- (e) In C6-1G and C6-2G districts, in all *manufacturing and commercial buildings except police stations, courthouses and firehouses, or portions thereof, erected prior to December 15, 1961, residential use shall not be permitted unless the City Planning Commission has granted a special permit pursuant to Section 74-782 (Residential Conversion in*

C6-1G, C6-2G, C6-2M, C6-4M, M1-5M, M1-6M, M1-5A, M1-5B and LMM Districts). However, if the Chairman of the City Planning Commission determines that *floor area* in such *buildings* was occupied for *residential use* on April 1, 1984, such *residential use* shall be permitted to remain and no special permit shall be required, provided that a complete application for determination of occupancy is filed by the owner of the *building* or the occupant of a *dwelling unit* in such *building* not later than April 17, 1985.

Residential Conversion in C6-1G, C6-2G, C6-2M, C6-4M, M1-5M, M1-6M, M1-5A, M1-5B and LMM Districts

In C6-1G, C6-2G, C6-2M, C6-4M, M1-5M and M1-6M districts, the City Planning Commission, subject to the approval of the Board of Estimate, may permit modification of the requirements of Section 15-21: in M1-5A and M1-5B districts the City Planning Commission subject to the approval of the Board of Estimate, may permit the modification of the requirements of Section 12-14D-1 by and in the LMM Special Purpose District the City Planning Commission, subject to the approval of the Board of Estimate, may permit the modification of the requirements of Section 111-103, provided that the Commission finds that:

- (a) The conversion will not harm the industrial sector of the City's economy;
- (b) The applicant for the Special Permit or a predecessor in title has made a good faith effort to rent such space to a mandated *use* at fair market rentals. Such effort shall have been actively pursued for a minimum of one year immediately preceding the application. A good faith effort shall include, but not be limited to, advertising in local and city-wide press, listing the space with brokers doing business in the industrial real estate market, notifying the New York City Office of Economic Development, and informing local and City-wide industry groups. The applicant shall provide records showing the specific efforts to rent such space.
- (c) There is sufficient alternative space to meet the needs of *commercial* and *manufacturing uses* in the area. The vacancy rate of industrial space in the area shall be one evidentiary element to prove the availability of alternative space;
- (d) City, state and federal economic development programs, to the extent applicable, had been explored and found not suitable;
- (e) The commercial and industrial tenants were given the opportunity by the applicant or predecessor in title to remain in the spaces at fair market rentals and the property owner or predecessors in title did not cause the vacating of the space for the additional conversion;
- (f) The neighborhood in which the conversion is taking place will not be excessively burdened by increased residential activity; and
- (g) All *dwelling units* or *joint living-work quarters for artists* permitted by this special permit meet the standards of the applicable district for such units or quarters.

If the Commission determines that *floor area* in the *building*, or portion thereof, was occupied as *dwelling units* or *joint living-work quarters for artists* on September 1, 1980, findings (b), (c), (d), and (e) shall not be required for the grant of a special permit for such *floor area*, provided that a complete application to prove occupancy as a *dwelling unit* or *joint living work quarters for artists* is submitted to the City Planning Commission by the owner of the *building* or the occupant of a *dwelling unit* or *joint living-work quarters for artists* in such *building* not later than June 21, 1983. In addition, the Commission must find that there is no substantial evidence that the landlord forced commercial or manufacturing tenants to vacate such *floor areas* through harassment, non-renewal of leases, or the charging of rents in excess of the then fair market value. Notwithstanding anything to the contrary above, the Commission shall not grant or deny a special Permit pursuant

to the provisions of this section unless an application for such Special Permit has been submitted by the owner of the *building*.

The Commission shall request a report from the Office of Economic Development regarding information useful in making findings 'a', 'b', 'c', 'd', and 'e'. Said report is to be provided within 30 days of the Commission's request.

The applicant shall provide a copy of any application for a Special Permit under this section to the Industrial Loft Advisory Council c/o Mayor's Office of Economic Development.

In granting the special permit under this Section, the Commission shall require the preservation of the maximum amount of *floor area* for *commercial* or *manufacturing uses* that the Commission deems feasible.

Proposed Zoning Text Amendment

86-049

Selection of pedestrian circulation improvements

Pedestrian circulation improvements to be provided by a *developer* shall be selected in the following manner:

- 1) First, those *mandatory pedestrian circulation improvements* which the *developer* is required to construct in connection with the *development* of its *zoning lot*, such *improvements* being listed by *block* number in the Description of Improvements by *block*. (Appendix B);
- 2) Second, those *elective pedestrian circulation improvements* which remain unconstructed, selected in the order in which they are ranked on the list of Elective Pedestrian Circulation Improvements (Appendix C) and whose aggregate additional *floor area* when added to that attributable for the provision of *mandatory pedestrian circulation improvements*, if any, entitles the *developer* to the total additional *floor area* desired.

The Elective Pedestrian Circulation Improvements which are noted with an asterisk (*) in Appendix C have a special ranking priority ahead of the numerical order set forth in Appendix C and equal to each other.

- 3) Third, if no unconstructed *elective pedestrian circulation improvement* or *improvements* enables a *developer* to obtain the total additional *floor area* desired, the *developer* shall select the highest ranked unconstructed improvement and, if necessary, such other improvement or improvements listed in Appendix C, so that the aggregate additional *floor area* attributable to all *pedestrian circulation improvements* provided either (a) exceeds the additional *floor area* desired, the excess being credited as bonus *floor area*, or (b) is less, by the smallest amount, than the additional *floor area* desired, the difference between such aggregate additional *floor area* and the additional *floor area* desired being credited as additional *floor area* in exchange for a contribution (the "Fund Contribution") to the Greenwich Street Development District Fund to be established and administered in accordance with Section 86-0410 (Greenwich Street Development District Fund). The Fund Contribution shall be at the monetary rate specified in Section 86-0411 (Fund Contribution), be in the form of cash and be tendered to such Fund prior to the granting by the Department of Buildings of a building permit for the *development*.

Special Greenwich Street Development District

86-055 Loggia

A *loggia* is a continuous covered space within a *zoning lot* which effects a pedestrian connection as required in the District Plan and which

- (b) is located above the level of the *street* such that it may not qualify as an *arcade*.
- (c) **may be [is] open, except for building columns and railing, to the air space over the *street* through out its length, or may be enclosed, by a colorless, untinted, non-reflective, transparent material, except that it may contain a base wall of opaque material up to a maximum height of 18 inches from the finished floor level, and if enclosed, it must therefore be heated and air conditioned (during the appropriate periods).**
- (d) has a *minimum continuous width* of 15 feet unobstructed except for building columns,
- (e) has a *minimum height* of 20 feet,
- (f) is open to the public at all hours, and
- (g) is designed so as to **allow connection with all contiguous elements of the District Plan, and match the height of contiguous connecting circulation elements.**

86-072

Building walls along certain street lines

Notwithstanding any other provision of this Chapter, where the District Plan shows a mandatory requirement for a *development* to be built to a *street line*, any such *development* shall have an exterior wall (i) coincident with such *street line*, (ii) constructed along the entire length of the portion of the *street line* bounding the *zoning lot* and (iii) with regard to the block listed below, rising, without setback, for a height above *curb level* of not less than the amount specified below:

- (a) For blocks 13N, 20S, 20N and 21, a height of not less than 85 feet.
- (b) For Block 13S, a height of not less than 85 feet, provided, however, if Block 13S is *developed* as one *development*, such *development* shall rise at the *street line* of Battery Place and of Broadway, without setback, to a minimum height of 35 feet but not exceeding 85 feet, except that the tower of such *development* shall rise, without setback, for its full height at the south-east corner of such block.
- (c) For Block 56N, a height of not less than 200 feet above *curb level*, or the full height of the *building*, whichever is less.

Where *building walls* are mandated to be built at the *street line*, such mandated front *building wall* requirements are optional along *street* that intersect with *streets* having mandated front *building wall* requirements. In no case shall such optional front *building walls* extend for a distance from the intersection more than 1.5 times the width of the *street* along which such optional *building wall* fronts.

If an open area is provided along the full length of the portion of the *front lot line*, not subject to optional front *building wall* requirements, the provisions of Section 33-44 (Alternate Front Setbacks) may apply.

The purpose of these modifications is to make the regulations of Article II, Chapter 6, applicable to *Commercial Districts*.

[37-20] 37-014

Modifications To Applicability of Article II, Chapter 6

[37-21]**[General Provisions]**

In C1-8, C1-9, C2-7, C2-8, C4-6, C5-1, C5-2, C5-4, C6-3, C6-4, C6-5 and C6-8 districts or C1 or C2 districts mapped within R9 or R10 districts, the regulations of Article II, Chapter 6 applicable to *residential developments* or *developments* occupied by *predominantly residential use* are modified by the provisions of Section 37-[22] **015** (Retail Continuity) and 37-[23] **016** (Accessory Business Signs) and 37-[24] **017** (Street Wall Articulation).

[37-22] 37-015**Retail Continuity**

When the front *building* wall of a *development* is at least 50 feet in length and fronts upon a *wide street*, a minimum of 50 percent of such front *building* wall shall be occupied by *commercial uses*, as permitted by district regulations.

In C1-8, C1-9, C2-7, C2-8, C4-6 districts and C1 or C2 districts mapped within R9 or R10 districts, *uses* which occupy such 50 percent of the front *building* wall shall be limited to those listed in Use Groups 6A, 6C, and 6F, excluding banks and loan offices, except that in C4-6 districts only, such *uses* may additionally include those listed in Use Groups 8A, 8B, and 10A. All *uses* permitted by the underlying district regulations are permitted in the remaining 50 percent of the front *building* wall.

Such requirement of *commercial uses* for a minimum of 50 percent of the front *building* wall of a *development* may be waived, or additional *uses* permitted, upon certification by the City Planning Commission to the Commissioner of Buildings that either:

- (a) A significant degree of vacancies of retail stores and personal service establishments exists at ground floor level within the *development's* "street district", as defined in Section 74-952, Housing Quality Definitions; or
- (b) An adequate supply of such *uses* already exists at the ground floor level in the surrounding area.

The Commission may require that an application for such certification of additional *uses* for a completed *building*, where *floor area* has been designated for occupancy for such *commercial uses*, establish that a good faith effort has been made to secure tenancy by such *uses*.

[37-23] 37-016**Accessory business signs**

In addition to the applicable district regulations in C1-8, C1-9, C2-7, C2-8, C4-6 districts and C1 or C2 districts mapped within R9 or R10 districts, all *accessory business signs* other than window *signs*, shall be located in a horizontal band not higher than 17 feet above *curb level*. Where there is a grade change of at least 1.5 feet in 100 along the portion of the *street* upon which the *development* fronts, such signage band may be staggered along such *street*.

When an existing *development* on a *contiguous lot* or *contiguous block* contains *accessory business signs* within a coordinated horizontal band along its *street* frontage, the signage strip along the new *development* shall be located at the same elevation as the adjacent band, but in no event higher than 17 feet above *curb level*. Where coordinated horizontal bands exist on two *contiguous lot* or *contiguous blocks* on both sides of the *development*, the signage strip shall be located at the same elevation as one adjacent band, or between the elevations of the two. For the purpose of this section, the elevation is measured from the *curb level* to the base of the signage strip.

The City Planning Commission, may, by certification to the Commissioner of Buildings, allow modifications of the requirements of this Section. Such modifications will be permitted when the

Commission finds that such modifications will enhance the design quality of the *street wall*.

[37-24] 37-017

Street wall articulation

When any *building wall* of a *development* which is 5 feet or more in height adjoins a sidewalk, a *residential plaza* or an *arcade*, at least 50 percent of the total surface area of such walls between *curb level* and 12 feet above *curb level* or to the ceiling of the ground floor, whichever is higher, or to the full height of the wall if such wall is less than 12 feet in height, shall be transparent. The lowest point at any point of any transparency that is provided to satisfy the requirements of this Section shall not be higher than 4 feet above the *curb level*.

Door or window openings within such walls shall be considered as transparent. Such openings shall have a minimum width of 2 feet.

In addition, any portion of such *building wall*, 50 feet or more in length, which contains no transparent element between *curb level* and 12 feet above *curb level* or the ceiling of the ground floor, whichever is higher, or to its full height if such wall is less than 12 feet in height, shall be covered with ivy or similar planting or contain artwork or be treated so as to provide visual relief. Plants shall be planted in soil having a depth of not less than 2 feet 6 inches, and a minimum width of 24 inches. If artwork is being used, approval by the New York City Art Commission shall be obtained prior to the Certificate of Occupancy being issued for the *development*.

[38-10] 37-02

§37-03

Standards for Location, Design and Hours of Public Accessibility

In addition to the standards set forth in the New York City Transit Authority's "Station Planning Guidelines" (Revised, 1975 and as may be subsequently revised), the following standards shall also apply:

- (a) The relocated entrance shall be immediately adjacent to and accessible without any obstruction from a public sidewalk, or from within a space accessible to the public, as those spaces are defined in the applicable zoning district regulations.
- (b) The relocated entrance may be provided within a building, but shall not be enclosed by any doors. The area occupied by a relocated entrance within a building shall not be counted toward the floor area of the enlargement or development.

- (c) The relocated entrance shall have a queuing space at the top and bottom of the stairs at least eight feet wide and 15 feet long, and such queuing space may overlap a *sidewalk widening*, an *arcade*, a *plaza*, a *residential plaza* or an *urban plaza*.
- (d) Where two or more existing stairway entrances are being relocated as part of the same *development* or *enlargement*, the new entrance or entrances shall have a total stair width or widths equal to or greater than the sum of the stair widths of the stairway entrances being relocated, but in any case no less than eight feet in width.
- (e) The entire entrance area, including passageways, shall be free of obstructions of any kind, except for projecting information signage.
- (f) The relocated entrance may be relocated with a *plaza*, a *residential plaza* or an *urban plaza* provided that the queuing area of the relocated entrance is unobstructed and contiguous to a sidewalk or a *sidewalk widening*. A relocated entrance within a *plaza*, a *residential plaza* or an *urban plaza* is a permitted obstruction, but shall not be subject to the percentage limit on permitted obstructions for a *plaza*, a *residential plaza* or an *urban plaza*.
- (g) The relocated entrance shall connect to an existing or proposed subway passageway, or shall connect, via an underground passageway, to a mezzanine area of the subway station.
- (h) The below grade portion of a relocated entrance may be constructed within the *street*.
- (i) The relocated entrance shall be accessible to the public during the hours when the connected mezzanine area is open to the public or as otherwise approved by the Transit Authority.

§37-033

Administrative Procedure for a Subway Stair Relocation

- (a) Except as otherwise provided in paragraph (b) no plan shall be approved by the Department of Buildings and no excavation permit or building permit shall be issued for any *development* or *enlargement* which is subject to the requirements for the relocation of a subway stair entrance, unless:
 1. Such plan includes a stair relocation plan and the related documents which bind the developer to:
 - a. Construct the new stair entrance in accordance with such plan;
 - b. Demolish above-ground elements of the existing entrance; and
 - c. Seal the existing entrance at the sidewalk level.
 2. Such plan and related documents bear the Transit Authority's approval.
 3. Such plan is accompanied by a certified copy of an agreement, as recorded between the Transit Authority and the owner for an easement on the zoning lot for subway-related use of the new stair entrance and for public access via such entrance to the subway station, which agreement has been recorded against the *zoning lot* in the Office of the Register of the City of New York (County of New York) and is accompanied by the Register's receipt of recordation.
 4. Such plan is accompanied any request for modification of special urban design guidelines pursuant to Section 37-034.
- (b) In the event that major construction problems render the stair relocation infeasible or that operating design considerations make it undesirable, the Transit Authority and the

City Planning Commission by joint certification may release the developer from said requirement. In such event, the stair relocation requirement shall be satisfied by retention of the existing stair and provision on the zoning lot of an open area which accommodates pedestrian traffic passing the existing entrance. Such space shall have a width equal to at least one and one-half times the width of the existing stair entrance and shall extend along the full length of the stair entrance.

- (c) Prior to obtaining a Permanent Certificate of Occupancy, the relocated subway stair must be 100% complete in accordance with the approved plans and such completion shall have been certified by the Transit Authority.

§37-034

Modification of Special Urban Design Guidelines and Urban Open Space

The City Planning Commission may by certification to the Commissioner of Buildings, allow modifications of the requirements of Section 37-01 (Special Urban Design Guidelines—Streetscape), Section 37-02 (Special Urban Design Guidelines—Residential Plazas), and the applicable provisions of *urban open space* in Section 12-10 (DEFINITIONS) if it finds that the relocated subway stair cannot be accommodated without modification to these provisions.

§37-035

Waiver of Requirements

Upon application the City Planning Commission may authorize a waiver of requirements of this section if the Commission finds that:

- (a) The total floor area of all developments or enlargements after the effective date of this legislation is less than 70,000 square feet; or
- (b) There are major structural problems in creating space for a relocated stairway entrance in an existing building; or
- (c) The space in an existing building which is required to relocate the stairway entrance is occupied by a tenant on a lease which was in effect prior to March 1, 1984 to which a member of the bar of the State of New York shall attest, and that there is no opportunity to relocate the tenant within the enlargement.

As a condition for granting such waiver the Commission shall determine that:

1. In the case of (a) above, the City Planning Commission and the Transit Authority may require an easement to accommodate the future relocation of the subway stairway in accordance with the New York City Transit Authority's "Station Planning Guidelines" (Revised, 1975 and as may be subsequently revised);
2. In the case of (a) or (b) above, no construction is undertaken that would preclude the future relocation of a stairway entrance from the sidewalk to the zoning lot;
3. In the case of (c) above, that at the expiration of the existing lease the applicant shall undertake the relocation of the stairway entrance according to the provisions of this Section.

§74-634

Subway Station Improvements in Commercial Zones of 10 FAR and Above in Manhattan

The City Planning Commission may, by special permit after public notice and hearing and subject to a Board of Estimate action, grant floor area bonuses, modify Section 37-01 (Special Urban Design Guidelines—Streetscape), Section 37-02 (Special Urban Design Guidelines—Residential Plazas), the provisions of *urban open space* in Section 12-10 (DEFINITIONS), and in a C5-5 district, height and setback and rear yard regulations for developments or enlargements which pro-

vide major improvements for adjacent subway stations in accordance with the provisions of this section. The subway stations in districts where such improvements may be constructed are listed in Section 74-634a. The zoning lot for the development or enlargement on which such floor area bonus is requested shall be adjacent to the subway station for which the improvement is proposed. In order for the zoning lot of the development or enlargement to qualify as "adjacent," it must physically adjoin a station mezzanine, platform, concourse or connecting passageway, with no tracks intervening to separate the zoning lot from these elements.

(a) **Bonus-Eligible Subway Stations by Line and Zone**

Developments or enlargements which provide major improvements to adjacent subway stations are eligible for a floor area bonus which shall not exceed 20% of the basic maximum floor area ratio permitted by the underlying district regulations. The stations eligible for bonus are as follows:

(b) **Compliance with Transit Authority Design Standards**

The subway station improvement shall comply with all applicable design standards of the New York City Transit Authority's "Station Planning Guidelines" (Revised, 1975 and as may be subsequently revised).

(c) **Procedure**

1. **Pre-Application**

The applicant shall submit schematic or concept plans for the proposed improvement to the Metropolitan Transportation Authority, the Transit Authority and the City Planning Commission.

2. **Application Pre-certification**

After review and agreement on the concept by the Metropolitan Transportation Authority, Transit Authority and the City Planning Commission, the applicant shall

submit necessary documentation in conformance with the New York City Transit Authority's "Guidelines for Submission and Approval of Outside Projects." Prior to certification by the City Planning Commission, the Transit Authority shall provide a letter to the Commission containing conceptual approval of the improvement and a statement of any special considerations regarding the Transit Authority's future operation of the improvement.

3. The special permit application to the City Planning Commission shall include information and justification sufficient to provide the Commission with a basis for evaluating the benefits to the City from the proposed improvement and determining the appropriate amount of bonus *floor area* and for making the findings for the modifications of Section 37-01, 37-02 and height and setback regulations in C5-5 districts.
4. The special permit application shall include any request for modification of special urban design guidelines pursuant to Section 74-634e and of height and setback and rear yard regulations pursuant to Section 74-634f.
5. Uniform Land Use Review Procedure—Certification

The City Planning Commission shall not certify any application under the Uniform Land Use Review Procedure until the requisite letter from the Transit Authority has been received and incorporated in the application. Such letter may be subject to subsequent execution of a final agreement with the developer.

6. Prior to the granting of a special permit,
 - a. The Transit Authority shall submit a letter of final approval to the City Planning Commission. The letter shall identify the developer's plans as having final approval and note any matters that should be conditions of the special permit; and
 - b. The applicant shall sign a restrictive declaration containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and maintain the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.
7. The restrictive declarations and any instrument creating a transit easement on the *zoning lot* shall be recorded against the *zoning lot* in the Office of the Register of the City of New York for the borough in which the improvement or easement is being created, and a certified copy of the instrument shall be submitted to the City Planning Commission and the Transit Authority.
8. Prior to obtaining a Temporary Certificate of Occupancy for any portion of the special permit building, the bonused subway improvement shall be substantially complete, which shall, for this purpose, mean usable by the public, as determined by the Transit Authority.
9. Prior to obtaining a Permanent Certificate of Occupancy, the bonused subway improvement must be 100% complete in accordance with the approved plans and such completion shall have been certified by the Transit Authority.

(d) Floor Area Bonus

The amount of the *floor area* bonus shall be at the discretion of the City Planning Commission and may range from no *floor area* bonus to the maximum amount allowable by special permit pursuant to the provisions of this Section. In determining the precise amount of *floor area* bonus, the Commission shall make findings on the following:

1. The degree to which the station's general accessibility, rider orientation and safety

will be improved by the provision of new connections, additions to circulation space or easing of circulation bottlenecks;

2. Provision of escalators or elevators where justified by traffic or depth of mezzanine or platform below *street* level;
3. Convenience and spaciousness of *street* level entrance and compatible relationship to the ground floor *uses* of the *development* or *enlargement*;
4. Improvements in the station's environment by provision for daylight access, or improvements to noise control, air quality, lighting or other architectural treatments.

(e) **Modification of Special Urban Design Guidelines and Urban Open Space**

The City Planning Commission may modify the requirements of Section 37-01 (Special Urban Design Guidelines—Streetscape), Section 37-02 (Special Urban Design Guidelines—Residential Plazas), and the requirements for *urban open space* in Section 12-10 (DEFINITIONS) if it finds the provisions of a subway improvement cannot be accommodated without modification to these requirements.

(f) **Modification of Height and Setback and Yard Regulations**

In a C5-5 district in the case of on-site subway station improvements that generate floor area bonus pursuant to section 74-634, the City Planning Commission may permit modification of the applicable regulations in Sections 33-26 to 33-30, inclusive, relating to *rear yard* regulations or in Sections 33-41 to 33-45, inclusive, relating to height and setback regulations.

The City Planning Commission may grant such modification upon consideration that the applicable height and setback or *rear yard* regulations cannot be complied with by some method feasible for the applicant to pursue because of the provision of a subway station improvement, the size or irregular shape of the *lot*, the size or irregular shape of the *block* or width of *streets*. The Commission shall also consider the characteristics of surrounding development. The Commission shall require, where appropriate, sufficient safeguards to insure the free flow of pedestrian and vehicular traffic in the general area. The Commission may prescribe additional appropriate conditions and safeguards to enhance to character of the surrounding area.

- (d) To provide sufficient space for commercial and manufacturing activities which are an integral part of New York City's economy;
- (e) To provide for adequate returns to property owners by allowing more profitable residential use with a limited mix of commercial and manufacturing uses;
- (f) To provide a new housing opportunity of a type and at a density appropriate to these Community Districts;

Building Permits and Variances Issued Before [April 9, 1981] the Effective Date of Amendment

A. Building Permits in Manhattan Community Districts 1, 2, 3, 4, 5 and 6.

If, before April 9, 1981, a building permit was lawfully issued for an alteration based upon plans filed and pending with the Department of Buildings on or before September 1, 1980; construction pursuant to such permit may be continued, at the option of the owner, without regard to the other provisions of this chapter. In the event that the construction permitted herein is not completed within 2 years from the issuance of said building permit or prior to April 9, 1982, whichever is later, and a temporary or permanent Certificate of Occupancy has not been issued, the building permit shall automatically lapse for any portion of a *building* for which a permanent or temporary

Certificate of Occupancy has not been obtained and the right to continue construction on such *floor area* shall terminate, except that the Board of Standards and Appeals may reinstate said permit pursuant to the provisions of paragraphs 1 or 2 below:

1. for all *floor areas* for which the Board has made a finding that, as of April 9, 1981,
 - (a) there was substantial construction in compliance with the approved plans pursuant to which said lapsed permit had been granted, and
 - (b) the completed construction demonstrated a physical commitment of the *floor area* to a layout as *residential or joint living-work quarters for artists use*, which construction could not be readily adapted to a *non-residential use* permitted by the Zoning Resolution.

A finding of substantial construction shall not be made unless, on April 9, 1981, the *floor area* was either vacant or occupied by *residential or joint living-work-quarters for artists use*, and unless the expenditures prior to April 9, 1981 were significant in proportion to the costs of construction of the entire project not including the costs of acquisition, demolition, professional fees or financing;

2. for all *floor area* for which the Board has made a finding that, as of the date said building permit lapsed, there was substantial construction in compliance with the approved plans pursuant to which said lapsed permit has been granted. A finding of substantial construction shall not be made unless, as of the date said permit lapsed, the *floor area* was either vacant or occupied by *residential or joint living-work quarters for artists use*, and unless the expenditures prior to the date said permit lapsed were significant in proportion to the costs of construction of the entire project not including the costs of acquisition, demolition, professional fees or financing. Notwithstanding anything to the contrary above, the building permit shall only be reinstated pursuant to the provisions of this section provided that for any portion of the *building* for which said permit is reinstated:
 - (a) the conversion shall comply with the provisions of Sections 15-12, 15-24, 42-14 D1(e) or 111-112, as appropriate in the zoning district in which the *building* being converted is located, except that the Board may modify the requirements of Sections 15-12, 15-24, 42-14 D1(e) or 111-112, provided that the *rooftop open space* was not permitted under said building permit and the Board determines that the roof either is unsuited for open space *use* or cannot be made suitable for open space *use* at a reasonable cost;
 - (b) there shall be double glazing on all windows in all *dwelling units* or such other window treatment as the Board deems appropriate;
 - (c) for any *floor area* occupied on September 1, 1980 by a *commercial or manufacturing use* listed in Section 15-58, the owner shall make a reduced conversion contribution under the provisions of Section 15-555.

In addition to the above, amendments filed after September 1, 1980 which create additional *dwelling units or joint living-work quarters for artists*, or increase the amount of *floor area* to be converted to such units shall be subject to the requirements of this chapter; and if a temporary or permanent Certificate of Occupancy has not been obtained within two years from the issuance of said building permit, and the *floor area* or any portion thereof for which said building permit was issued was occupied on April 9, 1981 by a *commercial or manufacturing use* listed in Section 15-58, the provisions of Section 15-50 et seq. shall apply for such *floor area*.

B. Building permits in Brooklyn Community Districts 1, 2 and 6 and Queens Community Districts 1 and 2

If, before (the effective date of this amendment), a building permit was lawfully issued for an

alteration based upon plans filed and pending with the Department of Buildings on or before April 1, 1984, construction pursuant to such permit may be continued.

[B] C. Variances

If, before April 9, 1981 in Manhattan Community Districts 1, 2, 3, 4, 5 and 6, or (the effective date of this amendment) in Brooklyn Community Districts 1, 2 and 6 and Queens Community Districts 1 and 2, a variance to permit the conversion of a *building* or portion thereof, to *residential* or *joint living-work quarters for artists use*, which variance has not lapsed pursuant to the provisions of Section 72-23, and a building permit was issued in accordance with the terms of said variance for such conversion by the Department of Buildings within two years of the grant of said variance, construction pursuant to such permit may be continued, without regard to the other provisions of this Chapter.

Dwelling units converted pursuant to the provisions of this section which are not subject to the provisions of this chapter shall also not be subject to the provisions of Section 34-42 (Location within Buildings).

15-50 Relocation Incentive Program**15-51****Preamble**

In order to reduce the deleterious effects on commercial and manufacturing uses caused by the reduction of existing floor area available to such uses as the result of the conversion of nonresidential buildings to dwelling units or Joint living-work quarters for artists, while permitting owners to convert such buildings to dwelling units or Joint living-work quarters for artists, thereby increasing the value of such buildings, a Relocation Incentive Program is established. These general goals include, among others, the following specific objectives:

- (a) To provide incentives for eligible commercial and manufacturing uses displaced by the conversion of commercial or manufacturing buildings, or portions thereof, to dwelling units, to relocate within the City of New York.
- (b) To provide certainty to eligible commercial and industrial tenants as to the extent and availability of relocation incentives.
- (c) To ensure that such incentives are available to the eligible commercial or manufacturing uses at the time they relocate.
- (d) To assist in the retention of industrial firms and industrial relocation within the City of New York in accordance with the intent of this Chapter.

Under the Relocation Incentive Program, owners who plan to convert space used for commercial and manufacturing uses to dwelling units or Joint living-work quarters for artists under the provisions of this chapter or Sections 42-14D, 74-711, 74-78 and 111-00 of this resolution will be required to pay a conversion contribution or provide direct relocation payments before they can obtain an Alteration Permit. The conversion contribution will be paid into the Industrial Relocation Fund to be administered by the New York City Business Relocation Assistance Corporation. These funds will be used to provide industrial relocation assistance in accordance with the intent of this Chapter.

Building owners may receive a discount from the conversion contribution if they provide direct assistance to manufacturing tenants which relocate in New York City. The Board of Standards

and Appeals shall administratively review applications, authorize discounts or exclusions, and certify that the appropriate relocation assistance has been provided.

Prior to the issuance of an Alteration Permit for the development of dwelling units or Joint living-work quarters for artists, an owner must present proof of either payment of the conversion contribution or BSA approval of direct relocation payments.

Said rate change shall be based on the Gross National Product Implicit Price Deflators for the Trucking and Warehousing Industry, prepared by the U.S. Department of Commerce.

15-532**Contribution Procedure**

- (a) Prior to the issuance of an Alteration Permit, the owner shall pay the *conversion contribution*, in an amount equal to the rate applicable at the date of payment multiplied by the gross *floor area* as provided in Section 15-531. The amount of such contribution may be reduced by authorization of the Board of Standards and Appeals pursuant to Section 15-54 (Direct Help) or Section 15-55. (Additional Discounts or Exclusions from Conversion Contributions). Nothing in this section shall be construed to require such owner to pay the *conversion contribution* in accordance with the provisions of this section more than once on any particular *floor area*. Upon proof of payment of the *conversion contribution* by the owner, or upon receipt of an authorization exclusion, pursuant to Section 15-551 (Existing Conversion) or Section 15-554 (Exclusion for Certain Vacated Space), the Board shall notify the Department of Buildings that the requirements of Section 15-50 *et seq.* have been met.

The appropriate portion of the *conversion contribution* shall be equal to the amount produced by multiplying the rate of *conversion contribution* applicable at the time of payment of the *conversion contribution* by either the *floor area* occupied by such tenant prior to relocation, or the *floor area* occupied by such tenant after relocation, whichever is less.

The *Corporation* shall determine whether a commercial or manufacturing tenant is an *eligible tenant* within 15 days after a request by said tenant, and, in appropriate cases, verify the eligibility of said tenant. Where a commercial or manufacturing tenant is not

an *eligible tenant*, the Fund shall retain the *conversion contribution*. Where an *eligible tenant* does not seek verification of eligibility within six months of the payment of the *conversion contribution*, such tenant shall be ineligible to receive any payment or assistance from the *Corporation*.

Notwithstanding the above, where the *eligible tenant* has received assistance from the *Corporation*, the amount of such assistance will be subtracted from the amount to which said tenant is eligible under this section, and the remainder shall be retained by the *Corporation*.

15-54

Direct Help

The Board of Standards and Appeals shall issue an authorization for a discount from all or part of the amount of the *conversion contribution* when it determines that the owner of an *applicable building* has made a direct help payment in accordance with Section 15-541 through Section 15-546. The amount of the discount shall be twice the direct help payment provided to the recipients as required in Section 15-541.

The owners of an *applicable building* shall include a copy of each escrow agreement signed pursuant to Section 15-542 with the application to the Board for the authorization for a direct help discount. The owner of an *applicable building* applying for a direct help discount shall, on the date of such application, provide the Office of Economic Development with a copy of said application. Within 30 days of the receipt of any such application, the Office of Economic Development may provide the Board of Standards and Appeals with a report on the history of commercial and manufacturing tenancy of such *building*.

15-541

Amount of Direct Help Payment

Condition of the Space to be Converted	Recipient of the Direct Help Payment	% of Conversion Contribution Each Recipient Receives

Establishment of Escrow Accounts

To receive a discount under the provisions of Section 15-54 (Direct Help), the owner of an *applicable building* shall establish an escrow account in accordance with the provisions established in this section.

- (a) Such owner shall deposit a sum of money equal to the amount of the direct help payment required under Section 15-541 in an escrow account in a banking institution located in the City of New York. The escrow agent shall be such bank or the owner's attorney. The escrow account shall be established pursuant to an agreement signed by the owner and the escrow agent, which agreement shall be on a form provided by the *Corporation*. Where the commercial or manufacturing tenant is listed in Section 15-581, said escrow agreement shall contain the specific provisions in subsection (i) below; where the commercial or manufacturing tenant is listed in Section 15-582, said escrow agreement shall contain the specific provisions listed in subsection (ii) below:

- (i) The escrow property delivered hereunder shall be held in escrow by (the escrow agent) to be delivered to (the tenant) at such time as the New York City Business Relocation Assistance Corporation, hereinafter called the *Corporation*, has verified that (the tenant) is an *eligible tenant* under the terms of Section 15-50 *et seq.* of the Zoning Resolution of the City of New York. This escrow property shall be paid in full to (the tenant) within 15 days of such verification, unless the *Corporation* has made a determination that (the tenant) has relocated to a smaller space in accordance with the provisions of Section 15-541b of the Zoning Resolution. Where the *Corporation* has determined that (the tenant) has relocated to a smaller space, (the tenant) shall receive payment from the escrow account in an amount equal to that required by Section 15-541b of the Zoning Resolution within 15 days of such verification. The remainder of the escrow property shall be paid to the *Corporation* at the same time. In the event that the *Corporation* issues a statement of non-eligibility under Section 15-544(c) of the Zoning Resolution, this escrow property will be paid to the *Corporation* within 15 days of the issuance of such statement. In the event that these conditions are not met within six months from the earlier to occur of the date (the tenant) vacates space in (address of the building) or the date of the establishment of this escrow account, (the escrow agent) shall pay the escrow property delivered hereunder to the *Corporation* at the expiration of said 6-month period.

Notwithstanding the foregoing, where the *Corporation* notifies (the escrow agent) that (the owner) and (the tenant) have entered into a new lease of the premises at (address of the building) for a term of more than three months, the escrow property delivered hereunder shall be returned to (the owner/escrowor) within 15 days of such notification.

- (ii) The escrow property delivered hereunder shall be held in escrow by (the escrow agent) until such time as the New York City Business Relocation Assistance Corporation, hereinafter called the *Corporation*, has verified that (the tenant) is an *eligible tenant* under the terms of Section 15-50 *et seq.* of the Zoning Resolution of the City of New York. Within 15 days of such verification, (the escrow agent) shall pay 50% of the escrow property hereunder to (the tenant) and 50% of the escrow property to the *Corporation*, unless the *Corporation* has made a determination of relocation to a smaller space in accordance with the provisions of Section 15-541b of the Zoning Resolution. Where the *Corporation* has determined that (the tenant) has relocated to a smaller space, (the tenant) shall receive payment from the escrow account in an amount equal to that required by Section 15-541b of the Zoning Resolu-

tion within 15 days of such verification. The remainder of the escrow property shall be paid to the *Corporation* at the same time. In the event that the *Corporation* issues a statement of non-eligibility under Section 15-544(c) of the Zoning Resolution, this escrow property will be paid to the *Corporation* within 15 days of the issuance of such statement.

In the event that the above conditions are not met within six months from the earlier to occur of the date (the tenant) vacates space in (address of the building) or the date of the establishment of this escrow account, (the escrow agent) shall pay the escrow property delivered hereunder to the *Corporation* at the expiration of said 6-month period.

Notwithstanding the foregoing, where the *Corporation* notifies (the escrow agent) that (the owner) and (the tenant) have entered into a new lease of the premises at (address of the building) for a term of more than three months, the escrow property delivered hereunder shall be returned to the (owner/escrower) within 15 days of such notification.

- (b) All interest which accrues on the escrow account shall be paid to the owner who establishes such escrow account. Any expenses incurred in establishing such account shall be paid by said owner. A copy of all escrow agreements shall be delivered by said owner to the *Corporation*.
- (c) For the purposes of this Section 15-542 only, an owner shall be deemed to include an agent of the owner or a contract vendee.

15-543

Time for Establishment of Escrow Accounts

For the purpose of this section only, an *eligible tenant* shall not be required to have purchased or leased other premises within the City of New York.

Escrow accounts shall be established on the dates provided in this section. However, the escrow account shall not be established more than two months prior to the expiration of the tenant's lease, except by mutual consent of the owner and tenant.

(a) Lease Termination

In the event that an *eligible tenant* has a lease with a term of at least one year, and the owner of an *applicable building* notifies said *eligible tenant* that his tenancy will be terminated on the date said tenant's lease expires, or, if there has been no such notification by the owner and said tenant's lease has not been renewed, such owner shall establish the escrow account at least 30 days prior to the date of termination of tenancy.

(b) Holdover or Short-Term Lease

In the event that an *eligible tenant* has a lease of less than one year, or is a holdover tenant with no lease for the space in the *applicable building*, the owner of the *building* shall establish the escrow account not later than 90 days after said tenant notifies the owner of the date said tenant intends to vacate the premises, or 30 days prior to said tenant's date of termination of tenancy, whichever occurs later.

An owner of an *applicable building* shall notify the *eligible tenant* in writing of the establishment of the escrow account within 5 days of the establishment of such account. Such notice shall include a copy of the escrow agreement.

15-544

Payment of Funds from Escrow Account

- (a) An *eligible tenant* shall receive its share of the direct help payment from the funds held in the escrow account pursuant to the provisions of Section 15-541 within 15 days of the date the *Corporation* verifies that such tenant is an *eligible tenant*.

- (b) If the *eligible tenant* fails to seek verification from the *Corporation* within 6 months after the earlier of the date such tenant vacates space in the *applicable building* or the date of the establishment of the escrow account, the escrow property shall be paid to the *Fund*. Such tenant shall then be ineligible to receive any relocation assistance either in the form of a direct help payment or assistance from the *Corporation*. Notwithstanding the above, where there is a dispute as to payment of the escrow account to be resolved under the provisions of Section 15-545, and the expiration of the above 6-month period has resulted in payment to the *Fund*, such tenant shall remain eligible to receive relocation payment from the *Corporation* in an amount equal to the direct help payment for which such tenant was eligible under Section 15-541.
- (c) In the event that a commercial or manufacturing tenant does not relocate in New York City, or for any other reason is not an *eligible tenant*, the *Corporation* shall issue a statement of non-eligibility. Within 15 days of the issuance of said statement, the *Fund* shall receive payment from the escrow account. The acceptance of the direct help payment by the *Corporation* shall not imply the authorization of the direct help payment credit by the Board of Standards and Appeals. Should such authorization be denied, any funds paid to the *Corporation* under this provision shall be considered part of the *conversion contribution*.

15-545

Disputed Payments from Escrow Account

Any dispute in the computation of the amount of the direct help payment to each recipient in accordance with the provisions of Section 15-541 through 15-543, or as to the eligibility of a commercial or manufacturing tenant for relocation assistance, shall be resolved by the Board of Directors of the *Corporation* within six months.

15-546

Direct Payment to the Corporation

An owner shall make the direct help payment to the *Corporation*, and shall not be required to establish an escrow account, in the following situations:

- (a) where the *floor area* to be converted has been vacant since September 1, 1980;
- (b) where the *floor area* is located in R6, R7, R8, R9, R10, C1, C2 or C4 district, and such *floor area* has been vacant since January 1, 1981;
- (c) where the *floor area* to be converted has been vacant for more than 24 months prior to the filing for the authorization for the direct help payment discount under Section 15-541; or
- (d) where the owner applies to the Board of Standards and Appeals for an authorization for a discount for certain vacated space under Section 15-553.
- (e) where the *floor area* was occupied by a *use* not listed in Section 15-58.
- (f) in Brooklyn Community Districts 1, 2 and 6 and Queens Community Districts 1 and 2 where the *floor area* to be converted has been vacant since April 1, 1984.

The acceptance of the direct help payment by the *Corporation* shall not imply the authorization of the direct help payment credit by the Board of Standards and Appeals. Should such authorization be denied, any funds paid to the *Corporation* under this provision shall be considered part of the *conversion contribution*.

15-55

Additional Discount or Exclusions from Conversion Contributions

A copy of any application under this section shall be sent by the applicant to the Office of Economic Development at the time of filing. The Office of Economic Development may provide additional information to the Board.

If the Board of Standards and Appeals determines that *floor area* was used as *dwelling units* or *Joint Living-Work quarters for artists*:

- (a) in Manhattan Community Districts 1, 2, 3, 4, 5 and 6, on September 1, 1980, the Board shall authorize that such floor area not be included in computing the *conversion contribution*, provided that a complete application for an authorization under this provision was filed with the Board of Standards and Appeals prior to September 1, 1983.
- (b) in Brooklyn Community Districts 1, 2 and 6 and Queens Community Districts 1 and 2, on April 1, 1984, the Board shall authorize that such floor area not be included in computing the *conversion contribution*, provided that a complete application for an authorization under this provision was filed with the Board of Standards and Appeals prior to September 1, 1985.

15-552

Non-industrial Related Uses

The Board of Standards and Appeals shall issue an authorization that *floor area* used for a use not listed in Section 15-58 shall not be included in the computation of the *conversion contribution* provided that:

- (a) the Board determines that *uses* not listed in Section 15-58 occupied at least 50% of the *floor area* of the *building* on September 1, 1980, in Manhattan Community Districts 1, 2, 3, 4, 5 and 6, or on April 1, 1984 in Brooklyn Community Districts 1, 2 and 6 and Queens Community Districts 1 and 2, and
- (b) such *floor area* was not vacant on September 1, 1980, in Manhattan Community Districts 1, 2, 3, 4, 5 and 6, or on April 1, 1984 in Brooklyn Community Districts 1, 2 and 6 and Queens Community Districts 1 and 2.

15-553

Discount for Certain Vacated Space

The Board of Standards and Appeals may authorize a discount from the *conversion contribution* in an amount equal to 50% of the *conversion contribution* where there is substantial evidence to support a finding that a *commercial* or a *manufacturing* tenant engaged in a business listed in Section 15-58 and occupying *floor area* within an *applicable building* for at least 24 months immediately prior to an application under this Section had

- (a) vacated *floor area* in an *applicable building* more than 6 months prior to the expiration of said tenant's lease, and there is no evidence of harassment by the landlord or the landlord's agent; or
- (b) vacated *floor area* in an *applicable building* not earlier than 6 months prior to the expiration of said tenant's lease, and the owner can demonstrate that said tenant was offered a lease renewal or extension at fair market rental not less than 6 months prior to

the expiration of said lease. Such renewal or extension shall have been for a period of at least 3 years unless the landlord notified said tenant in writing that:

- (i) such lease renewal or extension was an interim measure until the conversion of such *floor area*, and
- (ii) at the termination of such interim renewal or extension said tenant would receive a direct help payment in accordance with the provisions of Section 15-54.

Where the Board issues an authorization under this section, the direct help payment shall be made to the *Corporation*.

Exclusion for Certain Vacant Space

Upon proof that *floor area* has been vacant since September 1, 1979, or for a minimum of 5 years, immediately preceding the date of application for an exclusion under this Section, the Board of Standards and Appeals shall issue an authorization that no *conversion contribution* shall be required to be made for such *floor area*.

15-555

Discount for Building Permit Issued Before April 9, 1981

 - (i) such tenant occupied the *floor area* being converted on September 1, 1980, and for not less than 24 months immediately prior to vacating;
 - (ii) such tenant relocated to other premises within the City of New York which such business either purchased, or leased for a term of not less than 24 months, and
 - (iii) such amount was paid to such business within 30 days after said relocation.

15-56

Verification of Relocation Requirements

Within 15 days after a request by a tenant, but in no event prior to the date of relocation, the *Corporation* shall determine whether a commercial or manufacturing tenant is an *eligible tenant* and, in appropriate cases, verify that relocation has occurred. The *Corporation* shall also determine whether there has been relocation to a smaller space under the provisions of Section 15-541b. Notwithstanding the above, a commercial or manufacturing tenant may notify the *Corporation*, prior to relocation, of the date of relocation and the *Corporation* may agree with such tenant to determine whether such tenant is an *eligible tenant* on a specific date subsequent to the relocation.

CITYWIDE

N 840560 ZRY

[Proposed Zoning Text Amendments, Zoning Special Permits, Change in the City Map and an application for a revocable consent to enable construction of a new hospital building and additions and improvements to the existing hospital complex of Presbyterian Hospital, Manhattan.]

PUBLIC HEARING:

IN THE MATTER OF amendments pursuant to Section 200 of the New York City Charter, of the Zoning Resolution of the City of New York relating to Section 79-32, 79-43 and 79-403, as follows: (See attached sheets)

79-30 Parking and Loading Regulations.

79-31 Location of Parking Spaces.

* * *

79-32 Location of Loading Berths

When a *large scale community facility development* includes two or more *zoning lots*, the City Planning Commission may, upon application, authorize permitted required *accessory* loading berths to be located anywhere within the *development* without regard for *zoning lot lines*, provided that in each case the Commission shall make the following special findings:

- a. That such loading berths will be appropriately located in relation to the *use or uses to which such berths are accessory* so as to permit better site planning and will thus benefit the owners, occupants, employees, residents or visitors to the *large scale development* and the City as a whole;
- b. That such loading berths will be accessible to all the *uses* in the *large scale community Development* without the need to cross any *wide street* at grade;
- c. That the location of such loading berths will not unduly affect the movement of pedestrians or vehicles on the *streets* within or surrounding such *development*; and
- d. That the loading berths comply with all other applicable district regulations.

79-403 Special Permit for Development of Bridges Over Streets

in a *large scale community facility development* containing hospitals or functionally related facilities in Manhattan Community Board #12, when the air space above a *wide street* or portion thereof is closed and demapped by the Board of Estimate, the City Planning Commission may, by special permit after public notice and hearing, and subject to Board of Estimate action, allow the development in such demapped air space of an enclosed bridge or bridges to connect *buildings* within the *large scale community facility development*. As a condition for granting a permit for development of such bridges, the Commission shall find:

- a. That such bridge or bridges are essential to internal circulation of the medical function of the health care facility;
- b. That such bridge or bridges shall not rest upon columns or other supports which intrude upon the *street*;
- c. That the width of each such bridge shall not exceed 20 feet;
- d. That such bridge within the demapped air space utilizes only *floor area* derived from the adjoining *zoning lots* and that no *floor area* credit is generated from the demapped air space;
- e. That illumination of at least 5 foot candles is provided at the *curb level* below such bridge or bridges;

- f. That such bridge in demapped air space over a *wide street* adjoins *zoning lots* wholly within the *large scale development*;
- g. That the minimum horizontal distance between the nearest edges of two such bridges traversing the same *street* shall be two times the width of the *street*;
- h. That the maximum exterior height of each such bridge shall not exceed twelve (12) feet;
- i. That the benefit gained from the bridge or bridges resulting from the bulk design or placement of such bridge or bridges outweighs any adverse impact on neighborhood character and any restriction of access to light and air to surrounding public spaces and *streets*, and
- j. A landscaped open area for public use at *street level*, linked with the pedestrian circulation system, which is at least equivalent to the *street* area covered by the bridge is provided in one location within the *large scale development* and such open area is maintained with planting and seating facilities by the owner of the *development* or his designee.

The Commission may prescribe appropriate conditions and safeguards to minimize the effect of the bridges including but not limited to clearance above the *street* and surfacing materials of the bridge.

79-43

Special Permit for Limited Bulk Modifications for Certain Large Scale Community Facility Developments

For *large scale community facilities* located within the boundaries of Community Boards #8 and #12 in the Borough of Manhattan, that contain *community facility uses* specified in Section 73-64 (Modification for Community Facility Uses), the City Planning Commission may, by special permit after public notice and hearing, and subject to Board of Estimate action, permit modification of regulations relating to height and setback on the periphery of the *development*, *courts* and distance between windows and walls or *lot lines*, not otherwise allowed in Section 79-21 (General Provisions). As a condition for such modification for the Commission shall find that such modification:

- a. is required in order to enable the *large scale community facility* to provide an essential service to the community;
- b. will provide a more satisfactory physical relationship to the existing *buildings* which form the *large-scale community facility*, and provide a more efficient and integrated site plan;
- c. will better complement the existing character of the neighborhood;
- d. will not unduly increase the bulk of buildings in any *block*, to the detriment of the occupants or users of *buildings* in the *block* or nearby *blocks*; and
- e. will not adversely affect any other *zoning lots* or *streets* outside the *development* by unduly restricting access to light and air.
