INTROCDUCTION

This volume contains the artifact inventory from the 1981-1983 excavations at the Schermerhorn Row Block in New York City. The inventory is presented in order of numbered tests, running from Test 1 through Test 48 followed by plumbers' trenches and miscellaneous Lots of artifacts. No finds were inventoried from Test 25 or Test 40, so there are no print-outs for those numbers.

For each test, the street address is given followed by the Artifact Lot Numbers with depth in inches from the surface or datum for each Lot. The Lots for that test are then presented in numerical order, with the artifacts in alphabetic order within each Lot. Where there are multiple pages for a test, the pages are numbered.

In some cases the name of the computer file is printed. Each test and each miscellaneous group is entered in a separate computer file, which is named for the Street Address and Test Number. For example, FR191T3 is the name of the file for Test 3, abbreviated from FRONT St. 191, TEST 3.

The following three pages are taken from the report on the excavation. First is "Appendix III," now page ii, which lists the Test Pits in numerical order opposite the Street Address. On the second sheet (from page 29 of the report, at the beginning of Chapter IV, now page iii) is a list of the Street Addresses progressing counter-clockwise around the Schermerhorn Row Block, showing the Test Numbers at each address. Comparison of these two lists will facilitate locating any given test. Finally there is a map of the block, showing the position and number of each Test (Figure 11 from the report, now page iv).

DESCRIPTION AND SUMMARY OF FIELDWORK

Discussion of tests, their soil profiles, and their artifact content is presented below beginning with tests at the South-West corner of the block (165 John Street) and progressing east along John Street to South Street, north to Fulton Street, west along Fulton Street to Front Street, and finally south along Front Street. Discussed separately are the tests in the central courtyard and the plumbers' trenches outside of the block. The order follows, with addresses given only for those locations where tests were recorded.

165 John Street Test 5
167 John Street Test 28

91 South Street Tests 13, 15, 16, and 17
92 South Street Test 22

4 Fulton Street Tests 6 and 14
6 Fulton Street Test 38
8 Fulton Street Tests 23, 26, 27, and 32
10 Fulton Street Tests 9, 10 and 20
12 Fulton Street Tests 7, 30, 31, and 33
14 Fulton Street Tests 12, and 34
16 Fulton Street Tests 8, 29, and 40

197 Front Street Tests 24, and 25
195 Front Street Tests 11, and 18
191 Front Street Tests 1, 2, 3, 4, and 21
189 Front Street Tests 19, 41, 42, and 43

Central courtyard Tests 35, 36, 37, 39, 44, 45, and 46

Plumbers' trenches (see separate table page 190).

The location of these tests are shown on Figure 11 following and on individual detailed plans of 91 through 93 South Street (Figure 14, page 40), 4 through 12 Fulton Street (Figure 20, page 69), 12 through 16 Fulton Street and 197 through 189 Front Street (Figure 35, page 133), and the central courtyard (Figure 43, page 176). The plumbers' trenches are identified on a plan of the block (Figure 46, page 197).
