APPLICABILITY OF DENSITY REGULATIONS TO MIXED BUILDINGS**

C1 C2 C3 C4 C5 C6

In the districts indicated, the maximum number of #dwelling units# or #rooming units# on a #zoning lot# containing a #mixed building# shall equal the maximum #residential floor area# permitted for the #zoning lot# determined in accordance with the provisions set forth in Section 35-30 (APPLICATION OF FLOOR AREA AND OPEN SPACE REGULATIONS TO MIXED BUILDINGS) divided by the applicable factor in Section 23-20 (DENSITY REGULATIONS).

Illustrative Examples

The following examples, although not part of the Zoning Resolution, are included to demonstrate the application of density regulations to mixed buildings.

For a #mixed building# in a #predominantly built-up area# of a C1 District mapped within an R5 District, the maximum permitted #commercial# FAR is 1.0, the maximum permitted #community facility# FAR is 2.0 and the maximum permitted #residential# FAR is 1.65, provided the total FAR for all #uses# on the #zoning lot# does not exceed 2.0, pursuant to Section 35-30. On a 10,000 square foot #zoning lot developed# with 1.0 FAR of #commercial use# and .2 FAR of #community facility use#, the maximum #residential floor area ratio# permitted for such #mixed building# is .8. The maximum number of #dwelling units# permitted on the #zoning lot# is 9 (10,000 x .8 divided by a factor of 900, pursuant to Section 23-22).

For a #mixed building# where the #residential# portion is #developed# pursuant to the optional Quality Housing Program on a #wide street# in a C2 District mapped within an R7-1 District outside the #Manhattan Core#, the maximum permitted #commercial# FAR is 2.0, the maximum permitted #community facility# FAR is 4.8 (or 1.0 if the total FAR on the #zoning lot# exceeds 3.5), and the maximum permitted #residential# FAR is 4.0, provided the total FAR for all #uses# on the #zoning lot# does not exceed 4.8, pursuant to Section 35-30. On a 15,000 square foot #zoning lot developed# with 1.0 FAR of #commercial use# and 1.0 FAR of #community facility use#, the maximum #residential floor area ratio# permitted for such #mixed building# is 2.8. The maximum number of #dwelling units# permitted on the #zoning lot# is 62 (15,000 x 2.8 divided by a factor of 680, pursuant to Section 23-22).

For a #mixed building# in a C4-6 District #developed# with a n #urban public plaza# where less than 50 percent of the #floor area# on the #zoning lot# is occupied by #residential uses#, the maximum permitted #commercial#

FAR is 4.08 (3.4 plus a 20 percent increase for a ~~n #urban public plaza#~~), the maximum permitted ~~#community facility#~~ FAR is 12.0 (10.0 plus a 20 percent increase for a ~~n #urban public plaza#~~), and the maximum permitted ~~#residential#~~ FAR is 10.0, provided the total FAR for all ~~#uses#~~ on the ~~#zoning lot#~~ does not exceed 12.0, pursuant to Section 35-30. On a 20,000 square foot ~~#zoning lot developed#~~ with 7.0 FAR of ~~#community facility use#~~ and no ~~#commercial use#~~, the maximum ~~#residential floor area ratio#~~ permitted on such ~~#zoning lot#~~ is 5.0. The maximum number of ~~#dwelling units#~~ permitted on the ~~#zoning lot#~~ is 126 (20,000 x 5 divided by a factor of 790, pursuant to Section 23-22).

37-014 37-34

Modifications to applicability of Article II, Chapter 6

In C1-8, C1-9, C2-7, C2-8, C4-6, C5-1, C5-2, C5-4, C6-3, C6-4, C6-5 and C6-8 Districts, or C1 or C2 Districts mapped within R9 or R10 Districts, the regulations of Article II, Chapter 6, applicable to #residential developments# or #developments# occupied by a

~~37-015~~ 37-35
Retail e Continuity

When the front building wall of a ~~#development#~~ is at least 50 feet in length and fronts upon a ~~#wide street#~~, a minimum of 50 percent of such front building wall shall be occupied by ~~#commercial uses#~~, as permitted by district regulations.

In C1-8, C1-9, C2-7, C2-8, C4-6 Districts and C1 or C2 Districts mapped within R9 or R10 Districts, ~~#uses#~~ which occupy such 50 percent of the front building wall shall be limited to those listed in Use Groups 6A, 6C and 6F, excluding banks and loan offices, except that in C4-6 Districts only, such ~~#uses#~~ may additionally include those listed in Use Groups 8A, 8B and 10A. All ~~#uses#~~ permitted by the underlying district regulations are permitted in the remaining 50 percent of the front building wall.

Such requirement of ~~#commercial uses#~~ for a minimum of 50 percent of the front building wall of a ~~#development#~~ may be waived, or additional ~~#uses#~~ permitted, upon certification by the City Planning Commission to the Commissioner of Buildings that either an adequate supply of such ~~#uses#~~ already exists at the ground floor level in the surrounding area.

The Commission may require that an application for such certification of additional ~~#uses#~~ for a completed ~~#building#~~, where ~~#floor area#~~ has been designated for occupancy for such ~~#commercial uses#~~, establish that a good faith effort has been made to secure tenancy by such ~~#uses#~~.

~~37-016~~ 37-36
Sign ~~r~~ Regulations

In addition to the applicable district regulations in C1-8, C1-9, C2-7, C2-8 and C4-6 Districts and C1 or C2 Districts mapped within R9 or R10 Districts, all ~~#signs#~~, other than ~~#advertising signs#~~ and window ~~#signs#~~, shall be located in a horizontal band not higher than three feet, the base of which is located not higher than 17 feet above ~~#curb level#~~. Where there is a grade change of at least 1.5 feet in 100 along the portion of the ~~#street#~~ upon which the ~~#development#~~ fronts, such signage band may be staggered along such ~~#street#~~.

When an existing ~~#development#~~ on a ~~#contiguous lot#~~ or ~~#contiguous block#~~ contains ~~#accessory business signs#~~ within a coordinated horizontal band along its ~~#street#~~ frontage, the signage strip along the new ~~#development#~~ shall be located at the same

elevation as the adjacent band, but in no event higher than 17 feet above #curb level#. Where coordinated horizontal bands exist on two #contiguous lots# or #contiguous blocks# on both sides of the #development#, the signage strip shall be located at the same elevation as one adjacent band, or between the elevations of the two. For the purpose of this Section, the elevation is measured from the #curb level# to the base of the signage strip.

The City Planning Commission may, by certification to the Commissioner of Buildings, allow modifications of the requirements of this Section. Such modifications will be permitted when the Commission finds that such modifications will enhance the design quality of the #street wall#.

Street ~~w~~ Wall ~~a~~ Articulation**

When any building wall of a #development# which is 5 feet or more in height adjoins a sidewalk, a #residential public plaza# or an #arcade#, at least 50 percent of the total surface area of such wall between #curb level# and 12 feet above #curb level# or to the ceiling of the ground floor, whichever is higher, or to the full height of the wall if such wall is less than 12 feet in height, shall be transparent. The lowest point at any point of any transparency that is provided to satisfy the requirements of this Section shall not be higher than four feet above the #curb level#.

Door or window openings within such walls shall be considered as transparent. Such openings shall have a minimum width of two feet.

In addition, any portion of such building wall, 50 feet or more in length, which contains no transparent element between #curb level# and 12 feet above #curb level# or the ceiling of the ground floor, whichever is higher, or to its full height if such wall is less than 12 feet in height, shall be covered with ivy or similar planting or contain artwork or be treated so as to provide visual relief. OFF STREET RELOCATION OR RENOVATION OF A SUBWAY STAIR

Where a #development# or #enlargement# is constructed on a #zoning lot# of 5,000 square feet or more of #lot area# that fronts on a portion of a sidewalk containing a stairway entrance or entrances into a subway station located within the #Special Midtown District# as listed in Section 81-46, the #Special Lower Manhattan District# as listed in Section 91-43, the #Special Downtown Brooklyn District# as listed in Section 101-44, the #Special Union Square District# as listed in Section 118-60 and those stations listed in the following table, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. Standards for Location, design and hours of public accessibility

In addition to the standards set forth in the current station planning guidelines as issued by New York City Transit, the following standards shall also apply:

(a) Location

The relocated or renovated entrance shall be immediately adjacent to, and accessible without any obstruction from, a public sidewalk or pedestrian circulation space as defined in Section ~~37-07~~ 37-50. Any such pedestrian

circulation space shall have a minimum horizontal dimension equal to the width of the relocated stairs or the minimum width of the pedestrian circulation space, whichever is greater.

The relocated or renovated entrance may be provided within a #building# but shall not be enclosed by any doors. The area occupied by a relocated or renovated entrance within a #building# shall not be counted toward the #floor area# of the #enlargement# or #development#.

(b) Design standards

The relocated or renovated entrance shall have a stair width of at least eight feet for each run.

Where two or more existing stairway entrances are being relocated or renovated as part of the same #development# or #enlargement#, the new entrance or entrances shall have total stair widths equal to or greater than the sum of the stair widths of those existing stairway entrances, but in no case may any stair be less than eight feet in width.

The relocated entrance may be relocated within a ~~n #urban public plaza#~~, provided that the minimum width of each stair is ten feet and the queuing area of the relocated entrance is unobstructed and contiguous to a sidewalk or a #sidewalk widening#. A relocated entrance within a ~~n #urban public plaza#~~ is a permitted obstruction, but shall not be subject to the percentage limit on permitted obstructions for a ~~n #urban public plaza#~~.

For a relocated entrance only, the entrance shall have a queuing space at the top and bottom of the stairs that is at least eight feet wide and 15 feet long. Such queuing space may overlap with a ~~n #urban public plaza#~~ or an #arcade# in accordance with the provisions of Sections ~~27-60 37-80~~ (ARCADES) or ~~37-073 37-53~~ (Design standards for pedestrian circulation spaces).

No stairway shall have more than 14 risers without a landing, and each landing shall have a minimum width equal to the width of the stairs, and a minimum length of five feet.

Throughout the entire stairway entrance, including passageways, the minimum clear, unobstructed height shall be at least 7 feet, 6 inches from finished floor to finished ceiling, including all lighting fixtures and #signs#.

The entire entrance area, including passageways, shall be free of obstructions of any kind, except for projecting information signage.

The relocated entrance shall connect to an existing or proposed subway passageway, or shall connect, via an underground passageway, to a mezzanine area of the subway station.

The below-grade portion of a relocated entrance may be constructed within the #street#.

(c) Hours of public accessibility

The relocated or renovated entrance shall be accessible to the public during the hours when the connected mezzanine area is open to the public or as otherwise approved by New York City Transit.

~~37-032~~ 37-42

Administrative procedure for a subway stair relocation or renovation

For any #development# or #enlargement# that is subject to the requirements for the relocation of a subway stair entrance or counts a renovated subway stair as pedestrian circulation space in accordance with the provisions of Section ~~37-07~~ 37-50 (~~Requirements for Pedestrian Circulation Space~~ REQUIREMENTS FOR PEDESTRIAN CIRCULATION SPACE), no plan shall be approved by the Department of Buildings and no excavation permit or building permit shall be issued, unless the following criteria are met:

- (a) for a relocated entrance, such plan includes a stair relocation plan and related documents that bind the developer to:
 - (1) construct the new stair entrance in accordance with such plan;
 - (2) demolish above-ground elements of the existing entrance;
 - (3) seal the existing entrance at the sidewalk level; and
 - (4) maintain the work performed on the relocated or renovated entrance; or
- (b) for a renovated entrance, such plan includes a renovation plan and related documents that bind the developer to:
 - (1) renovate the entrance in accordance with such plan; and
 - (2) maintain the work performed on the renovated entrance; and
- (c) such plan and related documents bear New York City Transit's approval; and
- (d) such plan is accompanied by a certified copy of an agreement, as recorded between New York City Transit and the owner for an easement on the #zoning lot# for subway-related use of the new stair entrance and for public access via

such entrance to the subway station, which agreement has been recorded against the #zoning lot# in the Office of the Register of the City of New York and is accompanied by the Register's receipt of recordation; and

- (e) no permanent certificate of occupancy shall be issued for any #development# or #enlargement# subject to the subway stair relocation requirement or counting a renovated subway stair as pedestrian circulation space in accordance with the provisions of Section ~~37-07~~ 37-50, unless and until all of the work required under paragraphs (a) or (b) of this Section has been completed and New York City Transit has so certified in writing to the Department of Buildings.

~~37-033~~ 37-43

Modification of requirements for a relocated or renovated subway stair

The Chairperson of the City Planning Commission may, by certification to the Commissioner of Buildings, allow modifications of the requirements of Sections ~~37-01~~ 37-30 (~~Special Urban Design Guidelines — Streetscape~~ STREETSCAPE), ~~37-02~~ (~~Applicability of Article II, Chapter 7, to Residential Plazas and Arcades~~), and ~~37-031~~ 37-41 (Standards for location, design and hours of public accessibility) or ~~37-04~~ 37-70 (~~Requirements for Urban Plazas~~ PUBLIC PLAZAS) if the relocated subway stair cannot be accommodated without modification to these provisions.

~~37-034~~ 37-44

Waiver of requirements

The provisions of Section ~~37-03~~ 37-40 (~~Off Street Relocation or Renovation of a Subway Stair~~ OFF STREET RELOCATION OR RENOVATION OF A SUBWAY STAIR) may be waived by joint certification of New York City Transit and the Chairperson of the City Planning Commission that major construction problems or operating design considerations render the stair relocation infeasible. In such event, the stair relocation requirement may be satisfied by retention of the existing stair and the provision on the #zoning lot# of an open area, qualifying under the provisions of Section ~~37-07~~ 37-50 (~~Requirements for Pedestrian Circulation Space~~ REQUIREMENTS FOR PEDESTRIAN CIRCULATION SPACE), that accommodates pedestrian traffic passing the existing stair entrance.

Such filing and recording of the instrument shall be a precondition for the placement of the kiosk or open air café within the #plaza# or #plaza# connected open area. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.~~

~~The Commission shall furnish a copy of the application for certification to the affected Community Board and the local Council Member at the earliest possible stage and will give due consideration to their opinions as to the appropriateness of such a facility in the area. The Commission shall respond to such request for certification within 60 days of receipt of a complete application. Such certification shall be effective for a period of three years but, upon application, may be renewed for a similar period by the City Planning Commission.~~

- ~~(b) — the layout and design of the public open areas will promote public use and free and easy pedestrian circulation throughout the space;~~
- ~~(c) — the enclosure or barrier that limits public access shall:

 - ~~(1) — be of a design that is integrated with the design of the public open areas in a manner that would promote the attractiveness of the space for public use and enjoyment;~~
 - ~~(2) — be either removable or designed to be unobtrusive during the hours of public access;~~
 - ~~(3) — not inhibit or diminish access to the public open area nor impede pedestrian circulation into, through, or along the frontage of the public open area, and not obstruct access during the hours of public access; and~~
 - ~~(4) — not obstruct visual access to any portion of the public open areas;~~~~

Any existing open area for which a #floor area# bonus has not been utilized that occupies the same #zoning lot# as an existing #plaza#, #residential plaza# or #urban plaza#, for which a #floor area# bonus has been utilized, may be reduced in size or eliminated only upon certification of the Chairperson of the City Planning Commission that all bonused amenities comply with the standards under which such #floor area# bonus was granted.

37-622
Elimination or reduction in size of bonused open area

No existing #plaza#, #residential plaza# or #urban plaza# shall be eliminated or reduced in size except by special permit of the City Planning Commission, pursuant to Section 74-763 (Elimination or reduction in size of bonused public amenities).

37-623
Nighttime Closings

The City Planning Commission may, upon application, authorize the closing during certain nighttime hours of an existing #plaza#, #residential plaza# or #urban plaza# for which a #floor area# bonus has been received, pursuant to Section 37-727 (Hours of Access).

37-624
Kiosks and Open Air Cafes

Kiosks and open air cafes may be placed within an existing #plaza#, #residential plaza# or #urban plaza# upon certification by the Chairperson of the City Planning Commission pursuant to Section 37-73 (Kiosks and Open Air Cafes).

37-625

Design Changes

Design changes to existing #plazas#, #residential plazas# or #urban plazas# may be made only upon certification by the Chairperson of the City Planning Commission that such changes would result in a #plaza#, #residential plaza# or #urban plaza# that is in greater accordance with the standards set forth in Section 37-70 (PUBLIC PLAZAS).

37-70

PUBLIC PLAZAS

#Public plazas# are open areas on a #zoning lot# intended for public use and enjoyment. The standards contained within Sections 37-70 through 37-78, inclusive, are intended to serve the following specific purposes:

- (a) to serve a variety of users of the #public plaza# area;
- (b) to provide spaces for solitary users while at the same time providing opportunities for social interaction for small groups;
- (c) to provide safe spaces, with maximum visibility from the street and adjacent buildings and with multiple avenues for ingress and egress.

All #public plazas# shall comply with the provisions of Section 37-70 through 37-78, inclusive. These provisions may be modified pursuant to Section 74-91 (Modification of Public Plazas).

37-71

Basic Design Criteria

37-711

Definitions

Corner #public plaza#

A #public plaza# that is located on an intersection of two or more #streets#.

Through #block public plaza#

A #public plaza# or portion of a #public plaza# that is not a corner #public plaza# and that connects two #streets# that are parallel or within 45 degrees of being parallel to each other.

37-712**Area dimensions**

A #public plaza# shall contain an area of not less than 2,000 square feet. In no case shall spaces between existing #buildings# remaining on the #zoning lot# qualify as #public plazas#. In addition, in order to preserve the provisions relating to the boundaries, proportions and obstructions of #public plazas#, on any one #zoning lot#, an open area which does not qualify for bonus #floor area# may not be located between two #public plazas#, or between a #public plaza# and a #building# wall or #arcade# of the #development#.

Any non-bonused open area located adjacent to a #public plaza# must either:

- (a) be separated from the #public plaza# by a buffer, such as a wall, decorative fence, or opaque plantings at least 6 feet in height; or
- (b) meet all requirements for minor portions of #public plazas# related to size, configuration, orientation, as specified in Section 37-716.

37-713**Locational restrictions**

No #public plaza#, or portion thereof, shall be located within 175 feet of an existing #publicly accessible open area# or #public park#. The distance of 175 feet shall be measured along the #street# on which the existing amenity fronts. However, such location restriction may be waived if the #public plaza# is located directly across the #street# from the existing #publicly accessible open area# or #public park# and if the Chair finds that the location of the #public plaza# at such location would create or contribute to a pedestrian circulation network connecting the two or more open areas.

37-714**Restrictions on orientation**

For purposes of the orientation requirements, a "north-facing," "south-facing," "east-facing" or "west-facing" #street line# means a #street line# facing within 45 degrees of the direction indicated. To front on a #street#" means to be contiguous to the #street line# or to a sidewalk widening along the #street line#.

- (1) Where the major portion of a #public plaza# fronts on only one #street line#, such major portion is not permitted to front on a north-facing #street line# of a #zoning lot#.
- (2) No major portion of a #public plaza# shall only front on a west-facing #street line# or an east-facing #street line# if the #zoning lot# also has frontage that is 40 feet or more in length on a south-facing #street line#.

- (3) A corner #public plaza# must have its major portion, as defined in Section 37-715(b), front on the south-facing #street line#. In the case of a #zoning lot# having frontage on a south-facing #street line# of less than 40 feet, or having its frontage at the intersection of a north-facing #street line# with either an east- or west-facing #street line#, the major portion must front on the east- or west-facing #street line#.

However, the orientation restrictions may be modified if the Chair finds that the orientation regulations would conflict with mandatory #streetwall# regulations or that the modifications would result in better access to light and air for the #public plaza#.

37-715
Requirements for major portions of public plazas

The major portion of a #public plaza# is the largest area of the #public plaza# and the area of primary use. Major portions shall be generally regular in shape, easily and directly accessible from adjoining #buildings# and public spaces, and continuously visible from within all portions of the #public plaza# and from adjoining public spaces. Major portions shall occupy no less than 75% of the total #public plaza# area.

- (a) All contiguous #public plaza# areas on a #zoning lot# shall be considered as one #public plaza#.
- (b) The shape and dimensions of a #public plaza# shall be such that all points within the major portion shall be visible when viewed perpendicular from each adjacent #street#. Corner #public plazas# that front on two #streets# that do not meet at a 90 degree angle must be fully visible when viewed perpendicular from one adjoining #street# and at least 50% of the #public plaza# must be visible when viewed perpendicular to the other adjoining #street#. For the purposes of this regulation, points that when viewed in plan may be joined by a straight line shall be considered visible one from the other; visibility between points shall not be affected by permitted obstructions or by changes of grade. Points within #public plazas# that front on three intersecting streets shall be treated as two corner #public plazas#.

The major portion of a #public plaza# shall be at least 75 percent of the #public plaza's# total area, except that in the case of a through #block public plaza# as defined in Section 37-717, a line drawn within 25 feet of the midblock line shall divide the through #block public plaza# into two areas that must separately meet all requirements of the #public plaza# regulations. The major portion of the #public plaza# shall be subject to the proportional requirements set forth in paragraphs (c) and (d) of this Section.

- (c) The major portion of a #public plaza# shall have a minimum average width and depth of 40 feet. For #public plazas# that front on only one #street#, no more than 20% of the #public plaza# area may have a width of less than 40 feet.

Dimensions shall be measured parallel and perpendicular to the #street line# on which the #public plaza# fronts.

- (d) For major portions of #public plazas#, the maximum width measured parallel to any one #street# shall not be greater than three times the average depth of the #public plaza# measured perpendicular to the #street line# or the average width measured parallel to any one #street# shall not be greater than three times the maximum depth of the #public plaza# measured perpendicular to the #street line#.

37-716

Requirements for minor portions of public plazas

Minor portions of #public plazas# are secondary areas that allow for additional flexibility in the shape and configuration of a #public plaza#. Minor portions shall not occupy more than 25% of the total area of the #public plaza#. The width of a minor portion shall be measured parallel to the line separating the major and minor portions. The depth of a minor portion shall be measured perpendicular to the line separating the major and minor portions. The provisions of Sections 37-715 shall not apply to such minor portions and the following regulations shall apply:

- (a) The minor portion shall have a minimum average width and depth of 15 feet.
- (b) The minor portion must be directly adjacent to the major portion.
- (c) All points within the minor portion must be visible from within the major portion when viewed perpendicular to the line separating the major and minor portions
- (d) The minor portion must front directly on the same #street# as the major portion unless _____ the _____ minor _____ portion _____ has:
- (1) a width to depth ratio of at least 3:1; and
- (2) its longest dimension contiguous with the major portion.

37-717

Regulations for through block public plazas

Through block #public plazas# shall be treated as two #public plazas# separated at a line drawn within 25 feet of the midblock line.

Where any #building# wall or walls adjoin a through #block public plaza# or through #block# portion of a #public plaza# and where such wall or walls exceed 120 feet aggregate length, a minimum 10 foot setback at a height between 60 and 90 feet is required for the full length of the building wall.

Through #block public plazas# shall contain a circulation path at least 10 feet in width, connecting the two #streets# on which the #public plaza# fronts, as specified in Section 37-723.

37-718
Paving

The paving of the #public plaza# shall be of non-skid durable materials that are decorative and compatible in color and pattern with other design features of the #public plaza#.

37-720
Access and Circulation

37-721
Sidewalk frontage

To facilitate access to an #public plaza#, the area within 15 feet of a #street line# or sidewalk widening, along at least 50 percent of each aggregate #street# frontage of the major and minor portions shall be free of obstructions to public access to the #public plaza# from the adjacent sidewalk or sidewalk widening, except for those listed below. For corner #public plazas#, the area within 15 feet of the intersection of any two or more #streets# on which the #public plaza# fronts shall be at the same elevation as the adjoining public sidewalk and shall be free of obstructions, except for those listed below. Trees planted flush to grade, light stanchions, public space signage, trash receptacles, and railings for steps shall be considered permitted obstructions within the sidewalk frontage. Only areas with at least five feet of clear, unobstructed area when measured parallel to the street line shall be considered to be free of obstructions. For the remaining 50 percent of the frontage and within 15 feet of the #street line#, no walls or other obstructions, except for permitted obstructions described above and fixed and moveable seating and tables, shall be higher than 2 feet above the #curb level# of the #street line# in front of the #public plaza#.

37-722
Level of Plaza

The level of a #public plaza#, inclusive of major and minor portions, shall not at any point be less than the average elevation of #curb level# of the nearest adjoining #street# nor more than two feet above the average #curb level# of the nearest adjoining #street# in front of the major and minor portions of the #public plaza#. However, a #public plaza# with an area of 10,000 square feet or more may additionally have a maximum of 20 percent of its area at an elevation more than two feet above, but not more than four feet above #curb level# of the nearest adjoining #street# in front of the major and minor portions of the #public plaza#, provided that such higher portion may not be located within 25 feet of any #street line#. #Public plazas# that front on #streets# with slopes greater than 2.5% along the frontage of the #public plaza# may not at any point be more than one foot below the #curb level# of the adjoining #street#.

37-723**Circulation paths**

Circulation paths within #public plazas# shall provide for unobstructed pedestrian circulation throughout the minor and major portions of the #public plaza# and shall, at a minimum, connect all #streets# on which the #public plaza# fronts and all major elements of the #public plaza#, including seating areas, building entrances, approved open air cafes and kiosks, and significant design features of the #public plaza#. A minimum of one such circulation path shall be provided of at least 8 feet clear width. Circulation paths shall extend to at least 80 percent of the depth of the major portion of the #public plaza#, measured perpendicular from each #street line#. Through #block public plazas# shall provide at least one circulation path with a minimum width of 10 feet connecting each #street# on which the #public plaza# fronts. Trees planted flush to grade, light stanchions, trash receptacles, and public space signage shall be considered permitted obstructions within circulation paths, however all such trees located within circulation paths must comply with the regulations for flush-to-grade trees in Section 37-752.

37-724**Subway entrances**

Where an entry to a subway station exists in the sidewalk area of a #street# on which a #public plaza# fronts and such entry is not replaced within the #public plaza# itself, the #public plaza# shall be #developed# at the same elevation as the adjacent sidewalk for a distance of at least 15 feet in all directions from the entry superstructure. Such #public plaza# area around a subway entry shall be free of all obstructions and may count towards the required clear area requirements as specified in Section 37-721 (Sidewalk frontage).

37-725**Steps**

Any steps provided within the #public plaza# must have a minimum height of four inches and a maximum height of six inches. Steps must have a minimum tread of 17 inches, however steps with a height of five inches may have a minimum tread of 15 inches.

37-726**Permitted obstructions**

- (a) #Public plazas# shall be open to the sky and unobstructed except for the following features, equipment and appurtenances normally found in #public parks# and playgrounds: water features, including fountains, reflecting pools, and waterfalls sculptures and other works of art; seating, including benches, seats, and moveable chairs; trees, planters, planting beds, lawns, and other landscape features; arbors or trellises; litter receptacles; bicycle racks; tables and other outdoor furniture; lights and lighting stanchions; public telephones; public restrooms; permitted temporary exhibitions; permitted awnings, canopies, or

marquees; permitted freestanding signs; play equipment; permitted kiosks and open-air cafes; stages; subway station entrances, which may include escalators; and drinking fountains.

However, an area occupied in aggregate by such permitted obstruction shall not exceed the maximum percentage cited in paragraph (b) of this Section. In addition, certain of the obstructions listed above shall not be permitted within the sidewalk frontage of a #public plaza#, as described in Section 37-721 (Sidewalk frontage).

- (b) Permitted obstructions may occupy a maximum percentage of the area of a #public plaza#, as follows:

For #public plazas# less than 10,000 square feet in area: 40 percent

For #public plazas# less than 10,000 square feet in area with a permitted open-air cafe: 50 percent

For #public plazas# 10,000 square feet or more in area: 50 percent

For #public plazas# 10,000 square feet or more in area with a permitted open-air café: 60 percent

The area of permitted obstructions shall be measured by outside dimensions. Obstructions that are non-permanent or movable, such as movable chairs, open air cafes, or temporary exhibitions shall be confined within gross areas designated on the site plan, and not measured as individual pieces of furniture.

Trees planted flush-to-grade in accordance with the provisions of Section 37-752 (Planting and trees) and tree canopies do not count as obstructions for the purpose of calculating total area occupied by permitted obstructions. Planting beds and their retaining walls for trees count as obstructions, except that lawn, turf, or grass areas intended for public access and seating shall not count as obstructions provided such lawns do not differ in elevation from the adjoining #public plaza# elevation by more than 6 inches.

- (c) Canopies, awnings, and marquees

Entrances to #buildings# located within a #public plaza# may have a maximum of one canopy, awning or marquee provided that it has a maximum area of 250 square feet, does not project into the #public plaza# more than 15 feet when measured perpendicular to the building façade, is located a minimum of 15 feet above the level of the #public plaza# adjacent to the building entrance, and does not contain vertical supports. Such canopies, awnings, and marquees shall be designed to provide maximum visibility into the #public plaza# from adjoining streets and the adjacent building.

However, canopies, awnings, and marquees associated with entrances to residential buildings located within a public plaza may project more than 15 feet into the public plaza and contain vertical supports if they are located entirely within 10 feet of the edge of the public plaza.

- (d) Prohibition of garage entrances, driveways, parking spaces, loading berths, exhaust vents, mechanical equipment, and building trash storage facilities

No garage entrances, driveways, parking spaces, passenger drop offs or loading berths shall be permitted within a public plaza. No building trash storage facilities are permitted within an public plaza, nor shall any building trash storage facility be accessed or serviced through the public plaza. If garage entrances, parking spaces, passenger drop-offs, driveways, loading berths or building trash storage facilities are located near or adjoin a public plaza, they shall be separated from it by a barrier sufficient to substantially conceal these facilities and any vehicles therein when viewed from any point in the public plaza.

No exhaust vents or mechanical equipment are permitted on any public plaza or on the building wall of the development fronting upon the public plaza, except that exhaust vents on the building wall that are more than 15 feet above the level of the adjacent public plaza shall be permitted. All exhaust vents and mechanical equipment located adjacent to a public plaza shall be separated from it by a barrier sufficient to substantially visually and audibly conceal their presence and operation. Air intake vents or shafts shall be permitted within a public plaza provided that such vents are concealed from public view by planting or other design features and that such vents do not impair visibility within the public plaza area.

37-727

Hours of Access

All public plazas shall be accessible to the public at all times, except where the City Planning Commission has authorized a nighttime closing pursuant to the provisions of this section.

In all districts, the City Planning Commission may authorize the closing during certain nighttime hours of an existing or new publicly accessible open area if the Commission finds that:

- (a) such existing publicly accessible open area has been open to the public a minimum of one year or there are significant operational or safety issues documented, or for new public plazas significant safety issues have been documented and provided as part of the application for authorization of nighttime closing;

- (b) such closing is necessary for public safety within the #publicly accessible open area# and maintenance of the public open areas as documented by the applicant;
- (c) the layout and design of the #publicly accessible open area# will promote public use and free and easy pedestrian circulation throughout the space;
- (d) any approved design element that limits public access, as specified below, shall not impede public circulation, visual or physical access within the #publicly accessible open area# or between the #publicly accessible open area# and other public areas during hours of public operation;
- (e) the design element that limits public access shall:
 - (1) be of a design that is integrated with the design of the #publicly accessible open area# in a manner that would promote the attractiveness of the space for public use and enjoyment;
 - (2) not exceed 5 feet in height;
 - (3) be fully removed from the #publicly accessible open area# during the hours of public access, however barriers not to exceed 3 feet 6 inches in height may have posts or supports that remain during the hours of public access provided that such posts or supports do not exceed six inches in width;
 - (4) not involve stanchions or cabinets for barrier storage located with the #publicly accessible open area#, except for stanchions or cabinets located at the edges of the #publicly accessible open area#;
 - (5) not inhibit or diminish access to the #publicly accessible open area# nor impede pedestrian circulation into, through, or along the frontage of the #publicly accessible open area#, and not obstruct access during the hours of public access; and
 - (6) be substantially transparent;
- (f) public access to the #publicly accessible open area# between the hours of 7:00 a.m. and 10:00 p.m. from April 15 to October 31 and from 7:00 a.m. to 8:00 p.m. from November 1 to April 14, or a schedule specified by the Commission, is assured by appropriate legal documents and that an hours of access plaque shall be affixed to the enclosure or barrier which shall indicate the hours of public access to the #publicly accessible open area#, as specified in Section 37-751(c). However, if an open-air café or kiosk is located within the #publicly accessible open area#, such #publicly accessible open area# shall remain open to the public during the hours of operation of the open air café or kiosk;

- (g) plans have been submitted that demonstrate that, where appropriate, the #publicly accessible open area# will be improved, to the maximum extent feasible, in accordance with the standards set forth for #public plazas#;
- (h) a program for continuing maintenance of the #publicly accessible open area# has been established in accordance with Section 37-77;

In order to promote increased public use of the public open areas, the Commission may require, or the applicant may request, additional improvements to the existing #publicly accessible open area#, including, where appropriate, amenities such as kiosks or open air cafes as described in Section 37-73 (Kiosks and open air cafés). In no event shall any #publicly accessible open area# be reduced in size.

All applications for nighttime closings of #publicly accessible open area# filed with the Commission shall include a detailed site plan or plans indicating compliance with the provisions of this Section, including but not limited to materials, dimensions, and configuration or any design element that limits public access, the storage location for the design element that limits public access during the hours of public operation of the #public plaza#, and the hours of the #publicly accessible open area's# accessibility to the public. All such plans for #publicly accessible open area#, once authorized, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the authorization pursuant to this Section. The form and contents of the legal instrument shall be satisfactory to the Commission, and the filing and recording of such instrument shall be a precondition for the nighttime closing of any #publicly accessible open area#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

The land use application for an authorization under this Section shall be sent to the applicable Community Board, local Council Member and Borough President. If the Community Board, local Council Member or Borough President elects to comment on such application, it must be done within 45 days of receipt of such application.

The Commission shall file any such authorization with the City Council. The Council within 20 days of such filing, may resolve by majority vote to review such authorization. If the Council so resolves, within 50 days of the filing of the Commission's authorization, the Council shall hold a public hearing and may approve or disapprove such authorization. If, within the time periods provided for in this Section, the Council fails to act on the Commission's authorization, the Council shall be deemed to have approved such authorization.

37-728

Standards of accessibility for persons with disabilities

All #public plazas# shall conform with applicable laws pertaining to access for persons with disabilities regardless of whether the #building# associated with the #public plaza# is existing or is a new #development#.

37-73

Kiosks and Open Air Cafes

Kiosks and open air cafes may be placed within a #publicly accessible open area# upon certification, pursuant to this Section. Such features shall be treated as permitted obstructions. Only #uses# permitted by the applicable district regulations may occupy #publicly accessible open areas# or front on #publicly accessible open areas#.

(a) Kiosks

Where a kiosk is provided, it shall be a one-story temporary or permanent structure that is substantially open and transparent as approved by the Department of Buildings in conformance with the Building Code. Kiosks, including roofed areas, shall not occupy an area in excess of 100 square feet per kiosk. One kiosk is permitted for every 5,000 square feet of #publicly accessible open area#, exclusive of areas occupied by other approved kiosks or open air cafes. Kiosk placement shall not impede or be located within any pedestrian circulation path. Any area occupied by a kiosk shall be excluded from the definition of #floor area#. Kiosks may be occupied only by #uses# permitted by the applicable district regulations such as news, book, or magazine stands, food or drink service, flower stands, information booths, or other activities that promote the public use and enjoyment of the #publicly accessible open area#. Any kitchen equipment shall be stored entirely within the kiosk.

Kiosks must be in operation and provide service a minimum of 225 days per year. However, kiosks may operate for fewer days if they are completely removed from the #publicly accessible open area# when not in operation and if the area previously occupied by the kiosk is returned to public use and such area is in compliance with the #public plaza# design standards.

Notwithstanding the provisions of Section 32-41 (Enclosure Within Buildings), outdoor eating services or #uses# occupying kiosks may serve customers in a #publicly accessible open area# through open windows.

(b) Open air cafes

Where an open air café is provided, it shall be a permanently unenclosed restaurant or eating or drinking place, permitted by applicable district regulations, which may have waiter or table service, and shall be open to the sky except that it may have umbrellas, temporary fabric roofs with no vertical supports in conformance with the Building Code, and removable heating lamps. Open air cafes shall occupy an aggregate area not more than 20 percent of the

total area of the #publicly accessible open area#. #Publicly accessible open area# less than 10 feet in width that are located between separate sections of the same open air café or between sections of an open air café and a kiosk that provides service for such café must be included in the calculation of the maximum aggregate area of the open air café. Open air cafes shall be located along the edge of the #publicly accessible open area#, except for open air cafes located within #publicly accessible open areas# greater than 30,000 square feet in area. Open air cafes may not occupy more than 1/3 of any #street# frontage in a major portion of the #publicly accessible open area# and may not contain any required circulation paths. An open air café must be accessible from all sides where there is a boundary with the remainder of the #publicly accessible open area#. Fences, planters, fabric dividers or other barriers that separate open air café areas from the #public plaza# or sidewalk are prohibited. Open air cafes shall be located at the same elevation as the adjoining #public plaza# and sidewalk areas, except for platforms that shall not exceed six inches in height. All furnishings of an open air café, including tables, chairs, bussing stations, and heating lamps, shall be completely removed from the #publicly accessible open area# when the open air café is not in active use, except that tables and chairs may remain in the #publicly accessible open area# if they are unsecured and may used by the public without restriction. No kitchen equipment shall be installed within an open air café; however, kitchen equipment may be contained in a kiosk adjoining an open air café. An open air café qualifying as a permitted obstruction shall be excluded from the definition of #floor area#.

Open air cafes must be in operation and provide service a minimum of 225 days per year.

(c) Certification

Kiosks and open air cafes that comply with the provisions of this Section may be placed within the area of a #publicly accessible open area# upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings, that:

- (1) such #use# promotes public use and enjoyment of the #publicly accessible open area#;
- (2) such #use# complements desirable #uses# in the surrounding area;
- (3) such #use# is provided in accordance with the requirements set forth in this Section;
- (4) the owners of such #use# will maintain such #use# in accordance with the provisions of Section 37-77 (Maintenance);

- (5) such #use# does not adversely impact visual and physical access to and throughout the #publicly accessible open area#;
- (6) for kiosks and open air cafés located within an existing #publicly accessible open area#, such #use# is proposed as part of a general improvement of the #publicly accessible open area# where necessary, including as much landscaping and public seating as is feasible, in accordance with the standards for #public plazas#;
- (7) a #sign# shall be provided in public view within the café area indicating the days and hours of operation of such café.

(d) Process

An application for certification shall be filed with the Chairperson of the City Planning Commission, and the Chairperson shall furnish a copy of the application for such certification to the affected Community Board at the earliest possible stage. The Chairperson will give due consideration to the Community Board's opinion as to the appropriateness of such a facility in the area and shall respond to such application for certification within 60 days of the application's receipt.

The Chairperson shall file any such certification with the City Council. The Council, within 20 days of such filing, may resolve by majority vote to review such certification. If the Council so resolves, within 50 days of the filing of the Chairperson's certification, the Council shall hold a public hearing and may approve or disapprove such certification. If, within the time periods provided for in this Section, the Council fails to act on the Chairperson's certification, the Council shall be deemed to have approved such certification.

Such certification shall be effective for a period of three years.

All applications for the placement of kiosks or open air cafes within a #publicly accessible open area# filed with the Commission shall include a detailed site plan or plans indicating compliance with the provisions of this Section including the layout and number of tables chairs, restaurant equipment, and heating lamps as well as the storage location for periods when the kiosk or open air café is closed. Where a kiosk or open air café is to be located within an existing #publicly accessible open area#, each kiosk or open air café certification application must be accompanied by a compliance report in accordance with the requirements of section 37-78(b), except that date of inspection shall be within 15 days of the date that the application is filed.

All such plans for kiosks or open air cafes, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification for the kiosk or open air café pursuant to this Section. The form and contents of the legal instrument

shall be satisfactory to the Chairperson, and the filing and recording of such instrument shall be a precondition for the placement of the kiosk or open air café within the #publicly accessible open area#.

37-74
Amenities

All #public plazas# shall provide the following amenities. All required amenities shall be considered permitted obstructions within the #public plaza#.

37-741
Seating

Standards for seating within #public plazas# are intended to facilitate the provision of abundant, comfortable, and accessible seating throughout the #public plaza#, including, more specifically, as follows:

- (a) to provide a broad variety of seating types and configurations;
- (b) to accommodate individual users engaged in solitary activities as well as groups engaged in social activities;
- (c) to provide a comfortable and safe seating surface by providing smooth, even, and level surfaces with rounded edges;
- (d) to incorporate, to the maximum extent possible, a combination of fixed benches, moveable chairs, seating with backs, seat walls and ledges, and seating steps;
- (e) to provide ample opportunity for social seating as a basic seating type that consists of seats that are placed in close proximity and at angles to one another or in facing configurations that facilitate social interaction.

There shall be a minimum of one linear foot of seating for each 30 square feet of #public plaza# area.

A minimum of one linear foot of the required seating for every two linear feet of #street# frontage must be located within 15 feet of the #street line#. At least 50 percent of this seating shall have backs and at least 50 percent of the seats with backs shall face the #street#.

Seating requirements may be satisfied by the following seating types: moveable seating, fixed individual seats, fixed benches with and without backs, and design-feature seating such as seat walls, planter ledges, or seating steps. All #public plazas# shall provide at least two different types of seating. #Public plazas# greater than 5,000 square feet in area shall provide at least three different types of seating. #Public plazas# greater than 10,000 square feet in area must provide moveable seating as one of the required seating types.

Not more than 50 percent of the linear seating capacity may be in movable seats that may be stored between the hours of sunset and sunrise, where the City Planning Commission has authorized a limitation on the hours of access pursuant to Section 37-727.

Devices or forms affixed or incorporated into planter ledges, steps, sills, or other horizontal surfaces that would otherwise be suitable for seating that are intended to prevent or inhibit seating (such as spikes, metal bars, or pointed, excessively rough, or deliberately uncomfortable materials or forms) shall be prohibited.

Deterrents to skateboards, rollerblades, and other wheeled devices are permitted on seating surfaces if they do not inhibit seating, maintain a minimum distance of five feet between deterrents, and are integrated into the seating surface at the time of manufacture or construction or should be constructed of materials that are consistent with the materials and finish quality of the seating surface.

The following standards shall be met for all required seating:

- (1) Seating shall have a minimum depth of 18 inches. Seating with 36 inches or more in depth may count towards two seats, provided there is access to both sides. When required seating is provided on a planter ledge, such ledge must have a minimum depth of 22 inches.
- (2) Seating shall have a height not less than 16 inches nor greater than 20 inches above the level of the adjacent walking surface. However, as described in paragraph (5) below, seating steps may have a height not to exceed 30 inches and seating walls may have a height not to exceed 24 inches.
- (3) At least 50 percent of the linear feet of fixed seating shall have backs at least 14 inches high. Walls located adjacent to a seating surface shall not count as seat backs. All seat backs must either be contoured in form for comfort or shall be reclined from vertical between 10 to 15 degrees.
- (4) Movable seating or chairs, excluding seating for open air cafes, may be credited as 24 inches of linear seating per chair. Moveable seating provided as a required amenity shall be provided in the amount of one chair per 200 square feet of #public plaza# area. One table shall be provided for every four such moveable chairs.

All moveable seats must have backs. Moveable chairs shall not be chained, fixed, or otherwise secured while the #public plaza# is open to the public, however moveable chairs may be removed during the nighttime hours of 9:00 pm to 7:00 am.

- (5) Seating steps and seating walls may be used for required seating if such seating does not, in aggregate, represent more than 15 percent of the linear feet of required seating in the #public plaza#. Seating steps shall not include any steps

intended for circulation and must have a height not less than 6 inches nor greater than 30 inches and a depth not less than 18 inches. Seating walls shall have a height not greater than 18 inches, however such seating walls may have a height not to exceed 24 inches if they are located within 10 feet of an edge of the #public plaza#.

- (6) Seating in open air cafes shall not count towards meeting the seating requirement of _____ this _____ Section.
- (7) Seats that face walls must be a minimum of 6 feet from such wall.

37-742

Planting and trees

All #public plazas# shall provide a minimum of four trees. For a #public plaza# greater than 6,000 square feet in area, an additional four caliper inches in additional trees or multi-stemmed equivalents must be provided for each additional 1,000 square feet of #public plaza# area, rounded to the nearest 1,000 square feet.

All #public plazas# shall also provide one of the following additional planting types: additional trees, planters, planting beds, or accessible lawns. Trees provided to satisfy this requirement shall be provided at the rate of one tree for every 2,000 square feet of #public plaza# area. Planters, planting beds, and accessible lawns provided to satisfy this requirement shall be provided at the rate of 150 square feet for every 1,000 square feet of #public plaza# area. Plantings contained in hanging containers shall not satisfy this planting requirement.

For all #public plazas#, at least 50 percent of the required #public plaza# trees shall be planted flush to grade. Trees planted flush to grade shall be surrounded by a porous surface (such as grating or open-joint paving) that allows water to penetrate into the soil for a minimum radius of two feet six inches. Such porous surface shall be of sufficient strength and density to accommodate pedestrian circulation, including all requirements related to accessibility for the disabled, and shall be of a design that allows for tree growth. Installed fixtures such as lighting stanchions, electrical outlets or conduits shall not be located within the required porous area of any tree planted flush to grade.

Where trees are planted within a #public plaza#, they shall measure at least four inches in caliper at the time of planting, unless alternative, multi-stemmed equivalents are specified in the approved planting plans. Each tree shall be planted in at least 200 cubic feet of soil with a depth of soil of at least 3 feet, 6 inches.

When planting beds are provided, they shall have a soil depth of at least eighteen inches for grass or other ground cover, three feet for shrubs and 3 feet, 6 inches for trees. No planters or planting beds shall have bounding walls that exceed 18 inches in height above any adjacent walking surfaces. Any planting bed containing required trees shall have a

continuous area of at least 75 square feet for each tree exclusive of bounding walls. Furthermore, each tree located within a planting bed shall be surrounded by a continuous permeable surface measuring at least 5 feet square. Any lawns or turf grass planting beds shall not exceed six inches above any adjacent walking surfaces.

All planted areas shall either be automatically irrigated or shall consist of species that do not require regular watering.

All planted areas located above subsurface structures such as cellars or garages shall have drainage systems to prevent collection and pooling of water within planted areas.

#Street# trees are required to be planted in the public sidewalk area adjacent to a #zoning lot# that contains bonus #floor area# for #public plazas#. At least one tree of four-inch caliper or more shall be planted for each 25 feet of the entire #street# frontage of the #zoning lot#, excluding the frontage occupied by driveways. - (4) photographs documenting the condition of the #public plaza# at the time of inspection, sufficient to indicate the presence or absence, either full or partial, of the amenities on the inventory list of amenities.

(d) Failure to Comply

Failure to comply with a condition or restriction in an authorization or certification granted pursuant to Section 37-70 or with approved plans related thereto shall constitute a violation of this Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy, or for a revocation or such authorization or certification, and for all other applicable remedies.

The #urban plaza# bonus may be increased from 6 square feet to 10 square feet of #floor area# for every one square foot of such depressed #urban plaza# area. Such stairs or escalators above the depressed level of the #urban plaza# are permissible obstructions, provided that they:~~

- ~~(a) — do not occupy in the aggregate more than 15 percent of the #urban plaza# area; and~~
- ~~(b) — are kept open to the general public during normal working hours.~~

~~Not more than 50 percent of the #urban plaza# area shall be depressed.~~

~~The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.~~

~~The Commission shall require, when appropriate, that the design of the #building# and its open areas are suitably related to #developments# existing or planned in adjacent areas.~~

74-763

Elimination or reduction in size of bonused public amenities

In all districts, the City Planning Commission may, by special permit, allow the elimination or reduction in size of any existing #plaza#, ~~#plaza# connected open area, #residential plaza#, #urban plaza#, #publicly accessible open area#, #arcade#~~ or other public amenity, open or enclosed, for which a #floor area# bonus has been utilized, provided that such reduction or elimination shall not create a #floor area# non-compliance on the #zoning lot#.

In granting such special permit, the Commission shall find that:

- (a) such elimination or reduction is adequately compensated by the substitution of another public amenity or improvement on the #zoning lot# that shall provide equal or increased public benefit; and
- (b) for #publicly accessible open areas#, any remaining bonused open area will comply to the maximum extent feasible with the standards of #urban public plazas# as set forth in Section 37-04 37-70 (Requirements for Urban Plazas PUBLIC PLAZAS).

However, the Commission may waive the provisions of paragraph (b) if it finds that such standards for #public plazas# would compromise the design integrity of the #publicly

accessible open area# or would result in the loss of significant design elements or character that are integral components of the #publicly accessible open area's# design.

The Commission may prescribe additional conditions to enhance the relationship of public open areas or other amenities and the #development# to the surrounding areas.

74-79

Transfer of Development Rights from Landmark Sites

In all districts except R1, R2, R3, R4 or R5 Districts or C1 or C2 Districts mapped within such districts, for new #developments# or #enlargements#, the City Planning Commission may permit development rights to be transferred to adjacent lots from lots occupied by landmark #buildings or other structures#, may permit the maximum permitted #floor area# on such adjacent lot to be increased on the basis of such transfer of development rights, may permit, in the case of #residential developments# or #enlargements#, the minimum required #open space# or the density requirements to be reduced on the basis of such transfer of development rights, may permit variations in the front height and setback regulations and the regulations governing the size of required loading berths, and minor variations in ~~#residential plazas# or #urban~~ public plaza#, #arcade# and #yard# regulations, for the purpose of providing a harmonious architectural relationship between the #development# or #enlargement# and the landmark #building or other structure#.

Where a #zoning lot# occupied by a landmark #building or other structure# is located in a #Residence District#, the Commission may modify the applicable regulation of primary business entrances, #show windows#, #signs# and entrances and exits to #accessory# off-street loading berths on the "adjacent lot" in a #Commercial District# provided that such modifications will not adversely affect the harmonious relationship between the #building# on the "adjacent lot" and landmark #building or other structure#.

For the purposes of this Section, the term "adjacent lot" shall mean a lot that is contiguous to the lot occupied by the landmark #building or other structure# or one that is across a #street# and opposite to the lot occupied by the landmark #building or other structure#, or, in the case of a #corner lot#, one that fronts on the same #street# intersection as the lot occupied by the landmark #building or other structure#. It shall also mean, in the case of lots located in C5-3, C5-5, C6-6, C6-7 or C6-9 Districts, a lot contiguous or one that is across a #street# and opposite to another lot or lots that except for the intervention of #streets# or #street# intersections, form a series extending to the lot occupied by the landmark #building or other structure#. All such lots shall be in the same ownership (fee ownership or ownership as defined under #zoning lot# in Section 12-10 (DEFINITIONS)).

A "landmark #building or other structure#" shall include any structure designated as a landmark by the Landmarks Preservation Commission and the Board of Estimate pursuant to Chapter 8-A of the New York City Charter and Chapter 8-A of the New York City Administrative Code, but shall not include those portions of #zoning lots# used for cemetery purposes, statues, monuments, and bridges. No transfer of development rights is

permitted pursuant to this Section from those portions of #zoning lots# used for cemetery purposes, any structures within historic districts, statues, monuments or bridges.

The grant of any special permit authorizing the transfer and use of such development rights shall be in accordance with all the regulations set forth in Sections 74-791 (Requirements for application), 74-792 (Conditions and limitations), and 74-793 (Transfer instruments and notice of restrictions).

**74-792
Conditions and limitations**

- (a) For the purposes of this Section, except in C5-3, C5-5, C6-6, C6-7 or C6-9 Districts, the basic maximum allowable #floor area# for a #zoning lot# occupied by a landmark shall be the maximum #floor area# allowed by the applicable district regulations on maximum #floor area ratio# or minimum required #open space ratio# and shall not include any additional #floor area# allowed for ~~#residential plazas# or #urban public~~ plazas#, #arcades# or any other form of bonus whether by right or special permit.
- (b) The maximum amount of #floor area# that may be transferred from any #zoning lot# occupied by a landmark building shall be computed in the following manner:
 - (1) the maximum allowable #floor area# that could be built for #buildings# other than #community facility buildings# under existing district regulations on the same #zoning lot# if it were undeveloped;
 - (2) less the total #floor area# of all #buildings# on the landmark lot;
 - (3) the figure computed from paragraphs (a) and (b) of this Section, inclusive, shall be the maximum amount that may be transferred to any one or number of adjacent lots; and
 - (4) development rights to unbuilt but allowable #floor area# may be transferred from one or any number of #zoning lots# occupied by a landmark building to one or any number of #zoning lots# adjacent to the landmark lot so as to increase the basic maximum allowable #floor area# that may be #developed# on such adjacent #zoning lots#. For each such adjacent #zoning lot#, the increase in #floor area# allowed under the provisions of this Section shall in no event exceed the basic maximum #floor area# allowable on such adjacent #zoning lot# by more than 20 percent.

- (c) When adjacent lots are located in C5-3, C5-5, C6-6, C6-7 or C6-9 Districts and are to be #developed# with #commercial buildings#, the following conditions and limitations shall apply:
- (1) the maximum amount of #floor area# that may be transferred from any #zoning lot# occupied by a landmark building shall be the maximum #floor area# allowed by Section 33-12 for #commercial buildings# on said landmark #zoning lot#, as if it were undeveloped, less the total #floor area# of all existing #buildings# on the landmark #zoning lot#;
 - (2) for each such adjacent #zoning lot#, the increase in #floor area# allowed by the transfer of development rights under this Section shall be over and above the maximum #floor area# allowed by the applicable district regulations; and
 - (3) the City Planning Commission may require, where appropriate, that the design of the #development# include provisions for public amenities such as, but not limited to, open public spaces, subsurface pedestrian passageways leading to public transportation facilities, ~~#urban~~ public plazas and #arcades#.

**74-82
Through Block Arcades**

In C4-7, C5-2, C5-3, C5-4, C5-5 and C6 Districts, the City Planning Commission may permit #through block arcades# to be located in #commercial buildings# or #mixed buildings#. For each square foot of #through block arcade# located in C4-7, C5-2, C5-4, C6-1, C6-2, C6-3, C6-4, C6-5 and C6-8 Districts, a bonus of three feet of #floor area# may be permitted and for each square foot of #through block arcade# located in C5-3, C5-5, C6-1A, C6-6, C6-7 and C6-9 Districts, a bonus of six feet of #floor area# may be permitted. #Through block arcades# may be located on a #zoning lot# in conjunction with a #plaza# #publicly accessible open area# or an #arcade# but in no event shall the total #floor area# permitted on that #zoning lot# exceed the amount set forth in Section 33-12 (Maximum Floor Area Ratio) by more than 20 percent.

**74-844
Preservation of community facility uses within certain developments containing public open areas**

- (d) the #development# provides a minimum of 25 percent of the #lot area# of the #zoning lot# as public open area at #curb level#. Where site conditions preclude open area at #curb level#, such open area shall at no point be more than 3 feet

below #curb level# or 6 feet above #curb level# of the #street# providing primary access to such area. The public open area shall be unobstructed from its lowest level to the sky except as set forth in this Section, directly accessible to the public from an adjoining #street# and, if feasible, be located on the southerly side of the #zoning lot#. Entrance to such public open area shall be clearly visible from the #street#. The said area shall be developed with lighting, landscaping including planting of shrubs and trees, pedestrian ways and seating areas in accordance with plans approved by the Commission and shall be maintained in accordance with a maintenance program approved by the Commission. Building columns or similar elements may be permitted, but the aggregate area of such elements may not exceed two percent of the total public area. Driveways, off-street parking spaces and loading berths are not permitted within the public open area.

A portion of the open area shall be developed as a park area concentrated in one location and having a minimum dimension of 45 feet and a minimum area of 4,500 square feet. The park area shall be accessible to the public from 9:00 a.m. to 9:00 p.m. each day from May 1 to September 30 and from 9:00 a.m. to 6:00 p.m. each day from October 1 to April 30, and such hours shall be posted on a sign that is plainly visible from the sidewalk adjoining the principal entrance to the park. In addition to the 4,500 square feet of park area, in meeting the 25 percent public open area requirements of this Section, the #development# may provide a non-bonusable ~~#residential~~ public plaza#, #arcade# or sidewalk continuation area; and

- (e) that any #bulk# modifications granted will result in satisfactory site planning and satisfactory urban design relationships of #buildings# within the #development# to adjacent #streets# and surrounding #developments#.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area. The #zoning lot# containing such #development# shall be subject to all the regulations applicable to a C1-9 District subject to the provisions of any special purpose district within which the #zoning lot# is located, except that the maximum permitted #floor area ratio# shall be 11.0. The #floor area# bonus provision for ~~#residential~~ public plazas# or #arcades# shall not apply. The #accessory# off-street parking requirements of Section 36-332 shall be 20 percent.

Floor area bonus for covered pedestrian space

For a #commercial# or #community facility development# or #mixed building#, for each square foot of #covered pedestrian space# provided on a #zoning lot#, the total #floor area# permitted on that #zoning lot# under the provisions of Section 33-12 (Maximum floor area ratio) may be increased as set forth in the following table:

PERMITTED ADDITIONAL FLOOR AREA
PER SQUARE FOOT OF COVERED PEDESTRIAN SPACE

Basic (in square feet)	Maximum (in square feet)	District
11	14	C5-3 C5-5 C6-6 C6-7 C6-9
8	11	C4-7 C5-2 C5-4 C6-4 C6-5 C6-8

In no event shall the resulting #floor area ratio# exceed the amount set forth in Section 33-12 by more than 20 percent. Any #floor area# bonus earned by providing a #covered pedestrian space# may be applied to increase the #residential bulk# of a #mixed building# provided the maximum #floor area ratio# for the #residential# portion does not exceed 12.0.

Any portion of the #covered pedestrian space# that is within ten feet of a #street line# or #lot line# and that is extended along such #street line# or #lot line# on either side of an entrance to it from an adjoining #street#, #arcade#, ~~#plaza#~~, ~~#residential plaza#~~, ~~#urban plaza#~~, #publicly accessible open area#, #court#, #yard# or other #covered pedestrian space#, may receive only that #floor area# bonus accorded to an #arcade#.

* * *

74-872

Design requirements for covered pedestrian spaces

In order to qualify for a #floor area# bonus, a #covered pedestrian space# shall be directly accessible to the public from the adjoining #street#, #arcade#, #through block arcade#, ~~#plaza#~~, ~~#residential plaza#~~, ~~#urban plaza#~~, #publicly accessible open area#, #court#, #yard#, #pedestrian mall# or other #covered pedestrian space# which is a part of the public pedestrian circulation system, and shall:

- (a) have an area of at least 3,000 square feet and a minimum width, at any point, of 20 feet. For spaces between 100 feet and 150 feet in length, the minimum width shall be 25 feet. For spaces longer than 150 feet, the average width shall be at least 30 feet;
- (b) have a height of at least 30 feet;
- (c) have appropriate #uses# permitted in the district, such as, but not limited to, small stores and cafes, occupying the maximum feasible frontage along those bounding walls of the #covered pedestrian space# which do not abut #lot lines#

or #street lines#. At least 50 percent of such frontage shall be developed with individual #uses# each of which has a frontage not exceeding 25 feet and the frontage of any other single #use# may not exceed 40 feet. In no event may banks, loan offices, insurance offices or similar office type #uses# occupy any portion of the frontage of the #covered pedestrian space#. Access to other #uses# within a #building# may be provided from the #covered pedestrian space# if such #uses# are not located at the same #story# as the pedestrian space;

- (d) be adequately illuminated, utilizing natural daylight wherever possible; and
- (e) be suitably maintained and kept open to the public between 7:00 a.m. and 12 midnight or on a schedule suitable to meet the public need.

Obstructions such as awnings, canopies, pedestrian bridges, escalators, stairs, balconies or other architectural elements above the floor level of the #covered pedestrian space# are prohibited unless it can be clearly demonstrated that they will enhance design or pedestrian circulation. In any event, horizontal projection of balconies into any #covered pedestrian space# shall not exceed five feet.

Planting, landscaping, ornamental fountains, statuary, outdoor furniture, kiosks, works of art, light wells and other features may be permitted in a portion of the pedestrian space, but not to the extent of impeding pedestrian movement.

Columns or similar elements may be permitted within a #covered pedestrian space#, but the aggregate area of such elements may not exceed two percent of the total pedestrian space. The clear span along the main path of pedestrian traffic shall not be less than the figure indicated for minimum dimensions of pedestrian space in paragraph (a) of this Section. However, when two or more pedestrian paths are provided, the minimum clear span widths of such paths may be reduced by five feet.

Where multiple access to the #covered pedestrian space# is provided from an #arcade#, the minimum clear spacing between columns at the face of the #building# may be reduced to 18 feet, provided the height of the #arcade# is not less than 30 feet.

A portion of the #covered pedestrian space# shall be developed as public sitting areas with appropriate facilities such as cafes or other public seating arrangements.

Entrances to lobbies may be permitted along the boundary of a #covered pedestrian space#. The #floor area# of an entrance lobby shall not be considered as part of the #covered pedestrian space#. Where a #zoning lot# is bounded by more than one #street#, or by the combination of #streets#, #plazas# #publicly accessible open area#, or other public rights-of-way, the #covered pedestrian space# will provide a connection between at least two such areas.

Modification of Urban Public Plazas**

In ~~C5-3, C5-5, C6-6, C6-7 and C6-9~~ all ~~D~~ districts and in ~~C5-4~~ Districts on #zoning lots# of more than 200,000 square feet, the City Planning Commission may permit modification of the provisions of Section ~~37-04~~ 37-70 (~~Requirements for Urban Plazas~~ PUBLIC PLAZAS) affecting the eligibility of #urban public plazas# for bonus #floor area#, provided that such modification shall not include any modification of Sections 23-15 (Maximum Floor Area Ratio in R10 Districts), ~~24-14~~ or ~~33-14~~ 33-13 (Floor Area Bonus for a ~~n~~ Urban Public Plaza).

Any modification shall be conditioned upon the Commission finding that the usefulness and attractiveness of the #urban public plaza# will be assured by the proposed layout and design and that the #development# as a whole will produce a ~~good~~ superior urban design relationship with surrounding #buildings# and #open spaces#.

The Commission may prescribe appropriate conditions and controls to enhance the relationship of such #urban plazas# to surrounding development.

Special Urban Design Guidelines – Residential Plaza Modifications**

In ~~R10, C1-9, C2-8, C4-6, C4-7, C5-1, C5-2, C5-4, C6-4, C6-5 and C6-8~~ Districts, or ~~C1 or C2~~ Districts mapped within an R10 District, the City Planning Commission may permit modifications of the provisions of Article II, Chapter 7 (Special Urban Design Guidelines – Residential Plazas and Arcades) and Section ~~37-02~~ (Applicability of Article II, Chapter 7, to Residential Plazas and Arcades), provided that such modifications shall not include any modifications of Section ~~24-14~~ (Floor Area Bonus for a Residential Plaza) for the bonus #floor area# of six square feet for each square foot of #residential plaza#. Such modifications shall be conditioned upon the Commission finding that the #residential plaza's# usefulness and attractiveness will be assured by the proposed layout and design and that the #development# as a whole will produce a superior relationship with surrounding #buildings# than that achieved through these urban design guidelines.

In ~~R10, C1-8, C1-9, C2-7 or C2-8~~ Districts, or in ~~C1 or C2~~ Districts mapped within ~~R9 or R10~~ Districts, no existing #plaza#, #plaza# connected open area, #residential plaza#, #arcade# or other public amenity, open or enclosed, for which a #floor area# bonus has been received pursuant to regulations antedating February 9, 1994, shall be eliminated or reduced in size without a corresponding reduction in the #floor area# of the #building# or the substitution of equivalent complying area for such amenity elsewhere on the #zoning lot#.

77-22
Floor Area Ratio

The maximum #floor area ratio# permitted on each portion of such #zoning lot# for the applicable type of #building# or #buildings# on such #zoning lot# shall be determined under the applicable regulations of the Chapters indicated:

District	Type of #Use#	Article	Chapter
#Residence#	#Residential#	II	3
#Residence#	#Community Facility#	II	4
#Commercial#	#Commercial#	III	3
#Commercial#	#Community Facility#	III	3
#Commercial#	#Residential#	III	4
#Commercial#	Mixed (#Residential# with #Commercial# or with #Community Facility#)	III	5
#Manufacturing#	#Manufacturing#	IV	3
#Manufacturing#	#Commercial#	IV	3
#Manufacturing#	#Community Facility#	IV	3

Each such #floor area ratio# shall be multiplied by the percentage of the #zoning lot# to which such #floor area ratio# applies. The sum of the products thus obtained shall be the adjusted maximum #floor area ratio# applicable to such #zoning lot#.

In applying this provision, the #floor area# bonus permitted for ~~#residential plazas#~~, ~~#urban plazas#~~ #publicly accessible open areas# or #arcades# under the applicable regulations of this Resolution, shall apply only to such ~~#residential plazas#~~, ~~#urban plazas#~~, #publicly accessible open area#, #arcades# or portions thereof, as are located in a district in which such bonus is granted.

* * *

77-23**Open Space Ratio**

The #open space# required for the #building# or #buildings# on such #zoning lot# shall be computed separately for each portion of the #zoning lot# under the applicable regulations of the Chapters indicated below. The total #open space# provided on the #zoning lot# shall not be less than the sum of such required #open space# so computed.

For portions of the #zoning lot# located in districts that have required #open space ratios#, the required #open space# for each such portion is computed by multiplying the #lot area# of that portion, by the maximum #floor area ratio# permitted for the applicable type of #building# or #buildings#, by the minimum #open space ratio# required at that #floor area ratio#, divided by 100.

For portions of the #zoning lot# located in districts that do not have a required #open space ratio#, no #open space# shall be required but any required #yards#, or #plaza# #publicly accessible open area# provided, for which a #floor area# or #lot area# bonus is taken, shall be in addition to the amount of #open space# required on the remaining portion of the #zoning lot#. No open area may be counted twice in fulfilling these requirements.

Article VII**Chapter 9: Special Regulations Applying to Large-Scale Community Facility Developments**

* * *

79-21 General Provisions

When a #large-scale community facility development# includes two or more #zoning lots# which are contiguous or would be contiguous but for their separation by a #street#, the City Planning Commission may, in appropriate cases, upon application, authorize the permitted #floor area#, #lot coverage#, #dwelling units# or #rooming units#, or the required #open space# for all #zoning lots# within the #development#, to be distributed without regard for #zoning lot lines#, may modify the minimum required distance between #residential buildings# as set forth in Section 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT), provided such reduction does not exceed 15 percent of that required by Section 23-71, may authorize the location of #buildings# without regard for #front yard# or height and setback regulation which would otherwise apply along portions of #streets# wholly within the #development#, and, further, may authorize the location of #community facility buildings# without regard to #side# or #rear yard# regulations which would otherwise apply along portions of #lot lines# abutting other #zoning lots# within the #development#.

As a condition of granting such authorizations, in each case the Commission shall make the following special findings:

- (a) that such distribution or location will permit better site planning and will thus benefit both the residents, occupants, or users of the #development# and the City as a whole;
- (b) that such distribution or location will not unduly increase the #bulk# of #buildings# in any #block#, to the detriment of the occupants or users of #buildings# in the #block# or nearby #blocks#; and
- (c) that such distribution or location will not affect adversely any other #zoning lots# outside the #development# by restricting access to light and air or by creating traffic congestion.

In R9, R10, C1-8, C1-9, C2-7 or C2-8 Districts, or in C1 or C2 Districts mapped within R9 or R10 Districts, #floor area# bonuses for ~~#residential~~ public plazas# or #arcades# permitted in accordance with the applicable district regulations shall apply only to a development# or #enlargement# with 25 percent or less of its total #floor area# in #residential use#.

In R9, R10, C1-8, C1-9, C2-7 or C2-8 Districts, or in C1 or C2 Districts mapped within R9 or R10 Districts, no existing ~~#plaza#, #plaza# connected open area, #residential plaza#~~ #publicly accessible open area#, #arcade# or other public amenity, open or enclosed, for which a #floor area# bonus has been received pursuant to regulations ~~antedating~~ antedating prior to February 9, 1994, shall be eliminated or reduced in size except by special permit, pursuant to Section 74-763 (Elimination or reduction in size of bonused public amenities).

* * *

**95-05
Terms and Conditions for Permitted Uses and Construction within Transit Easement Volume**

The transit easement volume shall be used as an entrance/exit for public access to the subway and/or to provide better access of light and air to the subway station mezzanine, and for related uses. Illustrative of such purposes are light wells, stairs, ramps, escalators or elevators.

No #floor area# bonus shall be allowed for any transit easement provided on a #zoning lot#. When a transit easement volume required on a #zoning lot# is located within a #building#, any floor spaces occupied by such transit easement volume shall not count as #floor area#. Any portion of the #lot area# of a #zoning lot# occupied by a transit easement and weather protected by an overhang or roofed area, shall be considered as a ~~#residential plaza# or an #urban public plaza#~~ in the districts that allow such #public plaza# bonuses.

The transit easement volume, any construction allowed therein or any weather protection provided thereon by an overhang or roofed area pursuant to Section 95-053, shall be considered permitted obstructions within required #yards#, #open space# or in a ~~#residential plaza# or #urban public plaza#~~ area.

95-051

When such entrance is not located at the #street line#, it shall be visually prominent and directly accessible from a #street# by a paved pedestrian walk at least 20 feet in width and at the same elevation as the adjoining sidewalk. In order to provide natural light to the subway mezzanine level, at least 10 percent of the transit easement area at #curb level# shall be provided with light wells and skylights.

95-052

Special access facilities for persons with disabilities

Special elevators for persons with disabilities may locate within a transit easement volume, provided stair and/or escalator access to the subway mezzanine are located within the same easement and in no event located within the public sidewalk adjacent to the #zoning lot#.

Such special elevators shall be designed by the New York City Transit Authority in consultation with the owner of the #zoning lot# and shall be integrated architecturally, including color and material, with the #development# and adjoining ~~#residential plaza# or #urban public plaza#~~ area. Design concept for such elevators shall be submitted to the City Planning Commission for certification.

Such overhang or roofed area shall cover either or both the stairway and the escalator which are uncovered at the ground level. Any overhang or roofed area shall be sufficient to cover the access facilities within the easement volume and may not otherwise obstruct the ~~#residential plaza# or #urban public plaza#~~.

Areas within the easement volume not used for circulation purposes may be developed only with newsstands, cigar stands, flower stands or similar stands, in accordance with the New York City Transit Authority specifications, provided they do not interfere with pedestrian circulation and are made of removable structures. In no event shall such permitted #uses# be located within 10 feet of a pedestrian entrance to the subway at #curb level#.

In addition, any portion of the transit easement volume at #curb level# not to be covered for weather protection, may contain trees, benches or any obstructions permitted in a ~~#residential plaza#~~ or #urban public plaza# area. GENERAL PURPOSES**

The purpose of this Chapter is to promote the development of an improved quality of residential plaza for the public.

27-01

Applicability of this Chapter

The provisions of this Chapter shall apply to all #developments# constructed after April 21, 1977 containing a #residential plaza# or an #arcade# that qualifies for a #floor area# bonus under the following provisions:

Section 24-14	(Floor Area Bonus for a Residential Plaza)
Section 24-15	(Floor Area Bonus for an Arcade)
Section 34-223	(Floor area bonus for a residential plaza)
Section 35-35	(Floor Area Bonus for a Residential Plaza, Urban Plaza or Arcade in Connection with Mixed Buildings)

A #development# that contains a #residential plaza# and that has been granted a special permit by the City Planning Commission prior to February 9, 1994, may be started or continued pursuant to that special permit. However, this Chapter shall not apply within a Special Purpose District except where permitted within such Special Purpose District, nor shall it apply to any #development# pursuant to the Quality Housing Program, except as otherwise set forth therein.

After June 12, 1996, no foundation permit shall be issued by the Department of Buildings for any #development# that includes a #residential plaza# without certification by the Chairperson of the City Planning Commission that a site plan has been submitted indicating compliance with the provisions of this Section. An application for such certification shall be filed with the Chairperson showing the plan of the #zoning lot#, a site plan indicating the area and dimensions of the proposed #residential plaza# and the location of the proposed #development# or #enlargement# and all existing #buildings# temporarily or permanently occupying the #zoning lot#, computations of proposed #floor area#, including bonus floor area#, and a detailed plan or plans demonstrating compliance with the provisions of this Section.

All plans for #residential plazas#, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification of the #residential plaza# pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the filing for or issuance of any building permit for any #development# or #enlargement# on the #zoning lot#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

27-02 Definitions

Words in italics are defined in Section 12-10 (DEFINITIONS) or, if applicable exclusively to this Section, in this Section.

Northern plaza

A "northern plaza" is a primary space that has only northern exposure.

Primary space

A "primary space" is the major portion of a #residential plaza# that abuts a #street#, and is accessible to the public for recreational use.

Residual space

A "residual space" is the remaining portion of a #residential plaza# that is not a #primary space#. Such space may be used either for public recreation or as a landscaped visual amenity.

4/21/77

**27-10
PRIMARY SPACE**

A #primary space# shall consist of at least 60 percent of the total area of a #residential plaza# and shall be directly accessible to the public from the public sidewalk.

#Zoning lots# having a maximum #lot area# of 20,000 square feet shall aggregate such #primary space# in one location.

For #zoning lots# having a #lot area# in excess of 20,000 square feet, such #primary space# may be located in more than one location on the #zoning lot# provided that the area of at least one #primary space# is not less than 4,000 square feet.

4/21/77

**27-11
Mandatory Requirements**

4/21/77

**27-111
Size and proportions**

For #zoning lots# having a #lot area# of 20,000 square feet or more, the minimum dimension of any #primary space# shall be 40 feet measured perpendicular to the perimeter of the #primary space#, except that where a #primary space# has only one #street# frontage, the minimum dimension shall be 50 feet.

For #zoning lots# having a #lot area# less than 20,000 square feet but not less than 12,500 square feet, the minimum dimension of any #primary space# shall be 30 feet, except that where a #primary space# has only one #street# frontage or where the #primary space# links two #streets# which are parallel or within 45 degrees of being parallel to each other, the minimum dimensions shall be 40 feet.

For #zoning lots# having a #lot area# less than 12,500 square feet, the minimum dimension of any #primary space# shall be 30 feet, except that there shall be no minimum dimensional requirements for #primary space# on #corner lots# having a #lot area# less than 12,500 square feet.

For the purpose of dimensional calculations only, a driveway or a vehicular accessway may be counted towards the minimum dimensional requirements of a #primary space#. However, in no case may such driveway or a vehicular accessway be bonused as part of a #residential plaza#. Such driveway or vehicular accessway may be located only alongside a #side lot line# or adjacent to the wall of the #building# of the #development#, and shall not interrupt the continuous area of the #primary space#.

For #zoning lots# having a #lot area# of 12,500 square feet or more, the depth of any #primary space# having only one #street# frontage shall not be greater than twice the width of the #primary space street# frontage. For #zoning lots# having a #lot area# less than 12,500 square feet, the depth of any #primary space# having only one #street# frontage shall not be greater than two and a half times the width of the #primary space street# frontage.

A #primary space# having only one #narrow street# frontage, and a #primary space# that links two #streets# which are parallel or within 45 degrees of being parallel to each other, shall be permitted only when one of the adjacent #buildings# on the #zoning lot# of the #development# or on a #zoning lot# sharing a common #side lot line# with the #zoning lot# of the #development# abutting the #primary space# is not more than 65 feet in height or five floors, whichever is less, before a 10 foot setback is provided. Such restrictions shall be waived for a #primary space# of more than 80 feet in width measured with or without adjoining #residual space#.

4/21/77

27-112
Orientation

All #developments# shall provide southern exposure where possible to provide maximum sunlight in #primary space#. Other exposures are permitted only when southern exposure is not possible.

Following are the types of orientation of different #primary spaces# based upon the size and location of the #zoning lot#:

- (a) Southern exposure: A #street line# of the #zoning lot# which has exposure to sunlight in any direction from south to west;
- (b) Eastern exposure: A #street line#, 125 feet or more in length, of the #zoning lot# which has exposure to sunlight in any direction from east to south;
- (c) Western exposure: A #street line#, 125 feet or more in length, of the #zoning lot# which has exposure to sunlight in any direction from west to north;
- (d) Northern exposure: A #street line# of the #zoning lot# which has exposure to sunlight in any direction from north to east or a #street line# less than 125 feet in length, of the #zoning lot# which has exposure to sunlight in any direction from east to south or west to north.

In a #development# to which this Chapter applies:

The #primary space# of any #zoning lot# having a #street line# with southern exposure, as defined in this Section, shall abut that #street line#. The #primary space# of any #zoning lot# having a #street line# with eastern, and no southern, exposure, as defined, shall abut that #street line#.

The #primary space# of any #zoning lot# having a #street line# with western, and no southern or eastern, exposure, as defined in this Section, shall abut that #street line#.

The #primary space# of any #zoning lot# having a #street line# with northern, and no southern, eastern or western exposure, as defined in this Section, shall be #developed# as a #northern plaza# pursuant to Section 27-30 (NORTHERN PLAZA).

The orientation requirements may be waived or modified by the City Planning Commission provided the Commission certifies to the Commissioner of Buildings that due to the surrounding area and the site configuration, including the disposition of surrounding #buildings# which may cast a permanent shadow on the #plaza#, a modification will enhance the usability and design of the #primary space# and of the #building#.

4/21/77

27-113
Access

All #primary spaces# shall be accessible directly from an adjoining public sidewalk along at least 50 percent of the total #street# frontage. Driveways or vehicular accessways included as part of the minimum dimension calculated, may not be counted as providing access.

All #primary spaces# shall be accessible to the public at all times, except that for a #primary space# having only one #narrow street# frontage, or a #primary space# which links two #streets# that are parallel or are within 45 degrees of being parallel, access may be restricted between the hours of 8:00 p.m. or dark whichever is later and 8:00 a.m. Such access may be restricted by the use of horizontal railings and/or vertical bars of a maximum one and ½ inch thickness and lockable gates. The railings when placed along the perimeter of the #primary space# shall occupy not more than 50 percent of the #street# frontage of the #primary space#, and shall not be higher than 8 feet, 0 inches. Gates, when placed along the perimeter of the #primary space#, when open during hours of accessibility, shall allow access along at least 50 percent of the #street# frontage of the #primary space# or 40 feet, whichever is less, and shall not be higher than eight feet. Such gates shall remain unlocked between the hours of 8:00 a.m. and 8:00 p.m. or dark whichever is later. In order to allow maximum visibility from the public sidewalk, the bars of any horizontal railing and/or vertical bars and gate shall be at least five inches apart. Spikes, pointed railings or other sharp objects shall not be placed anywhere within the #primary space#, except that such railings as permitted above may be pointed. Enclosures designed without horizontal railings and/or vertical bars may be permitted provided the City Planning Commission certifies to the Commissioner of Buildings that such design will enhance the quality and visual access of the #primary space#.

4/21/77

27-114

Access for the physically disabled

The following standards shall apply to assure access for disabled persons into and within all #primary spaces#.

There shall be at least one path of travel to major portions of #primary space# which in area total at least 60 percent of the unobstructed #primary space# area, and a path to any building lobby accessible from the #primary space#. All paths shall have a minimum width of five feet, except where specific provisions require a greater width, free and clear of all obstructions.

Ramps shall be provided alongside any stairs or steps which provide access to or within #primary spaces#. Ramps shall have a minimum width of 3 feet, 0 inches, a slope of not greater than 1:12, a non-skid surface, and, for open-edged ramps, a two inch high safety curb. At each end of a ramp there shall be a level area, which may be public sidewalk, at least five feet long.

All stairs or ramps within such paths shall provide handrails. Handrails shall be 2 feet, 8 inches high, have a midrail not lower than 16 inches and not higher than 22 inches, and shall extend at least 18 inches beyond the stair or ramp ends.

Where stairs are used to affect changes of grade for such paths they shall have closed risers, no projecting nosings, a maximum riser height of seven and ½ inches, and a minimum tread width of 11 inches.

4/21/77

**27-115
Elevation**

All #primary spaces# shall be located at an elevation not more than three feet above or below the #curb level# of the nearest adjoining sidewalk.

A #primary space# fronting on one #street#, or a #primary space# which links two #streets# which are parallel or within 45 degrees of being parallel to each other, shall be at the same elevation as the adjoining public sidewalk along the #street# frontage providing access, pursuant to Section 27-113 (Access), for a minimum depth of 10 feet measured perpendicular to the #street line#.

When the size of a #primary space# is 8,000 square feet or more, a maximum of 25 percent of its area may be located at an elevation more than three feet above or below the nearest adjoining sidewalk, which area however may not be located within a depth of 10 feet from the sidewalk, measured perpendicular to the #street line#.

When there is a grade change of at least three feet in 100 along the portion of #street# upon which a #primary space# of 4,000 square feet or more fronts, for a distance of at least 100 feet, the level of such #primary space# may be located at an elevation greater than three feet above or below the #curb level#, provided the City Planning Commission certifies to the Commissioner of Buildings that such elevation will enhance the usability and design while maintaining safety and visibility of the #primary space#.

Where an existing subway station entry is located on the sidewalk area abutting a #primary space#, the #primary space# shall be developed at the same elevation as the adjoining sidewalk for a distance of at least 15 feet in all directions from the entry. No obstruction shall be permitted within such portion of the #primary space#.

4/21/77

**27-116
Treatment of adjoining walls**

Any exposed blank walls of a #building# which is located at the #lot line# of an adjacent #zoning lot# and which abuts a #primary space# shall be:

- (a) covered with vines or similar planting; or
- (b) contain artwork or be treated so as to enhance the visual quality of the #primary space#.

Plants shall be planted in soil having a depth of not less than two feet, six inches, and a minimum width of 24 inches. If artwork is being used, approval by the New York City Art Commission shall be obtained prior to the Certificate of Occupancy being issued for the #development#.

Whenever an adjoining wall, which is required to be treated in accordance with the provisions of this Section, is in separate ownership the owner of such adjoining wall if it is a party wall shall grant to the party required to treat the wall adjoining the #primary space#, a license to perform such treatment of the wall, however, the owner may in granting such license reserve the right to perform any work necessary for safety or maintenance of the wall.

4/21/77

**27-117
Lighting**

All #primary spaces# shall be illuminated at an overall minimum average level of not less than two horizontal foot candles during the hours of darkness.

To minimize the adverse effect on the surrounding #residential buildings#, such lighting shall be shielded.

4/21/77

**27-118

A plaque or other permanent sign shall be displayed on all #residential plazas# in a prominent location, visible from the adjacent public sidewalk.

Such plaque or permanent sign shall have a surface area of not less than three nor more than six square feet, and shall contain the following statement: "This Plaza is open to the Public." It shall also contain the International Symbol of Access, the statement: "This plaza is accessible to the physically disabled," and the following information:

Performance Bonds

Prior to obtaining any certificate of occupancy from the Department of Buildings, the building owner shall post to the Comptroller of the City of New York, a performance bond, City securities or fixed income securities, at the Comptroller's discretion, to insure the mandatory tree planting, movable seating, bicycle parking facilities, drinking fountain, plaque, and the litter-free maintenance of the #residential plaza#, including the replacement of such trees, bicycle parking facilities and plaques and movable seating during the life of the #development#.

The value of the bond, City securities or fixed income securities, if rendered prior to January 1, 1980, shall be at a rate of \$400 per required tree, \$100 per movable chair, and \$100 per 1,000 square feet of #residential plaza# for litter removal as set forth in this Section.

In the event that the Department of City Planning receives a complaint, the Chairperson of the City Planning Commission shall investigate and make a determination whether there has been a failure in the required performance of the owner concerning the #residential plaza#, its amenities or maintenance. In the event of a failure in the required performance, the Chairperson shall notify the building owner in writing and shall stipulate the period of time in which the building owner has to correct the failure.

If the failure is not corrected in the stipulated time, the Chairperson may declare the building owner in default of the required performance, and the City may enforce the obligation by whatever means may be appropriate to the situation, including letting contracts for doing any required planting, installation or maintenance and paying all labor, material and other costs connected with such work from the bond, City securities or fixed income securities that the building owner is required to post.

In the event that the City enforces the aforesaid obligation as provided for in this Section, the building owner shall, within 90 days of such enforcement, provide the City with an additional bond, City securities or fixed income securities in an amount not less than that which was expended to cure the default. In the event of a failure in furnishing additional bond or securities to replace the bond used up, the City may enforce the obligation by whatever means may be appropriate to the situation.

At five year intervals, after January 1, 1980, the City Planning Commission, with the approval of the City Council, shall establish new rates for the mandatory tree planting, movable seating and other amenities and litter-free maintenance of the #residential plaza#.

PLAZA STANDARDS

6/12/96

**27-50
PLAZA STANDARDS OF 1961**

A "plaza" shall be accessible to the public at all times, except as provided for in Section 37-06 (Nighttime Closing of Existing Public Open Areas), and shall be either:

- (a) along a #front lot line#, a continuous open area not less than 10 feet deep (measured perpendicular to the #front lot line#), with an area of not less than 750 square feet, and extending for its entire depth along the full length of such #front lot line# or for a distance of at least 50 feet thereof, whichever is the lesser distance;
- (b) on a #through lot#, a continuous open area extending from #street# to #street# and not less than 40 feet in width, measured perpendicular to the nearest #side lot line#;
- (c) on a #corner lot#, an open area of not less than 500 square feet, that is bounded on two sides by the two intersecting #street lines# and has a minimum dimension of 10 feet; or
- (d) an open area of not less than 8,000 square feet, with a minimum dimension of 80 feet, that is bounded on one side by a #front lot line# or is connected to the #street# by means of an #arcade# or by an open area not less than 40 feet wide.

Except for an open area as set forth in paragraph (d) of this Section, no portion of such an open area that is bounded on all sides, except for one opening, by either building walls, or building walls and a #side lot line#, shall be considered part of the #plaza#, unless the opening of such portion is at least 50 feet in width.

A #plaza# shall not at any point be more than five feet above, nor more than 12 feet below, the #curb level# of the nearest adjoining #street#, and shall be unobstructed from its lowest level to the sky, except that arbors or trellises, awnings or canopies, railings not less than 50 percent open and not exceeding 3 feet, 8 inches in height, flag poles, open terraces or porches, steps, subway station entrances, ornamental fountains or statuary, or unenclosed balconies subject to the provisions of Section 23-13 or 24-165 (Balconies in R3 through R10 Districts), shall be considered permitted obstructions in #plazas#.

URBAN PLAZA STANDARDS

4/25/01

**37-04
Requirements for Urban Plazas**

All #urban plazas# shall comply with the provisions of this Section. These provisions may be modified pursuant to Sections 74-91 (Modification of Urban Plazas) and 81-23 (Floor Area Bonus for Urban Plazas).

(a) Area dimensions

An #urban plaza# shall contain an area of not less than 1,600 square feet. In no case may spaces between existing #buildings# remaining on the #zoning lot# qualify as #urban plazas#. In addition, in order to preserve the provisions relating to the boundaries, proportions and obstructions of #urban plazas#, on any one #zoning lot#, an open area which does not qualify for bonus #floor area# may not be located between two #urban plazas#, or between an #urban plaza# and a building wall or #arcade# of the #development#.

(b) Locational restrictions

In other than C5-5 or C6-9 Districts, no #urban plaza#, or portion thereof, is permitted to occupy more than 33 percent of the frontage of the #zoning lot#, or portion thereof, within 175 feet of an existing #plaza#, #urban plaza#, #public park# or urban park that occupies more than 33 percent of its #block# frontage on the same or opposite side of the same #street# and has a depth of at least 12 feet. The distance of 175 feet shall be measured along the #street# on which the existing amenity fronts.

(c) Restrictions on orientation

In other than C5-5 or C6-9 Districts, the following restrictions shall apply to all #urban plazas#:

For purposes of the orientation requirements, a "north-facing," "south-facing," "east-facing" or "west-facing" #street line# means a #street line# facing within 27 degrees of the direction indicated. "To front on a #street#" means to be contiguous to the #street line# or to a sidewalk widening along the #street line#.

- (1) Where the major portion of an #urban plaza# fronts on only one #street line#, such major portion is not permitted to front on a north-facing #street line# of a #zoning lot#.
- (2) No major portion of an #urban plaza# shall only front on a west-facing #street line# or an east-facing #street line# if the #zoning lot# also has frontage that is 40 feet or more in length on a south-facing #street line#.
- (3) An #urban plaza# that is located on an intersection of two #streets# must have its major portion, as defined in paragraph (d)(2) of this Section, front on the south-facing #street line#. In the case of a #zoning lot# having frontage on a south-facing #street line# of less than 40 feet, or having its frontage at the intersection of a north-facing #street line#

with either an east- or west-facing #street line#, the major portion must front on the east- or west-facing #street line#.

(d) Requirements for major portions of #urban plazas#

- (1) All contiguous #urban plaza# areas on a #zoning lot# shall be considered as one #urban plaza#.
- (2) The shape and dimensions of an #urban plaza# shall be such that for a major portion of the #urban plaza#, comprising at least the percentage of total area specified herein, all points within such major portion shall be visible from all other points therein. For the purposes of this regulation, points that when viewed in plan may be joined by a straight line shall be considered visible one from the other; visibility between points shall not be affected by permitted obstructions or by changes of grade.

The major portion of an #urban plaza# shall be at least 70 percent of the #urban plaza's# total area, except that in the case of a through #block urban plaza# as defined in paragraph (e) of this Section, the major portion shall be at least 50 percent of such #urban plaza's# total area. The major portion of the #urban plaza# shall be subject to the proportional requirements set forth in paragraphs (d)(4) and (d)(5) of this Section.

- (3) The major portion of an #urban plaza# shall have a minimum dimension of 40 feet. The remaining portion of such #urban plaza# shall have a minimum dimension of 20 feet. Dimensions shall be measured parallel and perpendicular to the #street line# on which the #urban plaza# fronts.
- (4) For major portions of #urban plazas# with frontage on two or more intersecting #streets#, the length of the frontage along any one #street# shall not be greater than three times the average depth of the #urban plaza# measured perpendicular to the #street line# of said #street# from the building wall that faces it.
- (5) For major portions of #urban plazas# with frontage on only one #street#, at no point shall the depth from the building wall or rear #lot line# that faces the #street# to the #street line# be less than one-third nor more than three times the length of the frontage of the major portion along such #street line#.

(e) Regulations for through #block urban plazas#

Where an #urban plaza# or portion of an #urban plaza# extends through the #block# connecting two #streets# that are parallel or within 45 degrees of being

parallel to each other, and any building wall or walls adjoin such through #block urban plaza# or through #block# portion of an #urban plaza#, no more than 120 feet aggregate length of such walls within 50 feet of the opposite side of the through #block urban plaza# shall exceed 90 feet in height from the surface of the #urban plaza#. In addition to the 20 feet minimum width requirement described in paragraph (d)(3) of this Section, such a through #block urban plaza# shall maintain a straight path at least 15 feet in width, free of any obstructions from #street line# to #street line#.

(f) Circulation and access

(1) To facilitate access to an #urban plaza#, within 10 feet of a #street line# or sidewalk widening, along at least 50 percent of each #street# frontage of the major portion and the entire #street# frontage of the remaining portion of an #urban plaza#, the surface of the #urban plaza# shall be at the same elevation as the adjoining public sidewalk. Along at least 50 percent of each #street# frontage of the major portion and at least 50 percent of each #street# frontage of the remaining portion of an #urban plaza#, for a depth of at least 20 feet from the #street line#, there shall be no obstruction to public access to the #urban plaza# from a sidewalk or sidewalk widening. For the remaining 50 percent of the frontage and within 20 feet of the #street line#, no walls or other obstructions shall be higher than three feet above the #curb level# of the #street line# in front of the #urban plaza#. However, the City Planning Commission may permit, by authorization, certain obstructions such as light stanchions, flag poles, trash receptacles, public space signage or other features to be located in the #urban plaza# within 20 feet of the #street line#, provided that the Commission finds that:

- (i) such obstructions are desirable or necessary features for the public enjoyment of the #urban plaza#; and
- (ii) sufficient public access additional to the minimum required under the provisions of this paragraph (Circulation and access) is provided to offset any adverse impact on public circulation or access caused by the obstructions or features permitted by such authorization.

The Commission shall furnish a copy of the application for such authorization to the affected Community Board and the local Council Member at the earliest possible stage and will give due consideration to their opinions as to the appropriateness of such obstructions. If the Community Board or local Council Member elects to comment on such application, it must be done within 45 days of such application.

- (2) The level of an #urban plaza# shall not at any point be more than three feet above or below the #curb level# of the nearest adjoining #street# in front of the major portion of the #urban plaza#; however, an #urban plaza# with an area of 10,000 square feet or more may additionally have a maximum of 15 percent of its area at an elevation more than three feet above or below, but not more than five feet above or below #curb level# of the nearest adjoining #street# in front of the major portion of the #urban plaza#.
- (3) Where there is a grade change of at least 2.25 feet in 100 feet along a portion of a #street# fronted upon, for a distance of at least 75 feet, by an #urban plaza# with an area of 10,000 square feet or more, the level of such #urban plaza# may be at any elevation that is not more than five feet above or below the #curb level# of the nearest adjoining #street# in front of the #urban plaza#. Along the length of frontage not required for access, no wall higher than three feet above the level of the adjoining sidewalk may be constructed.
- (4) For areas of #urban plazas# not obstructed by permitted obstructions as set forth in paragraph (f)(1) of this Section, a circulation path shall be provided of at least five feet clear width. A major public path at least eight feet in width shall extend to at least 75 percent of the depth of the major portion of the #urban plaza#, measured from the #street line#.
- (5) Where an entry to a subway station exists in the sidewalk area of a #street# on which an #urban plaza# fronts and such entry is not replaced within the #urban plaza# itself, the #urban plaza# shall be #developed# at the same elevation as the adjacent sidewalk for a distance of at least 15 feet in all directions from the entry superstructure. Such #urban plaza# area around a subway entry shall be free of all obstructions.
- (6) Where an entry to a subway station is provided within the #urban plaza# itself, stairs shall have a minimum width of 10 feet.
- (7) All #urban plazas# shall be accessible to the public at all times, except where the City Planning Commission has authorized a nighttime closing in accordance with Section 37-06 or, within C6-4X Districts, for a #development# or #enlargement# with more than 25 percent of its total #floor area# occupied by #residential use#, where the Chairperson of the City Planning Commission certifies to the Commissioner of Buildings that:
 - (i) the enclosure or barrier that limits public access shall not obstruct access to the #urban plaza# or impede pedestrian circulation into, through or along the frontage of the #urban plaza# during hours of public access, and shall allow

visibility of the #urban plaza# when the enclosure or barrier is in closed position;

- (ii) public access to the #urban plaza# will be provided, at a minimum, between the hours of 7:00 a.m. and 8:30 p.m. from May 1 to September 30 and from 7:00 a.m. to 7:00 p.m. from October 1 to April 30, and that the hours of public access to the #urban plaza# shall be prominently displayed on a plaque affixed to the enclosure or barrier at each #street# frontage of the #urban plaza#; and
- (iii) the #urban plaza# shall be illuminated at night in accordance with paragraph (n) of this Section.

All applications for such certification shall include detailed plans demonstrating compliance with the provisions of this paragraph, (f)(7), inclusive. The plans shall include, but not necessarily be limited to, a site plan and elevation showing location and dimensions of the proposed gates, fences or other enclosure devices, and signage indicating hours of public access to the #urban plaza#. All such plans, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of certification pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the restricted hours of public access of an #urban plaza#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot#, issued after the recording date.

(g) Permitted obstructions

- (1) #Urban plazas# shall be unobstructed from their lowest level to the sky except for the following features, equipment and appurtenances normally found in #public parks# and playgrounds: fountains and reflecting pools; waterfalls; sculptures and other works of art; benches; seats; trees planted at grade or in planting beds; bushes and flowers in planters or in planting beds; arbors or trellises over public seating areas; litter receptacles; bicycle racks; outdoor furniture; lights and lighting stanchions; flag poles; public telephones; public toilets; temporary exhibitions; awnings or canopies over the entrances to retail stores fronting on the #urban plaza#; bollards; subway station entrances, which may include escalators; and drinking fountains. If drinking fountains are provided, at least one fountain shall be accessible to wheelchair users by being 30 inches high, hand-and-foot operated, and display the International Symbol of Access. In addition to the obstructions listed in this paragraph, #urban plazas# having an area of 10,000 square feet or more may include an open air amphitheater or an

outdoor ice skating rink. However, an area occupied in aggregate by such permitted obstruction shall not exceed the maximum percentage cited in paragraph (g)(2) of this Section.

- (2) Permitted obstructions may occupy a maximum percentage of the area of an #urban plaza#, as follows:

For #urban plazas# less than 5,000 square feet in area: 38 percent

For #urban plazas# at least 5,000 square feet in area and less than 10,000 square feet in area: 40 percent

For #urban plazas# 10,000 square feet or more in area: 50 percent

The area of permitted obstructions shall be measured by outside dimensions. Obstructions that are non-permanent or movable, such as movable chairs, open air cafes, or temporary exhibitions shall be confined within gross areas designated on the site plan, and not measured as individual pieces of furniture.

Trees do not count as obstructions for the purpose of calculating total area occupied by permitted obstructions. Planting beds and their retaining walls for trees count as obstructions.

- (3) Kiosks and open air cafes may be placed within an #urban plaza# upon certification, pursuant to paragraphs (g)(5) and (g)(6) of this Section. Such features shall be treated as permitted obstructions for the purposes of paragraph (g).

Where a kiosk is provided, it shall be a one-story structure, predominantly of light-colored materials, such as metal, glass, plastic or fabric as approved by the Department of Buildings in conformance with the Building Code, that, including roofed areas, does not occupy an area in excess of 150 square feet, except that where the #urban plaza# has an area of less than 5,000 square feet, the aggregate area of the kiosks shall not exceed 100 square feet measured by exterior dimensions. The aggregate area occupied by kiosks in an #urban plaza# larger than 5,000 square feet shall not exceed 150 square feet or 1.5 percent of the total area of the #urban plaza#, whichever is greater, provided no one kiosk occupies an area of more than 150 square feet. A kiosk may be freestanding or may be attached on only one side to a wall of the #building# of the #development# or a #building# on the adjacent #zoning lot#. Any area occupied by a kiosk shall be excluded from the definition of #floor area#, and may be occupied by #uses#

such as news or magazine stands, candy stands, flower stands or information booths.

Where an open air café is provided, it shall occupy an aggregate area not more than 20 percent of the total area of the #urban plaza#. It shall be a permanently unenclosed restaurant or eating or drinking place, permitted by applicable district regulations, which may have waiter or table service, and shall be open to the sky except that it may have a temporary fabric roof in conformance with the Building Code. An open air café must be accessible from all sides where there is a boundary with the remainder of the #urban plaza#. No kitchen equipment shall be installed within an open air café; however, kitchen equipment may be contained in a kiosk adjoining an open air café. An open air café qualifying as a permitted obstruction shall be excluded from the definition of #floor area#.

Notwithstanding the provisions of Section 32-41 (Enclosure Within Buildings), outdoor eating services or #uses# occupying kiosks may serve customers in an #urban plaza# through open windows. In all cases, only #uses# permitted by the applicable district regulations may occupy #urban plazas# or front on #urban plazas#.

- (4) Open air amphitheatres and open air ice skating rinks that charge admission may be placed within an #urban plaza# upon certification pursuant to paragraphs (g)(5) and (g)(6) of this Section. Such features shall be treated as permitted obstructions for the purposes of this paragraph (Permitted obstructions).
- (5) Kiosks and open air cafes that comply with the provisions of paragraph (g)(3) of this Section, and open air amphitheatres or open air ice skating rinks that charge admission may be placed within the area of an #urban plaza# upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings, that:
 - (i) such #use# promotes public use and enjoyment of the #urban plaza#;
 - (ii) such #use# complements and stabilizes desirable #uses# in the surrounding area;
 - (iii) such #use# is provided in accordance with the requirements set forth in this Section; and
 - (iv) the owners of such #use# will maintain such #use# in accordance with the provisions of paragraph (q) (Maintenance) of this Section.

All applications for the placement of kiosks, open air cafes, open air amphitheaters or open air ice skating rinks that charge admission within an #urban plaza# filed with the Commission shall include a detailed site plan or plans indicating compliance with the provisions of this Section. All such plans for kiosks, open air cafes, open air amphitheaters or open air ice skating rinks that charge admission, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification for the kiosk, open air café, open air amphitheater or open air ice skating rink that charges admission, pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the placement of the kiosk, open air café, open air amphitheater or open air ice skating rink that charges admission within the #urban plaza#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

- (6) An application for certification shall be filed with the Chairperson of the City Planning Commission, and the Chairperson shall furnish a copy of the application for such certification to the affected Community Board at the earliest possible stage. The Chairperson will give due consideration to the Community Board's opinion as to the appropriateness of such a facility in the area and shall respond to such application for certification within 60 days of the application's receipt.

The Chairperson shall file any such certification with the City Council. The Council, within 20 days of such filing, may resolve by majority vote to review such certification. If the Council so resolves, within 50 days of the filing of the Chairperson's certification, the Council shall hold a public hearing and may approve or disapprove such certification. If, within the time periods provided for in this Section, the Council fails to act on the Chairperson's certification, the Council shall be deemed to have approved such certification.

Such certification shall be effective for a period of three years but, upon application, may be renewed for a similar period by the Chairperson of the City Planning Commission.

- (h) Prohibition of driveways, parking spaces, loading berths, exhaust vents and building trash storage facilities

No driveways, parking spaces, passenger drop offs or loading berths shall be permitted within an #urban plaza#. No building trash storage facilities are permitted within an #urban plaza#, nor shall any building trash storage facility be accessed or serviced through the #urban plaza#. If parking spaces, passenger drop-offs, driveways, loading berths or building trash storage facilities are located near or adjoin an #urban plaza#, they shall be separated from it by a

building wall or planted area sufficient to visually conceal these facilities and any vehicles therein from any point in the #urban plaza#.

No exhaust vents are permitted on any #urban plaza# or on the building wall of the #development# fronting upon the #urban plaza#, except where such vents on the building wall are more than 8 feet, 6 inches above the level of the #urban plaza#.

(i) Seating

There shall be a minimum of one linear foot of seating for each 30 square feet of #urban plaza# area, except that for #urban plazas# fronting upon a #street# having a grade change of at least 2.25 feet in 100 feet or for through #block urban plazas#, there shall be a minimum of one linear foot of seating for each 40 square feet of #urban plaza# area.

Not more than 50 percent of the linear seating capacity may be in movable seats that may be stored between the hours of sunset and sunrise.

The following standards shall be met for all required seating:

- (1) Seating shall have a minimum depth of 16 inches; however, seating with backs shall have a minimum depth of 14 inches and a maximum depth of 22 inches and backs shall be at least 12 inches high. Seating 30 inches or more in depth shall count double, provided there is access to both sides.
- (2) At least 75 percent of the required seating shall have a height not less than 16 inches nor greater than 20 inches above the level of the adjacent walking surface and at least 50 percent of this seating shall have backs at least 12 inches high. Seating higher than 36 inches or lower than 12 inches above the level of the adjacent walking surface shall not count towards meeting the seating requirements.
- (3) The flat tops of walls including but not limited to those that bound planting beds, fountains and pools may be counted as seating when they conform to the dimensional standards in paragraphs (f)(1) and (f)(2) of this Section, provided that they are made of stone, concrete or similar composite material, wood or plastic with a smooth surface and rounded upper edges with a radius of at least one inch to ensure seating comfort.
- (4) Movable seating or chairs, excluding seating for open air cafes, may be credited as 18 inches of linear seating per chair.
- (5) Steps, seats in outdoor amphitheaters and seating of open air cafes do not count towards meeting the seating requirement.

- (6) Seating for any #use# within an #urban plaza# is subject to applicable articles and amendments of the New York City Building Code.
- (7) For the benefit of persons with disabilities, a minimum of five percent of the required seating shall have backs.

(j) Planting and trees

For an #urban plaza# not exceeding 2,000 square feet in area, four trees are required.

For an #urban plaza# greater than 2,000 square feet in area but not exceeding 6,000 square feet in area, one tree is required for every 600 square feet, or part thereof, of #urban plaza# area.

For an #urban plaza# greater than 6,000 square feet in area, one tree is required for every 600 square feet, or part thereof, of #urban plaza# area for the first 6,000 square feet of area and one additional tree is required for every 1,000 square feet, or part thereof, of the remaining #urban plaza# area.

For all #urban plazas#, at least 50 percent of the required plaza trees shall be planted with gratings flush to grade.

Where trees are planted within an #urban plaza#, they shall measure at least four inches in caliper at the time of planting. Each tree shall be planted in at least 200 cubic feet of soil with a depth of soil of at least 3 feet, 6 inches. Any planting bed containing required plaza trees shall have a continuous area of at least 75 square feet for each tree exclusive of bounding walls and shall have bounding walls not higher than 20 inches above the adjacent walking surface. Trees shall be planted at a maximum spacing of 25 feet within a single planting bed.

When planting beds are provided, they shall have a soil depth of at least two feet for grass or other ground cover, three feet for shrubs and 3 feet, 6 inches for trees.

#Street# trees are required to be planted in the public sidewalk area adjacent to a #zoning lot# that contains bonus #floor area# for #urban plazas#. At least one tree of four-inch caliper or more shall be planted for each 25 feet of the entire #street# frontage of the #zoning lot#, excluding the frontage occupied by driveways. The length of frontage of the #zoning lot# for the purpose of computing required #street# trees may also be reduced by 50 feet for each #street# intersection fronted by the #zoning lot#. The required trees shall be planted with gratings flush to grade in at least 200 cubic feet of soil per tree, with a depth of soil of at least 3 feet, 6 inches. Species shall be selected, located and maintained in accordance with the specifications established by the Department of Parks and the Department of Highways. If the Commissioner of Buildings

determines that the tree planting requirements of this paragraph cannot be met in part or in whole because of subsurface conditions such as the presence of a subway tunnel, the number of required #street# trees that cannot be planted as required in this paragraph shall be planted in the public sidewalk areas of #streets# on the same #block# as the #zoning lot# to which it has frontage or within the #urban plaza#.

(k) Mandatory allocation of frontages for permitted #uses#

At least 50 percent of the total frontage of building walls of the #development# fronting on an #urban plaza#, or fronting on an #arcade# adjoining an #urban plaza#, exclusive of such frontage occupied by vertical circulation elements, building lobbies and frontage used for subway access, shall be allocated for occupancy by retail or service establishments permitted by the applicable district regulations. In addition, libraries, museums and art galleries shall be permitted. All such #uses# shall be directly accessible from the major portion of the #urban plaza# or adjoining arcade.

The remaining frontage may be occupied by other #uses#, lobby entrances or vertical circulation elements, in accordance with the district regulations.

Frontage on the #urban plaza# that is occupied by a building lobby shall not exceed 75 feet or 40 percent of the total frontage of the #development's# building walls on the major portion of the #urban plaza#, whichever is less.

The building frontage on the major portion of the #urban plaza# shall be treated with clear, untinted transparent material for 50 percent of its surface area below 14 feet above the #urban plaza# level, or the ceiling level of the ground floor of the #building#, whichever is lower.

(l) Paving

The paving of the #urban plaza# shall be of non-skid durable materials that are decorative and compatible in color and pattern. The paving of the #street# sidewalk area adjacent to the #development# may be treated with design patterns and materials sympathetic to that of the paving of the #urban plaza#. Any change of paving materials within the public right-of-way shall require review by the Department of Highways and the Art Commission.

(m) Standards of accessibility for persons with disabilities to #urban plazas#

(1) There shall be at least one path of travel conforming to the standards set forth in paragraph (m)(2) of this Section, providing access to each of the following:

(i) the major portion of an #urban plaza#;

- (ii) any building lobby accessible to the #urban plaza#; and
 - (iii) any #use# that may be present on or adjacent to the #urban plaza#.
- (2) The following standards shall apply to assure access for persons with disabilities:

81-212

Special provisions for transfer of development rights from landmark sites

The provisions of Section 74-79 (Transfer of Development Rights for Landmark Sites) shall apply in the #Special Midtown District#, subject to the modification set forth in this Section and Sections 81-254, 81-266 and 81-277 pertaining to special permits for height and setback modifications, ~~and~~ Section 81-747 (Transfer of development rights from landmark theaters)- and Section 81-85 (Transfer of development rights from landmark sites within the Special Fifth Avenue Subdistrict).

The provisions of Section 74-79 pertaining to the meaning of the term “adjacent lot” in the case of lots located in C5-3, C5-5, C6-6, C6-7 or C6-9 Districts are modified to apply in the #Special Midtown District# where the “adjacent lot” is in a C5-3, C6-6, C6-7, C6-5.5, C6-6.5 or C6-7T District.

The provisions of paragraph (c) of Section 74-792 as applied in the #Special Midtown District# shall be subject to the restrictions set forth in the table in Section 81-211 on the development rights (FAR) of a landmark “granting lot” for transfer purposes.
