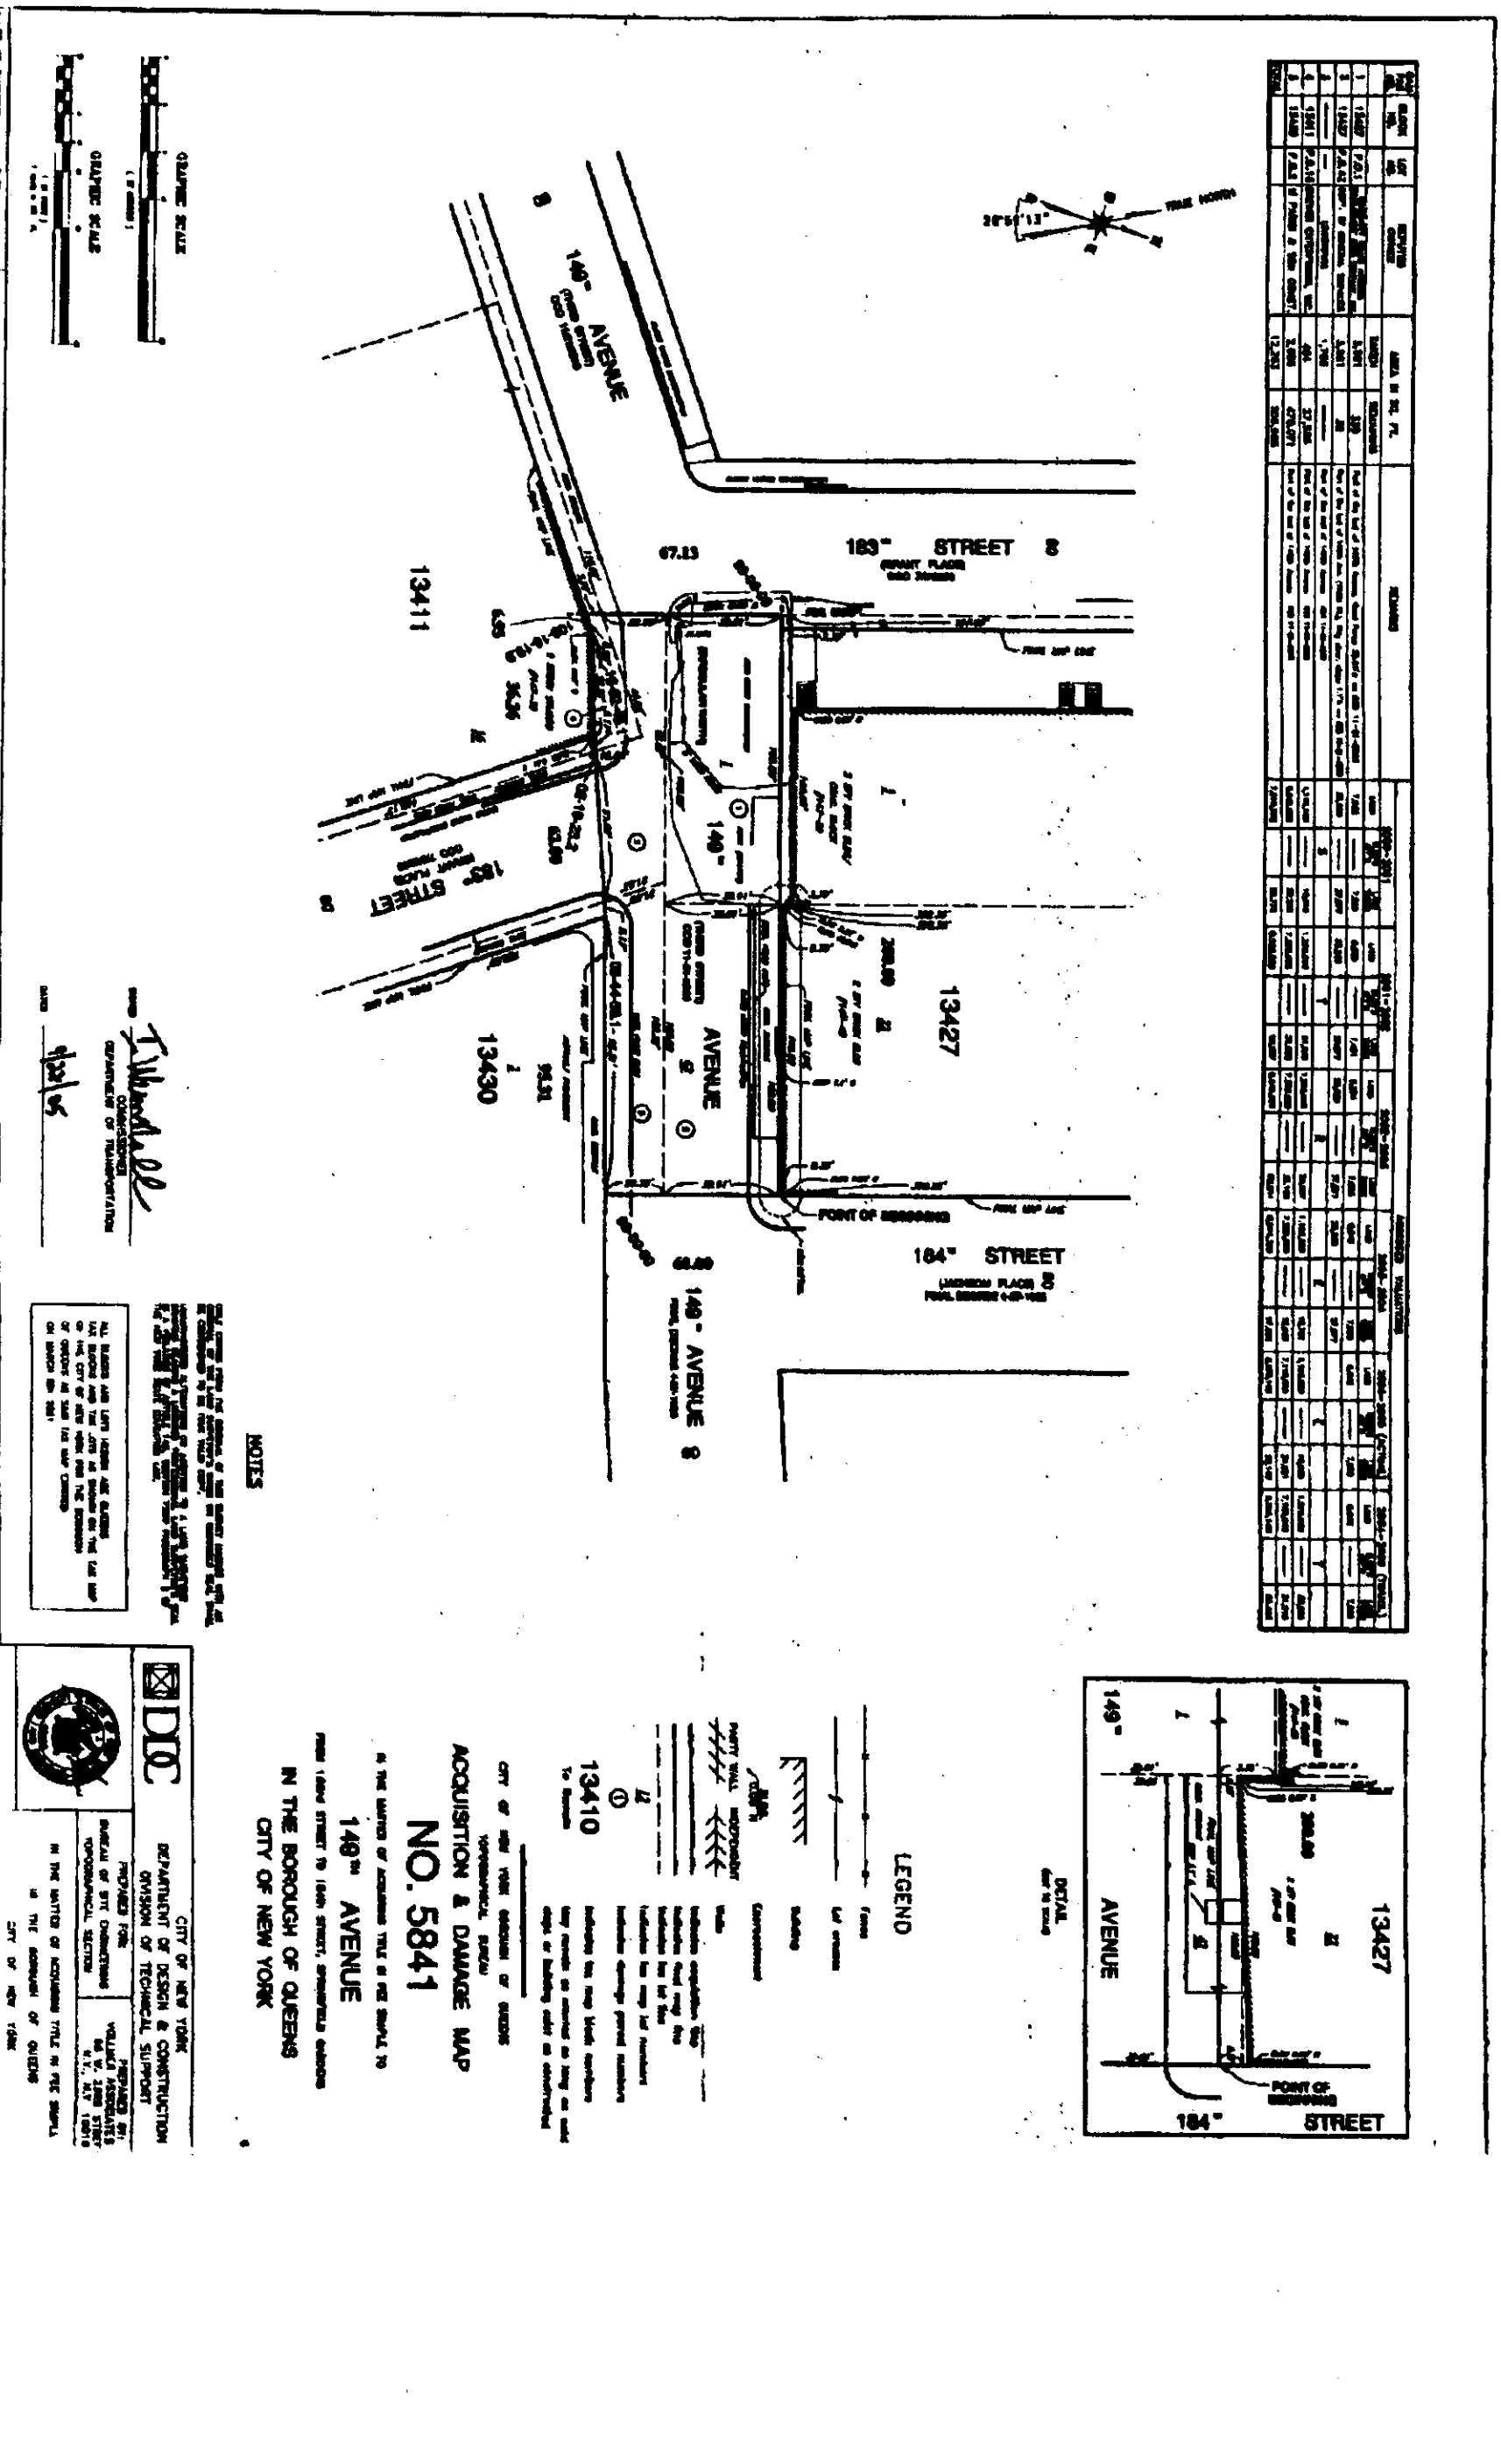
COURT NOTICE MAP FOR 149TH AVENUE, QUEENS



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:

Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

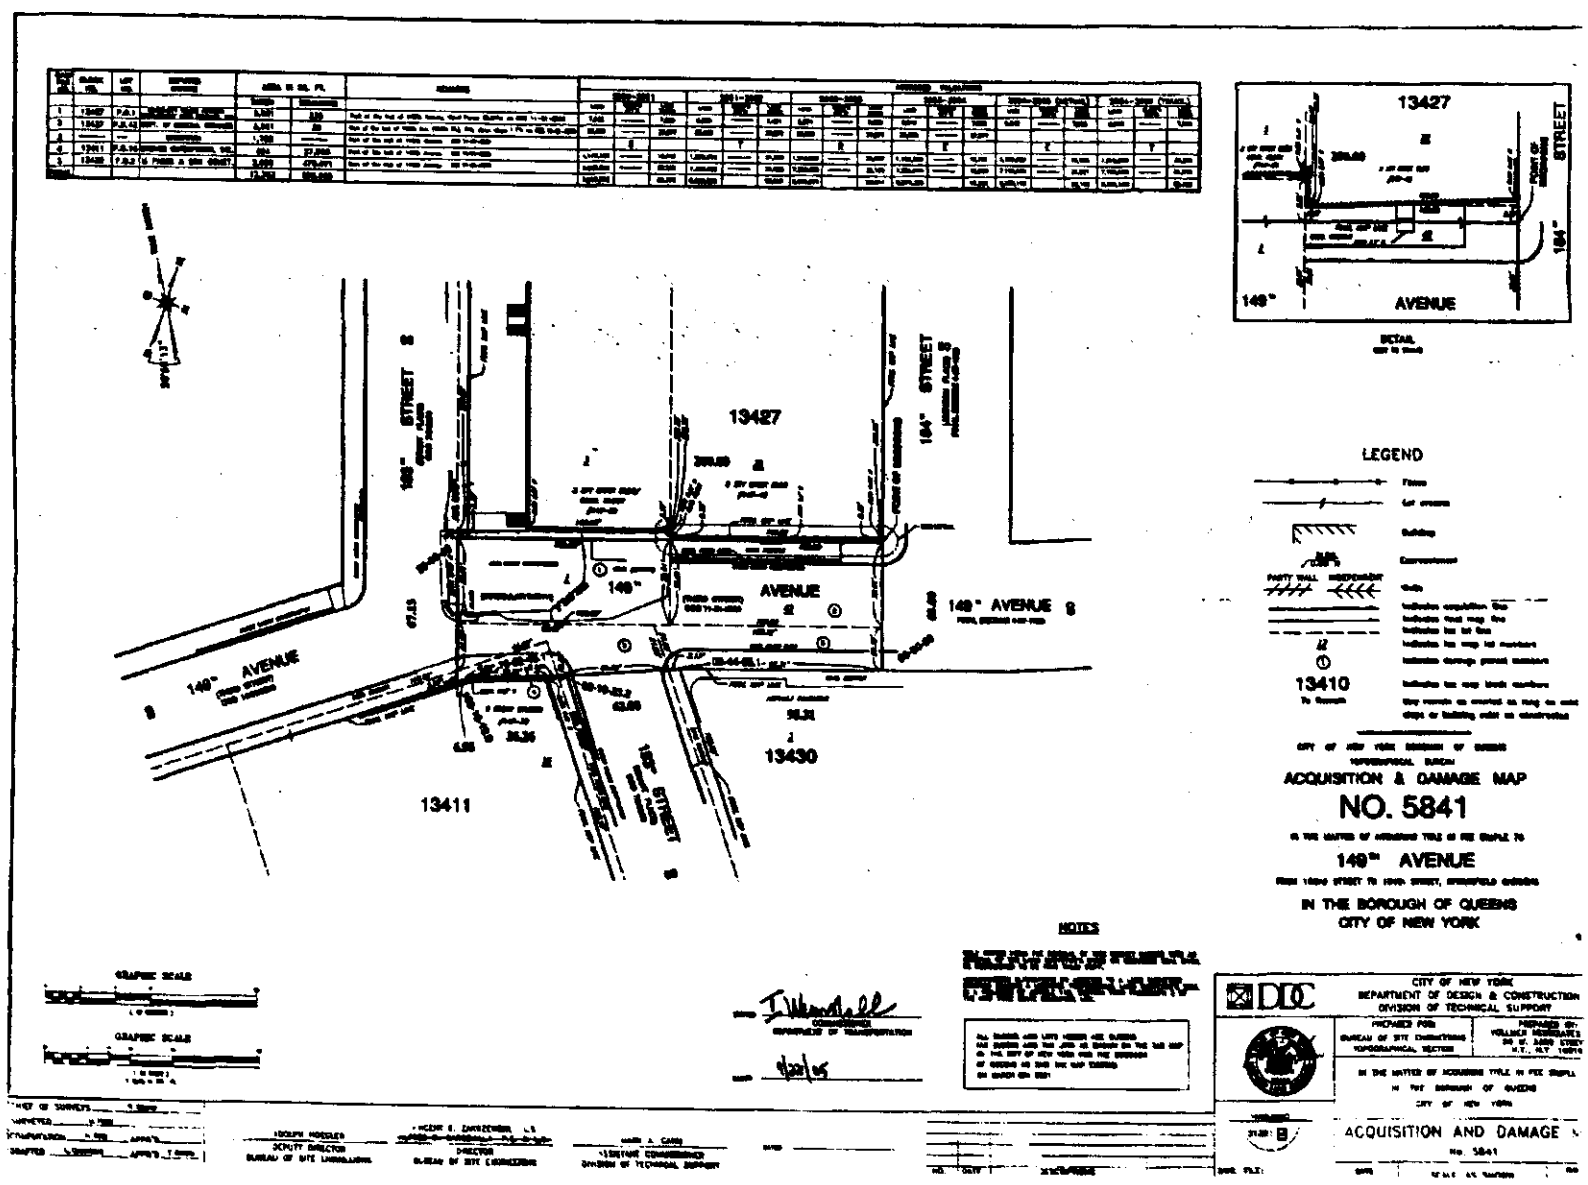
COURT NOTICE MAP FOR 149TH AVENUE, QUEENS



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:

Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

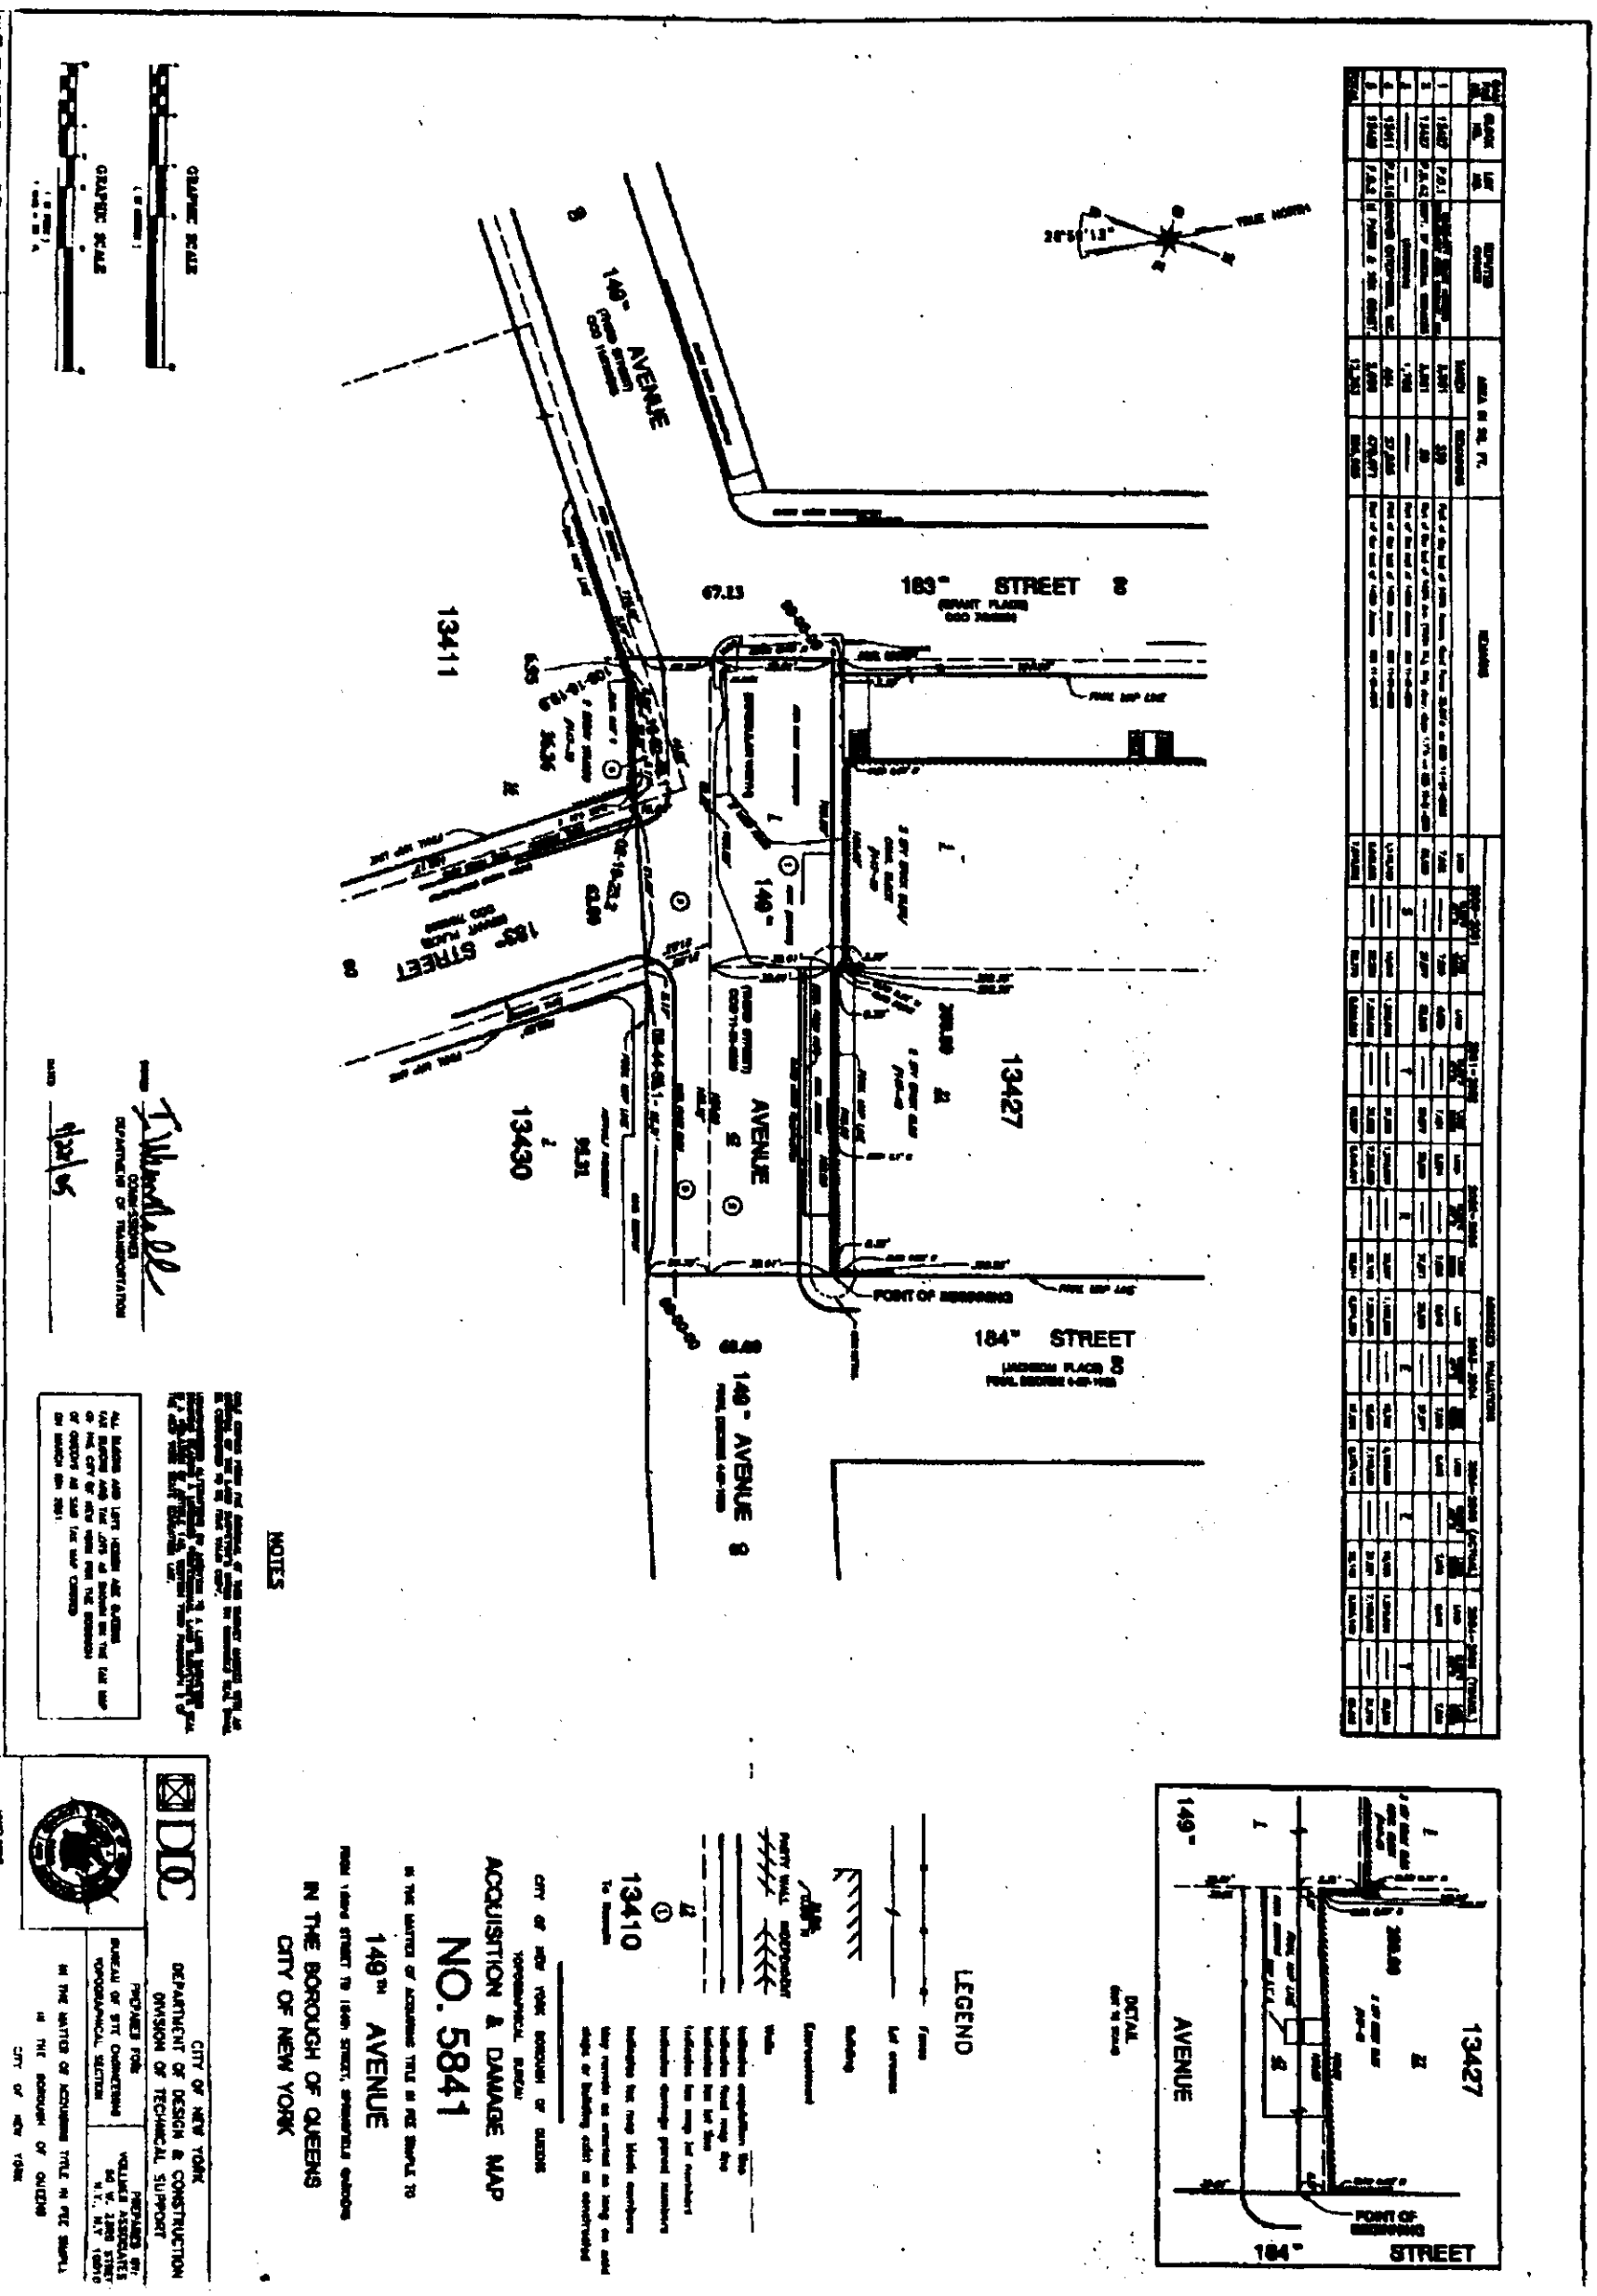
COURT NOTICE MAP FOR 149TH AVENUE, QUEENS



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:

Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

CITY PLANNING

■ NOTICE

Public Scoping Meeting - First Avenue Properties Rezoning (CEQR No. 06DCP039M)

Notice is hereby given that pursuant to Section 5-07 of the Rules of Procedure for Environmental Review (CEQR) and 6 NYCRR 617.8 (State Environmental Quality Review) that the New York City Department of City Planning, acting on beNhalf of the City Planning Commission as CEQR lead agency, has determined that a Draft Supplemental Environmental Impact Statement (SEIS) is to be prepared for the proposed First Avenue Properties Rezoning, CEQR Number 06DCP039M. Based on a preliminary review, the lead agency has come to the conclusion that the proposed action may have a significant effect on the environment.

The proposal involves an application by East River Realty Company, LLC, (ERRC) for a zoning map amendment to change existing C1-9, M1-5 and M3-2 zoning districts to C4-6 and C5-2 zoning districts. The proposal also includes several zoning text amendments, special permits and certifications, described in greater detail below. The project area is generally bounded by First Avenue and the FDR Drive and East 35th and East 41st streets and is located within Community District 6, Manhattan.

The proposed action would facilitate a proposal by the applicant to develop four parcels located at 616 First Avenue (Block 967, Lot 1), 685 First Avenue (Block 945, Lot 33) and 700 and 708 First Avenue/Waterside (Block 970, Lot 1). The development parcels contains an aggregate area of approximately 378,280 square feet.

The applicant intends to develop a total of 4,324,635 gross square feet (gsf) of residential use, 60,725 gsf of community facility use, 1,119,979 gsf of commercial office use, 40,433 gsf of retail use, and 721,018 gsf of below-grade space (which includes 314,460 gsf of parking, or 1,183 public spaces and 376 accessory spaces). The proposed development program also includes 149,863 sf (3.44 acres) of publicly accessible open space. The development parcels, previously owned by Con Edison, are presently vacant, with the exception of a parking lot and a decommissioned power generating plant (undergoing demolition). Some portions of the vacant sites are currently being used as support area in connection with ongoing demolition and remediation work.

On November 15, 2000, Con Edison entered into a contract of sale with ERRC for the transfer of its fee interest in the four parcels. The sale of the parcels required discretionary approval from the New York State Public Service Commission (PSC) and, therefore, compliance with Article 8 of the Environmental Conservation Law, State Environmental Quality Review Act, and its implementing regulations (6 NYCRR Part 617) (SEQRA). On June 24, 2002, PSC, acting as the lead agency for the environmental review, accepted the Draft Generic Environmental Impact Statement (DGEIS) as complete and issued it for public comment. Based on the comments received and announcements of other projects in the immediate area of the parcels, the PSC determined that additional environmental analysis would be necessary and prepared a Supplemental DGEIS. The Supplemental DGEIS was completed on May 23, 2003. On January 30, 2004, the PSC adopted and issued a Final Generic Environmental Impact Statement (FGEIS), which incorporated the DGEIS and Supplemental DGEIS.

Because the applicant's development program may result in significant adverse environmental impacts not identified in the FGEIS, an SEIS is being prepared. The SEIS will analyze the extent to which the proposed action could result in any significant adverse environmental impacts not previously identified in the FGEIS.

As noted above, the proposed action would change the existing C1-9, M1-5 and M3-2 zoning districts to C4-6 and C5-2 zoning districts. C1-9 zoning districts allow residential and commercial retail uses built to a maximum FAR of 12.0 (maximum FAR of 2.0 for commercial uses). M1-5 and M2-3 zoning districts allow manufacturing and some commercial uses built to FARs of 5 and 2, respectively. The proposed C4-6 and C5-2 zoning districts allow residential and commercial uses to a maximum FAR of 12 (residential use is allowed in mixed-use buildings in C5-2 districts only if the residential use is located above a commercial use).

In addition to the zoning map amendments, the proposed action includes zoning text changes, special permits and certifications, which are described in detail below.

The proposed action includes the following zoning text amendments to:

- expand the definition of a General Large Scale Development to include, in C5 and C6 zoning districts, for a development with a lot area of at least 5 acres, a zoning lot that contains an existing building that is not integrally related to the other parts of the general large-scale development, provided that the building covers less than 15 percent of the general large-scale development lot area;
- amend Zoning Resolution (ZR) section 74-743 to allow, by special permit, a residential plaza to be located anywhere within a general large-scale development without regard for zoning lot lines, provided the general large-scale development has a minimum lot area of 5 acres and is located in a C5 or a C6 zoning district; and
- amend ZR section 74-744 to allow, by special permit and in C5 and C6 zoning districts, for any large-scale development with a minimum lot area of 5 acres, one story of Use Group 6A or 6C uses to be located directly over a story containing dwelling units without regard for regulations pertaining to locations of uses within buildings.

The proposed action includes the following special permits:

- to allow a residential plaza to be located anywhere in a General Large Scale Development Plan pursuant to ZR Section 74-74 at Waterside/708 and 685 First Avenue;
- to modify height and setback regulations at all parcels, pursuant to ZR Section 74-74 (General Large Scale Development Plan);
- to modify supplementary use regulations, pursuant to Section 74-744, to allow one story of Use Group 6A or 6C above residential uses, pursuant to Section 32-422, at 708 First Avenue;
- to modify the residential plaza design standards pursuant to ZR Section 74-96 at Waterside/708 and 685 First Avenue;
- to allow a public parking garage pursuant to ZR Sections 13-562 and 74-52 at 616 First Avenue; and
- to allow a public parking garage and an accessory parking garage, pursuant to ZR Sections 13-561, 13-562 and 74-52, at Waterside/708 First Avenue.

The proposed action includes the following ministerial certifications pursuant to:

- ZR Section 26-15 (curb cuts), to allow more than one curb cut on a narrow street for 616 First Avenue and curb cuts for public parking, and loading berths on the FDR Drive Service Road (a wide street) for the 708 First Avenue/ Waterside site; and
- ZR Section 37-023, to limit the size of a kiosk in a residential plaza, and to modify the two year operation agreement.

The applicant intends to record a Restrictive Declaration that will contain provisions governing as-of-right development on the four parcels (under the proposed zoning map amendments), in the event that the General Large Scale Development Special Permit is not exercised. These provisions will:

- establish a bulk envelope that will define a) the maximum building heights of each of the buildings, b) the outside dimensions in plan at each height, c) the minimum dimensions between the exterior walls of the building and the lot lines of the zoning lot, and d) the maximum building widths;
- set forth the maximum amount of floor area allowable for each type of use permitted by the proposed zoning;
- provide a minimum east-west view corridor on the site, extending from East 39th and 40th Streets and First Avenue towards the river;
- delineate zones within which each pedestrian and vehicular ingress and egress and curb cuts or drop-off lanes can be located, as well as the location of service and parking entrances;
- provide appropriate publicly accessible open spaces;
- provide design and location guidelines for retail uses on the development parcels; and
- provide for the implementation of any required mitigation measures for as-of-right development pursuant to the provisions of the Restrictive Declaration.

In addition to the actions described above, the applicant is seeking modification to a previously approved New York City Board of Standards and Appeals (BSA) special permit authorizing development of a substation at 685 First Avenue. The modification of the special permit is required for new development at the site.

The proposal has an anticipated completion date of 2014. According to the EAS, absent the proposed action in 2014, conditions on the development parcels would remain the same as the existing conditions, with the exception of the ongoing demolition of the decommissioned Waterside power plant (which will occur in the absence of the proposed action).

Public comments are requested with respect to issues to be addressed in the draft supplemental environmental impact statement.

A public scoping meeting has been scheduled for February 28, 2006 and will be held at Yeshiva University's Geraldine Shottenstein Cultural Center, 239 East 34th Street, between Second and Third Avenues, New York, New York, 10016. The meeting will be held in two sessions: one beginning at 4:00 P.M. and a second beginning at 7:00 P.M. Written comments will be accepted by the lead agency through the tenth day following the scoping meeting.

SEQRA Classification: Type I

197-a Plan for the Queensboro Bridge Area:
The proposal involves an application by Manhattan Community Board 8 for a 197-a Plan, pursuant to the New York City Charter (Section 197-a), for the portion of Manhattan Community District 8 in the vicinity of the Queensboro Bridge.

The proposed plan focuses on open space and waterfront access within a relatively small geographic area and does not include recommendations for land use, density or bulk. The proposed plan, entitled "197-a Plan for the Queensboro Bridge Area," includes the area generally bounded by the East River, East 59th Street, Second Avenue, the midblock line between East 60th and East 61st streets, York Avenue from East 60th Street to E. 63rd Street, and East 63rd Street from York Avenue to the East River.

The 197-a Plan is intended to guide public policy related to the improvement and enhancement of the area's waterfront, open spaces and streetscapes. The plan's primary goals are to:

(i) improve waterfront access and increase the amount of open space;
(ii) enhance existing open spaces through improved designs and landscaping; and
(iii) create a network of open spaces within the study area and provide continuity through streetscape improvements.

As an underlying goal, the plan seeks to help coordinate the work of various City agencies that have plans affecting open space in the study area.

The Environmental Assessment and Review Division of the Department of City Planning, on behalf of the City Planning Commission, has completed its technical review of the Environmental Assessment Statement dated January 4, 2005, prepared in connection with the ULURP Application (N060096NPM). The City Planning Commission has determined that the proposed action will have no significant effect on the quality of the environment.

This determination is based on an environmental assessment which finds that no significant effects on the environment which would require an Environmental Impact Statement are foreseeable.

This Negative Declaration has been prepared in accordance with Article 8 of the Environmental Conservation Law 6NYCRR part 617.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:

Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

CITY PLANNING

■ NOTICE

Public Scoping Meeting - First Avenue Properties Rezoning (CEQR No. 06DCP039M)

Notice is hereby given that pursuant to Section 5-07 of the Rules of Procedure for Environmental Review (CEQR) and 6 NYCRR 617.8 (State Environmental Quality Review) that the New York City Department of City Planning, acting on beNhalf of the City Planning Commission as CEQR lead agency, has determined that a Draft Supplemental Environmental Impact Statement (SEIS) is to be prepared for the proposed First Avenue Properties Rezoning, CEQR Number 06DCP039M. Based on a preliminary review, the lead agency has come to the conclusion that the proposed action may have a significant effect on the environment.

The proposal involves an application by East River Realty Company, LLC, (ERRC) for a zoning map amendment to change existing C1-9, M1-5 and M3-2 zoning districts to C4-6 and C5-2 zoning districts. The proposal also includes several zoning text amendments, special permits and certifications, described in greater detail below. The project area is generally bounded by First Avenue and the FDR Drive and East 35th and East 41st streets and is located within Community District 6, Manhattan.

The proposed action would facilitate a proposal by the applicant to develop four parcels located at 616 First Avenue (Block 967, Lot 1), 685 First Avenue (Block 945, Lot 33) and 700 and 708 First Avenue/Waterside (Block 970, Lot 1). The development parcels contains an aggregate area of approximately 378,280 square feet.

The applicant intends to develop a total of 4,324,635 gross square feet (gsf) of residential use, 60,725 gsf of community facility use, 1,119,979 gsf of commercial office use, 40,433 gsf of retail use, and 721,018 gsf of below-grade space (which includes 314,460 gsf of parking, or 1,183 public spaces and 376 accessory spaces). The proposed development program also includes 149,863 sf (3.44 acres) of publicly accessible open space. The development parcels, previously owned by Con Edison, are presently vacant, with the exception of a parking lot and a decommissioned power generating plant (undergoing demolition). Some portions of the vacant sites are currently being used as support area in connection with ongoing demolition and remediation work.

On November 15, 2000, Con Edison entered into a contract of sale with ERRC for the transfer of its fee interest in the four parcels. The sale of the parcels required discretionary approval from the New York State Public Service Commission (PSC) and, therefore, compliance with Article 8 of the Environmental Conservation Law, State Environmental Quality Review Act, and its implementing regulations (6 NYCRR Part 617) (SEQRA). On June 24, 2002, PSC, acting as the lead agency for the environmental review, accepted the Draft Generic Environmental Impact Statement (DGEIS) as complete and issued it for public comment. Based on the comments received and announcements of other projects in the immediate area of the parcels, the PSC determined that additional environmental analysis would be necessary and prepared a Supplemental DGEIS. The Supplemental DGEIS was completed on May 23, 2003. On January 30, 2004, the PSC adopted and issued a Final Generic Environmental Impact Statement (FGEIS), which incorporated the DGEIS and Supplemental DGEIS.

Because the applicant's development program may result in significant adverse environmental impacts not identified in the FGEIS, an SEIS is being prepared. The SEIS will analyze the extent to which the proposed action could result in any significant adverse environmental impacts not previously identified in the FGEIS.

As noted above, the proposed action would change the existing C1-9, M1-5 and M3-2 zoning districts to C4-6 and C5-2 zoning districts. C1-9 zoning districts allow residential and commercial retail uses built to a maximum FAR of 12.0 (maximum FAR of 2.0 for commercial uses). M1-5 and M2-3 zoning districts allow manufacturing and some commercial uses built to FARs of 5 and 2, respectively. The proposed C4-6 and C5-2 zoning districts allow residential and commercial uses to a maximum FAR of 12 (residential use is allowed in mixed-use buildings in C5-2 districts only if the residential use is located above a commercial use).

In addition to the zoning map amendments, the proposed action includes zoning text changes, special permits and certifications, which are described in detail below.

The proposed action includes the following zoning text amendments to:

- expand the definition of a General Large Scale Development to include, in C5 and C6 zoning districts, for a development with a lot area of at least 5 acres, a zoning lot that contains an existing building that is not integrally related to the other parts of the general large-scale development, provided that the building covers less than 15 percent of the general large-scale development lot area;
- amend Zoning Resolution (ZR) section 74-743 to allow, by special permit, a residential plaza to be located anywhere within a general large-scale development without regard for zoning lot lines, provided the general large-scale development has a minimum lot area of 5 acres and is located in a C5 or a C6 zoning district; and
- amend ZR section 74-744 to allow, by special permit and in C5 and C6 zoning districts, for any large-scale development with a minimum lot area of 5 acres, one story of Use Group 6A or 6C uses to be located directly over a story containing dwelling units without regard for regulations pertaining to locations of uses within buildings.

The proposed action includes the following special permits:

- to allow a residential plaza to be located anywhere in a General Large Scale Development Plan pursuant to ZR Section 74-74 at Waterside/708 and 685 First Avenue;
- to modify height and setback regulations at all parcels, pursuant to ZR Section 74-74 (General Large Scale Development Plan);
- to modify supplementary use regulations, pursuant to Section 74-744, to allow one story of Use Group 6A or 6C above residential uses, pursuant to Section 32-422, at 708 First Avenue;
- to modify the residential plaza design standards pursuant to ZR Section 74-96 at Waterside/708 and 685 First Avenue;
- to allow a public parking garage pursuant to ZR Sections 13-562 and 74-52 at 616 First Avenue; and
- to allow a public parking garage and an accessory parking garage, pursuant to ZR Sections 13-561, 13-562 and 74-52, at Waterside/708 First Avenue.

The proposed action includes the following ministerial certifications pursuant to:

- ZR Section 26-15 (curb cuts), to allow more than one curb cut on a narrow street for 616 First Avenue and curb cuts for public parking, and loading berths on the FDR Drive Service Road (a wide street) for the 708 First Avenue/Waterside site; and
- ZR Section 37-023, to limit the size of a kiosk in a residential plaza, and to modify the two year operation agreement.

The applicant intends to record a Restrictive Declaration that will contain provisions governing as-of-right development on the four parcels (under the proposed zoning map amendments), in the event that the General Large Scale Development Special Permit is not exercised. These provisions will:

- establish a bulk envelope that will define a) the maximum building heights of each of the buildings, b) the outside dimensions in plan at each height, c) the minimum dimensions between the exterior walls of the building and the lot lines of the zoning lot, and d) the maximum building widths;
- set forth the maximum amount of floor area allowable for each type of use permitted by the proposed zoning;
- provide a minimum east-west view corridor on the site, extending from East 39th and 40th Streets and First Avenue towards the river;
- delineate zones within which each pedestrian and vehicular ingress and egress and curb cuts or drop-off lanes can be located, as well as the location of service and parking entrances;
- provide appropriate publicly accessible open spaces;
- provide design and location guidelines for retail uses on the development parcels; and
- provide for the implementation of any required mitigation measures for as-of-right development pursuant to the provisions of the Restrictive Declaration.

In addition to the actions described above, the applicant is seeking modification to a previously approved New York City Board of Standards and Appeals (BSA) special permit authorizing development of a substation at 685 First Avenue. The modification of the special permit is required for new development at the site.

The proposal has an anticipated completion date of 2014. According to the EAS, absent the proposed action in 2014, conditions on the development parcels would remain the same as the existing conditions, with the exception of the ongoing demolition of the decommissioned Waterside power plant (which will occur in the absence of the proposed action).

Public comments are requested with respect to issues to be addressed in the draft supplemental environmental impact statement.

A public scoping meeting has been scheduled for February 28, 2006 and will be held at Yeshiva University's Geraldine Shottenstein Cultural Center, 239 East 34th Street, between Second and Third Avenues, New York, New York, 10016. The meeting will be held in two sessions: one beginning at 4:00 P.M. and a second beginning at 7:00 P.M. Written comments will be accepted by the lead agency through the tenth day following the scoping meeting.

Copies of the Draft Scope of Work and the Environmental Assessment Statement may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 22 Reade Street, 4E, New York, New York 10007, Robert Dobruskin, Director (212) 720-3423; or from the Office of Environmental Coordination, 100 Gold Street, 2nd Floor, New York, New York 10038, Robert Kulikowski, Director (212) 788-2937.

Statement of Basis and Purpose of Final Rule

The Environmental Control Board has adopted penalty schedules for food and general vending violations pursuant to the authority set forth in subdivision c of section 1404 of the New York City Charter. The purpose of these penalty schedules is to ensure that penalties imposed upon licensed and unlicensed street vendors who do not comply with City laws and rules governing vending are commensurate with the seriousness of the violations and are sufficient to deter illegal vending. They are also adopted to assure that such penalties are imposed in a uniform and consistent manner. In adopting the schedules, the Board carefully considered the presentations and comments submitted at the public hearings held on November 18, 2004 and April 18, 2005. The Board also considered the written comments submitted by members of the public to the Board both during and after each public hearing. In addition, it considered the

letters submitted to the Board by the Department of Consumer Affairs and the Department of Health and Mental Hygiene. As a result of the testimony, comments, and material received at and after the November 18, 2004 public hearing, the Board has modified the then proposed penalty schedules. The penalty schedules set forth in the initial proposed rule included Multiple Offense Penalty Schedules setting forth penalties for first, second, third, and fourth offenses, with the fourth offense resulting in the maximum penalty provided by law. By contrast, the Multiple Offense Penalty Schedules as set forth in this final rule set forth penalties for first, second, third, fourth, fifth, and sixth offenses, with the sixth offense resulting in the maximum penalty provided by law. The Board balanced the concerns articulated on behalf of the vending community with the need to ensure compliance and deter repeated violations. Accordingly, the Board modified the schedules to increase the number of offenses that must occur before the statutory maximum penalties will be imposed.

The Board's decision to adopt these penalty schedules is based upon the following: 1) the penalties imposed by the Board prior to the increase set forth herein are no longer effective in encouraging compliance with the laws being enforced, including significant health and safety provisions; 2) the proposed penalties are more appropriate in view of inflation and provide a reasonable financial incentive for vendors to comply with the law; and 3) vendors who repeatedly violate the vending laws should be subject to higher penalties; so that the payment of penalties is not simply a part of their cost of doing business. The proposed penalty schedules comport with existing statutory minimum and maximum penalties set forth in sections 17-325 and 20-472 of the Administrative Code of the City of New York.

The Board's decision to adopt schedules with penalties greater than those imposed prior to the increase set forth herein for various violations of the Health Code is further warranted in light of an amendment to section 3.12 of the New York City Health Code (set forth in Title 24 of the Rules of the City of New York) increasing the minimum penalties for permit and license related violations to $1,000, the minimum default penalty for such charges to $2,000 and the minimum penalty for other Health Code penalties to $200. These are serious violations and these increases are also intended to impose penalties that are commensurate with the seriousness of the violations and encourage compliance with the law. The penalties are within the statutory minimum and maximum penalties set forth by section 3.12 of the New York City Health Code.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

CITY PLANNING

■ NOTICE

Public Scoping Meeting - First Avenue Properties Rezoning (CEQR No. 06DCP039M)

Notice is hereby given that pursuant to Section 5-07 of the Rules of Procedure for Environmental Review (CEQR) and 6 NYCRR 617.8 (State Environmental Quality Review) that the New York City Department of City Planning, acting on behalf of the City Planning Commission as CEQR lead agency, has determined that a Draft Supplemental Environmental Impact Statement (SEIS) is to be prepared for the proposed First Avenue Properties Rezoning, CEQR Number 06DCP039M. Based on a preliminary review, the lead agency has come to the conclusion that the proposed action may have a significant effect on the environment. The proposal involves an application by East River Realty Company, LLC, (ERRC) for a zoning map amendment to change existing C1-9, M1-5 and M3-2 zoning districts to C4-6 and C5-2 zoning districts. The proposal also includes several zoning text amendments, special permits and certifications, described in greater detail below. The project area is generally bounded by First Avenue and the FDR Drive and East 35th and East 41st streets and is located within Community District 6, Manhattan.

The proposed action would facilitate a proposal by the applicant to develop four parcels located at 616 First Avenue (Block 967, Lot 1), 685 First Avenue (Block 945, Lot 33) and 700 and 708 First Avenue/Waterside (Block 970, Lot 1). The development parcels contains an aggregate area of approximately 378,280 square feet.

The applicant intends to develop a total of 4,324,635 gross square feet (gsf) of residential use, 60,725 gsf of community facility use, 1,119,979 gsf of commercial office use, 40,433 gsf of retail use, and 721,018 gsf of below-grade space (which includes 314,460 gsf of parking, or 1,183 public spaces and 376 accessory spaces). The proposed development program also includes 149,863 sf (3.44 acres) of publicly accessible open space. The development parcels, previously owned by Con Edison, are presently vacant, with the exception of a parking lot and a decommissioned power generating plant (undergoing demolition). Some portions of the vacant sites are currently being used as support area in connection with ongoing demolition and remediation work.

On November 15, 2000, Con Edison entered into a contract of sale with ERRC for the transfer of its fee interest in the four parcels. The sale of the parcels required discretionary

approval from the New York State Public Service Commission (PSC) and, therefore, compliance with Article 8 of the Environmental Conservation Law, State Environmental Quality Review Act, and its implementing regulations (6 NYCRR Part 617) (SEQRA). On June 24, 2002, PSC, acting as the lead agency for the environmental review, accepted the Draft Generic Environmental Impact Statement (DGEIS) as complete and issued it for public comment. Based on the comments received and announcements of other projects in the immediate area of the parcels, the PSC determined that additional environmental analysis would be necessary and prepared a Supplemental DGEIS. The Supplemental DGEIS was completed on May 23, 2003. On January 30, 2004, the PSC adopted and issued a Final Generic Environmental Impact Statement (FGEIS), which incorporated the DGEIS and Supplemental DGEIS.

Because the applicant's development program may result in significant adverse environmental impacts not identified in the FGEIS, an SEIS is being prepared. The SEIS will analyze the extent to which the proposed action could result in any significant adverse environmental impacts not previously identified in the FGEIS.

As noted above, the proposed action would change the existing C1-9, M1-5 and M3-2 zoning districts to C4-6 and C5-2 zoning districts. C1-9 zoning districts allow residential and commercial retail uses built to a maximum FAR of 12.0 (maximum FAR of 2.0 for commercial uses). M1-5 and M2-3 zoning districts allow manufacturing and some commercial uses built to FARs of 5 and 2, respectively. The proposed C4-6 and C5-2 zoning districts allow residential and commercial uses to a maximum FAR of 12 (residential use is allowed in mixed-use buildings in C5-2 districts only if the residential use is located above a commercial use).

In addition to the zoning map amendments, the proposed action includes zoning text changes, special permits and certifications, which are described in detail below.
The proposed action includes the following zoning text amendments to:

- expand the definition of a General Large Scale Development to include, in C5 and C6 zoning districts, for a development with a lot area of at least 5 acres, a zoning lot that contains an existing building that is not integrally related to the other parts of the general large-scale development, provided that the building covers less than 15 percent of the general large-scale development lot area;
- amend Zoning Resolution (ZR) section 74-743 to allow, by special permit, a residential plaza to be located anywhere within a general large-scale development without regard for zoning lot lines, provided the general large-scale development has a minimum lot area of 5 acres and is located in a C5 or a C6 zoning district; and
- amend ZR section 74-744 to allow, by special permit and in C5 and C6 zoning districts, for any large-scale development with a minimum lot area of 5 acres, one story of Use Group 6A or 6C uses to be located directly over a story containing dwelling units without regard for regulations pertaining to locations of uses within buildings.

The proposed action includes the following special permits:

- to allow a residential plaza to be located anywhere in a General Large Scale Development Plan pursuant to ZR Section 74-74 at Waterside/708 and 685 First Avenue;
- to modify height and setback regulations at all parcels, pursuant to ZR Section 74-74 (General Large Scale Development Plan);
- to modify supplementary use regulations, pursuant to Section 74-744, to allow one story of Use Group 6A or 6C above residential uses, pursuant to Section 32-422, at 708 First Avenue;
- to modify the residential plaza design standards pursuant to ZR Section 74-96 at Waterside/708 and 685 First Avenue;
- to allow a public parking garage pursuant to ZR Sections 13-562 and 74-52 at 616 First Avenue; and
- to allow a public parking garage and an accessory parking garage, pursuant to ZR Sections 13-561, 13-562 and 74-52, at Waterside/708 First Avenue.

The proposed action includes the following ministerial certifications pursuant to:

- ZR Section 26-15 (curb cuts), to allow more than one curb cut on a narrow street for 616 First Avenue and curb cuts for public parking, and loading berths on the FDR Drive Service Road (a wide street) for the 708 First Avenue/Waterside site; and
- ZR Section 37-023, to limit the size of a kiosk in a residential plaza, and to modify the two year operation agreement.

The applicant intends to record a Restrictive Declaration that will contain provisions governing as-of-right development on the four parcels (under the proposed zoning map amendments), in the event that the General Large Scale Development Special Permit is not exercised. These provisions will:

- establish a bulk envelope that will define a) the maximum building heights of each of the buildings, b) the outside dimensions in plan at each height, c) the minimum dimensions between the exterior walls of the building and the lot lines of the zoning lot, and d) the maximum building widths;
- set forth the maximum amount of floor area allowable for each type of use permitted by the proposed zoning;
- provide a minimum east-west view corridor on the site, extending from East 39th and 40th Streets and First Avenue towards the river;
- delineate zones within which each pedestrian and vehicular ingress and egress and curb cuts or drop-off lanes can be located, as well as the location of service and parking entrances;
- provide appropriate publicly accessible open spaces;
- provide design and location guidelines for retail uses on the development parcels; and
- provide for the implementation of any required mitigation measures for as-of-right development pursuant to the provisions of the Restrictive Declaration.

In addition to the actions described above, the applicant is seeking modification to a previously approved New York City Board of Standards and Appeals (BSA) special permit authorizing development of a substation at 685 First Avenue. The modification of the special permit is required for new development at the site.

The proposal has an anticipated completion date of 2014. According to the EAS, absent the proposed action in 2014, conditions on the development parcels would remain the same as the existing conditions, with the exception of the ongoing demolition of the decommissioned Waterside power plant (which will occur in the absence of the proposed action).

Public comments are requested with respect to issues to be addressed in the draft supplemental environmental impact statement.

A public scoping meeting has been scheduled for February 28, 2006 and will be held at Yeshiva University's Geraldine Shottenstein Cultural Center, 239 East 34th Street, between Second and Third Avenues, New York, New York, 10016. The meeting will be held in two sessions: one beginning at 4:00 P.M. and a second beginning at 7:00 P.M. Written comments will be accepted by the lead agency through the tenth day following the scoping meeting.

ADDRESS	BOROUGH:	BLOCK/LOT:
1 CENTRE STREET Municipal Building INDIVIDUAL LANDMARK	MANHATTAN	121 / 1

To the Mayor, the Council, and the Deputy Commissioner, DCAS.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for interior alterations at the 19th Floor, as shown on drawings labeled A1.0 and A1.1, dated January 13, 2006, prepared by Arthur Arnold, R.A., and M.01 through M.06, dated January 16, 2006, prepared by Dilip De, R.A.

The Commission has reviewed the application and these drawings and finds that the work will have no effect on the significant protected features of this Individual Landmark.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Jared Knowles.

ADDRESS	BOROUGH:	BLOCK/LOT:
31 CHAMBERS STREET Surrogate's Court (Hall of Records) INTERIOR LANDMARK	MANHATTAN	153 / 24

To the Mayor, the Council, and the Assistant Commissioner, DCAS.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for interior mechanical alterations at the second floor, at a non-designated portion of the building's interior, as shown on drawings labeled T-0, T-1, T-2, A-102, AD-102, AD-306, AD-307A, A-306, A-307A, AR-306, AR-307A, AR-803, A-701, A-702, A-703, dated revised December 21, 2005, prepared by Joseph J. Aliotta, R.A., and P-1.0 through P-4.0, dated December 21, 2005, prepared by Alexander Gutkin, P.E.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

ADDRESS	BOROUGH:	BLOCK/LOT:
CENTRAL PARK West 110th Street Playground SCENIC LANDMARK	MANHATTAN	1111 / 1

To the Mayor, the Council, and the Commissioner of the Department of Parks and Recreation.

This report is issued pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a preliminary design for the reconstruction of the West 110th Street playground, located in the northwestern corner of the park, including reducing the overall footprint of the playground; eliminating the existing eastern entrance path; creating a new northern entrance path; reconfiguring play areas within the playground; replacing fencing, paving and furnishings; and landscaping the areas removed from the footprint of the playground and at the eliminated entrance path. The proposed work is shown on four drawings, labeled LPC-1 through LPC-4 by the Commission staff and dated July 2005, drawings L-1 and L-2, dated December, 2005, and drawing B-1, dated December 20, 2005, all prepared by the Central Park Conservancy and submitted as components of the application.

The Commission notes that the designation report describes Central Park is an English-Romantic style public park designed in 1856 by Frederick Law Olmsted and Calvert Vaux. The Commission also notes that the playground subject to the proposed work is one of many added at the park's perimeter in the 20th Century.

With regard to this proposal, the Commission finds that the existing playground design to be eliminated is not a significant feature of the scenic landmark; that the size of the playground will be reduced and the remainder of the footprint returned to landscaping, thereby supporting the naturalistic character of the park; that the proposed fencing will match existing fencing found throughout the park and be harmonious with the park's character; and that the proposed furnishings and pavements are typical of playgrounds in the park and will not unduly detract from the surrounding landscape. Based on these findings, the proposed work is determined to be appropriate to the Central Park Scenic Landmark.

Please provide final contract drawings for the Commission's review.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Bernadette Artus.

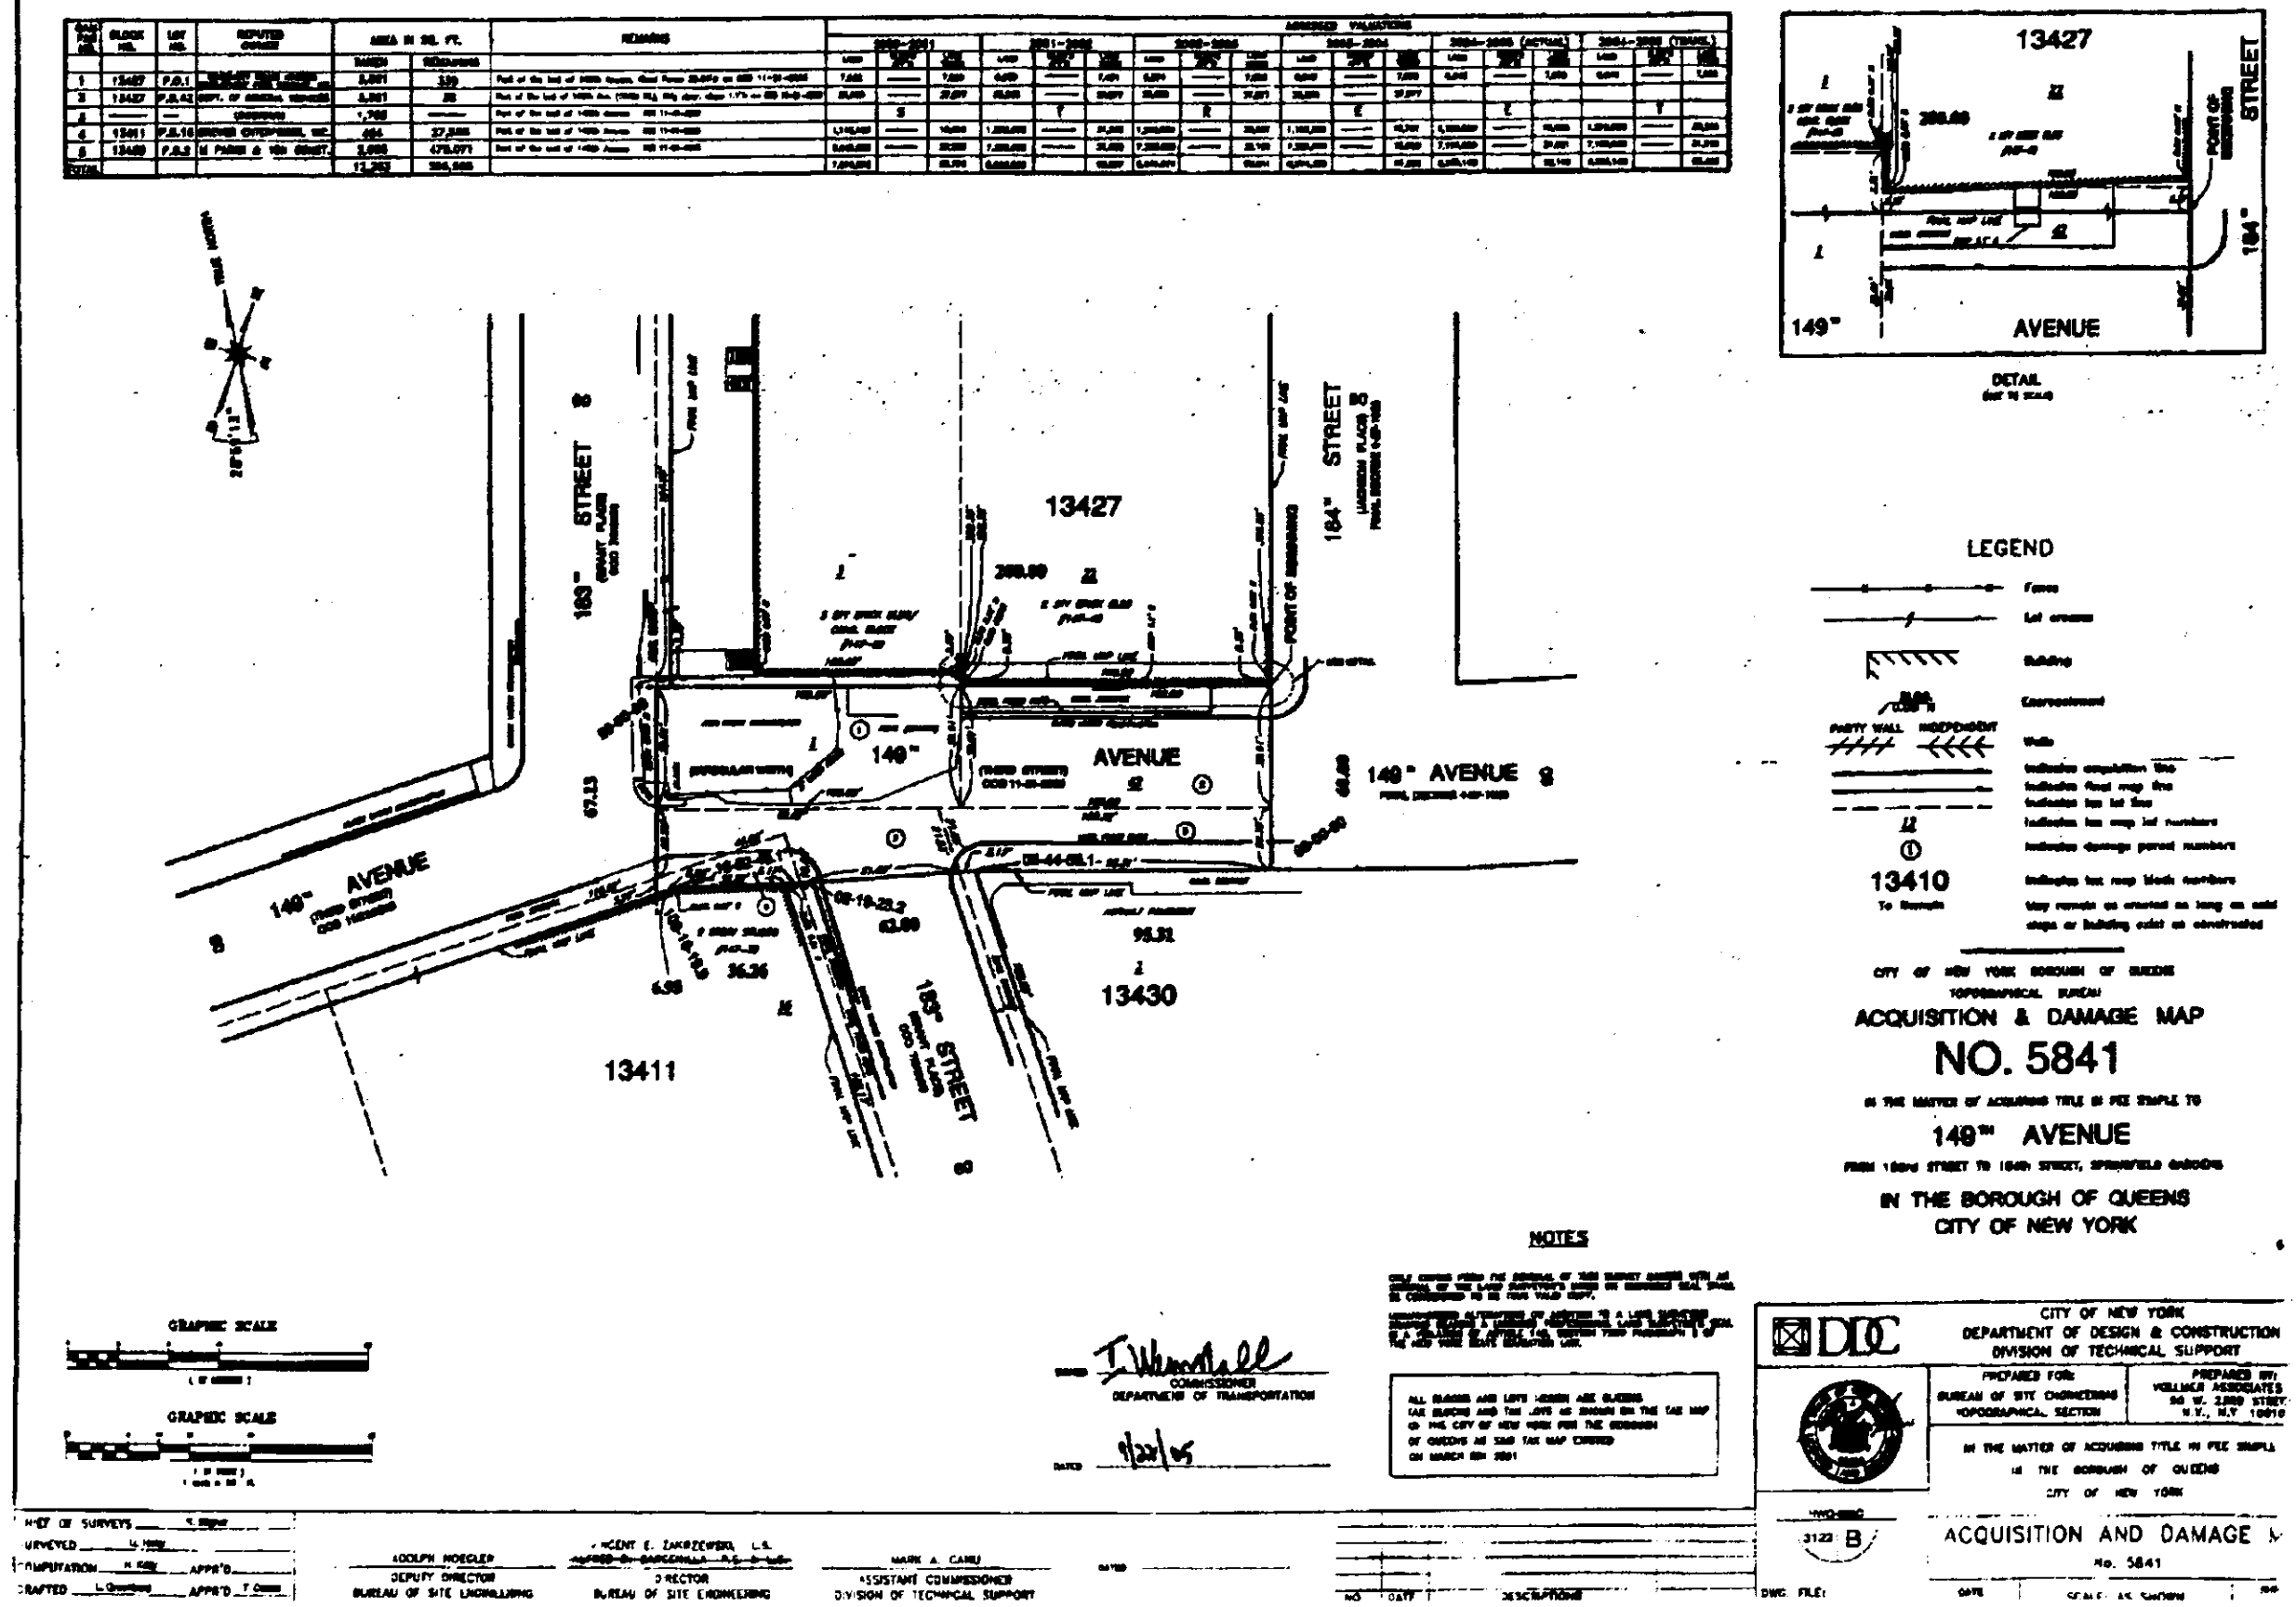
THE CITY RECORD

FRIDAY, JANUARY 27, 2006

COURT NOTICE MAP FOR 149TH AVENUE, QUEENS



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:

Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. COURT NOTICE MAP FOR SCHOOL CONSTRUCTION AUTHORITY

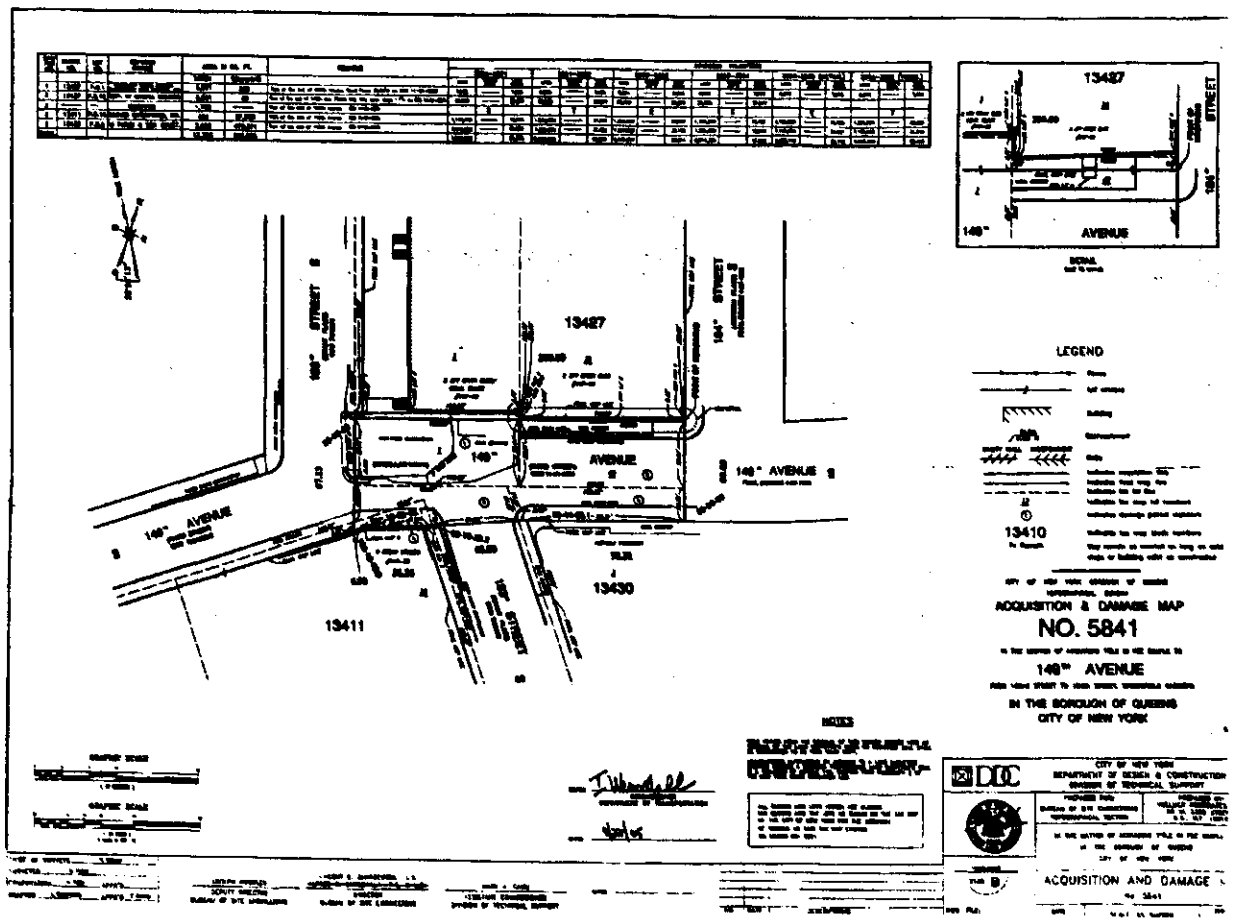
COURT NOTICE MAP FOR 149TH AVENUE, QUEENS



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City Website, http://NYC.GOV.Selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.

Services

PUBLICOLOR – Negotiated Acquisition – PIN# 71740040 – To enter into a system-wide requirements agreement to provide school enhancement and beautification services from 2/1/06 to 1/31/08. Publicolor is not-for-profit organization that was organized to provide school enhancement and beautification services in the New York City schools. Specifically, the organization paints school interiors and exteriors according to plans that are jointly developed with the building principal and a group of student leaders. Publicolor also provides internships and training to student leaders to help other schools transform their buildings. To date, Publicolor has completed the painting/transformation of more than 65 public school buildings. Five more projects currently are underway. As of June 2005, the organization had raised approximately $1.6 million in private funds in support of its projects in the public schools. Publicolor's services represent a very competitive, below-market provision of painting services to schools. Schools are able to enjoy a total building envelope painting (including all hallways, entryways and classrooms above what a building custodian would be required to paint contractually) for only a $10,000 contribution. In addition, the organization provides "value added" services, such as student internships that further support the school's educational mission of providing worthwhile co-curricular activities to students that will enhance their classroom experiences. In light of the cost-effectiveness of these services, the Committee on Contracts approved this request. The term of this contract is 2/1/06 to 1/31/08, at an annual amount not to exceed $210,000.

Services

PUBLICOLOR – Negotiated Acquisition – PIN# 71740040 – To enter into a system-wide requirements agreement to provide school enhancement and beautification services from 2/1/06 to 1/31/08. Publicolor is not-for-profit organization that was organized to provide school enhancement and beautification services in the New York City schools. Specifically, the organization paints school interiors and exteriors according to plans that are jointly developed with the building principal and a group of student leaders. Publicolor also provides internships and training to student leaders to help other schools transform their buildings. To date, Publicolor has completed the painting/transformation of more than 65 public school buildings. Five more projects currently are underway. As of June 2005, the organization had raised approximately $1.6 million in private funds in support of its projects in the public schools. Publicolor's services represent a very competitive, below-market provision of painting services to schools. Schools are able to enjoy a total building envelope painting (including all hallways, entryways and classrooms above what a building custodian would be required to paint contractually) for only a $10,000 contribution. In addition, the organization provides "value added" services, such as student internships that further support the school's educational mission of providing worthwhile co-curricular activities to students that will enhance their classroom experiences. In light of the cost-effectiveness of these services, the Committee on Contracts approved this request. The term of this contract is 2/1/06 to 1/31/08, at an annual amount not to exceed $210,000.

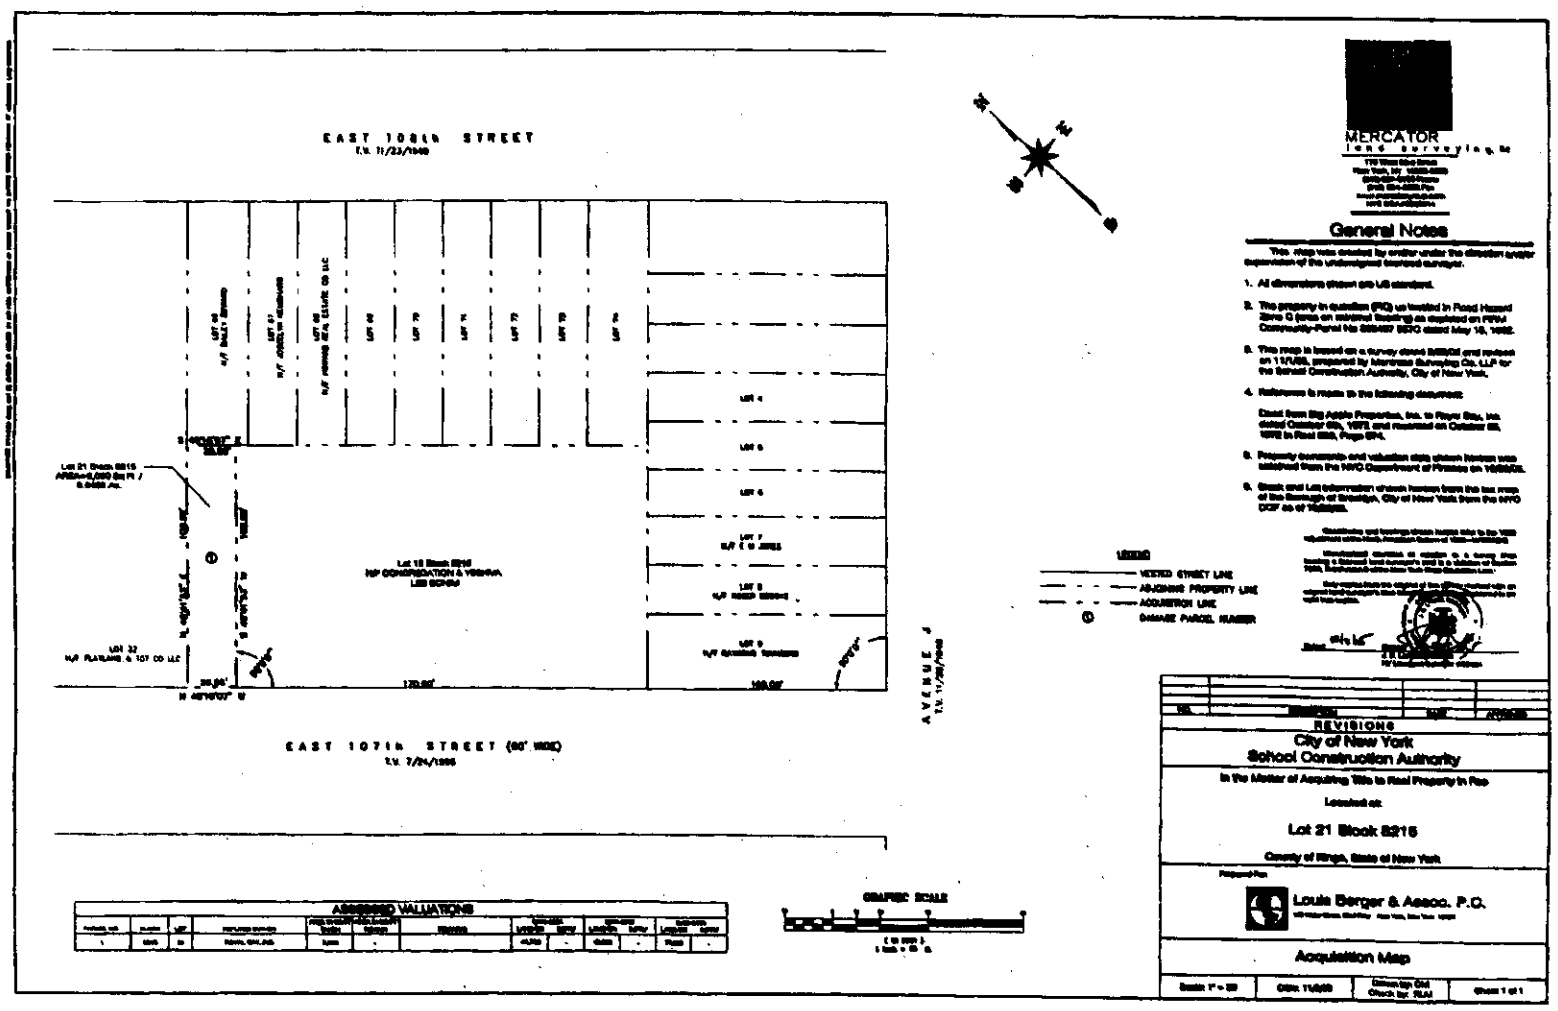
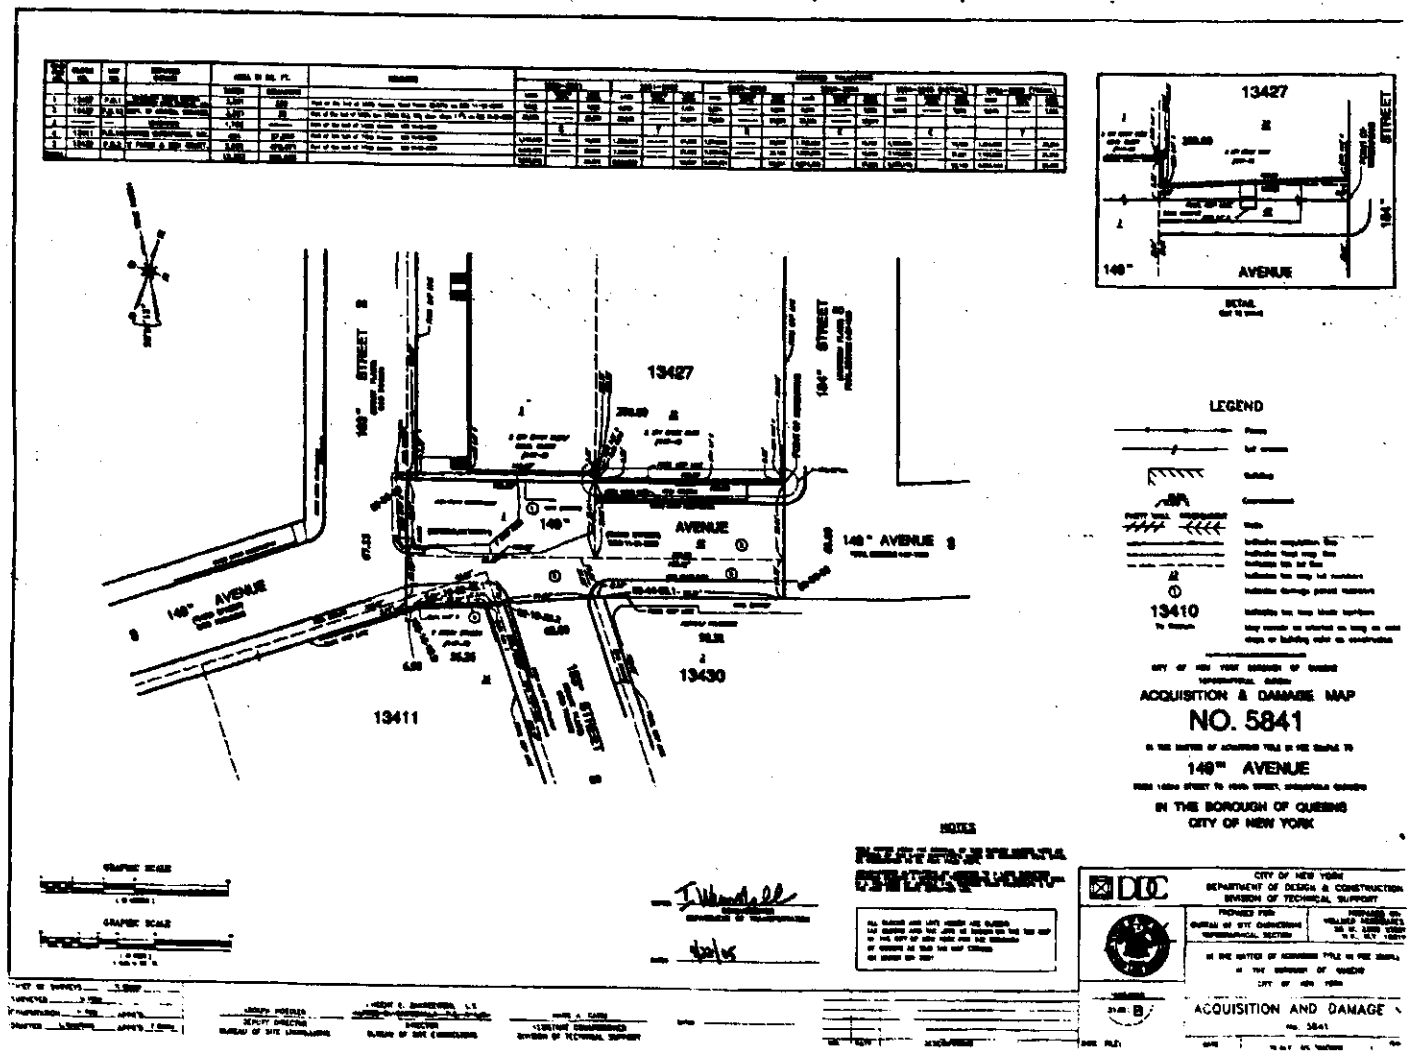
COURT NOTICE MAP FOR SCHOOL CONSTRUCTION AUTHORITY



COURT NOTICE MAP FOR 149TH AVENUE, QUEENS



READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above $100,000 for information technology and for construction and construction related services, above $50,000 for other services, and above $25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council,** 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately $7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists--free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:
Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.
If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the *CR*.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.
