification of an existing single-family home for use as a community facility in an R4B district located at **69-69 Main Street,** Block 6642, Lot 1, Zoning Map 14c, Flushing, Borough of Queens.

CD12 - BSA #311-05 BZ - IN THE MATTER of an application submitted by Joseph P. Morsellino on behalf of Bernard F. Dowd pursuant to Section 73-27 of the NYC Zoning Resolution, for a special permit to legalize the second floor of an existing funeral parlor establishment in a C4-2 district located at **165-18/28 Hillside Avenue,** Block 9816, Lots 41 and 39, Zoning Map 14d, Jamaica, Borough of Queens.

CD01 - BSA #309-05 BZ - IN THE MATTER of an application submitted by Gerald J. Caliendo on behalf of Pafos Realty Corporation pursuant to Section 72-21 of the NYC Zoning Resolution, for bulk variances to allow the construction of a six-story mixed use building in an R5/C1-2 district located at **53-03 Broadway,** Block 1155, Lot 36, Zoning Map 9d, Woodside, Borough of Queens.

CD10 - ULURP #050363 MMQ - IN THE MATTER OF an application submitted by the Department of Transportation and the Department of Citywide Administrative Services, pursuant to Sections 197-c and 199 of the NYC Charter and Section 5-430 et seq. of the NYC Administrative Code, for an amendment to the City Map allowing the elimination, discontinuance and closing of a portion of Linden Boulevard between Pitkin Avenue and Spritz Road, the adjustment of grades and any acquisition or disposition of real property related thereto, in an R4 district located at **Linden Boulevard between Spritz Road and Pitkin Avenue,** Zoning Map 18a, Ozone Park, Borough of Queens. (Related Application: ULURP #050364 PSQ)

CD10 - ULURP #050364 PSQ - IN THE MATTER OF an application submitted by the Department of Transportation and the Department of Citywide Administrative Services, pursuant to Section 197-c of the New York City Charter, for the site selection of property for use as a maintenance facility in an R4 district located at **Linden Boulevard between Spritz Road and Pitkin Avenue,** Blocks 11368, Lot 20 and 11401, Lot 19, Zoning Map 18a, Ozone Park, Borough of Queens. (Related Application: ULURP #050363 MMQ)

CD12 - ULURP #050422 HUQ - IN THE MATTER of an application submitted by the Department of Housing Preservation and Development pursuant to Section 505 of Article 15 of the General Municipal Law of New York State and Section 197-c of the NYC Charter, for the sixth amendment to the South Jamaica I Urban Renewal Plan for the South Jamaica Urban Renewal Area to: revise the land use definition to permit residential, commercial and community facility uses on residential sites where permitted by zoning; delete sites from the plan that have been developed or rehabilitated by private owners; and subdivide Site 4B into sites 4B, 4C and 4D; and Site 13 into sites 13A, 13B, 13C, 13D, and 13E, Jamaica, Borough of Queens. **(Related Application: ULURP #050423 HAQ)**

CD12 - ULURP #050423 HAQ - IN THE MATTER of an application submitted by the Department of Housing Preservation and Development (HPD) pursuant Article 16 of the General Municipal Law of New York State for the designation of property as an Urban Development Action Area and an Urban Development Action Area Project for such area, and pursuant to Section 197-c of the NYC Charter, for the disposition of such lots to a developer to be selected by HPD, in an R3-2/C2-2 district located at **115-40 and 115-42 Sutphin Boulevard,** Block 11994, Lots 13 and 14, Zoning Map 18c, Jamaica, Borough of Queens. (Related Application: ULURP #050422 HUQ)

CD14 - ULURP #060090 MMQ - IN THE MATTER of an application submitted by the Department of Parks and Recreation and the Department of Transportation pursuant to Sections 197-c and 199 of the NYC Charter and Section 5-430 et seq. of the NYC Administrative Code, for an amendment to the City Map involving: the elimination, discontinuance and closing of portions of Beach 116th Street and Ocean Promenade; the modification and realignment of the turnaround at the southerly terminus on Beach 116th Street; the establishment of a Memorial Park; the adjustment of grades necessitated thereby; and any acquisition or disposition of real property related thereto, in an R7A/R5/C1-2 district located at **the southern terminus of Beach 116th Street,** Zoning Map 30b, Rockaway Park, Borough of Queens.

CITYWIDE ADMINISTRATIVE SERVICES

DIVISION OF REAL ESTATE SERVICES

■ PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN THAT A REAL PROPERTY PUBLIC HEARING ON ACQUISITIONS AND DISPOSITIONS, in accordance with Section 824 of the New York City Charter, will be held at 10:00 A.M. on January 25, 2006 in the 2nd Floor Conference Room, 22 Reade Street, Manhattan.

In the matter of a proposed renewal of a lease for the City of New York, as tenant, of approximately 26,400 rentable square feet of space in the entire building located at 306 Rutledge Street (Block 2228, Lot 11), in the Borough of Brooklyn, for the Department of Sanitation to use as a garage or for such other use as the Commissioner of the Department of Citywide Administrative Services may determine.

The proposed lease shall be for a period of one (1) year from October 1, 2005 at annual rent of $396,000.00 ($15.00 per square foot), payable in equal monthly installments at the end of each month.

Further information, including public inspection of the proposed lease may be obtained at One Centre Street, Room 2000 North, New York, NY 10007. To schedule an inspection, please contact Chris Fleming at (212) 669-7497.

Individuals requesting Sign Language Interpreters should contact the Mayor's Office of Contract Services, Public Hearings Unit, 253 Broadway, Room 915, New York, N.Y. 10007, (212) 788-7490, no later than FIVE (5) BUSINESS DAYS PRIOR TO THE PUBLIC HEARING.

TDD users should call VERIZON relay services.

CITY PLANNING COMMISSION

■ PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN THAT RESOLUTIONS Have been adopted by the City Planning Commission Scheduling public hearings on the following matters to be held at Spector Hall, 22 Reade Street, New York on Wednesday, January 25, 2006, commencing at 10:00 a.m.

BOROUGH OF BROOKLYN
No. 1
PINE STREET DAY CARE CENTER

CD 5 **C 050472 PQK**

IN THE MATTER OF an application submitted by the Administration for Children's Services and the Department of Citywide Administrative Services, pursuant to Section 197-c of the New York City Charter, for the acquisition of property located at 374 Pine Street (Block 4214, Lot 1), for continued use as a day care center.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 2
MOTHER GASTON BOULEVARD APARTMENTS

CD 16 **N 060249 HAK**

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

   a) the designation of property located at 84, 86, 88, 90 and 92 Mother Gaston Boulevard (Block 1542, Lots 33-37) as an Urban Development Action Area; and

   b) an Urban Development Action Area Project for such area;

to facilitate the development of a 4 -story building, tentatively known as 84-92 Mother Gaston Boulevard, with approximately 50 residential units to be developed under the Department of Housing Preservation and Development Supportive Housing Program.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF MANHATTAN
No. 3
325 5th AVENUE GARAGE

CD 5 **C 050257 ZSM**

IN THE MATTER OF an application submitted by Continental Residential Holdings, LLC pursuant to Sections 197-c and 201 of the New York City Charter for **the grant of a special permit** pursuant to Sections 13-562 and 74-52 of the Zoning Resolution **to allow an attended public parking garage with a maximum capacity of 174 spaces on portions of the first floor, cellar, and sub-cellar, of a proposed 41-story mixed use building on property located at 325 Fifth Avenue** (Block 862, Lots 1,3,4,9 (all including Lot 8),11 and 73), in a C5-2 District.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, NY, 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

Nos. 4 & 5
MADISON PARK WEST
No. 4

CD 5 **C 060210 ZMM**

IN THE MATTER OF an application submitted by 200 Fifth, LLC pursuant to Sections 197-c and 201 of the New York City Charter **for an amendment of the Zoning Map, Section No. 8d, changing from an M1-6 District to a C5-2 District property bounded by** West 25th Street, a line 100 feet westerly of Broadway, a line 100 feet westerly of Fifth Avenue, West 23rd Street, and a line 275 feet westerly of Fifth Avenue, as shown on a diagram (for illustrative purposes only) dated November 14, 2005 and subject to the conditions of CEQR Declaration E-160.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 5

CD 5 **C 060211 ZSM**

IN THE MATTER OF an application submitted by 200 Fifth, LLC pursuant to Sections 197-c and 201 of the New York City Charter **for the grant of a special permit** pursuant to Sections 13-562 and 74-52 of the Zoning **Resolution to allow an attended public parking garage with a maximum capacity of 54 spaces on a portion of the ground floor and cellar of an existing building and proposed to be enlarged on a property located at 1107 Broadway** (Block 826, Lots 33 and 37), in a C5-2* District, partially within the Ladies Mile Historic District.

* Note: a portion of the site is proposed to be rezoned by changing an M-16 District to a C5-2 District under a related application (C 060210 ZMM) for a change in the Zoning Map.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, N.Y. 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF QUEENS
Nos. 6 & 7
SOUTH JAMAICA I URBAN RENEWAL PLAN/NEW FOUNDATIONS

No. 6

CD 12 **C 050422 HUQ**

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD), pursuant to Section 505 of Article 15 of the General Municipal (Urban Renewal) Law of New York State and Section 197-c of the New York City Charter, for the 6th amendment to the South Jamaica I Urban Renewal Plan for the South Jamaica Urban Renewal Area.

The proposed plan:

1. Revises the land use definition to permit residential, commercial and community facility uses on residential sites where permitted by zoning.
2. Deletes sites from the plan that have been developed or rehabilitated by private owners.
3. Subdivides Site 4B into sites: 4b, 4c, and 4d; and Site 13 into sites: 13a, 13b, 13c, 13d and 13e.

These changes would facilitate the development of a mixed-use building with two residential units and commercial space to be developed under the Department of Housing Preservation and Development's New Foundation Program.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 7

CD 12 **C 050423 HAQ**

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

   a) the designation of property located at 115-40 and 115-42 Sutphin Boulevard (Block 11994, Lots 13 and 14) Site 4C within the South Jamaica I Urban Renewal Area, as an Urban Development Action Area; and

   b) an Urban Development Action Area Project for such area;

2) pursuant to Section 197-c of the New York City Charter for the disposition of such lots to a developer to be selected by HPD;

to facilitate the development of a mixed-use building with two residential units and commercial space to be developed under the Department of Housing Preservation and Development's New Foundation Program

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 8
FLIGHT 587 MEMORIAL PARK

CD 14 **C 060090 MMQ**

IN THE MATTER OF an application, submitted by the Department of Parks and Recreation and the Department of Transportation pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of portions of Beach 116th Street and Ocean Promenade;
- the modification and the realignment of the turnaround at the southerly terminus of Beach 116th Street;
- the establishment of a Memorial Park;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. 4982 dated October 6, 2005 and signed by the Borough President.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF STATEN ISLAND
No. 9
GATEWAY CATHEDRAL

CD 3 **C 060134 ZSR**

IN THE MATTER OF an application submitted by Gateway Cathedral pursuant to Sections 197-c and 201 of the New York City Charter for **the grant of a special permit** pursuant to Section 74-53 of the Zoning Resolution **to modify the requirements of Section 25-12 (Maximum Size of Accessory Group parking Facilities) to allow a group parking facility accessory to uses in a large-scale community facility development with a maximum of 941 spaces on property located at 200 Boscombe Avenue** (Block 7577, Lot 3), in an R3X District, within the Special South Richmond Development District.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, N.Y. 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF MANHATTAN
No. 10
SPECIAL WEST CHELSEA DISTRICT TEXT AMENDMENT

CD 4 **N 060199 ZRM**

IN THE MATTER OF an application submitted by the Department of City Planning pursuant to Section 201 of the New York City Charter for an amendment of the Zoning Resolution of the City of New York, relating to Article IX, Chapter 8 (Special West Chelsea District),.

Matter in underline is new, to be added;
Matter in ~~strikeout~~ is old, to be deleted;
Matter within # # is defined in Section 12-10 (DEFINITIONS)
* * * indicates where unchanged text appears in the Resolution

* * *

98-40
SPECIAL YARD, HEIGHT AND SETBACK, AND MINIMUM DISTANCE BETWEEN BUILDINGS REGULATIONS

* * *

98-423
Street wall location, minimum and maximum base heights and maximum building heights

The provisions set forth in paragraph (a) of this Section shall apply to all #developments# and #enlargements#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (f) of this Section.

(a) On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along such entire #street#

frontage of the #zoning lot# up to at least the minimum base height specified in the table of this Section. On #corner lots# with both #wide# and #narrow street# frontages, a #street wall# with a minimum height of 15 feet shall be located on ~~a~~ the #narrow street line# ~~beyond 50 feet of its intersection with a #wide street# and extend along such entire #narrow street# frontage of the #zoning lot#~~ between 50 and 100 feet from its intersection with a #wide street#. On all other #narrow street# frontages, the #street wall# shall be located on the #street line# and extend along at least 70 percent of the #narrow street# frontage of the #zoning lot# up to at least the minimum base height specified in the table in this Section.

* * *

(b) Subareas A and D

(1) #Street wall# location

In Subarea D, on #corner lots# between the north side of West 18th Street and the south side of West 22nd Street, a #street wall# with a minimum height of 15 feet shall be located on the #narrow street line# between 50 and 150 feet of its intersection with Eleventh Avenue.

In Subarea D, for #buildings# that do not include towers as set forth in paragraph (b)(3) of this Section, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front. In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within 10 feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.

* * *

98-424
Authorization to modify ~~height and setback~~certain bulk regulations

For #zoning lots# located entirely within 75 feet of the west side of the #High Line#, the City Planning Commission may authorize the modification of height and setback regulations set forth in Section 98-40 and 98-50, inclusive, ~~and~~ the transparency requirements set forth in Sections 98-141 and 98-54, and the underlying #rear yard# and minimum distance between #legally required windows# and walls or #lot lines# regulations. The Commission shall find that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public areas.

* * *

98-50
SPECIAL HEIGHT AND SETBACK, OPEN AREA AND TRANSPARENCY REGULATIONS FOR ZONING LOTS WITHIN OR ADJACENT TO THE HIGH LINE TRANSFER CORRIDOR

98-51
Height and Setback Regulations on the East Side of the High Line

* * *

(b) In C6-3A Districts and in Subareas C, F and G

For #zoning lots# extending less than ~~120~~ 115 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of a #building# shall exceed a height of 3 feet, 6 inches above the level of the #High Line bed#.

For #zoning lots# that extend for at least ~~120~~ 115 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of the #building# shall exceed a height of 3 feet, 6 inches above the level of the #High Line bed#, except that a maximum of 40 percent of such #High Line frontage# may rise without setback above a height of 3 feet, 6 inches above the level of the #High Line bed# provided such portion of the #building# is not located directly between the #High Line# and any #street wall# of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (c) (Subareas C, F and I) of Section 98-423 (Street wall location, minimum and maximum base heights and maximum building heights).

However, the provisions of this paragraph, (b), shall not apply to any #zoning lot# existing on June 23, 2005 where the greatest distance between the eastern side of the #High Line# and a ~~#side~~ lot line# east of the #High Line# is 35 feet when measured parallel to the nearest #narrow street line#.

* * *

98-60
SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS

98-61
High Line Access Easement Volume Requirement

* * *

(e) such #development# or #enlargement# is located wholly within an M1-5 District and no portion of such #development# or #enlargement# has more than 10,000 square feet of #floor area# and is located within five feet of the #High Line#~~.~~; or

(f) such #development# or #enlargement# is located on a #zoning lot# that fronts on West 23rd Street.

* * *

98-70
SUPPLEMENTAL REGULATIONS

In the Special West Chelsea District, the provisions of paragraphs (a) through (d), inclusive, of Section 93-90 (HARASSMENT) shall apply as modified in this Section.

For the purposes of this Section, the following definitions in Section 93-90 (HARASSMENT) shall be modified:

Anti-harassment area

"Anti-harassment area" shall mean the #Special West Chelsea District#

Referral date

"Referral date" shall mean December 20, 2004.

In addition, Section 93-90(d)(3) is modified as follows:

No portion of the #low income housing# required under this Section shall qualify to:

(a) increase the #floor area ratio# pursuant to the provisions of the #Special West Chelsea District#, #Special Hudson Yards District#, #Special Garment Center District#, #Special Clinton District# or Section 23-90, or

(b) satisfy an eligibility requirement of any real property tax abatement or exemption program with respect to any #multiple dwelling# that does not contain such #low income housing#.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

TRANSPORTATION

■ **PUBLIC HEARINGS**

Notice is hereby given, pursuant to law, that the following proposed revocable consents have been scheduled for a public hearing by the New York City Department of Transportation. The hearing will be held at 40 Worth Street, Room 814, Borough of Manhattan, commencing at 2:00 P.M. on Wednesday, January 25, 2006. Interested parties can obtain copies of proposed agreements or request sign-language interpreters (with at least seven days prior notice) at 40 Worth Street, 9 South, New York, NY 10013, or by calling (212) 442-8040.

#1 In the matter of a proposed revocable consent authorizing Bishop Francis J. Mugavero Center for Geriatric Care, Inc. to continue to maintain and use planted areas, on the south sidewalk of Pacific Street, east of Hoyt Street, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016 and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2016 - $ 265/per annum.

the maintenance of a security deposit in the sum of $3,000, and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#2 In the matter of a proposed revocable consent authorizing Brookdale Hospital Medical Center to continue to maintain and use conduits, together with a street vault and a manhole, under and across Rockaway Parkway, north of Linden Boulevard, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016 and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2007 - $12,045
For the period July 1, 2007 to June 30, 2008 - $12,347
For the period July 1, 2008 to June 30, 2009 - $12,649
For the period July 1, 2009 to June 30, 2010 - $12,951
For the period July 1, 2010 to June 30, 2011 - $13,253
For the period July 1, 2011 to June 30, 2012 - $13,555
For the period July 1, 2012 to June 30, 2013 - $13,857
For the period July 1, 2013 to June 30, 2014 - $14,159
For the period July 1, 2014 to June 30, 2015 - $14,461
For the period July 1, 2015 to June 30, 2016 - $14,763

the maintenance of a security deposit in the sum of $14,800 and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#3 In the matter of a proposed revocable consent authorizing North Fork Bank to continue to maintain and usea nine (9) lampposts, together with electrical conduits, in and on the sidewalks of Manhattan Avenue and Calyer Street, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2016 - $1,350/per annum.

the maintenance of a security deposit in the sum of $2,000, and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#4 In the matter of a proposed revocable consent authorizing The New York Community Hospital of Brooklyn, Inc. to continue to maintain and use a ramp on the south sidewalk of Avenue O, west of Kings Highway, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2016 - $25/per annum.

the maintenance of a security deposit in the sum of $15,000, and the filing of an insurance policy in the minimum amount of $500,000/$2,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $200,000.

#5 In the matter of a proposed revocable consent authorizing Montefiore Medical Center to continue to maintain and use a tunnel, under and across Bainbridge Avenue, north of East 210th Street, in the Borough of the Bronx. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2007 - $8,067
For the period July 1, 2007 to June 30, 2008 - $8,269
For the period July 1, 2008 to June 30, 2009 - $8,471
For the period July 1, 2009 to June 30, 2010 - $8,673
For the period July 1, 2010 to June 30, 2011 - $8,875
For the period July 1, 2011 to June 30, 2012 - $9,077
For the period July 1, 2012 to June 30, 2013 - $9,279
For the period July 1, 2013 to June 30, 2014 - $9,481
For the period July 1, 2014 to June 30, 2015 - $9,683
For the period July 1, 2015 to June 30, 2016 - $9,885

the maintenance of a security deposit in the sum of $9,900, and the filing of an insurance policy in the minimum amount of $1,250,000/$5,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $1,000,000.

COURT NOTICES

SUPREME COURT

■ NOTICE

QUEENS COUNTY
IA PART 8
NOTICE OF ACQUISITION
INDEX NUMBER 23585/05

In the Matter of Application of the CITY OF NEW YORK relative to acquiring title in fee simple absolute to certain real property where not heretofore acquired for **182nd Street from 149th Road to 150th Avenue, 182nd Street from 148th Drive to 147th Avenue, 150th Avenue from Rockaway Boulevard to Guy Brewer Boulevard** in the Borough of Queens, City and State of New York.

PLEASE TAKE NOTICE, that by order of the Supreme Court of the State of New York, County of Queens, IA Part 8 (Hon. Jaime A. Rios, J.S.C.), duly entered in the office of the Clerk of the County of Queens on December 9, 2005, the application of the City of New York to acquire certain real property, for 182nd Street from 149th Road to 150th Avenue, 182nd Street from 148th Drive to 147th Avenue, 150th Avenue from Rockaway Boulevard to Guy Brewer Boulevard, was granted and the City was thereby authorized to file an acquisition map with the Office of the City Register. Said map, showing the property acquired by the City, was filed with the City Register on December 16, 2005. Title to the real property vested in the City of New York on December 16, 2005.

PLEASE TAKE FURTHER NOTICE, that the City has acquired the following parcels of real property:

Damage Parcel	Block	Lot
1	13410	p/o 18
2	13410	p/o 10
3	13412	p/o 1
6	13407	p/o 5
7	13407	p/o 36
8	13407	p/o 34
9	13407	p/o 32
10	13407	p/o 12
11	13407	p/o 25
12 & 13	13407	p/o 1
14	13408	p/o 9
15	13408	p/o 1
16	13384	p/o 65
17	13384	p/o 84
18	13384	p/o 80
19	13387	p/o 79
20	13387	p/o 75

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to sections 503 and 504 of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired in the above-referenced proceeding and having any claim or demand on account thereof is hereby required, on or before December 16, 2006 (which is one (1) calendar year from the title vesting date), to file a written claim with the Clerk of the Court of Queens County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007. Pursuant to EDPL section 504, the claim shall include:

A. the name and post office address of the condemnee;

B. reasonable identification by reference to the acquisition map, or otherwise, of the property affected by the acquisition, and the condemnee's interest therein;

C. a general statement of the nature and type of damages claimed, including a schedule of fixture items which comprise part or all of the damages claimed; and,

D. if represented by an attorney, the name, address and telephone number of the condemnee's attorney.

Pursuant to EDPL section 503(C), in the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.

PLEASE TAKE FURTHER NOTICE, that, pursuant to section 5-310 of the New York City Administrative Code, proof of title shall be submitted to the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007 on or before December 16, 2007 (which is two (2) calendar years from the title vesting date).

Dated: December 19, 2005 New York, New York,
MICHAEL A. CARDOZO, Corporation Counsel
of the City of New York
Attorney for the Condemnor

PROCUREMENT

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. As part of this effort, the City is pleased to announce the following contracting opportunities for construction/construction services and construction-related services.

ADMINISTRATION FOR CHILDREN'S SERVICES

CONTRACTS

■ **INTENT TO AWARD**

Human / Client Service

CHILD CARE SERVICES – Negotiated Acquisition – Other (Describe below in Other Legally Mandated Information) – DUE 01-20-06 AT 5:00 P.M. –
PIN# 068-06-NA3-5340 - Ohel Day Care
PIN# 068-06-NA1-0940 - Leake and Watts
PIN# 068-06-NA3-3790 - Farragut

The New York City Administration for Children's Services (ACS), Office of Contracts, intends to award Negotiated Acquisition Extension Contract to the contractors listed below who provide Child Care Services. The term of each of these contracts for one year, January 1, 2006 to December 31, 2006, with no renewal options. The contractors are as follows:

Services (Other Than Human Services)

WMD AND COASTAL STORM FIELD EXERCISES – Negotiated Acquisition – PIN# 017OEM06002 – DUE 01-23-06 AT 5:00 P.M. – Due to the short timeframe in which these services must be conducted, we have determined there is insufficient time to conduct an open, competitive solicitation, and it is in the best interest of the City to extend the contract with the current provider for an additional 12 months. Additionally, it would be impracticable for a vendor who does not have experience with the specific operations of NYC to be able to design and implement this exercise in the timeframe needed.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

JUVENILE JUSTICE

■ SOLICITATIONS

Human / Client Service

NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 09-01-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew.

Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. If a vendor is interested in being considered for award of a contract described above, please hand deliver a written expression of interest addressed to Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 pursuant to the terms of the solicitation document.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

REQUEST FOR COMMENT ON APPLICATION FOR CERTIFICATION OF NO HARASSMENT

DATE OF NOTICE: January 6, 2006

TO: OCCUPANTS, FORMER OCCUPANTS AND OTHER INTERESTED PARTIES OF

Address	Application #	Inquiry Period
143 West 131st Street, Manhattan	205/05	12/05/02 to Present
42 West 126th Street, Manhattan	206/05	12/05/02 to Present
356 Convent Avenue, Manhattan	207/05	12/14/02 to Present
2450 Broadway, Manhattan a/k/a 212-216 West 91st Street	208/05	12/15/02 to Present

207 West 87th Street, Manhattan	209/05	12/21/02 to Present
209 West 87th Street, Manhattan	210/05	12/21/02 to Present
306 West 94th Street, Manhattan	211/05	12/21/02 to Present
2 West 123rd Street, Manhattan	212/05	12/21/02 to Present
306 West 48th Street, Manhattan	214/05	12/28/02 to Present

The Department of Housing Preservation and Development has received an application for a certification that during the inquiry period noted for the premises above, that no harassment has occurred at such premises in the form of threats, use of physical force, deprivation of essential services such as heat, water, gas or electric, or by any other conduct intended to cause persons to vacate the premises or waive rights related to their occupancy. Upon the issuance of a Certification, an owner can legally convert the premises to non-single room occupancy use.

Comments as to whether harassment has occurred at the premises should be submitted to the Operations Division, Anti-Harassment Unit, 100 Gold Street, 3rd Floor, New York, NY 10038, by letter postmarked not later than 30 days from the date of this notice or by an in-person statement made within the same period. To schedule an appointment for an in-person statement call (212) 863-8272.

REQUEST FOR COMMENT ON APPLICATION FOR CERTIFICATION OF NO HARASSMENT PURSUANT TO THE SPECIAL CLINTON DISTRICT PROVISIONS OF THE ZONING RESOLUTION

DATE OF NOTICE: January 6, 2006

TO: OCCUPANTS, FORMER OCCUPANTS AND OTHER INTERESTED PARTIES OF

Address – Application # – Inquiry Period

306 West 48th Street, Manhattan – C15/05 – September 5, 1973 to Present

Prior to the issuance of a permit by the Department of Buildings for the alteration or demolition of residential buildings in certain areas of the Special Clinton District, the Department of Housing Preservation and Development is required to certify that: 1) prior to evicting or otherwise terminating the occupancy of any tenant preparatory to alteration or demolition, the owner shall have notified HPD of the owner's intention to alter or demolish the building and 2) the eviction and relocation practices followed by the owner of the building satisfy all applicable legal requirements and that no harassment has occurred.

The owner of the building located at the above-referenced address seeks the issuance of an HPD Certification. The owner has represented and certified to HPD of the owner's intention to alter or demolish the building and that the eviction and relocation practices followed by the owner satisfy all applicable legal requirements and that no harassment has occurred. For your information HPD considers harassment to include, but not be limited to, the threatened or actual use of physical force, deprivation of essential services such as heat, water, gas or electric, or any other conduct intended to cause persons to vacate the premises or waive rights related to their occupancy.

HPD requests that if you have any comments or evidence of unlawful eviction and relocation practices or harassment occurring at the above referenced premises that you notify the Housing Litigation Division, SRO Anti-Harassment Unit, 3rd Floor, 100 Gold Street, New York, NY 10038, by letter postmarked not later than 30 days from the date of this notice or by an in-person statement made within the same period. To schedule an appointment for an in-person statement call (212) 863-8272.

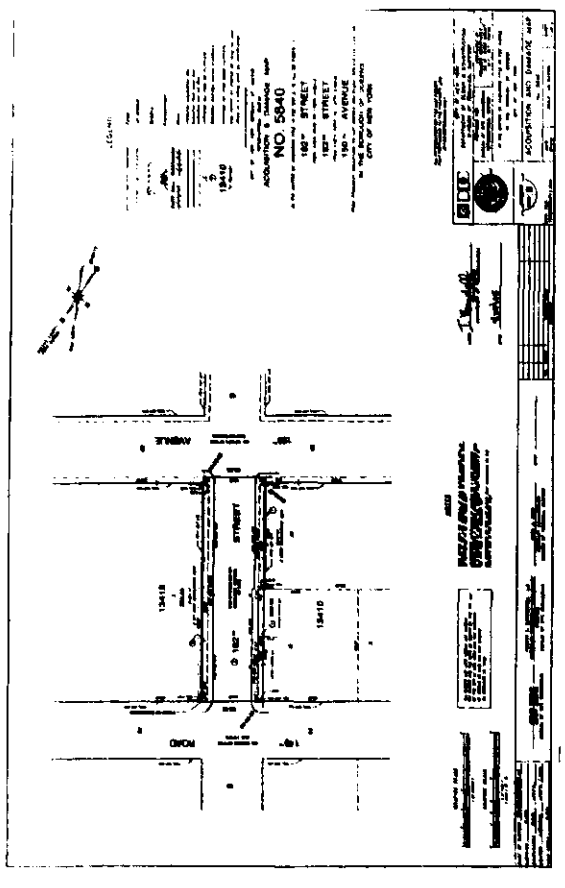
SCHOOL CONSTRUCTION AUTHORITY

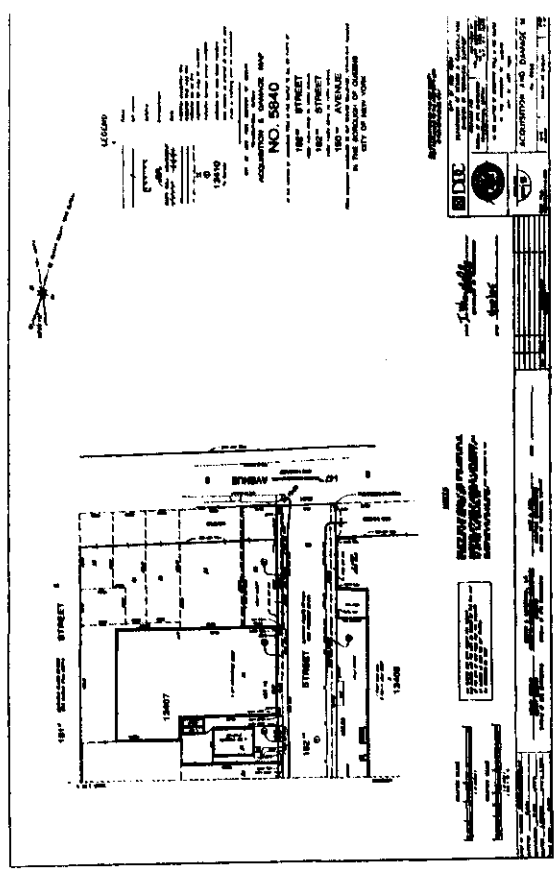
■ **NOTICE**

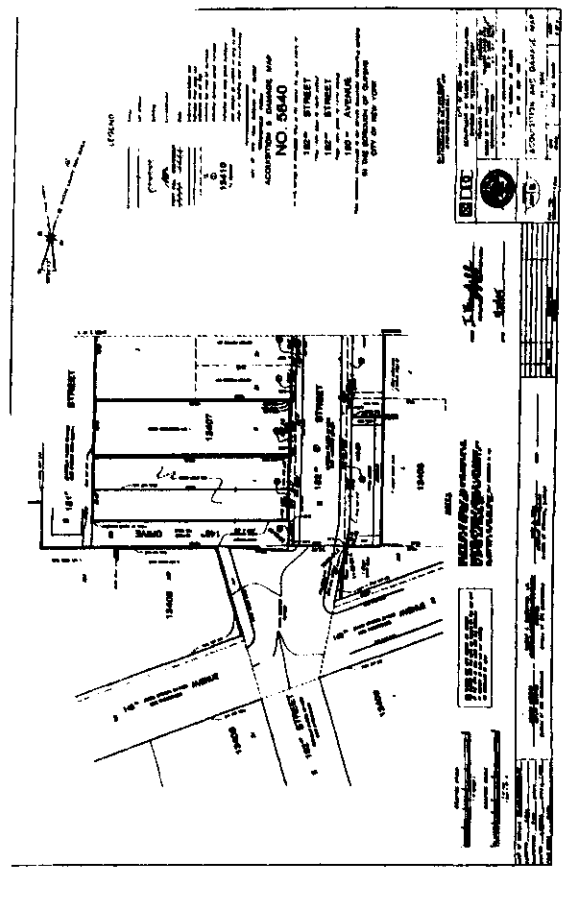
PLEASE TAKE NOTICE THAT the New York City School Construction Authority ("SCA"), pursuant to Section 204 of the New York State Eminent Domain Procedure Law ("EDPL"), has made the following Determination and Findings related to the PS/IS 798K-Brooklyn Construction Project ("Project"): (1) The public purpose of the Project is to allow for the construction of a 630 seat primary and intermediate school to relieve overcrowding in Community School District No. 5 in Region No. 5; (2) the Project site, Tax Block 4102, Lots 19, 27, 35 & 36, located at the southwest corner of Jamaica Avenue and Richmond Street in the Cypress Hills section of Brooklyn, was selected because it is in an area in need of relief from severe school overcrowding; (3) the SCA has issued a Conditioned Negative Declaration under the New York State Environmental Quality Review Act for the Project; and (4) the SCA has determined that it should exercise its powers of condemnation under the EDPL to implement the Project. A complete copy of the SCA's Determinations and Findings will be forwarded without cost upon written request directed to the New York City School Construction Authority, 30-30 Thomson Avenue, Long Island City, New York 11101, to the attention of Gregory P. Shaw, Principal Attorney.

☛ **j12-13**

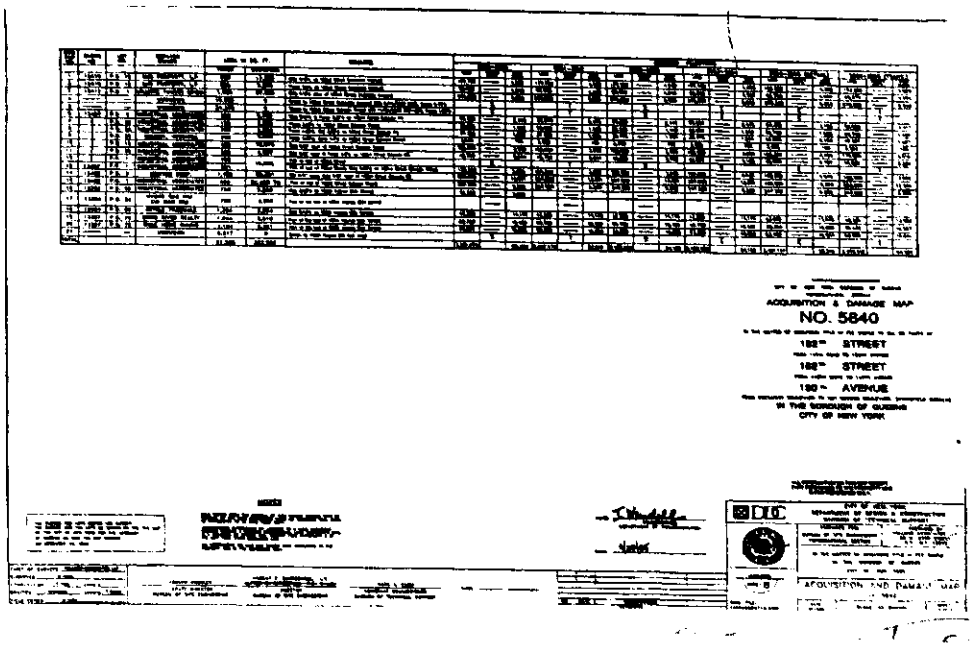
COURT NOTICE MAPS FOR 182ND STREET

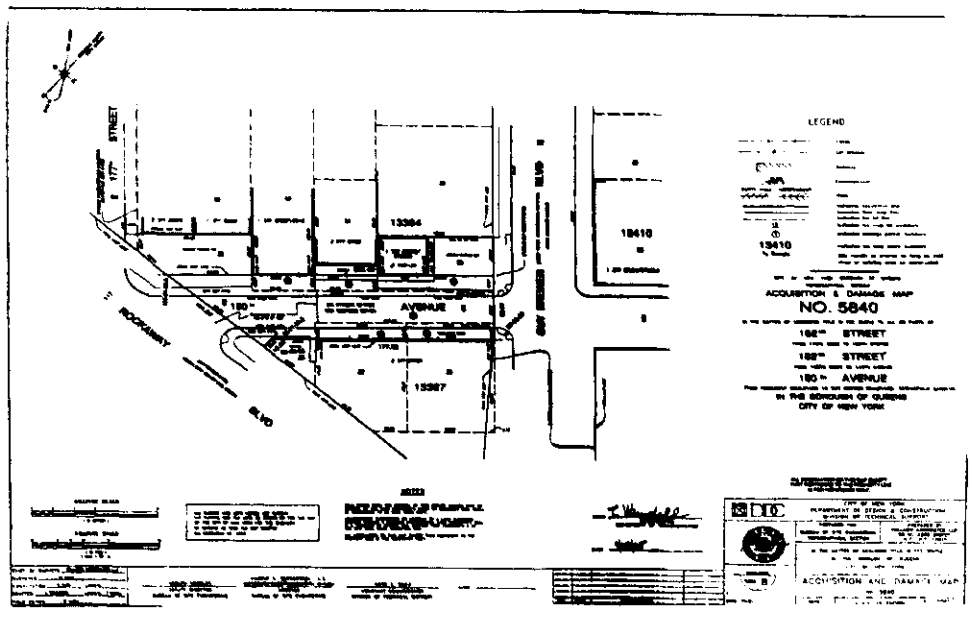






COURT NOTICE MAPS FOR 182ND STREET





READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:

Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

COMMON ABBREVIATIONS USED IN THE CR

The CR contains many abbreviations. Listed below are simple explanations of some of the most common ones appearing in the CR:

AB.....**Acceptable Brands List**
AC.....Accelerated Procurement
AMT.....**Amount of Contract**
BL.....**Bidders List**
CSB.....Competitive Sealed Bidding (including multi-step)
CB/PQ.....CB from Pre-qualified Vendor List
CP.....Competitive Sealed Proposal (including multi-step)
CP/PQ.....CP from Pre-qualified Vendor List
CR.....The City Record newspaper
DA.....Date bid/proposal documents available
DUE.....Bid/Proposal due date; bid opening date
EM.....Emergency Procurement
IG.....Intergovernmental Purchasing
LBE.....Locally Based Business Enterprise
M/WBE.....Minority/Women's Business Enterprise
NA.....Negotiated Acquisition
NOTICE.....Date Intent to Negotiate Notice was published in CR
OLB.....Award to Other Than Lowest Responsible & Responsive Bidder/Proposer
PIN.....Procurement Identification Number
PPB.....Procurement Policy Board
PQ.....Pre-qualified Vendors List
RS.....Source required by state/federal law or grant
SCE.....Service Contract Short-Term Extension
DP.....Demonstration Project
SS.....Sole Source Procurement
ST/FED.....Subject to State &/or Federal requirements

KEY TO METHODS OF SOURCE SELECTION

The Procurement Policy Board (PPB) of the City of New York has by rule defined the appropriate methods of source selection for City procurement and reasons justifying their use. The CR procurement notices of many agencies include an abbreviated reference to the source selection method utilized. The following is a list of those methods and the abbreviations used:

CSB.....**Competitive Sealed Bidding** (including multi-step)
Special Case Solicitations/Summary of Circumstances:
CP.....***Competitive Sealed Proposal*** (including multi-step)
CP/1.....Specifications not sufficiently definite
CP/2.....Judgement required in best interest of City
CP/3.....Testing required to evaluate
CB/PQ/4.....
CP/PQ/4.....**CB or CP from Pre-qualified Vendor List/** Advance qualification screening needed
DP.....Demonstration Project
SS.....**Sole Source Procurement/**only one source
RS.....Procurement from a Required Source/ST/FED
NA.....Negotiated Acquisition
For ongoing construction project only:
NA/8.....Compelling programmatic needs
NA/9.....New contractor needed for changed/additional work
NA/10.....Change in scope, essential to solicit one or limited number of contractors
NA/11.....Immediate successor contractor required due to termination/default
For Legal services only:
NA/12.....Specialized legal devices needed; CP not advantageous
WA.....**Solicitation Based on Waiver/Summary of Circumstances** (Client Services/BSB or CP only)
WA1.....Prevent loss of sudden outside funding
WA2.....Existing contractor unavailable/immediate need
WA3.....Unsuccessful efforts to contract/need continues
IG.....**Intergovernmental Purchasing** (award only)
IG/F.....Federal
IG/S.....State
IG/O.....Other
EM.....**Emergency Procurement** (award only) An unforeseen **danger to:**
EM/A.....**Life**
EM/B.....**Safety**
EM/C.....**Property**
EM/D.....**A necessary service**
AC.....**Accelerated Procurement/**markets with significant short-term price fluctuations
SCE.....**Service Contract Extension/**insufficient time; necessary service; fair price
Award to Other Than Lowest Responsible & Responsive Bidder or Proposer/Reason (award only)
OLB/a.....anti-apartheid preference
OLB/b.....local vendor preference
OLB/c.....recycled preference
OLB/d.....other: (specify)

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

SAMPLE NOTICE:

BROOKLYN BOROUGH PRESIDENT

■ PUBLIC HEARINGS

UNIFORM LAND USE REVIEW PROCEDURE

Notice is hereby given that, pursuant to Sections 82 and 197-C of the New York City Charter, the Brooklyn Borough President will hold a public hearing on the following matters in the **Community Room, Brooklyn Borough Hall, 209 Joralemon Street, Brooklyn, New York 11201, commencing at 6:00 P.M. on Tuesday, January 24, 2006.**

CALENDAR ITEM 1
ATLANTIC TERRACE
UDAAP/DISPOSITION
COMMUNITY DISTRICT 2

In the matter of an application submitted by the Department of Housing Preservation and Development pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section No. 16c, changing from a C6-1 District to a C6-2 District property bounded by a line 100 feet northerly of Atlantic Avenue, South Oxford Street, Atlantic Avenue, and South Portland Avenue, in the Fort Greene section of Community District 2. 060176 ZMK.

CALENDAR ITEM 2
WAZOBIA HOUSE
UDAAP/SITE SELECTION
ZONING SPECIAL PERMIT
COMMUNITY DISTRICT 3

In the matter of an application submitted by the Department of Housing Preservation and Development, pursuant to Sections 197-c and 201 of the New York City Charter, for the grant of a special permit pursuant to Section 74-902 of the Zoning Resolution, to permit the allowable community facility floor area ration of Section 24-11 to apply to the subject property, located in an R5 district, at 31-39 Van Buren Street (Block 1791, Lots 68, 69, 70, 71, and 72), to facilitate the construction of a 18,000 sq. ft. non-profit institution with sleeping accommodations, in the Bedford-Stuyvesant section of Community District 3. 060195 ZSK / 060194 HAK.

CALENDAR ITEM 3
OEM WAREHOUSE
SITE SELECTION
COMMUNITY DISTRICT 4

In the matter of an application submitted by the Office of Emergency Management and the Department of Citywide Administrative Services, pursuant to Section 197-c of the New York City Charter, for site selection and acquisition of property for use as a warehouse, located at 930 Flushing Ave. (Block 3140, p/o Lot 1), in the Bushwick section of Community District 4. 060078 PCK.

Note: To request a sign language interpreter, or to request TTD services, call Mr. Judd Schechtman at (718) 802-3856 at least five business days before the day of the hearing.

j12-24

CITY PLANNING COMMISSION

■ PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN THAT RESOLUTIONS Have been adopted by the City Planning Commission Scheduling public hearings on the following matters to be held at Spector Hall, 22 Reade Street, New York on Wednesday, January 25, 2006, commencing at 10:00 a.m.

BOROUGH OF BROOKLYN
No. 1
PINE STREET DAY CARE CENTER
CD 5 **C 050472 PQK**
IN THE MATTER OF an application submitted by the Administration for Children's Services and the Department of Citywide Administrative Services, pursuant to Section 197-c of the New York City Charter, for the acquisition of property located at 374 Pine Street (Block 4214, Lot 1), for continued use as a day care center.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 2
MOTHER GASTON BOULEVARD APARTMENTS
CD 16 **N 060249 HAK**
IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

   a) the designation of property located at 84, 86, 88, 90 and 92 Mother Gaston Boulevard (Block 1542, Lots 33-37) as an Urban Development Action Area; and

   b) an Urban Development Action Area Project for such area;

to facilitate the development of a 4 -story building, tentatively known as 84-92 Mother Gaston Boulevard, with approximately 50 residential units to be developed under the Department of Housing Preservation and Development Supportive Housing Program.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF MANHATTAN
No. 3
325 5th AVENUE GARAGE
CD 5 **C 050257 ZSM**
IN THE MATTER OF an application submitted by Continental Residential Holdings, LLC pursuant to Sections 197-c and 201 of the New York City Charter for **the grant of a special permit** pursuant to Sections 13-562 and 74-52 of the Zoning Resolution **to allow an attended public parking garage with a maximum capacity of 174 spaces on portions of the first floor, cellar, and sub-cellar, of a proposed 41-story mixed use building on property located at 325 Fifth Avenue** (Block 862, Lots 1,3,4,9 (all including **Lot 8),11 and 73**), in a C5-2 District.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, NY, 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

Nos. 4 & 5
MADISON PARK WEST
No. 4
CD 5 **C 060210 ZMM**
IN THE MATTER OF an application submitted by 200 Fifth, LLC pursuant to Sections 197-c and 201 of the New York City Charter **for an amendment of the Zoning Map, Section No. 8d, changing from an M1-6 District to a C5-2 District property bounded by** West 25th Street, a line 100 feet westerly of Broadway, a line 100 feet westerly of Fifth Avenue, West 23rd Street, and a line 275 feet westerly of Fifth Avenue, as shown on a diagram (for illustrative purposes only) dated November 14, 2005 and subject to the conditions of CEQR Declaration E-160.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 5
CD 5 **C 060211 ZSM**
IN THE MATTER OF an application submitted by 200 Fifth, LLC pursuant to Sections 197-c and 201 of the New York City Charter **for the grant of a special permit pursuant to Sections 13-562 and 74-52 of the Zoning Resolution to allow an attended public parking garage with a maximum capacity of 54 spaces on a portion of the ground floor and cellar of an existing building and proposed to be enlarged on a property located at 1107 Broadway** (Block 826, Lots 33 and 37), in a C5-2* District, partially within the Ladies Mile Historic District.

* Note: a portion of the site is proposed to be rezoned by changing an M-16 District to a C5-2 District under a related application (C 060210 ZMM) for a change in the Zoning Map.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, N.Y. 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF QUEENS
Nos. 6 & 7
SOUTH JAMAICA I URBAN RENEWAL PLAN/NEW FOUNDATIONS

No. 6
CD 12 **C 050422 HUQ**
IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD), pursuant to Section 505 of Article 15 of the General Municipal (Urban Renewal) Law of New York State and Section 197-c of the New York City Charter, for the 6th amendment to the South Jamaica I Urban Renewal Plan for the South Jamaica Urban Renewal Area.

The proposed plan:

1. Revises the land use definition to permit residential, commercial and community facility uses on residential sites where permitted by zoning.

2. Deletes sites from the plan that have been developed or rehabilitated by private owners.

3. Subdivides Site 4B into sites: 4b, 4c, and 4d; and Site 13 into sites: 13a, 13b, 13c, 13d and 13e.

These changes would facilitate the development of a mixed-use building with two residential units and commercial space to be developed under the Department of Housing Preservation and Development's New Foundation Program.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 7
CD 12 **C 050423 HAQ**
IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal

Law of New York State for:

a) the designation of property located at 115-40 and 115-42 Sutphin Boulevard (Block 11994, Lots 13 and 14) Site 4C within the South Jamaica I Urban Renewal Area, as an Urban Development Action Area; and

b) an Urban Development Action Area Project for such area;

2) pursuant to Section 197-c of the New York City Charter for the disposition of such lots to a developer to be selected by HPD;

to facilitate the development of a mixed-use building with two residential units and commercial space to be developed under the Department of Housing Preservation and Development's New Foundation Program

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 8
FLIGHT 587 MEMORIAL PARK

CD 14 **C 060090 MMQ**

IN THE MATTER OF an application, submitted by the Department of Parks and Recreation and the Department of Transportation pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of portions of Beach 116th Street and Ocean Promenade;
- the modification and the realignment of the turnaround at the southerly terminus of Beach 116th Street;
- the establishment of a Memorial Park;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. 4982 dated October 6, 2005 and signed by the Borough President.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF STATEN ISLAND
No. 9
GATEWAY CATHEDRAL

CD 3 **C 060134 ZSR**

IN THE MATTER OF an application submitted by Gateway Cathedral pursuant to Sections 197-c and 201 of the New York City Charter for **the grant of a special permit** pursuant to Section 74-53 of the Zoning Resolution **to modify the requirements of Section 25-12 (Maximum Size of Accessory Group parking Facilities) to allow a group parking facility accessory to uses in a large-scale community facility development with a maximum of 941 spaces on property located at 200 Boscombe Avenue** (Block 7577, Lot 3), in an R3X District, within the Special South Richmond Development District.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, N.Y. 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF MANHATTAN
No. 10
SPECIAL WEST CHELSEA DISTRICT TEXT AMENDMENT

CD 4 **N 060199 ZRM**

IN THE MATTER OF an application submitted by the Department of City Planning pursuant to Section 201 of the New York City Charter for an amendment of the Zoning Resolution of the City of New York, relating to Article IX, Chapter 8 (Special West Chelsea District),.

Matter in underline is new, to be added;
Matter in ~~strikeout~~ is old, to be deleted;
Matter within # # is defined in Section 12-10 (DEFINITIONS)
* * * indicates where unchanged text appears in the Resolution

* * *

Article IX - Special Purpose Districts

Chapter 8
Special West Chelsea District

* * *

98-10
SPECIAL USE AND PARKING REGULATIONS WITHIN THE SPECIAL WEST CHELSEA DISTRICT

98-11
Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line

The Commissioner of Buildings shall not issue any building permit for demolition, excavation or foundation work to be performed above or beneath the #High Line# or within 25 feet of support structures of the #High Line#, except by determination by such Commissioner that such work would not adversely affect the structural integrity of the #High Line# and by determination by the ~~City agency or official designated by the Office of the Mayor for such purpose~~Commissioner of Parks that such work would not adversely affect the City's ability to inspect and maintain as necessary to ensure the structural integrity of the #High Line#.

* * *

98-18
Parking Regulations in Subarea H
#Accessory# off-street parking spaces for existing or new governmental offices may be located on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided that:

(a) such spaces are located within Subarea H and in a facility, or portion thereof, that is entirely below #curb level#;

(b) the portion of such facility beneath the required public plaza area shown on Diagram 3 in Appendix A is sufficiently below #curb level# so that trees may be planted at #curb level# within such public plaza but is in no case less than 4 feet below curb level; and

(c) ~~and that~~ no more than 377 spaces are provided within such facility

For purposes of this Section, the governmental offices on Block 688, Lots 1001-1002 as of June 23, 2005, may have up to 377 #accessory# off-street parking spaces in such facility.

98-40
SPECIAL YARD, HEIGHT AND SETBACK, AND MINIMUM DISTANCE BETWEEN BUILDINGS REGULATIONS

* * *

98-423
Street wall location, minimum and maximum base heights and maximum building heights

The provisions set forth in paragraph (a) of this Section shall apply to all #developments# and #enlargements#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (f) of this Section.

(a) On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along such entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in the table of this Section. On #corner lots# with both #wide# and #narrow street# frontages, a #street wall# with a minimum height of 15 feet shall be located on ~~a~~ the #narrow street line# ~~beyond 50 feet of its intersection with a #wide street# and extend along such entire #narrow street# frontage of the #zoning lot#~~ between 50 and 100 feet from its intersection with a #wide street#. On all other #narrow street# frontages, the #street wall# shall be located on the #street line# and extend along at least 70 percent of the #narrow street# frontage of the #zoning lot# up to at least the minimum base height specified in the table in this Section.

* * *

(b) Subareas A and D

(1) #Street wall# location

In Subarea D, on #corner lots# between the north side of West 18th Street and the south side of West 22nd Street, a #street wall# with a minimum height of 15 feet shall be located on the #narrow street line# between 50 and 150 feet of its intersection with Eleventh Avenue.

In Subarea D, for #buildings# that do not include towers as set forth in paragraph (b)(3) of this Section, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front. In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within 10 feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.

* * *

98-424
Authorization to modify ~~height and setback~~certain bulk regulations

For #zoning lots# located entirely within 75 feet of the west side of the #High Line#, the City Planning Commission may authorize the modification of height and setback regulations set forth in Section 98-40 and 98-50, inclusive, ~~and~~ the transparency requirements set forth in Sections 98-141 and 98-54, and the underlying #rear yard# and minimum distance between #legally required windows# and walls or #lot lines# regulations. The Commission shall find that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public areas.

* * *

98-50
SPECIAL HEIGHT AND SETBACK, OPEN AREA AND TRANSPARENCY REGULATIONS FOR ZONING LOTS WITHIN OR ADJACENT TO THE HIGH LINE TRANSFER CORRIDOR

98-51
Height and Setback Regulations on the East Side of the High Line

* * *

(b) In C6-3A Districts and in Subareas C, F and G

For #zoning lots# extending less than ~~120~~ 115 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of a #building# shall exceed a height of 3 feet, 6 inches above the level of the #High Line bed#.
For #zoning lots# that extend for at least ~~120~~ 115 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of the #building# shall exceed a height of 3 feet, 6 inches above the level of the #High Line bed#, except that a maximum of 40 percent of such #High Line frontage# may rise without setback above a height of 3 feet, 6 inches above the level of the #High Line bed# provided such portion of the #building# is not located directly between the #High Line# and any #street wall# of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (c) (Subareas C, F and I) of Section 98-423 (Street wall location, minimum and maximum base heights and maximum building heights).

However, the provisions of this paragraph, (b), shall not apply to any #zoning lot# existing on June 23, 2005 where the greatest distance between the eastern side of the #High Line# and a ~~side~~ lot line# east of the #High Line# is 35 feet when measured parallel to the nearest #narrow street line#.

* * *

98-60
SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS

98-61
High Line Access Easement Volume Requirement

* * *

(e) such #development# or #enlargement# is located wholly within an M1-5 District and no portion of such #development# or #enlargement# has more than 10,000 square feet of #floor area# and is located within five feet of the #High Line#~~.~~; or

(f) such #development# or #enlargement# is located on a #zoning lot# that fronts on West 23rd Street.

* * *

98-70
SUPPLEMENTAL REGULATIONS

In the Special West Chelsea District, the provisions of paragraphs (a) through (d), inclusive, of Section 93-90 (HARASSMENT) shall apply as modified in this Section.

For the purposes of this Section, the following definitions in Section 93-90 (HARASSMENT) shall be modified:

Anti-harassment area

"Anti-harassment area" shall mean the #Special West Chelsea District#

Referral date

"Referral date" shall mean December 20, 2004.

In addition, Section 93-90(d)(3) is modified as follows:

No portion of the #low income housing# required under this Section shall qualify to:

(a) increase the #floor area ratio# pursuant to the provisions of the #Special West Chelsea District#, #Special Hudson Yards District#, #Special Garment Center District#, #Special Clinton District# or Section 23-90, or

(b) satisfy an eligibility requirement of any real property tax abatement or exemption program with respect to any #multiple dwelling# that does not contain such #low income housing#.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

YVETTE V. GRUEL, Calendar Officer
City Planning Commission
22 Reade Street, Room 2E

PUBLIC HEARINGS

Notice is hereby given, pursuant to law, that the following proposed revocable consents have been scheduled for a public hearing by the New York City Department of Transportation. The hearing will be held at 40 Worth Street, Room 814, Borough of Manhattan, commencing at 2:00 P.M. on Wednesday, January 25, 2006. Interested parties can obtain copies of proposed agreements or request sign-language interpreters (with at least seven days prior notice) at 40 Worth Street, 9 South, New York, NY 10013, or by calling (212) 442-8040.

#1 In the matter of a proposed revocable consent authorizing Bishop Francis J. Mugavero Center for Geriatric Care, Inc. to continue to maintain and use planted areas, on the south sidewalk of Pacific Street, east of Hoyt Street, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016 and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2016 - $ 265/per annum.

the maintenance of a security deposit in the sum of $3,000, and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#2 In the matter of a proposed revocable consent authorizing Brookdale Hospital Medical Center to continue to maintain and use conduits, together with a street vault and a manhole, under and across Rockaway Parkway, north of Linden Boulevard, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016 and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2007 - $12,045
For the period July 1, 2007 to June 30, 2008 - $12,347
For the period July 1, 2008 to June 30, 2009 - $12,649
For the period July 1, 2009 to June 30, 2010 - $12,951
For the period July 1, 2010 to June 30, 2011 - $13,253
For the period July 1, 2011 to June 30, 2012 - $13,555
For the period July 1, 2012 to June 30, 2013 - $13,857
For the period July 1, 2013 to June 30, 2014 - $14,159
For the period July 1, 2014 to June 30, 2015 - $14,461
For the period July 1, 2015 to June 30, 2016 - $14,763

the maintenance of a security deposit in the sum of $14,800 and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#3 In the matter of a proposed revocable consent authorizing North Fork Bank to continue to maintain and usea nine (9) lampposts, together with electrical conduits, in and on the sidewalks of Manhattan Avenue and Calyer Street, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2016 - $1,350/per annum.

the maintenance of a security deposit in the sum of $2,000, and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#4 In the matter of a proposed revocable consent authorizing The New York Community Hospital of Brooklyn, Inc. to continue to maintain and use a ramp on the south sidewalk of Avenue O, west of Kings Highway, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2016 - $25/per annum.

the maintenance of a security deposit in the sum of $15,000, and the filing of an insurance policy in the minimum amount of $500,000/$2,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $200,000.

#5 In the matter of a proposed revocable consent authorizing Montefiore Medical Center to continue to maintain and use a tunnel, under and across Bainbridge Avenue, north of East 210th Street, in the Borough of the Bronx. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2007 - $8,067
For the period July 1, 2007 to June 30, 2008 - $8,269
For the period July 1, 2008 to June 30, 2009 - $8,471
For the period July 1, 2009 to June 30, 2010 - $8,673
For the period July 1, 2010 to June 30, 2011 - $8,875
For the period July 1, 2011 to June 30, 2012 - $9,077
For the period July 1, 2012 to June 30, 2013 - $9,279
For the period July 1, 2013 to June 30, 2014 - $9,481
For the period July 1, 2014 to June 30, 2015 - $9,683
For the period July 1, 2015 to June 30, 2016 - $9,885

the maintenance of a security deposit in the sum of $9,900, and the filing of an insurance policy in the minimum amount of $1,250,000/$5,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $1,000,000.

#6 In the matter of a proposed revocable consent authorizing The Trustees of Columbia University in the City of New York to construct, maintain and use the conduits under, across and along Riverside Drive, south of Saint Clair Place, under, across and along Claremont Avenue, south of La Salle Street, under and across West 122nd Street, east of Claremont Avenue, and under and across West 11th Street, east of Amsterdam Avenue, in the Borough of Manhattan. The proposed revocable consent is for a term of ten years from the date of approval by the Mayor to June 30, 2016, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

JUVENILE JUSTICE

■ SOLICITATIONS

Human / Client Service

NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 09-01-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew.

Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. If a vendor is interested in being considered for award of a contract described above, please hand deliver a written expression of interest addressed to Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 pursuant to the terms of the solicitation document.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

■ NOTICE

NOTICE OF PROPERTY TAXPAYERS

PURSUANT TO SECTION 1510 of the New York City Charter, the tentative assessment roll for the tax year beginning July 1, 2006 is open for public inspection. The roll is available to the public on the Department of Finance website, which may be viewed on the Internet or at any of our Borough Business Centers beginning on January 17, 2006. Owners of one, two and three family houses and other Class 1 properties may file an application for correction of a tentative assessment with the Tax Commission until March 15th. For all other property classes the last day owners may file an application for correction of a tentative assessment with the Tax Commission is March 1. These applications are available at the Borough Business Centers. From January 17 to March 15 applications can be filed at the borough business center or a borough assessment office between the hours of 9:00 A.M. to 4:30 P.M.

HOUSING AUTHORITY

■ NOTICE

The New York City Housing Authority ("NYCHA") invites painting contractors to attend a "Bidders Conference".

NYCHA is the largest public housing authority in the United States, operates and manages approximately 345 housing developments comprising of approximately 181,000 apartments.

Staff from various NYCHA departments will be on hand to answer any questions.

Attendance is mandatory if your firm wishes to be considered as a potential bidder on NYCHA Maintenance Painting Contracts.

The 2006 painting program will be addressed in detail.

The Conference will be held on Friday, January 27, 2006 from 11:00 A.M. to 1:00 P.M. at the Breukelen Community Center, 715 East 105th Street, Brooklyn, NY 11236 (between Glenwood and Flatland Avenues).

Housing Authority, 23-02 49th Avenue, Operation Services Department, L.I.C., NY 11101.
Adeyeri W. Ayeni (718) 707-8923.

REQUEST FOR COMMENT ON APPLICATION FOR CERTIFICATION OF NO HARASSMENT

DATE OF NOTICE: January 6, 2006

TO: OCCUPANTS, FORMER OCCUPANTS AND OTHER INTERESTED PARTIES OF

Address	Application #	Inquiry Period
143 West 131st Street, Manhattan	205/05	12/05/02 to Present
42 West 126th Street, Manhattan	206/05	12/05/02 to Present
356 Convent Avenue, Manhattan	207/05	12/14/02 to Present
2450 Broadway, Manhattan a/k/a 212-216 West 91st Street	208/05	12/15/02 to Present
207 West 87th Street, Manhattan	209/05	12/21/02 to Present
209 West 87th Street, Manhattan	210/05	12/21/02 to Present
306 West 94th Street, Manhattan	211/05	12/21/02 to Present
2 West 123rd Street, Manhattan	212/05	12/21/02 to Present
306 West 48th Street, Manhattan	214/05	12/28/02 to Present

The Department of Housing Preservation and Development has received an application for a certification that during the inquiry period noted for the premises above, that no harassment has occurred at such premises in the form of threats, use of physical force, deprivation of essential services such as heat, water, gas or electric, or by any other conduct intended to cause persons to vacate the premises or waive rights related to their occupancy. Upon the issuance of a Certification, an owner can legally convert the premises to non-single room occupancy use.

Comments as to whether harassment has occurred at the premises should be submitted to the Operations Division, Anti-Harassment Unit, 100 Gold Street, 3rd Floor, New York, NY 10038, by letter postmarked not later than 30 days from the date of this notice or by an in-person statement made within the same period. To schedule an appointment for an in-person statement call (212) 863-8272.

REQUEST FOR COMMENT ON APPLICATION FOR CERTIFICATION OF NO HARASSMENT PURSUANT TO THE SPECIAL CLINTON DISTRICT PROVISIONS OF THE ZONING RESOLUTION

DATE OF NOTICE: January 6, 2006

TO: OCCUPANTS, FORMER OCCUPANTS AND OTHER INTERESTED PARTIES OF

Address – Application # – Inquiry Period

306 West 48th Street, Manhattan – C15/05 – September 5, 1973 to Present

Prior to the issuance of a permit by the Department of Buildings for the alteration or demolition of residential buildings in certain areas of the Special Clinton District, the Department of Housing Preservation and Development is required to certify that: 1) prior to evicting or otherwise terminating the occupancy of any tenant preparatory to alteration or demolition, the owner shall have notified HPD of the owner's intention to alter or demolish the building and 2) the eviction and relocation practices followed by the owner of the building satisfy all applicable legal requirements and that no harassment has occurred.

The owner of the building located at the above-referenced address seeks the issuance of an HPD Certification. The owner has represented and certified to HPD of the owner's intention to alter or demolish the building and that the eviction and relocation practices followed by the owner satisfy all applicable legal requirements and that no harassment has occurred. For your information HPD considers harassment to include, but not be limited to, the threatened or actual use of physical force, deprivation of essential services such as heat, water, gas or electric, or any other conduct intended to cause persons to vacate the premises or waive rights related to their occupancy.

HPD requests that if you have any comments or evidence of unlawful eviction and relocation practices or harassment occurring at the above referenced premises that you notify the Housing Litigation Division, SRO Anti-Harassment Unit, 3rd Floor, 100 Gold Street, New York, NY 10038, by letter postmarked not later than 30 days from the date of this notice or by an in-person statement made within the same period. To schedule an appointment for an in-person statement call (212) 863-8272.

LANDMARKS PRESERVATION COMMISSION

■ NOTICE

BINDING REPORT

ISSUE DATE: 01/03/06	DOCKET #: 064053	SRB #: SRB 06-4975
ADDRESS: 266 WEST 139TH STREET HISTORIC DISTRICT: ST. NICHOLAS	BOROUGH: MANHATTAN	BLOCK/LOT: 2024 / 61

To the Mayor, the Council, and the Commissioner, NYC HPD.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The approvedwork consists of restorative work at the front and rear elevations including cleaning the masonry facades using a chemical agent and low pressure water; the selective removal and replacement of deteriorated elements of the brick and terra cotta facade; selective pointing work; resetting the historic limestone stoop steps and walls; the repair and refurbishment of the historic wrought-iron stoop railings, window grille at the basement level and the balconette at the parlor floor window, all to be painted black; the in-kind replacement of a paneled wood door, frame and arch-headed transom at the primary entrance, to be painted black; the installation of a new intercom panel located on the masonry return of the entrance; the installation of a light fixture in the soffit of the entrance; the in-kind replacement of five square-headed one-over-one double-hung wood windows at the basement, second, and third floors of the primary facade; and one pair of square-headed two pane wood casement windows with thick muntin bars to imitate double-hung windows, and with a single-pane wood transom window above at the parlor floor, all to be painted black; the installation of windows within existing historic openings at the rear elevation; the installation of a balcony and stair at the historic rear yard ell; the installation of railing at the parapet at the rear elevation; and the installation of rooftop mechanical equipment and associated dunnage; as shown in photographs and drawings labeled A-602A, A-606, A-607, D-601, and D-602 all dated November 28, 2005, prepared by John R. Coogan, R.A.

In reviewing this proposal, the Commission notes that 266 West 139th Street is one in a row of thirty-five three-story plus basement Georgian/Eclectic style buff-colored brick, limestone, and terra-cotta rowhouses, designed by Bruce Price and Clarence S. Luce and constructed in1890; and that the building's style, materials, and details are among the features that contribute to the special architectural and historic character

of the St. Nicholas Historic District

With regard to this proposal, the Commission finds that the proposed work is restorative in nature and will promote the long-term preservation of these features of the building; that the cleaning of the facade, when executed in conformance with approved standards, would remove deleterious residue while minimizing damage to original features of the building; that repointing the brick where necessary would eliminate potentially unstable conditions, and protect the building's facade and underlying structure from damage due to water infiltration; that the proposed mortar for brick repointing will match the color, profile, texture, and tooling of the historic mortar; that the proposed replacement brick units will match the color, size, and bonding pattern of each historic brick facade (buff colored on the primary and red brick on the rear); that the proposed replacement limestone and terra cotta units will match the color, size, texture, configuration, details, and bonding pattern of the historic limestone and terra-cotta; that the proposed mortar for repointing the limestone and terra-cotta will match the color, profile, texture, and tooling of the historic mortar; that the terra-cotta patching will be limited to a minimal amount of surface area and will match the surrounding terra cotta in terms of color, texture, and tooling; that replacing the paneled wood entrance door will restore an important feature to the building; and, in accordance with the criteria set forth in Title 63 of the Rules of the City of New York, Section 3-04, that the replacement windows at the primary facade will match the historic windows in terms of configuration, operation, material, details and finish; that the proposed replacement windows are not visible from any public thoroughfare, that they are to be installed in existing or historic openings, that they have no adverse effect on protected features of the building, and that they do not replace "special" windows; that the work at the roof consists solely of mechanical equipment; that the work does not result in the damage to, or demolition of a significant architectural feature of the roof of the structure on which the rooftop installation is to be constructed; that the rooftop equipment will not be visible from a public thoroughfare, and will not adversely affect significant architectural features of the adjacent improvements. The work, therefore, is approved

This permit is issued contingent upon the Commission's review and approval of samples of pointing, brick, and terra-cotta and limestone replacement units. Please contact Jared Knowles at 212 669 7886 to schedule a site inspection once samples are available for review.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the permitted documents. Other work or amendment to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Jared Knowles.

Robert B. Tierney
Chair

SCHOOL CONSTRUCTION AUTHORITY

■ NOTICE

PLEASE TAKE NOTICE THAT the New York City School Construction Authority ("SCA"), pursuant to Section 204 of the New York State Eminent Domain Procedure Law ("EDPL"), has made the following Determination and Findings related to the PS/IS 798K-Brooklyn Construction Project ("Project"): (1) The public purpose of the Project is to allow for the construction of a 630 seat primary and intermediate school to relieve overcrowding in Community School District No. 5 in Region No. 5; (2) the Project site, Tax Block 4102, Lots 19, 27, 35 & 36, located at the southwest corner of Jamaica Avenue and Richmond Street in the Cypress Hills section of Brooklyn, was selected because it is in an area in need of relief from severe school overcrowding; (3) the SCA has issued a Conditioned Negative Declaration under the New York State Environmental Quality Review Act for the Project; and (4) the SCA has determined that it should exercise its powers of condemnation under the EDPL to implement the Project. A complete copy of the SCA's Determinations and Findings will be forwarded without cost upon written request directed to the New York City School Construction Authority, 30-30 Thomson Avenue, Long Island City, New York 11101, to the attention of Gregory P. Shaw, Principal Attorney.

LATE NOTICES

MANHATTAN BOROUGH PRESIDENT

■ PUBLIC MEETING

The Manhattan Borough Board will have a public meeting on Thursday, January 19, 2006 from 8:30 A.M. to 11:00 A.M. The meeting will be held at the Manhattan Borough President's Office located at One Centre Street, 19th Floor South.

PLEASE NOTE: Individuals requesting sign-language interpreters or other reasonable accommodations for disabilities should contact the Office of the Manhattan Borough President, 1 Centre Street, 10th Floor, New York, NY 10007, (212) 669-4400, no later than Three (3) BUSINESS DAYS PRIOR TO THE PUBLIC HEARING.

☛ j13-18

CITY COUNCIL

■ HEARINGS

HEARING BY THE COMMITTEE ON RULES, PRIVILEGES AND ELECTIONS

THE COMMITTEE ON RULES, PRIVILEGES AND ELECTIONS WILL HOLD A HEARING ON WEDNESDAY, JANUARY 18, 2006 AT 11:00 A.M. IN THE COUNCIL CHAMBERS, CITY HALL, NEW YORK, NEW YORK 10007 ON THE FOLLOWING MATTERS:

Advice and Consent

- **M-6,** Communication from the Mayor submitting the name of **Robert Brian Tierney** for re-appointment as a member of the New York City Landmarks Preservation Commission ("LPC") pursuant to Sections 31 and 3020 of the *New York City Charter*. Should Mr. Tierney receive the advice and consent of the Council, he will be eligible to serve the remainder of a three-year term that expires on June 28, 2007.

- **M-7,** Communication from the Mayor submitting the name of **Elizabeth Ryan** for re-appointment as a member of the New York City Landmarks Preservation Commission ("LPC") pursuant to Sections 31 and 3020 of the *New York City Charter*. Should Ms. Ryan receive the advice and consent of the Council, she will be eligible to serve the remainder of a three-year term that expires on June 28, 2008.

AND SUCH OTHER BUSINESS AS MAY BE NECESSARY

A Calendar of speakers will be established in advance. Persons interested in being heard should write to the Honorable Christine C. Quinn, Speaker of the City Council, City Hall, New York, New York 10007, setting forth their name, representation and viewpoints.

Victor L. Robles
City Clerk, Clerk of the Council

☛ j13-18

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in Crosby v. National Foreign Trade Council, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

COMMON ABBREVIATIONS USED IN THE CR

The CR contains many abbreviations. Listed below are simple explanations of some of the most common ones appearing in the CR:

AB ..... Acceptable Brands List
AC .....Accelerated Procurement
AMT .....Amount of Contract
BL .....Bidders List
CSB .....Competitive Sealed Bidding (including multi-step)
CB/PQ .....CB from Pre-qualified Vendor List
CP .....Competitive Sealed Proposal (including multi-step)
CP/PQ .....CP from Pre-qualified Vendor List
CR .....The City Record newspaper
DA .....Date bid/proposal documents available
DUE .....Bid/Proposal due date; bid opening date
EM .....Emergency Procurement
IG .....Intergovernmental Purchasing
LBE .....Locally Based Business Enterprise
M/WBE .....Minority/Women's Business Enterprise
NA .....Negotiated Acquisition
NOTICE....Date Intent to Negotiate Notice was published in CR
OLB .....Award to Other Than Lowest Responsible & Responsive Bidder/Proposer
PIN .....Procurement Identification Number
PPB .....Procurement Policy Board
PQ .....Pre-qualified Vendors List
RS .....Source required by state/federal law or grant
SCE .....Service Contract Short-Term Extension
DP .....Demonstration Project
SS .....Sole Source Procurement
ST/FED .....Subject to State &/or Federal requirements

KEY TO METHODS OF SOURCE SELECTION

The Procurement Policy Board (PPB) of the City of New York has by rule defined the appropriate methods of source selection for City procurement and reasons justifying their use. The CR procurement notices of many agencies include an abbreviated reference to the source selection method utilized. The following is a list of those methods and the abbreviations used:

CSB .....**Competitive Sealed Bidding** (including multi-step)
Special Case Solicitations/Summary of Circumstances:
CP .....***Competitive Sealed Proposal*** (including multi-step)
CP/1 .....Specifications not sufficiently definite
CP/2 .....Judgement required in best interest of City
CP/3 .....Testing required to evaluate
CB/PQ/4 ....
CP/PQ/4 ....**CB or CP from Pre-qualified Vendor List/** Advance qualification screening needed
DP .....Demonstration Project
SS .....**Sole Source Procurement/**only one source
RS .....Procurement from a Required Source/ST/FED
NA .....Negotiated Acquisition
For ongoing construction project only:
NA/8 .....Compelling programmatic needs
NA/9 .....New contractor needed for changed/additional work
NA/10 .....Change in scope, essential to solicit one or limited number of contractors
NA/11 .....Immediate successor contractor required due to termination/default
For Legal services only:
NA/12 .....Specialized legal devices needed; CP not advantageous
WA .....**Solicitation Based on Waiver/Summary of Circumstances** (Client Services/BSB or CP only)
WA1 .....Prevent loss of sudden outside funding
WA2 .....Existing contractor unavailable/immediate need
WA3 .....Unsuccessful efforts to contract/need continues
IG .....**Intergovernmental Purchasing** (award only)
IG/F .....Federal
IG/S .....State
IG/O .....Other
EM .....**Emergency Procurement** (award only) An unforeseen danger to:
EM/A .....Life
EM/B .....Safety
EM/C .....Property
EM/D .....A necessary service
AC .....**Accelerated Procurement/**markets with significant short-term price fluctuations
SCE .....**Service Contract Extension/**insufficient time; necessary service; fair price
Award to Other Than Lowest Responsible & Responsive Bidder or Proposer/Reason (award only)
OLB/a .....anti-apartheid preference
OLB/b .....local vendor preference
OLB/c .....recycled preference
OLB/d .....other: (specify)

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

SAMPLE NOTICE:

POLICE

DEPARTMENT OF YOUTH SERVICES

■ **SOLICITATIONS**

Services (Other Than Human Services)

BUS SERVICES FOR CITY YOUTH PROGRAM – Competitive Sealed Bids – PIN# 056020000293 – DUE 04-21-03 AT 11:00 A.M.

BROOKLYN BOROUGH PRESIDENT

■ PUBLIC HEARINGS

UNIFORM LAND USE REVIEW PROCEDURE

Notice is hereby given that, pursuant to Sections 82 and 197-C of the New York City Charter, the Brooklyn Borough President will hold a public hearing on the following matters in the **Community Room, Brooklyn Borough Hall, 209 Joralemon Street, Brooklyn, New York 11201, commencing at 6:00 P.M. on Tuesday, January 24, 2006.**

CALENDAR ITEM 1
ATLANTIC TERRACE
UDAAP/DISPOSITION
COMMUNITY DISTRICT 2

In the matter of an application submitted by the Department of Housing Preservation and Development pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section No. 16c, changing from a C6-1 District to a C6-2 District property bounded by a line 100 feet northerly of Atlantic Avenue, South Oxford Street, Atlantic Avenue, and South Portland Avenue, in the Fort Greene section of Community District 2. 060176 ZMK.

CALENDAR ITEM 2
WAZOBIA HOUSE
UDAAP/SITE SELECTION
ZONING SPECIAL PERMIT
COMMUNITY DISTRICT 3

In the matter of an application submitted by the Department of Housing Preservation and Development, pursuant to Sections 197-c and 201 of the New York City Charter, for the grant of a special permit pursuant to Section 74-902 of the Zoning Resolution, to permit the allowable community facility floor area ration of Section 24-11 to apply to the subject property, located in an R5 district, at 31-39 Van Buren Street (Block 1791, Lots 68, 69, 70, 71, and 72), to facilitate the construction of a 18,000 sq. ft. non-profit institution with sleeping accommodations, in the Bedford-Stuyvesant section of Community District 3. 060195 ZSK / 060194 HAK.

CALENDAR ITEM 3
OEM WAREHOUSE
SITE SELECTION
COMMUNITY DISTRICT 4

In the matter of an application submitted by the Office of Emergency Management and the Department of Citywide Administrative Services, pursuant to Section 197-c of the New York City Charter, for site selection and acquisition of property for use as a warehouse, located at 930 Flushing Ave. (Block 3140, p/o Lot 1), in the Bushwick section of Community District 4. 060078 PCK.

Note: To request a sign language interpreter, or to request TTD services, call Mr. Judd Schechtman at (718) 802-3856 at least five business days before the day of the hearing.

j12-24

MANHATTAN BOROUGH PRESIDENT

■ PUBLIC MEETING

The Manhattan Borough Board will have a public meeting on Thursday, January 19, 2006 from 8:30 A.M. to 11:00 A.M. The meeting will be held at the Manhattan Borough President's Office located at One Centre Street, 19th Floor South.

PLEASE NOTE: Individuals requesting sign-language interpreters or other reasonable accommodations for disabilities should contact the Office of the Manhattan Borough President, 1 Centre Street, 10th Floor, New York, NY 10007, (212) 669-4400, no later than Three (3) BUSINESS DAYS PRIOR TO THE PUBLIC HEARING.

j13-18

CITY COUNCIL

■ HEARINGS

NOTICE IS HEREBY GIVEN THAT the Council has scheduled the following public hearing on the matter indicated below:

The Subcommittee on Zoning and Franchises will hold public hearings on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 9:30 A.M. on Monday, January 23, 2006:

BRONX CB - 6 **C 030461 ZMX**
Application submitted by Adar Assets Corp. pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section No.3d, establishing within an existing R7-1 District a C2-4 District bounded by a line 100 feet southwesterly of East Tremont Avenue, a line 100 feet southeasterly of Crotona Parkway, Elsmere Place, a line 180 feet southeasterly of Crotona Parkway, a line 100 feet southwesterly of Elsmere Place, and Crotona Parkway, as shown on a diagram (for illustrative purposes only) dated July 25, 2005, and subject to the conditions of CEQR Declaration No. E-150.

BRONX CB - 4 **C 050074 MMX**
Application, submitted by the NYC Economic Development Corporation (EDC) and the Bronx Terminal Market (BTM) Development Partners, LLC pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of East 150th Street between River Avenue and Major Deegan Boulevard (a.k.a., Exterior Street);
- the elimination, discontinuance and closing of East 151st Street between River Avenue and Cromwell Avenue;
- the elimination, discontinuance and closing of Cromwell Avenue between Major Deegan Boulevard and the Metro North right of way;
- the extinguishment of a sewer easement;
- the adjustment of grades; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. 13105 dated June 7, 2005 and signed by the Borough President.

BRONX CB - 4 **C 050529 ZMX**
Application submitted by BTM Development Partners, LLC and the Economic Development Corporation pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section No. 6a, changing from an M2-1 to a C4-4 District property bounded by a line 1120 feet southerly of Macombs Dam Bridge and its easterly prolongation, Gateway Center Boulevard/Major Deegan Expressway, the northeasterly boundary line of the Metro North Rail Road Right-Of-Way, River Avenue, East 149th Street, Gateway Center Boulevard/Major Deegan Expressway, a line 600 feet northerly of East 149th Street, and the U.S. Pierhead and Bulkhead Line, as shown on a diagram (for illustrative purposes only) dated July 11, 2005

BRONX CB - 4 **C 050530 ZSX**
Application submitted by BTM Development Partners, LLC and the Economic Development Corporation pursuant to Sections 197-c and 201 of the New York City Charter for the grant of a special permit pursuant to Section 74-512 of the Zoning Resolution to allow a public parking garage with a maximum capacity of 2,595 spaces including 1,072 accessory spaces within a proposed 6-story garage building in connection with a proposed commercial development within a general large-scale development, on property generally bounded by East 149th Street, Gateway Center Boulevard/ Major Deegan Expressway, and the Metro North Railroad (Block 2356, Lot 20, Block 2357, Lots 1 and 86, Block 2539, Lot 32 and p/o Lots 50 and 60, and the beds of portions of East 150th Street, Cromwell Avenue, and East 151st Street), in a C4-4 District.

BRONX CB - 4 **C 050531 ZSX**
Application submitted by BTM Development Partners, LLC and the Economic Development Corporation pursuant to Sections 197-c and 201 of the New York City Charter for the grant of a special permit pursuant to Section 74-743(a) of the Zoning Resolution to modify the height and setback regulations of Section 33-40 and to allow the distribution of the total allowable floor area without regard for zoning lot lines to facilitate a commercial development within a general large-scale development, on property generally bounded by East 149th Street, Gateway Center Boulevard/Major Deegan Expressway, and the Metro North Railroad (Block 2356, Lot 20, Block 2357, Lots 1 and 86, Block 2539, Lot 32 and p/o Lots 50 and 60, and the beds of portions of East 150th Street, Cromwell Avenue, and East 151st Street), in a C4-4 District.

BRONX CB - 4 **C 050532 ZSX**
Application submitted by BTM Development Partners, LLC and the Economic Development Corporation pursuant to Sections 197-c and 201 of the New York City Charter for the grant of a special permit pursuant to Section 74-744(c) of the Zoning Resolution to modify the sign regulations of Section 32-60 in connection with a proposed commercial development within a general large-scale development, on property generally bounded by East 149th Street, Gateway Center Boulevard/Major Deegan Expressway, and the Metro North Railroad (Block 2356, Lot 20, Block 2357, Lots 1 and 86, Block 2539, Lot 32 and p/o Lots 50 and 60, and the beds of portions of East 150th Street, Cromwell Avenue, and East 151st Street), in a C4-4 District.

BRONX CB - 4 **C 050539 PPX**
Application submitted by the Department of Citywide Administrative Services and the New York City Department of Small Business Services, pursuant to Section 197-c of the New York City Charter, for the disposition of seven (7) city-owned properties pursuant to zoning:

BLOCK	LOT	ADDRESS
2356	20	665 River Avenue
2357	1	665 Cromwell
2357	86	700 Cromwell
2539	p/o Lot 2	69 Major William Deegan Blvd.
2539	32	59 Major William Deegan Blvd.
2539	p/o Lot 50	Major William Deegan Blvd.
2539	p/o Lot 60	Major William Deegan Blvd.

The Subcommittee on Planning, Dispositions and Concessions will hold public hearings on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 1:00 P.M. on Monday, January 23, 2006:

Proposals subject to Council review and action pursuant to the Urban Development Action Area Act, Article 16 of the New York General Municipal Law, at the request of the

Department of Housing Preservation and Development ("HPD"), which requests that the Council:

1. Find that the present status of the listed areas tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes of Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3. Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law;

4. Approve the project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law; and

5. Approve an exemption of the project from real property taxes pursuant to 696 of the General Municipal Law for Non-ULURP Nos. 20065144 HAK through 20065148 HAM.

CITY PLANNING COMMISSION

■ PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN THAT RESOLUTIONS Have been adopted by the City Planning Commission Scheduling public hearings on the following matters to be held at Spector Hall, 22 Reade Street, New York on Wednesday, January 25, 2006, commencing at 10:00 a.m.

BOROUGH OF BROOKLYN
No. 1
PINE STREET DAY CARE CENTER

CD 5 **C 050472 PQK**

IN THE MATTER OF an application submitted by the Administration for Children's Services and the Department of Citywide Administrative Services, pursuant to Section 197-c of the New York City Charter, for the acquisition of property located at 374 Pine Street (Block 4214, Lot 1), for continued use as a day care center.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 2
MOTHER GASTON BOULEVARD APARTMENTS

CD 16 **N 060249 HAK**

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

   a) the designation of property located at 84, 86, 88, 90 and 92 Mother Gaston Boulevard (Block 1542, Lots 33-37) as an Urban Development Action Area; and

   b) an Urban Development Action Area Project for such area;

to facilitate the development of a 4 -story building, tentatively known as 84-92 Mother Gaston Boulevard, with approximately 50 residential units to be developed under the Department of Housing Preservation and Development Supportive Housing Program.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF MANHATTAN
No. 3
325 5th AVENUE GARAGE

CD 5 **C 050257 ZSM**

IN THE MATTER OF an application submitted by Continental Residential Holdings, LLC pursuant to Sections 197-c and 201 of the New York City Charter for **the grant of a special permit** pursuant to Sections 13-562 and 74-52 of the Zoning Resolution **to allow an attended public parking garage with a maximum capacity of 174 spaces on portions of the first floor, cellar, and sub-cellar, of a proposed 41-story mixed use building on property located at 325 Fifth Avenue** (Block 862, Lots 1,3,4,9 (all including Lot 8),11 and 73), in a C5-2 District.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, NY, 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

Nos. 4 & 5
MADISON PARK WEST
No. 4

CD 5 **C 060210 ZMM**

IN THE MATTER OF an application submitted by 200 Fifth, LLC pursuant to Sections 197-c and 201 of the New York City Charter **for an amendment of the Zoning Map, Section No. 8d, changing from an M1-6 District to a C5-2 District property bounded by** West 25th Street, a line 100 feet westerly of Broadway, a line 100 feet westerly of Fifth Avenue, West 23rd Street, and a line 275 feet westerly of Fifth Avenue, as shown on a diagram (for illustrative purposes only) dated November 14, 2005 and subject to the conditions of CEQR Declaration E-160.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 5

CD 5 **C 060211 ZSM**

IN THE MATTER OF an application submitted by 200 Fifth, LLC pursuant to Sections 197-c and 201 of the New York City Charter **for the grant of a special permit** pursuant to Sections 13-562 and 74-52 of the Zoning **Resolution to allow an attended public parking garage with a maximum capacity of 54 spaces on a portion of the ground floor and cellar of an existing building and proposed to be enlarged on a property located at 1107 Broadway** (Block 826, Lots 33 and 37), in a C5-2* District, partially within the Ladies Mile Historic District.

* Note: a portion of the site is proposed to be rezoned by changing an M-16 District to a C5-2 District under a related application (C 060210 ZMM) for a change in the Zoning Map.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, N.Y. 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF QUEENS
Nos. 6 & 7
SOUTH JAMAICA I URBAN RENEWAL PLAN/NEW FOUNDATIONS

No. 6

CD 12 **C 050422 HUQ**

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD), pursuant to Section 505 of Article 15 of the General Municipal (Urban Renewal) Law of New York State and Section 197-c of the New York City Charter, for the 6th amendment to the South Jamaica I Urban Renewal Plan for the South Jamaica Urban Renewal Area.

The proposed plan:

1. Revises the land use definition to permit residential, commercial and community facility uses on residential sites where permitted by zoning.

2. Deletes sites from the plan that have been developed or rehabilitated by private owners.

3. Subdivides Site 4B into sites: 4b, 4c, and 4d; and Site 13 into sites: 13a, 13b, 13c, 13d and 13e.

These changes would facilitate the development of a mixed-use building with two residential units and commercial space to be developed under the Department of Housing Preservation and Development's New Foundation Program.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 7

CD 12 **C 050423 HAQ**

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

   a) the designation of property located at 115-40 and 115-42 Sutphin Boulevard (Block 11994, Lots 13 and 14) Site 4C within the South Jamaica I Urban Renewal Area, as an Urban Development Action Area; and

   b) an Urban Development Action Area Project for such area;

2) pursuant to Section 197-c of the New York City Charter for the disposition of such lots to a developer to be selected by HPD;

to facilitate the development of a mixed-use building with two residential units and commercial space to be developed under the Department of Housing Preservation and Development's New Foundation Program

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 8
FLIGHT 587 MEMORIAL PARK

CD 14 **C 060090 MMQ**

IN THE MATTER OF an application, submitted by the Department of Parks and Recreation and the Department of Transportation pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of portions of Beach 116th Street and Ocean Promenade;
- the modification and the realignment of the turnaround at the southerly terminus of Beach 116th Street;
- the establishment of a Memorial Park;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. 4982 dated October 6, 2005 and signed by the Borough President.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF STATEN ISLAND
No. 9
GATEWAY CATHEDRAL

CD 3 **C 060134 ZSR**

IN THE MATTER OF an application submitted by Gateway Cathedral pursuant to Sections 197-c and 201 of the New York City Charter for **the grant of a special permit** pursuant to Section 74-53 of the Zoning Resolution **to modify the requirements of Section 25-12 (Maximum Size of Accessory Group parking Facilities) to allow a group parking facility accessory to uses in a large-scale community facility development with a maximum of 941 spaces on property located at 200 Boscombe Avenue** (Block 7577, Lot 3), in an R3X District, within the Special South Richmond Development District.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, N.Y. 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF MANHATTAN
No. 10
SPECIAL WEST CHELSEA DISTRICT TEXT AMENDMENT

CD 4 **N 060199 ZRM**

IN THE MATTER OF an application submitted by the Department of City Planning pursuant to Section 201 of the New York City Charter for an amendment of the Zoning Resolution of the City of New York, relating to Article IX, Chapter 8 (Special West Chelsea District),.

Matter in underline is new, to be added;
Matter in ~~strikeout~~ is old, to be deleted;
Matter within # # is defined in Section 12-10 (DEFINITIONS)
* * * indicates where unchanged text appears in the Resolution

* * *

Article IX - Special Purpose Districts

Chapter 8
Special West Chelsea District

* * *

98-10
SPECIAL USE AND PARKING REGULATIONS WITHIN THE SPECIAL WEST CHELSEA DISTRICT

98-11
Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line

The Commissioner of Buildings shall not issue any building permit for demolition, excavation or foundation work to be performed above or beneath the #High Line# or within 25 feet of support structures of the #High Line#, except by determination by such Commissioner that such work would not adversely affect the structural integrity of the #High Line# and by determination by the ~~City agency or official designated by the Office of the Mayor for such purpose~~Commissioner of Parks that such work would not adversely affect the City's ability to inspect and maintain as necessary to ensure the structural integrity of the #High Line#.

* * *

98-18
Parking Regulations in Subarea H
#Accessory# off-street parking spaces for existing or new governmental offices may be located on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided that:

(a) such spaces are located within Subarea H and in a facility, or portion thereof, that is entirely below #curb level#;

(b) the portion of such facility beneath the required public plaza area shown on Diagram 3 in Appendix A is sufficiently below #curb level# so that trees

may be planted at #curb level# within such public plaza but is in no case less than 4 feet below curb level; and

(c) ~~and that~~ no more than 377 spaces are provided within such facility

For purposes of this Section, the governmental offices on Block 688, Lots 1001-1002 as of June 23, 2005, may have up to 377 #accessory# off-street parking spaces in such facility.

98-40
SPECIAL YARD, HEIGHT AND SETBACK, AND MINIMUM DISTANCE BETWEEN BUILDINGS REGULATIONS

* * *

98-423
Street wall location, minimum and maximum base heights and maximum building heights

The provisions set forth in paragraph (a) of this Section shall apply to all #developments# and #enlargements#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (f) of this Section.

(a) On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along such entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in the table of this Section. On #corner lots# with both #wide# and #narrow street# frontages, a #street wall# with a minimum height of 15 feet shall be located on ~~a~~ the #narrow street line# ~~beyond 50 feet of its intersection with a #wide street# and extend along such entire #narrow street# frontage of the #zoning lot#~~ between 50 and 100 feet from its intersection with a #wide street#. On all other #narrow street# frontages, the #street wall# shall be located on the #street line# and extend along at least 70 percent of the #narrow street# frontage of the #zoning lot# up to at least the minimum base height specified in the table in this Section.

* * *

(b) Subareas A and D

(1) #Street wall# location

In Subarea D, on #corner lots# between the north side of West 18th Street and the south side of West 22nd Street, a #street wall# with a minimum height of 15 feet shall be located on the #narrow street line# between 50 and 150 feet of its intersection with Eleventh Avenue.

In Subarea D, for #buildings# that do not include towers as set forth in paragraph (b)(3) of this Section, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front. In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within 10 feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.

* * *

98-424
Authorization to modify ~~height and setback~~certain bulk regulations

For #zoning lots# located entirely within 75 feet of the west side of the #High Line#, the City Planning Commission may authorize the modification of height and setback regulations set forth in Section 98-40 and 98-50, inclusive, ~~and~~ the transparency requirements set forth in Sections 98-141 and 98-54, and the underlying #rear yard# and minimum distance between #legally required windows# and walls or #lot lines# regulations. The Commission shall find that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public areas.

* * *

98-50
SPECIAL HEIGHT AND SETBACK, OPEN AREA AND TRANSPARENCY REGULATIONS FOR ZONING LOTS WITHIN OR ADJACENT TO THE HIGH LINE TRANSFER CORRIDOR

98-51
Height and Setback Regulations on the East Side of the High Line

* * *

(b) In C6-3A Districts and in Subareas C, F and G

For #zoning lots# extending less than ~~120~~ 115 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of a #building# shall exceed a height of 3 feet, 6 inches above the level of the #High Line bed#.
For #zoning lots# that extend for at least ~~120~~ 115 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of the #building# shall exceed a height of 3 feet, 6 inches above the level of the #High Line bed#, except that a maximum of 40 percent of such #High Line frontage# may rise without setback above a height of 3 feet, 6 inches above the level of the #High Line bed# provided such portion of the #building# is not located directly between the #High Line# and any #street wall# of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (c) (Subareas C, F and I) of Section 98-423 (Street wall location, minimum and maximum base heights and maximum building heights).

However, the provisions of this paragraph, (b), shall not apply to any #zoning lot# existing on June 23, 2005 where the greatest distance between the eastern side of the #High Line# and a ~~#side~~ lot line# east of the #High Line# is 35 feet when measured parallel to the nearest #narrow street line#.

* * *

98-60
SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS

98-61
High Line Access Easement Volume Requirement

* * *

(e) such #development# or #enlargement# is located wholly within an M1-5 District and no portion of such #development# or #enlargement# has more than 10,000 square feet of #floor area# and is located within five feet of the #High Line#.;or

(f) such #development# or #enlargement# is located on a #zoning lot# that fronts on West 23rd Street.

* * *

98-70
SUPPLEMENTAL REGULATIONS

In the Special West Chelsea District, the provisions of paragraphs (a) through (d), inclusive, of Section 93-90 (HARASSMENT) shall apply as modified in this Section.

For the purposes of this Section, the following definitions in Section 93-90 (HARASSMENT) shall be modified:

Anti-harassment area

"Anti-harassment area" shall mean the #Special West Chelsea District#

Referral date

"Referral date" shall mean December 20, 2004.

In addition, Section 93-90(d)(3) is modified as follows:

No portion of the #low income housing# required under this Section shall qualify to:

(a) increase the #floor area ratio# pursuant to the provisions of the #Special West Chelsea District#, #Special Hudson Yards District#, #Special Garment Center District#, #Special Clinton District# or Section 23-90, or

(b) satisfy an eligibility requirement of any real property tax abatement or exemption program with respect to any #multiple dwelling# that does not contain such #low income housing#.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

COUNSEL TO NEGOTIATE ENTERPRISE RESOURCE PLANNING SOFTWARE LICENSE AND IMPLEMENTATION AGREEMENT – CP/PQ/4 –
PIN# ERP COUNSEL 0106 – DUE 02-23-06 AT 3:00 P.M. – The City University of New York is conducting a Request for Proposal to obtain ERP software and implement it throughout the CUNY System. CUNY seeks a higher education software solution with an open systems architecture, which is compatible with a variety of relational databases, has the ability to run on multiple platforms and is scalable to 500,000 plus users. CUNY intends to base its contract with any awardee on the legal terms and conditions of the NYS Office of General Services standard software, support, consulting and training services contract. In the event that certain legal terms need to be further negotiated, CUNY is issuing a Request for Information to gather information about law firms with the ability to advise on a matter of this scope. The last date for receipt of questions, which must be in writing, is 3:00 P.M. (EST) on Friday, February 10, 2006. Information about relevant experience and qualifications is due 3:00 P.M. (EST) on Thursday, February 23, 2006.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.
The City University of New York, 535 East 80th Street New York, NY 10021. Frederick P. Schaffer, General Counsel, (tel) (212) 794-5506; (fax) (212) 794-5426.

Human / Client Service

NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 09-01-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew.

Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. If a vendor is interested in being considered for award of a contract described above, please hand deliver a written expression of interest addressed to Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 pursuant to the terms of the solicitation document.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.

AGENCY RULES

CITY COUNCIL

■ HEARINGS

HEARING BY THE COMMITTEE ON RULES, PRIVILEGES AND ELECTIONS

THE COMMITTEE ON RULES, PRIVILEGES AND ELECTIONS WILL HOLD A HEARING ON WEDNESDAY, JANUARY 18, 2006 AT 11:00 A.M. IN THE COUNCIL CHAMBERS, CITY HALL, NEW YORK, NEW YORK 10007 ON THE FOLLOWING MATTERS:

Advice and Consent

- **M-6,** Communication from the Mayor submitting the name of **Robert Brian Tierney** for re-appointments as a member of the New York City Landmarks Preservation Commission ("LPC") pursuant to Sections 31 and 3020 of the *New York City Charter*. Should Mr. Tierney receive the advice and consent of the Council, he will be eligible to serve the remainder of a three-year term that expires on June 28, 2007.

- **M-7,** Communication from the Mayor submitting the name of **Elizabeth Ryan** for re-appointments as a member of the New York City Landmarks Preservation Commission ("LPC") pursuant to Sections 31 and 3020 of the *New York City Charter*. Should Ms. Ryan receive the advice and consent of the Council, she will be eligible to serve the remainder of a three-year term that expires on June 28, 2008.

AND SUCH OTHER BUSINESS AS MAY BE NECESSARY

A Calendar of speakers will be established in advance. Persons interested in being heard should write to the Honorable Christine C. Quinn, Speaker of the City Council, City Hall, New York, New York 10007, setting forth their name, representation and viewpoints.

Victor L. Robles
City Clerk, Clerk of the Council

j13-18

TAXI AND LIMOUSINE COMMISSION

■ PUBLIC HEARINGS

Notice of Correction

In the Taxi and Limousine Commission's Notice of Public Hearing and Opportunity to Comment on Proposed Rules relating to pilot programs published January 6, 2006 on page 80 of the City Record, the year in the dates for the public hearing, deadline for requests for accommodations, and deadline for comment submission was inadvertently published as 2005 and was intended to be 2006. The correct dates are as follows: the deadline for submission of requests for reasonable accommodations of disabilities is February 2, 2006; the deadline for submission of written comments is February 6, 2006; and the date for the public hearing on the proposed rule is February 9, 2006.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

COMMON ABBREVIATIONS USED IN THE CR

The CR contains many abbreviations. Listed below are simple explanations of some of the most common ones appearing in the CR:

AB ..... Acceptable Brands List
AC .....Accelerated Procurement
AMT.....Amount of Contract
BL .....Bidders List
CSB.....Competitive Sealed Bidding (including multi-step)
CB/PQ.....CB from Pre-qualified Vendor List
CP .....Competitive Sealed Proposal (including multi-step)
CP/PQ .....CP from Pre-qualified Vendor List
CR .....The City Record newspaper
DA.....Date bid/proposal documents available
DUE.....Bid/Proposal due date; bid opening date
EM .....Emergency Procurement
IG .....Intergovernmental Purchasing
LBE.....Locally Based Business Enterprise
M/WBE .....Minority/Women's Business Enterprise
NA.....Negotiated Acquisition
NOTICE....Date Intent to Negotiate Notice was published in CR
OLB.....Award to Other Than Lowest Responsible & Responsive Bidder/Proposer
PIN.....Procurement Identification Number
PPB.....Procurement Policy Board
PQ .....Pre-qualified Vendors List
RS.....Source required by state/federal law or grant
SCE.....Service Contract Short-Term Extension
DP .....Demonstration Project
SS.....Sole Source Procurement
ST/FED.....Subject to State &/or Federal requirements

KEY TO METHODS OF SOURCE SELECTION

The Procurement Policy Board (PPB) of the City of New York has by rule defined the appropriate methods of source selection for City procurement and reasons justifying their use. The CR procurement notices of many agencies include an abbreviated reference to the source selection method utilized. The following is a list of those methods and the abbreviations used:

CSB.....**Competitive Sealed Bidding** (including multi-step)
Special Case Solicitations / Summary of Circumstances:
CP .....***Competitive Sealed Proposal*** (including multi-step)
CP/1 .....Specifications not sufficiently definite
CP/2 .....Judgement required in best interest of City
CP/3 .....Testing required to evaluate
CB/PQ/4 ....
CP/PQ/4 ....**CB or CP from Pre-qualified Vendor List/** Advance qualification screening needed
DP .....Demonstration Project
SS.....**Sole Source Procurement/**only one source
RS.....Procurement from a Required Source/ST/FED
NA.....Negotiated Acquisition
For ongoing construction project only:
NA/8.....Compelling programmatic needs
NA/9.....New contractor needed for changed/additional work
NA/10.....Change in scope, essential to solicit one or limited number of contractors
NA/11.....Immediate successor contractor required due to termination/default
For Legal services only:
NA/12.....Specialized legal devices needed; CP not advantageous
WA .....**Solicitation Based on Waiver/Summary of Circumstances** (Client Services/BSB or CP only)
WA1 .....Prevent loss of sudden outside funding
WA2 .....Existing contractor unavailable/immediate need
WA3 .....Unsuccessful efforts to contract/need continues
IG .....**Intergovernmental Purchasing** (award only)
IG/F.....Federal
IG/S.....State
IG/O .....Other
EM .....**Emergency Procurement** (award only) An unforeseen danger to:
EM/A.....Life
EM/B.....Safety
EM/C.....Property
EM/D.....A necessary service
AC .....**Accelerated Procurement/**markets with significant short-term price fluctuations
SCE.....**Service Contract Extension/**insufficient time; necessary service; fair price
Award to Other Than Lowest Responsible & Responsive Bidder or Proposer / Reason (award only)
OLB/a.....anti-apartheid preference
OLB/b.....local vendor preference
OLB/c.....recycled preference
OLB/d.....other: (specify)

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

SAMPLE NOTICE:

POLICE

DEPARTMENT OF YOUTH SERVICES

■ **SOLICITATIONS**

Services (Other Than Human Services)

BUS SERVICES FOR CITY YOUTH PROGRAM – Competitive Sealed Bids – PIN# 056020000293 – DUE 04-21-03 AT 11:00 A.M.

BROOKLYN BOROUGH PRESIDENT

■ PUBLIC HEARINGS

UNIFORM LAND USE REVIEW PROCEDURE

Notice is hereby given that, pursuant to Sections 82 and 197-C of the New York City Charter, the Brooklyn Borough President will hold a public hearing on the following matters in the **Community Room, Brooklyn Borough Hall, 209 Joralemon Street, Brooklyn, New York 11201, commencing at 6:00 P.M. on Tuesday, January 24, 2006.**

CALENDAR ITEM 1
ATLANTIC TERRACE
UDAAP/DISPOSITION
COMMUNITY DISTRICT 2

In the matter of an application submitted by the Department of Housing Preservation and Development pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section No. 16c, changing from a C6-1 District to a C6-2 District property bounded by a line 100 feet northerly of Atlantic Avenue, South Oxford Street, Atlantic Avenue, and South Portland Avenue, in the Fort Greene section of Community District 2. 060176 ZMK.

CALENDAR ITEM 2
WAZOBIA HOUSE
UDAAP/SITE SELECTION
ZONING SPECIAL PERMIT
COMMUNITY DISTRICT 3

In the matter of an application submitted by the Department of Housing Preservation and Development, pursuant to Sections 197-c and 201 of the New York City Charter, for the grant of a special permit pursuant to Section 74-902 of the Zoning Resolution, to permit the allowable community facility floor area ration of Section 24-11 to apply to the subject property, located in an R5 district, at 31-39 Van Buren Street (Block 1791, Lots 68, 69, 70, 71, and 72), to facilitate the construction of a 18,000 sq. ft. non-profit institution with sleeping accommodations, in the Bedford-Stuyvesant section of Community District 3. 060195 ZSK / 060194 HAK.

CALENDAR ITEM 3
OEM WAREHOUSE
SITE SELECTION
COMMUNITY DISTRICT 4

In the matter of an application submitted by the Office of Emergency Management and the Department of Citywide Administrative Services, pursuant to Section 197-c of the New York City Charter, for site selection and acquisition of property for use as a warehouse, located at 930 Flushing Ave. (Block 3140, p/o Lot 1), in the Bushwick section of Community District 4. 060078 PCK.

Note: To request a sign language interpreter, or to request TTD services, call Mr. Judd Schechtman at (718) 802-3856 at least five business days before the day of the hearing.

j12-24

MANHATTAN BOROUGH PRESIDENT

■ PUBLIC MEETING

The Manhattan Borough Board will have a public meeting on Thursday, January 19, 2006 from 8:30 A.M. to 11:00 A.M. The meeting will be held at the Manhattan Borough President's Office located at One Centre Street, 19th Floor South.

PLEASE NOTE: Individuals requesting sign-language interpreters or other reasonable accommodations for disabilities should contact the Office of the Manhattan Borough President, 1 Centre Street, 10th Floor, New York, NY 10007, (212) 669-4400, no later than Three (3) BUSINESS DAYS PRIOR TO THE PUBLIC HEARING.

j13-18

CITY COUNCIL

■ HEARINGS

NOTICE IS HEREBY GIVEN THAT the Council has scheduled the following public hearing on the matter indicated below:

The Subcommittee on Zoning and Franchises will hold public hearings on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 9:30 A.M. on Monday, January 23, 2006:

BRONX CB - 6 **C 030461 ZMX**
Application submitted by Adar Assets Corp. pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section No.3d, establishing within an existing R7-1 District a C2-4 District bounded by a line 100 feet southwesterly of East Tremont Avenue, a line 100 feet southeasterly of Crotona Parkway, Elsmere Place, a line 180 feet southeasterly of Crotona Parkway, a line 100 feet southwesterly of Elsmere Place, and Crotona Parkway, as shown on a diagram (for illustrative purposes only) dated July 25, 2005, and subject to the conditions of CEQR Declaration No. E-150.

BRONX CB - 4 **C 050074 MMX**
Application, submitted by the NYC Economic Development Corporation (EDC) and the Bronx Terminal Market (BTM) Development Partners, LLC pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of East 150th Street between River Avenue and Major Deegan Boulevard (a.k.a., Exterior Street);
- the elimination, discontinuance and closing of East 151st Street between River Avenue and Cromwell Avenue;
- the elimination, discontinuance and closing of Cromwell Avenue between Major Deegan Boulevard and the Metro North right of way;
- the extinguishment of a sewer easement;
- the adjustment of grades; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. 13105 dated June 7, 2005 and signed by the Borough President.

BRONX CB - 4 **C 050529 ZMX**
Application submitted by BTM Development Partners, LLC and the Economic Development Corporation pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section No. 6a, changing from an M2-1 to a C4-4 District property bounded by a line 1120 feet southerly of Macombs Dam Bridge and its easterly prolongation, Gateway Center Boulevard/Major Deegan Expressway, the northeasterly boundary line of the Metro North Rail Road Right-Of-Way, River Avenue, East 149th Street, Gateway Center Boulevard/Major Deegan Expressway, a line 600 feet northerly of East 149th Street, and the U.S. Pierhead and Bulkhead Line, as shown on a diagram (for illustrative purposes only) dated July 11, 2005

BRONX CB - 4 **C 050530 ZSX**
Application submitted by BTM Development Partners, LLC and the Economic Development Corporation pursuant to Sections 197-c and 201 of the New York City Charter for the grant of a special permit pursuant to Section 74-512 of the Zoning Resolution to allow a public parking garage with a maximum capacity of 2,595 spaces including 1,072 accessory spaces within a proposed 6-story garage building in connection with a proposed commercial development within a general large-scale development, on property generally bounded by East 149th Street, Gateway Center Boulevard/ Major Deegan Expressway, and the Metro North Railroad (Block 2356, Lot 20, Block 2357, Lots 1 and 86, Block 2539, Lot 32 and p/o Lots 50 and 60, and the beds of portions of East 150th Street, Cromwell Avenue, and East 151st Street), in a C4-4 District.

BRONX CB - 4 **C 050531 ZSX**
Application submitted by BTM Development Partners, LLC and the Economic Development Corporation pursuant to Sections 197-c and 201 of the New York City Charter for the grant of a special permit pursuant to Section 74-743(a) of the Zoning Resolution to modify the height and setback regulations of Section 33-40 and to allow the distribution of the total allowable floor area without regard for zoning lot lines to facilitate a commercial development within a general large-scale development, on property generally bounded by East 149th Street, Gateway Center Boulevard/Major Deegan Expressway, and the Metro North Railroad (Block 2356, Lot 20, Block 2357, Lots 1 and 86, Block 2539, Lot 32 and p/o Lots 50 and 60, and the beds of portions of East 150th Street, Cromwell Avenue, and East 151st Street), in a C4-4 District.

BRONX CB - 4 **C 050532 ZSX**
Application submitted by BTM Development Partners, LLC and the Economic Development Corporation pursuant to Sections 197-c and 201 of the New York City Charter for the grant of a special permit pursuant to Section 74-744(c) of the Zoning Resolution to modify the sign regulations of Section 32-60 in connection with a proposed commercial development within a general large-scale development, on property generally bounded by East 149th Street, Gateway Center Boulevard/Major Deegan Expressway, and the Metro North Railroad (Block 2356, Lot 20, Block 2357, Lots 1 and 86, Block 2539, Lot 32 and p/o Lots 50 and 60, and the beds of portions of East 150th Street, Cromwell Avenue, and East 151st Street), in a C4-4 District.

BRONX CB - 4 **C 050539 PPX**
Application submitted by the Department of Citywide Administrative Services and the New York City Department of Small Business Services, pursuant to Section 197-c of the New York City Charter, for the disposition of seven (7) city-owned properties pursuant to zoning:

BLOCK	LOT	ADDRESS
2356	20	665 River Avenue
2357	1	665 Cromwell
2357	86	700 Cromwell
2539	p/o Lot 2	69 Major William Deegan Blvd.
2539	32	59 Major William Deegan Blvd.
2539	p/o Lot 50	Major William Deegan Blvd.
2539	p/o Lot 60	Major William Deegan Blvd.

The Subcommittee on Planning, Dispositions and Concessions will hold public hearings on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 1:00 P.M. on Monday, January 23, 2006:

Proposals subject to Council review and action pursuant to the Urban Development Action Area Act, Article 16 of the New York General Municipal Law, at the request of the

Department of Housing Preservation and Development ("HPD"), which requests that the Council:

1. Find that the present status of the listed areas tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes of Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3. Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law;

4. Approve the project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law; and

5. Approve an exemption of the project from real property taxes pursuant to 696 of the General Municipal Law for Non-ULURP Nos. 20065144 HAK through 20065148 HAM.

CITY PLANNING COMMISSION

■ PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN THAT RESOLUTIONS Have been adopted by the City Planning Commission Scheduling public hearings on the following matters to be held at Spector Hall, 22 Reade Street, New York on Wednesday, January 25, 2006, commencing at 10:00 a.m.

BOROUGH OF BROOKLYN
No. 1
PINE STREET DAY CARE CENTER

CD 5 **C 050472 PQK**

IN THE MATTER OF an application submitted by the Administration for Children's Services and the Department of Citywide Administrative Services, pursuant to Section 197-c of the New York City Charter, for the acquisition of property located at 374 Pine Street (Block 4214, Lot 1), for continued use as a day care center.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 2
MOTHER GASTON BOULEVARD APARTMENTS

CD 16 **N 060249 HAK**

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

   a) the designation of property located at 84, 86, 88, 90 and 92 Mother Gaston Boulevard (Block 1542, Lots 33-37) as an Urban Development Action Area; and

   b) an Urban Development Action Area Project for such area;

to facilitate the development of a 4 -story building, tentatively known as 84-92 Mother Gaston Boulevard, with approximately 50 residential units to be developed under the Department of Housing Preservation and Development Supportive Housing Program.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF MANHATTAN
No. 3
325 5th AVENUE GARAGE

CD 5 **C 050257 ZSM**

IN THE MATTER OF an application submitted by Continental Residential Holdings, LLC pursuant to Sections 197-c and 201 of the New York City Charter for **the grant of a special permit** pursuant to Sections 13-562 and 74-52 of the Zoning Resolution **to allow an attended public parking garage with a maximum capacity of 174 spaces on portions of the first floor, cellar, and sub-cellar, of a proposed 41-story mixed use building on property located at 325 Fifth Avenue** (Block 862, Lots 1,3,4,9 (all including Lot 8),11 and 73), in a C5-2 District.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, NY, 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

Nos. 4 & 5
MADISON PARK WEST
No. 4

CD 5 **C 060210 ZMM**

IN THE MATTER OF an application submitted by 200 Fifth, LLC pursuant to Sections 197-c and 201 of the New York City Charter **for an amendment of the Zoning Map, Section No. 8d, changing from an M1-6 District to a C5-2 District property bounded by** West 25th Street, a line 100 feet westerly of Broadway, a line 100 feet westerly of Fifth Avenue, West 23rd Street, and a line 275 feet westerly of Fifth Avenue, as shown on a diagram (for illustrative purposes only) dated November 14, 2005 and subject to the conditions of CEQR Declaration E-160.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 5

CD 5 **C 060211 ZSM**

IN THE MATTER OF an application submitted by 200 Fifth, LLC pursuant to Sections 197-c and 201 of the New York City Charter **for the grant of a special permit** pursuant to Sections 13-562 and 74-52 of the Zoning **Resolution to allow an attended public parking garage with a maximum capacity of 54 spaces on a portion of the ground floor and cellar of an existing building and proposed to be enlarged on a property located at 1107 Broadway** (Block 826, Lots 33 and 37), in a C5-2* District, partially within the Ladies Mile Historic District.

* Note: a portion of the site is proposed to be rezoned by changing an M-16 District to a C5-2 District under a related application (C 060210 ZMM) for a change in the Zoning Map.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, N.Y. 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF QUEENS
Nos. 6 & 7
SOUTH JAMAICA I URBAN RENEWAL PLAN/NEW FOUNDATIONS

No. 6

CD 12 **C 050422 HUQ**

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD), pursuant to Section 505 of Article 15 of the General Municipal (Urban Renewal) Law of New York State and Section 197-c of the New York City Charter, for the 6th amendment to the South Jamaica I Urban Renewal Plan for the South Jamaica Urban Renewal Area.

The proposed plan:

1. Revises the land use definition to permit residential, commercial and community facility uses on residential sites where permitted by zoning.

2. Deletes sites from the plan that have been developed or rehabilitated by private owners.

3. Subdivides Site 4B into sites: 4b, 4c, and 4d; and Site 13 into sites: 13a, 13b, 13c, 13d and 13e.

These changes would facilitate the development of a mixed-use building with two residential units and commercial space to be developed under the Department of Housing Preservation and Development's New Foundation Program.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 7

CD 12 **C 050423 HAQ**

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

   a) the designation of property located at 115-40 and 115-42 Sutphin Boulevard (Block 11994, Lots 13 and 14) Site 4C within the South Jamaica I Urban Renewal Area, as an Urban Development Action Area; and

   b) an Urban Development Action Area Project for such area;

2) pursuant to Section 197-c of the New York City Charter for the disposition of such lots to a developer to be selected by HPD;

to facilitate the development of a mixed-use building with two residential units and commercial space to be developed under the Department of Housing Preservation and Development's New Foundation Program

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 8
FLIGHT 587 MEMORIAL PARK

CD 14 **C 060090 MMQ**

IN THE MATTER OF an application, submitted by the Department of Parks and Recreation and the Department of Transportation pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of portions of Beach 116th Street and Ocean Promenade;
- the modification and the realignment of the turnaround at the southerly terminus of Beach 116th Street;
- the establishment of a Memorial Park;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. 4982 dated October 6, 2005 and signed by the Borough President.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF STATEN ISLAND
No. 9
GATEWAY CATHEDRAL

CD 3 **C 060134 ZSR**

IN THE MATTER OF an application submitted by Gateway Cathedral pursuant to Sections 197-c and 201 of the New York City Charter for **the grant of a special permit** pursuant to Section 74-53 of the Zoning Resolution **to modify the requirements of Section 25-12 (Maximum Size of Accessory Group parking Facilities) to allow a group parking facility accessory to uses in a large-scale community facility development with a maximum of 941 spaces on property located at 200 Boscombe Avenue** (Block 7577, Lot 3), in an R3X District, within the Special South Richmond Development District.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, N.Y. 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF MANHATTAN
No. 10
SPECIAL WEST CHELSEA DISTRICT TEXT AMENDMENT

CD 4 **N 060199 ZRM**

IN THE MATTER OF an application submitted by the Department of City Planning pursuant to Section 201 of the New York City Charter for an amendment of the Zoning Resolution of the City of New York, relating to Article IX, Chapter 8 (Special West Chelsea District),.

Matter in underline is new, to be added;
Matter in ~~strikeout~~ is old, to be deleted;
Matter within # # is defined in Section 12-10 (DEFINITIONS)
* * * indicates where unchanged text appears in the Resolution

* * *

Article IX - Special Purpose Districts

Chapter 8
Special West Chelsea District

* * *

98-10
SPECIAL USE AND PARKING REGULATIONS WITHIN THE SPECIAL WEST CHELSEA DISTRICT

98-11
Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line

The Commissioner of Buildings shall not issue any building permit for demolition, excavation or foundation work to be performed above or beneath the #High Line# or within 25 feet of support structures of the #High Line#, except by determination by such Commissioner that such work would not adversely affect the structural integrity of the #High Line# and by determination by the ~~City agency or official designated by the Office of the Mayor for such purpose~~Commissioner of Parks that such work would not adversely affect the City's ability to inspect and maintain as necessary to ensure the structural integrity of the #High Line#.

* * *

98-18
Parking Regulations in Subarea H
#Accessory# off-street parking spaces for existing or new governmental offices may be located on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided that:

(a) such spaces are located within Subarea H and in a facility, or portion thereof, that is entirely below #curb level#;

(b) the portion of such facility beneath the required public plaza area shown on Diagram 3 in Appendix A is sufficiently below #curb level# so that trees

may be planted at #curb level# within such public plaza but is in no case less than 4 feet below curb level; and

(c) ~~and that~~ no more than 377 spaces are provided within such facility

For purposes of this Section, the governmental offices on Block 688, Lots 1001-1002 as of June 23, 2005, may have up to 377 #accessory# off-street parking spaces in such facility.

* * *

98-40
SPECIAL YARD, HEIGHT AND SETBACK, AND MINIMUM DISTANCE BETWEEN BUILDINGS REGULATIONS

* * *

98-423
Street wall location, minimum and maximum base heights and maximum building heights

The provisions set forth in paragraph (a) of this Section shall apply to all #developments# and #enlargements#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (f) of this Section.

(a) On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along such entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in the table of this Section. On #corner lots# with both #wide# and #narrow street# frontages, a #street wall# with a minimum height of 15 feet shall be located on ~~a~~ the #narrow street line# ~~beyond 50 feet of its intersection with a #wide street# and extend along such entire #narrow street# frontage of the #zoning lot#~~ between 50 and 100 feet from its intersection with a #wide street#. On all other #narrow street# frontages, the #street wall# shall be located on the #street line# and extend along at least 70 percent of the #narrow street# frontage of the #zoning lot# up to at least the minimum base height specified in the table in this Section.

* * *

(b) Subareas A and D

(1) #Street wall# location

In Subarea D, on #corner lots# between the north side of West 18th Street and the south side of West 22nd Street, a #street wall# with a minimum height of 15 feet shall be located on the #narrow street line# between 50 and 150 feet of its intersection with Eleventh Avenue.

In Subarea D, for #buildings# that do not include towers as set forth in paragraph (b)(3) of this Section, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front. In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within 10 feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.

* * *

98-424
Authorization to modify ~~height and setback~~certain bulk regulations

For #zoning lots# located entirely within 75 feet of the west side of the #High Line#, the City Planning Commission may authorize the modification of height and setback regulations set forth in Section 98-40 and 98-50, inclusive, ~~and~~ the transparency requirements set forth in Sections 98-141 and 98-54, and the underlying #rear yard# and minimum distance between #legally required windows# and walls or #lot lines# regulations. The Commission shall find that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public areas.

* * *

98-50
SPECIAL HEIGHT AND SETBACK, OPEN AREA AND TRANSPARENCY REGULATIONS FOR ZONING LOTS WITHIN OR ADJACENT TO THE HIGH LINE TRANSFER CORRIDOR

98-51
Height and Setback Regulations on the East Side of the High Line

* * *

(b) In C6-3A Districts and in Subareas C, F and G

For #zoning lots# extending less than ~~120~~ 115 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of a #building# shall exceed a height of 3 feet, 6 inches above the level of the #High Line bed#.
For #zoning lots# that extend for at least ~~120~~ 115 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of the #building# shall exceed a height of 3 feet, 6 inches above the level of the #High Line bed#, except that a maximum of 40 percent of such #High Line frontage# may rise without setback above a height of 3 feet, 6 inches above the level of the #High Line bed# provided such portion of the #building# is not located directly between the #High Line# and any #street wall# of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (c) (Subareas C, F and I) of Section 98-423 (Street wall location, minimum and maximum base heights and maximum building heights).

However, the provisions of this paragraph, (b), shall not apply to any #zoning lot# existing on June 23, 2005 where the greatest distance between the eastern side of the #High Line# and a #~~side~~ lot line# east of the #High Line# is 35 feet when measured parallel to the nearest #narrow street line#.

* * *

98-60
SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS

98-61
High Line Access Easement Volume Requirement

* * *

(e) such #development# or #enlargement# is located wholly within an M1-5 District and no portion of such #development# or #enlargement# has more than 10,000 square feet of #floor area# and is located within five feet of the #High Line#~~.~~; or

(f) such #development# or #enlargement# is located on a #zoning lot# that fronts on West 23rd Street.

* * *

~~98-70~~
SUPPLEMENTAL REGULATIONS

In the Special West Chelsea District, the provisions of paragraphs (a) through (d), inclusive, of Section 93-90 (HARASSMENT) shall apply as modified in this Section.

For the purposes of this Section, the following definitions in Section 93-90 (HARASSMENT) shall be modified:

Anti-harassment area

"Anti-harassment area" shall mean the #Special West Chelsea District#

Referral date

"Referral date" shall mean December 20, 2004.

In addition, Section 93-90(d)(3) is modified as follows:

No portion of the #low income housing# required under this Section shall qualify to:

(a) increase the #floor area ratio# pursuant to the provisions of the #Special West Chelsea District#, #Special Hudson Yards District#, #Special Garment Center District#, #Special Clinton District# or Section 23-90, or

(b) satisfy an eligibility requirement of any real property tax abatement or exemption program with respect to any #multiple dwelling# that does not contain such #low income housing#.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

ENVIRONMENTAL PROTECTION

■ **PUBLIC HEARINGS**

THIS PUBLIC HEARING HAS BEEN CANCELLED

Notice is hereby given that a Public Hearing will be held at the Department of Environmental Protection offices at 59-17 Junction Boulevard, Seventeenth Floor Conference Room, Corona, Queens, on Thursday, January 19, 2006 commencing at 10:00 A.M. on the following:

In the Matter Of a proposed contract between the Department of Environmental Protection and Centers for Disease Control and Prevention, 1600 Clifton Road, Mailstop E-51, Atlanta, Georgia 30333, for CRADA-CDC: Genotyping Cryptosporidium Oocysts in Wildlife and Stream Sediments. The Contract term shall be 365 consecutive calendar days from the date of the written notice to proceed. The Contract amount shall be $252,000.00 - Location: NYC Watershed Region - PIN: 82606CDCGENO.

The Contract was selected by Government to Government Purchase, pursuant to Section 3-13 of the PPB rules.

A copy of the Contract may be inspected at the Department of Environmental Protection, 59-17 Junction Boulevard, Flushing, New York 11373, on the 17th Floor Bid Room, on business days from January 6, 2006 to January 19, 2006, between the hours of 9:30 A.M. - 12:00 P.M. and 1:00 P.M. - 4:00 P.M.

Pursuant to Section 2-11(c)(3) of the Procurement Policy Board Rules, if DEP does not receive, by January 12, 2006, from any individual a written request to speak at this hearing, then DEP need not conduct this hearing. Written notice should be sent to Ms. Debra Butlien, NYCDEP, 59-17 Junction Blvd., 17th Floor, Flushing, NY 11373 or via email to dbutlien@dep.nyc.gov

Note: Individuals requesting Sign Language Interpreters should contact Debra Butlien, Office of the ACCO 59-17 Junction Blvd., 17th Floor, Flushing, NY 11373, (718) 595-3423, no later than FIVE (5) BISNESS DAYS PRIOR TO THE PUBLIC HEARING.

☛ **j18**

LANDMARKS PRESERVATION COMMISSION

■ **PUBLIC HEARINGS**

Notice is hereby given that pursuant to the provisions of Title 25, chapter 3 of the Administrative Code of the City of New York (Sections 25-307, 25-308, 25,309, 25-313, 25-318, 25-320) (formerly Chapter 8-A, Sections 207-6.0, 207-7.0, 207-12.0, 207-17.0, and 207-19.0), on **Tuesday, January 24, 2006,** at 9:00 A.M. in the morning of that day, a public hearing will be held in the Conference Room at 1 Centre Street, 9th Floor, Borough of Manhattan with respect to the following properties and then followed by a public meeting. Any person requiring reasonable accommodation in order to participate in the hearing or attend the meeting should call or write the Landmarks Commission no later than five (5) business days before the hearing or meeting.

BINDING REPORT

COURT NOTICES

SUPREME COURT

NOTICE

QUEENS COUNTY
IA PART 8
NOTICE OF ACQUISITION
INDEX NUMBER 23584/05

In the Matter of Application of the CITY OF NEW YORK relative to acquiring title in fee simple absolute to certain real property where not heretofore acquired for **149th Avenue From 183rd Street To 184th Street** in the Borough of Queens, City and State of New York.

PLEASE TAKE NOTICE, that by order of the Supreme Court of the State of New York, County of Queens, IA Part 8 (Hon. Jaime A. Rios, J.S.C.), duly entered in the office of the Clerk of the County of Queens on December 30, 2005, the application of the City of New York to acquire certain real property, for 149th Avenue from 183rd Street to 184th Street, was granted and the City was thereby authorized to file an acquisition map with the Office of the City Register. Said map, showing the property acquired by the City, was filed with the City Register on January 9, 2006. Title to the real property vested in the City of New York on January 9, 2006.

PLEASE TAKE FURTHER NOTICE, that the City has acquired the following parcels of real property:

Damage Parcel	Block	Lot
1	13427	part of 1
2	13427	part of 42
3	13411	part of 16
4	13430	part of 2

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to sections 503 and 504 of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired in the above-referenced proceeding and having any claim or demand on account thereof is hereby required, on or before January 9, 2007 (which is one (1) calendar year from the title vesting date), to file a written claim with the Clerk of the Court of Queens County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007. Pursuant to EDPL section 504, the claim shall include:

A. the name and post office address of the condemnee;

B. reasonable identification by reference to the acquisition map, or otherwise, of the property affected by the acquisition, and the condemnee's interest therein;

C. a general statement of the nature and type of damages claimed, including a schedule of fixture items which comprise part or all of the damages claimed; and,

D. if represented by an attorney, the name, address and telephone number of the condemnee's attorney.

Pursuant to EDPL section 503(C), in the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.

PLEASE TAKE FURTHER NOTICE, that, pursuant to section 5-310 of the New York City Administrative Code, proof of title shall be submitted to the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007 on or before January 9, 2008 (which is two (2) calendar years from the title vesting date).

Dated: January 9, 2006, New York, New York
MICHAEL A. CARDOZO
Corporation Counsel of the City of New York
Attorney for the Condemnor

St. Albans, NY 11412

Pursuant to Section 4-04 (e)(2) of the New York City Procurement Policy Board Rules regarding publication requirements, "Within seven calendar days after the approval by the ACCO, the agency shall initiate steps to publish notice of the intent to renew once in the City Record and in one or more local newspapers of the borough and/or community within the borough where the services are provided. The notice shall also be mailed to the proposed provider and the Borough President(s) and Community Board chair(s) in the district(s) where the services are provided, and shall be conspicuously placed on the premises of the location where services are provided, if practicable, and otherwise where the program is administered. The agency shall take other steps to solicit comments from clients, advocates, and others sufficiently in advance of the renewal date so that appropriate action can be taken to respond to issues identified in such comments".

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.
Administration for Children's Services, 150 William Street 9th Floor, New York, NY 10038.

COUNSEL TO NEGOTIATE ENTERPRISE RESOURCE PLANNING SOFTWARE LICENSE AND IMPLEMENTATION AGREEMENT – CP/PQ/4 – PIN# ERP COUNSEL 0106 – DUE 02-23-06 AT 3:00 P.M. – The City University of New York is conducting a Request for Proposal to obtain ERP software and implement it throughout the CUNY System. CUNY seeks a higher education software solution with an open systems architecture, which is compatible with a variety of relational databases, has the ability to run on multiple platforms and is scalable to 500,000 plus users. CUNY intends to base its contract with any awardee on the legal terms and conditions of the NYS Office of General Services standard software, support, consulting and training services contract. In the event that certain legal terms need to be further negotiated, CUNY is issuing a Request for Information to gather information about law firms with the ability to advise on a matter of this scope. The last date for receipt of questions, which must be in writing, is 3:00 P.M. (EST) on Friday, February 10, 2006. Information about relevant experience and qualifications is due 3:00 P.M. (EST) on Thursday, February 23, 2006.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.
The City University of New York, 535 East 80th Street New York, NY 10021. Frederick P. Schaffer, General Counsel, (tel) (212) 794-5506; (fax) (212) 794-5426.

Human / Client Service

NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 09-01-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew.

Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. If a vendor is interested in being considered for award of a contract described above, please hand deliver a written expression of interest addressed to Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 pursuant to the terms of the solicitation document.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.
Department of Juvenile Justice, 365 Broadway, 5th Floor New York, NY 10013. hbavaro@djj.nyc.gov

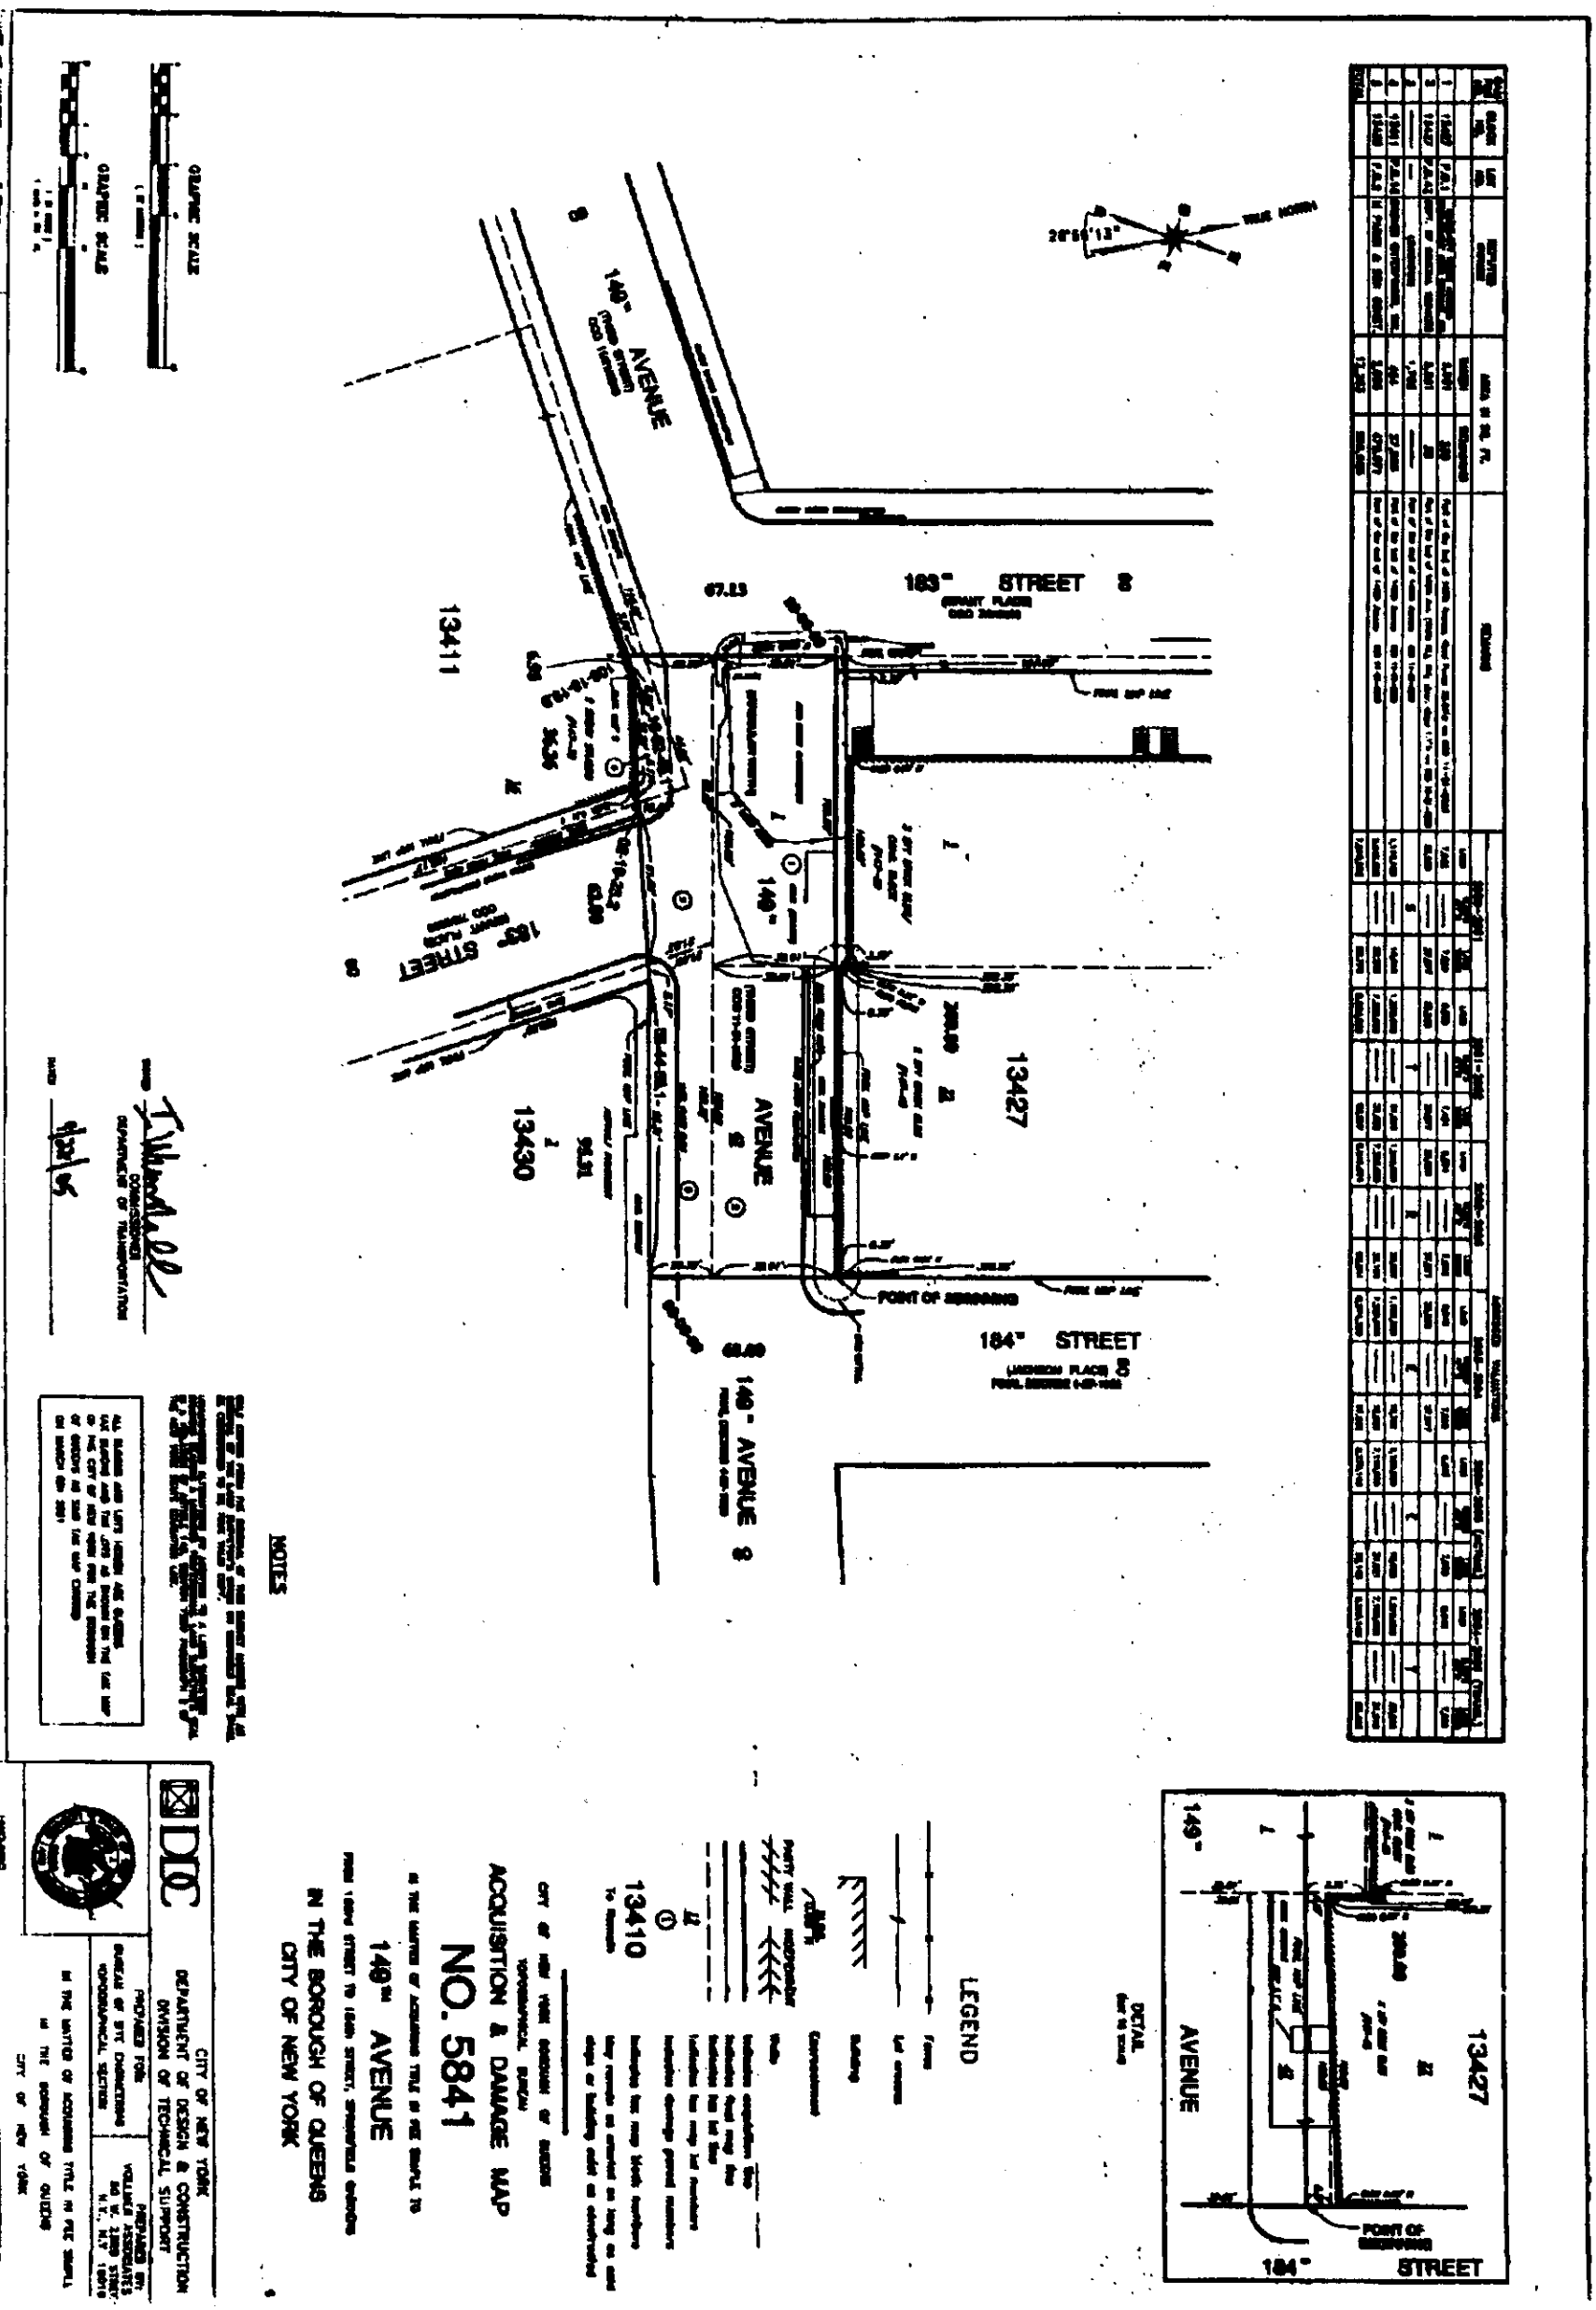
COURT NOTICE MAP FOR 149TH AVENUE, QUEENS



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:

Even if you already do business with NYC agencies, be sure to fill out an application. **We are switching over to citywide**, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

COMMON ABBREVIATIONS USED IN THE CR

The CR contains many abbreviations. Listed below are simple explanations of some of the most common ones appearing in the CR:

AB ..... Acceptable Brands List
AC .....Accelerated Procurement
AMT .....Amount of Contract
BL .....Bidders List
CSB .....Competitive Sealed Bidding (including multi-step)
CB/PQ .....CB from Pre-qualified Vendor List
CP .....Competitive Sealed Proposal (including multi-step)
CP/PQ .....CP from Pre-qualified Vendor List
CR .....The City Record newspaper
DA .....Date bid/proposal documents available
DUE .....Bid/Proposal due date; bid opening date
EM .....Emergency Procurement
IG .....Intergovernmental Purchasing
LBE .....Locally Based Business Enterprise
M/WBE .....Minority/Women's Business Enterprise
NA .....Negotiated Acquisition
NOTICE....Date Intent to Negotiate Notice was published in CR
OLB .....Award to Other Than Lowest Responsible & Responsive Bidder/Proposer
PIN .....Procurement Identification Number
PPB .....Procurement Policy Board
PQ .....Pre-qualified Vendors List
RS .....Source required by state/federal law or grant
SCE .....Service Contract Short-Term Extension
DP .....Demonstration Project
SS .....Sole Source Procurement
ST/FED .....Subject to State &/or Federal requirements

KEY TO METHODS OF SOURCE SELECTION

The Procurement Policy Board (PPB) of the City of New York has by rule defined the appropriate methods of source selection for City procurement and reasons justifying their use. The CR procurement notices of many agencies include an abbreviated reference to the source selection method utilized. The following is a list of those methods and the abbreviations used:

CSB .....**Competitive Sealed Bidding** (including multi-step)
Special Case Solicitations / Summary of Circumstances:
CP .....***Competitive Sealed Proposal*** (including multi-step)
CP/1 .....Specifications not sufficiently definite
CP/2 .....Judgement required in best interest of City
CP/3 .....Testing required to evaluate
CB/PQ/4 ....
CP/PQ/4 ....**CB or CP from Pre-qualified Vendor List/** Advance qualification screening needed
DP .....Demonstration Project
SS .....**Sole Source Procurement/**only one source
RS .....Procurement from a Required Source/ST/FED
NA .....Negotiated Acquisition
For ongoing construction project only:
NA/8 .....Compelling programmatic needs
NA/9 .....New contractor needed for changed/additional work
NA/10 .....Change in scope, essential to solicit one or limited number of contractors
NA/11 .....Immediate successor contractor required due to termination/default
For Legal services only:
NA/12 .....Specialized legal devices needed; CP not advantageous
WA .....**Solicitation Based on Waiver/Summary of Circumstances** (Client Services/BSB or CP only)
WA1 .....Prevent loss of sudden outside funding
WA2 .....Existing contractor unavailable/immediate need
WA3 .....Unsuccessful efforts to contract/need continues
IG .....**Intergovernmental Purchasing** (award only)
IG/F .....Federal
IG/S .....State
IG/O .....Other
EM .....**Emergency Procurement** (award only) An unforeseen danger to:
EM/A .....Life
EM/B .....Safety
EM/C .....Property
EM/D .....A necessary service
AC .....**Accelerated Procurement/**markets with significant short-term price fluctuations
SCE .....**Service Contract Extension/**insufficient time; necessary service; fair price
Award to Other Than Lowest Responsible & Responsive Bidder or Proposer / Reason (award only)
OLB/a .....anti-apartheid preference
OLB/b .....local vendor preference
OLB/c .....recycled preference
OLB/d .....other: (specify)

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

SAMPLE NOTICE:

POLICE

DEPARTMENT OF YOUTH SERVICES

■ **SOLICITATIONS**

Services (Other Than Human Services)

CITY COUNCIL

■ HEARINGS

NOTICE IS HEREBY GIVEN THAT the Council has scheduled the following public hearing on the matter indicated below:

The Subcommittee on Zoning and Franchises will hold public hearings on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 9:30 A.M. on Monday, January 23, 2006:

BRONX CB - 6 **C 030461 ZMX**
Application submitted by Adar Assets Corp. pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section No.3d, establishing within an existing R7-1 District a C2-4 District bounded by a line 100 feet southwesterly of East Tremont Avenue, a line 100 feet southeasterly of Crotona Parkway, Elsmere Place, a line 180 feet southeasterly of Crotona Parkway, a line 100 feet southwesterly of Elsmere Place, and Crotona Parkway, as shown on a diagram (for illustrative purposes only) dated July 25, 2005, and subject to the conditions of CEQR Declaration No. E-150.

BRONX CB - 4 **C 050074 MMX**
Application, submitted by the NYC Economic Development Corporation (EDC) and the Bronx Terminal Market (BTM) Development Partners, LLC pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of East 150th Street between River Avenue and Major Deegan Boulevard (a.k.a., Exterior Street);
- the elimination, discontinuance and closing of East 151st Street between River Avenue and Cromwell Avenue;
- the elimination, discontinuance and closing of Cromwell Avenue between Major Deegan Boulevard and the Metro North right of way;
- the extinguishment of a sewer easement;
- the adjustment of grades; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. 13105 dated June 7, 2005 and signed by the Borough President.

BRONX CB - 4 **C 050529 ZMX**
Application submitted by BTM Development Partners, LLC and the Economic Development Corporation pursuant to Sections 197-c and 201 of the New York City Charter for an amendment of the Zoning Map, Section No. 6a, changing from an M2-1 to a C4-4 District property bounded by a line 1120 feet southerly of Macombs Dam Bridge and its easterly prolongation, Gateway Center Boulevard/Major Deegan Expressway, the northeasterly boundary line of the Metro North Rail Road Right-Of-Way, River Avenue, East 149th Street, Gateway Center Boulevard/Major Deegan Expressway, a line 600 feet northerly of East 149th Street, and the U.S. Pierhead and Bulkhead Line, as shown on a diagram (for illustrative purposes only) dated July 11, 2005

BRONX CB - 4 **C 050530 ZSX**
Application submitted by BTM Development Partners, LLC and the Economic Development Corporation pursuant to Sections 197-c and 201 of the New York City Charter for the grant of a special permit pursuant to Section 74-512 of the Zoning Resolution to allow a public parking garage with a maximum capacity of 2,595 spaces including 1,072 accessory spaces within a proposed 6-story garage building in connection with a proposed commercial development within a general large-scale development, on property generally bounded by East 149th Street, Gateway Center Boulevard/ Major Deegan Expressway, and the Metro North Railroad (Block 2356, Lot 20, Block 2357, Lots 1 and 86, Block 2539, Lot 32 and p/o Lots 50 and 60, and the beds of portions of East 150th Street, Cromwell Avenue, and East 151st Street), in a C4-4 District.

BRONX CB - 4 **C 050531 ZSX**
Application submitted by BTM Development Partners, LLC and the Economic Development Corporation pursuant to Sections 197-c and 201 of the New York City Charter for the grant of a special permit pursuant to Section 74-743(a) of the Zoning Resolution to modify the height and setback regulations of Section 33-40 and to allow the distribution of the total allowable floor area without regard for zoning lot lines to facilitate a commercial development within a general large-scale development, on property generally bounded by East 149th Street, Gateway Center Boulevard/Major Deegan Expressway, and the Metro North Railroad (Block 2356, Lot 20, Block 2357, Lots 1 and 86, Block 2539, Lot 32 and p/o Lots 50 and 60, and the beds of portions of East 150th Street, Cromwell Avenue, and East 151st Street), in a C4-4 District.

BRONX CB - 4 **C 050532 ZSX**
Application submitted by BTM Development Partners, LLC and the Economic Development Corporation pursuant to Sections 197-c and 201 of the New York City Charter for the grant of a special permit pursuant to Section 74-744(c) of the Zoning Resolution to modify the sign regulations of Section 32-60 in connection with a proposed commercial development within a general large-scale development, on property generally bounded by East 149th Street, Gateway Center Boulevard/Major Deegan Expressway, and the Metro North Railroad (Block 2356, Lot 20, Block 2357, Lots 1 and 86, Block 2539, Lot 32 and p/o Lots 50 and 60, and the beds of portions of East 150th Street, Cromwell Avenue, and East 151st Street), in a C4-4 District.

BRONX CB - 4 **C 050539 PPX**
Application submitted by the Department of Citywide Administrative Services and the New York City Department of Small Business Services, pursuant to Section 197-c of the New York City Charter, for the disposition of seven (7) city-owned properties pursuant to zoning:

BLOCK	LOT	ADDRESS
2356	20	665 River Avenue
2357	1	665 Cromwell
2357	86	700 Cromwell
2539	p/o Lot 2	69 Major William Deegan Blvd.
2539	32	59 Major William Deegan Blvd.
2539	p/o Lot 50	Major William Deegan Blvd.
2539	p/o Lot 60	Major William Deegan Blvd

The Subcommittee on Planning, Dispositions and Concessions will hold public hearings on the following matters in the Council Committee Room, City Hall, New York, New York 10007, commencing at 1:00 P.M. on Monday, January 23, 2006:

Proposals subject to Council review and action pursuant to the Urban Development Action Area Act, Article 16 of the New York General Municipal Law, at the request of the

Department of Housing Preservation and Development ("HPD"), which requests that the Council:

1. Find that the present status of the listed areas tends to impair or arrest the sound growth and development of the municipality and that the proposed Urban Development Action Area Project is consistent with the policy and purposes of Section 691 of the General Municipal Law;

2. Waive the area designation requirement of Section 693 of the General Municipal Law pursuant to said Section;

3. Waive the requirements of Sections 197-c and 197-d of the New York City Charter pursuant to Section 694 of the General Municipal Law;

4. Approve the project as an Urban Development Action Area Project pursuant to Section 694 of the General Municipal Law; and

5. Approve an exemption of the project from real property taxes pursuant to 696 of the General Municipal Law for Non-ULURP Nos. 20065144 HAK through 20065148 HAM.

NON-ULURP NO.	ADDRESS	BLOCK/LOT	BORO	PROGRAM	COMMUNITY BOARD

j17-23

CITY PLANNING COMMISSION

■ PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN THAT RESOLUTIONS Have been adopted by the City Planning Commission Scheduling public hearings on the following matters to be held at Spector Hall, 22 Reade Street, New York on Wednesday, January 25, 2006, commencing at 10:00 a.m.

BOROUGH OF BROOKLYN
No. 1
PINE STREET DAY CARE CENTER

CD 5 **C 050472 PQK**

IN THE MATTER OF an application submitted by the Administration for Children's Services and the Department of Citywide Administrative Services, pursuant to Section 197-c of the New York City Charter, for the acquisition of property located at 374 Pine Street (Block 4214, Lot 1), for continued use as a day care center.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 2
MOTHER GASTON BOULEVARD APARTMENTS

CD 16 **N 060249 HAK**

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

   a) the designation of property located at 84, 86, 88, 90 and 92 Mother Gaston Boulevard (Block 1542, Lots 33-37) as an Urban Development Action Area; and

   b) an Urban Development Action Area Project for such area;

to facilitate the development of a 4 -story building, tentatively known as 84-92 Mother Gaston Boulevard, with approximately 50 residential units to be developed under the Department of Housing Preservation and Development Supportive Housing Program.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF MANHATTAN
No. 3
325 5th AVENUE GARAGE

CD 5 **C 050257 ZSM**

IN THE MATTER OF an application submitted by Continental Residential Holdings, LLC pursuant to Sections 197-c and 201 of the New York City Charter for **the grant of a special permit** pursuant to Sections 13-562 and 74-52 of the Zoning Resolution **to allow an attended public parking garage with a maximum capacity of 174 spaces on portions of the first floor, cellar, and sub-cellar, of a proposed 41-story mixed use building on property located at 325 Fifth Avenue** (Block 862, Lots 1,3,4,9 (all including Lot 8),11 and 73), in a C5-2 District.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, NY, 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

Nos. 4 & 5
MADISON PARK WEST
No. 4

CD 5 **C 060210 ZMM**

IN THE MATTER OF an application submitted by 200 Fifth, LLC pursuant to Sections 197-c and 201 of the New York City Charter **for an amendment of the Zoning Map, Section No. 8d, changing from an M1-6 District to a C5-2 District property bounded by** West 25th Street, a line 100 feet westerly of Broadway, a line 100 feet westerly of Fifth Avenue, West 23rd Street, and a line 275 feet westerly of Fifth Avenue, as shown on a diagram (for illustrative purposes only) dated November 14, 2005 and subject to the conditions of CEQR Declaration E-160.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 5

CD 5 **C 060211 ZSM**

IN THE MATTER OF an application submitted by 200 Fifth, LLC pursuant to Sections 197-c and 201 of the New York City Charter **for the grant of a special permit** pursuant to Sections 13-562 and 74-52 of the Zoning **Resolution to allow an attended public parking garage with a maximum capacity of 54 spaces on a portion of the ground floor and cellar of an existing building and proposed to be enlarged on a property located at 1107 Broadway** (Block 826, Lots 33 and 37), in a C5-2* District, partially within the Ladies Mile Historic District.

* Note: a portion of the site is proposed to be rezoned by changing an M-16 District to a C5-2 District under a related application (C 060210 ZMM) for a change in the Zoning Map.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, N.Y. 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF QUEENS
Nos. 6 & 7
SOUTH JAMAICA I URBAN RENEWAL PLAN/NEW FOUNDATIONS

No. 6

CD 12 **C 050422 HUQ**

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD), pursuant to Section 505 of Article 15 of the General Municipal (Urban Renewal) Law of New York State and Section 197-c of the New York City Charter, for the 6th amendment to the South Jamaica I Urban Renewal Plan for the South Jamaica Urban Renewal Area.

The proposed plan:

1. Revises the land use definition to permit residential, commercial and community facility uses on residential sites where permitted by zoning.

2. Deletes sites from the plan that have been developed or rehabilitated by private owners.

3. Subdivides Site 4B into sites: 4b, 4c, and 4d; and Site 13 into sites: 13a, 13b, 13c, 13d and 13e.

These changes would facilitate the development of a mixed-use building with two residential units and commercial space to be developed under the Department of Housing Preservation and Development's New Foundation Program.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 7

CD 12 **C 050423 HAQ**

IN THE MATTER OF an application submitted by the Department of Housing Preservation and Development (HPD):

1) pursuant to Article 16 of the General Municipal Law of New York State for:

   a) the designation of property located at 115-40 and 115-42 Sutphin Boulevard (Block 11994, Lots 13 and 14) Site 4C within the South Jamaica I Urban Renewal Area, as an Urban Development Action Area; and

   b) an Urban Development Action Area Project for such area;

2) pursuant to Section 197-c of the New York City Charter for the disposition of such lots to a developer to be selected by HPD;

to facilitate the development of a mixed-use building with two residential units and commercial space to be developed under the Department of Housing Preservation and Development's New Foundation Program

Resolution for adoption scheduling January 25, 2006 for a public hearing.

No. 8
FLIGHT 587 MEMORIAL PARK

CD 14 **C 060090 MMQ**

IN THE MATTER OF an application, submitted by the Department of Parks and Recreation and the Department of Transportation pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et seq.* of the New York City Administrative Code, for an amendment to the City Map involving:

- the elimination, discontinuance and closing of portions of Beach 116th Street and Ocean Promenade;
- the modification and the realignment of the turnaround at the southerly terminus of Beach 116th Street;
- the establishment of a Memorial Park;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

in accordance with Map No. 4982 dated October 6, 2005 and signed by the Borough President.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF STATEN ISLAND
No. 9
GATEWAY CATHEDRAL

CD 3 **C 060134 ZSR**

IN THE MATTER OF an application submitted by Gateway Cathedral pursuant to Sections 197-c and 201 of the New York City Charter for **the grant of a special permit** pursuant to Section 74-53 of the Zoning Resolution **to modify the requirements of Section 25-12 (Maximum Size of Accessory Group parking Facilities) to allow a group parking facility accessory to uses in a large-scale community facility development with a maximum of 941 spaces on property located at 200 Boscombe Avenue** (Block 7577, Lot 3), in an R3X District, within the Special South Richmond Development District.

Plans for this proposal are on file with the City Planning Commission and may be seen in Room 3N, 22 Reade Street, New York, N.Y. 10007.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

BOROUGH OF MANHATTAN
No. 10
SPECIAL WEST CHELSEA DISTRICT TEXT AMENDMENT

CD 4 **N 060199 ZRM**

IN THE MATTER OF an application submitted by the Department of City Planning pursuant to Section 201 of the New York City Charter for an amendment of the Zoning Resolution of the City of New York, relating to Article IX, Chapter 8 (Special West Chelsea District),.

Matter in underline is new, to be added;
Matter in ~~strikeout~~ is old, to be deleted;
Matter within # # is defined in Section 12-10 (DEFINITIONS)
* * * indicates where unchanged text appears in the Resolution

Chapter 8
Special West Chelsea District

* * *

98-10
SPECIAL USE AND PARKING REGULATIONS WITHIN THE SPECIAL WEST CHELSEA DISTRICT

98-11
Special Regulations for Developments and Enlargements Above, Beneath or Adjacent to the High Line

The Commissioner of Buildings shall not issue any building permit for demolition, excavation or foundation work to be performed above or beneath the #High Line# or within 25 feet of support structures of the #High Line#, except by determination by such Commissioner that such work would not adversely affect the structural integrity of the #High Line# and by determination by the ~~City agency or official designated by the Office of the Mayor for such purpose~~Commissioner of Parks that such work would not adversely affect the City's ability to inspect and maintain as necessary to ensure the structural integrity of the #High Line#.

* * *

98-18
Parking Regulations in Subarea H
#Accessory# off-street parking spaces for existing or new governmental offices may be located on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided that:

(a) such spaces are located within Subarea H and in a facility, or portion thereof, that is entirely below #curb level#;

(b) the portion of such facility beneath the required public plaza area shown on Diagram 3 in Appendix A is sufficiently below #curb level# so that trees

may be planted at #curb level# within such public plaza but is in no case less than 4 feet below curb level; and

(c) ~~and that~~ no more than 377 spaces are provided within such facility

For purposes of this Section, the governmental offices on Block 688, Lots 1001-1002 as of June 23, 2005, may have up to 377 #accessory# off-street parking spaces in such facility.

98-40
SPECIAL YARD, HEIGHT AND SETBACK, AND MINIMUM DISTANCE BETWEEN BUILDINGS REGULATIONS

* * *

98-423
Street wall location, minimum and maximum base heights and maximum building heights

The provisions set forth in paragraph (a) of this Section shall apply to all #developments# and #enlargements#. Such provisions are modified for certain subareas as set forth in paragraphs (b) through (f) of this Section.

(a) On #wide streets#, and on #narrow streets# within 50 feet of their intersection with a #wide street#, the #street wall# shall be located on the #street line# and extend along such entire #street# frontage of the #zoning lot# up to at least the minimum base height specified in the table of this Section. On #corner lots# with both #wide# and #narrow street# frontages, a #street wall# with a minimum height of 15 feet shall be located on ~~a~~ the #narrow street line# ~~beyond 50 feet of its intersection with a #wide street# and extend along such entire #narrow street# frontage of the #zoning lot#~~ between 50 and 100 feet from its intersection with a #wide street#. On all other #narrow street# frontages, the #street wall# shall be located on the #street line# and extend along at least 70 percent of the #narrow street# frontage of the #zoning lot# up to at least the minimum base height specified in the table in this Section.

* * *

(b) Subareas A and D

(1) #Street wall# location

In Subarea D, on #corner lots# between the north side of West 18th Street and the south side of West 22nd Street, a #street wall# with a minimum height of 15 feet shall be located on the #narrow street line# between 50 and 150 feet of its intersection with Eleventh Avenue.

In Subarea D, for #buildings# that do not include towers as set forth in paragraph (b)(3) of this Section, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front. In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within 10 feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.

* * *

98-424
Authorization to modify ~~height and setback~~certain bulk regulations

For #zoning lots# located entirely within 75 feet of the west side of the #High Line#, the City Planning Commission may authorize the modification of height and setback regulations set forth in Section 98-40 and 98-50, inclusive, ~~and~~ the transparency requirements set forth in Sections 98-141 and 98-54, and the underlying #rear yard# and minimum distance between #legally required windows# and walls or #lot lines# regulations. The Commission shall find that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public areas.

* * *

98-50
SPECIAL HEIGHT AND SETBACK, OPEN AREA AND TRANSPARENCY REGULATIONS FOR ZONING LOTS WITHIN OR ADJACENT TO THE HIGH LINE TRANSFER CORRIDOR

98-51
Height and Setback Regulations on the East Side of the High Line

* * *

(b) In C6-3A Districts and in Subareas C, F and G

For #zoning lots# extending less than ~~120~~ 115 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of a #building# shall exceed a height of 3 feet, 6 inches above the level of the #High Line bed#.
For #zoning lots# that extend for at least ~~120~~ 115 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of the #building# shall exceed a height of 3 feet, 6 inches above the level of the #High Line bed#, except that a maximum of 40 percent of such #High Line frontage# may rise without setback above a height of 3 feet, 6 inches above the level of the #High Line bed# provided such portion of the #building# is not located directly between the #High Line# and any #street wall# of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (c) (Subareas C, F and I) of Section 98-423 (Street wall location, minimum and maximum base heights and maximum building heights).

However, the provisions of this paragraph, (b), shall not apply to any #zoning lot# existing on June 23, 2005 where the greatest distance between the eastern side of the #High Line# and a ~~#side~~ lot line# east of the #High Line# is 35 feet when measured parallel to the nearest #narrow street line#.

* * *

98-60
SPECIAL ACCESS REGULATIONS FOR CERTAIN ZONING LOTS

98-61
High Line Access Easement Volume Requirement

* * *

(e) such #development# or #enlargement# is located wholly within an M1-5 District and no portion of such #development# or #enlargement# has more than 10,000 square feet of #floor area# and is located within five feet of the #High Line#; or

(f) such #development# or #enlargement# is located on a #zoning lot# that fronts on West 23rd Street.

* * *

98-70
SUPPLEMENTAL REGULATIONS

In the Special West Chelsea District, the provisions of paragraphs (a) through (d), inclusive, of Section 93-90 (HARASSMENT) shall apply as modified in this Section.

For the purposes of this Section, the following definitions in Section 93-90 (HARASSMENT) shall be modified:

Anti-harassment area

"Anti-harassment area" shall mean the #Special West Chelsea District#

Referral date

"Referral date" shall mean December 20, 2004.

In addition, Section 93-90(d)(3) is modified as follows:

No portion of the #low income housing# required under this Section shall qualify to:

(a) increase the #floor area ratio# pursuant to the provisions of the #Special West Chelsea District#, #Special Hudson Yards District#, #Special Garment Center District#, #Special Clinton District# or Section 23-90, or

(b) satisfy an eligibility requirement of any real property tax abatement or exemption program with respect to any #multiple dwelling# that does not contain such #low income housing#.

Resolution for adoption scheduling January 25, 2006 for a public hearing.

TRANSPORTATION

■ **PUBLIC HEARINGS**

Notice is hereby given, pursuant to law, that the following proposed revocable consents have been scheduled for a public hearing by the New York City Department of Transportation. The hearing will be held at 40 Worth Street, Room 814, Borough of Manhattan, commencing at 2:00 P.M. on Wednesday, January 25, 2006. Interested parties can obtain copies of proposed agreements or request sign-language interpreters (with at least seven days prior notice) at 40 Worth Street, 9 South, New York, NY 10013, or by calling (212) 442-8040.

#1 In the matter of a proposed revocable consent authorizing Bishop Francis J. Mugavero Center for Geriatric Care, Inc. to continue to maintain and use planted areas, on the south sidewalk of Pacific Street, east of Hoyt Street, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016 and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2016 - $ 265/per annum.

the maintenance of a security deposit in the sum of $3,000, and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#2 In the matter of a proposed revocable consent authorizing Brookdale Hospital Medical Center to continue to maintain and use conduits, together with a street vault and a manhole, under and across Rockaway Parkway, north of Linden Boulevard, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016 and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2007 - $12,045
For the period July 1, 2007 to June 30, 2008 - $12,347
For the period July 1, 2008 to June 30, 2009 - $12,649
For the period July 1, 2009 to June 30, 2010 - $12,951
For the period July 1, 2010 to June 30, 2011 - $13,253
For the period July 1, 2011 to June 30, 2012 - $13,555
For the period July 1, 2012 to June 30, 2013 - $13,857
For the period July 1, 2013 to June 30, 2014 - $14,159
For the period July 1, 2014 to June 30, 2015 - $14,461
For the period July 1, 2015 to June 30, 2016 - $14,763

the maintenance of a security deposit in the sum of $14,800 and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#3 In the matter of a proposed revocable consent authorizing North Fork Bank to continue to maintain and usea nine (9) lampposts, together with electrical conduits, in and on the sidewalks of Manhattan Avenue and Calyer Street, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2016 - $1,350/per annum.

the maintenance of a security deposit in the sum of $2,000, and the filing of an insurance policy in the minimum amount of $250,000/$1,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $100,000.

#4 In the matter of a proposed revocable consent authorizing The New York Community Hospital of Brooklyn, Inc. to continue to maintain and use a ramp on the south sidewalk of Avenue O, west of Kings Highway, in the Borough of Brooklyn. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2016 - $25/per annum.

the maintenance of a security deposit in the sum of $15,000, and the filing of an insurance policy in the minimum amount of $500,000/$2,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $200,000.

#5 In the matter of a proposed revocable consent authorizing Montefiore Medical Center to continue to maintain and use a tunnel, under and across Bainbridge Avenue, north of East 210th Street, in the Borough of the Bronx. The proposed revocable consent is for a term of ten years from July 1, 2006 to June 30, 2016, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

For the period July 1, 2006 to June 30, 2007 - $8,067
For the period July 1, 2007 to June 30, 2008 - $8,269
For the period July 1, 2008 to June 30, 2009 - $8,471
For the period July 1, 2009 to June 30, 2010 - $8,673
For the period July 1, 2010 to June 30, 2011 - $8,875
For the period July 1, 2011 to June 30, 2012 - $9,077
For the period July 1, 2012 to June 30, 2013 - $9,279
For the period July 1, 2013 to June 30, 2014 - $9,481
For the period July 1, 2014 to June 30, 2015 - $9,683
For the period July 1, 2015 to June 30, 2016 - $9,885

the maintenance of a security deposit in the sum of $9,900, and the filing of an insurance policy in the minimum amount of $1,250,000/$5,000,000 for bodily injury and property damage for each occurrence in the aggregate amount of $1,000,000.

#6 In the matter of a proposed revocable consent authorizing The Trustees of Columbia University in the City of New York to construct, maintain and use the conduits under, across and along Riverside Drive, south of Saint Clair Place, under, across and along Claremont Avenue, south of La Salle Street, under and across West 122nd Street, east of Claremont Avenue, and under and across West 11th Street, east of Amsterdam Avenue, in the Borough of Manhattan. The proposed revocable consent is for a term of ten years from the date of approval by the Mayor to June 30, 2016, and provides, among other terms and conditions, for compensation payable to the City according to the following schedule:

From the date of the approval to June 30, 2006 - $11,604/per annum.

For the period July 1, 2006 to June 30, 2007- $11,902

COURT NOTICES

SUPREME COURT

■ NOTICE

QUEENS COUNTY
IA PART 8
NOTICE OF ACQUISITION
INDEX NUMBER 23584/05

In the Matter of Application of the CITY OF NEW YORK relative to acquiring title in fee simple absolute to certain real property where not heretofore acquired for **149th Avenue From 183rd Street To 184th Street** in the Borough of Queens, City and State of New York.

PLEASE TAKE NOTICE, that by order of the Supreme Court of the State of New York, County of Queens, IA Part 8 (Hon. Jaime A. Rios, J.S.C.), duly entered in the office of the Clerk of the County of Queens on December 30, 2005, the application of the City of New York to acquire certain real property, for 149th Avenue from 183rd Street to 184th Street, was granted and the City was thereby authorized to file an acquisition map with the Office of the City Register. Said map, showing the property acquired by the City, was filed with the City Register on January 9, 2006. Title to the real property vested in the City of New York on January 9, 2006.

PLEASE TAKE FURTHER NOTICE, that the City has acquired the following parcels of real property:

Damage Parcel	Block	Lot
1	13427	part of 1
2	13427	part of 42
3	13411	part of 16
4	13430	part of 2

PLEASE TAKE FURTHER NOTICE, that pursuant to said Order and to sections 503 and 504 of the Eminent Domain Procedure Law of the State of New York, each and every person interested in the real property acquired in the above-referenced proceeding and having any claim or demand on account thereof is hereby required, on or before January 9, 2007 (which is one (1) calendar year from the title vesting date), to file a written claim with the Clerk of the Court of Queens County, and to serve within the same time a copy thereof on the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007. Pursuant to EDPL section 504, the claim shall include:

A. the name and post office address of the condemnee;

B. reasonable identification by reference to the acquisition map, or otherwise, of the property affected by the acquisition, and the condemnee's interest therein;

C. a general statement of the nature and type of damages claimed, including a schedule of fixture items which comprise part or all of the damages claimed; and,

D. if represented by an attorney, the name, address and telephone number of the condemnee's attorney.

Pursuant to EDPL section 503(C), in the event a claim is made for fixtures or for any interest other than the fee in the real property acquired, a copy of the claim, together with the schedule of fixture items, if applicable, shall also be served upon the fee owner of said real property.

PLEASE TAKE FURTHER NOTICE, that, pursuant to section 5-310 of the New York City Administrative Code, proof of title shall be submitted to the Corporation Counsel of the City of New York, Tax and Bankruptcy Litigation Division, 100 Church Street, New York, New York 10007 on or before January 9, 2008 (which is two (2) calendar years from the title vesting date).

Dated: January 9, 2006, New York, New York
MICHAEL A. CARDOZO

JUVENILE JUSTICE

■ SOLICITATIONS

Human / Client Service

NON-SECURE DETENTION GROUP HOME SERVICES – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 13005DJJ001 – DUE 09-01-06 AT 3:00 P.M. – The Department of Juvenile Justice (DJJ) is seeking expressions of interest from qualified vendors to provide non-secure detention group home services. Since DJJ must respond to a court order, there is a time-sensitive situation in which DJJ must retain a supplier quickly, at one time or from time to time, permitting this procurement to be processed as a negotiated acquisition. Facilities should provide at least 10 and no more than 12 beds in accordance with the applicable regulations promulgated by the New York State Office of Children and Family Services (NYSOCFS), 9 N.Y.C.R.R. Section 180 et seq., and be operational at any time from December 1, 2004 to August 31, 2006. The term of the contracts awarded from this solicitation will be for three years and will include an additional three-year option to renew.

Vendors interested in providing these services should contact Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 for a copy of the solicitation document if they have not already received a copy. If a vendor is interested in being considered for award of a contract described above, please hand deliver a written expression of interest addressed to Harry T. Bavaro at the Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013 pursuant to the terms of the solicitation document.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/ blueprints; other information; and for opening and reading of bids at date and time specified above.
Department of Juvenile Justice, 365 Broadway, 5th Floor, New York, NY 10013. hbavaro@djj.nyc.gov
