

# Community District 2020 Census Prisoner Adjusted LATFOR Population by 2023 Council District, New York City

## About:

As per the [City Charter](#), after City Council redistricting the Department of City Planning is responsible for determining the proportion of Community Districts' population represented by each City Council member. This proportion is based on the prisoner adjusted LATFOR population living in city council district subsections of each Community District.

For more information about how Community District population proportions have changed after the latest round of City Council redistricting, see report on [Impact of City Council Redistricting on Community Districts](#).

**Sources:** U.S. Census Bureau, 2020 Census Public Law File Prisoner Adjusted LATFOR Population

The geographic data are from the Department of City Planning's Geosupport System and the New York City Districting Commission.

Population Division - NYC Department of City Planning (August 2023)

## Technical Notes:

1. Population data for the report are from the 2020 Census PL94-171 LATFOR Prisoner Adjusted file as specified by the New York State Legislative Task Force on Demographic Research and Reapportionment.
2. Percentages may not add exactly to 100 due to rounding. In no instance, however, will percentages differ from 100 by more than one one-hundredth of a percent.
3. In a small number of instances, Councilmanic components of Community Districts have no residential population. Despite the absence of population, these Councilmanic components were included under each Community District listing in order to make the listing geographically complete.
4. Joint interest areas (e.g. parks, airports) which, by definition, are not assigned to any particular Community District are excluded from the listing.
